The report discusses the winter 2000 student satisfaction survey at Rogue Community College (RCC) (Oregon). The annual survey is an important tool by which the college measures its achievement in the areas of services, classes, and facilities. The primary purpose of the study is to obtain feedback from attending students regarding the issues that impact their ability to focus on learning. It includes representative verbatim comments and suggestions for improvement. The Institutional Effectiveness Task Force (IETF) oversees the development, administration, and tabulation of the survey, as well as distribution of the survey management reports and recommendations to appropriate RCC managers. In both ABE/GED surveys, the areas of primary interest are the same: access to information about RCC (services and programs offered); getting started in ABE/GED (registration, orientation, assessment, etc.); and attending classes (time, location, class schedules, parking, etc.). On the whole, ABE/GED students are satisfied and enthusiastic about their learning experience. Most students like their instructors and believe the faculty and staff are helpful, friendly, and supportive. INTRODUCTION

Background and Purpose

Rogue Community College's annual Student Satisfaction Survey is a primary tool by which the college measures its achievement in the areas of services, classes, and facilities. The primary purpose of the study is to obtain feedback from attending students regarding the issues that impact their ability to focus on learning.

The Winter 2000 version of the Student Satisfaction Survey is the fourth survey in the series college-wide (the first survey occurring in Fall 1997, followed by Spring 1998 and Fall 1998), but it is the second time that the ABE/GED Program has been included (the first time being Fall 1998). In both ABE/GED surveys, the areas of primary interest are the same:

- **Access to information about RCC (services and programs that we offer)**
- **Getting started in ABE/GED (registration, orientation, assessment, general information, etc.)**
- **Attending classes (time, location, class schedules, parking, etc.)**
- **Other comments/suggestions for improvement**

The Institutional Effectiveness Task Force (IETF) oversees the development, administration, and tabulation of the survey, as well as distribution of the survey management reports and recommendations to appropriate RCC managers and others. Following distribution and presentation of the management reports, managers respond to IETF with action plans and progress reports based on management report recommendations.

Other versions of this Student Satisfaction Survey are conducted at the Redwood and Riverside Campuses in Josephine and Jackson Counties and at the Workforce Training Center at the VA Domiciliary in White City. Separate management reports are generated for RWC/RVC and the WFTC.
INTRODUCTION (cont)

Methodology

Questionnaires and instructions for survey administration were given to instructors at the six ABE/GED sites, three in Jackson County and three in Josephine County, as follows:

Jackson County
- Fir Street Learning Center (FSLC)
- Market Street Learning Center (MSLC)
- Workforce Training Center (WFTC)

Josephine County
- Downtown Center (DTC)
- Illinois Valley Learning Center (IVLC)
- Redwood Campus (RWC)

Students completed the surveys during class time during the first week of February in Winter quarter, 2000. A total of 120 questionnaires were collected from the six ABE/GED learning centers. Refer to the Sample Summary at the back of this report for more detail on sample composition. A copy of the questionnaire is also located at the back of this report.

Analysis

This Management Report provides findings for the Winter 2000 Student Satisfaction Survey for ABE/GED learning centers. Results are analyzed by total ABE/GED (data from all sites combined), by total Josephine and Jackson Counties, and by individual site for comparison purposes.

Following the Executive Summary and Recommendations sections, data tables and representative verbatim responses to the open-ended questions are presented.
EXECUTIVE SUMMARY

In all areas surveyed, across all sites and both counties, positive responses far outnumber negative comments or suggestions for improvement. On the whole, ABE/GED students are satisfied and enthusiastic about their learning experience. Most students like their instructors and believe the faculty and staff are helpful, friendly, and supportive. The relatively few negative comments and suggestions for improvement center mainly on easier access to information, confusion with getting started, parking at some locations, and a desire for more classes.

IVLC, WFTC, and RWC students seem generally most satisfied among all areas surveyed, offering few negative comments or suggestions for improvement. FSLC and the DTC show the highest levels of negative comments or improvement suggestions, while the MSLC exhibits a somewhat lower proportion.

Access to Information about RCC

- Comments in this area are generally positive across all sites. Most students have no trouble accessing needed information about RCC, and they generally find the information to be helpful and complete.

- At the FSLC and the DTC, there is an indicated need for better dissemination of information about RCC and its services and programs – in contrast to the other four sites, where virtually no student finds access to information less than adequate.

- When there is a problem with adequate access to information, the trouble generally centers on locating the information and not with the completeness of the information.

Getting Started in ABE/GED

- At all sites, most students are positive about the ease of getting started, citing especially staff helpfulness and encouragement. Some students are apprehensive when they first get started, but the process soon puts them at ease.

- Most negative comments center on feeling confused, or possibly overwhelmed, in some way. Other comments mention assessment tests and the cost of tuition.
EXECUTIVE SUMMARY (cont)

Attending Classes

- By far, most comments about attending classes are positive. Times, locations, and schedules are good for most students, and they are generally satisfied with their instructors and the quality of their education.

- Parking is the overriding issue affecting class attendance, especially for the FSLC, MSLC, and DTC.

Other Comments/Suggestions for Improvement

- Across sites, 72 students offer additional comments or suggestions for improvement. Most comments are positive, expressing appreciation for the program and the presence of RCC, for the friendliness and helpfulness of the faculty and staff, and for the heightened self-esteem that success in the program brings.

- Suggestions for improvement center primarily on a desire for more classes, better food service, and walls on the gazebo at the DTC.
RECOMMENDATIONS

As these recommendations and the verbatim comments are reviewed, one should keep in mind that, in many cases, the comment was made by only a few or less students. However, many students may not voice their thoughts, so all negative comments or suggestions for improvement should be considered and not necessarily discounted. The recommendations that follow focus on the most outstanding issues that may be acted upon.

**FSLC, MSLC, DTC**: Consider ways to make information about RCC and its services and programs more readily available to students, especially financial aid options.

**FSLC**: Examine the completeness of the information that is made available to students.

**MSLC, IVLC, RWC**: Consider ways to further reduce confusion among students during the process of getting started in the ABE/GED program.

**MSLC**: Review how assessment tools are presented to students to enhance understanding and acceptance of the role these tools play.

**FSLC, MSLC, DTC**: Examine the parking situation, and make recommendations to RCC administrators and/or students.

**DTC**: Erect walls on the student gazebo. Consider developing a snack bar on site.

These comments represent approximately 90% or more of all written feedback, given with spelling and punctuation edited, but otherwise left unchanged. Certain comments (when limited to a single word, or a clear duplicate of ideas already presented) have been eliminated for reasons of length. Because of the frank nature of many of these remarks, it is understood that this material is to remain an internal document, with circulation limited within divisions to those who have the responsibility for making appropriate adjustments to improve institutional quality.
Question 1: Adequate Access to Information about RCC

Fir Street Learning Center

This program has helped me a lot with my English. I like to use the computer and have someone to answer my questions. I have improved a lot since I started as an ESL student.

I am satisfied with the information on RCC. I have adequate access to any information.

Access to information was very good for the ones that care.

I had no problem finding literature about RCC.

I have been given more than adequate help and information about RCC and its services. I am very happy about all the help I have been given.

I feel like I can get all the information I need. There is always somebody that answers all my questions.

I received good information and service.

I feel that the information about RCC is very easy to get a hold of.

The access to information was very adequate, no problems.

Every problem I have, they have a way to solve it, through personal help, computer books, or even videotapes on science and social studies.

I'm pleased with the whole staff at RCC. Anytime I have questions about classes, they seem to always have an answer, or if they don't, they ask other people.

Yes, I have access to RCC and all its opportunities. I like having access to the drinking fountain, and the bathrooms are clean.

Everything and everybody was getting information to me in a nice, prompt way.

Access to information was very good and adequate programs.

Access to information is very good. The services I have received and the programs are great.
Question 1: Adequate Access to Information about RCC (cont)

Fir Street Learning Center (cont)

I feel that we need to get more information on RCC out in the community so more people can attend. I'm fairly new here, but I really enjoy the program so far. I'd like to know more about RCC and how it can help me further my education.

I want to know about how to prepare for college.

The access to information is easy and very accessible, but some students like myself would rather study at home. Why can't some of the books be available to check out?

Rogue Community College's GED program and Learning Center need to have more access to financial aid information. The instructors have the student go over to the lounge building. It would be nice to have a representative come over and talk about higher education.

Services and programs that you offer are okay so far, but probably [RCC] could offer a bit more.
Question 1: Adequate Access to Information about RCC (cont)

**Market Street Learning Center**

Very adequately done – you definitely know all of your options.

It has helped me a lot on my math and reading, and I hope that someone else says that it also has helped them.

Very well informed, not too out of order, everything is in place.

Access is quite good – instructors are good at giving information when asked.

As far as I know, yes, it seems adequate.

I feel that RCC is very accessible.

The programs here at RCC that they offer are reading, math, social studies, and science, and even to get your GED.

All instructors have been extremely helpful with information on continuing my education.

I think the information about RCC is great. I feel I am learning a lot from this class.

The services and programs that you offer are really very helpful to people that have special needs and need help to improve skills and to acquire knowledge. This program of the government is very important because it educates and improves our skills.

I have had no trouble locating information that I needed.

I believe that the resources here about school all around are adequate. There is the Internet, books, a lady that comes in on Thursdays, and there are all different kinds of resources to be used, and I believe this is a great school!

I think that RCC services are really good, and it was very helpful to me that I get to come here and "up my skills."

I think RCC is a great asset to the community.
Question 1: Adequate Access to Information about RCC (cont)

Market Street Learning Center (cont)

Yes, your services, information, and access are very good.

I find everything is very good. The programs offer so much for my future and me.

The information on RCC was very helpful.

I like the service that I get at the Learning Center and helps me on the area I need it.

I think there should be more said about what you do in the newspaper because a lot of people don't know what you do unless it is from the employment office or someone who has taken the classes tells them.
Question 1: Adequate Access to Information about RCC (cont)

Workforce Training Center

Yes, they have given me adequate information on everything I have asked about.

I was able to access information easily on the phone and Internet.

I think your information about RCC programs is very good.

Access to information is very good.

It's a very good program, and it's helping me learn what I need to know.

Yes, lots of information here.

Don't change it, it works!

Yeah probably, since this is an RCC outlet and all.
Question 1: Adequate Access to Information about RCC (cont)

Downtown Center

Information has been openly provided for me.

I know enough; my mom and I were pleased.

Yes, I just looked at the phone books.

It is easy to get information.

I think you give the right amount of materials I need.

It's a good college, and the programs are a good thing for kids.

No, I have not heard adequate information on RCC, but I'm not curious about the information.

No, I don't know what they have to offer.

No, I haven't been told.

No, I have not really been told about any RCC programs.

Information is accessible to student who ask for it. I believe that more postings of information should be out in the open though.

Question 2: Getting Started in ABE/GED

Fir Street Learning Center

Getting started into this program was a lot easier than I thought it was going to be. I was nervous at first about coming here to get my GED. I didn't know what people would think of me or if I was going to be judged, but it wasn't like that at all. There are people here of all ages, and everyone takes time to say hi.

I have been here for a long time. From time to time, it has been easy to come back and start again.

I had no problem getting started. Staff is helpful and made it easy for me to feel comfortable.

She was friendly and made you feel good about yourself.

GED, the registration, and everything were done so I could understand.

I like the way they treated me. It was very clear what they said I had to do.

I thought everyone was so friendly and always willing to help.

Well, it's up to you to get started, but everything else was okay.

Everyone was very helpful.

Getting started was very easy by all the helpful instructors on the floor when I arrived. I was made to feel very welcome.

I think it's great that somebody walked me through the building and showed me where everything is.

Orientation was very helpful, and people were very nice.

I was welcomed very nicely, and I was happy to get all of the tests done on the first day.

Easy, yes. It was casual and fun.

Registration: If you are going to register, it's important to be down here to make good use of your time.
Question 2: Getting Started in ABE/GED (cont)

Fir Street Learning Center (cont)

For me, this was perfect and helpful.

Getting started in the whole works did a great deal for me. I am glad I chose to be here.

Registration, orientation are steps of just getting started. There's no complaints in any way for the GED classes or studies.

Everything went smoothly. No problem getting information at all.

During orientation, the staff was very informative.

The instructor helped with registration, orientation, and assessment. I believe that the Learning Center needs to have more general information on financial aid and higher education.

I wasn't intimidated by the test, but many people are. I believe it might be better not to scare people away with testing, and make it a more relaxing and pleasurable experience. Once they are relaxed and "interested," go for the nitty-gritty.

I recommend that an area in the Learning Center be set up for information on financial aid and other schools that students can attend in the future.
Question 2: Getting Started in ABE/GED (cont)

Market Street Learning Center

The starting process for the GED was very easy, and the help was really great. Sue Miller made all of this very easy to understand.

Easy.

Getting started on my GED was made to be very simple – and I really wanted it to be that way.

I'm here to learn my math skills and work them up.

Totally organized, good positive output on everything above.

Well done.

I am just getting started in the program, but so far it seems all right and understandable for me in the areas that I am weak. It is very helpful; I am learning things that I have never known before.

People who are not getting a GED or ABE usually need a refresher.

Before you want to take your GED, take the orientation, and then some tests, and register too.

I feel that when I started here, I was very welcome, and I felt very comfortable with all that was done.

Getting started in GED/ABE is very accessible. The staff and teachers are a great help, and they are approachable at all times.

The instructors are very helpful in getting started in a course study and helping you understand when you have a question.

I got all my general information right away. I went to my orientation and was started right up. Thanks to everyone, my transaction went smoothly, and I felt right at home.

I found it very hard to take the first step, but since then, I have not regretted taking that step. I have had quite a lot of help and encouragement.

Again, very helpful and informative.

It was easy. Everyone helped with any questions or information I needed.

It was very fast and easy.

I went to the OASIS class to get started with help so I can go to school to be a phlebotomist.

Question 3: Attending Classes

Fir Street Learning Center

I really love the enthusiasm that is shared by the instructors. Peggy and Steve make learning fun and not tedious. I look forward to seeing them and learning from them. Math has always been intimidating for me – I now want to be in class and participate.

The staff has been great at giving me information and assistance with everything.

For me to concentrate on what I'm doing, it takes a quiet facility, and in my area of conflict, a lot of help. Everyone here at RCC is very patient and easy to communicate with and help me understand when I get confused or don't understand something I'm working on.

I only have one class, but I am enjoying it. It was easy for me to adjust to where my class is, what time, and who my classmates are.

The schedules were what I needed.

Attending classes for me is so convenient; I choose the hours that best work for me.

Very good, the time and all above.

The time is okay; parking is great, no problem with schedules or parking.

I enjoy the classes, and the times are awesome.

I really like the schedules, especially evening classes. Location and parking, I don't see a problem.
Question 3: Attending Classes (cont)

Fir Street Learning Center (cont)

No problem with finding times to fit my schedule, easy to find location, and parking is great.

I attend night classes because I work and have a child. The hours they stay open and the location come in very handy. I would have not been able to get my GED without it—everyone is very nice and extremely helpful, and since I attend evening classes, parking is never a problem.

Time is perfect with evening class, with my schedule. No complaints about location.

I like to have sometime classes in Phoenix, more parking, and more scheduled classes on other subjects such as social studies, science, and reading.

I like the times; location and parking are all right for me. Well, parking is sometimes a bit difficult depending, I guess, at what time we arrive.

Parking is a little crowded sometimes.

Need a better parking lot.

I would like my classes longer and in different classrooms.

The instructor that holds GED class should be able to give students credit for successfully completing the classes. These classes can't be used on college transcripts.

I feel you should be able to make your own hours.

Things could possibly be bigger.

This building has more room; it's more convenient for studying, parking, etc.

I'm not really good when it comes to reading and talking in class; it's hard for me.

Classes are okay, but maybe we should get classes that will improve our schooling or just a bit more explaining toward students.

Market Street Learning Center

The teachers are very helpful.

I have been here a very short time, but all he instructors have been helpful and encouraging. Thank you to all of them.

All of the instructors are helpful.

The staff is very helpful and supportive. Thank you.

The class is very laid back, and it is easy to think and learn here. The counselors are very helpful in every way possible. I really enjoy coming here to this place for my GED.

The time and location are good and close for me. I think if they're going to do something with the parking, we need more space to park.

I can only take the learning class when I can.

I know it's hard, but I think the classes in math need to be longer. Not just every six weeks and start over. George is a great teacher. He makes it easy. If you miss a class, it's hard to catch up. The girls are all great at the Learning Center. They are a big help in everything.

I think we may need to get more parking spaces as this area keeps growing.

I just can’t seem to find enough time to do all I want – to participate more. That's only because I'm wanting to put too much on my "own plate."

I wish they had other courses like photography, but I can't really complain; they have come a long way since they started at RCC.

I don't like other people talking in the classroom while I'm sitting.

I think other vending machine fillers should be available, healthier snacks, and maybe a cocoa machine with soup and coffee.

RCC is the best thing for your future, and the people here are excellent. They like to work with you and be very helpful, too.

This is not a comment, but only a wish. The government should continue to support this program because it helps a lot of people in this country.

I think this is the best school I have gone to. The first one I went to was in Phoenix, and it was overcrowded. I believe this school is perfect. It is a beginning school to up your skills and move on. Also, everyone around has a great attitude and very uplifting. Thank you.

Individual help that you get from all is very reassuring to all of us.
