This booklet is a guide for college-bound athletes as they select a college. An introduction by the executive director of the National Collegiate Athletic Association (NCAA) notes the difficulty of achieving a career in athletics and the importance of the academic aspects of the college experience. Individual sections discuss the following topics: "recentered" Scholastic Assessment Test scores; academic eligibility standards to participate in intercollegiate athletics; the initial-eligibility clearinghouse procedure; financial aid; recruiting, the national letter of intent; professionalism; agents; drug testing; graduation rates; and questions to ask. (DB)
Choosing a college is difficult. Choose wisely to take that first step down the road to success.
Introduction

You're at an age when the last thing you probably want is more advice. But there's only one thing to do with good advice—pass it on.

As executive director of the NCAA, the best advice I can pass along if you plan to compete athletically at the college level is to start asking questions.

Find out if you're on track to meet academic eligibility and core-course requirements. See what the graduation rate of the athletics programs and the athletes in your sport are at the colleges in which you are interested. Ask what academic support services are available and how academic progress is tracked.

You'll notice that not one of those questions deals with the athletics side of being a student-athlete. Instead of focusing on which college can lead to a career in the pros, consider that:

- There are nearly one million high-school football players and about 500,000 basketball players. Of that number, about 150 make it to the NFL and about 50 make an NBA team.
- Less than 3 percent of college seniors will play one year in professional basketball.
- The odds of a high-school football player making it to the pros at all—let alone having a career—are about 6,000 to 1; the odds for a high-school basketball player—10,000 to 1.

Take a hard look at those numbers and think about what will matter in the long run—a college education.

There's another question you probably have: What is the NCAA?

The Association was founded in 1906. It is made up of 933 schools classified in three divisions (Division I has 306 schools; Division II has 254; and Division III has 373). Schools in Division I, which is divided into two divisions for football (Divisions IA and IAA), compete at the so-called major-college level.

The NCAA sponsors 81 championships in 22 sports. Almost 24,500 men and women student-athletes annually compete for NCAA titles.

Unfortunately, you occasionally hear about NCAA schools being put on probation for violating rules the colleges themselves have adopted.

This guide is intended to help you and your family understand these rules, which sometimes can be complex. If you have questions, contact our membership services staff.

Choosing a college is difficult. Choose wisely to take that first step down the road to success.

CEDRIC W. DEMPSEY
NCAA Executive Director
Please note that beginning with the April 1995 administration of the SAT test, SAT scores were "recentered" to a new scale. This new scale does not make the SAT test a more difficult test. It is a way for SAT to better justify its scoring system. As a result, the SAT scores used to meet NCAA initial-eligibility requirements changed. As indicated in the following sections, if you took the SAT on or after April 1, 1995, you are required to have a minimum test score of 820. Again, this will not change the level of difficulty of the SAT. For more information, please contact the NCAA membership services staff at the address on Page 1 of this guide.

Division I Academic Eligibility Requirements

If you’re first entering a Division I college on or after August 1, 1996, or thereafter, in order to be considered a “qualifier,” you’re required to:

- Graduate from high school;
- Successfully complete a core curriculum of at least 13 academic courses [this core curriculum includes at least four years in English, two in math, one year of algebra and one year of geometry (or one year of a higher-level math course for which geometry is a prerequisite), two in social science, two in natural or physical science (including at least one laboratory class, if offered by your high school); one additional course in English, math or natural or physical science; and two additional academic courses (which may be taken from the already-mentioned categories or foreign language, computer science, philosophy or non-doctrinal religion)].
- Have a core-course grade-point average (based on a maximum of 4.000) and a combined score on the SAT verbal and math sections or a sum score on the ACT based on the qualifier index scale to the right.

A “partial qualifier” is eligible to practice with a team at its home facility and receive an athletics scholarship during his or her first year at a Division I school and then has three seasons of competition remaining.

A partial qualifier may earn a fourth year of competition, provided that at the beginning of the fifth academic year following the student-athlete’s initial, full-time collegiate enrollment, the student-athlete has received a baccalaureate degree.

In order to be considered a “partial qualifier,” you have not met the requirements for a qualifier but you’re required to:

- Graduate from high school;
- Successfully complete a core curriculum of at least 13 academic courses in the appropriate core areas.
- Present a core-course grade-point average (based on a maximum of 4.000) and a combined score on the SAT verbal and math sections or a sum score on the ACT based on the partial qualifier index scale to the right.

*Previously, ACT score was calculated by averaging four scores. New standards are based on sum of scores.

A nonqualifier is a student who has not graduated from high school or who has presented neither the core-curriculum grade-point average and SAT/ACT scores required for a qualifier.

A nonqualifier shall not be eligible for regular-season competition or practice during the first academic year in residence and then has three seasons of competition remaining. A nonqualifier shall be eligible for nonathletics institutional financial aid that is not from an athletics source and is based on financial need only.

Division II Academic Eligibility Requirements

If you're first entering a Division II college on or after August 1, 1996, or thereafter, in order to be considered a “qualifier,” you're required to:

- Graduate from high school;
- Have a GPA of 2.000 (based on a maximum of 4.000) in a successfully completed core curriculum of at least 13 academic courses (this core curriculum includes three years in English, two in math, two in social science, two in natural or physical science (including at least one laboratory class, if offered by your high school) and two additional courses in English, math or natural or physical science; and two additional academic courses (which may be taken from the already-mentioned categories or foreign language, computer science, philosophy or non-doctrinal religion).
- Have a combined score on the SAT verbal and math sections of 700 if taken before April 1, 1995, or 820 if taken on or after April 1, 1995, or a 68 sum score on the ACT.

A “partial qualifier” is eligible to practice with a team at its home facility and receive an athletics scholarship during his or her first year at a Division II school, and then has four seasons of competition remaining.

In order to be considered a “partial qualifier,” you have not met the requirements for a qualifier, but you're required to graduate from high school and meet one of the following requirements:

- Specified minimum SAT or ACT score; or
- Successful completion of a required core curriculum consisting of a minimum number of courses and a specified minimum grade-point average in the core curriculum.

A nonqualifier is a student who has not graduated from high school or who has presented neither the core-curriculum grade-point average and SAT/ACT score required for a qualifier.

A nonqualifier is not eligible for regular-season competition and practice during the first academic year in residence and then has four seasons of competition. A nonqualifier may not receive athletics-related aid as a freshman, but may receive regular need-based financial aid if the school certifies that aid was granted without regard to athletics ability.

Details of these general requirements are contained in the following sections.

Definition of a Core Course

To meet the core-course requirement, a “core course” is defined as a recognized academic course (as opposed to a vocational or personal-services course) that offers fundamental instruction in a specific area of study. Courses taught below your high school's regular academic instructional level (e.g., remedial, special education or compensatory) can't be considered core courses regardless of the content of the courses. At least 75 percent of the course's instructional content must be in one or more of the required areas (as listed below) and “statistics,” as referred to in the math section, must be advanced (algebra-based).

English—Core courses in English include instructional elements in grammar, vocabulary development, composition, literature, analytical reading or oral communication.

Math—Core courses in mathematics include instructional elements in algebra, geometry, trigonometry, statistics or calculus.

Social Science—Core courses in social science contain instructional elements in history, social science, economics, geography, psychology, sociology, government, political science or anthropology.

Natural or Physical Science—(including at least one full unit of laboratory classes if offered by your high school). Core courses in natural or physical science include instructional elements in biology, chemistry, physics, environmental science, physical science or earth science.

Additional Academic Courses—The remaining units of additional academic credit must be from courses in the above areas or foreign language, computer science, philosophy or non-doctrinal religion (e.g., comparative religion) courses.

Questions & Answers About Core-Course Requirements

Q: Can courses taken after my senior year help satisfy core-course requirements?

At Division I colleges, generally only courses completed in grades 9 through 12 may be considered core courses. Courses taken after the completion of your eighth semester (i.e., summer school after your senior year) may not be used to satisfy core-course requirements.

A student diagnosed with a learning disability is permitted to use all core courses completed before initial full-time enrollment at a collegiate institution. Please contact the NCAA national office for additional information regarding accommodations for students with learning disabilities.

At Division II colleges, you're permitted to use all core courses completed before initial full-time collegiate enrollment.

Q: Is there a way for me to be immediately eligible in Division I if I didn't complete my core courses in the first eight semesters?

At Division I institutions, if you repeat an entire regular term or academic year of high school, you may use appropriate courses taken during that term or year to fulfill the core-course...
Can courses taken in the eighth grade satisfy core-curriculum requirements?  
Eighth-grade courses cannot satisfy core-curriculum requirements.

How is my core-course GPA calculated?  
Your core-course grade-point average may be calculated using your 13 best grades from courses that meet the core-curriculum requirements. Additional core courses (beyond the 13 required) may be used to meet the core-course grade-point average if the distribution requirements are met.

How many different courses must I take to satisfy core-curriculum requirements?  
You must present 13 different courses in meeting the core-curriculum requirements. A repeated course may be used only once. Further, you may use your best grade in the repeated course in calculating the core-course grade-point average.

What do I need to present if I am in a home-schooling program?  
All prospective student-athletes who are home-schooled will need to have their core-curriculum requirements analyzed by an NCAA representative. Please contact your high-school principal for information regarding home-schooling.

Can I count independent study courses in my core-curriculum requirements?  
No. Independent study or correspondence courses may not be used to satisfy core-curriculum requirements.

Do pass-fail grades count?  
Yes, courses awarded pass-fail grades may be used to satisfy core-curriculum requirements. For pass-fail classes the NCAA Initial-Eligibility Clearinghouse shall assign the course the lowest passing grade at the high school for pass-fail classes.

Do I have to successfully complete the core courses used to satisfy the core-course GPA requirement?  
Yes. Students entering a Division I or II college as freshmen in the fall of 1988 and thereafter must have satisfactorily completed all courses used to satisfy core-curriculum requirements. Satisfactory completion is defined as a nonfailing grade (i.e., a grade of “D” or above).

Can college courses count toward core-curriculum requirements?  
A college course can satisfy core-curriculum requirements if it is accepted by your high school and the course:
- Would be accepted for any other student;
- Is placed on your high-school transcript; and
- Meets all other requirements for a core course.

How are courses taken over two years counted?  
A one-year course that is spread over a longer period of time (i.e., two years, three semesters) is considered as one course (e.g., elementary algebra) and would receive a maximum of one core-course credit.

Do preparatory classes count?  
No. Effective with the 1993-94 academic year, a course taken to prepare for the first course normally taken to fulfill the progression of core-curriculum requirements (i.e., prealgebra) may not be used as a core course regardless of the course content.

How are core courses determined?  
The NCAA Initial-Eligibility Clearinghouse lists only those courses that qualify as a core course after receiving information provided by your high-school principal. All approved courses are listed on a 48-H confirmation form, which is mailed to your high school each year.

What if I leave high school after my junior year to enter an early admissions program?  
You may receive a waiver of the initial-eligibility requirements if you enter an early admissions program (open to students solely on the basis of outstanding academic performance and promise), provided that for the last four semesters in high school, you maintained a cumulative minimum grade-point average of 3.500 (based on a maximum of 4.000), ranked in the top 20 percent of your class and met all other requirements for graduation from high school, and for Division I, the only remaining deficiency is in the core-curriculum area of English (i.e., lacking one year of English).

Can courses for the learning disabled or handicapped count?  
Students with appropriately diagnosed learning disabilities may use learning-disabled courses for the purpose of meeting NCAA core-curriculum requirements. Courses for students with learning disabilities must appear on the high-school’s list of approved core courses (formerly 48-H) in order for a student to receive NCAA credit for the course. However, in order to use such courses toward a student’s core-curriculum requirements, students must document their learning disability with the NCAA by submitting documentation supporting the learning disability.

Can I count credit-by-exam courses in my core-curriculum requirements?  
No. Courses completed through credit-by-exam may not be used to satisfy core-curriculum requirements.

Are vocational courses acceptable?  
Traditional vocational courses are not acceptable. These include courses such as agriculture, auto mechanics, accounting and health. However, courses taught using applied approaches to teaching may meet the NCAA standard for a core course.

Does the prohibition against special education, remedial or compensatory courses apply to students with learning disabilities?  
No. In order for courses offered for students with learning disabilities to be approved, the course must be substantially comparable, qualitatively and quantitatively, as a regular core course offered in that academic area.
Can studies in a foreign country help satisfy core-course requirements?

If you've completed a portion of your secondary studies in a foreign country, your academic record should be submitted to the NCAA national office for review by the foreign-student records consultants.

Grade Values

The grade values listed below are used in determining your grade-point average in the core courses:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
</tr>
</tbody>
</table>

To determine the core-course grade-point average, convert each grade earned (including all numerical grades) to this 4.000 scale on an individual course basis. Pluses or minuses may not receive greater or lesser quality points. Your high school's normal practice of weighting honors or advanced courses may be used to compute the quality points awarded and the cumulative grade-point average, provided the quality points are added to each course before calculating the student's grade-point average and not added to a student's cumulative core-course grade-point average. In no event may a student earn more than one additional quality point for honors or advanced course.

Test-Score Requirements

In Divisions I and II, you must achieve the minimum required SAT or ACT score before your first full-time college enrollment. Your test scores must be achieved under national testing conditions on a national testing date (i.e., no residual testing dates). National testing dates are:

<table>
<thead>
<tr>
<th>SAT</th>
<th>ACT</th>
</tr>
</thead>
<tbody>
<tr>
<td>October 10, 1998</td>
<td>October 24, 1998</td>
</tr>
<tr>
<td>November 7, 1998</td>
<td>December 12, 1998</td>
</tr>
<tr>
<td>December 5, 1998</td>
<td>February 6, 1999</td>
</tr>
<tr>
<td>January 23, 1999</td>
<td>April 10, 1999</td>
</tr>
<tr>
<td>March 20, 1999</td>
<td>June 12, 1999</td>
</tr>
<tr>
<td>May 1, 1999</td>
<td></td>
</tr>
<tr>
<td>June 5, 1999</td>
<td></td>
</tr>
</tbody>
</table>

Test-Score Interpretations

* All prospective student-athletes, including natives of foreign countries, must achieve the minimum required test score on a national testing date. Foreign prospective student-athletes should contact the appropriate testing agency for more information about registering to take the test on a national testing date.

* If you take the SAT, the highest scores achieved on the verbal and math sections of the SAT from two different national testing dates may be combined in determining whether you have met the minimum test-score requirement. [Note: This includes combining converted subscores from the "recentered" and "non-recentered" versions of the SAT.]

* If you take the ACT, the highest scores achieved on the individual subtests from more than one national testing date may be combined in determining whether your sum score meets minimum test-score requirements.

Nonstandard Test Procedures

- The student must register for the nonstandard testing as outlined by the testing service, which requires that the handicap or learning disability be diagnosed professionally and properly documented and confirmed.

- The procedures outlined by the testing service must be followed, and the individual(s) giving the test may not be a member of your high school's athletics department or an NCAA school's athletics department.

- The following records must be sent to the NCAA national office:
  1. A copy of all records sent to the testing service to register for the test, including the professional diagnosis of the learning disability or handicap; and
  2. A complete record of your SAT or ACT scores.

- Please note that if you take a nonstandard ACT or SAT, you still must achieve the minimum required test score; however, the test doesn't have to be taken on a national testing date.

- Assuming proper documentation is received, the NCAA Division I or II Academic Committees then may approve your completion of the test-score requirement.

Waiver of Bylaw 14.3 Requirements

Waivers of the initial-eligibility requirements may be granted based on evidence that demonstrates circumstances in which your overall academic record warrants a waiver. All requests for such a waiver must be initiated through an NCAA school that officially has accepted you for enrollment as a regular student or if acceptance is contingent on a favorable subcommittee decision. You should contact the school recruiting you for more information about this waiver process.

Students with learning disabilities may initiate the initial-eligibility waiver process on their own without the help of a member institution. Please contact the national office for more information.

Additional Information

Several additional points about the NCAA's initial-eligibility requirements should be emphasized.

- These requirements currently do not apply to Division III colleges, where eligibility for financial aid, practice and competition is governed by institutional, conference and other NCAA regulations.

- This rule sets a minimum standard only for athletics eligibility. It's not a guide to your qualifications for admission to college. Under NCAA rules, your admission is governed by the entrance requirements of each member school.

- The General Education Development (GED) test may be used under certain conditions to satisfy the graduation requirement of Bylaw 14.3 but not the core-course or test-score requirements. Contact the NCAA national office for information about these conditions.
INITIAL-ELIGIBILITY CLEARINGHOUSE

A central clearinghouse will certify your athletics eligibility for Divisions I and II. Here is some important information that will assist you.

Certification

If you intend to participate in Division I or II athletics as a freshman, you must register and be certified by the NCAA Initial-Eligibility Clearinghouse. Refer to Pages 2 through 5 to determine the initial-eligibility standards that apply to you.

Clearinghouse Registration Materials

Your counselors can obtain registration materials, at no cost, by calling the clearinghouse at 319/337-1492.

Registration Process

Your counselors should provide you with a student-release form and a red brochure titled, "Making Sure You Are Eligible to Participate in College Sports." In order to be registered with the clearinghouse, you must complete the student-release form and mail the top (white) copy of the form to the clearinghouse along with the $18 registration fee. Give the yellow and pink copies of the form to a high-school official who then sends the yellow copy, along with an official copy of your high-school transcript, to the clearinghouse. Your high school should keep the pink copy for its files. After graduation and before the school closes for the summer, your school must send the clearinghouse a copy of your final transcript that confirms graduation from high school.

Fee Waivers

High-school counselors may waive the clearinghouse fee if you have previously qualified for and received a waiver of the ACT or SAT fee. Fee-waiver information is specified on the student-release form.

Test Scores

To be certified, you also must submit your ACT or SAT scores to the clearinghouse. You may either have your scores sent directly from the testing agency to the clearinghouse or have your test scores reported on your official high-school transcript. You can have your scores sent directly to the clearinghouse by marking code 9999 as one of the institutions to receive your scores on your ACT or SAT registration form or by submitting a request for an "Additional Score Report" to the appropriate testing agency.

List of NCAA Approved Core Courses (Formerly Form 48-H)

The list of NCAA approved core courses (formerly Form 48-H) identifies courses that may be used in meeting NCAA core-course requirements.

Questions and Answers About the Clearinghouse

Q: Why do I need to register and be certified?

If you intend to participate in Division I or II athletics as a freshman in college, you must be registered with and be certified as eligible by the NCAA Initial-Eligibility Clearinghouse. Refer to Pages 2 through 5 to determine the initial-eligibility standards that apply to you. Please note that initial-eligibility certification pertains only to whether you meet the NCAA requirements for participation as a freshman in Division I or II athletics and has no bearing on your admission to a particular Division I or II institution.

Q: When should I register?

You should register with the clearinghouse whenever you decide you would like to participate in athletics as a college freshman. It's generally best to register after your junior-year grades appear on your transcript. Although you can register anytime before participation, if you register late you may face delays that will prevent you from practicing and competing.

Q: How do I register?

You will need to obtain registration materials from your high-school guidance counselor. (If your school has run out of materials, your counselor should call the clearinghouse at 319/337-1492 to obtain additional forms.) These materials include a student-release form and a red brochure titled, "Making Sure You Are Eligible to Participate in College Sports." Fill out the student-release form completely and mail the top (white) copy of the form to the clearinghouse along with the $18 fee. (The fee can be waived if you received a waiver of the ACT or SAT fee.) Give the pink and yellow copies of the student-release form to your high-school counselor who will then send the yellow copy, along with an official copy of your high-school transcript, to the clearinghouse. The high school will keep the pink copy of the form for its files.
What if I have attended more than one high school?
If you have attended multiple high schools since ninth grade, you must send your official transcript from each school to the clearinghouse. You should give the pink and yellow copies. You must send your official transcript from each school to the clearinghouse. If you have attended multiple high schools since ninth grade, you should also send copies of the student-release form to the counselors at the other schools that you have attended.

Are standardized test scores required?
Qualifying test scores are required for participation at both Division I and Division II colleges. If you intend to participate at either a Division I or II school, the test scores may be taken from your official high-school transcript or be sent to the clearinghouse directly from the testing agency.

FINANCIAL AID
If you've met Bylaw 14.3 requirements and are enrolled full-time in a Division I or II college, you may receive financial aid from the school that includes tuition and fees, room and board, and books. In addition, student-athletes who haven't met Bylaw 14.3 requirements may receive financial aid under specified conditions.

In Division I, a "partial qualifier" (as defined on Page 2) may receive an athletics scholarship. A "nonqualifier" (someone who has not met the requirements to be considered a "qualifier" or a "partial qualifier") in Division I may receive need-based financial aid unrelated to athletics.

In Division II, a "partial qualifier" (someone who has not met all Bylaw 14.3 requirements but who has graduated from high school and has fulfilled either the core-course or the standardized test-score requirement) may receive institutional financial aid, including athletically related financial aid.

In Division II, a "nonqualifier" (someone who has not met the requirement to be considered a "qualifier" or a "partial qualifier") may receive institutional financial aid unrelated to athletics.

There's no guaranteed four-year athletics scholarship in Division I, II or III. An athletics scholarship is awarded for one academic year. It may be renewed each year for a maximum of five years within a six-year period.

In some cases, you may receive additional financial aid, such as the Pell Grant, from government programs. Ask your college's financial aid office for more information about such aid.

If you receive a scholarship from your high school or local civic or booster club, tell your college recruiter so he or she can notify the school's financial aid office.

If you plan to attend a Division III college, you may receive financial aid up to the cost of attendance (tuition and fees, room and board, books, transportation, and other expenses incidental to attendance) if the aid is based on financial need and not associated with athletics ability.

Recruiting
You become a "prospective student-athlete" when you start ninth-grade classes. Before the ninth grade, you become a prospective student-athlete if a college gives you (or your relatives or friends) any financial aid or other benefits that the college does not provide to prospective students generally.

You become a "recruited prospective student-athlete" at a particular college if any coach or representative of the college's athletics interests (booster or representative) approaches you (or any member of your family) about enrolling and participating in athletics at that college. Activities by coaches or boosters that cause you to become a recruited prospective student-athlete are:

- Providing you with an official visit;
- Placing more than one telephone call to you or any other member of your family; or
- Visiting you or any other member of your family anywhere other than the college campus.
In addition to general recruiting regulations, no alumni, boosters or representatives of a college's athletics interests can be involved in your recruiting. There can be no phone calls or letters from boosters.

The restriction doesn't apply to recruiting by alumni or representatives as part of a college's regular admissions program for all prospective students, including nonathletes.

You (or your family) may not receive any benefit, inducement or arrangement such as cash, clothing, cars, improper expenses, transportation, gifts or loans to encourage you to sign a National Letter of Intent or attend an NCAA college.

Letters from coaches, faculty members and students (but not boosters) aren't permitted until September 1 at the beginning of your junior year.

**Telephone Calls**

In all sports other than football, phone calls from faculty members and coaches (but not boosters) are not permitted until July 1 after completion of your junior year. After this, in sports other than football, a college coach or faculty member is limited to one telephone call per week to you (or your parents or legal guardians), except that unlimited calls to you (or your parents or legal guardians) may be made under the following circumstances:

- During the five days immediately before your official visit by the college you will be visiting;
- On the day of a coach's off-campus contact with you by that coach; and
- On the initial date for signing the National Letter of Intent in your sport through two days after the initial signing date.

In Division IA football, an institution's coaches may telephone you as often as they wish during a contact period (see Page 9), but that telephone contact may not occur before August 15 after the completion of your junior year. Also, an institution's football coaches can telephone you as often as they wish during the period 48 hours before and 48 hours after 7 a.m. on the initial signing date for the National Letter of Intent. Outside of a contact period, a football coach may only telephone you once per week.

In Division I-AA football, an institution's coaches may telephone a prospect once during the month of May of the prospect's junior year in high school and then not again until September 1 of the prospect's senior year in high school.

In Division I football, an institution's coaches may telephone a prospect who is a resident of a foreign country once during the month of July following the completion of the prospect's sophomore year in high school.

You (or your parents) may telephone a coach at your expense as often as you wish.

Coaches also may accept collect calls from you and may use a toll-free (1-800) number to receive telephone calls from you on or after July 1 after completion of your junior year.

Enrolled student-athletes may not make recruiting telephone calls to you. Enrolled students (nonathletes) may telephone you as part of a college's regular admissions program directly at all prospective students. Enrolled students (including student-athletes) may receive telephone calls at your expense on or after July 1 after completion of your junior year.

**Contacts**

A college coach may contact you in person off the college campus only on or after July 1 after completion of your junior year. Any face-to-face meeting between a college coach and you or your parents, during which any of you say more than "hello" is a contact. Also, any face-to-face meeting that is prearranged or that occurs at your high school or competition or practice site is a contact, regardless of the conversation. These contacts are not permissible "bumps."

Currently in all sports other than football, coaches may contact you off the college campus no more than three times. However, a college coach may visit your high school (with the approval of your high-school principal) only once a week during a contact period.

Football coaches may contact you off the college campus seven times. However, no more than one contact per week may occur during a contact period (see Page 9), regardless of where the contact occurs. Also, a college football coach may visit your high school (with the approval of your high-school principal) only once a week during a contact period.

In Division I ice hockey, coaches have seven recruiting opportunities (contacts and evaluations) during the academic year and not more than three of the seven opportunities may be in-person, off-campus contacts.

**Evaluations**

An evaluation is any off-campus activity used to assess your academic qualifications or athletics ability, including a visit to your high school (during which no contact occurs) or watching you practice or compete at any site. Currently in all sports other than football, basketball and ice hockey, coaches may not evaluate you more than four times each academic year. Basketball coaches have five "recruiting opportunities" to utilize on you during any year. In using those five opportunities, a basketball coach may use any combination of contacts and/or evaluations that equal five; however, no more than three of the opportunities may be contacts.

Football coaches may not evaluate you more than two times each year (May 1 through April 30). In football, only one evaluation may be used during the fall evaluation period and only one evaluation may be used during the May evaluation period. In all sports, competition on consecutive days within a tournament (and normally at the same site) or that involves a tier of a tournament (e.g., regional) counts as a single evaluation. In addition, once you sign a National Letter of Intent, you may be evaluated an unlimited number of times by a college coach from the college with which you have signed.

In football and basketball only, there are certain periods (see below) when a coach may contact you off the college campus and/or attend your practices and games to evaluate your athletics ability. In all other sports, contacts and evaluations may occur anytime except during a dead period.
1998-99 Division I Football Recruiting Calendar

Beginning August 1, 1998
August 1 through November 30, 1998, except for (1) below: .......... Quiet Period

(1) Nine days during October and November 1998 selected at the discretion of the institution (an authorized off-campus recruiter may visit a particular high school only once during this evaluation period): Evaluation Period

December 1, 1998, through January 30, 1999 [except for (1) through (3) below]. Seven in-person, off-campus contacts per prospect are permitted during this time period with not more than one contact permitted in any one calendar week (Sunday through Saturday) or partial calendar week: Contact Period

(1) December 24, 1998, through January 1, 1999: Dead Period
(2) January 10 and January 14, 1999: Quiet Period
(3) January 11 through January 13, 1999: Dead Period

Additional restrictions in (1), (2) and (3) below for two-year college prospects and their educational institutions:

(1) December 13, 1998: Quiet Period
(2) December 14 through December 17, 1998: Dead Period
(3) December 18, 1998: Quiet Period

January 31, 1999: Quiet Period

February 1 through February 4, 1999 (the National Letter of Intent cannot be hand delivered during this time; it must be mailed): Dead Period

February 5 through April 30, 1999: Quiet Period

The month of May 1999 – 20 days (excluding Memorial Day and Sundays) selected at the discretion of the institution and designated in writing in the office of the director of athletics; an authorized off-campus recruiter may visit a particular high school only once during this evaluation period: Evaluation Period

Those days in May 1999 not designated above: Quiet Period

June 1 through July 31, 1999: Quiet Period

1998-99 Division I Men’s Basketball Recruiting Calendar

Beginning August 1, 1998
August 1 through September 8, 1998: Quiet Period
September 9 through September 26, 1998: Contact Period
September 27 through November 8, 1998: Contact Period
November 9 through November 12, 1998 (the National Letter of Intent cannot be hand delivered during this time; it must be mailed): Dead Period
November 13 through November 18, 1998: Quiet Period
November 19, 1998, through March 15, 1999 [except for (1) below] – 40 evaluation days selected at the discretion of the institution and designated in writing in the office of the director of athletics; institutional staff members may not visit a prospect’s educational institution on more than one day per week during this period: Evaluation Period

(1) Those days during November 19, 1998, through March 15, 1999, not designated above for evaluation purposes: Quiet Period
March 16 through March 22, 1999: Contact Period
March 23 through March 24, 1999: Quiet Period
March 25 through March 30, 1999 (noon): Dead Period
March 30 (noon) through March 31, 1999 (8 a.m.): Quiet Period
March 31 (8 a.m.) through April 4, 1999: Contact Period
April 5 through April 8, 1999 (the National Letter of Intent cannot be hand delivered during this time; it must be mailed): Dead Period
April 9 through April 14, 1999: Contact Period
April 15 through July 7, 1999: Quiet Period
July 8 through July 31, 1999: Evaluation Period
998-99 Division I Women's Basketball Recruiting Calendar

Beginning August 1, 1998

August 1 through September 8, 1998................. Quiet Period
September 9 through September 29, 1998.................. Contact Period
September 30 through October 7, 1998.................. Quiet Period
October 8, 1998, through February 28, 1999, [except for (1) and (2) below] - 40 evaluation days selected at the discretion of the institution and designated in writing in the office of the director of athletics; institutional staff members may not visit a prospect's educational institution on more than one day per week during this period: Evaluation Period

(1) November 9 through November 12, 1998, (the National Letter of Intent cannot be hand delivered during this time; it must be mailed): Dead Period

(2) Those days during October 8, 1998, through February 28, 1999, not designated above for evaluation purposes: Quiet Period
March 1 through March 23, 1999, [except for (1) below]: 16 "person days" (a coach who makes an official campus contact with a prospect on a given day shall use a "person day;" two coaches making off-campus contacts on the same day shall use two "person days") selected at the discretion of the institution and designated in writing in the office of the director of athletics: Contact Period

(1) Those days during March 1 through March 23, 1999, not designated above for contact purposes: Quiet Period
March 24 through March 29, 1999 (noon): Dead Period
March 29 (noon) through April 4, 1999: Contact Period
April 5 through April 8, 1999: Dead Period
April 9 through July 7, 1999: Quiet Period
July 8 through July 31, 1999: Evaluation Period

During the National Junior College Athletic Association and AAU women's national basketball championship competitions: Evaluation Period

During official tryouts for the USA Basketball Olympic Festival: Evaluation Period

The following state-specific evaluation times are permissible, provided evaluations outside of the July period are counted toward 40 evaluation days set forth above:

(1) In the state of Hawaii, evaluations shall be permissible only between March 1 and May 31, 1999, and July 8 and July 31, 1999.

(2) In those states that play the high-school basketball season in the spring, except for Hawaii, evaluations shall be permissible only between April 8 and April 28, 1999, and July 8 and July 31, 1999.

Official Visits

During your senior year, you can have one expense-paid (official) visit to a particular campus. You may receive no more than five such visits. This restriction applies even if you are being recruited in more than one sport. You can't have an official visit unless you have given the college your high-school (or college) academic transcript and a score from a PSAT, an SAT, a PACT Plus or an ACT taken on a national test date under national testing conditions. Your academic transcript may be a photocopy of your official high-school (or college) transcript. [Note: In this instance, the Division I school may use the services of the Initial-Eligibility Clearinghouse to validate your credentials.]

During your official visit (which may not exceed 48 hours), you may receive round-trip transportation between your home (or high school) and the campus, and you (and your parents) may receive meals, lodging and complimentary admissions to campus athletics events. A coach may only accompany you on your official visit when the transportation occurs by automobile and all transportation occurs within the 48-hour period. Meals provided to you (and/or your parents) on an official visit may be provided either on or off the institution's campus.

The complimentary admissions you receive may provide you seating only in the facility's general seating area. You may not be given special seating (e.g., press box, bench area). In addition, a student host may help you (and your family) become acquainted with campus life. The host may spend $30 per day to cover all costs of entertaining you (and your parents, legal guardians or spouse); however, the money can't be used to purchase souvenirs such as T-shirts or other college mementos. Additionally, during a campus visit, the school may provide you with a student-athlete handbook.

**Printed Materials**

A Division I college that is recruiting you may provide to you only the following printed materials on or after September 1 of your junior year:

- Official academic, admissions and student services publications and videotapes published by the college;
- General correspondence, including letters and college note cards (attachments to correspondence may include materials printed on plain white paper with black ink);
- Game programs (a college may only give you a program on an official or unofficial visit; colleges may not mail you a program);
- A media guide or recruiting brochure (but not both) in each sport;
- Any necessary preenrollment information about orientation, conditioning, academics, practice activities, as long as you have signed a National Letter of Intent or have been accepted for enrollment;
- One student-athlete handbook. (A college may only give you a handbook on an official or unofficial visit. Effective August 1, 1997, a college may mail you a handbook once you’ve signed a National Letter of Intent or been accepted for enrollment.)
- One wallet-size playing schedule card in each sport.

In addition, a Division I college may show you a highlight film/videotape, but may not send it to or leave it with you or your coach.

Finally, a Division I college also may provide you a questionnaire, camp brochure and educational information published by the NCAA (such as this guide) at any time.

## Division II

In addition to general recruiting regulations, no alumni or representatives of a college’s athletics interests (boosters or representatives) can be involved in off-campus recruiting; however, you may receive letters from boosters, faculty members, students and coaches on or after September 1 of your junior year. In all sports other than football, telephone calls from coaches, boosters and faculty members are permissible on or after July 1 after completion of your junior year. In Division II football, telephone calls may not begin before August 15 after your junior year.

After this, in sports other than football, a college coach or faculty member is limited to one telephone call per week to you (or your parents or legal guardians), except that unlimited calls to you (or your parents or legal guardians) may be made under the following circumstances:

- During the five days immediately before your official visit (by the college you’ll be visiting);
- On the day of the coach’s off-campus contact with you; and
- On the initial date for signing the National Letter of Intent in your sport through the two days after the initial signing date.

In Division II football, unlimited phone calls to you can be made during a contact period and once a week outside of a contact period.

Coaches may accept collect calls and use a toll-free (1-800) number to receive telephone calls from you (or your parents or legal guardians) at any time.

Enrolled students (including student-athletes) may not make recruiting telephone calls to you unless the calls are made as a part of an institution’s regular admissions program directed at all prospective students. Enrolled students (including student-athletes) may receive telephone calls at your expense on or after July 1 after completion of your junior year.

You (or your family) may not receive any benefit, inducement or arrangement such as cash, clothing, cars, improper expenses, transportation, gifts or loans to encourage you to sign an institutional or conference letter of intent or to attend an NCAA school.

A college coach may contact you in person off the college campus but only on or after July 1 after completion of your junior year.

Any face-to-face meeting between a coach and you or your parents, during which any of you say more than “hello” is a contact. Furthermore, any face-to-face meeting that is pre-arranged, or occurs at your high school or at any competition or practice site is a contact, regardless of the conversation. These contacts are not permissible “bumps.”

In all sports, coaches may contact you off the college campus three times. However, a coach may visit your high school (with your high-school principal’s approval) only once a week during a contact period.

An evaluation is any off-campus activity used to assess your academic qualifications or athletics ability, including a visit to your high school (during which no contact occurs) or watching you practice or compete at any site.

In all sports, coaches may not evaluate you more than four times during the academic year. Competition on consecutive days within a tournament (and normally at the same site) or that involves a tier of a tournament (e.g., regional) counts as a single evaluation. Once you sign a National Letter of Intent, you may be evaluated an unlimited number of times by a college coach from the college with which you have signed.

In football and basketball only, there are specified periods when a coach may contact you off the college campus and/or attend your practices and games to evaluate your athletics ability.

### 1998-99 Contact Periods

**Football**—December 1, 1998, through March 8, 1999.

**Men’s Basketball**—September 7 through October 14, 1998; March 1 through March 25, 1999; March 30 (noon) through April 5 (7 a.m.), 1999; April 7 (7 a.m.) through May 10, 1999.

**Women’s Basketball**—September 7 through October 14, 1998; March 1 through April 5 (7 a.m.), 1999; April 7 (7 a.m.) through May 10, 1999.
998-99 Evaluation Periods

Football—During any contact period; during November 1998 and May 1999; the period between the prospect’s initial and final contests; during any high-school all-star game that occurs in the state where the college is located.

Men’s Basketball—During any contact period; the period between the prospect’s initial and final contests; June 15 through August 1; during any high-school all-star game that occurs in the state where the college is located.

Women’s Basketball—During any contact period; the period between the prospect’s initial and final contests; during any sanctioned AAU competition between May 18 and June 14; June 15 through August 1; during any high-school all-star game that occurs in the state where the college is located.

(Note: There is a “dead” period (coaches may not contact or evaluate you on or off the college campus) in all sports 48 hours before 7 a.m. on the initial signing date for the National Letter of Intent.)

With the permission of your high school’s director of athletics, you may tryout for a college team before enrollment. The tryout must occur in a term other than the term in which the traditional season in the sport occurs or after your high-school eligibility is completed and may include tests to evaluate your strength, speed, agility and sports skills. Except in football, ice hockey, lacrosse, soccer and wrestling, the tryout may include competition.

You can visit a college campus any time at your expense. On such a visit, you may receive three complimentary admissions to a game on that campus, a tour of off-campus practice and competition sites in your sport and other facilities within 30 miles of the campus, and a meal for you and your parents or guardians in the college’s on-campus student dining facilities.

Official Visits

During your senior year, you can have one expense-paid (official) visit to a particular campus. You may receive no more than a total of five such visits. This restriction applies even if you are being recruited in more than one sport. A college may not give you an official visit unless you have provided it with a PSAT, ACT or SAT score from a test taken on a national testing date under national testing conditions.

During your official visit (which may not exceed 48 hours), you may receive round-trip transportation between your home (or high school) and the campus, and you (and your parents) may receive meals, lodging and complimentary admissions to campus athletics events. In addition, a student host may help you (and your family) become acquainted with campus life. The host may spend $30 per day to cover costs of entertaining you (and your parents, legal guardians or spouse); however, the money cannot be used to purchase college souvenirs such as T-shirts or other college mementos.

Printed Materials

A Division II college recruiting you may provide to you only the following printed materials on or after September 1 at the beginning of your junior year:

• Official academic, admissions and student-services publications or videotapes published by the college;
• General correspondence, including letters and college note cards;
• Newspaper clippings, provided they are not assembled in any form of a scrapbook;
• A media guide or recruiting brochure (but not both) in each sport;
• Game programs (a college may only give you a program on an official or unofficial visit; colleges may not mail you a program);
• Any preenrollment information about orientation, conditioning, academics, and (or) practice activities, as long as you have signed a National Letter of Intent or have been accepted for enrollment by a member college;
• One student-athlete handbook. (A college may only give you a handbook on an official or unofficial visit. A college may not mail it to you.); and
• One wallet-size playing schedule card in each sport.

In addition, a Division II college may show you a highlight film/videotape, but may not send it to you or leave it with you or your coach.

Finally, a Division II college also may provide you with a questionnaire, camp brochure and educational information published by the NCAA (such as this guide) at any time.

Division III

In addition to general recruiting regulations, you (or your family) may not receive any benefit, inducement or arrangement such as cash, clothing, cars, improper expenses, transportation, gifts or loans to encourage you to attend any NCAA school.

An athletics department staff member, alumni or representative of a college’s athletics interests (boosters or representatives) may contact you in person off the college campus after your junior year of high school. There is no limit on the number of contacts or the period when they may occur. You may not tryout for a Division III college’s athletics team. A tryout is any physical activity (e.g., practice session or test) conducted by or arranged on behalf of a college, at which you display your ability.

You can visit a college campus any time at your own expense. On such a visit, you may receive three complimentary admissions to a game on that campus; a tour of off-campus practice and competition sites in your sport and other college facilities within 30 miles of the campus; a meal in the col-
lege's on-campus student dining facilities; and housing, if it is available to all visiting prospective students.

**Official Visits**

During your senior year, you can make one expense-paid (official) visit to a particular campus; however, there is no limit on the number of campuses that you may visit if you initially enroll in a Division III college.

During your official visit (which may not exceed 48 hours), you may receive round-trip transportation between your home (or high school) and the campus, and you (and your parents) may receive meals, lodging and complimentary admissions to campus athletics events. All meals provided to you (and/or your parents) on an official visit must occur in an on-campus dining facility that the college’s students normally use. If dining facilities are closed, the college is permitted to take you off-campus for meals. In addition, a student host may help you (and your family) become acquainted with campus life. The host may spend $20 per day to cover all costs of entertaining you (and your parents, legal guardians or spouse); however, the money can’t be used to purchase college souvenirs such as T-shirts or other college mementos.

Finally, a Division III college is permitted to provide you and your high-school and/or two-year college coach any official academic, admissions, athletics and student-services publications published by the college and other general information available to all students.

---

**National Letter of Intent**

The National Letter of Intent is administered by the Collegiate Commissioners Association, not the NCAA. There are restrictions on signing a National Letter of Intent that may affect your eligibility. These restrictions are contained in the letter of intent. Read it carefully. If you have questions about the National Letter of Intent signing dates or restrictions about signing, contact the conference office of the college you are interested in attending. Please note that some conferences don’t subscribe to the National Letter of Intent program.

Remember, do not sign any institutional or conference letter of intent (or financial aid agreement) before the National Letter of Intent signing date.

---

**Professionalism**

Don’t lose your college eligibility by becoming a professional.

You are a “professional” if you:

- Are paid (in any form) or accept the promise of pay for playing in an athletics contest;
- Sign a contract or verbally commit with an agent or a professional sports organization;
- Ask that your name be placed on a draft list [Note: In basketball, once you become a student-athlete at an NCAA school, you may enter a professional league’s draft one time without jeopardizing your eligibility provided you are not drafted by any team in that league and you declare your intention in writing to return to college within 30 days after the draft];
- Use your athletics skill for pay in any form (for example, TV commercials, demonstrations);
- Play on a professional athletics team; or
- Participate on an amateur sports team and receive any salary, incentive payment, award, gratuity, educational expenses or expense allowances (other than playing apparel, equipment and actual and necessary travel, and room and board expenses).

Before enrolling in college, you may:

- Tryout (practice with but not participate against outside competition) with a professional sports team at your expense;
- Receive actual and necessary expenses from any professional sports organizations for one visit per professional organization not in excess of 48 hours; and
- Receive a fee for teaching a lesson in a particular sport.
Agents

During high school, you might be contacted by a player-agent. A player-agent may want to represent you in contract negotiations or for commercial endorsements if you show the potential to be a professional athlete. Agents may contact you during your high-school years to gain an advantage over other individuals who may wish to represent you when your college eligibility expires. Many times, these individuals will not represent themselves as agents, but rather as someone interested in your overall welfare and athletics career. These individuals also may try to give gifts or benefits to you and your family.

NCAA rules don’t prohibit meetings or discussions with an agent. However, you jeopardize your college eligibility in a sport if you agree (orally or in writing) to be represented by an agent while in high school or college, regardless of whether the agreement becomes effective immediately or after your last season of college eligibility. Also, receiving any benefits or gifts by you, your family or friends from a player-agent would jeopardize your college eligibility.

If an individual contacts you about marketing your athletics ability, please be careful. If you have concerns about a player-agent, contact your high-school coach, director of athletics or the NCAA national office for assistance.

Drug Testing

If you attend an NCAA school, you will be subject to regulations prohibiting drug use. Each academic year in Divisions I and II sports in which the NCAA conducts year-round drug testing (currently Divisions I and II football and track and field), you must sign a drug-testing consent form when you report for practice or before the Monday of your college’s fourth week of classes, whichever occurs earlier. In all other Divisions I and II sports and in Division III each academic year, you must sign a drug-testing consent form before you compete. Drug testing occurs randomly on a year-round basis in Divisions I and II football and track and field. Drug testing also is conducted at NCAA championships and football bowl games. If you test positive, you will lose a season of competition in all sports if the season of competition has not yet started. If the season of competition has started, you will lose one full season of competition in all sports (i.e., remaining contests in the current season and contests in the following season up to the time that you were declared ineligible during the previous year). In addition, many colleges have their own drug-use policies that may affect your participation.

Further, the use of tobacco products is prohibited for coaches, game officials and student-athletes in all sports during practice and competition. A student-athlete who uses tobacco products during practice or competition is automatically disqualified for the remainder of that practice or game.

Graduation Rates

To help you in selecting a college, the NCAA national office annually publishes Divisions I, II and III admissions and graduation-rate information. To make the information easy to get, the Division I or II college recruiting you must provide its graduation-rate information to you, as well as your parents, at the earlier of the following opportunities: (1) upon request by you or your parents, or (2) after the school’s first arranged in-person meeting with you (or your parents) but not later than the day before you sign a National Letter of Intent or an offer of admission and/or financial aid.

In addition, the NCAA national office sends graduation-rate information annually to your high school.
What to Ask

The following questions and information were developed by the NCAA Student-Athlete Advisory Committee. The committee urges prospective student-athletes to ask these types of questions during their recruitment.

**Athletics**

1. **What positions will I play on your team?**
   - It's not always obvious.
   - Most coaches want to be flexible so that you are not disappointed.

2. **Describe the other players competing at the same position.**
   - If there is a former high-school all-American at that position, you may want to take that into consideration.
   - This will give you clues as to what year you might be a starter.

3. **Can I "redshirt" my first year?**
   - Find out how common it is to redshirt and how that will affect graduation.
   - Does the school redshirt you if you are injured?

4. **What are the physical requirements each year?**
   - Philosophies of strength and conditioning vary by institution.
   - You may be required to maintain a certain weight.

5. **How would you best describe your coaching style?**
   - Every coach has a particular style that involves different motivational techniques and discipline.
   - You need to know if a coach's teaching style does not match your learning style.

6. **What is the game plan?**
   - For team sports, find out what kind of offense and defense is employed.
   - For individual sports, find out how you are seeded and how to qualify for conference and national championships.

7. **When does the head coach's contract end?**
   - Don't make any assumptions about how long a coach will be at a school.
   - If the coach is losing and the contract ends in two years, you may have a new coach.

8. **Describe the preferred, invited and uninvited walk-on situation. How many make it, compete and earn a scholarship?**
   - Different teams treat walk-ons differently.

**Academics**

1. **How good is the department in my major?**
   - Smaller colleges can have very highly rated departments.
   - A team's reputation is only one variable to consider.

2. **What percentage of players on scholarship graduate in four years?**
   - This will tell you about the quality of their commitment to academics.
   - The team's grade-point average also is a good indicator of the coach's commitment to academics.

**College Life**

1. **Describe the typical class size.**
   - At larger schools, classes are likely to be larger and taught by teaching assistants.
   - Average class size is important to the amount of attention you receive.

2. **Describe in detail your academic support program. For example: Study-hall requirements, tutor availability, staff, class load, faculty cooperation.**
   - This is imperative for marginal students.
   - Find a college that will take the 3.000 students and help them get a 3.500 GPA.

3. **Describe the typical day for a student-athlete.**
   - This will give you a good indication of how much time is spent in class, practice, studying and traveling.
   - It also will give you a good indication of what coaches expect.

4. **What are the residence halls like?**
   - Make sure you would feel comfortable in study areas, community bathrooms and laundry facilities.
   - Number of students in a room and coed dorms are other variables to consider.
Will I be required to live on campus throughout my athletics participation?
- If the answer is yes, ask whether there are exceptions.
- Apartment living may be better than dorm living.

Financial Aid

How much financial aid is available for summer school?
- There is no guarantee. Get a firm commitment.
- You may need to tighten your normal load and go to summer school in order to graduate in four years. You can take graduate courses and maintain your eligibility.

What are the details of financial aid at your institution?
- What does my scholarship cover?
- What can I receive in addition to the scholarship and how do I get more aid?

How long does my scholarship last?
- Most people think a “full ride” is good for four years.
- Financial aid is available on a one-year renewable basis.

If I’m injured, what happens to my financial aid?
- A grant-in-aid is not guaranteed past a one-year period even for injuries.
- It is important to know if a school has a commitment to assist student-athletes for more than a year after they have been injured.

What are my opportunities for employment while I’m a student?
- Find out if you can be employed in-season, out-of-season or during vacation periods.
- NCAA rules prohibit you from earning more than the cost of attendance during the academic year.

Additional Comments

Scouting Services
- During high school, you might be contacted by a scouting service. NCAA rules prohibit scouting services from receiving payment based on the amount of your college scholarship. The NCAA does not sanction or endorse any scouting service. Therefore, attempt to determine whether the scouting service meets NCAA requirements.

All-Star Contests
- After your high-school eligibility is completed and before graduation, you can participate in two high-school all-star football or basketball contests in each sport.

Transfer Students
- If you transfer from a two-year or four-year college to an NCAA school, you must satisfy certain requirements before being eligible to participate in athletics at that college. Call the NCAA office if you have questions about transfer requirements. You can order free of charge the NCAA Student-Athlete Transfer Guide by calling 800/638-3731.

Student-Athlete Statement
- Each academic year, you must sign a statement about your eligibility, recruitment, financial aid and amateur status under NCAA rules. Don’t jeopardize your eligibility by violating NCAA rules.

NCAA eligibility rules are sometimes complex as they apply to certain students. This guide should not be relied upon exclusively. Contact the NCAA office or appropriate conference office for proper interpretations in specific cases. Your inquiries should be addressed to the NCAA membership services staff at the address on the contents page of this brochure.
