This curriculum guide is designed to help both English-as-a-Second-Language (ESL) and regular classroom teachers improve instruction for limited-English-proficient (LEP) students in the elementary grades in the areas of math, science, social studies, and English language arts. This K-5 guide provides models for teachers who need to modify instruction for LEP students in their classrooms, while ensuring that all instruction is aligned with the North Carolina Standard Course of Study. It addresses two competencies goals at each grade level for each of the four subject areas, and at least one content task is provided to clarify the teacher's understanding of the particular content objective. The Language Alert" section provides information regarding the vocabulary, language structures, and functions, while "Notes" highlights differences in cultural perspectives that may affect learning and provides other suggestions for classroom teachers. A "Language Strategies/Assessment" section is arranged according to the students' English language proficiency levels--novice, intermediate, and advanced. Most of the guide is in a chart format to facilitate quick teacher reference and use. A glossary and a bibliography are appended. (KFT)

INTRODUCTION

Purpose and Organization of the Guide

The Guide to the Standard Course of Study for Limited English Proficient Students, K-5 is designed to help both ESL and regular classroom teachers improve instruction for limited English-proficient students in the elementary grades in the areas of math, science, social studies, and English language arts. Similar guides focus on middle school (grades 6-8) and high school (grades 9-12). The goals and objectives addressed in the Guide are from the most recent Standard Courses of Study approved by the State Board of Education as of January, 2000.

The K-5 Guide provides models for teachers who need to modify instruction for limited English proficient students in their classrooms while ensuring that all instruction is aligned with the North Carolina Standard Course of Study. It addresses two competency goals at each grade level for each of the four subject areas, and at least one content objective for each competency goal. A content task is provided to clarify the teacher's understanding of the particular content objective. The Language Alert section provides teachers with information regarding the vocabulary, language structures and functions, while Notes highlights differences in cultural perspectives which may affect learning and provides other suggestions for classroom teachers.

The Language Strategies/Assessment section is arranged according to the students' English language proficiency levels: novice (low and high), intermediate (low and high), and advanced. These language strategies suggest activities that can be successful with learners at each proficiency level. Although the strategies are placed at the lowest level at which they can be utilized effectively, teachers may also choose to use them for instruction with more proficient English language learners. For additional information on English language proficiency levels, please see the chart at the end of this Introduction.

Development and Distribution

The Guides to the Standard Course of Study for Limited English Proficient Students were developed as part of a two-year collaboration involving English as a Second Language teachers, Limited English proficiency program coordinators, and regular classroom teachers. Draft copies of the Guides were sent to 400 elementary, middle school and high school content area teachers for comment. The suggestions these teachers provided helped to shape and improve this publication. In addition, subject area consultants from the Division of Instructional Services reviewed the draft to ensure that the curriculum content was addressed appropriately and accurately.
Why should teachers adjust instruction?

Federal law requires that limited English proficient students be provided with services to support English language development and that they be afforded an equal educational opportunity. In addition, North Carolina's state regulations require services to be provided to these students.

ESL and the Regular Classroom

Although classes may contain students of exactly the same age and maturity level, LEP and regular students have significant differences. Besides the obvious student differences which reflect the lack of English language proficiency, regular classroom teachers must deal with students who have interrupted schooling, and who may have arrived accompanied by little information on their educational backgrounds. All this should be taken into account when planning instruction. The teacher whose classroom includes LEP students must always take the lack of English language proficiency and the absence of a shared cultural background into account when planning instruction. He or she cannot assume that a math class in another country covered the same material or used similar instructional strategies. Planning instruction for LEP students requires that the teachers evaluate students' content knowledge and structure lessons accordingly.

Modified Instruction

Classroom instruction will be modified to provide students with "comprehensible input," in other words, instruction that is meaningful to the English language learner. To help language make sense, a teacher may use a variety of techniques. Teachers may present the new material in a familiar context and may accompany the word, phrase or sentence with a picture, diagram, graphic organizer or a gesture. A dramatization may be presented, or real objects, or a hands-on demonstration used. Key words and phrases can be previewed and written on the board or a student's desk along with picture definitions. The teacher will need to check for understanding frequently by observing the student at work and by asking questions. Merely asking "Do you understand?" is usually not productive because students often will not admit their confusion in order to be polite. Some students may not have sufficient proficiency in English to understand the question. At the same time a teacher needs to be sensitive to the need to control input so that the student is not overwhelmed and confused. For example, teachers will often present and use a variety of synonyms during a lesson in order to expand the vocabulary of non-LEP students. To do so with novice-level LEP students would be to create a confusing situation.

Working in a second language requires great concentration and much energy. It is very hard work, especially for novice and intermediate low proficiency-level students. LEP students take much more time to complete assignments than non-LEP students and therefore will need shortened or modified assignments with more time to complete them. They will need access to bilingual dictionaries, personal word banks, and other reference material. Students will benefit from working with other students and from hands-on activities.
Feedback to LEP students will differ from that to non-LEP students. In response to a misuse of English, teachers will need to model the correct language usage rather than repeatedly correct students. The teacher will need to focus on effective communication, rather than communication with complete grammatical accuracy. The evaluation of pieces of writing for these students, therefore, will be different from that for the non-LEP student. Student assignments may be shorter in length, and may offer a choice of questions, or an opportunity to provide an explanation using pictures. Tests may employ different scoring rubrics for the LEP student.

K-5 Classrooms

Although students often receive special instruction in English through an ESL (English as a second language) pull-out program, the majority of the limited English proficient student’s instructional day is spent in the regular classroom. At the K-5 level this is often a self-contained classroom, with an elementary teacher carrying the major responsibility for a student’s instruction. While collaboration between the ESL teacher and the regular classroom teacher is recommended, it is often very difficult for teachers to find time on a scheduled basis to discuss limited English proficient students’ learning. Therefore, it is incumbent on regular classroom teachers to develop their own expertise to assure that the learning environment they provide in their classrooms works well for all students. The instructional modifications they make to help English language learners be more successful usually benefit the other students in the classroom. Moreover, when English language learners and their English-speaking peers work together in collaborative groups on the same learning objectives, they can learn from each other.

How can teachers use this Guide?

The sample strategies and activities that appear in the Guide cover only a small portion of the total curriculum. However, the Guide models are designed to provide guidance for teachers on effective ways to modify instruction for other goals and objectives in each content area.

In addition to the selection of appropriate teaching strategies and assessment, lesson pacing is important. Limited English proficient students at the lower language proficiency levels often need more time to complete activities. Sometimes these activities may need to be continued over several days.

Although they are both termed “limited English proficient,” new learners of English (novice level) and advanced level students have very different instructional requirements. The picture is further complicated by the fact that an individual student may be working at different proficiency levels in different language skills at the same time. For example, it is possible for a student to be functioning at a novice level in reading and writing and at an intermediate level in listening and speaking. These factors must be considered when designing and utilizing strategies and assessment.
How English Language Proficiency Affects Classroom Performance

It may be helpful to look at each of the proficiency levels in turn to see how these students would function in the regular classroom. Please note that when identifying students' proficiency levels, it cannot be assumed that all new arrivals are at a novice proficiency level. Many students arrive in schools with some exposure to English, whether from a formal academic setting, or through media, friends, or family. It is necessary to assess the English proficiency of each student in listening, speaking, reading, and writing in order to avoid confusion, frustration, and wasted time.

Novice Low

Students at a novice low proficiency level have virtually no functional ability in listening, speaking, reading, and writing English. Novice low proficient students are often new arrivals. In addition to their inability to speak and understand English, these students may be dealing with the difficulty of adjusting to a different culture, and the loss of friends and familiar surroundings. Novice low students benefit from being paired with one or two same-sex buddies who can show them how to adjust to the school environment. It would be helpful, though not essential, that these buddies also speak the student's language. Newly-arrived novice low students are typically dealing with a silent period in which they work to make some sense of the language and environment which surrounds them. The use of visuals, pantomime, and hands-on activities will give them ways to participate in the activities of the class.

Novice High

Students at a novice high proficiency level are beginning to understand spoken English that deals with topics that are familiar to them. Sentences must be simple. It is important that students at this level be encouraged to use the language they know without fear. They should be encouraged to participate, and to focus on communicating ideas. Teachers should model and encourage correct usage in a positive way. If the classroom is an accepting environment, language acquisition at this point grows rapidly. Still, much of what the student encounters will be incomprehensible and bewildering. Assignments need to use simple language with much visual support. At times, students may not be able to see that progress toward language proficiency is being made and may yearn for the familiar surroundings of their home countries, cultures, and languages as the frustrations of language learning and adapting to a new culture mount.

Intermediate Low

Students at an intermediate low proficiency level have made great progress in language acquisition. They are able to understand most oral language pertaining to familiar topics but have difficulty with academic vocabulary. Their writing is basic and meets their needs but often contains errors. Students at an intermediate low proficiency level are frequently misperceived and thought to understand more academically complex material than they are capable of comprehending. They may be perceived as "holding back." Their desire to fit in and not attract attention to themselves may cause them not to ask questions when they do not understand. In their heritage culture, asking questions may be considered to be a negative reflection upon the skill of the teacher.
Intermediate High

Students at an intermediate high proficiency level are able to function fairly well in most everyday situations although errors and misunderstandings may still occur. Students may have difficulty reading between the lines or understanding complex sentence constructions. They often experience difficulties with usage, especially with idiomatic language.

Advanced

The advanced proficiency level student can handle most language situations well although the use of idioms, complex sentence constructions, and technical language may still present a problem. Students at the advanced level need help in refining their spelling and punctuation, as well as expanding vocabulary and use of sentence constructions.

Superior

Although the superior proficiency level student is no longer limited English proficient, he or she may still have difficulty appreciating nuance or style.

Quality Instruction for LEP Students

The hallmarks of quality instruction for limited English proficient students in the elementary grades include the following:

- Teachers who are patient, especially during a beginner learner’s silent period which may last several months. During this time a novice student is listening and possibly responding with gestures, but is not yet communicating orally;

- Classroom teachers who participate in an ongoing collaboration with the ESL teacher. Collaboration helps all educators share information on which strategies and materials can be most successful to students in each stage of language acquisition;

- Teachers who have an understanding of each student’s culture;

- Teachers who create a positive learning climate in which students are not afraid to make mistakes. Teachers who respond to students’ ideas and model the correct usage instead of highlighting students’ language errors;

- Classroom instruction made as understandable as possible through the use of visuals, such as actual objects, photos, illustrations, diagrams, drawings, charts, graphs, visual organizers, gestures, and highlighters;

- Teachers who adjust their use of English to eliminate complex sentences, multiple synonyms, pronouns with unclear referents, and who use the active rather than the passive voice;

- Teachers who give shorter assignments, simplify vocabulary, eliminate unnecessary details, provide additional time, and adapt scoring rubrics for classroom use; and

- Frequent use of hands-on activities, cooperative learning groups, and study buddies.
The Road Ahead

It is hoped that teachers will find these *Guides* helpful and will use them to develop additional strategies to enable all students to be successful. As teachers examine the strategies, it will become apparent that these same strategies can be applied to similar situations that have not been included in the *Guide*. For further assistance, classroom teachers should contact their school's ESL teacher or the school system LEP coordinator. In every case, LEP students are best served when regular classroom teachers and ESL teachers collaborate.
<table>
<thead>
<tr>
<th>English Proficiency Level</th>
<th>Novice Low</th>
<th>Novice High</th>
<th>Intermediate Low</th>
</tr>
</thead>
<tbody>
<tr>
<td>Listening</td>
<td>No functional ability in understanding spoken English</td>
<td>Understands simple questions and statements on familiar topics if spoken very slowly and distinctly; often requires restatement in graphic terms.</td>
<td>Understands most questions, statements, and conversations on familiar topics spoken distinctly at normal speed; requires occasional restatement.</td>
</tr>
<tr>
<td>Speaking</td>
<td>No functional ability in speaking English</td>
<td>Able to satisfy routine daily speaking needs. Can ask and answer questions on very familiar topics. Speaking vocabulary is inadequate to express anything but the most elementary needs. Should be able to follow simple classroom directions.</td>
<td>Can handle with confidence but not facility most daily speaking situations. Can handle limited scholastic language requirements; will need help for most tasks. Limited vocabulary often reduces the students to verbal groping or momentary silence.</td>
</tr>
<tr>
<td>Reading</td>
<td>No functional ability in reading English</td>
<td>Reads and understands simple narrative and descriptive text. Vocabulary for comprehension is limited to simple elementary needs such as names, addresses, dates, short informative signs (ex. street signs, no smoking, exit). Material understood rarely exceeds a single phrase and comprehension requires rereading and checking. Can recognize all letters in the alphabet. Detail is overlooked or misunderstood.</td>
<td>Sufficient comprehension to understand simple material. Can read messages, greetings, popular advertising, letters and invitation. Can guess at unfamiliar vocabulary if highly contextualized. Understands short discourse on familiar topics. Misinterpretation still occurs with more complex material. May have to read material several times.</td>
</tr>
<tr>
<td>Writing</td>
<td>No functional ability in writing English</td>
<td>Able to copy isolated words or short phrases. Can write simple, memorized material with frequent misspellings and inaccuracies.</td>
<td>Sufficient control of writing system to meet some survival needs. Able to compose short paragraphs or take simple notes on very familiar topics grounded in personal experience. Evidence of good control of basic sentence construction and inflections such as subject/verb agreement; and straightforward syntactic constructions in present, past, and future time though errors occasionally occur.</td>
</tr>
<tr>
<td><strong>English Proficiency Level</strong></td>
<td><strong>Intermediate High</strong></td>
<td><strong>Advanced</strong></td>
<td><strong>Superior</strong></td>
</tr>
<tr>
<td>-------------------------------</td>
<td>-----------------------</td>
<td>--------------</td>
<td>--------------</td>
</tr>
<tr>
<td><strong>Listening</strong></td>
<td>Understands most informal questions, statements, and conversation at normal speed; comprehends lectures on familiar subjects with some difficulty.</td>
<td>Understands most conversation and most lectures on familiar subjects at normal speed.</td>
<td>Understands academic topical conversation and most lectures with no difficulty.</td>
</tr>
<tr>
<td><strong>Speaking</strong></td>
<td>Participates effectively, sometimes hesitatingly, in social and academic conversations; makes occasional errors in idiom and structure, often obscuring meaning.</td>
<td>Able to speak the language in most situations. Comprehension is quite complete for a normal rate of speech. Makes occasional errors in idiom and structure obscuring meaning.</td>
<td>Able to use the language fluently on all levels normal to school-related needs. Can understand and participate in almost any conversation with the range of experience with a high degree of fluency.</td>
</tr>
<tr>
<td><strong>Reading</strong></td>
<td>Able to read simple printed material within a familiar context. Can read uncomplicated prose on familiar subjects in frequently used sentence patterns. Some misunderstandings. Able to read the facts but cannot draw inferences.</td>
<td>Sufficient comprehension to understand most factual information in non-technical prose as well as some discussions on current topics related to special interests. Able to read for information and description, to follow a sequence of events, and to react to that information. Able to separate main ideas from lesser ones and to use that division to advance understanding. Can locate and interpret main ideas and details in material written for the general public.</td>
<td>Able to read at a normal rate of speed standard newspaper items addressed to the general reader, routine correspondence reports and technical material in a field of interest. Can gain new knowledge from material on unfamiliar topics in areas of a general nature. Can interpret hypotheses, supported opinions, and conjectures. Able to “read between the lines.” May be unable to appreciate nuance or style.</td>
</tr>
<tr>
<td><strong>Writing</strong></td>
<td>Sufficient control of writing system to meet most survival needs. Can take notes in some detail on familiar topics and respond to personal questions using elementary vocabulary and common structures. Can express fairly accurately present and future time. Can produce some past verb forms, but not always accurately or with correct usage.</td>
<td>Can write simple social correspondence, take notes, write summaries, and describe with factual topics. Still makes common errors in spelling and punctuation, but shows some control of the most common conventions. Able to join sentences in limited discourse, but has difficulty in producing complex sentences. Paragraphs are reasonably unified and coherent.</td>
<td>Able to use the written language effectively in most exchanges. Can write short papers and express statements of position, points of view and arguments. Good control of structure, spelling, and vocabulary. Can use complex and compound sentence structures to express ideas clearly and coherently. Still has problem tailoring writing to a variety of audiences and styles.</td>
</tr>

| Distinguish among specific equipment, supplies, and food necessary for the care and well being of animals. | **Vocabulary:** vocabulary related to animals/organisms, such as *habitat, aquarium, terrarium*, names of animals  
**Structure:** present tense verbs  
**Function:** simple sentences  
*Note: The concept of what is a pet and what is food varies from culture to culture.* | **N:** Use visuals to show the conditions needed for animals to live and remain healthy, i.e., oxygen, food, water.  
**N:** Using visuals, match equipment or supplies to the animal it is used for.  
**N:** Sort specific foods for specific animals (matching).  
**I:** Group mismatched visuals, ex: foods (lettuce-fish); habitats (fish-cage/guinea pig/terrarium); use (fish-leash) pets/foods/products.  
**I:** Draw/illustrate chart with animal and its habitat/home.  
**A:** Given visuals, tell how equipment/supply is used or a specific animal.  
**A:** Draw/illustrate chart with animal and its needs, i.e., dog: bone, doghouse: leash.  
**A:** Dictate sentences that describe an animal and its needs. |
### GRADE K SCIENCE

**Competency Goal 3:** The learner will build an understanding of the properties/movement of common objects and organisms.

**Content Objective 3.02:** Describe how objects look, feel, smell, taste, and sound using all the senses.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Sort foods according to the properties of sound, texture, taste, smell. | Vocabulary: food, descriptive vocabulary  
  Structure: verbs, *taste, smell, hear, see, feel, color*  
  Function: classification, graphing, compare/contrast  
  *Note: Students may have difficulty categorizing foods that are unfamiliar to them.* | N: Work with peers to sort for shape, color, texture, sound. Cut and paste visuals in appropriate categories for properties.  
  N: Point to crunchy foods, sweet foods, smelly foods, sour foods from visuals.  
  N: Make “pizza” with unusual ingredients which are crunchy, smooth; sweet, or sour.  
  I: Cut pictures from magazines to represent properties.  
  I: Blindfold and distinguish among different food to identify by smell, taste, touch, and sound.  
  I: Graph pictures by smell, taste, color, sound and texture.  
  A: Develop a menu/meal of crunchy foods, sweet foods, smelly foods, sour foods from visuals.  
  A: Talk about representative items from each sense category.  
  A: Compare/contrast food items from home. |
**Grade K Social Studies**

**Competency Goal 6:** The learner will characterize change in different settings.

**Content Objective 6.1:** Describe changes in one's self.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Describe changes between pre-school years and present. | **Vocabulary:** size, height  
**Structure:** past tense, such as was, used to  
**Function:** comparison/contrast, using -er, bigger, more, less with nouns and adjectives | N: Demonstrate the concept of change by using visuals by adding, taking away, and changing objects on a flannel board.  
N: Make a book with photographs at different ages.  
N: Use pictures of a child at different ages to model changes.  
I: Engage children in making a bulletin board display activities describing these pictures.  
I: Tell mini-life history while illustrating with pictures.  
I: Complete a yes/no questionnaire about oneself.  
A: Maintain a growth chart and discuss changes.  
A: Read a story such as *Love You Forever* and describe the changes. |
## GRADE K SOCIAL STUDIES

**Competency Goal 8:** The learner will apply basic geographic concepts.

**Content Objective 8.3:** Analyze the functions of places in the home, the classroom, and the school.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Identifies activities that take place in the home, the classroom, and the school.</td>
<td><strong>Vocabulary:</strong> home, classroom; places within the environment such as cafeteria, living room. <strong>Structure:</strong> verbs such as eat, eats, read, reads, is eating, going to. Prepositions such as in, at. <strong>Function:</strong> classification, sorting, questioning, Venn diagram, picture questionnaire. <strong>Note:</strong> Avoid synonyms and use the same terms consistently when introducing a unit. For example, use classroom, instead of &quot;room,&quot; &quot;class,&quot; &quot;in here.&quot;</td>
<td>N: Distinguish classroom from school by categorizing visuals of examples of each. N: Use visuals, such as magazine cutouts for sorting activities with labels on Venn diagrams. N: Sort pictures of activities appropriate to each setting onto drawings of the three environments. N: Make a diorama of a specific environment. N: Write simple sentences to describe actions in different settings. I: Respond to wh questions with oral sentences. I: Dictate experiences with different settings. I: Using a picture questionnaire, interview another student and circle activities that apply to him. A: Describe an activity or picture using phrases or sentences. A: Answer &quot;where&quot; questions orally after listening to a story.</td>
</tr>
</tbody>
</table>
## Grade K Social Studies

**Competency Goal 9:** The learner will apply basic concepts to individuals and families.

**Content Objective 9.2:** Distinguish between wants and needs.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
</tr>
</thead>
</table>
| Sort pictures of wanted items and necessary items into two lists. | **Vocabulary:** want, need, to have to, to wish, to like, important, fun, food, toys, important, necessary  
**Structure:** verbs such as the infinitives to have; verb tenses such as I want, I need  
**Function:** Distinguish between wants and needs as verbs or nouns in usage.  
**Note:** Some cultural associations such as “a list for Santa” may be unfamiliar. Use objects that all cultures would recognize. | **Language Strategies/Assessment**  
(N = Novice, I = Intermediate, A = Advanced)  
N: Accept, point, sort, draw; use nonverbal responses to a question.  
I: Place pictures in a chart pocket with an I want pocket and an I need pocket.  
N: Categorize objects into two containers labeled I want, I need.  
I: Given an I want circle and an I need circle, move to correct spot when an item is held up.  
I: Draw pictures of wants and needs and label them.  
I: When presented with an obvious contrast (bread vs. a toy), indicate orally which item is needed or desired.  
A: Use I want and I need appropriately when making requests in the classroom.  
A: Dictate a creative story using visuals of wants and needs. |
GRADE K ENGLISH LANGUAGE ARTS

Competency Goal 1: The learner will develop and apply enabling strategies and skills to read and write.

Content Objective 1.01: Develop book and print awareness.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>

</table>
| Using a pointer, follow the story in a Big Book as the teacher reads it aloud. | Vocabulary: vocabulary from story  
Structure: sound-symbol correspondence; recognizing beginning and ending of words  
Function: reading from left to right  
Note: In some language, books are read from right to left, in columns from top to bottom and from the "back" of the book to the "front". | N: Use pictures/visuals to accompany a story. Pictures should show specific vocabulary.  
N: Model reading left to right.  
N: Point to isolated words as a story is read.  
N: Demonstrate where words begin and end.  
I: Use choral reading following teacher.  
I: Identify words by circling or underlining them.  
A: Student points and "reads" a story.  
A: Student dictates story and "reads" to a peer.  
A: Student unscrambles word cards to match a printed sentence. |
**GRADE K ENGLISH LANGUAGE ARTS**

**Competency Goal 1:** The learner will develop and apply enabling strategies and skills to read and write.

**Content Objective 1.03:** Demonstrate decoding and word recognition strategies and skills: recognize and name upper and lower case letters of the alphabet; recognizes words by sight including a few common words, own name, and environmental print; recognize most beginning consonant letter-sound associations in one-syllable words, such as signs, labels, and trademarks.

<table>

</table>
| Match common classroom objects with printed word. | **Vocabulary:** classroom objects, such as, *desk, table, book, paper, pencil, pen*  
**Structure:** verbs such as *is, are*  
**Function:** question words such as *who, what* | **N:** Label classroom objects.  
**N:** Match word and picture flashcards.  
**N:** Student repeats words with visuals after modeling.  
**I:** Match simple words that are read aloud.  
**I:** Respond to oral directions by placing word cards next to classroom objects.  
**I:** Construct simple sentences with visuals and word cards.  
**A:** Play the concentration game by matching visuals with printed words.  
**A:** Compose a story with classroom words, using pictures and print. |
GRADE K ENGLISH LANGUAGE ARTS

Competency Goal 4: The learner will apply strategies and skills to create oral, written, and visual texts.

Content Objective 4.06: Writes and/or participates in writing behavior by using authors/models of language.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Class writes story based on book read or video viewed. | Vocabulary: simple sight words, simple actions verbs  
Structure: once upon a time, spacing between words  
Function: sequencing, reading from left to right | N: Have students copy a story.  
N: Create a picture word bank.  
N: Label illustration about a story.  
I: Cut out pictures representing the story and organize in sequential order.  
I: Fill in missing words in sentence strips from a story.  
A: Expand on class language experience story orally or in writing.  
A: Change parts of a story and discuss what would happen.  
A: Make a fold-a-book with cut outs and dictate sentences. |
GRADE K ENGLISH LANGUAGE ARTS

Competency Goal 4: The learner will apply strategies and skills to create oral, written, and visual texts.

Content Objective 4.07: Compose a variety of products (e.g., stories, journal entries, letters, response logs, simple poems, and oral retellings).

<table>

<tr>
<td>---------------------</td>
<td>---------------</td>
<td>--------------------------------</td>
</tr>
<tr>
<td>Observe, classify and predict in order to describe a setting.</td>
<td>Vocabulary: language of comparison such as alike, different, color words, names of clothing.</td>
<td>(N = Novice, I = Intermediate, A = Advanced)</td>
</tr>
<tr>
<td></td>
<td>Structure: future tense, will, will not</td>
<td>N: Match clothing and accessories to different types of weather.</td>
</tr>
<tr>
<td></td>
<td>Function: compare/contrast, sequencing, graph, chart</td>
<td>N: Plant and chart growth of seeds.</td>
</tr>
<tr>
<td></td>
<td>Note: Students may need familiarization with some items not found in their home countries.</td>
<td>N: Feel an orange and observe how long it takes for the aroma to permeate the room.</td>
</tr>
</tbody>
</table>

Sample Content Task:
- Observe, classify and predict in order to describe a setting.

Language Alert:
- Vocabulary: language of comparison such as alike, different, color words, names of clothing.
- Structure: future tense, will, will not
- Function: compare/contrast, sequencing, graph, chart

Language Strategies/Assessment:
- (N = Novice, I = Intermediate, A = Advanced)
- N: Match clothing and accessories to different types of weather.
- N: Plant and chart growth of seeds.
- N: Feel an orange and observe how long it takes for the aroma to permeate the room.
- N: Predict what fruits will sink and which will float.
- I: Given pictures of people dressed for different types of weather, infer what weather the people expect based on their clothing.
- I: Using visuals, predict how an animal or a plant such as cactus, or a flower, will feel to touch.
- I: Predict what will happen when a flower is placed in colored water.
- A: Identify unseen items from a description or from a "feely" box.
- A: Record in written form a prediction or an observation's result, then graph or chart results.
GRADE 1 SOCIAL STUDIES

Competency Goal 2: The learner will infer that individuals and families are alike and different.

Content Objective 2.2: Distinguish similarities and differences among individuals and families.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| List the responsibilities of family members of the class on a large chart. | **Vocabulary:** family, mother, sister, brother, grandmother, grandfather, household; responsibilities, same, different  
**Structure:** actions: cooking, cleaning, taking care of, taking out, setting, working mowing  
Possessive pronouns: your, their, my, our  
**Function:** compare/contrast, explain, categorize  
**Note:** Family members' responsibilities may vary from culture to culture and from family to family. Some students may be sensitive to discussions regarding family members who are no longer with them. | **N:** Point to family members on a visual.  
**N:** Cut and paste illustrations of family members to appropriate categories on a class chart.  
**N:** Write a word to explain illustrations.  
**I:** Compare/contrast two visuals representing different families: Who is ___? What is ___ doing?  
**I:** Repeat, generate, or label names and actions.  
**I:** Respond to questions about visuals.  
**A:** Write explanations to describe one’s family.  
**A:** Create a pictorial family tree with a brief description.  
**A:** Compare orally responsibilities of different family members with a peer.  
**A:** Compare/contrast family members’ responsibilities within own family. |
GRADE 1 SOCIAL STUDIES

Competency Goal 9: The learner will apply basic economic concepts to home and school.

Content Objective 9.2: Distinguish between wants and needs.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Make a list of students' favorite things. Decide if each are wants or needs and create a graphic organizer to classify the items.</td>
<td>Vocabulary: favorite, want, need, like, don't like. Structure: I like _____; I do not like _____; I don't like ____; I want ____; I do not want ____; I don't want ____. Function: use of really. Note: The concept of wants and needs can vary greatly by culture.</td>
<td>N: Give an oral response to simple questions. N: Label illustrations. N: Show visuals and have students respond by pointing using like, don't like. N: Categorize and review orally: I like ice cream; I don't like medicine. N: Use visuals to show contrast of wants (ice cream, toys, etc.) and needs (water, food, shelter). Attach to a class organizer. I: Give an oral response to more complex questions: Do you want or need ____? I: Have student role-play using visuals: I really like ____; I really don't like ____; I want ____; I really don't want ____; I need ____. I: Pair students and have them tell about and draw favorite things, then categorize them by wants, needs.</td>
</tr>
</tbody>
</table>
## Content Objective 9.2 (continued): Distinguish between wants and needs.

<table>
<thead>
<tr>
<th>Sample Task</th>
<th>Language Strategies/Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Make a list of students' favorite things. Decide if each is a want or a need and create a graphic organizer to classify the items.</td>
<td>Vocabulary: favorite, want, need, like, don't like. Structure: I like [ ] I want [ ] I do not like [ ] I do not want [ ] I don't want [ ]. Function: use of really.</td>
</tr>
</tbody>
</table>

**Language Alert**

- N = Novice
- I = Intermediate
- A = Advanced

- A: Write sentences and place under want/need chart.
- A: Cut magazine pictures to illustrate wants and needs and write sentences to make a book.
- A: Student generates own questions to elicit responses from peer.

**Note:** The concept of wants and needs can vary greatly by culture.
### Grade 1 English Language Arts

**Competency Goal 1:** The learner will develop and apply enabling strategies and skills to read and write.

**Content Objective 1.02:** Demonstrate decoding and word recognition strategies and skills: Use phonics knowledge of sound-letter relationships to decode regular one-syllable words when reading words and text; recognize many high frequency and/or common irregularly spelled words in text (e.g., *have, said, where, two*).

<table>
<thead>
<tr>
<th>Sample Content Task</th>

</tr>
<tr>
<td></td>
<td><strong>Structure:</strong> simple future tense</td>
<td>N: Answer simple questions by pointing to visuals.</td>
</tr>
<tr>
<td></td>
<td><strong>Function:</strong> sequencing; rate of speech</td>
<td>I: Answer specific questions by using simple words and phrases; students may require assistance.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>I: Predict outcomes with the use of a word bank.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>I: Ask <em>wh</em> questions related to the story.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>A: Students devise an ending to a story.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>A: Answer <em>wh</em> questions to predict an outcome.</td>
</tr>
</tbody>
</table>
### Sample Content Task

**Construct a “me” book.**

### Language Alert

**Vocabulary:** personal vocabulary including descriptive words: *I, me, my, am; student’s name in English*

**Structure:** letters of the alphabet

**Function:** sequencing; uses of the period; sound-letter correspondence

### Language Strategies/Assessment

(N = Novice, I = Intermediate, A = Advanced)

- **N:** Choose visuals to accompany words.
- **N:** Practice writing letters of the alphabet.
- **N:** Practice writing on line, using spacing between words.
- **N:** Use upper and lower and lower case letters.
- **N:** Label pictures, using nouns and simple adjectives; may use invented spelling.
- **I:** Use word charts.
- **A:** Discuss book about oneself with a peer.
- **A:** Write a letter about oneself to a peer.
- **A:** Tell about someone in the class.
GRADE 2
**GRADE 2 MATH**

**Competency Goal 1:** The learner will read, write, and model numbers through 1000 and compute with number less than 1000.

**Content Objective 1.11:** Explain solutions to problems using words, pictures, and numbers.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Demonstrate multiple solutions to a given problem. | **Vocabulary:** numbers 1-1000, *solve, solution, problem, compute, add, subtract, explain, describe*  
**Structure:** present verb tenses; simple sentence  
**Function:** questions such as *How much? How many?*  
Use of context clues  
K-W-L chart | N: Chant or use number songs to reinforce numbers to 1000.  
N: Arrange number blocks in correct order.  
N: Copy number words from a number chart.  
N: Use visuals to demonstrate word problems.  
I: Use manipulatives to demonstrate a solution to a problem.  
I: Work with a peer and draw pictures to show a solution.  
I: Maintain a word bank for math vocabulary.  
I: Underline key vocabulary and context clues in a word problem.  
A: Write questions on a K-W-L chart.  
A: Show how to solve a problem by drawing pictures and by setting up a computation. |
GRADE 2 MATH

Competency Goal 2: The learner will recognize, understand, and use basic geometric properties and standard units of metric and customary measurement.

Content Objective 2.12: Determine the value of sets of coins (pennies, nickels, dimes, and quarters), record using appropriate notation.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Identify coins and their value and record the amount. | **Vocabulary:** penny, pennies, nickels(s), dime(s), quarter(s), dollar(s), dollar bill(s), cent(s), head(s), tail(s), value, worth, spend, change, coin(s), bill(s), money, currency, spend, save | **N:** Identify coins and tell the value of each.       
**N:** Identify coins and write the value of each.       
**N:** Identify each coin in a group and give the value of the group of coins. |
| **Structure:** present and past tense: to buy, to spend, to have, to get | **Function:** appropriate language for a sales transaction: How much does this cost? How much is this? Thank you for shopping here. Please come again. | **I:** Write the value of a group of coins using proper notation.       
**I:** Role play a cashier and give a customer the change shown on a store computer.       
**I:** Make a graph to show cost comparison of different items. Illustrate differences in costs with play currency. |
| **Note:** Students may become confused by the different meanings of "bill" as in "dollar bill" and "paying the bill". | **Some students may have learned money notation from other countries which use a comma in place of a decimal point.** | **A:** Use coins to purchase real items from a classroom store.       
**A:** Role play a cashier, select coins for a customer’s change, use appropriate language for the transaction. Redo the change when requested by the customer. |
GRADE 2 SCIENCE

Competency Goal 1: The learner will build an understanding of plant and animal life cycles.

Content Objective 1.01: Analyze the life cycle of plant and animal life cycles: reproducing, developing into an adult, eventually dying.

1.03: Analyze the life cycle of animals: being born, developing into an adult, reproducing, eventually dying

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Use observation to understand differences between/among plants and animals.</td>
<td><strong>Vocabulary:</strong> names for plant parts, animal parts, life stages, plant cycles, animal cycles; ordinal numbers such as <em>first, second, third</em>; <strong>sequential vocabulary such as next, last, first, beginning, end, ending</strong></td>
<td>N: Respond by pointing.</td>
</tr>
<tr>
<td></td>
<td><strong>Structure:</strong> third person present tense verb forms such as <em>grows, lives, eats</em></td>
<td>N: Match visuals.</td>
</tr>
<tr>
<td></td>
<td><strong>Function:</strong> comparison/contrast, sequencing</td>
<td>N: Order visuals in a life cycle sequence.</td>
</tr>
<tr>
<td>Note: Students from other cultures may be less familiar with the origin of some of our common foods, such as bacon, grits, etc.</td>
<td></td>
<td>N: Illustrate the life cycle of a plant such as a dandelion.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>I: Match a sentence with visuals.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>I: Match animals and/or plants and products made from them.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>I: Complete an illustration of a life cycle of a frog, insect, or mammal.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>I: Retell the stages of a plant.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>I: Draw a mural to show food chains as a part of a life cycle.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>A: Write sentences that describe stages in a life cycle.</td>
</tr>
</tbody>
</table>
GRADE 2 SCIENCE

Competency Goal 2: The learner will build an understanding of the changes in weather.

Content Objective 2.01: Describe weather by measurable qualities: temperature, wind direction, wind speed, precipitation.

2.02: Assess weather changes from day to day and over the seasons.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Understand how weather affects human behavior. | **Vocabulary:** rain, snow, sleet, hail, tornado, storm, sunny, dry, wet, cold, warm, hot, windy, humid  
**Structure:** present tense verbs, future tense verbs, simple sentences  
**Function:** prediction, e-mail  
*Note: Students may be familiar with temperature measured in Celsius.* | **N:** Name and label different kinds of weather.  
**N:** Illustrate today's weather.  
**N:** Draw a weather map.  
**I:** Listen to a video of the weather forecast.  
**I:** Locate the weather forecast for the next three days.  
**I:** Compare correct weather data with a three-day forecast to determine its accuracy.  
**I:** Chart the weather for a month.  
**A:** Write and announce a weather report.  
**A:** E-mail students at a school in another state, ask about their weather and illustrate it.  
**A:** Describe how the school's weather differs from that of a school in another state. |
GRADE 2 SOCIAL STUDIES

Competency Goal: The learner will infer that individuals, families, and institutions in neighborhoods and communities are and have been alike and different.

Content Objective 2.2: Describe similarities and differences among families in different neighborhoods and communities.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Compare and contrast two families from different neighborhoods with visuals and written information. | **Vocabulary:** alike, different, similar, compare, contrast, goes, works, lives, might, may, could, should  
Subject-specific vocabulary, i.e., community, neighborhood, address, job, family members  
Question words, i.e., where, what, how  
Descriptive vocabulary  
**Structure:** present tense verbs; complex sentences using because  
**Function:** compare/contrast; questioning  
*Note: Some students may be sensitive to discussions regarding family members who are no longer with them.* | N: Point in response to oral directions.  
N: Make an illustration of a community.  
N: Draw a neighborhood map.  
N: Respond to written questions by circling or checking.  
N: Work with a peer to read information.  
N: Match descriptors with an illustration of a family.  
N: Label illustration or drawing.  
N: Write about own family using repetitive sentence structures such as “This is my ___.”, “I have a ___.”  
N: Build a model community with recycled material, such as boxes, paper rolls, and box tops.  
N: Compare different family members using simple sentence structures. |
### GRADE 2 SOCIAL STUDIES

**Competency Goal 2:** The learner will infer that individuals, families, and institutions in neighborhoods and communities are and have been alike and different.

**Content Objective 2.2:** Describe similarities and differences among families in different neighborhoods and communities.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Compare and contrast two families from different neighborhoods with visuals and written information. | **Vocabulary:** alike, different, similar, compare, contrast, goes, works, lives, might, may, could, could, should  
Subject-specific vocabulary: community, neighborhood, address, job, family members  
Question words, *i.e.*, where, what, how  
Descriptive vocabulary  
**Structure:** present tense verbs; complex sentences using *because*  
**Function:** compare/contrast; questioning |
| I: Find addresses on a map.  
I: Use a graphic organizer, such as a Venn diagram.  
I: Tell how to go from one place to another.  
I: Describe the daily activities of several members of different families.  
I: Follow oral directions on a map for each family's activities.  
I: Role play family members.  
I: Take dictation using specific vocabulary for directions or activities.  
I: Sort or categorize sentence strips with information about families.  
A: Complete questions both orally and in writing for *how* and *why*.  
A: Write conclusions. |
## Sample Content Task

Using visuals of an urban neighborhood, contrast access and need for transportation.

### Language Alert

**Vocabulary:** content-specific vocabulary:
- neighborhood, travel, method, transportation, car, bus, taxi, bicycle, bike, survey
- Descriptive vocabulary, i.e., urban, rural, busy, quite
- Comparative vocabulary, i.e., faster, slower, more convenient
- Supporting vocabulary, i.e., too far, close, enough

**Structure:** present tense verbs

**Function:** comparison/contrast, description, graphing, Venn diagram, surveys, supporting statements

### Language Strategies/Assessment

(N = Novice, I = Intermediate, A = Advanced)

- N: Point and label forms of transportation.
- N: Build models of forms of transportation using disposable materials.
- N: Build a model of two different neighborhoods.
- N: Graph the distance between different points for different means of transportation (string or block graph).
- I: Orally discusses two geographically different neighborhoods using visuals.
- I: Compare a local neighborhood with one from another culture using a Venn diagram.
- A: Write descriptions of transportation needs that match different forms of transportation on a chart.
- A: Write statements that contain supporting information.
- A: Devise and complete a survey about transportation.
**GRADE 2 SOCIAL STUDIES**

**Competency Goal 10:** The learner will apply basic economic concepts to neighborhoods.

**Content Objectives 10.1:** Identify examples of scarcity in neighborhoods.

**10.3:** Explain the use of money as a medium of exchange.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>

</thead>
</table>
| Using a narrative of two neighborhood businesses, decide and represent the contributions to the community. | **Vocabulary:** content-specific vocabulary: neighborhood, business, community, customer, consumer, business person, want, need, contribute, contribution, economic, money, more greater, less, fewer, least, most  
Money terms: dollar, cent(s), money, buy, sell, profit, company, business, shop  
Structure: present tense verb, simple sentences  
Function: compare/contrast | N: Point in response to questions.  
N: Answer questions with one word or phrase.  
N: Use play money to illustrate need, profit.  
N: Label community shops and activities.  
N: Create a neighborhood using pictures, model of buildings.  
I: Explain (orally) how a business gets its inventory, i.e., buy from a farmer, buy from another source.  
I: Complete a cloze story.  
I: Answer prepared questions.  
I: Complete and illustrate graph or economic circle.  
I: Create a "business" in the classroom in which students role-play proprietors and customers.  
I: Role play members of the neighborhood. |
GRADE 2 SOCIAL STUDIES

Competency Goal 10: The learner will apply basic economic concepts to neighborhoods.

Content Objective 10.1 (continued): Identify examples of scarcity in neighborhoods.
10.3 (continued): Explain the use of money as a medium of exchange.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Using a narrative of two neighborhood businesses, decide and represent the contributions to the community.</td>
<td><strong>Vocabulary:</strong> content-specific vocabulary: neighborhood, business, community, customer, consumer, business person, want, need, contribute, contribution, economic, money, more greater, less, fewer, least, most</td>
<td>I: Compare and contrast two businesses.</td>
</tr>
<tr>
<td></td>
<td><strong>Money terms:</strong> dollar, cent(s), money, buy, sell, profit, company, business, shop</td>
<td>I: Graph the results of an actual school fund-raiser.</td>
</tr>
<tr>
<td></td>
<td><strong>Structure:</strong> simple sentences</td>
<td>A: Illustrate economic circles, e.g., how money changes hands from consumer to producer, family to farmer, utility company, according to the goods and services purchased.</td>
</tr>
<tr>
<td></td>
<td><strong>Function:</strong> compare/contrast</td>
<td>A: Answer questions in written form that require higher order thinking skills.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>A: Give an oral or written analysis or a problem that might occur in a neighborhood, such as a shop burns, a shop goes out of business.</td>
</tr>
</tbody>
</table>
GRADE 2 ENGLISH LANGUAGE ARTS

Competency Goal 1: The learner will develop and apply enabling strategies and skills to read and write.

Content Objective 1.01: Use phonics knowledge and structural analysis (e.g., knowledge of syllables, suffixes, prefixes, root words) to decode regular multi-syllable words while reading text.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Define multi-syllable words in context by identifying the suffix, prefix, and root word. | **Vocabulary:** root words, prefix, suffix  
**Structure:** common suffixes, prefixes and their meanings  
**Function:** word formation | N: Model and give examples.  
N: Tap a pencil to show the syllables in words.  
N: Color-code words to show prefixes, root words and suffixes.  
I: Categorize prefixes, suffixes, and roots from a known list.  
I: Use flashcards to form words with suffixes and prefixes.  
I: Circle or underline words in a sentence that have a prefix or suffix.  
A: Create words that have a prefix or suffix and use in a sentence.  
A: Read a story and identify multi-syllable words in context. |
**GRADE 2 ENGLISH LANGUAGE ARTS**

Competency Goal 2: The learner will develop and apply strategies and skills to comprehend text that is read, heard, and viewed.

**Content Objective 2.08:** Interprets information from diagrams, charts, and maps.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Answer specific questions from information displayed on a chart or map.</td>
<td>Vocabulary: directions: north, south, east, west; more than/less than; question words, numbers, letters. Structure: simple questions, simple sentences. Function: use of map symbols; questioning.</td>
<td>N: Model activity using charts and or maps. N: Respond to questions by pointing to locations on a chart or map. N: Illustrate answers with labeled drawings. N: Respond to yes/no questions. I: Answer with simple words and phrases orally and/or in writing. A: Create questions and answer them orally and in writing. A: Create a map or chart, then ask a peer questions about it.</td>
</tr>
</tbody>
</table>
GRADE 2 ENGLISH LANGUAGE ARTS

Competency Goal 4: The learner will apply strategies and skills to create oral, written, and visual texts.

Content Objective 4.06: Plan and make judgments about what to include in written products (e.g., narratives of personal experiences, creative stories, skits based on familiar stories and/or experiences).

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>

GRADE 3 SCIENCE

Competency Goal 1: The learner will build an understanding of plant growth and adaptations.

**Content Objective 1.01:** Determine that the quantities and qualities of nutrients, light, and water in the environment affect plant growth.

**1.02:** Observe how environmental conditions can determine how well plants grow and survive in a particular environment.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Classify plants by their environmental needs.</td>
<td><strong>Vocabulary:</strong> light, sun, water, rain, dry, desert, grow, habitat, desert, forest, rain forest, jungle, photosynthesis</td>
<td><strong>N:</strong> Label pictures of plants found near the school.</td>
</tr>
<tr>
<td></td>
<td><strong>Structure:</strong> present tense forms of verbs; prepositions such as on, in, through, under, above, across; prepositional phrases such as in the forest, in the desert</td>
<td><strong>N:</strong> Cut out and label pictures of plants in various environments.</td>
</tr>
<tr>
<td></td>
<td><strong>Function:</strong> classify, compare-contrast</td>
<td><strong>N:</strong> Use a Venn diagram to show similarities and differences between two plants growing in different environments.</td>
</tr>
<tr>
<td></td>
<td><strong>Note:</strong> Simplify reading material to avoid the use of complex sentences.</td>
<td><strong>N:</strong> Complete simple cloze sentences about plants.</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>I:</strong> Provide two similar plants with different amounts of light over one week and describe how the plants are affected.</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>I:</strong> Compare and contrast plants found in habitats in countries represented by students in the class.</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>A:</strong> Research and report on plants common to students' communities and regions.</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>A:</strong> Share personal experience and knowledge about plants through illustrations and explanations.</td>
</tr>
</tbody>
</table>
GRADE 3 SCIENCE

Competency Goal 3: The learner will build an understanding of the earth/moon/sun system.

Content Objective 3.01: Using shadows, observe the movement of the sun in the sky during the day.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Relate the movement of the sun to the hours of the day.</td>
<td><strong>Vocabulary:</strong> sun, move, movement, shadow, hour, minute, time, morning, afternoon, evening, night, noon, midnight, AM, PM, sunrise, sunset, orbit; sequencing vocabulary such as <strong>beginning</strong>, <strong>next</strong>, <strong>then</strong>, <strong>after</strong>, <strong>last</strong>, <strong>end</strong>. <strong>Structure:</strong> simple sentences; simple paragraphs. <strong>Function:</strong> classify, sequence, cause-effect. <em>Note: Other countries use a 24-hour clock instead of AM and PM. Newly arrived students may not be familiar with our time conventions.</em></td>
<td><strong>N:</strong> Identify pictures showing morning, afternoon, evening, and night. <strong>N:</strong> Place pictures of various activities under headings of morning, afternoon, evening, and night. <strong>N:</strong> Sequence various activities and estimate what time the activity might have occurred. <strong>I:</strong> Working with a partner, create a sundial with a paper circle and a craft stick and mark the shadow at three times during a day. <strong>I:</strong> Working with a partner, show how the earth rotates and revolves. Identify which movement causes day and night and which causes seasons. <strong>I:</strong> Describe (orally) how to make a sundial and mark the hours. <strong>I:</strong> Create and label a diagram showing the earth’s orbit around the sun. <strong>A:</strong> Write sentences describing how the earth’s movement around the sun creates our seasons.</td>
</tr>
</tbody>
</table>
## GRADE 3 SOCIAL STUDIES

**Competency Goal 5:** The learner will evaluate relationships between people and their governments.

**Content Objective 5.2:** Summarize the elective process in the community and distinguish between elected and appointed officials.

<td>N: Construct graphs such as circle graphs, bar graphs, line graphs, picture graphs to show population trends and growth patterns.</td>
</tr>
<tr>
<td>Structure: present and future tense form of verbs</td>
<td>I: Skim and scan for information.</td>
<td></td>
</tr>
<tr>
<td>Function: sequencing, cause-effect</td>
<td>I: Take notes and write short reports.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>I: Describe how changes in the community affect a student personally.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>A: Research impact of new means of communication and transportation.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>A: Debate advantages and disadvantages of future advances.</td>
<td></td>
</tr>
</tbody>
</table>
## GRADE 3 ENGLISH LANGUAGE ARTS

Competency Goal 1: The learner will apply enabling strategies and skills to read and write.

Content Objective 1.04: Increase sight vocabulary, reading vocabulary, and writing vocabulary through: wide reading, word study, listening, discussion, book talks, book clubs, seminars, viewing, role play, and studying author’s craft.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Underline ten words in a reading passage and substitute each of them with a word of similar meaning. | Vocabulary: dictionary, thesaurus  
Structure: singular/plural  
Function: words that can function as more than one part of speech, such as wants (verb/noun)  
*Note: Be sure to consider the readability level of the written passage.* | N: Use a picture or personal dictionary.  
N: Use a Thesaurus.  
N: Using a cloze procedure, replace missing words with a word or visual representation.  
I: Replace an underlined word, choosing a synonym from a word bank.  
I: Retell a series of sentences using synonyms.  
A: Rewrite a passage with substituted words, using a dictionary or a Thesaurus.  
A: Given a specific activity, such as writing a television commercial, decide synonym is best to use, such as “This car is ____” (cheap, low-priced, free); “Good morning, ladies and ____” (boys, fellows, gentlemen). |
GRADE 3 ENGLISH LANGUAGE ARTS

Competency Goal 2: The learner will apply strategies and skills to comprehend text read, heard, and viewed.

Content Objective 2.04: Identify and interpret elements of fiction and nonfiction and support by referencing the text: author's purpose, plot, conflict, sequence, resolution, lesson and/or message, main idea and supporting details, cause and effect, fact and opinion, point of view (author and character), use of figurative language (e.g., simile, metaphor, imagery).

<table>

</thead>
</table>
| Read fairy tale and identify main idea. | **Vocabulary:** descriptive vocabulary such as beautiful, wicked, gallent  
**Structure:** past tense form of verbs such as lived, slept, awoke; literary words and expressions such as happily ever after, once upon a time  
**Function:** Understand the difference between a fairy tale, tall tale, a fable, legend, or myth; use of an advance organizer. | N: Use illustrations and pictures to accompany written text.  
N: Use an advance organizer prior to reading.  
N: View a video of a tall tale prior to reading.  
N: Discuss a story with a partner. Illustrate or orally express the main idea in simple words and phrases.  
I: List main events in fairy tale, tall tale.  
I: Answer questions about a tall tale.  
I: Discuss a story with a partner; orally express main idea and then write it down in a sentence.  
A: Retell the story.  
A: Write a short paragraph which summarizes a tall tale and states the main idea. List sentences or phrases from the story that reveal the main idea. |
GRADE 4
## GRADE 4 MATH

**Competency Goal:** The learner will demonstrate an understanding and use properties and relationships of geometry.

**Content Objective 2.1:** Use manipulatives, pictorial representation and appropriate geometric vocabulary to identify properties of polyhedra and other three-dimensional figures.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>

</thead>
<tbody>
<tr>
<td>Communicate an understanding of a problem and solve it.</td>
<td><strong>Vocabulary:</strong> comparative vocabulary such as <em>more, less, greater than, fewer than</em>&lt;br&gt;Operational vocabulary, such as <em>add, subtract, greater than, difference, remains, plus, more than, increase by, sum, all together, in all</em>&lt;br&gt;Sequencing language such as <em>first, beginning, next, then, last, end, ending with</em>&lt;br&gt;Predictive language such as <em>I think, I guess</em>&lt;br&gt;<strong>Structure:</strong> cause-effect; if-when clauses&lt;br&gt;<strong>Function:</strong> use of synonyms&lt;br&gt;<em>Note: Commas and periods are used differently in other countries, for example our 3,000 = 3.000 in many countries.</em></td>
<td><strong>N:</strong> Solve problem using manipulatives.&lt;br&gt;<strong>N:</strong> Illustrate problem and solution.&lt;br&gt;<strong>N:</strong> Use a word board.&lt;br&gt;<strong>N:</strong> Teach use of calculators.&lt;br&gt;<strong>N:</strong> Model a think aloud/role play.&lt;br&gt;<strong>N:</strong> Highlight important information.&lt;br&gt;<strong>I:</strong> Question for clarification.&lt;br&gt;<strong>I:</strong> Retell problem and solution.&lt;br&gt;<strong>I:</strong> Arrange sentence strips in sequence to show a solution.&lt;br&gt;<strong>I:</strong> Show/list operational steps.&lt;br&gt;<strong>A:</strong> Create student-generated problems; share and solve.&lt;br&gt;<strong>A:</strong> Read and solve problems. Generate alternate solutions with peer groups.</td>
</tr>
</tbody>
</table>
Competency Goal 1: The learner will build an understanding of animal growth and adaptation.

**Content Objective 1.01:** Relate structural characteristics and behavior of a variety of animals to the environment in which they are typically found.

**1.02:** Determine animal behaviors and body structures that have specific growth and survival functions in a particular habitat.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Compare and contrast adaptations of various animals to their environment — coloration, shape, body structure. | **Vocabulary:** descriptive vocabulary, such as color words, *camouflage*  
Vocabulary of comparison and contrast: *same as, larger, smaller*  
Vocabulary of body coverings, body parts: *feathers, fur, tail, scales, paws, legs, thorax*  
Vocabulary used to describe habitat: *forest, rain forest, jungle, desert, plains, mountains, lake, pond, wetland*  
**Structure:** present tense; active and passive voice: *eats, is eaten by, feeds on, is hunted by*  
**Function:** compare-contrast, cause-effect | N: Illustrate an animal in its habitat and label.  
N: Tell about an animal being described and its habitat.  
N: Describe a food web using a pattern sentence, such as *The _____ eats _____.*  
I: Match a sentence with the animal being described.  
N: Match an animal and its habitat. Explain orally and in writing those needs are met by the animal’s habitat.  
I: Identify different types of body structures or coverings and explain how they help an animal to survive.  
A: Explain how an animal’s coloration helps it adapt to its environment.  
A: Explain what happens when a balanced ecosystem is disturbed. |
## GRADE 4 SCIENCE

**Competency Goal 2:** The learner will build an understanding of the composition and uses of rocks and minerals.

**Content Objective 2.04:** Classify rocks using student-devised rules.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Observe a variety of rocks and identify and classify similarities and differences. | **Vocabulary:** descriptive language pertaining to color, size, shape, weight, material, temperature, texture. Comparative language such as: *larger than, smaller than, wider than, lighter than, same as, similar to, is like, looks like, greater than, less than, more than, fewer than* | **N:** Make a class list of shapes and colors and match with illustrations.  
N: Discriminate between two objects based on one attribute, such as weight or texture. Which is heavier, smoother?  
N: Draw an object based on an oral description.  
N: Create a list of words to describe colors, shapes and other attributes such as *rough, smooth, small.*  
N: Group a collection of rocks by attributes and describe it to a peer. Show other groupings.  
I: Select rocks from a group according to a particular attribute. Tell how the rocks are related and why the others were not selected.  
I: Describe an object in writing using a “missing word” sentence and a word bank which may have words separated in categories.  
A: Write several sentences describing each of five different rocks and suggesting how each might be used. Let others identify them after reading. |

*Note: Be aware of the multiple meaning of many descriptive words, such as “light” with respect to color, weight, etc.*
**GRADE 4 SOCIAL STUDIES**

**Competency Goal 4:** The learner will analyze the characteristics of the people of North Carolina.

**Content Objective 1.2:** Describe the origins and characteristics of the major groups that settled in North Carolina and assess their influence in North Carolina customs.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Research a group of people and tell about its social and economic influence. | **Vocabulary:** comparative language such as *more, most*  
Reference vocabulary for media such as *more, most*  
**Structure:** use of capitalization for nationalities, regions of the country, names of countries  
**Function:** identify cause and effect; question formation; interviewing skills; note taking; interpret graphs  
*Note: Whenever possible, involve students' home countries in class discussions.* | N: Review map skills.  
N: Scan for information.  
N: Teach use of media center; locate and identify reference material.  
N: Complete an information chart in a group.  
I: Use a language jigsaw activity to obtain information for a graph.  
I: Conduct an interview.  
I: Complete a cloze passage using a completed information chart.  
A: Write a short narrative using information gained in an interview.  
A: Complete a chart using information gathered through research.  
A: Write a narrative from a completed information chart. |
GRADE 4 SOCIAL STUDIES

Competency Goal 11: The learner will assess changes in ways of living over time and investigate why and how these changes occurred.

Content Objective 11.1: Identify and describe changes which have occurred in ways of living in North Carolina.

<table>
<thead>
<tr>

| Describe and illustrate an ecosystem and compare it to another ecosystem. | **Vocabulary:** plant, animal, habitat, land, forest, wetland, ecosystem, interdependence, organism  
**Structure:** simple sentences, subject-verb agreement  
**Function:** compare-contrast |  
N: Identify and describe an ecosystem using pictures.  
N: As a group, identify the aspects of the environment, which are important to plants and animals.  
I: Create a graphic organizer to show which aspects of the environment is essential to plants and animals.  
A: Show the impact on organisms of changing one aspect of the environment, such as, increased temperature in a forest, less rainfall in a rain forest in a picture. Describe the impact in a paragraph. |
## Grade 5 Science

**Competency Goal 2:** The learner will build an understanding of forms and sources of energy.

**Content Objective 2.01:** Assess the sources & forms of energy (heat, light, electricity, mechanical motion, and sound).

**Content Objective 2.02:** Assess needs, benefits, distributions, pollution, and cost associated with society's energy use.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>
</tr>
</thead>
</table>
| Understand how energy sources are important to our lives. | **Vocabulary:** energy sources, such as *petroleum, wood, steam, and water*  
**Sequencing vocabulary such as** *first, second, next, last*  
**Verbs such as** *produce, create*  
**Structure:** simple sentences, outlining  
**Function:** sequencing, compare/contrast, cause-effect | N: Collect magazine pictures of equipment, tools, machines and sort according to energy source.  
N: Create a timeline of energy sources.  
I: Devise a science experiment that utilizes two different energy sources and create an outline of the experiment.  
I: Select and discuss examples of energy sources.  
I: Show and discuss toys powered by different types of energy, such as wind, gas, and electricity.  
I: Conduct an experiment with a partner that involves an activity such as making an electrical circuit. Describe the results to the class.  
A: Conduct research for a paper on energy.  
A: Research and describe how sources of energy may differ from country to country and draw or chart results. |
### GRADE 5 SOCIAL STUDIES

**Competency Goal 1:** The learner will analyze characteristics of people of the Western Hemisphere.

**Content Objective 1.1:** Identify, locate, and describe major groups of people, past and present, in the United States, Canada, and Latin America.

<table>
<thead>
<tr>
<th>Sample Content Task</th>
<th>Language Alert</th>
<th>Language Strategies/Assessment (N = Novice, I = Intermediate, A = Advanced)</th>

| Identify locate and describe groups of people. | **Vocabulary** such as: *Native Americans*, *indigenous peoples*, *New Englanders*, *Spanish*, *French*, *English*, people, population movement, before, after, prior, east, west, north, south, country, continent, century, decade, state, migration, immigration, ship, wagon, horse, airplane, car, settler. Comparative vocabulary such as *more*, *most*, *few*, *fewer*. **Structure:** present and past tense such as *came from*, *left*, *arrive(d)*, *traveled*, *settle(d)*. **Function:** cause-effect, sequencing, compare/contrast. | N: Point to different countries and different continents on a globe.  
N: Label maps or globes with supplied words.  
N: Point to locations on a map where specific groups live/lived.  
I: Develop a pictorial timeline to show past and present population migration patterns to the United States.  
I: Label maps or globes using student-supplied words.  
I: Show on a map the route taken by a particular group of people.  
I: Complete a T-chart describing reasons for immigration of major groups.  
A: Describe past and present people of a given area in writing. |
**GRADE 5 SOCIAL STUDIES**

Competency Goal 6: The learner will evaluate the significance of the movement of people, goods, and ideas from place to place.

Content Objective 6.2: Compare ways in which people, goods, and ideas moved in the past in the United States, Canada, and Latin America with their movement today.

<table>
<thead>

APPENDIX
GLOSSARY

Advance organizer: a device that activates relevant background knowledge in order to facilitate the learning and retention of new material.

BICS, Basic Interpersonal Communication Skills: the skills involved in everyday, non-academic communication.

Bilingual: proficient in two languages.

Brainstorm: a thinking skills strategy in which a two or more people generate and list ideas about a particular subject without stopping to examine the merit of each thought. After the list is completed, the ideas are discussed and evaluated.

CALP, Cognitive Academic Language Proficiency: the level of language proficiency needed to succeed in an academic classroom.

Cloze procedure; Cloze test: a reading comprehension activity in which students infer the missing words in a reading passage. When preparing a cloze activity, words are omitted at set intervals, such as every 5th or 7th word, etc. A word bank may or may not be provided; synonyms for the omitted words may or may not be accepted.

Clue vocabulary: words which help guide a learner to clearer understanding word problems and other text. Some examples are less, in all, difference, together, same as.

Comprehensible input: language that is presented to a new language learner in a way that is meaningful to that learner. Input may be made more comprehensible through the use of visual and context cues, short sentences, avoidance of idiomatic language, etc.

Content task: a task having to do with a specific subject area such as social studies, science, etc.

Context clues: cues in the environment which help to clarify meaning and support comprehension.

Controlled high-frequency: when a written passage or activity which has been developed to feature vocabulary which is most frequently found in the language in order to increase the benefit to English language learners.

Culture: the pattern of life of a people, which includes attitudes, customs, traditions, artifacts, behaviors, perceptions, etc.

Diorama: a three-dimensional representation of an actual event or scene from a book or story.

Economic circle: the relationship between the producers of goods or services and the consumers of those goods or services, which may be shown in a diagram.

ESL: English as a second language

Flow map; multi-flow map: two types of graphic organizers. A flow map is used to present sequencing; multi-flow maps are used to represent cause and effect.
Function, as in language function: the purposes that language serves in oral or written communication.

Graphic organizer: one of many types of diagrams originally developed in thinking skills programs which can help students understand, organize, and retain content information.

High frequency words: the words in a particular language which are found most often in non-technical writing.

Idiomatic language: language whose meaning is different from the literal meanings of the words that make up the phrase.

Information gap: an oral language pair activity in which one student has a picture, map, or object which he describes as accurately as possible to a partner who cannot see it.

K-W-L: a device used to help students read more meaningfully. In the first column (What I know) students record what they already know about a topic; in the second column (What I want to know) they record what they want to know as they read. In the third column (What I have learned) they list what they have learned.

Key vocabulary: the vocabulary which is essential to understanding a piece of writing.

Language acquisition: when language is learned through interaction with the environment, rather than being taught directly.

Language experience activity: a method of promoting literacy in which students experience a classroom activity, then dictate sentences in sequence describing the activity to the teacher who writes them on chart paper. Follow-up activities may include re-reading and vocabulary extension experiences.

Jigsaw activity: a language activity in which a pair of students are given two different descriptions, diagrams, or pictures of the same situation and must ask and answer questions in order to resolve questions about the situation.

LEP: Limited English proficient, see below.

Limited English proficient: a student whose first or primary language is a language other than English, and whose English language ability is below a superior level in listening, speaking, reading, or writing.

Manipulatives: things which can be handled, especially concrete objects brought into a classroom to facilitate learning.

Novice: a beginner, regardless of the individual's age.

Order of modifiers: the typical order of adjectives used in a language. In English the usual order is number, condition, size, color, e.g., five pretty little yellow ducks.

Personal dictionary: an individual dictionary of vocabulary words and their corresponding pictures, synonyms, or definitions which are important to an individual learner. The personal dictionary is used by a language learner in writing activities and may be expanded over time to include new entries which reflect a student's changing interests and expanding language proficiency.
**Personal vocabulary**: a list of vocabulary words which are selected by an individual learner and which reflect his or her interests, hobbies, etc. See personal dictionary.

**Phonemic pattern**: a pattern of speech sounds.

**Picture questionnaire**: a questionnaire used by a non-literate student which has pictures in place of words, allowing the learner to record classmates’ responses to questions.

**Polyhedron; polyhedra**: a solid formed by plane figures.

**Pre-writing notetaking**: an activity in which ideas or pieces of information are recorded before the composing process is begun.

**Proficiency**: the ability to do something.

**Pull-out**: an organizational model in which students leave the regular classroom during the school day in order to work with a special teacher alone or in a small group, such as in an ESL pull-out class.

**Referent**: something that is referred to. A pronoun referent is the noun which could be used in place of the pronoun.

**Role-play**: to play the part of someone, such as a clerk in a store, in order to practice the use of authentic language and appropriate behavior.

**Rubrics**: a set of scoring guidelines used to evaluate student work.

**Scaffolding**: providing contextual support during instruction to clarify meaning. Scaffolding may involve the use of pictures, diagrams, lists, charts, tables, graphs, etc.

**Scan**: to glance at in order to form an impression about what something contains.

**Silent period**: a period of time lasting from several weeks to several months when children who do not speak English may stop talking in school.

**Skim**: to read quickly without regard to detail.

**Sound-letter correspondence**: the relationship between a phoneme and its corresponding grapheme.

**SQ3R**: a reading comprehension strategy which involves surveying, asking questions to be answered by the reading, then reading, reciting the important points, and reviewing.

**Tangram**: a square which has been cut into five triangles, a square, and a rhomboid, and which may be rearranged to form many different figures.

**T-chart**: a reading or listening comprehension activity in which a student puts a large “T” on a page and write main ideas to the left of the vertical line and corresponding details on the right.

**Total physical response**: a method which uses physical actions, often in a game-like setting, to develop language skills in second language learners.
Venn diagram: a graphic organizer showing how two people, places, or concepts are alike and different.

Visual timeline: a timeline which uses pictures to depict events.

Word bank; word chart: a collection of words made available to assist students who are working on a writing or cloze activity.
CAMBOURNE, BRIAN, The Whole Story: Natural Learning and Acquisition of Literacy in the Classroom, Ashton Scholastic, Auckland, New Zealand, 1988.
