The Montana Certification Program offers librarians, library staff members, and trustees a systematic and progressive method by which to track their continuing education (CE) efforts; the program also offers library boards and managers an opportunity to recognize staff efforts to improve their skills, ability, and knowledge. This first section of this manual provides an overview of the program, including program goals, who should become certified, and certification levels. CE credit is addressed in the second section, including CE contact hour credit, CE contact hour credit conversion, CE topics, and a menu of possible CE topics. Certification level information is contained in the third section, including enrollment level, the enrollment application form, how to apply for certification levels I-V, and application forms for certification levels I-V. The fourth section covers certification renewal, including guidelines for certification renewal, certification renewal requirements, how to apply for certification renewal, and the certification renewal application form. The next section describes criteria for approval of CE programs, including CE providers and CE program approval forms. Potential CE opportunities are noted in the sixth section, and the seventh section lists library degree schools. Extra copies of the forms are appended. (MES)

REVISION 07/99
I. MONTANA CERTIFICATION PROGRAM

A. INTRODUCTION

The Montana State Library Commission (Commission) established the Montana Certification Program to promote the improvement of library services within Montana. The Commission believes that continuing education for all those involved in libraries is essential to the development of all types of the library services. This certification program offers librarians, library staff members and trustees a systematic and progressive method by which to track their continuing education efforts. The program also offers library boards and managers an opportunity to recognize staff efforts to improve their skills, ability and knowledge.

B. PROGRAM GOALS

The goals of the Montana Certification Program are to:

- improve library services throughout the state;
- assist public library directors in meeting the library certification standard adopted by the Montana State Library Commission;
- motivate librarians, library staff members and library trustees to acquire, maintain, and develop their skills through basic and continuing education;
- recognize librarians and library staff members who, on a continuing basis, update their knowledge and skills in order to provide better library services to their patrons;
- improve the public image of librarians and libraries;
- provide guidelines for governing boards to use to select and retain personnel.

The Montana Certification Program provides for guidance and uniformity in continuing education programs for librarians, library staff members and library trustees and in identifying and recruiting qualified librarians for library positions.

C. WHO SHOULD BECOME CERTIFIED?

The Montana State Library Commission requires that all library directors of libraries that serve a population of less than 25,000 are certified.

Library boards or management may require certification of other staff members. Participants in the certification program could be, but are not limited to:

1. staff members who are given regularly assigned duties in the areas of administrative services, public services, children and youth services, and technical services; and
2. other interested person, such as trustees or retired librarians.

* College credit for Levels II through V must be from an institution accredited by a state, regional, or national accrediting association.

** Forty (40) CE contact hour credits, including at least five (5) contact hours in each of the following four specified areas are required: 1) Library Administration; 2) Library Services to the Public; 3) Collection Management & Technical Services; and 4) Technology. See page 6 for more information regarding CE contact hour credits.

*** For the purposes of certification a year of work is considered a minimum of 1040 hours per year.
II. CONTINUING EDUCATION CREDIT

A. CONTINUING EDUCATION (CE) CONTACT HOUR CREDIT

A program that qualifies for CE contact hour credit may include, but is not limited to this listing: academic courses, conferences, institutes, seminars, workshops, lectures, program sessions of library/information/media association meetings, study groups (3 persons minimum), and pre-recorded presentations [videos, online & CD ROM programs].

1. The following describes two ways an individual can receive CE contact hour credit for first time certification or certification renewal.

a. PROGRAM WITH PRIOR APPROVAL:

An individual may attend a program that has received prior approval from the Montana State Library (MSL). It is the responsibility of the individual attending the pre-approved program to obtain a copy of the CE Program with Prior Approval Form from the program provider and obtain the proper signatures. This form is then submitted to the Montana Certification Program, along with other record of attendance forms, when applying for first time certification or certification renewal.

b. PROGRAM WITHOUT PRIOR APPROVAL:

An individual may attend a program that has not received prior approval from the Montana State Library (MSL). It is the responsibility of the individual attending any CE program to have a copy of the CE Program without Prior Approval Form with them. Not all CE programs have received prior approval. Within 90 days after attending a program that has not received prior approval, an individual submits the CE Program Without Prior Approval Form (page 26) with the proper signatures to the Montana Certification Program. Upon receipt of the form, MSL will either award approval or disapproval of the program. When applying for first time certification or certification renewal, you will submit this form along with other approved program forms to the Montana Certification Program. MSL may award credit on any topic that is relevant to library theory and practice.

2. ACADEMIC COURSES FOR CE CONTACT HOUR CREDIT

An academic course taken for CE contact hour credit should be submitted using the CE Program Without Prior Approval Form (page 27) upon completion of the course. Also submitted should be the proper signatures required on the form. Submit this form within 90 days of completion of the course to the Montana Certification Program and the Montana State Library will approve the course.

If an academic course is being taken to apply towards a specific certification level, then a copy of the official transcript should be sent to the Montana Certification Program with your certification or certification renewal application.

MCP/REVISION 07/99
3. CONTINUING EDUCATION CONTACT HOUR CREDIT FOR PRESENTERS

Presenters may be given CE contact hour credit for programs that they present. Presenters may obtain prior approval from the Montana Certification Program or may request approval within 90 days of presenting the program. To request approval for a program that you will be presenting or have presented, submit the CE Provider's Application for Approval of Programs with a Cover Letter requesting CE contact hour credit for being the presenter to the Montana Certification Program.

If a program is approved by the Montana State Library, it is the responsibility of the participant or presenter to keep this record for their files and submit this information when applying for first time certification or certification renewal.

C. CONTINUING EDUCATION TOPICS

The Montana Certification Program has identified the following as the four most important topics of CE: 1) Library Administration; 2) Library Services to the Public; 3) Collection Management & Technical Services; and 4) Technology.

The program requires that a minimum of five (5) CE contact hours be acquired in each of the CE topics and that a total of 40 CE contact hour credits must be submitted to the Montana Certification Program when applying for first time certification or certification renewal.

The following is a menu of possible CE topics appropriate for continuing education credit. This menu is a guideline to CE providers for developing workshops, individuals for planning their CE activities, and library boards and management to review the CE qualifications of library staff.
