INTRODUCTION

This document is a companion to the North Dakota Dance Content Standards (2000) and provides descriptions of various levels of student performance and achievement in relation to the state content standards.

Four levels of performance are written for each benchmark by North Dakota educators from various grade levels. Level 4 describes an advanced proficiency, Level 3 proficient, Level 2 partially proficient, and Level 1 novice. Level 3, proficient, describes what state educators hold to be the state standard, expected of most students. Although not indicated within the document, if a student does not respond in any way they achieve no level placement.

The performance standards are designed to be used with content standards in all disciplines, not just the arts. Ideally, the arts should be embedded into the curriculum of every subject area.

MORE ON PERFORMANCE STANDARDS

Performance Standards

✓ Provide student with expectations about what will be assessed as well as standards that need to be met.

✓ Increase consistency in the rating of performances.

✓ Provide "road signs"--information about where students are in relation to where they need to be.

A FOUR POINT PERFORMANCE STANDARD

4. Demonstrates exemplary performance; exceeds performance standard; advanced proficiency.

3. Demonstrates solid performance; meets State performance standard; proficient.

2. Performance is emerging or developing toward performance standard; partially proficient.

1. Attempt made but there are serious errors; novice.

***(Performance Standard Level 3 is the North Dakota State Standard; examples of various levels of student performances are found in the State Scoring Manuals or can be selected from student performances by teachers or groups of teachers.)
