ABSTRACT

This document consists of all 26 issues of Volume 9 of "The Hispanic Outlook in Higher Education," a biweekly journal that addresses issues in higher education for Hispanic Americans. Each issue contains several feature articles, a policy update column called "Outlook on Washington," a description of an exemplary program, and a sample student success story. Among topics addressed by the feature articles for each issue are: (1) ethnic studies, urban educational improvement, and administrator salaries; (2) Latino law school graduates; (3) celebrating Hispanic American culture; (4) trends in Hispanic college admission; (5) feminist analysis of social conditions; (6) colleges recommended for Hispanics student; (7) Hispanic collegiate athletes; (8) distance education and outstanding programs for Hispanic students; (9) corporations and foundations targeting Hispanic students; (10) financing a college education; (11) Hispanic students and student loans and the Graduate Management Admissions Test; (12) Latina women and higher education; (13) the National Research Council and fellowships for minorities; (14) community colleges; (15) educational governance; (16) the top 100 colleges for Hispanics; (17) graduate education; (18) the American Association of Higher Education Hispanic Caucus awards; (19) medical careers for Hispanics; (20) fine arts and performing arts; (21) Hispanics in the media; (22) educational leadership; (23) educational leadership and disadvantaged Hispanic students; (24) cultural diversity; (25) cultural diversity, language diversity, and controversy; and (26) the year in review. (SLD)
Fall of ’98

Dear Colleagues:

Earlier this year we wrote about Nicasio Lozano, a Peruvian who worked long, lonely years in the low-paying job of shepherd so that he might some day go to college in the U.S. He did enroll, but his grades were poor, 2.5, and he decided to drop out. A professor took him to dinner for a pep talk. The shepherd is now a Ph.D. and professor of engineering.

Whoever it was that characterized academia as “dry” never trod the turf. Even the phrase “back to school” has the power to induce most of the known emotions and more than a few sentiments.

The issues, the events, and the players on academic turf interact to generate not a trickle-down or ripple effect but a veritable tsunami on the futures of underrepresented minorities, so many of whom do not inherit success but must with your help create their own.

With this September II issue, Hispanic Outlook in Higher Education launches its ninth year of reporting on academia from a unique perspective. The Hispanic Outlook Scholarship Fund enters its second year, winners to be announced in the “Publisher’s Picks” issue.

Our opening issue gives you reason to cheer, to frown, to reflect, and to act. We can start with standing ovations for: Waldemar Rojas, the San Francisco Superintendent presiding over much-improved student scores of Latinos and others in his prophetically diverse district; Silvio Torres-Saillant, who did more than “just say no” to a media profile of the Dominican immigrant as a drug-trafficker—he challenged the profile with scholarly research by three major universities; and Jane Delgado, Ph.D., and the National Hispanic Women’s Health Initiative for their immensely readable, practical book on Latina health.

We salute, too, the award-winners, authors, and upwardly mobile achievers cited in all our issues. And thank your media people for generating the press releases, faxes, e-mails and phone calls that tell us of your accomplishments.

In the coming year, we plan to honor even more heroes, sung and unsung, who are gifted student enablers, and to spotlight those cutting-edge programs—domestic, transnational and international—that hold promise for Hispanics.

Join us in thanking our advertisers, who, in making known their own embrace of diversity, permit us to applaud you.

Sincerely,

Adalyn Hixson
Editor
CONTENTS

FEATURES

Changing the Trajectory of Life
Wildemar Rojas is raising test scores remarkably as school superintendent in San Francisco, and raising hopes, too, for its immigrant populations.

Carnegie Foundation for Excellence in Teaching
The 93-year-old think tank goes west to California, expanding its research teams and its agenda.

Administrator's Salaries in Academia
CUPA College and University Personnel Association (CUPA) releases 97-98 survey data.

Ethnic Studies: One Man's Retrospective
A veteran of the '60s push for equality in academia recalls the spirit of the times and the frustrations of the equalizer.

HONOR ROLL

George Mason University
Our Constitution and Bill of Rights drew on the ones that George Mason wrote for colonial Virginia. GMU looks to stay in the vanguard with its emphasis on high technology; public policy; and the arts.

Salud! Mind, Body, Spirit
Clinical psychologist Jane Deograce, in cooperation with the National Hispanic Women's Health Initiative offers a practical, user-friendly health primer for Latinas.

The Biased Depiction of Dominicans
An institute director takes on the New York Times in the age-old fight against the misshaping of the immigrant profile.

Improvement Inadequate But Outlook Promising
National Council of La Raza report finds inadequate improvement but promising outlook on Latino education.

DEPARTMENTS

OUTLOOK ON WASHINGTON: A CAPITOL VIEW
The Department of Education reports on class size reduction in the earliest grades.

People, Places, Publications, Conferences
Parents are their children's first teachers. Many scholars also believe they are also the most important teachers children will ever have. Values, traditions, and customs learned from parents remain with children all the days of their lives.

Brain development

Recent child brain development research highlights the importance of intellectually stimulating a child's mind during the first three years of life. Reading, singing, and talking to children helps the developing brain create connections. If not created during these early years, the connections between neurons, called synapses, will never develop. Repeat, never develop. Children will be dramatically and adversely affected for a lifetime if these connections are not established during those initial three years.

Mothers, fathers, and grandparents, among others, have instinctively for centuries coddled their infants, sung to them, and spoken to them. Most probably they did not realize what an important role they were playing in helping develop the child's brain. Yet science now confirms that those early interventions are important and indeed crucial. Parental influence does not end there. Parents also have a tremendous responsibility to create in their children a thirst for knowledge and a respect for schooling. Far too many children fear and dislike school. Might they have unconsciously learned these "lessons" from their parents? Do they make fun of college professors and the whole education establishment? If so, how can this be countered?

America Goes Back to School

In an attempt to emphasize the importance of education in the lives of individuals, Education Department Secretary Richard Riley has called on communities across the country to celebrate schools.

"Children can be very observant," Riley said, "They notice what adults consider important and what they ignore. We must send a clear message that school is important, and we do that by investing our time and our attention."

To help resolve the problem, America Goes Back to School was established three years ago--an initiative of the Partnership for Family Involvement in Education, which is a coalition of more than 5,000 businesses, community, religious and education organizations. The initiative seeks to draw attention to the critical need for parents and communities to support their schools. "The most effective schools draw their strength from the parents and other adults that make up the neighborhoods where the children live. There is simply no substitute for the attention of adults when it comes to shaping the lives of children," Riley concluded.

Activities are sponsored in communities throughout the nation. The national co-chairs of America Goes Back to School are family and child advocate Tipper Gore, Drew University president and former N.J. governor Thomas H. Kean, actor Michael Keaton, and National PTA president Lois Jean White. The 55-member steering committee includes students, educators, mayors, and representatives of business, media, and community organizations.

Activities

Last year, America Goes Back to School events took place in every state.

In Macomb, Mich., a fifth grade teacher and principal organized a back-to-school barbecue the Saturday before school began to encourage parents and other adults to get involved in the new school year. This informal setting helped break the ice among teachers, parents, and other community members, and it was used to recruit needed reading tutors.

The Chicago Academy of Sciences created a "Chicago Goes Back to School" committee of diverse partners representing families, educators, employers, and other community groups. The committee organized family involvement activities around a different theme each month of the school year. The first worked to help parents see that the "dreaded" science fair experiment could be fun and educational for parent and child. This year, the committee's first event will be a parent fair with a focus on providing positive role models for students.

Other America Goes Back to School activities included the following:

- Oregon State University sponsored a statewide conference called "Bringing Oregon's Resources into the Classroom," highlighting reading, math, access to college, family involvement, and establishing a resource network as an information clearinghouse for educators.
- CNN took its Emmy-nominated educational program, "The Newsroom," on the road to cities across the U.S. to give parents a national voice on educational issues.
- The mayor of Birmingham, Ala., sponsored a Back to School Rally at the Alabama Fair Grounds. Alabama honored more than 100 kids who had read over 82,000 books this summer in the FEEDBack program and plans to continue the commitment to reading in 38 after-school programs and in churches.
- Colleges and Hispanic group such as ASPIRA, the National Hispanic Medical Association, and the Hispanic Business Alliance have been invited to align themselves with this motivational movement.

For more information on America Goes Back to School, including a free activity kit that provides concrete ideas, resources, and examples of how parents, families, community groups, and educators are working to help children learn, call 1-800-USA-I (1-800-872-5327). Or visit the Department of Education's Web site at http://www.ed.gov/Family/agt.

Changing the Trajectory of Life

Waldemar Rojas
Is Raising Scores and Hopes

BY JEFF SIMMONS

"And what we need to do is continue the successes that are occurring academically, but get them going at a much faster pace, a much greater pace, and be sure that you can sustain it across all of our urban centers."

WALDEMAR ROJAS

ABOUT DR. ROJAS

Waldemar Rojas has worked within public education for more than 25 years. The diverse urban San Francisco Unified School District, of which he is superintendent, serves 64,000 students. Under his leadership, school reform efforts have brought measurable, increased student achievement, improved parental and community involvement, and the renovation of many buildings as well as the development of new, state-of-the-art schools K-12.

Rojas, who has worked as a teacher, assistant principal, and high school principal, was executive director of Special Education within the public school system of New York City before taking the West Coast post.

He holds an Ed.D. from Teachers College, Columbia University, and a master's degree in educational administration from New York University. He earned a B.A. in Education from Concordia College, as well as an honorary doctorate, and has received honors and awards for scholarship, citizenship, and athletics.
Given his new position, it would seem journalistically irresponsible not to ask Waldemar Rojas if he sees himself as a role model to Hispanic educators and students across the nation. But take that a step further, and it gives the San Francisco superintendent momentary pause.

"Who have been your role models?" HO asks him in a recent interview.

The colorful star of this rag-to-riches story takes a moment, and then reveals: "My mother was a role model."

"Why?"

"We had no money, but we didn't live in poverty," he begins, recounting his early years growing up on the rough and tumble streets of the South Bronx and East Harlem. "But she had us reading, she took us to museums, and she took us to church activities and constantly worked on our education."

Another pause, and then he adds, "Even though she had a minimal education herself, she understood the importance of that."

"How many people's mothers would drag around their kids and also work with the neighborhood kids, and she did that. I recall the first time I called her and said, 'Mom, the Board of Education of New York City just voted on my contract and made me superintendent,' and she said, 'We sent you to college so you could be superintendent?'"

He laughs, a hearty laugh. "She had a way of putting things."

Whether it was during his impressionable youth, or as he slowly climbed the academic ladder, Rojas did not miss the valuable lessons that his mother taught him, even if they weren't spoken: a hunger to succeed in life and a drive to strive to improve one's life or, as he puts it, "a kind of molding to build character."

If you haven't heard of Rojas, then you have missed quite a few headlines, and you can expect to see quite a few more. Of Puerto Rican descent, Rojas has now become the first-ever Hispanic chairman of the Council of Great City Schools, a national group that has evolved from its networking roots into a powerful urban education advocacy group during its near-half-century lifetime.

His has been a career focused on a sweeping determination to improve standards for all students and especially opportunities for minority ones.

"He is a no-nonsense educator who sets clear goals and objectives and goes about accomplishing those goals and objectives," says today," says Reyes, who in his role in New York City faced similar issues facing minority students. "School systems have drastically changed demographically over the last 10 years and will continue to change."

"Part of that change is [that] rather than being an organization of White and African American superintendents and board members, as many used to be years ago, it's becoming much more multi-racial in its make-up in the leadership of our school system, and the make-up of the student body it does in some ways represent."

"When he walks into a room, you know he's come in; he commands that kind of respect. He is very firm with adults, he listens, but you'd better have something to say because he does not suffer fools gladly."

FORMER NY CITY SCHOOLS CHANCELLOR

FRANK MACCHIAROLA

Council Executive Director Michael Casserly says that Rojas—who also goes by the name Bill and worked his way up through the New York City school system before moving to the West Coast in 1992—will be leading a group that has set a new path for the future...based on a vision, mission, goals, and strategies to improve urban education in America.

Over the last few months, that path has been riddled with potential obstacles, but ones that Rojas has struck head-on instead of attempting to maneuver around.

In March, his district filed a 23-page complaint in U.S. District Court to seek relief from the federal court from the implementation of California's Standardized Testing and Reporting Program. The district wants the test amended to exempt students with limited English-speaking skills, although the legislative tide as of early June still appeared to be against it.

Rojas has maintained that the test discriminates against non-English-speaking students because it requires them to take an academic achievement test written in English. The district's action...
prompted the state to threaten to withhold roughly $12 million in aid to the system.

At the same time, Rojas was busily staunching California Proposition 227, the “English for the Children” measure crafted by Silicon Valley entrepreneur Ron Unz on the premise that bilingual education has been a failure since its inception 25 years ago.

The measure—which passed on June 2—was designed to require that students be taught in English as soon as they start school, and that non-English-speaking students be segregated into a Shelter English Immersion class to learn English rapidly. It will eliminate many bilingual programs across the state, and critics charged its passage could be a precursor to similar actions across the nation.

There are an estimated 1.4 million limited-English-proficient students in California, a 12 percent increase since 1994 and a 500 percent increase since 1980. In San Francisco, Latino students represent about a fifth of the public school population, and about a third of the overall population is limited-English-speaking.

Rojas’ council resoundingly defied the measure, charging in a March resolution that it would “outlaw existing educational programs that our districts have found effective” in boosting achievement and that it would “deprive [non-English-speaking students] of an equal opportunity to learn.”

“We need to really deal with the items of educational reform in an effective way for youngsters in the urban school systems, which are predominantly kids of poverty and kids who don’t speak English,” he says in the HO interview.

“We have more poor kids than anyone else, and we have more kids who don’t speak English than anyone else. We must try to keep reform around issues like bilingual education around the academic standards, and keep them rigorous, and we must improve our teaching capacities.”

Rojas believes that what has worked in San Francisco can work elsewhere. During his tenure, the unified school district has seen a tremendous growth in student achievement: reading and math scores have jumped for five years in a row and are now above the national average, and the dropout rate has shrunk to 2.4 percent—so much that now nearly 90 percent of high school seniors graduate and greater numbers are taking advanced placement and Scholastic spearheaded a million-dollar campaign to jump-start programs outside the classroom, such as recruiting teams of volunteers at community centers and churches.

“I don’t just say my kids are going to read,” the superintendent says. “I say my kids are going to be authors, they’re going to be able to communicate their thoughts. They’re not just going to be able to read words. They’re going to be able to comprehend.

“If a Latino child in the first grade is not educated well now, they’re going to constantly be in a subservient, undereducated position, dilapidated schools in places like Cleveland that had plywood over their windows,” he says. When he arrives in San Francisco, he says, he watches as children struggled to learn in “bungalows that were from just after World War II.”

Now, he adds, “There is one school left in a bungalow, and it has been absolutely ridiculous to get the funding to do away with it.”

“What I hope to have made is in office is keep those issues not only hot-button, but issues with solutions,” he says.

In San Francisco, he has even won over some originally severe critics. He used to spar with Mayor Willie Brown.

But late last year, when Rojas watched as his board gave him a 51 percent pay increase, Brown reportedly commented that “You have a great superintendent—do what it takes to keep him.” Brown hailed Rojas as a reformer who built new schools and built up test scores.

“This is the opportunity to change the trajectory of life,” Rojas says of his educational philosophy. “The young-ger who’s well educated will be able to live the American dream.

“The younger who is poorly educated will be unable to attend college and constantly is going to be up against the wall economically. And what we need to do is continue the successes that are occurring academically, but get them going at a much faster pace, a much greater pace, and be sure that you can sustain it across all of our urban centers.”

He views his role as a model to others who want to make a difference. “People still remember that we have a tremendous opportunity, and we gave them chances—and that’s what we do in this business,” he says. “You don’t get rich. You don’t get famous. But you know that you have impacted people’s lives.”

As superintendent in San Francisco, he’s raised the reading scores and math scores across the board in all racial and ethnic groups, including language minority students, for five years in a row, and that means that the whole system is moving upward, not just one part of it.”

Luis Reyes, NY City Board of Education

The New York City Board of Education: “As superintendent in San Francisco, he’s raised the reading scores and math scores across the board in all racial and ethnic groups, including language minority students, for five years in a row, and that means that the whole system is moving upward, not just one part of it.”

Rojas attributes that improvement to “enhancing the teaching and learning environment” in classrooms, from reducing class sizes to expanding kindergarten to a full-day program, and stressing accountability measures.

Under his watch, the district
Carnegie Foundation Goes West
New President/New Location/New Agenda

By Adalyn Hixson

Andrew Carnegie had an uncanny knack for finding the points of leverage that would produce action. He enticed communities into buying books by building libraries—but only on the condition that the townspeople agreed to stock and maintain them.

So states a publication of Carnegie Foundation for Excellence in Teaching, an organization grew out of Carnegie's dismay discovering that a college professor's pay might be less than that of a steel mill clerk, and wholly without pension, causing teachers to rent their posts nearly unto death.

Carnegie learned of this while on a trip to the United Kingdom to return to his alma mater, the United States. Carnegie knew that the United Kingdom had much higher standards in education than the United States, and he wanted to bring those standards to the United States. So, he created the Carnegie Foundation in 1905.

Carnegie created such a fund a year later, The Carnegie Foundation, with an endowment of $10 million, a nondiscrimination clause covering race, sex, creed, and color, and a requirement that participating institutions meet strict admissions and graduation standards.

Out of this emphasis on standards came The Carnegie Foundation for the Advancement of Teaching, an organization launched hundreds of reports, research studies, and national reports, as well as help create mechanisms for testing accrediting people and institutions.

ETS. The Educational Testing Service, for example, arose from...
Roach, who was born in Guatemala and grew up in a small village in northern New Mexico, works with Dr. Heath, a linguistic anthropologist who has for the past ten years conducted and collaborated on extensive research that asks: “What happens in learning environments outside of schools that attract young people to sustain participation, performance and productions of high quality?”

Roach, who was born in Guatemala and grew up in a small village in northern New Mexico, works with Dr. Heath, a linguistic anthropologist who has for the past ten years conducted and collaborated on extensive research that asks: “What happens in learning environments outside of schools that attract young people to sustain participation, performance and productions of high quality?” The research has generated 60 detailed case studies of these organizations, 300 broad-ranging case studies of individuals over a three-year period, and has involved about 30,000 young people linked to organizations located from Massachusetts to Hawaii, in both urban and rural sites.

More critically, the research generated findings that appear to have great utility for individuals and institutions hoping to work effectively with young people—perhaps with people of all ages.

We have been looking at community-based organizations,” says Roach, “part of a 10-year study, following young people who are now moving into colleges and technical schools. We shadow them to identify patterns in the ways in which they are entering higher education—and they aren’t the assumed linear trajectories.”

Roach holds a master’s degree in education from Stanford and has worked as a teacher of Spanish. Prior to her studies in anthropology and before Stanford, she lived for a time in Argentina, during which she fine-tuned her language skills.

“The research that we are conducting looks at community learning centers—also at community colleges. At Santa Fe Community College, what has been most striking for us has been the way in which the college not only provides strong academic opportunities but also meets various community needs—serving as a real civic organization for that town—so that a lot of people, young and old, turn to the college when they need help or have an idea that extends beyond an academic niche. “There’s been a tremendous increase in non-English-speaking people in Santa Fe—people coming up from Mexico, and from as far away as Tibet. The community college functions as a social barometer, she says, “the place in town that responds to felt needs. It is also a flexible institution that recognizes the imperative to meet people’s schedules and living patterns.”

The college not only offers classes on its main campus, she says, but provides training, events, and services at sites throughout the town of Santa Fe, sites ranging from supermarkets and the capitol building to elementary schools, museums, and neighborhood parks.

“In the past, community colleges have to a large degree been thought of as transfer institutions and stepping stones, and that is one purpose, but when you look at all the other ways they are serving the community, it is one small portion of all that they do.”

Roach gives an example of the broadened role that colleges play. She describes Cochiti Pueblo, a Native American community just south of Santa Fe where in the early 1990s people realized that the pueblo’s youth were no longer learning the indigenous language and that in less than a quarter of a century, the use of their language had diminished so significantly that it soon would be lost completely.

“Cochiti Pueblo teamed up with Santa Fe Community College’s Institute for Intercultural Community Leadership,” Roach explains, “to establish the Cochiti Language Revitalization Project. Since the project’s inception, young people have been learning the language and have developed stronger interests in native traditions such as planting, astronomy, and medicinal healing.

“While prior to the Language Revitalization Project Cochiti Pueblo only had two elder medicine men, the pueblo now has about eight to ten medicine people, some of whom are quite young. Through Cochiti and the communi-
ty college's efforts, young people are finding viable ways to remain in their community.

"That type of education is really important," says Roach, "and reminds us that learning is not always about a linear transmission model—from one person to another—but it is also about the ways we learn in groups from one another and with one another."

Roach describes the foundation itself as a wonderful place to learn. She describes her on-the-job learning curve as a "straight up" trajectory, and feels that working with the foundation offers an opportunity for incredible growth—individual and organizational.

HO promises to revisit Carnegie, and soon, and offers a salute both to Andrew Carnegie and to those at the foundation who extend his extraordinary vision.

---

THE CARNEGIE AGENDA

Currently Under Way:

THE CARNEGIE TEACHING ACADEMY
- Teacher/Scholar Program. 122 scholars over five years to invent and share new conceptual models.
- Campuses Program. 80 campuses recruited in five years to implement specific teaching models, create a "common cause."
- Scholar Society Program. Carnegie will help them fashion and fund their own projects and initiatives to advance shared agendas.
Senior Scholar Patricia Hutchings

CASE STUDIES OF TEACHING AND TENURE
Identifies faculty and administrators at research universities who recognize teaching as serious intellectual work and explores how they succeeded in gaining institutional recognition for this work.
Senior Scholar Mary Huber

TEACHING AND PROFESSIONAL DEVELOPMENT IN COMMUNITY COLLEGES
Examines working conditions and faculty priorities; documents exemplary models; conducts ethnographies to explore cultures of teaching; course-based investigations to facilitate reflection and analysis.
Senior Scholar Mary Huber

STUDY OF LEARNING PATHS WITHIN COMMUNITY, TECHNICAL, AND ARTS-BASED COLLEGES
Traces paths taken by non-college-bound youth in low-income communities, links between high school experiences and postsecondary learning, and relationships between these institutions and their communities.
Senior Scholar Shirley Brice Heath

Ongoing Activities

NATIONAL FACULTY SURVEY
Mailed to 10,000 faculty members at 306 institutions selected from each of the nine Carnegie Classification Groups, the survey asks about working conditions, professional activities, governance, goals of higher education, campus community, role of higher education in society, and its international dimensions. For some issues, offers comparisons spanning 30 years.

U.S. PROFESSORS-OF-THE-YEAR PROGRAM
Provides faculty awards in each of the four major types of higher education institution.

CLASSIFICATION OF INSTITUTIONS OF HIGHER EDUCATION

In Planning Stage:

The Future of the Ph.D.
Pedagogies of Professional Education
The Documentation of Teaching
Systematic Reform of Teaching and Learning in Primary and Secondary Schools
Teaching for Character, Social Responsibility, and Civic Engagement

Administrator’s Salaries in Academia: CUPA ’97-’98 Survey Data

BY MARI CARMEN SARRACENT

In response to ongoing demand from higher education institutions for salary data, the College and University Personnel Association, based in Washington, D.C., recently published the 1997-98 Administrative Compensation Survey. This marks the 30th year since data of this kind were reported by CUPA as a tool to assist colleges and universities nationwide with salary-related decision-making.

CUPA is a network of more than 6,400 human resource administrators at nearly 1,700 colleges and universities. This association promotes the effective management and development of human resources in higher education. According to the survey, with human resource costs ranging from 65 to 85 percent of operating expenditures in higher education institutions, the most effective management of these costs is essential in order to evaluate current pay levels and plan compensation budgets.

Survey questionnaires were distributed to 3,643 higher education institutions of which 1,515 (42 percent) responded. Survey respondents originated from the following categories: 13 percent from doctoral institutions; 25 percent, comprehensive; 25 percent, baccalaureate; 24 percent, two-year colleges; and 15 percent, other. Comprehensive institutions are defined as institutions that offer a full range of bachelor’s degree programs and at least 20 master’s a year, explains Audrey R. Rothstein, director of communications for CUPA. This year’s report includes data on 170 administrative positions such as chief academic officer; deans of law, science and mathematics; and associate chief academic officer.

Rothstein, notes that while the survey does not break down data by ethnic group, it does offer comparison data between minorities and non-minorities in doctoral and comprehensive institutions as well as in general baccalaureate and two-year colleges.

Results

According to an analysis of salaries that were reported in 1996-97 and 1997-98 surveys, the median salary increase for all job types is 4.6 percent. Academic affairs positions revealed a 4.8 percent gain over last year’s 3.2 percent.

Executive positions showed the largest median increase with a 5.9 percent gain, compared with 5.5 percent last year. Academic affairs positions revealed a 4.8 percent gain over last year’s 3.2 percent. Administrative positions exhibited a median increase of 4.6, which was slightly higher than last year’s 4.1 percent gain.

Comparisons between public and private institutions show median salary increases of 4.1 percent at private institutions and 5.8 percent at public institutions.

While minorities increasingly hold executive/academic and administrative positions in higher education institutions and, in some cases, their salaries might exceed non-minorities’ in the same title, there still is a tremendous gap in the number of minorities in these positions.

For example, the survey reported that in doctoral institutions, there were 25 minority deans of education (earning a median salary of $121,024) compared to 107 non-minorities ($109,710). Similarly, in comprehensive institutions, there were 40 minority cases compared to 180 non-minorities in the dean of education position. In this case, minority median salaries was also higher—$86,660 compared to $80,000.

Areas where there is a paucity of minority inclusion in doctoral institutions are reflected in a variety of dean positions for mathematics, medicine, music, nursing, pharmacy, public health, sciences, social sciences, and library information services.

Academic positions for which minorities earned more than non-minorities in doctoral institutions include chief academic officer, chief research officer, dean of arts and sciences, dean of continuing
education, dean of education, dean of graduate program, dean of home economics, dean of law, dean of social work, and dean of undergraduate programs.

In comprehensive institutions, median salaries for minorities exceed in the following positions: director of library services, chief public service library, reference librarian, director of learning resource center, director of academic computing, chief research officer, dean of education, dean of fine arts, dean of humanities, and dean of sciences.

In general baccalaureate institutions, the survey reported three cases or fewer of minorities in the following positions: deans of engineering, extension, fine arts, graduate program, health-related professions, home economics, instruction, law, library and information sciences, medicine, pharmacy, sciences, social sciences, social work, special programs, undergraduate programs, veterinary medicine, and honor program. Some of these positions also are affected in two-year institutions.

Minorities earned more in the following positions: chief academic officer, associate chief academic officer, reference librarian, director of learning resource center, dean of arts and sciences, dean of continuing education, dean of health-related professions, dean of humanities, dean of instruction, dean of nursing, and dean of occupational studies and vocational education.

A Brief History

When CUPA published its first administrative compensation survey in 1967-68, its goal was to be something more than a tabulation of salaries, as it would be competing against the National Center for Educational Statistics, which at the time also provided salary information. The outcome was a report that reflected compensation practices for 46 professional administrative positions at 500 higher education public and private institutions, including universities, senior colleges, and junior colleges. The second year, the number of participating schools more than doubled to 1,164.

The data, which compared compensation for positions within and across types of institutions, showed cash compensations in addition to social security payments, retirement contributions, insurance provisions, housing, tuition, automobile allowances, servants, and club dues.

In response to member requests, the 1975-76 Administrative Compensation Survey introduced special studies, which summarized data from any group of participating institutions selected on the basis of demographic characteristics and by geographic region. At the same time, the questionnaire was further changed to also collect data on the participation of women and minorities in academic administration. According to CUPA, “the intent was to provide the membership with relevant data to affirmative action planning.”

Gradually the survey expanded. In the 1980s, CUPA's survey reflected statistics on 89 positions, and it was also preparing additional tables to report data for private institutions, private religious institutions, theological seminaries, medical schools/centers, and historically Black institutions, among others. The association also expanded its special studies to enable colleges and universities to order low-cost data tailored to their needs. Since the establishment of its Department of Research and Analytical Services, CUPA has been well on its way to becoming a clearinghouse for all higher education human resources data.

Last year for the first time, CUPA also conducted a mid-level administrative/professional salary survey for 1997-98. According to CUPA's director of communications, the survey focuses on positions within nine areas—general administration, accounting and finance, information systems, physical plant/security, extracurricular, external affairs, student services, engineering research, and medical. Eight hundred seventeen institutions responded to the survey—128 doctoral, 215 comprehensive, 189 baccalaureate, 186 two-year, and specialized and system.

The positions covered in this survey include collections supervisor, local area network specialist, personal computer specialist, career counselor, and staff nurse.

This survey supplements CUPA's annual Administrative Compensation Survey.

In addition to its survey reports and analyses, CUPA provides a forum for the exchange of ideas and practices in this a

Upcoming is its annual national conference and exposition, entitled “Unleash Your Creativity: Imagining the Possibilities,” which will take place in Indianapolis, Ind., Oct. 4-7. According to Rothstein, the conference will cover a broad spectrum of topics including more than 70 sessions on creativity, innovation, HR management, policy and legal issues, employee relations, organizational development, and career development. A comprehensive guide to these sessions is included.

For additional information CUPA's Website is at: http://www.cupaj.org, or call 202-429-0311.
Ethnic Studies: One Man's Retrospective

BY

HORACIO D. LEWIS

The Center was developed in the early '70s, says Cano, as a result of activism by Mexican-American students, many of them members of MAYO, the Mexican American Youth Organization, who complained of a void in the university's intellectual knowledge base and in its intervention programs.

A careful researcher will determine that during the late '60s and early '70s, particularly after the death of Dr. Martin Luther King, Jr., several "ethnic studies" programs originated.

Fueled by a racially volatile society that refused to understand, recognize, and accept the diversity of its cultural and historical heritage, our higher education institutions, driven by student awareness, "concieniatción," began to take a look at their curricula and the types of citizens they were perpetuating. Higher education institutions started to take some responsibility for contributing to racial and ethnic ignorance, racism, and diminished self-esteem.

Hence, as a potential deterrent to intolerance and to violent measures against those different from ourselves, there was a move to construct ancillary "Black Studies," "Native American Studies," and later "Women's Studies" as well as others.

Little did we know then that such programs would perish after the fad faded. What we failed to do then, for the most part, was to set up programs that were woven into the fabric of the university organization itself. Thus, when federal and other such "benevolent neglect" funding for such programs ran out or was diverted to other activities, these hastily appended "ethnic studies," many designed to quiet the student masses, became extinct.

Following such demise and with refurbished vigor to again attempt to correct societal stereotyping, higher education institutions developed programs that were more connected to the mainstream, programs of an interdisciplinary nature, designed to offer corrective information about our country's "oppressed" groups.

Because of their interconnectedness—t.o a math program, to an English program—these programs could not be dropped so nonchalantly.

One of the first such integrated programs in the United States was and is The University of Houston's twenty-six-year-old Center for Mexican American Studies. This well-established program offers an impressive menu, from a speakers bureau to showcase Latino talent, Latino scholars, and Latino issues, to a Ph.D. program with a concentration in Mexican American Studies, says the Center's Assistant Director Lorenzo Cana, who adds that a Master of Arts degree in Mexican American Studies is being planned now.

The center was developed, says Cano, as a result of activism by Mexican American students, many of them members of MAYO, the Mexican American Youth Organization, who complained of a void in the university's intellectual knowledge base and in its intervention programs.

Today, with the university's financial and moral support, and a staff of about a dozen, and utilizing an interdisciplinary approach to leverage "theory and practice from established disciplines," Mr. Cano believes that the center has both filled the curriculum gap and recruited hundreds of Latino students heretofore ignored.

Soon after the Houston Mexican American Center originated, 1973, I was hired by Indiana University, in Bloomington, as Assistant Dean and Director of Latino Affairs—one of the first such programs in the Midwest, perhaps in the country. Prior to this appointment, I had worked in Chicago as a community college and university instructor, a community activist, and a consultant, developing Ethnic and Latino Studies curricula for college credit, for a local ASPIRA program. Students and faculty from Indiana University had seen or heard of my work and decided to recruit me.

As is the case with many ethnic studies programs in academe, I had been recruited because students wanted the university to address the needs of a growing ye neglected Latino/Puerto Rican student population. My arrival was preceded by on-campus student demonstrations and other activis
events to call attention to what they felt was the university's "discriminatory behavior" towards Latino students and their culture.

Though there had been a "Groups" program in place at the time that recruited Black students and an occasional Latino, there had been no infrastructural voice or support for Latino students in general on this campus of 125,000 students.

I felt that as a Latino myself, one who had worked with both black and brown communities in Chicago, I had some insight into the issues plaguing our disenfranchised populations and educational system. I was also armed with a graduate degree in Inner City Studies and was familiar with the conditions of the ghetto and barrio. I felt ready to take on the educational bureaucracy and make a difference on behalf of and for people of color.

But first I did my homework. What was the status of Latinos at the university? How many were recruited, by whom, and under what conditions? Were there scholarships available? What about retention modalities? Were Latinos being counseled/advised appropriately? By whom? Were there sufficient role models at the university? Did we need to recruit and retain more Latino faculty? Were there Latino-oriented courses? Was there a Center for Latino activities? Did we need to coordinate our efforts with other university academic departments and the President's/Chancellor's office?...

My preliminary research indicated a desperate need for immediate action. Action on recruitment, enrollment, retention, scholarships and grants. There had been no Latino Studies curriculum nor affirmative action activities embracing Latinos. The university, in my view, was engaged in denial and a gross neglect of Latino needs.

Since I was the first "Latino Dean" that in itself generated media interviews and media coverage, which I took advantage of to generate my message. I generated awareness and education, too, through meetings and discussions with faculty, students, and the administration, and through specific consultations with students. I spoke to many university classes, many university and community groups.

I had written a curriculm for Latino Studies that I entitled "Latinoestadounidenses" Studies. This, of course, caught the attention of many who wanted to know what the hell does the word mean? Their curiosity gave me a chance to further educate. The program outlined the beginnings of an interdisciplinary approach that I had worked out with several departments.

Later I taught the university’s first Latino Studies course; worked on its first full-fledged Affirmative Action Plan to include Latino students; and founded the university’s first Latino Center, "La Casa," and hired its first full-time director to coordinate counseling, tutoring, recruitment, and other academic and social activities for Latino students. With the help of La Casa’s director, I was in a better position to extend my reach into the Latino communities of northern and eastern Indiana (i.e., East Chicago), talking with and recruiting more Latino students.

Since Indiana University had no clue as to what needed to be done, I virtually had a tabula rasa to work with—of course without a budget as well. I had to beg for money to develop programs. Though my position allowed a degree of creativity, it was a challenge and an uphill battle to get programs established.

I made so much noise at the university that everyone paid attention to what I said, but I never was able to get the type of funding needed for viable programs. The political tide, however, create some hope among Latino students and provided a vehicle for awareness-development among university participants.

During my third year at the university, the administration offered me an associate deanship appointment. Of course, there was a catch.

To appease Black students and a handful of Black faculty and administrators, the university had agreed to establish a post of Vice Chancellor for Afro-American Affairs. The post offered me would be part of Afro-American Affairs.

Though flattered by what appeared to be a promotion from Assistant to Associate Dean refused, observing in print views that Latino circumstances were different, requiring an independent, autonomous "full-fledged director" to focus exclusively on Latino Affairs under its own umbrella. As a Black-Latino I was aware of issues of racism, prima facie against those of us who are Black; it was difficult for me to take a position. But I was conscious how groups are marginalized and subsumed under umbrellas encompassing other groups that are their own independent and unique voices.

We could co-exist but not subordinate to any other group regardless of the arguments about politics. Both groups of color have specific issues best represent those qualified to do so. In growth development, we were ready to speak as one. We knew the new kids on the block try to get established. We first had to establish our cause and not before we consolidated our effort. We had yet to fully establish sense of self as a people.

It was also difficult to explain to Latino students what was in tense to us as a cultural community. I had seen the need for a curriculum and for recruitment/retention and other ancillary programs. My priorities and I am still important to Latino students as well. But while I was working diligently and vociferously or activities, students kept asking questions. We were often viewed as one with racist traditions. I had filled the void, thought, with La Casa. The students and I had a falling out on this issue.

After four years in the position, I left Indiana to join DePaul University’s Department of Education. The university’s Latino population doubled by then. Some pre-existing retention programs were in place, as well as appropriate...
tion and outreach activities.

There is a Latino Studies program in place now at the university, according to Dean Alberto Torchinski, Office of Latino Affairs. contact for the program, which has a full-time director and a secretary.

Latino courses are offered in other departments, and within the next two years, there will be a Latino Studies Department offering an undergraduate degree in Latino Studies. Indiana offers overseas programs in several Latin American countries, too—Costa Rica, Madrid and Salamanca, and Mexico City among them.

There are five tenured Latino professors at the university and an estimated ten non-tenured. Of the 32,000 or so students on the Bloomington Campus, about 700 are Latino.

The experience of developing ethnic studies programs should generate some lessons, including the need to clearly articulate the goals and mission of such programs. I, for one, have learned to ask the following long-term questions: Is it adequately funded? Is it an integral/interdisciplinary part of the university? Does it enjoy the support of faculty, students, and administration? Is it well staffed? Does it have an amount of autonomy required for creativity? Is it treated as well as other university programs? Is it led by committed individuals with proper credentials who are interested in fairness, equity, diversity, and excellence?

Only when these and other questions are completely answered will Latino students, the university, and our society at large benefit from ethnic studies constructs.

LEWIS LOOKS AT THE IVY LEAGUE

HARVARD UNIVERSITY

“There is no Latino Studies Program at Harvard,” said one respondent, which surprised me greatly since I am aware of a very successful African American program there headed by superb scholars Henry Louis Gates, Cornel West, and Julius Wilson. I am confident that, as is the case with the others in the Ivy League (originally “IV” League, for the four private schools on the East Coast, later joined by four more for purposes of intercollegiate athletics), there are isolated courses offered under the rubric of other departments, the most common being Latin American Studies (and there appeared to be a confusion among some higher education institutions on the difference between Latino Studies and Latin American Studies) and American Studies—

A properly established Latino program should have a central voice and a central location with, at a very minimum, a specific listing (e.g. Latino Studies Program) in a college telephone directory.

YALE UNIVERSITY

UNIVERSITY OF PENNSYLVANIA

PRINCETON

Princeton has a Latin American Studies Program, directed by Dr. Ronald Surtz, a professor of Spanish. The program is interdepartmental. There is no Latino Studies Program, though there are courses offered on Latino issues in other departments, such as sociology and American Studies. Princeton's (undergraduate) student population numbers 4,600, 295 of whom are Latinos.

COLUMBIA UNIVERSITY

BROWN UNIVERSITY
Rhode Island. Founded 1764. Enrollment 7,626. 354 Hispanic. Programs include Afro-American, East Asian, Judaic, Latin American, and South Asian Studies. Maintains several campuses abroad, including Rio de Janeiro.

Dr. Stephanie Merrim, Director of Hispanic Studies, reports that there are four tenured professors in her department, three from Spain and one from Peru, and that the courses offered are on Latin America, Mexico, and Spain—not quite the focus I was looking for.

She indicated that Brown's American Studies Department offers some courses on Latino Studies. I have concluded that Brown's Latino Studies Program is more a Latin American Studies Program and that if there are Latino-oriented courses, they are available interdisciplinarily in other departments, making them harder to identify.

DARTMOUTH

CORNELL
New York. Founded 1865. Enrollment 18,914. 67 percent White, 17 percent Asian American. Activities include Festival of Black Gospel and Third World Festival of Fine Arts.

George Mason University

Where High Technology Meets Public Policy

BY ROGER DEITZ

George Mason was a planter and patriot who lived in Fairfax County, Va., during the 18th century and dedicated his life to public service. He wrote Virginia's first constitution and declaration of rights in 1776, which became the models for the Declaration of Independence and the Bill of Rights. Mason believed that the government must always respect the rights of its citizens. He was skeptical of big government and had great faith in the people of his region and state of Virginia. Although a slave owner, his words were later used to demonstrate that slavery could not exist in a country that stressed a belief in human rights. Today, by emphasizing the special needs of its region, particularly in high technology, public policy, and the fine and performing arts, George Mason University has created a curriculum tailored to Northern Virginia's cosmopolitan constituency. The school's mission has also brought to life the loftiest of Mason's ideals, offering diverse learners the chance to experience a greater higher education, opening up careers that match their aspirations and talents. This new school year, we proudly acknowledge George Mason University, a most worthy Honor Roll recipient.

George Mason University began as the Northern Virginia branch of the University of Virginia in 1957. At the time, the campus focused on engineering and the liberal arts. Called University College, its first classes were held for 17 students in a renovated elementary school. Realizing the fledgling institution's potential importance to the economy and people of the region, the Town of Fairfax (now the City of) purchased 150 acres in 1958 and donated the land to the University of Virginia for use as a permanent branch campus. The following year, the University of Virginia Board of Visitors bestowed the school with the name George Mason College. Construction of its first four buildings was completed in 1964, and the General Assembly authorized the expansion of the school into a four-year, degree-granting institution in 1966.

The first senior class received degrees in June 1968, and graduate pro-
grams were instituted two years later. With support from the region’s citizens, additional land enlarged the Fairfax campus to more than 570 acres.

In 1972 the school became independent of its parent institution. The governor signed legislation to establish George Mason University as an independent member of the commonwealth’s system of colleges and universities. Since then, the university’s development has been marked by rapid growth and innovative planning. In this short period, the school has grown from 4,166 students to about 24,000. In 1979, GMU was given authority to grant doctoral degrees and that same year acquired what was to become the George Mason University School of Law, located at the Arlington Campus. GMU stands on a five-acre Arlington Campus and 124-acre Prince William Campus, in addition to the Fairfax Campus.

Although the university is building and growing on all campuses, Dr. Alan G. Merten, installed last year as university president, cautions that “Universities are not just places; universities are also ideas and communities. So, George Mason isn’t just acreage in Fairfax, Prince William, and Arlington.” He suggests that schools can no longer isolate themselves from the reality of the surrounding world, adding, “The modern university, the new university as symbolized by George Mason University, is going to be much more connected to the community. George Mason has deep relationships with an excellent set of companies and organizations. As important, we need to build relationships with many more institutions.”

President Merten has rededicated the school to what is known as the Mason Plan, developed in 1980, aimed at strengthening and promoting high technology, public policy, innovative undergraduate education, and the arts. Merten stresses, “I strongly support areas of emphasis that are identified in the plan. Each fits my view of the university of the 21st century, a university located in a technology-driven environment, 30 minutes from downtown Washington, D.C., the capital of the nation and, most would say, the capital of the world.”

It is true that George Mason University has achieved national and
international distinction. The innovative $30.4-million George W. Johnson Center, dedicated in 1996, is the first building of its kind. Part student union and part learning center, it combines student life resources with bountiful educational support facilities like an interactive library to create a comfortable campus workspace geared to the future. Named for the former president who led the institution for 18 years, retiring last year, the center fosters university-wide learning by integrating students’ curricular and extracurricular activities and by strengthening relationships between the university’s various communities. Educators from around the world have come to tour the center, where its eight acres of floor space and countless miles of wiring and computer hookups make for an astonishing futuristic model. The center houses a 25,000-volume book collection, media center, computer labs, bank, bookstore, convenience store, and food services.

New Century College (a new nontraditional college within the university) meets here, carrying out its aim of greater flexibility than traditional structure allows. Within New Century, learning isn’t measured by credit hours but by how well one can perform in the midst of actual work. Most GMU students still opt for the traditional education.

Other facilities open to the public include the Center for the Arts, Patriot Center, and Recreational Sports Complex. The three campuses have 122 buildings, half for student housing. The rest are academic, administrative, and student unions, sports and recreational facilities. The school is planning to build a new academic building on the Prince William Campus at a cost of $14.3 million along with a Regional Recreation Center for an additional $13.4 million. A two-pool swimming facility is under construction at the Fairfax Campus at a cost of $10.6 million, and an $18-million two-level underground parking garage is being completed on the Arlington Campus.

Since 1984, Robinson Professorships have brought outstanding educators, committed to undergraduate teaching and interdisciplinary scholarship, to the faculty. This comes as the result of a generous bequest from Clarence J. Robinson.

George Mason’s outstanding faculty includes James M. Buchanan, Nobel laureate in economics, as well as a long list of Pulitzer Prize winners, IEEE Centennial Medalists, and recipients of numerous Fulbright, Guggenheim, Mellon, National Science Foundation, and National Endowment of the Arts grants and awards. More than 760 full-time instructional faculty members, experts in a broad range of fields and published widely, contribute major research findings and consult with government and business.

Most of the university’s 23,820 students come from Virginia, but the other 49 states and 108 foreign countries are well represented. Full-time undergraduates, 18 to 24 years in age, make up the largest student group, but part-time graduate and undergraduate students, 25 and up, are on the rise.

Minority students make up just over 25 percent of the total enrollment. Five percent of the student population is Hispanic, 12.1 percent Asian American, 7.8 percent African American, and 0.3 percent Native American. Students may select from 55 undergraduate and 54 graduate (43 master’s and 11 doctoral) degree programs, or the professional (Law) program. Students receiving financial aid total 8,666 (30 percent) with an average aid package amounting to $6,861 and awards ranging from $100 to $36,509.

The university’s strong suit as a leader is in connecting the classroom to the future as well as to Washington, D.C. In 1983, in partnership with area businesses, GMU developed an engineering program geared toward the emerging information technology field and started the School of Information Technology and Engineering (SITE). Through SITE, George Mason was the first school in the country to offer a doctoral degree in information technology.

The establishment in 1990 of the Institute of the Arts solidified the university’s Mason Plan commitment to make the arts an integral aspect of students’ lives. The university’s revolutionary ideas are a fitting tribute to its Revolutionary War namesake.

Hispanic students make up five percent of the total student population at George Mason University. Minority students represent over 25 percent of total enrollment.

Latina health means we have to also care for our mind, our spirit, our families and even our environment.”

Dr. Jane L. Delgado

LATINA LEADERS COMMENT

Many Latino leaders have praised the book. Dolores Huerta, co-founder of the United Farm Workers, wrote that the book provided a “clear understanding that for Latinas, our health is more than just our bodies. Latina health means we have to also care for our mind, our spirit, our families and even our environment.”

“Known for placing family needs above their own all their lives, Hispanic women need to become more aware that caring for themselves is as important as caring for others,” wrote Antonia Coello Novello, a visiting professor at Johns Hopkins University School of Hygiene and Public Health, and former Surgeon General of the United States, in the forward of the book. “Since it is well known that when the health of a woman collapses, the health of the family of which she is the center collapses as well. Hispanic women—through this book—should feel more inclined to care for themselves.”

Other Latino leaders have said that the book doesn’t go far enough.

Araceli Panameno, executive
director of the Washington-based National Latina Institute for Reproductive Health, said that while she felt the book “can only help as another resource.” SALUD! did not go into the depth she had hoped on issues of reproduction, sexual orientation, contraception, and sexuality.

“It’s very basic,” Panameno said. “There’s still a lot of room for more discussion. Some of us are beyond [the issues raised in the book] and would like our communities to discuss reproductive health more in depth. Nevertheless, I think it is a positive contribution.”

Antonia Villaruel, an assistant professor at the University of Pennsylvania School of Nursing and president of the National Association of Hispanic Nurses, argued, however, that the book cannot be definitive “because women are always changing” and that SALUD! “is a good foundation on which to build.”

“I’m sure as people read it, they will say, ‘What about this and what about that?’” she said. “People just have to remember that it’s a first time effort. I think it’s a wonderful book. She does a good job of incorporating the women’s perspective from a broad spectrum of Latinas of all ages.”

Delgado, who since 1985 has been president of the Washington-based National Coalition of Hispanic Health and Human Services Organization (COSSMHO), a network of health, mental health, and human service providers, said that despite all of the praise for her book from leaders in the Latino community, one of the biggest challenges in writing and publishing it has been simply to get more Latinas to buy the book.

“One of the challenges is getting our community into bookstores to buy books in general, not just my book,” said Delgado.

The idea for the book came from her experience of working in 1983 for then-Secretary Margaret Heckler of the U.S. Department of Health and Human Services. Delgado was a key force in the development of the landmark Report of the Secretary’s Task Force on Black and Minority Health.

Sins of Omission

Delgado said that the experience showed her the lack of information available on the health of Latinas in general. When the report was published in 1985, for example, the U.S. government still did not include in its vital statistics information on the number of Hispanics who died in a given year. The federal government began collecting this data in 1989.

“Since mortality data for Hispanics were not available, no one could say how many Hispanics died of heart disease, cancer, or any other disease,” Delgado wrote in the book. “The assumption was that all minorities were the same, and what was true for the Black community would be true for Hispanics.”

According to Delgado, current research reflects many differences between Latinas and other U.S. women. Recent studies, for example, have found that Latinas metabolize drugs differently than do other women and tend to live longer than do other women. The only way to find out more about how Latinas react to different pharmaceutical drugs is for them to participate in clinical trials, which Delgado argues the Latino community has historically not participated in either out of reluctance or simply not knowing that these trials exist.

“Studies have shown that Hispanics tend to need lower doses of anti-depressants and tend to experience more side effects from them,” Delgado said.

But the issues of depression and suicide are striking in the Latino community, she said. The book notes that in 1995, 21 percent of Latina teenagers reported they had made at least one suicide attempt. [The source of this statistic is not cited, but each chapter includes a useful list of relevant resource organizations, hotlines, pamphlets, and other publications.] Delgado partially attributes the high rate of attempted suicide to the anti-immigrant mood plaguing this country.

Reproductive Health

It’s important, Delgado said, for Latino couples to discuss their infertility openly with healthcare providers to determine the cause and whether women should not feel inadequate if they have not been able to conceive because in about 40 percent of infertility cases, the male is the significant factor.

On abortion, Delgado said that most of the Latinas who have an abortion are married and have children and that abortion is a difficult topic for them.

“Most Latinas who have had an abortion still refer to their experience in terms of the baby they did not have,” wrote Delgado in the book. “For Latinas, it seems that once they know they are pregnant, they do not use the words embryo or fetus—it is their baby.”

Rx: Self-empowerment

“We live in a society that doesn’t value us and ignores our presence,” Delgado said. “This doesn’t affect just the undocumented. It affects all Hispanics. How people see us contributes to our self-esteem.”

A lack of self-esteem is very common among Latinas, and Delgado urges Latinas to learn to develop a better sense of self-esteem and to listen to their bodies. This means, along with regular check-ups with a doctor, Latinas need to focus on keeping their mind and spirit robust by learning to set limits with their family life and practicing whatever type of ritual—religious or otherwise—to keep feeling healthy. She stresses the importance of working with and learning from health- care providers, and keep that provider informed as to what ethnic remedies one is using, such as teas or herbs.

“How we Latinas care for ourselves begins with the mindset where we place our individual needs within the priorities set by our relationships with our families,” said Delgado.

Her own research for the book found that Latinas need more information about health care, Latinas must take more care over their health and their health care, and that healthcare providers need to be more culturally competent. Delgado argues that it is not enough to teach health providers basic Spanish.

“Why teach people key phrases when they don’t understand responses?” said Delgado, at that COSSMHO has written a number of cultural competence and Spanish cultural competence curricula for healthcare providers nation wide and in 1975 Delgado received her master’s degree in psychology from New York University. In 1981, she was named Ph.D. in clinical psychology by the University of San Diego and a master’s degree in urban and policy sciences by the Harvard School of Urban Policy Sciences. For more information about COSSMHO, Delgado, or the book e-mail to <www.cossmho.org>.
A two-part series in the New York Times in May offered the case of 34-year-old Rene Antonio Aquino, a “Dominican who is awaiting trial on drug charges in Hartford,” as fitting “the profile of the typical Dominican immigrant to New York City.”

Mr. Aquino, who “was one of the pioneers in expanding the territory of Dominican gangs,” arrived in New York “as a teenager with his parents, learned English reasonably well and became an ardent Yankees fan. Although he never finished high school, he managed to buy a bodega named Diana’s on Wilson Avenue in Bushwick, Brooklyn, and enjoyed a middle-class life, complete with sports cars and a couple of rental houses in Queens,” wrote reporters Larry Rohter and Clifford Krauss.

Two of those who bristled at this Dominican “profile” were the Dominican Ambassador Bernardo Vega and Dr. Silvio Torres Saillant, director of the CUNY Dominican Studies Institute at City College (New York City).

Ambassador Vega, in a letter to the Times, noted that “less than two percent of people of Dominican origin living in the United States have been involved in drug-related crimes” and cited a U.S. Embassy survey estimating that less than one percent of the Dominican population in his country under age 12 use cocaine and marijuana, compared with a six percent equivalent figure for the U.S. He also mentioned the more than 1,400 drug-related arrests in his country last year as evidence of its close cooperation with the U.S. in its war against drugs.

Dr. Torres Saillant denounced the articles and re-released findings from research projects conducted by sociologist Ramona Hernández, University of Massachusetts in Boston, economist Francisco Rivera-Báez, Columbia University, and demographer Roberto Agodini, doctoral candidate at Teachers College, under the auspices of the Dominican Institute, that showed the socioeconomic condition of a typical Dominican in New York to be far from that of a well-heeled middle-class property owner.

The second of those studies, Dominican New Yorkers: A Socioeconomic Profile (1997), received ample coverage in the NY Times last November and was referenced too in another article in December about Dominican poverty.
Torres-Saillant spoke about the negative articles at a CUNY conference attended by many anthropologists, sociologists, historians, literary scholars, curators, and artists working on Dominican topics in the United States today. He spoke "not as an advocate of the Dominican community but as a defender of academic truth and intellectual integrity." Portions of his speech are printed herein.

HO's computer search of the NY Times January-May coverage of Dominicans in the U.S. found that of "3 items, many were not about the drug trade but about athletes, artists, cigars, foods, religion, and travel. Most of them were short articles. A few were sympathetic human interest features.

But only one sentence within the extensive drug-related articles noted that Dominican drug-traders are the exception, not the rule: "Authorities from Maryland to Vermont find themselves struggling to locate their new adversaries in a sea of hard-working immigrants who have spread across the Northeast in search of a better future for their families."

TORRES-SAILLANT RESPONDS

"As a research program working within the constraints of a public university, we at the CUNY Dominican Studies Institute can do little to dissipate the contempt implicit in Rohrer and Krauss's disparaging portrayal of the Dominican community as inherently criminal. But we have an academic obligation to challenge the statistical validity of that portrayal. Rohrer and Krauss thoughtlessly ignore available data that would have dissuaded them from their outrageous claim. Our research shows that the typical Dominican immigrant does not enjoy the amenities of middle-class life but instead can barely make ends meet. This was further made evident by a recent New York University study that found Dominicans to have the lowest rate of home ownership among ethnic groups in the city and to be enduring a generally precarious housing situation. The New York Times itself covered the results of that study, which means that in the files of their own newspaper, Rohrer and Krauss could have found enough data to discourage their sweeping generalization about the life of luxury of the typical Dominican.

"The two New York Times journalistals failed to substantiate their assertion that the typical Dominican immigrant fits the profile of the drug lord that Mr. Aquino is reported to be. They draw lavishly on the opinions of named or unnamed interviewees to stress the emergence of Dominicans as the "biggest threat" faced by Drug Enforcement Administration agents, who view Dominicans as the dominant force in the wholesale cocaine and heroin trade on the East Coast. Rohrer and Krauss quote interviewees who observe that "the Dominican drug problem is beginning to assume a national perspective" and who equate the growth of illegitimate financial dealings in the New York area with the continued arrival of Dominicans in the United States: "Money laundering is definitely going up as Dominican immigration goes up."

The insinuation that drug trafficking and money laundering will continue to grow in the extent to which Dominicans continue to come to the United States is not borne out by scientific data of any kind. As a scholar, I would think that it is ill-advised to draw too close a link between ethnicity and crime. This late in the game, one no longer gives credence to genetically based theories of social illness. That sort of thinking shows a disquieting kinship to ideologies that harmed many lives in the not too distant past, causing most people of good will to distance themselves from them. A recent book by Robert Jackall entitled Wild Cowboys: Urban Marauders the Forces of Order (Harvard University Press, 1997) offers a preferable treatment of crime in the Dominican community. While Jackall concentrates on narrating the perilous travails of law enforcement workers in drug-infested areas like Washington Heights, and he exhibits no particular predilection for Dominicans, I unlike Rohrer and Krauss, has the decency of avoiding criminal renditions of the entire community. His focus on those Dominicans who make their living outside the law does not blind him to the fact that "Most Dominican immigrants fit the classic profile of hardworking, upwardly striving newcomers to America" (p. 62).

"I have no intention of denying that a drug problem exists in the Dominican community, as it does in any disempowered ethnic group whose members have largely been locked out of productive job markets. The lure of easy wealth in lieu of the great demand for narcotics pervading our American society often proves too hard to resist unemployed and ill-educated Dominican youngsters. But to caricature the community as inherently criminal, as Rohrer and Krauss are to engage in, a superficial kind of social analysis that one would judge to be beneath the dignity of the New York Times. Demeaning ethnic groups can hardly be a serious journalism. Any observe sound judgment would see that members of the Dominican community do not fall into one size pattern of action and thought.

All other members of the human family, they harbor sinners in their midst. In their pitiful impulse to see the suffering that drugs bring to Dominicans themselves, many of whom are police officers, Dominicans in the United States are not a distant "other." They intrinsically woven into this court population, and one cannot mithically disparage them without being fueling inter-ethnic strife of kind we have witnessed in Howard Beach, Bensonhurst, Crown Heights episodes.
REVOLUTIONARY PARTY (PRD), the ruling party's principal contender in the municipal and congressional elections that would be held in the country only a few days later. With an animosity that recalls the worst excesses of the jingoistic journalists who sought adamantly to provoke the wrath of Americans against Spain during the Cuban independence war of 1898, Rohrer and Krauss implicitly classified Dominicans in their homeland into two moral kinds. One is the righteous minority in the government, whose gallant president, the "Kennedy-esque" Fernández, is a blameless knight engaged in a crusade against drug traffic and corruption. The other is the rest of the population, the business sector included, which directly or indirectly colludes with drug traffickers and money launderers. Their first article actually reads as a publicity piece coming from the ruling party's campaign headquarters. Rohrer and Krauss besmeared the character and the career of PRD's venerated candidate and leader José Francisco Peña Gómez, who dropped dead on the same day that the article appeared. Although Peña Gómez had been fighting a stomach cancer for several years, one observer has conjectured that it was the shock of the article that precipitated his death.

"The New York Times" journalists' dehumanized depiction of Dominicans both in the Dominican Republic and in the United States severely mars their apparent intent to shed light on the drug problem either here or there. Defaming whole communities creates problems that we do not need in this city. Efforts to tackle the drug plague in Washington Heights and other parts of the city should seek to attract rather than alienate the Dominican community. Drugs are not an ethnic problem. They are a social problem. And we need all communities to help us solve it.

Efforts to tackle the drug plague in Washington Heights and other parts of the city should seek to attract rather than alienate the Dominican community. Drugs are not an ethnic problem. They are a social problem. And we need all communities to help us solve it.

Dr. Silvio Torres-Saillant is co-author with Dr. Ramona Hernández of The Dominican-Americans (Greenwood Press 1998), a book that makes it explicit that Dominicans in the United States are not an outside "other" just passing through, but are a permanent portion of the U.S. population with roots in this country that go back more than 150 years. The Dominican Institute publishes a Dominican Research Monographs series and has issued Frank Moya Pons' The Dominican Republic: A National History, the first major history available in English in the United States since 1928. When American diplomat Sumner Welles published his Nahoth's Vineyard: The Dominican Republic, 1844-1924.
Improvement Inadequate But Outlook Promising
La Raza Reports on Latino Education

Only 4.7 percent of Latino students are enrolled in programs that are academically rigorous. While there are several negative trends, one bright spot in this area is that between 1987 and 1994, the percentage of Latino students who took upper-level science and mathematics courses, including chemistry and geometry, increased.

While Hispanic education levels remain insufficient to be competitive in the current economy, even moderate, achievable increases can translate into major gains for the nation, according to a report released today by the National Council of La Raza (NCLR). State of Hispanic America: Latino Education: Status and Prospects. Latino Education offers an overview of Latino educational attainment and achievement, examines Hispanic participation rates in educational programs, assesses the proportion of Hispanic educators and administrators, highlights programs that are working for Lat children, examines obstacles to higher education, and outlines some policy implications.

The statistical analysis examines the experience of Hispanic students from pre-pri ry through higher education, looking at all points along the editorial pipeline. Latino student achievement has not kept pace that of other students. On specific measures that are predictor successful educational outcomes—including early childhood education, participation in gifted and talented, as well as in rigorous academic programs; and enrollment in higher education—educational system has far fewer Hispanic students.

“One of the most troubling findings of our research is that the very beginning. Hispanic dren seem to start on an un playing field,” noted Yzaguirre, president of the Nat Council of La Raza. “At a time the latest academic studies po the critical early years, our chi are not beginning their formal education at the same time as peers. The proportion of Latino three- to four-year-olds enroll in preschool actually decreased between 1985 and 1993, fro...

percent to 16.6 percent. More than twice as many White as Latino children were participating in such programs in 1993.

Moreover, as the report documents, relative to their eligibility, Latino children are not likely to receive early childhood educational development through federal preschool programs aimed at low-income children—and the gap is not narrowing. Between 1993 and 1996, the proportion of children living at the poverty level who are Latino increased from 24.6 percent to 29 percent. During the same period, Latino participation in Head Start increased from 15 percent to only 17.8 percent (not including migrant Hispanic children or those living in Puerto Rico).

“As they move through the school system, a significant segment of Latino children are not challenged to meet their potential,” stated Yzaguirre, pointing to data that show that Hispanic students are underrepresented in “gifted and talented programs.” For example, only 4.7 percent of Latino students are enrolled in programs that are academically rigorous. While there are several negative trends, one bright spot in this area is that between 1987 and 1994, the percentage of Latino students who took upper-level science and mathematics courses, including chemistry and geometry, increased.

Positive trends like this can fuel much-needed decreases in the dropout rate, “an area that has been persistently stubborn and discouraging,” noted Yzaguirre. According to a cumulative measure that counts all young adults who are not in school and have not graduated, known as the “status dropout rate,” three in 10 Latino youth (30 percent), compared to one in 14 White youth (27 percent) and one in eight African American youth (12.6 percent), are not in school and do not have a diploma.

“As a nation, we must understand that since one-third of all Hispanics are under 18, our future workers will be increasingly drawn from this pool of youth. We can compete in the world market and continue to keep our country strong only if all the members of our workforce are equipped with high-level skills,” Yzaguirre continued, “these data are more meaningful in the context of student [determination]. More than ever, the research shows that Latino students are ambitious, hopeful, and eager.” Between 1982 and 1992, the proportion of Hispanic high school seniors planning to attend college increased by 30 points to 75.4 percent. “If three-quarters of Latino students have a desire to attend college, we should collectively ask ourselves what we are doing to either foster or deter those dreams,” Yzaguirre challenged. He went on to point out that “the jobs in which Latinos are underrepresented—and which pay well and offer the most opportunities—are precisely those that require the most education and offer the best [opportunity] to push the U.S. economy forward. Because of the size of the Latino youth population, even modest improvements in Latino educational attainment mean a boon for the U.S. And the windfall is not only financial, but social and political—better neighborhoods, stronger communities, and a citizenry that will fully participate in building democratic values.”

In addition to closing the gap between Latino and other students in high school graduation rates, the report notes that significant disparities also exist in postsecondary education. In 1988, 34.8 percent of White high school graduates aged 18-24 were enrolled in college, compared to 30.8 percent of Latinos; by 1995, the enrollment rate gap between Latinos and Whites was almost nine percentage points (43.7 percent of Whites compared to 34.9 percent of Latinos). “What we have found is that while a greater number of Latinos are attending college, given the growth of the Latino population, the proportion of Hispanics attending college is still not at the level it should be. Also, these students are more likely to attend two-year, rather than four-year, institutions. We can only hope to achieve the gains we seek if improving Hispanic educational outcomes—at all levels—becomes a national priority,” Yzaguirre underscored.

In particular, Hispanic females made significant education gains since 1980 in both undergraduate and graduate enrollment rates. By 1997, the enrollment rate of Hispanic females had nearly doubled to 45 percent while that of Hispanic men was 36 percent.

The report points to the need for a strong federal role in providing opportunities for Latino students. According to Yzaguirre, "a good start would be passage of the President's Hispanic Education Initiative, which would provide $600 million to early childhood education, dropout prevention, college prep programs, and teacher training." But the report also notes that everyone, from states to public schools to businesses, must play a role in raising education levels.

Citing several examples of successful programs around the country, the report highlights the leadership that the Latino community has already demonstrated in efforts to narrow the educational divide between Hispanics and other groups. "Latino parents, educators, researchers, and advocates have proven that all Latino children can excel. From New York to California, there is good news for public schools and alternative community-based programs that show these downward trends can be turned around. It is not only possible but unavoidable that these successes are not happening everywhere, for all children," Yzaguirre expressed.

Improving Latino educational opportunities and outcomes is vital interest to all Americans. Although Latinos will constitute more than 40 percent of new force entrants over the next several decades, and will be increasingly responsible for maintaining Social Security, the national education system is not adequately preparing Latinos to meet this challenge. In fact, a recent Eager Corporation study showed that the educational level of Latinos is lagging behind that of Whites, with an estimated $40 billion in additonal tax revenues each year.

"As a nation, we have a choice to make: whether to continue to fritter away the future of future generations or to invest in and develop underutilized natural resources whose aspirations are bountiful and whose potential is enormous," Yzaguirre concluded. "Increasing resources is especially important in a global economy where the value of a commitment to Latino students is critical."
Santiago Joins Commission Staff as Liaison

Dr. George Santiago, Jr., has been appointed Executive Associate Director of the Commission on Higher Education, Middle States Association of Colleges and Schools.

A liaison for the region, his special emphasis will be on institutions in Puerto Rico. He also will participate in developing commission policies, task forces, publications, and instructional activities.

Santiago was Assistant Dean of the College of Science and Mathematics at Montclair State University (N.J.); Acting Director/Associate Director of EOP at Rider University (N.J.); Executive Assistant to the President at Law School Admission Services, Inc.; and Assistant Dean of Students at Rutgers University (N.J.).

He received his bachelor's degree from Rutgers University and both his master's and doctorate from Pennsylvania State University.

Carlos Acevedo Editor of EWU Easterner

Carlos Acevedo has been named editor of the Easterner, Eastern Washington University's student newspaper. Originally from Puerto Rico, Acevedo is a junior journalism major at the university.

He was a staff writer and news and features editor for the Easterner and previously a reporter and editor of The Fourth Estate, the student newspaper at Walla Walla Community College. A 1997 graduate of the Department of Defense Military Journalism program, he is editor of the Air National Guard newsletter at Fairchild Air Force Base. Acevedo served in the U.S. Coast Guard 1990-1994 and is now in the National Guard.

This summer he was one of 16 college newspaper editors nationwide to attend the Pointer Institute in St. Petersburg, Fla., for an all-expenses-paid seminar in ethics and leadership in college journalism.

Yor Mary Vargas in London on Scholarship

Colombian native Ms. Yor Mary Vargas, a student of St. Augustine College (Ill.), studied in London, England, this summer through a Service Learning Scholarship from the Association of Episcopal Colleges, awarded in an international competition. Vargas attended the Roehampton Institute of Higher Education for academic instruction and practical work experiences designed to foster community service.

St. Augustine, the only bilingual college in the Midwest, recently implemented the first bilingual Bachelor of Social Work degree in the State of Illinois. A member of many organizations such as HACC and the Association of Episcopal Colleges, the college integrates cultural and spiritual values with its educational programs.

Rebollo Wins 1st Place at CSU

Luis Enrique Selva Rebollo of California State University-Los Angeles garnered first place at the 12th annual CSL Student Research Competition. Of the 22 California State Universities, 21 participated, and nearly 170 students entered.

Rebollo is a graduate student in the Department of Physics and Astronomy. His faculty mentor is physics professor William A. Taylor, CSL-Los Angeles. The title of his research presentation was "Ion Induced Electric Field Transient...The Single-Event Gate Rupture."

Rebollo's interesting and innovative paper included information in the field of physics never previously presented. He elicited thought-provoking questions from the judges, who were experts in the physical sciences and in mathematics.

CSU-Los Angeles's Robert C. Jones, under the guidance of faculty mentor Jennifer Faust, professor of Philosophy, was also a first place winner.

Rebollo received his B.S. degree from the University of Southern California and is now pursuing a doctorate in physics.

TWU Student/Teacher Team on New CD

Texas Woman's University (TWU) student Leslie Enlow, co-founder of the nonprofit International Manuel Ponce Society, has signed up with Audio Sound and Vision (ASV) Recordings, a major British record label, to release a CD featuring new recordings of the music of Ponce, a Mexican composer.

Musicians she recruited included TWU adjunct professor Carlo Perzimenti, with whom she studies classical guitar; Cuban-born, Dallas-based pianist Marta Urruea; and...
Trio Tulsa, an Oklahoma-based chamber music ensemble specializing in Mexican music and women's music that has toured extensively in Central and South America and Mexico.

Elnow said she is excited that the music of Ponce—legendary in Mexico but virtually unknown elsewhere—will gain international exposure through the release of the CD slated for early 1999. Most of the pieces have not been recorded elsewhere; thus the CD will represent a world premiere.

**Congressman Torres Congratulates RHC Grads**

California Congressman Esteban E. Torres was a featured speaker at Rio Hondo College's (RHC) 1997-98 graduation.

Recipient of RHC's 1997-98 Distinguished Service Award, Torres has served California's 34th Congressional District with 16 years of hard work and consistent support of RHC and its community.

With a Hispanic student population of 69 percent, RHC is designated a Hispanic Serving Institution, eligible to receive federal funding to support that population. A member of the Congressional Hispanic Caucus, Torres was integral in gaining an increase of funding from $10 million to $12 million in FY '98.

RHC's Mexican-born valedictorian, Sergio Garza, who earned a a perfect 4.0 GPA, enters California State University-Los Angeles this semester to pursue a degree in clinical psychology.

**CSUN Graduates Overcome Personal Obstacles**

The tenacity and dedication of three CSU-Northridge (CSUN) students paid off in the form of diplomas.

Joseph Anuñez, an arts/theatre administration major, originally enrolled 10 years ago, but financial difficulties forced him to drop out. He re-enrolled in fall 1994, one semester after an earthquake ravaged the campus.

Returning wasn't easy. Sole support of his wife and two daughters, Anuñez, 40, worked 40 hours a week as an executive secretary at CSUN, 15 to 20 hours a week at the Learning Tree University, and somehow squeezed in a few classes each semester.

Gabriela Chavira, 25, who received a master's degree in general experimental psychology, interned as a psychology teacher while taking classes, reinforcing her desire to become a college professor. A fellowship will fund her four-year postgraduate education at the University of California-Santa Cruz, which starts this month.

Marvin Villanueva, 23, remembers being five years old and preparing to leave El Salvador with his mother after the murder of his stepfather in 1980. Now, after six years at CSUN, he has graduated from CSUN with a triple major—liberal studies, Chicano studies, and child development—and wants to become an elementary school teacher.

He spent his last semester carrying 24 units and volunteering as a tutor for elementary and high school students, and working with the organization Para Los Ninos.

He will take pre-credential courses at CSUN and then apply to the LCLA for his master's degree and teaching credential.

**SMU Anthropologist Studies Mexican Community**

Ian Mast, graduate student in Southern Methodist University's (Texas) Department of Anthropology, is studying a 20-year-old village in Dallas that is an extension of a poor village in Mexico. Most of the men came from Mexico to live in a section of Dallas in a tightly bound extension of their traditional families that enables them to retain their heritage and culture. They work in blue-collar jobs and send their money home, returning occasionally to visit family and friends.

Among the issues that Mast explores: How are lives configured in such circumstances, where people are chasing cap around the globe and leaving their families behind; how do families function; what makes citizenship and nationality play; and in what purpose does government serve in such situations?

Mast hopes his study will "bring a human face to the issues of immigration" and immigration lawmakers understand how proposals would affect people's lives whether the laws would achieve their purpose.

Mast, a Fulbright scholar who speaks Spanish fluently, received a grant from Social Science Research Council.

**Rafael "Ray" Vega Earns Distinguished Nevadan Award**

Every year since 1959, the Board of Regents of the University and Community College System of Nevada has conferred the prestigious award on a handful of outstanding Nevadans. Known as the Distinguished Nevadan, it is bestowed for significant achievements in the cultural, scientific, social, and educational advancements of Nevada and its citizens.

One honoree is successful and civic-minded businessman Rafael "Ray" Vega, who has served on the board of directors of: Chamber of Commerce, Lake Mead Hospital, Nalton Conferences Christians and Jews, and the Nevada Motor Purchasing Council. Vega has served on the Sheriff's Hispanic Advisory Committee, Nevada Commission on Economic Development, Las Vegas Chamber of Commerce, Nevada Motion Picture Division, Southern Nevada Women's Commission.

**Cortez to Study in Spain**

Paula Cortez, graduate student Bicultural-Bilingual Studies at the University of Antonio, studied Spanish children's literature this summer in Spain through a scholarship.

An elementary school teacher, Cortez, one of 34 Texas ESL educators chosen to attend the 11th Summer Institute in Children's Literature in Madrid, The Texas Education Agency, in collaboration with the Spanish Ministry of Education and Culture, sponsored the three-week program on the use of Spanish literature in the bilingual/ESL classroom.
Advertising CEO Authors Latino Self-Help Book

Sosa's current clients are: Anheuser-Busch; America's Health Network; Dr. Pepper; Hispanic Scholarship Fund; Seagram Crown Royal; Texaco Retail; and United States Cellular.

He is the founder of Sosa, Bromley, Aguilar, Noble & Associates, (now Bromley-Aguilar) the largest advertising Hispanic agency in the U.S. With billings of $150 million, their clients included Burger King; Coca-Cola USA; M&M/Mars; Phillips; Polaroid; Proctor & Gamble; Sprint; and Western Union.

A member of both the Reagan-Bush and the Bush-Quayle Presidential advertising teams, Sosa has received many awards and recognitions, including Hispanic Business magazine's 1996 Hall of Fame.

M-DCC's Gancedo Wins Lectureship

Dr. Alex Gancedo, Miami-Dade Community College (M-DCC) history/political science professor, has won a prestigious German Marshall Fund Visiting Scholar Lectureship, the first community college faculty member to be so honored.

Gancedo will present seminars and lectures at universities in Berlin, Bonn, and Munich, and will meet with the German Ambassador and the diplomatic corps.

In Germany in April and May, he will lecture on the Helms-Burton Act, on the legal status of Santería in the U.S., and on several aspects of Cuba's relationship with the U.S. and Europe.

At M-DCC for eight years, Gancedo teaches regular and honors courses in state and local government, American federal government, the social environment, and leadership. He is faculty advisor to the college's nationally acclaimed Model United Nations delegation.

He holds a bachelor's degree and a Juris Doctor from Florida State University, and a postgraduate certificate from England's Oxford University.

Abalos Book Teaches Transformation

The Latino community, the fastest growing ethnic group in the United States, has long been told that assimilation is the only way to succeed in American society. A book by David T. Abalos, La Comunidad Latina in the United States: Personal and Political Strategies for Transforming Culture, challenges that view and concludes instead that transformation as a way of life is the only viable option, regardless of racial, class, regional, or religious differences.

The book, released by Praeger Publishers, highlights how in everyday life community members can recognize the patterns of relationships that cripple them, and learn to break with them to create fundamentally more loving and compassionate alternatives.

Abalos, a Professor of Religious Studies and Sociology at Seton Hall University (N.J.), has lectured and written extensively on multicultural and gender scholarship, and also on Latinas and Latinos in the U.S. from the perspective of the politics of transformation.

Teja Arboleda Autobiography Released

Teja Arboleda, entertainer, educator, lecturer, and Emmy Award-winning producer and author, recently published his autobiography, In the Shadow of Race, which recounts his life as a multiracial and multiethnic American. The book challenges institutionalized notions of ethnicity and class and illustrates the enigma of cultural and racial identity and the American identity crisis.

Arboleda has for over five years toured grade schools, college campuses, educational conventions, and corporations with "Ethnic Man," a live-performance, one-man show about coming to terms with personal, family, and social identity and its inherent implications for the socio-cultural identity of America.

A producer for the PBS documentary series Frontline, he has been featured in the New York Times, Washington Post, Boston Globe, Boston Herald, Detroit Free Press, Dallas Morning News, and on CNN, PBS and MTV.

His company, Entertaining Diversity, has published a series of educational videos, a teachers' guide to understanding diversity issues, and multicultural curriculum guides.

In the Shadow of Race (ISBN 08058-2757-4) is available in paperback from Lawrence Erlbaum Associates, Inc., for $24.50. To order, call: (800) 9-BOOKS-9/(800) 926-6579.

Pre-College Camp at Saint Mary's

"El Campo de Cultura y Conocimiento" (The Camp of Knowledge and Culture), a pre-college camp that provides young Latina women the opportunity to explore the challenges and benefits of higher education, was held recently at Saint Mary's College, Notre Dame, Ind.

Fifty-six high school sophomores and juniors from Indiana, Texas, Illinois, New York, New Mexico, and Michigan participated this year. All students selected for El Campo received scholarships covering all but travel and incidental expenses.
During their stay, El Campo's participants attend classes on practical applications of chemistry, Latin American literature, fine arts and computers, and workshops in cultural identity, leadership, the college admissions process, financial aid, and the transition from high school to college.

**Mexican View of Alamo Explored at Colorado State University**

Colorado State University has conducted an exploration of events surrounding the Alamo from the Mexican point of view.

Daniel Martínez, historian for the National Park Service, used diaries and reports of the Hispanic principal players to provide a different look at the battle of the Alamo. Supported by slides and contemporary observations and scholarship, Martínez presented a historic reappraisal and new perspectives.

He joined a series of speakers visiting Colorado State University's campus this summer to explore Western expansion under the program's theme, "Manifest Destiny and the West to 1890." Other highlights of the program included a discussion on the conquest of New Mexico, and a presentation on the relocation of Native American Indians.

Martínez won the National Park Service's Special Achievement Award in 1980, 1988, and 1995. He has taught history in high school and has worked as a park ranger.

**Chapman Gets Grant to Study Diversity**

The James Irvine Foundation (Calif.) has awarded Chapman University (Calif.) a grant of $490,000 to support two new initiatives that focus on diversity—one to increase student body diversity and one to broaden academic opportunities.

The first project, "Educating Students for Diversity in Science," funded at $265,000, seeks to attract more minority students to study the sciences at Chapman, beginning with an outreach effort to awaken local minority high school students to the excitement of the sciences and to show them how these fields can lead to career opportunities.

The second project, "Educating Global Citizens of the Twenty-first Century: Cities and Civilizations," is funded at $225,000 to support the creation of a new, multi-disciplinary course for Chapman's Cultural Heritage I general education requirement. Utilizing technology to further independent and interactive learning, this course will be linked to intensive foreign language study and to study abroad, providing an enriching preparation for global citizenship.

**ASU, Inroads, and Internships**

Thanks to Inroads, a non-profit career development organization, 54 Arizona State University (ASU) business and engineering students got their feet wet in a corporate pond this summer, learning how to be good business and industry employees.

Motorola, Del Webb Corp., Bank One Arizona, and IBM are a few of the giants who provided summer internships for talented minority students who might have had limited access to corporate careers.

The interns didn't make coffee—they learned marketing, accounting, and procurement and worked with planning and development teams and earned competitive salaries.

Roxanna Chávez, 20-year-old pre-business student, worked on a research project at IE with ASU doctoral marketing students, tracking customer satisfaction.

Ivan Rascon (pictured), 18, entered the program right out of high school and now in his second summer with Phelps Dodge Corp, working as a computer support technician and multimedia specialist. He is an A business major with an eye on an international career.

Eddie López stepped into an account position with Bank of America in May after finishing his degree. Now 22, he interned with the company for three years. "It was a dare internship," said Lopez. "I came into a real job."

**De la Peña McCook Helps USF Earn National Reputation**

During Kathleen de la Peña McCook's years as its director, the University of South Florida's (USF) School of Library and Information Sciences has achieved notable results in graduation rates, outreach programs, and grant support. Out of 57 library and information science schools in the U.S., Canada, and Puerto Rico, USF produces more graduates per faculty than other.

Through McCook's initiative, the school currently ranks among the top ten in the U.S. and Canada in the number of minority graduates. In 1995, only 76 percent of librarians in the U.S. were Black, and only 1.3 percent Hispanic. With librarians from diverse backgrounds being highly sought, USF is meeting the need with 15.9 percent of the school's graduates in 1995 coming from minority backgrounds. Outside of Puerto Rico graduates more Hispanic librarians than other school in the nation.

McCook recently received the $10,000 American Library Association's (ALA) Elizabeth Hutson Catalyst for Change Award, which recognizes librarians who wor
change, mentor young librarians, and inspire colleagues to excel.

**Newsmakers at University of South Florida**

**USF** Cuban film-maker Gloria Rolando, Judge EJ Salcines, and University of South Florida (USF) history Professor Kenya Dworkin y Mendez attended Tampeños y Tabacos, a community forum on Tampa's Cuban roots held in April. Rolando was to direct a related documentary film, *Hands Across the Water*.

In recognition of Women's Awareness Month, the USF-St. Petersburg campus held the annual Women's Symposium, sponsored by the St. Petersburg Area Chamber of Commerce. Among those attending were Luisa Perez-Harvey, president of the Hispanic Professional Women's Association; featured speaker Rosita Perez, and Bill Heller, dean of USF-St. Petersburg.

As part of a semester-long internship, speech pathology major Terrie Hernandez read to young children at the San José School in Dover, Fla. The internship program is sponsored by the Farm Labor Support Committee, a university-wide group addressing the needs of communities in USF-Tampa's vicinity.

Tara Welch, Michael Kirschner, Angela Walker, and Carlos Rodriguez were the first recipients of the newly created Passport Scholarships for study abroad in Latin America and the Caribbean.

**USF Latino Scholarship Students**

In May, Latino Scholarship students Alex Paloma and Brandon Rodríguez graduated magna cum laude from the University of South Florida. They are enrolling in medical schools this fall, at USF and Penn State, respectively. Graduates Stacy Ortiz and Justin Diaz are law school-bound while Cristina Nasso, another honors graduate, and Joucy Alvarez are enrolling in graduate school at USF. Marketing major Lázaro Sosa is entering the Tampa, Fla., workforce. Theater major Iracel Rivero, an August graduate, is heading for the bright lights of Chicago, while Miguel Morales will have completed his first year of USF medical school by the time he receives his bachelor's degree with honors.

On August 18, 1998, the Latino Scholarship seventh annual awards ceremony will take place, honoring 20 new scholarship recipients who are entering first-year students and community college transfers and 60 continuing students whose scholarships are being renewed.

**M-DCC Foundation Announces New Board Members**

Miami-Dade Community College Foundation, Inc. (Fla.) recently announced the appointment of ten new board members, representing some of the community's most influential business and civic leaders. The Foundation, created in 1965, manages more than $40 million in assets and provides over $1 million annually in student scholarships.

The responsibilities of the newly appointed board members include securing financial resources and tangible assets for M-DCC, and working to heighten community-wide awareness of M-DCC's needs and educational opportunities.

New members include: Carolina Calderón, chief executive officer, Pan American Hospital; Eduardo Masferrer, chair and CEO, Hamilton Bank; Carlos Planas, president, Tamiami Automotive Group; and Julio González-Rebull, Jr., sr. vice president, Masec, Inc.

Victor M. Díaz, attorney, Podhurst Orseck, Detroit Meadow Olin & Perwin, P.A., is among the new board members who will serve for three years.

**Summer Study in Costa Rica**

A Study Abroad Program in Costa Rica for the summer of 1999, is being offered by the College of DuPage (III.) Liberal Arts division. Students can acquire firsthand knowledge of the people and culture of Costa Rica while immersing themselves in the Spanish language. Excursions include a banana plantation, a rain forest, a cloud forest, and the city of Cartago.

Participants will receive 10 quarter hours of credit, five in Spanish language and five in the culture and civilization of Costa Rica.

For more information, call the college’s Liberal Arts division. (630) 942-2047.

**Yale Expands Minority Librarian Program**

A four-year grant of $220,000 from the Andrew W. Mellon Foundation will allow Yale University to expand its Librarian-in-Residence program, which brings talented minority librarians to New Haven, Conn., for a two-year term. Thanks to the new funding, Yale will add a second resident to the program, which started in 1995 with the aim of increasing diversity of experience among librarians at Yale and furthering the professional growth of individual minority librarians.

Yale president Richard C. Levin stated pride in being part of the diversity program "and thereby enabling an environment capable of sustaining intellectual discovery."

Citing Association of Research Libraries data indicating 11.28 percent minority representation in the professional ranks of its member libraries, university librarian Scott Bennett said that staff diversity is critical and must be pursued vigorously.

**Cal State-LA Students Win Top Marketing Prizes**

California State-Los Angeles students have won the Top Marketing [Project] Award and Top Region Award at the 1998 Pi Sigma Epsilon (PSE) National Competition in Virginia.

Margaret Pérez Sánchez, Teresa Casneros, and Marie Esperanza were part of a group that defeated more than 60 PSE marketing teams from other universities around the country.

The winning project was developed through a General Motors Marketing
Internship project. Students partnered with
the Bewley Allen Cadillac Dealership, executed
the Cadillac Catena project in the spring
quarter, 1997, and presented it before a panel
of eight judges. The student team was ques-
tioned about the development, implementa-
tion, and assessment of the marketing plan,
and was assessed on its ability to communi-
cate and to present effectively.

PSI Epsilon is a national, professional, co-
educational fraternity in marketing, sales,
management, and selling created to promote
related careers, and is now identified as one
of the strongest forces motivating college
students to enter the fields.

Harbor Graduates Earn President's
Award

Nine Los Angeles Harbor College (Calif.)
graduates have received the President's Distinguished Honor Award from the college,
and 12 others were candidates.

Among those receiving the award were
Acela González and Norma Luz García. Other
candidates included Gail Etta Amos and
Blanca Iris Jiménez.

The award is presented to Harbor College
students who have completed the require-
ments for a two-year associate degree and
who have earned a grade-point average of 3.7
or better for all college work.

Colorado Mountain College
Responds to Changing Population

Located in Summit County, is working
hard to serve a changing popu-
lation.

With an unprecedented increase in foreign
population, CMCS Summit Campus is adding
several evening ESL classes, a citizenship class,
and a class where Spanish and ESL students
teach one another. Under development is a
Family Literacy class.

From 1993-1997, ESL enrollment at CMC has
increased 362 percent. The citizenship class
will prepare permanent residents for the natu-
ralization process. The Family Literacy class
will offer language development for the entire
family with child care provided for the
youngest members. The class, which mixes
conversational Spanish students with ESL stu-
dents, will enable both groups to help one
another with language skills and development.

Leaping Language Fences at Our
Lady of the Lake

"Leaping Language Fences/Cruzando
Idiomas" is the title of the Poets of the Lake
1998 Poetry Festival to be held November
5-9 at Our Lady of the Lake University
(Texas).

This year’s events will focus on "code-
switching" in lan-
guage as expressed in poetry, theatre,
song, and other forms
of creative expression. "Code-switching" can
be defined as "the alternate use of two or
more languages or varieties of language espe-
cially within the same discourse."

Headlining the festival are two of the most
widely recognized English/Spanish code-
switching poets, Carmen Tafolla and Gloria
Anzaldúa. Other nationally recognized poets
reading are Angela de Hoyos, Evangelina Vigil-
Piñón, and Naomi Shihab Nye. Local poets
Kitty Williams, Olga Samples Davis, Alicia
Galván, and Enedina Casarez Vázquez will
perform, among others.

Theatrical productions include a perfor-
mance of Sequestered Soliloquy, an origin-
ally written by Galván and performed by
Galván and Vázquez. Dramatic readings
include "Voces del Barrio" and "Listen
Querido, They're Playing Our Song," featuring
the works of Rosemary Catacalos.

Scholarly presentations round out the fest-
ival. Dr. José Limón, Professor of English and
Anthropology at the University of Texas, will
discuss the development of code-switching
throughout South Texas. Dr. Steven Kellman,
an Ashbel Smith Professor of Comparative
Literature, will discuss "translanguaging and
the literary imagination." And Norma Cantú,
Professor of English at Texas A&M
International University in Laredo, will talk
about "Girlhood in la frontera."

LCC Cadets Score High on State
Exam

The May 1998 graduating class of the
Laredo Community College (LCC) Regional
Police Academy achieved a 90 percent pass-
ing rate on the Texas Commission on Law
Enforcement Officer Standards and Education

(TCLEOSE) exam.

Of the 31 "A-98" cadets to complete the tra-
ing, 25 of 28 cadets achieved a passing score;
other three were already TCLEOSE-certified.

The cadets underwent 16 weeks of inten-
sive training on topics ranging from the pe-
code to family abuse to traffic law. They
learned defensive tactics and mastered
firearms shooting.

The "A-98" cadets are: Carlos Agreda,
Balerio Andrade Jr., Mario Casarez Jr., Err
Chávez, Rolando Elizalde Jr., Félix Esquivel,
José L. Estrada, Roberto García, José Gar
Walter González, Narciso González, Chuy
Hill, José Hinojosa, Manuel Maciel, Pepe
Malacara, Jesús Martínez, Samuel Reyes, A
Rodríguez, R. James Salaz, Heriberto Sánchez,
Roberto Santos, Marcos Serna, Francisco Só
José Torres, Héctor Villarreal, Juan Villarraga,
Gerardo Wachowski, and Rubén Yáñez.

The LCC Regional Police Academy ranks
the top 10 percent of academics statewide ac-
hing high passing rates on the TCLEOSE exam.

Beyond Comfort Zones in
Multiculturalism: Confronting the Politics of Privilege
Sandra Jackson and José Solís, eds.

A critique of multicultural education confron-
tes the comfort zone in most of us authors present a new vision of multicultural education that is transformative and re-
tionary. This is a confrontational addi-
tion to the canon wars and will be useful supplem-
entary reading for graduates and underr
Women's Leadership in a Changing World

Ana Maria Brasileiro, ed.

In Latin America and the Caribbean, the recognition of the differential nature, power, and potential of women's leadership has emerged simultaneously with the increasing inability of governments to meet the basic needs of their citizens and the growing demands of women to participate in the public arena. This book, from the UNIFEM series "Reflecting on Experiences in Latin America and the Caribbean," offers practical examples of how women are organizing to meet this challenge.

CONFERENCES

HACU 12th Annual Meeting

September 27-30
The Hispanic Association of Colleges and Universities will hold its 12th Annual Meeting at the Hyatt Regency on San Diego Bay, San Diego, California. HACU is the national association representing institutions of higher education that have at least a 25 percent Hispanic student enrollment, with a mission to champion Hispanic success in higher education. The meeting will feature workshops, panels, seminars, and nationally profiled speakers.

Contact: Gloria Cummins. (203) 692-3805, ext. 18.

Legal Issues in Higher Education

October 4-6
The University of Vermont's 9th annual conference, designed to address the most pressing legal challenges that higher education professionals are currently facing. Keynote speakers include Stephen Hirschfield, counsel to the University of California, the University of San Francisco, and Hastings College of Law; Judith Ramaley, president of the University of Vermont; and William Sloane Coffin Jr., retired Yale University Chaplain, civil rights activist. At the Sheraton Hotel and Conference Center in Burlington, VT.

Contact: Carol Fournier-Gunter or Vivianne Farmer. (802) 656-2088.

The Minority Student Today: Recruitment, Retention, and Success

October 11-14
By promoting an understanding of the nature of fundamental reforms and institutional changes needed in American higher education to eliminate structural barriers, this event seeks to identify opportunities to achieve multicultural and balanced academic programs. Sponsored by the University of South Carolina Division of Regional Campuses & Continuing Education, in cooperation with the University of the Incarnate Word. In San Antonio, Texas.

Contact: (803) 777-9444 or <Conf@GWM.SC.EDU>. Conference Web site: <http://web.csd.sc.edu/content/mst.htm>.

National Preservation Conference

October 20-25
National Trust for Historic Preservation's 52nd national conference, with the theme "The Art of Preservation," convening in Savannah, Georgia. Between 2000 and 3000 committed preservationists from around the country are expected to explore the interplay of historic preservation and the arts, and how they shape communities.

Community leaders and students from culturally diverse backgrounds might be eligible for scholarship assistance to help in covering costs of registration, travel, and accommodations. Contact: Cultural Diversity Scholarship Program, Southern Regional Office, National Trust for Historic Preservation, 456 King Street, Charleston, SC 29403. Deadline is June 15.

Contact: (803) 722-8552. Web site at <www.nthp.org>; e-mail to <soro@nthp.org>.

Study USA - Mexico '98: Forging the Vision

October 21-23
Three-day education fair designed to enable American educational institutions to establish reciprocity agreements with Mexican institutions—leading to the participation by students from Mexico and the U.S. in exchange programs and an enhanced diversity at the involved schools. Co-hosted by the U.S. Trade Center's Department of Commercial Service and Kivo Expositions in Mexico City.

Contact: Charlotte Adams. (919) 881-7888, or <kivaxpo@yahoo.com>.

1998 New Jersey Project Fall Conference

October 23
This conference will showcase the work of educators from a variety of disciplines who use literature—novels, short stories, poetry, and other forms—to integrate gender and multicultural content and perspectives into their courses. At The College of Saint Elizabeth, Morristown.

Contact: The NJ Project at (973) 720-2291 or <nj_project@wpc.wilpaterson.edu>. Information also available at the NJ Project Web site: <www.wilpaterson.edu/wpcpage/icip/njIndex.htm>.

Second Annual Hispanic Law Conference

November 7
Hosted by the American University Washington College of Law, co-sponsored with the Hispanic Bar Associations of the District of Columbia, Maryland, and Virginia. The day of the conference will feature one session with panels, roundtable discussions, and the presentation of Impact of Hispanic lawyers in the legal profession, including their roles in the judiciary, academia, politics, and business.

In Washington, D.C.
Contact: Aurora Carmichael. (203) 274-4004 or <deans-office@wcl.american.edu>.

Círculo de Cultura Panamericano

November 13-15
The annual convention. Special session on Federico García Lorca in the centenary of his birth, the 100th anniversary of the end of the Spanish-American War, and the centennial of the '98 Spanish Generation. Sponsored by William Paterson University (N.J.). At the Holiday Inn in Totowa, N.J., a WPU.

Contact: Círculo de Cultura Panamericano 16 Malvern Place, Verona, N.J. 07044-2554.

November 16-17
The 24th annual conference of the Texas Association of Chicanoos in Higher Education. Leaders from higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business, community college, and higher education business.
Howard Hughes Medical Institute

Fellowships for Biological and Biomedical Sciences

The Howard Hughes Medical Institute announces the 1999 competitions for fellowship programs that support training in fundamental biological and biomedical research. Awards, based on international competitions, focus on research directed to understanding basic biological processes or disease mechanisms. Fellowships may be held at academic or nonprofit research institutions.

Predoctoral Fellowships in Biological Sciences

Up to five years of support for full-time graduate study toward a Ph.D. degree in cell or developmental biology, genetics or molecular biology, immunology or microbiology, mathematical biology or epidemiology, neuroscience or physiology, structural biology or biochemistry or related fields. Applicants must not have completed the first year of postbaccalaureate graduate study in biology. Application deadline: mid-November.

Postdoctoral Research Fellowships for Physicians

Three years of support for training in fundamental research subsequent to at least two years of postgraduate clinical training and no more than two years of postdoctoral research training. Application deadline: early December.

Research Training Fellowships for Medical Students

An opportunity for medical students in the United States to explore a burgeoning interest in fundamental research. Support is awarded for one year of full-time fundamental research in a laboratory at the student's medical school or another institution (except NIH in Bethesda, Maryland). Application deadline: early December.

Research Scholars at the National Institutes of Health

Under this joint HHMI–NIH program, medical students in the United States spend an intensive year in research in the intramural program at NIH in Bethesda, Maryland. Residence is provided at the Cloister on the NIH campus. Application deadline: early January.

The Howard Hughes Medical Institute, an Equal Opportunity Employer, welcomes applications from all qualified candidates and encourages women and members of minority groups to apply.
OHIO STATE

ASSISTANT PROFESSOR

Applications are invited for a tenure-track faculty position at the Assistant Professor level in the Department of Microbiology at the Ohio State University. We seek applicants with postdoctoral experience, documented evidence of high quality research, and a strong commitment to teaching and research at a major research university. The successful candidate will be expected to establish a productive, independent research program with extramural support, and to teach at the undergraduate level, supervise Ph.D. students, and participate in graduate education. Preference will be given to applicants with research expertise in microbial physiology or computational methods.

A competitive salary, excellent research space, and substantial start-up resources are available. Applicants should submit a curriculum vitae, summary of research plans, and the names of three references to:

Dr. Kathleen E. Kendrick
Chair Search Committee
Department of Microbiology
The Ohio State University
494 West 12th Avenue
Columbus, OH 43210

The Department guarantees full consideration for all applications received by November 1, 1998.

The Ohio State University is an Equal Opportunity/Affirmative Action Employer. Women, members of minority groups, Vietnam-era veterans, and individuals with disabilities are strongly encouraged to apply.

Our web site is http://www.biosci.ohio-state.edu/~microbio/

ASSISTANT DEAN OF GRADUATE ACADEMIC AFFAIRS

The primary function of this position is to identify, recruit, retain, and graduate students from the underrepresented groups, especially but not exclusively minority groups. The candidate will help formulate policies in these areas, be a liaison to grad student representation, and serve on the Academic Assembly. The candidate will work with the University to create and maintain graduate academic issues including the Learning Skills Center and the International Graduate Assistant Training Program provide academic advising to graduate students as needed, and to take on other duties as assigned by the Dean of Graduate Student Affairs. The qualified candidate should have a Master's degree. Doctorate is strongly preferred. Work experience in 1+ of the areas is desirable. Strong interpersonal and organizational skills, and excellent oral and written communication skills are required. Position requires travel.

Send cover letter and resume with Job# AD2561 to:

Organizational Development and Employment Services
20 Thadwood Drive
Ithaca, NY 14850

CONREN

AFFIRMATIVE ACTION/EQUAL OPPORTUNITY EMPLOYER

ASSISTANT PROFESSOR/INSTRUCTOR

Political Theory

The Department of Government invites applications for a full-time, tenure-track position in Political Theory at the rank of Assistant Professor or Instructor, beginning September 1999. Candidates should be capable of teaching courses in the following fields: Classical, Modern, Contemporary, and American Political Thought. The successful candidate will also be expected to teach a lower division course on critical issues in contemporary politics and to participate in Skidmore's Liberal Studies program. The normal teaching load is three courses per term, six per year. Completed Ph.D. or ABD status in Political Science is required.

Applications may be submitted until the position is filled. A letter of application, curriculum vitae, teaching evaluations (if available), and three letters of recommendation should be sent to: Professor Aldo C. Vaca, Chair, Department of Government, Skidmore College, 815 N. Broadway, Saratoga Springs, NY 12866-1632.

Skidmore College encourages applications from women and men of diverse racial, ethnic, and cultural backgrounds.

Visit our website at http://www.skidmore.edu
Washenaw Community College

COMMUNICATIONS INSTRUCTOR

A comprehensive two-year college dedicated to student, community and staff success is presently seeking an individual for the position of Communications Instructor. This individual will teach both first and second year college-level courses in Communications. The majority of the base load assignment will consist of first semester speech and interpersonal communications courses. The college is located in the city of Ann Arbor, MI, a community of over 100,000 whose growth and vitality is supported through a cultural enrichment of the arts, entertainment, Big Ten Sports, and the surrounding metropolitan area.

The successful candidate must possess a Master's degree in communications, speech or related discipline and two years full time successful college teaching experience (equivalent of 900 student contact hours). Receipt of official WCC application form in the Office of Human Resource Management is 5:00 p.m. on December 18, 1998. Anticipated date of appointment for this position is for the 1999 Fall semester. The initial annual base salary is $34,330-$45,980 dependent upon education and work experience; base load of 32 weeks (800 days/450 contact hours per academic year. Numerous fringe benefits include health, dental, life insurance, and Michigan Public School Employees Retirement System.

Interested persons should send official completed WCC application form with credentials (transcripts) to Washtenaw Community College, Office of Human Resource Management, First Floor, Business Education Building, Room 120, 4800 E. Huron River Dr., PO Box D-1, Ann Arbor, MI 48106. (313) 973-3497. Job Hotline (313) 973-3510. For job postings see our website at: http://www.washtenaw.cc.mi.us/jobs. Note: Applicants must submit with the application documentation to establish minimum qualifications. Specifically, all college transcripts (student copies acceptable) and candidates statement of the number of clock hours taught in front of students for current and/or past teaching appointments. Complete all parts of the official application, failure to do so may affect your consideration for this position. Resumes will not meet this requirement.

Washenaw Community College, through its affirmative action policies, is seeking candidates who will augment the diversity of its faculty, staff and administration. Washenaw Community College is an Affirmative Action/Equal Opportunity/ADE employer.

Senior Associate Director of Admission
Office of Admission

Wellesley College is seeking a Senior Associate Director of Admission in the Office of Admission. Responsibilities include managing daily operations of office and recruitment processes. Work in conjunction with Dean on marketing strategies and the budget. Supervise and train staff. Represent Dean in her/their absence. Oversee the Publications Communication function, including the annual revision of all major admissions publications, the processing of applications and records, decision making and special mailing projects, technology, the internet and e-mail, search campus visit programs, daily mail, Board of Admission representatives, student help involvement in all components of the Admission program, including travel, interviewing and reading applications.

Requirements: Bachelor's degree required, Master's preferred. Minimum 5 years of Admissions experience. Excellent interpersonal, verbal, written and public speaking skills necessary. Ability to work under pressure, outstanding organizational and problem solving skills. Personable ability to exercise initiative, set priorities, work independently and demonstrate confidentiality and discretion. Enthusiastic, detail-oriented person. Candidates should possess a professional demeanor, strong public relations skills and sense of humor.

Admission Counselor/Assistant Director
Office of Admission

Wellesley College is seeking an Admission Counselor/Assistant Director in the Office of Admission. Responsibilities: Recruit prospective students through high school visits, parent/student gatherings, college fairs, and presentation programs. Evaluate candidates for admission to the College. Coordinate and work with alumnae admission representatives to organize travel interview prospective students and select applications.

Requirements: Bachelor's degree or two years of admission or related experience; strong interpersonal skills; strong written and oral communication skills. Education or admission related work preferred. If interested, send cover letter indicating the specific position and a resume to: Patricia E. Fahey, Associate Director of Employee Relations, HOC, Wellesley College, Wellesley, MA 02481. Applications will be accepted until the position is filled.

Wellesley College cannot accept applications from ethnic minorities.
Eastern Michigan University invites applications and nominations for the position of Dean of Graduate Studies and Research. The Dean is responsible for the general operations of the Graduate School and the Office of Research Development in a comprehensive, multipurpose regional university that prides itself in the quality of its teaching faculty and its developing research focus. The Dean reports to the Provost/Vice President for Academic Affairs and is a member of the advisory council of academic deans.

Eastern Michigan University is located in a dynamic, culturally rich community west of the Detroit metropolitan area. Its five academic colleges are Arts and Sciences, Business, Education, Health and Human Services, and Technology. The university enrolls more than 23,000 students, including more than 5,000 in graduate programs. EMU offers graduate degrees in 37 academic departments representing nearly 70 master’s, specialist, and doctoral programs. Additional doctoral programs are expected in the near future and the Dean will have significant involvement in the development and operation of these new programs. Sponsored project activity has grown more than 50% in the past four years and exceeded $13 million during FY98. The Dean provides executive leadership for the Office of Research Development by promoting faculty research and scholarly and creative activity; by fostering the integration of the research and service missions of the university with student learning; and by developing policies governing the conduct of research at the university.

The successful candidate must possess an earned doctorate, preferably in a field that is represented in EMU’s graduate programming, and must hold credentials that are commensurate with those required for the rank of full professor. Higher education administrative experience is required, with preference given to candidates with experience in the administration and evaluation of graduate programs and in the development and management of sponsored projects. The successful candidate must also possess:

- High standards of personal and professional integrity;
- Ability to build support for a vision for the continuing development of graduate education and research in a comprehensive institutional setting;
- A record of effective academic and administrative leadership fostering the scholarly and research activity of the faculty and the university;
- Strong interpersonal, organizational, and communications skills necessary to advocate for graduate education and research to various internal and external constituencies.

Review of applications will begin on or about September 15, 1998 and will continue until finalists have been identified. Interviews could begin as early as October, with an anticipated starting date between January 1 and July 1, 1999, depending on candidate availability. For consideration, submit letter of interest, vita, brief statement outlining vision for graduate education and research, and list or at least four references, including telephone numbers, to:

Chair, Search Committee

OSWEGO

SEARCH RE-OPENED

DEAN OF THE SCHOOL OF EDUCATION

The State University of New York at Oswego invites applications and nominations for the position of Dean of the School of Education. Oswego State is a comprehensive academic institution with a highly competitive student body of 6,800 undergraduate and 1,000 graduate students being served in the School of Education, the School of Business, and the College of Arts and Sciences. Originally founded in 1861 as the Oswego Normal School by Edward Austin Sheldon, the college became a charter member of the State University System in 1948. The campus is located on the shore of Lake Ontario, 40 miles north of Syracuse and 60 miles east of Rochester in Oswego, the port city of central New York with 20,000 residents.

The School of Education is comprised of six departments: Counseling and Psychological Services, Curriculum and Instruction, Educational Administration, Technology Education, Health and Physical Education, and Vocational-Technical Education. The Dean reports to the Vice President for Academic Affairs and is responsible for the supervision of these academic departments offering 36 undergraduate and 14 graduate degree programs serving 1,600 undergraduate and 550 graduate students with 130 faculty.

The Dean provides leadership in the areas of curriculum, strategic planning, faculty and staff development, budget and grant development. The Dean is also expected to foster collegial relationships with other units within the college and to develop partnerships with school districts and educational agencies. Oswego State is actively seeking NCATE accreditation. The Dean will have a key leadership role in the NCATE process.

The candidate should have:

- an earned doctorate in one of the areas within the School of Education
- demonstrated commitment to the recruitment and retention of students and faculty of color
- proven ability to work and communicate effectively within the college and with the educational community in general
- proven ability to foster innovations in response to current public education issues and trends
- demonstrated dedication to affirmative action and multicultural education
- demonstrated commitment to excellence in teaching
- a record of scholarly and creative activities
- experience with preparing and administering budgets
- interest in expanding programs in international and urban education
- experience in public schools and academic administration

Salary will be commensurate with qualifications and experience. Review of applications will begin December 1, 1998. Minorities, persons with disabilities, and women are encouraged to apply. Nominations or letters of application, curriculum vitae, and names, addresses, and telephone numbers of three references should be sent to:

Susan Ansara, Administrative Liaison 
Dean of Education Search Committee 
708 Culkin Hall 
Oswego State University 
Oswego, New York 13126

Washtenaw Community College

LIBRARIAN-ASSOCIATE

A comprehensive two-year college dedicated to student, community and staff success is presently seeking a candidate for the position of Associate Librarian. Under the supervision of the Dean of Learning Resources, the Associate Librarian is responsible for development of media and electronic format collections and provides general reference and research education services to the Learning Resource Center (LRC). The College is located in the city of Ann Arbor, MI, a community of over 100,000 whose growth and vitality is supported through a cultural enrichment of the arts, entertainment, Big Ten Sports, and the surrounding metropolitan area.

The successful candidate must possess a Masters degree in Library Science or Information Studies from an American Library Association accredited program, minimum of two years of full time equivalent experience in a library.

Applications will be accepted until the position is filled.

The initial annual base salary is $33,330-$44,640 dependent upon education and work experience: 2080 hours on a twelve month base, with numerous fringe benefits.

Interested persons should send completed WCC application form and transcripts to the Office of Human Resource Management, Washtenaw Community College, 4800 E. Huron River Dr., Box D-1, Ann Arbor, MI 48106. (734) 973-3497 Job Hotline (734) 973-3510. For job postings see our web site at: http://www.washtenaw.cc.mi.us/jobs/. Note: Transcript, student copy acceptable, must accompany Application form in order for candidacy to be considered further. Complete all parts of the official application. Failure to do so may affect your consideration for the position. Resumes will not meet this requirement.

Washtenaw Community College, through its affirmative action goals, is seeking candidates who will augment the diversity of its faculty, staff, and administration. Washtenaw Community College is an AA/EEO/ADA employer.

OSU PRESIDENT

OKLAHOMA STATE UNIVERSITY

Dean of the College of Arts & Sciences

Oklahoma State University
Stillwater, Oklahoma

The Board of Regents for Oklahoma State University invites nominations and applications for the position of Dean of College of Arts & Sciences. The Dean reports to the Executive Vice President, Office of Academic Affairs.

The College of Arts & Sciences is a dynamic academic organization comprised of 38 tenured or tenure-track and 15 part-time non-tenure track faculty. It provides an environment that encourages faculty personal and professional development, student attainment of academic and professional success, strong partnerships with private and public sector organizations, and enhancement of its excellent reputation. The college is comprised of 21 academic departments and two schools in a variety of disciplines within the natural and social sciences, the fine arts, and the humanities. Through these units, the college offers undergraduate degrees with minors available in 46 fields of study, M.A. masters' and 14 doctoral degrees. Current enrollment includes 4,500 undergraduate students 540 master's students and 2,000 doctoral students. In 1985-86, the college granted 11 undergraduate and 203 graduate degrees.

QUALIFICATIONS: Candidates should possess proven administrative skills, preferably at higher education, a thorough knowledge of the philosophy and mission of a college of arts and sciences, a knowledge of the philosophy and mission of a land-grant university, demonstrated capacity to work effectively with faculty, staff, students, and leaders in business and industry, other educational agencies and institutions, and evidence of ability to attract external funding. Preferred minimum qualifications include an earned doctorate in one of the disciplines included in the college, at least three years of administrative experience at a comprehensive research university, or equivalent scholarly achievements in teaching and research. and the ability to work and communicate effectively with all publics served by the college.

SALARY: Commensurate with qualifications.

BEGINNING DATE: As soon as possible following acceptance of position.

To ensure full consideration, a letter of application curriculum vitae, and the names, addresses and telephone numbers of five references should be received no later than October 6, 1998. However, applications will continue to be accepted until a successful candidate is appointed. Applications and nominations should be submitted to:

Dr. Cary Trenepohl, Chair, Search and Screening Committee, c/o Office of the Executive Vice President, 101 Whitewater Hall, Stillwater, OK 74078-1011, or by E-mail: dwcenter@okstat.edu

Oklahoma State University is an Equal Opportunity, Affirmative Action Employer. Women and minorities are encouraged to apply.
At IUN

- The Chancellor serves as the chief executive officer of the campus, works with the chancellors of seven other IU campuses and reports to the President of Indiana University.
- The position requires achievement warranting the rank of full professor, and experience as a principal administrator. The Chancellor should bring an understanding of university traditions, and ideas and energy that will make the resources of the campus useful to all the citizens of northwest Indiana. IUN is a campus on the move, and an energetic, forward-thinking, and strategically minded colleague is sought who can work in partnership within a complex, academically oriented environment.

IUN

- Serves a large metropolitan area and surrounding rural counties. The region has a vibrant history of industrial, social, and economic change. Its diverse industries, businesses, and professions offer many opportunities for productive collaboration among faculty, staff, students and members of the community. IUN is ideally located 35 minutes from Chicago’s Loop.
- The campus is the most ethnically, racially, and economically diverse of all IU campuses. IUN provides its students with a comprehensive grounding in arts, sciences, and humanities and strong professional and vocational programs leading to two-year, four-year, and graduate degrees.

At IUN

- There are 186 resident faculty assisted in their responsibilities by nearly 200 members of the staff and by associate faculty drawn from neighboring academic institutions and area businesses. The student body at IUN numbers approximately 5,500 persons working toward certificates and associate, baccalaureate, master’s, and doctoral degrees. Of that number, over 600 are enrolled in graduate studies.
- The chancellor will be selected early in 1999. The search is currently underway and screening of materials has begun. For full consideration, material should be received by October 15, 1998. A Position Prospectus describing the opportunity in more detail is available to interested individuals. Nominations are welcomed, and applications should include a resume and cover letter addressed to:

  Chair Kenneth L. Perrin  
  IUN Chancellor Search Committee  
  C/O Human Resources  
  Indiana University Northwest  
  3400 Broadway  
  Gary, IN 46408

IUN is being assisted in this search by Educational Management Network/Witt/Kieffer. Confidential inquiries and a copy of the Position Prospectus may be directed to Gary J. Posner or E. Kay Dawson, 615-665-3388, or via e-mail to IUN@emnmc.com.

Additional information about Indiana University and IUN is available on its website at http://www.indiana.edu. Indiana University is an equal opportunity, affirmative action employer.

ASSISTANT PROFESSOR/INSTRUCTOR
Comparative/International Politics/Russia and Eastern Europe

The Department of Government invites applications for a full-time, tenure-track position in Comparative Politics, with an emphasis on Russian and Eastern European politics and foreign policies, at the rank of Assistant Professor or Instructor, beginning in September 1999. Candidates should be capable of teaching courses on Russian and Eastern European political systems and international relations. Ability to teach a course on Chinese domestic and/or international politics is also desirable. Successful candidates will also be expected to teach a lower division course on critical issues in contemporary politics and to participate in Skidmore's Liberal Studies Program. The normal teaching load is three courses per term, six per year. Completed Ph.D. or ABD status in Political Science is required.

Screening of applications will begin in January 1999 and continue until the position is filled. A letter of application, curriculum vitae, teaching evaluations (if available), and three letters of recommendation should be sent to: Professor Aldo C. Vacs, Chair, Department of Government, Skidmore College, 815 N. Broadway, Saratoga Springs, NY 12866-1632.

Skidmore encourages applications from women and men of diverse racial, ethnic and cultural backgrounds.

THEORETICAL DIVISION DIRECTOR

The Theoretical Division Director provides scientific leadership and manages an organization of 250 people engaged in basic and applied research in theoretical physics, chemistry, biology, and mathematics. The Division also carries out theoretical and computational research in support of Laboratory programs including nuclear and conventional defense, nonproliferation, energy and basic sciences, and industrial collaborations.

Candidates for the position must have demonstrated significant accomplishment in a theoretical scientific discipline and a record of scientific leadership. Experience in technical management in a research organization is also highly desirable. Candidates must have a Ph.D. in a scientific discipline or equivalent combination of education and experience.

Ability to obtain a DOE Q-clearance, which normally requires U.S. citizenship, is required.

For details on responsibilities and requirements for the position, consult http://www.fr.lanl.gov/jobexternal for job ad #093834. Further information on Theoretical Division research activities may be found at http://www-ttd.lanl.gov. For questions about this ad, please call Mark Trupka at (505) 665-6592.

For consideration, please send your resume referencing "HOHO983834" to jobs@lanl.gov (no attachments, please) or to Human Resources Division, Los Alamos National Laboratory "HOHO983834" Mail Stop P286 Los Alamos, NM 87545 www.lanl.gov EOE

Florida International University

Florida International University seeks a Provost who, as Chief Academic Officer and second only to the university president, will provide critical leadership for a rapidly growing research university located in one of the most dynamic and diverse regions of the nation.

The University. FIU, located in Miami, is a research university and one of the fastest growing member institutions of the State University System of Florida. Opened in 1972, FIU enrolls over 30,000 students on two major campuses. Through its 13 Colleges and Schools, FIU offers over 200 academic programs, including 25 doctoral programs in the liberal arts, sciences, and professions. FIU has an established and rapidly growing reputation for excellence in research and a strong history of diversity and minority representation among students, faculty, staff, and administrators. For further information about the University see our page on the World Wide Web at URL http://www.fiu.edu and specific information relating to this position on http://www.fiu.edu/Provost

Responsibilities. The Provost serves as a member of the President’s Executive Council and presides in his absence. As Chief Academic Officer, the Provost is responsible for the strategic planning and fiscal affairs of all academic programs. The Provost provides academic leadership to the deans and faculty and represents the university on all academic matters. He/she serves as liaison to the Board of Regents and local, state, and national communities on such matters. The Provost works through the deans to oversee administration of academic programs on two major campuses, including curriculum development and evaluation, academic policy, academic personnel policy and procedures and academic space management. The Provost provides leadership and oversight for 3 research centers and institutes and oversees administration of all academic support services.

Qualifications. We seek candidates with a distinguished record in research and teaching, significant administrative experience in a complex, multi-cultural university, and demonstrated skills as a leader, innovator, consensus builder, and supervisor. Salary competitive and commensurate with experience.

The Community. Miami combines an exceptionally rich environment of cultural, educational, and health care institutions with diverse community and a marvelous subtropical climate. It is an integral part of South Florida which is one of the fastest growing regions of the nation.

Application Procedures. Nominations and applications must be postmarked by October 8, 1998. Send letter of application, resume, and list of at least three references to the chair of the Search Committee: Dr. Arthur Herrnstrom, Dean, College of Arts an Sciences, Florida International University, University Park Campus, Miami, FL 33199

Wellesley College

Wellesley College, a premier liberal arts college for women located 12 miles from Boston, seeks applications for a Research Analyst position in its Office of Institutional Research. The Research Analyst will work closely with other members of the team-oriented department to design and manage research projects that evaluate issues important to the college’s decision makers, conduct survey research, provide data analysis and executive reports on short- and long-term studies, and respond to internal and external requests for information. This appointment has high growth potential.

Requirements: Master’s degree in a social science with experience in evaluation and research in a higher education setting. Ability to conduct all aspects of research projects. Excellent quantitative, writing, and oral presentation skills. Expertise with Windows 95, Word, Excel, SPSS, and Access. Ability to work well with people.

Wellesley College seeks a Research Analyst with the following background: experience in academic and educational research, and victimology.

Wellesley College Wellesley MA 02481
Applications are considered until the position is filled.

Wellesley College especially welcomes applications from ethnic minorities.

Go to the head of the class.

It's never too early to think about your future career path. Which direction should you head in? What is your ultimate destination? Consider going to the head of the class by obtaining your business doctorate and becoming a professor. Think about it - getting your Ph.D. will give you the power to influence and inspire other talented young minorities like yourself to pursue a business career and diversify the work force of Corporate America.

If you're an African-American, Hispanic-American or Native American, The PhD Project is your link to your doctorate. The definitive source for everything you need to know to reach that goal. Think of it as your Ph.D. guidance counselor.

Then think about this - obtaining your doctorate and becoming a business school professor will not only encourage greater minority participation in business careers, it will also better prepare all students to work in a diverse environment. And as for you? It is your opportunity to realize a dream, to make a difference, to mentor a generation and, ultimately, to diversify America's business leadership.

If you are interested in pursuing your Ph.D. upon graduation, The PhD Project can help you. And, if you think you might consider pursuing a Ph.D. at some time in your future, The PhD Project will be there for you. Call 1-888-2GET-A-PHD for more information or visit us at www.phdproject.com for complete details.

For more information, visit our website at www.phdproject.com

UNIVERSITY OF CONNECTICUT
SCHOOL OF SOCIAL WORK

Invites Applications for Two Tenure Track Faculty Positions in CASEWORK

The University of Connecticut School of Social Work, a leader in MSW graduate education in Connecticut and throughout the New England region, is an integral part of the State’s flagship, land and sea grant Research University. It shares with the other units of the University the pursuit of excellence in teaching, research and scholarship, and a commitment to public service that brings the knowledge of the University to the people of the State and the world. The curriculum of the School of Social Work is a two year, 60 credit master’s program that focuses on methods as its primary approach to advanced concentrations. These methods are Administration, Casework, Community Organization, Group Work and Policy and Planning. Applications for two tenure track faculty positions in Casework are being sought. Faculty duties will include teaching in this method concentration as well as in the foundation and elective curriculum, student advising and field consultation, research and scholarship, and service to the School, University and the community. The expected date of the appointment is September 1999.

Assistant/Associate Professor (depending on qualifications)
Requirements:
- MSW and five years casework practice with racially diverse/ethnic communities
- Doctorate in social work or related field; candidates with ABD with completion in near proximity will be considered
- Previous experience in teaching and student supervision is required
- Expertise in substance abuse, health: families or mental health is preferred
- An established record of scholarship is also preferred
(Search # 99A35)

Associate/Full Professor (depending on qualifications)
Requirements:
In addition to the qualifications specified in the above Assistant/Associate Professor position announcement, the Associate/Full Professor should also hold the following:
- An established record of scholarship and publications particularly related to Casework Practice
- Significant previous teaching experience on the Master’s and Doctoral levels
- Recognition as an educational leader on the national level related to Casework Practice
(Search # 99A36)

Applications will be accepted until the positions are filled. Screening will begin immediately. Please send curriculum vitae including the names, addresses and phone numbers of three references to: Associate Dean Catherine Havens, University of Connecticut School of Social Work, 1798 Asylum Avenue, West Hartford, CT 06117-2698. We encourage applications from under-represented groups including women, minorities and people with disabilities.

Dean of the College of Education and Human Service Professions

The University of Minnesota Duluth invites application for a full-time 12-month position as Dean of the College of Education and Human Service Professions (CEHSP) beginning July 1, 1999. The Dean is responsible for academic leadership of the College, administration of ongoing programs and resources, program development and maintenance of effective linkages with the community including fund-raising strategies, and maintenance of productive administrative relationships at UMD and with other units of the University of Minnesota System. The Dean also provides leadership required to continue national accreditation of the College’s programs.

Applicants must have a doctoral degree in a field offered in CEHSP, a record of teaching, research, and service that is acceptable for tenure in a CEHSP academic department and three years of administrative experience at or above the department head level. They must also have a record of administrative leadership and managerial experience and of encouraging, promoting, and increasing cultural and human diversity. Further, they must have excellent communication skills and the ability to develop and foster external relations with public and private sectors.

Applications must include a) a letter describing experience and strength as they relate to the position; b) a current resume; c) a separate personal statement identifying the applicant’s philosophy of and commitment to promoting cultural and human diversity and record of affirmative action accomplishments; and d) the names, addresses, and phone numbers of three references who may be contacted.

Formal review of applications will begin December 1, 1998, and continue until the position is filled. Applications and related information may be obtained from and completed applications mailed to:

AMHERST COLLEGE announces six tenure-track openings at the Assistant Professor level and one position with rank open beginning in the 1999-2000 academic year.

AMHERST COLLEGE is an undergraduate liberal arts college for men and women, with 1650 students and 165 faculty. Located in the Connecticut River Valley of western Massachusetts, Amherst participates with Hampshire, Mount Holyoke, Smith and the University of Massachusetts in the Five College Consortium. For all faculty positions, completion of the Ph.D. or appropriate equivalent is expected. Candidates should have a strong commitment to undergraduate and interdisciplinary teaching in a liberal arts context, a well-articulated plan for sustained research.

BLACK STUDIES: Twentieth-Century African-American culture and society. Assistant Professor. Appointment may be joint with American Studies or English department. Candidates are expected to have teaching and interests in an interdisciplinary approach to the study of race and the black experience, and may be expected to offer courses in other disciplines such as literature, history, or the social sciences. The successful candidate will be expected to participate in the Black Studies Department’s team-taught introductory course, which is multidisciplinary and treats Africa, the Caribbean, and African America. The Black Studies Department at Amherst consists of faculty with joint appointments in traditional departments, and considers questions of race and the black experience in richly interdisciplinary and international contexts. Send letter of application, CV, and three letters of recommendation by December 1, 1998 to Search Committee, Black Studies Department, Box 2251, Williston Hall, Amherst College, Amherst, MA 01002-2251.

CHEMISTRY. Inorganic Chemistry. Assistant Professor. The successful candidate will be expected to teach introductory chemistry as well as inorganic chemistry at the advanced undergraduate level, and will have the opportunity to participate in interdisciplinary teaching. She or he will also be expected to establish a vigorous research program in experimental inorganic chemistry in which undergraduate students can substantially participate. Applicants should submit a detailed CV and a description of their teaching and research plans, and should arrange for the forwarding of three letters of reference, all to: Dr. J.N. Kushlick, Inorganic Search Chair, Department of Chemistry, Box 2243, Amherst College, Amherst, MA 01002-5000 by October 30, 1998.

COMPUTER SCIENCE. Computer Systems. Assistant Professor. The candidate’s research can be in any area of computer systems, broadly construed, including operating systems, programming languages, compilers, architecture, and networks. Departmental responsibilities include teaching a wide range of undergraduate courses and supervising undergraduate honors theses. Submit letter of application, CV, graduate transcripts, descriptions of research and teaching interests, and three letters of reference to: Chair, Computer Science Search Committee, Department of Mathematics and Computer Science, Box 2239, Amherst College, Amherst, MA 01002-5000. Applications received by January 15, 1999 will be assured of full consideration. E-mail inquiries to cs@amherst.edu.

ECONOMICS. Macroeconomics. Assistant Professor. The Department’s priorities include: strong training in macroeconomic theory and related empirical techniques; competence and willingness to teach the department’s intermediate macroeconomics course, macroeconomic electives, and our introductory course. Amherst College offers a two-semester sequence in economics. Macroeconomics is the prerequisite course. Applicants should have a Ph.D. in economics, preferably obtained by August 1999. Send letter of application with CV to: Search Committee, Economics Department, Amherst College, Amherst, MA 01002-5000 by December 1, 1998.

FINE ARTS. Sculptor Rank Open Tenure track. MFA and teaching experience required. Strong exhibition record expected. Teach all levels of sculpture and drawing. Candidate must have experience overseeing a full sculpture studio, equipment and facilities, and a commitment to undergraduate and interdisciplinary teaching. Submit four to eight portfolio slides, a CV, and a letter of recommendation. Deadline for completed applications is November 30, 1998. The Department will select interview dates. Submit materials to: Chair, Fine Arts Search Committee, Department of Fine Arts, Box 2201, Amherst College, Amherst, MA 01002-5000.

HISTORY. Latin American History. Assistant Professor. The Search Committee will be expected to teach one course per semester. Courses will include both general and specialized courses in Latin American history, as well as departmental courses for majors. Strong commitment to undergraduate and interdisciplinary teaching expected. Curriculum vitae, teaching statement, and three letters of reference by August 1999 to: Search Committee, History Department, Amherst College, Amherst, MA 01002-5000 by December 1, 1998.

PHYSICS. Experimental Physics. Assistant Professor. The College seeks an experimental physicist with broad intellectual interests and a strong commitment to undergraduate teaching and to research of ongoing interest to undergraduates. Preference will be given to candidates with postdoctoral research and teaching experience as well as to candidates whose research plans provide opportunities for on-site undergraduate participation. Start-up funds are available. Interested Applicants should submit a current CV, a list of publications, and a letter describing plans for teaching and research. In addition, they should arrange to have three letters of recommendation sent to: Arthur Zajonc, Chair, Department of Physics, Box 2244, Amherst College, Amherst, MA 01002-5000.

Applications are encouraged from qualified candidates who are members of groups underrepresented in physics.
Policy and Planning ANALYST

The College of Letters & Science Student Academic Affairs (SAA) invites applications and nominations for the full-time position of Policy and Planning Analyst. The initial appointment period is for one year and will be renewed in subsequent years contingent on satisfactory performance. This position is generally responsible for information and policy analysis regarding a wide variety of issues affecting Student Academic Affairs units and students. A substantial portion of this work is related to the units of Multicultural Academic Programs and Services (MAPS).

Responsibilities:
- Designs and develops analytical methods, procedures, and strategies appropriate for evaluation and analysis of issues affecting SAA units and students
- Establishes guidelines and procedures to ensure adequacy, quality, and reliability of information
- Reviews, monitors, and evaluates programs and services as an aid to management decision-making
- Summarizes findings, prepares reports, presents policy recommendations for units, programs, college, and campus
- Serves on campus committees

Educational Qualifications: Terminal degree required but will consider MA/Ms with equivalent experience in a field involving analytical and quantitative skills

Position Availability, Salary, and Application Procedure: The position is full-time and will be available January 1, 1999. Salary level is dependent upon qualifications with a minimum salary of $45,000. The deadline for applications and nominations is October 1, 1998. Applications and nominations should be submitted to:

Search and Screen Committee
Attn: Kim Edwardson
Office of Student Academic Affairs
College of Letters & Science
104 South Hall, 1055 Bascom Mall
University of Wisconsin-Madison
Madison, WI 53706

Applications should include a resume, a statement of interest in the position, three letters of reference, and a writing sample. Questions may be directed to Kim Edwardson at the above address, telephone 608/265-5461, fax 608/263-7126.

Assistant Professor

The University of Wisconsin-Madison is an affirmative action/equal opportunity employer.

Vice Chancellor for Research

Applications and nominations are invited for the position of Vice Chancellor for Research. The Vice Chancellor is the chief research officer for the campus, responsible for encouraging, organizing, advocating for, and leading the University's research activities. The Vice Chancellor for Research reports through the Senior Vice Chancellor for Academic Affairs to the Chancellor. Other responsibilities include oversight for the University of Nebraska State Museum, the University of Nebraska Press, and technology transfer.

It is expected that the successful candidate will hold an earned doctorate and have a substantial record of scholarly research and extramural funding, qualifications meriting appointment as a tenured full professor, proven administrative experience, and the potential for providing dynamic and successful research leadership.

The University of Nebraska-Lincoln is an AAU Research 1, land-grant institution with a distinguished tradition of research in all the major disciplines. It is designated as the principal research and graduate institution in the state.

Applications and nominations will be accepted until the position is filled. Candidates are encouraged to complete applications (including letter of interest, vita, and list of references) by October 1, 1998, when the Search Committee will begin reviewing applications. Women and minority group members are especially encouraged to apply. A full position description and instructions for the option of submitting applications on line are available at:

www.unl.edu/uvacca/Activities/vcr.html
or may be requested in hard copy from the address below. Applications and nominations should be sent to:

ASSOCIATE DEAN FOR STUDENT AFFAIRS

University of Illinois at Chicago College of Medicine

The University of Illinois College of Medicine at Chicago invites applications for the position of Associate Dean for Student Affairs. The University of Illinois at Chicago College of Medicine is the largest college of medicine in the United States with some 14,000 graduates engaged in teaching, research, and patient care. An internationally renowned faculty of 4,000 at four locations across the state, Chicago, Peoria, Rockford, and Urbana-Champaign, dedicate themselves to educating more than 1,300 medical students each year. The UIU College of Medicine is committed to the education of physicians who are motivated toward, and capable of providing, a high standard of professional service. The College emphasizes the importance of a diverse student body with graduates who will address state and societal health care issues.

The Associate Dean reports to the Senior Associate Dean for Educational Affairs and is primarily responsible for the organization and oversight of comprehensive student affairs program for students at the University of Illinois College of Medicine at the Chicago campus. The incumbent is expected to serve as a student advocate in responding directly to student needs and in providing resources to assist students during the course of their education. This person also relates to Student Affairs counterparts at the regional sites of the College and coordinates selected college wide activities.

Applicants must possess a terminal degree, 15 years experience in a healthcare role field and have demonstrated proficiency teaching, eligible or holding a faculty appointment in the College of Medicine Public Health or other Health Profession.

Interested candidates should send a letter interest, a curriculum vitae, and three letters of reference with telephone numbers addresses by October 3, 1998 to:

Mr. Curtis Wingert, Deputy Director
Office of Human Resources
The University of Illinois College of Medicine at Chicago
1853 W. Polk Street
Room C180, M/C 874
Chicago, Illinois 60612

The University of Illinois at Chicago is an Equal Opportunity/Equal Access Employer.
Experimental Medical Physics/Biophysics

The Physics Department of the University of Utah is seeking highly qualified candidates for a tenure track faculty position at the assistant, associate, or full professor levels in experimental medical physics or biophysics. Research specialties of interest include but are not limited to magnetic resonance imaging (MRI), functional imaging, diagnostic angiography, microangiography, perfusion imaging, NMR microscopy, optical imaging, membranes, neurobiophysics, cell biophysics, motor molecules, protein structure/function. We seek candidates with strong commitments to both teaching and research. Successful candidates will be expected to teach undergraduate and graduate courses in physics as well as medical physics or biophysics, depending on the candidate’s specialty.

Candidates should submit their curriculum vitae, list of publications, and at least three letters of recommendation by February 15, 1999 to:

Medical Physics/Biophysics Search Committee
Department of Physics
115 South 1400 East, Room 201
University of Utah
Salt Lake City, UT 84112-0830

The University of Utah is an Affirmative Action Equal Opportunity Employer. It encourages applications from women and minorities and provides reasonable accommodations to the known disabilities of applicants and employees.

ASSISTANT DEAN FOR DISTANCE AND CONTINUED LEARNING

UNIVERSITY OF MARYLAND, COLLEGE PARK
COLLEGE OF AGRICULTURE AND NATURAL RESOURCES

RESPONSIBILITIES: The Assistant Dean for Distance and Continued Learning will develop strategies for expanding the use of distance education and continued learning and develop faculty interest and participation in distance and continued learning. He or she will facilitate sound development of educational modules and educational programs including faculty training and develop new and entrepreneurial educational programs in cooperation with the College constituents.

QUALIFICATIONS: The position requires an earned doctorate in an area of study relevant to the position such as agriculture, education or technology development. Knowledge of Land-Grant universities and Colleges of Agriculture including the Cooperative Extension Service and the Agricultural Experiment Station is preferred. The successful individual will also have knowledge of information and communications systems technology including analogue and digital satellite, video conferencing, multimedia, World Wide Web and Intranet resources. Experiences with grant writing and fair use and copyright issues is desirable. A minimum of five years experience in above areas preferably in a Land-Grant University setting is desired.

SALARY: Salary is commensurate with experience.

CLOSING DATE: September 30, 1998, or until position is filled.

TO APPLY: Send a letter of application, curriculum vitae, and three letters of recommendation to: Dr. James C. Wade, Associate Dean, College of Agricultural and Natural Resources, University of Maryland, College Park, MD 20742.

Equal Opportunity Employer.

PRESIDENT
Grand Rapids Community College

The Board of Trustees of Grand Rapids Community College invites applications and nominations for the position of President of the College. Richard W. Calkins, who has led the College with distinction for 23 years, will retire from his position in the fall of 1998.

The President is the Chief Executive Officer and reports to an active, involved, and elected, seven-member Board of Trustees. The Board is seeking an individual to lead this outstanding educational institution including a $10 million Endowment into the 21st century. The President will possess a dedication to lifelong learning, an exemplary leadership style, a passion for excellence and achievement, a commitment to employing continuous improvement methods and experience in strategic planning.

University of South Florida

DIRECTOR
Applied Metrology Center
College of Engineering at the University of South Florida

The University of South Florida seeks an individual to direct the activities of the new Applied Metrology Center within the College of Engineering at the University of South Florida in Tampa, Florida. The candidate must have a strong background in metrology and experience in IC manufacturing, developed contact metrology methods, demonstrated knowledge of chemical aspects of IC technology, ability to design and manage large grants, familiarity with Florida’s high tech industry, ability to work effectively within academic environment.

The successful candidate must be qualified for tenure upon appointment in an academic unit in the College at the rank of Associate Professor or Professor. Duties will include teaching, research, service and the direction of masters and doctoral students. Also, the Director will develop programs in controlled environment engineering, bio-medical metrology, and the metrology of non-semiconductor materials, establish program goals and ensure facilities development, instrumentation installation, as well as foster partnerships with industrial users or manufacturers of metrology equipment and techniques and be responsible for the development and products of direct and interactive on-line educational resource materials relating to metrology issues in manufacturing environments.

Qualifications: Must possess a Ph.D. in Electrical or Chemical Engineering or in Materials Science. Send resume to Dr. Robert Carnahan, Assoc. Dean, College of Engineering, University of South Florida, 4202 E. Fowler Ave., Tampa, FL 33620. Must be postmarked by 9-30-98.

Research Network Leader

Educational Testing Service (ETS) is launching a new initiative called "Research Partnerships on Diversity" in structuring these partnerships. ETS is creating two networks of researchers—one that focuses on African-American issues, and one that focuses on Latino issues. These networks will link ETS and university-based researchers in addressing the learning and access needs of students in those communities with particular attention to the role of assessment in facilitating access and monitoring educational progress. They will also pursue a research agenda targeted on improving the opportunities and achievement of the nation's minority students.

To meet these needs, ETS is seeking two Senior Research Scientists—one in each of these partnership networks—to lead, coordinate, and facilitate the work. The networks will consist of ETS researchers and up to ten university-based ETS Research Partners in the fields of education and social sciences.

Nominations and applications for THESE TWO POSITIONS are sought. The successful candidate will be one who will find it rewarding to work with researchers around the nation and with the large staff of sociologists, economists, psychometricians, and educational experts within ETS. Candidates must have a Ph.D. in Sociology, Economics, Demography, Psychology, Education, or a related field.

ETS offers an ideal environment for professional growth, outstanding benefits, and a salary range commensurate with experience. For confidential consideration, please send a letter of interest, resume with salary history/requirements, and two writing samples to June Elmore, Educational Testing Service, 1800 K Street, NW, Suite 900, Washington, DC 20006.

ETS is dedicated to Equal Opportunity/Affirmative Action in the workplace. We regret that we are unable to respond to each resume. Only those selected for an interview will be contacted.

ADMISSIONS OFFICER

Primary responsibilities include recruitment and travel within an assigned geographic region (6-7 weeks of travel in the fall, 2-4 weeks in the spring with the possibility of some international travel) that may consist of high school visits, attending college fairs and conducting evening programs evaluating freshman and transfer applications; working with the Coordinator of Multicultural Recruitment, current students, staff to further develop the University's recruitment and enrollment of Latino students; conducting on-campus information sessions to both large and small groups; assisting with on-campus recruitment and other activities. Additional responsibilities include training alumni volunteers, interviewing prospective students, and working with other organizations and community-based agencies in identifying prospective student as well as other duties and projects assigned by the Director Admissions.

Qualifications: Candidates must have a bachelor's degree. Experience college admissions, financial aid, high school college counseling, or other educational field is a plus. The individual should possess the ability to work well independently and as a member of a team. Excellent organization, writing and public speaking skills are required. Preference will be given to individuals with a demonstrated commitment to recruiting a diverse student body and bilingual proficiency in English/Spanish is a plus. A valid U.S. driver's license is required.

Preferred starting date is November 1, 1998. Interested candidates should submit resume with cover letter and names of three references to: Louis Hirsh, Senior Associate Director of Admissions, Office Undergraduate Admissions, University of Delaware, 115 Mullineux Hall, Newark, DE 19716 by October 1, 1998.

The UNIVERSITY OF DELAWARE is an Equal Opportunity Employer which encourages applications from Minority Group Members and Women.
**DIRECTOR**
CENTER FOR AFRICAN AMERICAN STUDIES

The University of California at Los Angeles is seeking a new Director for its Center for African American Studies. Qualified applicants should possess: (1) a strong scholarly research and publication record, with an emphasis in African American Studies; (2) experience in the development of interdisciplinary research and teaching; (3) the ability to administer budgetary, personnel, and related processes; and (4) demonstrated ability to obtain and manage extramural funding in the form of research grants and development acuity for the Center. Above all, we are looking for a dynamic individual to provide intellectual and programmatic leadership for the Center. The new Director would also hold a tenure appointment in the appropriate department or school. The anticipated starting date is July 1, 1999.

Established in 1969 as an Organized Research Unit, the Center for African American Studies is committed to the development of strong academic and research programs in the field. The Center also publishes books and monographs, provides administrative support to the interdepartmental B.A. and M.A. programs in African American Studies, maintains a library, and sponsors special lectures, conferences and symposia.

To be assured full consideration, nominations and applications should be sent by November 1, 1998:

CAAS Director Search Committee
c/o Ms. Rene Dennis, Coordinator
Office of the Chancellor
University of California
3109 Murphy Hall
Los Angeles, CA 90095-1407

UCLA is an Equal Opportunity Employer.

**Vice Provost for Undergraduate Education**

Nominations and applications are invited for the position of Vice Provost for Undergraduate Education at the University of Vermont. The University is seeking an individual with exceptional academic leadership skills and professional accomplishment.

The Vice Provost will work with academic leadership to facilitate discussion, coordination and implementation of curricular change at the University level.

- Leading University-level curricular enhancement activities.
- Developing and implementing assessment and accountability measures for undergraduate education.
- Developing and implementing additional first-year experience programs.
- Enhancing existing honors programs.
- Supporting and enhancing academic advising at the University level.

In addition, the Vice Provost will administer faculty incentive programs and awards and deployment of funds for curricular innovation; administer academic honesty policies; coordinate enrollment management activities with Student Affairs; coordinate with the Vice Provost for Research and support areas; and coordinate faculty development with the Chief Learning and Information Officer.

The University enrolls approximately 7,500 students in eight undergraduate colleges and schools, in addition to 1,100 graduate and 380 medical students. The one thousand outstanding members of the faculty are the foundation of a strong national reputation for excellence in teaching, research, and service. Located in Burlington, Vermont's largest city with 40,000 residents, UVM enjoys views of the Green Mountains to the east and Lake Champlain and the Adirondacks to the west. Burlington has been cited by national publications as one of the most desirable places to live.

Candidates for the position should have a demonstrated history of achievement in curriculum innovation, honors programs, first-year experience programs, exemplar academic programs, and academic advising programs. Experience in a leadership role at the university level is critical. It is expected that the individual will hold a tenured faculty appointment in the appropriate academic department.

Interested candidates should submit a statement of interest in the position and a complete curriculum vitae, including the names, addresses and telephone numbers of five references to:

Vice Provost Search Committee, The University of Vermont, 210 Kalkin Hall, Burlington, VT 05405. Formal review of applications will begin on Oct. 5, 1998. Applications will be accepted until the position is filled.

The University of Vermont is an equal opportunity/affirmative action employer with a strong commitment to racial, cultural, and ethnic diversity. Nominations of and applications from women and individuals from a broad spectrum of backgrounds are encouraged.
OAKLAND UNIVERSITY
Vice President for Academic Affairs and Provost

POSITION AND DUTIES

Oakland University invites applications and nominations for the position of Vice President for Academic Affairs and Provost. As chief academic officer of the university, the Vice President for Academic Affairs and Provost reports directly to the President, provides leadership to the deans and faculty for the quality and vitality of instruction, research, creative activities, and service in all undergraduate and graduate programs and support areas.

THE UNIVERSITY AND LOCATION

Founded in 1957, Oakland University is a vital, growing doctoral institution. With an enrollment of approximately 14,500 students, Oakland University offers 70 undergraduate and 30 graduate programs at the master’s and doctoral levels. The university has six academic units — College of Arts and Sciences, School of Business Administration, School of Engineering and Computer Science, School of Education and Human Services, School of Health Sciences, and School of Nursing. The university is home to a professional theatre, maintains an art gallery, and runs a conference center in a historical mansion.

Oakland University has a strong commitment to its four-part mission: teaching, research, service, and student development. Located in Oakland County, one of the most vibrant suburban areas in the country, on 1,700 park-like acres, the university is adjacent to the Oakland Technology Park and the Chrysler Corporation World Headquarters and Technology Center. Oakland County is one of the wealthiest and rapidly growing counties in the country, well known for its diversity of culture and quality of life and is home to over 500 multi-national corporations.

The economic growth of the region and the development of a high tech park adjacent to the university campus provides the university a unique opportunity for expansion. The position of Vice President for Academic Affairs and Provost offers an exciting opportunity for a person to work with the faculty and staff to capitalize on this development by providing leadership to build vital collaborations.

QUALIFICATIONS

Candidates should have a doctoral degree, a record of teaching, research, and service that will qualify them for a tenure appointment at the rank of professor in an academic unit of the university. A successful record of administration at the senior level, experience in enriching the learning environment with technology, a commitment to student success, experience in fundraising, expertise in managing significant financial resources, and an ability to foster an atmosphere where teaching, research, creative endeavors and service may flourish. Candidates must also have a demonstrated commitment to promoting excellence, achieving diversity, collegial decision-making, and shared governance. Successful candidates will provide innovative and energetic leadership to the academic development of the university.

APPLICATION

Applications should include a resume, the names, addresses, and telephone numbers of three persons who may be asked to provide a letter of reference, and a letter of interest which includes a statement highlighting the abilities and experiences candidates believe they bring to the position. Nominations must provide a current mailing address and telephone number for the nominee. Applications and nominations should be sent to:

Dr. Kevin Murphy, Chair
Vice President for Academic Affairs
and Provost Search Committee
Office of the President
Oakland University
240 Wilson Hall
Rochester, MI 48309-4400

Application review will begin October 1 and will continue until a successful candidate is identified.

Oakland University is an affirmative action, equal opportunity employer. Women, people of color, individuals with disabilities and members of other underrepresented groups are encouraged to apply. Personnel searches are conducted in accordance with the Michigan Open Meetings Act and Freedom of Information Act.

HUNTER COLLEGE
OF THE CITY UNIVERSITY OF NEW YORK

DEAN OF THE DIVISION OF THE SCHOOLS OF THE HEALTH PROFESSIONS

The Hunter College Division of the Schools of the Health Professions, the largest such unit of the City University of New York, seeks a dynamic and creative Dean to lead it into the 21st century. The mission of this recently reorganized Division is to educate health professionals who can serve urban, diverse populations. Hunter's students and faculty reflect the diversity of New York City.

Comprised of the School of Health Sciences and the Hunter-Bellevue School of Nursing, the Division includes 52 full-time faculty, 872 undergraduate and 660 graduate students. The School of Nursing offers undergraduate and graduate degrees in clinical specialties and primary care nurse practitioner programs. The School of Health Sciences offers Bachelors and/or Masters degrees in community health education, nutrition, physical therapy, medical laboratory sciences, public health, environmental and occupational health, and communication sciences. Three research and training centers: the Center on AIDS, Drugs, and Community Health, the Center for Occupational and Environmental Health, and the Brookdale Center on Aging also work closely with the Division to train health professionals, and to conduct demonstration projects and community-based research.

The Dean manages the budget, is responsible for strategic planning, faculty recruitment, development and evaluation, student and alumni relations and works with faculty on curriculum. The Dean manages the two Schools and works closely with each School Director. In addition, the Dean provides leadership for interdisciplinary collaboration, and works with the Office of Institutional Advancement on fundraising.

The Dean, who reports to the Provost, works with other Deans and college administrators and serves as a member of the President's Cabinet. The Division of the Schools of the Health Professions is located at the Brookdale Health Science Center at 415 East 25th Street.

QUALIFICATIONS: Candidates must have an earned doctorate and a record of scholarly research, publication, and professional or other accomplishments; and administrative experience in academic and/or health settings. The candidate should have appointment at the rank of Professor in one of the disciplines offered in the Division of the Schools of the Health Professions. Interdisciplinary health experience is highly desirable.

SALARY: $89,762 - $103,000, Commensurate with qualifications

CALIFORNIA STATE UNIVERSITY, STANISLAUS

Vice President
for Business and Finance

A dynamic individual interested in providing vigorous leadership at a comprehensive university is being sought for the position of Vice President for Business and Finance at California State University, Stanislaus. The position is available January 1, 1999.

California State University, Stanislaus is one of 23 universities comprising the California State University system. The University enrolls approximately 6,250 students in its baccalaureate and master’s degree programs in the Liberal Arts and Sciences, Education, and Business Administration. Located in Turlock, California, a pleasant residential community (50,900 population) in the Central Valley, the University is close to the Modesto County Seat (182,700 population) and is within easy driving distance of San Francisco, Sacramento, Fresno, Yosemite National Park, the Sierra mountains, and Monterey Bay.

RESPONSIBILITIES: Reporting directly to the President, the Vice President is the chief financial and senior management officer and advisor to the President on the administrative support operations of the University. Overall responsibilities include institutional planning in support of the University’s strategic plan; fiscal policy development; resource allocation, analysis; budget planning, management, and reporting; financial accounting and business affairs; payroll; campus facilities planning and plant operations; auxiliary enterprises; safety and security; purchasing; and other university-wide leadership responsibilities as assigned by the President. The position also oversees the University Auxiliary Business Services at the primary campus site in Turlock and the newly acquired off-campus site in Stockton.

QUALIFICATIONS: Extensive senior level experience in a broad variety of management areas, preferably in an institution of higher education, and a proven record of success in planning and problem solving and in managing a highly skilled professional organization with a diverse fiscal structure are required. The ability to communicate effectively with all university and community constituencies, to achieve solid interpersonal working relationships, and a commitment to diversity are essential. An understanding of and commitment to the goals and values of the academic community, as evidenced by appropriate academic degrees and related experience are important. A combination of education and experience will be considered.

APPLICATION PROCEDURES: Review of applications will start September 30, 1998, and continue until the position is filled. The compensation package is highly attractive. Nominations and applications, along with a resume, three letters of recommendation, and the names of two additional references should be sent to:

Vice Presidential Search-Office of the President
California State University, Stanislaus
801 W. Monte Vista Avenue, L165
Turlock, CA 95382
Phone: (209) 667-3201; Fax (209) 667-3206

CSU, Stanislaus is an Equal Opportunity/Affirmative Action/Title IX/Section 503/504 employer. Qualified women, minorities, and persons with disabilities are encouraged to apply.

AMHERST COLLEGE
ASSISTANT DEAN
OF FINANCIAL AID

Amherst College invites applications and nominations for an Assistant Dean of Financial Aid.

The Assistant Dean will participate in the review of applications for financial aid and in determining awards for new and returning students, and will assist in the general operation of the Office of Financial Aid, including performing federal verification procedures and processing Federal Pell Grants. A special emphasis of the position is on the identification and recruitment of financial aid applicants through information sessions conducted for prospective students and their families in the Office of Admission, as well as interviews, correspondence, and other individual contacts.

Applicants should have two or more years experience in financial aid work or a related area of higher education administration. A Bachelor’s Degree is required; a Master’s Degree is preferred. Applicants should be especially aware of and sensitive to the needs of students from economically disadvantaged and minority backgrounds.

Amherst College is an independent liberal arts college with approximately 1,850 students. Located in Western Massachusetts, the College participates in Five Colleges consortium with nearby Hampshire, Mount Holyoke, and Smith Colleges, and the University of Massachusetts.

Letters of nomination and application with a current resume and the names of three references should be sent to: Office of Human Resources, Box 2204, Amherst College, Amherst, MA 01002-5000. Letters received by Friday, October 15, 1998 will be assured of consideration.

Amherst College is an Equal Opportunity/Affirmative Action employer and encourages women, minorities, and disabled persons to apply.

ASSISTANT PROFESSOR
Cognitive Neuroscience

- The University of Massachusetts Boston is seeking one full-time position of Assistant Professor of Psychology. This is a tenure-track position in experimental cognitive neuroscience, to begin Fall of 1999 semester. Doctoral in Psychology is required. Postdoctoral experience with a research background in imaging techniques preferred. Responsibilities include an active research program and teaching at both the graduate and undergraduate level. We are a dynamic department, with ANP accredited doctoral program in clinical psychology, excellent laboratory facilities and associations with other local research and medical institutions. The candidate’s application should include a description of research and teaching experience, curriculum vitae, pre-reprints, and three letters of recommendation. The search committee will begin reviewing applications mid-October, 1998 with the intention of bringing finalists for interviews in November and December. Please send materials to Dr. Helen Tager-Flusberg, Chair, Faculty Search Committee, Psychology Department, University of Massachusetts Boston, 100 Morris Blvd., Boston, MA 02125-3393. You can also FAX your materials to 617-287-6336. An Affirmative Action, Equal Opportunity, Title IX employer.

U Mass Boston
UNIVERSITY OF FLORIDA
Institute of Food and Agricultural Sciences

EMAIL: lra@uflunix.ufl.edu

Application deadline is October 1, 1998. Those wishing to nominate candidates should do so by September 14, 1998. Women and minorities are encouraged to apply. UF is an AA/EEO employer. The University of Florida is an equal opportunity, equal access, affirmative action employer. The "government in the sunshine" laws of Florida require that all documents relating to the search process, including letters of application/nomination and reference, be available for public

DAVIDSON COLLEGE
Vice President for Academic Affairs & Dean of the Faculty

Davidson College, located near Charlotte, North Carolina, invites nominations and applications for the position of Vice President for Academic Affairs (VPAA) and Dean of the Faculty.

Founded by Presbyterians in 1837, Davidson College is a highly selective, private, liberal arts college with 1,825 undergraduate students and 140 full-time faculty. As the College’s chief academic officer, the VPAA and Dean of the Faculty reports directly to the President and is charged with bringing vision, coherence, and leadership to its entire academic enterprise.

The VPAA and Dean of the Faculty oversees planning, development, and evaluation relating to all academic departments and programs of the College, including the Library, the Dean Rusk Program in International Studies, and the Center for Interdisciplinary Studies. The VPAA and Dean of the Faculty also represents the interests of the Faculty to the Trustees and to all other college constituents.

For more information about the College, please refer to its web site at www.davidson.edu

Candidates should have a distinguished record of achievement in teaching, scholarship and educational policy-making that will qualify them to lead a faculty strongly committed to excellence in liberal arts education.

The anticipated appointment date is July 1, 1999.

The search Committee will begin its screening procedures in late September and continue until the position is filled.

Please address nominations, inquiries and applications to the chair of the search committee. All inquiries will be maintained confidentially.

Professor David Martin,
Chair, VPAA Search Committee
Davidson College
P.O. Box 1719
Davidson, NC 28036
Email: DMartin@davidson.edu

Davidson College is an Equal Opportunity Employer.

The search committee encourages women, minorities and individuals with disabilities to apply.
DEAN OF STUDENT DEVELOPMENT

Montgomery College, a multi-campus community college committed to excellence in teaching and to student success, is seeking applications and nominations for the position of Dean of Student Development for the Germantown Campus. Located in the most populous, racially diverse, and fastest growing county in the state of Maryland, the College is challenged to provide instruction programs to meet the diverse and changing educational, social, economic, and cultural needs of its community. The Germantown Campus is located in an area of Montgomery County that is known as the “High Tech Corridor” and the campus draws students from both the local high schools as well as local businesses. The campus has a student enrollment of approximately 4,000 students of varied ethnic backgrounds and many different language groups.

The Student Development Dean reports to the Campus Provost and provides leadership for the faculty and staff in the areas of Counseling, Services to students with Disabilities, Student Activites, Athletics, Academic Advising, as well as the Career and Transfer Center and the Assessment Center. The qualities and abilities we are seeking include:

- strong leadership and human relations skills
- sensitivity to the needs of a culturally diverse community
- demonstrated skills in collaboration, consensus building and communication
- understanding of and commitment to a Student Success Philosophy
- background in Student/Adult Development theories and practices
- strong managerial, supervisory and administrative skills
- budgeting experience
- demonstrated ability to plan and implement a comprehensive student development program

Candidates must have a Master’s Degree in Counseling, Student Personnel or a related field. A Doctorate is preferred. In addition, progressively responsible experience in teaching, counseling, and management in community college Student Development operations is preferred.

The salary range is $62,670 - $97,365 per year, with a starting salary falling within the first half of the range. The College offers excellent fringe benefits. Applications for vacancy #0125 can be obtained by calling our 24-hour job line at (301) 279-8374, or by coming to the Office of Human Resources, Montgomery College, 900 Hungerford Drive, Suite L30, Rockville, Maryland 20850. The application deadline is September 23, 1998.

Montgomery College is an EOE/AA/Title IX employer.

DEAN OF STUDIES AND STUDENT LIFE

Sarah Lawrence College seeks a new Dean of Studies and Student Life. Reporting to the President, the Dean is responsible for administering academic policy and for overseeing the residential life of approximately one thousand undergraduates. The College places special emphasis on individualized study. The Dean of Studies is assisted by two Associate Deans who focus on academic affairs, supplementing the role of faculty directors who teach and advise students. Offices reporting to the Dean of Studies and Student Life include Student Affairs, Multicultural Affairs, Career Counseling, Community Service, and the Writing Coordinator. The Dean of Studies also works with the heads of graduate programs and continuing education.

The Dean of Studies and Student Life works closely with the Dean of College and with faculty and students on all aspects of college life, ranging from policy implementation to individual counseling. Academic excellence, effective interpersonal skills and commitment to diversity are essential. Teaching and administrative experience are required with Ph.D. preferred.

Sarah Lawrence College continues its mission as a progressive liberal arts college with a strong tradition in the creative arts. Please send curriculum vitae by October 15, 1998 to: Search Committee for Dean of Studies and Student Life, c/o Ms. Sheryl Leone.

Sarah Lawrence College:
One Meadoway
Bronxville, New York 10708

Sarah Lawrence College is an equal opportunity employer.
Women and minorities are encouraged to apply.

THE HISPANIC OUTLOOK
IN HIGHER EDUCATION

RE Te CoP AVL ABE
BRYN MAWR COLLEGE
EXECUTIVE DIRECTOR ALUMNAE ASSOCIATION

The Alumnae Association of Bryn Mawr College is seeking an Executive Director. Bryn Mawr is a selective and diverse liberal arts college for women with 1,200 students in the Undergraduate College and 500 students in coeducational graduate programs in Arts and Sciences and Social Work and Social Research. Bryn Mawr has approximately 15,000 undergraduate alumnae and 6,000 graduate alumnae.

As the day-to-day leader of the independently incorporated Alumnae Association, the Executive Director develops, implements and facilitates creative programs for alumnae to help them maintain their ties to the College and to each other. The Executive Director works closely with the Board of the Alumnae Association and with other alumnae volunteers. The Executive Director supervises a staff of three and serves as a senior administrator of the College.

Principal qualifications include the ability to provide strategic direction, analytic and organizational skills; an ability to communicate effectively and relate well to alumnae with diverse perspectives, and the ability to manage both people and administrative operations and to work collaboratively in a team environment. The Executive Director must have a bachelor's degree or higher, and be willing to travel and to work on some evenings and weekends.

A review of applications will begin September 25 and continue until the position is filled. The College offers a comprehensive benefits program and a competitive starting salary. A resume, cover letter and contact information for no less than three professional references should be sent to Chair, Executive Director Search Committee, Bryn Mawr College, Pagoda, 101 North Merion Avenue, Bryn Mawr, PA 19010.

Bryn Mawr College is an Affirmative Action, Equal Opportunity Employer.

1998-99 History Search Announcement

Field and rank open. Three (3) to five (5) full-time (9-month) positions; tenured or tenure-track; begin September 1999. Salaries competitive; rank is based on qualifications/experience, and is consistent with collegiate and university policy. Special interest in junior scholars with demonstrated excellence in research and teaching and in mid-career colleagues with established reputations as innovative and exciting scholars and teachers who will complement the Department's existing strengths or help to build new ones. Candidates should be grounded in a specific field and be inclined toward comparative, thematic, and methodological dialogue. A Ph.D. in history must be in hand before start of appointment. Responsibilities include actively pursuing a research agenda, graduate and undergraduate teaching, and service. Send letter of application, curriculum vitae, and list of at least 3 references to: Professor Kinley Brauer, Chair, Department of History, 614 Social Sciences Building, University of Minnesota, Minneapolis, MN 55455. After initial screening, which begins October 9, 1998, additional materials will be requested. Search is open until filled.

The University of Minnesota is an equal opportunity educator and employer.

Dean, Division of Humanities, Arts, and Cultural Studies

University of California, Davis

The University of California, Davis invites applications and nominations for the position of Dean of the Division of Humanities, Arts, and Cultural Studies. The Division is one of three within the College of Letters and Science and has 150 full time faculty, 1,700 undergraduate students in 28 majors, and a 284 graduate student enrollment of approximately 230. The Division is composed of 24 departments and programs as follows: English, fine arts (Art Studio, Art History, Theatre and Dance, Music), ethnic and cultural studies (Native American Studies, African American and African Studies, Chicana/Cucana Studies, East Asian Languages and Cultures, American Studies, Women’s Studies), languages and literatures (German and Russian, Spanish and Classics, East Asian Studies, French and Italian, Comparative Literature), and programs in Humanities, Critical Theory, Religious Studies, Medieval Studies, Nature and Culture. The Division also houses the Humanities Institute.

The Dean is the chief academic and administrative officer of the Division, with responsibility for the academic leadership of the Division and the management of its resources including faculty and staff, physical facilities, and budget. The Dean participates in campus-wide policy development through membership on the Council of Deans and Vice Chancellors. Together with the Deans of the two other divisions within the College of Letters and Science—the Division of Mathematical and Physical Sciences and the Division of Social Sciences—the Dean shares responsibility for the development activities of the College as well as student advising and operation of the College’s central administrative functions.

We seek candidates with a deep commitment to academic excellence who can lead the Division and the College in its continuing development. Qualifications include a distinguished record of teaching, research, and service appropriate for appointment as Professor in the Division; demonstrated ability for creative leadership and management; and the energy and vigor to translate ideas into action. The University of California, Davis, has a strong institutional commitment to the achievement of diversity among its faculty, staff, and students and seeks an individual who shares that commitment.

Salary will be commensurate with experience and qualifications. The starting date will be July 1, 1999, or as negotiated.

Review of candidates will begin November 9, 1998. The position will remain open until filled. Nominations and applications should be addressed to:

Larry N. Vanderhoof, Chancellor
Office of the Chancellor
University of California, Davis
One Shields Avenue
Davis, CA 95616-8558

POSTDOCTORAL FELLOWSHIPS IN THE RADIATION SCIENCES
Department of Environmental and Occupational Health, Graduate School
of Public Health, University of Pittsburgh

The University of Pittsburgh has been designated as a unique academic
"Center of Excellence" to provide Postdoctoral Fellowships for research and
study in the Radiation Sciences. The goal of this training Program, supported by
the U.S. Department of Energy, is to replenish the national pool of
docent-level, multidisciplinary radiation scientists in governmental, academic
and industrial research positions focused on the health effects from
ionizing radiation exposure.

The Program offers a two-year sequence including course work, laboratory
rotations, colloquia and seminars, a radiation epidemiology workshop and
one year of field experience at domestic or foreign sites of interest to the
Department of Energy. Areas of concentration include: radiation
epidemiology and biostatistics; health physics and radiobiology; biological
dosimetry; biomarker development and application; and occupational
medicine.

Applicants should have a recent doctoral degree (Ph.D., M.D., D.Sc., Dr. P.H.)
in the natural or health-related sciences. M.D.s may integrate Program
training with a departmental Occupational Medicine Residency. A
University-supported third year may be arranged if necessary. A stipend of
$33,500 for the first year, $36,000 for the second year; research expenses,
health insurance and annual travel allowances to and from the research sites
are provided. Fellows must be U.S. citizens or permanent residents.

For additional information or application materials, contact: Neil Wald,
M.D., Program Director, A744 Crabtree Hall, Graduate School of Public
Health, 130 Desert Street, Pittsburgh, PA 15261; or telephone (412) 624-3155,
fax (412) 624-3040. Or e-mail wald@vms.cis.pitt.edu.

The University of Pittsburgh is an Affirmative Action/
Equal Opportunity Employer.

the following skill areas helpful: improvisation, creating theater, voice, movement, or myth and
performance. Background in collaborating with Theater, Dance, and Music faculty in performances.
Teaching theater and directing experience preferred. Must demonstrate a commitment to community
college philosophy and diversity, including learning centered concepts, innovative approaches to
educational delivery, and student success orientation. A willingness to teach a diverse
student population and demonstrated experience using lectures and laboratories.
Must demonstrate ability to work cooperatively in a team environment. To
ensure full consideration, forward materials by October 1st. To apply, send letter of
application, resume and completed application form (call 517/483-9753 to obtain
form) to: 8260-Human Resources Department, Lansing Community College,
PO Box 40010, Lansing, MI 48901-7210. EEO/Affirmative Action Employer.
University of the Pacific
Dean of Enrollment Services

The University of the Pacific, the first chartered institution of higher education in California, offers applications and innovations for a dynamic and innovative leader to assume the position of Dean of Enrollment Services, heading undergraduate admissions, financial aid, and registrar/records. The Dean of Enrollment Services reports directly to the Provost and is a member of the Council of Deans. Pacific is a growing independent, comprehensive university of 5,000 students in 11 schools and colleges. The main campus is in Stockton, the University of the Pacific School of Dentistry is in San Francisco, and the McGeorge School of Law is in Sacramento. For further information please visit our website at www.upc.edu.

The Office of Enrollment Services was established in 1997 to bring together the key units at the Stockton campus that affect new student enrollment and retention. The Enrollment Services model under implementation combines the key services of admissions, financial aid, and registrar personnel in a new innovative structure designed to provide a single point of contact services. This model will provide quality services in a student-centered environment and bring a bold, innovative approach to recruitment and retention.

Responsibilities:
The Dean of Enrollment Services must provide strong leadership to a wide variety of constituents on campus that will interface to provide outstanding services to students. This individual is responsible for the management, operation, and budget of the Office of Enrollment Services. S/he will coordinate the services and deliverables of these and work closely with the academic dean, faculty, division heads, as well as end of enrollment services.

- Develop and implement a comprehensive recruitment plan,Sad: a retention plan and supportive programs with the Office of Recruitment Services and the division of student life.
- Provide vision, leadership, and optimal use of program technology for Enrollment Services.
- Work closely with the Director of Marketing and University Relations to lead in marketing research and planning.
- Lead and supervise a team of admissions, financial aid, and registrar personnel.
- Coordinate with student accounts and other student services.
- Develop and recommend policies impacting recruitment, admissions, matriculation and retention of students.
- Participate in university-wide marketing, strategic, and long-term planning.

Qualifications:
- Creative, strategic thinker
- Proven leadership skills
- Nurturing understanding of admissions, financial aid, and marketing and registrar practices and policies
- Demonstrated experience in bringing together admission, financial aid, registrar, and student services to improve new student enrollment and retention.
- Demonstrated experience in marketing.
- Demonstrated commitment to improving diverse populations.
- Minimum of ten years of progressive responsibility in admissions or enrollment services division including personnel and fiscal management.
- Understanding of and commitment to the use of technology.
- Master's degree required.

Environment:
The University of the Pacific is a dynamic, independent, comprehensive university under new leadership offering degrees at the graduate, undergraduate, professional, and graduate levels. The University's main campus is located in Stockton, a culturally and ethnically diverse city of more than 250,000 people, part of the beautiful central valley of California bordered by a thousand miles of waterways. McGeorge School of Law is located in the state capital, Sacramento, and the School of Dentistry is in San Francisco. It is within a two-hour drive from the Sierra Nevada range and Yosemite National Park. The main campus area within an hour and a half of the San Francisco Bay Area.

Appointment Date/Salary:
The University seeks to fill this position as soon as the best qualified candidate is identified. Salary is commensurate with qualifications and experience.

Application:
Send letter of application, current curriculum vitae, and names and addresses of three references to: Dean of Enrollment Services Search Committee, PO Box 5800, University of the Pacific, 3601 Pacific Avenue, Stockton, CA 95211-0197. Review of applications will begin immediately, and the position will be open for spring 1999.

Washington Honors Teacher Development Programs

BY GUSTAVO A. MELLANDER

A number of schools with a high percentage of Hispanic students have been honored for establishing outstanding teacher development programs in consort with neighboring higher education institutions.

Parameters

The National Awards Program for Model Professional Development, now in its second year, invites schools to demonstrate that its professional development programs result in improved teacher effectiveness and student learning. They also have to be consistent with a set of principles for professional development that are based on the best available research and exemplary practice.

Secretary of Education Richard W. Riley in prepared remarks noted, "Unless we invest in teachers and their learning, and ensure that teachers are equipped to teach to higher standards and to meet the challenges of today's classrooms, we will never reach our education goals.

"Honoring these schools fits with this Administration's continuing effort to ensure a talented, dedicated and well-prepared teacher in every classroom. We must make sure that teachers have the training and support to teach to high standards. That is what these exemplary programs are doing with great success."

High-quality programs include rigorous subject matter content, effective teaching strategies, and school-college-based support that ensure the career-long development of teachers.

The academic review process included a first round of evaluation by a non-federal panel of experts, comprehensive site visits to the most promising applicants, and final study by a seven-member blue-ribbon panel. Their recommendations were presented to Riley, who selected the final honorees.

Each of the recognized programs received a privately funded monetary award to support professional development activities and to help share strategies and lessons learned with others.

The William R. Kenan Fund, United Parcel Service Foundation, the William T. Grant Foundation, Toyota USA, Inc., and Glaxo Wellcome, Inc. funded the monetary awards.

Four exemplary projects that serve Hispanics:

1. Montview Elementary School, Aurora, Colorado

Montview's professional development efforts serve the learning needs of a diverse and highly transient student population that includes a great many low-income Hispanic families.

Between 1995 and 1997, student scores increased in reading, language, and math. The Riverside Integrated Language Arts Performance Assessment also showed increases for all students and a virtual elimination of performance gaps between Caucasian students and Hispanic American students.

Montview engages in site-based decision-making whereby teachers are integral to all planning and decisions. Teachers participate in summer learning institutes and four school-based in-service days each year. They also have regular opportunities for observation, coaching, reflection, and dialogue.

Teachers report growth in their abilities to assess student progress in reading and writing, to diagnose, to plan, and to support students' learning needs more effectively.

2. Lewisville Independent School District, Lewisville, Texas

Lewisville designed and implemented a professional development program that is based on student needs, grounded in research, and focused on success for all students. Its investment in staff development has resulted in positive results.

Between 1995 and 1997, scores on the reading, mathematics, and writing tests improved at all grade levels, and the achievement gaps between Hispanic, African American, and Caucasian students narrowed.

Its schools develop goals through a comprehensive planning process. A team structure allows teachers to help set goals, and professional development focuses on reaching those goals. Leadership capacity among its teachers is developed by encouraging teacher leaders to assume leadership roles with their peers instead of bringing in outside experts.

3. International High School, LaGuardia Community College, Long Island City, New York

International High School (IHS) at LaGuardia Community College has a high concentration of students from low-income families as well as recent immigrants who speak 35 different languages. The school has succeeded in narrowing the achievement gap between students with limited-English proficiency and those who are native-born.

The faculty and student body are organized into six interdisciplinary instructional teams. Each team's schedule includes three hours of weekly meeting time, and teachers on the same team observe and coach each other: share best practices; develop, evaluate, and revise curricula; and jointly devise interventions for students who need extra support.

The school's professional development efforts have succeeded. Student achievement far exceeds that of other limited-English-proficient students in New York City and compares favorably with more advantaged public schools in the city.

Graduation and attendance rates have increased, and the college acceptance rate exceeds 90 percent each year. In addition, IHS students learn to master English more quickly than do similar students in the city.

4. H.D. Hilley Elementary School, El Paso, Texas

H.D. Hilley has a population in which 96 percent of the students qualify for free or reduced-price lunch and many students are limited-English-proficient. Yet recent scores on the Texas Assessment of Academic Skills have increased substantially. Between 1995 and 1997, the proportion of third graders mastering all objectives on the test increased from 50 to 68 percent.

These improvements have been achieved in large part because of its school improvement team—comprised of teachers, parents, community members, and administrators. It is empowered to determine school improvement goals and how to target its professional development resources.

Multi-grade-level teams involving all the teachers in the school develop strategies to support the goals, and all professional development efforts are linked to these goals.

Collaboration with the El Paso Collaborative for Academic Excellence, the College of Education at the University of Texas at El Paso and the National Science Foundation-funded Urban Systemic Initiative supports the school's professional development activities and commitment to academic excellence.

Dr. Mellander is a professor and emeritus dean at George Mason University.
LSAC Study Confirms Success of Minority Law Graduates
Landmark Research Refutes Myths

Within nine months of completing law school, an overwhelming majority of minority law graduates—81 percent—successfully passed the bar exam, enabling them to practice law.

The landmark study, sponsored by the Law School Admission Council, the association that administers LSAT, the Law School Admission Test, tracked more than 27,000 students entering American law schools in 1991, making this study the most comprehensive and in-depth research ever conducted of bar exam passage rates in the United States.

The study was designed in part to answer questions about minority access to the practice of law. The high level of minority student success revealed in this study lends credence to policies aimed at opening doors to minority students.

“Seven years ago, when we started this study, some people were questioning whether minorities who were encouraged to enter law school were being sent on a fool’s errand,” said Henry Ramsey, Jr., a retired California state judge and member of the LSAC committee that provided oversight for the study.

“There were all kinds of assertions, incidental anecdotes, and wild guesses about the percentage of minority students who ultimately passed the bar—some as low as 20 or 25 percent. This is the first and only national bar passage study.

“This study strongly refutes the myth that affirmative action policies tend to set students up for failure on the bar exam,” said Ramsey. “Today we have the most credible evidence yet available, and in fact it shows the reverse, that the great majority of these students succeed.”

Ramsey, former dean of the Howard law school, wrote the Historical Introduction to the published study. “I was the only Black person in a class of almost 300 stu-
February Is Minority Law Recruitment Month

Contact LSAC for information on its grants program designed to increase the recruitment of minority law students, now in its second year. Ninety-six U.S. and Canadian law schools received grants of $1,000 to hold one or more events last February that targeted potential minority law students.

LSAC reports that according to the U.S. Census bureau, only seven percent of the lawyers in the U.S. are from minority groups, two percent Latino, three percent African American, and less than one percent are Asian American or Native American.

dents when I entered the University of California’s Boalt Hall in 1960,” said Ramsey. “Indeed, only four Black students were in the entire student body. The situation at Boalt was much the same for Asians and Hispanics.”

“In 1969,” he continued, “lawyers of color probably made up less than one percent of the profession and most of those lawyers were graduates of the historically Black law schools—Howard, North Carolina Central, Southern, and Texas Southern.

“Most, if not all, of these special admission programs were established in the two or three academic years immediately after Dr. Martin Luther King Jr.’s assassination on April 4, 1968.” The research findings underscore the success of those affirmative action programs.

More than 160 law schools and 36 bar exam jurisdictions from across the country participated in the LSAC Bar Passage study, during which researchers collected and analyzed vast amounts of longitudinal data, including socioeconomic factors, test scores, and other background information on the careers of students entering law school in 1991.

The research was conducted by LSAC, the principal investigator was Linda F. Wrightman, professor of educational research methodology at the University of North Carolina at Greensboro, who is the former LSAC Vice President for Testing, Operations, and Research.

“A primary reason for conducting the research was the desire to replace anecdotal or unsupported claims about minority performance,” said Leo Romero, chair of the LSAC Board of Trustees.

“Another reason was to point out areas that need a closer look. For instance, the bar passage rate of non-Whites, while high, remains lower than that for Whites. Also, the link between socioeconomic status and bar passage rates is not as clear as many might assume it would be. These are intriguing areas that are cause for more research and analysis.”

The study also found that many African Americans who took the bar exam once and didn’t pass never returned to take a second exam. Evidence suggests that passage rates jump significantly among second-time test-takers in all ethnic groups.

“If these African American graduates had been as persistent as other test-takers, their overall bar passage rate should have increased dramatically,” noted David Hill, a University of Colorado law professor who chairs the LSAC study committee. “Why some students don’t come back to take the test again, while others do, is an area for future inquiry.”

The eventual passage rates for all ethnic groups were: Hispanic 89
percent (463 of 520), Mexican American 88.4 percent (362 of 408), Puerto Rican "0.7" percent (102 of 1258), African American "0.6 percent (1,062 of 1568), Asian American 91.9 percent (883 of 961), American Indian 82.3 percent (884 of 1066), White 95.5 percent (18,664 of 19,285), and other 91.5 percent (292 of 319).

Romero expressed hope that the LSAC study would prove beneficial for more than just the legal community. "Our country is engaged in a vital debate over fundamental issues of opportunity, fairness, and social justice in offering access to education and the professions. Hopefully, we contribute more light and less heat by providing hard scientific data such as this."

A summary of the findings can be viewed at <http://www.lsac.org/barpassage.html>. For the full published report, released in late June, contact the Law School Admission Council at P.O. Box 40 Newton, MA 02160.

**Diversity—The Legally Defensible Argument**

Following are excerpts from a perspective by Leo M. Romero, LSAC Chair, Law Services Report, January/February 1998.

- This year marks 20 years since the United States Supreme Court decided the Bakke case, the seminal decision addressing race-based affirmative action programs, in higher education. This case set forth the legal parameters of affirmative action in legal education: (1) the use of race as a criterion for offering admission or awarding financial aid must serve a compelling institutional interest, and (2) an affirmative action program must be narrowly tailored to further that compelling interest.

- The only rationales for affirmative action that have been accepted by the courts as "compelling interests" have been those that attempted to remedy the present effects of past discrimination and those that addressed achieving the educational benefits that flow from a diverse student body. Because it is difficult for most law schools to satisfy the remedial justification, the diversity justification is the foundation on which most race-based affirmative action programs rest.

- The 1996 LSAC publication, *Preserving Affirmative Action Programs in the Late '90s*, quoted language from Justice Powell's opinion in *Bakke* about the value of diversity in an institution of higher education and referred to Harvard President Neil Rudenstine's statement about how student diversity enhances the learning process by exposing students to the experience of having their own views and perceptions challenged and reshaped by people from differing backgrounds.

- The presence of women in law schools since the early 1970s, for example, has changed the dynamics of discussions about rape, family law, and equal protection. Whether the examples of diversity include minorities, women, older students, parents, former athletes, or musicians, the more diverse the class, the richer the discussions and the better the educational experience.

- In thinking about the value of diversity in your law school, consider that the variety and richness of the intellectual discourse gives diversity its real power, and that our schools would be the poorer without the insights and perspectives that come from students from different races, cultures, and backgrounds.

- Diversity so conceptualized will be far more defensible if your affirmative action admission policy is challenged.
A Law School Admission Primer

For Students and Faculty

BY BARBARA F. ANDELMAN

Most law schools have “rolling admissions,” which means that they continuously make admission decisions over the course of several months. Early applicants often have a greater chance of admission or a scholarship.

Law school can be a tremendous experience and an outstanding investment in your future. The process of evaluating law schools and going through the admission process does not need to be overwhelming. Here are a few tips.

ADMISION PROCESS BASICS
1. The Requirements
   There are two requirements for applying to law school: a) a four-year bachelor’s degree from an accredited college or university and b) an LSAT score. Of course, the standards for admission vary among the nation’s 195 ABA-accredited law schools. To get an idea of how competitive one is as a candidate, it is a good idea to find out about the median undergraduate GPA and LSAT scores at a particular school. This will give the applicant information about the profile of the most recent entering class.

2. Preparing for the LSAT
   Studies have shown that those who prepare for the Law School Admission Test are likelier to outperform those who do not. But there is no definitive answer about which test prep method is the most valuable. A 1998 study by the Law School Admission Council found that, among those responding to its survey, users of the materials available from the council, commercial schools, and non-council books tended to have higher scores than did non-users of these methods, than did users of undergraduate institution courses or other methods of preparation, and than did those who did not prepare at all.
   Be aware that most law schools average multiple LSAT scores, so do not plan on taking the test “cold” just to see what it is like. For just $80, you can purchase an actual test that was previously administered. Pay a friend to time you, and you can recreate testing conditions.

3. Timing Is Everything!
   Most law schools have “rolling admissions,” which means that they continuously make admission decisions over the course of several months. Early applicants often have
a greater chance of admission or a scholarship. Deadlines for applications vary, but students should aim to take the LSAT no later than the September in the year prior to their intended entrance into school. Some schools will accept the December and possibly the February tests, but the scores for these tests will not be available to law schools until four weeks after the test administration, at best. Even if a student submits an application long before the deadline, then takes the LSAT later, the application is not complete until that LSAT score is available to law schools.

4. The LSDAS

Instead of accepting transcripts and letters of recommendation from students directly, most law schools require that applicants subscribe to the Law School Data Assembly Service (LSDAS). LSDAS gathers the student’s transcripts, analyses them, then issues an LSDAS report to the law schools to which the test-taker has applied.

WHAT IS THE COMMITTEE LOOKING FOR?

The bottom line is this: Law schools are looking for the candidates who have the intellectual abilities to succeed in their program. Every school has many more applicants than spots in an entering class and must select from a highly credentialed group those who show the greatest promise of success. This does not mean that the selection process is a “numbers” game; to the contrary, the committee looks to many factors in its effort to evaluate applicants.

Personal Statements

A very important part of the application is the “personal statement,” as it serves two functions: it offers the applicant the opportunity to bring to the committee’s attention information that he or she feels is important to the admissions decision, and it provides the committee the opportunity to assess the applicant’s writing ability. Applicants should take care in the preparation of their personal statement; a sloppy personal statement reflects poorly on an applicant who seeks to join a profession in which attention to detail is necessary for success.

Professor Robert N. Strassfeld, a member of the faculty at the Case Western Reserve University School of Law and frequent member of our admission committee, offered the following insights: “In writing your application, you should ask yourself: ‘How can I use my personal statement effectively as an advocate for myself?’ Your personal statement gives you an opportunity to distinguish yourself from other applicants with similar academic records. You should seize that opportunity. The personal statement enables you to tell a law school admissions committee about your special talents and unique experiences and perspectives. Tell us about your three years spent as a volunteer at a New Mexico rural legal services office, your background in canon law, or 15th-century Icelandic sagas, or whatever. Let us know if you are a scuba diver who is particularly interested in admiralty and the salvage of Spanish wrecks off the Florida coast. Give us a reason to think that we would enjoy teaching you rather than the scores of other applicants with comparable grades and LSATs, or to think that we could expect to be prouder to claim you as our graduate. Make the effort to write coherent grammatical prose. Take the time to proofread. And avoid displays of bad judgment. Do not describe yourself in the third person or as a member of the plant or animal kingdom in your statement. While we might appreciate clever essays, you assume considerable risk if you write such a statement.

Academic Performance

There is no doubt about it: law schools seek students who have developed strong study habits and have a record of strong academic performance. They will be evaluating the rigor of your undergraduate coursework as well as grade trends—trends upward being more favorably looked upon than those heading south. Graduate work is certainly an asset, but is more difficult to evaluate. The reality is that everyone gets As and Bs in graduate school; those evaluating graduate school transcripts are going to place emphasis on the quality and competitiveness of the graduate program.

Letters of Recommendation

Most schools either require or recommend that applicants submit letters of recommendation. Chances are good that applicants are going to ask only those people whom they believe have something positive to say about them to write a recommendation, so merely having a positive recommendation is not going to give an applicant the extra edge. I urge applicants to get recommendations from a faculty member or employer (if allowed by the law school) who knows the candidate well and can speak to his or her intellectual abilities and academic achievements. Do not bother getting recommendations from someone famous who has not even met you, or from every elected official in the tri-state area. Letters
from people who say that the person comes from a nice family or was an excellent cadet or always showed up on time for work are just not helpful. Ditto for recommendations from high school teachers or counselors, unless they illuminate some important aspect of the applicant's background.

Perspective always helps: insights as to the applicant's abilities relative to others whom the recommender has taught, employed, etc., or features of the student's record (i.e., honors college, selective major), are valuable.

It is surprising how many recommenders (including university faculty!) exercise poor judgment when writing recommendations. Letters that contain poor grammar or spelling, for example, by someone who has taught the applicant English, put the quality of the program in doubt. Eyebrows will rise also when the recommender does not get the name of the applicant right; it gives the impression that he/she is unfamiliar with the applicant. Finally, why do some faculty write about the "neat appearance" or other physical attributes of their (usually female) students? Not too relevant in the evaluation of a candidate's intellectual achievements.

Finally, letters of recommendation on behalf of candidates who have waived their right of access to the letters tend to be viewed as more candid and therefore of greater value to the committee.

Skeletons in the Closet: prior misconduct

All applicants must disclose a criminal conviction or disciplinary action: be honest and straightforward in responding. Similar information must be disclosed in the application for admission to each state's bar, so it is critical that applicants be forthcoming right from the start. Those who are not at risk being taken before the Law School Admission Councils Misconduct and Irregularities in the Admission Process Subcommittee and/or being harassed from admission to a state bar.

Do not be hesitant to provide a brief explanation of any mitigating circumstances that you believe will provide a context to information in your file. For example, if you were very ill one semester, or had a death in the family, or found yourself a fish out of water as a premed student, tell us about this. You cannot explain away four years of poor academic performance, but the admission committee might be willing to overlook a short blip in an otherwise strong history.

Are students friendly? Do they seem happy? Are colleagues willing to share notes? Do students have an active extracurricular life? Do they make lasting friendships with other law students? Are the lounges a place where students like to "hang out," or does everyone hit the road as soon as class lets out?

Learning is not confined to the classroom: extracurricular activities provide an opportunity for students to attain leadership skills and pursue common interests with other law students. The president of our Student Bar Association, Victor Pérez, is a prime example of this. A native of Rio Piedras, Puerto Rico, and a graduate of the University of Dayton, Victor got involved in the life of our law school community through participation in student government and work in our Law Clinic. Pérez was president of the Hispanic Law Students Association. He is a leader of our student body and a member of the Ohio Hispanic Bar Association.

What should students look for in their future? The quality of the faculty is most often evaluated in terms of their accomplishments: whether they graduated from outstanding law schools, were in practice or a judicial clerkship, and have been published in major legal periodicals. These factors are critically important in establishing the reputation of a law school. However, there can be more. Some students might want to look for a school where faculty are accessible to the students. Every law school's bulletin says that this is the case: current students can provide the most accurate testimonial. Faculty can be a source of guidance and support, as well as of career-planning tips and assistance in understanding how to write a better exam. Some law schools have more of a tradition of faculty accessibility than others: as you know, it takes a fine balancing act for faculty to be available to students while fulfilling their scholarship responsibilities. Students are often wowed by schools that promote the really "big name" legal scholars: if these faculty are not accessible to students, however, their enhancement of a law student's personal academic experience can be minimal (although clearly valuable to the school's reputation).

Students might not appreciate how important a law school facility is to the quality of life while in law school, as well as to the quality of the education. At the most basic level, the facility creates a mood and atmosphere, whether austere or comfortable. The building can affect whether students feel free to "lounge around" and get to know each other, to share ideas, whether about legal issues or the world series. The building can affect whether faculty feel comfortable and remain in the short run. in the building long enough to be available to students or, in the long run, to become tenured faculty. More substantively, does this facility have the basics? Students with disabilities will want to look at accessibility of all of the facilities. The moot court room should boast state-of-the-art equipment to allow student presentations to be videotaped and reviewed. Student organizations should have room to do their...
thing." There is a lot more to a law library these days than counting the number of hard volumes. Adequate computer facilities, with access to training, printers, and state-of-the-art software and databases are a must. Are there professional staff on duty during all hours of operation, or do students staff the desk? Is there always a reference librarian on duty? Is the library keeping up with computer technology in the field of legal research and student services? Comfortable study areas are a must.

There are many dual-degree programs out there to satisfy even the most esoteric of interests. A joint-degree program offers students the opportunity to pursue two graduate degrees simultaneously (one being the J.D.) so that less time is needed than if they were pursued successively. What a student needs to ask is: how long will it take, and is summer coursework required? Is there one application for the program, or do I need to apply separately to each school? How is tuition determined? Is there a required sequence of coursework?

Some law schools offer merit-based scholarships, some offer need-based grants, and others provide a mix of both. All law students are considered independent for purposes of eligibility for government loans.

Research & Writing Programs

When that first legal research assignment hits a summer associate or new lawyer, you will have a new appreciation for the quality of the legal research, analysis, and writing program at your law school. This is the class in which students learn the fundamentals of legal research, how to do legal research, analyze the findings, and prepare legal documents. It is the one that can help you advise a client in that legal job. There are different approaches to teaching legal research and writing. I believe that the optimal set-up is to have full-time faculty, each a lawyer with significant practical experience, teaching in small groups.

Legal Clinics

Participation in a legal clinic can be the highlight of a student's law school education. In evaluating clinical offerings, a student should look for a program that is overseen by a faculty member whose primary responsibility is the legal clinic: a) that offers only real client experience, not simulated cases; and b) in which each participant handles a number and variety of cases, from the initial client intake throughout resolution of the cases.

Career Planning & Placement

There are many factors to consider in evaluating a law school's career services office (CSO). A top-notch career services office should be providing students with the tools that they need to conduct a job search—not only the first job after law school but throughout their career. This includes resume-writing clinics, interview skills workshops, an attorney mentor program, participation in off-site recruitment programs, and sessions that focus on different areas of legal practice. The CSO will assist students in finding summer legal jobs, part-time jobs during the school year, and post-graduation positions.

What Do the Alumni Think?

The mark of a good law school program is an active alumni group. Alumni who feel that their education has served them well and who enjoy their law school years will contribute to the law school. This includes endowment support, of course, but can also include offering time and assistance with admissions by speaking with prospective students, serving as mentors to current students, and helping with career planning and being available to counsel graduating students.

Author Barbara Andelman, Assistant Dean for Admissions and Financial Aid at Case Western Reserve University School of Law, has been in law school admissions for more than ten years and practiced law before that. She is a Trustee of the Board of the Law School Admission Council. She is reachable to readers by phone at (800) 756-0036, via e-mail at <lawadmissions@po.cwru.edu>, or via the Web at <http://lawwww.cwru.edu>.

---

"The law school at Case Western Reserve University, located in Cleveland's beautiful University Circle, offers a nationally recognized legal education at a major comprehensive university in a city that is one of the nation's leading law centers. For over 100 years, the school has prepared its students for leadership in the practice of law, public service, and commerce. Today its alumni are serving in prominent positions throughout the nation and the world. And their continuing interest in the school is embodied in generous scholarship and employment opportunities that benefit current students.

"Our faculty take their responsibility of educating tomorrow's leaders very seriously. Graduates often cite our faculty's commitment to excellent teaching and accessibility to our students as one of the most enriching and valuable aspects of their legal education. The curriculum is both challenging and extensive—offering a powerful combination of theory and practice that provides students with a solid foundation for their careers. The law school's strong tracks in business law, litigation, and health law, are excellent examples of the special way in which the curriculum molds graduates who make a difference from their first days as lawyers.

"The school benefits enormously by being located in Cleveland, Ohio, a city that ranks among that nation's premier legal, corporate, and health care centers."

Seeking a Supreme Court Seat

HNBA Leads Drive for Representation

BY
JEFF SIMMONS

Only 3.3 percent of the nation's federal magistrates are Latino. The number of Latino attorneys in the nation is similarly disheartening: only 2.8 percent of the 860,000 lawyers. These rates have remained generally stagnant or inched upward at a snail's pace, a growth significantly outpaced by the Hispanic population explosion in America.

On the anniversary of the historic equal opportunity ruling of Brown v. Board of Education, a group gathered on the steps of the United States Supreme Court. Roughly a dozen leaders from across the nation assembled, the court's massive columns towering above them.

But these were not leaders in the African American community. They were congressional representatives, civil rights advocates, and prominent attorneys, and all men and women of Latino heritage. Portraying a united front on this important anniversary, the group championed another landmark change: a change in the face of the Supreme Court.

"It was 220 years ago that our nation was founded on the principle that all men were created equal, and while this concept was true, opportunities for Hispanic Americans have not been equal," José Gaitán, then-president of the National Hispanic Bar Association, said on that day in May 1996.

"It is because of this that we find ourselves today, despite the fact that we've had 220 years of history in this country, we find ourselves without a Hispanic American on the United States Supreme Court."

That half-hour on the courthouse steps was a remarkable moment for those who gathered, not only because it provided a forum to voice their concerns but because it dispelled any perceptions that the Hispanic community was not unified and could not rally behind any potential candidates to sit on the governing body.

"I don't think it was a perception. I think it was a manufactured excuse," says Carlos Ortiz, general counsel for Goya Foods in New Jersey and HNBA's liaison to the White House.

"We have been as united as anyone in this country. No group, not the African American community, not the Jewish community, not the Jewish and Catholic communities, has ever been more united than we are in expressing the urgent need for more diversity on that court."

"And yet, for some reason, because one or two individuals had expressed some minor reservations, that was used as an excuse, and many believed it was used as a divisive tactic—to divide the com
munity," says Ortiz.

Nevertheless, despite that impressive and unified front—congressional representatives from Illinois, California, and New Jersey, and leaders of groups such as La Raza and the Puerto Rican Legal Defense and Education Fund—the face of the nine-member court remains the same. Another justice has yet to publicly announce an intention to retire, though last spring rumors about the next vacancy were still alive.

The campaign to appoint a Latino to the court is largely being driven by the HNBA, in collaboration with groups and leaders across the nation. It is part of the organization's efforts to expand the number of minorities in the judicial system, from clerks to magistrates.

The HNBA reports, for instance, that only four of the 970 law clerks who have served the current justices have been Latino. An analysis of Hispanic American federal court appointees by administration also shows little progress during President Clinton's tenure.

Overall, Clinton is responsible for 12 Latino appointments, comprised of nine to the federal courts and three to the circuit courts of appeal. That outpaces President George Bush, who appointed eight. But President Ronald Reagan had appointed 15, and President Jimmy Carter, 16.

Only 3.3 percent of the nation's federal magistrates are Latino. The number of Latino attorneys in the region is similarly disheartening: only 2.8 percent of the 80,000 lawyers. These are rates that have remained generally stagnant or even upward at a snails pace, a growth significantly outpaced by the Hispanic population explosion in America.

"As we approach the millennium, the Hispanic community in this country has grown. It's 20 million and growing," notes Martin Castro, a commercial litigator with the Chicago firm of Baker & McKenzie who chairs the HNBA's United States Supreme Court Committee. "You cannot have the highest tribunal in our nation not reflect that portion of our diverse nation."

The court's history has seen the demographics, race, and religion play a role, with historic actions guiding the first African American—the late Thurgood Marshall—and the first woman—Sandra Day O'Connor—onto the bench, ground trepidation once again with the confirmations of Clarence Thomas and Ruth Bader Ginsburg.

It was during the 1992 presidential campaign that the HNBA intensified its efforts to encourage Latino representation on the court. Then-Governor Clinton, the HNBA reports, had promised that the judiciary would "look like America."

The HNBA even compiled—a list of potential nominees—after extensive background research and interviews—a list dubbed the "Magnificent Seven"—that well-regarded potential nominees to the court. The group presented those names to President Clinton upon the retirement of Justice Byron White, but Clinton subsequently nominated Ginsburg (whom the HNBA voted unanimously to endorse).

One year later, Justice Harry Blackmun announced his retirement, and again the HNBA stepped up its lobbying efforts. But President Clinton nominated Judge Stephen Breyer (and despite any dismay, the HNBA endorsed Breyer as well).

It was during this time that the perception of a "lack of unity" in the Latino community surfaced. But two years later there appeared to be progress.

Ortiz, in a recent article titled "Hispanic American Representation in the Federal Judiciary: Better Than Before—But Still Not Good Enough," cited a private meeting with Clinton's closest advisors, in which they praised the HNBA that the "unity in the Hispanic community was no longer an issue."

The Magnificent Seven has since been amended; it now contains six names, potential candidates that the group is poised to pitch at a moment's notice.

"We have always been of the opinion that it's necessary for us to be prepared in the event that there's a vacancy," said Castro. "This is not a cyclical issue for us; this is something that is on the front burner for the Hispanic community."

The most recent list is comprised of:

Joséph F. Baca, a justice on the New Mexico Supreme Court. Baca was elected to the court in January 1989. He was previously an assistant district attorney in Santa Fe and a district court judge in Albuquerque. In 1994, President Clinton appointed Baca as director of the State Justice Institute, a private nonprofit corporation estab-
lished by Congress to provide grants to assist State court systems.

- **Fortunato “Pete” Benavides**, a judge with the United States Court of Appeals for the Fifth Circuit in Austin, Texas. Benavides was appointed by Clinton to the court in 1994, and he previously served as a trial and appellate court judge for 15 years.
- **José Cabranes**, a judge with the United States Court of Appeals for the Second Circuit in New Haven, Connecticut. President Jimmy Carter appointed Cabranes to the federal bench in 1979, distinguishing him as the first Puerto Rican appointed to the bench in the continental United States. He previously had served as general counsel of Yale University, and was chief judge of the U.S. District Court in Connecticut when President Clinton appointed him to the second circuit bench in 1994.
- **Vilma S. Martínez**, a litigation partner with Munger, Tolles & Olson in Los Angeles, California. Martínez previously had been a staff attorney with the NAACP Legal Defense and Educational Fund, and served as the Equal Employment Opportunity counsel with the New York State Division of Human Rights. She also served on President Clinton's Advisory Committee on Trade Policy and Negotiations from 1994 to 1996.
- **Cruz Reynoso**, a law professor with the University of California in Los Angeles. Reynoso previously was in private practice for a decade in El Centro, California, and since 1993, served as vice chairman of the U.S. Commission on Civil Rights. He also had been appointed by President Jimmy Carter as the United States delegate to the United Nations Commission on Human Rights and was a member of the Select Commission on Immigration and Refugee Policy.

Castro, the Chicago attorney, said that it is important to remain vigilant in the campaign, and to remind the nation's leaders that "this historic lack of representation must be remedied."

The reasons go beyond just statistics, pointing also to diversity and respect. Castro said that the appointment of a Latino justice would acknowledge that "finally, we as Latinos have made it to the table."

"It would also send a strong message to Americans across the country that Americans of Hispanic descent are one and the same, that we have contributed greatly to the building of this nation and we continue to contribute greatly."

If a retirement does occur in the coming months, Castro said, "it would be a great legacy for the Clinton administration to finally open the doors of the Supreme Court, which have been closed for so long to Latinos."

But if the current judicial makeup appears to stretch into the next presidential term, expect the issue of minority representation to be propelled to the fore by HNBA and other organizations.

"I hope we have an appointment before the next presidential election," Castro said. "I don't see it as being anything but a positive issue regardless of the political campaign. We have been lucky to have bipartisan support on this issue. This is not a Democratic-Republican issue. This is an American issue."

But Ortiz said that political considerations most likely will be taken into account when making the appointment.

"Whichever political party is the first one to appoint the first Hispanic American, that's going to give them an extra feather in their cap, extra points, extra credit. It would behoove each party," Ortiz said. "The Hispanic American vote cannot be taken for granted anymore."

These were words often repeated on that May day on the courthouse steps two years ago. Speaker after speaker weighed in on the Supreme Court's vital role in history and the future of the country.

Congressman Robert Menéndez (D-New Jersey), the fifth to address reporters, eloquently stated: "As a nation, we have worked best when we've worked together. We've drawn strength and wisdom from our diversity, and the slowly unfolding history of tolerance and diversity can be charted by appointments to the Supreme Court."

"The Supreme Court in many ways is a treasury of our society, and appointments to the court have a tradition of reflecting tolerance in our society."
Making a Profound Contribution

"Más importante es el camino que la posada" Don Quixote

Claudio Grossman is Dean of American University's Washington College of Law, Co-Director, with Robert Goldman, of its Center of Human Rights and Humanitarian Law, and Special Rapporteur on Guatemala, Paraguay, the Dominican Republic, and Women's Rights for the OAS Inter-American Commission on Human Rights.

HO interviewed Dean Grossman, who was born in Chile and earned degrees both there and in Holland, as he was about to travel to Guatemala on a commission visit. Highlights of that interview follow.

HO: Did you select human rights or did it select you?

GROSSMAN: Both. Human rights is an area that has been an interest of mine for a long time.

HO: Was there a specific event that spurred your interest?

GROSSMAN: Well—my rejection of the idea that the ends justify the means. My belief that there is an inherent value in every human life. And events that took place in Latin America in the '70s. All these circumstances.

HO: If I look at a map of Central and South America, are there any countries therein that are NOT members of the OAS?

GROSSMAN: Well, first of all, the OAS is not only for Central and South America. It is Inter-American, and includes Canada, the United States, the Caribbean. There are 55 countries. One country—Cuba—is excluded. Of the 55 countries, 54 are members.

HO: Is membership in the OAS tantamount to acceptance of the jurisdiction of the Inter-American Human Rights system?

GROSSMAN: When you are a member of the OAS, a member
state, you are under the jurisdiction of the Commission because that supervises either compliance with the American Convention of Human Rights or the American Declaration. This last instrument is used by the USA, Canada, and those Caribbean countries that have not ratified the Convention.

**HO:** Is the United States going to ratify the Convention?

**GROSSMAN:** I think that at a certain point it will be ratified.

**HO:** Does the U.S. bow to any other international law body?

**GROSSMAN:** The United States is a member of the OAS. The United States and its agencies ratified the International Covenant on civil and political rights, and is subject to a committee that supervises complaints about human rights.

**HO:** Last fall your law school held a conference on applying international law in domestic courts. Could you give me an example of a situation in which a judge might do so?

**GROSSMAN:** One example is when an individual starts a tort action because of a crime against international law. If someone recognized a torturer—someone who tortured you or a member of your family—that person could start a case asking for damages. There is the Alien Tort Statute that says an alien can sue an alien under the Law of Nations, when you have a Law of Nations definition—torture, genocide.

A second example—treaties. Treaties are the law of the land. If the U.S. has ratified a treaty, a judge could apply the treaty in domestic cases, if the treaty is self-executing.

**HO:** I noticed that Supreme Court Justice Stephen Breyer presided over a panel last spring at your moot court competition. Who's going to be our first Hispanic Supreme Court nominee?

**GROSSMAN:** I don't know. I would hate to give a name, but I think it will be very important to have one.

**HO:** How long before we have a Latina Supreme Court justice?

**GROSSMAN:** It is sooner rather than later.

**HO:** After they get out of medical school, physicians can be board-certified in a variety of specialties. Is there anything like board certification for lawyers? How do they develop a specialty?

**GROSSMAN:** In the legal profession, once you pass the bar [exam], you can go in any direction you want. However, people will take a look at your practice and your style. You have some flexibility during the three years of study. If you study human rights and gender issues, probably the market will not push you in the direction of tax law. On top of the J.D. program, you can study in a master's program, in order to specialize.

In international law, we have different areas of expertise, such as international business, international organization, international environmental law, and gender law. Then we also have a program in law and government, a master's program, drawing on resources of the nation's capital—regulation policy, immigration policy. We have also law and government—administrative law. These are our two master's programs.

Within the three years of the normal course of study to become a lawyer, you can choose programs in business, in environmental law.

**HO:** What is the makeup of the student body at Washington College of Law vis-a-vis Hispanics? Latinas?

**GROSSMAN:** We have around 1,300 students. 200 in master's programs. Gender composition is about 50 percent women.

In terms of the ethnicity, we have an entering class of over 25 percent minorities. I have pushed, of course, for a very diverse student body.

**HO:** Your conference on international women's rights attracted my attention. I worked in the field for years, and want to thank you for enlarging the examination of women's issues.

**GROSSMAN:** In this hemisphere, one out of every four women is the object of domestic violence. In some countries women are not equal—there is legislation that limits the rights of women—women are not entitled to work without authorization by the husband. De jure, we are talking de jure. And the salaries paid to women—at the highest echelons of the judiciary—the highest are paid to men. Why, why, why? This is something which we are working on, and we issue a report on women's rights in the hemisphere.

**HO:** If you were the omnipotent head of all legal matters in the United States, what changes would come to mind first?

**GROSSMAN:** Well, the first thing that I would like to say is that I wouldn't be omnipotent—I don't believe in the omnipotent person. One of the key values of the legal system is the division of power and the existence of checks and balances. Participation is very important. The way in which you arrive at a decision is sometimes more important than the decision itself. So if I would be omnipotent, we would get rid of it. And involve everything in totalitarianism—employers, employees, and all different groups, and sometimes the decision takes longer. In fact, Don Quijote used to say, "Mas importante es el camino que la posada."

The first thing, then, is making it participatory—with different centers of power. In that participatory system, it is very important to understand the purposes of the power. That there are the poor and the weak and the elderly in society, and that there is a role for the organized society to provide opportunity for the poor, the weak, and the elderly—so that they can develop...
themselves to the maximum of their potential. That would be something I would hope to bring.

HO: What is the typical career track for a law school dean?

GROSSMAN: I don’t know that there is a typical career track, but there are different models. One is someone who sees a contribution in administration as a life endeavor. Another is to see that as one moment where you contribute and then you move to something else. I see myself developing and promoting new programs, and after a while I’ll go back to scholarship and service.

HO: You’re holding a Hispanic law conference in November. Who is welcome? Who would benefit?

GROSSMAN: The Hispanic community in general, the legal Hispanic community, and the country at large. We have kept the fees very low to encourage broad attendance. [HO learns the registration fee is $20. $5 for students.]

I think that the legal profession is a very exciting profession and that lawyers have a role to play in the promotion of human dignity. Those are some of the things we are going to explore in the conference. In this case, specifically what lawyers can do in issues that concern the Hispanic community and the community at large. There is hardly an issue facing our society that does not have a legal issue. If you think in terms of crime or gender, every issue has a legal component, and then lawyers have a role to play in values that have a legitimacy in the society. And pushing for an important agenda for human beings.

Sometimes lawyers are not perceiving that profound ethical component and contribution that the profession can make.

“And the salaries paid to women—at the highest echelons of the judiciary—the highest are paid to men. Why, why, why? This is something that we are working on, and we issue a report on women’s rights in the hemisphere.”

DEAN GROSSMAN

AT THE CENTER

The Washington College of Law, with the support of its faculty and diverse study body, established the Center for Human Rights and Humanitarian Law, which creates opportunities through advanced legal training and research projects, conference and seminar sponsorship, and its publications.

The International War Crimes Project
Conducts substantive legal research on questions of international humanitarian law and comparative criminal law, has already provided technical assistance regarding the former Yugoslavia and Rwanda, and is now analyzing other areas of conflict.

The Human Rights Brief
Reports on decisions of International War Crimes Tribunals, Inter-American Commission on Human Rights, Inter-American Court on Human Rights. Typically three editors are receiving Dean’s Fellowships for their efforts. More than 20 students work on the publication, together with faculty and staff.

The Moot Court Competition
Academic and legal training program for young lawyers concerned about human rights in the Americas. Unique bilingual competition teaches students substantive and procedures issues, identifies key actors, involves the Internet, illustrates the importance of comparative law training in human rights protection. Last May’s competition drew teams from the US, Canada, Ecuador, Peru, Mexico, Costa Rica, Panama, Paraguay, Honduras, Puerto Rico, Chile, Colombia, Guatemala, Argentina, and the Dominican Republic.

The Digest Project
With financial support of the Dutch Government, it is developing a jurisprudential repertoire of the protection system. Developed with input of an International Advisory Board, the Digest includes excerpts from relevant decisions, reports, and resolutions. Through the Digest Project, the Center has a new Web site database containing Commission decisions.

And More
The International Human Rights Clinic, the Women and International Law project, LL.M. specializations in Human Rights and in Gender and the Law through the WCL International Legal Studies Program.
Contact Robert Guitierrez (202) 284-4180 or visit <http://www.wcl.american.edu/pub/humanrights/home.htm>.

OTHER WCL STUDIES
International law courses range from International Organizations and Multinational Institutions to International Wildlife Law and Policy, from Asylum and Refugee Law to International Business Taxation, and the topics increase through seminars on topics as diverse as the laws of sea and space, of ethnic identity and national state tension, of international banking, of the rights of indigenous peoples.
Contact: <http://www.wcl.american.edu>.

UPCOMING CONFERENCE
2nd Annual Hispanic Law Conference and Career Fair, hosted at American University, Washington College of Law, and co-sponsored by the Hispanic Bar Associations of the District of Columbia, Maryland, and Virginia. Intended to provide a forum for Hispanic and non-Hispanic attorneys and students to engage in thoughtful dialogue on issues of import to the Hispanic community and the Hispanic legal profession in the Washington Metropolitan area. One panel will focus on recent changes in the U.S. immigration laws and the relation to other areas of law, including criminal and family law. The second panel will cover the presence and impact of Hispanics in the legal profession. Next is the Diversity Award Luncheon, followed by a career fair.
some, the term "law and order" evokes the image of a popular television drama series. To others, the term is a politician's catchphrase guaranteed to garner votes. But to law enforcement professionals who maintain real law and order in society, effective enforcement requires more than play-act and lip service. A successful career in criminal justice and related public service fields begins with a specialized education. Recently in "America's Best Graduate Schools," U.S. News & World Report ranked John Jay College of the City University of New York first in the country in the category of public affairs specialties with a focus on criminal justice policy. That puts John Jay ahead of Harvard, SUNY-Albany, Princeton, and a host of other fine institutions offering programs in the field.

Criminal justice professionals are not surprised at John Jay's top ranking. While there are 3,500 criminal justice programs in the country, only John Jay College has a mission that devotes the institution to this field of study. It also has a long-established record of leadership and distinguished service in criminal justice education, research, and training. John Jay has the largest Ph.D. program in criminal justice among the 25 offered in the country, the only master's programs in forensic psychology and protection management, and the school is a major center for the study of forensic science. Withholding kudos for John Jay's leadership would be—well—criminal! It is thus a great and legitimate pleasure to announce that John Jay College of Criminal Justice becomes the first institution of its kind to join the Hispanic Outlook Honor Roll.
Honor Roll Facts in Brief

INSTITUTION:
John Jay College of Criminal Justice
The City University of New York

LOCATION:
Office of Admissions
Room 4205 North Hall
445 West 59th Street
New York, NY 10019

dorical, and political forces that shape society.

From the beginning, John Jay embodied a new concept in higher
education. As the second half of the 20th century began to unfold,
civic leaders and the New York City Police Department became
increasingly aware of the growing complexity of police work in such

Dr. Gerald W. Lynch, president of John Jay College since 1976, is an
internationally known expert on police professionalism and training
who holds a doctorate in Clinical Psychology from New York
University. Dr. Lynch points out that with the school graduating its
largest class ever this past June, “Interest in the field of criminal jus-
tice and John Jay is at an all-time high.” Alumni surveys report that
94 percent of graduates feel there is a positive relationship between
their degree major at John Jay and their current employment.

Lynch observes that the trend of growing enrollment at John Jay is
no aberration. “With sophistication and technology increasing in terms
of how society deals with crime, and the strength of the job market in
criminal justice,” he says, “students and law enforcement practitioners
are seeking out the College’s offerings for the skills and expertise they
need to keep up with current trends and advance their careers.”

John Jay College of Criminal Justice of The City University of New
York is a unique institution—a liberal arts college dedicated to educa-
tion, research, and service in criminal justice and fire science and in
related areas of public safety and public service. According to John Jay’s
literature, its educators aim to develop graduates with the “intellectual
acuity, moral commitment, and professional competence to confront the
challenges of crime, justice, and public safety in a free society.”

The College offers an undergraduate and graduate curriculum
that balances the arts, sciences, and humanities with professional
studies, encouraging them to develop “a continuing relationship with
learning and service, and an awareness of the diverse cultural, his-
areas as internal administration, operations, and ongoing relations between the police and the community. The response to their concerns was the establishment in 1954 of a Police Science Program at then the Baruch School of Business and Public Administration of City College. The pioneering Police Science Program emphasized the liberal arts as the basis of sound police education, and over the next few years, the program attracted a growing number of students.

In 1964, a special committee convened by the Board of Higher Education noted that "the education of the law enforcement officer, like the education of a teacher, must provide that freeing of the mind which is the essence of a liberal arts education." The committee recommended the establishment of an independent degree-granting school of police science. As a result, the College of Police Science of The City University of New York came into being, admitting its first students in September of 1965.

Within a year the college was renamed as it was felt the current name did not adequately reflect its character. In recognition of the objectives of a broad education for law enforcement officers, professional training for those engaged in the process of criminal justice, development of leadership, and emphasis on professional achievements in public service, the college was renamed John Jay College of Criminal Justice, in honor of the first Chief Justice of the United States Supreme Court.

Originally housed at the New York City Police Academy, the college moved to a building on Park Avenue in 1967 and then to a site near Lincoln Center in 1970. This permanent home on West 50th Street, North Hall, was augmented with space on West 55th Street, South Hall, in 1973.

The college acquired more space in 1985, three years later opening its site on 10th Avenue, between 58th and 59th streets, a building with a library, performing arts theater, new lecture halls and classrooms. It also houses an NCAA regulation swimming pool, a sophisticated cardiovascular center, two full-sized gymnasiums, racquetball courts, and a running track.

The John Jay Theater helps the college bring quality cultural events to its students and the community—concerts featuring renowned performers, exhibitions of paintings, drawings, sculpture, and photography. The Lloyd George Sealy Library holdings of more than 25,000 books and periodicals reflect a continuing program of support for the curricular and educational aims of the college.

President Lynch reports with great pleasure that the Governor's Office recently earmarked $8 million in additional funding allocated in the state's Capital Budget for a Phase II Building plan, to augment $10 million already on hand. These funds will be used to buy property near the site to accommodate growth.

John Jay College has an annual enrollment of about 10,000 students, including about 800 studying for a master's and close to 100 for a doctorate. The most popular major among undergraduates is Criminal Justice, and among graduate students Forensic Psychology, Hispanics make up 34 percent of the undergrad class, African Americans 19 percent, Caucasians 20 percent, and Asians 3 percent. Most students come from New York City, 51 percent are female, 49 percent are full-time, and 66 percent less than 24 years old.

John Jay alumni include top administrators in law enforcement agencies, police chiefs, correction and court administrators, judges, sheriffs, private security personnel, and other public service officials. Nearly one-third of the precinct commanders with the New York City Police Department are John Jay graduates, as are numerous other high-ranking officials.

On television, New York State Criminal Court officer Josephine Ann Longobardi, who received her B.A. from John Jay College in 1987, serves as Court Officer to former New York City Mayor Ed Koch, the presiding judge for the present version of The People's Court, one of the longest running and most successful syndicated series ever.

Another personal success story concerns two graduates of the class of 1997. Raul Azurdia wanted to become an attorney in his native Guatemala. But after taking some courses, he abandoned his studies and headed for the United States with a dream. For four years he worked numerous odd jobs until he was financially able to bring his wife and three children to this country. In 1994, at the age of 50, he joined his daughter Gilda as a student at John Jay College. While working full time, he completed his degree with a 3.3 GPA and graduated—along with his daughter.
Top Team: Castillo and Moreno

Thomas Jefferson School of Law students achieve distinction nationwide

BY ADALYN HIXSON

"When I was in the 9th grade, I told them, I want Honors English, Honors Math. My counselor specifically asked me, Don't you want to be in the woodshop class? In the general math class? I asked him why would I want to do that? He said, 'Well, those other classes are hard.' And he was Hispanic!"

Michele Castillo

Hispanic students from Thomas Jefferson School of Law in San Diego, Michele Castillo and Daniel Moreno, are bringing distinction to themselves and to the school.

This year, Castillo, the Student Bar Association president, is active in La Raza, and is lieutenant governor of the Women in Law section for the Ninth Circuit of the American Bar Association's Law School Division. "I just attended the ABA conference in Toronto," said Castillo. "and found out I am the only person in the country with that title! I think I'm being used as a test case."

And a clearly enthusiastic test case:

Moreno, a second-year law student, has been elected the 1998-99 Region V President of the Hispanic National Bar Association's Law Student Division. This marks the first time a student from the school has been selected for such a prominent position within the HNBA. Region V includes all 18 ABA approved law schools in California, the most in any state, and one in Hawaii.

As Region V President, Moreno will serve as liaison officer between the HNBA Law Student Division National Board and the Hispanic student organizations at the region's law schools, disseminating information, organizing regional conferences, and promoting a positive image of Hispanics in the legal profession. Moreno says he plans to work closely with the Mexican American Bar Association.

At Thomas Jefferson School of Law, he is currently vice president of the Student Bar Association, and Academic Chair, in which post he will work on preparation of student Exam Packs for core classes and work with the administration to decrease attrition.

Castillo and Moreno co-chaired the school's La Raza Students' Association, and worked very hard to achieve recognition for the group and to promote its goals, according to school spokesperson Lori Wulfeneyer, who describes the
two as "very motivated as well as very socially and politically astute."

HO talked with Castillo and Moreno about their backgrounds, their paths to law school, their heroes, and their aspirations.

**Castillo Chooses Law**

Michele Castillo said she was the first in her family in perhaps 30 years to enter a four year university. Her experiences at UCLA directed her toward the field of law. "I was on the Chancellor's Advisory Committee on Student Conduct one undergraduate, one faculty member, one staff member, and one graduate student. The Committee takes up any issues that may arise-code or conduct issues, infractions ranging from plagiarism to cheating to rape cases and assault cases. We acted as judges. Sometimes people accused did have attorneys, but it was not an extremely formal proceeding. The four of us listened to both sides and asked questions freely of accusers as well as the people accused.

"Generally what we did at a minimum was make a person retake a class," said Castillo, adding that punishments ranged up to expulsion from school. "I asked her about charges that schools sometimes cover up rape cases to protect their images.

"I think it should all be disclosed. I don't have a problem taking a stand on that. Not only at UCLA, rape is really a big, big problem.

"My undergraduate thesis was on violence against women. As it is, it is hard enough for a person who has been victimized to come forward. UCLA has a really good system in place. They are very fortunate in that they do have their own police station. But a lot of universities are not very fortunate in that they don't have the resources."

"I became very aware of the problems women face because of the injustices in our society, ranging from a very early age how we are socialized and how we are underdeveloped as individuals," said Castillo. "All you have to do is look at the problem with domestic violence and then rape. I started by taking a women's course, an introductory course that all my friends were taking." Castillo had thought, "Oh I'm not into that."

"You have the stereotypes but I took this class and learned much about our society and about the international [situation] as well.

"I consider myself very liberal, very idealistic," said Castillo. "I really think that I can help to institute change. But the criminal justice system makes it so hard. I'm not saying this is true all over the country, but people are revictimized through the system."

Michele Castillo earned a B.A. in both women's studies and in history on graduating from UCLA in 1994.

**Moreno's Approach**

Daniel Moreno approached the study of law from a different perspective that of the impoverished medical student who had entered the "sixth most expensive medical school in the country," and sunk deep into tuition-driven debt.

"I took a leave of absence. My plans were always to go back to save enough money to go back." He had dreamed of medical school a long time, and had worked hard to get into a science high school to make it possible. But he found himself in court over the debt. He and his wife, Maria, also a medical student, were "typing briefs and arguments and oh, were not in the right format."

"That was the beginning of my experience with courts when I tried to defend myself and couldn't afford an attorney. The tuition debt haunted him even as he applied for work as a teacher. The L.A. Unified School District required submission of all transcripts and UCLA was withholding his because he owed the school money.

Moreno went to see law professor Cruz Reynoso, one of HNBA's proposed candidates for the U.S. Supreme Court, who was "very accessible, very open, and had lots of suggestions," said Moreno. "Even though he was a faculty member at UCLA, he encouraged us to fight for what we believe is right."

"I had to go to court again. L.A. Superior Court. And I got a sensitive judge who asked UCLA, "What is it that you want out of him? If he can't work, he can't pay you." and forced UCLA to release the tran-
The District hired Moreno as a bilingual fifth grade teacher at the State Street Elementary School in Southgate, with “lots of students who came in from other countries.”

“I grew very fond of my classes. Some of the students were very difficult. And some of the teachers didn’t necessarily believe in bilingual education, so I had to fight to get more books in Spanish so the kids could understand. It was just a never-ending battle.”

Something else concerned Moreno. “I had fifth graders already dressing in gang attire, already being disobedient and disrespectful.” But there were also those “who wanted to learn. I could see it in their eyes, and they made it worthwhile.”

Moreno and his wife opted to home school their daughter, five-year-old Dominique, to raise her as a bilingual child, and to protect her from the violence, not where they live now, in West Virginia, but in other areas.

Moreno spoke with HO on the eve of his trip home to Bluefield, W. Va., a temporary home that comes with being married to an emergency room physician assigned to low income areas.

“The job has allowed us to travel to many parts of West Virginia, Kentucky, some parts of Indiana and Virginia. There’s still a lot of discrimination out there, not necessarily aimed at Hispanics or Mexican Americans, just people who are different. I think people in those areas are just afraid of change, of people who look different. Kind of wary of them.

“A lot of people didn’t know what to make of them. They thought I was Iranian, Italian, a Hindu, Pakistani, and I would tell them I am Mexican American. A lot of the doctors who practice in those areas are foreign trained.”

The assignment in West Virginia drew Moreno away from his job in Los Angeles and into yet another encounter with litigation helping his wife retrieve money she earned through a physician recruiter.

“There were physician recruiters that have good reputations and a lot that are popping up out of nowhere, just starting up. Some are in a crunch for money. A lot of these agencies are based in Georgia. Georgia protects these businesses and it is very difficult to get at them, he told HO.

“A lot of things came together your key to success is right there.”

She mentions too, Diane Dowler, her teacher in a high school advanced placement history class. “She really pushed it. Ran that class like a college course and told us all, ‘You guys really commit yourselves to education.’ It was an upper middle class white school and oftentimes I was the only minority in honors class. I literally had to make him put me in the classes I wanted.”

Moreno says, “I guess everybody

“Danny is great. Just like a big brother, and I think together we get a lot done. Our motto from the beginning was Making a Difference.”

MICHELE CASTILLO

I’ve come across” has been a special influence. “My wife, my parents, my fellow law students, especially Michele. I’m a mellow kind of a guy, shy, not the first to comment in the class room. People like my wife and Michele have kind of made it ok for me to be God at times encouraged me.

He mentions too his fifth grade math teacher. “This was during the late 60s, early 70s, I guess. She had that hippyish look. She was just so easygoing, so unlike any of the other teachers. I think she trusted the students to do whatever she wanted them to do without being on top of them. Everybody liked her so much and respected her.

“I think there are different ways of doing things,” he said. “and people should be more open, more willing to accept, and not be so eager to put people down or to criticize.”

And Moreno had at least one more influence. A musical influence. “In music, I liked everything, but the one musician I liked best was Herb Alpert.” Moreno played trumpet in the junior high school band and was part of the Los Angeles All-City Band that marched in the Rose Parade. He played, too, in the UCLA marching band.

Heroes

“From childhood,” said Moreno, “my heroes would be sports celebrities and record breakers. That has changed now. Now I look at people who want to make a change...and are willing to risk something.

“I like Hillary Clinton. I think she should have been president. She had a good idea with health reform but for some reason other people just were sabotaging all her efforts and misleading the public. It would have been a good thing for the United States, and I think of her as a hero. She put her reputation on the line and they just attacked her from all sides."

“Another one is Henry Cisneros. He was able to come up from the ranks, one of the few Hispanics to achieve such a high level in government. He is a very good speaker, very dynamic.

“Another one is Justice Cruz Reynoso—a very decent, very caring human being. We need more people like that.”

Castillo too names Hillary Clinton. “A really bright attorney. Very strong.” And John F. Kennedy. And Gloria Allred, for break-throughs in women’s rights law in terms of discrimination. And Radhika Coomaraswamy, whom she met last summer at Oxford University.

“Tetuok classes — international human rights law and the international rights of women. She was a professor of both.”

Coomaraswamy, whom Castillo
describes as amazing, is United Nations Special Rapporteur on violence against women. "Her job is to fly around the world collecting data on violence against women," says Castillo. "She gets faxes in her office regarding women in the Middle East about to get stoned to death asking, 'Can you please help us out?"

Aspirations

"I want to go into women's rights law, an emerging field that includes employment discrimination, gender discrimination, sexual harassment, violence against women, battered women's defense," said Castillo. "Because my field is emerging, I think I would have to go with a public interest agency, ideally in Washington, D.C., something similar to the NOW organization. I'm going to apply for a postgraduate fellowship."

"My dream is to have a violence against women foundation, a comprehensive treatment center with doctors, counselors, psychologists, and the like, as well as attorneys representing both the victims of violence and criminal and civil court.

Danny Moreno hopes to go into a branch of international law, "maybe with the pharmaceutical companies that deal with the international market. Since I know so much about the field of medicine, I might specialize in doctors who need representation before boards. Some licensing boards are very narrow. I think we need to change that if we are going to change medicine in the U.S.

About One Another

Castillo says of Moreno, "Danny is great. Just like a big brother, and I think together we get a lot done. Our motto from the beginning was 'Making a Difference.'"

And he says of her, "Some people are very difficult to work with. Maybe they want all of the power and all of the credit. She is just the opposite. Willing to share all the credit with whoever gets involved, very easygoing, and people are not intimidated."

"We were the president and co-presidents of the law students association. Hispanics in particular are kind of leery of joining a group that might alienate other students by making protests, and the way to earn respect from law students is to work with them and not to alienate them. Michele has always worked well with the black student association and all the others, especially with the faculty."

"If it weren't for her, I probably wouldn't have run for academic chair of the SDA."

College Bound Advice

Castillo says, "Do your research. Definitely talk to people about the school and the problems you're going to find in the area. And job market availability."

Moreno says, "Pick a college not for the name but for what it has to offer, even if it is a small unknown school. I went to UCLA and I am glad. I did have a good education there. A very challenging, good experience, but at the same time, a very intimidating environment not necessarily conducive to learning. If I had it to do over, I might go to a smaller school."

"I was involved in the UCLA band and also in the Chicanos for Community Medicine. Basically what our group did was have speakers, physicians from local clinics, come over to tell us about getting into medical school, and we could volunteer our time at some of those clinics."

"It was a very small group, very limited in what we could do, but we had fun and it was mostly like a support group because premed at UCLA can tear you apart. Go to a college that has something meaningful to offer."

While Daniel Moreno, Jr. traveled with his wife and daughter this summer, Michele Castillo worked on her SDA activities and her new ABA post and attended conferences, "trying to get a head start on those extracurricular as well as researching firms and government agencies."

Asked if she had anything else she'd like to say to HO's readers, she promptly spoke up: "I need a job. I am willing to work anywhere in the country."
A Guide to Hispanic Outlook, Volume VIII

ACADEMIC FREEDOM

The ACLU has taken on the case of the Cordova sisters, who drew on Chicano history in teaching high school students in New Mexico.

OUTLOOK ON WASHINGTON

HO’s columnist Dr. Gustavo Mellander discerns a sea of change in the way that public universities have begun to admit, or not admit, students.

9/5/97, p. 4

With an enlightened search in place, going to graduate school can become an affordable dream.

9/19/97, p. 4

HO looks at facts and divergent attitudes about immigration in this nation of immigrants.

10/3/97, p. 4

Dr. Mellander quotes Lincoln in presenting the federal budget pros and cons: “No matter how narrow a board might be, it still has two sides.”

10/17/97, p. 4

35,000 well-prepared new teachers for high-poverty schools in the next five years? A promising move for Hispanic youths, if this Clinton initiative is funded.

10/31/97, p. 4

Dr. Mellander advises that college education is imperative, not an option, for Hispanic youth.

11/14/97, p. 4

Will low skills equal low pay? Dr. Mellander thinks so, and offers a primer of technology essentials for teachers and students.

11/28/97, p. 4

Dr. Mellander suggests a career in the Foreign Service.

12/12/97, p. 4

Legislators are proposing bills to tackle the nation’s severe high school dropout problems, starting with the middle school years.

12/26/97, p. 4

Dr. Mellander makes the case for early access to algebra, citing findings of a recent study conducted for NACME.

1/9/98, p. 4

New funds for safe and smart after-school programs.

1/30/98, p. 4

There is much room for improvement in the ways that Hispanic children are prepared for and motivated to attend college. Attitudes of parents and counselors are critical to the solutions.

2/13/98, p. 4

indeed, says a new report by the Center for Education Statistics, citing higher grades, better behavior, and a brighter future among the benefits of Dad’s K-12 interaction.

2/27/98, p. 4

A report on President Clinton’s educational initiatives, including federal tax credits, class size reductions, and grants to urban schools—which could help Hispanics.

3/3/98, p. 4

Vice President Al Gore recently unveiled the Clinton administration’s Hispanic Education Action Plan, which includes $600 million in programs for disadvantaged students.

3/27/98, p. 4

William Vega, Coast Community College Chancellor and College Board Trustee, talks to HO about a new emphasis on community colleges.

4/10/98, p. 4

The Washington Post’s Web site serves as a vital research tool for a wide range of topics, particularly education issues of national significance.

4/24/98, p. 4

The latest international ranking of U.S. 12th graders in math and science is a grim reality check.

5/8/98, p. 4

An expert sums up Hispanic healthcare realities in six words: poor access, poor service, poor information.

5/22/98, p. 4

Successful programs aimed at achieving Hispanic retention.

6/5/98, p. 4

Bringing the benefits of the telecommunications revolution to all Americans.

6/19/98, p. 4

Distance education gathering steam.

7/3/98, p. 4

A Clinton initiative aims to create in all children the desire and the means to succeed in college.

7/17/98, p. 4

Dr. Mellander provides the tools to help keep up with the Congressional and Executive Branch issues and actions related to higher education.

7/31/98, p. 4

Proposed aid targeting education needs of Hispanics just might represent a turning point in the dropout dilemma.

8/14/98, p. 4

The Department of Education reports on class size reduction in the earliest grades.

8/28/98, p. 4

PROGRAMS

A survey of Even Start parents and children in 10 Texas towns shows results that would hearten any educator.

9/27/97, p. 12

Maricopa College, a multicampus community college system, has a center in downtown Phoenix that shares space with community organizations, and tutors classes to specific needs of local populations, more than half of whom are Hispanic.

10/17/97, p. 13

Washington’s Wenatchee Valley College is drawing Hispanic high school students into higher education with a rigorous summer prep institute.

12/12/97, p. 17

Durham’s sizable Hispanic population will get help from a new program at the University of North Carolina at Chapel Hill.

7/17/98, p. 11

A migrant son is a model student in Eastern Washington University’s Chicano/Latino Education program, the only one in the state.

8/28/98, p. 21

PUBLISHER’S PICKS

Outlook Publisher José López-Isa presents his Hot List of recommended colleges and universities for Hispanics. Included is an interview with the publisher, who is a lifelong educator.

11/28/97, p. 5

RANKINGS

Miami-Dade Community College is the clear leader of the pack as HO lists the 150 two-year colleges and training centers awarding the most associate degrees to Hispanic students.

4/10/98, p. 11

HO lists the top U.S. colleges and universities by the number of Hispanics awarded bachelor’s, master’s, and doctoral degrees, overall and by field.

4/24/98, p. 6

RECRUITMENT

Students at St. Mary’s University
volunteer in two programs intended to inspire and enable area children to complete high school and go on to college.
1/30/98, p. 12

Four women administrators talk with HO about steps that must be taken to recruit, motivate, and educate today's students.
2/27/98, p. 9

REPORTS

Seven scholars appointed to the Hispanic Dropout Project release their recommendations and summon education's stakeholders to action.
9/19/97, p. 6

Computer-related technology, electronics, and nursing are "hot occupations" to train for, says a 199" American Association of Community Colleges survey.
6/19/98, p. 20

RESEARCH GRANTS

A groundbreaking National Science Foundation research grant to a community college is a first-rate catalyst for student zeal.
4/10/98, p. 7

RETENTION

Arizona State University President Lattie Coors made retention a top priority in 1993. Four years later, special efforts are paying off, especially for minorities.
2/13/98, p. 5

Now in its second year, AHORA offers rapid progress for working adults who demonstrate full-speed-ahead motivation for a college degree.
2/13/98, p. 9

STUDIES

University of Michigan study by Dr. Eduardo Bonilla-Silva uncovers white students' anti-affirmative action attitudes in three states.
7/3/98, p. 12

SUCCESS STORIES

Carlos Razo, at age 23, lobbies, mediates, and promotes empowerment and unity as president of a California student association.
9/5/97, p. 18

"Equal protection under the law" requires interpreters fluent in both the language of litigants and the language of the courts. Now there's a university program to make it happen.
9/17/97, p. 19

At Garden City Community College, a Mexican immigrant scored among the top 74 of the more than 80,000 taking the GED nationwide.
10/17/97, p. 15

Silvia Lizama entered the field of photography while an undergraduate at Barry University. Exhibited at the Smithsonian Institution this summer, her work now tours the country.
10/31/9, p. 16

Minority students from across the country travel to Michigan to take part in a summer bridge program at Calvin College, which recently named a new associate director for multicultural admissions.
11/14/97, p. 19

As Florida International University celebrates its silver anniversary, its Cuban-born president reviews its past and charts its future.
11/8/97, p. 24

Dr. Luis Leal receives the National Humanities Medal for a lifetime of distinguished scholarship devoted largely to Chicano and Latino studies.
12/12/97, p. 19

The work accomplished during John Pacheco's last two years at NHU speaks volumes about his worth and abilities.
12/26/98, p. 17

Guillermino Alitazar worked as a farmhand in Pennsylvania and Montana with little hope he might someday go to college. Now he's a degreed mechanical engineer via CAMP. Penn State's College Assistance Migrant Program.
1/9/98, p. 18

Diverse pre-med students at Cornell, trained volunteers in a migrant health program, trade translation duties for invaluable experience in care-giving and field research.
1/30/98, p. 21

Diva Suzanna Guzmán and choreographer Gema Sandoval return to their alma mater as stars as Cal State-L.A. celebrates its 50th anniversary.
2/13/98, p. 21

Despite cutbacks, Lucia Haro of California Lutheran University finds ways to generate local and regional diversity programs.
2/27/98, p. 22

Short-term training for minority business owners, conducted at La Guardia Community College, has already led to about $30 million in contracts for participants.
3/27/98, p. 24

Playwright Octavio Solís, Trinity '80 and '83, finds the immigration experience a powerful draw for audiences of all ethnicities.
4/24/98, p. 39

Raised poor and Spanish-speaking in Corpus Christi, Dr. Irma Woods, a professor, "gives home" to conduct research for her Ph.D.
5/8/98, p. 24
The Caridad Health Clinic for Migrant Farmworkers is an inspiration to many of its neighbors, including students from Florida Atlantic University.
5/22/98, p. 21

Dropout Antonio Ramon returns to Northern Illinois University with renewed purpose and wins Illinois’ Lincoln Laureate Award.
7/3/98, p. 19

Two nontraditional students describe invaluable aid received through Las Hermanas at the University of Southern Colorado.
7/17/98, p. 20

Jaime Jarín, a beloved Latino sportscaster, reaches the pinnacle of his craft.
7/31/98, p. 21

University of Dallas ’97 graduate Sue Gonzalez, who started college in N.J. in 1972, plans now to go for a master’s and a doctorate.
8/28/98, p. 18

Minority students at the University of New Mexico say they are inspired and enabled by their research director, Dr. A. Sharif Heger.
8/28/98, p. 19

TECHNOLOGY

A high-technology center at University of Texas El Paso, funded through a lawsuit, is creating cyber-savvy students and faculty in Texas and throughout the world.
4/24/98, p. 36

TRENDS

Four-year schools are becoming more aggressive in their recruiting of community college students, a favorite starting place for Hispanic students.
4/10/98, p. 5

Predictions call for many new teachers and new schools to serve the growing population of students nationwide over the next 10 years.
4/24/98, p. 27

A recent report identifies trends in employment, higher education, and lifestyle among recent college graduates.
5/8/98, p. 10

The American Nurses Association supports “cultural competence” as an important factor in quality health care.
5/22/98, p. 12

Amid the mutual rejoicing over their new affiliation agreement, South Texas College of Law and Texas A&M file a joint lawsuit.
6/5/98, p. 20

A report from Florida looks at how minorities are faring at community colleges.
8/14/98, p. 16

VISITING CAMPUS

A bilingual environment makes the University of Puerto Rico, a science-oriented institution, worth watching by statesiders preparing for more diverse populations.
8/14/98, p. 10

WOMEN IN HIGHER EDUCATION

Six Latina academicians describe a feminism that builds on past strengths and broadens the embrace of empowerment.
2/27/98, p. 5

WOMEN IN SPORTS

The “A” grade is earned by only a few colleges and universities as the Women’s Sports Foundation applies a gender-equity template to collegiate sports.

This year marks the Hispanic National Bar Association’s 23rd Annual Conference, which will take place in Albuquerque, New Mexico, from October 1-4. Since 1975, its national convention has offered education seminars and social functions that have attracted thousands of members, including prominent speakers and guests from political, social, and economic leadership. Scholarship distribution and a job fair are also a part of this annual event, which this year is entitled “Through the Doors of Opportunity Together.”

Lillian G. Apodaca, HNBA’s president-elect, notes, “Over the years, HNBA has awarded over $100,000 in scholarships. And our job fair has attracted employers from all over the country to interview students.”

Other workshops targeting future entrants to the law profession include sessions on how to become a judicial clerk or a law professor, and how to run for political office.

At this year’s convention, HNBA will also kick off its Young Lawyer’s Division, which would promote HNBA membership, leadership, and networking opportunities. In addition to supporting the professional
development of HNBA's young attorneys.

Some of the issues that will be discussed include: the internet and the law, climbing the corporate ladder, protecting civil rights, and international issues such as cross-border commercial transactions, developments in Mexican law/dual citizenship, worker abuse and exploitation, health care fraud, and ethics.

Due to the recent drop in law student enrollment in Texas and California because of affirmative action lawsuits, Apodaca says, "HNBA's efforts are going to be doubled." HNBA's resolution on diversity and affirmative action within corporate, professional, and political communities, states that it "recognizes that many corporate, professional, and political sectors have developed programs that promote diversity; however, we encourage these sectors to re-evaluate their relationships with institutions that may not affirmatively promote diversity...Higher learning institutions must respond to the needs of the communities they serve and must realize that diversity is both a community and business reality. Every national organization and every national corporation must not only recognize this message, but must embrace it and promote it in order to survive in this ever-changing global economy."

Other issues before the HNBA are farmworkers' rights, and Proposition 227, which would outlaw instructional programs for limited-English-proficient students in California.

HNBA is an incorporated, non-profit national association representing the interests of over 20,000 Hispanic American attorneys, judges, law professors, and law students in the U.S. It was founded in California in 1972 as La Raza National Lawyers Association. The association's objectives are to increase professional opportunities for Hispanics in the legal profession and to address issues of concern to the national Hispanic community: Legal education and civil rights as well as judicial appointments and political representation are priorities of the HNBA.

**HNBA's Mission**

To serve as the national voice for the concerns and opinions of Hispanics in the community generally, and in the legal profession in particular.

To promote the recruitment and retention of Hispanics in law schools and provide them with financial assistance.

To develop mechanisms to facilitate the exchange of information among Hispanics involved in all segments of the legal profession.

To conduct conventions and seminars in order to provide continuing legal education for attorneys and foster the exchange of ideas and information among its members.

To provide testimony before Congress, state legislatures, and executive agencies on issues of concern to Hispanics.

To work with other bar associations, governmental agencies, and community groups to achieve greater involvement in and understanding of the American legal system by the national Hispanic community.

For more information on HNBA visit its Web page at <www.incalaw corp.com/hnba>.
Adelfa Callejo: The Spirit of Excellence

Texas Lawyer Earns ABA Award

BY MARI CARMEN SARRACENT

Adelfa B. Callejo, a partner in the Dallas law firm of Callejo and Callejo, was selected to receive the 1998 Spirit of Excellence Award from the American Bar Association Commission on Opportunities for Minorities in the Profession at the ABAS Midyear Meeting in Chicago. The commission's goals are to assist minorities in their legal education and admission to the bar; develop career and employment opportunities for minorities; promote the appointment of minorities to the judiciary and to judicial clerkships; and increase minority involvement in bar associations at the national, state, and local levels and with minority specialty bars.

Callejo, the daughter of migrant farm laborers, yearned to practice law at a young age. In an ABA press release, she stated, “One of my uncles was deported, and he didn’t have a hearing. I learned about government, and I learned about civics, and that’s when I decided I wanted to be a lawyer. I felt that to be able to go into court and defend people’s rights had to be a very satisfying role.”

Callejo attended night school at Southern Methodist University for 10 years and graduated with a Juris Doctor in 1961. Following her marriage in 1946, Callejo and her husband launched an import/export business and began to invest in real estate, and in 1966, they created their law partnership, Callejo and Callejo.

According to Callejo, her mission has been to help ensure that Hispanics receive equal opportunity in education, jobs, contracts, and justice, especially in the courts. Callejo is a member of the Texas State Bar and is admitted to practice before the Supreme Court of Texas, the U.S. District Courts for the Northern and the Western Districts of Texas, and the Supreme Court of the United States.

A former regional president of the Hispanic National Bar Association of Texas, Callejo is minority director of the State Bar of Texas and a member of the Dallas Bar Association.

Currently on the Board of the Dallas/Fort Worth International Airport, she was instrumental in awarding $7.5 million for concessions at the airport to women- and minority-owned businesses. She is a trustee of the Tomás Rivera Policy Institute, whose mission is to develop and implement policies and programs to improve the status of the Mexican-origin and Latino populations.

In addition to this award, Callejo is the recipient of the prestigious Justinian Award from the Dallas Lawyers Auxiliary; the Most Distinguished Alumni Award from her alma mater, Southern Methodist University Law School; and Lifetime Achievement Awards from the Hispanic Houston Bar Association, the Mexican American Bar Association of Texas, and the Latina Business & Professional Women of Dallas. According to the ABA, Callejo is the only Hispanic who has received the Dr. Martin Luther King Jr. Justice Award.

Active in local and national politics, Callejo is on the Democratic National Committee, the Executive Committee of the Texas Democratic Party, and a founder and Co-Vice Chair of the Tejano Democrats.

ABA Commission on Opportunities for Minorities in the Legal Profession Reports on Minority Progress in the Legal Profession

According to a recent report published by the ABA Commission on Opportunities for Minorities in the Legal Profession, Miles to Go: Progress of Minorities in the Legal Profession, gains by minority law students and entry-level minority lawyers in reaching upper professional levels have been minuscule. The report identifies obstacles to achieving ABA Goal IX, which is “to promote full and equal participation in the legal profession by minorities and women,” and particularly cites attacks on affirmative action as “threatening to stifle minority advancement for years to come.”

Key findings include:

- Minority representation in the profession increased from about five percent in 1980 to about 7.45 percent in 1990, the latest year for which reliable figures are available.
- Hispanic lawyers represented 2.49 percent of the profession and 33 percent of all minority lawyers.
- In 1997, on a 297 percent of law firm partners were minority.
- Only three percent of all partners in the 250 largest minority law firms in the country were minorities in 1996, showing an increase of less than 2 percent since 1986 and only 0.6 percent since 1991.
- Progress for minority women has been even slower.
- Minority men outnumber minority women in most upper-level jobs.
- Minority women show a higher law firm attrition rate than does any other group of lawyers.
- Minority women suffer a “pervasive disadvantage” in the law faculty market.
- Minority women in all sectors of the profession report that they are “ghettoized” in certain types of practice and routinely assumed to be incompetent.

Professor Elizabeth Chambliss of the University of Texas School of Law; the report's author, recommends improved data collection and circulation and increased collaboration among researchers at national and local levels.

Copies of the report can be obtained from the commission's Web site: <www.abanet.org/minorities/10year.html>.
UTEP Professor Named Statistics Fellow

University of Texas at El Paso (UTEP) professor of mathematical sciences Javier Rojo has been named a fellow of the American Statistical Association, the nation's second oldest professional society, a scientific and educational organization serving more than 18,000 members in academia, government, industry, and the public sector.

Rojo was recognized last month for his contributions to statistical theory, for developing and leading UTEP's Biostatistical Laboratory (now the Statistical Consulting Laboratory), and for service to the profession during the association's Joint Statistical Meetings.

On the UTEP faculty since 1984, Rojo received a bachelor's degree and a master's from UTEP, a master's from Stanford, and a doctorate from the University of California at Berkeley. He is an elected fellow of the Royal Statistics Society and the statistics and probability program director for the National Science Foundation.

Mt. SAC Alumna Follows Her Dream

Six years ago, Maria Hernández Canett was a single parent on welfare with four children to raise. She didn't know what she would do with her life or how she would provide for her children.

Today she is living her dream. She has a well-paying job as a lead electronics technician with Hewlett Packard, she can meet her children's expenses, and she is doing the type of work she enjoys. "I attribute where I am right now to college," says Hernández Canett.

In late 1992, she enrolled in Mt. San Antonio College's (Calif.) HAGASE program, an introductory college program for Spanish-speaking single parents, that helped her map out education and career goals.

In addition, she took advantage of the Greater Avens to Independence program and Links, a program that encourages women in the technological fields.

She took general electives and parenting classes, along with electronics courses.

Thanks to hard work and clear focus, she finished with her degree in Electronics Technology in December 1995, landed a job as an electronics salesperson, moved on to become a quality assurance technician, and then was offered a position at Hewlett Packard as a troubleshooting electronics technician.

Within a year, she was promoted to lead technician.

Roland Armando Alum Welcomed at PCCC

At Passaic County Community College (PCCC) in New Jersey, a seasoned educator with wide community service, Roland Armando Alum, has been appointed Executive Assistant to the President—a position created to help meet the college's ambitious goals.

Alum has taught at colleges and universities in Puerto Rico and the continental U.S. as well as overseas. In 1992, he held the Distinguished Visiting Professorship at William Paterson University (N.J.).

An anthropologist by training, he has authored more than 100 writings on diverse subject matters, published in various languages in books and international encyclopedias as well as in U.S., Latin American, and European journals.

He was the first Hispanic to become the Secretary of Education's Representative in Region II, overseeing billions of federal funds for New Jersey, New York, Puerto Rico, and the Virgin Islands. Currently Vice Chair of the States Advisory Committee to the U.S. Civil Rights Commission, he has been Deputy Chief for Research & Planning in the Department of Justice, and National Chairman of the Advisory Panel to the Census.

Within the community, he has been a trustee at Palisades Hospital, and has worked with immigrants, with disadvantaged youth, and with ethnic minority and women small business entrepreneurs.

A Fulbright Scholar in the Dominican Republic, Alum graduated as a magna cum laude/Class Salutatorian from Bloomfield College, in N.J., and earned his master's degree at the University of Pittsburgh.

Hewlett-Packard Supports El Paso Students

Future engineers from El Paso, Texas, are benefiting from an initiative designed to encourage women and minorities to enter technical fields and improve math and science education—from kindergarten through college.

Hewlett-Packard Company last year launched its Diversity in Education Initiative with a $4-million grant to establish partner-
ships between universities and K-12 districts, and selected four universities—UTEP at El Paso, Northeastern in Boston, San Jose State, and UCLA—to spearhead reform addressing causes of underrepresentation.

El Paso area high school graduates receiving scholarships and internships as part of the grant include: Michelle Arriaga, Hermán Hernández, Adriana Márquez, Evírca Méndez, Melissa Nieto, Juan Ramírez, Zoe Rueda, Enrique Contreras, and Ismael Mendoza.

**TELACU Scholarship for Cal State-L.A. Student**

Patricia Yaneth Ordonez, Cal State-L.A. biology major on the National Deans list for four years, has been awarded a TELACU (The East Los Angeles Community Union) Education Foundation Scholarship for her outstanding academic achievements.

Ordonez, a runner-up for the Outstanding Freshman Award of the Phi Kappa Phi chapter, was one of the few selected for its Howard Hughes Medical Institute-Biomedical Professional Development Program, co-coordinated by Cal State-L.A. professor Raymond García.

TELACU Education Foundation and David Lizardaga, President of TELACU, offers scholarships to Latino high school and college students to help them achieve academic professional success. Scholarships awarded range from $500 to $1,500 per year.

**Sandra González in Spotlight at UNM**

The University of New Mexico (UNM) Campus News recently honored Sandra “Sandi” González for her work as assistant director and counselor in its UNM Women’s Resource Center.

Women in crisis—victims of violence, those facing an unexpected pregnancy, and some simply overwhelmed—can find it difficult to reach out for guidance. Some lucky enough to come upon González have said she has warm-hearted words of advice not only educate but also help to heal the soul.

Given the prestigious 1998 Governor’s Award for Outstanding New Mexico Women, González was cited for her 20 years of community service and anti-racism efforts by the Dr. Martin Luther King committee with a “Keep the Dream Alive Award,” and earned recognition from U.S. News and World Report for her work as a volunteer juvenile probation officer.

She is on the boards of the Young Women Mentoring Project and New Mexico Women’s Health Initiative, and others, and says she feels a personal responsibility to raise youth awareness about societal issues such as date rape, sexual harassment, and the importance of body image and self-esteem.

**Paula A. Cordeiro New USD Education Dean**

Paula A. Cordeiro joined the University of San Diego (USD) as Dean of the School of Education on July 1, 1998.

Cordeiro comes to USD from the University of Connecticut, where she was Associate Professor and coordinator of the Educational Administration Program. She served too as facilitator of the Danforth/Connecticut Administrator Preparation Program and as coordinator for the Manchester Public Schools at the University of Connecticut Professional Development Center.

Before joining the UC in 1990, Cordeiro was an adjunct professor at the University of Houston’s College of Education, where she was director of the Office of International Education. She also was director of the American School of Las Palmas, Spain, and ESL coordinator of Escuela Bella Vista Maracaibo, Venezuela.

Cordeiro holds an Ed.D. degree in Administration and Supervision from the University of Houston. Her third book, Introduction to Educational Administration: A Problem-Based Approach, was recently published. She is president of the University Council for Educational Administration. In May, she will be presented with a Fellowship Award from the Commonwealth Conference of Educational Administration and Management.

**Alex González President at CSU San Marcos**

The California State University (CSU) Board of Trustees has appointed Alexander González as president of CSU-San Marcos, where he had served as acting president.

González developed an understanding of the campus by serving on its accreditation team in 1993. Prior to his San Marcos appointment, he was provost and vice president for academic affairs at CSU-Fresno since 1991.

He has served on several key CSU system commissions and task forces, including those on Extended University, Financial Aid, Educational Equity, Institute for Teaching and Learning, and the Task Force on Accountability for the Cornerstones Initiative.

He is a member of the public policy committees of the San Diego Economic Development Corporation and the Greater San Diego Chamber of Commerce and has been on the advisory board of the National Hispanic Scholarship Fund.

A graduate of Pomona College, González attended Harvard Law School and earned a
doctorate from the University of California-Santa Cruz. He was a Ford Foundation/National Research Council postdoctoral fellow at Stanford University.

**Emilio Vega Publishes “Virtual” Book**

Author Emilio Vega, currently of California, recently published his book *Cuando Era Mexicano* as a “virtual” book. The book is available worldwide over the Internet.

Virtual books are not physical objects but books that can be downloaded from the Web as data files, accessible to anyone with an Internet connection.

*Cuando Era Mexicano* focuses on “Chicanos,” Americans of Mexican decent. The positive and negative differences, caused by a mix of American and Mexican cultures, inspired Vega to write his book. His characters undergo a series of realistic, common, soulful events paralleling the racial issues. The text is in Spanish.

Vega, a native Mexican who earned his business degree at the University of Guadalajara, traveled to California to earn degrees in Science Communications at Pasadena City College, and in Broadcast Communications at the American Communication Institute in Hollywood.

*Cuando Era Mexicano* is available from 1stBooks, the international online library at <http://www.1stbooks.com>.

**Daniel B. Rodríguez USD School of Law Dean-Elect**

Daniel B. Rodríguez has been chosen Dean of the University of San Diego School of Law.

Rodríguez, 45, is a professor of law at Boalt Hall School of Law, University of California-Berkeley. He served as acting professor of law at Boalt from 1988 until 1994, when he was promoted to full professor with tenure. He has taught Administrative Law, State and Local Government Law, Constitutional Law, and Legislation.

He earned his J.D. degree cum laude in 1987 at Harvard Law School, where he was Supreme Court Editor of the *Harvard Law Review*. He is an alumnus of California State University-Long Beach, where he earned the highest honors as outstanding graduate in the School of Social and Behavioral Sciences in 1984.

A member of the American Law Institute, Rodríguez was honored by the Western Political Science Association in 1990 with its Pi Sigma Alpha Award. He has made important contributions in the field of public choice theory and the positive political analysis of legal institutions. His research has been presented to top U.S. law schools and universities, including Harvard, Yale, Stanford, and Georgetown, and abroad at universities in Japan, the Netherlands, Germany, and Australia.

**Bibliography on Peru’s Shining Path Guerrillas Earns UMass Librarian National Award**

University of Massachusetts librarian Peter A. Stern has received the 1998 Jose Toribio Medina Award for his 1995 bibliography on Peru’s Maoist Shining Path guerrilla movement and its bloody decade-and-a-half terror campaign that left more than 27,000 people dead.

Stern’s work, *Sendero Luminoso: An Annotated Bibliography of the Shining Path Guerrilla Movement, 1983-1990*, contains citations from 1,189 books and periodicals in both Spanish and English about the Maoist movement and its charismatic leader Abimael Guzman. The entries, presented chronologically, outline how Guzman patiently organized Sendero Luminoso into a credible, completely indigenous fighting force, one that posed a serious threat to Peru’s government and ruling elite.

The Medina award is given each year by the Seminar on the Acquisition of Latin American Library Materials for outstanding contributions to Latin American Studies in the areas of bibliography and reference. Stern is the University’s librarian for Spanish, Portuguese, and Latin American Studies.

**New Post for Dr. Vera Martinez at North Orange County CCD**

Dr. Vera Martinez, president of Fullerton College (Calif.), has been appointed Vice Chancellor of Instruction for the North Orange County Community College District.

Martinez will oversee coordination and implementation of the District’s master plan and will also be involved with the Governor’s proposed Partnership for Excellence program.

President of Fullerton College since December 1994, Martinez held four administrative posts at Santa Monica Community College over a 10-year period and worked for five years at UCLA. Her career includes teaching and active participation in many academic activities and community organizations.

**Cabrera Exhibit at Texas A&M-Kingsville**

An exhibition of original paintings and prints by Rosario Cabrera, the first female Mexican painter of importance of the century, is being presented at Texas A&M University-Kingsville through Oct. 2.

The opening reception featured Blanca Garduño, director of the Museo Casa Estudio Diego Rivera y Frida Kahlo (Diego Rivera and Frida Kahlo Studio Museum) in Mexico City, and Dr. José Casillas-Cabrera, son of the artist.

Born in 1901, Cabrera was a contemporary of Frida Kahlo. She stopped painting in 1928. Santa Barraza, chair of the Texas A&M-Kingsville art department, said Cabrera’s work, produced only between 1919 and 1928, is of sufficient value for her to occupy an important place in the history of modern art in Mexico.

According to Barraza, Cabrera demonstrated a sensitivity and creative capacity in her work that was strongly composed in terms of color and drawing. The ability to
 manage line with creativity, modeling it with suggestive light-dark values, was expressed in Cabrera in many mediums, including pencil, ink, watercolors, oils, charcoal, and woodcuts.

Barraza said that Cabrera was the only female Mexican painter who directed two Open Air Painting Schools, where she achieved outstanding work.

**Miguel González on Opposition Government in Nuevo Leon**

Miguel González, history professor at the Autonomous University of Nuevo Leon in Monterrey, recently lectured on “Opposition Government in Nuevo Leon” at Texas A&M University-Kingsville, part of Kingsville political science department’s International Affairs Group lecture series and funded by the Coastal Bend Community Foundation.

González is a Partido Acción Nacional (National Action Party) delegate to the congress of the Mexican state of Nuevo Leon.

**PLACES**

**UNM Showcases Spain’s Influence on Latin American Film**

Spanish influences in the Americas were explored during “Arts of the Americas ’98.” In its eighth year, the summer festival is presented by the UNM’s College of Fine Arts and offers classes, exhibitions, films, art, flamenco dance, and history.

A special highlight this year was a film festival and class titled “Spain and the Americas—Mutual Cinematic Perceptions.”

Offered by the Media Arts Program, the festival screened films from Hollywood, Cuba, Mexico, and Spain to illustrate Spain’s influence on Latin American film.

Films screened included: *Blond and Sand* (US, 1941); *Captain from Castillo* (US, 1941); *Cabecia de Taica* (Mexico, 1991); *For Whom the Bell Tolls* (US, 1943); *The Pride and the Passion* (US, 1957); *El Cid* (US, 1961); *Bebold a Pole Horse* (US, 1914); *The Last Summer* (Cuba, 1976); *La barnaca* (Mexico, 1944); *En el balcón ratico* (Mexico, 1961); *Bienvenido Mr. Marshall* (Spain, 1952); *Barranco* (Mexico, Cuba, Spain, 1990); *Los últimos de Filipinas* (Spain, 1945); *Humberto Solas from Cuba* (Cuba, 1969); and *La línea del cielo* (Spain, 1983).

Post-screening discussions were led by Carl Mora, author of *Mexican Film and Society* (University of California Press).

**TC3 Graduates Global Connections Program Students**

Tompkins Cortland Community College (TC3) in New York hosted a ceremony for approximately 50 students graduating from its Global Connections Program in July.

The students—from World University, Spain, and the Pontifica Universidad Católica Madre y Maestra, Dominican Republic—completed requirements for a TC3 associate degree in business administration. The commencement address to this fifth graduating class was given by Radames Mejía, executive director of Pontifica Universidad.

**Transcultural Nursing at University of Northern Colorado**

UNC recently became the first institution in the State of Colorado to offer a Certificate in Transcultural Nursing, says Sandy Baird, director of UNCs School of Nursing.

The certificate is directed to UNC nursing seniors or nurses in the field who already hold their B.S. degrees.

Over the years, UNC has worked to increase the number of minority undergraduate nursing majors from a low of about 5 percent in 1992 to a current level of about 15 percent, says Baird, noting that the national average is about 10 percent.

The goal is to increase nurses’ awareness of cultural factors that might influence behavior of patients and their families.

**Rutgers Publishes Book on War and Education in El Salvador**

Inspired by Paulo Freire’s literacy work in Brazil in the 1950s, popular education brought literacy to poor rural communities abandoned by the official education system and to peasant combatants in the guerrilla army. Those with little education taught those who had none. By cultivating skills and raising morale, popular education contributed tangibly to political and military gains in the war.

Hammond interviewed more than 100 Salvadoran students and teachers and recounts their experiences in their own words, vividly conveying how they coped with the hardships of war and organized civilian communities politically to support a guerrilla insurgency. The book tells how poorly educated peasants overcame their sense of inferiority to discover that they could teach each other and work together in a common struggle.
RIC Supporting Diversity in Classroom & Workplace

Rhode Island College’s (RIC) Dialogue on Diversity Committee is planning “Promising Practices,” a day-long program of workshops to help educators incorporate values that support diversity in the classroom and the workplace. Also featured is a multicultural media fair featuring resources such as books, computer software, and videos.

The program is free and open to the public. Organizers expect CEU approval from the Rhode Island Department of Education. For more information, call Elizabeth Henshaw, assistant professor of elementary education, at (401) 456-8967 or Richard Lobban, professor of anthropology, at (401) 456-8784.

SAC's Graduation Plus Project Has Impact

In Texas, forty-one of the approximately 900 San Antonio College (SAC) students who graduated last May would not have crossed the stage at that time were it not for a relatively new SAC program called Graduation Plus.

Launched a little over a year ago, Graduation Plus is designed to identify and encourage SAC students who might be close to earning a degree without realizing it. More than 70 SAC students have been contacted since the program began, and since May 1997, almost 100 have graduated as a result of the program. Graduation Plus counselors look for students within striking distance of their goal, with 45 or more college credit hours and a minimum 20 Grade Point Average.

SAC counselor and Title III program developer Rosa Maria Gonzalez says that many times, liberal arts students with undeclared majors who plan to transfer to a four-year institution don’t realize how close they are to earning an associate’s degree.

Graduation Plus counselors identify students who fit this profile, then provide crucial counseling (including a “degree audit” that can make the difference in earning degrees

One example is Leticia Salinas, age 35, who enrolled at SAC years ago, then attended the University of Texas-San Antonio and Our Lady of the Lake, accumulating 15 college credit hours in the process. When Salinas enrolled again at SAC last spring, a Graduation Plus counselor helped her define a clear path toward her associate’s degree, which she is completing this summer. Her plan is to transfer to the University of Texas Health Science Center to study nursing.

Pathways Via DeWitt Wallace-Reader's Digest Fund

Over the past 10 years, the DeWitt Wallace-Reader’s Digest (DWRD) Fund has invested nearly $17 million in Pathways to Teaching Careers. The program, which operates at 41 colleges and universities nationwide, recruits and prepares nontraditional candidates for positions in hard-to-staff low-income rural and urban schools. Most of the Fund’s investment has been used to underwrite scholarships and other support services that have made it possible for nearly 2,500 prospective teachers to return to college and obtain their degrees and fulfill requirements that lead to full certification and full-time teaching jobs.

The DWRD Fund bestowed more than $299,000 in leadership grants to both Harris-Stowe State College (Mo.) and Kean University (N.J.) which will enable them to sustain their work, assist other sites, and share their experiences with newly affiliated Pathways sites.

Continuation grants to current Pathways programs went to Alverno College (Wis.), $199,923; Drexel University (Pa.), $199,888; Wayne State University (Mich.), $199,974; Indiana University of Pennsylvania; University of Illinois at Chicago; University of Louisville (Ky.); and University of Wisconsin-Milwaukee, Cleveland State University (Ohio): $200,000 each.

Minority Research Assistants Program at UNC-Ch

In 1995, fewer than one in 100 humanities doctoral candidates at U.S. universities was a Native American, Puerto Rican, or Mexican American.

To improve representation, the University of North Carolina at Chapel Hill (UNC-CH) initiated its Minority Undergraduate Research Assistants Program (MURAP), centered in its department of economics. The program encourages talented minority students to consider university teaching careers by providing a stipend and a research opportunity.

Since 1989, more than 150 minority students in humanities, social sciences, and fine arts, about 18 each year from schools nationwide, have entered MURAP for 10 weeks of research and writing.

These apprentice researchers work closely with a faculty fellow from the College of Arts and Sciences at UNC-CH. Faculty Fellows, who also devote their summer to a research project, serve as MURAP mentors, guiding them in research that culminates in a lengthy paper and an oral presentation.

The projects span the fields of anthropology, philosophy, history, communications, English and Latin American literature, African American studies, economics, psychology, education, sociology, and Spanish. This year's topics ranged from a philosophy project defining racism as a moral problem to a sociological study on obstacles to higher education for Latinos.

ServiceMaster and HACU Partner to Advance College Student

ServiceMaster joined the HACU'S National Internship Program, soon in its seventh year, by adding a college student intern to its ranks this summer.

Dr. Bill Doonan, Director of the program for HACU, said that ServiceMaster is their first corporate partner to host an intern.

Thanks to HACU, more than 1,200 students have undertaken intern assignments directly relevant to their career goals.

HACU is a national association of higher education representing Hispanic-Serving Institutions, specifically nonprofit, accredited colleges and universities where Hispanics constitute a minimum of 25 percent of the total enrollment at either the graduate or undergraduate level. One of its goals is meeting the needs of business, industry, and government through the development and sharing of resource, information, and expertise.

ServiceMaster Management Services, division of The ServiceMaster Company, Downers Grove, III., provides innovative support solutions for cleaning, clinical equipment management, energy management, physical plant maintenance, food service, grounds, and
home health care to over 2,000 automotive, aviation, education, health care, and industrial/commercial customers.

Hispanic Heritage Month in Washington, D.C.

In recognition of Hispanic Heritage Month, Washington, D.C., is holding a bevy of events this month.

- On Capitol Hill, the National Association of Hispanic Publications staged a two-day issues conference, "Decision '88: A Hispanic Perspective," the Congressional Hispanic Caucus Institute (CHCI) held an issues conference featuring debates and panel discussions, and Hispanics Organized for Political Equality hosted a California delegation of "5 Latina Leaders.

- The Mexican Embassy hosted a 188th anniversary festival commemorating Mexico's independence with "el grito" at the U.S. Department of Interior.

- At the National Press Club, The Hispanic Link Journalism Foundation held its fourth annual Communicator of the Year award reception, and the League of United Latin American Citizens, in conjunction with the CHCI, held a forum for media executives.

- The 12th annual Hispanic Heritage Awards was staged at the Kennedy Center.

- The CHCI held its 21st annual gala.

- MANA, a national Latina organization, hosted its annual Las Primeras awards luncheonette, honoring Latina "firsts" in their fields.

- The National Puerto Rican Coalition hosted its annual conference, followed by a lifetime achievements awards ceremony at the Organization of American States.

- The National Federation of Hispanic-Owned Newspapers hosted its sixth international media conference.

Ricardo Salinas Memorial Scholarship at UTSA

The University of Texas at San Antonio (UTSA) held a reception announcing the creation of the Ricardo Salinas Memorial Scholarship.

Arturo and Elisa H. Salinas and daughter, Elisa G. Salinas, a psychology major at UTSA, presented a check for $10,000 to the school president, Samuel A. Kirkpatrick, to launch a scholarship honoring his son, slain U.S.

Border Patrol Agent Ricardo Guillermo Salinas Jr.

Salinas, who earned a degree in criminal justice from UTSA in 1996, was just 24 when he and a fellow agent were killed July 7 in an ambush near San Benito, Texas.

LMU Film Graduate Earns Fulbright Award

Nicolas Santana, Jr., a Loyola Marymount University (Calif.) graduate, is receiving a Fulbright award to study Spanish cinema at the University of Barcelona in Spain this fall.

Santana, 23, attended Los Angeles City College for two years and then transferred to Loyola, where he earned a bachelor's degree in film production in May 1998. At Loyola, he drew on inner-city life and his Mexican roots for his film projects. In 9535 Deoble Street, he chronicled his experiences living in a crowded apartment building. Cristoto told the story of his great-uncle, who fought for religious freedom in Mexico in the 1920s.

As a Fulbright scholar, Santana plans to study the development and influence of Spanish film in the Franco and post-Franco eras. He eventually hopes to write, direct and produce his own films, "to bring something new and refreshing to American cinema."

Head Start Parents "Graduate" at SMC

A group of about 60 parents of Los Angeles County (Calif.) Head Start pre-schoolers "graduated" from a unique Santa Monica College (SMC) program that trained them in leadership, management, child development, and other skills.

Since January 1997, the program has trained parents to run the largest Head Start program in the nation through business, human development, and child development courses, as well as through internships. It is believed the program—operated under a contract with the Los Angeles County Office of Education—could serve as a model for welfare reform education projects.

The parents, mostly of them Latina, acquired skills that help them set policies for a $120 million-a-year federally funded program and enhance their employability, said the SMC contract education coordinator.

Head Start is a federally funded preschool program for youngsters from low-income families. The parents serve on the countywide Head Start Policy Council and local agencies and are an integral part of the decision-making process for the Los Angeles County Head Start Program.

UTSA Program Honored by National Latino Institute

The Prefreshman Engineering Program (PREP) at the University of Texas at San Antonio (UTSA) has received national recognition for its efforts in developing the academic and career potential of Latino children.

The National Latino Children's Institute, a resource network and advocacy group, selected PREP as a 1998 La Promesa Program for PREP's contributions to the education of Latino children.

Programs from 14 states, Puerto Rico, and the District of Columbia reflecting many health, educational, cultural, and leadership development activities currently are profiled. About half of those nominated are expected.

UTSA Mathematics Professor Manuel P. Berrizábal created PREP in 1979 to expose
San Antonio's secondary school students interested in mathematics and engineering to a college environment.

PREP has been replicated as TexPREP in 13 Texas cities, and a $1 million NASA grant to HACU is supporting PREP's replication as Projecto Access in seven other states.

Nearly 15,000 students nationwide have participated thus far. In Texas alone, surveys show that 999 percent of participants complete high school, with more than 85 percent going on to earn college degrees. About three-fourths are minorities.

Del Mar Helps Hispanics Access Computers and Internet

This fall, Del Mar College is adding 104 computer stations to the 58 already situated throughout its two campus libraries.

And it will begin providing laptops that can be checked out by students using the libraries.

A recent Texas state poll shows that only 30 percent of Hispanics own home computers. More than half of Del Mar College's students—who number more than 10,000 each semester—are Hispanic.

Fall Events at California Lutheran University

On Sept. 28, the CLU Multicultures' Programs and Student Activities will sponsor, as part of the University Speakers Series, "DiversiTies: Character and Diversity," an exploration of the way cultures differ, why they differ, and why people should celebrate those differences. There also will be a discussion of how individuals can transcend cultural differences to deepen their understanding of the world, enrich their interpersonal relationships, and gain insight into their own character.

On Oct. 29, CLU will celebrate Dia De Los Muertos, the Latin celebration held to remember the passing of loved ones. A live theatrical performance depicting the meaning of Dia De Los Muertos will be presented by the Teatro Inakeh theatre troupe and the Folklorico Dancers. Attendees are encouraged to dress in the tradition of portraying the symbol of death, and a cash prize will be awarded to the best dressed “muerto” person.

On Dec. 6, CLU reenacts Las Posadas, Mary and Joseph's search for shelter and a place for the birth of the baby Jesus. This event dates back to 16th century Mexico and is now a tradition in many parts of the southwest.

PUBLICATIONS

Caribbean Poetics: Toward an Aesthetic of West Indian Literature by Silvio Torres-Saillant

Caribbean Poetics studies the literatures written in European languages in the West Indies as a regionally unified corpus with its own identity. Torres-Saillant examines recurring motifs and formal devices that Caribbean literary artists have drawn on for six decades. The book places Caribbean literature in the larger context of comparative poetics by discussing the historical, political, and cultural forces that mediate its interaction with other literary systems.

1997-98 Accredited Institutions of Postsecondary Education: Programs Candidates

Alison Anaya, ed.

A guide to institutions of higher learning that are accredited by national and regional agencies recognized by the Council for Higher Education Accreditation (CHEA). This updated edition includes more than 5,000 public, private, two-year, four-year, and vocational institutions of higher education throughout the U.S., as well as U.S.-chartered schools in 4 countries abroad. Each entry provides the institution's name and address, includes a brief description, and denotes any membership in a public education system.

May 1998
736 pgs.
$54.95 Paper

by the American Council on Education

More than 5,000 high-quality educational programs conducted by businesses, labor unions, professional and voluntary associations, and government agencies are described in this updated edition. Each entry provides: Course title; Location; Length; Dates; Objective; Learning outcomes; Instruction; and College credit recommendations.

The National Guide TO EDUCATIONAL CREDIT FOR TRAINING PROGRAMS 1998 Edition
American Council on Education
External Degrees in the Information Age: Legitimate Choices
by Eugene Sullivan, David W. Stewart, and Henry A. Spille

This guide is designed to help adults make informed decisions about pursuing a postsecondary degree. The revolution in adult higher education—earning degrees without leaving home or work, or spending very minimal time on campus—has led to a proliferation of "diploma mills:" degree-granting institutions that lack recognized accreditation. This book describes 400 legitimately accredited external degree programs now in operation.

Directory of College Cooperative Education Programs
Polly Hutcheson, National Commission for Cooperative Education, ed.

Cooperative education programs provide students with an excellent opportunity to gain actual professional experience while pursuing their degrees. This directory offers information on nearly 500 cooperative education programs offered at U.S. colleges and universities. Each entry includes: type of school and degrees awarded; key contacts; academic divisions with co-op programs; how programs are administered; typical length of work periods; and number of active employers and representative examples.

1996
242 pgs.
ISBN 0-89754-998-8
$49.95 Paper

by Robert H. Atwell and David Pierce

A directory of the fastest-growing segment of higher education, this guide supplies information on 1,181 accredited schools offering associate degree programs. Each entry includes contact information, a general description, names of administrators, and the school's accreditation. The next section of the entry provides academic information, including: academic year, contacts for student inquiries; areas of study; degree requirements; admission requirements; teaching staff; program awards; and recent enrollment figures.

The House of Bernarda Alba
by Federico Garcia Lorca

Centered on the power struggle among the women of a noble Spanish family as they mourn the death of the paterfamilias, Lorca's great play chronicles the passions unleashed among women trapped within a family web as it moves inevitably toward the grand tragic finale. This riveting production casts Glenda Jackson as the widow Bernarda, who rules the family with...
Benito Pérez Galdós: La fontana de oro

With a narration by Alonso Vicente Zamora explaining the historical and political background and introducing the characters, the program opens in the café from which Pérez Galdós's book takes its title. Shots are heard and the café quickly empties; only Coletilla remains. As he is about to leave, a group of liberals arrives and begins to rough him up; he is rescued by Rozmediano, who takes him home. Here Clara and Rozmediano meet... At last, the story of intrigue in love and politics comes to a happy and quiet ending. (Spanish, 60 min., color)

Item # FFH 7607

Crimes Against Humanity: The Search for Justice

A three-program series including:

Justice Pursued

Rwandan, Argentine, East German, and Bosnian have been the locus for the most honourable acts of the last 20 years. In this program, Rwandans accused of perpetrating hideous atrocities against their neighbors are tracked down: an emotional meeting with a former Nazi-hunter takes place; the torture and murder of thousands of young Argentines by the Pinochet regime are detailed by a survivor; in East Germany, newly discovered Stasi training tapes paint a brutal portrait of political repression behind the Berlin Wall; and in Bosnia, efforts to track down the perpetrators of ethnic cleansing are ongoing. (50 min., color)

Item # FFH 7631

The Quest for Truth

In this program, victims of terror either seek justice, or just acknowledge the ugly truth. The program traces the quest for truth in Guatemala, and finds it can be a dangerous business in a country where terror continues to reign. In Argentina, a mother's twenty-year search for her daughter is over, and she is about to meet a man who may reveal the truth about her daughter's disappearance. And in South Africa, a father fears a government amnesty program may set his son's killers free. (50 min., color)

Item # FFH 7630

The Long Road to Reconciliation

Under new government amnesty policies designed to unite South Africa, a white policeman previously jailed for life on eleven counts of murder has been freed, enabling him to return to the scene of his crimes. Using Bosnia, Chile, Mozambique, and South Africa as examples, this program probes whether national reconciliation can be purchased at the price of justice for victims of political terror. It asks whether national unification is even possible if victims perceive themselves as forgotten. (50 min., color)

Item # FFH 7631

Women of Latin America

A 13-program series including:

Bolivia: Coca, Food of the Poor

Item # FFH 7018

Brazil: Priests, Samba Dancers, and Mulattos

Item # FFH 7019

Chile: The Drama of Hope

Item # FFH 7020

Item # FFH 7024

Ecuador: The Indian Women

Item # FFH 7025

Nicaragua: Red to Violet

Item # FFH 7026

Peru: Rage of Hunger

Item # FFH 7027

Puerto Rico: Paradise Invaded

Item # FFH 7028

To Be a Mother in Latin America

Item # FFH 7029

Venezuela: The 21st Century to Prehistory

Item # FFH 7030

This series examines life in 13 Latin American nations through the eyes of its women. Some of the women transport drugs across borders, fight in rebel armies, bear children in poverty, search for sons and daughters who have vanished during political pogroms, and generally bear the burden of living a harsh, third-world existence. Other women—teachers, engineers, and politicians—also contribute their stories. Combined, the women—different as the countries of Latin America are different—paint a disturbing portrait of people struggling against all odds to survive racial and class discrimination, revolution, political injustice, and chronic economic instability. (60 min. each, color)
SPECIAL EVENT

The Merrow Report Focuses on Burgeoning Crisis in Latino Education
October 2

The Merrow Report, PBS's award-winning documentary series, will be exploring Latino education in their upcoming documentary special, "Lost in Translation: Latinos, Schools, and Society." The program airs October 2, 1998, (10 p.m. EST) on PBS—check local listings for channel and broadcast times.

CONFERENCES

Enhancing Black & Other Minority Student Presence & Success in the Community College

October 8-10

Hosted by Valencia Community College. At the Omni Rosen Hotel in Orlando, Fla.

Contact: Laura Krot, (407) 299-5000 ext. 3205; <lkrot@valencia.cc.fl.us>.

Legal Issues in Higher Education

October 4-6

The University of Vermont's 9th annual conference, designed to address the most pressing legal challenges that higher education professionals are currently facing. Keynote speakers include Stephen Hirschfield, counsel to the University of California, the University of San Francisco, and Hastings College of Law; Judith Ramaley, president of The University of Vermont; and William Sloan Coffin, Jr., retired Yale University Chaplain, civil rights activist. At the Sheraton Hotel and Conference Center in Burlington, Vt.

Contact: Carol Fournier-Gunter or Vivianne Farmer, (802) 656-2088.

1998 SACNAS National Conference

October 8-11

Society for Advancement of Chicanos and Native Americans in Science, whose mission is to assist Chicano/Latino and Native American students in pursuing the advanced degrees necessary for research careers and science teaching professions at all levels.

At the Hyatt Regency Hotel-Capitol Hill, Washington, D.C.

Contact: (408) 459-4227; e-mail: <sacnas@cats.ucsc.edu>; Web site: <http://www.sacnas.org>.

The Minority Student Today: Recruitment, Retention, and Success

October 11-14

By promoting an understanding of the nature of fundamental reforms and institutional changes needed in American higher education to eliminate structural barriers, this event seeks to identify opportunities to achieve multicultural and balanced academic programs. Sponsored by the University of South Carolina Division of Regional Campuses & Continuing Education, in cooperation with the University of the Incarnate Word. In San Antonio, Texas.

Contact: (803) 777-0444; or <Conf@GWM.SC.EDU>. Conference Web site: <http://www.csd.sc.edu/confed/mst.htm>.

100 Years of Transformation: The Caribbean and the United States Since 1898

October 13-15

Conference convened by and to be held at (Department of Latin American and Puerto Rican Studies) Lehman College of City University of New York, in New York City.

Contact: Laird W. Bergad, (718) 960-8280; e-mail: <�wbergad@worldnet.att.net>.

Madness, Illness, and Bodies: The Hispanic Woman Writer and Her Fragmented World

October 15-17

Conference convened by Fundacion Cultural Iberoamerican, in Washington, D.C.

Contact: Gladys Harregui, (703) 922-4490; e-mail: <gladys@iberoamerican.org>.

Keeping Our Faculties: Addressing the Recruitment and Retention of Faculty of Color in Higher Education

October 18-20

Symposium convened by University of Minnesota Radisson Hotel-Metrodome, in Minneapolis.

Contact: (612) 626-550. e-mail: <ndp@tc.umn.edu>; Web site, <http://www. amnd.umn.edu/symposium/sympos.htm>.

National Preservation Conference

October 20-25

National Trust for Historic Preservation's 52nd national conference, with the theme "The Art of Preservation," convening in Savannah, Georgia. Between 2000 and 3000 committed preservationists from around the country are expected to explore the interplay of historic preservation and the arts, and how they shape communities.

Contact: (803) 222-8552. Web site at <www.npoh.org>; e-mail to <soro@npoh.org>.

Study USA - Mexico '98: Forging the Vision

October 21-23

Three-day education fair designed to enable American educational institutions to establish reciprocity agreements with Mexican institutions—leading to the participation by students from Mexico and the U.S. in exchange programs and an enhanced diversity at the involved schools. Co-hosted by the U.S. Trade Center's Department of Commercial Service and Kivo Expositions. In Mexico City.

Contact: Charlotte Adams, (919) 881-7888, or <Kivaexpo@mindspring.com>.

1998 New Jersey Project Fall Conference

October 25

This conference will showcase the work of educators from a variety of disciplines who use literature—novels, short stories, poetry, and other forms—to integrate gender and multicultural content and perspectives into their courses. At The College of Saint Elizabeth, Morristown.

Contact: The NJ Project (973) 220-2296, or <nj_project@wpc.waterson.edu>. Information also available at the NJ Project Web site: <http://www.waterson.edu/wpc/eps começ /index.htm>.

Second Annual Hispanic Law Conference

November

Hosted by the American University's Washington College of Law, co-sponsoring with the D.C., Maryland, and Virginia Hispanic Bar Associations and Hispanic Law Students.
Association. 8:30 a.m. to 4:30 p.m. Speakers, panels, and roundtables on Hispanics in the legal profession, including the judiciary, academia, politics, and business. In Washington, D.C.
Contact: Aurora Carmichael (202) 774-4004 or <grants-programs@wcl.american.edu>.

Círculo de Cultura Panamericano

November 13-15
The annual convention. Special sessions on Federico García Lorca in the centenary of his birth; the 100th anniversary of the ending of the Spanish-Cuban-American War, and the centennial of the '98 Spanish Generation. Co-sponsored by William Paterson University (N.J.), at the Holiday Inn in Totowa, N.J., and WPU.
Contact: Círculo de Cultura Panamericano, 16 Malvern Place, Verona, N.J. 07044-2584.

24th Annual TACHE State Conference

November 16-17
The 24th annual conference of the Texas Association of Chicanos in Higher Education. Leaders from higher education, business, and the community will discuss the implications of the Hopwood decision and join in exploring strategies for increasing the representation of Chicano students, faculty, and staff. Over 45 workshops/presentations. At the Wyndham Warwick Hotel, in Houston.
Contact: Ed C. Apodaca, (713) 743-9567.

PRESIDENT

After 19 years of distinguished leadership, Peter Spina will retire as President of Monroe Community College in August 1999. The Board of Trustees invites applications and nominations for the Presidency. Located in Rochester, New York, MCC serves a metropolitan area of over one million people and is the home of several Fortune 500 companies. Monroe Community College is a part of the State University of New York and a member of the League for Innovation in the Community College. The college has a multi-campus enrollment of 14,000 full- and part-time credit students offering 70 degree and certificate programs.

APPLICATION PROCESS: Applications will be accepted until position is filled. For full consideration, applications should be postmarked by November 23, 1998. The Presidential Search application packet can be requested by contacting: Human Resources Office, c/o Dr. Sherry Ralston, Monroe Community College, 1000 E. Henrietta Road, Rochester, New York 14623. Phone: (716) 292-2111 or e-mail: cbarcomb@monroecc.edu.

For additional information, contact Richard Degus, Search Liaison, at the college. Phone: (716) 292-3021 or e-mail: ddegus@monroecc.edu.

Search Consultant: Bob Barringer, Gold Hill Associates

**Associate Dean of Students**

**University at Buffalo**  
**State University of New York**

**Duties:** The Associate Dean of Studies at the State University of New York at Buffalo College of Law is primarily responsible for advising and counseling students and for implementing the academic assistance program. These responsibilities include:

- Counseling students experiencing academic difficulties or personal problems that impact on their academic achievement;
- Advising students with special needs on available support services;
- Assisting in individual student petitions for a waiver of Law School rules, such as petitions seeking authorization to register for a course overload;
- Deferring faculty members to identify and obtain appropriate interventions for students with academic or personal problems;
- Providing advice and support for student organizations including assistance with program and finances;
- Assisting students in formulating and sustaining new student activities;
- Developing and implementing a program of academic assistance for students admitted through the Legal Methods Program, as well as for students who may be identified as needing additional academic services;
- Coordinating the delivery of necessary assistance for students with special needs, including appropriate examination schedules as determined by the Committee on Students with Special Needs;
- Organizing and overseeing the commencement and orientation programs for regular, transfer, and Legal Methods students;
- Developing and maintaining university and community resources that are designed to serve student needs.

**Minimum Qualifications:** Bachelors Degree is required. Masters or JD is preferred. Minimum four years of successful experience in positions requiring work in student advising and counseling or five to eight years of more general administrative experience in an educational setting.

To apply: Send letter of application and resume to Prof. Diane Avery, Professor of Law, UB School of Law, 421 O'Brian Hall, Buffalo, New York 14260. Materials must be received by October 21, 1998 to ensure full consideration. Salary $50-58K commensurate with experience; generous benefit package.

*The University at Buffalo is an Equal Opportunity/Affirmative Action Employer.*

The University is interested in identifying prospective minority and women candidates and professionals with disabilities. No person in whatever relationship with the State University of New York at Buffalo shall be subject to discrimination on the basis of age, creed, color, disability, national origin, race, religion, ethnicity, sex, sexual orientation, marital or veteran status.

---

**DEAN OF PROFESSIONAL STUDIES**

Successful candidates must be committed to excellence in teaching in an undergraduate institution offering programs in the arts and sciences, education, human and health services, business and economics with an understanding of and sensitivity to minority and gender concerns.

Position: The Dean of Professional Studies is the chief administrator for the approximately 70 faculty in professional studies. The departments represented in this unit include: Child Family Services; Communication Disorders and Sciences; Counselor Education & Educational Studies; Nursing; Food and Nutrition; Social Work; and Sport and Wellness. The program offers over 2,000 students in the undergraduate and graduate level, with the largest proportion of students in the undergraduate level. The Dean also chairs the Counseling Graduate Studies Council. The Department reports to the Provost and has significant campus and community responsibilities beyond academic areas.

Responsibilities include:

- Providing effective leadership and oversight for all academic programs;
- Providing leadership for the excellence and sustaining diversity in all aspects of University life, particularly in developing a diverse student body, faculty and staff; working closely with other academic and administrative areas; maintaining the University's commitment to excellence and innovation in teaching and learning, including active development of applications and utilization of new technologies; assisting in implementing and updating the University's Strategic Plan;
- Assuming significant responsibility for working with appropriate community and regional organizations; leading the faculty in increasing external funding for research and service; and in participating in formulating and implementing college-wide policies.

Qualifications include: An earned doctorate is required and a record of teaching and scholarship, that would justify appointment as a tenured professor. A record of achievement in academic administration; a demonstrated record of effective communication and cooperation with faculty, staff, students and university partners; experience in curriculum and program design and implementation; a demonstrated commitment to increasing the diversity of faculty, staff and students; and a record of significant administrative leadership including strategic planning, enrollment management concerns, faculty management and accreditation assessment.

Females and racial minorities encouraged to apply.

Nominations and applications should be addressed to: Chair, Search Committee (P11213-899), 101 Broad Street, Plattsburgh, NY 12901-2681. Fax 518-564-4600

Nominated individuals will be invited to apply. Applications consist of a letter addressing the qualifications noted, a current resume or curriculum vitae, and three letters of reference. Review of applications begins on October 15, 1998 and continues until appointment is made. Starting salary competitive; position is available as soon as search is completed.
Irvine Minority Scholar
1999-2000 Dissertation Year Fellowship Program

The College of Arts and Sciences at the University of San Francisco invites applications for two participants in the Irvine Minority Scholar Dissertation Year Fellowship Program for the academic year 1999-2000. Appointments will be in one of the following College programs: History, Politics, Systematic Theology, Sociology, Communication, and Psychology.

PROGRAM: USF Senior Faculty serve as mentors and consultants while the Scholar completes the dissertation and initiates an ongoing program of scholarship or creative work, develops a repertoire of potential course offerings, and familiarizes him or herself with the usual service responsibilities of a university faculty member.

Scholars teach one undergraduate course in the discipline each semester; serve as resources to students and faculty; and contribute to USF's multicultural living/learning environment through activities that celebrate ethnic diversity and cultural pluralism.

COMPENSATION: Sponsored by the James Irvine Foundation, the Program provides a stipend of $24,500 and limited support for relocation and housing costs, and research-related expenses.

QUALIFICATIONS: Irvine Minority Scholars are members of one of the following educational groups: African Americans, Asian Americans, Hispanic/Latinos, or American Indians, and are U.S. citizens or Permanent Residents. Candidates must complete all work leading to the Ph.D. by Summer 1999, and must be considering a career in college teaching. University teaching experience, evidence of scholarly promise, and an understanding of and commitment to support the mission of the University are required.

Applicants should submit a letter of application, curriculum vitae, transcripts, dissertation prospectus or proposal and timeline, brief description of research plans, evidence of teaching ability (including student evaluations), and three letters of recommendation to:

Irvine Minority Scholar Search
c/o Gerardo Macias, Ph.D., Associate Dean
Co-Director, Irvine Minority Scholar Program
College of Arts and Sciences
University of San Francisco
2130 Fulton Street
San Francisco, CA 94117-1080

Complete applications must be received by December 1, 1998, to ensure full consideration.

The University of San Francisco is a private, Catholic, and Jesuit institution and particularly welcomes candidates who will positively contribute to such an environment. USF is an Equal Opportunity and Affirmative Action Employer, and will provide reasonable accommodations to individuals with disabilities upon request. We particularly encourage minority and women applicants for all positions.

Princeton University

Princeton University, located 45 miles from New York and Philadelphia, is the perfect place to build an exciting career. The University is small enough to provide a stimulating work environment, yet large enough to provide opportunities for promotion and personal growth. We are accepting applications for a Project Manager to oversee the University's Data Integration Services.

Working with the Associate Director of the overall administrative systems initiative, the Project Manager will facilitate the planning, methodology, and implementation of a new integrated data model to promote standardization and reuse in support of the new Oracle relational database environment, new administrative systems and new data warehousing opportunities. This is a term appointment of 3-4 years.

Candidates should have demonstrated ability to coordinate business units, Data Administration and Application Support to ensure effective data integration across all administrative systems. A bachelor's degree and proven project management experience directing a cross-functional team in large database implementation are required. Experience in higher education is a plus.

Candidate should have experience with the following:

- Systems Planning, Analysis and Design
- Data Analysis, Modeling and Normalization Techniques
- Deployment of Data Standards and Procedures
- Oracle Relational Database System
- Data Warehousing
- Web Technology
- PeopleSoft Application (a plus)

Princeton provides an exceptional work environment and an excellent benefits package that includes health care plans, an excellent retirement plan, tuition reimbursement, a generous vacation schedule, use of various University facilities and more. Interested candidates should submit two copies of resume to: Human Resources, Clio Hall 4837-HO-PP, Princeton University, Princeton, NJ 08544-5204. Review of resumes will begin immediately.

For full consideration, please respond by October 2. We welcome you to visit our Website at http://webware.princeton.edu/hr/posting.htm or call our Employment Opportunities Hotline at (609) 258-6130, EEO/AA.

Fundraising Grant Writer

Bloomfield College, a 103 year old college of 2,000 students, is committed to preparing students to function at the peak of their potential in a multicultural, multiracial society.

We seek a highly motivated individual to assist the Office of College Relations in expanding its fundraising initiatives. The Grant Writer will develop proposals and other written materials to help meet a variety of fundraising goals, including ongoing, capital, and special project needs.

Requirements include Bachelor's degree, 3 years of related experience, preferably in a higher education setting, strong writing skills, the ability to establish rapport with members of the College community, the ability to perform multiple tasks under deadline pressure, computer fluency and knowledge of and commitment to an institution serving a diverse population.

Salary is competitive and commensurate with experience. Excellent benefits package. Qualified candidates should send cover letter summarizing interest in the position, resume, three writing samples and three references to:

Michele Hickey, Executive Director of Development
Bloomfield College
229 Liberty Street
Bloomfield, NJ 07003

www.bloomfield.edu

Review of applications will begin immediately and will continue until an appointment is made.

NO CALLS PLEASE.

Affirmative Action/EQUAL OPPORTUNITY EMPLOYER.

Women and minorities are encouraged to apply.

COMPARATIVE POLITICS

The Department of Political Science at the Graduate Faculty of Political and Social Science, a division of New School for Social Research, seeks to fill two positions in comparative politics. One position will be at the junior level, the other is open as to rank. We are interested in applicants from senior candidates with distinguished records. Qualifications for both positions include a capacity to engage broad theoretical issues beyond the candidate's areas of special expertise and serious interest in interdisciplinary modes of inquiry. We welcome whose work encompasses international political economy, international relations, and comparative politics. The Department of Political Science, GRADUATE FACULTY OF POLITICAL AND SOCIAL SCIENCE, 65 Fifth Avenue, New York, NY 10010. Junior applications are due by November 10th. Senior applications are due by November 20th. The Graduate Faculty encourages applications from individuals who belong to groups historically under-represented in the academy. Affirmative action equal opportunity employer.
BUFFALO STATE COLLEGE

DIRECTOR OF ADMISSIONS

Buffalo State College invites applications for the position of Director of Admissions. Under the supervision of the Associate Vice President for Enrollment Management, the Director of Admissions is responsible for providing leadership, strategic planning, and coordination of a multifaceted recruitment program. Specific responsibilities include administration of an established admissions program, recommending change to improve current practices including development of innovative recruitment strategies, staff and volunteer training, oversight of prospecting, admissions counseling, and credentials evaluation.

Qualifications include: a master’s degree, with a minimum five (5) years experience that demonstrates increased responsibilities in admissions. The successful candidate will have experience with computerized admissions information systems, excellent written and oral communication skills, ability to collaborate effectively with faculty, staff, alumni, and other college constituencies, work within budget constraints, demonstrated ability to forecast trends and evaluate effectiveness of recruitment activities, development of recruitment publications, knowledge of effective marketing strategies and communications programs, and outreach to prospective students in under-represented groups. Salary is commensurate with qualifications and experience.

The screening of applicants will begin October 7, 1998, and continue until the position is filled. The position is available November 1, 1998. Applications should include a cover letter addressing qualifications, a résumé, and the names and addresses of three to five references.

Send applications to:
Admissions Director Search Committee
Academic Affairs, Grover Cleveland 511
Buffalo State College
1300 Elmwood Ave.
Buffalo, NY 14222-1095

Women and minorities are strongly encouraged to apply.

**President**

**SANTA ANA COLLEGE**

The Rancho Santiago Community College District in California is seeking qualified candidates to be the next President of Santa Ana College. This position serves as the chief executive officer of the college with overall responsibility to the Chancellor for all aspects of program delivery in the Santa Ana service area.

Founded in 1915, Santa Ana College is the fourth oldest community college in California. In Fall 1997, more than 24,000 students enrolled in credit classes, reflecting a racial/ethnic mix of 37% Hispanic, 32% White, 21% Asian, and 3% African American. For 1995-96, Santa Ana College ranked first in Southern California and second in the state in associate degrees conferred.

The successful candidate must possess a minimum of an earned Master’s degree, substantial and current administrative experience in higher education. The annual salary is $100,882.00 plus mileage allowance and excellent fringe benefit package. Applications and nominations are solicited, nominations should include the full name and address of the proposed candidate and other pertinent information that may be known by the nominator. Candidates should submit a letter of interest stating how they would address the requirements of the position, a current resume and the names, business and home telephone numbers of eight references (two supervisors, two subordinates, including one support staff member, two faculty and two community members) to: Dr. Al Fernandez, Search Consultant, Rancho Santiago Community College District, P.O. Box 6036, Santa Ana, California, 92706. Applications will be accepted until the position is filled. It is anticipated that the screening committee will begin reviewing applications in December. For confidential telephone inquiries about the position Dr. Fernandez may be reached at (805) 650-2548 and to obtain job announcement brochure, please call Elouise Marasigan (714) 480-7574.

Ohio Northern University College of Law
Ada, Ohio
"A Premier, Private Law School"

"As a native of San Antonio and a graduate of the University of Texas at Austin, making the decision to leave familiar settings was not easy. However, the cordiality of the faculty and the camaraderie of the students makes the transition a pleasant one. For example, playing a game of tennis with a professor while discussing a point of law is one of the advantages found at ONCL."

-Arturo Errazuriz, L-3, University of Texas-Austin

Ohio Northern is located in Ada, a picturesque college town of 5000 people, situated in Northwest Ohio. Ohio Northern's law students enjoy a quiet, safe, and inexpensive place to study and live. However, they are just a short drive from the cultural and entertainment centers of Columbus, Cleveland, Cincinnati and Toledo.

Some of the benefits of an Ohio Northern legal education include:
- Small classes with a low Student/Faculty ratio.
- World class faculty, committed to teaching and personalized attention.
- Generous Scholarship Assistance—particularly for students who will enhance the diversity of the legal profession.
- Newly remodeled and expanded facilities, including an expanded building, state-of-the-art computer and research facilities, and two beautifully appointed moot court rooms.
- Nationally recognized Law Reviews and championship Moot Court teams.
- Large and well maintained campus.
- Exceptional Career Services office dedicated to helping students locate employment.
- Numerous Clinical Opportunities—Ohio Northern offers seven different legal clinics, enabling our students to gain practical experience with real clients.

For more information, contact Ohio Northern University, Claude W. Pettigrew College of Law, Office of Law Admissions, Ada, Ohio 45810.

CHANCELLOR

- An exceptional opportunity for leadership at one of the nation’s foremost community college districts.

The Governing Board of The Maricopa Community Colleges is accepting applications for the position of Chancellor. The successful candidate will become the chief executive officer of this ten-college District with an average year-round student enrollment of close to 200,000. The position offers an exciting opportunity for leadership of one of the nation’s foremost educational institutions, in one of the Southwest’s most desirable and fastest-growing urban centers—Metropolitan Phoenix.

Retiring Chancellor Paul E. Eisen has led the Maricopa district with remarkable energy, intelligence and vision for almost 22 years. His retirement in June 1999 opens the door for new leadership in the 21st century—a time filled with many new challenges in the field of higher education.

The Chancellor Search Team will begin reviewing applications mid-September, 1998. The five-member Governing Board will make the final selection by mid-spring, 1999. The new chancellor should be ready to start July 1, 1999.

As to qualifications and preferred characteristics of the new chancellor, please phone William Waechter, 602/731-8103 for details. (E-mail: waechter@dist.maricopa.edu) All inquiries, applications and nominations for this position will be held in strictest confidence.

Applications should be sent to Dr. William F. Waechter, Vice Chancellor, Quality and Employee Development, The Maricopa Community Colleges, 2411 West 14th Street, Tempe, AZ 85281-6942. Fax 602/731-8120.

For additional information contact Elizabeth Rocklin, Association of Community College Trustees (ACCT); 1740 "N" Street N.W., Washington, DC 20036; TEL 202/775-4667; FAX 202/233-1297; e-mail: erocklin@acct.org

ENTRY LEVEL OR EXPERIENCED
TEACHER POSITIONS

William Mitchell College of Law invites applications for two tenure track positions in its J.D. program, to begin the 1999-2000 academic year. Candidates with any special expertise or expertise will be considered. Experience in Criminal Law, Trusts and Estates, Property, Taxation, Skills, Civil Procedure, Administrative Law, and Health Law are of special interest. Candidates should have excellent academic credentials and significant professional experience. We are looking for persons who demonstrate scholarly interest, teaching aptitude, and the ability to represent the J.D. Program to the public. A J.D. or an equivalent degree is required.

The College is an equal opportunity employer. We urge applications from members of groups historically under-represented in the legal profession and those individuals who will increase our faculty diversity.

Applicants should send a cover letter, resume, list of references, and additional material that may be influential in the recruiting process to:

Professor Matt' w P. Downs
Chair, Faculty Appointments Committee
Attention: Human Resources
Room 123-13

An ACCT Search
Governors State University
ANNOUNCES SEARCH FOR DIRECTOR OF THE UNIVERSITY LIBRARY

Governors State University seeks an innovative, flexible and creative individual to serve as Director of the University Library. Reporting to the Provost/Vice President of Academic Affairs, the successful candidate will manage a staff of over 30 and will be responsible for planning, coordinating and administering all library programs, operations, services and budget. The ideal candidate will possess the following characteristics: strong commitment to service, leadership, superior communication and interpersonal skills, the ability to develop productive and cooperative working relationships across the university and with external partners, current knowledge of developments and trends in library automation.

Governors State University is one of the fastest growing public universities in Illinois, serving approximately 9,000 students annually, and is a leader in serving non-traditional students in developing distance learning capabilities, and in tailoring curricula and instructional methods to meet the educational needs of a changing world of life-long learners.

Qualifications:

- A Doctorate in Library Science or a related field preferred. MLS from an ALA-accredited institution, plus an additional master’s degree or sixth-year certificate, or an earned doctorate is required.
- Significant management/administrative experience.
- Evidence of a management style which fosters good communication and motivates faculty and staff participation in planning and decision-making.
- Demonstrated knowledge of systems, trends, and practices in information technologies.
- Demonstrated ability to concisely plan, coordinate, and implement innovative library operations and services.
- Ability to work collaboratively and effectively in a multicultural campus and community setting.
- Superior written and oral communication skills.

Application and Nomination Procedure

This position is available January 1, 1999 and open until filled. Review of applicants will begin October 15, 1998. Salary is competitive. Applicants should send a letter of interest addressing qualifications, a current vita, and the names, addresses and telephone numbers of three references to Application and nominations should be forwarded to the Chairperson:

Chairperson
Search and Screening Committee for Director University Library
President’s Office
Governors State University
University Park, IL 60466

**Temple University**

**Associate Vice President for Distance and Continuing Education**

Temple University has an exciting opportunity for a creative and experienced academic leader to move the University to the next level in distance and continuing education. Temple has an enviable record of developing and offering distance and continuing programs from five campuses and dozens of remote sites. An extensive array of distance education courses is rapidly expanding into complete degrees, at both the undergraduate and graduate levels. Student support systems are being developed to support all of these initiatives. Temple plans to invest considerable resources in an overarching system of distance and continuing education initiatives, moving the University to the forefront of synchronous, asynchronous, credit and non-credit education nationally, and internationally. The successful candidate will assume responsibility for the leadership, management, development and expansion of all continuing and distance education at the University, with the exception of the Schools of Law, Dentistry, and Medicine.

The ideal candidate will demonstrate a proven record of innovative planning and delivery of distance and continuing programs in a sophisticated multi-campus setting. Excellent planning, writing, presentation, and financial management skills are essential as well as an advanced degree and at least ten years of executive-level academic experience.

Applications will be accepted until the position is filled. Applicants should send resume, with salary requirements to: Harry A. Young, Temple University, 252 USG, 1401 N. Broad St., Philadelphia, PA 19122. FAX: (215) 204-5921. - E-mail: jobs@vm.temple.edu. An equal opportunity affirmative action employer. MF/DV.

**DEAN**

**COLLEGE OF EDUCATION**

**THE UNIVERSITY OF IOWA**

The University of Iowa invites applications and nominations for the position of Dean of the College of Education. With over one hundred faculty members and over thirty professional staff, the College enrolls approximately 1,000 undergraduate and 1,000 graduate students, most of whom are full-time residents. The academic offerings include Ph.D. programs in educational administration and higher education, counseling psychology and counselor education, educational measurement and statistics, educational psychology, instructional design and technology, school psychology, social foundations of education, elementary education, special education, and a number of subject areas in secondary education.

The College of Education also houses such widely recognized programs as the Iowa Testing Programs, the Science Education Center, and the Belin-Blank International Center for Gifted Education and Talent Development. With a long history of leadership and innovation in education, the College serves as a national center for education, research, and teacher preparation with a strong and still growing commitment to educational technology, interdisciplinary scholarship, and international perspectives.

The College seeks candidates with distinguished academic records. The successful candidate will bring an unwavering commitment to the recruitment of outstanding faculty, to the development of strong relationships within the University and the state, to the enhancement of teaching at both the undergraduate and graduate levels, and to the support of externally funded research. The College has consistently enjoyed a strong fiscal position for the development of its programs, and our dean will assume a leadership role in attracting new resources. We are especially interested in minority and women candidates. Our new dean will bring an unshakable commitment to cultural, racial, and gender diversity.

The University of Iowa is a major research institution with international recognition and many programs rated among the best in their field. The annual programs in the visual and performing arts attract visitors from throughout the region, and the Iowa Writer's Workshop continually brings widely acclaimed authors to campus for lectures and readings. The University has developed innovative programs in spousal and partner hiring. Both the University of Iowa and Iowa City itself have long-standing commitments to the rights of minorities and women and together provide a safe, clean, and enjoyable environment. Schools in the Iowa City area are among the best in the nation, and relationships between the schools and the College of Education are both healthy and long-standing.

Candidates for the position of dean must have an earned doctorate and a record of teaching and scholarship that will warrant appointment as a full professor.

Please send nominations or application materials (curriculum vitae, and the names of three references) to:

Professor James Marshall, Chair
College of Education Search Committee
Office of the Provost
111 Jessup Hall
The University of Iowa
Iowa City, IA 52242

We invite interested candidates to visit the University of Iowa web site at www.uiowa.edu or to e-mail the search committee chair at james-marshall@uiowa.edu.

Review of candidates will begin immediately.

*The University of Iowa is an Affirmative Action/Equal Opportunity Employer. Women and minorities are encouraged to apply.*
Georgia Perimeter College (formerly DeKalb College) is a two-year, multi-campus college located in Metro Atlanta. The college was founded in 1964 and serves students from a 12-county area. The college invites applications and nominations for the following positions.

**ASSISTANT VICE PRESIDENT FOR ACADEMIC AFFAIRS 99-71**

We are seeking an academic leader and manager who is excited by the challenge of helping realize the potential of a growing dynamic two-year institution. The Assistant VP provides administrative support for the Vice President for the overall operation of the Office of Academic Affairs. Must be effective in promoting internal collaboration, cohesiveness and community building and possess strong interpersonal, written and oral communication skills. The ability to solve problems, demonstrate use of information and instructional technology and knowledge of planning and budget development are also required.

PhD or an EdD, degree from an accredited regional institution required and a minimum of 5 years as a clear associate dean or department chair required. Experience with institutional programs and/or students, post-secondary teaching experience and knowledge of contemporary issues and trends in Higher Education desired.

Salary: $66,000 +/yr (commensurate with education and experience) with excellent benefits.

**DIRECTOR FOR TEACHING AND LEARNING 99-72**

Responsible for activities that enhance the learning process and assist in the development of faculty. Will consult with individual faculty members (both continuing and new) to determine instructional and faculty needs. This is a 12-month faculty position with rank.

Master's Degree from an accredited institution required. PhD preferred. Must possess a minimum of 7 years teaching experience at the college level. Extensive administrative faculty development experience, as well as 7+ years' experience in the area of faculty development, is desirable. Must possess the ability to coordinate faculty grants and awards programs, faculty exchanges, retreats and workshops. Must be an effective communicator, both oral and written, and be able to listen, organize and work on multiple projects simultaneously. Knowledge of institutional methods, knowledge of the State of GA's PSCHE processes, and the use of a team-teaching arrangement.

Salary: $53,000 +/yr (commensurate with education and experience) with excellent benefits.

Applicants should reference appropriate position number and send the following as a single packet: (1) letter of interest, (2) resume, (3) unofficial copy of graduate transcript, (4) list of five professional references (names, addresses, email addresses, telephone numbers) to:

Judy Chastony, Human Resources, Georgia Perimeter College, 1251 Panthersville Rd., Decatur GA 30033 or Fax (404) 244-5774.

NELLIE MAI

FOUNDRATION

**PRESIDENT AND CHIEF OPERATING OFFICER**

The Board of Directors and its designated Personnel Search Committee have commenced the search for the President and Chief Operating Officer of the Nellie Mae Foundation.

The Nellie Mae Foundation is currently created as a result of the transition of Nellie Mae's well established student loan programs and services to the Nellie Mae Corporation, a wholly owned for-profit subsidiary of the Foundation. Upon the recapture of Nellie Mae Corporation, the foundation will oversee liquid assets of approximately $250 million, making it one of the largest independent foundations in the region. The Foundation expects to be fully operational in early 1990.

The Foundation's Board of Directors has adopted the following mission statement:

The foundation's mission is to promote the accessibility, quality, and effectiveness of education from pre-school through post-secondary levels, for all ages and especially for underserved populations. The Foundation will work with educational institutions and associations, cultural and community organizations, foundations, government, and others to encourage establish, maintain programs and services that promote education.

The leader is charged with the responsibility of building and leading an organization that is in a unique position to impact the quality, accessibility, and breadth of educational opportunities in New England.

The successful candidate will have demonstrated leadership experience, the ability to communicate and to work well with a Board, as well as with diverse external constituencies, and significant experience and success in managing a complex organization, and will show the vision of the Foundation's potential role in advancing education in the region.

The Search Committee invites nominations and expressions of interest for the position of President and Chief Operating Officer. Candidates should present qualifications and experience in a senior leadership position in an educational or philanthropic setting or in a position of comparable authority, responsibility, and stature. Correspondence should be directed in confidence to the consultants supporting this search.

Nellie Mae Foundation

98 Old South Road

Nantucket, MA 02554

For additional information, please contact Nancy A. Martin or Nancy C. Whicomb of Educational Management Network/Witt/Kieffer at 508-228-6000 or via email at nelliemae@emn.com.

Nellie Mae is committed to diversity and encourages applications from qualified women and minorities.

WESTERN CONNECTICUT STATE UNIVERSITY
www.wcsu.edu

DEAN
ANCELL SCHOOL OF BUSINESS

Western Connecticut State University invites applications and nominations for the position of Dean of the Ancell School of Business. WCSU is located in Danbury, a city in Fairfield County, 50 miles north of New York City. The University is located on two campuses and serves 5,500 undergraduate and graduate students. Western is one of the four comprehensive universities that comprise the Connecticut State University system. WCSU is divided into the School of Arts & Sciences, the School of Professional Studies, and the Ancell School of Business. The school is located on WCSU's modern 313-acre Westside campus.

The Ancell School, primarily a teaching institution, is pursuing AACSB candidacy and accreditation and serves 1200 undergraduate and graduate students. The Ancell School offers the BBA degree with majors in accounting, finance, management, MIS, and marketing and a BS degree with tracks in public law, corrections, probation, parole and offender rehabilitation, legal studies, paralegal preparation sequence and law enforcement from the Division of Justice and Law Administration. Three graduate degrees, MBA, MHA, and MSJA are offered.

RESPONSIBILITIES: The Faculty of the Ancell School of Business is seeking a Dean capable of promoting, developing, and sustaining the school's educational, scholarly, and public service programs. The Dean provides collegial leadership and consensus building for faculty organized into five departments (Accounting, Finance, Management, Management Information Systems, and Marketing) and the Division of Justice and Law Administration. The Dean of the Ancell School reports to the Academic Vice President.

QUALIFICATIONS:
- A record of teaching and scholarship, including an earned doctorate in a field appropriate to the School's curricula.
- Academic administrative experience, preferably beyond the level of chairperson, and demonstrated team-building experiences.
- An appreciation for scholarship and research in an academic setting.
- Instructional experience with technology.
- Willingness and ability to expand the financial resources for the school.
- Demonstrated ability to communicate effectively and to maintain good working relationships with all internal and external constituencies of the University.
- Demonstrated ability to represent and promote the Ancell School of Business to external constituencies.
- Experience with current AACSB processes, accreditation standards, and experience with strategic planning and budgeting.
- Experience with campus governance and collective bargaining agreements and sensitivity to faculty selection and evaluation.
- An understanding of the needs of our diverse student body.
- Willingness to support and implement Ancell School of Business initiatives.

APPLICATION PROCESS: Send letter of application that includes an estimation of what he/she brings to the position and how his/her experience corresponds with the requested qualifications, current curriculum vitae, and the names, addresses, and telephone numbers of three professional references to: Charles P. Spindidon, Dean of Human Resources Management, WCSU, 181 White St., Danbury, CT 06810. Salary: Negotiable, excellent benefit package.

DEADLINE: Applications must be received by October 20, 1998. Anticipated starting date: Beginning of Fall 1999 Semester.

Western is an Affirmative Action/Equal Opportunity Educator/employer.

UNLV
UNIVERSITY OF NEVADA, LAS VEGAS

WILLIAM S. BOYD SCHOOL OF LAW

University of California, San Diego

The University of California, San Diego, one of nine campuses in the University of California system, is one of the major research universities in the country, widely recognized both for the eminence of its faculty and for the quality of its graduate and undergraduate students. It consistently ranks in the top five in the nation and first in the UC system in total federal research funding. However, despite strong government funding, private support is increasingly important to enhance excellence and to meet these needs. UCSD’s dynamic development office is expanding. Among the positions currently open:

**Director of Development, Corporate Relations**
Under the direction of the Assistant Vice Chancellor, Development, the Director has primary responsibility for cultivating and soliciting corporate support for UCSD and will design and implement a comprehensive corporate fund-raising program for the campus. Requirements include: Proven experience in the development of major gifts from corporations, gift policies, stewardship, donor recognition, and administration. Record of writing proposals to corporations for significant project gifts ($100,000+). Proven success as a direct line fundraiser in a highly sophisticated donor-centered fund raising environment. Knowledge of public relations practices to provide direction to special programs for outreach to prospective and existing donors. Demonstrated strong managerial, supervisory, leadership, and organizational skills. Excellent oral, written, and interpersonal skills, and a demonstrated understanding of the philosophy of quality service and group process. Bachelor’s degree in a related field or equivalent combination of education and experience is preferred. Job #115586-X.

**Director of Development, Shiley Eye Center**
Under the direction of the Executive Director of Health Science Development, the Director has primary responsibility for comprehensive fund raising programs, including developing, planning and implementing a capital campaign for the Shiley Eye Center. Requirements include: Proven experience in the full spectrum of development for a academic medical institution including capital campaigns, gift solicitations, stewardship, donor recognition, high level boards, support groups and administration and closure of major gifts ($100,000+) with progressive responsibilities as a major gifts officer. Proven success in initiating, planning and strategically implementing large fund raising projects. Demonstrated strong management, supervisory, leadership, and organizational skills. Excellent oral, written, and interpersonal skills, and a demonstrated understanding of the philosophy of quality service and group process. Bachelor’s degree in a related field or equivalent combination of education and experience in an academic environment is preferred. Job #115531-X.

These are renewable contract positions with full benefits. Salary commensurate with qualifications and experience. Review of applications will begin on 10/9/98 and continue until the positions are filled. Submit letter and resume with references, referencing the appropriate job number to: UCSD Human Resources, 9500 Gilman Drive, La Jolla, CA 92037-0967 or E-mail to: resumes@human-resources.ucsd.edu. For information about UCSD, visit our Website at http://info@human-resources.ucsd.edu UCSD is an Equal Opportunity Employer and welcomes interest from qualified women and minorities.

VERMONT LAW SCHOOL
DIRECTOR

Vermont Law School invites applications and nominations for the position of Director of its Environmental Law Center. The Director provides direction and leadership with respect to environmental law, policy, and education within the institution and the community. The Director supervises the Master of Studies in Environmental Law degree, the joint J.D./Master degree, an extensive environmental law summer school, the Washington DC environmental seminar in practice, and the First Nations Environmental Law program. Further information is available on Vermont Law School’s website at: http://www.vermontlaw.edu

Qualifications include a law degree, environmental law experience, environmental law teaching and scholarship, management, and fund-raising experience. Applications and nominations should be submitted to Professor Richard O. Brooks, Vermont Law School, Environmental Law Center, South Royalton, VT 05068.

Review of applications will begin immediately and continue until the position is filled. The anticipated starting date is July 1, 1999.

WESTERN CAROLINA UNIVERSITY
Director of Housing

Search Extended

Full-time, 12-month position reports to Student Affairs and Business Affairs, provides overall leadership for university housing programs serving approximately 3000 residential students.

Qualifications:

• Established learning communities and collaborating with academic units.
• Environmental and social programming, directing renovation/renovation of residential facilities in accordance with business affairs budget management.

Applications Available Immediately. Open until filled. Applicants should submit a letter of interest, resume, and names and addresses of three references to:

Dr. Robert Caruso, Vice Chancellor for Student Affairs,
469 HFR Administration Building, WCU, Cullowhee, NC 28723.
COLLEGE OF EDUCATION
TENURE-TRACK FACULTY POSITIONS
Assistant/Associate/Full Professors
beginning in the 1999-2000 Academic Year

EDUCATIONAL ADMINISTRATION
Search Committee Chair: Dr. Roger DeMont
(Assistant/Associate Professor)

Qualifications: An earned doctorate in Educational Administration: a strong record of scholarship (publications, research, and possibly outside funding); experience advising graduate students (master’s, specialist, doctoral), experience in directing doctoral dissertation research; preference will be given to candidates with public school (or related) administrative experience; experience in teaching graduate level students, preferably with problem based approaches

Responsibilities: Continue a strong research agenda in Educational Administration, procure grants, teach graduate level courses, advise graduate students (master’s, specialist, doctoral), chair doctoral committees and direct doctoral dissertation research; curriculum development in the Educational Administration unit is also expected; participate in program area/division/college and university academic and collaborative activities

EDUCATIONAL FOUNDATIONS
Search Committee Chair: Dr. JoAnne Holbert
(Assistant/Associate/Full Professor)

Qualifications: An earned doctorate in Educational History and Philosophy, Educational Sociology or Educational Foundations: successful college/university teaching experience, an ongoing research agenda

Responsibilities: Teach undergraduate through doctoral level courses; establish or maintain a research agenda and a publication record, serve as advisor to master’s level and doctoral level students, participate in program development; seek external funding for research and development, participate in program area/division/college and university academic and collaborative activities

EDUCATIONAL PSYCHOLOGY
Search Committee Chair: Dr. Stephen Hillman
(Assistant/Associate/Full Professor)

Qualifications: An earned doctorate in Educational Psychology, a developing/continuing research agenda: experience in urban settings preferred, successful college/university teaching experience

Responsibilities: Teach and advise in Educational Psychology area at the undergraduate and graduate levels; develop and maintain a program of research in the area, conduct ongoing line of research with national conference presentations; publications in refereed journals; seek outside funding, participate in program area/division/college and university academic and collaborative activities

ENGLISH EDUCATION (TEACHER EDUCATION)
Search Committee Co-Chairs: Dr. Sharon Elliott and Dr. Craig Roney
(Assistant/Associate/Full Professor)

Qualifications: An earned doctorate in English Education or related field, experience in urban settings, teaching experience in English Education at the K-12 level, university teaching experience

Responsibilities: Pursue an active research agenda in English Education: teach undergraduate and graduate courses and advise graduate students in ELED; supervise and direct graduate essays, projects, theses and dissertations, procure grants, participate in program area/division/college and university academic and collaborative activities

INSTRUCTIONAL TECHNOLOGY
Search Committee Chair: Dr. Rita Richey
(Assistant/Associate/Full Professor)

(Coordinate Position with the College of Urban, Labor and Metropolitan Affairs)

Qualifications: An earned doctorate in Instructional Technology or related field, primary expertise in instructional design and applications in training and performance improvement applications; demonstrated success in university-level teaching and research

Responsibilities: Teach graduate level courses in Instructional Technology; advise graduate students and serve on doctoral committees, research and scholarly activities are expected; teach one course for six equivalents; participate in program area/division/college and university academic and collaborative activities; perform appropriate service and conduct scholarly work in conjunction with the College of Urban, Labor and Metropolitan Affairs

PHYSICAL EDUCATION: MOTOR CONTROL
AND MOTOR DEVELOPMENT
Search Committee Chair: Dr. Sarah Erbaugh
(Assistant/Associate Professor)

Qualifications: An earned doctorate required; previous university teaching experience required; strong computer/technical skills to support teaching and research required; previous grant writing experience preferred

Responsibilities: Teach undergraduate and graduate courses in Motor Behavior—Motor Learning, Motor Control and Motor Development, advise graduate students, conduct research in specialty area, participate in program area/division/college and university academic and collaborative activities

PHYSICAL EDUCATION: SPORTS ADMINISTRATION
Search Committee Chair: Mr. Roy Allen
(Assistant/Associate Professor)

Qualifications: An earned doctorate in Sports Administration or closely related field required, previous experience in several of the following: athletic administration, facility design and event management, sports marketing, development and fund raising, or legal issues, previous university teaching experience and/or professional administrative experience

Responsibilities: Pursue an active research agenda in Sports Administration; procure grants, teach graduate courses in Sports Administration, advise graduate students, supervise internships with appropriate schools sports-related businesses and governing organizations, participate in program area/division/college and university academic and collaborative activities

Salary and Rank for above: Commensurate with qualifications and experience

Application Procedures: Applicants are asked to send a letter of application, a current vita, and a one or two-page summary of their research agenda, make arrangements for three original recent letters of recommendation and official transcripts to be sent, and provide a list of additional references including addresses and phone numbers

Application Deadline: Review of applications will begin immediately and continue until the position is filled. Starting date: August, 1999

Institutional Background: Wayne State University is the major urban university in Michigan and is located in the heart of Detroit’s cultural and medical centers, which enable it to utilize the city’s vast social, cultural, educational, corporate and scientific resources to enrich the educational and institutional programs and to stimulate research. The university holds the prestigious rank of Carnegie Research University I, one of only 59 public universities to achieve this status. Wayne State University is a leader in the region and the nation, and is committed to research, teaching, and service to urban issues. The college theme is The Urban Educator as a Reflective, Innovative Professional, which guides and develops its programs. The college is characterized by its diversity and commitment to an urban mission and reflects the dynamic characteristics of urban life. The College of Education currently enrolls about 1,000 undergraduate and more than 2,500 graduate (master's, education specialties doctoral) students in approximately 44 different programs.

Wayne State University is an equal opportunity/affirmative action employer.

How to Achieve Diversity on Our Campuses

BY GUSTAVO A. MELLANDER

In spite of recent attacks, many of them successful, on affirmative action, most colleges and universities are still eager to create successful multicultural environments.

The National Library of Education in Washington, D.C., conducts research on many higher education issues, including those specifically focused on Hispanics. It recently compiled a list of current research dealing with retention and recruitment of underrepresented faculty and students.

Some observers think of this issue purely in terms of numbers of targeted students or faculty who are attracted to a campus. To them, the issue is merely recruitment. Others think that by concentrating on the curriculum and infusing a wider representation of perspectives, they can create a successful multicultural environment.

Most practitioners, however, know, many from painful experience, that those are but a few of the steps that must be addressed. Getting Hispanics on the faculty or in the student body is only a small part of a successful program. Failing to identify sources like the above and often at a “ticking bomb” for both students and faculty. Although administrators were not specifically identified in this compilation, the same reality holds.

Creating a multicultural environment, as the National Library has stated, “is a combination of recruitment, retention, climate issues, peer group, and the curriculum, organizational values, culture, and structure, faculty, and staff development.”

The following references identify successful programs that highlight these important components. They present “hands-on” examples of what works and what doesn’t. I have selected and commented on those examples that included Hispanics. The reports are divided into faculty and student cohorts.

STUDENTS

This paper discusses retention techniques that can be implemented with minority students at predominantly White colleges. Four phases that appear are critical to the retention and academic achievement of minority students: acceptance, acculturization, responsibility, and production.

This is a look at two longitudinal studies that focused on the college application behavior of different cultural groups. It studies the application pattern, number of schools applied to and the statistics for attendance at the applicant’s first-choice school.

This report shares the results of a survey given to first-year students at one university to see how minority and nonminority students differed in the way they perceived the university and how that changed their feelings toward continuing.

This study looked at data gathered on nearly 3,000 new undergraduate students at Barry University and examined the differences in retention rates among Anglo, Black, and Hispanic students.

Argues that the remedial reading and study skills approach to retention courses for minority students is seriously flawed and often consists of no more than offering good advice. They argue instead for the need to empower students. Further, they posit that to accurately assess student work in an atmosphere that validates pluralism will best support student efforts and affirm their worth.

This report describes the key elements of an alternative access program at Mount St. Mary’s College (Calif.). It outlines services rendered from the recruitment and orientation of culturally diverse students to those ongoing academic and support services necessary to support persistence to graduation.

This study examined differences in educational experiences and performance of White, Black, and Hispanic graduate students. While the study found some similarities among the students surveyed, racial group differences were more significant.

Studies causes of minority student attrition and delayed graduation. Examines the role of planned mentoring and affirms that it can increase retention and graduation rates of culturally diverse students. Studies the role of greater student/faculty contact in both academic and nonacademic problems. Finally, it discusses the steps necessary to develop and administer successful mentoring programs.

This monograph details issues regarding minority student retention in higher education and stresses the commitment of successful programs to campus-wide multicultural diversity as well as the importance of helping these students compete and succeed in the high-tech world of the 21st century.

Dr. Mellerud is a professor and dean emeritus at George Mason University.
The Heavy Hats of Ninfa Segarra
NYC Deputy Mayor Serves Too on Board of Ed

BY JEFF SIMMONS

There are a few things that the typical New Yorker might not know about Deputy Mayor Ninfa Segarra. In the often shark-infested political waters swirling around City Hall, Segarra has outlasted all of Mayor Rudolph Giuliani's deputy mayors during his two terms.

The 48-year-old grew up in lower Manhattan, a stone's throw from where she now helps run the city.

And in her second-floor office in the historic Tweed Hall—just north of City Hall—she has taped to a back door a poster of the "South Park" clan, the off-color cartoon characters decried as symbolic of the deterioration of good taste in America.

"My children turned me on to them," Segarra concedes. "I love 'em."

This is the private Segarra, a public figure, but the least public of all the deputy mayors, and a fixture in city politics more inclined to work behind the scenes to accomplish her goals. She is also the only deputy to don twin caps each day: besides her work at City Hall as the mayor's only Latina deputy, she also is the only Latina appointed to New York City's central Board of Education.

Darting back and forth between both roles each day, the Democrat has stoically weathered repeated attacks from critics. They charge she's merely the recipient of a political gift—the deputy mayor's job—because of her support for the Republican mayor during his campaigns.

But her supporters counter that she's widely misunderstood, and that her silence speaks more of her demeanor and resilience, not of an hidden agenda.

"She is very easy to get along with," says Herman Badillo, one of Mayor Giuliani's closest advisors actively involved in improving education in the city. "She doesn't raise too many controversial issues, which is one of the reasons why she gets along with Rudy."

Board of Education President William C. Thompson, Jr., who has hashed out many a policy with Segarra and their five colleagues over the last few years, cites her resolve and her sense of humor as qualities that have led Segarra to persevere.

"Until I got to know her, I probably misunderstood her a little also," Thompson says. "But after meeting after meeting after meeting, you start to see things people in public don't see, and that Nin really makes a valuable contribution to the educational system. I begin to appreciate her opinion and her advice."

Her role—as a parent, a deputy mayor, and a board member—has privately been instrumental in frequent tense talks to pilot a contr
unaltered system of granting New York City's police department more say in security operations at city schools. Segarra also has been vocal in her support for reforming bilingual and special education programs, and in improving public housing and homeless services in the city.

In a rare interview, Segarra recently sat down with HO to discuss her life in New York City and her career.

HO: How do you respond to the way you've been characterized in the press? Are you misunderstood?

Segarra: There is a misperception, and part of it has to do, unfortunately, with issues of ethnicity and sex. I think, because I have a quiet way—and because I expect...a public aggressive posture—they've interpreted me as being ineffective. I have no particular need to feel that publicly these things are acknowledged, although we all want what we do to be recognized as effective and [to be thought of] as a "player"—as someone who can turn the mayor around. Well, the mayor doesn't get turned around on a decision. You can advise him, consult with him, but in the end, he makes a decision.

I know quite clearly who I work for, but I also know that if he didn't have respect for me and he didn't think I was someone who could contribute, I wouldn't still be here. He's shown me the confidence to let me stay here.

HO: Which is easier for you, your role as a board member or as a deputy mayor?

Segarra: The board is an easy role because as a parent I'm really affecting the education of my two children. It's a role I've played from the heart, and fine-tuned for four years prior to being deputy mayor. I defers to a CEO who runs the place, but as a deputy mayor, it's much more of a hands-on experience.

The Board of Education is an extraordinary institution. You don't recognize it until you are there, how it affects the entire city. We recognize the effect the police department has, the health care industry has, but we don't often understand that there's one institution in the city that really can affect the future of the city all by itself, and it also becomes the barometer and the leader of education for all of the other educational institutions in the city. It really leads us or can bring us back, so it really is a critical player in the city.

I've enjoyed both, and I love both, and I am fascinated by both, and I still am in absolute awe that I am here after all of this time.

HO: Why are you in awe?

Segarra: Because I know that I have this particular position where in the city of New York I am a deputy mayor and that my roots started in the city with humble beginnings with my parents coming from Puerto Rico, and that I've gotten here on merit, grit, and stamina. I am able to have a position that very few people will ever have. My father was a Checker cab driver for 25 years, and my mother worked as a seamstress not far from here, in lower Broadway, and they had a third grade education from Puerto Rico.

They understood without having to be taught that education was the lifeline. It was what would make the difference. They didn't really have confidence in the public school system and put us through Catholic school. My sister and me. They understood that the education we got had to be the kind of education that was the highest quality they could provide.

They literally pulled me out of public school when I was in second grade and sent me to a Catholic school. At the time, Catholic schools were overcrowded, and we had to fight to get me a seat, and they actually went out and searched for a seat. They insisted we both go through high school in Catholic school, and we did. I had no idea how they did it financially. I am in awe of their management of their finances because they paid for it through high school. I was not on a scholarship, and they paid the tuition, no discounts, but they did it.

They understood clearly that this was the way to do it, and they had no hesitation with it. They insisted on it. As a matter of fact, I don't know how to cook because of my mother. She insisted that we did nothing but our schoolwork. My mother understood that our job was doing schoolwork, and she made every effort to make sure we attended to it, and there was never any question about it.

HO: You visit many schools and meet with students. What messages that you learned while growing up do you pass on to them?

Segarra: I tell them about who I am, because that's important. They need to understand that I lived 10, 15 blocks away from City Hall and never dreamed of coming inside other than when I demonstrated outside the building, that my parents still live where we grew up which is in public housing, and I got here because I worked hard. But I also got here because some people cared.

And they can too, because we care. But it takes a drive that they have to have and they can make it...
I'm not that unique. They really have all of the ingredients I had. And I try to make sure they understand it wasn't something special that happened with me. I was able to pull together some pieces, and some people were able to work with me to make sure that I took it, that when an opportunity presented itself I was ready.

What I talk to them about is that there are opportunities always there. The question is whether or not you are ready for the opportunity, and that you never know when it's going to happen. Fifty percent of life sometimes becomes an accident of time and place, and the trick is being ready to take advantage of that accident, that moment you meet someone or someone meets you and being ready for it. You have to always be ready for it, and if they work hard at it, they'll be able to take advantage of opportunities and make it, too.

**HO: You mention that you demonstrated in front of City Hall...**

**Segarra:** It was a life I am very proud of, but a very different relationship to government. I spent a good part of my young adult life really telling government that it wasn't working, and I had major complaints about it. About what it wasn't doing and why.

That history is still with me, so I understand what's wrong with government having experienced it from some of its most negative aspects, whether it was racial or sexual discrimination, a lack of services, being fearful for your life because you feel unsafe because of crime, drugs in my family, members of my family being incarcerated because of unsavory events.

The difference now is being responsible for changing it. During the '70s and '80s, many of us were simply letting the world know that there were all of these troubles, but we were not very good at finding solutions to it. Now, as baby boomers, we have a responsibility to find solutions, and luckily I've been given the opportunity and the wherewithal to work on the solutions to all of those things I complained about.

**HO: You've now got two roles in which you can work on the solutions. What are some of them?**

**Segarra:** At the board, it's just changing the environment where we now have a can-do attitude that we have not given up on the system. As a parent, I really feel the confidence in the kinds of changes that are occurring, that we have institutionalized changes, and that it's not just something that [Schools Chancellor] Rudy Crew is changing. It's something the system is changing, putting in place.

We are building accountability into the system and changing the attitudes of people. It's not that money solves everything; it's that you really have the solutions and you use the money for those solutions. It's changing the attitude of a million parents associated with those kids. We know the system has been in trouble and it's had its problems, but we can change it.... It is going to the detriment of those [other] individuals; they weren't ready.

We've been working on safety in public housing, on changing the economic mix, on rewarding working families. I also oversee the shelter system, and we're preparing people as they move into housing to be independent and self-sufficient, so they come in as stable individuals.

**HO: What about bilingual education?**

**Segarra:** Bilingual education plays a role and provides a transition for young people. In particular for young people who come to the United States at later ages, and helps them transition in our educational system to acquire English and be able to maintain their prior education and help them prepare to integrate into the system.

The problems I have with bilingual education are with some of the models we have in New York and in other parts of the country where it is in transition and, more importantly, where English becomes the afterthought and not the primary motivator, and it becomes like in special education—a secondary system that because we are all afraid...
to deal with the radical issues in it. we just let it simmer there and not require [much] of it. Because we're afraid that if we require high standards of it, we're going to have either political controversy or not know what to do.

We know there is a need for it, in particular to get youngsters in middle and high school, but we want to make sure it is transitional and that it has high standards.

For Latinos, this sometimes becomes a very delicate question because it gets sort of boxed in or added to a list of concerns that they have about who we are in this country and that we are in some way retrograding on the issues of Affirmative Action. We are not backing away, we are looking at it differently.

I am an Affirmative Action baby. I took advantage of a benefit of certain things that happened in the '60s and '70s, and that provided me with opportunities, but it didn't graduate me. I entered law school on an Affirmative Action effort, but I didn't graduate on Affirmative Action, and I didn't pass the bar on Affirmative Action.

I want to make sure the opportunities are still there for young people, but now they might be shaped differently. It doesn't have to be with quotas and numbers. I think we have to address all of this and start to face it because as Latinos, we have a responsibility to make sure the solutions we find are current, are effective, and not bandaid.

HO: Who are your role models?

Segarra: My mom and my dad. For what they were able to achieve, I hope I am as effective a role model for my own children as they were for me. Then there are people who have been helpful to me and encouraged me in the worst times.

Alice Cardona, one of the creators of ASPIRA, who is someone at my most difficult times would call me or send me a note saying 'Don't worry about it. Just keep at it.' And we've disagreed publicly on 100 things in the last six to eight years, but she's someone who has been extraordinarily supportive.

HO: Do you see yourself as a role model?

Segarra: Absolutely. When you don't understand it, what ends up happening is you don't end up giving to the next generation the benefits of your experience. It is important to let people know that there are role models they can look towards. It doesn't necessarily have to be me, but they should look for someone who has succeeded, and there are people out there.

The reason I became an attorney was [that] in high school and college, I kept meeting a man, [now-former New York State Appellate Court] Judge John Carro, who kept showing up at all these events we had. We really didn't know why he kept showing up, but he kept doing it. Some of us were not sure what a judge did, and the last thing many of us imagined was that we would become attorneys. He kept talking to us about becoming lawyers and going to law school, and kept saying to look what he did, and against all odds, we could do it. He knew that what you needed to do was keep repeating the message. It's something the mayor has taught me all these years. If you've got the right message, it eventually will sink in. Well, it sunk in. I entered New York University undergraduate to become a social worker and ended up not knowing what do and then decided to become an attorney.

Eight years later, after I passed the bar exam, I went to the swearing-in ceremony, and I look up and the person who is going to be swearing me in - Judge Carro I sat there and said, 'Ya know, God, you sure are crazy,' I went up to see him afterwards and told him. I said, 'You have no idea, but you are the one who convinced me I could do it.' It was like this weird signal from God—that he [Carro] told me I could do it, and he should know I did it because he was the guiding force behind it.

He understood what it was to be a role model. He took on the responsibility of being one, and I am just one of thousands of people who he's affected by simply being himself.

HO: You supervised relief efforts after Hurricane Pauline struck Mexico and after Hurricane Hortense ravaged Puerto Rico. Tell me about your involvement.

Segarra: Those were personal things you get to do and feel so great about a job that gives you the opportunity to do them. Relief efforts are so well known in our community whenever there's been an issue in Puerto Rico. What was wonderful was having the opportunity to spearhead and be able to pull resources together for Puerto Ricans. The things we learned were translatable, what we could then do for other islands. It was personally gratifying to be able to do it for my own family, and that's essentially what the island is, my family.

HO: You also suffer from asthma and have been a driving force behind the city's war on asthma.

Segarra: Whenever you have a personal consideration and when you are a policy-maker, it is value-added to that situation because it means you can bring a personal perspective to the table. I think that in our administration, the different and varied experiences that people have ended up creating a situation where you can really understand an issue.

Because I am an asthmatic, it helped some people understand, and it galvanized others and reinforced that while it can be life-threatening, it can be managed. Certainly, if I can have this position and not be at risk having such a stressful position, it's a role model of someone that can do it. I've been able to raise concerns to the mayor and respond in a positive way.

As a deputy mayor and a board member, it has meant that I can work with the Department of Health and the Board to network them and highlight the issues. I've seen a tremendous amount of solid attention paid to it, particularly in the last two years. This is a critical piece for Latinos because this is one of those situations where we have such high numbers that we need to make sure it is attended to.

This is the model I use: deal with an issue that is global, and find a solution to it because many of those issues have an effect on the Latino community. I like to deal with issues that are close to the heart, issues of what happens in my home community. I am proud to be Latina. I have tremendous concerns about our future, but I also know the things we are doing in this administration that will have tremendous rewards and benefits in our community.

HO: What do you want your lasting impression to be on city government and the school system?

Segarra: What I hope people will remember—particularly because of my history with controversy that occurred during my tenure at the Board and my arrival here—is that one, my appointments have been on merit and that there are extraordinary Latinos in this city who can do and will do extraordinary things—and that's important to me because I have a young daughter. And, two, that politics is important to me. It is in my blood and I love it, but the decisions I have made during the course of my professional life were not political decisions.
Latino first-year college students gave a higher priority to influencing the political structure and keeping up with political affairs than did other first-year students, according to the American Freshman Survey, conducted annually for the past 32 years.

Latino responses are all the more astounding in that others as a group demonstrated the lowest levels of political interest in the history of the survey.

The percentage of Latino students who desire to “influence the political structure” surpassed the survey’s historic high of 20.6 percent. More than 22 percent of Latino first-year students felt that this goal was “very important or essential,” compared to 16.7 percent of other college students.

Roger Campos, vice president for government relations at HACI, the Hispanic Association of Colleges and Universities in Washington, said he felt Latino students were increasingly politically aware because of the growing debate nationally over issues that impact the Latino community, such as bilingual education and affirmative action.

“People realize that to enact those provisions, you need legislative consensus and that to impede policy, you need to get to the policy-makers,” Campos said.

Some 250,000 first-year college students, nearly all of whom graduated from high school last year, took part in the survey last fall.
Nearly 500 two-year colleges, four-year colleges, and universities participated in the survey, which was conducted by researchers with the Higher Education Research Institute at the University of California at Los Angeles. Latino students comprised 4.7 percent or nearly 12,000 of the respondents.

"The survey is conducted to track trends and provide information on the types of students who go to college," said Linda Sax, a UCLA education professor who directed the survey.

The survey gauged the attitudes and aspirations of first-year college students nationwide since the 1960s. The results are based on responses that these students gave to hundreds of questions on their interests, issues in American society, and their plans for the future. Because of the size, scope, and consistency of the survey, its results are used widely in the education community to gauge how new college students view their lives and their futures. The results are statistically adjusted to represent the nation's total population of nearly 101 million first-time college students.

Latino students' interest in politics was documented in other questions. More than 31 percent of Latino first-year students said that they believe that "keeping up to date with political affairs" is a "very important or essential" life goal compared to a record low 25 percent of today's first-year students.

Researchers said that students overall seem to be less engaged in the political process. In 1968, nearly 58 percent of students surveyed had reported that it was important to keep abreast of political issues. Latino students, like other college first-year students, reported in low numbers that they participated in student elections. The percentage of all college first-year students who frequently vote in student elections declined dramatically from nearly 70 percent in 1968 to 21.3 percent in 1997.

"These trends are part of a larger pattern of disengagement of the American people from political and civic life in general," said UCLA education professor Alexander W. Astin, founding director of the survey.

Sax added that the responses to the political questions indicate that students' "image of politics is more defined by politicians than issues."

"When we began the survey in the 1960s, students were interested in the Vietnam War and the Civil Rights Movement," said Sax. "Issues seem more distant to the students of today. There is a feeling of apathy, that they can't change anything."

Disengagement from the political process might also be due to increased stress and responsibilities among college first-year students. An increasing number, especially among Latinos, reported that they came from single-parent households, which Sax said tends to put more pressure on students to pay for their own education through work and to help around the house with the care of siblings and with chores.

"There is a lot of multi-tasking, and they are only 17," said Sax. "There is increased stress over finances and increased stress overall. Students are concerned about paying for college. Money is an increasingly important issue for all students but even more so for Latinos."

The questions on politics were not the only ones over which Latino students diverged from the rest of the first-year student population.

Nearly 48 percent of Latino students reported that they felt strongly about their commitment to "help promote racial understanding" compared to 31 percent of other first-year students. Researchers said that the commitment by other college first-year students on this issue fell to its lowest point in a decade.

Campos said he felt Latino students were identifying more with their cultural background because of the growth in the Latino population and because of all of the debates arising that affect Latinos. "People are becoming more Hispanic and trying to understand their culture and how it impacts society," Campos said. "They are also trying to understand the racial makeup in society."

Latino first-year college stu-
Nearly 48 percent of Latino students reported they felt strongly about their commitment to "help promote racial understanding" compared to 31 percent of other first-year students. Researchers said that the commitment by other college first-year students on this issue fell to its lowest point in a decade.

Washington, D.C.-based American Council on Education, which helped finance the project, "The results also indicate that they are more concerned with academic credentials and the money they are going to get. School is seen as a means to an end and not something to do to be a well-rounded person." Latino students, like other college first-year students, indicated that they were doing more volunteer work than ever. Nearly 75 percent of the Latino respondents said they performed volunteer work "occasionally or frequently." Latino respondents, however, seemed to spend more time at volunteer efforts than did other college first-year students.

"Given the students' disengagement from politics and activism, these trends might simply reflect the fact that more high schools are promoting student volunteerism or even requiring it as a condition for graduation," said Astin. "Such a conclusion is consistent with the finding that only 19 percent of freshmen respondents say there is a 'very good chance' they will perform volunteer work or community service during college."

Responses from Latino students also corresponded with responses from other college first-year students on questions about the legalization of abortion and marijuana. More first-year students overall supported legalizing marijuana about 35 percent wanted to legalize marijuana compared to nearly 1 percentage in 1989. First-year student also offered the lowest level of support for legal abortion since 1970 with 53 percent of respondents saying abortion should be legal, down from a high of 65 percent in 1990, the survey said.

Like other college first-year students, Latino respondents said they were drinking less wine, beer, and liquor. Fifty-three percent drank beer "occasionally or frequently" compared to a record high of 75 percent in 1981. Forty-four percent of Latino respondents reported they occasionally or frequently drank beer.

The survey showed that students were smoking at the highest level in 30 years, a disturbing finding. More than 15 percent of college first-year students reported that they smoke frequently compared to 11 percent of Latino first-year students. The survey also showed that more women smoked than men.

"Apparently, recent tobacco industry concessions and admissions of smoking-related health risk have had no immediate effect on deterring students from smoking cigarettes," said Sax, adding that the increase could be a reflection of the increased stress in student lives.
Commemorating Hispanics Nationwide

BY MARI CARMEN SARRACENT

"As the youngest and fastest-growing segment of our population, Hispanic Americans are an increasingly vital part of our economy. In the first three years of our Administration, more than 220,000 Hispanic-American-owned businesses were created, and in recent years, the number of companies owned by Hispanic women, in particular, has grown at three times the overall rate of business growth."

PRESIDENT CLINTON

...month out of the year is reserved to venerate and promote Hispanic culture—history, literature, the arts, education, pioneers and role models. What began as National Hispanic Heritage Week back in 1968, over the years developed into what is nationally recognized and celebrated as Hispanic Heritage Month. Business, organizations, government, colleges and universities around the country plan activities throughout the month including artistic events, art exhibits, films, and discussions.

Public Law 90-908 approved on September 17, 1968 by the 90th Congress resolved that the President "is hereby authorized and requested to issue annually a proclamation designating the week including September 15 and 16 as National Hispanic Heritage Week, and calling upon the people of the United States, especially the educational community, to observe such week with appropriate ceremonies and activities."

On August 17, 1988, the 100th Congress approved Public Law 100-402, authorizing the designation of the National Hispanic Heritage Month.

Since then, every year, the President of the United States issues a proclamation from the White House that kicks off Hispanic Heritage Month. An excerpt from President William J. Clinton's statement last year noted...

"As the youngest and fastest-growing segment of our population, Hispanic Americans are an increasingly vital part of our economy. In the first three years of our Administration, more than 220,000 Hispanic-American-owned businesses were created, and in recent years, the number of companies owned by Hispanic women, in particular, has grown at three times the overall rate of business growth. The contributions of Hispanic Americans to the life of our Nation are much more than economic. Their strong commitment to family, community, and country sets a shining example for all our people. To meet the challenges of the 21st century, we must..."
create a society that offers opportunity to all Americans. To honor them for their dedication to this endeavor and for their many contributions to our Nation and our culture, the Congress, by Public Law 100-402, has authorized and requested the President to issue annually a proclamation designating September 15 through October 15 as National Hispanic Heritage Month. I call upon all government officials, educators, and the people of the United States to honor this observance with appropriate programs, ceremonies, and activities, and I encourage all Americans to rededicate themselves to the pursuit of equality."

In Honor Of...

This year, for example, the National Council of Hispanic Employment Program Managers Council and the HEPM Foundation selected Esperanza Gama to design the 1998 Hispanic Heritage Month Poster, which has been distributed to organizations nationwide, in Europe, and in Asia to commemorate Hispanic Heritage Month. This year’s poster, entitled “Women in Leadership,” describes the diversity of the Hispanic community and the commitment of Hispanic women to lead its community to a better political and socioeconomic future. The artist, Esperanza Gama, was born in Guadalajara, Mexico. This poster is the fifth in the Hispanic American Artist Collection series. For more information: call 202-882-8934 or visit the website at <www.hepm.org>.

HEPM was established to focus specific attention on the needs of Hispanic Americans in all areas of federal employment. Its objectives include: to eliminate discrimination practices and disparate treatment in the workplace; to ensure Hispanic Americans are represented throughout the workforce at all grade levels and occupations; and to provide information on employment, training, and educational opportunities to all individuals seeking such opportunities.

MANA, a pan-Latina grassroots membership organization based in Washington, D.C., hosts its Annual Las Primeras Awards Luncheon during Hispanic Heritage Month that celebrates Latinas who are considered “firsts” in their respective fields. Last year’s honorees were groups in mathematics, engineering and science. Her presentation before the troops will include a talk about the work and achievements of young New Mexicans and the challenges faced by women in leadership roles.

Trujillo is one of more than a dozen MANA Chapter President around the country. MANA has representatives in Missouri, Colorado, and the American Association of University Women (AAUW).

The National Council of Hispanic Employment Program Managers Council and the HEPM Foundation selected Esperanza Gama to design the 1998 Hispanic Heritage Month Poster, “Women in Leadership,” which has been distributed to organizations nationwide, in Europe and in Asia to commemorate Hispanic Heritage Month.

women in education—Aida Barrera of Austin, Texas; Norma Cantu of San Antonio, Texas; Elizabeth Martinez of Santa Fe, New Mexico; and Laura Angelica Simon from Los Angeles, Calif. (At press time, information regarding this year’s honorees was not yet available.)

During this year’s Hispanic Heritage Month, Evangeline Sandoval Trujillo, president of MANA de Albuquerque, was invited to participate as a featured speaker before the United States Army First Armored Division in Central Germany and Task Force Eagle in Bosnia Herzegovina. In line with the federal government’s Hispanic Heritage theme for 1998, “Women in Leadership Roles,” Trujillo responded to a call for Hispanic women to speak in Germany and Bosnia.

Trujillo is executive director of New Mexico MESA, Inc., a pre-college program that provides academic support to underrepresented Washington, D.C., California, Arizona, Oregon, Michigan, and New Mexico.

MANA, which began as the Mexican American Women’s National Association, has developed into a volunteer organization representing more than 5,000 women nationwide. MANA has four programs: Hermanitas, a mentoring project focused on middle school girls and her parents; Las Primeras, a national level public recognition event that features Latinas considered first in their field; and Brindis, local public recognition events that highlight Latina role models and recognize the achievements of Latinas.

Scholarships are awarded on a national and local level to Latinas in college who demonstrate academic achievement, community service, and leadership.

The organization is also involved in advocacy and civil rights policy research. Some of the topics covered are Hispanics and Education, employment, pay equity, health, and politics. MANA’s Advocacy and Civil Rights Program works with various coalition partners including the Hispanic and Corporate Responsibility (HACR), National Committee of Pay Equity (NCPE), National Committee on Responsive Philanthropy (NCRP), National Hispanic Leadership Agenda (NHLA), and the American Association of University Women (AAUW).

In line with Hispanic Heritage Month activities is the President’s Initiative on Race, which encompasses the President Clinton’s vision of “One America in the 21st Century.” The initiative has been a year-long effort that combines indepth study, dialogue, and action to address the continuing challenges of how to live and work more productively as “One America.” On October 15th and 16th in Washington, D.C., the National Research Council Conference on Racial Trends will take place as part of this effort.

Leading scholars and researchers from Harvard University, Baruch College, Boston College, Johns Hopkins, Berkeley, Columbia, Princeton, Carnegie-Mellon, and others will convene to examine past and current trends for Blacks, Hispanics, Asians and American Indians in several key areas including educational advancement, job opportunities, health access and status, and political participation. Some of the papers presented will discuss “Racial Dynamics in Higher Education,” “Education Assessment and Learning,” and “Overview of Education Equity.”

This information will serve as research base for the President’s Initiative on Race and will contribute to the President’s Report to the American people, due in late 1998. For more information about the conference fax Margo Cullen 202-581-3829.
The Cuban Stories of Luis Martínez-Fernández
Rediscover Own History While Researching Another

BY MICHÉLLE ADAM

Luis Martínez-Fernández was conducting research at Duke University, looking for material on his birth-home of Cuba. It was then, eleven years ago, that Fernández came across the compelling diaries of George and Grace Backhouse, a British family living in Cuba in the mid-19th century.

"I began to read their diaries, and I fell in love with this family. They had children like me. They faced a lot of the same issues," said Fernández. "His diary came to an end, and I opened an envelope. There were newspaper notices of his death. He had been killed in Cuba. From that day on, I knew I had to tell that story."

The recently published *Fighting Slavery in the Caribbean: The Life and Times of a British Family in Nineteenth-Century Havana* is that story finally told. Although Fernández, now historian and chair of Rutgers' Puerto Rican and Hispanic Caribbean Studies Department, prides himself on historical accuracy, he also hopes his book will read with the rapture and personal touch of a novel.

The story begins in England, as George Backhouse and his wife, Grace, prepare to move to Cuba in the mid-19th century to serve on the Anglo-Spanish Havana Mixed Commission for the Suppression of the Slave Trade. Arriving on the island with good intentions, the couple face pro-slavery pressures from all sides, as well as yellow fever and the challenge of surviving an unfamiliar culture. Their struggle is uphill, especially since Cuba relies heavily on the slave trade for exporting sugar, and many of Cuba's religious laws and social mores are in conflict with their own. Grace Backhouse specifically struggles as a woman on an island that commonly doesn't include women, and both she and her husband are subject to religious intolerance and homesickness.

Grace returns to England with the children after a miscarriage, only to discover three to four months later that her husband has been murdered by two men who broke into their house. Although suspicions have it that these men were linked to the slave trade, we are left without proof.

It seems peculiar that a man like Fernandez, born in Cuba and
raised in Peru and Puerto Rico, would become fascinated by this story of a British couple. But according to Fernández, their story is central to the telling of 19th-century Cuba, a time that is pivotal in shaping the Cuban people of today.

“I am convinced,” he said, “that in order to understand the current political situation of Cuba, you need to understand the 19th century, when the political climate crystallized.”

The militarism became a trait of Cuban culture. Between 1840 and 1880, there was great instability in Cuba, he explained. Cuba wanted to separate from Spain, but its independence relied on slavery. And during the wars of independence from 1868 to 1898, a third of Cubas population died, and one-tenth went into exile. “The dislocation and impoverishment of Cuba really left an imprint,” said Fernández. “Because of their struggles,” he said, “there is a spirit of competitiveness in Cuba today that you just don’t find in many places.” Writing about the lives of the Backhouses, from archives, secondary literature, and travelers’ accounts, Fernández gained insight into the strong effects of slavery on Cuban society.

“I learned that slavery had an impact on every aspect of society,” he said. “It had a corrupting effect. It had an impact on gender relations,” Fernández described how white women were protected from even sitting foot on the streets, due to fear of Black men. “Race is a very important key to understanding Cuba in the 19th century,” he said.

Fernández believes he knew at age ten he would one day become an historian, but it seems only recently, at age 38, after eleven years of researching and writing this book, that he has begun to understand his own personal history more completely.

“It was a very special book for me. It’s really a book that is profoundly autobiographical for me,” said Fernández. “It allowed me to visit my ancestral homes.”

Fernández’s Cuban family left the island when he was two years old. They settled in Lima, Peru, only to relocate to Puerto Rico due to Peru’s military coup in 1968.

“I remember being a small child and seeing footage on TV of the soldiers going to the political palace. I have a strong image of a collapse of democracy,” he said. “By age ten, I had lived through revolution, exile, military coup, and emigration.”

Fernández earned bachelor’s and master’s degrees in history in Puerto Rico and then continued with post-doctoral studies at Duke University. It was there he began his research on the Backhouse family. Initially, his work focused on the Hispanic Caribbean. Only later did he begin to target Cuba more specifically.

“Becoming an historian was not a choice, said Fernández.

“It is what I had to do to understand the historical processes that have affected me.” Like many Cubans, he too knew what it was to live the life of an emigrant. His family had moved from Spain to Cuba and then throughout Latin America in search of a home. Exile and emigration had passed through generations.

“The experience of emigration becomes internalized within families,” said Fernández. “It becomes a family pattern, which is painful in many ways.”

At age 34, Fernández returned to Cuba for the first time, to research the actual places in his book. He also returned to reacquaint himself with a Cuba he had barely gotten to know, other than through the culture of his parents.

“When I arrived at age 34, I felt uncannily at home. The smells, people’s accents, the skies, the architecture. It was almost as if I had never left,” he said. Fernández was familiar, too, with a Cuban dark sense of humor referred to as El Chopo, and with the meals that centered so much on rice, black beans, and croquetas.

After his initial visit, Fernández returned to the island twice again to visit the Backhouse family site, remaining for three weeks at a time. He also had an opportunity to see family, and the house in which he was born. “It was an incredible journey of self-discovery,” he said.

Through his grandfather, Fernández received stories of his family history, priceless gifts.

“He began to speak and tell me the entire family history. He went on and on. And I realized how lucky I was. He was giving me the keys to the family archives,” said Fernández. Returning to Cuba and writing the book also gave Fernández the chance to finally call himself a Cuban.

“It wasn’t until I went to Cuba that I was able to realize—that is what I am,” he said. “There were certain traits of Cuban society I recognized as my own, and then I developed a strong love for that country.”

“While some people view history as dry and textbook-like,” Fernández sees it as an opportunity to be creative.

“Reality is sometimes very dramatic and poetic,” he said. As an emigrant forced to retrace his Caribbean roots, Fernández recognizes the importance of including people’s personal stories in the telling of history.

“History has become very grotesque,” he said. “You need to remove from storytelling humanity.” He wrote it [Fighting Slavery in the Caribbean: The Life and Times of a British Family in Nineteenth Century Havana] for people who like not just history, but stories.

Alas, Fernández’ family in Cuba will be unable to read his book—it is not easy, though his grandfather read his last book, Torment Between Empires: Economy, Society, and Patterns of Political Thought in the Hispanic Caribbean, 1800-1870, from cover to cover, with the aid of a Spanish-English dictionary.

Fernández expects that the same will happen with his recent book, published only in English. It considers himself blessed to finally receive tenure at Rutgers, a symbolic act of anchoring his ship for life. As a historian of Latin America and the Caribbean, however, he will never have to leave behind his multiple roots.

“I feel an enormous privilege be an historian and embark on these dual journeys of self-discovery and historical research,” said Fernández. “I went to Havana to finish two stories—one of them is mine. One I will pass on to my children.”
Klor de Alva: Changing the Rules

Anthropologist Turns Futurist at University of Phoenix

BY
ADALYN HIXSON

Jorge Klor de Alva is instantly endearing. He opens his HO interview with: "By the way, I like that magazine very much: for me it's a good way to keep up with a good number of friends and colleagues that I lose track of.

Having read that he is smooth as a glass of fine wine, HO asks if the University of Phoenix, the high-growth, adults-only, for-profit institution of which he is the new president, will be moving into France. "Well, not necessarily France," he says. "We are certainly thinking about opening up in the Netherlands and in Germany. Down the road we would like to open up elsewhere in Europe and Asia."

The university is already situated on six campuses in Arizona, nearly two dozen in California, four in Colorado, two in Nevada, four in New Mexico, three in Utah and Florida, and at least one each in Hawaii, Louisiana, Michigan, and Puerto Rico.

Born in Mexico, from which he moved at age 10 to California, Klor de Alva earned a bachelor's degree in philosophy in law degree at UC-Berkeley, which decades later granted him the endowed chair that he vacated to take on the post at the University of Phoenix. He had earlier left a tenured post at Princeton to join Berkeley.

HO asks why he didn't pursue law after getting a degree in it, "I guess more than anything else," said Klor de Alva. "I found it a bit too boring in comparison to the academy." Academia, he said, was much more exciting than the field of law. "I had hoped it would be more interesting as a practice, but my soul was more commited to the academic side."

It is that very commitment that is being challenged in some quarters, according to an interesting story about him this past summer in the Chronicle of Higher
Education. Certain traditionalists, it seems, are clutching their pearls or dropping their monocles over what they see as Klor de Alva's abandonment of the ivied ivory tower for the corporate board room and the implicit worship of the bottom line.

The University of Phoenix is, after all, part of a corporate entity, the Apollo Group, Inc., that is traded on the market, as APOL on NASDAQ.

Wondering what changes are encountered in a shift from elite professor to university president, HO asks Klor de Alva about his new post and his current perspectives on academic traditions, alternatives, and administration.

A Day in the Life

"My day is very busy," he says, "because it covers everything from lecturing—I lecture quite widely—to organizing new programs to, obviously, keeping an eye on the operations and business side of it, to reorganizing all of the academic side of the university.

"We are reorganizing into schools with deans. It's a wonderful group of people. A wonderful opportunity.

"One of the main reasons I left the traditional academy was to take an opportunity to—in a really meaningful way—transform the lives of a lot of people."

HO asks why so many colleges and universities seem slow to recognize the potential of the adult market, especially given that adult students might be more motivated and thus more inclined to succeed—easier pickings, as it were—and certainly in need, given the downsizing and decline of manufacturing in recent decades.

"To summarize the problem," says Klor de Alva, "I think that administrators in most of these schools really appreciate the dramatically changing nature of the student body and the transforming needs of the student body and generally the economic and social needs of the society. However, although they are willing to move forward in ways that would create appropriate responses, it is extremely difficult," he says, "to get the support of their tenured faculty members, all of whom essentially see themselves as self-employed people whose focus is their particular research and particular teaching rather than the broader agenda."

"It is very difficult," he says, "for enjoying each other's friendship— for 27 years or so. It started at San Jose State University. He was teaching there when we met, and essentially he had just begun to investigate the process of adult learning. And he was extremely interested—always very socially conscious—in making education very accessible to a larger body of people. And I worked with him on the Right to Read Program to bring Latinos onto the campus. And then he began to teach humanities pro-

I love the academy and I love education and I have enjoyed my life immensely teaching students, and many, many, many, at Princeton and Berkeley, have been minority students, and I absolutely love being able, in particular, to teach them."

Jorge Klor de Alva

Market Myths

"Let me begin by pointing it out something that is very important. The idea that we are competitors is a myth grown primarily out of ignorance about the demography of both the traditional institutions and the University of Phoenix. If you look at graphs of the student body we serve and the study body served by public and private institutions, it is clear that our students are generally students who would have never gone to school except for us. Or who are now going to schools—traditional schools—as a consequence of us. We have opened up the idea of a lot of people that they can go back to school—that it is possible.

"After our success, practical every institution is trying to imitate what we do in order to access the adult education market.

"The point I was making was that many of the adult students now in traditional schools who are there in areas where we operate, are there as a consequence of our own existence. If anything, we either increase the number of students in traditional institutions, or we access a totally different student body. Our interest is in making education accessible. We want to figure out the way to make quality education accessible to the wide number of people, directly opposed of elitist and exclusive institutions that are figuring out the way keep people out.

"The point I want to underlie once again, is that we really don't compete with these other institutions; we are creating a whole n
market. To put it in more precise form, the traditional institutions are taking market share from us, and vice versa, because we have been the ones creating that new market.”

The ABC and XYZ of It

“This university was founded primarily by people who were involved in the humanities. John Sperling was a professor of humanities—both of us with a liberal arts education—I studied Latin and law, history and theology. You couldn’t get a more liberal arts education than that. But we are completely committed to the idea that you can expand or nourish a mind in critical thinking skills and other kinds of skills while focusing on a content that an adult student needs and is looking for and wants in order to advance in life.

“And now that we have developed a school of general studies, we are in fact teaching many courses in the liberal arts that are focused on the adult learner. And we are in fact beginning to think very seriously of putting a whole B.A. program together in general studies. Right now we have it as a broader breadth requirement, before beginning to major in business or whatever that might be.

“We also have the largest degree-granting program online in the United States. Almost 5,000 students and growing at about a 65 percent rate, with a course completion rate of 95 percent. And a graduation rate of 65 percent. That is overwhelming.

“The way we do it is that we have spent a lot of time and money figuring out how to do it. We have come to the conclusion that the way it works is a cross between how the Jesuits and the Marines train. Highly disciplined and aimed at success.

“It is rigorous. Very straightforward. Almost zero tolerance for absences. Zero tolerance for lack of participation. You MUST participate. The thing about business education well taught online is, it forces everyone to be on the first row. That is a phenomenal thing.

“Not surprisingly, in the exams that we give to both our online and our classroom students, our online students score significantly higher in all areas, even though our on-the-ground students—classroom students—are all in seminars.

“The intensity of online business education well done, as we have done it, is just phenomenal. These folks are interacting on a daily basis with both faculty and with fellow students. They are working not only as a class together, but they are also working in small study groups. Three students, and the classes are nine students to a faculty member. Online classes are asynchronous—not in real time—meaning they can access each other 24 hours a day seven days a week.

“Students can do their work at anytime. In the middle of the night—whenever they can eke out the time. At a hotel. Almost all of our students online are in the middle to upper-management level.

“No small part of what we do is serve the employers of our students continually, and our faculty is a practitioner faculty. 4,000 practitioners faculty members, which means that they must be employed in the field in which they teach. We are able to capture people who are most up to date, and put them through pretty rigorous training. Unlike the traditional university that does not hire people on the basis of their capacity to teach nor on the fact that they are trained to do so.”

Remedial Education

“Remedial education is something I discuss extensively and that we obviously think a lot about here. I believe quite frankly that remedial education is a field unto itself. And that a lot of money and a lot of very important research has gone into developing very good ways to approach it. And a lot of it has been done on the for-profit sector side. And I believe that we may easily discover—and I think that this is the case—that the private sector can provide a lot of the remedial education more efficiently and more economically than can the public institutions, and that the public institutions should really be focusing on what they do best, which is all of

"But we are completely committed to the idea that you can expand or nourish a mind in critical thinking skills and other kinds of skills while focusing on a content that an adult student needs and is looking for and wants in order to advance in life.”

Jorge Klor de Alva
the various academic fields for those 18- to 20-some-year-old students.

"But I do think at the remedial level, from what I am seeing from some of the private companies, what they are managing to do is just phenomenal."

Students Changing

"I taught from '71 to '96, and in that time, I saw such a sea change—actually a number of sea changes—in how students think. In the '70s and into the '80s, you spent a lot of time teaching them how to see through things. Nowadays a lot of students have no difficulty with that. They have difficult seeing the thing rather than through it."

Faculty Role in Moral Leadership

"Moral leadership? What a fabulous question. I don’t have the time to answer this one. But for the most part, the liberal arts there has been a kind of loss of the belief on the part of many faculty members that they have moral responsibilities with regard to the education of their students. I really do believe that. I have seen it over and over again, in colleagues and acquaintances across the academy.

"I think that an erroneous idea exists on the part of many faculty members that they don’t have a responsibility for helping to shape the moral core of the students that come before them. And I think that is incorrect. I think that is a very fundamental part of education.

"I’m going to give you an example. It is very difficult today to find faculty members who are willing to criticize in a profound sense the positions that students take and thereby to kind of give guidance or to open up the possibility of seeing things from many, many perspectives. There is a tendency to see things from a much more narrow perspective, whether on the right or on the left, and much less the idea of the academy as a place where you debate these issues and try to assist students in figuring out what positions are best with regard to the things they must take a position on. A kind of cynicism arises. This fosters narrow thinking rather than formulating critiques and analyzing things. The academy has taken teenage cynicism and transformed it into the way things are rather than as a point in one’s life—to be considered and criticized.”

What Can Academia Learn from Business?

"In terms of practices, there are a million of them, the most important of which is that universities generally do not put much emphasis on customer service. Faculty essentially assume, once again, that they work for themselves or the university rather than working for the taxpayer; therefore they don’t ordinarily focus on the taxpayer.

"At the University of Phoenix, we consider ourselves to be student-centered. Almost all issues begin with students. Consider the faculty.

In Brief: Jorge Klor de Alva

Born in Mexico, came to U.S. at age 10.

1971 B.A. Philosophy, UC-Berkeley
1971-82 Chairman, Department of Mexican American Graduate Studies, Asst. and Assoc. Professor of Philosophy/Humanities, San Jose State
1974 J.D. UC-Berkeley
1982-89 Associate Professor of Anthropology and Latin American Studies, SUNY-Albany and Director of the Institute for Mesoamerican Studies.
1980 Ph.D. Anthropology/History, UC-Santa Cruz
1989-94 Professor of Anthropology, Princeton University
1991 to present Board member, University of Phoenix and Apollo Group, Inc.
1994 The Class of 1940 Professor of Comparative Ethnic Studies and Anthropology UC-Berkeley
1996 VP of Business Development, Apollo Group, Inc.
1998 President, University of Phoenix, Senior VP.
Apollo Group, Inc.

University of Phoenix

Founded 1976 by John Sperling
50,000 students currently (largest private university in the U.S.)
65 campuses and learning centers
13 states, Puerto Rico, and British Columbia
Accredited by the North Central Association of Colleges and Schools

research and teaching in the best way possible, and in order for us to advance as a civilization, in research in human social behavior—for example, homosexuality within the church—that requires freedom and that requires protection. But the overwhelming number of faculty in the U.S. don’t do research, and because of that, because they are primarily focused on teaching others and not on research, they are not the ones who need that kind of protection.

"In the meantime, that is not to say they don’t need important contractual protection. I do believe they need contractual protection, and they need to be treated with all of the rights and privileges and responsibilities that come with the serious contractual relationship that you would have whether working with IBM or the University of Akron. But it doesn’t necessarily mean that just because one happens to be a teacher, one needs the kind of tenure that forces one to be uninnovative as opposed to the kind of tenure that would make one innovative. At its heart, tenure exists because you want a professor to be innovative—to be challenging—but what tenure has done for the most part is make faculty very conservative. Toing the line you begin to focus on the protection of tenure rather than the protection of what it is that tenure supposed to be protecting—freedom in your inquiry.

"At most research institution where you have the majority of the intellectual production taken place, tenure is just not a very big issue, because people who are there assume that they wouldn’t fired anyway, that they are productive people that nobody in any business would want to fire.

"Preoccupation with tenure comes as you move down the rank and people feel that they would be at a greater risk of being fired. That point a meaningful contra
would be all that would be necessary, without leaving administrators with the burden of being unable to address student needs rather than faculty needs—to move resources around.

"Right now, what happens when students decide en masse that they are going to be economists? What are you going to do when you don't have the money to bring in more professors, and the ones you do have are all in fields that students are not much interested in any more? In that sense, tenure makes the faculty members quite conservative."

**The K-12 Pipeline**

"I co-chaired with Nathan Glazer the commission responsible for redoing the social studies curriculum of the State of New York. I published textbooks from kindergarten to 12th grade, including two history textbooks that now are becoming dominant. I have actually spent a lot of time in the K-12 area, both as a textbook writer and heading up the commission to modernize education.

"I wrestled with K-12 issues quite extensively. For instance, the school-to-work transition and what alternatives should be made available to students who are disenfranchised as opposed to dropping out. It is a complicated one. I am a very firm believer that schools should be community-centered—what schools should be able to address, as is happening now in some charter schools, particularly charter schools where the private sector is assisting--the school to transform itself into a full-service institution, everything from education to welfare, to medical needs, through employment training needs, so that education is really taking into consideration the whole family."

"What I'm saying might be totally irrelevant in another sector, but not in some urban schools and semi-urban schools. I have done a lot of consulting on gang activity. In the past, it's part of what has driven my idea in linking up welfare systems and medical systems and employment systems within a community matrix that includes the school, so you are using the facility 24 hours a day, making the facility available when people can actually get there rather than have them miss work. I guess salary—usually hourly wages, and where you can have counselors who are addressing the whole family situation rather than just the fact that the kid is being truant or what have you, which is obviously symptomatic of much more."

**On Mentors**

"The long and the short of it is that I have been very fortunate in my life to have wonderful mentors who really took me under their wing—beginning with a mentor from Stanford who was a mathematics professor at my high school. I went to a special math program. I worked with him 5 or 6 years. Following that, I had a wonderful mentor in the School of Law, and ultimately in my graduate work."

**POST SCRIPT**

"I love the academy and I love education and I have enjoyed my life immensely teaching students, and many, many, many of Princeton and Berkeley, have been minority students, and I absolutely love being able, in particular, to teach them."
University of Texas at San Antonio  Youthful Vigor and Noble Vision

BY ROGER DEITZ

In the heart of Texas, there is a youthful university with Texas-sized plans for serving its urban constituency. Established in 1969 as the city of San Antonio's comprehensive four-year public university, the University of Texas at San Antonio (UTSA), a component of the University of Texas System, has adapted quickly to become one of the nation's most innovative metropolitan universities. In terms of Hispanic enrollment, UTSA is among the nation's top five universities. Hispanic students account for more than 40 percent of the total enrollment, and better than half of UTSA students come from underrepresented groups. But it wasn't enough to merely welcome underrepresented students to come to the university. Its administrators brought higher education closer and closer. The university made a commitment to a higher-profile presence in the downtown area where many of the targeted students and their families reside.

Since 1994, UTSA has constructed four major buildings, including the first phase of a new Downtown Campus. The second phase of construction should be completed this fall. And a health, wellness, and recreation center will be built by the year 2000. These aggressive initiatives bring the American dream to the doorstep of each and every potential learner on its turf, for which we award the University of Texas at San Antonio a spot on the Hispanic Outlook Honor Roll.

President Samuel A. Kirkpatrick says that comprehensive metropolitan universities like the University of Texas at San Antonio need to work hard to meet a new set of public needs and expectations. Kirkpatrick reports, "Many students are the first in their families to seek
higher education, and many are economically disadvantaged."

"They do not lack ability," he stresses; "they lack experience and advantage." The UTSA president says. "To help ensure that these students are given every opportunity to succeed, we are implementing initiatives to improve retention and move students through their academic programs in a more timely manner. The school is also working with donors to provide scholarships to increase access and ease employment demands, enabling students to focus on their studies."

The president observes that the effort to build the Downtown Campus on eleven acres at West Durango Boulevard and South Frio Street is of "particular importance" and that the Downtown Initiative is part of UTSA's historic sharing of common goals with civic leaders, private and public sectors, and educational institutions at all levels.

The University of Texas at San Antonio celebrated its 35th anniversary in 1994. The institution was created by a mandate from the 61st Texas Legislature in June 1969 to be a university of the first class, offering bachelor's, master's, and doctoral degrees as are customarily offered at leading American universities. When UTSA was established, San Antonio was the only major city in the region not served by a public university. The first class of 671 graduate students was admitted in June 1973; upper division undergraduates were admitted in September 1975; and lower-division undergraduates were admitted in June 1976.

The first commencement ceremony was in August 1974. UTSA now offers 50 undergraduate degree programs, 31 master's degree programs, and two doctoral degree programs. There are 387 tenured and tenure-track faculty and a total full-time and part-time staff of 2,721.

Nearly two-thirds of the new faculty hired in the last four years have been women and minorities. Ninety-nine percent of tenured and tenure-track faculty hold a doctorate or terminal degree in their
fields. Forty-one UTSA faculty have won Fulbright Fellowships to teach and conduct research in foreign countries. UTSA is in the top 50 percent of public universities in the state in research expenditures.

UTSA is one of the fastest-growing universities in the state. Last fall, enrollment was 17,694, and it is projected to reach over 20,000 by the year 2000. The university's growth in Hispanic students places it in the top nine of all Hispanic-serving public universities in the continental United States. Space on both campuses now totals more than 1.8 million square feet. Several new facilities, including a second building at the UTSA Downtown Campus, are being constructed.

Students from South Texas and the Rio Grande Valley have come to UTSA in increasing numbers in recent years. More than 30 percent of UTSA students come from outside Bexar County. The University of Texas at San Antonio has more minority students majoring in the sciences than does any other institution in the UT system. By 2010, it is estimated that 33 percent of all UTSA students from underrepresented groups will be enrolled in the critical fields of science, engineering, business, and teacher education. Overall, UT-San Antonio ranks seventh nationally in the number of bachelor's degrees granted to Hispanic students and 22nd in the number of master's degrees. UTSA was ranked fifth of 35 senior Texas public universities in African American enrollment gains and first statewide in the number of Hispanics enrolled for 1999-1994. Minorities studying at the institution are likely to be the first in their families to pursue a college degree.

Hispanic Outlook's own survey data show that for the second consecutive year, the University of Texas at San Antonio leads the nation in the number of undergraduate degrees in the biological sciences awarded to Hispanics. The new $18 million biosciences building should serve these learners well. With its colorful combination of ancient Mexican folk symbols set against the more precise images of science, the art and architecture of the Biosciences Building are as unique as the learning and research that will take place within its walls.

The Biosciences Building was designed by the San Antonio firm of Kell Muñoz Wigodsky to express the concept of mestizo regionalism, defined as a mix of culture and architecture found in the U.S.-Mexican borderlands. John Kell and Henry Muñoz chose the votive candle as their primary icon for the project. The votive, evoked in the tower of creamy Texas limestone, faces south and serves as the public entrance to the building. Muñoz explains, "The votive candle is a symbol of hope, and we hope that students from South Texas, especially minority students, will see that there is hope for them—a place for them—in the sciences." Approximately 1,900 students pursue life science degrees at UTSA. Rey Elizondo, dean of the College of Life Sciences and Engineering, predicts that number should soon grow to 2,500.

Part of UTSA's success in enrolling students in the sciences is due to the university's involvement in numerous community outreach programs aimed at the population of San Antonio and South Texas. The UTSA Alliance for Education, for example, provides leadership in education reform of the public schools in San Antonio and supports university faculty involvement in public education. The Pre-freshman Engineering program identifies high-achieving middle and high school students with the potential for and interest in becoming engineers and scientists and reinforces their pursuit in these fields.

The UTSA Downtown Campus has been in operation since January 1994 at its temporary Cypress Tower location and since 1999 at its permanent site on Durango Boulevard. Its mission is to offer bachelor's and master's degree programs in historically underserved areas; provide professional development and career advancement for adult learners; identify solutions for rapidly changing public sector needs; provide management and technical assistance for business entrepreneurs; foster expansion of the region's economic infrastructure; support technological and international growth; provide research and service to support teachers and transform schools; conduct public policy research; foster urban creativity; and enhance cultural enrichment opportunities. The Downtown Campus offers the Core Curriculum and programs or components of programs leading to bachelor's and master's degrees in a variety of fields. A broad range of undergraduate and graduate courses are provided in the humanities, social and behavioral sciences, education, and business.

President Kirkpatrick observes, "Helping students find ways to learn in an age when information is vital and vast will be a noble calling. The exclusionary, gatekeeping university is one of the past."
Adolfo Gamez: Lion and Lamb Untiring Activist on All Fronts

BY ADALYN HIXSON

"Homero López and Reyes Medrano and Ricardo Provenzano—they taught me directly and indirectly the importance of learning the political system, the education system, and how a person could do a lot of good once that person was within those systems—never forgetting that there are people who need help in terms of opening those doors of opportunity, whether education opportunity or work opportunity."

ADOLFO GAMEZ, SPECIAL EDUCATION SERVICES COORDINATOR, ESTRELLA MOUNTAIN COMMUNITY COLLEGE

"I think he is the most honorable and unselfish person that I know, and I consider him a perfect husband."

That's what Tina Gamez tells HO about her husband, Adolfo, special education services coordinator for Estrella Mountain Community College. And the mayor of Tolleson, Ariz. Mrs. Gamez also enumerates dozens of committees, organizations, and task forces he has served on or led, and awards that include Citizen of the Year, Volunteer of the Year, Educator of the Year, and Lion of the Year. The one he is most proud of, she says, is a tribute from students in the M.E.Ch.A. Club that concludes with: "We hold you very dear in our hearts for allowing us to grow..."

Last spring, Gamez was an Outstanding Employee by Maricopa Community Colleges Foundation, an honor that came with it the right to name and criteria for a $1,000 scholar Gamez named it for his late father, Guillermo F. Gamez.

"My father only went to third grade," says Gamez, "but I always knew that education was the key to success—always emphasized in our family.

"The scholarship is open to M.E.Ch.A. students. M.E.Ch.A student movement of the South dealing with social education and economic issues: these students learn the political system, the education system to get involved, how to give back to the community. It helped me when I was in college."

Gamez attended Glendale Community College and has three people on the Glenda as having had a profound effect on his life.

"Homero López, president of the college (Estrella Mountain Community College), was dean of admissions at G Community College. He and Medrano and Ricardo Provenzano taught me directly and indirectly the importance of the political system, the education system, and how a person can do a lot of good once that per..."
within those systems—never forgetting that there are people who need help in terms of opening those doors of opportunity, whether education opportunity or work opportunity.

"Knowing these systems makes it easier to get people in. With hard work, sacrifice, dedication—once they enter those doors...But they have to live to those standards. Otherwise, it's not going to happen."

Reyes at the time was financial aid director and Ricardo was a counselor. They took me under their wing, and I was their gofer. They'd be talking politics and strategies—what would we get? What classes do we need? I never forgot.”

After earning an A.A. at Glendale, Gamez attended Northern Arizona University and received a bachelor of science in history, with a dual minor in psychology and sociology.

“I took the history of the Southwest. Actually some Chicano history. I used to go to that class and come out very angry. I would come out angry because of what they didn't teach us in high school. It was always one-sided. You learned the other side.

"History is history. Study it all. In its entirety. Not just what you want us to learn and forget about what happened. Let us form our own opinion. College gives us that opportunity to open up our minds and learn facts and have a dialogue with people and get to understand that there is a lot more to life than the one thing that you were taught. A lot of that should have happened in high school." He mentions high school counselors who steer students into vocational tracks.

Adolfo Gamez has been with Estrella Mountain Community College for seven years. Homero López, president, calls him "a community catalyst" who "contributes to the Maricopa Community College District mission on a daily basis by living the mission in all of his professional relationships." Earlier Gamez was a social worker for the Tolleson Elementary School, working, his wife said, with a good number of migrant families. His commitment to the helping professions, both within his career and on his private time, has been lifelong. Asked at what point in life he said to himself, "This is what I want," he answers HO in an instant.

"When I was 16 years old, I knew that I'd come back and get involved in local politics. A lot of things weren't happening in our community. For a young person in Tolleson, there was nothing to do. There was no place to go. No YMCA, no Boys and Girls Club. We didn't have any type of extracurricular activity other than baseball in the summer. We just hung out in front of Pete's Fish and Chips, a local restaurant, or in front of Dave's Liquor Store.

"We needed things to happen. We needed things to change."

Gamez and his friend James Cardona made an agreement that they would someday work toward that change. Cardona has since moved from Tolleson, but he did serve on its council.

Tolleson is about eight miles from downtown Phoenix. Its population is 60 percent Hispanic. Gamez, a member of the city council for 17 years, was elected mayor three years ago. That turf include: working on homelessness, anti drug campaigns, pensions for fire fighters and police officers; attracting business; supporting the arts and championing education always education.

HO asks Gamez for his thought on college recruitment. "Recruitment is ongoing. I think that by where I live and how I live and again how I treat people. How I relate with people. It is recruitment—role modeling, live that recruitment. It is a way of life."

"My recruitment motto is: If can make it, anybody can make it."

"A lot of these kids need some body to look up to, a guide, and think I serve that purpose."

"I took the history of the Southwest. Actually some Chicano history. I used to go to that class and come out very angry. I would come out angry because of what they didn't teach us in high school. It was always one-sided. You learned the other side."

ADOLFO GAMEZ

There are a lot of success stories I can tell you about kids in Tolleston who didn’t think they had the tools to become a success. We spoke with them on a one-to-one basis. You might not have the skills right now. Maybe Spanish is your first language, and that gets in the way. Maybe your study habits are not what they should be. You have no place to study. Ten kids. I went through that. I used to hand in my homework with chorio stains on it.

“Come to Estrella. It doesn’t matter that you might be 200th in the class of 200. We are going to help you get those skills. We are going to help you get that confidence. And once you have these, you will be able to compete at any university.”

HO asks him what he thinks of the reported attacks on remedial education within New York City’s colleges.

“I can’t speak for New York, but if I were to go back and look at some of these leaders of today in Arizona, very prominent political leaders, I can be you money that they started in those types of classes, and for a political system to say, we don’t need this, that’s not where it’s at!” Gamez says they should instead be asking, “Where are we failing? Why isn’t this elementary school, this high school, producing the caliber of student that we want?”

“If we get them and they are not ready, are we supposed to close the doors on them? We need to make it part of recruitment—it doesn’t matter if your skills are down here. We can help you.”

Gamez tells HO that students from eight or nine feeder schools are tested in the spring, and “sad to say, 50 to 60 percent of them are in remedial classes. And we deal with this.

“Not only are we producing students not ready for college. When they graduate from high school, they are not ready for the job market. They cannot fill out an application. They cannot communicate. How can they compete?”

“For the jobs we have locally, it is a serious problem. If it is happening in New York, it is a national crisis. And we are trying to address it.”

Gamez was a key member of the Public/Private Partnership, which supported the sitting of the SouthWest Skill Center on the EMCC campus, and identified $600,000 in support of the effort.

Asker to describe the center, he says it will be a nontraditional college where a student can get a GED and get training in office equipment to become a secretary, or an LPN, or a meatcutter, a welder, an auto body repairperson. Each of the trades areas has a set number of clock hours to be earned in order to become certified.

“So we will have two institutions—the skill center and the college itself. It was community mandated and is intended to serve, he says, people from age 16 to 103.”

“People that industries are downsizing—those people have to get re-trained.” And about 50 percent of students who go to a skills center, he says, will cross over and go to college.

Asked about the upside and downside of being a mayor, Gamez says the upside is that “one person can make a difference in the life of a family or a community, and I think I have had something to do with our community being a better place,” which was his goal at age 16.

“The downside is that your private life is interfered with. You have even a little bit of love for people, especially people that you know have had a hard time and have been treated unjustly, it is hard to turn away and not help them. I have lived here all my life. I know them. I know they aren’t lying to me when they say they need help.

“I remember needing help. I remember when my father was an irrigator—we had weeks of rain, we had social agencies visiting—people giving us food. And I remember my first bike. I got it through the Community Action Program.”

Because Adolfo Gamez, both at the college and in his work in volunteer capacities, must conduct a lot of his work in groups, HO asks him for his thoughts on committees.

“I say, if we are going to have a committee, we are going to do something, so roll up your sleeves.

“Wasting time? I say, I like you guys, but I don’t like you that much. Get your act together or I’m not coming.”

Gamez, who co-chaired last year’s United Way Campaign, netting more than $79,000 in contributions from EMCC faculty, staff, and students—high in the Maricopa District, does not seem to tire of good works.

He speaks with enthusiasm about Vision 2025, a committee of 80 highly diverse members asked to imagine how Maricopa County is going to look in 2025 and to project the issues that will arise around transportation, air quality, water quality, recreation, housing, and more. He finds it more interesting than daunting that the diverse members have diverse ideas, too, about everything related to the project, including how to run the meetings.

HO asks Tina Gamez, a composer for Sun City’s Daily News, and described by her husband as very understanding and his best friend, if she ever joins him in his work. The answer is yes, once a year. They both work on Tolleston’s Thanksgiving Day dinner, held for more than 20 years, open to all, and lately serving about 1,500 people.

It wouldn’t be surprising if one of the things they give thanks for is Adolfo Gamez.
Bilingual Education
Some Reflections on Proposition 227

BY RICARDO J. CORNEJO

It is axiomatic that the best medium for teaching a child is his mother tongue. Psychologically, it is the system of meaningful signs that is in his mind works automatically for expression and understanding. Sociologically, it is a means of identification among the members of the community to which he belongs. Educationally, he learns more quickly through it than through an unfamiliar linguistic medium. (UNESCO. The Use of Vernacular Languages in Education. Paris: UNESCO, 1953.)

BOARD OF EDUCATION LETS DISTRICTS CHOOSE METHOD

Background: The Golden Age of Bilingual Education

The Bilingual American Education Act. Not just an act, but an American bilingual act. I remember having attended a hearing in Texas, while a Ph.D. candidate at the University of Texas in Austin. Sometime in the fall of 1968. There was a feeling of euphoria all over the place: the Civil Rights Movement had been mostly a Black/White issue, so when Congress passed the Bilingual Act in January 1968, it was considered a major milestone in the fight for equal education for Hispanic children in America.

The passage of the Act was a major milestone in America’s journey toward equity and equality in educational opportunity for all children.

The Act stated: In recognition of the special educational needs of the large numbers of students in the United States whose mother tongue is Spanish and to whom English is a foreign language, Congress hereby declares it to be the policy of the United States to provide financial assistance to local educational agencies to develop and carry out new and imaginative elementary and secondary school programs designed to meet these special educational needs.

Very strong words, considering the usually circumspect and guarded tone of legislative documents: Spanish-speaking children to whom English was a foreign language."I think that this phrase personifies the whole bilingual education movement: Spanish-speaking children in America were being taught in a foreign tongue.

Also, contrary to repeated statements, the Act provided for programs in both elementary and secondary schools.

A bold idea for the time!

Eventually, several states, such as Massachusetts, Illinois, New York, Texas, and California, among others, passed their own bilingual education acts.
implementing regulations of the Department of Health, Education, and Welfare...."

The Supreme Court discussed the various details of the case and finally revised the decision of the Court of Appeals, which had rejected the request of the Chinese parents:

"Simple justice requires that public funds, to which all taxpayers of all races contribute, not be spent in any fashion which encourages, entrenches, subsidizes, or results in racial discrimination.

"We accordingly reverse the judgment of the Court of Appeals and remand the case for the fashioning of appropriate relief." (Supreme Court of the United States. Lau et al. v. Nicholas et al. Argued December 10, 1973 - Decided January 21, 1974.)

Also in 1974, the U.S. Office for Civil Rights developed guidelines known as the Lau Remedies. They provided specific recommendations for the implementation of the bilingual education mandate. At that time I had come to do research on bilingual education at the Center for the Study of Evaluation at UCLA, and participated in this massive training of teachers to prepare them for teaching linguistically.

In the late 1970s, I participated in the drafting of the Research Agenda for Bilingual Education, which led to the creation of research, assessment and development centers, university Ph.D. programs in Bilingual Education, and systematic development of bilingual curricula. The time from 1967 to 1980 I consider to be the Golden Age of Bilingual Education.

The Dark Ages Emerge

But Bilingual Education had very strong detractors. There has always been a significant number of "patriotic Americans" who feel that all children should be taught in English only. It is also very well known that, particularly in California, there has been a pervasive anti-immigrant feeling, which was exacerbated in the early 1990s by an economic crisis. Immigrants, not just illegal immigrants, were blamed by politicians ranging from the governor to obscure "wannabes" for all kinds of ills that were undermining the California economy.

Thus, the land was fertile for the appearance of demagogues posturing and campaigning toward the elimination of Bilingual Education. And hrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrr
A LOOK AHEAD • Amid debate over bilingual education comes supportive research from L.A. Unified and Tomas Rivera Policy Institute. But with critics calling research seriously flawed...

Opinions Vary on Studies That Back Bilingual Classes

By Amy Pyly, Times Education Writer

As the debate over bilingual education rumbles toward a spring ballot initiative, two studies scheduled to be released today land on the side of teaching children in their native language first, then gradually switching to English.

However, critics of bilingual education and even some supporters raised questions about the studies:

One by the Los Angeles Unified School District, focuses on students who remained at the same elementary school from first through fifth grade—a stability that is unusual in the state's largest school system.

When the 4,200 students were given standardized English tests in fifth grade, those who had come through the native language bilingual program fared better than those who had been enrolled only in tailored English classes known as English Language Development.

The other study, by the Claremont Colleges-based Tomas Rivera Policy Institute, registered a similar gap based on a survey of 11 previous studies of bilingual programs across the country.

A Parental Exception

"The requirements of Section 305 may be waived with the prior written informed consent, to be provided annually, of the child's parents or legal guardian under the circumstances specified below and in Section 311."

This means that thousands of parents all over the state would have to be informed and come to schools to sign waivers, every year!

But where are the choices?

"Such informed consent shall require that said parents or legal guardians personally visit the school to apply for the waiver and that they be provided there with a full description of the educational materials to be used in the different educational program choices..."

I wish this were that simple! First of all, most immigrant/refugee parents are not fluent in English. Second, "informed consent" both in educational research and in medical treatment of mental patients, has been found to be abused by the institutions using them. Thirdly, there are no "educational materials" in "different educational program choices." This is simply false advertising.

Adults Teaching Children

"...the state shall encourage family members and others to provide personal English language tutoring to such children, and support these efforts by raising the general level of English language knowledge in the community."

Everybody who has been, or encountered, immigrant/refugee families knows that it is the children who first pick up the new language. Also, some adults never learn the new language. Thus, to expect adult immigrants to tutor their children in the new language is a little bit unrealistic, to say the least.

THE LONG ROAD TO JUNE 2ND

In October 1997, the California Teachers Association announced its opposition to the initiative. Its president, Lois Tilton, was quoted by the media as saying, "Students do not come in 'one size fits all containers.' They are individuals and they need instruction built around their individuality."

The media release also stated that the union could make a major impact because it could "call on 270,000 members to help raise money and volunteer for campaigns."

In 1997, there were about 1.4 million limited-English speakers in California's public school. Of these, approximately 70 percent were taught mostly in English. The other 30 percent were receiving bilingual instruction.

A simple way to determine the impact of Bilingual Education
would have been to randomly select a group of students who received bilingual instruction for a pre-determined number of years. Let’s say three years, from 1993 to 1996, and compare them to a comparison group from classes being taught in English only. The two groups could have been compared for graduation rates, GPA, in math and reading, absenteeism, and citizenship. This type of research would have provided baseline data for further refining of the assessment process.

**Political Maneuvering**

In April, 1998, the California Assembly approved a bill, sponsored by Senator Dede Alpert, to revise Bilingual Education instruction in the State. The main emphasis of the bill was to give local school districts greater flexibility in implementing their bilingual programs.

In 1997 the bill had passed the California Assembly, but it had been derailed by the Latino caucus. Now, with the sinister shadow of Proposition 227 looming over everybody’s head, the Alpert bill looked quite appealing.

**The President and the Proposition**

On Monday, April 27, 1998, the White House and the U.S. Department of Education informed the nation that President Clinton would make a statement, through Education Secretary Richard W. Riley, opposing the Proposition.

All breeds of political opportunists started to hitch their wagons to the bilingual train, to push it harder into the abyss. House Majority Whip Tom Delay (R-Texas) stated that he would introduce a bill to eliminate the Education Department’s Office of Bilingual Education, and distribute its entire $200 million budget to other more worthwhile programs in the department.

Great! Since we are in the mood to eliminate everything that we feel is not doing its job, let’s eliminate Congress, since quite a few of its members have been involved in corruption!

**The SAT Achievement Test**

Last year Governor Pete Wilson mandated that all students in California be tested in math and reading. The testing would be done only in English.

Many people in California have considered this mandate as another example of the drive against immigrant children: by testing them only in English, the Governor made sure that they would score very low.

Schools with high numbers of non-English speakers would be exposed publicly. Americans whose children attend those schools would turn against those children who make the schools look bad in the eyes of public opinion.

**President Clinton in California**

On Friday, May 1, 1998, President Clinton spoke publicly against the Proposition at a fund-raising event in Palo Alto:

“What we are going to try to do at the national level is to develop a program with a presumption that no one should be in these programs for more than three years—but that we have to do more to make them mean something.”

**Governor Wilson and the Proposition**

On May 4, 1998, California legislators sent Senator Alpert’s Bill to Governor Wilson. The California Senate had just given its second and final approval to the bill by a vote of 21 to 13.

As said earlier, this bill would have given school districts the option of designing their own instructional programs; they could have chosen the immersion approach, they could have stayed with the traditional transitional approach, or they could have tried other innovative programs... But it was not meant to be!

**Viva Immersion!**

On May 6, 1998, the California media reported on efforts by the Citizens for an Educated America to show that immersion bilingual education, as proposed by Proposition 227, was not the answer. The attack concentrated on Orange County first grade teacher Gloria Matta Tuchman.

Matta Tuchman had signed as co-sponsor of the Proposition. She had been touting her success in using immersion techniques with her students in the Santa Ana Unified School District.

Data gathered by the California State Department of Education had shown that “none of Matta Tuchman’s students had become sufficiently proficient in English during the past academic year [96-97] to enable them to be moved into regular classes.”

So much for immersion education!

**The TV Blitzkrieg**

The first anti-Proposition 227 ad was broadcast on May 8, 1998, on the Spanish-language television network Univision. The ad said, in Spanish, that the initiative ‘imposes a government mandate on every school district in the State... We have to defeat Proposition 227 and let parents and teachers decide what is best for us.” It is my humble opinion that that ad was intellectually lame: many Californians feel that Bilingual Education is a “government mandate.” Thus, that expression was a poor choice of words to address a mostly antagonistic voting audience.

Another TV ad showed a little girl saying that the immense advocate taking millions of dollars from children and gave them to adults. Another disinterested effort starting with Proposition 13 in the late seventies, the California citizenry have been reluctant to pay increased taxes to build schools and improve education in the state. Thus, a whining child was definitely the wrong message.

Ron Unz informed people that he had already spent more than $600,000 of his own money on the campaign, and that he had received contributions from other people, including a businessman from Florida.

**Why a businessman from Florida? Nobody seems to know.**

**Unidos Venceremos?**

The morning of Saturday, May 9, 1998, my grant sponsored a “Public Forum on Proposition 227: The Unz Initiative and Its Impact on Immigrant and Refugee Children.” I sent out 341 letters to bilingual teachers, bilingual resource teachers, professors, and students who are getting a bilingual credential at SDSU.

The keynote speakers at the forum were Dr. Jill Mora, Mr. Gus Chávez, and myself. Dr. Mora, a professor at SDSU, had been most active speaking at public forums all over the state, writing articles for the media, and sending e-mails informing people about new developments in the fight against the proposition. Mr. Chávez, Director of the Educational Opportunity Program at SDSU, is a well-known advocate and supporter of bilingual education.

I expected a full house. Well, 27 people showed up. Not one of them associated with bilingual education activities. The 27 attendees were there because they were attending a conference that this forum was part of.

On May 27, 1998, the Associated Students at the University of California-San Diego (ASUCSD) organized a public forum which was widely announced by the local media. The keynote speaker was Ms. Rosalia Salinas, a well-known bilingual education administrator and a strong champion of the cam
paigned against 227. The only people in the audience were the student members of the Association, my wife, myself, and a lady who attended the forum out of curiosity. Not one professor, not one bilingual teacher, not one member of the San Diego Community.

You cannot win a war if you don’t show up to fight at the key battles!

Sometime in January 1998, I submitted my membership to one of the groups against 227. I also sent an extra donation of $5000. The checks never cleared the bank. I never received a mailing or announcement, or petition for donations. Considering that I am a fairly well-known advocate of bilingual education, what happened to my check? ¿Quién sabe?

**The Day of Reckoning**

Proposition 227 was approved by California voters on June 2, 1998. It got 61 percent of the vote.

The state media emphasized the fact that a large segment of the Hispanic citizens had voted for it.

**AFTershocks**

**Federal Judge’s Decision**

On July 15, 1998, a federal judge turned down a petition by some civil rights groups that had sued to block the initiative through a court order. The plaintiffs did not give up and appealed to a federal appeals court.

**Bilingual Waivers**

On July 17, 1998, the Mexican American Legal Defense and Educational Fund informed the public that the organization would start a massive campaign urging parents of school-age children to seek waivers in order to force schools to provide bilingual instruction.

Theresa Bustillos, MALDEF Vice President, was quoted as saying at a news conference, “I hope to see waiver mania in California. You can bring Proposition 227 to a standstill if enough parents apply for waivers and districts grant them.”

**The Equal Opportunity Issue**

In July, 1998, Civil Rights attorneys filed a Temporary Injunction to block the Implementation of the Proposition. The suit was filed in behalf of parents and civil rights organizations:

They are basing arguments upon the Equal Opportunity Act of 1974, the Equal Protection Clause of the 14th Amendment to the Constitution, and Title VI of the Civil Rights Act of 1964. They argue that Proposition 227 denies educational access to national origin/language minority students, and fails to provide educational opportunity to the approximately 1.4 million limited-English-proficient (LEP) students in the State.

The application for Temporary Injunction presented the following arguments:

The program does not seek to provide any more than a “good working knowledge of English,” denying LEP students access to the curriculum offered to native English speakers.

Students finishing their one year of “sheltered English immersion” will be placed in mainstream English-only classes even if they do not yet speak enough academic English to be able to participate equally with their English-fluent speakers, and at the same time will have missed a year of the core-curriculum (such as math, history, and science).

Because it is an initiative-statute, educational practices implemented by Proposition 227 will be almost impossible to change even if they prove ineffective educational practices are developed.

**On the Razor’s Edge**

On July 21, 1998, the California media informed the state communities about plans by four of the largest school districts in the State, Los Angeles, San Francisco, Oakland, and Fresno, to develop implementation guidelines.

“From pledges of open defiance to scattered examples of quiet enthusiasm.”

The Los Angeles Unified School District announced a plan whereby ESL students would be placed in “English intensive” classrooms but the teachers would be allowed to provide help in the children’s native language. The district also stated that during the 1998-99 academic year it would spend about $1 million, mostly for retraining teachers in English-immersion methodology. Eventually, in August 1998, Los Angeles designed an elaborate plan for implementation.

Bill Rojas, San Francisco’s Superintendent, was quoted as saying that his schools “remain bound by a federal consent decree to offer bilingual education.” This consent decree was the result of the *Lauro v. Sanchez Nicholas* [Federal] Supreme Court Decision of 1974, that mandated the implementation of bilingual instruction for Chinese-speaking children attending schools in San Francisco. That mandate was eventually implemented all over the country.

Oakland Unified School District stated that an agreement between the district and the U.S. Department of Education’s Office for Civil Rights mandates that the district offer bilingual instruction.

Sue Piper, spokeswoman for Oakland Unified also stated that the district was trying to get the State Board of Education to consider giving [the districts] “a blanket waiver from Proposition 227’s provisions.” She went ahead to say that, should everything fail, the district would work with parents to help them to obtain exemptions from the English-immersion mandate. She was quoted as saying, “Philosophically, we do not believe the approach mandated is the best program.”

Carlos García, Superintendent of Fresno Unified School District, and a strong opponent of the initiative, reported that he had designed an education plan by which ESL students would be taught in their mother tongue “for up to one-third of the typical school day.”

**Federal Appeals Court Enters Battle**

On Thursday, July 23rd, 1998, several organizations representing bilingual students and their parents filed an appeal with the 9th U.S. Circuit Court of Appeals. The purpose of the appeal was to challenge the federal judge’s decision the week before, which would allow the mandate of Proposition 227 to take effect the first week of August, 1998.

Los Angeles Unified School District also reported that the implementation of the new plan “will cost approximately $40 million over the next four years.”

Did I hear that correctly? How much does the district spend annually on its bilingual program? Do you remember something called “cost effectiveness” in the seventies?... And there is no assurance whatsoever that this immersion stuff will work.

**Charter Schools Exempted**

On Monday, July 27th, 1998, the California State Department of Education stated that charter schools are not subject to Proposition 227.

This is a most significant development, since the charter school movement in California is growing by leaps and bounds. Charter schools are autonomous institutions that can choose their own curriculum and select their own educational plans.

In 1998 there are 154 experimental charter schools in California. “California charter schools are exempt from virtually all state education codes as part of a legislative effort to foster innovation.”

Allen Keown, Deputy General Counsel for the State Department of
Education, stated. "A charter school needs only to comply with all the provisions set forth in its charter petition, but is otherwise exempt from the laws governing school districts."

Let's make all public schools in California charter schools!

MALDEF and ACLU al Ataque!

On Thursday July 30, 1998, the American Civil Liberties Union and the Mexican American Legal Defense and Educational Fund sued the Los Angeles Unified School District, seeking a temporary restraining order to bar the district from implementing the new mandate.

The suit was filed in U.S. District Court; it contends that the LAUSD is not prepared to meet the needs of the 312,000 ESL students in the district.

It also ascertained that the plan being developed by the district violated the Federal Equal Opportunities Act of 1974.

ACLU attorney Rocío Córdoba stated, "We're just very concerned about ensuring that immigrant children are not subjected to educational harm with any program that is not adequately developed."

The school district immediately filed court documents opposing the restraining order.

End of an Era?

On Friday, July 31st, 1998, a federal appeals court refused to put the initiative on hold statewide. The U.S. 9th Circuit Court of Appeals rejected the request to block the initiative. "The two-judge appellate panel declined to issue an emergency restraining order after two federal judges had ruled that the will of the voters should take precedence over the claims of potential harm to minority students."

Also on Friday July 31st. L. S. District Judge Lourdes Gillespie Baird found that the Los Angeles school district's plan to implement the initiative was based on well-established teaching methods. It was not "a dramatic, wholesale change" as alleged by the MALDEF/ACLU lawsuit.

Enters Machiavelli!

Officially, Proposition 227 was to take effect on Sunday August 2, 1998. Consequently, year-round schools starting the school year on Monday, August 3, were mandated to start implementation of the initiative that same day.

But, as we all know, laws, by definition, have been created to be broken, right?

The Santa Ana and Anaheim school districts in Orange County, California, found a Machiavellian solution to postpone implementation: To officially start the "school year" on Friday July 31st, 1998. That way, the first term of the academic year would start two days before the legal mandate. The school districts then would have several more weeks to get ready.

Clever, no?

A Promising Little Light at the End of the Tunnel

On Thursday, August 28, 1998, Alameda County Superior Court Judge Henry Needham ruled that the California State Board of Education should consider school districts' requests to waive enforcement of Proposition 227. This is the first major victory for opponents of the Proposition. It will affect more than 38 school districts in the State, and will have a major impact in the way teachers will develop and implement classroom methodologies for English language learners.

The Big Question

What kind of a system do we have where a wealthy businessman, using more than half a million dollars of his own money, can successfully write a proposition that will hurt so many thousands of low-income children?

How many wealthy individuals, with political obsessions, are now hunting for programs to destroy, in order to advance their political agendas?

A Final Thought

In 1978, Proposition 13 destroyed the quality of public education in California. It eventually spread across the land like the plague of the Middle Ages, critically injuring the foundations of American public education.

Proposition 227 might also be the harbinger of a long winter for Bilingual Education all over the country.

So, if you are a professor of Bilingual Education, a student in bilingual credential programs, or a bilingual teacher in the public schools, start preparing for a long siege! The next proposition might be advocated by the unscrupulous politician in your state who will use anything and anybody to become governor!

About the Author:

Dr. Ricardo Cornejo is professor of Foundations of Bilingual Education, Language and Reading, and Educational Research at San Diego State University. He has been deeply involved in the bilingual education movement since the mid-1960s. Several of his writing are available in the ERIC System.

At present he is working on two books: The Common Heritage of English and Spanish, and The Bilingual Education Socio-Political Movement. He will be happy to hear from you.

The Editors of Hispanic Outlook also welcome your comments on Dr. Cornejo's perspective.
Righteous Anger and Spanish Harlem

Two Latino Art Exhibitions at Rutgers

The politically inspired work of Mexican painter Noé Hernández and the creative graphics of Puerto Rican printmakers and poster artists were exhibited at Rutgers University's Mason Gross School of the Arts Gallery, New Brunswick, N.J., throughout the summer, co-sponsored by Rutgers Center for Latino Arts and Culture, The Newark Public Library, and Rutgers Center for Innovative Print and Paper. "Mexico Exports/Mexico Exports" featured large figurative paintings that articulate Hernández' concerns about Mexican immigration. Through their juxtaposition of Mexican religious and ancient cultural images with American commercial advertisements, Hernández questions U.S. immigration policies and looks critically at Mexico's role in pushing out its population.

"One of Mexico's primary exports is the export of human beings," says the artist, who is self-taught. "We see ourselves forced to leave our country in search of solutions to our economic problems."

According to a story titled "Righteous Anger" in N.J.'s Home News Tribune, which describes his work as "passionate, angry and often wryly ironic," Hernández is estranged from his family in Mexico. When he worked in construction in Beverly Hills, he was able to send money home—$500 a week. Later, working three low-level jobs, it was $700 a week. Now that he is an artist, he cannot send any money at all, and is thus an enigma to his family and to the Mexicans he knows in New Brunswick. His wife, he says, supports him "a lot."

Isabel Nazario, director of the Center for Latino Arts and Culture, saw works that Hernández had painted onto the walls of his apartment and was quite impressed. She was able to hire him as artist-in-residence of the Center for Latino Arts and Culture through a one-year grant from the Geraldine R. Dodge Foundation, a leading supporter of the arts in the area.

"Puerto Rican Graphic Arts From the Island to El Barrio/Spanish Harlem: 1950-1985," an exhibition in memory of Jack Delano and Jorge Soto, featured 65 prints and posters by artists who played a significant role in the development of printmaking and the plastic arts in Puerto Rico and in New York City.

Included from Puerto Rico were Lorenzo Homar, Rafael Tuñiao, Antonio Martorell, and Carlos Raquel Rivera. From the studio Taller Boricua in New York City were artists Jorge Soto, Marcus Dumas, Gilbert Hernández, and others.

Also featured were black-and-white photographs by Hiram Maristany, who documented the artists working in El Barrio.

Most of the prints were from the permanent collection in the Newark Public Library and from the Museo del Barrio in New York City.

Funding of these exhibits came from the N.J. State Council on the Arts, the Governor's Annual Tennis Tournament Fund, the Office of the VP for Undergraduate Education, and Johnson & Johnson, which is headquartered in N.J. The related education programs were funded by the Geraldine R. Dodge Foundation.

Both exhibitions were curated by Isabel Nazario and Arlene Alvarez.
Notre Dame Honors Juliet García

Dr. Juliet V. García, President of the University of Texas at Brownsville and Southmost College, received an honorary degree in May from the University of Notre Dame, conferred on her by its president, Rev. Edward A. Malloy, C.S.C., for being "the first Mexican American woman to head a U.S. college or university," for overseeing "an historic reconfiguration and merger of a community college and a state university campus," and for continuing "to give substance to her belief that commitment to the community is the cornerstone of a successful educational system."

García said that it was one of her greatest academic honors and a compliment to her community.

Currently, García is a member of the Carnegie Foundation for the Advancement of Teaching, Public Welfare Foundation, San Antonio Branch of the Federal Reserve Board, President's White House Advisory Commission on Excellence for Hispanic Education, Advisory Committee on Financial Aid to the U.S. Congress, and the Board of Directors of Chase Texas.

She won the VIDA award for education in recognition of outstanding individual achievement in the Hispanic Community, and was recognized twice by Hispanic Business magazine as one of the 100 most influential Hispanics in the nation.

She has two degrees from the University of Houston and a doctorate from the UT-Austin.

Fouster Director of Special Gifts at CSU-Hayward

Ricardo Fouster has been named director of special gifts for the office of University Advancement at California State University-Hayward, responsible for developing and implementing fundraising strategies and working with major gift prospects. He will work with university employees, students, and alumni.

Previously a senior development officer at San Francisco State University for the College of Science and Engineering, from 1987 to 1995 he was program development officer and director of public relations for the National Hispanic Scholarship Fund in Novato. He earned his bachelor's degree from the College of Natural Resources at the UC-Berkeley, and is working on a master's degree in international business from CSU-Hayward.

Daniel Ortiz Director of Godine Library

The Massachusetts College of Art has named Daniel Ortiz Director of the Morton R. Godine Library.

He comes to the college from the University of Massachusetts at Boston, where he was associate director of libraries, and prior to that, science librarian. From 1984 to 1991, Ortiz worked as assistant head of the science library and as collection development officer at the Rio Piedras Campus of the University of Puerto Rico Library System.

Ortiz has authored and co-authored numerous papers on information technology and library management and lectures on these topics abroad and in his homeland.

His professional memberships include the American Library Association, Sociedad de Bibliotecarios de Puerto Rico, and Asociacion de Egresados de la Escuela Graduada de Biblioteconomia. He was a founder of the Reforma chapter of Puerto Rico, an ALA affiliate, and was also vice president of the Asociacion de Egresados de la Escuela de Biblioteconomia.

Ortiz is treasurer of the board of directors of the Oficina Hispana, a community-based job training agency in Boston, and has also served as board secretary.

He has a bachelor's degree and master's from the University of Puerto Rico and a doctorate from Simmons College in Boston.

Robert DeVillar Chairs UTEP Teacher Education

Robert DeVillar has been named the new chair of the University of Texas at El Paso's (UTEP's) Department of Teacher Education, which instructs about 1,500 teachers and future teachers.

He comes to UTEP from UC-Davis, where he was associate dean of the College of Letters and Science. He held prior position the Fulbright Scholars Program in Colima, Mexico, and as coordinator of graduate bilingual programs at CSU-Bakersfield.

Jorge Descamps, assistant chair of the education and chair of the search committee, said that having spent a tremendous amount of time in Mexico, studying the educative system there, DeVillar collaborates with Mexican instructors on international exchanges in order to solve educational problems that are of mutual concern at both university and public school level.

He has a bachelor's degree from Universidad de las Americas in Mexico City, master's from San Jose State University, and a master's and doctorate from Stanford University.

Flores Lectures at International Symposium

Benjamin Flores, associate professor of electrical and computer engineering at the University of Texas at El Paso (UTEP), participated in the 1998 SPIE (The International Society for Optical Engineering) International Symposium on Optical Science, Engineering and Instrumentation this past July. He discussed two advanced topics on modern radar processing.

SPIE is a nonprofit professional society dedicated to advancing research, engineering applications in optics, photonics, imaging, and electronics.
Flores holds a bachelor's degree and masters from UTEP and a doctorate from Arizona State University.

**Jesús Prado New Student Trustee at Mt. SAC**

Jesús Prado, a 33-year-old psychology major at Mt. San Antonio College (Mt. SAC) in California, has been sworn in as the new student trustee for the 1998-99 academic year.

This trustee has an advisory vote that indicates the student position but does not count toward the passage or failure of a motion. The advisor's vote helps the board know how the student trustee stands on issues and strengthens the student role in the college's shared governance process.

Prado carries a 3.38 grade point average and has been active in many organizations on and off campus. He is a board president of the Phi Theta Kappa honor society and a bookstore senator for Associated Students. He has been named to the Mt. SAC Dean's List, the Presidents List, and the National Deans List off campus. He also has volunteered with the Orange County Probation Department and the County USC Medical Center, and is currently serving an internship with County USC Medical Center.

**F. Chris García Picked as UNM Interim Provost**

University of New Mexico (UNM) interim President William C. Gordon announced during the summer that UNM Political Science Professor F. Chris García will be interim provost, a position formerly held by Gordon, through Aug. 31, 1999.

**Dr. José A. Vicente on AACC Commission**

The American Association of Community Colleges (AACC) has appointed Dr. José A. Vicente, Miami-Dade (Fla.) Community College InterAmerican Campus president, to the Commission on Minority Resources, which works with and advises AACC on public policy issues, professional development, and program initiatives, and provides direction on important community college issues and priorities.

Vicente is president of InterAmerican Campus, Miami-Dade's newest campus, enrolling more than 6,000 students a year.

He is on the board of the National Community College Hispanic Council, advising AACC in the development of services, curriculum, and programs to assist Hispanic students. Vicente is also a member of the American Council on Education's Commission on Leadership and Institutional Effectiveness, and the board of the STARS/HEOPE Project, the Hispanic Business Group Committee of the Greater Miami Chamber of Commerce, and the Miami Film Society.

**UNM's Martínez-Lucero: a Model to Students**

According to the University of New Mexico (UNM) Campus News, Leonor Martínez-Lucero, senior advisor in the UNM College of Arts, has been the ideal person to offer guidance to students who might be at a difficult juncture in their college careers.

No stranger to adversity, Martínez-Lucero survived an economically challenging childhood and overcame polio as a two-year-old as her parents moved their seven children from Mexico to New Mexico looking for a better opportunity.

Recognizing the importance of education—a value she credits her father with instilling in her, Martínez-Lucero graduated with a bachelor's degree in psychology from UNM, served as a program specialist with the Health Careers Opportunity program, and then moved on to the College of Arts and Sciences.

Today, on the job as an advisor, she stresses to students that they can obtain any degree they want, encouraging them to exhibit confidence in themselves and to have relentless determination to achieve those goals. She plans to pursue a master's in public administration.

**Maria Martinez Wins Top Journalism Honors**

Maria Martinez, executive producer of the weekly radio show *Latino USA*, has won five national honors for achievement in journalism. *Latino USA* is a production partnership of KUT-FM and the Center for Mexican American Studies at The University of Texas at Austin.

*Latino USA* is a weekly English-language program produced from a Latino perspective covering a variety of issues affecting Latino communities in the U.S. It is distributed by National Public Radio (NPR) and broadcast...
on its stations nationwide.

Martin won two top awards from the National Association of Hispanic Journalists in Miami for a series of reports on the Guatemalan peace process. The association has awarded top honors to the UT-based radio show three times in the last four years. Martin, a former editor at NPR, has been the show’s executive producer for the past five years.

Born in Mexico City, she has won the Ruben Salazar Communications Award from the National Council of La Raza, and was one of eight journalists nationwide to be awarded the Kiplinger Fellowship in Public Affairs at Ohio State University. She was field producer with a team of journalists winning the 1998 Gabriel Award for the radio short feature "Make It Better, Grandmother."

Peter M. Rosa Appointed VP at CCSU

Dr. Peter M. Rosa, who received the Outstanding Educator Award from the Connecticut Hispanic Association of State Employees, has been appointed vice president for student affairs at Central Connecticut State University (CCSU). Previously an executive officer of the Connecticut State University (CSU) System, Rosa is active in national, state, and local education activities.

Rosa is CCSU’s senior officer responsible for student development and services functions, including: residence life, counseling and prevention, educational support services, advising, health services, recreation, and athletics. Most recently, he was executive officer for academic affairs and research at the CSU System.

He earned his bachelor’s and master’s degrees at CCSU and a doctorate from the University of Connecticut.

NECC Trustees Promote Santiago

Dr. Jorge Santiago has been promoted from director of urban program development at Northern Essex Community College (Mass.) to assistant dean for pre-college programs.

The promotion was announced by President David Hartleb, who said that Santiago will continue his important work to develop training and educational programs for students who aren’t ready for college-level work, particularly those for whom English is not their first language.

Hardeh cited the tremendous gap between the skills of groups who are unemployed and looking for work and the needs of business and industry, and stated that Santiago’s mission is to bridge that gap.

Since joining the college staff in January, Santiago has worked most closely with New Beginnings, a program designed to train Spanish-speaking welfare recipients who will lose their benefits as part of welfare reform for entry-level jobs in health care and human service.

Michelle Rodríguez Gets Rutgers-Camden Scholarship

Michelle Rodríguez, second-year student in the graduate physical therapy program at Rutgers University’s Camden (NJ) campus, received a Roy and Roxie Campanella Physical Therapy Professional Education Scholarship.

Sponsored by the California Physical Therapy Fund, the $2,000 award honors the accomplishments of former Brooklyn (now Los Angeles) Dodgers catcher Roy Campanella, who became a quadriplegic after an automobile accident, and his wife, Roxie.

The national scholarship is presented to physical therapy students who display scholarly excellence and sensitivity to cultural differences in health care delivery. The students also must attend a program accredited by the Commission on Accreditation of Physical Therapy Education.

Rodriguez, 22, received her bachelor’s degree from Amherst College in 1997.

Tito Puente in Concert at St. Francis College

Fleet Bank and St. Francis College (NY) are sponsoring a month-long series of Hispanic events that will start with a live concert by Tito Puente on October 15th.

Puente is by far the most cherished American celebrity of Latin American descent alive today. In his fifty-year reign over Latin music has been decorated with four Grammys, honorary doctorates, featured roles in television and major pictures, countless worldwide appearances, performances, and an abundance of accolades and honors bestowed on him by his peers and admirers.

Tickets, priced at $40, will be sold before the performance, and funds raised from this event will benefit the St. Francis College Scholarship Fund.

Other events taking place throughout the month include lectures, a high school writing contest for Hispanic students, an Hispanic food festival, business seminars, and a photographic exhibit.

Spanish for Health Care Providers” at Purdue-Calumet

A new course designed to help medical professionals communicate with Spanish-speaking patients is offered this fall semester at Purdue University-Calumet (Ind.).

“Spanish for Health Care Providers” is intended for nurses, medical workers, mental health professionals, family therapists, dental professionals, dietitians, and emergency medical technicians, as well as insurance professionals. It covers basic terminology and focuses on practice in Spanish communication in assessment and intervention settings with patients and their families. General medical history, symptoms, and special individual topics are covered.

Purdue-Calumet Professor of Spanish
Geoffrey Barrow [picted] says that the school's department of foreign languages and literatures has developed this course to better serve the community, which includes approximately 50,000 Hispanics in the immediate area.

Barrow teaches the course with Kathy Porras, an RN and Purdue-Calumet graduate student.

For course information, contact the Department of Foreign Languages and Literatures at (219) 989-2632.

Nine Try Research Careers at UMass Summer Program

Nine undergraduates at the University of Massachusetts were learning to become researchers during 10-week summer internships sponsored by the Minority Engineering Program and the Women in Engineering Program, both in the University's College of Engineering.

Each student was teamed with a graduate student and a faculty member in his/her discipline. Students were paid for their work, which was guided and overseen by faculty mentors. Students were working on topics ranging from how well people drive, as tested in the campus' driving simulator, to determining impact damage on specific kinds of glass.

Vanessa M. Rivera, [picted] director of the Minority Engineering Program, said the short-term goal for the program was to provide undergraduate women and minority students with an opportunity to work on a research project with a faculty member, and the longer-term goal was to have some influence in guiding those students toward graduate school and possible careers in college teaching and research.

Another important aspect of the program was teaching students to present their ideas clearly and comfortably, Rivera said.

UTEP's Proposed History Ph.D. Clears 1st Reading

UTEP In July, the Texas Higher Education Coordinating Board gave initial approval to the UTEP's proposed doctoral degree in history.

It won its final approval, which is expected to be granted at the board's October meeting. UTEP will begin recruiting students to enter the program for the Fall 1999 semester. It will be the university's eighth doctoral degree program--seventh to be implemented since 1990.

The proposed Ph.D. program focuses on the history and culture of the U.S.-Mexico border area and requires students to master a language appropriate to their research. While there are many doctoral programs in history that offer specializations in U.S. history or Latin American history, UTEP's program would be the first to specifically address the unique issues related to the varied cultures of the U.S.-Mexico border region.

This addition also would help raise the number of Hispanic Ph.D.s nationwide. Between 1946 and 1990, only 351-15 percent of the 22,701 history Ph.D.s awarded in the United States went to Hispanics. UTEP's student population is 66 percent Hispanic.

SU Helps Kids Navigate the Globe

Whether it was making grass skirts to learn about Hawaii, or learning the Japanese art of origami, a number of Selingsgrove, Pa.-area children experienced the uniqueness of 11 countries in "12 Days Around the World" this past summer.

The elementary and middle school students, residents of Pine Meadows, a low-income housing development in Selingsgrove, learned about the cultures of Hawaii, Pennsylvania, Native America, Great Britain, Spain, Mexico, Germany, China, Japan, South Africa, and Martinique.

The program allowed participants to explore countries and cultures through hands-on learning experiences and interactions with community members of universal backgrounds, according to organizer Angela Kieron [picted], a rising sophomore at Susquehanna University and the University's Spanish Service Scholar. Service Scholars work in local community partnerships to address unmet needs.

The program was sponsored by Susquehanna University's Center for Service Learning.

UNM Hosts Traditional Medicine Conference

The "XII International Congress of Traditional & Indigenous Medicine" was held recently on the main campus of the University of New Mexico. The annual conference brings modern healthcare physicians together with practitioners and researchers of indigenous traditional medicines to collaborate, report on the latest research, and examine what works, where, and why.

Special guests of the conference were New Mexican curanderos and Native medicine people including Chenchito, an 80-plus Mexican curandero whose mother was a student of Nino Fidelino, one of Mexico's most famous healers. Abuela, a famous Mexican healer who uses sacred plants in her healings, and four Mayan spiritual healers also attended.

Eliseo Torres, UNM vice president of student affairs, is an expert in curanderismo or folk healing.

According to the World Health Organization, 80 percent of the world's population use indigenous traditional remedies and alternative cures as their primary form of health care due to economic necessity or cultural customs.

Among those who received the Martin de la Cruz Award, given to individuals worldwide who have made significant contributions to the study of natural and indigenous medicine, were Dr. Pedro Angelo Herrera, a Peruvian pharmacologist who studies medicinal properties of Peruvian native plants; Dr. Demetrio Sodi Pallares, one of Mexico's most famous cardiologists, who has developed a therapeutic magnetic treatment to balance the immune system; and Dr. Abel Cruz, a Mexican physician who integrates natural and modern medicines.

NationsBank Creates Scholarship with Grant

NationsBank is reaching out to Hispanic students at the University of Dallas with a five-year, $50,000 grant that will help at least two students continue their education at the university.

Rowland K. Robinson, executive VP for NationsBank, presented Msgr. Milam J. Joseph, university president, with a check for
$10,000 to be established the NationsBank scholarship, which will be presented to two students in the 1999-2000 school year. Students will be chosen according to both academic and need-based criteria. First preference will go to Hispanic students.

Master’s in Education Emphasizing ESL at Penn State

The Penn State Lehigh Valley campus is the site of a University of Turabo (Puerto Rico) master’s degree program in education that emphasizes ESL.

Offered this fall through a partnership with the University of Turabo, it is the first master’s degree in the Lehigh Valley specializing in ESL. Created to support educators’ efforts in meeting the needs of students whose first language is not English, it focuses on second-language acquisition, methods of teaching, communication skills, and reading processes.

The degree program targets teachers certified in elementary or secondary education and who have teaching experience.

The first two courses in the degree program are Intercultural Community-Building for Classroom Teachers and Socio-Cultural Aspects of Bilingual Education.

Latino Art at Colby College Museum

An exhibition on the impact of graphic arts on the Latino community has been on display at the Colby College Museum of Art.

“Walk Through the Paper Forest: The Latino Prints and Drawings from El Museo del Barrio” features works on paper from art workshops in Mexico, Puerto Rico, and New York City and explores the body of Latino art. Artists represented include natives of eight Central and South American countries and of the U.S. Among them are Alfredo Zalce and Leopoldo Mendez, whose painting is entitled “Mexico en la Guerra.”

The works, mainly prints and posters, often were posted in neighborhoods and were more commonly visible, accessible, and affordable than other traditional forms of fine art. “In many respects,” says the show’s literature, “the exhibit explores the phenomena of identity, social conscience, and Latino artistic traditions that enrich the cultural life of this country.”

The exhibit ends October 16.

The Battle of Chile Shown at NYU

Chilean filmmaker Patricio Guzman made an appearance recently at the King Juan Carlos 1 of Spain Center at New York University to introduce a screening of the prize-winning documentary, The Battle of Chile, Part 1. Afterwards, the filmmaker responded to audience questions.

It was the first U.S. screening of the fully restored video version of the film, distributed by First Run/Icarus Films with new commentary and English-language narration subtitles.

Winner of the Grand Prize at the 1975 Grolle Noble and Benalmadena Film Festivals, the film documents in day-to-day detail the slow and seemingly inexorable escalation of right-wing opposition to the democratically elected government of Salvador Allende in 1973. Filmed under the direction of Guzman and four associates, it has been described as an “accusatory elegy” by Pauline Kael in the New Yorker and “the most political film of our times” in the Village Voice. The screening was a lead-in to a premier showing of Guzman’s new film, Chile: Obstructive Memory: The Battle of Chile. Part II was also shown.

CSU Offers Diversity M.A.

CSU Cleveland State University, in partnership with The Diversity Institute of Greater Cleveland, is offering a unique pro...
gram that just began its second year: a Diversity Professional Specialization M.A. degree. The only program of its type in the nation, it is available through the College of Arts and Sciences.

The offering is an intensive, graduate-level program that provides education and training in diversity theory, research, and practice that is rooted in the science of psychology.

Geared to human resource professionals, consultants and trainers, organization change agents, school administrators, community leaders, and law enforcement officials, the program offers adult learners the training needed to manage culturally diverse populations in organizations, schools, and community agencies. Through the program, students will become skilled in assessment and diagnosis of diversity issues, development of interventions, facilitation of diverse work teams, and management of diversity change efforts.

Visiting Artists at Art Institute of Chicago

For the second year, the Visiting Artists Program is continuing, this month, at the School of the Art Institute of Chicago, a series on art and activism with six contemporary artists who discuss the cultural, social, and political reverberations of 19th-century European imperialistic policies on world expansion.

Scheduled speakers included Ernesto Pujol, an installation artist whose work draws on psychoanalytic and feminist theories as they relate to memory, gender, and colonialism. His work is charged with his personal history of exile and displacement from both his Cuban heritage and sexual identity.

Also on hand was María Magdalena Campos-Pons, a multimedia artist from Cuba who currently lives in Boston. Her work revolves around her personal history as an Afro-Cuban woman and employs symbolism taken from Afro-Cuban culture, syncretic religious practices, and Black history.

On October 14, the guest speaker will be Enrique Chagoya, a painter whose work explores the colonization and erasure of indigenous people in Latin America. His work is humorous as well as socially conscious.

Other scheduled speakers are Arjun Appadurai, Skander Boghossian, and Yinka Shonibare.

Retratos y Acuarelas (Figuras del Siglo XX) (Ensayos)

by Carlos A. Johnson

Portraits and Watercolors: a book of essays in Spanish about twentieth-century personalities, includes essays on: Martin Luther King, Laurence Olivier, Plácido Domingo, Raúl Wallenberg, José Ortega y Gasset, Paul Robeson, Pelé, Juan Pablo II, Robert Oppenheimer, William Stephenson, Oríel Fuentes, Bill Clinton, Alberto Fujimori, Martín Adán, and others.

Spain in the New World
A six-program series including:
The Discovery of America

Based on the journals of Columbus, this program describes in the great explorer's own words the magnificent landscape, the mild climate, the simple and carefree life of the inhabitants, and the role of women in their society. (13 min., color)
Item # FFH 947

The Civilizations of Mexico

Maya, Toltec, Zapotec, Aztec—the archaeological sites at Monte Albán, Palenque, Lxamal, and Chichen Itzá speak of the great civilizations before the Spanish discovery. (13 min., color)
Item # FFH 948

The Incas

This program describes daily life in the realm of the Incas. It shows the months and seasons, and recalls the legend of how the Inca Empire was born to explain the landscape, the customs and the sun worship of the civilization centered around Cuzco. (13 min., color)
Item # FFH 949

Conquest of Mexico and Peru

Year One of the Reed—by the Western calendar. 1519—was marked by evil omens in Mexico: a comet seen in broad daylight, and the sighting of mountains floating on the Eastern Ocean, and the arrival of men with weapons that burst like thunder and spit out fire. Although they vastly outnumbered the Spaniards, the Indians were no match for the invaders. (13 min., color)
Item # FFH 950
End of a Culture

The search for gold and silver brought European adventurers, explorers, and missionaries to Mexico. European diseases to which the native population had no resistance, and forced labor in the mines, decimated the Indian populations: the treasure houses were looted and their contents—art, history, and religion—melted down for bullion. The pre-Colombian Indian cultures came to an end. (13 min., color)

Item # FFH 951

A New World Is Born

Out of the clash between the Old and New Worlds, the universe of the Christian European and the pagan Indian, came a new civilization. The architecture and the organization of life around the central plaza are Spanish; so is the hierarchical social order, which descends according to skin color. At the bottom are the Indians, still unassimilated after 500 years, most still speaking Indian languages, still impoverished. (13 min., color)

Item # FFH 952

Also from FILMS FOR THE HUMANITIES:

From the Bay of Pigs to the Brink

This program covers the events that began with the Bay of Pigs invasion and ended with a blinking contest between John Kennedy and Nikita Khrushchev, the Soviets agreeing to remove their missiles and the U.S. to lift its blockade. (27 min., color)

Item # FFH 2098

Cuba: The Broken Image

This program gathers together the most representative of exiled Cuban filmmakers, who recount their personal experiences of having to abandon their work and start a new life away from their country, culture, and natural environment. (40 min., color)

Item # FFH 5866

Improper Conduct: Castro's Cuba

Written and directed by Academy Award-winning cinematographer Nestor Almendros, this program tells the stories of 28 Cuban exiles, from all walks of life—writers, dancers, painters, doctors, laborers, and students—all victims of their homeland's oppression. Its powerful stories provide a rare personal glimpse into life in Castro's Cuba and the effects of Castro's policies on the Cuban people. (112 min., color)

Item # FFH 6290

Mobilizing the Latino Community: Ernesto J. Cortes, Jr.

In this program with Bill Moyers, Cortes, who has been called “the most effective Latino grassroots organizer in the country today,” discusses individual participation in American politics and highlights the importance of agitation, confrontation, and compromise in the discourse of democracy. (60 min., color)

Item # FFH 4084

100 Years of Transformation: The Caribbean and the United States Since 1898

NOVA SOUTHEASTERN UNIVERSITY
Fischler Graduate School of Education and Human Services
Programs for Higher Education announces
Graduate Administrative Fellowships

The Programs for Higher Education (PHE) at Nova Southeastern University announces two graduate administrative fellowships for the 1999-2000 academic year. PHE offers a field-based EdD degree with specializations in adult education, computing and information technology, health care education, higher education, and vocational technical education. To be eligible, applicants must hold a master's degree from an accredited institution and enroll in one of the five specializations.

RECIPIENTS WILL RECEIVE THE FOLLOWING:
• annual stipend of $20,000 and appropriate employee benefits
• tuition waiver
• textbooks and computer support
• all expenses paid for the 1999 Summer Institute
• office space, for the academic year, in the Fischler Graduate School of Education and Human Services Building, Nova Southeastern University, North Miami Beach, Florida

THE FELLOWSHIPS HAVE THE FOLLOWING PURPOSES:
• to provide the recipient the opportunity for full-time doctoral study in education in Nova Southeastern University's innovative field-based program.
• to provide the PHE office with staff and research support through studies and projects of benefit to the program, and to earn academic credit through graduate education.

Applicants for the 1999-2000 positions should send a letter of intent and a resume no later than November 1, 1999. 
Send materials to:

MANKATO STATE UNIVERSITY
FOOD AND NUTRITION/DIETETICS FACULTY POSITION

The Department of Food & Nutrition Science, in the College of Education, seeks a full-time faculty position in food & nutrition science, food science, and food education at the assistant professor level. Candidates must hold a Ph.D. in food science or related field. Salary and appointment range is $35,000 to $45,000, commensurate with qualifications. The position is available immediately. Review of applications will begin no later than 1 June 1999 and will continue until a qualified candidate is selected. Send application letter, curriculum vitae, names and addresses of three references in support of application to Dr. Parag Shethri, Chair, Human Nutrition Science Department, Mankato State University, One South Campus Drive, Mankato, Minnesota 56001.

155 Fifth Avenue South
Minneapolis, MN 55401
VICE PRESIDENT
FOR FACILITIES

Princeton University, known for its architectural history and scenic beauty, seeks a Vice President for Facilities to oversee all aspects of the University’s physical plant, comprising 400 maintained acres and 8 million square feet of building space. Individual will direct planning, design, construction, maintenance and local real estate efforts, as well as housing, dining services, building services and conference/visitor support. Candidate will interact with municipal and state boards and regulatory agencies and oversee expenditures of approximately $100 million per annum in operating and capital funds.

Successful candidate will have:

- Leadership skills and the ability to help create a vision and motivate others to work together to achieve that vision
- Management skills and demonstrated experience optimizing the use of diverse human, financial, physical and technological resources of a large organization
- Strong communication skills and the ability to create a cohesive senior management team
- The ability to work collaboratively with other VP’s and Deans
- Technical knowledge and skills to manage a program of expansion and renovation
- Experience in the management of change and continuous improvement

The ability to lead and effectively manage a complex and challenging organization is absolutely essential. Building on our existing strengths, individual must also respond to a changing external environment and a demanding internal community.

Position requires an undergraduate degree and a minimum of ten years management experience in a complex organization. Additional degrees in engineering or management or professional registration are preferred. Experience in a higher education institution and a management background with both union and non-union employees are desirable.

Salary is commensurate with qualifications and experience. To ensure full consideration, please submit resume by 10/14/98. Interested candidates should forward two copies of a letter of interest and resume to: Princeton University, Human Resources, Clio Hall-6857-HHE, Princeton University, Princeton, NJ 08544-5264. We welcome you to visit our Web site at: www.princeton.edu. EOE/AA.
**HUMANITIES FACULTY POSITIONS**

Agnes Scott College is an independent liberal arts college for women located in metropolitan Atlanta. With a current enrollment of 800 students from 38 states and 14 foreign countries and a student-teacher ratio of 9:1, Agnes Scott is in the enviable position of expanding its faculty and facilities to meet an expected student enrollment of 1,000 early in the 21st century. Faculty salaries at all levels are in the top quintile of AAUP rankings for baccalaureate institutions. Support for faculty development is generous and includes a one-semester pre-tenure research leave at full pay.

**RELIGIOUS STUDIES**

The Department of Religious Studies seeks to make a senior appointment to the Wallace M. Alston Chair of Bible and Religion. The successful candidate will have a PhD in the history and thought of Christianity, with strong scholarly credentials in one of its major areas and will have demonstrated excellence in teaching. Desirable areas include some of the following: contemporary religious thought, religious ethics, sociology of religion, and Biblical studies. The appointment is tenure track and will be at the level of full professor. We will interview semi-finalists at the AAR/SLB meeting in November. Application deadline November 2, 1998. Search chair: Dr. Richard D. Parry, Chair, Search Committee for the Wallace M. Alston Professorship.

**WOMEN’S STUDIES**

The Women’s Studies Department invites applications for a tenure-track position in women’s studies. Candidates will be able to teach the introductory course in women’s studies, a course in feminist theory, and other women’s studies courses in the candidate’s area of expertise in addition to being prepared to direct the Program in Women’s Studies. The successful candidate will also teach in one of the other liberal arts disciplines taught at the College. Possible disciplines for this affiliation include, but are not limited to: English, anthropology, history, and art history. The appointment will be at the rank of assistant or associate professor. Candidates should have teaching and research experience in women’s studies. Application deadline December 1, 1998. A dossier or three letters of reference should accompany application materials. Search chair: Dr. Katharine Kennedy, Director, Program in Women’s Studies, Campus Box 732.

**APPLICATION PROCESS**

Unless otherwise noted in a specific listing:

- All positions begin August 1999.
- Candidates are expected to have completed the appropriate PhD by July 1, 1999.
- To ensure full consideration, applications should be received by the stated deadline.
- Send letter of application, curriculum vitae, and three letters of recommendation to search chair listed.

Citizens’ Scholarship Foundation of America

Dollars for Scholars® — Scholarship Management Services™ — Scholashop®

Vice President of Development

Citizens’ Scholarship Foundation of America (CSFA), America’s largest private sector scholarship and educational support organization, announces the search for a qualified candidate to provide leadership in the development efforts of the organization.

CSFA’s mission is to expand educational opportunities by involving and assisting the private sector in support of students and in the encouragement of educational opportunities. This mission is carried out through three major programs: Dollars for Scholars®, Scholarship Management Services and Scholashop.

The successful candidate for the Vice President position will become a member of the Executive Management Team of CSFA and provide strategic and operational leadership in this critically important department. Prior experience in managing strategic fund-raising programs including annual and planned giving, major gifts, grant development, cause related marketing and fund-raising for programmatic support will be critical to the selection of the successful candidate. Attributes of the candidate CSFA seeks are:

- Ten to ten years successful experience in fund-raising, including supervisory roles
- Strong interpersonal skills and ability to work effectively with wide range of constituencies in a diverse community
- Fund-raising experience in the education field
- Ability to travel nationally

Compelling salary and fringe benefit package will be available to the successful candidate. Preferred start date is January 1, 1999. Final application date is October 31, 1998. All letters of introduction and candidate resumes should be addressed to:

William C. Nelsen, President
Citizens’ Scholarship Foundation of America
P.O. Box 297, St. Peter, MN 56082

1-800-687-6000 • www.tamuk.edu
The Center for HIV/AIDS Educational Studies and Training (CHEST) at New Jersey City University announces openings for the following positions:

**Project Director** (1, possibly 2 positions available)

The Project Director will be responsible for government funded research studies of HIV seropositive (HIV+) persons. Specific duties will include: overseeing community-based recruitment and data collection; training and supervision of staff; cDA data analysis and intervention evaluation; and participating in writing scientific articles and reports related to CHEST projects. Opportunities exist for the Project Director to develop individual projects and s/he will be expected to assist in writing grant proposals to continue funding HIV prevention activities.

Applicants must possess an MA or PhD in psychology, social sciences, or public health, as well as excellent written and verbal communication skills. Previous qualitative and quantitative research experience, and understanding of statistical software packages (SPSS, SAS) is essential. Applicants must have a high degree of familiarity with and insight into issues involving persons with HIV/AIDS, gay/bisexual men, injecting drug users, HIV prevention activities, and ethical issues related to the protection of human subjects. Previous undergraduate teaching, program development, and community-based training experience is desirable. This position is full-time and will begin as soon as an appropriate candidate is identified. This position is an excellent opportunity for a Post-Doctoral research experience.

**Recruitment Coordinator** (1, possibly 2 positions available)

The Recruitment Coordinator will be responsible for CHEST recruitment and outreach activities. Community-based recruitment of MSM will take place at mainstream gay/gay-bisexual and non-gay/gay-bisexual service organizations, and alcohol treatment facilities. Applicants should be comfortable with these environments. Specific duties will include: identifying and securing access to recruitment locations and maintaining communication with owners/managers; training and supervision of recruitment staff; monitoring recruitment success through on-site observation; data collection, and analysis; and participation in writing scientific articles and reports related to CHEST projects; and providing assistance to other CHEST research staff. Opportunities exist for the Recruitment Coordinator to develop individual projects and s/he will be expected to assist in writing grant proposals to continue funding HIV prevention activities.

Applicants should possess a BA or MA in one of the social or behavioral sciences or a relevant public health field. Previous experience can compensate for less education. Applicants should be highly organized and capable of independent self-management. Previous experience with the New York City gay/bisexual community is essential, and previous outreach work with the community is desirable. Applicants must have a high degree of familiarity with and insight into issues involving persons with HIV/AIDS. The position requires flexible scheduling, as the Recruitment Coordinator will spend a considerable amount of time in the field. This position is full-time and will begin as soon as an appropriate candidate is identified.

**Administrative Assistant** (1, possibly 2 positions available)

The Administrative Assistant will coordinate CHEST administrative and clerical activities, including the financial management of budgets for individual projects. Specific duties include: approving grant budgets and monitoring expenditures; b) working closely with Financial, Purchasing, Human Resources, Payroll, and Facilities departments at New Jersey City University, c) supervising work study students; d) preparing reports and manuscripts for CHEST staff and grant Project Officers; and e) providing office management assistance.

Applicants must possess a BA, preferably in one of the social or behavioral sciences. We are seeking a detailed-oriented person with excellent organizational, communication, and computer skills. Knowledge of Microsoft Word and Excel applications, WordPerfect and spreadsheet programs is essential. A degree of familiarity with and insight into issues involving persons with HIV/AIDS is desirable. This position is full-time and will begin as soon as an appropriate candidate is identified.

**Research Associates** (several full-time and part-time positions available)

The Research Associates will assist CHEST staff on a variety of research projects. Specific duties include: a) field recruitment of potential research participants in gay/bisexual community environments; b) conducting interviews with research participants; c) assisting with the implementation of behavioral interventions; d) data entry, management, and analysis; and e) assisting in the preparation of scientific articles and reports related to CHEST projects.

Applicants must possess a BA in one of the social or behavioral sciences or a relevant public health field. For the part-time positions, the position pays $10 an hour. Previous research or outreach experience with the New York City gay/bisexual community is desirable. Applicants must have a high degree of familiarity with and insight into issues involving persons with HIV/AIDS. Previous qualitative and quantitative research experience, and understanding of statistical software packages (SPSS, SAS) is essential. Applicants must send a letter of application, resume, and the names, addresses, telephone numbers, and e-mail addresses of at least three references who are knowledgeable about your qualifications to:

Albert Walker
Associate Director
The Libraries of The Claremont Colleges
Honold/Mudd Library
600 Dartmouth Avenue

The University of Maryland, College Park is strongly committed to the principle of diversity. We are especially interested in receiving applications from a broad spectrum of people, including women, members of ethnic minorities, and disabled individuals.
University of Notre Dame
DIRECTOR, LATINO STUDIES

The University of Notre Dame is seeking an established scholar to direct its newly instated Latino Studies Center.

Candidates for the position are expected to have earned a Ph.D. and have experience in working with Latino populations and a record of research in any field related to Latino Studies.

The successful candidate will provide direction and leadership for an interdisciplinary program of teaching and research focusing on the Latino experience in the United States. The director’s responsibilities will include research, building a curriculum and designing an undergraduate concentration, recruiting and developing new faculty as well as establishing connections with faculty in established departments, and budgetary planning and oversight.

The director will receive strong support from the University’s administration, from its active and well-established Hispanic Alumni network, and from the rapidly growing Latino student population at Notre Dame. In developing the Latino Studies Center, the director will be expected to work with various University constituencies in order to enhance awareness of Latino issues across the curriculum.

Notre Dame is an affirmative action, equal opportunity employer. The University strongly encourages applications from minority and women candidates. Screening of applicants will begin on October 1, 1998 and conclude when the successful candidate is identified. Please direct all applications and nominations, including a complete dossier and names of references to:

Rev. Timothy R. Scully, C.S.C.
Vice President and Senior Associate Provost
238 Hayes-Healy Center
University of Notre Dame
Notre Dame, IN 46556

ITHACA

ROY H. PARK SCHOOL OF COMMUNICATIONS

The Roy H. Park School of Communications seeks candidates for a full-time, tenure-track position beginning August 15, 1999, in Advertising and one in Public Relations. The successful candidates will teach courses in Advertising and/or Public Relations at all levels of the curriculum. Additional teaching responsibilities may include core courses such as Research Methods, Media Writing, New Telecommunications, Audience Research, as well as other courses depending on the expertise of the candidate. The candidate will also advise students and may serve on department, school and college committees. Maintenance of a scholarly/professional profile is also required. In addition, there is the opportunity to work with our award-winning AAF NSAC team and PRSA chapter.

Ph.D. in Advertising or Public Relations, or a related field preferred; Master’s Degree required. Significant professional and teaching experience preferred. Commitment to a liberal arts education within a professional program required.

Applications must send a current vita, statement of interest, including areas of teaching and professional specialization, and three reference letters to: Karen Armstrong, Attention, Chair, Ad/PR Search Committee, Television - Radio Department, 328 Roy H. Park Hall, Ithaca College, Ithaca, New York 14850-7255. Fax: 607-274-1664. Screening of applications begins October 5, 1998 and will continue until the positions are filled.

Ithaca College is an equal opportunity/affirmative action employer.

SYSTEMS LIBRARIAN

The University of Massachusetts Boston seeks qualified candidates in the position of Systems Librarian. This position reports to the Head of Systems and works closely with the library department to implement and maintain a newly selected client-server integrated library system. The selected candidate will manage the daily operations of the ERL database servers and CD-ROM databases, works with the library community of systems-related projects, investigates and implements new technologies that integrate information from different systems into a single user interface, collaborates on digitization projects for electronic reserves and course pages. The Systems Librarian is responsible for installing and maintaining computer hardware and software in public areas, as well as providing technical support for the library staff.

Qualifications:
- MLS from an ALA-approved program
- Equivalent Demonstrated knowledge and experience with client-server integrated library system, experience providing technical support in-depth knowledge of Windows NT, client protocols and utilities such as TCP/IP, FTP, Telnet, Z39.50, and major administrative software packages
- Interpersonal, written, and oral communication skills
- Preferred Previous experience in an academic library or library experience with LAN and network operating systems (NT, Unix, SQL-based report writers, digitization systems, HTML, and web programming)

Additional information may be obtained by contacting Apsara Mehta at apsara.meheta@umb.edu or by visiting our website: http://www.lib.umb.edu Minimum salary is $34,000. Application deadline is October 31, 1999. Please send cover letter, curriculum vitae, names, addresses, and telephone numbers of three references to: Office of Human Resources, Search 160-140, University of Massachusetts Boston, 100 Morrissey Blvd., Boston, MA 02125-3393. An Affirmative Action Equal Opportunity Title IX employer.
SCIENCES FACULTY POSITIONS

Agnes Scott College is an independent, liberal arts college for women located in metropolitan Atlanta. With a current enrollment of 800 students from 38 states and 14 foreign countries and a student-teacher ratio of 9:1, Agnes Scott is in the enviable position of expanding its faculty and facilities to meet an expected student enrollment of 1,000 early in the 21st century. Faculty salaries at all levels are in the top quintile of AAUP rankings for baccalaureate institutions. Support for faculty development is generous and includes a one-semester pre-tenure research leave at full pay.

The college is expanding its scientific facilities and adding personnel to support new program initiatives in the sciences and mathematics and the development of the Atlanta Science Center for Women—a coordinated academic and career-development program for women in science. Plans include a $40 million renovation and expansion of science spaces including new faculty/student research laboratories, teaching/project laboratories, computer facilities, class and seminar rooms, a planetarium, student learning facilities, and additional support facilities. The successful candidate for each position listed below will participate in this planning process and in equipment acquisition for these facilities.

EUKARYOTIC MOLECULAR BIOLOGIST/GENETICIST

The Department of Biology invites applications for a new tenure-track assistant professor position in molecular biology/genetics with primary focus on eukaryotes. Teaching responsibilities will include courses in molecular genetics, introductory cellular biology and genetics and a course in the area of specialization. Contributions to advanced courses in relevant portions of cellular physiology/biochemistry and developmental biology are expected. Knowledge of radiotopography in molecular biology is desired. The appointee is expected to establish an ongoing research program and to provide research opportunities appropriate for graduate students. A Ph.D. is required and previous teaching experience is highly desirable. Letter of application should describe teaching interests, teaching philosophy, and scholarly plans. Application deadline: November 2, 1998. Search chair: Dr. Harry Wustrand, Chair, Department of Biology.

ANALYTICAL CHEMISTRY

The Department of Chemistry invites applications for a tenure-track assistant professor position in analytical chemistry. Teaching responsibilities in addition to analytical chemistry will include a physical-analytical lab course. Some responsibilities in the introductory chemistry lab or lecture, and possible contributions to the physical chemistry sequence. The successful candidate is expected to contribute to collaborative research with undergraduates and to be aware of new pedagogical trends within the discipline. Agnes Scott's Chemistry department offers ACS-approved programs in both chemistry and chemistry with biochemistry emphasis and participates in an interdisciplinary major, Biochemistry and Molecular Biology, with the Biology Department. The department maintains a wide variety of instruments and equipment for both teaching and research including FT-IR, HPLC, GC, AA, UV-vis, ultracentrifuge, and luminescence spectrophotometer. Equipment for advanced synthesis techniques and a full range of biochemical equipment are also available. Application materials should include a statement of teaching philosophy and a concise description of research plans. Applicants should arrange for 3 letters of recommendation to be sent under separate cover. Application deadline: November 9, 1998. Search chair: Dr. T. Leon Venable, Department of Chemistry.

PSYCHOLOGY

The Department of Psychology invites applications for a tenure-track assistant professor position. A Ph.D. in cognitive psychology is required. Preference will be given to candidates with experimental/developmental psychology background or experience. The successful candidate will be asked to offer a research course in his/her area of specialization. Other teaching responsibilities may include cognitive developmental and introductory psychology. Collaborative research experience involving students will be welcome. Application deadline: February 1, 1999. Search chair: Dr. Barbara Blacher, Department of Psychology.

APPLICATION PROCESS

Unless otherwise noted in a specific listing:

- Positions begin August 1999
- Candidates are expected to have completed the appropriate Ph.D. by July 1, 1999
- To ensure full consideration, applications should be received by the stated deadline
- Send letter of application, curriculum vitae, and names, addresses and telephone numbers of three professional references to search chair listed

Bloomfield College
Affirmative Action/Equal Opportunity Employer
Montclair State University • Openings • Fall 1999

Founded in 1908, Montclair State University was awarded university status by the state of New Jersey in 1994. As the second largest university in New Jersey — with approximately 13,500 students, undergraduate and graduate — Montclair State is a comprehensive institution characterized by a cadre of teacher-scholars committed to teaching excellence, program diversity and student access.

Montclair State University is organized into the following colleges and schools: College of Humanities and Social Sciences, College of Science and Mathematics, College of Education and Human Services, School of Business, School of the Arts and the Graduate School. Montclair State awards the following degrees: Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, Bachelor of Science, Master of Arts, Master of Arts in Teaching, Master of Business Administration and Master of Education, and anticipated applied Doctoral degrees.

All positions Assistant Professor, tenure track, unless otherwise noted and are subject to available funding. *Selected appointments negotiable to higher rank depending on qualifications.

COLLEGE OF EDUCATION AND HUMAN SERVICES

Counseling, Human Development and Educational Leadership. (V-29) Teach courses in graduate programs in counseling. Applicant should be qualified to teach courses in counseling theories/techniques, group dynamics, multicultural counseling, and addiction studies. Focus will be on school counseling, agency counseling, higher education counseling, and business and industry. Earned doctorate in Counseling, Psychology, Education or related Human Service field. Five (5) years of experience in teaching/counseling.

Educational Foundations—Two positions. (V-4) Teach graduate courses in a specialization in Philosophy for Children. Areas of specialization include logic, philosophy of mind, philosophy of language, philosophy of science, American philosophy (especially pragmatism), social and political philosophy, and ethics. Earned doctorate with a professional focus in Philosophy for Children.

Methods of Research. Teach graduate courses at Masters and Doctoral level. Emphasis on quantitative research. Knowledge of areas in which the department offers graduate degrees. Teaching experience necessary. Evidence of research and publications. Experience working with doctoral students desirable.

Human Ecology—Two positions. (V-6) Teach undergraduate/graduate courses in consumer studies, personal and family management, and family/consumer law. Advise students and supervise students in internships and Cooperative Education placements. Doctorate in Consumer Studies or near completion. At least one degree in Home Economics, Human Ecology, or Family and Consumer Studies. (V-6A) Teach curriculum/methodology courses in early childhood/elementary education and child development. Teaching experience in an elementary school, teaching certificate and experience with an integrated curriculum and developmentally appropriate practices required.

Health Professions, Physical Education, Recreation and Leisure Studies. (V-7) Generalist within the tourism and hotel management areas. Background in management and marketing oriented skills; ability to teach budgeting, finance, marketing and research. Terminal degree or near completion in leisure service, parks and recreation, travel/tourism, commercial recreation or hospitality.

For a complete job description on these positions, please contact Leslie E. Jenkins, Assistant Dean, College of Education and Human Services.

COLLEGE OF HUMANITIES AND SOCIAL SCIENCES

Anthropology. (V-8) Teach urban anthropology courses with focus on applied anthropology. Areas of specialization are open, and candidates with interests in the cultures of Europe and the United States are encouraged to apply. CAI required.

Classics and General Humanities. (V-3) Teach courses in this University Honors Program in interdisciplinary culture and ideas. Knowledge of Classical Greek desirable. Develop new teaching strategies based on CAI for General Education and for major courses. Knowledge with electronic tools for teaching and research required.

English. (V-9) Teacher scholar to support teacher certification program in English. Teach language literature, and composition courses. Ed.D. or Ph.D. required. Minimum 3 years in grades 6-12 with demonstrated teaching effectiveness with diverse college population. CAI required.

Legal Studies. (V-38) Teach undergraduate and graduate Legal Studies technology courses. J.D. degree with New Jersey Bar admission required. Three years of full-time civil practice experience. Knowledge of microcomputer hardware, application programs, operation systems (Windows 95, UNIX, DOS, VAX), WWW. Tenure track position beginning Spring 1999.

Philosophy and Religion. (V-10) Teach Ethics and Applied Ethics. One year teaching experience with strong commitment to teaching excellence, research and C-I are essential.

For a complete job description on these positions, please contact Nadine Posner, Assistant Dean, College of Humanities and Social Sciences.
COLLEGE OF SCIENCE AND MATHEMATICS

Biology and Molecular Biology. (V-17) Teach B.S. and M.S. undergraduate courses in genetics and general biology. Develop and maintain active research program in eukaryotic genetics, including pursuit of funding, with undergraduate and M.S. student participation. Teaching excellence required. Send vita, statement of professional goals, and names of three references.

Chemistry and Biochemistry—Three tenure-track positions.

[Environmental/Analytical Chemistry (V-19), Biochemistry (V-18) and Organic Chemistry (V-20)]. Ph.D. in Environmental/Analytical Chemistry (with research interests/expertise in Environmental Chemistry) to contribute to the development of a doctoral program in Environmental Studies/Biochemistry/Organic Chemistry. Duties involve teaching general/specialty undergraduate and graduate level courses, and established record of successful research and grant activity. Send vitae, summary of research plans, and names of three references.

Computer Science. *V-1) Specialization in software engineering: modern architecture (RISC), Informatics, or Human-Computer Interaction. Experience with object oriented technology including C++ or Java. Ph.D. in Computer Science or closely related field. Establishment of successful research/teaching/research activity. Send vitae, statement of professional goals, and names of three references.

Mathematical Sciences. Applicants must have a strong commitment to quality teaching at both the undergraduate and graduate level.

(V-2) Teach undergraduate and graduate courses in applied mathematics, financial modeling, actuarial science. Ph.D. in Mathematics or Applied Mathematics required. Send vitae, statement of professional goals, research interests, teaching philosophy and names of three references.

For a complete job description on these positions, please contact Joseph Manna, Assistant Dean, College of Science and Mathematics.

SCHOOL OF THE ARTS

Fine Arts. (V-21) Teach beginning to advanced undergraduate and graduate courses in photography. Advise and mentor students.

M.F.A. in Photography, teaching experience at the college/university level preferred. Knowledge of new imaging technology necessary. Send letter and resume (including teaching philosophy, curriculum vitae, slides of work, and student work if applicable).

Music—Two positions. (V-22) Music Education. Instrumental music education specialist to teach undergraduate and graduate courses and supervise student teachers. Additional responsibilities may include directing the jazz ensemble and teaching techniques courses. Other duties depend on the candidate's area of expertise and the instructional needs of the Department. Doctorate needed for tenure. (V-23) Choral. Choral conductor and director of choral activities needed to join our other outstanding conductors in building first-rate performing groups. Build strong relations with high school conductors and actively recruit excellent student, and have a strong secondary area. Doctoral degree or master's degree and equivalent professional experience.

Speech Communication. (V-24) Teach broad spectrum of undergraduate and graduate theoretical and applied courses in Speech Communication. Ph.D. with a minimum of three years teaching experience.

Theatre and Dance. (V-25) Teach undergraduate introductory and advanced courses in acting, directing, theatre literature/theory, theatre appreciation, and direct Theatre Series seasons. Candidates should also demonstrate ability to teach voice or movement, or graduate courses in theory and performance. Ph.D., D.F.A., or M.F.A. in Theatre, and full-time college teaching experience required.

For a complete job description on these positions, please contact Geoffrey Newman, Dean, School of the Arts.

SCHOOL OF BUSINESS

Accounting. *V-26) Teach all levels of accounting with specific emphasis on Managerial Accounting. CPA and Ph.D. required. The School of Business offers a Bachelor of Science and a Master of Business Administration degree with a concentration in Accounting. The School is offering a Master of Science degree in Accounting for academic year 1998/1999 that satisfies the 150 hour requirement to sit for the NJ CPA exam.

Information and Decision Sciences. (V-27) Teach all levels of computer science and management information systems in both undergraduate and graduate programs with specific emphasis on business statistics, managerial statistics, operations analysis, management information systems, databases, management, systems analysis and design, and computer applications. A Ph.D. in Business Administration is required with major in Business Statistics, Quantitative Methods, Operations Analysis, Management Information Systems, or a related field. Applicants should have a record of publications as well as strong interest in pursuing meaningful research. Candidates must have demonstrated commitment to excellence in teaching.

Marketing. (V-28) Teach marketing and advertising at both the undergraduate and graduate levels. A Ph.D. in Business Administration is required with major in marketing or a related field. Applicants should have a record of publications as well as strong interest in pursuing meaningful research. Candidates must have demonstrated commitment to excellence in teaching.

For a complete job description on these positions, please contact Karen Dennis, Assistant Dean, School of Business.

Montclair State University has a long history of commitment to cultural diversity in its programs, faculty and students. To foster this multicultural environment, the University encourages application from minority group members for its faculty openings. Screening of applications begins immediately and continues until position is filled.

Complete job descriptions will be mailed upon receipt of application.

Send separate letter and resume for each position to:

Montclair State University
Box C316 V-8/0HE
Upper Montclair, New Jersey 07043

Include c/o name, job title and V-number of position.

An Equal Opportunity/Affirmative Action Institution.

DIRECTOR OF ASSESSMENT AND EVALUATION

POSITION DESCRIPTION (Temporary) To lead three major project initiatives for the assessment of undergraduate and graduate education at the Massachusetts Institute of Technology (MIT) under the guidance of the The Center for Advanced Educational Services, and working with the Office of the Dean of Undergraduate Education. The Dean of Engineering 50% effort: Will evaluate a large scale experiment employing technology-enabled pedagogy with MIT’s Newman physics freshman course. Using streaming video objects, a newly created web-based system will aim to create a “simulated office hour discussion” between student and teacher. The same is hypothesized to be a potentially powerful new learning environment to supplement the more usual teaching methods of freshman physics. 25% effort: Will provide assessment and evaluation expertise for engineering programs using educational technology and assessment mandates of required accrediting organizations (ABET) and government agencies. 25% effort: Will be responsible for the conceptual design and development of assessment tools (including electronic tools) for evaluating programs; developing strategic assessment plans for departments based on needs analyses and educational objectives of individual courses or department curriculum.

REQUIREMENTS: At least five years of experience in the field of assessment and evaluation in an academic setting, and a Ph.D. or equivalent, preferably in assessment, evaluation theory or a related topic area. Undergraduate science or engineering background preferred. Knowledge of learning theory and evidence of contribution to the discipline necessary. Familiarity with the range of assessment tools and their appropriate use needed, as are knowledge of statistical methodologies and experience with development and utilization of educational technologies. Excellent communication and interpersonal skills and ability to work with a variety of constituencies important. (This is a two year appointment with the possibility of renewal.)

Send resume and cover letter referencing John # 98-0483R to:

MIT
Jennifer Walsh
77 Massachusetts Avenue
Rm 19-230
Cambridge, MA 02139

CALVIN College

VICE PRESIDENT FOR STUDENT LIFE

Calvin College seeks applicants for the office of Vice President for Student Life. The Vice President for Student Life is the leader and chief administrative officer of the Student Life Division. She/he reports to the President and is responsible for the effective functioning of the Student Life division. The Vice President is responsible for the planning, execution, coordination, and evaluation of the goals, programs, policies, and staff members of the Student Life Division.

Calvin College is a Christian college in the Reformed tradition. The candidate must embrace the Reformed tradition of the Christian faith, energetically support the mission of Calvin College, and articulate a coherent vision for Christian student development. The successful candidate will hold a Master’s degree in an appropriate area (not necessarily required), have expertise in student services and student development, demonstrate a commitment to developing a multicultural community, have experience working with ethnic minorities, and possess proven management and leadership skills.

Candidates should submit a resume, including the names and telephone numbers of three references by November 15 to:

Connie Bellows, Director of Human Resources, Calvin College,
3201 Burton SE, Grand Rapids MI 49546.

Calvin College is an equal opportunity employer.

Applicants should include a resume, a cover letter that addresses their qualifications for the position, and the names, addresses, and phone numbers of three references. This position will be filled as soon as an acceptable candidate is found. Address all correspondence to: Chairperson, Computer Information Systems Search Committee, Greenville College, 509 East Green Street, Greenville, IL 62246-0599.
DEAN, COLLEGE OF ARTS AND SCIENCES

Arizona State University West, a vital component of ASU's multi-campus vision, serves nearly 5000 junior, senior, and graduate students at its modern, growing campus in northwest Phoenix, one of the country's most vigorous multi-cultural and economic environments. ASU West offers upper-division bachelors and masters degrees programs in the Colleges of Arts and Sciences, Education, Human Services, School of Management and the Division of Collaborative Programs. The campus is accredited by the North Central Association of Colleges and Schools and is dedicated to enhancing the educational, economic, cultural, and social development of the community. Faculty members are expected to integrate teaching, scholarship and service, to collaborate on interdisciplinary efforts to establish community partnerships, and to demonstrate a commitment to diversity.

ESSENTIAL FUNCTIONS

Arizona State University West seeks an imaginative and experienced academic leader to guide the College of Arts and Sciences. A vibrant unit comprised of approximately 100 faculty and staff with 172 undergraduate degree programs (six are interdisciplinary) and three certificate programs. As the academic leader and chief administrative officer of the College, the Dean is responsible for all personnel, academic programs, and resources, including budget, curriculum and program development and evaluation, internal and external relationships, and enrollment. The Dean Reports to the Provost and works with other campus deans to develop interdisciplinary approaches to teaching, research and service.

QUALIFICATIONS REQUIRED

Qualifications for competitive candidates include an earned doctorate or equivalent, a record of scholarly/creative achievement and teaching excellence appropriate for an appointment with tenure at the rank of professor in the College of Arts and Sciences.

QUALIFICATIONS DESIRED

Preference will be given to candidates with significant and appropriate experience in academic administration, demonstrated effective interpersonal and communication skills, a record of support for cultural diversity, experience in areas such as evaluation of ranked faculty for promotion and tenure, budget management, curriculum and program development and assessment, and evidence of ability to work effectively with multiple constituencies on and off campus.

ROBERT O. SCHULZ CHAIR IN INTERDISCIPLINARY STUDIES

One-year term position. The Robert O. Schulz Chair will serve as the resident interdisciplinary endowed chair for the College of Arts and Sciences during the 1999-2000 academic year.

QUALIFICATIONS AND EXPERIENCE: Required for the position include a commitment to teaching excellence in the natural sciences, social sciences, and humanities and a record of scholarly contributions to the advancement of these fields. The successful candidate will have a broad knowledge of the scholarly community and a commitment to enhancing the undergraduate experience through teaching and scholarly activities. The successful candidate will be committed to enhancing the undergraduate experience through teaching and scholarly activities. The position includes a salary of $50,000 per year. Inquiries: Committee on Interdisciplinary Studies, 970/351-2726.

The College of Arts and Sciences consists of several departments in humanities, social sciences, and sciences. The College is committed to the values attributed to a liberal arts and sciences education and offers programs leading to degrees at the baccalaureate, masters and doctoral levels. Currently there are an approximately 5,000 undergraduate and 1,700 graduate students in ASU's programs. The College is consistently acknowledged for its areas of learning communities for new students, a program of interdisciplinary general education courses (Life of the Mind), interdisciplinary Mathematics and Science Teaching (MAST) Center and the interdisciplinary Institute for Humanities and Social Sciences.

For more information about the College of Arts and Sciences, please visit our home page at http://www.asuw.edu.
SAN DIEGO STATE UNIVERSITY is committed to high quality baccalaureate and graduate education and to be obtained through excellence in teaching, support for and dissemination of research by students and faculty, and community service. The University seeks to take advantage of the opportunities inherent in an urban setting with a diverse population that borders Mexico and the Pacific Rim. The University has a vision that extends beyond our immediate boundaries and touches the lives of people we aspire to serve. The University seeks faculty who possess the passion generated by the knowledge of their disciplines and who believe that the University is a part of the community in which it resides.

THE UNIVERSITY OF CHICAGO

COORDINATING COUNCIL FOR MINORITY ISSUES

ASSISTANT CHAIR OF THE COORDINATING COUNCIL FOR MINORITY ISSUES

The Coordinating Council for Minority Issues (CCMI) is an advisory group composed of administrators from various areas on campus. CCMI's mission is to increase minority representation in academia by providing leadership and support for students from underrepresented minority groups. The Chair of CCMI is also the Principal Investigator for the University's National Center for Minority Student Affairs Initiative.

Under the supervision of the Chair of CCMI, the Assistant Chair will perform a number of duties, including but not limited to: coordinating CCMI events, overseeing and supporting minority student groups, and serving on search committees that directly affect students from underrepresented minority groups.

Qualifications:
- Bachelor's degree required; Ph.D. graduate school preferred
- Excellent communication skills
- Proven record of success in promoting cultural diversity and social development
- Experience with college/university administration, development, and other similar work
- Familiarity with the University of Chicago and the city
- Active role in local community
- Commitment to diversity

The University of Chicago is an Equal Opportunity, Affirmative Action Employer.

VANDERBILT UNIVERSITY

PABODY COLLEGE OF EDUCATION
AND HUMAN DEVELOPMENT

The Department of Teaching and Learning of Peabody College at Vanderbilt University invites applications for a tenure-track position in mathematics education at the assistant professor level beginning fall 1999. The department seeks an individual with a strong research background or a clear potential for one to actively contribute to research and development efforts in teaching and learning mathematics, mathematics teacher education, and applications of technology to mathematics education. Applicants should have a strong background in mathematics with an earned doctorate in mathematics education or a related field, pre-college teaching experience or its equivalent, a demonstrated commitment to teaching, and the promise of a strong research program. The Peabody environment is one in which collaboration is highly valued and in which there are many opportunities to work with members of other departments, particularly in projects involving technology. Applications are encouraged from researchers who work on sociology, philosophy, psychology, and other educational research. The successful applicant will teach graduate and undergraduate courses and advise students. Applications will be reviewed beginning January 15, 1999, and will continue until the position is filled. Send letters of interest, no more than two publications (or manuscripts in progress), current vita, and the names of three references to Pat Thompson, Chair, Mathematics Education Search Committee, Peabody College Box 3300, Vanderbilt University, Nashville, TN 37203.

Prospective applicants are encouraged to visit the Vanderbilt Peabody College website at http://www.peabody.vanderbilt.edu/peabody/.

Vanderbilt University is an affirmative action employer with a strong institutional commitment to diversity in all areas.

EEO/AA Employer
Women and minorities are encouraged to apply.
The Department of Kinesiology at the University of Illinois at Urbana-Champaign is seeking qualified applicants with expertise in research design, statistical analysis, and measurement to fill an open rank tenure track position. Candidates will be expected to teach at the undergraduate and graduate levels, advise and direct student research, engage in interdisciplinary research within the Department, and seek extramural funding. There currently exists within Kinesiology an interdisciplinary faculty with interests in Lifespan Physical Activity, Human Performance and Fitness, Disability Disease and Rehabilitation, Human Factors, and Cultural Studies. Well-equipped laboratories exist both in the Department of Kinesiology and across campus to support the interdisciplinary research in physical activity. Further information about the Department of Kinesiology can be found by visiting http://www.kines.uiuc.edu.

Qualifications include an academic background in one of the general areas of Kinesiology or related field. Experience in latent variable modeling and analysis of developmental growth and change over time desired. A doctorate is required. Teaching and post-doctoral research experience desirable. Women and minorities are especially encouraged to apply. Salary is commensurate with experience and qualifications. To assure full consideration, letter of application, vitae and three letters of recommendation should be submitted by November 13, 1998. The appointment will be effective February 1, 1999. Interviews may be conducted before the closing date, but all applications received by November 13, 1998 will receive full consideration and the final decision will not be made until after that date. Application materials should be sent to:

Edward McAuley
Chair of the Search Committee
Department of Kinesiology
University of Illinois at Urbana-Champaign
990 S. Goodwin Avenue
Urbana, IL 61801

DEPARTMENT HEAD

English Language and Literature

Eastern Michigan University invites applications for Head of the Department of English Language and Literature. The Department of 53 full time faculty and approximately 30 adjunct instructors, offers bachelor's and master's degrees, with concentrations in literature, written communications, journalism, public relations, creative writing, children's literature, and linguistics. EMU is a comprehensive regional institution with 24,000 students, located 5 miles from Ann Arbor and 35 miles from Detroit. The EMU faculty is an AAUP collective bargaining unit. Position requirements include:

- Ph.D. or equivalent terminal degree in a field taught in the department
- Record of excellence in teaching and scholarly or creative activity sufficient to warrant appointment as full professor
- Demonstrated commitment to promoting and encouraging undergraduate and graduate instruction, scholarly research, and faculty, staff, and student development
- Evidence of leadership and administrative potential including organizational, budgetary, communication, and planning skills
- Strong interpersonal skills and a commitment to shared governance

We are looking for a person who will work cooperatively with the faculty, which has a long tradition of mutually supportive collegiality among its many disciplines. The faculty edit a critical journal, The Journal of Narrative Technique, the literary journal Sulfur, and Longest, the primary clearinghouse for linguistic information on the Web. The National Writing Project funds a site here. We have been highly successful in securing research grants and sabbatical leaves, and in recruiting strong new faculty each year. The Department Head position is a 12-month administrative appointment. The anticipated date of appointment is July 1, 1999. Applicants should submit a resume, a letter of interest, three letters of recommendation, evidence of teaching and administrative ability, a sample of scholarly work, and a statement summarizing administrative philosophy, no later than December 1, 1998. Preliminary interviews will be conducted at the MLA meeting, but other arrangements can be made for candidates who are not attending the conference. Respond to:

Eastern Michigan University
Ypsilanti, MI 48197

EMU is an affirmative action/equal opportunity employer.

PROVOST AND VICE CHANCELLOR FOR ACADEMIC AFFAIRS

The University of Massachusetts Boston invites applications and nominations for the position of Provost and Vice Chancellor for Academic Affairs. UMass Boston is a community of scholars that prides itself on academic excellence, diversity and its commitment to both undergraduate and graduate education. A comprehensive public university serving 12,000 students. UMass Boston was established in 1964 and belongs to the five-campus state university system instituted in 1991.

Today UMass Boston is nationally recognized as a model of excellence for urban universities with rapidly growing research and doctoral program in major reform and revitalization of the general education program, and great early success in its first ever capital campaign. More than ever, members of the University community are conveners and innovators in the civic affairs of Greater Boston.

The new Provost/Vice Chancellor is expected to play a central role in shaping the university's agenda for the next century. S/he will have the opportunity to:

- Integrate and strengthen the relationships among undergraduate, graduate, and professional programs;
- Further promote the University's commitment to excellence and innovation in teaching and learning, including active investigation of applications of new technologies;
- Lead the faculty in increasing external funding for research and graduate education;
- Ensure that the University remains a premiere educational resource for the citizens of Greater Boston by establishing closer links with the community;
- Make several key appointments to the academic leadership team;
- Strengthen the collaboration between academic affairs and student affairs;
- Develop a strategic approach to translating academic priorities into budgetary allocations;
- Sustain the accomplishments in achieving and sustaining diversity in all aspects of University life; and
- Actively support the University's fund raising campaign.

The successful candidate will possess the following experiences and personal characteristics:

- An earned doctorate and a record of teaching and scholarship that would justify appointment as a tenured professor;
- A vigorous vision of the future of urban public higher education;
- The ability to establish and cultivate collaborative relationships among a wide and diverse range of constituencies;
- A record of successful administrative leadership, including strategic fiscal management; and
- Sound judgment and keen diplomatic skills.

Please forward nominations and applications to: Chair, Provost Search Committee, c/o Office of the Chancellor, University of Massachusetts Boston, 100 Morrissey Blvd., Boston, MA 02125-3393. Please include cover letter, names of three references, and curriculum vitae. The search committee will begin review of applications on October 1, 1998. The University of Massachusetts Boston is an Affirmative Action, Equal Opportunity, Title IX employer. Women and persons of color are strongly encouraged to apply. http://www.umb.edu.
Assistant Dean
Graduate College
School of Interdisciplinary Arts and Sciences

The Union Institute seeks an experienced, self-motivating academician to serve as Assistant Dean of the Graduate College, School of Interdisciplinary Arts and Sciences. The Assistant Dean works as a team with the Dean of the School of Interdisciplinary Arts and Sciences and the Dean of Academic Administration to provide administrative facilitation of the academic programs of the Graduate College including the following functions: Reviews admissions applications and represents the Dean on the Admissions Committee; reviews learner documents, including the Learner Agreement; the Program Summary and the Project Demonstrating Excellence (dissemination): makes recommendations concerning Certification and Graduation: reviews draft transcripts and edit final transcripts in cooperation with the Office of the Registrar; reviews requests for emergency leaves and special accommodations under the Americans with Disabilities Act (ADA); and develops annual colloquium schedule and produces annual seminar catalog. Assistant Deans are accredited faculty privileges and may work with a limited number of doctoral learners in addition to their administrative duties.

The Assistant Dean should be a person of integrity and imagination, with a discerning critical mind, empathic character, and a good sense of humor. Expectations include an earned doctorate with a three to five year record of successful teaching, scholarship, and administration. We also seek individuals with a commitment to person-centered graduate education and experience working with adult learners.

The Union Institute is an accredited, independent university offering adult learners the opportunity to design and carry out individualized programs of study across a wide range of academic fields. The Graduate School of Arts and Sciences offers only the Ph.D. It has 36 core faculty, over 1,000 adjunct faculty and 840 learners enrolled in an interdisciplinary doctoral program. Our offices are located in Cincinnati, Ohio, where the Assistant Dean will be expected to reside.

Salary is commensurate with experience and qualifications. Please send nominations and applications postmarked no later than December 1, 1998 to

Assistant Dean Search Committee
School of Interdisciplinary Arts & Sciences
Human Resources Office
The Union Institute
440 E. McMillan Street
Cincinnati, OH 45206-1925

Please submit a current vita and the names, addresses and phone numbers of at least five persons from whom we may solicit commentary. Each applicant should submit a cover letter which indicates his or her background and educational philosophy consistent with specific preparation and standards for the position.

The Union Institute is an Affirmative Action/Equal Opportunity Employer.

Bentley College, The Business School for the Information Age, is developing a ground-breaking curriculum for the 21st century. Our faculty are committed to integrating technology into the learning process and course content, making extensive use of information technology professionally; contributing to cross-disciplinary teaching; fostering connections between classroom and broader aspects of students' experiences; and community-building activities. Among the College's new information-age facilities are the recently opened Hughney Center for Healthcare Services housing a state-of-the-art trading room, and a specialized academic building that will be completed in the year 2000. To complement our curricular and physical growth, the Bentley College Board of Trustees has authorized hiring a large number of new faculty able to contribute significantly to our strategic goals over the next five years.

Trustee Professorship
New for Fall 1999

President Joseph Morone invites nominations and applications for the third Trustee Professorship to be funded by the College. We anticipate that applicants and nominees for this special position currently are Assistant or Associate Professors who, if appointed at Bentley, will enter as an Associate Professor with tenure. The initial term of appointment as a Trustee Professor will be for 5 years and is renewable.

We seek a truly outstanding individual poised to provide leadership into the next century in advancing the use of information technology in both teaching and scholarship. Ideally, your scholarly interests will be cross-functional. The appointment will be in one of Bentley's traditional business (and business-related) departments or programs: Accountancy, Business Communication, Computer Information Systems, Economics, Finance, Law, Management, Mathematical Sciences, Marketing or Taxation. The Trustee Professor must be willing to teach in cross-functional courses and participate extensively in curriculum and program development. The teaching load will be one course per semester. College resources, such as summer grants and graduate assistant support, will be provided.

For best consideration, nominations and applications should be forwarded by November 15, 1998 to:
Dr. H. Lee Schlott, Vice President for Academic Affairs, Bentley College, 175 Forest Street, Waltham, MA 02154-4706. Candidates will be considered until the position is filled.

An equal opportunity employer building strength through diversity and welcome applications from underrepresented groups.

Teaching responsibilities will include three courses per semester at undergraduate and graduate levels and successful candidates are expected to contribute intellectually to scholarly research and professional development. Excellent benefits. Applications are currently being accepted and will continue until the position is filled. Send a letter of application, resume, three letters of recommendation to:

Thomas J. von der Embse, Dean
Division of Business and Economics
Indiana University Kokomo
P.O. Box 9003, Kokomo
IN 46904-9003
Email: tvandere@iusk.edu

Indiana University Kokomo is an Equal Opportunity/Affirmative Action employer. Applications from women and minorities are encouraged.

1) Associate/Full Professor of Communication. The successful candidate will have a
earned doctorate in Communication or a related field, a novel of scholarly accomplishments and
research success at the undergraduate and graduate levels, appropriate for appointment as Associate
Professor or Full Professor, a strong record of external research funding, and demonstrated commitment to
multi-disciplinary scholarship. We are
looking for someone who will have interests in program development, particularly in the graduate
career and faculty and graduate student training. A candidate must also have a primary background in the
study of communication technology with additional interest in intercultural communication and/or media studies.

2) Assistant Professor of Communication. The successful candidate will have an earned
doctorate in Communication or a related field, strong promise of scholarly accomplishments and
research success at the undergraduate and graduate levels, appropriate for appointment as Assistant
Professor, and a strong record of external research funding and demonstrated commitment to
multi-disciplinary scholarship. A candidate must also have a primary background in health communication, with additional interest in intercultural communication and/or media studies.

Located in the heart of Chicago, Illinois, The University of Chicago is a leading research institution with over 60,000 undergraduate and graduate students, over 3,000 faculty and 10,000 staff. The Department of Communication has 9 full-time faculty, approximately 50 graduate students and 20 Undergraduate students. The University expects to develop a doctoral program in Communication. The Department of Communication is located in the beautiful University of Chicago. The position is a tenure-track position at the rank of Assistant Professor.

Applications are encouraged until filled, with priority given to those received by November 30, 1999. Submit a letter of application, a complete curriculum vitae, samples of recent scholarly publications, and four letters of reference to:

Professor Kevin G. Barnhurst
Chair, Communication Search Committee
Department of Communication (m/e 132)
The University of Illinois at Chicago
1007 W. Harrison St.
Chicago, IL 60607-7137

Applications should be submitted by November 30, 1999. The University of Illinois is an Affirmative Action, Equal Opportunity Employer.
AMHERST COLLEGE
ASSOCIATE DIRECTOR
OF MAJOR GIFTS

AMHERST COLLEGE invites nominations and applications for the position of Associate Director of Major Gifts in the Office of Development, reporting to the Director of Capital Giving. This person will play a key role in helping Amherst successfully complete its campaign, scheduled to end June 30, 2001, with his/her primary responsibility being to create and execute solicitation strategies to secure six- and seven-figure gifts from alumni, parents and friends. Additional responsibilities include the identification of new prospects, the organization of special events and events, and other assignments in support of the campaign. Amherst seeks an experienced professional with an exhibited ability to work collegially in a team environment, to speak for all the needs of an integrated, comprehensive development program, and to create new opportunities to strengthen an individual's relationship with the institution. This officer will be a senior member of the Development team, and will have frequent contact with alumni leaders, faculty, and other College officers.

QUALIFICATIONS INCLUDE: a minimum three to five years of experience in higher education fundraising; a proven track record of soliciting major gifts within a donor-centered long-term relationship-building structure; the ability to work independently and creatively within established guidelines, while at the same time performing as a member of a team in a complex organization: strong interpersonal and communication skills. Extensive travel, including some weekend work, will be required. The successful candidate will have a clear understanding and appreciation of the role of a private liberal arts college, a commitment to its mission, and the personal intellectual skills necessary to articulate institutional needs to a variety of audiences.

Inquiries, nominations, and applications (which should include a current resume and the names and addresses of three references) should be sent to: Office of Human Resources, Box 2204, Amherst College, Amherst, MA 01002-5000. Applications will be considered until the position is filled, with appointment as soon as possible.

Amherst College is an Equal Opportunity/Affirmative Action employer and encourages women, minorities, and disabled persons to apply.

University of Maryland, College Park
Robert H. Smith School of Business
Organizational Behavior

The Management and Organization Faculty invites applications for a tenure-track faculty position in Organizational Behavior. The position is available for Fall 1999 at the assistant or associate level, depending on the qualifications of the applicant. The Robert H. Smith School of Business has nationally ranked programs at both the undergraduate and MBA levels and a strong, active doctoral program.

Candidates must possess an earned doctorate in Organizational Behavior or a closely related field (or must have very strong likelihood of obtaining their doctoral degree before September 1999). We encourage the following as desirable: a programmatic research agenda, publications or acceptances in the major journals, and evidence of strong teaching skills. Accordingly, we would be open to (and, would indeed welcome) candidates who could join our group at the senior assistant or associate level.

We invite applications from candidates pursuing research in any of the sub-streams of organizational behavior. Assuming strong research credentials, we would be particularly receptive to candidates working on issues pertaining to knowledge management, organizational learning, international organizational behavior, virtual teams, and/or the interplay between organizational behavior and technology.

Applicants should send their vita, one page outline of anticipated research stream, examples of research, and evidence of teaching effectiveness and also arrange for three or more letters of recommendation to be forwarded to Professor Henry P. Sims, Jr., Robert H. Smith School of Business, University of Maryland, College Park, MD 20742. Applications and related materials must be received by November 15, 1998 to be guaranteed the fullest consideration.

The University of Maryland subscribes to a policy of equal employment opportunity and will not discriminate against any employee or applicant because of race, age, sex, color, physical or mental handicap, national origin or political affiliation. Minorities and women are encouraged to apply.

Minimum qualifications for all positions include an earned doctorate in an appropriate field and evidence of high quality scholarship commensurate with the position level.

Women and minorities are encouraged to apply.

MSU is an affirmative action/equal opportunity institution.

Latin American History: Joint appointment in the Department of History and in the Institute for Ethnic Studies (Latino and Latin American Studies) Assistant Professor tenure track, beginning Fall 1999. PH.D. required by time of appointment. Specialization in one or more of the following fields: modern Latin American, cultural studies, Chicana. Spanish speakers, indigenous peoples of Latin America, modern South America. Ability to teach undergraduate and graduate level courses in Latin American history and courses in Ethnic Studies. Consideration of applications will begin Nov 1 and continue until position is filled. Send letter of application, CV, and three letters of recommendation to: Professor Alan E. Steinweis, Chair, Latin American Search Committee, Department of History, University of Nebraska-Lincoln, Lincoln, NE 68588-0327.

The University of Nebraska is committed to a pluralistic campus community through alternative action and equal opportunity, and is responsive to the needs of dual career couples. We assure reasonable accommodation under the Americans with Disabilities Act. Contact Alan E. Steinweis at (402) 472-8577 for assistance.
OSWEGO STATE UNIVERSITY
Department of Modern Languages & Literatures

Oswego State University requests applications for the Chair of Modern Languages & Literatures, a department with ten full-time faculty, offering language and literature majors in Spanish, French, German, and Chinese, and a strong program in Italian, Japanese, Russian, and American Sign Language. The Department of Modern Languages is also pursuing innovative programs in Language and International Trade and languages. Across the Curriculum. We seek an experienced leader who will support these efforts and assist the department in identifying future directions.

The Chair will be a member of the Spanish section of the Modern Languages Department. He or she should have a Ph.D. and accomplishments as a teacher and scholar appropriate for appointment at the Associate Professor or Professor rank.

The Chair of Modern Languages should also have: (1) demonstrated administrative skills (e.g., as a department chair, program director, governance leader, or successful leader in curriculum reform), (2) the ability to work effectively and collegially with others, and (3) knowledge of current issues in foreign language programs in higher education, including experience with the latest educational technologies.

Salary will be commensurate with rank and experience. Applicants should submit a letter of application, resume, and the names of three references with addresses and telephone numbers to:

Dr. Mary Frances Stock
Office of the Dean of Arts and Sciences
601 Culkin Hall
Oswego State University
Oswego, New York 13126

Review of applications will begin December 1, 1998 and will continue until the position is filled.

California State University, Bakersfield invites applications and nominations of candidates for the position of Provost and Vice President for Academic Affairs. CSUB was founded in 1968 and is one of the twenty-two campuses in the California State University System. This regional comprehensive university is located in the city of Bakersfield, which has a metropolitan population of about 300,000. It serves a growing and diverse population of 700,000 who live in the Southern San Joaquin Valley. The enrollment of the university is growing at about five percent annually, and it is now at 5,700.

The Provost is the chief academic officer and reports directly to the President. The Provost has direct administrative responsibility over the Schools of Arts and Sciences, Business and Public Administration, and Education, the Division of Extended University. The Office of Graduate Studies and Research, the Office of the Associate Vice President for Academic Affairs and Dean of Undergraduate Studies, and the Athletics program. In budget management and operations, the Provost for Information Resources also reports to the Provost. The Division of IR includes the Library, Computer Services, Telecommunications and Media and User Support Services.

The Provost is a member of the President’s Cabinet. The Provost is the President’s designee in working directly with the Academic Senate and chairs the Council of Academic Deans. The University is accredited by the Western Association of Schools and Colleges, and its degree programs in business, public administration, education and nursing are accredited by AACSB, NASPAA, NCATE, and AACTI, respectively.

The Provost is expected to provide academic administrative leadership for the university, including implementation of the institution’s Statement of Mission and Goals and supporting institutional priorities such as outreach to underserved populations, developing effective uses of electronic communications and computing technologies in teaching and learning, identification of program goals and program assessment, maintaining quality of academic programs, faculty development, and improving teaching and learning and student support.

QUALIFICATIONS INCLUDE: (1) an earned doctorate and record of teaching, service, and scholarly achievement sufficient to merit appointment at the rank of Professor; (2) appropriate academic administrative experience within the last five years in a position(s) at least equivalent to an academic dean; (3) a commitment to educational equity and the value of ethnic and gender diversity among faculty and institutional student populations; (4) demonstrated successful experience in establishing and maintaining consultative working relationships decision making with all segments of the campus community; and (5) proven effectiveness in acquiring, allocating, and managing academic resources.

The appointment is expected to begin no later than August 1, 1999. CSUB fosters and appreciates ethnic and cultural diversity among its faculty, students, and administrative staff. Applications from women, ethnic minorities, veterans, and individuals with disabilities are welcome. Salary and benefits are competitive with comparable institutions with experience and qualifications. For maximum consideration, deadline for receipt of application materials is November 13, 1998. However, the position will remain open until filled. Nominations or letters of application will be reviewed and the names of at least four references should be sent to:

Chair, Search Committee, Provost and Vice President for Academic Affairs
Office of the President
California State University, Bakersfield
9001 Stockdale Highway
Bakersfield, California 93311-1099
ASSISTANT DEAN
GRADUATE COLLEGE
School of Professional Psychology

The Union Institute seeks an experienced, self-motivated academician to serve as Assistant Dean of the Graduate College, School of Professional Psychology. The Assistant Dean works as a team member with the Dean of the School of Professional Psychology and others to provide administrative and other services to the academic programs of the Graduate College, including the following: develops and directs a dispersed internship consortium; reviews and evaluates program documents including the dissertation advisor; advises faculty and learners on program policies and procedures; represents the Dean of the Office at selected meetings; assists with the day-to-day operation of the Office; and attends University faculty meetings. Assistant Deans are awarded faculty privileges and may work with a limited number of doctoral learners in addition to their administrative duties.

The Assistant Dean should have a person of integrity and imagination, with a discerning critical mind, empathetic character, and a good sense of humor. Expectations include an earned doctorate in Clinical Psychology, a psychologist's license, extensive experience as a psychotherapist and a minimum of five years experience working with a collaborative team. The position requires travel and the ability to maintain confidentiality in the development of the psychology profession through participation in the governance of a state psychology association, APA, or service on a state licensing board. We are seeking an individual with a commitment to person-centered graduate education and experience working with adult learners, who enjoys organizational development and has functional computer skills, especially in on-line scholarship research.

The Union Institute is an accredited, independent university offering programs of study across a wide range of academic fields. The Graduate College, School of Professional Psychology has a core faculty, over 400 adjunct faculty and 247 learners enrolled in an interdisciplinary doctoral program in clinical psychology. Our offices are located in Cincinnati, Ohio, where the Assistant Dean will be expected to work.

Salary is commensurate with experience and qualifications. Please send nominations and applications postmarked no later than December 1, 1998 to:

Assistant Dean Search Committee
School of Professional Psychology
Human Resources Office
The Union Institute
440 E. McMillan Street
Cincinnati, OH 45206-1925

Please submit a current vita and the names, addresses and phone numbers of at least five persons from whom we may solicit recommendations. Each applicant should submit a cover letter which indicates how his/her background and educational philosophy constitute specific preparation and suitability for the position.

The Union Institute is an Affirmative Action/Equal Opportunity Employer.

VANDERBILT UNIVERSITY
PEABODY COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

CHAIR, DEPARTMENT OF TEACHING AND LEARNING

Peabody College, Vanderbilt University, invites applications for the position of Chair of the Department of Teaching and Learning. We are seeking a senior scholar with a strong record of research in teaching and teacher education who can be an effective department advocate. This individual will lead the department in shaping a vision that builds on our strengths in graduate and undergraduate programs in research on teaching and learning in literacy, mathematics and science, collaborative partnerships with schools, use of technology to support teacher education, and commitment to the goals of diversity and multicultural understanding.

The Department, with 28 full-time faculty, has a significant record of external funding and offers graduate and undergraduate teacher certification programs in early childhood, elementary and secondary education. Graduate program areas include Curriculum and Instructional Leadership, Language and Literacy, Mathematics Education, Science Education, and Early Childhood Education.

QUALIFICATIONS: Earned doctorate in education or related field; a strong record of scholarship and leadership in teacher education, teacher professional development and teacher learning sufficient to warrant appointment at the rank of professor; and administrative experience.

Candidates are asked to submit a letter of application, statement of educational philosophy, curriculum vitae, and names of three people who will provide letters of recommendation to:
Pat Thompson, Chair, Search Committee; Box 330 Peabody College; Vanderbilt University; Nashville, TN 37203. Telephone: (615) 322-8100; email Pat.Thompson@Vanderbilt.edu.

We encourage applications and nominations from persons of diverse backgrounds. Review of applications will begin December 1 and continue until the position is filled.

Vanderbilt University is an affirmative action, equal opportunity employer. For additional information visit us at: www.peabody.vanderbilt.edu.

THE UNIVERSITY OF MICHIGAN

Ann Arbor, MI 48109-1285

DEADLINE: Review of applications will begin November 15, 1998 and continue until the positions are filled.
PRESIDENT
Empire State College

History changed forever at Saratoga in 1777. And in that same place one hundred ninety-four years later, higher education in New York changed forever as well.

In 1971, a creative and innovative group of educators founded Empire State College as an academically rigorous, student-centered institution. Operating as a college of arts and sciences of the State University of New York, Empire State College is recognized as a world leader in designing and delivering programs that meet the academic, personal, and professional goals of more than 10,000 students each year. Offering the latest technological methods, as well as faculty mentors and students working together oneto-one, Empire State College remains a true innovator in delivering highest quality education to diverse adult students.

The College’s administrative headquarters is located in Saratoga Springs, an historic community of 25,000 residents, 30 miles from Albany, the state capital, and 180 miles from New York City, at the foot of the Adirondack Mountains. The College has 44 sites in New York State, as well as international offices in Israel, Cyprus, and Athens.

Our new president must have strong academic credentials, experience designing and delivering educational programs to adult learners, significant administrative experience, and strong advocacy and fund-raising skills. We are looking for someone who is comfortable working in a dispersed and highly collaborative structure, who has the creative spirit to keep us on the cutting edge of academic excellence and innovation, and who has the practical disposition and experience to make it all work. We invite candidates from academe and those with applicable credentials from other sectors, as well.

For more information about the College and the presidential search, visit the Empire State College web site at www.esc.edu/presidentsearch or write to:

Mr. George Sinnott
Chair, Presidential Search Committee
Empire State College
1 Union Avenue
Saratoga Springs, NY 12866-4390

Dr. Barbara E. Taylor of the Academic Search Consultation Service in Washington, DC, is assisting with the search. Inquiries may also be directed to her at 202/884-0808 or via e-mail at bet@academic-search.org.

Empire State College is an equal opportunity employer and encourages the nominations and candidacy of women and persons of color.

TENURE-TRACK ASSISTANT PROFESSOR
DEPARTMENT OF SOCIOLOGY

The Department of Sociology at the University of St. Thomas is seeking to fill a tenured-track assistant professor position in the area of criminal justice beginning September 1, 1999. The department is looking for someone whose primary research interests and professional activities are in the fields of crime and criminal justice. Teaching responsibilities will include courses in criminology, juvenile delinquency or criminal justice; introductory sociology and/or social problems, and a seminar for criminal justice majors who are completing a required internship in the field.

A Ph.D. in Sociology is strongly preferred. ABDs will be considered. Excellence in teaching is required.

The University of St. Thomas is a Catholic liberal arts university dedicated to the education of the student as a whole person. The Department of Sociology aims to provide students with a solid theoretical understanding of crime and criminal justice as well as prepare them to be competent and ethical professionals in the field of criminal justice. The University of St. Thomas is located in the heart of the Twin Cities of St. Paul and Minneapolis.

Please send a cover letter (refer to #206320) indicating your interest and qualifications for this position, along with a vita. Evidence of excellence in teaching (including student evaluations and samples of syllabi and assignments), and three letters of reference by October 30, 1998 to:

Search Committee, Department of Sociology, Mail #5021, University of St. Thomas, 2115 Summit Avenue, St. Paul, MN 55105.

The University of St. Thomas is an equal opportunity employer. Women and people of color are especially encouraged to apply for this position.

Recreation and Park Management Program
ASSISTANT PROFESSOR
Penn State

Assistant Professor with emphasis in commercial recreation and tourism. Salary and contract: Salary contingent on professional record. This is a continuing tenure-track position. Full-time, nine-month appointment to begin Fall semester 1999.

Responsibilities: Duties will include undergraduate teaching in the recreation and park management core as well as the option in commercial and community recreation. Faculty will focus on teaching and advising. All faculty are expected to work in the context of the land grant university mission which emphasizes research and scholarly productivity, teaching, and professional service and outreach.

Qualifications: Candidates must have a Ph.D. in recreation and/or tourism related disciplines; to apply for the position, candidates must have a strong background in current trends in recreation and park management; and be able to contribute to the Penn State’s international program.

Curriculum: The Recreation and Park Management Program in the School of Hotel, Restaurant and Recreation Management at Penn State offers three levels of academic excellence. The graduate program includes both the masters and the Ph.D. The Ph.D. program has four options: 1) Commercial and community recreation, 2) Outdoor recreation and environmental interpretation, 3) Professional diet management, 4) Therapeutic recreation.

Application deadline: The review of applications will begin December 1, 1998. Review of applications will continue until position is filled.

Apply to: Send resume with list of three professional references to Dr. Deborah Kerfoot, Chair of the Search Committee, H-3630, 201 Mater Building, Penn State University, University Park, PA 16802-1307.

Penn State is committed to affirmative action, equal opportunity, and the advancement of all workers.

The Evergreen State College
Faculty Positions for 1999-2000

About Evergreen: Evergreen is a non-traditional, public, liberal arts college emphasizing interdisciplinary study and collaborative team teaching throughout its undergraduate curriculum and graduate programs. Teaching is the central work of the faculty at both the undergraduate and graduate levels.

Recognizing cultural diversity as a defining characteristic of the 21st Century, the College has intensified its efforts to become a multicultural institution. Substantive experience and expertise in working across cultural differences is therefore highly desirable for all positions.

At this time, we seek candidates in the subject areas specified. For some of the following positions, we invite applications only from recent graduates. All of these openings are Regular positions. Such faculty are typically tenured at the time of appointment and are eligible for permanent appointments after five years of full-time teaching at Evergreen.

All positions require an advanced degree, with strong preference given to candidates with a Ph.D. or an analog from a MFA and broad interdisciplinary training experience. Candidates for all positions must demonstrate potential for excellence in teaching and in collaborative work.

As an equal opportunity employer, the College welcomes candidates from diverse backgrounds. Women, minorities, and members of other disadvantaged groups are encouraged to apply.

To be eligible for appointment, candidates must have an advanced degree, with strong preference given to candidates with a Ph.D. or an analog from a MFA and broad interdisciplinary training experience. Candidates for all positions must demonstrate potential for excellence in teaching and in collaborative work.

For complete position descriptions and procedures, please contact Faculty Hiring Coordinator, The Evergreen State College, L-221, Olympia, WA 98505, (360) 866-6000, ext. 6821 or email blodgett@ewha.evcc.org.

Review of applications will begin on date indicated and continue until filled. Women are encouraged to apply. The College reserves the right to extend searches to other positions as needed. All positions offered are contingent upon funding. Persons with disabilities may receive accommodations in the hiring process by contacting the Hiring Coordinator.

Committed to equal opportunity and affirmative action, TESC is working to build a diverse, broadly-trained faculty and particularly encourages applications from women, people of color, immigrants, people with disabilities, and members of other disadvantaged groups. Women, minorities, and members of other disadvantaged groups are encouraged to apply.

204
UNIVERSITY OF MARYLAND UNIVERSITY COLLEGE

The President and the Regents of the University System of Maryland invite nominations and applications for the position of President of University of Maryland University College. We seek an entrepreneurial leader whose vision will guide UMUC as we move into a new educational era, building upon our global positioning and extensive online offerings. The President will foster partnerships and co-ventures with organizations in both the public and private sectors, as well as strengthen cross-institutional collaboration within the University System of Maryland. The appointment is expected to be effective at the beginning of calendar year 1999.

The President is the chief executive officer of University of Maryland University College, one of twelve degree-granting institutions in the University System of Maryland (USM), an agency of the State of Maryland. With more than 65,000 undergraduate and 5,000 graduate students and a budget for the current year in excess of $125 million, UMUC is the only USM institution that specializes in providing educational opportunities for the professional workforce worldwide. UMUC is an innovative institution whose mission, through its 50-year history, has been to serve adult students, offering credit programs leading to bachelor's and master's degrees. UMUC's two overseas divisions offer programs to the U.S. service members and their families worldwide. A recognized global leader in distance education, UMUC delivers courses through the Maryland and the nation, and the world using the World Wide Web, interactive video, and other distance learning technologies. UMUC's administrative headquarters are located in College Park, Maryland. For additional information about UMUC, please visit www.umuc.edu.

The President is responsible for all operations of the University, including overall leadership and guidance of the institution's academic programs, fundraising, and development of budget requests, and the administration of resources. The President is responsible to the Chancellor of the University System and operates in accordance with policies and procedures established by the USM Board of Regents.

Applications and nominations should be addressed to:

Richard F. Bierwitt, Chair, Presidential Search and Screening Committee
Office of the Chancellor
University System of Maryland Headquarters
3300 Metzerott Road
Adelphi, Maryland 20783

Or to our search consultant, Korn/ Ferry International (Attn: John H. Kuhnle), 900 19th Street, N.W., Washington, D.C. 20006-2185.

For full consideration, applications and nominations should be received by October 15, 1998.

Applicants are encouraged to apply. EEO/AA

UNIVERSITY OF NORTHERN COLORADO

College of Arts and Sciences - Greeley, CO 80639

CHAIR OF THE DEPARTMENT OF HISPANIC STUDIES AND ASSOCIATE PROFESSOR/PROFESSOR (#21786)

Application Description: Full-time tenured department chair position in the Department of Hispanic Studies starting August 18, 1999.

Qualifications and Experience: Chair of Department of Hispanic Studies which includes undergraduate program in Spanish language and literature, Mexican American studies, and bilingual education and English as a second language; and a masters program in foreign language; Spanish teaching emphasis. Earned doctorate from an accredited institution in Spanish. Mexican American studies or English as a second language and/or bilingual studies is preferred. Evidence of demonstrated excellence in teaching and scholarship is a must. Applicants must possess at minimum an earned doctorate in an area of study appropriate to the specific position.

Application Deadline and Materials: Review of application materials will begin December 1, 1998 and will continue until the position is filled. Letter of application identifying the position, number, a current vita, official transcripts, and three letters of recommendation should be sent to: Professor of Hispanic Studies, Department of Hispanic Studies, 970/321-2881.

The University is an equal opportunity/affirmative action employer and will not discriminate with respect to race, color, sex, national origin, disability, age, or sexual orientation.

UCO is an AA/EEO employee and is committed to fostering diversity in its student body, faculty and staff.

TENURE-TRACK POSITIONS

University of Minnesota, Twin Cities
College of Education and Human Development

Tenure-track (or tenured) faculty positions currently available in the College of Education and Human Development, University of Minnesota are listed below. These positions will begin in late August 1999, and Summer and May-term employment is also possible. Salaries and benefits will be competitive and commensurate with experience and level of appointment. Nomination and applications are encouraged to begin reviewing candidate materials in November 1998. Complete applications must include a letter addressing qualifications, a curriculum vitae, and the names, addresses, and phone numbers of three references. Candidates for assistant professor positions must also provide an academic transcript that substantiates the doctorate. Complete position descriptions are available on the Internet: http://www.coed.umn.edu/ (under “What’s New”), or from the College Office (612-625-6006).

Applications must be received by February 15, 1999. Women and minorities are particularly encouraged to apply.

School to Work/Business & Marketing Education
Dept. of Work, Community, and Family Education (Assistant or Associate Professor)

The University is an equal opportunity/affirmative action employer.
BUFFALO STATE COLLEGE invites nominations and applications for the position of Provost/Vice President for Academic Affairs. As the chief academic officer of the institution, the provost reports directly to the president and is responsible for instructional programs, educational policy, academic planning, enrollment management functions, academic resources, and faculty development actions. Additional responsibilities include assisting the president with formulating policy and strengthening and developing partnerships between academic programs and the community.

The provost is responsible for approximately 600 full- and part-time faculty, organized into four academic areas: applied science and education; arts and humanities; natural and social sciences; and graduate studies and research. Offices that report directly to the provost include the library and all academic support service programs.

Buffalo State College, the largest of the four-year liberal arts colleges in the State University of New York system, is a comprehensive public institution located in an aesthetically and culturally rich area of New York's second largest city. Bachelor's and master's degrees are offered to a student body of nearly 11,000 in more than 70 major programs. The college supports six centers of excellence, as well as a regional art museum and planetarium; and participates in numerous community alliances and partnerships throughout the region. The college contributes significantly to the cultural and educational life of Buffalo and the Western New York region and is engaged in regional and national research and creative activities.

The faculty is dedicated to excellence in teaching, scholarship, and service. They are energetic and enthusiastic to move the institution forward under the leadership of a new provost who is also inspired by the challenges and rewards of public higher education.

Qualifications: Applicants should possess:
- An earned doctorate or equivalent terminal degree with a record of scholarship, research, and teaching suitable for appointment as a tenured full professor.
- Demonstrated intellectual leadership.
- Strong academic vision and a capacity for innovation.
- Significant academic experience as a senior administrator in higher education.
- Understanding of, and commitment to, the mission and strategic priorities of a large metropolitan campus including a graduate and undergraduate instruction, research, and outreach to the diverse constituencies that the college serves.
- Current knowledge of the higher education environment and issues in academic affairs.
- Significant experience in strategic planning, fiscal management, resource allocation, personnel, and faculty development.
- A commitment to the development of a strong academic program demonstrated through experience with academic assessment, curriculum development, and accreditation.
- Demonstrated commitment to equity and ability to work in a multicultural environment.
- Excellent interpersonal and communication skills.
- A collaborative leadership style with a commitment to shared governance and collegiality.
- Ability to relate to internal and external constituencies.
- An enthusiasm for the pursuit of learning, and its transforming possibilities in the lives of people.

Salary: Starting salaries are competitive and commensurate with qualifications and experience.

Application Procedure: Include a curriculum vitae and letter that describes how your training, background, and aspirations relate to these qualifications and campus descriptions provided above.

Review of Applications: The review will begin after November 1, 1998 and will continue until a Provost and Vice President for Academic Affairs is named.

Nominations and applications should be sent to:

Provost's Search Committee

APPENDIX AVAILABLE
OCTOBER 15, 1998

NIH Undergraduate Scholarship Program (UGSP)

If you would like to be trained and mentored at the cutting edge of biomedical research while receiving scholarship support, the UGSP may be for you!

The UGSP is sponsored by the National Institutes of Health (NIH), the Federal Government's lead biomedical research and research training agency, offering scholarships to qualified individuals to pursue undergraduate life sciences degrees.

Scholarships up to $20,000 per year support tuition, educational, and qualified living expenses (room, board, transportation) while students pursue an undergraduate degree. During each year of the award, students train for 10 weeks as paid employees in NIH research laboratories. They are assigned to mentors, participate in research seminars and developmental programs. Housing and transportation is provided. After graduation, 1 year of full-time research employment at NIH is required for each year of scholarship support.

You Should Apply If You:
- Can demonstrate a deep interest in pursuing a career in biomedical research.
- Can demonstrate being from a disadvantaged background.
- Have a GPA of 3.5 or better or are in the top 5 percent of your class.
- Are a U.S. citizen, national, or permanent resident.
- Are enrolled or accepted for enrollment as a full-time student at a qualified accredited institution.

This is a special opportunity for special students.

## FACULTY POSITIONS IN PUBLIC ADMINISTRATION/PUBLIC POLICY

### The George Washington University

Applications are invited for two tenure-track positions in the Department of Public Administration, School of Business and Public Management, beginning in Fall 1999. One of the positions will be at the Assistant Professor rank, the other at an Assistant rank. The Department is particularly interested in candidates with experience in public policy; those with a strong public administration background are encouraged to apply.

The position is designed to deliver the highest quality graduate public service education. Our master's program is designed for a wide range of the public sector and is oriented to the integration of theory and practice. The MPA program is a comprehensive approach that integrates management and policy issues in such a way that it seriously considers the ethical and value contexts central to the traditions of the field.

The Department has well-established and well-regarded Ph.D. programs that balance public management and policy, holding on to strong roots of public service values and applied research methods. The Department offers a new Master of Public Policy degree program.

We seek to attract the best available people to teach the core courses of our programs, rather than having individuals to fit particular courses or fields. Applications are welcome from those in a range of traditional public administration fields such as public finance and budgeting, and also from those specializing in public policy and the role of research methods and applied statistics.

A doctoral degree in public administration/public policy, or closely related field is required. Review of applications will begin in November 1998, and decisions are anticipated by February 1999.

Interested candidates should send a letter indicating preferred fields and dates with three academic references to:

Kathryn E. Newcomer, Chair
Department of Public Administration
The George Washington University
202 Monroe Hall
Washington, DC 20052

For more information, contact Professor Newcomer at newcomer@gwu.euc (phone: 202-994-6924; fax: 202-994-6972).

Also see our web site at http://www.gwu.edu/~pad/

The George Washington University is an Equal Opportunity/Affirmative Action Employer.
Public Relations Assistant  
John Jay College of Criminal Justice  
The City University of New York

Assist the Director of Public Relations. Responsibilities encompass college public relations, government relations and alumni affairs.

Duties include, but not limited to: handling the media and inquiries from the public; tracking, analyzing, and assessing press coverage; writing and distribution of press releases; publications and special events planning, and assisting in management research. Also assist with development of Alumni Association membership services, annual fundraising campaigns; production assistance for cable television program; coordination of college's legislative information/resource activities and community affairs.

Qualifications: Bachelor's degree in communications; master's degree preferred with at least four years experience in related field. Demonstrated computer literacy (PC and Apple) and knowledge of Internet. Extensive experience in Web page design and proficiency in PC-based desktop publishing required. Ability to work flexible hours. Strong interpersonal, oral and written communication skills. Salary: $29,931 - $52,213.

Please send letter explaining suitability for consideration and a curriculum vitae by October 22, 1998 to

Mr. Doug Smith  
Director of Public Relations  
John Jay College of Criminal Justice/CUNY  
899 Tenth Avenue-Room 623, New York, NY 10019

FACULTY MEMBER-PSYCHOLOGY (#466)

Lansing Community College has an August, 1999 opening for a full-time faculty member in Psychology. Master's degree and teaching experience in Psychology required. Academic background and teaching experience preferred in one or more of the following: Introductory Psychology, Social Psychology or Abnormal Psychology. Demonstrated experience using a variety of modern teaching technologies including the use of computers and multimedia in lectures, laboratories and distance learning is preferred. Must be able to work cooperatively in a team environment. Must demonstrate commitment to community college philosophy and diversity. The search committee will continue to accept applications through January 1999. To apply, send letter of application, resume and completed application form to: 8260 Human Resources Department, Lansing Community College, PO Box 40010, Lansing, MI 48901-7210. EEO/Affirmative Action Employer.

INDIAN RIVER COMMUNITY COLLEGE  
Fort Pierce, Florida

Landscape and Golf Course Operations Instructor  

Bachelor's degree required. Master's degree is preferred. Requires documented experience in golf course or landscape operations, including mechanical, technical, and marketing skills, prior teaching experience, proven record of successful project/program development knowledge of certification process leading to irrigation and pest control, and experience in landscape design. Applications will be accepted until the position is filled. Interested applicants should contact (561) 462-4806 to request job description and employment application.

The College Board Examines Trends Affecting Latinos
Plattsburgh State University of New York invites applications for Fall 1999 tenure track positions.

Plattsburgh State University of New York is a comprehensive, coeducational, public institution of nearly 6,000 undergraduate and graduate students. Located on the shore of Lake Champlain, the college is the intellectual and educational center for the Lake Champlain/Adirondack region of New York State. The small city character of Plattsburgh and neighboring Burlington, VT, provides a quality of life unsurpassed for the whole family. Outdoor activities abound along Lake Champlain, in the Adirondack High Peaks and nearby Olympic resort village of Lake Placid while the urban, multicultural lifestyle is rich in neighboring Montreal, Canada, one hour's drive from campus. Plattsburgh is easily accessible to New York City and Boston via air, bus, train and Interstate 87.

Successful candidates must be committed to excellence in teaching in an undergraduate institution offering programs in the arts and sciences, education, human and health services, business and economics with an understanding of and sensitivity to minority and gender concerns. Selected candidates will have an interest in interdisciplinary and collaborative programs such as Women's Studies, Latin American Studies and Canadian Studies, all of which are special loci for the College, a desire to integrate information technologies and a willingness to participate with new distance learning programs.

The faculty is challenged to redefine their teaching roles by incorporating recent research on teaching effectiveness. The college supports faculty scholarship through the NYSUUP bargaining agreement, minority and women faculty may apply for one year. Affirmative Action leaves to pursue scholarly projects. Other faculty funding opportunities include joint State/Union travel grants and College funded-in-House Mini-Grants to provide seed funding for research activities. Reddy Teaching Enhancement Awards, Presidential Research Awards, and Educational Technology Awards.

We offer a competitive salary and an excellent benefits package. Unless otherwise stated, review of applications begins immediately and continues until position is filled.

Application Procedure: Please send or fax cover letter, resume or curriculum vitae, transcripts, three letters of recommendation and other requests mentioned in individual ad to Chair, Search Committee (P#_____), c/o Personnel, Plattsburgh State University of New York, 101 Broadway Street, Plattsburgh, NY 12901-6831. Fax # (518) 564-4600.

WOMEN & RACIAL MINORITIES ENCOURAGED TO APPLY

BIOLOGICAL SCIENCE

Organismal Biologist (P# 2230-808) ASSISTANT PROFESSOR- Qualifications: PhD with a broad background in organismal biology is required. The successful candidate will teach a basic course in general biology, be expected to develop upper-level courses in an area of expertise, and develop a research program involving undergraduates on some aspect of the flora or fauna of the Adirondacks or Lake Champlain. An opportunity exists for interaction with the Lake Champlain Research Institute on campus. Additional application instructions: Send a statement of teaching philosophy and a summary of potential research. Review of applications begins 1/15/99 and continues until position is filled.

COMMUNICATION

Mass Communication (P# 2134-808) ASSISTANT PROFESSOR- Qualifications: PhD and successful college teaching and/or experience are required, a record of scholarly achievements preferred. Ability to teach BroadCast Journalism will add to the candidate's qualifications. Duties: To teach basic and advanced courses in Public Relations & Electronic Media Advertising.

EARTH & ENVIRONMENTAL SCIENCE

Geologist (P# 2231-808) ASSISTANT PROFESSOR- Qualifications: PhD in geology with emphasis on hydrogeology and ability to teach physical & environmental geology. Ability to undertake research in the region surrounding the college is an asset. Published scholarship and demonstrated ability to acquire grants will be additional factors in the selection criteria. The candidate will be expected to show evidence of continuing scholarship; have research interests in, or be able to adapt their work to, the service area of the college.

ENGLISH

Multicultural American Literature (P# 2226-808) ASSISTANT PROFESSOR- Qualifications: PhD awarded by August 1999; publication or promise of sustained scholarly productivity, and evidence of successful college teaching.

Duties: Multicultural American literature, as well as writing courses, core courses, general education courses, upper division literature courses.

Additional application instructions: Writing sample

HISTORY

Popular Culture (P# 2208-808) ASSISTANT PROFESSOR- Duties: Ability to teach courses on popular culture, the globalization of popular culture, and the study of the entertainment industry. A global or U.S. survey course. Nine credit hours per semester.

Additional Info for P#: 2208 & 2209 Qualifications: PhD in History or appropriate inter- or multidisciplinary field. Preference for candidates with background in teaching and an interest in the Global History Program.

Additional application instructions: Statement of teaching philosophy.

NURSING, FOOD & NUTRITION

Nursing (P# 2164-808) ASSISTANT PROFESSOR- Qualifications: Minimum degree in medical-surgical nursing is required along with recent experience in medical-surgical nursing, teaching or practice. Candidates must be eligible for RN licensure in New York. We are creating and using state-of-the-art high technology media for teaching. New faculty will join us in offering distance learning in the Telelearning Education Program for RN/BS students who live in rural areas of northeast New York. We also have developed the first virtual reality simulation for learning invasive nursing procedures.

PSYCHOLOGY

Cognitive Neuropsychology (P# 2228-808) ASSISTANT PROFESSOR- Qualifications: Earned doctorate with an emphasis in neuropsychology, learning, or perception. Duties: Teaching in the area of cognitive science, evidence of teaching effectiveness and commitment to undergraduate instruction, evidence of programmatic research activity and scholarly productivity. Additional Info for P#: 2228 & 2229 Qualifications: Earned doctorate, PhD or equivalent, in psychology or cognitive science. Evidence of teaching effectiveness and commitment to undergraduate instruction. Additional application instructions: Statement of teaching philosophy, samples of publications, reprints or preprints of research publications.

Additional Info for P#: 2228 & 2229 Qualifications: Earned doctorate, PhD or equivalent, in psychology or cognitive science. Evidence of teaching effectiveness and commitment to undergraduate instruction. Additional application instructions: Statement of teaching philosophy, samples of publications, reprints or preprints of research publications.

Additional Info for P#: 2228 & 2229 Qualifications: Earned doctorate, PhD or equivalent, in psychology or cognitive science. Evidence of teaching effectiveness and commitment to undergraduate instruction. Additional application instructions: Statement of teaching philosophy, samples of publications, reprints or preprints of research publications. Review of applications begins 12/1/99 and continues until position is filled.

Highlights of programs that help the nation's 560,000 children of migrant workers, most of whom are Hispanic.

HO PERSPECTIVE

In Support of Affirmative Action

Subscriber box no. 10 asks the Democrats to make good on the party's tradition of supporting affirmative action.

People, Places, Publications, Conferences
Grants, Children, and Migrant Education

BY GUSTAVO A. MELLANDER

There are many difficult and tedious ways to earn a living in this country. But few are more difficult than those of migrant workers, for not only are they denied many basic rights and privileges—their children are as well.

A full 82.7 percent of the 560,000 children of migrant workers in the United States are Hispanics. Programs designed to ensure their education should be of great interest to those concerned about the education of Hispanics.

Everything possible should be done to enable these children to go to college, and, thankfully, a few good programs already exist.

One is called the Migrant Education Even Start (MEESt) Program. The MEESt was “designed to help break the cycle of poverty and improve the literacy of participating migrant families by integrating early childhood education, adult literacy or adult basic education, and parenting education into a unified family literacy program.”

The closing date for applying for MEES funding for this year has passed. But new deadlines will soon be announced for the next round. The availability of these grants is the result of a successful partnership between Washington D.C.-based legislators, state governments, and a number of universities. Geared specifically to benefit children of migrant workers, these grants did not spring forth without a lot of determination and effort.

Grants

Fortunately, grants for research and program development have proliferated over the past decade. They are available from private foundations as well as from federal and state governments. The Department of Education, in particular, is a significant provider.

Hispanic Serving Institutions (HSI) colleges and universities, those that have over 50 percent Hispanic enrollment, are eligible to apply. Creative ideas on how to provide and improve educational opportunities for Hispanics is the major criterion for funding. Proposals are enhanced if they evidence working partnerships with other colleges or school districts.

Information about the Department of Education grants is available from its Web site at: <http://www.ed.gov/funding.html>. The Web site also has a link to an online document entitled “What Should I Know About Grants?” It is a very useful document and provides anyone interested in applying for a grant a storehouse of practical information on how to proceed.

Office of Migrant Education

In addition, the Web site has links to offices and programs within the Department that provide further information about funding opportunities. One is a link to a Web site maintained by the Office of Migrant Education (OME) that provides immigrant education grant information. It is <http://www.ed.gov/offices/OESE/MEP/grants.html>.

The OME plays an important role in improving educational opportunities of the children of migrant workers. In FY 1996, the OME distributed more than $305,000,000 in block grants to states to support their efforts to meet the children's special educational needs. The grants were distributed based on the number of migrant workers’ children in each state.

Some states with a large number of such children have established strong pragmatic programs to further their education. A particularly noteworthy program, one worthy of emulation, is operated out of Texas. A Web site on that Texas program can be found at: <http://www.jump.net/~newman/migrant.html>.

Technology

The OME is an advocate of employing technology to help the children of migrant workers. It has encouraged states to use technology to coordinate their efforts, which is especially pertinent since many migrant workers move from state to state.

To expand their outreach, in FY 1999 OME awarded $3 million in grants to several colleges and universities to develop programs utilizing technology specifically targeted to the children of migrant workers.

According to OME, the initiative was predicated on the following idea: Technology offers a way to keep these children in a connected learning community, to make opportunities available at whatever place and time the student can sign on, and to transfer records and information from sending to receiving schools efficiently so that children do not “fall through the cracks” due to frequent and differing needs assessments and academic placement.”

OME maintains a Web site on these programs at <http://www.ed.gov/offices/OESE/MEP/n11lead.html>.

Higher Education

Another OME program, the College Assistance Migrant Program (CAMP), provides grants to colleges and universities to assist first-year undergraduate migrant students. CAMP offers “tutoring, counseling, health services, assistance with special admissions, and some financial assistance to enable migrant youth to successfully complete the first year of postsecondary education. Students are also assisted with obtaining financial aid to help with the remainder of their undergraduate academic careers.”

With Hope scholarships making the first two years of college more affordable, HSIs have a special opportunity to provide educational opportunities to children of migrant workers in a supportive environment.

HSIs are particularly well suited to develop such programs and pilot projects designed to help Hispanic students pursue higher education. HSI-sponsored telementoring programs, for instance, could provide an opportunity for HSIs to reach out to prospective students as well as to provide needed educational support for them.

Diversity a Major Theme for College Board

Given Priority at Conference and Beyond

By Blanca Nieves

"There is much more focus on Latinos now than in the past. It's been a big turnaround," said Member Roberto Haro, Director of Research of the César Chávez Center at San Francisco State University. "The College Board has said that we need to include this group in our studies and in our programs."

When

The College Board, a national education association, holds its annual forum in Florida later this month, members will be debating the hottest issues in American education. The 2,000 participants expected to meet at the Walt Disney World resort in Lake Buena Vista will explore a broad spectrum of topics ranging from financial aid to academic preparation to emerging trends in education.

But members will also be examining issues making headlines today, including changing demographics, increasing diversity among school children, and the controversy over using race-based admissions.

The national forum, being held from Oct. 31 to Nov. 4, is the College Board's largest conference of the year.

Of the 130 scheduled sessions, at least one-fifth specifically address issues affecting Latino students.

Some of the discussions include:
- Changes in the Year 2000 census and how they will affect educators.
- Ensuring success for Hispanic students.
- The future of enrollment management: diversifying the student population base.
- Strategies for maximizing minority academic achievement.
- Proposition 209, why it happened, and what the outcome might mean for higher education.
- The affirmative action reactor: changing statutes, regulations, and options for admissions officers.

Organizers say that the large number of sessions on minority issues reflects the College Board's commitment to Hispanics and its recognition that Latinos are going to make up the largest population of school children during the next two decades.

"There is much more focus on Latinos now than in the past. It's been a big turnaround," said member Roberto Haro, Director of Research of the César Chávez Center.
at San Francisco State University. "The College Board has said that we need to include this group in our studies and in our programs."

Founded in 1900, The College Board is widely known for administering the SAT.

But the New York City-based organization, which promotes student access to higher education, is also one of the largest and most influential education associations in the country. Its 3,300 member institutions include secondary school systems, colleges, universities, and other educational groups.

The College Board offers far more than the SAT. It provides numerous programs and services, and examines public policy, conducts its own research, and holds workshops and conferences.

"What is so unique about the College Board is that we represent so many people," said Doug Lynch, director of member services. "At one conference you could have the chief operating officer of Harvard sitting next to an inner-city high school teacher talking about compelling issues in education."

The board's membership is also diverse. It includes some of the largest urban school districts with minority populations in the country, for example, New York City's school system.

In its conference brochure, The College Board highlights that its membership "reflects the diversity in American education that is at the heart of its strength."

Organizers said that the theme for the conference, "Serving introduced was what he called an 'equity agenda,' meaning providing academic excellence for all students.

One conference highlight will be a discussion of the book by Derek Bok, former president of Harvard University, and William Bowen, president of the Andrew Mellon Foundation and former president of Princeton University—a book about the consequences of race-based admissions.

"One of the things that Stewart said Lynch "If you give the kids the resources, all kids can succeed, and he has brought that concept to the forefront."

Through the years, The College Board has championed Latino issues. It was a founding member of the Hispanic Association of Colleges and Universities and has been active with many Latino advocacy organizations, such as ASPIRA.

When Proposition 209, which prohibits the use of race as a factor in public employment and college admissions, was introduced in the California legislature in 1990, the Board came out against it.

"We lobbed vehemently against Proposition 209," said Fred Moreno, spokesman for The College Board. "Since it's been passed, we've continued examining the issue with educators and trying to figure out ways to make sure those kids aren't adversely affected."

The College Board has also backed several initiatives for minorities, including Equity 2000 and the National Hispanic Recognition Program.

Developed in 1990, Equity 2000 is a program aimed at getting more Black and Latino students in college-prep courses.

Today, more than 700 schools with half a million students nationally participate in the program. The goal is to increase the number of minorities attending college by giving students an academic foundation that enables them to do well on college entrance exams. Students take more rigorous courses, such as algebra; get extra help and tutoring; and the program provides training for counselors and teachers.

Moreno said that the program is expected to expand into more districts next year.

“They're putting this money into programs to make sure the educational achievements of Latino students improve. In the long run, [it] makes all the difference," said Haro.

The National Hispanic Recognition Program identifies Latino scholars throughout the nation.

Started in 1982, it was a scholarship program funded by the Andrew Mellon Foundation that awarded the students a $15,000 one-time scholarship. Honorable mention recipients received $100 scholarships.

Funding from the Mellon Foundation ended in 1992, but the program continued to identify these bright students without awarding them scholarship funds.

Students are selected based on
their PSAT scores at the end of their junior year in high school. The board examines their grade point averages before giving the students the distinction during their senior year.

"It is a very prestigious award, which is why we have continued it," said Pallavi Kearny, program coordinator for The College Board in Washington D.C. "A lot of these students have been getting full tuition for universities who recruit them based on the recognition."

"Because they are the cream of the crop, they are actively sought after. Admission officers are known to seek out the list," she said.

This year, Kearny says that 3,363 students of Latino descent were named Hispanic scholars, and 494 received honorable mention.

In addition to the success of those two programs, educators and members say that the most prominent evidence of The College Board's interest in minority issues comes during the national forum.

"This forum is one of the few places where educators can tackle the hot-button issues affecting the Latino community, like the lingering ramifications of the Hopwood case or the latest on affirmative action," said Haro, who is also a professor at San Francisco State University.

"We at the Board offices do not develop the agenda, our members do," said Lynch. "These are the pressing issues: this is what keeps these educators up at night. We just provide the forum for them to examine these issues closely."

Organizers have put together an impressive slate of speakers.

Hugh Price, president of the National Urban League, will deliver the keynote address at one of the luncheons. Price is a renowned advocate of raising educational and workplace standards.

Another highlight will be a discussion of the book by Derek Bok, former president of Harvard University, and William Bowen, president of the Andrew Mellon Foundation and former president of Princeton University—a book about the consequences of race-based admissions.

The two men will discuss their studies of the issue, contained in their new book, The Shape of the River: Long-Term Consequences of Considering Race in College and University Admission.

Haro said that the conference will enable Latino educators to learn what impact, if any, Bok's and Bowen's findings will have on the Latino community. "That is one eagerly anticipated book—the discussion action and the Hopwood case."

Two years ago, the Texas attorney general said that according to a ruling by the Fifth Circuit Court of Appeals, race and ethnicity can no longer be considered factors in admission or scholarship decisions, or in retention of outreach activities.

Prior to that case, educators said, Texas flagship institutions relied in part on minority recruitment scholarship programs to attract a diverse first-year student class. Following the attorney general's opinion, the methods of selecting scholarship recipients were dramatically altered. The session will focus on two approaches used by Texas A&M University and University of Texas—[in the] two years since the ruling.

"The Hopwood case said that you can't use race, ethnicity, or gender for admission or awarding scholarships. It has become federal law, and its ramifications are far-reaching," said Haro.

"Counselors and admission officers need to come up with strategies to get around the case law that prohibits the use of race, gender, and ethnicity in admissions and the awarding of financial aid. It can be done."

Another session will focus on the recruitment practices at Berkeley and UCLA following Proposition 209. As with many other universities in California, those two experienced a dramatic drop in the number of minority students entering after the law was passed.

"During these sessions, we'll be able to review the current legislative agenda. We will need to find ways to provide Advance Placement courses in mainly Latino high schools, and we need to develop a mechanism to provide good counseling and preparations for the SAT and PSAT," said Haro. "As Latino educators, we have a lot of work to be done."

"In the meantime, this is an organization that wants to help," he said. "They've looked at the Latino children and said, 'We want to make your children competitive.'"
College Board Reviews SAT Trends Among Ethnic Groups

A recent College Board survey examines SAT scores and disparities

BY MARI CARMEN SARRACENT

The good news is that more and more Hispanic students are attending college in pursuit of bachelor's, master's, and doctoral degrees. But a poignant issue persists: Hispanics continue to score lower on SATs than other groups. The causes are attributed but not limited to insufficient academic preparation.

According to a recent report released by The College Board, New York, N.Y., a national membership association that supports educational transitions through programs and services in assessment, guidance, admission, placement, financial aid, and educational reform, "disparities in academic preparation, test scores, and other factors are growing across subgroups."

This profile is based on the survey responses and test scores of the 1.2 million students who took the SAT I Reasoning Test and 312,000 seniors who took college-level Advanced Placement (AP) examinations before graduation from high school this year.

According to the report, the average SAT mathematics score is 527, the highest in 16 years and one point above last year's level. But the average SAT verbal score is 499. Among racial and ethnic groups, average verbal scores are down for Hispanic/Latino and Puerto Rican groups by five and two points, respectively, and the average math score for the Hispanic/Latino group fell two points—the only group for which math scores dropped.

Donald M. Stewart, president of The College Board, noted, "We can point to increased math and science study as a reason for the current high in average math scores. But the rock-steady verbal scores are more difficult to explain. One factor may be the decline in familiarity with English."

Data from the report indicates that this year, students whose first language is not English represented eight percent of the SAT population, up from five percent 10 years ago. The proportion is much greater among Hispanic groups—27 percent of Mexican Americans and 40 percent of other designated Hispanic/Latinos who took the test. And their average SAT verbal scores are much lower—86 and 67 points below the national average, respectively.

Why the SAT?

Due to these discouraging results, some in organizations involved in higher education, such as the University of California's Latino Eligibility Task Force, have suggested the elimination of the use of SAT scores as a determinant for college admission. A position The College Board does not support for various reasons.

In a recent letter prepared by Stewart, regarding this issue, he explains that the SAT shouldn't be and isn't the only determining factor for college admission, but is and should continue to be recognized as the standard—it is a good thermometer to gauge the continuing problems that students face.

Stewart stated, "SAT readings give us some objective information about Hispanic students...The SAT also provides sufficient background data to suggest what may be causing these problems. Only 35 percent of Hispanic high school seniors are enrolled in college preparatory programs, compared with 50 percent of non-Hispanic White students.

"Many Hispanic students attend segregated schools with limited educational resources, inexperienced or underqualified teachers, and high percentages of students living in poverty. Between 1968 and 1992, the percentage of Hispanics attending schools whose enrollment was more than 90 percent minority increased from 23 to 34 percent."

"The overall academic preparation of Hispanic students is among the lowest of all minority groups. Even among SAT takers, who are the students aspiring to attend college, Hispanics lag far behind their peers."

DONALD STEWART, THE COLLEGE BOARD PRESIDENT

10 Real SATs

218 BEST COPY AVAILABLE
college, Hispanics lag far behind their peers. In fact, only 25 percent of Mexican American students take 20 or more year-long courses in high school, compared with 46 percent of Whites and 45 percent of Asians.

Reasons for Low Scores

While over 80 percent of college-bound Black and Latino students studied chemistry, 40 percent studied physics, 20 to 38 percent studied precalculus, and 13 to 19 percent took calculus, "in every group, course study is above the levels of 60 years ago but substantially below the levels of White and Asian American students."

Other reasons contribute to the low scores. According to the report, average SAT scores in the suburbs are above the national average and rising, while scores in suburban and rural areas are falling below that average. "This growing disparity is particularly troublesome because 40 to 50 percent of African American and Latino students who take the SATs live in large cities," stated Stewart. However, in a related trend, students who come from educated families have scores that surpass the average.

Stewart continues: "Even though underrepresented minorities are better prepared for college and have higher academic aspirations than ever before, the odds against them seem to be growing. Good schools are getting better in terms of Advance Placement and standards, but many of the schools that serve these underrepresented populations are not."

Another issue is possible grade inflation—as the population of students with higher grade point averages has grown from 28 to 38 percent, their SAT scores have declined—12 points on verbal and three points on math. Stewart added, however, that "the trend may reflect positive changes in education, but it may also reflect greater focus on personal qualities instead of academic achievement."

More remedial and college preparatory courses can contribute to reversing this trend and help Hispanics meet the standard. Stewart stated, "Dropping the SAT may seem to be an expedient, short-term solution to a long-term problem, but it is also very shortsighted. SAT scores provide a vital piece of information about a student's ability to perform college-level work."

"A 1993 study established that the SAT is a good predictor of college performance for all ethnic groups, including Hispanic students. An earlier study (1990) by Maria Pennock-Roman, a researcher at the Educational Testing Service (ETS), found that there was no evidence of less-accurate predictions for Hispanic students than for others."

SAT Math and Verbal Scores from 1988 to 1998

The College Board data reveals that colleges around the country increasingly consider SAT scores. "In 1995-98, the number of four-year institutions reporting an admission testing requirement to The Board's Annual Survey of Colleges was 1,450, or 82 percent. This is up from 77 percent in 1989 and represents an increase of 102 colleges."

The gap regarding score and course enrollment differences between the genders is narrowing, however.

Some Answers

The College Board president Stewart supports the following efforts that will help Hispanic students achieve more successful results on the SAT, in college and beyond: "Four-year institutions should take a closer look at transfer students. Two-year public col-
leges enroll more than 50 percent of all Hispanic students, who make up nearly 10 percent of the enrollment at those schools. Many of them are motivated and well qualified after attending community college for two years, and should be actively recruited by four-year institutions.

“Two initiatives of The College Board—the annual roster of academically talented students who have graduated from two-year colleges and the new Office of Community College Relations—are already helping. Our National Hispanic Scholar Recognition Program also has been identifying outstanding high school students for college recruitment since 1984.”

Noted Stewart, “Despite the recent backlash against affirmative action, racial and ethnic minorities continue to see college as the route to a better life. This year, minority students are a record—one-third of the SAT population and 28 percent of AP graduates, and more of them aspire to master's and Ph.D. degrees.”

While the AP test can be stereotyped as a test for students of privilege, that is not so. Wade Curry, director of the Advanced Placement Program, noted, “AP teachers are raising the hopes and potential of an increasingly diverse population in 55 percent of all high schools. Eighty percent of those are public, 12 percent are religiously affiliated, and 8 percent are independent.”

Mexican American students have had the least amount of academic preparation of all racial/ethnic groups taking AP exams this year—17 yearlong courses below the average for all AP students. Of the 13,808 Mexican Americans who took AP tests, one-third had family incomes under $20,000, one-third had parents who have not graduated from high school, and one-third did not have English as their first language.

However, the AP scores of two-thirds of these students were high enough to qualify them for college credit and/or advanced courses at colleges and universities. Women are slowly catching up too. Increasingly, women outnumber men in the SAT population and on campus. According to The College Board data, this year 25 percent of women plan to major in health and allied services, and 12 percent are interested in business and commerce, down from 22 percent 10 years ago.

Although women are taking more math and science courses than they have in the past, they still enroll in fewer advanced mathematics courses and more arts/music courses than men, producing an overall grade average of 3.3, above the 3.4 average for men. However, “this year women surpassed men in the study of chemistry and are now only two percentage points behind men in the study of precalculus and four points behind in calculus. This is the kind of progress that opens doors to challenging courses and careers,” explained Gretchen W. Rigol, vice president of guidance, access, and assessment services for The College Board.

Toward a Common Vision of Equity and Diversity

National Community College Hispanic Council

by Marilyn Gilroy

As the new president of the National Community College Hispanic Council (NCCHC), Dr. Lydia Ledesma-Reese will promote the council’s national education agenda through lobbying efforts that she hopes will include a personal meeting with President Clinton and Secretary of Education Riley. Reese, who is also president of Skagit Valley College in Washington, outlined her plans earlier this year when she was installed for a two-year term as president of the NCCHC, a 148-member council that helps prepare Hispanics for positions of educational leadership and advocates “quality and effectiveness of education for Hispanics in the United States.”

Founded in 1985 by six Hispanic community college presidents and one vice president, the group currently includes seven chancellors, five vice chancellors, and 56 presidents. And the NCCHC has compiled an impressive track record toward just that. Founded in 1985 by six Hispanic community college presidents and one vice president, the group currently includes seven chancellors, five vice chancellors, and 56 presidents. These statistics are the result of hard work and dedication by the founders and early members.

Thirteen years ago, the original council members had to overcome several obstacles, including lack of funding and lack of supportive services. While many segments of higher education expressed support of the council’s goal of advocating administrative and faculty positions for Hispanics, progress was extremely slow. The most common response to the low representation in the ranks of academia was that there were not enough “well-prepared Hispanics.”

Council members decided then to start a program to train Hispanic educators to assume leadership positions in community colleges. Funding proposals for the program were unsuccessful until Dr. Michael Saenz, an NCCHC founder, connected with the Ford Foundation, which agreed to underwrite NCCHC leadership fellows classes for five years.

To this date, more than 72
Hispanics have been trained as potential senior-level administrators through the NCCHC Fellows program. Of those, 11 have moved to presidencies, five to vice presidencies of academic affairs, and one to vice chancellor in the Los Angeles Community College District.

Reese wants to continue to build NCCHC as a national organization. Under her leadership, the officers, board of directors, and members meet regularly to review the council’s agenda and establish short- and long-term goals, working systematically to increase Hispanic representation on national boards and commissions. After identifying key individuals at various state and national organizations, NCCHC members make phone calls and write letters in support of Hispanic candidates on governing boards or for administrative posts. This is part of an overall strategy to create a network of individuals in policy-making positions.

Of particular importance to NCCHC is its annual summer symposium, which also functions in part as a leadership institute. Sessions are conducted by successful chief executives and consultants in the field. Using lectures, case studies, and problem-solving techniques, symposium presenters help increase the pool of Hispanic administrators who might be tapped for college presidencies.

This year’s presenters included Augustine Gallego, the San Diego Community College District Chancellor, who described the crisis in high school and college completion rates for Hispanics; Dr. David Pierce, president of the AACC, and a keynote speaker at the symposium; and Dr. Ana Margarita Guzman, who chaired President Clinton’s Advisory Commission on Educational Excellence for Hispanic Americans. Guzman updated NCCHC members on the response to the commission’s 1996 report, Our Nation on the Fault Line: Hispanic American Education. The report has translated into significant increases in President Clinton’s proposed FY 1999 budget for at least 17 programs that will benefit Hispanics and other minorities.

In order to hold on to gains such as these, Reese knows that building partnerships with other minority groups must be one of her highest priorities. She has pledged to “work collaboratively with the National Council on Black American Affairs and the Asian and Pacific Islanders Council on mutually agreed issues and toward a ‘common vision of equity and diversity.”

To this date, more than 72 Hispanics have been trained as potential senior-level administrators through the NCCHC Fellows program. Of those, 11 have moved to presidencies, five to vice presidencies of academic affairs, and one to vice chancellor in the Los Angeles Community College District.
Texas Law Schools Back New Prep Institute

Designed to Increase Minority Enrollment

Only one in 25 lawyers is African American. Latino, Asian American or Native American—a statistic that is not an accurate reflection of the multicultural society we live in.

Unfortunately, the Hopwood decision—the federal court ruling that prevents universities in Texas, Louisiana, and Mississippi from making admissions decisions based on race—has had a chilling effect on minority law school admissions. Yet, law schools have a vested interest in having a diverse student body. Diversity is a requirement for meeting the accreditation standards of the American Bar Association (ABA) and the membership guidelines of the Association of American Law Schools (AALS). And despite the Hopwood case, the ABA and AALS standards remain in effect. But more than that, law schools find that diversity within the classroom enriches the learning process for all students and makes for a legal system that is truly representative of our society.

The University of Texas at El Paso (UTEP)—the largest Hispanic-majority university in the United States—hopes to increase minority enrollment in law schools by offering students an intensive, hands-on program: the Law School Preparation Institute.

The brainchild of UTEP political science professors Robert Webking and William Weaver, the Law School Preparation Institute is a two-year program aimed at honing the critical-thinking skills of prospective law students and preparing them to do well on the Law School Admissions Test (LSAT).

"Our students, as a group, tend to have lower LSAT scores than their grade point averages would warrant," Webking said. "It's true of
minority students nationwide. Our thought was to address that."

The program, now in its pilot phase, is designed in two parts. The first part—offered six days a week during the summer between the students' sophomore and junior years—consists of intensive workshops that focus on critical reading and analysis of complex arguments.

The second part—an intensive month-long workshop—takes place before the students' senior year. This course focuses on preparing students to do well on the all-important LSAT.

"There is also an introduction to legal writing that serves to reinforce what happens at law school," Webking said.

The program is carried out in cooperation with faculty at the UT-Austin Law School, currently has 30 students, 20 of whom are entering their junior year and 10 of whom are entering their senior year. (Because the program is in its pilot stage, both phases are being offered concurrently this summer.)

The criteria for entering the program are academic achievement and promise and maturity of interest in law school.

The problem of having too few minority attorneys is as complex as the people and situations lawyers deal with every day.

"In this community, if we don't do something to get people into higher education, the whole community suffers," Webking said. "The Law School Preparation Institute is good for the students, good for the law schools, and it's good for El Paso."

ROBERT WEBKING, UTEP POLITICAL SCIENCE PROFESSOR AND CO-FOUNDER OF THE INSTITUTE

"Lawyers practice in the larger community; and unless there's some sense of the diversity of the people they represent, they're practicing at a disadvantage," Webking said.

Lisa Cervantez, an Institute scholar, said the program has heightened her understanding of what to expect in law school.

"I had no idea what law school would be like before meeting a law professor from UT-Austin. I have a good idea of what I have to do," she said.

Even more important, Cervantez said, is her growing confidence in her ability to tackle the rigors of law school.

Institute students uniformly agree that the program offers numerous benefits, from enhancing their ability to analyze complex information to honing their critical thinking skills. They are excited that once they become lawyers, they can bring a new perspective to the legal profession.

Funding for the pilot program has come from UTEP's Public Policy Research Center, the UT System, UT Austin Law School, Southern Methodist University School of Law, Baylor University Law School, Texas Tech School of Law, the El Paso Bar Association, and the Mexican American Bar Association. Various private attorneys have contributed to funding the pilot program as well.

UTEP's Law School Preparation Institute is making a valuable contribution on several levels: the students benefit by being well prepared to enter law school, and the legal profession benefits from increased numbers of minority attorneys, which in turn benefits our multicultural society.

"In this community, if we don't do something to get people into higher education, the whole community suffers," Webking said. "The Law School Preparation Institute is good for the students, good for the law schools, and it's good for El Paso."
Nuclear Physicist Directs NM Testing

Cortez Trained at University of Michigan and Texas A&M

BY GEORGE ZAMORA

On the test ranges of New Mexico Tech's Energetic Materials Research and Testing Center in Socorro, N.M., explosions are usually measured in hundreds of pounds or in tons of TNT. But EMRTC has a new director, and his past experience is with nuclear explosives in the kiloton range.

José Luis M. Cortez came to New Mexico Tech directly from the U.S. Nuclear Regulatory Commission in Washington, D.C., where he was in charge of international nuclear reactor safety programs and was senior research program coordinator of the Office of Nuclear Regulatory Research. Before that, Cortez filled several senior technical and managerial assignments with the U.S. Department of Energy and its predecessor agency, the Energy Research and Development Administration.

Cortez holds a doctorate in theoretical physics and a master's of science in nuclear physics from the University of Michigan, a master's of science in atomic physics, and a bachelor's of science in physics from Texas A&M University in Kingsville.

His vast resume includes 11 years as a research scientist at Lawrence Livermore and Los Alamos national laboratories in the development and testing of nuclear weapon systems. These assignments brought Cortez to New Mexico many times and also to the Nevada test site, where he gained considerable experience and insight in field-test operations similar to his present duties.

Cortez also spent six years as a space scientist at NASA's Marshall Space Flight Center in Huntsville, Ala., during the early lunar exploration program and the Apollo Saturn V rocket development program that took Americans to the moon in the late 1960s. This experience also is an asset since EMRTC now is involved in small-rocket-engine testing.

His most recent work in the safety of nuclear reactor operations, as well as nuclear reactor behavior under severe accident conditions, has taken Cortez around the world several times over, to France, Germany, Italy, and the United Kingdom as well as to the Far East, including Japan, Korea, and Taiwan.

All of these countries operate nuclear reactors to generate electricity, and American nuclear safety technology is widely used to keep these reactors around the world operating safely.

"I've seen the world, and now I've added a whole new country to my travel log: New Mexico," quips Cortez, who grew up near the Rio Grande, about a thousand miles downstream in Harlingen, Texas.

Cortez, who joined New Mexico Tech in the spring, says he doesn't foresee a drastic shift in the focus of research and testing programs at EMRTC under his direction.

"What I'd like to do is basically improve our capabilities and continue the good work that has been
going on here at EMRTC for the last 50 years," Cortez says.

Some promising programs have recently gotten started.

"There's also a lot of technical work that's being done in the state of New Mexico and elsewhere that falls under our expertise, and I would like to see some of this work brought to Socorro," Cortez adds.

Cortez says he wants to do his part to further develop Socorro as an economic center by opening up new technology markets related to EMRTC activities.

"If other industrial and government agencies come to us with needs that require field-testing, I feel confident that EMRTC can take on these types of programs," Cortez states. "And, being a small research group, we can provide a faster turn-around at a cheaper cost...It's really up to us to promote those aspects of our organization, and I intend to use this advantage in our marketing efforts."

Cortez hopes to increase EMRTC's computational capabilities by increasing the use of high-speed computers to predict and analyze experimental data.

"This will complement our field-testing capabilities and attract new customers to EMRTC," he adds.

"If you can offer both the analytical capabilities and the field-testing, therein lies an important key to enticing other industrial groups to co-locate here more readily," Cortez says.

Cortez says he will strive to build up EMRTC's capabilities by modernizing and improving the research center's instrumentation and data-gathering capabilities and equipment.

"We also need to continue developing our people," he notes. "While at the same time creating a good environment where people can move up the ladder and be ready to assume leadership roles in the future."

"I don't believe in dictatorial management," he explains. "I look to people to do their jobs efficiently and at the same time continue to develop their skills. As long as employees perform to the best of their ability, I'm not going to get in their way."

It's a philosophy that has served him well in the past and one that he will continue to use at EMRTC, Cortez says.

"My objective here at EMRTC will be the same as in my past positions, and that is to have everyone work effectively as a team and to make sure each group within our organization is just as important as the other. For example, without a good group of technicians, the scientists or engineers cannot perform or carry out an effective field-test program...The major difference here will be that I'll be working with the entire spectrum—from the theoretical physicist to electronic technicians," Cortez points out.

Cortez says he also wants to make sure that everyone at EMRTC also takes their responsibility to the community seriously, ensuring that the community feels they're a part of EMRTC and vice versa.

"I think this small-town atmosphere makes everyone more responsive to their jobs," he says. "Being part of New Mexico Tech is not good enough; you need to become a part of Socorro and the extended community of the state."

Blast Wall Test
20,000 lbs. TNT Equivalent
The Ohio State University

Sports, Arts, and Top-Ranking Doctoral Programs

BY ROGER DEITZ

Read all about it. “At Ohio State we celebrate and learn from our diversity and we value individual differences. Academic freedom is defined within an environment of civility, tolerance, and mutual respect.” So goes an excerpt from the “Vision and Mission Statement” of The Ohio State University. The admissions brochure adds that OSU’s diversity is a point of pride, and notes that with more than 70,000 minority students and nearly 3,900 international students from 126 countries on campus, one can encounter people of all different ages, cultures, and backgrounds. Access OSU on the Internet at <www.osu.edu> and find a great number of diversity-related programs listed under the auspices of the Division of Student Affairs.

Ohio State University president William E. Kirwan reminds all prospective students that many other kinds of diversity are also at work at his university, and calls this "Honor Roll" awardee one of America’s leading student-centered research universities.

Kirwan says that with variety like this, finding one’s place at Ohio State shouldn’t take long. He recommends the Web site as a good place to start. And emphasizes, “it’s great to be a Buckeye!”

Great indeed. U.S. News and World Report ranked Ohio State University’s academic reputation 14th among national public universities. Thirty-eight of Ohio State’s 99 doctoral programs were included in the National Research Council’s rankings of doctoral programs at 270 institutions of higher education. Of those 38 programs, 36 ranked first among all Ohio universities. Sixteen ranked among the top 25 programs in their discipline in the nation. Ohio State University has as its mission “the attainment of international distinction in education, scholarship, and public service.”

OSU offers an extensive range of academic programs in the liberal arts, the sciences, and the professions. To fulfill its mission, the institu-
Honor Roll Facts in Brief

The Ohio State University provides accessible, high-quality education for qualified students who are able to benefit from a scholarly environment in which research inspires and informs teaching.

Ohio State's roots reach back to 1870, when the Ohio General Assembly established the Ohio Agricultural and Mechanical College, made possible through the provisions of the Land-Grant Act, signed by President Lincoln on July 2, 1862. In the earliest days, the college curriculum was a matter of bitter dispute among politicians, the public, and educators. One faction—the "narrow gauge" group—held that the college should devote itself to the teaching of only agriculture and the mechanical arts. The "broad gauge" faction wanted a wider program that featured English and ancient and foreign languages as well. Joseph Sullivan, a member of the first board of trustees, is credited with pushing the "broad gauge" idea through the board of trustees, where it passed by a vote of 8-7. His legacy endures. Ohio State continues to offer a broad-based, liberal arts education and a diverse range of study.

Classes began at the new college on September 1st, 1873, when twenty-four students met at the old Vie farm just two miles north of Columbus. In 1878, the college's name was changed to The Ohio State University. The first class of six students graduated that same year, and in 1879, the university graduated its first woman.

The main campus of The Ohio State University is located in Columbus, Ohio, the state capital and one of the fastest growing urban areas in the United States. The city of Columbus is a global center for high technology; home to an active arts community; at the corporate and divisional headquarters of a number of major businesses. OSU has 10 colleges, including a College of Veterinary Medicine, College of Dentistry, College of Law, College of Medicine and Public Health, and College of Optometry. Add to this more th
Ohio State has one of the largest academic library systems in North America and the largest in Ohio. There are 24 individual libraries on the Columbus and regional campuses, with more than five million print volumes and nearly 4.3 million microforms. The Wexner Center for the Arts is an award-winning architectural achievement in itself. It draws visual and performing artists from around the world, among them film director Martin Scorsese, composer and acclaimed trumpeter Wynton Marsalis, and pop-art legend Roy Lichtenstein.

The scarlet and gray Buckeyes are a member of the Big Ten Conference and the NCAA. There are 34 varsity sports programs, 14 for men and 17 for women.

Ohio State has the largest recreation and intramural sports program in the nation.

So, if you are into sports, the arts, or the world-class education, President Kirwan is right...it's great to be a Buckeye!
Telementoring the Young

One-on-One, Q & A, and Subject Data on Tap

By

Nelly Mellander and Gustavo A. Mellander

A college degree is essential for Hispanics who want to succeed, and mastering mathematics is a key factor in that success. A number of Washington, D.C.-based studies declare that mathematics equals opportunity, and that students who fail to master it limit their admittance options. When mathematics is mastered, and reinforced with a variety of college science courses, well-paying careers and successes in a wide variety of fields will follow, the studies predict.

Most students have heard that and are proceeding accordingly. But it is easy to get discouraged.

How can students remain focused, motivated? One way is to connect with professionals already in the field. Around the country, there are thousands of professionals in the technology, engineering, mathematics, scientific, business, and education communities. Their pragmatic knowledge could make them useful resources. Many might like to volunteer to help youngsters in school, but finding the time is problematic.

The government has released a report that compiles existing networks that connect professionals with students and teachers electronically. These programs use e-mail to answer questions, tutor, and telemotor students. E-mail programs provide more opportunities for adults because they reduce time and geographical constraints. The network affords students support and encouragement from adults throughout the nation.

Not only are students motivated, but they also receive subject knowledge and learn of career opportunities first hand.

Existing e-mail programs fall into three major categories:

- One-on-one sustained mentor relationships, in which a professional adopts a student for a period of time during which regular contact is made via e-mail.

- Question and answer services, in which a student can send a subject-related question via e-mail and have it answered by a professional.
who does not necessarily have regular contact with the student.

- Links to subject knowledge and interactive databases that supplement classroom activities.

The Report
The Department of Education's report describes these existing e-mail-based volunteer programs. Each entry includes a source the reader can pursue to find further information. Also included is a description of essential elements that characterize telementoring initiatives and a list of useful telementoring resources. These programs could be replicated in other areas, or perhaps links could be established with them. The sampling below includes some that are geared towards Hispanics and women.

Stevens Institute of Technology and NASA Pilot Telementoring Project
Web Site: None.
Type: Resource for subject knowledge to supplement classroom activities.
Project Description: Launched in the spring of 1997, the project intends to individually match nine NASA engineers/scientists with a New Jersey teacher and his/her eighth or ninth grade classroom in Jersey City, Hoboken, and Union City. Trained mentors will serve as advisors to the teacher and students as they proceed through a structured curriculum on meteorology. The program involves five all-day hands-on workshops in which teachers learn about meteorology and the use of the Internet-based resources for studying meteorology, such as NASA satellite images. Teachers and mentors begin communicating on science- and career-related topics of mutual interest via desktop videoconferencing. During the school term, five additional hands-on workshops are scheduled.

The curriculum, based on materials from the CoVis project and Blue Sky program, is primarily data-centered and project-oriented, emphasizing discovery by exploration. The program provides opportunities for students to ask mentors questions, via e-mail, that will help students in their understanding of math and science as well as provide students with a role model. In the pilot program, which began in the fall of 1997, each mentor is of Hispanic background, and the students of the pilot classrooms are primarily Hispanic. The pilot program also features a research component that will provide a form of evaluation/assessment. In developing the project, literature by Judi Harris of the Electronic Emissary was used.

Telementoring Young Women in Science, Engineering, and Computing
Web Site: http://www.edc.org/OCITelementoring/docs/projects.html
Type: One-on-one sustained mentor relationship.

In the Telementoring Young Women in Science, Engineering, and Computing project, on-line mentors, after two weeks of on-line training, encourage students to discuss class content and help them develop strategies for dealing with difficult subject matter and situations.

Project Description: The Telementoring Young Women in Science, Engineering, and Computing Project, through on-line one-on-one mentor relationships encourages young women to explore and achieve in the fields of science, engineering, and computing by providing sustained support from and communication with female professionals. Mentors, after undergoing two weeks of on-line training, provide students with opportunities to discuss the content of their classes and develop strategies for dealing with difficult subject matter and situations. Mentors also provide guidance and support to help young women make decisions about pursuing courses and careers in science, engineering computing, and related fields. Over three years, the project has reached 19 schools in six states. The project is supported by the Educational Development Center and Center for Children and Technology and is funded by the National Science Foundation.

The Electronic Emissary Project
Web Site: http://www.tapr.org
Projects varied from helping students develop classroom math- or science-related research projects, to exploring math or science careers, to working on weekly math problems. HP employees also helped students develop critical skills to pursue their unique interests in a professional, fun, and efficient way.

Learning Through Collaborative Visualization (CoVis)

Web Site: http://typhoon.covis.nwu.edu/info/covis-info.html
Type: One mentor to one student team, sustained mentor relationship.

Project Description: The Learning Through Collaborative Visualization (CoVis) Project involves thousands of students. More than a hundred teachers, and dozens of researchers and scientists, working to improve science education in middle and high schools. The hands-on science learning employs a broad range of communication and collaboration technologies, including telementoring. CoVis seeks to recruit science experts from academia and industry who are willing to volunteer their time to assist CoVis students with their projects. The CoVis Mentor Database enables teachers to match these volunteers with teams in their classrooms for mentoring relationships spanning weeks or months. Mentors can help students develop interesting scientific questions; clarify and refine their project questions; locate books, periodicals, and Internet data relevant to their investigations; and analyze data in a useful way. Through analyses of electronic mentor-mentee correspondence, students' work, and interviews with mentors, mentees, and teachers, CoVis will examine the efficacy and sustainability of volunteer mentoring over the Internet.

Mentor Center
Web Site: http://mentorcenter.hbn.com

In 1996-97, the Hewlett Packard E-mail Mentor Program provided 1,500 one-on-one mentor relationships between HP employees and fifth-12th grade students in order to motivate students to excel in math and science.

Web Site: http://www.telementor.org
Type: One-on-one sustained mentor relationship.

Project Description: In 1996-97, the Hewlett Packard E-mail Mentor Program provided 1,500 one-on-one mentor relationships between HP employees and fifth-12th grade students in order to motivate students to excel in math and science. Students received assistance and encouragement in pursuing their unique interests while gaining critical math, science, communication, and problem-solving skills. Mentors worked with individual students on teacher-assigned projects that integrated the mentoring program into the school's curriculum and were designed to meet student needs.

Affirmative Action

An Anachronism in Higher Education?

BY JOSÉ J. SOTO

Of late, many individuals at institutions of higher education are asking the question, "Is affirmative action an anachronism at universities and colleges?" Our answer is an unequivocal and emphatic "No!"

Our society continues to need affirmative action in employment, public contracting, and in the academy. And of these three arenas, the fields of higher education are the most barren and in desperate need of leadership and tending from affirmative action professionals.

Have things really changed?

Many individuals in this country believe and ardently argue that people of color have made great progress socially and economically. Because they perceive that progress has been made, they conclude that efforts such as affirmative action are outdated, unfair and unnecessary. The fact is that racism, discrimination, exclusion and economic marginalization based on skin color continue to impede the progress of and are a part of the current reality for too many people of color in this country.

Yes, higher education has made some progress. It has moved away from the old attitudes of exclusion. But it has not done so far enough away from the institutionalized behaviors of exclusion. Even now, 45 years after passage of the Civil Rights Act of 1964, students of color continue to suffer from the neglect, disinterest, misguidance, and passivity hospitality of educators and educational systems that just don't understand, don't care about, or don't see the too often negative consequences of being a person of color in this country.

Skin color is no longer as much of a barrier to higher education as it once was. But skin color—and race, gender, sexual orientation, physical ability, national origin, and economic status—continues to be a very real barrier to higher education, employment and full participation in this democracy. Proof of this reality lies within the walls of most public and private enterprises (including institutions of higher education) in this country, where people of color are under-represented, represented in merely a token fashion, or simply not represented at all.

Hopwood should not deter us from taking affirmative action.

The reality that racism continues to operate and limit opportunities for people of color in this country belies the rhetoric that we have made "sufficient progress" to warrant dismantling affirmative action. To the contrary, we should be looking toward expanding our efforts to open doors and to level the playing fields for people of color.

To this end, despite the recent U.S. Court of Appeals 5th Circuit decision (Hopwood v. University of Texas, 1996), the use of race as one of many appropriate criteria to consider in making admissions decisions in higher education is permitted (Bakke v. University of California-David, U.S. Supreme Court, 1978). And until the U.S. Supreme Court says something different, the governance and administrative leadership at institutions of higher education outside of Texas, Mississippi, and Louisiana should continue to actively support and aggressively promote affirmative action as a tool to give form and substance to our national credo of equal opportunity.

If not affirmative action, what?

Most critics of affirmative action do not see the need or, and thus do not offer, reasonable alternatives to affirmative action. Nor do they take any personal responsibility for finding reasonable solutions to problems that undergird the need for affirmative action. The majority of affirmative action critics refuse to take any direct and meaningful action to eliminate the racism that continues to negatively impact on a daily basis the lives of people of color.

Those who most vehemently denounce affirmative action are typically the ones who have the power and authority to do something to make affirmative action unnecessary—such as implementing alternatives that will ensure that people of color who are qualified are not always at a disadvantage; such as finding solutions to the oppressive social conditions that have plagued people of color in this hemisphere since 1492, such as eliminating racism and its effects in their own sphere of influence and authority. Their attacks on affirmative action and their refusal to act affirmatively do nothing to remedy the situation and the conditions that continue to make affirmative action necessary.

Affirmative Action is needed now more than ever.

No...affirmative action is not anachronistic, dead, or useless. It is timely; alive and very much needed. And it is naive to think that academia—or any other social, governmental, or economic enterprise for that matter—is at a point where unguided and random decision-making processes will naturally create anything other than more of what we already have: a dominant culture controlling and reaping the benefits and privileges of power while qualified and deserving people of color (and others similarly disenfranchised, e.g., gays/lesbians, women, immigrants, the poor) continue to struggle for inclusion, equal opportunity, and acknowledgement that they too are worthy partners in American society.

A bottom line...

Eliminating individual and institutionalized racism in this country will go far toward eliminating the need for affirmative action programs. Eliminating affirmative action programs, however, will do nothing to eliminate the racism that justifies the continued existence of these programs. Sometimes, the simplest truths are the most powerful.

The author of this commentary is vice president for affirmative action, equity, and diversity at Southeast Community College, Lincoln, Nebraska.
Dallas Collegians Reach Out to At-Risk Students

This summer, five students at the University of Dallas launched a project, the Irving Summer Academic Achiever Program, designed to reach out to at-risk students—those who are suffering academically and are financially strapped.

Melanie Saldivar and four schoolmates spent their summer tutoring local middle school students and taking them on field trips.

Five days a week, Saldivar and friends travelled throughout the local area to pick up 15 middle school students whom they brought to the University of Dallas campus for about five hours of tutoring. Fridays were spent on field trips around the Metroplex and a visit to The Science Place in Dallas.

Saldivar and her partners raised about $6,000 to help pay for supplies and entry fees for the field trips. Next year, the group hopes to raise enough to furnish lunch as well. Students this year had to bring their own

Gómez Named Director of Admission at SWT

Gregory Gómez III has been named director of admission at Southwest Texas State University (SWT).

He joined SWT after serving five years as director of admission at Washburn University in Topeka, Kan., and has spent 12 years in all in the field. Having been assistant director of admission at North Carolina A&T State University and an admission counselor at Salem Community College in New Jersey.

Before his career in higher education, Gómez was an Army officer for 11 years.

He holds a B.A. degree in Spanish from the University of Houston at Victoria and a master's from Webster University in St. Louis.

He replaces Fernando Yarrito, who left to take a similar post at the University of Maryland in Munich, Germany.

M-DCC Teacher Joins First-Ever IRS Panel

Ana Cruz, associate professor of accounting at Miami-Dade Community College (M-DCC), is one of 11 South Floridians named inaugural members of the Internal Revenue Service's new Citizen Advocacy Panel. The volunteer panel is one of several initiatives instituted by President Clinton in the wake of reported abuse of taxpayers by IRS agents, and is the first such panel in the nation.

The panel will work to resolve customer service problems in the local area. Members, who will meet quarterly, will hold at least two public hearings each year to elicit concerns and feedback and receive recommendations. Members will also serve as liaisons for taxpayers and make appropriate referrals.

Cruz, who holds an endowed teaching chair at M-DCC, has more than a decade of specialized tax experience, both in private practice and with the IRS. For several years she has also directed the Volunteer Income Tax Assistance (VITA) program at M-DCC's Wolfson Campus.

In the academic arena, Cruz has earned a reputation for making the study of accounting interesting and relevant, and has incorporated service learning into her classes by having students volunteer with VITA and other organizations.

An alumnus of M-DCC, Cruz holds a master's degree from the University of Thomas of Villanova.

RHC's Jorge Limon Honored by JPL

The Jet Propulsion Laboratories Undergraduate Scholars (JPLUS) program, which identifies outstanding community college students in math, computer science, physical science, and engineering, has honored Rio Hondo College (RHC) student Jorge Limon.

Recommended by RHC's Math and Sciences Department for academic excellence, innovation, and scientific leadership potential, Limon received a plaque acknowledging his accomplishments and academic promise and a stipend at a JPLLS awards banquet and became a potential participant in the Summer Undergraduate Research Fellowship (SURF) program at the Caltech (California Institute of Technology), which manages JPL for the NASA.

Caltech's 18-year-old SURF program is described as a premier academic and research program offering students unparalleled experiences and giving them a strong advantage as they begin future careers or attend graduate school

Mildred García Elected to AAHE Board of Directors

Members of the American Association for Higher Education (AAHE) have elected Mildred García of Arizona State University-West, to a four-year term on AAHE's Board of Directors. García is one of 16 board members.

The Washington
D.C.-based AAHE is a national individual membership organization dedicated to improving the quality of American higher education.

In addition to her position as associate vice provost at ASU-West, García is associate professor in the campus’ Social and Behavioral Sciences Department and associate director of the ASU Hispanic Research Center. Her research has focused on at-risk students and underrepresented faculty, staff, and administrators, with emphasis on the implications for policy and practice.

She received her doctorate from Teachers College, Columbia University, N.Y.

**Harbor College Names Rosas as Vice President**

Luis Rosas has been named vice president of academic affairs at Los Angeles Harbor College.

Rosas joined the staff as a counselor in the Extended Opportunity Program and Services office in 1978, became a member of the regular counseling staff a year later, chairperson of the counseling department in 1985, associate dean of admissions and records in 1987, and academic dean in 1995.

During his two decades at the college, his responsibilities have included supervision of academic divisions and vocational education: International Students: Relations with Schools; College/University Transfer Center; and Affirmative Action and Greater Avenues for Independence (GAIN) programs.

Rosas has served on many committees, was elected chairperson of the committee of counseling chairpersons of the L.A. Community College District, of which Harbor College is a part; and was elected co-chair of the district Admissions Officers Committee.

He has an associates degree from Mt. San Antonio College and a bachelor’s and master’s from Cal State-Los Angeles.

**Castro Math, Statistics Division Head at UTSA**

Alfonso Castro has joined the University of Texas at San Antonio as professor of mathematics and director of the Division of Mathematics and Statistics in the College of Sciences and Engineering.

A member of the mathematics faculty at the University of North Texas for 13 years, he was for two years program director of Applied Mathematics and Classical Analysis at the National Science Foundation.

Author or co-author of more than 60 research articles and publications, Castro earned his doctorate in mathematics at the University of Cincinnati and both his master’s and bachelor’s degrees in mathematics from the National University of Colombia in his native Bogota.

**Martínez Named to National Foundation Board**

Nebraska Wesleyan University student Marty Martínez has been named to the National Hispanic Education Foundation, a board of the American GI Forum, a national Hispanic veterans family organization.

Martínez, the first college student ever selected for the board, was elected at the National Conference of the American GI Forum, held in Corpus Christi, Texas. The board includes two representatives from each of the 15 states with American GI Forum chapters. It distributes scholarship funds, administers a women’s re-entry program, and works on educational programs for inner-city schools.

**Víctor Villaseñor Speaks at ECC**

Víctor Villaseñor, best-selling author, was the keynote speaker for Elgin Community College’s (Ill.) recent Hispanic Heritage Breakfast.

Villaseñor, a highly sought speaker on the topics of family, pride, and world peace, has written *Rain of Gold, Macho, Jury The Profile is...* Juan Corona, and *Wild Steps of Heaven*, and the screenplay *Ballad of Gregorio Cortez*, used in a PBS production starring Edward James Olmos. ABC-TV presented *Rain of Gold* as a mini-series in 1997.

Born in California, Villaseñor was raised by Mexican parents and, he says, grew up feeling lost between two worlds in a constant struggle to find common ground between the culture of his ancestors and his family’s newly adopted American homeland.

After moving to Mexico and then returning to the United States, Villaseñor became inspired to confront the conflicts of his youth through writing.

Throughout his twenties, he produced nine novels and 65 short stories. He received more than 260 rejections before he sold his first novel, *Macho*, which received rave reviews.

He speaks at colleges, universities, high schools, libraries, and prisons, and has been a guest speaker at the Smithsonian Institution in Washington, D.C.

**Romero Appointed U.S. Ambassador to Spain**

Cicerus College (Calif.) alumnus Edward L. Romero of Albuquerque, N.M., was sworn in as U.S. Ambassador to Spain and the principality of Andorra on June 25, 1998, having been nominated by President Clinton on May 5.

At his confirmation hearing before the Senate Foreign Relations Committee, Romero stated, “I want my efforts as ambassador to produce concrete, bottom-line results that would benefit all our citizens through increased trade and enhanced employment opportunities.”

Romero, 63, is founder, chairman, and CEO of Advanced Sciences, Inc., an international environmental engineering and waste management corporation. He has been a member of the U.S. Trade Representative’s Services Policy Advisory Committee and has led several U.S. delegations to Mexico.

He is a well-known leader in the Hispanic community, having served on the President’s Hispanic Advisors Committee, the Albuquerque Hispanic Chamber of Commerce, and the Hispanic Caucus Institute. In 1989, the Hispanic Chamber of Commerce named him National Hispanic Business Man of the Year.
Martinez Directs UTEP’s Facilities Services

University of Texas at El Paso (UTEP) Vice President for Finance and Administration Juan Sandoval has announced the appointment of Gloria Martinez as the university’s new director of Facilities Services.

Martinez will oversee construction, campus grounds maintenance, and more than three million square feet of facilities. Associate director of facilities services since 1996, she has been interim director of the department since December. Her diverse engineering and management background includes positions as the area manager of the physical plant at the University of New Mexico, construction superintendent at Johnson Controls in Los Alamos, N.M., and civil engineer for the New Mexico State Highway Department.

According to Sandoval, she “is one of only a handful of women administrators in facilities services in the state of Texas, and she might be the only Hispanic woman in that position, which makes her a fantastic role model for the Hispanic female students on campus.”

She holds a bachelor’s degree from New Mexico State University, is certified in basic management by the University of New Mexico and in facilities management by the Association of Higher Education Facilities Officers’ Institute for Facilities Management.

Prieto Sworn in as ACCD Trustee

Luz Maria Prieto has been sworn in as a member of the Alamo Community College District (Texas) Board of Trustees and will serve a six-year term.

An art dealer for Galeria Sin Fronteras and freelance translator, she served as a consultant and translator for the National Council of La Raza, the Social Security Administration, and the Red Cross. She has coordinated public programs for the Smithsonian Institution in Washington, D.C., and served as a counselor for several women’s programs, including family planning programs in Latin America.

A veteran community volunteer, she serves on several other local boards, including those of the Guadalupe Cultural Arts Center, the Barrio Comprehensive Family Health Center, and the Madonna Center.

She attended Columbia University, Universidad de las Americas in Mexico, and the Centro Intercultural de Documentacion also in Mexico.

Cameron Associate Dean, Rosenberg Professor

Christopher D. Ruiz Cameron has been appointed associate dean at Southwestern University School of Law (Calif.). A faculty member since 1991, he now coordinates the first-year program and implements new programs to enhance student success in law school and on the bar examination. He will continue to supervise the Externship Program and add responsibilities related to the academic program, faculty appointments and review, faculty development, and the self-study process.

Cameron was also named the 1998-99 Irving D. and Florence Rosenberg Professor of Law for his dedication to the law school and its students, as well as for his professional accomplishments.

He earned his bachelor’s degree, summa cum laude, from the University of California–Los Angeles, and his Juris Doctor degree from Harvard Law School.

Families Welcomed at Texas Tech-El Paso

Parents and students of the El Paso, Texas, area were recently treated to a warm welcome and cake by Texas Tech University administrators, Tech students, and members of the Dads & Moms Association at the El Paso Regional Recruitment Center. The event was designed to help all the area students entering Tech to get acquainted.

Sofia Rodriguez, past president of the Hispanic Student Society and Texas Tech graduate, was named regional director for the center in June and has already made tremendous strides in reaching out to the El Paso community.

“She has helped us so much,” stated Josie Salazar, “My son is the first to go to college, and we did not know how to make all the arrangements. Sofia helped us with everything. We are not so scared anymore.”

Paul Strelzin, vice president of the Texas Tech Dads & Moms Association, told parents to visit their children on campus and get to know their professors and administrators, saying students get homesick and need their support.

Valencia Named “National Community College of the Year”

Valencia. The National Alliance of Business (NAB) has named Valencia Community College (FL) the 1998 National Community College of the Year, singled out for its effective and innovative leadership particularly in meeting the workforce needs of
business and industry.

NAB works to advance an education-workforce agenda at the local, state, and national levels to build a world-class workforce. It partners with the U.S. Chamber of Commerce, the Business Roundtable, and Fortune 100 companies among many others to improve the nation's education and training systems.

Earlier this year, Microsoft Corp. chairman and CEO Bill Gates cited Valencia's leadership role nationally after his company chose Valencia as one of five colleges in the nation to win a Working Connections grant. The grant enables the college to help other schools replicate Valencia's very successful high-tech training programs for students with disabilities.

Valencia, the second-largest producer of A.A. degree graduates in the nation, has also been a leader in the School-to-Work movement. Last year it launched a program that takes faculty members out of the classroom and into the workplace for six weeks to learn firsthand what employers expect from graduates on the job.

Paso del Norte Ozone Map Goes Online

An animated three-dimensional display of ozone pollution levels in the El Paso-Juárez (Texas-Mexico) border region—currently exceeding both U.S. and Mexico air quality standards—went online in August.

Accessible on the Internet at www.ozonemap.org, the Ozone Map presents current levels for the Paso del Norte region, one of the largest international communities sharing a common air basin.

With a population approaching two million, the people within this region are separated only by the Rio Grande, a designated National Heritage River. Throughout history, they have shared resources and a common environment.

The Ozone Map, developed by the University of Texas at El Paso and Austin College in Sherman, Texas, with support from various organizations in the U.S. and Mexico, is an important example of the international cooperation needed to address and solve environmental problems that transcend national borders.

The El Paso City County Health Department, Dirección de Desarrollo Urbano y Ecología in Ciudad Juárez, Texas Natural Resource Conservation Commission, and New Mexico Environment Department have worked together to ensure that the Ozone Map benefits the entire region.

Each agency downloads air pollution and meteorological readings to UTEP where researchers then process data to create a video, which local news stations can access.

USGS in Partnership with Portuguese Organizations

A delegation from the University of South Carolina-Spartanburg (USC) visited Portugal, at the invitation of the Luiz American Development Foundation of Lisbon, which frequently hosts delegations from the U.S., especially from higher education institutions, in order to create avenues for cultural and educational exchanges.

USGS representatives included Rita Duarte Marinho (pictured), Dean of the College of Arts and Sciences; Regis Robe, director of International Studies; Ron Romine, director of Arts and Sciences College Programs; and Don Knight, chair of the Division of Fine Arts, Languages and Literature.

The USGS group met with representatives of the University of Lisbon and laid groundwork for a faculty exchange in the areas of American literature and American popular culture. Discussions were held too with the Camoes Institute, which supports placing lecturers in the Portuguese language at various universities throughout the world.

USGS students, under the auspices of the International Studies Program, are likely to visit Portugal as part of a cultural exchange during 1999.

The USGS International Studies Program has supported visits during the past year to England, Italy, Germany, Costa Rica, France, Portugal, Poland, Russia, and the Dominican Republic.

Hispanic College Fund Receives Grant from SBC Foundation

The Hispanic College Fund (HCF) announced a $25,000 grant from the Southwestern Bell Communications (SBC) Foundation to provide scholarship support to eligible Hispanic youth who aspire to attain a college education in business. The entire grant will fund scholarships to deserving Hispanic students selected from the seven states served by SBC—including Texas, Missouri, Oklahoma, Arkansas, Kansas, California, and Nevada—to be awarded in academic year 1998-99.

The Hispanic College Fund is a national nonprofit, tax-exempt organization located in Washington, D.C., founded in 1993 by Hispanic business owners to help deserving young men and women pursue a college education in business. This year, the HCF expects to award another group of scholarships to more than 100 talented Hispanic students across the country.

The SBC Foundation is the philanthropic unit of SBC Communications Inc. and its Southwestern Bell, Pacific Bell, Nevada Bell, and CellularOne Companies.

This year's grant by the SBC Foundation to the HCF is the fifth in support of its scholarship program.

Learn Spanish in Mexico Through MHCC

This winter, Mt. Hood Community College (MHCC), in Oregon, is offering a unique opportunity in the beautiful mountain town of San Miguel de Allende, Mexico. Participating students will spend winter term 1999 studying in a Spanish language immersion program that will give them a year's worth of instruction and background on Mexican culture in an intensive eight-week program at the Academia Hispano-Americana.

Prior Spanish language experience is unnecessary. Students may enroll as first- or second-year Spanish language students, and will earn credit for a full year of college-level language, as well as credits in International Studies. Individuals may also audit the program.

The total cost of MHCC's Spanish language immersion program is $2,900, and includes all tuition and books, homestay, round trip airfare, and health insurance. An MHCC resident instructor will accompany the group and is available to help with any aspect of the experience, from academics to homestay. Enrollment is limited to 25 students, and early registration is advised. The San Miguel de Allende program will be offered January 2-February 27, 1999.

For more information, contact Lynn Darroch at (503) 675-7641.
EWU Producing Farmworker Plays

Eastern Washington University is seeking community help in a project that will produce one-act Spanish-language plays targeting farmworkers.

Community members are needed to help identify health and safety needs among seasonal and migrant farmworkers, as well as design, act in, and produce the plays throughout four counties. Said Kathy Pitts, project coordinator:

Seattle-area playwrights Leticia López and Lupita Patterson have agreed to write four plays—once the major themes have been developed.

This project is titled "Hispanic Farm Workers Interactive Plays" and is funded under a two-year $224,000 National Institute for Occupational Safety and Health grant, which was recently awarded to Eastern's Center for Farm Health and Safety. The center is also a Pacific Northwest Agricultural Safety and Health satellite center, affiliated with the University of Washington Department of Health.

Although only two percent of the population in the nation raises the food that the nation consumes, farming is still rated in the top three for on-the-job unintentional injuries, Pitts said.

Kalamazoo to Boost Minority Health Careers

If a group of Kalamazoo, Mich., educators and community leaders have their way, minority students from the Kalamazoo Public Schools (KPS) will soon be heading for health careers in record numbers.

A $349,983 award made through the Association of American Medical Colleges (AAMC) will come to the community to fund a five-year initiative to coordinate resources and efforts aimed at boosting the number of minority students headed for a wide range of health care professions.

The award will fund the Kalamazoo Health Partnership Initiative, which will involve Western Michigan University, Michigan State University/Kalamazoo Center for Medical Studies, the KPS, and community organizations from across the city.

Having begun this fall with KPS seventh graders, partners in the effort are focusing on informing students about health care opportunities and guiding interested students into health careers through counseling, mentoring, job shadowing, enhanced academic and laboratory experiences, and special health occupations course work and internships. The partners are bringing their resources to the task of improving basic academic achievement levels, increasing minority enrollment in health professions education, and improving retention of those students once they enroll in higher education.

The Partnership Initiative recognizes that preparing a health professions workforce that reflects the diversity of the community it serves is in the public interest, and that it is important that care providers relate well to the populations served.

Despite efforts thus far, the number of minorities in many of the professional health programs remains very small, with many categories of minority enrollment still at less than five percent.

Fresno City College Developing Latino Leaders

Fresno City College (Calif.) and the Institute of Latino Leadership Education and Development (I-LLEAD) teamed up over the summer to offer a Latino Community Leadership class.

Participants received a working understanding of international, national, state, and local issues impacting the political, economic, and social fabric of the Latino community. The program was constructed to help the participant successfully effect positive change in the context of Fresno County's racially and ethnically diverse community.

The instructor, Enid Pérez, is former director of the Mexican American Legal Defense and Educational Funds (MALDEF) Fresno Leadership Development program.

I-LLEAD was developed due to the increasing demand for Latino leadership classes after the closure of the five-year leadership program operated by MALDEF, which outgrew the program to address the changing demographics in Fresno County.

Spanish Films at Nazareth College

The Casa Hispana (Spanish House) at Nazareth College (N.Y.) is offering a Spanish Film Series in the Fall '98 and Spring '99 semesters. The screenings, which began September 9, are free of charge and open to the public.

(Oct 14: The Pérez Family is a sexy, romantic comedy about freedom, friendship, and the true meaning of family.)

(Oct 21: ¡No se lo tragó la tierra (...and the earth did not swallow him!) is the semi-autobiographical account of 12-year-old Marcos González—son of a Mexican-American migrant worker in the 1950s.)

Nov. 4: El espíritu de la colonia

Nov. 18: Guantanamera is the story of a university professor who is her student's frustrated love.

Jan 13: Cartas del parque (Letters from the Park)

Feb 10: La flor de mi secreto (The Flower of My Secret) focuses on Leo, a romance writer in a loveless marriage, and Angel, a tough and rough journalist with a heart of gold.

Feb 24: Caballos salvajes (Wild Horses) is about an elderly pensioner who returns to bank robbery to recover his $150,000 nest egg, and a young employee who volunteers to be his hostage.

March 24: El maestro de esgrima (The fencing master)

April 7: Últimas tareas con Teresa (Last Evenings with Teresa) tells of an ill-fated love between Teresa, a society girl, and Manolo, an ambitious petty-thief.

April 21: El primer caballero (First Knight) is about Lanzarote's search for Ginebra, future queen of a court that is beset with war and protected by the Excalibur sword of King Arthur.

New Jersey Lauds Hispanic Leaders

The New Jersey Department of Community Affairs, Commissioner Jane M. Kenny and the Center for Hispanic Policy, Research and Development recently held the fifth annual “Excellence in Hispanic Leadership” award reception.

The September reception, held at the New Jersey Performing Arts Center in Newark, N.J., honored Univision Channel 41 for 30 years of service.

Latino Heritage Celebrated at Elmhurst College

Elmhurst College (Ill.) hosted Elmhurst events in September and October in celebration of Latino Heritage, all of them free and open to the public.
The Latino Heritage Art Exhibition Opening Reception for "Re-shaping the Self" featured paintings and drawings by Xero Gomez.

A Latin Cultural Dance Exhibition that featured folkloric dances from the Caribbean and Central and South America, with explanation, and demonstrated with performances by two of "Chicago's most exciting" youth dance groups, Las Serrallas and Los Jovenes del Swing.

The third annual César E. Chávez Guestship featured Pat Mora, award-winning Mexican American poet and author of Neptunia: Essays from the Land in the Middle: Communion: and Borders and Chants, for which she won Southwest Book Awards. Her latest book of poems is Agua Santa: Holy Water.

Participants in "Salsa en La Noche: Otra Vez!" learned the steps to Salsa, Cumbia, and other traditional and modern Latin party dances.

Día de Los Muertos, a ceremony remembering friends and loved ones who have passed away, will close the social occasion on Nov. 1.

**Coming to King Juan Carlos I of Spain Center**

Following are events slated for the King Juan Carlos I of Spain Center of New York University (NYU).

Panel on Colonial Venezuela: In recognition of the 500th anniversary of the Columbus landing in South America, the Center joins with the Consulate General of Venezuela, the Venezuelan American Institute, and the Bolivarian Society of the United States to present a panel discussion with Tomás Enrique Carrillo Batalla, Carlos E. Duarte, and Federico Vegas. In Spanish. Oct. 27.

Flamenco. García Lorca, y la Generación del '98: Two demonstration lectures are offered in conjunction with the Fundación Cristina Heeren de Arte Flamenco: García Lorca at the Residencia de Estudiantes and in New York, and flamenco in the works of the Generation of '98 authors. In Spanish. Novs. 3 and 4.

Juan Goytisolo: During his stay at NYU, this celebrated Spanish writer will offer three public lectures and will participate in several colloquia with graduate students from a variety of departments. Novs. 3-13.

Hispanism in Progress (A series of Colloquia): Nov. 1 - Guest discussant: José Moya, Associate Professor of History at UCLA; Dec. 8 - Guest discussant: Walter Mignolo, Professor and Chair of Romance Studies at Duke University.

Philip II of Spain and His Times: a three-day conference planned by Prof. Antonio Ferro (History) in collaboration with the Center and the Consulate General of Spain to commemorate the 400th anniversary of Felipe II's death. Dec. 3-5.

**Fordham Multicultural Arts Program**

**FORDHAM**

Fordham University's (NY) College of Business Administration has created a unique program exclusively for multicultural arts organizations that will help them prosper in New York City's competitive cultural marketplace.

A certificate program in Arts Marketing and Audience Development for Multicultural Audiences provides intensive course work and training in arts administration for professionals working in mid- to senior-level positions.

Multicultural arts organizations bring a vitality to cultural life throughout New York City, enabling diverse groups to celebrate their own heritage and reach a better understanding of others. New York's diverse cultural arts environment, however, has made it important for multicultural arts administrators to have a strong understanding of essential marketing and legal issues needed to manage and promote their organizations effectively.

Reperiorio Español is among the arts organizations invited to participate in the certificate program.

**Groundbreaking Exhibition of Cuban Art at Arizona State**

ASU

A groundbreaking exhibition, "Contemporary Art from Cuba: Irons and Survival on the Utopian Island," is open to the public through Dec. 13 at the Arizona State University Art Museum.

The exhibition, the first major exhibition in the United States dedicated entirely to the work of the new generation of Cuban artists, offers a unique opportunity to glimpse a hidden world. Many of the artists featured will attend the opening and will give talks to the public and to school classes and university students.

Among the artists whose work is featured are KCHO, Jacqueline Brito, Los Carpineros, Pedro Alvarez, and Yamily Brito, whose work, "Bajo la piel" (1995) is pictured here.

According to ASU Art Museum director Marilyn Zeitlin, "This is a golden age of art in Cuba...Cuba's isolation has produced an artistic output that is fresh and independent. Nothing seems jaded or self-indulgent, but rather full of vitality and relevance to the core issues of living."

**Día de los Muertos Performances at CLU**

Traditionally, Día de los Muertos is celebrated by Latinos on Nov. 1. All Saints Day, to remember the passing of loved ones into the world of the dead. According to legend, the gates between the world of the living and the dead become one, and the dead return to visit loves ones in the world of the living.

At California Lutheran University (CLU), a live theatrical performance depicting the meaning of Día de los Muertos will be presented on Oct. 29 by Teatro Inlakesh theatre troupe and the Folklórico Dancers. Attendees are encouraged to dress up in the tradition of portraying the symbol of death, and a cast prize will be awarded to the best dressed muerto person. Pan de los Muertos (holiday bread) will be served along with hot chocolate and candy.

The event is co-sponsored by Multicultural Programs and Latin American Student Organization at CLU.
Urban Exile: Collected Writings of Harry Gamboa Jr.
Chon A. Noriega, ed.

Working in the tradition of Bertolt Brecht and Samuel Beckett, Harry Gamboa Jr. has pioneered multimedia formats for nearly three decades, setting a precedent for the work of artists such as Coco Fusco, Guillermo Gómez-Peña, and Daniel J. Martinez. This book gathers Gamboa’s diverse creations in a visually compelling collection that reveals a rich vein of Chicano avant-garde production reaching back to the early 1970s.

Sometimes There Is No Other Side: Chicanos and the Myth of Equality
by Rodolfo F. Acuña

A culture war is raging in America. Its battlegrounds include our colleges and universities. Rodolfo F. Acuña shows how present attitudes toward ethnic studies reflect resistance to change within the academy, and raises the question whether people of color should continue to support an educational system that excludes the knowledge needed to address societal problems.

**Gente Decente: A Borderlands Response to the Rhetoric of Dominance**

by Leticia M. Garza-Falcón

Leticia M. Garza-Falcón explores how prominent writers of Mexican descent have used literature to counter popular, early U.S. history, which portrays "savages" Indians and Mexicans and offers retrospective justification for expansionist policies in the Southwest and South Texas. She also offers significant insights into the ongoing failure of the U.S. public education system to address the needs of children of Texas-Mexican (borderlands) ancestry.

**Delia's Way**

by Olga Berrocal Essex

Olga Berrocal Essex delivers a poignant portrait of a young woman's journey toward self-knowledge and freedom from silent yet powerful familial bonds. Sufused with the color and fervor of religious and pagan celebrations, this elegant story is as haunting as incense burning in a cathedral, as beguiling as a young woman's first touch of perfume.

**CONFERENCES**

**National Multicultural Institute**

November 5-8

"Building Personal and Professional Competence in a Multicultural Society," hosted by NMCI. The major goals are to create a multicultural environment in which an open, cross-cultural dialogue can occur; focus on some of the unique issues that professionals face in working with a culturally diverse population; and offer an opportunity for in-depth training and skill-building in multiculturalism. At The Westin City Center, Washington, D.C.

Contact: NMCI, (202) 885-0700; e-mail at <nmci@nmci.org>; Web site: <www.nmci.org>.

**Second Annual Hispanic Law Conference**

November 17

Hosted by the American University Washington College of Law, co-sponsoring with the Hispanic Bar Association of the District of Columbia, Maryland, and Virginia, this 8:30 a.m. to 4:30 p.m. conference features speakers, panels, and roundtable discussions covering the presence and impact of Hispanics in the legal profession, including their roles in the judiciary, academia, politics, and business.

In Washington, D.C.

Contact: Aurora Carmichael, (202) 284-4004 or <deans-office@wcl.american.edu>.

**Diversity and Learning: Identity, Community, Intellectual Development**

November 12-15

Hosted by the American Association of Colleges and Universities (AAC&U). At the Sheraton University City Hotel, Philadelphia.

Contact: AAC&U, (202) 887-9760; e-mail: <meetings@aaau.edu>; Web site: <www.aacu.edu.org>.

**Círculo de Cultura Panamericano**

November 13-15

The annual convention, special sessions on Federico García Lorca in the centenary of his birth, the 100th anniversary of the ending of the Spanish-German-American War, and the centennial of the '98 Spanish Generation. Co-sponsored by William Paterson University (NJ) at the Holiday Inn in Totowa, N.J. and WPL.

Contact: Círculo de Cultura Panamericano, 16 Malvern Place, Verona, N.J. (704) 46-2554.

**24th Annual TACHE State Conference**

November 16-17

The 24th annual conference of the Texas Association of Chicanos in Higher Education. Leaders from higher education, business, and the community will discuss the implications of the Hopwood decision and join in exploring strategies for increasing the representation of Chicano students, faculty, and staff. Over 45 workshops/presentations. At the Wyndham Warwick Hotel, in Houston.

Contact: Ed C. Apodaca, (713) 43-9567.

**Building Leadership for Workforce 2000 and Beyond**

November 1-20

Executive leadership development and diversity training and recruitment conference, hosted by NAHFE, the National Association of Hispanic Federal Executives. At the Holiday Inn Rosslyn Westpark Hotel, Arlington, Vir.

Contact: NAHFE, (703) 870-0291; e-mail: <105400.2016@compuserve.com>; Web site: <www.nahfe.org>.

**The Academy in Motion**

February 13-16

Annual meeting of the American Council on Education (ACE) at the Grand Hyatt Hotel, Washington, D.C.

Contact: Annual Meeting Office, ACE, (202) 999-9410.

**United into the Next Millenium**

March 4-8

Meeting of the National Association of Hispanic Publications. At the Waterfront Hilton, Huntington Beach, Calif.

Contact: NAHP, (202) 662-250.

**Organizing for Learning: Constant Values, Competitive Contexts**

March 20-24

Annual conference of AAHE, the American Association for Higher Education. In Washington, D.C.

**National Research Council: Postdoctoral and Senior Research Awards**

Opportunities for research in:
- Life and Medical Sciences
- Space and Planetary Sciences
- Earth and Atmospheric Sciences
- Engineering, Mathematics & Applied Sciences
- Chemistry, Physical Sciences

Also teaching/research opportunities at the US Military Academy in Mathematics, Physics & Mechanical Engineering

- 350 awards for independent research at over 120 laboratories representing nearly all US Government agencies with research facilities
- 12-month awards renewable for up to 3 years maximum
- Annual stipend for recent PhD or MD graduates $30,000 to $50,000 depending upon sponsoring laboratory; stipend appropriately higher for senior researchers
- Support for relocation and professional travel; health insurance program offered
- 3 annual award competitions for most participating laboratories

Applications are accepted on a continuous basis throughout the year. Postmark deadlines are January 15, April 15 and October 15 for reviews in February, June and October respectively.

For application materials and further information contact:

**University of Notre Dame**
**DIRECTOR, LATINO STUDIES**

The University of Notre Dame is seeking an established scholar to direct its newly institutated Latino Studies Center.

Candidates for the position are expected to have earned a Ph.D and have experience in working with Latino populations and a record of research in any field related to Latino Studies.

The successful candidate will provide direction and leadership for an interdisciplinary program of teaching and research focusing on the Latino experience in the United States. The director's responsibilities will include research, building a curriculum and designing an undergraduate concentration, recruiting and developing new faculty as well as establishing connections with faculty in established departments and budgeting planning and oversight.

The director will receive strong support from the University's administration, from its active and well-established Hispanic Alumni network, and from the rapidly growing Latino student population at Notre Dame. In developing the Latino Studies Center, the director will be expected to work with various University constituencies in order to enhance awareness of Latino issues across the curriculum.

Notre Dame is an affirmative action equal opportunity employer. The University strongly encourages applications from minority and women candidates. Screening of applicants will begin on October 1, 1998 and continue until the successful candidate is identified. Please submit all applications and nominations, including a complete dossier and names of references to:

Rev. Timothy R. Stelly, C.S.C.
Vice President and Senior Associate Provost

Programs for Higher Education announces

Graduate Administrative Fellowships

The Programs for Higher Education (PHE) at Nova Southeastern University announces two graduate administrative fellowships for the 1996-1997 academic year. PHE offers a field-based EdD degree with specializations in adult education, computer and information technology, health care education, higher education, and vocational technical, occupational education. To be eligible, applicants must hold a master's degree from an accredited institution and enroll or be enrolled, in one of the five specializations.

RECIPIENTS WILL RECEIVE THE FOLLOWING:

• annual stipend of $20,000 (and appropriate employee benefits)
• tuition waiver
• textbooks and computer support
• all expenses paid for the 1996 Summer Institute
• office space, for the academic year, in the Fischler Graduate School of Education and Human Services building, Nova Southeastern University, North Miami Beach, Florida.

THE FELLOWSHIPS HAVE THE FOLLOWING PURPOSES:

• to provide the recipients the opportunity for full-time doctoral study in education in Nova Southeastern University's innovative field-based program.
• to provide the PHE office with staff and research support through studies and projects of benefit to the program, and to earn academic credit through graduate education.

Applicants for the 1996-1997 positions should send a letter of intent and a resume no later than January 30, 1996. Send materials to:

Dr. Delores M. Smiley
Associate Dean for Cluster Development and Marketing

DEAN

COLLEGE OF ENGINEERING

The University of Maine invites applications and nominations for the position of the College of Engineering.

Rejoining the Provost, the Dean is the chief executive officer of the College responsible for academic, fiscal, strategic planning, and personnel matters. The Dean is expected to provide leadership for the College and to foster excellence in teaching, research, and service to the community. The Dean also represents the College of Engineering and the University to external agencies and constituents and actively participates in the University's fundraising initiatives.

Founded in 1865, the University of Maine is one of the nation's oldest land grant institutions. It serves as the flagship University of the seven-member University of Maine System that was created in 1961. Within the System, UMaine is responsible for providing high quality undergraduate and graduate education, basic and applied research, and outreach services to extend UMaine's expertise and resources statewide to the people of Maine.

The College of Engineering has six academic departments: Chemical Engineering, Civil and Environmental Engineering, Electrical and Computer Engineering, Mechanical Engineering, Spatial Information Science and Engineering, and the School of Engineering Technology. In addition, the Calo and Parker Foundation Office and Army and Navy ROTC report to the Dean. All academic programs in the College are accredited by the Accreditation Board for Engineering and Technology. Additional information can be obtained at the College's website http://wwwengineeringmaine.edu

Applicants must have a doctorate in one of the disciplines represented in the College, with credentials to qualify for the rank of professor with tenure in a discipline within the College. A strong record of research and creative achievement, teaching and service, the ability to work effectively with the academic and business community, including acquiring public and private support, and successful academic administrative leadership, including development and expansion of existing research programs, as well as evidence of support for cultural diversity and affirmative action. Experience must be commensurate with a tenured appointment at the University of Maine.

Preferred qualifications include demonstrated leadership abilities in the academic environment, documented experience in managing academic programs and recruiting students.

To apply, submit a letter of interest explaining your background, experiences, and qualifications for the position, a current curriculum vitae with list of names, addresses, telephone, and fax numbers of at least three professional references. Screening of candidates will begin January 1, 1996 and continue until a qualified candidate is chosen.

Send applications and nominations to:

Chair, Engineering Search Committee
University of Maine, College of Engineering
5206 Barrows Hall, Room 101
Orono, ME 04469-5708
Phone: 207-581-2216
Fax: 207-581-2220

The University of Maine is an equal opportunity, affirmative action employer. Minorities and women are strongly encouraged to apply. The University, upon request, provides reasonable accommodations to persons with disabilities.
DEPARTMENT OF SCIENTIFIC FOUNDATIONS
MATHEMATICS EDUCATION
Position: The Program in Mathematics seeks a mathematician-educator with expertise in teacher education at the elementary, secondary and college levels.
Responsibilities: Teach graduate courses in mathematics and mathematics education. Advise students, supervise student teaching and interns. Conduct research in mathematics teaching and learning, supervise doctoral students, and collaborate with other teacher educators in the College’s professional development projects.
Qualifications: Earned doctorate in mathematics or mathematics education. Extensive elementary/secondary/college teaching experience. Evidence of research and professional productivity; including extramural funding. Commitment to excellence in teaching.
Rank: Assistant/Associate Professor, Tenure Track
Send CV, letter of intent including a statement of research and teaching interests, recent representative publications, three letters of reference to Professor Bruce R. Szymczak, Search Committee Chair, Box 199.

DEPARTMENT OF HUMAN DEVELOPMENT
MEASUREMENT, EVALUATION, AND STATISTICS
Position: The program prepares students for the college teaching of measurement and research methods, as well as in testing agencies and civil organizations, and as a program for researchers in a wide range of educational and governmental organizations.
Responsibilities: Teach graduate research methods courses, including survey design, sampling methods, empirical methods, evaluation design, or related courses. Conduct independent research in areas of research.
Qualifications: Earned doctorate in psychology, sociology, education, or related field. Strong quantitative background with facility in advanced data analysis techniques. Prior work as a program evaluator preferred.
Rank: Assistant/Associate Professor, Tenure Track
Send CV, sample publications or proposals, and three letters of reference to Professor Jane Rodgers, Search Committee Chair, Box 68.

DEPARTMENT OF HEALTH AND BEHAVIOR STUDIES
NURSING EDUCATION
Position: Candidates with demonstrated excellence in scholarship, prominence in teaching, and distinction for appointment to the Isabel Mainland Stenemen Chair in Nursing Education. Provide intellectual leadership and oversight to the program. Connect to a multidisciplinary department, including programs in health promotion, psychology, and social education.
Responsibilities: Teach graduate courses, advise students, supervise doctoral research. Take a leadership role in ongoing efforts in psychology. Maximize active, externally-funded research program. Provide service to both the Department and the College, as well as the profession.
Qualifications: Earned doctorate and experience as a professional registered nurse required. Experience in theory-based educational research, a strong record in peer-reviewed extramural research funding, and publication in peer-reviewed journals necessary.
Rank: Associate/Full Professor, Tenured
Send CV, a cover letter stating research and teaching interests and applied experiences, and sample publications to Professor Maria Brandt, Search Committee Chair, Box 65.

DEPARTMENT OF ORGANIZATION AND LEADERSHIP
SOCIAL-ORGANIZATIONAL PSYCHOLOGY
Position: The Program in Social-Organizational Psychology and to assist in providing leadership for the MA and Ph.D. programs. The program is concerned with the various inter-personal, group, and inter-group and organizational contexts in which human behavior occurs, with the ways in which groups of individuals interact with, are influenced by, and in turn influence one another. Research interests include leadership, power, influence, and the role of social psychology in organizational contexts.
Responsibilities: Teach graduate courses such as theories in social psychology, research methods, group behavior, conflict management, managing diversity, organizational development, survey research, motivation and organizational development. Advise both the masters and doctoral students. Conduct research and supervise doctoral research.
Qualifications: Earned Ph.D. in social or organizational psychology, strong roots in social psychology, or social psychology with organizational interests. The area of research is less important than the quality of research. Demonstrated excellence in teaching. Well-developed professional skills as a practitioner, consultant, organizational psychologist.
Rank: Assistant/Associate Professor, Tenured; or Assistant/Associate Professor, Tenure Track
Send CV, a cover letter stating research and teaching interests, three letters of reference to Professor Debra A. Noumiari, Search Committee Chair, Box 175.

COLUMBIA UNIVERSITY
TEACHER EDUCATION
Position: The School of Education seeks a full-time faculty member with a strong background in the field of special education to teach in the Secondary Education Program. The successful candidate will have teaching experience in secondary education, including coursework in secondary education and secondary education administration.
Responsibilities: Teach graduate courses in the areas of special education, including coursework in special education and related fields. Provide leadership and direction in the field of special education. Participate in the development and coordination of the Special Education Program.
Qualifications: Earned doctorate in special education or related field. Demonstrated excellence in teaching. Well-developed professional skills as a practitioner, consultant, and organizational psychologist.
Rank: Assistant/Associate Professor, Tenure Track
Send CV, a letter of recommendation, a statement of research and teaching interests, and three letters of reference to Professor Barry M. Farber, Search Committee Chair, Box 104.

DEPARTMENT OF BIOBEHAVIORAL STUDIES
SPEECH AND LANGUAGE PATHOLOGY
Position: The School of Audiology seeks candidates for a full-time position at the rank of Clinical Instructor in the Department of Audiology.
Responsibilities: Teach graduate courses in clinical audiology, including coursework in audiology and related fields. Provide leadership and direction in the field of clinical audiology. Participate in the development and coordination of the Audiology Program.
Qualifications: Earned doctorate in audiology or related field. Demonstrated excellence in teaching. Well-developed professional skills as a practitioner, consultant, and organizational psychologist.
Rank: Assistant/Associate Professor, Tenure Track
Send CV, a letter of recommendation, a statement of research and teaching interests, and three letters of reference to Professor Barry M. Farber, Search Committee Chair, Box 104.

Equal Opportunity/Affirmative Action Employer.

DEPARTMENT OF ELECTRICAL ENGINEERING AND COMPUTER SCIENCE

FACULTY POSITIONS

The EECS Department invites applications for tenure-track faculty at all levels. We especially encourage applications from women, members of minority groups, and others who will enhance the diversity of our faculty.

The Department of Electrical Engineering and Computer Science at the University of Illinois at Chicago (UIC) is seeking one or more tenure-track faculty members. The Department offers B.S. and M.S. degrees in Electrical and Computer Engineering. The M.S. program includes an option in Computer Science. The Ph.D. program is offered in both Electrical Engineering and Computer Science.

The Department currently has faculty members in the following areas: Computer Science, Computer Engineering, Electrical Engineering, and Electrical Engineering Technology. Faculty members are engaged in research in areas such as computer networks, computer architecture, computer security, and software engineering.

The Department is located in a city with a diverse population of approximately 3 million people. The city is located in the Chicago metropolitan area, which has a population of approximately 10 million people. The Department is currently housed in a new building, which opened in 2012.

The University of Illinois at Chicago is an Equal Opportunity/Affirmative Action Employer.

The University of Illinois at Chicago is located near downtown Chicago, and is close to other research institutions and universities. The city offers all of the amenities of a major city and a wide range of affordable housing.

For more information about the department, visit our web page at http://www.eecs.uic.edu.

The University of Illinois at Chicago is an Affirmative Action/Equal Opportunity Employer.

Superintendent of Schools

Hartford, Connecticut

The Hartford, Connecticut School Board invites educational leaders to apply for the position of Superintendent of Schools. Hartford, with a population of over 130,000, has an educational system which serves 24,000 diverse K-12 students in 28 elementary schools (K-5), 10 middle schools (6-8), and three comprehensive high schools (9-12). The new Superintendent must be a dynamic, articulate leader with an outstanding work history.

The successful candidate should demonstrate:

Leadership: A record of educational and fiscal leadership as a senior education administrator. Demonstrated strong management skills. A history of effective communication with professional staff, parents and community leaders.

A belief that all students should have appropriate opportunities to excel and should be rigorously challenged.

Commitment to Students: Knowledge and experience with curriculum innovation, issues and a dedication to high achievement for all students.

Qualifications: A minimum of five years' experience in a senior education administration position and a Master's degree (an earned Doctorate is preferable). Must meet Connecticut's Department of Education certification requirements for Superintendent.

A minimum of two years' experience in a senior education administration position and a Master's degree (an earned Doctorate is preferable). Must meet Connecticut's Department of Education certification requirements for Superintendent.

A minimum of three years' experience in a senior education administration position and a Master's degree (an earned Doctorate is preferable). Must meet Connecticut's Department of Education certification requirements for Superintendent.

Applications should be submitted to a human resources officer for the school district. The deadline for applications is March 1, 1999. For more information, contact the Human Resources Department at (860) 522-6500.

UTB/TSC

DEAN - GRADUATE STUDIES AND SPONSORED PROGRAMS

THE UNIVERSITY OF TEXAS AT BROWNSVILLE

and

TExAS SOUTHWEST COLLEGE

The University of Texas at Brownsville and Texas Southmost College is seeking an academic leader for the position of Dean of Graduate Studies. Located next to the border of Mexico, UTB/TSC is a land-grant institution with a diverse student body. The college offers undergraduate and graduate programs in the School of Education, the School of Business, the School of Liberal Arts and the College of Sciences, Mathematics, Engineering and Technology.

The Dean will be expected to provide leadership in strengthening existing graduate programs in collaboration with the college and school deans while also working with them to develop new graduate programs. Other responsibilities include monitoring graduate academic policies and standards, recruiting and advising graduate students, leading professional development workshops for faculty, promoting grant writing, and managing the graduate studies office.

The University of Texas at Brownsville and Texas Southmost College is an Equal Opportunity/Affirmative Action Employer.

Applications are invited from minority candidates. The search will continue until an acceptable candidate is identified. Applications should include a curriculum vitae and letters of reference. For more information, contact Professor Richard M. Williams at (956) 860-8600.

SCSU is a comprehensive metropolitan public university of some 12,000 students, located in historic New Haven. The University is an equal opportunity, affirmative action employer, seeking to enhance the diversity of its instructional staff. SCSU encourages women and minorities to apply.

Representatives from the Department will be at the "1998 National APA Convention CareerMart" to meet with interested parties.

Washtenaw Community College

EXECUTIVE DIRECTOR FOR INFORMATION TECHNOLOGY

A competitive two-year college dedicated to student, community, and staff success is presently seeking an individual for the position of Executive Director for Information Technology. This individual will be responsible for coordinating and implementing a comprehensive Information Technology Plan, aligning technology initiatives with institutional and business goals of the College, as well as managing technology staff, research, development, acquisition, implementation, and support services in a multi-campus environment. This position reports directly to the President and serves as the Chair for Information Technology staff officers for the College. The College is located in the city of Ann Arbor, MI, a community over 100,000.

The successful candidate should have a broad understanding of information technologies, strong technical knowledge in computing and communications, and experience in leading technical teams. Experience leading and managing a diverse technology team is also required.

As a member of the Technology team, this position will be responsible for the development, implementation, and maintenance of the information technology infrastructure. This includes all aspects of technology, from hardware to software, and from network to application.

This position will also be responsible for the development and implementation of technology policies and procedures. This includes the development of disaster recovery procedures, the implementation of security policies, and the development of technology training programs.

The successful candidate will have a bachelor's degree in computer science or a related field, and at least five years of experience in information technology management. Experience in higher education is preferred.

Search 98-291

Loyola College in Maryland is actively seeking to increase its number of African American faculty through the following program:

Vita Bank: The College has established a Faculty of Color Vita Bank for candidates interested in being considered for tenure track faculty positions. For the 1998-1999 academic year, the following departments are conducting searches for tenure track positions available through existing searches or other recruitment opportunities: Economics, Education (Dept. Chair), History, Marketing, Speech Pathology and Audiology, Writing (Rhetoric). In addition, these and all other departments participate in the College's targeted recruitment programs.

Loyola College, a private comprehensive university, is a Catholic Jesuit institution dedicated to the liberal arts, rigorous study, and social responsibility. The student population consists of 3000 undergraduates and 3000 graduates. Class size is generally small, and faculty salaries are competitive. Loyola has a strong commitment to diversity. The College's diversity initiatives provide a strong support for the recruitment and retention of faculty of color, and for the education of all students about each race and culture.

To apply for either program, send your vita and cover letter to: Dr. Pamela Paul, Maryland Hall Rm 227, Loyola College, 4501 N. Charles Street, Baltimore, MD 21210-2699. For further information, call: 410-617-2988 or e-mail: PPaul@mailgate.Loyola.edu.

Loyola College is an Equal Opportunity Employer. Women and people of color are encouraged to apply.
Salem State College, a comprehensive liberal arts institution located 25 miles north of Boston, is seeking to diversify its faculty and fill a number of possible tenure track positions for the fall of 1999. A one-year temporary position is also included in the listing. All faculty are expected to serve as role models and mentors for a diverse student body. Salary is competitive and commensurate with education and experience. Positions are advertised pending funding.

**School of Arts and Sciences**

**Biology:** Responsibilities include teaching both general biology and courses in the area of human anatomy and physiology. Required qualifications include a Ph.D. in Biology; 2 years of successful full-time college level teaching, especially introductory biology and human anatomy and physiology lectures and laboratories. Preferred is experience serving as an introductory biology laboratory coordinator.

**Computer Science:** Required qualifications include a terminal degree (Ph.D. or equivalent, documented in Computer Science) and 2 years of successful full-time college level teaching. Preferred qualifications include a Ph.D. and demonstrated teaching excellence at the college level. Preferred is the ability to teach courses in the area of specialization, such as networking, business Spanish, methodology, or other courses; ability to teach a second foreign language, and active research and publication agenda.

**History:** Responsibilities include teaching world civilization and Chinese and/or Japanese History. Required qualifications include a Ph.D., with a specialization in China and/or Japan. Preferred is a secondary field in Asian-American History.

**Interdisciplinary Studies:** Responsibilities include teaching an interdisciplinary Freshman Seminar. Required qualifications include a Master’s degree, college teaching experience. Preferred is research and teaching experience in one or more of the following fields: Freshman Year Experience, Ethnic and Cultural Studies (General and Regional), and Mentoring (Concept and Application).

**Physics:** (Department of Chemistry and Physics) Responsibilities include teaching introductory physics courses in support of major programs in biology, chemistry, and Geological Sciences and in a master’s program. Courses are closely related to astronomy, and radiation physics to students in the Nuclear Medical Technology program. Required qualifications include a Ph.D. in Physics, and a strong commitment to excellence in teaching and research. A record of teaching and scholarly experience is preferred. Two years of college teaching experience are preferred.

**Political Science:** Responsibilities include teaching courses in International Relations/Comparative Politics. Required qualifications include a Ph.D. 2 years of college teaching experience, and the ability to teach the courses. Preferred is the ability to teach a course in gender and politics and to demonstrate excellence in teaching. Please include a writing sample, samples of courses taught and developed, and a statement of teaching and research interests.

Application review begins November 1, 1998 unless otherwise noted, and continue until a satisfactory pool is achieved. Please send applications immediately.

To apply, send letter of application specifying department and position for which you are applying, resume, appropriate transcripts and three letters of recommendation to: Office of Faculty and Student Recruitment, 524 Lafayette St., Salem, MA 01970. FAX: (978) 542-6163. E-Mail: eo-fh@salem.mass.edu (Word or Word Perfect Attachments only).

**Salem State College is an Equal Opportunity/Affirmative Action Employer. Persons of Color, Women, and Persons with Disabilities are Strongly Urged to Apply.**

The University of Illinois is an Affirmative Action Equal Opportunity Employer

University of California, Berkeley
Richard and Rhoda Goldman School of Public Policy

The Richard and Rhoda Goldman School of Public Policy invites application for an appointment to the faculty at the Assistant Professor rank to begin July 1, 1999. Preference will be given to scholars with expertise in the application of microeconomics to public policy, who have teaching experience and have demonstrated the potential to make important research contributions relevant to the analysis of problems in the public or non-profit sectors. Qualified applicants must hold a doctoral degree or its equivalent. Experience in the practice of public policy-making is also highly desirable.

The School seeks an individual whose interests will add to the policy breadth of the existing faculty. Such interests include but are not limited to environmental policy, health policy, race relations and affirmative action, and science and technology policy. All members of the School's faculty are expected to contribute to the core curriculum. This curriculum includes courses in microeconomics, law and other forms of qualitative analysis, political and organizational analysis, quantitative methods, and public management. The School expects to appoint an individual who is broadly conversant with the social and behavioral sciences and who will engage with an intellectually diverse faculty.

Candidates should send the following five items to: Professor Eugene Smolensky, Goldman School of Public Policy, 2507 Hearst Avenue, University of California, Berkeley, CA 94720. (1) A cover letter, (2) a vita, (3) an example of an article submitted to or accepted by a refereed journal, (4) a summary of no more than 250 words of that article, and (5) the names of three references. The deadline to submit an application is January 15, 1999. All applications received after the postmark of that date will not be considered. Early applications are encouraged.

The University of California is an Equal Opportunity, Affirmative Action Employer.
ITHACA

Ithaca College
VICE PRESIDENT
for Institutional Advancement

Ithaca College invites applications and nominations for the position of Vice President for Institutional Advancement. The Vice President reports to the President and is responsible for increasing private support and visibility of the College through the leadership, strategic planning, and management of a staff of 45 in a comprehensive advancement program that includes development, alumni relations, college relations, including publications and public relations. The Vice President serves as a key member of the President's Council and works closely with the Board of Trustees in their governance and development responsibilities.

Since its founding in 1892, Ithaca College has become the largest independent, comprehensive, residential college in New York State. The College emphasizes teaching excellence, close personal attention, and joint-faculty research in its 108 fully accredited undergraduate and graduate programs in the Schools of Business, Communications, Health Sciences and Human Performance, Humanities and Science, and Music. Its location in central New York’s spectacular Finger Lakes region combines rich cultural and commercial features in a cosmopolitan community shared with Cornell University. The 5,800 students, mostly undergraduates of traditional age, are taught by 415 full-time faculty. There are 33,000 alumni. The College has an endowment of $162 million, raised $8.9 million in fiscal year 1997-98, and recently raised over $10.5 million in a capital campaign for the James J. Whalen Center for Music.

The ideal candidate will possess the following: a bachelor’s degree (advanced degree preferred), significant successful and diverse development experience at a senior level, preferably in higher education; demonstrated success as a creative, effective manager with the ability to lead a multifaceted advancement program; exceptional interpersonal and communication skills; and the ability to serve as an enthusiastic ambassador of Ithaca College with vision, professionalism and integrity. Please submit nominations and applications to the College’s consultants:

Please see our website for more information: http://www.unomaha.edu
ASSOCIATE DEAN
OF GRADUATE
ACADEMIC AFFAIRS

In a leadership role, the Associate Dean of Graduate Academic Affairs will identify, recruit, retain and graduate students from the underrepresented groups, especially but not exclusively minority groups; and formulate and oversee policy in these areas for the Graduate School. The Candidate will be a liaison to graduate student representative bodies, including the Graduate & Professional Student Assembly and the various minority student groups; advise senior administrative staff on issues related to minority affairs; work with other University offices that handle graduate student academic issues; and provide academic advising and counseling to graduate students as needed. Additionally, the position will obtain external funding for special programs; manage programs; represent the University to other schools, professional organizations, alumni, and government agencies; and work directly with the Dean of the Graduate School on other academic issues as they arise.

Work experience in one or more of the above areas, including experience leading, planning and managing programs is desired. A Doctorate is strongly preferred. Requirements include strong interpersonal, organizational, and written and oral communication skills. The Associate Dean of Graduate Academic Affairs reports to the Dean:

NC STATE UNIVERSITY

PROVOST

North Carolina State University invites nominations and applications of candidates for the position of Provost and Vice Chancellor for Academic Affairs.

This is a unique opportunity for a strong visionary leader at the largest institution within The University of North Carolina System, a public higher education system.

Application: A statement of interest, a complete résumé and a list of five references should be postmarked no later than October 31, 1998, although applications and nominations will be accepted until the search is completed. Send correspondence to:

Mr. Jerry H. Baker
Baker, Parker and Associates, Inc.
Two Concourse Parkway, Suite 775
Atlanta, GA 30328-5371
E-mail: jbak@bpassearch.com
http://www.ncsu.edu

NC State University is an Equal Opportunity/Affirmative Action Employer

NC State Today: Enhancing its historic strengths in agriculture, science and engineering with a commitment to excellence in a comprehensive range of academic disciplines, NC State University provides leadership for intellectual, cultural, social, economic and technological development within the state, the nation and the world. Situated in Raleigh, one of America’s most livable cities, and adjacent to Research Triangle Park, NC State is a Research I, land-grant institution with an enrollment of more than 27,000 students, an annual operating budget of $632 million, an endowment valued at approximately $250 million, and sponsored programs and research expenditures of $335 million. The university offers 89 baccalaureate degrees, 85 master’s degrees and 52 doctoral degrees in 10 academic colleges and schools, including Agriculture and Life Sciences, Design, Education and Psychology, Engineering, Forest Resources, Humanities and Social Sciences, Management, Physical and Mathematical Sciences, Textiles and Veterinary Medicine.

Provost’s Position: The Provost serves as the chief academic officer and a key member of the Chancellor’s executive team and is responsible for all academic programs. The successful candidate should have an earned doctorate or comparable academic credentials and a distinguished record of scholarly achievement, teaching and service consistent with appointment as professor in one of the University’s academic departments. In addition, the candidate should have a substantial record of fostering a success-oriented academic community for students, faculty, and staff at a large, complex university. The university is a member of NCAA Division I. The position requires an appreciation of a Research I, land-grant university dedicated to integrating teaching, research, service and extension for diverse constituencies.
Wellesley College, a leading liberal arts institution for women, invites applications from experienced relational database report-writing professionals for a full-time position in the Information Services Database Systems department. This position requires technical expertise and project management skills in the continued implementation and support of a large administrative information system. It also offers the opportunity to be a leader in the design, implementation and maintenance of a new data warehouse effort in a Unix and Oracle/SCT Banner client/server environment.

Requirements for the position include a Bachelor’s degree in Computer Science, or equivalent experience, and significant professional experience in information systems, report writing, documentation, training and project leadership. Strong programming and report writing skills (preferably in SQL, PL/SQL, and OBIEE) and experience with Oracle, SQL and report writer software such as Microsoft Access and Crystal Reports or Oracle Reports are also required. Proven interpersonal and communication skills are essential. Experience with Oracle databases, SQL Databases, UNIX, C, and Perl is preferred. Applicants must be able to work well as part of a team and work effectively in a culturally diverse environment.

Wellesley College is proud of its flexible work environment. We will consider a variety of ways to accommodate this position, such as full-time, part-time or a combination of both.

If interested, send a letter indicating your interest, desire, and resume to Patricia M. Busbee, Associate Director of Career Services, on the above date.

Wellesley College is an equal opportunity employer.

EUROPEAN WOMEN'S HISTORY

The History Department at the University of Wisconsin-Madison seeks a candidate with experience in women's history to teach a course in the history of women in Europe since 1750. The position is available for the academic year 1999-2000.

Applications are now being accepted. The History Department at the University of Wisconsin-Madison seeks a candidate with experience in women's history to teach a course in the history of women in Europe since 1750. The position is available for the academic year 1999-2000.

The University of Wisconsin-Madison is an Equal Opportunity/Affirmative Action Employer and encourages applications from women and minorities.
DEAN OF THE HONORS COLLEGE
Ball State University
Muncie, Indiana

Ball State University is seeking an experienced teacher/scholar to direct and coordinate activities at its nationally recognized Honors College as of July 1, 1999. Minimum qualifications are an earned doctorate or the terminal degree in the candidate’s academic discipline; overall qualifications which merit a faculty appointment at a senior rank within one of the academic units of the university. Demonstrated excellence in teaching; strong interpersonal and communication skills; and willingness to collaborate with other areas of the university. Preferred qualifications are: experience in honors education; demonstrated leadership and management skills; commitment to interdisciplinary collaboration; and experience in developing external funding and participation in fund-raising activities.

Created in 1959 as an Honors Program and raised to college status 20 years later by action of the Board of Trustees, the university’s Honors College currently serves 1,400 outstanding undergraduates from all disciplines, providing a small-college atmosphere within the university community of approximately 18,000 students. Ball State University is in Muncie, Indiana, a city of approximately 80,000, located 50 miles northeast of Indianapolis and 230 miles southeast of Chicago.

The Dean of the Honors College reports directly to the Associate Provost and works with the Academic Deans, Departments, and the Office of Admissions to recruit outstanding students to the university. Other primary duties include teaching within the Honors College curriculum, developing and administering the Honors College’s scholarship programs, supervising the Undergraduate Fellows Program, and coordinating the college’s student programs in Oxford, England.

Salary is dependent on qualifications and experience. Review of applications will begin on November 2, 1998, and continue until the position is filled. Send letter of application, curriculum vitae, and the names of five references to: Dean of the Honors College Selection Committee, Office of the Associate Provost, Ball State University, Muncie, IN 47306. Further information is available on the university’s website at www.bsu.edu and www.bsu.edu/honors.

Ball State University is an equal opportunity, affirmative action employer and is strongly and actively committed to diversity within its community.

Vice President for Academic Affairs/Dean of the Faculty
GAINESVILLE COLLEGE

Gainesville College invites applications and nominations for the position of Vice President for Academic Affairs and Dean of the Faculty, appointment expected by July 1, 1999.

The Position
The Vice President for Academic Affairs and Dean of the Faculty is the chief academic officer of the College and reports to the President. Responsibilities include leadership and supervision of the transfer, career remedial, and continuing education curricula, library and learning resources center, admissions and records operations, and the professional development office. The vice president provides faculty leadership, is instrumental in program development and community outreach, and works closely with the president and other members of the executive council to devise the budget and make other decisions affecting the welfare of the college community.

Qualifications
- Earned doctorate from a regionally accredited college or university.
- At least 3 years of successful administrative experience at the level of division chair or higher.
- Demonstrated record of teaching and service, preferably at the two-year college level.
- Demonstrated ability to establish and maintain collaborative working relationships with students, faculty, staff, and other administrators within and outside the college.
- Demonstrated ability to manage fiscal and personnel resources to balance competing programs and to implement strategic and innovative strategies.
- Excellent interpersonal and communication skills.

The College
Gainesville College is a two-year unit of the University System of Georgia. Emphasizing the University System approves core curriculum in the liberal arts tradition, the College offers academic opportunities in the humanities, the natural sciences, mathematics, and computer science, and the social sciences. Special education and the professional fields of business and health sciences. It has an enrollment of almost 3,000 students and is located in the foothills of the Appalachian Mountains near beautiful Lake Lanier about 60 miles northeast of Atlanta. Additional information can be found on the College's home page at http://www.gc.peachnet.edu.

The Application
A complete application will include a letter addressing qualifications noted above, a one-page statement of educational and leadership philosophy, a curriculum vitae, transcripts and names, and telephone numbers of at least three references. Salary will be competitive and commensurate with qualifications and experience. Application materials should be mailed to: Human Resources Department, Gainesville College, P.O. Box 1359, Gainesville, GA 30502.

Review of complete files will begin on December 1, 1998, and continue until the position is filled.

Gainesville College is an Affirmative Action/Equal Opportunity Educational Institution.

SETON HILL COLLEGE

The Education Department invites applications for an Assistant or Associate Professor position in Special Education beginning either Spring or Fall, 1999. This position will teach graduate and undergraduate courses in elementary education and special education, with an emphasis in severe and profoundly, and physically handicapped; advise graduate and undergraduate students, supervise student teachers, and facilitate Master’s research projects. Qualifications include Doctorate in Special Education (ABD considered) basic education teaching experience, supervisory experience, and experience in elementary and/or special education certification. Send letter of application, curriculum vitae, official transcripts, a statement of teaching philosophy, and three letters of reference to:

Terry D. DePasquale, Ed.D., Chair Division of Education Communication and Behavioral Sciences Seton Hill College Greensburg, PA 15601

Seton Hill College is committed to having a faculty and staff which is representative of the racial diversity of the global community; women and minorities encouraged to apply.

MICHIGAN STATE UNIVERSITY
PSYCHOLOGY/LATINO STUDIES

The Department of Psychology and the Michigan State University Research Institute invites applications for a tenure-track position at the rank of Assistant Professor specializing in CHICANO/LATINO STUDIES. The candidate will be jointly appointed by Psychology, the tenure home department, and the Hispanic Studies Research Institute. The Michigan State University Research Institute is the Midwest’s premier research and outreach center to the Hispanic community. Applicants with a Ph.D. in any area of Psychology will be considered. Women and underrepresented minorities are encouraged to apply. The individual must have a strong research program capable of attracting extramural support. In addition to teaching in the Department of Psychology, the candidate will work with graduate and undergraduate students in an advisory capacity, and participate in other faculty activities including student mentoring. The position involves a 50% teaching release for the first two years to allow work to advance the Institute’s mission, to promote the generation of scholarship on Latinos, and to advance the Ethnic Studies goals of the College of Social Science and the University. The position begins August 16, 1999. Salary and rank will depend on the candidate’s qualifications and experience. Review of applications will begin December 1, 1998, and continue until a suitable candidate is identified. Send a letter of application, vitae, reprints, and three letters of reference to William S. Davidson, Chair, Chicano/Latino Studies Search Committee, Department of Psychology, Michigan State University, East Lansing, MI 48824-1117.

MSU is an AA/EEO employer.

St. Mary's University
Vice President for Student Development

St. Mary's University seeks a Vice President for Student Development who demonstrates leadership, vision, and a dedication to the overall development of each student as a person in the context of a university community. Applicants should be committed to student development which extends beyond intellectual and professional growth, and includes emotional, social, and spiritual growth as well.

The Vice President for Student Development serves as a member of the University's Executive Council and reports directly to the President of the University. Responsibilities include providing leadership in planning, implementing, assessing and improving student services and experiences which meet and support the University's mission and strategic plan. The Vice President provides direct supervision and leadership development for the administrators responsible for the following departments: Campus Ministry, Career Services, Counseling and Testing, Dean of Students/Student Life, Intercollegiate Athletics, Health Center, and Service Learning. Student Life involves the following areas: Athletic Convocation Center and University Center, Greek Life, International Student Services, Judicial Affairs, Orientation-Transition and Leadership Programs, Residence Life, Student Government, Services for Students with Disabilities and Wellness and Recreational Sports. Leadership is also called for in aspects of legal issues in higher education; campus communication and collaboration with faculty and administrative colleagues, budget development, planning and assessment.

Located in the multicultural and dynamic city of San Antonio, Texas, St. Mary's University is a comprehensive liberal arts university founded in 1852 by the Society of Mary (Marist). The culturally diverse enrollment consists of approximately 4,200 students, including approximately 2,800 undergraduates in the Schools of Business and Administration, Humanities and Social Sciences, and Science. Engineering and Technology, approximately 500 students in the Graduate School, and approximately 750 students in the School of Law. The ethnic diversity of the student population mirrors the demographics of San Antonio.

Candidates should possess the following essential traits:

- demonstrated personal/professional value/willingness and ability to provide leadership for the Catholic Marist character of the University community through Student Development.
- demonstrated success in providing direct supervision, direction and support for administrators.
- successful management and leadership experience in student development in higher education; direct knowledge and experience in a broad spectrum of student development areas.
- an ability to interact with and relate to a diverse student population.
- an ability to work effectively with faculty, administration, staff, and students.
- successful collaboration and integration with academic programs and personnel.
- demonstrated knowledge in aspects of legal issues in higher education.
- demonstrated leadership of student development field.
- demonstrated leadership in utilizing technology, budgeting, planning and assessment to improve student services.
- doctorate in Student Personnel Administration, Higher Education Administration or related field strongly preferred.

The position is available on January 1, 1999. Salary and benefits package are competitive. We will begin to review applications November 10, 1998. St. Mary's University is strongly committed to the hiring and advancement of women and minorities in higher education and encourages candidates of all backgrounds to apply. To apply, send a letter of application, current resume, and three current letters of reference to:

Director of Human Resources
St. Mary's University
One Camino Santa Maria
San Antonio, TX 78228-8565
Attn: Vice President for Student Development Search

Fairleigh Dickinson University
PRESIDENT
Fairleigh Dickinson University, one of the largest independent universities in New Jersey, is seeking a President to succeed Francis J. Mertz, who has served with distinction since 1973. The University occupies campuses in Madison and Teaneck with a total enrollment of 9,000 full-time and part-time students. Fairleigh Dickinson University is a comprehensive university (Master's I in the Carnegie classification) and offers associate, bachelor's, master's and doctorate degrees in a range of fields. The student enrollment is divided approximately equally between graduate and professional programs. There are 265 full-time faculty members. The annual budget is roughly $100 million.

The Board of Trustees is looking for an experienced administrator with a deep commitment to academic values, a successful record in fund-raising and management, and the communication skills required to lead the campus communities and the external constituencies of the University.

The University is being assisted in this process by Jean Dowdall and Robert Atwell of A.T. Kearney Executive Search. Dr. Dowdall can be reached at 225 Reinekers Lane, Alexandria, VA 22314; phone (703) 739-4761; fax (703) 518-1782; e-mail: jeann_dowdall@atkearney.com. Candidates are encouraged to review the search website at www. fdud.edu/searches.

Applications and nominations should be forwarded in confidence to:
Joseph Weber, Ph.D., Chair of the Presidential Search Committee
Fairleigh Dickinson University
c/o A.T. Kearney Executive Search
225 Reinekers Lane
Alexandria, VA 22314

The confidential review of candidates will begin in December; materials received prior to that time will receive full consideration. The search will continue until the position is filled. The appointment will become effective July 1, 1999.

FDU is an EEO AA employer committed to a diversified work force. M/F/D/V

ASSISTANT DEAN OF THE FACULTY

A senior-level member of the Office of the Provost/Dean of the Faculty, the Assistant Dean of the Faculty supports the Provost and the Dean for Academic Development on all matters connected with the academic program including the implementation of major initiatives such as the scholarship program, and the engineering and environmental program. The Assistant Dean also conducts research, drafts correspondence and reports on academic matters; oversees supervision and evaluation of support staff; coordinates best practices and communication among academic departments; advises the deans on academic and other campus issues; coordinates the development and evaluation of a variety of services supporting the faculty; and provides leadership for the Office's initiative for the advancement of educational technology.

Requirements: Doctoral degree, preferably in a field taught at Smith. Minimum of five years of relevant administrative experience in higher education, college-level teaching experience highly desirable. Excellent written, research and budgeting skills; strong leadership/management skills; working proficiency in word processing; outstanding presentation, communication and interpersonal skills, and the ability to work with diverse constituencies and maintain confidentiality.

For over 100 years, Smith College has been a national leader in the liberal arts college for women, having been founded in 1875 and dedicated to its students and staff. Our libraries, museums, theatre and athletic facilities, as well as our classes and workshops, are part of our exceptional experience. Located in the diverse and scenic city of Northampton, MA, Smith is a member of the Five College Consortium (Amherst College, Hampshire College, Mount Holyoke College, and the University of Massachusetts).

Review of applications will begin immediately and continue until the position is filled. Interested candidates are invited to submit a letter of application and resume to the attention of Human Resources, Smith College, Box 595, 30 Belmont Avenue, Northampton, MA 01063.

Smith College is an equal opportunity employer encouraging excellence through diversity.
KEAN UNIVERSITY
DEAN OF GRADUATE STUDIES, RESEARCH AND CONTINUING EDUCATION

Kean University invites applications and nominations for the position of Dean of Graduate Studies, Research and Continuing Education. Kean University, the oldest public comprehensive higher education institution in New Jersey, has an established and rapidly growing reputation for excellence in graduate and undergraduate programs and services. Kean University takes pride in its continuing efforts to build a multicultural professional community to serve a richly diversified student population of 12,000.

RESPONSIBILITIES: The Dean of Graduate Studies, Research and Continuing Education reports to the Provost/Vice President for Academic Affairs, serves as a member of Deans Council and supervises and coordinates all aspects of graduate studies. The ideal candidate is expected to provide energetic leadership in all dimensions of graduate study and training, foster research and scholarly inquiry within the University community, work closely with four School deans in the development of new graduate programs, oversee and develop mechanisms for promotion and marketing of graduate programs and serve as representative to off-campus constituencies. The Dean will supervise the staff of the Office of Research and Grants, Continuing Education, Graduate Studies, and Graduate Admissions. The Dean will also chair the Graduate Program Coordinators, serve as the administrative liaison to the Graduate Student Council, oversee graduate student affairs and administer programs that enhance the quality of graduate student life including the appointment of over 100 graduate assistants and other graduate student awards.

QUALIFICATIONS: The successful candidate will have the following qualifications: a record of outstanding achievement in research and graduate education, experience in academic administration, resource management and program formulation and review, demonstrated commitment to shared governance, interest in applications of research, demonstrated excellence in oral, written and interpersonal skills, ability to deal innovatively with governmental agencies, business and industry; breadth of vision as exemplified by multidisciplinary awareness, international and multicultural experience, and sensitivity to diversity; a record of creativity and innovation in the infusion of technology into graduate education; experience with current demographic, economic, scientific and philosophical trends and an awareness of their significance for higher education. An earned doctorate is required.

APPLICATION, SALARY, BENEFITS INFORMATION: Candidacy review will begin on November 9, 1998 and continue until appointment is made. The position is available beginning July 1, 1999. Send letter of interest, current resume, names, addresses and telephone numbers of three references who can comment on candidate's professional qualifications, Official transcripts and a set of three original letters of reference written in the last twelve months required before appointment. Apply directly to: Chair, Graduate Dean Search Committee, Office of the Provost/VPA, Kean University, 1000 Morris Avenue, Union, New Jersey, 07083. Salary is competitive and commensurate with qualifications and experience. Comprehensive benefits program included. Kean University is an EEO AA Institution.

Search For The Vice Provost For Research
Arizona State University

Arizona State University (ASU), in Tempe, invites applications and nominations for the position of Vice Provost for Research. This Vice Provost is the senior research officer of ASU and reports to the SVP/Chief Operating Officer at the Main Campus.

The Vice Provost for Research is responsible for working with faculty, deans, directors, chairs, and other constituencies to focus and enhance the University's capacity for innovative multidisciplinary research and to develop large-scale initiatives in scholarship, teaching, and public service. The successful candidate will provide leadership for future directions of research and creative activity at ASU, including identifying and securing funding for these efforts. Additionally, this person is responsible for working with the University's officers to enhance the regions and the state's economic vitality and quality of life.

The Office of the Vice Provost for Research is responsible for the administration of the University's research policies and the central administration's research support programs. Reporting to this officer in whole or in part are the offices responsible for sponsored programs, the Office of Technology Transfer and Industrial Liaison; the Center for Environmental Studies; and the various offices and committees overseeing compliance areas, such as animal care and human subjects. In addition, this position will share responsibility for economic development and federal relations.

The successful candidate must have a strong academic grounding, evidenced by an earned doctorate, substantial research management experience, and a record of scholarship and/or research leadership in academia, government, or industry as evidenced by an executive rank. The University desires candidates who have demonstrated evidence of entrepreneurial skills, track record of generating and leading complex research processes, leadership and management skills and experience in nurturing and motivating great intellectual institutions, significant experience working with teams, groups of peers, and academic executives; a knowledge of national policy issues; and experience in expanding cultural diversity and promoting affirmative action.

ASU has a faculty of over 1,800 and an enrollment of nearly 45,000 students, of which 10,000 are graduate students. As a multi-campus university, ASU serves the greater Phoenix metropolitan area of over 2 million people with a main campus located in Tempe, a west campus located in Phoenix, and an east campus located in Mesa.

Candidates must send a letter of interest, current curriculum vitae, and contact information for three references (applications will be accepted until the position is filled). Application deadline is October 31, 1998. Applications and related materials will be reviewed on a bi-weekly cycle, as necessary, until the position is filled. This position is eligible for faculty appointment and compensation. For more information contact: Dr. Ruth S. James, Chair, Vice Provost for Research Search Committee, office: 832/388-2803, Arizona State University, Tempe, AZ 85287-3803. For more information about ASU can be found on the Internet at http://www.asu.edu

**Washtenaw Community College**

**POLITICAL SCIENCE INSTRUCTOR**

A comprehensive two-year college dedicated to student, community, and staff success is presently seeking an individual for the position of Political Science Instructor. This individual will teach first and second year college level courses in Political Science, primarily an American government survey course. The college is located in the city of Ann Arbor, MI, a community of over 100,000 whose growth and vitality is supported through a cultural enrichment of the arts, entertainment, Big Ten Sports, and the surrounding metropolitan area.

**Note:** This position is contingent upon funding.

The successful candidate must possess a Masters degree in political science or related discipline, with substantial coursework in American government and politics and a record of teaching experience at the college level.

Reception of official WCC application form in the Office of Human Resource Management is 5:00 p.m. on December 15, 1998.

Anticipated date of appointment for this position is for the 1999 Fall semester. The annual base salary is $34,500-$45,500 dependent upon education and work experience, base load of 32 weeks/160 days/450 contact hours per academic year with numerous fringe benefits.

Interested persons should send official completed WCC application form with credentials (transcripts) to Washtenaw Community College, Office of Human Resource Management, First Floor Business Education Building, Room 120, 4800 E. Huron River Dr., PO Box 13-1, Ann Arbor, MI 48105 (313) 973-3479. Job Hotline (313) 973-3510. For job postings see our Web site at http://www.washtenaw.edu/job/.

**Note:** Applicants must submit the application documentation to establish minimum qualifications. Specifically, all college transcripts (student copies acceptable), and documentation of clock hours of classroom teaching. Also please submit a letter of interest, a CV, two letters of recommendation, copies of first-day course handouts and copies of student evaluations. Complete all parts of the official application. Failure to do so may affect your consideration for this position. Resumes will not meet this requirement.

Washtenaw Community College is an AA/EEO/ADA employer.

DEAN
College of Arts and Science

The University: Miami University is a state-assisted university located in southwestern Ohio and is noted for its excellence in undergraduate education. Established in 1809, Miami has developed into a selective public university with a long tradition of dedication to teaching excellence and undergraduate liberal education with an increasingly strong record of scholarly achievement. Miami has an enrollment of more than 21,000 students on four campuses. The University awards baccalaureate degrees in about 70 fields, master's degrees in 60, and doctoral degrees in 9 disciplines. The central campus is at Oxford, a small city with a population of approximately 10,000 located 35 miles north of Cincinnati and 45 miles southwest of Dayton. The enrollment on the Oxford campus is limited to 16,000 with 7,000 students living on campus. Miami has regional campuses in two nearby cities, Hamilton and Middletown, and a European center in Luxembourg.

Responsibilities: The Dean is responsible for the overall leadership of the College including but not limited to academic planning, enhancement of programs and curriculum, accreditation, recruitment of faculty, faculty development and evaluation, student recruitment, advising and placement, improvement of physical facilities and equipment, and allocation of resources. The Dean is responsible for fundraising, for fostering diversity, and support of university-wide goals.

Qualifications: Miami University will consider candidates who have demonstrated excellence in leadership in either an academic or professional setting. Candidates must be able to provide evidence of ability to relate well to students, faculty, staff, and alumni, and to the leadership of the larger community. Desirable qualifications include earned doctorate in one of the disciplines represented in the College, excellence in teaching, excellence in scholarship or creative activities, demonstrated commitment to diversity, significant administrative experience and proven ability to attract external support. Successful candidate must qualify for appointment at rank of Professor in one of the departments in the College.

Application: Applications should include a letter of application and a resume addressing the qualifications stated above. Applicants are asked to provide a preferred mailing address, e-mail address, and fax number, if available. Please also provide 5 references whom the committee may choose to contact. All nominations and applications should be sent to:

Karen K. Shaffer
Secretary of the University
101 Roudabush Hall
Miami University
Oxford, Ohio 45056
Phone: (513) 529-3610; Fax (513) 529-1737

CRIMINAL JUSTICE FACULTY

The School of Criminal Justice at Rutgers University-Newark has approval to hire tenure-track faculty members to join us in Fall 1999. For the first position, we seek a tenure-track professor with a distinguished and ongoing program of original research. For the second, we seek an assistant professor of exceptional scholarly promise and commitment to excellence in teaching. The School's needs are dynamic, and it seeks candidates with interests that will be a valuable addition to existing strengths in the field of criminology and criminal justice.

The School of Criminal Justice is a graduate program offering M.A. and Ph.D. degrees in Criminal Justice. The School also directs a criminal justice undergraduate program which is part of the College of Arts and Sciences. In 1999, the School will move into new building on the Newark campus, which will also house the Rutgers-Newark LaSalle School, the Center for Crime Prevention Studies, the Center for the World Criminal Justice Library Network, and the Criminal Justice/NCCOC Library. This library is well-grounded as the best specialized criminal justice collection in the nation, and it is attracting international visitors as part of its Fellows program. The campus at Rutgers Newark is ranked by U.S. News & World Report as #1 in the nation for student diversity. Research support is excellent. Women and minorities are strongly encouraged to apply.

Applications, including curriculum vitae and addresses of three references, should be sent to:

Dr. Candace McCoy, Chair
Search Committee
School of Criminal Justice
Rutgers University
15 Washington Street, 12th floor
Newark, NJ 07102

Rutgers, The State University of New Jersey, is a member of the Association of American Universities and is committed to excellence in scholarship. Rutgers is an equal opportunity/affirmative action employer.

Deadline for applications is December 1, 1998.
Irvine Minority Scholar
1999-2000 Dissertation Year Fellowship Program
Deadline Extended

The College of Arts and Sciences at the University of San Francisco invites applications from 20 participants in the Irvine Minority Scholar Dissertation Year Fellowship Program for the academic year 1999-2000. Positions will be available for the following disciplines: History, Political Science, Sociology, Communication, Psychology, Nursing, Business and Education.

PROGRAM: USF Senior Faculty serve as mentors and resources to the scholar. The scholar completes the dissertation and implements an ongoing program of scholarly or creative work, develops a repertoire of potential course offerings, and familiarizes himself or herself with the usual service responsibilities of a university faculty member.

Scholars teach one undergraduate course in the discipline each semester, serve as resources to students and faculty, and contribute to USF's multicultural program environment through activities that celebrate ethnic diversity and cultural pluralism.

COMPENSATION: The James Irvine Foundation provides a stipend of $24,500 and limited support for relocation and housing costs, and research-related expenses.

QUALIFICATIONS: Irvine Minority Scholars are members of one of the following ethnic groups: African Americans, Asian Americans, Hispanics/Latinos, or American Indians, and are U.S. citizens or permanent residents. Candidates must have completed all core coursework leading to the Ph.D. by Summer 1999. Candidates must be considering a career in college teaching.

University teaching experience, evidence of scholarly promise, and an understanding of and commitment to support the mission of the University are required.

Applicants should submit a letter of application, curriculum vitae, transcripts, dissertation prospectus and proposal and timeline, brief description of research plans, evidence of teaching ability (including student evaluations), and three letters of recommendation to:

Irvine Minority Scholar Program
College of Arts and Sciences
University of San Francisco
2130 Fulton Street
San Francisco, CA 94117-1080

Complete applications must be received by December 15, 1999, to ensure full consideration.

The University of San Francisco is an equal opportunity/affirmative action employer and will provide reasonable accommodations to individuals with disabilities upon request. We particularly encourage minority and women applicants for all positions.

UNIVERSITY OF CALIFORNIA, BERKELEY

Chancellor’s Postdoctoral Fellowship Program for Academic Diversity

The Program: The Chancellor’s Postdoctoral Fellowship Program for Academic Diversity was established to increase the number of ethnic minority faculty members at the University of California at Berkeley. The program provides postdoctoral fellowships, research opportunities, mentoring and guidance in preparation for academic career advancement. The program currently solicits applications from individuals who are members of ethnic minority groups that are underrepresented in American universities, but all qualified applicants will be considered without regard to race, gender, color or national origin. Special consideration will be given to applicants committed to careers in university research and teaching, and whose life experience, research or employment background will contribute significantly to academic diversity and excellence at the Berkeley campus.

Awards and Tenure: Awards will be made to applicants who show promise for tenure-track appointments on the Berkeley campus. The Fellowship will be for two academic years in residence by the Bay Area.

Stipend: $31,000 for the 1999-2000 academic year (11 months plus one month vacation). Costs associated with one-way transportation to Berkeley for the Fellow and immediate family members and removal expenses are reimbursable up to $2,000. Funds are available each year for supplies and expenses ($500), research-related expenses ($1,000), and health insurance ($1,000).

Eligibility: Applicants must be U.S. citizens or permanent residents and must have received a doctorate within two years of the start of the appointment on September 1, 1999.

Application: Application form is not required. Send two copies of the following: curriculum vitae, a statement of proposed research (one to five pages), sample publications, and a dissertation chapter. In addition, three letters of reference are required. One letter must be from the dissertation advisor. A minority need not be selected prior to applying. Application materials must be postmarked by December 1, 1998. Awards will be announced in March. Inquiries regarding the program may be directed to (510) 642-1935.

Send application materials to:

ANNOUNCEMENT OF OPENING FOR DIRECTOR, CENTER FOR EXCELLENCE IN MUNICIPAL MANAGEMENT AND FACULTY MEMBER

Applicants are invited for appointment as the Director of the Center for Excellence in Municipal Management (CEMM) at George Washington University’s School of Business and Public Management. Depending upon academic credentials, the appointment may include a contract faculty position at the associate or full professor level in the School’s Department of Public Administration or another department in the School.

The Center is an administrative unit established to develop and deliver a variety of executive education programs and other related advisory and analytical services to the District of Columbia government and other local governments. It is funded almost entirely from private contributions and Department grants. The Director’s responsibilities include: developing plans and budgets for executive education programs; identifying and organizing faculty for the Center’s various programs; and overseeing the delivery of a comprehensive, training curriculum for senior D.C. managers, serving as an instructor in that curriculum as needed; evaluating the quality of the curriculum on behalf of the city and the Founders; and assisting in fund raising and development activities.

Candidates should demonstrate that their center has established records of excellence in curriculum development, executive training and development, executive training and development, and organizational development. Graduate training in a relevant field is required. Applicants with a doctoral degree in public administration or another related field may be considered for a faculty position as well.

Review of the applications begins immediately and continues until the position is filled.

Interested candidates should submit a letter of application and include a curriculum vitae and three references. For further information and to apply for the position please contact:

ASSOCIATE PROVOST CAMPUS LIAISON
(Comprehensive Colleges)

The State University of New York, the nation’s largest system of public higher education, invites nominations and applications for the position of Assistant Provost for Campus Liaison (Comprehensive Colleges). This position is based in Albany, New York at the University’s System Administration office.

The Associate Provost will have primary responsibility for enhancing communication and programmatic coordination between System Administration and the University’s 13 comprehensive arts and sciences colleges. He or she will work closely with the colleges’ leadership to enhance the quality, visibility, and strength of their institutions. This will require a thorough understanding of the academic, financial, and political environment in which the arts and sciences colleges operate.

The Associate Provost will be actively involved in System-wide academic strategic planning and other programs and initiatives intended to enhance academic quality across the University. Current efforts include working with campuses to assess student learning outcomes; the identification and promotion of opportunities for inter-campus collaboration; enrollment planning; professional development of administrative staff; and the development of performance measures. The Associate Provost will also assist other staff in conducting program reviews.

This position will involve frequent travel to campuses. To be considered for the position, candidates should submit a cover letter describing their qualifications, a current resume, and names of three references to: Provost’s Office, State University of New York, 89 Washington Avenue, Albany, NY 12224.

Review of applications will begin immediately and will continue until the position is filled.

The State University of New York is an EEO/AA employer. Applications from women, minorities, persons with disabilities, and Vietnam Era Veterans are especially welcome.

Please send applications and nominations to:

DEAN
COLLEGE OF PROFESSIONAL STUDIES

The University of San Francisco invites applications for the position of Dean of the College of Professional Studies, anticipated to begin July 15, 1999 or as mutually agreed to.

The College of Professional Studies (CPS) was established in 1975 to meet the needs of working adults. With 15,000 alumni and a current enrollment of 1,400, CPS offers undergraduate and graduate degree programs in organizational studies and public management at the main campus and five regional campuses.

The Dean, reporting to the Academic Vice President, serves as an Executive Officer of the University, provides vision and leadership, and participates in strategic planning and budgeting. As Chief Academic Officer of CPS, the Dean guides the learning community of faculty, students, and staff within a milieu characterized by a spirit of inquiry and a commitment to lifelong learning. The College is poised to embark on a new phase of growth and change, and seeks an individual to lead this participatory process.

Qualifications include:

- Understanding of and appreciation for the Jesuit, Catholic tradition of higher education
- Earned doctorate
- Demonstrated experience in academic administration (department chair or above), including budgeting and enrollment management
- Demonstrated experience in recruitment, development, and support of full and part-time faculty
- Demonstrated excellence in teaching and scholarship; eligible for appointment as a tenured professor
- Demonstrated achievements in creative and entrepreneurial leadership
- Knowledge of and interest in educational technologies and distance learning
- Familiarity with educational assessment issues
- Willingness to participate in fundraising activities

We particularly encourage minority and women applicants for this position. The University of San Francisco is an Equal Opportunity and Affirmative Action Employer, and provides reasonable accommodations to qualified individuals with disabilities upon request. Review of applications will commence on 11/1/98. Applicants should submit a letter of application, curriculum vitae, and statement of educational philosophy and vision concerning leadership of an adult learning community to:

David Fox, PhD
Chair, Search Committee:
Dean of the College of Professional Studies
University of San Francisco
College of Professional Studies
2130 Fulton Street
San Francisco, CA 94117-1080

Established as San Francisco's first institution of higher learning in 1855, the University of San Francisco presently serves 5,000 students in arts and sciences, business, education, nursing, law and professional studies. The University is a private Catholic and Jesuit institution and particularly encourages candidates who will provide an environment of such an institution.

Director—
Division of Education

University of California, Davis

The University of California, Davis invites applications and nominations for the position of Director, Division of Education. The Director reports to the Provost through the Vice Provost for Academic Personnel, and has responsibilities equivalent to those of a dean, including academic planning, program management, policy development, personnel evaluation, and collaborative administration.

Established in 1988, the Division supports several innovative programs that link research, instruction, and service to K-12 schools, including a campus-wide Ph.D. program that is administered jointly by a group of 34 faculty from the Division and other UC Davis departments, an Ed.D. program offered jointly with CSU Fresno and four other UC campuses, the CRESS Center, home to a wide range of collaborative research and development projects with K-12 schools, and experimental teacher education programs, one offered collaboratively with CSU Sacramento. The Division also offers courses for undergraduates, an undergraduate minor, and a master's degree program.

In addition to several dozen faculty from other campus departments and from other campuses—who participate in these programs, the Division itself has 15 full-time ladder faculty, 11 non-ladder faculty, and over 35 professional staff. Major research projects in the Division include threats to second language acquisition and in science education. The selected candidate would be encouraged to provide leadership to expand upon these programs as well as lead us into other areas that build on campus strengths.

We seek candidates with a deep commitment to academic excellence who have the vision to lead the Division in its continuing development. Applications are sought from individuals in other disciplines who have background training and have done research in the broad issues concerning education as well as those whose primary scholarly work has been in education.

Qualifications include credentials appropriate for a tenured professorial appointment in the Division of Education; a record of effective administrative experience, particularly in collaborative environments, and strong leadership skills.

Salary will be commensurate with experience and qualifications. The starting date is July 1, 1999 or as negotiated.

Screening of files will begin November 30, 1998; the position will remain open until filled. Nominations and applications, including a curriculum vitae and the names of five references, should be submitted to:

Barry M. Klein, Vice Provost for Academic Personnel
Office of the Provost, University of California
One Shields Avenue, Davis, California 95616

The Division of Education at UC Davis is committed to building a more diverse faculty, staff, and student body as it responds to the changing population and educational needs of California and the nation. The University of California is an affirmative action/equal opportunity employer.
Bloomfield College, a 130 year old college of 2,000 students, is committed to preparing students to function at the peak of their potential in a multiracial, multicultural society.

We seek an experienced professional for the Office of College Relations. Responsibilities include public, government and media relations, marketing programs, and publications.

Requirements for qualified candidates include a Bachelor's degree preferably in journalism, communications, or marketing with 3 or more years of related experience. The successful candidate will have high level writing and editing skills. Media contacts and proven effectiveness as a spokesperson are critical. Knowledge of information technology and computer fluency in Microsoft Word are required.

Salary is competitive and commensurate with experience. Excellent benefits package. Qualified candidates should send cover letter summarizing interest in the position, resume, three writing samples and three references to:

Betty K. Heinig, Vice President for College Relations, Bloomfield College, Bloomfield, NJ 07003.

Review of applications will be begun immediately and will continue until an appointment is made. NO CALLS PLEASE.

See our website at www.bloomfield.edu

Affirmative Action/Equal Opportunity Employer Women and minorities are encouraged to apply.

HUNTER COLLEGE
THE CITY UNIVERSITY OF NEW YORK

ASSISTANT PROFESSOR
OF SOCIOLOGY

The Department of Sociology at Hunter College announces a search for an Assistant Professor of Sociology, to begin employment in the Fall of 1999. The areas of specialization are open, although the Department has a particular interest in candidates in Urban Issues, Criminology, Medical Sociology, International and Comparative Sociology and qualitative methods. Candidates should be interested in teaching in an urban University with a highly diverse student body. Documented successful teaching experience and an active research agenda are expected.

SALARY: $30,829-$53,779 depending on qualifications and experience. Centrally located in Manhattan, Hunter College is a unit of the City University of New York. The Department grants both B.A. in Sociology and M.S. in Applied Social Research, and is affiliated with the Doctoral program in Sociology at the CUNY Graduate Center. Please send vita, cover letter and the names and addresses of three references by November 27, 1998 to: Professor Charles Green, Chairman, Department of Sociology, Hunter College, 695 Park Avenue, New York, NY 10021.

= Equal Opportunity/Affirmative

Director of the Maryland Applied Information Technology Initiative (MAITI)

The University of Maryland invites applications and nominations for the position of Director of the Maryland Applied Information Technology Initiative (MAITI).

MAITI is an innovative initiative designed to make Maryland a national leader in information technology business development. Principal goals of MAITI include: 1) doubling the number of information technology (IT) professionals produced by Maryland's institutions of higher education to meet the needs of Maryland IT companies over the next five years; and 2) strengthening our IT research and development activities at Maryland's higher education institutions to enable them to serve the R&D needs of existing Maryland IT companies and to attract new IT companies to the state.

The higher education institutions currently involved in MAITI are the University of Maryland, College Park (lead institution), Johns Hopkins University, the University of Maryland, Baltimore, the University of Maryland Baltimore County, Morgan State University, Bowie State University, Towson University, and the Maryland Association of Community Colleges. It is possible that additional institutions will be added in the future.

The Director of MAITI will be expected to work with Co-Directors from all of the participating institutions under the guidance of a MAITI Board of Directors with a majority of members drawn from the private sector. The Director will also be expected to interact positively with the Maryland Higher Education Commission and the Maryland Department of Business and Employment Development. The Director will report annually to the MAITI Board of Directors and to MHED and DBED on progress toward MAITI goals. State funding for MAITI is $1.3 million for FY98 and is projected to grow to as much as $10 million by FY03. The Director will also be responsible for working toward the generation of additional funding for MAITI from State, federal, corporate, and private sources in amounts comparable to State funding. At the University of Maryland, the Director of MAITI will report to the Vice President for Academic Affairs and Provost.

The successful candidate for this position will likely be an individual with a background in information technology and significant administrative experience. Women and minority candidates are especially encouraged to apply. Applications or nominations should be submitted by November 1, 1998 to:

Dean William Bestler, Chair
MAITI Director Search Committee
1137 Engineering Classroom Building
University of Maryland
College Park, MD 20742

DEPARTMENT OF CLASSICAL AND ROMANCE LANGUAGES AND LITERATURES

Lecturer in Spanish Language. To begin in September 1999. Two language courses per semester. M.A. minimum with ABD or Ph.D. preferred. Demonstrated ability to teach various levels of language courses and upper proficiency in Spanish and English. Possible continuation for 2000-2001. The search will begin on November 20, 1998 and remain open until filled.

Please send letter of application, current c.v. and three letters of recommendation, one of which addresses teaching abilities to:

Lecturer in Spanish Language Search
c/o Secretarial Services
Bates College
2 Andrews Road, 7 Lane Hall
Lewiston, ME 04240

Bates College is a coeducational liberal arts college in Maine dedicated to the education of students for a lifetime of creative achievement. It is a member of the New England Small College Association and is a Participant in the National Brown-B wesley Survey. Bates College is committed to diversity and encourages applications from all qualified candidates.

Cleveland State University
Assistant, Associate or Full Professor of Law

Cleveland State University, Cleveland-Marshall College of Law seeks to fill a full-time permanent teaching position starting in the 1999-2000 academic year. We are looking for a person with teaching experience in any area but have particular need in the areas of business and corporations, civil procedure, federal jurisdiction, trusts and estates, contracts, environmental law, and health law. The position is for a one-year term, with a possible renewal at the discretion of the Assistant Professor of Law. We will also consider a lateral hire at the rank of Associate or Full Professor of Law.

Qualifications for the entry-level position include a J.D. equivalent degree or a good academic record from a accredited university teaching or practice experience, an evidence of teaching ability, potential potential, or potential scholarship potential. Preferred qualifications include a J.D. or equivalent degree with an outstanding academic record and law review experience as a law student and scholarly research or publication experience. Qualifications for the higher position include a J.D. or equivalent degree with a good academic record from an accredited university, teaching experience and an excellent record of scholarly research or publication. Preferred qualifications include a J.D. or equivalent degree with an outstanding academic record and law review experience as a law student and an excellent record of scholarly research or publication. The duties of this position include teaching, research, and writing (including student counseling, law review, and university or community service). MARYLAND
**Associate Vice Chancellor—Resource Management and Planning**

**University of California, Davis**

The University of California, Davis invites applications and nominations for the position of Associate Vice Chancellor—Resource Management and Planning. The Associate Vice Chancellor reports to the Provost and Executive Vice Chancellor and has primary responsibility for campus financial planning and analysis in support of the operating and capital budgets. The Associate Vice Chancellor will assist the Chancellor, Provost and Executive Vice Chancellor, vice chancellors, vice presidents, academic deans, and department heads with campus resource management and planning.

The Davis campus is a research university consisting of three colleges (Agricultural and Environmental Sciences, Engineering, Letters and Science), four professional schools (Graduate School of Management, School of Law School of Medicine, and School of Veterinary Medicine), the Division of Biological Sciences, and a University Medical Center in Sacramento. The Davis campus has 19,500 students and the annual budget is $1.2 billion.

The Associate Vice Chancellors specific responsibilities include financial planning and budgetary operations, facilities planning and capital budgets, and institutional studies and statistical information management. These functions encompass preparing the strategic plan for the campus operating budget including projecting revenue streams, preparing the Campus Target Budget, including the annual detail (operating) budget and the Capital Improvement Budget; coordinating planning studies related to the development of the Long-Range Development Plan; developing and maintaining the Campus Space Plan; preparing the strategic plan for the Capital Program, including historical data on students, faculty and staff for projecting enrollment and faculty FTE; and for budgetary and space planning, maintaining an up-to-date inventory of available space, developing workload criteria for campus activities, coordinating comprehensive statistical reports serving as the “data bank” for official statistics and the office responsible for official release of statistical information to other organizations and the media; and overseeing the campus data administration and data warehouse programs.

We seek candidates with considerable administrative experience in a research university, exceptional understanding of complex financial and budget planning matters, ability to conceptualize broad institutional goals, ability to systematically analyze complex issues and data, ability to plan well, excellent speaking and writing skills, excellent interpersonal skills and a deep understanding of organizational dynamics. The University of California, Davis, has a strong institutional commitment to the achievement of diversity among its faculty, staff, and students and seeks an individual who shares that commitment.

Salary will be commensurate with experience and qualifications. Review of candidates will begin November 16, 1998. The position will remain open until filled. Nominations and applications should be addressed to:

Gerald R. Haller
Assistant Executive Vice Chancellor
Office of the Provost
University of California, Davis
One Shields Avenue
Davis, CA 95616

UC Davis is an affirmative action/equal opportunity employer.

**SCHOOL OF EDUCATION**

**Assistant Professor of Secondary Education**

Loyola Marymount University is currently accepting applications in the Graduate Division’s School of Education, for a tenure-track position as Assistant Professor/Assistant Coordinator, which will be available in the Fall 1999. Candidates must possess an earned doctorate in Education, teaching experience in secondary multicultural urban educational settings, ability to teach graduate and undergraduate courses, a commitment to research and publication, eligibility for California Single Subject Credential and compatibility with the University and the School of Education mission, goals and conceptual framework. Desired qualifications in one or more of the following areas: Multicultural education, curriculum and instruction, teaching and supervision.

A letter of application, current curriculum vitae and four letters of reference, with phone numbers, should be submitted no later than December 15, 1998, to:

Brian P. Leung, Ph.D.
Director, Search Committee
School of Education
Loyola Marymount University
7900 Loyola Boulevard
Los Angeles, CA 90045-8425

Loyola Marymount University, established in 1911, is the only private Catholic University in metropolitan Los Angeles. With Graduate Programs in Education, Business Communication Arts, Engineering, Marshal and Family Therapy, over 6,000 students, both graduate and undergraduate, are enrolled in the University for purposes of re-employment, tenure and promotion consideration. Salaries are competitive and commensurate with background and experience. Women and Minorities are strongly encouraged to apply.

Equal Opportunity/Affirmative Action Employer.
The University of New Mexico

PRESIDENT

The University of New Mexico invites nominations and expressions of interest for the position of President. The President is the chief executive officer of the University and is directly responsible to the UNM Board of Regents for directing the programs and administration of the University under policy established by the Board. The Board of Regents is seeking a president whose leadership experience, skills, and qualifications are uniquely suited to the University of New Mexico and the challenges it faces in the coming years.

The University of New Mexico, a Carnegie Research 1 university, is the largest and most comprehensive of the state's institutions of higher education. Founded in 1889, the University serves a diverse student population of nearly 30,000 on five campuses approximately 250 miles at its Albuquerque main campus and operates on a budget of nearly $1 billion, about half of which is devoted to the Health Sciences Center. UNM has 11 degree-granting schools and colleges including the state's only schools of Medicine, Law, Pharmacy, and Architecture & Planning. It offers more than 165 undergraduate and graduate degree programs and includes nationally recognized programs in several disciplines. UNM is one of the fastest-growing research universities in the country, having more than doubled its research funding in the past seven years to approximately $775 million in FY1997-98, and is ranked in the top 50 libraries by the Association of Research Libraries. In addition to its long-time national prominence in a variety of fields including those related to Latin America and the Southwest, UNM is also known for its health care, public service and leading-edge scientific and engineering research, which includes a number of cooperative programs with the federal laboratories located in New Mexico, including Sandia and Los Alamos.

Candidates for the position of President should have the ability to lead a diverse, complex, public research university that has an extensive range of academic, public service and patient care activities and serves the entire state. The University seeks a proven leader with a distinguished record of scholarly and professional achievement, superior leadership and management skills, a commitment to diversity and excellence, strong external relations capabilities, outstanding personal integrity, and dedication to achieving the University's goals for scholarship, leadership and stewardship. Candidates should possess the ability to work collaboratively and effectively with state legislative and executive officials to articulate the mission of the University and obtain support for its programs. The University actively seeks and encourages nominations and expressions of interest from candidates who are members of underrepresented groups.

The Search Committee will begin screening candidates on or about November 30, 1999 and continue until the position is filled. The new President is expected to take office by July 1, 1999. Nominations and letters of interest should be submitted to:

R. William (Bill) Funk
Korn/Ferry International
3232 Lincoln Plaza
500 North Akard Street
Dallas, TX 75201

Additional information about the University of New Mexico and the Albuquerque community as well as a more detailed description of the responsibilities of the president and the qualifications for the position may be obtained from the address above or from the Office of Equal Opportunity, University of New Mexico, Albuquerque, NM 87131, 505-277-5251, prewrec@unm.edu, or on the University's web page: www.unm.edu

(Equality opportunities/affirmative action statement)

ITHACA

ROY H. PARK SCHOOL OF COMMUNICATIONS

The Cinema and Photography Department at Ithaca College invites applicants for two faculty, tenure-eligible positions starting August 15, 1999.

POSITION 1: FILM PRODUCTION

MFA in filmmaking or related discipline and a strong record as a practicing filmmaker are required. An ideal candidate should also demonstrate evidence of: 1) teaching effectiveness; 2) a thorough background knowledge in traditional analog 16mm and sound film production technology and techniques, and 3) a strong commitment to and a primary teaching interest in encouraging filmmaking as a creative practice. Primary assignments will be across the range of film production courses which include the techniques of 16mm synchronous sound film production and traditional double system film postproduction. Depending on the candidate's areas of expertise, additional teaching responsibilities may include courses in one or more of the following specialized areas: directing, production sound recording, digital postproduction, traditional and computerized animation, documentary, experimental, hybrid narrative, and new media. It is required that the candidates demonstrate qualifications to teach at all skill levels. The candidate appointed to this position will also act as academic advisor to students and serve on department, school and college committees. Tenure-eligible position. Assistant/Associate Professor rank and salary open, depending upon experience and qualifications.

Applicants should forward a resume/vita and statement of interest including areas of teaching and professional experience, along with names and telephone numbers of at least three references to: Pierre H. Dierk, Assistant Professor and Chair, Film Production Search Committee, Cinema and Photography Department, Roy H. Park School of Communications, Ithaca College, Ithaca, New York 14850-7251. Sample of creative works and any applicable publications will be requested at a later date. No faxed or electronically transmitted application materials will be accepted. Screening will begin October 30, 1999 and will continue until the position is filled.

POSITION 2: SCREENWRITING

Ph.D./M.F.A. in film and/or related discipline and strong record as a practicing screenwriter required. An ideal candidate should also demonstrate evidence of: 1) teaching effectiveness appropriate for an undergraduate film program with a mission of integrating theory and practice; 2) exceptional record in screenwriting and creative writing with a knowledge of critical studies, and 3) a commitment to teaching screenwriting as a creative practice. Primary assignments will be across the range of screenwriting courses which include introductions to the theory and practice of screenwriting, advanced screenwriting (an analysis of both classical and contemporary screenplays) and screenwriting workshop (an upper level course in writing fiction/nonfiction scripts). There may also be an occasional opportunity to teach critical studies in the Department and Park School. In addition to teaching assignments, the candidate appointed to this position will also act as academic advisor to students and serve on department, school and college committees. Tenure-eligible. Assistant Professor rank. Salaries competitive. Depend upon experience and qualifications.

Applicants should forward a resume/vita and statement of interest including areas of teaching expertise and two writing samples, a screenplay and an additional creative writing sample, along with names and telephone numbers of at least three references to: Janice Levy, Associate Professor and Chair, Screenwriting Search Committee, Cinema and Photography Department, Roy H. Park School of Communications, Ithaca College, Ithaca, New York 14850-7251. Additional samples/materials may be requested at a later date. No faxed or electronically transmitted application materials will be accepted. Screening will begin October 30, 1999 and will continue until the position is filled.

Ithaca College is an independent, residential, comprehensive college with an undergraduate enrollment of approximately 5,800 students. It is located in the Finger Lakes Region of central New York.

The Roy H. Park School of Communications is one of four professional schools within the College, and enrolls approximately 1,200 students in the seven graduate departments (Television-Radio, Cinema, and Photography, the B.A. in Journalism, a B.S. in Telecommunications Management, the B.F.A. in Film, Photography, and the Visual Arts, and the B.A. in Media Studies). Professional programs are also offered in these forms: a B.S. in Telecommunications Management, a B.F.A. in Film, Photography, and the Visual Arts, and the B.A. in Media Studies. Additional forms may be requested at a later date. No faxed or electronically transmitted application materials will be accepted. Screening will begin October 30, 1999 and will continue until the position is filled.

Ithaca College is an equal opportunity/affirmative action employer.
Chair in Bioethics

Loyola Marymount University and St. John’s Hospital and Health Center invite applications for the position of Chair in Bioethics. The Chair is a part of the Bioethics Institute, a professional educational institute jointly created and operated by the two institutions. Applicants must have a Ph.D. in a field related to Bioethics, a distinguished record of scholarship and publications in the field, a familiarity with the Catholic tradition, and the legal issues arising from Bioethics, understanding of the hospital’s clinical concerns, and an ability to manage activities related to both the Chair and the Institute. The successful candidate will have an appointment in an appropriate department of Loyola Marymount University, will teach a minimum of three classes per academic year and will direct the Bioethics Institute.

The Bioethics Institute was created in 1993 with a following mandate: “To identify and respond to the needs of health care professionals in Southern California, to provide continuing education services to the professional staff of St. John’s Hospital and Health Center in Santa Monica; to respond to the needs of the general public in understanding the ethical and legal issues in health care, such as the rights of patients, appropriate treatment at the end of life, and the meaning and reality of death.

The position is available July 1, 1999. The salary range is highly competitive and dependent upon qualifications and experience. Applications for the position should be received by December 15, 1998. Applicants should submit a letter of application, a current curriculum vitae, and the names, addresses and telephone numbers of at least three professional references. Correspondence should be addressed to:

Dr. Joseph J. Jabbar
Academic Vice President and Chair
Bioethics Search Committee
Loyola Marymount University
7900 Loyola Boulevard
Los Angeles, CA 90045-8316

Equal Opportunity/Affirmative Action Employer

Search Announcement: Dean of the Undergraduate College and Graduate School of Arts and Sciences.

The University of St. Thomas invites applications and nominations for the position of Dean of the Undergraduate College and the Graduate School of Arts and Sciences. The dean works with over 5000 undergraduate students in 31 departments and 74 major programs, and graduate students in three masters programs, plus a full-time faculty of 265.

The qualified candidate must:
- possess an earned doctorate and be eligible for senior rank and tenure in one of the departments of the College.
- be strongly committed to liberal education
- have successful teaching experience at the college level.
- provide evidence of scholarly achievement,
- have had successful administrative experience in an academic setting,
- possess an understanding of and commitment to Catholic higher education,
- be able to relate to and effectively lead faculty in both traditional and professional disciplines.

The successful candidate will possess a vision of education which encourages the creative integration of the intellectual, emotional, and physical development of the faculty and students who learn together at the University of St. Thomas.

The University of St. Thomas is a private, Catholic, urban, coeducational, comprehensive, doctoral university with over 10,000 students. It was established in 1885 in St. Paul on the banks of the Mississippi River. A second major campus was opened in 1992 in downtown Minneapolis. In addition to the undergraduate College and the Graduate School of Arts and Sciences, the university includes the Graduate School of Business, Graduate School of Applied Science and Engineering, Graduate Department of Professional Psychology, School of Education, St. Paul Seminary School of Divinity, School of Social Work, and School of Continuing Studies. The university is a member of the Associated Colleges of the Twin Cities (ACTC), a local five college consortium which facilitates undergraduate cross-registration.

More information about the university may be found at www.stthomasi.edu

The search committee will begin reviewing applications and nominations on December 1, 1998 and continue to accept them until the position is filled. Candidates should submit a letter in which they express their interest in the position, and a curriculum vitae. References should be sent separately.

Dr. Ralph Pearson, Vice President for Academic Affairs
Department of Human Resources
Mail Code 201271
University of St. Thomas
2115 Summit Avenue
St. Paul, Minnesota 55105

The University is an equal opportunity employer and is committed to a program of Affirmative Action. Women and persons of color are strongly encouraged to apply.

Michigan State University

Michigan State University Career Services & Placement seeks individuals with experience in job development/recruiting, student advising and related experience for the position of Career Services Coordinator to develop job opportunities and assist students. Applicants, particularly Latino and Asian American students, with job placement experience who have a minimum of one year of work experience in a college or university setting are especially encouraged. This position requires an MA in student personnel, higher education administration, or related field, and 3-5 years related experience in career planning and development. MSU offers a challenging, diverse environment and excellent benefits. Contact Human Resources at 517/432-1662 to request application for position #780496.

Michigan State University is an equal opportunity/aaffirmative action university encouraging diversity.

Northeastern University

Faculty Position

Northeastern University School of Law

Northeastern University School of Law, located in Boston, Massachusetts, anticipates an entry-level tenure track position commencing in the 1999-2000 academic year. Candidates should possess a JD or equivalent degree, be qualified by interest, experience and training in teaching and research in the areas of Intellectual Property and Computers and the Law, possess outstanding academic and professional qualifications, and demonstrate a strong commitment to teaching, scholarship and community service.

Applicants should send a curriculum vitae and letter of application outlining their areas of expertise and teaching interest to Professor Deborah Ramirez, Chair, Faculty Appointments Committee, Northeastern University School of Law, 400 Huntington Avenue, Boston, MA 02115. Applications from members of minority groups, women and others of diverse background are strongly encouraged.
STATE UNIVERSITY OF NEW YORK
COLLEGE AT ONEWHTA

The College at Oneonta invites applications for seventeen Tenure Track positions at the rank of Assistant Professor. SUNY Oneonta, a four-year arts and sciences college with a professional focus, offers liberal arts and professional programs at undergraduate and master's levels. Increasing emphasis is placed upon technology and community service across all disciplines and the campus has announced a Universal Computer Access program (UniCAS) for its students. The College, with 5500 students and 225 full-time faculty, is located in the scenic Catskills, three and one-half hours from New York City. See the Oneonta home page for additional information (http://www.oneonta.edu).

The expectations of all positions include teaching, research, advisement, and college service. All positions begin with Fall, 1999. Semester Review of applications begins immediately and continues until positions are filled. Send applications (letter, resume, names, and telephone numbers of three professional references, transcripts, and additional materials as specified below to:
Chair Search Committee, Box 815, SUNY Oneonta, Oneonta, New York 13820-4815. SUNY Oneonta is an EEO/AA employer. Women and minorities are encouraged to apply.

DEPARTMENT OF ART

Qualifications: Ph.D. or MFA in an approved field to teach computer art and sculpture. Experience with Macintosh and standard graphics design software and college teaching experience required. Applicants are expected to be teachers and advisors in this field and to have a demonstrated ability to teach and advise students. Applicants should have demonstrated ability to develop curricula and to be active in both research and publication.

Submit to: Dr. Allen Farber, Department of Art. Include a copy of your resume with your application.

DEPARTMENT OF BIOLOGY

Qualifications: Ph.D. in molecular biology or molecular genetics or related field and a broad background in basic biology and molecular biology. Applicants who also have teaching experience in undergraduate biology will be given preference. Include a copy of your resume with your application.

Submit to: Dr. William Petrella, Department of Biology.

DEPARTMENT OF CHEMISTRY

Qualifications: Ph.D. in Chemistry or related area and strong background in analytical chemistry. Experience in analytical instrumentation is also required. Applicants should have a broad knowledge of chemical and biochemical processes and be able to integrate computer-based technology into the curriculum. Deadline for applications is September 1, 1999. Include a copy of your resume with your application.

Submit to: Dr. Edward F. Armstrong, Department of Chemistry.

DEPARTMENT OF ECONOMICS AND BUSINESS

Qualifications: Ph.D. or A.B.D. in Economics or related area and strong background in business administration. Applicants who also have teaching experience in undergraduate economics and/or business will be given preference. Include a copy of your resume with your application.

Submit to: Dr. Edward L. Thomas, Department of Economics and Business.

DEPARTMENT OF EDUCATION

Qualifications: Ph.D. in Reading and Literacy, specializing in Education. Applicants must have a strong background in research and teaching experience at the graduate level. Include a copy of your resume with your application.

Submit to: Dr. Ronald R. Crumwell, Department of Education.

DEPARTMENT OF EDUCATIONAL PSYCHOLOGY AND COUNSELING

Qualifications: Ph.D. in Educational Psychology. Applicants must have a strong background in research and teaching experience at the graduate level. Include a copy of your resume with your application.

Submit to: Dr. Mary Jane Stalew, Department of Educational Psychology.

DEPARTMENT OF ENGLISH

Qualifications: Ph.D. in English and Multicultural Literature. Applicants must have a strong background in research and teaching experience at the graduate level. Include a copy of your resume with your application.

Submit to: Dr. Paul J. A. L. Department of English.

DEPARTMENT OF FOREIGN LANGUAGES

Qualifications: Ph.D. in Spanish, Italian, or Russian. Applicants must have a strong background in research and teaching experience at the graduate level. Include a copy of your resume with your application.

Submit to: Dr. José M. Topping, Department of Foreign Languages.

DEPARTMENT OF HUMAN ECOLOGY

Qualifications: Ph.D. in Human Ecology. Applicants must have a strong background in research and teaching experience at the graduate level. Include a copy of your resume with your application.

Submit to: Dr. Joseph L. F. Topping, Department of Human Ecology.

DEPARTMENT OF MATHEMATICAL SCIENCES

Qualifications: Ph.D. or A.B.D. in Mathematics. Applicants must have a strong background in research and teaching experience at the graduate level. Include a copy of your resume with your application.

Submit to: Dr. Leo Alex, Department of Mathematical Sciences.

DEPARTMENT OF SPEECH COMMUNICATION AND THEATER

Qualifications: Ph.D. or A.B.D. in Speech Communication. Applicants must have a strong background in research and teaching experience at the graduate level. Include a copy of your resume with your application.

Submit to: Dr. Robert T. Zych, Department of Speech Communication.
FACULTY POSITIONS

The University of Puget Sound invites applications for the following tenure-line Assistant Professor positions for the 1999-2000 academic year:

**Accounting:** Teach introductory, intermediate, and advanced undergraduate accounting courses. Ph.D. in Accounting, or in another area of business with a strong emphasis in accounting (ABD considered if completion anticipated within a year). Teaching and business experience preferred. Experience in case teaching and ability to teach in another area of business desirable. Submit interest letter, resume and three reference letters by November 16, 1998 to: Accounting Search.

**Education - Cultural Foundations and Human Development:** Assistant or Associate Professor. Teach courses in post-baccalaureate, MAT teacher preparation and counselor and principal preparation programs to include courses in human development and classroom learning with a strong component of cultural diversity and a course in program evaluation. Possibility of teaching in undergraduate Arts and Sciences program. Will include summer session courses. Doctorate in education or related field. Must be willing to work collaboratively with other faculty in a highly integrated program and with students in the field to assure integration of theory/practice. K-12 experience highly desirable. Submit interest letter, resume and three reference letters by December 4, 1998 to: Cultural Foundations Search.

**Education - Secondary Curriculum/Foundations:** Assistant or Associate Professor. Teach integrated, secondary curriculum methods, including social studies, and social studies foundations courses in post-baccalaureate MAT teacher preparation program. Foundations areas must include philosophy; social foundations highly desirable. Will include summer session courses. Doctorate in education or related field. Must be willing to work collaboratively with other faculty in a highly integrated program and with students in the field to assure integration of theory/practice. K-12 experience highly desirable. Submit interest letter, resume and three reference letters by December 4, 1998 to: Secondary Curriculum Search.

**French:** Teach all levels of language, culture, and pre-1800 French literature. Ph.D. (or near completion) in French. Preferred specialization in Medieval, Renaissance, or Classical period. Native or near-native command of French and English. Must be lawfully employable in this country as a result of citizenship, visa, or resident alien status. Submit interest letter, resume and placement file (or transcripts and three reference letters) by November 20, 1998 to: French Search.

**International Relations:** Teach introductory and advanced courses in international relations and contribute to international political economy program. Ph.D. in political science (ABD considered). Ability to teach a comparative course in areas of the Middle East, Africa, or Central/Eastern Europe preferred. Submit interest letter, curriculum vitae, graduate transcripts, writing sample, three reference letters and evidence of a commitment to excellence in teaching (syllabi, evaluations, etc.) by November 23, 1998 to: International Relations Search.

**Marketing:** Teach introductory, intermediate, and advanced undergraduate marketing courses. Ph.D. in Marketing (ABD considered if completion anticipated within a year). Teaching and business experience preferred. Experience in case teaching and ability to teach in another area of business desirable. Submit interest letter, resume and three reference letters by November 16, 1998 to: Marketing Search.

**Molecular Biology:** Teach junior-level genetics course with lab and advanced elective in area of specialty. Participate in teaching introductory biology. Conduct active research program involving undergraduates. Ph.D. strong preparation for teaching genetics from molecular and classical perspectives. Commitment to continued research in molecular biology with focus on molecular mechanisms in, but not limited to, cell biology, development, immunology or microbial genetics. Postdoctoral research and previous undergraduate teaching experience desirable. Submit teaching statement (including philosophy, course descriptions and research interests), curriculum vitae, and three reference letters by November 2, 1998 to: Molecular Biology Search.

**Organizational Communication:** Teach undergraduate courses in organizational communication, business and professional communication, group communication and areas of special interest including one or more of the following: intercultural communication, international studies, bargaining/negotiating, health communication, family communication. Ph.D. (or near completion) in communication studies with emphasis in organizational and business/professional communication. Previous teaching experience in organizational communication, business/professional communication, and group communication desirable. Submit interest letter, resume, teaching materials and three reference letters by December 18, 1998 to: Organizational Communication Search.

**Psychology - Animal Learning and Behavior:** Teach lab course in animal learning/behavior or related field that incorporates a small animal lab; team taught interdisciplinary course in area of expertise, occasional upper and lower division elective courses in psychology, animal behavior, or related behavior; and introductory psychology. Ph.D. in Psychology (ABD considered). Emphasis in animal learning, motivation, psychobiology, or related field. Submit interest letter, curriculum vitae, evidence of teaching excellence, reports, and three reference letters by January 4, 1999 to: Animal Learning/Behavior Search.

**Psychology - Cognitive Science:** Teach lab course in cognitive science (emphasis in a field related to sensation/perception, neuroscience, or artificial intelligence); team taught interdisciplinary cognitive science course, occasional elective courses in area of expertise, and introductory psychology. Ph.D. in Psychology (ABD considered). Emphasis in cognitive science or related field. Submit interest letter, curriculum vitae, evidence of teaching excellence, reports, and three reference letters by January 4, 1999 to: Cognitive Science Search.

**Victorian Literature:** Teach advanced courses in Victorian literature. Sophomore-level survey course in British literature 1840 to present and freshman seminars in writing. Ph.D. in English with emphasis on Victorian literature. Submit interest letter, resume and three reference letters by November 15, 1998 to: Victorian Literature Search.

An Equal Opportunity, Affirmative Action Educator/Employer
UNIVERSITY OF NORTHERN COLORADO

VACANCY ANNOUNCEMENT

Dean, College of Education
Position # 81648

The University of Northern Colorado, which is NCATE accredited, invites applications and nominations for the College of Education Dean. The college delivers a variety of nationally recognized high quality graduate degree and licensure programs to more than 3000 students. Some indicators of high quality include a Grade Point Average minimum of 2.5 for admission into the preservice teacher education preparation programs, three Fulbright Scholars over the past two years, the selection of two faculty members over the last three years for the highest level university award for faculty excellence, and a Graduation Record Examination score of 1.650 required in several doctoral programs. The college works with 24 Partnership Schools for the delivery of preservice and inservice programs with a legislative mandate to be the lead institution for the delivery of education related programs throughout the State of Colorado. The university has a unique campus-wide commitment to teacher education with over 27% of undergraduate students enrolled in teacher licensure programs. Further information about the college of Education is available at www.redehr.unco.edu

Position Description: The dean is responsible for the programs and faculty within the college and reports to the provost. The dean is directly responsible for eight faculty members and indirectly responsible for an additional eight teacher education faculty members in the cooperating colleges. The dean provides visionary leadership to the college, particularly in support of graduate education, and encourages diversity of thought. The dean is in a position to exist statewide in leadership decision on Colorado leading on state standards, statewide assessment and accreditation. The position demands sustained interaction with the legislature and university office and other political entities that impact all levels of education in the state and nation.

Qualifications and Experience: Candidates must hold an earned doctorate in education or a closely related field. The candidate must have administrative and supervisory experience and evidence of effective leadership. The candidate must have a strong research record, including publications and presentations demonstrating a commitment to scholarly excellence, and must have an academic record that qualifies for appointment at the rank of professor in an academic program at the college. The candidate must have demonstrated national leadership experience in areas such as accreditation, licensure, and research relevant to teacher education, graduate education, educational assessment and instructional technology applications.

Salary and Benefits: Commensurate with qualifications and experience. Benefits include health, life and dental insurance as well as a selection of several defined contribution retirement programs.

Starting Date: June 1, 1999 or as soon as possible thereafter.

Contact and Application Deadline: Candidates are requested to submit a letter of application, a current curriculum vitae, and the names, addresses and phone numbers of five references. Screening will commence by December 1, 1998 and continue until the position is filled. Send applications and nominations to:

Attention: Office of Academic Affairs-Carter Hall, Room 400 Chair of Search and Screen Committee, Dean Sandra Flake for Dean of the College of Education University of Northern Colorado Greeley, CO 80639 FAX # 970-351-1880

Federal regulations require that all documents submitted by applicants be retained by the University. Materials will not be returned or copied for applicants.

Location and Environment: The University of Northern Colorado is a Carnegie Doctoral I institution enrolling 10,670 graduate and undergraduate students. The College of Education is one of four colleges in the university. The university located in Greeley is a small city with a population of 25,500. Greeley is an hour north of Denver and 23 miles east of the Rocky Mountains. Further information about UNC and Greeley is available at www.unco.edu

This position is contingent upon funding from the Colorado State Legislature, approval of the Board of Trustees, and subject to the policies and regulations of the University of Northern Colorado.

The University of Northern Colorado is an Affirmative Action/Equal Opportunity Employer. Women, minority, and disabled persons are encouraged to apply.

AMERICAN UNIVERSITY

Tenure Track Position

ASSISTANT PROFESSOR
(Reading/Language Arts)

The School of Education at American University seeks applicants for tenure track positions to begin the Fall, 1999 to support its undergraduate and graduate teacher education and Ph.D. programs.

RESPONSIBILITIES. The new faculty member will be responsible for teaching undergraduate and graduate courses and practica. Advising, working with students in the Ph.D. program, and will be expected to pursue an active program of research and scholarly writing.

QUALIFICATIONS. Requirements for the position include an earned doctorate, elementary or secondary classroom teaching experience, evidence of scholarly ability and potential, and university teaching experience. The successful candidate will have a doctorate level specialization in reading and language arts, substantial study and experience in the use of instructional technology, and additional expertise in one of the following: children's literature, multicultural education, or literacy. Review of applications will begin immediately and continue until the position is filled.

American University is an affirmative action/equal opportunity employer committed to a diverse faculty, staff and student body. Women and minority candidates are encouraged to apply.

MANAGER
RECRUITMENT AND RETENTION
The Gem Consortium

The National Consortium for Graduate Degrees for Minorities in Engineering and Science, Inc. (Gem), headquartered at the University of Notre Dame, has as its primary mission enhancement of the value of the nation's human capital in engineering and science by increasing the participation of under-represented minorities at the masters and doctoral levels. Through comprehensive nationwide programs which include fellowships, mentoring workshops, academic enhancement activities, and publications, Gem works to identify, recruit, enrol, and retain minority science and engineering students in graduate programs.

The Gem Consortium seeks an experienced admissions/recruitment professional to recruit and counsel students and promote strategies which improve the effectiveness and impact of Gem programs. As part of these responsibilities, this position assists in the design, development and implementation of programs which encourage and prepare undergraduates to enter graduate school and which promote the retention of existing fellows. The Manager also takes a leading role in developing strategies and materials which market the Gem Consortium to current and prospective organizational constituents in the business and academic fields, with primary responsibility for the Southwest region.

Applicants should have a Master's or higher level degree in engineering, science, higher education, or student personnel services. Experience should include 3-4 years of experience in admissions/recruitment or other student personnel experience. University faculty experience is especially desirable. Candidates should be computer literate and familiar with use of standard business software applications. Excellent communication and interpersonal skills are essential to deal with a variety of clients and publics. Please submit resume and cover letter to:

Job #8010-311
Department of Human Resources
University of Notre Dame
Notre Dame, IN 46556

EEOAA

272
PROVOST & VICE CHANCELLOR
FOR ACADEMIC AFFAIRS

The University of North Carolina at Wilmington seeks applications and nominations for the position of Provost and Vice Chancellor for Academic Affairs to assume office by July 1, 1999.

UNCW is in Wilmington, North Carolina—an historic, coastal seaport community of 160,000 between the Cape Fear River and the Atlantic Ocean. Founded in 1947 as Wilmington College to serve the needs of the region, the institution became UNC Wilmington in 1969 with the consolidation of the University of North Carolina system.

UNC Wilmington is a Comprehensive Level I institution with approximately 9,500 students seeking bachelor’s and master’s degrees in Arts & Sciences, Business, Education, and Nursing, as well cooperative doctoral degrees in marine science. The university honors a commitment to planned growth and excellence in undergraduate education, marine science, graduate research, and professional programs: regional public service, international education, the application of technology to teaching and learning, and diversity in enrollment and employment.

The Provost reports to the Chancellor and is responsible for implementing and administering academic programs, overseeing faculty recruitment, promotion, and tenure, and planning and administering academic budgets. Working with the Dean’s Council, the Provost provides academic leadership for the university, functions as the chief academic officer, and represents the university’s academic programs to external constituencies. The Provost & VCAA also supervises Enrollment Affairs, Libraries, the Center for Marine Science Research, the Honors Scholars Program, International Programs, the Office for Information Technology, the Technology College Information Technology, Management Information Support, and the Science & Mathematics Education Center.

The successful candidate must have an earned doctoral or terminal academic degree and academic credentials sufficient to justify the award of tenure as a professor, a distinguished record of teaching, research publication, and scholarship, and should possess the following qualifications: experience in academic administration, dynamic and creative leadership, initiative and vision, superior interpersonal and intrapersonal skills, and working knowledge of the use of educational technology to support teaching and learning.

Interested candidates should forward a letter of application, curriculum vitae, and the names, addresses, and telephone numbers of five references to: Provost Search Committee, UNCW Human Resources, 601 S. College Road, Wilmington, NC 28403-3397; phone: 910-962-3855; e-mail: provost@uncw.edu. Screening of applications will begin November 2, 1998, and continue until the position is filled.

UNCW is an affirmative action equal opportunity employer. Minors and women are encouraged to apply.
Associate Director
The GEM Consortium

The National Consortium for Graduate Degrees for Minorities in Engineering and Science, Inc. (GEM), headquartered at the University of Notre Dame, has as its primary mission enhancement of the value of the nation's human capital in engineering and science by increasing the participation of under-represented minorities at the masters and doctoral levels. Through comprehensive nationwide programs which include fellowships, mentoring workshops, academic enhancement activities, and publications, GEM works to identify, recruit, enroll and retain minority science and engineering students in graduate programs.

Within this organization, the Associate Director supervises the Consortium's administrative and business management functions and has primary responsibility for day-to-day management of the GEM Central Office. The Associate Director oversees qualitative and quantitative assessment activities, and assists the Executive Director with the development and coordination of a comprehensive program. Principal responsibilities include coordinating the development, operation and refinement of GEM activities as they relate to budget and finance, marketing, publications and media relations, and proposal/grant writing.

Qualified candidates for this position will possess, at minimum, a Master's degree or equivalent experience in the natural sciences, engineering, or higher education administration. A Ph.D. is preferred. Candidates should have at least four years of progressive managerial responsibility, including at least three years managing professional staff. Experience interacting with public and private fellowship providers and administrators, graduate deans, and research supervisors is essential, as is demonstrated awareness of public policy issues in the design and administration of fellowships. Experience in budgeting and program planning, excel, communication skills, computer literacy, and the ability to motivate others and work in a collaborative and collegial fashion are expected.

Applications will be accepted until the position is filled. Applications received by November 15, 1998 will be given preference. Applications should include a letter expressing interest and qualifications, along with a current resume and salary history.

EEO/AA
Eastern Michigan University
ASSOCIATE DEAN, COLLEGE OF EDUCATION

The associate dean is the university's chief officer in charge of the Office of Academic Services, and also works in concert with the associate dean for administration and department heads in the college, and represents the college and its schools to the university's administration. The dean is responsible for the overall management of the college, and for the development and implementation of policies and procedures designed to achieve the college's mission.

The dean's responsibilities include:
- Setting academic goals and priorities for the college
- Developing and implementing strategies to achieve those goals
- Overseeing the budget for the college
- Working with the provost and other university administrators to ensure the college's compliance with state and federal regulations
- Providing leadership and guidance to the college's faculty and staff

The associate dean is expected to have a strong background in higher education administration, with experience in academic leadership and management. The ideal candidate will also have a commitment to diversity, equity, and inclusion, and a demonstrated ability to work effectively with a wide range of stakeholders.

Qualifications:
- A doctoral degree in education or a related field
- At least 5 years of experience in higher education administration
- Experience in academic leadership and management
- Strong interpersonal and communication skills
- Demonstrated commitment to diversity, equity, and inclusion

Applications are accepted until the position is filled. Review of applications will begin immediately.

EMU is an Equal Opportunity Employer

Rochester Institute of Technology
Faculty Position in English Department

Applications are now being accepted for a full-time, 10-month, tenure-track faculty position in the English Department at the National Technical Institute for the Deaf (NTID), a college of the Rochester Institute of Technology (RIT).

RIT is a privately endowed educational university composed of seven colleges with over 12,000 full-time and part-time students. NTID is a federally funded institution created by an Act of Congress in 1966. NTID is the largest post-secondary program in the world offering mainstreamed higher education opportunities to deaf and hard-of-hearing students and has more than 1,100 students enrolled in undergraduate and graduate programs.

NATURE OF THE POSITION: The successful applicant will provide English language instruction with an emphasis on reading skills development, and reading comprehension.

REQUIRED QUALIFICATIONS:
- Master's degree in English, reading, linguistics, ESL, or a closely related field.
- Experience in teaching reading to deaf students.
- Skill in American Sign Language.

STRONGLY PREFERRED QUALIFICATIONS:
- Doctoral degree in one of the fields above.
- Experience with computerized instruction.
- Experience with language assessment methodology.
- Experience teaching English language structure.

Applicants should be able to contribute meaningful ways to the college’s continued commitment to cultural diversity, pluralism, and individual differences. People who are deaf or hard of hearing, with a disability, or are a member of a minority group are encouraged to apply.

Send a letter of application, curriculum vitae, two letters of reference, and examples of professional and curriculum work to:

Nebraska Wesleyan University

Nebraska Wesleyan announces assistant professor, tenure-track positions beginning August 1999 in the following areas:

Department of Business Administration/Economics:
(1) Accounting: Ph.D. in accounting or MBA preferred, ABD considered. (2) Marketing: Ph.D. in marketing, preferably ABD, considered. Send letter of application, statement of educational philosophy, curriculum vitae, and names of three references to: Dr. Thomas K. Hudson, Department Chair.

Department of Education, Department Chair: Elementary-Middle Grades:
M.S. or M.Ed., Ph.D. or Ed.D.; three years of classroom teaching experience in Math/Science and Multi-cultural Education. Experience in department chair and preference in instructional technology desirable. Send letter of application, vita, three letters of recommendation, official transcripts to: Dr. Timothy Anderson, Department Chair.

Department of Health and Human Performance:
(1) Athletic Training Specialist: Ph.D. or Ed.D. or M.S. or M.Ed. in sport management, exercises science and fitness studies. (2) Curriculum and Pedagogy: Ph.D. or Ed.D. or M.S. or M.Ed. in educational studies, exercise science and fitness studies. Send letter of application, vita, three letters of recommendation, official transcripts to: Dr. Patrick Donoh Feitl, Department Chair.

Department of Political Science, Department Chair/Assistant Professor:
Ph.D., teaching experience preferred, experience to complement current faculty. Send curriculum vitae, brief statement of teaching/research interests, three letters of recommendation to: Dr. Jan Venter, Department Chair.

Review of applications begins December 1 (Full Source). Nebraska Wesleyan is an undergraduate liberal arts institution, ranked nationally for the quality of its academic programs. The University, an equal opportunity employer, actively seeks a culturally diverse faculty and encourages applications from women and persons of color.

Chemistry
Sarah Lawrence College

A coeducational liberal arts college dedicated to individualized education, is recruiting a broadly trained chemist for a tenure-track position beginning August 1, 1999. The successful candidate will teach general chemistry, either undergraduate courses of interest to liberal arts students, and some upper-level courses, preferably including biochemistry. An interest in working closely with students on an individual basis is essential. A Ph.D. in chemistry or related fields is required. Please send resume, copy of graduate transcripts, and three letters of recommendation to: Dr. Mallory, Sarah Lawrence College, Bronxville, NY 10708. Deadline for receipt is November 15, 1998. An equal opportunity employer, Sarah Lawrence College encourages applications from minorities and women.

The Colorado School of Mines (CSM) is a public university which is devoted to engineering and applied science related to the Earth's resources. CSM is currently seeking to hire faculty members in a variety of departments and divisions. The departments or divisions, areas of specialization, and ranks are listed below:

Department of Chemistry and Geochemistry: Assistant or Associate professor.
Division of Economics and Business: Assistant Professor (management science/operations research/management).
Department of Environmental Studies: Assistant, Associate, or Full Professor (environmental studies).
Division of Engineering: Assistant Professor (Civil Engineering: structures, environmental engineering).
Department of Environmental Science and Engineering: Assistant or Associate Professor (applied environmental microbiology).
Department of Geophysics: Professor of Computer Science: Computer/Physics.
Division of Liberal Arts and International Studies: Assistant, Associate, and Full Professor (philosophy and political science: Russian).
Department of Mining Engineering: Assistant Professor (mining engineering).
Department of Physics: Instructor and Laboratory Coordinator: Assistant or Associate Professor (applied physics).

For detailed information, please contact the CSM office at 303.273.3045 or visit the school's website at www.mines.edu.

Southern Connecticut State University

Mathematics Department

Two tenure-track positions at the Associate Professor level, one in discrete mathematics, the other in applied mathematics, are available. The positions require a Ph.D. in mathematics or a closely related discipline, and a commitment to excellence in teaching. The starting date is September 1, 1999. Interested candidates should submit a letter of application, curriculum vitae, statement of research interests, and three letters of recommendation to: Dr. Leo Katznelson, Mathematics Department, Southern Connecticut State University, 501 Crescent St., New Haven, CT 06515. The application packet must be received by January 20, 1999.

SCSU is an AA/EOE. Minorities and women are encouraged to apply.

CALL FOR APPLICATIONS
AND NOMINATIONS FOR FELLOWSHIPS

The Institute for the Advanced Study of Religion at Yale invites applications and nominations for Junior and Senior Fellows for the 1999-2000 academic year.

THE INSTITUTE FOR THE ADVANCED STUDY OF RELIGION AT YALE

The Institute for the Advanced Study of Religion at Yale is directed by Harry S. Stout, Jonathan Edwards Professor of American Christianity and John B. Madden Master of Berkeley College, and Jon Butler, William Robertson Coe Professor of History.

The Pew Charitable Trusts established the Institute in September, 1998 with a grant of $2.2 million. Its four-fold mission is to:

- encourage and coordinate the study of religion in American life and history;
- increase awareness of the role and importance of religion in the life of our country and world;
- address moral and spiritual concerns of leadership in national and international contexts; and
- remedy the relative inattention to and ignorance of the role of religion in American history and contemporary life among policy-makers, scholars, and practitioners.

1999-2000 RESIDENTIAL FELLOWSHIPS

Three advanced scholars will be invited to Yale to pursue individual research and writing within an interconnected environment of seminars, symposia, lectures, and scholarly presentations. Fellows will interact with Yale faculty fellows and a wide panoply of staff, students, academic centers and departments throughout Yale.

Fellows will be expected to be in residence ordinarily from September through May and to attend all Institute functions and to produce significant scholarship individually or in conjunction with the other fellows, and will be given the option of teaching an undergraduate or graduate course.

The theme for the 1999-2000 academic year will be American Religion, Race and Ethnicity.

2000-2001 FELLOWSHIPS: RESIDENTIAL AND NON-RESIDENTIAL

In addition to welcoming a second class of residential fellows in 2000-01, the Institute will also award non-residential dissertation and post-doctoral fellowships on a semester- or year-long basis. Awards will range from $17,000 for dissertation fellows to $34,000 for post-doctoral fellows.

Non-residential fellows will be expected to complete their dissertation or first book during their tenure as fellows. They will also be expected to visit Yale twice during their fellowship year, first for the Fall Fellows Seminar and again for a national conference during the spring term. As participants in the conference, fellows will share their work with their colleagues and invited critics.

The theme for the 2000-2001 academic year will be Religion and Economic Policy.

OUTLOOK ON WASHINGTON: A CAPITAL VIEW
ERIC Digests—Endless Fountain of Information

SUCCESS STORIES
Hispanic Headliners in Kansas
Staff and students of Garden City Community College earn praise

People, Places, Publications, Conferences
Knowledge, if not literally exploding, certainly grows exponentially. Keeping up with the literature on a subject we are interested in can be difficult.

But there is help. The Education Resources Information Center (ERIC), a repository of documents related to education. A searchable database containing abstracts of items available in the ERIC system as well as relevant journal articles is accessible online at: <www.ERIC->.

If an item in an ERIC Digest or one mentioned in the ERIC Database begins with a ED, it is usually available in the ERIC system.

Many universities have the complete series of ERIC documents on microfiche. If access to a microfiche collection is not possible or practical, it is possible to order a document over the phone by calling: 1-800-434-ERIC.

A good place to start for information about ERIC is: <http://www.aspensys.com/eric/faq/faq.html>. More than 1,800 ERIC Digests have been collected by the Department of Education. They provide a quick, useful way to gain information or current thinking on a wide variety of topics. An ERIC Digest presents a summary of the major ideas on a topic prepared by a knowledgeable person.

Digests are short but comprehensive—1,000- to 1,500-word reports. Written without jargon, they provide a succinct introduction, an overview, together with major pertinent references on a wide variety of education-related topics.

Targeted specifically to teachers, administrators, policy makers, and other practitioners, they can be useful to the general public. They cover pre-kindergarten as well as postgraduate issues and virtually every topic in between.

Each Digest provides a bibliography containing up-to-date references as well as significant previously published research sources. Some of the bibliographic entries are books and journal articles, but many publications are also available through ERIC. The Department of Education issues new Digests every six months or so.

Types of Digests

The Department of Education has identified six types of Digests. They are not mutually exclusive, and many Digests contain elements of two or more.

1) "Overview"—Serves as an "introduction to the topic." Its target audience is both professionals and the general public.

2) "Fact Sheet"—Provides current information of a factual nature for policy makers, administrators, and other decision makers.

3) "Issue"—Defines and describes a controversial topic. It doesn't resolve the issues but presents various perspectives to those who wish to consider alternative educational issues.

4) "Practice Application"—Designed for educational practitioners; these provide specific, concrete examples of how practitioners can apply research results in practical settings.

5) "Research Findings"—University professors, researchers, graduate students find these Digests, which report on the current status of research, particularly relevant.

6) "Synopsis of Syntheses Paper"—This type of Digest is based on one or more primary publications, which provide "a review and synthesis of many publications."

The Digests can be viewed on the World Wide Web. Links to the new Digests as well as links to all the previously issued Digests are available at: http://www.ed.gov/databases/ERIC_Digest/index.

To provide Hispanic Outlook readers with an idea of the range of topics available in ERIC Digests, the following were among the 100 most recently released Digests.

Dr. Mellander is a professor and dean emeritus at George Mason University.
Esther Madriz: Compassionate Criminologist

University of San Francisco Professor Interviewed by HO

BY PATRICIA HANSON

Madriz draws on official statistics to inform readers about the types, frequencies, and likely victims of crime, but also asks and answers more important qualitative questions about "why" instead of "how many." Her book is a compelling feminist analysis of how women's perception of fear controls their behavior, keeping them in subservient and self-limiting social positions.

A passionate, articulate, and deeply spiritual woman in her early 50s, Esther I. Madriz, author of Nothing Bad Happens to Good Girls: Fear of Crime in Women's Lives, is a professor at the University of San Francisco. A picture of her fifteen years ago with César Chávez hangs on her wall. As a graduate student at Vanderbilt, for a brief time she studied with American farmworkers.

She holds a master's degree in criminal justice administration and a Ph.D. in sociology. Her 12-page resume details eight academic awards and honors, and more than 50 publications and international presentations at professional organizations. Her well-documented, fascinating, and thoroughly readable book draws on interviews and focus groups that she conducted over a five-year period with Latina, African American, and White women in New York City and surrounding areas while she taught at Hunter College in New York. It frames women's fear in the context of past research and explores the sources of that fear in media and in reality.

It is a compelling feminist analysis of how women's perception of fear controls their behavior, keeping them in subservient and self-limiting social positions. Madriz draws on official statistics to inform readers about the types, frequencies, and likely victims of crime, but also asks and answers more important qualitative questions about "why" instead of "how many." She examines the images embedded in women's fears and demonstrates how these are constructed to reinforce existing structures of power.

The title of the book was inspired by a phrase Esther's mother used to repeat to her: Si eres una niña buena, nada malo te pasará ("If you are a good girl, nothing bad will happen to you").

Madriz offers this book to criminology students and the general public in hopes that it will help restore the reputations of some of the brave 'bad girls' who refuse to let the fear of crime rule their lives.
HO interviewed Escher last fall at her office high atop a hill in San Francisco.

HO: Please tell me about your background. How did you get to where you are today?

MADRIZ: I was born in Venezuela, daughter of a mother who never went to college but who really instilled in me the love for education. My mother was a teacher at a time when women only went to escuelas normales (normal schools) for higher education. She understood very clearly that women especially needed to be educated. Of course at the time when she lived, her philosophy was "you never know what will happen to your husband, so you should be educated." But it was really her love of knowledge, of learning, that she instilled in us. When she died in her late 70s, she was still studying French. She loved learning for the sake of learning. I think I owe my success to her.

HO: What drew you to the field of Criminal Justice and to the theme of your book, crime in women's lives?

MADRIZ: I always considered myself an advocate for social justice. That's my purpose in life. As a very young girl, my mother used to tell me, "You are always looking for injustices, for places where justice needs to be served." In many ways, I think my choice of criminal justice as a major in college maximized that. If you look at injustices in society, criminal justice theory can help you examine it through a microscope. All the little injustices become magnified, the racism is increased, the class issues, and now the gender issues seem greater. So this field is a great magnifier. I began to work in criminal justice under the leadership of a wonderful Latina woman, Rosa del Olmo, who is a very well known Venezuelan criminologist. She was my mentor. She'd say, "Read this" and then "read that," and I found myself reading what was happening in the United States.

I began to explore more social and radical criminology. Then I'd say, "Wow! Now I understand why this is happening!" I began with the practice and learned what's behind the theory of all this.

HO: Were there any other mentors at any point in your career?

MADRIZ: Ruth Sidel inspired me to write this book. She is a widely I was talking about.

But one day at Hunter where Ruth Sidel and I worked side by side, she took me to a restaurant on Lexington Avenue and asked me, "Why are you writing these silly articles for these male magazines? They will never appreciate them." She told me that my interest in crime and women was the best subject she could imagine for a book. Every time I talk about fear of crime, and tell people of its effect on women's lives, I am grateful that Ruth told me, "Just write a proposal and send it to five publishers and see what happens." I did, and they
crime in women's lives.

HO: Do you think there is any hope for the media portraying women as less victimized and more empowered, such as you suggest in Nothing Bad Happens to Good Girls?

MADRIZ: Yes, I do. Let me give you a very specific example. Very recently I was interviewed by Ray Suarez for Talk of the Nation. I love his show. He began by citing some carefully researched statistics and then showed examples of poor media representation of women.

But I am not sure the blame for fear of crime in women's lives lies completely with the media. That's only one aspect. Politicians try to gain our votes. They use fear of crime as an issue and recount the horror happening in the streets of America. But interestingly enough, crime rates are actually going down while fear of crime is on the rise.

Politicians benefit from our fears; they make it appear crime is increasing, and suggest they can do something about it. They promise..."if you vote for me, I can make you free of this." That's simply not true.

Another source of women's fears is fairytales, stories we all heard as small children. Remember the story of Little Red Riding Hood? A little girl, walking through the woods, is suddenly swallowed by this dark figure coming from the darkness. Danger is often represented by men of color coming from the darkness, and women are portrayed as innocents. In reality, men are more likely to be victims of street crimes than are women.

I do believe there are a couple of good programs where women are perceived as strong and that portray women as taking control of their lives and not keeping them in specific isolated roles. But at this moment I cannot think of any good realistic major movie that has taken the position of portraying women strongly.

"I want to document scapegoating. I am especially interested in the identity of Latino immigrants and the enormous hardships the new immigration laws are imposing on them."

known sociologist who wrote On Her Own and Keeping Women and Children Last: America's War on the Poor. I do believe we all need a guide. I don't think anyone does it on his or her own. I think we all need someone. In my life, at many different points in time, someone has always been there for me, and each time that person has been a woman. My mother, my first mentor. Ruth Sidel—especially supported me at the precise moment I needed them. I never dreamed I could write a book. Vanderbilt University in Tennessee was a very conservative school. You were supposed to write articles. I'd write them, and at first they weren't too radical. Criminology is a male-dominated field. My articles on feminism, racism, and gender weren't accepted very well. They didn't know what jumped! I actually had to choose between publishers. And right now the book is doing very well in college markets and starting to get visibility in the popular press.

HO: What is your impression of the current fascination of the media with the fear of crime?

MADRIZ: I think that the media is one of the major elements that exacerbates and misrepresents crime. Print and television and movies make it look more likely women are about to be attacked on the streets by a stranger, when in reality you and I are more likely to be attacked by someone we love or have loved, by someone who knows us. The media feeds on fear of strangers, fear of the dark, fear of the streets, anything that sells. Popular culture feeds on fear of
There are some very good examples in South America of women taking a very strong position. The Mothers of La Plaza De Mayo, for instance. Rigoberta Menchu from Guatemala, and of course the millions of women as mothers who defend their kids every day. In New York City, a Latina woman named Irene Báez founded a group called Mothers Against Police Brutality. I interviewed her, and I tell you, when I was sitting in her house in the South Bronx, her presence filled the room. Her son was killed by a bullet, and she founded this organization to protect all the children.

HO: Your book is a feminist analysis of crime. What do you think about women’s studies and feminism? How do you see the evolution of the acceptance of those words in Latina culture now as contrasted with 20 years ago? Is there more acceptance of feminism in your generation or in young women coming of age today?

MADRIZ: Latina women have a different kind of feminism than U.S. feminists. In some ways, we Latinas feel we are permanently pregnant.

MADRIZ: I was a very fearful person my whole life. I believe that the only way to break through fears is to walk through them to see how many of those fears are real. Many fears are very well-founded. Women should be afraid of acquaintance rape. There is a very high incidence of assault and battery at home, of domestic violence. We all need to look at these fears face to face and ask what the reality is. Why is this so, and examine these fears.

I believe that fear of crime is an assault on women’s rights, a violation of your right and my right of freedom. If you need to leave some place early because you are going to be afraid of driving by yourself at night, or if you lose or have to change a job or move because of fear of crime, that is a violation of your rights. If you have to take cabs, and pay more to do it, because you’re afraid of the subway, that is a violation of your rights. I could go on and on. So instead of looking at these fears as your problem, perhaps we need to examine the culture and the policies that create the conditions we fear.

Let me give you an example. Remember the woman who was jogging in Central Park and was raped? I recall that the first comment I heard from a newscaster was, “How did she come to be jogging by herself?” My question is “Why is it that women don’t have a place where they are safe?” The answer to that question places the responsibility on the social system or the government.

HO: Moving from the political to the personal, what do you think is the role of spirituality in handling fears?

MADRIZ: Very high. Let me tell you something on a personal level. My husband died three weeks ago. I am now living by myself for the first time in my life. I have always been a very fearful person. I have many friends, but the only thing that has sustained me is my spiritual beliefs. I believe I am protected. To give you an example, on Tuesday I came back home from a lecture at St. Mary’s at 10 at night. I opened my door and, in spite of my early fearful conditioning, because I have a spiritual core, I felt fine and comfortable coming home late at night alone. I feel this comes from believing that I’m part of something larger than myself.

I know that I am not alone really, that who we are, you and I, we are part of the universe. You may want to call it God or Goddess, whatever. I have faith that everything in my whole life has happened for a reason. My husband was very committed socially; he contributed a great deal to this world. I feel I have a strength that has come from all the people in my life, including him. These people I’ve known and loved, my husband, my mother and father—they all were and still are part of my spiritual life.

Nowadays each of us can construct our own type of spirituality. Mine concerns this feeling that we’re all part of something much bigger. Yesterday I was feeling very sad so I walked on the beach, I took my shoes off and walked in the sand and looked and said, “This is life; this is the universe. I’m part of it; my husband, wherever he is, is part of it;” and at that moment, I felt very much in tune. Sometimes love can make you feel connected with everything on a grand scale.

HO: What’s the next book about?

MADRIZ: I want to document scapegoating. I am especially interested in the identity of Latino immigrants and the enormous hardship the new immigration laws are imposing on them. I’m interviewing community leaders, community activists, trying to discover how these people are hurt by the rejection and stereotypes of their people...
Juan Andrade: Sowing Power Seed by Seed

The U.S. Hispanic Leadership Institute

BY
MICHÈLE ADAM

First you clear the weeds, then you plant the seeds, and finally, after extensive hard labor, you've got a great harvest.

For farmers, that's a solid method of securing a good yield. For Juan Andrade, president of the United States Hispanic Leadership Institute, it's an effective way to build Latino empowerment and representation in this country. As a one-time farmer himself, helping his family on their land as a young boy in Texas, Andrade learned how to patiently and diligently harvest crops. And now he's farming something much bigger.

He is cultivating a field—one seed at a time—of Hispanics practicing democracy and leadership in a country where they've been sorely underrepresented. His organization, formerly called the Midwest Voter Registration Education Project, is running a two-year campaign to register 30 million new Latinos and develop 150,000 Latino leaders by the turn of the century, with 50,000 of them to be public officials by 2025. Although many describe Andrade as ambitious, he's confident that his experience and know-how will pay off.

"As long as we keep clearing the weeds and planting seeds...when the day comes there will be a great harvest," he said.

Andrade's an endangered species, though. There aren't many like him—people who are willing to build change from the ground up. Many are out for a quick fix. Fewer can patiently nurture and maintain a grassroots organization—root by root.

"We have looked at this as a lifetime vision...changing things from the ground up," said Andrade. "It means taking one step at a time...one voter at a time...one election at a time."

Who exactly is Andrade, and what makes him so sure the institute can accomplish his demanding campaign, called "Partnership for Democracy"?

Andrade launched the Midwest Voter Registration Education Project in 1981, after completing research that demonstrated Latino underrepresentation and potential voting power throughout the country, especially in the Midwest. "Our vision was to increase the number of Latino registered voters in the Midwest and to increase the number of elected officials," said Andrade.

What began as a seemingly straightforward task became more complicated, however. To begin with, "there was a lot of weeding to do," said Andrade. While the institute...
worked hard to register new Latinos in Chicago, their numbers were not appearing on the official roster of eligible voters. It took years of research to discover that ward committeemen were canvassing voters and selectively purging from the roster those that didn’t support the preferred political leaders.

“It was one of the real political problems we had to overcome,” said Andrade. The institute worked with the board of election commissioners to change the political game, at which time Latino registration numbers finally increased. Andrade recalled similar barriers Latinos successfully challenged in his home state of Texas, from fighting laws requiring literacy tests and homeownership in order to vote, to removing poll taxes and one-year registration requirements that hindered Mexican Americans from voting.

“The electoral process was a lot like having to clear the weeds in order for us to grow—to breathe,” said Andrade.

Since the organization began, registration of Latinos has nearly doubled in its home town of Chicago, from 82,000 to 150,000.

The Midwest Voter Registration Education Project also grew twofold in size since its inception, becoming the Midwest Northeast Voter Registration Education Project in 1987, and then the United States Hispanic Leadership Institute in 1996. The name changes serve as accurate reflections of the growing responsibilities and accomplishments of the organization.

During its 18 years, the institute has registered 1.3 million voters through 890 local campaigns, disseminated printed material on US citizenship to 500,000 immigrants, and trained 25,000 local volunteers in organizing and conducting registration, voter education, and get-out-the-vote campaigns. With an important emphasis on youth, it has spent $183,000 on ten-week internship programs for 20-30 college students, teaching them the hands-on dynamics of social change, as well as $40,000 in financial aid for college students since 1994. From organizing the largest Hispanic conference in the nation, with over 30,000 present and future leaders attending since its inception, to publishing 320 studies and reports on Hispanic demographics, the Institute has grown to become a center of inspiration and support for Hispanics throughout the country.

The Hispanic Leadership Institute has also been training leaders throughout the Midwest and Northeast to give back to their communities and build a more powerful Latino voice. Already, 2,000 public officials and grassroots community leaders have participated in its leadership training programs.

Andy Hernández, former president of Southwest Voter Registration Education Project and active participant in the institute’s mission, described the shift as the following: “It’s not about voting any more. It’s about it meaning something.”

The leadership courses last nine weeks and are developed in cooperation with local city officials and key members of the community. Local Latinos, who are often unrecognized leaders outside their community, meet with key people such as the mayor and the school superintendent to learn what it takes to become influential partners in the larger community. And often, as Hernández described, this more opening of dialogue begins a process of local Latino empowerment. Within a matter of time, Latino leaders are active on committees and local boards, and running for offices they would have earlier ignored.

“Building these relationships helps us build social capital,” said Hernández. “We think that as you do this, you build a community-based movement. You are creating a culture of participation.”

There are towns in the Midwest where few would expect large Hispanic populations. But it is in places like Garden City in Kansas, with 35 percent Latinos, that leadership programs are held. Lydia González, who has been involved with the institute there for over half a decade, has seen the benefits firsthand.

“They had a lot to do with us becoming more active. They are the ones that provided tools and training to achieve our rights,” said González. Although Garden City has numerous Latino leaders, said González, they lacked sufficient political awareness.

González has volunteered with the institute in its registration drives, and in the past three years has both participated in and coordinated participants for the leadership programs. She finds 20 to 25 Latino leaders and invites them to the free nine-week leadership course—three weeks with county officials, three weeks with school officials, three weeks with city officials—and soon they’re asked to bring in their resumes and begin more active involvement in the community.

“We have a team effort out here,” said González.

She was recognized for her hard work at the Institute’s 16th annual Leadership Conference. The USHLC prides itself on being the largest national Hispanic conference in terms of registered participants, with annual attendance now of more than “1,000 people from 32 states. Participants include 200 high school and 1,500 college students, 1,000 young Hispanic professionals, and 2,500 elected and appointed officials, corporate and labor leaders, entrepreneurs, senior citizens, and representatives of local, state and national organizations. In 1997 alone, 20 presidential appointees and 5 members of President Clinton’s Cabinet were invited as speakers to the conference, as well as many other prominent Hispanic leaders.

For many, the conference is their first introduction to the institute, one that brings them back each year for inspiration and advice. During a four-day weekend in October, community members, as well as students, attend leadership seminars, workshops, forums, exhibits, dinners, and speeches. The college fair, for which students are bused in, makes up a large portion of the conference as well. More than 200 volunteers prepare workshops and seminars with topics of technology, employment, and education in relation to Latino empowerment. The conference itself is both a fundraiser for the organization and a meeting ground where Latinos learn, inspire, and
take back to their communities.

Last spring the institute held its first Hispanic Youth Leadership Conference for students from various states.

While former students such as Eduardo Garza and Juan Rodriguez became involved with the larger conference many years ago, today's youth will have an opportunity to attend a conference for their age group.

"I have come to the conference since 10th grade," said Garza, a recent college graduate and institute employee. "My grandfather was involved with the Institute back then. He took my brother and me because he had extra tickets to come to the dinners."

Garza also attended a few workshops back then, and from the very beginning was inspired by Andrade and by Andrade's belief in an empowered Hispanic community. "I was impressed. He talked about Latinos in the U.S. and our potential as leaders...I thought maybe I would be a leader."

Garza saw a lot of neglect and problems in his community. From his vantage point of selling newspapers on the street corner, he saw it all at an early age—teenage pregnancy, gangs, poor education, and—his roof caving in. And he unable to do anything about it. "I think...I think I would rather have been a leader...I think it's my duty to help people."

The institute announced it's Partnership for Democracy Campaign, and since then its workload has doubled. With a group of staff of five to seven people, the Institute is working hard to accumulate funds and personnel to make its ambitious mission come true.

"I have a lot of work to do," said Garza. "I believe in him [Andrade]. I believe in this institute. I think we are going to do it."

To begin with, the institute will need to raise $5 million to successfully run its campaign. A minimal part of the expenses will cover the Southwest Voter Registration Education Project's participation in the campaign. Another portion will be used to hire staff so that the entire country can be targeted.

What is in place, however, is a strategy—something that years of experience should make effective this time around. In order to register 30 million new Latinos, the institute will have to do a lot of networking: "from the ground up." The plan is to form partnerships with a thousand groups across the country, from predominantly Latino labor organizations, publications, financial institutions, and churches to high schools, college groups, and Latino organizations. "We want to penetrate every level of the Latino community," said Andrade.

A second, even more ambitious goal is to develop 150,000 new leaders by the year 2000, and increase Latino officials from the current 5,000 to 50,000 by the year 2025. The answer: more leadership programs that by the year 2000 exist in every state throughout the country. While the institute primarily targets the Midwest and Northeast, the goal is to spread "deep," as Hernandez put it. It is expected that offices will be opened in key Hispanic areas, such as California, Florida, and Rhode Island.

"We want these programs to have a life of their own," said Hernandez. "We have seen many communities implement programs on their own, once established.

Andrade calls it "leadership within various spheres of influence," and says, "we need leaders in the workplace, in high schools, on campus, in professional associations and community-based organizations." The leadership programs will also expand to include high schools and colleges, primarily in the Midwest and Northeast, teaching students the importance of voting, engaging in the political process, and impacting decisions. Other areas of outreach will be community programs in policy development, candidate training, and campaign management. Although many community members and students learn from seminars and workshops at the conferences, the institute wants to bring more of its programs into home towns and cities.

Many would say that Andrade's vision is a big stretch of the imagination, that strategy may be one thing, but getting there is another. To that, Andrade responds, "When they've seen what we've done, people have given us the benefit of the doubt."

Teaching Spanish to Hispanics

Good Programs Need Replicating

BY NELLY MELLANDER

recall with mixed emotion those who tell me how beautifully their grandparents spoke French or Italian or what have you. They apologize for not speaking or understanding the language of their ancestors. There is a sense of loss.

It is even more painful to me, being Hispanic, when Hispanic Americans or, more precisely, Americans of Spanish or Latin American heritage, proudly proclaim the fluency of their forebears. More often than not, they themselves, can’t speak Spanish. Not well enough to preclude embarrassment when they try. They have lost part of their heritage.

A Growing Population

The number of Hispanics in this country is not insignificant. Due to continued immigration and a prolific natural increase, those numbers are destined to rise. It has been projected that U.S. Hispanic population figures will increase from approximately 22,692,000 in 1995 to 34,818,000 in the year 2000. Young Hispanics, ages 19 or lower, are already the largest subgroup of America’s youthful population.

It is also estimated that Spanish—the world’s fourth-largest language—will have 400,000,000 speakers by the year 2000. It will then have as many native speakers as English.

Given the normal desire of immigrants and first generation children to “integrate” as fully and as completely as possible, many wish to learn English as quickly as possible. Their desire to learn and speak English is strong and pervasive.

There are many other reasons why they drift away from Spanish. If they are born in this country, they attend English-language schools. So they could hardly learn formal Spanish in their elementary years. Later, when they are in high school, many are not permitted to enter regular Spanish-as-foreign-language classes because they are...

“Chicanos, Cubans, and Puerto Ricans enjoy their own different ways of doing things, of organizing their thoughts, and of expressing their realities.”

FRANCES APARACIO

too proficient.

"Proficient," for many have learned to speak Spanish, albeit with a high degree of slang. Unfortunately, what has been termed Spanglish (a mixture of English and Spanish words), therefore, incorrect and incomplete as their knowledge of Spanish may be, many are not permitted to study Spanish in high school.

A logical solution, employed by far too few high schools, is to offer Spanish classes for native speakers or for those whose verbal skills deny them entrance into regular foreign language Spanish classes.

College Teaching

Those of us who teach at the college level always have a collection of Spanish-speaking Hispanics in our classes. They come for many reasons.

A few believe it will be an easy class. After all, they speak Spanish at home so they think they can float by. But for many, their inability to read Spanish, much less understand grammar, classifies them not that far ahead of non-natives in the class who had the benefit of studying Spanish in high school. In fact, they are sometimes painfully behind.

Many students study Spanish in college because they realize that it is an important part of their heritage. They know their lives can be enriched when they learn the native tongue of their grandparents or parents. They have a passionate yearning to know, to understand, to connect.

Others are more pragmatic. They know there are business advantages internationally and also domestically. There is a growing market for Spanish-speaking businesspersons.

In most of our colleges and universities, Spanish is taught as a foreign language, just like any other foreign language, and it is geared to non-native speakers. Well-designed programs for Hispanic bilingual students rarely exist.

The few that do have well-articulated programs are located in heavily Hispanic-populated areas. Exceptional ones can be found at the University of Miami, Florida International University, Miami-Dade Community College, the University of Florida at Gainesville, the University of Nevada at Las Vegas, and the University of Arizona at Tuscon. These courses are frequently dubbed "Spanish for native speakers."

But the majority of our colleges and universities have not designed programs to meet the specific needs of these students. I am sure that Spanish teachers throughout the country have learned that different approaches have to be developed and utilized with these students. Yet, definitive procedures and guidelines have not been widely adopted. Each teacher adapts as best she or he can.

Key Elements

But the issue has become of such moment that teachers, researchers and authors have begun to address it. Their recommendations fall into three general categories.

1. The Teacher

Perhaps the most important ingredient in successfully helping native speakers is the effectiveness and empathy of their teacher. If a teacher is critical of varying linguistic styles or regional differences, the student is not well served.

I remember teachers who worked with me in California who embarrassed Chicano students over their regionalisms. Other teachers ridiculed students by asking such question such as, "You mean you are Mexican and you have never heard of Octavio Paz?" Puerto Ricans and Cubans have long been criticized for their pronunciation and syntax.

Those attitudes are uncalled for and counterproductive.

Teachers of English do not, by and large, denigrate nor make fun of native English students who bring their mid-western, southern, or "Brooklyn" accents, and linguistic variations to the classroom.

Grammar and correct usage must, of course, be emphasized. But regionalisms are neither a sign of, nor characteristic of, uneducated persons. As Professor Frances Aparicio has noted, teachers "should be sympathetic to all Hispanic groups and their differences, flexible toward regional linguistic differences, nonimposing of his/her own dialect or mode of speech." (Aparicio, 1983)

2. Proficiency

These students' levels of expertise vary widely. Some are orally articulate and quite proficient but many others aren't. Even among those who can speak effectively, many can neither read nor write—at even an elementary school level. Grammar and syntax are as alien to them as one can imagine.

3. Similarities and Differences

Hispanic-Americans are united by customs, languages, religion, and values. That is a given—and it is accurate. However, there are also many differences. Students particular cultural heritage influences their specific variety of Spanish.
point made elegantly by Professor Aparicio when she wrote, "Chicanos, Cubans, and Puerto Ricans enjoy their own different ways of doing things, of organizing their thoughts, and of expressing their realities."

Teachers wishing to help those students are well-advised to acquaint themselves with the learning styles and cultural differences of their students.

Teaching Materials

Another scholar, Ana Roca, has surveyed the variety of textbooks specifically designed to teach Spanish to native speakers. She points out that since Spanish has traditionally been taught as a foreign language, most of the textbooks and other teaching materials were prepared in that format.

What little has been produced for this discrete population of Spanish speakers has highlighted the linguistic variables, the culture, and the literature of Mexicans first and Puerto Ricans second. Specific teaching materials for Cuban Americans and other more recent immigrant groups, i.e., Nicaraguans, Guatemalans and Salvadorans hardly exists.

Teachers have been forced to scramble-to improvise-to meet the needs of students desirous of learning Spanish, who bring a wide variety of reading, speaking, and writing skills. Degrees of motivation and at times a latent resentment of the majority culture impregnates the classroom dynamics.

A few textbooks have been developed for them. A highly respected one is *Español Escrito*, by Guadalupe Valdes and Richard V. Teschner. The expanded fourth edition includes a student workbook, a cassette, and other additions.

Another popular text is *La lengua que heredamos*, by S. Marques.

Ana Roca has pioneered efforts on how best to serve these students. She has developed a series of pragmatic suggestions on teaching Spanish to native speakers at various levels of instruction. She recommends the following:

- Dialogue journals. Students can keep a journal in which they communicate in writing with the teacher. Dialogue journals provide the student with writing practice and show the teacher how the student is progressing in the development of writing skills.
- Vocabulary expansion assignments. These are exercises that allow students to use new words, through activities such as creating sentences that include the new vocabulary.
- Translations. Students can develop writing skills and learn vocabulary through translation of literature and other materials. Translation "offers students the opportunity to discuss linguistic differences between both languages at the written level and to realize that there are alternatives, or various ways of expressing an idea" (Aparicio, 1983).

Regionalisms are neither a sign of, nor characteristic of, uneducated persons.

- Composition writing. Individual and group edition of sample compositions can provide students with writing practice and allow feedback from peers.
- Oral and aural practice can be provided through class discussions and oral presentations, opportunities to listen to guest speakers, interviewing and reporting in Spanish, and use of audiovisual materials, such as films on video. (Sample films include *El norte: Yo soy Pablo Neruda: El hombre mirando hacia el sur*.) Also, several Spanish language television stations are available in the United States.
- Satellite television can also internationalize the class through live transmissions from Spanish-speaking countries.

For details on these and other recommendations, see Roca, 1992.

Conclusion

The need exists to help Hispanics learn Spanish. There are cultural, societal, as well as pragmatic reasons to do so. A few good textbooks exist to address the issue. Perhaps more colleges and universities will now understand the uniqueness of this need and move to address it. If more or new courses are offered, it is important to remember that the attitude and the empathy of teachers are the most important ingredients in helping Hispanics recapture part of their heritage.

Courageous, Comprehensive, and Compassionate Reporting
Columbia University Awards Cabot Prizes

BY
Kim Brockway and Virgil Renzulli

Four journalists from Mexico, Peru, and the United States have been selected by Columbia University to receive the 1998 Maria Moors Cabot Prizes for courageous, comprehensive, and compassionate reporting on Latin America.

In their 60th year, the awards are presented to those who have reported on the southern hemisphere with a longtime commitment to inter-American understanding and freedom of the press.

Prizes were presented October 22 by Columbia President George Rupp and Journalism Dean Tom Goldstein to:

Founded in 1938 (and first awarded in 1939) by the late Godfrey Lowell Cabot of Boston as a memorial to his wife, the Maria Moors Cabot prizes are administered by the Columbia University Graduate School of Journalism.

Each winner receives a Cabot gold medal and a $1,500 honorarium. With this year's awards, 218 prizes and 97 special citations will have been conferred on journalists from more than 30 countries.

The prizes, the oldest international awards in journalism, are awarded by the Trustees of Columbia on the recommendation of the dean of the Journalism School. An advisory committee of journalists and educators concerned with hemisphere affairs assists the dean. Nominations are also sought from news organizations and individuals throughout Latin and North America. Director of the advisory committee is Frank N. Minitas, who has reported from Latin America since 1960 as correspondent for the Associated Press, McGraw Hill News Service, CBS, NBC and ABC.

Minitas, former Latin American Bureau Chief for ABC News, is himself a Cabot Prize medalist.

J. Jesus Blancornelas, 61, of Mexico, has consistently pushed during four decades as a journalist to uncover wrongdoing by corrupt government officials, drug traffickers, and plotters of political homicide. His courage and willingness to face personal risk almost cost him his life last year, when he was gunned down by triggermen of a leading drug car-

Blancornelas was brutally ambushed on November 27, 1997, by a half-dozen gunmen, who sprayed his car with bullets, killing his driver and critically injuring the editor.
tel who were angered by revelations in his articles.

Born in San Luis Potosí, Blancornelas began his career in 1956 as a sports reporter at El Sol de San Luis and then joined El Mexicano in Tijuana, where he became editor of the Center de Baja California edition. In 1964, he went to work for La Voz de la Frontera of Mexicali and four years later was named editor-in-chief.

There his reporting on corruption began to draw fire. He was ousted from his post at La Voz de la Frontera in 1974 and from subsequent jobs as editor of El Imparcial of Hermosillo, Sonora, in 1975 and editor of Nacionales de Tijuana in 1976. He decided he had to create his own publication and helped found, as chief editor, ABC of Tijuana, the first daily in Baja California, to share ownership with its workers. He published a book, BIEBRICHI: Crónica de una infamia, an expose of a young rotege of then-President Luis Echeverría. Within the year, police assault troops entered the ABC offices and threw the editor out. Blancornelas fled to exile in the U.S., where he remained for the next two years.

In 1980, he co-founded ZETA, which initially was printed in the U.S. and distributed in Mexico. When the government withdrew its charges against him in 1982, Blancornelas moved ZETA to Tijuana, but threats continued. The paper’s machines and automobiles were seized by the government, bullets ripped through the front of ZETA offices in 1987, and, in 1988, his partner and co-founder, Hector Felix Miranda, was assassinated.

Blancornelas was brutally ambushed on November 27, 1997, by a half-dozen gunmen, who sprayed his car with bullets, killing his driver and critically injuring the editor. The bullets traversed his liver and lungs, and a fragment lodged in his spinal column near his heart. The attack nearly killed him, but it did not break his spirit; within three months, he again began writing his weekly column in ZETA, often about the grip that drug traffickers have on Tijuana.

Blancornelas has received many honors, including the International Press Freedom Award by the Committee to Protect Journalists, the Freedom to Write Award by the PEN Club of Los Angeles, and the Media Freedom Award by the San Diego Press Club.

He is writing his fourth book on Mexico’s politics, Caso Colosio (The Colosio Case), about the promising political career of Luis Donaldo Colosio Murrieta, who was killed in 1984. Last year, his third book, Una vez nada mas (Once. Not More), also about politics and corruption, was published.

Edmundo Cruz Vilchez, 60, of Peru, has covered military and intelligence issues for more than a decade. His work has discovered and documented corruption in arms purchases, military assassinations of suspected civilian leftists, and executions of intelligence officers within the ranks. He has also covered Peru’s border conflicts.

Graduated in 1960 from the Universidad Nacional Mayor de San Marcos in Lima with a degree in journalism, Cruz was named editor of the Marxist weekly UNIDAD in Lima and also taught journalism at the Escuela Superior Jaime Bausate y Meza and at the University San Martin de Porres.

His career began at the daily La Razón, where he became co-editor in 1986, and the weekly Sí, where he was an investigative reporter from 1989 to 1994. From 1995 he worked at the prestigious daily El Mundo and at El Sol, moving to La República in 1996.

Among his major reports, Cruz uncovered the abortive coup d’etat in 1990 against then-Pres ident Alan García; revealed in 1992 the embezzlement of money for arms purchases by naval officers in the Peruvian embassy in Washington; disclosed in 1993 the sale of military secrets of Peru to Ecuador by alleged American spy Frederick Hamilton; pieced together in 1993 the identity of the secret intelligence unit that executed nine young persons in retaliation for a terrorist act that they had not committed; revealed in 1996 a plan to assassinate a well-known television commentator and constant government critic César Hildebrandt; and documented with photographs in 1997 the army’s tunneling under the Japanese embassy in Lima, which had been captured by terrorists.

Cruz has won the National Journalism Award in Human Rights, given by the National Coordinator of Human Rights in Peru, and the Gold Pencil Award by the Press Club of Lima.

Andrés Oppenheimer has covered Latin America for more than 20 years and is widely known throughout the Americas for his books on Cuba and Mexico. His bi-weekly column, a cutting-edge analysis of the hemisphere’s contemporary affairs, appears in The Miami Herald and in the Spanish publication El Nuevo Herald, which is syndicated to 30 newspapers in Latin America.

Born in Buenos Aires, Oppenheimer studied law at the University of Buenos Aires and left Argentina after the military coup in 1976. He received a fellowship from
William Lawrence Rohter Jr., 48, has been Caribbean and Central American correspondent for The New York Times since 1994 and will become bureau chief early next year in Rio de Janeiro. He has covered Latin America for the past 25 years, serving as Mexico City bureau chief for the Times, Brazil correspondent and Latin America bureau chief for Newsweek, and correspondent for a Brazilian communications company.

Topics of his recent reporting have included the exhumation of mass graves in Guatemala, the continuing problems of United States bases in Panama, the impact of deporting Salvadoran gang members home from American jails, investigations of the Cuban exile community in Miami, and the abortive efforts by exile leaders to overthrow or assassinate Fidel Castro.

Rohter began at the Times as a metropolitan reporter in 1984. Three years later, the paper named him bureau chief in Mexico City. He became a cultural correspondent in the Los Angeles bureau in 1990 before beginning his present post in July 1994.

Before joining the Times, Rohter worked in the New York bureau of Rede Globo, the Brazilian communications conglomerate, from 1971 to 1974, contributing to news and entertainment programs. He moved to The Washington Post in 1974 as cultural reporter and arts critic. In 1977, he went to work for Newsweek in Brazil as correspondent and then bureau chief, later transferring halfway around the world to China to become its Peking bureau chief and Asian regional editor.

Rohter was born in Oak Park, Ill., and studied politics and modern history at the Columbia University School of International and Public Affairs and East Asian Institute.

Andres Oppenheimer has covered Latin America for more than 20 years and is widely known throughout the Americas for his books on Cuba and Mexico.

Andres Oppenheimer has written for The New York Times and columns in 1989 and 1994, Spain's Ortega y Gasset Award in 1993, as well as the print reporting prize from the National Association of Hispanic Journalists in 1997.

Andres Oppenheimer, 1998 Cabot Winner

Andres Oppenheimer has covered Latin America for more than 20 years and is widely known throughout the Americas for his books on Cuba and Mexico.
Modesto A. Maidique, the fourth president of Florida International University (FIU), proudly offers an anecdote from the occasion of FIU’s 25th anniversary. He recalls that Butler Waugh, professor of English and the first university employee hired by founding President Charles Perry in 1969, reminisced at the ceremony about FIU’s early days. Maidique says he was heartened to hear Waugh observe, “FIU is one of the most diverse universities in the United States. It’s no accident. FIU’s diversity was planned from the beginning.”

Maidique cites Waugh’s first-hand personal recollection to illustrate that diversity is not an afterthought at FIU; that inclusiveness came from a blueprint as exacting as those drawn up for the university’s many beautiful buildings. Maidique agrees with Waugh’s assessment, adding, “The diversity of the FIU community, students, faculty, staff, and alumni, is one of the university’s greatest strengths, and we have designated diversity as one of the strategic management philosophies guiding the university’s operations.”

Few locations in the United States have a greater Hispanic presence than do Miami and South Florida. Maidique further reminds us that no institution can match Miami’s Florida International University for reflecting and serving its community. For a phenomenal quarter century of growth and for community service, we welcome Florida International University to the Hispanic Outlook Honor Roll.

President Maidique believes that another key strength of FIU is the close relationship that the school has enjoyed throughout its history with the residents of Greater Miami. “When we opened our doors in 1972,” Maidique remembers, “we were fulfilling a vital community need: Miami was the largest city in the country lacking a public baccalaureate-granting institution. Over the years, we have done all we can to ensure that our programs of teaching, research, and service...
help solve the problems of our diverse urban community. The College of Education's programs with the Miami-Dade County Public Schools, the Southeast Florida Center on Aging, the Small Business Development Center, the Immigration and Ethnicity Institute—these are but a few examples of programs that reach out to enhance the quality of life throughout South Florida.

Florida International University is one of Florida's 10 state universities. This public doctoral-granting institution offers nearly 250 degree programs, conducts basic and applied research, and provides public service. For the past three years, U.S. News and World Report has ranked FIU among the top 100 public national universities in its annual survey of "America's Best Colleges." FIU has also been recognized as one of the nation's top 10 public commuter universities by Money magazine. Perhaps of greater interest to those who must foot the higher education bill, the September 15-98 issue of Kiplinger's Personal Finance Magazine designated FIU among the top 20 "Best Values" in U.S. higher education.

FIU is a member of the National Association of State Universities and Land-Grant Colleges, one of the nation's oldest and most prestigious higher education associations.

Florida International University opened its doors for classes in 1972 with 5,667 students. That's the largest opening-day enrollment in U.S. collegiate history. Today, the school enrolls more than 30,000 students, has 900 full-time faculty, and boasts approximately 80,000 alumni. That makes the institution the largest university in South

Honor Roll Facts in Brief

INSTITUTION:
Florida International University

LOCATION:
University Park
Miami, FL 33199
(305) 348-2000

ESTABLISHED:
1965

ENROLLMENT:
Over 30,000

DEGREE OFFERINGS:
Certificate
Associate's
Bachelor's
Master's
Doctorate

ANNUAL TUITION:
$1,875 (in-state, tuition and fees)

NUMBER OF FACULTY:
1,083

SPECIAL OR NOTABLE DEGREE PROGRAMS:
Accounting
Biology
Chemical Engineering
 Cuban & Cuban American Studies
Logistics
Music Education
Performing Arts

INTERNET (Website) ADDRESS:
http://www.fiu.edu

Florida, with the largest university alumni group in Dade County. That enrollment figure also places the school among the nation's top 25 largest colleges and universities.

Today, more than half of all degrees awarded by universities in Dade County are conferred by FIU.
The school has two campuses—the 344-acre University Park Campus in western Miami-Dade County and the 195-acre North Campus on Biscayne Bay in northeast Miami-Dade County. There are also two educational sites that serve neighboring Broward County. In addition, Florida International offers classes on the Homestead Campus of Miami-Dade Community College and recently established a major research facility, the 40-acre Center for Engineering and Applied Science, near University Park. The school has grown in other ways as well. The university’s 1996-97 operating budget has grown to $286 million. Its 2,500 full-time employees now make the institution Dade County’s 20th largest employer with an estimated economic impact of more than $1 billion on the South Florida economy.

In the Spring of 1997, the Florida Board of Regents approved the establishment of a School of Architecture at FIU. The new school offers a bachelor’s degree in architectural studies and in interior design, a master’s of architecture, and a master’s of landscape architecture. The school enrolls approximately 300 students. FIU’s Future Aerospace Science and Technology Center (FAST) for Space Cryoelectronics is a program created by the College of Engineering to provide career opportunities, particularly for undergraduate minority students, to get involved in the high-tech field of scientific research. The program offers hands-on experience and focuses on low-temperature microwave electronics and advanced materials for space applications. The center is made up of approximately 30 percent Hispanic students, 22 percent women, 20 percent African Americans, and 24 percent representing other nationalities. University-wide, Hispanic students make up 50 percent of the FIU student body. The male percentage grows to 56.7 at the University Park Campus. African Americans account for 45 percent of the student body. Fifty percent of FIU students are female. According to reports of its Office of Institutional Research, FIU awarded 2,716 degrees to minorities (68 percent of the graduating class) for the 1997-98 academic year. Statistics also show that FIU is a leader among U.S. institutions of higher education in the number of Hispanics it graduates. Students can select from 103 bachelor’s, 102 master’s, or 42 doctoral programs in 15 colleges and schools. Ninety percent of the university’s faculty hold doctorates or terminal degrees in their field. The ratio of full-time students to faculty is 18:1.

Research, a major component of the FIU mission, is becoming a more important part of the FIU picture. Sponsored research funding such as grants and contracts from external sources grew nearly fivefold over the last decade, from $6 million in 1985-86 to more than $30 million in 1996-97.

Everything about the school reflects unprecedented growth. A quarter century ago, FIU art students found themselves painting and sculpting inside old airplane hangars that had been hastily converted to classroom space. The hangar doors were kept wide open to take advantage of faintly stirring breezes because there was no air conditioning. Today, FIU is raising funds to build a $10 million art museum that will showcase the works of world-renowned artists, students, and faculty.

Eduardo Hondal, director of the Office of Alumni Affairs, agrees with President Maidique that FIU has come a long way in its first 25 years. Both suggest that the next 25 years should be even more dynamic. Maidique and Hondal predict the establishment of new professional schools, including a law school and a medical school; an increase in sponsored research and recognition as the premier research university in the region; a student body of 45,000 students; and even a Division-I football program.

FIU’s intercollegiate athletic teams compete in the National Collegiate Athletic Association (NCAA) Division I, the nation’s most competitive sports division, and in the Sun Belt Conference. At present, 16 sports programs are offered, including basketball, track and cross country, golf, tennis, soccer, volleyball, softball, and baseball. The university’s primary sports facilities include Golden Panther Arena, a building that seats 4,500, the FIU Community Stadium, and lighted baseball and soccer fields.

Maidique envisions an FIU future as phenomenal as its past. By its 50th year, he predicts, “FIU will climb into the top five or ten of the largest universities in the United States.”

“The math is simple. If we’ve accomplished in 25 years what it has taken other institutions over 200 years... then at the rate FIU is moving now, it’s going to happen sooner [rather] than later.”

He then adds whimsically, “What I wouldn’t give for immortality! If I had FIU for just a hundred years more...”
Ecology Textbook Breaking Publisher’s Records

University of New Mexico Author Molles Talks about His Work

BY CAROLYN GONZALEZ AND ADALYN HIXSON

The publishers tell him too that people find the book “accessible and interesting” and that it’s exceeding all their expectations.

Molles’ e-mail tells him that it’s being adopted as a textbook at the University of Wisconsin, at San Diego State, and at points in between—one of them very close. An associate at the University of New Mexico, Bruce Mulne, is using it for Biology 310: Principles of Ecology.

“It feels good to produce something respectable and accepted by colleagues,” says Molles, who expresses surprise at the book’s success. “Biostatisticians are excited about it. It removes the mystique of the mathematical side of the study—both through the prose and the graphics.”

One outcome of the book’s readability is that Molles has been invited to work on the nature of scientific evidence for the National Center for Ecological Analysis and Synthesis.

Molles, the grandson of Portuguese immigrants, has been on the faculty of the UNM biology department since 1975, and has taught general biology for 14 years.

“My undergraduate work,” he tells *HO,* “was at Humboldt State University in California, my Ph.D. work was at the University of...
Arizona in Tucson, and then I did my graduate research in Guaymas, Mexico, at the University of Monterey's marine lab.

"One of my objectives in writing this book was to write something that anyone could sit down and read, understand, and enjoy. I wanted to communicate clearly to a broad spectrum of people as possible. That is one of the goals that I have in my own teaching, and I've tried to do that in the book."

Molles had worked as an apprentice on the widely used text Biology, by Curtis and Barnes. And he paid attention to the questions students had about other texts.

Each section in his own textbook begins with a quote. Initially, Molles sought quotes from the sciences then that people in the arts and the humanities, as well as students from his classes, also expressed with eloquence his thoughts and sentiments.

Asked about his teaching experience, Molles tells HO he has taught general biology, field ecology, general ecology, oceanography, and more, and that his favorites are general biology, "which deals with the most basic, fundamental aspects of the field," and field ecology, "which is centered on the ecology of the Rio Grande. The course is called Bosque, which means forest in Spanish. It is the local New Mexican name for the riverside forest that grows along the Rio Grande. Everyone calls it the bosque."

"I had spent a lot of time taking students down to Mexico and Jamaica and, some years ago, decided to focus on a local ecosystem, in particular the ecosystem that I spend most of my time working on as a researcher. It really has been a great thing for the students and for my own research."

"I wanted to show the students here at UNM what an amazing and fascinating and complex place was right in their back yard. You don't have to cross to the other side of the world to find really interesting systems."

Molles says his course is open to everyone from the typical undergraduate student to local artists, interested community members, and graduate students. And in my course this semester are two women responsible for managing a whole Rio Grande State Park. They're taking the course just to find out how academic types think about the place. They're the people who issue me my Special Use Permit. And it's really useful to the students to have their management perspective...

"The course attracts more students than any other course in our department. I have to turn students away because we have to limit it to about 20, and I have about 60 or so that try to sign up every semester. It is the kind of course that just grows and helps me and the students grow."

Molles says he has two major objectives for the course: one is to teach the ecology of the particular ecosystem, and the other is to teach students "how to do science—how to formulate hypotheses, design experiments, gather data, manage data, write professional papers, give professional talks." He finds that using a local ecosystem of special significance as a vehicle makes the course seem easy to the students, as well as enjoyable.

"In ecology in particular...women have made major contributions since the earliest times—not only in North American ecology but in other parts of the world as well."

Professor Manuel C. Molles, Jr.
Hispanic Headliners in Kansas

Families and Faculty at Garden City

A Lifetime of Unselfish Commitment

In October, Lydia González, director since 1978 of the LULAC Education Service Center in Garden City, Kansas, traveled to Chicago to receive a Lifetime Achievement Award from the United States Hispanic Leadership Conference.

"This award is presented to individuals whose lifetime of unselfish commitment to serving humanity has improved the quality of life for others," said USHLC president Dr. Juan Andrade.

González, who recently became assistant director of the Talent Search federal grant program at Garden City Community College, has served at the LULAC center based on the college campus, since it opened. LULAC stands for League of United Latin American Citizens.

"Over the years, Lydia has been incredibly involved with educational issues as well as with political issues on a local as well as a national level," said Yvonne Vázquez, Kansas-Missouri director of the LULAC National Education Service Center. Vázquez was one of three people who nominated González for a place in the LULAC National Women's Hall of Fame, an award that she received in March.

Kansas LULAC Director Michael L. Martinez cited González for her service in voter registration and senior housing as well as for other activities.

"The respect and admiration of her fellow Kansas LULAC members is something she has earned through years of hard work in the areas of civil rights and civic involvement," he said.

Garden City Commissioner Ti Cruz cited González for establishing scholarships for students, boosting voter registration, implementing a community Hispanic leadership program, helping through petition efforts to defeat English-Only legislation in Kansas, serving on the National Hispanic Council on Aging, and playing an instrumental role in starting and helping to oversee Garden City's Mira Vista senior housing project.

"Lydia has worked with it..."
LU LAC Education Service Center for 20 years has received numerous awards, and has been a role model for all generations,” Cruz said.

“Working with young people in Southwest Kansas—that’s what has really been the most rewarding,” said González. “This award isn’t just my award. I think it’s a recognition of Garden City and Southwest Kansas. It’s a team effort as we work to expand the opportunity for education to young people, because this is an effort that involves so many individuals.”

The LLAC center has helped Hispanic students stay in school and advance to college, take career-inventory tests, attain financial aid for college, involve themselves in educational field trips, manage fees for ACT testing, and receive individual counseling for education and career decisions. Her new job, based on the GCCC campus, will also be aimed at helping young people stay in school and attain maximum success.

González added that she considers it gratifying to be involved in HALO. She sponsored the HALO chapter at GCCC, which is among the most active student organizations on the Garden City campus. HALO has also benefitted from the honoree’s support at all levels.

Among the high-profile activities involving LLAC and HALO is an annual Hispanic Student Day that draws hundreds of Southwest Kansas high school students to Garden City.

González earned an associate degree from GCCC in 1975, and a bachelor’s in education from St. Mary of the Plains College, Dodge City, in 1980.

She was appointed by the Kansas governor to the White House Conference on Families, was named the Garden City Business and Professional Woman of the Year, earned the Outstanding Service Award of the Kansas Advisory Council for Vocational Education, was listed in a Kansas journal of Hispanic profiles called The King’s Highway, was named the GI Forum Woman of the Year, earned recognition for service to students from the University of Kansas, received a recognition award from the Hispanic Youth Empowerment project of the United States Hispanic Leadership Institute, and was selected as a role model for all generations by earning a 1997 Buena Gente Hispanic Leadership Summit Award.

Mamakita, This Plaque Is For You

During her keynote address at the 28th annual commencement ceremony of Garden City Community College, new graduate Gabriela Amada Vega recalled a memory from her seventh year. Her parents were laborers who struggled to earn a living in the farm fields of Colorado.

“My mother, a delicate woman, worked very hard,” said Vega. “On one occasion I proudly proclaimed...that when I was older, I would work and help them out.”

“She turned to me, gently caressed my cheek, and said something that has followed me throughout life.

“...I had an image of my small, delicate mother as a maid, as a field laborer. I had an image of her working for 10 long years in the beef plant. I realized that it is because of my mom’s hard-working hands that I’ve become the person I am today.”

COMMENCEMENT KEYNOTER GABRIELA AMADA VEGA

“Mi querida hija, my beloved daughter. I don’t care about material possessions. All I want is for you to go to school and become an educated and enlightened lady. A person who works not just with her hands, but with her mind, is more precious than one who works with her hands alone.”

Vega, who was headed for Washburn College with a scholarship, wore the cap and gown that symbolizes the accomplishment that her mother had always hoped she would attain. Draped over her gown was the gold stole signifying membership in Phi Theta Kappa, a selective academic honor society.

Vega also captained the GCCC forensics team, and competed at the national level; earned numerous scholarships; took an active role in the Hispanic American Leadership Organization; served as student government vice president; and balanced her studies with a dispatching job in the communications division of the Garden City Police Department.

“Traveling the unworn path has not been a simple task,” Vega explained. “It has taken additional tutoring, dedication, time, and the devotion of all the people at our college.”

She reminded her listeners that it also took others to create success for each of the graduates in the
crowd—those who had completed college degrees as well as a corps of students who had come to receive GED equivalency high school diplomas.

And she had another recollection to share with the crowd.

"Three weeks ago, I got home from work, told my mom that I had been chosen to speak at graduation, and showed her the plaque I received for being selected." Vega recounted. "She was ecstatic. She told me excitedly that she wanted to put it in the living room so everybody could see how talented her Gabby was."

"I started to tell her that I was taking it when I moved," Vega continued. "but in mid-sentence I had an image of my small, delicate mother as a maid, as a field laborer. I had an image of her working for 10 long years in the beef plant. I realized that it is because of my mom's hard-working hands that I've become the person I am today. It is because of her lifelong struggle to educate and enlighten me that I have achieved my goals. It is because of her devotion and love that I forge ahead in search of new dreams."

"It is true, your options are wider when you can work both mentally and physically," said the determined future attorney, "but it often takes the work of one person's precious body to make us appreciate the value of the mind."

Vega then pulled the award from behind the podium and held it high for all to see.

"Mamacita," she said as she focused on the face of Rose Acosta, her mother, seated deep in the crowd, "this plaque is for you."

Grateful for an Even Start

"Two years ago, I began because a friend invited me, and I'm grateful because I had very poor skills in English," a young father told the Board of Trustees one evening at Garden City Community College as his wife and family stood quietly behind him.

Luis Reyes, who emigrated to the U.S. four years ago from Mexico, had come to the trustee meeting to explain how he had benefited from the Even Start Family Literacy program, which makes parents and family members work together in building their speaking and writing skills.

In the process, Even Start also addresses one of four key objectives the board has established for the college-development of essential skills.

"I came from Mexico and spoke almost no English, and now I think I'm getting better," Reyes said with a grin at his progress. "It has been a lot of help."

Luis Reyes

In the process, Even Start also addresses one of four key objectives the board has established for the college—development of essential skills.

"I came from Mexico and spoke almost no English, and now I think I'm getting better," Reyes said with a grin at his progress. "It has been a lot of help."

"What helps is that they take care of the children, so you don't have to worry about them while you're learning," added Claudia Reyes, who stood near the door of the board room, holding the hands of the couple's two small daughters.

During the meeting, the college trustees also focused on concerns ranging from state-of-the-art learning technologies to cooperative efforts with other community agencies, to campus construction possibilities and a series of contracts. But they reserved the evenings only round of applause for the quiet determination of the Reyes family.

They and 113 other families are participants in a GCCC Adult Learning Center partnership program with USD 457 that uses classrooms at Garden City elementary schools throughout the year.

The mothers, fathers, and children gather several evenings a week, learning separately and together as they tackle a language that's new to parent and child alike, according to Even Start Coordinator Cheryl Sweley.

The program moved to the college campus for the summer, due to seasonal space needs, but returned to USD 457's classrooms in the fall.

Funded by a $100,000 grant, Even Start operates nine programs at seven Finnet County sites, allowing parents to work toward their GED degrees or learn ESL while their sons or daughters participate in early childhood education.
Mora, Colón Receive Tomás Rivera Book Award

Author Pat Mora and illustrator Raúl Colón are to receive the third annual Tomás Rivera Mexican American Children's Book Award, given by Southwest Texas State University (SWT) for Tomás and the Library Lady.

Established in 1995, the award recognizes and honors writers and illustrators of Mexican American children's literature. Books submitted must authentically represent the Mexican American experience of the Southwest.

The award is named for Rivera, a Mexican American author and educator and the first minority chancellor in the University of California system. He earned a bachelor's degree and a master's from SWT.

Mora has published 11 children's books in English and Spanish, as well as five collections of poetry and two volumes of nonfiction.

She has been a recipient and judge of poetry fellowships from the National Endowment for the Arts and recipient of and advisor on the Kellogg National Leadership Fellowships, and has received four Southwest Book Awards and many children's book awards.

Excellence Awards to Álvarez and Vázquez

Josefina Álvarez, professor of mathematical sciences, and Luis A. Vázquez, assistant professor of counseling and educational psychology, received awards of excellence at New Mexico State University (NMSU).

Álvarez, recognized nationally for her achievements in teaching mathematics appreciation to non-science majors, received a $3,000 El Paso Energy Foundation Faculty Achievement Award, which recognizes faculty members for extraordinary efforts to assure that students receive a high-quality education.

Vázquez, described by students as an inspirational mentor, received a $500 Patricia Christmore Faculty Teaching Award, named for a former faculty member and given to junior tenure-track faculty members for excellence in teaching.

Pizarro Researches Unsuccessful Chicana/o Students

Research shows that failure in school is common for Chicana/o students. Marcos Pizarro, Washington State University (WSU) Comparative American Cultures faculty member, has been trying to find out why and hopes to develop an intervention program that can be used in Chicana/o communities throughout the western U.S.

“Despite decades of investigation into their school failure, as many as half of the Chicana/o students in a given class drop out of school....Addressing this failure has become a matter of urgency,” said Pizarro.

Pizarro has been conducting, at UC-Berkeley, a comparative analysis of data he collected over the past three years.

His mentor at Berkeley is Eugene García, nationally known and honored linguistic and cultural diversity expert and dean of the UC-Berkeley Graduate School of Education.

Pizarro has received a $25,000 Ford Foundation Postdoctoral Fellowship for Minorities.

Eva Maya Art Exhibit at USIU

"El Verde de Mexico," an exhibit of Mexican landscapes painted by Latina artist Eva Maya, was shown recently at United States International University (Calif.). The exhibit featured 41 vivid, colorful works created since 1994 by the self-taught native of Jalisco, Mexico.

Born Eva Cisneros de la Torre, Maya has lived and worked in Los Angeles since 1971. She has exhibited since 1993 in California, Utah, Washington, Oregon, Texas, and Florida.

Serna Named to Legislation and Finance Committee

San Joaquin Delta College (Calif.) trustee Maria Elena Serna has been named to the 1998-99 Advisory Committee on Legislation and Finance of the California College League of California.

The committee works on the development of advocacy strategies as well, and members provide position recommendations.

In November 1990, she became the first Hispanic woman elected to the board of trustees, and has since served as board president, vice president, and clerk, and chair of its Committee on Relations with Minority Communities. Serna is president of the California Association of Community College
Trustees and a member of the National Latino Trustees Association.

A professional educator since 1973, she earned a bachelor's degree and a teaching credential from the University of the Pacific. At CSU-Sacramento, she earned a bilingual, cross-cultural specialist credential.

San Juan Chairs Cultural Program

An internationally recognized scholar in ethnic and cultural studies, Epifanio San Juan, Jr., has assumed the chairmanship of the Department of Comparative American Cultures (CAC) at Washington State University (WSU).

Working with campus groups, including the Chicano, Asian American, Native American, and African American centers, and expanding and integrating CAC activities with the Women Studies and American Studies programs are among San Juan's primary goals.

San Juan comes to WSU from Bowling Green State University (Ohio), where he was professor of ethnic studies for five years. For 25 years, he taught English and Comparative Literature at the University of Connecticut, with brief appointments at Brooklyn College (N.Y.), the University of Trento, Italy, and the University of the Philippines as a Fulbright lecturer.

He earned his bachelor's degree from the University of the Philippines and his master's and doctorate from Harvard University.

Meléndez Director of Research Center

Dr. Edwin Meléndez has been appointed director of the Milano Graduate School's Community Development Research Center (CDRC) in New York. He will also become a professor in the school's Urban Policy Analysis and Management Program.

The CDRC, established in 1986, develops awareness of and interdisciplinary research in strategies to revitalize poor urban communities. Meléndez, a leader in community development research, was founding director of the Mauricio Gaston Institute for Latino Community Development and Public Policy at the University of Massachusetts in Boston, and has been active in community projects in the Boston area.

He is author and editor of many books, including Borderless Borders: U.S. Latinos, Latin Americans, and The Paradox of Interdependence (co-editors, Frank Bonilla, Rebeca Morales, and Marfa de los Angeles Porres), and Economic Effects of the Political Options for Puerto Rico (co-editor Angel Ruiz). His most recent research projects addressed Latino leadership opportunity programs and assessment of the HACI demonstration project.

His undergraduate work was done at the University of Puerto Rico; he earned a master's degree at UC-Santa Cruz, and a doctorate at UMass at Amherst.

Stevens-Arroyo to Survey Latino Religion

A national survey of Latino parishes and congregations, conducted by Brooklyn College (N.Y.) Professor Anthony Stevens-Arroyo, Department of Puerto Rican and Latino Studies, will examine the role of religion in Latino society and culture.

The study, funded by a $570,000 grant from the Lilly Endowment and matching grants from the Ford Foundation and the Pew Charitable Trusts, $1.4 million in total, is the first of its kind to survey Latino religion nationally, he says.

The five-year, cross-denominational study will survey pastors, lay leaders, and individuals in its search to determine what motivates religious people to participate in community activities, how effective churches are in reaching new immigrants, and which denominations most successfully promote social responsibility among their members. The results will provide information about the efficacy of religious institutions in dealing with social problems.

Saavedra to Direct Honors Studies

Dr. Dora Saavedra, assistant professor of communication, has been named director of the Honors Studies Program at The University of Texas-Pan American.

The program offers special honors classes at the first-year level and independent study at the upper level, and events such as guest speakers, development seminars, and educational travel as basic curriculum.

Saavedra expects to work the first semester gathering information on honors programs throughout the country and meeting with people on campus to learn of their hopes for the program.

She earned a doctorate from the University of Kansas and master's and bachelor's degrees from UT-Pan American, where she has taught for five years.

Lugo Receives Instituto de Puerto Rico Education Award

LaGuardia Community College (N.Y.) Dean of Student Affairs and Enrollment Management Dr. Ruth E. Lugo, along with 11 others, recently received The Instituto de Puerto Rico's Education Award, cited for leadership in American higher education in college and university administration.

Instituto de Puerto Rico is a 52-year-old organization whose purpose is to honor Puerto Rican achievers. It also awards scholarships.

Maria M. Rodriguez, Instituto de Puerto Rico's president, said her organization cites distinguished Puerto Ricans in education, the arts, dance, and science each year.

Lugo, graduate of the University of Puerto Rico, earned a master's degree from Middlebury College and a Ph.D. from SUNY at Stony Brook. She is also a graduate of Harvard University's Institute of Educational Management and the John F. Kennedy School of Government Executive Program of Public Management. She has been a National Hispanic Leadership Institute fellow.

Other 1998 Instituto de Puerto Rico award
winners include, Lucy Boscana, actress; Dr. Frank Estrada, science; Gloria Piza de Riebesol, poetry; Dr. Annette Espada, cello; Magda Nieves, opera; Madelyn Vega, television; José Morales, painting; Jay Emmanuel, popular music; Peter Bloch, brotherhood; and Jon Seda, actor.

Valerio and Samora Newsmakers at USC

Dr. Luis Valerio (pictured here), professor of teaching education at the University of Southern Colorado (USC), has been named interim director of the Center for Teaching, Learning and Research.

Valerio was cited for his work in teacher certification and his knowledge of a standards-based curriculum. His areas of expertise and research include Native American and bilingual education, distance learning and program development.

Valerio joined USC in 1975 as an associate professor of teacher education. He earned his bachelor's degree from USC, master's from New Mexico Highlands University, and Ph.D. from the University of Northern Colorado.

USC Children’s World Learning Center educational coordinator Rita Samora has been recognized nationally for the third time, as an Honor Teacher.

The Honor Teacher program recognizes teachers who demonstrate exceptional teaching skills and a thorough understanding of practices that are developmentally appropriate.

Samora, who has been with Children’s World for 11 years, has held positions as substitute teacher, assistant teacher, and educational coordinator.

She received her Child Development certificate from the National Association for the Education of Young Children.

GCC’s Ugalde Travels Abroad

What is it like to meet Fidel Castro? Asks Carlos Ugalde, associate professor of Latin American Studies at Glendale Community College (Calif.), back from an enlightening sabbatical.

Ugalde’s travels took him to Mexico, Brazil, Bolivia, Cuba, and Andalucia, Spain. He set out with the purpose of documenting the political, social, and economic conditions of these countries and to photograph a series of historical events.

His photographs have been exhibited in the U.S. and abroad. During seven months of travel, he captured images of the arrival of more than 1,000 delegates of the Mexican Zapatista Liberation movement into Mexico City; the 30th-year commemoration funeral services for the Guevara, and the arrival of the Pope in Cuba. He also interviewed survivors of the massacre in Chiapas, Mexico.

A week after the Pope’s visit, he had a photography exhibit at the International Book Fair in Havana, Cuba. That is where he met Castro.

Cuarto Centenario Celebration at UNM

Matachines, dancers, scholars debated, effigies burned, and 24 Chimayo actors atop horses recreated a battle between the Christians and Moors at the University of New Mexico’s (UNM’s) Centenario festival.

“Moros Y Cristianos, Comanches and Matachines: Four Centuries of Indo-Hispanic Folk Celebrations in New Mexico” emphasized the rich culture that has blossomed in New Mexico since the arrival of the Spanish colonists. While other commemorations throughout the state have honored the Spanish triumphs of 1598, the UNM festival centered on how the people learned to live together and how their cultures evolved.

A delegation from Valencia, Spain, joined UNM’s festival, staging a bonfire celebration and contributing exhibits, food, and entertainment.

There was also an exhibit of works by well-known photographer and UNM Associate Professor Miguel Gandert.

UNM’s goal was to promote a deeper understanding of the cultural achievements of the Native and Spanish Mexican people of New Mexico by presenting and discussing their legacy of folk drama and ritual, according to Enrique Lamadrid (pictured here). UNM professor of Spanish and coordinator of the celebration.

Symposium on Latino Healthcare

La Salud Hispana Inc. recently sponsored the Second Annual Regional Educational Symposium on the “Healthcare Needs of Latinos” in Fort Lee, N.J.

The focus was on disease prevention and other factors that contribute to the health status of Latinos. Crosscutting issues such as the ability to pay for care and culturally competent care delivery were addressed as well.

The keynote speaker was Dr. Emilio Carrillo, Harvard University graduate and expert in the development and delivery of primary care medicine, health promotion, and disease prevention.

Emcee at the symposium was Sandra Guzman (pictured here), editor-in-chief of Latina magazine. She was formerly a segment producer at Good Day New York, one of New York’s top-rated morning television programs; assignment manager and public affairs producer at WNYJ; Telemedio’s New York affiliate, where she won an EMMY award from the New York Chapter of the National Academy of Television Arts and Sciences; and reporter at El Diario/La Prensa, New York’s oldest and most widely circulated Spanish-language newspaper.

She received a bachelor’s degree from Rutgers University.

RHC Extended Opportunity Program

In California, Rio Hondo College’s (RHC) Extended Opportunity Program and Services (EOPS) offers local high school students a chance to prepare for educational success through the college’s Summer Readiness
for Graduate Study in Management's Fellowships for Talented Minorities. For more
than 30 years, this unique initiative has been playing a key role in the diversity effort by
helping minority students attain MBAs and enter American business.

The Consortium is a national nonprofit
group of 11 graduate business schools dedicated
to providing management education opportunities to Hispanic Americans, Native
Americans, and African Americans seeking business careers. With support from
American corporations and foundations, the
Consortium provides merit-based, full-tuition
scholarships to enable its Fellows to enroll in
MBA programs at its member universities.

Founded in 1966, the consortium has pro-
duced approximately 3,000 alumni to date.
The organization typically awards scholar-
ships to more than 350 first- and second-year
Fellows each year, providing approximately $5
million in scholarship aid. Though not
required to work for sponsoring companies,
approximately 95 percent of consortium fel-
ows do at some point in their careers.
Approximately 85 percent of all consortium
alumni are employed by former or current
sponsors.

**UTEPE Hosts ESPAL Research Teams**

Several industrial partners—including Levi
Straits, Johnson and Johnson, Delphi Steering
Systems of General Motors, Jazmom
Technologies, NASA, Boeing, and the
National Science Foundation—donated
dollars and equipment to the University of
Texas at El Paso (UTEPE) for the set-up
of research labs, which were used this past
summer by local middle school students along
with engineering undergraduates. Most of the
research involved looking for ways to improve
safety and productivity in the workplace.

The students' goal was to study the
ergonomic soundness of various pieces of
factory equipment so they could answer the
question: “How can we make this machine
safer and the whole process easier, simpler
and, plumb, better?”

The projects were set up in a pyramid
supervisors' structure: middle school students
were supervised by undergraduates and led
by a project leader who was a junior or senior
engineering student.

Rolando Quintana (pictured here), the
assistant professor of mechanical and indu-
trial engineering and director of ESPAL,
pointed out the uniqueness of this research
opportunity being given to undergraduates at
UTEPE, saying that at other universities, this
type of research is usually offered only to
graduate students.

Among the undergraduates involved were
Javier Martínez and Verónica Martínez.

**1990’s Cuban Art Exhibit at Chicago Art Institute**

“1990’s Art from Cuba: A National
Residency and Exhibition Program” recently
ended its run at the School of the Art Institute
of Chicago.

The effect of Cubas political system on its
people as well as the current political tension
between Cuba and the U.S. was explored in

**Quaker Oats Sponsoring Minority MBA Fellowship Organization**

The Quaker Oats Company has

...
stimulate an exchange of ideas among artists, arts communities, and the general public about political and economic tensions between Cuba and the U.S.

**Texas Tech Football in Spanish**

The partnership between Ramar Hispanic Media, owned by Ramar Communications, and Texas Tech University to broadcast Tech football games in Spanish on the radio was announced at a recent press conference.

Texas Tech made history last year with the appointment of a chancellor-level position to head the university's cultural diversity initiatives.

Cathy Allen, vice chancellor for cultural diversity, said that Texas Tech is committed to diversity and welcomes the opportunity to embrace its Spanish-speaking football fans.

Texas Tech Red Raider Head Football Coach William ‘Spike’ Dykes and Tech's athletic director, Gerald Myers, expressed their excitement at the conference. Dykes added, "No matter the language, no one wants to listen to a game if you are losing, so we hope to have a great season."

**ASU Hosting “Contemporary Art from Cuba” Exhibit**

At Arizona State University, "Contemporary Art from Cuba: Irony and Survival on the Utopian Island," a groundbreaking exhibition of contemporary Cuban art, which began Sept. 27 and runs through Dec. 11, is providing a window, otherwise closed, through which Americans can view that society.

The exhibit is one of the first major shows in the United States dedicated entirely to the work of the current generation of Cuban artists, and approximately 20 artists working on the island today are represented.

Curator Marilyn Zeitlin says of the exhibit, "This is a Golden Age of Art in Cuba. Cubas isolation has produced an artistic output that is fresh and independent. Nothing seems dated or self-indulgent, but rather full of vitality and relevant to the core issues of living."

The artists exploit metaphor to circumvent the cen-sor and comment on shortages, surveillance, incipient racism, Miami, and the tragedy of the "bajeros" (boat people) who left on makeshift rafts.

**International Banking Program at UM**

Banking executives from throughout Latin America gathered in Miami, Fla., in September for INTERBAN XVII, a six-day program on international banking issues hosted by the University of Miami (UM) School of Business Administration. The program was held entirely in Spanish.

INTERBAN XVII was a joint effort of the UM School of Business, the Florida International Bankers Association, the Federation of Latin Banks, and several local banks. The certificate program was taught by industry professionals and business faculty from several universities, including U.M. University of the Andes, and American Graduate School of International Management-Thunderbird Campus. Sessions focused on international banking, the Eurodollar, analysis of credit risks, and using international capital markets for Latin American financing.

Yessenia Sevilla, assistant director of the James W. McLamore Executive Education Center at the UM School of Business, said the program offered banking executives a "leg up on what is happening all over the world."

**St. Mary’s Helps Minorities Succeed in Sciences**

St. Mary's University (Texas) School of Science, Engineering and Technology will receive up to $1.7 million over the next five years from the National Institute of General Medical Sciences to help train outstanding minority students for careers in biomedical research.

The Minority Access to Research Careers (MARC) grant was renewed for a third five-year period and will provide tuition and stipends for junior and senior minority students entering this special two-year program. To date, St. Mary's has received more than $3 million from the institute since it started MARC in 1983.

"As a result of this program, students will be qualified to pursue doctoral studies in chemistry, biochemistry, molecular biology, physiology, microbiology, and other biomedical sciences," said Miguel Cimadevilla (pictured here). Ph.D., professor of biology and MARC program director.

According to Cimadevilla, the Association of American Medical Colleges has ranked St. Mary's in the top 10 nationally for more than a decade for the number of Mexican American students accepted into medical schools.

**Loyola University Chicago Celebrates Latino Heritage Month**

Loyola University Chicago’s (Ill.) Latin American Student Organization (LASO) recently held events to celebrate Latino Heritage Month.

Mónica Ramírez, LASO president, said the events would help students reflect on the contributions that Latin Americans have made to society and on the impact of Latino culture.

Among the events—National Public Radio's Ray Suárez gave a motivational lecture about Latin Americans in the field of communications; U.S. Rep. Luis Gutierrez presented "The Politics of Immigration," a lecture on the Latino Vote 2000 Voter Registration Project and changes in immigration law; attorney Rosa Abreu led a panel discussion, "The Politics of Affirmative Action"; a presentation, "The Evolution of Latino Politics in Chicago," was given, featuring city councilmen Juan Andrade (D) and Vincent Rangel (R); and educators Armando Almendarez and Norma López Reyna led a panel discussion, "Bilingual Education."
UTEP Students Attend Ataskan Research Program

UTEP

The University of Texas at El Paso's (UTEP's) Pan-American Center for Earth and Environmental Studies sent seven students to attend a research program in Fairbanks, Alaska—about 150 miles south of the Arctic Circle—this summer. The junior and senior engineering and geology students, most of them Hispanic, went to build and launch a sub-orbital rocket to collect atmospheric data.

They were to use the data they collected to help track the "greenhouse effect" caused by burning fossil fuels. The geology students also gathered and studied rock samples to help characterize and date land formations.

All collected more than atmospheric data. They came back with priceless memories, including encounters with moose and a bear with her cubs, and a new sense of camaraderie.

Benjamín Valencia, junior electrical engineering student, said that the group grew close and that he grew as a human being while studying and hiking among the wildlife.

Alfonso Muñoz, senior geology student, enjoyed the long daylight hours of the Ataskan summer, and another student relished seeing the Aurora Borealis (Northern Lights) while on the plane going home.

Irene Guajardo, Ivonne Trujano, and Richard Zamudio were among the other students who attended."

NMHU President's Lecture Series '98

New Mexico Highlands University is conducting President's Lecture Series '98 throughout the 1998-99 school year.

The Sept. 28 offering was "A Visit with Rudolfo Anaya," (picted here), author of Bless Me Ultima and many other works.

On Oct. 10, Gregorio Luke, former consul for Cultural Affairs, Mexican Consulate, Los Angeles, Calif., spoke about "Sor Juana Inés de la Cruz: First Feminist of the Americas."

Both presentations were free and open to the public.

"Diez y Seis de Septiembre" at UNM

A public program celebrating Mexico's independence from Spain, "El Día de la Independencia: 16 de Septiembre," recently took place at the University of New Mexico (UNM).

Sponsoring UNM organizations were the Chicana/o Studies Program, Southwest Hispanic Research Institute, El Centro de La Raza, and the College Enrichment Program.

The program began with the raising of the Mexican flag. Speakers were David Luján and Verónica Méndez-Cruz.

"El Lounche," consisting of green chile stew, was served in the afternoon at El Centro de La Raza. The event featured music and poetry and guest speakers Dr. Charles Trujillo and Jeanne Guana.

"Bienvenidos," an open house at UNM Chicana/o Studies, featured music by Mariachi Lobo and an opportunity to meet the faculty of the Chicana/o Studies Program.

Hispanic MBA Conference in Dallas

More than 2,000 people, among them representatives of the nation's top corporations, attended the National Society of Hispanic MBAs (NSHMBAs) 9th Annual Conference & Career Expo in Dallas, Texas last month.

The conference featured keynote speakers: A. C. de Souza, executive vice president of ChicoBear and Cibank; and José Cofio, vice president, The DisneyLand Center, for the Disneyland Resort.

For recognition of outstanding commitment to the goals and mission of NSHMBAs and service to the Hispanic community, The Boys & Girls Clubs of America, a not-for-profit agency, won a Brailante Award. Chris Hauheger, president of Latina Publications, L.L.C., won the individual award; The Anderson School at UCLA received the educational institution award; and Maggie Peña, a founding member of the society, won in the member category.

Continuing Professional Education hours were available to professionals who attended the conference.

NSHMBAs Board Chairman Ramiro J. Arristain-Carrion (picted here) said that they wanted all attendees to gain valuable knowledge and insight from the conference.

Texas A&M-Kingsville Honors Hispanic Heritage

Texas A&M-Kingsville celebrated Hispanic Heritage Month recently with several activities.

Art and/or photography were exhibited at The Rosario Cabrera Art Exhibit, with a lecture on Cabrera's artwork by Dr. Juan Casillas and Lic. Blanca Garudio; "The Peruvians" photography exhibit; and the "Día De Los Muertos" exhibit, featuring the work of Irma de Bijou.

A speaker series included Sylvia Rodriguez, Chicano anthropologist from the University of New Mexico, who spoke on "Sociocultural Identity and Place of the Upper Rio Grande Valley"; Sylvia Orozco, founder of the Metic Arte Art GALLERY in Austin; and Dr. Felipe Chavez-Ramirez (picted here), assistant professor, Caesar Kleberg Wildlife Research Institute at Texas A&M-Kingsville, who spoke on the eagle in Mexican culture and mythology.

The Spanish Language Film Festival showed "Mecanica Celeste," a Venezuelan film by Fina Flores; "Details of Duel," a Columbian film by Sergio Cabrera; and "The Uprising," a Nicaraguan film by Peter Lilienthal and Antonio Skarmeta. Other events included performance artist Guadalupe Garcia-Vasquez's interpretation of "Coatlicue's Call," a performance by the Texas A&M-Kingsville Ballet Folklorico and Mariachi Javelina; a dance featuring "Los Chamanos"; and a multimedia lecture entitled, "The Inkas and Modern Kechwa Peoples: Surviving the Continuing Conquest of the Andes."

The following books are available from Necrecon Press.

Don Quijote

Here at last, says the publicist, is the Don Quijote that Cervantes wrote—not some neo-Freudian effort to reinterpret Quijote or a cartoonized version that pretends this is a children's tale, but a true and faithful interpretation of one of the bulwarks of world literature and a grandly conceived and beautifully executed visual epic solidly rooted in Cervantes' own words. (5 hrs. 10 min.)
Item # FFH 4035

Gabriel García Márquez: Magical Realism

This major film delves into the world of One Hundred Years of Solitude and The Autumn of the Patriarch—the world of García Márquez—where historical riots and levitating grandmothers appear to be equally real (or unreal). Shot on the Colombian coast in Aracataca (Macondo), the Banana Zone, Ciénaga, and Barranquilla, and incorporating rare archival footage, the film features the author himself and
the people of whom he writes. (60 min., color)
Item # FHJ 16E

Ernesto Cardenal: Cántico Cósmico

This program uses computer imagery and on-screen Spanish text to explore Ernesto Cardenal’s mystical masterwork of political cosmology. Rare interviews with the Nicaraguan poet are interwoven with excerpts from the legendary poem, “Cántico Cósmico.” (Spanish, 30 min., color)
Item # FHJ 680

Octavio Paz: An Uncommon Poet

Octavio Paz, dean of Latin American writers and intellectuals, reveals his thoughts on poets, poetry, and language; discusses his career as a political observer and activist; and draws sharp distinctions between politics and poetry (and between politicians and poets). (20 min., color)
Item # FHJ 14

Christians, Jews, and Moslems in Medieval Spain

This program describes the history of Spain from 711, through the nearly 800-year-long war that ended in the expulsion of both Moors and Jews in 1492: the development of a culture whose people spoke various Spanish dialects while the official language was Arabic; the role of the school of Toledo in preserving, translating, and making known the ancient Greek scientific texts as well as Arabic treatises on philosophy and science; the rambunctious center in Toledo, and the history of the Jews in Spain. (52 min., color)
Item # FHJ 1958

Segovia: Mirror of Spanish History

Built as a fortress by the Romans, watered by their great aqueduct, Segovia came into its own in the Middle Ages. This program documents the city’s history through its homes, its churches, the rooms where Alfonso el Sabio wrote his astronomical treatise and ordinary fullers plied their trade. (35 min., color)
Item # FHJ 248

El Greco

This program looks at the art, life, and times of this famous 16th-century painter. The social, religious, and political environment in which he developed helps us understand and appreciate his works. Graphics and diagrams illuminate El Greco’s unique style—elongated figures reminiscent of Byzantine art. (20 min., color)
Item # FHJ 6805 (Spanish)
Item # FHJ 6806 (English)

Goya: His Life and Art

An introduction, not only to Goya’s work, but to the critical period in Spanish history which he recorded. In a period largely bereft of major literary masterpieces, it is to Goya that we look to find out what Spain was like in the period spanning the decline of neo-classicism, the devastation of the Napoleonic Wars, and the rise of Romanticism and Impressionism. (44 min., color)
Item # FHJ 166

Velázquez

A portrait of the extraordinary painter who chronicled the life and times of his friend King Philip the Fourth, who built the core of the Prado collection (which today houses almost all of his work)—and who, with El Greco, Goya, and Picasso, comprises the quartet of the greatest painters of Spain. (50 min., color)
Item # FHJ 2215

The Spanish Civil War

This program covers the Spanish Civil War from beginning to end, including: the roots of the war, the battles, the human cost, the intervention of the totalitarian powers, the nonintervention of the democracies, the withdrawal of Soviet support, and the entrance of Nationalist forces in Madrid. (25 min., b&w)
Item # FHJ 259

Annual conference of AAHE, the American Association for Higher Education. In Washington, D.C.

“The Academic Calling: Changing Commitments and Complexities”

January 21-24, 1999
Hosted by the American Association for Higher Education (AAHE), the conference will take place at the Sheraton San Diego Hotel and Marina.

National Association For Bilingual Education

January 26-30, 1999
The National Association for Bilingual Education (NABE) is scheduled to have a four-day conference in Denver, CO.
NATIONAL RESEARCH COUNCIL
Postdoctoral and Senior Research Awards

Opportunities for research in:
- Life and Medical Sciences
- Space and Planetary Sciences
- Earth and Atmospheric Sciences
- Engineering, Mathematics & Applied Sciences
- Chemistry; Physical Sciences

Also teaching/research opportunities at the US Military Academy in Mathematics, Physics & Mechanical Engineering

- 350 awards for Independent research at over 120 laboratories representing nearly all US Government agencies with research facilities
- 12-month awards renewable for up to 3 years maximum
- Annual stipend for recent PhD or MD graduates $30,000 to $50,000 depending upon sponsoring laboratory; stipend appropriately higher for senior researchers
- Support for relocation and professional travel; health insurance program offered
- 3 annual award competitions for most participating laboratories

Applications are accepted on a continuous basis throughout the year. Postmark deadlines are January 15, April 15 and October 15 for reviews in February, June and October respectively.

For application materials and further information contact:

THE UNIVERSITY OF IOWA
COLLEGE OF LIBERAL ARTS
Iowa City, Iowa

CHAIR

AFRICAN-AMERICAN WORLD STUDIES PROGRAM

The University of Iowa African-American World Studies Program seeks a distinguished senior scholar as Chair, at associate or full professor rank with tenure, beginning 1999-2000. Preferred research emphasis is African Americans in the U.S.

Screening begins December 1, 1998.

Further information is available at the College's web site, www.uiowa.edu/~libarts

The University is an Affirmative Action/Equal Opportunity Employer. Women and minorities are encouraged to apply.
Tenure Track Faculty Positions
Starting Date: August 30, 1999

West Chester University of Pennsylvania, a member of the Pennsylvania State System of Higher Education, is continuing to build a culturally diverse, broadly trained faculty capable of fostering an inclusive environment which we feel is necessary to help prepare our students for the 21st Century. To achieve this goal, we aggressively seek to recruit minority faculty members who will be given serious consideration for filling 31 tenure track positions. West Chester, located 25 miles west of Philadelphia, is convenient to major cultural & commercial institutions, recreational activities, and is within driving distance of Wilmington, DE, NYC, and Washington, DC. The University is an equal opportunity, affirmative action employer encouraging diversity.

Unless indicated in the job description, a terminal degree in the field or related field is required. For all positions, excellence in teaching and the potential to develop an active program of research or scholarly activity in the discipline are essential. Effective communication and teaching must be demonstrated by presenting a seminar or lecture during an on-campus interview. Successful candidates will also have the opportunity to participate in teaching and research within interdisciplinary programs.

Rank and salary are commensurate with experience. For further information, including complete job descriptions, visit our Web Page at: http://www.wcupa.edu/vacancies/ or call Human Resource Services (610) 436-2800.

Departments With Positions Available:

- Art
- Biology
- Chemistry
- Communication Studies
- Communicative Disorders
- Computer Science
- Counseling and Educational Psychology
- Criminal Justice
- Early Childhood and Special Education
- English
- Foreign Languages
- Geology/Astronomy
- Instrumental Music
- Keyboard Music
- Kinesiology
- Management
- Marketing
- Mathematics
- Music Education
- Nursing
- Philosophy
- Physics
- Professional & Secondary Education
- Psychology
- Social Work

THE GRADUATE SCHOOL AND UNIVERSITY CENTER
THE CITY UNIVERSITY OF NEW YORK

MAGNET/HUMANA FOUNDATION DOCTORAL FELLOWSHIPS
For African American and Hispanic Students

To encourage African American and Hispanic students to pursue academic careers, the Humana Foundation provides support for fellowships under the Minority Access/Graduate Networking (MAGNET) Program at the Graduate School and University Center of the City University of New York.

Four-year fellowships are offered to entering students in any of the 32 doctoral programs of CUNY. Awards are contingent upon acceptance into a program and satisfactory progress. Applicants must be U.S. citizens or permanent residents. Stipends are $16,000 per year plus full tuition. Fellows meet monthly for academic discussions, mentorship, and peer support. Application deadline: February 1, 1999. For application contact:

Office of Educational Opportunity & Diversity Programs, CUNY Graduate School, 33 West 42 Street, Box 150, New York, NY 10036; 212-642-2848; e-mail: OEOPD@email.gc.cuny.edu; HTTP://web.gsc.cuny.edu/oeopd

R·I·T

Dean of the College of Imaging Arts and Sciences

RIT is a private, technologically university comprised of seven colleges with an enrollment of 13,500 students, a balanced budget, and an endowment of $400 million. RIT's degree program emphasis is on career education, and students typically participate in cooperative work experience as part of their studies.

The Dean of the College of Imaging Arts and Sciences is the chief academic, fiscal, and administrative officer of that college and reports to the Provost/Vice President for Academic Affairs. The dean oversees a college of internationally renowned programs in art, design, crafts, photography, and printing which lead to B.F.A, M.F.A., and M.S. degrees. The college has 2,300 students, 13 faculty and staff, and five endowed chairs.

RESPONSIBILITIES OF THE DEAN:

- Expresses the vision of the college in a way that inspires faculty, staff, and students.
- Fosters an exciting, challenging learning environment.
- Represents the college within and beyond RIT, generating financial and broader support for the college.
- Promotes the college's commitment to cultural diversity, pluralism, and individual differences.
- Maintains a presence, both nationally and internationally, in new and developing technologies and advances the relationships of technology and the arts.
- In consultation with the faculty, develops short-term and long-range plans to fulfill the college's vision and achieve the mission statement.
- Maintains excellence in teaching, scholarly activities, and service.
- Supports and promotes enrollment management activities.
- Supports curriculum development and academic programs.
- Helps formulate university-wide academic policy as a member of the Academic Council.

PROFESSIONAL QUALIFICATIONS:

- Doctorate or other appropriate terminal degree in a discipline relevant to the college and experience relevant to the college.
- Sustained record of professional accomplishments appropriate to an appointment as a tenured faculty member.
- Proven effective leadership, including administrative work with faculty, staff, other administrators, and the broader community.
- A record of national diversity.
- Experience in securing funding and resources for academic programs.

PERSONAL QUALIFICATIONS:

- Citizenship leadership.
- Exceptional organizational skills with an ability to stimulate dialogue between faculty, administration, staff, and students and be responsive to and respect diverse points of view inherent in a multicultural college.
- Ability to manage and guide a changing organizational environment in a collaborative, participatory style.
- Proven record of encouraging and supporting excellence in teaching, scholarship, creative activities, and professional service.
- Ability to communicate and collaborate effectively with other colleges and external constituencies to advance the strategic objectives of the college and the Institute.

Review of applications will begin November 15th and continue until the position is filled. Nominations and applications (resumes should be sent to)

Search Committee for the Dean of the College of Imaging Arts and Sciences
Office of the Provost, George Eastman Building
Rochester Institute of Technology
6 Lamb Memorial Drive
Rochester, NY 14623-5004

Minority and women candidates are encouraged to apply.
ANTICIPATED TENURE-TRACK FACULTY POSITIONS

FALL 1999

BIOLOGY: Assistant Professor. Genetics with research interest in molecular genetics. Degree Requirements: Ph.D.; postdoctoral experience desired. Application Procedures: Submit curriculum vita, copies of up to five publications, statements of teaching and research philosophies, copies of transcripts and a list of three references including telephone numbers to Dr. Francis Rose, Chair, Department of Biology, SWT, San Marcos, TX 78666. Review of applications begins: December 1, 1998.

BIOLOGY: Assistant Professor of Science Education. Earth Science specialization. Degree Requirements: Ph.D. in Science Education. 18 graduate hours or a master's degree in one of the natural sciences, three or more years teaching experience in K-12 public schools. Application Procedures: Submit letter of application summarizing qualifications, research and teaching philosophies, and a packet containing current curriculum vita, up to five reprints, unofficial transcripts and a list of three references including telephone numbers to Dr. Francis Rose, Chair, Department of Biology, SWT, San Marcos, TX 78666. Review of applications begins: December 1, 1998.

BIOLOGY: Assistant Professor. Molecular Systematist who uses DNA/RNA technology to investigate phylogeny and evolution. Degree Requirements: Ph.D. required; postdoctoral experience desired. Application Procedures: Submit curriculum vita, copies of up to five publications, statements of teaching and research philosophies, copies of transcripts and a list of three references including telephone numbers to Dr. Francis Rose, Chair, Department of Biology, SWT, San Marcos, TX 78666. Review of applications begins: December 1, 1998.

COMPUTER SCIENCE: Assistant Professor (3 positions). Degree Requirements: Must have an earned doctorate in computer science, computer engineering, or closely related field; and potential for excellence in teaching, research and service. Application Procedures: Submit printed resume, a list of at least three references with telephone numbers, e-mail and postal addresses to: Chair, Recruitment Committee, Department of Computer Science, SWT, San Marcos, TX 78666-4161. Review of applications begins: February 15, 1999.

CURRICULUM AND INSTRUCTION: Assistant Professor, Elementary Reading/Language Arts Degree Requirements: Earned doctorate (ABD candidates will be considered) in elementary education, curriculum and instruction, or special education, with three years teaching experience at the elementary/middle school level. Application Procedures: Submit letter of application, vita, and a list of three references including telephone numbers to Chair, Elementary Reading/Language Arts Search Committee, Department of Curriculum and Instruction, SWT, San Marcos, TX 78666. Review of applications begins: December 4, 1998.

CURRICULUM AND INSTRUCTION: Assistant Professor, Elementary Education with an Emphasis in Gifted/Talented Education Degree Requirements: Earned doctorate (ABD candidates will be considered) in elementary education, curriculum and instruction, with a minimum of 18 graduate hours in gifted/talented education or gifted/talented education and a minimum of three years of teaching experience at the elementary/middle school level. Application Procedures: Submit letter of application, vita, and a list of three references including telephone numbers to Chair, Elementary Gifted/Talented Education, Department of Curriculum and Instruction, SWT, San Marcos, TX 78666. Review of applications begins: December 4, 1998.

CURRICULUM AND INSTRUCTION: Assistant Professor, Secondary Education Degree Requirements: Earned doctorate (ABD candidates will be considered) in secondary education, curriculum and instruction with a secondary emphasis, or in a related field, such as English or special education, with a minimum of two years teaching experience in the schools required. SWT is an affirmative action, equal opportunity educational institution and as such does not discriminate on reasons of race, color, sex, age, religion, national origin, sex, physical or mental disabilities, or status as a disabled or Vietnam era veteran. SWT is committed to increasing the number of women and minorities in faculty and administrative positions.

Southwest Texas State University is a member of the Texas State University System.
Indiana University seeks nominations and applications for
Dean of Education

Indiana University is seeking a new Dean of the School of Education. Candidates should be scholars with achievements that warrant appointment to full professor and with accomplishments that have earned them a leadership position in the profession. Administrative experience and an earned doctorate or equivalent in Education or a related discipline is required. This position offers exciting educational possibilities including opportunities:

- to provide leadership and set directions at the faculty and staff levels
- to enhance the educational experience of students in the major programs
- to support collaboration across the University in interdisciplinary research and development efforts
- to expand the role of students in the academic and public life of the University
- to become involved in an Educational Seminar Series which attracts internationally known scholars to the campus for purposes of broadening perspectives and enhancing the intellectual life of the school and campus.

The Dean reports to the Chancellor/President of Indiana University—Bloomington and has primary responsibility for all educational programs on the Bloomington and Indianapolis campuses. This joint School of Education serves 2,500 undergraduate and 1,400 graduate students with 130 faculty members. The new dean will have the title "University Dean" and be the primary spokesperson for education on the Bloomington (16,000 students) and Indianapolis (25,000) campuses as well as have some coordination and review responsibilities relating to education on other campuses of the University system, which is comprised of eight campuses serving nearly 90,000 students.

In addition to seven academic departments (five in Bloomington and two in Indianapolis), the School incorporates externally-funded clearinghouses, research projects, development centers, and various professional, technical, instructional, and student service units. The School of Education, on both the Bloomington and Indianapolis campuses, is housed within flexible facilities with advanced technological resources.

Bloomington, situated in the picturesque rolling hills of southern Indiana, offers a quality of life that has earned it acclaim as one of the country's most desirable places to both live and retire. It is one of the major cultural and recreational centers in the state, offering a rich diversity of musical, artistic, and intercollegiate events.

Indianapolis, 50 miles north of Bloomington, is a dynamic and growing metropolitan area. Proud of its diverse cultural resources and traditions, Indianapolis has established itself as a professional and amateur sports capital.

Nominations of letters of application comprising a copy of a curriculum vitae should be sent to:

Jerome C. Harste, Chair
Dean’s Search & Screen Committee
Education 3044
Indiana University
Bloomington, IN 47405

All applications will be considered in this year's three-year search cycle. Additional information about the School of Education is available at http://www.indiana.edu

For full consideration, please submit materials by November 15, 1999.

Indiana is an Affirmative Action, Equal Opportunity employer.

UNIVERSITY OF MARYLAND
College of Library and Information Services
Assistant, Associate or Full Professor in School Library Media

The College is seeking a full-time, tenure-track faculty member to begin in fall 1999 or Winter 2000. The appointee will have responsibilities primarily in the College’s School Library Media Program and will also have opportunities and responsibilities in other programmatic areas in the College.

The College is an ALA-accredited institution that offers highly regarded programs at the M.L.S. and Ph.D levels. At the M.L.S. level, the School Library Media Program is fully accredited by the National Council for Accreditation of Teacher Education (through a joint arrangement with the College of Education) and the Maryland State Department of Education. Graduates are qualified to assume a full range of positions in public and private schools.

Candidates should have an understanding of the issues involved in designing, conducting, and managing K-12 school library media programs for the information age. They should have knowledge and expertise in the concepts and processes of teaching and learning, information access and delivery, and program administration (Information Power: Building Partnerships for Learning).

The appointee will be expected to develop and maintain an active research program, to teach courses in a variety of topics related to the field, particularly the management of school library media programs, to advise Ph.D. students, and to have a commitment to professional service, and to supervise students in their practical experience.

A doctorate in library/information science, instructional design/technology, or a related field is required. A demonstrated record in research and publication and expertise as a practicing school library media specialist is considered an advantage.

Applications will be accepted until February 1, 1999 or until appointive candidate has been identified. Inquiries and applications should be sent to the Search Committee Chair.

Familiarity with various types of fund raising programs, particularly annual giving, special events, stewardship, prospect research, and communications. Excellent management, leadership, and interpersonal skills. Excellent written and oral communication skills. Demonstrated experience in the development of policies and procedures for the effective operation of a large, complex organization. Demonstrated expertise in strategic and long-range planning.

Demonstrated ability to develop and manage a large and complex budget, to analyze data from a wide variety of sources, and to present statistical information in appropriate and understandable formats. Knowledge of information systems and technologies used to support fund raising efforts. High personal integrity. Bachelor's Degree.

An appreciation of the mission of UC Davis.

Application Procedure: To apply send cover letter and resume to:

Sue A. Francis
Executive Director of Development
UC Davis Development Office
One Shields Avenue
Davis, CA 95616-8574
(530) 757-3208, FAX (530) 757-3230

Position open until filled.

University of California is an Equal Opportunity Employer.
THE UNIVERSITY OF IOWA
COLLEGE OF LIBERAL ARTS
Iowa City, Iowa

A LEADER IN
Equality * Diversity * Excellence

TENURE-TRACK FACULTY POSITIONS

The University of Iowa values diversity among students, faculty, and staff. The University believes that a rich diversity of people and their many points of view enhance the quality of the educational experience and work environment.

During 1998-99, 32 departments in the College of Liberal Arts are searching to fill 33 faculty positions at both senior and junior ranks, with appointments to begin 1999-2000.

Information on each faculty position is available at the College's web site, www.uiowa.edu/~libarts. The UI is an Affirmative Action/Equal Opportunity Employer. Women and minorities are encouraged to apply.

DEAN
BUSINESS, SCIENCE
AND TECHNOLOGY DIVISION

Community College of Philadelphia, an urban multi-campus institution, invites applications and nominations for the position of Dean, Business, Science and Technology Division. The Division serves 14,000 students per semester supported by $250 million and adjunct faculty and an annual budget of approximately $15 million dollars. The Division includes 52 programs in the academic areas of science, math, technologies, design, health careers, business and computer studies. This senior-level position reports directly to the Vice President for Academic Affairs and oversees 18 departments. The Dean provides academic and administrative leadership to the Division to support the mission of the College, directs daily operations and supervises department heads and administrative staff in the management of their areas of responsibility.

Qualifications:
- Doctorate strongly preferred. Master's required
- Five years of directly related progressively responsible academic administrative experience
- College teaching experience
- Ability to work collaboratively with various constituencies
- In-depth familiarity with regional and specialized programmatic accreditation
- Understanding and support of community college mission

Excellent salary and fringe benefits.

Qualified candidates must submit resume, cover letter and three letters of recommendation by Nov 30 to Karen Cary, Academic Affairs Office, Community College of Philadelphia, 1700 Spring Garden St., Phila., PA 19130. We are committed to a workforce reflective of our community.

Community College of Philadelphia

R·I·T
COLLEGE OF SCIENCE
FACULTY POSITIONS

The RIT College of Science invites applications for two tenure track positions at the rank of Assistant Professor, one in the Department of Physics and the Department of Biological Sciences. Both positions begin September 1, 1999.

RIT is an equal opportunity, affirmative action employer.

Applications from minorities and women are strongly encouraged.

PHYSICS: Applicant qualifications include a Ph.D. in physics or a closely related field, evidence of excellence in teaching lecture and laboratory courses in a US college or university, a commitment to sustained research involving both undergraduate and graduate students, and an ability to utilize and/or develop alternative teaching methods. Applicants should be capable of making contributions to current Department of Physics research projects and strengthening the Department's interaction with the master's program in Materials Science and Engineering. A complete description of the position and the application procedure are located on the Department's web page (http://www.rit.edu/~psy/www/phys/)

BIOLOGY: The department seeks a Plant Scientist. A Ph.D. is required and demonstrated teaching and post-doctoral experience is desirable. The applicant should be broadly trained with knowledge and skills in plant cell/molecular biology, plant physiology, plant cell & tissue culture. The successful applicant will supervise the department's greenhouse, teach botany and plant biotechnology courses, participate in foundational course instruction and be encouraged to develop new courses of interest. Research in specialty area is encouraged. Applications are accepted and reviewed until the position is filled.

Applicants should submit a curriculum vitae and arrange to have three reference letters sent to Chair, Search Committee, Department of Biological Sciences, Rochester Institute of Technology, 85 Lomb Memorial Drive, Rochester, NY 14623-5603.
**President**

Olivet College seeks an innovative leader to build on its successes of the past five years. Considered an emerging model for transformation in higher education, the College has received recognition and funding for this process from the W.K. Kellogg Foundation, the John Templeton Foundation, ACE and AACU.

The Olivet Plan, adopted in 1994, is the modern day, expressive description of the College's historical mission and current vision, “Education for Individual and Social Responsibility.” The plan has its core focus on character as well as competence and service as well as career. Curriculum and core-curriculum are integrated through a coherent framework in which students demonstrate evidence of learning in five major outcome areas: Active learning, peer learning, diversity education, service learning, and required elements of the Olivet experience.

Founded in 1844, Olivet College has been from inception, educational and open to students of all races. The College is committed to these principles and to the democratic values at the founding denominations: the United Church of Christ and the Congregational Christian Churches, with whom it is still affiliated.

Olivet College is located in central Michigan, 30 miles south of Lansing the state capital. Enrollment has grown from 700 to over 900, the largest on record and includes 23% students of color and 7% international students. The 125-member faculty/staff are 28% people of color. The academic program is primarily undergraduate. A Masters of Arts in Teaching based on the portfolio model also enrolls over 80 students.

The next president will play a significant role in developing the resources and relationships necessary to achieve the full potential of the Olivet Plan. He/She will lead the transformation of the culture of education and learning at Olivet. The College seeks a new leader who is well prepared for and enthusiastic about the challenges faced by private colleges in the 21st century.

Nominations and applications should be directed to:

Olivet College Presidential Search
C/O Educational Management Network/Winsted/Kieffer
2015 Spring Road Suite 510
Oak Brook, IL 60523

For additional information and a copy of the Position Prospectus please contact our consultants, E. Kay Dawson at 734.655.2411 or Gary J. Posner at 615.655.3388 or e-mail at olivet@emnemn.com. Olivet College has an Internet Web site at http://www.olivet.edu.

Olivet College is an equal opportunity employer.

Women and persons from traditionally under-represented groups are encouraged to apply.

---

**Business Law**

Assistant or Associate Professor

The Robert H. Smith School of Business, University of Maryland, announces an opening for a tenure-track faculty member at the Assistant Professor or Associate Professor level in fall 2019. J.D. required. Joint degree: J.D./Ph.D. or J.D./M.B.A., and/or law review experience preferred. Preference for background and expertise in the areas of high technology, including the legal and business issues associated with intellectual property, telecommunications, computers, electronic commerce, and the Internet. Salary competitive.

Send vita, research papers, letters of reference, and summaries of teaching evaluations to Professor Daniel T. Ostas, Chair, Search Committee, Robert H. Smith School of Business, University of Maryland, College Park, MD 20742-1815. For full consideration, applications should be received by December 15, 2019.

The University of Maryland is an Equal Opportunity/Affirmative Action employer. Applications from women and minorities are strongly encouraged.

See the School's web page at www.rhsmith.umd.edu.

---

**Education**

DePaul University, Chicagoland's largest Catholic University, is a private urban institution of over 17,000 students on five Chicago area campuses. We are currently seeking candidates for the following position:

**Coordinator of Educational Activities**

As the Coordinator of Educational Activities, you will be responsible for the management of the STARS (Students Together Are Reaching Success) program, a first-year student retention initiative, and all Multicultural Student Affairs (MSA) educational seminars and related events associated with this initiative. You will oversee all aspects of STARS.

Responsibilities include recruiting/training/evaluating peer-mentors, planning educational events, providing appropriate intervention for program-participants and maintaining critical and confidential records. Some weekend and evening hours are required components of this position.

Requirements: As this position focuses on the retention of students-of-color, the selected candidate should possess an appreciation for, a sensitivity to, and successful professional experience improving issues such as “diversity”, “campus-climate” and “community”. An outgoing, energetic personality and a keen eye for detail in programming/events-planning are a must. Experience supervising college students is also required. Candidates with a Master's Degree in Counseling, Education, or a related discipline will be given preference.

Interested candidates should forward their resume to DePaul University, Human Resources, 25 E. Jackson Blvd, Chicago, IL 60604 FAX (312) 362-5116. E-mail: resumes@wp@depaul.edu. DePaul University is committed to diversity and equality in education and employment.

---

**Director of New Student Orientation and Commuter Services**

Division of Student Affairs
Northeastern University, Boston, MA

Plan, coordinate and implement all undergraduate new student orientation programs for incoming students and their parents to include summer and summer orientation programs. Duties include supervision of staff, coordination of logistics, development and implementation of budgets and fee structure; coordination of database support and development and production of publications, coordination of committee work and representation of University at events.

See the School's web page at www.rhsmith.umd.edu.
DEAN OF THE SCHOOL OF EDUCATION

Grand Valley State University invites applications and nominations for the position of Dean of the School of Education. Grand Valley is the fastest growing comprehensive, public supported institution (16,700 students) in the state of Michigan. The University has demonstrated a strong commitment to liberal, professional, and international education. We are located in west Michigan near Grand Rapids, the center of the state’s second largest population area and the region’s business and industrial center. See our web site at http://www.gvsu.edu

The School of Education is committed to excellence in teaching, scholarship, and service to create a difference in increasingly diverse communities. The School of Education is an upper-division and graduate unit. Programs are approved by the Michigan Department of Education and accredited by the National Council for Accreditation of Teacher Education (NCATE). The School of Education undergraduate division offers programs leading to the bachelor’s degree and Michigan Provisional Certification. Certification is available in elementary general education, secondary general education, or elementary education with special education endorsements. The School of Education graduate division offers the Master of Education degree (M.Ed.), Michigan Provisional Professional Certification, certification renewal and programs leading to approvals, endorsements, and professional development.

Applicants should have an earned doctorate in a relevant discipline, and a record of accomplishments in teaching, research, and service to the education community sufficient to qualify for tenure in the School. Requirements for the position include the energy and creativity to provide dynamic collaborative leadership with the School’s faculty and educational communities, superior interpersonal and motivational skills, evidence of commitment to diversity, and demonstrated administrative experience including the effective management of resources. The Dean reports to the Provost/Vice President for Academic Affairs and is responsible for the academic and administrative leadership of the School of Education. Women and minorities are encouraged to apply.

Salary is competitive. Review of candidates will begin October 15 and will continue to the time of appointment. Candidates must submit a letter of interest addressing the selection criteria, a resume, and the names, addresses, and telephone numbers of five references. The new dean will assume office on or about July 1, 1999.

Nominations and expressions of interest should be submitted to:

School of Education Dean Search Committee
Office of the Provost
Grand Valley State University
Allendale, Michigan 49401

Grand Valley State University is an Affirmative Action Equal Opportunity Employer

Mathematics
College of Arts & Sciences

Florida Gulf Coast University invites applications for two faculty positions available August 1999. The College of Arts and Sciences offers an innovative degree program in Liberal Studies and is dedicated to quality undergraduate teaching in an inquiry-based, interdisciplinary setting. Candidates will possess a commitment to excellence in teaching, the ability to teach a broad range of undergraduate math courses, experience with computer algebra systems in teaching, experience or interest in developing distance learning courses, and the ability to interact positively with faculty across all Arts and Sciences disciplines and to contribute to interdisciplinary curriculum development. Appointments will be made on 9-month, multi-year contract basis.

ASSISTANT PROFESSOR, Pos. #12302: Req’d PhD in Math centered by August 1999. Prefer: Prior faculty experience. Area of specialization open. Ability to direct undergraduate research projects is a plus. Continued scholarly activity expected at a level commensurate with the mission of the university.

INSTRUCTOR, Pos. #12304: Req’d: Master’s degree in either math or closely allied discipline with substantial graduate credits in math. Prefer: Some graduate coursework in probability and/or statistics. Prior full-time teaching experience desirable.

To apply, submit two packages to each position. Each package must include a cover letter, curriculum vita, and a list of 3 references postmarked by the deadline date of February 1, 1999 to FGCU, Position #, HR Dept., 10501 FGCU Blvd. South, Ft. Myers, FL 33990-6565. For add’l information, visit our web site at admin.fgcu.edu/hr/index.html or call 941-593-3133. Under Florida’s Public Records Law, applications submitted are available for public review upon request.

EOE/AA/AH, which has a requirement to cultural, racial and ethnic, community and encourages women and minorities to apply. It is expected that successful candidates share this requirement.

San Mateo County Community College District (located on the beautiful San Francisco Bay Peninsula)

EOE/ADA
The College of Saint Benedict and Saint John’s University are two Catholic Benedictine liberal arts colleges located four miles apart in Central Minnesota’s Scenic Lakes Area. The Saint John's campus is coeducational. The majority of students are Catholic. Saint Benedict's is a college for women and Saint John’s is a college for men. The students of these two colleges share one common curriculum, as well as coeducational social, cultural and spiritual programs.

Saint Benedict’s and Saint John’s have a common core curriculum, identical core requirements, and a common academic calendar. All academic departments are joint. There is one admissions office, a single registrar’s office, a combined library system, academic computer services, and a myriad of joint student activities and clubs.

The Colleges enroll 3,600 students from 38 states and 32 countries. The combined faculty consists of approximately 260 and includes the President of Seton Hall University's pre-professional program.

Additional information is posted on our website www.csbsju.edu.

**BIOLOGY - Tenure-track - Biochemistry.** The successful applicant will be expected to teach an upper-division course in biochemistry including laboratory, teach introductory biology, participate in our Core curriculum, and teach a course during January Term. Candidates must demonstrate an interest and ability in teaching at the undergraduate level and in helping undergraduates identify and work on their research projects. Ph.D. is required.

**COMMUNICATION - Tenure-track - Journalism.** Successful applicants must be ABD in journalism by starting date. Ph.D. is preferred and required prior to tenure review. Professional experience as a journalist is also required. A commitment to undergraduate teaching, some prior teaching experience, and evidence of appropriate scholarship are essential. The successful applicant will be expected to teach courses in Media Theory and Criticism. Introductory and Advanced Media Writing, and in our Core curriculum. Opportunities to teach Media Law and Ethics, Media Critical Theory or special topics courses of particular interest to the faculty member are also possible on occasion. Advising of students and departmental and university service are also required. Submit letter of application, including a statement of teaching and research interests, curriculum vitae, transcripts, and recent letters of recommendation. Applications received after November 15, 1998 cannot be guaranteed consideration.

**COMPUTER SCIENCE - Tenure track.** Successful candidate will teach a wide range of computer science courses to majors, minors, and general education students. Candidates should also be expected to teach in our Core curriculum. The successful candidate must be ABD in computer science or a related field by starting date. Ph.D. is preferred and required prior to tenure review. A commitment to teaching and mentoring undergraduate research is required. Experience in software engineering, databases, robotics, operating systems, and/or operating systems is preferred. The computer science department is one of the premier liberal arts computer science programs in the Upper Midwest, with a growing department and enthusiastic faculty.

**ECONOMICS - Tenure track.** Successful candidate will possess a strong general background in economics, a specialization in macroeconomics, a desire to teach in a liberal arts environment, and a commitment to women's and men's education. Teaching will include introduction to economics, macroeconomic theory, and one or more of the following fields: economic growth, development, and urban and regional economics. Interdisciplinary interests are appreciated, especially if they are in area departments.

**EDUCATION - Tenure track.** Successful candidates must have a strong interest in literacy education, extensive course work in language arts, at least three years of teaching in grades K-8, and licensure to teach elementary and middle school. Experience teaching college as well as knowledge of the Minnesota Graduation Rules and instructional technologies are preferred. Successful candidates must be an effective communicator in both oral and written language. Personal characteristics should include initiative, well-honed interpersonal skill, and willingness to be part of a team. Teaching responsibilities include 11 Reading Writing and Language Grade 4-6, and 21 Middle School Literacy and Pedagogy, all of which require a clinical teaching experience for the students. Additional supervision of a clinical experience during the summer months is expected of successful candidates. Submit letter of application, vita, transcripts, recent letters of recommendation, and evidence of teaching effectiveness. Applications were received after November 15, 1998 cannot be guaranteed consideration.

**MUSIC - Tenure track - Music Theory Specialist.** The successful candidate will possess experience in undergraduate music theory and labs, ear-training, sight-singing and keyboard. Responsibilities include teaching undergraduate courses with a focus on levels of composition and ear training, and accompanying and collaborating in the use of Macintosh lab systems and music software. An assignment in electronic music composition is desirable, as is interest in teaching core courses offerings within the liberal arts curriculum. Evidence of teaching excellence is required. Masters level degree in music is required, with a preference given to doctorate level. Doctorate required for tenure. Send letter of application, vita, recent letters of recommendation, and evidence of teaching effectiveness. Applications received after December 15, 1998 cannot be guaranteed consideration.

**PSYCHOLOGY - Tenure track - Behavioral Neuroscience.** The successful candidate will possess experience in behavioral neuroscience and animal behavior. Responsibilities include teaching undergraduate courses per semester and one January term course per year. Ph.D. is required. Candidates are expected to have a strong interest in teaching, some recent experience in research methods, principles of behavioral neuroscience, psychology as a natural science, psychopharmacology, animal behavior, health psychology, and senior seminar topics of the candidates choosing. Candidates will also be expected to develop and to participate in an active research program involving undergraduate students. Ph.D. in psychology and evidence of teaching excellence required. Send letter of application, vita, recent letters of recommendation, and evidence of teaching effectiveness. Applications received after November 30, 1998 cannot be guaranteed consideration.

The Psychology Department has twelve full-time and twelve adjunct faculty members with approximately 60 majors. The department is located in the Benedicta. For more information contact Virginia Arthur, chair of the search committee, at VARTHUR@csbsju.edu.

**MODERN AND CLASSICAL LANGUAGES - SPANISH (3 positions): Two (2) Tenure Track positions and one (1) One-year position.** The successful candidates will be expected to teach courses in Spanish language and literature and/or civilization as well as Core curriculum courses taught in English. Candidates with qualifications in Computer Assisted Instruction or Elementary or Secondary Foreign Language Teaching Methods are especially encouraged to apply. Ph.D. preferred. ABD and evidence of teaching excellence required. Send letter of application, curriculum vitae, transcripts, and recent letters of recommendation. Applications received after November 25, 1998 cannot be guaranteed consideration.

Lesley College
PROVOST

Lesley College offers undergraduate and graduate programs in education, human development, management, liberal studies, and the arts on the attractive Cambridge, Massachusetts campus as well as regional, national and international locations. Lesley College has a total of 6,200 students, 165 faculty, a budget of $57 million. It occupies a unique place in education with 125 sites off campus and international exchange programs in Israel, Japan, Netherlands, England and Sweden.

An outstanding academic leader with the desire to perpetuate the mission of the College, the Provost will serve as the chief academic officer for all academic activities of the institution. Lesley College offers programs in Education, Human Services, Liberal Studies, Management, and the Arts, offering Associates, Bachelor, Masters, CAGS and Ph.D. degrees.

Among those reporting to the Provost will be the Director of Undergraduate Academic Services, Associate Provost, Director of Math, Science and Technology Center, Director of Library, Executive Assistant, Deans of the Graduate and Undergraduate Schools.

The Provost reports directly to the President and is the chief academic officer of the College. This individual will help shape a dynamic leadership in educational administration, teaching and scholarship or creative activity with at least five years in a senior academic administrative position, and demonstrated commitment to educational equity goals and appreciation of the value of ethnic and gender diversity in the curriculum and in the institution.

The Provost will have the opportunity to work in a vibrant community with a strong emphasis on academic freedom and excellence. The Provost will help lead the College in addressing the challenges of today's rapidly changing world.

The Provost is expected to provide innovative leadership in the development of the College's strategic plan.

Applications will be accepted until the position is filled. Review of applications will begin on November 1, 2023. Applications must be submitted by December 31, 2023. The position is open until filled.

Applications should be submitted online at:
www.lesley.edu/provost

Wheelock College
VICE PRESIDENT FOR ACADEMIC AFFAIRS

The Trustees and President of Wheelock College in Boston, Massachusetts, seek nominations and expressions of interest for the position of Vice President for Academic Affairs. Founded in 1896, Wheelock College is a premier instution preparing students for careers in education, social work, and the field of child life and has approximately 800 undergraduate students and 500 students enrolled in its graduate degree programs.

The Vice President for Academic Affairs is the senior academic officer of the College. Reporting directly to the President, s/he provides leadership for the faculty; is responsible for all aspects of faculty development, evaluation, promotion, and tenure; and chairs the Academic Council. In addition, the Vice President for Academic Affairs is responsible for curriculum development and evaluation, as well as for the direction and coordination of the College’s presentation of curriculum and programs for accreditation and review. The Office of the Vice President includes the Undergraduate and Graduate School Deans, the Dean of the Social Work Programs, the Associate Vice President for Academic Resources/Director of the Library, and the Registrar.

Principal qualifications for the position include:
- A deep commitment to liberal education and to close and effective work with faculty and administrators;
- Demonstrated evidence of academic excellence, effective leadership,
- Responsible financial management,
- A deep understanding of and belief in the College’s academic core,
- Experience in higher education, having worked successfully with both administration and faculty;
- Strong interpersonal and communication skills;
- The ability to work in a collegial environment.

Applications will be accepted until the position is filled. Nominations and expressions of interest may be directed to the chair of the search committee. Applications should be submitted by December 31, 2023.

Opportunities for Research on Violence
Carnegie Mellon University

The National Consortium on Violence Research (NCOVIR) invites applicants to its faculty collaborator program. NCOVR, which is based at the Herion School of Public Policy and Management at Carnegie Mellon University, is a multi-disciplinary, multi-institutional Consortium comprised of a diverse team of researchers representing several disciplines including: sociology, psychology, criminology, public policy, statistics and operations research. NCOVR's faculty collaborator program provides opportunities for faculty (especially those at institutions serving large numbers of students from groups historically under-represented among violence researchers) to enhance their technical and research skills for purposes of carrying out violence research. Collaborators work closely with NCOVR members in formulating research proposals which complement ongoing NCOVR sponsored research projects, and in mentoring undergraduate students. NCOVR will support the faculty collaborator's violence research with funds which will enable collaborators to meet with fellow NCOVR members, obtain data sets, and procure research assistance in collecting, coding and analyzing data. Qualified applicants must hold a doctorate in a relevant field and be affiliated with an academic institution. Applicants must be strongly motivated and committed to pursue advanced training in some aspect of violence research.

NCOVR strongly encourages members of racial and ethnic minority groups to apply.

The deadline for receipt of your completed application packet is February 1, 1999.

For additional information and application forms please visit the Consortium's Web-site at http://www.ncovr.heinz.cmu.edu

UNC is an AA/EEO employer and is committed to fostering diversity in its student body, faculty, and staff. AA/EEO Office, Carter 2011.

University at Albany
State University of New York

Department of Educational and Counseling Psychology

COGNITION AND LEARNING PSYCHOLOGY, ASSOCIATE PROFESSOR (tenure track): Faculty position in cognition and learning psychology. Responsibilities include teaching masters and doctoral level courses, advising dissertations, and maintaining a strong programmatic research effort related to principles of learning and cognition and their applications. A doctorate (by August 1999) is required. Preference will be given to candidates with prior teaching experience and publications.

COUNSELING PSYCHOLOGY, ASSOCIATE PROFESSOR (tenure track): Faculty position to teach in the APA accredited doctoral program in Counseling Psychology, and Master's programs in Community, School, and Rehabilitation Counseling. Qualifications include doctorate in counseling psychology, preferably from an APA accredited program; the potential to develop a strong research program; and be licensed, or license eligible, in New York State. We are most interested in candidates with a specialization in vocational and career psychology, who can teach courses at both the doctoral and masters level, conduct research, and supervise doctoral dissertations in this domain. The candidate must also be prepared to supervise doctoral level practicum at the University’s training clinic. In addition to the duties above, candidates who are able to teach doctoral and master's level courses in group intervention and research, or who have expertise in rehabilitation or school counseling would be favorably regarded.

SCHOOL AND EDUCATIONAL PSYCHOLOGY, ASSISTANT PROFESSOR (tenure track): Faculty position in school psychology and educational psychology. Responsibilities include graduate teaching and active research in psychoeducational interventions with children and adolescents; and undergraduate and graduate teaching in educational psychology, development, or learning; clinical supervision of school psychology students; doctoral dissertation supervision; and student program advisement. Candidates must possess a doctorate in school psychology, preferably from an APA accredited program and be eligible for licensure as a psychologist in the State of New York and national certification as a school psychologist. Demonstrated research productivity, previous graduate teaching experience in school psychology and educational psychology, and experience as a school psychologist are preferred. Individual, post-doctoral supervision is available from licensed faculty to fulfill post-doctoral experience requirements for applicants.

SCHOOL PSYCHOLOGY, CLINICAL SUPERVISOR (tenure track): Full time, 12-month position. Responsibilities include: field supervision of graduate students in school psychology in all aspects of professional practice; teaching the associated supervision seminar; and assisting the Director of Field Training in developing, implementing, and coordinating the continuum of field experiences. Qualifications include: a doctorate in school psychology, preferably from an APA accredited program, eligibility for licensure as a psychologist in the State of New York and national certification in school psychology; experience as a school psychologist; and experience supervising pre-service school psychologists. Individual, post-doctoral supervision is available from licensed program faculty to fulfill post-doctoral experience requirements for applicants.

All positions begin September 1, 1999. Salary commensurate with qualifications and experience. Send letter of application, vita, and 3 letters of reference to Dr. Michael Green, Assistant Dean, ED239, University at Albany, Albany, NY 12222. Review of applications will begin on receipt, and applications received after January 15, 1999 may not receive full consideration.

The University at Albany is an Equal Opportunity/Affirmative Action employer.

Health Education (Position F9922): Doctorate in health education strongly desired. Masters plus 18 months considered. Should have or be eligible for CHES. Have three years college teaching and or public school teaching experience in health education.

Exercise Science (Position F9923): Specialization in clinical biochemical and/or epidemiologic exercise physiology. Doctorate strongly desired. MS plus 18 months.

Speech Pathology (Position F9925): PhD preferred. MA/BA 18 months. CCC-SLP required. Experience in adult neurological disorders of speech and language preferred.

Special Education (Position F9926): Masters plus 18 months; teacher certification and endorsement to teach students with mental retardation/applied behavior; both elements and special education preferred. Two years teaching experience, at least three with students with mental retardation.

Curriculum and Instruction (F9937): PhD preferred. ABD K-12 teaching experience required. Preference given to candidates who have experience teaching in a culturally or economically diverse setting. Background in integration of technology into learning process.

Educational Media and Technology (Positions F9928 and F9929): Experience in educational applications of technology required. Doctorate in Education with specialization in instructional technology preferred (ABD considered). K-12 teaching experience preferred.

Human Nutrition/Dietetics (Position F9930): Minimum BS plus 18 months. Experience in nutrition or related field and RD preferred. Experience in clinical and/or community nutrition required. Must have recent practice and college teaching experience.

Apparel, Textiles and Merchandising (Position F9931): MS/MA plus 16 months. PhD preferred. College teaching experience a plus. AWIM also desired.

Nursing: Adult Health Nursing (Position F9932), and Child Health Nursing (Positions F9933 and F9934). MS in clinical specialty, experience in nursing, teaching and related field preferred. MS plus 18 hours minimum. Current nursing license. Grad level teaching experience preferred.

Technology Education (Position F9935): Doctorate or doctoral candidates and successful secondary teaching experience in field required. Thorough grounding in community technology education and vocational education programming essential.

Legal Assistant Faculty/Assistant Program Coordinator (Position F9937): Earned JD degree practice experience; teaching experience; professional involvement; successful experience with legal assistants, experience with Internet and computer assisted research.

Mechanical Engineering Technology (Position F9938): Assistant professor/instructor. Doctorate with masters degree in mechanical engineering technology preferred. Masters plus 16 minimum for assistant professor. Masters for instructor college teaching and or related experience in MET required. Experience with and interest in Mechanics courses preferred. Professional engineering certificate a plus.

Electronic Engineering Technology (Position F9940): Assistant professor/instructor. Doctorate with masters in electrical/electronic engineering or engineering technology preferred. Masters plus 16 minimum for assistant professor. Masters for instructor college teaching experience and or related experience in electronic engineering technology required. Professional engineering certificate a plus.

German (Position F9942): Doctorate or ABD. Concentration in German literature or linguistics. Teaching experience. Experience in testing and technology. For the classroom environment. Courses in geography, history of Germanic languages. Proficiency in German preferred. ABD in German preferred. ABD in Germanic languages preferred.

Early Childhood Education (Position F9944): Earned degree or ABD. Prior experience in early childhood education or related. Must have completed early childhood education program and pass state certification exam.

Educational Leadership (Position F9945): Doctorate in educational leadership or related field and experience as a school administrator desired.

We encourage applications from women and members of minority groups. Eastern Michigan University is an affirmative action/equal opportunity employer.
Fellowship Opportunities for Violence Research
AEGE MELLON UNIVERSITY
The National Consortium on Violence Research (NCOR) invites applicants to its post-doctoral research program: NCOR, which is based at the Heinz School of Public Policy and Management at Carnegie Mellon University, is a multi-disciplinary, multi-institutional Consortium comprised of a diverse team of researchers representing several disciplines including: sociology, psychology, criminology, public policy, statistics and operations research. NCOR’s post-doctoral program emphasizes the development of strong technical and research skills critical for carrying out empirical studies on violence. Trainees work under the mentorship of two Consortium members, each from a different discipline. Through multidisciplinary training, fellows gain exposure to different theoretical and methodological approaches to the study of violence. Because NCOR members are affiliated with over 50 institutions in the United States and abroad, fellows may be in residence at any institution in the Consortium or may divide their time between two institutions. The fellowship supports recipients as full-time researchers for two years, with an annual stipend of $50,000. Additionally, limited funds are provided for travel to other member sites to maintain cross-disciplinary collaboration, facilitate participation in NCOR’s Summer Workshop and in other designated activities. Qualified applicants must hold a doctorate in a relevant field or be assured of obtaining their degree before the start of the fellowship on September 1. Applicants must be strongly motivated and committed to pursue advanced training in some aspect of violence research. Excellent communication and analytic skills are required.
NCOR strongly encourages members of racial and ethnic minority groups to apply. The deadline for receipt of your completed application packet is February 1, 1999.
For additional information and application forms please visit the Consortium’s Web site at: http://www.ncor.heinz.cmu.edu

UNIVERSITY OF WISCONSIN MILWAUKEE
DEAN OF THE SCHOOL OF ALLIED HEALTH PROFESSIONS
DEADLINE FOR APPLICATIONS: NOVEMBER 30, 1998
POSITION DESCRIPTION: The School of Allied Health Professions at the University of Wisconsin-Milwaukee (UWM) seeks a Dean with academic vision and a proven record of leadership and accomplishments in research, teaching and administration.
UWM has a strong tradition of shared faculty governance, and is organized into eight schools and colleges, with a total enrollment of 23,000 students.
The School of Allied Health Professions is a vibrant and progressive component of the University with approximately 50 full-time faculty and professional academic staff. The School offers seven undergraduate degree programs (Clinical Laboratory Sciences, Communication Sciences and Disorders, Health Information Administration, Health Care Administration, Kinesiology, Occupational Therapy, Recreation) and five masters programs (Clinical Laboratory Sciences, Communication Sciences and Disorders, Human Kinetics, Occupational Therapy, Physical Therapy) and has an active and visible presence in the community through highly successful clinic centers and outreach programs. Further information about the School of Allied Health Professions is available on our web site at: http://www.uwm.edu/shp
RESPONSIBILITIES: The Dean is expected to provide leadership for the School and exercise responsibility for its academic and administrative operations, including its personnel, budgets, programs and physical facilities. The Dean’s areas of responsibility include programmatic development and leadership at both the undergraduate and graduate levels; as well as for outreach and continuing education; leadership for establishing and developing research, clinical practice and educational programs; development of extramural funding for School programs; fundraising and alumni relations; and effective representation of the School within the University and communities.
QUALIFICATIONS: The position of Dean requires an earned doctoral degree and a distinguished academic record commensurate with appointment at the full professor level in a School of Allied Health Professions department or a closely related department in the University. The candidate is expected to be interested in candidates whose records demonstrate strengths in the following areas:

- Strong commitment to outstanding undergraduate and graduate instruction
- Strong commitment to and leadership for sustained development of scholarly research
- Strong commitment to affirmative action and equal opportunity
- Ability to provide intellectual leadership
- Demonstrated record of administrative accomplishments
- Demonstrated management skills and ability
- Ability to develop the human resources of the School
- Ability to develop and maintain partnerships and connections with the community, health care facilities, and other educational institutions
- Demonstrated ability for fundraising and alumni relations

STARTING DATE: July 1, 1999 Preferred
SALARY RANGE: Competitive, commensurate with qualifications
APPLICATION PROCEDURE: Nomination of potential candidates is encouraged. Applications must include a letter of interest, curriculum vitae and the names, addresses, and telephone numbers of five references. Completed applications must be postmarked by November 30, 1998. Submit nominations/applications to:
Robert D. Borchelt, Chair

Email: searchcal@uwm.edu

UWM is an affirmative action/equal opportunity employer.
The names of the nominees and applicants who have NOT signed in writing that their identities be withheld, as well as the names of all individuals for the positions will be released upon request.

REED COLLEGE
Vice President/Dean of Student Services

Reed College, a highly selective, distinctive institution located in Portland, Oregon and with an enrollment of approximately 1250 students is seeking a new Vice President/Dean of Student Services. Reed seeks a Dean who believes in its mission and who can understand, appreciate, and work effectively within its particular culture.

RESPONSIBILITIES: The Vice President/Dean reports to the President. She or he is responsible for a wide variety of services and programs including Academic Support Services, Residence Life, Health and Counseling, Community Safety, Financial Aid, Career Services, Sports Center, Student Activities, Community Services, International Student Services, and Food Services. The Vice President/Dean serves as an advisor to the President, and Board of Trustees on all student life issues and concerns.

QUALIFICATIONS: The successful candidate must have extensive knowledge of higher education liberal arts colleges, their facut, students, and student services programs. Candidates must have excellent communication skills. extensive knowledge of group and individual behavior, and a command of the modern principles and practices of management and supervision. We prefer candidates with a minimum of a Master's degree and ten years of experience in a responsible position with a high degree of professional recognition. Successful candidates will be able to demonstrate the ability to work effectively within a complex family of programs and responsibilities. Application materials should include a letter of interest, annotated vitae, and names of three references. Application materials will be maintained on file until the position is filled. Please send all materials to:

http://www.reed.edu
http://www.reed.edu/community/employment/deans/ Reed College is an Equal Opportunity Employer. Applications from minority and women candidates are encouraged.
NORTHEASTERN ILLINOIS UNIVERSITY

Northeastern Illinois University invites applications and nominations for two key positions:

Dean of the College of Arts and Sciences, and Dean of Students.

Nationally recognized as having the most ethnically diverse student body in the midwest, Northeastern is a metropolitan commuter university of 10,400 students located in a residential neighborhood on the northwest side of Chicago.

DEAN, COLLEGE OF ARTS AND SCIENCES

The College of Arts and Sciences is the largest of the University's colleges with 181 tenured/tenure track faculty. It is comprised of 15 departments (23 undergraduate and 15 graduate programs), and is responsible for the general education program which serves the University's undergraduate students.

The Dean reports to the Provost: is responsible for College curricular, budgetary, and personnel matters; and provides academic, administrative, and visionary leadership in fulfilling the College and University missions.

An earned doctorate is required, preferably in a discipline within the College of Arts and Sciences. Candidates must demonstrate an excellent record of achievement in teaching, research, and service appropriate to appointment at senior faculty rank; excellent fiscal management and communication skills; ability to collaborate with multiple internal and external constituencies and significant and appropriate experience in academic administration, with knowledge in the areas of assessment, technology, grant procurement, and evaluation of ranked faculty. Candidates should demonstrate sensitivity and commitment to issues of diversity and preferably provide evidence of experience working in a collective bargaining environment.

Send application materials to Ms. Terri Rothstein, Assistant Provost.

DEAN OF STUDENTS

The Dean of Students reports to and works closely with the Vice President for Student Affairs/Public Affairs and provides overall leadership in the implementation of a variety of student programs and services including: orientation, alcohol/substance abuse prevention, student research and needs assessments, mentoring, student volunteerism, the National Student Exchange, and judicial affairs. The Dean of Students is an advocate whose office is the starting point for student complaints and grievances. In addition, the Dean works collaboratively with other areas of the university to enhance the overall quality of the student experience.

An earned doctorate and seven years of progressively responsible experience in student affairs administration are required. Candidates must demonstrate a clear commitment to enhancing the relationship between the academic and student affairs sectors to advance student learning; strong analytical and communication skills; a record of fostering and improving the quality of student life in a culturally diverse environment; excellent managerial and organizational skills; and knowledge of assessment tools and methodologies to determine student needs. Experience with information technology and its application to student services is highly desirable.

Send application materials to Dr. Melvin C. Terrill, Vice President for Student Affairs/Public Affairs.

Screening of applicants will continue December 1, 1998 and continue until the positions are filled. Equally qualified applicants should submit an application letter, resume, and the names of three references to the contact person identified for each position at:

Northeastern Illinois University
5500 N. St. Louis Ave.
Chicago, IL 60625-4699

THE UNIVERSITY OF NORTHERN COLORADO

Associate Vice President for Research and Graduate Studies and Dean of the Graduate School

The University of Northern Colorado invites applications and nominations for the position of Associate Vice President for Research and Graduate Studies and Dean of the Graduate School.

The Associate Vice President reports to the Provost and provides academic leadership for all matters related to research and graduate studies including administering the personnel and fiscal matters of the graduate school, directing and evaluating academic program review, and promoting research institutes. The Associate Vice President also serves as an ex officio member of the UNC Research Corporation Board of Directors.

Qualifications: Candidates must possess an earned doctorate have an academic and research record to qualify for a faculty position of rank as a full professor in an academic department in obtaining administrative extramural funded academic administrative experience, and strong communication and interpersonal skills.

Candidates are requested to submit a letter of application, current curriculum vitae and the name, addresses, and phone numbers of five references. Screening will begin December 1, 1998, and continue until the position is filled. Send applications and nominations to:

Dr. Vinnie Scalise, Chair
Search and Screen Committee
Associate Vice President for Research and Graduate Studies and Dean of the Graduate School
Office of Academic Affairs
Carter Hall, Room 4007
University of Northern Colorado
Greeley, CO 80639
Fax # 970-351-1880

The University of Northern Colorado is a Carnegie Doctoral I Institution enrolling 10,500 undergraduate and graduate students in five colleges and is located in Greeley, a community of 70,000 located 56 miles north of Denver.

This position is contingent on funding from the Colorado State Legislature, approval by the Board of Trustees and subject to the policies and regulations of the University of Northern Colorado.

The University is an Affirmative Action Equal Opportunity Employer. Women, minorities, veterans and disabled persons are encouraged to apply.

THE EVERGREEN STATE COLLEGE

Olympia, Washington

Vice President for College Advancement and Executive Director of The Evergreen State College Foundation

College Profile: The Evergreen State College, a progressive public college of arts and sciences, has established a national reputation for leadership in developing innovative interdisciplinary, collaborative and team-taught academic programs. The Vice President for College Advancement reports to the president and has primary responsibility for leading programs in the areas of development; annual fund, deferred giving, grants, corporate and foundation relations; research; alumni and community relations; public relations, publications, advertising; other marketing and college relations functions assigned by the president. The vice president is also the executive director of the college foundation.

Qualifications: Required — Proven leadership and a successful record in fundraising, excellent communication, interpersonal and administrative skills, and a baccalaureate degree. DIRECTOR OF GRANTS AND SPONSORED PROGRAMS

New Jersey City University is a cultural, diverse urban institution located in the gateway New Jersey Metropolitan area and is one of New Jersey's largest comprehensive institutional settings.

The University offers undergraduate and graduate programs in the liberal arts and professional studies to over 8,000 students. An extensive program in the humanities and sciences provides opportunities for students to further their education.

The Director will be responsible for developing and executing a strategic plan to expand the University's external funding base to support faculty research and curriculum development, and community initiatives. This person will work closely with the appropriate University administrators to develop strategies to expand the University's external funding base.

The Director will report to the Vice President for Academic Affairs.

The Director is expected to have a record of excellence as an effective leader with a broad and varied background. Critical to the success of this position is a commitment to the University's mission and an understanding of the complexities of the higher education environment.

The Director must have demonstrated success in fundraising and the ability to attract and retain the necessary resources to support the University's mission.

New Jersey City University is an Equal Opportunity/Affirmative Action Employer.

DIRECTOR PERFORMING ARTS

Serving more than 34,000 students, College of DuPage is America's largest single-campus community college. Based in west suburban Glen Ellyn campus and featuring 90 neighborhood learning sites, C.O.D.'s "life-long learning" curriculum comprises 88 diverse areas of study. If you are both dedicated and qualified, you are invited to become part of our success story.

We are seeking a full-time Director, Performing Arts in our Liberal Arts Division, to be responsible for all phases of live performing arts including College productions and presentations. Position begins March 1999.

QUALIFICATIONS: Master's Degree in a related field with current arts administration experience or an equivalent combination of education and experience. Arts administration experience includes knowledge of artistic and professional trends, grantsmanship, supervision and evaluation of personnel, and contract negotiations and management. Excellent inter-personal skills and computer literacy is also required.

Starting salaries normally range from $54,761 to $62,847 but are dependent on education and experience. This 12-month assignment, College of DuPage offers a generous benefits package. To apply, please call, write or e-mail for an application packet. Screening for this position begins December 1, 1998. However, to maximize your opportunity to be chosen for this position, please return your application packet as quickly as possible. To

POSITION ANNOUNCEMENT

RANK AND TITLE:
Assistant Dean, Professional Development, College of Agricultural, Consumer, and Environmental Sciences (ACES) - University of Illinois at Urbana-Champaign (UIUC)

COLLEGE DESCRIPTION:
The College of Agricultural, Consumer and Environmental Sciences includes seven departments which offer undergraduate and graduate programs, the University of Illinois Extension Service, and the Illinois Agricultural Experiment Station. The College has approximately 250 faculty on the Urbana-Champaign Campus, plus approximately 300 faculty and professional staff located throughout Illinois in various locations of Illinois Extension and the Agricultural Experiment Station. More than 2,000 undergraduate and 500 graduate students are enrolled in the College.

The Assistant Dean, Professional Development, is a 100% full-time position to provide leadership in professional development for faculty, academic professionals, staff, graduate students, paraprofessionals and volunteers in the various programs of the College. The Assistant Dean has responsibility across the entire College for interdisciplinary coordination of professional development and reports directly to the Associate Dean for Academic Programs. The Assistant Dean works closely with the Associate Deans for Extension and Outreach and for Research, the AssistantDean and Department Heads of the College, and the Regional Directors of Extension. A tenured faculty position in an academic unit of the College of ACES may be available based on experience, background and mutual interest.

QUALIFICATIONS:
Doctoral degree preferred, or a master’s degree with at least 5 years experience, and demonstrated excellence in human resource development, education, or related field. Desired qualifications include a record of administrative or leadership experience programs and an understanding of the broad mission of a land grant university.

MAJOR RESPONSIBILITIES:
- Design and implement a comprehensive professional development program for faculty, academic professionals, staff, graduate students, paraprofessionals, and volunteers, including:
  - needs assessment
  - new Extension personnel orientation
  - offering professional education opportunities for ACES faculty, and staff workshops that address teaching and learning
  - coordinating with others within UIUC and beyond
- Initiate and maintain policies, procedures and resources for professional development
- Seek external funding for professional development programs

SALARY: Competitive and commensurate with experience

DATE AVAILABLE: As soon as possible after February 1, 1998

APPLICATION DEADLINE: In order to ensure full consideration, applications must be received by November 30, 1997.

NOMINATIONS AND APPLICATIONS:
Applications should include a letter of application, curriculum vitae, and the names, mail and e-mail addresses of three references. Nominations and applications should be sent to:

William Paterson University is dedicated to the goals of educational excellence and student success, cultural and intellectual diversity, and a close relationship with the campus and the community. The Library is a hub of activities, learning and research, and a center for faculty and students. The University offers a diverse range of undergraduate and graduate programs in various fields, including liberal arts, sciences, business, education, and the arts. William Paterson University is situated on a 350-acre wooded campus in Hackensack, New Jersey, 20 miles from New York City.

Nominations and applications are invited from qualified individuals who are committed to providing leadership and guiding the institution into the next century for three administrative positions: Dean of the College of Humanities and Social Sciences, Associate Dean of Enrollment Management, and Director of Instruction and Research Technology.

DEAN, COLLEGE OF HUMANITIES AND SOCIAL SCIENCES

The Dean is the chief academic, fiscal, and administrative officer of the College and reports directly to the Provost and Executive Vice President. The Dean oversees undergraduate and graduate degree programs and is responsible for the overall management of the College's operations. The Dean is also responsible for the College's budget, planning, and evaluation of programs and initiatives.

ASSOCIATE DEAN OF ENROLLMENT MANAGEMENT

The Assistant Provost and Dean of Student Development is responsible for the development and implementation of a comprehensive enrollment management plan that will involve all sectors of the University in the process of attracting, enrolling, and retaining students. The Associate Dean plays a key role in these efforts, working closely with the Provost, Vice President for Academic Affairs, and other administrators to ensure the success of the enrollment management strategy.

DIRECTOR OF INSTRUCTION AND RESEARCH TECHNOLOGY

The Director of Instruction and Research Technology provides vision, leadership, and management in support of the use of information technology in teaching and research. The Director works with the academic community to enhance curricular and research activities through the use of information technology. Responsibilities include management of public access computing facilities, training programs for faculty, oversight of institutional resources, and coordination of related grant proposals and other documents. The Director is responsible for the development and implementation of the University's information technology strategy, ensuring that the needs of the academic community are met.

Requirements for these positions include a minimum of three years of administrative experience in higher education, a leadership style, and strong interpersonal skills. The successful candidate will possess strong analytical skills and the ability to work collaboratively with faculty, staff, and external partners.

ASSOCIATE DEAN OF ENROLLMENT MANAGEMENT

The Associate Dean of Enrollment Management is responsible for the planning, implementation, and evaluation of enrollment management strategies. This position involves working closely with the Provost, Vice President for Academic Affairs, and other administrators to ensure the success of the enrollment management strategy. The Associate Dean will possess strong analytical skills and the ability to work collaboratively with faculty, staff, and external partners.

DIRECTOR OF INSTRUCTION AND RESEARCH TECHNOLOGY

The Director of Instruction and Research Technology is responsible for the planning, implementation, and evaluation of instructional and research technologies. This position involves working closely with the Provost, Vice President for Academic Affairs, and other administrators to ensure the success of the instructional and research technology strategy. The Director will possess strong analytical skills and the ability to work collaboratively with faculty, staff, and external partners.

ASSOCIATE DEAN OF ENROLLMENT MANAGEMENT

The Associate Dean of Enrollment Management is responsible for the planning, implementation, and evaluation of enrollment management strategies. This position involves working closely with the Provost, Vice President for Academic Affairs, and other administrators to ensure the success of the enrollment management strategy. The Associate Dean will possess strong analytical skills and the ability to work collaboratively with faculty, staff, and external partners.

DIRECTOR OF INSTRUCTION AND RESEARCH TECHNOLOGY

The Director of Instruction and Research Technology is responsible for the planning, implementation, and evaluation of instructional and research technologies. This position involves working closely with the Provost, Vice President for Academic Affairs, and other administrators to ensure the success of the instructional and research technology strategy. The Director will possess strong analytical skills and the ability to work collaboratively with faculty, staff, and external partners.
DEAN
COLLEGE OF EDUCATION

The Ohio State University invites nominations and applications for the position of Dean of the College of Education. The Dean is the chief administrative and budgetary officer of the College and reports directly to the Senior Vice President and Provost. The College has approximately 135 regular faculty members in three schools. There are also several interdisciplinary centers associated with the College. In addition to instrumental programs on the Columbus Campus, the College has teacher education programs on the four regional campuses of the University.

The College of Education is an innovator in community-school and university partnerships, teacher education reform, urban education, and educational policy studies. Peer institutions and professional organizations recognize the College’s standards of excellence, and its graduate programs have been among the top ten of the U.S. News and World Report surveys for the past five years. The Ohio State University is a major research institution and the flagship university of the state’s higher education system. It is located in the state capital, Columbus, a growing, but highly affordable metropolitan area of about 1,500,000 people. Columbus has been ranked as one of the country’s best places to live and work.

The new Dean must have an excellent vision for the future, a strong commitment to scholarship and research, outstanding leadership skills and a drive to move the College forward. Qualifications for the position include a distinguished record in research, teaching, and service; demonstrated excellence in leadership and administration; and a clear record of effective commitment to and support of cultural and ethnic diversity. Candidates should provide evidence of strong abilities to relate to and work effectively and collaboratively with the faculty of the College, the University administration, and other constituent groups both within and outside the University. Candidates should be qualified for appointment as Professor in one of the units of the College.

The position will be available July 1, 1999. Salary and other considerations will be consistent with the commitment of The Ohio State University to recruit the best qualified individual. To assure full consideration, applications and nominations should be received by November 30, 1998. The Search Committee will begin screening dossiers on that date and will continue to review applications until the Dean is selected. Applicants should send a letter, curriculum vitae, and the names and addresses of at least three references to:

Alan G. Goodridge, Chairperson
Search Committee for College of Education Dean
105 Biological Sciences Building
484 West 12th Avenue
Columbus, OH 43210-1292

UIC
DEPARTMENT OF ELECTRICAL ENGINEERING AND COMPUTER SCIENCE
FACULTY POSITIONS

The EECs Department invites applications for tenure-track faculty at all levels, as well as instructors. A Ph.D. degree in Electrical Engineering, Computer Engineering, or Computer Science or its equivalent is required for tenure-track positions. Outstanding candidates in all areas of EECs will be considered but we are especially interested in the following areas: computer networks, communication systems, wireless systems, multimedia systems, operating systems, computer system security, hardware/software co-design, MCM, CAD, power electronics, computer architecture, object-oriented design and systems, computer graphics, HCI, collaborative design, intelligent agents, interactive learning environments, VLSI, high-assurance systems, robotics and control systems. All the candidates should have outstanding research and teaching potential.

UIC is a growing research university and the largest institution of higher education in the Chicago area. The EECs Department has 50 faculty members and 500 graduate students, and offers BS, MS, and PhD degrees. The department has an annual research expenditure of over $15 million and a faculty that consists of twelve IEEE or ACM Fellows. The department’s computing resources include over 200 workstations, and over 25,000 square feet of research space, much of it in a new engineering research building. For more information about the department, visit our web page at http://www.eecs.uic.edu.

The UIC campus is located near downtown Chicago, and is close to other research institutions and universities. Chicago offers all the cultural amenities of a major city and a wide range of affordable housing.

For full consideration, send a vita and the names and addresses of at least three references by March 15, 1999 to:

Prof. Jeffrey J. P. Tsai, Search Committee Chair, Department of EECs (MC 154),
851 S. Morgan Street, Room 1120 SEO, Chicago, Illinois 60607-7053.

The University of Illinois at Chicago is an Affirmative Action/Equal Opportunity Employer.

COLUMBIA UNIVERSITY
THE CITY OF NEW YORK
SCHOOL OF SOCIAL WORK

The Columbia University School of Social Work invites nominations and applications for:

ASSISTANT PROFESSORS, ASSOCIATE PROFESSORS OR PROFESSORS
Tenure and Tenure Track

Ohio State University Office of Equal Opportunity
Affirmative Action Officer
Qualified women, minorities, Vietnam veterans, and the disabled are encouraged to apply.
MICHIGAN STATE UNIVERSITY
PSYCHOLOGY/LATINO STUDIES

The Department of Psychology and the Julian Samora Research Institute of Michigan State University invite applications for a tenure-system position at the rank of Assistant Professor specializing in CHICANO/LATINO Studies. The candidate will be jointly appointed by Psychology, the tenure home department, and the Julian Samora Research Institute. The Midwest's premier policy research and outreach center to the Hispanic community. Applicants with a Ph.D. in any area of Psychology will be considered, women and minority-group candidates are strongly urged to apply. The individual must have a strong research program capable of attracting extramural support. In addition to teaching in the Department of Psychology, the candidate will work with graduate and undergraduate students in an advisory capacity, and participate in other faculty activities including student mentoring. The position involves a 50% teaching release for the first three years to allow work to advance the Institute's mission, to promote the generation of scholarship on Latinos, and to advance the Ethnic Studies goals of the College of Social Science and the University. The position begins August 16, 1999. Salary and rank will depend on the candidate's qualifications and experience. Review of applications will begin December 1, 1998 and continue until a suitable candidate is identified. Send a letter of application, vita, three letters of reference to: William S. Davidson II, Chair, Chicano/Latino Studies Search Committee, Department of Psychology, Michigan State University, 129 Psychology Research Bldg., East Lansing, MI 48824-1117.

MSU is an AA/EO employer.

LOGISTICS
"Teaching Professor"

The Robert H. Smith School of Business, University of Maryland at College Park, has an opening for a long-term, non-tenure-track faculty member to begin Fall '99. Requirements include Ph.D. in Logistics or related area. The appointment will be as a lecturer with a 1-year renewable contract, subject to performance review. Emphasis will be on high quality teaching, with a teaching load of 3-4 courses per semester. Certain student support and service responsibilities will be expected.

Reply to Curt Grimm, Chair, Search Committee, Robert H. Smith School of Business, University of Maryland, College Park, MD 20742-1815. For full consideration, applications should be received by Nov. 30, 1998. Please send vita, letters of reference and evidence of teaching ability.

For more information about the College, Logisticts department and programs, please consult our Web Site:

www.rhsmith.umd.edu

The University of Maryland is an Equal Opportunity/Affirmative Action employer. Applications from women and minorities are strongly encouraged.

CENTRAL MICHIGAN UNIVERSITY
DEAN OF THE COLLEGE OF EDUCATION AND HUMAN SERVICES

CENTRAL MICHIGAN UNIVERSITY is a comprehensive state university with over 800 faculty serving an enrollment of approximately 26,000 students. The institution is nationally recognized for offering one of the most extensive off-campus learning programs in North America. The program serves more than 10,000 off-campus students in North and South America utilizing an additional 1,200 adjunct faculty. The university has eight colleges and offers more than 20 undergraduate and graduate degrees and 150 major areas of study. The main campus is situated on an 854-acre site in Mount Pleasant, a city of 25,000 residents located in the heart of the lower peninsula of Michigan.

The college is searching for an outstanding leader with the vision to assist the university's efforts to move into the next century as an exemplary model of a modern, technologically-based institution with a major focus on student learning outcomes. The dean is the chief academic officer of the college and reports directly to the provost. The successful candidate will be expected to provide vision and leadership in the planning and delivery of high quality instructional, research and service programs. The dean is accountable for managing college resources and curricula to achieve the mission of the college and the university. The dean should be outcomes oriented and promote effectiveness and efficiency in the pursuit of college and university goals.

The college includes the departments of Counseling and Special Education, Educational Administration and Community Leadership, Human Environmental Studies, Recreation, Parks & Leisure Services and Teacher Education and Professional Development. The dean serves as the official head of the unit for the university's NCATE accredited teacher preparation programs. The university's Office of Charter Schools also reports to the dean. Instruction in the college is offered through the doctoral level. There are approximately 125 regular and temporary faculty and 1700 undergraduate and 600 graduate students in the college.

Qualifications for the position include an earned doctorate; a record of academic excellence in teaching and scholarly activity sufficient to achieve tenure within a department in the college; a record of outstanding leadership and administrative skills; budgetary planning and fiscal management experience; and a record clearly demonstrating the dean's commitment to participatory decision-making, diversity and affirmative action.

REVIEW OF APPLICATIONS: For the above vacancy begins November 16, 1998 and will continue until the position is filled. The anticipated starting date will be July 1, 1999. Candidates should send a letter of application, resume, statement of their educational and administrative philosophy, and the names, addresses and phone numbers of three to five references. Inquiries, nominations and applications should be forwarded to: Office of the Provost, Dean's Search, Warriner Hall 112, Central Michigan University, Mt. Pleasant, MI 48859 Tel (517) 774-3332 Fax (517) 774-2042.

AN EQUAL OPPORTUNITY AFFIRMATIVE ACTION EMPLOYER.
Plattsburgh State University of New York invites applications for Fall 1999 tenure track positions.

Plattsburgh State University of New York is a comprehensive, coeducational, public institution of nearly 6,500 undergraduate and graduate students. Located on the shore of Lake Champlain, the College is the intellectual and educational center for the Lake Champlain/Adirondack region of New York State. The small city character of Plattsburgh and neighboring Burlington, VT provides a quality of life unsurpassed for the whole family. Outdoor activities abound along Lake Champlain, in the Adirondack High Peaks and nearby Olympic resort village of Lake Placid while the urban, multicultural lifestyle is rich in neighboring Montreal, Canada. One hour’s drive from campus. Plattsburgh is easily accessible to New York City and Boston via air, bus, train and Interstate 87.

Successful candidates must be committed to excellence in teaching in an undergraduate institution offering programs in the arts and sciences, education, human and health services, business and economics with an understanding of and sensitivity to minority and gender concerns. Selected candidates will have an interest in interdisciplinary and collaborative programs such as Women's Studies, Latin American Studies and Canadian Studies, all of which are special focus for the College, a desire to integrate information technologies and a willingness to participate with new distance learning programs.

The faculty is challenged to redefine their teaching roles by incorporating recent research on teaching effectiveness. The college supports faculty scholarship through the NYS/UUP bargaining agreement, minority and women faculty may apply for one-year Affirmative Action leaves to pursue scholarly projects. Other faculty funding opportunities include joint State/Union travel grants and College funded mini-grants to provide seed funding for research activities, Reddy Teaching Enhancement Awards, Presidential Research Awards and Educational Technology Awards.

We offer a competitive salary and an excellent benefits package. Unless otherwise stated, review of applications begins immediately and continues until position is filled.

Application Procedure: Please send or fax cover letter, resume or curriculum vitae, transcripts, and three letters of recommendation to: Chair, Search Committee (P#—____) c/o Personnel, Plattsburgh State University of New York, 101 Broad Street, Plattsburgh, NY 12901-2681. Fax # (518) 564-4600.

WOMEN & RACIAL MINORITIES ENCOURAGED TO APPLY.

BUSINESS & ECONOMICS

Accounting (P# 2210-808) ASSISTANT PROFESSOR - Qualifications: a doctoral degree (or near completion) in Accounting from an AACSB accredited school. CPA, CMA and other certifications desired. Responsibilities: a commitment to teaching excellence, understanding of and sensitivity to minority and gender issues, ability to publish high-quality research. Primary teaching interest should include Accounting Information Systems.

PROFESSIONAL STUDIES

Counselor Education (P# 2233-808) ASSISTANT PROFESSOR - Qualifications: Earned doctorate in Counselor Education or closely related field; graduation from a CACREP accredited program, NCC credential, relevant experience in the profession, especially student affairs practice (counseling, teaching, involvement in professional organizations), and evidence of potential for skilled teaching and scholarly activity. Dean
College of Arts and Sciences

American University invites applications and nominations for the position of Dean of the College of Arts and Sciences. The Dean is the chief academic and administrative officer of the College and reports to the Provost.

The University seeks an outstanding, seasoned, and experienced academic leader. The successful candidate will be an experienced administrator with strong management skills and a record of success in academic administration. The candidate will possess a commitment to excellence in teaching, scholarship, and service, and will be able to articulate a vision for the future of the College of Arts and Sciences.

American University offers a unique and dynamic environment for teaching and research, with a strong focus on interdisciplinary collaboration and a commitment to social justice and public service. The College of Arts and Sciences is home to over 10,000 students and over 300 faculty members, and offers a wide range of undergraduate and graduate programs.

The successful candidate will be expected to:
- Lead the College in the development and implementation of strategic initiatives to enhance the academic and research programs.
- Foster a culture of excellence in teaching and scholarship, and promote diversity and inclusion in the College.
- Represent the College in external engagements, and enhance the University's reputation for academic excellence.
- Work closely with the Provost and other senior administrators to advance the University's strategic goals.

American University is committed to diversity and inclusion in its workforce. Women and minorities are encouraged to apply.

Interested candidates are invited to submit a letter of application, curriculum vitae, and names and contact information for three references to the Search Committee. Applications will be accepted until the position is filled.

Northwestern University invites applications and nominations for the position of Dean of the School of Law. Located in Boston, Northeastern is a Carnegie Research II university that is student-centered, practice-oriented, and urban. Founded in 1898, the University is a world leader in legal education, offering diverse curricula and research programs and has an overall student enrollment of 27,500. Northeastern University operates the largest cooperative education program in the country.

The Dean is the chief academic and administrative officer of the School of Law and reports to the Provost and Senior Vice President for Academic Affairs. The Dean is responsible for long-range planning, academic leadership, curricula, budgets, personnel matters, and representing the School of Law within and outside of the University and promoting its national and international reputation.

Northeastern University's School of Law, founded in 1889, is committed to addressing the needs of students and of society. It has a reputation for academic excellence and is a nationally recognized leader in public interest law. The School offers the following clinical programs: Criminal Appeals, Criminal Advocacy, Domestic Violence, Poverty Law, and Practice, and tin Rights. It is home to the following institutes and research centers: Urban Law and Public Policy Institute, Domestic Violence Institute, Tobacco Products Liability Project/Tobacco Control Resource Center.

American University is an Equal Opportunity, Affirmative Action, Title IX Employer.

Teach upper undergraduate and M.A. courses in comparative theory and method, Middle East politics and comparative politics of the Middle East. Job # 1-PS

2) DEVELOPMENT: specialist in development theory with practical experience in Third World development issues. Teach undergraduate and M.A. courses in development studies and international development organizations. Job # 2-PS

3) INTERNATIONAL RELATIONS OR POLITICAL THEORY: one possible opening in international relations or political theory to teach courses in international relations theory, strategic theory, and international organizations. All applicants must show interest in and willingness to teach introduction to political science. Several department faculty are required to teach in the sophomore seminar, a broad-based interdisciplinary seminar required of all AUC students. Job # 3-PS

CULTURAL ANTHROPOLOGY. One possible opening to teach cultural anthropology in a multicultural environment and in a framework of a liberal arts curriculum, and to participate in the sophomore seminar, a broad-based interdisciplinary seminar required of all AUC students. Ability to teach courses in general culture and culture is a definite plus. Other specialties may include theory, ethnographic method, medical anthropology, and/or nationalism and post-colonial cultures. Job # 1-AN

COMPUTER SCIENCE. One or more openings to teach computer science at the undergraduate and M.Sc level courses in the areas of software engineering and artificial intelligence. Job #1-CS

ENGINEERING. All the Engineering degree programs are accredited by the Accreditation Board for Engineering and Technology (ABET).

1) CONSTRUCTION ENGINEERING. Several openings to teach undergraduate and M.Sc-level courses and conduct research in the following areas: construction management and technology, structural analysis and design of steel and concrete structures, and hydraulics and sanitation. Job # 1/2-CNGR

2) MECHANICAL ENGINEERING. Several openings to teach undergraduate and M.Sc-level courses and conduct research in the following areas: industrial engineering, materials and manufacturing, design of mechanical systems and components, and thermodynamics processes and systems. Job # 1/4-MINGR

BIOLOGY. Two openings to teach undergraduate courses in the areas of cell biology, molecular biology, cell genetics, and microbiology. In addition to their specialty, appointees will be expected to teach courses in general biology and scientific thinking. Job # 1/2-BIOL

PHYSICS. Two openings for physicists to teach all levels of undergraduate physics, including laboratories and electronics courses, and to conduct scholarly research involving students. Particular consideration will be given to candidates with a proven ability to participate actively in teaching. Job # 1/2-PHYS

LIBRARY: UNIVERSITY ARCHIVIST. This position will be responsible for a program to develop, organize, preserve, and provide access to the University Archives according to standard procedures in an automated environment, and for supervising the processing of special archival collections acquired by the Rare Books and Special Collections Library. Applicants must have graduate degree in archival administration, library science/information management, or the equivalent (second Master's degree desirable). Minimum three years professional experience preferably in archival administration, and ability to communicate well in spoken and written English. Working knowledge of Arabic and other languages helpful, computer literacy and familiarity with contemporary archival standards and procedures essential. The position is open now, and will be filled as soon as possible, preferably by January 1999. JOB # 1/1-ARLB.

THE AMERICAN UNIVERSITY IN CAIRO

DIRECTOR, WRITING PROGRAM

Pending approval and funding, the University of San Francisco invites applications for a director of the Master of Arts in Writing Program, anticipated for Fall, 1999. Responsibilities: The director provides leadership and support in the areas of admissions, advising, curriculum, teaching, program quality and visibility, and faculty recruitment and development. The director will teach one course per semester plus a summer course. Qualifications: University teaching experience, evidence of scholarship, administrative experience, an M.A. or Ph.D. by Fall 1999, experience and willingness to work in a culturally diverse environment, and an understanding of and commitment to support the mission of the University. Must possess strong academic and professional leadership qualities characterized by collegial decision-making, and outstanding interpersonal and communication skills. Must evidence special expertise and practical experience in developing high-quality academic programs in writing.

We particularly encourage minority and women applicants. USF is an EEO/AA Employer, and will provide reasonable accommodations for individuals with disabilities upon request.

Submit letter of application, curriculum vitae, graduate transcripts, statement of teaching philosophy, evidence of teaching ability including teaching evaluations, three letters of recommendation to:

Jennifer Turpin, Associate Dean
College of Arts and Sciences
University of San Francisco
2130 Fulton Street
San Francisco, CA 94117-1080

Consideration of Applications will begin on January 15, 1999, and continue until the position is filled. USF is a Catholic, Jesuit sponsored institution and particularly welcomes candidates who will positively contribute to such an environment.

### Qualifications

- Must be a current student at the university.
- Must be a current major in the field of study.
- Must have a minimum GPA of 3.0.
- Must have completed at least one year of study at the university.
- Must have demonstrated leadership skills in prior academic positions.

### Appointment Process

- Application deadline: December 1, 2023.
- Interviews: January 15, 2024.
- Decision: February 1, 2024.

- The position is full-time and includes an annual stipend of $30,000.
- The University is committed to providing a comprehensive range of benefits to all employees.
Dean of Arts and Sciences
(98229)
(Extended Search)
Palo Alto College, one of four colleges in the Alamo Community College District and a Hispanic Serving Institution, is situated in a diverse urban community within the nation's tenth largest city.
A comprehensive community college with an enrollment of 7,300, Palo Alto College has strong programs in liberal arts and applied sciences and maintains transfer articulation agreements with senior colleges/universities in Texas and outside of Texas. The College has established a national reputation in transfer programs, learning resource technology, and is the use of a nationally recognized Program which has local, state, and national swimming and diving competitive teams.
This position is expected to serve as a team leader in concert with the College President, faculty and staff. The successful candidate will have the vision and energy to address academic issues of the 21st century and have demonstrated commitment to diversity, innovation, international programs, and distance learning.
- Master's degree (Doctorate in a job-related area strongly preferred)
- 3 years full-time arts/sciences teaching
- Instructional administrative experience preferably at a community college with a diverse population
- Budget and planning experience
- Knowledge of principles and practices related to curriculum and program development and evaluation
- Excellent communication and organization skills.

Please deliver or postmark application package by November 20, 1998: (1) cover letter indicating position title and reflecting your views of the position's role in a culturally diverse community college and how you can make a difference and how your background can serve as a positive influence for a diverse student population, (2) comprehensive resume, (3) three letters of recommendation, (4) legible copy of transcripts.

Jersey City State College Is Now...

New Jersey City University

Welcome To New Jersey City University

As a public liberal arts university dedicated to excellence, we have provided quality, accessible education in New Jersey's second largest city since 1929. Our new designation as New Jersey City University underscores our urban mission and provides recognition that, for the past decade, our fine undergraduate and graduate degree programs have met the national requirements for comprehensive university status. With our mission and academic goals clearly stated, New Jersey City University has reached a defining moment in the history of New Jersey higher education.

College Education: The Ticket to the Middle Class

By Gustavo A. Mellander

Seventy-five percent of Americans believe that getting a college education is more important today than it was ten years ago, according to a survey commissioned by the newly established National Center for Public Policy and Higher Education. The center has offices in San Jose, California, and Washington, D.C.

Public opposition to tuition increases is overwhelming. Eighty-five percent of survey respondents are convinced that students and families are currently doing all they can to pay for college. Americans are evenly divided—with little consensus—on who should do more to absorb additional costs—colleges and universities, taxpayers, or both. Furthermore, 89 percent of the American public believes that no qualified and motivated student should be denied a college education because of cost.

The study found that while Americans are still concerned about access to higher education, public anxiety about students being shut out of college has diminished somewhat since the recession of the early 1990s, when the earlier survey about American attitudes toward higher education was conducted.

In addition, Americans believe that students from low-income families comprise the group most likely to be shut out of college.

"Middle-class Americans themselves are not without concern about the affordability of higher education for their children," said Patrick Callan, long a spokesperson for causes that affect Hispanics, and the President of the National Center. "However, they acknowledge that low-income groups face the greatest barriers to opportunity."

"The findings also suggest that low income is more likely to be perceived as a problem for access to higher education than is race or ethnicity," Callan said.

An overwhelming percentage of Americans, 91 percent, believe that the benefit a student derives from college depends mostly on the amount of effort he or she puts into it, compared to "1 percent of respondents who thought so in 1993.

The National Center for Public Policy and Higher Education is an independent, nonprofit, nonpartisan organization. It has received funding commitments of nine million dollars from national philanthropic organizations, spearheaded by the Pew Charitable Trust. The National Center is not affiliated with any institution of higher education or any government agency. Callan said that it will focus particularly on the following questions:

- Who should be served by higher education?
- How should financial responsibility for college be shared among students and families, higher education institutions, and state and federal policy makers?
- What are the most effective and productive ways for government to invest in higher education?
- How can public policies encourage cost effectiveness in higher education?
- How can state and federal policies stimulate and encourage increased quality?

Other survey findings include the following:

- Today, 48 percent of Americans think that a college education is more difficult to obtain now than it was ten years ago. Thus number is down from 55 percent in 1993, when much of the country was mired in recession and when tuitions were rising sharply.
- 86 percent believe that high school graduates should go on to college because in the long run they will have better job prospects, compared to 79 percent in 1993.
- 85 percent think it is a fair idea to raise college prices up from 80 percent in 1993.
- 87 percent expressed concern that students are incurring too much debt to meet college costs, compared to 81 percent in 1993.
- 77 percent agree that students appreciate the value of a college education more when they have some personal responsibility for paying for it.
- When considering who should pay for increased costs and demands in higher education, 51 percent think that higher education should bear more of the burden through teaching more classes and cutting costs, and 49 percent believe that taxpayers and state government should absorb a greater share of the costs.

"What emerges from the research is a classic public policy dilemma," said John Immerwahr, the author of the report. "People don't want families and students to pay more. They don't like higher taxes. They see the goal, they believe the goal, but they aren't sure how to get there," he said.

Immerwahr is senior research fellow of Public Agenda and Assistant Vice President of Academic Affairs at Villanova University.

Copies of the report are available from the National Center for Public Policy and Higher Education. (408) 371-2699. The complete survey questionnaire and results can be ordered from Public Agenda for $20.00 by calling (212) 680-0610 or via <www.publicagenda.org>. The 1993 survey, *The Closing Gateway*, is available from the California Higher Education Policy Center's Web site at <www.policycenter.org>.

Dr. Mellander is a professor at George Mason University.
Letter from the Publisher

November 20, 1998

Dear Colleagues,

Welcome to the 1998 Publisher’s Picks – a list of colleges and universities nationwide that in our view offer outstanding opportunities to Hispanic students. Started in 1995, the Publisher’s Picks list is growing, as more and more institutions of higher education put in place those programs that help Hispanic students to persist and to prosper in academia.

To compile the list, Hispanic Outlook consults both formal and informal information sources – surveys completed by the institutions themselves, information reflected in their catalogs and literature, statistics compiled by the U.S. government, and anecdotal evidence garnered from students, faculty, administrators, and advocates of both education and of Hispanic achievement.

A challenging fact emerged in a recent report by the American Council on Education. Despite growth in Hispanic faculty hires and degrees conferred, the 1996 college participation rate for Hispanic high school graduates is nearly identical to the rate posted in 1976 – 35 percent compared to the earlier 35.8 percent.

As more colleges and universities put out the welcome mat to Hispanics, we believe more of our young people, their parents, and their counselors will begin to view higher education as an attainable dream.

The first winners of the Hispanic Outlook Scholarship are identified in this issue (on page 28) and the scholarship now enters its second year.

Our issues are filled with evidence of Hispanic achievement, often under adverse conditions. We salute all who refuse to yield to that adversity.

Les aplaudimos!

Reports Gains in Minority Enrollment and Graduation
And Suggests New Variables for Student Assessment

BY HÉCTOR GARZA

Héctor Garza, who holds a bachelor's, master's, and doctorate from the University of Michigan, has worked on behalf of minorities for more than two decades. Executive Director of Michigan's first Commission on Spanish Speaking Affairs, he moved on to Eastern Michigan University, the University of Michigan, and, in 1993, to the American Council on Education. His recent selection by Hispanic Business Magazine as one of the 100 Most Influential Hispanics in the U.S. was preceded by awards from La Raza, HACU, and Hispanic organizations, the State of Michigan, several universities, the U.S. Department of Agriculture, and more. Recruitment, retention, educational reform, race relations, and empowerment are but a few of the issues on which he has lectured and published. At ACE, Garza oversees its Office of Minorities in Higher Education, the Office of Women in Higher Education, the HEATH Resource Center and Clearinghouse, and the Divisional Senior Fellows in the Office of the Vice President.

While for the past two decades Latinos have continued to make progress in enrollments and degree attainment, the numbers continue to lag behind their overall representation in the population. In 1997, Hispanics represented only 9 percent of all undergraduates, 4 percent of all graduate students, and 5 percent of all students at professional schools. The Latino population in postsecondary education remains relatively small, and these data suggest that most colleges and universities have yet to do an adequate job in recruiting and graduating Hispanic students.

That is why we at ACE continue to monitor the progress of minority student participation in higher education and continue to believe that we have a moral duty to ensure that students of all races have a chance to attend college, develop their skills, enter the economic mainstream, and make a real contribution to society. We also have a responsibility to educate the future workforce of this country.

Recently the Chairman of the Federal Reserve Board, Alan Greenspan, was quoted as saying: "We must find ways to prepare the more racially and culturally diverse pool of young people who will be flowing into jobs and operating businesses in the 21st Century.

And Greenspan's message has been repeated many times by corporate leaders. Today, as America faces intense pressures to maintain its strong global economic hold, this imperative is even more important.

We at ACE will continue to make the case that diversity matters in college admissions. It matters who is sitting next to you in class—because it plays an essential role in receiving a high quality education. A diverse mix of students ensures a diversity of perspectives and opinions and life experiences, and these interactions create meaningful learning. We know that learning is a social process and that students learn by interaction with other people. It matters who lives next to you in the dorm because a diverse student population enriches a student's campus experience and education, and better prepares him or her to deal with the complexities of our multicultural society.

Let me say also that it is not just educators and business leaders who believe that diversity is important to student learning. Students also say that diversity makes for an excellent education. The research is very clear on this.

When colleges emphasize diversity, students report that they are more satisfied with their experience on campus, that they become more accepting of racial and cultural differences, and that they are much more likely to create friendships with people from other races and ethnicities. They have higher rates of academic achievement in all subjects and are more likely to stay in school and finish their degrees. And when there is diversity, it is not just minority students who benefit; the research shows that all students are positively affected by diversity programs on campus.

By emphasizing diversity, colleges help students to feel that they are participating in a legitimate democracy—that they truly belong to an American community.

The recent decision to end affirmative action admissions in some states is troublesome. We at ACE will continue to work with our member institutions to help them expand access and opportunities for women and people of color.
More students of color are enrolling in colleges and universities and earning degrees, but the rate of growth has slowed in recent years, according to The Sixteenth Annual Status Report on Minorities in Higher Education, released recently by ACE, the American Council on Education.

"ACE and our Office of Minorities in Higher Education, has for almost two decades advocated for the need to maintain student diversity at our nation's college and universities," says ACE vice president Héctor Garza. "The data provided in the Status Report suggests that while we have made some progress in achieving that goal, we have a lot more to do to ensure that ethnic minorities have full access to a good education."

According to the report, the enrollment rate for these students rose by 3.2 percent from 1995 to 1996 (the latest year for which data are available), up slightly over the 2.9 increase between 1994 and 1995, but lower than the 4.6 percent gain of 1993-94 and the "1 increase for 1991-92"

The data show that students of color also earned more postsecondary degrees in 1995 (the latest year for which degree data are available), posting an 8.5 percent increase in associate degrees earned: 6.6 percent in bachelor's; 9.3 percent in master's; and 6.8 percent in first-professional degrees. The gains, however, were smaller than those of 1994, when increases ranged from 11 percent for master's to 8.5 percent for bachelor's.

"The gains that students of color have made in higher education is good news for the future health of our nation," said ACE President Stanley O. Ikenberry, who, like Garza, noted that "much work remains to be done."

Last year, California's voter-approved Proposition 209 banned the use of affirmative action policies by all state agencies. A year earlier, the 1996 Hopwood legal decision prohibited all postsecondary institutions in Texas from considering race in college admissions decisions. The affirmative action bans in both states have had a negative impact on minority postsecondary enrollment.

The ACE report, written by Deborah J. Wilds, deputy director of ACE's Office of Minorities in Higher Education, and Reginald Wilson, ACE senior scholar emeritus, presents data on high school completion, college participation, and educational attainment rates of Whites, African Americans, and Hispanics. Similar data on Asian Americans and American Indians are not included as the survey sample is too small to provide reliable statistics.

But the report contains information on enrollment, degree attainment, and employment rates for the four major ethnic minority groups. The analysis is based on data from the U.S. Department of Education, the U.S. Bureau of the Census, and the U.S. Equal Employment Opportunity Commission.

William E. Sediak, professor of education, director of testing, and assistant director of the counseling center at the University of Maryland-College Park, prepared the special focus section.

The Status Report was published with a grant from The Coca-Cola Foundation, which has made significant contributions to programs and scholarships for students of color, and will have contributed $100 million to education during the 1990s.

Among the findings:

FACULTY

- The number of full-time faculty of color at the nation's colleges and universities increased by 4.5 percent from 1985 to 1995.
compared to a 9.9 percent increase in White faculty. And by 6.9 percent between 1993 and 1995, compared with a 0.1 decline in White faculty.

- Despite these gains, persons of color remained severely under-represented among faculty, accounting for only 12.9 percent of full-time faculty and 9.6 percent of full professors in 1995.

- The number of faculty of color employed as full professors increased by nearly 7 percent between 1993 and 1995, while the rate for Whites remained largely unchanged.

- Faculty of color made 10 percent gains between 1993 and 1995 at the associate level and 8.6 percent at the assistant professor level.

- The number of Hispanic full-time faculty increased by 7.2 percent from 1993 to 1995, but these persons represented only 2.4 percent of all full-time faculty in 1995, up only slightly since 1993.

- African Americans represented 5 percent of all faculty in 1995; about the same share they held in 1993.

- Asian Americans experienced the largest increase in full-time faculty (91 percent) between 1993 and 1995, and accounted for 5.1 percent of all full-time faculty, up from 4.7 percent in 1993.

- The number of American Indian full-time faculty surpassed 2,000 in 1995—an 8 percent increase from 1993 and a 46 percent increase over the past decade. But this group represented less than one half of 1 percent of all full-time higher education faculty in 1995.

**HIGH SCHOOL COMPLETION**

- In 1996, Hispanics continued to trail both Whites and African Americans. The completion rates for students 18 to 24 were: Whites, 82.3 percent; African Americans, 75.5 percent; Hispanics, 57.5 percent.

- The H.S. completion rate for African Americans has risen nearly 8 percentage points from 1976 to 1996, all attributable to pre-1990 gains. The rate for Hispanics has fluctuated significantly over the past 20 years, and the 1996 rate is only slightly higher than that of 1976 (55.6 percent).

**COLLEGE PARTICIPATION 18 to 24**

- Following a decade of decreases in the 1980s, the nation's traditional college-age population (18 to 24) has been relatively steady over the past six years. But the college participation rate for White students has risen more than 10 percent during the past two decades.

- The 1996 participation rate for Hispanic H.S. grads (35 percent) was nearly identical to that of 1976 (35.8 percent) and 1995 (35.3 percent). But the rate has fluctuated during the past 20 years, and Hispanics have experienced a gain of 6 percentage points since 1990.

- The African American rate was 35.0 percent in 1996, about 7 percentage points higher than a decade ago, but only slightly higher than the 1976 percentage of 33.5.

**EDUCATIONAL ATTAINMENT 25 to 65**

- Nationally, the 1996 proportion of adults 25 to 65 who had com
completed H.S. was largely unchanged from a decade ago (87.3 percent vs. 86.1), while the proportion of adults who had completed four or more years of college rose modestly (27.1 percent, up from 22.4).

- Despite year-to-year fluctuations, African Americans have narrowed the gap with Whites: 87.5 percent for Whites vs. 83.6 for African Americans in 1996 and 84.4 vs 86.5 in 1995.

- Hispanics continued to significantly lag behind the two groups, posting a 61.1 percent high school completion rate in 1990.

- In 1996, 28 percent of Whites ages 25 to 29 had completed four or more years of college, 14.6 percent of African Americans, and 10 percent of Hispanics in this age group.

### College Enrollment

- Enrollment of students of color increased in 1996: by 3 percent for undergrads, by 3.7 percent for graduate students, and by 29 percent at the first-professional school level.

- Hispanics recorded the largest overall college enrollment gains among minority groups, 53 percent. African Americans continued to experience the smallest.

<table>

<td>34.5%</td>
</tr>
</tbody>
</table>

- One-year gains for Asian Americans were 3.4 percent, and for American Indians, 2 percent.

- Hispanics also recorded the largest five-year gains—a whopping 32.5 percent: African Americans, the smallest, 10 percent; Asian Americans gained 27 percent; American Indians, 10.2.

- Hispanics also posted the largest one-year and five-year gains in graduate school enrollment (6.8 and 42.7 percent), followed by African Americans (5.8 and 41.1).

- Asian Americans had the lowest one-year gain in graduate enrollment, 4.5 percent, but over a five-year period, their rate rose by 3.2 percent. The one-year gain for American Indians was 5.1 percent, and the five-year gain was 34.5 percent.

- Students of color have made significant gains in enrollment in professional schools in recent years—a 35.7 percent increase between 1991 and 1996—but data indicate a leveling off or possible decrease in the near future. Only Asian American students experienced significant gains in this category (6.2 percent) between 1995-96. During this period, White enrollment decreased by 1 percent.

### Degrees Conferred

- Overall, students of color earned 18 percent of all bachelor's degrees awarded in 1995, up 1 percentage point.

- Hispanics recorded a 12.3 percent increase in associate degrees conferred: 29 for bachelor's; 8.3 for master's; and 31 percent at the first-professional degree level.

- American Indians experienced the largest one-year gain among the groups at the associate level.

**The number of Hispanic full-time faculty increased by 7.2 percent from 1993 to 1995, but these persons represented only 24 percent of all full-time faculty in 1995, up only slightly since 1993.**
12.7 percent. However, American Indians earned 1 percent or less of degrees earned at all levels.

- Doctorates earned by students of color overall did not increase from 1994 to 1995, but did increase 4.1 percent over the decade.
- Doctorates received in 1996 by American Indians rose by 24.8 percent over 1995; by Hispanics, 3.4 percent; and by African Americans, 0.5 percent.

**USING NONTRADITIONAL ASSESSMENT MEASURES IN ADMISSIONS**

Higher education officials are urged to broaden their evaluation of potential students when making admissions decisions.

The special focus section of the ACE report explores the cognitive and noncognitive assessment variables in higher education admission. Noncognitive variables, such as leadership skills and self-esteem, refer to students' motivation, perceptions, and ability to adjust to circumstances and environments, and are not evaluated by traditional assessment measures. Cognitive variables, such as verbal and quantitative skills, are measured by grades and standardized test scores.

Research has shown that noncognitive variables can provide insight into a person's ability to succeed in postsecondary studies—especially for students of color and women who are more likely than White males to be held to demonstrate their intelligence in ways not encouraged by traditional assessment tools.

Their use in admissions decisions could result in a more equitable process and likely would increase the number of students of color admitted to higher education institutions, as well as the likelihood that these students would succeed academically, states the report.

Its author, William E. Sedlacek, professor of education, director of testing, and assistant director of the Counseling Center at the University of Maryland College Park, has conducted extensive research on the topic and is the creator of a questionnaire that assesses students' noncognitive skills, a tool already in use for admissions by some postsecondary institutions.

**Hispanics recorded the largest five-year gains in college enrollment—a whopping 32.5 percent; African Americans, the smallest, 10 percent.**

**Asian Americans gained 27.7 percent; American Indians, 16.2.**

In the report, Sedlacek calls on college officials to develop more holistic admissions' processes when deciding whom to reject and admit.

"Higher education institutions have a greater societal responsibility than to simply admit students who have the highest test scores and grades," Sedlacek states in the report. "Given the growing diversity of the U.S. population, postsecondary institutions must do a better job of educating the nation's diverse citizens."

Although most colleges and universities use multiple criteria, the most common are high school GPA, standardized test scores, and high school curricula. However, in recent years, as competition has increased—particularly at highly selective schools—more admissions decisions have been based heavily on standardized test scores. The report does not suggest that test scores be removed from the admissions process but does advocate placing weight and value on noncognitive variables in the process.

Standardized tests were designed to predict a student's academic performance during the first year of postsecondary studies and provide little indication of a student's overall ability to succeed in college, particularly for students of color. Research has shown that noncognitive variables can provide insight into a student's retention and graduation potential, the report states. These skills could be assessed through the use of questionnaires, personal interviews, or portfolios.

The special focus section discusses a number of noncognitive variables that could be incorporated into postsecondary admissions processes. Some are noted below.

- **Positive Self-Concept (or self-esteem)**
  - Studies have shown that students are likely to do better in college than those who do not have a realistic view of their abilities. Likewise, students of color who recognize, understand, and are able to deal with racism are more likely to succeed in postsecondary studies on predominantly White campuses than are their peers who are unable to do so.

- **Successful Leadership Experiences**
  - Students who have demonstrated leadership skills perform better in college than those who do not possess such skills. Research shows the report encourages school officials to consider nontraditional evidence of leadership, noting students of color might have developed skills through their involvement in community organizations or churches, or through informal interactions within their neighborhoods, not at school.

The report also highlights colleges and universities that currently are assessing students' noncognitive skills as part of their admissions procedures.

**ACE is the umbrella association for the nations colleges and universities. Its membership includes about 1600 accredited, degree-granting institutions from all sectors of higher education and nearly 200 national and regional higher education associations and organizations.**

The Sixteenth Annual Status Report on Minorities in Higher Education is available for $29.95 plus $3.50 shipping and handling, prepaid from the Publications Department, American Council on Education, P.O. Box 191, Washington, DC 20055-0190 (call 1-800-604-9073).
Endowed Chairs to Five Hispanic Professors at

Cruz, García, Martelly, Meza, Montoya Among 13 Honored

BY

Betty Semet

The Endowed Chairs are made possible through the support of individuals, corporations, and organizations that have donated $45,000 each. The state provides a matching grant to bring the value of each endowment to $75,000.

Hispanic teachers are among the 13 Miami-Dade Community College professors who have been named as the 1998 recipients of the college's highest honor, the Endowed Teacher Chair. Miami-Dade Community College (M-DCC) was the first community college in the nation to honor its faculty with endowed chairs to recognize excellence in teaching, beginning in 1992.

Endowed Teaching Chair award recipients each receive $75,000 a year for three years, allowing faculty to explore new teaching methods, develop new projects, purchase specialized teaching materials, enhance their technological expertise, and generally further their own knowledge in order to directly benefit their students.

The Endowed Chairs are made possible through the support of individuals, corporations, and organizations that have donated $45,000 each. The state provides a matching grant to bring the value of each endowment to $75,000. Miami-Dade has awarded 13 endowed chairs since the program's inception.

The Endowed Teaching Chair represents this institution's highest recognition, said Eduardo J. Padron, M-DCC president. The recipients of this award have demonstrated excellence in every aspect of teaching. Further, they have made student learning their number one priority and, in so doing, have fulfilled the central mission of the college. For their efforts, I congratulate them on this exceptional achievement."

This year's Hispanic recipients are:

Ana Cruz - The Southeast Banking Corporation Foundation Endowed Teaching Chair; Judith García - The Dr. Robert H. McAbee Endowed Teaching Chair; Diana Martelly - The Anastasios and Maria Kyriakides Endowed Teaching Chair; Alberto Meza - The Citybank of Florida Endowed Teaching Chair; Rolando Montoya - The Carlos Arboleya/Barnett Bank Endowed Teaching Chair.

Wolfson Campus

Ana Cruz, Associate Professor, Accounting and Tax

Her students' assignments have included preparing actual tax returns through the Volunteer Income Tax Assistance (VITA) program, managing the budget of a small local organization, visiting The Miami Herald, and learning state-of-the-art electronic accounting procedures.

"I will try to help my students see the practical aspects of business in today's society, and help them understand the importance of being educated citizens," said Ana Cruz. "My goal is to find the equilibrium between theory and practice."

After more than a decade working for the IRS as well as in private practice, Cruz moved into the academic environment, and has earned quite a reputation for making the study of accounting both interesting and relevant. She has also incorporated service learning into her classes by asking her students to perform volunteer community service with VITA and other organizations. Cruz also assists her students in applying for scholarships and has arranged innovative book loans through educational publishers for students who cannot afford to purchase the often expensive accounting and tax textbooks.

An alumnus of M-DCC, Cruz holds an MBA from the University of St. Thomas of Villanova, and a bachelor's degree from Florida International University. She is currently pursuing a doctorate at Nova University.

North Campus

Rolando Montoya, Professor of Accounting, Finance, Economics, and Business Statistics

As an expert in international finance, Rolando Montoya brings extensive experience in foreign affairs and international trade into the classroom. This native of Camagüey, Cuba, was the former Consul and Trade Commissioner of Costa Rica in Miami at the Costa
Rican Ministry of Foreign Affairs (1980-84), and has served as Finance Vice President for Aldo International Corporation, and as junior auditor for Price Waterhouse & Company in San Jose, Costa Rica.

Montoya has distinguished himself at M-DCC by creating and directing numerous new scholarships for students, serving on many college committees, and coordinating various cultural and educational extra-curricular activities.

One of only a handful of professors to receive this award twice, Montoya is a previous recipient of the Sun Trust Bank Endowed Teaching Chair (1995). He was named “Outstanding Professor” and “Business Professor of the Year” for four years in a row by student honor societies.

Montoya is a Certified Financial Manager and Certified Management Accountant, and holds a master's degree from Florida International University, where he is currently completing studies toward his doctorate in higher education administration.

KENDALL CAMPUS

Judith Garcia, Associate Professor, English as a Second Language

The Swap Shop, Macintosh Corner, and Bacon Workbook might sound like great book titles, but they are really the titles of some of the most effective and innovative teaching methods for ESL developed by Judith Garcia. She has also co-authored the “I Speak English” Teacher Training Manual and the

Heinle & Heinle Intermediate Writing Series, in addition to many articles.

Garcia herself speaks six languages and uses that multilingual experience to teach more than 30 different courses and coordinate the campus' language labs. She also has designed and created software, and has developed Internet-based support for eight courses. As a result, she was designated as the technical liaison for her department and has taught technology workshops for the college's Training and Development program and microcomputer institute. She has also developed and implemented Internet-delivered distance education courses and several multimedia projects.

I like to bring technology to students in new and more meaningful ways because I believe this use of technology will give students a skill they will be able to apply to any profession they enter once they learn how to speak English,” Garcia says.

She received her bachelor’s degree from the University of the Pacific and earned her master’s degree from the University of California-Davis.

Alberto Meza, Senior Associate Professor or Art

Alberto Meza is an artist, poet, author, innovator, and teacher who not only introduces his students to the arts but also tries to “inflame them with the passion to share their artistic experiences.”

Although he has earned local, national, and international accolades for his art work, he has concentrated much effort on bringing the arts to the children of Overton. “By helping students learn to turn art into community service, they become aware of the importance of art as communication.” says Meza.

Some of the community art projects include involving Overton elementary school students in a dramatic play about AIDS, building a scale model of Overton’s historic Lyric Theater, writing a play about homelessness, and creating a 15-foot mural.

Meza, an internationally recognized artist in many genres, recently had some of his works accepted by the San Juan International Print Biennial in Puerto Rico, and he also received the 1997 Florida Artist Book Award for his Leonardo’s Phobias—a work that combines etched images on zinc, printed on both handmade and embossed paper with a handwritten story.

He earned his bachelor’s degree from the University of Chile, another B.A. and a masters degree from Syracuse University, and a Master of Fine Arts degree from Northern Illinois University.

HOMESTEAD CAMPUS

Diana Martelly, Professor, Natural Sciences and Mathematics

I love teaching, and I believe that enthusiasm carries over to the students and helps them find their own motivation for learning, says Diana Martelly.

Recognized by her peers as both an outstanding professor and administrator, Diana Martelly has a reputation for accessibility; she can be seen often in the advisement area counseling students one-to-one, and her door is always open to colleagues.

Since 1992, when the Homestead Campus was destroyed by hurricane Andrew, Martelly admits that her greatest challenges as an administrator have been the tremendous expansion of her department of natural science and math. She had a leadership role in the physical expansion of the campus, including the addition of six new buildings and three science laboratories, as well as in the development of new courses in biology, chemistry, microbiology, and physiology.

In the classroom, Martelly has created many new and innovative ways to teach mathematics, and acquired several grants to introduce additional methods of teaching. She is listed in Who’s Who Among America’s Teachers, and has received several awards for innovative excellence in teaching and community service, including M-DCC’s Distinguished Professor Award in 1995.

Martelly is an alumnus of M-DCC, and earned her bachelor's, masters, and doctoral degrees at Florida International University.
William Paterson was an immigrant from Northern Ireland who came to the colonies when he was two. Paterson served as New Jersey's first attorney general, from 1776 to 1783, joined the first U.S. Senate in 1788, and was second governor of the State of New Jersey, from 1790 to 1793. President George Washington named him to the Supreme Court, where he served from 1793 to 1806.

The institution that takes his name, William Paterson University, part of the public-supported New Jersey State System, has developed a pioneering personality and prestige all its own. It is distinguished by variety everywhere you look. From its fields of study and student activities to the students themselves, William Paterson University presents a diverse texture rarely found in an institution of its size.

It is situated in a spacious, beautifully wooded setting featuring the congeniality and comfort of small-town friendliness—yet with a world-renowned academic and cultural resources of New York City just minutes away. William Paterson University offers students affordable education with no compromises. Hispanic Outlook ranks this Publisher's Pick Inductee to the Honor Roll.

University president Arnold Speert acknowledges that by any measure, the past academic year has been remarkable. University status was granted on June 27, 1997, by the New Jersey Commission on Higher Education. The 300-acre campus has such a tranquil, rural feel that many are surprised to notice the faint profile of the Manhattan skyline 20 miles away and, closer at hand, abstract sculptures of stone, steel, and iron.

The Meadowlands Sports Complex is a 1-hour drive; skiing, an hour north; and the celebrated Jersey shore, a hundred miles of recreational beachfront, starts an hour to the south.

President Speert characterizes WPU as a rich and complex community of educators, scholars, and students. It resides in a rich and complex state, both a melting pot and a collage of cultures and colors.

"While there are many common threads that bind us together," says Speert, "none more important than the people who make the university family, the individuals who brought about university status, who challenge our students, and who continue to make William Paterson education rewarding.

With the advent of university status, Speert, our schools became colleges, and one
college, the College of Business, was added. Student enrollment is increasing, and degrees are offered in 28 undergraduate and 14 graduate areas. It's a great time to be part of William Paterson University.

According to a U.S. World & News Report survey, William Paterson has the highest alumni donor participation rate among New Jersey's state universities.

This year the Carnegie Foundation for the Advancement of Teaching named Carole Sheffield of WPU's Political Science Department the New Jersey Teacher of the Year.

WPU was founded in 1855 as the Paterson City Normal School, set up to train teachers for the emerging free public schools of Paterson, the "Silk City," famous for its textiles, a city that now boasts two large ethnic communities—Hispanic and African American—and is laced with pockets of Middle Easterners as well as the descendants of earlier European settlers.

The school was incorporated by the State Board of Education in 1923 and designated as the New Jersey State Normal School at Paterson. In 1927 the name was changed to the New Jersey State Teachers College at Paterson. In 1951, the school relocated to its present site in Wayne on Allsa Farms, former estate of the family of Garret A. Hobart, U.S. Vice President under William McKinley.

In 1958 the institution became Paterson State College and was accredited by the Middle States Association of Colleges and Middle Schools. In 1967, all New Jersey State teachers colleges were mandated by statute to make the transition to "multifaceted liberal arts institutions." In 1971, the institution's name was changed to William Paterson University.

**Honor Roll Facts in Brief**

**INSTITUTION:**
William Paterson University

**LOCATION:**
300 Pompton Road
Wayne, New Jersey 07470-2103
1-888-4WILPAT

**ESTABLISHED:**
1855

**ENROLLMENT:**
9,500

**DEGREE OFFERINGS:**
Bachelor's
Master's

**ANNUAL TUITION:**
$4,150 - tuition and fees (in-state, full-time, undergraduate)

**NUMBER OF FACULTY:**
342 full-time

**SPECIAL OR NOTABLE DEGREE PROGRAMS:**
- African American & Caribbean Studies
- Applied Clinical Psychology
- Business Administration/Finance
- Environmental Science
- Music Management
- Women's Studies

**INTERNET (Website) ADDRESS:**
www.wilpaterson.edu

College of New Jersey, honoring its birthplace and worthy namesake.

The essential thrust of the university goes beyond teaching, research, creative activity, and service. WPU is one of only 15 institutions in the nation to receive a Ford Foundation grant to increase minority recruitment, retention, graduation, and graduate school placement. Its dedication to diversity is made clear in its Mission Statement: "The University values diversity and equity as essential to educational excellence, with an obligation to everyone in the university community to create and maintain a climate in which respect and tolerance are recognized as part of the institutions commitment..."
to educational quality."

Last fall's total enrollment reached 9,207, and that number rose to 9,500 this term. Hispanics made up 12.2 percent of the class, and African Americans, 9.7 percent. Another 3.3 percent were Asian Americans, and 0.2 percent, Native Americans.

William Paterson carries the small-community atmosphere into a very important area, the classroom. The average class size is 25 students, and no course is taught by teaching assistants. The student-faculty ratio is 14 to 1. This fall 342 full-time faculty serve students by mentoring and personally assisting them with their curriculum and career planning. Eighty-one percent of faculty have a Ph.D. or highest degree offered in their field.

Students are encouraged early in their academic careers to visit the Career Development Center, where counselors work with them on-a-one-to ensure that their academic preparation dovetails with their career ambitions. Center counselors also help students write resumes, prepare for job interviews, locate paid internships and part-time summer employment, and plan for graduate school.

WPU's Office of Minority Education, directed by Lester McKee, assiduously tracks academic performance of students of color and sponsors three ongoing programs specifically directed to minorities: the Pre-University-Academy, the Alliance for Minority Participation Program in Science and Mathematics (AMPS), and Student Empowerment through Academic Mentoring (SEAM). OME also advises and supports ethnic student campus organizations.

Among the dozens of SGA-sponsored student clubs and organizations are OLAS, NAACP, CARIBSA, IMPACT (Involving Minorities Productively in Arts and Communication Technology), SABLE (Sisters for Awareness, Black Leadership and Equality), the Spanish Club, WCRN Radio Station, and WPC-TV.

SAPB, the Student Activities Programming Board, includes a Multicultural Committee that schedules programs to entertain and educate the university community about different cultures through dance, comedy, lecture, and music.

Workshops, job fairs, and on-campus recruiting are part of every semester. Internships offered through the communications department alone connect students with major television networks, well-known television shows, and advertising and public relations firms in New Jersey and in Manhattan—one of the most important and competitive markets in the U.S. The intense focus on postgraduate preparation pays off. In one survey of recent graduates, more than 95 percent of respondents were either employed or enrolled in graduate school.

William Paterson's program in women's studies, started 25 years ago, is one of the oldest such curricula in the country. And it is newly expanded as an undergraduate interdisciplinary major rather than minor.

New, too, this year are master's degree programs in history, applied clinical psychology, sociology, and music.

Among the older programs, one in the Department of Music has been especially effective in drawing people throughout New Jersey and New York and beyond to the college campus—the Jazz series. Initiated long before the current renaissance of this major American art form, Jazz artists of the caliber of Sonny Rollins, Marian McPartland, Joe Williams, Lita Jones, Houston Person, Jon Faddis, and Dave Valentino are invited on campus to work with directors David Dempsey and Rufus Reid and the music students and to perform with them for a discriminating audience.

Several dozen officially sanctioned music groups, from a Concert Choir and Opera Workshop to Latin Jazz Ensemble and Brass Quintet, and a host of student-generated combos, enrich the life on campus.

The university's long-running Midday Arts series presents noon-time music from opera to new age, its Art at Lunch lectures discuss antiquities as well as the avant garde. Evening programs of theater and music and lectures—such as last month's talk by Leon Panetta, seen nationwide via C-SPAN—round out the programming. State-of-the-art production equipment and ample studio space enable WPU to offer hands-on training to media students and to serve as a multimedia site for interactive cyber-conferencing far beyond the Ailsa Farms.

Earlier this month, WPU hosted, as it has in the past, the annual convention of Círculo de la Cultura Panamericana, a longstanding national group of scholars who paid special tribute this year to Federico García Lorca and the Spanish '98 generation.

The university is also home for more than ten years to the New Jersey Project, the first and still the only statewide, state-funded faculty-development project in the nation working to make higher education more inclusive, working to transform scholarship, curriculum, and pedagogy along the lines of race, ethnicity, gender, sexuality, class, and culture. The New Jersey Project conducts conferences, residential institutes, student essay contests, and campus lectures, and publishes a nationally circulated journal, Transformations.

What does all this diversity of options and of community mean to an individual student's growth and future? An example is Roy García, sworn in last year to a two-year term as one of two student representatives to the Board of Trustees. In addition to this semester's 15-credit load, García works as a resident assistant in the Hillside Dormitory, responsible for 45 students. Born in Colombia and raised in Anchorage, Alaska, García is the first in his family to attend a university.

"Getting involved in extracurricular affairs," says García, "teaches you things that the books don't teach you—valuable learning experiences." To foster such involvement for others, García has created Business.L.I.V.E.K. (Latinos Infiltrating Networking Koneksiets), an organization that encourages Hispanic students to reach out to business professionals.

Allan Gorah, president of the WPU Alumni Association, sums up the WPU story: "From a teacher-training school in a simple brick building located in Paterson to a four-college university on a 300-acre campus, William Paterson continues to meet the academic and cultural needs of a growing region. Through ongoing planning, self-evaluation, and hard work, the university community is positioned to continue its success..."
Strengthening International Ties

CSU-Stanislaus Hosts Latin Americans

California State University-Stanislaus has announced the renewal of an exchange program with one of Latin America's top institutions of higher education, Simón Bolívar University in Venezuela. In 1990, the two institutions signed an agreement to provide for an exchange of faculty and students. Since then, "Just like a little ball of snow, it keeps getting larger and larger," Dr. Enrique López-Contreras, CSU-Stanislaus professor of modern languages, said proudly. "Our faculty get more of a global perspective," López-Contreras said. "Modern universities," he continued, "need teachers who know more than one language, who are familiar with another culture." A portion of the latest exchange agreement will provide a $40,000 Fulbright scholarship for 13 professors to go to Venezuela for five weeks. CSU-Stanislaus President Marvalene Hughes said the University will strive to find ways to strengthen the program in coming years. "It has taken a lot of dedicated work to make this exchange work, and I look forward to its becoming much more in the future," President Hughes said during the signing ceremony. "We want to expand on the opportunities we've had up to this point."

Visiting CSU-Stanislaus for the signing ceremonies and to better familiarize themselves with American education and culture were three emissaries from Simón Bolívar. Nurka Ramos, Professor of Mathematics; Francisco Martínez, Professor of English; and William García, Professor of...
English stayed in California for three weeks in order to study the university, surrounding schools, and culture.

"We can't say thank you enough to all the people who have shown us kindness," Martínez said. "The hospitality is overwhelming.

The three took numerous tours throughout the Central Valley and the Bay area to study diversity in the California school system and rapidly changing bilingual education programs.

López-Contreras, a member of the faculty at Simón Bolívar University in Venezuela for 25 years and president of the Coastal Campus for the past four years, served as chair of CSI-Stanislaus' Department of Modern Languages. A visiting professor in the department from 1999 to 2001, he has since returned to the region each summer to teach high-intensity Spanish-language training classes.

High on López-Contreras' list of priorities are building a teamwork atmosphere in the department, responding to the community's needs, and offering increased opportunities for language and cultural understanding to the region. Just as English has been adopted as a necessary second language taught in Venezuela's schools, he envisions a growing need for Spanish language instruction at CSI-Stanislaus.

"I feel that any Spanish department has a tremendous responsibility, considering the demographics of this state," López-Contreras said, noting that California's Hispanic population will be the majority in the 21st Century. "Mastery of the Spanish language has become an economic necessity and an enormous factor in our future. I hope to be a facilitator so we can meet that responsibility and achieve goals as a team."

Endeavors such as the exchange program are of great benefit, he believes, as students need a greater understanding of other languages and cultures if they are to compete in a global market.

"My opinion is that nobody can be isolated anymore," he said. "Information technology is the industrial revolution of this era, and many people can't even begin to comprehend how big an impact that is going to happen. I am so excited that at this campus, I see people with a vision of what's going to happen in the future."

A native of Venezuela, López-Contreras comes from a distinguished family that has served in the public arena and sought to establish democracy and cultural understanding. His grandfather, Eleazar López-Contreras, initiated a push toward democracy after succeeding a long run of dictators as democratically elected President of Venezuela from 1936-41. When López-Contreras' father, Fernando, served as Venezuela's consul-general in San Francisco from 1957-67, his association with American education and the English language began.

López-Contreras became a soccer star, leading a junior-level team from San Francisco to a national title and helping the University of San Francisco to its first NCAA championship in 1966.

A love for learning and teaching language and culture swept López-Contreras into his career in higher education. He earned a master's from Virginia Tech and last year completed his doctorate at Simón Bolívar. He has published three books on language and bilingual issues, the latest this year.

López-Contreras was joined in Turlock by his wife and two sons, both of whom have enrolled at the university.

This summer, Dr. Julia Cruz, CSI Professor of Modern Languages, organized at the college an International Conference for Distinguished Scholars in Hispanic Literature. The event, held in the United States for the very first time, was co-hosted by the University of Costa Rica.

Open to the public, it included morning and afternoon sessions, most of them conducted in Spanish, evening book-signing sessions, a banquet, and a side trip to Yosemite National Park. Headliners were award-winning writers Don Fernando Alegría and Rima de Vallbona. Alegría, a native of Chile and professor emeritus at Stanford University, has been internationally acclaimed as a poet, critic, writer, and educator. He started his career at the University of Chile in 1950 before coming to the U.S. where, he taught at UC-Berkeley and Stanford.

Author of 13 scholarly publications, he began the conference with a presentation entitled, "The Creative Memory: The Autobiographical Novel and Poetry in Latin America."

Rima de Vallbona's talk, "The Lieutenant Nun's Life and Events," closed the conference. A native of Costa Rica and professor emeritus at the University of St. Thomas, de Vallbona has written 13 publications and won a number of writing and literary awards. They include: The 1983-84 Ancora Award for the Best Book in Costa Rica; the Lady's Ribbon of the Order for Civil Merit by His Royal Majesty; D Juan Carlos I of Spain, for contributions to Hispanic culture; and election by the New York Chapter to the Spanish Royal Academy.

Cruz reported that participants came to the Turlock campus from the United States. Denmark, France, Romania, Spain, Argentina, Brazil, Costa Rica, and Venezuela.

Book-signing sessions were held with Costa Rican writers Jorge Katen Zabló, author of Through the Carnival of Life; and Carlos Villalobos, author of Rituals for Rain.

Presenters from U.S. institutions included Teresa L. Mynto, CSI-Hayward: Luis Jiménez, Florida Southern College; Cecilia Ojeda, Northern Arizona University; Joseph Vélez, Bayor University; Enrique Giordano, University of Cincinnati; Elena De Costa; Carroll College; and Estrella Ogden Villanueva.

Those from abroad included Alfredo More, Álvaro Contreras, and Soledad Núñez of the University of los Andes; Doina Damaceanu, Iasi, Romania; Maria Zierling, University of Copenhagen; Francisco A. Ribera and Deneal Segura, Universidad Federal de Espiritu Santo; Jorge Chen Shum, Universidad de Costa Rica; Dante Barrientos Tecun, Universidad de Perpiñán; Vicente Cervera, Universidad de Murcia; and Izda Pintos of Argentina.
Jeremy Valdéz: Engineer, Journalist, Comedian

Texas Aggie Keeps Options Open

By MIKE L. DOWNEY

Jeremy Valdéz might be the only member of the American Institute of Chemical Engineers ever invited to perform stand-up comedy at a New York night club.

But then, Valdéz, a senior at Texas A&M University, might also be the only stand-up comic performing at Catch a Rising Star who has ever cooked pig manure.

The El Paso native has also written columns for the student newspaper, worked in a semiconductor laboratory for two semesters, spent a summer tutoring grade school kids in trigonometry, and produced a music show that he hosted for the campus radio station.

What he really wants to do, however, and do today—is be a lawyer.

"I watch Court TV all the time," Valdéz says. "I really like intellectual property law and high-concept science. I could use my verbal skills in the courtroom."

His goal at the moment is to finish his degree, score well on the law exams in September, and go to law school somewhere where he can perform in local comedy clubs. He's got some talent. Two years ago, he won the Texas A&M competition for the USA Network's "Up All Night" College Comedy Tour. The prize was that Manhattan performance at Catch a Rising Star, a show also broadcast on the USA Network.

But goals can change, he notes. "Life is a series of 'A plans' and 'B plans' that could work out if you just got up on the other side of the bed one day," Valdéz says.

Valdéz had considered majoring in computer science and political science but opted for engineering after his civil engineer father mentioned it one day. He chose chemical engineering because he'd been good in chemistry in high school.

He added journalism as a double major his junior year.

Over the past six years, he's received about a half-dozen scholarships, including a National Merit Scholarship and the Linda Chemical Engineering Scholarship. Valdéz, a member of the student chapter of the American Institute of Chemical Engineers, has hit some snags, though.

Two years ago, he won the Texas A&M competition for the USA Network's "Up All Night" College Comedy Tour. The prize was that televised Manhattan performance at Catch a Rising Star.
"Differential equations are just beyond me; they kill me," he laments.

"My heat transfer class surfaces in my head when I'm on stage telling jokes. I'll find myself doing convection currents in my head."

In Texas A&M's cooperative education, or co-op, program, Valdés worked for two semesters as an engineer for Advanced Micro Devices in Austin. He did liquid particle counting and delivery of bulk ultrapure chemicals in semiconductor labs.

"The best part was getting to run the forklift," Valdés said.

His chemical engineering interests are in semiconductors and bioengineering, the latter being where he worked with pig manure and other interesting materials. The lab work under Dr. Mark Holtzapple involved the chemical engineering professor's award-winning research converting waste biomass—municipal waste, sewage sludge, manure, and agricultural residue—into useful products.

"There is nothing worse than the smell of burning pig manure," Valdés says. "It would clear the lab every time."

Holtzapple says Valdés is one of the most eclectic, well-rounded chemical engineers he's taught.

"He's full of surprises," Holtzapple said. "I've had Jeremy in two classes: freshman engineering and a laboratory course. He's interested in the material and asks questions."

Holtzapple recalled that in doing extra reading for the first-year student course, Valdés became captivated with an article about how engineers are depicted in films. He's now writing a major report on the topic.

Writing fills a big part of Valdés' day. He carries a little notebook with him all the time to write down possible jokes and things for his other writing. "I could write jokes all day," Valdés says.

But not everything he writes is funny. He recently finished a column for the student paper on political correctness—perceptions and reality that stemmed from being assaulted at a concert.

"I was telling a friend a joke that I was trying to work up for my act. Someone overheard it and took offense. I tried to explain and apologize, but long story short, he beat the crap out of me. It's an occupational hazard, I guess."

Hazards aside, becoming a comic was never a Plan A or B, but it was always there somewhere below the surface.

"When I was 15 or so, I used to sneak into comedy clubs because I really liked hearing the stand-up comics," Valdés recalled. "I didn't like the repetition of the same jokes and themes, though."

He credits a disastrous recitation of "The Gettysburg Address" in a seventh grade contest with curing any performance anxiety he might ever have.

"I stumbled in the last third of it, lost it completely, ran off stage crying and hid outside under a bush until my parents came to get me," Valdés said.

Survivors that convinced him never to worry about being in front of people again.

Valdés recalls that he was never the class clown, was even something of a teacher's pet. However, during his sophomore year in high school, he did his first stand-up comedy routine at a talent show in San Antonio.

While he enjoyed the experience and the notoriety that followed, he didn't pursue it again until college and another somewhat dissimilar on-stage experience.

In 1995, he and some friends were at a show by local improvisational comedy troupe Freudian Slip when he was shoved on stage as a "volunteer" for a skit. It didn't go well at all.

"Two weeks later, I read a poster about the USA Network's stand-up competition for college comedians," Valdés said. "I saw it as a chance to redeem myself."

He wrote five minutes worth of stand-up comedy material that he performed to win the Texas A&M competition and a trip to New York. In April 1996, he did the standard 10-minute routine on stage before a live audience and the USA Network cameras.

"It was a whole lot of fun, and with a few exceptions, everyone was very laid-back and made suggestions to improve my act," Valdés said.

Since then, Valdés has performed locally at Caffe Caprì's Comedy Corner, the Copasetic Cafe, the Crooked Path Ale house, and others. A performance late last year with the Austin Comedy Club earned him an invitation back there, and he's booked to play the Velveeta Room in Austin soon.

Rami Cerone, owner of Caffe Caprì's Comedy Corner, says Valdés finds humor in real life.

"He takes everyday settings that you wouldn't think were funny, gives them a twist, and makes you laugh," Cerone said. "He makes fun of himself a lot, what he's doing at work and school, what he wants to do with becoming a lawyer. He just makes you laugh at him and with him."

Valdés admires the observational abilities of comic Jerry Seinfeld, but says his own comedy is closer to a hard-edged Jeanne Garofalo. He likes Bill Hicks and has grown to respect the comedy of Paul Rodriguez.

"On TV, Rodriguez always gets distilled into the token Hispanic, but live, he's something else altogether," Valdés said.

Valdés doesn't want to be categorized either. His comedy material is personal, but he says he avoids overdone topics like relationships. A good comic can't be too politically correct, he believes.

"A stand-up comedian can't survive worrying about what people think," Valdés said. "I'm a heterosexual Catholic Hispanic engineer who likes to redecorate his apartment every now and then."

Valdés takes his comedy and his engineering very seriously.

"Engineers can laugh at themselves—they might not laugh at anything else, but they can laugh at themselves," Valdés says.

Valdés doesn't worry too much about what he'll do next. He notes that he attended the same private school that Supreme Court Justice Sandra Day O'Connor went to. There's got to be a joke in there somewhere.
Aaron Gutiérrez, First Student to Join Board of Trustees

BY
Stefanie Pettit

Under legislation signed this past spring by the governor of the state of Washington, college students may serve one-year terms on the institutions’ boards of trustees, with full voting privileges on all issues except personnel matters. Their terms end May 31, 1999.

Aaron Gutiérrez of Bothell, Wash., a senior philosophy-communications major, knows exactly what he intends to do as the first student ever named to the Eastern Washington University Board of Trustees.

"I'm not on the board just to address student issues but to serve general university matters from a student perspective," said Gutiérrez. "I hope I can show that this kind of perspective can be valuable to a governing board."

He said he believes it is important that a student from each of the state's universities and colleges has been named to the governing boards.

James Kirschbaum, chair of the EMU Board of Trustees, said that Gutiérrez is clearly a good choice, as he is well qualified and deeply interested in the university. "On behalf of the entire board, we welcome him and look forward to his participation," Kirschbaum said.

Why would a student such as Gutiérrez, who already has a busy campus life at Eastern, be interested in serving on the board of trustees? "Gee, who wouldn't be interested?" he said. "This is a great opportunity to help shape this university."

Gutiérrez, a 1994 graduate of Bothell High School, was born in the Spokane Valley and moved to Bothell early in his childhood. Both of his parents, Barbara and Larry Gutiérrez, earned baccalaureate degrees from Eastern, which inspired their son to carry on the family legacy. The family name, he said, comes from his paternal grandfather, who came from Mexico.

At Eastern, he has served in several capacities with the Associated Students of EMU. He is currently an ASEMU council member, student member of Eastern's Undergraduate Affairs Council and Academic Senate, and a member of Phi Lambda Upsilon fraternity.

"I tell my friends that I was raised in Bothell but I grew up at Eastern," he said. "Much of how I've matured has to do with what have gained through my fraternity a group of people who believe in me, who I can count on, and who help me to believe in myself."

Gutiérrez has participated in several Eastern music groups, playing bass trombone. This summer he did promotional work for the Spokane Symphony.
First Annual Hispanic Outlook Scholarship Award Recipients

BY
MARI CARMEN SARRACENT

While her plans are to complete her bachelor's degree, Garcia can't help but think ahead. "I might take an extra year and get a masters."

Launching its own scholarship tradition, this year H.O selected two college-bound high school seniors – Verónica García and Lourdes Rebeca Perdomo – to receive the Hispanic Outlook Scholarship, a merit-based award for eligible Hispanic students. Candidates are required to have a B average or a cumulative grade point average of 3.0. Eligibility is limited to acceptance and enrollment in a school listed on the 1997 Publisher's Pick List. Each winner received $1000 to be used toward tuition and books. If award recipients maintain a 3.0 GPA, they may reapply.

Verónica García, originally from Pacoima, Calif., entered Massachusetts Institute of Technology in Cambridge, Mass. this fall. Her acceptance to MIT was the culmination of diligence and hard work in high school and an impeccable academic record, not to mention that she has made history in the Garcia family, which has made her family very proud. "I'm the first to leave the house and go to college," says Garcia. Her parents, both born in Mexico, have four other children.

Garcia attended San Fernando High School in San Fernando, Calif., where she was involved in the Math, Science and Technology Magnet Program, considered

Verónica García, graduate of San Fernando High School in San Fernando, California.

- 1998 Class valedictorian
- Attending Massachusetts Institute of Technology (MIT)
- Planned Major: Mechanical Engineering
Lourdes Rebeca Perdomo was recently accepted to the University of Florida in Gainesville. She attended American High School in Hialeah, Fla., where she was president of the senior class. According to her high school counselor, Mary Haslam, Perdomo's "leadership has made a floundering senior class into a well run, efficient and functioning group. As an independent learner, she utilized her unique analytical and synthetic techniques that will assure her academic success."

At the University of Florida, Perdomo plans to major in architecture, with a minor in sociology and engineering. "I have always loved math. Since I was little, I designed houses and layouts. When we'd move into a new house, I'd draw it out," said Perdomo. Perdomo's hobbies include drawing and martial arts. She has studied four years of Tae Kwon Do and is a first degree black belt.

Born of Cuban parents, Perdomo is proud to say that she is bilingual, as both Spanish and English were spoken at home. In high school, she studied French and may continue to do so in college. Perdomo plans to live on campus and get involved in extracurricular activities once she gets settled.

"I have always loved math. Since I was little, I designed houses and layouts. When we'd move into a new house, I'd draw it out," said Perdomo.
PEOPLE

Quintanilla Speaks at Lewis and Clark

Lupe Quintanilla, a member of the National Hispanic Hall of Fame, came to Lewis and Clark College (Ore.) recently to speak on "Success in Education: An Ongoing Challenge.”

Labeled retarded, Quintanilla dropped out of school in the first grade. By the time she was 16, she was married, and by the time she was 21, she was raising three children. But she returned to school when her own children were labeled slow learners because they couldn't speak English.

She has gone on to earn a bachelor's degree, a master's, and a doctorate. President Reagan appointed her as alternate ambassador to the United Nations, and President Bush asked her to help him create laws that would be fair to all cultures. She co-chaired the National Institute of Justice, was elected to the National Hispanic Hall of Fame, and was named one of Houston’s Top Ten Leaders and one of 24 Hispanic Women in Power. Today she teaches at the University of Houston, where she previously served as assistant vice president for academic affairs. Quintanilla is president of Cross-Cultural Communication Center of Houston and is the subject of books and dozens of articles.

Her lecture was part of a two-day conference: “Developing Programs for Hispanic Youth: Administrative Challenges and Responsibilities.”

CCNY’s Vásquez Named to Honor Committee

María Vásquez, Director of City College of New York’s Office of Academic Advising, has been named to the Committee of Honor for the first time traveling exhibition to offer a panoramic view of Spanish folk art and its influence throughout Latin America and the Spanish-speaking Caribbean.

Entitled “El Alma del Pueblo,” or “The Soul of the Community,” the exhibit offers a panoramic view of Spanish folk art and its influence on art throughout Latin America and the Spanish-speaking Caribbean.

The exhibit, which opened in September, will be on display through Dec. 31 at the Americas Society: The Spanish Institute (N.Y.).

“This exhibition has significant artistic and educational value,” Vásquez said, “because it sheds light on the development of Spanish art in the Western Hemisphere. I highly recommend it for Latinos as well as members of the non-Spanish-speaking community.”

Committee members are individuals who have distinguished themselves in the Latino community and who have demonstrated strong commitment to Latino causes.

Suárez Chancellor of Grossmont-Cuyamaca Community

Last month Dr. Omero Suárez became chancellor of the Grossmont-Cuyamaca Community College District (Calif.).

Suárez returned to California from a position as deputy chancellor for the Community Colleges of Chicago, where he had been since 1994, serving first as vice chancellor, academic affairs, planning, research and student services. Suárez also was president of East Los Angeles College, founding president of the Valencia Campus of the University of New Mexico, and held faculty positions in Oklahoma and Nebraska.

He received his bachelor’s from Chadron State College (Neb.), his master’s from the University of Nebraska, and his doctorate from the University of Oklahoma.

An active participant in his community, he served on the City of Chicago Workforce Board and the Cook County Welfare Reform Board.

Lehman Students Win Scholarships

Lehman College (N.Y.) students Trish Olmeda (l.) and Cándida Santos (r.) are receiving $2500 scholarships from the National Hispanic Business Group, an advocacy and networking organization that awards scholarships based on students’ grades, community involvement, and career goals.

Olmeda, an accounting major, plans to become a CPA. Santos, a psychology major, hopes to work as a psychotherapist with children. Both live in the Bronx.

Olmeda's family comes from Puerto Rico; Santos emigrated to New York from the Dominican Republic in 1994.

Award-Winning Director Pérez in San Marcos

Award-winning director Severo Pérez SWT was in San Marcos, Texas, in September for a special screening of his film adaptation of Tomás Rivera’s classic novel “La Familia Ríos.”

The film and novel depict the lives of a South Texas family of migrant farm workers during the 1950s. Rivera’s novel, published in 1975, is widely considered a modern classic and is taught in literature courses around the country. Pérez’s quiet yet powerful film has won international acclaim, including top honors at several film festivals. Both Pérez and Rivera are alumni of Southwest Texas State University.
Pérez's productions have won more than 50 awards, including three GINE Golden Eagles. A successful playwright, he has worked extensively with Luis Valdez's El Teatro Campesino.

He received a bachelor's from the University of Texas.

The screening coincided with the Southwestern Writers Collection's exhibit, "Mythic Journeys: The Film Archives of the Southwestern Writers Collection."

**Martha López Gilpin at BCC**

Actress and Puppeteer Martha López Gilpin recently presented a lecture/demonstration on holistic acting featuring the masks of Ralph Lee at Burlington County College (N.J.).

Gilpin has toured extensively with the Mettawee River Theater Company of Salem, N.Y., an acclaimed puppet theatre, under award-winning director Ralph Lee. One of the foremost puppet artists in the U.S., has worked on numerous scripts off-off-off Broadway, and is currently creating a one-woman show entitled _Monkey Mind: a Girl's Guide Through Madness._

Born and raised in Santa Fe, New Mex., she received a BFA in Theatre from the University of New Mexico and an MFA from Rutgers University.

**Colón-Valle Speaks at Bloomfield**

Miriam Colón-Valle, Latina arts activist, actress, producer, and director, delivered the Convocation address at Bloomfield College (N.J.) and received the Silver Medal from its president for her contributions to American culture.

Colón-Valle created the Puerto Rican Traveling Theatre Company, a well-known training ground for aspiring Hispanic actors and writers, in 1967. She also founded Nueva Galaxia Dramática, the first Spanish-language arena theatre in New York City.

As a community leader, she served on the New York State Council on the Arts for more than 10 years and as a panelist on the Expansion Arts Panel of the National Endowment for the Arts, and on the Institutional Advancement Pilot Program Panel. She was also a member of the National Hispanic Task Force.

The first Puerto Rican accepted at the Actors Studio, where she has been a member for the last 25 years, Colón-Valle has acted in films starring Marlon Brando, Sally Field, and Al Pacino, and acted on television and Broadway.

She has received many awards for her contributions to the arts, including the Puerto Rican Coalition's "Lifetime Achievement Award" from President Reagan, as well as honorary degrees from several colleges and universities.

**Rodríguez Wins Presidential Award**

Armando Antonio Rodríguez, associate professor of electrical engineering at Arizona State University (ASC), received a 1998 Presidential Award for Excellence in Science, Mathematics and Engineering Mentoring at the White House in September. Of the 10 individuals honored, Rodríguez was the only Hispanic.

ASC is the first university to have two professors named to the prestigious list. Math Professor Joaquín Bustoz won the honor in 1996, the first year of the awards.

For five years, Rodríguez has directed a student research program that has involved more than 60 underrepresented minority undergraduate and graduate students. All have gone on to challenging careers or graduate school.

His program is dubbed MoSART, with modeling, simulation, animation, and real-time control of dynamical systems as a central theme. Projects include the automatic control of robotic systems, semiconductor processes, and advanced aerospace systems.

"Such projects are intended to capture the imagination of students early on," Rodríguez said. "The projects also help put their studies into proper perspective by giving them a sense of the big picture and demonstrating possible career directions, which they may never have otherwise considered."

**Novello Wins Mujer Award**

The National Hispana Leadership Institute recently awarded Dr. Antonia C. Novello the 1998 Mujer Award, which pays tribute to the lifetime achievements of a Hispanic woman who has served her community in the U.S. in accordance with the philosophy and values of the institute.

Novello was sworn in as the 14th Surgeon General of the U.S. in March 1990. The historic event marked two firsts: Novello became the first woman and the first Hispanic ever to hold the position.

After her surgeon general tenureship (1993-1996), she served as United Nations Children Fund Special Representative for Health and Nutrition where she advised the executive director on issues pertaining to women, children, and youth. In particular, Novello provided leadership towards the global efforts related to iodine and vitamin A deficiencies disorders, immunizing the world's children, and preventing smoking and substance abuse in youth.

Currently, she is Visiting Professor of Health Policy and Management at the Johns Hopkins University School of Hygiene and Public Health and Special Director of Community Health Policy.

Born in Puerto Rico, she earned a bacheelor's and a doctorate from the University of Puerto Rico and a master's from Johns Hopkins University.

**Orrego Links Science to Human Rights**

Dr. Cristian Orrego, professor of biology and genetics at San Francisco State University, spoke at Ramapo College of New Jersey in September. His talk, "Molecular Genetics and the Search for the Disappeared," addressed human rights issues from a scientific perspective. It was the second lecture in the series, Human Rights: Human Responsibilities, which commemorates the 50th anniversary of the Universal Declaration of Human Rights.

The topic of the application of science to human rights, particularly in the search for the disappeared, is very much present in mind and heart, says Orrego. He discussed the history of the application of molecular
genetics to human rights work from its beginnings in Argentina in 1984, the remarkable techniques that we now have to recover DNA and identify human beings, and the future of science applied to human rights work.

**Guedes Helping FIU**

There are plans for renowned Hispanic humorist Guillermo Alvarez Guedes, who has an entire lifetime dedicated to the art of making people laugh, to use his creative talent to help bright poor students find their way to Florida International University (FIU).

Guedes’ original scheduled performance at the school had to be postponed, but is being rescheduled.

Proceeds will benefit local students who have outstanding GPAs and high SAT scores but are not eligible for federal financial aid or most scholarships because they are not U.S. residents. Tuition at state universities such as FIU is heavily subsidized by the State of Florida; therefore, non-residents must pay approximately four times as much as Florida taxpayers.

“There are many students in that predicament here at Miami High,” said Alicia Bivas, Miami Senior High Schools head counselor. “We felt that the community had to be aware of this problem, and we are pleased to have Alvarez Guedes and FIU come to the forefront and help some of these exceptional students.”

Guedes is to donate his time and performance while FIU donates the auditorium and the staff power for the scholarship fundraiser.

**Leon Chairs Cuban Studies at UM**

Through the end of the spring semester, University of Miami (Fla.) Professor Luis Aguilar Leon will continue as Emilio Bacardi Moreau Chair in Cuban Studies at the School of International Studies. The chair was inaugurated in 1986 with a gift from Amalia Bacardi and her family for the study of Cuban history and the understanding of Cuban culture.

Last month, Aguilar Leon began leading a two-month-long adult education seminar on “Cuba and its Circumstances.” In the spring semester, he will teach a seminar for graduate students on “Cuba and the Revolution in Latin America.”

“Professor Aguilar Leon knows and understands well Amalia Bacardi’s vision for this, her last project honoring the memory of her father. Emilio Bacardi Moreau,” said Manuel Jose Gutillas, chairman of Bacardi and co-chair of the University of Miami International Advisory Board.

Born in Cuba, Aguilar Leon is Professor Emeritus at Georgetown University in Washington, D.C.

A prolific writer, he has published several books, *Todo Tiene Su Tiempo* being the most recent. He has also written extensively for several Latin American newspapers and magazines on Cuban-related issues.

**Quintero New WNCC ESL Coordinator**

Miguel Quintero, the new Western Nevada Community College (WNCC) Adult Basic Education and ESL coordinator, will direct basic skills education as well as English programs for non-native speakers, and will work with area businesses to train workers and develop bridge classes to help students move from basic skills to college-level courses.

“My interests in education have been in the areas of multicultural education—English as a second language, bilingual education, whole language education, and curriculum development,” Quintero said.

He attended school in Mexico City and graduated with a degree in elementary education. Shortly afterward, he moved to the United States and began to teach migrant workers in adult basic education programs and migrant education programs in Utah, Arizona, and California.

He earned an associate’s, a bachelor’s, and a master’s at Brigham Young University. He recently completed the doctoral program at the University of Utah, Salt Lake City, and is now working on his dissertation.

**Morey Wins Law Student Award**

William Morey, a third-year evening student at Southwestern University School of Law (Calif.), has received the American Bar Association Law Student Division’s “1997-98 Volunteer Income Tax Assistance (VITA) Program Lt. Governor of the Year” award.

During 1997-98, Morey served as the Lt. Governor for the Ninth Circuit (which covers Southern California and Hawaii). Under his leadership, the number of law schools providing VITA programs expanded from two campuses in 1997 to eight this year. This provided hundreds more people with access to free tax counseling.

Morey previously directed Southwestern’s 1996-97 VITA Program, which won the ABA/LSD “Rookie Site of the Year Award” for assisting more than 150 tax-payers and offering services in three languages (English, Korean, and Spanish).

He earned his bachelor’s from California Polytechnic University-Pomona.

**Rodriguez to Chair Trial Advocacy Board**

Todd Rodriguez, a resident of Los Angeles, Calif., has been appointed to chair the Southwestern University School of Law (Calif.) Interscholastic Trial Advocacy Program’s Board of Governors.

The International Trial Advocacy Program sends students to national competitions where participants demonstrate their skills in case preparation, opening and closing arguments, direct and cross examination, and use of expert witnesses, in mock trials.

A second-year student at Southwestern, Rodriguez earned a bachelor’s from St. Andrews College in North Carolina.
UNF's Díaz, Future Politician

University of North Florida Student (UNF) Government Association Vice President Alexander Díaz plans to embark on a career in public service, including one day becoming governor of Florida. No stranger to public service, Díaz had devoted more than 7,000 hours of community service by the time he graduated from high school in 1996.

Right now, the 20-year-old political science major is immersing himself in student government issues and pledging to work hard to make UNF a fun school with more activities for students.

Díaz also plans to focus some of his attention on the minority groups on campus.

"I believe that by having a diverse student body, you can enrich the community in which we all live, whether it be on campus or off," said Díaz.

He is a member of the UNF Presidential Search Advisory Committee, the parking committee, the food services advisory committee, and the student advocate committee.

He plans to enter the master's program in public administration at UNF after he receives his bachelor's degree in 2000.

Griego and Maestas Recognized at CCD

For the second year in a row, Orlando Griego received recognition as Community College of Denver's (CCD) Administrator of the Year. Sophie Maestas, assistant teacher (child care aide) at the TEC West Child Development Center, was the Classified Employee of the Year.

Griego is co-director of Proyecto Access, a new summer program to prepare Denver middle school students in math, science, and engineering and lead them into science and technology careers. It is a model program of the Hispanic Association of Colleges and Universities, funded by the National Aeronautical and Space Association.

He wrote the Colorado AmeriCorps Literacy Initiative Grant proposal. CCDW will train 21 Americorps members who will recruit volunteers to participate in literacy initiatives in the community. He continues his work with the Denver Education Network and the Westside Advocacy Team, building a bridge for students from middle and high schools to college.

Maestas says she thinks she was nominated for Employee of the Year: 'Because I'm responsible, I'm at work every day, giving 100 percent every day. I believe in being a team worker, and I work well with the head teacher and the other teachers.'

Maestas is a single parent who will receive her associate degree this semester. She may continue work toward a four-year degree in behavioral science, social services, or early childhood education, or she may obtain a teaching certificate.

Hispanic Heritage Month at SUNY Rockland Community College

Rockland SUNY Rockland Community College (N.J.) celebrated Hispanic Heritage Month with a 6-weeks-long series of events with the theme "Voices of Latinos/Latinas in Our Community.

Dr. José López-Isla, publisher of The Hispanic Outlook in Higher Education, was the kick-off speaker on September 15th. Among the events that followed were:

- A panel discussion on "Latinos: The Right Stuff," moderated by Rockland's vice president for student affairs, Dr. María Vallejo (pictured here).
- A photography exhibit called "Voices of Hispanics/Latinos: Latinos: Who We Are and Where We're Going," a lecture/discussion by Karen McGovern of the Rockland English Department.
- "Latinos in Education," a program for ASPIRA students.
- A performance by Ballet Los Pampas, featuring Argentine tango, folklore, and music.
- "The Imprisonment of Young America," a lecture/discussion with guest speakers the Honorable Joseph Suárez, Esq., and William Engelbracht of Rockland's Criminal Justice Department.

HACU Holds 12th Annual Conference

"Hispanic Challenges in the 21st Century: Leadership, Vision, and Compassion" was the theme of the 12th Annual Hispanic Association of College & Universities (HACU) Conference held in late September in San Diego.

HACU President Antonio Flores told the Opening Plenary audience that HACU is working to build momentum and its membership base. The Association has adopted a new logo that better reflects the organization's strength and mission as it builds its national and inter-
national presence.

The Reverend John Moder, S.M., president of St. Mary's University (Texas), the oldest and largest Catholic university in the Southwest, and chairman of the Board of Trustees of HACU, addressed the conference attendees.

Among the many other conference events were sessions on post-affirmative action admissions strategies, and federal and research opportunities for HSIs (Hispanic Serving Institutions) and their students; and a Town Hall Meeting entitled "The Americano Dream: Point/Counterpoint," moderated by Adriana Martínez, director of governmental relations for the Hispanic Radio Network.

Nearly 70 exhibitors were in attendance. Pictured here at The Hispanic Outlook in Higher Education's exhibit are (1. to r.): Lourdes Cruz, Southern Connecticut State University; Orlando López-Isa, Vice President, HOHE; and Awilda SaaVEDRA-Reasco, Central Connecticut State University.

Two Reports Find Latino TV Characters Scarce

Michigan State University has released a report that highlights the scarcity of Latino television characters. Released last February, the report says that on prime-time television in 1996, only 3.2 percent of all characters were Latino, compared to 16 percent African American and 80 percent White.

According to the report, out of the prime-time shows that did have Latino characters — 77 percent were about crime.

As mentioned in the Hispanic Link Weekly Report, a national publication of Hispanic Link News Services Inc., this is one of several similar reports to come out on the subject.

In 1996, the National Council of La Raza issued a report stating that out of all the characters portrayed on television, only 2 percent were Latino.

Last year, a nonprofit organization dedicated to bringing educational opportunities to Latinos interested in careers in the arts, the National Hispanic Foundation for the Arts (NHFA), was formed by Félix Sánchez, the CEO of TerraCom, a Washington, D.C.-based consulting firm, and actors Jimmy Smits and Esai Morales.

According to the Hispanic Link Weekly Report, Sánchez is pairing this effort with his work in preparing Latino stars to become effective spokespersons in Washington and elsewhere for worthy causes.

The NHFA hosted its second annual gala in the capital on Sep. 22.

SAC Faculty Team Publishes Spanish Guide

"Buscalo! is a user-friendly guide and reference tool designed specifically to provide quick, concise, and reliable answers to common problems that confront the language learner," explain the authors in their introduction.

They add that while traditional textbooks may eventually answer a problem (such as how to express the English "meas" in Spanish), the reader may have to search hard for it and then find the information scattered throughout the text. To simplify this search process, entries are listed in alphabetical order and often cross-indexed.

Nuevo Compañía Tangueros at DuPage

Nuevo Compañía Tangueros recently performed the tango ballet "Milonga Boulevard" at the Arts Center at College of DuPage (IL).

This tango ballet in two acts, with a company of 10 and a live orchestra, was produced and directed by Marachrata Michi and Marco Costellani, and adapted from the 1951 short story of Julio Cortázar. "Las Puertas del Cielo (The Heaven's Doors)."

Set during the late 1940s, during tango's golden era, "Milonga Boulevard," with its nearly two dozen dances, displays not only the talents of the Tangueros, but also a recollection of those earlier practitioners of this style of dancing.

Wrote Cortazár: "They show up at eleven o'clock, coming down from mysterious realms of the city, calm and slow, one by one or in couples. They know and admire each other in silence, they don't let themselves be noticed: it is their dance and their encounter. Lacing in grave respect, ball after ball, slowly turning without speaking, many of them, eyes closed, even at last the party, the completeness."

A contemporary of the writer Jorge Luis Borges, Cortazár lived in Buenos Aires during the height of tango dancing until he moved to Paris, where he died in 1984. He was also a poet, translator, essayist, and amateur jazz musician.

$2 Million Gift for NYU Latin American Chair

Venezuelan President Rafael Caldera; Luis Urdaneta, the chairman of CITGO Petroleum Corporation; Luis Guiart, president of Petroleos de Venezuela; and Venezuelan Ambassador Enrique Tejera-Paris were honored by New York University (NYU) at a luncheon celebrating the announcement of a $2 million gift that will establish the Andres Bello Chair in Latin American Culture and Civilization at the King Juan Carlos I of Spain Center of NYU.

The gift, presented by Urdaneta, will enable NYU to invite an eminent Latin American scholar or cultural or political leader to campus each year as a visiting professor and researcher. The newly established Chair is being named in honor of Andres Bello (1781-1865), the Venezuelan-born poet.
scholar, and diplomat, one of the most influential figures in the history of the Americas. Bello was one of the educators of Simon Bolivar and the drafter of the Latin American civil code of law. Caldera is the author of an important biography of Bello.

The creation of the Andrés Bello Chair will serve as a magnet for funds to enrich Latin American Studies at NYU.

**USF Latino Scholarship Awards**

To help bright, ambitious Latino students finish their education, the University of South Florida’s (USF’s) Latino Advisory Committee formed a partnership four years ago with individuals and public and private businesses to provide renewable, four-year scholarships to local Hispanic scholars in need of financial assistance. It also includes a mentoring component in which donors become involved in their protégés’ academic career.

Since the program started, it has awarded more than $375,000 in scholarships and by the end of the year, it will have produced 25 Hispanic alumni. Donna Parrino, USF’s director of Latino Community Advancement, says the perseverance of the students and the program’s continuing success have encouraged other donors to pledge their support.

At the seventh annual USF Latino Scholarship Awards ceremony this past August, all of the scholars were recognized and new gifts were announced. Pictured here

at the ceremony are (l. to r.) Dr. and Mrs. Hernan León, Student Recipient Glenda Rodriguez, and USF President Betty Castor.

The gifts included the establishment of a planned gift in the form of a $300,000 charitable remainder trust by Dr. and Mrs. León, the Tampa Bay Latin American Medical Society’s $100,000 endowment for scholarships, and a $5,000 donation presented to President Castor by the Mayor’s Hispanic Advisory Council.

The civic group, Tampa Hispanic Heritage, Inc., won the Lt. Baldomero López Award, for its contributions to the betterment of the community.

**Amoco Awards Roosevelt U. Scholarship Money**

Amoco Corporation announced last September that it has awarded Roosevelt University (Ill.) $290,000 to create the Amoco Honors Scholar Program, which will provide scholarships for outstanding African American, Hispanic, and Native American students studying business or hospitality management at the university.

As members of Roosevelt’s Honors Program, the Amoco Scholars will take special courses focusing on community, political, business, and cultural issues of the metropolitan region; work with distinguished mentors from the city’s leading corporations and organizations; and intern at Chicago or suburban institutions.

Doug Ford, vice president of Amoco Petroleum Products, said, “Through our Amoco Foundation and programs like the Amoco Scholars, we’re able to help foster effective education and provide outstanding employment opportunities. Programs like this also help expand the pool of potential employees who possess the critical skills we’ll be looking for in tomorrow’s workforce.”

**Charleston Establishes Graduate Certificate**

The University of Charleston, S.C. Bilingual Legal Interpreting Program has added a new graduate certificate option to its current offerings. The graduate certificate program will allow students to attain foundational skills in legal interpreting in an abbreviated time frame, generally in one summer.

The curriculum will be made up of courses currently offered as part of the university’s M.A. program in Spanish/English legal interpreting. The required courses can be taken during an eight-week summer session or two summer sessions for a total of eight weeks.

Application requirements are that students currently hold a baccalaureate degree and/or are currently enrolled in a graduate program in a related field. Students must also take an entrance interpreting aptitude examination to demonstrate fluency in both English and Spanish.

The University of Charleston’s M.A. program in Bilingual Legal Interpreting was established in 1996 to address the shortage nationally of qualified, professionally trained judicial interpreters.

**Minority Enrollment Increases at GYSU**

Grand Valley State University (GYSU), in Michigan, has reported solid gains in minority enrollment this fall. GYSU admissions officials have reported that the number of Hispanic students has increased by 10.8 percent. Minorities make up nearly 9 percent of GYSU’s student body.

“What I’m hearing from the ethnic minority population is that seeing is believing,” said Oliver Wilson, assistant director of admissions for minority recruitment at GYSU.

“They’re coming to campus and feeling that Grand Valley provides a campus community that is conducive to learning and also a home away from home, that there’s a sense of belonging among minority populations.”

Wilson said efforts to reach out to minority populations in Detroit and Chicago as well as other communities across the state has helped attract more minority students to Grand Valley.

For the second year in a row, and only the third time in its history, the overall fall enrollment at GYSU has jumped by more than 1,000 students.

**Enormous Gift for USC School of Education**

Two educators, Barbara J. and Roger W. Rossier, whose expertise with emotionally delayed children laid the groundwork for a multimillion-dollar enterprise, have committed $20 million to the University of Southern California’s (USC) School of Education. The gift is believed to be by far the largest ever given to a school of edu-
cation at an American college or university.

In recognition of their gift, the USC board of trustees voted to rename USC's 90-year-old School of Education in the couple's honor.

They both earned Ed.D. degrees at USC.

Other urban educational activities involving School of Education faculty and students include the USC Latino and Language Minority Teacher Project, a School of Education program providing social and academic support to bilingual teacher aides who work in public schools, enabling them to continue their studies and become full-time teachers.

Research interests among USC School of Education's faculty members include: approaches to multicultural teaching and learning, particularly in reading and language acquisition; and risk factors for teen drug use, teen pregnancy, and violence among youth, as well as counseling programs designed to protect against these social problems.

**Crafton Hills Celebrates Mexican Independence**

Crafton Hills College (CHC), located in California, recently staged a Mexican Independence Day Celebration on its campus.

Mayda Gómez, president of the CHC MECHA, said the purpose of the cultural event was "to raise money for student scholarships and to have a good time and some good food."

The local Aztec dance troupe Danzantes de Aztlán, consisting of six dancers and a drummer, staged various ancient dances for CHC students and the community. Pictured here are drummer Víctor Uribe, director of the Danzantes de Aztlán, and traditional Aztec dancer Priscell Uribe.

**News from Universidad Interamericana de Puerto Rico**

La Universidad Interamericana de Puerto Rico (UIPR) recibió un donativo de $50 mil por parte del Gerente de la Operación de El Comandante Operating Company, Inc. (ECOC), siendo reconocida por su labor comunitaria como centro de estudios superior del país. La entrega de la aportación se llevó a cabo en una cálida actividad en el Salón Gobernador del hipódromo.

El donativo será entregado a la UIPR en cuatro plazos anuales de $10,000, $10,000, $15,000 y $15,000 durante el primer trimestre de los años 1998, 1999, 2000 y 2001, respectivamente.

El Dr. José R. González, presidente de la UIPR (pictued here), agradeció a nombre de la UIPR y de la Junta de Síndicos por tan significativa aportación e indicó, "garantizamos que este dinero será incluido en el fondo de beca para los estudiantes de escasos recursos económicos de la Interamericana, para que todos tengan igual oportunidad de alcanzar sus metas de estudios."

Gaztambide exhortó a los presentes en el evento a unir esfuerzos ya que entidades como la UIPR benefician laboran arduamente por el bienestar social de Puerto Rico.

La Universidad Interamericana de Puerto Rico recibió el premio “Distinguished Information Sciences Award” en el área de la Educación, por su laboratorio de ingeniería para el diseño tridimensional CATIA, ubicado en el Recinto de Bayamón.

Este premio le otorga la “Data Processing Management Association” a las organizaciones que están a la vanguardia en la tecnología de computadoras y comunicaciones, a la vez que utilizan las tecnologías gerenciales más avanzadas en el área de Sistemas de Información.

La “Data Processing Management Association” es la organización más grande en los Estados Unidos que representa los administradores profesionales en el área de la tecnología de la información. Representantes del área de la banca, el gobierno, la manufactura y los seguros, también fueron premiados en esta ocasión por la DPMA.
American Cultural Patterns: A Cross-Cultural Perspective
by Edward C. Stewart and Milton J. Bennett

Since its original publication in 1972, American Cultural Patterns has been used extensively as a text in courses and as a handbook in cross-cultural training.

Reflections on Multiculturalism
Robert Fdwy, ed.

Robert Fdwy brings together ten authors whose sharply focused, penetrating essays make a significant contribution to the literature on multiculturalism. It is Fdwy’s view that we as Americans have regressed from the goal of multiculturalism in its truest form: mutual respect for differences and social and economic justice.

Caudillo: The History of the Spanish Civil War

The Spanish Civil War was among the most exhaustively photographed modern bloodbathes, for both sides received not only military assistance but superb documentary camera crews from outside. There is no editorial commentary in this film; there is no need—the footage speaks for itself. (1 hr. 51 min. b&w)

Item #FFH 150

Miró: The Catalan Master

20th-century surrealist Joan Miró talks about his life and the various influences on his work. It features a selection of his masterpieces, with each piece brought to life through expert commentary. Known primarily for his abstract paintings, his other works include murals, sculptures, tapestries, and ballet sets. (55 min., color)

Item #FFH 680+

Art and Revolution in Mexico

Nowhere but in Mexico has history been painted as superbly; nowhere else have outspokenly polemical painters, such as Rivera and Siqueiros, produced such great art. The art of revolution and the revolution of art seem, in this time and place, to have nurtured one another. (51 min., color)

Item #FFH 179

School of Assassins

This Academy Award-winning program looks at a United States institution that trains Latin American military officers. Few Americans have heard of the school—the U.S. Army School of the Americas—nor are they aware that some of its graduates have
Thread of Hope

This program tells the powerful story of a group of women who banded together and dared to defy the brutal dictatorship of Chile's Gen. Augusto Pinochet. They set out to work to tell their stories by creating arpilias, colorful handmade tapestries that chronicled the horror and justice of Pinochet's reign of terror. Narrated by Donald Sutherland. (51 min., color)

Item #FFH 6549

Affirmative Action: The History of an Idea

This program explores the historical roots of affirmative action and the current debate over its usefulness. The program looks at several different affirmative action programs today. It includes archival footage and features interviews with a wide array of academic scholars. (56 min., color)

Item #FFH 6562

Women of Hope: Latinas Abriendo Camino

This program tells the story of Latina women in the U.S. through portraits of twelve unusual women who have broken new ground in their lives and achievements. Among those featured in the program are Miriam Colón, actress and founder of the Puerto Rican Traveling Theater; Nidia Velázquez, the first Puerto Rican Congresswoman; and Sandra Cisneros, Chicana novelist and poet. (29 min., color)

Item #FFH 6558

Artistic Legacy of the Mexican Revolution

This program traces the 1910 Mexican Revolution's impact on Mexican American communities in the Southwest. The lasting impact of the Mexican American culture is discussed with historians, artists, and eye-witnesses to the changes the revolution created. (30 min., color)

Item #FFH 5701

The Walls of Mexico: Luis Barragán

This beautifully filmed program looks at the wall paintings of some of the most famous Mexican muralists—Diego Rivera, Juan O’Gorman, José Clemente Orozco—and at the work of Luis Barragán, the greatest Mexican architect of this century. They all used the wall to create something distinctively new and vital, but they all found their guiding force in the renaissance of Mexican art and culture in traditions grounded in the pre-Columbian era. (56 min., color)

Item #FFH 6273

Ruíz: El Libro Buen Amor

This rendition of the greatest Spanish troubadour ballad and one of the high points of Spanish medieval literature puts special emphasis on the clear, accurate enunciation of Spanish verse. (60 min., color)

Item #FFH 160

Conferences

Walden University is proud to rank among the nation’s leaders in graduate degrees awarded to minority students. In a competitive ranking that included top U.S. research universities, Walden came out a winner. Our students represent one of the country’s most culturally diverse learning communities.

In a national comparison for awarding doctoral degrees, Walden ranked:
- 2nd for Health Profession Ph.D.s to African Americans
- 5th for Social Science Ph.D.s to Hispanic Americans
- 8th for Total Ph.D.s to African Americans
- 9th for Education Ph.D.s to African Americans
- 27th for Total Ph.D.s to Hispanic Americans
- 37th for Total Ph.D.s to All Minorities

We count our diversity among the university’s many assets — along with our commitment to making quality higher education accessible to working adults. And we make it our goal to foster the personal and professional development of minority students.

Walden University offers distance-delivered doctoral degrees in Management, Education, Psychology, Health Services and Human Services. Online master’s degrees are offered in Education and Psychology. Through innovative learning models and advanced technology, we make it possible for busy professionals to earn degree programs without interrupting career and family commitments.

Frederick Douglass Teaching Fellowships
Summer 1999

West Chester University of Pennsylvania is offering teaching fellowships to graduate students entering the final year of terminal degree programs and planning to be college teachers, for the purpose of attracting graduate students from historically underrepresented and underserved populations. Students selected will teach one course during a five-week term June 28-July 30.

The fellowships are designed to give these graduate students teaching experience and to explore employment opportunities with this university, which is committed to cultural diversity. This is in keeping with the spirit of Douglass' Life of Public Service and the University's mission to be a source of encouragement to the African American, Native American, Hispanic American, and Asian American communities.

Minimum requirements are Master's degree completed and currently enrolled in a terminal degree program, with academic background in one of the fields taught at West Chester University, and at least three favorable letters of recommendation from faculty or professionals in the student's field, including the student's advisor. Preference given to teaching and teaching assistants.

Applicants must successfully complete interview process and be considered as a finalist. Compensation will be as outlined faculty, $9,574 (subject to taxation). On-campus housing in an apartment also will be provided at no charge.

Applications are due December 4. For information, application, contact: Assistant Provost Office, 145 Bull Center, West Chester University, West Chester, PA 19383, Phone (610) 436-3557, mhyder@wcupa.edu, or visit our web site at www.wcupa.edu — information douglass fellows.

West Chester University of Pennsylvania, a member of the Pennsylvania State System of Higher Education, is continuing to build a culturally diverse, broadly trained faculty and administration capable of fostering an inclusive environment which we feel is necessary to help prepare our students for the 21st Century. West Chester is located 25 miles west of Philadelphia, is convenient to major cultural and commercial institutions, recreational activities, and is within driving distance of Wilmington, DE, New York, and Washington, DC. The University is an equal opportunity affirmative action employer encouraging diversity.

Thinking about college?

WILLIAMS COLLEGE

Gaius Charles Bolin Fellowships for Minority Graduate Students
1999-2000 Academic Year

In 1985 Williams College established the Gaius Charles Bolin Fellowships to underline the importance of encouraging minority students to pursue careers in college teaching. The Bolin Fellowships enable two minority graduate students to devote the bulk of their time during the academic year to the completion of dissertation work.

Named in honor of its first black graduate, who was admitted to Williams in 1885, the Bolin Fellowships will be awarded to minority students who are working toward the Ph.D. or in the humanities or in the natural, social, or behavioral sciences.

ELIGIBILITY: Applicants must be U.S. citizens, and must have completed all doctoral work except the dissertation by the end of the current academic year.

TERMS: The stipend for 1999-2000 is $20,000. The College will also provide housing assistance, academic support including office space and computer and library privileges, and an allowance of up to $2,000 for expenses.

During the year of residence at Williams, the Bolin Fellows will be assigned faculty advisers in the appropriate departments, and will be expected to teach one one-semester course.

APPLICATION: Candidates should submit two full copies of each of the following materials, postmarked by January 1, 1999:

- A full curriculum vitae
- A graduate school transcript and three confidential letters of recommendation
- A copy of the dissertation prospectus, preferably limited to 10-15 pp.
- A description of teaching interests

RESPOND TO: David L. Smith, Dean of the Faculty, Hopkins Hall, Williams College, Williamstown, Massachusetts 01267.

NOTIFICATION: Candidates will be notified of the Selection Committee's decision by early March, 1999.

Williams College, a coeducational liberal arts institution, offers an outstanding undergraduate education to its 2,200 students. The college has built its reputation on a long tradition of outstanding teaching and scholarship and on the academic excellence of its students. Among the opportunities that Williams offers its students and approximately 260 faculty members are interdisciplinary programs and centers, including the Olmsted Center for the Humanities and Social Sciences, the Multicultural Center, extensive library and museum collections, computer center and well-equipped laboratories.

An Affirmative Action and Affirmative Employment
Southern Connecticut State University invites applications for faculty positions to begin in the Fall 1999 semester. This pool of vacancies represents a significant opportunity for the University to enhance curricular vitality and refresh faculty perspectives.

SCSU is a comprehensive metropolitan public university, located in historic New Haven. Enrolling some 12,000 students, SCSU offers 46 undergraduate programs and 40 graduate programs at the master's and sixth year professional level.

Each position listed is a tenure track appointment. Rank and filing deadline are stated below in the specific position descriptions. Searches will continue until positions are filled. Applications should include a current vita; a letter describing the candidate's qualifications and experience for the position; a statement of teaching philosophy and research interests; and current undergraduate and graduate transcripts. Send materials to the appropriate Chairperson as noted, at: Southern Connecticut State University, 301 Crescent Street, New Haven, Connecticut 06515.

SCSU is an equal opportunity, affirmative action employer. The University seeks to enhance the diversity of its instructional staff. SCSU actively encourages women and minorities to apply.

BARRY UNIVERSITY
Ferris: Committed to Diversity

Ferris maintains a commitment to diversity and opportunity. We have over 14 percent minority enrollment, with 38 states and 53 countries represented on campus.

"At Ferris State University, there is always a way to overcome obstacles even if applying for financial aid, consulting with a caring faculty to point you in the right direction, or even in joining an active Hispanic Student Organization. Academics at Ferris can open up opportunities to help someone be a pioneer in her community. And while the Honors Program offering a variety of leadership possibilities, there are no limits or boundaries for my success."

Amy Martinez, senior in Social Work Member of the Hispanic Student Organization Honors student

"Ferris faculty realize that everyone has academic potential through hard work and dedication, anyone can change and improve in ways of life. The diverse education I have received here in conjunction with the international environment in the Honors Program, has changed the direction of my life and opened my mind to different cultures and backgrounds."

David Lira, junior in Criminal Justice Vice-president of the Hispanic Student Organization Honors student

RICE

A research university that is the size of a college, defining characteristics of Rice University are its low student-faculty ratio, residential college system, honor code, and its location in Houston, Texas, the nation’s largest city. We offer over 50 majors in engineering, natural sciences, architecture, music, humanities and social sciences. More than 30 research centers and institutes enhance opportunities for undergraduates to gain research experience while obtaining a first-class education. Recognized by Money magazine and U.S. News and World Report for its moderate tuition and generous financial assistance programs, Rice is one of the best values in higher education today.

Rice has been featured in The Hispanic Outlook in Higher Education and by the 1997 & 1998 Guide to the Top 25 Colleges for Hispanics. Currently, 12% of our undergraduates are Hispanic; 4% of our population are ethnic minorities. We seek a diverse community scholars who are willing to explore differences and celebrate them.

Achieve success. Begin here.

West Chester University
Teaching Minds. Shaping Futures.
The Mandel School of Applied Social Sciences, Case Western Reserve University, is soliciting applications for an Associate Dean of Research. The position provides leadership for efforts to increase the amount of governmental research funding. This includes gathering and distributing information on sources of research grant funding and proposal requirements, providing technical support and consultation to faculty in the development of grant proposals, reviewing proposal drafts, and organizing and supervising support staff to provide secretarial, budgetary, and other technical assistance to faculty in the submission of research grant proposals. The Associate Dean will also plan and organize opportunities for faculty to enhance their knowledge of research methodology, provide oversight and management of research development funds, work with faculty to disseminate the dissemination of research activities and research findings to the broader social work community and specific constituencies, and represent the research interests of the School.

Requirements include a Ph.D. in social work or a related field, qualifications for an appointment as a senior faculty member (associate or full professor), expertise in social science research, experience with federally funded research projects, interest and ability to work with faculty on a collegial basis, and ability to work as part of the administrative leadership team of the school.

Please send applications to: Victor K. Groza, Ph.D., Mandel School of Applied Social Sciences, Case Western Reserve University, 10900 Euclid Avenue, Cleveland, Ohio 44106-7164. E-mail: vkg2@po.cwru.edu. Applications will be accepted until the position is filled.

Case Western Reserve University is an equal opportunity/affirmative action employer.

**Dean Boston College College of Arts and Sciences**

Boston College invites nominations and applications for the position of Dean of the College of Arts and Sciences. Boston College is a national Catholic University with enrollment of 14,700 graduate and undergraduate students. It was ranked 36th among national universities in recent college guide and was rated as one of the top Catholic universities in the US.

Boston College seeks a dean with substantial experience in liberal education in the Jesuit tradition and as director of the Jesuit tradition and as the College of Arts and Sciences. The dean will be responsible for the development and evaluation of the College of Arts and Sciences. The position is a four-year term.

Requirements include a Ph.D. in a liberal arts field, experience in institutional administration, and a strong commitment to the Jesuit values of community, service, and social justice.

Please send applications to: David R. Burgess, Academic Vice President and Dean of the Faculty, Boston College, Chestnut Hill, MA 02467-3838.

Boston College is an equal opportunity/affirmative action employer.

---

**Associate Dean of Research**

Nominations and applications of qualified and interested candidates are sought for the position of Associate Dean of Research. The position provides leadership for efforts to increase the amount of governmental research funding. This includes gathering and distributing information on sources of research grant funding and proposal requirements, providing technical support and consultation to faculty in the development of grant proposals, reviewing proposal drafts, and organizing and supervising support staff to provide secretarial, budgetary, and other technical assistance to faculty in the submission of research grant proposals. The Associate Dean will also plan and organize opportunities for faculty to enhance their knowledge of research methodology, provide oversight and management of research development funds, work with faculty to disseminate the dissemination of research activities and research findings to the broader social work community and specific constituencies, and represent the research interests of the School.

Requirements include a Ph.D. in social work or a related field, qualifications for an appointment as a senior faculty member (associate or full professor), expertise in social science research, experience with federally funded research projects, interest and ability to work with faculty on a collegial basis, and ability to work as part of the administrative leadership team of the school.

Please send applications to: Victor K. Groza, Ph.D., Mandel School of Applied Social Sciences, Case Western Reserve University, 10900 Euclid Avenue, Cleveland, Ohio 44106-7164. E-mail: vkg2@po.cwru.edu. Applications will be accepted until the position is filled.

Case Western Reserve University is an equal opportunity/affirmative action employer.
Department of Communication DePaul University

The Department of Communication invites applications for two tenure-track positions at the rank of assistant professor beginning September 1999. Candidates able and willing to teach in interdisciplinary programs will be advantaged.

MEDIA STUDIES
Tenure-track, assistant professor to teach a mix of undergraduate and graduate courses. Background and training in television genres, analysis and criticism required. Other possible courses: culture and media, video production, research methods, history of broadcasting, mass communication history and criticism. Familiarity with new technologies a plus. Successful candidate will help shape our future course offerings in mass communication Ph.D. or near.

COMMUNICATION STUDIES
Tenure-track, assistant professor to teach a mix of graduate and undergraduate courses. Background and training in rhetorical theory, history and criticism. Interest in debate a plus. Candidate with metronomical background and emphasis on critical theories, cultural studies and postcolonial discourse will be advanced. Possible courses include: contemporary issues in multicultural contexts, rhetorical theory, history and criticism, persuasion and argumentation. In addition to instructional responsibilities, the position includes supervision of the debate coach. Ph.D. or near.

The department currently serves approximately 400 undergraduate majors and 95 graduate students with an integrated curriculum for undergraduates that includes 1) media history, theory, criticism and production; 2) rhetoric and composition; and 3) language and culture offerings. The graduate offerings are in the areas of multimedia and corporate communication. The department has 18 full-time faculty.

DePaul University is a private, Catholic institution with a total enrollment of approximately 18,000 students. DePaul has five campuses in both urban and suburban locations. The university has a strong commitment to providing a comprehensive liberal arts education and emphasizes both teaching and scholarship. The university is committed to building a faculty that matches the diversity of its students and the Chicago community. The university's main campus in the heart of Chicago offers a stimulating and diversified range of cultural and educational opportunities.

Send a letter of application, CV, letters of recommendation, copies of teaching evaluations including student comments, sample syllabi, official transcripts and writing samples to: Dr. Donald R. Martin, Chair, Search Committee, Communication Department, Job Code: H0HE, DePaul University, 2230 N. Kenmore Ave., Chicago, IL 60614-3208. We specifically solicit applications from women and people of color. Deadline for applications: January 5, 1999 or until position is filled.

Cascadia Community College
Bothell, Washington

FACULTY POSITIONS
Start Date: February 1, 1999

Cascadia Community College invites applications for four full-time temporary, renewable non-tenured faculty positions to participate in a collaborative, intensive interdisciplinary process to design the core curriculum for the college and develop the core curriculum. Located in the state of Washington, ten miles east of Seattle, Cascadia is Washington State’s newest community college. The college is located in Bothell, which is a part of the Seattle metropolitan area. The college offers a wide range of degrees and certificates in various fields.

The positions require experience in teaching in learning communities, alternative pedagogies, or broad interdisciplinary training and practice. Knowledge of and experience in the design and implementation of innovative teaching strategies is highly desirable. We are seeking candidates with advanced degrees and experience in any area of the following subject areas: biological sciences, psychology, human behavior, and education.

We are seeking candidates with advanced degrees and experience in any of the following subject areas: biological sciences, psychology, human behavior, and education.

Vice President for Research and Dean of the Graduate School

The University of Maryland College Park invites applications and nominations for the position of Vice President for Research and Dean of the Graduate School.

The Vice President for Research is a member of the senior leadership team of the campus and reports to the President of the University while working closely with the Senior Vice President for Academic Affairs and Provost. The Vice President is expected to provide the leadership needed to sustain the strong growth in the University's research programs and to assume a position of leadership in formulating and interpreting research policy and representing the university to national and international research and educational agencies, business and industry, and in the national and international research community. The Vice President will lead the campus in the development of new multi-disciplinary research activities and units, particularly those working across university campuses, government agencies, and the business sector, and is charged with promoting policies that support a large and diverse faculty in the conduct of their research, scholarship, and creative work.

As the principal academic officer of the Graduate School, the Dean reports to the senior Vice President for Academic Affairs and Provost and is responsible for policy development and administration of a decentralized Graduate School offering over 40 advanced degree programs and enrolling over 8,000 students. The Dean plays an important role in shaping graduate curriculum, must approve any new graduate programs, and is also in charge of the review and modification of existing programs and the recruitment, admission, support and education of graduate students.

The University of Maryland, College Park, is a Carnegie I category, comprehensive research-oriented, public university with almost 35,000 students in baccalaureate, master's and doctoral programs. It is located on a 350 acre campus just outside Washington, D.C.

Qualifications: An earned doctorate in an appropriate area of specialization and a substantial record of scholarly accomplishment, research leadership, and the recruitment of extramural funding. Qualified applicants must merit appointment at the Professor rank and have successful administrative experience. Applicants and nominees should submit a letter of interest, curriculum vitae, and the names, addresses, and telephone numbers of at least four persons whom the search committee can contact for references. Nominations are encouraged and will be accepted at any time. Review of nominations and applications for this position will commence on November 1, 1998, and continue until the position is filled. All materials should be sent to:

Search Committee: VP For Research and Dean of the Graduate School
Attention: Sheila Mahaffy
2119 Main Administration Building
University of Maryland
College Park, MD 20742

The University of Maryland, College Park, as its subscribes to a policy of equal education and employment opportunity. Women and minority candidates are encouraged to apply.

FACULTY POSITION

THE MANDEL SCHOOL OF APPLIED SOCIAL SCIENCES, CASE WESTERN RESERVE UNIVERSITY is soliciting applications for a tenure-track faculty position. The position focuses on mental health practice from a sociocultural perspective. It includes teaching courses in mental health and psychopathology at foundation and advanced levels. Candidates should have the ability to develop and conduct a program of scholarly activity.

Requirements include a D.S.W. or Ph.D. in social work or a related field. A Master’s degree in Social Work with two years post-master’s practice experience is required. We are interested in individuals who are committed to the field of social work and have demonstrated skills in research, teaching, and service.

MSASS currently offers Master’s and Doctoral degrees to approximately 500 students. The School is committed to innovative, interdisciplinary, and community-based approaches to practice. The Mandel School also has a mental health research institute, which provides an opportunity for faculty to collaborate with their colleagues in conducting mental health services research. Our mission reads: MSASS provides and integrates professional social work education, research, and service to promote social justice and empowerment in communities through social work practice locally, nationally, and internationally.

Please send applications to: Paul Adams Ph.D., Associate Dean for Academic Affairs, Mandel School of Applied Social Sciences, Case Western Reserve University, 10800 Euclid Avenue, Cleveland, Ohio 44106-7164. E-mail: pla@po.cwru.edu. Applications will be accepted until the position is filled.

CASE WESTERN RESERVE UNIVERSITY

Case Western Reserve University is an equal opportunity/affirmative action employer.
ASSISTANT/ASSOCIATE PROFESSOR, Position is tenure-earning and primarily involves teaching, research, and service in CACREP-accredited Mental Health Counseling program. Assigned initial academic rank will be contingent upon professional qualifications in the areas of teaching, research, and professional service. Salary is open and competitive dependent upon professional qualifications and experience. QUALIFICATIONS: Applicants eligible for consideration for this position must have experience in mental health counseling in other community agencies or schools and substantiate potential for excellence in teaching, research, publication, and professional service. A demonstrated commitment to diversity is essential. Applicants for this position must have an earned doctorate in Counselor Education or a closely related field and be willing to seek licensure as a mental health counselor in the State of Florida. PREFERRED: Preference will be given to applicants having academic and/or teaching experience in psychodiagnosis and/or substance abuse counseling and/or career development. Preference also will be given to graduates of a CACREP-accredited doctoral program. Familiarity with the use of computers and other technology in counseling and teaching is highly desirable. APPLY TO: Search Committee Chairperson, Department of Counseling Education, PO Box 117047, University of Florida, Gainesville, FL 32611-7047. DEADLINE: Applicants should submit by 1) current professional vita (include email address if available); 2) three letters of recommendation; 3) documentation that the doctoral degree was or will be awarded by August, 1999; 4) a letter of interest that includes a description of professional and personal qualifications and their match to the position-specific requirements and references; and 5) a statement of the applicant's philosophy of counselor education. Applications not including all parts (including references) of the required five components will not be considered. All application materials must be postmarked by January 15, 1999.

ASSISTANT PROFESSOR MEASUREMENT AND EVALUATION, Tenure-track position in the Department of Foundations of Education. Primary responsibilities include teaching undergraduate and graduate courses in classroom assessment and evaluation and research methodologies. Qualifications: candidate should have a Ph.D. in education and related area, and a strong commitment to teaching and research in education. The minimum educational qualification is an earned doctorate in research and evaluation. APPLY TO: Dr. James Algina, PO Box 117047, University of Florida, Gainesville, FL 32611-7047. DEADLINE: Applicants should submit an introduction letter stating research and teaching interests, a vita, a statement of professional and personal qualifications and their match to the position-specific requirements and references; and a statement of the applicant's philosophy of counseling. Applications not including all parts (including references) of the required five components will not be considered. All application materials must be postmarked by January 15, 1999.

ASSISTANT PROFESSOR PHILOSOPHY OF EDUCATION, Full-time tenure track position to teach Foundations of Education courses in undergraduate teacher preparation programs. Teach graduate courses in the philosophy of education and related area. Serve on doctoral committees and maintain a successful record of research and publication. QUALIFICATIONS: An earned doctorate in philosophy of education; a record of successful college teaching. APPLY TO: Dr. Rodman Webb, Chair, Philosophy of Education Search Committee, Foundations of Education Department, PO Box 117047, University of Florida, Gainesville, FL 32611-7047. DEADLINE: Applicants should submit by December 15, 1998. Applicants should arrange for letters of recommendation to be mailed to Dr. Webb.

ASSOCIATE OR FULL PROFESSOR SCIENCE EDUCATION: Teach undergraduate and graduate courses in science education; provide leadership in planning and implementation of a coordinated science/mathematics component in elementary education program; conduct and publish research; direct doctoral research; provide leadership in seeking extramural funding for research and development in science education; perhaps direct a center for research and development in science education. QUALIFICATIONS: Earned doctorate in science education preferred. APPLY TO: Dr. Mary Grace Kazakowski, Department of Instruction and Curriculum, PO Box 117048, University of Florida, Gainesville, FL 32611-7048. DEADLINE: Letters of application accompanied by resume; three representative reprints of research and scholarly publications; other supporting materials as appropriate; names, addresses and telephone numbers of at least three references whom you have asked to write a letter of recommendation must be received by January 15, 1999.

ASSISTANT PROFESSOR EDUCATION TECHNOLOGY, Teach and advise undergraduate and graduate students in education technology, collaborate with colleagues in a thriving department and program; provide leadership in planning and implementation of a coordinated science/mathematics component in elementary education program; maintain a personal program of interdisciplinary research and creative activities; advise graduate students in education technology. QUALIFICATIONS: Earned doctorate in education technology or related field. APPLY TO: Dr. Mary Grace Kazakowski, Department of Instruction and Curriculum, PO Box 117048, University of Florida, Gainesville, FL 32611-7048. DEADLINE: Letters of application accompanied by resume; three representative reprints of research and scholarly publications; other supporting materials as appropriate; names, addresses and telephone numbers of at least three references whom you have asked to write a letter of recommendation must be received by January 15, 1999.

ASSISTANT PROFESSOR EARLY CHILDHOOD EDUCATION, Teach and advise undergraduate and graduate students in a collaborative, inclusive, five-year unified Early Childhood Teacher Education program. Supervise field experiences: teach, advise, and supervise doctoral students; maintain an active program of research and publication. QUALIFICATIONS: Earned doctorate at least two years' successful teaching experience in early education settings. APPLY TO: Dr. Kristen Kemple, Department of Instruction and Curriculum, PO Box 117048, University of Florida, Gainesville, FL 32611-7048. DEADLINE: Letters of application accompanied by resume; three representative reprints of research and scholarly publications; other supporting materials as appropriate; names, addresses and telephone numbers of at least three references whom you have asked to write a letter of recommendation must be received by January 15, 1999.
Chair, Department of Theatre

The Department of Theatre at the University of Maryland, College Park, seeks a Chair to lead it during its move to a new state-of-the-art performing arts center. The Department of Theatre has a significant presence in the Baltimore-Washington D.C. metro area for its strong programs in production and scholarship. The Department offers a full range of undergraduate courses within the B.A. degree, and the graduate program currently offers the M.A. and Ph.D. in theatre studies and the M.F.A. in production design. It participates as well in an interdisciplinary M.F.A. in arts management.

There are twelve full-time faculty and a staff of six in the Department.

A new performing arts center is currently under construction, and the Department is one of three teaching units to be housed there. The successful candidate will possess the necessary qualifications to guide the Department effectively through this move to the new center and into its next stage of development.

The successful candidate must have the qualifications to support appointment at the rank of Professor and, ideally, will hold the Ph.D. or M.F.A. Experience within the University setting and a demonstrated commitment to a balanced program within theatre (scholarly and artistic) are required together with an ability to lead a Department with a strong commitment to self-government.

Applications from women and minority candidates are particularly encouraged.

A statement of interest and the names, addresses, telephone numbers, and email addresses of four references should be sent to:

Professor Richard Price, Chair
Department of Theatre Search Committee
College of Arts and Humanities
1102 Francis Scott Key Hall
University of Maryland
College Park, Maryland 20742

For best consideration, applications should be submitted by December 1, 1998, but they will be received and reviewed until the position is filled.

The University of Maryland is an AA/EEO employer.

The successful candidate will be expected to complement current faculty in this area. There are currently positions within Kinesiology an interdisciplinary faculty with interests in the following research themes: lifespan physical activity; human performance and fitness; disability; disease and rehabilitation; human factors, and cultural studies. Well-equipped laboratories exist both in the Department of Kinesiology and across campus to support interdisciplinary research in physical activity. Further information about the Department of Kinesiology and current faculty can be found by visiting http://www.kines.uiuc.edu. Qualifications include an academic background in Kinesiology and the ability to teach one or more courses in Kinesiology and the Psychology of Physical Activity. A doctorate is required. Teaching and post-doctoral experience are desirable. Women and minorities are especially encouraged to apply. Salary is commensurate with experience and qualifications. To assure full consideration, a letter of application, vita, and three letters of recommendation should be submitted by January 15, 1999. The appointment will be effective August 21, 1999.

Steven J. Petrassello, Chair, Search Committee
Department of Kinesiology
University of Illinois at Urbana-Champaign
231 Louise Freer Hall
906 S. Goodwin Avenue
Urbana, IL 61801

The University of Illinois is an Affirmative Action Equal Opportunity Employer.

Georgia Southern University invites nominations and applications for the position of Provost and Vice President for Academic Affairs. The University enrolls its 16,000 students (~1,000 FTE) from nearly every county in Georgia. The University's 82 campuses Georgia Southern is located in Statesboro, a community of 30,000 located 60 miles northeast of Savannah and 200 miles southeast of Atlanta. <http://www.gasu.edu>

The Position
As the chief academic officer of the University, the Provost and Vice President for Academic Affairs reports to the President and serves as the principal administrator in charge during the President's absence. Reporting to the Provost are the deans of the colleges, three associate vice presidents, the University Librarian, and directors of major academic services. Anticipated starting date: July 1, 1999.

Qualifications
- Earned doctorate or other appropriate terminal degree, including a distinguished record as scholar and teacher that would qualify the candidate for the rank of Professor and tenure upon appointment.
- Successful performance as a senior academic administrator beyond the level of academic department chair. Significant experience in management of budgets and personnel is essential.
- 3 years of experience that facilitates strategic planning, teamwork, and coordination of academic programs.
- Commitment to equity and diversity.

Applications
The Search Committee will continue to accept applications until the position is filled. Applications are encouraged prior to December 20, 1998. When screening will begin, a letter of application, addressing the position description and qualifications, a current curriculum vitae, and the names, addresses, and telephone numbers of at least five professional references to the search chair Dr. G. Lanier Vann Tassell, Chair, Provost/VPAA Search and Steering Committee, P.O. Box 8008, Georgia Southern University, Statesboro, GA 30460-8008.

Electronic mail: lvantassell@gasou.edu

Boston University
School of Education

Special Education

The Department of Special Education is seeking an assistant or associate, tenure-track, faculty member as part of its strategic plan to build a comprehensive program. The position involves teaching and conducting research in the education of students with learning disabilities, mental retardation, and behavior disorders, and in the integration of such students in regular education settings. An earned doctorate is required. A record of scholarship/research beyond the dissertation is expected for appointment at the associate level. Of particular interest are candidates who are knowledgeable about advances in the study of the causes of learning disabilities, and about research and theory pertaining to the instruction of students with learning difficulties.

The deadline for applications is February 1, 1999.

A letter of application, a current curriculum vitae, sample publications, and the names, addresses, e-mail addresses, and telephone numbers of three references should be sent to:

Ms. Elizabeth Austin
School of Education, Boston University
605 Commonwealth Avenue, Boston, MA 02215
For all positions, send letter of application, vita, copies of all undergraduate and graduate transcripts, three current letters of reference and any additional materials requested in individual position descriptions by specified date to the named Search Committee Chair and Department at the address below. Applications received by the submission date will receive full consideration.

SCHOOL OF HUMANITIES AND SOCIAL SCIENCES

Teach undergraduate and graduate art education methods courses, supervise student teachers, and supervise graduate research. Required: PhD in Art Education, or equivalent. Position 11f - Bilingual Education (Hmong/Spanish)/ESL and/or Curriculum
Major responsibilities include teaching undergraduate and graduate courses in a department of Curriculum and Instruction. Assignments may include supervision of field experiences Knowledge of connecting-the-curriculum, curriculum assessment and standards is desirable. Prior experiences teaching bilingual education/ESL children or adolescents are desirable. A minimum of three years of teaching experience at the elementary or secondary levels and university teaching experience is preferred.

Applicants should submit a letter of application specifying position number, resume, statement of teaching philosophies, transcripts, and three current letters of recommendation to Dr. Carmen J. Coballes-Vega, Associate Dean, College of Education and Human Services, University of Wisconsin Oshkosh, Oshkosh, WIS 54901-8662. Applications will not be accepted after February 16, 1999. Nominees and applicants may request in writing that their identity not be revealed. The names of those not making such a request and the names of all finalists must be revealed upon request under state law.

The University of Wisconsin Oshkosh is an Affirmative Action/Equal Opportunity Institution.
Florida International University invites nominations and applications for the position of Dean of the College of Education. The Dean reports to the Provost and Executive Vice President for Academic Affairs.

The University: FIU, located in Miami, is a research university and one of the fastest-growing members of the State University System of Florida. Opened in 1972, FIU enrolls over 30,000 students on two major campuses. FIU has an established and rapidly growing reputation for excellence in research and a strong history of diversity and inclusion. Representation among its students, faculty, staff, and administrators is reflective of the diversity of South Florida.

The College: The College of Education delivers a variety of graduate and doctoral programs in fields such as educational leadership, counseling, special education, and early childhood education. The College is home to the nationally recognized Center for Research in Education, a leading research institution. The College's six departments include the Department of Educational Leadership, the Department of Counseling and Counseling Psychology, the Department of Special Education, and the Department of Early Childhood Education.

Responsibilities: The Dean will be responsible for overseeing the strategic planning and implementation of the College's mission and goals. This includes leadership in research, teaching, and service, as well as the development of partnerships with K-12 school districts and community partners. The Dean will also be responsible for the management of the College's budget and resources.

Qualifications: The ideal candidate will have a doctoral degree in education or a related field, with a strong record of research and publication. The candidate should also have a demonstrated commitment to diversity and inclusion, and experience in managing and leading a large and complex academic unit.

Application: Interested candidates should submit a letter of application, curriculum vitae, and three letters of recommendation to the search committee. The application deadline is January 15, 2023.

Florida International University is an equal opportunity, affirmative action employer. Women and minorities are encouraged to apply.
Assistant/Associate Professor Positions

University of Missouri-Rolla

Four new tenure-track, Assistant/Associate Professor positions are being created on the University of Missouri-Rolla campus through State Enhancement funding in the area of materials and manufacturing. Ideally a faculty member is sought who can complement the teaching and research activities of existing faculty working in the appropriate discipline area listed below, and who will participate in the campus interdisciplinary Materials Research Center. Previous experience and evidence of independent research activities in the area of films and coatings is preferred.

Metallurgical Engineering (Metallic Thin Films) #R52880, Ceramic Engineering (Nanomaterials, Films and Coatings) #R52877, Physics (Experimental Condensed Matter Physics/Materials) #R52802, and Chemistry (Polymers, Coatings, and/or Materials Synthesis) #R52797. For further position and departmental information, access the center's home page at http://www.umr.edu/nmr.

Applications, including curriculum vitae with publications list, the names and addresses of at least three references, and a brief description of research interest should be sent by January 30, 1999, to Human Resource Services, #R (with appropriate reference number), University of Missouri-Rolla, 1202 North Bishop, Rolla, MO 65409-1050 for logging and acknowledgment prior to being forwarded to the department.

UMR is an AA/EEO employer and tenants, minorities, and persons with disabilities are encouraged to apply.

University of Florida

Department of Computer Science

Assistant Professor

Applications are invited for the tenure-track position of Assistant Professor beginning August 1999. Applicants must hold a Ph.D. in a related discipline and should be able to teach a variety of undergraduate courses in computer science. Preference will be given to individuals with experience in industrial experience. Salary range: $47,000-$55,000 depending on experience.

The Department has 200 undergraduate and 150 graduate programs in CS, CIS, and software engineering. We offer B: CIS, MS degrees in CS and software engineering, and a number of programs offered by the ECE department. Our faculty focuses on areas of interest including algorithms, software architecture, software engineering, and database systems.

The University of Florida is an urban university with 37,000 students situated in an 8,000-acre wooded campus on the edge of the State University. Florida, Pensacola is located within about 50 miles east of Mobile, 200 miles east of Atlanta, 325 miles west of Atlanta, Pensacola is well known for its beautiful beaches, and moderate cost of living.

Applicants must provide documentation of the right to work. Applicants should send (not by e-mail) a resume, a list of three references, and a statement of interests and goals to Jim Bezek, Search Committee Chair, Department of Computer Science, The University of Florida, P.O. Box 118404, Gainesville, FL 32611-8404. Review of applications will be completed by May 1, 1999. UWF is an EEO/AA employer. Women and Minorities are encouraged to apply.

Continually evaluates overall quality of externship program. Develops and maintains data and produces regular reports. Participates in general program administration including academic planning, counseling students, and program pre-registration forms. BA required, JD preferred with 3-5 years' experience in student services or clinical education administration. Must have solid working knowledge of local, criminal, and governmental legal communities or comparable experience; strong oral and written communication skills; and interpersonal skills required. Must be self-starter and a creative problem solver.

Harvard Law School is an equal opportunity employer.
VICE CHANCELLOR
FOR ACADEMIC AFFAIRS
Indiana University South Bend

Indiana University South Bend invites nominations and applications
for the position of Vice Chancellor for Academic Affairs

THE UNIVERSITY - Indiana University South Bend is the third largest of eight state-wide
Indiana University campuses. It is a non-residential, urban, comprehensive campus, enrolling
over 7,300 students and is staffed by 246 full time and 273 part time faculty members.
Indiana University South Bend offers 103 different degree and certification programs, with
master’s degrees in Business, Education, Music, Public and Environmental Affairs,
Psychology, Social Work, Nursing and Liberal Studies.

RESPONSIBILITIES - The Vice Chancellor reports to the Chancellor, is the chief academic
officer of the campus, and represents the campus on the All-University Academic Officers
Committee. Reporting directly to the Vice Chancellor for Academic Affairs are the Associate
Vice Chancellor for Academic Affairs, the Deans of five academic Divisions (Business and
Economics, Education, Liberal Arts and Sciences, Nursing and Health Professions, and
Arts), and more than a dozen other academic administrators.

QUALIFICATIONS

• Vision and energy to lead the faculty and staff of a diversified, comprehensive,
growing, public university.
• Earned doctorate or terminal degree.
• Distinguished academic record commensurate with faculty appointment at full
professor level with tenure.
• Significant record of effective teaching and substantial scholarly achievement.
• Demonstrated experience in research administration.
• Successful administrative experience as a Dean or in a major academic unit.
• Demonstrated expertise in budgetary, fiscal, and personnel management.
• Commitment to and experience in shared governance with faculty, staff, and students.
• Dedication to academic excellence and academic freedom.
• Ability to communicate effectively with all University constituencies.
• Commitment to equal opportunity and affirmative action.

SALARY - The salary is competitive, with a comprehensive fringe benefits package.

THE COMMUNITY - Indiana University South Bend is located in north central Indiana.
90 miles east of Chicago. With a population of more than 250,000, the South Bend area
has the amenities of a metropolitan center with the personal warmth of a mid-sized community.
South Bend is the home of five other colleges and universities, and with the community’s
exceptional cultural and recreational resources, offers an attractive quality of life.

APPLICATION - The position of Vice Chancellor for Academic Affairs will be available
July 1, 1999. Review of applications will begin immediately and will continue until the
position is filled. Completed applications received after January 15, 1999 cannot be assured
full consideration. Nominations should include the name, address, and telephone number
of the nominee. Applicants should submit a letter of interest, a Curriculum Vita, and the
names, addresses, email, fax, and telephone contact information for 3 to 5 professional
references.

Applications will be reviewed beginning in October 1998 and will continue to be accepted until the position is filled. Women, minorities and veterans are encouraged to apply.
Provost / Vice President for Academic Affairs

The Western Washington University campus community invites applications and nominations for the position of Provost / Vice President for Academic Affairs. The Provost / Vice President for Academic Affairs is the chief academic officer of the university and has senior leadership, policy, and decision responsibility for academic programs, faculty, academic relations with other organizations, academic budgets, and academic facilities planning. The Provost also serves as a member of the senior management team, fulfills an important role in university-wide matters, represents the university to appropriate external bodies, and serves as President when the President is unavailable.

Required qualifications for the Provost / Vice President for Academic Affairs position include an earned doctoral degree and academic leadership experience as a Dean, Academic Vice President, or other senior administrator. Candidates must also demonstrate a distinguished record of teaching and scholarship appropriate for an appointment as a tenured Full Professor in one of the university’s academic departments. Desirable qualifications include:

- Evidence of extensive, effective planning and decision-making experience in curricular, personnel, and budgetary areas, a record of increasing line responsibility in academic management.
- A collegial leadership style that embraces shared faculty governance, accessibility, and a commitment to diversity.
- Evidence of excellent communications skills, an ability to work with diverse constituencies, and experience in managing change.
- A demonstrable understanding of the mission and environment of a public, comprehensive university.
- A record of support for undergraduate education and for inclusive approaches to pedagogy, as well as a record of successful undergraduate teaching.
- Evidence of a commitment to academic excellence in areas such as graduate education, faculty scholarship, undergraduate opportunities in research, and endowed programs.

Western Washington University is a comprehensive university whose goal is to provide the highest quality undergraduate programs in the state along with a number of selected graduate programs. Western is an institution of more than 11,000 students located on a beautiful campus in Bellingham, Washington about 90 miles north of Seattle and 60 miles south of Vancouver, British Columbia.

The President and campus community seek to fill the position of Provost / Vice President of Academic Affairs by September 1999. The salary and benefits are competitive. All inquiries, nominations, and applications will be held in strictest confidence and should be addressed to:

Provost / Vice President of Academic Affairs
Search Committee
Professor Stephen Senge, Chair
Old Main 450 MS 9000
Western Washington University
Bellingham, WA 98225

Applications should include a letter of interest addressing the stated qualifications, a curriculum vitae, and the names and addresses of five references. To assure full consideration, application materials must be received by December 7, 1998. WWU is an AA/EEO employer.

More information on the Provost / Vice President of Academic Affairs search is available at http://www.de.wwu.edu/~provost. This website provides an opportunity to send nominations electronically.

United States Department of Agriculture
Cooperative State Research, Education, and Extension Service (CSREES)

Administrator, CSREES

USDA is seeking to fill the position of Administrator for the Cooperative State Research, Education, and Extension Service. As Administrator, the incumbent is responsible for working with partners and customers to advance research, extension, and higher education in the food and agricultural sciences and related environmental and human sciences to benefit people, communities, and the Nation. Programs under the direction of the incumbent are financed by approximately $900 million in Federal funds and accomplished through the efforts of approximately 400 CSREES employees. The incumbent reports directly to the Under Secretary, Research, Education, and Economics and has frequent contacts with top officials of USDA, other government agencies, cooperative extension services, state agricultural experiment stations, colleges and universities, private organizations and corporations, national and international institutions, Departments and Ministries of Agriculture in other nations, and members of Congress and their staffs.

This is a Senior Executive Service position. Salary ranges from $106k to $125k (including locality pay), commensurate with experience. A Ph.D in a discipline related to the position is highly desirable.

For information on the position, call Betty Lou Gilliland at 202-720-7441; for vacancy announcement/application procedures, call Gwen Donovan at 301-504-1448.

Gainesville College

Political Science Faculty Position (Tenure-Track)

Gainesville College invites applications for a tenure-track position in Political Science beginning January or August 1999.

THE POSITION

Primary teaching responsibilities are American Government with preference given to candidates with credentials to teach in other sub-fields or a related discipline. Candidates must demonstrate a commitment to excellence in teaching, interdisciplinary endeavors and distance learning.

QUALIFICATIONS

Ph.D in Political Science preferred with a strong commitment to teaching at the two-year college level.

THE COLLEGE

Gainesville College is a two-year college of the University System of Georgia offering classes on and off campus including day, evening and weekend. It is committed to teaching, service, and support of professional development and campus diversity.

THE APPLICATION

Candidates should submit a letter of application, vita, and three copies of official copies of undergraduate/graduate transcripts (official copies will be required of those chosen for an interview) and a statement of teaching philosophy and three letters of recommendation to:

Human Resources Office
Political Science Search Committee
Gainesville College
PO Box 1358
Gainesville, GA 30503

Review of completed files will begin December 1998 and continue until the position is filled.

Gainesville College is an Affirmative Action Equal Opportunity Educational Institution.
Applications are invited for the position of Chair, Computer Science Department, beginning Fall 1999. Applicants must hold the Ph.D. in Computer Science/Computer Engineering/CIS or a related discipline. The primary focus of our department, and at UWF more generally, is on teaching, but we also expect our faculty to engage in research and scholarly endeavors. We have a burgeoning enrollment, a small faculty, and good potential for growth. We expect to hire several faculty this year to meet the needs of our growing student body, making the chairperson's job exciting as well as demanding. Salary range, negotiable, depending on administrative experience, research and teaching background, and other factors relating to effective leadership of the department. Field of expertise is open.

The Department has 500 undergraduate and 150 graduate students enrolled in programs in CS, CIS, and software engineering. We offer BS degrees in CS and CIS, MS degrees in CS and software engineering, and support a BS in computer engineering offered by our ECE department. Our faculty have interests in the following areas: pattern recognition, artificial intelligence, computing in education, neural networks, image processing, software engineering, computer vision, graphics, and simulation.

The University of West Florida is an urban university with approximately 6,300 students, situated in a 1,000-acre wooded campus on the edge of Pensacola, and is part of the State University System of Florida. Pensacola is home to about 250,000 people and is about 50 miles east of Mobile, 200 miles east of New Orleans, and 325 miles southwest of Atlanta. Pensacola is well known for its beautiful beaches, wonderful seafood, and modest cost of living.

Applicants must provide documentation of the rights to work in the United States. Applicants should send not by e-mail a resume, a list of three references, a statement of interests and goals to Jim Bezek, Search Committee Chair, Department of Computer Science, The University of West Florida, Pensacola, Florida 32514. Review of applications will begin on February 1, 1999. UWF is an EO/AA employer. Women and minorities are encouraged to apply.

ARIZONA STATE UNIVERSITY
COLLEGE OF EDUCATION

Division of Educational Leadership and Policy Studies

ASSOCIATE OR FULL PROFESSOR
Higher and Postsecondary Education Program

The Higher and Postsecondary Education Program of the Division of Educational Leadership and Policy Studies, College of Education, Arizona State University invites nominations and applications for one associate/full professor position. The person selected will join a nationally recognized graduate program in one of the leading colleges in the United States. Arizona State University is the third largest university in the country and is the only public university in the rapidly-growing Phoenix metropolitan area, now the seventh largest in the United States. Graduate faculty in this Research I university are noted for productive scholarship and service to the region, state and nation, as well as to their academic discipline. The Higher and Postsecondary Education program has a particularly strong emphasis on studies relating to college students and on preparation of student affairs administrators.

POSITION RESPONSIBILITIES:
The person selected will teach and advise graduate students in the Higher and Postsecondary Education program, primarily in the program emphasis on studies relating to college students and on preparation of student affairs administrators. Collaborate with colleagues in recruiting, graduating and placing students, mentor doctoral students in dissertation completion and professional development; provide appropriate service to the program, division, college, university and discipline, and conduct research, publication and grant activities appropriate to the rank of associate or full professor in a Research I university.

REQUIRED QUALIFICATIONS:
To be considered for appointment to this position candidates must have an earned doctorate in Higher Education, College Student Personnel or other discipline appropriate to studies relating to college students and the preparation of student affairs administrators, and an established record of research and publication appropriate to rank.

DESIRED QUALIFICATIONS:
In addition to these requirements it is highly desired that candidates have recent experience in student affairs administration in teaching and/or mentoring graduate students. Also desired is evidence of participation in service to the profession, successful external grant proposal activity and scholarly qualifications to chair Ed.D and Ph.D. student advisory committees.

APPLICATION DEADLINE:
Review of applications will begin on November 1, 1998 and continue until January 16, 1999. Applications received after January 16, 1999 will be considered if a subsequent review cycle is necessary.

APPLICATION PROCEDURE:
Send a letter of application & curriculum vita (including names of at least three persons who may be contacted for references) to:

Chair, Search Committee Faculty Position
Higher & Postsecondary Education
Educational Leadership & Policy Studies
College of Education
Arizona State University
Box 872411

The University of Michigan
Ann Arbor

Dean, School of Art and Design

The University of Michigan seeks applications and nominations for the
Dean of the School of Art and Design. The School enrolls approximately
500 undergraduates in BFA curriculums in both fine arts and design.
The MFA degree is also offered and enrolls 50 students. The School is
located on the North Campus of the University and has outstanding
facilities. Located near by is the Media Union which is equipped with the
latest technology including that used in the visual arts and design.

Qualifications for the deanship include a terminal degree or equivalent
experience in the arts, and proven leadership skills. The candidate must
be qualified to assume a tenured position at the University of Michigan.
The candidate should have a demonstrated commitment to affirmative
action, equal employment, and educational opportunities. He/she must
possess a clear understanding of the educational role of the visual arts,
including interdisciplinary programs, in a major research university.

The Dean is expected to provide intellectual and artistic leadership for
the School, oversee the instructional program, supervise the budget and
personnel administration, and assume a major role in fundraising. As
the chief academic, administrative, and financial officer of the School, the
Dean reports directly to the Provost and Executive Vice President for
Academic Affairs.

Nominations and applications will be received until February 1, 1999.
Candidates from underrepresented groups are encouraged to apply.
Correspondence should be addressed to: Dr. Paul Boylan, Vice Provost
for the Arts, Office of the Provost, 3074 Fleming Administration
Building, Ann Arbor, MI 48109-1340.

A Non-Discriminatory, Affirmative Action Employer.

didates) to teach advanced undergraduate and graduate courses in African-
American literature as well as range of American literature and beginning
composition courses. Ph.D. required; active research in African-American
literature expected; consider applicants at higher rank. Application
review will begin immediately and continue until the position is
filled. Please send cover letter, curriculum vitae, names, addresses
and telephone numbers of three references to: Office of Human
Resources, Search 215-140, Uni
versity of Massachusetts Boston,
100 Morrissey Blvd., Boston, MA
02125-3393, An Affirmative Action,
Equal Opportunity Title IX employer.

U Mass Boston
Two Chemistry Faculty Positions
UNIVERSITY OF NORTHERN IOWA

Due to expansion, the Department of Chemistry invites applications for two new tenure-track positions at the Assistant Professor level in the areas of biochemistry and inorganic chemistry beginning in August, 1999. Candidates with research and teaching interests that bridge these areas are also invited to apply. The Ph.D. degree is required and postdoctoral experience is preferred. The successful candidate must have a demonstrated commitment to teaching at both the undergraduate and graduate levels, an active research program involving undergraduate majors and masters students, and obtaining external funding. Teaching assignments will include the undergraduate and graduate courses in the area of specialization as well as general education chemistry courses. Applicants must submit a curriculum vitae, copies of transcripts, a statement of research plans and selected publication reprints, a statement of teaching philosophy, and arrange for three letters of recommendation to be sent directly to: Chair, Search Committee, (Dr. Kirk Manfredi, inorganic chair; Dr. John Bumpus, biochemistry chair) Department of Chemistry, University of Northern Iowa, Cedar Falls, IA 50614-0423. The Department of Chemistry web page address is: http://www.chem.uni.edu/. Email inquiries may be made to manfredi@uni.edu (inorganic) or John.Bumpus@uni.edu (biochemistry). Candidates are assured full consideration if all required materials are received by January 15, 1999. The department encourages applications from minority persons, women, disabled persons and Vietnam era veterans. The salary is commensurate with qualifications and experience. The University of Northern Iowa is a state-supported residential university located in the metropolitan area of Cedar Falls (pop. 35,000) and Waterloo (pop. 75,000), which together form a community that is the commercial, cultural, and political hub of northwest Iowa.

The University is an equal opportunity employer with a comprehensive plan for affirmative action.

Golden West College
VICE PRESIDENT, ADMINISTRATIVE SERVICES

Established in Huntington Beach in 1966, GWC (www.gwc.cccd.edu) is a fully accredited two-year community college offering 140 academic and vocational programs to more than 12,000 students each semester.

The Vice President will supervise and evaluate all administrative services programs including fiscal services, personnel services, facilities, community services and swap meet, student health services, maintenance/grounds/custodial services, child care center, graphics, mailroom and switchboard, bookstore, food services, and technology support services.

Minimum qualifications include a masters degree (or equivalent education and experience), two years of full-time administrative experience comparable to a division dean/director or higher in an educational setting, and qualified to teach in one of the college's instructional programs. The current annual salary range is $61,446 to $92,889, with an annual stipend of $1,779 for possession of an earned doctorate. A two year contract is offered.

To Apply: Application form may be obtained from the District Personnel Office by calling (714) 438-4715. The required application form (#G-99) must be submitted by 12/11/98.

Coast Community Colleges
1370 Adams Avenue
Costa Mesa, CA 92626

An Equal Opportunity/Affirmative Action Employer

ASSOCIATE DIRECTOR

The American Council on Education, conveniently located near the Dupont Circle Metro in downtown Washington, DC, seeks an energetic, creative and collaborative individual to provide leadership in identifying major issues related to gender and higher education for the Office of Women in Higher Education (OWHE). In addition, the Associate Director works closely with the National Network of Women Leaders (NNWLI) and serves as one of the principal contacts to state coordinators, and a 12 member executive board for the national volunteer network known as NNWLI. Other responsibilities include: develop funding sources, plan advancement strategies and make travel contacts with funding entities. Along with the director, represent the American Council on Education in working with the executive board, state coordinators and planning committees to implement objectives of the OWHE and the NNWLI and to develop additional strategies for advancing women administrators and addressing equity issues for all women in higher education. Individual will be responsible for shaping agendas and supervising the planning meetings, seminars and conferences within the aegis of NNWLI. Interested applicants should have strong leadership, management, and communications skills, as well as a desire to work as part of a close knit team. Ability to work with higher education organizations as well as groups and agencies promoting gender and racial equity. Campus experience is desirable. ACE offers a competitive starting salary and benefits programs. Applications and expressions of interest should be sent to:

Associate Director Search
American Council on Education
One Dupont Circle, NW-Suite 804
Washington, DC 20036

Vanderbilt University
Peabody College of Education and Human Development

Assistant Professor
Higher Education Administration

The Department of Leadership and Organizations at Peabody College, Vanderbilt University, seeks a scholar at the assistant professor level who specializes in one or more of the following areas in the systematic study of higher education: college students, community colleges, curriculum, economics and finance, organization and administration, public policy and higher education. The successful candidate should have a well-formed program of research and scholarship and record of scholarly productivity that indicates that she/he is likely to successfully attain tenure at Vanderbilt University. Moreover, the candidate's scholarship should be of such excellence that it will substantially contribute to maintaining and enhancing the national stature of the program in higher education administration in the Department of Leadership and Organizations at Peabody College, Vanderbilt University.

In addition to excellence in research, the successful candidate must also demonstrate the potential for excellence in teaching at both the undergraduate and graduate level. The successful candidate will be expected to teach undergraduate level courses in her/his area of specialization in the study of higher education, teach undergraduate courses in the Human and Organizational Development Program at Peabody College, advise students, and supervise the dissertations of doctoral students.

All applicants must have an earned doctorate in higher education as a field of study or a related academic discipline. The search committee will begin the review of applications on February 15, 1999. Submit nominations, letter of application, statement of research interests and a curriculum vitae to John M. Braxton, Chair, Search Committee; Department of Leadership and Organizations; Box 514 Peabody College; Vanderbilt University; Nashville, TN 37203.

Women and minorities are encouraged to apply. Vanderbilt University is an equal opportunity, affirmative action institution committed to cultural diversity and compliance with the Americans with Disabilities Act.
Dean of the
College of Liberal Arts
Rochester Institute of Technology

RIT is an accredited, private, co-educational, technological university comprised of seven colleges, with an enrollment of 13,500 students, a balanced budget, and an endowment of $400 million. RIT’s degree programs emphasize career education.

The Dean of the College of Liberal Arts is the chief academic, fiscal, and administrative officer of that college and reports to the Provost, Vice President for Academic Affairs. The Dean oversees a college that provides a core curriculum in the humanities and social sciences required of all RIT students, as well as curricula for students in the college’s own baccalaureate degree programs Criminal Justice, Economics, Professional & Technical Communication, Psychology, and Social Work, and a Master’s degree program in Business Administration. The 90 full-time faculty in the College of Liberal Arts represent many disciplines in the Humanities and Social Sciences, including anthropology, fine arts, foreign languages, history, literature, philosophy, political science, science, technology and societal and sociology. Also, the college is home to four endowed professorships. For more information on the college, visit our website http://www.rit.edu/690www/

Responsibilities of the Dean as chief academic and administrative officer of the college
1. In collaboration with the faculty,
   - develops plans that ensure the continued vitality of the college
   - promotes continued excellence in teaching, scholarship, research, and service to the community,
   - supports and promotes enrollment management activities
   - monitors and updates academic programs, policies, and procedures
   - helps formulate university-wide academic policy as a member of the Academic Council
2. Encourages faculty, staff, and student involvement and interaction through open discussion, acknowledging the primary responsibility of the faculty in matters related to teaching and scholarship, and advancing broad-based governance
3. Oversees the management of fiscal resources
4. Represents the college to internal and external communities
5. Advocates liberal learning and the general education curriculum on behalf of the college
6. Promotes the college’s commitment to cultural diversity, pluralism, and individual difference

Professional Qualifications
- Ph.D. or equivalent in the Humanities or Social Sciences
- Qualifications consistent with appointment to tenure and senior faculty rank in one of the disciplines represented in the college
- A record of consistently exemplary teaching, scholarship, and service in the Humanities or Social Sciences
- A record of consistently exemplary administrative leadership at the department chair level or higher—on a general education and/or Humanities Social Sciences degree program, including the supervision, review, and evaluation of the work of faculty
- Experience in securing funding and other resources
- A demonstrable commitment to advancing the role of the Liberal Arts at a career-oriented university, and in technological and business contexts
- A demonstrable commitment to shared governance
- A demonstrable commitment to diversity

Personal Qualifications
- Decisiveness
- Strong skills in communication, organization, and problem-solving
- A sense of humor

Review of applications will begin December 1st and continue until the position is filled. Nominations and applications with resumes should be sent to:

Search Committee for the Dean of the College of Liberal Arts
Office of the Provost, George Eastman Building
Rochester Institute of Technology
6 Lomb Memorial Drive
Rochester, NY 14623-5604

Western Michigan University seeks nominations and applications for the position of Dean of the College of Fine Arts. Located in Kalamazoo, WMU is a Carnegie Doctoral University with an enrollment of 26,500 students. WMU has 1,850 faculty members and 6,000 other students enrolled each year. The College has state-of-the-art facilities for rehearsal, production, and performance.

As the College’s chief academic and executive officer, the dean reports to the provost and is responsible for instructional programs, maintaining accreditation, promoting the creative and scholarly work of the faculty, leading fund-raising efforts, and extending the college’s outreach locally, in the state, in the nation, and abroad. The successful candidate will have an appropriate terminal degree (or equivalent background and experience), a record of scholarship and/or artistic achievement suitable for tenure and a full professorship in one of the units of the College, a strong grasp of the institutional, scholarly, artistic, and performance components of the mission of a College of Fine Arts, and demonstrated administrative and leadership ability.

Send applications and nominations to:

Amrein Associates/Western Michigan
65 Franklin Street, Suite 400
Boston, MA 02110

Review of applications will begin immediately and continue until the position is filled. WMU is an equal opportunity employer and encourages qualified women and members of underrepresented groups to apply.

CHIEF FINANCIAL OFFICER
Charles R. Drew University of Medicine and Science

The Charles R. Drew University of Medicine and Science, located in South Central Los Angeles, is a medical school, a School of Allied Health, a biomedical research center and a mental health facility. R.I.T.
PROVOST AND VICE CHANCELLOR
ACADEMIC AND STUDENT AFFAIRS

The University of Wisconsin-Stout invites applications and nominations for the position of Provost and Vice Chancellor for Academic Affairs.

Responsibilities: The Provost and Vice Chancellor is the chief academic officer of the university who provides leadership to achieve the highest standards in teaching, scholarship, creative activities, and student services by:
- reporting to the Chancellor and serving as the ranking executive officer in the Chancellor's absence,
- providing intellectual and ethical leadership, fostering a positive atmosphere and serving as a catalyst for educational excellence,
- working cooperatively and effectively with all university governance and policy-recommending bodies,
- working with diverse constituencies to establish, coordinate, and implement academic goals, educational policies, curriculum, planning and development, and program review,
- developing and administering academic budgets and resources,
- supporting efforts to enhance students' success,
- supporting university fundraising efforts,
- developing and maintaining relationships with business-industry and local communities,
- maintaining liaison with UW System Administration and academic affairs offices at other higher education institutions.

Qualifications:
- an earned doctorate from an accredited institution
- demonstrated accomplishments in teaching, scholarship and service
- at least three years of university administrative experience at the level of Dean or above
- eligibility for tenure in an appropriate academic department
- demonstrated experience with distance education and with enriching the learning environment through technology
- demonstrated experience with shared governance
- demonstrated commitment to diversity, principles of affirmative action and equal opportunity
- demonstrated leadership in academic planning, outreach activities, and the formulation and articulation of university goals
- demonstrated experience in developing and administering academic budgets and resources
- demonstrated understanding of the mission of a focused institution and administrative experience in a public, statewide university system are also desired

The Campus Community: The University of Wisconsin-Stout is located in Menomonie, Wisconsin, a community of about 14,000 that surrounds the shores of Lake Menomin. Menomonie is 60 miles east of Minneapolis-St. Paul, Minnesota, and 25 miles west of Eau Claire, Wisconsin. The university enrolls over 7,000 students who prepare for careers in business, industry, technology, family and consumer sciences, education and human services and art and design at the bachelors and masters levels. More about UW-Stout by visiting its home page at http://www.uwstout.edu

Applications: A complete application should include a letter expressing the candidate's interest in and qualifications for the position, a curriculum vitae, and names, addresses and phone numbers of three references. To receive full consideration when screening begins, application materials should be received by November 30, 1998. Salary will be competitive and commensurate with qualifications. Women, minority candidates and persons with disabilities are encouraged to apply. Send nominations or applications to: Provost Search Committee, c/o Chancellor's Office, 325 Administration Building, University of Wisconsin-Stout, Menomonie, Wisconsin 54751.

The University of Wisconsin is an equal opportunity, affirmative action employer.

EXECUTIVE ASSISTANT TO THE PRESIDENT AND DIRECTOR OF AFFIRMATIVE ACTION

Central Connecticut State University, the state's oldest public institution of higher learning, seeks applicants for the leadership position of Executive Assistant to the President and Director of Affirmative Action. With a student head-count enrollment of some 11,700 students and faculty and staff of over 900 it is the second largest university in the state.

This dynamic senior level position is responsible for the organization and administration of the University's Affirmative Action Plan, as well as for University-wide leadership in all matters pertaining to equity and diversity for students, faculty, and staff. The Executive Assistant advises the University President, monitors the University's efforts on behalf of all matters pertaining to equal opportunity, and interacts with the University community at large, including those constituents that represent the wide spectrum of "protected classes."

The successful candidate will have demonstrated ability to understand, interpret, and apply federal, state, and local laws and regulations; experience in preparing and implementing affirmative action plans; ability to communicate and provide training on human relations and related issues; and strong supervisory skills. Candidates with the above qualifications and a master's degree (with at least five years of relevant professional experience) are invited to apply. An equivalent combination of education and experience will also be considered.

Application reviews will begin December 1, 1998. Send applications to: Dr. Peter Rosa, Chair of Search Committee, Student Affairs, Central Connecticut State University, New Britain, CT 06050-4010. CCSU aggressively pursues a program of equal employment and educational opportunity and an affirmative action. Members of all underrepresented groups, women, veterans, and persons with disabilities are invited and encouraged to apply.

COASTAL PLANKTON ECOLOGIST
Environmental, Coastal and Ocean Sciences

The Department of Environmental, Coastal and Ocean Sciences (ECOS) at U. Mass. Boston seeks a tenure-track Assistant Professor in Coastal Plankton Ecology to start on 9/1/99. ECOS is an interdisciplinary graduate (M.S., Ph.D.) department with an emphasis on coastal and marine environments (see http://www.esumb.edu). ECOS is continuing a multi-year expansion with new faculty expected to contribute to research on coastal processes and marshes. Applicants should have a well-researched program capable of supporting graduate research through internal funding. Preference will be given to candidates whose research complements research by other UMB faculty. Teaching responsibilities include supervising graduate students and teaching graduate courses in a faculty member's discipline. An interest in developing undergraduate courses would be viewed positively. QUALIFICATIONS: Ph.D. in a field relevant to coastal plankton ecology (postdoctoral research and teaching experience preferred). Send a cover letter that includes a statement of interests and goals in research and teaching, curriculum vitae, and three letters of reference to: Office of Human Resources, Search 190-140, University of Massachusetts Boston, 100 Morrissey Blvd., Boston, MA 02125-3393. Application review will begin on December 20th and continue until the position is filled. An Affirmative Action, Equal Opportunity, Title IX employer.

INTPRETER NEEDED

Mott Community College is searching for an Interpreter to work in its Learning Center/Disability Services Department. Interpreters/translitterers are professional staff whose primary role is to facilitate communication between deaf or hard of hearing student, faculty, and staff and other students. Interpreters follow the Registry of Interpreters’ Code of Ethics, which provides a standard where they can apply professional reasonable judgment. Works directly with the Support Services Coordinator for deaf and hard of hearing students.

MINIMUM QUALIFICATIONS: include a Registry for Interpreters for the Deaf Certification or Quality Assurance Certification or Interpreter Training Degree and 2,000 hours actual interpreting experience. Work hours will be determined by student demand and may vary from semester to semester. This is a part-time position with pro-rated benefits. A flexible schedule including evening hours may be required. The interpreter position is a semester to semester appointment. Working attire should present a contrast of the hands so that the latter are easily distinguishable.

If interested, please send a resume to: Mott Community College, CM 1024 Human Resources, 1401 E. Court Street, Flint, MI 48503. FAX #: (810) 762-0595. Visit our website at: www.mcc.edu

Affirmative Action/Equal Opportunity Employer
DIRECTOR OF COOPERATIVE EXTENSION
AND ASSOCIATE DEAN OF AGRICULTURE

The School of Agriculture has 12 departments and includes about 30 majors. 2,500 undergraduate students, and 550 graduate students. In addition to campus-based specialties, the Purdue Cooperative Extension Service includes a statewide system of more than 400 professionals on campus and in all 92 counties delivering effective research-based programs to persons across the state.

RESPONSIBILITIES: The Director provides leadership, vision, and administrative management for statewide programs in Agricultural and Natural Resources, 4-H and Youth Development, Leadership and Community Development, Consumer and Family Sciences, and Veterinary Medicine. The Director is responsible, along with department heads and leaders from the Extension College of Agriculture and Family Sciences and Veterinary Medicine, for encouraging and supporting the development and delivery of strong outreach programs. The Director is also responsible for forging effective linkages with research, academic programs, and international activities.

QUALIFICATIONS: Required qualifications include an earned doctoral degree in Agricultural and Natural Resources, Consumer and Family Sciences, Veterinary Medicine, or a related field. An appointment in an appropriate department. Desired qualifications include administrative and leadership experience with programs, budget, personnel, management in extension, public service, working with policymakers, and an understanding of the broad mission of a land grant university. In addition, interest and/or experience in the international context of extension is desirable.

SALARY: Salary is commensurate with qualifications and experience. This full-time position is available as soon as a suitable candidate is identified.

APPLICATION PROCEDURE: Qualifying persons are requested to submit a letter of application, a statement of administrative philosophy, emphasizing their ability to foster faculty, staff development, and program growth, into the 21st Century, a complete curriculum vitae, including the names, addresses, and phone numbers of three references. Address inquiries and applications to:

Dr. Victor L. Lechthold
Dean of Agriculture
1140 Agricultural Administration Building
Room 114
Purdue University
West Lafayette, IN 47907-1140
Phone: (765) 494-8391  Fax: (765) 494-8420
Email: vle@ag.purdue.edu

Purdue University is an Affirmative Action/Equal Opportunity Employer; Women and Minorities are Encouraged to Apply.

Dean School of Nursing

 Loyola University Chicago, a Jesuit, Catholic, urban university of approximately 14,000 students, invites nominations and applications for the position of Dean at the Niehoff School of Nursing. In addition to the Baccalaureate nursing program, degree completion programs are available for RNs and accelerated programs are available for college graduates seeking a BSN degree as well as a rapidly growing Food and Nutrition Department. Graduate courses are offered leading to both the MSN and PhD in several NP and CNS programs, as well as two dual degree programs (MSN MBA and MSN M Div) are offered. Online national and international clinical courses are available. The faculty is comprised of 50 full time and 35 part time nurse and dietetic educators and 464 undergraduate and 206 graduate students.

As the Executive Officer of the School of Nursing, the Dean reports to the Senior Vice President Academic Affairs. A Dean is sought who has:

- a clear commitment to promoting excellence in undergraduate and graduate education, scholars and research activities;
- a vision for the future of health care and the role of nurses;
- the ability to serve as an enthusiastic leader and advocate for the School both within the University and with external groups;
- a commitment to promoting recruitment, understanding and respect for diversity in the faculty, staff, students and curricula;
- a high standard of professionalism and personal integrity;
- an understanding and appreciation of the Jesuit and Catholic traditions of Loyola.

Candidates for the position should evidence the following qualifications:

- an earned doctorate, master's degree in nursing, and recognized scholar and professional accomplishments to warrant a tenured academic appointment at a senior rank;
- a record of innovative leadership, academic vision, excellent personnel, fiscal and physical resource management, and substantial experience and accomplishment in administrative positions;
- a record of building collaborative and inclusive working relationships with faculty, staff, students, and external constituencies;
- demonstrated success in land-grant activities.

The Search Committee will begin reviewing credentials in December and continue until an appointment is made. The anticipated starting date is July 1, 1999. Interested individuals are invited to browse our website at http://www.luc.edu.

Submit applications and nominations to:

Dr. Mary Ann McDermott
Chair, Search Committee
Niehoff School of Nursing
Loyola University Chicago
6525 N. Sheridan Road
Chicago, IL 60660
E-mail address: mmcdem@luc.edu

Loyola University Chicago is an affirmative action equal opportunity employer.

Preferred qualifications: At least 4 semesters of equivalent teaching experience. Successful candidates are expected to utilize modern educational technology in the classroom. Consideration will be given to candidates expecting to complete all degree requirements by August 15, 1999. Resume and reference letters must be received by December 11, 1998. Salary range is $40,450.00. Send resume and reference letters to: CONTACT: Dr. Larry Menna, Chair, HPE Search Committee, History, Economics & Politics Department, 229 Memorial Hall, SUNY Farmingdale, NY 11735.
ASSISTANT/ASSOCIATE PROFESSOR
Gaston Institute for Latino Community Development & Public Policy and the Department of Sociology

The Gaston Institute for Latino Community Development & Public Policy and the Department of Sociology at the University of Massachusetts Boston seek applicants for a joint tenure-track Assistant/Associate Professor position. One-half of the incumbent's time would be spent teaching in the Department of Sociology, and the other half in the Department of Public Policy. This position may also be offered in the Graduate School of Education. The incumbent will be expected to teach a total of three courses per year in the undergraduate and/or graduate level (MA program in applied sociology). Ability to teach regular courses on race and ethnicity is required. One-half of the incumbent's time will be spent with the Gaston Institute initiating, designing, coordinating, and conducting research on the socio-economic status of Latinos in New England and engaging in grantmanship, program planning and evaluation. A Ph.D. in Sociology is expected. An ABD in Sociology or Ph.D. in closely related discipline will also be considered. Experience conducting research on the Latino population, knowledge of Latino community organizations, and bilingual (Spanish) ability. Please send a cover letter, curriculum vitae, and names, addresses, and telephone numbers of three references to: Office of Human Resources, Search 200-140, University of Massachusetts Boston, 100 Morrissey Blvd., Boston, MA 02125-3393. Applications received by December 1, 1998 will be given priority. The expected hire date is January, 1999. An Affirmative Action, Equal Opportunity, Title IX employer.

TEXAS A&M UNIVERSITY-KINGSVILLE
Director of Distance Learning and Continuing Education

Texas A&M University-Kingsville seeks a candidate with an excellent reputation to lead the university's Distance Learning and Continuing Education Programs into the twenty-first century. This person will design, develop, and implement a comprehensive university-wide distance learning program with a strong instructional infrastructure. Based on the rich traditions of life-long learning in Continuing Education, the Distance Learning Program will support, facilitate, enhance, and coordinate all the distance learning activities on and off campus. In addition to distance education, Instructional Development services will encompass all two-credit courses and non-credit courses offering professional development workshops to the community and South Texas communities. As Director of Distance Learning and Continuing Education, the candidate will be responsible to the Provost and Vice President for Academic Affairs.

Required:
- A degree from an accredited institution
- Demonstrated experience in developing, managing, and evaluating comprehensive distance education programs
- Ability to work with faculty, staff, and students

Preferred:
- A graduate degree
- Extensive distance learning experience
- Experience in instructional development
- Knowledge of and ability to implement new technologies
- Strong organizational skills and a high level of enthusiasm

Applications should be submitted to:
Dr. Jane H. Stanford, Chair
Director of Distance Learning and Continuing Education Search Committee

George Mason University
Health, Fitness & Recreation Resources
Assistant/Associate Professor

The Department of Health, Fitness and Recreation Resources (HFRR) at George Mason University is a dynamic, growing department committed to excellence in teaching, research and service, especially through collaborative relationships and initiatives with schools, community organizations, and recreation, park and land management agencies. Located just 16 miles west of Washington, D.C., in Fairfax, Virginia with additional programming at Prince Williams campus in Manassas, Virginia, the Department of HFRR provides an ideal environment for Parks, Recreation and Leisure Studies faculty and Physical Education/Health Education faculty with an applied, collaborative orientation and an interest in preparing recreation resources managers and teachers of physical education for the challenges of the 21st century.

The Department of HFRR offers BS degrees in Physical Education with a Health Endorsement, Health Promotion Exercise Science, and Recreation Resource Management. The department offers a masters degree in Exercise, Fitness and Health Promotion. There are two specializations within the Recreation Resources Program: Recreation Resources Management, and Community Based Therapeutic Recreation.

The Department plays a major role in the operation of the Center for Outdoor Education at Hemlock Overlook, Clifton, VA and the new 110,000 sq ft freedom Aquatic and Fitness Center, Manassas, VA which will open in Fall 1999. In addition, the department enjoys close working relationships with the National Park Service, USDA-Forest Service, and other land management agencies as well as agencies promoting health, fitness, and wellness of people including those with disabilities.

As a result of growth in enrollment and the expansion of additional campus sites with newly constructed state of the art facilities, the Department of HFRR is seeking to fill two faculty, to B.S. Recreation Resources Management and (2) Physical Education. Both positions have an annual appointment date of August 23, 1999. Rank is open for both positions, although a preferred level of appointment is indicated in each case. Consistent with Department and University priorities in the areas of technology and diversity, preference will be given to candidates who can demonstrate expertise in preparing students for bilingual and multicultural environments. Applications from women and minorities and persons with disabilities are especially encouraged. Nominations of outstanding candidates are also invited. Review of applications for both positions will begin January 8, 1999 and continue until the positions are filled.

Applications should be submitted under the subject heading highlighting their qualifications, current vitae, and three letters of reference to Dr. Thomas G. Goodale (for the Recreation Resources Management position) or Dr. Davis K. Wiggins (for the Physical Education position). The address in each case is:

Department of Health, Fitness and Recreation Resources
MSN 4E5
George Mason University
10900 University Boulevard
Manassas, VA 20110-2203

Recreation Resources Management Position
Tenure track. Rank open. Teach graduate and undergraduate courses in Recreation Resources Management and develop or maintain a productive line of research. Develop partnerships with federal, regional, and local agencies, and community organizations. Earned doctorate with at least one graduate degree in recreation and parks required. Evidence of ability to teach the baccalaureate level, to publish in peer-reviewed journals, to secure external funds, and to demonstrate experience working with professionals in the field is highly desirable.

Physical Education Position
Tenure track. Rank open. Position open. Teach undergraduate and graduate courses in the Physical Education Teacher Preparation Program, as well as field experiences in public schools with emphasis in middle and high school instruction. Develop or maintain a productive line of research, collaborate with faculties and public school personnel. Involvement in community and professional service is expected. Doctorate in Physical Education Pedagogy, and evidence of scholarly activity, and willingness to pursue external funding are required. Three years of public school teaching experience and teaching at the college or university level are also preferred. AA/EOE

Dr. Jonathan S. Raymond, Senior VPA
Greenville College
P.O. Box 150
Greenville, IL 62246-0150
CENTRAL MICHIGAN UNIVERSITY

DEAN OF THE COLLEGE OF BUSINESS ADMINISTRATION

THE UNIVERSITY: Central Michigan University is a comprehensive state university with over 800 faculty serving an enrollment of approximately 26,000 students. The university has eight colleges and offers more than 100 undergraduate and graduate degrees and 150 major areas of study. The main campus is situated on an 854-acre site in Mount Pleasant, a city of 25,000 residents located in the heart of the lower peninsula of Michigan.

THE COLLEGE: The AACSB accredited College of Business Administration is comprised of the departments of Business Information Systems, Economics, Finance Management, Law, and Marketing & Hospitality Services Administration, School of Accounting, the Perry School of Banking and a Small Business Institute. There are approximately 100 regular and temporary faculty, 2,900 undergraduate students and 400 graduate students in the college. MBA classes are offered in Mt. Pleasant and nearby Midland, Michigan. Other master's programs include a Master of Science in Information Systems, a Master of Arts in Economics, and a Master of Business Education program. The college has excellent technology facilities with five computer labs, including a new SAP lab.

GENERAL RESPONSIBILITIES: The college is searching for an outstanding leader to assist the university’s efforts to move into the next century as an exemplary model of a modern, technologically-based institution with a major focus on student learning outcomes. The dean is the chief academic officer of the college and reports directly to the provost. The successful candidate will be expected to provide vision, leadership and new program development to the planning and delivery of high quality educational research and service programs. The dean is accountable for managing the college resources and curricula to achieve the mission of the college and the university. The dean should be outcome-oriented and promote effectiveness and efficiency in the pursuit of college and university goals.

QUALIFICATIONS: The successful candidate should possess an earned doctorate or equivalent experience recognized by AACSB, a distinguished record of academic achievement sufficient to meet the expectations for tenure within a department in the college, a record of outstanding leadership and administrative skills, budgetary, planning, and fiscal management experience, a record clearly demonstrating a strong commitment to participatory decision-making, diversity and affirmative action; evidence of ability to attract external funding from private donors, grants, and contracts; a proven ability to work and communicate effectively with all publics served by the college, especially the local and state business communities; a strong appreciation for the role of faculty governance within the college; a commitment to continue AACSB accreditation; and familiarity with a collective bargaining environment. Some variation from these qualifications may be made for individuals with an outstanding record of academic or administrative leadership.

REVIEW OF APPLICATIONS: for the above position begins November 30, 1998 and will continue until the position is filled. All applications will be reviewed under the criteria of the above qualifications. Applications consisting of résumé, letter of interest, three letters of reference, and a statement of educational and administrative philosophy should be sent to: Office of the Provost, Dean's Search, Warriner Hall 112, Central Michigan University, Mt. Pleasant, MI 48859. Tel (517) 774-3932, Fax (517) 774-2942. For more information, please refer to the university’s home page at http://www.cmich.edu, the College’s home page at http://www.cba.cmich.edu, and the College of Business home page at http://www.cba.cmich.edu. The University of Michigan encourages applications from women and minorities.

PRESIDENT COLGATE UNIVERSITY

The Board of Trustees of Colgate University invites nominations and applications for the position of President of the University.

Colgate University is an independent liberal arts institution in Hamilton, New York. Founded in 1819, Colgate has 2,970 men and women enrolled.

The President is the chief academic and administrative officer of the University and should possess distinguished academic credentials and appropriate administrative experience.

Review of applications will begin December 1, 1998, and will continue until the search is completed. Forward applications and nominations to:

Secretary of the Board of Trustees, Colgate University
13 Oak Drive
Hamilton, NY 13346

An Equal Opportunity/Affirmative Action Employer.
West Chester University of Pennsylvania invites applications and nominations for the position of Dean, School of Music.

West Chester University, founded in 1871, is the second largest university in the State System of Higher Education in Pennsylvania. Located in scenic Chester County, WCUs is approximately 25 miles west of Philadelphia. West Chester University offers a high quality, comprehensive education program to approximately 9,000 undergraduates and 1,500 graduate students.

The University is comprised of the College of Arts and Sciences and four professional schools: Business and Public Affairs, Health, Sciences, Music, and Education.

As the Chief Academic Officer of the School of Music, the Dean provides academic leadership and vision to the school. Reporting directly to the Vice President for Academic Affairs/Provost, the Dean sits on the Council of Deans, and is expected to work collaboratively both within the School and across the University.

The School of Music includes 42 full-time faculty with 352 undergraduate and 54 graduate students. The six academic departments comprising the School are Instrumental Music, Vocal Music, Music History, Music Education, Vocal/Choral Music, and Theory and Composition.

The Dean is responsible for curricular management and long-range planning, resource allocation and budgeting, the development, implementation, and evaluation of academic programs, faculty recruitment and retention, and the development of external partnerships. In addition to building faculty excellence in teaching, scholarship and service, the Dean in conjunction with the Department Chairs, also is responsible for administration of academic policies and procedures and compliance with the Collective Bargaining Agreement. Qualifications include an earned doctorate in one of the disciplines involved in the School, and an extensive and distinguished record of achievement in professional teaching and professional service.

In addition, candidates should demonstrate:

- Leadership, organizational, and management skills within the context of shared governance
- Excellent communication, interpersonal, and advocacy skills
- Familiarity with a decentralized budget system
- An awareness of issues facing institutions of higher education
- Experience in fund raising
- Commitment to cultural diversity
- Ability to promote the interests of the School of Music both internally and externally
- Experience in developing partnerships with local and regional music organizations is desirable
- Experience in a college teaching environment is desirable
- Experience in implementation of new curricula is desirable

This is a non-tenured management position. Salary range is $80,000-$88,000 commensurate with qualifications and experience. An excellent benefits package also is included. Anticipated starting date is July 1, 1995. A rolling review of applications will begin on December 4, 1994. Applications will be accepted until the position is filled.

Applications should include a letter of interest and curriculum vitae and three letters and teaching of references in Human Resources, Office of the Provost, West Chester University, West Chester PA 19383.

Applications should be directed toward the above-mentioned responsibilities. Qualifications should include:

1. Expertise in the discipline
2. Experience in academic administration
3. Proficiency in grant writing and development

Applications should be submitted to Dr. Richard F. Mady, Jr., President, West Chester University, West Chester, PA 19383.

Closing Date: December 4, 1994

Kim Voisin
Assistant Director of Residence Life
201 Bovee University Center
Central Michigan University
Mt. Pleasant, MI 48859

Screening of applications begins immediately and will continue until all positions are filled. CMU provides flexible benefits, an excellent retirement program with a deferred investment option, tuition waiver for employee and family, and competitive salaries in an environment committed to excellence and customer service. CMU is a member of the AAOC institution and strongly encourages applications from community members.

Rice University
VICE PROVOST FOR ADMISSION AND RECORDS

Rice University, a private, highly selective teaching and research university seeks nominations and applications for the position of Vice Provost for Admission and Records, a newly formed position.

An independent, coeducational, non-sectarian institution, Rice University is dedicated to undergraduate and graduate education, research, and professional training in all disciplines.

Established in 1912, the University has an operating budget of approximately $255 million and an endowment of $2.6 billion as of October 31, 1998. Located in Houston, Texas, Rice has a total student population of 2,700, a graduate and professional student population of 1,400 and a full-time faculty of 450.

Working closely with the university's senior officers and the faculty, the Vice Provost will develop and implement an integrated strategy to enroll and support a student body characterized by outstanding intellectual ability, high potential for success, and representative of a broad and inclusive range of backgrounds. The Vice Provost reports directly to the Provost and oversees the offices of admission, financial aid, registrar, student information systems, and student billing.

The ideal candidate will have outstanding leadership and communication skills, extensive relevant experience in a highly complex selective academic environment, a keen understanding of issues facing selective admissions, knowledge of the use of information technology in shaping enrollment management, and a proven track record in managing and motivating others.

The search committee will begin reviewing applications immediately and will continue until a search is filled. For fullest consideration, please send materials not later than December 15, 1999. Preliminary interviews and expressions of interest would be forwarded on confidence to Steffie Weiss Steinbeck, Managing Director, or Susan Van Gilder, Senior Associate A.T. Kearney, Inc.

Rice University is an affirmative action/ equal opportunity employer.
DEAN OF THE SCHOOL OF BUSINESS

THE POSITION: Applications are invited for the position of Dean of the School of Business. The dean provides academic and administrative leadership for the School of Business. He or she guides the acquisition and use of the School’s resources and is expected to encourage and facilitate excellence in teaching, research, curriculum development, updating of instructional technologies and student advisement. The Dean is one of seven academic deans who report to the Vice President for Academic Affairs. Salary is competitive.

THE UNIVERSITY: Southern Connecticut State University is situated on a 168-acre urban campus in New Haven, Connecticut. SCSU is a comprehensive metropolitan urban public institution with more than 12,000 students enrolled in undergraduate and master's level programs.

THE SCHOOL OF BUSINESS: The School employs some 35 full-time faculty in the departments of Accounting, Economics and Finance, Management, and Marketing. The School awards annually some 230 undergraduate and graduate degrees. The recently established MBA program features a unique and successful cohort model. The School is considering pursuing AACSB accreditation.

QUALIFICATIONS: Candidates should (1) hold an earned doctorate in a discipline within the Business School, (2) possess a record of academic achievement and an award appointment to the rank of professor, and (3) have had experience with AACSB accreditation. Superior communication and interpersonal skills are a requirement. Particularity the ability to listen, fashion a collegial atmosphere and foster a culture which values excellence and effective outcomes. Experience should also include successful interaction with a regional business community. Business experience is also desirable. Variations from some of these requirements may be considered for candidates with outstanding academic/administrative backgrounds or other equivalent experiences.

THE PROCESS: Applications should be received by December 21, 1998. Applicants are invited to contact the Search Committee Chair, Southern Connecticut State University, 501 Crescent Street, New Haven, CT 06515 for more information.

SCSU is an Equal Opportunity/Affirmative Action employer. The University strongly encourages minorities and women to apply.

The University of Minnesota invites nominations and applications for the position of the Vice President for Agricultural Policy. The Dean of the College of Agricultural, Food, and Environmental Sciences (COAFES), and the Director of the Minnesota Agricultural Experiment Station. The college, within its 11 departments, six branch stations and a landscape area, is a key part of a large land-grant research University. Minnesota has a high rank nationally in food and agricultural products. Biotechnology and environmental issues are increasingly important - on the farm, in industry, and at the University. The mission of the College is to support and strengthen the production, processing, marketing and distribution of food, agricultural and horticultural products through its research, teaching and outreach activities. The College has a comprehensive budget totaling approximately $56 million. Many of the faculty, departments, and centers are nationally and internationally recognized for the quality and innovation of their disciplinary and interdisciplinary activities. The Vice President for Agricultural Policy reports directly to the President on matters relating to statewide agricultural policy and serves as the University's chief officer responsible for advising central offices on strategic and tactical issues related to the State of Minnesota and its role in global agricultural systems.

The Dean is the chief executive and academic officer of the College and Director of the Minnesota Agricultural Experiment Station (MAES).

QUALIFICATIONS: A Ph.D. or comparable terminal degree in the applicant's area of study. A record of scholarly research, teaching, and outreach activity; preferably at an academic institution. Extensive knowledge of and experience in critical public policy issues in agriculture and environmental sciences. Demonstrated success with fundraising and development. Strong communication skills, including the interpersonal abilities necessary to lead effectively with faculty, students and other constituents. Demonstrated record of adopting and practicing principles of affirmative action and equal opportunity, and seeking to achieve diversity in the student body and work force. Ability to develop and maintain effective relations with related units within the University, with private and federal research funding agencies, and with a diverse cross-section of people from rural and urban Minnesota. Experience in delegating and working effectively in a decentralized organizational structure. Ability to work effectively with federal, state and county governmental agencies, elected officials, agricultural organizations and private sector leaders. Effective leadership, administrative and fiscal management experience, including research program administration in an institution of higher education or a comparable complex organization.

APPOINTMENT: The candidate will have a renewable administrative appointment. Annual evaluations, a comprehensive administrative review will be conducted. The position will be filled as soon as possible. Salary level is commensurate with educational and career experience.

APPLICATION PROCESS: Applications and nominations will be accepted until the position is filled. Review of applications and nominations will begin on January 1, 1999. A complete file includes a letter of application briefly describing qualifications and vision of leadership, vita, or resume, and the names, addresses, and telephone numbers of at least three references. Please send to: Regents' Professor G. Edward Schuh-Search Committee Chair, College of Agricultural, Food, and Environmental Sciences, University of Minnesota, 277 Coffey Hall, 1420 Eckles Ave., St. Paul, MN 55108. A complete position description is available on the COAFES website at http://www.aemin.umn.edu under the "News and Events" banner.

DEAN, SCHOOL OF ARCHITECTURE

UNIVERSITY OF VIRGINIA

Applications and nominations are invited for the position of Dean at the School of Architecture at the University of Virginia. The appointment will be effective on or before July 1, 1990.

The four departments of the School of Architecture offer graduate and undergraduate degrees in architecture, architectural history, urban environmental planning, and graduate degrees in landscape architecture. In addition to these major fields, students may enroll in dual degree programs and interdisciplinary certificate programs in historic preservation and American urbanism. Approximately 560 students are currently enrolled in all departments. The fifteen full-time and twenty-four part-time members of the faculty reflect the commitment of the university to the highest levels of teaching and scholarship.

Candidates should possess a record of excellence in scholarship, research, practice, and credentials sufficient to qualify for appointment as a tenured professor in one of the departments in the School of Architecture. Experience in leadership in an academic setting or comparable environment, a commitment to promoting gender and ethnic equity and diversity, a capacity and willingness to support and represent the diverse disciplines within the School, and an understanding of and capability for resource development.

Compensation is competitive and commensurate with qualifications and experience. Applications and nominations must be received before January 1, 1990 to ensure consideration. The review process will continue until the position is filled. The University of Virginia is an affirmative action/equal opportunity employer. Applicants are encouraged to submit applications and nominations with a letter of interest, resume, and references to:

William H. Sherman, Chair
Dean Search Committee
Office of the Vice President and Provost
University of Virginia
P.O. Box 9914
Charlottesville, Virginia 22906-9914

The University has 23 campuses of the California State University system, located in the eastern part of Los Angeles and adjacent to the western San Gabriel Valley, with more than 185,000 students reflecting the rich ethnic diversity of the area.

QUALIFICATIONS:
• An earned doctorate or other terminal degree and a record sufficient to warrant a tenure appointment in an academic department at Cal State L.A.
• A record of progressive administrative responsibility in the area of academic support services.
• Working knowledge of enrollment management and marketing, strategies and practices, operation and information technology, specifically student information systems.
• Demonstrated ability to build relationships with faculty, staff, and students.
• Excellent oral and written communication skills.
• Demonstrated ability and interest in working in a multicultural/multilingual environment.

Salary for this Administrative III position is commensurate with experience and qualifications. A comprehensive benefits program is provided.

Submit resume by December 14, 1998, to:
Chair, AVPSA, HRM, #99-136
California State University, Los Angeles
5151 State University Drive
Los Angeles, CA 90032-8534

Nazareth College of Rochester is a comprehensive institution offering a wide range of baccalaureate and masters degree programs. The college is a highly independent, co-educational institution with 1300 undergraduate and 1000 graduate students. The college is located in an urban setting, with a strong mission to serve a diverse student body. Nazareth College of Rochester seeks individuals with an understanding of the benefits and importance of ethnic and racial diversity on campus and a demonstrated commitment to the promotion of such diversity.

Nazareth College of Rochester anticipates the following tenure-track positions for Fall 1999:

- **Art/Graphic Design:** with related field in visual communications or photo. Preference given to those with experience in digital and print production, and a strong track record of success. The position is open to both full-time and part-time candidates.

- **Biology:** To teach plant biology, preferably macromolecular biology, with an emphasis on biotechnology. Experience in research and teaching is preferred.

- **Education/English as a Second Language:** Director of Graduate Program in TESOL, to teach undergraduate and graduate courses in education, including TESOL methods and theories. Also to teach liberal arts programs, e.g., in courses designed for freshmen and/or international students. Rank commensurate with experience.

- **Education: Reading/Literacy Education (January 1999 or August 1999):** To teach reading methods and practices at both the undergraduate and graduate levels. Teaching experience K-12 and experience with professional development of classroom teachers desired.

- **English:** To teach World Literature Survey courses, upper division undergraduate courses in non-Western literatures, and Composition. Broad experience in Comparative World Literatures with a specialization in Middle Eastern and/or Asian literatures desirable. Additional study in composition theory and practice desirable.

- **Music Education/Choral:)** To teach music education courses at both the undergraduate and graduate levels. Ability to instruct in an area of expertise desired.

- **Music Education/Band:** To teach music education at both the undergraduate and graduate levels. Experience in music education is preferred.

- **Physical Therapy:** To teach courses in physical therapy and related courses in community health and rehabilitation. Experience in clinical settings is required. Rank commensurate with experience.

- **Religious Studies:** To teach courses in religious studies, with a focus on Middle Eastern or Asian traditions.

- **Social Work:** To teach both clinical and administrative courses in social work. Experience in social work practice preferred. Rank commensurate with experience.

- **Spanish:** To teach Spanish language, literature, and culture. Experience in teaching Spanish at the undergraduate level preferred.

- **Visiting Minority Scholar:** To teach both clinical and administrative courses in social work. Experience in social work practice preferred. Rank commensurate with experience.

Unless otherwise noted, applicants should submit a letter of interest, a current resume, and three references. The closing date for applications is January 15, 1999. Submit all materials to:

ART: Tenure-track position in the Department of Art beginning August 23, 1999, at the instructor or Assistant Professor rank. Master’s Degree required, appropriate terminal degree preferred. College teaching experience desirable. The position requires a strong commitment to excellent undergraduate teaching in the areas of Fine Arts, Design, and Art History. The University of North Alabama Review of applications will begin on December 15, 1998. Include copies of publications and/or public lectures. With return, master, and postage.

CRIMINAL JUSTICE: Tenure-track position in the Department of Sociology and Criminal Justice at the level of Instructor or Assistant Professor rank beginning August 23, 1999. Doctoral degree required. The position requires a strong commitment to excellence in undergraduate and graduate teaching in Criminal Justice. Research is strongly encouraged at the University of North Alabama. Review of applications will begin on January 15, 1999.

EDUCATIONAL ADMINISTRATION: Tenure-track position in the Department of Special Education. Doctorate in educational administration or educational leadership is required, as well as demonstrated success as a public school administrator, instructional leader, and classroom teacher. The position will include teaching and supervising interns in Master’s and Specialist’s level school administration program, involvement in the secondary education program, as well as involvement in research and service. The position begins with the possibility of serving as Chair of the Department. The University of North Alabama Review of applications will begin on January 15, 1999.

ENGLISH: Tenure-track position in the Department of English beginning August 23, 1999, at the level of Assistant Professor rank. Master’s Degree required, doctoral degree preferred, with emphasis in English literature, pre-eighteenth-century. The position requires strong commitment to excellent undergraduate teaching in English literature and composition. The University of North Alabama Review of applications will begin on January 15, 1999.

HISTORY: Tenure-track position in the Department of History and Political Science beginning August 23, 1999. The position brings with it the possibility of serving as Chair of the Department. The rank is open for Chair duties. PhD degree is required at the time of appointment. The position requires a strong commitment to excellence in undergraduate teaching in the areas of U.S. History and International Relations. The University of North Alabama Review of applications will begin on January 15, 1999.

HISTORY: Tenure-track position in the Department of History and Political Science beginning August 23, 1999. The position brings with it the possibility of serving as Chair of the Department. The rank is open for Chair duties. PhD degree is required at the time of appointment. The position requires a strong commitment to excellence in undergraduate teaching in the areas of World History and Philosophy. The University of North Alabama Review of applications will begin on December 15, 1998.

JOURNALISM: Tenure-track position in the Department of Communications and Theatre beginning August 23, 1999, at the Instructor or Assistant Professor rank. Master’s Degree required, doctoral degree preferred. The position requires a strong commitment to excellence in undergraduate teaching and creativity in areas such as journalism. Candidates should be able to teach subjects such as basic and advanced reporting, editing, feature writing, desktop publishing, script writing and magazine writing. The University of North Alabama Review of applications will begin on January 15, 1999.

Piano: Tenure-track position in the Department of Music beginning August 23, 1999, or possibly as early as January 11, 1999, at the Instructor or Assistant Professor rank. Master’s Degree required, doctoral degree preferred. The position requires a strong commitment to excellence in undergraduate teaching in Piano Performance. Piano Literature, Class Piano, and accompanying. Special consideration will be given to applicants with experience in MIDI and Jazz improvisation. Other responsibilities include advising, committee work, and extracurricular activities outside the classroom. The candidate must be an active performer and should have teaching experience on the college level. Review of completed applications will begin on December 15, 1998. Include a performance tape.

PSYCHOLOGY: Tenure-track position in the Department of Psychology at the Instructor or Assistant Professor level. Master’s Degree required by the time of appointment. Doctoral degree preferred (in an experimental area of psychology). A solid scientific background in research and the methodology of psychology, evidence of teaching ability, willingness to teach experimental psychology, physiological psychology, general psychology, and additional basic scientific psychology courses and strong commitment to undergraduate instruction. All department members teach general psychology, have a 15-hour credit course on teaching, and advise students. The University of North Alabama Review of applications will begin on January 15, 1999, for this position which will begin on August 23, 1999. Indicate teaching and research interests in cover letter.

SOCIAL WORK: Tenure-track position in the Department of Social Work beginning August 23, 1999, at the Instructor or Assistant Professor rank. MSW degree with two years of post-masters degree professional experience required. Doctoral degree preferred. The position requires a strong commitment to excellence in undergraduate teaching and research. The University of North Alabama Review of applications will begin on January 15, 1999.

SOCIETY: Tenure-track position in the Department of Sociology and Criminal Justice at the Instructor or Assistant Professor rank beginning August 23, 1999. Master’s Degree required, doctoral degree preferred. The position requires a strong commitment to excellence in undergraduate teaching and research. Area of specialization is open. The University of North Alabama Review of applications will begin on January 15, 1999.

THEATRE: Tenure-track position in the Department of Communications and Theatre beginning August 23, 1999, at the Instructor or Assistant Professor rank. Master’s Degree in Theatre required; doctoral degree preferred. The position requires a strong commitment to excellence in undergraduate teaching and curriculum development in theatre. Qualifications: Ability to teach subjects such as introductory theatre, directing, play production, and directing. The University of North Alabama Review of applications will begin on January 15, 1999.

PEOPLE, PLACES, PUBLICATIONS, CONFERENCES
Book Review: The Squatter and the Don
Schools, Computers, and the Internet: The Future Is Here

by Gustavo A. Mellander

The long-expected computer revolution in our schools is at hand. Recent Washington, D.C., studies report that computers and Internet access are becoming a universal feature of America's schools in the suburbs, the inner-city, and even rural areas.

A significant number of children in America's schools now have access to a computer at home. Moreover, those children know how to use them. A few years ago, a computer in a home was considered a luxury. For families with children in school, they might rapidly become a necessity.

Exponential Growth

The Full 1997 survey of The National Center for Education Statistics (NCES) reported that 28 percent of America's public schools claim they have access to the Internet. This is up from 15 percent as recently as 1994, and up from 65 percent in the 1990s.

Moreover, the 1997 survey reported that 99 percent of America's secondary schools have Internet access. The same NCES survey predicts that, based on plans reported by schools that don't yet have Internet access, at least 95 percent of America's schools, and 98 percent of its secondary schools, will have Internet access by the year 2000.

Minority Access

The growth in the percentage of schools with Internet access is occurring in all regions of the United States and in inner-cities and rural areas as well as in the suburbs. As might be expected, schools with a high percentage of minority students and students from poor families have made less progress in obtaining access. According to NCES, "In 1997, schools with 50 percent or more minority students controlled lagged behind schools with 20 percent or fewer minority students, as did smaller schools (those with fewer than 1,000 students), which are more likely to be elementary than secondary schools."

Also lagging in Internet capabilities were schools with low income students eligible for free or reduced-price lunch, with 63 percent having access, however, schools with 31 to 60 percent of students have recently made considerable gains in Internet access, moving from 55 percent in 1993 to 82 percent in 1997.

High Tech Means High Costs

The cost of maintaining access to the Internet is expensive. As part of the Telecommunications Act of 1996, the Schools and Libraries Universal Service Program was established, with the purpose of "providing affordable access for all eligible schools and libraries, particularly those in rural and inner-city areas. This program, referred to as the "e-rate program," will make available $2.25 billion dollars annually to subsidize Internet services for eligible schools and libraries.

According to the organization created to administer the program, the Schools and Libraries Corporation (SLC), "Discounts range from 20 to 90 percent depending on the schools or libraries' economic need and location. The level of discount is based upon the percent of students eligible for participation in the federal free or reduced-price school lunch program. Libraries will use the school discount percentage of the school district in which they are located.

Hispanic Serving Institutions

The widespread availability of Internet access in secondary schools provides an opportunity for Hispanic-serving institutions (HSIs) to reach Hispanic students thinking about and preparing for college. In a secondary school with Internet access, the schools library/media center is almost certain to have such access and usually serves as a principal source of computer and college information. HSIs, particularly community colleges, should consider specifically tailoring parts of their Web site to reach Hispanic students who are thinking about college and who might consider attending their institution.

HSIs can personalize their outreach to these students by making e-mail contacts available and encouraging students to make use of them.

In addition, HSIs could motivate Hispanic students to visit their Web sites regularly and thereby establish a relationship of use and interest to Hispanic secondary school students. Moreover, this outreach doesn't need to be confined to high schools, but can reach down into the middle schools where student attitudes about college are often first formed.

Finally, making available "success stories" of Hispanics who have overcome obstacles and succeeded in college can be a source of encouragement.

A Vivid Example

Students are increasingly feeling the need for a computer to do schoolwork. A recent Washington Post article featured the plight of a young woman who is an honors student and a senior in a high school in Montgomery County, Md., one of the affluent suburban counties that surround Washington, D.C. The young woman is one of the 25 percent of Montgomery County students who don't have a computer in the home. Her family can't afford one.

In order to write papers for school, she often calls friends to see if she can use one of their computers. Alternatively, she sometimes skips lunch and even a class to type up a paper in a computer lab. She told the reporter interviewing her that it is almost impossible to function without a computer now for school and that not having one at home is a real handicap. The young woman studies works after school and is saving up to buy a computer for college, where she says she knows she will really need one.

An astonishing fact emerges from this story. Based on a survey by the Montgomery County school system, 5 percent of the county's children have access to computers in their homes. Although this is well above the national average, a recent commercial survey reports that 60 percent of children across the nation now have access to computers in their homes.

The young woman's tale not only touches on the school for work as seen by the young woman in the Post article, but also provides insight into the role that writing plays in college and the value of having a home-based word processing capability.

For students seeking a affordable computer writing capabilities, new dedicated word processors are available at discount stores and for under $200. Moreover, used 286's, 386's, and 486's, as well as old Macs, are available for under $200 in the burgeoning used computer market. This is within the price range of a Nintendo 64 or PlayStation

Dr. Mellander is professor of George Mason University
Hispanic Influence on the Growth of Soccer

Ball Control, Touch, and the Beauty of the Game

By Ted Oviatt

In 1975, the Cosmos imported the greatest possible Hispanic influence, changing the face of American soccer forever, when they signed Pele, the most exciting single name in the history of soccer.

Anyone even sharing living space with a soccer enthusiast recognizes the strident, repetitive "Goaaaaaaalllll!" of Andres Cantor, the world-famous Hispanic announcer who symbolizes the excitement that the Latin influence has brought to soccer in the United States. However, while soccer for both men and women is beginning to provide significant competition to more traditional "American" sports of football, basketball, and baseball for both playing and viewing time, the numbers show that participation in the tremendous growth of soccer is still limited for Hispanic youth.

Clearly the Hispanic impact varies according to location and time spent in the country. In Los Angeles, where immigration-especially from Latin America—has been so heavy, it might be difficult to count the players, but the presence is inescapable. Players who have honed their skills on the fields but also in the streets and the alleys back home, abound. Many do play in organized leagues, but many other young adults—including some not so young—are like the hundreds who find pickup games every night on the one field at Belmont High School in downtown Los Angeles and are not included in any statistics.

Mike Page of the California Youth Soccer Association estimates that in addition to these organized players, there are about 20,000 Latinos playing in "unaffiliated leagues" whose numbers are either omitted or estimated in national statistics. Steve Sampson, outgoing head coach of the U.S. national team, concerned about "so much talent missed," extends the area where so many potential stars are lost in unofficial leagues from Oxnard to San Diego, Calif., and put the number at "more like 100,000!"

Where there is not such massive immigration as in Los Angeles and other California locations, soccer is nurtured at the earliest levels—sometimes as young as age four—by programs such as the American Youth Soccer Organization (AYSO), which has flourished in American suburb throughout the land. Unfortunately, real estate limits the residence, and cost limits participation of even second-generation Latinos in this wonderful opportunity. The good news is that these obstacles do not prevent—they only slow the progress we are way ahead of the days when Lee Trevino had to sneak onto the golf courses to practice in Texas and Nancy Lopez had to drive miles to practice at a club in Arizona to make them admit her.

The chances are there for an one who attends an American high school. The way in—if you miss the AYSO background—is via schools and the colleges.
At a recent Division I women's match between Pepperdine (Malibu, Calif.) and Illinois State, four Latinas participated, all at least second-generation, all with youth soccer experience, and all recruited by their university. Christina Gutiérrez, from El Paso, Texas, helped Illinois State to control the midfield early in the game. She was All-City back home and earned the opportunity to play in a tournament where Midwest recruiters found her and lured her away from the Lone Star State. She is typical of the second generation individuals who have capitalized on the chances provided by devoted, hardworking parents, both born in Mexico, who like many of their contemporaries have made great sacrifices to offer their children a better life than they have known.

Vanessa Macen, from Oxnard, Calif., where there is a strong concentration of Spanish-speaking immigrants, entered the game midway in the first half and instantly set up Pepperdine's first score with a well-placed assist right in front of the goal. She readily admits that she has not faced the tough road of the recent immigrant. Born in the U.S., she is bilingual, well schooled both academically and athletically, and clearly comfortable in the predominantly Anglo, visibly affluent Pepperdine atmosphere.

Forty years ago these opportunities were available only in rich, suburban clubs and schools, mostly on the East coast. I first saw excellent soccer at Williams College in Massachusetts in the early fifties. In the 1960s, I watched St. Mark's School of Texas dominate the Southwestern Prep Conference, and in the mid-seventies, I was amazed by the legendary—in that area—Albie Loefler's ten straight state championships at Staples High School in Westport, Connecticut. Except for an occasional foreign student at Williams, no Hispanics here.

Even at the professional level, the start was slow for American soccer. When the North American Soccer League began in 1968, attendance was sparse. Internationally the U.S. was weak.

When Steve Sampson's U.S. team defeated the fabled Brazilians on their own turf last year, it was not only the first win for the Americans but also the first American goal in more than sixty years. The early pro teams were led by Europeans: and Kyle Rote, Jr, son of the SML football All-American of the 1950s, was heralded in the early '70s as the first American-born star in the league.

Along with the Europeans came a sprinkling of Latino standouts who came here usually at the end of distinguished careers in their native lands. Public interest was really minimal, and when the New York Cosmos, playing in Hofstra Stadium on Long Island, routinely invited via the public address system, any and all fans to come meet the players and their families in a nearby beer parlor after the games, my four children and I—with the baby sleeping under the table—were often the only ones in attendance!

In 1975, the Cosmos imported the greatest possible Hispanic influence, changing the face of American soccer forever, when they signed Pelé, the most exciting single name in the history of soccer. The Brazilian star, who at age seventeen had helped Brazil win the first of three World Cups during his 20-year career, was at 35 still an awesome force on the field and a charming personality when it came to public relations. Other stars countered with European stars like Franz Beckenbauer and George Best. Attendance soared, the league expanded, and salaries rose.

Imported mercenaries still make their mark in the professional ranks. Important for the league, the Latinos attract a considerable following. Jorge Campos of Mexico was a big crowd favorite playing for Galaxy in Los Angeles and still draws cheers when he visits, playing for the Chicago Fire. Other names like Marco Etcheverry, Mauricio Loureiro, and Carlos Hermosillo provide an important connection for Latino fans. Two Argentine-Americans are breaking ground for the hun-
dreds of second-generation soccer players who need to know that the professional leagues are an option for them. Marcelo Balboa of the Colorado Rapids is a likely choice for the next U.S. national team; and Claudio Reyna, playing in the German leagues, shows that Americans are welcome even in Europe!

America's women, too, are strong enough to begin to export our overflow! This writer was surprised to learn from Cree Murphy, women's coach at Loyola Marymount, that there were five U.S. college players on the 1998 Mexican national team. Historically, women's soccer has not been big in either Europe or Latin America, so the United States has had a better chance to rise to the top internationally. There is no professional league to draw foreign stars, and there are few foreign stars to attract, so the A.M.P.-bred suburban upper-middle-class Anglo kids, like superstar Mia Hamm, are dominant in most schools, colleges, and certainly on the U.S. national team that recently defeated Brazil, 3-0, to win the U.S. Cup and remain undefeated at home in 45 straight games. Hamm has been called "the most marketable female sports figure," with Michelle Kwan second.

There are some serious obstacles to the entry of Hispanic women in soccer. There are the socioeconomic considerations: cost, distance to suburban practice fields, transportation to games as well as to practices. But there are also cultural drawbacks. Families who frequently do not feel that after-school sports for girls are appropriate, much less important. Then, too, schools often treat girls' sports the same as substitutes. Coverage is the goal; quality of coverage is definitely secondary. Even when families allow a high school girl to join soccer, she often comes with little physical activity in her past so that supporting muscles are not built up and injuries are more frequent. Diet can also be a weakness.

At the college level, the absence of skills is the most serious deficiency. Maria Garcia, all-conference on an undefeated team at Belmont, played only two years in high school. She sat on the bench most of the time for two years at La Verne University (Calif.), which has an excellent soccer program. Most of her teammates had between ten and fifteen years of soccer experience. College coaches in a serious program don't have time to teach skills. Eddie Flores, head women's coach at East Los Angeles Community College, gets mostly Hispanic kids from the city. They come with good attitudes, dedication, and courage, but few skills. Flores explains (more than complains) that his teams can never compete with the suburban colleges that draw from the club players who have competed for more than ten years. He does complain that U.S. soccer has never reached out to Hispanics, boys or girls, and that schools responding to Title IX were often more interested in compliance than excellence. Flores is a professor of sociology and vice president of the Academic Senate, with an important voice in policy and budget. He is a wonderful role model for his students both in the classroom and on the field. East L.A. is lucky to have him.

Schools can be lucky in various ways. At Belmont, it was the fortuitous arrival at about the same time of an ex-Marine named Neil La Sala and a new sophomore named Claudia Valdivia, the only girl ever to arrive at Belmont with club skills. She scored 51 goals in her first year, and—too, with Coach La Sala—led Belmont to three undefeated seasons. An excellent student, she is now at Loyola Marymount, not playing soccer in her first year to ensure a strong academic start.

From a supportive, traditional Latino family, Claudia reached seventh grade without playing sports. When the family took her younger brother to a soccer program, Claudia wanted to play, too. There was no girls' team, so Claudia joined the boys' team. Reflecting the difficulties many Latinas face, family videos have recorded angry fathers yelling at Claudia. "Why don't you go play with your dolls?" It's very intimidating when the girls play with the boys—and do it well!

Family videos have recorded angry fathers yelling at Claudia, "Why don't you go play with your dolls?" It's very intimidating when the girls play with the boys—and do it well!
more. Steve Sampson is one who is concerned about the talent lost and the future of professional soccer, which he claims will be dependent upon the interest of the growing number of Hispanic fans.

Sampson has in fact been on a campaign for the last three years to build a bridge to the Latino fan, to "make our national team their national team." Alluding to the mass of Spanish-speaking fans who used to boo when the U.S. national anthem was played and who still frequently cheer for El Salvador when the U.S. plays them. He is proud of his efforts in this direction and believes that more Americans need to be familiar with the culture and the language if we are to be successful.

Sampson does, by the way, practice what he preaches. He speaks Spanish fluently, and he feels that he has been able to interact with both the culture and the people in the countries his team has been competing in. He is extremely popular, especially in Mexico, where he is always a welcome guest on TV and radio shows.

Americans, however, continue to be infamous for their inability to communicate in any language but English. The U.S. Federation has not been able to penetrate the combination of timidity, hostility, and complacency that often creates a wall between mainstream U.S. soccer and the non-affiliated Latino leagues. Sampson says there must be an effort on all sides. The predominantly Anglo, suburban leagues must reach out to the thousands of Latinos who are operating as if behind a wall. On the other hand, Latinos must be open to overture and make some effort on their own to force recognition.

One of the most effective voices in American soccer, Sampson predicts that "the presence of Latin Americans at MLS games will make the difference in the survival of the league." In much the same way that the old NASL failed because, in the rush to highlight Pele and Franz Beckenbauer, the league ignored American players, the new league must recognize the natural interest of the tremendous, and growing numbers of Spanish-speaking fans who can be content to watch an El Salvador semi pro team play Mexico in the park, or they can get excited about MLS and put 100,000 fans in the Coliseum.

Coach Nancy Carr-Swaim says that watching Mexican and European leagues on TV will show the difference between the fast, attacking style of the Europeans and the skill-oriented polish of the Mexicans.
Ramon Nuñez plays college football. But you won't see him on network television every weekend, sweating it out in front of 50,000 delirious fans. And you won't read about his team's exploits each week in the pages of Sports Illustrated.

No, the 21-year-old Nuñez, a native of Queens, N.Y., plays offensive guard at St. Cloud State University in Minnesota, a Division II program that plays outside of the national spotlight. But just because Nuñez can't watch his team's highlights every Saturday night on Sports Center doesn't mean that he doesn't face the same issues, the same responsibilities, as the nation's "big-time" student-athletes. Which is why Nuñez so enjoyed attending the NCAA Foundation Leadership Conference, held May 25-28 at Disney's Coronado Springs Resort in Lake Buena Vista, Fla.

The purpose of the second annual conference was to provide a forum for student-athletes to engage in a rigorous exchange that will encourage the development of their critical thinking skills and leadership capabilities, according to NCAA literature. More than 850 student-athletes were nominated from NCAA institutions...
across the country (including all three divisions: I, II and III), with more than 370 student-athletes selected to participate in the conference.

Núñez, a junior majoring in mass communications, was nominated to attend the conference by his football coach at St. Cloud, Noel Martin. As part of the selection process, Núñez had to complete an application and write an essay outlining his leadership roles on his team, in his community, and in his life. For the 6-foot-2, 290-pound Núñez, talking about leadership was as easy as blocking an oncoming linebacker.

"Personally, I came up in not the best environment," said Núñez, who lived in Queens until high school, when his family moved to Milwaukee. "But I was fortunate because my family home life was very good. What motivated me was having role models like my mother and father. People of color like me that come from a situation where it's harder to rise up, it's harder for other people probably to do anything about it, to deal with it. Society has already predetermined that you're not going to make it. That motivated me to help others in my community."

So when Núñez applied for the Leadership Conference, he wrote about his work at the Community Center Network's Career Youth Development program, where he, as a student-athlete, was paired with various at-risk youths, kids who might have dropped out of school or been sent to juvenile detention as first-time offenders. "We just tried to develop them, to educate them," said Núñez, who received an award from Wisconsin Governor Tommy G. Thompson for his work.

Núñez also wrote about his more recent work while at St. Cloud, when he would visit the local prison and talk to inmates about getting their lives back on track. And there were also the trips to the juvenile homes, where Núñez would help kids plan for their future.

The people he visits and speaks to probably don't recognize Núñez as a football player, but that doesn't matter. Núñez knows that he is still in a visible position as a student-athlete, and it's one he wants to take advantage of. "I'm not playing at Florida State or anything, but what power I can use as an athlete or role model will help others," he said.

Channeling that power was one of the primary purposes of the Leadership Conference, which was presented by Entergy Corporation and sponsored by American Express and Delta Air Lines. All of the students' expenses, including airfare, were covered for the four-day event. In addition to smaller workshops dealing with issues such as media portrayal and public perception of student-athletes, the role of the coach in a student-athlete's development, and the responsibilities of leadership, the conference featured several nationally renowned speakers. Dan Bogga, the NCAAs Chief Operating Officer, Tom Curley, publisher of USA Today, and Robin Roberts, anchor and commentator for ESPN and ABC, were among those who addressed the conference.

"I really enjoyed all the speakers and their energy," said 25-year-old Cassandra Reyes-Lopez, a native of Abilene, Texas, who represented Abilene Christian University.

Like Núñez, Reyes-Lopez has an extensive list of extra-curricular community service work that made her a perfect fit for the Leadership Conference. In addition to playing softball at Abilene, the advertising/public relations major volunteers at the Abilene State School, where she works with the mentally handicapped. She also works at Great Expectations, an organization that helps abused women, and at ACL's Child Development Center.

"They put a lot of emphasis on taking what we learn and then going back to share it with people at our school," said Reyes-Lopez, who added that the conference's lessons applied both
to small schools such as hers and to the larger Division I institutions.

"Athlete has about 3,000 students, so it's a little easier telling a smaller school [about the conference]," said Reyes-Lopez, who will captain the softball team this spring.

"It was great," she said, adding that she learned a great deal to bring back to share with her team.

Participant Wilfredo Rivera was there representing not 3,000 but a school of 85,000. The 20-year-old Newark, N.J., native is a junior this year at Rutgers University, where he competes on both the mens cross country and track and field teams.

According to Rivera, who was nominated to the Leadership Conference by his academic advisor at Rutgers, the most useful lesson he learned from the four-day event involved the coach-athlete relationship.

"The relationship between a coach and an athlete in college is more professional," he said.

"In high school, you learn a lot from your coach, but in college, they let you go on your own more."

Rivera said that it's often a difficult adjustment for young college athletes to make, and one they're not always comfortable discussing with their coaches.

"A coach might not be there at a personal level, but the conference showed that there are other ways you can gain some kind of support system in talking about a problem," said Rivera, who is active with his local March of Dimes. "If not through your coach, then you can possibly talk about it with people from your own team, or your captains."

Rivera called the conference "a very positive thing."

It looked at student-athletes from both sides of the coin. It advanced the athletes trying to control their own destiny."

And while not every student-athlete at the conference was a household name, or even a team captain in his or her own sport, for that matter, Rivera and those are not requirements for true leadership. "Everyone is a leader in their own way," he said. "I even felt that in high school, when younger guys on the team would look up to me, you accept that role and you know about it coming in."

College sports always have had a large fan base, with alumni, students, and local residents loyal to following their teams. But college sports have also enjoyed a revenue boom over the past 20 years, with high-profile sports such as football and basketball drawing increased media attention. For many student-athletes, dealing with reporters can sometimes be a completely new experience.

"A lot of kids come from smaller towns, and this is the first time they experience the media coverage," said Thomas Hernandez, a senior majoring in pre-med and biology who represented Truman State University in Kirksville, Missouri. The 21-year-old, who is a defensive back on the Truman State football team, said that he learned to deal with reporters while playing for his high school team, which received a good deal of media attention. Even so, he said the Leadership Conference helped reinforce those lessons. "It's important to learn those skills," he said.

As a student-athlete, it's important to say the right thing. The conference, he said, "was just a great experience. It was fortunate to be a part of it."

Cynthia Gonzalez, a junior this year at the University of Texas at Austin, who transferred over the summer from T.San Antonio, agreed. The 20-year-old Gonzalez, a corporate communications major who plays outfield on the school's softball team, said that one particular exchange at the conference stuck in her mind. During a panel with several journalists, "a lot of [the student-athletes] were asking for more positive coverage," she said. "They wanted to see more stories about athletes helping kids to read, instead of showing the kids who are arrested for drunk driving or who are on steroids."

The response that the student-athletes received from the panel, however, was not what they were expecting. "The panel said, 'Tough,'" Gonzalez recalled. "They said people want to read about when you do bad, not when you do good."

Still, Gonzalez and others said that the conference left the four-day conference with a renewed sense of empowerment as student-athletes. "You do have a voice as a student-athlete, and you can speak up," said Gonzalez, who volunteer her time each Christmas at the Holiday Feast in Houston serving food to people in need.

"The conference was definitely one of the best experiences of my life," added Nuñez, the football player from St. Cloud State. "It was a thrilling feeling meeting 350 other athletes, all from different backgrounds and different environments. It really enriched me as a person. It was more than I could have asked for. Getting to know people from all 50 states, and all the athletes from the different universities, it really opened my eyes to the country. There's more out there than just where you live."

"It's a great program," Nuñez added, "I hope they keep it going."

Nuñez will be happy to know, then, that the third annual NCAA Foundation Leadership Conference is scheduled once again for this May. Student-athletes interested in attending should contact their school's athletic department.
The Challenges of Hispanic Student Athletes

Family, Finances, Early Experience

BY RON FREMONT

Becoming a student-athlete at the collegiate level is a goal for millions of young men and women. The increased exposure that college athletics receives through the electronic and print media can be a captivating force that has inspired many high school and junior college students to stay focused on the academic requirements that demand.

Getting to that level is a long road of not just junior high and high school competition, but the additional cost of private club programs (youth soccer organizations, club volleyball, little league baseball, youth basketball leagues, etc.) Most National Collegiate Athletic Association (NCAA) Division I and II college athletes today have been competing in sports since their elementary school years. And while being a soccer team mom is a socially recognized symbol of suburban America, it is not the norm for many cultures.

The Hispanic communities across the country have varying attitudes toward athletics, often depending on their economic and social strata. These social norms were explored in a special television program produced by the California State Polytechnic University-Pomona (Cal Poly Pomona) Intercollegiate Athletic Department and the Department of Instructional Technology and Academic Computing (ITAC). Titled Deportes Bronces, the half-hour show was produced completely in Spanish and interviewed members of the Cal Poly Pomona faculty as well as Bronco student-athletes.

"Hispanic athletes have often had more pressures growing up than their counterparts in other cultures," notes Carlos Juárez, the head men's and women's soccer coach at Cal Poly Pomona and a member of the panel. "There is a great deal of pressure for every member of some families to meet the basic economic need. Plus, our education is a very high priority. Sometimes sports is not a part of that equation."

Juárez, a native of Guatemala, has coached collegiate and club soccer programs for more than 10 years. Growing up in a Spanish-speaking home, he has first-hand experience with the trials that many of his Hispanic counterparts engage in every day. "Soccer was always a passion for me. If I could play all day, I would. I never thought I could make a career out of soccer or even get my education sponsored, and neither did my parents. With that in mind, I needed to work that much harder academically so as not to give the impression that I was forsaking my responsibilities just to play soccer."

"It was only after I got into college [California State University-Los Angeles] in the United States that I saw economic incentives of playing college soccer," adds Juárez. "But there is still not a great deal of funding in my sport, and the pressure is still education for it."

Economics and familial culture certainly affect the attitudes toward sports in Spanish-speaking homes. As one might
ic and academic opportunities for female athletes across the country. Since then, more and more schools have increased the amount of grant and operational dollars directed specifically to women's athletics, creating more opportunities than ever before.

But women growing up in Hispanic homes were more often faced with greater struggles than were their male counterparts. Despite the increased awareness that women's athletics has brought to the public, many young women of a Spanish-speaking culture were not encouraged to compete. Older girls in Hispanic homes of large families have responsibilities to provide care for younger siblings, and completing their education remained the number one priority.

Marina Torres-Reyes grew up in Delicias, Chihuahua, Mexico, as the youngest of five children. Her father worked in agriculture, and her mother stayed at home and took care of the children. Following in the footsteps of her older sister by eight years, Marina is a basketball fanatic.

"My sister was a great player in Mexico," notes Torres-Reyes. "She was a member of the Mexican National Team and a basketball role model for me. But my father was not happy about her playing basketball and felt she had more important work to do at home. She was always sneaking out of the house without his knowledge to go and practice.

On one occasion after she had made the national team, she was supposed to go to South America for a competition. All the players had to meet in Mexico City and then fly out from there. My father wouldn't let her go. He just did not think it was worthwhile.

Marina left Mexico to pursue an education in the United States and worked on her English. She moved to Ventura, California, as her sister had lived in the area; later she enrolled at Ventura College. It wasn't until then that she realized that basketball could be a means to sponsor her education.

"My parents have never been fanatic about basketball. Coming from a big family, we spent all of our money on education. Without education, you cannot build a future, especially in Mexico."

Torres-Reyes joined the Ventura College women's basketball team in the fall of 1994 and developed into one of the nation's top junior college guards. In two years at Ventura, Torres-Reyes averaged 14.1 points, 6.3 steals, and 5.2 assists per game. After her sophomore season, she was named the National JC Player of the Year by Student Sport Magazine, the California State JC co-Most Valuable Player, and the Western State Conference MVP. She was recruited and eventually signed a national letter-of-intent to attend Oregon State on a full athletic scholarship.

Finding that Corvallis, Oregon, was not to her liking, she left school after eight games and returned home to Mexico. After a year's sabbatical, she is now enrolled at Cal Poly Pomona, majoring in international business and ready to begin her final season of NCAA eligibility as the Broncos' starting point guard.

"My mother now gets excited to see me play," adds Torres-Reyes. "We have some family in Santa Paula, so she has a place to stay. But my dad has really changed. He now talks me up to all of his friends and talks about my games."

Cal Poly Pomona is located approximately 35 miles southeast of downtown Los Angeles and features more than 17,000 undergraduate students. According to the university's Institutional Research and Planning department, Hispanics make up 218 percent of the overall campus student population. In comparison, Cal Poly Pomona student-athletes nearly mirror that percentage at 22 percent (44 of the 200).

About the Author: Ron Fremont is the Assistant Director and Director of Sports Information at Cal Poly Pomona, entering his 22nd year at the university and his 17th year in higher education. A 1982 graduate of UCLA, he also serves as the Executive Producer of Broncos Sports Talk and Deportes Broncos, shown on the PacBell network in Southern California. New programs are currently being planned for the 1998-99 academic year that will focus more on sports-related issues in Hispanic homes as well as those of African American parents and women. Fremont can be contacted at his e-mail address of r-fremont@espnomaha.edu.
Tommy Nuñez National Hispanic Basketball Classic

A Great Time—A Great Cause

"We have a great time," says Nuñez, who gets eight or nine of his fellow NBA refs, as well as 10 Division I college refs, to donate their services each year.

While the flight attendants went over things like flotation devices and emergency exits, the businessman, a frequent traveler, struck up a casual conversation with the man next to him—a Tommy Nuñez, Sr., as he recalled. Nuñez said he worked as a referee in the National Basketball Association, which the businessman found interesting. As the plane ascended over America's heartland, Nuñez told the businessman all about his work with the National Hispanic Basketball Classic, Inc. (NHBC). To the businessman, it had seemed like any other trip. But a few weeks later he received a letter from Nuñez reminding him of their in-flight conversation, and asking for support. The businessman found he couldn't say no. He wrote a check for $3,000 in the name of the National Hispanic Basketball Classic.

For Nuñez, it's a perfect example of why his work with the NHBC is so successful.

"Fund-raising amounts to: if you know someone," says Nuñez, who founded NHBC back in 1980. "As far as talking about it, I could go talk to corporate people in an office, but that's not my style. We're not the big corporate system. We don't have that network. We're people to people, one on one. I do it my way and hope people respond. And people have certainly responded. The 18th annual Tommy Nuñez National Hispanic Basketball Classic Tournament was held over Labor Day Weekend at North High School in Phoenix, Ariz. And like the 17 tournaments before it, this one was another success, raising nearly $15,000 for both the "Academies Through Athletics" scholarship fund, as well as various academic and athletic activities for disadvantaged youth.

The four-day tournament, open only to players of Hispanic descent, drew a capacity crowd once again this year of 48 teams. With 96 different games to squeeze in over the weekend, the tournament is a lot to handle, but it truly is a labor of love for the 80-year-old Nuñez, a native of Phoenix. "We have a great time with it," says Nuñez, who runs the tournament with his two sons, Tommy Jr. and Donnie, and his daughter, Colleen. "It's an opportunity to bring a lot of Latino basketball players together from all over the country. And with that spirit in mind, we market ourselves across the nation using education as a priority, as well as an anti-drug message."

When the tournament began in 1980, there were eight teams raising about $800 for a good cause. The tournament steadily grew through the years.
though, and in 1988 four $1000 scholarships were established. Today, the NHBC hands out a dozen of these scholarships each year.

“The scholarships go to kids who wouldn’t typically go to college,” says Donnie Nuñez, who has become heavily involved with the tournament over the past three years, even helping to set up its own Website (www.tommynuñez.com). “These are B-C type students who never really thought about going to junior college or a university.

“But this money gives them a kick. They can take a $500 and give junior college a shot, and then use the other $500 if they want to stay. This gives them a kickstart, which is what it’s all about.”

Having worked as an NBA official for the past 25 years, during which time he’s been able to tell the likes of Michael Jordan to play clean defense, you wouldn’t think that Tommy Nuñez, Sr., would need to bust himself during his vacation months. But the fact that Nuñez is in a position today to run a basketball tournament that raises thousands of dollars in scholarship money for young Latinos is the very reason he does it. You see, it’s not so hard for Nuñez to imagine his own life having turned out much differently.

Growing up in the Phoenix barrio, Nuñez’s parents divorced when he was 11. Soon thereafter he began bouncing around between different relatives, sometimes living with his grandmother, sometimes living with an aunt. Before his sophomore year was complete at St. Mary’s High School, the class prankster had dropped out of school. By the age of 17 he was in trouble with the law, having borrowed his uncle’s car and having sideswiped a parked vehicle.

While other kids his age had homeroom teachers, Nuñez now had himself a probation officer. That’s who recommended that Nuñez join the Marine Corps, which he did at age 17. Nuñez credits his time in the Marines with getting his head screwed on straight.

Once out of the Marines in 1964, Nuñez took a job in a telephone factory. He also began officiating local high school basketball games on the side for extra cash. His side job quickly became his main focus, however, as he soon started officiating junior college games before catching on as a referee at the Phoenix Suns’ summer camp. By 1972, the then-31-year-old Nuñez was invited to attend an NBA tryout camp in Buffalo, N.Y. The following year, he became the NBA’s first Mexican referee.

It’s now 26 years later, and Nuñez is still the only referee in the NBA of Mexican descent. In fact, he’s the only Mexican official in all of professional basketball, football or baseball. It’s a point of pride for Nuñez, and it’s also his calling card—when he makes motivational speaking appearances around the country while traveling with the NBA, or when he talks to youngsters in his home state of Arizona on behalf of the Department of Education, or when he goes inside a prison or juvenile institution to talk to those who have already slipped up. Nuñez knows they’re going to listen. “The NBA opens the door for you,” he says. “They’re curious. They say, ‘What the heck does he have to say?’

“And all he has to say is that he’s been there, and that education and hard work were the things that got his life back on track. “For me, growing up in a government housing project, in a single-family house, joining the Marine Corps in 10 days after my 17th birthday—I would probably qualify for the Boy Scouts now,” adds Nuñez, who has been married to his wife, Mary Ann, for more than 40 years. “The problems for kids are so serious today.”

Nuñez has enough thank-you letters from scholarship recipients and the people he’s reached “to fill a cabinet,” which certainly is a perk to his work. But Nuñez also enjoys the actual four-day tournament, which in a lot of ways is a celebration of the NHBC.

“We have a great time,” says Nuñez, who gets eight or nine of his fellow NBA refs, as well as 10 Division I college refs, to donate their services each year. “We have a banquet with mariachi music. The people come into town and spend their money... We’re involved in all of that.”

The tournament also is immensely popular among the players, as some teams must be turned away once it reaches capacity. Those that do make it are broken down into two divisions—Open and Over-40. In this year’s Open Division, the Oakland Warriors beat Houston, Texas, for the championship. “They’re blue-collar kids in their 20s,” Nuñez says of the type of players the tournament attracts. “They’re working folks.”

In the Over-40 bracket, the squad from Sacramento, Calif., came out of the loser’s bracket to beat AZ Flores Bakery for the title.

“The good thing about it,” Donnie Nuñez adds, “is that a lot of the guys we play are college grads. I remember one of the guys playing was a high school principal in California, but if you saw him play, you’d think he was a street guy who been playing basketball all his life. Someone asked him, ‘Hey, what do you do?’ and they were shocked to hear that he was a high school principal. But you can do both.

While the tournament itself is done for this year, Donnie Nuñez pointed out that the money never stops trickling in, be it a $25 check here or a $5000 donation there. The Fiesta Bowl, for instance, recently committed to five scholarships of its own. So if you’re ever sitting in an airplane and the gentleman next to you begins to tell you about a little something called the National Hispanic Basketball Classic, be prepared. I know how to beg,” Nuñez says.
University of California, Los Angeles

Exciting and Influential

BY ROGER DEITZ

When one recalls great collegiate sports teams, the powerhouse squads of UCLA: (University of California, Los Angeles) come to mind. UCLA teams have won an overall total of 67 NCAA men's championships. That's the second highest total in the nation—including 17 in volleyball, 15 in tennis, 11 in basketball, eight in track and field, five in water polo, and one each in soccer and gymnastics. The UCLA women's program is one of the most extensive in the country. UCLA played a pivotal role in establishing women's sports as a part of the NCAA. Women may compete in varsity sports. They have won a total of 15 NCAA titles, the fifth highest in the nation— including seven in softball, two each in track and field, volleyball, and water polo, and one each in soccer and gymnastics.

UCLA also is distinguished in non-sport areas. The National Research Council ranks UCLA among the nation's top research universities, with 31 Ph.D. programs among the top 20 in the field. U.S. News and World Report has rated The UCLA Media Center as best in the west for eight years in a row. The center treats 300,000 patients a year. UCLA faculty rank among the best in teaching and research honors. Prestigious awards received UCLA faculty include four Nobel Prizes, the national Medals of Science, 25 Guggenheim Fellowships, Fulbright Awards since 1981, and 7 Sloan Foundation Fellowships since 1984. Students have done brilliantly as well. Eight UCLA undergraduates have received prestigious Rhodes Scholarships recognizing scholastic ability, force of character, and leaders qualities. It's certain that from the classroom to the sports are UCLA gains top honors, now UCLA can add the Hispanic Outfit Honor Roll as one more honorable trophy.

Chancellor Albert Carnesale took his post in July of 1901...
Honor Roll Facts in Brief

INSTITUTION:
UCLA (University of California, Los Angeles)

LOCATION:
Undergraduate Admissions
Box 951436
Los Angeles, CA 90095-1436
(310) 825-3101

ESTABLISHED:
1919

ENROLLMENT:
34,000

DEGREE OFFERINGS:
Bachelor's
Master's
Doctorate
Professional

ANNUAL TUITION:
$4,006.50 - tuition and fees

NUMBER OF FACULTY:
1,680 full-time

SPECIAL OR NOTABLE DEGREE PROGRAMS:
Applied Mathematics
Chicana and Chicano Studies
Folklore and Mythology
Hispanic Languages and Literatures
Microbiology and Molecular Genetics
Public Administration

INTERNET ADDRESS:
www.ucla.edu

sees UCLA's achievements as "exciting and influential," remarking, "In the span of a single lifetime, UCLA has ascended to the vanguard not only of higher education but of human endeavor. Unlike other universities, it embraces, but is not entrenched in, tradition; it is fortified, not fragmented, by diversity. The result is a bold, innovative spirit, flexibility, and the power to move forward in an era of accelerated changes."

Chancellor Carnesale credits "all constituents of the UCLA community—faculty, friends, staff, students, alumni, donors, and the general public, as well as the campus itself"—with contributing to the university's greatness. "These resources have helped the university make it through some tough times, including Draconian budget cuts and a devastating earthquake. But UCLA has emerged all the stronger, and is well positioned to accelerate its upward trajectory."

UCLA is California's largest university. Enrolling 34,000 students annually (add to that more than 1,600 interns and residents), UCLA educates more students than does any other college in California, public or private. It is also the most sought-after university in the nation. More than 32,000 students applied to become one of 3,580 first-year students at UCLA for the fall of 1998. Records show that UCLA has 290,000 living alumni, 80 percent of them California resi-

dents. What that means is that The UCLA Extension sets a standard for lifelong learning. With more than 500,000 enrollments and 4,500 courses annually, UCLA Extension is the largest non-degree higher education provider in the world.

UCLA has one college and 11 professional schools. The College of Letters and Science offers programs leading to both undergraduate and graduate degrees, as do the School of the Arts and Architecture, School of Engineering and Applied Science, School of Nursing, and...
School of Theater, Film and Television. The other professional school—
offer graduate programs exclusively: The Graduate School of
Education and Information Studies; School of Law; John E. Anderson
Graduate School of Management; School of Public Policy and Social
Research; and in the health sciences and the Schools of Dentistry,
Medicine, and Public Health.

The UCLA story begins in 1882. With a population of 11,000, Los
Angeles was a gas-lit pueblo trying to convince the state to establish
in Southern California a second State Normal School like the one
already existing in San Jose, 300 miles to the north. In March the fol-
lowing year, the State Assembly approved the establishment of such a
school. More than 200 citizens contributed between $2 and $500 to
purchase a site less than a mile from the business district. Soon the
Victorian school grew in an orange grove (a site that is today the
Cental Los Angeles Public Library). On August 29, 1882, the Los
Angeles Branch of the State Normal School welcomed its first stu-
dents. By 1914, Los Angeles had grown to a city of 350,000, and the
school's enrollment exceeded its capacity. It moved to new quarters: a
Hollywood ranch off a dirt road. In 1917, Director Ernest Carroll
Moore proposed that the school become the first branch of the
Berkeley-based University of California. Two years later, on March 23,
1919, California Governor William D. Stephens signed legislation
that created the “Southern Branch” of the University of California—no
longer a teachers college but an institution that offered two years of
instruction in Letters and Science. Third- and fourth-year courses
were added, and the first class of 300 students was graduated in 1925.
By 1927, the Southern Branch had earned its new name, the University
of California at Los Angeles (the “at” became a comma in 1958).

As the student population increased, ground was broken in 1927
for a move to the present Westwood location. In 1929, four original
buildings—Royce Hall, Powell Library, and Haines and Kinsey
Halls—formed a lonely cluster in the middle of 400 acres to serve
5,500 students. Today some 259 buildings on 419 acres serve nearly 36,000 students, who can choose from
more than 100 major fields and design their own interdisciplinary majors. The diversity of the academic
programs draws strength from a student body that
mirrors the cultural and ethnic vibrancy of Los
Angeles.

The ethnic composition of domestic students
enrolled in both the undergraduate and graduate
programs is 60 percent African American, 31.2 percent
Asian American, 10.8 percent Chicano/Mexican
American and 4.5 percent Latino/other Spanish
American, 0.9 percent American Indian, and 39 percent
Filipino. UCLA is known for its rich diversity: The campus awards more doctoral degrees to minority students
than does any other college or university, and ranks
second in the number of bachelor's degrees and fourth
in the number of master's degrees awarded to minority students. UCLA has the only academic Black press on
the West Coast, the world's largest archive collection on

Japanese Americans, the leading journal on Asian Americans, and the
only peer-reviewed journal devoted to Chicano studies.

UCLA announced that 1,206 students admitted for Fall 1996
declared their intention to register, making the largest first-year
class of any University of California campus, and one of the largest in
UCLA history. Extensive recruitment and outreach efforts on the part
of UCLA students, faculty, administration, alumni, and friends result-
ed in a record number of admitted students who have chosen to
enroll. Even among minority groups historically underrepresented in
the student population, the proportion who plan to attend (41 percent)
was higher than ever. This year a total of 1,363 African American, Hispanic, and American Indian students were admitted,
and 60% said they plan to attend.

“The good news is that we will enroll more underrepresented stu-
dents than we had anticipated,” says Carnesale. “But we remain dis-
appointed that fewer underrepresented students were admitted
under the constraint of Proposition 209. We will continue to dedicate
resources to outreach efforts aimed at ensuring adequate represen-
tation of all segments of the community on campus.”

In an effort to counter the effects of Proposition 209, which elimi-
nates the use of race, ethnicity, and gender in the admission
process, UCLA recently developed two new programs to ensure diver-
sity on campus. The initiatives—the Career-Based Outreach Program
(CBOP) and the Venice/Westchester-UCLA Collaborative—seek to
increase the academic competitiveness of educationally disadvan-
taged students in California's K-12 schools. “Outreach is vital to sus-
taining the diversity of our undergraduate student population, which
is the foundation of diversity in every segment of the university,”
says Chancellor Carnesale. “The diversity of our students, faculty, and
staff enhances our ability to fulfill all aspects of our mission of teaching,
research, and service.”
Researchers Talk Women, Sports, and Academia

Participation Up, Role Models Down

By Adalyn Hixson

"When a school is interested in increasing participation numbers for its women, they will look to sports that carry big rosters, such as soccer."

Dr. Linda Jean Carpenter

Two of the few people who have kept a research eye on women athletes in academia over many years are Dr. Vivian Acosta, a Chicana, and Dr. Linda Jean Carpenter, professors and colleagues who are both about to retire from Brooklyn College, in New York.

Their 21st annual report on Women in Intercollegiate Sport includes both good and bad news. Opportunities for women to play sports at that level have risen, but the percentage of teams coached by women has been declining for more than 25 years.

Acosta and Carpenter started collecting statistics on women in sports in 1978, the year that federally funded schools had to meet Title IX requirements regarding gender discrimination.

When Title IX was adopted in 1972, more than 9 out of 10 women's sports programs had women as head administrators. This year, 4 out of 5 are headed by men—80 percent, down slightly from the 81.6 of 1996.

The women's share of administration jobs in women's sports programs overall, however, is 58 percent, higher than at any time since 1972.

But the percentage of women head coaches of women's teams in 1998 was at 4 percent, the second lowest on record. And women coach only 2 percent of men's teams. Carpenter was quoted in Women in Higher Education as saying that if hiring were more gender-neutral, more women would coach men's teams, and that both women and men students need to see women in leadership positions. "They need to see women who can make decisions, take flak, and guide their own lives and those of their athletes."

1972 9 out of 10

1989 2 out of 10

Who's Running the Show
Top Administrators of Women's Sports by Gender
HO: Dr. Carpenter, your latest study shows an enormous growth in soccer as a sport for women at the college level—from 2.8 percent of the campuses in 1978 to 78.5 percent in 1998. Do you know why?

CARPENTER: First, I think that soccer has grown because it is a sport that is understood by men and thus they are more eager to support it instead of, for instance, field hockey, which is a women-only sport in the U.S. Internationally it is more popular for the guys, but in the U.S., it is certainly on some percent women.

HO: I recently read an article that implied some loss of brain function in soccer players, believed to be attributable to head traumas.

CARPENTER: You know—I've never loved soccer, because it gave me a headache! [Laughter]

The second reason for the rise in soccer is that it is a sport which has a very large roster as opposed to a sport like golf or badminton or tennis. When a school is interested in increasing participation numbers for its women, they will look to sports that carry big rosters, such as soccer.

The third reason—it is cheap. You need a soccer ball, you need a cage, which you already have from running a men's soccer program, and that's about it, except for the coach, and you probably know a male soccer coach. It fits the bill.

HO: What is your take on Title IX at this juncture?

CARPENTER: I think that the last few years have seen circumstances arise that have encouraged schools to move toward compliance. For instance, in '98, the realization that punitive damages are included as a legal tool to force compliance—that changes the outlook. It makes the school not find the use of delay a good strategy.

HO: In a back issue of Women in Higher Education that I saw recently, Judith Albino, former president of the University of Colorado, and former chair of the NCAA's President's Commission, said that most university presidents lie about their athletic programs. Do you have any insight into the why and how?

CARPENTER: Sometimes reality does not match the data that is in college reports, maybe even more so with sports. NCAA requires the reports, and the reason they do is that congress is requiring some of the reports. Some of the mismatch between reality and the report is because the data is hard to come by, and some of it, in some cases, is intentional.

There was a study a few years ago from an association of college financial officers. They looked at the accounting procedures for athletics pro-
grams on college campuses, and their conclusions included the belief that the accounting systems used by most big-time athletics programs were particularly misleading about the expenses of running those kinds of programs, and, most of the time, intentionally misleading.

The study talked about the notion that some men's programs actually make a profit—and dispelled that notion. If you're looking at it from a business standpoint, then—Wait a second, who's paying for cleaning the stadium? Who's paying for the lights? Who's paying for all these expenses?

Dr. Carpenter tells HO it is her colleague, Virian Acosta, who has conducted research specifically on Latinas and sports, working with researcher Don Saba.

HO: Dr. Acosta, how did you as a Chicana wind up at Brooklyn College?

ACOSTA: When I graduated from Brigham Young University, Ronald Reagan was governor of California, and there wasn't one job on any level available in education for anyone. UCLA, with its huge PE program, had to let 16 tenured professors go because they couldn't afford to keep them. The whole state was pared down. So I had to start looking. And came to Brooklyn College, where I was very unhappy!

HO: Unhappy in Brooklyn? Everyone's moving back there—all that culture and energy.

ACOSTA: I preferred the wide open spaces. "I want to go home. I don't like it here...Okay, I'll stay a year. I will live up to the signed contract," Then—the salary kept going up. Promotions came quickly. And now—it's 31 years later!

HO: When you were a student, what sports did you enjoy most?

ACOSTA: In college, I competed in a lot of sports because at the time, you didn't have to select only one. Basketball, field hockey, softball, badminton—those were my preferred sports. I still play badminton, and have coached all the others as well. I've gotten into golf—and I could play it every day.

And in the 31 years at Brooklyn, no one has ever beaten me in badminton, either a faculty member or a student. I tell them, "Give me five weeks to teach you how to play at all levels—beginner, intermediate, advanced—and, after the fifth week, you can challenge me, and if you beat me, you don't have to come back to class. You get an automatic A." The guys, with their machismo, always say, "I'll take you on." And they keep track of the weeks, too! The first day after those weeks pass they say, 'I want to challenge you.'

HO: And they never win. How about the women? Do they ever challenge you?

ACOSTA: No, the women are smarter than the guys.
HO: Are you sure that’s it? That it’s not a matter of confidence?

ACOSTA: No. The women are smarter.

HO: Looking back on your long academic career in sports, did you have any Latina role models along the way?

ACOSTA: The only person that I really looked up to was Nancy Lopez. She has a reputation of being a very warm person. I’ve been on the golf course with her, and with that warmth. She is a very all-inclusive woman. She is really classy, and I like that in her. And she is encouraging to the younger players.

Of the young Latinas coming up—Lisa Fernandez, the softball player, I think—she is a very good role model. I think, too, there are more Latinas now that are playing sports. They are being encouraged more than they have been in the past.

My family was very unusual. My grandmother hated it—that I was in sports. She would see me in shorts, and she would hit my legs. “Cover your legs up! They shouldn’t be showing.” She did that until my mother finally told her, “Stop that. This is my daughter. She’s in school. She’s doing something healthy.”

Sports has given me a wonderful way to make a living, and I was the first in my family to graduate from high school. And, of course, college for them was unheard of.

HO: Where did you go to college?

ACOSTA: I started out at Los Angeles Community College. The tuition was $650—not per credit, the whole charge! I could afford that. I would take the streetcar and go to school. From there I transferred to Los Angeles State, now Cal State, L.A., but then stopped going to college for a while.

I really wanted to go to Brigham Young University. I explained to my family that my plan was to get a full-time job, saving all the money. And if my family would feed me and house me, I could go to Brigham Young. I am Mormon, and it just seemed like a place that I should be. A lot of Hispanics are Mormons now, but back then, there were very few. My grandmother was the one that joined, then her kids, so I’m third generation. So I got two full-time jobs, one with Blue Cross Insurance, the other as waterfront director for the Girl Scouts—in charge of a great, huge swimming pool at one of their camps. When the year was up, I went to Brigham Young. Got my bachelor’s and master’s there. Then I had to get a job.

The doctorate I got at the University of Southern California. Los Angeles. I did that in the summer. Seven summers to complete the doctorate. I would go home each summer to California. I couldn’t afford to go full time. Couldn’t leave the job. I could take only six credits a summer.

HO: And your doctoral dissertation?

ACOSTA: Hmmm. Critical Issues in Physical Education.

HO: Can you remember what the critical issues were?

ACOSTA: No, but one of them was women’s participation.

The statistics hereon are derived from extracts of the Carpenter/Costas research as published in Women in Higher Education, August 1998.
Even the Educational Testing Service (ETS) and the College Board, which produce and sponsor the SAT, have stated repeatedly that Proposition 16, like its predecessor, Proposition 48, represents a misuse of the SAT.

This summer, Cedric Dempsey, Executive Director of the NCAA, told the Washington Post that he planned to recommend eliminating the NCAA's controversial test score cutoffs for SAT and ACT. Related NCAA research conducted by the NCAA over the past year had shown that student-athletes who fell short of SAT/ACT cutoffs did as well in their college classes as those who scored above the cutoffs. Consistent with past NCAA findings, the new data also showed that the requirements, referred to as Proposition 16, have had a particularly harsh impact on minority and low-income student-athletes.

Critics of Proposition 16, led by FairTest, the Black Coaches Association, and presidents of the Historically Black Colleges, always have always opposed their use because of their inaccuracy and their disparate impact on certain groups.

Even the Educational Testing Service (ETS) and the College Board, which produce and sponsor the SAT, have stated repeatedly that Proposition 16, like its predecessor, Proposition 48, represents a misuse of the SAT College Board guidelines for the use of the SAT warn against such practices as "using minimum test scores without proper validation" and "making decisions about otherwise qualified students based on small differences in test scores.

In 1994, the NCAA's Special Committee to Review Initial Eligibility Requirements recommended sharply lowering the test score cutoff, but the full membership rejected that proposal and imposed even stricter requirements.

Throughout the history of these controversial initial eligibility rules, a core group of college presidents, backed by the Knight Foundation, has resisted efforts to modify the test score requirements. Despite the face of contrary research findings, test-maker warnings, and NCAA committee recommendations, the NCAA decided not to make any changes, despite the disparate impact on minority low-income students," said Rooney. "They are just going to leave the current rules in place, which means that it is going to be determined by the court case." Rooney told HO that the suit is to go to trial in May of 1996.

"The plaintiffs have filed a motion for summary judgment," he said, "and will be arguing that in a memo that the NCAA sent out to its members this summer asking whether they should change the Proposition 16 test score requirements, the NCAA acknowledged that the rule had a disparate impact on minorities, and they put forward three possible alternatives, all of which would have a less disparate impact, and would have little impact on projected graduation rates. The lawyers for the plaintiffs are arguing that this actually makes their case."
Life Is More Than a Sport
A Latino Athlete’s Case History

BY
ADALYN HIXSON

"It was remarkable—the 100th anniversary. We had people from London visiting. A man in his nineties came out. Robeson’s name and his life just bring out all types of joy."

C. KEITH HARRISON,
FOUNDER-DIRECTOR,
PAUL ROBESON
RESEARCH CENTER FOR
ACADEMIC AND ATHLETIC
PROWESS, UNIVERSITY OF
MICHIGAN

There are not a whole lot of middle linebackers who are delivering babies," says Dr. C. Keith Harrison, founder and director of the Paul Robeson Research Center for Academic and Athletic Prowess, University of Michigan, where he is also a tenure-track assistant professor.

The middle linebacker of whom he speaks is his boyhood friend Liberato Mukul, now a resident intern at Kaiser in San Francisco. "While I was at a conference in San Francisco, I went and got him at the hospital. My parents were just in tears to see him as a doctor now."

An uphill road to success is indeed poignant. And the path taken by Liberato Mukul was a nontraditional one, a road less traveled. Dr. Harrison presented the story of his friend’s experiences, "Latinos in Sports, A Case Study. Liberato Mukul Still Carving His Niche," at an annual meeting of the North American Society for the Sociology of Sport.

At the time, Harrison was assistant professor and student-athlete consultant in the College of Education at Washington State University, Department of Kinesiology and Leisure Studies. The presentation is reprinted below, as is a personal statement by Liberato Mukul and relevant excerpts from his curriculum vitae. Together they provide a compelling picture of a Latino achiever.

Harrison, too, is extraordinary—utterly committed to humanitarian service and eager to work on behalf of Latinos as well as African Americans.

Harrison told NHO that he knew of only four scholars writing on Latinos and sports besides his mentor, Richard Lapchick.

Harrison says that starting the Paul Robeson Center was "part of the package" when he left an associate professorship at Eastern Washington University to enter a tenure-track line as an assistant professor at U.M. It was a unique situation, he said, joining the university in year 99 of Robeson’s birth to direct the Robeson Center.

"It was remarkable—the 100th anniversary. We had people from London visiting. A man in his nineties came out. Robeson’s name and his life just bring out all types of joy."

"There were over 2,000 celebrations. Mine was the only one to emphasize his legacy as a scholar-athlete. When they talk about the image of Robeson, they always show him as an athlete. But he was four times the debate team cham-
-

462
football picture. So when I made my sign [for the center], I had him sitting down. I put football second. And I am a former football player. He has really moved my life in so many ways.

Athletics and education—they are binary. But kids don't get the message that education goes with athletics.” Harrison says he sometimes gets mad that it has taken 100 years for Paul Robeson to receive the widespread public recognition he deserved, but then friends say to him. Well, Keith, if you hadn't opened the center, on our campus, it might be another hundred. The Robeson Center is funded by the Office of the Associate Provost for Multicultural and Academic Affairs.

“They definitely have helped out a lot,” says Harrison. “What we want to do is research those scholar-athletes. And what about when they don't go on to school?”

A main thrust of the center at this time is creating positive images of scholar-athletes, he says.

“I collaborate with our athletics people. This year, for example, we have a junior who wants to be a doctor, too, so if I took a picture of him, it would show him with his football pads, but he would have his ‘medical pads’ too. Life is more than a sport.”

Both Harrison and Liberato Mukul grew up in Cerritos, California, “35 minutes east of LA. The last city before you get to Orange County.”

“I played football for West Texas State, then came back to California, got a master's at Cal State-Dominguez Hills, a master's in physical education. Then in 95, a doctorate in higher ed from University of Southern California,” says Harrison.

Harrison was on the faculty at Washington State for two years before moving to Michigan, where he teaches a class entitled “Race Relations, Cultural Images, and Sport.”

“What I'm happy about is that I'm really beefing up that Latino thing, and this year I have off for research. When I go back, we are definitely going to talk about McGwire and Sosa. And the neglect of Sosa, Freshmen students. So many of them came up to me to say they could see the discrepancy in the way the Latino player was neglected. Now McGwire has this commercial, and Sosa doesn't…. As Lapchick has often mentioned. Hispanics are excluded and marginalized just like African Americans. And I'll bet you half of the starters in baseball are Latino. I'm waiting on that statistic.”

Harrison says that while his center focuses on race, especially African Americans, he is very eager as well to do something about society's neglect of Latinos. Shortly after interviewing Harrison, on goes the television set. Within minutes up comes McGwire on the screen in his commercial for a leading fast food chain. A few feet away, on a footstool, is a newspaper, The New York Times, opened to a story about the loving reception given Sosa by his people in the Dominican sector of New York City, a hero's welcome of another sort.
Latinos in Sports. A Case Study: Liberato Mukul Still Carving His Niche

by Dr. C. Keith Harrison

Since the advent of the sporting establishment, leadership positions in sport (pitcher, catcher, point guard, quarterback, free safety, center, and middle linebacker) are characterized by the individual's cognitive skills, competitiveness, intelligence, and leadership capabilities. Typically, African Americans and Latinos are not highly encouraged to perform in these roles while participating in sport. This strongly reflects society itself, as numerous individuals from underrepresented groups experienced the same conflicts when seeking positions of leadership in our society. This study is an oral history of Liberato Mukul, who is a former all-star student-athlete, and his account of middle linebacker, medical school, and life. Liberato, who received honors in high school both on and off the field, is on track for his Doctor of Medicine in May of 1997.

Early Beginnings

Liberato Mukul's first experiences of sports began with a strong desire to play organized Little League and Pop Warner football. Lee (Liberato) quickly learned the realities of economics and sport. His parents explained to him that it was too expensive for their family to enroll him in these activities, and that if he played, soon his two brothers would follow. This would double the initial cost, thus further debilitating the situation.

With this happening, Liberato began the world of sport and recreation centers and parks, at the age of eleven. While still passionate about organized sports, Liberato refused to complain to his parents, but rather made the best of the situation. This theme would become a foreshadowing and protective paradigm that Liberato would follow for years to come.

High School Sports

Through the influence of a junior high classmate, Liberato was persuaded into playing freshman football. His first experience ever of tackle football (Cerritos High School, Southern California suburban area). While a standout at linebacker on defense, Liberato seemed out of position at offensive guard. This wasn't because Liberato was blocking well, but rather he seemed to have an instinct for finding a hole whenever given the chance to run. This was the same instinct he had for finding the ball carrier when tackling them from his linebacker position.

With the season about half over, Liberato's friend at offensive center co-authored manuscript encouraged Liberato to ask the coach to switch him to running back. They both asked, and soon Liberato was rushing through the line for big-time yardage. He also received Most Improved for that year.

Things would only get better for Liberato. After playing junior varsity his sophomore year, Liberato received Co-MVP honors, as both recipients placed running back and linebacker. Liberato reflecting on receiving such an award, "I felt good that I could contribute to the team and that my teammate and I led the team in a positive way. It felt good to be recognized as achieving at standards as high as Most Valuable. This gave the more confidence to achieve academically."

This propelled Liberato to a starting role his junior year on varsity. At linebacker, Liberato would also play in the shadow of another linebacker, who was expected to receive All-League honors. "A funny thing happened on the way to the forum. Liberato was the one to receive All League honors, not the other. This is extraordinary when one considers that Liberato's own head coach did not even nominate him for the honor. Liberato had earlier that year been "in the zone" (Ravizza, 1995). This is what many sports psychologists define as "peak performance." The team in which Liberato had the best game of his life, Paramount High School, nominated him, and thus he was unanimously voted All-League.

Lee reflects on his junior year, "Our head coach and I never got along well, and he truly favored the other linebacker, who was the all-American type white male. Our coach always seconded me, tried to change me, and was Latino himself. With all this in mind, I was surprised when it was announced in homeroom over the intercom that I had received All-League honors. I felt bad for the other linebacker, but at the same time I knew I had played well and deserved it."

In the game of Liberato's life, he recorded somewhere between four and seven sacks, over ten tackles, and instinctively bluffed in to sack the quarterback on his own. "Our linebacker coach had given me the go-ahead at that game, and I took advantage of it."

College Sport a Reality?

Liberato would go on to have an outstanding senior year as well, making All-League, All-Area, and All-Region teams. Still, college was not a plan Liberato had entertained. His counselor was "a nice lady," as Liberato put it, but never really pushed him in the direction of higher and post-secondary education.

Liberato continued his job at Price Club (surplus market) and even practiced for two weeks with Cerritos College in the spring. "I liked the program, but with two broken wrists from football, I didn't feel I could contribute to the team both physically and mentally. I was a good student, though, and thought that would be valuable to the team in many ways."

Liberato saw Cal Poly Pomona as the next option, as he liked the field of architecture and Pomona had one of the best programs in the country. This option fell through, however, as Liberato never found a means to "fulfill his desire," as he put it. He received very few positive responses, and only a $400 scholarship that would barely cover books.

Liberato went on to ITT, an electronics school, but felt the narrow and linear curriculum left much to be desired. "I didn't like ITT, but I got an A average, as my inner theory was to excel at whatever I engaged in. I also received a 90 percent California Grant that year which paid $4,400 of the $5,000 my fees came to."

Liberato enrolled in Cerritos College the next year, and mastered the work-school cycle to near perfection. "It was difficult, but I saw it as a good means of building other skills. Liberato would later receive his
Associate of Arts degree with a GPA of 3.5. His degree had a heavy concentration in business, which he felt was applicable at work. "The skills I was developing were leadership, divers, communication, etc., and I had various tasks to perform (stocking, stacking, cashier, and supervising)."

Liberato would bounce from Cal State-Fullerton to Cal State-Long Beach, experiencing different majors. He found his niche finally—Nutritional Science! Liberato would receive his bachelor's of science degree after what many consider eight long years, but Liberato has some reflections for "traditionalists." "I wouldn't change a thing. It simply took me seven or eight years to find myself—life and social skills. My route was the best—through family, work, and school, which allowed me to strive to be a leader, not a follower. The way I see it, my lengthy timeline in school is considered nontraditional—but many students of color are not traditional students to begin with!"

Reflections

Liberato feels that not all Latino and African American students are as fortunate as he, to make it through "the cracks," "Some persevere, but a lot are on the wall. Like I was, but something inside motivated me for SUCCESS! All the bumps and curves I had to deal with on my own were very worth it in the long run, but I did not have a very supportive cast."

"Each mainstream adult in a leadership position was not positive to my situation, and access to role models was not available to me."

Liberato reflected on what his fate might have been if he had been a student-athlete. "It's a scary thought. My road was good. By working with my community, I was more in touch with the social/political climates of our society. My long road made me more concerned, and thus with a true desire to inform others."

Implications for a Rising Culture

Liberato sums up his vision: "Perseverance and hard work are the keys, and one must know what to do once they arrive. I feel that I will make a significant contribution and difference to Latino student-athletes on the subject of academics and athletics. I see our situation [the Latino community] the same as African Americans, as we are not looked at as leaders or scholars. We are marked as one aspect in sport. and Latino student-athletes must find homogenous leaders [e.g., professors, doctors, lawyers, etc.]. These people want to help, and if they are not available, find other groups of people to help you."

"We need information as a people; because the abuses [in] higher education and sport are plentiful. It is not enough to want to—one must know how to. These are the very words that allowed me to carve my own niche. When we are awarded an opportunity, such as a scholarship, we must take advantage of it, whether we realize it or not. We must take advantage of their system and not obtain an education both informally and formally...is a big loss. We must 'tap' the system, work with it, and make it work for us."

When one considers the odds of a person's making it to medical school in our society, the likelihood is nearly obsolete. Adding factors of race, ethnicity, culture, resources, athletic constraints, and support makes Liberato a niche that everyone should want to carve after!

Liberato without question experienced some cultural barriers over the years but feels that La Familia has "stepped up" since medical school.

"I think they see that I am on a specific track for a clear outcome and all are happy that I am doing something I love—learning and working with people, especially my community."

Liberato never forgets what his mother told him when he was one of the only students at Cerrios High School who did not receive a class ring after earning good grades. "Good grades should be all the compensation one needs; one does not need lots of extrinsic rewards."

Liberato took this statement to heart, as all can see.

Liberato Mekud's curriculum vitae reflects extensive participation in extracurricular activities, involvement in mentoring programs and Hispanic organizations. Induction into many honor societies, receipt of scholastic awards and honors, volunteering in the larger community, and nine years working at the Price Club Warehouse.

He cites the lyrics of Ruben Blades: "Tengan Fe" as "the essence of my commitment to medicine."

"One who does not search never finds. One who does not listen never learns. One who does not try fails, in spirit and mind. Have faith; for this does not end here. Believe in faith, for there is a reason for living."
Ríos Executive Director of Leading Hispanic Health Association

Washington health policy expert Dr. Elena Ríos has become the executive director of The National Association of Hispanic-Serving Health Professions Schools, which represents 15 medical schools across the nation with 6 percent Hispanic student enrollment.

Ríos, a key health advisor for Regional & Minority Women's Health for the U.S. Department of Health and Human Services Office on Women's Health, joined the association in October. She works with White House and national health groups.

Association Board Chairman Ruben Lourenco, M.D., who is dean of the UMDNJ-New Jersey Medical School in Newark, N.J., said Ríos has proven herself a health professional of the highest order.

Ríos will build on the association's growing reputation as a leading voice in the national health policy arena and the academic medical community.

"We want to make sure that when a Hispanic family calls on a doctor, there are enough Hispanic doctors to answer that call," Ríos said. "We can't do that without increasing the number of Hispanic students in medical schools, and we can't do that without making sure they have the resources like grants, fellowships, scholarships, outreach projects, and mentoring programs."

Romero to Address USC Fall Grads

Representative Gil Romero, D-Colorado, will deliver the commencement address to the University of Southern Colorado's 1998 fall graduating.

Romero will return from the Colorado House of Representatives when his term expires January 1.

During his legislative tenure, Romero sponsored and passed legislation creating the first-ever Colorado Higher Education Savings Bond. He also sponsored legislation designating a funding source for job training administered by community colleges and co-sponsored legislation creating customized job training.
