He serves on the Community Planning Advisory Committee for the Mental Health Institute at Pueblo and the Board of Directors for Pueblo County Legal Services. He is a member of the Colorado Bar Association, the Colorado Trial Lawyers Association, the Pueblo Bar Association, and the State Democratic Central Committee.

He earned a bachelor's degree and a juris doctorate from the University of Colorado and a master's from the Harvard University John F. Kennedy School of Government.

Chicano/Latino Students Attend WSU Career Day

More than 70 Chicano/Latino high school students took part in the second annual CASHE (Children of Aztec Sharing Higher Education) Career Day at Washington State University. The "day" was sponsored by the university's Chicano/Latino Faculty/Staff Association and MECHA (Movimiento Estudiantil Chicano de Aztlán) student chapter.

Association representative Yolanda Flores-Niemann (pictured here) and MECHA student representative Alma Montes de Oca co-chaired the event.

Niemann said that the program was an awareness-building occasion.

"The majority of the high school students who took part will be the first in their families to attend college," said Niemann. This conference helped make them aware of procedures, challenges, and opportunities related to going to college and the benefits of a college education.

School counselors who came with their students indicated that what they learned at the conference will help them counsel and assist students as they think about and plan for college life.

Fernández Part of Cal Poly-Pomona Lecture Series

California State Polytechnic University-Pomona's fall lecture series featured Pablo Armando Fernández in October. Fernandez is one of Cuba's leading poets and authors of the 20th century.

Sent to school in the United States in 1948, he did not return to Cuba until 1959, after the revolution.

His work reveals a crisis of conscience over his absence during the revolutionary movement against the Batista dictatorship, and many pieces are dedicated to heroes of the revolution. His books include Los Santos Despues and Learning to Die.

He spoke on "Cuban Literature and Art Under Siege.

Rivera Co-Curator of Art Exhibition

George Rivera was the co-curator of the recent "1508, 1848, 1898: Conquest and Consequences" month-long art exhibition at the University of Southern Colorado Art Gallery's Hogg Hall. The exhibit featured Mexican and Indian art from the conquest of New Mexico in 1508, the Mexican War in 1848, and the Spanish American War in 1898. Rivera lectured on art and Spanish students at the exhibit.
Vela Honored by Illinois State University

Pima County Community College (Ariz.) Downtown Campus President Dr. Noelia Vela was inducted into the Illinois State University College Hall of Fame in September for her past and present accomplishments and promise of future contributions to the profession of education. The honor is bestowed on the College of Educations outstanding graduates.

Vela's professional work experience in education includes 24 years at the community college level, one year at the university level, and one year at the high school level.

She is recognized in the International Who's Who of Professionals and Who's Who Among Hispanic Americans and was recently named to Mujeres en la Cumbre (Women at the Pinnacle) in the Americas. She is an active member in many community, state, and national professional organizations such as the Research Commission of the American Association of Community Colleges and the National Institute for Leadership Development.

She received a bachelor’s degree and a master's from Illinois State University and a doctorate from the University of San Diego.

Prominent Latinas at TWU

In conjunction with Texas Women’s University’s (TWU’s) Hispanic Heritage Month celebration, four prominent Latinas dropped by the school in September and October to share their thoughts, ideas, and experiences.

Dallas media and marketing executive Laura Estrada, entrepreneur Brenda Reyes, TWU Alumnae Association Chair Lilia Bynum, and federal judge Hilda Tague all made separate visits to TWU to serve as guest speakers.

Estrada is vice president of sales for Merrill Corp in Dallas. She is an active member of the National Alumnae Association and currently serves on the TWU President’s Council, as well as on the Foundation Board.

Reyes is president of Innovative Computer Group, a systems integrator of document imaging systems. The founder of a New Orleans-based computer consulting firm, she obtained her bachelor’s degree from the University of New Orleans.

Bynum serves as director of resources development for United Way of Denton. She also assumes the roles of president of the Denton chapter of the Texas Woman’s University Alumnae Association and chair of the 1999 TWU Homecoming Committee.

Earlier this year, Tague became Texas’ first-ever Hispanic female judge. She earned a master’s degree from the University of North Texas, and after entering law school at the University of Texas, she became a lawyer.

Rodeiro Discusses Painting at NJCU

Dr. José Rodeiro, an associate professor of art at New Jersey City University (NJCU), discussed his work and development as a painter during a campus program in October.

Listed in Who's Who in American Art, Rodeiro teaches art history, esthetics, and criticism, and coordinates the graduate thesis in NJCU's Master of Fine Arts program. He also teaches art history at the undergraduate level and is a member of NJCU's Council on Hispanic Affairs and Global Awareness Intercultural Network.

As a Fulbright Fellow, Rodeiro painted and lectured in Nicaragua. He also has lived and painted in Spain and Central America and has won “Best of Show” awards at numerous exhibits. His work is included in many museum collections, and he has been a member of the Amness art movement led by Bolivian artist Nichomedes Niñez-Arauz.

He has published articles and has translated many works, including El Coro, edited by Martín Espada and published by University of Massachusetts Press.

He holds a doctorate from the College of Fine Arts at Ohio University and an M.F.A. from Pratt Institute.

Rodriguez Chosen to Enhance Multiculturalism

In these days of emphasized diversity and restrained affirmative action, achieving a healthy multicultural balance is a difficult task. Texas Woman’s University (TWU) has set out to address this issue with the appointment of the executive assistant to the president for community relations and diversity, Dr. Rodolfo “Rudy” Rodriguez. For the rest of the fall term, Rodriguez continues as professor and chair of reading and bilingual education while he begins to take over his new duties. He will work full time as the executive assistant to the president beginning in the spring 1999 semester.

Some of Rodriguez’s primary duties are to advise university officials on enhancing TWU’s climate for diversity, to assist faculty members and administrators in identifying deficiencies in campus diversity, and to establish objectives to address any such deficiencies. In short, he is striving to “build a climate where neither race nor ethnic background, gender nor physical condition reduce the ability of an individual to benefit from the opportunities that the university has to offer.”

New Director of Diversity and Equity at SDSU

Susan Moss, a Washington, D.C., attorney, diversity leader, and civil rights advocate, became San Diego State University’s first full-time director of diversity and equity this month.

Moss had been assistant to the chancellor for equal opportunity and affirmative action at the University of Wisconsin-Whitewater since 1992.

She served from 1979-1992 in the U.S. Department of Justice as director of the Legal Affairs Institute, a federal attorney-training institute. She also served as an attorney in the
civil rights division of the Justice Department, where she specialized in Title IX civil rights issues concerning federally funded education programs.

In addition, she has taught writing, reading, and grammar in Washington, D.C., inner-city programs and has taught at the secondary and university levels in the Middle East and in Africa.

She received her bachelor's degree from Lewis and Clark College, her J.D. from American University, and her doctorate from the University of Wisconsin-Madison.

**Birmingham-Pokorny Honored by Colleagues**

Dr. Elba Birmingham-Pokorny, professor of Spanish at Southern Arkansas University-Magnolia, was presented an award from the University of Alcalá-Spain in recognition of her research and outstanding contributions in the fields of Africania and Afro-Hispanic Studies.

"I felt extremely honored because it was something I was not expecting. It is difficult to put into words my feelings for I was not only receiving an award from one of Spain's oldest universities [the University of Alcalá was created in 1293], but in addition from my colleagues," Birmingham-Pokorny said of receiving the award.

She is organizing an Afro-Hispanic Literature and Culture Conference, to be held May 26-30 in the year 2000 in San José, Costa Rica. The theme for the conference is "Songs of American Selvage and Forgotten Bodies, Rescued Texts, Subaltern Voices, and Identities of the Millennium." She initiated the annual conference in 1988 as a way for scholars throughout the world to research, discuss, and introduce to the scholarly world neglected Afro-Hispanic works, authors, and themes as well as to promote a deeper understanding and appreciation of the cross-cultural landscape of the Americas.

**UTA's González Wins Award**

Garça, a graduate student at the University of Texas-Arlington (UTA), has been recognized by the American Society of Landscape Architects (ASLA) for the 1998 annual national competition for graduate research. Her thesis, "The Role of Effective Response in Culturally-Based Landscape Architecture," received first place among 35 submissions.

The award was formally presented at the annual meeting of the Council of Educators in Landscape Architecture, hosted by UTA in October.

Another UTA student, Carol Feldman, received a special commendation for her funded research project, "The Chiasma-Gold Hill Landscape: A Cultural Landscape Report:"

In May, González and Feldman each received the Master of Landscape Architecture degree, the terminal degree in the field. González completed her undergraduate work at Complutense University in Madrid, Spain.

**SBVC Newsmakers**

Veteran college administrator María Elena Martínez recently started her new job as vice president of instruction for San Bernardino Valley College (SBVC), in California.

An administrator at East Los Angeles College for 20 years, Martínez helped that school grow from fifth to first place among the nine colleges of the Los Angeles Community College District. She is credited with saving the school from a $1 million-a-year budget deficit.

Some of the issues she is eager to tackle include the burden of single parents who have multiple responsibilities of child-rearing, college, jobs, and homework, the dropout rate of students, particularly Hispanics, who statistically are more apt to leave college after eight weeks; and recognizing similarities, rather than differences, among diverse members of the campus community, among other things.

She holds an associates degree from East L.A., a bachelor's from the University of Southern California, and a master's from Pepperdine University.

Pictured here, Louis Chavira, left, is elected to his third term as president of the Latino Faculty and Staff Association of the San Bernardino Community College District. Also pictured are, from left to right, Corrinda Velme, secretary, Holly Clemens, treasurer, and Dan Martínez, vice president. "Our main purpose is to help students in any way we can," said Chavira. Over the past three years, the organization has awarded about 12 scholarships to SBVC students. The new officers stand in front of a painting by David Rosales, Inland Empire artist and instructor at SBVC.

**Aguillán León Teaches Seminar on Cuba**

Professor Luis Aguillán León, an Emilio Bacardi Moreau Professor of Cuban Studies at the University of Miami (Fla.), recently wrapped up a two-month seminar exploring Cuba's past and present.

"Cuba and Its Circumstances" addressed Cuba's current situation and explored the country's historical and cultural legacy. Taught by Aguillán León in both English and Spanish, the course aimed to inform and further educate the community about current affairs in Cuba and how those circumstances in turn affect the cultural and sociopolitical mix on the island.

A prolific writer and noted Cuban scholar, Aguillán León is the author of several books and has written extensively for several Latin American newspapers and magazines on Cuba-related issues.

His academic career began in 1972 at the Universidad de Oriente in Cuba, where he became Assistant Professor Emeritus at Georgetown University in Washington, D.C., where he taught history for 30 years.

The Bacardi Chair is offered to noted scholars for one academic year. Aguillán León inaugurated the Bacardi Chair when it was first introduced in 1986.
Cal State-L.A. Voter Registration

Cal State-L.A. held a major voter registration drive, "Rock the Vote at Cal State L.A.," recently. More than 600 students, staff, and faculty attended.

Assembly Speaker Antonio Villaraigosa (pictured at podium; seated are California Secretary of State Bill Jones and Margaret Hartman, provost and vice president of academic affairs) was one of the featured guests at the drive, which was spearheaded by the University's Associated Students, Inc. (USI).

He addressed a class on "The Role of the Speaker of the Assembly in California Politics" and "The Importance of Registering to Vote."

"A lot of people registered, and many took home voter registration cards," said USI President Hector Barajas. "We're very proud that more than 60 area universities followed our lead and organized similar drives on their campuses, which made this the biggest student voter registration effort in history.

CHC Long-Range Planning Retreat

Participating in a recent long-range planning retreat for Crafton Hills College (CHC) of California were (left to right) CHC Vice President of Instruction Gloria Harron, CHC consultant Catherine Pequeño, and CHC President Luis Gómez.

James Marteney, Los Angeles Valley College professor of speech communication and a planning consultant to colleges and private industry, facilitated the two-day workshop at the college.

The goals of the workshop were to provide training for all CHC staff in the planning process and to establish a foundation for long-range strategic plans for the future of the college. Marteney's workshop emphasized creativity, teamwork, optimism, and open-mindedness. The workshop is among several staff development classes offered at the college throughout the year.

Texas A&M and Universidad Metropolitana Sign Agreement

Texas A&M University-Kingsville has signed an agreement with the Universidad Metropolitana in Caracas, Venezuela, to study and implement joint programs of mutual interest to students, faculty, staff, and the community.

Dr. Anarella Cellitti, early childhood education coordinator at Texas A&M-Kingsville, said this will be good for both groups. "Horizons will be expanded, and the opportunity for research will be opened, particularly in early childhood education."

Some of the joint programs to be considered could include projects for students in the area of culture and English/Spanish language and education.

Cellitti said there was the possibility of a combined master's program and student exchange program.

Cellitti was the Venezuelan delegate to the OMEP (Organización Mundial para la Educación Preescolar) World Pre-School Organization conference in August.

It was an honor to have Edith Bravo, the president of the Venezuelan Pre-school Association, ask me to be the delegate," Cellitti said. A past president of the South Texas Association for the Education of Young Children, Cellitti said the association has a three-year partnership with the Venezuela Pre-school Association.

UTSA and UNAM Celebrate 10-Year Partnership

In October, the University of Texas-San Antonio (UTSA) and La Universidad Nacional Autónoma de México celebrated 10 years of a cross-cultural partnership in learning. The two universities cooperate to enable students in architecture, business, and engineering to study in one another's nations.

This summer, Assistant Professor José Jiménez (pictured below, center) took 10 UTSA architecture students to Mexico City for five weeks. They and 15 Mexican students cooperated to solve a real-life architectural problem—a design to protect the endangered forest and river near an abandoned hydroelectric plant complex. The UTSA students lived in Mexico City and commuted to campus by subway. They also took field trips designed to expose them to modern and ancient Mexican history, Jiménez said.

CSUN Honors Huerta

Cal State-Northridge recently honored Dolores Huerta and three other women who have dedicated their lives to trying to make the world a better place. Each received the university's "Phenomenal Woman Award."

Huerta is a co-founder and secretary-treasurer of the United Farm Workers of America. She has spent more than 30 years working to secure and protect the rights of agricultural workers in the United States. She has been the recipient of many awards and honors for her achievements, including induction into the National Women's Hall of Fame, the ACLU Roger Baldwin Medal of Liberty Award, and the Eugene V. Debs Foundation Outstanding
American Award

Others honored include Billie Heller, founder and current chair of the National Committee on the United Nations Convention on the Elimination of Discrimination Against Women; Sheila James Kuehl, speaker pro tempore of the California State Assembly; and Bette Saar, artist.

The Women's Studies Department gives out awards each year to raise money for student scholarships, program development, and faculty research.

Business Opportunities in Latin America

Is the Asian flu spreading to Latin America? What are the impacts of the recent devaluation of Mexico's peso and economic and political instability in many South American countries on trade with the U.S.? How should local businesses evaluate investment opportunities to the south and in the Caribbean?

These were some of the questions addressed at a program called, "Business Opportunities in Latin America and the Caribbean, and Financing by the Inter-American Development Bank," held at United States International University (USIU) in California.

Event co-sponsors were USIU, the Greater San Diego Chamber of Commerce's International Trade Development Coalition, the World Trade Center of San Diego, and the San Diego Economic Development Council.

Dr. Arcindo Dos Santos, consultant in the Social Programs division of the Inter-American Development Bank (IDB), provided an overview of the IDB. He also shared with the audience tips on how to track and participate in IDB-financed projects in Latin America and the Caribbean, and gave a briefing on 1998-99 opportunities for involvement by San Diego companies in these projects.

Tamal Fiesta in Tucson

Tucson, Ariz., kicked off its annual Green Corn Tamal Fiesta on Labor Day weekend with dancing, music, artists, and food.

According to El Independiente, South Tucson's English/Spanish newspaper, about 300 people, mostly families, sat near the tamal booths, talking loudly and smiling over beans and rice and green corn tamales. It was a celebration of culture. Organizers explained, pointing out Tucson's official dance group, Ballet Folklorico San Juan, the musical group El Mariachi Estrellas de Tucson, and tables of artists.

The tamal festival began about six years ago when the Hispanic Association at Hughes Aircraft decided to give back to its community and raise money to fund University of Arizona scholarships.

The fund-raising became a community-wide event, which is still growing, after the association enlisted the help of the University of Arizona (UA) Hispanic Alumni and El Central Cultural.

John Huerta, advisor for the Board of Directors at El Central and member of the UA Hispanic Alumni, said that between 25 and 35 different companies worked together this year to make the tamales.

About $90,000 has been raised throughout the years for the scholarship funds and has helped countless students.

Political Leaders Visit Columbia University

Political leaders from Uruguay and Mexico met with students and faculty at Columbia University (N.Y.) in October.

Arq. Mariano Arana Sánchez, the mayor of Montevideo, Uruguay, discussed "The Effects of Urbanization in Uruguay." He also discussed the United Nations Habitat Project at Columbia, a global clearinghouse of innovative approaches to urban problems that links local officials worldwide with scholars working to solve pressing urban problems.

Viscente Los Quesada (pictured here), governor of the State of Guanajuato, Mexico spoke to students in the Master of Public Administration program at Columbia's School of International and Public Affairs on "Trade and Economic Development in Guanajuato."

Guanajuato, in west-central Mexico, is the only Mexican state with trade offices abroad in New York, Chicago, Dallas, and Los Angeles. Quesada, who holds a management diploma from Harvard University and is an entrepreneur by profession, has made economic development the main focus of his five-year term as governor, which runs through the year 2000.

Al's Latino Student College Fair

American University, in Washington, D.C., recently hosted the third annual college fair for Latino students titled, "Alcanza! Opportunities Through Higher Education."

High school students from the D.C. metropolitan area had the opportunity to meet with more than 70 college recruiters and learn about specific programs and institutions. A panel discussion gave students tips on getting into the college of their choice, how to finance a college education, and what to expect from college life.

"The fair is a great opportunity to motivate local Latino students to look at a college as a serious option," said an American University official. "It is very fulfilling to see so many heading towards a sound future and achievement of their goals."

"Alcanza!" is supported by American University; public schools in the District of Columbia, Arlington, and Montgomery, Prince Georges', and Fairfax counties; the U.S. Department of Commerce; Council of Latino Agencies; Educaid, Trinity College, McEnt Enterprises, an education consulting firm; and other local organizations.

Minority Retention at Kettering

A survey taken by Leadership Systems Inc., a consulting firm, shows that 67.5 percent of minority first-year students at Kettering University (Mich.) continue through graduation—nearly double the 35.6 percent national average.

For the past decade, the national retention
rate for minority engineering students has hovered at about one-half that of non-minority students, according to the survey. At Kettering, the minority graduation rate is less than one percent lower than the non-minority figures.

The survey noted that financial needs ‘may top the list’ of retention barriers. At Kettering, students earn a portion of their tuition through the university’s co-op program, the survey pointed out, which “adds significantly to the financial stability of students.”

The survey also recognized the value of Kettering’s AIM (Academically-Interested Minorities) summer pre-college engineering program for outstanding minority high school students.

Kettering’s Director of Minority Student Affairs, Dwight Tavaida (pictured here), credited the university’s Select Student Support Services Program for providing academic, social, and personal support and counseling for minority students.

**TC3 Hosts Chilean Delegation**

Tompkins Cortland Community College (TC3), located in New York, hosted 26 individuals from the Corporación de Santo Tomás (Santiago, Chile) in October. The individuals went there to learn more about TC3 and its academic programs.

The Chilean delegation included Mr. Gerardo Rocha, president of the Santo Tomás Corporación, Mr. Jorge Ortuzar, from SOFOCA (Association of Chilean Industrialists), along with representatives from various Santo Tomás colleges and universities.

Santo Tomás’ students are taking TC3’s Spanish as a Second Language program. Santo Tomás had been looking to enlarge on that agreement and to develop new academic agreements with TC3. They have been particularly interested in TC3’s Web-based courses so that their students could earn two degrees concurrently.

**Engineering Program Helps Minorities**

Rochester, N.Y., becomes the fourth city to join an innovative national program aimed at increasing the number of minority students seeking engineering careers.

Rochester Institute of Technology (RIT) and the Rochester City School District have teamed up with the National Action Council for Minorities in Engineering (NACME) to offer the Engineering Vanguard Program. Rather than rely on standardized tests, the program uses a rigorous assessment process to determine potential for success. Students who qualify receive intense academic preparation in high school and fall tuition and housing scholarships for college.

African Americans, Hispanic Americans, and Native Americans make up 59 percent of the nation’s 2 million engineers, according to NACME. Fewer than one percent of the nation’s first-year engineering students are minorities, and fewer than 10 percent of students are graduates of engineering colleges in the United States are from these groups. There’s also a discrepancy in graduation rates: college completion for minority engineering students nationally is 35 percent, compared to 60 percent for non-minorities.

NACME started Vanguard in 1994 to address this situation. Since Vanguard’s inception, none of the students has dropped out of an engineering program.

**America Reads at CCD**

Community College of Denver (CCD) kicked off its second year of the national America Reads Challenge program this summer, welcoming 19 new and six continuing America Reads work-study students. The students have become partners in reading to children in kindergarten through third grades at five Denver, Colo., public elementary schools. Education and Academic Services Dean Orlando Grego is at left, and Denver

**Mirrors Beneath the Earth: Short Fiction by Chicano Writers**

Ray González, ed.

This collection of contemporary Chicano fiction features not only established figures such as Sandra Cisneros, Radhulfo Anaya, Denise Chávez, and Ana Castillo, but a va-
guard of exciting new writers including Danny Romero, Patricia Blanco, Ana Baca, and others.

Zapata's Disciple
by Martin Espada

In his first collection of essays, Zapata's Disciple, award-winning poet Martin Espada turns his fierce critical eye toward a broad range of urgent political and cultural issues. With the same insight and integrity displayed in his poetry, he chronicles many struggles of the Latino community: the myths and realities of machismo, the backlash against Latino immigrants and the Spanish language, the borders of racism, and U.S. colonialism in Puerto Rico.

De Colores Means All of Us: Latina Views for a Multi-Colored Century
by Elizabeth Martinez

Elizabeth Martinez presents a radical Latina perspective on race, liberation, and identity. In these trenchant essays, Martinez describes the provocative ideas and new movements created by the rapidly expanding U.S. Latina/o community. With sections on women's organizing, struggles for economic justice, and the Latina/o youth movement, this collection will appeal to readers and activists seeking to organize for the future and build new movements for social change.

The Squatter and the Don

by María Amparo Ruiz de Burton

Originally published in 1888, María Amparo Ruiz de Burton's *The Squatter and the Don* narrates the effects of the Treaty of Guadalupe Hidalgo (1848) on California and American expansion of the West. The novel opens in the drawing room of Mr. and Mrs. William Darrell, where they are discussing Mr. Darrell's impending trip to Southern California to claim land for himself and his son as allowed by the American Homestead Act. Mrs. Darrell insists that William verify that the land is untitled before he "settles." At issue for Mrs. Darrell, and central to the novel's plot and theme, is not "settling" on land someone else already claims. Mrs. Darrell takes great pains to explain to her husband that "Whenever you take up government land...you are settlers, but...when you locate claims on land belonging to anyone else...you must accept the epithet of Squatter." (5). This unsavory "epithet" plays a primary role in the historical border romance Ruiz de Burton writes.

Mr. Darrell lays claims to land located on Don Mariano Almar's ranch, a ranch whose title is still technically in litigation and a ranch with beautiful unmarried daughters. The Almar family has an unimpeachable Spanish land grant proving ownership, and Don Mariano is an intelligent, cultured businessman. Ruiz de Burton brilliantly subverts her audience's stereotypical expectations by crafting animalistic American "squatters" who oppose the well-mannered Don Mariano and his family. Ironically, though, United States law protects the ill-mannered squatters while destroying those most suited to control the land. William Darrell brings his family to the new land, and his sons, as one might expect, arrive and fall in love with Don Mariano Almar's daughters. Most notably, Clarence Darrell, a young man whose kindness and sense of equality contrasts with that of his father's racism, loves Mercedes. Predictably, Clarence and Mercedes are kept apart by forces outside their control; they both suffer and languish in their love for each other; and they are reunited at the end of the novel. The sentimentality and romance are classic nineteenth-century novelistic conventions.

However, Ruiz de Burton's novel is as much history as romance. She takes great pains to remind her audience that United States laws allowed men like William Darrell to settle on land in litigation, improve their 160 acres, and pay no taxes. By law, the landowner fighting to prove he has a valid claim must pay taxes on all improvements, a law that eventually bankrupted many landowners who had to mortgage their ranches for taxes and legal fees. Much like Harriet Beecher Stowe in *Uncle Tom's Cabin*, Ruiz de Burton readily digresses from the story line itself to directly address the audience, include quotations from legal documents, and sermonize about unjust laws. Her novel shatters the myth that Spaniards and Mexicans received fair and equal treatment as promised by the Treaty of Guadalupe Hidalgo. Instead, she shows the slow degradation and marginalization of a once-dominant majority in California who loses virtually all their land between 1848 and 1880.

One of my goals in a nineteenth-century American literature survey course is to show my students that people outside New England were writing literature, and I choose worthy works that span the growing continent. Ruiz de Burton's novel allows my students to discuss the short- and long-term effects of the Mexican/American War of 1846-1848, a war they read about in Thoreau's essays, *United States expansionism; racial issues involving Hispanics in the Nineteenth Century; frontier rhetoric that claims Americans 'tamed' a West that was already occupied by men like Don Mariano Almar; and the rise of corporate monopolies. In my course, we generally read *The Squatter and the Don* before we read Frank Norris' *The Octopus*. Obviously, these two novels allow us to discuss the social issues affecting American expansion in the West, but we also are able to examine the contrasting literary styles. Ruiz de Burton is certainly not a naturalist like Norris. Much like Harriet Beecher Stowe, though, Ruiz de Burton appropriates the sentimental novel to make a political statement.

I find that my students (generally a third Hispanic) find Ruiz de Burton refreshing in her honesty and her open anger at unjust laws. She contains none of the stylistic difficulty of Melville or Hawthorne, yet her appeal that "Our representatives in Congress, and in the State Legislature, knowing full well the will of the people, ought to legislate accordingly" (372) rings true for all my students. Admittedly, her novel is not the most finely crafted novel written in the nineteenth century; however, her goal was to enlighten an American population about the unethical atrocities of their elected officials. *The Squatter and the Don* never realized the success of *Uncle Tom's Cabin*, but her novel allows me to introduce my students to a vast array of political and social issues from the perspective of a Spanish woman in the nineteenth century. Most important for my students, perhaps, is simply knowing that there was a Spanish American woman writing serious literature in the nineteenth century.
Knox College invites nominations and applications for the position of Vice President for Finance and Treasurer. The College is implementing a far-reaching strategic plan and recently announced a $125 million comprehensive campaign. In this context, the Vice President for Finance will provide leadership for the continued prosperity of the College in financial planning, budgeting and strategic decision making. The Vice President for Finance is a senior member of the administrative staff reporting directly to the President.

The Vice President for Finance and Treasurer is responsible for all financial operations, transactions and policies of the College, including endowment, cash and debt management, budget preparation and management, trust administration and investment, and real estate transactions. The Vice President for Finance also serves as the College's liaison with legal counsel, investment advisors and external auditors, and, as Treasurer, is an officer of the Board of Trustees, ensuring that its expectations in such areas as investment strategy and budgetary oversight are implemented.

Thorough knowledge of finance and accounting, demonstrated capabilities in financial planning and budgeting, excellent communication and management skills, and a strong commitment to quality and service are critical elements for success in this position. Applicants must demonstrate substantial accomplishments and leadership abilities, familiarity with fiscal issues facing higher education, significant directly related experience, preferably in a college or university setting, setting an understanding of the unique mission of the liberal arts college, and educational achievement commensurate with the duties and responsibilities.

Knox College is a highly selective, independent, residential, co-educational four-year liberal arts college founded in 1837 with approximately 1,400 students and 100 faculty. Knox offers the bachelor of arts degree in 37 majors. Galesburg, with a population of 33,500, is located 180 miles southwest of Chicago, 45 northwest of Peoria and 200 miles north of St. Louis.

Applicants should send a letter describing their interest and qualifications, along with a copy of their resume, to:

**Vice President for Finance and Treasurer Search**

Knox College
Box K-200
Galesburg, Illinois 61401-4999

Applications will be reviewed as they are received, and the search will continue until the position is filled. Salary for this position is competitive and commensurate with experience. For additional information about the position or the search contact Bruce O. Downes, search committee chair, at 309-241-7550.

Knox College is an affirmative action employer. To keep up with its 102-year commitment to equal rights, the College encourages and welcomes applications from individuals in underrepresented groups.

**ITHACA**

**Assistant/Associate Professor**

**ROY H. PARK SCHOOL OF COMMUNICATIONS**

**CINEMA AND PHOTOGRAPHY DEPARTMENT**

The Roy H. Park School of Communications, Cinema and Photography Department at Ithaca College invites applications for a tenure-eligible position at the Assistant/Associate Professor level in photography with appointment effective August 15, 1999.

Primary assignments will be across the range of beginning, intermediate and advanced photography courses. Experience required in the history of photography, techniques of black and white and color photography, and studio and location lighting. Depending on the candidates’ areas of specialization, additional teaching responsibilities may include courses in one or more of the following areas: alternative processes, digital photography, contemporary photographic theory and criticism, and graphic media forms. The candidate appointed to this position will also act as academic advisor to students in the department, school and college committees.

M.F.A. in photography is required. An ideal candidate should demonstrate evidence of: 1) teaching effectiveness appropriate for an undergraduate program with a mission of teaching the practice, history, and criticism of photography in the context of a wider liberal arts curriculum; 2) the ability to contribute to a program that engages photographic practice in both its traditional and evolving digital modalities; and, 3) a commitment to and a primary teaching interest in encouraging photography as a creative practice.

Assistant/Associate Professor: Salary competitive, dependent upon experience and qualifications.

Applicants should forward a resume, vita, twenty slides documenting creative work, statement of interest including areas of teaching and professional experience, along with names and telephone numbers of at least three references. If available, also include up to twenty slides of student work. No faxes or electronically transmitted application materials will be accepted. Screening will begin November 15, 1998, and will continue until the position is filled. Direct applications and inquiries to:

Roy H. Park School of Communications

Ithaca College

Ithaca, New York 14850-7251

(Tel: 607-274-1032)

Ithaca College is an independent, residential, comprehensive college with an undergraduate enrollment of approximately 5,500 students. It is located in the Finger Lakes Region of central New York.

The Roy H. Park School of Communications is one of four professional schools within the College, and enrolls approximately 1,200 students in the majors of three undergraduate departments (Television-Radio, Cinema and Photography, and Organizational Communication, Learning, and Design). A B.A. in Journalism, a B.S. in Telecommunications Management, a B.F.A. in Film, Photography, and the Visual Arts, and a B.A. in Media Studies are also offered. These programs are located in an 80,000 square foot building which was dedicated in September 1998. For the past two years the Roy H. Park School of Communications Program has offered an internship-based full-time assistant program to incoming juniors and seniors. The Graduate Studies program offers an M.S. in Communications. A recent grant from the Ford Foundation and a grant from the National Endowment for the Humanities have positioned the Roy H. Park School of Communications to continue to evolve a curriculum that is in the forefront in the nation and to maintain state-of-the-art support facilities in audio, video, film, photography, multimedia and telecommunications.

University of Illinois at Urbana-Champaign
Department of Kinesiology

The Department of Kinesiology at the University of Illinois at Urbana-Champaign is seeking qualified applicants to fill a tenure-track position at the Assistant Professor level in the Psychology of Physical Activity. Candidates will be expected to engage in interdisciplinary research within the department, to seek extramural funding, teach at the undergraduate and graduate levels, and advise and direct student research. The successful candidate will be expected to complement current faculty in this area. There currently exists within Kinesiology an interdisciplinary faculty with interest in the following research themes: Lifetime Physical Activity, Human Performance and Fitness, Disability, Disease and Rehabilitation, Human Factors, and Cultural Studies. Well-equipped laboratories exist both in the Department of Kinesiology and across campus to support interdisciplinary research in physical activity. Further information about the Department of Kinesiology and current faculty can be found by visiting http://www.kines.uiuc.edu. Qualifications include an academic background in kinesiology and the ability to teach one or more courses in kinesiology and the Psychology of Physical Activity. A doctorate is required. Teaching and post-doctoral experience are desirable. Women and minorities are especially encouraged to apply. Salary is commensurate with experience and qualifications. To assure full consideration, a letter of application, vita, and three letters of recommendation should be submitted by January 15, 1999. The appointment will be effective August 21, 1999. Interviews may be conducted before the closing date, but all applications will receive full consideration and the final decision will not be made until after that date. Application materials should be sent to:
Steven J. Petruzello, Chair of Search Committee
Department of Kinesiology
University of Illinois at Urbana-Champaign
231 Louise Freer Hall

Assistant Professor
Modern Language Department
(Spanish)

The Modern Language Department of Saint Michael's College, a residential, Catholic, liberal arts college with 1800 undergraduates, invites applications for a tenure track position beginning September, 1999. The successful candidate must demonstrate excellent teaching skills at all levels of language courses and appropriate scholarly activity. In addition, he/she must be qualified to teach Spanish or Latin American literature and culture. Ph.D. or ABD in the areas mentioned above required; fluency preferred; skill and experience in teaching proficiency-based language classes is necessary. Send full dossier by January 15, 1999, to Human Resources, Saint Michael's College, Winooski Park, Colchester, VT 05449. For further information: http://academics.smvt.edu/mod- enlang/. Saint Michael's is an AA/EOE.

ST. CLOUD STATE UNIVERSITY

DIRECTOR OF GOVERNMENT RELATIONS AND SENIOR DEVELOPMENT OFFICER

The director of government relations and senior development officer will serve as the primary government relations officer for the university. The director will also identify, cultivate, and solicit prospects for gifts of $10,000 or more for current and capital purposes. The director will assist, coordinate, and report to the president and other executives on the relationship with governmental agencies and work closely with the University's legal counsel on matters of policy and procedure. The successful candidate will have demonstrated knowledge and experience in federal and state government relations and be able to work independently and in a team environment.

A Bachelor's degree is required. At least four years of relevant experience is required. At least two years of government experience are preferred. Experience in lobbying or working with legislative or executive branch officials is preferred. Experience in fundraising in a non-profit or government environment is preferred. Please send letter of application, resume, and the names and addresses of three professional references to Search Committee, SGCU Foundation, 70 Fourth Avenue South, St. Cloud, MN 56301. Deadline date is January 15, 1999. Salaries are competitive with equal opportunity. EOE/AA/AF/AMA M/F/H/WH/WM.
Vice President
Administrative Services
University of Utah

Nominations and applications are invited for the position of Vice President for Administrative Services. The University of Utah is a major, national research university with a Health Sciences Center, 26,000 students, 15 academic colleges, 70 undergraduate degree programs, and 92 graduate programs. The University is located at the base of the Wasatch Mountains in Salt Lake City, a dynamic, urban, high-tech industrial center with a population of 1.2 million and home of the 2002 Winter Olympics. The University, with an annual expenditure budget of $1 billion, is frequently described as Utah’s economic engine generating nearly $5 billion annually in non-tax revenue and is one of the State’s largest employers with 2,250 faculty members, and 16,619 full-time and part-time employees.

Responsibilities: The Vice President for Administrative Services serves as the University’s Chief Financial Officer and reports to the President with primary responsibilities as three broad areas: Facilities management, financial management, and human resources. As a member of the President’s cabinet, the Vice President has responsibility for the management and operational oversight of financial and accounting services, internal audit, administrative data processing and information systems, auxiliary enterprises, public safety, human resources, and physical plant maintenance and operations. Facilities, planning, design, and construction. The University Research Park, which in 1998 included an annual operating budget exceeding $14 million, is operated by the Vice President. The Vice President interacts frequently with State Executive and Legislative committees and the University’s governing boards, and serves on the governing boards of several University foundations and institutes.

Qualifications: Preferred qualifications include an advanced degree in business administration or related fields, experience in university administration and financial management in a large research university setting. Candidates who have established a successful career in large corporate or industrial settings with complex management, financial management, and human resources, are preferred. The successful candidate will have expertise in coordinating diverse activities within a complex management structure, demonstrated leadership, communication, and planning and construction. The position requires a commitment to building an organization which supports and gives the institution’s teaching, research, and service mission. Salary will be commensurate with experience and qualifications.

Applications: The position has a targeted start date of July 1, 1999. Nominations and applications addressing stated qualifications along with a complete resume and names, telephone numbers, and references are welcome. The University will screen the committee and continue until the position is filled.

www.si.edu/Latino
Director
Office of Public Relations

Reports to the President and must work collaboratively in an intense egalitarian, diverse, student-focused environment. Specific responsibilities beyond supervision of eight staff include: 1) positioning the college for placement in national regional, general, and specialty media; 2) crafting and implementing a comprehensive communications and marketing strategy for the college; 3) frequent and substantive interaction with administration, trustees, faculty, staff, students, and the local and regional community relations strategy; 5) web and print-based communication; 6) publications including Grinnell Magazine, college brochures, etc.; and 7) advising student media organizations. The Director will have the opportunity to reorganize the public relations office and to lead it in a new direction through re-structuring and new appointments. Familiarity with and commitment to an undergraduate liberal arts education and learning environment is strongly preferred. Position requires travel, long, unpredictable hours, a team approach, and frequent interaction with the President.

Qualifications, skills, and abilities:
Bachelor's degree and at least five years of applicable experience. Excellent oral and written communication skills, experience as a public spokesperson. Capacity to think broadly and creatively; ability to analyze and implement a vision, work effectively with diverse constituents, coordinate multiple tasks, solve problems, and operate effectively under pressure and tight deadlines. Understanding, ease, and experience with all facets of message development, media interaction, and strategic communication planning.

Founded in 1846, Grinnell College enrolls about 1,300 undergraduate students from every state and the District of Columbia in the United States and 40 other countries. The college's primary mission is to provide students with a broad, deep, and life-enhancing education that includes professional success, but also personal growth and social responsibility. Grinnell College offers an exceptional, rigorous, comprehensive, and opportunity-rich educational experience to students, faculty, alumni, and staff. Grinnell College consistently ranks among the nation's top colleges in terms of its quality, student-faculty interaction, and the quality of education. A visit to the college's website can be found at www.grinnell.edu.

Application Process: Submit a letter of application, a resume, and a list of three employment references to Mr. James R. VanHouten, Office of Human Resources, Grinnell College, P.O. Box 805, Grinnell, IA 50112.

Application Review: Review of applications will begin December 18, 1996, and will continue until the position is filled.

Grinnell College

Grinnell College is an equal-opportunity/affirmative action employer committed to employing a highly qualified staff which reflects the diversity of the nation. No application shall be discriminated against on the basis of age, national or ethnic origin, sex, sexual orientation, marital status, religion, creed or ability.

MICHIGAN STATE UNIVERSITY
Psychology/Latino Studies

The Department of Psychology and the Julian Samora Research Institute of Michigan State University invite applications for a tenure-system position at the rank of Assistant Professor specializing in CHICANO/LATINO Studies. The candidate will be expected to teach Psychology, the tenure home department, and the Julian Samora Research Institute, the Midwest's premier policy research and outreach center to the Hispanic community. Applicants with a Ph.D. in any subfield of psychology will be considered. Women and minority-group candidates are strongly urged to apply. The individual must have a strong research program capable of attracting extramural support. In addition, teaching in the Department of Psychology, the candidate will work with graduate and undergraduate students in an advising capacity and participate in other faculty activities including student mentoring. The position involves 50% teaching release for the first three years to allow the candidate to advance the University's mission, to promote the growth of scholarship on Latinos, and advance the Ethnic Studies goals of the College of Social Science and the University. The position begins August 15, 1997. Salary and rank will depend on the candidate's qualifications and experience. Experience of applications will begin December 1, 1996 and continue until a suitable candidate is identified. Send a letter of application, vitae, copies of three letters of reference to: William S. Davidson II, Chair, Chicano/Latino Studies Search Committee, Department of Psychology, Michigan State University, 129 Psychology Research Bldg., East Lansing, MI 48824-1177.

Knox College

Business Office
Galesburg, Illinois 61401

Assistant/Associate Dean of Students for Intercultural Life

Knox College invites applications and nominations for the position of Assistant/Associate Dean of Students for Intercultural Life. This position reports directly to the Dean of Students/Associate Dean of the College and is an active member of the Division of Student Affairs. The Office of Intercultural Affairs is charged with providing leadership for the College's commitment to intercultural understanding (within both international and national contexts) as a fundamental part of a liberal education. This position is a full-time, 12-month appointment.

RESPONSIBILITIES: Actively engages the Knox community on issues surrounding both national and international cultural diversity. Collaborates with members of the Student Affairs and Academic Affairs staff to advise domestic students of color as well as international students on matters related to cultural adjustment and immigration. Provides collaborative leadership for the College's recent academic and co-curricular "pluralism and unity" initiative, funded through a Hewlett Foundation award. Provides oversight and management of the Office of Intercultural Affairs. Serves as an institutional resource to students, faculty and staff members in realizing the mission of the Office. Advises various clubs and organizations as related to intercultural life.

QUALIFICATIONS: Master's degree demonstrated experience working with diverse student populations, demonstrated experience working with immigration documentation and knowledge of immigration regulations, demonstrated experience working with domestic students of color, excellent cross-cultural and interpersonal communication skills, familiarity with undergraduate liberal arts education and residential college ability to work independently and as a member of a dynamic team, and must possess a sense of humor.

Nominations and applications will be reviewed until the position is filled. For full consideration please submit a letter of application and three references to Xavier E. Romano, Dean of Students & Associate Dean of the College, Knox College, Box 236, Galesburg, IL 61401.

Knox College

Founded in 1837, Knox College is an independent, four-year liberal arts college with 1100 students from 42 states and 33 nations. In keeping with its 162-year commitment to equal rights, Knox College particularly welcomes applicants from individuals in underrepresented groups.

www.knox.edu
MINORITY POSTDOCTORAL FELLOWSHIP PROGRAM

Teachers College, a graduate school affiliated with Columbia University, is devoted to education across the lifespan, both in and out of the classroom, particularly within an urban context. The College has a diverse culture, with minority students comprising 29 percent of the student body, international students comprising 11 percent.

The Program aims to increase the number of minority faculty members at graduate schools of education. It provides recent doctorate recipients the opportunity to develop a program of research and participate in a mentored program at a graduate research university.

Qualifications: Earned doctorate in any area within the past three years. Commitment to research and teaching in an education related area.

Responsibilities: Conduct research as outlined in the application proposal; provide a written report of research program; participate in an academic department with the option of teaching a course or providing a series of special lectures to be decided.

Duration: One year.

Stipend: $30,000, plus $2,000 for research. Campus housing, if desired, and limited relocation costs.

Contact Melanie Nelson, Office of the Dean, at 212-678-3050 or by email, man18@columbia.edu, for an application. Application deadline is February 1, 1999.

Teachers College is an affirmative action/equal opportunity employer and is committed to providing equal employment opportunities to minority, women, and the disabled in its recruitment and on its campus. Candidates whose qualifications and experience are directly relevant to College priorities (e.g., urban and minority concerns) may be considered for higher rank when advertised.

TEACHERS COLLEGE
COLUMBIA UNIVERSITY
525 West 120th St., New York, NY 10027 http://www.tc.columbia.edu/
ASSOCIATE DEAN
LIBRARY

Serving nearly 34,000 students, College of DuPage is America’s largest single-campus community college. Based in west suburban Glen Ellyn and featuring 90 neighborhood learning sites, C.O.D.’s “life-long learning” curriculum comprises 88 diverse areas of study. If you are both dedicated and qualified, you are invited to become part of our success story.

The Library collection includes 167,000 book titles, 937 periodicals, numerous non-print materials in various formats, and additional resources accessed through electronic databases and the Internet. The Library is a participant in the College of DuPage’s Library System and the Illinois College Library System. The Library also provides a wide range of services to support the academic mission of the College.

QUALIFICATIONS: We are seeking an energetic, imaginative and experienced administrator to join a team of professional and support staff at one of the largest, most technology advanced college libraries in the nation. The Associate Dean reports to the Dean of Learning Resources and is involved in policy development, implementation of new services, and oversight of all day-to-day operations of the physical facility. Candidates will have an ALA accredited Master’s Degree in Library or Information Science; have experience working as a reference or technical services librarian with experience in a college library; have demonstrated outstanding supervisory skills in any position; be able to demonstrate a variety of skills and expertise in library computer technology. The successful candidate will have 5-7 years experience in a college library, including 3 years of direct supervisory experience.

Starting date: February 16, 1999. Salaries normally range from $55,800 to $64,100 but are dependant on education and experience. This is a 12-month assignment. College of DuPage offers a generous benefits plan.

Call or e-mail for an application packet. Screening for this position begins February 16, 1999. However, to maximize your opportunity to be chosen for this position, please return your application packet as quickly as possible.

DEAN OF STUDENT SERVICES

Georgia Perimeter College, a multi-campus institution located in metropolitan Atlanta, seeks one candidate to fill the position of Dean of Student Services.

The Dean serves as the chief student services officer and is responsible for providing leadership in all aspects of student life, for coordinating the overall planning, development, and general oversight of all campus student services programs, and for ensuring a supportive environment in which students may achieve academic goals.

This individual must possess a vision for the planning, implementation, and evaluation of student services administrative units, and also serve as a representative to the public and community in promoting and representing the campus and the College.

The Dean reports to the Campus Provost and as a member of the campus administration is responsible for facilitating the integration of academic and student support services. The Dean serves as a liaison between the college-wide Student Affairs organizational areas and the appropriate campus offices.

Candidates should demonstrate the following supervisory and managerial abilities:

- Ability to supervise, monitor, and evaluate all campus-based student services (e.g., Advising, Career Counseling, Educational Support Services, ACCESS Center, Student Activities, Admissions, and Registration Services, and Judicial Affairs).

- Serve as the campus liaison to the College-wide Service Learning and First-Year Experience teams, and as the primary advisor to the Academic Senate and the College-wide Service Learning and First-Year Experience teams, and as the primary advisor to the Academic Senate and the College-wide Service Learning and First-Year Experience teams.

- Provide campus expertise in the development and implementation of student recruitment and retention plans.

- Assist in the development of strategic plans and budgets for the respective campus units and work with other members of the campus administration to enhance the overall operations and services.

- Promote the philosophy of the College on a local, regional, and national scale and demonstrate activity in national, regional, and state organizations.

- Master's degree from an accredited institution in higher education administration, counseling, student personnel or other appropriate area required. An earned doctorate or terminal degree preferred. A minimum of five years' progressively responsible administrative experience in student affairs or related area in a college or university setting at a comparable level or Assistant Dean or higher is preferred.

Salary is commensurate with education and experience.

Applications should be submitted to
Chair, Dean of Student Services Search Committee

EEO/AA

APPLICATION DEADLINE: DECEMBER 15, 1998

WestEd is a public, nonprofit agency dedicated to improving education and other opportunities for children, youth and adults through research, development and service to practitioners and policymakers. Headquartered in San Francisco, our agency has approximately 300 staff located in 10 offices throughout the nation. To find out more about our work, visit WestEd’s Web site: www.WestEd.org

Pima Community College
Tucson Arizona

PRESIDENT
West Campus

Pima Community College (PCC) is the fourth-largest multi-campus community college in the nation and opens its doors to more than 65,200 credit and non-credit students each year. Five campuses offer university transfer programs, occupational and developmental education, and general education courses.

Tucson is located in a lush desert valley surrounded by four mountain ranges in southeastern Arizona at an elevation of 2,900 feet. A multicultural, southwestern city with more than 850,000 residents, Tucson is renowned for its rich heritage and superb weather.

PCC is committed to hiring people who are creative, open to change and new methods, or who practice, have a passion for continuous learning and self-improvement and are willing to promote the College’s mission as a learning institution. Because of the traditional class structuring, the College meets the needs of students by offering weekend, year-round, and compressed courses of instruction. Since services to our students is our highest priority, employees can expect to participate in innovative methods and flexible scheduling.

Campus Presidents serve as the Chief Executive Officer of the College campus and report directly to the Chancellor of the district. Campus Presidents provide executive-level vision, academic leadership and direction for a college campus including educational programs, student development and administrative services. Campus leadership is shown in the areas of institutional effectiveness initiatives, mission success indicators, long-range and strategic planning, student outcomes assessment, facilities planning and program review.

The ideal candidate will be an accomplished educational leader who demonstrates the ability to lead and manage a campus, includes developing, recommending and implementing long-term and short-term goals, objectives, policies and procedures.

The salary is negotiable depending upon background and experience. The compensation package includes an attractive benefits package and a vehicle allowance.

If interested, please contact our Human Resources Department for position information and application materials.

Closing Date: January 8, 1999

Pima Community College is an Equal Opportunity/Affirmative Action Employer. Women, minorities and other protected classes are encouraged to apply.
Director
Office of Dining Services

Reports to the Vice-President for Business and Treasurer of the College and must work collaboratively in a diverse, student-focused environment. Specific responsibilities include 1) planning, directing, and coordinating residential dining activities, cash operations, catering, and campus guest housing; 2) formulating, implementing, and communicating departmental policies, procedures, and standards; 3) developing menus, service concepts, and special events; 4) establishing and maintaining annual budgetary goals; 5) negotiating purchasing agreements and contracts; 6) organizing training and staff development; and 7) coordinating the renovation and maintenance of dining service facilities.

Qualifications: Bachelor’s degree and five years of progressively responsible food service management experience. Strong service orientation including a vision for effective and creative delivery of services. Excellent oral and written communication skills and ability to collaborate effectively with diverse constituencies. Sound budget and organizational skills. Experience with food production and debt and balance supplier relationships. Familiarity with budgeting and commitment to the goals of an undergraduate, residential community.

Founded in 1846, Grinnell College enrolls about 1,300 undergraduate students from every state and the District of Columbia in the United States and 40 other countries. The college’s primary mission is to provide students with a broad, deep, and life-enhancing education that includes professional success, but also personal growth and social responsibility. Grinnell College offers an exceptional, rigorous, comprehensive, and opportunities-rich educational experience which has, at its heart, one-on-one interactions between students, faculty, alumni, and staff. Grinnell College consistently ranks among the top nationally selective liberal arts colleges in the United States and also consistently ranks in the top ten among all colleges and universities in endowment resources per student and the top twenty-five in alumni gifts per student. Additional information can be found at the college’s website www.grinnell.edu.

Application Process: Submit a letter of application (or nominations), a resume, and names and telephone numbers of three employment references to Ms. J. Allen, Office of Human Resources, Grinnell College, P.O. Box 880, Grinnell, IA 50112, Phone 515-269-4822, Fax 515-269-4883, Email veatch@admin.grinnell.edu.

Application Deadline: Review of applications and nominations will begin upon receipt and will continue until the position is filled.

OSU

Syracuse University
VICE CHANCELLOR
FOR ACADEMIC AFFAIRS

Syracuse University invites applications and nominations for the position of Vice Chancellor for Academic Affairs. The Vice Chancellor is the chief academic officer reporting directly to the Chancellor. Kenneth R. Shaw, Syracuse University is pursuing an academic vision to be the nation’s leading student-centered research university. The Vice Chancellor will be able to provide creative leadership in support of the broader vision of the University.

Syracuse University is an independent research II University founded in 1870 and is a member of the Association of American Universities. Its fourteen schools and colleges enroll 18,000 students in programs in liberal arts. Among those who receive directly to the Vice Chancellor are the Vice Presidents for Research and Computing, Undergraduate Studies, and Enrollment Management. It is also the Dean of the Graduate School, and the University Librarian. The annual educational and general budget of the University is $321,000,000. Additional information about the University can be found at www.syr.edu.

The University seeks to appoint a candidate who has:

- a distinguished record in teaching, research, scholarship or creative activity; and service sufficient to warrant appointments at the most senior level of an academic institution;
- a significant record of achievement in higher education administration, including faculty appointment, tenure and promotion, strategic budget planning and management; and academic program development;
- dynamic leadership and collaborative management styles appropriate to a large and diverse institution and as effective in college consultation with all sectors of the university community;
- a record of achievement in promoting diversity among faculty, staff, and students, and in providing leadership in the area of faculty, staff, and student diversity.

Letters of nomination and applications should be submitted in confidence to Shelly Weiss Storbeck, Managing Director of LEAD, 225 Reinkert Lane, Alexandria, VA 22314, 703/518-1172 facsimile, shelly.storbeck@ekearity.com or leasely.boyd@ekearity.com — email.

Syracuse University is an equal opportunity affirmative action employer committed to diversity through affirmative action.

For more information about OSU, see our Web site at http://www.osuokc.edu.
William Rainey Harper College is a comprehensive community college located in Chicago's northwest suburbs which enrolls over 20,000 students of all ages. The College supports and encourages the development of multicultural perspectives, the celebration of diversity, the recognition of different learning styles, and excellence in teaching. Full-time administrative positions are available in the following areas beginning in the 1999-2000 academic year.

ADMINISTRATIVE POSITIONS

DEAN OF LIFE SCIENCE AND HUMAN SERVICES

Responsible for providing leadership in the administration of transfer and career, credit and non-credit offerings. In the following programs and areas: Biology, Criminal Justice, Dental Hygiene, Dietetic Technician, Early Childhood Education, Medical Assisting and related programs, Nursing and related programs, Pharmacy Technician, Park & Golf Maintenance and Plant Science Technology. An advanced degree related to one of the above disciplines or a related field, strong communication and interpersonal communication skills and demonstrated success in teaching, administrative responsibilities, providing leadership and effecting change in a community college environment are preferred. Previous administrative experience preferred.

DEAN OF LIBRARY SERVICES & ALTERNATIVE LEARNING

Responsible for providing leadership in the administration of the Library, Distance Learning, and Media Services for the instructional and institutional programs of the College. Provides direction to the Center for Teaching & Learning. Master's degree in Library Science, Instructional Technologies or equivalent required. A minimum of three years experience with multiple administrative duties including library administration, distance learning, instructional technologies, or related administrative experience, experience with automated library systems as well as strong communication and interpersonal skills with demonstrated success in providing leadership in a community college setting preferred.

ASSOCIATE DEAN OF DISTANCE LEARNING AND MEDIA SERVICES

Responsible for the general management of the Distance Learning, Media Production, and Media Services departments. Areas of responsibility include providing support and leadership in activities related to the development of courses offered at a distance (video courses, interactive video, and cable) and other activities at the local and state-wide level including satellite video teleconferencing, microwave transmission, and other emerging technologies as related to alternative instructional delivery methods. Also responsible for the day-to-day management and activities of the Center for Teaching & Learning. A Master's degree in Distance Learning, Distance learning, liberal arts, education, or field related to telecommunications preferred. Three years successful management experience with media services and a distance/alternative learning technology program; demonstrated knowledge of delivery systems (video conferencing and interactive video desired), and the ability to develop collaborative agreements with public and private sector groups preferred.

To be considered for any of the above positions, applicants must submit a resume, copies of credentials (including graduate transcripts), a statement of educational philosophy, and three (3) letters of recommendation to:

Harper College
Attn: Employment Specialist
1200 W. Algonquin Rd.
Palatine, IL 60067

Applications will be reviewed beginning in December 1998 and will continue to be accepted until the position is filled. The College seeks candidates who have had multicultural experience and who can demonstrate a commitment to diversity and multiculturalism.

Harper College is an Equal Opportunity, Affirmative Action Employer which encourages applications from women, minority group members, and persons with disabilities.

Richard Stockton College of New Jersey

INSTRUCTIONAL TECHNOLOGY

THE RICHARD STOCKTON COLLEGE OF NEW JERSEY is an innovative residential, liberal arts and sciences college with a student body of 8,000 and a recognized record of academic excellence. Stockton is one of nine senior public colleges which provide a vast array of baccalaureate and master level degrees. The College is located on a 1,000-acre campus in southern New Jersey. 15 miles from the Atlantic Ocean 1 hour from Philadelphia and 2 1/2 hours from New York City. The College has a mission to meet needs for master's level graduate education in southern New Jersey and currently provides programs in physical therapy, nursing, business studies, and instructional technology. Stockton is home to the Atlantic County Educational Technology Training Center. Plans call for the establishment of additional programs in the near future.

The Master of Arts in Instructional Technology (MAIT) program is designed for those interested in integrating technology to improve learning in both educational and corporate settings using electronic classrooms, computer labs and multimedia production facilities. The program has basic core courses in learning theories and instructional technologies followed by two tracks-one for optimizing technologies in primary and secondary schools, and the other for corporate environments with employee training needs. The Academic Computing facilities contain 26 computer laboratories and electronic classrooms with an ongoing technology improvement plan and a 10:1 student/computer ratio.

INSTRUCTIONAL TECHNOLOGY: tenure track. Assistant Professor January or April 1999.

Stockton is seeking a qualified applicant to head the graduate program in instructional technology. Candidates must have a doctorate in instructional technology with at least three years experience in the successful application of advanced instructional technologies to teaching and learning in educational environments. Demonstrated ability to seek support from and work with local businesses and education community is highly desired.

Possible courses are introduction to instructional technology, issues in technology, Instructional Design and Development and Network Design. Teaching load is six courses per year. Responsibilities will include leadership and program development including the demonstration of ability to integrate technology into the undergraduate curriculum, to communicate effectively and to achieve strong interpersonal working relationships with students, administrators, faculty, and computer services. Appropriate compensation and release time for leadership duties. Rank will be dependent upon qualifications and experience.

INSTRUCTIONAL TECHNOLOGY: tenure track. Assistant Professor January or April 1999.

Stockton seeks a full-time faculty member with a doctorate in instructional technology or related field and demonstrated significant involvement with design in the areas of visual literacy and communication. Responsibilities of the position will include providing partnership in the further development of the program as well as teaching courses and advising graduate students. Teaching load is six courses per year.

For both positions, salary will depend on qualifications, experience and increases in the appropriately-established compensation plan.

Applications will be reviewed beginning in December 1999 and will continue until the position is filled. Send letter of application, resume, and three letters of recommendation to Dr. Mary Beth Krog-Jespersen, Office of Academic Affairs, AA51, The Richard Stockton College of New Jersey, PO Box 195, Pomona, NJ 08240-0195.

For information on the program, see http://www.stockton.edu/mait/

Stockton is an AA/EOE. Women and minorities are encouraged to apply.
UNION COLLEGE
SYSTEMS LIBRARIAN

Union College's highly selective liberal arts and engineering college of 2,000 students, founded in 1795 and located in Schenectady, New York, is seeking a Systems Librarian. The successful candidate will offer some combination of experience in providing hardware and software technical support for library operations as well as staff applications workshops. An in-depth understanding of Windows/OS/NT software and protocols, including Z39.50, TCP/IP, and WWW technology, familiarity with a variety of Windows-based productivity programs, the ability to manage, support, and troubleshoot LAN and CD-ROM library hardware and software, Experience with DRA also highly desirable. In addition to technical background, the successful candidate must demonstrate strong oral, written, and analytical skills, the ability to work within a collegial academic environment, and experience with staff training, budget management, and planning. Experience cooperating with the Computer Center in a college or university environment would be very helpful. Represents Library on committees at the College and regional level. The Systems Librarian participates in library reference service, including some nights and weekends. Minimum Qualifications: M.L.S. or M.S.I.S. from an A.L.A. accredited program, 3-5 years relevant experience supporting an integrated library system in an academic library.

Schaffer Library has just completed a major building expansion and renovation. Visit our WWW site for additional information on both the Library and Union College.

http://www.union.edu

Union College offers an exceptional benefits package including medical, dental, and vision insurance, life and disability coverage, a generous retirement plan, and tuition remission. Union College is committed to a program of affirmative action and equal opportunity employment. Women and minorities are encouraged to apply.

Send letter of application, resume, and salary requirements to T. G. McFadden, Director, Schaffer Library, Union College, Schenectady, NY 12308.

CHAIR, DEPARTMENT OF HISTORY
College of Arts and Sciences

(Search Re-opened - 10/30/98)

The College of Arts and Sciences at Northeastern University seeks a dynamic chairperson for the Department of History. The chairperson will lead the department to further excellence in undergraduate and graduate education and will build on its strong scholarly tradition. The department has developed a special emphasis in world history both in its doctoral program and its scholarship. The chairperson will enhance the research and public history activities of the department, in association with the World History Center. The successful candidate must be tenable at the level of associate or full professor, and must be a distinguished scholar and teacher, with proven administrative and leadership skills.

The successful candidate may conduct scholarly work in any area and specialization in the discipline of History, but his or her work must add strength and distinction to a growing Ph.D. program in world history. The position is available July 1, 1999. Full consideration will be given to applications received by January 15, 1999. Please send applications (including a cover letter, full curriculum vitae and names of three persons ready to write letters of recommendation) to: Dr. Christina Gilmartin, Chair, History Chairperson Search Committee, Faculty Senate Office, 442 Ryder Hall, Northeastern University, Boston, MA 02115. Fax: 617-373-8808.

Northeastern University is an Equal Opportunity, Affirmative Action Title IX Employer.

DEPARTMENT HEAD SEARCH

The Oklahoma State University (OSU) Computer Science Department is seeking applications from qualified candidates for the position of Professor and Department Head. The term of initial appointment will begin August 1, 1999.

The OSU Computer Science Department is a growing department that is committed strongly to the goal of excellence in teaching, research, and extension. It offers a full range of undergraduate and graduate courses leading to B.S., M.S., Ph.D. and Ed.D. degrees in Computer Science. The department recently expanded its B.S. and M.S. programs to the new OSU campus in Tulsa. OSU also offers courses to students at remote sites using interactive video and World Wide Web. There are currently more than 200 undergraduate students and more than 150 graduate students enrolled in the department. The department has a goal of increasing enrollment within the next few years.

Applications must be received by the Search Committee in order to be considered. All applications and supporting materials should be sent to:

Dr. Carlos Santiago, Associate Vice President for Academic Affairs, Chair, Search Committee for the Dean of the School of Business, Office of the Provost, OSU, 203 University Station, SUNY 1400 Washington Avenue, Albany, NY 12222.

The University of Albany is an AA/EO/ADA Employer.

UNIVERSITY AT ALBANY
DEAN, SCHOOL OF BUSINESS

The University at Albany, SUNY, seeks applications and nominations for the position of Dean of the School of Business. As the school's chief academic administrator, the Dean is responsible for the breadth and depth of the School's academic programs. The Dean is responsible for:

- Leading the School to a position of national and international prominence
- Providing leadership and administration of all School academic programs, teaching, research, and service
- Providing leadership and administration of all School academic programs, teaching, research, and service
- Providing leadership and administration of all School academic programs, teaching, research, and service
- Providing leadership and administration of all School academic programs, teaching, research, and service
- Providing leadership and administration of all School academic programs, teaching, research, and service
- Providing leadership and administration of all School academic programs, teaching, research, and service

Applications should be sent to: Dr. Carlos Santiago, Associate Vice President for Academic Affairs, Chair, Search Committee for the Dean of the School of Business, Office of the Provost, 203 University Station, SUNY, 1400 Washington Avenue, Albany, NY 12222.

The University of Albany is an AA/EO/ADA Employer.
Pacifica Graduate Institute

Pacifica Graduate Institute is a fully accredited graduate school near Santa Barbara, California, with M.A. and Ph.D. programs in Depth Psychology, Clinical Psychology, Counseling Psychology, and Mythological Studies. We have an innovative program which seeks to teach depth psychology and the psychoanalytic traditions including Jungian and archetypal approaches through an interdisciplinary focus with particular attention to historical and cultural contexts. While linking psychology to analogous spiritual and healing traditions cross- and inter-culturally and historically, our program is real-world and attended by many non-traditional students. We have four core faculty positions open beginning fall 2023.

In our Department of Mythological Studies, a non-traditional humanities program, we are seeking a candidate whose interest is in the mythic and religious traditions of Africa and the African Diaspora or on Latin American and/or Caribbean cultures. The candidate should also be able to teach research methodologies and theoretical approaches to the study of myth and ritual. A Ph.D. in psychology, literature, art, anthropology, or a related field is required.

In our Psychology program, we are seeking three candidates with strong backgrounds in depth psychology for:

- A position with a focus on research methodologies, including experimental phenomenology, qualitative methods, and hierarchies of research in the Clinical Psychology Program. This candidate needs a Ph.D. in psychology or a related discipline.
- Two positions, requiring either a Ph.D. or an M.A., to teach some combination of the following: Jungian and existential psychology, myth and religion studies, human development, psychotherapy, and/or marriage and family counseling in the M.A. Counseling Program and possible in the Depth Psychology program.

All positions include administrative work and thesis advising and require demonstrated excellence in teaching and active participation in research and writing. To apply, send a letter of interest, CV, and a list of 3 references, by January 10, 1999, to Academic Dean, Pacifica Graduate Institute, 349 Lambert Rd., Carpinteria, CA 93013. Review of applications begins immediately, and will continue until positions are filled.

Applicants from groups historically under-represented in psychology and the humanities are encouraged to apply.

Located in Cape Girardeau, Missouri, Southeast Missouri State University is a moderately selective, comprehensive regional state university. Southeast is an "engaged" university supporting a wide array of academic research and public service programs that enrich and extend the learning environment. Cape Girardeau is located on the Mississippi River, less than 2 hours south of St. Louis & 3 hours north of Memphis, & serves as the major retail, wholesale, financial, medical, cultural, & educational center for southwest Missouri & southern Illinois.

Southeast Missouri State University has faculty position openings in the following areas. All the jobs listed below are nine-month, tenure-track positions unless indicated otherwise:

- Early Education
- Communication Disorders
- Industrial Technology
- Economics
- Mass Communication
- Mathematics
- Human Environmental Studies

All candidates should be committed to the teacher/scholar model, public and University service, and a culturally diverse learning environment. For complete job descriptions and application information, visit the University's web site at:

http://www2.semo.edu/provost/faculty/facposcv.htm

Wellesley College especially welcomes applications from minority members.

Wellesley College
SIMMONS COLLEGE
College of Arts and Sciences and Professional Studies

Simmons College, a leader in liberal arts professional education for a century, seeks to fill a new senior position, that of Associate Dean for Education Programs, to lead to successful and growing programs in education.

Simmons offers strong liberal arts undergraduate programs in education, together with three leading, successful graduate programs: Master of Arts in Teaching, Master of Arts in Teaching English as a Second Language and Master of Science in Special Needs. In addition, there are several collaborative dual degree programs. Together, these programs currently enroll more than 100 undergraduate and almost 700 graduate students. There are also expanding non-credit professional development and Certificate of Advanced Graduate Study programs. There are 20 full-time and 42 part-time faculty. Simmons College has an extensive, demonstrated commitment to education for and about women.

In undergraduate programs, are for women only and in graduate programs, education is for both women and men.

Simmons also has a small, high quality, undergraduate program in Human Services. The faculty in Human Services work closely with the faculty in Education. The Associate Dean would also assume general oversight of the Center for Education and in its development.

Simmons takes pride in offering professional education programs that combine academic preparation and practitioner-based classroom, advising and internship experiences. Our extensive links with school systems and with the world of practitioners are central to the success of these programs.

The Associate Dean - a newly created position - will lead these vibrant programs and will report directly to the Dean of the College of Arts and Sciences and Professional Studies.

ASSOCIATE DEAN FOR EDUCATION PROGRAMS

RESPONSIBILITIES:

• Sustaining and enhancing a multidisciplinary, collaborative vision for education that takes into account local and national trends and which builds on the best of practice and research.

• Providing leadership and support for all programs, working closely with the directors of the current programs to enhance and strengthen each program and being alert to opportunities for new programs to serve educational needs.

• Assisting the department in strengthening links with public school systems and state organizations in education.

• Building and enhancing linkages with other sectors of the College.

• Overseeing all academic, budget and administrative aspects of the programs.

• Teaching and advising students and participating in the life of the College.

SUCCESSFUL CANDIDATE WILL HAVE THE FOLLOWING QUALIFICATIONS:

• A demonstrated vision of education for the future and the capacity to articulate that vision and to inspire others to participate in it.

• Recognition as a scholar and teacher with a record of accomplishment and service consistent with a tenure appointment.

• A Ph.D. or Ed.D.

• An extensive record of promoting multicultural, collaborative work among academics and practitioners and a capacity to work with others.

• The capacity to work with others in ways that promote professional development, growth and individual success.

• A commitment to support and enhance faculty scholarship.

• Outstanding communication skills, with demonstrated understanding of the issues and opportunities associated with diverse populations of faculty and students.

• A record of effective academic leadership and administrative practice with considerable experience with budgets.

• Certification in a teaching field and experience as a teacher or administrator in public schools is highly desirable.

Candidates of color are strongly encouraged to apply. Simmons seeks to enhance its reputation and capacity for providing models for women and minority group members and for its commitment to inclusion. Simmons College is an equal opportunity employer.

Nominations or letters of application, together with a current curriculum vitae, should be sent to: Dean Chester D. Haskell, Chair, Search Committee for Associate Dean for Education Programs, Simmons College, 300 The Fenway, Boston, MA 02115. The Search Committee will begin to review applications and nominations in November, although the deadline for receipt of materials is December 15, 1998. It is expected an appointment will be made effective July 1, 1999.

Educational Technology

The Center for Education and Technology at NEW SCHOOL UNIVERSITY seeks an Educational Technologist to train faculty who use the computer facilities and to manage the center's computer lab, a service-oriented unit devoted to training and faculty development. The center specializes in research, development, and delivery of educational services to faculty, supervisors, and students. The Technologist will work closely with the Director of the Center for Education and Technology and with the New School's technology teams.

The successful candidate will be able to integrate educational technology into teaching and learning. The position requires a commitment to the development of educational technology and the ability to design and implement educational technology programs for faculty and students.

The position is open to candidates who have a Master's degree in Education or a related field, and who have extensive experience in educational technology.

The successful candidate will have a successful track record of developing educational technology programs and will be able to work effectively with faculty and students.

The successful candidate will be able to integrate educational technology into teaching and learning. The position requires a commitment to the development of educational technology and the ability to design and implement educational technology programs for faculty and students.

The successful candidate will have a successful track record of developing educational technology programs and will be able to work effectively with faculty and students.

Brown University

Clinical Professor of Elementary Education

Brown University seeks an outstanding teacher and teacher educator to serve as Lecturer/Assistant Professor of Elementary Education beginning July 1999. This is a 12-month position with teaching responsibilities during the summer and the school year. This is a three year renewable contract. The position requires a minimum of a Masters degree in elementary education. The successful candidate will have the ability to work closely with students and faculty in order to design and implement educational technology programs for faculty and students. The position requires a commitment to the development of educational technology and the ability to design and implement educational technology programs for faculty and students. The successful candidate will have a successful track record of developing educational technology programs and will be able to work effectively with faculty and students.

Brown University - an EEO/AA/ADA employer strongly committed to achieving excellence through cultural diversity.

Application - The University of Texas at Dallas, PO Box 803688, M.S. AD 23, Richardson, Texas 75083-0688. An equal opportunity/affirmative action employer.

499
DEAN
COLLEGE OF EDUCATION

The University of Maryland, College Park, the flagship institution within the eleven-campus University System of Maryland, invites applications and nominations for the position of Dean for the College of Education. The Dean of the College provides both academic and administrative leadership for the College and reports directly to the Senior Vice President for Academic Affairs and Provost.

The University of Maryland, College Park, is a comprehensive research one, public university with almost 35,000 students in baccalaureate, master’s and doctoral programs. It is located on a 135-acre campus east of Washington, D.C. Students in the College of Education pursue studies in six departments: Counseling and Personnel Services; Curriculum and Instruction; Education Policy, Planning and Administration; Human Development; Measurement, Statistics and Evaluation; and Special Education. The College is also the home of more than a dozen independent research and service centers.

The College is ranked among the top twenty-five Colleges nationally and contains a number of very highly ranked departments and programs. The new Dean must have the vision to lead in new directions while maintaining and enhancing the College’s record of accomplishment in scholarship and research. The College seeks new opportunities in working with internal and external constituencies on national and statewide reform initiatives and technological advances that impact every level of education. Further information on the College can be found at

http://www.education.umd.edu/EDUC/.

The Dean will lead a college with an annual state budget of $10.250.000 and annual research funding of $8.000.000. There are approximately 1,300 undergraduate students in twelve majors, as well as 1,000 graduate students. The college has 108 tenure and tenure-track faculty, 28 non-tenure full-time faculty and 71 non-tenure part-time faculty.

Candidates should possess an earned doctorate, have a record of teaching and scholarship, and have experience in administration as a tenured professor in a department of the College, and a demonstrated capacity for educational leadership. The successful candidate must demonstrate a commitment to achieving excellence in teaching, research, service to the community, and a dedication to fostering the goals of diversity and affirmative action. Salary will be competitive and commensurate with experience. The appointment date is open.

Applicants and nominees should submit a letter of interest, curriculum vitae, and the names, addresses and telephone numbers of at least four persons who can be contacted by the search committee for references. Nominations are encouraged and will be received at any time. Review of nominations and applications for this position will commence on February 1, 1999, and continue until the position is filled. All materials should be sent to:

Search Committee for Dean of the College of Education
Attention: Sheila Mahaffy
2119 Main Administration Building
University of Maryland
College Park, MD 20742

Telephone inquiries to discuss the position are welcome. Please feel free to call the chair of the committee, Dean Irwin L. Goldstein, 301-405-1680, or direct inquiries via e-mail to irv@bus2.umd.edu.

The University of Maryland, College Park, is an affirmative action employer. Women and minority candidates are encouraged to apply.

DEAN
COLLEGE OF LIBERAL ARTS

Colorado State University invites applications to serve as Dean of the College of Liberal Arts. The Dean is the principal administrative and academic officer of the College with a 12-month appointment for a 5-year term as an Officer of the University, and reports directly to the Provost/Academic Vice President. The College has 12 departments, 2 Centers of Excellence, 238 tenure-track faculty, and 2,700 students. General information about the University and the College of Liberal Arts can be accessed at www.colostate.edu.

QUALIFICATIONS: Distinguished record in teaching, scholarship & service sufficient to qualify as a tenured Full Professor in one of the academic units in the College; appropriate administrative and academic experience at a Class I Carnegie Institution; tenure, articulation advocacy for the liberal arts, with an innovator vision for the future role of the liberal arts in the context of a comprehensive university; commitment to and experience in achieving the goals of diversity through inclusive action and equal opportunities; ability to develop and promote positive relations with appropriate groups and organizations; both on- and off-campus.

APPLICATIONS will be accepted until the position is filled. For full consideration, however, completed applications must be on file on or before 5:00 p.m. MST, January 4, 1999. Applications should include a brief statement of goals expressing the applicant’s educational and administrative philosophy and addressing the position and qualifications: a current resume, and the names, addresses, telephone and FAX numbers and email address of five references who will not be contacted without the approval of the candidate. If so desired, the candidate may request in writing that his or her application remain confidential until such time as finalists are identified. Please provide this information to Dr. Daniel E. Costello, Dean, College of Business, 129 Rockwell Hall, Colorado State University, Fort Collins, CO 80523; FAX: 970-491-0596; Email: dacostello@lanzr.colostate.edu.

Colorado State University is an equal opportunity/affirmative action employer and complies with all Federal and Colorado State laws, regulations, and executive orders regarding affirmative action requirements.

HUNTER COLLEGE
OF THE CITY UNIVERSITY OF NEW YORK

FACILITIES LIASON TO THE SCIENCES

RESPONSIBILITIES: Responds to emergencies as well as requests from laboratory researchers to identify problems and propose solutions to the Director of Facilities. Develops and maintains a log of all Facilities Department equipment in laboratories. Facilitates the ongoing maintenance in the laboratories of equipment such as HVAC, compressors, etc., which are the responsibility of the Facilities Department. Establishes a protocol for routine maintenance of equipment providing lab services. Reviews construction/renovation specifications for completeness ensuring academic departmental satisfaction.

Hunter College is an Equal Opportunity/AAD Act Employer. Women and minorities are encouraged to apply for the position.
Earlham College
Richmond, Indiana

DEAN

STUDENT DEVELOPMENT

The President and the Search Committee of Earlham College seek nominations for and expressions of interest in the position of Dean of Student Development.

Founded in 1847 by the Religious Society of Friends (Quakers), Earlham College is a four-year, coeducational, residential, liberal arts college of 1,000 students located on 800 wooded acres in Richmond, Indiana, a city of 40,000. Earlham offers a rigorous curriculum of disciplinary and interdisciplinary programs, as well as opportunities to apply academic knowledge to real world challenges. Through the Quaker values it embodies—respect for others, non-violence, and social justice—and through the community created out of these values, Earlham shapes the social and cultural growth of its members. With a rich array of international and off-campus programs, the majority of Earlham students have the chance to expand their vision beyond the perspective of one society and one campus. An endowment of $161 million ranks Earlham in the first echelon of independent liberal arts colleges.

The Dean of Student Development will report to the President, Douglas Bennett, and is responsible for providing leadership, training, and supervision in the areas of residential life, student activities, athletics, diversity and multicultural issues, campus ministry, career services, counseling, public safety, health services, and service learning. The successful candidate will have imaginative ideas for the organization of the division, will be able to motivate a competent staff, and will have a love for caring for young men and women to maturity. The successful candidate will have, through education and experience, an understanding of the kind of education Earlham seeks to provide its students and of the ways in which a residential learning community contributes to students’ educational and personal development. Qualifications for the position also include a bachelor’s degree, preferably in liberal arts, an advanced academic or professional degree, and significant experience in the area.

Active screening of candidates begins immediately and will continue until the position is filled. Nominations, applications, and letters of interest should be submitted to:

Earlham College Search Committee
c/o Educational Management Network/Wilt Kleffner
98 Old South Road
Nantucket, MA 02554

Questions may be directed via e-mail to Nan Whetcomb or Binh Rustad at earlham@emnemn.com

For additional information about Earlham College, consult the Web site at http://www.earlham.edu

Earlham College is an Affirmative Action/Equal Opportunity Employer.

Provost and Vice President
for Academic Affairs
University of New Hampshire

The University of New Hampshire invites applications and nominations for the position of Provost and Vice President for Academic Affairs. The Provost serves as the senior academic officer of the University and as the President's deputy in his absence.

Candidates should have an earned doctorate, a record of academic accomplishments appropriate for appointment as a full professor, and administrative experience as a senior academic officer. Applications should include a letter describing qualifications and goals, a curriculum vitae, and the names, addresses, and phone numbers of five references. Screening will begin on January 11, 1999, and continue until appointment is made.

Applications and nominations should be sent to: Provost Search Committee, c/o Joan W. Weeks, Office of the President, UNH, Thompson Hall, 105 Main St., Durham, NH 03824. UNH encourages applications from minorities and women candidates.

ASSISTANT VICE-PRESIDENT
Institutional Effectiveness, Research & Planning

The position reports to the Vice-President of Administrative Affairs and includes responsibility for (1) Coordination of college planning process for goal setting and implementation; (2) Design and implementation of institutional studies, evaluation and research regarding college activities and programs and services; (3) Coordination of data collection and analysis for planning, decision-making, resource allocations, and reporting to both internal and external constituencies; and (4) Development of integrated planning and research systems to provide executive-level management information for college decision-making.

REQUIRED QUALIFICATIONS include a Master’s Degree, knowledge of descriptive statistics; significant and successful experience in higher education administration in program coordination, analyzing and interpreting statistical output, and writing reports and presentations; and the ability to succeed in the position.

EDUCATION: COMPLETED B.S. and M.B.A. in Business Administration, with additional coursework in economics and business management.

COLLEGE OF LAKE COUNTY is a progressive two-year community college located 30 miles north of Chicago in the growing metropolitan area of Lake County, Illinois. The college has an approximate enrollment of 15,000 and offers a wide range of career and transfer programs in various disciplines.

FOR FULL CONSIDERATION submit letter of interest, resume, application, (3) letters of reference and official transcripts by January 8, 1999. Call (847) 543-2065 for application and job posting. TDD for hearing impaired is (847) 223-5615.

Washington State University

ASSISTANT PROFESSOR

Department of Teaching and Learning
Washington State University Vancouver

Title: Assistant or Associate Professor
Salary: Competitive, commensurate with experience
Position: Permanent full-time, tenure-track
Effective Date: August, 1999

Position: The Department of Teaching and Learning is seeking qualified applicants for a permanent tenure-track faculty position in Literacy Education/Teacher Education.

Duties and Responsibilities: Teach graduate courses in teacher education, reading, language arts, children's literature, and related areas; conduct research leading to publications in areas of specialization; develop and maintain collaborative relationships with professionals in schools and community agencies; assist with recruitment, retention and advising of graduate students in teacher preparation and in-service programs; and assist with field supervision of pre-service teachers.

Required Qualifications: Earned doctorate at time of appointment in one of the literacy education specializations (reading, language arts, children's literature), teacher education, or closely related areas; documented record of research; potential for scholarly productivity; and K-12 teaching experience.

Desired Qualifications: Experience with diversity/multicultural education and building collaborative relationships with K-12 schools and community agencies.

WSU Vancouver offers both undergraduate and graduate programs and is expected to double in student body (currently 1,514 students) and faculty in the next six years. Research expectations and teaching loads are consistent across the four WSU campuses. The Pacific Northwest (WSU Vancouver is located just north of the Columbia River from Portland, Oregon) offers significant opportunities for research and an excellent quality of life.

Screening will begin on approximately January 11, 1999, and continue until the position is filled. Both nominations and applications are encouraged. Persons wishing to apply for this position should send a letter of application addressing the following criteria: three current letters of recommendation (with one year's tenure), two samples of scholarly work (2 copies each), and a current comprehensive vita including the names, addresses, and phone numbers of at least three additional references. Nominations and applications should be sent to:

Dr. Sherry Vaughan, Chair
Washington State University Vancouver
12402 NE Salmon Creek Ave
Vancouver WA 98686
(360) 546-9660

The Ohio State University
Department of Art Education

ART EDUCATION: The Department of Art Education, The Ohio State University, is seeking to fill a tenure-track position at the rank of Assistant Professor to share responsibilities in directing field experience and supervising student teachers, teach graduate and undergraduate courses in art education, develop and conduct research on problems of art classroom teaching and learning, provide in-service education for practicing teachers and assume service responsibilities in the Department, the College, the University, and the profession. The successful candidate will also work with the Department's research projects in school and art education reform. Position to be filled September 1999

QUALIFICATIONS: Doctorate in art education; minimum of three years teaching experience in K-12, experience with field-related aspects of teacher preparation, demonstrated research interest in some of the following areas: teacher preparation, problems of teaching, learning, school and art education reform, the arts and cognition. Also desired is knowledge and interest in uses of electronic media, especially multimedia in teacher education.

DEPARTMENT OF ART EDUCATION

The Department of Art Education has 15 full-time faculty, and several joint or adjunct appointments, about 25 Graduate Teaching and/or Administrative Associates. 150 M.A and Ph.D. students, and 65 undergraduates. The Department offers teaching B.A., the M.A. and the Ph.D. degrees. We also offer the Master of Arts Policy and Administration degree. Teacher certification is at the graduate level.

Our programs promote understanding of art and education for students through a curriculum that balances studio work with art criticism and study of historical, cultural, and intellectual contexts. Understanding of the visual arts in a global society is emphasized through approaches to art learning and student assessment; critical inquiry of traditional and contemporary artwork; the analysis of public and educational policy in the arts; and inquiry in the multicultural, philosophical, historical, and policy foundations of art education and arts administration. Our curriculum includes attention to understanding the use of technology in art making and in teaching, learning, and assessment in art.

APPLICATION SHOULD INCLUDE:
1. Letter of application
2. Vita and sample writings
3. Three letters of reference plus the names and addresses of three other individuals qualified to speak to your qualifications
4. Transcripts of highest degree earned
5. Supportive materials of the applicant's choice

SUBMIT APPLICATION TO:
Chair, Art Education Search Committee
The Ohio State University
Department of Art Education
258 Hopkins Hall
128 North Oval Mall
Columbus, Ohio 43210-1363

http://www.arts.ohio-state.edu/ArtEducation/

Review of applications will begin February 1, 1999 and continue until the position is filled.

The Ohio State University is an Equal Opportunity, Affirmative Action Employer. Women, minorities, Vietnam veterans, disabled veterans and individuals with disabilities are strongly encouraged to apply.

Montclair State University

Washington State University in an email opportunity.

Members of ethnic minorities, women, Vietnam veterans, disabled veterans, persons with disabilities and/or persons aged 40 and over are encouraged to apply.
AMHERST COLLEGE

SCIENCE/REFERENCE LIBRARIAN

The Robert Frost Library at AMHERST COLLEGE seeks a Science/Reference Librarian who will report directly to the College Librarian and report to the Head of Reference for Frost Reference responsibilities.

Primary responsibility of the position will be to manage the daily operations of the newly renovated and expanded Keene Science Library and to provide the science faculty and students with a knowledgeable advocate in the Library. Serves as liaison to the science departments whose collections are housed in the science library: Biology, Neuroscience, Chemistry, Astronomy, Physics, and Geology.

Position will also coordinate reference services in the sciences. This includes providing assistance with both print and electronic sources, classroom and individual instruction in scientific information resources, mediated online searches, and development and maintenance of web pages. Acts as liaison between the science library and the technical services department. Additionally, participates in general reference service in the Robert Frost Library (up to 6 hours weekly).

QUALIFICATIONS: MLS, minimum two years post degree experience in science reference services, with a broad background in computers, Internet resources and science and technology databases, particularly those available via STN and NCBI. Strong academic background and interest in an undergraduate degree in science preferred. Must be able to work successfully with faculty, students and college administrators, with special attention to the science community. Must also be able to function in a general reference setting with a broad range of materials in the humanities and social sciences. Excellent oral and written communication skills required.

Interested candidates should send a cover letter, resume, and the names of three references to: Willis E. Bridegam, Librarian, Amherst College, Box 2256, Amherst, MA 01002-5000.

CSU Cleveland State University

SECOND LANGUAGES AND CULTURES EDUCATION, Dept. of Curriculum and Instruction (Assistant Professor). Application review begins no later than 1/16/99.

The University is an equal opportunity educator and employer.
Smith College seeks applications and nominations for the new position of Dean of Religious Life. The dean will lead the college in a new inclusive, multi-faith vision of religious life. With this new commitment to religious diversity, Smith College has reaffirmed its conviction that religious life is an integral part of a liberal arts education. In collaboration with college chaplains, the dean will work with students, faculty and staff to attend to the spiritual development of a college community with an increasing diversity of religious beliefs, nurture religious communities on campus, enrich the moral and ethical dialogue in the Smith community, and oversee and support the voluntary service organization in accord with the educational mission of the college. The mandate of the new dean will include integrating religious and spiritual leadership with the whole of student services, creating close links between the chaplaincy and student affairs, the counseling service, and residential life at Smith. The dean will supervise and oversee the work of the chaplains to the college, the adjunct chaplains and the director of voluntary services. The position will require a person well-grounded in any of the recognized religious traditions; with academic training at an advanced level, exceptional writing and speaking abilities, and substantial administrative experience. The salary for this position will be at a nationally competitive level and includes a comprehensive benefits package.

Review of applications will begin January 15, 1999, and continue until the position is filled, with an anticipated hiring date in spring 1999. Forward nominations and letters of application, curriculum vitae, writing sample, and list of at least three references to: Human Resources; Smith College, Box 595; 30 Belmont Avenue, Northampton, MA 01063.

Smith College is an equal opportunity employer encouraging excellence through diversity.

HILLSBOROUGH COMMUNITY COLLEGE

Hillsborough Community College (HCC) is located in the Tampa Bay Area. Access the HCC Website at http://www.hcc.cc.fl.us or call the HCC Jobline at (813) 253-7185 to review openings and related information. HCC offers excellent pay and benefits. Submissions should be sent by January 8, 1999.

CAMPUS PRESIDENT

SALARY RANGE: $63,711 TO $105,123

This position is responsible for the effective management and general administration of the Brandon, Florida Campus location. The selected candidate will promote and enhance the educational programs in the areas of academic affairs, student services, and support services, will effectively select, allocate, utilize, and manage human, fiscal and physical resources, will direct and oversee the supervision of campus deans, faculty, and staff employees. The position requires a Master's degree and seven years of prior related work experience. Doctoral degree is preferred. Preference will be given to candidates who demonstrate substantial experience in successfully managing faculty and staff in their present or past employment. Interested applicants who previously applied for this opening must reapply.

VICE PRESIDENT FOR BUSINESS & FINANCE

SALARY RANGE: $63,711 TO $105,123

This position will direct, plan, coordinate and oversee the College's financial and administrative functions and physical facilities. Will develop the college-wide budget, recommend policies and procedures relating to finance, and publish and advise the College President, other senior staff and officials on related business and financial matters. This position also manages academic services, physical facilities, construction, and records management at the College. The position requires a Masters degree, preferably in Business, Finance, Public or Educational Administration or a closely related field and ten or more years of prior related work experience. Preference will be given to Certified Public Accountant applicants, i.e., applicants who evidence appropriate certification standing. The candidate must have an extensive legal qualification to practice. Interested applicants who previously applied for this opening must reapply.

DEAN OF ACADEMIC AFFAIRS

SALARY RANGE: $51,380 TO $84,777

This position supervises and coordinates the operations and administration of the Associate in Arts program for the Ybor City Campus to ensure effective delivery and management of all campus instructional programs. The selected candidate will report to the Campus President and will be responsible for Academic Affairs program activities including curriculum development and evaluation, academic planning and outcome assessment, budget management, faculty and support staff development and evaluation, and scheduling and staffing of classes. The position coordinates and ensures the preparation and timely handling of paperwork including, contracts, forms, subcontracts, travel reimbursements, office hours schedules, and syllabi for all unit employees. The position requires a Master's degree and five years of prior related work experience. Preference will be given to candidates with at least three years of comparable supervisory experience. In addition, preference will be given to candidates who possess a Doctorate degree in one of the disciplines within the division and candidates with knowledge of academic program design. The candidate selected will be expected to assume the position in July 1999.

DEAN OF ASSOCIATE IN ARTS

SALARY RANGE: $51,380 TO $84,777

This position supervises and coordinates the operations and administration of the Associate in Arts program for the Dale Mabry Campus to ensure effective delivery and management of all campus instructional programs. This position reports to the Campus President and will be responsible for Academic Affairs program activities including curriculum development and evaluation, academic planning and outcome assessment, budget management, faculty and support staff development and evaluation, and scheduling and staffing of classes. The position coordinates and ensures the preparation and timely handling of paperwork including, contracts, forms, subcontracts, travel reimbursements, office hours schedules, and syllabi for all unit employees. The position requires a Master's degree and five years of prior related work experience. Preference will be given to candidates with at least three years of comparable supervisory experience. In addition, preference will be given to candidates who possess a Doctorate degree in one of the disciplines within the division and candidates with knowledge of academic program design.

To apply, send a letter of interest, resume, photostats of education transcripts, and three references to: HCC Human Resources, PO. Box 31127, Tampa, FL 33631.
DEPARTMENT OF SOCIOLOGY
AND LATINO/A AMERICAN STUDIES PROGRAM

The Department of Sociology and the Latino American and Latina/o Studies Program invite applications for a shared, entry-level, tenure-track appointment at the rank of Assistant Professor to begin in the Fall of 1999. We seek a strong teacher and a productive sociologist whose primary teaching and research interests are in the area of Latino/a populations and communities in the United States. The successful candidate will also be expected to teach an intermediate-level sociology course on race and ethnic relations and/or identity in the U.S. and periodically, an interdisciplinary introduction to Latin American Studies course. The person hired will be a regular voting member of the Department of Sociology, and will share administrative responsibilities in the Latin American Studies Program on a rotating basis. Preference will be given to candidates who will have Ph.D. in hand by the time of appointment. Salary is competitive and the teaching load is 2/2. Smith is a highly selective undergraduate liberal arts college for women with about 2,500 students, located in a small, but cosmopolitan city, two hours from Boston and three hours from NYC. Faculty members have easy access to the combined resources of the Five College consortium, which includes Amherst, Hampshire, and Mount Holyoke Colleges, and the University of Massachusetts. Applicants should send a cover letter describing teaching and research interests, a curriculum vita, three letters of reference, writing samples, and teaching evaluations to SOC/CLAS Search Committee, c/o Barbara Day, Wright Hall 12, Smith College, Northampton, MA 01063. Application deadline is January 20, 1999.

Smith College is an Equal Opportunity/Affirmative Action institution. Minorities and women are encouraged to apply.

DEAN OF STUDENT LIFE & SERVICES

Oberlin College seeks nominations and applications for the position of Dean of Student Life and Services. This is a twelve-month, full-time Administrative position that reports to the President.

About Oberlin College:

Oberlin is a four-year, selective liberal arts college that is also home to an outstanding Conservatory of Music. Together, the two divisions enroll approximately 2850 students. Oberlin College was founded in 1833. It was the first college in America to make interracial education and co-education central to its mission - traditions that live today within a commitment to positive social quality of its richly diverse student body, outstanding faculty, and excellent facilities and academic and technological resources.

Oberlin is located in the town of Oberlin, Ohio, a residential community of 8,600 situated 35 miles southwest of Cleveland. Cleveland-Hopkins International Airport is less than 30 minutes away.

Responsibilities: As the chief student affairs officer, the Dean oversees all administrative units concerned with student life, including the offices of residential life and services, housing and dining, counseling services, health service, multicultural affairs, safety and security, the student union, campus activities, and the student judicial system. The Dean works in cooperation with both the College of Arts and Sciences and the Conservatory of Music to coordinate and integrate student life with academic programs, and the make student experience outside the classroom an integral part of Oberlin's educational mission.

Qualifications: At Oberlin, the Dean of Student Life and Services interacts directly with a highly diverse group of students on a daily basis. We seek an individual who understands issues of student development and student concerns and who will build the student life administration to foster the development of a diverse community. The successful candidate will have relevant experience in student life administration; excellent communication skills; demonstrated skills in leadership and management of a complex organization; the ability to bring innovative and creative thinking to student life programs; and demonstrated success in working collaboratively with students, faculty, staff, and the College's wider community in an environment that welcomes and encourages diverse points of view. A master's degree is required.

To Apply: Submit a letter of application, resume and the names and phone numbers of at least three references to: Kathryn Stuart, Assistant to the President, Cox Administration Building, Room 202, 70 N. Professor Street, Oberlin, OH 44074. Review of applications will begin on December 14, 1998, and will continue until position is filled. AA/EEO.

OBERLIN

SCHOOL COUNSELING

The School of Education has available a school counseling position in the Department of Developmental Studies and Counseling. The tenure-track position is to be filled at the rank of assistant professor, with responsibility for program leadership!.

Candidates must have an earned doctoral degree in counseling, a record of publication and research, and academic and professional interest in two or three of the following areas: counseling, philosophy, theory and practice, school counseling, group counseling; family issues; assessment; career counseling; and the education of the diverse student population in today's schools, including those with special needs. Candidates will be expected to teach courses, supervise students in field settings, conduct research, and work in interdisciplinary faculty teams for the purposes of program development. Candidates should, furthermore, hold an active license in psychology as well as current certification in school psychology and school guidance and or school adjustment counseling.

Deadline for applications is February 1, 1999.

Send a letter of application, a current resume, sample publications, and the names, addresses, and telephone numbers of three references to:

Ms. Elizabeth Austin
School of Education, Boston University
605 Commonwealth Avenue, Boston, MA 02215

DEAN, COLLEGE OF MEDICINE
CHARLES R. DREW UNIVERSITY
OF MEDICINE AND SCIENCE
Los Angeles, California

Charles R. Drew University is a non-profit, private institution with a budget of $50 million and 1,000 employees. The College of Medicine, in partnership with UCLA, is devoted to training specialists in medicine and providing continuing education to local health care practitioners. The College seeks an energetic and visionary leader. Reporting to the President of the University, the Dean is responsible for the School's academic, fiscal and administrative functions, and also serves as Associate Dean of the UCLA School of Medicine. Candidates must have earned an MD degree and be an accomplished leader in medical research and education. The Dean must also possess the ability to work with and build collaborative relationships both internally and externally. Candidates should submit a letter of interest and CV by January 15, 1999 to

William Hawkins
The Hawkins Company
5465 Wilshire Blvd., Suite 1406
Los Angeles, CA 90036
323-933-3337 or fax to 323-933-9765

The University is an EEO/AA employer and strongly encourages all to apply.
**Program Clinic Coordinator**

The University of Medicine and Dentistry of New Jersey Robert Wood Johnson Medical School's Eric B. Chandler Health Center seeks a Program Clinic Coordinator who, under the supervision of the Business Manager, coordinates the operational activities of the Billing, Reception and Medical Records Department. Physical Plant, and Communications. Ensures compliance with regulatory issues. Supervises assigned staff.

**Bachelor's Degree in Business Administration, Health Administration, or a related field, plus three (3) years of experience in a health care institution, such as a hospital, ambulatory care facility, health maintenance organization or group medical practice. Two (2) years shall have been in a supervisory capacity.**

Please send resume, including salary requirements, to M. Genereux, Human Resources Dept. (88PS0978), UMDNJ, 335 George Street, Liberty Plaza, P.O. Box 2688, New Brunswick, NJ 08903-2688. UMDNJ is an Affirmative Action/Equal Opportunity Employer. M/F/D/V and a member of the University Health System of New Jersey. Regrettably we can respond only to those candidates chosen for an interview. Visit our website at: [http://www/umdnj.edu/hrweb/](http://www/umdnj.edu/hrweb/)

**Associate Director of Faculty Development**

Job #109802

The Office of Faculty Development is seeking applicants for a 12 month position, with broad responsibilities to facilitate development and success, designed to assist faculty in improving teaching and learning. The person selected will be the Director of the Center for Teaching and Learning (CTL) and will be responsible for creating and managing the overall CTL operation. As the Associate Director the person will assume the development, implementation, and evaluation of all Faculty Development Office programs and activities.

**Qualifications:** Must have 2-3 years of work experience teaching and/or research development in a post-secondary setting. Strong experience in the use of a variety of instructional methods, applications of research in teaching/learning, and general teaching/learning issues in higher education. Masters degree required with a preference for degree in Curriculum Design, Educational Psychology, Instructional Technology, or related educational discipline. Prior experience as a member of a faculty Development/University College faculty.

Submit a letter of interest, resume, or application to: A. Adapt, Office of Human Resources, 9300 Middle Forkville Road, Austin, Texas 78752. Please reference job number and title. Review of applications will begin on January 25, 1998. Materials received after the review date may be considered. Submit at least three references to FMU. Applications and other employment information are available at [www.austin.utexas.edu](http://www.austin.utexas.edu) or call (512) 223-3057 x 53. DIAL-A-JOB (512) 223-5621

**Instructor/Associate Degree Nursing**

Job #107816

This position will report to the Program Coordinator and is responsible for providing hands-on training in ACG Office of Human Resources, 9300 Middle Forkville Road, Austin, Texas 78752. Please reference job number and title. Review of applications will begin on January 25, 1998. Materials received after the review date may be considered. Submit at least three references to FMU. Applications and other employment information are available at [www.austin.utexas.edu](http://www.austin.utexas.edu) or call (512) 223-3057 x 53. DIAL-A-JOB (512) 223-5621

**Oxford College of Emory University**

Oxford College holds a singular place in American higher education by virtue of its mission as a two-year liberal arts institution, its focus on teaching, its role as a division of Emory University, and its historic location. The College seeks a leader committed to undergraduate teaching, scholarship, and community to succeed the retiring Dean-CEO. The Dean-CEO will report to the Provost of Emory University and will serve as a member of the Council of Deans.

Oxford’s rich heritage began in 1836, when Emory University was founded on the Oxford Campus in Oxford, GA, eight miles east of Atlanta. Today, Oxford provides its approximately 900 students with an environmentally and educationally distinct experience in the freshman and sophomore years, after which more than 90% of its students proceed to Emory College for their junior and senior years. While at Oxford, students benefit from a focused and rigorous classroom experience and from the opportunity to undertake leadership roles within and beyond the campus community.

The new Dean-CEO will have an outstanding record as a teacher and scholar and will be tenurable at the rank of full professor. S/he will have a demonstrated record of achievement in curriculum and administration and of innovative educational programs at the highest level of excellence. Since Oxford College is geographically separate from the Emory campus, the successful candidate will provide leadership in an environment that will ensure the benefits of both a small liberal arts college and a premier research university. The Oxford College will be an outstanding communicator, a leader who promotes consensus and is decisive.

Dr. William B. Cody, Chair of the Oxford College Search Committee, requests that inquiries, nominations and applications be submitted to the University’s consultants.

Paula Carabelli and Dennis M. Barden
Educational Management Network
175 W. Kiefer Avenue, Suite 100
Irvine, CA 92614
949/851-5070 (Ms. Carabelli)
630/990-1370 (Mr. Barden)

Applications should include a letter of interest, a current curriculum vitae, and the names, positions and phone numbers of five references who will be contacted only with candidate’s approval. Screening will begin immediately and will continue until an appointment is made. The spring of 1999. All communications will be treated confidentially.

EEO/AA Employer
ASSISTANT PROFESSOR OF SPANISH

20TH century Peninsular literature with broad disciplinary interests, emphasizing cultural and intellectual relationships within the Hispanic world. Full-time, tenure track position at Assistant Professor rank beginning 9-9-99 academic year. Teaching responsibilities include 5 courses annually, including 3 in Spanish language, survey course in 20th century Peninsular literature. & one course in candidate's area of specialization. Demonstrated interest in teaching language and literature, commitment to undergraduate education and scholarship essential. The Ph.D. and native or near-native knowledge of Spanish are required. Teaching experience at undergraduate level desirable. Submit cover letter, three recent letters of recommendation, a curriculum vitae, graduate academic transcripts, to Nelson deJesus, Chair, Department of Romance Languages, Peters Hall, Oberlin College, Oberlin, OH 44074, no later than 12/14/98. Fax (440) 775-6888. MLA interviews important. AA/EOE.

George Mason University invites applications and nominations for the position of Dean of Admissions and Enrollment Development. The Dean reports to the Provost and serves on the President’s Council.

Responsibilities include:
- lead university efforts to attract students of the highest caliber who are diverse in background and experience
- coordinate recruitment efforts at all levels
- develop benchmarks for measuring recruiting effectiveness
- collaborate with deans and faculty to develop a vision and plan for improving the academic profile of existing students at all levels
- collaborate with Academic Support, Financial Aid, University Life and University Relations on planning, marketing, retention and progression.

Qualifications of the position include earned doctorate (preferred); record of progressively responsible experience in admissions including developing and implementing successful marketing campaigns; proven leadership and track record of success in a complex, competitive university environment, including documentable efforts at implementing ideas and strategies for recruiting high caliber, diverse, and international applicants; proven managerial skills for supervision of professional staff and creative use of information technology; outstanding interpersonal, oral, and written communication skills; creativity, high energy, flexibility, and a sense of humor.

First consideration will be given to applications received by January 15, 1999 and the search will continue until the position is filled. Interested candidates should submit a letter of application, CV and names of at least three professional references to:

Chair of the Search Committee
Dean of Admission and Enrollment Development
Office of the Provost
MSN 3A2
George Mason University
Fairfax, VA 22030

George Mason is a dynamic public teaching and research university in the Virginia suburbs of Washington, DC. Half of its 24,000 students are full time, forty percent are graduate students, and ten percent live on campus. The growing reputation of George Mason University as an exciting institution derives from an innovative undergraduate and graduate programs in both traditional disciplines and in integrative studies, as well as its outstanding facilities and academic programs. Further information about the university can be found on the web at www.gmu.edu

George Mason University is an equal opportunity, affirmative action employer. Applications from and nominations of women and minority candidates are strongly encouraged.

BIOCHEMISTRY ASSISTANT PROFESSOR
The Department of Biology, Hamilton College, invites applications for a tenure-track position at the assistant professor level, effective 1 July 1999. Applicants must have a Ph.D. postdoctoral and teaching experience are preferred. The successful assistant professor will teach part of an introductory course in biology, an upper-level course in general biochemistry, and one additional course, and will also supervise senior research projects. An ongoing research program emphasizing biochemistry and involving undergraduates is expected. Send curriculum vitae, statement about teaching and research, and three letters of reference to: Ernest H. Williams, Chair, Department of Biology, Hamilton College, 196 College Hill Road, Clinton, NY 13323-1292.

Preventing Reading Difficulties

BY GUSTAVO A. MELLANDER

Why do students fail in college? Research has long indicated that the inability to be an effective reader is one of the most common reasons why students fail to complete college. Hispanics in particular are plagued with this problem. Many, of course, don’t even go to college because their reading skills are so inadequate.

Now reading is essential to success. In a technological society, the demands for higher literacy are ever increasing, creating more grievous consequences for those who fall short.

Where Are We?

“The majority of reading problems faced by today’s adolescents and adults could have been avoided or resolved in the early years of childhood,” according to a report released recently by the National Research Council (NRC).

The report, Preventing Reading Difficulties in Young Children, calls for widespread reforms “to ensure that all children are equipped with the skills and instruction they need to learn to read.”

Responding to the nearly 400-page report, Secretary of Education Richard Riley said, “The council’s findings send the nation’s parents and educators a clear signal that we need to move beyond the courteous reading debate in some communities and focus on how children learn to read.”

“The study,” he continued, “clearly defines the key elements all children need in order to become good readers. Specifically, kids need to learn letters and sounds, and how to read for meaning. They also need opportunities to practice reading with many types of books. While some children need more intensive and systematic instruction than others, all children need these three essential elements in order to read well and independently by the end of third grade. Effective teaching and extra resources can make a possible for many ‘at-risk’ children to become successful readers.”

The gravity of this problem led the U.S. Department of Education and the U.S. Department of Health and Human Services to ask the National Academy of Sciences to study the effectiveness of interventions for those who are at risk of having problems learning to read.

The project had three goals: (1) to create a rich but diverse research base, (2) to translate the research findings into advice and guidance for parents, educators, publishers, and others involved in the care and instruction of the young; and (3) to convey this advice to the targeted audiences through a variety of publications, conferences, and other outreach activities.

Learning to Read

Effective reading instruction strategies exist. They are built on a foundation that recognizes that reading ability is determined by multiple factors. These factors correlate with reading but fail to explain it: many experiences contribute to reading development without being prerequisite to it; and although there are many prerequisites, none by itself is considered sufficient.

Adequate initial reading instruction requires that students:—
- use reading to obtain meaning from print;
- have frequent and intensive opportunities to read;
- are exposed to frequent, regular spelling-sound relationships;
- learn about the nature of the alphabetic writing system, and;
- understand the structure of spoken words.

Adequate progress in learning to read English (or any alphabetic language) beyond the initial level depends on:
- having a working understanding of how sounds are represented alphabetically;
- sufficient practice in reading to achieve fluency with different kinds of texts;
- sufficient background knowledge and vocabulary to render written texts meaningful and interesting;
- control over procedures for monitoring comprehension and repairing misunderstandings, and;
- continued interest and motivation to read for a variety of purposes.

Reality and Stumbling Blocks

Reading skill is acquired in a relatively predictable way by children who have normal or above average language skills. Experiences in early childhood that foster motivation and provide exposure to literacy are essential.

The opportunity to secure information about the nature of print through opportunities to learn letters and to recognize the internal structure of spoken words, as well as explanations about the contrasting nature of spoken and written language, are key building blocks as well.

Finally, the opportunity to attend schools that provide effective reading instruction and require considerable practice reading are helpful experiences along the way.

Disruption of any of these developments increases the possibility that reading will be delayed or impeded. The association of poor reading outcomes with poverty and minority status is not sufficient, however, to account for all the variability in reading achievement. Other factors—such as factors related to the home environment, the school, the teacher, and the student—all contribute to academic success.

The third obstacle to reading will magnify the first two: the absence or loss of an initial motivation to read or failure to develop a mature appreciation of the rewards of reading.

Conclusion

Reducing the number of children who enter school with inadequate literacy-related knowledge and skill is an important primary step toward preventing reading difficulties.

Children who have difficulty learning to read in the primary grades are those who begin school with less prior knowledge and skill in relevant domains. In particular, general verbal abilities, the ability to attend to the sounds of language as distinct from its meaning, familiarity with the basic purposes and mechanisms of reading, and letter knowledge are important building blocks.

Children from poor neighborhoods, children with limited proficiency in English, children with preschool language impairments, and children whose parents have limited reading skills are particularly at risk. Many Hispanic children mirror that profile.

It is not an optimistic picture. But understanding the many problems involved could be the first step in correcting them.

Dr. Mellander is a professor at George Mason University.
Investing in the Power of Words

Graduates Praise
University of Oregon Writing Program

BY MIA ANDERSON

Never before has the literature of the United States been so culturally diverse: never before have the doors to publication—and to the promotion of ones work—been so open to minority writers. In our multicultural society today, not to read creative works by individuals of all backgrounds is to suffer an erroneous or shallow appreciation of American culture. In colleges and universities all across the country, the traditional literary canon is opening up, slowly, perhaps, but surely.

Ten years ago, two editors of a racially/ethnically diverse literature anthology wrote, “The cultural diversity of the selections is not just a rich literary experience and a way of enriching your reading experience of the great works of the tradition...it is also intended to enrich or to prepare you for the cross-cultural experiences that are inevitable in modern American life.”*

The number of acclaimed creative writers who are Hispanic American is growing dramatically. To name a few is to chance leaving out one who is considered by someone to be “major” or “important,” but certainly among Hispanic American poets can be counted Jimmy Santiago Baca, Judith Ortiz Cofer, Martin Espada, Pat Mora, and Gary Soto (whose New and Selected Poems [Chronicle Books] was nominated in 1995 for both the National Book Award and Los Angeles Times Book Prize).

A listing of just the living significant Hispanic American fiction writers would include Julia Alvarez, Sandra Cisneros, Cristina Gabriél, Oscar Hijuelos, Esmeralda Santiago, Emilio Díaz Valcárcel, and Helena María Viramontes. Assuming a young (or perhaps not so young), aspiring Hispanic American writer has the needed creative imagination to begin with, how does one develop and perfect the skills that make art out of written experiences

*Notice that in almost any military dictatorship, the first ones to be tortured, to be exiled, to have their tongues cut out are the artists, are the poets. Why is that?”
FELECIA CATON GARCÍA
and thoughts and feelings.

At the University of Oregon in Eugene, Garrett Hongo, who is Asian American, has shaped a creative writing program with strengths that have attracted Hispanic students, among many minority students and faculty. According to an April 24 article in The Chronicle of Higher Education, "Mr. Hongo and his colleagues have converted a small, nondescript graduate-level creative writing program into one of the best in the country, and one of the most distinctive." A closer look at this program might help Hispanic would-be writers to think about the next step that they might take in developing their talent, and about the program features to look for when they consider programs to apply for.

The program is small: Hongo accepts only 12 to 14 new students each year—out of an applicant pool, this past year, of 340. The students tend to be "pretty smart," says Hongo, "generally in the top four percent." A writing sample is fully one-third of the application; then there is the personal statement and the academic record, consisting of GPAs and letters of recommendation. "We are looking for people to grow," says Hongo. "We look at talent more than accomplishments. We want searchers." More than half of last year's first- and second-year classes were from minority backgrounds, and this year's incoming class of 12 is one-quarter Hispanic American.

Hongo says that the program is "not overtly, obviously, or rigidly inclusive," and that it is not nationalistic—and that at least one recent alumnus expressed the wish that it were more so. The point is that students are helped first and foremost to develop their writing; if their style and/or their "content" in some way grows out of their race or ethnicity or some other aspect of their makeup, it will be met with both openness and the same rigorous critiquing.

"We recognize that English has become an international language and that its literature is being written by American minorities, Africans, Caribbeans, Hispanics, European refugees, Asians, and Pacific Islanders, as well as by the English and Anglo-Americans," says the program statement. But the goal is to develop poets and fiction writers, not Hispanic poets and fiction writers.

"Some of the most exciting writing in English could be described as postmodern, postcolonial, and, though it may be grounded in geographic and cultural regions, it is nevertheless strenuously global in its perspectives." Thus, about half of the students' course load is in writing workshops: "students need to spend more time at their writing." Another quarter is spent in conference/thesis hours, and the rest of their study is in literary craft seminars, where the focus is on the tools of poets and fiction writers—style, form, and literary tradition.

Among the program graduates is Felecia Caton Garcia, who before graduating won the university's Thesis Prize in the Humanities Division, "a big deal," according to Hongo, in that the competition is among all of the theses of the graduating M.A. students. Seven poems that she wrote while in the program appear in a chapbook (a small book) that she titled Pas Oracle in the Chicano Chapbook Series edited by Gary Soto.

Caton Garcia, whose mother is a "blue-eyed, Midwestern" and father, a "third-generation, Chicano," was part of a diverse group of women poets who put together an audio tape of poetry and song called "Singing the Circle." Produced by Senga Nengudi Fitz, the tape was broadcast a number of times on several public radio stations. Caton Garcia is currently working on a book-length manuscript of her poems and looking into Ph.D. programs in American Studies. A classmate of hers, Daniel Chacon, has won a Chicano Fiction Prize.

One message of the program that Hongo has put together, he says, is that "[we are] not reinforcing the patriarchal canon...." The faculty and the students in the program, he says, are diverse, inclusive lot: "nature lovers [a reference to the great natural beauties of the region, said to contribute to the draw to the University of Oregon], [Chicano and other] nationalists, bi-racial, multiracial, straight, gay, bisexual—you name it." His purpose has been to create a learning space where the diversity works to help students to challenge their own, often rigid, ideas—rigid perhaps because they were developed in isolation—about literature, gender, race/ethnicity, and so on. In a way that will enrich their writing, however they might self-identify and whatever the "content" of their poems and fiction.

One alumna of Hongo's program spoke of her Spanishness as being "buried." Ten years ago, Dawn Dietz Wills added the "Diez," her mother's name ("She's from San Diego—before that, her family was from Cuba and Spain."). To her own but says that she grew up thinking of herself only as White, that she was very aware of her position of privilege in society. But the diversity among faculty and students in the program is important, she says, because "higher education is exactly the place where you should go and find the complicated face of this country. It seems crucial.... yet the general student body is very homogeneous, so it's very difficult for them to have any conception of Other."

An incoming student, Marie Carvalho, whose mother is Anglo, says that she "very much" identifies with her father's side of the family, Hispanic from the Azores and Madeira, and that her closeness to her grandmother has strengthened this identification over the years. "It's led me to explore [in my poetry] family issues, like how our [cross-cultural] family is very different from others in many ways. We're very close, and there's a lot of extended-family support, and there are some religious issues—I want to look at these some more, among other things."

Carvalho says that she chose this program over others for several reasons, but that Garrett Hongo's writing was a big factor: "His writing—especially The River of Heaven, a poetry collection (Knopf 1988) that won the Academy of American Poets' 1987 Lamont Poetry Prize and, in 1989, was nominated for Pulitzer Prize in Poetry—I really
"...if [the students'] style and/or their "content" in some way grows out of their race or ethnicity or some other aspect of their make-up, it will be met with both openness and the same rigorous critiquing."

Garrett Hong, director, M.F.A. program in creative writing, University of Oregon

found inspirational. It's open to ethnic diversity...in the broad sense, and its whole outlook is so open. And I grew up in Hawaii, like he did." Since she's been in the Eugene area, she says, "I have noticed quite a bit of diversity, and I'm more impressed as time goes on." Indeed, program material refers to "Eugene's reputation for social tolerance and support of the arts." Another reason Carvalho chose U. of Oregon: "If you're admitted, you're taken care of financially. You work as a teaching assistant, which isn't the kind of distraction from your writing that a 'job' is."

Alumna Caton Garcia ranks high among the program's strengths the diversity of students and faculty—diversity that is not limited to a variety of racial/ethnic identities. "It's not a smorgasbord of multiculturalism. It's different races, nationalities, sexual orientations, economics, perspectives diversity in every sense of the word...It's great in the same way that you wouldn't want a poetry workshop with only neoformalists or with everyone maintaining a certain aesthetic. The more perspectives, the more points of view there that interplay, the better."

She also found invaluable the opportunity to teach, and credits that experience with helping her land teaching positions in composition and creative writing at University of Colorado-Colorado Springs.

POETRY BY DAWN DIEZ WILLIS

fars flowers nails
by Dawn Diez Willis

Sunday we walked a mountain road toward a secret. Alma. setting the pace, swinging her arms, said: I could bless you with tap water. I'm married to a priest. I said nothing. my dry soul whistling down the dusty road that twisted like an injured spine through sage. Up the snowy hill we reached the Campo de Santos. Its dry earth & deep seeded. Wrought iron gated each grave, plastic flowers propping sun-blasted clay while Alma took pictures. A toy Jesus extended its arms on pitted stone, bit tiny chest hollowed to show he had a heart. jeweled, thorned, garish. But this was not the secret. Further on, among the sun-burnt pine, the little church.
The church you cannot join but must be broken into, its name the color of power or injury: purple. The hilt architecture flaked silver by silver into slit. God's torture shack, I joked (then looked for lightening in the bot yellow sky). Between the boards I searched for blood, for evidence of the barb beating of this place: the Virgin of the mayonnaise jar holding her head in her rinse. I shrine while I spied on the temple of rotting boards; on the images of Christ's sad face, searched the plain altar for flats, cat-o-nine-tails, fat hammers to wedge the stakes between forked wrist bones...

the nail through the palm is a myth; the body's weight would tear the palm clean through. Alma turned where she waited in a tree's narrow shade, & I thought I could see the run of pain, the secular bale of her depression like a static at her edges. How the nurses had tended her grave-hungry heart. she said. How the instruments of psychology jockeyed inside her sin & bones, medications staggering new paths in her brain, & circles of 'talk meant to remake the thread & the broken. Well, she amended, I may not be able to bless you but I can show you how to sin.

I had that skill already & wanted some fearful place of instruments instead. some extremity of beating, my own heart leaning against the hallowed church, sorry for its smallness & the pains that don't fix it. The hospital & the church, Alma knew both. I knew neither & turned to the shabby Monada, wondering if it was true, if we might be murdered for finding it, blasphemers, loose women ruining its sacredness with our soiled, damaged fingers.

That night at the adobe I claimed I didn't understand the desire to die, which is ingratitude in the soul. Alma claimed nothing, bunched her head like the plastic virgin in the jar. I write to Alma jars, flowers, nails. She never answers. The memories of our talks are like prayers for intimacy: splinters side by side on a plank, two beads on a rosary, the nail & the wrist fastened in loneliness.
Springs and at Pikes Peak Community College. And she valued the financial support. "I would do it again," she says. "I applied to four schools, and it was my first choice. It probably saved me about ten years over working alone on my poetry."

Asked about the strengths of the program at U. of Oregon, Dawn Dier Will is ranks as most practically important the "great gift" of funding for all who are admitted—and the attendant opportunity to teach. In the second year of the MFA program, she says, students often teach Composition courses, which "helps us in defining our own aesthetic.

And the "intellectual rigor is there, which can be intimidating at first—I had to play catch-up fast," The MFA exam, the preparation for it, "helps us to define questions of interest and pertinence to our writing." She describes developing a list of works that she then spent eight months reading and thinking about. "It helped me to envision a course of study that could potentially last the rest of my life. It helped me think about who my teachers are [among the writers she studied] and helped my talent grow—without becoming a copy of those teachers."

For Willis, the reading helped her to discover a "dark romanticism" and a "deep strain of pessimism" in her poetry, currents that "felt uncomfortable." The reading—and her work in the program—changed her thinking about a lot of things and "gave [her] the tools" for thinking about her poetry. While some of the authors she read, including Thomas Hardy, Baudelaire, and other more contemporary authors, "seemed dark and even nihilistic," she discovered that her work is "not akin to that." All of this, she says, "really forces us to articulate what it is we're doing."

Willis entered the program with "an unrealistic idea that I'd finish a book." But she did graduate from the program with "tools for my work that I hadn't anticipated getting. My practice [with my writing] was naive. I viewed it in a magic way, as though it was a sacred process that didn't need scrutiny. The program, thankfully, helped me to re-examine that."

Asked if she has any advice for Hispanic would-be writers, she says that it would be "absolutely misleading and false to speak as a Latino mentor, but speaking as a writer, as someone who writes and has taught, I'd say...educate yourself as widely as possible. Think about the idea of parallel canons. Be familiar with what the great writers of your culture are doing and with what they think. But do this without polarizing your thinking: do this while still forging your own identity as a writer. Go where you need to go for specific mentoring or modeling."

Asked the same question, Caton García becomes eloquent, and says that these are the kinds of issues she dealt with while at the U. of Oregon. "Most of all," she says, "continue to write. Everyone should be writing poetry. It's a travesty...a tragedy that so little poetry is being written—or being valued today, especially by marginalized people. Poetry is crucial to our survival as Hispanics. It's crucial to the survival of any culture."

"Keep asking yourself," she continues. "Why is what I want to say in poetry important? Why do I want to express these things? Why do I want people to read them?...Notice that in almost any military dictatorship, the first ones to be tortured, to be exiled, to have their tongues cut out are the artists, are the poets. Why is that? They've created something so beautiful that people pay attention. These days [beautiful writing] has been subsumed by the vast amount of information. Language has become commodified. Some of the power has been lost from words, and to effect change—and there's a lot a change that needs to be made—people have to invest again in the power of words."

"All writing is a political act. There's a lot of power in it. But people don't feel like they own the language anymore. Poetry has never been an art of the elite. Don't let it be put on a pedestal. You can train yourself. It doesn't take money. Know some history. Read as many poets as you can. And just keep writing."

**POETRY BY FELECIA CATON GARCÍA**

_Agua Dulce_

_from Pos Órale!

*by Felecia Caton García*

I hold long conversations with your shadow, we drink tequila and speak of the way you disappeared at dusk. We sit at the scorched bone table on the porch, and pass our hands through the candle flame. In the beginning your shadow would sometimes flicker in his chair. He told me that in those moments he would find himself lying across train tracks, the bright light of the engine bearing down on him. Then nothing. He would return smelling of sea urchins and roasted corn.

The desert stretches around us, a mute, trembling land. The rattlesnakes whisper that I chased you from my door. They wrap themselves around my arms, cackling shivering. I feed them corn. I let them carve constellations into my skin with their sharp tongues.

The scorpions sing when the moon rises new and icy green, la campaña de agua. When I call on them to bring drought to your exile, your shadow genuflects against the wall. He explains that the heat has confused my desire. And it's true. By the time we begin to feel the spin of stars, I repeat. I place grains of sand in my mouth and strip under their blind eyes.

Tonight, rivers flow swollen through the canyon, jungle plants rise out of the blistering sand. I pull down guayabas, papayas, and sweet orange melons. Your shadow does slow, suiting merengues around the edges of the house. We drink to your health. That is how lonely we are, how much we miss you.

Distance Learning Closing In

Inescapable and Fraught with Potential

by Gustavo A. Mellander and Nelly Mellander

Distance learning is very much in vogue. It is a hot topic. Every day brings new variations, new successes. It has such a modern, ’90s sound to it, it is easy to forget that distance learning has been around for a long, long time.

The first formal correspondence course was offered nearly 160 years ago. And television has delivered courses for more than fifty years—nearly from its inception.

Much of the current excitement has been stimulated by advances in computer and telecommunications technology, culminating in the emergence of the World Wide Web. There is reason to be excited.

Anyone who spends any time on the Web can’t help but be taken with the possibilities it opens up for education and learning. For those of us who teach, our personal professional development is inextricably intertwined with the multimedia and communication capabilities of the Web. It is a natural for distance learning.

Distance Education

What is the difference between “distance learning” and “distance education”? Distance learning is often used as a more comprehensive term that includes distance education as well as various forms of self-study at a distance.

What then is “distance education”? The general definition is “any formal instruction in which a majority of the teaching function occurs while educator and learner are at a distance from one another.” In most instances of distance education, there also is some kind of evaluation of a student’s work, such as a final examination, and certification or course credit is awarded upon completion.

Higher Education

Many Americans might not be aware of the extent to which America’s colleges and universities are involved in distance education. The National Center for Educational Statistics (NCES) recently reported the results of a survey taken in 1995 about distance education courses offered by America’s 3,500 colleges and universities.

The survey found that, as of 1995, a third of these institutions offered some kind of distance education course and that another quarter were planning to offer some kind of distance education over the next three years. Public colleges and universities were the most involved in distance education: 62 percent of the four-year public institutions and 58 percent of the two-year institutions offered some form of distance education.

All together, some 25,730 distance education courses were offered in 1994-1995 by higher education institutions in the United States. Of the 14.3 million students in the United States attending higher education institutions in 1994-1995, more than 750,000 of them were formally enrolled in some form of distance education course.

How did the colleges and universities deliver their distance education courses? For 1994-1995, about 5 percent of the colleges and universities reported using two-way video, and another 25 percent reported using one-way video two-way audio. These technologies involve having the students gather at distant sites at a set time and place and allow real-time communication between the instructor and the students.

Effectiveness

How does the effectiveness of distance education compare to the effectiveness of conventional education? Surprisingly to some, very well.
Numerous studies over the years involving correspondence courses, televised courses, and distance education courses in colleges and universities report that students learning at a distance, on the whole, do about as well when tested as do those taking the same, or similar, conventional course.

There are some research studies that dispute this. There also are some studies that report greater success on the part of distance learners. On the whole, the research is favorable to distance education as a viable means of learning.

Interestingly, about a quarter of the colleges and universities that offered distance education courses in 1995 offered degrees that could be earned exclusively through distance education courses. Overall, an estimated 690 degrees were offered through distance education.

Earning a degree completely through distance education is still fairly rare in the United States. In 1995, for instance, only 3,430 students received degrees through distance education. By contrast, the Open University of the United Kingdom, famous for its televised courses, will award its 200,000th bachelor's degree this year: 1998.

Institutions have been surprised to discover that many of their distance-learning students are already on campus. Since so many of our students work and have family obligations, they frequently find it difficult to attend classes on campus at their designated time. Thus they opt to take courses via distance education—even though they live on campus or nearby!

The World Wide Web

As we all know, something very remarkable has happened since 1995—the emergence of the World Wide Web.

"Emergence" is too mild a term: the World Wide Web has exploded upon us! Its implications for education, and distance education in particular, are enormous. Teachers and those who want to be teachers must understand, interact with, and "feel comfortable with" the Web. It will be an important part of all the days of our professional lives.

We live in a world where trillions of bits of knowledge move in nanoseconds across the World Wide Web. Consider, in 1969 there were just four primitive Web sites in this world. By 1990, there were 3,333,000. Today, there are almost 20 million. How many will there be in the year 2000? It's all quite extraordinary.

The World Wide Web exploded upon us just as higher education institutions across the United States became "wired." It is a rare campus today where the students and faculty don't have the capability of accessing a campus network that provides them with e-mail, the Web, and access to the electronic knowledge resources of the institution—and indeed of the world.

Computers and the campus network have become a natural and integral part of college life in campuses across the United States.

An astonishing 60 percent of America's school children now live in homes that have a computer, and a substantial percentage of them have access to the Internet from home. Moreover, these students know how to use a computer. And according to reports, surfing the Web has become an "in thing" among teenagers. Unfortunately, since 35 percent of Hispanics do not have telephones—the delivers path for the Web—they are a group behind the curve.

The "wiring" of America's schools and higher education institutions, the rapidly increasing access to the Web from homes and the large number of computer- and Web-literate students provide a fertile basis for the development of the Web as a major vehicle for distance education.

Languages

An interesting development in distance learning has been language instruction. The various multimedia distance-learning projects developed by the Annenberg/Corporation for Public Broadcast (CPB) Project...
include the multimedia language courses *French in Action* for French and *Destinos* for Spanish.

What is unusual and striking about these French and Spanish courses is the variety of ways that they can be delivered and utilized. Both courses have been successfully broadcast on the Public Broadcast System (PBS) television as telecourses many times. They can both be purchased on videotapes or videodiscs. Accompanying textbooks, workbooks, computer software, and audio-cassettes are also available. In addition to being popular as telecourses, the two courses have been used in college and high school classrooms, often as a supplement to regular language courses.

**Connect with English**

The United States has a large immigrant population. Many have yet to learn English. Some of our larger school districts have students who speak one or more of more than 100 different languages at home. Sophisticated, modern, and flexible modalities are needed to help hundreds of thousands living in the United States learn English.

I am pleased to report that the Annenberg/CPB Project has just released a new companion series to *French in Action* and *Destinos* called *Connect with English*. It is now being broadcast as a telecourse on PBS.

*Connect with English* turns out to be as effective as its companion series, it could have an important impact on English as a Second Language (ESL) teaching and learning in the United States.

**English as a Second Language**

One particularly interesting Web site for English learners and teachers is Dave's ESL Cafe. It is a rich resource that has many different aspects, including a chat room; extensive links to other English-language sites; a book store; a hint-of-the-day section; a quiz center; and a discussion center.

Let us describe briefly two of the site's resources. One is called the ESL Help Center, which is billed as a global communication classroom.

Students from all over the world submit questions that they have about English. They are then answered by English teachers. In a recent nine-day period, the center received and posted more than 300 questions from students around the world. Another noteworthy section is the Idea Page, where ESL/FLI teachers from all around the world post their ideas and suggestions based on their related experiences. Dave's ESL Cafe is truly a fine example of how to make use of the Web to serve the needs of a world-wide virtual community.

Speaking of ESL, we are sure most of you are familiar with TOEFL, the English test given to non-English-speaking students who want to study at American colleges and universities. Recently TOEFL has converted its testing program from paper examinations to a completely computer-administered exam. The new computer exam is already in place in much of the world and will become universal by next year.

I emphasize this because the methodology that TOEFL has adopted offers important possibilities for evaluating students involved in distance education. The TOEFL computer exam uses the answers that students give to questions to determine the level of difficulty of questions it will give them next. The computer keeps track of the student's responses and adjusts the level of questions as the test continues. The computer draws on a large database of questions, but the student will see only a few of them.

The technology being used in the TOEFL exam draws from extensive research work on Artificial Intelligence and Intelligent Tutoring Systems. It might be that the kind of testing represented by the TOEFL methodology will become widely used in distance education. It certainly has possibilities.

**A Final Thought**

All of us have to keep up on changes in distance learning and the ever-growing world of computers. Actually, we will be forced to by our students. They are less frightened, more comfortable with technology than are those of other generations. They enjoy the world of computers. "Surfing" the Web, and confounding us... Each of us must study and grow—just to stay ahead of them.

Gustavo and Veli Mellaender are professors at George Mason University.
McGraw Prize to Maricopa’s de los Santos and Elsner

Outstanding Partnership Cited

Once again an outstanding Hispanic educator has been granted the Harold W. McGraw, Jr. Prize in Education, which includes a Steuben award and a gift of $25,000 for each of four annual honorees.

Last year, Diana Natalicio, president/chancellor of University of Texas at El Paso, was so honored. This year it is Alfredo G. de los Santos, Jr., Vice Chancellor for Student and Educational Development at the Maricopa Community College District. Maricopa’s Chancellor, Paul A. Elsner; Dr. Arthur Greenberg, superintendent of schools in Flushing, New York; and Dr. Elliot W. Eisner, a professor at Stanford University, were the other three to be so honored in 1998.

The prize was established in 1988 to mark the 100th anniversary of the McGraw-Hill Companies and to honor its chairman emeritus for his lifelong commitment to education. Founded in 1888, the McGraw-Hill Companies is a leading information services provider, working nationally and internationally in education, business, finance, the professions, and government. The corporation employs 16,000 people located in more than 400 offices in 60 countries. Sales in 1997 were $3.5 billion.

The prestigious prize, judged by a distinguished panel of educators, annually recognizes outstanding individuals whose accomplishments are making a difference today and whose programs and ideas can serve as models for the education of future generations. "This awards program recognizes those who have made significant contributions to their students, to their communities, to the field of education, and ultimately, to the future of our nation," said Harold W. McGraw, Jr., the man for whom the award is named. "Through their hard work and perseverance, the four individuals we are honoring this year have made tremendous strides either in advancing arts education or increasing the stature of community colleges. They are innovators and leaders, and we are honored to salute them."

Maricopa’s Elsner and de los Santos were honored for the result of their successful partnership, through which Maricopa Community College District has been transformed from five colleges and 36,000 students to ten colleges and 200,000 students, and now ranks among the nation’s leaders in the use of computers and telecommunications.

"By promoting connections between the district’s two-year programs and local four-year institutions, Maricopa has significantly increased the number of students who seek and attain bachelor’s degrees...."
tributing to their reputation as one of the country's most effective community college leadership teams. Faculty members and other colleagues in The Maricopa Community College District, where Dr. de los Santos has served for more than 20 years, say that he leads the way in curricula development, business and workforce development, international education, and teaching of science and math.

His colleagues describe him as a "master mentor," a "one-person leadership development program," "pro-active," "committed," "compassionate and sensitive."

"I am humbled and honored to receive this outstanding award," says de los Santos. "Being recognized alongside Paul Elsner certainly doubles the honor. Ultimately, this award is a tribute to the students, employees, and the supportive community of The Maricopa Community College District. My family and I express our thanks."

Dr. de los Santos, 62, has spent his career in education and is known for setting the pace in development and improvement of curricula for all students.

"Alfredo has the remarkable ability to foresee events and circumstances. He is capable of evaluating situations and anticipating outcomes with a high degree of accuracy, placing this district on the cutting edge in instruction," says Ken Roberts, dean of instruction at South Mountain Community College—one of the 10 Maricopa Community Colleges.

"Alfredo understands that Maricopa is a COMMUNITY college system, which should serve ALL education needs," adds Bonnie Nelson, faculty member and curriculum developer at Glendale Community College. She points to de los Santos' emphasis on general studies classes that easily transfer to universities, to occupational courses and classes for students who need remedial services. Also, the vice chancellor promotes technology in the classroom and online distance education.

"As someone who has represented the district for articulation [transfer of credits to four-year colleges] for a dozen years, I can thank Alfredo for vastly improving the work we do," notes Robert Galloway, president of the District Faculty Association. "Alfredo recognized our strength and potential."

De los Santos has also significantly strengthened the district's ties with the universities, high schools, and the business and industry community through a variety of educational and business partnerships. For starters, de los Santos oversees the district's Office of Business and Workforce Development, which is known for attracting businesses to the county and for developing professional-technical community college programs that turn out students for such enterprises.

In another type of partnership, Dr. de los Santos has "provided undying support and motivation to completely revamp the way students are educated and trained in health care fields," according to Fran Roberts, vice president of the Arizona Hospital and Health Care Association. The district is said to
be leading the nation in updating and streamlining delivery of health care curricula.

The vice chancellor also is noted for his work and relationships with the National Science Foundation. He is principal investigator for the Maricopa Advanced Technology Education Center, housed at Rio Salado College and funded by the NSF.

In fact, de los Santos has been instrumental in implementing NSF initiatives in public elementary and high schools, notes Dr. Jose Leyba, superintendent of the Isaac School District. "Alfredo has been the prime mover in helping school districts to move toward hands-on science and math instruction. He has helped to transform the traditional science and math teacher into a forward-thinking, creative teacher. He is truly innovative, supportive, and knowledgeable."

"Alfredo has maintained a generous and unwavering support for the renewal of math and science teaching and learning, both within Maricopa and the state and the nation. Best of all, he has created an environment in which it is normal to be innovative," according to Alan Jacobs, Scottsdale Community College math faculty member who also directs a team working to reform math education.

Dr. Robert Donofrio, superintendent of the Murphy School District, said of both Dr. de los Santos and Chancellor Paul Elsner: "Their leadership has ensured that students continue their education until they meet their goals. Both leaders maintain a clear presence about the responsibilities toward the many communities served by kindergarten-through-12th grade education and higher education."

Currently de los Santos serves on the board of trustees of the Tomás Rivera Policy Institute, Multicultural Education, Training and Advocacy, Inc.; the Carnegie Foundation for the Advancement of Teaching; and the Council for Higher Education Accreditation.

He is a member of the National Advisory Committee on Institutional Quality and Integrity, the Advisory Committee to the Directorate of Education and Human Resources of the National Science Foundation, the Advisory Board of Open University United States, and the Strategic Planning Committee of the W.K. Kellogg Foundation's initiative with Hispanic-Serving Institutions.

Dr. de los Santos earned an associate in arts degree from Laredo Junior College, Texas, and three degrees from the University of Texas at Austin—the bachelor's degree, a Master of Library Science degree, and a Ph.D.

Awardee Greenberg was cited for successfully sponsoring a system-wide strategy to use the "expressive arts" as a key component in educating his diverse urban school district's 24,000 children and spurring them on to increasing academic achievement and personal development. The testimony to him noted that he has done so in the face of limited budgets by forming partnerships with local organizations to augment arts programs and by working ceaselessly to find funding within the existing budget to place music and arts teachers in each of his district's schools. His belief in educating the "whole child" was said to have helped many students to succeed in school and in the community.

The fourth honoree, Professor Elsner, one of the nation's leading scholars in arts education, has published leading research that identifies the benefits of education in the arts for all children. His work has advanced the understanding of the contribution arts make to the development of the complex forms of thinking that are critical for achieving success. McGraw Jr. noted that his work has helped schools find a place in their mission for the cultivation of the imagination and for the joys of art.

"As public funding for arts in education has been severely reduced over the past twenty years, Elliot Elsner has sought to keep arts education alive, influencing university schools of education, gaining private and foundation funding for arts education initiatives, and contributing important research into the connections between the arts and learning."

HISPANICS AND THE McGRAW PRIZE

1998 Winner Alfredo de los Santos, Vice Chancellor, Maricopa Community College District

1997 Winner Diana Natalicio, Ph.D., President of the University of Texas at El Paso

1997/98 Ramon C. Cortines, member of the Board of Judges that selects the Prize honorees

1994 Winner Patricia Bolaños, principal of the Key Elementary School and Key Renaissance Middle School in Indianapolis, Ind.

1991 Winner Dr. Robert H. McCabe, Miami-Dade Community College, named for work with the Hispanic community
Honor Roll

University of Minnesota
Exciting and Influential

BY ROGER DEITZ

If you have listened to a Garrison Keillor monologue or read one of his humorous books, you might infer that Minnesota is isolated, remote from the cares and concerns of the rest of the world. All those droll stories about frosty winters, of a state inhabited by fiercely independent Scandinavian descendants who gather at covered-dish dinners and after-church socials. Keillor paints a comedic picture, but it would be a mistake to cast the state's venerable public university in that light.

The reality is, the University of Minnesota has a long-established reputation as a leading public research university, a great modern institution setting a standard for public higher education. The facts should convince even the most skeptical out-of-stater. For example, last year marked the 25th anniversary of the establishment of a Chicano Studies Department at the University of Minnesota. When created, it was the first department of its kind to be formed at any college or university in the Midwest. Garrison Keillor, himself an honored alumnus of the U of M, has declared, "The University of Minnesota is one of the glories of the state." Reputation and prestige confirm this assessment, as does the U of M's induction onto the Hispanic Outlook Honor Roll.

Inaugurated as the 14th president of the University of Minnesota in 1997, Mark G. Yudof observed that his university is a unique blend of regional spirit and global outlook. He said, "We must have a vision that is both ecumenical and distinctly Minnesotan, both national and international. neither parochial nor oblivious to the heritage of a great land-grant university. We should aspire to a vision of immersion in all things Minnesotan, because a vision—to be sustainable—must resonate with the deepest impulses of our people."

It's true, the University of Minnesota is a world leader. Nearing its 150th year, it is one of the nation's most comprehensive land-grant institutions with nearly 90,000 students on four campuses.
about 3,500 tenured and tenure-track faculty, 351 buildings, and more than 10,000 graduates a year. The annual budget is more than $1.5 billion a year. U of M also is a diverse environment and a supporter of diversity in the community.

President Yudof terms diversity as "the positive value of bringing people of different genders, races, religions, ethnic backgrounds, geographic areas, economic classes, experiences, and more--to the faculty, staff, and student body."

He observes that at the University of Minnesota, "Diversity not only reflects fairness but also enriches the educational environment. We broaden each individual's learning by providing a rich environment of differing perspectives, cultures, and life histories, along with a curriculum that reflects the multicultural world in which we live." Yudof sings the praises of Latin American poets and artists and the magnificent Givens Collection at the University, housing the great works of African-American writers.

The University of Minnesota was founded as a preparatory school in 1851, seven years before Minnesota became a state. Financial problems at the school forced it to close during the Civil War, but it reopened in 1867. The institution survived in part due to the efforts of a Minneapolis entrepreneur, John Sargent Pillsbury, a university regent, state senator, and governor, now known as the "Father of the University."

Also of help was the Morrill Act, or Land-Grant Act, signed into law by President Lincoln in 1862. The act gave each state a grant of

When William Jans Folwell was inaugurated as the first president of the university on December 22, 1869, there were only nine faculty members and 18 students. Four years later at the commencement, two students received Bachelor of Arts degrees. The first Doctor of Philosophy degree was awarded in 1888. The same year the Department of Agriculture opened on the university farm in St. Paul.

With its four campuses, the University of Minnesota is one of the most comprehensive universities in the country, ranking among the more prestigious in the United States. Many disciplines are consistently placed among the top 20 in the nation, based on such widely respected sources as the National Research Council, U.S. News & World Report, and the Gourman Report. Several U of M programs rank among the top 10 in the nation. These include chemical engineering, geography, psychology, mechanical engineering, economics, forestry, education, applied mathematics, management information systems, part-time MBA, dentistry, pharmacy, public health, and health services administration.

First-class programs require outstanding faculties. Based upon the most recent survey by the National Research Council, the scholarly quality of the University of Minnesota’s faculty ranks among the top ten in the nation. Honors and awards such as McKnight, Fulbright, Danforth, Guggenheim, Pulitzer, Rhodes, MacArthur, and Bush also attest to the quality of U of M scholars.

Perhaps the greatest contribution made by the University of Minnesota is its graduates. The university has about 370,000 living alumni, including five Nobel Prize winners. One study shows university alumni have founded 1,500 technology companies in the state that employ 100,000 Minnesotans—and add $3 billion annually to the state’s economy.

The 2,000-plus green (or snowy white) acres of the U of M Twin Cities is a classic Big Ten campus centrally located in the beautiful, dynamic, and very livable cities of Minneapolis and St. Paul—often cited as model U.S. cities. The Twin Cities campus is the oldest and one of the nation’s largest, with about 37,000 students (24,000 undergraduates) enrolled in day-time school programs. The largest of the four campuses, it is made up of 19 colleges and offers 161 bachelor’s degrees, 218 master’s degrees, 114 doctoral degrees, and five professional degrees.

The Duluth campus joined the university in 1947 and offers 11 bachelor’s degrees in 10 majors. EMD pre-med students can participate in a two-year basic science program leading to an M.D. through the University of Minnesota-Twin Cities Medical School.

Other important parts of the University of Minnesota are the Supercomputer Institute in Minneapolis, Hormel Institute in Austin, Lake Itasca Forestry and Biological Station in Itasca State Park, Cloquet Forestry Center, Cedar Creek Natural History Area, Rosemount Research Center, and the Horticultural Research Center at Excelsior. Through the University of Minnesota Extension Service, the U of M is present in each of Minnesota’s 87 counties.

Students can earn undergraduate and graduate degrees in more than 250 fields of study. Total degrees awarded through June 1997 is 555,882, a number that includes 25,391 Ph.D.s. Degrees awarded in 1996-97 numbered 10,515, including 669 Ph.D.s.

Minority enrollment on all campuses for last fall was 5,832 That included 2,987 Asian or Pacific Islander students, 1,545 African Americans, 804 Hispanics, and 518 American Indians or Alaskaans.

The university’s commitment to a diverse campus community is long standing. In 1989, then president Hasselmo and the Board of Regents set ambitious five-year diversity goals—doubling minority faculty and hires, increasing minority enrollment to 10 percent, and improving the five-year minority graduation rate by 50 percent. By 1994, all those goals had been met or exceeded.

El Puente (The Bridge) is a community service program designed by the University of Minnesota’s Chicano/Latino Learning Resource Center (CLLRC). It was recently chosen by Big Brothers and Sisters of America, a national federation of 501 agencies and programs, as a model for its national outreach mentor program for Hispanic youth.

The El Puente program was initiated by the CLLRC in 1990. Through the program, University of Minnesota students establish relationships with students from St. Paul, Humboldt and Minneapolis Southwest High Schools. Some mentors visit the schools once a week, others contact their mentees outside of school. Jean Stroman, the CLLRC counselor who developed the El Puente model, says, “This program brings together high school and university students to create a new community, which mutually promotes academic competence and enriches their school experience.” Last year there were 21 mentors serving 50 students. Big Brothers and Sisters of America plans to establish the El Puente model at five universities, in cities with high concentrations of Hispanics.
Awakening to the Dream

LA Works and UNM Collaborate to Inspire At-Risk Youth

by Peter Treadway and Traci Smith

"Basically, what we want to do in PREP," says Treadway, "is to plant ideas in the students' minds that will grow into their own dreams for themselves in the future and into the tenacity to make those dreams realities."

LA Works, a career center offering Southern Californian job training and placement services, has operated a college preparation program in collaboration with the University of New Mexico for two consecutive years. The program enables economically disadvantaged and at-risk high school students to experience college life firsthand by sending them on a two-week excursion on the UNM campus. This program was designed to motivate and empower high school students by educating them on the link between education and career success.

The first two years of UNM Summer College PREP have been successful as a start. UNM believes, "We've shown we can conduct a program that engages the participants and raises their sights and positive feelings about themselves and their futures," says Peter Treadway, who "introduced" PREP's concept to the New Mexico Department of Labor in 1997 to get initial funding and directed the 1998 session. "The initial vision and commitment of Vice President Eliseo Torres to make PREP happen, the outstanding leadership of Tim Gutierrez as director the first year, and the wholehearted support and collaboration of many of UNM's units, especially the Recreational Services department through its director Fred Pérez, got PREP off to a terrific start. I tried to continue that momentum in 1998, and I think we succeeded."

How does the program work? Students who meet specific eligibility criteria can apply after they have been recommended by a teacher or administrator and have expressed a strong interest in postsecondary education. Once the students have been selected, they and their parents attend an orientation that provides information pertinent to the families. It is imperative that the parents not only support their child's participation in the program but that they are well informed of the expectation of the students.

Anticipation builds as the students near their two-week trip to UNM. Many of the participants have never traveled away from home, so departure day is full of excitement. Upon arrival at the university, students are given their room assignments, unpack their bags, and head off to orientation. That is just the beginning of their exciting two-week college experience.

The program was designed to combine academic preparation for the SAT [Scholastic Achievement Test] with the appropriate work experience for future employment. Activities are broken up into segments: academics, work experience, college/career workshops, and physical well-being and health enrichment activities. The structured schedules begin each day at 6:30 a.m. and do not end until 10:45 p.m. Even the weeks are full of cultural and recreational activities. "Excited but tired" is a phrase many say when asked about experience.

During the two-week experience, the students become enlightened about the prospect of going on to college, and many are sad to see the weeks come to an end. A graduation ceremony is held at UNM. Parents and families of LA Works students are invited to Irwindale, Calif., facility to commemorate and watch the ceremony via videoconference. Feelings of pride and accomplishment fill the air.

Treadway states that as a program, PREP cannot yet show the results that will prove its impact long term. "There hasn't been enough time yet for students to show that a significantly greater proportion of PREP students will go on to complete high school and then succeed in college. We will keep track of those who aren't along with LA Works, and I'm confident our expectations will be met," he says.

There are, however, short-term results that lead Treadway to optimism. "We know that the 20 students LA Works and PREP in 1997 who were selected for the program were more likely to graduate from high school than those in the group that did not attend. We know that students who return to high school after our program and receive help with applying to college are more likely to apply," Treadway adds.
or '98 have gone on to postsecondary institutions. Ninety percent is a pretty impressive proportion. We will be working with the students long term to assure that the graduation rates are excellent. We are very happy with such preliminary results.

Students' scores on the pre-SAT verbal and math tests showed significant gains from the beginning to the end of both '97 and '98 PREP sessions, despite their short duration. The '98 cohort also was tested on career attitudes and knowledge (competence) and showed gains. These test results are encouraging—maybe even surprisingly, so given that PREP lasts only two weeks—says Treadway.

But what I think is the most compelling evidence that PREP has and will make a difference are the reports from PREP staff about the growth they saw in the kids while they were here, and the students' declared changes in attitude about going to college. Most said it wasn't in their plans when they arrived, but by the end of the program, they virtually unanimously said they would be going to college now that they had this experience.

The future of the PREP program holds great promise and faces challenges. On the promising side, UNM is convinced the program is a worthwhile contribution that it can make to the state of New Mexico and to youth who come from elsewhere. The association that has developed between UNM and IA Work is a wonderful unanticipated outcome of starting PREP, says Treadway, that occurred purely by chance meeting he had with LA Work's CEO Salvador Vásquez, followed by keeping in touch for over a year while UNM sought its seed money from the New Mexico Department of Labor. And if other agencies like the idea, UNM will welcome them too.

On the challenging side, UNM must find ways to increase the number of students from New Mexico who can participate in PREP. The NM Labor department has told UNM that it will not continue to pay for students' room and board or for the "mentoring" of staff members who supervise, coach, and "parent" the students because of the high per-participant cost of PREP. "We know the residential aspect of PREP is crucial in creating its effects," says Treadway. "Having the kids immersed in the university's environment and giving them positive messages 24 hours a day is what makes the impact."

One way or another, UNM says, it will find ways to replace that support through its own funds and soliciting scholarships throughout New Mexico. "It's important," says Treadway, "for PREP to have New Mexico youth in it. First, we are a state university, and it would be a complete disservice on our part to provide this service to solely non-New Mexicans, even though it draws some of them to attend UNM.

Secondly, one of the benefits of PREP with students from a variety of places and backgrounds is the exposure they get to people from other milieu. That is broadening and motivating for every student.

There are several additional activities that UNM would like to put into PREP. Team-building/group problem-solving is one. Many physically oriented games and exercises are fun and a lot of fun. For instance, building a bridge across a set of five posts with only two boards so a team of five or six people can get to the other side requires participants to work together in ways that they probably have never done before. With a leader to call attention not to technical issues in the project but also to how the team can operate collaboratively, young people can learn a lot about group processes and problem-solving. Creating awareness about these kinds of issues is good training for future education and careers.

Another enhancement would be adding an overnight camping trip to PREP. Many young people have never tried it. New Mexico's summer weather in the mountains, just an hour from Albuquerque, is perfect for camping. Hiking and orienting (how to not get lost) activities that are possible on a camping trip would build self-confidence and expand students' imaginations and aspirations.

A third addition that PREP would like to is an "academic sampler." UNM faculty would give short talks and answer questions about their fields three or four times during PREP. The intent would be to introduce the students to some potential career fields they might never have even heard of—such as tourism, geology, or extraterrestrial construction—through motivating talks from experts.

Closely related to the "sampler" idea would be a "career/major fair." This would entail bringing the PREP students into a large room with several UNM departments at tables with information about their subjects and the careers students can pursue through those subjects.

The two themes of all these possible additions to PREP are: (1) to expand the exposure students get from the program to the opportunities available to them if they persist in education, and (2) to expand the repertoire of learning and thinking skills that they develop.

Basically, what we want to do in PREP," says Treadway, "is to plant ideas in the students' minds that will grow into their own dreams for themselves in the future and into the tenacity to make those dreams realities. We can do that best, I think, by giving them broad exposure in fun and interesting ways to a multitude of new concepts and possibilities.

IA Work has already added a component to the PREP idea that UNM would like to have also: the follow-up and continuing involvement of its post-PREP mentoring program. UNM feels that this is a positive concept, and hopes to develop a similar way to keep PREP participants from New Mexico "on track" after the program. Given the dispersion of the New Mexico PREP students, it won't be easy, but UNM is thinking about telephonic follow-up, communications with the students' schools, and inviting them to PREP "reunions" on campus during the school year.

Time and cost are the considerations that will determine if, when, and how UNM might expand PREP in these directions. Finding the dollars to be able to add, for instance, a camping trip to PREP is most likely just a matter of persistence in pursuing funding opportunities. It might be more difficult in the long run to fit many additional activities into PREP simply because its two-week duration doesn't allow time to do all the valuable things that are possible. As PREP acquires more experience, however, ways will be found to get more into the program, which will mean that the students will get more out of it.

The two years PREP has been operating have been very successful as far as the indicators available can demonstrate. The progress for the non-participants is also positive. As former PREP participants go on to college and careers, and as the program evolves so that it produces even more benefits, UNM is hopeful that the PREP idea can contribute widely to the goal of creating expanded opportunities for New Mexicans and America's young people.

This article was prepared by Peter Treadway, University of New Mexico, and by Trace Smith, IA Work, Los Angeles, Calif.
UT Telecampus - The Virtual University

Benefits Across the Board and Border

by Inés Pinto Alicea

Carla Cardoza, a 26-year-old recent college graduate, said she was scared when she first touched the video, audio, and computer equipment at the new $15 million high-tech Undergraduate Learning Center at the University of Texas at El Paso (UTEP).

"It was kind of scary to learn at first," said Cardoza, who mentions the "myth" that Latinos don't want to learn high technology. "We now have the same opportunities as people in other universities. We can prove them wrong."

Ms. Cardoza is just one of the more than 15,000 students at this Hispanic-majority university in this West Texas city getting hands-on experience on $3 million worth of some of the most state-of-the-art video, computer, and audio technology available at a U.S. university. UTEP officials express excitement about reaching Latinos like Cardoza, who have been left behind in the era of the Internet and computers. Studies show that only about 15 percent of Latinos have access to computers compared to 25 percent of the Anglo community.

"Our community doesn't value computers yet," said Henry Ingle, UTEP's associate vice president for technology and distance learning. "I think the issue is not the cost but that computers are not a priority. People will scrump and save if they see value."

There lies the challenge faced by UTEP officials—convincing the Latino community of the value of a computer. The challenge seems daunting, particularly in El Paso, the nation's 17th largest city, where fewer than 20 percent of the residents have college degrees and the need for technology training is so high. El Paso's unemployment rates hover above 11 percent, compared to 4 percent nationwide. El Paso has lost more than 8,000 jobs to Cable—offering television and Internet courses developed at the new technology center. Through this partnership, university students are introduced to the facilities by giving them hands-on experience on all of the equipment. They develop bilingual Web pages for their course offerings; they work with grade-school students and their parents in the region to get them comfortable with computers and the Internet. They also hire university students from all disciplines to assist professors and staff at the technology center in operating the equipment; and they have developed a series of courses on border life that explore the politics, culture, economy, arts, and other issues affecting people living along the U.S.-Mexican border, says Ingle, who was involved in the high-tech center's planning.

"It's not going to happen overnight," said Ingle of warming up the Latino community to high technology. "It will be an evolution."

But the evolution has begun at the center where UTEP professors switch from traditional talk-andchalk lectures to using computer graphics, video clips, and the Internet to make complex subjects both easier to understand and more interesting. Professors stand before electronic podiums that place a variety of digitized resources at their fingertips. With the touch of a button, a professor is able to pro...
ject a large-screen video image of cells splitting, till the auditorium with recordings of memorable speeches by U.S. presidents, or beam in via video international speakers, noted authors, and business leaders.

The largest classroom in the building features individual touchpads at the students' desks. During class, professors can ask multiple-choice questions that the students respond to via the touchpads. That way, a professor can get feedback quickly from students to assure that they are following the lecture or to poll them on different issues.

Michael Kolitsky, associate vice president for instructional technology, describes the facility's largest classroom, which accommodates 50 students, as having a built-in intimacy that allows students to "see the whites of their professors' eyes" because of its arc-shaped construction.

With the visual-oriented technology of the Web, UTEP is able to encourage students and faculty to explore areas they otherwise might not easily study.

The multimedia capabilities in the center allow faculty to clarify complicated concepts by using visual images, which school officials said helps them communicate better with many of the students, who represent a visual generation.

"The technology gives instructors more authority over what they are teaching," said Phillip McCarty, a UTEP graduate who was working as a senior staff associate at the center. "We're not trying to replace the traditional environment, we're trying to extend it."

"The technology gives instructors more authority over what they are teaching," said Phillip McCarty, a UTEP graduate working as a senior staff associate at the center.

"We're not trying to replace the traditional environment; we're trying to extend it."

The facility is in liberal arts, and 25 percent are in the sciences.

"Once the threat is gone," said McCarty, the facility becomes a "user-friendly environment."

The money for the technology center came from a $55 million lawsuit by border universities alleging that for years Texas had discriminated against them and denied them their fair share of state education resources. Some of the money was used to build the 125,000-square-foot Bhutanese-style education center, with 25 auditoriums and classrooms. In the fall semester, 150 sections were taught in the facility up to 2,400 students can be accommodated in the center's classrooms and auditoriums.

The center "will give students career opportunities that they wouldn't have had" and "places a spotlight on this university and the Latino population," said UTEP President Diana Natalicio, adding, "This will inevitably build our image."

"Students have to be accustomed to these technologies when they get out in the working world. This facility gives us a tremendous opportunity to demonstrate the excellence we have here among faculty and students. I'm thrilled that we have it."

Distance Learning

University officials said that they are hopeful that the technology center also will help reverse a disturbing trend: a steady decline in enrollment. In the fall of 1986, 15,593 students attended UTEP, the smallest number since 1988. About 65 percent of the students are Latino. School officials are expanding their distance-learning programs since students aged 30 to 68 are the fastest growing group of students, many of whom are interested in pursuing additional education from the convenience of their homes. Ingle noted that for some students, physically attending the university for classes can be a barrier to higher education.

"We're reaching out into the community so they can learn from home," said Ingle. "The distance learner is not a first-time student. They have already gone to college once, and they are pursuing graduate degrees. They just have other obligations."

By "beaming in" courses from other universities across the nation, distance learning also allows UTEP to offer classes in subject areas not available at the university. In turn, UTEP is able to package its own courses for other institutions. The communications technology center converts UTEP into a virtual university—the UT Telecampus—that uses interactive classrooms to reach high schools throughout El Paso; neighboring higher education institutions such as El Paso Community College, New Mexico State University in Las Cruces and other University of Texas campuses; graduate students at 12 Mexican universities; and military personnel around the world.

To request more information on the new UTEP facility or distance-learning programs offered, you can call (915) 44-8901 or e-mail to <1pd1@utep.edu> or look on the World Wide Web at <www.utep.edu/idl> or <www.mmfic.utep.edu/mmfic>.
The Midwest’s Uncommonly Diverse University

BY
Gayl Johnson and Susan Namest

About the Authors: Susan Namest, Director of University Relations at NEIU since 1994, has been a PR marketing professional for 19 years. A freelance writer for 14 years, she has written about the arts, culture, social service, health care management, and management consulting areas.

Gayl Johnson, departmental aide and honor student, graduates in May with a dual major in Non-Traditional Studies and English Literature, and is already working on a master’s in Special Education.

Chicago has long had a reputation as the transportation hub of the nation, with people from all over the country, from all over the world, arriving daily—some to make their homes here, others to make connections that will take them to other destinations.

Northeastern Illinois University (NEIU) is just such a hub—for students from the metropolitan area of Chicago and from countries around the world, a place where education is achieved in a real-world, multicultural environment.

Midwest’s Most Ethnically Diverse University

For the second year in a row, U.S. News & World Report named Northeastern Illinois University the most ethnically diverse university in the Midwest. NEIU is a state-supported commuter university with an enrollment of more than 20,000 students. Hispanics make up the largest minority group on campus, 25 percent of undergraduates. Significant numbers of African Americans and Asian Americans also are at NEIU, whose students come from the U.S. and from 40 separate nations around the globe. Hispanic, African American, and Asian American students make up about half the undergraduate population.

Founded as a teachers college in 1897, Northeastern Illinois is a leader in the professional development of teachers, school principals, and high-level administrators in the field of education. It is known, too, for the high quality of its professors and the attention that they give to students.

At NEIU, students earn bachelor’s or master’s degrees in a variety of disciplines through its Colleges of Education, Arts and Sciences, and Business and Management.

According to the April 24th issue of The Hispanic Outlook in Higher Education, NEIU ranks in the top 25 for bachelor’s degrees conferred on Hispanics in Education, in the top 50 for Liberal Arts; and in the top 100 for Business and Management.

Outreach to Hispanic Students

Hispanics are an important focus of the university’s efforts to serve all its students. Mentorship programs, bilingual and multicultural curricula, cultural education and preservation, and academic support services are some of the ways that NEIU helps Hispanic students to achieve their goals.

Provost Estela López believes that Hispanics are drawn to the university in part because of that strong emphasis on service. “Northeastern Illinois University

Hispanics make up the largest minority group on campus. 25 percent of undergraduates.
has a long history of service to Hispanic students and their communities. We recognize the complex needs of this group. Many have jobs, some are raising families, some are first-generation college students.

"We work hard to assist our students in every way possible. To do anything less would be to fail them and to fail our mission to provide students with a quality education," says López.

In October 1975, El Centro de Recursos Educativos, an NEIU satellite campus, opened its doors in a neighborhood with a growing Hispanic population. El Centro’s courses are scheduled during evening and weekend hours to make them accessible to working adults. Some courses are taught bilingually. In the greatly expanded and state-of-the-art facilities at El Centro today, students can complete the university’s General Education requirement or take courses toward a graduate degree in Educational Leadership and School Principal certification.

Proyecto PaLante, Plus
Some applicants to NEIU demonstrate tremendous potential but have test scores below those traditionally accepted. The university recognizes that low test scores and academic success do not have to be mutually exclusive. A Hispanic student in this situation can be admitted through a program called Proyecto PaLante. He or she will receive tutoring in the Learning Center, math and writing development from the English Language Program, and academic advising and career development counseling, as well as cultural reinforcement. This enormously successful program has seen many participants graduate with honors.

The Northeastern Illinois faculty understands the challenges and frustrations faced by many students. Many make an additional commitment to students through Partners for Success. This program is designed to meet minority students’ needs for support and encouragement by teaming them with faculty volunteers in a mentoring program.

Fellowship is a very important part of the college experience. NEIU has more than thirty campus organizations, including groups targeting Hispanic students. Among these are the Union for Puerto Rican Students, Chimevla (a student union representing many Hispanic countries and cultures), and the Spanish Club.

Cultural Identity
More than twenty years ago, Dame Libis Kornicka, professor of music and dance, founded Ensemble Español Spanish Dance Theater. The dance company, in residence at NEIU, has received critical acclaim both nationally and internationally. It is committed to the preservation of classic, ethnic, folkloric, and contemporary Spanish dance as well as to pride and education in the culture and heritage of the people of Spain and Latin America.

Que Ondee Sola is a group that publishes a literary journal of the same name. According to the group’s charter, its express concern is an emphasis on political issues that affect Hispanic students and Puerto Rican students in particular. The journal, which is managed by students, publishes stories and poetry written in English and in Spanish.

During the year, the university sponsors Heritage Weeks for different ethnic groups. At that time, people of one ethnicity share the art, music, cuisine, and other aspects of their culture with the university’s community. One such celebration is Hispanic Heritage Week, when the university is alive with Hispanic music—sometimes traditional, sometimes modern—and the sweet scent of ethnic cooking. Inspirational speakers educate their audiences about Latino cul-
ture and history and about the importance of achieving their highest potential.

Technological Advances

The university’s academic and support programs are designed to simultaneously strengthen skills and teach new ones. They encourage students to achieve academic success and gain self-confidence.

Technology plays a vital role in this formula. Most of the degree programs require students to have a rudimentary knowledge of computers, and in order to graduate, students must be able to research on the Internet and use e-mail and word processing programs. The university, which emphasizes use of the latest technology in instruction, has seven state-of-the-art computer labs available to its students.

One such lab, the Information Commons, gives students access to dozens of computers and includes special equipment that allows visually impaired or wheelchair-bound students to use the computers effectively.

NEIU also has installed a number of Smart Classrooms. In a Smart Classroom, each desk has a computer with standard software programs as well as access to the Internet. A large screen in the front of the room displays whatever the professor inputs. In addition, the professor’s handwritten notes written on special boards appear as text on each student’s monitor.

Distance Learning at NEIU

NEIU is one of the institutions that helped establish Illinois Distance Learning program. Classes in a variety of disciplines are presented live via interactive television and broadcast to several locations throughout Chicago and its suburban communities. For many in the Latino community, Distance Learning makes higher education accessible to students who might not be able to commute to the NEIU campus from their homes or jobs.

Study Abroad

Salme H. Steinberg, Ph.D., NEIU president, recognizes the truth in the adage, “travel broadens the mind.” NEIU’s initiative to internationalize the curriculum, allowing students—including those in low-income brackets—the opportunity to study in other countries, is unique among public universities.

Where better to study the emerging market of a foreign nation, for example, than in that very country? In March 1998, a marketing class in the College of Business and Management traveled to India to observe the expansion of business and marketing as a third-world country goes global. The classrooms were the cities of New Delhi, Bombay, Bangalore, and Poona.

“Students learn a great deal more in these programs than they anticipate,” says President Steinberg. “They come to see their place in the world as more than part of an ethnic group neighborhood, or student body. They recognize that they are an integral part of an international community, that their culture is but one part of a greater whole.”

As part of NEIU’s progress toward a more global curriculum, it is a participating member of the Illinois Consortium of International Education. In the early ’90s, NEIU entered into a collaborative relationship with the Russian Ministry of Education in Moscow and the Utah State Pedagogical University in Ekaterinburg, Russia. As a result, there have been exchange programs for faculty in Business & Management, Curriculum Design, Special Education, Economics, and Leadership Education. Recently, two delegations from China and one from England came to NEIU to discuss such things as collaboration on school reform and an internship program in teaching. Discussions are under way regarding the transition of two-year college students from England to Northeastern Illinois.

Hispanic Alumni of Note

Some very fine minds have emerged from the halls of Northeastern Illinois University. Luis V. Gutierrez, the first Illinois Hispanic elected to the United States House of Representatives, earned his bachelor’s degree in English at NEIU. Miguel del Valle, Illinois State Senator for the 5th District, earned his bachelor’s degree in Spanish and his masters in Counselor Education here.

Attorney Juan Mendez, owner of the two McDonald’s at O’Hare, the world’s busiest airline hub, earned his bachelor’s degree in political science at NEIU. Many other NEIU Hispanic alumni are also owners, presidents, vice presidents, and CEOs of successful businesses.

“We are proud of our record of service to the Hispanic community,” says Steinberg. “The high number of degrees we confer on Hispanic students is but one demonstration that our program is working. But we do not rest on our laurels.” The university continues he says, to develop stronger and more innovative programs.

Northwestern University— an exciting community of learners representing many different ethnic, economic, gender, and age groups but sharing the common goal of education for the present and the future.
Talented Latina Thriving in Multimedia Blends Old and New Arts at Orange Coast College

BY VICKI ZIMMERMAN

Thanks to a unique certificate program at Orange Coast College, student Aura Lozoya is combining her love for storytelling with her artistic talents and computer savvy.

Carrying a 3.5 grade-point average, the 30-year-old mother of three boys is the first to receive a multimedia certificate of achievement from the college’s Digital Media Arts Program.

In a society where technology is changing the face of art and the industries supporting it, Diaz was quick to grasp the importance of integrating computers and art.

The multimedia certificate exposes students to a broad range of media—photography, animation, music, and text—including a course on the growing multimedia industry, which includes work in entertainment and the gaming industry, and on the World Wide Web and Internet.

OCC’s Digital Media Arts program was the perfect vehicle for Diaz to pursue her interest.

As a storyteller, Diaz loves bringing her vivid characters to life through a cultural perspective that honors her native Mexico. She had already written three children’s books when she was asked to illustrate one because an illustrator couldn’t be found to help her complete her projects.

Her husband suggested she take an OCC drawing class so she could complete the books by herself. The Huntington Beach resident grew by leaps and bounds as she moved from life drawing classes to computer illustration.

This fall she received a certificate of achievement just as she was putting the finishing touches on an imaginative counting book she’s written and designed for preschoolers.

I love the idea of combining humanity with technology,” says Diaz, who hopes to pursue a bachelor’s degree in archaeology. “I like communicating with different art forms, and OCC’s multimedia program allowed me to do that.”

Rolling in a wide range of art classes, Diaz soon began to appreciate the varying nature of each medium.

Printmaking is a fine art, and the process can be really slow,” says Diaz. “With the computer, you can click three images and create something. In printmaking, there’s a process of making prints and cleaning the plates. Yet I like both processes—the slow and the fast!”

“OCC was one of the first in the region to have a viable digital media arts program using an interdisciplinary approach within its curriculum,” says Sylvia Impert, chair of the college’s Digital Media Arts department. “Multimedia is the big trend, and everyone is excited over the effects created by it in movies and television commercials.”

OCC instructors point out that in order to do original work, before beginning to manipulate and transform elements into something else, a student must learn the basics. A pencil, a paintbrush, or a computer are tools that have the capacity to go from simple to sophisticated.

“We still teach basic traditional skills, knowing that artistic talent, to some extent, is honed through training,” says Christine Taylor, Diaz’s computer graphics instructor. “Understanding conceptualization and composition—that doesn’t change—but some people lose sight of that, and I’m trying to instill that back into my classroom and make it interesting to them.”

According to Taylor, the seductive nature of computers can be exciting to budding art students who have a taste for all the complexities of new software programs.

Yet the study must be grounded in fundamentals and in the knowledge that art is part of a large business community.

“It’s not all fun and pretty pictures,” says Taylor. “It’s a business—a very lucrative one—and students must prepare themselves to be ready and able to constantly change.”

Within this context of constant change, OCC art program faculty make a concerted effort to provide the knowledge and the information that enable Diaz and other students to learn through hands-on practice.

“One of the things I really judge my students on is their creative solutions to the assignments,” says Steve Cox, who teaches Adobe Illustrator in Diaz’s Digital Media Arts 190 class.

“Aura is drawn to Latin American influences and uses them in her solutions to the assignment. It’s very pleasing to see her work because Aura has a good, strong style.”

Cox was gratified to see Diaz’s creativity blossom in the program
in many ways.

"Aura developed an interesting hybrid with her printmaking and computer classes," says Cox.

Diaz would go back and forth between her printmaking class and her computer lab using art software.

"Aura would work on a print in her printmaking class and then bring it over to the computer lab and work on it in a software program to take it a little further.

"Typically, the print was a final piece, and she went beyond that. What I look for in class is original work done in an original way to make the art their own, and she did that.

Diaz thrives in this artistic world of colorful technology, where she creates quickly on a computer that still challenges her with colors that can’t always be mixed easily.

Around every corner in her traditional art classes—which have included watercolor, cartooning, and printmaking on a linoleum block—Diaz entered a world of new discoveries.

This adventurous spirit is heralded by her OCC instructors. Diaz loves to take risks and experiment with what’s before her. Whether she’s using new computer software or old-fashioned textured paper, she’s willing to venture into the unknown.

"She’s ahead of the game," says Donna Westerman, OCC professor of art and Diaz’s printmaking instructor. "She has a wonderful sense of design and texture; it’s very jangly and mysterious and filled with images from the Aztec and Mayan civilizations.

Diaz, who loves weaving her Mexican culture into her stories, completed her children’s counting book in Westerman’s story illustration class.

"Because she has a nice balance of the scientific and the artistic, I have encouraged Aura to experiment with her printmaking and computer images by scanning them and taking them in another direction," says Westerman.

"She has done that. Going back and forth and experimenting with 3-D pop-up prints, which involves doing some mathematical calculations in an organized and clear way.

"Her desire to combine elements from her many different classes and the initiative she’s showing reflect Aura’s enormous enthusiasm for her art," adds Westerman.

In fact, Diaz is a student aide in the computer labs at OCC. She helps other students in Photoshop, Premiere, After Effects—a program she learned on her own to help others, Director, an interactive program, and Flash, an animation program.

Diaz is also high on Taylor, an adjunct instructor in Digital Media Arts. Christine is an amazing role model with three degrees, and I have so much respect for her," says Diaz. "She has done it all herself.

Taylor not only set an example for her students, but she encouraged and motivated each of her students in their class work. She doesn’t give up on her students, and Diaz learned to persevere as well.

She’s the type of person who will answer your questions, and she will stay with you until you get it," beams Diaz. "She won’t let you go, and you have to be prepared to stay there and get it. But I liked that. If you asked her a question, Christine made sure that you felt comfortable with yourself and knew the answer.

 Aura also gives what she has learned to others.

"As a lab assistant, Aura is excellent," says Cox. "She has both the technical competence to assist students and a willingness to want to help them.

Proud of her Mexican-born family and heritage, Diaz is passionate about expressing her admiration for her cultural roots by using these themes as subjects in her paintings: "I love my culture," says Diaz. "I’m still amazed at all the things we have in Mexico. Every part of each state is different—the food, traditions, costumes, and I never stop learning about everything in Mexico.

Westerman encourages Diaz to tell all her stories and offers guidance to promote Diaz in her artistic pursuits.

"She has a tendency to go toward archaeological images, and it’s fascinating to listen to her," adds Westerman.

As a young girl, she grew up on the periphery of a circus, and could listen to lions roar. Diaz developed a colorful imagination from these childhood experiences. Her early visions of animals and sunlight are among those she uses in her art work and in her stories.

"Aura recalls an image of herself lying in the sun listening to the roar of a lion, and she will transform that memory into remarkable images that draw on her memory of the golden light and the lion amid jungle rungs.

Diaz is the first to pay tribute to her introductory classes at Coast because they set a solid foundation for her artistic aspirations.

"I never knew I could draw, and I will never forget the words of my first instructor, David Johns, when he said, ‘Drawing is just sitting and doing it.’ said Diaz. "These words stuck in my head and have been an inspiration to me ever since." She also enrolled in a cartooning class that helped Diaz develop the expressions and gestures of her characters.

"He was so good at encouraging us," said Diaz of cartooning instructor Mike Beanan. "He really helped me to clean up my drawings and my characters."

Back at home, Diaz is mother to three boys, ages 15, 11, and 4. All three love to hear their mother’s bedtime stories. Her 7-year-old once was so enthralled with a story Diaz was spinning out of her head that he asked, "Mommy, let me see the book—I want to see the pictures"

Diaz is inspired by images from the Aztec culture and by objects from nature.

"I love exploring the forms from the Aztecs, which include flowers, owls, and warrior-like figures," says Diaz. "I have always been fascinated with using that style from hundreds of years ago, while putting it in context with modern times."

"She wants to be an archaeologist, and there’s no reason she can’t combine both of them and do the drawings on these expeditions and combine these degrees," says Westerman. "There’s no reason she couldn’t do this.

"I subscribe to the magazine Scientific American, and when I see those beautiful images, I realize I can do so many things with my education in the future," adds Diaz.

Aura Diaz is a modern warrior. She is not afraid to cross into the complex terrain of a new computer program or to throw intricate, time-tested, and painstaking procedures crafting her work by hand.

She’s discovered an artistic voice that draws upon her memories of Mexico, her fascination with nature, and her love of archaeology. Opportunities abound, and Orange Coast College is helping Aura Diaz untangle what is unique within her.
García-Bowen New Director at CCSU

Virna E. García-Bowen has been appointed Director of Recruitment and Admissions at Central Connecticut State University (CCSU). In announcing her appointment, CCSU President Richard L. Judd said: "Ms. García-Bowen has impressive experience and a record of success in attracting good, well-motivated students who represent the diversity of modern society. Her range of talents blends well with the growth and aspirations of this university."

García-Bowen is responsible for leading CCSU's efforts in recruiting new students and overseeing the admissions process.

Previously, she was director of admissions at Gateway Community Technical College (Conn.). She also served in student services and administrative posts at the University of Connecticut and at Eastern Connecticut State University.

She hold a bachelor's degree from Southern Connecticut State University and a master's from Eastern Connecticut State University. She is a member of the Connecticut Association of Latin Americans in Higher Education.

Rojas, Medina, and Hudson Contribute to Spanish Literature

In Florida, three Miami-Dade Community College (M-DCC) faculty members were presented with awards from the Crítica Dominicana Literaria sobre Escritoras Hispanoamericanas, a Dominican association that recognizes Latin American women for their contributions to Spanish literature. The president of Crítica Dominicana, Yolanka Nacidi, was in Miami to present M-DCC professors Dr. Ofelia Hudson, Teresa Maria Rojas, and Myra M. Medina with the awards.

Hudson, who was previously honored for excellence in teaching with M-DCC's Endowed Teaching Chair, received an award for her collection of short stories entitled, Cantar Utias Hezañias. Rojas, chairperson of Prometeo, a Hispanic theater group, was honored for her work as an actress and theater director. Medina, associate professor at the North Campus Department of International Studies and an avid promoter of Spanish literature, was recognized for academic excellence.

The three M-DCC professors now want to honor the work of other Latin American women by creating the Crítica Floridiana sobre Escritoras Hispanoamericanas, a chapter of the Crítica Dominicana in Florida.

Castillo Promoted in HCC System

Diana González Castillo has been promoted to a dean-level position within the Houston Community College System (Texas).

Castillo will serve as the first Hispanic female college operations officer at Southeast College. Her responsibilities will include the management of a $16.5 million budget, organizing the infrastructure of the college's human resources, safety and loss control, and the management of five major facilities.

She has served Central College of the Houston Community College System as assistant dean of students for the past six years, where she successfully managed enrollment services for over 15,000 students.

Torres Participating in Leaders Program

Helen Torres, Director of Distance Education at San Antonio College (Texas), has been selected to participate in the Leaders Program, a national leadership training program for administrators and faculty in higher education.

The year-long program is designed to enhance participants' skills required for major decision-making roles in their institutions. Subjects covered include: supervisory and human relations, planning and budgeting, organizational transformation, and higher education issues of the coming decade.

Torres has a bachelor's degree from the University of Pennsylvania and a master's from Trinity University. She also attended the Institute for Management of Lifelong Education at the Harvard Graduate School of Education and participated in the San Antonio Greater Chamber's Leadership Program.

Contreras Earns "All American" Honors

El Paso, Texas, native Bonnie Contreras, an outfielder for the El Paso Community College Tejanas Women's Softball team for two years, has been named to the 1998 Louisville Slugger All-American team. She is one of only 15 junior college softball players in the U.S. and one of two in Texas, to be named to the team.

"Bonnie is the type of player that awes people in the stands," said Kathy Rudolph, coach of the Tejanas. "What truly sets an ath-
lese and an All-American apart is heart, and the willingness to do what others find too difficult."

Having played since she was five years old, and after graduating from high school with All-District and All-City honors as one of the best players not a single college called to offer Contreras a scholarship.

She then tried out for the Tejanas, who were in their first season, and made the team.

After two great seasons with them, her talent was not overlooked. She has been offered a scholarship to play Division II Softball at Incarnate Word College of San Antonio. I want to study sports medicine, and this scholarship offers me an excellent opportunity to do so," stated Contreras. "I know I will be a good student, because if I'm not, I won't be able to play ball."

Huerta Named Distinguished Javelina Alumnus

Texas attorney Albert Huerta has been named the 1998 Distinguished Alumnus by the Javelina Alumni Association at Texas A&M University-Kingsville.

Huerta is president and board chairman of Huerta Entertainment L.P., which owns and operates Texas Ski, a 100-acre festival park.

In recent years, he was involved in a class action lawsuit against a chemical plant that resulted in a $60 million settlement. The case involved approximately 8,000 Hispanics in Robstown, Texas, who said they suffered various ill effects from a release of butadiene from the plant.

A $1 million trust fund was put in place to provide scholarships to Robstown students. In the first year, Trial Lawyers Foundation for Youth Education gave five scholarships totaling $20,000. Huerta is chairman of the organization.

In a 1989 Forbes 500 survey of the top 50 successful lawyers in the United States, he was the only Hispanic named.

He has an associate from Laredo Junior College and bachelors and masters degrees from Texas A&M University.

Scholar Gómez-Lara at Seattle University

Seattle University (Wash.), aiming to infuse cross-cultural perspectives into its curriculum, has been hosting Manuel Gómez-Lara, an associate professor of English literature from Seville University (Spain), this semester.

Gómez-Lara travels to experience the different ways cities express their identities. He came to Seattle to see how it creates its own identity. "Cities are the living mirrors to our community. Cities reflect the identity of the people," said Gómez-Lara.

At Seattle University, Gómez-Lara has been teaching students his philosophy of city images in a course "City as Text-City as Media."

The course focuses on cultural and social practices that underlie modern cities. The cultural images of cities is the major theme. The course examines the rhetoric of place as a territorial, social, and cultural construction.

In addition to his course, Gómez-Lara gave public lectures this fall including "Ruralizing Community: Merging Religious and Civic Participation in Seville's Bob Week Festivals" and "Spanish Musical Movies: Framing Contemporary Spanish Popular Culture."

He is the co-author of the EXPO 92 Guide. He is also a regular contributor to newspapers on Spanish cultural events.

Ross Provides Future Glimpse of Mexico

John Ross, a freelance journalist who has spent the last 20 years reporting on Mexican politics, gave a glimpse of that country's tumultuous future in a lecture at Trinity University (Texas) titled "Mexican Politics and Society in the New Millennium."

Ross' insights into the struggles facing Mexico come from his years as a reporter writing for several American newspapers and magazines. He has penned two non-fiction books about Mexico, "Rebellion from the Roots: Indian Uprising in Chiapas" and "Annexation of Mexico." Ross has recently written his first novel, "Ionattah's People," which is based on his experiences with presidential candidate Cauhhtemoc Cárdenas and his unsuccessful run for office.

Dr. Eduardo Stein Speaks at UT Austin

Dr. Eduardo Stein, discussed "Guatemala Since the Peace Treaty: Transforming a Nation" during a speech at the University of Texas-Austin.

Stein has served as Guatemala's highest-ranking foreign affairs official since January 1998. Since that time, he has participated in the peace accords that reunited the nation after a protracted civil war. Through his role as foreign relations minister, Stein acts as Guatemala's representative in international conferences and promotes international cooperation between Latin America and the rest of the world.

Before his appointment, Stein was executive secretary of the Action Committee of Support to the Social and Economic Development of Central America. In that role, he implemented development projects in the areas of nutrition, small enterprise, agro-industry, energy, and the environment. He also has been involved in regional development efforts promoted by the Latin America Economic System, served as international affairs advisor to Panamanian President Rito and taught in universities in Central America and the United States.

Jerry González and the Fort Apache Band at MCC

The nationally recognized Latin jazz group Jerry González and the Fort Apache Band performed at Monroe Community College (NY) in October.

Considered one of the best Latin jazz groups working today, the New York-based band has three Grammy nominations to its
credit, González doubles on trumpet and flugelhorn and also plays congas. He is joined by brother and bassist Andy González, John Stubblefield, tenor saxophone; Joe Ford, alto and tenor saxophone; jazz drummer Steve Berrios; and pianist Larry Willis.

On the afternoon of the performance, a free 2 p.m. workshop with Jerry González was held. All musicans, students of life, and music enthusiasts were welcome to attend.

Dr. Luis Fraga Speaks at Texas A&M University-Corpus Christi

During Hispanic Heritage Month, Dr. Luis Fraga, an associate professor in the Department of Political Science at Stanford University, led a discussion, "Consensus Building in a Multicultural State," at Texas A&M University-Corpus Christi.

Fraga has published widely in scholarly journals. His areas of research include American urban politics, educational policy, politics of race and ethnicity, and voting rights.

He is completing two book manuscripts, The Changing Urban Regime: Toward an Informed Public Interest and The Politics of Schools in San Francisco. In addition, he is co-editor of a volume entitled Ethnic and Racial Minorities in Advanced Industrial Democracies.

He received his A.B. degree cum laude from Harvard University and his doctorate from Rice University. He has taught at the University of Oklahoma and the University of Notre Dame. He has received Stanford University Faculty Awards in recognition of distinguished service to the Chicano/Latino graduate classes of 1993, 1996, and 1997.

Camacho-Gingerich on "50 Outstanding Latinas of 1998" List

Dr. Alma Camacho-Gingerich, professor of modern foreign languages and chair of the Committee on Latin American and Caribbean Studies at St. Johns University (N.Y.), has been named one of the "50 Outstanding Latinas of 1998" by El Diario-La Prensa. M&T, El Banco Popular, and Goya Foods.

Camacho-Gingerich and other selected Latinas from the Tri-State area were recognized at the Harvard Club in Manhattan last March for their outstanding contributions to the community and the nation in their various disciplines and for being role models for all women.

Earlier this year, Camacho-Gingerich was honored by the Puerto Rican Federal Affairs Administration and Mujer Latina/Tu Revista as one of the “Women of the New Millennium.” In addition, she delivered an address at an event in honor of Women’s History Month that was organized by the Office of New York State Assemblyman Adriano Espaillat honoring Women Pioneers of the Dominican Community. She was joined by Dr. Cristina Aquiar, Dominican Ambassador to the United Nations.

Also at St. Johns, an art exhibit focusing on “Latin American Art in the 90s” recently completed its run. The exhibit consisted of twodimensional works spanning a wide range of media and issues created by contemporary artists from Cuba, Bolivia, Mexico, Venezuela, the Dominican Republic, Trinidad, Puerto Rico, Colombia, Brazil, and Argentina.

Maduro Speaks on 21st-Century Challenges to Catholic Higher Education

Noted theologian, author, and social commentator Otto Maduro spoke at the University of San Francisco recently.

Maduro’s lecture, titled “Ethics, Epistemology, and Economics: Perspectives from the Underclass,” was intended to enhance the University’s understanding of the challenges facing Catholic higher education as the 21st Century approaches.

Maduro is director of the Hispanic Institute of Theology at the Theological School at Drew University in New Jersey. He is the author of seven books published in five languages and more than 400 articles on liberation theology. He is currently on the editorial board of the Journal of the American Academy of Religion, Social Compass and Cristianismo y Socialidad.

Garcia Lectures on Spanish American War

Fleet Bank and St. Francis College (N.Y.) were the promoters of a recent lecture at St. Francis College. The lecture was given by Dr. Emilio García as part of the “Nueva York Hispanico: A New Day” celebration. The topic of the lecture was “History and Culture in the Spanish American War: The United States, Spain, Cuba, and Puerto Rico.”

Garcia is a professor of Spanish, Foreign Languages, Fine Arts, and International Cultural Studies at St. Francis College.

Cisneros President of Texas A&M-Kingsville

Retired Army Lieutenant General Marc Cisneros of San Antonio, Texas, was unanimously selected this summer as the Texas A&M University-Kingsville’s new president. Cisneros replaces outgoing president Dr. Manuel L. Ibarra, who in January announced his plans to resign from the presidency and return to a full-time faculty position.

Cisneros’ 35-year military career began as a ROTC Distinguished Military Graduate commissioned in the Army field artillery in 1961. He served two combat tours in Vietnam and one in Panama, where he was recognized for limiting battle damage and casualties and for helping to capture General Manuel Noriega. His military service primarily involved combat arms operational and command positions, and he was part of the leadership team who transformed the Army into its modern state in terms of advanced technology.

He was twice awarded the Distinguished Service Medal—the Army’s highest achievement award during peacetime.

In 1997, Cisneros was named one of the “100 Most Influential Hispanics” by Hispanic Business magazine.

He has a bachelor’s degree from St. Mary’s University in San Antonio, a master’s from Shippensburg State College, and a post-master’s from the United States Army War College.
Arias Sánchez Awarded Honorary Degree

Oscar Arias Sánchez, Nobel laureate received an honorary degree in humane letters at the University of South Florida this past spring. Arias Sánchez, former president of Costa Rica and 1987 Nobel Peace Prize winner for his successful efforts to bring peace to Central America, advised the graduating class to use their education to work toward achieving world peace. He warned that despite the ending of the cold war, staggering levels of poverty and hunger persist. A strong advocate for the reduction of arms sales, he noted that U.S. arms sales to the developing world are counterproductive to the mission of peace in those developing nations.

![Arias Sánchez](image1)

Arias Sánchez is pictured here with (to his left) Mike Conniff, Director of Latin American and Caribbean Studies, and Betty Castor, president of USF.

Spanish Painters Exhibition at QCC

The work of 10 critically acclaimed Spanish painters was on display at the Queensborough Community College (N.Y.) Art Gallery in October and November to celebrate Hispanic Heritage Month and the 25th anniversary of Noticias de Arte (one of New York's earliest Hispanic art journals).

Titled “Punto Emergente: Artistas Gallegos Contemporáneos,” the exhibit featured the critically acclaimed work of Pura Ameijeida Montenegro, Alejandro Carro, Anne Havaert, Maruja Mallo, Ana María de Maños, Ana Mazoz, Antonio Murado, Carlos Pardo Temeiro, Manuel Quintana Martelo (both artists are natives of Galicia, Spain).

The paintings in the collection reflected the diverse spirit of the region, ranging from the textured paintings of Murado to the realism of Martelo. The exhibit also doubled as a primer on 20th-Century art trends, with Mallo (a student of Salvador Dalí) representing the school of surrealism, and de Maños embodying the post-modern to serve as both artist and critic.

Faustino Quintana, director of the gallery, said, “Many of these artists are internationally known, and their work represents a little bit of everything. Yet... this is the first time their work has been put together in one exhibit.”

“Ex-Voto Evolution” at SVA

The School of Visual Arts (N.Y.) recently held an exhibition of works, “Ex-Voto Evolution,” by James Spica.

Ex-Voto paintings originated in the Catholic church of Spain. These small paintings depict someone close to the artist, usually a family member, who has died and gone to heaven. Spain’s colonization of the Americas brought the ex-voto tradition to Mexico, where it evolved into a devotional art form that depicts events in which the layperson artist is miraculously spared from death. The paintings are close to the altar of the church to serve as a reminder to the faithful of the event and an offering of gratitude to God.

“Ex-Voto Evolution” is a collection of drawings in pencil and iris giclee prints based on the ex-voto paintings and altarpieces of the Mexican Catholic Church. These drawings and prints recount the stories of friends and acquaintances who have survived traumatic or life-threatening experiences. I like the works that have inspired them, there is no religious lesson or conclusion to be drawn. Instead, they recount events that have led to personal growth or a re-evaluation of priorities. Though the transformations depicted in Spica’s drawings and prints are
not religious, their effect on the lives of the individuals who have experienced them is undeniably spiritual.

In Spicas work shown here, the caption reads: "Lubomir Opusl, born in Novy Jecin, the Czech Republic on the thirty-first day of October 1957, moved to New York City in 1991 and has not been heard from since."

**Kettering's Hispanic Engineers Fellowship**

A fellowship program for Hispanic engineering graduates seeking Master of Science degrees in engineering has been established by Kettering University's (Mich.) Office of Minority Student Affairs.

The one-year fellowship package, valued at more than $35,000, provides full tuition, a $10,000 monthly stipend, summer engineering co-op employment, and a room in Kettering's residence hall. Students must pursue master's degrees in either manufacturing systems engineering, automotive systems, or mechanical design.

Students accepted for the program will spend 15 hours per week in the Minority Engineering Program office working with minority first-year students in calculus, physics, chemistry, or other basic courses. Teaching or research opportunities might also be available.

**Palo Alto College, Texas A&M University Receive Grant**

Palo Alto College and Texas A&M University will provide top-quality training for veterinary technicians as a result of a $265,000 grant received from the U.S. Department of Agriculture.

Palo Alto College will work with the College of Veterinary Medicine and the College of Agriculture and Life Sciences of Texas A&M University College Station and the Veterinary Medical Association of Bexar County on the project.

U.S. Sen. Phil Gramm informed the institutions that a three-year grant, "Supporting a Veterinary Technology Program Through Distance Education," had been approved.

Dr. Manuel Pina Jr., associate professor and special projects director at Texas A&M, and Robert Espinosa, clinic supervisor at Texas A&M, were among those who wrote the grant.

This kind of collaboration is a way to extend Texas A&M University's land-grant mission to as many partners as possible while enhancing our abilities to respond to the needs of an increasing Hispanic student population," said Pina.

Also, Dr. Enrique Solis, president of Palo Alto College, noted that the grant would benefit private practitioners as well as the veterinary students.

**UTPA Awarded $500,000 Grant**

The University of Texas-Pan American (UTPA) has been awarded a $500,000 grant from the Fannie Mae Foundation to stimulate the development of low-income housing in the Rio Grande Valley.

"There are a lot of problems in the Rio Grande Valley that need attention," said Roland Arriola, executive director for the Office of Center Operations and Community Services at UTPA, "but the number one problem right now is the lack of low-income housing."

Arriola said the goal of the Fannie Mae program is to bring a national focus to current and potential roles of higher education institutions in housing and community development in the U.S. America.

"We were going to head to head with several hundred schools from across the nation to obtain this grant, and we were the only school from Texas to be selected," Arriola said. "We have the opportunity to showcase what this university can do."

UTPA was one of the top five recipients under the Fannie Mae Foundation's $5 million national grant program on university community partnerships.

According to Arriola, the program will provide training and education to the general public on the process of purchasing a low-income home, and will also be renovating at least 16 substandard existing homes.

**In the News at Cal State L.A.**

California State University Los Angeles recently announced the opening of a Center for Environmental Analysis, funded by a $4.9 million grant from the National Science Foundation (NSF). The project, initiated by program director Carlos Robles, Cal State L.A. professor of biology and microbiology, is the first of its kind funded by the NSF on the West Coast.

The Center will conduct vital ecological and environmental research on human impact in natural ecosystems. "Cal State L.A. is the perfect locale for this project because of its proximity to various natural and urban habitats such as the Santa Monica mountains, the ocean, and deserts," said Robles.

Qualified students will have a unique opportunity to conduct specific research with Cal State L.A. and University of California faculty whose projects relate to such areas as marine ecology, air pollution, and chaparral biology.

Cal State L.A. also announced the selection of the following scholars as Cal State L.A. Pre-Doctoral Scholarship for 1998-99: Rodolfo Castro (art), Clarence Cattouse (special education), José Gallegos (psychology), Irene Grau (communication studies), Jesús Martínez (history), Douglas Molina (chemistry), Mónica Nava (psychology), Irma Romero (psychology), Daniel Santos (sociology), Barbara Stahl (chemistry), and Vicki Zeiner (political science).

A preliminary study of former Pre-Doctoral Scholars indicates that nearly half have already entered a doctoral program or will be entering one in the fall, some with fellowships.

**Bilingual Education Effort at SWT**

Southwest Texas State University (SWT) has been chosen as one of five schools in the Southwest to lead a program to develop better qualified bilingual education teachers.

SWT has been named, along with the University of Texas-San Antonio, the University of Texas-Pan American, Arizona State University, and Long Beach State University, as a "hub" university, a distinction made for research, policy, and training institutions that will lead the program and train individuals at other institutions to participate. The goal is for the institutions to develop a model teacher preparation program for bilingual, bicultural, and multicultural environments.

The program is funded by a grant of $168,730 to SWT over three years from the Intercultural Development Research...
Association through the Kellogg Foundation. Nancy Ramos (pictured here), an assistant professor of curriculum and instruction at SWT, will serve as institutional coordinator for the grant project.

"We want to increase the number of qualified bilingual teachers and improve the methods we use to prepare them for the classroom. There is a definite shortage of bilingual teachers in Texas, and this program should help," said Ramos.

**Colombian Gold and Ceramics at Carlos Museum**

An exhibition of more than 160 masterworks, the first traveling exhibition to focus on the important gold and ceramic sculpture of ancient Colombia, South America, is presently on display at the Michael C. Carlos Museum on the campus of Emory University (Ga.). "Shamans, Gods, and Mythic Beasts: Colombian Gold and Ceramics in Antiquity," running through Jan. 10, 1999, displays many works of art that have never been outside of Colombia, the fabled land of the man of gold "El Dorado."

Forty-three of the works are gold ornaments, and the remaining, elaborate clay sculptures. Works were chosen by curator Armand Labbé of The Bowers Museum of Cultural Art in Santa Ana, Calif., to represent all regions of ancient Colombia. Many are being seen for the first time outside their home in the Museum of Gold in Bogotá. Others are on loan from the Fondo de Promocion de la Cultura and the Instituto Colombiano de Antropologia (Culturale) and museum in the United States.

"This exhibition will reveal that the indigenous Amerindian expressions of shamans differ quite a bit from the recent popular conceptions of this oldest human religious complex," said Rebecca Stone-Miller, on-site curator at the Carlos Museum.

**Kenan-Flagler and IITEM Creating Learning Innovation Center**

The University of North Carolina-Chapel Hills (UNC-CH) Kenan-Flagler Business School has joined forces with Mexico's leading technology university to create a Center for Innovation in Learning.

Educators from UNC-CH and the Monterrey Institute of Technology and Higher Education (ITESM) will collaborate to design innovative new courses and cutting-edge teaching tools using the most advanced technologies.

According to Dr. Enrique Zepeda, ITESM's international relations director, Kenan-Flagler offers course content and innovative teaching methods developed through years of rigorous and relevant business education and research.

ITESM was ranked the number one business school in Latin America by America Economia's magazine in its September issue. It is one of two schools to become the first Mexican institutions recently accredited by the International Association for Management Education, the premier accrediting agency, also known as AACSB.

**Columbia University School of Social Work Celebrates Puerto Rican-Hispanic Scholarship Program**

Columbia University's (N.Y.) School of Social Work marked the tenth anniversary of the Agustin Gonzalez Memorial Scholarship, the first scholarship for Puerto Rican and Hispanic graduate social work students in the United States.

The Gonzalez Scholarship was established in 1988 by School of Social Work alumna Rita Ortiz in memory of her late brother, Agustin Gonzalez. He founded the Puerto Rican Family Institute, a leading social service agency, and was keenly aware of the need for well-trained professionals with bilingual and bicultural skills to serve Latino communities.

This year's scholarship recipients are Sonia Szynanski and Scott Tacobonte.

At a special reception, Nilda M Velázquez (pictured here at left), Representative from the 12th Congressional District, Brooklyn, was recognized for her leadership in and service to the Puerto Rican and Hispanic communities in the greater New York City area.

The first Puerto Rican woman elected to the United States House of Representatives and the first Latina appointed to serve on the New York City Council, Velázquez is an advocate for women's issues and Latina rights. She received a master's degree from New York University.

**St. Mary's Students Discuss Cuban Study Tour**

Seven St. Mary's University (Texas) School of Law students, participants of a study tour group comprised of students and faculty members who visited Cuba in June, held a panel discussion in October to share their experiences of the cultural, legal, and political aspects of Cuban society.

During their two-week visit, students met with community leaders who discussed various topics on economics, education, feminist and community activism, the role of religion, and the current state of Cuba. Students also toured an AIDS sanatorium, met members of the National Assembly, and debated freedom of the press with Cuban journalists. They also attended many cultural events, including a Santeria ceremony and a performance by the Cuban National Ballet.

St. Mary's professor of history, Gerald Pino, Ph.D., helped guide the tour. "The desire for change is one of the main reasons Cuba has been eager to accept American students and the U.S. has been reluctant to let them go," said Pino. "The travel licenses granted by the Treasury Department bar students and professors from spending more than $100 a day in Cuba."

Another team of St. Mary's students will trek to Cuba in early January to meet with
political, educational, and religious leaders to
discuss U.S.-Cuba relations.

134 Parents Graduate from APEX Program

ASPIRA One hundred and thirty-four
parents completed the ASPIRA Parents for
Educational Excellence program (APEX) this
summer, graduating in June during a ceremo-
ny held at New Jersey City University.

In recent years, ASPIRA, an organization
dedicated to engaging Latino youth in educa-
tion, created the APEX program in order to
help Latino parents better understand and
take part in their children’s academic career.
The 10-workshop program, which operates
out of Jersey City, N.J., stresses the import-
ance of caring for children and the need for par-
ent-child interaction. It also works to help
parents improve their self-esteem.

One hundred and twenty-eight mothers and
six fathers formed the third graduating class.

Noche Loca and Kids Art Show at Texas A&M University-Corpus
Christi

This fall marked the second presenta-
tion of Noche Loca (Night of Expression), a talent show featuring a variety of
acts including poetry, reading, singing and
dancing, at Texas A&M Universi Corpus Christi.

First, second, and third place trophies
were awarded to the winners, which were
determined by the audiences ballots.

Multicultural programmer Lucy Torres
said that since the first show, the school looks
forward to Noche Loca. “Last year was the
first year we held the talent show, and it was
a big success.”

Celebrity judges included Anissa
Hernández from La Onda magazine, Sandra
Ochoa from the Robstown City Council, and
Col. Luther Jones, former Corpus Christi mayor.

Texas A&M University-Corpus Christi also
held a kids’ art show contest as well as a
reception for the young artists and their par-
ents for Hispanic Heritage Month. The theme
of the art show was “A Portrait of Hispanic
Heritage in Our Community.”

The show and contest, for Corpus Christi
area elementary art students in grades K-5,
was sponsored by the Bilingual Education
Student Organization. Poster contest winners
received first, second, and third prize ribbons
as well as art supplies.

APSU Offering Spanish Major

Austin Peay State University (APSU), which
has more Hispanic students than any other public univer-
sity or college in Tennessee, now
offers a major in
Spanish.

Students can take
32 semester hours in
Spanish language,
conversation, and
composition:
Spanish-American history, literature, and cul-
ture; and peninsular (Spain) culture and his-
tory. Previously, Spanish was paired with
French and German for a foreign language
major. Now, students can double-major in
these areas or just in Spanish.

It’s a change that Dr. Ramon Magrans (pic-
tured here), APSU professor of Spanish, is glad to
see. “When I first came here in 1982, I had four
students in my Spanish classes,” said Magrans.
“It was quite challenging. Now, we have more
than 200 enrolled in Spanish classes.”

He said Spanish-speaking graduates are
being heavily recruited by industry as well as by
the teaching profession. “We have sent students
to Texas, New Jersey, and Florida after they
turned down several job offers. Almost every
high school in the area now has a Spanish
teacher that came through Austin Peay.”

Mexican Dance Troupe Presents a
Visual Fiesta at CMU

Ballet Folklorico “Quetzalli,” Mexico’s
premiere dance troupe, presented a visual fiesta
of old Mexico at Central Michigan University in
October.

“This popular dance troupe is known for
its colorful costumes, lively dancing, and toe-
tapping music from an area in eastern
Mexico known as Veracruz,” said Robert
Fisher, director of University Events. “They
perform authentic dances in traditional cos-
tumes that showcase many of the different
regions in Mexico.”

Showcasing vastly different cultures and
folklores, 12 Ballet Folklorico dancers per-
form regional dances from five areas of
Mexico, including the country’s home state of
Veracruz, birthplace of the well-known "La
Ramada" dance.

Mexico’s rich dance heritage is rooted in
the ethnic groups that have become part of its
culture, including pre-Hispanics who were
indigenous to the area and a Spanish influ-
ence that arrived during the 16th century. In
later years, the region was influenced by a
mixture of African, American, Caribbean,
Cuban, and Peruvians immigrants.

Hispanic Magazine Honors Ortiz

A 1998 Hispanic Achievement Award from
Hispanic Magazine has been bestowed on
Martin Ortiz, who
has been the director
of the Center of
Mexican American
Affairs at Whittier
College in Whittier, Cali., since 1968. In
making the award, Hispanic Magazine
wrote that Ortiz has
“guided thousands of students through schol-
arships, arranging internships, securing jobs, and
sharing words of wisdom that many hold dear
long after graduation.” It also cites the

ship fund named after Ortiz, as well as
Ortiz’ service on the advisory board of
WALDEF (Mexican American Legal Defense
and Educational Fund) and on the board of
directors of INROADS Los Angeles, Inc.,
which is a nationwide program providing
scholarship opportunities for minority college
students.
Latin America Bibliography
by Juan Manuel Pérez

Truly an original for scholarship on Latin America, this book incorporates the incredible diversity of studies related to Latin America that have appeared in the last three decades. Beginning in 1970, Juan Manuel Pérez superbly organizes distinct subjects into a coherent work, allowing the reader to find initial sources of information on topics related to Latin American history, social issues, economics, politics, and science.

Decentering the Regime: Ethnicity, Radicalism, and Democracy in Juchitán, Mexico
by Jeffrey W. Rubin

Since 1989, an indigenous political movement—the Coalition of Workers, Peasants, and Students of the Istmo (COCEI)—has governed the southern Mexican city of Juchitán. This book examines this Zapotec Indian movement and how COCEI forged an unprecedented political path—overcoming oppression in the 1970s to achieve democracy in the 1990s.

Spanish Proverbs, Idioms, and Slang
by Juan Serrano and Susan Serrano

This book explores the background and history of proverbs in Spain by giving examples and by analyzing modern-day slang and expressions. It discusses the importance of proverbs in Spanish literature and the oral traditions. It also explains the “who, what and where” of many well-known Spanish sayings.

Decade of Betrayal: Mexican Repatriation in the 1930s
by Francisco E. Balderrama and Raymond Rodriguez

As the Depression engulfed the United States in the early 1930s, fear and anxiety spread that Mexicans were taking jobs and welfare benefits away from real Americans. Eventually, more than a million were shipped back to Mexico. In this book, the impact of the forced relocation on both sides of the border is carefully appraised.

Latino Manifesto: A Critique of the Race Debate in the U.S. Latino Community
by Christopher Rodriguez

This book attacks the racial mythologies of white supremacy in the three major countries of origins for Latinos in this country: Mexico, Cuba, and Puerto Rico. It examines the role of the Catholic Church as an institution that established centers of de-culturalization for the Native American and African slaves in order to assimilate them into "Christian Civilization." The book further discusses the Latin American state policies to whiten their population (Blanqueamiento) and how the importance of these ancient racial attitudes have impacted modern Latinos in the U.S. landscape.

Holding Ground: The Rebirth of Dudley Street

Holding Ground is the story of a cautious tale of urban policies gone wrong and a message of hope for all American cities. In the 1980s, abandoned by industry and government, the Dudley area of Roxbury, Mass., a once thrive community, had become the most economically disenfranchised neighborhood in the state with over 40 percent of the residents living below the poverty line. This one-hour documentary shows how, through the voices of committed African American, Latino, Cape Verdean, and European American residents, activists, and city officials, the neighborhood fought to close down illegal dumps, gain unprecedented control of land from City Hall, and create a comprehensive plan to rebuild the fabric of their community. Book Review in Brief
By Mark Saad Saka, Ph.D., Assistant Professor of History, Sul Ross State University, Alpine, Texas

Border Crossings: Mexican and Mexican-American Workers is a much needed work on the evolution of the Mexican and Mexican-American working class, one that transcends traditional spatial constructs such as the nation-state and, instead, integrates the Mexican working-class experience with that of the Mexican population in the United States. The editor, John Mason Hart of the University of Houston, is the foremost authority on Mexican working-class history, having written extensively on the ideological formation of working-class culture, history, and society; and the role that the working class played during the Mexican Revolution of 1910-1921.

The book consists of a series of articles spanning the nineteenth and twentieth centuries and integrates a number of major themes in Mexican and Mexican-American working-class history, including the role of mutualism and mutual aid societies. Mexican workers transcend the nation-state and forge a common destiny. I have used this book in the classroom and have found that the students respond favorably to its easy accessibility.

University of Notre Dame

DIRECTOR, LATINO STUDIES

The University of Notre Dame is seeking an established scholar to direct its newly instituted Latino Studies Center.

Candidates for the position are expected to have earned a Ph.D. and have experience in working with Latino populations and a record of research in any field related to Latino studies.

The successful candidate will provide direction and leadership for an interdisciplinary program of teaching and research focusing on the Latino experience in the United States. The director’s responsibilities will include research, building a curriculum and designing an undergraduate concentration, recruiting and developing new faculty as well as establishing connections with faculty in established departments and institutes.

The director will receive strong support from the University’s administration, from its active and well-established Hispanic, Latino, and Puerto Rican networks, and from the rapidly growing Latino student population at Notre Dame. In developing the Latino Studies Center, the director will be expected to work with various University communities in order to enhance awareness of Latino issues across the curriculum.

Notre Dame is an affirmative action equal opportunity employer. The University strongly encourages applications from minority and women candidates. Screening of applicants will begin on October 1, 1999, and conclude when the successful candidate is identified. Please direct all applications and communications in writing to:

Rev. Timothy R. Scully, C.S.C.

Vice President and Senior Associate Provost

234 Hayes-Healy Center

University of Notre Dame

Notre Dame, IN 46556

Amherst College

Andrew W. Mellon Visiting Assistant Professor of English

The Andrew W. Mellon Foundation has awarded a grant to Amherst College to support exceptionally promising young scholar-teachers for two years of half-time teaching and one semester of half-time research.

The Amherst College English Department now invites applications for a Mellon Fellowship to begin in the fall semester 1999. The fellowship provides a stipend equivalent to that of an assistant professor, requires the recipient to teach one course in film study each semester for a period of two years while pursuing research in the scholar's field. The candidate must have completed the Ph.D. degree (specifically, with principal study in some aspect of film history, theory, or criticism). For more information, please contact:

Amherst College English Department, P.O. Box 5000, Amherst, MA 01002-5000.

Amherst College is an undergraduate liberal arts college for men and women with some 1,570 students and 165 faculty. Located in the Connecticut River Valley of western Massachusetts, Amherst participates with Hampshire, Mount Holyoke, and Smith Colleges and the University of Massachusetts in the Five College Consortium.

Amherst College is an Equal Opportunity, Affirmative Action Employer and encourages women, minorities, and disabled persons to apply.

For more information, call Amherst College at 1-800-649-1305, or visit our Web site at www.amherst.edu
UNION COLLEGE
SYSTEMS LIBRARIAN

Union College, a highly selective liberal arts and engineering college of 2,000 students, founded in 1795 and located in Schenectady, New York, is searching for a Systems Librarian. The successful candidate will offer some combination of experience providing hardware and software technical support for library workstations as well as staff applications workstations, an in-depth understanding of Windows95/NT software and protocols, including TCP/IP, and WWW technology, familiarity with a variety of Windows-based productivity programs, the ability to manage, support, and troubleshoot LAN and CD-ROM library hardware and software. Experience with DraMSa also highly desirable. In addition to technical background, the successful candidate must demonstrate: strong oral, written, and analytical skills; the ability to work within a collegial academic environment; and experience with staff training, budget management, and planning. Experience cooperating with the Computer Center in a college or university environment would be very helpful. Represents Library on committees at the College and regional level. The Systems Librarian participates in Library reference service, including some nights and weekends. Minimum Qualifications: MLS or MSLS from an A.L.A. accredited program; 3-5 years' relevant experience supporting an integrated library system in an academic library. Schaffer Library has just completed a major building expansion and renovation. Visit our WWW site for additional information on both the Library and Union College.

http://www.union.edu

Union College offers an exceptional benefits package including medical, dental, and vision insurance, life and disability coverage, a generous retirement plan and tuition remission. Union College is committed to a program of affirmative action and equal opportunity employment. Women and minorities are strongly encouraged to apply.

Send letter of application, resume, and salary requirements to T. G. McFadden, Director, Schaffer Library, Union College, Schenectady, NY 12308. Review of applications will begin on January 15, 1999.

Vice Provost—Information and Educational Technology

University of California, Davis

The University of California, Davis, invites applications and nominations for the position of Vice Provost—Information and Educational Technology. The Vice Provost reports to the Provost and Executive Vice Chancellor and has primary responsibility for providing the leadership necessary to assure effective and strategic deployment of information and educational technology for the Davis Campus. The incumbent will work closely with senior campus administrators, faculty, staff, and students to plan, finance, and deliver technology across the complete campus distributed computing and communication environment.

The University of California, Davis, is a major research university with approximately 1,600 faculty and 24,800 undergraduate, graduate, and professional students enrolled in three colleges (Agricultural and Environmental Sciences, Letters and Science; Engineering), four professional schools (Law, Management, Medicine, Veterinary Medicine), and the Division of Biological Sciences, and a major University Medical Center in Sacramento. The Vice Provost assures that the University's academic and administrative functions are supported by appropriate high-quality and cost-effective information technology. The incumbent will develop, maintain, and support computing and communications services that balance centralized and decentralized approaches to meeting the technology needs of academic and administrative users.

The Vice Provost will manage an organization that includes academic and administrative computing, technology infrastructure to deliver voice, data, and video communications services, campus publishing, printing, and illustration services; and instructional support and related services. The Division of Information Technology has 300 employees and a $32 million budget.

We seek candidates with a deep understanding and respect for the academic culture and the willingness and ability to work within the University of California's joint governance structure. One must clearly demonstrate a commitment to consultation that includes faculty, administrators, students, and staff. The successful candidate will understand the use and application of computing and information technologies in support of instruction, research, communications, and administrative systems within a Research I University and have experience in academic technology planning and cognition of the strategic issues facing these universities over the next five years. In addition, the person shall have a record of substantial administrative, planning, and financial management experience and excellent written and verbal communications skills.

An advanced degree and previous experience in a research university setting are highly desirable. Candidates who have appropriate academic credentials may qualify for a faculty-tenured position. Salary will be commensurate with experience and qualifications. Review of candidates will begin January 20, 1999. The position remains open until filled. All nominations and applications should be addressed to:

Gerald R. Miller
Assistant Executive Vice Chancellor
Office of the Chancellor
University of California, Davis
One Shields Avenue
Davis, CA 95616

UC Davis is an affirmative action/equal opportunity employer.

DENISON UNIVERSITY
Granville, Ohio

PROVOST

Denison University invites nominations and applications for the position of Provost. The Provost is the chief academic officer and reports directly to the President.

Founded in 1831, Denison is a nationally ranked, independent, coeducational liberal arts college with a strong tradition of academic excellence. Its 250-acre campus is located in the picturesque village of Granville, Ohio, 25 miles east of Columbus. A residential undergraduate college, Denison has 2,000 students, 167 faculty members, and endowments and specialized funds of more than $300 million.

The college operates a six-semester calendar with a voluntary May Term. It offers 37 majors and awards the B.A., B.S., and B.F.A. degrees. A first-ranked faculty in 22 academic departments is active in scholarly and creative work and offers a range of quality programs for students who go on to a wide variety of academic, professional, and business careers. For additional information, visit the Denison University Web Page at http://www.denison.edu.

Although nominations and applications will be accepted until the position is filled, those submitted by January 15, 1999 are best assured of receiving full consideration. The position is scheduled to be filled by April 30, 1999, with the appointment to take effect no later than July 1, 1999.

Please send nominations or applications to:

Dr. Tom Schultz, Chair
Provost Search Committee
Denison University
Granville, Ohio 43023

ASSISTANT VICE PRESIDENT FOR FACILITIES
Southwest Texas State University invites applications and nominations for the position of Assistant Vice President for Facilities. SWT, a unit of the Texas State University System, is the seventh largest public university in Texas, with enrollment of over 21,000 and an annual budget of $153 million. SWT is located in the scenic Texas hill country at the headwaters of the San Marcos River in the community of San Marcos between Austin and San Antonio. Visit SWT at http://www.swt.edu.

The Assistant Vice President for Facilities is a senior institutional official reporting to the Vice President for Finance and Support Services. This position provides overall administration of facilities including design, construction, utilities production and distribution, energy conservation, custodial support, recycling, grounds care, and routine maintenance. The Facilities Management department supports approximately 4.2 million gross square feet of academic, administrative, and residential facilities. The University is comprised of 160 buildings on 425 acres of a beautiful, small-city setting. In addition the university has off-campus land holdings totaling 4,251 acres. The department employs approximately 300 staff and has an operating budget over $20 million.

REQUIREMENTS: Licensed professional engineer or architect preferred. Eight years of progressively responsible experience in facilities management, involving project management, maintenance scheduling, and budget development, preferably in higher education. A commitment to working in a collaborative manner and the ability to foster trust and support among such varied constituencies as administration, faculty, staff, students and the community are required qualities. Excellent oral and written communication skills are required. A demonstrated commitment to quality, customer service, staff development, diversity and safety are required. Starting salary for this position is commensurate with qualifications and experience.

FOR CONSIDERATION: Applicants should send a completed SWT application, a comprehensive resume, names and contact information for three references, and a cover letter discussing qualifications for the position to:
Southwest Texas State University Personnel Office
J.C. Kellam Building, Suite 340

1. "NIR" or an MFA/FF in electronic music and performance with audiovisual experience is encouraged to apply.
Provost and Executive Vice President for Academic Affairs

The Provost and Executive Vice President for Academic Affairs is the chief academic officer of the University and reports directly to the President. The Provost is responsible for administering the academic programs of the University, including many academic support services. Reporting to the Provost are the Deans of the College of Arts and Science, the Richard T. Farmer School of Business Administration, School of Education and Allied Professions, School of Fine Arts, School of Applied Science, School of Interdisciplinary Studies, the Graduate School, the Executive Directors of the Hamilton and Middletown regional campuses, the Executive Director of the John E. Dolibois European Center in Luxembourg, as well as the Dean and University Librarian. The Provost also has direct responsibility for the Office of Continuing Education, the Office of International Programs, the Office of Liberal Education, the University Honors Program, the Office for the Advancement of Scholarship and Teaching, and other support functions such as the Office of the Registrar, the Instrumentation Laboratory, Career Planning and Placement Office, and the Miami Computing and Information Services.

Miami University is one of the nation’s most selective public universities. It has a tradition of dedication to teaching excellence and undergraduate education with a strong record of scholarly achievement and support of graduate education. Miami seeks a strong academic leader who shares its commitment to outstanding liberal arts, professional education and scholarship and who will work closely with faculty, staff, students, alumni, and external constituencies to enhance Miami’s record of quality higher education.

The successful candidate must possess an earned doctorate or its equivalent and have a strong record of teaching, scholarship and leadership in academic administration at the University level.

The Search Committee will be considering such further characteristics as:

- Appreciation of and a firm commitment to the mission of Miami University
- The ability to build a consensus and work with all groups in the University to enhance academic excellence
- A demonstrated ability to establish positive relationships with faculty, staff, students, and other members of the University community
- A demonstrated knowledge of budgetary procedures, long range planning, and program evaluation.
- An active commitment to cultural, racial and ethnic diversity

To ensure consideration by the Search Committee, applications must be received by February 1, 1999. The search will remain open until the position is filled. The successful candidate will be expected to assume the position as of July 1, 1999 or as soon thereafter as practical. Questions about this position can be directed to Karen K. Shaffer, Secretary of the President. Applicants should send a resume, statement of interest and a list of references to the address below. Supporting information, including letters of reference will be requested by the Search Committee at the appropriate time. This search is subject to the provisions of the Ohio Public Records Act.

The University of Connecticut Libraries
Assistant to the Director for Library Marketing and Communications
(SEARCH #99226)

Reporting to the Director of Libraries, this newly created position, based in the recently renovated Homer Babbidge Library, offers the opportunity to make significant contributions to a dynamic team environment. The specific responsibilities of this position include leadership in the marketing and promotion of library programs and services, production of Library-wide communications, development of specific marketing and promotion efforts in collaboration with the Library Liaison Program, and coordinating activities between the library and the University's Public Relations office, and acting as the primary author, editor, and content validator for library-related publications.

For further information about the UConn Libraries or this position, see our online page at http://www.lib.uconn.edu or call Elizabeth Tonucci at (860) 486-0845.

At the University of Connecticut, our commitment to excellence is complemented by our commitment to building a culturally diverse staff. We actively encourage minorities and people with disabilities to apply.

Dean,
School of Information
The University of Michigan, Ann Arbor

The University of Michigan seeks applications and nominations for the position of Dean of the School of Information. The mission of the School is to address the complex challenges of the information age with innovative research and training in a new class of information professionals. The School’s distinguished faculty are drawn from many disciplines, including library and information science, cognitive psychology, computer science, the humanities, and economics. It has excellent staff and outstanding financial and technical resources. It sits within a great, public, research University that is renowned for its interdisciplinary traditions. Doctoral and masters students in the School of Information are conducting research and preparing for careers in archives and records management, human-computer interaction, library and information services, information economics, management, and policy; and in other information-related endeavors.

Dramatic changes are occurring in information resources and technology. The School is deeply committed to helping all sectors of society realize the potential benefits of these developments. Candidates should have the vision and experience to lead the community of faculty, students and staff in synthesizing the new, interdisciplinary lines of research and education that are so urgently required.

The School expects the Dean to provide intellectual leadership, to be strongly engaged in its research and teaching missions, to steward its finances, to oversee its administration, to take a key role in raising external funds, and to represent it effectively in relations with the University and with external communities — locally and around the world. The Dean will report to the Provost and Executive Vice-President for Academic Affairs.

Candidates with distinguished scholarly accomplishments and records of success in academic administration are strongly encouraged. However, the path-breaking mission of the School implies that candidates from other backgrounds — such as libraries, foundations, or information technology companies — may also be highly attractive.

Nominations and applications will be reviewed continuously beginning November 15, 1998 and will be accepted until the position is filled. All inquiries and applications may be directed to: Michael D. Cohen, Chair, School of Information Dean Search, 3074 Fleming Building, University of Michigan, Ann Arbor, MI 48109-1340. Email may be addressed to: sldsearchchair@umich.edu

More can be learned about the mission and resources of the School at: http://www.sio.umich.edu/DeansEc/DeanSearch

A Non-Discriminatory, Affirmative Action Employer.

MCTC MANCHESTER

The University of Oklahoma is an Equal Opportunity/Affirmative Action Employer

ASSISTANT PROFESSOR
Elementary Education
Re-Advertisement (tenure-earning)

The Department of Educational Theory and Practice is searching for a faculty member in an Elementary Education program that grants Bachelor's, Master's Educational Specialists and Doctoral degrees. The position requires teaching undergraduate and graduate courses in elementary education in a field-based program. Service on departmental and university committees, supervision of field experiences, and service to the educational community are expected. The candidate must have a demonstrated record of research and scholarship. Minimum qualifications include earned doctorate in Elementary Education or related field, such as Curriculum and Instructional. Child Development or Educational Psychology; three years public school teaching experience; experience with elementary age children; evidence of scholarly productivity; ability to teach methods courses in one or more of the following: mathematics, science, social studies, technology or foreign language acquisition; willingness to work cooperatively in collegial environments.

Send application package to: Dr. Janice Flake, Chair, Elementary Education Search Committee, Department of Educational Theory and Practice, 115 Stone Building, College of Education, Florida State University, Tallahassee, FL 32306-4457. For further information, contact her at 850-644-5498, fax 850-644-4776, or e-mail jflake@garnet.acns.fsu.edu.

PROFESSOR
Science Education
Re-Advertisement (tenure-earning)

The Department of Curriculum and Instruction is searching for a faculty member who will provide leadership to the teaching and research efforts of the science education program. The program is a diverse, university-wide Consortium for Science Education, teaching graduate and undergraduate courses and directing doctoral students. Minimum qualifications include earned doctorate in Science Education or appropriate related field. Preference will be given to candidates with strong methodological skills. Candidates must have developed a research program with an outstanding national and international reputation as well as a history of successful grants and contracts activities.

Science Education at Florida State University is a leader in the field of Science and Technology, and Science Education faculty are very involved in a variety of research and development projects and teacher internships activities. Outside funding has averaged more than $100,000 per year over the last 10 years. The program has received a full faculty masters degree program in Science. Current curriculum development efforts include a large project with the U.S. Department of the Interior for a GIS-based wildlife management system and a web site for the same agency on invasive species. Graduate students have completed numerous internships and projects. Interested individuals should contact the Chair at 850-644-4776 or e-mail jflake@garnet.acns.fsu.edu for further information.

Send application package to: Dr. George Dawson, Chair, Science Education and Research Committee, Department of Curriculum and Instruction, 209 Milton Hall, College of Education, Florida State University, Tallahassee, FL 32306-4490. For further information, contact him at 850-644-4776, fax 850-644-4706, or e-mail gldawson@garnet.acns.fsu.edu.

ASSISTANT PROFESSOR
Sport Administration
Re-Advertisement (tenure-earning)

The Department of Physical Education is searching for a faculty member who has teaching and research expertise in Sport Management and Sport Administration, and has the ability to teach other Sport Administration courses. The selected person will be expected to teach both undergraduate and graduate courses in Sport Administration, develop an active research agenda, mentor masters and doctoral students, teach undergraduate and graduate courses in sport and physical education, and to contribute to a sport administration committee of scholars. Minimum qualifications include earned doctorate in Sport Administration or related field, college and university teaching experience, evidence of scholarly productivity, experience advising graduate student research, and some sport business university experience.

Send application to: Dr. Brenda Pitsch, Chair, Sport Administration Search Committee, Department of Physical Education, Florida State University, Tallahassee, FL 32306-4280. For further information, contact her at 850-644-4776, fax 850-644-4776, or e-mail bapitsch@garnet.acns.fsu.edu.

Applications for all positions will close on February 1, 1999. Completed packages will include a thorough letter of application documenting experience and qualifications, a current vita, and the names, addresses, and telephone numbers of two references who can be contacted. All positions will begin no later than August 1999.

The Florida State University, an equal opportunity/affirmative action employer and committed to diversity within its communities.
California State University Monterey Bay

CSUMB is a comprehensive university which values academic quality and the integration of learning, working, and residential living, in a multicultural and interdisciplinarity community. The campus is located on scenic, and historic Monterey Bay on land that was formerly part of the Fort Ord army base. **AA/EEO/ADA Employer**

Joan Higgins
Engineering Student Services
222 Carpenter Hall
College of Engineering
Cornell University
Ithaca, New York 14853

Cornell University is an equal opportunity employer.
Mercy College, a non-sectarian, independent, coeducational college in Westchester, NY is re-opening the search for a new President. Dr. Jay Sexton is retiring after nine years of successfully leading Mercy's continuing expansion and diversification. During his presidency enrollment almost doubled and today there are 7,500 undergraduates and 1,900 graduates. The College is dynamic, entrepreneurial, and deeply committed to its mission of providing broad access to quality educational programs for students in the New York metropolitan area.

Founded in 1950, Mercy has been non-sectarian since 1959. Serving primarily commuter students, its main campus is on Dobbs Ferry on the banks of the Hudson River. In addition, it has branch campuses in the Bronx, White Plains, and Yorktown Heights, as well as 10 extension centers in Manhattan, Brooklyn, Queens and Westchester. The annual budget is $62 million.

The new president will be asked to lead and manage the continued growth and development of Mercy College, continuing commitment to mission, quality, and financial health. He or she should have leadership and management experience sufficient to head a complex and growing institution, academic credentials that can earn the respect of the faculty, and experience working with complex organizational structures such as those of New York City and Albany. For more complete information about the position and the institution, please visit our website at www.mercycnet.edu/pres_search

Inquiries, nominations and applications are invited and will be held in confidence. Materials including a letter describing interest and experience, a CV, and names, addresses and phone numbers of five references should be sent to Dr. Jean Dowdall, Vice President, A.T. Kearney Executive Search, 225 Reinekers Lane, Alexandria, VA 22314; phone (703) 739-7461, fax (703) 518-1782; e-mail jean_dowdall@atkearney.com. For full consideration, materials should be received by January 5.

Equal Opportunity Employer

IOWA STATE UNIVERSITY
Where you can become your best.

Provost

Iowa State University invites nominations and applications for the position of provost. As the academic leader of the university, the provost has key responsibilities for helping Iowa State achieve its strategic goal of becoming the best land-grant university in the nation. The provost reports to the president.

One of only 34 public AAU universities, Iowa State University is a comprehensive educational and research institution located in Ames, a community of 50,000 people recently recognized as the second most livable small city in the nation. Iowa State has 25,500 students, 1,800 faculty, 4,300 staff, and a budget in excess of $700 million. The university offers undergraduate, graduate, and professional degrees through its colleges of Agriculture, Business, Design, Education, Engineering, Family and Consumer Sciences, Liberal Arts and Sciences, Veterinary Medicine, and the Graduate College. Iowa State is a Carnegie Foundation Research I University and operates numerous research centers. It also operates the Ames Laboratory under contract with the U.S. Department of Energy. The university has just completed its two most successful fundraising years and is in the midst of a $425 million capital campaign. Visit Iowa State's Web site at www.iastate.edu for more about the university, and www.iastate.edu/ISUsearch/provost for more about this position.

The provost works closely with the president in providing overall leadership for the university. The provost oversees the university's academic programs, in teaching, research, and extension and the University Lab, the computer center, the Institute for Physical Research and Technology, the Ames Laboratory, and the Agriculture and Home Economics Experiment Station. Recruitment, hiring, and review of deans and directors are also among the provost's responsibilities.

The successful candidate must have a distinguished record of scholarly accomplishments, administrative experience, and a commitment to enhancing the quality of the university's departments, must have an understanding of the broad spectrum of academic research, must have a strong commitment to high quality programs of teaching, research, and outreach, and must have a vision of the land-grant philosophy and the principles of diversity. Administrative experience in a complex academic organization and experience in strategic planning, program development, and fundraising also are preferred.

To receive full consideration, nominations and applications should be received by January 20, 1999. Applicants should include a letter addressing the applicant's interest, relevant experience, and qualifications, and a current curriculum vitae. Send nominations or applications to Dr. George Koons, chair, Provost Search Committee, Office of the President, Iowa State University, 317 Beardshear Hall, Ames, IA 50011-2255.

Iowa State University is an equal opportunity affirmative action employer and encourages the nomination and application of women and minority candidates.
The City College of New York/CUNY is currently seeking applicants for the faculty positions listed below. All positions are contingent upon funding. Salary is commensurate with qualifications and experience; there is an attractive fringe benefits package. Teaching experience required. Faculty must serve on faculty committees, advise students and maintain scholarship and/or professional excellence to meet future tenure requirements. Review of applications will begin on the closing dates indicated after each description. For more information on all positions, instructions on how to apply for a position, and more information about City College, see the CCNY World Wide Web site at: http://www.ccny.cuny.edu/.

**SCHOOL OF ENGINEERING**

Assistant/Associate Professor in the Chemical Engineering Department/Center for Biomedical Engineering. A Ph.D. in Chemical Engineering, Biomedical Engineering, or a closely related field with an emphasis on cell and tissue engineering and related areas. Send resume by 1/15/99 to Andreas Acivos, Chair of Search Committee, Levich Institute, Steinman Hall #11M.

**ENGLISH DEPARTMENT**

(2 positions)

Associate or full Professor in creative writing (poetry or fiction) with national reputation and outstanding record of publication. Provide leadership for an established M.A. program in creative writing. Terminal degree or equivalent required. Visiting Professor 1 year appointment non-tenure track. Distinguished visiting writer (fiction or poetry). Send resume by 12/31/98 to Professor Leon Guilhemet, Chair, Dept of English.

**DEPARTMENT OF MATHEMATICS**

Assistant/Associate Professor with a demonstrated interest in the field of computational algebra. The ideal candidate should possess expertise in combinatorial group theory, general knowledge of commutative algebra, ability to program in C++, and a willingness to participate in various activities of the NY Group Theory Cooperative. Ph.D. in Mathematics required. Send cover letter indicating interest and qualifications, AMS standard cover sheet and curriculum vitae by 2/1/99 to: Faculty Search Committee, Dept of Mathematics, NAC 8/133.

**DEPARTMENT OF COMMUNICATIONS, FILM AND VIDEO**

Assistant Professor, Media Arts Production. The candidate must have strong production credentials with a specialization in post-production for picture and sound in the digital realm, a strong foundation in the history and theory of film and video editing, expertise in film editing and linear video editing is desirable. A Master's degree and a minimum of 10 years experience as an editor is required. Send curriculum vitae and cover letter summarizing unique qualifications by 3/12/99 to: Chair, Search Committee, Dept of Communication Film & Video, Rm 463, Shepard Hall.

**MUSIC DEPARTMENT**

Assistant/Associate Professor to teach Jazz History to undergraduate and graduate students. Supervise MA Program in Music. Some doctoral courses and dissertation supervision may be possible. Doctorate or equivalent and other evidence of scholarly achievement. Send cover letter, curriculum vitae and the names, addresses and telephone numbers of three references by 2/1/99 to Professor Alison Deane, Chair, Search Committee, Music Dept., Shepard Hall Room 72.

All positions require a Ph.D. unless otherwise noted and teaching experience.

Salary: Assistant Professor $30,829-$53,779. Associate Professor $40,173-$64,956. Professor $49,866-$77,229. Salary dependent on education and experience. Excellent benefits package.

The City College of New York has a strong institutional commitment to the principle of diversity. In that spirit, we are particularly interested in receiving applications from a broad spectrum of people, including women and under-represented groups. Upon request, reasonable accommodations provided for individuals with disabilities.
5 New Positions Available in Microelectronic Related Research Areas

The College of Engineering at the University of South Florida invites applications for five tenure-track and tenured faculty positions at all levels (assistant, associate, and full professors). Depending on their discipline, faculty may be appointed in any of the six departments in the College of Engineering (Chemical, Civil/Environmental, Computer Science/Engineering, Electrical, Industrial, or Mechanical Engineering) and will be expected to conduct substantial research programs related to the mission of the Center for Microelectronics Research.

The Center for Microelectronics, CMER, of the College of Engineering at the University of South Florida has announced a significant expansion of its research program. This expansion is driven by a major partnership with Lattice/Curent microelectronic plant in Orlando, Florida. The expansion is made possible through a steady, annual funding that will invest during the next five years, more than $15 million in facilities, faculty, projects, and support personnel. Research focus is in the general areas of sensor/actuator processing, semiconductor materials, metrology related to semiconductors, design (digital and mixed signals) of VLSI circuits, tests, and MEMS.

Current facilities include a 1,400 sq. ft. Class 100 Cleanroom, a Materials Defect Engineering Lab, a Rapid Prototyping Lab, a Microelectronics Design Lab, and Microelectronics Test Lab. In the next two years major expansion of these facilities is planned in addition to a significant new focus on semiconductor metrology. Linkages to the medical school and the Moffitt Cancer Center will be encouraged.

Candidates must hold a Ph.D. and will be expected to initiate an aggressive research program. Areas of interest include, but are not limited to: semiconductor processing, materials, metrology, VLSI systems and digital circuit design, wireless/mixed signal design, design automation, modeling, testing, reliability, software design/Al, and microelectronics, and MEMS. Faculty are expected to value excellence in teaching and contribute to the B.S., M.S. and Ph.D. programs within a department.

The University of South Florida, with over 37,000 students, is one of Florida’s three public comprehensive research institutions. The main campus is in Tampa with regional campuses in St. Petersburg, Sarasota, and Lakeland. The College of Engineering has 100 full-time faculty members and over 3,000 undergraduate and graduate students. External sponsored research awards are approximately $10,000,000 annually.

The University of South Florida is an equal opportunity/affirmative action employer. According to Florida law applications and meetings regarding applications are open to the public upon request.

Please send resume, the names and at least three references, a statement of research and educational goals to Chair of Search Committee, Center for Microelectronics Research, College of Engineering, University of South Florida, Tampa, FL 33620-5350. Evaluation of resumes will begin February 15, 1999 and will continue until the positions are filled.

ASSISTANT PROFESSOR

UNIVERSITY OF RHODE ISLAND

HISTORY OF SCIENCE

Ph.D. in the History of Science (or equivalent) with a specialty in Early Modern European History (ca. 1500-1800) required, or must present convincing evidence that Ph.D. requirements will be completed by 6-1-99. Specialization in the History of Medicine or Public Health required, with ability to work with other scholars in the University’s Health Focus Area. Must provide evidence of effective college-level teaching experience and of scholarly promise. This is a tenure-track position beginning in September 1999. The deadline for applications is March 1, 1999. Please submit a letter of application, curriculum vitae, three letters of recommendation, and a sample of recent scholarly writing to: Michael Houtkaart, Search Committee Chair, (Log #021353), UNIVERSITY OF RHODE ISLAND, P.O. Box G, Kingston, RI 02881. The University of Rhode Island is an AA/EEO employer and is committed to increasing the diversity of its faculty, staff and students. Persons from under-represented groups are encouraged to apply.

DIRECTOR OF LITERACY PROJECT

AND FACULTY POSITION IN READING

ROOSEVELT UNIVERSITY

CHICAGO

The College of Education invites applications and nominations for a faculty position. We seek someone with a doctorate with significant work in reading to launch a new Chicago Area Literacy Project based on the National Writing Project model. The Director of this Project must have experience that bridges university and public school cultures and ideally should have worked extensively with practicing teachers to develop strong school leaders including advising applicants for the National Board for Professional Teaching Standards. We are looking for a person who has a distinguished record of teaching, writing, and research in the field of reading and who can address the literacy challenges that school districts face. Experience in drawing on the resources of a broad range of educational, community, business, and cultural institutions to forge collaborations that can support strong school leaders is also highly desirable. In addition to directing the Literacy Project, this person will teach in Roosevelt’s Certificate of Advanced Study Program in Teacher Leadership in Literacy for Diverse Populations and in the state certification program in reading.

The successful candidate will begin work on June 1, 1999.

SALARY: Commensurate with qualifications and background.

Send an application letter with a vita and a list of four references with addresses and telephone numbers postmarked no later than February 1, 1999 to:

Dr. Betty Jane Wagner
Search Committee Chair
College of Education
Roosevelt University
430 South Michigan Avenue
Chicago, Illinois 60605-1394

Women and minorities are encouraged to apply and voluntarily identify themselves. Roosevelt University is an Affirmative Action/EQUAL OPPORTUNITIES EMPLOYER.
Assistant Professor of Spanish

Anticipated Tenure Track Position
Beginning Fall 1999

Responsibilities:
Teaching undergraduate Spanish language and elective courses. Reappointment based on evaluation of achievements in teaching effectiveness, scholarship and service.

Minimum Qualifications:
ABD Spanish (all requirements by August 15th)

Preferred Qualifications:
Ph.D. or Doctorate; native or near native speaker level competency in Spanish, multi-media experience. Candidate should be interested in pursuing entrepreneurial activities (i.e., research, grants, community interaction)

Salary Range: $35,000-$40,000
Application must be postmarked no later than February 1, 1999.

A letter of application, curriculum vitae and three names of references including telephone numbers (no letters of reference please) should be sent to:
Dr. Malbla Fava, Chair of Search Committee
Modern Languages Department, Memorial Hall, State University of New York, Broadhollow Road, Farmingdale, NY 11735.
Executive Director of the
USF Center for Microelectronics

The Center for Microelectronics, CMR, of the College of Engineering at the University of South Florida has announced a significant expansion of its research program. This expansion is driven by a major partnership with Lucent/Curren, a microelectronics plant in Orlando, Florida. The expansion is made possible through a jointly funded plan that will invest more than $15 million during the next five years in faculty, facilities and support personnel. Research focus will be in the general area of microelectronics as described below:

Director: The College of Engineering at the University of South Florida, Tampa, invites nominations and applications for the position of Director of the Center for Microelectronics Research CMR. Chair is an endowed chair position and is expected to be an asset to the rapid expansion of high technology industries in Florida and the Southeast.

The Center's primary focus will be on materials processing, characterization, VLSI systems and digital circuit design, design automation, modeling, testing, reliability and MEMS. Facilities include a 1,400 sq. ft. Class 100 Cleanroom, a Materials Detect Engineering Lab, a Rapid Prototyping Lab, a Microelectronics Design Lab, and a Microelectronics Test Lab. A major expansion of these facilities is planned as an addition to the significant new focus on semiconductor metrology.

Requirements: The Director will have a strong, broadly funded research and development program in advanced microelectronics; a strong record of interdisciplinary research; drawing on existing research; and new, non-staff faculty members (five new tenure-track faculty positions will be filled next year); supervision of the management of the cleanroom and associated laboratories; interfacing with academic programs in the education and training of graduate students; encouragement of post-doctoral researchers; and industry-government linkages. The Center Director will report to the Dean of the College of Engineering.

The successful candidate should bring to this position demonstrated research and scholarship abilities, successful experience in obtaining major external research funding, management and administrative skills in forming and building research teams, and the ability to work with industry and federal research agencies. Candidate should have a Ph.D. in a microelectronics-related discipline.

The University of South Florida, with over 37,000 students, is one of Florida's three public comprehensive research universities. External research funding for the university is in excess of $315 million per year. The main campus is in Tampa with regional campuses in St. Petersburg, Sarasota, and Lakeland. The College of Engineering has 100 full-time faculty members and over 3,000 undergraduate and graduate students. External sponsored research awards are approximately $10,000,000 annually.

The University of South Florida offers an equal opportunity and affirmative action employer. According to Florida law, applications and interviews regarding applications are open to the public on request.

Please send resume, list of three references and a statement of goals related to the leadership of CMR to: Chair of Search Committee, Center for Microelectronics Research, College of Engineering, University of South Florida, Tampa, FL 33620-3350. Evaluation of resumes will continue until the position is filled.

THE CITY COLLEGE OF THE CITY UNIVERSITY OF NEW YORK
138th Street and Convent Avenue
New York, NY 10031

NON-FACULTY PROFESSIONAL OPPORTUNITIES

CHEMISTRY DEPARTMENT
Senior College Laboratory Technician. To assist in setting up and maintaining general chemistry laboratories; set-up and maintain analytical chemistry laboratories; provide general technical service with the department's Degree in Chemistry + 2 years work experience preferred. Salary $29,539 - $42,035. Send resume including the names, addresses, and telephone numbers of 3 references by 11/30 to: Professor Stanley R. Radel, Chair, Dept. of Chemistry, J/1024.

COLLEGE LABORATORY TECHNICIAN (3 positions)
Salary: $23,893 – $37,467

English Department. Design either sets and costumes for 5 to 6 theatre productions annually; maintain equipment and mentor students in technical theatre. M.F.A. or MA preferred. Submit letter, curriculum vitae with contact information for at least three references by 3/1/99 to: Professor David Wanger, Theater Program - Shepard Hall, Room 279.

Electrical Engineering Department. Provide technical assistance to laboratory development and instruction. Maintain effective laboratory equipment and provide technical support for faculty research. MS degree is desirable. Send resume by 12/10 to: Professor Fred Mostany, Chair: CLT Search Committee, Room X762.

Music Department. Install, configure, and maintain software and hardware for the Music Department's Sonic Arts Center. Maintain Center's computer network and all electronic equipment for Music Dept. Supervise all recording and rendering and software upgrades; supervise student use of Center; work with faculty. Some adjunct teaching may be possible for qualified candidates. College degree desirable with two years experience. Send letter of application, curriculum vitae, and names and addresses of three references by 12/1/98 to: Professor Barbara Harning, Chair: Music Dept. Shepard Hall, Room 77.

CLINICAL PSYCHOLOGY/DOCTORAL TRAINING PROGRAM
Research Associate. Full-time RA (35 hrs per week, including 2 nights). As Coordinator of the Psychological Center, the clinical demands of the position require an extensive knowledge of the inner workings of a multi-cultural adult child and family patient population as well as the needs of doctoral trainees in Clinical Psychology. Requires an investment in research using clinical populations and Ph.D. in Clinical Psychology from a program accredited by APA. A Ph.D. in Clinical Psychology is required. A New York State license in Psychology and 2-4 years post-Ph.D. experience with seriously disturbed clinical populations; and evidence of prior research using clinical populations are necessary. Salary: $40,000, plus benefits. Send vita and three letters of recommendation by 12/15/98 to: Professor Steve Tuber, Director: Doctoral Program in Clinical Psychology, NAC 8/119.

DEPARTMENT OF PHYSICAL PLANT SERVICES (2 positions)
Project Manager (Level III). Under direction, is responsible for the planning, coordinating and directing effective and timely implementation of the design and construction of large and complex capital projects. A baccalaureate from an accredited college in engineering, architecture, landscape architecture, business administration, or public administration, and two years of full-time satisfactory experience in the planning, administration, or engineering of complex design and construction projects is required. Salary: $52,226. Send resume by 1/15/99 to: Search for Project Manager, level II. Human Resources Department, Shepard Hall, Room 50.

Administrative Superintendent of Campus Buildings and Grounds, Level III. This is a management class position, with several assignment levels. For a detailed description visit our Web site: Salary: $54,494-$70,000. Send resume by 1/15/99 to: Search for Administrative Superintendent III, PPS, Shepard Hall, Room 50.

The City College of New York has a strong institutional commitment to the principle of diversity in that spirit, we are particularly interested in receiving applications from a broad spectrum of people including women and under-represented groups. Upon request, reasonable accommodations provided for individuals with disabilities.
MIT Media Laboratory

Two Tenure Track Faculty Positions

The Media Laboratory is seeking two faculty with records of world-class creative talent, communication skill and productivity. Candidates should have demonstrated expertise in the study of interaction, expression, communication or learning and the development of technologies related to these areas. Of particular interest are human and machine learning, common sense reasoning, auditory and visual perception, design and graphics. Applicants should have a Ph.D. degree or equivalent.

Responsibilities include teaching (graduate and undergraduate), research and supervision of graduate students. Appointments will be principally at the Assistant Professor level.

Qualified candidates should submit a resume, representative materials or portfolio, the names of three references and a concise summary of their teaching and research interests by Monday, March 1, 1999 to: Faculty Search Committee, MIT Media Laboratory, E15-218, 20 Ames Street, Cambridge, MA 02139-4307. Inquiries should be sent to: search@media.mit.edu. For additional information about the Laboratory, see our web pages: http://www.media.mit.edu

MIT is a non-smoking environment.

Massachusetts Institute of Technology

Associate EEO/AA Officer (Personnel Analyst 1, S.G. 70)

East Carolina University (ECU), a Doctoral II institution and the third largest university within the University of North Carolina system, is seeking a talented professional to serve as the University's Associate Affirmative Action, Equal Employment Opportunity Officer. The position requires a background in human resources, personnel management, and equal employment opportunity. Applicants must have a Bachelor's degree in a related field. The successful candidate will be responsible for developing and implementing policies and procedures that ensure a positive and inclusive work environment. The position is located on the campus of East Carolina University, a public institution located in Greenville, North Carolina.

Qualified applicants should apply to the Personnel Analyst 1 position at East Carolina University, P.O. Box 10058, Greenville, NC 27858-10058. Applications should be submitted by January 15, 1999. Interviews will be conducted on a rolling basis. For more information or to apply, please visit the ECU website: http://www.ecu.edu/eeo/
GRADUATE COLLEGE OF EDUCATION
Faculty Positions

- The University of Massachusetts Boston invites applications and nominations for 5 tenure-track faculty positions in the Graduate College of Education, which offers Master's and Doctoral tracks, plus an undergraduate teacher education program.

Director of the Teacher Education Program (tenured): A senior faculty position to lead the 400 student master's level Teacher Education Program (all levels), plus the undergraduate teacher education "minor." Responsibilities include teaching: development of curriculum and field sites; recruitment of exemplary teachers to offer academic courses and field supervision; recruitment of diverse, talented students; and overseeing program administration including admissions, advising and scheduling.

Qualifications: Ed.D. or Ph.D. in related area; K-12 work experiences; a positive track record of post-secondary teaching and scholarship; knowledge about issues in urban education, program planning and evaluation, and teacher education. Search Chair: Professor Suzy Groden. Search 275-140.

Assistant Professor - Teacher Education - Elementary (tenure-track): Responsibilities include teaching curriculum and instruction courses in Math, Science, or Social Studies; supervision of student teachers; outreach work with urban schools.

Qualifications: Ed.D. or Ph.D. in related area; elementary level teaching experience, preferably in a multicultural setting; some published scholarship and a research agenda; familiarity with issues of theory, policy, and practical concern for urban educators. Search Chair: Professor Suzy Groden. Search 280-140.

Assistant Professor - Teacher Education - Inclusive Teaching (tenure-track): Responsibilities include designing and teaching courses and supervising practicum experiences that will increase the ability of regular classroom teachers to meet the needs of special and heterogeneous student populations.

Qualifications: Ed.D. or Ph.D. in related area; teaching experience in schools with linguistically and culturally diverse student populations; some published scholarship and a research agenda; demonstrated expertise in special education and the ability to design and implement professional development programs. Search Chair: Professor MaryAnn Ham. Search 290-140.

Assistant Professor - School Guidance Counseling (tenure-track): Responsibilities include teaching an advising Ed.D. students in the Doctoral Program in Higher Education Administration and serving as liaison to the college's New England Resource Center for Higher Education. Candidates will also teach in the area of college counseling.

Applications are sought to send a letter describing relevant academic and professional experience to the position description for the Academic Advisor position. A curriculum vitae and three references should be submitted.

The University at Albany is an Equal Opportunity Affirmative Action Employer.

Florida Atlantic University is seeking applications for the position of assistant athletic director who will serve as the academic advisor for the department of intercollegiate athletics. The position is a 12-month, full-time administrative/academic position.

Specific responsibilities include monitoring academic performance while ensuring compliance with NCAA rules, serving as liaison with coaches, faculty, and student-athletes regarding academic issues, participation in student supervision, program assessment and career development, and assignment of internal requests. The position requires demonstrated knowledge of computers, computer applications, and effective verbal and written communication skills.

An equal opportunity/affirmative action employer. M/F/D/V.

Prince George’s Community College

PRINCIPAL OFFICER

The Board of Trustees of Prince George’s Community College invites applications and nominations for the position of President of the College. Dr. Robert J. Bickford, who has led the college for twenty-seven years, will retire from his position in June 1999.

Application Process: The Profile Brochure which contains details on the Prince George’s Community College Search can be requested by contacting: Ms. Joan Gilman, Presidential Search Liaison, Prince George’s Community College, P.O. Box 4057, Largo, Maryland 20775-0057.

For additional information, contact Elizabeth Rocklin, Association of Community College Trustees (ACCT), 1740 “N” Street, NW, Washington, DC 20036. Tel: 202/775-4667; Fax: 202/223-1297; e-mail: erocklin@acct.org

All inquiries, nominations, and applications will be held in strictest confidence. Prince George’s Community College is an equal opportunity/affirmative action institution. Applications and nominations of individuals who would increase the richness of the college’s diversity are welcome.

-Director of Educational Technology-

Under the direction of Dean of Learning Resources, the Director of Educational Technology will provide overall leadership, direction, and planning for three departments: Academic Computing, Audio Visual Technology, and Alternative Instruction. Included is supervisory responsibility for staff in areas noted.

QUALIFICATIONS INCLUDE: Bachelor’s Degree in Educational Technology of related area (Master’s desired); demonstrated leadership in implementing instructional technologies; thorough knowledge of computer equipment and software; supervisory experience; good communication skills, oral and written.

FOR FULL CONSIDERATION: Submit application form, resume, letter of interest, three (3) letters of reference, and official transcripts of all degrees by January 29, 1999. Full Human Resources at (847) 543-7065 or TDD# (847) 223-5615 for application/job posting.

DEAN—College of Agricultural and Environmental Sciences

The University of California, Davis invites applications and nominations for the position of Dean—College of Agricultural and Environmental Sciences and Associate Director, Agricultural Experiment Station/Cooperative Extension, Division of Agriculture and Natural Resources. The College and Division conduct fundamental and mission-oriented teaching, research, extension, and public service relating to all aspects of agriculture, food, fiber, the environment, and human and natural resources.

The Dean provides leadership in developing and maintaining high quality programs of instruction, research, extension, and public service. The College, Experiment Station, and Cooperative Extension to the campus and University administration and to external groups, ensures coherence of the College’s research and extension missions through administration of the Experiment Station and Cooperative Extension budgets, develops and implements policy for the College, and develops and manages college-level resources and programs. We seek candidates with a deep commitment to academic excellence who can lead the College in its continuing development. Qualifications include a distinguished record of research, teaching, and professional service; demonstrated ability for creative leadership and management; and the energy and vigor necessary to translate ideas into action. The University of California, Davis, has a strong institutional commitment to the achievement of diversity among its faculty, staff, and students and seeks an individual who shares that commitment.

Salary will be commensurate with experience and qualifications. The starting date will be July 1, 1999, or as negotiated.

Review of candidates will begin January 19, 1999. The position will remain open until filled. Nominations and applications should be addressed to:

Chancellor Larry L. Vanderhoof
Office of the Chancellor
University of California, Davis
One Shields Avenue
Davis, CA 95616

UC Davis is an affirmative action/equal opportunity employer.
Tulane University

DEAN
School of Engineering

Tulane University seeks applications and nominations for the position of Dean of the School of Engineering.

The Dean is responsible for providing academic leadership and for formulating and leading strategic planning to guide Tulane toward fulfilling its vision of excellence in research and discovery, teaching, learning, and service. Additionally, the Dean has executive responsibility for the School's fiscal and personnel matters in a decentralized management system. The Dean represents the faculty and students to the university administration while simultaneously helping implement policies and plans developed with the senior administration. The Dean also has primary responsibility for the School's development efforts and for working with all of the School's stakeholders including student, faculty and staff, alumni, the advisory board, and external agencies to enhance the quality of Tulane's education and research endeavors.

The School of Engineering has five academic departments: Biomedical Engineering, Civil and Environmental Engineering, Electrical Engineering and Computer Science, Mechanical Engineering. Programs in the departments are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET) and by the Computer Science Accreditation Commission of the Computing Sciences Accreditation Board (CSAB).

Tulane University is a private, nonsectarian university offering a wide range of undergraduate, professional, graduate, and continuing education courses for men and women. Students are selected without regard to race, sex, or religion. Tulane enrollment approximately 6,600 undergraduates and 4,000 graduate and professional students each year. About 10 percent of the student body is from 50 countries. Engineering. Tulane University is located in Uptown, New Orleans, a beautiful residential section in one of America's most distinctive cities. The area offers cultural and recreational opportunities, and the music a cuisine from the region are known throughout the world.

Applications shall be submitted by December 1, 1997, and must be received prior to the position being filled. Nominations or applications containing a resume and names of three references should be sent to:

Vermont Law School invites applications for full-time positions as Assistant Professor of Legal Writing for the 1999-2000 academic year. Assistant Professors of Legal Writing teach two sections of the second-year Appellate Advocacy course in the Fall semester and two sections of a Dispute Resolution course in the Spring semester. The appointment is for one year and may be renewed for up to three additional years. Assistant Professors work with students individually on writing assignments and evaluate written assignments. Assistant Professors develop curriculum during the Summer. Applicants must have a Law Degree, excellent written and oral skills, a strong academic record, and a commitment to working with students. Teaching, clerks or practice experience is preferred. Salary is competitive. Please submit a resume, writing sample, references, and a law school transcript to: Professor Philip N. Meyer. Vermont Law School, PO Box 96, South Royalton, VT 05068. We will begin to process applications on February 1, 1999.

Vermont Law School is an Affirmative Action Equal Opportunity Employer.
Wayne State University
Vice President for Student Development and Campus Life

Under the leadership of its new president, Dr. Irvin D. Reid, Wayne State University seeks nominations and applications for vice president for student development and campus life.

Wayne State University is a Carnegie Research University I, with an urban teaching and service mission. Wayne State is the nation’s twenty-first largest university in enrollment, its 31,000 students study in 15 schools and colleges offering more than 350 degree programs. Forty-one percent of Wayne State students are enrolled in graduate and professional programs, which makes WSU's graduate school the seventh largest in the country. Located in Detroit's Cultural Center, the university mainly serves students from the metropolitan area, but also enrolls students from most states and over 40 foreign nations.

A new position created in 1998, the vice president for student development and campus life is the university's senior officer responsible for a comprehensive program of services that complements and supports the academic mission of the university and enhances student development and the quality of campus life. Reporting to the president, he/she is responsible for the formulation, management, oversight, and delivery of services and programs designed to enhance the educational and social experience of university students.

The vice president for student development and campus life will work with the university community to evaluate and enhance services to students, foster faculty and student collaboration, and enhance the sense of campus community. Drawing on the strengths of a distinguished faculty, a rich array of undergraduate and graduate programs, and a deep commitment to the values of diversity, the vice president will have an opportunity to play a decisive role in the development of a learner-centered, urban university. The university is in the initial stages of the creation of an academic success center to coordinate and focus its advising, counseling, and retention programs.

The incumbent of this position directs the operations of the departments of the Registrar, University Advising, Academic Success Center, Retention, International Services, Student Center and Program Activities, Athletics, Intramural, and Recreation, Housing, University Counseling and Placement Services, Academic College Enrichment Services, and the University Judicial Officer.

Qualifications include a commitment to the mission and purpose of an urban university, familiarity with the goals and purposes of higher education, relevant and practical experience in the area of student development and campus life, extensive experience in the delivery and oversight of student services programs, strong planning and problem-solving abilities, considerable knowledge of student life and legal issues in higher education, sound organizational skills and ability to coordinate programs and activities, excellent communication and interpersonal skills, ability to plan, organize, and effectively present ideas and concepts to groups, an ability to work collaboratively with others, earned doctorate or its professional equivalent, with a minimum of five to seven years of progressively responsible management experience in higher education administration.

Wayne State University is an affirmative action equal opportunity employer that seeks to consider minority persons and women for its senior administrative positions. Review of candidates will begin by March 31, 1999 and continue until a suitable candidate has been identified.

Assistant Dean of Student Life

Brown University is a highly competitive Ivy League institution with a diverse undergraduate population of 5,500 students. Thirty percent are students of color and ten percent are international students. The Office of Student Life provides a wide variety of educational programs which promote student development, maintains an extensive crisis management system, and administers the University’s non-academic disciplinary system.

The Office of Student Life seeks to fill a full-time, eleven-month position. The Assistant Dean’s responsibilities include managing a large component of the residential peer counseling system and serving as liaison to the Third World community. Applicants should have a master’s degree in higher education or counseling and social work preferred and two-three years of experience in student affairs.

Interested applicants should submit a cover letter and curriculum vitae to Human Resources, Brown University, Box 1679, Providence, RI 02912. Review of applications will begin January 15, 1999 and continue until the position is filled. Brown University is an Equal Opportunity Affirmative Action Employer.
William Paterson University is dedicated to the goals of educational excellence and student success, cultural and intellectual diversity, and a reciprocal relationship with its region. The University supports a welcoming and nurturing campus climate for a diverse workforce and student body of approximately 8,000 undergraduate and more than 1,300 graduate students enrolled in nearly 50 academic programs. Celebrating 142 years of academic leadership, William Paterson University is situated on a 330-acre wooded campus in suburban Wayne, NJ, 20 miles from New York City.

COLLEGE OF HUMANITIES AND SOCIAL SCIENCES
THOMAS HAVEN, DEAN

Department of African, African American, and Caribbean Studies-
Ronaldarris, Chair
Assistant/Associate Professor, with specialization in Expressive Culture to
develop curricular links in academic/theoretical and performance aspects of African, African American, and Caribbean musical traditions, including sacred music and
jazz; and to assist in providing leadership for and promoting the Gospel Chair and
teach service courses as needed. Demonstrated teaching, research, and
performance experience required. (ABD considered as above)

Department of English-Catarina Edinger, Chair
Assistant Professor, with specialization in Composition and Rhetoric, to
teach writing and literature at undergraduate and graduate levels. Teaching
experience in the field required. Publications, and experience in instructional technologies and/or writing across the curriculum preferred. (ABD considered as above)

Department of Psychology-Thomas Minnihan, Chair
Assistant Professor, Clinical Psychology, with specialization in brief and time
effective psycho-therapies and psychological, neuropsychological, and
cerebral psychological assessment and treatment. Train in graduate programs in
teaching, research, and supervision: APA accredited department, NJ license or
license eligibility, teaching and supervisory experience, and evidence of an active
research agenda required.

WEST SIDE TECHNICAL INSTITUTE DEAN

This position will assist the President of Richard J. Daley College, one of the City Colleges of Chicago, in developing the philosophy, goals, objectives and financial base associated with the continued success of the West Side Technical Institute (WSTI), ensure adequate staffing and that programs meet the institution's goals in preparing students for successful transition into the workforce; and provide daily leadership, planning and program development for all WSTI programs and services. To succeed, we require a Master's degree in Education (or an equivalent) and 5+ years of administration experience in an educational environment. Occupational education program development, budget planning and management expertise is essential. English/Spanish biliteracy and teaching background in an urban community college environment are preferred. Doctorate degree is a plus. For consideration, send your resume to Office of the President, Richard J. Daley College, 7500 S. Pulaski Rd., Chicago, IL 60652. Chicago residency is required within 6 months. EEO/AAM/F/D/V.

The University of Tulsa seeks applications for the position of Chapman Distinguished Professor of Law on a permanent basis for the Fall, 1999.

The College of Law, now in its 75th year, has experienced substantial growth over the last decade in our law teaching, administrative, physical, and library resources. We have also attracted a faculty committed to excellence in teaching, scholarship and public service. Of particular importance to the College's curriculum are our six specialty centers leading to certificates, which include Alternative Dispute Resolution; Comparative and International Law; Native American Law; Health Law; Resources, Energy, and Environmental Law; and Public Policy and Regulation.

The Chapman Distinguished Professor of Law was established in 1984 as a natural development of our academic mission towards excellence in legal education. In 1992, the chair became a permanent position. From that date to 1997, the Chapman Distinguished Professor of Law was chaired by the late Professor Bernard Schwartz, a legal scholar, prolific historian, and Professor of Law at the University of Tulsa College of Law. Professor Schwartz was internationally recognized as a historian on the U.S. Supreme Court and an expert on constitutional law and administrative law.

In honor of Bernard Schwartz, whose scholarly work and conferences emboldened many our programs, we are seeking to fill the appointment with a person with a comparable reputation for distinguished scholarship or public service. The Chapman Search Committee would be pleased to consider candidates who have established themselves nationally or internationally in a field that complements or supplements one of our specialty centers, but is open to other areas of expertise. The committee also welcomes applications from candidates with a national reputation who are not engaged directly with the legal professional or academy.

Nominations, applications or inquiries should be directed to Dean Martin H. Belsky, Chapman Distinguished Professor of Law Search Committee, University of Tulsa College of Law, 3120 East Fourth Place, Tulsa, OK 74104, or Martin-Belsky@utulsa.edu. Fax (918) 631-3126. Applications will be accepted until January 31, 1999. For more information about the College, visit our web page at www.utulsa.edu/law.

The University of Tulsa is an equal opportunity, affirmative action employer and encourages applications from women and minorities.

Morris Avenue, Union, New Jersey 07083

Kean University is an EEO/AA Institution.
Sidwell Friends School
PRINCIPAL
UPPER SCHOOL

Co-educational Quaker day school seeks seasoned educator to serve as Upper School Principal. The Principal is chief academic and administrative officer of the high school division (400 students, grades 9-12), bearing responsibility for all aspects of curricular and co-curricular programs. He/she oversees a staff that includes the Dean of Students, Academic Dean, Director of College Counseling, Counselor and Department Heads. The Principal works closely with a variety of student and parent groups and typically teaches one class. A member of the senior administration reporting directly to the Head of School, the Principal serves on the Administrative Council and sits with the Board of Trustees.

A masters degree or doctorate is preferred, in addition to 7-10 years of both administrative and teaching experience in secondary or higher education. Familiarity with the tenets and practices of the Religious Society of Friends is highly desirable. Sidwell Friends School encourages applications from persons of color, those with disabilities and women. Compensation and benefits are competitive. Send resume and cover letter to:

Director of Personnel Services
Sidwell Friends School
3825 Wisconsin Avenue, NW
Washington, DC 20016

VICE PRESIDENT FOR ACADEMIC AND STUDENT SERVICES

Montgomery College, a two-year community college with three campuses located in suburban Washington, DC, with a credit student enrollment of over 21,000, over 15,000 continuing education enrollments, and 1,300 regular employees, is seeking a Vice President for Academic and Student Services. Reporting directly to the President, this position will serve as the chief academic officer of the institution and will provide leadership and direction of all campus and continuing education programs at the College. Working with the three campus provosts and the provost for continuing education, the vice president will function in a team-oriented, collaborative environment to foster high academic standards, student academic achievement, quality and currency of faculty expertise, and flexibility, quality, and creativity in the delivery of academic and student support programs at the College.

Qualified candidates will possess the following: An earned doctorate, at least 5 years of progressive, responsible experience in academic and student service line administration, significant college teaching experience, commitment to the philosophy of a comprehensive community college preparing to meet the needs of the 21st Century, demonstrated skill in planning, budgeting, and evaluation of academic and student development programs, strong commitment to innovative learning and teaching and to pursuing the potential of technology to support teaching, learning, and the delivery of instruction, experience in implementing faculty development programs, expertise in the design of college programs for ranges of student needs from developmental to honors, commitment to the design and delivery of courses and programs to meet the needs of the local business community, demonstrated ability to bring about constructive change using participatory processes and to work effectively with culturally and ethnically diverse students, faculty and staff, and strong human relations skills. Work experience in a multi-campus community college environment is strongly preferred.

The salary range is $76,125 - $87,000, plus benefits. Applications for this vacancy should be submitted by calling our 24-hour job line at (301) 279-5374, or by coming to the Office of Human Resources, Montgomery College, 900 Hungerford Drive, Suite 130, Rockville, Maryland 20850.

The review of applications will begin January 29, 1999.

Montgomery College is an EQUAA/Title IX employer

DIRECTOR
LONG ISLAND CENTER

The Director is the chief executive and academic officer of the Center reporting to the Academic Vice President and participates in the planning and administration of the College as a member of the President's Council. Directors provide academic leadership for the Center, supervise Center personnel, provide liaison to the College's central offices in Saratoga Springs, and administer the academic program and student services of the Center. Directors have responsibility for enrollment management, Center planning, budget and facilities, resource acquisition and outreach activities, and academic program quality.

Empire State College is a national leader in non-traditional higher education. With eight major centers located across New York State, ESC provides adults the opportunity for individualized instruction and degree programs. The administrative offices for the Long Island Center are located in Old Westbury. The center currently serves 700 to 800 students with 40 full and part-time faculty from three locations: Old Westbury, Hauppauge, and Riverhead.

Earned doctorate, substantial college level teaching, administrative experience, demonstrated interest in education of adult learners with diverse backgrounds, familiarity with learning technologies and their application, and a capacity to work collaboratively. Competitive salary and benefits. Apply by submitting letter and resume to: Dr. Marjorie W. Lavin, Vice President for Academic Affairs, SUNY ESC, One Union Avenue, Saratoga Springs, NY 12866. Review of applications will begin January 30, 1999. For more information call: (518) 587-2000, ext 263.

AA/EOE

EMPORSON COLLEGE

CHAIR, DEPARTMENT OF VISUAL AND MEDIA ARTS

The School of the Arts at Emerson College invites applications and nominations for the position of Chair of the Department of Visual and Media Arts. With over 3,100 students, Emerson College is a national accredited undergraduate and graduate institution specializing in the study of communication and performing arts. The Visual and Media Arts Department is one of three departments in the School of the Arts, with 26 full-time faculty. It offers specialization in Film, Video/Television, Audio/Radio, New Media, and Media Studies to approximately 1,087 undergraduates and 112 graduate students. Successful candidates must have evidence of the ability to provide strong leadership in scholarship and creative activities, high standards in the teaching of media art, and vision in an environment of technological change. Candidates should have excellent administrative and interpersonal skills, demonstrate superb oral and written communication skills for effective departmental (including student, staff and faculty) advocacy, and must be committed to the goals of affirmative action, cultural diversity and multi-cultural education in an atmosphere of collegiality. Applicants must hold a terminal degree and equivalent professional experience in their field. The rank is Associate or Full Professor. The salary and benefits are highly competitive. Applications will be reviewed beginning December 14 and will continue until the position is filled.

Qualified candidates should send a letter of inquiry, curriculum vitae, references, and other supporting information to: Grafton Nunes, Dean, School of the Arts, Emerson College, 100 Beacon Street, Boston, MA 02116. Emerson College is an Equal Opportunity Affirmative Action Employer focused on work force diversity. Minorities and women are encouraged to apply. Visit our web site: www.emerson.edu.

EMERSON COLLEGE

Education

Montgomery College

Vice President for Administrative Services

Montgomery College, a two-year community college with three campuses located in suburban Washington, D.C., with a credit student enrollment of over 21,000, over 15,000 continuing education enrollments, and 3,100 regular employees, is seeking a dynamic leader to serve as the newly created position of Vice President for Administrative Services. This position was created as part of a restructuring of senior level positions initiated by the new College President.

Reporting directly to the President, the Vice President will provide leadership and direction for the offices of auxiliary services, budgeting, facilities planning, construction, and maintenance, finance, human resources, information technology, planning and institutional research, and procurement. The College has a total budget of over $100 million. The vice president will function in a team-oriented, collaborative environment to assure the highest quality student, employee, and community support services.

Qualified candidates will possess the following: a Master's degree in Business Administration or equivalent in educational and experiential preparation, with appropriate additional training/education in related fields, a minimum for 5 years high-level experience in one or more of the areas to be supervised, preferably in a multi-campus community college setting; significant understanding of finance and budgeting, commitment to the philosophy of a comprehensive community college preparing to meet the needs of the 21st Century; demonstrated ability to bring about constructive change and the potential for positive, productive change. Essential knowledge and skills include: strategic planning, management, financial planning, budgeting, human resources, administrative support, and public relations. The College offers excellent benefits. Applications for this position may be obtained by calling our 24-hour job-line at (301) 279-3742 or by contacting the Office of Human Resources, Montgomery College, 900 Hungerford Drive, Suite 130, Rockville, MD 20850. Review of applications begins 1/28/96.

Montgomery College is an EEO/AA/Title IX Employer
California State University
Monterey Bay

CSUMB is a comprehensive university which values academic quality and the integration of learning, working, and residential living in a multicultural and interdisciplinary community. The campus is located on scene and is the former site of the Fort Ord army base. CSUMB is being recognized for its multicultural curriculum, commitment to metropolitan community, innovative methods for the delivery of teaching and learning, and community service as an integral part of the curriculum.

The curriculum is focused on meeting the students' educational and social needs of the 21st century. Students are required to demonstrate competencies in their chosen fields as part of an overall process to ensure educational excellence, relevance, continuous institutional renewal, and ongoing assessment of student, faculty, and program quality. CSUMB seeks faculty who are interested in joining a small, flexible community, and high quality academic community.

CSUMB is currently recruiting tenure-track faculty in the following areas for Fall 1999:

UIC
ASSOCIATE PROVOST AND EXECUTIVE DIRECTOR
URBAN HEALTH PROGRAMS
University of Illinois at Chicago

The University of Illinois at Chicago (UIC) is the largest institution of higher education in the Chicago area, one of the top 70 research universities in the United States, and an increasingly significant center for education, research, and public service. UIC is an urban, land grant, research institution whose population reflects the diversity of its setting. It serves a resident, as well as a large commuter population of students. Over a quarter of its undergraduates are over the age of 22. Many students are among the first generation in their family to attend college. To realize its mission, UIC seeks to involve itself in the educational, cultural, community, and economic life of metropolitan Chicago. This goal has made the University particularly aware of the need to ensure that the many voices that comprise this larger community are heard and heeded within the University's own population.

In 1978, UIC created the Urban Health Program (UHP) to recruit, retain, and graduate students from minority groups underrepresented in the health professions. The program also aims to provide assistance in improving health services delivery to ambulatory care facilities in underserved urban areas. The ultimate goal is to train a cadre of minority health professionals and doctoral and masters degree students dedicated to improving the quality of health care where improved health services are most needed. For more information about UHP, please visit our website at http://www.uic.edu/depts/uhp.

The Associate Provost and Executive Director for the Urban Health Programs is responsible for providing vision and leadership for the program, as well as administrative and technical support to seven College programs and three ancillary units. As part of the leadership functions, the Executive Director must create and sustain an organizational environment which encourages staff, adoption of cutting-edge recruitment and retention strategies, and linkages with university and community stakeholders. Administrative functions include planning, budgeting, and development. The Executive Director reports to the Provost and Vice Chancellor for Academic Affairs and works closely with the UHP Management Team, the UHP Executive Committee and the UHP Community Advisory Committee.

A Master's or terminal professional degree is required. Candidates with a doctoral degree or qualifications commensurate to holding a faculty position will be considered for faculty status. The ideal candidate will have excellent communication and interpersonal skills and demonstrated experience in administration, including preparation of annual budgets and long-range financial planning (preferably in health educational programs), developing and sustaining a culture of teamwork aimed at innovation and productivity, working with diverse communities and educational groups, developing and evaluating recruitment, retention, and support services initiatives, program assessment, designing admission policies which include alternative criteria, working with longitudinal student databases for multiple disciplines, program planning and management and assessment, and supporting the development and analysis of scholars research. Affiliations with appropriate professional organizations are also desirable.

Send letter of application, resume, and one-page statement of applicant's vision for the Urban Health Program's Executive Director position to:

Darnell Hawkins
Chair, UHP Search Committee
University of Illinois at Chicago
Office of Academic Affairs (UIC 105)
601 S. Morgan Street, Room 2258 University Hall
Chicago, IL 60607-7127

Applications will be considered immediately and continue until the position is filled.

The University of Illinois at Chicago is an Affirmative Action/Equal Opportunity Employer. Women, minorities, and people with disabilities are strongly encouraged to apply.

MILLERSVILLE UNIVERSITY
DEAN
GRADUATE STUDIES & EXTENDED PROGRAMS

Millersville University of Pennsylvania invites applications and nominations for the position of Dean of Graduate Studies and Extended Programs. Millersville enrolls approximately 7,500 students and is located in Southeastern Pennsylvania within convenient traveling distance to major East Coast hubs: 90 minutes to Baltimore, two hours to Philadelphia, three hours to New York City and the Atlantic Ocean beaches. Nationally ranked as one of the top regional public institutions of higher learning by U.S. News and World Report, the University is also listed among Kaplan's top 100 value public institutions. Millersville is highly regarded for offering quality instructional programs at a reasonable cost to its students, consistent with its strong commitment to diversity and teaching excellence. The graduate program offers a spectrum of regionally recognized programs for its 950 graduate students in 22 master's postbaccalaureate certification, 14 supervisory certification and 1 post baccalaureate certification programs. Because of its location and the quality of its faculty, the University has significant potential to develop new and innovative graduate programs. The University also serves as a major provider of a considerable number of continuing education programs for school district businesses and governmental agencies within the region.

The graduate dean, who reports to the Provost and Vice President for Academic Affairs, will provide vision, leadership and advocacy for Millersville's graduate and continuing education programs, faculty and students.

QUALIFICATIONS: Candidates must possess an earned doctorate, a record of quality scholarship, teaching experience at the graduate level within a degree program, and service in higher education, a demonstrated commitment to faculty development, the liberal arts and academic freedom, professional standards, excellence in graduate and extended programs and ensuring quality programs and services to students, and a successful interview.

Candidates need to present a record of leadership that suggests likely success in administration of graduate and extended programs. These leadership qualities include the ability to support existing programs and assist in responding to regional needs for both traditional and innovative programs that meet high standards of academic excellence and to work effectively with the academic deans of the three schools and the Graduate Course and Program Review Committee to advocate best practices in a variety of disciplines. The successful candidate will be expected to provide leadership in program development and academic governance and fiscal management and analyze and communicate the programmatic and resource implications of curricular and faculty governance relationships with external community organizations.

Candidates must be able to assume a university-wide perspective and work and communicate effectively with faculty, students, administrators and a public with diverse backgrounds, perspectives and multiple needs. The dean must encourage and promote the recognition, understanding, and respect of cultural and human diversity and must be committed to increasing diversity within graduate studies and extended programs. A capacity and willingness to foster creative consensus as well as foster a healthy climate for debate, solve problems and assume responsibility is essential. The ability to function effectively in a team-oriented collegial environment is crucial.

NOMINATIONS AND APPLICATIONS: Applications should include a letter detailing qualifications for the position, a resume, and the names, addresses, and telephone numbers of at least three professional references. Full consideration will be given to complete applications received by 2/5/99. Electronic submissions will not be accepted. Nominations and applications should be sent to:

FINE ARTS

Pending approval and funding, the Department of Fine and Performing Arts at the University of San Francisco invites applications for a two-year term position in Fine Arts to teach in its Joint Bachelors of Fine Arts and Joint Bachelors of Architecture Degree programs with California College of Arts and Crafts (CCAC) at the Assistant Professor level. Anticipated to begin in Fall 1999. The Joint Degree Program brings together two of the Bay Area's premier educational institutions in an innovative, collaborative approach to arts education.

Responsibilities may include inter alia, teaching the Introduction to the BFA Program class "The Artist, Ideas and Ideologies," which introduces new BFA students to a wide variety of questions about the artist's role in history and contemporary society; developing, coordinating, and teaching a new Arts Outreach course that will be placed and supervising upper division BFA and B.Arch students in community service learning contexts; developing curriculum for and teaching an upper division core course that will explore ethical issues in architecture and the visual arts; collaborating with USF and CCAC faculty on committees that define and promote the program's goals; and advising students.

Qualifications include university teaching experience, a strong commitment to teaching and scholarship, a terminal degree awarded by Fall 1999, experience working in community settings, experience in curriculum development and service learning projects, knowledge of and significant contacts in the San Francisco Bay Area arts community, experience in visual arts and architecture, experience working in a culturally diverse environment, and an understanding of and commitment to support the mission of the University.

Applicants must submit a letter of application, curriculum vitae, graduate transcripts, copies of recent publications, a statement of teaching philosophy, copies of complete teaching evaluations and recent syllabi, evidence of community-based experience in arts and education, and three letters of recommendation to:

Fr. Tom Lucas, S.J.
Department of Fine and Performing Arts
University of San Francisco
2130 Fulton Street
San Francisco, CA 94117-1080.

Applications must be received by January 15, 1999 in order to ensure full consideration.

The University of San Francisco is an Equal Opportunity and Affirmative Action Employer and will provide reasonable accommodations to individuals with disabilities upon request. We particularly encourage minority and women applicants for all positions.

VICE PRESIDENT FOR ACADEMIC AFFAIRS

Loyola College in Maryland seeks nominations and applications for the position of Vice President for Academic Affairs to assume office on July 1, 1999.

Founded in 1852, Loyola College is a Jesuit liberal arts comprehensive university located in a beautiful residential section of Baltimore. With an annual operating budget of $416 million and total sponsored programs of $677 million, Loyola enrolls over 5,000 students in its graduate and undergraduate programs. Loyola College enjoys a ranking of third among the 142 regional universities in the North in the 1998 U.S. News and World Report rankings of America's Best Colleges.

As the chief academic officer, the Vice President for Academic Affairs reports directly to the President and is charged with the development, implementation and assessment of all academic programs and activities, both undergraduate and graduate, within the College of Arts and Sciences and the Keating School of Business and Management. The VPAA provides leadership to the academic division and is actively engaged in long-range planning, budgetary and fiscal decision making, faculty development, institutional research and assessment. The VPAA directs supervises the academic dean and through them all academic departments and programs. Also reporting to the VPAA are enrollment management and financial aid, the Center for Values and Service, and the offices of Multicultural Affairs, Institutional Research, and Records. The VPAA directs the College's academic assessment and functions at the strategic level.

The VPAA chairs the Loyola Conference and the Council of Department Chairs, and represents the academic division in the governance of the Loyola/Notre Dame Libraries. The VPAA serves as acting president in the absence of the President, cooperates with elected and appointed officials in advancing the College's goals, and represents the academic division of the College to the local community, students, prospective students and alumni.

The successful candidate will possess an earned doctorate and will have a record of teaching and scholarship that warrants appointment to an academic department at a senior rank. The candidate should have a record of successful administrative leadership at the level of department chair or higher, and should be thoroughly familiar with and committed to the ideas and traditions of Jesuit and Catholic higher education. A strong academic vision, capacity for innovation and proven commitment to all aspects of diversity and inclusiveness are essential.

Interested candidates should forward a letter of application and curriculum vitae Review of applications will begin on January 6, 1999 and will continue until the search is completed. Nominations and applications should be addressed in confidence to:

Ms. Donna Schmitz, Secretary to the Search Committee
President's Office, Loyola College in Maryland, 4501 N. Charles Street, Baltimore, MD 21210-2699

Visit our website at http://www.loyola.edu

Loyola College in Maryland is an equal opportunity, affirmative action employer that welcomes applicants from all traditions who can contribute to our unique educational mission.

Texas A&M University-Corpus Christi
Dean-University Outreach

Texas A&M University-Corpus Christi is searching for a Dean of University Outreach. This dean provides leadership, vision, supervision, and administrative oversight for programs related to the service mission of the University and is responsible for coordination of conferences and institutes, continuing professional education, sponsored programs and workforce development.

The Dean supervises University Outreach staff and programs, promotes positive working relationships with external constituencies, identifies community and regional needs and opportunities, serves as liaison between the community and the academic Deans, participates with University administrators in team planning and problem solving, coordinates the development of Outreach goals and plans, and administers the Outreach budget. The Dean of University Outreach reports directly to the Provost.

The qualifications for the Dean of the University Outreach are as follows: the ability to communicate with potential students, public school district personnel, and members of the business community; the ability to analyze and interpret financial reports and legal documents; and the ability to effectively present information in written and verbal formats to senior university management and community groups. A graduate degree is required, an earned doctorate is preferred. The candidate should be able to demonstrate evidence of substantive leadership in a major community initiative and successful administrative experience in an academic environment. An understanding of the educational challenges of the South Texas region is preferred.

Texas A&M University-Corpus Christi has 6,400 students and 270 faculty and is one of the fastest growing universities in the State of Texas. It includes the College of Arts and Humanities, the College of Business, the College of Education, and the College of Science and Technology. During the past two years, the University was named as the top public regional university in Texas in U.S. News and World Report’s America’s Best Colleges. The University is in a picturesque setting on an island surrounded by Corpus Christi Bay and Oso Bay. Texas A&M University-Corpus Christi is dedicated to providing higher educational opportunities to the South Texas region, particularly to those qualified individuals who are historically under-represented in the higher education community.

Applicants should submit a letter of application, curriculum vitae, and names, address and phone numbers of three professional references to: Dr. Sandra Harper, Provost and Vice President for Academic Affairs, Texas A&M University-Corpus Christi, 6300 Ocean Drive, Corpus Christi, Texas. Review of applications will begin on December 21, 1998 and continue until the position is filled.

Texas A&M University-Corpus Christi is an Equal Opportunity Employer committed to diversity.
FEATURES
Changing the Face of Business
Matchmaking corporation brings business to underrepresented minorities and other corporations

An Afternoon with Edward James Olmos
Olmos stands and delivers an empowering message to at-risk students

Grants and Student Loans for FY’99

By Gustavo A. Mellander

The U.S. DOE has issued its "grants forecast," identifying likely programs and award competitions for FY’99. Published in the Federal Register (Volume 63, Number 212, pages 59,335-59,455), the forecast includes for each program the contacts, due dates, and estimated number and size of awards. They are managed by the department’s six principal offices. An updated forecast is to be available online in February at <http://ocr.ed.gov/grntinfo/forecast/forecast.htm>.

Programs below are of particular interest to Hispanics in higher education.

OFFICE OF BILINGUAL EDUCATION & MINORITY LANGUAGES AFFAIRS

Bilingual education is under attack in several states, but many research and training programs are still being funded by the government.

8.2.199-Q BE State Grants
8.2.195A BE Teachers & Personnel Grants
8.2.195C BE Training for All Teachers
8.2.195C BE Graduate Fellowship
8.2.195E BE Career Ladder
8.2.2008 BE Program Devl & Impl
8.2.200P BE Program Enhancement
8.2.290 BE Comprehensive School Grants
8.2.291BE System-wide Improvement Grants
8.2.292A BE Field Initiated Research
8.2.293A BE Foreign Language Assistance/LEA

OFFICE OF EDUCATIONAL RESEARCH & IMPROVEMENT

Given present and projected K-13 enrollment increases, policymakers are scrambling to prepare for the next reality. Hispanic students are expected to increase dramatically. How will their needs be met? Several programs address that question and encourage “out of the box” solutions.

8.2.203A Star Schools—General Grants
8.2.21A Partnerships in Character Ed
8.2.28A 21st Century Community Learning Ctrs
8.2.305A Technology Innovation Challenge Grants

OFFICE OF ELEMENTARY & SECONDARY EDUCATION

Our Hispanic population still is young. Most are under 25. They will be in our colleges, if equity and fairness prevail.

8.4.004D Civil Rights Training & Advis. Services/Equity Assistance Centers
8.4.005A Women’s Ed. Equity Act— Implement
8.4.003B Women’s Ed. Equity Act Program—R & D
8.4.191A Migrant Ed—High School Equiv.
8.4.191A Migrant Ed—College

Assistant Migrant OFFICE OF POSTSECONDARY EDUCATION

Will the necessary and adequate programs await Hispanic students? To address that and related questions, a variety of programs will be funded—some new, some old. All have new guidelines.

HIGHER EDUCATION PROGRAMS (HEP)

8.4.016A Undergraduate Intl. Studies & Foreign Language (Single Inst. & Consortia)
8.4.017A Intl. Research & Studies
8.4.019A Fulbright-Hays—Faculty Research Abroad
8.4.021A Fulbright-Hays—Group Projects Abroad
8.4.022A Fulbright-Hays—Doctoral Dissertation Research Abroad
8.4.031A Strengthening Institutions (Devel. & Planning)
8.4.031H Institutional Aid—Eligibility
8.4.031S Strengthening Institutions—HISIs
8.4.047A Upward Bound
8.4.047M Upward Bound—Math/Science
8.4.120A Minority Science Improv. (Institutional, Design, Special & Cooperative)
8.4.155A Business & Intl. Ed.
8.4.21A Ronald E. McNair
8.4.22A CTR for Intl. Business Ed
8.4.29A Inst. for Intl. Public Policy

FUND FOR THE IMPROVEMENT OF POSTSECONDARY EDUCATION (FIPSE)

Many Hispanic-Serving Institutions (HSIs) have benefited from these grants, which can be specifically tailored to Hispanic students and communities.

8.4.110A Comprehensive Prog.
8.4.110J Joint US/EU Consortia for Cooperation in Higher Education and Vocational Education
8.4.110P Disseminating Proven Reforms
8.4.110R Controlling Cost of Postsecondary Ed.

OFFICE OF VOCATIONAL & ADULT EDUCATION

Teacher Prep. Ed.
Demonstration Grants
Adult Ed. Grants for ESL.

532
**STUDENT LOAN ALERT!**

The 1998 Higher Education Amendments (HEA) allow many graduates and current students to cut interest costs on student loans, dropping the interest rate from 8.25 to 7.46 percent and extending this rate for 5 years on new loans. To refinance at the favorable rates, you must act before January 31.

The mechanism is loan consolidation, which may extend your repayment period, allow you to repay your loan as a share of your income, and—in many cases—give you a break on interest costs.

Consolidations are available from the DOE’s Direct Loan program and from private FFEL lenders. The rate is lower than that of most existing Direct and FFEL loans. Most students save about $50 per $1,000 of debt over the life of their loans. The interest rate is recomputed annually, but would be based upon a lower interest rate formula for the life of your loan.

To inquire, call the DOE’s Direct Loan Origination Center at 1-800-557-3922, download an application from <http://www.ed.gov/DirectLoan>., or call your FFEL lender.

There is no consolidation fee and no minimum or maximum loan balance. You may choose from several repayment plans and may prepay at any time. Not all are eligible.

Changing the Face of Business

BY JANET HARRELL

Aesop, of Fables fame, once advised, “Be content with your lot; one cannot be first in everything.” In 550 B.C., that was probably good counsel. But in today’s increasingly diverse workplace, where finding, recruiting, and retaining the best minority candidates can mean competitive advantage, being first is everything. Globalization has changed the face of U.S. business, and Corporate America is fully aware of this change. Powered by a compelling business need for a highly trained, racially mixed, equitable workforce, companies have begun to aggressively recruit qualified Hispanic Americans for high-level jobs—not just because it’s the right thing to do but because it makes good business sense.

Mastering the MBA

Despite Corporate America’s best intentions and pressing business needs, however, there are still relatively few Hispanic candidates qualified for high-level positions. Why? Because one of the things that qualifies people for such positions—the MBA—is often not as easy for minority candidates to pursue.

While some might argue that the MBA’s ubiquity has rendered it inconsequential, for Hispanic Americans it remains the key that opens the door to management in a corporate world not immune to racial bias. Fortunately, for both Hispanic professionals and the companies seeking to hire them there is the Consortium for Graduate Study in Management.

For more than three decades the Consortium has been leading the effort to create a more equitable, more diverse workforce in America. Sponsored by eleven of the nation’s top graduate business schools and nearly 200 of the nation’s major corporations, the Consortium encourages the most talented students to pursue career in business and offers graduate business school fellowships.

Geographically and philosophically diverse, the Consortium’s large and small, public and private institutions boast some of the nation’s top business education programs. And an MBA from the right school can be a powerful...
The Corporate Connection

Employers recognize the Consortium as an excellent source of talented MBAs. Consortium Fellows' resumes are available to corporate sponsors. Recruiters from sponsoring companies also visit the member school campuses to interview students for summer internship positions and career employment.

All Fellowship recipients are required to attend a three-day orientation program in June prior to beginning graduate study. Here, fellows interact with corporate representatives from Consortium-sponsoring companies. University representatives attend to welcome the new Fellows. The program is designed to prepare the students for issues encountered in their MBA program and careers. It also serves as a unique networking opportunity.

Understandably, the Consortium's recruitment support has Corporate America quite interested. But it is its unique ability to give companies the opportunity to recruit these candidates early—many a year ahead of competitors—that has Corporate America singing its praises.

"They're incredible," says Isaias Zamarripa, recruiting manager at Amoco Corporation, a global producer of oil, natural gas, refined products, and chemicals, with annual revenues of more than $30 billion. "The Consortium's annual orientation program and career forum is one of the best places we've found to identify and recruit minority leaders. The key is early identification: the companies that identify candidates first are typically the companies that get those candidates.

The Consortium puts us in the enviable position of being able to make offers to candidates who haven't even started business school yet. They've already shown the right work ethic and some success in the workplace, and we have an opportunity to recruit them prior to their completing the final step, the MBA."

Glenna Anderson, minority recruiting manager at Procter & Gamble, the Cincinnati, Ohio-based company that markets more than 300 brands to nearly five billion consumers in more than 140 countries, agrees. "The Consortium is the only organization I know of that helps you identify attractive candidates before they start business school. It's a weed-out process. You get to see the candidates at a more crucial stage—right after their first year of graduate school.
The Value of Intellectual Property

According to Anderson, the Consortium for Graduate Study in Management not only helps its sponsors identify Hispanic candidates early—it also helps them find people they might otherwise miss. One good example is Jorge Silva.

"Jorge earned an undergraduate degree from Yale and a law degree from the University of Puerto Rico," she explains. "Since Procter & Gamble usually hires from campuses, our recruitment net probably wouldn't have caught somebody who was a practicing lawyer in Puerto Rico."

Fortunately for Procter & Gamble, Jorge Silva was interested in going to business school. He contacted the Consortium for Graduate Study in Management—and the rest is recent history.

"Jorge came to work with us as an intern, earned an MBA at University of Texas at Austin's Graduate School of Business—a Consortium-member university—and came back to work for us as an assistant brand manager," says Anderson. "That J.D. degree might have kept us from ever knowing about him if not for the Consortium."

Strength in Numbers

Bringing together corporations and the best and brightest minority talent is the Consortium's most visible effort. Its most elemental, however, is helping to build a network of minority professionals that spans companies and geographical boundaries.

The Consortium's corporate sponsors recognize the value of this network. Not only does it make their minority employees happier—and thus more likely to stay with a company that makes it possible—it also helps open the door to still more minority candidates.

"One of the best Hispanic candidates we've secured through the Consortium is José Bolívar," says Amoco's Zamarripa. "Sharp, bright—José was identified early, offered an internship, and is now working in our financial division. But, more importantly, he's working with me and the Consortium and traveling to Latin America to recruit more excellent Hispanic candidates.

Recruitment Done Right

While Consortium Fellows are not required to work for sponsoring companies at any time, many choose to do so. Indeed, 95 percent of Consortium graduates start their careers with sponsors, and former or current sponsors currently employ 85 percent of Consortium for Graduate Study in Management alumni.

Since its inception, the Consortium has increased the number of Fellowships ninefold—diverse workforce is the greatest challenge facing Corporate America today," stated Dr. Phyllis Bufer, CEO of the Consortium for Graduate Study in Management. "Companies like Amoco and Procter & Gamble are great examples of what it means to be proactive."

"They're actually doing something," she says, "to create a workplace environment that is inclusive at all levels."

From early identification, through internships, to recruitment and retention—the Consortium continues to bring together the country's top Hispanic professionals and the corporations intent on hiring them. And that, says Zamarripa, is exactly what should be happening.

"We know that whoever makes first contact has the best chance of getting the candidate. So we're investing our efforts and dollars in the Consortium so we can be among those who make that first contact. That's the way recruitment is supposed to work."

For more information, contact Dr. Phyllis Bufer at (814) 935-8712 or visit the Consortium Web site at <www.cgsm.wustl.edu>
An Afternoon with Edward James Olmos

Empowering the Young

By Patricia Hanson

"Those of us who can speak more than one language are the future. You have a distinct advantage over your English-only brothers and sisters." 

Edward James Olmos

Fifteen hundred brown-skinned, dark-eyed, dark-haired middle and high school children waited patiently in an auditorium in Salinas, California, for an hour because he missed his plane in L.A. They had seen him in Selena, Mi Familia, American Me, and in Stand and Deliver, which is required in their elementary school math classes. Some of their teachers might even have seen him on stage in Luis Valdez’ Zoot Suit, or remembered him as the dour Lt. Castillo on Miami Vice in the ’80s, or for his bit parts in Blade Runner or on Hill Street Blues.

But probably few in the energetic audience knew he’d earned two master’s degrees, one in sociology and one in theatre, from UCLA, and had been awarded five honorary doctorates from universities around the country. Even fewer would have read of two or more to his list for his work during the L.A. riots, initiating community-wide cleanup, and of his other humanitarian efforts—talking his message about Mexican-American heritage and educational empowerment to schools and at-risk kids two or three times a week some 52 weeks a year.

Edward James Olmos has been honored by the NAACP for his leadership in multicultural units; he has been given the Harvard University Multi-Cultural Award and the Hispanic Heritage Award; a national honor granted by representatives of both the private and public sectors, has received the John Vison Ford Award from the Los Angeles Commission on Human Relations for his outstanding and consistent efforts to raise awareness to the need for harmonious and sensitive intergroup relations, and the promotion of civil rights for all.

When he arrives onstage, he asks for the auditorium lights to be up full blast so that he can see into the eyes of the children. He asks them to look right at his eyes so they can each connect and get the energy for one moment in time. He admits to growing up in East L.A. to not being born with any natural talent for the theatre and to being dyslexic in school. He shares that he reads every day and makes that a priority.

He lets us know that early in his life when he heard people who spoke English with an accent (whether it be German Chinese, or French), he thought they were smarter than he was because they could speak in two languages. Those who spoke both languages perfectly especially impressed him. He shares at the growing national movement to dismantle bilingual education that started in California, the most multicultural state in the nation.

"Who put those two words together?" he shouts at the audience. "Those of us who can speak more than one language are the future. You have a distinct advantage over your English-only brothers and sisters. I give you the rites of passage to grow up and be all you can be."

Olmos passionately, unashamedly makes many of us “Spanish-unimpeded” Anglo adults in the audience feel very uncomfortable. It is our turn to feel racism in reverse. It is our turn to mourn the parents of Chinese, Hispanic, African American heroes that we had never been taught about in education. Our turn to shake our heads and look down, sad to admit to the empty, bland “dict” that he called the 200 years of European American studies we’ve been fed in our schools.

To make his point, he acts out a scene about a time when he was cutting the twenty-million-dollar deal to produce his controversial movie about Mexican gang America Me. The owner of Universal Studios at that time was Japanese. Olmos moves around as an imaginary corporate conference table on the stage and mimicks the studio owner who shook his hand and said, “Very good, Mr. Olmos” in him in English, but then turned his back and spoke to him staff in Japanese. He mimicks the German financier who also said, “Very good, Mr. Olmos.” in English, and then whispered to him staff in German, and he mimicks the French investor who did the same. Then, to make the point about his own literacy self-confidence, Olmos shows how he shook their hands and said, “Very good” in English, and then turned to his own staff and said, “Comprendre, est chingada.” The audience, shocked but bowled over with laughter, gives it. Olmos shares that if they’d only understood the expression he used for this great, he’d never have gotten the deal.

Mr. Olmos, a master of timing keeps all 1,500 pairs of eyes at him. He whispers and shouts “look at me and give me your eyes” control the hordeous young crowd.
After the laughter quiets down, he keeps the rapt attention of all the teenagers in the room. "Go out there," he says, "it's important to release, but come back right away. Our time is precious together."

The room quiets instantly as Edward James Olmos goes on to talk about his ancestry. "Roots," he says, "are the single most important aspect of living. First we have to know where we came from. Then we can deal with where we are going with our future.

"I am a Mexican American, a Chicano, born in America of parents of Mexican ancestry."

"How many of you are Mexican American?" Fully two-thirds raise their hands. "And do you know what a Mexican is?" he challenged this young, very rapt audience.

"A person who is half-white and half-red. My ancestors come from the Maya, the Yaqui, the Rupajal, the Toltecs, even the Apache, the Cheyenne. They go on and on and on over 40,000 years."

"I love my whiteness AND I love my redness."

"How many of you saw Selena?" At least three quarters of the hands go up. "It's like I said as her father: It's really hard being raised here to love both our Mexicananness and our Whiteness, but we must.

"Without two people coming together—a red-skinned and a white-skinned—I would not be the brown tones that I am, that we are.

OLMOS, MORENO, SANTANA, AND BINGAMAN

Edward James Olmos, Rita Moreno, and Carlos Santana are not only three Latino superstars—they also are intensely committed collaborators in a dropout prevention program designed to encourage Latino youth to persist in school through grade 12 and beyond. Santana wrote the music for Caida cabeza Es un Mundo, an award-winning film focusing on four Hispanic youths who overcame many obstacles to complete their education.

Last spring, Olmos spoke with middle and high school students from Los Penasquitos, Questa, and San Luis in New Mexico as part of his personal effort to reduce violence among youth. And last June, Moreno joined U.S. Senator Jeff Bingaman, members of the Hispanic Caucus, and other Latino leaders in Washington, D.C., to renew a call to action to curb the nation's alarming dropout rate.

The dropout problem is a crisis for Hispanic high school students, who fail to graduate at a rate more than four times higher than the national average for White students.

When we look at the problems facing our education system today, there is no more serious threat to the future of our young people than the school dropout problem. We can train more teachers and put more computers in schools, but if the student isn't in the classroom, it really doesn't matter. Yet somehow, this problem keeps slipping off the national radar screen.

Bingaman, author of the National Dropout Prevention Act, recently wrote to the President asking that he host such a conference.

"Almost 10 years ago, President Bush and the nation's governors established a national goal of graduating 90 percent of high school seniors by the year 2000. Despite that bipartisan commitment to addressing the problem, dropout rates have hardly improved at all in the last decade, and there is too little attention focused on the problem," Bingaman said.

Nationwide, more than 500,000 students drop out of school each year without graduating, and there are nearly four million young adults without high school degrees or GEDs. And while the overall dropout rate for White students is 7.5 percent, the rate for Hispanics is nearly 30 percent. The dropout rates for Hispanics remain higher regardless of when they immigrated to the U.S., what language they speak at home, or how much money their parents earn.

Bingaman and Hispanic leaders also called on President Clinton to convene a White House summit on the school dropout crisis to raise awareness about the problem. He and 5 members of the Senate and House had written to the President asking that he host such a conference.

"Clearly the heavy lifting will be done at the local level. But we can help by providing resources to help schools implement reforms and by spreading innovative ideas that have worked in other communities. Above all, we must recognize that the dropout problem is not about students failing school; it's about schools failing students," Bingaman said.

At that same press conference Rita Moreno described the dropout prevention project to which she, Olmos, and Santana give their time.

Developed by the California-based Hispanic Education and Media Group, the project is a comprehensive curriculum that challenges Hispanic students to compete academically and trains teachers not to lower expectations for Hispanic students. The project was at that time being utilized by several school districts in eight states.

"My concern," said Bingaman, "is that without a national goal, plan and resources dedicated to the dropout prevention problem the innovations that are occurring at the grassroots level will not reach as many students as is needed and many might even die of the virus. It's time to get serious about dropout prevention."

For now, Rita Moreno, Carlos Santana, and Edward James Olmos are taking their message directly to the students.
The Graduate School at the City University of New York (CUNY) does not offer a degree in the study of philanthropy. Nevertheless, it does house a Center for the Study of Philanthropy, a haven for research to guide students interested in tracing the history—and tracking the future—of nonprofit generosity.

"We now have between 30 and 50 graduate students involved in research," says Dr. Eugene Miller, the center's assistant director. "There are a number of research projects being run. For example, a major bibliography, one that includes citations and abstracts, that looks at the operation of philanthropy in civil society and in minority communities, and at how philanthropy works to build communities."

The work that goes on inside the Center can easily reflect the work that goes on behind the scenes to promote such research. Philanthropy via grants, and scholarships bestowed by foundations. More than $100,000 private, community, and corporate foundations make grants for charitable purposes nationally.

One of the world's largest, the W.K. Kellogg Foundation, which is private, has targeted such work and earmarked considerable funding to projects that improve opportunities for Latino, African American, and other minority students.

"The Kellogg Foundation is very interested in changing the institutional culture of the university," Miller says. "What they want to do
and what this project is designed to do is to make education more immediately relevant to the needs of the community, and they see the needs of the community as being expressed by nonprofit organizations."

Much of the research can commence because of a sizable five-year grant afforded by the foundation. In 1995, Kellogg awarded the midtown Manhattan-based Center $1.5 million to develop a broad range of materials for undergraduate and graduate studies.

"It's really through that grant that we were able to build our multicultural philanthropy," Miller says.

Kellogg has strained to promote diversity—and the understanding of it—through a wide range of projects. It was established in 1930 by cereal industry pioneer W.K. Kellogg, who donated more than $60 million in company stock and investments and sought to focus the money on the lives of people.

Since then, the Kellogg Foundation based in Battle Creek, Michigan has evolved to encompass programs that promote the health and education needs of youth. Over the last seven decades, the foundation has administered more than $2.295 billion in grants, scholarships, and other efforts.

During fiscal 1995 alone, the foundation made payments of $65 million to youth and education and higher education programs and $17 million to philanthropy and volunteerism programs. Much of the latter work began in the late 1980s—an emphasis that solidified in 1990 with the creation of the Philanthropy and Volunteerism Program Area.

The issue of capitalizing on diversity carries a high profile across the foundation, said Robert F. Long, of the Kellogg Foundation. "I think that foundations can play an important role as a catalyst in helping faculty gain support, recognition, and opportunity to do the needed research and teaching."

When it comes to promoting opportunities for minority students, Long believes that "foundations can help institutions recognize the benefits and opportunities for work in this area. The hope is that this will lead to changing priorities and raise the profile of this work."

Kellogg has spent the last decade wearing minority-student development into a number of strategic plans. The foundation has sought to increase the ability of colleges and universities to prepare professionals, particularly Latino and African American ones, to work in the nonprofit sector.

That would fill a large gap. The Council on Foundations recently reported that only about six percent of full-time paid chief executives are people of color. More than two-fifths of them head corporate grant-making programs. A smaller proportion head community and independent foundations.

Only one family foundation and no public foundations reported having a minority chief executive officer. As for Latino representation in the ranks of full-time paid CEOs during 1997, their numbers totaled fewer than a half-percent.

The Kellogg Foundation has noted this disturbing trend and recently provided a $500,000 grant to the Nonprofit Academic Centers Council, which represents the leading programs of study in this field. The grants supply scholarships—none, for $12,000, was awarded to CAYA's Graduate School—to assist minority students.

"The focus goes beyond minority student support to incorporate the broadest definitions of diversity," Long says.

Kellogg's philanthropic track record is one of the most charitable in the world. The 1998 edition of Giving USA, by the American Association of Fund-Raising Council's Trust for Philanthropy, ranks Kellogg third in its grants.

During 1997, Kellogg administered $271 million in grants, a seven percent increase from the previous year. Some of its work includes:

- Playing a key role in fostering the service-learning movement in the United States, which encourages students to perform service of "real value" in their communities during their formal school curriculum. It bestowed two grants to the National Youth Leadership Council to create "generator schools" in which service-learning principles are taught.
- Supporting The Family Matters program of the Points of Light Foundation, which has spearheaded a national family volunteerism effort, and the HERO program in Flint, Michigan, which provides community-based ways to combat homelessness.

- Creating the Michigan Community Foundations' Youth Project through a $2 million grant. The Kellogg Foundation has since added nearly $50 million to the project, which supplies challenge grants to create community foundations and recruit young people into the field of fund-raising and grant-making.

As what Long calls a "good corporate citizen," Kellogg has also helped to establish the Foundation Center, the Council on Foundations, and the National Center for Nonprofit Boards.

The foundation has long been committed to help nurture the underlying principles of philanthropy and volunteerism, which are so essential to this sector and the subsequent quality of life in communities," Long says.

We have sought to do three things with our related programming efforts: increase participation by individuals, increase the resources available to support work, and improve the institutions through which the work occurs."

The higher education institutions are viewed as key," he says, because "they seek to improve
“The issue of capitalizing on diversity carries a high profile across the Foundation,” said Robert F. Long, of the Kellogg Foundation. “I think that foundations can play an important role in helping faculty gain support, recognition, and opportunity to do the needed research and teaching.”

understanding of the field practice through research and teaching, while providing services to those engaged in the efforts on behalf of the community.”

The effect is tangible at CUNY and at a dozen other institutions that conduct research on philanthropy. Since 1989, the Kellogg Foundation has invested $15 million in projects to establish such centers on philanthropy and volunteerism.

For instance, the money has helped to create the St. Louis Nonprofit Consortium, which links the programs of four universities and eight management support organizations, and to found the Johns Hopkins University Institute for Policy Studies graduate program, which provides students with a curriculum focused on the leadership and management challenges of nonprofits.

“Students can understand more clearly the role of giving and money and how that affects the development of various communities,” says Dr. Miller, who’s been involved with the Center for the last two and a half years.

“Because minorities in some communities tend to be in need and economically disadvantaged, in order to strengthen these minority communities, it was important that the nonprofit sector be strengthened, and it was important that the minority nonprofits be strengthened,” Miller says.

“That really lead to this initiative to try to entice or draw in good students—good students who happen to come from minority communities—who want to work in a nonprofit field, to draw them into institutions that offer a degree in

nonprofit management or who study the third sector.”

Long called CUNY’s Graduate Center a “good illustration” of how such philanthropic efforts, coupled with a desire to improve opportunities for minorities, can work. By bringing more students into the fold, there is a greater likelihood of increasing the now-scarce numbers of minority scholars and faculty who study and teach in the programs of study.

“CUNY would receive a grant of this type because of its research commitment,” he says. “And the subsequent access it would provide to emerging minority scholars to support efforts to fill the gaps in the body of knowledge.”

John Gutierrez, a 28-year-old student from Newark, New Jersey, is a prime example of how Kellogg's generosity has helped to raise awareness, improve opportunities, and bring results beyond the college walls.

A student at CUNY’s Graduate School, he is now working with the Center to create a bibliography and curriculum guide on Latinos and philanthropy in the United States.

“As I see it, we’ve had this 30-year growth period in nonprofit organizations in the United States,” he says. “We have a lot of research on the development of philanthropic organizations in England, in Colonial America, but we don’t know who’s doing what and why in terms of Latino philanthropy. This is definitely the first time we will have a list of materials.”

Kellogg is pretty exceptional,” he adds. “I don’t think other institutions have done as much.”
Princeton University
Brilliant Past, Present, and Future

by Roger Deitz

No ivy-covered buildings are more inspiring than those situated off Nassau street, where some of our best and brightest students, teachers, and researchers gather. The lovely wooded campus conveys an Ivy League personality that is distinctly Princeton: venerable, understated, pastoral, and singularly brilliant. Walk the paths where Professor Albert Einstein often rode his bicycle to the Institute for Advanced Study, and you just might encounter Toni Morrison hurrying to class. No words are necessary. Only Princeton feels like Princeton.

Nineteen current MacArthur Fellows and eight current Nobel Laureates come from Princeton. Historically linked with twenty-nine Nobelists, among them past University President and Peace Prize recipient Woodrow Wilson. It is easy to marvel at the past accomplishments of the faculty and alumni. Yet Princeton continues to develop, to grow with the times, to address matters of community and diversity that have become the great issues in higher education in the latter part of the 20th century.

In 1969, trustees voted to admit women undergraduates (in 1964, a Ph.D. was awarded to a woman for the first time), and in 1971, a Third World Center was established. 21.5% women make up -7 percent of the undergraduate class with 1.212 or 2% percent of the total undergraduate class composed of American minorities and 5 percent foreign citizens. That’s why The Hispanic Outlook welcomes Princeton to the Honor Roll.

This year Princeton trustees made two changes to its financial aid policies to increase affordability for lower- and middle-income students. They have also reaffirmed a policy that is designed to ensure that Princeton students and their families retain the full benefit of new federal tuition tax credits that begin to take effect this year.
Honor Roll Facts in Brief

INSTITUTION:
Princeton University

LOCATION:
Undergraduate Admissions

Together these measures represent "the most important changes to Princeton's financial aid policies in several decades," the trustees said. "They will result in a substantial increase in scholarship awards for most students on financial aid, and we hope they will send a very clear message that one of Princeton's highest priorities is to be affordable to all students and their families."

First of all, Princeton will not require any student loan when a family's income falls below $40,000 (roughly the national median). For these students, Princeton will entirely replace the current loan requirement with additional scholarships. Next, Princeton will reduce the amount it expects a family to pay for students on financial aid by removing or reducing the contribution expected from home equity in its financial aid calculations. Further, Princeton has reaffirmed its decision of last fall not to make any upward adjustment in its assessment of a family's financial capabilities as a result of the new federal tuition tax credits—allowing eligible Princeton students and their families to obtain the full relief these credits were intended to provide.

Harold T. Shapiro, installed as the eighteenth president in 1988, comments, "Our intent was to be sure that Princeton remains accessible to talented students from all socioeconomic circumstances and that, especially for students from lower-income families, the cost to them and their families of attending Princeton should be no greater—and in some cases might be less—than attending their state university."

Shapiro continues, "We hope that when our new policies take full effect this coming year, they will add a number of truly outstanding
students to our applicant pool who until recently would have assumed that Princeton was beyond their financial capabilities."

Chartered in 1746 as the College of New Jersey—the name by which it was known for 150 years—Princeton University was British North America’s fourth college. Located in Elizabeth for one year and then in Newark for nine, the College of New Jersey moved to Princeton in 1756. It was housed in Nassau Hall, which was newly built on land donated by Nathaniel FitzRandolph. Nassau Hall contained the entire college for nearly half a century. In 1896, when expanded program offerings brought the college university status, the College of New Jersey was officially renamed Princeton University in honor of the host community of Princeton. Four years later, in 1900, the Graduate School was established. Beginning on the eve of alumni day in 1996 and ending with commencement in 1997, the university celebrated its 250th anniversary.

Today, Princeton’s main campus in Princeton Borough and Princeton Township consists of more than six million square feet in 160 buildings on 330 acres. The university is Mercer County’s largest private employer and one of the largest in the region. With 11,124 full-time, part-time, casual, and student employees, the university plays a major role in the educational, cultural, and economic life of the area. The university’s overall regional impact amounted to more than $1 billion dollars for 1997-98, based on the university’s total expenditures of approximately $620 million and the expenditures of an estimated 400,000 people attending events on campus, and the expenditures of thousands of students and employees.

Fulcrum coeducational since 1969, Princeton during the 1997-98 academic year enrolled 6,351 students—1,600 undergraduates (60% of whom are New Jersey residents, representing every county in the state) and 1,751 graduate students. The ratio of full-time students to faculty members is less than eight to one. In 1997-98 the faculty, including visitors and part-time faculty, totaled 1,082, including 439 professors, 64 associate professors, 170 assistant professors, 9 instructors, 310 lecturers, and 100 visitors. Seventy-four percent of the professional faculty is tenured. Excluding visitors, 280 members of the faculty are women, and 127 are identified as members of minority groups. There were 71 tenured women on the faculty last year. Living up to its motto, “In the Nation’s Service and in the Service of All Nations,” every year, 2,500 members of the student body, faculty, and staff volunteer in community service projects throughout the region.

Princeton has educated two U.S. Presidents, Woodrow Wilson and James Madison, and The House of Representatives has housed a Princeton alumnus every year since it first met in 1789. These are also 44 alumni governors, including 11 New Jersey governors.

There are 72,656 living Princeton alumni, including 17,094 women and 55,562 Graduate School alumni. Princeton’s endowment is the fourth largest in the country, with a value of $5.4 billion as of March 31, 1998. (Harvard, the University of Texas, and Yale have larger endowments). As part of Princeton’s 250th anniversary activities, the university launched the Anniversary Campaign for Princeton: a five-year effort, culminating in the year 2000 to raise $750 million in annual giving and capital funds. At the end of the third year of the campaign, a total of $643 million in gifts and pledges had been received.

Princeton offers two bachelor’s degrees: the bachelor of arts and the bachelor of science in engineering. Within the degree programs, students can choose from among 64 departments and interdisciplinary programs. They may also apply for an independent concentration outside existing programs. Last year, the graduate school enrolled 1,299 degree candidates in 57 departments and programs. Princeton has no business, law, or medical school. Undergraduate admission to Princeton is extremely selective, as demonstrated by the number of students applying for places in the entering class and the qualifications of those admitted. In recent years, approximately 90 percent of each entering class has graduated from Princeton within four years, and 95 percent of all undergraduates have received a degree from Princeton within six years.

Princeton’s library system consists of the Harvey S. Firestone Memorial Library (with 70 miles of shelving, for the largest portion of Princeton’s collection) and 18 special libraries, including 15 department collections. The libraries contain more than 5 million books, 3 million microforms, 36,000 linear feet of manuscripts, and smaller but distinguished holdings of prints, theatrical set and costume design archives, coins, maps, death masks, and other items. The library system subscribes to more than 30,000 periodicals and acquires more than 68,000 monographs each year in 52 languages. The Princeton University Art Museum is used extensively as a teaching resource. Its collections and exhibitions include Pre-Columbian, classical, and Far Eastern objects; paintings and sculpture of the Renaissance, modern Europe, and America; important collections of prints, drawings, and photographs; and a collection of 20th-century sculpture displayed throughout the campus.
Creating Parity Through Mentoring

Detroit Program Moving to Atlanta and Dallas

BY INÉS PINTO ALICEA

“A large number of major U.S. corporations are closely watching the launch of a new cross-company mentoring program that could serve as a model for managing diversity and making workplaces more inclusive.

Corporate leaders know that managing diversity is a critical strategy for business success in the 21st Century, said Letty Hardy, president and chief operating officer of Inclusion Systems Inc. which created the program called Quest 21.

The Southfield, Michigan-based company developed the program because executives from more than 100 companies, many of them Fortune 500 companies, asked its sister company, Mentium Corp. in Minneapolis, to create a mentoring program for professionals of color similar to the one it created for women. Thus, Inclusion Systems opened shop and created Quest 21.

But Inclusion Systems set out to create a program unlike any other mentoring program.

According to a 1995 survey by the American Management Association, half of all U.S. employers offer some type of diversity program, but the programs do little to change corporate culture.

Hardy said that most diversity programs do not last long enough to address the fundamental attitudes on diversity and most do not measure success afterward. Hardy said that she prefers the word “inclusion” to “diversity” and prefers to focus on how to include everyone so that your office operates smoothly, and that Inclusion Systems set important goals for the program it created so that it could honor that focus.

“We wanted to create parity in the workplace and diversify talent pipelines all the way to the top,” said Hardy. “We plan to lead the way in developing ground-breaking technologies for inclusion strategies. We believe these programs will propel companies to employer-of-choice status and dramatically transform our workplaces.”

Quest 21’s mentoring program takes a more long-term approach to diversity management, Hardy said. It groups rising professionals of color with three to eight years experience and from a variety of companies with senior executives from other companies for training, dialogue, lectures, and assignments over a 12-month period to enhance mutual understanding.

Inclusion Systems measures and researches the effectiveness of its program throughout the process and for eight months after the program finishes. And unlike other mentoring programs that pair one mentor with one protégé, Quest 21 assigns three mentors to a group of about 20 protégés, and the group works together resolving problems, discussing issues, and sharing information on how to advance in Corporate America. That type of mentoring is new to Corporate America. Hardy said, adding that group mentoring provides bigger benefits for all of the participants because they reap advice and insights from a number of sources—not just one, as in more traditional mentoring relationships.

Mentoring is important to an individual’s success because it develops leadership and networking skills, said Betty Maple, tax partner and national director of diversity for Deloitte & Touche, one of the program’s sponsors. She said her company believes that participating in such a program “offer individuals the opportunities to enhance those skills.”

Hardy said she is optimistic that the extensive training of mentor and in-depth dialogue sessions an lectures that participants undergo in Quest 21 will have a positive impact on Corporate America: more companies participate nationwide. The program gives the participants the skills for grappling within a diverse workplace.

About 55 companies participated in the launch program November of Quest 21, said Har President Clinton seems to agree that Quest 21 is the wave of the future in diversity management. The program was cited as “promising practice” by President’s Initiative on Race.

“As mentees learn from a model, the mentors will learn from the mentoring relationship is opportunity to maximize the return on their investment, while creating an inclusive culture,” said Hardy, a former professor of management. “This learning is critical if behavior is going to change.”

Hardy said that it is costly companies to ignore diversity management. Professionals of color who see limited advances
opportunities tend to leave in high numbers seeking better opportunities at other companies. According to the 1995 Federal Glass Ceiling Report, recent studies estimate that turnover costs range between 150 and 195 percent of a manager or professional's annual salary. But turnover costs are just part of the economic picture.

Minorities will comprise nearly half of the U.S. population by 2027, and the combined annual consumer spending of these groups is more than $500 billion a year. Hardy said that companies cannot afford to ignore these consumers by being seen as bad employers for minorities. In addition, companies also are losing millions in discrimination costs. According to the U.S. Department of Labor, 3,000 discrimination suits were brought before federal district courts between 1990 and 1994. And between 1989 and 1992, the number of wrongful employment practices filed with the Equal Employment Opportunity Commission rose steadily from 944,161 to 906,000.

'The clarion calls for change in the workplace are not to meet quotas but to manage diversity and create a corporate environment that is inclusive at every level,' said Hardy. 'Corporate America must move beyond affirmative action and Equal Employment Opportunity Commission mandates because we were talking of nonnumeric parity and not quotas.'

Quest 21's first class consists of 53 participants from different Detroit companies. Ten of the participants are mentors, mostly White males, since studies show that 97 percent of senior managers are White males. The proteges are all professionals of color.

Participants are chosen by their companies, and Inclusion Systems Inc. interviews the prospective participants. The chosen undergo diagnostic tests, including ones that address a person's attitudes on race and ethnicity. Before leading groups, inclusion mentors will undergo training in inclusive strategies, group facilitation, coaching, intercultural communications, management, networking, and confidence-building. Companies pay $7,500 per protege and $6,500 for the mentor.

This program lasts one year, but I expect that some of the relationships that are formed will continue, which I think speaks to the success of the program,' said Maple.

Hardy said that the organization's program has generated so much interest that numerous companies in several cities have expressed interest in starting classes in their towns. Inclusion Systems Inc. plans to launch classes in Atlanta and Dallas next year with sessions of about 100 people starting every six months. The company plans to offer sessions in Chicago, San Francisco, Boston, and Minneapolis in the immediate future. The organization also is developing an internal product that companies can launch within their individual organizations.

Hardy said that the program should be seen as 'a tool that companies will use to recruit and retain professionals of color.'

If you look at the way demographics are changing, you're going to have more people of color in the workforce,' said Romeo McNair, director of diversity and work-life planning for Ford Motor Co., the national sponsor of Quest 21. 'It's a personal concern.'

'Senior executives are the bottom-line checkwriters,' Hardy said. 'They are the ones who will mandate where the companies will go in the 21st century.'

Erik Reese Burks, a regional manager for Detroit Medical Center, was chosen to participate in Quest 21's first class as a protege.

'I felt honored that I was chosen,' said Reese Burks. 'This is an opportunity for these executives to see what's out there, to understand the caliber of skills they have right there. Sometimes when a professional of color, you feel discounted.'

Reese Burks said that he hopes the group will feel comfortable enough to discuss the issues that
Fannie Mae, the nation's largest source of home mortgage funds, recently announced a five-year scholarship program for MBA students at the University of Florida.

Adolfo Marzol, Fannie Mae's executive vice president and chief credit officer, presented the scholarships to four MBA students at a recognition ceremony held in November.

A graduate of the University of Florida, the presentation held special meaning for Marzol.

"As a public institution, we rely heavily on the generosity of friends like Fannie Mae to keep our doors open to everyone."

DEAN JOHN KRAFT,
WARRINGTON COLLEGE OF BUSINESS, UNIVERSITY OF FLORIDA

"We're very grateful for these scholarships," said Warrington College of Business Dean John Kraft. "As a public institution, we rely heavily on the generosity of friends like Fannie Mae to keep our doors open to everyone. Our student body is much richer when bright, qualified young men and women of diverse backgrounds bring their talents to it."

The MBA program at the University of Florida began in 1940. Since then, the program has become nationally recognized for its quality. There are presently more than 400 students enrolled in the MBA programs, which are designed to foster and encourage diversity in the MBA program. In 1999, and subsequent years through 2002, five students will be awarded scholarships.

"I am very proud to present these scholarships to these deserving students. We need to encourage and support a diverse group of men and women for the mortgage banking industry who will continue to lead our industry."

To assist in the company's efforts, Fannie Mae's Office of Diversity has initiated outreach to partnerships with universities such as the University of Florida and with professional associations.

Universities are selected based upon ranking and reputation in the fields of finance, accounting, real estate, information systems, and/or public policy.

One of Fannie Mae's corporate commitments is diversity, which is based on respect for one another and on recognition that each brings his or her own unique attributes to the corporation, said Marzol.

"At Fannie Mae," said Marzol, "we are committed to providing equal opportunity for all employees to reach their full potential; it is a fundamental value, and it makes good business sense. Fannie Mae will be most successful in meeting the company's public mission and corporate goals when it fully capitalizes on the skills, talents, and potential of all its employees."

"We're very grateful for these scholarships," said Warrington College of Business Dean John Kraft. "As a public institution, we rely heavily on the generosity of friends like Fannie Mae to keep our doors open to everyone. Our student body is much richer when bright, qualified young men and women of diverse backgrounds bring their talents to it."

with curricular structures to fit varying levels of professional and educational experience. In the past two years, the MBA program faculty in marketing, management, accounting, finance, and economics have been highly ranked in national surveys, including U.S. News & World Report.

Laura Parks, acting director of MBA admissions, explained diversity recruiting efforts made by the college. "We hold events, such as open houses, which are targeted to reach underrepresented groups," she said. "We also participate in the Graduate Management Admissions Search Service and are made aware of women and other minorities who have taken the GMAT, which helps us get a good pool of applicants. Female and other minority students accounted for more than 45 percent of this year's incoming class," she added.

In November, ACORN, the Association of Community Organizations for Reform Now, a national organization, released a study demonstrating increasing racial disparities in the home purchase mortgage market. The report covered all lenders in 35 cities over three years. ACORN found that Latinos and African Americans were rejected more frequently than were White applicants for both conventional and government-backed mortgages and that this disparity is rising.

The growth in conventional mortgages for African Americans between 1995 and 1997 was modest, below five percent, but the increase in lending to White borrowers was nearly five times larger. Over the same period, conventional home purchase lending to Latinos did not grow at all, but declined by one percent.

With unemployment at a three-year low and interest rates at their lowest in decades—conditions that have historically erased racial disparity—these trends are unacceptable," commented ACORN national president Maude Hard. "Instead of being able to take advantage of these good times to walk into new homes, African Americans and Latinos are having the doors slammed in their faces by lenders."

The study also found that while conventional mortgages were becoming less available to Latinos and African Americans, there was a significant increase in government-backed mortgages to these borrowers.

The study found that rejection ratios for Latinos and African Americans grew in both the conventional and government mortgage markets. In 1997, African Americans were rejected 20 percent more frequently than were White applicants for conventional mortgages, and 26 percent more frequently than were Whites for government mortgages, a 1.5 percent and 18 percent increase respectively since 1995.

Latinos were rejected 181 percent more frequently than were Whites for conventional mortgages and 172 percent more frequently than were Whites for government mortgages in 1997, a "4 percent and 77 percent increase respectively.

Our bithed communities have struggled for years while these mortgage-financing disparities persist. It's been long enough," added Hard. "These trends must be reversed if inner cities are to break the cycle of poverty and develop thriving communities."

Demand for conventional mortgage products continues to grow for Latino and African American applicants, despite high rejection rates and ratios. Latino applications grew 10.8 percent over the period surveyed, to 101,563.

Over the same period, government-backed mortgages to Whites grew 17.3 percent, to 16,622, to African Americans, they increased 18.2 percent, to 56,275, and to Latinos, government-backed mortgages grew 5.6 percent, to 4,102.

In 1997, government-backed mortgages represented 41 percent of all home purchase mortgage loans to Latinos and 49 percent of all such loans to African Americans. According to an Associated Press report, Fannie Mae's own survey of Hispanic and African American households, conducted last April, reflected a significant drop in the number of minorities who said that they had experienced discrimination as mortgage applicants, down to 40 percent from 59 percent reported in 1993.

And Fannie Mae reported last July that only six percent of homeowners surveyed perceived housing discrimination as a major obstacle to home ownership—down from 18 percent just a year earlier.

"We quoted a spokesperson for the American Bankers Association as saying that banks are casting a wider net for applicants: thus more people of lesser means or "less attractive credit profiles" are applying, and the rejection rate is rising.

Fannie Mae is a federally chartered, shareholder-owned company and the nation's largest source of funds for home mortgages. It has committed to provide $1 trillion in targeted lending for 10 million homes by the end of the decade. The targeted lending will serve low- and moderate-income families, minorities, new immigrants, residents of central cities and other underserved areas, and people who have special housing needs.

Over the past 30 years, Fannie Mae has provided $2.5 trillion in mortgage financing for 32 million families. More information about Fannie Mae can be found on the Internet at <http://www.fanniemae.com>.
Wal-Mart Honing the Competitive Edge

With Vendors, Funds $20K Scholarships

During the 1998-99 school year, Wal-Mart is working with 75 vendors to award 257 scholarships nationwide.

The future of America will depend, in large part, on what happens in our classrooms today. That's why Wal-Mart and its vendors help send the best and brightest high school students in the U.S. to college through the Wal-Mart Competitive Edge Scholarship Fund.

Four-year, $20,000 Competitive Edge scholarships are available for high school seniors who choose majors in areas related to manufacturing, industry, and technology. So far, the program has created more than 1,100 scholarships and invested $25 million in the country's future.

Recent studies show that the number of students graduating from college with a high-tech degree is falling. Competitive Edge scholarship students are expected to help the U.S. continue to be a world industrial and technology leader.

Competitive Edge Background

Competitive Edge winners. all high school seniors, are granted $20,000 college scholarships over four years to study in areas related to manufacturing, industry, and technology. Wal-Mart's founder, Sam Walton, initiated the program in 1992 to continue U.S. prominence in these sectors.

The very first year, Wal-Mart awarded 82 scholarships at 72 universities. During the 1998-99 school year, Wal-Mart is working with 75 vendors to award 257 scholarships nationwide. More than 140 different schools, representing all 50 states and Puerto Rico, help Wal-Mart pick the scholarship winners.

Much of the Competitive Edge scholarship funding comes from Wal-Mart's customers. A portion of the proceeds from the sale of selected Sam's American Choice food items helps send America's best students to college. Seventy-five vendors that sell to Wal-Mart also donate to the scholarship program. Vendors might also provide internships for Competitive Edge students.

This school year, the number of available scholarships was 257, triple the original number. One hundred forty-four colleges and universities, in all 50 states and Puerto Rico, picked the 257 scholarship winners for the 1998-99 school year.

Competitive Edge Criteria

Wal-Mart has set high standards. Students who want to earn a Wal-Mart Competitive Edge Scholarship must have achieved:

- 2.0 or higher on the ACT, or
- 1000 or higher on the SAT
- A 3.0 or higher cumulative H.S. GPA
- 90 percent or higher class rank

And they must have demonstrated both community service and leadership within community or school, and they must declare a major in one of the Competitive Edge fields of study, which are: Computer Science, Computer Information Systems and Quantitative Analysis, Industrial and Technical Education, Biological and Agricultural Engineering, Chemical Engineering, Computer Engineering, Electrical Engineering, Industrial Engineering, Mechanical Engineering, Food/Processed Science, Small Business and Entrepreneurship, International Economics and Business, Transportation and Distribution, and Industrial Marketing.

Students are eligible to renew the scholarship every year, and to do so, they must:

- Maintain at least a 3.0 cumulative GPA
- Enroll in 12 or more hours each semester
- Remain in a Competitive Edge field of study

As the second wave of Competitive Edge scholarship winners graduates from college, some of the students are already making an impact on the workforce. That's why Wal-Mart is working with 75 vendors to award 257 scholarships nationwide.

Current student Joe Mornar getting his Engineering degree at the Montana College of Mining Science and Technology thanks Wal-Mart's scholarship fund, says Competitive Edge was crucial for him to continue his dream of becoming a petroleum engineer.

Hispanic students, too, among the "best and brightest selected. Competitive Edge winners include: Estrella Mayo of Madi, Tenn., studying electrical engineering at the University of Pittsburgh; David Godinez of Albuquerque, N.M., studying computer science at the University of New Mexico; Eduardo Estrella of the University of Texas-Austin, studying computer science. Six students from Northwestern University and 24 from Texas A&M University have benefited from the program. Six students from the University of Texas-Pan American and the University of Delaware, Texas, are studying chemical engineering, and Rafael Munoz of Edinburg, Texas, is studying electrical engineering.
# COMPETITIVE EDGE UNIVERSITIES

When the Wal-Mart Competitive Edge Scholarship Fund started in 1992, 2 universities worked with Wal-Mart to award 82 scholarships. Today, the number of schools participating in the program has doubled.

The list of colleges and universities participating in the Wal-Mart Competitive Edge Scholarship Fund for the 1998-99 school year:

</table>
A five-year, $25 million dollar program targeting minority students has been launched by the Amoco Foundation. Called the Minority Engineering Recruitment and Retention Initiative, the program seeks to encourage minority students to pursue technical careers and improve their participation and success.

“We are excited about the potential of this program to stimulate new ideas among the academic community,” said Paula Banks, president of the Amoco Foundation. “It is our sincere hope that our initiative may be benchmarked by others to increase the number of minorities in engineering.”

Grants will range from one to five years in length, with donations falling between $15,000 and $50,000 per year. The grant program is intended to provide funding to organizations, schools, colleges, and universities that have developed innovative programs encompassing several of the following elements relevant to engineering:
- Campus and department initiatives to increase retention rates: curriculum development; student activities linked to engineering study and careers; tutoring, mentoring, and counseling programs; faculty and/or student awards; student internships; and career planning or collaborations that improve minority participation, retention, and success in engineering programs and careers.

The Amoco Foundation expects many of the programs that receive funding will be new programs. However, enhancement awards also will be given where additional funding can make a significant impact on a program already in place.

Programs will be evaluated on impact on students, evidence of institutional commitment to diversity, strength of current minority engineering programs or initiatives, collaboration or partner organizations, measurable outcomes, and program sustainability after Amoco support ends.

An advisory committee lent critical assistance in designing the initiative and developing the funding criteria, according to the Foundation, and will play a role too in reviewing grant applications and recommending funding.

Committee members are Howard Adams, National Institute on Mentoring; Georgia Tech: Earnestine Baker, University of Maryland-Baltimore County; Sue Bidstrup-Allen, Georgia Institute of Technology; Karen Krailan, Society of Women Engineers; Otis Jackson, INROADS; Noe Lazo, Stanford University; Sandra Begay-Campbell, American Indian Science & Engineering Society; and Joy Vann-Hamilton, University of Notre Dame.

Awards will be announced March 1. The Amoco Foundation Web site is at <http://www.amoco.com>. Written inquiries should be sent to Amoco Foundation, Mail Code 2308, 200 East Randolph Drive, Chicago, IL 60601-7125.

**Exxon Education Foundation**

The Exxon Education Foundation last year pledged $15 million to support engineering education for women and minorities, through grants to SECEME, formerly known as the Southeastern Consortium of Minorities in Engineering and to SWE, the Society of Women Engineers.

“SECEME and the Society of Women Engineers have proven themselves highly effective in motivating students to study these disciplines at the college level,” said Tony Atkiss, chairman of the Exxon Education Foundation. “Their focus on minorities and women—two dramatically underrepresented groups in the engineering profession—makes these grants particularly important to Exxon.”

The grants to SECEME and SWE are part of Exxon’s longstanding and broad support of education, women, and minorities. Exxon Corporation and the Exxon Education Foundation were founding members of the United Negro College Fund and the National Action Council for Minorities in Engineering. Since 1996, the corporation itself has given $165,000 to the Society of Hispanic Professional Engineers, and it is a major supporter of the National Hispanic Scholarship Fund and the American Indian College Fund.

The foundation’s principal areas of interest are mathematics education; the restructuring of elementary and secondary education; the reform of undergraduate science, technology, engineering, and mathematics education; K-12 science...
education, and increasing educational opportunities for minorities. Since 1955, the Exxon Education Foundation has given more than $75 million in support of American education.

**SECMEE**

The $200,000 grant to SECMEE—$100,000 per year for three years—will strengthen and expand SECMEE nationally recognized promotional programs to additional states, fund teacher and administrator training programs, establish grant development forums for SECMEE and its university, school district, and business partners, provide guidance to teachers and administrators regarding academic requirements and career opportunities in engineering, and enhance SECMEE’s data management and program evaluation.

The comprehensive nature of Exxon’s substantial commitment will allow SECMEE to strengthen its core competencies and to enhance its operational capabilities,” said R. On Parker, executive director of SECMEE.

The end result of this multi-year pledge will be real increases in the number of African American, Hispanic, and Native American students entering and completing post-secondary studies in math and science-based disciplines.

SECMEE was founded in 1975 by the deans of seven southeastern universities and has evolved into a network of 800 school systems, 685 K-12 schools, 36 universities, and 75 industry-government partners.

**Society of Women Engineers**

Exxon’s three-year grant to the Society of Women Engineers, totaling $600,000, will provide start-up funds for innovative educational outreach programs and career development projects at local SWFE chapters across the country. Through the SWFE Section and pilot program Development Fund, these ventures will help increase the number of women earning engineering degrees and advance career development for women within the professions.

The grant also will provide major funding for SWFE’s Career Guidance Awards, allowing local chapters to replicate their award-winning programs and distribute related publications and audio-visual materials that effectively encourage girls and women to pursue engineering careers.

Women currently comprise approximately 20 percent of the engineers entering the workforce each year, and around 11 percent of all practicing engineers,” said Elaine Osterman, executive director of the Society of Women Engineers. “Exxon’s pledge will have a significant long-term impact in addressing this disparity.

Established in 1950, SWFE is a non-profit educational service organization composed of 10,000 professional engineers and student members in 80 local and 295 university sections, or chapters. In 1987-88, SWFE awarded 14 scholarships to women engineering students totaling $150,000, up 20 percent from the previous year. The corporate-sponsored scholarships ranged from $20,000 to $30,000 each to Lockheed Martin corporations and $25,000 each. Other corporate sponsors included Chevron, Chrysler, GE, General Motors, GTE Foundation, Hewlett Packard, IBM, Microsoft, NAI, Foundation, Northrop Grumman, Rockwell, David and Nettie Research Center, Stone & Webster, Exxon 1 nut Tech, Technics, and Westinghouse Foundation.

Data released by NACME, the National Action Council for Minority in Engineering, states that more than half of all students plan to drop advanced math and sciences courses, regardless of their career interests and without knowing the consequences. Only 15 percent of all students in the U.S., and only 6 percent of minorities, continue to high school with the four years of advanced math and science courses required to begin any science-based course of study in college.

“The American education system still perpetuates the notion that only a few students have what it takes to learn advanced math and science, while other nations insist that their students take these courses and acquire the skills they need to succeed in a technologically driven global economy,” says Dr. George Campbell, Jr., NACME president and CEO. “Common sense tells us that all students need these skills to compete.”

NACME’s public service ad campaign—Math Is Power—is geared toward altering this landscape. Launched in 1995 in partnership with the Advertising Council, and with financial support from IBM, the National Science Foundation (NSF), and the Annenberg/CPB Math and Science Project, Math Is Power has leveraged more than $50 million in donated placements, with more than $36 million in TV, $13 million in radio, and $15 million in outdoor, print, and the Internet. More than 800,000 information kits have been distributed to students, parents, teachers, and administrators and linkages built with 150 community-based, regional, and national organizations.

NACME is a not-for-profit organization that for 25 years has led the national effort to increase access to careers in engineering and science-based disciplines for Latinos, African Americans, and American Indians. NACME also is the nation’s largest privately funded source of engineering scholarships for minorities. Ten percent of all minority graduates since 1980-67,000 have completed engineering school with NACME scholarships.
PEOPLE

Arriola to Become Vice President of External Affairs at UTPA

Roland S. Arriola, executive director of the Office of Center Operations and Community Services (CoSERVE) at The University of Texas-Pan American (UTPA), has been named the university’s first vice president for external affairs, effective June 1, 1999.

In announcing the appointment, UTPA President Dr. Miguel A. Nevárez said Arriola will spend the preceding months planning for the university’s new division of external affairs.

Nevárez said the new division of external affairs will broaden and strengthen UTPAs outreach into the diverse business, cultural, educational, and social communities of South Texas and beyond, and will help them better address the three areas of their institutional mission—education, research, and public service.

Arriola was the first Hispanic mayor of the City of Waco; he was once named one of the Ten Outstanding Young Men in America by the U.S. Jaycees; and he was a national finalist in the White House Fellowship Program.

He holds a bachelor’s degree and a master’s from Baylor University and a master’s from Harvard University.

White House Honors Ruiz

Ramón Eduardo Ruiz, Professor Emeritus of Latin American History at the University of California-San Diego (UCSD), was one of nine distinguished Americans to be awarded the 1998 National Humanities Medal by President and Mrs. Clinton at the White House in November.

A foremost historian of Hispanic America, Ruiz is the author of a dozen books and numerous articles. He has written on multiple aspects of Mexico’s history and has taught at the Universidad Nacional Autónoma de México and other Mexican institutions.

Ruiz’s studies of the two most important upheavals in Hispanic America, the Cuban and Mexican revolutions, are now standard reference works. A former president of the Chicano/Latino Faculty Association of the University of California system, he has been honored for his contributions to education by the Chicano Federation of San Diego and by his students at UCSD.

Huerta Speaks at the University of San Francisco

Dolores C. Huerta, co-founder of the United Farm Workers, recently gave a lecture, “Harvest of Shame: A Woman’s Perspective on Social Justice and Activism,” at the University of San Francisco.

Huerta, secretary-treasurer of the United Farm Workers of America, AFL-CIO (UFW), is one of the best-known women in the American civil rights movement. She has played many key roles in the UFW, including negotiating the first collective bargaining agreement for farmworkers, heading the UFW’s national grape boycott, and directing the UFW’s political and lobbying efforts. She is currently participating in UFW’s strawberry industry-wide organizing campaign in Watsonville, Calif.

In 1993, Huerta was inducted into the National Woman’s Hall of Fame. In addition to her UFW post, she is the vice president of the Coalition for Labor Union Women and the vice president for the California AFL-CIO.

QCC’s González Tackles Shakespeare

Queensborough Community College (NY) students, including student actors Gary González and Ashanti Appasimata (pictured) were recently seen cavorting around the campus as fairies, runaway lovers, warrior women, royal dukes, and rude mechanicals in a new version of Shakespeare’s A Midsummer Night’s Dream.

The production was part of the College’s Artists-in-Residence Program, an initiative that brings critically acclaimed directors, designers, and actors to the school’s campus to work directly with the students. This year, the students benefited from the expertise of internationally known director Georgia McNeil.

In A Midsummer Night’s Dream, McNeil took a modern, eclectic approach to the beloved classic. She has a special knack for helping students see classical works through new eyes, and, while discovering and enjoying the rich language of the beautiful text, they see it fresh and find the connections with their own lives, just ask González and Appasimata.

De Cordero Counsels Noncredit Students

Angela Caballero de Cordero has joined the staff of Allan Hancock College’s (Calif.) Community Education department and is part of a state-funded effort to provide educational counseling to students enrolled in community college noncredit courses and programs. As a noncredit matriculation specialist, de Cordero ensures that the students enroll in and complete the right college courses to achieve their educational objectives.

“Our goal in Community Education is to help the student who is searching for a job, a
new career, or a personal pursuit through the noncredit program,” said de Cordero. She also assists students in making the transition into credit classes so they can take advantage of degree and transfer programs.

A licensed clinical social worker, de Cordero has a master’s degree from California State University-Fresno.

**Padilla Wins Oliver Cromwell Cox Award**

Felix Padilla, a sociology professor at the C.W. Post Campus of Long Island University in Brookville, N.Y., was awarded the Oliver Cromwell Cox Award for his 1997 book, The Struggle of Latino/Latina University Students in Search of a Liberating Education, which depicts the unique challenges faced by Latina/o students in the world of higher education.

Originally from Vega Baja, Puerto Rico, Padilla is founder of the Latino Studies Journal, which publishes articles and manuscripts on all aspects of the experiences of Latina/o people.

Internationally recognized for his scholarship in the areas of Latina/o studies and critical education, Padilla is the author of five major books on the Latina/o experience in the United States. He has written a dozen journal articles on topics such as Puerto Rican, Mexican American, and Cuban relations, the sociology of Latino culture and identity, the sociology of salsa music, and Latino/Hispanic youth gangs.

**Rivera Multicultural Director at Madonna University**

Last fall, Osvaldo (Ozzy) Rivera became the new multicultural director at Madonna University (Mich.). Rivera has over twenty years of experience working with diverse communities, organizations, and human service and advocacy groups.

In reaching out to the Hispanic youth of this country, Rivera established the Youth Activities Center in southwest Detroit and worked with gang members in Los Angeles. He served as a substance abuse counselor and prevention director at La Casa Familia Services, a predecessor of Latino Family Services.

He is a producer and host for the radio program Caribe Serenade, a historical overview of Afro-Hispanic music in the Caribbean region, and is co-leader of Fuego, a Latin-Caribbean dance band.

Having a master’s degree from the University of Michigan, he often serves as a consultant on local, state, and federal levels in the areas of substance abuse prevention and outpatient services for Latinos.

**Calvillo Named Outstanding Professor**

Evelyn Ruiz Calvillo, a professor of Nursing, was honored by California State University-Los Angeles as one of its 1997-1998 Outstanding Professors.

Calvillo is the co-project director of “Learning Community for Underrepresented Nursing Majors,” program at Cal State-L.A. She also is the co-investigator and project coordinator of a three-year research study on Hispanic patients recently diagnosed with Type II Diabetes.

She joined the Cal State-L.A. Department of Nursing in 1990, where she has taught at different courses, including clinical and theory lower- and upper-division courses in the areas of medical-surgical nursing, pathophysiology, nursing research, and professional issues. She also teaches nursing theory in the graduate program.

She has a bachelor’s degree from the University of Texas-Galveston and a doctorate from the University of California-Los Angeles.

**Documentary on Lavadenz’s Quest for Cultural Identity**

Only three years old when her family fled Cuba and the Castro regime in 1961, Magaly Lavadenz grew up in the US caught between two cultures, two languages.

Lavadenz returned to the country of her birth for the first time last February and explored her family history. With her were documentary filmmaker Glenn Gebhard and cameraman Mario Congreve. The result is Crossing Borders: A Cuban Returns, a 49-minute documentary that aired on the PBS affiliate in New York last fall.

In the film, Lavadenz retraces her family’s steps. The journey helps her make peace with her own struggles with cultural identity. She realizes that the bicultural experience is not to be overcome but to be embraced as some-thing that both strengthens and enriches this country.

“The documentary is about biculturalism and what it means to be a hyphenated American, in this case Cuban-American,” Gebhard says.

Lavadenz specializes in second language acquisition at Loyola Marymount University (Calif.), where she is an assistant professor in the School of Education.

**Bilingual Storyteller Sacre at NJCU**

Antonio Sacre recently visited New Jersey City University (NJCU), telling Cuban and Mexican stories. The program was part of “Creative Knowing: A Function of Storytelling,” a fall series at NJCU.

A man who celebrates his Cuban family, culture, and heritage, Sacre tells stories in English and Spanish that are drawn from a repertoire that ranges from hilarious yarns about his own childhood to traditional Latin American folktales. Through his storytelling, Sacre entertains and educates while motivating his audiences to gather their own stories and preserve their family and cultural heritages.

Born in 1968 to a Cuban father and an Irish-American mother, Sacre was raised bilingually and nicknamed “Papito” after being teased and called “Borito” by his
kindergarten classmates. Sacre changed his name to Tony and refused to speak Spanish. It was his grandmother who forced him to reclaim his heritage by re-teaching him Spanish through stories, fables, and family tales recounted in her native tongue.

He has earned a bachelor's degree from Boston University and a master's from Northwestern University.

**Ortiz Awarded Fellowship**

The Milano Graduate School of Management and Urban Policy (N.Y.) named Rafael Ortiz the first recipient of the Isador Lubin Fellowship, presented to a student pursuing a Ph.D. in the school's program in public and urban policy. Ortiz holds a master's in human services from Lincoln University, where he was given a faculty award for his excellence. In addition to pursuing his interest in urban education within the Ph.D. program, he is director of technical assistance and development for IMPACT II-The Teachers Network, a national nonprofit organization engaged in the professional development of teachers.

**Soto Delivers Young Lecture at RIC**

"The Society of Cells—Cancer and the Control of Cell Proliferation" was the topic of the fifth annual Robert M. Young Memorial Lecture at Rhode Island College, delivered by Ana M. Soto, an associate professor of cellular biology at Tufts University School of Medicine.

Soto holds an M.D. degree from the University of Buenos Aires in Argentina. Since her arrival in the United States in 1975, her research interest has been the control of cell proliferation in metazoan organisms. In particular, she studies the regulation of cell proliferation by sex steroids in breast and prostate cells.

**Chacon Selected for IIPP Fellowship**

Adriana Chacon, a Barry University (Fla.) junior, is among the 20 students throughout the nation selected as Institute for International Public Policy fellows. Chacon is an honors student with a 3.9 GPA, majoring in international business.

In the summer of 1993 Chacon will study at Princeton. The program will pay for her master's degree in international public affairs. She hopes to go to either Georgetown or Princeton. Next fall, she will immerse herself in Japanese culture and economics in her studies in Tokyo, Japan.

Born in Bogota, Colombia, she has been teaching herself Japanese for two years. She speaks her native Spanish, English, French, Portuguese, Italian, and sign language.

She plans to withdraw from the international field, either in the corporate world or for a not-for-profit organization, and would like to do some work to help her native Colombia.

**Ramos Appointed to Madonna Board**

Hector J. Ramos, quality assurance manager, Ford Motor Company, has been appointed for a three-year term to Madonna University's (Mich.) board of trustees.

Ramos graduated from Henry Ford Community College and completed requirements for the Quality Control Certificate Program. He serves as president of Latinos de Livonia, an organization made up of dedicated individuals from many diverse backgrounds, whose members assist students with their educational pursuits. In 1989, Latinos de Livonia established a scholarship fund at Madonna University, making higher education accessible to local Hispanic students. Each year, Madonna students have benefited from this scholarship fund, and Ford Motor Company, a long-time Madonna University supporter, has matched the Latinos de Livonia gift for many years.

**Esperanza B. de Varona Chairs Archives Organization**

Mahtii Esperanza B. de Varona, division coordinator for the Cuban Heritage Collection at the University of Miami (U Miami), Otto G. Richter Library in Florida, also is the chair of the Section of University and Research Institution Archives of the International Council on Archives. De Varona will continue to be an active member of the Sections steering committee and will lead the organization for the next four years. Widely recognized as curator of the U Miami Cuban Heritage Collection, she also serves as a member of the Florida State Historical Records Advisory Board.

U Miami Cuban Heritage Collection is one of the largest and most comprehensive historical collections in the world dedicated solely to the study of Cuba.
González Encouraging Hispanic Students

Andrew González, a cancer survivor and a coordinator of El Centro de la Raza’s Amistades Program—affiliated with the University of New Mexico (UNM)—has been working hard to be a role model for Hispanic students. He has dedicated his life to encouraging Hispanic youth to get a college degree.

González thinks the upcoming generation needs a role model, especially secondary school students. “They might not consider college because they think they don’t have the grades or they can’t afford it, but they might think about the military or gangs,” said González.

In this role, he matches seasoned students with incoming first-year students. This peer mentor program is designed to offer new students academic and personal career and financial advisement. “Some students...are not prepared for college. We show them the ropes—what classes to take, how to get a tutor, and how to access scholarships and other financial aid,” he said.

He earned a bachelor’s degree from UNM and is presently pursuing a masters.

UT-Austin’s Blanton Museum of Art Presents Ground-breaking Exhibition of Contemporary Argentinean Art

In keeping with its 35-year history of leadership in the field of contemporary Latin American art, the Jack S. Blanton Museum of Art is presenting “Cantos Paralelos: Visual Parody in Contemporary Argentinean Art” from January 22 through March 7. Drawing from important public and private collections in Buenos Aires, this international exhibition explores the use of parody in the work of nine of Argentina’s most imaginative contemporary artists: Antonio Berni, Jorge de la Vega, Alberto Heredia, Pablo Suárez, Juan Carlos Distelberg, León Ferrari, Rubén Santantonio, Victor Grippo, and Luis F. Benedit. Most of these artists’ works have never before been shown in the United States. Following its premiere in Austin, the exhibition will travel to venues in the U.S. and Colombia before returning home to Buenos Aires.

According to Marí Carmen Ramírez, curator of Latin American Art at the Blanton Museum and organizer of the exhibition, “The works created by this group are, without question, among the boldest and most innovative to have come out of Argentina.”

NECC Targets Hispanics for Nursing Programs

A Northern Essex Community College (Mass.) plan designed to help train bilingual, bilingual nurses received a shot in the arm thanks to a $5,000 grant from the Stevens Foundation, a private foundation located nearby. The donation provides mentors and intensive support services for bilingual, bicultural students taking Foundations of Health Care, an introductory health and nursing career course.

Francesca Fox, a member of the registered nursing faculty at Northern Essex (second from the right in photo) designed the plan. Also shown in the photo (left to right) are Sylvia Hallsworth, the college’s director of nursing education; Phillip Esselle, a nursing student; and Leyda Tesla, also a nursing student.

There is a terrible shortage of bilingual, bilingual nurses, particularly those who are Hispanic. The most recent statistics show that while Hispanics comprise nearly 30 percent of the United States population, only 5 percent of all graduates of registered nursing programs are Hispanic.

Allan Hancock College Marketing Students Win Statewide Award

Sonia Arruda, a representative from EdVenture Partners, a company that connects college marketing students with General Motors dealerships, made a personal appearance recently at Allan Hancock College to award thirteen students with statewide marketing awards. The students garnered top recognition for an award-winning marketing campaign that they executed for Stephens Airport Auto Center of Santa Maria last spring. Arruda presented the interns with “Best Public Relations Campaign” and “Best
The UH World Laboratory

The University of Houston Center for the Americas has been selected as the site to house the World Laboratory Center for Pan-American Collaboration in Science and Technology.

The UH World Laboratory will seek to strengthen U.S. ties with developing Latin American countries by helping to create a stronger science and technology base with them. “Houston is a leader in multiculturalism, a leader in international trade with Latin America....Its proximity to our Latin America neighbors, along with UH’s scientific resources, underscores the importance of having the World Lab Center here,” said Carlos Ordoñez, UH World Laboratory Center and physics professor.

The UH World Laboratory is the latest of a network of 35 research centers established by the International Centre of Scientific Culture-World Laboratory, a nongovernmental international organization headquartered in Lausanne, Switzerland, and recognized by the United Nations. The organization’s goal is to promote science and technology at their highest level in developing countries.

Distinguished Maricopans

The following members of the Maricopa Community College District (Ariz.) were in the news recently:

Cathy Della Penta, English/humanities faculty at Mesa Community College, was awarded a grant by the National Endowment for the Humanities to lead a book discussion series on “Trees Worth Knowing” last fall. Books by Maya Angelou and Richard Rodriguez were among those discussed.

George Díaz (pictured here), government relations assistant, was presented the Arizona Achiever Award of the Western Association of Educational Opportunity Personnel.

James Cervantes, Mesa Community College-English faculty, served as a panelist for “Creative Writing Across the Curriculum” at the Associated Writing Programs annual conference. He was also a panelist for “Literary Publishing in the New Millennium” at the Tucson Poetry Festival.

Alma Padilla, campaign coordinator for the Maricopa Colleges Foundation, was among nine “Women Who Make a Difference” honored at a recent dinner hosted by Latina Style magazine.

UTSA Students Participate in “America Reads”

The America Reads program at the University of Texas at San Antonio (UTSA) is changing the city’s future—one student at a time. Through America Reads, 40 UTSA student tutors help grade school students whose reading skills need a boost, said Eyra Pérez, Alliance for Education projects manager.

Student tutors earn work-study wages as they spend 10 to 15 hours a week on one with a first through third grader whose reading skills are below grade level.

Tutors learn the difference between the education ideal taught in a college classroom and teaching in the real world.

The benefits of helping a child succeed are well worth the commitment, said education major Christella Ramos.

Junior Rosibel Martínez said that the benefits of tutoring go far beyond her paycheck. “When the children come up to you and give you a hug or something they’ve made, you can’t trade that for anything,” Martínez added.

UCSD, Southwestern, and Sweetwater Launch “UniversityLink”

A “UniversityLink” educational opportunity partnership between the University of California-San Diego (UCSD), Southwestern College, and the Sweetwater Union High School District was formally launched last November. UCSD Chancellor Robert C. Dynes, Southwestern president Serafin A. Zasueta, and Sweetwater Superintendent Edward Brand (pictured 1 to r) signed a “UniversityLink” agreement.

The “UniversityLink” partnership has two primary goals: to encourage and promote the college-going and transfer rates of the diverse student population living in San Diego’s South Bay, and to enrich the UCSD campus by fostering diversity in its student population.

Fulfillment of “UniversityLink” contracts signed by high school seniors enrolling at Southwestern will guarantee admission to a fall quarter at UCSD.

Study of Latino-Owned Businesses in Southern Calif.

The Latin Business Association (LBA) and David E. Hayes-Bautista, director for the University of California-Los Angeles (UCLA) Center for the Study of Latino Health, gathered last November to discuss a comprehensive study of Los Angeles-area Latino-owned businesses.

The study presents information on the estimated number of Latino-owned businesses for 1998 in Los Angeles County, Orange County, Riverside County, San Bernardino County, and Ventura County; the role of Latino-owned businesses in the growing Southern California economy; and the rapid growth of Latino-owned businesses between 1972-1998.

Taking part in the discussions were Héctor V. Barreto, Jr., Chairman of the Board, LBA; Dr. David E. Hayes-Bautista, Director, UCLA Center for the Study of Latino Health; Richard S. Amador, Esq., Chair, Latino Business Expo, LBA; and Ruth López Williams, Vice Chair, LBA.

Noticias de Texas A&M

La prevención y sus soluciones con base en la comunidad son dos factores estratégicos del Consejo de Salud que necesitan mucha atención, dice Renato Espinoza, director de la Oficina de Salud de la Minorías del Departamento de Salud de Texas.

Hablando el otoño pasado frente a un
grupo de profesionales de la salud y educadores, en la conferencia sobre la salud de las minorías en la Universidad Texas A&M. Espinoza sacó a la luz la preocupación sobre el acceso a los servicios de salud que comparten los que trabajan en el área de la salud para las minorías.

"Necesitamos concentrarnos y enfocarnos en la prevención que ya más allá de decirle a alguien que haga ejercicio o que no fume," dijo Espinoza. "Necesitamos cambiar el ambiente para facilitar los medios preventivos. Tenemos que ir a ellos [a la gente]."

La conferencia titulada "Servicios de salud para las minorías: ¿estamos ayudando?" fue patrocinada por el Instituto de Estudios Raciales y Étnicos de Texas A&M (RESI), el Centro de Ciencias para la Salud de Texas A&M y la Facultad de Medicina. Menosar los servicios de salud para las minorías y promover a las minorías en esta profesión, fueron solo algunos de los temas que se discutieron en la conferencia.

**SAC Nursing Team Nationally Recognized**

A team of faculty members in the Department of Nursing Education at San Antonio College (SAC) in Texas, was one of only five teams in the U.S. and Canada to receive the 1998 Consortium for Community College Development Faculty Recognition Award.

Responding to a need for registered nurses in South Central and Southwest Texas, the SAC team—Irene Aguilar (pictured here giving an orientation session to students), Rebecca Bonugli, Karen Mallo, Dr. Lula Pelazo, and Lenea Revell—developed the state's first and only Associate Degree in Nursing Program to be offered by distance videoconferencing.

Nursing instructors Aguilar and Bonugli earned credentials as Certified Distance Learning Professionals from Texas A&M University and, in addition to their usual teaching duties, provide professional development training in interactive video teaching for San Antonio faculty.

**Latin American Artists at USF**

The art works of internationally renowned Latin American artists Claudio Bernardi, Luis González Palma, Pablo Garber, and Estela Garber were recently featured at the University of San Francisco (USF). The show was titled "Diffused Limits/Límites Difusos: A Show of Latin American Artists."

USF also sponsored a marathon reading of the works of Argentine poet Federico García Lorca.

Bernardi, Pablo Garber, and Estela Garber are from Argentina. González Palma is from Guatemala.

The event was sponsored by the Center for Latino Studies in the Americas in the USF College of Arts and Sciences. Pedro Lange-Churión, USF assistant professor, modern and classical languages, facilitated the event.

**Cal State's Beckman Scholars**

California State University-Los Angeles was among 20 universities nationwide chosen out of 800 applicants to participate in The Beckman Foundation's new Beckman Scholars Program. The four outstanding undergraduate students at Cal State-L.A. selected as Beckman scholars are Ernesto Cruz (junior, chemistry), Cristal Gana (junior, biochemistry), Leena Wen (junior, biochemistry), and Sang Woon Kang (transfer student, biochemistry).

They will start July 1 with full-time research participation through the summer and part-time during the academic year. All four students plan to pursue the Ph.D. following completion of the Bachelor of Science degree. The students will represent Cal State-L.A. in July at the Research Symposium, designed to showcase the research achievements of Beckman Scholars.

Carlos Gutiérrez, Cal State-L.A. professor of chemistry and biochemistry, is the faculty coordinator and mentor for the program.

**Chapman Gets $1.3 Million Federal Grant**

Chapman University's School of Education (Calif.) has received a $1.3 million grant that will help advance the careers of 100 instructional assistants and could ultimately boost the education of as many as 12,000 limited English proficient students.

The grant is from the United States Department of Education's Office of Bilingual Education and Minority Languages Affairs.

At least 100 current paraprofessionals will receive the education necessary to earn a credential to teach and serve students whose first language is not English.

Grant money will help defray tuition costs as well as participants' child-care costs, book expenses, and attendance at professional conferences. Working instructional assistants are the primary target of this program, but parents, community members, and bilingual students also will be encouraged.

Cheryl Valdez (pictured here), associate dean of Chapman's School of Education, who co-wrote the grant, said, "The grant is to prepare teachers to work with children whose first language is not English."
No Neutral Ground: Standing by the Values We Prize in Higher Education
by Robert B. Young

Robert B. Young identifies seven essential core values (service, truth, freedom, equality, individualization, justice, and community) vital for those within higher education. He explains how higher education administrators, faculty, and trustees can incorporate these values into their own practice and transmit them to the community at large.

CONFERENCES

National Institute for Leadership Development

January 10-15
For women with a masters degree who work in a community college. Provides leadership training that utilizes the concepts of the most current and progressive models to define the essence of leadership for the 21st Century. The institute consistently trains leaders to have a positive impact on their educational institutions.

January 28-31
For female CEOs of community colleges includes enhancing your leadership skills, debating current issues, networking with colleagues, recreation, and rejuvenation.

Contact: NILD President Carrolle Wolin or NILD Director Nancy Schwede, (301) 287-7494.

Teleconference: Addressing Claims of Sexual Harassment

January 12 Boston
January 14 New York
January 26 Los Angeles
January 28 San Francisco
February 9 Atlanta
February 11 Houston
February 23 Chicago
February 25 Columbus, Ohio
March 9 Washington, D.C.
March 11 Philadelphia

"How to Address Claims of Sexual Harassment: What the Law Demands," presented by The University of Vermont, Continuing Education. Intended for higher education professionals including Student Affairs, Human Resources, and Collective Action personnel.

National Association for Bilingual Education Annual Conference

January 26-30
"Bilingual Education: More Than Just Talk!" is the NABE conference theme. In Denver, Colo.

Ethnic Studies National Conference

February 9-14
Conference of the National Association of Hispanic & Latino Studies and the National Association of African American Studies. In Houston, Texas.

Contact: NAHLS Exec. Dir., Dr. Lemuell Berry, Jr., (1000) 783-2550.

The Academy in Motion

February 13-16
Annual meeting of the American Council on Education (ACE). At the Grand Hyatt Hotel, Washington, D.C.

Contact: Annual Meeting Office, ACE, (202) 980-0410.

United into the Next Millennium

March 4-8
Meeting of the National Association of Hispanic Publications. Of special interest to publishers of Hispanic publications and their staffs, among others. At the Waterfront Hilton, Huntington Beach, Calif.

Contact: NAHP, (202) 662-7250.

Organizing for Learning: Constant Values, Competitive Contexts

March 20-24
Annual conference of AAHE, the American Association for Higher Education. In Washington, D.C.

College Teaching and Learning

April 14-17

Contact: Bill Martin, (904) 646-2150; e-mail, <wmartin@fscj.org>. Also, Jack Chambers, (904) 632-3241; e-mail, <jchamber@fscj.org>. Visit conference Web site at <http://www.teachlearn.org>.

Conference on the Retention of Latino Students in Higher Education

April 16
Fourth annual conference, presented by California State University-Dominguez Hills Chicano/Latino in Higher Education Challenges and Opportunities for Student Success. In Dominguez Hills, Calif.

Contact: Dr. Miguel Dominguez, (310) 248-5685; e-mail, <mdominguez@csudh.edu>.

K
Book Review in Brief
By Johnnie D. Spraggs, Ph. D.
Visiting Assistant Professor, Department of Sociology
State University of New York—Geneseo, Geneseo, New York

In this important book about a family emigrating from the Dominican Republic to New York City in the 1980s, Fischkin draws attention to their plight as they negotiate the U.S. Immigration and Naturalization Service, secure housing, and navigate the educational system.

Fischkin includes in her narrative the idiosyncrasies of immigration policy and procedures, with rates and trends. The process of learning English, the placement in the educational system, and the varying generational differences are all described. The book is important as a well-researched sociological perspective on immigration in the 1980s and 1990s.

The Almonte family situation is described from several perspectives simultaneously. Fischkin draws parallels to the fact that she comes from a family of earlier, European immigrants, and acknowledges how as an author and observer this fact colors her outlook on the Almontes. The Almontes are somewhat unusual in that the New York media covers the story. It also attracts the attention of a local politician who influences their management by the INS.

Unusual in its personal perspective in such a usable book on the ethnography or sociology of immigration, this book intimately speaks to the student. The ethnic makeup of New York state schools and the experience from an immigrant's stance are also strengths. Instructors will find this book valuable in courses on Race and Ethnicity, Immigration, Education, and American Culture.

Muddy Cup: A Dominican Family Comes of Age in a New America
by Barbara Fischkin.
367 pgs.
ISBN 0-684-80704-1
Hardcover $24.

Muddy Cup adds to our understanding of the diversity of contemporary US society with a personal story bolstered by demographic facts, and each influences the other.

The University of St. Thomas is a private, Catholic, comprehensive liberal arts University with a student body in excess of 10,000. Of that number, 5000 are in the undergraduate College and 5000 in five graduate schools.

We currently are recruiting for faculty positions in a variety of specialties. For more information regarding the University and these excellent employment opportunities, visit our website at www.hastom.edu.

The University is an equal opportunity employer and is committed to a program of affirmative action and diversity. Women and persons of color are strongly encouraged to apply.

ST. THOMAS

The Ohio State University invites nominations and applications for the position of Vice Provost for Minority Affairs. The Vice Provost for Minority Affairs reports to the Provost and participates in the collective staff meetings and policy discussions of the Office of Academic Affairs.

The Vice Provost for Minority Affairs has line responsibility for the Office of Minority Affairs. As the administrative head of the Office of Minority Affairs, the Vice Provost cooperates with other university offices, with academic units, faculty, staff, and students in monitoring, evaluating, proposing, and implementing improvements in programs, policies, practices, and outcomes with respect to minority student recruitment, retention, support, graduation rates and quality of life.

The Vice Provost works collaboratively with the Office of University Development to raise funds to support minority students and programs, and with the Alumni Association to strengthen links between minority alumni and the University.

Candidates for this position should have an earned doctorate or equivalent terminal degree; demonstrated leadership and administrative accomplishments, preferably in a comprehensive teaching and research university; and accomplishments pertinent to the specific functions of this position. Eligibility for appointment in an academic department is desirable.

The position is available July 1, 1999. Salary is negotiable. For fullest consideration, applications should be received by January 30, 1999, but applications will be accepted until the position is filled. Nominations and applications should include a cover letter describing the individual’s interest in and qualifications for the position, and a current resume or curriculum vitae. Please send to:

**KINGSBOROUGH**

**COMMUNITY COLLEGE**

The City University of New York

Kingsborough is a comprehensive two-year community college of The City University of New York. Its beautiful 67-acre oceanfront campus is located in Manhattan Beach, Brooklyn — 25 minutes from Manhattan. The college is seeking qualified candidates for the following anticipated instructional position vacancies for Fall 1999 — subject to financial ability:

- **SPEECH**
  
  Assistant Professor - teaching undergraduate courses in Communication/Speech Arts and/or Speech-ESL.
  
  Qualifications: Doctorate in Communication, Speech Science, TESOL or related area; college-level teaching experience in Communication and/or Speech ESL, preferably in an urban environment and evidence of scholarly activity.

- **EARLY CHILDHOOD EDUCATION**
  
  Assistant Professor - teaching a full range of Early Childhood Education undergraduate courses.
  
  Qualifications: Ph.D. or Ed.D in Early Childhood, Elementary Education or Secondary Education required; supervisory experience in an Early Childhood setting; experience working with pre-school aged children and evidence of scholarly activity.

- **MATHEMATICS AND COMPUTER SCIENCE (Two Positions)**
  
  Assistant Professor - teaching a full range of undergraduate courses in Mathematics and Computer Science.
  
  Qualifications: Ph.D. in Mathematics or Computer Science; prior college-level teaching experience and evidence of scholarly activity. Preference will be given to candidates with expertise in Computer Science, especially C++, Assembler, Discrete structures, and data structures.

- **NURSING (Two Positions)**
  
  Instructor/Assistant Professor - teaching undergraduate courses in all areas of nursing; student advisement, committee participation and scholarly activity.
  
  Qualifications: Master's Degree in Nursing, plus NYS RN license required; Doctorate or equivalent required for Assistant Professor. Prior teaching experience in specialty in an academic setting; recent clinical experience required. Knowledge of and commitment to Associate Degree Nursing Education and curriculum development; evidence of scholarly activity.

- **EARTH SCIENCE**
  
  Assistant Professor - teaching courses in undergraduate Earth Science and/or Meteorology and/or Astronomy or related area.
  
  Qualifications: Doctorate in Earth Science sub-discipline of Meteorology and/or Astronomy or related area; prior college-level teaching experience; ability to upgrade Earth Science laboratories and evidence of scholarly activity.

- **SECRETARIAL/OFFICE ADMINISTRATION**
  
  Assistant Professor - teaching undergraduate courses in Secretarial/Office Administration.
  
  Qualifications: Doctorate or equivalent in Secretarial/Office Administration or Business Education; prior teaching experience on the college level and involvement in the field of Business Education; knowledge of word processing packages including WordPerfect 7 for Windows, Microsoft Office Professional 95 (Word, Access, Excel and PowerPoint), Windows 95/98 and Business Communications. Knowledge of Adobe Illustrator 7 and QuarkXpress 4 desirable and evidence of scholarly activity.

- **TRAVEL AND TOURISM**
  
  Instructor/Assistant Professor - teaching undergraduate courses in the areas of Tourism, primarily in Food Service and Hospitality industry.
  
  Qualifications: Master's Degree in a related area required; Doctorate or equivalent required for Assistant Professor. Extensive professional experience in Hospitality and Food Service desirable; college-level teaching experience desirable, knowledge of computer hospitality and food service reservation systems, familiarity with the Internet, and evidence of scholarly activity.

- **Responsibilities for all positions require student advisement, committee participation and scholarly or creative works.**

**Salary:**

- Instructor: $29,409 - $40,331
- Assistant Professor: $32,062 - $44,540 (Tenure Track Position)

Commensurate with qualifications and experience.

Please send resume by January 13, 1999 to: Dean Fred B. Malamet, KINGSBOROUGH COMMUNITY COLLEGE, The City University of New York

Tenure Track Faculty Positions
In the Department of Engineering Management
University of Missouri-Rolla
Rolla, Missouri

The School of Engineering invites applications for the following tenure-eligible positions in the Department of Engineering Management at all ranks beginning with Fall 1999. Candidates must hold a degree in engineering or science and the appropriate credentials for the applicable rank in engineering management. These positions require a Ph.D. Industrial experience is desired but not required. Excellence in teaching, research and scholarly publications must also be demonstrated in the area specific to the position being sought.

The Department confers the degrees of BS, MS and PhD with option areas in Management of Technology, Industrial Engineering, Quality Engineering, and Packaging and Manufacturing Engineering. The Department currently has 20 full-time faculty members and an enrollment of 172 undergraduate and 50 graduate students on campus. There are four off-campus sites which produce 80 to 100 MS degrees per year. The department is leading a new state-wide cooperative program in graduate distance education in engineering management to which candidates will be expected to contribute through the use of videoconferencing technology and occasional travel to remote sites. Successful applicants will also be expected to possess excellent written and oral communication skills along with the ability to work as a team in generation and dissemination of research results and teaching methods among the above areas.

Position # R52983 - Management of Technology
Requires significant expertise that is applicable to technical organizations in one or more of the following areas: technology management, strategic management, accounting, finance, contracting, organizational behavior and human resources in technical organizations.

Position # R52984 - Systems/Industrial Engineering
Requires significant expertise in one or more of the following areas: manufacturing systems and processes, material handling, computer-integrated manufacturing, process automation and control, flexible manufacturing, reliability, virtual manufacturing, product disassembly, concurrent engineering design, environmentally conscious manufacturing, process and product design, and manufacturing systems management.

Position # R52994 - Manufacturing
Requires significant expertise in one or more of the following areas: manufacturing systems and processes, material handling, computer-integrated manufacturing, process automation and control, flexible manufacturing, reliability, virtual manufacturing, product disassembly, concurrent engineering design, environmentally conscious manufacturing, process and product design, and manufacturing systems management.

A complete application must include a letter of application to one of the above positions, current curriculum vitae, teaching evaluations from any previous teaching experience, statement of research plans, summary of past research and grant related activities and a list of four references. Rank and salary will be commensurate with qualifications.

The search committee will begin reviewing applications on March 1, 1999 and continue until the positions are filled. Additional information on UMR and the Engineering Management Department can be found at http://www.umr.edu.

Please submit application and vitae to Human Resource Services, Reference Numbers R52983, R52984, or R52994, University of Missouri-Rolla, 1202 North Bishop Avenue, 1870 Miner Circle Drive, Rolla, MO 65409-1050.

UMR is an AA/EEO employer. Females, minorities and persons with disabilities are encouraged to apply.

Molecular Epidemiologist

An open rank search has been initiated for a state-funded tenure-track Molecular Epidemiologist at the Piscataway campus of the recently expanded statewide University of Medicine and Dentistry of New Jersey - School of Public Health. Applicants should have experience conducting epidemiologic research in etiologies of cancer, adverse reproductive outcomes, respiratory, neurologic or other disorders. Areas of special interest include environmental and occupational exposures, diet and nutrition, and ionizing and non-ionizing radiation. The applicant's research should demonstrate molecular epidemiologic knowledge and techniques. Qualified applicants should possess an earned doctorate in epidemiology, medicine or a related field. Individuals should have a demonstrated history of peer-reviewed publications and research funding and should participate in graduate teaching.

The successful candidate will be appointed through the University of Medicine and Dentistry of New Jersey at the Assistant, Associate or Full Professor rank, based upon their background and experience, and will be located at the NJSPH. It is anticipated that the faculty will be jointly appointed in the Department of Environmental and Community Medicine at UMDNJ - Robert Wood Johnson Medical School. They may also be eligible for appointments at the Environmental and Occupational Health Sciences Institute (EOHSI) and/or the Cancer Institute of New Jersey (CINJ), or the National Institute of the Environmental Health Sciences. Center of Excellence.

The Piscataway/Long Branch Program of the UMDNJ - School of Public Health, formed in conjunction with Rutgers University, is an expansion of the fully accredited New Jersey Graduate Program in Public Health, which was established in 1983. The UMDNJ - School of Public Health confers the MPH, PhD. and DPH degrees.

Applicants should send a curriculum vitae, a short statement of research plans, and the names and addresses of references, to George G. Rhodes, M.D., MPH, EOHSI, 170 Frelinghuysen Road, Room 224, Piscataway, NJ 08854. The UMDNJ - School of Public Health is an Affirmative Action/Equal Opportunity Employer, m/f/d/v, and a member of the University Health System of New Jersey. Wheelock College

DEAN OF THE GRADUATE SCHOOL

The Trustees and President of Wheelock College in Boston, Massachusetts, seek nominations and expressions of interest in the position of the Dean of the Graduate School. Founded in 1888, Wheelock College has a unique mission to improve the lives of all children and their families. Wheelock is a premier institution preparing students for careers in education and human services; the College has approximately 700 undergraduate graduates and 500 students enrolled in its graduate degree programs. Wheelock maintains a serious commitment to interdisciplinary collaboration with urban communities, schools, and agencies.

The Dean of the Graduate School provides intellectual, administrative, and fiscal leadership as the chief academic officer of the Graduate School. The College offers five programs offering Master's degrees, organized in three departments: Education, Human Development and Family Studies, and Leadership, Policy, and Administration. The Dean reports to the Vice President for Academic Affairs and works closely with the Dean of the Undergraduate School.

The successful candidate will possess an earned doctorate, a strong academic record of teaching, scholarship and service, excellent communication skills, and demonstrated administrative ability in higher education. Preferred candidates will have experience with academic program planning and strong interest in liberal and professional education.

Review of applications will commence January 15, 1999, and continue until the position is filled. Requests for a copy of the criteria statement and questions may be directed to the consultants supporting Wheelock College in this process: Nancy C. Whitecomb and Janet E. Couros, via e-mail at wheelockdean@emerson.com. Additional information about Wheelock may be viewed at its Web site: www.wheelock.edu. Letters of nomination or applications should be submitted to

Dean of the Graduate School
Wheelock College
C/O Educational Management Network/Wili/Kleffner
98 Old South Road
Nantucket, MA 02554

Wheelock College is an Affirmative Action, Equal Opportunity Employer.
Gainesville College, a two-year unit of the University System of Georgia, has tenure track faculty vacancies in the following areas for the 1999-2000 academic year. All positions are dependent upon budget approval.

- Biology
- Computer Information Systems (Business Administration)
- English
- History
- Instrumental Music
- Journalism/Speech or Journalism/English
- Mathematics
- Spanish
- Speech Communications

Gainesville College is located 50 miles northeast of Atlanta, Georgia, near beautiful Lake Lanier. It has almost 3,000 students and 90 full time faculty members. In addition to traditional day classes, the College, primarily transfer oriented, has a robust night program and several off-campus sites.

For specific information about the vacancies, please visit our web site at:

GAINESVILLE, GA 30503
ADA/EEO/AA EMPLOYER

UNIVERSITY OF WISCONSIN MADISON

DEAN OF THE COLLEGE OF ENGINEERING

The University of Wisconsin-Madison, one of the top ranked research universities in the United States, invites nominations and applications for the position of Dean of the College of Engineering. The College of Engineering currently offers research programs as well as graduate, undergraduate, and outreach instruction in a wide range of fields organized through eight departments: chemical engineering, civil and environmental engineering, electrical and computer engineering, engineering physics, engineering professional development, industrial engineering, materials science and engineering, and mechanical engineering, and eight interdisciplinary degree programs: biological systems engineering, biomedical engineering program, geological engineering program, manufacturing systems engineering program, materials science program, oceanography and limnology graduate program, polymer engineering and science, and water chemistry program. The college enrolls approximately 1100 graduate and 3400 undergraduate students. Annual extramural research support is more than $55 million. As a result of the recent building program, the college has attractive and modern physical facilities appropriate for current teaching and research activities as well as allowing room for innovative future programs. More comprehensive information about the College of Engineering can be accessed at:

http://www.engr.wisc.edu/

The dean provides leadership to a faculty of approximately 185 and a budget of approximately $108.5 million. The dean is the chief academic and executive officer of the college, with responsibility for personnel, curriculum, academic affairs, research, budget, fund raising, community relations, and physical facilities.

Major qualifications for this position include:
- A proven record of administrative skills and successful leadership in higher education;
- A comprehensive appreciation of the complex issues in the fields of engineering; academic accomplishments as a scholar and teacher that meet the standards for a tenured appointment as full professor at the University of Wisconsin-Madison; a commitment to maintain and improve the quality of undergraduate and graduate instruction, research, technology transfer, and public service; and a demonstrated commitment to diversity. The successful candidate will be expected to represent the college through interactions with external groups such as alumni, legislators, and representatives from government, foundations, and industry.

The position will be available 1 July 1999. Applications and nominations must be received by 26 February 1999 to ensure consideration. Later applications and nominations may also be considered. The committee particularly encourages applications and nominations of women and persons of underrepresented groups. Applicants should include a current curriculum vita and cover letter that addresses how their strengths match the qualifications for the position, and what they see as challenges and opportunities of the position, as well as the names and addresses of five references. Candidates will be notified before references are contacted. Please note that under Wisconsin statutes the names of nominees and applicants who explicitly request confidentiality will not be made public. However, the university is required to release the names of the finalists who will be interviewed by the chancellor. Submit applications and nominations to:

Professor W. Harmon Ray
Dean Search and Screen Committee for the College of Engineering
University of Wisconsin-Madison
500 Lincoln Drive, 133 Bascom Hall
Madison, WI 53706

Fax: (608) 265-5728
Email: quillinn@mail.bascom.wisc.edu

The University of Wisconsin-Madison is an Equal Opportunity, Affirmative Action Employer.
ANUCANCY ANNOUNCEMENT

New Jersey City University is a culturally diverse, public urban institution located in the greater New York Metropolitan area, and is one of nine state colleges/universities in New Jersey. The University offers undergraduate and graduate programs in the liberal arts and professional studies to over 6,000 students, an extensive cooperative education program, and an expanding continuing education program. Faculty number almost 250.

We are interested in faculty who want to become a member of a dedicated faculty which is committed to excellence in teaching and is actively involved in innovative teaching approaches including use of technology. Faculty may be assigned classes at off-campus sites and/or assigned to provide instruction through distance education.

Faculty positions will be filled at the level of assistant professor, instructor level if ABD, and selected appointments may be made at the associate level for outstanding candidates. Applicants should send a letter of application, resume, and three names, addresses and telephone numbers of references to the Office of the dean (by January 21, 1999).

[COLLEGE OF ARTS AND SCIENCES  Ansley W. LaMar, Ph.D., Dean]

- **ART** (2 positions) - The first position is in illustration. Strong professional background in conceptual, traditional art, and digital illustration to teach a wide range of courses is required. Candidate should have at least five years of teaching and professional experience. Second position is in Jewelry/Metalsmithing. Artist with significant exhibition record, commitment to teaching, and knowledge of 3D computer applications including CAD-CAM. MFA required. Ph.D. or Ed.D. a plus.

- **BIOLOGY** - Teach courses in comparative anatomy, invertebrate zoology, and freshman major courses. Appropriate computer skills are required.

- **ENGLISH** (2 positions) - The first position is for a generalist who has a strong background in teaching experience in the area of American literature or British literature since 1620. The second position is for a generalist who has experience in teaching American literature surveys and who is familiar with African-American, Latino, and Asian-American literature. Both positions require the ability and willingness to teach support courses in composition, developmental creative, and business writing and language usage.

- **MUSIC/ION/TEATRE** (2 positions) - One position is for a Choral Director and the second position is for a Theatre Technician (generalist).

- **PSYCHOLOGY** - Teach undergraduate and graduate level courses in developmental and/or clinical/counseling.

- **WOMEN'S STUDIES** - Requirements are to be determined in women's studies or a relevant related field and teaching experience in interdisciplinary core courses in women's studies. Scholarship about women of color and/or women globally is a plus.

[COLLEGE OF EDUCATION  Yiping Wan, Ph.D., Dean]

- **ADMINISTRATION, CURRICULUM, AND INSTRUCTION** (3 Positions) - One position is to teach graduate courses in administration and supervision. New Jersey principal and superintendent certification, administrative experience, and established record of publications are required. Second position is to teach undergraduate and graduate courses in early childhood education. Extensive experience in public and private schools preferred. College teaching, supervision, and an established record of scholarly publications a plus. Three positions are for undergraduate and graduate courses in secondary education in mathematics and sciences. Extensive experience in urban public secondary schools preferred. College teaching and supervision experience, and a record of scholarly publications a plus.

- **LITERACY EDUCATION** - Teach literacy and graduate level courses. Experience and knowledge of public schools is required. As a solid working knowledge of contemporary teaching/learning technologies. College teaching experience is preferred along with evidence of research and scholarship interests. Active involvement in professional/community agencies a plus.

- **EDUCATIONAL TECHNOLOGY** - Administer a new master's degree program in Educational Technology and teach graduate courses in the program. Thorough knowledge of relevant software, including Web browsers and Web authoring; presentation software, multimedia development and related applications. Strong technology skills constructing distance education programs including audio/video production, on-line course development, and instructional material development. Experience and assessment with distance learning essential as many courses are taught on-line.

[COLLEGE OF PROFESSIONAL STUDIES  Sandra Bloomberg, Ph.D., Dean]

- **BUSINESS ADMINISTRATION/MANAGEMENT** - Evidence of successful teaching and research or industry background in management information systems and production/operations management is required. Ability to develop applications using state-of-the-art online and distance technology needed. Commitment to student advisement, retention and department development essential.

- **BUSINESS ADMINISTRATION/ACCOUNTING** - Evidence of successful teaching and research in accounting or industry background in management information systems and production/operations management is required. Ability to develop applications using state-of-the-art online and distance technology needed. Commitment to student advisement, retention and department development essential.

- **BUSINESS ADMINISTRATION/TRAVEL AND TOURISM MANAGEMENT** - Program Director/Faculty. Excellent opportunity for experienced educator to start-up program which provides a minor for non-business majors and a concentration for students majoring in Business Administration. Must provide leadership in the development of the program, to include establishing linkages with industry, two-year schools, and the community. Individuals with administrative experience in the travel and tourism industry will be given preference. Strong communication and organizational skills are essential. Master's degree in travel and tourism management or related field is required, doctorate preferred.

- **CRIMINAL JUSTICE** - Evidence of successful teaching or background as a practitioner in the field of criminal justice is required. Ability to teach research methodology is essential. Experience in developing applications using state-of-the-art online and distance technology a plus. Willingness to advise students and contribute to departmental development and operations is necessary. Undergraduate/graduate teaching opportunities.

- **HEALTH SCIENCES** - A strong student orientation and commitment to teaching and conducting research with graduate and undergraduate students is essential. Areas of particular importance: biochemistry, environmental health, epidemiology, public health, research methodology. Experience as a practitioner in public health/health care administration/managed care preferred. Willingness to contribute to departmental development and operations is essential. Interest and abilities in online and distance learning technology a plus. Undergraduate/graduate teaching opportunities.

ASSOCIATE DEAN FOR FINANCIAL AFFAIRS AND ADMINISTRATION

(Search Reopened)

The University of Illinois College of Medicine at Rockford invites applications for the newly reopened search for the position of Associate Dean for Fiscal Affairs and Administration. With this renewed search, the position responsibilities have been expanded to include the following: The Associate Dean...

- Oversees close oversight and management of personnel and budget including all personnel and administrative operations of the College
- Directs and supervises the development of all financial reports, analyses, and presentations
- Provides leadership, vision, and strategic development for all non-academic personnel of the College
- Leads the human resource evaluation and review program for non-academic staff
- Reviews and approves all departmental budgets and prepares College budget
- Reports directly to the regional dean and bears supervisory responsibility for Medical Service Plan (administration), accounting, internal auditors, and investment control, computer services, medical transportation, physical plant, media services, and other administrative and support units

The College of Medicine combines the appeal of a small college atmosphere with the strength and resources of one of the nation’s largest and most respected universities. The Rockford area is a growing second- and fourth-year medical students in classes of 40 students per year. The College’s internationally recognized curriculum emphasizes community-based, primary care medical education.

The successful candidate must possess an MBA or equivalent and have at least 3-5 years experience in positions of financial and managerial responsibility in an institution of higher education.

Applications will be accepted through February 1, 1999. Interested candidates are invited to submit a letter of interest and resume to:

D. Kennedy McCallum, M.D.
Associate Dean for Academic Affairs
510 North State Street
Rockford, IL 61107-1897

Fax (815) 395-2564

e-mail: Helen@ivicat.edu

The University of Illinois is an Equal Opportunity/Affirmative Action Employer.

Founded in 1863, Boston College is a private, Jesuit Catholic university recognized among the nation’s most highly competitive institutions for admission, with an enrollment of approximately 14,000 undergraduate and graduate students. Students are currently enrolled in the College of Arts and Sciences, School of Business, School of Education, School of Law, School of Nursing, and Graduate School of Arts and Sciences. The University is located in the suburbs of Boston, a major metropolitan area.

NURSING INSTRUCTOR

A comprehensive two-year degree offered to students in a full-time, 2-year program of education in preparation for the National Council Licensure Examination for Registered Nurses. The College is located on a 1,600-acre campus in the town of Chestnut Hill, MA.

Responsibilities include teaching in a college setting; preparing and delivering lectures; conducting laboratory and clinical instruction; and evaluating student progress. The successful candidate will possess a Bachelor’s degree in Nursing and be certified as a Registered Nurse by the Massachusetts Board of Registration in Nursing. The candidate will also have one year of clinical experience in a hospital or ambulatory care setting.

Applications are accepted on a continuous basis.

The Boston College School of Nursing is an Equal Opportunity Employer.
UNIVERSITY OF RHODE ISLAND
Dean, College of Arts and Sciences

The University of Rhode Island invites nominations and applications for the position of Dean of the College of Arts and Sciences.

The Dean is the principal administrative officer of the College and reports directly to the Provost/Vice President for Academic Affairs. The Dean's responsibilities for the development and management of the College’s programs and resources include: implementing and managing educational planning, budgetary, and non-academic personnel in a collective bargaining environment; managing financial resources; maintaining and improving the quality of the College’s programs; securing and allocating support for the teaching, research/creative, and service activities of the College; encouraging curricular development; and promoting funded and unfunded research. The Dean represents the College in its relations with the rest of the University, its alumni, and the State of Rhode Island.

■ College and University

The University of Rhode Island is the principal public research institution in the State of Rhode Island. Its status as a land grant, sea grant, and urban grant institution highlights its traditions of natural resources, marine, and urban-crafted research. With strong undergraduate and graduate programs in the liberal arts, humanities, and sciences and strong programs in the health professions and other areas of study, the University offers a diverse range of opportunities to its students. The University is home to more than 10,000 undergraduate and 3,100 graduate students, and the University's research activities have increased significantly over the past decade, with more than $45 million in research funds awarded in fiscal year 2019.

■ Qualifications:

- An earned doctoral or appropriate terminal degree from a recognized and accredited institution of higher education
- Teaching, research/creative, and service credentials that will qualify the candidate for appointment as a tenured full professor in an appropriate department
- A minimum of three, and preferably five or more years of successful administrative, managerial, and planning experience - preferably in higher education - preferably in the Department Chair or above, with a record of increasing responsibility
- A record of successful extramural fund-raising and outreach activities

Additionally, applicants for this position must demonstrate:

- A commitment to shared governance
- A commitment to fostering a climate of respect for students and excellence in academic advising and other student services
- A commitment to promoting diversity in faculty, staff, and curriculum consistent with the University's mission
- A commitment to equal opportunity and affirmative action

Preference will be given to candidates who can demonstrate:

- An ability to provide strong leadership capable of moving the College forward in its continuing pursuit of excellence in teaching, research/creative, and outreach activities
- Insight and vision that will guide the College in clarifying its mission and role in a changing society
- An ability to develop and promote positive relations that will foster the mission of the College and the University with appropriate groups and organizations, both on and off campus
- Experience in attracting and managing sponsored research

■ Nominations:

Nominations of qualified candidates are welcome and encouraged. Letters of nomination must include full contact information for the nominee.

■ Applications:

Applications will be accepted until the position is filled. However, to assure consideration, applications must be received on or before January 25, 1999. Applications should include a brief statement addressing the position and qualifications, as well as expressing the applicant’s educational and administrative philosophy and vision for the College. The names, addresses, telephone, and fax numbers of three references (who will not be contacted without the applicant’s approval) should also be included. Send application materials to:

Dr. James G. Kawalski,
Search Committee Chair
(401) 874-4417
E-mail: kawalski@cs.uri.edu
The University of Rhode Island is an affirmative action/equal employment opportunity employer and is committed to increasing the diversity of its faculty, staff, and students. Qualified candidates from underrepresented groups are encouraged to apply.

EDUCATION

Temple University, a recognized leader in the area of higher education, has an outstanding opportunity available in its Undergraduate Admissions Department

ASSOCIATE DIRECTOR

Recruitment/Transfer Affairs

We are seeking an individual to plan and manage all aspects of freshman and transfer student recruitment functions including preparing annual recruitment plans, coordinating all direct mail communication to prospects, inquiries and matriculated students, conducting open houses, and matriculated student receptions, and other campus-based recruitment programs; and coordinating of-campus recruiting. Will also supervise admissions staff; act as liaison to other offices; assist with budget planning, write reports, and analyze market research.

A related Master's degree and at least five years experience in undergraduate admissions or related area are required. Must be able to effectively manage personnel and coordinate extensive recruitment/outreach programs.

DUTIES AND RESPONSIBILITIES:

- Determine priorities for the department
- Develop and implement recruitment strategies
- Coordinate recruitment activities
- Supervise admissions staff
- Analyze recruitment data

QUALIFICATIONS:

- A related Master's degree
- At least five years of experience in undergraduate admissions or related area
- Excellent interpersonal and communication skills
- Strong organizational and planning skills
- Experience in managing multiple projects simultaneously
- Excellent writing and editing skills
- Ability to work well under pressure
- Ability to work flexible hours

University of Wisconsin-Extension

UNIVERSITY OF PENNSYLVANIA
DEAN, SCHOOL OF ENGINEERING AND APPLIED SCIENCE

The University of Pennsylvania, the nation's first university and Philadelphia's largest private employer, invites nominations and applications for the position of Dean of the School of Engineering and Applied Science. As its chief academic and administrative officer, the dean has overall responsibility for the school's educational and research programs, strategic directions, faculty growth, and development. One of twelve schools within the University, Engineering has seven departments with vibrant interdisciplinary research and educational programs that include interactions with the Institute for Medicine and Engineering, the Institute for Research in Cognitive Science, the Laboratory for Research on the Structure of Matter, and the Institute for Neurological Sciences. The School has both undergraduate and graduate joint programs with Wharton, the School of Nursing, Arts and Sciences, and the Annenberg School for Communication.

Candidates should possess exceptional leadership attributes, an understanding and appreciation of the role and mission of an interdisciplinary research and teaching institution, and a vision for engineering that will enable the school to attract talented faculty and students, and to generate the resources to support research and programmatic initiatives.

The committee will begin reviewing applications by January 15, 2000 although the search will remain open until the position is filled. To apply, please send a letter discussing your qualifications, along with a current curriculum vitae to:

Professor Morris A. Cohen, Chair
c/o Office of the Secretary
University of Pennsylvania
121 College Hall
Philadelphia, PA 19104-6382

Education

Montgomery College

VICE PRESIDENT FOR ADMINISTRATIVE SERVICES

Montgomery College, a two-year community college with three campuses located in subrub Washington, DC with a 15,000 continuing education enrollment, 1,000 regular employees, is seeking a dynamic leader to serve in the newly created position of Vice President for Administrative Services. This position was created as part of a restructuring of senior level positions initiated by the new College President.

Reporting directly to the President, the Vice President will provide leadership and direction for the office of: auxiliary services, budgeting; facilities planning, construction, and maintenance; finance; human resources; information technology; planning and institutional research, and procurement. The College has a total budget of over $100 million. The vice president will function in a team-oriented, collaborative environment to ensure the highest quality student, employee, and community support services.

Qualified candidates will possess the following: a Master's degree in Business Administration or equivalent in educational and experiential preparation, with appropriate additional training/education related fields, a minimum of 5 years high-level experience in one or more of the areas to be supervise preferably in a multi-campus, community college setting; significant understanding of finance, budgeting; commitment to the philosophy of a comprehensive college, preparing to meet the needs of the 21st Century; demonstrated ability to bring about constructive change, participate in processes and to work effectively with culturally and ethnically diverse students, faculty and staff; and strong human relations skills.

The salary range is 57,128 - $14,442 per year. The College offers excellent benefits. Applications for vacancy 1003 can be obtained by calling our 24-hour job line at (301) 227-5374, or coming to the Office of Human Resources, Montgomery College, 990 Hungerford Drive, Suite 130, Rockville, MD 20850. Review of applications begins 1/29/99.

Montgomery College is an EOAA/Title IX Employer
The REGISTRAR of Dartmouth College is responsible for the planning, organization, and record-keeping of the instructional activities pertaining to undergraduates in the Arts and Sciences at Dartmouth. The Registrar is an ex officio member of the Faculty of Arts and Sciences and reports directly to the Dean of the Faculty of Arts and Sciences. The Registrar oversees the efforts of two full-time professional staff members and seven office assistants.

In addition to the normal activities associated with this position, for example, maintaining student records, College publications, academic requirements, internal and external reporting, and setting the academic calendar, the Registrar at Dartmouth is responsible for coordinating with student deans to coordinate academic advising, and with admissions and off-campus programs to manage the numbers of students admitted to the College in a given term. The Registrar works in collaboration with the Director of Institutional Research, conducting projects to evaluate student academic progress, enrollment patterns, grading trends, and other matters relating to the curriculum and its impact on student and faculty; serving on administrative and faculty committees dealing with issues such as the curriculum, diversity, equal opportunity, enrollment planning, classrooms, administrative computing, and off-campus activities; and playing a substantial role in the development and implementation of campus-wide administrative computing systems involving student records.

Dartmouth is currently using the Banner student information system; thus, knowledge of this system would be highly desirable. Coordinating activities and reports with the registrars of the graduate programs in Arts and Sciences, the Thayer School of Engineering, the Tuck School of Business Administration, and the Dartmouth Medical School.

Applicants for the position should have a Master's or a Ph.D. in preterrestrial and at least five years of relevant experience. Please submit a statement of background and qualifications, a curriculum vitae, and the names including addresses and phone numbers of at least three professionals qualified in support of the applicant's credentials.

Ms. Marie Bean, Administrative Assistant, Office of the Dean of Faculty, 211 Wentworth, HB 6045, Dartmouth College, Hanover, New Hampshire 03755. Application review will begin on February 1, 1999. For a more detailed description of the position, please e-mail HYPERLINK "mailto:Marie.Bean@Dartmouth.edu" Marie.Bean@Dartmouth.edu or call her at 603-646-1302.

Dartmouth College is an equal opportunity employer. Women and minorities are encouraged to apply.

University of Minnesota

Silha Professor of Media Ethics and Law

School of Journalism and Mass Communication

The University of Minnesota School of Journalism and Mass Communication seeks applications and nominations for the Silha Professor of Media Ethics and Law. This is a full-time, 9-month tenured position beginning Fall 1999, at the rank of professor or associate professor, depending upon qualifications and experience, and consistent with collegiate and University policies. Salary is competitive with similar academic positions.

The Silha Professor will be an integral part of a major new initiative that will use an infusion of new legislative funds, private funds, and redirected college resources to revitalize this highly respected school.

The successful candidate must have a record of outstanding scholarship in media law and teaching, and/or substantial professional experience and national prominence in the field of media law. The holder of the Silha Professorship will be expected to lead a program of research, teach undergraduate and graduate courses, advise graduate and undergraduate students, maintain ties to the professional community, and serve on appropriate committees. Candidates must show evidence of teaching effectiveness or strong promise or excellence in teaching. Earned doctorate or law degree required.

To apply: send letter of application, current resume or curriculum vitae, and samples of research or teaching for a narrative statement on 2000 goals and plans. In addition, please provide names and addresses of three references who would be willing to write letters of recommendation.

Applications will be reviewed beginning February 1, 1999. Position is open until filled.

Submit application to

The University of Minnesota is an equal opportunity educator and employer.
Bates College invites applications and nominations for the position of Vice President for Academic Affairs and Dean of Faculty; the appointment will begin July 1, 1999.

The chief responsibility of the VPAA/DOF is to foster vigorous and creative teaching, scholarship and learning at the College. The VPAA/DOF is second in authority to the President and is the College’s chief academic officer; oversees the personnel processes of the faculty, including hiring, reappointment and promotion; has administrative responsibility for the College Library, Information Services, the Writing Center, the Athletic Department, the College Museum and the Registrar’s Office, as well as the academic departments and programs; and is a partner to the President in strategic and long-range planning. The duties of the office are shared with an Associate Dean, who is recommended for appointment by the VPAA/DOF from the ranks of the faculty.

The VPAA/DOF must be a strong intellectual and administrative leader. Candidates should have a distinguished record of academic teaching and scholarly accomplishments, sufficient to be appointed with tenure, as well as a commitment to diversity and Affirmative Action.

Salary is commensurate with qualification and experience. Review of nominations and applications will begin January 11, 1999, and continue until a selection has been made.

Please send nominations or application with curriculum vitae, to:

Chair, VPAA/DOF Search Committee
C/o Secretarial Services
2 Andrews Road, 7 Lane Hall
Bates College
Lewiston, ME 04240

The search is being assisted by A.T. Kearney, Inc. Inquiries regarding the search may be directed to Shelly Weiss Storbeck, Managing Director and Vice President, A.T. Kearney, Inc., at 703/739-4613 (fax: 703/518-1782) or shelly.storbeck@atkearney.com.

Bates College is a private, highly selective, residential, co-educational undergraduate institution located in central Maine, 140 miles north of Boston and 35 miles from Portland, Maine. The College enrolls approximately 1600 undergraduate students and has a faculty of nearly 160 FTEs. Bates is recognized among the nation’s leading colleges of the liberal arts and sciences, and emphasizes academic excellence, quality teaching, scholarship and an egalitarian tradition.

Visit our web page at http://www.bates.edu

Bates College values a diverse college community and seeks to assure equal opportunity through a continuing and effective Affirmative Action Program.
The College of Engineering at California State Polytechnic University, Pomona, is seeking applicants for tenure-track positions at the assistant or associate professor level, to begin in Fall 1999. The college serves approximately 3700 students in masters and bachelor degree programs in 13 disciplines. The college is first and foremost teaching institution known by a faculty recognized as being both excellent teachers and experienced practitioners in the engineering profession.

The Department of Civil Engineering is seeking applicants for one position in the area of Structural Engineering. Minimum qualifications: a Bachelor of Science degree in Civil Engineering, a Ph.D. in structural engineering, and a minimum of two years of full-time structural engineering experience after the bachelors degree. University teaching experience and California CE registration are desirable.

The Department of Electrical and Computer Engineering is seeking applicants for four positions with expertise in communications, computer engineering, and VLSI design. Minimum qualifications: either (1) a Ph.D. in electrical engineering (or related area) with a year of industrial experience, or (2) a masters in electrical engineering (or related area) with at least 2 years of related industrial experience.

The Department of Engineering Technology is seeking applicants for two positions with expertise in electronics and computer engineering technology (ECET) and construction engineering technology (CET). Minimum qualifications for the ECET position: a bachelors and masters degree in electrical engineering (or closely related field), at least three years industrial experience, with expertise in circuit analysis, analog and digital electronics, computer literacy, microprocessors, C programming, and control systems. Minimum qualifications for the CET position: a bachelors and masters degree (from an ABET/ACE accredited program) in construction engineering/management (or closely related field), at least three years relevant industrial experience, with expertise in engineering fundamentals and in materials, estimating, accounting, inspection, safety, equipment, contracts and specifications.

As part of the application process, finalists for all positions are expected to give presentations that demonstrate technical expertise and excellent communication skills, and to demonstrate a commitment to undergraduate and graduate teaching. New faculty are expected to participate in professional, program, and college enhancement activities, work with others in a collegial manner, and be responsive to the educational goals of the university and its ethnic diversity and international character.

To be considered for a position, individuals must submit (1) a completed application form, (2) a curriculum vitae, (3) an official transcript showing highest degree earned (from an accredited educational institution), and (4) a minimum of three letters of reference and two additional references with phone numbers. Initial reviews of applications will be made February 1, 1999, and each search will continue until the position is filled. Materials submitted by the candidate will be available for examination by all tenured and probationary faculty of the pertinent department. Please submit application packages from:

**Civil Engineering**
Dr. R. Carlyle, Chair, Dept. of Civil Engg. (909) 869-2488, e-mail: rcarlyle@csupomona.edu.

**Electrical and Computer Engineering**

DEAN
Graduate College of Education

The University of Massachusetts Boston invites applications and nominations for the Dean, Graduate College of Education. One of five campuses that make up the state university system, UMass Boston has a strong urban mission that provides the focus for its nearly 1000 programs, in which 12,000 culturally and racially diverse students work toward baccalaureate, master's or doctoral degrees.

The Graduate College of Education was established in 1989 and is growing vigorously. A strong educational community, it enrolls approximately 1,000 students, and comprises master's programs in counseling, school psychology, instructional design, teacher preparation, special education, critical and creative thinking, and administration; doctoral programs in educational leadership; an undergraduate teacher education program, and several institutes and centers for research and service to the urban community. The college is currently preparing for its initial NCATE accreditation review.

The new Dean will provide leadership for the college's continuing progress in:

- strengthening its academic programs through collaborations with other units on campus and across the university system, areas schools, networks of teachers and administrators, community agencies and other institutions of higher education;
- preparing competent, caring educational professionals, who can be strong advocates for children, families and urban public education;
- being an articulate advocate in the public arena for public education and high quality professional preparation programs.

The successful candidate will ordinarily have an earned doctorate, a distinguished record in research, teaching, and service and significant experience in public education, and multicultural, urban environments. Salary commensurate with experience and qualifications. Application review will begin immediately and continue until the position is filled. Please send a cover letter, curriculum vitae, and names, addresses and telephone numbers of three references to Office of Human Resources, Search 340-140, University of Massachusetts Boston, 100 Morrissey Blvd., Boston, MA 02125-3393. The University of South Florida invites nominations and applications for the position of

Dean and Executive Officer of the USF Lakeland Campus

USF is a comprehensive, metropolitan, Research University serving over 34,000 students in nine colleges on four campuses in Tampa, Lakeland, St. Petersburg, and Sarasota. The University offers degree programs in 73 undergraduate disciplines, 89 master's and specialist programs, and 26 doctoral programs, including the MD. The faculty numbers over 2,000.

The Lakeland Campus of USF is shared with Polk Community College, a state-supported 2-year institution. The Lakeland Campus is slated for significant growth in the next decade. The Campus is designed to provide not only traditional classroom instruction but also to encompass advanced educational technologies. USF Lakeland presently offers undergraduate degree programs in Business, Criminology, Interdisciplinary Social Sciences, Education and Engineering. Graduate programs are offered in Education, Engineering, Criminology, and Public Administration. The Lakeland Campus serves an area of high growth and plays an important role in retaining and attracting industries to the area by providing highly skilled professionals.

POSITION AND QUALIFICATIONS

The person filing this position will be the chief academic and administrative officer for all USF operations in Lakeland. The Dean and Executive Officer will be responsible for academic programs, student affairs, business operations, administrative and academic support services, advancement, and coordination of physical plant including facilities planning. The Dean and Executive Officer will report to the Provost and Executive Vice President and be a member of the University Council of Deans, a policy advisory body to the Provost. Candidates seeking this position must have a strong record in teaching and scholarship and possess academic credentials (including an earned doctorate) appropriate to appointment at the rank of Professor with tenure within a discipline at USF. An established record of accomplishment in academic administration at the level of department chair or above is required. Preference will be given to candidates with experience in academic planning, academic advising, admissions, budgeting, fund raising, and philanthropy. Candidates should be student oriented; have a strong commitment to the principles of faculty governance; possess strong interpersonal skills; and be a consensus builder in interactions with academic, business, and community constituencies.

ABOUT THE COMMUNITY

Nestled amid sparkling blue lakes and ringed by fragrant citrus groves, Lakeland is a vibrant community on the move. It boasts a booming economy, strong economic development resources, an excellent transportation system and a prime location in the heart of Central Florida. Lakeland is located only forty-five minutes from both Tampa and Orlando. Situated within fast-developing Polk County, this thriving city of 76,000 residents is a perfect place for exceptional business and educational opportunities. Lakeland is also a terrific place to live with an average annual temperature of 75 degrees.

Application Process

Send letters of application or nomination to:

Dr. John Beohave
Chair, Lakeland Search Committee
Office of the Provost and Executive Vice President
University of South Florida
4202 E. Fowler Avenue, ADM 226
Tampa, FL 33620

Letters of application should be accompanied by curriculum vitae and the names and addresses of five references. References will not be contacted until advanced stages of screening, and candidates will receive prior notification. The State of Florida has a Public Meetings Law and a Public Records Law and all university searches are conducted under the terms thereof. All meetings of the Search Committee are publicly announced and conducted. All documents submitted to the Committee are treated as open materials with the exception of evaluative documents specific to the performance of the faculty of the State University System of Florida.

Applications must be received no later than 5:00 p.m. EST February 15, 1999.

The University of South Florida is an equal opportunity, affirmative action, equal access institution. For disability accommodations contact Ms. Ly Nguyen at (813) 974-8594 or TDD (813) 974-1510 at least five working days in advance of need.
Provoest/Vice Chancellor for Academic Affairs

The University of Wisconsin-La Crosse seeks nominations and expressions of interest for the position of Provost/Vice Chancellor for Academic Affairs. The position is available as of January 1, 2023.

For a full position description and qualifications visit our website:
www.uwlax.edu/vacancies/index.html

Why UW-La Crosse?
Consider the following:

Bright and Talented Students
- First-year students rank first among the UW System comprehensive schools in ACT scores and class rank
- 100% of the top 10% of high school seniors attend
- Sixty-two percent in the top quarter of high school classes

A Broad Array of High Quality and Progressive Programs
- 69 undergraduate majors in four academic units
- 21 graduate majors
- New programs are under development in management information systems, software engineering, athletic training, and international business

We Value Diversity
- UW-La Crosse believes that diversity is a cornerstone in building academic excellence as evidenced in our aggressive participation in implementing UW System's Plan 2000
- In that spirit, UW-La Crosse actively seeks to recruit and retain an ethnically and racially diverse faculty and student body

A Regional University with a Global Perspective
- Students from 42 countries
- Partner universities in Latin America, China, Russia, Europe, and Australia
- Planning and development of new international centers

Quality of Life
- La Crosse is located between rocky-faced bluffs on the east and the Mississippi River to the west
- La Crosse residents enjoy one of the highest quantities of life in the United States, supported by world-class medical institutions, fine schools, and four-season recreation
- Nineteenth-century downtown business district, active cultural calendar, and affordable housing
- La Crosse is on direct transportation routes between Chicago, Milwaukee, Madison, and Minneapolis-St. Paul. It is served by Amtrak, I-90, and air connectivity service (American, Northwest, Skyway) to Chicago, the Twin Cities, and Milwaukee

Visit La Crosse, WI: www.lacrosse.wi.us

Required Qualifications
- An earned doctorate or other terminal degree
- At least five (5) years of academic leadership experience as a dean, academic vice president, or other senior administrative role
- A distinguished record of performance as a faculty member whose teaching and scholarship records are appropriate for an appointment as a full professor in one of the University's academic departments

For other desired qualifications, full position description, and application procedures visit:
www.uwlax.edu/vacancies/index.html

Send Inquiries and Applications to:
Dr. Dorothy Zeiter-Vralst, Chair, Provost/Vice Chancellor Search Committee, c/o Diane Jostad, Human Resources, 144 Graff Main Hall, University of Wisconsin-La Crosse, La Crosse, WI 54601

Phone: 608/785-8640, 608/785-8525

UW-La Crosse is an affirmative action/equal opportunity employer. Women, persons of color, and individuals with disabilities are encouraged to apply. If you have a special need for accommodation to aid your participation in our hiring process, please contact Dr. Zeiter-Vralst to make appropriate arrangements.

Grinnell College

Instructional Multimedia Technology Specialist in the Humanities (Non-Fine-Arts)

Grinnell College is a highly selective, small liberal arts college, with a national reputation and student body. A part of our commitment to academic and pedagogical excellence is our support for the integration of technology into all teaching. We are looking for a multimedia technology specialist to work with faculty in specific disciplinary areas. The position advertised here will support the Humanities faculty in the following fields: Literature, Language (Ancient and Modern), Philosophy, and Religious Studies.

Responsibilities: The instructional multimedia technology specialist (IMTS) in the Humanities (non-fine-arts) will work together with the associate dean of the college, the director of computer services, and the other three IMTSs to design, develop, and support faculty projects using multimedia and information technology in classroom teaching. The IMTS's work will directly benefit faculty in identifying new areas for collaboration with multimedia and information technology in instruction, and in the utilization of multimedia and information technologies in teaching. The IMTS will work with faculty on multimedia and information technology projects in classroom teaching. The IMTS's work will directly benefit faculty in identifying new areas for collaboration with information and communication technologies in instruction, and in the utilization of multimedia and information technologies in teaching.

Qualifications: A Bachelor's degree with a strong background in humanities is required. A non-fine-arts background is preferred. The IMTS will work with faculty on multimedia and information technology projects in classroom teaching. The IMTS's work will directly benefit faculty in identifying new areas for collaboration with information and communication technologies in instruction, and in the utilization of multimedia and information technologies in teaching.

Also Required: WWW design and HTML authoring background. Experience with networked Windows or Macintosh computers and software, multimedia tools and standards, multimedia platforms, and information retrieval using the Internet. Excel/VBA, a word processor, and a spreadsheet will be required. Synthetic communications skills are essential. The ability to convey effectively complex technical concepts to persons with varying skill levels and to explain technical concepts in clear, nontechnical language is essential. The IMTS will work with faculty on multimedia and information technology projects in classroom teaching. The IMTS's work will directly benefit faculty in identifying new areas for collaboration with information and communication technologies in instruction, and in the utilization of multimedia and information technologies in teaching.

Desirable Experience: Multilingual (for course development and instruction); knowledge of some of the following software packages (or comparable applications): Adobe Photoshop, Premiere, PowerPoint, Authorware Director, PageMill, Microsoft Word, Excel, FileMaker, etc.; ability to work both independently and collaboratively a must.

Application Procedures: Submit a letter of application, a resume, and a list of three references to: Ms. Jan A. Van Voorhis, Office of Human Resources, Grinnell College, P.O. Box 605, Grinnell, IA 50112 by January 25, 1999. Applications received after this date will not be considered.

Grinnell College is an equal opportunity affirmative action employer committed to employing a diverse and embrace diversity.
DEAN
COLLEGE OF EDUCATION AND HUMAN SERVICES

The University of Detroit Mercy seeks a creative, dynamic academic and administrative leader who is committed to interdisciplinary collaboration, academic excellence, and education within the urban context.

The University of Detroit Mercy is Michigan's largest private university offering more than 100 majors and programs in 60 academic fields. Sponsored by the Society of Jesus and the Sisters of Mercy of the Americas, the University has three campuses located in downtown and northwest Detroit.

The University is at an exciting stage in its history. It has forward-looking leadership, a growing number of leading edge programs, and the flexibility to adapt quickly to changing challenges and opportunities. There is a primary focus on our teaching mission, and scholarship is encouraged which strengthens our teaching mission. Our faith-based mission encourages a warm embrace of Metropolitan Detroit and its rich diversity. The University offers competitive benefits, release time for special assignments, and a generous paid research leave program. The Detroit area is home to many of the world's largest industrial corporations, and the city has many strong cultural institutions. Graduates of the University and the College are sought after by area, regional, and national employers.

The College of Education and Human Services is part of an urban health education center which focuses on the interdisciplinary preparation of future professionals. The University offers programs in addiction studies, counseling, criminal justice, education, human services, legal administration, security administration, and social work.

These programs provide students with the knowledge and skills to address the complex needs of children and families in the 21st century.

Ideally, the Dean of the College should be:
- A visionary with excellent leadership ability who will move the College forward in providing cutting-edge programs that will address the needs of an urban-based community;
- Someone who will effectively represent the College of Education and Human Services throughout the University and surrounding community;
- Someone with the skills to cross boundaries in inter-disciplinary collaboration with administrators and faculty in other colleges and schools within the University;
- Someone who has a terminal degree in one or more of the disciplines represented in the College or in a closely related area, with teaching experience and inter-professional experience;
- Someone who is a solid scholar, well acquainted with the professional areas encompassed by the College and with extramural interests;
- Someone with exceptional communication skills who will utilize the strengths of the faculty and continue to lead the College in academic excellence and through the various accreditation processes;
- Someone with the ability to work in a collective bargaining environment;
- Someone who, if not a Jesuit, Mercy, or other religious, has an appreciation of the religious and moral values of this University;
- Someone with multi-cultural sensitivity and a commitment to diversity; and
- Someone who will provide support to faculty to acquire external resources for the programs of the College.

The salary will be competitive. The Search Committee will begin reviewing applications on February 1, 1999, and will continue until the Dean has been appointed.

Prospective candidates are asked to send:
1. A letter of interest describing how their experiences and accomplishments match the criteria listed above.
2. A resume or curriculum vitae.
3. The names, addresses (including E-mail if possible), and telephone numbers of three or more professional references.

The University of Detroit Mercy is an affirmative action, equal opportunity employer that actively encourages applications, nominations, and expressions of interest from women and persons of color.

Please send nominations or application materials to:
Mr. John C. Thomson
Office of Academic Affairs
University of Detroit Mercy
4001 W. McNichols Rd.
P. O. Box 19900
Detroit, MI 48219-0900

Queens College
FACULTY DIVERSITY PROGRAM

A liberal arts, co-educational college on a 79-acre campus. Queens College, one of the senior colleges of the City University of New York, offers an outstanding educational opportunity to approximately 18,000 undergraduate, day, evening, and graduate students who represent a rich mosaic of ethnic/cultural, economic, and social backgrounds.

The Faculty Diversity Program has as its aim the development of a pool of candidates which will allow Queens College to progress toward greater faculty diversity. Candidates for these openings must have a doctorate (or, in the fields of music and art, a record of exceptional achievement) and potential in teaching and research which will make a significant contribution to Queens College.

Appointment rank and salary depend on qualifications and experience. All Full Professor, Associate Professor, and Assistant Professor ranks are tenure-track positions. Current salary schedules are: Full Professor, $53,861–$80,318; Associate Professor, $41,780–$66,837; Assistant Professor, $32,062–$55,930. Excellent fringe benefits.

Review of resumes will continue until positions are filled. Closing date for this search is March 16, 1999. Send materials directly to appropriate department chair at Queens College, City University of New York, Box HO, 65-30 Kissena Blvd., Flushing, NY 11367-1597. AA/EEO/ADA

Reach for EXCELLENCE

Assistant Professor in English Education

Plymouth State College, Faculty-In-Residence, Assistant Professor in English Education. One year appointment, renewable for three years, beginning September 1999.

Qualifications: Earned doctorate, publications, and at least three years teaching experience in secondary schools.

Duties: Teaching professional courses and classes in language study, literature and composition; supervising student teachers. Applications must be received by January 29, 1999. Please send letter of application, curriculum vitae, and three current letters of recommendation to: Mary-Lou Hinman, Chair, English Dept., MSC #40, Plymouth State College, 17 High Street, Plymouth, NH 03264. Hiring contingent upon eligibility to work in the U.S. PSC is an AA/EEO employer and actively seeks women and minorities.

Plymouth State College
San Jose State University

ASSOCIATE VICE PRESIDENT
FOR GRADUATE STUDIES & RESEARCH

San Jose State University invites applications and nominations for the Associate Vice President for Graduate Studies and Research.

The successful candidate will provide leadership to the University in the areas of graduate curricula and research. The Associate Vice President serves as the "college dean" for the School of Library and Information Science and the interdisciplinary Masters program in Human Factors/Ergonomics. The Associate Vice President is the President's designee for research in all matters pertaining to external support. The Chief Operating Officer of the San Jose State University Foundation is a direct report to the Associate Vice President.

Candidates should have a commitment to diversity. The full printed text of the position announcement is available by writing the address below on the San Jose State University website (http://www.sjsu.edu/depts/hri/app.htm), or by emailing provost@sjsu.edu; it is available in alternative formats to accommodate disability by calling (408) 924-2400. Candidates should send a complete curriculum vitae, and a list of five references to the address below. The screening process will begin February 15, 1999 and applications must be received by that date in order to receive consideration. The position is available July 1, 1999, with the exact date of appointment negotiable. Address all correspondence to: AVP/Graduate Studies & Research Search Committee, c/o Office of the Provost, San Jose State University, One Washington Square, San Jose, CA 95192-0020.

San Jose State University does not discriminate on the basis of race, color, religion, national origin, sex, sexual orientation, marital status, pregnancy, age, disability, disabled veteran or Vietnam veteran status. San Jose State University is committed to creating a community in which a diverse population can learn and work in an atmosphere of tolerance, civility and respect for each individual.

COMPUTER
STATISTICAL PROGRAMMER/ANALYST

The Association of American Medical Colleges (AAMC) is the leading nonprofit organization assisting medical schools, teaching hospitals, and academic societies nationwide to improve medical education and the health of the nation. Your technical data processing, and project/people management skills are needed to help us in our efforts.

Primary duties include data processing, data cleaning/correction, and data documentation. You'll write SAS and SQL data retrieval programs and database specifications. You will also generate periodic data reports as well as one-time, ad hoc reports pertaining to anemones in medicine, including information from the Minority Physician Database.

To qualify, you'll need a bachelor's degree in computer science, public health, or a social science discipline plus at least 2 years of applied data analysis using large data files. Your experience should have a strong focus on data processing, management and research in an educational environment; experience with minority educational issues a plus. SAS and SQL skills are required and Informix skills are a plus. In addition to your technical skills, it is essential that you are able to communicate.

The Association of American Medical Colleges offers an exceptional salary and benefits package. To apply, please send a cover letter and resume, with salary requirements, to: AAMC, HR-392, 2500 N St., NW, Washington, DC 20037; FAX: (202) 862-6312. Visit www.AAMC.ORG

HUNTER COLLEGE
OF THE CITY UNIVERSITY OF NEW YORK

PROVOST AND SENIOR VICE-PRESIDENT
FOR ACADEMIC AFFAIRS

Applications and nominations are invited for the position of Provost and Vice-President for Academic Affairs.

The Provost reports to the President and is the College’s chief academic officer, with responsibility for enhancing the overall academic life of the institution. The Deans of Hunter’s School of Arts and Sciences, Education, Health Professions and Social Work report to the Provost. In addition, the Chief Librarian, Dean of Research, Director of the Office of Instructional Computing and Information Technology, Director of Research Administration, other academic support services, as well as the Hunter College Campus Schools, and numerous institutes and centers report to the Provost.

Hunter College, the largest of the senior colleges in the City University of New York system with an enrollment approaching 20,000 including more than 4,000 graduate students, is a comprehensive institution offering a wide range of Baccalaureate and Master’s Degree programs in more than thirty academic departments and professional schools, as well as participating in the Ph.D. programs of the City University of New York. Hunter has long been a leader within its academic mission and a Provost is sought who will continue that academic leadership by developing new and innovative programs as well as instituting programs and policies leading to academic reform and change.

Candidates must have a strong commitment to the goals of urban, public higher education in a multicultural, multiracial environment and have the scholarly accomplishments commensurate with the rank of a tenured full professor. Further criteria include: successful administrative and teaching experience at the collegiate level; experience with funded research, an understanding of the strengths and limitations of new teaching and research technologies; demonstrated ability to work effectively with faculty, students, and staff in fostering academic change and growth; a commitment to graduate and professional education within the liberal arts context; willingness to plan and participate in the college’s ongoing private fund-raising efforts; and appreciation of the importance of liberal arts education and the undergraduate mission; and knowledge and appreciation of the complexities facing a comprehensive college as it enters the 21st Century.

SALARY RANGE: $96,868 to $115,379.

The position will be available in July 1999. Review of nominations and applications will begin in early January 1999 and will continue until an appointment is made.

Applications and nominations should be sent to: Hunter College, Attn: Charles E. Hayes, Director of Human Resources, 695 Park Avenue, E1502, New York, NY 10021.

Tenure Track Professor and Chair Position

The Department of Special Education at the University of Florida invites nominations and applications for the position of Chair and Professor. The University of Florida is a member of the AAU, and a major public research land grant institution. It serves a wide geographic area and culturally diverse population. The College of Education has over 90 full-time faculty members with a strong tradition of excellence and visibility in teaching, research, and public service. Degree programs enrolling more than 900 graduate and 1200 undergraduate students are offered through five departments: Counselor Education, Educational Leadership, Foundations of Education, Instruction and Curriculum, and Special Education.

The Department of Special Education's PROTEACH teacher education program, a five-year combined B.A.E. and M.Ed. program is offered in behavior disorders, specific learning disabilities, mental retardation, and physical impairments and culminates in state certification in two of these areas. The department also offers the Unified PROTEACH Early Childhood and Early Childhood Special Education program, a joint program across three departments, which provides preservice students a state certification in both Birth to 4 years and age 3 to grade 3. The Department offers advanced graduate programs leading to the Master of Education or Master of Arts in Education degrees, the Specialist in Education degree, and the Doctor of Education or Doctor of Philosophy degrees. Graduate specializations include behavior disorders, specific learning disabilities, mental retardation, and physical impairments, early childhood special education, secondary/transition, teacher education special education, and special education administration.

Qualifications: The Chair is expected to provide leadership; maintain an administrative environment that promotes faculty teaching, research, and service; and represent the interests of the department at the college and university levels. Essential qualifications include excellence in research, teaching, and service, and the ability to communicate effectively with the internal and external constituencies of the department. Requirements include a doctoral degree, administrative experience in higher education, and eligibility for appointment at the rank of Professor.

Application: Complete applications consist of a letter of application addressing these qualifications, a curriculum vitae, copies of three relevant publications, and three letters of recommendation.

Deadline: Application must be postmarked no later than February 19, 1999. The anticipated start date is July 1, 1999. Nominations and applications should be sent to: Dr. Ben Nelms, Search Committee Chair, PO Box 117048, Gainesville, Florida 32611-7048.

The University of Florida is an Affirmative Action/Equal Opportunity Employer. Applications from women and minorities are especially welcome.

Duties include teaching courses in communication, communication theory, mass media, and literature and composition. Applications must be received by January 29, 1999. Please send letter of application, curriculum vitae, and three current letters of recommendation to: Mary-Lou Hinman, Chair, English Dept., MSC #406, Plymouth State College, 17 High Street, Plymouth, NH 03264. Hiring contingent upon eligibility to work in the U.S. PVC is an AA/EEO employer and actively seeks women and minorities.

Plymouth State College
YALE UNIVERSITY

SCHOOL OF NURSING

Applications and nominations are invited for the post of
Associate Dean for Clinical Affairs

Founded in 1923 as one of the first university-based nursing programs, the Yale School of Nursing has a long tradition of leadership in clinical scholarship, faculty practice, and participation in health policy formation and evaluation. As the School moves into the next century, we seek an individual whose vision matches our mission of continuing to shape the health care system through research, practice, and policy development within a rich, multidisciplinary environment. The School’s University-affiliated strategic direction includes expanded collaboration with other faculties, an increased presence as a national and international leader, and the development of centers of excellence in practice, research, and policy.

Yale School of Nursing offers graduate education exclusively, preparing master’s students for practice as clinical nurse specialists, nurse-midwives or nurse practitioners as well as roles in management and policy. Our rapidly growing doctoral program prepares students for clinical research and teaching careers.

The newly created position of Associate Dean for Clinical Affairs of the School of Nursing will lead the faculty in the development of the policies related to faculty practice and clinical scholarship. The Associate Dean for Clinical Affairs will also be an active member of the larger University community, responsible for the relations of the School with professional practice communities at Yale New Haven Hospital, the Yale University School of Medicine, other area hospitals and community agencies.

Applications and nominations and supporting materials may be sent to

Ann Williams, Ed.D., R.N., F.A.A.N.
Professor of Nursing
Chair, Associate Dean for Clinical Affairs Search Committee
Yale University School of Nursing, M.C. 305

E-mail: Yale.Nurse@yale.edu

Yale University is an Equal Opportunity, Affirmative Action Employer.
The interest of men and members of minority groups is encouraged.

Position available: July 1, 1999
Application Deadline: February 15, 1999

GRINNELL COLLEGE

Director, Grinnell College Art Gallery

Applications are invited for the directorship of a new art gallery to be opened in the fall of 1999 at Grinnell College in Grinnell, Iowa. The gallery is located in the new Matthew and Carolyn Swartz 51 Buckingham Center for the Arts, designed by the world-renowned architect Cesar Pelli. The center includes a gallery (17,420 square feet) as well as excellent music, studio art, and theater facilities. Preliminary discussions among College faculty and the Board of Trustees has advanced the concept that the Gallery will serve as a space for traveling exhibitions of contemporary art, including sculpture. The exhibition budget will be secured through a grant from Grinnell College’s Fund for Excellence, an innovative funding mechanism developed by Grinnell’s Board of Trustees to encourage innovation and excellence at the College. The Gallery is also part of a larger effort by the College to project itself more effectively in the region and nation. Although Grinnell College has holdings of prints, paintings, and other art, it does not intend, at the present time, to purchase art actively but hopes to develop a long-term acquisition strategy to be crafted by the Director.

The College is looking for a person excited about working in a high-intensity environment in which the Director will have both the opportunity and responsibility to build a first-rate gallery and exhibition program. The new Director will participate in developing the Gallery’s mission statement. There may also be the possibility of some teaching in appropriate circumstances. The College already has a small staff attached to the Gallery which will likely be augmented after discussions with the new Director. The Director reports to the President of the College. Candidates should possess an appropriate master’s degree, an advanced degree in the fine arts, or equivalent experience. Previous experience in a museum or gallery environment is strongly preferred.

Founded in 1846, Grinnell College enrolls about 1,300 undergraduate students from every state and the District of Columbia in the United States and 40 other countries. The College’s primary mission is to provide students with a broad, deep, and life-enhancing education that includes professional success, but also personal growth and social responsibility. Grinnell College offers an exceptional, rigorous, comprehensive, and opportunity-rich educational experience which has at its heart, one-on-one interactions between students, faculty, alumni, and staff. Grinnell College is consistently ranked among the top nationally selective liberal arts colleges in the United States and also consistently ranks in the top ten among all colleges and universities in endowment resources per student: the top twenty in the nation; the top ten in the nation; and the top ten in the nation in the nation. Grinnell College is an equal opportunity affirmative action employer committed to employing a highly qualified staff which reflects the diversity of the nation. No applicant shall be discriminated against on the basis of race, national or ethnic origin, age, gender, sexual orientation, marital status, religion, creed, or disability.

APPLICATION PROCESS: To be assured of consideration submit a letter of application, a resume, and a list of three employment references to Ms. Jan A Veach, Office of Human Resources, Grinnell College, P.O. Box 805, Grinnell, IA 50112 by February 10, 1999. The position will remain open until filled.

MT. SAN JACINTO COLLEGE

SUPERINTENDENT/PRESIDENT

The Board of Trustees of Mt. San Jacinto Community College District invites application for the position of Superintendent/President of the district.

Mt. San Jacinto Community College District services a 1,700 square mile area in Riverside County (southern California). Population within the district exceeds 400,000, and supports seven K-12 districts. For the past three years, the District has had the highest growth rate in the State, in terms of both student and adult population.

The area provides a diverse geography that includes recreational lakes, mountains, desert and open spaces. The College is located about 100 miles southeast of Los Angeles and 50 miles west of Palm Springs. There is freeway access to ocean beaches, skiing and cultural offerings in San Diego, Los Angeles, and Orange County.

A highly qualified staff of 88 full-time faculty, approximately 270 associate faculty, 18 administrators and 140 support staff provide a comprehensive academic program.

The desired qualities applicants should possess are successful teaching and administrative experience, preferably in a community college setting, an in-depth understanding of the role of the college and of the role of the superintendent/president in the communities the college serves, a commitment to the principle and practice of shared governance, and a commitment to the concept of affirmative action and cultural diversity. A master’s degree from an accredited institution and eight (8) years of recent administrative and/or management experience is required, an earned doctoral degree from an accredited institution is preferred.

For application materials contact:
Mt. San Jacinto College
Human Resources Dept.
1499 N. State Street
San Jacinto, CA 92583
(909) 487-2543 (872.3100000)
E-mail: HR@msjc.cc.ca.us
Website: www.msjc.cc.ca.us

Applicants will be accepted until the position is filled. However, to ensure consideration, a completed District application packet must be received in the Human Resources Office no later than Friday, January 29, 1999. Resumes will not be accepted in lieu of completed district application form.

---

**Equal Opportunity, Affirmative Action. Section 504, Title IX Employer**
The College Board seeks a President to lead the organization at the beginning of the Board’s second century. The Board is a national not-for-profit association of schools, colleges and universities founded to aid the transition of students from secondary school to higher education. Its mission, “Educational Excellence for All,” emphasizes both high academic standards and an energetic effort to cross the lines of race and socioeconomic status to strengthen the academic preparation of all students, and to promote a more diverse and inclusive undergraduate student body in the country.

Among its best known products and services are the Scholastic Assessment Tests (SAT-I and II), the Advanced Placement Program (AP), CSS Profile, Piscatecet, and Equity 2000. The College Board membership represents 3,600 schools, school systems, colleges, and universities. The Board has an annual budget of approximately $250 million. It pursues its work through a staff of 350 in its New York headquarters and regional offices throughout the country and through contractual partnerships with the Educational Testing Service (ETS) and others.

The College Board’s new President should have a deep and informed understanding of education: the variety of its values, practices, and the policy issues that affect it. The presidency will also require a powerful commitment to promote educational equity, the ability to play a high profile, public role representing The College Board and its educational values and issues. The President must be knowledgeable about uses of technology, possess significant management experience, have the capacity to guide a values driven and market sensitive, technical business, and the ability to work fruitfully with a highly competent professional staff in the context of a membership organization. The successful candidate will have demonstrated ability to exercise leadership inside and outside the organization. Compensation is competitive and appropriate to the seriousness of these responsibilities.

We believe this to be one of the most important and interesting positions in American education. We invite your interest and assistance in helping us fill it appropriately.

The Search Committee for the next President of The College Board is chaired by Peter W. Stanley, President of Pomona College and past chair of the Board of Trustees. Inquiries, applications and nominations should be addressed to:

Ms. Jenny Gelber, Issacson, Miller,
334 Boylston Street, Suite 500,
Boston, MA 02116-3805.
Tel: 617/262-6500, Fax: 617/262-6509.
Email: jgelber@imsearch.com

The College Board is an Equal Opportunity Employer.
George Mason University
Director of University Police

George Mason University, a public university in the Commonwealth of Virginia, with an enrollment of 24,000 students on three campuses, is seeking a Director of University Police, responsible for a comprehensive law enforcement program across all campuses. The Director will lead a department accredited by the CALEA with 48 sworn officers and additional security and support personnel. Responsibilities include developing and directing comprehensive programs in law enforcement to ensure a safe and secure environment for living and working, consistent with the laws of the Commonwealth and policies of the University. Developing budgets, allocating resources, managing personnel, representing the University as the law enforcement liaison with other law enforcement agencies, and directing security and traffic for special events. Minimum qualifications: Masters degree in a relevant field desirable. Certification or eligibility for certification by the Virginia Department of Criminal Justice, and progression in responsible law enforcement experience is required. Significant experience at the command level; experience in law enforcement in higher education desirable. Equivalency combinations of education, training, and experience may substitute for the stated qualifications.

Starting salary range $65,000-$80,000 plus comprehensive benefits package. Interested individuals should submit a letter of application and resume, no later than January 22, 1999, to Director of University Police Search, Human Resources, MS# LC3, George Mason University, Fairfax, Virginia 22030

AA/EOE

The Los Angeles Community College District invites applications and nominations for the following positions:

UAS is an AA/EQ employer and educational institution.

CHANCELLOR

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Los Angeles, California

The Board of Trustees of the Los Angeles Community College District invites applications and nominations for the position of Chancellor of the District. The District includes nine colleges with a budget of half-a-billion dollars, serving 100,000 credit students annually. The Los Angeles Community College District is governed by an elected seven-member Board of Trustees, plus a student trustee. The Board seeks an accomplished leader to work with the District in addressing major organizational and fiscal issues.

The District faces significant challenges. The new Chancellor will be expected to work with the nine college presidents in implementing a decentralized system for delivery of educational services.

Application Information:
A brochure with information about the District and the Chancellor Search may be obtained by contacting Mr. Lucian Carter, Liaison to the Chancellor Search Committee, Los Angeles Community College District, 770 Wilshire Boulevard, Los Angeles, CA 90017; Phone: (213) 891-2282; Fax: (213) 891-9411; Internet: carteric@laccd.cc.ca.us. Applications and nominations should be sent to the same address. PLEASE FILE IMMEDIATELY.

THE LACCD IS AN EQUAL OPPORTUNITY EMPLOYER. WOMEN, MINORITIES AND THE DISABLED ARE ENCOURAGED TO APPLY.

COLLEGE OF SAINT BENVEDICT/SAINT JOHN'S UNIVERSITY

Department of Education

The Education Department of the College of Saint Benedict and Saint John's University invite applications for a full-time, tenure track position beginning Fall 1999. Qualified candidates must have a doctorate in literacy education, extensive course work in language arts, at least three years of teaching in grades K-8, and licensure to teach elementary and middle school. Experience teaching college as well as knowledge of the Minnesota Graduation Rule and instructional technology are preferred. Successful candidate must be an effective communicator in both oral and written language. Personal characteristics should include initiative, well honed interpersonal skill, and willingness to be part of a team.

Teaching responsibilities include: 1) Reading/Writing and Language, Grades 4-8, and 2) Middle School Literacy and Pedagogy all of which require a clinical/teaching experience for the students. Additionally, supervision of a clinical experience during the January Term is required as is student advising.

The Education Department operates in the belief that learning should be active, constructive and developmentally appropriate, and happen in an atmosphere that promotes personal growth and well-being.

Saint John's University, a liberal arts college for men, and the College of Saint Benedict, a liberal arts college for women, are coordinate institutions located in central Minnesota lake country, 70 minutes northeast of Minneapolis/St. Paul. Additional information is posted on our website www.csbsju.edu.

Send letter of application, curriculum vitae, graduate transcripts, three recent letters of recommendation, and evidence of teaching effectiveness to:

CSB/SJU Director of Human Resources
Saint John's University
Collegeville, MN 56321

Applications received after January 15, 1999 cannot be guaranteed consideration.

Women and people of diverse racial, ethnic, and cultural backgrounds are encouraged to apply. EEO/AA Employer.
OSWEGO STATE UNIVERSITY
ASSISTANT PROVOST FOR SOCIAL EQUITY
AND DIRECTOR OF LEARNING SUPPORT SERVICES

Oswego State University invites applications and nominations for the position of Assistant Provost for Social Equity and Director of Learning Support Services. Oswego State is a comprehensive academic institution with a undergraduate and 1,000 graduate students being served in the College of Arts and Sciences, the School of Education, and the School of Business. Oswego is located on the shores of Lake Ontario, forty miles north of Syracuse and sixty miles east of Rochester. Oswego is the City of Central New York with 20,000 residents.

The Assistant Provost for Social Equity and Director of Learning Support Services is a single position reporting directly to the Provost. The Director seeks a staff of twelve full-time teaching and counseling professionals and numerous graduate students in a program which provides academic and personal support services to nearly 900 students admitted to the University through special criteria, including the Educational Opportunity Program. The Office of Learning Support Services offers a comprehensive program that includes academic development counseling, financial aid and monitoring. The Director's responsibilities include program development and staff development, budget management, and ensuring that the program fulfills the expectations of the University's mission.

Minimum qualifications include a Masters degree and at least five years of progressive administrative experience at the college level, including a record of supervising professional staff, developing programs, managing budgets, demonstrating commitment to multicultural education, and the ability to work with a diverse population. Teaching experience at the college level and familiarity with the operation of a public university system are desirable.

Salary will be commensurate with qualifications and experience. Review of applications will begin February 15, 1999 and continue until the position is filled. Minority, women, persons with disabilities, and women are encouraged to apply. Nomination or letter of application, resume, and names, addresses, and telephone numbers of three references should be sent to: Howard Gordon, Administrative Assistant, Assistant Provost Search Committee, 700 Culkin Hall, Oswego State University, Oswego, New York 13126.

Oswego State University is an Affirmative Action/Equal Opportunity Employer.

VICE PRESIDENT FOR ACADEMIC AFFAIRS
McHenry County College

McHenry County College invites applications for the position of Vice President of Academic Affairs. The Vice President serves as the chief academic officer of the college, reports to the President and serves as a member of the President’s Cabinet.

McHenry County College is a public comprehensive community college offering credit and noncredit programs and services. Annual headcount enrollment is 20,000 (100,000 credit). The permanent 108 acre campus is located in Crystal Lake, Illinois which is approximately one hour’s drive northwest of Chicago and south of Milwaukee. McHenry County is the fastest growing county in Illinois and the college is experiencing steady enrollment increases. As it grows, the College maintains its commitment to the values of each individual.

The Vice President is responsible for the academic leadership of the college including, but not limited to, academic planning and evaluation, enhancement of programs and curriculum, accreditation, recruitment of faculty and development. Likewise, the Vice President is responsible for academic and student services and the use of these services to promote student success.

Minimum Qualifications: An earned doctorate from a regionally accredited college or university and a distinguished record of teaching and service, with a minimum of five years of full-time classroom teaching, preferably at the two-year college level; eight years of progressively more responsible administrative experience, preferably at the two-year college level; professional record documenting an understanding of changing trends and issues in higher education, particularly teaching and learning strategies utilizing instructionally-related technology, demonstrated ability to manage fiscal and personnel resources to plan and evaluate programs, and to think creatively, strategically and proactively, superior interpersonal and communication skills.

Application process: Candidates should submit: (1) a letter of application outlining their educational philosophy and addressing the minimum qualifications, (2) a current resume, (3) names, addresses, and phone numbers of at least 3 references. Materials must be received by February 12, 1999 (Fax and E-mail not acceptable) to Ms. Nancy Loomis, Assistant Vice President of Human Resources, McHenry County College, 8900 U.S. Highway 14, Crystal Lake, IL 60012-2761.

Effective Date of Employment: Jul 1, 1999
McHenry County College is committed to diversity in its college community, particularly in its professional staff, and is an equal opportunity employer.

FACULTY POSITIONS

THE LOS ANGELES COMMUNITY COLLEGE DISTRICT invites applications from qualified individuals for tenured-track faculty positions at the nine colleges of the District. Selections are made from open and continuing pools of 57 academic and 57 vocational fields. Approved applications are valid for three years. Candidates may reapply at the end of this period to request a renewal application. Visit our internet home page http://www.lacco.edu for information. WOMEN, MINORITIES AND THE DISABLED ARE ENCOURAGED TO APPLY.

REQUIREMENTS
Applicants must meet State minimum requirements either by a credential or degree. There may be additional District requirements beyond the State minimum.

SALARY
The current salary range is $38,780 to $51,040 for new employees, with a potential maximum of $60,910, for a 40-week academic year. New employees to the District will be allocated within the salary range according to previous training and experience. Employee benefits include 25 paid holidays/vacation days annually, district-paid medical/hospital, dental and vision care plans and a $40,000 group life insurance policy. Regular faculty who retire after a vesting period have Medicare coverage if Medicare enrollment is maintained after age 65

FILING AN APPLICATION
For each subject field, a separate application must be filed. Applications may be obtained (specific fields only) by calling (213) 891-2211 or FAX: (213) 891-2211. Email is available for faculty positions. Photocopies of transcripts are accepted for the application of selected official transcripts will be required. Applications may be filed in person or mailed to the Academic Selection Unit, Los Angeles Community College District, 770 Wilshire Blvd., Los Angeles, CA 90017.

In accordance with its strong commitment to diversity, the District encourages all qualified candidates, including members of underrepresented groups, to apply in all subject areas. All they qualify the LACCD IS AN EQUAL OPPORTUNITY EMPLOYER.

Tenure-track positions available August 1999. Full-time instructor of Spanish. Applicants must possess a Masters degree in Spanish or be university-educated native-level speaker. Qualifications to teach French or German also highly desirable. Applicants will demonstrate minimum two years' successful teaching experience in foreign languages at college or secondary level. Rock Valley is a comprehensive community college in one of Illinois' largest cities, located 90 miles northwest of Chicago and serving a population of 300,000. Responsibilities include instruction in beginning, intermediate, and advanced course work. Desirable qualifications include 15 hours of upper-level foreign language, proficiency in Spanish, and ability to teach all levels of Spanish. Salary: $25,000 to $35,000, plus summer loads. Available to teach in Rockford, IL. Email or call L Farmer at L Farmer@acs.rockval.edu or 330-263-2133. rockval.edu for more information.
**ARTIST-IN-RESIDENCE**

Skidmore College, an undergraduate liberal arts institution, is inviting applications to share a three-year, renewable position. The appointment will be full-time for the Fall semester only. Candidates should be familiar with different approaches to the teaching of acting, with special emphasis in textual analysis, with a basis in Stanislavski. The accepted candidate will share academic advising, assist in the student-directed workshop program, and participate in other departmental activities. Candidates must have college teaching experience with an MFA or professional experience.

Position begins September 1999. Review of application will begin February 1, 1999. Applicants should submit cover letter and three letters of recommendation to: Chair, Department of Theatre, Skidmore College, 815 North Broadway, Saratoga Springs, NY 12866.

Skidmore encourages applications from women and men of diverse racial, ethnic, and cultural backgrounds. Visit our website at http://www.skidmore.edu

**Community College of Philadelphia**

**PRESIDENT**

The Community College of Philadelphia is seeking a new president to succeed Dr. Frederick W. Caplan who died in June 1998 after providing outstanding leadership for four years. The new president will want to build on the college's abundant strengths as he or she seeks to move the College to an even higher level of excellence.

Community College of Philadelphia enrolls 66,000 students. The college is a member of the American Association of Community Colleges and the National Institute for Academic Leadership. It is accredited by the Middle States Commission on Higher Education.

The ideal candidate will have the following qualifications and characteristics:

- Enthusiasm for carrying out the College's mission.
- Substantial administrative experience and a demonstrated record of success.
- Ability to lead a complex and growing, multi-campus urban institution with multiple internal and external constituencies.
- Experience in institutional financial management.
- A management style that includes consensus-building and decisiveness, with the ability to energize and engage the College community.
- Political skills and personal style that will enable effective external relationships with civic, state, and federal governments and corporate leaders, and that will build visibility and financial support for the College.
- Skills necessary, work effectively within a collaborative environment.
- Awareness and experience in working with people from diverse backgrounds.
- Knowledgeable about educational accreditation and curriculum.
- Excellent written and oral communication skills.
- Experience in working with faculty, staff, and students.
- A commitment to excellence in education.
- A commitment to diversity in hiring and in program development.
- A commitment to lifelong learning.
- An understanding of the College's mission and programs.
- A commitment to the College's values.
- A commitment to the College's vision.
- A commitment to the College's future.
- A commitment to the College's past.
- A commitment to the College's present.
- A commitment to the College's future.

CHIEF INFORMATION OFFICER
The American Council on Education
Washington, D.C.

The American Council on Education (ACE) is seeking a Chief Information Officer (CIO) who will position ACE at the leading edge of information technology.

Founded in 1918, ACE is the nation's umbrella higher education association. Its approximately 1,700 members include accredited degree-granting colleges and universities from all sectors of higher education, and other education and education-related organizations.

The CIO reports to the Vice President for Administration and is responsible for information systems and services that serve the diverse needs of an organization with 170 staff and an annual budget of $35 million. The CIO oversees the operations of the Information Technology Services (ITS) Department, ensures systems security, supervises staff, develops and implements policies, procedures and training programs.

The successful candidate will have at least ten years progressively responsible experience in the management of information technologies, preferably in an academic or another large professional association. Demonstrated leadership and human relations skills are critical. Candidates should have excellent communication and consensus building skills, a proven track record with project management, a strong customer-service orientation, the ability to thrive on challenge and work effectively with diverse constituencies.

The search is currently underway and will continue until the position is filled. Nominations and applications may be submitted to the consultants supporting ACE in this search.

Ace Chief Information Officer
C/O Janet M. Worth, Educational Management Network/With/Kieffer
5420 LJF Freeway, Suite 460
Dallas, TX 75240

More information about ACE is available on their website at http://www.ace.org. Requests for copies of the Position Prospectus and questions or confidential inquiries must be made to Janet M. Worth, 972-490-1170 or Gary J. Passer, 915-665-3388 or via email: ace@emmtnm.com.

Fashion Institute of Technology (SUNY)
F.I.T.® An internationally known leader in career education, is a college of art and design business and technology of the State University of New York offering 30 career-related majors leading to A.A.S., B.F.A., B.S., and M.A. degrees.

Tenure Track
Faculty Position
(Search Reopened)

Cosmetics and Fragrance, Marketing and Management

seeks dynamic, creative marketing professional with management experience and a passion for cosmetics and fragrance to train industry leaders for the 21st Century. The person selected for this faculty appointment as instructor will be expected to provide leadership in curriculum and course design, specifically in such general management areas as strategic planning, organizational design, corporate finance, human resource management, production and supply-chain management, and global marketing. The appointee will also be expected to work directly with the Dean for Graduate Studies in shepherding the program through the College and State University approval process and in maintaining ongoing communication with an emerging and committed industry advisory board and with key College faculty. Appointment will begin in Spring 1999, with a projected start date for the program of June, 2000. Master’s degree required; experience in the cosmetics and fragrance industry preferred, teaching experience desirable.

Send resume, cover letter, the names and telephone numbers of three references, as well as any supporting materials to Dr. Bruce W. Chambers, Dean for Graduate Studies, F.I.T., Seventh Avenue at 27 Street, Rm E-315, New York City 10001-5992 or fax to 212-217-5156. Application deadline January 24, 1999.

F.I.T. is an equal opportunity/affirmative action employer.

Vice Chancellor for Fiscal Affairs
(Extended Search)

Application materials are being accepted for this key administrative position. The Alamo Community College District (ACCD) is the parent organization for four community colleges located in the River City of San Antonio, Texas, with a diverse faculty, staff and student population and a multi-million dollar annual operating budget. The Vice Chancellor for Fiscal Affairs will report to the Executive Vice Chancellor; direct annual accounting and finance management activities and work closely with the Chancellor and Board of Trustees in developing long-range financial plans, annual budgets. The successful candidate will have:

• Comprehensive knowledge of financial principles and practices applicable to a large and complex organization
• Considerable knowledge of all community college federal, state and local financial accounting and reporting requirements
• Excellent communications skills
• Proven experience in project management, and computer-based financial analysis/reporting in a multi-college organization
• Preference administrative experience in higher education, governmental fiscal affairs or business management functions
• Master’s degree in Finance, Business Administration, Accounting or Economics and CPA license
• Eight (8) years financial management experience to include 3 years administrative/supervisory level

Further information about the ACCD and this position is available on our web site at www.acc.edu. Submit the following by February 12, 1999: cover letter outlining your organizational role (e.g. Fiscal Affairs and your management style); comprehensive resume to include education, professional experience, training, certification and significant achievements; three letters of recommendation and copies of transcripts. Incomplete packages will receive no consideration.

NEW JERSEY COMMISSION ON HIGHER EDUCATION
Trenton, New Jersey
EXECUTIVE DIRECTOR

The New Jersey Commission on Higher Education invites nominations and applications for the position of Executive Director. The Commission was established in 1994 as part of the new coordinating structure for higher education in New Jersey. New Jersey's higher education governance structure has three principal components: Pre-existing institutional boards of trustees, the Presidents' Council (representing presidents from all degree-granting institutions of higher education in New Jersey), and the Commission on Higher Education (replacing the previous Board of Higher Education, which was a regulatory body rather than a coordinating body). The Commission is responsible for statewide policy, planning, coordination, and advocacy, including a specific mandate to conduct research on higher education and develop a comprehensive higher education master plan. New Jersey's location, on the heart of the Boston-Washington corridor, and its leadership by Governor Christine Todd Whitman, contribute to making it a growing and highly dynamic state. The Commission has 221 staff members, including five directors for various functions.

The ideal candidate will have significant familiarity with educational policy issues, familiarity with all of the major sectors of higher education and with issues of common concern to them; an understanding of the balance between institutional and statewide issues, an understanding of the mission of access and educational opportunity for all citizens, and comfort working within the diversity of the state.

Compensation for the position is competitive with that of other similar SHEEOs in the region. The position is available immediately. Inquiries, applications, and letters of recommendation will be treated confidentially; they should be sent to Jean A. Dowdall, Vice President, A. T. Kearney Executive Search, 225 Reinekers Lane, Alexandria, VA 22314; Phone (703) 739-4761; Fax (703) 518-1782; e-mail jean.dowdall@atkearney.com. Candidates should provide a curriculum vitae, the names and phone numbers of five references, and a cover letter describing their interest in the position and their experience. Additional information about the search is available at www.state.nj.us/uh/hereducation/edcrdi.htm. For fullest consideration, materials should be received by January 31, 1999, although the position will remain open until it is filled.

The New Jersey Commission on Higher Education is an Equal Opportunity Employer.

RESIDENCE HALL DIRECTOR

Office of Residence Life, 9 1/2 month, academic year appointment. Provides leadership in creating an atmosphere conducive to student development and diversity education. Responsible for programming and hall council advisement, residence hall administration, supervision of resident assistants and multicultural advisor, and academic career advising. One position available January, 1999, other vacancies anticipated beginning June, 1999. Bachelor's degree required. Master's preferred. One year of residence hall work experience and one additional year of professional work experience since obtaining Bachelor's degree desired. Minimum semi-monthly starting salary of $983, commensurate with qualifications, plus apartment and meals. Opportunities exist for temporary assignments during the summer. Submit resume and cover letter to Kim Voisin, Assistant Director of Residence Life, 201 Bovee University Center, Central Michigan University, Mt. Pleasant, MI 48859. Please indicate in cover letter if you will be attending OPE in March, 1999. Screening of applications begins immediately and will continue until all positions are filled. CMU provides a flexible benefits, an excellent retirement program with tax deferred investment options, tuition waiver for employee and family, and competitive salaries in an environment committed to excellence and customer service.

CMU, an AA/EO institution, is strongly and actively committed to increasing diversity within its community (see www.cmich.edu/div.html).
Georgia Perimeter College (formerly DeKalb College) is a public, two-year multi-campus community college in the University System of Georgia. Located in the eastern suburbs of Metropolitan Atlanta, with a total enrollment of approximately 30,000 students, the College is the State’s third largest higher education institution.

ASSISTANT DIRECTOR FOR BUSINESS, INDUSTRY, & TECHNOLOGY

This Assistant Director will work in cooperation with team members in the Center for Continuing & Distance Education to actively identify, develop, promote, and coordinate the delivery of business, industry, and technology training. Must have a demonstrated knowledge of workforce development issues and of the fiscal management of training programs. Experience with distance learning technologies and grant writing highly desirable. Successful candidates must be detail oriented, possess strong communication, presentation, organization, consensus building, multi-tasking, and computer skills.

Position requires a Bachelor’s degree with a minimum of five years or Master’s degree with a minimum of three years progressively responsible experience in sales, marketing, workforce, and economic development. Salary: $39,500+. Salaries are commensurate with education and experience with excellent benefits. BACKGROUND INVESTIGATION REQUIRED. Application deadline 02/08/99.

Applicants should reference position number 99-126 and send the following as a single packet: (1) letter of interest, (2) resume, (3) unofficial copy of college/graduate transcripts, and (4) list of five professional references (names, addresses, telephone numbers) to: Judy Chastonay, Human Resources, Georgia Perimeter College, 3251 Panthersville Rd., Decatur, GA 30034 or Fax (404) 244-5774. For detailed information on this position, please visit our web site at www.gpc.peachnet.edu.

An Associate Degree Granting College of the University System of Georgia

GA IS AN OPEN RECORDS STATE

CSB/SJU Director of Human Resources
Saint John’s University
Collegeville, MN 56321

Please make reference to specific position you are applying for in the letter of application.

Applications received after March 1, 1999 cannot be guaranteed consideration.

Women and people of diverse racial, ethnic, and cultural backgrounds are encouraged to apply.

UNIVERSITY OF PENNSYLVANIA
DEAN, SCHOOL OF LAW

The University of Pennsylvania invites nominations and applications for the position of Dean of the Law School. The Dean is the chief academic and administrative officer of the Law School, overseeing 37 standing faculty and over 800 students in four degree programs: J.D., Master of Comparative Laws, Master of Laws, and Doctor of the Science of Law. The Dean reports to the Provost of the University of Pennsylvania and interacts directly with the President of the University.

The University of Pennsylvania Law School enjoys a strong position among the top tier of American law schools. It possesses a highly interdisciplinary, intellectually diverse, productive and research-oriented faculty; a tradition of leadership and active involvement in law reform and exponential methods of teaching and learning, and an outstanding student population drawn from around the country and the world. As one of the 12 schools of the University of Pennsylvania, the Law School has strong research and teaching connections with other outstanding professional schools and academic departments.

The mission of the University of Pennsylvania Law School is, through research and teaching, to generate intellectual and human capital for the leadership of the legal profession in the 21st century. The Dean should have a distinguished record of scholarship and professional achievement; an academic leadership experience is desirable. The successful candidate should expect to assume office on or before July 1, 1999.

Letters of inquiry, application and nomination should be accompanied by curriculum vitae and be received no later than February 15, 1999. Correspondence may be directed to:

Dr. Richard J. Herrington, Chair
Law School Dean Search Committee
236 S. 33rd Street, 4th Floor
Philadelphia, PA 19104-3804

The University of Pennsylvania is an Equal Opportunity/Affirmative Action Employer.
Geneseo is a highly selective, primarily residential public liberal arts college with approximately 5000 students. The campus is located in an historic village in the Finger Lakes region of Western New York just south of Rochester. Recognized for excellence in undergraduate education, Geneseo is consistently ranked among the best colleges and universities in such publications as US News and World Report's Best Colleges. It offers a full range of liberal arts programs, selected professional programs, and a wide variety of co-curricular and cultural activities. Geneseo is a member of the Council of Public Liberal Arts Colleges.

Geneseo seeks a chief student affairs officer who will provide creative leadership in the setting of a public liberal arts college that combines a rigorous curriculum and a rich co-curricular life in an integrated learning-centered environment. As one of four vice presidents reporting directly to the President, the Vice President for Student and Campus Life is the senior officer responsible for three major areas of College activity: residential life; student services; and student activities. Within those broad areas of responsibility, the following departments are included: Office of the Dean of Students; Residential Life; Student Health Services and Education; Counseling; Athletics; Student Union and Activities; Career Services; Multicultural Affairs; Orientation and Greek Life. The Dean of Students reports directly to the Vice President.

Successful candidates will have a record of progressively more responsible student affairs or general administrative experience; a commitment to the values and purposes of a liberal education and an understanding of issues of student development; excellent communication skills; the ability to work collaboratively with faculty and staff in academic affairs to make student life outside the classroom an integral part of Geneseo's educational mission. Prior experience at the Dean or Director level in student affairs is preferred as is experience in one or more of the following: teaching at the college or university level, auxiliary operations, human resource and/or budgetary management. Candidates must demonstrate achievement in fostering a diverse community, maintaining a healthy and safe campus environment, managing significant human and fiscal resources, and working as part of an administrative team. Preferred: Master's degree preferred.

Applications, including a letter of interest, curriculum vitae, and the names and telephone numbers of at least three references, should be sent to:

</table>
By 2050, it is said that one in every four U.S. residents will be Hispanic. The states leading the growth charge are those with the largest Hispanic populations—Florida, California, and Texas.

Here in Florida, where Hispanics last year became the largest single minority group, we anticipate welcoming 65+ million new neighbors over the next 25 years, many of them Hispanic.

They will face a country far better prepared to welcome them than the United States of 100, 50, even 25 years ago. Laws nationwide now ban discrimination based on ethnicity and country of origin. ESL is routinely available in most districts, the better to help students of any nationality succeed academically and prepare for a future in the U.S. Hispanic immigrants, in particular, should be inspired by the growing number of government, education, and business leaders who share their heritage.

Higher education leaders—especially those at public universities—have begun to grasp the role we can and must play. We must help prepare those from disparate cultures and countries to lead in our society, even as we help them preserve their heritage and values. Pure classroom instruction is the most important part of the answer, but it is not the only part. We can do much more.

Hispanics have been strongly represented in Tampa since it was incorporated more than 100 years ago. Yet the University of South Florida, which opened its doors in 1960, had no Hispanic agenda until the current decade, when we began to commit more financial and intellectual capital to our Hispanic community.

Much of what we have done over the past five to ten years has built on our strengths—hiring multicultural admissions officers, forming a community-based advisory committee, seeking out Hispanic media and publications, creating an Office of Latin Community Advancement, etc. As our fundamental commitment to the Hispanic community becomes more broadly realized, it spurs initiatives and ideas that are transformative.

Simply put, the relationship between USF and the Hispanic community is no longer "us" and "them." There is simply "us." Together we have forged new developments.

USF's 1995 Latin American & Caribbean Initiative grew two years later into the Latin American & Caribbean Studies Program, which, in its brief history, has hosted the International Conference on the Americas, established distance learning courses in the circum-Caribbean, and organized first-ever presidential trips to Costa Rica and Mexico, and faculty development seminars in Brazil, Colombia, Panama and Cuba. State approval was just won for a master's degree program in Latin American & Caribbean Studies.

Our office of Latin Community Advancement established a program for Hispanic students that in six short years awarded $33,000 in need-based scholarships to more than 100 students—a program funded entirely through local community gifts, including an additional half million in pledged endowments.

Launched in '87, our Center for Migrant Research has helped more than 500 students from migrant or seasonal farmworker families to attain high school diplomas. The only one of its kind in the Southeast, the Center has earned more than $5 million in federal grants.

Through our archives and community outreach, we've created programs to preserve and promulgate local Latino/Hispanic culture. Our Library's Special Collections is home to historically important papers about the Latino mutual aid societies that served the workers who built Tampa's turn-of-the-century cigar industry.

USF's location has played a pivotal role in this Hispanic-related activity. But these things can happen elsewhere. And as the Hispanic community continues to grow nationwide, citizens will increasingly—and justifiably, I think—demand that similar initiatives take place at public universities, whether those institutions are in New England or the Pacific Northwest.

Institutions that are sensitive and responsive to demographic shifts will be rewarded with enriched campuses and programs. All students will benefit, and by creating universitities that are more reflective of Hispanic and other cultures, we certainly will attract even larger numbers of diverse students.

National Council of La Raza chairman Ramon Marguiles recently told the Kansas City Star, "We need to train young Hispanics for leadership now."

That might be one of the most important preparations we can make for the 21st century. And that's a call that America's public universities are uniquely positioned to answer.

How to Apply
Detailed information and application materials are available from project directors. Use the telephone numbers and mail e-mail addresses given below to request information on seminars and institutes in which you are interested. When using e-mail, include your regular mailing address because directors will send application materials through the mail. You may request information about as many projects you like, but you may apply to no more than two projects.

Information
Direct all questions concerning individual seminars and institutes to the appropriate director (general questions concerning the NIH program may be directed to [Mailing Address] or e-mailed to [Mailing Address]).

INSTITUTES
Institutes provide intensive collaborative study of texts, historical periods, and ideas central to undergraduate teaching in the humanities under the guidance of faculty distinguished in their fields of scholarship. Lasting between four and six weeks, institutes aim to prepare participants to return to their classrooms with a deeper knowledge of current scholarship in key fields of the humanities.

Paving the Road to Scholarships

BY MICHELLE ADAM

There's a Latina working around the clock with her husband in San Antonio, Texas. Fifteen- to 18-hour days are typical for the couple, the price they pay for starting a business from home nine years ago, and as a result of being, as they describe themselves, obsessively compulsive about helping students nationwide afford the college of their dreams.

Cynthia Ruiz McKeel and Phillip McKeel, authors of Cash for College and owners of College Resource Materials, help students and their parents find the necessary scholarships to go to universities whose soaring costs would otherwise deter them from attending. Aside from providing students with potentially the largest database on scholarships in the country, currently at 400,000 entries, the McKeels conduct workshops for all ages and provide individual consultations that include tips on interviewing, writing essays, staying organized, building resumes, and developing student careers and opportunities from as early as kindergarten. They've worked with local Hispanic groups such as MAPA (Mexican American Physicians Association) and WANCE, as well as the Pentagon and Department of Defense, and have assisted students from the local level to students from places as far away as the Congo and Argentina.

What sets the McKeels apart from so many others is their strong desire, above all else, to help students achieve their college dreams in the same way they helped their own son prior to beginning their business. While in high school, their only son, Phillip, had his eyes set on Harvard, Yale, and Princeton, but his parents knew they couldn't afford to pay $20,000 (now closer to $35,000) annually for his education. "We always knew Phillip could get into any schools he wanted, and we knew we wouldn't get financial aid of any kind," said Cynthia Ruiz McKeel.

Phillip McKeel doubted his parents' ability to find the funds through scholarships. But the McKeels took nearly three weeks of their vacation time and spent every possible minute of it in the library, from open to close, researching each data entry they could find on

656
potential scholarships for their son.

"We knew that if you were interested, it was out there. But we didn’t realize the enormity of what we were tackling," said Cynthia.

What they ended up with—after 100 hours of researching, after sending out 150 requests for applications, filling out and writing approximately 27 applications and essays, and nagging their son to join volunteer efforts, clubs, and other organizations to make him a well-rounded student—was more than $342,000 in scholarship money; above and beyond what he needed to cover his tuition for Yale undergraduate and Harvard graduate school. To this date, Phillip has earned more than $500,000 in scholarships and internships and intends to reach the million mark to fund law school in the upcoming years.

With an estimate of $28 billion available in private scholarships, according to Money Magazine, September 1997, and with only 10 percent of those funds awarded for academic achievement, Phillip isn’t the only one capable of receiving adequate funds for the college of his dreams. As Cynthia noted: "Students, despite color, gender, and class, can achieve scholarships. What they need to hone in on is what they are good at." While she’s seen students at the bottom of their class achieve scholarships equally as well as those on top, she also knows that it takes persistence and work to get there.

"I grew up Hispanic, disabled, and female in south Texas. You can’t do that—is all I heard. I didn’t want that for my child," said Cynthia.

Phillip received scholarships based on his leadership abilities, as well as on his Hispanic background. The McKees urge others to find their unique strengths—and the earlier, the better. They are disheartened when they encounter parents and students who don’t build on those strengths in their search for scholarships. And what’s most upsetting to Cynthia, as a Hispanic, is that many Hispanic parents aren’t aggressive enough.

"It saddens me when Hispanic students come to me senior year and say they’ve always wanted to go to an Ivy League," said Cynthia. "I find that Hispanics want a great deal but they don’t always prepare the path because they don’t know how. Many are waiting for high school teachers and counselors to do it."

The McKees’ own persistence in finding tuition money for their son snowballed into something much greater than the couple ever imagined. Friends and co-workers were soon asking for help finding scholarships for their children, and after having published their story only once in the local newspaper, the McKees, while out of town, received more than 200 messages on their answering machine within two hours of the article’s publication.

"We had to hire someone to answer phones," said Cynthia, and the hiring took place that very day. "Parents needed to know where to turn. Since then, we’ve never turned back."

They started their business that year, 1989, with $300 and a donated computer. And while at first the McKees believed they would be helping the poorer students, they discovered that the greatest need for scholarships was among that part of the middle class that wouldn’t receive federal assistance yet didn’t earn enough to pay for college.

Cynthia, a former medical researcher, and Phillip, an architect, had the good fortune of extensive research and computer experience before embarking on the journey. And Cynthia, as a Hispanic woman in Texas, limited by gender and race as well as by polio, knew what it took to achieve what she calls "realistic goals." She was able to complete graduate school because of her physical limitation but she hasn’t let that stop her from helping others do it.

For a lot of people, however, applying for college, whether undergraduate or graduate, can be an overwhelming process. As McKees have learned, there are many different kinds of scholarships available for various groups and interests. There are even scholarships that begin early as kindergarten, which will be listed in the McKees’ upcoming book, Kids’ Cash for College.
savings bonds for their college years. Throughout middle school, students are asked to give speeches, write essays, and produce artwork. While competitions designed for earning undergraduate monies are more general in nature, those for graduate school are often essays and works geared toward specific subjects.

"We've taken it as a personal challenge to let parents know that you've got to start early," said Cynthia. "We teach them how to prepare for competition."

The Mckees consider it crucial for students to become actively involved in organizations, sports, and volunteer efforts as early on as possible in order to build themselves as well-rounded individuals. Even students going to graduate school after years in the workforce must do a minimum of one kind of volunteer work each year to be considered a good scholarship candidate, said Cynthia. Although there are fewer graduate scholarships (they are publishing their two-volume book, Cash for Graduate and Professional School, in late 1999) than undergraduate, there are also fewer students applying. And among the scholarships available, the greatest number are for women, minorities, and those students pursuing degrees in science, math, or engineering.

"There's a lot of money out there for Hispanics. You have some areas that you will be able to use for your advantage," said Cynthia.

As for pointers in applying for scholarships, the couple offered the following:

**For undergraduate school:** 1. Make certain to apply for as many scholarships as you can. "You never know what you are good at and what the pool is like." 2. Stay organized. Keep on top of deadlines. 3. Look at the qualifications of the entire student (GPAs, tests, activities, classes, etc.). 4. Put together a good resume of all activities. "A lot of students shoot themselves in the foot on this one." 5. Have three good essays (250 words each) on goals, role models, and an experience that affected your life. These essays will need to be modified for each application.

**For graduate school:** 1. Write an alive and informative personal statement (1,000-1,200 words). 2. Develop a strong four-year resume. Include all activities, volunteer efforts, and community participation. There are many scholarships for women who have done volunteer work. 3. Be more focused than you were with the undergraduate application process. Quality vs. quantity. 4. Stay motivated. 5. Stay alert for opportunities on bulletin boards, in newspapers. Because there are fewer scholarships, you have to look more carefully.

Thousands of people work with the Mckees every year, in addition to those who have bought their books. Cash for College is already on its 12th imprint, with more than 60,000 copies sold. An updated version book will be published in April of this year, as well as Write It Right, a book detailing the process of producing effective essays which will be published in late 1999. They also published Inmerso Para la Universidad in 1993, said to be the first book published by Hearn in Spanish, but it is no longer on the shelves, after failing to sell more than one thousand copies. "We give them away," said Cynthia. "It bothers me how few Hispanic high school students go on to college, much less go on to graduate school." The book, she said, "provided them with a form of attack."

At least two to three days a week, the Mckees scout from one group to another giving workshops in their predominantly Hispanic hometown of San Antonio. Although they have traveled throughout the country making such presentations, their primary focus has been to assist locals, from kindergartners to grandparents. It's during these times that they have an opportunity to inspire students and families, giving them hope and possibility.

"Most students become so ill from listening to two-hour workshops," said Phillip Mckee. "They receive so much information, they come out awed, some frustrated, and they stop and ask dozens of questions walking out the door. The workshop is like trying to take a drink from a fire hydrant."

He recalled specifically one third grade student who told him...
that he wouldn’t go to college because his family couldn’t afford it. It’s great to see the same kid with a different look on his face after giving him hope,” said Phillip.

We try to light a fire.

Every year the McKeeps conduct a workshop for students enrolled in MIND PREP, a 12-year program developed by the Mexican American Physicians Association of South Texas to assist predominantly poor Mexican American inner-city students through high school and on to college. When you bring in the McKeeps and their resources, it opens doors for young people who have not had them opened before,” said Executive Director Bobby Martinez.

While these students, about sixty each year, need coaxing to believe they are smart enough to even consider college, they also need to know that going to college is an affordable possibility. “Money is the second largest obstacle they see in their minds,” said Martinez.

In our cultural communities, the pursuit of an education is not always seen as a wise investment,” Cynthia said. “Let them know—college is expensive, but it’s an obstacle that can be overcome. This year, every one of MAPS’ students has gone on to college.

The McKeeps have been written up in Hispanic Business, Hispanic Magazine, Multicultural Magazine, and Adoro de Sesame Street, and have been broadcast on NPR, CNN en Espanol, Telemundo, Ocurrió asi, and many local radio stations throughout the country. They are quick to give advice or names of scholarships that might benefit listeners who call in to talk shows for advice. College financial aid offices often refer people to the McKees, as do national sororities.

Cynthia is working long hours from a wheelchair, but she always makes time for students who call for advice. “We want students to know they can approach us,” she said.

Jean-Paul Daemen, a Cuban American who received $80,000 in scholarships for college, was one of those students who benefited greatly from Cynthia’s ongoing support. She helped him complete his college essays five hours before they were due, and was always available when he was faced with extremely negative input from his counselors and teachers. He is now a sophomore at the University of Texas, with his tuition paid up and money for extra expenses.

“She went out of the way...she helped me incredibly,” said Daemen. “When it came to graduation, I had the most scholarships. It made me smile.”

While Daemen was a strong student, on, who achieved good grades and high SATs and was actively involved in school activities and sports, his teachers and counselors didn’t believe he was worthy of college or scholarships that would pay his way. “You would not believe how horrible my recommendations were,” he said. Even the principal questioned the validity of the scholarships that Daemen received.

Amazed by Cynthia’s support throughout the process, he said, “There isn’t a month that goes by that I haven’t called her.”

Phil Twile, owner of the United States Education Group in Rochester, NH, has also been working with the McKees, assisting students on the East Coast with scholarship information and support. In six months, after helping 40 to 50 students, he too has been seeing the results. One student, who escaped Vietnam by boat as a child, has already accumulated $50,000 in scholarships to go to school in this country. “If the kids will take the time, and the parents will take the time, there is no question they’ll get the money,” said Twile.

Knowing where to go and how to get there is not always easy. Many students and parents have had bad experiences working with groups that promised scholarship information and support, very little. It takes extensive leg work and knowledge to get the right information and to know what to do with it. On the road to scholarship success, however, the results can be outstanding.

Cynthia always knew she would one day help others, but how was much a surprise to her as to anyone else. “Now I realize this is what I was meant to do. This is such fulfilling and rewarding business: All the long hours are worthwhile,” she said. The couple have watched thousands of students make the step.

When you have a kid that calls because they have the money to go to the school of their choice, it’s great feeling,” said Phillip.

It’s the fact that the McKees walk the talk, as Martinez points out, that makes them and those they help a success story.

“You give them wings,” said Cynthia. That’s what it’s all about.
McKees on Writing Essays

1. Choose your words carefully. What you don’t say is as important as what you do say.
2. Don’t repeat yourself.
3. Explain yourself fully. Don’t mention an accident without stating who was involved.
4. Don’t generalize or state the obvious. Example: People judge success by their earning potential. Change to: Sometimes people are judged....
5. Progress through your essay logically. Don’t jump around all the time.
6. Keep your viewpoint consistent. If you’re telling your story in the first person, don’t include another person’s thoughts, and don’t warn the reader.
7. Use contractions, except for emphasis. Essays must sound as though the student is talking to the interviewer.
8. Use active voice, not passive voice. Not: The college I attend will be chosen by me.
9. Maintain sentence variety. Don’t start each sentence with “I plan,” “I will,” or “My goals are.....”
10. Be creative. Don’t use clichés such as “hot as the sun” or “cold as ice.”

Avoiding Common Mistakes Made on College and Scholarship Applications

1. Don’t forget to sign the application.
2. Answer all the appropriate questions. If it does not pertain to you, fill in “Not applicable.”
3. Be sure to submit a complete application. This includes the school transcript and recommendations.
4. Don’t submit a recommendation letter written for another scholarship or award.
5. Don’t submit a recommendation letter that’s more than one year old.
6. Don’t submit an inappropriate recommendation letter. Once you’ve completed one college semester, you should never have a high school teacher write a recommendation letter. Letters can be written by university professors, employers, volunteer supervisors, pastors or priests, or even a family friend.
7. Don’t submit something that wasn’t requested, including letters, pictures, resumes, or portfolios.
8. Follow all the directions. Read the application guidelines before submitting. If the directions clearly state that an essay should be on one sheet of paper, don’t submit two or three. Don’t exceed the word count.
9. Proofread all parts of the application. Have someone else read it before sending it in.
10. Don’t send a smudged, dirty, or wrinkled application. An application represents you.
Coalition Says
“College Is Possible”
Targeting Parents and Students Nationwide

BY PAT HANSI

University of San Francisco will join with some 1,200 colleges
across the country, both public and private, in a national edu-
cation campaign, “College Is Possible,” to enhance public
knowledge about financing an education. More than a score of
Bay Area colleges also are participating.

According to Susan Murphy, USF director of financial
aid, “At first look, the $16,000 USF tuition sticker
price might scare prospective students. It is part of
my job to get the word out that more than 64 per-
cent of USF’s currently enrolled students receive
financial aid and that the average
financial aid award here
is more than $10,500
annually. I think these
figures help place the true
cost into perspective.”

Every student in
America who works hard
and makes the grade has
lots of choices about where
they go to college, how much
they want to pay, and the ways
in which they finance their
college studies,” said Secretary of
Education Richard Riley at the
launching of the “College Is
Possible” campaign.

The Coalition of America’s
Colleges and Universities, a group of
nearly 1,200 colleges and universities
as well as associations, is part of the
campaign. “College Is Possible” will
include efforts by local campuses to
reach students and parents in their region, supported by a Web site
www.CollegeIsPossible.org, the U.S. Department of Education’s special toll-
free number for college information (1-800-433-3243), and a comprehensive
resource guide. Information is being offered on costs, financial aid, sources of
assistance, and what students should do to prepare themselves for college.

Announced to the press in October at the Martin Luther King Mem-
Library in Washington, D.C., the campaign is in response to survey res
conducted early last year showing that 40 percent of parents and stud-
ents value a college education, many dramatically overestimate price, often by as much as 200 percent. The campaign is about getting the re-
sources that are available to them to help pay for college.

The danger that the Coalition hopes to avoid in this campaign is that many
parents will miss out on the opportunity to send their children to college because they do not have adequate information about range of options and sources of help.

The students most at risk are minority students, families with low income, and students whose parents did not attend college.

Overall, Latinos were 70 percent more likely than Whites to not go to college last year—and who will pay the price for lower incomes and lost opportunities—were not held back by bad grades or low test scores or even the fact that they are poor. Rather, they believed they could not afford a college education.

Colleges and universities have an obligation to help all Americans open
door to opportunities—and this is especially true for the Hispanic commu-
nity, said Stanley E. Hershberg, president of the American Council on Education.

Far too many studies have shown that Hispanic Americans and others
are getting left behind when it comes to higher education. We must redouble
efforts to let students and families know that college is possible. To that end, over 1,200 campuses are engaged in a national campaign to reach out to students and families and give them the tools they need to make college possible," Ikenberry said.

"The Hispanic Association of Colleges and Universities and the White House Initiative on Educational Excellence for Hispanic Americans have been actively involved in planning the campaign. We also plan to extend the campaign to include church and community organizations. No deserving student should be deprived of a college degree because he or she doesn’t have the right information," he said. "We think this nationwide campaign will help close the information gap.

Findings from a survey released in May revealed that many Americans are not aware of the wide range of tuition prices and academic experiences among the 3,500 colleges and universities in the United States. Most people do not realize that $60 billion is available to students in financial aid from federal, state, local, and institutional sources to help them meet college bills.

"Seven out of 10 full-time students in recent financial aid packages receive a substantial amount. At private colleges, for example, the average undergraduate receives $9,000 to help pay for college, reducing their expenses by almost half. At public colleges, students also receive significant amounts of student aid, further reducing the price of attendance."

The survey research also demonstrated that parents and students need more information on the components of college costs and why they are on the rise. The "College Is Possible" campaign is intended to encourage colleges and universities to adopt creative and innovative cost-cutting measures and to better communicate with the public about the complexities of college financing.

"Despite the fact that tuition increases have stabilized in recent years, the higher education community must continue to find ways to contain costs and control tuition increases," Ikenberry said. "However, we also should fill the information gap with respect to actual versus perceived tuition prices, as well as educate people about why college costs what it does."

"A college education, unfortunately, is not cost-free. But it’s far less costly than many believe. And for all motivated Americans, there is another cost to consider: the cost of not going to college," said C. Peter McGraw, president of the National Association of State Universities and Land Grant Colleges.

"College Is Possible" is slated to run through the year 2000. Coalition members have committed to engage their communities on the issues of tuition prices, the wide availability of student aid, and campus efforts to improve cost management through advertising and outreach at the local level and a toll-free number and Web site available nationally. The Coalition wants to get a simple three-word message out to the American people: College Is Possible.

---

**Who can afford college? You can!**

Think college is out of reach? The truth is, not at all. In fact, last year American college students received $60 billion in grants, scholarships, and low-interest loans.

Seven out of ten full-time students across financial aid packages received an average of $7,000 to help pay college bills. This aid comes from federal and state governments, colleges, corporations, and private charities. You may qualify.

To learn more about the many ways that you can make college affordable, call the U.S. Department of Education's special toll-free number for college information: 1-800-433-3243. Ask for the "College Is Possible" brochure or visit us at our website: www.collegeispossible.org.

Two reports issued late last year add both light and weight to the information pool surrounding college tuition. Both were prepared by The Institute for Higher Education Policy, a Washington-based nonprofit education research group.

It’s All Relative: The Role of Parents in College Financing and Enrollment, commissioned by the USA Group Foundation, a research and philanthropic organization, is the first monograph published in its New Agenda Series. The parent USA Group is a nonprofit company based in Indianapolis, Ind., and the nation’s largest administrator of student loans.

A second report, Do Grants Matter: Student Grant Aid and College Affordability, was prepared in collaboration with TERI, the Education Resources Institute, a Boston-based, not-for-profit organization providing education information and financing services.

It’s All Relative blends recent research by NCES, the National Center for Education Statistics, with a new, nationally representative survey of 50 parents who had at least one dependent child enrolled in college during 1997-98. The study examines the parental role in order to help clarify fiscal responsibilities among the federal government, states, institutions, philanthropy, parents, and students.

Data Sources
Inputs from the National Center for Education Statistics included NELS, the National Education Longitudinal Study; and VPSAS, the National Postsecondary Student Aid Study. NELS provide trend data following the 1988 eighth-grade cohort through graduation from high school and transition into postsecondary education or the labor force, with the most recent follow-up survey conducted in 1994. VPSAS describes postsecondary students at all institutions, types and class levels, with particular attention given to student financial aid and educational expenses. Each survey, says the report, students and parents of a sample of students were interviewed by telephone regarding issues that could not be gleaned from institutional records. The VPSAS study was administered in academic years 1986-87, 1989-90, 1992-93, and 1995-96, though not always in precisely the same manner.

In the last 10 years, while the average price of attending a four-year institution has risen by an inflation-adjusted 38 percent, parental support has actually dropped by 8 percent.
Telephone Survey

In addition, the Institute in 1998 commissioned Rickman Research & Communications of Silver Spring, Md., to conduct a telephone survey of parents. A list of currently enrolled students obtained from the American Student List Company, Mineola, N.Y., which included home telephone numbers of more than two million students, was the basis for the random selection of 3,000 names. Using the “nth number” selection process, the survey was conducted in June and July of 1998. The telephone interviews averaged 12 minutes; a total of 50 interviews were completed, yielding a margin of error of approximately plus or minus 5.5 percent at the 95 percent confidence level.

Findings

The report reveals a shifting landscape of who pays for college and how they are paying for it. Parents over the last decade are covering less of the growing price of their children’s college education. In the last ten years, while the average price of attending a four-year institution has risen by an inflation-adjusted 38 percent, parental support has actually dropped by 8 percent.

Overall, parents are relying on current incomes more, saving at far lower levels than needed to pay for college, and—for those who take out loans—borrowing higher amounts.

The report states that parents on average contribute 55 percent of the price of attending college, a decline from 69 percent in 1980. Student loans and other sources are making up the difference. Two thirds of parents rely mainly on current income to finance college. The average total amount now saved for that purpose is $20,560, or only about one third of the average price of a public four-year college.

For the 25 percent of parents who borrow for college, the average loan amount is up 50 percent over the last five years.

The study indicates that most parents are not going into debt to pay for college education, but do contribute substantially, two-thirds of the cost in the form of cash gifts, and 10 percent extend loans to their children. A full 80 percent of parents provide food, clothing, and transportation. The report also shows a high level of involvement by parents in their children’s efforts to select, enroll, and plan financially for college.

The widening gap between higher prices and the levels of parental support, according to the report, results from prices climbing faster than available funds. In addition, other factors such as low levels of saving for college, increased reliance on current income, and widespread availability of student loans, may be contributing to this trend. Parents also might not be realistic about how to pay for college and about how much they should expect to pay for it, suggests the report. Despite the reality that current income is the parents’ main source, recent studies indicate that parents of high school students anticipate using savings and grants as their primary source, with current income a distant fourth choice.

This report confirms both the increasing burden on families stretching to meet college expenses and the considerable efforts by parents to keep pace financially, said Robert J. Dickinson, head of the USA Group Foundation. “It also raises broader questions for our future about how to balance the relative burden of paying for college.”

Student Grants Report

A 20-year erosion of student grant aid, says the second report, threatens to undermine college affordability and to widen the disparity of access to college among students from differing income levels. Student grants are covering a significantly diminishing proportion of the price of attending college. Both average and maximum Pell grants cover about half of what they did two decades ago.

More than 3.6 million students currently receive a Pell grant. In 1976-77, the average Pell grant covered 19 percent of the annual price of a private four-year institution. In 1996-97, it covered only 9 percent. Similarly, in 1976-77, the average grant covered 30 percent of the price of a public four-year school. In 1996-97, only 22 percent.

Similar downslopes hold for the maximum Pell grant in the same time frame, from 33 percent to 15 percent for private and from 22 percent to 34 percent for public.

In addition, while the average Pell grant award declined by 25 percent (after inflation) between 1976-77 and 1996-97, college prices rose by 49 percent, and family incomes inched slightly higher, 10 percent. This has resulted in a reduction in the overall affordability of college—that is, whether the net price that students and families actually pay is within their reach.

The Sticker Price

The net price of college—the sticker price minus the total grant aid received—has increased for
most families in the 1990s. For example, the average net price of attending a private four-year college for a student from a family with income less than $10,000 rose from $8,178 in 1989-90 to $11,159 in 1995-96, an increase of 42 percent in just six years. The growing gap between net prices and families' ability to pay highlights the critical role of grants and the serious consequences of the low levels of grant aid, according to the study.

Between 1976-77 and 1996-97, the average price of attendance at all institutions increased by 304 percent. Differences exist by the type of institutions: prices increased by 365 percent at private four-year, 300 percent at private two-year, 279 percent at public four-year, and 196 percent at public two-year. In comparison, consumer prices increased by about 171 percent over the same 20-year period, and median family income increased by 178 percent.

After adjusting for inflation, the average price of attendance at all institutions increased 48 percent, and median family income rose 10 percent.

One indicator of the erosion in grant aid is that while college enrollment rates have increased in the last two decades, the gap between low-income and high-income students is still wide. In high-income families, 78 percent of the children go on to college. In low-income families, only 49 percent.

These trends, the study reports, are leading students to seek out other funding sources, including student loans, which are up 10 percent after inflation), other consumer borrowing, and credit cards. They are also a factor in changing the ways that students participate in higher education: working part or full time, using “distance learning,” or limiting their education to two-year public institutions.

Despite recent increases in funding for grants by institutions, by states, and by the federal government, the purchasing power of grants has deteriorated. The maximum Pell grant award, which was increased to $3,000 in 1998, would need to double to $6,000 to pay for the same proportion of college prices that it did two decades ago.

Recommendations

"In many ways, these are good times for higher education. Overall, enrollments are up, the public is supportive, and funding has modestly increased," said Jamie Merisots, president of the Institute for Higher Education Policy. "These trends mask the fact that there is a gap of almost 50 percentage points in enrollment between low-income and high-income students. Shoring up grant aid is best way to improve affordability for these students and close the gap in enrollments."

The report urges policy-makers to increase need-based grant aid at all levels, emphasizing the urge of reinvigorating the "political will for such support. The study cites erosion of support for grant aid policy-makers as part of the trend toward budget austerity, small government, and fewer entitlement programs. At the state level, the trend to non-need-based grant aid infringed upon the amount of need-based aid available, while state budget crunches put education under scrutiny, such prisons and Medicaid. At the federal level, the study points to recent creation of tuition tax credits as further evidence of this weakened political support for grants.

"For more than 20 years, need-based grants have answered the question, 'How can I afford college for millions of students and their families,'" stated Thomas D. Park, senior vice president of TERI. "I think with the declining purchasing power of grants, that question has few answers. We must reinvigorate the commitment to these students, and our own future as a country, investing in grant aid at all levels."

The Honor Roll

University of Northern Colorado
Promising "tomorrow's frontier today"

BY ROGER DEITZ

There was a time in our nation's history when the expansion westward by those seeking a better life made the Northern Colorado frontier an exciting place to live. It still is. Much of that pioneer spirit remains in the way people in this region approach the issues affecting their future, and in the way Colorado residents look to education to improve their prospects. Nowhere is this Colorado frontier spirit more evident than in the higher education policies of the University of Northern Colorado, where it is promised that a student will encounter "tomorrow's frontier today." How appropriate that the university, a school that takes a frontier approach to addressing sophisticated educational challenges, is located in Greeley—a frontier town named for journalist and politician Horace Greeley, who encouraged the great American move westward with the words, "Go West, young man."

Greeley is a town of 65,000 where the Old West meets modern America. On one hand, Greeley is host to a 15-day Stâmpede, complete with rodeos and big-name entertainment, an event that culminates in a great deal of hoopla on the fourth of July. On the other hand, the high technology firm of Hewlett-Packard is located right down the street, and nearby, the North Colorado Medical Center offers the finest medical care and medical research in the region. Only an hour west, one can visit Rocky Mountain National Park. There's so much in Greeley to inspire the mind and spirit, more than enough to place the University of Northern Colorado on the Hispanic Outlook Honor Roll.

UNC already has been listed by the Hispanic Outlook as one of the top 100 colleges and universities graduating Hispanics and has been selected to The Student's Guide to America's 100 Best...

College Buys as well as Barron’s Best Buys in College Education. 5th Edition. Former Colorado Senator and Congressman Hank Brown became the 11th president of the University in July 1998. Brown has lived in Greeley with his family since 1969, having moved there shortly after serving in the U.S. Navy and being decorated for his service in Vietnam.

“While national recognition is a great tribute to UNC,” says Brown, “our greatest source of pride comes in the quality of teaching that takes place across campus. With more than 90 percent of our classes taught by full-time faculty rather than teaching assistants or graduate students, we place greater emphasis on direct contact with individual students than do many other institutions. UNC’s faculty-to-student ratio is one of the lowest in Colorado, and we have avoided very large classes.”

President Brown says that UNC undertook a new set of distance-education initiatives last fall and that the school will continue to pioneer the use of technology to “bring the world to our campus.” But, he says, “Change never comes easy. We must understand that it is a process, not an event. The pace of change requires that we have a strong sense of where we have come from and where we are going.”

Colorado entered the union in 1876 as the 38th state. It was still a frontier state when, on April 1, 1889, the governor of Colorado signed the bill creating the State Normal School to train qualified teachers.
for the state's public schools. Greeley citizens raised the necessary money for the first building, and the cornerstone was laid on June 13, 1890. The school opened its doors on October 6 with a staff of four instructors and an enrollment of 96 students. Certificates were granted after completion of a two-year course.

In 1911, the school's name was changed to Colorado State Teachers College by the state legislature. The College was then offering four years of undergraduate work and granting a Bachelor of Arts degree. By 1935, the school was renamed Colorado State College of Education to recognize the fully developed graduate program, which had begun in 1913. Early in 1957, the state legislature approved shortening the school's name to Colorado State College. To recognize the further growth of programs and offerings, in 1970, the school's name was changed once more, this time to the University of Northern Colorado.

It is a multipurpose institution offering a wide range of graduate and undergraduate degree programs in five academic colleges: Arts and Sciences, Business Administration, Education, Health and Human Sciences, and Performing and Visual Arts. The College of Continuing Education extends the institution's academic programs statewide. The University offers more than 2,000 academic courses annually.

The campus in Greeley is located about an hour north of the city of Denver. UNC's 236-acre UNC campus has two distinct, adjacent parts, both of which have residence halls and classroom buildings. The central campus features older, tree-lined paths and buildings, while the west campus is distinguished by modern high-rise structures.

Last fall, UNC had a total enrollment of 10,670 students. Of these, 9,082 were undergraduates. Women made up 64% of the total, and 1,588 students were ethnic minorities. Within the subgroup, 790 students were Hispanic; 494, Asian American; 241, African American; and 63, Native American.

Student scholarships are offered, ranging from automatic $500 first-year-student awards that recognize high achievement in high school to annual $5,000 awards for high-ranking first-year resident students. Diversity awards also are available that take into account ethnicity, income, and first-generation-student status. Numerous talent scholarships are available to new students in various artistic and athletic endeavors. The University Honors Program offers an opportunity for students of academic excellence to enrich their intellectual experience at UNC. Participants have access to honors-only seminars and a senior independent research project, and are allowed interaction with select faculty. The number of full-time faculty is about 460; 110 of these are instructional faculty.

Last school year, the University of Northern Colorado celebrated the silver anniversary of its Hispanic Studies program, established in 1972. At the time, retiring President Howard Skinner remarked, 'We put the spotlight on Hispanic Studies not simply for diversity's sake, but also so we can, as an academic community, look at the accomplishments and achievements of Hispanics in all aspects of our culture.' UNC's program was the first of its kind in the west.

In 1972, the Colorado Commission of Higher Education approved UNC's Mexican American Studies major in the hopes of 'accommodating the cultural differences surfacing throughout the United States.' Also of note is UNC's Cumbres (Peaks), an innovative teacher education program that is a partnership between UNC's Hispanic alumni and its Colleges of Education and Arts and Sciences. Cumbres program aims to recruit, retain, and graduate 100 Hispanic students each year who will go into the teacher education program. The program's goal is to 'create teacher preparation for instruction of language-minority students, children of poverty, Hispanics.' Cumbres accomplishes its goal by using UNC Hispanic alumni as mentors.
By Amalia Duarte

Amalia Duarte is an editor in public relations at Lucent Technologies.

The positive trend is that just about half of the schools included in CB's Who Got In? book, published in the fall of 1998, reported higher Hispanic enrollment.

During the 1997 academic year, there was good news and bad news in Hispanic enrollment trends, according to the 12th annual College Bound survey of admissions officers. The poll found that Hispanic enrollment had dropped at some of the schools that usually earn a spot on Hispanic Outlook's "Top 100" lists. Meanwhile, at a broad range of institutions with traditionally small Hispanic student populations, there was an unexpected upswing.

While not a scientific survey, each fall the CB poll serves to highlight admission trends for high school guidance counselors and college admissions officers. In general, for 1997, this sampling of several hundred public and private colleges and universities throughout the country found that there were more applications, bigger first-year classes, and more institutions accepting electronic forms of applications. One surprise came in answers to a question about whether rising tuition costs were depressing enrollment. Most admissions officers responding said that they felt high tuition did not have a negative influence because their scholarship programs and loans kept pace with expenses.

Divergent Trends

When it came to Hispanic enrollment, the survey picked up two divergent trends. The positive trend is that just about half of the schools included in CB's Who Got In? book, published in the fall of 1998, reported higher Hispanic enrollment. This broad range of schools included many smaller universities not normally thought of as magnets for minorities, and many of them located in states with small Hispanic populations. Included in this group were Bucknell College and Lehigh University, both in Pennsylvania; Middlebury College in Vermont, and Oberlin College in Ohio. These small and excellent schools are so off the radar screen in terms of minority enrollment that not one was among the Hispanic Outlook's annual selection of "Publisher's Picks"—including Northeastern University, Boston College, where Hispanic enrollment picked up after a three-year decline; Harvard, Radcliffe, Carnegie-Mellon, and Vassar.

Hispanic students increased, too, at some prestigious institutions typically selected as "Publisher's Picks"—including Northeastern University, Boston College, where Hispanic enrollment picked up after a three-year decline; Harvard, Radcliffe, Carnegie-Mellon, and Vassar.

At 2,440-student Willamette University in Salem, Ore., admissions director Steven Dutton reported "more excellent applicants of color." Willamette currently enrolls 67 Hispanic students, which represents 11 percent minority.

Hispanic students increased, too, at some prestigious institutions typically selected as "Publisher's Picks"—including Northeastern University, Boston College, where Hispanic enrollment picked up after a three-year decline; Harvard, Radcliffe, Carnegie-Mellon, and Vassar.

Hispanic enrollment increased even at some schools where the numbers of African Americans and other minorities were down or stable. At Macalister College in St. Paul, Minn., admissions officer...
Nancy Mackenzie reported to CBS that the school had admitted more Hispanics yet fewer Native American, African American, and Asian Americans for fall 1997. McAlaster is about 13 percent minority students.

Other schools reporting Hispanic increases included "Publisher's Pikes" such as Catholic University, Northwestern University, Ohio State University, the State University of New York (SUNY) at Stony Brook, University of North Carolina at Chapel Hill, the University of South Florida, and William Paterson University.

But the second trend is a disturbing one that might have a greater impact for overall Hispanic graduation parameters in the long term. A number of schools that usually rank in Hispanic Outlook's "Top 100" lists reported a decline or leveling off in Hispanic enrollment.

Perhaps it is a one-year fluke for some. New York University, No. 5 in HIV's "Top 100" for awarding bachelor's degrees, and the University of Arizona, No. 15 in that category, both enjoy diverse student populations—about 35 percent minority at NYU and 20 percent at U.A., with half that percentage Hispanic.

"We are hoping the drop was just a blip," said Cathie Mayes, assistant director of Minority Student Recruitment. "We are very aggressive in our recruiting efforts and work with the local multimodal colleges, minority alumni, and the financial aid office to try and bring those numbers even higher. Our goal is to increase the percentages."

In California

But at other schools, political issues are limiting opportunities for Hispanic students. UC at Berkeley, which has been No. 1 in awarding doctorates to Hispanics, told CBS's "Who Got In?" about a drop in all minority enrollment in fall 1997. And this trend isn't likely to get better in the near future. The California Board of Regents and a subsequent voter referendum, Proposition 209, banned the use of race and ethnicity in the admissions process within the UC system, The aftermath has been a steady decline of black and Hispanic acceptance rates in California's public universities.

Affirmative action came to a grinding halt within the UC system this academic year, but even in 1996 there was a slight decline in Hispanic enrollment on some campuses. In academic year 1996, student residents of UC Berkeley admitted 1,258 Chicano/Latino students, down from 1,326 the previous year. In addition, with overall first-year-student applications to UC-Berkeley increased by 81 percent for that fall, the university might look to efforts under way in California to boost minority enrollment while working within the confines of Prop. 209.

UC officials have countered Prop. 209 by broadening the admissions criteria and stepping up outreach efforts to minorities. Instead of ranking students strictly by test scores, all UC schools now look at other factors such as family income and whether an applicant is the first in the family to attend college. New outreach programs for African American and Hispanic high school students also have been created, along with efforts to partner college campuses with predominantly minority high schools and middle schools. The 1998-99 UC budget added $8.8 million to outreach funding. Coupled with a potential $31 million in K-12 matching money, spending on outreach programs is expected to reach $33 million in this academic year, more than double the amount spent in the previous fiscal year.

"We have expanded our admissions guidelines and begun programs to get kids turned in the right direction to focus on being a better student," said Terry Leighton, spokesperson for the UC system. "We are becoming a process of focusing on culminating educational opportunities at middle schools and junior high schools. If we can improve the quality of education there, then these students can better compete for admissions down the road."

At the same time, other California schools included in College Bound's list, such as Loyola Marymount University in Los Angeles, a "Publisher's Pick," and "Top 100" list-maker, are putting out the welcome mat to Hispanics. Loyola Marymount, which enrolls a 45 percent minority population, brings in the states top Hispanic high schoolers for a day of tours and discussions and, hopefully, to sell them on education at LMU. Part of the pitch is the more than 2,500 internships offered in local industries, including medicine, health care, and high-tech companies. When, after Hispanic students are admitted, they're invited for an overnight stay on campus to which parents are included to ease their concerns about financial aid and dorm life. Said admission counselor Sandra Ortiz, "We offer smaller class sizes and better faculty-to-student ratios. Our pride is that we are a diverse university."
College Tuition: The Shattering Explosion

By Gustavo Mellander and Nelly Mellander

Going to college has never been inexpensive. Most families have had to plan carefully and even sacrifice along the way. There was a time, however, when parents could with some planning hope to see enough to see their children through college. A reasonable amount set aside every year for years on end went a long way toward providing an adequate nest egg.

That level of security and comfort has been shattered. Shattered over the past twenty years by an explosion in annual tuition increases. As much as they saved, as careful as they had been, most parents were not prepared for double-digit annual tuition increases. Neither were students trying to work their way through college.

Perceptions of colleges being predatory and mercenary were further exacerbated since tuition increases far outpaced the nation’s inflation increases. The public soured on colleges. Politicians, even liberals, began to believe that government should impose restrictions on colleges to keep tuition in check.

Washington

Although several governors addressed the issue, it was not resolved. In early 1997 Republican leaders in Congress sided the leadership of this popular issue. Earlier public pressure to curtail tuition hikes increased. President Clinton had suggested that colleges should be penalized for raising tuition beyond the cost-of-living guidelines. Those comments and the heightened interest in this issue throughout the land led to several steps.

In May of 1997, at the urging of Congressman Bill Goodling (R-Pa.) the Cost of Higher Education Review Act of 1997 was drafted. Proposed as an effort to curb the rapid rise in college tuition, it quickly gained bipartisan support. It called for a commission to study the factors contributing to “soaring” tuition rates and to identify potential solutions.

This commission will provide us with the information we need to begin making college education an option for more of our sons and daughters,” Goodling said. It has become very difficult for American families to keep pace with annual tuition hikes.

The Congressman and others were buttressed by General Accounting Office reports, which stated that college tuition has increased by 24 percent since the early 1980s. That rate of increase exceeded the cost of living and a rise in family income. Those figures and constituent complaints led the appointment of an eleven-member National Commission on the Cost of Higher Education.

Authorized by Congress in June 1998, the Commission members met for the first time on August and elected William E. Troutt, President, Belmont University, the chair. Membership included a state system chancellor, several college presidents, heads of state as well as national associations, and university professors, among others.

Their time frame to complete their task was a stringent 120 days. The group was charged Representative Buck McKeon (Calif.), chair of the House Subcommittee on Postsecondary Education, to "put forth bold ideas to keep higher education affordable." The Commission's work is considered particularly significant since the Higher Education Act would be reauthorized this year.

The Reports

The report, due December 19, was completed on time. Yet focus on portraying the cost higher education as a "bargain created a firestorm of criticism. Official Washington's reaction was so negative that the Commission rewrote its report and did not use the final revision until January 1999.

Entitled "Straight Talk About College Costs and Prices," it was
well-written, long (more than 50 pages plus numerous charts and reports), deliberative piece comprehensive and detailed, it covers five broad areas: Strengthening Institutional Cost Controls, Improving Information Available to the Public, Deregulation, Accreditation, and Streamlining Financial Aid Delivery Systems.

The American Council on Education placed the entire report on its Web site. In a cover letter to its membership, Dr. Stanley O. Ikenberry, president of ACE, acknowledged that a high level of public anxiety about college costs is real, and that higher education has a responsibility to engage the issue to inform the public more effectively, and to reframe our efforts at cost control.

A Veil of Obscurity

The report readily acknowledged that tuition rose exponentially between 1976 and 1996. Characterized by some as “sticker shock,” those increases have shocked a public trying to finance its children’s education. The report also noted that colleges had not been effective in explaining the realities of pricing issues. On a somber note, the Commission members warned that given widespread public concern, colleges faced both state and federal intervention if they did not reduce costs.

The report continued in the earlier vein by pointing out the high quality and accountability of American higher education. But it also criticized colleges. It said they must be more “affordable and more accountable.” It acknowledged the public’s frustration and stated that “many academic institutions have not seriously confronted the basic issues involved with reducing their costs—and that most of them have permitted a veil of obscurity to settle over their basic financial operations.”

Key Issues: Cost as Price

A key point of the report was to try to explain and clarify the relationship between costs and price. Cost is the amount expended to educate a student, which is different from the price charged. Price is what a student pays, cost is the actual expense. Costs are very high, but the price charged a student is much lower. Further, the role of financial aid alleviates the impact since many students do not pay the full cost of their education. The average undergraduate student pays two-thirds of the actual cost; in some institutions only half. That is not well known—not even at universities.

Five Recommendations

The recommendation section was long, carefully written, painfully honest, and specifically prescriptive. Academic institutions should intensify their efforts to control costs and increase institutional productivity.

The academic community is called upon to provide the leadership required to develop better consumer information about costs and prices and to improve accountability to the general public.

1. Governments should develop new approaches to academic regulation, approaches that emphasize performance instead of compliance, and differentiation in place of standardization.

2. The academic community should develop well-coordinated, efficient accrediting processes that relate institutional productivity to effectiveness in improving student learning.

3. Congress is asked to continue the existing student aid programs, and simplify and improve the financial aid delivery system.

True to the exhaustive nature of this report, each recommendation was explored in great detail. Considerable data, past history, and a clear rationale explaining the present circumstances were presented, just as importantly, a foundation for future changes was included. Each recommendation also had a detailed implementation recommendations section. These succinctly spelled out precise policy issues to be addressed, changed, modified, and even created afresh.

Colleges must do two things first: become more efficient, keep costs down; Second, colleges should provide the public with more and better information.

Sharing more consumer-oriented information on costs and prices long overdue.

Reaction

The report caused a stir in Washington. It was well written and engaging. Painfully honest and prescriptive, it was generally accepted as one of the most comprehensive studies ever written on this issue. It was factual and extensive. At times critical of financial aid restrictions and the academy as well, it pointed out how complex America’s higher education system really is—a system that has served millions and one that would suffer were restrictive governmental mandates imposed.

Desired to be analyzed and discussed by many constituencies, for years, it had an immediacy in Washington.

Congressman Gougly mirrored the feelings of many on Capitol Hill when he told HBO that he is determined “to curb soaring tuition increases.” He stated further, “It’s plain and simple: it costs too much to go to college. While Congress and the Administration can take steps to help higher education institutions contain costs, this issue is primarily in the hands of colleges and universities administrators.”

Congressman McKeon quoted Gougly in recommending that colleges reduce their efforts to contain and cut costs. Secondly, the academic community must provide the leadership required to develop better consumer information.

Dr. William Trout, the Commission’s chairman and president of Belmont University, told HBO that he and other Commission members were very pleased with the broad
based support the report received.
Congressional sponsors, both Democrats and Republicans, Secretary of Education Richard Riley, and the national education associations all responded positively. Clearly there was work to be done and specific recommendations appeared throughout the report. He noted that the necessary data were not readily available at most institutions: "College costs are far too opaque: there is a need for fiscal transparency and cost containment."

Dr. George Walder, a Commission member and president of York College of Pennsylvania, noted that colleges, even those very efficient ones, must do more. He said all could benefit from an "efficiency review" that could be done by locally appointed task forces made up of parents, students, and community members as well as college faculty and staff.

NACU, the Washington-based independent college association, called the report "sobering news." Its president told HO, "Hundreds of private colleges are already cutting costs, reorganizing, downsizing, and finding new sources of revenue. At the same time, they are increasing the amount of student aid earmarked for low-and middle-income students."

"However, there is still much progress to be made. Institutions nationwide must continue improving the efficiency of their operations while maintaining the integrity of their academic programs."

Ikenberry told HO that given its importance. ACE had decided, in collaboration with OREX, to publish the entire report. Ikenberry also characterized the report as "fair and balanced."

It addressed "an incredibly complex issue and did so in a credible fashion even though they only had 120 days to complete the task."

He further noted that many colleges had for the past 15 years studied their pricing policies and actual annual reports on cost increases and to suggest which burdensome federal regulations might be eliminated to cut unnecessary costs to colleges universities.

At this writing, a year after the report's release, the tuition topic is still hot. Politicians are continuing to pursue it: pressure from students and parents continues to grow. Colleges are being defensive, trying to explain the side of the story, and indeed, there has been a barrage of explanations emanating from many a college explaining its costs, why tuition is at its present level. And it is not all public relations. They do have a point. Higher

December. Secretary Riley asked colleges and universities not to automatically raise tuition fees or cut back on scholarships now that Hope Scholarship money is available to virtually all. Riley said that colleges should keep tuition increases to the cost of living.

Here in Virginia, tuition is decidedly a political issue this year. In the late '80s, under Democratic Governor Douglas Wilder, tuition in Virginia's public institutions increased at a double-digit pace, 12 to 15 percent per year. Republican George Allen ran for governor in 1993, promising to hold down tuition increase. He was elected and did so. Now, given the good times, high tax collections, and such, the Democrats in the legislature are pressing for a tuition reduction. It is rumored that Governor Jim Gilmore, a Republican, is going to steal the issue and announce it as one of his goals for 1999.

The Commission report might not have been intended to be a Pandora's Box—but its effect will be far-reaching and hopefully beneficial to all.

As much as they saved, as careful as they had been, most parents were not prepared for double-digit annual tuition increases. Neither were students trying to work their way through college.

Dr. Stanley O. Ikenberry, American Council on Education, Washington, D.C.
Clinton's Record in Higher Education

Long Term Lobbyist Shares Views

by Adalyn Hixson

Something about Lyndon Johnson always made me feel he sincerely cared about giving poor people a shot at the American dream. Johnson, it seemed to me, actually acknowledged that minorities existed, a rarity among politicians of his generation and region. No other 20th century president struck me quite that way until Clinton came along.

While governor, Clinton played a key role in a national conference of governors called by President George Bush to address education problems. One result was Goals 2000, a program of priorities aimed at raising standards, a program emphasizing basics such as reading and math. But Goals 2000 languished for five years, unsupported by significant funding, until Clinton's election. Early in his presidency, he signed Goals 2000 into law.

Frances C. Fowler, writing in 1995 about federal educational policy, cited economic growth, community, and equality as the policy values most emphasized by Clinton, calling it a change from the conservative emphasis on efficiency and liberty, and from the emphasis in the 1960s on equality.

In 1996, President Clinton appointed a 25-member White House Initiative on Education Excellence for Hispanic Americans with five research priorities covering considerable territory, ranging from improved access and dropout prevention to school finance reform.

Last month, on the eve of the Clinton impeachment vote, HNO spoke with career lobbyist Terry Hartle, senior vice president of the American Council on Education (ACE), about the president and his record on higher education.

Transforming Power of Education

"I think Bill Clinton is unusual among American presidents in two respects," said Hartle. "One, he understands at a deeply personal level the transforming power of higher education. Bill Clinton grew up in lower-middle-class circumstances in Arkansas, and access to world class higher education fundamentally changed his life. I think that at a gut level, the president understands that in a way that most politicians do not."

"Two, President Clinton... came into office having had extensive experience in education policy as a result of his efforts in Arkansas, particularly in elementary and secondary education. President Clinton had been a leader among governors. He had proven himself willing to tangle with the teachers' unions in an effort to pursue what he thought was good public policy."

Early Challenges

From the beginning, said Hartle, access to higher education was a matter of considerable concern to Clinton. But his administration faced two political problems immediately. First, it had to reduce the cost of student loan defaults. Second, it faced a huge shortfall in the Pell funds.

"Recall that the economy was in a recession and that means more people go to college," said Hartle. "Access to higher education tends to be counter-cyclical."

Because Pell is a quasi-entitlement, all financially eligible students receive their grants. But the cost far exceeded the appropriations passed by Congress in '91 and '92, and Clinton had to pay off more than a billion dollars in Pell Grant debts accumulated during the Bush administration.

President Clinton moved very quickly too, said Hartle, to propose a major change in the federal student aid programs. "Historically, the feds have paid a subsidy to banks to make loans to financially needy undergraduates. President Clinton proposed to replace the bank-based program and have the federal government make the loan directly."

Congress was unwilling to go that far, he said, and wound up creating two loan programs on separate tracks—one bank-based, one government-based. Clinton's administration thus had to pay off the Pell debts, implement the bank-based program, and implement an entirely new student loan program all at the same time.

Preserving Student Aid

In 1995, "a newly-elected Republican Congress had iden a large number of possible cuts in federal spending, including reductions in federal student aid told HNO."

"The Clinton administration indicated early on that they would fight to defend access to higher education." In February, CI delivered what Hartle called a strong defense of federal student assistance at the meeting in San Francisco.

'97 and '98

"The president led the effort to lower the interest on federally-serviced student loans...and was active in the effort to expand the modest grant program for HSIs (HCl Served Institutions), said I
And the president led the effort to establish what is called the Gear Up Program, an early information and awareness program for low income and minority youngsters about higher education," Gear Up has been funded and will start this year, Harlctold HO.

The default rate has dropped dramatically on federal student loans—a clear success for the administration. It is the sort of thing that never gets headlines because it is the nitty gritty nuts and bolts work of government.

"The Pell Grant Program loans have been paid off, Harlctold. "The Pell Grant maximum has increased significantly. And the visibility and importance of the Pell Grant Program has grown during this administrations tenure."

Direct Loan Program

The Direct Loan program, said Harlctold, didn’t replace the bank-based program, as the administration had anticipated, and hasn’t grown as large as the administration suggested it would, "but the federal government is now far and away the largest lender of student loans in the country, and despite occasional glitches, the program works."

Moreover, said Harlctold, the creation of direct lending stimulated an enormous improvement in the quality of services available to students and schools under the bank-based program. "Competition works, and banks improved the quality of their service and the nature of their product because they wanted to continue to attract customers. Direct lending is a considerable success.

Income-Contingent Student Loan Payments

Harlctold noted that when the Clinton administration created Direct Lending in 1993, it also created an income-contingent student loan repayment program—an idea that had been talked about in scholarly and analytic circles for two decades. Indeed, it was first discussed by Milton Friedman in 1962.

President Clinton managed to put it in place in 1993, thirty years later.

"Thus far, Harlctold, a relatively small number of students have taken advantage of it, thus it is not yet as popular as anticipated, "but it is nonetheless an option."

"With income-contingent payment fluctuations depending on income the preceding year. It is a clear idea analytically. It is a very, very complicated thing to put in place administratively—like going to an adjustable rate mortgage where the variables are not just the interest rate but also your income."

Tax Credits

In 1996, Clinton proposed the HOPE tax credit and what became the Lifetime Learning tax credit. Congress enacted both in 1997.

"Ultimately these tax credits have worked as the administration wanted, " said Harlctold. "Put money in the hands of middle class voters. The higher education community has always wished that some of that money would have been put in the hands of low income students, but that was simply never in the administrations plan."

98 HEA Amendments

"The Higher Education Act amendments of 1998 are by and large a very good piece of legislation," Harlctold. "Most notably, the formula used to calculate the interest rate of federal student loans has been changed in a way that has lowered the interest rate charged to new borrowers by three quarters of one percent.

"This is the lowest level of student loan interest rate in two decades.

"The interest rate fell for multiple reasons, but at the top of the list is the strong position the administration staked out on this issue early in 1997—we think the interest rate can go down this far."

"Congress didn’t want to go that far, but with the administrations aggressive position on interest. Congress lowered it more than they would have. To me a lobbyist. I want the students to have the best possible interest rate, and that is what happened."

As noted in some but not all media coverage of the HEA debate, the American taxpayer is picking up the tab for the reduced rate. not the banks, an outcome opposed by The American Association of University Professors, which had stated: "We have expressed a preference for direct subsidies to students over supports for the profit margin of the banking industry."

Americorps

HO asked Harlctold about Americorps—Clinton’s program, launched in 1993, in which young people receive minimum wages for working on community projects for up to two years and are given a voucher of about $5,000 a year toward educational expenses. IBM economists reported that Americorps yields benefits of $160 to $2,000 for every dollar invested in it, but the program has not received Republican support.

"Americorps is a go," said Harlctold. "We have never seen it as a student aid program, but it is very beneficial in some ways."

Criticism of Pell Growth

"If there is a criticism of the administrations presence, it is that the federal Pell Grant program has not grown as rapidly as advocates would like," said Harlctold. "The political system favors the middle class and it does not do all that it should for the financially needs among us, and so people like me and others would very much wish that the Pell Grant program would have gone up more rapidly than it has."

"A lot of the credit for the boost in student aid spending has to go to the Republican Congress. In 1995 the Republican Congress recommended draconian cuts in student aid. In ’96, ’97, and ’98, the Republican Congress proved very supportive of federal student aid."

"I think this happened for two reasons. First, the democrats process worked. that is, in 1998 when the Republicans were talking about cutting student aid, they were hearing from a lot of voters. This is important for me—this is something we want the federal government to do. They shifted their position. The shifted their response."

"The second thing that happened is that the design of the student aid program has some intuitive appeal to Republicans. The Pell Grant program is a voucher. It put the money in the hands of the student. The student decides how to use it. This is the model that Republicans would like to use at the elementary and secondary level."

"Because they like it there, they were generous in terms of the Pell Grant program. In each of the last three years, they have put more money into the Pell Grant program than Clinton requested."

"Republicans also like the work study program that involves working your way through college. They also have funded that program generously."

Bipartisan Support

"Both the Democrats and the Republicans have been very committed to federal student aid. Harlctold HO. "Federal student aid has done better with a Democrat President and a Republican Congress than it has with Democratic President and Republican Congress."

"The one thing I would simply say is that I am not a Republican, I am Democrat—the Republicans deserve enormous credit for reassessing the position on student aid and for putting significant resources into it. The higher education community has been fortunate to have people like Josh Porters of Illinois. Buck McKeon, ..."
California. Bill Goodling from Pennsylvania, and Arlen Specter from Pennsylvania in leadership positions.

HQ asked Harlce about the performance of Hispanics in Congress.

"Well, there aren't very many," said Harlce. "But Henry Bonilla of Texas has been a very strong advocate of the TRIO Program. Henry Bonilla was a TRIO participant and he, like Bill Clinton, knows first hand how education and access to high quality education can transform lives. Ultimately, we come back to the fact that it comes down to individuals.

"The Clinton administration came in with a traditional Democratic commitment, but Clinton, I think, was absolutely decisive," said Harlce.

Affirmative Action

One of the amendments of particular concern to the higher education community when the HEA was being debated in '98, said Harlce, was the proposal from Frank Rigger of California, to eliminate affirmative action.

"The administration opposed it very, very vigorously and it was decisively rejected. So in addition to appropriations support and policy initiatives such as the expansion of funding for the HSIAs, Hispanic Serving Institutions, and the lowering of interest rates on student loans, you also have to give the administration very strong credit for its willingness to defend affirmative action.

"We face a grave situation with respect to affirmative action because the legal cases are going the wrong way pretty consistently. But I think that the Clinton administration, thanks to its leadership and the hard work of the education community—has made sure the repealing of affirmative action will not succeed at the federal level. That national legislation will not eliminate affirmative action through the political process.

All Not Rosy

Asked about Clinton's interest in national standards, Harlce said: "I didn't want to impose anything is ross with the administration. There were several efforts to expand the regulator reach of the Department of Education into the academic affairs of colleges and universities that we opposed vigorously. We were ready to kill them."

"In '92, '93, '94, a new administration was moving aggressively. In some of the areas, they implemented too aggressively and overstepped the traditional authority of the federal government in a way that threatened the academic autonomy of colleges and universities. Big and small, public and private. HBCUs and HSIs and white institutions—maintaining academic autonomy of the institution, especially with regard to the federal government, is critical. They overreached regularly."

HQ mentioned the headline-grabbing conflicts last year involving New York's state and city university systems. Mayor Giuliani and opponents of Governor Pataki.

"The dynamic between state governments and public colleges," Harlce responded, "is different than the dynamic between the federal government and public and private colleges. The state governments do have a case that they have some control over public colleges and universities. New York's public colleges and universities are creatures of the New York government."

But, he added, "academic freedom is a bedrock principle of ACE. There is no rationale, there is no history, and there is no principle involved in the federal government's truage to control what goes on in the classroom or what goes wrong in the classroom, but in keeping the federal government out of the classroom."

Under the Clinton administration, the DOL got a little too close to a bedrock principle. We tossed with them several times very vigorously in this regard, even considered suing them. That became unnecessary."

Helping the Disadvantaged

"Many of my colleagues would say [Clinton and his administration] simply have not done enough for low income citizens, for those who don't have access to higher education. They could have done more, but they have made a huge difference."

HQ mentions a study showing that the U.S. now leads the industrialized world in the disparities between rich and poor. And that poor children in the U.S. have a lower standard of living than poor children in fifteen other industrialized nations.

"If we look, says Harlce, the analytic case is very clear about who goes into higher education. Low income individuals are badly underrepresented in higher education. Low income individuals, relative to more well-heeled persons, are much less likely to be prepared to succeed in higher education. They don't take the courses that prepare them."

"The analytic evidence is unambiguous. We need to put more resources into the hands of low income and minority individuals."

"But the fact of life at the end of the 20th century in American politics is that the middle class holds the whip hand. Income disparities in the United States have grown more acute over the last twenty years. That's not something that just happened in the Clinton administration. You can look at the income disparities and at the growing gap between the most well to do and the least well to do."

Asked why he uses the phrase middle class instead of upper class, Harlce says: "Because there is no telling where some people would draw the line between the middle and upper class."

"Asked who is pushing for the lower class," he says, "The challenge for advocates has always been to work in the political environment—that is a given—and to ensure that we do all we can to help the lowest income individuals. So therefore I am very pleased with the Pell Grant increases, and the enormous growth in the TRIO programs. It should be more. I wish there were more. But we've done OK. The challenge that we are facing today is to hold on to that over the next couple of years."

Harlce and people like him, he says, are very worried about what's in the president's budget report which comes out February 3. Despite the fact that we've had a very good two year period in Washington, people like me are working late on Friday nights late to see if we can increase federal support for Pell and TRIO focused on lowest income citizens.

"We're fighting. I've had years when we haven't done anywhere near this well."

The Big Picture

"The Department of Education is moving more smoothly than it was. The quality of student loans has improved, the cost to taxpayers of student loans has fallen. The maximum Pell Grant has increased considerably for millions of middle class families. That is the big picture," Harlce told HQ.

"So far this administration has a very strong record in higher education. The higher education lobby in Washington is very deeply concerned about what we see in the president's FY 2000 budget and whether the president's commitment to higher education will continue. Information we have been getting leads us to be deeply concerned."

Bill Clinton has made a very big difference in the framework of education policy—a very significant and positive difference."

676
REGARDING HISPANICS

The following excerpts from 110's Outlook on Washington columns highlight some of the proposals, progress, and stances in the Hispanic struggle for educational equity under the Clinton administration.

9/15/95 Getting Up to Date
Republican efforts to merge or eliminate the U.S. Department of Education have been thwarted.

9/29/96 National Round-up
The House Appropriations Committee had approved more than $59 billion in cuts to the education budget and $10 billion in cuts to student loan programs. The proposal included reducing funding for bilingual education by $100 million. President Clinton was threatening to veto the legislation unless funding was increased.

"This short-sighted and politically motivated action sacrifices our children's future for a tax break for the wealthy," said Education Secretary Richard A. Riley.

10/27/95 States Might Lose with Block Grants
Republican Congress was using block grants to return control of social programs, including education, to the states. But the grants are controversial in Washington and across the country.

"The purpose of the federal government's role in education is consistency and equity in the treatment of children," asserts Margaret Hovos, a government relations specialist for the Washington, D.C.-based NEA. "Some states do a good job of taking care of their children, and others don't."

6/21/96 Counting on Cooperation
The case before the Supreme Court rose from a decision by Bush administration Commerce Secretary Robert A. Mosbacher not to adjust the 1990 population count after Commerce's Bureau of Census acknowledged that a disproportionate number of Blacks and Hispanics had been undercounted. An estimated 4.8 percent of the Black population and 52 percent of the Hispanic population were missed in the 1990 count.

8/30/96 Commission Calls...
President Clinton's Advisory Commission's recommendations include: strengthening its office support; actively cultivating preschool education for Hispanic Americans; empowering all teachers to deal effectively with multicultural populations; monitoring student progress K-12; and beyond to decrease school drop-outs and postsecondary attrition.

Former Chairman Raul Yzaguirre resigned in April in frustration and anger, saying that the commission would be unable to rise above the bureaucratic morass and partisan politics to deliver a substantive and independent report.

11/22/96 Financial Aid Spared Cutting Block
One of the biggest winners was the federal work-study program which received a nearly $200 million increase in funding. "The combination of the President making student aid increases a priority and the public's disenchantment with the Republican attempts to cut aid was ideal," said Becky Timmons, director for congressional relations with the American Council of Education.

2/21/97 Coming Season in Congress
The federal government has been turning to loans as a way to provide aid to students, shrinking the amount of federal grant money. Borrowing via student loans rose to $27 billion in 1996 from $16 billion in 1992. Of about $35 billion that the government spends each year on students aid, 90 percent goes to loans and only 30 percent in grants.

7/25/97 Nation at Risk.....
In Texas, 41 percent of Hispanic students read at a "basic or above" level on the NAEP. Only 22 percent of the Hispanic students in California scored at that level.

Are Latino students in Texas that much smarter? Of course not. A bar graph...clarified the issue. In Texas, 90 percent of the teachers had fewer than 25 children, ranking it number two in the U.S., right behind Oklahoma. By contrast, 9 percent of the teachers in California had class sizes under 25, the worst percentage in the entire nation.

8/22/97 Technology and Education
"We know, purely and simply, that every single child must have access to a computer, must understand it, must have access to good software and good teachers to the Internet, so that every person will have the opportunity to make the most of his or her life," President Clinton.

9/5/95 A Sea Change in Admissions
While the nation, led by Texas and California, has begun to dismantle affirmative action in higher education and other segments of society, Washington remains home to a president whose official stance on this issue coheres around the slogan: "Mend it. Don't end it." Champions of affirmative action have found in Clinton a sympathetic, if at times wavering, voice.

The issue is upon us, and hundreds of thousands of Hispanics await opportunities long denied past generations.

10/17/97 Budget, Higher Education & Hispanics
"...the heart of this balanced-budget agreement is its historic commitment to education—the most significant increase in education funding in 30 years," President Clinton.

"This budget meets my goal of making education America's number one priority on the edge of the 21st century," President Clinton.

Few can disagree with that assessment. On the question of its fairness to low-income Hispanics, many would disagree. The battle to pass the budget is over, but the war to ensure equal educational opportunity in high education continues.

10/31/97 Tomorrow's Teachers
Clinton has clearly identified education as a major concern during his second term in office. The $350 million initiative to attract talented people from all background into teaching at low income schools across the nation is yet another indication of his determination to provide education opportunities to all.

12/26/97 Tackling Dropouts
Yet the record shows that proportionately, Hispanics have been well served by TRIO.

7/17/98 Offering High Hopes to All
Dubbed the "High Hopes" initiative, it would encourage children to believe that going to college is not a distant dream or a thing others do.

The President's budget calls for $140 million investment in "High Hopes" partnerships in 1999.

8/14/98 A Turning Point in Dropout Prevention
The administration intends to provide in 1998: $47.8 million grants to states and municipalities to boost skills of 630,000 Hispanic students and others lacking English skills; $150 million to local education agencies to train 500,000 immigrant children and youth; $305 million toward education of migrant workers; $18 million in higher education institutions and local agencies to train 2,000 teachers in ESL or bilingual education.

The administration proposes for fiscal year 1999 some $62 million in Pell Grants...to benefit more than 500,000 Hispanics.
The Consummate Student

Faculty Profile: Luis Gómez, University of Michigan

Some of his colleagues talk about his aura. Others call it his mystique. Buddhist studies professor Luis Gómez is something of a legend in his field. His ability to do scholarly work in six Asian languages (Sanskrit, Japanese, Chinese, Tibetan, Pali, and early vernacular Indic languages) is intimidating to scholars who've struggled to master one or two languages--especially when they find that he learned several of them on his own. The fact that he also knows Latin, German, French, Italian, and, of course, his mother-tongue Spanish, makes him seem even more imposing.

Gómez's linguistic ability has enabled him to analyze texts and do comparative studies over the entire spectrum of the Buddhist tradition. While most scholars of Buddhism specialize in a single geographic area, such as East Asia or South Asia, and a language or two from that area, Gómez covers them all. Experts in Indian Buddhism consult with him as do experts in Japanese Buddhism. "The range of his knowledge is astounding," observes Ralph Williams, chair of Michigan's Program on Studies in Religion, who points out that Gómez also is familiar with Western religious traditions "in a wonderfully detailed and precise way. He has a habit of mind and discernment which is never pedantic, but always fresh," Williams says.

While Gómez's training in philology is reminiscent of that of 19th- and early 20th-century scholars, he doesn't have the methodological conservatism that one would associate with them," observed U-M colleague Donald López, who specializes in Tibetan Buddhism. "He's very innovative."

Gómez's opus magnum thus far is a translation and comparative annotation of two Buddhist texts from Chinese and Sanskrit. The Sukhāvatīyavrah Patterson, texts describing the "Land of Bliss," or paradise of the Amitabha Buddha, are found in long and short versions in both Sanskrit and Chinese.

Gómez brings to his teaching and scholarship perspectives from a stunning spectrum of historical, cultural, and philosophical traditions. His lectures are rich in insights from art history, anthropology, and psychology, from visits to museums and religious pilgrimage sites, from opera or theater performances, and from conversations with his three-year-old grandson, Andrew.

Despite his intimidating academic credentials, Luis Gómez is an unimposing, gentle man whose initial polite reserve bubbles into enthusiasm as soon as he becomes engaged with an idea. He enjoys relating his encounter at a famous Buddhist pilgrimage site with an Indian tour guide who narrated in vivid color the story of the Buddha's attainment of enlightenment, pointing out the exact spot where the Buddha is supposed to have sat, along with other details. And just about everyone who has taken a course with Gómez knows about "Bharati's pizza effect" on Buddhist practice. That is, just as Americanized pizza has influenced the pizza now being eaten in some places in Tibet, so has North American Buddhism influenced Buddhist practice in some places in Asia.

"He has a way of generating excitement about what he teaches," says Robert Sharf, a formal doctoral student who is now one of Gómez's colleagues in the Buddhist Studies program at Michigan. "While he is a demanding taskmaster, he is also a compassionate human being."

"He's the consummate student," says Harvard's Charles Hallsey, who feels that the power of Gómez's scholarship lies in his eagerness to learn.

While it's common for an academic to excel in one of three areas--teaching, research, or administration--Gómez has excelled in all three, notes Don López. He holds positions in the Department of Asian Languages and Cultures as well as in the Program on Studies in Religion and the Department of Psychology, and he has created literally dozens of courses. A small sampling of his undergraduate courses includes Mystical Literature of Spain and India, Gender and Spirituality, Psychology and Religion, and Geographies of Death, as well as...
more basic introductory area courses in Buddhism. He also taught several courses with the late Ron Krapaport, a U-M anthropologist widely renowned for his work on religious meaning and ritual.

Gómez is also responsible for building, single-handedly, Michigan's graduate program in Buddhist Studies. Graduate courses have ranged from Theories and Controversies about Religious Experience to Buddhist Ethics and Readings in Buddhist Literature in Sanskrit and Chinese.

Many now consider Michigan's Buddhist Studies program to be the best in the country, says Don López, and it is also among the most highly regarded centers for the study of Buddhism in the world. One indication of excellence in an academic program is the success of its graduates, and it is notable that Gómez's former students have done extremely well in the job market. Sharp points out that in a recent job search for a Buddhist studies position at Yale, all three candidates on the short list had earned doctorates at Michigan.

The presence of Gómez and López in the same program is a source of both amusement and confusion, López notes. Some scholars have nicknamed it the "Gómez program," and the two Buddhologists with Hispanic surnames are often mistaken for one another and frequently receive mail discussing the other's work. López recalls a letter that arrived at the Department of Asian Languages and Cultures addressed to "Luis López." Unsure of whom it was for, they asked the secretary, Karen Munson, to open it and read it aloud. Even after hearing it read, no one could really say who the intended recipient had been.

Luis Gómez isn't content, however, to just sit back and be a Buddhologist. He is now completing a second doctoral degree in clinical psychology. His dissertation is an empirical study of the cognitive style of obsessive-compulsive persons. The spill-over from Buddhist studies into psychology isn't surprising in the light of Buddhism's emphasis on mental awareness and Gómez's interest in adding a social science dimension to his teaching interests.

His interests in psychology are multifaceted. One interest, not surprisingly, given his background in religious studies, involves ideas of psychological constructions of reality. "Some of the extremes in our notions of reality show the fragility of our grasp of reality," he explains. "Certain elements of reality construction in religion can be seen as deception or as creative imagination—it depends on what your personal inclinations are.

Another interest is the psychology of ritual, an area where Gómez has done research and teaching relevant to the study of religion. "I'm interested in the fact that you can have a number of rituals that are adaptive and healthy as well as rituals that are pathological," he explains.

A third focus is the development of notions of religion in individuals at various points in their life. "How do children acquire notions of religion, and how might those conceptions change in adolescence or in the aging process?"

Gómez's study of psychology has affected the way he teaches his courses in religious studies. He explains that he used to look at the biography of the Buddha as doctrine or as a philosophical statement about the nature of things. Now he looks at it often as a myth of human development, as confrontation with death, and transition from an adolescent view of death to a mature view of death.

If you ask Gómez how his career choices all came about, he is likely to give you a choice of answers. First, there's the Zen teacher's response: "It just happened! This is the one he prefers, he'll tell you, with his characteristic one-sided grin and quiet little laugh." This is the intuitive side of him, arguing that things don't necessarily happen in a rational, logical way.

The other is the psychologists' response, which begins with his childhood in Guaynavia, Puerto Rico. Growing up in a household that wasn't particularly religious, Gómez found going to church with aunts and uncles a special treat and became fascinated with religious ideas. "When I was about five, I got into comic books and with diverse cross-cultural experiences. A great-aunt, who was one of the pioneering faculty at the University of Puerto Rico, gave him books for every birthday and Epiphany, which, instead of Christmas, was celebrated with gift-giving. Of one of Gómez's favorites from that group was a volume on psychology.

The son of a physician, Gómez lived in places as diverse as Peru, Illinois, and Mexico City, Mexico, while his father was a medical student and intern. When he returned to Puerto Rico, he realized that aspects of Mexican culture had rubbed off on him, including a Mexican accent that his Puerto Rican classmates found amusing.

Gómez credits a high school Spanish teacher in Puerto Rico with opening up worlds of ideas to him. "She was what I'd call an ideal teacher," he says. "She wrote poetry and really believed that all human cultural productions are of interest, even if they are different from what we are used to." Students in her classes read selections from world literature, including the writings of Confucius and the Indian epic Ramayana.

When he entered the University of Puerto Rico at 16, Gómez hoped to major in philosophy and foreign languages. He recalls eagerly asking his philosophy professor when they were going to study Indian philosophy. "That's not philosophy, he was told. He headed for the library immediately after class because I knew that wasn't true."

After graduating in 1965, Gómez married Ruth Maldonado, whom he calls his best friend, and who now has a high school Spanish teach. That same year he began working on a Ph.D. in Buddhist studies at Yale. He finished in only four years in part to a response to the responsibilities of supporting his young family, which by then included three-year-old son. After a year at the University of Washington, a year in Asia, and four years at the University of Puerto Rico, where he was chair of the Department of Philosophy, he began teaching at the University of Michigan in 1979. Though only in his mid-50s, he has been regarded as a senior scholar in Buddhist studies for 20 years.

Gómez's achievements haven't gone unnoticed at Michigan. Since 1986, he has held the Charles Hucker Professorship. The college offered him the honorary post as support for an additional position in the Buddhist Studies program established in the early 80s at Stanford. When Stanford launched a "star-wars" effort to lure him away, he was one of five faculty members named by Arthur Thurnau Professorship, awarded for outstanding contributions to undergraduate teaching. Thurnau Professorships extend for three years and include a grant to support teaching activities. The previous year, he received a John H. D'Arms Faculty Award for Distinguished Gradui Mensening in the Humanities.

In his free time, Gómez loves to go to museums, the opera, the theater, and Disney films. Lately, he has been teaming up for these activities with his grandson, which allows him to see many things in a who new light. He often shares with his classes insights gleaned from the time together on "Andy-days which have become a regular part of his routine."

Romney Breerton earned a PhD in Asian Languages and Cultures at the U-M. He is the author of Thai Telling and Phra Malai.
Yale Divinity School Honors Ayala

Erickson A. Ayala is serving as a Coffin- Forsberg Fellow at the Yale Divinity School (Conn.) for the 1998-99 academic year. Having been elected by the Divinity School General Faculty, Ayala and four others were honored at a November installation ceremony.

Ayala is a substance abuse counselor for an outpatient treatment services group. He has a decade of commitment and service to those struggling with the demons of alcohol and drug addiction. His work has led him to serve populations in New Haven, Conn., such as the homeless and those with AIDS, as well as to undertake prevention work with Latino children. He has been described as a person who gives first priority to helping his clients recover from addiction and start living productive lives.

The other four Fellows honored were Rabbi Herbert Brockman, Elsie Gofield, Andrea Cole, and the Rev. Dr. Edwin R. Edmonds.

Sister Dianna Ortiz Speaks at Ramapo

In 1989, Ortiz, an Ursuline nun originally from New Mexico, was kidnapped in Antigua, Guatemala, taken to a secret prison in Guatemala City, and tortured by the Guatemalan military. Since then, she has sought the release of information from the Guatemalan and United States governments, and worked to end torture and bring those responsible to justice.

Reyes Elected Treasurer of National Hispanic Bar Association

Karen Reyes, a second-year law student at St. Mary’s University, in San Antonio, Texas, was elected treasurer of the law student division of the National Hispanic Bar Association at its convention held in Albuquerque, N.M.

Reyes and nine other St. Mary’s law students represented the largest group from across the country at the convention.

A native of San Antonio, Reyes is treasurer of the Hispanic Law Students Association at St. Mary’s. She works at the Immigration Clinic at the Center for Legal and Social Justice on campus, and participates in public interest work such as the VITA tax program, helping poor people in the Laredo area file tax returns.

Macias New UCLA Chicano/o Studies Chair

Reynaldo F. Macias has been named chair of the University of California-Los Angeles (UCLA) Cesar Chavez Center for Interdisciplinary Instruction in Chicana and Chicano Studies. Macias specializes in bilingual education and policy analysis, intercultural language demography, teacher preparation, and multicultural curriculum issues.

Macias has written several books and authored hundreds of articles on Chicanos in higher education, bilingualism, language minorities, and the changing demographics in schools.

Among his many goals at UCLA are to incorporate community service and applied research into the Chicano studies curriculum—through internships, learning experiences, student-initiated programs, and education abroad programs.

He earned a bachelor’s degree and master’s at UCLA. He also received a master’s and a doctorate at Georgetown University.

As an undergraduate at UCLA in the late 1960s, he was part of a student group that helped develop the Chicano Studies Research Center and the interdepartmental Program in Chicana and Chicanos studies.

Cabrera Speaks to Hispanics at Garden City

A youth motivator who served as one of six keynote speakers at last October’s United States Hispanic Leadership Conference in Chicago, came to Garden City, Kan., to address high school students from throughout Western Kansas.

Jimmy Cabrera, who talks about values, self-discipline, and cultural awareness, was the keynote speaker at the 1998 Hispanic Student Day at Garden City Community College (GCCC).

Ruiz Awarded National Humanities Medal

President William J. Clinton and First Lady Hillary Rodham Clinton awarded the 1998 National Humanities Medal to Ramon Eduardo Ruiz and eight other distinguished Americans at a special ceremony on the South Lawn of the White House in November.
The National Humanities Medal honors individuals or groups whose work has deepened the nation's understanding of the humanities, broadened citizens' engagement with the humanities, or helped preserve and expand Americans' access to important humanities resources. The humanities are areas of study such as history, literature, philosophy, and language that form the record of human cultural heritage.

Ruiz, an emeritus professor at the University of California-San Diego, is a distinguished historian of Hispanic America. Author of a dozen books and numerous articles, he has written on multiple aspects of Mexico's history and on the two most important upheavals in Hispanic America, the Cuban and Mexican revolutions. These studies are now reference works.

**UNM's Fernández Wins Government Buyer Honor**

Chris D. Fernández, a buyer in the University of New Mexico (UNM) Purchasing Department, was honored as one of the “1998 Government Buyers of the Year” by the Rio Grande Minority Purchasing Council, Inc. in November.

A letter from the Council's Executive Director, Elinor B. Ochoa, informed Fernández that he was selected because of his “advocacy of small business within the UNM purchasing organization is truly extraordinary. From your participation in our Council to your community involvement, you carry the message that doing business with small business is good business.”

Ochoa further cited Fernández and UNM for “playing an active role in the economic development of our local minority and women-owned businesses.”

The Council is a 22-year-old nonprofit organization that specializes in developing commerce between minority or women-owned businesses and corporate and government entities.

**UNM’s Cyrino Awarded for Teaching Excellence**

The American Philological Association (APA) recently honored Mónica Cyrino, an assistant professor of Classics in the University of New Mexico (UNM) Department of Foreign Languages and Literatures, with its 1998 Excellence in Teaching Award. Each year, the APA honors three professors teaching undergraduate courses in Greek and Latin language, civilization and culture in universities and colleges in the United States and Canada. Once a staple of college curriculums, enrollments in classical courses have declined steadily since the 1960s. In order to reverse this trend, the APA created the award to encourage new and innovative approaches to the discipline.

She received a master's degree and a doctorate from Yale University.

**Peña Representing Texas A&M System**

Amado M. Peña, Jr. well-known Texas artist and Texas A&M alumus, was featured in The Texas A&M University System advertisement in the magazine Texas Monthly last November.

Texas A&M-Kingsville’s "Distinguished Alumnus” for 1997. Peña has been active in art since the fourth grade. Reportedly, after coming to Texas A&M University, now Texas A&M University-Kingsville, in 1965, Peña won the design contest for the Javelina battle flag that was adopted in the fall of 1965 and is still used today.

Peña decided to devote all his time to his art in 1980. He communicates his vision of a land, a people and their art through serigraphs, etchings, and paintings that convey his mastery of color, strong graphics, spatial relationships and form. His work is owned by collectors throughout the country as well as Mexico and China.

He earned his bachelor's and master's degrees from Texas A&M-Kingsville University.

**Torres Named to Endowed Chair**

The Johns Hopkins University (Md.) board of trustees has accepted the recommendation of university president William R. Brody that Sasha Torres, a faculty member of the Krieger School of Arts and Sciences, be appointed to an endowed chair in her field.

Appointed in July as an assistant professor in the Department of English, Torres has been named to the Second Decade Society Faculty Development Chair. She is highly regarded in her field of television and the meaning of ra in the United States.

**Cumpián, Chicano Poet and Performer, at North Park University**

Carlos Cumpián, Chicano poet and performer, read and interpreted selections from his works, Coyote San, Lati Rainbow, and Armadillo Charm, at Nor Park University in Chicago last November.

Cumpián's poetry has been published in many small press journals and numerous anthologies, including Telling Stories: A Anthology for Writers: Chaos, Creativity, at Culture: A Sampling of Chicago in the 20 Century: Real Things: An Anthology Popular Culture in America, and Haystac and Skyscrapers: An Anthology of Illino Poetry. He is editor-in-chief of MARCH/Abra Press, celebrating more than 15 years of publishing. He has led creative workshops for youth and adults at schools and libraries, and conducted seminars on Latino and Native American literature in local and nation venues. Since 1992, he has worked as adjunct instructor in the English Department at Columbia College in Chicago.

**González Among 100 Most Influential Hispanics**

U.S. Under Secretary of Agriculture I. Mil González, former associate agriculture dean, New Mexico State University, has been named among the 100 Most Influential Hispanics by Hispanic Business magazine.

González was recognized in the magazine's October 1998 issue along with successful Hispanics from around the nation such as White House Deputy Chief of St Maria Echevarría, movie star Cameron Di author Sandra Cisneros, and kellogg President Carlos Gutiérrez.

"I appreciate the honor bestowed upon me by Hispanic Business magazine. My commitment to strengthen our country's agricultural research and education portfolio is strong. It is imperative that our country attract young people, particularly from groups that are underrepresented in agricultural and natural resource sciences.
meet the demands of a workforce for a global marketplace,” González said.

He earned a bachelor’s degree and a master’s from the University of Arizona and a doctorate from Pennsylvania State University.

**MCC’s Dowdy Named Teacher of the Year**

Elizabeth Vargas Dowdy, associate professor of English, reading, and foreign languages at Manatee Community College (MCC) in Florida was selected “Teacher of the Year” by the Florida Foreign Language Instructors in Community Colleges at the Florida Foreign Language Association conference held in Tampa in October.

Dowdy was also one of 78 from among 600 applicants nationwide to receive a $5,000 scholarship award from the American Association of University Women.

Working in the Manatee County school system, she became one of the first to teach English for speakers of other languages. As an instructor at MCC, she founded and served as faculty advisor for the Hispanic-American Organization and helped develop a mentor program for migrant students.

She has a master’s degree from the University of South Florida and is pursuing a doctorate at the University of Sarasota.

**Scambia Developing Program Curriculum for IEP**

Dr. Elena J. Scambia has joined Innovative Educational Programs (IEP) as Vice President for Curriculum and Instructional Services. Scambia has been a consultant to IEP since its official launch in 1997.

She is responsible for development of curriculum in all program areas for IEP.

IEP is a new venture that provides creative approaches to partnerships with school districts and communities in the development of customized programs for early childhood education; special education; alternative education, including option, magnet, and charter schools; and programs for at-risk youth and adults in the correctional systems.

“-going into the next century, our schools need to be more creative,” said Scambia. “Public/private partnerships offer far-reaching opportunities to prepare students at every level and in every situation for the world of tomorrow in a more cost-effective and comprehensive manner.”

**Senior Health Forum at UT Pan American**

The University of Texas-Pan American (UTPA) Center on Aging and Health, in collaboration with the National Hispanic Council on Aging and Anacito del Valle, hosted a two-day community forum titled “A Voice for Hispanic Seniors in the Health Care Debate.”

According to Armando G. Domínguez, forum coordinator and research assistant for the UTPA Center on Aging and Health, the forum was designed to provide information about important health care issues through speakers, exhibits, and workshops.

The forum offered participants an opportunity to obtain information on health care issues as well as interact with people who are concerned with improving the health and health care services for the Hispanic elderly.

**UCSB Latino Mobility/Graduation Rate Study**

The University of California-Santa Barbara study, “The Hazards of Changing Schools for California Latino Adolescents,” has found that, for California Latino teens, even one school change doubles the odds of their dropping out before completing high school.

The study focused on Latino teens and their families because Latinos are the largest and fastest growing segment of the state’s population. It showed that among Latino secondary students, 80 percent of those who made no school changes graduated from high school, compared to 63 percent who made one school change and 50 percent who made two or more.

The numbers also indicated that disciplinary problems predicted school mobility among Latino students, but not among other non-Latino white students.

And compared to non-Latino white students, research showed that almost twice as many Latino secondary students changed schools without changing residences.

**Bilingual Education Addressed at USF Forum**

Delaine Eastin, California superintendent of public instruction, addressed bilingual education issues at a University of San Francisco (USF) presidential forum last November.

Panel respondents were Dr. Alma Flor Ada (picted here), USF professor of international and multicultural education; Dr. Rosa Apodaca, San Francisco Unified School District assistant superintendent; Marian Joseph, member of the State Board of Education; and Dr. Yehudi Webster, associate professor of sociology, Cal State-Los Angeles.

**Spelman Symposium on Black Christ Statues**

Spelman College (Ga.) recently hosted a multidisciplinary international symposium addressing the presence of black Christ figures and statues found in South America.

“Our perception of Jesus Christ has been constructed in large part by images created by the great masters of the Italian Renaissance, and more recently, Hollywood.”
Loyola Marymount Mexican American Alumni Honored

Attorneys Raúl Francisco Salinas and the Parking Company of America (PCA)—owned and operated by the family of Alex Chaves, Sr.—were honored last fall by the Loyola Marymount University (Calif.) Mexican American Alumni Association at its 17th annual Scholarship Benefit.

Salinas (pictured here third from left), a partner in the law firm of Alvarado, Smith, Villa & Sánchez, was honored as an alumni role model. He established the California Hispanic Corporate Council, which encourages the advancement of women and minorities to senior management positions in large public and private corporations. He is also chairman of the East LA Classic Theatre, which exposes youth to Shakespearean and other classical works.

The PCA and the Chaves family were honored for distinguished service to the community. Chaves, Sr., developed and patented an innovative collection system for daily parking operations which is now used throughout the United States. His work in a number of local, national, and international issues led to his appointment to a task force working on the North American Free Trade Agreement.

Border Rights Issues Examined at Conference

Human rights activists from 11 southern states convened at the University of Texas-San Antonio (UTSA) to examine border rights issues at the Amnesty International 1998 Southern Regional Conference, hosted by the Division of Bicultural-Bilingual Studies.

A pre-conference tour of the U.S.-Mexico border at los dos Laredos enabled participants to see aspects of life at the border first-hand. The tour included U.S. Border Patrol offices and a private jail under contract to the U.S. Immigration and Naturalization Service.

Tom Ricento, associate professor of bicultural-bilingual studies and UTSA's liaison with Amnesty International, said he hopes students can get engaged in human rights and border issues so that they can become proactive and not just read about those events in the newspaper.

Carmen Valenzuela, a Guatemalan physician who was abducted and tortured by the Guatemalan military and eventually released after an international human rights campaign, was among the featured speakers.

Symposium on Latin America at OU

James R. Jones, former United States ambassador to Mexico, headlined the first symposium on Latin America, "Nationalism in Latin America at the Crossroads of the 21st Century," at the University of Oklahoma (OU).

Other participants in the symposium included: Elena Poniatowska, distinguished Mexican journalist, essayist, and novelist; Sergio Ramírez, author and former vice president of Nicaragua; Lupe Andrade, journalist and columnist, and fellow advisor on communications and media to the president of Bolivia; Max V. Castro, senior research associate at the North-South Center at the University of Miami; and Eduardo Gamarr, professor, author, and the editor of Hemisphere: a magazine on Latin American and Caribbean affairs.

Ismael P. Márquez, OU director International and Area Studies, said the symposium was to be a unique opportunity for the university to be part of an event that will bring into focus Latin America, an area critical to the United States.

Southern Colorado's Aviña Design Holiday Logo

Maya Aviña, assistant professor of art at the University of Southern Colorado, had one logo selected for the Millennium Holiday Christmas Tree in Washington, D.C., in the year 2000.

The U.S. Forest Service has chosen a 65-foot Blue Spruce from Pike National Forest that will be transported to Washington along the Santa Trail, tying into the trail’s 150th anniversary. Aviña’s logo will be carved into the end of the trunk of the spruce and will be seen as it travels enroute to Washington visiting mini-feasts occurring in communities along the way.

Once it arrives in Washington, the tree will be placed in the D.C. Mall and will be decorated by Colorado fourth graders with 4,000 handmade ornaments and 6,000 lights.

In Florida, Impact of Treaty of Paris Examined

In November, scholars from across the globe took part in a two-day conference in Miami that examined the historical and political impact of the 1898 Treaty of Paris—the treaty that concluded the Spanish-American War, set Cuba on its path toward independence from Spain, and transferred the former Spanish colonies of Puerto Rico, the Philippines, and Guam to the United States.

The conference, co-hosted by Florida International University (FIU) and the University of Miami (UM), featured historic political scientists, and other experts on the Spanish-American War, the Treaty of Paris, and its ramifications.

According to conference co-chair Iva Aragon, assistant director of the Cuba Research Institute at FIU, conference participants were going to take a look at the results of the peace treaty and what it meant for
countries involved, with an emphasis on Cuba.

Juan Carlos Espinosa, coordinator of the UM Cuban Studies Association, said: "The Treaty of Paris sets a pattern of national frustration for Cubans, a situation where foreign powers determined the fate of the Cuban nation."

**Documentary on Cotton in NM**

Once cotton, not chile, was King of New Mexico Agriculture.

At one time more than 300,000 acres of white gold covered the sector of the state Acala 157, a brand of cotton developed in the 1930s at New Mexico A&M College (New Mexico State University.) led the way.

"Acala Gold: The Rio Grande Cotton Kingdom," is an hour-long radio documentary that explores how cotton changed the social and environmental landscape of the southern Rio Grande. It was produced by Kent Paterson of KUNM—the University of New Mexico public radio station—in both English and Spanish. It looks at the history of Acala 157, the cotton that spurred the state industry and was credited with being the parent seed of the massive California cotton business as well. Paterson also tackles rarely discussed episodes of New Mexico and West Texas history such as the 1930s farm worker strikes, the Dust Bowl migration to New Mexico, and the Bracero Program of farm labor between Mexico and the U.S. from 1942-64.

Dennis Valdés, Professor of Chicano History at the University of Minnesota, and Yolanda Leyva, Professor of History at the University of Texas-San Antonio, are among those providing commentary in the film.

**New Job Posting Web Site Announced**

DiversiLink, the Official Career Development and Job Posting Web Site of the Society of Hispanic Engineers (SHPE) has announced the availability of a new and improved Job Posting Resume Database. The new software offers increased functionalities for the job seeker and recruiter alike by integrating both components. Job seekers, with the click of a button, can now submit their resume, which they have previously stored in the database, to any number of jobs retrieved from a search result. Job seekers select a login and password at the time of resume submission, allowing them to return to the database for the purpose of updating their resumes when needed.

Since November 1996, DiversiLink (http://www.diversilink.com) has been the SHPE's medium for distributing careers-related information to the 6,000 student and 1,500 professional members nationwide. SHPE is the largest and leading Hispanic engineering organization in the country, with 35 professional chapters and 135 student chapters in many major cities and universities.

For more information on DiversiLink, contact: Pedro G. Medrano ( pictured here) President of Innovative Human Resources Solutions, (650) 962-0225.

**PVCC in International Workforce Development Partnership**

Dr. Raúl Gómez, president of Paradise Valley Community College (PVCC) in Phoenix, Arizona, has announced that PVCC is part of a new International Workforce Development Partnership that will bring together the resources and expertise of the college, the Universidad de Tecnología de Tabasco (UTTAB) in Mexico, and the Partnership for Environmental Technology Education to train environmental technicians in the Tabasco area.

The three-year agreement, funded by a grant from the American Association of Community Colleges, supports the U.S. Agency for International Development's strategic goal of protecting the world's environment for long-term sustainability by creating a qualified cadre of workers in Mexico who are knowledgeable about environmental health and safety issues and prepared to assist industries, the government, and/or others in implementing practices that will protect the environment.

Bob Ireland, the Director of Training for PVCC's Environmental Health and Safety Technology Program.

**Sol Y Canto Performs at St. Mary's**

The Pan-American folk group Sol Y Canto performed at St. Mary's College (Ind.) at a free concert.

Sol Y Canto is an exuberant Latin band headed by former members of the Boston based Flor de Cama. Built upon a framework of warm, versatile Spanish guitar and crystalline vocals, Sol Y Canto music ranges from tender ballads to driving dance tunes. In addition to fresh interpretations of traditional songs, the six-member group's repertoire includes original numbers as well.

**Acculturation Conference at USF**

How interactions between different cultural groups affect individuals' well-being and the larger society was the focus of an international conference held at the University of San Francisco (USF) last month.

The free public conference "Acculturation Advances in Theory, Measurement and Applied Research" featured leading scholars who discussed such issues as ethnic identity, mental and physical health, and risk behaviors. A goal of the conference was to analyze the significance of acculturation for African Americans, American Indians, Asian Americans, and Hispanics.

Arda Hratado, of the University of California Santa Cruz discussed "Peculiar Effects of Class and Gender on Acculturation: The Case of Chicana/o in Higher Education." Luis Gerardo Marami talked about "Acculturation and Values." Daniel Santisteban of the University of Miami led "Acculturation and Family Relations." Halio Castano of the Dallas Master of Public Health Program discussed "Acculturation and Risk Behaviors." The Role of Acculturation in Physical Health in Racial Ethnic Minorities was led by Hector M. Mejia of the University.
HPRA Honors CSU-Domínguez Hills Students

Three seniors at California State University (CSU)-Domínguez Hills have been honored with $1,000 scholarships from the Hispanic Public Relations Association. (Pictured below left to right) Andy Pérez, Gabriela Cortez, and Martha Gallardo were cited by the Association for outstanding progress in their academic studies as well as in student activities.

The three students, majoring in communications with an emphasis in public relations, garnered the lion's share of scholarships awarded by the Association at its achievement luncheon.

Pérez is president of CSU-Domínguez Hills 51-member Public Relations Student Society of America chapter. Named "Outstanding Junior" by the university's Communications Department in the previous academic year, he received last year a grant from the national Public Relations Society of America for career promise in communications.

Cortez, an elementary school teacher's assistant, plans a career in community relations. Her goal is to create programs to improve the communities of children and adults living below the poverty level.

Gallardo has a special interest in advertising.

Northeastern University to Preserve 25 Years of Boston's Latino History

Northeastern University's archives and special collections department recently acquired 25 years of La Alianza Hispana's historical records. The 200 cubic feet of records document the history of Boston's Latino community and will help support Northeastern's "Preserving the History of Boston's Under-Documented Communities" project.

To mark the acquisition, WCVB-TV's Jorge Quiroga moderated a panel discussion on the historical role of Boston's Latino agencies. Panelists included: Maria Estorino, Northeastern University, Josita Fontanez, Latino y Niños Center, Gery Meriz, La Alianza Hispana, and Miren Larraneta, University of Massachusetts-Boston. Northeastern history professor Felix Matos Rodriguez served as master of ceremonies and Professor Elsa Núñez of Wheelock College delivered welcoming remarks.

La Alianza Hispana is the largest Latino educational, health, and social service agency in the Boston area. Founded in 1970, the agency works to combat the effects of poverty, discrimination, and the stresses of immigration.

Against the Multicultural Agenda: A Critical Thinking Alternative
by Yehudi O. Webster

This book offers an analysis of pluralist, Afrocentric, and postmodernist advocacy of multicultural education and multiculturalism, but suggests formidable laws in their conceptions of gender, race, culture, knowledge, learning, and social change. The author claims that multiculturalism is not a remedy for problems of sexism, racism, and educational underachievement among ethnic minorities.

The War of 1898: The U and Cuba in History and Historiography
by Louis A. Pérez Jr.

In this book, Louis A. Pérez discusses the differences in U.S. and Cuban accounts of the "Spanish-Cuban-American War" (as he refers to it). It is valuable reading for those who aim to understand U.S.-Cuban relations.

What’s College For?: The Struggle to Define American Higher Education
by Zachary Karabell

Today, nearly two-thirds of high school graduates go on to some form of higher education, the overwhelming majority being working-class people seeking education to get a job; they are not seeking a liberal education, nor planning to go on to graduate school. This book discusses the problems faced by faculty members ill-equipped to handle this changing student body.

Henry Ford Community College is an affirmative action/equal opportunity employer.
Book Review

By John Wegner, Ph.D.

Midway through Américo Paredes George Washington Gómez, the narrator tells us that George Washington Gómez, in the eighth grade, “developed simultaneously in two widely divergent paths. In the schoolroom he was an American; at home and on the playground he was a Mexican. Throughout his early childhood these two selves grew within him without much conflict, each an exponent of a different tongue and a different way of living” (147). The eventual collision of these internal forces and the external result are at the heart of Paredes’ novel about a young boy growing up on the Texas-Mexico border between 1915 and the late 1930s.

In 1915, Texas Rangers arrest Guadalupe Gómez because of his relationship with his wife’s brothers. Both Feliciano and Lupé are seditionists working with de la Peña and the Republic of the Southwest (a little-known movement in the early 1900s that fought a guerilla-like war to create an independent Southwestern State out of South Texas and Northern Mexico). After questioning Gómez, Texas Rangers kill him while he is “trying to escape.” With his dying breath, he asks his brother-in-law, Feliciano, to take care of his wife, daughters, and newly-born son, George Washington Gómez, and he asks him to raise his son with “no hate” (21).

Feliciano takes the family from Mexico to Jonesville-on-the-Grande, Texas, where he works for the dominant political party in the city gathering the Mexican vote on election day. Lupé, however, remains steadfastly loyal to the independence movement. The novel focuses on Gómez’ development after his family moves across the border. Central to his childhood is the conflict between his Anglo education and his Mexican family and history.

While Gómez’ coming-of-age provides the bulk of the novel’s narrative, Lupé plays an integral role in Gómez’ life. When he is about to graduate from high school (during the Depression), he walks home one night and a mugger accosts him. He slips and falls, and his hand lands on a brick that he uses to hit the man on the head. Shortly thereafter, the man, Gómez’ uncle Lupé, dies. Their meeting is a quirk of fate (and perhaps a weakness in the novel). But Lupé’s death deeply affects Gómez. Because of Lupé, Gómez discovers the cause of his father’s death, and in his anger at his uncle, he lashes out at the destitute his father wanted for him, telling his uncle that “I’m not going to be a great man. I’ll just be another Mexican with the seat of his pants torn and patched up. That’s all I’ll ever be. And I don’t want to help my people. Help my people? What for? Let them help themselves, the whole lot of ragged, dirty pelados” (265).

In his anger, Gómez “was adamant about not going to college, solely because he knew he could hurt his uncle that way” (266). Despite his anger, Gómez goes to college. His return to Jonesville-on-the-Grande after school is less than auspicious. Instead of returning to help his people, he returns as a “first lieutenant in counter-intelligence” whose “job is border security” (299). In complete contrast to his uncles who fought for independence, the “leader of his people” returns “in the service of [his] country” (302). Any questions that Gómez might have had earlier about his Anglo-self and his Mexican-self are lost, and Feliciano wonders if his “country includes the Mexicans living in it” (302).

Américo Paredes began writing George Washington Gómez in 1936 and completed the novel in 1940. He left the novel to pursue other interests and did not publish it until 1990. In some areas, it reads like a first novel. The ending is abrupt, and some of his characters are hollow and one-dimensional. These weaknesses aside, the novel is fun to read, and Paredes tells an engaging story that reads as both a coming-of-age story and a critique of an Anglo educational system that requires submission of the minority self. Gómez ends the novel a “Cabrón...Vendido sanavabiche!” (294) when he rejects his old friends, his uncle, and his history. The paradox of success for Gómez is that he must capitulate to the system, but in doing so, he rejects his family.

When I teach, the novel in my Contemporary Texas Novels course, this Gordan knot interests my students. Even the Anglo students recognize that education separates them from certain aspects of their past. My Chicano and African American students especially relate to the tension between “selling out” for success and failing because the system requires education (“brainwashing” some students call it) shaped by Anglo Americans. Paredes’ novel allows us to talk about the history of education, integration, and racism and the past and present schooling system. The beauty of Paredes’ novel is that he does not make the issue a simple one. While it is difficult to sympathize with Gómez by the end of the novel, Paredes does not allow us to ignore the difficult choices Gómez had to make to “get out of this filthy Delta” (300).

Dr John Wegner assistant professor of English at Angelo State University, San Angelo, Texas, has taught the Nineteenth-Century Novel, the Contemporary Texas Novel, and other American literature courses. He is currently working with a study team to create a Studies of the Southwest and Northern Mexico program at Angelo State.

PROFESSOR OF ECONOMICS
NATIONAL DEFENSE UNIVERSITY
INDUSTRIAL COLLEGE OF THE ARMED FORCES
(TWO POSITIONS)

The National Defense University invites interested persons to apply for the position of Professor of Economics. The position is available July 1, 1999, on the civilian faculty of the Industrial College of the Armed Forces (ICAF). Professor of Economics, the incumbent will lecture and conduct graduate-level seminars and instruction on defense economics policy and procedures in ICAF's core economics courses. Teach in elective courses, participate in industry studies programs, and conduct research activities.

The University of Arkansas, Fayetteville, is the flagship campus of the University of Arkansas System and is the primary land grant campus in the state. The University's most critical priorities are to enhance the research and teaching stature of the University and to receive a Carnegie classification of Research 1 and become a premier land grant university for the 21st century.

The University currently has 15,000 students and a full-time faculty of 973. The University's annual budget is currently $225 million, its endowment is valued at $180 million, and its externally funded research is $40 million annually. Two of the goals of the administration are to increase the external research funding to over $100 million and to double the annual budget within five years.

The Provost is the chief academic officer of the University and reports to Chancellor John A. White. The Provost is responsible for all seven schools and colleges at the University.

The successful candidate will have earned a terminal degree in a discipline appropriate for appointment as a full professor and will have a demonstrated record of excellence in scholarship, teaching, grant support, and professional service. This person should have a record of meaningful and successful administrating and fiscal responsibility and skills that will have been derived from management of a complex organization. This person must have an understanding of, appreciation for, and commitment to the land grant concept.

The University seeks a distinguished academic leader who will have a strong commitment to scholarship, teaching, academic freedom, and diversity and who will have a strong appreciation for the balance between teaching and research. The person must be one of unquestioned integrity and ethics with decisiveness and skill as a consensus builder. The Provost should have a high energy level and a fair, decisive, and innovative leadership style.

This is a unique opportunity for an academic leader to be part of the new administration of one of our country's premier land grant institutions.

Repeatedly rated as one of the nation's top communities, Fayetteville, Arkansas, is legendary for its beauty, livability, and safety. As we enter into the next century, it will be only miles away from the country's population center, connected to the nation by major highways and new regional airports and to the world by the University's ever-expanding information networks.

Under the state's Freedom of Information Act, individual applications are available to the public upon request. All correspondence should be directed to the University's executive search consultant.

Temple University College of Education

Temple University is a senior, comprehensive, public research university located in Philadelphia. The current student enrollment is approximately 29,000. The College of Education seeks to fill five tenure-track faculty positions effective September 1, 1999. Salaries will be commensurate with qualifications and experience.

Educational Administration. The Department of Educational Leadership and Policy Studies seeks to fill a tenure-track position in Education Administration at the assistant or associate level. Required qualifications include: an earned doctorate in Educational Administration or a related field; evidence of scholarly productivity; ability and commitment to work with public school personnel and educational institutions and agencies; and the ability to direct doctoral dissertation research. Preferred qualifications include experience as a school administrator, especially in an urban school district. The areas of specialty are open but the successful candidate must have knowledge about principals and superintendents. Responsibilities include: developing a program of practice-sensitive, field-based research; supervising doctoral dissertation; developing and teaching graduate courses in education administration; and working with school districts.

School Psychology. The Department of Psychological Studies in Education seeks to fill a tenure-track position in the School Psychology program at the assistant professor level. Temple University’s School Psychology program has full APA accreditation. Preference will be given to applicants who are certified school psychologists and are licensed or eligible for licensure in Pennsylvania. Applicants should have evidence of scholarly productivity. The responsibilities of the position include: supervising doctoral dissertations; teaching graduate courses; providing clinical supervision; and establishing a program of research. Interest in education in urban schools is highly desirable.

Elementary/Early Childhood. The Department of Curriculum, Instruction and Technology in Education seeks to fill a tenure-track position in the area of Elementary/Early Childhood Education at the assistant professor level. The primary responsibility will be teaching undergraduate and graduate courses in Elementary and Early Childhood Education. Required qualifications include: an earned doctorate (Ed.D. or Ph.D.) in social studies or a related field with teaching experience and interest in middle-school. The position also requires a strong commitment to teacher preparation and field-based research.

Physical Education. The Department of Physical Education seeks to fill a tenure-track assistant at the assistant professor level. Primary duties include teaching undergraduate and graduate courses in the CAHPEP and NATA-approved Athletic Training programs, and the Department’s Anatomical and Physiology courses. Additional responsibilities include: directing the Graduate Athletic Training program; curriculum, thesis, dissertation and program advising of students; research and other scholarly and service activities. Qualifications include an earned doctorate in Athletic Training, a related field, a minimum of three years experience as a NATA-certified athletic trainer, and previous college/university teaching experience, preferably in Athletic Training and Human Anatomy and Physiology courses.

Counseling Psychology. The Department of Psychological Studies in Education seeks to fill a tenure-track position in Counseling Psychology at the assistant or associate professor level. Applicants should have teaching experience, a publication record in refereed journals and solid clinical skills. The program is looking for a generalist to teach beginning courses in the master’s program and a specialist to teach applied courses in an APA-accredited doctoral program. Although the area of research interest is open, preference will be given to applicants whose research concerns one of the following areas: career development, multicultural counseling, preparation and training of school and agency counselors, family studies, or teacher education. Applicants should have experience directing doctoral dissertations, conducting research with diverse populations, be student centered, and be interested in cross-cultural issues.

Applicants interested in any of the above positions should send a letter of application including a current vita containing the names, addresses and phone numbers of at least three references. Materials should be submitted to: Search Committee, c/o Dr. Trevor E. Sewell, Dean, College of Education, Temple University, Philadelphia, PA 19122.

Applicants will be reviewed beginning January 15, 1999 and continue until the positions are filled. Temple University is an equal opportunity/affirmative action employer. Women and ethnic minorities are especially encouraged to apply.

MICHIGAN STATE UNIVERSITY

SCHOOL OF SOCIAL WORK AND
THE JULIAN SAMORA RESEARCH INSTITUTE

This position is available as part of Michigan State University's ongoing commitment to strengthening faculty capacity in Latino-Chicano studies. In addition to this position being advertised in the School of Social Work, faculty positions are being advertised in Psychology, Sociology, and Anthropology, of which two will be filled.

Social Work/Latino Studies - The School of Social Work moves applications for a tenure-track faculty position (assistant professor) specializing in work with Chicano/Latino families and communities. The position will be appointed in the School of Social Work (tenure based) and will have an affiliation with the Julian Samora Research Institute, the Midwest's premier policy research and outreach center for Latino communities. The School is seeking applicants with expertise in teaching and research in curricula areas of direct practice and a second curriculum area of the candidate's choice. The position requires an M.S.W. and a Ph.D. (or D.S.W) in social work or related disciplines and demonstrated interest in the field of children, youth, and families with particular ability to work with Michigan Latinos and farm workers and/or urban communities. There are opportunities to work in the School of Social Work's accredited undergraduate and M.S.W. degree programs and doctoral program through the University's interdisciplinary Ph.D. program. The School of Social Work and the Julian Samora Research Institute are part of the University's College of Social Science. The position begins August 16, 1999; the application deadline is March 1, 1999, but will be extended as needed until suitable candidate(s) have been identified. Interested individuals should send a letter of application, vitae, and three references to Gary R. Anderson, Ph.D., Director, School of Social Work, 234 Baker Hall, Michigan State University, East Lansing, MI 48824.

Handicapped have the right to request and receive reasonable accommodations. MSU is an Affirmative Action/Equal Opportunity Institution.

DePaul University
Announces a Search for
Dean of the College of Commerce

During the last decade, the DePaul University College of Commerce has emerged as one of the nation’s most innovative and successful business schools. Located in Chicago, the College of Commerce is one of eight colleges and schools of DePaul University. Offering day and evening undergraduate and graduate programs to over 5,500 students, the College of Commerce is the seventh largest AACSB-accredited graduate business school in the country. Increasingly international in orientation, the college offers degree programs on three campuses in Chicago as well as Hong Kong and certification programs in Eastern Europe. Its MBA in International Marketing and Finance (MBA/IMF) is the first of its kind in the United States and draws students from around the world. The college’s record of innovation has earned it national attention. U.S. News and World Report has regularly ranked the part-time MBA program among its top 10 in the nation, and the Wall Street Journal has ranked the college’s entrepreneurship program in the top twenty-five. Most recently, the International Herald Tribune recognized the MBA/IMF to be among the best international business programs in the world.

After a ten-year record of accomplishment, Ron Patten will step down as dean. The college now seeks a dean who will sustain and enhance the college’s momentum. The ideal candidate will be both a builder and advocate who can lead the college’s efforts to offer high-quality, multi-dimensional and readily accessible business education in innovative ways. Supported by the University’s ambitious growth objectives, the successful candidate will have the opportunity to build an extraordinary business school. Other desired qualifications include the capacity to be a strong and persuasive spokesperson for the college and the ability to champion the college’s interests to alumni, the business community and accrediting agencies; the ability to lead faculty and support them in their teaching and research; commitment to international programs and the ability to provide leadership to them; an appreciation for the Catholic, urban, Vincentian ideals that guide the University’s mission.

The University’s Search Committee, chaired by John Abern, DBA, CPA, Associate Professor of Accountancy, is assisted in its efforts by a national executive search firm. All inquiries, nominations and resumes may be submitted in confidence to: David Welch or Mario Borunda, Isaacson Miller, Box 1784, 334 Boylston Street, Boston, MA 02116, Phone (617) 262-6500; Fax (617) 262-6509; e-mail dwelch@isimsearch.com or mborunda@isimsearch.com.

To learn more about DePaul University and the College of Commerce, please contact the University’s web site at www.depaul.edu.

SCHOOL OF ARCHITECTURE and ENVIRONMENTAL STUDIES
Convent Avenue at 138th Street. New York, NY 10031

EG AA Employer M/F/D/V

DIRECTOR
Center for Excellence in Teaching & Learning

Position Description
The University at Albany, State University of New York, invites applications and nominations for Director of the Center for Excellence in Teaching & Learning (CETL). Candidates should have administrative and faculty development experience. The Director holds a full-time, calendar-year position and reports to the Provost & Vice President for Academic Affairs. The position requires a dynamic and resourceful leader who will take responsibility for faculty development and advancement of a campus culture that values and rewards excellence in teaching and learning. The Director will develop and lead programs that enhance faculty teaching and learning, and develop programs to advance learning in instruction, curriculum development, and research related to pedagogical practices, collaborative with various university offices, centers, and programs. The Director will develop and administer multiple budgets, and hire, supervise, and evaluate staff.

Additional qualifications include:
Knowledge of current learning theory and effective pedagogical and technological practices, a proven track record in pedagogical innovation in higher education, excellent interpersonal, communication, and organizational skills, ability to work with diverse faculty, interests, disciplines, and cultures, and experience working with varied academic and support units. Earned doctorate preferred.

Institution and Setting
Established in 1844, the University at Albany is the oldest state chartered public institution of higher education in New York State. Albany has a broad mission of undergraduate and graduate education, research, and public service. Approximately 17,000 students are enrolled in more than 100 academic programs from the bachelor’s degree through the doctorate in eight degree-granting schools and colleges of the University. Further information is available at the University’s Web site http://www.albany.edu.

The Center for Excellence in Teaching and Learning was founded in 1994, is a central element of the University’s strategic plan to promote engaged learning and innovation through technology. The Center is instrumental in opening a range of teaching and learning technology development and leadership.

Application Deadline:
Review of applications will begin on February 1, 1999 and continue until the position is filled.

Application Procedure:
Submit a letter of application addressing qualifications and interests, a brief statement of teaching philosophy, and names, addresses, phone numbers of three references to Professor Robert Bernstien, Search Committee Chair, Center for Excellence in Teaching & Learning, ULB-34, University at Albany, SUNY, Albany, NY 12222.

The University at Albany is an Equal Opportunity Alternative Action Employer.
Education

DIRECTOR OF ADMISSIONS

Reporting to the Dean of Student Development, the Director of Admission has responsibilities which include supervising all aspects of the admission and registration process, maintenance of the student records data system, ensuring customer satisfaction with service delivery systems, assisting in development of college's marketing program, consulting with instructional staff on admissions and records issues, and preparation and maintenance of student credentials.

QUALIFICATIONS: Master's in Student Personnel Administration, Educational Leadership, Counseling, Management or other related areas; supervisory experience in an admissions and records department; excellent communication skills, both oral and written.

APPLICATIONS must submit complete application form, resume, letter of interest, (3) letters of reference, and official degree transcripts by March 1999 for full consideration.

An Equal Opportunity/Affirmative Action/IIRCA/Americani With Disabilities Act Employer
The University of South Florida invites nominations and applications for the position of

**Dean of International Affairs**

USF is a comprehensive, metropolitan Research I University serving over 34,000 students in nine colleges on four campuses in Tampa, Lakeland, St. Petersburg, and Sarasota. The University offers degree programs in 79 undergraduate disciplines, 89 master's and specialist programs, and 26 doctoral programs, including the MD. The faculty numbers over 2,000.

**POSITION AND QUALIFICATIONS**

The Dean provides leadership, advocacy, development, and support for all central and college-based international activities. The Dean consults with a faculty-based advisory committee, reports to the Provost, and, as a member of the Council of Deans, participates in the strategic planning, priority setting, and policy development processes of the University. The Dean works in collaboration with the college and regional campus deans to promote international education, research, outreach, and service programs. The Dean oversees the Center for Latin American and Caribbean Studies, the Office of Overseas Studies and Exchanges, The Center for Africa and the Diaspora, The Office of International Student and Scholar Services, and the USF Linkage Institutes. The Dean international Affairs will be expected to lead development of academic program offerings (area studies) and services, international exchanges, partnerships with business, industry, and government both in the U.S. and overseas, and to increase the venues for international activities, and enhance faculty, student and staff training and development. Qualifications of the Dean of International Affairs include an earned doctorate; successful experience in teaching and research in the international dimensions of an academic discipline; significant record of scholarly achievement commensurate with a tenure appointment in one of the University's academic units; and academic administrative experience at the chair or higher level. Successful candidates will also demonstrate strong academic values and a commitment to academic excellence, leadership and consultation skills, and excellent written and verbal communication skills. Extensive foreign experience and a second language are required. Experience in creating and implementing international programs, interacting with government and business organizations in the U.S. and overseas, and resource development. Important qualities include a commitment to working productively with diverse populations and a commitment to the principles of equal opportunity.

**ABOUT THE COMMUNITY**

The Tampa Bay area is a growing hub of international access and activity with the 10th largest U.S. port, a world-class international airport, and growing international business community all within its domain.

**APPLICATION PROCESS**

Send letters of application or nomination to:

Dr. Mohsen Milan
Chair, International Affairs Search Committee
Office of the Provost and Executive Vice President
University of South Florida
4202 E. Fowler Ave., ADM 226
Tampa, FL 33620

Letters of application describing interest in the position and qualifications should be accompanied by a curriculum vitae and the names and addresses of five references. References will not be contacted until advanced stages of screening, and candidates will receive prior notification.

The State of Florida has a Public Meetings Law and a Public Records Law and all university searches are conducted under the terms thereof. All meetings of the Search Committee are publicly announced and conducted. All documents submitted to the Committee are treated as open material with the exception of evaluative documents supplied to the Department of the State University System of Florida.

Review of applications will begin on February 15, 1999 and continue until the position is filled.

**Additional Information** may be obtained from the department's web page at http://www.usf.edu/ac

The University of South Florida is an Equal Opportunity/Equal Access/Affirmative Action institution. For a disability accommodation contact Jane M. Reed at least five working days in advance of need at 813-974-5543. TDD: 974-2218.

An Affirmative Action, Equal Opportunity Employer
PERU STATE COLLEGE

PERU, NEBRASKA

The Board of Trustees of the Nebraska State College System invites applications and nominations for the Presidency of Peru State College, Peru, Nebraska.

Peru State is a state-supported, coeducational college committed to providing high quality instruction, personalized attention, and a supportive learning environment for students of diverse abilities. Its principal baccalaureate programs in teacher education, business, and liberal arts and sciences are supported by numerous pre-professional and continuing education programs. A master's degree in education is also offered. Peru State College is accredited by the North Central Association of Colleges and Schools and by the National Council for Accreditation of Teacher Education.

The oldest college in Nebraska, founded in 1867, Peru State College serves approximately 1,100 full-time and part-time students on campus and an additional 800 in off-campus, video- or computer-based courses. Peru State College is located in southeastern Nebraska, approximately one hour's drive from Lincoln and Omaha, and two hours from Kansas City, Missouri.

The Board of Trustees is seeking an experienced administrator with strong leadership skills and outstanding scholarly achievements. An earned doctorate from an accredited institution is required. Administrative experience in public higher education and in a shared governance environment is required.

The Search Committee seeks individuals with the following additional qualities:
- A strong record of scholarly achievements and commitment to liberal arts education.
- Proven ability to work with the college community to promote an open, honest and objective atmosphere for policy making and management of the institution.
- Demonstrated skills in fiscal planning and management, budget development, strategic and long-range planning.
- Proven ability to work with local government, business, industry and community groups.
- Superior communication skills.
- Proven record of recruitment and retention of diverse students and faculty.
- Collective bargaining experience.
- A successful record in fund raising.

The starting date will be mutually agreed upon to be effective after May 1, 1999. The review of applications will begin March 1, 1999 and will continue until the position is filled. Candidates should provide a letter expressing interest in the position, a resume and the names, addresses and telephone numbers of five references. Interested individuals are encouraged to visit the College website page at www.peru.edu.

Send nominations or applications to Ms. Linda Moody, Secretary, Presidential Search Committee, Peru State College, Peru, Nebraska, 68821.

The Nebraska State College System is committed to equal opportunity and affirmative action.

PROVOST AND SENIOR VICE PRESIDENT FOR ACADEMIC AFFAIRS

The City College of the City University of New York is seeking nominations and applications for the position of Provost and Senior Vice President for Academic Affairs of the College.

The City College offers more than 50 undergraduate, 30 masters and 10 doctoral programs. AA/EEO/ADA/IRCA Employer
Deadline: February 19, 1999
POSITION:
DEAN OF THE COLLEGE OF GRADUATE STUDIES

DESCRIPTION:
Austin Peay State University seeks nominations and applications for a dynamic, experienced leader to serve as Dean of the College of Graduate Studies. This person will serve as the chief academic and administrative officer of the college. Austin Peay is a growing, public, comprehensive liberal arts university with a total enrollment of approximately 7,500 students on two campuses. It has four colleges covering all of the traditional liberal arts and selected professional programs including education, business, health services, engineering technology, and several others. There are 554 graduate students enrolled in 15 graduate programs, at the masters and educational specialist levels, in seven academic departments. In the midst of a physical and technological renaissance, the university sees potential for significant expansion in its programs at the graduate level. One hundred full-time faculty, out of a full-time total of approximately 300, serve as members of the graduate faculty.

The dean has leadership responsibilities in the areas of curriculum, budget, recruiting, program evaluations, program development, and research. He or she serves as chair of the Graduate and Research Council and reports directly to the Vice President for Academic Affairs. The dean must be committed to excellence in graduate education and be able to promote and enhance the research capabilities of the university. Additional duties include the construction of programs at off-campus sites, including distance learning, and enhancing the economic health of the program. Teaching by all academic administrators is encouraged. Initially, this position will carry some teaching responsibilities.

QUALIFICATIONS:
The successful candidate must have earned a doctorate; successful leadership experience in the administration of graduate programs and financial management; a documented record of experience in research management and compliance; excellent communication skills; the ability to bring to the campus innovative ideas for graduate program development as well as graduate recruitment and retention; and a documented record of scholarship, teaching, and/or creative activity sufficient to meet the standards and eligibility requirements for a tenured appointment at the rank of full professor in a discipline at APSU. Preference will be given to candidates who demonstrate a commitment to the principles of cultural diversity.

SALARY:
The salary is competitive and commensurate with experience.

APPLICATION PROCESS:
Both applications and nominations for the position are invited. Applications should include: (1) a narrative letter that explains the individual’s experience and background as related specifically to the qualifications for the position, (2) a complete curriculum vitae, (3) accompanied by an official transcript, and (3) three letters offering professional recommendations. Applicants should submit application and nominations to Dr. James D. Lester, Chair College of Graduate Studies Search Committee P.O. Box 4487 Austin Peay State University Clarksville, TN 37044

Minorities, women, and members of other protected groups are encouraged to apply APSU is an Affirmative Action/Equal Opportunity Employer

DIRECTORY OF CAMPUS DIVERSITY AND COMPLIANCE

University of Alaska Anchorage (UAA)

The University of Alaska Anchorage invites applications and nominations for the newly created position of Director of Campus Diversity and Compliance. Under the general direction of the Chancellor, this senior level position is responsible for University-wide leadership in matters pertaining to equity and diversity for students, faculty and staff. This position provides administration of the University's Affirmative Action plan and monitors the University's efforts on behalf of all matters pertaining to equal opportunity. This position interacts with the University community at large and external constituents through cooperative community relations and by sponsoring presenting workshops on EEO, AA, ADA issues.

Required Qualifications:

1. Bachelor's degree in behavioral or social science, public or business administration, or related field.
2. Progressive responsible experience administering diversity, EEO programs.
3. Demonstrated ability in establishing and maintaining productive relationships with a full range of campus and external constituents that reflects a strong commitment to cultural diversity and administration of equal opportunity programs.
4. Demonstrated ability to understand, interpret and apply Equal Opportunity (EO), Americans with Disabilities Act (ADA) and Affirmative Action (AA) legislation, regulation, compliance, and an AA plan.
5. Demonstrated experience with investigation of formal complaints or informal complaints by providing competent advice on the appropriate corrective action to the appropriate parties.
6. Demonstrated experience with dispute resolution.
7. Demonstrated excellence with oral and written communication skills.
8. Demonstrated experience in budget planning and personnel supervision.

Preferred Qualifications:

1. Advanced degree.
2. Experience in higher education.
3. Knowledge of Alaska Native issues (both rural and urban).
4. Experience with creating and implementing diversity programs.
5. Experience administering, conducting, coordinating and sponsoring workshops on AA/EEO and diversity issues to faculty, staff and students.

Review of applications will begin on February 15, 1999 and will continue until a successful candidate is selected. Salary is negotiable, dependent upon experience and qualifications.

For additional information, visit UAA's job announcement web site at http://www.finys.uaa.alaska.edu/uaabs/maintie.htm or contact Ms. Cynthia Matson at ancm@uua.alaska.edu

to be considered for this position, please submit a letter of application addressing the following:

• Your experience related to each of the qualifications listed above
• Your vision of how to develop a successful diversity program
• Your leadership style

Please also attach a resume and the names, addresses, telephone and fax numbers of your current references and send to:

Human Resource Services
University of Alaska Anchorage
Administration Building, Suite 245
3211 Providence Drive
Anchorage, Alaska 99508
Voice: 907-786-4648

Applications complete with transcripts and references should be sent to Dr. Robert Caruso, Vice Chancellor for Student Affairs, 460 HFR Administration Building, Western Carolina University, Cullowhee, NC 28723.
Search for the

**PRESIDENT**

of Baruch College

The City University of New York

The Board of Trustees of The City University of New York and the Presidential Search Committee invite nominations and applications for the position of President of Baruch College.

The City University of New York, the nation's leading urban university, is a multi-campus, publicly funded system, comprised of ten senior colleges, six community colleges, one technical college, a graduate school, a law school, a medical school, and an affiliated medical school. More than 204,000 students are enrolled in programs, ranging from associate degrees to the doctoral degree, offered at campuses throughout the five boroughs of New York City.

Established in 1919, Baruch College consists of three schools: The Zicklin School of Business, the Mildred and George Weissman School of Arts and Sciences; and the School of Public Affairs. The College is the only CUNY College offering accredited degree programs leading to the BBA, MBA and MS in several business disciplines. The College also offers accredited programs leading to a variety of undergraduate and graduate degrees, including public affairs, real estate and entrepreneurship, law, and corporate communications. Baruch also houses the University's Ph.D. programs in business and industrial/organizational psychology.

The faculty includes more than 450 full-time and 420 part-time members. The College has an enrollment of 15,000 students, of whom approximately 7,500 are in graduate degree programs. The majority of undergraduate students are full-time and 85 percent major in business disciplines. Baruch is a mosaic of cultures with students representing more than 100 ethnic and linguistic backgrounds, many of whom are the first in their families to attend college. Baruch has a rigorous program of business and public affairs study, and is committed to providing a sound, thorough liberal arts foundation for its students. By mandate of the faculty, all undergraduates must take at least half of their courses in the humanities, social sciences, and natural sciences.

The College is funded by the State of New York and has a current operating budget in excess of $170 million. Baruch is located in the Gramercy Park area of Manhattan's midtown south business district. The College's new Academic Complex, scheduled for completion in 2001, will consolidate and dramatically improve its physical facilities, housing classrooms, recreational facilities and faculty offices, it will be the hub of an urban campus and the home of both the Zicklin and Weissman Schools.

The President serves as the chief academic and administrative officer of the institution. Leading candidates will typically have:

- A demonstrated broad intellectual capacity and grounding in a suitable academic discipline. The search committee has a very considerable preference for candidates with an earned Ph.D. and/or significant academic achievement in one of the learned professions and a record of scholarly and/or professional achievement; candidates must have at least a full-time commitment to all of the missions of an academic institution.
- The capacity and desire to present Baruch's mission and program to a very wide variety of prominent audiences; a history as effective representatives of their institutions, with a clear capacity to command respect from peers.
- A history that will, over time, allow a President to gain recognition in the state, and national corporate circles as a knowledgeable and trusted advisor in management and educational markets.
- Excellent fund raising skills (with a proven record) and a commitment to the fundamental importance of development.
- A demonstration of leadership and integrity by creatively implementing a central vision in an institution that operates in a complex public environment; an understanding of the role of the college within a multi-campus system in which the President serves under the general direction of the Chancellor according to policy set by the Board of Trustees; an ability to manage the complexities of public funding.
- A track record of senior management success in complex organizations that have innate implicit and explicit reporting relationships, that serves many constituencies, and requires a service mentality.
- The strongest candidates will have experience with New York or a similar urban setting which they find congenial.
- A fundamental commitment to corporate service; an understanding of the New York economy, its politics, its finances and its institutional architecture.
- A commitment to a multi-cultural, multi-ethnic student body and to the enhancement of the quality of student life and strength of the delivery of services to students; experience with equal employment opportunity, affirmative action, and the promotion of multicultural pluralism.
- The position is available immediately. Compensation and benefits are competitive. The review of applications will begin immediately, therefore submission of additional applications and nominations is especially encouraged before February 1, 1999.

**Applications:** Applicants should send (1) a letter expressing their interest in the position; (2) their curriculum vitae; and (3) the names of five references (references will not be contacted without applicants' prior permission).

**Nominations:** Nominators should send a letter of nomination, and, if possible, the nominee's curriculum vitae.

Applications and nominations should be sent to:

Secretary Gessoire Mulla
Board of Trustees
The City University of New York
535 East 80th Street, Room 302
New York, NY 10021

All inquiries, nominations, and applications will be held in strictest confidence.

The City University of New York is an Equal Opportunity/Affirmative Action/ADA/Section 504/ADA/Americans with Disabilities Act Employer with a strong commitment to racial, cultural, and ethnic diversity. The search committee actively seeks and encourages nominations and applications from men and women of all races and ethnic backgrounds.

KEAN UNIVERSITY
VICE PRESIDENT FOR INSTITUTIONAL ADVANCEMENT

Kean University is seeking applicants and nominees who will bring leadership, effective management, creativity and enthusiasm to expand a diverse advancement/development program.

ABOUT THE UNIVERSITY: Founded in 1855, Kean University is the second largest state college/university in New Jersey with almost 12,000 students. It is a comprehensive Master’s level institution. The University has a particular strong concentration of studies in the allied health sciences and services programs such as public administration and social work. Located in Union County, Kean is in a metropolitan area of New Jersey, only 1.5 miles from Newark International Airport and within 30 minutes of New York City.

PRIMARY RESPONSIBILITIES: Kean University seeks a dynamic professional for the position of Vice President for Institutional Advancement (VP/IA). The VP/IA will be responsible for cultivating major gift prospects and closing gift agreements. The VP/IA will provide executive direction and coordination for the advancement/division to include: marketing, public relations, annual fund, corporate relations, foundations relations, major gifts, planned giving, alumni relations, communications and capital/major gift campaigns. The VP/IA is responsible to the President for all operations relative to external fund development, including identification, cultivation, solicitation, and management of government and private sector funds for the University and its programs. The VP/IA will have the opportunity to contribute substantially to the University’s strategic planning process. The VP/IA will report to the President of the University and have administrative responsibility over the Office of Development, Alumni Affairs and University Relations. The VP/IA will serve on the President’s Cabinet, be responsible for developing and recommending policies and procedures related to the advancement/division programs and will be an active participant in institutional budget and policy decisions.

QUALIFICATIONS: Applicants should possess proven management skills and commitment to academic excellence, teamwork, and consensus building in a college environment. Past performance history should include a record of readiness for assuming the senior management position for directing a comprehensive advancement/division program: (a) Bachelor’s degree required; (b) A minimum of ten years experience and demonstrated success in fund raising and/or development, institutional advancement, or a related assignment required; (c) Excellent written and oral communication skills; ability to persuade; (d) Proven organizational and interpersonal skills; (e) Experience with databases for prospect and fund management preferred; (f) Familiarity with the use of Internet as a communication tool preferred; (g) A thorough knowledge of funding sources with higher education; (h) A willingness to travel for development purposes; (i) Understanding of and strong commitment to a service orientation and cultural diversity; (j) Personal and professional integrity; (k) The willingness and ability to close with gift prospect.

Competitive salary, benefits and management bonus program. Application deadline: March 1, 1999. Send a letter of application, resume, and five professional references and phone numbers to the Office of the President, Kean University, Union, New Jersey 07083. Kean University is an Affirmative Action/Equal Opportunity Employer.

HEAD
DEPARTMENT OF PLANT BIOLOGY

The University of Minnesota invites applications and nominations for the position of Head of the Department of Plant Biology in the Colleges of Biological Sciences and Agricultural, Food, and Environmental Sciences. The Department currently has 15 faculty with graduate students in several graduate programs and offers an undergraduate major. The successful candidate will have a Ph.D. (or foreign equivalent), a distinguished record of research and will be encouraged to maintain an active research program as well as participate in educational activities. The Head will lead the department through a series of faculty searches over the next few years. For a more complete position description and information about the Department, please see the Department's web site http://www.bioisco.umn.edu/plantsbio/phds.

Applications will be reviewed beginning March 15, 1999. Applications will be considered and reviewed until the position has been filled. A statement of intent and curriculum vitae should be submitted to:

Ms. Julie Ulrich
Plant Biology Head Search Committee
College of Biological Sciences
University of Minnesota
122 Sende Hall
1475 Gortner Avenue
St. Paul, MN 55108

The University of Minnesota is an Equal Opportunity Employer
DIRECTOR
Film & Television Archive

The University of California at Los Angeles is seeking a new Director for its Film and Television Archive, one of the world's largest and most distinguished collections of film and video. The Archive has been a leader in the field, with a dynamic program in preservation, research, and study, with archivist services and active cinematic screenings of 400 films per year. UCLA Film and Television Archive contains over 100,000 film and television programs, and 2 million feet of newsreel footage.

The UCLA Film and Television Archive serves the past, present, and future by assuring that the audio-visual records of our century will be enjoyed and studied for generations to come. Working in close cooperation with the film and television industry, educational institutions and other archives around the world, UCLA is committed to achieving the following goals: to build a broadly representative collection of motion pictures and broadcast programming; to protect the endangered moving image heritage; to support public understanding and appreciation of moving image media; to support scholarly research, media production and publications that use film and broadcast materials; and to explore ways that new technologies can contribute to the preservation and educational use of archival holdings.

The Director should have leadership, vision and substantive administrative skills to manage a complex department with several operating units, demonstrated success with fundraising and income generation; outstanding communication skills and the ability to develop positive relationships with government, the film and television industry, professional archives and other cultural institutions. Among the qualifications that will be considered will be general knowledge of 1) film and television history; 2) the entertainment industry and media arts; and 3) moving image archive fields. Applicable professional experience, an advanced degree in an appropriate discipline, or equivalent knowledge is desirable. The ability to interface in a dynamic, complex environment is also essential. The Director reports to the Dean of the School of Theater, Film and Television. Salary will be commensurate with background and experience.

To be assured full consideration, applications and materials should be sent by February 28, 1999 to:

CONNETICUT
Community-Technical Colleges

PRESIDENTIAL SEARCH
GATEWAY COMMUNITY-TECHNICAL COLLEGE
NEW HAVEN, CONNECTICUT

The Board of Trustees of the Connecticut Community-Technical College System invites nominations and applications for the Chief Executive Officer position at Gateway Community-Technical College, one of twelve colleges within the state system of two-year, comprehensive community-technical colleges.

Founded in 1992 as a result of the merger of Connecticut's systems of community and technical colleges, Gateway serves approximately 4,000 full-time and part-time learners in credit programs at its two campuses in New Haven and North Haven. Gateway also plays a strong role in the region's economic and community development through partnerships with area businesses, industries, educational institutions, and community organizations. To advance Gateway's position as a valued resource for the communities it serves, the Board of Trustees is most interested in candidates who will lead the college, working within a system, through strategic planning and progressive programming including learning technologies, advancing economic and community development, enhancing resources through development and marketing.

Closing date is March 1, 1999.

Position announcements may be obtained from, and letters of application addressed to:

Dr. Bruce H. Leslie, Chancellor,
BOARD OF TRUSTEES OF CONNECTICUT COMMUNITY-TECHNICAL COLLEGES,
61 Woodland Street, Hartford, CT 06105.

The Connecticut Community-Technical Colleges are equal opportunity, affirmative action employers, m/f.

DISCOVER
Saint Joseph College

Connecticut

Expand your horizons, explore new directions, discover new possibilities...

Saint Joseph College, located in residential West Hartford, CT, midway between Boston and New York Cities, provides rigorous liberal arts and professional education for a diverse student population while maintaining a strong commitment to developing the potential of women.

Department Chair - Education

Saint Joseph College is seeking a creative, experienced educator who will bring effective leadership to its largest department. The Chair directs and facilitates the work of the faculty members, supervises programs for undergraduate women and men, and conducts graduate-level courses with campus-wide education and early childhood programs. The Chair works in partnership with practitioners and community agencies.

Qualifications include:
- An earned doctorate in an appropriate educational field with sufficient experience to teach on the tenure track or faculty position, excellent interpersonal and communication skills, as well as a clear commitment to teaching excellence and shared governance within the context of the mission of the College.
- Experience in public/private K-12 schools is preferred.

Please send a letter of application and statement of educational philosophies, vitae, transcripts and names of three references to Human Resources, Education Dept Chair Search Committee.

Saint Joseph College
1678 Asylum Avenue
West Hartford, CT 06117-2791

Review of applications will begin February 1, 1999 and will continue until the position is filled.

Inquiries may be made to (860) 232-4570 e230 or e-mail sjc@sjc.edu. Saint Joseph College is committed to diversity and is an EOE/AA/EOE employer.

The University of Nebraska at Omaha (UNO) is one of the four campuses of the University of Nebraska System and is located at the heart of Nebraska's largest metropolitan area. UNO, situated on 88.1 acres, is surrounded by beautiful parks and residential areas and is a comprehensive university with over 100 undergraduate majors and 50 graduate majors. Student enrollment is over 13,500. Full-time faculty numbers over 450.

The College of Education has 66 full-time faculty and approximately 150 part-time faculty organized into the departments of Counseling, Educational Administration and Supervision, Special Education and Communication Disorders, Teacher Education, and the Department of Teaching, Physical Education and Recreation. The College offers undergraduate, master's, certificate programs and the Educational Doctorate is offered in Educational Administration and Supervision. The College serves over 1,400 undergraduate students and approximately 900 graduate students. The College has NCATE, Nebraska Department of Education, ASLHA, and CACREP accreditation.

The Dean of the College of Education is responsible for the leadership and overall direction of teaching, research, scholarly activities, and professional and community service functions of the College. The Dean, as a member of the Executive Committee of the Metropolitan Omaha Educational Consortium, comprised of the seven metropolitan school districts, is expected to provide focus and direction for the consortium. The Dean will be expected to have a strong commitment to the role of faculty governance. The Dean will also be expected to promote, enhance, and support external funding for the College. The Dean reports to the Vice Chancellor for Academic Affairs.

Qualifications include:
- An earned doctorate, experience as a full-time faculty member, 5 years academic administrative experience at the department level or higher, preferably in a metropolitan environment, distinguished record of teaching, scholarship, and service to qualify for professional rank and tenure in one of the college's departments or schools.
- Demonstrated ability to promote leadership through a participatory management style in strategic planning, program and personnel management, budget management, external grant funding, development, technology, active involvement with professional organizations, community involvement, and effective interpersonal and communication skills.

Nominations and applications should be sent to:

Vice Chancellor Derek J. Hodson
Vice Chancellor for Academic Affairs
University of Nebraska at Omaha
Omaha, Nebraska 68182-0001
FAX (402) 554-4896

Applications should include a letter discussing experiences and accomplishments relevant to this position, a resume, and the names, address and telephone numbers of three references. Application deadline is March 15, 1999. A NO is an equal opportunity employer.

See our website for further information:
http://www.unomaha.edu/aa/faculty.html
Oakton Community College

Oakton Community College is a caring community of educators dedicated to excellence in teaching and learning. We expect from ourselves and our students tolerance, fairness, responsibility, compassion and integrity. We invite and encourage applications from candidates who reflect the increasing diversity present in our community and student body; who will enhance and promote engagement with other cultures; who are current in their utilization of evolving technologies; and who will challenge our students to be knowledgeable, ethical and capable global citizens.

Located 17 miles from downtown Chicago and 35 miles from the border with Wisconsin, Oakton's district has highly rated elementary and secondary schools, is serviced by major transportation systems and has access to world class cultural events.

The following tenure track positions are available for the 1999-2000 academic year:

Computer Information Systems, two positions. These faculty members will be responsible for teaching beginning and advanced programming courses (e.g., C++, JAVA, and Assembler), Internet and client-server courses, as well as current applications. Candidates should have a strong programming and operating systems background, be familiar with visual programming, Web-based techniques, and current applications. Minimum qualifications are a bachelor's degree in a relevant area, at least 3 years of relevant work experience, MCSE certification, and strong communication and presentation skills. Preference will be given to candidates with teaching experience and a graduate degree in Computer Information Systems, Computer Science, or a closely related business degree.

English, one position. Minimum requirement is a master's degree in English. Preference will be given to candidates with a graduate specialty or emphasis in composition and some college teaching experience. This faculty member will teach literature and developmental composition.

Manufacturing Technologies, one position. This faculty member will be responsible for teaching a variety of courses including CNC set-up and programming, metrology, automation-related technologies (e.g., hydraulics, robotics, and PLC's), and the latest version of AutoCAD. The faculty member will be expected to participate, as well as lead in, curriculum development, student advising, recruiting, and developing linkages with local industry. Minimum requirements are a bachelor's degree in engineering or a related technology, a minimum of 3 years of industrial/technical experience, and strong communication and presentation skills. Preference will be given to candidates with a graduate degree in engineering or a related technology, and teaching/training experience.

Mathematics, two positions. These faculty members will teach mathematics courses from Developmental Mathematics through Calculus and Differential Equations. Ideally, at least one of the faculty members will also be qualified to teach Computer Science classes (e.g., Introductory through Data Structures). Minimum qualifications are a master's degree in Mathematics and/or Computer Science and strong communication and presentation skills. Preferred qualifications are a doctorate in Mathematics and/or Computer Science, past teaching experience and/or industrial or business experience.

Nursing, one position. Minimum requirement is a MSN and 2 years of nursing experience. Current knowledge and experience in psychiatric nursing is required. The individual will also need to be able to teach medical/surgical, geriatric, or community-based nursing. Preference is given to prior teaching experience.

Physics, one position. Minimum requirement is a master's degree in Physics. Preference will be given to candidates with a Ph.D. and some college teaching experience.

Psychology, one position. This faculty member will teach a full range of psychology courses, among them Introduction to Psychology, Child Psychology, Human Development, and Psychology of Abnormal Behavior. Minimum qualifications are a Master's degree in Psychology and some college teaching experience. Training, experience, and certification in substance abuse counseling are preferred.

Speech, one position. Requires a master's degree in Speech or Speech and Theater as well as experience working with related student activities.

The following one-year position is available for the 1999-2000 year:

Health Information Technologies, one position. Minimum requirements are a bachelor's degree in a relevant area and 2 years of coding experience. Preference will be given to those with teaching/training experience.

For information on all positions, instructions on materials needed for the application, and more information about Oakton, visit our website at: www.oakton.edu.

Review of applications will begin on February 15, 1999 and will continue until the positions are filled. To request an application, please contact: Craig Ahrenert, Human Resources, Oakton Community College, 1600 E. Golf Rd., Des Plaines, IL 60016. Phone: 847-635-1675, FAX: 847-635-1764, e-mail: facsearch@oakton.edu.

Oakton Community College is an equal opportunity employer and encourages applications from traditionally underrepresented groups.
Position Announcement

HEAD
Department of Biochemistry
PURDUE UNIVERSITY

Applications are invited for the position of Department Head, beginning with the 1999-2000 academic year. The Department has 18 full-time faculty members and established undergraduate and graduate programs leading to the B.S., M.S. and Ph.D. degrees. The Faculty of the Department are also major participants in interdisciplinary programs in Biochemistry and Molecular Biology, Genetics, and Plant Biology. Several new appointments are anticipated during the next 3-5 years. Candidates must have a Ph.D. or equivalent degree and be eligible for tenure at the rank of professor. Successful candidates should have an established, internationally recognized program of sponsored research, leadership skills, a distinguished record of ongoing scholarly activity, and a commitment to teaching excellence. A competitive package in the area of recruitment and resources is available. More detailed information about the department is available at http://www.biochem.purdue.edu.

Qualified persons are requested to submit the following: a letter of application, a statement of research, teaching and administrative philosophy, complete curriculum vitae, including names, addresses, and telephone numbers of five references. The selection process will begin on February 1, 1999, and continue until a suitable candidate is found. Nominations of potential candidates for the position are welcome. Applications, nominations, and inquiries should be addressed to:

Professor Ronald Senesive
Chair, Biochemistry Department Head Search Committee
d/O. of the Dean of Agriculture
1140 Agricultural Administration Building
Purdue University
West Lafayette, IN 47907-1140

Phone: (765) 494-1614
Fax: (765) 494-7420

Purdue University is an equal opportunity/affirmative action employer.

CORNELL
DIRECTOR, CORNELL CAREER SERVICES

CORNELL UNIVERSITY invites applications for the position of Director, Cornell Career Services. Cornell, a major research university, has an enrollment of over 18,500 students in seven undergraduate colleges, a graduate school, and four professional schools. Career services at Cornell are offered in a coordinated, decentralized environment comprised of the University Career Center and specialized career offices in the colleges. Cornell Career Services is in the Division of Student and Academic Services and collaborates with other units in the Division to support the educational mission of the University.

Working with the colleges and their deans, faculty, staff, employers, and a worldwide network of alumni, the Director provides leadership, vision, and strategic planning in developing programs and services. The selected candidate will play a key role in enhancing internal and external relations and in developing the necessary resources for superior services, technology, and facilities.

The Director oversees a staff of 35 in several locations across the campus and administers a current annual budget of $1.5 million. The successful candidate will have demonstrated leadership in a complex administrative environment and have a proven ability to work effectively within an organization committed to a team management philosophy. Individuals should have an advanced degree and experience working with volunteers and advisor boards.

To apply, submit resume and letter addressing your philosophy concerning leadership and management within a career services environment to:

Search Committee Chair
103 Barnes Hall
CORNELL UNIVERSITY
ITHACA, NY 14853

Applications will be reviewed beginning February 1 and will continue until the position is filled.

CORNELL UNIVERSITY is an equal opportunity/affirmative action employer.

NORTH SHORE COMMUNITY COLLEGE
PRESIDENT

North Shore Community College invites nominations and applications for the position of President of the College.

In its search for the President, the College will assess the candidate's demonstrated leadership ability to:

- Develop and articulate a vision for the future of the College in our service area.
- Interpret, implement, and execute community college policies as outlined by the Board of Higher Education and in compliance with state and federal laws and regulations.
- Administer fiscal affairs, budgets, facilities, and personnel within a complex organization.
- Maintain a system of participatory governance and professional development in a collective bargaining environment.
- Ensure the development and evaluation of educational programming and curriculum in liberal arts and occupational preparation.
- Ensure successful implementation of the College's strategic plan.
- Direct appropriate staff in developing and evaluating strategies to address institutional effectiveness measures.
- Develop successful alliances with various organizations including specific partnerships with schools, community groups, governmental agencies, and local business and industries.
- Participate actively in public relations, resource development, and fund raising for the College.
- Maintain transparency in the College's budgeting and financial policies and procedures in an environment that promotes sensitivity to pluralism and diversity.
- Participate actively on various local, state, and national committees, task forces, and other issues and problems of interest to community colleges and higher education.

Minimum Qualifications:

Master's Degree from an accredited institution, earned Doctoral Degree preferred; six years of leadership experience in an administrative position (Dean or above) or equivalent experience in business, government, or non-profit organization; teaching credentials sufficient to warrant appointment to a senior faculty position in the institution; demonstrated record of successful program development and evaluation; demonstrated record of successful administration of finances, budgets, facilities, and personnel; demonstrated knowledge of current major issues facing community colleges, both nationally and regionally; political astuteness and the ability to function effectively within a complex political environment; knowledge and sensitivity to collective bargaining environment; understanding of the use of technology in a complex institution; successful experience in resource development; experience in developing effective and successful alliances with various organizations, including but not limited to those in business and industry; affiliation with community colleges and participation with organizations devoted to the advancement and improvement of community colleges; and proficiency in oral and written communications and interpersonal skills, including ability to work effectively with administrators, faculty, staff, students, community members, business and industry, state and local governmental agencies, and other educational institutions.

Compensation for the position will be commensurate with experience and qualifications. More information about the College can be found on the web at www.ccc.mass.edu or by calling the Human Resources Office at 978-762-4000, X4105. For full consideration, nominations or application materials should be received by March 17, 1999. Candidates should submit a letter describing interest and qualifications for the position, a resume, and the names, addresses, and phone numbers of three references.

Send nominations or applications to Jane Covello, Director of Human Resources, North Shore Community College, One Ferncroft Road, P.O. Box 3340, Danvers, MA 01923.

As an equal opportunity, affirmative action employer, North Shore Community College is seeking candidates who will augment the diversity of its faculty, staff, and administration.

DIRECTOR, NUWAY PROGRAM
Information Services

NUway is Northeastern University's multi-year initiative to improve student and customer services, improve University-wide decision-making, and transition our administrative systems from a legacy base to Peoplesoft. This program consists of three major university initiatives: development of a WEB student services application establishment of a university wide data warehouse and decision support capabilities, and implementation of an enterprise wide Peoplesoft software solution. Reporting to the Vice President of Information Services, the Director will be responsible for balancing institutional human and fiscal resources among the three initiatives to ensure timely delivery and project success.

The Director, NUway Program will work closely with the Director of Administrative Computing and the Director of Academic Computing as the leader of the 'virtual implementation organization. Ensure, in proactive partnership with leaders in the functional administrative areas, ongoing program support and communication across all University constituencies, including senior administration.

Preferred candidates will have Bachelor's degree in a related field, preferably with continuing studies and course work. Master's degree preferred. Minimum 10-12 years' experience and technical management and technical experience to include extensive program and project management experience. Excellent analytical and presentation skills. Demonstrated success implementing major projects. Peoplesoft data warehousing and WEB development skills desirable. Higher Education functional and/or technical skills, strong interpersonal skills, and proven team building expertise are required.

Located in Boston, Northeastern is a national research university that is student-centered, practice-oriented and urban.

Competitive compensation and excellent benefits are available. Interested candidates should submit a letter of application, resume, and at least three professional references to Susan Scannell, Information Services, 275 Richards Building, Northeastern University, 260 Huntington Avenue, Boston, MA 02115; Fax: (617) 373-2054. Review of applications will begin on January 29, 1999 and continue until the position is filled.

Northeastern University is an Equal Opportunity, Affirmative Action Title IX Employer.
OFFICE OF EQUAL OPPORTUNITY AND AFFIRMATIVE ACTION

THE DIRECTOR

The Director of the Office of EOAA reports directly to the President. The successful candidate will have a Master's or Ph.D. or J.D. degree and six to ten years of experience in higher education administration. In addition, it is essential that the successful candidate have a demonstrated commitment to all areas of equal opportunity, affirmative action, and diversity. The position requires extensive knowledge of civil rights laws and their application to higher education; proven communication, counseling, and mediation skills; demonstrated ability to deal effectively with all constituencies in an institution, and an established record of creative leadership.

The Director is responsible for the development and administration of the College's Equal Opportunity/Affirmative Action Program and for the coordination of the College's diversity initiatives and activities. The Director manages the EOAA Office and develops and monitors the execution of the affirmative action plan and the College's human resources policies. The Director oversees all faculty searches as well as searches for salaried administrative staff. The Director serves as the institutional liaison to the Equal Employment Opportunity Commission and develops compliance files. The Director investigates and mediates resolution of EOAA complaints. The Director serves as the coordinator and catalyst for diversity efforts throughout the College community.

Applicants should submit a letter of application, including a summary of background and qualifications, accompanied by a curriculum vitae and the names of at least three professional individuals (please include addresses, phone and FAX numbers) capable of commenting in support of the applicant's credentials to:

Ms. Patricia R. Moffitt
Administrative Assistant
Office of the Provost
204 Parkhurst
Dartmouth College
Hanover, New Hampshire 03755

Applications will be reviewed immediately and will continue until the position is filled. For more information about the position, please contact Ms. Moffitt by e-mail at Patt@Dartmouth.edu or by phone at 603-646-1408.

Dartmouth College is an Equal Opportunity/Affirmative Action employer and is committed to diversity and encourages applications from women and members of minority groups.

WICHITA STATE UNIVERSITY
Computer Science Department

Applications are invited for one or more tenure-track assistant professor positions in the Computer Science Department. All positions are subject to budgetary approval. The closing date for all applications is February 1, 1999 or the first of the month thereafter, until the positions are filled. Anticipated starting date is August 18, 1999.

Required qualifications for the position(s) include a Ph.D. in Computer Science (or a closely related area), and demonstrate potential for research, teaching, and scholarship. Applicants should have successful experience with diverse populations, and a commitment to diversity. Preference will be given to candidates who can teach courses in the areas of Information Systems, Internet Applications, or Software Systems & Engineering, and who can also collaborate with existing faculty in research. The research interests of the Department include algorithms, artificial intelligence, automated theorem proving, complexity theory, computational biology, databases, object-oriented systems, and programming languages. For more information about the Department, see the web page at:

www.cs.wichita.edu

Letters of application including a resume and the names, addresses, e-mail, and phone numbers of at least three references should be sent to:

Search Committee
Department of Computer Science
Wichita State University
Wichita, Kansas 67260-0083

Wichita State University is an AA/EOE.

We encourage applications from women and minority candidates.

DIRECTOR OF BUSINESS SERVICES

Oakton Community College is a dynamic, comprehensive community college serving the near north and northwest suburbs of Chicago. We are seeking a director who is an innovative leader, who will continue a strong tradition of excellence, and who reflects the increasing diversity present in our community and student body.

The responsibilities of the Director of Business Services include purchasing, the Bookstore, shipping and receiving, mail, printing and duplicating, inventory and records retention, and working with our contracted food service operations. The Director supervises a staff of approximately 20 and reports to the Vice President of Business and Finance.

The preferred candidate will have a bachelor's degree in business, or a related major. Five years of general business experience is required, including supervisory experience and managing million dollar budgets. A master's degree and a CPM are desirable.

The Director must be a person of demonstrable integrity with excellent human relations, problem solving and communication skills, and a sense of humor. The Director will be familiar with computerized purchasing systems and Microsoft Office.

To apply, submit your resume and cover letter to: Oakton Community College, Human Resources, 1600 E. Golf Road, Des Plaines, IL 60016-1268. Attention: Craig Ahnert, 847-635-1675, Fax: 847-635-1664, e-mail: admsrch@oakton.edu

For more information on the position, instructions on materials needed for the application, and more information about Oakton, visit our website at: www.oakton.edu.

Review of applications will begin on February 15, 1999 and will continue until the position is filled.

Oakton Community College is an equal opportunity employer who encourages applications from traditionally underrepresented groups.

COLLEGE LIBRARIAN

Skidmore College, a highly selective, liberal arts college in historic Saratoga Springs, New York, invites nominations and applications for College Librarian.

Skidmore College is seeking a dynamic library and information services leader who possesses a clear vision of the library's central role in supporting the teaching, learning, and research activities of students and faculty at a liberal arts college. The successful candidate will help shape the future that will integrate technology with more traditional library activities.

Further, the successful candidate should have the ability to lead and inspire people in a changing environment while serving as an advocate for the library's educational mission.

The College Librarian must be able to work closely and effectively with faculty and administrative offices, especially the Center for Information Technology Services. Skidmore College is looking for a candidate who understands the needs of an academic community that is preparing students for a multicultural and global environment and who has the intellectual depth to win the respect of the faculty. The College Librarian reports to the Chief Academic Officer.

Renovated in 1995, Skidmore College's Lucy Sibbner Library is a state-of-the-art facility with a recently installed, second-generation Endeavor catalog system. The library, with a book collection of approximately 400,000 volumes and the most utilized computer clusters on campus, is dedicated to serving the information needs of the college's undergraduate and faculty population.

Required Qualifications: ALA accredited MLS degree; second graduate degree in a discipline relevant to a liberal arts college. Excellent communication and interpersonal skills, including an active sense of humor. Demonstrated administrative and management experience in an academic library, including developing and overseeing a library budget. Experience with local, regional, and national collaborative agreements for resource sharing. Evidence of ongoing professional and scholarly involvement.

The position is a 12-month faculty appointment, with an anticipated starting date of July 1, 1999. Please send a letter and vita, along with the names, addresses, and phone numbers of at least three professional references to: Prof. Susan Bender, Acting Dean of the Faculty, File #52, Skidmore College, Saratoga Springs, NY 12866. Review of applications will begin March 15, 1999, and continue until position is filled.

Skidmore encourages applications from women and men of diverse racial, ethnic, and cultural backgrounds.

UNIVERSITY OF WISCONSIN
Whitewater

CHANCELLOR

The University of Wisconsin System invites applications and nominations for the position of Chancellor of the University of Wisconsin-Whitewater. To succeed G. C. Greenhill, a native of the state, as chancellor. UW-Whitewater is one of eleven comprehensive universities in a public higher education system which also includes two doctoral institutions, a system of freshman-sophomore transfer colleges, and a statewide Extension service.

The chancellor is the university’s chief executive officer and is accountable to the Board of Regents through the UW System President. Operating in an environment of shared governance, the chancellor is responsible for the leadership and administration of academic, personnel, fiscal, and student life of the institution, as well as for advancing the interests of the university with local and state government leaders, alumni and foundation support groups, UW System colleagues, and the business and industries.

The position is available July 1, 1999. Evaluation of applications will begin on February 26, 1999, and will continue until the position is filled. Further information about the position, the application process, and the university are available at http://www.uww.edu/ or by contacting Prof. Donald E. Sorensen, Chair of the Search and Screen Committee, 800 West Main Street, Whitewater, WI 53190. Phone: 414-772-4558. Fax: 414-772-4873 or sorensen@uwwvax.uww.edu

The Committee is being assisted in this search by Jean Dowdell, Vice President At Kearney, questions may also be directed to her at 708-592-4781 or jean_dowdell@atkearney.com

The University of Wisconsin is an Affirmative Action/Equal Opportunity employer committed to the principles of diversity and actively seeks and encourages applications from women, minorities and persons with disabilities.

UNIVERSITY OF ALASKA ANCHORAGE

Director of Human Resource Services
PCN: 307575

Vacancy Announcement

The University of Alaska Anchorage (UAA) invites applications and nominations for the position of Director of Human Resource Services. Under the general direction of the Vice Chancellor for Administrative Services, this position will provide overall strategic leadership and expertise for campus human resource function including recruitment and selection, classification and compensation, retention training and professional development, employee and labor relations, employment, benefits administration, records, payroll, and HRIS. This position will be responsible for developing and implementing human resource programs that meet the needs of the university.

REQUIRED QUALIFICATIONS:
- Bachelor’s Degree in Human Resource Management, Labor Relations, Business Administration, or related field.
- A record of progressively responsible management experience in the area of human resources.
- Professional level experience in employee relations as well as a combination of other human resource functions including classification, compensation, benefits, payroll, recruitment, human resource development, training, and labor relations.
- Demonstrated experience in budget management and personnel supervision.
- Demonstrated ability in establishing and maintaining productive relationships with a full range of campus and external constituents that reflects a strong customer service commitment and continuous quality focus.
- Demonstrated excellence in oral and written communications including presentation and influencing skills.
- Demonstrated ability to identify and implement imaginative and entrepreneurial solutions to complex problems and to analyze issues and direct the development of solutions.
- Demonstrated ability to develop and implement university wide human resource programs, policies, procedures, and organizational initiatives.
- Experience with and respect for diversity and diversity programs.

PREFERRED QUALIFICATIONS:
- Experience in higher education.
- Advanced degree.
- Knowledge of HRIS systems.

Review of applications will begin on February 9, 1999 and will continue until a successful candidate is selected. Salary is negotiable, depending upon experience and qualifications.

To be considered for this position, please submit a letter of application referencing PCN 307575 and addressing the following:

1. Your experience related to each of the qualifications listed above.
2. Your perception of how the areas of responsibility should be managed and meet needs of a changing institution.
3. Your leadership style.

Please also include a resume and the names, addresses, telephone and fax number of five current references and send to:

Human Resource Services
University of Alaska Anchorage
Administration Building, Suite 245
Anchorage, Alaska 99508

FOR MORE INFORMATION:
Visit our UAA website at http://www.uaa.alaska.edu/ For additional information on Alaska please visit the Anchorage Chamber of Commerce website http://www.anchoragechamber.org/

Applicants needing reasonable accommodations to participate in the application interview process should contact Human Resource Services prior to the review date.

UAA is an AVEO Employer and Educational Institution. Must be eligible for employment under the Immigration Reform and Control Act of 1986 and subsequent amendments. APPLICATIONS FOR EMPLOYMENT WITH THE UNIVERSITY OF ALASKA ARE SUBJECT TO PUBLIC DISCLOSURE.

MCC is committed to hiring individuals who are versatile in their teaching and/or in their profession, possess technical, open to change, passionate about learning and self-improvement, and committed to serving in various capacities to realize the College's mission of student success. The College wishes to increase our representation of diverse groups among its faculty and staff. Women, minorities, Vietnam-era veterans, disabled veterans, and individuals with disabilities are encouraged to apply and to identify themselves if they wish. Specific qualifications for each position are listed in the job descriptions on our website at http://www.monroecc.edu or on hard copy available in the Human Resources Office.

Located in Rochester, NY, the third largest city in the State, MCC serves a metropolitan area of over one million people. Known as the "World's Image Center," the Rochester area is home to 15 institutions of higher education and many high-tech, optics, research, and manufacturing companies, including 61 Fortune 500 companies. Rochester ranks second in exports in New York State and ranks among the top ten exporting communities in the county. The city's cultural resources include the Memorial Art Gallery, Rochester Philharmonic Orchestra, Rochester Museum and Science Center and the world-renowned photographic collections housed in the George Eastman House.

The College is a multi-campus institution including a 300-acre suburban campus, three miles outside of the City of Rochester; an urban campus in downtown Rochester; an Applied Technologies Center, and several extension sites in the county. It has an enrollment of 14,000 full- and part-time credit students with significant multicultural representation and offers more than 60 degree and certificate programs to traditional and adult learners. The College is consistently rated in the top ten of all community colleges in the country for the number of degrees granted. MCC is one of 30 community colleges within the State University of New York (SUNY) and is one of 18 members of the prestigious League for Innovation in the Community College.

Screening to commence March 15, 1999. Send letter of interest addressing the qualifications listed in the job description, resume, names/addresses/telephone numbers of three references, official transcripts, and statement of philosophy regarding teaching or regarding the role of today's community colleges to:

**DIRECTOR**

The College of Urban Planning and Public Affairs, University of Illinois at Chicago (UC), invites nominations and applications for the position of Director of the Institute for Research on Race and Public Policy (IRRPP). UIC, located in the heart of Chicago, has a diverse faculty and student population. The Institute will promote, coordinate, and conduct multidisciplinary, social science, relevant basic and applied research designed to improve knowledge and understanding of historically under-represented groups within the U.S. for the support of action-oriented policy development designed to improve the quality of life for all groups and foster the remaking of society at local, state, national and international levels.

**POSITION:** The Director of the IRRPP is administrative responsible to the Dean of the College of Urban Planning and Public Affairs. The Director will provide strong leadership for the IRRPP and work with faculty, staff and administration to develop a high quality, collaborative institute which recognizes its diverse, dynamic, multidisciplinary character of UIC. The Director is expected to initiate and maintain relations between the IRRPP and diverse communities and publics outside the university.

**PROFESSIONAL QUALIFICATIONS:** A nominee and an applicant must have a doctorate and a national reputation for relevant scholarly achievement sufficient to warrant a tenured appointment to an academic department. A track record of effective management, collaborative work, and strong fund raising at a serious level in a comparable institution is critical. **SALARY:** Scale will be competitive.

**APPLICATION PROCEDURE:** For fullest consideration, interested persons should submit a letter of application and a resume by 3/1/1999 to Prof. Laselles Anderson, Chair, Search Committee, C/O Vernita A. Widdiff-Lewis at College of Urban Planning and Public Affairs, 400 S. Peoria St., suite 2100, ALHN (MC 345), Chicago, IL 60607. For further information call 312-996-9145 or E-Mail: VLEW@uic.edu. Position is subject to approval of the University of Illinois at Chicago Board of Trustees. Minority and women are encouraged to apply. The University of Illinois at Chicago is an Equal Opportunity/Affirmative Action Employer.

AN EQUAL OPPORTUNITY AFFIRMATIVE ACTION EMPLOYER

Visit our website at http://www.dcccd.edu
**President**

New School University is seeking an exceptional man or woman who is an exemplary leader and shares the values and commitments of a distinctive institution. He or she will be a person of integrity, broad intellectual interests, and deep resonance with the arts.

Located in historic Greenwich Village, New School University is one of the nation’s leaders in adult learning, arts education, the social sciences, and urban studies. It was founded in 1919 as the New School for Social Research by a distinguished group of intellectuals to be a center where people of all ages could exchange ideas freely with scholars and artists representing a wide range of intellectual, aesthetic and political orientations. The original faculty included Charles Beard, Thorstein Veblen, James Harvey Robinson, Wesley Clair Mitchell, and John Dewey. Its first degree programs began as a response to the crisis in Europe in 1933, when a University in Exile was established which became the Graduate Faculty of Political and Social Science.

Since then New School University has grown into a highly diversified urban university that is deeply interested in the arts and their intersection with intellectual life. Today it offers more than 150 degrees at the Baccalaureate, Master’s and Doctoral level — in all fields of design, the fine arts, music and the dramatic arts, the social sciences and liberal arts, management, and urban and public policy.

New School University’s seven academic divisions are: The New School (Adult Division), Parsons School of Design, Eugene Lang College, Mannes College of Music, School of Dramatic Arts, Robert J. Milano Graduate School of Management and Urban Policy, and Graduate Faculty of Political and Social Science. The 7,000 degree students come from 140 countries and all of the United States.

Nominations and expressions of interest will be accepted until a new President is selected. They may be sent in confidence to: Malcolm B. Smith, Chair, Presidential Search Committee, c/o Office of the Secretary, NEW SCHOOL UNIVERSITY, 66 West 12th Street, New York, NY 10011. In employment as in education, New School University is committed to equal opportunity and encourages the applications of women and people of color.

New School University

**Texas A&M University-Corpus Christi**

**College of Business**

**Tenure Track Position**

**Beginning August, 1999**

**Ennis & Virginia Joslin Endowed Chair in Accounting**

Texas A&M University-Corpus Christi, College of Business, invites applications to apply for the Ennis & Virginia Joslin Endowed Chair in Accounting. The college is seeking AACSB accreditation and presently is scheduled to be visited in spring 1999. The position will require the individual to teach graduate and undergraduate courses, to contribute in research and scholarship, and to advise students.

Applications will be accepted until the position is filled. Review of applications will continue until a successful applicant is found. Candidates must have a Ph.D or D.B.A. in the field, with a strong research record. Applications with three or more references should be submitted to Dr. Moustafa Abdelsamad, Dean, College of Business, Texas A&M-Corpus Christi, 6300 Ocean Drive, Corpus Christi, Texas 78412. Phone (512) 994-6045; Fax (512) 994-2725. Web: http://www.enterprise.tamu.edu

Texas A&M University-Corpus Christi is a growing state-supported university. The campus is on an island overlooking Corpus Christi Bay. Its location in South Texas with a growing population and economic base makes it an ideal place to grow personally and professionally.

Texas A&M University-Corpus Christi is an equal opportunity/affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability or age.

---

**Florida International University**

**EDUCATIONAL RESEARCH**

Applications are invited for a tenure-track faculty position at the rank of Associate or Full Professor in educational research, effective August 1999. Principal responsibilities are focused on producing research in the area of educational research. Research interests include teaching graduate-level research courses, directing doctoral dissertations, and maintaining a productive commitment to research. Salary is negotiable and competitive. Applicants for the position are required to have a doctorate in research methodology, or a closely related area, a demonstrated level of excellence in teaching masters’ and doctoral-level research courses and in directing a substantial number of doctoral dissertations, and a sustained record of research and publication. Applications must include (1) a letter of interest that clearly establishes the candidate’s qualifications for the position, (2) a current curriculum vitae, (3) one recent scholarly publication, and (4) a current description of research interests. At least three references must be requested from candidates after applications are reviewed. Applications must be received no later than March 5, 1999 and are to be submitted to Dr. Sandra E. Cox, Chair, Search and Screen Committee, Department of Educational Leadership and Policy Studies (ZB 310), Florida International University, Miami, FL 33199.

Florida International University is an equal opportunity/Affirmative Action Employer.
STATE UNIVERSITY OF NEW YORK
COLLEGE AT ONEONTA

The College at Oneonta invites applications for three Lecturer positions and one Assistant Professor position. SUNY Oneonta, a four-year arts and sciences college with a pre-professional focus, offers liberal arts and professional programs at undergraduate and masters levels. Increasing emphasis is placed upon technology and community across all disciplines and the campus has announced a Universal Computer Access Program (UniCAS) for its students. The College, with 3500 students and 225 full-time faculty, is located in the serene Catskills, three and one-half hours from New York City. See the Oneonta home page for additional information (http://www.oneonta.edu), send application letter, resume, names, addresses and telephone numbers of three professional references, transcripts, and additional material as specified below to: Chair Search Committee, Box H, SUNY Oneonta, Oneonta, New York 13820-4015. SUNY Oneonta is an EEO/AA employer. Women and minorities are encouraged to apply.

COORDINATOR

The Office of Education Advisement and Field Experience seeks applications for the position of Coordinator. This is a full-time, 12-months position starting July 1, 1999. This position reports to the Dean of Education. Responsibilities include coordinating advisement, field experiences with campus faculty and school community personnel, coordinating staff development with faculty on advisement issues, oversight of data collection and assessment systems, development of extensive field experience sites, (professional development school model) maintenance of all student records associated with office, oversight of all teacher education advisement activities and teaching, if needed. Qualifications: Earned doctorate in education, teaching certificate and experience in K-12 schools required. Administrative experience preferred.

TO APPLY

Send letter of application, resume, names, addresses and telephone numbers to Dr. Ronald Cromwell, Chair, Department of Education.

MUSIC DEPARTMENT

The Department of Music announces an opening for a Lecturer in its Music Industry Program beginning with the Fall, 1999 semester. The Department of Music has a rapidly growing, comprehensive Music Industry Program with over 200 majors preparing for the Music and Entertainment Industry. Responsibilities: Teach courses relating to the music industry and some area of audio performance or business. Experience in departmental, recruitment, and outreach efforts. Required qualifications: Master's in Music or related field. Successful experience and expertise in at least three of the following areas: Business affairs, record company operations, middle or senior-level record company management and marketing, A&R creative, publishing, promotion, songwriting, recording technology and computer-assisted theory instruction. A complementary skill in keyboard, voice, or wind instrument is preferred.

TO APPLY

Send letter of application with curriculum vitae, performance tape or CD to Dr. Robert Barsam, Chair, Department of Music.

HUMAN ECOLOGY

The Human Ecology Department seeks applications for the position of Lecturer in the area of Dietetics beginning with the Fall, 1999 semester. This position involves teaching undergraduate courses in nutrition, food science, and advanced food science. Responsibilities include advising students, serving on committees, conducting scholarship activities and participating in other faculty activities. Requirements: Master's Degree in food and nutrition required. PhD preferred. Also, RD preferred. The Human Ecology Department is accredited by AACCS, ADA, and Middle States. The ten full-time faculty members offer degree programs to 350 majors in Dietetics, Food Service and Restaurant Administration, Home Economics Education, and Human Ecology with emphasis in Apparel and Textiles, Consumer Studies, and Child Development and Family Studies. Minor in Nutrition and Health and Wellness is offered. The Dietetics program is approved by the American Dietetic Association.

TO APPLY

Send letter of application and curriculum vitae to Dr. Lorraine Tyler, Chair, Department of Human Ecology.

SPEECH COMMUNICATION AND THEATER

The Speech Communication and Theater Department seeks a tenure-track Assistant Professor position in Mass Communications beginning with the Fall, 1999 semester. Responsibilities include teaching courses in at least three of the following areas: Mass media writing, announcing, mass media surveys, audio production, broadcast journalism, and areas of specialty. Qualifications: PhD or evidence of strong commitment to teaching and quality scholarship.

TO APPLY

Send letter of application and curriculum vitae to Dr. Ali Zaloum, Chair, Department of Speech Communication and Theater.

CARLETON COLLEGE
Northfield, Minnesota

OFFICE OF INTERCULTURAL AFFAIRS
(Formerly Multicultural Affairs)

Carleton College invites applications and nominations for two positions within the newly named Office of Intercultural Affairs. This office provides support a guidance to insure academic and social success for over 300 students of color, promotes cultural pluralism and dialogue on matters of race and ethnicity and ensure campus community, and works in collaboration with other departments within the Division of Student Affairs and the College to enhance the learning environment for all students.

DIRECTOR OF INTERCULTURAL AFFAIRS

Reporting directly to the Dean of Students, the Director of Intercultural Affairs is responsible for:

- Managing the Office of Intercultural Affairs, including direct supervision of the assistant director, the administrative assistant, student program assistant and office personnel; and budget oversight.
- Providing direct personal support to students of color, and insuring they are informed of and encouraged to utilize all campus resources.
- Coordinating and implementing a full calendar of intercultural programs in collaboration with student organizations, academic departments, College Relations and The Learning and Teaching Center.
- Administration of grants and fellowship programs for students of color.
- Communication and interaction with the Multicultural Alumni Network.
- Collaborating with colleagues on a variety of student affairs initiatives.

Qualifications include a master's degree, understanding of young adult life development, and demonstrated experience in creating and implementing programs for a diverse campus. Preference will be given to candidates who have demonstrated success with traditional under-represented student populations, diversity training skills, and knowledge of and appreciation for the small liberal arts college environment.

ASSISTANT DIRECTOR, INTERCULTURAL AFFAIRS

The assistant director provides advice and counsel to several multicultural student organizations, the residential culture houses, and the Multicultural Center. The assistant director also has primary responsibility for selecting and supervising the Multicultural Peer Counselors and the Peer Assistants. S/he also works closely with the director in the implementation of social and intercultural programs, and in creating campus dialogue on issues of race and cultural understanding.

Qualifications include a BA degree and experience in peer counseling at the college or university level.

Carleton College is a highly selective, coeducational, residential, non-sectarian private liberal arts college with 1,850 students and approximately 300 faculty located 45 miles south of Minneapolis and St. Paul. Students come from all the continental United States as well as several foreign countries.

Candidates for these positions should submit a cover letter, resume, and the names and addresses of three references by March 1, 1999 to: The Human Resources Office, Carleton College, Northfield, MN 55057. Information interviews will be conducted at ACPR and NASPA. On campus interviews will be held in April. Preferred reporting date is July 15, 1999. Carleton College is an Equal Opportunity Employer.
AMHERST COLLEGE
DIRECTOR OF CURRICULAR COMPUTER SERVICES

Amherst College invites applications and nominations for the new position of Director of Curricular Computer Services. Reporting to the Director of Information Technology, the Director will provide leadership for efforts to support faculty in using computer technology in teaching. The Director will also provide services directly to faculty, as well as manage a small group of staff. Candidate will assist faculty in identifying and applying computer technology appropriate to teaching in a liberal arts setting, provide training to faculty using those technologies, and assist in the day-to-day use of those technologies.

QUALIFICATIONS: graduate work beyond the Bachelor's Degree and experience supporting faculty in using computers in teaching required. Ability to communicate effectively with faculty about technology is critical. The work requires an understanding of the teaching process in a liberal arts setting, as well as technical skills. Experience in a liberal arts environment preferred.

Amherst College is a private coeducational liberal arts college of approximately 1,650 students, 170 faculty, and 500 staff employees. Located in Western Massachusetts, the College participates with Hampshire, Mount Holyoke and Smith Colleges and the University of Massachusetts in the Five College Consortium.

Candidates should submit a letter of application and resume, including the names of three professional references to: Chair, Search Committee for Director of Computer Services, Box 2204, Amherst College, Amherst, MA 01002-5000.

Review of applications will begin on March 1, 1999 and continue until the position is filled.

Amherst College is an Equal Opportunity/Affirmative Action employer and encourages women, minorities, and disabled persons to apply.

HUNTER COLLEGE
OF THE CITY UNIVERSITY OF NEW YORK

MASS SPECTROMETRY FACILITY MANAGER

The facility includes an HP100 LC/MSD and an HP5989A research engine with various inlets. The individual will be responsible for all aspects of facility operation including instrument and computer maintenance, method development and application of new techniques to a wide variety of compounds and complex mixtures is expected. Salary is commensurate with experience (Range S25,994 to S77,229). A Ph.D. in Chemistry and mass spectrometry experience is required.

Interested parties should send a resume along with three letters of recommendation to: Dr. William V. Sweeney, Chairperson, Hunter College Chemistry Department, 695 Park Avenue, New York, NY 10021.

An Equal Opportunity/Affirmative Action/AAC RAC Americans With Disabilities Act Employer

Empire State College

State University of New York
MBA MANAGEMENT FACULTY

SUNY Empire State College invites applications for a full-time, tenure-track position in a new, competency-based MBA. This MBA combines weekend residencies with Web based delivery in a modular format. Based on traditional MBA content with a target market of experienced managers, this program emphasizes integration through themes (ethics, globalization, organizational effectiveness) and a focus on functional and managerial competency assessment. SUNY ESC, a national leader in non-traditional education, is an arts and sciences college of the State University of New York. With over 40 locations across New York State, ESC provides individualized instruction, assessment of experiential learning for college credit, and distance learning using educational technology to support its mission of access to quality academic programs.

A twelve month position responsible for coordination and teaching of one or more courses in management with possible supervision of adjuncts. Includes student advisement and competency assessment responsibilities. Assistant Professor; starting date: 9/1/99; location in Saratoga Springs, NY preferred; other SUNY ESC locations in NY State possible.

Qualifications: Earned doctorate in management required, demonstrated teaching experience using Web-based delivery or strong interest in working in new and creative learning environments. Interdisciplinary focus highly desirable, familiarity with Competing Values Model useful.

Closing date for applications is 2/26/99. Send letter of interest, resume and names of three references to: MBA Search, SUNY ESC, Office of Graduate Studies, 28 Union Avenue, Saratoga Springs, NY 12866.

University of California, Davis
Director of University Cultural Programs (MSP IV)

The Director of University Cultural Programs is a member of the University Relations Management Team and reports to the Vice Chancellor for University Relations. The position is responsible for planning, developing, and managing the programs and initiatives of the University Cultural Programs. This includes developing and implementing strategic plans for programming, fundraising, and donor relations. The Director will work with faculty, staff, and students to enhance the cultural and educational experiences of the campus community. The Director will also be responsible for overseeing the operations of the University Cultural Programs office, including budget management, human resources, and communication strategies. The position requires a Ph.D. or equivalent terminal degree in a relevant field, with a demonstrated record of excellence in cultural programming and leadership. Experience in fundraising, event management, and strategic planning is also desirable. The position requires excellent communication and interpersonal skills, as well as the ability to manage multiple projects simultaneously. The position requires strong organizational skills and the ability to work collaboratively with a variety of stakeholders. The position requires a commitment to diversity, equity, and inclusion, and the ability to work effectively with multicultural communities. The position requires a strong commitment to excellence in cultural programming and the ability to develop and implement innovative programs and initiatives. The position requires a commitment to the development of cultural programming that is inclusive and responsive to the needs of diverse communities. The position requires a strong commitment to diversity, equity, and inclusion, and the ability to work effectively with multicultural communities.

UC Davis

725
PRESIDENT
CONTRA COSTA COLLEGE
CONTRA COSTA COMMUNITY COLLEGE DISTRICT

The Board of Trustees and the Chancellor of the Contra Costa Community College District invite applications and nominations for the position of President of Contra Costa College. The President is the chief executive and educational leader of Contra Costa College. The President provides leadership and advocacy for the college, is responsible and directly accountable for all college operations and is a District team member on the Chancellor’s Cabinet. The successful candidate would be a strong and visionary leader committed to academic excellence and possessing the personal qualities, experience and administrative skills to develop and promote the college and its programs.

Application Process: The Profile Brochure which contains details on the CONTRA COSTA COLLEGE Search, the preferred qualifications, and application instructions can be requested by contacting Ms. Christine Cornett at (925) 313-9229 website: www.contracosta.cc.ca.us

Nominations and applications will be accepted until the position is filled. However, the presidential search committee will begin reviewing applicants’ materials in March 1999. Submission of application packets are especially encouraged prior to that time.

For confidential telephone inquiries about the position contact: Dr. Al Fernandez at (805) 650-2546; Fax (805) 650-8469; E-mail alfernandez@vcoll.net.

Send letter of application, resume and list of references to: Dr. Al Fernandez, ACCT Search Consultant, Contra Costa Community College District, PO Box 790, Martinez, CA 94553.

AN ACCT Search

DEAN OF RESIDENTIAL LIFE

The Dean of Residential Life, a tenure position within the Dean of the College area, is responsible for the development, implementation and evaluation of all aspects of undergraduate residential life at Dartmouth including all residential life programs, policies and procedures consistent with the educational goals of the institution. The Office of Residential Life supports the academic mission of the College by providing a diverse array of programs, services and activities that enhance the overall educational climate of the campus.

The Dean oversees a professional, student and support staff of 180 people and manages all aspects of the College’s undergraduate residential system. This system includes 49 residence halls, academic affiliiate houses, special interest houses, and College-owned houses for undergraduate societies, fraternities, and sororities. The Dean also oversees the department’s substantial annual operating budget and is responsible for short-run and long-range strategic and financial planning. The Dean plays a central role in fostering interaction between faculty and students in the residences.

The successful candidate will have demonstrated strong interpersonal, organizational, management and planning skills, an advanced degree and considerable residential life experience in higher education.

Dartmouth College is an equal opportunity/affirmative action employer. Women and minorities are encouraged to apply.

Washington State University
DIRECTOR
MULTICULTURAL STUDENT SERVICES

Applications invited for a full-time, twelve-month director position. COMPENSATION: Salary commensurate with experience. Faculty appointment negotiable.

RESPONSIBILITIES: Provide leadership for achieving university goals for the recruitment, retention, and graduation of the primary populations served through Multicultural Student Services. Supervise 14 FTE professional and classified staff serving in the recruitment and retention areas including two separate student centers. Coordination of program implementation, evaluation and supervision, as well as development of new programs and services. Maintain accurate and complete student records for tracking student academic progress in classroom and campus environments; manage and develop budgets consistent with the goals and objectives of the program. Foster community relations and articulate the needs of each population served.

QUALIFICATIONS: REQUIRED: Masters degree; five years of progressive administrative experience in multicultural student affairs or related area which includes responsibility for budgeting, planning, implementing and evaluating programs, and supervising professional staff; experience with each of the primary populations (Asian American, Native American, Pacific Islander, Mexican American, Hispanic) and evidence of excellence in interpersonal and communication skills. PREFERRED: Doctorate; extensive understanding and sensitivity to the needs of the four primary populations; demonstrated ability to interact with diverse populations; identity, cultural and community connections; and build community.

APPLICATION: Send letter of application and references to: Dr. John G. Armstrong, Chair, Search Committee for the Director of Multicultural Student Services, Human Relations and Resources, Washington State University, P.O. Box 641013, Pullman, WA 99164-1013. Screening will begin March 1, 1992 and continue as the position is filled.

FOR ACADEMIC AFFAIRS 99-60

December 18, 1998

VICE PRESIDENT

POS TION V A C A N C Y

SOUTHERN POLYTECHNIC STATE UNIVERSITY

HUMAN RESOURCES DEPARTMENT

1100 S. MARIETTA PKWY

MARIETTA, GA 30060-2896

(770) 528-7331

EXECUTIVE VICE PRESIDENT

December 21, 1998

VICE PRESIDENT

FOR ACADEMIC AFFAIRS 99-60

Southern Polytechnic State University, part of the University System of Georgia, invites applications and nominations for the position of Vice President for Academic Affairs. The vice president is the chief academic officer reporting directly to the President and serving as the bridge to the Board of Trustees.

Southern Polytechnic State University was founded in 1908 as a branch campus of Georgia Tech, and it has been a separate institution since 1980. It is a campus of two colleges (Engineering and Technology) and two schools (Architecture and Management). The University currently offers the Bachelor of Arts degree in five fields: the Bachelor of Science degree in five fields, the Bachelor of Architecture, and the Masters of Science in eight disciplines. The student enrollment is currently about 4,800 including both residentials and nonresidents. The University’s emphasis is in fields related to science, technology, and management. In the next several years, enrollment growth and new degree programs are expected, offered both on campus and via distance education. This position is responsible for further information about the University, please visit http://www.spsu.edu.

Required qualifications for the Vice President for Academic Affairs include an earned doctorate and academic leadership experience as a chief academic vice president or other senior administrator, a distinguished record of teaching and scholarship appropriate for appointment as a tenured professor in one of the University’s academic departments, evidence of commitment to academic excellence and diversity, experience working in the faculty personnel process, and a record of support for faculty research, scholarship, and creative activity.

Desirable qualifications include experience with budgets and allocating resources, developing curricula, consulting and communicating with both internal and external constituencies, and managing change. The University has just received confirmation of its accreditation by the Southern Association of Colleges and Schools. Individual programs are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, the National Aeronautics Systems Board, Inc., and the Association of Collegiate Business Schools and Programs.

Application Information:

The position is available July 1, 1999. Salary is competitive and commensurate with experience and qualifications. Applications should include a letter of interest addressing the stated qualifications, curriculum vitae, and the names, addresses, and telephone numbers of at least two professional references. Nominations should include the name, address, and telephone number of the nominee. Review of completed applications will begin on February 15, 1999.

Nominations and applications should be sent to:

Dr. Anthea L. Tilman,
Chair, Search Committee
College of Technology
Southern Polytechnic State University
1100 South Marietta Parkway
Marietta, GA 30060-2896
Phone: (770) 528-7234; Fax: (770) 528-7556
E-mail: attilman@spsu.edu

Southern Polytechnic State University is an equal opportunity/affirmative action institution. Women and minorities are encouraged to apply.

An ADA and AA/EOE Institution
Benedictine University

Benedictine University is a comprehensive, liberal arts university with approximately 1,800 undergraduate and 1,000 graduate students. The University is located in dynamic DuPage County, along the I-88 research and development corridor, just 35 miles west of Chicago. Benedictine offers 38 undergraduate majors, nine graduate programs, one Ph.D. in organizational development and special accelerated programs for adults.

Assistant Professor of Foreign Language Education: Earned doctorate with significant experience in methodology and proficiency-based education, preferential concentration on training, responsibilities include teaching a broad spectrum of undergraduate courses in Spanish, and implementing a graduate program in teaching a foreign language. Search Chair: Dr. Susan Niki, Division of Arts and Humanities.

Assistant Professor of Business: Earned doctorate in business or related field, with college-level teaching experience in management, human resources, strategy, and entrepreneurship at undergraduate level with traditional age and adult students. Search Chair: Dr. Bruce Babich, Chair, Business & Health Administration.

Assistant Professor of Public Health: Earned doctorate, MPH desirable, with experience in administrative health care and teaching adults. Responsibilities include teaching health care administration, health care administration, managed care, community health administration, environmental and occupational health. Programs serve working adults in evening and weekend formats. Search Chair: Dr. Jon Colby, Swanson, Director of MPH.

Assistant Professor of Nursing: Earned doctorate and MS or Nursing required to teach innovative, adult-centered RNBSN program. Responsibilities include teaching health assessment, research, management, gerontology, and holistic nursing. Search Chair: Dr. Ebel C. Eagle, Department of Nursing and Health.

Assistant Professor of Secondary Education: Earned doctorate with concentration in secondary education. Responsibilities include undergraduate and graduate teaching in educational foundations, middle and secondary methods, advising and clinical supervision. Search Chair: Dr. Eileen Kolb, Division of Education.

Assistant Professor of Special Education: Earned doctorate in special education, with emphasis in learning disabilities. Responsibilities include undergraduate and graduate teaching in areas of early childhood methods and assessment, measurement and evaluation for regular and special education. (K-12), advising and clinical supervision. Search Chair: Dr. Eileen Kolb, Division of Education.

Assistant Professor of Physics: Earned doctorate in physics or closely related field, preferred experience in teaching in another physical or biological science in or teacher education. Responsibilities include undergraduate teaching in physical science and engineering. Conducting undergraduate research is required. Search Chair: Dr. John Cicero, Division of Natural Sciences.

Assistant Professor of Exercise Physiology: Earned doctorate in human physiology, exercise science or biological science required. Teaching expertise in the classroom and clinical laboratory setting is preferred. Responsibilities include teaching graduate courses in human and exercise physiology, conducting and supervising graduate and undergraduate research, and supervision of graduate internships. Candidates should include transcripts with submission. Search Chair: Dr. Peter Hester, Graduate Department of Exercise Physiology.

Candidates should send statement of teaching philosophy, curriculum vitae and three (3) letters of recommendation. (one of which must address teaching competence) to Search Committee Chairs, Benedictine University, 5700 College Road, Lisle, IL, 60532. Applications accepted until suitable candidate is found. Consideration for Contractual Employees begins January 15, 1998. Benedictine is an Equal Opportunity Employer. Women and minority groups are strongly encouraged to apply. The near-, middle-, and long-term future of our society depends in large part on the curiosity, imagination, openness, diversity, efficiency, learning skills, and communication abilities developed in our younger members.

Mathematics, science, engineering, art, and philosophy—tied to an understanding of the environment, a global perspective, and computer communications—are some essential elements that our K-12 students need in order to continue, expand, and develop our culture. Their knowledge of science, coherently coupled to humanities, self-teaching, and leadership, will form the individuals who are the stem of our next generations.

The future Hispanic workforce, including university graduates, depends on access in its early years to activities that motivate and develop the necessary attitudes toward education. In these increasingly complex times, interdisciplinary education, experimental knowledge, and “hands on” laboratory experience appear to be important components of success in nearly all career fields.

Pre-college Hispanic teachers can no longer instruct their students exclusively through a process of memorizing facts and procedures. Our teachers should act on opportunities to develop communication and reasoning skills—to help students at early stages of education to experience the excitement of discovery.

In turn, Hispanic students must learn how to think critically and logically in order to analyze, understand, and address present and future concerns—scientific, technological, environmental, social, and cultural. Unfortunately, hands-on experimentation, independent of the education discipline, is not easily accessible to a large number of culturally diverse and economically challenged K-12 students and their teachers. Furthermore, the Hispanic population may have the tendency to increase faster than the resources for its education. As a result, the rate of Hispanics entering higher education will decrease as the population increases. These factors will continuously generate a gap in knowledge, abilities, training, and motivation.

This scenario will decrease the opportunities for development and the leadership roles that Hispanics might play.

The problem is not trivial. Motivation, hands-on abilities, integration of knowledge, and technology activities are part of the solution.

Various formal and informal educational programs have been created—at local, national, and international levels. A good example is the GLOBE program, Global Learning and Observations to Benefit the Environment. GLOBE creates the spark that many students need to develop an interest in science and education, while the day-to-day nurturing of this excitement is achieved by their trained teachers. The program (www.Globe.gov) involves students and teachers from more than 6,000 schools in 73 countries. K-12 students and teachers work with university professors, university students, and research scientists to learn more about our planet. Simultaneously, parents, friends, and communities also are involved in the process.

GLOBE uses environmental measurements to help develop skills in areas ranging from science to teamwork. Training activities involving atmosphere, hydrology, landcover, biology, soils, and more are all described very well, in English and Spanish, in the GLOBE protocols manuals.

Programs such as GLOBE are excellent routes to disseminate science, technology, and environmental learning activities to both predominantly Hispanic and to economically challenged schools. Participation by the Hispanic education communities in such initiatives increases the skills, the scientific knowledge, and the numbers of Hispanic pre-college in-service and pre-service trained teachers. Teachers are the ones who foster and integrate educational activities into K-12 curricular development.

An efficient way to promote these activities is to strengthen, expand, and refocus the centers and programs for formal and informal K-12 education, to develop consortia between business, education, and government.

Industry can adopt K-12 schools. Higher education representatives can work with industry, pre-college teachers, and students to firmly establish serious and effective education outreach.

Universities can involve Hispanic undergraduates and graduates as peers and as role models for incoming Hispanic students. They are the best role models for their communities.

These initiatives will improve Hispanic retention and secondary education graduation rates, while simultaneously preparing an active Hispanic workforce to lead its destiny.

Two Trends in Teacher Education

BY GUSTAVO A. MELLANDER

Teaching has long been a professional magnet for upwardly bound Hispanics. Many have found fulfillment and respect as teachers. By all accounts, teaching continues to be a popular major for Hispanics in our colleges and universities.

But the profession is changing. Many new trends are developing in teacher education. I mention two that will impact all in the years ahead. One is a growing focus on parental involvement. The second is the potential contribution of technology. Let us explore each of them.

Parental Involvement

In addition to establishing a clear correlation between poverty and poor academic performance, educational researchers have also identified a clear positive correlation between parental involvement in their children's education and those children's academic success.

Millions of Americans are, of course, involved in their children's education. What might have been neglected until now are the potential negative effects suffered by children whose parents are not.

New Skills

A recent Harvard study, "New Skills for New Schools: Preparing Teachers in Family Involvement," reviews the research that demonstrates the importance of family involvement. It also discusses ways to train teachers in how to get families involved.

A major thrust of the recommendations is that teachers need to take on a large part of the responsibility of getting parents involved. That is not always a simple or easy task. Teachers might need special training to help them succeed at it.

The study calls upon the colleges and universities that engage in teacher education to make parental involvement a key element in their pre-service and in-service teacher training. Further, it calls upon state governments to include training in family involvement as a part of their certification requirements.

The study reviews a number of current college and university programs that focus on parental involvement. Many of these innovative programs suggest what might be adopted on a larger scale by other institutions.

These programs use a variety of techniques for training teachers. The techniques are interesting in themselves as they indicate the rich array of approaches used in teacher education in the U.S. today—role play, case method, cultural immersion, community experiences, self-reflection, research with families and communities, and interpersonal education.

A Caveat

There's a caveat about the Harvard study's call for greater focus on parental involvement in teacher education. Without question, the research findings demonstrate the value. If teachers across the country, particularly in the inner cities and isolated rural areas, were successful in engaging parents in ways suggested by the study, it would make a difference.

But encouraging parental involvement is only one of many demands for change that are being placed upon teachers and on the institutions that educate them. It competes for scarce time and resources with many other demands—including improved academic performance and accountability—and it is a step away from actual classroom teaching itself—one more demand placed upon teachers that makes them social workers as well as educators.

And what about the ever so many single-parent households? Those households are usually headed by the mother. The father is absent. The family lives in poverty. The mother struggles just to get food on the table. Can we really expect her to be involved in the daily grind of her children's education? Once again the crushing effect of poverty takes its toll.

Computer Technology

A second area receiving intense attention by those who teach the teachers is computer technology, particularly since the emergence of the World Wide Web.

Computers enter into the educational environment at different levels. At the most basic level, it is important for today's students to be able to use computers: computers are an integral part of the workplace. This level entails the subject matter of keyboarding, computer science, and other classes on using computers. It is a specialty area for teachers in our colleges and universities that prepare teachers in the same way that teachers of mathematics, history, and the sciences are educated.

At the next level, computers, when coupled with the World Wide Web, can provide significant new means of learning the subject matter taught in our schools. We are still learning about this aspect.

Increasingly, institutions that educate teachers are providing training in the use of computers and Web technology for learning. There are some who think that technology will revolutionize teaching and education. But even if it falls short of creating a revolution, computer technology is clearly going to play a major role in American education. And, we suggest, in world education.

National Ambitions

A recent federal program, dubbed "universal service," is in the process of dramatically changing our schools. Its goal is to network every single school in the country.

It goes one step further. For the past several years, Washington has provided special funding for computers for schools in high-poverty areas.

Thus, most of those schools have computer/student ratios almost on a par with Americas more affluent schools. The subsidy program will provide up to 90 percent of the costs of network connections for schools in high-poverty areas. It is hoped that computer and Web technology can help overcome some of the disparities between rich and poor schools. It is still too early to say whether that hope is realistic.

If this capability is going to live up to its promise, teachers have to know how to make use of it—at least as well as the students whom they are teaching. Pre-service and in-service training in the use of the technology is yet another demand on the teacher's time and on the institutions that prepare them.

There is a third level for using computers and the World Wide Web, and it involves the institutions that educate teachers. It is in the professional development of teachers themselves. These technologies are being used to augment classes in the institutions that educate teachers and are also extending the reach of these institutions beyond their campuses through distance learning. Here, too, it is too early to assess, but it is a development worth watching.

Resources at Our Fingertips

Today, we can call a number of Web sites. One that we recommend is that of the U.S. Department of Education at http://www.ed.gov. It has more than 20,000 pages of information related to education in the U.S. and around the world. From that site we have access to ERIC's comprehensive educational research database, which covers virtually every topic.

Those interested in American institutions that educate our teachers can visit the sites of the colleges and universities themselves. It is helpful, too, to visit the sites of such national organizations as the American Association of Colleges for Teacher Education (AACTE), the Association of Teacher Educators (ATE), and the National Council for Accreditation of Teacher Education (NCATE).

Dr. Mellander is a professor at George Mason University.
The Impact of Computerization on the GMAT

BY INÉS PINTO ALICEA

People interested in pursuing an MBA can no longer take the pencil and paper version of the Graduate Management Admissions Test (GMAT), the world's most widely used graduate school business exam. Since the test began to be offered solely on computers in the fall of 1997, educators, students, and testing experts have been debating the impact of computerization, particularly on women and minority students, who historically have scored lower on standardized tests.

"Tests are so important," said Cleveland State University Professor Rosemary S. Sutton. "They get you admitted into a university. We don't know who's going to be harmed by computerized testing, nor who's going to benefit. Maybe we'll find out in a few years, but by then a bunch of people will be harmed."

While the Graduate Management Admission Council (GMAC), which sponsors the GMAT, says that the test is not the sole criterion that business schools use to select students, it is an important indicator of potential future success.

Some schools also use the scores, along with other factors, to have merit-based scholarships to students. "Nicole Thomas, GMAC vice president and corporate secretary.

"The GMAT is a reliable measure of certain developed skills that have been found to be important in the study of management at the graduate level," said a GMAC web page. "Unlike undergraduate averages that vary in their meaning according to the grading standards of each institution, GMAT scores are based on the same standard for all candidates. Evidence indicates that the undergraduate record is generally at least as good a predictor of success as the test scores, and most schools give it as much weight as the scores."

Studies have shown that standardized tests consistently underpredict the academic performance of women and minorities, and the GMAT is no exception. The total score for the GMAT is reported on a scale ranging from 200 to 800 with a 40-point standard error of measurement, and it comprises three different scores: verbal, quantitative, and analytical writing. In 1999-95, the average scores on the GMAT for White students was 525 compared to 466 for Mexican Americans, 420 for Puerto Ricans and 467 for other Hispanic according to a 1996 study called the Graduate Management Admission Test Five-Year Summary by the GMAC. Also according to the report, the average score for men was 516 compared to 482 for female test-takers.

The question from an equity perspective becomes: How do you decide what kind of testing is fair for all groups? asked Sutton.

Test-makers face a huge challenge in addressing this issue. Claude Steele, a social psychologist professor at Stanford University, found that minority students often redouble their efforts during the tests to dispel negative stereotypes about minorities but then work too quickly or inefficiently and falter on the test. The percentage of Latino test-takers jumped 81 percent of all test-takers in 1999-95.
from 2.5 percent in 1991, a significant increase, said Chestang.

The Princeton, N.J.-based Educational Testing Service (ETS), which administers the test, said in a brochure called "Admissions Testing on Computer: Are You Ready?" that the scores from computer testing have been comparable to the scores from the paper tests. Critics of the computerized testing fear that the gaps in scores will widen because much of the research conducted on students who take a computerized version and a traditional version of a standardized test used the same test to determine whether students would get the same scores. Not only does that indicate an indifference to bias in inequities in standardized tests, but it also indicates that the gap in scores could widen because some students have more experience with computers and should perform better in that environment, argue those who beg for more caution in administering CAT versions.

"The paper versions of most standardized tests have inequities built into them so [test-makers] are perpetuating these inequities by using similar CAT versions," said Sutton. "We clearly need studies on high-stakes performance tests of different ethnic groups in different communities and of different social classes."

The computer-adaptive (CAT) version of the GMAT has some unique quirks that might affect the scores of the initial test-takers, those who are most likely to be accustomed to the paper format for standardized testing. Students can not leave any items blank on a computer-adaptive test since subsequent questions are customized based on each individual's response pattern. They can go back to review a previously selected answer.

**CAT Version Plusses**

The CAT version of the GMAT does offer a variety of benefits. Students can make an appointment six days per week, year-round, take the test at their convenience, and not have to wait for the mass administrations offered a limited number of times per year. Students can take the tests in private cubicles. People who want to retake the test can do so the next month and not wait until the next mass administration four months later. The CATs are better tailored to each test-taker's ability level because less time is spent answering questions that are too easy or too difficult. The test questions adapt the students' ability to answer the previous question, offering an easier question if the student answers the previous question incorrectly and a more difficult question if the student answers correctly. Scores are then based on the number of correct answers and the level of difficulty of the questions.

"These types of tests test a larger variety of skills, not just whether a person can pick A, B, C or D," said Sutton. "These tests are also more interactive."

In addition, there are fewer test questions than with traditional paper-based tests, and students have more time to complete the test, which could prove beneficial to minority students who have shown that they take more time to complete standardized tests. Sutton said another benefit of the computerized versions is that students can see their scores at the test center for the multiple choice sections of the test immediately after taking it. An official score report, including the analytical writing assessment, is sent to the student and institutions designated by the student about two weeks after testing compared to four to 10 weeks for the paper-based test, according to the GMAC.

The conversion to computer-adaptive testing has not been without their completed sections of the GMAT. "FairTest noted in its Winter 1998 edition of the Examiner "Even if scores have been correctly reported, the warning is certain to increase test anxiety. In December, the GMAT system crashed, leaving 1,300 anxious business school applicants facing blank screens."

Thomas Ewing, a spokesman for ETS, said that there were some problems when the computerized testing began but that they were minor problems that were corrected quickly. Chestang said the number of testing sites has almost doubled since the fall launch of the CATs to nearly 700 sites. "There have been problems, but by and large, the program has gone smoothly," said Ewing.

Despite some of the problems, ETS continues to stand by Baltimore-based Sylvan Learning Systems, which has a contract with ETS to deliver computer-based tests for academic admissions until 2005. Sylvan also delivers the Graduate Record Examination (GRE), the NCLEX exam for registered and practical nurses, and the Praxis Series exam for teachers, among others. It is conducting a pilot program to test for eventual broad-based computerization of the SAT, the standardized test taken by high school students and used for admissions into college.

"We took great care to choose a company which we felt could handle the complex administration and security needs for our program," said Ernest Anastasio, executive vice president of ETS. "Now, after a number of successful pilot programs and a careful, phased implementation process, we are pleased with the increased convenience that Sylvan is offering test-takers as well as the high level of security. Sylvan has been responsive and dependable, bringing unparalleled technology and distribution resources to the endeavor."

FairTest argues, however, that...
the GMAT should have followed the path of the GRE, used in the admissions process by graduate programs to supplement other indicators of students' potential for successful graduate study. Students are offered a choice between the computerized version and the traditional pencil-and-paper version. The paper version will be phased out by 1999. Chestang said the GMAC felt that the complex logistics and high costs involved with offering the test in both formats and the need to offer prospective MBA students a more convenient method of taking the test convinced the organization to launch CAT immediately. Many prospective MBA students are working people who plan to get their degrees part-time, so they need flexibility for taking the test, and the CAT offers that flexibility, said Chestang.

FairTest said the problems that have arisen in the conversion to computerization were due to a "revenue-driven rush to market a new technology before it was fully field-tested."

"Flaws in the new GMAT arose as soon as it was introduced," said FairTest Public Education Director Robert Schaeffer. "That's what happens when profits, not educational values, drive assessment decisions."

Schaeffer's comment must not be completely off mark. A news release from Sylvan addresses the issue of being able to offer more tests.

"While introducing a new technology is never easy, we have succeeded, together with ETS in testing several million people through the world's first global-delivers network for computer-based testing services," said Chris Howarth, chairman and CEO of Sylvan.

"Profits at Sylvan have increased significantly since the computerized GMAT tests went into effect. A news release from Sylvan showed that the total revenues for 1997 increased by 35 percent to $246.2 million from $181 million the previous year. A significant part of that increase in earnings came from the division that handles computerized testing. Not only did that division enjoy increased test volume from the conversion to computerized testing, but it also benefited from the price increase for the GMAT tests themselves. Though more costly to administer and provides test-takers with an unofficial score. For more information, call 1-800-982-6740 or look at <www.gmat.org>.

The question remains whether certain students, particularly ones who have had little previous access to computers, can narrow the gap in scores or whether the gap will widen. It is something that the Hispanic Association of Colleges and Universities (HACU), based in San Antonio, Texas, will be watching closely, particularly since the two organizations joined forces recently in a partnership agreement to work on a variety of issues affecting Hispanic-serving institutions. Dr. Martin Ahumada, HACU's vice president for research and education, said, "A 1997 study by ETS and the Council of Chief State School Officers, called Computers and Classrooms: The Status of Technology in U.S. Schools, presented some distal findings about computer access. The study found that the national student-to-computer ratio is 10 to 1 while the U.S. Department of Education recommends that the ratio be 5 to 1.

Students in schools with the largest percentage of poor and minority students have less access to most types of classroom technology."

"By one estimate, it will cost about $15 billion to make all of our schools technology-rich," said the report. "This is about $500 per student, five percent of total education spending, and about five times what we now spend on technology."

But a study by the Tomás Rivera Policy Institute, a think tank in Claremont, Calif., has some positive news about Latinos and computers. Though a few percent of households remain between Latinos and the general population on computer ownership, the rate of increase in computer ownership among Hispanic households was twice that of the general population. 130 percent versus 65 percent between 1994 and 1998.

GMAT test-makers said the belief that students who have had little or no experience with computers can do well on the computerized GMAT, even if they don't invest in test preparation software, or go to a testing site and pay for practice tests.

"Individuals can take the test even if they have no previous computer experience or even if they take the test on a computer using a mouse," Sutton disagrees. "But a tutor can not provide enough experience to have computer us become automatic."

In the new documentary, she asks students to recount when racist remarks had first been directed at them. In all instances, the students name a teacher.
Chicano Art on the Move
Silva Work Wraps ASU Bus

A colorful and unusual gift of public art now adorns a 40-foot bus that travels between Arizona State University-West and the main ASU campus seven times a day and to the ASU Downtown Center in the evenings.

The "bus wrap" painting, by acclaimed Chicano artist Simon Silva, depicts the people, land, buildings, elements of instruction, and even the wildlife of the 300-acre ASU-West campus.

Over several months, through advanced graphics technology, Mr. Silva's painting was transformed into a vinyl covering with a life expectancy of about five years. Supergraphics, Inc., of Sunnyvale, Calif., produced the bus wrap material. The company created the entire complete city bus wrap for Pepsico in 1992. Art received in a digital format from Simon Silva was printed onto 3-interconnect vinyl sheets with peel-away backing to form the overall design. The sheets were then installed on the bus in a manner similar to hanging wallpaper from the top down.

"We offer our bus art as a gift of beauty to the Valley," said ASU-
West provost, Elaine Maimon, “Through this innovative medium, people who might not be aware of ASU-West will gain an immediate vision of our remarkable campus."

Because the moveable art is traveling 140 miles or so a day, the painting is expected to reach the eyes of hundreds of thousands.

The bus itself is a 1997 Orion, 40 feet long, 12 feet high, and 9 feet wide, seating 42.

Artist Silva signed the bus after its unveiling last October. During which students, faculty, and staff collectively removed a huge blue tarp.

The bus is expected to be highly visible effective image awareness advertising for ASU-West. Compared to other forms of transit-oriented advertising, i.e., billboards, bus shelters, and city bus ads, the ASU-West bus wrap is less expensive and optimizes annual advertising funds to reach desired marketing goals,” according to ASU literature.

The average annual cost for five years of $10,080 includes the original painting and design and all advertising rights, materials, and media placement.

Works by Simon Silva have been commissioned by MALDEF, the Association of Mexican American Educators, UHME Magazine, the Language Foundation for the Arts, and for the movie, "Una Familia." They are also found in the private collections of Carmen Zapata.

Victor Villasenor, Edward James Olmos, Jaime Escalante, Olga Bruski, Ana Castellon, and Rudolph Vaeta, and in the corporate collection of the Bank of America.

Simon Silva, born in Mexico in 1961, received a B.F.A. from the Art Center College of Design, Pasadena, Calif., in 1986. From the early 90s to the present, he has lectured at conferences, schools, and universities throughout California and Texas.

Silva Speaks

As a Chicano artist, I celebrate my bilingual and bicultural life and hope that others will do the same. My art is a reflection of what I consider to be a great asset that we have in this country, that is, the opportunity to use our multicultural makeup to our advantage.

I was born in Mexico, Mexico, and was raised in Holtville, California. One of 11 children, I found myself picking crops at the early age of 8. We eventually became a migrant family traveling to Oregon and Washington to work. Because of the lack of respect for this type of labor and my family's lack of educational support, I grew up with a certain amount of shame about who I was.

"It wasn't until I came to..." ability that kept me out of trouble and helped nurture my self-esteem. In school, I decorated bulletin boards for my teachers and drew for my friends.

"After I graduated from the Art Center College of Design in Pasadena, I freelanced for several months, but could not get the type of work that I wanted. I decided that the best thing for me to do was to get a full-time job and continue my own personal work. I took a full-time position in the graphics department of Lockheed Martin in Ontario, California."

"Five years ago, I began to develop my current style, which is influenced by Chicano art and the Mexican muralists."

Simon Silva lives in San Bernardino, California, with his wife, Maria, and their two sons. He spends a great deal of his time traveling around the country giving presentations at schools. He finds it very important to inspire other kids by sharing his art and his personal experiences.

Subverting the Dominant Paradigm
Trinity’s Luis Figueroa Challenges Assumptions

By Suzanne Zack

The slogan 'Subvert the Dominant Paradigm,' emblazoned on a favorite T-shirt worn by Assistant Professor of History Luis A. Figueroa, who believes that the influence of the Caribbean and Latin America on the United States has been overshadowed by that of Europe. He is determined to set the record straight.

Figueroa challenges his students' assumptions about history. "The history of America is told as if the major historical link in the evolution of this country's culture and economy is only with Europe," Figueroa says. "That's not true. The relationship between the United States and the Caribbean and Latin America goes back to the very beginning of the country. People think the relationship between Latin America and the United States began in the 20th century, or with the United States' role in World War II, or with the United States' role in the Americas. They don't realize that the United States is a product of the Latin American world."

Figueroa is a native of Puerto Rico and the son of educators. He holds a doctoral degree from the University of Wisconsin. He joined the faculty two years ago after teaching for years at the University of Connecticut. He teaches courses in Caribbean, Latin American, Latino history, and also participates in the Latin American Caribbean Studies concentration within the International Studies program, as well as in American Studies program.

Innovative Teaching Method
Figueroa often punctuates lectures with personal stories. For instance, he explains how students of Puerto Rican ancestry profit from voting in federal elections despite the fact that they are citizens of the United States. Congress enacted two decades after the United States took the island from Spain. The law excluded Puerto Rican citizens from federal elections while living on the island. At the same time, a distinct political voice emerged. This semester, Figueroa guides students in his survey c...
on Puerto Rico as they collaborate with members of a Hartford community organization, La Casa de Puerto Rico, in comparing the status of Hartford's Hispanic population over time with its current socio-economic profile.

To foster a sense of intellectual community among students outside of the classroom, Figueroa's students post their papers on Trinity's electronic document exchange program, called DOCEx, and respond to assigned readings via the College's campus-wide electronic conferencing system, called Yapp Forum. The electronic dialogue encourages students to become more careful in their thinking and writing, Figueroa contends.

Last year, Figueroa employed the use of information technology as a central organizer of the year-long co-curricular program on decolonization, which, through a series of films, lecture-discussion sessions, and courses, examined the events that transformed the world from an arrangement of colonial powers to a new world order. He hopes to apply his interest in technology to a major co-curricular initiative focused on a global theme again this year: "Migrations, Diasporic Communities, and Transnational Identities." This project will explore how the movement of people, capital, and goods, the development of instantaneous forms of communication and exchange of cultural commodities, and international competition and global integration have brought new migration patterns and new challenges to ethnic and national identities.

A Consummate Teacher

Students in Figueroa's classes say that his approach works. Alicia F. Cacchione, class of 2000, a Latin American and Caribbean Studies major whose mother was born in Cuba, says Figueroa's course on "The Cuban Revolution: Historical Origins" helped her "to develop my opinion of the Cuban Revolution and look at a really personal event from a critical and analytical perspective." The course also gave Cacchione a new appreciation for the professional contributions of her great-great grandfather, Fernando Ortiz, the founder of ethnography in Cuba. "Professor Figueroa is the most passionate, dynamic, and intelligent professor I've ever had!" she exclaimed.

International Studies major Romae S. Gordon, also of the class of 2000, describes Figueroa as being "passionate about history and interested in sharing his ideas." Figueroa acknowledges his passion by saying, "If you believe in what you're doing and that what you're doing is important, it almost becomes a mission. My mission is to have my students understand that when they view or support something in the United States, the positions they take have ramifications not only here but also in Latin America and elsewhere."

An Important Scholar

Associate Professor of History and Department Chair Michael E. Lesz says of his colleague, Luis' presence has permitted the department to provide a new array of courses that have much amplified history offerings covering the Spanish-speaking societies of the Western Hemisphere.

A devoted scholar, Figueroa has presented papers at various international conferences. His latest book manuscript, which focuses on the transition from slavery to free labor in Guayama, Puerto Rico from 1850 to 1924, is under consideration for publication by the University of North Carolina Press. It is a work, says Lesz, "that promises to be an important contribution to Caribbean history. He is a scholar to be reckoned with in the Spanish-speaking world."

This article is reprinted with permission from MOSAIC, a publication of Trinity College, Hartford, Connecticut.
Many colleges and universities provide a first-class education. A good number of them offer students a fine value, combining that great education with reasonable tuition and fees. Oswego State University (the State University of New York, or SUNY, at Oswego) goes a step further by actually guaranteeing in writing its commitment to excellence and educational value. Oswego State has made the list of top 100 state college and university values in a new comparative analysis by the prestigious Kiplinger's Personal Finance Magazine that appeared last September. Over the past decade, such respected college guides as How to Get an Ivy League Education at a State University and U.S. News and World Report's America's Best Colleges have consistently ranked Oswego State University among the best educational buys in the country. Holding down the costs of higher education gives Oswego State University a lock on the Hispanic Outlook Honor Roll, and makes it a most promising place to consider for getting a great education at a reasonable cost.

Oswego's straightforward written certificate of guarantee reads: "We want to be absolutely clear about what we offer students and their families can expect to invest in earning a bachelor's degree at our college. Among the points of interest, Oswego State guarantees entering first-year students admission to a degree program that the necessary classes will be available to complete the degree in four years of full-time study. If a student meets academic expectations and still can not graduate after four years because of course availability, the college will enroll the student tuition free in the remaining courses necessary to meet graduation requirements. A similar tuition-free guarantee extended to transfer students admitted to a degree program to insure timely completion of a bachelor's degree."

Oswego also guarantees continued availability of small classes "because we believe that small classes offer students the opportunity for invaluable interaction with faculty." Oswego faculty members serve as mentors to students, help
them to shape their futures.

Since room and board account for about 60 percent of the cost of an Oswego residential education, the institution further guarantees that "Students entering Oswego in the fall of 1998 will not experience any increase in the cost of room and meal plan for four consecutive years." This means that at Oswego, the major cost of a residential education will be held constant for four years.

To qualify for the Oswego guarantee, students must commit to a degree program that satisfies General Education, a major program, and college requirements. First-year students must declare a major within three semesters, or earlier if required by their degree program. They must meet with their academic advisors at least once a semester. Students also must successfully complete an average of 15-plus credit hours per semester over four consecutive years of study, fulfill the total credit-hour requirements for the degree, and continue in good academic standing.

Oswego State University has ranked high on The Hispanic Outlook's survey of Hispanic-serving institutions, designating the institution one of the best colleges for Hispanics in the nation. Monica Soto, an admissions counselor who also is an advisor to the Latino Student Union, says that this is no surprise. He feels that Hispanics fit in well at Oswego. Soto observes, "It's taken for granted. They're like everyone else." He cites Oswego State's growing reputation among ethnic students, Oswego's diversity initiative, and its increased outreach downtown as factors in the growing number of Hispanic students who attend Oswego.

Honor Roll Facts in Brief

INSTITUTION:
Oswego State University
(the State University of New York at Oswego)

LOCATION:
Office of Admissions
Oswego State University
211 Culkin Hall
Oswego, New York 13126-3599
(315) 341-2250

ESTABLISHED:
1861

ENROLLMENT:
7082

DEGREE OFFERINGS:
Bachelor's
Master's
Certificate

ANNUAL TUITION:
$3,945 - undergraduate, New York State resident

NUMBER OF FACULTY:
Approximately 300 full-time

SEVERAL DEGREE PROGRAMS:
American Studies
Business Administration
Human Development
Linguistics
Meteorology
Public Justice
Technology Education

HISPANIC ENROLLMENT:
219 (3.2 percent of the undergraduate class)

NOTABLE HISPANIC-SERVING ORGANIZATIONS:
ALANA (African American, Latino, Asian, Native American League)
Caribbean Student Association
International Student Association
Latino Student Union
Global Living and Learning Center

INTERNET ADDRESS:
www.oswego.edu
University president Deborah F. Stanley was inaugurated on September 9, 1998. She sees a deeper meaning in these numbers at Oswego, noting, "Education can help free a person from the constraints of the past and free a people from the misuses of the present. In Oswego, we are not physically located where a cross-section of races and cultures has naturally formed, but we cannot maintain education without a cross-section of races and cultures equitably represented in our programs and people. Greater diversity is educationally and economically important as well as right. Access to public higher education is what makes it inherently noble."

Originally founded in 1861 as the Oswego Normal School, the institution became Oswego State Teachers College in 1918, while maintaining its high standards and reputation as a center for teacher preparation. Oswego broadened its academic perspective in 1962 when it became one of the Colleges of Arts and Sciences in the State University System. Collectively, these institutions became the University Colleges of the State University of New York. There are many points of historical interest at Oswego State University. Theodore Roosevelt unveiled the statue of Edward Austin Sheldon, the college's founder, and Franklin Delano Roosevelt laid the cornerstone for Park Hall. The Iroquois Confederacy and the lore of James Fenimore Cooper are recalled in the names of some of the campus landmarks.

The majority of students forming the undergraduate class are between the ages of 18 and 25. They are studying full time toward a degree and live in campus residence halls. The ratio of men to women is close to 1:1, with slightly more women attending. Students come from nearly every county in New York as well as from several other states and many foreign countries.

In the fall of 1997, there were 6,818 undergraduate students and 984 graduate students enrolled at Oswego. Hispanics made up 5.2 percent of the undergraduate class, African Americans 19.8 percent, Asian Pacific Islanders 1.7 percent, and Native Americans 0.5 percent, the same percentage as non-resident aliens.

Among the approximately 300 full-time faculty at Oswego are Fulbright scholars who have trained teachers in Ghana, studied work history in Africa, and won grants from the National Science Foundation, Smithsonian Institution, and the National Science Foundation. The State University of New York has honored dozens of Oswego professors for excellence in teaching.

The effective student-faculty ratio is 21:1. More than 75 percent of the full-time teaching faculty hold doctoral degrees or the terminal degree in their fields.

Oswego State's nearly 00-acre, tree-lined campus spreads out along the southern shore of majestic Lake Ontario—an awesome sight and a backdrop for some of the world's most spectacular sunsets. Within reach of that vista, academic facilities provide students with the latest learning tools. Penfield library is the largest library in upstate New York. It contains more than 25 million books, periodicals, and other materials, and on-line links to a vast inter-library loan system. The school has an extensive computer network that supports more than 300 PCs and Macs in eight on-campus computer labs. State-of-the-art research and teaching labs are furnished with the same hardware, software, and equipment being used in today's workplace.

Oswego State offers students interested in communications a wealth of print and broadcast facilities for cutting-edge media training. These include WTOP-TV, WNYO-FM, The Oswegonian, the campus newspaper, the Ontarian yearbook and several other publications, as well as the professionally-directed National Public Radio affiliate, WNYO-FM.

Al Roker, the affable weathercaster for NBC's Today show, a host of Al Roker Live on CNBC, is an alumnus of Oswego. He major in communications studies and was graduated with the class of 1979. He recalls, "By the end of my freshman year, I was assistant director of the campus radio station at Oswego—friends at other universities never touched a piece of equipment until their senior year."

Tyler Hall houses the acclaimed 550-seat Waterman Theater, intimate experimental theater, and Tyler Art Gallery. The Rice Cron Field Station features 400 acres of trail-crossed fields, streams, forests, 26-acre Rice Pond, and a study facility offering classroom and lab space and an indoor viewing gallery.
College Board Covers:
Education Loan Borowing

by Mari Carmen Sarracent

Joyce explains that the scholarship system was "intended to be a grant-based system for the neediest of students. It's a growing concern that students and family understand the responsibility of borrowing and repayment. And for the lowest income students, it's important to relay..."

Financing a college education is a pertinent issue that college-bound students face at some point in pursuing their academic careers. Heading for college is a moment anxiously awaited by students and parents alike, but the steps taken in order to make it possible are as important and nerve-wracking as that first day in class. Access to and the deciphering of all the college grant/aid information available is of utmost importance, and it is what delays many individuals from making their college dream a reality.

Jack Joyce, manager for communications and training at The College Board's College Scholarship Service (CSS), noted that at this session various aspects of the borrowing process, including the importance of debt counseling, were discussed and explained. "Borrowing has become a dominant resource in planning for education beyond high school. From 1980-81, the situation has been turned upside down in terms of grants versus loans," he stated.

Joyce explains that the scholarship system was "intended to be a..."

Organizations like The College Board attempt to show students and their parents that college is not a financial impossibility.

The College Board, a national membership association that supports educational transitions through programs and services in assessment, guidance, admission, placement, financial aid, and education reform, recently, at its national forum, devoted a session to this subject.

The conference session was called "Debt Be Not Proud: education loan borrowing and repayment from the students' perspective..."

"Families should approach the process of planning and paying for college as a partnership that begins with the parents but that also includes federal and state governments, private scholarship agencies, and colleges and universities," he adds.

While college tuition and fees for 1998-99 rose approximately four percent over the previous year according to a recent College Board survey, financial aid available to students reached record levels—more than $60 billion. However, most of this increase was in the form of loans rather than grants. According to The College Board data, at four-year private institutions, students are paying $7,23 more ($14,508 tuition)—a four-year public institutions, students are paying $132 more ($3,245 tuition); at two-year private institutions, students are paying $254 more ($5,335 tuition) and at two-year public institutions, students are paying $66 more ($1,105 tuition).

Federal Aid

"With the declining purchasing power of the Pell Grant, college..."
costs have increased faster than income or grant appropriation. Right now, the ratio is 40 percent grants, 60 percent loans. In the 1980s, it was the opposite,” noted Joyce.

According to Lawrence Gladieux, the College Board’s executive director for policy analysis, the Pell Grant, at its peak in the late 1970s, covered three-quarters of the average cost of attending a public four-year college and one-third the cost of a private four-year institution. “Today the Pell Grant covers only one-third the average cost of attending a public four-year college and one-seventh the cost of a private four-year college.”

“Back in 1992 when Congress reauthorized the Higher Education Act, it changed the eligibility criteria, allowing more students to get financial aid, but the increase was in the borrowing,” stated Joyce. The current law authorizes a maximum grant of $4,500 a year for the 1990-2000 academic year. The authorization will be increased by $300 for each of the subsequent three years and top out with a $4,400 increase in 2003-04. However, the current Pell appropriation provides a maximum grant of $3,000.

The law also increased the amount of money that independent (up to $5,000) and working dependent students (up to $2,200) may earn before it is counted against their eligibility to receive federal grant aid. And for those students who graduate in the top 10 percent of their high school class, there is the McGovern amendment, which doubles the amount of a Pell Grant for the first two years of undergraduate study.

The Higher Education Amendment of 1992 also included the President’s proposal to cut interest rates on new student loans by almost a full percentage point at 6 percent from 8.25 percent. The new law extends for five years the low student interest rate on new loans, which was first won in the 1993 budget and scheduled for 1996, proposed again in February 1998 by Vice President Gore, and available on a temporary basis since July 1.

According to a recent Department of Education report, Education Secretary Richard Riley described the national default statistic as the lowest ever in terms of borrowing activity. What has also changed is colleges’ involvement in informing students and parents about the loan process. Says Joyce, “Colleges have more responsibilities regarding explaining debt management that were not in place before. When they make a loan, they provide information up front. It used to be so much after the fact. Now it’s a much clearer understanding,” she says.

“Many families do not realize that there are resources to help them finance a college education. With careful planning and a little homework, more families can gather a wealth of available information and translate it into a package that will open the doors of college for their children.”

To help, the College Board continues to enhance its library of data that is available to students. “In addition to research, the College Board is developing consumer information pieces for students that include tips on how to be responsible when borrowing,” notes Joyce.

On its Web site at <www.collegeboard.org>, there is a section on financial aid services that contains useful information on college costs and financial aid facts as well as tip sheets on every aspect of loan borrowing, including: A Guide to Responsible Borrowing: College Credit Education Loan Repayment Benefits: Consolidating Your Education Loans: How to Choose a Student Loan Lender: Lending Loans at a Glance: Other Borrowing Options: Preliminary Projected Monthly Payment: Federal Stafford Program: and Q & A: The Cost of Borrowing a Subsidized Federal Stafford Loan.

The objective of the tip sheets is to demystify and familiarize students and their parents with financing options. For example, the Repayment Options fact sheet details the various repayment options available, such as graduated repayment, loan deferment, payment due date change, or loan consolidation. It even provides a chart to help students estimate the repayment period depending on the amount of the loan.

Other borrowing advice offers debt guidelines, such as repayment of undergraduate loans should not exceed eight percent of gross monthly income after college education.

Overall, the College Board encourages families that it’s never too late to start saving, and it communicates to financial aid counselors that providing comprehensive information about college financing is essential.

*Low income is defined as 125 percent of the poverty level or less. For a single individual, this is equal to an annual income of $8,858 or less. For a family of four, total income must equal $17,405 or less.

“All institutions” includes private two-year institutions.

Diversity Alive and Well in Kansas

Garden City Community College Paves the Way

BY STEVE QUAKENBUSH

Linda Brown, whose family filed the 1954 court case that created school desegregation across America, came to Garden City, Kansas, to share her experiences with listeners from throughout the nation.

So did Maria Hinojosa, an award-winning National Public Radio correspondent who tells the stories of voiceless immigrant women, barrio residents, and gang members.

The Southwest Kansas community of 30,000 also drew Guadalupe Quintanilla, who rose from her troubled school years in Brownsville, Texas, to a nomination for the post of U.S. Attorney General.

Each of these noted Americans served as past keynote speakers at an annual multistate gathering in Garden City that helps communities adapt to the dramatically changing ethnic diversity. The gathering will be hosted again this year.

"We're looking forward to the 1999 Multicultural Conference because Garden City is seen as a sort of mirror on the future," said Lea Ann Curtis, one of the conference organizers.

"The purpose is to share Garden City's experience, and the experience of others, in increasing cultural awareness and in sharing successful ways of building skills that are effective in multi-ethnic communities and organizations," said Barbara Thoman, another organizer.

Thoman and Curtis are staff members of Garden City Community College, the primary sponsor of the March 19 conference, now in its eighth year. Co-sponsors are GCCC TRIO Programs: Garden City's Unified School District 457; the Pioneer Health Network; the GCCC Allied Health Program; the Garden City Cultural Relations Board; and the Human Relations Commission of the neighboring community of Dodge City.

Garden City has encountered both problems and accomplishments since immigrants from Mexico, Central America, and Southeast Asia began joining the local population in the early 1980s. It is one of the fastest-growing cities in Kansas, and also includes the state's greatest ethnic diversity.

Primary presenters

Keynote speakers for the 1999 conference include:

Dr. Gene T. Chávez, president of Chávez and Associates, is past director of the Center for Multicultural Outreach in Overland Park, Kans. Chávez, who writes for the Kansas City Hispanic News, is also a public school counselor, working primarily with students and families from different cultural backgrounds. His presentation will explore similarities and differences among Latino groups, and the historical events that influence Latino culture today.

Jeannie Chávez-Martinez, who helps lead the Multicultural Resource Center at Pittsburg State University, Pittsburg, Kans., is recognized for her understanding of the ways prejudice begins, and how
on education for administrators and service providers, nurses, physicians, social workers, educators, business leaders and others.

Enid Sepúlveda-Rodríguez, MA. RCFP director of the Cardiopulmonary Department at Holy Cross Hospital in Taos, N. Mex. will outline fast-breaking issues in providing culturally-sensitive health care. She will also discuss guidelines for interviewing and assessing culturally diverse patients.

Workshops
A March 1st workshop, The Eye of the Beholder, will emphasize the ways that social interaction between groups of people is affected by nonverbal communication and cultural patterns. Break-out session topics include:
- How to See an Interpreter: Effectively Women of Color: What Their Writings Tell Us
- Racial Identity: What Difference Does it Make?
- Migration and Health Issues: Issues in Bilingual Education

Cultural Festival
The event incorporates a lunch and a cultural festival with food, entertainment, and music, to take place at an elementary school.

Time is set aside, too, for visitors to explore the community, including minority-owned businesses and varied neighborhoods.

In the past seven years, the conference has drawn teachers and other educators, health and medical personnel, social workers, business owners and operators, professionals, law enforcement personnel and others from Kansas, Texas, Oklahoma, Wisconsin, California, Missouri, Colorado, Nebraska, Minnesota, and other states.

Total fees for the 1990 event, which is based at the Garden City Community College campus, are $510. College credit is available from GCCC and Fort Hays State University at additional cost.

For registration and information, contact Edna Lopez at GCCC. <elopez@gccc.ks.us> or (316) 276-9515. The registration fax number is (316) 276-9680

Hispanic Student Day
Another ongoing diversity event at Garden City Community College is Hispanic Student Day, which celebrates its 12th year last November, drawing as its keynote Jimmy Cabrera, who spoke about values, self-discipline, and cultural awareness.

Cabrera, one of the professionals recognized by the National Speakers Association, agreed to come to Garden City after local students heard him at the U.S. Hispanic Leadership Conference in Chicago.

"When Jimmy Cabrera spoke in Chicago, he was someone who really touched all the people," said Cesar Martinez, a member of GCCC's Hispanic American Leadership Organization. "He had a positive message and he really kept people's attention. He talked about the butterfly and the caterpillar, and how you can't forget your goals if you want to be successful. You have to follow a dream and not forget it. There were 400 people there, and everyone's eyes were on him."

Cabrera's Lessons
An article in the Garden City Telegram by Hazel Stewart, La Semana editor, captured many of the lessons taught by Cabrera to encourage and motivate students at the conference.

"Cabrera said that when he was 14, she wrote: 'He tried to commit suicide because of the color of his skin. My mother told me five words that I still remember today: she said 'God doesn't make any junk.'"

He also told the youth, wrote Stewart, "Remember this: I'm not judged by the number of times I fail but by the number of times I succeed. He encouraged them to 'start over.'"
Latinos and the University of San Francisco
An Insider View's Diversity Efforts Shares Views

BY LUIS MURILLO

ABOUT THE AUTHOR:

Luis Murillo is presently an assistant professor of international business, management, and operations at the Viterbi School of Business, University of San Francisco. Earlier he worked at Boeing Commercial Airplane Co. in Seattle, Washington, as a senior engineer.

Dr. Murillo holds B.S. and M.S. degrees in aeronautics from MIT, a Ph.D. in aerospace engineering from the University of Southern California in Los Angeles, and a Ph.D. in management from U.C. Berkeley. He is the author of a 1700-page book on modern Panama, has published papers on technology transfer and third-world development, and is a frequent contributor in Panamanian newspapers on political and economic issues, and was recently invited by U.S.I. to present a seminar on modern Panama and the Canal.

November day, I attended an elegant luncheon honoring contributors to a scholarship fund drive. The scholarship fund had the appealing name of Saber es Poder, which roughly translates into “knowledge is power.” Its purpose is to assist worthy Latino students who could not otherwise afford the quality higher education offered by the University of San Francisco. The luncheon was even featured on the evening news of the Bay area Spanish-language television network.

I had the good fortune to share a table with the organizer, or main instigator, of the Saber es Poder drive, Father Luis Quintero, a soft-spoken and energetic Jesuit priest who is also an assistant at the university president. At the same table were one of the scholarship fund beneficiaries—a young Mexican American student halfway through the USF law program—and an older Hispanic man who had gotten his degree at USF back in 1950 and who proudly showed me that year’s graduating class book with his picture in it. And another alumna who surprised me because she was an Anglo American (a member of the ethnic majority in the United States) with no apparent connection to the Latino community.

One suspects that some contributors to the scholarship fund to whom we have no ethnic or cultural links to Hispanics but contribute to it out of pure altruism and the desire to see a worthy segment of society achieve its full potential. That potential, at least judging by the remarks made by the scholarship students present, was quite obvious.

Saber es Poder is probably the most visible dimension of the USF effort to become involved with the local Latino community (which in San Francisco is enormously diverse). This endeavor follows a desire to implement the rather mystical tenets found in this Jesuit university’s mission statement.

According to that statement, USF is supposed to train leaders who will work for justice for all people and who will shape a multicultural world.

Another enterprise at USF devoted to Latino-Hispanic issues is the Center for Latino Studies in the Americas, or CELANA. This center was organized by a group of USF faculty interested in Latino problems and culture and led by psychology professor Gerardo Marrero. It was established in 1990 and in its short life has managed to raise the visibility of Latino/Hispanic culture on the university and throughout northern California.

CELANA covers five thematic areas: literature and literary criticism, ethnic and political identities, environmental and economic issues, history and religion, and contemporary social issues such as migration, violence, and substance abuse.

An interesting aspect of CELANA activities is its involvement with cultural, political, and economic developments in Latin America. The Center recognizes that problems south of the border impact the life of large segments of
the Latino communities of the United States. This is certainly the case for the large Mexican American population of Southern California and Texas, and the Cuban American community of Florida.

With a mission that is preponderantly academic, CELASA pays considerable attention to the dissemination of the Spanish language and literary works written in that tongue. The Center might be correct on this emphasis, since probably the Spanish language is the single most important factor uniting the diverse Latino and Hispanic communities in the United States. (No diverse are these communities, in fact, that their leaders cannot agree on a common name that would cover all of them.)

CELASA offers, at the undergraduate level, a Certificate in Latin American Studies, which is an interdisciplinary program with courses in history, politics, economics, theology, and Spanish. Again, the coverage of topics is rather broad, encompassing the countries of Latin America and their expatriate communities living north of the Rio Grande, as well as second- or third-generation Latinos established permanently in the United States.

In October of 1997, CELASA organized a rather successful nationwide conference called "Hispanic Cultural Locations." Latino scholars from 35 different states and eight countries participated, presenting papers on different branches of the social sciences.

If there is a shortcoming to be mentioned about CELASA, it is its almost complete ignorance of the hard sciences. Perhaps there is an explanation: Latino communities are still behind in the economic hierarchy of the United States and at a stage of development where attention to the traditional sciences such as physics, mathematics, and chemistry, in addition to the engineering fields, might not be seen as a matter of urgency. This attitude, however, might in the long run affect negatively these communities.

With dynamic programs such as "Saber es Poder" and CELASA, the University of San Francisco is well represented among those institutions of higher education that are taking seriously their social responsibility. However, more is needed.

An effort that is conducive to serving the needs of ethnic groups to be efficacious has to be persuasive. Every single department of the institution has to become involved. However, leadership should belong to the academic departments.

Several dimensions should be considered in a complete program to implement ethnic diversity. Purely academic ones have to do with the dissemination of cultural aspects and the emphasizing of scholastic achievement. Both should raise the level of self-esteem among faculty and students of Latino/Hispanic backgrounds.

Then, from the operational perspective, an affirmative program of faculty recruitment from the appropriate ethnic background or knowledge of a particular culture should be implemented. A similar program of active recruitment should be carried out at the level of the student body.

However, the quality of those students brought into the university must be carefully monitored. Here is where a university sincerely devoted to its mission to achieve ethnic diversity will stand out. A judiciously designed program of reaching out to the diverse cultural groups is highly valuable. Attention paid to remedial courses or to cooperative structures with local high schools in disadvantaged areas, such as the Mission district in San Francisco, should efficiently work towards the improvement of the quality of the students recruited into the institution.

Finally, of course, talented Latino students will need financial aid. At USF, very few students from Latino families can afford tuition, fees, room and board, and the cost of books. A very aggressive program of financial aid is absolutely essential.

The University of San Francisco appears to provide a useful benchmark, even though its program to serve the Latino segment of society is incomplete. Other institutions might be advised to examine that benchmark and solicit advice from USF.
Two of Four Winners Hispanic

Central Washington University Honors Teaching Excellence

by Barbara Radke

Two of the 1998 Excellence in Teaching new faculty award winners at Central Washington University are Hispanic. Each represents a different CWU academic college, but all four have more in common than top classroom evaluations from students and from faculty colleagues.

They all started teaching at Central within the last four years, and all earned their Ph.D.s in the past five.

Respect for students ranks at the top of their teaching values scale, and all are well known for being available to students outside the classroom—there's not a nine-to-five try in the bunch.

Two have theater experience and consider teaching part-time performance, two teach CWU students new languages, and all four share a sense of teaching as high adventure.

All provide a glimpse of what makes them tick as Central's top new teachers.

Javier Martínez de Velasco, professor of Spanish in the CWU foreign language department, is the 1998 award winner from CWU’s college of arts and humanities. He completed his Ph.D. in Spanish this summer, directing CWU’s La Coruna study abroad program.

“I grew up in northern Spain in a bilingual region, so I spoke two languages from the age of three or four years. I have always been fascinated by languages—they have opened so many new worlds to me,” he says.

“I was a very demanding student. And now, as a professor, I reflect on what I expected of my instructors. I had a passion for learning, and it was a frustration to find so many of my professors didn’t share that passion. But the professors that had even more passion than I—they provoked more excitement in me!” he recalls.

“I think of language as a means of doing just about everything you do—you use it in all your activities. I create a very natural atmosphere in the classroom: language should be lived—and used for everything,” explains Martínez de Velasco.

“I treat my students with a lot of respect. That’s very important in second language study. It can be very embarrassing to be a 20-year-old but to speak like a six-year-old. Language students grow very fast in their communication skills, but to be six years old in public, in front of other people, can be hard. I value their learning a lot, and I sometimes let them enjoy being six-year-olds—reawakening their curiosity towards everything. Sometimes a little [child] came in class, it's very effective.

Martínez de Velasco and his wife have a 14-month-old daughter. and he says, "We are very committed to raising her bilingual, able to speak perfectly in both languages, to learn there are two codes she can use to communicate. I always speak to her in Spanish; my wife always speaks to her in English.

Besides his Spanish language classes, Martínez de Velasco teaches a Spanish or Latin American theater class—his specialty—every year. "Theater, more than any other literary genre, has the potential for language learning. Reading in class, becoming another person, is an effective way to think in the language. It’s my favorite class to teach!" says the, "I also write poetry and theater pieces.

Agustín Fuentes. anthropology, is starting his third year at Central. The 1998 teaching award winner for the CWU college of sciences, he earned his Ph.D. in anthropology at the University of California-Berkeley (UCB).

This summer, he directed Central’s summer program in Bali’s bird monkey forest, where he has done extensive research on monogamy among macaques.

Fuentes says that the inspiration for his career comes from both school and home. "Teaching is one of the big reasons I am here at Central. And part of my teaching here is a result of amazing professors at UC Berkeley. They’re the model for my 100 percent method—100 percent teaching, 100 percent research, and 100 (well, maybe 50) percent service. I take issue with anyone who compartmentalizes a professor’s time—I’m always teaching, I’m always researching, I’m always doing service. The whole thing fits together.”

He continues: “And it’s not just my UC-Berkeley experience. My mother is an elementary teacher. My father is a university professor. My two sisters are primary school teachers. I’ve been in school literally since I started to gurgle—at the age of six months. I’ve never really left school, and I never intend to.”

The professor, who’s described by students and colleagues alike as “animated, enthusiastic, and high-energy,” says: “I love what I do. Teaching is part of my performance, and I was on-stage in high school and college. I was even a theater major for awhile.”

Fuentes adds: “With teaching, though, something happens—you can never describe it. Whether it’s lecturing or in a hands-on lab experience, if it’s happening the way you want it to, afterwards you can’t actu
ally remember exactly what happened—I really enter a blissful state and that enjoyment is contagious. The feedback I get from students is really real—a real rush—to see the gleam in their eyes, that 'aha' of getting something not in the textbooks but something new firing in their brain'.

It's not all just flamboyance and bluster for Fuentes, though. "Another thing happens in the classroom—my mother and father are both politically active, believers that professors have a moral obligation to open doors for their students, to introduce them to the possibilities that education brings. It's that old mandate of the liberal arts—creating citizens."

Fuentes says he's a demanding professor. 'People have to be pushed and not coddled. They have to earn grades, not receive them. I demand respect from students, and I really respect students. There's nothing more honorable than learning.'

Carol Butterfield, teacher education programs, and winner of the CWL College of Education and Professional Studies 1998 teaching award, earned her Ph.D in Education at the University of Arizona. She says her first-year teaching experience, fresh out of college "with a traditional teacher education background," made an indelible stamp on her teaching career. "I ended up in an Inupiaq village in the Alaskan bush, 60 miles south of Point Barrow, with float planes being the only way in or out. When I arrived, the folks there told me I'd be teaching K-12 special education—I have no preparation for that—and no teaching materials, and—oh yeah—no room in the school, so I'd be teaching in my house."

"That year I learned how to create—and it influenced me. I'm determined that my students learn how to improvise and apply what they know in new, unexpected ways and settings."

At Central, Butterfield teaches life lecturing, plenty of time for student discussion and reflecting, along with small-group interaction.

She reports lots of similarities between teaching prospective reading teachers and those headed toward ESL. What's the major difference? "Students learn that ESL language learners have a lot of knowledge in their own language and culture, which they might not be able to produce in their second language. Butterfield says, 'It really helps students to discover that, as teachers, they can learn from their ESL students. It's a real eye-opener.'"

Boyle says, in fact, to make his point, he doesn't even use a textbook, assigning instead current articles from the Wall Street Journal, Business Week, and other business-related publications.

For Boyle, teaching isn't some magic-filled mystery; he says he takes a straight-forward approach. "Define what you want to teach, have the right goals, and—half the battle—figure out ways to get the information across, pique their interest, and make it relevant. Then, you structure the activities around those goals."

"Define what you want to teach. Have the right goals, and—half the battle—figure out ways to get the information across, pique their interest, and make it relevant. Then, you structure the activities around those goals," he says. "I use team projects and exercises, case analyses and role-playing to build students thinking and decision skills."

As a teacher, Boyle says he was greatly influenced by his own professors. "I happened to be exposed to extremely good teachers when I was getting my Ph.D. at Cornell. Good teachers influence good teachers. Although I got a research degree, I want to teach—and to teach well. I value teaching, so I work hard at it."

Boyle concludes, "I know what I want to accomplish in the class. I think it's really important to educate people, and I'm always interested in getting more educated—it's a case of reciprocate and pass it on."
Agosin Honored for Human Rights Leadership

The United Nations Association of Greater Boston (UNA-GB) has honored Wellesley College (Mass.) Professor of Spanish Marjorie Agosin with a Leadership Award for her contributions to international understanding and human rights. An internationally recognized poet, Agosin is a native of Chile.

Each year the UNA-GB honors "citizens of Massachusetts" who have made significant contributions to greater international understanding.

Agosin won the 1995 Latino Literature Prize for poetry for her book, Toward the Splendid City (Bilingual Press/Editonal Bilingue, 1994). She also was awarded the Letras de Oro 1995 Prize for poetry, presented by Spain's Ministry of Culture and the North-South Center of the University of Miami, for her book, Voz de Estrellada.

Rocha Wins Binational Painting Contest

University of Texas-San Antonio student Gil Rocha's manner is soft-spoken and unassuming. His paintings are anything but. They spoke so loudly that Rocha won first place in the 1998 Binational Siqueiros-Pollock Painting Contest. The contest required entrants to reside along the U.S./Mexican border and their entries to relate to border issues.

It is said that Rocha's work incorporates the melancholy of border life from commercialism to the red-light district to drug-smuggling dogs and police searches. Among Rocha's mixed media images are people stuffed into cardboard boxes and the Virgin of Guadalupe images replaced by a huge megaphone.

Rocha said he hopes to someday support himself with painting and exhibiting, but graduate school and teaching also are important goals.

NMSU Instructor Produces Spanish CD-ROM Package

A New Mexico State University instructor has put Spanish language lessons on CD-ROM for students, travelers, and business people.

"Spanish-Learning Tools That Work" is aimed at middle-schoolers to adults and meets national standards in foreign language education.

Profiles are included on every Spanish-speaking country in the world, a helpful feature for travelers, Longwell said. The profiles contain photos and information on each country's geography, people, government, common phrases and greetings, and even food.

The CD package is manufactured by the Learning Co., based in Boston, Mass., and sells for about $40 at computer stores such as Circuit City and CompUSA. It runs on Windows platforms and is compatible with Microsoft Explorer and Netscape Internet search engines. A disk of the best educational Spanish Internet sites for language students is included.

Rodriguez Editing Bilingual Education Journal

For nearly a year, Carlos Rodriguez, director of the bilingual education program at Southwest Texas State (SWT) University, has been the editor-in-chief of the Journal of the Texas Association for Bilingual Education. A member of the association (TABE) for more than 30 years, Rodriguez assumed the non-salaried position last May.

"In 1997, the board of directors of TABE decided to give the publication more structure and voted to select an editor to serve a three-year term," Rodriguez explained. "I thought I had enough knowledge and experience to apply to this activity and make it a professional publication, while meeting the goals of the organization to inform the public-at-large of bilingual education."

Nancy Ramos and Kathy Fite, both curriculum and instruction professors at SWT, were appointed by Rodriguez as associate editors.

An alumnus of SWT, Rodriguez earned degrees in education, journalism, and educational administration. He has a doctorate from the University of Texas-Austin.

Luján and Thiesfield Join CSU

The Connecticut State University System recently announced two additions to its staff: Dr. Herman Luján as Chief Academic Officer and Yvette Meléndez Thiesfield as Chief Administrative Officer.

Luján has diverse and extensive experience at all levels of university administration with particular expertise in university governance, institutional and statewide policy, public planning, governmental and business relations, community leadership and board staffing.

A member of Hispanic Outlook's editorial board from 1992-1997, Luján has a bachelor's from St. Mary's College of California; a master's from the University of California-Berkeley; and a doctorate from the University of Idaho. He also received an Honorary Doctor of Humane Letters from St. Mary's College of California.

Thiesfield is a consultant nationally on
organizational culture change and diversity management. She actively volunteers her talents as a member of the National Board of Directors of the YWCA of the United States, a trustee of the Hartford Seminary, a Coporator of The Village for Families and Children, and a member of the Board of Founders for the Connecticut Chapter of the American Leadership Forum.

She has a bachelor’s from Brooklyn College and a master’s from the Hartford Graduate Center.

University of Oregon Honors Delgado

University of Colorado-Boulder law professor Richard Delgado was named the 18th annual Wayne Morse Professor of Law and Politics at the University of Oregon in Eugene.

Delgado is a Jean Lindsley Professor of Law. While in Eugene, he gave a series of talks, seminars, and colloquia, culminating in his Wayne Morse Address titled “No Mercy: How Conservative Think Tanks and Foundations Changed America’s Social Agenda.”

Delgado was also selected to deliver the annual Hugo Black lecture at the University of Alabama Law School at Tuscaloosa. The lecture provides an opportunity for a judge, law professor, or other legal figure to address cutting-edge social issues. The title of Delgado’s address was “Arguments Against—and the Future of—Affirmative Action.”

Last fall, Delgado delivered the Corcoran Lecture at Thomas Cooley Law School in Lansing, Mich., and the keynote address on the role of diversity in higher education at the University of Utah in Salt Lake City.

M-DCC Professors Receive National Award

Dr. Amerigo Paredes and Dr. Michael Lenaghan, both of Miami-Dade Community College (M-DCC) in Florida, were presented with the 1998 Faculty Team Recognition Award by the Consortium for Community College Development, a research group at the University of Michigan that studies new practices in teaching and learning in community colleges.

Gancedo, Associate Dean for Natural and Social Sciences at the Wolfson Campus, and Lenaghan, Chair of Social Sciences at the North Campus, received the award for their teamwork in developing and advising M-DCC’s student Model United Nations (U.N.) team.

The national Model United Nations Delegation is a student simulation of the U.N. that meets once a year in New York. Each college and university assumes the identity of a country and takes a position on different issues, representing that country in the U.N. M-DCC’s student delegation is one of a handful of community college teams invited to participate with more than 290 universities in the Delegation.

Paredes Receives Lifetime Achievement Award

Dr. Amerigo Paredes (pictured below left), professor emeritus of anthropology and folklore at the University of Texas (UT)-Austin, received a lifetime achievement award on Nov. 14 at the State Capitol in Austin during the opening session of the Texas Book Festival. First Lady Laura Bush, honorary chair of the festival, presented the award to the 83-year-old author and founder of Mexican American studies, border studies, and the post-modern movement in anthropology. Shown with Paredes (l. to r.) are Laura Bush, singer/songwriter Isla Hinojosa, and UT-Austin Professor Rolando Hinojosa-Smith.

Colón—ASPIRA’s New Leader

ASPIRA, Inc. of New Jersey, the state’s largest and oldest Latino youth development organization, has a new Executive Director—William Colón. With a background in business and education, Colón has propelled the agency forward like never before.

Since Colón took over the reins, ASPIRA has:

• received an A+ rating from the American Institute of Philanthropy, making it one of the ten most effective charitable organizations in the United States.
• opened a Center for the Latino Community of Jersey City.
• expanded its parent-training programs.
• and received an efficiency rate of 98% from the New Jersey Department of Community Affairs for programs on early intervention and leadership development.

These achievements, accompanied by the enthusiasm over Colón’s arrival, and ASPIRA’s continued success in keeping Latino and other minority youth in school (90% of all Aspirantes remain in school), have resulted in new funding for ASPIRA programs.

Colón serves on the board of directors of the Education Law Center and teaches evening classes as an adjunct professor of Business at Essex County College.

Newsmakers at UTSA

Sam González, director of Career Services at the University of Texas-San Antonio (UTSA), has been appointed to the National Association of Colleges and Employers’ Professional Alliance Taskforce.

The taskforce will explore possibilities for mergers or collaborative initiatives with other national associations in the career services/employment arena.

UTSA is represented on the taskforce along with MIT, the University of North Carolina-Chapel Hill, the University of
California-Berkeley, and several major employers.

Eight UTSA students made it to the final round of competition at the three-state National Association of Teachers of Singing Convention, held in Oklahoma City in November. The eight UTSA vocalists were the most from a single school to reach the finals.

Among the UTSA finalists were Mireya Rodríguez and Melanie Medrano. Rodríguez was a first place winner.

Thirty-four UTSA voice students competed in a field of 70 students from virtually every college music department in Texas, Oklahoma, and New Mexico.

**“Miss Jalisco” Helping Others**

At her mother’s suggestion, North Central College (Ill.) junior Cynthia Duron recently entered and won the “Miss Jalisco” beauty pageant, which is run by the Federación de Clubes de Ciencias del Medio Oeste. Jalisco is a state in Mexico and, like other Mexican states, has seen many of its citizens emigrate to the United States. In Chicago, people who hail from different states in each state frequently form clubs to promote solidarity and pride. Duron represented La Barca, her mother’s hometown.

Initially reluctant to enter the pageant, Duron had said, “I’m not into beauty pageants... I want to do something that will benefit people.”

And now she’s getting a chance to do just that.

Having won a $1,000 prize, a banner, and an all-expense paid trip to Jalisco for a week, Duron is using her new title to help improve opportunities for “the Hispanic race.” She wants to get communication going between Hispanics who come from different Latin American countries. “Hispanics have many aspirations, she says, “but we’re not united.”

At North Central, Duron has been involved with the Office of Multicultural Affairs and the Hispanic Heritage Month planning committee.

### Daley Honored for Excellence

The Illinois Community College Board (ICCB) has announced that Richard J. Daley College has won the ICCB Award for Excellence in Learning-Centered Instruction. The award was presented to Dr. Ted Martínez, Jr., college president. The award specifically recognizes the college for its “centrifugal learning” initiative through which the college is integrating technology into its curriculum.

“We receive this award with great pleasure,” said Martinez. “All colleges are challenged by the rapid growth and expansion of technology. I hope our approach to moving steadily ahead, integrating technology into the curriculum can be a model for other colleges facing this challenge.”

Working closely with the Chicago Public Schools, Daley College has established several programs to begin preparing students at the middle and high school level for careers in science and technology.

### Barroso and Alonso Honored by MIP

The Miami Institute of Psychology (MiP) has honored Dr. Gerald Specter, Ms. Diana Barroso, and Ms. Evangelina Alonso as 1998’s outstanding faculty members in the doctoral, master’s, and undergraduate programs, respectively. The awards were presented by Mr. Antonio Vázquez, president of the Board of Trustees, and Dr. Salvador Santiago-Negron, president, at the institutions’ Annual Faculty Appreciation Evening.

### Journal Names Bixler-Márquez to Editorial Board

Dennis Bixler-Márquez, director of Chicano Studies and professor of teacher education at the University of Texas-El Paso, has been named to the editorial board of the *Bilingual Research Journal*, published by the National Association for Bilingual Education and the Center for Bilingual Education and Research at Arizona State University.

The journal is an interdisciplinary, peer-reviewed publication that serves as a forum for research, policy analyses, evaluation studies, and essays related to bilingualism and schooling.

### GRCC Culinary Students Garner Awards

Culinary students from Grand Rapids Community College’s (GRCC) Hospitality Education Department (HED) in Michigan garnered 22 awards at the 1st International Culinary Students Competition for Tourism and Catering Institutions in St. George’s Bay, Malta.

Eduardo Fuentes and five others from GRCC represented the United States and competed with students from Belgium, England, France, Germany, Malta, and Scotland for gold, silver, and bronze medals during the five-day hot and cold food competion.

Fuentes won the Gold Medal-National Team Award, Silver Medal-Regional Team Award, Bronze Medal-Individual, and two Certificates of Merit-Individual.

“We are extremely proud of the professionalism demonstrated by our students and the outstanding direction provided by culinary team coaches Angus Campbell and Robert Monaldi,” said Robert Garlough, GRCC HED Director and International Culinary Team Manager.
Two $1,000 scholarships will be offered each year to a freshman and sophomore student who have demonstrated an interest in Chicano Studies. The scholarship is for $500 per semester, says Antonio Rios-Bustamante. UW Chicano Studies program director (pictured at left, with Trustees Peter M. Jorgensen and Geraldine "Jeri" Kirk).

Starting this spring, Chicano Studies was to be offered as an academic minor in the UW College of Arts and Sciences. Rios-Bustamante, a faculty member in the UW Department of History, was developing a curriculum plan and requirements for the academic minor.

Applications for the scholarships have to include a one-page statement demonstrating an interest in Chicano heritage and culture, copies of transcripts, and proof of financial need.

**Alianza Conference at UTPA**

Representatives from five universities met in a two-day conference at The University of Texas-Pan American (UTPA) in an effort to develop a comprehensive, binational, and interdisciplinary program for teacher preparation and leadership development.

The Alianza program, a collaboration between UTPA, Intercultural Development Research Association (IDRA), Mexican and American Solidarity Foundation, California State University-Los Angeles, The University of Texas-San Antonio, Southwest Texas State University, and Arizona State University, is designed to develop future qualified bilingual education student teachers and administrators (teachers trained at universities in Mexico).

According to Dr. Hilda Meirano, dean of the College of Education at UTPA, this binational project is enabling 200 teachers to become leaders in bilingual and multicultural settings.

Maria Rubledo Montecel of IDRA said the project enhances the capacity of Latino and non-Latino students and educators to speak Spanish and work in cross-cultural environments, essential in the 21st century.

**U-M Studies Latino Mothers' Health Issues**

Hispanic children of overweight or obese mothers are more likely to weigh more than the average U.S. child and could have a greater risk of becoming obese or developing problems with high blood pressure and high blood sugar later in life, according to a new University of Michigan (U-M) study.

The study examined the effects that obesity and high blood sugar in Hispanic women had on the birth weights of their children. The children in the study, taken in an area where the majority of families live below poverty level, were born weighing an average of 7.6 pounds, compared with a U.S. average of 7.3 pounds.

"Even though they don't have very small babies, they have very heavy babies who are at risk for a host of chronic illnesses later in life," said Edith Kief, assistant professor of health behavior and health education at U-M's School of Public Health, who is the lead author of the study.

Previously, high birth weights were recognized as a healthy attribute since the children born in impoverished communities are more likely to be born weighing less than the average infant.

Most of the women were overweight or obese, and about 7 percent were diabetic. About one-third of the women had high blood sugar levels.

The study was co-authored by Ricardo Guzman, Dr. George Nolan, and Dr. Allison Ventura.

**USF Presents Asian American/ Latino Dialogue**

A dialogue between leading Asian American and Latino social activists was the focus of a free public presentation at the University of San Francisco (USF) in December.

The event, "Dialogues with Asian American and Latino Social Activists: Localizing Literary Production and Cultural Politics in the Global Sphere," featured Ruben Martinez, an Emmy Award-winning journalist, poet, and performer, and Diane Yu-Mei...
Wong, a playwright, newspaper columnist, freelance writer, and editor.

Martinez is an associate editor at Pacific News Service and is co-host of Life and Times, a Los Angeles PBS-affiliate KCET-TV series on politics and culture.

Wong is the program director of UNITY: Journalists of Color Inc. and is the executive director of the Asian American Journalists Association.

The presentation was organized by the faculty Rod Hernández, Irving Scholar, English; Eileen Fung, assistant professor of English; and Julio Moreno, assistant professor of history.

Colorado Mountain College Launches Higher Education Web Site

If one wants to learn more about higher education options, career choices, and financial resources for college, then he/she can stop by <www.coloradomtn.edu/estoucan>, the new on-line college resource from Colorado Mountain College (CMC). It has intriguing links to sites such as Career-O-rama and Counselor-O-Matic.

This new college search Web site is not a gimmick.

Potential students, including Hispanics, can access the site as a one-stop college information resource.

CMC has compiled a mega Internet resource directory to help prospective college students collect information about attending an college, university, or trade school across America and beyond.

It provides comprehensive links to the country’s most complete higher education resources, including information on colleges, financial aid, careers, admission guidelines, and more. The site also has links to on-line tools designed to help prospective college students evaluate their strengths and plan their careers.

Repertorio Español: Cuba Teatro

Repertorio Español is a professional company that has been active since 1968. It presents Spanish-language theatre in intelligent, innovative productions. The company creates musical and dramatic works of classical and contemporary theatre and produces them in rotating repertoires. The artistic excellence of the company has earned it worldwide recognition, including one of the few Ongan Ensemble Grants from the National Endowment for the Arts, four OBIE Awards, two New York State Governor’s Arts Awards, and consistently favorable reviews from both Spanish and English theatre critics. The company’s diverse education programs include local and national tours, study guides for teachers who bring classes to its classical, contemporary, and musical performances, and special educational performances at its resident theatre in New York City.

Repertorio Español will soon be wrapping up Cuba Teatro: 1998-1999 A Season of Important Cuban and Cuban-American Theater. Plays already presented included: Revoltillo y Broken Eggs), Parece Blanca (She Looks Black), and Vagos Rumores (Obstinate Rumors), as well as the all-female string orchestra, Camerata Rameu. There is still time to catch the plays Fresa y Chocolate (Strawberry & Chocolate), written by Senel Paz, directed by René Buch; and Las Pagas Saben Yadar, written and directed by Nélson Estofinó and starring Adria Santana, Cuba’s renowned actress.

University of Massachusetts Honors Latin American Leaders

A convocation honoring four Latin American leaders and two University staff members was held at the University of Massachusetts (U-Mass)-Amherst. The event was part of a two-day conference sponsored by the new Center for Latin American, Caribbean, and Latin Studies.

The convocation, “El Nuevo Mundo,” celebrated the creation of the new center and the 25th anniversary of U-Mass’ Bilingual College Program, an academic support program for bilingual students pursuing undergraduate degrees. Honorary degrees were awarded to Ramon de la Peta, president of one of Mexico’s leading universities, the Instituto Tecnológico de Estudios Superiores de Monterrey, Antonia Pantoja, founder of the Puerto Rican education advocacy group ASPIRA, Luis Pérez, the first Puerto Rican to be named to a judgeship in Massachusetts, and Lauris Lomnitz, an anthropologist who has published several studies of social class structures in Latin America.

Two U Mass staff members, Pauline Collins and Benjamin Rodriguez, each received a Chancellor’s Medal, the highest honor given by the school for service to the University.

Smithsonian Purchases Trejo’s Sculpture

The National Gallery of American Art at the Smithsonian Institute in Washington, D.C., has purchased a major work of sculpture by Rubén Trejo, a professor of art at Eastern Washington University (Wash.).

The work, “Codex for the 21st Century,” is scheduled to be part of a national traveling exhibition for two years and then will return to the Smithsonian, Trejo said.

The sculpture is a large work, more than 20 feet in scale. It shows 200 bent and welded nails arranged in a grid. The nails look like calligraphy, turning the sum of the whole into a visual metaphor for language. Accompanying the sculpture is a text that combines quotes from such individuals as the linguist Noam Chomsky, Persian poet Rumi, and French theorist Antonin Artaud—examining the purpose of speech.

Trejo, who has taught sculpture at Eastern for 26 years, has had works in the Latino A Exhibit in Chile and been part of the “El Otro Mexico” exhibit, was viewed in New York and Mexico City.

Pastorela at Texas A&M-Kingsville

Professional actors of the Reperto Company of Cuernavaca (Mexico) and the Guadalupe Dance Company performed in the pastorela El Portal de Nopalitepec at the Po of Nopalitepec at Texas A&M-Kingsville during the Christmas season.

Written by Enrique Alonso, the presentation was adapted and directed by Feli Santander, the director of San Antonio Instituto Cultural Mexicano. The coordination of the Reperto Company of Cuernavaca, Alicia Gonzalez Arc, Belinda Mench directing the Guadalupe Dance Company.
production, an exciting and moving visual experience in brilliant colors, beautiful costumes, music, and dancing, was in Spanish.

A pastorela is a theater presentation that relates the travels of the shepherds as they made their way to see baby Jesus, and the problems the devils put in their way to keep them away. “La Pastorela” also refers to the song of the shepherds.

Cal State-L.A. Explores Election Results

The Edmund G. “Pat” Brown Institute for Public Affairs at California State University Los Angeles addressed “Conflict, Change & Continuity: Political and Policy Implications of the 1998 Election Results for California’s Diverse Communities” at its sixth annual California Policy Issues Conference.

Prominent political analysts, campaign strategists, elected officials, corporate and labor leaders, community activists, and nonprofit organization leaders offered presentations and panel discussions on an array of issues affected by the election results.

Implications of shifting social and voter demographics, and changing interracial political dynamics were among the topics covered.

“We are thrilled by the wide diversity and quality of those coming together for this event. Our objective is to foster insightful discussion, generate critical information flows, and enhance understanding of the most significant political issues and policy implications resulting from the 1998 election,” said Jaime A. Regalado (pictured at left, with Bill Lockyer, Calif. Attorney General-elect), before the conference. Regalado is a political scientist and executive director of the Pat Brown Institute.

Tampa’s Hispanic Heritage Awards at USF

Alayne Unterberger (pictured here), a researcher with College of Public Health at the University of South Florida (USF), and the late Marqueterie Gogorno Radencich, a professor in USF’s College of Education, were recognized at the 1998 Hispanic Women’s Awards Luncheon for their contributions to Tampa’s Latino community.

Unterberger received the Amiga Award, which is given to a non-Hispanic woman who has rendered outstanding service to Latinos. Unterberger has spent years working to improve the lives of migrant workers and their families, and she has won several awards and grants for her efforts. Her most recent project is the responsibility program for male Mexican farmworkers. “Pocos Hipo Para Darles Más! (Have Fewer Children So You Can Give Them More)”

Radencich, an associate professor in the childhood/language arts department and a member of the USF Latin Community Advisory Committee, passed away on Oct. 19. She taught at several state institutions before coming to USF. She is the author of How to Help Your Kids with Homework, and in January 1998, was named a co-editor of The Reading Teacher, one of the country’s premier journals in the field of education.

Conference of Mexican American Legislative Caucus

The Mexican American Legislative Caucus (MALC) conducted a legislative issues conference in Austin, Texas, on Nov. 10-12.

Key conference issues included minority hiring and contracting, telecommunications restructuring, and border infrastructure. The caucus meeting allows members an opportunity to discuss important issues affecting the Mexican American community in Texas commented State Representative Rene Oliveira (D-Brownsville), chair of MALC. The caucus is composed of 34 members of the Texas House of Representatives.

Pictured here is Texas House Speaker Pete Laney (on left) as he addresses Oliveira (at right) and other participants.

RHC Service Learning Project

Río Hondo College (RHC) in California has formally implemented a new program called Service Learning into its course content.

By engaging students in community service as part of the classroom experience, students get to learn by doing, while participating in curricular activities that extend well beyond classroom walls. The RHC Service Learning program includes the areas of child development, sociology, history, administration of justice, management, and Spanish. Through the hands-on learning opportunities provided in these courses, students gain valuable work experience, career exploration, and job references while participating in activities that fulfill university and scholarship entrance requirements.

Formally initiated by the efforts of Professors Melissa Ríos-Juárez (on left) and Carol Scala (right) and with the help of Susan Ohler of RHC’s Grant Development Office, Service Learning has been informally implemented in several classes for some time.
Minorities in Higher Education
Manuel J. Justiz, Reginald Wilson, and Lars G. Börkh, eds.

This book is a major contribution to the national debate on how to expand minority participation in higher education and in the social, economic, and political life of the nation.

Trinkets & Beads

This is the story of the plight of the Huaroani—known as the fiercest tribe in the Amazon—specifically their attempts to stop a Dallas-based oil company from drilling on their land. Trinkets & Beads reveals the funny, heartbreaking, and thrilling story of the battle waged by a small band of Amazonian warriors to preserve their way of life.

(1996/52 min./color)

The Comrade: The Life of Luiz Carlos Prestes

The end of the cold war and dictatorship in Brazil permitted the realization of this documentary about one of the most persecuted figures in 20th century Latin American history: Luiz Carlos Prestes, the "Knight of Hope" (1898-1990). This is the story of a myth of a man who became a legend, of a man who embodied a cause.

Solo, The Law of the Favela

In the slums of Rio de Janeiro, the favelas, soccer might be the only chance to escape from the omnipresent atmosphere of violence and crime. This film focuses on Anselmo and Leonardo, two friends, eleven years of age, who dream of a future as professional soccer players against the backdrop of everyday life in the favelas.

(1994/54 min./color)

¡Ya Basta! The Battle Cry of the Faceless

In Mexico, on Jan. 1, 1994, Indians of Mayan origin staged an armed take-over of several Chiapas municipalities. But the Zapatista Army of National Liberation did not wish to seize power, rather it demanded land, work, housing, education, healthcare, food, justice, independence, freedom, and democracy. In this documentary, the Indian men and women speak, re-stating their struggle in its human, cultural, and historical context.

761
By Mark Saad Saka, Ph.D.

Probably no other figure in Mexican history has so captured the imagination of Mexicans and Americans alike as the Mexican revolutionary General Francisco “Pancho” Villa. The subject of countless movies, books, articles, and corridas (traditional Mexican ballads), Pancho Villa remains the symbol of peasant revolutionary, bandit, and champion of the poor throughout Mexico and, along with Emiliano Zapata, the only revolutionary leader to remain unskat ed at the end of the 20th century. Villa represents a unique individual in Mexican history. During the Mexican Revolution, 1910-1924, Villa’s División del Norte was the largest revolutionary army ever formed in Latin America. Villa’s rise to revolutionary leader is even more phenomenal considering that he was born into the lower classes of Mexican society and received little formal education. Unlike other 20th century revolutionary movements, Villa’s Army of the North fought along the U.S. border, at one time forged an alliance with the American government, and remains the only foreign army to have invaded the United States and then eluded capture and retribution.

Long anticipated, Friedrich Katz’s The Life and Times of Pancho Villa emerges as the definitive work on the person of Villa and the social forces that propelled him to international stature. Friedrich Katz, one of Mexico’s most respected and prolific historians, is the Morton D. Hull Distinguished Service Professor of Latin American History at the University of Chicago and is the author or editor of nine books on Mexican history. Over the course of four decades, Katz has provided the field with analytical, high quality, a lucid narratives of the processes that have shaped the course and destiny of the people and nation of Mexico.

The book consists of four major sections: the first traces Villa’s early life and his rise to power as a major revolutionary leader through 1913; the second part covers Villa’s rise to national prominence with the División’s occupation of Mexico City through his demise in a series of catastrophic military defeats in 1915; the third phase analyzes Villa’s guerrilla movement that lasted until 1920 and includes his attack on Columbus, New Mexico, and the subsequent American invasion of Mexico; and the fourth and final section describes Villa’s last years in retirement: his assassination, and an important assessment of who Villa was, what the nature of his movement meant to the revolution, and what his continuing importance as a revolutionary symbol means to modern Mexico.

Katz interprets Villa’s role in the revolution as pivotal in a number of ways, not just for Mexico but also for the United States. For instance, Katz rejects the notion that Villa’s raid on Columbus, N.M., failed to impact the history of either Mexico or the U.S. (pp. 612-14). On the contrary, Katz sees the failure of the punitive expedition, due in large part to Villa’s daring skills as a guerrilla leader, as a major factor in the German military’s decision to assume unlimited submarine warfare against the U.S., figuring that a nation that could not capture Villa along its own borders could hardly mount a military offensive across the Atlantic. In addition, Villa’s raid also encouraged the German foreign minister, Arthur Zimmermann, to propose an alliance (the famous Zimmermann telegram) with then-Mexican President Venustiano Carranza for the return of Mexican lands seized during the U.S.-Mexican War.

These two acts played a critical role in the Wilson administration’s decision to enter the first world war on the side of England, and thus Villa’s raid transformed a cross-border raid into an event that radically reshaped American and European geopolitics for the remainder of the century. In addition, the failure of the punitive expedition radicalized nationalist and leftist forces in Mexico, and encouraged a much more nationalist posture of the constitutional forces that gathered in Querétaro, Mexico. Their strength resulted in the drafting of a much more nationalistic document than would have existed without Villa’s daring raid that brought the response of an American invasion. In addition, the American invasion weakened the Carranza administration, allowing for the revolutionary forces of Emiliano Zapata to survive well into the 1920s and thus play a role in the formation of a post-revolution government.

Unparalleled in its scope and breadth, this book is more than a biography of Pancho Villa: it is a powerful synthesis of the major events that shaped 20th century Mexico, a nation forged in revolutionary upheaval and domestic as well as foreign alliances. It is a testimony to the life’s work of one of Mexico’s most sophisticated and prolific historians, and it will remain the definitive work on Villa and Villismo for years to come.

Dr. Saka, a Fulbright scholar, completed his Ph.D. at the University of Houston in 1995. He is a Mexican specialist whose areas of interest include peasant social movements and agrarian unrest in the Mexican countryside. An American of Arab ancestry, Professor Saka has taught in the Department of History at Sul Ross State University, Alpine, Texas, since 1995.

To submit a book review, please e-mail us at outlook@aol.com (the Hispanic Outlook office) for Book Reviewers’ Guidelines.
1999 National Conference
Call for Papers
The Fourth National Conference on Family and Community Violence Prevention
Collaboration: Diversity and Self Help in Violence Prevention
October 16-20, 1999
Adam's Mark Hotel in Houston, Texas

Submissions should follow the theme of this year's conference and focus on:
- Family and Community Violence Prevention
- Violence Prevention in Urban and Rural areas
- Community Collaboration
- Nonviolent Leadership

Papers must fall into one of the following categories:
- Ongoing research
- Previously unpublished research, or
- An evaluation of demonstration programs

Submission Guidelines:
1. Please provide one copy of a cover sheet listing the title of the paper, the category into which this presentation best fits, the name(s) of the author(s), and a mailing address, phone and fax numbers and e-mail address.
2. Please provide three copies of a typed one-page abstract of your paper. If possible, include the abstract on a diskette in Microsoft Word or WordPerfect. The abstract should carry the same title that appears on the cover sheet without the author's name.

Please forward submissions to:
Dr. LaRocca Rodney
Principal Investigator: FCYP Program
Hallie Q. Brown Library, Level "B"
Central State University
Wilberforce, OH 45384
Phone: (937) 376-6219 Fax: (937) 376-6180/6420

Proposals are due March 15, 1999

The Conference is sponsored by Central State University; on behalf of the FCYP Program, and the Office of Minority Health, U.S. Department of Health and Human Services.

SCHOOL NURSE

The A. Harry Moore School is a specialized academic and therapeutic school for the disabled which is affiliated with New Jersey City University. We offer all the advantages of working in a public school with the additional work satisfaction of being connected to a large, urban state university: tuition reimbursement, competitive salaries and benefits, school hours and holidays, plus a dynamic team of special educators.

DUTIES:
In a school for developmentally disabled students, ages 3-19, under the direction and supervision of the principal and school physicians, provide first aid and emergency care to students and school personnel, medications, special diets and special feedings. Arrange for student examinations with school Medical Director, Psychiatrist and Neurologist. Schedule annual eye examinations, tuberculosis testing, scoliosis checks and physical examinations. See that immunizations are complete and current. Deal appropriately with communicable diseases. Perform duties as a member of an interdisciplinary team.

REQUIRED:
- BS degree from an accredited College or University
- School Nurse certification from New Jersey
- New Jersey license for Registered Professional Nurse
- Experience in school Nursing and/or Pediatrics

APPLICATION:
Submit a letter of application resume official transcripts, certification, work experience, and the names, addresses, and telephone numbers of at least three professional references by February 25, 1999, to:

Dennis Paporello, Principal
A. Harry Moore School
2078 Kennedy Boulevard
Jersey City, NJ 07305
(201)200-3138

This is a special opportunity for special students.

NIH Undergraduate Scholarship Program (UGSP)

If you would like to be trained and mentored in the cutting edge of biomedical research while receiving scholarship support, the UGSP may be for you!

The UGSP is sponsored by the National Institutes of Health (NIH), the Federal Government's lead biomedical research and research training agency, offering scholarships to qualified individuals to pursue undergraduate life sciences degrees.

Scholarships up to $20,000 per year support tuition, educational, and qualified living expenses (room, board, transportation) while students pursue an undergraduate degree.

During each year of the award, scholars train for 10 weeks as paid employees in NIH research laboratories. They are assigned mentors, participate in research seminars and developmental programs. Housing and transportation is provided. After graduation 1 year of full-time research employment at NIH is required for each year of scholarship support.

You Should Apply If You:
- Can demonstrate a deep interest in pursuing a career in biomedical research;
- Can demonstrate being from a disadvantaged background;
- Have a GPA of 3.5 or better or are in the top 5 percent of your class;
- Are a U.S. citizen, national, or permanent resident;
- Are enrolled or accepted for enrollment as a full-time student at a qualified accredited institution.

This is a special opportunity for special students.

For more information, contact:
UGSP

TTY: 1-888-352-3001
Southwest Texas State University invites applications and nominations for the position of Dean of the School of Business. Southwest Texas State University, a comprehensive 21,500-student university offering undergraduate and masters level degrees, as well as a doctoral degree in Geography, includes seven schools, a College of General Studies, and The Graduate School. The University is located in San Marcos, a city of over 36,000 residents in the beautiful Texas Hill Country, 27 miles from Austin and 45 miles from San Antonio.

The School of Business is accredited by AACSB and offers the B.B.A., the M.B.A., and the Master of Accountancy degrees. The School includes the Departments of Accounting, Computer Information Systems and Quantitative Methods, Finance and Economics, and Management and Marketing. The School has 82 faculty and approximately 3,100 undergraduate and 350 graduate majors enroll each year.

The Dean is the chief academic and administrative officer of the School and reports directly to the Vice President for Academic Affairs. The Dean's responsibilities include facilitating excellence in educational, research, and service programs and activities; encouraging faculty development; developing and maintaining a strategic planning process; pursuing external funds for further development of the School; overseeing AACSB accreditation; and promoting the School's close relationships with business, alumni, and other stakeholder groups.

The successful candidate must have an outstanding record of accomplishments in academic, business, and/or government organizations, and several years of successful administrative experience at increasing levels of responsibility. Candidates should have a demonstrated ability for dynamic leadership, a strong commitment to excellence in teaching, research, and service, and a willingness to use strategic planning as a means for achieving excellence in all areas and initiating innovative programs. Additionally, candidates must have demonstrated abilities in budget formulation and management, recruitment, external fund raising, and communicating with a culturally diverse campus and community. Candidates should present a record appropriate for appointment at the rank of Professor in one of the Departments in the School.

Review of applications will begin on February 15, 1999, with an anticipated appointment date of September 1, 1999. Nominations and applications will be accepted until the position is filled. Expressions of interest, nominations, and applications should be sent to:

Dr. Steven Beebe
Chair of the Dean of Business Search Committee
Southwest Texas State University
601 University Drive
San Marcos, Texas 78666

Applicants should include a cover letter, current vita/resume, and the names, addresses, and telephone numbers of three references who can speak to professional qualifications. Finalists will be asked to furnish transcripts for each earned degree.

Southwest Texas State University is an Equal Opportunity/Affirmative Action Employer.
Pima Community College
Tucson, Arizona

DEAN OF INSTRUCTION
DEAN OF STUDENT DEVELOPMENT

Pima Community College (PCC), the fourth-largest multi-campus community college in the nation, is committed to hiring employees who are creative, open to change and new methods or work practices, have a passion for continuous learning and self-improvement and are willing to promote the College’s mission as a learning institution. Our students are our highest priority, so employees can expect to participate in innovative methods and flexible scheduling.

These positions are the chief academic and student development officers on a college campus and are responsible for providing vision, leadership and direction for the operations, programs, services, activities and initiatives of their respective areas. They will develop mechanisms for a wide range of delivery systems and the use of new and emerging technology in support of instruction and student development.

CLOSING DATE: MARCH 8, 1999

For position information and application materials, please contact: Human Resources, Employment Office: 4905-D East Broadway, Suite 102; Tucson, AZ 85709-1190

Toll Free 1-877-PIMAJOBS, Phone: (520) 296-4624, TTY: (520) 206-4852, Fax: (520) 206-4879, or Web Address: http://www.pima.edu/~humres/krhome.html

Pima Community College is an Equal Opportunity/Affirmative Action Employer. Women, minorities and other protected classes are encouraged to apply.

OPEN RANK
DEPARTMENT OF EDUCATIONAL ADMINISTRATION

TEXAS A&M UNIVERSITY

Academic Rank, Responsibilities and Salary: The Department of Educational Administration at Texas A&M University is seeking an experienced individual to provide leadership in our K-12 administrative preparation program. This is a ten and a half month tenure-track position which has teaching responsibilities in courses leading to mid-management certification with an emphasis on the principalship as well as courses at the doctoral level including courses leading to superintendency certification. The successful candidate will also assist in advising and working with doctoral and master's students, as well as conduct research appropriate to the land grant mission of a Research 1 University. Rank and salary will be commensurate with the qualifications and experience of the successful candidate.

Qualifications: The successful candidate will have a doctorate in educational administration and be qualified to teach a range of courses in the K-12 administration preparation program, and have a demonstrated commitment to scholarly work and public service. Preferred qualifications include experience as a public school administrator, professional associations at the state, national, and international level, and some experience in state/provincial administration. The successful candidate will likely have some knowledge of the management of technology in schools.

Applications: Applicants should submit: (1) a letter of interest; (2) a current curriculum vita; (3) official graduate transcripts; and (4) three letters of reference. All correspondence should be sent to: The Chair, Search Committee, Department of Educational Administration, Texas A&M University, College Station, TX 77843-4226. Telephone: (979) 845-5336

Review of applications will begin March 1, 1999 and will continue until the position is filled. The desired starting date is late August, 1999.

Texas A&M University is an affirmative action equal employment opportunity employer and has a strong commitment to the principle of diversity in all areas.

SCHOOL OF EDUCATION

Second Language Acquisition, Dept. of Educational Theory & Practice, Rank Open (tenure track). Faculty position for scholar with established program or research to provide leadership in second language teaching and learning. Candidates with additional background in sociolinguistics, psycholinguistics, teacher education, foreign language learning or multicultural issues will be given preference. Supervise masters and doctoral programs in TESOL within the departmental specialty in Language in Education. Opportunity to conduct research in the federal research and development Center on English Learning and Achievement.

Teacher Education/Professional Development, Dept. of Educational Theory & Practice, Associate/Full Professor (tenured). Faculty position for senior scholar with established program of research to provide leadership in professional development/teacher education. Applicants should have a strong background of published research and scholarship in pre-service as well as ongoing professional development. A record of successful applications for external funding, evidence of conceptual leadership in that field, and a distinguished record of good teaching. The person will teach and supervise masters and doctoral students in ETAP and may become involved in professional development through the Academy for Initial Teacher Preparation. ETAP offers graduate specializations in Language in Education, Science and Mathematics Teaching and Learning, Research and Evaluation in Curriculum and Instruction; and Instructional Theory, Design, and Technology. The Department also offers initial teacher preparation in English, mathematics, science, social studies, foreign languages, and TESOL.

Adolescent Literacy, Dept. of Reading, Assistant Professor (tenure track). Faculty position for in adolescent literacy with emphasis on reading difficulties/content area learning. Applicants should have a doctoral degree in education or a relevant discipline. Candidates should have a well-defined research agenda, evidence of research skills, and a record indicating capacity for effective teaching. Research interests in classroom teaching and learning preferred. Experience teaching at the middle school/high school level is also desirable. This position entails teaching graduate courses advising graduate students, directing doctoral research and independent study, and maintaining a successful program of research and publication.

Director of School Administration Services & Adjunct Associate Professor, Dept. of Educational Administration & Policy Studies, Professional permanent appointment track. This position would be responsible for: acting as liaison with K-12 educational communities, coordinating the student internship program, assisting in student recruitment and advising, teaching courses in school administration, and performing related professional development activities including applied research. Candidates should have an earned doctorate in education or a related field, significant administrative experience, demonstrated communication and human relations skills, knowledge of educational regulations and processes, and demonstrated teaching competence.

All positions begin September 1, 1999. Salary commensurate with qualifications and experience. Send letter of application, vita, and 3 letters of reference to:

Dr. Michael Green
Assistant Dean
ED239
University at Albany
Albany, NY 12222

Application deadline is February 22, 1999.

The University at Albany is an Equal Opportunity/Affirmative Action employer.
UNIVERSITY OF ARKANSAS
FAYETTEVILLE

PROVOST
AND VICE CHANCELLOR FOR ACADEMIC AFFAIRS

The University of Arkansas, Fayetteville, invites expressions of interest in, and nominations for, the position of Provost and Vice Chancellor for Academic Affairs.

The University of Arkansas, Fayetteville, is the flagship campus of the University of Arkansas System and is the primary land-grant campus in the state. Two of the University's most critical priorities are to enhance the research and teaching stature of the University and to receive a Carnegie classification of Research I and become a premier land-grant university for the 21st century.

The University currently has 15,000 students and a full-time faculty of 973. The University's annual budget is currently $225 million, its endowment is valued at $180 million, and its externally funded research is $40 million annually. Two of the goals of the administration are to increase the external research funding to over $100 million and to double the annual budget within five years.

The Provost is the chief academic officer of the University and reports to Chancellor John A. White. The Provost is responsible for all seven schools and colleges at the University.

The successful candidate will have earned a terminal degree in a discipline appropriate for appointment as a full professor and will have a demonstrated record of excellence in scholarship, teaching, grant support, and professional service. This person should have a record of meaningful and successful administrative and fiscal responsibility and skills that will have been derived from management of a complex organization. This person must have an understanding of, appreciation for, and commitment to the land-grant concept.

The University seeks a distinguished academic leader who will have a strong commitment to scholarship, teaching, academic freedom, and diversity and who will have a strong appreciation for the balance between teaching and research. This person must be one of unquestioned integrity and ethics with decisiveness and skill as a consensus builder. The Provost should have a high energy level and a fair, decisive, and innovative leadership style.

This is a unique opportunity for an academic leader to be part of the new administration of one of our country's premier land-grant institutions.

Repeatedly rated as one of the nation's top communities, Fayetteville, Arkansas, is legendary for its beauty, livability, and safety. As we enter the next century, it will be only miles away from the country's population center, connected to the nation by new major arteries and a new regional airport and to the world by the University's ever-expanding information networks.

Under the state's Freedom of Information Act, individual applications are available to the public upon request. All correspondence should be directed to the University's executive search consultant:

Jerry H. Baker, Partner
Baker, Parker & Associates, Inc.
Two Concourse Parkway, Suite 700
Atlanta, GA 30328

The University of Arkansas is an equal opportunity/affirmative action institution.
COLLEGE OF COMMUNICATION AND FINE ARTS

Three tenure-track positions at the Assistant Professor level are available within the Department of Communication Arts:

(1) Film/Video Production. Successful candidate must demonstrate technical expertise and ability to teach at both the undergraduate and graduate levels in at least three of the following areas: non-linear editing and computer graphics for film & video, cinematography for film & video, directing film & video production, multimedia production, multi-camera television production. Professional credits, strong knowledge of traditional film and digital technologies necessary.

(2) Recording Arts. Successful candidate must have professional credits in the Recording Arts field, composed creative and/or scholarly research, teach courses in introductory sound, recording technology, recording techniques, acoustics, and advanced recording. In addition to a sound engineering background, it is essential that the candidate demonstrate a technical expertise in at least two of the following areas: film/video sound recording, music recording, music production, recording audio for film/video, mixing for film and television, studio production, and digital audio post-production editing for film and television. A M.A. degree will be accepted, however a M.F.A. is preferred.

(3) Screenwriting for Film/TV. Successful candidate will have professional credits in film/television screenwriting, with a particular emphasis in television writing. Teach courses in graduate and undergraduate level writing in at least two of the following areas: writing for TV (one hour episodic), comedy writing, and writing the documentary, beginning, intermediate and advanced screenwriting, including pilot writing. All successful candidates must show evidence of teaching experience at the university level, have an M.F.A. degree, or equivalent professional experience, demonstrate creative work and/or scholarly research, Committee work and student advising are required for all positions. By February 15, 1999 (or until position is filled), send letter of application indicating which position you are interested in, areas of experience, current resume, graduate transcripts and the names, addresses, and telephone numbers of at least three references to:

Professor Howard Lavick, Chair, Communication Arts Dept., MC-8230.

For Communication Arts Department information visit: http://www.limu.edu/collleges/cfa/comm/

COLLEGE OF LIBERAL ARTS

English (two positions available). (1) Assistant Professor of English/Director of Freshman English, tenure-track appointment, Ph.D. in Composition Studies or Rhetoric, successful undergraduate teaching experience, evidence of a research program and administrative experience required. Applicants must demonstrate a commitment to making a career of the study and teaching of writing, able to achieve a high level of competence in teaching, research, and service in order to be granted tenure, concerned with program administration and curriculum development. Teaching responsibilities include freshman composition and advanced writing courses such as rhetoric and theory of composition/rhetoric, and any area of literary studies. Professional writing experience also welcome. Regular faculty teaching load is three courses per semester. The Director of Freshman English is currently assigned one course in the fall semester and one or two courses in the spring semester. Within the Department of English, there are 250 English majors, 40-60 students in writing and literature and a freshman class of approximately 950-1000 students.

(2) Visiting appointment, possible renewal. Ph.D. in Composition Studies or Rhetoric, successful undergraduate teaching experience, evidence of a research program required. Some administrative experience desirable. Applicants should be committed to making a career of the study and teaching of writing. Teaching responsibilities include freshman English (writing and literature) and some advanced writing courses in rhetoric/composition, professional writing, and writing theory. Visiting Professors are paid on a 3/4 full-time basis with possible one-course remission per year for assuming the Director of Freshman English. Please send letter of interest, vita, three references and one-page statement of teaching philosophy to Linda Bannister, Chair, English Department, MC-8315. Applications must be received by March 1, 1999. Will interview at CCCC 99 in Atlanta.

Applications, resume, evidence of scholarly and/or professional activity and teaching effectiveness, letters of recommendation, or requests for more information should be sent to:

(Person and Department indicated)

Loyola Marymount University
7900 Loyola Boulevard
Los Angeles, California 90045-8316
MC-0000 (as indicated)

Special emphasis is placed on teaching effectiveness, scholarship achievement, and service to the University for purposes of reappointment. Tenure and promotion consideration limited offers full-time housing assistance. Women and minorities are strongly encouraged to apply.

Applicants are invited but LMU requires that all candidates be committed to the Jesuit and Marymount traditions of higher education.

THE UNIVERSITY OF SCRANTON
A Jesuit University

DEPARTMENT OF EDUCATION

The University of Scranton announces the availability of a tenure-track position in its Early Childhood Education Program. The position, available at the assistant professor rank, has a starting date of the Fall semester, 1999. Review of applications will begin 1 March 1999 and will continue until the position is filled. A description of the position follows:

The search committee seeks a generalist with strengths in teaching methods appropriate to instruction in the early childhood education program. The successful candidate should be able to teach introduction to early childhood education, assessment in early childhood education, and courses that combine the disciplines with play and developmentally appropriate practice. The position will also entail the supervision of student teachers. Preference will be given to candidates with training in, or experience with, special education or educational administration. Qualifications for this teacher education position include an earned doctorate in an appropriate area, an active and articulated research focus, significant experience in basic education in an early childhood education setting, and possession of, or eligibility for, Pennsylvania certification. Service to the profession is expected in this position, and evidence of professional activity is desired.

The Education Department at the University of Scranton offers a range of degrees and certification through both basic and advanced Master's level programs accredited by both the Pennsylvania Department of Education and the National Council for the Accreditation of Teacher Education. The Department is housed in the Scholar's College, one of five colleges at the University. The University of Scranton, one of 2 Jesuit colleges and universities, currently serves students from 38 states and 14 countries and is consistently cited for excellence in U.S. News and World Reports. The University offers competitive salary and attractive package benefits. Located in the historic Pocono northeastern region of Pennsylvania, the University is close to sporting and recreation areas, and is within three hours of the major metropolitan centers of New York City and Philadelphia.

The University of Scranton is proud of its mission in the Catholic and Jesuit traditions and expects the successful candidate must be able to support it mission through his or her work within her/his position at the University. Applications should include a letter of application addressing each of the qualifications listed above, a statement of research interest, a current curriculum vitae, and three letters of reference (with current phone numbers and refereee). Send materials to Dr. Thomas Gerri 
Chair, Early Childhood Education Search Committee, Education Department, University of Scranton, Scranton, PA 18510-4603. Inquiries regarding the University and the surrounding community can be found on its website: www.usf.edu

The University of Scranton is an EOE/AA/Minority/Disabled/Non-Citizen Employer.

CHAIR
FOREIGN LANGUAGES
AND LITERATURES DEPARTMENT

The Foreign Language Department at Rockhurst College is accepting applications for the position of Chair of the department. In addition to teaching responsibilities, the Chair will be expected to lead the development and assessment of programs and curriculum, and to review and lead the development of new full-time and adjunct faculty. Additional responsibilities include faculty recruitment, course scheduling, and budget management. The department currently offers courses in French, German, Japanese, Latin and Spanish, with majors in French and Spanish. This is a tenure-track position, salary and rank commensurate with experience, and will begin August 1999.

Applicants must hold an earned doctorate in either French or Spanish; preference will be given to candidates with credentials at least Masters level; in an additional language. Applicants must demonstrate:
- a record of administrative and leadership experience in higher education;
- familiarity with professional standards in foreign language instruction;
- excellence in college teaching;
- evidence of scholarship;
- knowledge of and experience with the latest educational technologies;
- desire and ability to integrate multicultural perspectives into the curriculum;
- willingness and ability to collaborate with other academic departments;
- a commitment of service to the department and the College; and
- interpersonal, communication, and leadership skills.

Rockhurst College, one of the 28 Jesuit colleges and universities in the United States, is located in the cultural and artistic center of the racially and ethnically diverse Kansas City metropolitan area, and consists of 2,900 students in four academic divisions. The Foreign Language Department is housed in the College of Arts & Sciences.

Applications must include:
- letter stating interest and qualifications;
- curriculum vitae with evidence of high-quality teaching and administrative experience at the collegiate level;
- statement of teaching philosophy; and
- names, addresses, and telephone numbers of at least three references who may be contacted.

Applications will be reviewed beginning February 15, 1999, and will be accepted until the position is filled. Completed applications should be sent to:

Mr. Corey S. Simmonds, Interim Dean
College of Arts and Sciences
Rockhurst College
1100 Rockhurst Road
Kansas City, MO 64110

Rockhurst College is an equal opportunity employer and encourages applications from women and minorities.

SALT LAKE COMMUNITY COLLEGE

Dean, School of Business and Industry

Utah's Salt Lake Community College is located at the heart of the beautiful Wasatch Mountains in the state's capital city. Some of the country's best skiing, rock climbing, fishing, and other outdoor adventures are only minutes away. Salt Lake City is an exciting cosmopolitan area offering an array of Symphony, ballet, opera, jazz, theater, and professional athletic events.

The College is a multi-site, urban comprehensive community college which enrolls over 53,000 credit and non-credit students. Students-centered classes, excellent teaching, and beautiful facilities are some of the characteristics of the College.

Salt Lake Community College invites applications and nominations for the position of Dean of the School of Business and Industry. The Dean is responsible for the overall operation of the School of Business and Industry by planning, coordinating, evaluating and developing new and existing programs and to achieve the College mission. The Dean reports to and assists the Vice President of Academic Services.

The School of Business and Industry has 49 full-time faculty, 11 support personnel, and an enrollment of 3,000 students in three major organizational units: the Division of Business Administration, the Division of Industry and Information, and the Utah Small Business Development Center. The current disciplines in the School include: Accounting, Business, Business Information Technology, Business Management, Computer Information Systems, Finance and Credit, Human Resource Technology, Manufacturing and Automation Technologies, Marketing Technology, Marketing Management and Paralegal Studies.

QUALIFICATIONS:
- Because this is a key position in the institution and because the successful candidate will be dealing with transfer institutions and earned Master's degree in a School related discipline is required. An earned doctorate is preferred.
- Evidence of successful management/leadership experience is preferred in community colleges.
- Experience in business and industry.
- Evidence of full-time employment as a faculty member in an accredited post-secondary institution with evidence of successful teaching experience, preferably in community colleges.

APPLICATION PROCESS:
Applications are due March 1, 1999. Applications should include the following:
- letter of application summarizing qualifications and accomplishments;
- official Salt Lake Community College employment application, resume/curriculum vitae, and transcripts. Please request an SLCC position announcement from Human Resources for additional details. Position announcements are also available on the World Wide Web. The starting date will be determined by the successful candidate's availability, with July 1, 1999 as the preferred date. Send completed application and supporting materials to:

Affirmative Action/Equal Opportunity Employer

ASSISTANT DEAN OF ADMISSIONS/
COORDINATOR FOR MINORITY RECRUITMENT

Shippensburg University

Serves as primary recruiter and coordinator for the University's efforts to diversify the student body through the recruitment of students of color. Duties include recruiting prospective students of color through high school visits meeting with interested students, parents and counselors representing the University at college fair programs and coordinating community outreach activities with organizations serving high school youth; planning and hosting special events on and off campus designed to generate or further interest among students of color; tracking prospective students through correspondence and phonations; and directing and supporting groups of undergraduate volunteers recruited to participate in admissions activities.

In addition, the Assistant Dean will also evaluate credentials of all prospective students for admission and serve as the office liaison to the Act 101 Program. This person will participate in general recruitment activities such as interviews, Group Information Sessions, and Open Houses. Extensive overnight travel and evenings/weekends hours are required.

Requirements include a Bachelor's Degree and 3-5 years of related experience in the college admissions process and/or college student personnel. A Master's Degree is preferred. Candidates should possess a strong commitment to the recruitment of racial minorities. Strong administrative, interpersonal, and communication skills are required. Experience working with computer systems to generate admissions data and manage information using Microsoft Office 97 is desirable. A valid driver's license is required. The position has an excellent salary schedule and benefits package.

Shippensburg University, established in 1871, is a comprehensive public university offering baccalaureate and master's degree programs. Enrolling 6,500 students, the residential campus is located in the scenic, rapidly developing Cumberland Valley of southcentral Pennsylvania, within a few hours drive of Pittsburgh, Philadelphia, Washington, DC, and Baltimore, MD. The University is noted for its strong sense of community, student centeredness, sound fiscal condition, attractive campus, and strong alumni and community support.

Applicants should submit a cover letter, résumé including the names, addresses, and telephone numbers of three (3) references to: Dr. James H. Whitman, Chair, Assistant Dean Search, Office of Admissions, Shippensburg University, 1 South Main Drive, Shippensburg, PA 17257. The Search Committee will review applications on March 1, 1999, and will continue until the position is filled. Anticipated starting date is July 1, 1999. Additional information about Shippensburg University can be found at http://www.shu.edu

Shippensburg University is committed to equal employment opportunity. Women, persons of color, veterans, and the disabled are encouraged to apply.

Shippensburg University is an Equal Opportunity Educational Employer.
THE COLLEGE OF NEW JERSEY

PROVOST/VICE PRESIDENT FOR ACADEMIC AFFAIRS

The Search Committee for Provost/Vice President for Academic Affairs of The College of New Jersey announces a national search for this newly created position.

The College of New Jersey, formerly Trenton State College, is a highly selective, comprehensive residential institution that has received national recognition for the quality of its programs. The College’s 553 undergraduate and 855 graduate students are served by 326 faculty members in the Schools of Arts and Sciences, Business, Education, Engineering, and Nursing. The College’s attractive 255 acre, beautifully landscaped campus with German-style buildings, is located in a suburb of Trenton, the state capital. Governed by a 15 member Board of Trustees appointed by the Governor, The College has an operating budget of $102,748,000.00. On January 1, 1999, Dr. R. Barbara Guttenstem, Provost of Drake University from 1992-1999, assumed office as The College’s fifteenth president. Additional information about the College of New Jersey can be found at www.tcnj.edu

The Provost/Vice President for Academic Affairs is the second-ranking officer of The College and acts as the chief executive officer in the absence of the president. As the chief academic officer of The College, the Provost will have an opportunity, working with the new president, to provide creative leadership in organization and program development throughout all aspects of campus life while maintaining a clear focus on The College’s student-centered mission. The Provost will also assume major leadership working with the campus community in developing and implementing a new paradigm for the teacher-scholar. The Provost, working with the Vice President for Administration and Finance, will develop the guidelines and principles for budget development and resource allocation.

The College seeks an outstanding academic leader who has had successful teaching, scholarly, and administrative experiences and who has a strong commitment to high standards with a focus on student achievement. The successor candidate will have an earned doctorate or the equivalent, be an enthusiastic advocate of The College’s mission as a highly selective institution to educate leaders, emphasize academic excellence in a racially and culturally diverse community, be a strong supporter of The College’s leader-centered approach to education, and have at least three years of administrative experience at the dean or director level.

The Committee will begin to review candidates in mid-February, 1999 and continue until an appointment is made. Nominations and applications, which will be treated in confidence, should be sent to:

Dr. Carlos Alves, Chair, Provost/VPA Search Committee
Office of the President
The College of New Jersey
P.O. Box 7718, Ewing, NJ 08628-0718

The search is being assisted by Dr. Ronald S. Studebaker of the Academic Search Consultation Service and confidential inquiries may be made to him at 202-337-4047.

To enrich education through diversity, The College of New Jersey is an EO/AA/ADA employer M/F/D/V.

THE COLLEGE OF NEW JERSEY

THE COLLEGE OF NEW JERSEY

THE COLLEGE OF NEW JERSEY
DEAN, W. FRANK BARTON SCHOOL OF BUSINESS

The W. Frank Barton School of Business at Wichita State University (Wichita, Kansas) welcomes applications and nominations for the position of Dean.

With almost 15,000 students, Wichita State University is located in a growing metropolitan area of more than 500,000 — the largest city in Kansas. Wichita is a regional center for services (health care, banking, government), an international corporate and manufacturing center (Boeing, Cessna, Coleman, Koch Industries, Learjet, Raytheon, Volks), and an important cultural center. Ties between the Wichita business community and the Barton School are particularly strong, providing faculty and students access to resources that enhance teaching and learning.

The Barton School is AACSB-accredited and is composed of 61 full-time faculty, 22 full-time staff, and more than 2,500 students. The school’s vision is to be recognized as the best source of high quality business education, prospective employees, scholarly research and business development services in the community, state and region.

As the largest business school in Kansas, the Barton School supports ten undergraduate majors (DBA), as well as five graduate programs including masters in business administration (MBA & EMBA), business (MS), economics (MAE) and accounting (MPA). Five academic and outreach Centers are also housed within the Barton School and actively support the School’s mission — including the Center for Economic Development and Business Research, Center for Economic Education, Center for Entrepreneurship, Center for International Business Advancement, and the Center for Management Development. Learn more about Wichita, WSU and the Barton School by visiting our web site, www.wichita.edu.

Candidates for the Dean’s position must have the following qualifications:

- Demonstrated record of leadership in business or academia
- Identification with the Barton School’s mission and vision, and the commitment to articulate and communicate the mission, vision, and related values to our various constituencies
- High standard of personal and professional integrity
- Excellent oral and written communication skills

In addition, the following qualifications are preferred:

- Established credentials and record of achievement significant enough to merit serious consideration for rank of Full Professor within the Barton School
- Demonstrated record of garnering the kind of resources needed to support the Barton School’s numerous programs
- Successful experience working with diverse populations
- Commitment to maintaining AACSB accreditation

Interested applicants should send curriculum vitae, letter of application, and a list of at least three references to the Chair of the Search Committee (contact information below). The letter of application should describe how the applicant meets the aforementioned selection criteria. Nominations are encouraged. Application reviews will begin March 1, 1999 and continue until the position is filled. The appointment becomes effective July 1, 1999. WSU is an EEO/AA employer.

AN EQUAL OPPORTUNITY AFFIRMATIVE ACTION EMPLOYER
visit our website at: http://www.dcccd.edu
ASSISTANT DEAN OF FIRST-YEAR STUDENTS
DIRECTOR OF THE INTEGRATED ACADEMIC SUPPORT PROGRAM

Full-time position requiring a generalist to share responsibility for designing and implementing programs and policies that facilitate the transition of first-year students to college. Through individual counseling of students on academic and personal matters, this dean is responsible for ensuring that students meet both academic requirements and the Community Standards of Conduct. Represents the Dean on extracurricular and community programs. The successful candidate must be sensitive to the academic, social, and emotional challenges of adapting to a highly competitive academic environment.

As the Director of the Integrated Academic Support Program, this dean works closely with undergraduates and faculty to support students who are underprepared in English, Math, Chemistry, and Physics. In both capacities the dean is required to be tactful and supportive in communicating with students, parents, faculty, and administrators.

Qualifications: Highly preferred qualifications include a doctorate (Ph.D. or Ed.D.) or a master’s degree and five years of relevant experience in academic administration. Must have strong interpersonal, organizational, counseling and communication skills; sensitivity to and understanding of the needs and concerns of a diverse student population is essential. Experience in a liberal arts college setting is desirable.

Review of applications will begin February 22. Send letter of application, resume, and the names of three references to:

The Office of the Dean of First-Year Students
Search Committee Chair
Dartmouth College
6007 Parkhurst Hall, Room 6
Hanover, New Hampshire 03755-3529

Dartmouth College is an Equal Opportunity/Affirmative Action employer, and thus applications from women and members of minority groups are strongly encouraged.

CAL STATE FULLERTON
ASSOCIATE DEAN FOR TEACHER EDUCATION
SCHOOL OF HUMAN DEVELOPMENT AND COMMUNITY SERVICE

The School of Human Development and Community Service is accepting applications for the position of Associate Dean for Teacher Education.

The Position: The Associate Dean is a full-time, Management Personnel Plan (MPP) position reporting directly to the Dean of the School of Human Development and Community Service. The person selected will provide leadership in developing relationships between the Division and the school districts. Promoting and maintaining effective responses to the increased emphasis on the professional preparation of teachers and administrators is critical. Working in consultation with the department heads, this individual will coordinate the budge, course scheduling, faculty contracts, student admissions, and other division operations. The individual oversees the Continuing Education Center, supervises the clerical and other staff support in the Division, and represents the Division to accreditation and credentialing agencies. The Associate Dean maintains and promotes necessary campus and community liaisons that pertain to education and assumes additional duties as assigned.

Qualifications: The successful candidate will have at least a demonstrated record of excellence; a record of working collaboratively; an earned doctorate in a relevant education field from an accredited institution; appropriate evidence of quality scholarship, research and publications; successful university-level teaching experience in education; experience in academic administration; experience in public K-12 education; and some familiarity with instructional technology. Evidence of strong interpersonal skills and experience in working with diverse populations is essential. A knowledge of issues and trends in teacher education.

Salary: Commensurate with experience and qualifications.

Application Procedure: Applicants should provide a letter of application listing qualifications and experience for the position, a current vita, a brief statement of administrative philosophy and vision, at least three and not more than five recent letters of reference that directly address that position, and other support materials as appropriate. For further information call 714-278-3557. Review of applications will begin on February 15, 1999, but applications will be accepted until the position is filled. Materials should be submitted to Chair, Associate Dean Search Committee, Division of Education, EC-379, School of Human Development and Community Service, PO. Box 6606, Fullerton, CA 92834-6606.

For further information, visit our website at: http://www.fullerton.edu.

WESTERN CONNECTICUT STATE UNIVERSITY
www.wcsu.edu
DEAN
Ancell School of Business
Western Connecticut State University invites applications and nominations for the position of Dean of the Ancell School of Business. WCSU is located in Danbury, a city in Fairfield County, 50 miles north of New York City. The University is located on two campuses and serves 5,500 undergraduate and graduate students. Western is one of the four comprehensive universities that comprise the Connecticut State University system. WCSU is divided into the School of Arts & Sciences, the School of Professional Studies, and the Ancell School of Business. The school is located on WCSU’s modern 313 acre Westside campus.

The Ancell School, primarily a teaching institution, is pursuing AACSB candidacy and accreditation and serves 1,200 undergraduate and graduate students. The Ancell School offers the BBA degree with majors in accounting, finance, management, MIS, and marketing, and a BS degree with tracks in public law, corrections, probation, parole & offender rehabilitation, legal studies, paralegal preparation sequence and law enforcement from the Division of Justice and Law Administration. Three graduate degrees, MBA, MHA, and MSJA are offered.

Responsibilities:
The Faculty of the Ancell School of Business is seeking a Dean capable of promoting, developing, and sustaining the School’s educational, scholarly, and public service programs. The Dean provides collegial leadership and consensus building for faculty organized into five departments (Accounting, Finance, Management, Management Information Systems, and Marketing) and the Division of Justice and Law Administration. The Dean of the Ancell School reports to the Academic Vice President.

Qualifications:
- A record of teaching and scholarship, including an earned doctorate in a field appropriate to the School’s curricula.
- Academic administrative experience, preferable beyond the level of Chairperson, and demonstrated team-building experiences.
- An appreciation for scholarship and research in an academic setting.
- Instructional experience with technology
- Willingness and ability to expand the financial resources for the school.
- Demonstrated ability to communicate effectively and maintain good working relationships with all internal and external constituents of the University.
- Demonstrated ability to represent and promote the Ancell School of Business to external constituents.
- Experience with current AACSB processes, accreditation standards, and experience with strategic planning and budgeting.
- Experience with campus governance and collective bargaining agreements and sensitivities to faculty selection and evaluation.
- An understanding of the needs of our diverse student body
- Willingness to support and implement Ancell School of Business Marketing Strategies.

Application Process: Send letter of application that includes an explanation of what brings you to the position and how how will her experience correspond with the requested qualifications, current curriculum vitae, and the names, addresses, and telephone numbers of three professional references to: Charles P. Spindel, Dean of Human Resources Management, WCSU, 18 White St., Danbury, CT 06810. Salary: Negotiable, excellent benefits package. Deadline: Applications must be received by March 12, 1999. Anticipated starting date: Beginning of Fall 1999 Semester.

Western is an Affirmative Action/Equal Opportunity Employer.

DEAN
College of Criminal Justice

Northeastern University invites applications for the position of Dean of the College of Criminal Justice. Northeastern University is a student-centered, national research university, rooted in an urban community and dedicated to providing academic excellence and practice-oriented, cooperative education. The College of Criminal Justice offers a B.S. degree, with concentrations in criminology, policing, criminal justice, and security. The Master of Science curriculum includes programs of study in criminology, justice administration, juvenile justice, research, and security administration. The College presently has fourteen tenure-track faculty positions, and an expanding number of Visiting and Adjunct faculty who bring special expertise to the College's curriculum. Northeastern University is committed to providing the College with sufficient resources to maintain its top ranking among criminal justice programs in the region.

The Dean, the academic leader of the College, is responsible for administering all facets of the College and is expected to excel in organizational and leadership skills. The Dean is expected to collaborate with a dedicated faculty to establish a clear vision for the College and refine and strengthen the College's mission statement and unit goals in a manner that is consistent with those of the University as a whole. He or she, in conjunction with the faculty, will attract and retain a highly qualified and diverse student body at the graduate and undergraduate levels; assist the College to become a leader in University initiatives and in making significant contributions to the University's teaching and research agenda. The Dean is also expected to play a significant role in the University's fund-raising efforts. In conjunction with the faculty, the Dean will guide curriculum development at the graduate and undergraduate levels; establish and maintain budgets and fiscal accountability; work to achieve goals established by the University; and establish externally funded grants; strengthen the Center for Criminal Justice Policy Research; and maintain research relationships with other Northeastern colleges and units. The Dean will also create and maintain external research collaborations with local and national criminal justice practitioners and community leaders, the scholarly criminal justice community, alumni, and other groups vital to the College's mission. The Dean will be encouraged to teach, conduct research, and carry out other professional activities.

Applicants must possess a doctoral degree in criminal justice or a closely related discipline, or a minimum of an L.B. or J.D. degree. Candidates must have an established record of successful teaching and scholarship in criminal justice/criminology or equivalent professional achievement sufficient for appointment to a tenured, senior position. Candidates must demonstrate significant ability to work with the faculty and staff in the faculty's curriculum vitae, and the names of three references. The decision will be made by the end of March, 1999. The salary is negotiable depending upon credentials.

The position is available July 1, 1999. The salary is negotiable depending upon credentials.

This is a 12-month administrative position requiring tenure faculty status in the College of Criminal Justice. Consideration of applications will begin on March 16, 1999. Interested persons should submit a letter of application, a current curriculum vitae, and the names of three references to: Professor Frank A. Schubert, Chair, Criminal Justice Dean's Search Committee, College of Criminal Justice, Northeastern University, 360 Huntington Avenue, Boston, MA 02115; (617) 373-3349; Fax: (617) 373-8723. Northeastern University is an equal opportunity/affirmative action Title IX employer.

Northeastern University participates in an active affirmative action program.

LEHMAN COLLEGE
Associate/Full Professor, tenure track for teacher educator programs in bilingual education and TESOL (N-12) in the Department of Secondary, Adult, and Business Education, to teach graduate and undergraduate courses; conduct supervisory research; supervise student teaching; and advise master's degree candidates. Experience in developing programs for bilingual education (Spanish-English and TESOL, as well as foreign language education for bilingual education). Doctorate in bilingual education. TESOL, linguistics, or other language-related discipline. Fluent in Spanish. Salary: $66,837. Send letter of interest, resume, and three references to: Dr. Nathan T. Avni, Chair, Department of Secondary, Adult, and Business Education, Lehman College, 250 Bedford Park Blvd., Bronx, NY 10468. Additional information see Job Opportunities at www.lehman.cuny.edu.

VICE PRESIDENT
FOR EDUCATIONAL
& STUDENT SERVICES

The Vice President for Educational & Student Services is the university’s senior officer with primary responsibility for building university community and for providing leadership to a comprehensive program of quality services to students. Advocating for the interest of students, this Vice President will promote and enhance the values of a student-centered university. The Vice President reports to the University President and is a member of the University Cabinet, collaborates with the other four divisions of the University: Academic Affairs, Administration & Finance, External Relations, Marketing & Advancement, directs the Leadership Studies program, and assists with policy decisions regarding management of the University.

Unsatisfactory direct reports to the Vice President include Academic Advising Services, Office of Admissions, the Center for Multicultural Education, Student Financial Aid, Maucker Union and Student Activities, Placement & Career Services, the Registrar, University Health Services and Residence. This division has a current budget of $58,559,926, and includes approximately 120 professional staff and 225 merit staff.

QUALIFICATIONS: Extensive experience in the delivery of student services programs, demonstrated expertise in at least one student services area: ability to work effectively with diverse internal and external constituencies: a strong strategic planning focus, demonstrated commitment to diversity, evidence of management and organizational skills with the ability to coordinate programs and activities; strong interpersonal and communication skills: familiarity with the goals and purposes of higher education and the key issues facing public comprehensive universities. Ability to work collaboratively throughout the university community. An earned doctorate required. With a minimum of seven years of progressively more responsible management experience in higher education administration.

SALARY: Commensurate with experience.

THE UNIVERSITY: The University of Northern Iowa is consistently recognized as one of the finest universities in the Midwest. With 13,000 students, 850 faculty and 1,000 staff, UNI is one of three public universities in a state that has long been known for quality education at all levels. UNI features a high level of faculty/student interaction, as well as strong initiatives in experiential learning, international programs and wellness. UNI faculty and staff have access to a full range of educational, cultural, medical and recreational programs and facilities in Waterloo/Cedar Falls, a metropolitan area with a population of approximately 125,000. Web site www.uni.edu

APPLICATIONS: Applications received by March 2, 1999, will be given full consideration. Send resume, letter of application and the names of three professional references to:

Vice President for Educational & Student Services Search Chair
Office of the President
University of Northern Iowa
244 Gilchrist Hall
Cedar Falls, Iowa 50614-0002

The University of Northern Iowa is an equal opportunity/affirmative action employer committed to employing a highly qualified staff which reflects the diversity of the nation. No applicant shall be discriminated against on the basis of race, national origin, sex, age, gender, sexual orientation, marital status, creed, or disability.

FACULTY OPENINGS

A comprehensive two-year college dedicated to student, community, and staff success, presents seeking qualified individuals for several faculty openings.

Automotive Instructor: This individual must possess a Bachelor’s degree in education, technology, or a field related to Automotive Service, equivalent of two year full-time work experience as a line mechanic in automotive service, or equivalent. A four-year full-time teaching experience is required. Applications will be accepted until position is filled.

Accounting Instructor: This individual must possess a Master’s degree in business or education field, minimum of 18 hours in Accounting, equivalent of two-year successful teaching experience at the community college level (equivalent to 900 student contact hours), and two years full-time work experience with primary emphasis in accounting. Deadline for receipt of application form is April 2, 1999.

Nursing Instructor: This individual must possess a Masters degree in nursing with a medical-surgical application focus is required. Current Michigan Registered Nurse license or eligibility for M.N license, equivalent of four years full time successful work experience in nursing, and the equivalent of two years full-time teaching experience (equivalent of 900 student contact hours) Applications will be accepted until the position is filled.

Grinnell College invites applications for a one-year leave replacement position in the interdisciplinary Gender and Women’s Studies Concentration. Candidates may have a specialization in the social sciences, humanities, or sciences but must have a strong background in women’s studies and a demonstrated ability to teach introduction to Gender and Women’s Studies. The introductory course at Grinnell examines the theoretical foundations of North American feminism, paying particular attention to the intersections of race, ethnicity, class, and sexuality in the construction and enactment of different theories. The teaching duties for the year will include two sections of Introduction to Gender and Women’s Studies and one interdisciplinary Senior Seminar for students concentrating in Gender and Women’s Studies. The position includes two additional courses, one for the GWS program and one for the academic department which best fits the candidate’s area of specialization. The topics of these two courses are open to negotiation; but candidates able to teach International Feminist Studies in the GWS program are particularly encouraged to apply. Ph.D. preferred. ABD candidates will be considered. In their letters of application, candidates should address their interest in teaching in an undergraduate liberal arts environment that emphasizes close student-faculty interaction, teaching experience and a commitment to an interdisciplinary approach to gender and women’s studies are required. Applications received by March 16, 1999 will receive full consideration. Please send complete dossier and three letters of recommendation to Victoria Brown, Chair, Gender and Women’s Studies, Grinnell College, PO Box 805, Grinnell, Iowa 50112.
George Mason University

The Graduate School of Education at George Mason University is a dynamic, growing professional school committed to excellence in teaching, research, and service, especially through collaborative field-based projects with schools, businesses, and community agencies. It is also a university-wide institution serving nearly eight thousand students in graduate and undergraduate programs. The Graduate School of Education offers multidisciplinary courses, specializations, and concentrations in a variety of fields, including Education, Counseling, and Human Development. In recent years, the School has experienced significant growth in its graduate program with an enrollment of nearly 15,000 students. The School is committed to providing high-quality education and research that prepares students for leadership roles in the field of education.

Graduate School of Education

Two Positions in Early Elementary Education (1) Social Studies Education and (2) Literacy (Both Tenure Track). Responsibilities include teaching and advising in graduate level pre-service, advanced master’s and doctoral programs: participation in leadership, mentoring, and supervision of educational professionals; and conducting scholarly research. Applicants must have a Ph.D. in Education and be able to contribute to the development of a new program of Literacy Education.

Two Positions in Middle/Secondary Education: (1) English/Language Arts Education and (2) Educational Foundations (Both Tenure Track). Responsibilities include teaching and advising in graduate level pre-service, advanced master’s and doctoral programs; participation in field-based initiatives; and conducting and disseminating research. Applicants must have a Ph.D. in Education and be able to contribute to the development of a new program of Literacy Education.

Early Childhood Special Education/Severe Disabilities (Tenure Track). Responsibilities include teaching graduate courses, advising students, supervising internships, conducting and disseminating research, and collaborating with other researchers and professionals in the field. Applicants must have a Ph.D. in Education and be able to contribute to the development of a new program of Literacy Education.

School Counseling Program Coordinator (Tenure Track or Tenured Appointment). Responsibilities include coordinating the School Counseling Program and overseeing the program’s academic and administrative functions. Applicants must have a Ph.D. in Education and be able to contribute to the development of a new program of Literacy Education.

DIRECTOR
Center for Teaching Excellence

The University of Maine seeks applications for the position of Director of the Center for Teaching Excellence. The Director will serve as the leader of the Center with responsibilities for developing and delivering its programs. The goals of the Center are to maintain a strong focus on teaching excellence, to support faculty, graduate students, and professional staff and to update their teaching skills. The Director will promote experimentation with teaching techniques and methodologies and to encourage research that contributes to effective teaching and sharing ideas. The Director will also work closely with the Executive Director of Information Technology who has leadership responsibility for the use of digital technologies in educational programs. Much of the work of the Center will be accomplished by means of workshops, seminars, inter- and international consultation. The Director will also be responsible for the provision of undergraduate education.

Required Qualifications
- Masters degree
- Substantial college teaching experience
- Strong experience in a teaching excellence program
- Knowledge of research related to teaching and learning
- Demonstrated organizational and interpersonal skills
- Demonstrated leadership skills
- Demonstrated ability to work with diverse groups across campus

Preferred Qualifications
- Earned doctorate
- Significant administrative experience in higher education
- Experience in obtaining grants
- Demonstrated familiarity with instructional technologies

Founded in 1865, the University of Maine is the State's land-grant and sea grant institution. Today the 1200-acre campus is the site of a modern university with five colleges and more than 200 academic programs. The University has approximately 7,000 undergraduates and 900 graduate students and 650 faculty members. As the flagship campus of the University of Maine System, the University is responsible for providing high quality education, research, and service to the citizens of Maine.

This is a fiscal year 112 month position available July 1, 1999. The review of applications will begin on March 15, 1999 and will continue until the position is filled. Submit a letter of interest, resume, statements of philosophy, and at least three recent letters of reference with telephone numbers to Chair, Director of Teaching Excellence Search Committee, 5703 Alumni Hall, Suite 201, University of Maine, Orono, ME 04469-5703. Please direct inquiries to Douglas_Gelineas@maine.edu. The University of Maine is an Affirmative Action/Equal Opportunity Employer and provides reasonable accommodations, upon request, to enable applicants with disabilities to participate in the job application process.

HUNTER COLLEGE
OF THE CITY UNIVERSITY OF NEW YORK

DIRECTOR
CENTRO DE ESTUDIOS PUERTORRIQUEÑOS
ASSOCIATE OR FULL PROFESSOR

The Centro de Estudios Puertorriqueños is a major CUNY research institute housed at Hunter College. For 25 years, it has pursued an interdisciplinary agenda that is grounded in the Puerto Rican/Latino community, answers to the community's research needs and nurtures its strengths and potentials. The Centro publishes a journal, working papers and other publications. The Centro Library and Archives houses the principal Puerto Rican research collection in the United States. The Centro also coordinates two academic exchange programs. It has a full-time staff of ten and a total annual budget of $1.2 million.

The Director leads the Centro's research and service operations; establishes Centro policies and helps to formulate the Centro's interdisciplinary research agenda. The Director is expected to participate in research activities. The Director also represents the Centro publicly to all relevant constituencies.

Candidates must have an interdisciplinary understanding of the Puerto Rican experience, a history of involvement with Puerto Rican community affairs in the United States. Requires an earned doctorate within fields such as the social sciences, education, law, social policy/work or the humanities appropriate to the Centro's research program, and be fully bilingual in Spanish and English. Teaching experience in a current tenure academic appointment is preferred. Experience with the governing of public higher education affairs is desirable. Experienced in fundraising and grants management.

HOW TO APPLY: Applicants or nominees should submit a curriculum vitae/resume of relevant experience, and the names of three references. In addition, applicants may send a letter summarizing their qualifications for this position.

SALARY: Associate or Full Professor rank housed in an appropriate Hunter or CUNY academic department. Professor: $51,861 - $80,318; Associate Professor: $41,780 - $66,837. Salary within contractual guidelines supplemented by administrative title remuneration of $7,670. Initial appointment of 2 - 3 years, renewable upon satisfactory evaluation. Twelve month work calendar. The Centro Director reports directly to the Provost of Hunter College. Position available 9/1/99.

SUBMIT APPLICATIONS OR WRITTEN NOMINATIONS BY MARCH 1, 1999 (OR UNLESS THE POSITION IS FILLED) TO: CHAIR, DIRECTOR SEARCH COMMITTEE, OFFICE OF HUMAN RESOURCES, E1502 HUNTER COLLEGE, 695 PARK AVENUE, NEW YORK, NY, 10021.

An Equal Opportunity/Affirmative Action/ADA/Americans With Disabilities Act Employer

UNIVERSITY OF WISCONSIN
MADISON

DIRECTOR OF UNIVERSITY RESEARCH PARK

Organized in 1984, the University of Wisconsin-Madison Research Park (URP) is a corporate partnership that develops land and leases it to companies interested in maintaining close contact with the university community. The park's primary mission is to serve as a conduit for transferring technologies from the campus to the private sector for the mutual benefit of all. It provides an atmosphere conducive to nurturing a productive combination of academic and technological development. The URP is home to 68 Wisconsin companies and operates on 25 acres currently there are 2 buildings totaling 65,000 square feet in the URP. More information about the university research park can be accessed at:

http://www.wisc.edu/URP/Researchpark.html

Corresponding experience in these areas: experience in the development of new real estate developments, experience in real estate development, experience in the management of real estate development, experience in the management of real estate development, experience in the management of real estate development.

The position is available immediately. Applications and nominations must be received by February 28, 1999. Submit applications and nominations to the chair, committee. Application and nominations may also be considered. The search committee will convene and interview candidates to determine the qualifications and appoint the best qualified candidate. The search committee will interview the names of nominees and applicants who complete application materials. The search committee will interview the names of nominees and applicants who complete application materials. The search committee will interview the names of nominees and applicants who complete application materials. The search committee will interview the names of nominees and applicants who complete application materials. The search committee will interview the names of nominees and applicants who complete application materials. The search committee will interview the names of nominees and applicants who complete application materials.
DEAN OF THE SCHOOL OF EDUCATION AND PROFESSIONAL STUDIES

Central Connecticut State University invites nominations and applications for the position of Dean of the School of Education and Professional Studies. A comprehensive state university, Central Connecticut State University is located in the Hartford Capital Region, with convenient highway and public transportation access to New York City and Boston. CCSU, established in 1849, is the oldest—and in many ways the newest—public institution of higher education in Connecticut. The University offers a broad array of liberal arts, science, and professional programs that lead to Bachelor’s degrees, Master’s degrees, and 6th Year Certificates. Academic departments are organized within Schools of Arts and Sciences, Education and Professional Studies, Business, and Technology. With 910 undergraduate and 2500 Master’s level students, CCSU is the largest institution in the four-campus Connecticut State University System.

The School of Education and Professional Studies is searching for an outstanding leader with the vision to assist the School’s efforts to move into the next century with a major focus on student learning. The Dean is the chief academic officer of the School and reports directly to the Vice President for Academic Affairs. The successful candidate will be expected to provide vision and leadership in the planning and delivery of high quality instructional, research, and service programs. The Dean is accountable for administering the School’s resources and curricula to achieve the mission of the School and the University.

The School of Education and Professional Studies includes the departments of Health and Human Service Professions, Educational Leadership, Physical Education and Health Fitness Studies, Reading and Language Arts, Special Education, and Teacher Education. The Dean serves as the official head of the university’s NCATE accredited teacher preparation programs and other nationally accredited programs. The School has developed a large Professional Development Schools network with schools in the Hartford metropolitan region. Instruction is offered through the 6th year certificate level. The Student Training Program faculty and 1430 undergraduate and 1060 graduate students in the school.

Qualifications for the position include an earned doctorate; a record of academic excellence in teaching and scholarly activity sufficient to achieve tenure within a department in the school; a record of outstanding leadership and administrative skills; budgetary, planning, and fiscal management experience; a commitment to public education and to NCATE and other professional national accreditation standards; a record clearly demonstrating a commitment to participatory decision-making, diversity, and affirmative action. Preference will be given to candidates with evidence of experience and/or public service in schools or other professional settings; experience in grant writing; commitment to Professional Development School networks; knowledge of collective bargaining. Credentialed experience substantively comparable to the above will also be considered.

Deadlines: Nominations must be received by February 10, 1999. Letters of application must address the qualifications and be accompanied by a curriculum vitae, a statement of educational and administrative philosophy, and the names, titles, addresses, and telephone numbers of three references. Although letters of application received before February 15, 1999, are best assured of full consideration, the position will remain open until filled.

Address letters of nomination and application to: Dr. June B. Higgins, Chair, Dean of Education and Professional Studies Search Committee, Office of the Dean, School of Arts and Sciences, Central Connecticut State University, New Britain, CT 06050. For more information about CCSU and the School of Education and Professional Studies, visit the University web site at www.ccsu.edu.

CCSU aggressively pursues a program of equal employment and educational opportunity and affirmative action. Members of all underrepresented groups, women, veterans, and persons with disabilities are invited and encouraged to apply.

Plattsburgh State University of New York invites applications for Fall 1999 positions.

Plattsburgh State University of New York is a comprehensive, coeducational, public institution of nearly 6,000 undergraduate and graduate students. Located on the shore of Lake Champlain, the College is the intellectual and educational center for the Lake Champlain/Adirondack region of New York State. Outdoor activities abound along Lake Champlain, in the Adirondack High Peaks and nearby Olympic resort village of Lake Placid while the urban, multi-cultural lifestyle is rich in neighboring Montreal, Canada, one hour's drive from campus. We offer a competitive salary and an excellent benefits package.

Successful candidates must be committed to excellence in teaching with an interest in interdisciplinary and collaborative programs such as Women's Studies, Latin American Studies and Canadian Studies. All of which are special foci for the Col. ... a desire to integrate information technologies and a willingness to participate with new distance learning programs.

Applications from women and minority candidates are especially welcome.

Plattsburgh State University is an affirmative action, equal opportunity employer.

James Sprunt Community College
Kenansville, North Carolina

PRESIDENT

The Board of Trustees of James Sprunt Community College is seeking applications for the position of President of the College. JSCC is a comprehensive community college enrolling 1200 curriculum students in college transfer, technical and vocational programs and 3,500 additional students in non-credit courses. Charter in 1964, JSCC is located in southeastern North Carolina, in the Duplin County seat of Kenansville.

An applicant must hold a Doctorate from an accredited institution and must have significant experience as a senior level administrator, preferably in a community technical or junior college. The successful candidate will be or become a resident of Duplin County. Salary is based on the North Carolina Community College presidents salary scale. Projected employment date: July 1, 1999

Application deadline: March 5, 1999

Desired Characteristics:

- Understanding of and commitment to the philosophy and mission of the North Carolina Community College System
- Understanding of and commitment to the mission and goals of James Sprunt Community College
- Strong commitment to learning and teaching in a student-centered environment, and sensitivities to the needs of students, faculty and staff members
- An understanding and appreciation of students and citizens of a rural environment and sensitivity to cultural and demographic diversity
- Commitment to economic development and responsiveness to the training needs of area business and industry
- The ability to communicate effectively and openly and to be an effective leader and advocate of the college
- Strong financial management skills and the ability and desire to be both innovative and fiscally responsible in the use of resources
- An understanding of and commitment to the appropriate use of technology in learning, teaching, administration and management
- The ability to work effectively with other educational entities, business and industry, all levels of government, and the community at large

Send inquiries and requests for application to:
Mrs. Helen A. Boyette, Chairman
Presidential Search Committee

—an ACCT Search—
A private, Catholic Vincentian university, founded in 1898 in Chicago, serves approximately 18,000 undergraduate and graduate students with degrees in Education, Liberal Arts and Sciences, Law, Commerce, Computer and Information Science, Music, Theatre and Adult Education. DePaul is committed to the development of Chicago and to the progress of its schools and diverse communities. The University plans aggressive growth for 2006.

The School of Education seeks applications for five approved and funded positions, beginning in the 1999-2000 Academic Year: Curriculum Studies, Introduction to Teacher Education with Social Studies, Physical Education, Reading/Language Arts, and Social and Cultural Studies with Specialty in Youth Culture. Positions will be filled at the Instructor, Assistant or Associate level. The School actively seeks to build and maintain a diverse faculty. For all positions the School seeks faculty members who bring a critical perspective to the issues of urban education, diversity, multiculturalism, reflective practice, and social justice. Expertise and capacity to integrate technology into the University curriculum is appreciated.

In keeping with DePaul University’s Vincentian mission, the School of Education is committed to social justice. The School fosters conversations on education across the University and prepares urban professional multicultural educators in programs that connect theory with practice. For more information, refer to our website at: http://www.depaul.edu/~educate. Graduate and undergraduate curricula promote and emphasize the examination of schooling and other educational issues from psychological, social, cultural and political contexts. In addition, the School encourages the students and faculty to engage in activities that lead to improvement and innovation in schools and other institutions serving children and youth. The primary location of the School of Education is the Lincoln Park Campus. The Ed.D. Program in its first year of operation on the Lincoln Park Campus emphasizes curriculum and educational leadership preparation for the 21st Century. The School offers Masters programs on several suburban campuses. Serving eighteen hundred students, the School offers certification in elementary, physical education, secondary, educational leadership, human services and counseling, early childhood, early intervention, learning disabilities, social emotional disorders, an endorsement in bilingual/ESL, and reading specialist approval. The School is accredited by NCATE. Alumni are found nationally, regionally and locally.

All positions require teaching undergraduate and graduate students in field of expertise and related areas. Bilingual (Spanish) candidates are encouraged to apply. Faculty members are expected to supervise internships, advise students, or direct graduate student research.

Required qualifications:
• earned doctorate required for appointment at assistant or associate professor
• defined research agenda
• ability to work collaboratively within and across programs
• two areas of expertise to contribute to the School
• recent experience with culturally diverse urban populations
• commitment to urban education
• excellence in teaching, service and scholarship or demonstrated potential

Nominations and applications for the positions are invited. Salary and benefits are competitive and commensurate with qualifications and experience. Please send:
1. Letter of application clearly delineating qualifications for areas of expertise
2. Complete and up-to-date vita
3. Complete transcripts
4. One example of recent professional publication or presentation
5. One page statement on philosophy of teaching
6. Three to five professional letters of references sent directly

Review of applications will begin as received and continue until the positions are filled. Send all applications and materials to Marianne Murphy, Assistant Dean, School of Education, DePaul University, 2320 North Kenmore, Chicago, IL 60614 FAX (773) 325-7728 E-mail: mmurphy@wpdepaul.edu

DePaul University is committed to diversity and equality in education and employment.

ACADEMIC EXCELLENCE

Essex County College, a two year, comprehensive community college located in Newark, NJ seeks applicants for the position of Vice President of Academic Affairs-Chief Academic Officer

The requirements for this position include

- Earned doctorate
- Increasingly responsible academic administrative experience during the last three years at the dean's level or higher
- Demonstrated record of innovative and creative leadership in designing, developing and administering academic programs and faculty development
- Administrative effectiveness in strategic planning, collective bargaining, enrollment, budget and personnel management

Essex County College is a comprehensive urban community college which enrolls more than 8,000 credit and 15,000 non-credit students in over 40 majors. The college also has a rapidly growing suburban branch campus.

Screening of applicants will begin in March and will continue until an appointment is made.
EMORY UNIVERSITY, one of the nation's leading research universities, is composed of several affiliated institutions located in the metro Atlanta area. With a rich history spanning over 160 years, our University has made great strides in education, medicine and contributing to a better quality of life. We are seeking an experienced individual to add to our success in the field of Information Technology.

CHIEF OPERATING OFFICER
Information Technology Division

The Chief Operating Officer will oversee all day-to-day operations of the University's central information technology resources including teaching and research support, central information systems, networks for voice, video and data, a data center and a customer support center. Reporting directly to the Vice Provost for IT and acting as leader of the IT Management Team, the COO will work on a broad range of strategic and operational issues (with an emphasis on implementing these strategies) as well as assume responsibility for coordinating the activities of the Division's eleven functional teams. The COO will manage an organization with $22 million budget for IT, a telephone budget of $10 million and a staff of 250 employees. The COO works cooperatively with several other IT service providers on campus. This position requires a team leader with a Bachelor's degree, a broad operating background in IT at the management level and hands-on familiarity with mainframe, client-server and distributed computing acquired by having at least 10 years experience in the field. Must also be familiar with emerging technologies that are applicable to the academic environment. Must have demonstrated commitment to working in a team-based, customer-focused environment. Excellent communication skills and the ability to create consensus in a diverse user community are essential. Strong planning and implementation skills are also essential.

Qualified candidates, please send resumes to:
Elizabeth F. Bicknese, Partner, Heidrick & Struggles, Inc., 303 Peachtree Street, One Peachtree Center, Suite 3100, Atlanta, GA 30308. FAX (404) 577-4048, E-mail: EFB@H-S.COM, AAEOE.

WESTERN NEW MEXICO UNIVERSITY

DEAN
SCHOOL OF EDUCATION

The School of Education (SOE) is seeking an outstanding leader whose vision will assist the university to move into the next century as an exemplary model of a modern, technologically capable institution with a strong focus on student learning outcomes, professional growth of the SOE faculty, and collaborative partnerships with public, native, and private schools. The dean is the chief academic officer, reports directly to the Vice President for Academic Affairs, and serves on the president's cabinet. The SOE is the largest academic unit at the university.

SOE has 7 tenured-track positions, four housed at the Gallup Graduate Studies Center, which serves about 250 students in Gallup, NM. On campus approximately 300 professional education students are enrolled in a variety of undergraduate and graduate NCATE-accredited programs. All programs hold a commitment to the core values of diversity, inclusion, reflective practice, and collaboration. Faculty committees on curriculum, policies, and professional development guide the SOE in its creation of a participatory, open learning environment that draws on faculty members' individual strengths. A collaborative governance structure enhances the student body's learning environment.

REQUIRED QUALIFICATIONS: An earned doctorate in an appropriate field, a record of academic excellence in teaching in P-12 schools and at the university level, and scholarship sufficient to hold a tenure rank; a record of outstanding leadership and administrative skills including budgeting, planning, and fiscal management experience; demonstrated commitment to collaborative decision-making and diversity issues; experience implementing reforms in teacher, counseling, or administrative education; evidence of interpersonal and communication skills; ability to work effectively within the university community; and experience with the NCATE accreditation process.

FREE-RED QUALIFICATIONS: Prior experience as a department chair, assistant dean or dean.

SALARY: Competitive with regional peer.

APPLICATION INFORMATION: Reviews of applications for this position will begin February 19, 1999, and will continue until the position is filled. Applications must include a letter of application, resume, statement of their education and administrative philosophy, and the names, addresses and phone numbers of five references. Forward inquiries, nominations, and applications to:

PRESIDENT
northeast
MISSISSIPPI COMMUNITY COLLEGE
Booneville, Mississippi
The Board of Trustees of Northeast Mississippi Community College (NEMCC) announces a vacancy for the position of President of NEMCC. The President is the Chief Executive Officer of the College and reports directly to a fifteen-member Board of Trustees. The Board of Trustees desires to fill the position in time for the incoming president to assume responsibilities on July 1, 1999.
NEMCC is a public comprehensive community college serving a five county area of northeast Mississippi. The five counties include Alcorn, Prentiss, Tippah, Tishomingo and Union. The College currently enrolls more than 3,000 students and employs over 250 full-time faculty and staff. Presently, the College has an annual budget in excess of $17 million. The physical plant is valued at over $56 million.
A fifteen-member Presidential Search Committee is being formed to develop a statement of the qualifications, experience and characteristics being sought as soon as possible. Meanwhile, nominations and expressions of interest may be addressed to: Ms. Lynn Vuncannon, Presidential Search Committee Liaison, c/o Keenum & Tutor, Attorneys at Law, POB 418, Booneville, MS 38829; Tel: 601-720-7200.
Web Address: necc.cc.ms.us

MSU-JSRI JOINT POSITIONS ANNOUNCED

The Julian Samora Research Institute and Michigan State University announce searches to fill three joint positions at this mid-Michigan campus. These position announcements are part of a Michigan State University initiative to strengthen faculty capacity in Latino-Chicano Studies. A position is being advertised in the School of Social Work and three faculty positions are being advertised in Psychology, Sociology, and Anthropology. Two of the three positions in Psychology, Sociology, and Anthropology will be filled.

SOCIAL WORK/LATINO STUDIES - The School of Social Work invites applications for a tenure-track faculty position (assistant professor) specializing in work with Chicano/Latino families and communities. The candidate will be appointed in the School of Social Work (the tenure home) and will have an affiliation with the Julian Samora Research Institute, the Midwest's premier policy research and outreach center to Latino communities. The position involves a 50% teaching release for three years to allow work to advance the Institute's mission to promote the generation of scholarship on Chicano and Latinos. Sociology seeks candidates who have primary research and teaching interests in Chicano, Latino, and/or Latin American-origin groups and communities, and minority mental health. Preferred secondary areas of specialization include the study of diverse and nontraditional families and households (as defined in terms of race, class, gender, ethnicity, migrant status, sexuality, or other forms of structural inequality). All methodological approaches are appropriate. Applicants are encouraged to apply. The starting date for this position is Aug. 16, 1999. Teaching responsibilities include undergraduate, graduate courses in family, mental health, race and ethnicity, Chicano, Latino, and Latin-American-origin communities in the U.S., and integrated social sciences. Applications should be sent to Dr. Steve Gold, Department of Sociology, Michigan State University, 316 Berkey Hall, East Lansing, MI 48824. Review of applications begins Feb. 1 and continues until a suitable candidate is identified. Further information, please contact Dr. Steven Gold, Department of Sociology, Michigan State University, 316 Berkey Hall, East Lansing, MI 48824 or e-mail him at gold@pilot.msu.edu.

ANTHROPOLOGY/LATINO STUDIES - The Department of Anthropology and the Julian Samora Research Institute invite applications for a possible tenure-stream faculty appointment (at the Assistant Professor level), specializing in Chicano/Latino Studies. The candidate will be jointly appointed by Anthropology and the Julian Samora Research Institute. The position involves a 50% teaching release for three years to allow work to advance the Institute's mission to promote the generation of scholarship on Chicano and Latinos. Teaching responsibilities include undergraduate and graduate courses in family, mental health, race and ethnicity, Chicano, Latino, and Latin-American-origin communities in the U.S., and integrated social sciences. Applications should be sent to Dr. Steve Gold, Department of Sociology, Michigan State University, 316 Berkey Hall, East Lansing, MI 48824. Review of applications begins Feb. 1 and continues until a suitable candidate is identified. Further information, please contact Dr. Steven Gold, Department of Sociology, Michigan State University, 316 Berkey Hall, East Lansing, MI 48824 or e-mail him at gold@pilot.msu.edu.

PSYCHOLOGY/LATINO STUDIES - The Department of Psychology and the Julian Samora Research Institute of Michigan State University invite applications for a tenure-stream position at the rank of Assistant Professor specializing in Chicano/Latino Studies. The position involves a 50% teaching release for three years to allow work to advance the Institute's mission to promote the generation of scholarship on Chicano and Latinos. Teaching responsibilities include undergraduate and graduate courses in family, mental health, race and ethnicity, Chicano, Latino, and Latin-American-origin communities in the U.S., and integrated social sciences. Applications should be sent to Dr. Steve Gold, Department of Sociology, Michigan State University, 316 Berkey Hall, East Lansing, MI 48824. Review of applications begins Feb. 1 and continues until a suitable candidate is identified. Further information, please contact Dr. Steven Gold, Department of Sociology, Michigan State University, 316 Berkey Hall, East Lansing, MI 48824.

Handicapped persons have the right to request and receive reasonable accommodations for any of these publicized positions. MSU is an affirmative Action/Equal Opportunity Institution.

I DUNTO FINAL!

HOW TO RECRUIT AND RETAIN LATINO FACULTY

In Lewis Carroll's Alice's Adventures in Wonderland, Alice asks the Cat: “Would you tell me, please, which way I ought to go from here?” “That depends very much which way you want to go,” said the Cat. “I don't much care which way you go,” said Alice. “Then it doesn't matter which way you go,” said the Cat.

Like Alice, Chicano/Latino faculty face a dilemma: an academic often unconcerned with guidance or direction, and a consistent obstacle for those who are different in language, appearance, or both.

The cycle of obstacles begins early, in grades K-12. As American institutions admit and educate increasing numbers of minority students, they also witness alarmingly high minority dropout rates. Having run the gauntlet of public education, our hermanas y hermanos who succeed in reaching college remain at-risk for each step-out (i.e., leave college and return later) or dropout, further limiting the number in graduate school. Surveys indicate that due to changes in affirmative action laws, fewer minorities are applying to and entering college. Even within a university, with a new faculty position with a rare Latino candidate, it presents as a culturally insensitive place. Few within the institution know about the personal and professional identity development of Latino faculty, completing the cycle of educational frustrations.

A radical thought occurs: suppose the theories and interventions we use to prevent dropout in the public schools were to be applied to the academy?

There are many such programs. For years, scholars have been writing about culture-based empowerment models of student retention, and are increasingly specific in their recommendations, stressing the need for intercultural understanding. From similar modifications, these models also provide direction to colleges and universities.

Jim Cummins, University of Toronto, has written extensively on empowering minority students. The central idea in his model is that majority-minority societal group relations, school/minority community relations, and education/minority student relations exert a major influence on school performance. Problems in these relations result in widespread school failure for dominated minorities.

He proposes that schools incorporate minority culture and language into the curriculum. In higher education, this means that universities must explicitly incorporate diversity (in this case racial/ethnic and linguistic) issues into their mission statements. These statements must appear at the departmental and college levels, where they can provide guidance for deans and department chairs. This inclusion allows faculty to create university-sanctioned culturally responsive learning and research environments that, in turn, will attract a more diverse faculty. Cummins also recommends that professors involved in assessment become advocates for minority students.

by focusing on systemic/institutional interactions as a primary cause of academic difficulties rather than deficiencies within the student. For universities this means that there must be culturally aware assessment at all stages of faculty recruitment and retention. The competitive, aggressive nature of some search processes is unnatural to Latino and other culturally diverse faculty who may value interdependence and who are more relational (rather than independent) in their social patterns of interacting. In a society where the majority group values independence and assertiveness, such relational styles may be evaluated as weaknesses. Deans, in other words, must recognize that apparent over- or under-participation of culturally different faculty (my own Latino excellence has at times been called to my attention) may be due to differing cultural styles of communication rather than to disinterest or lack of professionalism.

If minority/majority relations impact faculty retention, it follows that the cognitive and affective status of Latino professionals will also be affected. Interactions noted above have been described as person-environment transactions in the mental health literature. Many Latinos have had to overcome significant economic and cross-cultural barriers to achieve the profession. This achievement is not without its cost. Being first in the family to go to college or earn a doctorate may strain family and personal relations. The almost daily battle against ethnic stereotypes in higher education degrades the spirit of even the strongest person. Mental health researchers call it ethnocultural stress and distress. Moreover, many Latinos in the academy also bear the weight of demonstrating the legitimacy of their achievements against a still-raging affirmative action controversy.

The academy can respond by demonstrating sensitivity to organizational and occupational conditions that reduce stress and ethnocultural conflicts. Or, as my Abuela used to say, "Lo córdés no quita la ruidosa." Such initiatives can have significant mental health effects. Latino professionals often attend to interpersonal relationships or personalismo, preferring personal contact to abstract institutional ones. Personalismo is supported by structured mentoring relationships between junior and senior faculty. Accessibility of deans and department chairs who are flexible about hierarchy or "going through channels" demonstrates institutional sensitivity to Latino and other minority faculty who rely on interpersonal relationships to navigate the academy.

Administrative communiqués about hiring practices that seek to diversify the academy may be less effective than regular educational forums on the role/responsibilities and opportunities afforded by a culturally diverse faculty.

Finally, administrators should be aware that time is both an ally and an enemy for Latino faculty. Because we often enter the academy unacculturized as to the norms of the profession, it takes us longer to accomplish the requirements of tenure. Perhaps we should keep in mind the Cat's reply to Alice: "Oh, you're sure to get somewhere, if only you walk long enough."

Book Review: Books in Spanish for Adolescents 32

¡Punto Final!
Latino Stereotyping: The Continuing Disgrace of Our Nation's School Books by Barbara Cruz, Associate Professor of social science, Education—University of South Florida, Tampa.
Population Shifts and Strategies

Hispanic children of elementary school age and younger now outnumber Black children for the first time in the nation's history. Further, Hispanics will become the nation's largest minority within seven years, according to U.S. Census Bureau statistics.

By 2005, the Bureau projects that Hispanics will overtake Blacks as the largest minority group in the United States. Some observers believe that the balance could actually change as early as the 2000 census count. That possibility and the attendant benefits that would accrue to Hispanics mobilized several Hispanic Congresspersons to press the Clinton administration to take steps long overdue to assure an accurate count of Hispanics.

The House Hispanic Caucus

The bottom line is that under existing methods, many Hispanics have not been counted in the past. Faced with that reality, Hispanics in the House of Representatives pressed both President Clinton and Vice President Gore to speak out in favor of allowing the U.S. Census Bureau to use statistical sampling methods in addition to actual head counts for the year 2000 Census. Congressional Republicans opposed the plan.

Rep. Loretta L. Sanchez, D-Calif., fresh from her reelection victory, said that such statistical sampling methods are crucial for Hispanics because low-income people have gone uncounted in past census tallies.

One in every 20 Hispanics was missed in the 1990 census, according to the Government Accounting Office, a key investigative arm of Congress. The GAO has said that the 1990 census missed 16 percent of the population, or 8.5 million people, the majority.

The administration and many congressional Democrats said that use of statistical sampling to estimate the number of people not counted directly would help correct the undercount.

Others argued that such sampling would augment the number of minority groups who, they felt, would likely vote Democratic. Some Republicans said that sampling is not provided under the Constitution and would be subject to political manipulation.

[Editor's Note: The U.S. Supreme Court recently voted 5-4 to bar the Census Bureau from using statistical sampling to reapportion House seats after Census 2000. Jeff Rabin, LA Times, quoted Congressman Xavier Becerra as saying an undercount would have the greatest impact on low-income, inner-city neighborhoods and rural areas. Assembly Speaker Antonio Villaraigosa as saying the "horrible decision" could mean the loss of congressional districts.]

The Trend

Data provided by the Census Department points out a clear trend. By 2010, there should be more Hispanics than all other minorities combined.

Hispanic children surpassed Blacks in number—just barely—as birth rates for Hispanic women fell much more slowly than did those of Blacks.

That's one of myriad statistics in the government's annual report on the well-being of the nation's children. In 1997, there were 605 million of them.

"It brings urgency to the plight of Latino children," noted Lisa Navarrete of the National Council of La Raza, the nation's largest Hispanic community advocacy group. Unfortunately, she said, the figures show that Hispanic kids lag behind their White counterparts on a host of measures.

The Good and the Bad

Overall, the news was good. More children were immunized, were read aloud to, and finished high school. Fewer infants died, fewer kids had lead in their blood, and fewer teenagers were killed.

"There are more indicators that are getting better than are getting worse," noted Dr. Duane Alexander, director of the National Institute of Child Health and Human Development, when the report was released here in Washington.

But there was bad news, too. Children who were poor, Black, or Hispanic did worse on many fronts. There were more low-birthweight babies and more teenagers smoking and drinking.

"And we're not talking about an occasional drink. We're talking five drinks in a row in the last two weeks," Alexander said. The same goes for smoking, he said. "These kids are hooked.

Hispanic Realities

But the report's most dramatic data might be the demographic changes among minority children. Hispanics and Blacks each now make up about 15 percent of America's children, with Hispanics slightly outnumbering Blacks. The Hispanic population is concentrated in a handful of large states, though it is growing across the country, and the changing demographics pose numerous challenges.

"It's something that has to be taken into account whether you're delivering health services, educational services, social services, or whatever," Alexander said.

In school, Hispanics often need help learning English. Regarding health matters, Hispanics are least likely to get immunizations and most likely to get pregnant.

Hispanics, especially the poor ones, are not being well served. Many Hispanics hope the changing demographics will help publicize their legitimate needs. But for the moment, the figures clearly show that Hispanics have the lowest levels of educational achievement. There is a growing sense in Washington that these key issues have to be addressed.

And the first one is to secure an accurate census count in the year 2000.

Dr. Mellander is a professor at George Mason University.
Groundbreaking Research;
Serendipitous Grants

By Mia Anderson

A.W., the American Association of University Women, a nationwide grassroots organization of more than 160,000 college graduates, is dedicated to promoting equity and education for all women and girls. AAUW consists of three corporations—The Association, the Educational Foundation, and the Legal Advocacy Fund—each founded for the express purpose of removing financial, legal, and social barriers faced by all women and girls.

According to Valerie Ducker, director of AAUW’s Diversity Initiative, the mission is “one of education and equity,” and “since the 1990s, we have been diversifying our organization. We have completed a diversity plan and want to build a collaborative—we want to broaden our impact and expand our outreach. And the more diversified we can be, the more we build on the talent and diverse perspectives in our communities, the greater our impact.”

One of special interest here is the Educational Foundation, whose widely respected research has drawn national attention to the problems facing girls in school. In 1991, the foundation published the landmark book *Shortchanging Girls, Shortchanging America,* and in 1992 came *The AAUW Report How Schools Shortchange Girls,* a startling examination of how girls in grades K-12 receive an education. In 1993, the foundation published *Hostile Hallways: The AAUW Survey on Sexual Harassment in America’s Schools.*

Next, the foundation turned to identifying the “approaches and school climate that work to ensure that girls succeed in school.” In 1995, it published *Growing Smart: What’s Working for Girls in School,* and *Girls in the Middle: Working to Succeed in School* appeared in 1996. Early last year, *Separated by Sex: A Critical Look at Single-Sex Education for Girls* challenged—and, after thorough comparison of findings—the popular idea that single-sex education is better for girls than co-education.

“I think it is crucial that girls in this population receive an education that doesn’t limit them to unskilled, subsistence, and seasonal or contingent jobs,” the report insists.

Just beginning is a newly formed independent commission convened by AAUW and charged with looking specifically at the differences in the way girls and boys accept and use computer-based technologies and what strategies and techniques teachers can use to ensure equity in the classroom. The 13 commissioners include academics, Internet company and software provider professionals, and others. Co-chairs are Sherry Turkle, professor of sociology at the Massachusetts Institute of Technology, and Patricia Díaz Dennis, former member of the Federal Communications Commission and current senior vice president for regulatory and public affairs at a major communications corporation. "People operate with a lot of assumptions," Díaz Dennis says, "and we want to get past those and find out what’s really true about gender and technology. We want to be able to..."
make some concrete recommendations so that technology is used in a positive way across the board in schools.

Asked if Hispanic girls and their relationship to technology will be looked at, Diaz Dennis responds that “Girls are girls—there are lots of differences that we’ll take into account, particularly socioeconomic differences. My fourteen-year-old daughter is on the Net in ways I never would have considered. Everyone needs to have a good relationship with it...All of us are concerned,” she says. “That one-half of our population be fully engaged in where we as a society are going with technology. We want people to be proficient with computers and want to make sure that that includes women.”

Teacher training will be an especially important component of the commission’s study. “It all comes down to the teachers,” Diaz Dennis says. “If they model a positive attitude toward computers and technology, this will have a positive effect on the students.”

“AAUW is to be applauded,” she says. “For funding this commission—the full name of which is the AAUW Educational Foundation Commission to Examine Gender, Technology, and Teacher Education—Teachers who understand how technology shapes and changes the way we think can help ensure girls aren’t just users of technology, but creators.”

AAUW Awards and Grants

Another major program of the AAUW Educational Foundation that benefits Hispanic women involves the bestowing of, in 1997-98, nearly $3 million dollars in awards and grants; in that year and the 1998-99 year, 16 of the recipients were Hispanic women. HO interviewed several awardees.

Sylvia Cedillo—who is Mexican American and one of twelve children, ten of whom went to college, including two who became lawyers, herself included—has won three Foundation awards and grants and calls herself an “AAUW poster child!” Her first, in 1994-95, when she was in her final year of law school at the University of Texas at Austin, helped fund her project, which was the production of the booklet, Sexual Harassment: What Students Suffer and What Schools Should Do, a booklet that, now published also in Spanish, is still marketed and is being sought by the U.N. Department of Education for its regional civil rights offices. The booklet discusses peer-on-peer sexual harassment in schools, educating both students and their parents about their rights in protecting themselves.

Cedillo laments that there “still is no mandatory requirement that a school has a sexual harassment policy—the law says only that schools may develop one.” The booklet is important, she says, because it is user-friendly and concrete in its discussion, providing clear definitions of behaviors that constitute sexual harassment as well as sample policies and sample complaint forms.

Cedillo received a Foundation 1998-99 “Community Action” grant, one that provides seed money to individual women and to AAUW branches for projects that promote education and equity for women and girls. The funds are helping her produce both a parents’ kit and an educators’ kit about peer-on-peer sexual harassment in schools.

“Parents need to know that they have to document incidents when their child suffers harassment. They need to document all of their communications with the school.” The kit will provide very specific how-to information for parents....Parents need to know that a child who isolates herself in her room, for example, might be a victim to a word/concept that Cedillo does not like of sexual harassment, that this is not “normal” behavior.

“There is a dearth of information for teachers. Teachers need guidance too. They need to know that the schools sexual harassment policy should be posted in their classrooms. They need to know what behaviors [by teachers or students] could be considered sexual harassment. They need to let students know what these behaviors are—and that they don’t have to take it.” Cedillo’s educators’ kit will not be vague. She has spoken to approximately 15,000 students and 5000 to 6000 teachers in the past three years, and says that, regrettably, the male students often have to be “wrestled with to get them to focus, to listen, to take the matter seriously.”

Asking how AAUW helps Hispanic females in particular, Cedillo cites the many publications it has published, all of which show an understanding of the environment in schools and deal with issues specific to Hispanics. She cites the grantsawards to Hispanic women and points out that there are opportunities at the local branch as well. Her own Austin Chapter provides many scholarships and other awards, she says. And Cedillo cites the “terrific mentoring opportunities, especially at the local level. It is one of the best things that AAUW does, and it’s an extra plus that the mentor is a woman who graduated from a college or university.”

Rebecca Garcia Chackalackal is a 1998-99 AAUW “Selected Professions” $5000 grant winner. These go to women in traditionally male-dominated fields. She used her award to help pay tuition for her first year of medical school at the University of Iowa. Half Mexican American and half Croatian, she is interested in working with underserved populations. An anthropology major in undergraduate school, she volunteered for a year as the student service coordinator at a church and helped out at centers for the homeless. She
realized that as a doctor, she would be able to help people who really need it, and began pursuing a medical degree. Currently interviewing for residency in family practice, she still finds time to volunteer at a free health care facility in Iowa City. "Hispanics in Iowa feel really isolated, so it's very rewarding for me to help them out in the health care area," she says.

Chackalackal's husband is originally from southern India, where she did a rotation last summer. At the hospital she "saw things that I definitely haven't seen here—malnutrition, for example. By their standards, it was a fancy hospital, but while the doctors were wonderful and it was a great learning experience for me, it was really outdated."

Chackalackal learned about the AALW grants from a Hispanic counselor at the University of Iowa. She wasn't at all confident, she says, but urges potential applicants to "take chances because you never know!"

Gloria Pilar Totoricaguna won a 1998-99 "American Fellowship", given to women doctoral candidates writing their dissertations and to postdoctoral scholars pursuing research. She is "very thankful" to AALW, especially for allowing applicants to study outside of the U.S. and for its emphasis on candidates who will return with their university training and use it to improve the community and the schooling conditions for girls. Mentoring included for many female students, she says, high school is "their last chance for education. But if they can see that [a college education] is possible, if they can see a personal face on it, maybe they will find what it takes to go on the college."

Totoricaguna, whose ethnicity is Basque, did graduate study in Uruguay, completing her master's degree in Latin American Politics and Economics. She is using her AALW grant to help finance her final year of Ph.D. study at the London School of Economics. Now completing the writing of her dissertation, she plans to teach at the university level after graduation.

Totoricaguna lives in Boise, Idaho, which she says has a Hispanic community of 10 or 15 percent, with her husband and daughter, and teaches political science at Capital High School. At both the high school and at Boise State University, she works with mentoring projects involving "job shadowing," which matches female students with female mentors. A student interested in wildlife management, for example, with a woman working in the Idaho Fish and Game Department. A student interested in political journalism was matched with a mentor from the Snake River Alliance, an environmentalists group whose efforts aim at stopping dam building and stopping bomb testing at military bases with bomb testing communities. The student is learning how to create media spots, put together newsletters, and go to the legislature with Alliance lobbyists. A political science student was "matched" to serve as an intern in the Idaho state house and senate. "I feel like I have a responsibility to the community. Totoricaguna says, and I applaud AALW for holding that up as a responsibility."

Graciela Biscareño-Sato, born in Texas to Mexican parents, received an AALW "Career Development" grant for women reentering the workforce, changing careers, or advancing their current careers for 1998-99. A captain in the U.S. Air Force, on active duty at Fairchild Air Force Base as a KC-135 navigator, she is using the grant to finish her master's degree, and recently won an Academic Excellence award at the Graduate School of International Management at Whitworth College in Spokane, Washington. Her thesis looks at "how technology encourages (or doesn't encourage) girls to explore career fields they might not otherwise consider. Are telecommunications, including the Internet, making a difference for girls?" Now on temporary assignment in Quito, Ecuador, she is talking to people there in schools, in the government, and elsewhere as part of the thesis project.

Early on, she says, she was interested in satellite technology, and this quickly led to an interest in the infrastructure: the cables, the switching stations, the cellular components—those that are needed, for example, to get a school hooked up to local Internet service. "In South America," she says, "telecommunications is expanding. I want to look at how the technology gets there. What the impact on the people is, what the social results are. I want to look at what happens if you don't get involved, at what exclusion will mean to you. It's so important to girls to become technologically literate, starting with the computer."

While in high school, Biscareño-Sato attended an AALW-sponsored conference, "Expanding Your Horizons," designed to encourage girls to enter science and math fields. Now she is highly involved in planning the conference program. Last spring, while searching the Internet for funding sources for her master's study, she noticed the AALW opportunities at its Web site. She expresses the strong hope that more young girls of all races and ethnicities are getting interested in science and technology. "This can happen," she says, "when they have more and more information, more awareness of nontraditional career fields!" If they have AALW.

Check It Out
Call AALW at (202) 785-00 or visit their Web site at www.aalw.org.

Check out ¡Adelante!—AALW's popular book-of-the-month club that features books across the diversity span, such as Gloria Anzalda's Borderlands/La Frontera: The New Mestica as the September/Hispanic Heritage Month selection. ¡Adelante! has an on-line site/discussion room that can be joined by sending an e-mail to manager@lists.aalw.org. Leave the subject line blank and say only "subscribe adelante."
Diversity, Humanity, & Sisterhood

Charleston Conference Warm and Worthy

By Adalyn Hixson

“W”hen I got the job, I figured I’d better write something in my journal now, while I’m still happy, because I know that in six months I’ll think this job stinks.” The topic is journal writing. The candid commenter is a high-level administrator sharing her views in the response portion of a keynote’s address. The occasion is the 12th Annual International Conference on Women in Higher Education, held the first week in January in Charleston, South Carolina.

In an earlier session, a community college president inspires laughs too, and knowing nods, when she says, “If a woman or a minority gets the job, you can be sure it was a mess before they got it!”

Candor and laughter are persistent elements of this conference. The bonhomie is palpable, as is the cross-cultural, cross-generational respect the members give one another.

If any Latinas or other women in academia out there are seeking a support system, participation in the National Association of Women in Education seems a good place to start.

Getting Acquainted

A pre-conference session, “Getting Published in Scholarly Journals,” attracts a mix of newcomers and old-timers. Their self-introductions are impressive.

The first to speak after the leader’s welcome has been presenting at conferences for about 15 years and has published several pieces, mostly on issues of ethics in higher education. Next to her sits a vice president of academic affairs, the first woman at her college to reach that level. A department chair for many years, she claims that the chief task in that role is to keep faculty “from killing one another.”

A newcomer who holds a Ph.D in organizational behavior describes her background and her reasons for attending: “I’m just starting out at the University of Vermont, after 15 years in refugee work, human rights work, and policy work in Asia.” She’s spent her life, she says, “crossing boundaries back and forth.” For the last two years, her abiding passion has been “how adults learn about diversity.”

“Why am I here? My writing colleague and I are interested in this group of people as folks to be inspired by, supported by, to push forward the cause of making the world we all can share in.”

“I think women have historically done a wonderful job of that—confronting the past and forging new possibilities in a very diverse world.”

Another woman, among the first female vice presidents in the Texas system, is using administrative leave to return to the classroom, studying psychology. “I’ve started writing haiku,” she says, “as a means of getting into a different thought pattern.”

Many of the women attending write poetry. One says her book of protest poems, ready for publication, was inspired by her master’s thesis: “I just got angry when I was writing it. I had to write these poems.” She later confided that although she had typed her husband’s thesis, she’d never even read hers.

“I write a lot of things that get published that are not academic and frankly, I like to be able to put the emotion in.”

Pat Nixon has been quoted as saying she had sacrificed all she held dear on the altar of her husband’s ambition. This group seems determined not to make such a sacrifice but to struggle toward synthesizing personal and career interests and goals.

One participant, an attorney, also teaches employment law at two colleges. “This law is a way to build habits in the human resources community...to make good decisions that further the rights of women and families in our workplaces.” She has a special interest in issues of race, gender, and class.

Another travels throughout the world teaching nontraditional master’s students in the military—in the Azores, Guam, England, Spain. “It’s almost like being an anthropologist because you are dealing with a foreign country as well as the U.S. military and their dependents.”

“My research area is women’s studies,” she says, “but more recently I’m interested in the dominant model of human relations.” She shares but does not endorse a piece of advice given to her about academia—“Don’t EVER write anything autobiographical. It will be used against you.”

Each introduction presents a unique set of experiences, though all seem to have Ph.Ds. There is no sense of one-upmanship, not in this workshop nor at any other time at the conference.
Getting Published

Diane Calhoun French, workshop leader, has a Ph.D. in English Literature and a passion for popular culture—romance novels, soap operas, dinosaur films. She loves to examine, for example, the fatherhood roles in Jurassic Park. She hates to write, she says, but loves "to have written" and commends writing as an activity that helps her and others clarify what they actually have to say about an issue.

French was an editorial advisor to Initiatives, a quarterly journal of NAWE, the National Association of Women in Education, for four or five years and two years ago got the job as editor. She also read all of the abstracts submitted for the conference.

The single most important or valuable thing she can do for anyone present, she says, is "to read some of what you've written." She adds that it is also an important thing for English literature and other editors. "This is welcome news," French and others comment on the unimagined pardon and esoteric prose found in so many journals. They talk too of unnecessarily perceptive comments by editorial reviewers, and of the known reputations of certain journal boards, or even whole fields, for vituperative feedback. Some of use are amazed by the Haiku writer: "Some feel very sophisticated sending out brave comments," she continues. "That sort of feedback shuns the person down."

French describes the Initiatives review process and outlines what she looks for in an article, namely several acceptable forms an article might take.

"Does it tell me something I don't already know or does it confirm the known in an engaging or interesting way? Style is really urgent." Some articles are objective and scholarly, she says, but notes from the field are valid too. The straight literature search, she says, has four options: Accept, Accept with Minor Revisions, Accept with Major Revisions, Reject, and typically the feedback to the author is specific and detailed. She is perceived by authors who drop out at the "minor revisions" stage, and maintains that the emphasis is always on constructive criticism.

French is willing to review query letters and samples if this will help attendees make some progress toward publication.

Latinas

Nora Garza came into view at the first of two evening receptions, this one hosted by the newsletter. Women in Higher Education, an immensely readable and succinct source of information, and a conference co-sponsor. Garza, a vice president of NAWE for the state of Texas, is dean of academic instruction at Laredo Community College, one of the founders of TACHE, the Texas Association of Chicano in Higher Education, and chairs the Historic Preservation efforts in her hometown.

Over low-country cuisine of hot crab dip and delicately fried oysters, she tells NAWE that she played castanets in her high school music class. "Castanets?" exclaims NAWE. Garza explains that Laredo, now 95 percent Hispanic, began as a Spanish colony founded in 1500, part of Nuevo Santander, a large region both north and south of the Rio Grande.

They were the last of the Spanish, and fought to the end. Texas had six flags, Laredo has seven flags," she says. When the treaty of Guadalupe was signed and they made the Rio Grande the boundary between the U.S. and Mexico, people in the area said, "We do not want to be part of the United States. They founded a new Laredo south of the new border. And they took the bones of their ancestors with them." Laredo remained, however, a very Hispanic town. Native Americans originally in the Laredo area, she says, were the Comanche and the Lipan Apache.

This is her first visit to the conference. Aurelia Dalila de Silva presents a paper, "Barriers to the Participation of Mexican American Women in Higher Education," relating her past struggles as a professor in San Antonio, and some of her Latina colleagues. These include a successful out-of-court settlement of a lawsuit, followed seven years later by an unsuccessful bid for tenure. Gentle and determined, she admits to past naiveté in the teaching of a minority career through the minefields of academia. And to a long sense of isolation.

She credits NAWE and its conferences with offering her a support system sorely needed to survive the crisis of rejection and to confirm the validity of academic work that might be systematically attacked as part of a tenure-denying process. Her research was deemed "groundbreaking" by her peers but "ungrounded" by the tenure team.

She says NAWE is "very interdisciplinary, so you draw courage. Courage and lots of energy, lots of hope."

An editorial advisor to a scholarly journal, she is careful to encourage rather than discourage. A lot of my research," she says, "is with Latino children in the area of bilingualacy development." Special contracts give her time to write and to be involved, she says, and while she might someday return to academia as a professor, "not at this point."

Keeping the Faith

For its first 11 years, the University of Texas at El Paso was sponsor of the Women in Higher Education Conference. In early 1998, NAWE President Lynn Gangone learned that a new UTEP decision-maker had opted to strike all external conferences from the UTEP budget. Gangone spoke with Mary Dee Wenniger, editor of the UTE newsletter, and with Linda Hufnagel, University of Oklahoma, and with Calhoun French, and they basically decided... this conference is too valuable to lose. We can do it ourselves. Thus NAWE, which has its own annual conference coming up this month in Denver, opted to sponsor the January event as well, with the newsletter as co-sponsor. Other organizations signed on as endorsers: HERs Mid-America, The National Institute for Leadership Development (NAWE endeavor). The American Council on Education Office of Women, the American Association of Women in Community Colleges, and all three branches of AAUW.

At an evening reception, Gangone presents the first conference award. "She Who Laughs... Lasts. To Mary Dee Wenniger, cited the renowned and irreverent Wenniger wit along with relevant accomplishments.

NAWE and Diversity

Lynn Gangone urges "HO to
assure Latinas and all women that NAWE welcomes them wholeheartedly. Both Gangone and former NAWE president Barbara Baxter Phillips say that NAWE, which was founded in 1966, has a particularly long history of inclusion of African American academics. Gangone says that its inclusionary philosophy enters into every decision made by NAWE.

The line-up of conference presenters and presentations bears witness to that philosophy. And the presenters themselves, in all workshops attended by HO, offer a warm welcome to engage, to collaborate. This is not a closed system.

Keynoters

The goals of public television are said to be to educate, enlighten, and entertain. The keynoters, sans anything more visual than the clothes and expressions they wore, or more high tech than a microphone, managed all three plus three more— były invoked, engaged, and empathized.

Claudia Limbert, Ph.D., CEO of Penn State's DuBois Campus, deftly led her audience in search of blue walnut and buttersweet near the old open pit lead mines, long since abandoned, filled with water and cottonmouths in the Ozarks of her youth, where her LP's mother and her mother's best women friends got a chance to "really talk with one another"—healing conversations that were and are essential to women everywhere, she feels.

Limbert cautioned the audience: "My work could easily overtake my life...if I let it." She urged that home should be a sanctuary, a place for renewal, and that they must schedule retreats for themselves, simplify their surroundings, reassert their relationships with technology, and "find time to be with your women friends."

"There is a high rate of burnout among academic women, and a high rate of not getting promoted because you allow yourself to be sidetracked by a lot of other things," she cautioned.

An adult learner who raised four children before going to Bethel College and earning triple majors, followed by an M.A. and Ph.D. from Boston University, Limbert has authored and published scholarly articles, short stories, poems, and creative non-fiction works.

Limbert calls the conference "extremely valuable for women—not the typical education conference where you go in, you read

XAWE, and "mentally danced down the yellow brick road."

Bell-Scott read movingly from her most recent book, Flat Footed Truths: Telling Black Women's Lives, an anthology of personal tales told through story quilts, oral narratives, journals, and diaries—"where the unspeakable can be bound and described."

Ten years in the making, Bell-Scott accessed private accounts of women of color aged 8 to 94, both

A Global Anthology of Women's Resistance from 600 B.C. to present. Portions discussed and read at the conference stunned and inspired.

An Egyptian girl in Cairo of the late 1970s discovers that her parents and community dote on her brother and care not a whit for her own well-being.

The first woman hired by the state of North Carolina, late 1800s, notices that while she does virtually all the work at the Commission on Agriculture, she receives $30, the male secretary $125, and the Commissioner himself $200.

A Native American girl placed in a school for "Americanization" is possessed by a "muscular spirit of revenge" and piously marshes the serving dish along with the turnips for dinner—and exults in her rebellion.

A poet in turn-of-the-century Manchuria is executed for reading her poems of women's liberation in public.

Epilogue

It is unthinkable to leave Charleston without one of its sweetgrass baskets, "made of long leaf pine needles, sweetgrass, palmetto leaves, and bull rush—craftsmanship handed down from generation to generation by slaves from West Africa."

Time for shopping is short, but fortune prevails. In the open-air Old Slave Market facing the hotel, a few hardy peddlers remain on the cold late afternoon. Two African American granddaughters are shivering as they pack up for their elderly grandmother, weaver of sweetgrass. Despite the chill, and the frustrating search for a pen with ink that will flow in the cold, the talented weaver settles for a pencil and carefully writes down for HO the name of the twig-adoring the basket—popcorn berry from the tallow tree—and her name: Emils Havne.

Using Intellect to Improve Society

BY CHRISTIAN CLARKE, TIMI HAGGERTY, AND WALLI HALEY

“Whether comparing Hispanic and Anglo ethics or tracking levels of lead in pregnant Latinas or creating outstanding, replicable models to encourage women’s pursuit of education, UTEP’s Latina researchers make valuable academic contributions to the university and to their communities. They are nationally competitive researchers, but they also are committed to addressing issues that impact the region.

Uncovering the Past to Reveal the Present

Emma Pérez runs her finger from the southern tip of a Texas map to the eastern portion near Houston. The line represents her grandparents’ northern migration from the states of Coahuila and Nuevo Leon in Mexico to East Texas. Pérez, an assistant professor of history, is fascinated by the story it reveals.

One of the few Chicano historians in the United States, Pérez is drawn to the history of Texas on both a professional and personal level. After her grandfather came to Texas in 1917, the family faced a hard life.

“They were uprooted from their homes after the Mexican revolution,” Pérez said. “They began by living in small south Texas towns but moved north to follow the migrant farm labor. That was a difficult type of lifestyle.”

Difficult, too, were the lives of El Paso’s Mexican Americans during World War II—a topic that Pérez has focused on for the university’s Institute of Oral History. Since the region’s history has been overlooked nationally, Pérez said this is an area ripe for study.

As she continues her academic career, Pérez said she will continue to reflect upon her heritage for the inspiration for her research. “It is an important part of who I am. I can never forget that I would not be sitting here without the sacrifices and struggles of those who came before me.”

Azevedo Investigates Cultural Ethics Question

Contributing to a positive, productive work environment might depend on compliance with an accepted standard of conduct, or “code of ethics.” Unethical behavior in the workplace, however, is still a common occurrence—and the justification for that behavior might differ, not just from person to person and business to business, but from culture to culture.

Ana Azevedo, assistant professor of international management in UTEP’s Department of Marketing and Management, says she strives to strengthen students’ virtues and values.

Azevedo’s current research seeks to answer the question, “What is the relationship between individualism and cultural values, and what are the justifications that people give for engaging in unethical behavior at work?” Her study samples business graduate students and senior business executives and endeavors to contrast Hispanics and Anglos in their responses to unethical situations.

Azevedo has submitted her initial findings to conferences and journals.

Azevedo’s other areas of expertise include organizational behavior and business management in Latin American countries. She is working on a study on the effectiveness of existing training programs in El Paso for NAFTA-displaced workers.

Azevedo holds a Ph.D. in business administration from Florida International University, and an MBA and bachelor’s degree in economics from the Federal University of Rio de Janeiro.
Stereotypes Crumble in Business College Study

Stereotypes would suggest that an examination of gender differences in Mexican American attitudes toward family and career roles would indicate that Mexican Americans—a rapidly growing segment of the U.S. workforce—place greater value on family roles than professional ones. But Melanie Trevino, a UTEP associate professor of marketing and management, said that her studies on this issue have produced surprising results.

"We found there was greater importance placed on jobs and less emphasis placed on family among Mexican Americans than we had expected," Trevino said.

Trevino has been studying the relative importance Mexican Americans and Anglos place on family and career, in cooperation with former UTEP faculty member Mary Gowan, now with the management department at the University of North Carolina at Charlotte, for about four years. Initial data were collected from students at the El Paso Community College, representing the Mexican American sample for the study, and from Anglo students at a mid-sized southwestern university.

"The literature suggests that our original assumptions were the correct assumptions," Trevino said. "Since our findings don’t support that, we are going to have to continue to consider a number of variables that may have affected the results. We’ll still be playing around with the data for several more years, and we’ll carry out additional surveys in other locations to see if we get different results."

Trevino and Gowan extended their studies to include an international sample, surveying college students in Juarez and Chihuahua City in Mexico last fall.

If the study’s findings remain unchanged after additional research, Trevino says there would be many implications for the corporate world.

"The Gen X generation is going to demand a lot more balance in their lives than other generations have. Plus, there is a real shortage of labor, so many firms will have to adjust their policies in order to get and retain qualified personnel by making concessions to the family needs of their employees, such as providing flexible work hours," Trevino said.

The study’s findings will be published in an upcoming issue of the journal Sex Roles.

Josefina Tinajero is the director and founder of the extraordinarily successful Mother-Daughter Program, which inspires sixth grade girls and their mothers to set career goals and make education a priority. This program has become a national model that many other communities now emulate.

Tinajero’s Leadership Inspires National Influence

Josefina Tinajero, professor of Teacher Education and assistant dean of the College of Education, has held seemingly countless leadership and service roles within the university, the community, and across the nation since she joined the UTEP faculty in 1981.

Tinajero is the director and founder of the extraordinarily successful Mother-Daughter Program, which inspires sixth grade girls and their mothers to set career goals and make education a priority. This program has become a national model that many other communities now emulate. Tinajero’s tireless commitment to this program has attracted external funding from a variety of foundations and numerous honors and awards. In 1994, a Father-Son Program was implemented to create similar opportunities for El Paso’s young men.

Through her most recent program, Project BEEMS—Bilingual Education with Emphasis in Math and Science—Tinajero has obtained multi-year federal funding to improve the quality of bilingual instruction in El Paso schools and to increase the number of teachers who earn masters degrees in bilingual education. Through this program and others under her direction, Tinajero offers graduate and undergraduate education students bilingual teaching strategies in math and science designed to spark students’ interest in those fields and better prepare them for future careers in science and engineering.

In recognition of her outstanding efforts in bilingual education, Tinajero was elected president of the National Association for Bilingual Education, a key position that will enable her to influence how the nations rapidly increasing populations of Hispanic, Asian-Pacific American, Native American, and other non-English-speaking students are educated.

U.S. Rep. Silvestre Reyes, who appointed Tinajero to the NABE board last year, said that "El Paso is privileged to have such a strong leader serving the education community.”

Mentoring the Next Generation of Computer Scientists

Ann Quiroz Gates might not have gone to graduate school or become a computer science professor had it not been for the support and encouragement of one of her own professors, UTEP Computer Science Chair Dan Cooke.

Although Gates had worked in the computer science field for a number of years, she was eager to
develop a theoretical background. She returned to UTEP to earn a computer science degree.

Cooke remembers Gates as an excellent student capable of advanced studies. "Since mentoring is not a one-way street," he says, "throughout the research process, we learned from each other and influenced each other."

Gates credits her mentor not only with recognizing her abilities but with supporting her belief that she could make a difference in her community by returning to her alma mater and becoming a role model for her students.

"I attended a lecture about the low number of Hispanics and women with doctoral degrees in the math, science, and engineering fields," she says. "This motivated me to pursue a doctoral degree and, later, as a professor, to make a difference in this area by mentoring students."

Today, Gates is involved in developing the Systems and Software Engineering Affinity Research Group model along with Drs. Patricia Teller, Andrew Bernat, and Connie Kubo Della Pana. This project, funded by the National Science Foundation, is aimed at increasing the number of students from under-represented groups who go on to graduate school.

The model provides a methodology and infrastructure for expanding the number of students who benefit from the research experience, including those who have potential but lack confidence to engage in research.

Gates' research, funded by NASA and Sandia National Laboratories, centers on the design and development of a runtime software-fault detection system.

Ph.D. Graduate Encourages Next Generation of Engineers

When Elizabeth Trillo completed her Ph.D. in materials science and engineering in December 1997, she decided to give something back to the community that had helped her succeed.

She became a research associate in UTEP's Department of Metallurgical and Materials Engineering, which is working to increase the number of women and minorities who enter the field by aggressively recruiting students from the El Paso-Juárez area.

Although half of the metallurgy and materials engineering programs throughout the country are exclusively graduate programs, the number of Hispanic Ph.D. recipients is extremely small—each year between 1980 and 1990, about two Hispanics received doctoral degrees in this field.

At UTEP, professors work with new additions to the faculty, such as Trillo, to encourage more students to enter the field. Department recruiters visit area high schools to lead class presentations and to discuss the rich educational and career opportunities the field offers.

Trillo also teaches engineering courses and is a member of professional societies such as TMS (a metallurgical and materials society), NACE (National Association of Corrosion Engineers), Eta Beta Pi (National Engineering Honor Society), and TSM (Texas Society for Microscopy). In her spare time, Trillo enjoys relaxing as part of UTEP's widely acclaimed steel drum ensemble Pandemonium.

Amaya Studies Area Lead Levels

María Amaya, nursing associate professor and nurse practitioner, studies the lead levels of El Paso-area residents and sheds light on contamination sources of the toxic element.

Amaya has studied the lead levels of Hispanic pregnant women, many of who were immigrants from Third World countries where environmental problems are increasing due to poverty and low safety standards.

Border communities such as El Paso face similar hazardous situations as businesses expand and the population grows, so it is important to document levels of lead and other dangerous substances to provide a database for future research and policy decisions. Amaya said.

Some hazardous cases of lead exposure in the area are due to the use of herbs that contain dangerously high levels of lead.

Gordo lobo, an herbal preparation that contains extremely high levels of naturally occurring lead, is sometimes given to children with colic by well-meaning parents unaware of the potential danger. Other potential lead hazards include the improper dumping of batteries, cooking with pottery that has not been fired correctly, remodeling a home that has old, chipping paint or rusting pipes, and the increasing number of illegal subdivisions that are not being regulated.

Added Attractions

Delina Domínguez, assistant professor in the Department of Health Sciences, has been studying Hantavirus infection in southern New Mexico and Northern Mexico.

Patricia Xaza, assistant professor, Department of Electrical and Computer Engineering, works with neuro-fuzzy classifiers for voice recognition.

And Latinas are not the only women researchers at UTEP. Shelly Armitage, who spearheads UTEP's Women Studies Program, blends her regional interests with research that includes studying contemporary literature and culture through visual and verbal representations in film and cartoons.

Sandra Hurley, assistant professor in Teacher Education, explores personal histories of low-achieving readers. One of the surprises was the influence that church attendance, regardless of denomination, seems to play on literacy acquisition.

"Many of the students learned to read in a catechism class or developed their reading skills there," Hurley said. Another finding was that of fifth graders with poor reading skills, four had witnessed or experienced extreme violence in kindergarten or first grade. "We figured out years ago that hungry kids don't learn well," said Hurley, and now we know that scared kids don't learn well either."

LUTEP's Jan Harmon is program coordinator for its Center for Environmental Resource Management, the 36-acre Rio Bosque Wetland Park.

Susan Ripberger, assistant professor in the Department of Educational Leadership and Foundations, studies cultural transmission between the U.S. and Mexico.

According to figures released last year by the U.S. Department of Education, based on 1995, the research schools with the highest percentage of Latin/o faculty are the University of Miami, the main campuses of New Mexico State University, the University of New Mexico, Arizona State University, the University of Houston-University Park, and SAU at Albany. The leaders in terms of Latinas/os in tenures or tenure-track posts are UMN-Minneapolis; University of Miami Arizona State-Main Campus, U T Austin, and the University of Arizona.
Long before the 1960s push to assure equal educational and professional opportunities for women, Agnes Scott College was already a leader in the effort to enable women to assume their rightful place in society. That was back in 1889. In that year of the institution's founding, the prevailing wisdom among educators was that enlightening women amounted to wasted time and was a frivolous pursuit.

The progressive Presbyterian founders of the College ignored this outlook and established a school with a new standard, one that "challenged women to challenge themselves." In doing so, they also established the first institution of higher learning in Georgia to be accredited by the Southern Association of Colleges and Schools. What followed is a list of landmarks too long to cite in its entirety—the first female member of the faculty at the University of Virginia; the first woman ordained as a Presbyterian minister; the first woman president of the American Board of Pediatrics; the first woman president of the Georgia Association of Psychiatrists; and the first woman to head a federal regulatory agency. They are all Agnes Scott College graduates. As a matter of fact, the list goes on to include Georgia's first Rhodes scholar and many Fulbright, Truman, and Goldwater scholars as well as a Tony Award-winning playwright and a Pulitzer Prize-winning writer. Add to the mix a South Carolina State Supreme Court justice, internationally acclaimed scientists, and women who work with the CIA, CDC, EPA, CNN, and the Peace Corps, and you can see the impact this small college for women has made on society.

Since 1889, Agnes Scott graduates have been preparing to "create a better world," which they have done in distinguished fashion. For that, and for making history in addition to offering courses in history, Agnes Scott joins the Hispanic Outlook Honor Roll.
Honor Roll Facts in Brief

INSTITUTION
Agnes Scott College

LOCATION
Office of Admission
141 East College Avenue
Atlanta/Decatur, GA 30030-3-97
(800) 868-8602

ESTABLISHED
1889

When a group of Decatur's Presbyterian leaders founded Agnes Scott College in 1889, it was their aim to found a college with 'a liberal curriculum fully abreast of the best institutions of this country.' The school opened its doors utilizing a rented house and slightly more than $5,000 capital. There were four teachers educating 65 students at the grammar school level. Col. George Washington Scott provided 40 percent of the initial capital, and then offered the largest gift to education up to that time in the State of Georgia to provide a home for the school. To recognize the gift, the Board of Trustees named the school in honor of Col. Scott's mother, Agnes Irvine Scott, whom he credited "for all the good impulses of heart and for all hopes for the future." The second transforming gift to the school came in 1954 when the estate of Frances Winship Walters, an Agnes Scott alumna and former trustee, donated a gift of stock in The Coca-Cola Company. That gift now constitutes a large portion of Agnes Scott's $24.9 million endowment, the largest per student endowment of any national liberal arts college in America.

Within ten years of its founding, the school had gained accreditation as a secondary school. In 1906, it was chartered Agnes Scott College and awarded its first degrees. Agnes Scott is a charter member of both the American Association of Universities, Women and the Southern University Conference.

Agnes Scott continues to build for the women of tomorrow.
Language Across the Curriculum. LAC extends the development of skills beyond the traditional language courses and programs, offering students an opportunity to read and discuss relevant texts in the original tongues.

new science facilities that will house the Atlanta Science Center for Women. On our campus of the future, we will educate more Rhodes, Fulbright, Truman, and Rotary scholars. Off campus, we will provide more internships throughout Atlanta and greater financial support for international study. And across the curriculum, we will continue recruiting and retaining a distinguished faculty of scholars, teachers, and mentors.” President Bullock affirms that, “In reality, Agnes Scott stands as one of the nation’s foremost liberal arts colleges.”

Last October, when trailers, bulldozers, dump trucks, and orange fencing arrived on the Agnes Scott campus, it was clear that groundbreaking for President Bullock’s “college of the future” was near. A $100 million campus modernization program was under way. Joseph R. Gladden, Jr., chair of Agnes Scott’s Board of Trustees, says of the project, “We have been working toward these plans for several years. The Master Plan is the physical representation of our commitment to a high-quality liberal arts education for women who will assume the leadership of the next generation.”

Mary Brown Bullock observes that with a record enrollment of 810 students from 36 states, the District of Columbia, the U.S. Virgin Islands, and 14 other countries, the construction is beginning “none too soon.” According to President Bullock, “Our undergraduate academic facilities, including our library and science complex, will be among the finest in the country when this project is complete. I know of no other liberal arts college in the country that is undertaking such an extensive modernization of its facilities. We will open one new or expanded and renovated building every fall for the next four years.” The project is under the watchful eye of Elsa Pena, a native of Chile, one of the few female and one of the few Hispanic facilities directors in American higher education.

Agnes Scott is located in a historic neighborhood on a 100-acre, tree-filled campus in Decatur. The campus itself is part of a National Historic District, along with adjoining residences. Many college-owned, on South Chandler Street to the east of the Campus. Walking along the brick pathways, one would not realize that Downtown Atlanta is only 10 minutes away. The campus is simply beautiful and notable for arched windows overlooking century-old trees and a gazebo. It has served as the set of more than motion pictures as well as a respite for Robert Frost, who had friendly association with the school that endured throughout years.

The college has been named one of the International 50, and ranked among the top 10 national liberal arts colleges for “best value—discount price” by U.S. News and World Report (1999). Peterson’s Guide calls the institution’s “outstanding undergraduate program in the sciences and mathematics.” All Agnes Scott students take a demanding course of studies in the humanities, fine arts, foreign languages, natural sciences, mathematics, and social sciences. The College offers 25 majors and 27 minors.

Of the class of 2002, 43 percent are Caucasian; 22 percent African American; 4 percent, Hispanic; and 5 percent, Asian American or Pacific Islander. 9.7 percent are Bicultural or Other. One hundred percent of the 65 full-time faculty have a Ph.D or terminal degree in their field. Of this group of distinguished faculty, 65 percent are women. The school offers students an astounding 9:1 student-faculty ratio.

Of special interest is the Language Across the Curriculum (LAC) program at Agnes Scott College. LAC is open to all students who have completed four semesters of a foreign language, those who are eager to enhance and deepen their understanding of subject matter, for example, in history, anthropology, music, or political science. The concept of Language Across the Curriculum is to give all students especially non-foreign-language majors, an opportunity to apply their language skills in other disciplines. LAC extends the development of language skills beyond the traditional language courses and programs, offering students an opportunity to read and discuss relevant texts in the original language.
The first Latina sorority, Lambda Theta Alpha, was incorporated in 1979, on the heels of the Kean College fraternity of Lambda Theta Phi.

When most people hear the words fraternity and sorority, images of drinking, partying, and hazing come to mind. Modern Greek organizations are often portrayed, whether through the media or by their activities on campus, as extremely social in nature. Even Lissa Bradford, chair of the National Pan-Hellenic Conference, admits that many of the students who come to us already have patterns of bingeing and focusing on the social.

When it comes to Hispanic fraternities and sororities, this image might not hold true. Since Hispanics are the new kids on the block among the Greeks, their purpose in forming their organizations is more cultural and political than that of mainstream Greeks. Latinos have eliminated hazing (asking pledges to perform embarrassing or dangerous acts as part of an initiation process) and drinking from their formal activities. They are too busy forging their identities and building a supportive bermadad during a time when many others might still be unaware that Hispanic Greeks even exist.

Mainstream fraternities were first developed in 1776, when Phi Beta Kappa, today a scholarly honor society, appeared at William and Mary in Williamsburg, Virginia. It was organized for social and literary purposes, and included secret rituals, badges, mottos, and handshakes that are still common among Greeks today. A strong friendship and camaraderie were developed among its members. According to Bradford, the first sorority wasn't developed until 1851, by Alpha Delta Pi, at a time when women were beginning to participate in higher education.

According to Jesus Pena, author of The History of Lambda Theta Phi, culture-based fraternities came onto the scene because of a need for individual groups to build support and have their voices heard. Jewish fraternities sprouted in 1889, and African American ones in 1906, for these reasons. The first Latino fraternity, Fi Iota Alfa, was developed by Latin American exchange students as a club in 1889 and then, after disappearing from the scene in 1973, reemerged as a fraternity for Hispanic Americans in 1984. Lambda Theta Phi fraternity was formed at Kean College (now Kean University) in 1976.
“What bonded them was that they were strangers in a strange land,” said Victor Franco, president of the oldest fraternity, Fi Iota Alfa.

The first Latina sorority, Lambda Theta Alpha, was incorporated in 1979 on the heels of the Kean College fraternity of Lambda Theta Phi.

Latino Greek organizations are growing rapidly throughout the country now: Sigma Iota Alpha, a Latino sorority that originated with four women at Boston University, now has 25 chapters nationwide. What's typical for Latino Greek organizations, however, particularly because of their short history, is that most chapters have only five to 25 students. Their emphasis is less on numbers and more on Latino empowerment and community service.

“We’re expanding very quickly,” said Jennifer Saavedra, one of four women who started the Sigma Iota Alpha chapter at Boston University eight years ago. “There was really nothing as women that we could call our own, that taught us about our culture and history,” she said.

Saavedra, who now serves on the alumni board, is like many Latina Greeks. She’s still extremely active with her hermanas in building community among Latinos and Latinas in general. “We were really concerned with educating the community and being a positive influence on the campus.”

Sigma Iota Alpha, like so many sororities HO talked to, is passionate in its desire to give back to and empower its community. The sisters are working in soup kitchens, sponsoring children, fighting breast cancer and multiple sclerosis, and forming leadership workshops.

Kellie Villa is president of Sigma Lambda Upsilon, “Señoritas Latinas Unidas Sorority,” at Binghamton University in New York State. She joined her sorority, which now has 13 chapters, to be a part of something larger than herself. “A lot of people don’t understand the concept of women coming together to influence community. They think it’s just a lot of women hanging out,” she said. “I love the feeling of empowerment it gives me as a Latina woman. I have a stronger voice because I’m part of this organization.”

For many Latinas, who place strong emphasis on family, a sorority is another home away from home that they wouldn’t ordinarily have. Frequently, they are first-generation students, and that extra support is what gets them through a traditionally Caucasian school system.

“As a Latina, since you are born, it is emphasized that family always comes first. It’s hard to deal with an environment that deals with you as an individual,” said Lambda Theta Nu’s president Maria del Consuelo Martinez, at Sacramento State University. “I didn’t see a lot of emphasis on sisterhood,” she said, describing mainstream sororities. “But of her own sorority, she said, “You could see how they care for each other. When you join something that gives you that much love, of course you want to give back.”

As with all Latina/o Greeks, there is no hazing in their sorority because, as Martinez put it, “We already feel society has put us in a lower position. Why should we do it to each other?”

Across the country, there are currently more than 40 Latina/o Greek organizations, and their numbers are growing. National board president of Sigma Lambda Upsilon, Maria Milagros Delgado, has watched her sorority at Binghamton’s campus mushroom from a handful in 1989 to a large group of dedicated Latinas. “It is very empowering. Every year when we have our convention, it’s amazing how far the women have gotten,” said Delgado. “I see the commitment, the enthusiasm. It’s very fulfilling to see that we are at least making a difference.”

The new National Latino Council set up shop two years ago to support Latina/o sororities and fraternities across the country. It is through the council that students from different regions exchange ideas and can support political and social concerns of Latinos outside their immediate region. “It is good to learn what other Latinos are facing and struggling with,” said organization president Jorge Diaz.

Each of the last two years, they have held a conference. “It wasn’t until this conference that we brought everyone together,” said Diaz. “It has helped many of the organizations expand.” The council is only the beginning of a network that they hope will further political and social empowerment of Latinos. “We are preparing members to be politically involved,” said Diaz.

Many of the hermano and hermana alumni have become influential professionals in their communities. Lambda Theta Phi alumni include Congressman Bob Menendez, former New Jersey prosecutor Jesus Pena, and ASPIRA executive director Robert del Rios. Jose Gutierrez is president of the Hispanic Bar Association, and Orlando Gutierrez, of Fi Iota Alfa, was president of the Hispanic Professional Engineers.

Gutierrez, an older Cuban American, first came to this country as a younger to study engineering at the Rensselaer Polytechnic Institute in Troy, N.Y. He was one of many Latin Americans who shared brotherhood at Fi Iota Alfa.
Although FI Iota Alpha is considered the first fraternity, its origins are as the Iota Phi Lambda Hispanica in 1988, and then as a fraternity for Latin American exchange students. It is different from those of today’s FI Iota Alpha. While the organization was originally developed to support international students at RPI and several other campuses, its most recent chapter was resurrected in 1976 to serve the needs of Hispanic Americans.

“We had a concern with Latin American unity—working toward the unification of Latin America,” said Gutierrez, who was a brother in 1945. At that time, there were only 140 Latin Americans studying amid a majority of returning World War II veterans. “[The fraternity] was a tremendous support group. When I felt nostalgia or was difficult, I felt supported by the fraternity,” said Gutierrez.

Although the times were different then, Gutierrez recognizes that contemporary fraternities are extremely important for undergraduate minority students. The lack of these kinds of support groups in universities causes a lot of Hispanics and Blacks to drop out,” he said.

FI Iota Alpha’s current president, Victor Franco, said that his fraternity still serves to uplift and strengthen all Latinos. It is committed to getting young Latinos into college and to supporting Latinos once there. Several FI Iota Alpha alumni are teachers who invite their undergraduate brothers to come to their classes and talk about college. “Our primary focus is to get the young Latinos into college,” said Franco. “Empowerment comes through education. It is the only way we can break the chain of poverty.”

The fraternity also works to unify the various groups of Latinos who live within the United States. While back at home the Dominicans are taught to distrust the Puerto Ricans, and the Bolivians the Peruvians, within their fraternity they have made peace generalizations toward our brother Latinos,” he said.

**Sigma Iota Alpha, like so many sororities that HO talked to, is passionate in its desire to give back to and empower its community. Sisters are working in soup kitchens, sponsoring children, fighting breast cancer and multiple sclerosis, and forming leadership workshops.**

Lambda Theta Phi at Kean College was created in 1975 to do exactly that—unify the Puerto Ricans and Cubans, who were divided at that time. It took several years to begin achieving some success, but now the fraternity draws Latinos from all different backgrounds, as well as non-Latinos. Roberto Gutierrez, president of Lambda Theta Phi, said they’re now more about community service and helping each other graduate. They have also been heavily involved in hurricane relief efforts, food banks, the March of Dimes, the fight against breast cancer, and in attracting speakers to help Latinos with career planning.

Several Latino fraternities are members of the larger mainstream national Inter-Fraternity Conference, and a few sororities have already applied to be accepted to the National Pan-Hellenic Conference.

Pan-Hellenic Conference Chair Lisa Bradford sees this as a good thing. “Among the Latina groups, there is quite a bit more of giving back to the community,” she said. “We can learn from them, and they can learn from us. It would be a wonderful addition to the big picture.”

Although the Latina/o Greek system is still young, its members have already reaped some of its rewards. “You learn how to work with others; you learn political science, structure, government. You learn how to organize and program services and projects. You learn outreach programs to the community,” said Diaz.

And as Rodriguez told HO, she discovered her culture and her responsibility to give back to those in her community who have not yet to make it to college. “I am more proud of whom I am,” she said. “I have more of a need to stand out and say, WE ARE HERE.”
The National Hispana Leadership Institute

BY MARI CARMEN SARRACENT

"We discuss cross-cultural communication, conflict resolution, race, class and gender issues, and we also discuss inner-self and identity issues, and the history and culture of Latinas. This is important as our groups are diverse, including Mexicans, Argentineans, Colombians, etc."

MARISA RIVERA-ALBERT, VICE PRESIDENT, DEVELOPMENT

Incorporated in 1989 as a non-partisan, nonprofit organization, the National Hispana Leadership Institute is committed to the education and leadership development of Hispanic women. According to NHLI, a U.S. Department of Labor study (Glass Ceiling Initiative 1991) found that minorities and women have made substantial gains in entering the workforce. However, they are not equally represented at the middle and senior levels of management in the government or corporate sectors.

The Bureau of Labor Statistics project that the female Hispanic labor force should grow by 53.6 percent between 1994 and 2005. Already, the population growth rate for Hispanic women has surpassed that of Black and White women, 54.1 percent, compared with 18.1 percent for Black women and 12.1 percent for White women.

Consequently, NHLI is committed to its vision to nurture Latinas as Ethical World Leaders.

At the center of NHLI is its four-week intensive leadership training program, which spans nine months and is implemented in four different cities in the U.S. The first session is held in California and focuses on community-building support networks, diversity, and cross-cultural communication. The second session is held at the John F. Kennedy School of Government, Harvard University, and the third training week is held at the Center for Creative Leadership in North Carolina. California or Colorado.

The final session takes place in Washington, D.C., where the participants explore the national political agenda with emphasis on policy development, the legislative process, and meetings with congressional representatives. In addition, each participant mentors Hispanic women for at least two years and develops leadership projects that will benefit a minimum of 25 Hispanic girls and/or women. To date, over 240 Hispanics have completed the program.

Marisa Rivera-Albert, vice president-development, National Hispana Leadership Institute, Arlington, Va., says: "Each year has a different theme. We discuss cross-cultural communication, conflict resolution, race, class and gender issues, and we also discuss inner-self and identity issues, and the history and culture of Latinas. This is important as our groups are diverse, including Mexicans, Argentineans, Colombians, etc.

The first week of the training takes place in February. During the second week, in April, the participants do an overview of public policy and strategic planning. Then for the third week, participants go to the Center for Creative Leadership, an executive leadership program, where they can get feedback on their own decision-making and leadership styles. Throughout this program, they grow and develop as managers. By the end, they have had numerous opportunities to learn about themselves."

A survey of the graduates indicates that, on average, each alumna directs, serves or has policy-making positions with four communities or organizations. Many of the graduates go on to pursue advanced
degrees, many have become elected officials, senior managers, and decision-makers in a variety of fields. Some of the alumni include Honorable Leticia Illanaos, State District Judge; Annie Betancourt, Florida State Legislator; Rosa Maria Melendez, U.S. Marshall; and Esmeralda Santiago, who has published her second book, America's Dream.

The institute recruits participants nationally from diverse geographic areas, ages, professions, and ethnic subgroups within the Hispanic community.

Rivera-Albert says, "We select 20 Latina professionals who have the desire to do bigger and better things to continue their role at the local, state, or national level."

While the four-week program concludes the training, the experience doesn't stop there. Rivera-Albert notes, "Each of the fellows is required to mentor other women at the workplace or in the community, and to develop a leadership project for 25 or more women or Latina youth. So the impact is not on 20 women but 500. After that, they become part of our alumni and part of our great network."

NHLI's goals are: to insure that Hispanic women are in leadership positions that have the access and power to influence public policy and shape an equitable and humane society; to enhance and develop leadership abilities among Hispanic women whose commitment, contribution, and dedication will forge and impact the future of America; to provide participants a national perspective and understanding of the complex challenges facing our society and the Hispanic community; to build the participants' self-awareness, confidence, communication skills, and personal leadership styles; to improve the participants' organizational, management, and creative problem-solving skills; to provide visible role models of Hispanic women leaders; to increase awareness of the unique approaches and abilities of women as leaders; to positively impact public policy at the local, state, and national levels; to bring together women from diverse subgroups in the Hispanic community to work together toward a mutual agenda of nationwide support and empowerment that will benefit the Hispanic community and our society; and to improve the services provided to the Hispanic community by local, state, and national organizations.

The Mujer Award

In addition to the leadership institute, NHLI also pays tribute to the sustained lifetime achievements of a Hispanic woman every year at its Mujer Award Gala. This annual event recognizes a Hispanic woman who has served her community and acted with justice, love, and the deepest of pride in her culture. Dr. Antonio Cuello Novello, former Surgeon General of the United States, was the 1998 honoree.

"We look for lifetime commitment. Not that they have done one great thing but that they have been truly committed. We look for women who are involved. NHLI looks for someone who represents the beauty, power, and leadership of a Latina; and by that I'm not referring to physical beauty, but someone who has talent and spiritual beauty of the Latina culture." says Rivera-Albert.

Past recipients include Miriam Colón-Valle, artistic director, founder of the Puerto Rican Traveling Theater; Irma Flores Gonzalez, chair, NCLR Board of Directors; Juanita Beatrix Gutierrez, founder, the Mothers of East Los Angeles; Dolores Huerta, co-founder of United Farmworkers of America; and Antonia Pantoja, founder of ASPIRA and the National Puerto Rican Forum.

The criteria that candidates must meet to be considered for this prestigious honor include:

- This woman is a living symbol of NHLI's philosophy: "creating positive global change and a pluralistic society through personal integrity and ethical leadership."
- Throughout her life, she has sustained a clear vision for the future of the Hispanic community and the actions of her life have consistently reflected that vision.
- Undaunted by difficulties, she has been faithful to herself and her beliefs and has acted with faith.
- Through the years, she has evolved with the times and has maintained herself grounded in the present social, economic, and political environment.
- She is a collaborative leader who inspires and motivates others and gets the task accomplished. She relishes life by basic principle and emulates her values.
- She understands her persona power but shares it easily with those whose lives she has touched. She values life, maintains joy, kindness, calmness, and inner peace.
- This woman has empowered many over the years through her service. She has acted with justice, love, and the deepest of pride in her culture.
New Teacher on a Mission
Dropout Gives Encouragement She Never Got

BY MICHELE FORSTEN

"You'll never amount to anything. Why don't you give your seat to someone who's capable of doing the work?"

This is what Yazmin Pérez remembers her high school guidance counselor telling her. With a lack of support at school and family problems at home, Pérez took the counselor's advice and dropped out of the 10th grade. Soon after, she became pregnant.

Eight years later, the 25-year-old is soundly proving the guidance counselor and some of her public school teachers wrong. Last May she marched in the commencement exercises on the athletic field of Long Island University's Brooklyn Campus, the first in her family to graduate from college. She was quickly hired to teach by the Board of Education's District 10 in Brooklyn, and planned to begin work on her master's degree in education on Saturdays.

"I want to bring a little sunshine into my pupils' lives, give them a sense of hope, that they can do it," she says. "Many are burdened by poverty and other sources of family stress. That was my story, too, and I'm the perfect example that anyone can achieve, given the right environment, which I finally found at LIU."

For the first few years of her life, Pérez lived in an impoverished neighborhood in the Rio Piedras area of Puerto Rico, about 30 minutes from San Juan. With the death of her grandfather, who had been helping out financially, her immediate family—consisting of Pérez, her mother, father, and brother—moved into her grandmother's small one-bedroom apartment in the Bushwick section of Brooklyn.

Looking back on her elementary school days, during her field placement last year, Pérez came to a realization. "I saw that some teachers use a child's socioeconomic class as a barometer as to whether he or she can succeed," she says. "I remembered that when I was in school, some of my teachers sat all the less well-dressed pupils like myself together and didn't give them as much attention."

Pérez's mother, a homemaker, tried the best she could to instill the love of education in her daughter. But the family's problems were overwhelming. Pérez watched her mother's four brothers deteriorate and die from drugs, and her father became remote. School was not a haven for her. She left when she was 16.

A few years after her daughter was born, Pérez was thumbing through a newspaper and saw an ad for Long Island University's College Entry Program, which enabled students to obtain their GED and make the transition to college.

"I applied because I wanted to make a better future for my daughter and knew I had to get an education," she explains.

But at age 20, she was a year too young for the program. She was told. A year later, however, she was pleasantly surprised to receive a letter from Nick McDonald, the program administrator, asking if she was still interested.

"I was so happy that he remembered me," she says. "It's been like that throughout my college career. My college advisor, Ann Marie Coffee, and several of my professors—Bob Nathanson (special education), Jessica Trubek (the teaching of reading), and Carole Kazlow (sociological foundations of education) believed in me so much. They motivated me to achieve and do well."

Pérez, who worked full time as a clerk for a wine and spirits importer while attending college, thought at first she wanted to be a nurse, but found that her heart wasn't in it. Her advisor saw that she was strong in the humanities and suggested that she consider a career in education. "After that, everything just fell into place."

During her student teaching in Red Hook, she was required to just observe, not participate, part of the time. Sitting in the back of the classroom, she underwent a stunning revelation. She, too, began stereotyping children who came to school without supplies, such as a pencil, as being incapable, just as she had been unfairly judged when she was younger. "I had thought only White upper-middle-class people felt that way, and here I was, just as bigoted."

Through readings suggested by her instructor and a great deal of reflection, she realized that a lot of teachers spend time blaming their pupils instead of supplying what they need. "I realized it wasn't their fault they were coming to school unprepared, and it was my job to teach them to have respect for the supplies we give them," she explains.

It is obvious when talking to Pérez that she is passionate about being an educator, and that the love of learning her mother tried to instill in her is now present in full force—a gift that she will give to her students. "I intend to offer my pupils the positive reinforcement I didn't receive when I was their age," she says.

The Brooklyn Campus of Long Island University is one of the fastest-growing institutions of higher learning in the New York metropolitan area. It offers more than 11,000 students 120 programs in more than 50 undergraduate and graduate fields in the liberal arts and sciences, business, education, health professions, nursing and pharmacy; including doctoral programs in clinical psychology and in pharmacology.
Campos’s Poetry in Anthology

The poetry of Dr. Rafael Campo (pictured here) has been included in a new anthology released by the University of Iowa Press. Entitled Blood and Bone: Poems by Physicians, the publication was edited by Dr. Angela Belli, professor of English at St. John’s University (NY).

Campo, a professor of Internal Medicine at Harvard Medical School and winner of the 1993 Poetry Series Award, was the subject of a feature article in the May 8, 1998 issue of HO.

Co-edited by Jack Coulehan, professor of medicine and preventive medicine at the State University of New York-Stony Brook, Blood and Bone compiles contemporary poems by physicians in myriad specialties. The 100 poems include works by Harvard Medical School Professor Robert Coles and by Dannie Abse, one of Great Britain’s foremost poets.

Calendar Features Barraza’s Artwork

Santa Barraza, Texas A&M University-Kingsville assistant art professor and department chair, signed her calendar artwork Dec. 1 at the University Bookstore. Barraza’s work is featured in the 1999 calendar Images of the Water published by Pomegranate, with proceeds benefiting the La Raza Studies Department of San Francisco State University. The artists who were selected for calendar inclusion donated their images for use in the calendar. Having her art work signed is Nicole Kominis Wood, a senior education major. Also in the photo is Benjamin Varela, Kingsville senior, and Miguel Briseño, University Bookstore clerk.

Ferenz and Gonzáles-Carroll Receive Scholarships

Stacia Ferenz and Mark Gonzáles-Carroll became the first Skagit Valley College (Wash.) students to receive scholarships from the nearby Logan Creek Retirement community, according to Skagit Valley’s president, Dr. Lydia Ledesma-Reese.

Ferenz, a student at South Whidbey Center, is studying psychology, and plans to transfer to a university where she can complete both her bachelor’s and master’s degrees. She helped organize a peer tutorial program at the Center.

Gonzáles-Carroll is studying art and English at Skagit Valley’s Mount Vernon Campus and plans to become a teacher. He is active in student government and in the “Calling All Colors” club, which mentors 5th and 6th graders at Washington Elementary School.

Art of CMU’s Domínguez on Exhibit

The brilliant landscapes and architecture of Mexico were exhibited at Central Michigan University (CMU) recently. More than a dozen paintings by Jesse Domínguez, a CMU art department faculty member, were featured in “Views from Above—Paintings of Mexico”

His landscapes often include buildings and archaeological sites. “I paint landscapes because of the enormous complexity and contradictions that I see,” said Domínguez. “I juxtapose the old with the new to create atmospheres of color that I can, in a sense, create the mood that I’m trying to express through the work.”

Born in Torreón, México, he joined the CMU faculty in 1993.

Madrid Helps Shape Higher Education

According to North Carolina Governor James B. Hunt, Jr., Dr. Arturo Madrid has joined forces with a group of nationally known leaders to help shape higher education policy in the United States.

Madrid is a Murdock Distinguished Professor of the Humanities at Trinity University in Texas.

Other leaders include two governors, four CEOs of major corporations, several innovators in education, and a range of influential Americans. The group is serving as the founding Board of Directors for The National Center for Public Policy and Higher Education, which is chaired by Hunt.

Included among the national leaders on the board is Ramón C. Cortines, executive director of the Pew Network for Standards-Based School Reform, at Stanford University in California.

Padrón on ACE Editorial Advisory Board

Dr. Eduardo J. Padrón, Miami-Dade Community College (Fla.) president, has been named by the American Council of Education (ACE) to the Editorial Advisory Board of its triannual publication, The Presidency.

Speaking of Padrón's appointment to the editorial board, James J. Murra III—ACE vice president for External Affairs—said, "ACE realizes the importance of community colleges in American higher education. As one of the most influential and effective leaders in that sector.
Eduardo Padrón will be an important contributor to our publication.

The Presidency is the flagship magazine of ACE and the only periodical devoted to college and university presidents, offering a forum for analysis on such critical topics as college costs, fund-raising, affirmative action, and legislation affecting higher education.

UNM Appoints Aceves Regents’ Lecturer

The University of New Mexico (UNM) College of Arts and Sciences has announced the appointment of Alejandro Aceves, Department of Mathematics and Statistics, and three others as Regents’ Lecturers for the period of 1998-2001.

Regents’ Lecturers appointments recognize achievements of the highest level by associate professors at UNM. The appointments entail annual financial rewards, usually for research, in addition to the prestigious title.

“It’s one of the highest honors we bestow on our faculty,” said Michael Fischer, dean, College of Arts and Sciences.

Also appointed were: Jane Selverstone, Department of Earth & Planetary Sciences; Kenneth Roberts, Department of Political Science; and Steven Gangestad, Department of Psychology.

Santiago’s Art at Maryland Institute

The Maryland Institute, College of Art was pleased to include the work of alumnus Richard Santiago in its 200th anniversary exhibition of alumni of the past two decades.

Pictured here is his oil on canvas, ‘Eclipse’ 1998.

It has been said that Santiago’s art combines a “fervent revolutionary spirit” with the “gift of an incredible hand, like that of an Old Master.” According to one critic, the images in his work come from memories of growing up poor in Puerto Rico and recent travels to various countries.

Currently living in Puerto Rico, Santiago’s studio was destroyed when Hurricane Georges landed on the island. Luckily, many of his paintings were on their way to Baltimore to be included in the exhibition when the storm struck.

He has a master’s degree from the Hoffberger School of Painting.

Pena Wins Fashion Design Award

Luz Marcela Pena, fashion student at Miami-Dade Community College’s (Fla.) Kendall Campus Center of Fashion Studies, beat out 64 other fashion students from across the country to win first prize at the prestigious Bobbin World Design Inspiration Fashion Competition held in Atlanta, Georgia.

The design competition aimed to encourage and promote creativity of design and to help discover new talent.

Pena used brown polyester and cream vinyl-like fabrics to create her elegant evening dress, replete with pleats on the bodice, tiers on the long skirt, fringes of cut furs, suede, and a bustle train reminiscent of the Victorian era.

Wanting to speculate in children’s clothes design, Pena plans to be a major player in the fashion market.

Izarraras Keynotes SWC 10th Anniversary

One of the first students to enroll at the Southwestern College Education Center at San Ysidro (Calif.) in 1988 was the keynote speaker at the 10th anniversary celebration in November. Felix J. Izarraras graduated from Southwestern College in 1990. His first full-time job was as a production control assistant for Casio Manufacturing Corporation, where he later advanced to quality control supervisor. “I was hired because of my computer knowledge and experience, and because I had an associate’s degree from Southwestern College,” said Izarraras.

He believes that his Southwestern College education also provided the basis for his current career as a California Highway Patrol officer.

Izarraras (left) is pictured here with Dr. Serafin Zasuet, Southwestern College president, who served as the first dean of the Education Center at San Ysidro.

New Hispanic Doctoral Fellows at NMSU

The Hispanic Border Leadership Institute at New Mexico State University (NMSU) has chosen four new Ph.D. students as W.K. Kellogg fellows. (Pictured here left to right)

Mariela Aime Rodriguez, Dolores Gross-DeLezado, Eduardo Casillas Arellano, and Rachel Ortiz join six doctoral students who began their studies previously. They will be
working toward doctoral degrees in educational administration.

Through a national search, the Institute selected the four to each receive $60,000 in support over three years of study at NMU.

Ortiz has a bachelor's degree from Texas Women's University and a master's from Webster University. Gross-Delgado has a bachelor's from the University of North Texas and a master's from the University of Texas-El Paso (UTEP). Velez has a bachelor's and a master's from UTEP. Mariona Rodriquez has a bachelor's and a master's from Our Lady of the Lake University, and a master's from the University of Texas-Brownsville.

**Diaz on Northern Essex Board of Trustees**

Dalia Diaz has been appointed to the Board of Trustees at Northern Essex Community College (NECC) in Massachusetts.

Diaz is a marketing/outreach specialist for the Department of Training and Development in Lawrence, Mass., and the director of Rancho, a Spanish language newspaper.

She was formerly the producer and host of Deja vu, an Emmy Award-winning program televised for many years by WGBH-TV in Boston.

"Ms. Diaz is a remarkable person with boundless energy who always extends a positive and supportive hand to everyone around her," said NECC President David F. Hartlieb.

Diaz serves on the board of directors of the Merrimack Valley YMCA and the Essex Art Center. She is a member of the Lawrence Mavors Advisory Council and serves as president for the Cuban Cultural Center.

**United Way Recognizes Hernandez**

Dr. Edward Hernandez, Jr., chancellor of the Rancho Santiago Community College District (CSD), was recognized as a distinguished community leader at Orange County's United Way 1998 Hispanic Influentials Salute.

The annual recognition, created by the Hispanic Development Council of United Way Orange County's Chapter in 1990, is awarded to individuals who display outstanding leadership accomplishments in the community through their talents and abilities.

Hernandez oversees the operations of two community colleges and eight other educational sites throughout the district. Most recently, his dream of "bringing the college to the people" developed into the Marketplace Education Center in downtown Santa Ana, where all classes and parking are offered free to accommodate the low-income, working-class members of the community.

**Vela Appointed Director of Development at UTB/TSC**

Rafael E. Vela has been appointed Director of Development at The University of Texas-Brownsville (UTB) and Texas Southmost College (TSC) in Brownsville, Texas. Vela previously served as Coordinator of Special Projects and Development Activities in the Office of Institutional Advancement.

As director of development, Vela will develop a cohesive plan for raising funds for UTB/TSC. Vela said that he plans to establish partnerships between the community and public foundations in Texas and across the country.

"I am excited about the challenges ahead," said Vela. "We have made great strides in providing service to the people of this region and the state. The continued support of the community will assure that we move ahead. The future of our area depends on it."

Vela has a bachelor's degree from St. Edwards University.

**Alvarez Directing Research Center**

Mark Wermann Alvarez is now the director of the newly opened research center on the New Mexico Tech campus—the IRIS PASCAL seismological instrumentation center.

Last year, the Incorporated Research Institutions for Seismology (IRIS) selected New Mexico Tech as the permanent site for its Program for Array Seismic Studies of the Continental Lithosphere (PASSCAL) Instrument Center. Which replaced two related earthquake research facilities—one at Stanford University and one at the Lamont-Doherty Earth Observatory of Columbia University in New York.

Alvarez—fluent in Spanish, French, and English—earned a bachelor's degree from the University of California-Santa Barbara and a master's from Duke University.

**Places**

**UHCE's Marquez at Bilingual Education Conference**

University of Houston-Clear Lake Professor Dr. Judith Marquez (pictured here), along with two colleagues, presented papers at the Texas Association of Bilingual Education 26th Annual Conference.

The presentation, "The Mexican Educational System: Information for Teachers Working with Students with Limited English Proficiency from Mexico," was delivered by Marquez and Dr. Laurie Weaver. Both professors visited various parts of Mexico to observe classrooms, interview school personnel, and conduct archival research.

Another presentation, "Reflections of First Year University and Alternatively Certified Bilingual Education Teachers," was presented by Marquez and Silva Holub, who addressed the shortage of personnel qualified to teach bilingual education and discussed alternative certification programs.
UTSA Neuroscience Research Center Grant

Thanks to a five-year grant of nearly $63 million from the National Institutes of Health National Center for Research Resources, University of Texas-San Antonio officials have announced that the CajaI Neuroscience Research Center will promote interaction between neuroscientists and computer scientists in the emerging discipline of computational neuroscience—or neurocomputation—which involves using high performance computing in the mapping and analysis of the brain's response to stimuli.

The center is named for Spanish neuroanatomist Santiago Ramon y Cajal (pictured here), who received the Nobel Prize in 1906 for setting forth the Neuron Doctrine, which describes how the brain's cells communicate—a cornerstone of neuroscience theory.

Texas A&M-CC's Bilingual Education Grant

The Research Foundation and Texas A&M University-Corpus Christi (A&M-CC) have been awarded a $1.25 million grant from the U.S. Department of Education. The grant, submitted by Dr. David Berlanga, associate professor of education at A&M-CC and director of bilingual/ESL education, is primarily designed to train undergraduate students interested in acquiring a bachelor's in bilingual elementary education and graduate students seeking certification in bilingual/ESL education.

Berlanga has been actively involved in bilingual, ESL, and multicultural education since 1972. He has received numerous grants from the Department of Education during his tenure at A&M-CC.

Towson Students Help Hurricane Victims

In October, Hurricane Mitch ravaged the Central American nations of Honduras, Nicaragua, El Salvador, Guatemala, Costa Rica, and Belize. In response to the disaster, students and faculty at Towson University in Maryland collected more than 200 boxes of clothing.

In December, they loaded the boxes onto a truck marked "Central America or Bust" headed for Miami. Upon arrival, the goods were transferred to a freighter on route to Central America, where they were distributed as needed to displaced families and others in need.

The drive was dedicated to the memory of Bolivian native Dora Elena Bustos, a teacher at Towson's Student Day Care Center who had shared many stories with the students about Central and South America.

Dominican Relations Discussed at CCNY

"Counterpoint of Diaspora and State Political and Cultural Relations of U.S. Dominicans with their Native Land" was the title of a panel discussion held at the City University of New York Dominican Studies Institute at City College.

Professor Silvio Torres-Saillant (pictured here), director of the Dominican Studies Institute, and the moderator of the discussion, said panels focused on the paradoxical interdependence of Dominicans and their compatriots in the Dominican Republic.

Columbia's Journalism Link with Barcelona

To meet the demand for qualified journalists in Spain, a new master's degree program has been created through the collaborative efforts of Columbia University's Graduate School of Journalism and the University of Barcelona.

Drawing on Columbia's tradition of excellence in journalistic training, the new program will differ from the traditional Spanish curriculum, which focuses on mass communications theory and public relations, with less emphasis on basic reporting techniques and new technology for investigation and research. The program is already being discussed as a model for future programs in the Spanish-speaking world.

SWT Hosting Multicultural Job Expo

The 10th anniversary of one of the largest multicultural recruitment fairs in the country, National Multicultural Job Expo, will be celebrated at Southwest Texas State (SWT) University April 8-9. The 10th Expo anniversary coincides with the SWT Centennial Celebration, which is being observed throughout the 1998-99 academic year.

The 10th annual Expo will give employers the opportunity to interview graduates from across the country, as well as identify candidates for co-op and internship programs and summer jobs.

Current students, recent graduates or individuals thinking about changing jobs or careers have the opportunity to get information from or interview with more than 200 companies, governmental agencies, and school districts.

For reservations and information, call SWT's Career Services at (512) 245-2045 or visit the Web site at <http://www.sps.swt.edu/career/services>.

St. Thomas' Exchange Program with Chile

St. Thomas University (Hoa) has established an exchange program with the Universidad de Viña del Mar in Chile. The program will foster the exchange of students and faculty and collaboration on research projects and academic programs.
credits will be given to students from both universities who take courses at the other university. Workshops for students and faculty of both institutions will be organized to exchange experiences and promote common projects.

Bartham Madain Arab (pictured at right). Rector of the Universidad de Viña del Mar and Rev. Msgr. Franklin M. Casale (left), president of St. Thomas University, signed the agreement in Miami. Alfredo García, Deputy Consul of Chile, and Lila Haeger, president of the Chilean Chamber of Commerce in Miami, also attended the signing ceremony.

LIU Offering Latino Journal Subscription

Professor Félix M. Padilla, from the Department of Sociology and Anthropology at the C.W. Post campus of Long Island University in Brooklyn, N.Y., is offering the Winter 1999 issue of the Latino Studies Journal, which focuses on the importance of Latina/o success stories.

Latino Studies Journal, of which Padilla is editor, is a multi-disciplinary publication devoted to the study of contemporary and historic Latina/o life in American society. The latest issue features a contribution by guest editor Carol A. Mullin of Auburn University (Ala.), whose theme throughout the journal is the success stories of Latinas/os and their accomplishments in the areas of education, literature, religion, the arts and community activism, among others.

For more information about subscriptions and manuscript submissions call (516) 299-2410

Jazzman D’Rivera Heats Up LIU - Brooklyn

Cuban-born saxophonist and clarinetist Paquito D’Rivera cast a warm spell over Long Island University’s Brooklyn (N.Y.) Campus as he performed with the LIU Big Band in December.

A child prodigy, D’Rivera began his musical studies under the tutelage of his father, himself a classical saxophonist. He first appeared on stage at age six, and he performed as a featured soloist with the Cuban National Symphony Orchestra while in his teens. He co-founded the Orquesta Cubana de Música Moderna and later the Grammy-winning group Irakere, whose explosive mixture of jazz, rock, salsa, classical, and traditional music took audiences by storm.

He has appeared with the National Symphony Orchestra, the Brooklyn Philharmonic, and the London Philharmonic, among others.

Newsmakers at Southern Colorado

David Turrente, director of Sponsored Programs at the University of Southern Colorado (USC), was named Educator of the Month in October by the Latino Chamber of Commerce and the Pueblo Hispanic Education Foundation. Turrente is recognized for creating educational opportunities for youth and for developing partnerships between the University and the community of Pueblo.

Cemento Cultural Center—whose executive director is Eduardo Vega—one of theLIU’s most popular programs for teens is the Cultural Center’s Outreach Program, and the LIU’s most popular programs for teens is the Cultural Center’s Outreach Program, which is sponsored by the City of New York.

Dominicans 2000 Showcase National Agenda

In November, the City College of New York (CCNY) hosted two events run by Dominicans 2000.

Also, the Art Committee of Dominican 2000 presented a visual art exhibition that featured artists included: Joselina Baez, performing artists; Jonás Díaz, fiction writer; and The Welfare Poets, performing artists group

Cooper Art Partnership Garners Grant

The Saturas Outreach Program of Cooper Union’s School of Art (NY) has received a planing grant in the amount of $50,000 from the Lila Wallace-Reader’s Digest Fund in support of a studio arts education program for teenagers. Cooper Union’s partners in the Outreach Program are the Clemente Sol Velez Cultural Center—whose executive director is Eduardo Vega—unlike the Jamais Center for Arts and Learning.
Investigación Sobre “Genes Malignos” Publicada en el Cáncer Journal

Los investigadores del Centro de Ciencias de la Salud de la Universidad del Norte de Texas están tratando de identificar cómo se comportan esos genes en la producción y propagación de las células cancerosas. Esos trabajos han sido publicados en la revista de investigación del cáncer (Cancer Research) en la edición del 15 de noviembre.

Los investigadores del Centro de Ciencias de la Salud de la Universidad del Norte de Texas han estado trabajando con una proteína (PARP) que es la responsable por algunas de las acciones de un gen conocido. La proteína no es nueva para el mundo científico, pero la forma en que regula el gen y su papel en la muerte de las células alteradas ha sido documentada por primera vez por los investigadores de un centro de ciencias de la salud.

El equipo de investigadores de Fort Worth está dirigido por el Dr. Rafael Alvarez-González (puesto de izquierda en la imagen), profesor asociado de Biología, Moleculares e Inmunología en el centro de ciencias de la salud. El equipo de investigación del Dr. Alvarez es el único en Texas y uno de los tres grupos en todo el país que está estudiando los mecanismos de esta proteína. Este descubrimiento abre la puerta para estudios adicionales de las células tumorales a nivel genético, dice el Dr. Alvarez.

International Hispanic Conference at ASU

Hundres de educadores, artistas, y comunidad líderes de América Latina participaron en una conferencia de la ASU. El objetivo fue crear una asociación entre el patrimonio hispánico y la comunidad y la cultura de Arizona. La conferencia fue un éxito.

Los asistentes de ASU se comprometieron a crear una conferencia de la ASU. El objetivo fue crear una asociación entre el patrimonio hispánico y la comunidad y la cultura de Arizona. La conferencia fue un éxito.

Minnesota’s El Puente Program Enters Third Year

El Puente, una comunidad de servicio programada por el University of Minnesota’s Chicano/Latino Learning Resource Center (CLLRC), es entrando su tercer año con un impacto positivo. Desde su inicio en 1998, el programa ha tenido un impacto positivo en el crecimiento y desarrollo de los estudiantes. Es un programa de servicio, formación, y orientación que se enfoca en el desarrollo de habilidades laborales y académicas para estudiantes de bajos recursos.

EPA Grant Helps UMDNJ Medical School

El Programa de Estudios Ambientales (EPA) ha otorgado un grant a la Universidad de Salud y Ciencias de la Salud (UMDNJ). El grant se usará para mejorar la formación en salud pública y la prevención de enfermedades en la comunidad hispánica. El grant se usará para mejorar la formación en salud pública y la prevención de enfermedades en la comunidad hispánica. Delirium and Destiny: A Spaniard in Her Twenties

En la obra de María Zambrano, "Delirium and Destiny: A Spaniard in Her Twenties," se da cuenta de la influencia de la historia y el poder de la imaginación en la vida humana. Esto es un libro que muestra la importancia de la creatividad en la vida cotidiana y cómo se puede incorporar en la educación y el desarrollo personal. La obra es un testimonio de la pasión de María Zambrano por la literatura y la escritura. "Delirium and Destiny: A Spaniard in Her Twenties" es un libro que nos invita a reflexionar sobre la importancia de la creatividad en la vida cotidiana y cómo se puede incorporar en la educación y el desarrollo personal. La obra es un testimonio de la pasión de María Zambrano por la literatura y la escritura.
Tapestries of Hope, Threads of Love: The Arpillera Movement in Chile, 1974-1994
by Marjorie Agosín

This book tells the story of ordinary women living in terror and extreme poverty under General Pinochet's oppressive rule in Chile (1973-1989) and how their lives did and did not change following his reign. These women defied military dictatures by embroidering their sorrows on scraps of cloth, using needles and thread as one of the boldest means of popular protest and resistance in Latin America.

The book's Foreword is by Isabel Allende 1996
160 pgs.
ISBN 0-8263-1602-1

Posada's Broadsheets: Mexican Popular Imagery, 1890-1910
by Patrick Frank

José Guadalupe Posada is one of the most important graphic artists of modern Mexico. This book offers a close examination of his extensive broadsheet work in its original context: the murders, disasters, revolts, and popular heroes that engaged the attention of the public in Mexico City in the declining years of Porfioro Díaz's dictatorship.

September 1998

Conversations with Latin American Writers: Mario Benedetti

One of the most prolific writers in Latin America, Mario Benedetti works in all literary forms, from novels like La Tregua to journalism, poetry, and literary criticism. In this interview, he talks about politics now that the Cuban revolution is viewed by many as a failure. (Spanish, 41 min., color) Item #FF17607

Conversations with Latin American Writers: Augusto Roa Bastos

In this interview, we meet the eminent Paraguayan writer Augusto Roa Bastos, who, in his short stories and two novels--Yo el Supremo and Hijo de Hombre--uses a rich, experimental language to create a vast, complex, and interrelated world. (Spanish, 40 min., color) Item #FF17608

In Search of Contemporary Spain: Adios to the Past?

In a small village in the harsh western region of Estremadura, a 17-year-old Alicia is confronting a crucial decision: whether to stay or leave. Are marriage and staying in the village the best she can hope for in life? Villages, once the backbone of Spain, are struggling to survive. And the new Socialist mayor, a progressive priest, and liberal professional parents all provide different points of view. (23 min., color) Item #FF18407

ECS National Forum and Annual Meeting

July 11-14
The 1999 National Forum and Annual Meeting of the Education Commission of the States: "Reshaping Education for a New Century" will take place in Denver, Colo.

Contact: ECS. (303) 299-3600; e-mail <ecs@ecs.org>. Visit Web site at <www.ecs.org>.
Book Review

By Isabel Schon, Ph.D.

Editor's Note: This is "Part One: Books in Spanish for Adolescents" of a special, invited submission. Next issue will feature "Part Two: Books in Spanish for Children, Plus Book Dealers and Web Site."

Encouraging Spanish-speaking youth into the world of books and reading is certainly much easier with wonderful books that they can understand and enjoy. The following recently published books include some of the world's best mystery, horror, and short stories: delightfully appealing love poems; imaginative tales; and a series of novellas and stories about rebellion, society, bullies, and the conflicts between siblings and delightful short stories about each other.

I have indicated a tentative grade level for each book, but parents, teachers, and librarians should remember that the individual student's Spanish reading ability, interest, and purpose will vary. These grades are for determining the true level of each book. I have provided a price for each book. Prices of books in Spanish will vary with dealer and time of purchase.

- Bécquer, Gustavo A. and others. Clásicos de amor (Classics about Love) ISBN: 950-11-1278-0
- Bierce, Ambrose, and others. Clásicos de misterio (Mystery Classics) ISBN: 950-11-1279-0
- Each volume: 71 pages. Clásicos Juveniles

Just right for reluctant readers, this outstanding selection of some of the world's best short stories is sure to appeal to adolescents as they search for mystery, horror, and short stories. The brevity of these stories (from three to twenty pages), the easy-to-read layout and design, and the simple yet appealing covers make this series even more inviting. Clásicos de amor includes: "La dama de el tigre" ("The Lady of the Tiger") by Frank R. Stockton, "El abrazo" ("The Embrace"). "Una dama de Redhorse" ("The Lady from Redhorse") by Ambrose Bierce, "El regalo de los Magos" ("The Gift of the Magi") by O.Henry, "Los ojos verdes" ("Green Eyes") by G.A. Bécquer, "El pezado de Sui-hung" ("Sui-hung's Sin") by H.C. Andersen, and "El halcón" ("The Falcon") by G. Boccaccio. Clásicos de misterio includes: "El hombre y la víbora" ("The Man and the Snake") by A. Bierce, "Narración sobre el fantasma de una mano" ("A One-Handed Ghost") by Sheridan Le Fanu, "El monte de las ánimas" ("The Souls' Mountain") by G.A. Bécquer, "El huésped ambicioso" ("Ambitious Guest") by N. Hawthorne, and "El corazón delator" ("The Tell-Tale Heart") by E.A. Poe. Clásicos de terror includes: "El tonel Amontillado" ("The Cask of Amontillado") by E.A. Poe, "Schulken, el minero" ("Schulken the Painter") by Sheridan Le Fanu, "La muerta" ("The Dead Woman") by Goy de Maupassant, and "La mujer india" ("The Squaw") by Bram Stoker. Each volume includes brief, easy-to-understand comments about each genre and a short story as well as biographical sketches about each author.

If interested in submitting a book review, please e-mail us at bookreview@al.com for Book Reviewers' Guidelines.

Seventeen-year-old Francisco is often called to the principal's office as his attitude and behavior continue to deteriorate. Francisco can't stand his language teacher; he confronts her as well as several adults who are eager to help. In an engrossing first-person, stream-of-conscious narrative, readers will eventually empathize with Francisco's feelings and thoughts upon his mother's death. Many adults will object to numerous obscenities; others will object to what some will describe as the protagonist's irrelevant allusions to religion and God, but adolescents will understand the protagonist's defiance toward authority as he deals with his own grief and loss. Perhaps an uncle's serious drug addiction seems a bit contrived; nonetheless, this is an honest novel about adolescents' pain and rebellion.

As stated by the compiler, this is not a "rigorous, repetitive, canonical selection" of the best poems in the Spanish language, nor a collection by one of the most important poets in the history of literature, nor the most original poems: nor are they amazing by their imagery. Rather, it is a collection of love poems that should especially appeal to adolescents who are just discovering love and possibly poetry. In contrast to adolescents in English-speaking countries, Spanish-speaking adolescents—boys and girls—do search for and enjoy together love poems. Hence, this collection of 111 brief, simple poems will provoke in readers/listeners what the compiler desires: a spontaneous "¿Qué bonito?" (How nice! From arguably the "best" love poem in the Spanish language of the nineteenth century, "Volvieron las oscuras golondrinas..." by G. A. Bécquer, to the most popular of this century, "Puedo escribir los versos más tristes esta noche" by Pablo Neruda, to touching poems by the Mexican Jaime Torres Bodet, to moving poems by the Nicaraguan revolution, Ernesto Cardenal, these love poems are sure to elicit in Spanish-speaking adolescents those bewitching emotions that we all relished.

Dr. Isabel Schon is director of the Center for the Study of Books in Spanish for Children and Adolescents and founding faculty at California State University-San Marcos. Her honors include the 1992 U.S. Role Model in Education Award presented by the U.S.-Mexico Foundation, the 1992 Devali Press Award from the American Library Association, and the 1987 Women's National Book Award.

NIH Undergraduate Scholarship Program (UGSP)

If you would like to be trained and mentored at the cutting edge of biomedical research while receiving scholarship support, the UGSP may be for you!

The UGSP is sponsored by the National Institutes of Health (NIH), the Federal Government's leading biomedical research and research training agency, offering scholarships to qualified individuals to pursue undergraduate life sciences degrees.

Scholarships of up to $20,000 per year support tuition, educational, and qualified living expenses (room, board, transportation) while students pursue an undergraduate degree.

During each year of the award, scholars train for 10 weeks as paid employees in NIH research laboratories. They are assigned to mentors and participate in research seminars and developmental programs. Housing and transportation are provided. After graduation, 1 year of full-time research employment at NIH is required for each year of scholarship support.

You Should Apply If You:
- Can demonstrate a deep interest in pursuing a career in biomedical research.
- Can demonstrate being from a disadvantaged background.
- Have a GPA of 3.4 or better, or rank in the top 5 percent of your class.
- Are a U.S. citizen, national, or permanent resident.
- Are enrolled or accepted for enrollment as a full-time student at a qualified accredited institution.

This is a special opportunity for special students.

For more information, contact: UGSP

AAEO/Title IX Employer

DIRECTOR
CHARLES A. LORY STUDENT CENTER

Colorado State University invites nominations and applications for the position of Director of the Charles A. Lory Student Center. The Director reports to the Vice President for Student Affairs and is responsible for all its units and programs, including campus activities, operations, maintenance, bookstore, dining services, and business operations. The Lory Student Center is nationally recognized for the quality of its programs and facilities and recently completed a $20 million renovation.

The successful candidate will meet the following qualifications: Master’s degree in Student Personnel or related field, with at least seven years of professional experience in student affairs, including five years of administrative experience in a senior administrative position in a college or university. Experience in a large student affairs department, demonstrated success in program development, management, and leadership in higher education. Additional qualifications include demonstrated personal commitment to diversity combined with an understanding of an appreciation for cultural, ethnic, and individual differences, effective oral and written communication skills, strong organizational and strategic planning skills, ability to build an ethic of community and a climate of support, and personal qualities of enthusiasm, creativity, and willingness to take risks.

Salary is commensurate with education and experience with a starting date of July 1, 1999. Nominations must be received by 5:00 p.m. March 1, 1999, or your application consisting of a letter of interest, resume, and the names, addresses, and telephone numbers of three references must be received by 5:00 p.m. March 12, 1999, forwarded to Dr. Dave McKeel, Chair, Search Committee for Director of Lory Student Center, Palmer Center, Colorado State University, Fort Collins, Colorado 80523 (970) 491-6511. Applications will be accepted until the position is filled; however, for full consideration, applications must be on file on or before 5:00 p.m. MST, March 12, 1999.

Colorado State University is an equal opportunity/affirmative action employer.
**Non-tenure Track Teaching Positions in Management**

The Department of Management in the College of Commerce announces four non-tenure track positions in Strategic Management/Innovation Management, Operations Management, and Change Management. Salary is competitive and commensurate with qualifications. Positions to be filled effective in the Fall of 1999, subject to funding availability. Desired qualifications for the positions include commitment to excellent teaching and demonstrated research potential.

Ph.D. in the functional area preferred; ABD considered. Candidates with hands-on management experience are encouraged to apply. Teaching responsibilities include Management Undergraduate and Graduate classes. A complete description of all management courses and programs can be obtained at www.depaul.edu/mgt.

Vitae must be postmarked by February 26, 1999, and should be sent to Dr. Gerhard Plaschka, Chairman, Department of Management, DePaul University, 1 East Jackson Blvd., Chicago, IL 60604-2287. Please, no phone calls or e-mail. DePaul University is committed to diversity and equality in education and employment.

---

**Compliance Officer**

**Position Description:**

The compliance officer works with administrators, faculty, students, and staff in developing and implementing affirmative action programs and ensuring equal opportunity. Maintain primary responsibility for monitoring and evaluating all university human resources and affirmative action programs. Ensure compliance with EOAA regulations. Assist with coordination of required Affirmative Action Plans and other reports as necessary. Assist with developing, implementing, and monitoring programs dealing with issues of concern to minorities and women. Coordinate the University's response to external complaints raised by or to persons outside the University system.

**Qualifications:**

Preferred qualifications include a master's degree or equivalent training and work experience. Experience in developing and monitoring affirmative action programs and ensuring equal opportunity. Experience in monitoring and evaluating all university human resources and affirmative action programs. Ability to work effectively with diverse groups.

**Salary Range:**

Professional faculty position at the rank of assistant professor. Twelve-month, non-tenure track appointment. Salary is commensurate with education and experience. Full benefits package is included.

**To Apply:**

Review of applications will begin February 20, 1999. Submit a letter of application stating qualifications and three references (name, address, and telephone number) to: Elyse B. Kantrowitz, Director, COAA Office, Virginia Tech, Blacksburg, VA 24061-0216. Fax (540) 231-8510. Phone (540) 231-7500, TTY (800) 828-1120.

Virginia Tech Tech is an equal opportunity, affirmative action institution. Women, Minorities, and Persons with Disabilities are encouraged to apply.

Individuals must submit a separate application for each teaching field desired.
DEAN
SCHOOL OF BUSINESS

Montclair State is a comprehensive public university offering a rich array of programs to approximately 12,000 undergraduate students and post-baccalaureate students. Founded in 1908, the University is organized into three colleges and three schools: College of Education & Human Services, College of Humanities & Social Sciences, College of Science & Mathematics, School of the Arts, School of Business, and the Graduate School. Characterized by a distinguished faculty of 450 teacher-scholars, Montclair State offers ten undergraduate degrees in more than 70 major areas of study. The University is located 14 miles west of New York City on a beautiful 200-acre suburban New Jersey campus.

With a faculty of over 60 and more than 1250 students, the School of Business provides a rich variety of programs leading to the Bachelor of Arts, Bachelor of Science, Master of Arts, Master of Science and Master of Business Administration degrees. Organized into five departments (Accounting; Law & Taxation; Economics & Finance; Information Decision Sciences; Management; and Marketing), the School of Business offers assistance to regional businesses through the International Trade Counseling Center, the Small Business Institute/Center for Regional Business and a variety of programs provided in conjunction with the Center for Continuing Education. Currently a candidate for AACSB accreditation, the School will host an on-site visit in April 2000.

The Dean, who is appointed by the President and reports to the Provost/Vice President for Academic Affairs, serves as the chief academic and administrative officer of the School. The Dean will provide the leadership and vision necessary to achieve ambitious goals in undergraduate and graduate education, fostering the integration of knowledge and its application with the regional, national and international community. More specifically, the Dean, in collaboration with the faculty and staff, will articulate a vision for the School that is challenging yet achievable and develop and adjust the strategic and operational plans necessary to achieve the vision. Working within the framework of the vision, the Dean will guide the development of the curriculum, research and outreach activities to ensure that all programs are current, relevant and rigorous. The Dean will be responsible for the administrative and fiscal management of the School, with special attention to the recruiting and development of the faculty. She/he will be responsible for effectively representing the School to the campus, alumni and business communities and providing leadership in the pursuit of the external resources required to augment State appropriations.

Qualifications: Candidates should possess an earned doctorate and a record of academic achievement appropriate for appointment at the rank of full professor in a department of the School. In addition, she/he should possess:

- a commitment to excellence in teaching/learning, scholarship and the application of knowledge;
- a record of successful administration in higher education and/or corporate settings;
- a record of raising significant external funds;
- the ability to build effective relationships with the business community;
- the ability to foster a collegial, collaborative work environment;
- a broad understanding of the business disciplines and issues and trends in higher education;
- a thorough understanding of the AACSB accreditation process;
- a commitment to maintaining and extending student and faculty diversity;
- familiarity with a collective bargaining environment; and
- strong interpersonal communication and listening skills.

836
DIRECTOR OF FACILITIES

New Jersey City University is a multipurpose, urban-oriented, state funded four-year co-educational institution of higher education with an enrollment of over 8,500. It is located in Jersey City, New Jersey, within 15 miles of the cities of Elizabeth, Newark and Paterson in New Jersey, and the Boroughs of Manhattan, Brooklyn and Staten Island in New York City.

The University's forty-five acre campus has nearly 900,000 gross square feet of academic, administrative, and residential structures. Campus structures include: The Irwin Library, five major academic buildings providing classrooms, laboratories and academic offices; the Gilligan Student Union Building; an athletic and recreation building with a swimming pool and fitness facility; a Center for Media Technology and Communication Arts with studios for cinematography, television and radio, three dormitories and a maintenance facility.

This position provides overall administration of facilities including design, construction, utilities production and distribution, energy conservation, custodial support, recycling, grounds care, and routine maintenance.

REQUIREMENTS:
A Bachelor's Degree in Mechanical, Electrical or Civil Engineering or equivalent; relevant Master's Degree and/or professional license preferred but not required; five years of progressively responsible experience in facilities management services in custodial and plant operations involving project management, maintenance scheduling, and budget development, preferably at a facility of public higher education of equivalent size to New Jersey City University. Computer literacy in maintenance programs that include preventive maintenance, CAFMS, casualty prevention and energy conservation, and budgetary skills are essential. A commitment to working in a collaborative manner and the ability to foster trust and support among such varied constituencies as administrators, faculty, staff, students and the community are requirements. Excellent oral and written communication skills, including writing specifications to bid, are required. A demonstrated commitment to quality, customer service, staff development, diversity and safety are required.

Starting salary is in the range of $62,000 to $70,000, and is commensurate with qualifications. For consideration, applicants should send a comprehensive resume and cover letter discussing qualifications for the position to:

Michael Tepper, Chair, Search Committee
New Jersey City University
2039 Kennedy Blvd., Jersey City, NJ 07305

Applications will be received until the end of business Friday, March 19, 1999.

New Jersey City University is an AA/EEO Employer

DIRECTOR, SPECIAL PROJECTS
GED Testing Service

The American Council on Education (ACE), has an opening for an individual who will report directly to the Executive Director and will manage special projects and programmatic initiatives. Individual will represent the program to major constituencies and provide program and policy leadership as well as develop appropriate communications for policy analysis and research findings. Will provide marketing analysis expertise to GED partners regarding expansion of the GED Program. Will identify and develop mechanisms to strengthen the transition of GED graduates into postsecondary education and/or improved employment situations. Experience in program management preferred. Individual should have strong management capabilities, especially in a fast-paced environment with multiple priorities. Must work effectively in a cross-functional team (matrix) management environment. Strong oral and written communication skills required. Must be self-directed and innovative. Nominations and expressions of interest should be sent to:

Director, Special Projects - GED
American Council on Education
One Dupont Circle, NW, Room 804
Washington, DC 20036

EOE/A/M/V
ALBUQUERQUE TECHNICAL VOCATIONAL INSTITUTE

VICE PRESIDENT FOR STUDENT LEARNING

The Albuquerque Technical Vocational Institute (TVI), New Mexico's largest and most comprehensive community college, is seeking a dynamic, creative and sensitive educational leader to serve as its chief instructional officer.

TVI is a North Central-accredited institution serving 30,000 students, 16,000 credit enrollment at four metro-area campuses. The student body represents the district's ethnic diversity: Anglo 46%, Hispanic 39%, Native American 5%, Black 3% and Asian 2%. The budget is $76.3 million.

The Vice President for Student Learning reports to and works with the president to assure that TVI meets the Governing Board's mission of promoting and providing higher education, skill development and workforce training programs relevant to contemporary needs within the district and the state. The Vice President will lead the instructional team to sustain TVI's position as a progressive community college where students achieve goals and meet challenges.

Applications will be received until the position is filled. Anticipated date for employment is July 1, 1999. Because the search committee will begin reviewing materials in early May, applications are encouraged before April 30.

Complete job description and application requirements may be obtained from Karen Miller (phone 505-224-4608, fax 505-224-4611) at the TVI Human Resources Department or by visiting the TVI website, http://www.tvi.cc.nm.us. Mailing Address: Albuquerque Technical Vocational Institute, Human Resources Department, 525 Buena Vista Dr. SE, Albuquerque, New Mexico 87105-4096.

TVI is an equal opportunity institution. Minorities and women are encouraged to apply.

The department has 14 full-time faculty, 7 part-time faculty, 4 full-time administrative assistants, and 1 part-time administrative assistant. They are committed to providing high-quality instruction and student services in the humanities, arts, social sciences, and natural sciences. The Liberal Education Department is responsible for a comprehensive and coherent liberal arts core curriculum that prepares students for various fields of study and careers. As the Chair, you will lead the department in developing and implementing a vision for the liberal education program that aligns with the college's mission to provide a comprehensive, challenging, and diverse education that prepares students for lifelong learning.

Responsibilities include:
- Developing and implementing a vision for the liberal education program
- Supervising the faculty and staff of the Liberal Education Department
- Developing and implementing a comprehensive and coherent liberal arts core curriculum
- Collaborating with other academic departments to ensure a seamless interface between programs
- Providing leadership in the development and implementation of new course offerings
- Conducting assessments of student learning outcomes and program effectiveness
- Presiding over and participating in departmental and college-wide committees
- Participating in the college-wide assessment process
- Overseeing the delivery of instruction and the evaluation of student learning
- Participating in the college's strategic planning process
- Developing and maintaining effective relationships with students, faculty, staff, and the community

Requirements include:
- A doctorate in a relevant field
- Demonstrated excellence in teaching, curriculum development, and student success
- Experience in liberal arts education
- Demonstrated success in program assessment and evaluation
- Strong leadership and management skills
- Experience in higher education administration
- A commitment to diversity and inclusion
- Strong communication and interpersonal skills
- Ability to work effectively with a diverse range of students, faculty, and staff

Columbia College is committed to diversity and inclusion in its work environment and in its instructional, educational, and employment policies. Accommodations may be made for individuals with disabilities. Applicants are encouraged to apply by October 31, 1999.

Please submit a letter of application, curriculum vita, and the names and addresses of three references to:

Mary Beth Kline, Chair
Liberal Education Department
Columbia College Chicago
600 S. Michigan Avenue
Chicago, IL 60605

Columbia College is an equal opportunity, affirmative action employer. Women and minorities are encouraged to apply.
Assistant Director/Minority Student Services

Central Michigan University seeks two Assistant Directors in its Minority Student Services Office. This office provides academic, personal, social, and cultural support to students. To empower and retain students, MSS staff provide and enhance a campus environment where diversity is understood and celebrated.

One Assistant Director will be responsible for coordinating the Supplemental Instruction Program, College Education Enhancement Program, Peer Advisor Program, the Male/Female Training Workshops, and other retention efforts.

The other Assistant Director will coordinate the King/Chavez/Parks College Days and Summer Workshops, New Student Orientation Program, Parent Empowerment through Academics and Knowledge Program, College Life Series, New Student Employment Conference, and other retention efforts.

Required qualifications for both positions include a Bachelor’s degree and three years relevant experience with student academic support programs, or a Master’s degree plus one year relevant experience. Master’s degree preferred. Strong communication skills, supervisory skills, organizational skills, knowledge of word processing and statistical software, and specific knowledge of Latinx, Asian, African American, and Native American cultures is desired.

Submit cover letter, resume, and the names and addresses of three references to:

Deadline: March 23, 1999
COMMITTEE ON INSTITUTIONAL COOPERATION DIRECTOR

The Committee on Institutional Cooperation (CIC), with headquarters in Champaign, Illinois, seeks nominations and applications for the position of Director. The CIC, founded in 1958, is the academic consortium of the following institutions: University of Chicago, University of Illinois, Indiana University, University of Iowa, University of Michigan, Michigan State University, University of Minnesota, Northwestern University, Ohio State University, Pennsylvania State University, Purdue University, and University of Wisconsin. The CIC is governed by the chief academic officers of these institutions and the Director reports to and works closely with the Chairman and Executive Committee of this group.

The cooperative spirit of the CIC Members has produced many successful programs and initiatives. The continued goal of the CIC is to sustain and enhance current cooperative academic activities among the institutions and to address the ever-changing needs of higher education from curriculum to technology to research.

The Director is a full-time, academic professional position. The successful candidate must have administrative experience at a research university, exhibit strong communication and interpersonal skills, and be a proven leader. The Director will provide leadership and guidance to the Consortium in many programs and projects. Some of the principal areas are: Access for Women and Minorities, Information Technology, International Programs, and Library Cooperation. Information on the CIC is available at our web site: www.cic.uiuc.edu.

Please send nominations, applications, and inquiries to the address below. In addition to a paper copy, the search committee would be pleased to receive applications or nominations that include a vita saved on an IBM formatted diskette, or by e-mail sent to PSUsearch@psu.edu. Nominations and applications will be reviewed beginning immediately. The search will remain open until the position, which is available effective June 1, 1999, is filled.

John A. Brighton, Chair

ASSISTANT DEAN OF BUSINESS
International Programs and Non-Traditional Learning

The Assistant Dean reports to the Associate Dean of Business, International Programs and Non-Traditional Learning who reports to the Vice President of Academic Affairs. The Assistant Dean has primary responsibility for the quality and administration of all Business Administration Management and Health Information Technology Associate Degrees, options and certificates and Study Abroad Academic Programs, day and evening. The Assistant Dean is expected to provide intellectual leadership and visionary direction while fostering a positive atmosphere that emphasizes learning centered teaching and career growth. The Assistant Dean will be expected to assist the Associate Dean in the development and implementation of a variety of projects and initiatives that affect adult learners, new or returning to college, to be successful, and may instruct courses. Earned Master’s Degree or higher in a related discipline. Increasingly responsible experience in academic or workplace management. Strong interpersonal skill in an institution of higher education, preferably a community college, which includes responsibilities beyond classroom instruction such as curriculum development, course development with an international perspective, scheduling of faculty, program review, work with a diverse student body, and a thorough understanding of the teaching-learning process. Demonstrated understanding of and experience in the global marketplace experience with a variety of credit and non-credit programs and the ability to work effectively with students, faculty and community members. In addition, candidates must have excellent oral and written communication skills and the ability to work independently and as part of a team.

Interested candidates may apply to the Associate Dean for Human Resources at Northern Essex Community College, POST# 03, Elliott Way, Haverhill, MA 01830 by sending a letter of interest with a resume and three letters of reference by March 12, 1999. The letter must include addressing qualifications, required skills and abilities, a detailed resume, and the names, titles, institutions and home telephone numbers of three references. One must be a present or previous student, one a supervisor, one a peer, one support staff member and one community member. All candidates will be asked to complete an on-site interview and meet with a variety of campus groups. Each candidate will also be encouraged to tour the campus. The salary range is $34,000 - $43,000 with a comprehensive benefit package. Start date will be consistent with educational background and experience and level of position.

**ROWAN UNIVERSITY**

**DEAN COLLEGE OF BUSINESS**

**ROWAN UNIVERSITY**

**DESCRIPTION:**

Rowan University is seeking applications and nominations for the position of Dean of the College of Business. The Dean provides the overall leadership and academic leadership in the College of Business and serves as its chief academic administrative officer. The College of Business comprises 31 full-time faculty, 1,000 undergraduate and 125 graduate students in the following academic departments: Accounting/Finance, Management/MSI, and Marketing. The College of Business also features a dynamic Master of Business Administration program, a newly approved Master in Accounting, and a successful cooperative education and internships program.

The Management Institute of the College of Business already enjoys an active and committed Dean's Advisory Board and Alumni Advisory Council. Two recent gifts to the business school have provided an endowed chair and supplementary funding for the MBA program. Specific responsibilities of the Dean include all aspects of financial management including adherence to AASCB standards, faculty development, and accreditation processes. A critical priority for the Dean will be to lead the College of Business through the final years of the AASCB candidate process. The Dean of the College of Business will also be responsible for maintaining an competitive environment in the region and will be expected to play a key role in fund raising efforts for the College. The Dean reports directly to the Executive Vice President/Provost and serves on the Council of Deans.

**QUALIFICATIONS:**

Candidates must have an earned doctorate in business administration with a teaching and scholarly record that would warrant appointment to the rank of full professor, along with a demonstrated record of successful leadership and increasing levels of responsibility in higher education administration. Candidates must also have experience with AASCB standards and the accreditation process. A proven record of success in forming linkages with the business community and/or a distinguished record of accomplishment and success in business at the national or international level, highly desirable.

In addition to the qualifications listed above, the ideal candidate will demonstrate the following:

- Strong leadership and management skills and a record of accomplishment in planning and budgeting
- A commitment to teaching, learning and scholarship with strong record of building and faculty development
- A commitment to curriculum design for the 21st century
- A record of successful program development and program evaluation
- A commitment to the business community
- A commitment to affirmative action principles and outcomes
- Working knowledge of a collective bargaining environment

**ROWAN UNIVERSITY**

Rowan University (formerly known as Glassboro State College) is a selective, medium-sized, public university located in southern New Jersey and close to Atlantic City and Philadelphia. In 1982, Rowan University received a $1 million gift from Henry and Betty Rowan, one of the largest gifts bestowed on a public university. This gift has been a catalyst for Rowan's transformation into a university of regional prominence. Founded in 1923 as a normal school for teachers, 1 University enrolls over 9,500 students in degree programs ranging from bachelor's through doctorate. The University is divided into six colleges (Business, Communication, Education, Engineering, Fine & Performing Arts, and Liberal Arts & Sciences) and a Graduate School. A 120-acre campus contains 31 buildings, including six residence halls and three apartment complexes. The University was also the site of the historic Supreme Court conference in 1981. Additional information about Rowan University and the College of Business can be found at the World Wide Web http://www.rowan.edu

**APPLICATION PROCESS:**

Applications and nominations for the position are invited. Applications should include a letter indicating how the individual's experience and background relates specifically to the position qualifications, a current curriculum vitae, and the names and current titles, addresses, and telephone numbers of five professional references. Applications will be reviewed beginning May 19 and applications will be considered until the position is filled. Applications and nominations should be sent to: Chair, College of Business Search Committee Office of the Executive Vice President/Provost Rowan University 201 Mullica Hill Road Glassboro, NJ 08028

ST. PHILIPS COLLEGE

A Point of Pride in Our Community

TEMPLE UNIVERSITY

School of Tourism and Hospitality Management
Philadelphia, PA

Temple University is a large urban university located approximately 2 ½ miles north of Center City, Philadelphia, the heart of the local tourism industry. Philadelphia contains tourism, hospitality, sport and recreation venues which make the city ideal for teaching and learning experiences for Temple University students and faculty. The School of Tourism and Hospitality Management was established July 1, 1928. The School offers four degree programs, the bachelor's and master's degrees in Sport and Recreation Management, as well as the new bachelor's and master's degrees in Tourism and Hospitality Management. The School is a self-standing school, affiliated with Temple University's Fox School of Business and Management.

Both appointments are tenure track positions beginning July 1, 1999.

RESEARCH CENTER DIRECTOR/FULL PROFESSOR OF TOURISM AND HOSPITALITY MANAGEMENT

The selected candidate will be responsible for establishing a Research Center for a new School of Tourism and Hospitality Management at Temple University. The Director will solicit, conduct, and publish research projects, as well as work collaboratively with university faculty. The ability to work effectively with external funding through grants, foundations, donations, or paid research projects is desirable. Teaching courses in Research Methodology will be required on an as-needed basis. The supervisor and mentor of graduate research assistants will be expected.

Applicants should have extensive scholarly and/or theoretical research experience in tourism, with an emphasis on travel, hospitality and tourism studies. An emphasis on a combination of any of the areas of research is preferred. A proven track record of publications, grants, and funding is required. The ability to seek new avenues of funding is critical to the success of the position. The ability to work with an interdisciplinary team and with diverse client groups is desirable. Excellent documentation and higher education experiences are required.

ASSOCIATE/ASSOCIATE PROFESSOR OF TOURISM AND HOSPITALITY MANAGEMENT

The selected candidate will be responsible for teaching undergraduate and graduate courses in the tourism and hospitality management curriculum. Active participation in professional national and local associations, committees, and other professional service and research expectations are expected. The position requires the supervision and mentoring of undergraduate and graduate students.

Applicants should have teaching and research experience in tourism or hospitality appropriate to the appointment level. A proven record of publications, grants, and funding will be reviewed for appointment as an assistant or associate professor. Experience in desirable. An earned doctorate is required.

Applicants for both positions should submit a letter of application, curriculum vitae, names of three references, and supporting materials to Dr. Elizabeth H. Barber, Assistant Director, School of Tourism and Hospitality Management, Temple University, 102 Division Hall (0448), Philadelphia, PA 19122 (215) 204-6294, bettyh@temple.edu. Application review will begin March 15, 1999, and continue until the position is filled.

TEMPLE UNIVERSITY is an Affirmative Action/Equal Opportunity employer. Women and minorities are encouraged to apply.
COORDINATOR OF MULTICULTURAL STUDENT PROGRAMS
STUDENT LIFE TEAM
NATIONAL TECHNICAL INSTITUTE FOR THE DEAF
A COLLEGE OF ROCHELLE INSTITUTE OF TECHNOLOGY

The Student Life Team (SLT) is charged with coordinating curricular programming for deaf and hard-of-hearing students at the National Technical Institute for the Deaf. The SLT works collaboratively with academic programs at NTID and Student Affairs programs of Rochester Institute of Technology to provide a wide range of educational programs. The Multicultural Program is a key component of the overall SLT. The MSP supports educational programs designed to enhance multicultural appreciation and provide support to African American, Hispanic American, Asian American, and Native American (AHANA) students at NTID. As a department responsible for a comprehensive international function the SLT is housed in the Office of the Dean, and reports directly to the Associate Dean for NTID Student Affairs in carrying out its charge.

NATURE OF POSITION

• Full-time, 12 month
• Professional staff
• Reports to Manager of Student Life Team

PRIMARY RESPONSIBILITIES

The MSP coordinator is responsible for coordinating the development of a comprehensive program designed to enhance the retention and success of AHANA deaf and hard-of-hearing students enrolled at NTID. The MSP coordinator is expected to evaluate existing efforts in the area and to work collaboratively with their departmental team members. NTID Leadership Team, faculty, staff, and students to coordinate programmatic efforts in this area.

RESPONSIBILITIES

• Design, implement, and evaluate educational programs to enhance multicultural appreciation. Coordinate the marketing of these events with internal audiences to maximize participation. Develop and revise annual program plans collaboratively with manager for Student Life Team, and ultimately NTID Leadership Team.
• Design, establish, and coordinate an AHANA student mentorship program.
• Collaborate and liaise with Assistant Provost for Diversity at RIT, RIT's Commission on Promoting Pluralism, and RIT's Center for Student Transition and Support, related to issue of campus-wide AHANA student celebration, support, development, and retention.
• Contribute to program development and implementation of PFE curriculum as it relates to AHANA students.
• Serve as student advocate and liaison, creating and educational environment conducive of deaf student development opportunities.
• Work collaboratively with members of the SLT to curate developmental programming.
• Unpack evening and weekend involvement in students co-curricular activities to provide rich modeling and connections for students to the institute.
• Serve as intern to NTID faculty and staff on AHANA issues.

QUALIFICATIONS:

• Bachelor's degree in human services, cultural studies, cross-cultural communication or related field.
• Master's degree in Higher Education, Student Personnel, or related field preferred.
• Demonstrated ability to foster programs and educational opportunities which enhance the success of AHANA students.
• Demonstrated commitment to fostering diversity in all forms, particularly an understanding of Deaf culture and AHANA students.
• Ability to effectively communicate with deaf and hard-of-hearing students.
• Knowledge of student development models and theories as they relate to non-mainstream cultures.
• Ability to contribute in meaningful ways to the college's continuing commitment to cultural diversity: pluralism, and individual differences.

Interested individuals should send letter of application, resume, and three letters of reference to:
Diane Brooks, Chair
c/o Student Life Team
Mark Ellingston Hall
52 Lomb Memorial Drive
Rochester, New York 14623-5604

THE UNIVERSITY OF SOUTH CAROLINA
National Resource Center for The First-Year Experience
and Students in Transition

ASSOCIATE DIRECTOR

The National Resource Center for The First-Year Experience and Students in Transition invites applications for the new position of Associate Director. This position will report to and share responsibilities with the Center Co-Directors.

The Center, located at the University of South Carolina in Columbia, offers a variety of products and services to higher education professionals who work with first-year students, transfer students, and seniors. These include publications (weekly blind refereed journal, newsletter, and series of monographies), video materials, conferences, seminars, workshops, and teleconferences. The Center also conducts and sponsors research on various topics related to undergraduate education. The Center is functionally integrated with University 101, the nationally renowned first-year seminar offered at the University of South Carolina since 1972.

The Associate Director will share with the Co-Directors many responsibilities including the following: editing of monographs and other Center publications, supervision of editorial staff, conceptualization and implementation of new publications, resources, and conferences, design and implementation of research studies to include national surveys, design and presentation of workshops and seminars off-campus locations.

Qualifications:

• Earned doctorate, preferably in the liberal arts, social sciences, or higher education.
• A demonstrated record of research, scholarship, and publication, knowledge of research design and statistical methodology, basic computer expertise.
• Knowledge of and experience with first-year, transfer, or senior students and programs designed to improve their transition experience.
• Outstanding writing, editing and presentation skills, administrative/organizational experience.

This is a 12-month, non-tenure track unclassified academic position. Salary is competitive and commensurate with experience and credentials. This is a position with full State of South Carolina benefits funded by revenues generated through Center products and activities. Position is available July 1, 1999.

For a complete position description and instructions for making formal application, please contact:
Dr. Betsy Barefoot
(803) 777-2247, (FAX 803-777-4699) (betsyb@ast.csd.sc.edu)
The University of South Carolina is an Affirmative Action/Equal Opportunity Employer.

PRESIDENT

The Board of Trustees of the West Valley-Mission Community College District invites applications and nominations for the position of President of Mission College, a publicly funded, comprehensive community college.

SANTA CLARA, CA

The President is the chief executive officer of the college and reports to the Chancellor who reports to a seven-member publicly elected Board of Trustees. The Board seeks an inspired, visionary leader who will embrace the spirit of Mission College and the Silicon Valley, and who will lead with authenticity and pride its diverse student body, and its talented faculty and staff.

U.S. Coast Guard Academy
FACULTY POSITION - U.S. HISTORY

DEAN OF STUDENTS

Truman State University invites applications for the position of Dean of Students.

Truman State University is Missouri's highly selective, public liberal arts and sciences university with the mission to provide outstanding educational opportunities in the arts and sciences at an affordable price. Truman is nationally recognized for its innovative assessment program and its commitment to excellence in teaching and learning. Truman is located in Kirksville, a town of 15,000 in northeastern Missouri. Truman's student body of over 6,200 students is primarily within the traditional 18-22 year old range and is largely residential. The university is expanding its residency for students and expanding its college experience to incoming students beginning in the Fall of 1999.

The Dean of Students is the chief student affairs office and is responsible for providing leadership for Student Affairs including Residential Living, Multicultural Affairs, Athletics, the Student Union, Campus Activities, Counseling Services, Student Health, Judicial Affairs, the Student Recreation Center, Services for Individuals with Disabilities, and Greek Life. For information visit our website at http://www2.truman.edu/deanofstudents.

Candidates must possess an earned doctorate or an equivalent terminal degree from an accredited institution. The successful candidate will be an individual who has a record of demonstrated

- dynamic leadership, creativity, and vision that would support the continuing development of a Student Affairs program
- strong commitment to the development and welfare of students
- knowledge of and applicable experience in a liberal arts environment
- ability to work collaboratively with students, faculty, staff, and administrators, especially in a residential college program
- understanding of and commitment to the issue related to diversity
- excellent communication and interpersonal skills
- strong administrative and management skills
- knowledge of athletic programming and its role in student development

The position is available July 1, 1999. Deadline for receipt of completed applications is March 19, 1999. Complete applications will consist of a current resume, both undergraduate and graduate transcripts, the names, addresses, and telephone numbers of at least three references, three confidential letters of recommendation sent directly to the address below, and a letter of introduction that outlines the candidate's philosophy and experience relevant to the position. Only completed applications will be considered. All inquiries and applications should be sent to

Dean of Students Search Committee
c/o Vice President for Academic Affairs
Truman State University, McClain Hall 203
100 East Normal Street
Kirksville, MO 63501

Truman is an equal opportunity/affirmative action employer committed to cultural diversity and compliance with the Americans with Disabilities Act.

MARQUETTE UNIVERSITY
OFFICE OF RESIDENCE LIFE

Marquette University is an institution enrolling over 10,000 students, located in the heart of Milwaukee, Wisconsin. The Office of Residence Life seeks qualified candidates for Residence Hall Directors. Candidates should possess values compatible and supportive of Marquette's mission of excellence, faith, leadership, and service. Marquette University has a long-standing commitment to cultural diversity and actively seeks to enrich its cultural, racial and ethnic communities.

RESIDENCE HALL DIRECTOR

The Residence Hall Director (RHD) is expected to provide leadership that creates a positive living environment consistent with the principles of a Catholic, Jesuit university. Responsibilities include: oversee a residence hall or apartment complex housing 300-500 students; supervise a student staff including a Facilities Manager, Resident Assistants, Desk Receptionists, and student secretaries; plan and implement programming for the academic, personal and interpersonal growth of students; advise hall council; work in partnership with live-in University Ministry staff; enhance residence hall and apartment spaces; serve as a student conduct administrator; manage a residence hall budget; and participate in departmental and divisional activities.

QUALIFICATIONS: Master's degree and residence hall experience is preferred. Bachelor's degree and previous residence hall experience is required. SALARY AND BENEFITS: Salary is competitive for a 12 month appointment, furnished apartment, meal plan, parking and generous fringe benefits. APPLICATION PROCESS: Send letter of application, resume and two current letters of reference to Ms. Mary Jane, Assistant Dean for Staffing Services, Marquette University, Office of Residence Life, PO. Box 1881, Milwaukee, WI 53201-1881. INTERVIEWS: Conducted at the Oshkosh Placement Exchange, ACTA and NASPA. DEADLINE: Application deadline is March 6, 1999. Position available July 1, 1999.

Marquette is an Equal Opportunity and Affirmative Action Employer.

Grinnell College

The following postdoctoral positions in Science are available:

1) Neuroscience Research and Teaching Postdoctoral
2) Materials Science Research and Teaching Postdoctoral
3) Molecular Biologist/Chemist Research and Teaching Postdoctoral,
and
4) Biology/Statistics Research and Teaching Postdoctoral.

All positions are funded through an AIRE grant from NSF and require US citizenship. A complete description of the positions is available at http://www.grinnell.edu/Departments/Science_Faculty_Openings.html.

Grinnell College is an equal opportunity/affirmative action employer committed to employing a highly qualified and diverse faculty committed to excellence in teaching as well as to diversity in the composition of its teaching force. Women are strongly encouraged to apply.

UNIVERSITY OF FLORIDA
ASSISTANT DEAN
FOR ACADEMIC PROGRAMS
College of Agriculture (COA)
University of Florida

The Assistant Dean for Academic Programs administers the undergraduate programs in the COA, works with administrators, faculty, and students for development, improvement, coordination of undergraduate educational programs, and administers the early admission programs in the Colleges of Veterinary Medicine and Dentistry and the COA Honors Program. The undergraduate program includes majors, approximately 50 specializations, and 13 minors. The COA ranks in the top ten nationally in the number of graduate and undergraduate degrees granted and is the sixth largest undergraduate and graduate program in the nation. The COA has approximately 3300 undergraduate and 750 graduate students. The Assistant Dean reports directly to the Dean of the COA. Web site address www.acprog.flas.ufl.edu.

An earned doctorate in agriculture, food, natural resources or closely related disciplines is required. Candidates must be qualified to serve in the position at the rank of full professor with significant experience and demonstrated excellence in instruction and advising and experience in course and curriculum development. Excellence in written and oral communications skills is essential. Ability to work with administrators, faculty, and students is required.

Applications including a letter of application, curriculum vitae and letters sent directly from four references must be received no later than March 15, 1999. These should be addressed to Dr. Wayne Smith, Search Committee Chair, P.O. Box 110410, Gainesville, FL 32611-0410.

The University of Florida is an Equal AA/EE Employer.

UNIVERSITY OF TEXAS MEDICAL BRANCH AT GALVESTON
NEW VISITING SCHOLARS PROGRAM

The Institute for the Medical Humanities at the University of Texas Medical Branch at Galveston invites applications for its 1999-2000 Visiting Scholars Program.

Endowed in 1998 by the Sealy & Smith Foundation and the National Endowment for the Humanities, the visiting scholars program will bring to the institute creatively selected humanities scholars with terminal degrees in their disciplines to engage in programs of study and teaching. The term 'humanities' includes but is not limited to the study of the following: ethics, history, literature, language, law, literature, music, philosophy, religion, art, and social sciences which have humanistic concerns and employ humanistic methods. We encourage diverse cultural perspectives. Each year the program will focus on a theme. We have tried this years theme 'Nearing the End of Life. Sample projects might include literary and Religious views of Dying, Historical and Cultural perspectives on Death and End of Life in the Arts.

Visiting Scholars will be selected on the basis of the significance of proposed projects and their relevance to the program's announced theme. The strength of the proposers' prior work in the area of the period of residency, and the likelihood that projects will enhance the institute's teaching and research programs and contribute to the visiting scholars' future teaching and writing. We are seeking scholars from all disciplines at all levels of experience. Graduate students are not eligible.

Visitors are expected to carry out their proposed research, curriculum development at the Institute and participate in its multidisciplinary program colloquia. For financial assistance, may range from $2000 to $20000, and depend upon the length of stay. Stipends and travel subsidies are not available.

To apply, please submit a letter describing your interests in this opportunity, your plans for the period of residency, your work experience, and one or two letters of reference to: Mary G. Winkler, Ph.D., Director, Sealy & Smith/National Endowment for the Humanities Visiting Scholars Program; Institute for the Medical Humanities; University of Texas Medical Branch at Galveston; 301 University Blvd., Galveston, Texas 77555-1311.

Applications for the period September 1, 1999 through August 31, 2000 are due by March 1, 1999.

Applications may be made at the following address: 402-777-3124 or 403-777-3130.

The Institute is located at: 301 University Blvd., Galveston, Texas 77550.

EASTERN WASHINGTON UNIVERSITY

Assistant Professor
Tenure Track, 8,000 Student Enrollment

The School of Social Work and Human Services at Eastern Washington University, outside of Spokane, invites applications for a tenure track, Assistant Professor, faculty position beginning in the fall quarter of 1999. The successful candidate will be committed to a generalist/advanced generalist orientation to social work education, and to teaching in the BASW and MSW programs, both on and off-campus. Substantive areas of expertise can include: public child welfare, health, public mental health, aging, and substance abuse with expertise in practice, human behavior, research, or policy. Formal review of applications will begin on March 1, 1999 and will continue until the position is filled. Send a detailed curriculum vita, three references, in your letter of application to: Diane Davis, Acting Chair of Faculty Affairs, Social Work, Eastern Washington University, Cheney, Washington, 99004-9975.

The school is committed to preparing social work professionals for practice with diverse populations in the public sector or in those private agencies which meet the needs of oppressed and disadvantaged populations. Students are provided with the necessary values, knowledge and skills to practice within a rural/regional/small urban service delivery systems environment. The school offers full time BASW and MSW programs on the university’s main campus in Cheney, as well as structured part-time MSW programs in Spokane, Yakima Valley, and Everett, with a total enrollment of 350 students and 31 faculty members.

Minimum requirements for this position include a Ph.D., or degree completion by September of 1999. An MSW with two years of post-masters experience is preferred.

Eastern Washington University is a public comprehensive university serving eastern Washington. Established in 1892, the university has a dual campus setting that provides the opportunity to tailor its baccalaureate and master’s programs to maximize advantages of its rural environment in Cheney with the urban opportunities of Spokane. The population of the greater metropolitan area is approximately 500,000. The area provides a wide variety of recreational, cultural, and living opportunities. The university currently enrolls about 8,000 students, of whom about 10% are graduate students.

I PUNTO FINAL!

LATINO STEREOTYPING:
THE CONTINUING DISGRACE
OF OUR NATION'S SCHOOL BOOKS

The only thing God didn't do to Job was give him a computer.—I.F. Stone

My interest in textbook has begun when I was teaching 11th grade American History in Dade County, Fla., in the mid-1980s. Seemingly out of the blue, a young man in my class raised his hand and asked, “Ms. Cruz, what does ‘maul mean?’” I hesitantly answered, “Well, the word tends to be applied to very strong animals like bears and tigers—as in: the bear mauled its prey.” “That’s what I thought,” the 16-year-old said simply. “I guess the Mexicans were pretzels.”

Dumbfounded, I asked my student to explain. It seemed that the previous night’s textbook reading assignment on the Mexican-American War stated, “the Americans were badly mauled.” But just a few lines down (and a few battles later) “American operations in the Southwest were highly successful”—sanitized and dehumanized.

I seized the opportunity for an impromptu discussion on the importance of critical reading and analysis that, following the incident, became a running theme in our class. That year, close reading of our state-adopted textbook revealed many more and worse instances of bias and stereotyping.

Fifteen years later, I wish I could report that today’s textbooks have eliminated these types of egregious mistakes. To be sure, some textbooks are better than others, and current texts at least pay the requisite lip service to “multiculturalism” — which all too often has become a facile buzz word. Minorities are supposed to be placed by separate sections and sidebars highlighting their group’s contributions (message: your history is peripheral to the real, main story), token illustrations and photographs (still only 3 to 4 percent of the total visuals), and ancillary materials supplementing the text (which most teachers never have the opportunity to get, given the already full curriculum).

But what is truly galling is how the loaded verbiage, negative stereotyping, and gross inaccuracies continue. Latinos and Latin Americans are often portrayed as alternately passive, violent, lawless, corrupt, and licentious. One 1998 history text passage on the Spanish-American War dismisses the Cuban insurgents as “hardly more than a few fugitive leaders” (earlier editions concluded the sentence with the phrase “under palm trees”). The same book calls many of the Mexican soldiers in the Mexican-American War “ragged ex-convicts.” Another proclaims the Mexicans as “anxious for war.” In another respected text, Puerto Rico is called “the last crumb of Spain’s once magnificent empire,” but notes that “it was to prove a difficult morsel for Uncle Sam to digest.” My files bulge from the number of blatant inaccuracies and distortions collected over the years.

For many students, the social studies textbook is often the first formal, systematic exposure they receive about other cultures and their own history. The textbook continues to be the primary teaching tool in the classroom, consulted more often than even the classroom teacher. In fact, several educators contend that the textbook is the “major conveyor” of the curriculum — a frightening prospect considering that many students do not have the sophisticated analytical skills needed in order to dissect and unpack biased passages. In all too many classrooms, the course textbook winds up controlling the teacher and undermining what the students study. It is chilling to contemplate the implications for children’s evolving social constructs about the world and about themselves.

Book publishers are at least honest about their mission: the profit motive is what fuels their business. In 1996, K-12 textbook sales amounted to $35 billion. The publishers prove their culpability; they maintain that they produce what the market demands. In her systematic study, A Conspiracy of Good Intentions: America’s Textbook Fiasco, Harriet Tyson-Berstein quotes one textbook executive: “If the customer wants a pink stretch Cadillac, I may think it’s tacky and wasteful, but I would be a fool to produce a fuel-efficient black compact if nobody is going to buy it.” This means that publishers can become sensitive to demands of equal and accurate—but only if educators, parents, and community organizations systematically convey those demands. Those who have an interest in providing our children fair, accurate and balanced educations must make it clear that the sensitive and factual portrayal of Latinos and Latin Americans—indeed, all peoples—is an educational imperative.

Strapped education budgets mean that hundreds of school districts nationwide face critical textbook shortages. In many schools, that shortage means children cannot take their textbooks home. Inadequate parents and educators are demanding that their states find ways to provide a book for each child. I say: As long as school textbooks continue to perpetuate minority stereotypes and impart misinformation, they can keep their books. I would rather spend our precious educational resources elsewhere.

iPunto Final!
Empowerment of Hispanics by Kathleen de la Peña Matcha, director of the School of Library and Information Science, University of North Florida, Tampa.
College Opportunities for Everyone

BY GUSTAVO A. MELLANDER

"For the first time in the nation's history, the only prerequisite to college are preparation and desire. We have delivered on our promise to make 13th and 14th grades as accessible as high school is today." With those words, President Clinton proposed the largest investment in higher education in fifty years.

That's potentially good news for upwardly bound Hispanics since there is still considerable disparity among those who graduate from college in this country. Hispanics lag behind most ethnic groups, and thus any program that Hispanics can tap into is welcome. (Recent Washington, D.C. figures show that 24.6 percent of Anglos, 15.5 percent of Blacks, and 10.3 percent of Hispanics have bachelor's degrees.)

Clinton's proposals would distribute funding among seven programs. Some are new, some already exist and will be expanded further. Hispanics will be able to qualify for all of them.

1. Expanding Work-Study Opportunities

The Federal Work-Study Program has long offered undergraduate and graduate students part-time work to help meet their financial needs. A second benefit is that while providing them useful work experiences, their colleges or universities also are assisted. Nonprofit institutions in surrounding communities can host work-study students as well. In either case, the federal contribution is approximately 80 percent. The college or community agency has to pay only the remaining 20 percent of a student's salary.

The proposal would bring the number of work-study participants to just over one million during the 1999-2000 academic year.

2. The Hope Scholarship

It will make the first two years of college (or post-high school vocational training) truly available to all. As frequently noted by supporters of this relatively new program, attending the first two years of college is now as universally possible for all Americans as is going to high school.

Families are eligible for tax credits of up to $1,500 per student for tuition in a student's first year and another $1,500 in the second. The existing formulas favor low-income families. Some 5.8 million students are estimated to benefit annually.

3. Education IRAs

The new Education IRAs will allow families to deposit $500 per year in each of their children's names. Interest earned in these accounts is exempt from taxation if used for higher education. Further, taxpayers can withdraw funds from an existing regular IRA, without penalty for higher education expenses, their own or those of their spouse, child, or grandchild.

4. The Life-Time Learning Credit

This program is one of the few designed to help senior-level college and graduate students. The tax credit will help offset tuition costs for college juniors, seniors, graduate, and professional degree students. This program will be of considerable interest to many adults who wish to go back to school, change careers, or take courses to upgrade their skills since they also will be eligible for support.

Families receive a 20 percent tax credit for the first $5,000 of tuition and required fees paid each year through 2002, and for the first $10,000 thereafter. It is expected that 1 million students will benefit annually.

5. Pell Grants

For two years, Congress has adopted record increases in the maximum Pell Grant award. These are grants, not loans, and thus need not be paid back. Next year, nearly 4 million low- and moderate-income students will receive a Pell Grant of up to $5,000. That represents an increase of 30 percent over five years ago.

6. Student Loans

They will continue and will actually be easier for individuals to access. It is conservatively estimated that more than 5 million students and parents will take out $40 billion in federal-student-backed student loans this year.

Under student loan reforms enacted in the Administration's first year, the up-front fees on those loans have been cut by as much as half. Interest costs are lower, and students have more repayment options than ever before.

Those include the popular pay-as-you-earn (income contingent) repayment plan.

The program simplification pioneered by the Direct Loan Program has also spurred improvements to the government-guarantee system, improving all students' access to loans.

7. AmeriCorps

Clinton's domestic Peace Corps has provided students an opportunity to pay for college by doing community service. This year, nearly 50,000 young people will take advantage of the opportunity to perform community service, either on a full-time or part-time basis. Their service allows them to work in socially responsible positions while earning an award to pay for college or repay student loans. Participants in the AmeriCorps program earn education awards of up to $4,250 for each year of service.

For all these reasons, students—and not just youngsters—will be able to access a variety of higher education programs. Although not ethno-specific, Hispanics will find many opportunities to study, as will everyone else.

Ford Fellowships for Minorities

Major Role by National Research Council

By Amalia Duarte

Edwina Barvosa-Carter says two influences took her from an impoverished childhood in rural Oregon to her current position as an assistant professor at the University of California at Santa Barbara. Her hard-working parents and the Ford Foundation. "My parents were always incredibly supportive, even though they hadn't been able to go to college themselves. My father would always say, 'Don't let anyone tell you that you can't do something,'" recalled Barvosa-Carter. "But the Ford Foundation is what made it possible."

Barvosa-Carter graduated from Pomona College and was accepted by some of the nation's top law schools, including the University of California at Berkeley. But she wasn't entirely certain of pursuing a career as an attorney. "There were questions about social change and politics that I wanted to explore," she said. "But I didn't have the theoretical background." Alerted by someone on campus to the Ford Foundation Fellowships for Minority Predoctoral Students, she decided to apply. "I thought that if I could get support from the Ford Foundation, then I could do this," she said. "I wouldn't have been able to do graduate school otherwise. No question, Ford pushed me into academia."

The Foundation awarded Barvosa-Carter a three-year predoctoral fellowship in 1991 and allowed her to study abroad at the University of Cambridge in England. "I had been a Rhodes Scholar finalist and had been to Cambridge already," said Barvosa-Carter, who is of Mexican American descent.

"I felt that was the place where I could get the breadth and depth of study I was looking to achieve. They were great in letting me go overseas because you are supposed to stay in the United States." After earning a master's degree in contemporary theory and intellectual history, she returned to the United States to complete her Ph.D at Harvard. Again at Harvard, she credits the Ford Foundation program with helping her succeed. "There was a network of fellows at Harvard that helped ease the isolation and provided a social outlet," she said. "It was a nice cushion to fall back on."

In many ways, Barvosa-Carter's journey from poverty to a tenure-track position at a prestigious uni-

Excellence Through Diversity

Profiles of Forty-two Ford Foundation Fellows
versity exemplifies the goals of the Ford Foundation fellowships for minority scholars. The program seeks to increase the presence of underrepresented minorities on the nation's faculties by helping those who might otherwise not choose an academic career.

"For decades, the Ford Foundation has been working on increasing the number of faculty from traditionally underrepresented groups," said Dr. Thomas Rozzell, director of fellows at the National Research Council, which administers the programs for the foundation. "It's creating a ripple effect of putting faculty into place who then act as role models for others."

Indeed, the Ford Foundation has deep roots in helping minority scholars. Since the 1960s, the Foundation has funded many programs aimed at helping the careers of ethnically diverse scholars and promoting academic excellence. Then in 1972, the Foundation turned to the National Research Council to start the Postdoctoral Fellowships for Minorities.

The list of more than 500 faculty chosen over the past two decades for this highly competitive fellowship reads like an academic Who's Who. Among the group of Hispanic fellows are the prolific researcher and editor Dr. Nicolas Kanellos, who heads the publishing house Arte Público. Kanellos was able to complete his first book of historical research on Hispanic theater after receiving a fellowship in 1975.

Eugene García, a 1980 postdoctoral awardee, was a 1980 postdoctoral fellow. Cornell mathematics professor Carlos Castillo-Chávez, a 1987 postdoctoral fellow, was later a recipient of a coveted White House Presidential Faculty Fellowship, which gives a grant of $100,000 for four years of study.

Starting in 1986, the NRC began to manage the Ford Foundation's Predoctoral and Dissertation Fellowships, which focus on increasing minority faculty. More than 1,000 fellows have been picked for these highly prized awards. Together these three programs make the Ford Foundations the largest and longest private commitment to increasing faculty diversity. The latest crop of 31 fellows announced last fall was chosen from a pool of about 1,000 candidates. Three-year predoctoral fellowships went to 50 beginning graduate students, while 35 students writing their dissertations and 25 recent PhD recipients were selected for the one-year programs. This group includes 30 scholars working in the social sciences, 14 conducting research in the physical sciences, math or engineering, 36 in the humanities, 11 in the life sciences, 12 who are studying behavioral sciences, and 10 who are working on postdoctoral research in education.

Since inception, more than 1,500 fellowships in total have been awarded. The NRC accepts applications from any institution, including Puerto Rico, and Puerto Rican and African-American, Native American, Native Pacific Islander, or Macoronesian, and Puerto Rican African Americans make up some 50 percent of all fellows, while Mexican Americans constitute about one quarter of the awardees.

To boost applications from Puerto Rican scholars, last fall NRC Senior Program Assistant Jennifer Rodriguez made a tour of campuses on the island. Rodriguez, who has been with the NRC for four years, met with professors and administrators who showed interest in helping qualified students and faculty apply for the fellowships.

"We want to make sure that scholars in Puerto Rico are aware of the programs," said O'Brien. "I don't think anyone else but Jennifer could have made such an outreach trip."

The competition is tough when it comes to choosing the fellows. The National Research Council receives hundreds of applications from the sciences and humanities to review the hundreds of applications submitted for the predoctoral candidates. Applications include GRE scores, four letters of recommendation, a personal statement, and, of course, academic records to date. But the NRC, said that GRE scores are play a role in favor of other indicators of talent and ability, including grades and recommendations.

For the postdoctoral fellowships, applicants must present a plan of study or research and are encouraged to choose a fellowship institution other than their current one.

The sole selection is merit, said Rozzell. They're looking for
someone who is excited about their field of study. They want to see evidence of a spark that's really gone to take off. They want to see applicants who show a commitment to going into research and teaching. Reviewers might also be swayed by someone who is interested in giving back to the community.

Giving back to the community is a natural for the fellows, many of whom come from disadvantaged backgrounds and can appreciate the hardships of others. "Many of them are the first ones in their families to go to school," said Christine O'Brien, program supervisor. "They are carrying student loans and might have family members who need support. They don't have a family to back them up. Fellows have gone on to do everything from mentoring minority teens to tutoring and even going into city parks to discuss literature with mothers watching their children.

"There's a real strong feeling among the fellows that if someone has helped me along this academic path, I'm going to do the same," said O'Brien. Because oftentimes minority scholars are struggling without a financial safety net or have family obligations, the NRC allows for a certain amount of flexibility in meeting the program criteria. The predoctoral fellows, for example, are allowed two years off from the program.

One current recipient, David Cruz-Tribue, a mathematician at Trinity College in Hartford, Conn., is thankful for the NRC staff's understanding attitude. One of the requirements for the postdoctoral fellowships is to attend a new institution for the year. But Cruz-Tribue didn't want to uproot his five-year-old son, who has special needs and is starting kindergarten. "When I told them about it, they didn't raise any objections to my staying here at Trinity," said Cruz-Tribue. "This has allowed me to re-tool and focus on changing the direction of my research without the distraction of having to worry about looking for a teaching position. They were very supportive of my situation and my plans."

That kind of support from the NRC and Ford Foundation has engendered a great deal of commitment and involvement from the fellows long after they complete their programs.

Since 1982, the foundation has sponsored an annual conference to bring together the current fellows and previous recipients. They present their research, hear from keynote speakers, network with book and journal publishers, and collaborate with each other. Barrosa-Carter, who is co-chair of the conference planning committee this year, said: "It's a tremendous networking opportunity. You get the chance to meet with other minority scholars and with the senior scholars who come back every year. It's truly energizing."

That spirit of community among the fellows led them to start raising funds to add to the $6 million donated annually by the Ford Foundation. With matching funds from IBM Corp. and Hitachi, the fellows have raised enough of their own money over the past three years to give out an additional four dissertation fellowships. "It's pretty unique about this program," said Dr. Rozell. "But the fellows themselves are like a community."

In fact, they keep in touch not only via the conference, but also through a lively e-mail list serve. To facilitate communication among present and past fellows, the NRC has asked senior fellows who have tenure to act as mentors to new predoctoral fellows. "This way if a fellow has questions about grad school in general or university politics, for example, they'll have someone with more experience whom they can confide in," said O'Brien.

It's another resource for them to turn to. Currently, there are 11 Ford fellowship mentors across the country who are divided up by geographic region and given a small budget.

The success of the Ford fellowships is nearly undisputed. Some 90 percent of these minority Ford fellows go on to academic careers. "We see them as being role models for students who might be aspiring to a career in higher education," said Dr. Rozell. And no doubt, the fellows see themselves in that light as well.

In her first weeks at UC-Santa Barbara in Chicano/a studies, Barrosa-Carter reflected on how in her future academic career she might influence a student who is struggling with family and financial pressures at top of school. "I know because I've been there," she said. "I had a professor once say to me when I had to work full time and go to school. 'Well, why don't you just quit your job?' I hope that I can be supportive of someone who is struggling with that type of situation and help them get past whatever indifference they encounter. It makes me want to be in academia even more."

University of New Mexico Boasts Two Truman Scholars

Melendres and Montoya Garner Prestigious Awards

Manuel Montoya and Fred Melendres have been good friends for years.

The two New Mexico natives worked together at Boys State, a national youth group founded by the American Legion, where they shared a passion for politics and community service.

The students, who met while in high school, kept in touch although they lived in different parts of the state. Later, they were reunited at the University of New Mexico, where both received academic scholarships.

Now seniors at UNM, the pair share one more thing: they have been named Truman scholars, a highly competitive scholarship award that educators say is second only to the Rhodes Scholarship in prestige.

Last March, Montoya and Melendres were among the 56 students from around the nation to receive the honor, and the University of New Mexico was among the four academic institutions nationally that had more than one winner.

The competition was intense. In 1998, 676 candidates were nominated for the awards by 355 colleges and universities, including all of the Ivy League schools.

“We were really excited by this win, not only because it had been eight years since our students received this award, but also because we had two students win, which is fairly unusual,” said Diane Rawls, UNM’s Truman faculty representative.

“It is a wonderful honor for the school and is a recognition of the students’ accomplishments and mostly of their potential,” she said.

For Montoya, a 22-year-old economics and English major, the scholarship enables him to pursue a career in law. He hopes to open his own law firm specializing in civil rights litigation, and also do pro bono work for the underprivileged.

“I’m humbled by the award,” said Montoya, who one day hopes to sit on the U.S. Supreme Court.

“The scholarship doesn’t belong to just me. It belongs to all the people who have helped me.”

The young man, who hails from a small community in northern New Mexico, said the honor was even more special when he found out Melendres had also won.

“We grew up together and we both worked hard for this,” he said.

We helped each other out by practicing the interview portion of the application process. Fred gave me a lot of advice, and I did the same for him.”

The Truman Scholarship

Congress established the Harry S. Truman Scholarship Foundation in 1975 as the official federal memorial to our 33rd president. Each year, the Foundation awards $30,000 merit-based scholarships to about 75 to 80 college students who wish to attend graduate school in preparation for careers in government or elsewhere in the public sector.

Educators say the highly competitive scholarships offer funding and recognition to some of the country’s best and brightest students and future public servants.

“It takes a particular student to be nominated. That person has to have a history of public service, not to mention a strong academic average,” said Rawls, who is a member of UNM’s honors program faculty.

“These are outstanding young people who are committed to making a difference in the public, non-profit sector. To them, their career...
choices are not about making a lot of money.

Students are chosen by high academic achievement, past community work, leadership potential, communication skills, and future goals in public service.

Winners, who are named in their junior year, are able to use $3,000 of the scholarship toward their senior year of study. The remaining $27,000 must be used for graduate work.

Winners not only receive financial help but are also able to intern and find employment in government upon graduation. They also are required to spend a “Leadership Week” during the summer at William Jewell College in Liberty, Missouri, for study and discussion.

Former Truman scholars include George Stephanopoulos, a former advisor to President Clinton, and Wylda Marquez, who was recently confirmed as an Assistant US Secretary of Commerce.

The awards pay tribute to the former president’s commitment to public service and his interest in education, said Louis Blair, executive director of the Foundation.

“We have a population of stellar Hispanic students, and we encourage them to apply,” said Diane Rawls, UNM Truman faculty representative. Two of the three 1999 nominees, she said, are also Hispanic.

These Truman scholars collectively provide the most fitting monument to the president who claimed that he would much rather be an honorable public servant an known as such than be the richest man in the world,” said Blair.

Many Truman scholars, who are identified in late March, are later named Rhodes scholars, the most prestigious accolade in academia. Named after British philanthropist Cecil Rhodes, students receive scholarships to attend Oxford
University in England for two years.

"The reason many go on to win the Rhodes is because they look for the same criteria, like public service and outstanding leadership," said Rawls.

Montoya has in fact been named a Rhodes scholar, the first University of New Mexico student to receive the award in 20 years. He will begin his studies at Oxford in September.

"That was an even bigger shock than getting the Truman," he said of the Rhodes. "I feel a strong debt to many people, like former teachers, my friends, and, most of all, to my mother, who has done so much for me."

Montoya credits his family and community with helping him reach his academic potential.

"I come from a single-parent family, and we've gone through a lot of hard times, but we have also been blessed with a lot of support," he said.

Upon hearing that the Rhodes had been bestowed on her son, Montoya's mother was ecstatic, he said. "She never jumped on the couches before, but she did this time."

"One of the first people to congratulate him was his buddy, Melendres, who had also applied. Fred was one of the first to call. He was so thrilled for me," said Montoya. "People expect us to be competitive, but it's never been that way for us. We've always tried to help each other out. That is what makes us such good friends."

The two often collaborated during the intensive Truman application process, which educators say is both challenging and extremely demanding. The two would hold mock interviews to prepare for the real ones.

Each four-year institution can nominate up to four students. The amount of written work required is extensive. In addition to filling out an application form and getting letters of recommendation, students are asked to write a 500-word essay about themselves and a two-page policy analysis on a topic of their own.

"I've had students compare filling the application out to taking a three-credit course. It is that labor intensive," said Rawls. "It really is an agonizing application process. It takes a lot of writing and editing and research for the policy paper. There is a lot of hand-on mentoring and planning involved," she added. "The application cannot be completed in a few weeks. It can take months."

Montoya's winning policy paper focused on a comparison of course offerings in urban districts versus rural schools. He found there was a huge disparity in what was offered between the school systems, with urban districts traditionally offering more.

His paper also outlined a series of honors courses that he created for his former high school in Morra, a secluded rural community in northern New Mexico.

Montoya found that although many students in Morra High School go on to college, the small school—which has an enrollment of about 400 students—offered very few honors courses, for example, calculus.

"I wondered why the school didn't offer more honors courses. So I proposed a way for students to design courses they would be interested in and a way to fund these courses," he said.

Montoya said that it was important for the students to formulate the course offerings to ensure interest and participation. Although the high school has not yet begun offering the new courses, Montoya is hopeful that they will.

"I think it's a great idea, and more importantly, it can benefit many of the students," he said.

Educators say that despite the prestige and financial rewards of the program, many students are reluctant to apply because of the daunting application process.

Truman scholarship application materials, which are available on the internet, number at least a dozen pages. Once submitted, students want to hear if they are finalists, which enables them to have an interview.

Of the 600-900 students who apply annually, only 200 are named finalists. Twenty interview panels are held throughout the country. The often intimidating interview, which is held by four to six panel members and is limited to only 20 minutes, can become confrontational, with panel members questioning the students on their policy statements.

Despite the difficult application process, the University of New Mexico has nominated students religiously every year.

The university, which had single Truman winners in 1990 and 1991, has been successful in getting at least one student interviewed a year. In 1998, all four of UNM's nominees were selected for interviews.

"Our success is due to the strong candidates we have here," said Rawls. The university closely screens potential nominees, who are recruited by word of mouth and by ads placed in the college newspaper. Rawls said she also warns them ahead of time of the extensive application process.

Rawls said the fact that the 1998 winners were both Latino is due to the academic talents of the large Hispanic population at the university.

"We have a population of stellar Hispanic students, and we encourage them to apply," she said. Two of the three 1999 nominees, she said, are also Hispanic.

This year's crop of finalists will be named in mid-February. The scholarships will be named in late March.

More information on the Truman Scholarship Foundation can be found on the internet at <www.truman.gov>.

Upon hearing that the Rhodes had been bestowed on her son, Montoya's mother was ecstatic, he said. "She never jumped on the couches before, but she did this time."
This year we have confirmations from Gonzaga University, in the state of Washington; University of Iowa; Western Michigan University; Carleton College, in Minnesota; and universities from the East Coast, like Temple University, as well as our state and city colleges, like Rhode Island College; and the University of Puerto Rico.

ANTONIO APONTE
EXPO FOUNDER

On Saturday, April 17, a thousand or so Latino high school students will arrive at Pace University, across from City Hall in New York City, for several hours of intensive networking, counseling, and information gathering. They are young people from the city's five boroughs (Bronx, Brooklyn, Queens, Manhattan, and Staten Island), and, increasingly, from New York's neighboring Westchester and Rockland Counties, from Long Island, and from New Jersey.

The occasion is the Latino College Expo, brainchild of two young academics working in admissions, Antonio Aponte and Pedro González, who speculated that Latino youth aren't getting the information they need to plan for and enter the realm of higher education.

Even in its very first year, 1991, Latino College Expo was a hit, drawing 359 students to meet with representatives of public and private colleges and universities in the area. Attracting that number of young people to an optional event related wholly to education—on a Saturday—is an impressive accomplishment. And that was just the beginning.

Now in its ninth year, the college fair itself is only one facet of what has become a year-round roster of activities. A brunch preceding the Expo brings together leading Latinos from the worlds of education, business, and government. Keynote speakers at the brunch have included such heavy hitters as...
Herman Badillo, Josephine Nieves, and Ramón Cortines. Honors are bestowed for outstanding contributions to the educational advancement of the Latino community. Past honorees include luminaries such as NYC Board of Education Chancellor Joseph Fernández and Congressman José Serrano, as well as cutting-edge organizations—ASPIRA of NY, "I Have a Dream" Foundation, Henry Street Settlement, Causa María, East Harlem Tutorial Program, The Seteca Center, Alanzá Dominicana.

A Summer College Planning Institute answers questions on researching and choosing a college, writing a personal essay, applying for financial aid, and more, through an intensive day of workshops.

The newly-formed Latino Collegiate Society organizes visits to colleges and universities, SAT prep classes, and assistance with financial aid applications and scholarship searches, and stays in touch through a quarterly newsletter offering tips and contacts.

There is, too, an eight-week college-prep initiative offered in collaboration with the Angelo del Toro Puerto Rican/Hispanic Youth Leadership Institute.

Founders Aponte and González work with an advisors body of higher education and community agency representatives in planning the Expo for Latino youth, who constitute the largest minority group in the metro area. The Expo benefits, too, from individual and corporate sponsors, named on the Expo Website.

HO spoke with Antonio Aponte about the Expo and about his work with young people.

APONTE: I've seen it grow—seen the possibilities and the need for it. The Expo works! And it has been very well received. And it is a good program. Even if I weren't a part of it, it is just a good opportunity for Latino students to identify with themselves. The Latino College Expo attracts more than 100 colleges and more than 1,000 students and parents. The Expo's goal is to expose Latino students to as many in-state and out-of-state institutions of higher education as are interested in attracting qualified Latino youth.

HO: Access to a thousand or so prospective students seems enticing for a college recruiter, especially one interested in a diverse population. How far do colleges travel to attend your Expo?

APONTE: This year we have confirmations from Gonzaga University, in the state of Washington; University of Iowa; Western Michigan University; Carleton College, in Minnesota; and universities from the East Coast, like Temple University, as well as our state and city colleges, like Rhode Island College, and the University of Puerto Rico.

HO: Can colleges participate without attending? Send literature? Buy or otherwise obtain a list of students attending?

APONTE: At this point, only colleges that attend will be represented and allowed to distribute their information. We set up a pretty intensive resource table that will have publications that cater to students pursuing a postsecondary degree—College Board publications, college guides in Spanish, Hispanic business magazines, financial aid information, and scholarship search information. We also raffle off promotional items that the col...
leges donate T-shirts and such. This makes it a little more attractive—it's all marketing. If the students think they might get a fun T-shirt, it brings them in. Then they will see all the other resources.

We do provide a list of students who attend, and this list will be sent to registered colleges so that they can do further outreach. In the future, we might investigate other possibilities, but that is not our focus. We feel obligated to assist as much as possible—the colleges that attend and support the Expo in order to develop a network for possible student referral and advocacy. People interested in our other programs, such as the Summer College Planning Institute and the Latino Collegiate Society, can contact us at our Web site at <www.LatinoCollegeExpo.org>. Remember that the best place to start is by attending the Expo, but the Web site is useful for those who can't make it.

HO: Have you given any thought to trying to get this Latino College Expo replicated in other parts of the country, or elsewhere in New York State, either under your aegis or not?

APONTE: At this point, New York City is the home of the Expo. There are discussions about bringing our resources and activities to other cities in the East Coast region. But New York is our base.

We just started the Latino Collegiate Society. Kids have to have at least a 75 average. Some of them have 85s, 90s, and some are in the 70s. They get four newsletters throughout the year. We'll do various workshops on Saturday once a month—four or five throughout the year. The last one was on the Internet—how to search for schools—all the opportunities. We're going to repeat that workshop. Little girls know more about computer literacy—<mybarbie.com>. My daughter has already started. We've collaborated with some other organizations for our workshops, with other traveling shows.

HO: If college admissions offices could change ONE THING that would benefit Hispanic students, what would it be?

APONTE: Colleges need to be more sensitive and aggressive in their efforts. The Latino population in the age group of 11 to 17 will constitute one out of four students on the East Coast. This is the population that will be applying to college. Colleges and universities need to take a holistic and comprehensive approach and begin to offer their information and opportunities for exposure at an earlier stage—4th grade to 8th grade. They need to participate in parent forums and explain the process to the parents, who are very influential in a child's educational decision-making. The Latino College Expo was created with this awareness in mind, and colleges who would like to get involved and participate in our activities or would like our assistance in developing a plan of action in their community, or targeted area of recruitment, should contact our Web site.

HO: You work hard year-round on this project. What's it like for you on the actual day of the Expo?

APONTE: It is a great feeling. But nerve-wracking. That day I'm running.

HO: What about all the day-of arrangements—tables, chairs, food, clean-up?

APONTE: We contract through Pace University. That's the location of the fair, and we use a lot of their services.

HO: How many people work on the Expo?

APONTE: Six or seven. Basically this is something Pedro and I do. Now he is in California, but he's the editor for the newsletter. A couple of individuals help us. We get a lot of mailings for it, and they definitely bring in high school students to help us chaperon, and help the college reps get settled. An old college buddy helped design the Web site and went beyond what I had asked for. Our budget is small every year, but large in terms of our needs. About $10,000. The kickoff brunch, the renting of the space, printing flyers, keeping up the Internet site, the newsletter.

HO: Could you tell me something about your own background? You've been an actor. I hear you appeared in a bit show on Broadway with Robert DeNiro.

APONTE: I'm a Puerto Rican. A New Yorker, born and raised. As an actor, I wanted to be on Broadway, and I reached a certain level there. I use it in my training work in the interview situations. I still have close ties with my actor friends. They're going to assist me in one area—will the young students who want careers in the arts, helping them with their auditions and with portfolio preparation.
HO: As someone who works creatively with young people, could you name some ways in which we influence “dream development” in the young? Little ways or big ones?

APONTE: Opportunity to access information. Positive reinforcement. Bilingual dissemination of information, especially for parents. Early awareness initiatives. Volunteering to go back into the community and deliver the message that is our motto—“Education is the key to the future.” These are the ways to keep the dream alive, to plant the seed to grow, to keep the fire and the drive burning, and to support parents so they can become partners in the college process.

HO: As someone new to college teaching, I’ve noticed how shocked and delighted students seem when I praise some element of their work. As though they rarely get any praise. Whatever happened to positive reinforcement?

APONTE: Positive reinforcement is crucial in a child’s development. It is crucial in an adult’s development. We need to go back into our memory banks and remember how “positive reinforcement” or lack of it has affected us in our lives. Maybe then we can begin to bring it back into our daily routine. I was very fortunate, as was my co-founder, to have had positive reinforcement and opportunities. It takes time to realize the effect it might have, but it will surface at some time and have a direct influence on your way of thinking. If it wasn’t for my parents, the Boy’s Club of New York, and close and honest friends, I would not have created this Latino College Expo or realized that it is needed and it is crucial....

HO: So what’s your next dream?

APONTE: My dream is to create a center where primarily Latino students—and all students—can come in by themselves, or with their parents, teachers, friends, and access all the opportunities and information that will increase their chances of moving forward—in New York City and other cities heavily populated with Latinos. To sit down with students and parents at all ages and develop an academic and financial plan to be competitive in their future, and institute change, and pass the baton to the next person.

To supply students and parents with the resources to be the best and be able to fight on equal ground. I think in athletic terms, and feel that training, preparation, practice, and teamwork will equal success. And when given the opportunities, you will be ready and prepared to shine! It’s like being an understudy. Your day will come, but you have to be ready. This is my approach. And the approach of the Latino College Expo, Inc.

To register, call (212) 360-1323 and ask for Ms. Carolina Jaramillo-Osorio, or e-mail your name and address to LatinoExpo@aol.com

ABOUT THE FOUNDERS

Antonio Aponte, born on New York’s Lower East Side to parents from Vega Baja and Dorado, Puerto Rico, attended Moses Brown Prep School in Providence, R.I., through a Boy’s Club of NY and the A Better Chance program. He graduated from Syracuse University with a B.S. in Theater/Psychology and is pursuing a master’s degree in nonprofit management. In 1988, he left theater to become the assistant director of Multicultural Recruitment and Retention at SUNY-Purchase College, where he created the Multicultural Access Program (MAP). During his tenure, minority enrollment increased from 14.4 percent to 22.7 percent. He was also an adjunct faculty member in the Drama Studies program and an advisor to various student organizations, administered the Empire Minority Scholarship, and assisted in the selection of students for the Melville Scholars program.

Aponte is presently Director of College Placement at Project Reach Youth in Brooklyn, NY. His professional affiliations include: the College Access Consortium of NY, the Boy’s Club of NY Alumni Assn., The Angelo del Toro Puerto Rican Hispanic Youth Leadership Institute, ASPIRA, Inc., and other citywide initiatives.

Pedro González, born in NYC to parents from Isabela, Puerto Rico, graduated from Wurzburg American H.S. in Wurzburg, Germany, and earned a bachelor’s degree in sociology from SUNY-New Paltz in 1987. He also earned a master’s in urban policy from the Milano Graduate School of the New School in NYC.

An admissions professional through his 11 years in academia, he worked at La Guardia Community College and Eugene Lang College, and at Milano Graduate School, where he set up an AmeriCorps program for the “I Have a Dream” Foundation. As assistant dean at SUNY-Stony Brook, he administered a prestigious fellowship for underrepresented students, and at the San Jose State University in San Jose, Calif., he worked as director of student outreach and recruitment. Currently González works as an education consultant and resides in San Jose, Calif., where he is a member of the city’s Human Rights Commission.
Texas A&M University

Enrollment 43,000...and Growing

BY ROGER DEITZ

Howdy! That's the official greeting of Texas A&M University, known the world over as a friendly place where visitors are welcomed with a hearty “howdy,” the down-home, sincere form of hello. While on campus, you might also notice students gesturing to one another with the thumbs-up sign of approval, accompanied by a “Gig ‘em,”—which is another Aggie tradition of encouragement that means, “go out and do your best.”

A wealth of tradition and the legacy of “giving it one’s all” are deeply woven into the fabric of Texas.....A University life. Another thing one might notice about the campus is its diversity. Among the school’s notable “Top 10” distinctions is a consistent high ranking among public universities in Texas in retention rates, keeping students enrolled and on course until graduation. In this category, the school is ranked first—for overall student body, and for minorities, both African American and Hispanic. The institution also ranks among the leaders nationally for the number of doctoral degrees awarded to minority students.

To keep this pipeline active, Texas A&M has established a network of University Outreach Centers in cooperation with the University of Texas at Austin. The Centers, located in Dallas/Fort Worth, Houston, San Antonio, Corpus Christi, Austin, and the Rio Grande Valley, encourage and help minority students in public schools to plan to attend college.

Not a bad distinction for a university with a record Fall 1998 enrollment of 43,389! This number includes the largest first-year class in the nation—7,355 students. The total enrollment is expected to rank Texas A&M among the five largest universities in the U.S. African American and Hispanic students account for approximately 12 percent of total enrollment. So, howdy! We welcome Texas A&M to the Hispanic Outlook Honor Roll.

with a thumbs up for excellence.

Vision 2020 is expected to raise the bar even higher. The effort is a commitment to propel Texas A&M University into the ranks of the top 10 public universities nationally by the year 2020. Texas A&M President Ray Bowen says, "Texas A&M is at an important juncture in our evolution as a university. What must we do to take the quality of the university to a higher level? Vision 2020 is a project that endeavors to find the answers to that question and place Texas A&M among the top ten universities nationwide as the best."

Texas A&M's strengths and opportunities will be assessed in at least a dozen or so key areas. They include faculty, research and infrastructure, graduate studies, undergraduate academics, undergraduate environment and experience, library, basic arts and sciences, demographics, locale, leadership, governance and organization, service to the state, and resources. The effort actively involves more than 200 faculty, staff, students, alumni, and other Texas A&M supporters. President Bowen notes, with equal representation from within and outside the university. The first phase was formally launched last June with a series of campus sessions focusing on assessments and aspirations.

Texas A&M has a long history of service. It is the state's first public institution of higher education. The school was opened on October 4, 1876, as the Agricultural and Mechanical College of Texas, owing its
Texas A&M has established a network of University Outreach Centers in cooperation with the University of Texas at Austin. The Centers, located in Dallas/Fort Worth, Houston, San Antonio, Corpus Christi, Austin, and the Rio Grande Valley, encourage and help minority students in public schools to plan to attend college.

origin to the Morrill Act of 1862, which established the nation's landgrant college system. In 1963, the name of the institution was changed to Texas A&M University to more accurately reflect its expanding role as a leader in teaching, research, and public service for the state, nation, and world. The initials "A" and "M" are a link to the university's past. They no longer represent any specific words, as the school's curriculum has grown to include not only agriculture and engineering but also architecture, business, education, geosciences, liberal arts, medicine, science, and veterinary medicine.

Texas A&M University now has a physical plant valued at more than $1 billion. The main campus at College Station includes more than 5,200 acres and is one of the largest campuses of any institution of higher education in the nation.

More students are attending Texas A&M than at any time in the university's 122-year history. Heavy first-year and transfer student enrollment, coupled with an excellent retention rate, have pushed attendance to 43,399 on the College Station campus, an increase of more than 5 percent over last year. The previous high-enrollment mark was 42,524 in 1993. New first-year student enrollment this academic year exceeds last year's by more than a thousand. Among minority enrollments, Texas A&M registered 197 African American first-year students last fall compared with 178 a year ago, and 669 new Hispanic students, up from 507 last year.

Texas A&M officials note that the figures are still below the peak of 290 African American students enrolled in 1994 and 891 Hispanic students enrolled in 1995—before the federal court's Hopwood decision barred race-related admissions and financial aid.

Higher registrations of minority students are welcome. Texas A&M Texas Education Project pinpointed school districts that have made significant strides in improving the performance of Latino students on the TAAS exam.

"By identifying exemplary districts, we hope to provide the public and policy-makers with information that will inform future policy-making efforts aimed at improving Latino education in Texas," adds John Bohle of Texas A&M's Political Science Department and research director of the Texas Educational Excellence Project. The study analyzed multi-ethnic school districts with 1,000 students overall. A total of 262 districts formed the pool for the analysis.

"Our study finds several school districts that have exemplary records in educating Latino students. These schools are those that are performing well above expectations," observes Bohle. "Schools such as these should be used as examples by other educators to facilitate improvement in Latino education in Texas."
Mexican Border Residents Attending UTEP

Controversial but Effective Program

By Inés Pinto Alicea

Mario Francisco Borunda dreamed about attending his father's alma mater, the University of Texas at El Paso, when he went to college, but he didn't think it would be possible because the out-of-state fees were prohibitive for him and his family, who live in Juárez, Mexico, just a 10-minute drive from his dream.

Then the 19-year-old heard about the Texas Border County Program, created by the Texas Legislature, allows academically qualified Mexican citizens with demonstrated financial need to attend any of six Texas institutions located along the U.S.-Mexico border and pay tuition at the in-state rate. El Paso has, by far, the largest Mexican student enrollment of the six. Nearly 95 percent of the Mexican students attending UTEP qualify for the program, said Christina Bernal, who serves as the advisor to the Mexican students and heads PASE, the Programa de Asistencia Estudiantil, or student assistance program.

"I wouldn't have been able to come here without PASE," said Borunda, who is currently studying physics at UTEP. "The experience is great because you can learn another language. If you graduate from UTEP and go to work in Juárez, you will get paid more than if you graduated from a university in Juárez."

Jorge López, a native of Mexico who received his bachelor's and master's degrees at the university before PASE was created and who now teaches in the physics department, praises the program, saying that it teaches students from both sides of the border "other ways of doing things."

"PASE provides a close-up view of a different culture," López said.

Richard Padilla, vice president for student affairs at UTEP, said confidence in the program continues to grow. In recent years, the legislature has expanded the program to include more students and other Texas institutions. Border universities in Arizona and New Mexico have similar programs or are launching them.

"Even though there is a geographical boundary that separates us, we are interdependent, and these types of programs are beneficial to the geographical region," said Padilla. "The students participate in the program some of the most dedicated appreciative students you meet."

Last year, UTEP enrolled a 1,500 Mexican citizens, more than any other higher education institution outside Mexico. About 84 percent of all Mexican students studying in the United States attend UTEP while 1997 had a student population of 15,175. The other five institutions participating in the Texas Border County Program—the University at Brownsville, the University of Texas Pan American, Sul Ross State, Texas A&M International University, and Texas University in Kingsville—while about two hours from the border—enroll a combined total of nearly 600 Mexican students.

Jane Caldwell, director of special programs at the higher Education Coordinating Board, Caldwell said the waivered tuition for Mexican citizens cost Texas $9 million last year.

"Anything we can do to equalize the educational levels of Juárez, Mexico, and El Paso is beneficial to everyone," said Richard Adauto, assistant UTEP President Natalicio. "The program has been very successful.

Mexican students have part of UTEP's history. The Mexican to attend the university in its first class in
when it was known as the Texas School of Mines and Metallurgy. And Spanish is so common on the campus that new professors are asked to learn Spanish and are given a pronunciation guide to Hispanic surnames. UTEP president Natalicio also delivers her annual address to the university in both English and Spanish. UTEP itself is considered a Hispanic-Serving Institution because of its large Latino population. More than 66 percent of the students are Latino.

The Texas Border County Program was launched in 1986 after the Texas Legislature approved the program to make an education in the United States more affordable for Mexicans and to help stabilize enrollments at border universities. Natalicio, then vice president for student affairs at UTEP, joined other university officials in urging lawmakers to address a problem: Mexican students were leaving school prior to getting a degree because they could not afford Texas universities, particularly when the Mexican peso experienced a devaluation or the universities increased tuition. In the early 1980s, when both conditions prevailed, devaluation AND tuition increases, about two-thirds of the Mexicans at the university dropped out.

Some 6,500 Mexicans have studied at UTEP under the program, and 90 percent of them have completed degrees. The program has helped the students and the university weather recent peso devaluations. Few are now forced to drop out for financial reasons.

PASE helps bring in revenue because it helps with enrollment," said Bernal. "International student enrollment rarely decreases. PASE helps keep a steady stream of Mexican students coming to the university. About 90 percent of the PASE students wouldn't be here without the program. They have no other option to study in the U.S. unless their parents are wealthy."

Bernal adds that the Mexican students' time in a U.S. university can have a positive impact over the years because many of them return to Mexico, get jobs, and help improve the economic situation in Mexico, which, in the long run, improves U.S.-Mexico relations.

"You have to remember, we are educating them in the way we do business," said Bernal, adding that the U.S. students also benefit because they learn about an entirely different culture, lifestyle, and approach to completing projects.

But the program has not been embraced by all. Some question subsidizing an education for foreign students instead of providing the funds for U.S. citizens.

"This is cheating our own young Texans," said an editorial in the now-defunct Houston Post. "For what it gave these southern neighbors, Texas could have given a year's free tuition to 6,296 homegrown college students."

But Silvvia Rodriguez, dean of enrollment services, argues that the program is not an act of charity because the students still must pay tuition, books, and other fees related to attending the university.

"We're not giving them anything for free," Rodriguez said.

Most of the Mexican students who participate in the program come from Juarez, Mexico's sixth largest city, population more than one million. Due to immigration laws, students in PASE who commute from Juarez while attending the university must prove that they have $540 for a year of study at UTEP. And most of those who opt not to cross the international bridges daily because of the lengthy waiting times, sometimes up to two hours, must prove they have $8,926 to cover living expenses and tuition for the year, said Bernal. Still, the program provides a significant savings for financially needy Mexican students who are eligible. If they were to pay out-of-state tuition and living expenses, they would have to show that they had $15,346 to cover their costs.

Caldwell said that while some critics have said the program is unfair because it gives the Mexican students a tuition break not given to students in all other states with

Answering the Call

Edinboro’s Blueprint for Hispanic Recruitment

by Jerry Kiel, Ph.D., and Denise L. Ohler, Ed.D.

In its September 1996 report, Our Nation on the Fault Line: Hispanic American Education, the President's Advisory Commission on Educational Excellence for Hispanic Americans indicated that the educational progress of Hispanic Americans remains behind that of nearly all other societal groups.

Hispanic American students, generally have less access to high-quality pre-school programs, are segregated in “resource poor” schools, drop out of the educational system earlier and at higher rates than do other groups, and are failing to complete bachelor's degrees in numbers commensurate with the numbers enrolled in postsecondary programs. The Commission also said that ways must be found to get more Hispanic students to progress on to higher education.

In addressing these problems, the Commission stated that the nation must focus on finding ways to decrease attrition at both the secondary and post-secondary levels, provide enhanced preschool and elementary opportunities for youth, and establish more linkages between schools, business, and social agencies to create additional career pathway opportunities for Hispanic youths. Without such activities taking place, the current crisis situation is likely to intensify.

Edinboro University of Pennsylvania, the only public higher education institution in the northwestern region of the state, recognized the urgency of the issues and desire to increase its Hispanic enrollment. In the 1996 fall semester, it enrolled 46 Hispanic students, representing only .006 percent of total enrollment. Given the growing population base of 10,000 Hispanics in Erie County, where Edinboro is located, the institution believed that it could encourage more applications from this population by establishing an effective summer bridge program. Edinboro University had experienced success with other bridge programs of longer duration for disadvantaged students, but hoped that this one would be more intensive and family-oriented.

In keeping with imperatives...
Origin of the Proposal

Each year, the Pennsylvania State System of Higher Education helps support a statewide congress of Latino/Hispanic youth. Several years ago when the event was held in Erie, members of the chancellor's staff who attended came away deeply impressed with the individuals and the interest in higher education they had encountered. They subsequently mentioned to senior officers that Edinboro might be able to play a pivotal role in attracting Latino/Hispanic youth from around the state. The proposal was developed to begin that task of building a larger cohort of Hispanic/Latino young people on the Edinboro campus.

Goals and Objectives

Dr. Jerry Kiel, associate vice president for enrollment management and retention, and Dr. Denise Ohler, associate dean for Enrollment Management and Retention and also director of Career Services, were especially interested in creating this program, both to enhance the diversity of Edinboro's student population and to make the option of higher education a realistic possibility for Latino youth. "Edinboro University provides a close-knit, family-oriented environment," said Kiel. "As such, we feel it is the perfect place to serve as the focal point for the development of the Latino youth in northwestern Pennsylvania and, indeed, throughout the Commonwealth."

The university received a Special Projects appropriation from the Pennsylvania State System of Higher Education for fiscal year 1998-2000 to accomplish the goals below.

The Latino Leadership Development Program addresses Edinboro University priorities of developing mechanisms to enhance enrollment, enhancing diversity, and enhancing technology.

Program objectives stemming from these goals are:

A. To develop a week-long summer residential program on the Edinboro University campus for Hispanic youth who are going to be 10th and 11th graders, focused on increasing academic competencies, leadership skills, a positive self-image, and professional career awareness.

B. To provide opportunities, including use of technology, to enable 12th grade students to take college courses for credit, thus instilling in them the belief that they can succeed in college.

C. To develop a program in which current Edinboro students and Hispanic students involved in the summer programs provide tutoring to elementary and middle school students, helping the children strive for excellence and progress toward attaining college.

Project Description

The program thus involves three major components: a week-long residential program, enrollment in summer credit-bearing classes, and a youth tutoring program in Erie during the academic year. It was expected that 20 Latino young people would participate in each cohort group so that when the program is in full operation after three years, approximately 60 participants will be involved.

First and Second Summers Component

The summer residential program for rising 10th and 11th graders builds leadership skills, provides information to participants and their families about higher education in general and Edinboro University in particular, and trains participants to capably tutor younger students. Since Edinboro and higher education are likely to be new and alien experiences for many of the program participants and their families, and since the program's success depends on family support, several activities include the families of those entering the program. Given the central place of the family in the Hispanic culture, this is most appropriate.

The 1998 Summer Latino Leadership Development Program
was held in June. Participants were selected with the help of the Hispanic-American Council, the School District of the City of Erie, and the International Institute. The initial goal was to recruit 20 students. The program instead drew thirty. On hand to launch it were Edinboro President Dr. Frank G. Pogue; Erie District school board member Richard Hillyerski; and Mariza Robert, executive director of the Governor’s Commission on Latino Affairs, keynote speaker at the luncheon; and Wilfredo Velez, whose early input helped shape the program.

Components were:

- Welcome and orientation program for families (Latin music, a luncheon, and a tour of campus, including the residential facilities);
- Leadership skills training (public speaking, decision-making, writing skills enhancement, computer skills training, cross-cultural communications, goal-setting, development of listening skills, team-building, etc.);
- Individual and group career counseling;
- Activities designed to promote positive self-esteem;
- Training for civic responsibilities (health awareness, drug and alcohol awareness, community leadership, voting rights and responsibilities, mediation training, etc.);
- “Latinos Local Heroes” program in which successful professionals from the community spoke to the participants about their occupations, paths to success, etc.;
- Recreational activities on and off campus;
- Information for parents and students on planning for college: introduction to structure, purpose, and terminology of higher education; course work to take during high school to prepare for college; use of videos and/or speakers on topics such as the admissions process, financial aid, information literacy, career planning;
- Graduation ceremony for participants and families.

Student Response

Student evaluations were overwhelmingly positive. Most students recommended that the program be lengthened, and indicated that they will participate again next summer. The students also noted that they learned a lot about students throughout Latin America.

Evaluation of the students was positive, too, with Ohler noting, “These students have so much energy and enthusiasm for improving themselves that they have already become members of the Edinboro family.”

Community Tutoring Program

The city of Erie critically needed an after-school tutoring program for elementary school-aged Latino youth. One goal of the program, then, is to have program participants become community leaders by providing tutoring services to younger children. Current Edinboro students who are Latinos also are given the opportunity to be part of the tutoring program. These students are eager to become role models for their younger peers and to provide a better climate for pursuing postsecondary education than they themselves experienced. The tutoring, which takes place throughout the academic year, is expected to pay major dividends to all parties.

In the short term, the program should enhance the scholastic achievement rates of students who receive tutoring. In the longer term, these students should be better prepared and motivated to succeed in their secondary school programs of study, resulting in higher retention and college matriculation rates. Of great importance, the program will place Edinboro in a favorable position for making early contact with Hispanic students and families.

Expansion of the Program

Edinboro University received a State System of Higher Education Social Equity grant to recruit an additional 20 students for the 1999-2000 program.

“Since we had such success in recruiting the Latino high school students last summer, we are hopeful that the word has spread in the community about the value of the program,” said Dr. Ohler.

Expected Outcomes

Edinboro expects the program to increase the direct involvement of its own academic departments and faculty members in the recruitment and retention process and ultimately to increase the number of Hispanics in Erie attending college.

Its students will benefit from learning and working within a more representative group, gaining a greater respect for pluralism and diversity. With an expanded portfolio of outreach activities and materials, the university will improve and build its relationships with present and future prospective communities, encouraging and reinforcing its accessibility.

As for the future of the program, Edinboro University has determined that the program will stay alive even after grant funding has ended. Its Community Service programs will extend the special tutoring. Its Admissions and Enrollment Management & Retention Offices will maintain the outreach efforts and the relationships established with the Hispanic community. And the university will consider budget reallocation to these projects and will seek other funding sources.
Building Teacher Diversity in the Schools

Portland Program Changing Classrooms

By Susan Hereford

Reprinted with permission from Communi-Ties, a publication of Portland Community College.

Editor Susan Hereford

In Oscar Gilson's fifth grade classroom in North Portland, students inter-change the words maestro and teacher easily. Gilson speaks a sentence or two in Spanish, then embellishes in English. Words like Que mas Los Estados Unidos te gusta and, problema, are sprinkled throughout the afternoon lesson to his 19 students enrolled in one of just a handful of bilingual classrooms across Portland Public Schools' district. Half of his students are fluent in Spanish, half in English.

Teaching this way is second-nature for Gilson, who perfected English after moving to this country from Mexico when he was 15. Now 27 and fresh out of college, Oscar Gilson is a first-year teacher and graduate of a unique program between Portland Community College, Portland Public Schools, and Portland State University to put teachers of color in the classrooms. The Portland Teacher Program (PTP) celebrates its 10th anniversary this year, and in June will have graduated and placed approximately 50 teachers of color in Portland Public Schools.

According to PTP Director Deborah Cochran, whose office is on PCC's Cascade Campus, children of color comprise 54 percent of the enrollment in Portland Public Schools. Yet, the district's teaching workforce is 89 percent White. These figures mirror the lack of diversity nationwide. It is estimated that by the year 2020, children of color will make up 16 percent of elementary- and secondary school-age children, yet only about 10 percent of today's teachers come from African American, Native American, Hispanic, or Asian American groups.

"Look at the stats," says Cochran. "We are trying to create more equity and a better balance.... Students of color," she continues, "need to see people that look like they do [in front of the classroom]. It's role modeling success."

At the same time, she adds, "For a White kid to have a Latino teachers may make all the world of difference as they go out into the world. They see that there are many truths, many realities...."

In 1991, Gilson was out of the Navy, just 20 years old, and searching for a direction. "I was unsure about my life," he says. "I had spent three years in the Navy...One of my experiences I liked the best was to go to the orphanages and work..."
with kids.” The Navy sets up volunteering as an on-leave alternative to the typical bar hopping and partying.

Gilson took to it, and at the orphanage, got a glimpse into his future. He is now a teacher, where he wants to be.

“I love it,” exults the new Beach Elementary teacher, “Tomorrow is my first parent-teacher conference.”

Gilson spent three years studying at PCC. He then entered Portland State’s department of education, ultimately earning a master’s degree in education at PSU.

It was an uphill road all the way. Like most of the PTP students, he had to work to support himself while going to school. He rattles off the jobs: “I pumped gas. I washed cars. I worked at a fitness center. I did canning work.”

His first teaching put him at Portland’s front line of education reform. Beach Elementary is earnestly trying to pull up its students’ low state test scores following a reorganization one and one-half years ago that brought citywide attention to the school.

Of his class, Gilson confides, “They are behind,” then adds quickly, “but it’s a good class.” He wants them to catch up.

When Gilson began his studies, he wasn’t sure he was college material. “The GI Bill motivated me to try college,” he says, “PCC gave me the confidence to get through. There were smaller classes, nice teachers who care about students.”

Plus, with PCC’s lower tuition, the GI Bill money went further for living expenses. And his mother, also a PTP graduate who teaches at Lane Middle School, encouraged him to apply for the scholarship.

He became one of a cohort group that Cochrane refers to as a “grow your own” program that spans sixth grade through graduate school.

It is made up of several pieces:

- The Academy for Future Educators, sponsored by Portland Public Schools, each year helps 100 elementary and secondary students of color gain leadership skills and exposure to different aspects of the teaching profession.
- At Portland Community College and Portland State University, approximately 50 ethnic minority students who are committed to teaching and have demonstrated merit receive tuition waivers and special counseling and support services.
- Upon graduation from PSU, the students are given priority hiring status with Portland Public Schools where they make a two-year teaching commitment to the district.

Camille Brahm, another graduate of the program, is now in her second year at Humboldt Elementary in North Portland. She teaches a third and fourth grade blend and says she chose Humboldt school because, “As an African American woman, I wanted to work in my community and be a role model for the children. My first year I learned just as much as the kids. I learned what works, what didn’t. I made new friends. I changed lives.”

Of her own professional development, she is equally enthusiastic: “I feel liberated. I now have a career, not just a job.”

**Latino Youth Learn to Be Leaders**

Oregon’s Latino high school student dropout rate of 15 percent is more than twice the overall statewide rate of 6.7 percent, according to the state Department of Education. A number swells to more than 60 percent if one adds up the four years of high school. It means that fewer than four out of every 10 Latino youth entering Oregon’s high schools obtain their diploma.

PCC’s Rock Creek Campus has recently signed on to help Latino youth leadership skills and a support network, and ultimately to create more opportunities for continued education and fulfilling careers. PCC is partnering with the Oregon Council for Hispanic Advancement in a project called the Oregon Leadership Institute, which has operated the program at several sites throughout the state.

In a cooperative venture, up to 50 Latino youth from Washington County high schools are being targeted for leadership training sessions, set to begin in January and run one Saturday a month for six months at the Rock Creek Campus. The second part of the project identifies 20 Latino students from PCC to serve as mentors to the high school students. The college students enroll in a class at Rock Creek designed to teach mentorship skills.

Paul Halloran, enrollment advocate at the Rock Creek Campus, says, “The curriculum is developed with the students in mind, and in fact the students help develop some of the activities, which deal with real issues they are working on in their day-to-day lives. The students are active players in their education.”

This fall, Halloran contacted high schools throughout Washington County and mailed out application packets to students. He also promoted mentorship to PCC’s Latino students.

Ed Maldonado, principal at Woodburn High School, and a longtime participant in the Oregon Leadership Institute, sends 10 to 15 of his high school students through the training each year. He says, “It gives them an opportunity to be in a comfortable setting with other Hispanic students. The neat part about it is they get together with other high school students and meet other motivated kids who want to go on to college. The goal is to build confidence and self-esteem and to help them get where they want to go.”

Author Susan Heryford has a B.A. from Lewis and Clark College, a master’s in education from U of Oregon and began studies in the public administration masters at Portland State University this spring.
Roybal-Allard Chairing Congressional Hispanic Caucus

Congresswoman Lucille Roybal-Allard (D-Calif.) made history in November when she was elected chair of the Congressional Hispanic Caucus by acclamation. She is the first woman to chair the Caucus in its 22-year history.

Roybal-Allard said she is continuing to make this Congress understand that Latino issues are American issues. "In 20 years, Latinos will become the majority population in states such as California, New York, Texas, Illinois, and Florida. We must invest today to ensure that our children will be prepared to lead these states into prosperity," said Roybal-Allard.

The Congressional Hispanic Caucus is dedicated to improving the quality of life for Hispanic Americans through legislative initiatives and advocacy, and to the political empowerment of the Latino community.

Rivera Elected Board President

The San Joaquin Delta College (Calif.) Board of Trustees has elected Janet Rivera as its new board president.

Rivera was first elected to the board in 1994 and won a re-election bid last November. She was recently selected to participate in a focus group by the American Association of Community Colleges and the Association of Community College Trustees. Rivera was one of 26 community college trustees nationwide to be selected for participation.

In addition to Rivera's election, Elena Serna was named vice president of the board, and Leo Burke was named board clerk.

Lazo Promoting Diversity at ACCD

As a member of the Alamo Community College District (Texas) Board of Trustees, Vincent A. Lazaro—ever aware of the need for role models in the minority community—is trying to promote the message that many diverse groups have talent and a great deal to offer.

"We need to live up to the community college philosophy of open admissions and strive to provide educational attainment for minorities," says Lazaro. "We cannot afford to get caught up in the anti-affirmative action sentiment prevalent in other states. We need to ensure that we not doing anything to deny future generations opportunity."

Lazaro has served as general counsel for the Hispanic Association of Colleges and Universities (HACU) and has worked as an attorney for several civil rights organizations.

He holds advanced degrees from Yale University and Harvard Graduate School of Education, as well as law degrees from Columbia University School of Law and St. Mary's University School of Law.

Dearborn Named Executive Director of Latino USA

Kate Dearborn is the new executive director of Latino USA, the radio journal of news and culture produced as a partnership of the Center for Mexican American Studies and KUT-FM at The University of Texas-Austin.

Dearborn is responsible for the administration and management of Latino USA, as well as development and marketing efforts that will lead to diversifying its funding streams and building its audience.

"Latino USA is the nation's only English language weekly radio program covering news and culture from a Latino perspective.

"Latino USA provides award-winning, cutting-edge coverage of the largest growing sector of the U.S. population," said Dearborn. "Programs like Latino USA, which tell the American story, are imperative."

Garcia on N.Y. Teaching Board

Ofelia Garcia, dean of education at Long Island University (LIU)-Brooklyn, has been named to the newly formed New York State Professional Standards and Practices Board for Teaching.

"There is nothing more important than working to make sure New York school children receive the excellent education to which they are entitled," said Garcia. "The Board will do this by making recommendations that will raise the level of teacher preparedness and professionalism. I am eager to be a part of the process."

Since becoming dean of LIU-Brooklyn School of Education in Fall of 1997, Garcia has upgraded its curriculum. Under her guidance, the school has created new community programs that also serve as training ground for students. She has also created and edits a new semi-annual journal, Educators for Urban Minorities, due to debut this Spring.

Díaz-Piedra Tapped for National Accounting Council

Aida Díaz-Piedra, controller at the University of Miami (UM) in Florida, has been appointed to the National Association of College and University Business Officers. Diaz-Piedra will serve on the organization's Accounting Principles Council, the body that develops and advocates accounting regula
tions for the country's universities.

This appointment recognizes the respect that both Anda Diaz-Piedra and the university enjoy nationally in higher education financial management,” said David Lieberman, senior vice president for business and finance at UM.

Diaz-Piedra has been a UM employee for more than nine years.

**Treviño Promoting Bilingual Instruction**

Dovie Treviño, a professor of bilingual and multicultural education at Western Oregon University, recently gave a lecture entitled “Preparation of Bilingual/ESL Teachers as part the schools 1998-99 Philosophy Club Faculty Lecture Series.

Having grown up in an area of Texas that had once been Mexican territory, Treviño is a strong advocate for proper implementation and use of ESL and bilingual instruction, programs that didn’t exist for her. Said Treviño: “You hear people say, ‘ESL doesn’t work,’ bilingual education doesn’t work.’ Yes, it works. We’ve got research upon research...that [shows] the progress that students make when they are taught in an adequate way by trained people...The emphasis is on proper training.”

Treviño is a commissioner on Hispanic Affairs for the State of Oregon.

**Vásquez Named World Editor**

Veteran newsman Juan Vásquez has been named world editor of *The Miami Herald* (Fla.). He is in charge of national and foreign news.

An associate professor of journalism at Florida International University, Vásquez, since 1995, has edited *Miami News*, the authoritative newsletter published out of *The Herald*s international operation.

Vásquez has reported from a substantial number of Latin American countries and has won numerous awards, including the Maria Moors Cabot award, for outstanding coverage of Latin America; an Overseas Press Club award, for economic reporting; and an IAPA award, for coverage of Mexico and Central America. He was a member of the *L.A. Times* reporting team that won the 1984 Pulitzer Prize for public service.

**González-Viaña Receives Juan Rulfo Award**

Western Oregon University professor and Latin American author Eduardo González-Viaña has received the Juan Rulfo award, widely acknowledged as the most prestigious prize for short stories and novels in Spanish.

González-Viaña, a native of Perú, is a professor of Spanish American culture and literature at Western Oregon.

The award is sponsored yearly in Paris by institutions of the governments of Mexico and France, the magazine *Le Nouvel Observateur*, and "Radio France." Many literary critics consider this honor as a step toward the Nobel Prize.

"What’s happening is only that I am a lucky guy,” said González-Viaña, who has a doctorate in the Spanish language and literature.

**Rebolledo National Chicano/a Studies Scholar of the Year**

Tey Diana Rebolledo, University of New Mexico professor in the Spanish and Portuguese department, was the recipient of the National Chicano/a Studies Scholar of the Year award. The award is given to senior scholars whose research and publication in the area of Chicano/a studies has received national and international recognition and who have made outstanding contributions to the Association of Chicano/a Studies. Rebolledo is recognized for her work as a mentor to Chicana students, writers, and young scholars.

At a reception, she presented, "Reconstructing Sir Juan’s Library: Twenty Years of Chicana Literary Representation,” a look at how Chicana publishers and authors are represented on book covers.

**Hernández Awarded Barnes & Noble/USAS Scholarship**

Child Development major Laurie Hernandez of University of California State University-Los Angeles has received the Barnes & Noble/University Auxiliary Services scholarship.
Hernandez's goal is to earn a teaching credential from Cal State L.A. in order to teach elementary age children. She volunteers at the Calvary Chapel in Montebello, Calif., and works as a special education aide for the San Gabriel Unified School District.

**Tremaine Earns Leadership Award**

Maria Elena Tremaine, Everett Community College (Wash.) Spanish instructor, was presented the Inspirational Leadership Award by the Washington Association of Foreign Language Teachers at their annual all-state conference.

Tremaine was cited for her innovative courses, one being her Spanish for Spanish-speakers course, which draws professionals who must maintain a high level of Spanish proficiency in their work. Another is a Spanish discussion group for high school teachers of Spanish.

A native of Chile, Tremaine acts as an interpreter for court procedures and medical, social, and human services, and in educational, labor, and industry settings.

**Elias Performs for M-DCC**

Brazilian-born jazz pianist, composer, and vocalist Eliane Elias presented a public concert as part of the M i a m i - D a d e Community College (Fla.) - Wolfson Campus Cultura del Lobo Performing Arts Series.

Proceeds were to benefit the Jazz Outreach Project, a three-year jazz education initiative that introduces Miami-Dade County youth to noted jazz artists.

In addition to recording and touring, Elias' impressive career includes 11 albums and a Grammy nomination for last year's *Solo and Duet* with Herbie Hancock. In her work, Elias has documented her genuine love of Brazilian, Venezuelan, and Caribbean music and developed her own personalized style of jazz.

**Harrison Joins UM Media Office**

In Florida, former Fox News channel correspondent Carlos Harrison has been named the University of Miami's associate director of media relations.

"The university is a vital part of the community I grew up in," said Harrison. "And just like that community, it's playing an increasingly important role in the hemisphere and the world. I want to be a part of that."

A veteran print and broadcast journalist with nearly two decades of experience, Harrison has covered everything from the crime beat and local government to the invasion of Panama and Pope John Paul II's historic visit to Cuba.

**Reyna Honored by M-DCC**

Miami-Dade Community College in Florida has honored Susan Reyna, among others, with a 1999 Drum Major for Justice Award. The awards, created to honor the memory of Dr. Martin Luther King, Jr. to celebrate Black history, are awarded annually to individuals who have devoted their lives to the ideals of peace, unity, and freedom.

Reyna is the founder of the Latina women's organization Mijer.

**Viera Assumes Presidency at NOCCC**

Dr. Michael Viera, the former executive vice president of Fullerton College, recently started his first term as president of North Orange County Community College in California.

Viera began his career as a high school civics teacher and later taught political science at Chaffey College for 14 years. He is a member of the Board of Directors of the California Center for Education in Public Affairs, and he is active in several state and national projects, including a task force on non-credit matriculation.

He has a bachelor's degree from Humboldt State University and a master's and a doctorate from the University of California-Riverside.

**PLACES**

**Interactive Art Studio Project at Santa Monica College**

In an intriguing experiment that allowed the public to watch a group of talented students, alumni, and professor create works, Santa Monica College (SMC) in California recently turned its art gallery into a working and open studio and then exhibited the resulting creations.

"Axis Mundi: Dialogue with Past and Present Students," conceived and produced by SMC art professor Linda Lopez (pictured here), was presented in two parts. The first part, billed as an interactive studio project allowed the public to watch the works-in-progress. The second part was a multimedia exhibit.

Lopez, an accomplished artist whose work has been exhibited throughout the nation and the name "Axis Mundi" comes from the Meso-Americans' concept of the center of the world.

Lopez has a bachelor's degree from Ohio State University and a master's from the University of California-Irvine.

**USF Links with Entrepreneur Internship Program**

The University of South Florida (USF) is one of 21 sites nationwide participating in an internship program through the Kauffman Center for Entrepreneurial Leadership at the James Marion Kauffman Foundation.

Nine USF graduate students have been
working with chief executives of nine Tampa Bay firms through the program. Students are selected based on academic achievement and interest in entrepreneurship and receive tuition waivers, Kaufman stipends, and company contributions.

David Rodrigues (second from right), one of the nine students, is shown here with (l. to r.) Michael Fountain, executive director of USF’s Office for Corporate Development; Michael Cole, Rodrigues corporate sponsor from Chamberlain Funding; and USF President Betty Castor.

**CCD Helps Dedicate Family Learning Center**

City and County of Denver (Colo) officials and Community College of Denver (CCD) faculty, administrators, and staff joined the residents and staff of North Lincoln Park Homes in December to dedicate the new “Campus of Learners” Family Learning Center.

At the dedication, Denver Deputy Mayor and Manager of Safety, Todd “Butch” Montoya (left) teamed with CCD President Byron Mclnnery. Montoya unveiled two brass wall plaques that will hang in the Family Learning Center and the Senior Madison Building. The plaque inscriptions from Denver Mayor Wellington Webb read in part: “Education is one of the cornerstones of a great city. It is the spirit that is the foundation of our children will be nourished and nurtured both in body and in mind."

Among the other officials at the dedication were Denver Chief of Police Tom Sanchez and the director of the Colorado Partnership Office of Fannie Mae, Tom Hernandez.

**Program Helps Latinos Go to College**

**DeWitt Wallace-Reader’s Digest Fund** since 1993, Puente—a California program that helps Latino students graduate from high school and go to college—has received $1.65 million in new state funding through the University of California budget to strengthen its infrastructure and expand to new California sites.

The program offers mentoring, counseling, and intensive writing instruction, while drawing on support from the Mexican American business and professional community and involving students’ families in supporting their education.

In October, Puente’s efforts were honored with a 1998 Innovations in American Government Award from the John F. Kennedy School of Government at Harvard University and the Ford Foundation.

**In the News at USF**

**USF** — The University of South Florida (USF) has launched the Latin American-Caribbean Student Book Grant Program with $30,000 from USF’s Student Affairs. Through the program, 60 transfer students from Latin America and the Caribbean will receive in-state resident tuition rates, $5000 book grant, and reductions in the certified assured funds requirement.

• This spring Anabelle Matos will become the first Latina at USF to earn a doctoral in biology. Following commencement, Matos plans to complete a post-doctorate before applying for NASA’s astronaut program in Fall 2000.

• Last fall, the Honeywell Foundation announced a gift to the College of Engineering of $1.2 million, designated for research, instruction, and scholarships for Hispanic students. The gift will create an endowment that annually will provide $40,000 for research and instruction and $100,000 in scholarships that will be used to recruit Hispanic students.

• New College sociologist Sarah Hernandez has been investigating the formation of a worker-owned factory in Mexico. Hernandez is on the board of the Hispanic American Alliance of Sarasota.

**ASPIRA News**

**ASPIRA** — The Ford Foundation has awarded the ASPIRA Association $800,000 to carry out a comprehensive organizational development initiative: “This grant will ensure that ASPIRA enters the 21st century as the premier Latino youth development organization in the country,” said Ronald Blackburn-Moreno, president of ASPIRA.

• The ASPIRA Math and Science Academy and the ASPIRA Lighthouse program at ASPIRA of Connecticut have been cited as model after-school programs by the U.S. Department of Education.

• ASPIRA’s National Board of Directors has elected, for 1998-99, Raquel Ortiz, Board Chair; William Matos, Vice Chair for Programs; Myrna Rivera, Vice Chair for Finance; Helga Umpierre; and Daniel Oporto, Treasurer.

• ASPIRA of Florida initiated the construction of its first ASPIRA Youth Sanctuary in North Miami. The ASPIRA Youth Sanctuaries are educational safe havens—free from violence, drugs, and gangs—where youth can come off the streets and receive an education, counseling, be mentored, and participate in community service.

**Sofrito! at NJPAC**

**NJ PAC** (in honor of Three Kings Day, the New Jersey Performing Arts Center presented “Sofrito!” as part of the Bell Atlantic Passport to Culture Family Time Series. “Sofrito!” is a unique theatrical blend of music and myth that celebrates the Latino culture. Created and performed by David Gonzalez, the show features classic mambo and original pop music performed by Larry Harlow and The Latin Legends band, featuring Adalberto Santiago and Tono Toro.

Specifically designed for family audiences, “Sofrito!” incorporates stories from Puerto Rico, the Dominican Republic, Cuba, Mexico, and the Bronx. The stories emphasize the rich culture and imagery that resonate throughout the Latino world. The Latin Legends band complements the stories with lively songs, chants, and salsa music performed live on stage.
American Chemical Society Scholarships

Minority college and university students who plan to major in chemistry, biochemistry, chemical engineering, or related fields are encouraged to apply for scholarships from the American Chemical Society (Wash., D.C.), the world's largest scientific society.

Under the Society's Minority Scholars program, one-year-only scholarships are awarded on the basis of academic achievement and financial need, for amounts up to $2,500.

The program encourages Hispanic students to pursue college degrees and careers in the chemical sciences.

Although this year's deadline has passed, to get a head start on next year, interested students will want to check out the American Chemical Society Web site at <http://www.acs.org/pagen/minority/acs2.htm>, or call toll free (800) 227-5558, Ext. 6250, or via e-mail to <scholars@acs.org>.

DuPage Children's Christmas Pageant

Alanis Romero, 3, and Alexander Martinez (with tie), 3, show off their talents at dancing the Hokey-Pokey for Santa Claus and some of his friends during the College of DuPage (Ill.) Latino Ethnic Awareness Association's (LEAA) Second Annual Children's Christmas Pageant held in December. Santa, who is actually LEAA President Juan Villarreal, passed out gifts to more than 20 children who attended the event to exhibit their talents at singing and dancing. The student-run LEAA holds the benefit/pageant each year to help fund four scholarships for Latino students at the college.

CSU-Dominguez Hills Names "U-STAR" Scholars

California State University (CSU)-Dominguez Hills has named the first scholars for its three-year Undergraduate Student Training in Academic Research (U-STAR) program. With nearly $500,000 in funding from the National Institutes of Health, the U-STAR program seeks to boost the number of minorities pursuing graduate degrees in the sciences.

In the front row, seated left to right, are U-STAR scholars Ada Mae Portugal, Lorna Graham, and Anne Valle.

Standing left to right in the back row are U-Star scholars Daria Estrada Smith, Lucia Loza, Kenneth Rodriguez, and Dr. Thomas Landefeld, associate dean of the CSU-Dominguez Hills College of Arts and Sciences and the architect of the U-STAR program.

News from UH

* Oscar García (pictured here) was the main speaker at the University of Houston-Downtown (UHD) 1998 Winter Commencement in December. Earning a bachelor of business administration degree in computer information systems, García graduated summa cum laude with a 3.96 GPA.

* The Instituto de Estudios Superiores de Tamaulipas (IEST) of Tampico, Mexico, and UHD have signed a joint cooperative agreement encouraging faculty exchanges and research, student foreign study, and idea and information sharing. UHD President Max Castillo and IEST Director David E. Gómez Fuentes signed the agreement in a public ceremony witnessed by hundreds of people and covered by regional newspapers, radio, and television.

For the second year in a row, UHD has been ranked one of the nation's most diverse institutions of higher learning by editors of U.S. News & World Report magazine and America's Best Colleges guidebook according to 1997-98 data. UHD's 8,000-student campus is rated tops in diversity among all regional liberal arts colleges in the western United States. The university's student body was 32 percent Hispanic.

Alamo Memoir Donated to UT-Austin

The handwritten memoir of Lt. Col. José Enrique de la Pena, a Mexican soldier in Santa Anna's army, purchased for $387,500 by Charles W. Tate and Thomas Hicks at a Los Angeles auction, has been given to The University of Texas (UT-Austin). The manuscript includes an eyewitness account of the battle of the Alamo and contains a controversial account of Davy Crockett's death.

The memoir and accompanying documents were written by de la Pena, a junior officer, when Mexican troops stormed the Alamo on March 6, 1836. Traditional accounts held that Crockett fought to the death, but de la Pena reported that Crockett was captured and executed with six other prisoners.

His version of Crockett's death is said to be only a small part of the memoir.

WCC Celebrates Cultural Awareness

Westchester Community College of the State University of New York (SUNY) recently held a variety of events to celebrate Cultural Awareness Week.

The program began with "Challenges of Leadership in a Diverse Community," a lecture by Bronx Borough President Fernando Ferrer (pictured here). It was followed by another lecture, "What is Race? The Meaning and Significance of Race in America."

A number of presentations by student clubs and a dance performance were among the events on Solidarity Day. The New York City-based Impact Repertory Theatre performed a program on tolerance combining
monologues, dance, and poetry.

The Cultural Awareness Week series concluded with a Faculty-Student Chat, informal discussions between students and professors who teach courses in areas relating to ethnic studies

Latino Health Discussion at CSPP Conference

The Chicago School of Professional Psychology held its sixth biennial Cultural Impact Conference: “Gender and Culture: Contemporary Struggles in Mental Health.”

Honored at the Conference Celebration was Northern District of Illinois Judge Rubén Castillo, the first Latino to serve as a judge in this capacity. Castillo graduated from Loyola University in 1976 and Northwestern University School of Law in 1979. In 1988, he became director of the Mexican American Legal Defense and Educational Fund, an Hispanic civil rights organization.

Dr. Jorge Partida, Director of the Psy.D. Program at John F. Kennedy University (Calif.), led workshops titled “Sex Roles and Intimacy in Latino Culture” and “Changing Regulation and Perception of Immigration Clinical and Personal Implications.”

Dr. Cristina Cox, clinical psychologist and consultant at the El Rincon Clinic, took part in the workshop “Substance Abuse and AIDS: Cultural and Gender Issues in the Puerto Rican Community.”

Entre Naranjos: Vincente Blasco Ibáñez

This is a magnificently filmed three-part production of the classic 1900 Blasco Ibáñez novel. A young, small-town man, Rafael Brull, courts a famous opera singer, much to the dismay of his mother, who arranges his marriage to the daughter of a wealthy local orange exporter. Rafael flees the impending marriage and travels the world, only to return home and his provincial roots.

By Isabel Schon, Ph.D.

Editor's Note: This is “Part Two: Books in Spanish for Children” of a special, invited submission. The February 26th issue featured “Part One: Books in Spanish for Adolescents,” together with Dr. Schon’s introductory remarks.

Set in India with updated Indian characters, Bannermann’s well-known story now features Babáki, Mámachi, and Pápachi. In contrast to the crudely drawn features of previous English-language editions, this smooth Spanish rendition includes charming watercolor illustrations of Babáki, an Indian boy, outwitting ferocious tigers and enjoying delicious tandoori with his parents.

Spanish-speaking children will definitely enjoy.

Kiatoski, who is about ten, has never enjoyed playing soccer, but he is most impressed that Anton, the best soccer player at school, has asked him to solve a baffling situation. So as a serious private detective, he accepts the challenge. Soccer fans will especially delight in this amusing, first-person narrative, originally published by Arena, Verlag, Germany; that honestly portrays the dilemmas of competition and the pettiness of bullies. Colorful cartoon-like illustrations humorously depict the reluctant hero and the rowdy ruffians.

A gentle, singing toad is kept in love with a beautiful, wet frog. But a mean witch frog turns him into a handsome prince. Despite his pleas and objections, he is to marry a princess. This joyous reversal of the well-known story is sure to appeal to the very young or to older children who can understand the ironic intent. Unfortunately, the small size (4 3/4” x 12”) of this paperback book limits the charm of the well-conceived, modernistic watercolor illustrations.

Written by the award-winning Puerto Rican author Rosario Ferré, this collection of five short stories tells about three hungry, humpbacked men; a terrible ogre; a wise young woman; Pedro, who is not as stupid as people think; and Alicia and Elisa, twin sisters who communicate with each other through space. These stories will have a special appeal to young Puerto Rican adolescents, who will appreciate the vernacular; others will enjoy, and occasionally use the glossary provided.

Mini, who is eight, is as tall as her older brother Moritz, who is ten. He is a pest in every way, and insists on making her life difficult. Mini is so shy and timid that she puts up with his constant abuse, until one day on the trailer when she decides to sit away from him. Despite her fear of missing her stop and getting lost, she reluctantly finds her way back home. To her surprise, Moritz is delighted to see her and apologizes for his rudeness. Originally published by Dachs-Verlag, Vienna, and with Nöstlinger’s always-endearing, cartoon-style illustrations, this is an honest story about siblings—their conflicts, disputes, and deep affection.

Wilde’s well-known allegory about a selfish giant who becomes good when he befriends a young child is now available in this fluid Spanish rendition. The full-page, pastel watercolors perfectly complement this sophisticated morality tale.

AJMS International Books, Inc. <www.ajmsbooks.com>
Bar Books: <www.barbooks.com>
Los Andes Publishing: <www.losandes.com>
Maricenta Laron Book Imports: <www.maricenta.com>

On the Web—in English and en Español:
For additional high-quality books in Spanish for children and adolescents, please visit the Center for the Study of Books in Spanish for Children and Adolescents online at <www.csud.edu/campus centers/csb>. Under “Recommended Books,” users can access our searchable database of commendable books published around the world in Spanish for children and adolescents. More than 4,000 in-print books that deserve to be read by Spanish-speaking young people—or those who wish to learn Spanish—are in the database. These books have been selected because of their quality of art and writing, presentation of material, and appeal to the intended audience. To provide equal access to the Spanish-speaking world, bibliographic information, grade level, subject headings, and a brief description of each book are available in both Spanish and English. Weekly updates of recent titles are provided.

Dr. Isabel Schon is director of the Center for the Study of Books in Spanish for Children and Adolescents and founding faculty at California State University, San Marcos. Her honors include the 1992 U.S. National Model in Education Award presented by the U.S.-Mexico Foundation, 1992 Dewali Press Award from the American Library Association, and 1997 Women’s National Book Award.

If interested in submitting a book review, please e-mail us at outlook@aol.com for Book Reviewers’ Guidelines.

NIH Undergraduate Scholarship Program (UGSP)

If you would like to be trained and mentored at the cutting edge of biomedical research while receiving scholarship support, the UGSP may be for you.

The UGSP is sponsored by the National Institutes of Health (NIH), the Federal Government's leading biomedical research and research training agency, offering scholarships to qualified individuals to pursue undergraduate life sciences degrees.

Scholarships of up to $20,000 per year support tuition, educational, and qualified living expenses (room, board, transportation) while students pursue an undergraduate degree.

During each year of the award, scholars train for 10 weeks as paid employees in NIH research laboratories. They are assigned to mentors and participate in research seminars and developmental programs. Housing and transportation are provided. After graduation, 1 year of full-time research employment at NIH is required for each year of scholarship support.

Interested students should apply if they:

- Can demonstrate a deep interest in pursuing a career in biomedical research;
- Can demonstrate being from a disadvantaged background;
- Have a GPA of at least 3.5 or better or are in the top 5 percent of your class;
- Are U.S. citizens, national, or permanent residents;
- Are enrolled or accepted for enrollment as a full-time student at a qualified accredited institution.

This is a special opportunity for special students. NIH is dedicated to building a diverse community in its training and employment programs.

University Ombuds

New School University seeks an Ombuds who will work with a university-wide advisory committee to expand the Ombuds program. The individual in this position will educate the community about the program, train volunteer mediators, and actively engage in problem solving. The Ombuds office serves as a central resource for information, education, and proactive training to create and maintain a climate of fairness, equity and mutual respect and to enhance sensitivity to diversity. It assists faculty, students and staff to resolve concerns and complaints employing informal, non-adversarial approaches such as mediation, negotiation, referral and counseling. It also designs and implements programs that enable a diverse community to function without discrimination or harassment including workshops and training, while monitoring compliance with the university’s policies, assisting with the development of new policies and procedures that address the rights and responsibilities of the members of the university community, and making recommendations for corrective action. The Ombuds maintains neutrality and confidentiality with regard to all communication and university records to which he or she is given access in the performance of the duties of Ombuds. Qualifications: Experience in conflict resolution, diplomacy, good judgement, and strong interpersonal and problem-solving skills especially in cross-cultural communications. Experience at New School University is a plus. Demonstrated ability to work collaboratively to support diversity and community. Minimum of 3 years of Ombuds or directly related experience. Master’s degree preferred, bilingual skills a plus. Excellent benefits including free tuition, comprehensive health insurance and paid vacation. Review of applications will begin immediately and continue until the appointment is made. Send cover letter, resume, and a list of 3 professional references to: Ombuds Search Committee, c/o Office of the Secretary, New School University, 66 West 13th Street, New York, NY 10011. New School University is committed to a policy of equal opportunity in all its activities and programs, including employment and promotions. It does not discriminate on the basis of race, color, national or ethnic origin, citizenship status, religion, sex, sexual orientation, age, physical handicap, veteran or marital status. Affirmative action/equal opportunity employer.

UNIVERSITY LIBRARY
Oakland University

Oakland University seeks applications and nominations for the position of Dean of the University Library. The Dean is the chief administrative officer of the University Library and oversees all operations and services, leading library faculty and staff in a dynamic environment. The Dean serves as an advocate and spokesperson for the library and its educational mission both on campus and beyond it, forging effective links with the library's internal and external constituencies. The Dean is responsible for shaping a shared vision for the library's future, and for integrating advances in information technology with traditional materials and services in support of academic programs and the mission of the university.

Candidates must have an ALA-accredited master's degree in library and information science, demonstrated successful senior-level administrative experience in a comprehensive academic library, including planning, personnel, and budget management, open administrative style with commitment to shared decision making, and a record of scholarship and service appropriate for tenure at full professor. A Ph.D. is preferred. The candidate must also possess excellent communication, interpersonal, analytical and organizational skills, and have demonstrated commitment to diversity.

The OU Library is a highly centralized facility with collections and services housed in the Kresge Library building in the center of the campus. There are 34 members of the library staff, including the dean, associate dean, and 11 librarians with full faculty status. The dean of the Library reports to the Vice President for Academic Affairs, serves on the Dean's Council and the University Senate, and is responsible for a budget of $3.2 million. The library is committed to information literacy initiatives and aggressive expansion of access to electronic information services. In July 1998, the library changed system from NOTIS to Voyager. More information about the library is available at www.kl.oakland.edu.

Oakland University is a comprehensive public institution located among Fortune 500 companies on 1500 park-like acres in Oakland County, Michigan. It offers undergraduate programs in 74 areas and graduate programs in 53 areas and serves an enrollment of over 14,000 students. The annual budget is currently $130,000,000. The university continues to increase its programs, facilities, resources and enrollment. Oakland University recently relocated its new $43-million Science and Engineering Building and its new $31-million Recreation and Athletic Center. Selected for the second year in a row as one of the 100 "Best College Buys," Oakland University is dedicated to preparing learners for the 21st Century workplace and society.

Salary is competitive and commensurate with qualifications and experience.

The position is available July 1, 1999. Reviews of applications will begin on March 1, 1999 and continue until the position is filled. Please send a letter of application, curriculum vitae, and names of three references with addresses and telephone numbers to

Frank Lepkowski, Chair
Library Dean Search Committee
Kresge Library
Oakland University
Rochester, MI 48309-4401

Oakland University is an affirmative action, equal opportunity employer. Women and minorities with disabilities are encouraged to apply.

ST. JOHN'S UNIVERSITY
NEW YORK
PROVOST

St. John's University, New York, invites applications and nominations for the position of Provost.

Founded in 1870 by the Vincentian community, St. John's is one of the nation's largest Catholic universities, with culturally and ethnically diverse student body of more than 18,000 men and women enrolled in seven schools and colleges on its campuses in the New York City boroughs of Queens and Staten Island and its Graduate Center in Rome, Italy. A Carnegie doctoral I institution, St. John's offers more than 100 degree programs at all levels from the associates through the doctorate. Full-time and part-time faculty total almost 1,200 and are covered by a collective bargaining agreement. The University is committed to academic excellence in teaching and scholarly research and to a core curriculum in the liberal arts and sciences.

While remaining true to the mission and values which have permeated its 129 year history, St. John's is now in the midst of a major transformation, driven by a strategic plan adopted in 1995. Among the major elements is a $300 million facilitate Master Plan, approved for the Queens campus, which includes construction, currently underway, of the first residence halls in the institution's history. Instructional space has been fully renovated to include state of the art computer laboratories as well as classrooms equipped with computer and video technology. A new core curriculum is under development, and all curricula are being infused with a global perspective.

As Chief Academic Officer of the University, the Provost reports directly to the President and is assisted by several Associate Provosts. He/she provides leadership and direction for all academic programs and services, participates in institutional planning, administers the academic budget, works with external accrediting agencies, and serves as a member of the President's Cabinet. In addition he/she provides direction for the development and maintenance of support services central to a vibrant teaching and learning environment and is expected to bring to the University vision and energy to complete the transition to the "new" St. John's.

Additional information about the University is available on the St. John's website: http://www.stjohns.edu

Preferred qualifications include:

- An earned doctorate;
- Record of substantial scholarly achievement and teaching excellence;
- A broad-based institutional perspective on issues related to higher education, including the role of technology;
- Commitment to a student-centered philosophy of education which integrates classroom experience with extra-curricular educational opportunities;
- A record of success as a senior-level academic administrator including effective management of fiscal and human resources;
- Commitment to collegiality and shared decision making;
- Ability to work effectively with a diverse population of students and faculty;
- A record of involvement in professional educational organizations;
- Understanding of, commitment to, and ability to articulate the mission of the University.

The screening process for this position continues. Starting date is negotiable. Please send applications and nominations to:

Dr. Andrew J. Bartilucci
Special Assistant to the President and Chair
Search Committee for the Provost
St. John's University
6000 Utopia Parkway
Jamaica, NY 11439

Educational Management Nettork, a division of Wilt/Kiffe, is sponsoring St. John's University with this search. Requests for a copy of the position description or questions should be directed to Nancy Martin or Jane Coursen at 508-228-6700 or via e-mail at: St.Johns@ennom.com

St. John's is an equal opportunity employer and encourages applications from women and minorities.

The University of Vermont (UV) invites applications and nominations for Dean of the College of Agriculture and Life Sciences. The Dean is the chief administrative officer of the College and reports directly to the Provost. The Dean, in cooperation with the faculty in the College, the Agricultural Experiment Station, and UVM Extension, is responsible for administering and planning instruction, research, service, and development.

The College contains 7 undergraduate departments and programs, and offers 11 undergraduate majors and 7 graduate programs within the departments of Animal Sciences, Botany and Agricultural Biochemistry, Community Development and Applied Economics, Natural and Food Sciences. The College is also one of the leading centers for Molecular Genetics and Plant and Soil Science. A faculty of 65 works with approximately 800 undergraduate and 87 graduate students.

We seek candidates whose personal and professional qualities and experience assure leadership in all areas of academic endeavor. Candidates must demonstrate significant administrative experience, strong communication skills and commitment to affirmative action, cultural diversity and academic excellence. Candidates should have knowledge of the role(s) of basic and applied research programs and Cooperative Extension within the research mission of a comprehensive, land-grant university. The Dean must also present a record of both teaching and scholarly achievement meriting a tenured professorship in the College.

Established in 1791, UV is located in Burlington, a small city situated between the Adirondack and Green Mountains on the shores of Lake Champlain. The eight undergraduate colleges and schools of the University have an enrollment of 7,500. Medical, Continuing Education students bring the total enrollments to approximately 10,000. More information can be found on, http://www.uvm.edu, the university's website.

We will begin to review applications April 1, 1999, and will accept nominations and applications until the position is filled. The University especially welcomes candidates of color, women, and people with disabilities.

Nominations and applications, including a letter describing the individual's qualifications for the position, a curriculum vitae and names, addresses and telephone numbers of three references, should be sent to:

Mara R. Smule and Jill M. Tarule
Co-Chairs, Search Committee
Dean, College of Agriculture and Life Sciences
Office of the Provost
The University of Vermont
348 Waterman Building
Burlington, VT 05405

The University of Vermont is an equal opportunity affirmative action educator/employer.

VICE CHANCELLOR
FOR STUDENT AFFAIRS

The University of Illinois at Springfield invites nominations and applications for the position of Vice Chancellor for Student Affairs. As the newest of the three campuses of the University of Illinois, this campus is pursuing a developmental plan designed to achieve distinction as a public liberal arts institution, with additional missions in public affairs and professional education. The Vice Chancellor will participate in this effort, giving special emphasis to the development of student services for a growing residential student body.

The campus seeks a proven leader in student development with a commitment to the integration of student services and academic programming. The Vice Chancellor reports to the Chancellor and works under the direction of the Provost in the conduct of campus operations. The Vice Chancellor oversees the following major areas: enrollment services, student support services, housing, and student life.

The University of Illinois at Springfield is an upper division and graduate institution located in the state capital. The UIS Campus serves over 4,000 students in 21 graduate and 22 undergraduate programs. The academic curriculum of the campus emphasizes a strong liberal arts core, an array of professional programs, extensive opportunities in experiential education, and a broad engagement in public affairs issues of the day. The campus offers many small classes and a technology-enhanced learning environment. Its diverse student body includes traditional, nontraditional, and international students. Its faculty are committed teachers, active scholars, and professionals in service to society. An extensive array of social, academic, and athletic student activities is evolving to meet the needs of an expanding on-campus student community.

Qualifications

An A.B.D. is required, an earned doctorate preferred. Demonstrated administrative experience in areas directly related to the management of the functions listed above is desired. A record of working with a diverse student body to provide a cultural, social, and residential environment that promotes the full development of all students is essential. The candidate must present a record of professional achievement and a demonstrated ability to: (1) work well with students, (2) facilitate and implement change, (3) establish and accomplish organizational goals, (4) cooperate in team efforts, and (5) foster the use of information technology.

Applications and nominations should be sent to:
Chair, Vice Chancellor Search Committee
Office of the Provost, PAC 530
University of Illinois at Springfield
P.O. Box 19243
Springfield, Illinois 62794-9243

Salary and benefits are competitive and commensurate with experience and qualifications. Applications should include a resume, a discussion of accomplishments and interest in the position, and names, addresses, and telephone numbers of five references. Consideration of applications will begin on March 22, 1999, and will continue until the position is filled. The appointment will commence on July 1, 1999 or as soon thereafter as possible.

The University of Illinois is an affirmative action, equal opportunity employer. Persons with disabilities, women, and minorities are encouraged to apply.

DIRECTOR
CENTER FOR SPECIAL EDUCATION

Lesley College in Cambridge, MA is seeking a dynamic and creative leader to direct a new center for special education that is part of the School of Education. Lesley College has a long and distinguished history of preparing teachers and administrators to serve children and adults with special needs. The College has a strong commitment to the development of educational programs, support services, and personnel. The Director will work with the Center's advisory committee and the Dean of the School of Education to develop an operational plan, to set priorities, and to direct fund raising. The Director will report to the Dean of Education.

Qualifications: Terminal degree with specialization in special education or related field is required. The candidate should have a minimum of five years experience in program management and supervision, and previous leadership in a regional organization related to special education. A credentials record as a researcher and grants manager. Persons with national experience will receive special consideration.

Letters of interest, including a current resume, three recommendations and a recent research sample should be sent to: Human Resources Dept., Director of Special Ed Center, Lesley College, 29 Everett Street, Cambridge, MA 02138. Visit our website: http://www2.lesley.edu. (No phone inquiries please.) Lesley College practices the achievement of a gender/ethnic/language balance among students, faculty and staff. Persons of color are strongly encouraged to apply. Lesley College is an AA/EEO Employer.

Senior Associate University Registrar

FULLERTON
DIRECTOR OF PHYSICAL PLANT

California State University, Fullerton, is seeking a Director of Physical Plant. The Director is responsible for the maintenance and repair of campus buildings, grounds, utilities systems, and the heating, ventilating, and air conditioning systems. Cal State Fullerton is located in Orange County and is a campus consisting of approximately 2,5 million square feet of building space and 230 acres. The student enrollment is approximately 50,000, with a faculty and staff population of about 2,500. The Director is responsible for providing approximately 170 employees and an operating budget of $13 million in the areas of central plant, custodial services, building and grounds maintenance, vehicle maintenance, and logistical services. This position also assumes the responsibility for addressing deferred maintenance. All physical plant business systems and activities are managed through a work control center that includes a computer-based maintenance management system.

Requirements for the position are five years of upper-level planning and management experience in plant operations, preferably in a higher education environment, demonstrated management and technical abilities to administer the wide range of services associated with physical plant; a degree from an accredited four-year college or university in Engineering, Business Administration, Construction Technology or a field related to the responsibilities of the position. The successful candidate will have a thorough knowledge of modern plant management techniques, including computerized maintenance management and business systems, and have demonstrated the ability to administer a complex budget and manage personnel in a cost-effective manner.

The starting salary is dependent upon qualifications and experience. For full consideration, candidates must submit a resume and a letter of interest describing their qualifications by March 30, 1999.

FULLERTON
VICE PRESIDENT FOR ACADEMIC AFFAIRS

Walden University invites applications and nominations for the position of Vice President for Academic Affairs. Founded in 1978 and accredited by the North Central Association of Colleges and Schools since 1982, Walden University is a private, non-profit institution of higher education located in Chicago, Illinois. The University offers more than 120 graduate degree programs and certificates in various fields including education, business, psychology, and health services.

The successful candidate will have a PhD or EdD and demonstrate a commitment to the values, goals, and mission that characterize high-quality graduate education. Candidates will be expected to have at least five years of administrative experience at the deans or associate dean level in a comprehensive university and be highly regarded for their scholarly contributions, teaching, and research. The candidate will be responsible for overseeing the development and implementation of the University's strategic plan, including the expansion of program offerings, faculty development, and student recruitment.

Applications are accepted until June 30, 1999. Walden University values diversity and encourages applications from underrepresented groups. Walden University is an equal opportunity/affirmative action employer.

Columbia University
Director of Student Development & Activities

Columbia University in the City of New York began as King’s College in 1754 and has evolved over more than two centuries. Today, Columbia is a major institution engaged in the advancement of knowledge through superior education and research.

The Position: Reporting to the Dean of Student Affairs, the Director of Student Development & Activities is responsible for leading the office in the areas of student development theory, program design, and long term planning. Other responsibilities include implementing and monitoring budgets for the Office of Student Development and Activities, including maintaining 170+ student organization accounts; performing professional and student support staff selection, training, supervision, and evaluation; coordinating leadership programs and outreach to current and potential student leaders from the undergraduate colleges at Columbia University (Columbia College and the School of Engineering and Applied Science); overseeing and ensuring support, advice and assistance to student organizations for leadership development, events planning, and financial/resource usage; developing and maintaining liaisons with other offices within the Division of Student Affairs; developing and implementing assessment and evaluation strategies for the unit; and developing and implementing partnerships with community and other external agencies relevant to student development and fund raising.

Qualifications: A Bachelor’s degree or the equivalent combination of education and experience required. Advanced degree in Student Personnel Administration or related field desirable. Minimum two years professional experience in student activities, including supervisory responsibility and budget oversight. Excellent communication skills are essential. Background in student development theory, program design, and long term planning required.

Salary: Negotiable and commensurate with education and experience.

Application and Nomination: Review of applications will begin on April 9, 1999 and will continue until the position is filled. Nominations of individuals for this position may be made to the Spelman & Johnson Group as indicated below. Applications for this position should include two copies of a resume and cover letter and should be sent with the names and telephone numbers of three references to:

THE SPelman & JOHNSON GROUP

CU - Director
William Spelman, President
38 Mulberry Street, Box 304
Leeds, MA 01053
Phone: 413-584-7089

Applications may be received on line at www.spelmanandjohnson.com

Visit Columbia University’s website at: www.columbia.edu

Minorities are especially encouraged to apply.

Equal Opportunity/Affirmative Action Employer
Jeffrey Campbell Graduate Fellows Program

St. Lawrence University invites applications for the Jeffrey Campbell Graduate Fellows Program. Named for the university's first African American graduate—Jeffrey Campbell, class of 1933—the Fellows Program seeks to attract outstanding beginning scholars to campus to teach while working on their dissertations or terminal degree projects. Candidates must have completed coursework toward the Ph.D. or M.F.A. and must be members of underrepresented groups at St. Lawrence University and in American higher education, especially ethnic and racial minorities. Fellows receive a stipend of $25,000 for the academic year, the possibility of additional funds for travel to conferences and professional meetings, and office space with computer. The institution expects Fellows to be in residence for the academic year, to teach one course each semester in a department or program commensurate with their research interests, and to present a research-based paper in the Fellows Lecture Series each semester as well.

Address applications and requests for information to

Peter J. Bailey, Director
Jeffrey Campbell Graduate Fellows Program
St. Lawrence University
Canton, New York, 13617

Review of applications will begin on March 1, 1999. Fellows will be selected and notified, when possible, by April 15.

St. Lawrence University is an independent, private, non-denominational university firmly committed to undergraduate liberal arts education and cross-cultural opportunities. Located halfway between the high peaks of the Adirondack Mountains and the national capital of Canada in Ontario, the University provides unparalleled access to outdoor recreation and international social and cultural opportunities. The University offers a unique learning environment with 160 faculty, providing 51 majors, 30 minors, and numerous interdepartmental programs, including a nationally recognized First Year Program. http://www.stlaw.edu.

SLU is an Affirmative Action employer.
Women, minorities, veterans, and persons with disabilities are encouraged to apply.

East Stroudsburg University of Pennsylvania

SPECIAL EDUCATION & REHABILITATION DEPARTMENT

ASSISTANT PROFESSOR - The Department of Special Education & Rehabilitation is seeking candidates for a full-time, tenure track, continuing Assistant Professor position, beginning in Fall 1999. Responsibilities include: instruction in undergraduate and graduate courses in special education; some course instruction in undergraduate rehabilitative services program; student teaching supervision; student advisement; engagement in scholarly activities in special education; and participation in university and community activities. QUALIFICATIONS: Doctorate in Education along with successful teaching and/or rehabilitative services experience preferred. Public school certificate eligibility preferred. College teaching experience required. Some (terminal) degree programs requiring at least 30 hours of graduate credits. A commitment to excellence in teaching and service is expected. Ability to work effectively with students, faculty, and staff. Send letter of application, current resume, names and addresses of at least three current references, and any other documentation the applicant feels would be helpful in the hiring process to: Dr. Daniel Steere, Chairperson, Search & Screen Committee, Department of Special Education & Rehabilitation, East Stroudsburg University, East Stroudsburg, PA 18301-2999.

POSITION:

DEAN

COLLEGE OF LIBERAL ARTS & SCIENCES

DESCRIPTION: Rowan University seeks applications and nominations for the position of Dean of the College of Liberal Arts & Sciences. The Dean serves as the intellectual and academic leader and as the chief administrative officer for the College of Liberal Arts & Sciences. The College, located in the suburban campus of Rowan University, includes over 1,700 undergraduate students and 1,300 graduate students in over 30 majors in the College of Liberal Arts & Sciences, including business, computer science, economics, English, foreign languages & literatures, geology, history, language & literature, mathematics, philosophy & religion, political science, psychology, and sociology.

QUALIFICATIONS: The successful candidate will possess:

• A commitment to excellence in teaching and scholarship
• Strong leadership and management skills
• Significant experience in academic administration and budgeting
• Strong team building and faculty development skills
• Experience in innovative program development
• Evidence of strong commitment to graduate and undergraduate education development
• Demonstrated record of research and productivity
• A commitment to the undergraduate education in all of its disciplines
• A commitment to affirmative action principles and outcomes and to diversity in curriculum and learning communities
• Effective interpersonal and decision making skills

In addition to the qualifications listed above, the ideal candidate will possess the following:

• A commitment to working collaboratively with other Colleges within the University and at the University-wide level

Rowan University is an affirmative action/equal opportunity employer. Women, minorities, and those with disabilities are encouraged to apply.
Assistant Dean of Student Life

Princeton University seeks an Assistant Dean to serve as the programming coordinator in the Office of Student Life. Responsibilities include advising more than 200 student organizations, developing and implementing policies regarding financial management and fundraising aspects of student organizations; advising students with events planning, budgets, publications, organizational management and leadership; assisting with program development for the University's new campus center opening in 2002, coordinating non-academic aspects of freshmen orientation week, including the student activities fair; and overseeing the registration of extra-curricular events and activities. Individual will develop and maintain close working relationships with other University offices such as Athletics, Controller, Facilities, Public Affairs, Public Safety and University Council. The Assistant Dean will also share responsibility for the management of evening and weekend emergencies.

Position requires a bachelor's degree/master's degree in an appropriate discipline preferred; strong organizational, problem-solving and interpersonal skills; demonstrated ability to interact with a variety of groups including students, faculty members and administrators; sensitivity to the needs and concerns of students from diverse family, ethnic, racial, economic and religious backgrounds; strong analytical skills; and an ability to communicate well orally and in writing. Experience as a faculty member or an administrator in an educational setting, preferably in a college or university, is required.

For full consideration, please submit letter of application and nominations and resume to: Assistant Dean of Student Life, 449 University Avenue, Princeton University, Princeton, NJ 08544-5264.

COMMISSIONER OF HIGHER EDUCATION
RHODE ISLAND

The Rhode Island Board of Governors for Higher Education (RIBOHE) invites nominations, letters of interest and applications for the position of Commissioner of Higher Education.

The Board of Governors for Higher Education is the governing body of higher education in the State of Rhode Island and Providence Plantations. It sets policies, enacts regulations and provides guidance and oversight to the State's higher education institutions.

The Commissioner is responsible for the operational and administrative direction of the Board of Governors as well as the Rhode Island Department of Education.

Nominations and applications are encouraged from both within and outside the State.

The deadline for nominations and applications is May 1, 2003.

Commissioner's Office:
300 Promenade Street
Providence, RI 02908-7969

Frank Caprio
Chairman of the Board
RIBOHE

Faculty Positions in the School of Education
UNIVERSITY OF COLORADO
AT DENVER

POSITIONS: Three tenure-track faculty positions in the school's Master Teacher Education Program, which offers a master's degree program with secondary responsibility in one of the school's master's degree programs for experienced teachers or in the school's Ph.D. program. Two positions at the assistant professor rank; one at the associate professor rank. A third may be filled at an assistant rank if an individual with exceptional potential to contribute to student life in the Master Teacher Education Program.

RESPONSIBILITIES: Assist the school in deepening its collaboration with school districts in the Denver metropolitan area and with urban education partners in the larger urban district in order to expand opportunities for teacher leadership and to build student-led communities in Denver as a model for urban schools. At least one position will include teaching in one or more curricular areas, focusing on pre-service and in-service teacher education. The other positions will focus on curriculum development, policy and advocacy, and research.

APPLICATIONS: Review of applications will begin on March 15, 2003. Applications are encouraged from candidates with experience in urban education, curriculum and instruction, and teacher education.

Information: Address inquiries to: The Department Chair, Master Teacher Education Program, School of Education, University of Colorado at Denver, 13333 East 17th Avenue, Denver, Colorado 80217.

Seton Hall University
Assistant Director of Alumni Relations

The Assistant Director of Alumni Relations is responsible for the identification, cultivation and solicitation of high profile alumni and friends of the University through on- and off-campus events, programs and services. The position is responsible for developing and implementing a comprehensive alumni relations program that contributes to the University's strategic plan.

Responsibilities include:
- Developing a comprehensive alumni relations program that contributes to the University's strategic plan.
- Identifying and cultivating high profile alumni and friends of the University.
- Coordinating and implementing on- and off-campus events, programs and services.
- Identifying and cultivating new alumni and friends.
- Developing and implementing a comprehensive alumni relations program that contributes to the University's strategic plan.

Applications are encouraged from candidates with experience in fundraising and event management.

Information: Address inquiries to: The Assistant Director of Alumni Relations, Seton Hall University, 300 South Orange Avenue, South Orange, New Jersey 07079.
PART TIME FACULTY, GRADUATE COLLEGE
SCHOOL OF INTERDISCIPLINARY ARTS AND SCIENCES

The Union Institute is pleased to announce openings for part-time faculty positions in the following interdisciplinary areas of expertise to meet the needs of the Graduate College in interdisciplinary, learner-centered graduate education, excellent interpersonal and organizational skills, and computer proficiency sufficient to support the institutional program of the College.

Candidates must hold an earned Ph.D. from a regionally accredited institution or higher degree. They must have a demonstrated record of excellence in teaching and scholarship, an understanding of and clearly articulated interests in The Union Institute model of interdisciplinary, learner-centered graduate education, excellent interpersonal and organizational skills, and computer proficiency sufficient to support the institutional program of the College.

The Union Institute is an accredited, independent university offering highly motivated adult learners the opportunity to design and carry out individual programs of study across a wide range of academic fields. The Graduate School of Arts and Sciences offers only the Ph.D. in Interdisciplinary Studies. The Union Institute is located in Cincinnati, Ohio, but faculty members are distributed across the United States and beyond.

Because of the nature of the Institute's doctoral program, the majority of part-time faculty members begin as part-time faculty. Once hired as a part-time member of the faculty, part-time faculty who desire increased involvement with doctoral candidates can move up to the faculty on a full-time basis, depending upon the Institute's need and the clear evidence of the demonstration of successful work with doctoral program candidates and participation in the affairs of the school.

Please send nominations and applications postmarked no later than April 16, 1999.

ASSISTANT VICE PRESIDENT FOR COMMUNICATIONS

Reporting to the Vice President for Development and Institutional Advancement, the newly created position of Assistant Vice President for Communications is responsible for developing and executing an integrated external and internal communications program. He or she will ensure that The City College’s communications with all audiences are aligned with the institutional mission, vision, and strategy and will work toward strengthening the positive image of the College held by internal and external audiences.

SPECIFIC RESPONSIBILITIES INCLUDE: Develop a strategic plan for media and publications to promote a positive public image of the College and to increase media coverage of the College’s goals and current achievements; develop a coordinating plan for official campus and related publications and other media. The purpose of this plan is to assure that all college communications convey a visually compelling and consistent look for the College, and are part of a comprehensive, cohesive and coherent initiative to communicate the College’s vision and mission; work with the Director of Admissions to plan publications and advertising that will be used to attract prospective students; work with the Vice President for Development and Institutional Advancement to develop publications, advertising, and other media initiatives that will be useful in the College’s capital campaign fund-raising; provide support for the President’s Advisory Council to promote the College’s public image; the Assistant Vice President will oversee the Office of Public Relations to assure comprehensive process to strengthen the College’s public image.

QUALIFICATIONS: The candidate for this senior-level position should have a minimum of a bachelor’s degree and eight to ten years of progressively responsible experience in communications, public relations, advertising or marketing, including strategic planning, budget and staff supervision. The candidate should be experienced in story placement and in developing convincing campaigns for major news media and must have publications experience, including editing and working with graphic designers. The candidate should have the ability to use print and electronic media including television, radio, video, and the Internet effectively as a means of conveying the College’s mission and image. It is important that the successful candidate have strong interpersonal skills and a record of success in fostering collaboration.

SALARY: $92,204-$106,916. Please send a cover letter, resume, and names and address of three references by 3/31/99 to: Chair, Search Committee, AVP for Communications, Sheppard Hall, Room 154.
