These skill standards, developed through a consortium of educational and industry partners in Illinois, serve as guides to workforce preparation program providers to define content for their programs and to employers to establish the skills and standards necessary for job acquisition and performance. The skill standards include the following components for each skill defined: performance area; performance skill; skill standard; and performance elements and assessment criteria. This publication contains skill standards for medical office personnel defined on three levels by increasing level of difficulty. The skill standards are grouped in the following areas: (1) organization and planning; (2) maintenance of equipment and supplies; (3) medical office activities; (4) medical dictation and transcription duties; (5) preparation of medical records and insurance forms; (6) financial functions; (7) management of records and files; (8) mail handling; (9) basic office operations; (10) information processing activities; (11) word processing; (12) machine transcription; (13) basic data processing; (14) computer file manipulation; (15) document processing; (16) database and spreadsheet operations; and (17) computer applications. Each area contains 3-21 standards. The following items are appended: glossary; lists of Illinois Occupational Skill Standards and Credentialing Council, Business and Administrative/Information Services Subcouncil, Health and Social Services Subcouncil, and Medical Offices Standards Development Committee members; Business and Administrative/Information Services Subcouncil Medical Office Occupations Cluster Recognition Proposal; and a list of workplace skills. MESSAGE TO ILLINOIS CITIZENS

Dear Citizens of Illinois:

Preparing youth and adults to enter the workforce and to be able to contribute to society throughout their lives are critical to the economy of Illinois. Public and private interest in establishing national and state systems of industry-driven skill standards and credentials is growing in the United States, especially for occupations that require less than a four-year college degree. This interest stems from the understanding that the United States will increasingly compete internationally and the need to increase the skills and productivity of the front-line workforce. The major purposes of skill standards and credentialing systems are to promote education and training investment and ensure that this education and training enable students and workers to meet industry standards that are benchmarked to our major international competitors.

The Illinois Occupational Skill Standards and Credentialing Council (IOSSCC) has been working with industry subcouncils, the Illinois State Board of Education and other partnering agencies to adopt, adapt and/or develop skill standards for high-demand occupations. This document represents the work of the Business and Administrative/Information Services Subcouncil and the Health and Social Services Subcouncil and the associated standards development committee. Through this collaborative effort, skill standards products are being developed for a myriad of industries, occupational clusters and occupations. Upon completion of these products, there will be a period of feedback and comment from business, industry and labor representatives, as well as educators.

These documents will serve as guides to workforce preparation program providers to define content for their programs and to employers to establish the skills and standards necessary for job acquisition. These standards will also serve as a mechanism for communication among education, business, industry and labor.

We encourage you to review these standards and share your comments. This effort has involved a great many people from business, industry and labor. Comments regarding their usefulness in curriculum and assessment design, as well as your needs for inservice and technical assistance in their implementation, are critical to our efforts to move forward and improve the documents. A feedback instrument is included with this document.

We look forward to your comments.

Sincerely,

The Members of the IOSSCC
The Illinois Occupational Skill Standards and Credentialing Council (IOSSCC) endorses occupational skill standards and credentialing systems for occupations that (a) require basic workplace skills and technical training, (b) provide a large number of jobs with either moderate or high earnings, and (c) provide career advancement opportunities to related occupations with moderate or high earnings. The nine-member Council was established by the Occupational Skill Standards Act (PA 87-1210). The council, representing business, industry and labor and working with the Illinois State Board of Education in partnership with the Illinois Community College Board, Illinois Board of Higher Education, Illinois Department of Employment Security and Illinois Department of Commerce and Community Affairs, has created a common vision for workforce development in Illinois.

**Vision**

It is the vision of the IOSSCC to develop a statewide system of industry-defined and recognized skill standards and credentials for all major skilled occupations providing strong employment and earnings opportunities in Illinois. Information related to occupational employment and earning opportunities is determined by the Illinois Occupational Information Coordinating Committee (IOICC) in cooperation with business and industry.

**Subcouncils and Standards Development Committees**

The Council developed industry subcouncils (representing all major industries in Illinois) to review, approve and promote occupational skill standards and credentialing systems. In cooperation with organizations such as the Illinois Chamber of Commerce, the Illinois AFL-CIO, the Illinois Manufacturers' Association and others, the Council established the first five subcouncils in 1995—Agricultural and Natural Resources, Manufacturing, Health and Social Services, Hospitality, and Business and Administrative/Information Services.

The remaining subcouncils include Applied Science and Engineering Services; Legal and Protective Services; Transportation, Distribution and Logistics; Educational Services; Financial Services; Marketing and Retail Trade; Communications; Construction; and Energy and Utilities.

The Standards Development Committees, composed of business, labor and education representatives, are experts in the related occupational cluster and work with the product developer to
- develop or validate occupational skill standards,
- identify related academic skills,
- develop or review assessment or credentialing approaches, and
- recommend endorsement of the standards and credentialing system to the industry subcouncil.

**Expected Benefits for Employers, Educators, Students and Workers**

Occupational skill standards and credentialing systems are being developed and promoted by the IOSSCC to improve Illinois' competitiveness. Such standards and credentialing systems provide a common language for employers, workers, students and education and training providers to communicate skill requirements and quality expectations for all major industry and occupational areas.

**For Employers, skill standards will**
- Improve employee recruitment and retention by more clearly identifying skill requirements,
- Encourage improved responsiveness and performance of education and training providers,
- Enlarge the pool of skilled workers,
- Focus attention on the importance of training investment.
For Education and Training Providers, skill standards will

• Provide information on all major industries and occupations,
• Contribute to program and curriculum development,
• Strengthen relationships between educators and training providers,
• Improve career planning.

For Students and Workers, skill standards will

• Foster better decision making concerning careers and the training necessary to acquire well-paying jobs,
• Allow more effective communication with employers about what they know and can do,
• Allow more effective work with employers in career development and skill upgrading.

IOSSCC Requirements for Occupational Skill Standards

Any occupational skill standards and credentialing system seeking IOSSCC endorsement must

• represent an occupation or occupational cluster which meets the criteria for IOSSCC endorsement;
• address both content and performance standards for critical work functions and activities for an occupation or occupational area;
• ensure formal validation and endorsement by a representative group of employers and workers within an industry;
• provide for review, modification and revalidation by an industry group a minimum of once every five years;
• award credentials based on assessment approaches that are supported and endorsed by the industry and consistent with nationally recognized guidelines for validity and reliability;
• provide widespread access and information to the general public in Illinois;
• include marketing and promotion by the industry in cooperation with the partner state agencies.

Definitions and Endorsement Criteria

The definitions and endorsement criteria are designed to promote the integration of existing and future industry-recognized standards, as well as the integration of the Illinois academic and occupational skill standards. Because all skill standards must address the critical work functions and activities for an occupation or industry/occupational area, the Council further defined three major components:

• **Conditions of Performance:** The information, tools, equipment and other resources provided to a person for a work performance.

• **Statement of Work:** A description of the work to be performed by a person.

• **Performance Criteria:** The criteria used to determine the required level of performance. These criteria could include product characteristics (e.g., accuracy levels, appearance), process or procedural requirements (e.g., safety, standard professional procedures) and time and resource requirements. The IOSSCC also requires performance criteria to be further specified by detailed individual performance elements and assessment criteria.

The IOSSCC is currently working with the Illinois State Board of Education and other state agencies to integrate the occupational standards with the Illinois learning standards which describe what students should know and be able to do as a result of their education. The Council is also working to integrate workplace skills—problem solving, critical thinking, teamwork, etc.—with both the learning and occupational skill standards.
The Illinois Model

Illinois Occupational Skill Standards describe what people should know and be able to do and how well these skills and knowledge will be demonstrated in an occupational setting. They focus on the most critical work performances for an occupation or occupational area. As seen in the following model, Illinois Occupational Skill Standards contain at least these areas:

- Performance Area
- Performance Skill
- Skill Standard
- Performance Elements and Assessment Criteria

The Assessment and Credentialing Approach section may also be included at the direction of the individual standards development committee.

Illinois Occupational Skill Standards also carry a coding at the top of each page identifying the state, fiscal year in which standards were endorsed, subcouncil abbreviation, cluster abbreviation and standard number. For example, the twenty-fifth skill standard in the Medical Office Cluster, which has been developed by the Business and Administrative/Information Services Subcouncil and the Health and Social Services Subcouncil, would carry the following coding: IL.97.BALMO.25

A model for Illinois Occupational Skill Standards showing the placement of the coding and providing a description of each area within a standard is contained on the following page.
SUMMARY OF WORK TO BE PERFORMED. SUMMARY IS BRIEF AND BEGINS WITH AN ACTION VERB.

**SKILL STANDARD**

**CONDITIONS OF PERFORMANCE**
Includes all information, tools, equipment and other resources provided to the learner for performing the work.

**WORK TO BE PERFORMED**
Provides an overview of the performance with the major elements or steps being described under Performance Elements and Assessment Criteria.

**PERFORMANCE CRITERIA**
Includes product characteristics (e.g., accuracy levels, appearance) and/or process or procedure requirements (e.g., safety requirements). Time limits, rates and/or speeds are specified in the Performance Criteria.

**PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA**
Statement of the major elements, components or steps of the overall performance and the assessment criteria for determining successful performance. Includes all major tasks, the knowledge to be demonstrated and specific assessment criteria.

**ASSESSMENT-AND-CREDENTIALING APPROACH**
Optional statement of suggested assessment approaches for the performance which also refers to existing assessment and credentialing systems.
DEVELOPMENTAL PROCESS

The Business and Administrative/Information Services Subcouncil met in September 1995. An in-depth study of the current labor market information was done during this initial meeting.

After studying the labor market information, it was decided that the medical office occupations cluster would be an occupational area for which performance skill standards would be developed. Other cluster areas were prioritized and priority status was given to information processing, administrative support, legal office occupations, computer software specialist, business computer programming, accounting occupations and human resources occupations. Management occupations for all the clusters were also given priority status. The Information Processing, Administrative Support and Legal Office Occupational Skill Standards have been completed and approved by the Illinois Occupational Skill Standards and Credentialing Council.

A product developer knowledgeable with the medical office occupations cluster began the process of performance skill identification in the summer of 1996. Given the range of skills within this cluster, the initial charge for the product developer was to prepare an organizational framework that would address the major skills expected in the workplace.

Common and accepted references provided reinforcement for the direction given in the occupational framework. Those references included current texts used by educational institutions, curriculum guides from Illinois and other states, V-TECS guides from many states, contact with secondary and postsecondary instructors, JTPA trainers at the community college level, vocational student organization competency testing and many professional journals.

A standards development committee composed of workers at all levels within this cluster was convened. The framework and initial outline of performance skills were presented to the standards development committee for review, adjustment and/or validation. During the first meeting the framework and the outline of skills were finalized. Work then started on the development of the skill standards statements and the elements/assessment criteria in accordance with the direction established by the Illinois Occupational Skill Standards and Credentialing Council. The product developer submitted the first draft of the performance skill standards to the standards development committee for review in the fall of 1996. The standards development committee met three times to review the skill standards statements and made recommendations for revisions. Persons on the standards development committee worked on various areas in the performance skill standards. These persons used the fax and telephone throughout this process in communicating with the product developer. All members of the standards development committee then reviewed and agreed to the final performance skill standards.

The performance skill standards were provided to the Business and Administrative/Information Services Subcouncil and approval of the medical office occupations cluster was received. Letters of support from the Subcouncil members are available upon request from the Illinois State Board of Education. Lists of the Subcouncil and Standards Development Committee members are found in Appendixes C and D, respectively.

The Business and Administrative Services Subcouncil and the Standards Development Committee for the medical office occupations cluster identified the occupations for which performance skill standards would be developed. The medical office occupations were identified as follows:

- **Level 1:** Health Care Clerical Personnel
  Medical Clerical Support Personnel
- **Level 2:** Health Information Processor
- **Level 3:** Medical Secretary Personnel

These three occupational areas, generally found in clinics and medical offices, typically include the following responsibilities.
Level 1: Health Care Clerical Personnel or Medical Clerical Support Personnel

Organizes and plans by prioritizing own work, taking notes, establishing and maintaining a reminder system, distributing materials, demonstrating office procedures and equipment as appropriate, delegating work to others when applicable and improving office procedures. May requisition, inventory and maintain office supplies and equipment as well as perform routine maintenance on office equipment. May perform medical office activities such as scheduling appointments, receiving and storing medical supplies, maintaining reception room and obtaining notarization of a document.

May prepare medical records and insurance forms by assisting patients with registration process, completing third-party-payer forms and completing birth certificates. May perform financial duties such as collecting and processing fees, issuing receipts, inspecting invoices for accuracy and preparing and posting petty cash vouchers.

May manage records and files by establishing and maintaining a filing system, retrieving information from files and maintaining confidential files. May handle all aspects of mail including faxes, e-mail and packages. May perform other office duties by performing receptionist duties, getting documents notarized and searching informational sources. May perform information processing duties.

Level 2: Health Information Processor

Organizes and plans by prioritizing own work, taking notes, establishing and maintaining a reminder system, distributing materials, demonstrating office procedures and equipment as appropriate, delegating work to others when applicable and improving office procedures. May requisition, inventory and maintain office supplies and equipment as well as perform routine maintenance on office equipment.

May perform medical office activities by having documents notarized, reviewing technical journals for articles of interest and making entries in communication log. May perform medical dictation/transcription duties. May prepare medical records and insurance forms by preparing entry-level coding appropriate to physician’s office or clinic and reviewing medical records for completeness and accuracy. May manage records and files such as establishing and maintaining a filing system, retrieving information from files and maintaining confidential files. May handle all aspects of mail including faxes, e-mail and packages. May perform other office duties such as receptionist duties, getting documents notarized, searching informational sources, answering routine correspondence and taking minutes at meetings. May perform information processing activities.

Level 3: Medical Secretarial Personnel

Organizes and plans by prioritizing own work, keeping appointment calendar for supervisor, planning on-site meetings, making domestic and international travel arrangements and preparing itinerary, delegating work to others when applicable, arranging for one- and three-day off-site conferences, planning receptions and dinners, making travel arrangements for clients and visitors, composing and updating written office procedures, developing liaisons with professional organizations and planning and recommending physical layout of the office.

May maintain and inventory equipment, supplies and software. May perform medical office activities such as scheduling appointments, receiving and storing medical supplies, maintaining reception room, having documents notarized and reviewing technical journals for articles of interest.

May perform medical dictation/transcription duties by taking verbatim dictation using shorthand or speedwriting, taking dictation directly at the computer and transcribing medical documents.

May prepare medical records and insurance forms by registering new and established patients, doing basic coding appropriate to specific practice, reviewing medical records for completeness and accuracy and completing third-party-payer forms.
May perform financial duties for the medical office such as collecting fees and issuing receipts, completing payment vouchers, preparing checks, maintaining checkbook and reconciling bank statement, preparing travel vouchers, categorizing expenses and preparing expense reports, making journal entries, maintaining income and expense records, preparing office payroll and appropriate tax withholding reports and handling petty cash.

May manage records and files by establishing and maintaining a filing system, retrieving information from files and maintaining confidential files. May handle all aspects of mail including faxes, e-mail and packages.

May perform other office duties such as performing receptionist duties, getting documents notarized, searching informational sources, maintaining personnel files and employee attendance/time sheets/vacation records, answering routine correspondence and taking minutes at meetings. May perform information processing activities.

Industry Commitment for Development and Updating

The development of these performance skill standards is a result of the efforts of the subcouncils and the standards development committee. The development effort utilized the following steps:

- Performance skills identified by the product developer
- Resources reviewed
- Standards development committee of incumbent workers convened
- Performance skills validated and approved by standards development committee
- Draft performance skill standards developed
- Skill standards reviewed by standards development committee
- Skill standards reviewed and approved by subcouncil
- Skill standards adopted by subcouncil

Lists of the Business and Administrative/Information Services and the Health and Social Services Subcouncils are located in Appendix C and the list of the Medical Office Occupations Standards Development Committee members is located in Appendix D.

Industry Commitment for Marketing

The Business and Administrative/Information Services and the Health and Social Services Subcouncils are committed to marketing and obtaining support and endorsement from the business community impacted by these skill standards.

The subcouncils will encourage the availability of occupational skill standards to the public including learners, parents, workers, educators at all levels, employers and the industry organizations.

Letters of commitment from subcouncil members to this effort are available from the Illinois State Board of Education upon request.
ASSUMPTIONS FOR MEDICAL OFFICE CLUSTER STANDARDS

Skill standards statements assume:

1. Workplace skills (employability skills) are expected of all learners. Socialization skills needed for work are related to the lifelong career experience and are not solely a part of the initial schooling process.

2. Specific policies and procedures of the worksite will be made known to the learner and will be followed.

3. Time elements outlined for the skill standards result from the experience and consideration of the panel of experts who made up the standards development committee.

4. Skills will progress from simple to complex. Once a skill has been successfully performed, it must be incorporated into more complex skills.

5. The selection of skill standards is not intended to embrace the entire skill base or body of current or future knowledge associated with the office occupations area.

6. Skill standards are developed to describe the skill only and do not detail the background knowledge or beginning skills needed to demonstrate the particular skill. In the medical office cluster, these background knowledges and beginning skills would include keyboarding, formatting, document processing, machine transcription, proofreading techniques, business composition, computer applications, computer knowledge, computer terms, phone operations, mail handling, information processing concepts, mathematical applications, business English applications, spreadsheet use and concepts, database use and concepts, desktop publishing concepts, office procedures, basic word and data processing concepts and many other background knowledges and beginning skills needed to receive credentialing in these performance skill standards. In addition, medical terminology constitutes background knowledge and skill needed for this cluster.

7. Although the skill standard enumerates steps to successful demonstration, rote approaches to the outcomes are not prescribed.

8. Skills are identifiable, measurable standards of practice which students may use to demonstrate competency to employers. Students may develop portfolios of competencies to accompany them into a competitive workplace.

9. Skill standards are selected because they meet industry and employer needs and professional standards of practice.

10. Skill standards are designed to reflect international standards for good medical office occupations practices.

11. Skill standards do not replace, supersede or substitute for procedure manuals.

12. Skill standards are performed under conditions consistent with safe practices.

ORGANIZE AND PRIORITIZE OWN WORK.

ORGANIZATION AND PLANNING

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal and/or written instructions
- Computer
- Appropriate software
- Printer
- List of tasks to be accomplished
- Deadlines for each task
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes work organization information
- Equipment/software manuals

WORK TO BE PERFORMED

Prepare, print and store the following document:

List of tasks to be accomplished and deadlines for each task put in priority order with most urgent deadlines first

PERFORMANCE CRITERIA

Fifteen minutes* will be given to complete the project.

The document will be error free when printed for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review instructions.
3. Put tasks to be accomplished in priority order based on deadlines.
4. Set up format (margins, spacing, type style and size, page length, tabs, special features, header or footer, pagination, style sheet, etc.).
5. Prepare draft copy of tasks to be accomplished.
6. Run spell check and proofread for correctness of content, format, grammar, punctuation, capitalization and word divisions.
7. Input corrections as needed.
8. Repeat steps 6 and 7 until all errors have been found and corrected.
9. Prepare final version of tasks to be accomplished.
10. Store/Save document.
12. Remove diskette from disk drive. Label and file diskette (if applicable).
13. Log off of computer (if applicable).

The steps of performance have been numbered to show an appropriate sequence of completing the work to be performed; however, a different sequence may be used to perform the work.

**ASSESSMENT AND CREDENTIALING APPROACH**

Performance Test - See the skill standard.

Written test on related academics and knowledge needed to complete skill standard.
SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal and/or written instructions
- Note pad and pen
- Cassette tape with five minutes of information from which to take notes
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on taking notes

WORK TO BE PERFORMED

Take notes from the cassette tape.

PERFORMANCE CRITERIA

Ten minutes will be given to complete the project.
The notes will be error free when submitted for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Review instructions.
2. Listen to cassette tape and take notes making sure to include who should receive the information, who the information is from, time of the message and any other relevant information.
3. Play the cassette tape a second time to be sure all of the information is correct. (This will take the place of repeating the information back to the caller to check for accuracy.)

The steps of performance have been numbered to show an appropriate sequence of completing the work to be performed; however, a different sequence may be used to perform the work.

ASSESSMENT AND CREDENTIALING APPROACH

Performance Test - See the skill standard.

Written test on related academics and knowledge needed to complete skill standard.
MAINTAIN TICKLER/FOLLOW-UP FILE.

ORGANIZATION AND PLANNING

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal and/or written instructions
- Tickler file folders labeled by date with a content log sheet stapled to the front of each one
- Ten documents to be filed
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on maintaining tickler files

WORK TO BE PERFORMED

File the 10 documents in the appropriate tickler/follow-up files.

PERFORMANCE CRITERIA

Fifteen minutes* will be given to complete the project.

The file folders containing the filed documents will be error free when submitted for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Review instructions and the file folder labels.
2. Divide the information into groups to be filed together.
3. Record the documents on the appropriate document log sheet.
4. Place the information in the appropriate file folders following company filing procedures.

The steps of performance have been numbered to show an appropriate sequence of completing the work to be performed; however, a different sequence may be used to perform the work.

ASSESSMENT AND CREDENTIALING APPROACH

Performance Test - See the skill standard.

Written test on related academics and knowledge needed to complete skill standard.
MAINTAIN APPOINTMENT CALENDAR
(HARD COPY AND ON COMPUTER).

ORGANIZATION AND PLANNING

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal instructions
- Computer
- Appropriate software
- Printer
- Transcribing equipment
- Media to be transcribed
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on preparing letters and memos
- Equipment/software manuals

WORK TO BE PERFORMED

Prepare, print and store the following business documents:

- One-half page memo
- One-page letter (three paragraphs)
- One and one-half page letter with a header on the second page

PERFORMANCE CRITERIA

One hour* will be given to complete the computer projects.

The documents will be input in memo or business letter format and be error free when printed for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
   d. Turn on transcribing equipment; insert dictation media; put on earphone(s); adjust foot pedal and adjust volume, tone and speed controls.
2. Review dictation to determine format, length of document and any special instructions from originator.
3. Set up format (margins, spacing, type style and size, page length, tabs, special features, headers or footers, pagination, style sheet, etc.).
4. Keyboard the documents. Save frequently if correspondence is lengthy.
5. Run spell check.
6. Proofread correspondence while still on monitor and input corrections; proofread for correctness of content, format, grammar, punctuation, capitalization and word divisions.
7. Print correspondence.
8. Proofread and edit hard copy of correspondence using proofreader's symbols to indicate changes.
9. Input corrections to correspondence (use insert, delete, move, copy and search and replace commands).
10. Repeat steps 7 - 9 until all errors have been found and corrected.
11. Store/Save documents.
12. Print correspondence.
13. Turn off transcribing equipment, remove dictation media, note that material has been transcribed and file dictation media.
14. Remove diskette from disk drive. Label and file diskette (if applicable).
15. Log off of computer (if applicable).

INPUT, UPDATE AND STORE DATA INTO RECORDS IN AN EXISTING DATABASE.

BASIC DATA PROCESSING

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal and/or written instructions
- Computer
- Appropriate software
- Appropriate database containing ten records on disk
- Printer
- Legible copy to be keyed
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on preparing databases
- Equipment/software manuals

WORK TO BE PERFORMED

Input, update and store the following in records in an existing database:

Add 30 names and mailing addresses (minimum of 5 fields per record using date, alphabetic and numeric entries).
Add, delete and update data in fields in records in an existing database.

PERFORMANCE CRITERIA

One hour* will be given to complete the computer projects.

The 30 records (with a minimum of 5 fields using date, alphabetic and numeric entries) must be input into a database that has been set up and be error free when printed for evaluation.

The original and revised databases will be printed using a prepared quick report format for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review draft copy and any special instructions from originator.
3. Retrieve/open database; insert and delete records and update records as needed.
4. Keyboard the data into appropriate fields or revise the data in the records. Save frequently if database is lengthy.
5. Run spell check, if appropriate.
6. Proofread database while still on monitor and input corrections; proofread for correctness of content, format, punctuation, capitalization, etc.
7. Print database.
8. Proofread and edit hard copy of database using proofreader's symbols to indicate changes.
9. Input corrections to database (use insert, delete, move, copy and search and replace commands).
10. Repeat steps 7 - 9 until all errors have been found and corrected.
12. Print the original and revised databases using a prepared quick report format.
13. Remove diskette from disk drive. Label and file diskette (if applicable).
14. Log off of computer (if applicable).

OPEN STORED SPREADSHEET, INPUT AND UPDATE DATA INTO SPREADSHEET, STORE REVISED SPREADSHEET AND PRINT REVISED SPREADSHEET.

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal and/or written instructions
- Computer
- Appropriate software
- Printer
- Disk with spreadsheet stored on it
- Printed copy of spreadsheet with 20 legible additions and changes to be keyed
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on preparing spreadsheets
- Equipment/software manuals

WORK TO BE PERFORMED

Open and update a stored spreadsheet by doing the following:

- Open a one-page (21 rows x 7 columns) spreadsheet.
- Add data to cells of spreadsheet from legible rough draft copy.
- Update existing data in cells of spreadsheet from legible rough draft.
- Store the revised spreadsheet.
- Print the spreadsheet.

PERFORMANCE CRITERIA

One-half hour* will be given to complete the computer project.

The 20 changes will be input into a stored spreadsheet and be error free when printed for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review draft copy and any special instructions from originator.
3. Retrieve spreadsheet from disk.
4. Keyboard the data into appropriate cells or revise the data in the spreadsheet. 
Save frequently if spreadsheet is lengthy.
5. Run spell check.
6. Proofread spreadsheet while still on monitor and input corrections; proofread 
for correctness of content, format, punctuation, capitalization, etc.
7. Print spreadsheet.
8. Proofread and edit hard copy of spreadsheet using proofreader's symbols to 
indicate changes.
9. Input corrections to spreadsheet (use insert, delete, move, copy and search 
and replace commands).
10. Repeat steps 7 - 9 until all errors have been found and corrected.
12. Print spreadsheet.
13. Remove diskette from disk drive. Label and file diskette (if applicable).
14. Log off of computer (if applicable).

CREATE DATA DIRECTORY AND SUBDIRECTORIES/FOLDERS AND PLACE FILES IN SUBDIRECTORIES/FOLDERS. COPY, RENAME, MOVE AND DELETE FILES. COPY A DISK.

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal and/or written instructions
- Computer
- Appropriate software
- Printer
- Disk containing 40 files
- Blank disk
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on creating data directories and subdirectories/folders; saving files into subdirectories; copying, moving, renaming and deleting files; and copying a disk
- Equipment/software manuals

WORK TO BE PERFORMED

Print a copy of each subdirectory/folder after the following functions have been performed:

- Create two data directories.
- Create three subdirectories/folders in data directory, and place appropriate files in each of these subdirectories/folders.
- Copy files, move files from one subdirectory/folder to another, rename files and delete files.
- Copy a disk.

PERFORMANCE CRITERIA

One-half hour* will be given to complete the computer project.

The subdirectories/folders will be created and appropriate files moved into them with 100 percent accuracy. Four files will be copied, three files renamed, three files moved and four files deleted with 100 percent accuracy. The contents of each data directory and each subdirectory/folder will be error free when printed for evaluation.

The copied disk will be error free when submitted for evaluation.

*This does not allow for interruptions.
CREATE DATA DIRECTORY AND SUBDIRECTORIES/ FOLDERS AND PLACE FILES IN SUBDIRECTORIES/ FOLDERS. COPY, RENAME, MOVE AND DELETE FILES. COPY A DISK. (Continued)

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review any special instructions from originator.
3. Set up format (margins, spacing, type style and size, page length, tabs, special features, header or footer, pagination, style sheet, etc.).
5. Move designated files into appropriate directories/folders.
6. Proofread for accuracy.
7. Print a list of the contents of each data directory and subdirectory/folder.
8. Proofread and edit hard copy of subdirectories using proofreader's symbols to indicate changes.
9. Make corrections to directory/folder names and contents of directory/folder.
10. Repeat steps 7 - 9 until all errors have been found and corrected.
11. Copy, rename, move and delete designated files.
12. Print a list of the contents of each subdirectory/folder.
13. Copy the disk.
14. Remove diskette from disk drive. Label and file diskette (if applicable).
15. Log off of computer (if applicable).

The steps of performance have been numbered to show an appropriate sequence of completing the work to be performed; however, a different sequence may be used to perform the work.

**SKILL STANDARD**

**CONDITIONS OF PERFORMANCE**

Given the following equipment and materials:
- Verbal and/or written instructions
- Computer
- Appropriate software
- Printer
- Source disk containing 40 files
- Backup disk
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on making backup disks/files and deleting files from the backup
- Equipment/software manuals

**WORK TO BE PERFORMED**

Make backup disks/files of a data directory or subdirectory/folder and delete data from backup disks/files.

Make a backup disk from a source disk.

Delete designated files from the backup disk.

**PERFORMANCE CRITERIA**

Fifteen minutes* will be given to complete the computer project.

The backup disk will be created and appropriate files deleted with 100 percent accuracy.

The contents of the source disk, the backup disk and the backup disk after files are deleted will be error free when printed for evaluation.

*This does not allow for interruptions.

**PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA**

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review any special instructions from originator.
3. Create backup disk from source disk.
4. Delete designated files from backup disk.
5. Proofread for accuracy.
6. Print a list of the contents of source disk, backup disk and backup disk after designated files are deleted.
7. Proofread and edit hard copy of printouts using proofreader's symbols to indicate changes.
8. Make corrections to disks if necessary.
9. Repeat steps 6 - 8 until all errors have been found and corrected.
10. Remove diskette from disk drive. Label and file diskette (if applicable).
11. Log off of computer (if applicable).

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal and/or written instructions
- Computer
- Appropriate software
- Printer
- Copy to be keyed
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that contains USPS (United States Postal Service) regulations for mailing labels and addressing envelopes
- Equipment/software manuals

WORK TO BE PERFORMED

Prepare, print and store the following using the merge features:

- Six letters (one page—three paragraphs)
- Six envelopes
- Six mailing labels (two-column labels)

PERFORMANCE CRITERIA

Forty-five minutes* will be given to complete the computer projects.

The letters, envelopes and labels will be input in correct format and be error free when printed for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper and envelopes/labels.
2. Review draft copy of mailing addresses and any special instructions from originator.
3. Set up format (margins, spacing, type style and size, page length, tabs, special features, pagination, style sheet, etc.).
4. Keyboard the form letters and addresses. Save frequently.
5. Run spell check.
6. Proofread addresses while still on monitor and input corrections; proofread for correctness of content, format, punctuation and capitalization.
7. Print letters, envelopes and labels.
8. Proofread and edit hard copy of letters, envelopes and labels using proofreader's symbols to indicate changes.
9. Input corrections to letters and mailing addresses (use insert, delete, move, copy and search and replace commands).
10. Repeat steps 8 and 9 until all errors have been found and corrected.
11. Store/Save documents.
12. Reprint letters, envelopes and/or mailing labels that had corrections.
13. Remove diskette from disk drive. Label and file diskette (if applicable).

- Documents to be scanned
- Scanner
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual containing information on scanning documents
- Equipment/software manuals

WORK TO BE PERFORMED

Scan the following documents into computer:

- Two-page report
- Two pages from a book

PERFORMANCE CRITERIA

Forty-five minutes* will be given to complete the computer projects.

The two documents will be scanned into a word processing format, retrieved in the word processing program and be error free when printed for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
   d. Turn on scanner.
2. Review documents to be scanned and any special instructions from originator.
3. Scan the items.
4. Save in a word processing format.
5. Retrieve/open scanned text in word processing program.
6. Run spell check.
7. Proofread documents while still on monitor and input corrections; proofread for correctness of content, format, punctuation, capitalization, etc.
8. Print documents.
9. Proofread and edit hard copy of documents using proofreader's symbols to indicate changes.

LOCATE AND RETRIEVE INFORMATION FROM A VARIETY OF ELECTRONIC SOURCES.

DOCUMENT PROCESSING

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:
- Verbal and/or written instructions
- Computer with CD-ROM drive
- Terminal with access to electronic card catalog
- Appropriate software
- Printer
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on locating and retrieving information from a variety of electronic sources
- Equipment/software manuals

WORK TO BE PERFORMED

Locate and retrieve information from the following electronic sources:
- Electronic card catalog
- CD-ROM
- On-line
- Cyberspace (Internet or wide area network)

PERFORMANCE CRITERIA

One hour* will be given to locate, retrieve and document (in writing) one item from each of the sources listed above.
The written documentation will be error free when submitted for evaluation.

*This does not allow for interruptions or delays.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review any special instructions from originator.
3. Locate the requested information in each of the sources.
4. Set up format (margins, spacing, type style and size, page length, tabs, special features, header or footer, pagination, style sheet, etc.).
5. At the keyboard, compose draft of written documentation of located information.
6. Run spell check.
7. Edit and proofread the draft while it is still on the monitor.
8. Repeat step 7 until all errors have been found and corrected.
11. Remove diskette from disk drive. Label and file diskette (if applicable).

PLAN AND CREATE DATA IN DATABASES

DATABASE AND SPREADSHEET OPERATIONS

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:
- Verbal and/or written instructions
- Computer
- Appropriate software
- Printer
- Legible copy to be keyed
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on preparing databases
- Equipment/software manuals

WORK TO BE PERFORMED

Perform the following functions related to a database:
- Create and input a database with 15 names and mailing addresses (minimum of seven fields using date, alphabetic and numeric fields).
- Sort records in the database two ways.
- Generate and print quick reports.

PERFORMANCE CRITERIA

One hour* will be given to complete the computer projects.
- The database must be set up (minimum of seven fields using date, alphabetic and numeric fields).
- The 15 records must be input into the database and be error free when printed.
- The database will be sorted at least two ways (by fields) and reports generated.
- The reports will be error free when printed for evaluation.
*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.

7. Keyboard the data into appropriate cells.
8. Run spell check.
9. Proofread spreadsheets while still on monitor and input corrections; proofread for correctness of content, format, punctuation, capitalization, formulas, etc.
10. Print spreadsheets.
11. Proofread and edit hard copy of spreadsheets using proofreader's symbols to indicate changes.
12. Input corrections to spreadsheets (use insert, delete, move, copy and search and replace commands).
13. Repeat steps 10 - 12 until all errors have been found and corrected.
15. Print spreadsheets.
16. Remove diskette from disk drive. Label and file diskette (if applicable).
17. Log off of computer (if applicable).

The steps of performance have been numbered to show an appropriate sequence of completing the work to be performed; however, a different sequence may be used to perform the work.

**ASSESSMENT AND CREDENTIALING APPROACH**

Performance Test - See the skill standard.

Written test on related academics and knowledge needed to complete skill standard.
CREATE AND UPDATE DOCUMENTS USING DESKTOP PUBLISHING FEATURES OF A WORD PROCESSING PACKAGE OR DESKTOP PUBLISHING SOFTWARE PACKAGE.

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal and/or written instructions
- Computer
- Appropriate software including clip art and a variety of fonts
- Printer
- Articles for the newsletter on a disk
- Legible draft of flier
- Draft of layout of newsletter
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes guidelines for desktop publishing
- Equipment/software manuals

WORK TO BE PERFORMED

Create and update the following two publications:

- One-page flier with graphics
- Two-page, two-column newsletter containing six articles with one graphic between the columns (wrap the text around the graphic)

PERFORMANCE CRITERIA

One and one-half hours* will be given to complete the computer projects.

The text and graphics for the flier and newsletter will be placed into a word processing or desktop publishing computer program and be error free when printed for evaluation.

Graphics, text boxes, graphic lines, captions, layout, font choice, font size, use of drop caps, etc., must be appealing and appropriate.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review draft copy and any special instructions from originator.
3. Determine layout of publications.
4. Retrieve publications.
5. Keyboard the text and place graphics into publications. Save frequently.
6. Create publications.
7. Run spell check.
8. Proofread publications while still on monitor and input corrections; proofread for correctness of content, format, punctuation, capitalization, etc.
10. Proofread and edit hard copy of publications using proofreader's symbols to indicate changes.
11. Input corrections to publications (use insert, delete, move, copy and search and replace commands).
12. Review layout and design and change publications as needed to make them more appealing and eye-catching to the reader.
13. Repeat steps 9 - 12 until all errors have been found and corrected.
15. Print publications.
16. Remove diskette from disk drive. Label and file diskette (if applicable).
17. Log off of computer (if applicable).

The steps of performance have been numbered to show an appropriate sequence of completing the work to be performed; however, a different sequence may be used to perform the work.

**ASSessment AND CREDENTIALING APPROACH**

Performance Test - See the skill standard.

Written test on related academics and knowledge needed to complete skill standard.
SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:
- Verbal and/or written instructions
- Computer
- Appropriate software
- Printer
- Nine slides for slide show
- Legible draft of speaker notes
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes instructions on preparing visual aids
- Equipment/software manuals

WORK TO BE PERFORMED

Prepare the following using presentation software and nine existing slides:
- Slide show that is 2½ minutes long
- Speaker notes
- Handouts of slides

PERFORMANCE CRITERIA

Two hours* will be given to complete the computer projects.

The nine slides must be used to create a 2½ minute slide show using a presentation software package.

Speaker notes for the slide show and handouts of the slides must be prepared.

The slide show will be shown and speaker notes and handouts of the slides will be error free when printed and submitted for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review draft copy and any special instructions from originator.
3. Put slide show together using the nine existing slides.
4. Set up format (margins, spacing, type style and size, page length, tabs, special features, headers or footers, pagination, style sheet, etc.).
5. Keyboard the document. Save frequently.
6. Run spell check.
7. Proofread speaker notes and handouts while still on monitor and input corrections; proofread for correctness of content, format, grammar, punctuation, capitalization and word divisions.
8. Print speaker notes and handouts of slides.
9. Proofread and edit hard copy of speaker notes and handouts using proofreader's symbols to indicate changes.
10. Input corrections to speaker notes and handouts (use insert, delete, move, copy and search and replace commands).
11. Repeat steps 8 - 10 until all errors have been found and corrected.
13. Print speaker notes and handouts of slides.
14. Remove diskette from disk drive. Label and file diskette (if applicable).
15. Log off of computer (if applicable).

The steps of performance have been numbered to show an appropriate sequence of completing the work to be performed; however, a different sequence may be used to perform the work.

ASSessment and Credentialing approach

Performance Test - See the skill standard.

Written test on related academics and knowledge needed to complete skill standard.
Given the following equipment and materials:
- Verbal and/or written instructions
- Computer
- Appropriate software
- Printer
- Database on disk
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on preparing databases
- Equipment/software manuals

Open/retrieve stored database and perform the following:
- Open database with 30 names and mailing addresses (minimum of 7 fields using date, alphabetic and numeric fields).
- Rename, insert, move and delete fields.
- Use queries, conditions and/or statement function.
- Design and use conditional queries based on database structure.
- Customize report (add title, graphics, functions).
- Print report.

One and one-half hours* will be given to complete the computer projects.
The database will be manipulated according to instructions (see Work to Be Performed).
The report generated will be in the correct format and error free when printed for evaluation.

*This does not allow for interruptions.

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review draft copy and any special instructions from originator.
3. Open database and rename, insert, move and delete fields as directed.
4. Use queries to generate the report.
5. Run spell check, if appropriate.
6. Proofread database while still on monitor and input corrections; proofread for correctness of content, format, punctuation, capitalization, etc.
7. Print report.
8. Proofread and edit hard copy of report using proofreader's symbols to indicate changes.
9. Input corrections to report (use insert, delete, move, copy and search and replace commands).
10. Repeat steps 7 - 9 until all errors have been found and corrected.
11. Customize report as instructed (add title, graphics, functions).
12. Store/Save report.
13. Print report.
14. Remove diskette from disk drive. Label and file diskette (if applicable).
15. Log off of computer (if applicable).

The steps of performance have been numbered to show an appropriate sequence of completing the work to be performed; however, a different sequence may be used to perform the work.

ASSESSMENT AND CREDENTIALING APPROACH

Performance Test - See the skill standard.

Written test on related academics and knowledge needed to complete skill standard.
RETRIEVE SPREADSHEETS, COPY DATA FROM ONE SPREADSHEET TO ANOTHER, LINK SPREADSHEETS, EDIT DATA IN A LINKED SPREADSHEET, PRINT AND STORE SPREADSHEETS.

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal and/or written instructions
- Two spreadsheets on a disk
- Computer
- Appropriate software
- Printer
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on preparing spreadsheets
- Equipment/software manuals

WORK TO BE PERFORMED

Copy data from one spreadsheet to another and print.

Link data between two spreadsheets.

Edit data in linked spreadsheet and print.

Prepare a document showing steps for copying data and for linking two spreadsheets.

PERFORMANCE CRITERIA

One hour* will be given to complete the computer projects.

The two spreadsheets will be retrieved, data copied, two spreadsheets linked and data edited in linked spreadsheet.

The spreadsheets will be error free when printed for evaluation.

Steps for copying data and for linking two spreadsheets will be error free when submitted for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.

2. Review any special instructions from originator.
3. Copy data from one spreadsheet to another spreadsheet.
4. Print spreadsheet.
5. Link two spreadsheets.
6. Edit data in one of linked spreadsheets.
7. Print both spreadsheets.
8. Keyboard steps for copying data and for linking two spreadsheets.
9. Print steps for copying data and for linking two spreadsheets.
10. Proofread and edit hard copy of steps using proofreader’s symbols to indicate changes.
11. Input corrections to document (use insert, delete, move, copy and search and replace commands).
12. Repeat steps 9 - 11 until all errors have been found and corrected.
15. Remove diskette from disk drive. Label and file diskette (if applicable).
16. Log off of computer (if applicable).

The steps of performance have been numbered to show an appropriate sequence of completing the work to be performed; however, a different sequence may be used to perform the work.

**ASSESSMENT AND CREDENTIALING APPROACH**

CREATE GRAPHS AND CHARTS FROM SPREADSHEETS.

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:

- Verbal and/or written instructions
- Computer
- Appropriate software
- Printer
- Spreadsheet file
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on preparing charts and graphs
- Equipment/software manuals

WORK TO BE PERFORMED

Create, print and store the following charts/graphs from a spreadsheet:

- Pie chart (flat and 3D)
- Bar graph (plain and stacked)
- Line graph

PERFORMANCE CRITERIA

Forty-five minutes* will be given to complete the computer projects.

The data for the pie chart, bar and line graphs will be on a file in a spreadsheet program.

The graphs and chart will be created from a spreadsheet and will be error free when printed for evaluation.

The chart and graphs should be modified (change size, format, etc.) as appropriate.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review any special instructions from originator.
3. Retrieve spreadsheet.
4. Determine type of chart and graphs to best illustrate the data.
5. Create appropriate chart and graphs.
6. Modify the chart and graphs as needed (change size, format, fonts, etc.). Save frequently if data is lengthy.
7. Run spell check, if appropriate.
8. Proofread data while still on monitor and input corrections; proofread for correctness of content, format, punctuation, capitalization, etc.
9. Print chart and graphs.
10. Proofread and edit hard copy of chart and graphs using proofreader's symbols to indicate changes.
11. Input corrections to chart and graphs (use insert, delete, move, copy and search and replace commands).
12. Repeat steps 9 - 11 until all errors have been found and corrected.
13. Store/Save documents.
14. Print chart and graphs.
15. Remove diskette from disk drive. Label and file diskette (if applicable).
16. Log off of computer (if applicable).

The steps of performance have been numbered to show an appropriate sequence of completing the work to be performed; however, a different sequence may be used to perform the work.

SKILL STANDARD

CONDITIONS OF PERFORMANCE

Given the following equipment and materials:
- Verbal and/or written instructions
- Computer
- Appropriate software
- Printer
- Two-page report on disk
- Files to be imported
- Reference books such as a dictionary, word division manual, punctuation guide and capitalization guide
- Office reference manual that includes information on preparing reports with graphics, spreadsheets, text and data
- Equipment/software manuals

WORK TO BE PERFORMED

Retrieve report, import files, print and store the following business document:

Retrieve two-page report prepared in word processing software program.
Import graphics, spreadsheets, text and data into document.

PERFORMANCE CRITERIA

One-half hour* will be given to complete the computer project.

The document will be input in report format with appropriate files imported and be error free when printed for evaluation.

*This does not allow for interruptions.

PERFORMANCE ELEMENTS AND ASSESSMENT CRITERIA

1. Ready equipment.
   a. Turn on microcomputer or
   b. Log on computer if using terminal/computer mainframe or minicomputer.
   c. Turn on printer, load and adjust paper.
2. Review draft copy and any special instructions from originator.
3. Retrieve/open the two-page report.
4. Import appropriate files at designated locations. Save frequently.
5. Proofread for correctness of location of imported files.
7. Proofread and edit hard copy of document using proofreader's symbols to indicate changes.
8. Input corrections to document (use insert, delete, move, copy and search and replace commands).
9. Repeat steps 6 - 8 until all errors have been found and corrected.
10. Store/Save document.
11. Print report.
12. Remove diskette from disk drive. Label and file diskette (if applicable).
13. Log off of computer (if applicable).

</tr>
<tr>
<td><strong>Critical Work Functions</strong></td>
<td>Distinct and economically meaningful sets of work activities critical to a work process or business unit which are performed to achieve a given work objective with work outputs that have definable performance criteria. A critical work function has three major components:</td>
</tr>
<tr>
<td></td>
<td>• <strong>Conditions of Performance</strong>: The information, tools, equipment and other resources provided to a person for a work performance.</td>
</tr>
<tr>
<td></td>
<td>• <strong>Work to Be Performed</strong>: A description of the work to be performed.</td>
</tr>
<tr>
<td></td>
<td>• <strong>Performance Criteria</strong>: The criteria used to determine the required level of performance. These criteria could include product characteristics (e.g., accuracy levels, appearance), process or procedure requirements (e.g., safety, standard professional procedures) and time and resource requirements. The IOSSCC requires that these performance criteria be further specified by more detailed individual performance elements and assessment criteria.</td>
</tr>
<tr>
<td><strong>Credentialing</strong></td>
<td>The provision of a certificate or award to an individual indicating the attainment of a designated set of knowledge and skills and/or the demonstration of a set of critical work functions for an industry/occupational area.</td>
</tr>
<tr>
<td><strong>Illinois Occupational Skill Standards and Credentialing Council (IOSSCC)</strong></td>
<td>Legislated body representing business and industry which establishes skill standards criteria, endorses final products approved by the industry subcouncil and standards development committee and assists in marketing and dissemination of occupational skill standards.</td>
</tr>
<tr>
<td><strong>Industry</strong></td>
<td>Type of economic activity, or product or service produced or provided in a physical location (employer establishment). They are usually defined in terms of the Standard Industrial Classification (SIC) system.</td>
</tr>
<tr>
<td><strong>Industry Subcouncil</strong></td>
<td>Representatives from business/industry and education responsible for identifying and prioritizing occupations for which occupational performance skill standards are adapted, adopted or developed. They establish standards development committees and submit developed skill standards to the IOSSCC for endorsement. They design marketing plans and promote endorsed skill standards across the industry.</td>
</tr>
<tr>
<td><strong>Knowledge</strong></td>
<td>Understanding the facts, principles, processes, methods and techniques related to a particular subject area, occupation or industry.</td>
</tr>
<tr>
<td><strong>Occupation</strong></td>
<td>A group or cluster of jobs, sharing a common set of work functions and tasks, work products/services and/or worker characteristics. Occupations are generally defined in terms of a national classification system including the Standard Occupational Classification (SOC), Occupational Employment Statistics (OES) and the Dictionary of Occupational Titles (DOT).</td>
</tr>
<tr>
<td><strong>Occupational Cluster</strong></td>
<td>Grouping of occupations from one or more industries that share common skill requirements.</td>
</tr>
<tr>
<td><strong>Occupational Skill Standards</strong></td>
<td>Specifications of content and performance standards for critical work functions or activities and the underlying academic, workplace and occupational knowledge and skills needed for an occupation or an industry/occupational area.</td>
</tr>
<tr>
<td><strong>Occupational Skills</strong></td>
<td>Technical skills (and related knowledge) required to perform the work functions and activities within an occupation.</td>
</tr>
<tr>
<td><strong>Performance Standard</strong></td>
<td>A specification of the criteria used to judge the successful performance of a work activity or the demonstration of a skill.</td>
</tr>
<tr>
<td><strong>Product Developer</strong></td>
<td>Individual contracted to work with the standard development committee, state liaison, industry subcouncil and IOSSCC for the adaptation, adoption or development of skill standards content.</td>
</tr>
<tr>
<td><strong>Reliability</strong></td>
<td>The degree of precision or error in an assessment system so repeated measurements yield consistent results.</td>
</tr>
<tr>
<td><strong>Skill</strong></td>
<td>A combination of perceptual, motor, manual, intellectual and social abilities used to perform a work activity.</td>
</tr>
<tr>
<td><strong>Skill Standard</strong></td>
<td>Statement that specifies the knowledge and competencies required to perform successfully in the workplace.</td>
</tr>
<tr>
<td><strong>Standards Development Committee</strong></td>
<td>Incumbent workers, supervisors and human resource persons within the industry who perform the skills for which standards are being developed. Secondary and postsecondary educators are also represented on the committee. They identify and verify occupational skill standards and assessment mechanisms and recommend products to the industry subcouncil for approval.</td>
</tr>
<tr>
<td><strong>State Liaison</strong></td>
<td>Individual responsible for communicating information among all parties (IOSSCC, subcouncil, standard development committee, product developer, project director, etc.) in skill standard development.</td>
</tr>
<tr>
<td><strong>Third-Party Assessment</strong></td>
<td>An assessment system in which an industry-designated organization (other than the training provider) administers and controls the assessment process to ensure objectivity and consistency. The training provider could be directly involved in the assessment process under the direction and control of a third-party organization.</td>
</tr>
<tr>

B. Employment and Earnings Opportunities

This occupational cluster does require basic workplace skills and technical training.

1. Employment Opportunities

Rapid growth of medical occupations and a growing use of computers to store and retrieve information is expected to increase demand for qualified persons in the medical office occupations arena. Detailed information required for insurance companies and Medicare should also stimulate employment growth in this field. However, growth may be limited somewhat because of productivity gains being made possible by automation. Numerous job opportunities are projected for the occupations in all levels of this occupational cluster.

2. Earnings Opportunities

*Middle Range is the middle 50%, i.e., one-fourth of persons in the occupation earn below the bottom of the range and one-fourth of persons in the occupation earn above the top of the range.

C. Career Opportunities and Education and Training Requirements

The occupations do possess technical, workplace and related academic skills. The identification of academic skills in relation to the skill standards will use the Illinois Learning Standards where possible.

II. Occupational Standards and Credentials

A. Occupational Standards (See attached standards.)

B. Assessment and Credentialing System

Some existing assessment and licensure exams cover parts of these occupations in the licensure exams, i.e. Certified Professional Secretary covers many of the information processing skills. There are also many written exams which would cover the medical office occupations cluster, i.e. V-TECS (Vocational-Technical Education Consortium of States). However, credentialing is not available through V-TECS. The subcouncil will review standards presented. The need for credentialing or certification will be reviewed with strong consideration being given to embedding the assessment in instruction provided at the training site. The assessment will be valid and reliable.
III. Industry Support and Commitment

A. Industry Commitment for Developing and Updating

1. These performance skill standards were developed through the subcouncil and standards development committee efforts. The development effort utilized the following steps:

   a. Identification of performance skills
   b. Review of resources
   c. Identification of Standards Development Committee
   d. Validation and approval of performance skills by Standards Development Committee
   e. Development of draft performance skill standards
   f. Review of skill standards by Standards Development Committee
   g. Review and approval of the skill standards by subcouncil
   h. Approval of the skill standards by the subcouncil

2. Lists of the Business and Administrative/Information Services and Health and Social Services Subcouncils are located in Appendix C and the list of the Medical Office Occupations Standards Development Committee members is located in Appendix D.

B. Industry Commitment for Marketing

The Business and Administrative/Information Services and the Health and Social Services Subcouncils are committed to marketing and obtaining support and endorsement from the business community impacted by these skill standards.

The Subcouncils will encourage the availability of occupational skill standards to the public including learners, parents, workers, educators at all levels, employers and industry organizations.
