This training guide for a one-day workshop provides an introduction to the William D. Ford Federal Direct Loan Program for administrative personnel at higher education institutions. The seven sections of the guide, each corresponding to a single workshop session, include activity sheets, questions for participants to answer, and space for notes. Following the introductory section, Section 2 focuses on why schools participate in the Direct Loan Program. Also covered in this section are types of loans, eligibility, loan limits, interest rates, repayment plans, and the loan process. Section 3 examines how schools participate in the Direct Loan Program, and includes institutional eligibility requirements, direct loan origination options, participation considerations, and technical specifications for electronic processing. Section 4 explains how schools deliver direct loans to borrowers. Topics covered include the loan origination process, sources of data items, disclosure statements, promissory notes, drawdown requests, disbursements, and reconciliation. Section 5 is on avoiding problems, and the discussion covers data management, accuracy, consistency, timeliness, data protection, and quality assurance. Section 6 explains where schools can find help; phone numbers are provided for specific aspects of the program and by region. Section 7 wraps up the workshop and answers 10 frequently asked questions about the Direct Loan Program. (DB)
Welcome to the U.S. Department of Education's (ED's) workshop on the William D. Ford Federal Direct Loan Program. That's the program's full, official name. During the course of the day, we'll usually call it simply the Direct Loan Program or refer to "direct lending."

**PURPOSE OF THE WORKSHOP**

This workshop is for:

- people whose schools recently have joined the Direct Loan Program,
- new staff members at Direct Loan schools, or
- administrators interested in implementing Direct Loans at their schools.
The goal of this workshop is:
- to present an overview of the procedures that are involved when a school participates in the Direct Loan Program.

The key word here is "overview." Since this is a one-day workshop, we'll only be able to discuss Direct Loan Program operations in broad, general terms. But you'll be getting a lot of basic information today, plus
- we'll have a couple of interactive training activities, and
- you'll find out where you can go for more information, for program help, and to get answers to questions once you're back on campus.

What are the loan limits on Direct PLUS Loans?

- Direct PLUS Loans do not have specific annual loan limits or aggregate loan limits.

What are the loan limits on Direct Consolidation Loans?

- Direct Consolidation Loans do not have loan limits.
- The restriction is on the types of loans consolidated, not the amounts.

What is a grace period?

- A six-month period before the first payment must be made on a Direct Subsidized Loan or a Direct Unsubsidized Loan. The grace period starts the day after a borrower ceases to be enrolled in a postsecondary school program at least half time. It ends six months later, on the day before the loan repayment period starts.

What is a deferment period?

- The temporary postponement of loan payments while a borrower is engaged in certain activities. These activities are usually specified in the promissory note. Examples include at least half-time study and military service.

What is a forbearance period?

- An arrangement with the lender to postpone or reduce a borrower’s monthly payment amount for a limited and specified period, or to extend the repayment period. One reason that a borrower might ask for a forbearance is economic hardship.
What repayment plans are available?

- Direct Subsidized Loans and Direct Unsubsidized Loans
  - standard repayment plan
  - extended repayment plan
  - graduated repayment plan
  - income contingent repayment plan

OVERVIEW OF THE DIRECT LOAN PROCESS

The Direct Loan Process

on the road from origination to reconciliation...

follow me...
First, a few rules of the road...

B = Borrower
C = Central Processing System or CPS
S = School
L = Loan Origination Center or LOC
G = Grant Administration and Payment System (GAPS)
F = Federal Reserve Bank (FRB)
D = Direct Loan Servicing Center (DLSC)

A compass...

MPN = Master Promissory Note
LOR = Loan Origination Record
And, a map...

A green arrow means sending information

A blue arrow means receiving information

Now, we are ready to begin...
LOC sends LOR Acknowledgment to school.

LOC sends disclosure statement to borrower.

But wait—it’s more!

(S) or (L) sends MPN to borrower.

Borrower returns signed MPN to sender (S) or (L).

More...
If borrower sends MPN to school, the school sends MPN to LOC.

LOC returns acknowledgment to school after receiving MPN from school or borrower.

This way to disbursements!

School sends drawdown request.

Or LOC sends drawdown request.

GAPS processes drawdown requests from (S) or (L)...

...and forwards it to...

...the Federal Reserve Bank (FRB), which disburses the money to...
School sends disbursement record to LOC.

School disburses funds to borrower.

LOC returns disbursement acknowledgment to school.

DLSC sends disbursement notification to borrower.

Requires:
- accepted loan origination record
- accepted master promissory note
- accepted disbursement record

Next stop, reconciliation.
**Monthly Reconciliation**

- Direct Loan School Account Statement (DLSAS) is similar to a monthly bank statement.
- School uses DLSAS to reconcile records.
- CAMs help schools that have trouble with reconciliation.

**Year-End Closeout**

- Reconcile records (with help from CAMs)
- Ideal balance = $0 = ideal balance
HOW THE DIRECT LOAN PROGRAM BENEFITS SCHOOLS

- **Simplified Paperwork**—Borrowers use one application (the Free Application for Federal Student Aid [FAFSA]) to begin the Direct Loan process, eliminating duplicate paperwork. All loan information, except for the master promissory note, is transmitted and acknowledged electronically.

- **Streamlined Administration**—Disbursements and adjustments are processed more quickly and efficiently, particularly since there is no need to obtain lender or guaranty approvals.

- **Electronic Transfer of Funds from a Single Source**—Waiting for funds from multiple lenders is no longer necessary. The improved cash flow reduces the need for short-term, emergency student loans and allows for funds to be disbursed more efficiently.

- **Control Over the Loan Process**—Borrower questions are answered quickly and accurately. Schools are given reliable information about receiving funds and on current loan record and promissory note status.

- **Assured Access to Capital**—One single, unlimited source of capital ensures that eligible students are fully funded for the entire school year. Because the federal government provides program funds, there is no risk of loss of funds due to market conditions.

- **Autonomy and Flexibility**—Schools may begin to participate in the Direct Loan Program at any time during the year. Schools are also free to participate in both the Direct Loan Program and Federal Family Education Loan (FFEL) Program, with the understanding that no student may receive both types of loans during the same loan period.
HOW THE DIRECT LOAN PROGRAM BENEFITS STUDENTS

✦ Loans Obtained Quickly and Easily—Only one application (the Free Application for Federal Student Aid [FAFSA]) is needed to apply for a Direct Loan. Electronic data and funds transfers reduce processing time and allow for more efficient disbursal of funds. Students do not need to endorse bank checks.

✦ One Loan Holder, One Contact—The U.S. Department of Education (ED) is the only loan holder the borrower will have during the life of the loan. This gives the borrower one contact source for questions involving repayment, deferment, forbearance, consolidation, and other loan issues. Also, since only one monthly payment is made, paperwork and opportunities for confusion and error are reduced.

✦ Flexible Repayment Options—Borrowers can choose from a variety of repayment plans, including income-contingent repayment. This flexibility allows borrowers to pursue postsecondary education opportunities with minimal risk of burdensome monthly payments or the possibility of defaulting on loans.

How Schools Participate in the Direct Loan Program

DIRECT LOAN ENROLLMENT PROCEDURES

Direct Loan Institutional Eligibility Requirements

- Meet all general Title IV eligibility requirements
- Have a student loan cohort default rate of less than 25% (for at least one of the three most recent fiscal years for which data are available)
- Not be subject to an emergency action or a proposed or final limitation, suspension, or termination (LS&T) action related to Title IV financial aid programs
Direct Loan Enrollment Checklist

School begins the process

☐ To express an interest in participating, the school contacts one of the following:

☐ ED’s Direct Loan Task Force (202-708-9951),
☐ a regional Direct Loan client account manager (CAM), or
☐ the Institutional Participation and Oversight Service’s (IPOS’s) School Selection Team (202-708-6103)

☐ School then provides basic information on school letterhead:

☐ School name
☐ OPE ID number
☐ President or CEO’s name, address, telephone number, and fax number
☐ Financial aid director’s name, address, telephone number, and fax number
☐ If the school has a preferred origination option, it should state its preference

☐ The school sends it to:
  U.S. Department of Education
  School Selection/PAIB/IPOS
  ROB-3, Room 3925
  400 Maryland Avenue, SW
  Washington, DC 20202-5232

ED sends a letter that includes two copies of the Direct Loan Addendum to the school’s Program Participation Agreement (PPA) and what the school’s origination level will be

☐ School president or CEO signs and returns both copies of the addendum to the address given above

Once ED receives the signed Direct Loan Addendum, someone from IPOS countersigns, and one copy is returned to the school for its records

☐ The Direct Loan Origination Center (LOC) contacts the school to set up electronic testing and sends a testing packet

☐ School completes a Title IV WAN (ITV WAN) agreement for Direct Loans

☐ The Direct Loan branch of ED’s Accounting and Financial Management Service (AFMS) sends a letter that includes:

☐ Authorization for deposit form
☐ Direct-deposit form for new accounts established for Direct Loans only
☐ Central drawdown form

☐ The appropriate school official completes and returns the forms to:
  U.S. Department of Education
  ROB-3, Room 5125
  7th & D Streets, SW
  Washington, DC 20202-5232

A Direct Loan client account manager (CAM) sends the school a welcome package

## Footnotes

1. Required if school wants to use the EDExpress Tutorial and the AWARE software.
2. Will be necessary to access the Information for Financial Aid Professionals (IFAP) Web site and to submit the Application for Approval to Participate in Federal Student Financial Aid Programs (initial certification, recertification, reinstatement, and changes).
3. Currently, may use Internet Explorer 4.0 or 4.01 (with SPA) or Netscape Navigator 3.0 or 3.01 (domestic) to access FAFSA on the Web. ED is testing other Web browsers that will be made available to the public in the near future.
SMALL-GROUP DISCUSSION

You are a member of your school’s Direct Loan Implementation Committee. The agenda this week is to examine what’s involved in each of the three origination options. Your goal: to report to the school’s president on the benefits and drawbacks of your school participating at each of the Direct Loan origination levels.

The committee membership consists of:

- Financial aid office director
- Financial aid office associate director for systems
- Financial aid office loan counselor
- Business office associate director
- Student accounts manager
- Student accounts assistant manager
- Computer center’s programmer

Choose a spokesperson who will report to the whole group on your group’s conclusions and how you came to your conclusions.

If there are more committee members than participants:

- assume there are no-shows at the meeting and proceed accordingly.

If there are more participants than committee members:

- assume that the financial aid office, business office, and/or computer center have brought additional staff because this meeting is a particularly important one.
School Scenario #1

Big State University

Big State University (BSU) is currently an FFEL school. It is trying to decide how to implement Direct Loans. The population of BSU is 20,000. BSU is a traditional four-year school.

BSU meets all of the eligibility requirements. For example, the administrative center’s computers are all connected to a new network system, which is in compliance with all of ED’s electronic capability requirements. For this reason, BSU will implement the Direct Loan Program using its mainframe. It will not need EDExpress software.

However, the financial aid office is having staff turnover problems. The associate director is out on maternity leave; two front desk staff just quit; and the remaining staff are scheduling vacation time. The business office is in a similar situation. Both offices will be involved in administering the Direct Loan Program. The school has committed a half-time computer support technician for the implementation period.

1. What are the benefits and drawbacks of Standard Origination for BSU?

2. What are the benefits and drawbacks of Origination Option 1 for BSU?

3. What are the benefits and drawbacks of Origination Option 2 for BSU?
Bonnie's Beauty Bonanza

Bonnie’s Beauty Bonanza (BBB) wants to get into the Direct Loan Program. BBB is a 600 clock-hour school. New sessions start every three months.

The owner, Bonnie Brady, feels that Direct Loans would be better for her school. BBB only processes 15 to 30 loans each award year. As a result, she has a hard time trying to find an FFEL lender for so few loans. The majority of her students receive Federal Pell Grants only. The administrative staff consists of Bonnie and two other people, one of whom is part time.

Until recently, BBB was entirely a paper operation. BBB has stepped into the electronic age very quickly because of ED's electronic capability requirements and the fact that the Direct Loan Program is an all-electronic process. Bonnie also has hired her nephew (a computer-systems consultant) to help. BBB will definitely use EDExpress to process Direct Loans.

1. What are the benefits and drawbacks of Standard Origination for BBB?

2. What are the benefits and drawbacks of Origination Option 1 for BBB?

3. What are the benefits and drawbacks of Origination Option 2 for BBB?
School Scenario #3

City Junior Colleges

Two of the three City Junior Colleges' (CJCs') campuses are going to switch to the Direct Loan Program. The CJCs are two-year institutions that operate on a quarter system. The combined enrollment for the two campuses is 4,500. (The third school’s default rate is 31 percent.)

Some of the CJCs' financial and administrative functions are handled from the district headquarters central database. However, each campus has a separate OPE ID number, financial aid office, and cashier’s office. District headquarters provides occasional computer support. One of the campuses has frequent TIV WAN data transmission problems. The other campus has a history of significantly misestimating its immediate cash needs for Federal Pell Grant and campus-based funds.

The CJCs plan to be a combination school, that is, using both EDExpress and its mainframe, which headquarters administers, to manage the Direct Loan Program. It contracts with a computer-consulting firm for technical support on an “as needed” basis.

1. What are the benefits and drawbacks of Standard Origination for CJC?

2. What are the benefits and drawbacks of Origination Option 1 for CJC?

3. What are the benefits and drawbacks of Origination Option 2 for CJC?
School Scenario #4

The Ira Institute

The Ira Institute (II or "Double Eye") is a 600 clock-hour school. Ira and his sister, Irma, perform all of the administrative functions of the school. The enrollment is small and varies from 50 to 100 students.

Double Eye has chosen to go with the Direct Loan Program because it processes a few loans intermittently throughout the award year.

Ira and Irma do not consider themselves especially computer literate. Their small LAN meets ED's requirements.

1. What are the benefits and drawbacks of Standard Origination for Double Eye?

2. What are the benefits and drawbacks of Origination Option 1 for Double Eye?

3. What are the benefits and drawbacks of Origination Option 2 for Double Eye?

Disclosure Statements

The disclosure statement is a separate document. It provides information about:
- loan types,
- loan amounts, and
- anticipated disbursement dates.

Disclosure Statements

After the schools sends the loan origination record to the LOC:
- the LOC prints the disclosure statement and sends it to the borrower.
- ED may authorize some schools to print their own disclosure statements.
  - Interested schools should contact the Direct Loan Task Force at 202-708-9951.

**BEST COPY AVAILABLE**
Master Promissory Notes

- LOC must print and collect master promissory notes from borrowers at Standard Origination schools.
- Origination Option 1 schools and Origination Option 2 schools are authorized to print and collect their own promissory notes from borrowers—or
  - they may have the LOC do it for them.

Borrower or school return signed master promissory note to LOC

- If signed and complete, LOC:
  - accepts the master promissory note and
  - sends acknowledgment to school
Master Promissory Notes

▲ New for 1999-2000 (single-year only)
▲ Must be used for Direct Subsidized Loans and Direct Unsubsidized Loans
▲ Not available for Direct PLUS Loans
▲ Multiple-year master promissory note available beginning in 2000-01

The master promissory note is different from the previous promissory note.

- Certifications and authorization fields are now on the front page.
- School loan certification information now appears in the disclosure statement.
- Print specifications have been simplified for Origination Option 1 schools and Origination Option 2 schools that print their own notes.
An important change is that the master promissory note does not have a printed dollar amount.

No dollar amount listing is required.

Without a borrower signing a new promissory note, a school can change:

- Direct Loan amounts and
- distributions between Direct Subsidized Loans and Direct Unsubsidized Loans.

For 1999-2000, ED has two versions of the Direct Loan master promissory note.

- original version
- revised version

Difference between the two versions is Item 8.

- Item 8 deals with loan amount requested.

Schools may use either version.

Promise to Pay

I understand that multiple loans may be made to me under this Note. I understand that by accepting any disbursements issued at any time under this Note, I accept the obligation to repay the loans. I understand I may cancel or reduce the amount of any loan by refusing to accept or by returning all or a portion of any disbursement that is issued. I may pay interest that accrues on my Federal Direct Subsidized Stafford/Ford Loans during in-school, grace, and deferment periods or may allow it to accumulate and be added to the principal balance of such loans. If I fail to make any payment on any loan made under this Note when due, I will also pay reasonable collection costs, including but not limited to attorney's fees, court costs, and other fees. I will not sign this Note before reading it, including the writing on the reverse side, and if otherwise advised. I am entitled to an exact copy of this Note and the borrower's Rights and Responsibilities statement. My signature certifies I have read, understand, and agree to the terms and conditions of this Note, including the Borrower Certifications and Authorizations printed above, the Notice on the reverse side, and the accompanying Borrower's Rights and Responsibilities statement.

I UNDERSTAND THAT I MAY RECEIVE ONE OR MORE LOANS UNDER THIS MASTER PROMISSORY NOTE, AND THAT I MUST REPAY SUCH LOAN(S).
Master Promissory Note (continued)

DISCLOSURE OF LOAN TERMS

This Note applies to both Federal Direct Stafford/Ford Loans (Direct Subsidized Loans) and Federal Direct Unsubsidized Stafford/Ford Loans (Direct Unsubsidized Loans) described in the Interest section below. I agree that each loan is separately enforceable based on a true and exact copy of this Note. Loans disbursed under this Note are subject to the annual and aggregate loan limits specified in the Higher Education Act of 1965, as amended, 20 U.S.C. 1058, and applicable U.S. Department of Education (ED) regulations (collectively referred to as "the Act").

Under this Note, the principal amount that I owe, and required to repay, will be the sum of all disbursements issued (unless I reduce or cancel any disbursements as provided below).

At or before the time of the first disbursement for each loan, a disclosure statement will be issued to me identifying the amount of the loan and detailed terms of the loan. Important additional information is also disclosed in the Borrower's Rights and Responsibilities statement accompanying this Note. The Borrower's Rights and Responsibilities statement and any disclosure statement I receive in connection with any loan under this Note are hereby incorporated into this Note.

I may request additional loan funds for my educational costs (up to the annual and aggregate loan limits) from my school. If my school determines that I am eligible for any additional or adjusted loan amount, my school may certify such amount.

My eligibility for Direct Subsidized Loans and Direct Unsubsidized Loans may change based on changes in my financial circumstances. My school will notify me of any changes in my eligibility. I will be notified of changes or additions to my Direct Subsidized Loans and Direct Unsubsidized Loans in a separate disclosure statement.

LOAN CANCELLATION

I may pay back all or a portion of a disbursement within 12 months of the last day of the school term or if the school term is extended, within 12 months after the term. I may pay the loan amount in full or in part, and the payment will be credited to the applicable loan amounts in proportion to the amount of the disbursement returned. I will not incur interest charges if I return the full loan amount as provided in the Act.

INTEREST

Unless ED notifies me in writing of a lower rate(s), the rate(s) of interest for my loans are those specified in the Act. The rate is presented in the Borrower's Rights and Responsibilities statement accompanying this Note or in another disclosure that is issued to me.

Interest accrues on the unpaid principal balance of each loan from the date of disbursement until the loan is paid in full. I agree to pay all interest charges on my Direct Subsidized Loans. I agree to pay all interest charges on my Direct Unsubsidized Loans. If I fail to make required payments of interest before the beginning or resumption of principal repayment, or if I am found in default or foreclosure, I agree that ED may capitalize such interest, as provided under the Act. There is no federal interest subsidy on unsubsidized loans, so the total amount of interest I am required to repay on unsubsidized loans will be higher than on subsidized loans.

LOAN FEE

A loan fee is charged for each Direct Subsidized Loan and Direct Unsubsidized Loan equal to the amount required by the Act. I will pay such fee as identified in the disclosure statement and any disclosure statement I receive in connection with any loan under this Note. The loan fee will not be refundable only to the extent permitted by the Act.

LATE CHARGES AND COLLECTION COSTS

ED may collect from me: (i) a late charge for each late installment payment if I fail to make any part of a required installment payment within 30 days after it becomes due, and (ii) any other charges and fees that are permitted by the Act for the collection of my loans. If I default on any loans, I shall pay reasonable collection fees, costs, plus court costs and attorney fees.

REPAYMENT

I am required to repay the full amount of the loans made under this Note and accreted interest. Direct Subsidized and Unsubsidized Loans have a repayment grace period of six months. I will repay the principal of my loans in periodic installment payments during repayment periods that begin on the day immediately following the end of the applicable grace period. Payments submitted by me or on my behalf (exclusive of refunds) will be applied first to charges and collection costs that are due, then to accrued interest that has not been capitalized, and finally to the principal amount. I understand that the School's collection of my loan eligibility determines whether my loans must be regarded as subsidized and/or unsubsidized Direct Loans.

The Direct Loan Servicing Center will provide me with a repayment schedule that identifies my payment amounts and due dates. Direct Loan repayment information is covered in the Borrower's Rights and Responsibilities statement.

If I am unable to make scheduled loan payments, ED may allow me to reduce my payment amount to the extent the time for making payments, or to temporarily stop making payments as long as I inform ED to my loan. Allowing me to temporarily delay or reduce loan payments is called forbearance.

I agree that ED may adjust payment dates on my loans or may grant me forbearance to eliminate a delinquency that persists even though I am making scheduled installment payments.

I may prepay all or any part of the unpaid balance on my loans at any time without penalty. If I do not specify which loans I am prepaying, ED will determine how to apply the prepayment in accordance with the Act. Upon repayment in full of each loan under this Note, I accept to accept written notification of such loan payoff in place of receiving the original Note.

ACCELERATION AND DEFAULT

At the option of ED, the entire unpaid balance of the applicable loans shall become immediately due and payable upon the occurrence of any one of the following events: (i) I fail to enroll as at least a half-time student at the School that certified my loan eligibility, (ii) I fail to use the proceeds of the loans solely for educational expenses, (iii) I make a false representation(s) that results in my receiving any loans for which I am not eligible, or (iv) I default on the loans.

The following events shall constitute a default on my loans: (i) I fail to pay the entire unpaid balance of the applicable loans after ED has exercised its option under items (ii), (iii), and (iv) in the preceding paragraph; (ii) I fail to make installment payments when due; provided my failure has persisted for at least 270 days; or (iii) I fail to comply with other terms of the loan, and ED reasonably concludes I no longer intend to honor my repayment obligation. If I default, ED may capitalize all the outstanding interest into a new principal balance, and collection costs will become immediately due and payable.

If I default, the default will be reported to all national credit bureaus of organizations and will significantly and adversely affect my credit history. I acknowledge that a default shall have additional legal consequences to me as determined by the Borrower's Rights and Responsibilities statement. Following default, the loans may be subject to income-contingent repayment (including potential collection of amounts in excess of the principal and interest) in accordance with the Act.

GOVERNING LAW AND NOTICES

The terms of this Note will be interpreted in accordance with the Higher Education Act of 1965, as amended (20 U.S.C. 1010 et seq.), and other applicable federal statutes and regulations.

Any notice required to be given to me will be effective if mailed by first class mail to the latest address ED has for me. I will immediately notify ED of a change of address or status as specified in the Borrower's Rights and Responsibilities Statement.

Failure by ED to enforce or insist on compliance with any term on this Note shall not be a waiver of any right of ED. No provision of this Note may be modified or waived except in writing. If any provision of this Note is determined to be unenforceable, the remaining provisions shall remain in force.

Notice: Applicable to Loans Received After the Initial Enrollment Period

This Master Promissory Note authorizes ED to disburse multiple loans during the multiyear term of this Note upon my request and upon the School's certification of my loan eligibility.

Subsequent loans may be made under this Note for subsequent periods of enrollment at least year or graduate school, or other schools, as designated by the Secretary of the U.S. Department of Education. I agree that no subsequent loans will be made under this Note after the earlier of the following dates: (i) the date ED receives my written notice that no further loans may be disburse under the Note; (ii) one year after the date of my first anticipated disbursement on this Note if no disbursement is made during such twelve-month period; or (iii) ten years after the date of the first anticipated disbursement made under this Note.

Any amendment to the Act governs the terms of any loans disbursed on or after the effective date of such amendment, and such amended terms are hereby incorporated into this Master Promissory Note.

**Additional Note Provisions follow**
DISCLOSURE OF LOAN TERMS

This Note applies to both Federal Direct Stafford/Ford Loans (Direct Subsidized Loans) and Federal Direct Unsubsidized Stafford/Ford Loans (Direct Unsubsidized Loans) described in the Interest section below. I agree that each loan is separately enforceable based on a true and correct copy of this Note. Loans disbursed under this Note are subject to the annual and aggregate loan limits specified in the Higher Education Act of 1965, as amended, 20 U.S.C. 1070, et seq., and applicable U.S. Department of Education (ED) regulations (collectively referred to as the "Act").

Under this Note, the principal amount that I owe is required to be repaid will be the sum of all disbursements issued on or before I reduce or cancel any disbursements as provided below.

As or before the time of the first disbursement for each loan, a disclosure statement will be issued to me identifying the amount of the loan and additional terms of the loan. Important additional information is also disclosed in the Borrower's Rights and Responsibilities statement accompanying this Note. The Borrower's Rights and Responsibilities statement and any disclosure statement I receive in connection with any loan under this Note are hereby incorporated into this Note.

I may request additional loan funds for my educational costs (up to the annual and aggregate loan limits) from my school. If my school determines that I am eligible for any additional or adjusted loan amount my school may certify such amount.

My eligibility for Direct Subsidized Loans and Direct Unsubsidized Loans may change based on changes in my financial circumstances. My school will notify me of any changes in my eligibility. I will be notified of changes or additions to my Direct Subsidized Loans and Direct Unsubsidized Loans in a separate disclosure statement.

LOAN CANCELLATION

I may pay back all or a portion of a disbursement within time frames set by the Act and identified in the Borrower's Rights and Responsibilities statement or other disclosure statement I receive at or before disbursement. In such case, the loan fee will be reduced or eliminated in proportion to the amount of the disbursement returned. I will not accrue interest charges if I return the full loan amount as provided in the Act.

INTEREST

Unless ED notifies me in writing of a lower rate(s), the rate(s) of interest for my loans are those specified in the Act. The rate is presented in the Borrower's Rights and Responsibilities statement accompanying this Note or in another disclosure that is issued to me.

Interest accrues on the unpaid principal balance of each loan from the date of disbursement until the loan is paid in full. I agree to pay all interest charges on my Direct Subsidized Loans. I agree to pay all interest charges on my Direct Unsubsidized Loans. If I fail to make required payments of interest before the beginning or resumption of principal repayment, or during a period of deferment or forbearance, I agree that ED may capitalize such interest, as provided under the Act. There is no federal interest subsidy on unsubsidized loans, so the total amount of interest I am required to repay on unsubsidized loans will be higher than on subsidized loans.

ACCELERATION AND DEFAULT

At the option of ED, the entire unpaid balance of the applicable loans shall become immediately due and payable upon the occurrence of any of the following events: (i) I fail to enroll as at least a half-time student at the School that certified my loan eligibility; (ii) I fail to use the proceeds of the loans solely for educational expenses; (iii) I make a false representation(s) that results in my receiving any loans for which I am not eligible; or (iv) I default on the loans.

The following events shall constitute a default on my loans: (i) I fail to pay the entire unpaid balance of the applicable loans after ED has exercised its option under terms (i), (ii), and (iii) in the preceding paragraph; (ii) I fail to make installment payments when due; provided my failure has persisted for at least 270 days, or (iii) I fail to comply with other terms of the loans, and ED reasonably concludes I no longer intend to honor my repayment obligation. If I default, ED may capitalize all the outstanding interest into a new principal balance, and collection fees will become immediately due and payable.

If I default, the default will be reported to all national credit bureau organizations and will significantly and adversely affect my credit history. I acknowledge that a default shall have additional adverse consequences to me as disclosed in the Borrower's Rights and Responsibilities statement. Following default, the loans may be subject to income-contingent repayment (including potential collection of amounts in excess of the principal and interest) in accordance with the Act.

GOVERNING LAW AND NOTICES

The terms of this Note will be interpreted in accordance with the Higher Education Act of 1965, as amended (20 U.S.C. 1070 et seq.), and other applicable federal statutes and regulations.

Any notice required to be given to me will be effective if mailed by first class mail to the latest address ED has for me. I will immediately notify ED of a change in my name, address, or status as specified in the Borrower's Rights and Responsibilities Statement.

Failure by ED to enforce or insist on compliance with any term on this Note shall not be a waiver of any right of ED. No provision of this Note may be modified or waived except in writing. If any provision of this Note is determined to be unenforceable, the remaining provisions shall remain in force.

Notice: Applicable to Loans Received After the Initial Enrollment Period

This Master Promissory Note authorizes ED to disburse multiple loans during the multi-year term of this Note upon my request and upon the School's certification of my loan eligibility.

Subsequent loans may be made under this Note for subsequent periods of enrollment only at four-year or graduate schools, or other schools, as designated by the Secretary of the U.S. Department of Education. I agree that no subsequent loans will be made under this Note after the earlier of the following dates: (i) the date ED receives my written notice that no further loans may be disbursed under the Note; (a) one year after the date of my first anticipated disbursement on this Note; or (b) one year after the date of the most recent disbursement made under this Note.

Any amendment to the Act governs the terms of any loans disbursed on or after the effective date of such amendment, and such amended terms are hereby incorporated into this Master Promissory Note.

Revised Promissory Notes

The statement for Item 8 of the revised master promissory note:

"Requested Loan Amount: I request a total amount of subsidized and unsubsidized loans under this Master Promissory Note not to exceed the allowable maximums under the Higher Education Act. My school will notify me of the type(s) and amount(s) of loan(s) that I am eligible to receive. I may decline a loan or request a lower amount by contacting my school. Additional information about my right to cancel or reduce my loan is included in the Borrower's Rights and Responsibilities statement and Disclosure Statements that have been or will be provided to me."

Revised master promissory note information about Item 8 from the note's instructions:

"Item 8. Your school will notify you of the amount of Direct Subsidized and Direct Unsubsidized Loans you are eligible to receive for this and subsequent academic periods. You may decline a loan or request a lower amount by contacting your school. Additional information is included under 'Loan Cancellation' in the Borrower's Rights and Responsibilities statement."

Master Promissory Notes

► The LOC does not collect information about loan amount requested.

- Schools may disburse up to the maximum amount for which a student is eligible.
  - If a student enters less than maximum eligibility in Item 8, he or she does not sign a new master promissory note to obtain additional loan funds.
  - However, the school must document the student's request for a higher loan amount.
What if...? Scenario

Jack is a second-year student at a small private college. His award letter from the school's financial aid office states that he is eligible for the full $3,500 in Direct Subsidized Loan and $4,000 in Direct Unsubsidized Loan.

Jack wants to keep his education indebtedness as low as possible, especially from unsubsidized loans. He thinks he can make ends meet with a $3,500 Direct Subsidized Loan and a $1,000 Direct Unsubsidized Loan.

Jack just received the master promissory note from the college. He needs to complete and sign it. Then, he'll return the master promissory note to the college.
Q1: What if Jack completed and signed the original version of the master promissory note and doesn’t enter anything in Item 8?

Master Promissory Notes

- Circumstances that require a borrower to sign another master promissory note:
  - Borrower goes to another school.
  - School makes more than four disbursements for a single loan type.
  - Borrower progresses to a new borrower-based academic year.

April 1999  Session Four  14

Drawdown Requests

- The LOC makes drawdown requests for:
  - Standard Origination schools
  - Origination Option 1 schools

April 1999  Session Four  15
Drawdown Requests

- The funds the LOC requests are:
  - based on disbursement amounts and dates in loan origination records,
  - borrower-specific,
  - processed through ED's Grant Administration and Payment System (GAPS), and
  - wired from Federal Reserve Bank (FRB) to school's federal bank account.

April 1999
Session Four

Drawdown Requests

- Origination Option 2 schools are authorized to make drawdown requests through GAPS.
- The drawdown request is based on estimated funds needed to meet immediate need.
- Requests are not borrower-specific.
- Funds are wired from the FRB into a school's federal bank account.
  - Direct Loans may go into a federal bank account used for other Title IV funds.
  - But, ED suggests a separate account.
Disbursements

Before disbursing funds, a school must:
- confirm that it has a signed, completed promissory note from the borrower, and
- verify that the borrower remains eligible to receive Direct Loan funds and is eligible to receive the amount of Direct Loan funds about to be disbursed.

School assumes the liability if disbursement takes place before it receives the LOC's promissory note acknowledgment.

April 1999
Session Four
Disbursements

- Standard Origination schools and Origination Option 1 schools disburse funds to specific borrowers according to the actual disbursement roster.
- Origination Option 2 schools may disburse funds to any eligible borrower.

For all schools:

- The disbursement record must be sent to the LOC within 30 days of disbursement.
- Any funds not disbursed within three days must be returned to ED as excess cash.
Direct Loan information is updated using change records. All change records are forwarded to the LOC.

All data items in a borrower's loan record are subject to change records, such as:
- demographic information,
- loan amounts,
- loan distribution, and
- anticipated disbursement dates.
Reconciliation

- Reconciliation is monthly.
- The LOC sends schools a monthly Direct Loan School Account Statement (DLSAS).
- A school can receive up to three DLSASs for up to three open academic years.
- The LOC sends the DLSAS to a school on approximately the same date each month.

The DLSAS contains three reports:
- a cash summary report,
- a cash detail report, and
- an optional loan detail report.

April 1999
Session Four
Reconciliation

- The cash summary report shows totals for all booked loan transactions recorded during the month, including:
  - drawdowns,
  - excess cash returns,
  - disbursements,
  - adjustments, and
  - cancellations.
- It also shows year-to-date unbooked loan totals.

April 1999  Session Four

Reconciliation

- The cash detail report reviews all the month's:
  - drawdowns and
  - returned excess cash.

April 1999  Session Four
Reconciliation

▶ The loan detail report, which is optional, gives the month’s borrower-specific disbursement information for booked loans and unbooked loans.

Schools are required to reconcile internal records with DLSAS information.

▶ If a school can’t reconcile, it **may** create its own loan detail file (this is optional) and send it to the LOC.
  - The LOC compares the file and generates a loan detail report showing any differences.
  - The school uses the LOC report to identify and resolve any cash balance issues.
  - Need help? Call the CAM.
Reconciliation

- The ending cash balance on the DLSAS for one month will appear as the beginning cash balance on the DLSAS for the next month.

April 1999  Session Four

Reconciliation

- Careful monthly reconciliation makes year-end closeout easy.
  - Cash balances are academic-year-specific.
  - Each academic year begins with a $0 cash balance.
  - Year-end closeout is complete when the school and the LOC show a $0 cash balance.
    - This means the school has accounted for all Direct Loan funds received from ED for the year, and the unbooked loan balance is $0.

Q6: How soon after receiving Direct Loan funds must schools disburse the funds?

A6: 

Q7: True or False: A borrower transferring from one school to another can continue to use the master promissory note he or she signed at the first school.

A7: 

Q8: True or False: A school's cash balance for the 1999-2000 academic year will have no effect on its cash balance for the 2000-01 academic year.

A8: 

Q9: True or False: A borrower attending an Origination Option 1 school decides not to accept certain Direct Loan funds. The decision is made after the funds have been drawn down, but before the school disburses the funds to the borrower. The school may now disburse the funds to another borrower.

Session 5

How Schools Avoid Problems

DATA MANAGEMENT

Direct Loan data must be:

- accurate
- consistent
- submitted to ED in a timely fashion and accepted by the LOC
- safeguarded from being corrupted or lost

April 1999  Session Five
Accuracy

Incomplete or incorrect information can have real effects on schools and students.

Accuracy—Scenario #1

A school sends an origination record with missing student demographic information. The Direct Loan Origination Center (LOC) rejects the record.

- Effect on the school:
  - must take extra time to provide complete information
- Effect on the student:
  - may experience a delay in receiving loan funds
### Accuracy—Scenario #2

A school does not report a disbursement within required 30 days of disbursement.

- **Effect on the school:**
  - not in compliance
  - potential financial liability
- **Effect on the student:**
  - loan servicing not prompt and accurate
  - statements received from the DLSC will have inaccurate information about debt load

April 1999  Session Five  4

### Accuracy—Scenario #3

A school does not report an adjustment to a student's loan amount. LOC doesn't have accurate information about how much the student borrowed.

- **Effect on the school:**
  - not in compliance
  - potential financial liability
- **Effect on the student:**
  - repays the wrong amount (either too much or too little)
  - charged too much or too little interest on an unsubsidized loan

April 1999  Session Five  5
Consistency

Data in a school's own systems must match, such as loan information in:
- financial aid office records and
- business office records

Examples of data that have to match internally are:
- loan disbursements dates
- loan adjustment dates
- loan amounts

If internal data are inconsistent, a school will have trouble:
- reconciling school data with data in ED's systems
- closing out at the end of the year
Consistency

If internal data are consistent, every month and at the end of the year...

- a school's internal data systems and fund accounts should match...
- ED's data systems and fund accounts

Timeliness

Timing is Everything!
The Direct Loan process is so streamlined that it gets money to students quickly. The process consists of a school and the LOC exchanging student information. The school’s data must be submitted in a way that it's accepted by the LOC. How a school handles the process can enhance or detract from the timeliness of the Direct Loan Program.

This is why a school should set up its own schedule to:
- support data submission deadlines
- establish internal time frames for school activities, such as:
  - transmitting origination and disbursement records
  - forwarding promissory notes
  - importing acknowledgments
  - conducting monthly reconciliation

**Direct Loan Overview • Participant's Guide**

Session Five — 7
A fable...

or backing up is hard to do—but it's better than redoing...

Once upon a time, not too long ago or far away,
A fable...

In the land of ivy-covered towers...

You're working under a deadline to get a report to your boss by the end of the day.

Fable - 2

A fable...

You've entered all the data.

The report is finished.

Fable - 3
A fable...

It's only 3 o'clock.

You've made it with two hours to spare.

Not bad!

Fable 4

A fable...

All you need to do now is press the button to print out the report and...

your computer crashes!

Fable 5
A fable...

The happy ending...
You’ve been saving every five minutes.
It will only take a few minutes to recreate the report.

A fable...

The not-so-happy ending...
You haven’t been saving as you’ve gone along.
You’ll be lucky if you can get the report to your boss before she leaves.

This could be a long night.
Protector Data

Things can happen

- Your computer system can crash
- The power can go out
- An installation of upgraded software can fail, which, in turn corrupts the data

When this happens, what do you do?

- Spend many hours, days, or weeks reconstructing lost or corrupted data?
- Or has your school been methodically backing up data?
Protecting Data

Back up data should be part of your school's production schedule.

- Decide how often to do it
- Adhere to the backup schedule
- Practice recovering data from the backup system

Quality Assurance Procedures

Quality Assurance (QA) System

A Direct Loan quality assurance (QA) system can help offices cooperate and coordinate their efforts because a QA system is based on:

- strategic planning
- employee involvement
- structured problem solving
- performance measures
- corrective action

April 1999  
Session Five

89
Quality Assurance (QA) System

A QA system gives a school a framework for developing Direct Loan procedures that are tailored to its:
- resources
- organizational structure
- students' needs

With a QA system, offices and staff get together to:
- identify tasks
- create procedures
- assign responsibility
- monitor the process
- make changes accordingly
Quality Assurance (QA) System

In turn, a school generates the information it needs to:
- continually assess and improve Direct Loan policies and procedures
- deliver funds to students efficiently

ED does not have specific QA system requirements that a school must follow.
- optional—consult ED's Direct Loan Quality Assurance Planning Guide

But each Direct Loan school must:
- establish its own QA system
- document its QA activities in a central file at the school

TIPS FOR AVOIDING PROBLEMS

See next page for a chart developed from ED's Office of Inspector General (OIG) Direct Loan audit results.
Tips for Avoiding Direct Loan Data-Management Problems

These recommendations are compiled from results of a Direct Loan Program audit published by ED’s Office of Inspector General (OIG) in 1998.

Be Accurate and Consistent:
- Before submitting origination records, promissory notes, and disbursement records to the LOC, be sure that the information is complete and accurate.
- Don’t forget to update all the school’s record-keeping systems when there’s a change in a student’s information.
- Monitor the school’s student accounts database and the Direct Loan database to find and correct discrepancies quickly.
- Don’t forget to send an update to the LOC when there’s a change in student information.

Don’t Delay:
- Be timely about creating, transmitting, and importing records.
- Make sure data are accepted by the LOC.
- Develop an internal production schedule to keep people and processes on target.

Protect the Data:
- Create a data backup schedule and adhere to it.
- Prepare and practice a recovery plan.
- Ensure that the appropriate level of access is given only to staff members who need access to perform their duties.
- To minimize the risk of inappropriately altering or disclosing student information, issue unique user IDs and passwords to each employee instead of using common or shared IDs and passwords.

Watch the Money:
- Monitor and return excess cash within required time frames.
- Use the Direct Loan School Account Statement (DLSAS) to reconcile the Direct Loan Program every month.

Keep on Top of the Process:
- Create and use your school’s QA system to continuously improve Direct Loan procedures and to detect and correct problems.
- Develop and maintain written school policies and procedures for the Direct Loan Program.
Your school has passed the implementation stage and is now fully participating in the Direct Loan Program. You are now a member of your school’s Direct Loan Management Committee. The committee generally meets once a month. However, an emergency meeting has been called to deal with a problem that was discovered yesterday.

✦ Your job is to:

✦ identify the issues facing your school,

✦ decide on the steps your school must take immediately, and

✦ assess whether your school needs to change any of its procedures, such as its QA system.

Like the Direct Loan Implementation Committee in Session 3, the Direct Loan Management Committee at your school is composed of:

✦ Financial aid office director

✦ Financial aid office associate director for systems

✦ Financial aid office loan counselor

✦ Business office associate director

✦ Student accounts manager

✦ Student accounts assistant manager

✦ Business office’s loan officer

✦ Computer center’s programmer
Scenario #1

Top Notch University

Top Notch University is a large, private school. It participates in the Direct Loan Program at the Origination Option 2 level.

Top Notch University's financial aid office asked the school's computer center to run its Wednesday afternoon disbursement-record file for the business office so it can credit Direct Loan funds to students' tuition accounts. The business office initiated the drawdown for these funds the day before, on Tuesday morning. Everything is going according to Top Notch's Direct Loan production schedule. This is especially good since it's the beginning of the academic term and this disbursement tape affects 250 students.

Thursday morning the business office's student accounts manager calls the financial aid director to find out what happened to the disbursement-record file. The financial aid director says, "We've asked the computer center to run the file as scheduled." The student accounts manager says, "Well, we haven't gotten the information." "What's going on?" they both wonder. At just that moment the financial aid director receives an email from the computer center. It says that the computer center has lost the file. It's nowhere to be found. The financial aid office has to recreate the disbursement-record information, which is going to take a bit of time.

What issues face Top Notch University since the financial aid office has to recreate the disbursement-record information and the school has already drawn down the Direct Loan funds?

What immediate steps does Top Notch University need to take?

Are there changes that Top Notch University should make to its procedures? How about its QA system?
Scenario #2

Beneficial Community College

Beneficial Community College is in its first year in the Direct Loan Program. The financial aid office has originated loans, printed and obtained signatures on promissory notes, and submitted the promissory notes to the Loan Origination Center (LOC). Now it is time to make disbursements. After posting funds to students’ accounts, the business office sends a report to the financial aid office indicating funds paid. The business office is under the impression that since financial aid has the software in its office and its staff has handled loan records up to this point, that it is the responsibility of the financial aid office to enter and transmit disbursement records to the LOC. However, the financial aid office sees this as a cash function and, therefore, it’s a job for the business office. Neither office is willing to take on this additional responsibility.

What should the school do?
Scenario #3

The Baking School (TBS)

The Baking School (TBS) is a family-run proprietary school. It participates in the Direct Loan Program at the Standard Origination Level. The financial aid office is a one-person operation with a personal computer (PC).

TBS has an annual enrollment of approximately 200 students. Generally, half of the students borrow from the Direct Loan Program each year.

One evening, as the financial aid officer was installing some new software, the PC crashed. The data in the system were completely corrupted.

- What issues face TBS since its Direct Loan database is unusable?

- What immediate steps does TBS need to take?

- Are there changes that TBS should make to its procedures? How about its QA system?

Loan portion of the program an acceptable reason to award a dependent student an “additional” Direct Unsubsidized Loan amount?

A6. Yes, Direct Loan schools can opt to offer only Direct Subsidized Loans and Direct Unsubsidized Loans. And, yes, if a school chooses not to offer Direct PLUS Loans for parents, that’s an acceptable reason to award a dependent student the additional Direct Unsubsidized Loan amount.

Q7. If one parent is turned down for a Direct PLUS Loan, must the other apply before the student is eligible for an additional Direct Unsubsidized Loan amount?

A7. No. Only one parent needs to apply for a Direct PLUS Loan.

Q8. Is a stepparent eligible for a Direct PLUS Loan?

A8. If a stepparent’s income was used in determining the student’s Expected Family Contribution (EFC), then the stepparent is eligible to apply for a Direct PLUS Loan.

Q9. Is a legal guardian eligible for a Direct PLUS Loan?

A9. No, because a legal guardian isn’t the student’s parent, he or she isn’t eligible for a parent’s Direct PLUS Loan.

Q10. What is the best way to set up Direct Loan processing for branch campuses?

A10. It depends on how a school defines a branch campus, wants to interact with branch campuses, and prefers for funds to be handled. Here are two approaches.

- Approach 1: one campus could do all the Direct Loan processing for all the campuses or
- Approach 2: all the branch campuses could do most of the processing themselves.

With either approach, branch campuses that aren’t considered separate entities may not do their own drawdowns.
