This document is part of a five-module training package to help employment and training service providers comply with the Workforce Investment Act (WIA) of 1998 and develop a one-stop training and employment services system. It contains the participant workbook, trainer manual, and activity worksheets for a module on collecting and using customer feedback. The training manual presents a detailed lesson plan that includes step-by-step instructions for using the following tools and techniques to deliver the module: presenting overhead slides, having participants complete exercises; writing information on flip charts; using small group discussions; and using full group discussion. The workbook activities and worksheets are designed to help participants understand why customer feedback should be the foundation for designing a responsive service system and to teach participants to collect and analyze customer feedback. Participants are presented with a four-phase customer feedback collection consisting of the following actions: (1) prepare to collect feedback by identifying services
and/or products, customer values, customer requirements/attributes, and product features; (2) use qualitative and quantitative techniques to collect proactive and reactive feedback; (3) use qualitative and qualitative methods to analyze feedback; and (4) utilize customer feedback in policy and procedural decisions, to make individual daily improvements, and as part of a continuous improvement system. (MN)
Partnering for Quality under the Workforce Investment Act: A Tool Kit for One-Stop System Building

Module 3: Collecting and Using Customer Feedback

Trainer Manual with Participant Workbook

Module 3. Customer Feedback

Trainer Manual Guidelines

This manual provides a step-by-step approach to training on Collecting and Using Customer Feedback. This session is the third in a series of five training modules designed to help local workforce development agencies collaborate to improve customer services. The complete curriculum on Partnering for Quality under WIA includes:

- Module 1. Reviewing System-Building Progress and Developing a Blueprint for WIA Transition
- Module 2. Partnering and Organizational Change
- Module 3. Collecting and Using Customer Feedback
- Module 4. Designing a System for the Delivery of Integrated Services
- Module 5. Building a Process for Continuous Improvement

Each module has a series of companion products. In addition to this trainer manual, products developed for Module 3 on Collecting and Using Customer Feedback include overhead transparencies and a student workbook.

The best place to start with this guide is to read it through once. The guide is designed to be easy to understand. Following are points for reading and using the guide.

Sentences typed in **bold italics** are intended to be said by the trainer to the group.

- Sentences with a bullet in front of them are action items that the trainer needs to do.
Module 3. Customer Feedback

Icons on the left hand side of the guide provide a visual view of the type of activity that is taking place. The Icon Key is provided below.

- Use overhead slide.

- Have participants complete exercise.

- Write information on flip chart.

- Use small group work/discussion.

- Use full group discussion.
Module 3. Customer Feedback

- Write "Welcome" and your name and phone number on a flip chart at front of room prior to attendees arriving. Also include your e-mail address if you have one.

WELCOME! I'm glad you could be with us today.

- Introduce yourself and give a brief description of your background and qualifications to lead this training module.

- Put on title overhead for Module 3.

**SPR**

SOCIAL POLICY RESEARCH ASSOCIATES

Partnering to Improve Customer Services: A Tool Kit for Workforce Investment Partners

Module 3
COLLECTING AND USING CUSTOMER FEEDBACK

This session will cover the material in your Participant Workbook under Module 3. Collecting and Using Customer Feedback.

- Put on Overhead 3-2.
Module 3. Customer Feedback

Customer/Provider Activity

Purpose

• To learn the importance of using customer feedback to develop a product.

The purpose of the beginning activity is to learn the importance of using customer feedback to develop a product.

• Put on Overhead 3.3.

• Display one bullet point at a time.

Customer/Provider Activity

Instructions:

• Find a partner—Designate one person as "A" and one person as "B." "A" s play the role of the customer; "B" s play the role of the provider.
• The trainer will hand out picture to "A" s.
• "A" s will review a picture and develop a one-word description of what they want "B" s to draw for them.
• "B" s have 2 minutes to draw the picture based on the one-word description.

• Display the first point on the overhead, and say:

Find a partner. Decide which of you will be partner "A" and which of you will be partner "B."
Module 3. Customer Feedback

- After you have given them time to do that, ask that the “A’s” raise their hands. Then have the “B’s” raise their hands so that you can determine that everyone has a role. If there is one person without a partner, have them join another group and designate 1 “A” and 2 “B’s.”

- Display the second point on the overhead, and say:

_The “A’s” will play the role of the customer and the “B’s” will play the role of the provider._

- State that all of the “A’s” (customers) need to come to the front to receive a picture. Distribute blank sheets of paper to the “B’s” (providers). Once the customers have the picture, have them jointly—but without the “B’s” hearing them—determine a one-word description for the picture. Once they have come to consensus on that one-word description, have them return to their seats while keeping the picture secret from the provider.

- Display the third point on the overhead, and say to the “B’s” (providers):

_The customers are going to ask you to draw a picture. The objective is to make a drawing that looks like the picture they are holding. However, they are only going to give you a one-word description of the picture. Do your best. The point of this exercise is not to see who is the best artist, but to get the best likeness (key features) of the picture that is held by the customer._

- Display the fourth point on the overhead. Tell the providers that they have two minutes to draw the picture. Set the timer for two minutes. Make sure no other communication happens between the “A’s” and the “B’s” while the “B’s” are drawing.
Module 3. Customer Feedback

- Put on Overhead 3.4.

- Display one bullet point at a time.

Customer/Provider Activity

Instructions, Continued

- "A's review drawing and determine if it meets their criteria.

- "A's provide additional verbal feedback to "B's and use the next 2 minutes to help them to create the picture they require.

- Debrief the process.

- Display the first point on the overhead and tell "A's" to review the picture drawn by the "B's." Have the "A's" determine if it is exactly the same as their secret picture.

- If not, display the second point on the overhead. Instruct the "A’s” to provide feedback and all the necessary information to the "B’s” to insure that the picture drawn by the “B’s” is exactly like the secret picture. Set the timer for 2 minutes.

- Display the last point on the overhead and help the participants debrief the process.

- Facilitate group discussion on the activity they just completed.

- Put on Overhead 3-5.
Module 3. Customer Feedback

Customer/Provider Activity

Review Questions

- "B's" - When you were unable to check with your customer, did you provide the product they were expecting?
- "B's" - How did you feel/what did you think without information from your customer? Was it hard or easy to know what to draw?
- "B's" - How did you feel/what did you think when you worked with your customer? What was easy? What was hard?

- "A's" - Did you get what you expected with the first picture?
- "A's" - What difference did you find when you were able to communicate with the provider as they were drawing the picture?
- As a customer (A), is your input important to get what you want and need? As a Provider (B), do you need the customer's input to know what the product should look like?

- Ask the questions on the overhead to the appropriate parties. Use the feedback from the "A's" and "B's" to determine how they felt doing the activity and what they learned.

Drawing pictures is not as complicated as developing a One-Stop center or system. The activity you have just completed makes it clear that in developing a One-Stop system it is even more important to have as much customer input as possible, so the "picture" comes out looking like what the customer has in his/her mind.

- Put on Overhead 3-6.
Module 3. Customer Feedback

The Customer's Perspective

When one has no stake in the way things are, when one's needs or opinion are provided no forum, when one sees oneself as the object of unilateral actions, it takes no particular wisdom to suggest that one would rather be elsewhere.

Seymour Sarason, 1990

• Read the quotation and discuss how this quotation relates to developing and managing a One-Stop center/system.

• Discuss how internal and external customers of the One-Stop need to provide input or they will not utilize the system.

• Put on Overhead 3.7.

Goals Clarification:
Develop a System Perspective

Get rid of: Create:

"MY" Products versus "OUR" Products

"YOUR" Products
Module 3. Customer Feedback

- Discuss how concentrating on customer requirements in developing the One-Stop will lead to products and services that lose the identity of each of the partner agencies and take on a new One-Stop identity.

- Discuss how to reduce agency "turfism" by concentrating on developing the products of the One-Stop to meet customer requirements.

- Introduce the learning objectives by saying:

  *In this session, we will review how to use customer feedback to create the best possible One-Stop for our customers.*

  *Please introduce yourself and describe one thing that you would like to learn in this session.*

- Record the responses on a flip chart and hang the completed pages around the room to return to throughout the session.

- Display Overheads 3-8, 3-9, and 3-10.

**Learning Objectives**

- Learn why customer feedback is a foundation for One-Stop services.
- Understand the process of customer feedback.
- Understand the 4 phases of customer feedback.
- Learn how to identify the product(s), customer(s), requirement(s), and standard(s) of the One-Stop system.
Module 3. Customer Feedback

Learning Objectives, Continued

- Understand the two types of customer feedback and the methods to collect each type.
- Learn the methods to analyze customer feedback.
- Explore how customer requirements impact program design, customer flow, staffing patterns, office layout.

3-9

Learning Objectives, Continued

- Learn how to create a team action plan to begin designing/refining your One Stop's Customer Feedback Process.

3-10

- Review the learning objectives on the overheads one by one. Compare them to the stated requests of the participants.

- Put on Overhead 3-11.
Module 3. Customer Feedback

Agenda

- Introductions/Welcome
- Why Use Customer Feedback to Design One-Stop Centers/Systems?
- The Cycle of Customer Feedback
  - 4 Phases to the Customer Feedback Cycle
    - Prepare to Collect
    - Collect
    - Analyze
    - Utilize
- Setting Goals for Improving Customer Services

- Relate the agenda items to the stated requests of the participants and where we currently are on the agenda. Note that the next step on the agenda is the “cycle of customer feedback.”

What do most organizations do when they are told that they must pay attention to “customer satisfaction”?

- Once an attendee states “do a survey,” put on Overhead 3-12 and ask the attendees to describe where on the listed items they find something that describes “do a survey.”

The Customer Feedback Cycle

- ID Services/Products
- ID Customers of the Services/Products
- ID What Customer Values About Each Service/Product
- ID Customer Requirements (Attributes) for Each
- ID Product Features
- ID Customer Standards for the Requirements
- ID What to Measure
- ID What Data to Collect
  - Qualitative?
  - Quantitative?
- ID How to Measure - Which Statistical Process Control Tools
  - To Collect
  - To Analyze
- Collect the Data
- Analyze the Data
  - Meet/Exceed Customer Standard?
  - Not Meet Customer Standard?
- Make Improvements
Module 3. Customer Feedback

- Once they say "collect the data," ask them to count how many steps preceded that step.

*If an organization starts at "collect the data" they have missed 9 important steps.*

- Review each of the steps one by one. Describe how each step is an important part of the cycle.

*The steps in the customer feedback cycle can be divided into 4 Phases.*

- Put on Overhead 3-13.

4 Phases to the Customer Feedback Cycle

- Prepare to Collect
- Collect
- Analyze
- Utilize

- Describe each phase.

*Find a partner and discuss which of the steps on Overhead 3-12 relate to each of the phases on Overhead 3-13.*

- Have one of the partner groups report out which steps go with which phase.

*We will be reviewing each of the phases individually.*
Module 3. Customer Feedback

- Put on Overheads 3-14 and 3-15.

**Customer Feedback**
**Phase 1: Prepare to Collect**

**FOCUSING THE PROCESS - ("THE MISSING PIECE")**
- Identify services and/or products.
- Identify customers of each.
- Identify what customer values about each.
- Identify customer requirement(s)/attribute(s) for each.
- Identify product features.

---

**Customer Feedback**
**Phase 1: Prepare to Collect**
Continued

- Identify standards for each requirement.
- Identify what to measure - what do you want to know?
- Identify what data to collect.
  - Qualitative?
  - Quantitative?
- Identify how to measure - which statistical process control tools to use to collect.

---

*This phase—"prepare to collect"—is the most forgotten and neglected phase. Many people tend to leave it out altogether. However, this phase is what ensures that the right data is collected in the proper manner.*

- State that if this phase is neglected, organizations may not be able to analyze or utilize the data once it is collected. This renders the entire customer feedback process useless.

- Discuss using the following examples.
Suppose an organization has a 95% customer satisfaction rate. What should the organization do to satisfy the other 5% of its customers?

- Without having specific information about how well the organization is doing on its product requirements, the organization does not have the necessary information to make improvements that will increase customer satisfaction.
- Going through the steps in the “prepare to collect” phase will provide the necessary information to ensure that the right data is being collected.
- Put on Overhead 3-16.

Customer Feedback
Phase 1: Prepare to Collect
Continued
Product Criteria

- It must be a noun.
- It must be made plural with an “s” or “es.”
- It must be deliverable (you must be able to give it to someone).
- It must be yours to give.

The first step in preparing to collect customer feedback is to determine the products that the One-Stop provides.

- Review the four criterion suggested by Ken Miller to determine if something is a product:
- Put on Overhead 3-17.
Module 3. Customer Feedback

Customer Feedback
Phase 1: Prepare to Collect
Continued

- Activity Worksheet 3-A—Identifying Customer Standards—will be used for an exercise that will ask you to:
  - Identify products.
  - Identify customers.
  - Identify product outcomes and features.
  - Identify customer requirements.
  - Define customer standards.

- Help participants find Activity Worksheet 3-A, Identifying Customer Standards.

- Put on Overhead 3-18.

Customer Feedback
Phase 1: Prepare to Collect
Continued

Identify Products

- Working with your table, and using the criteria, identify products that your One-Stop:
  - delivers currently.
  - could deliver in the future.

- Review the first step in Phase 1—Identify Products.

- Explain the instructions for the activity. Have the attendees complete the first column of the form. Set the timer for 3 minutes.
Module 3. Customer Feedback

- Once the three minutes have elapsed, ask the first table to list one product they identified. Ask the group to go over each of the criteria to see if that suggested product meets each of the criteria.

- If it does, write it on the flip chart.

- Go to the next table and repeat the process until you have at least one product from each table.

- Put on Overhead 3-19.

Customer Feedback
Phase 1: Prepare to Collect
Continued

Identify Customer(s)
Who directly receives that product?

- Working within your table, take 3 products that you have identified.
- For each one, identify the customer(s) for that product.

- Review the second step in Phase 1—Identify the Customer.

The customer is the person who directly receives the product from the provider.

- Instruct each table to take three products from their list and identify the customer(s) for each of these products. These can be listed next to each product in column 2 of Activity Worksheet 3-A.
A customer for one product may not be the customer for another product. This is why we list the products first.

- Set the timer for three minutes and tell the participants they have three minutes to identify customers for their products.

- Once the three minutes are up, ask each table to state 1 product (if it is a new one, review it against the 4 criteria). Then have them list all the customers of that product to whom they directly deliver the product.

- List the product named by the first table and each of its customers on the flip chart.

- Do a round robin of tables until you have at least one distinct product and all the customers of that product for each table.

- Put on Overhead 3-20.

Customer Feedback
Phase 1: Prepare to Collect
Continued

Identify What Customer Values

- **Product Outcome:** What does the customer want as a result of the product?

- **Product Feature:** "A satisfying product has..."

- Review the third step in Phase 1—Determine the Product Outcome (what the customer values about that product).
Module 3. Customer Feedback

An easy question to get at the outcome/value of a product is to complete the sentence: "A satisfying (product) RESULTS IN..."

- Have each table use one of the products they listed in the last part of the exercise and choose one of the identified customers of that product. Utilizing that one customer of that one product, have the attendees complete the third column of Activity Worksheet 3-A under “what customers value about that product.”

- Again set the timer for 3 minutes.

- Once the three minutes are up, ask one table to identify the product they chose, the customer of that product, and how the customer would have completed the statement, “A satisfying (product) results in.....”

When you complete the phrase, “a satisfying product RESULTS IN ...” you are identifying what the customer values about that product.

- If tables are having trouble reporting the outcome, please help them rephrase their information in the form of an outcome.

- Record the outcomes identified by at least 2 tables on the flip chart.

- Stay on Overhead 3-20.

- Describe the 4th step in Phase I—Identify Product Features.

One way to determine what features of a product a customer values is to have the customer complete the following phrase: “a satisfying product HAS..."
• Give an example of some features from one of the customers/products that have been discussed already.

There is not sufficient time today to identify features that customers value for all of your One-Stop products, but it is important to do so once you get back home.

• Put on Overhead 3-21.

Customer Feedback
Phase 1: Prepare to Collect
Continued

Identify Product Requirements
What would satisfy the customer?

• Using one product and one customer of that product, list the adjectives the customer would use to describe a satisfying one.

3-21

• Review the definition of a product requirement.

A way to identify the requirements of the customer for a product is to have the customer complete the following statement, "A satisfying (product) IS [one which]...."

• Have each table take one of its products and one of that product’s customers.

Fill in the sentence, “A satisfying (product) is....” the way your customer would. Use this information to complete the fourth column on Activity Worksheet 3-A.
Module 3. Customer Feedback

- Set the timer for three minutes.

- When the time is up, ask a table to report out by giving the name of the product, the customer group, and the requirements for a satisfying product.

- Capture each table’s report out on the flip chart, using the columns as they have them listed on Activity Worksheet 3-A.

- Put on Overhead 3-22.

Customer Feedback
Phase 1: Prepare to Collect
Continued

Identify Customer Standards

*How does the customer define his/her product requirement(s)?*

- Using your list of requirements, identify the customer’s definition of product requirements.

- Describe the definition of “standard.”

- Have each table complete the last column of their form by taking the requirements that they established. For each requirement, have them identify the customer’s definition of the requirement (standard).

- Set the timer for 3 minutes.

- After the time is up, have one or two tables (as time permits) report out the standards they identified.

- Discuss how important it is to have the customers identify the
features, values, requirements and standards.

*Today we have identified customer's values, requirements, and standards to understand what they might be. But it is not OUR ideas that are true customer requirements. We have to ask customers about their values, requirements, and standards. It is important to gather this input FROM THE CUSTOMER.*

- Remind attendees about the importance of getting detailed and complete customer information in the Customer/Provider activity at the beginning of the session.

*Collecting input from the customer is the second phase of the customer feedback cycle—Collecting Customer Feedback.*

- Put on Overhead 3-23.

<table>
<thead>
<tr>
<th>Customer Feedback</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Phase 2: Collect</strong></td>
</tr>
<tr>
<td>• Categories of Customer Feedback:</td>
</tr>
<tr>
<td>‒ Qualitative</td>
</tr>
<tr>
<td>‒ Quantitative</td>
</tr>
</tbody>
</table>

There are two types or categories of customer feedback: qualitative and quantitative. All customer feedback can be grouped into one or the other.

- Put on Overhead 3-24 and 3-25.

- Review the overhead points one at a time.
Module 3. Customer Feedback

Customer Feedback
Phase 2: Collect
Continued

Qualitative Data
• Provides a clear and precise statement of the problem.
• Identifies the "why."
• Identifies what the customer may be feeling.
• Data CANNOT be generalized.

Examples of Qualitative Methods:
• Focus groups.
• Advisory boards.
• Informal conversations.
• Management by walking around.

3-24

Customer Feedback
Phase 2: Collect
Continued
Quantitative Data
• Attempts to quantify attitudes and behaviors from the population of interest.
• Identifies the "what", "when", "where."
• Draws on a sample that represents the whole.

Examples of Quantitative Methods:
• Paper and pencil surveys.
• Mail surveys.
• Telephone surveys.
• Personal interviews.

3-25

• Put on Overhead 3-26.

Customer Feedback
Phase 2: Collect
Continued

Qualitative
• Describes belief.
• No predetermined categories.
• In-depth, small sample of population.
• Subjective.
• Interpretive - how and why.

Quantitative
• Describes prevalence
• Predetermined categories
• Wide breadth, large sample of population:
• Objective
• Statistical - what and how many.

3-26
Module 3. Customer Feedback

- Ask the attendees to describe some of the methods they currently use to collect customer feedback.

- Capture them on the flip chart.

- Have them determine if they are qualitative or quantitative.

Both qualitative and quantitative feedback can be collected in a proactive and a reactive manner. Proactive means that you solicit the feedback from the customer. Reactive means that you receive the feedback without prompting for it.

- Using the methods on the flip chart, have the attendees identify which of the methods listed there are reactive and which are proactive.

- Put on Overhead 3-27.

Customer Feedback
Phase 2: Collect
Continued

<table>
<thead>
<tr>
<th>Proactive</th>
<th>Reactive</th>
</tr>
</thead>
<tbody>
<tr>
<td>Paper and pencil surveys.</td>
<td>Unsolicited communication.</td>
</tr>
<tr>
<td>Focus groups.</td>
<td>Letters</td>
</tr>
<tr>
<td>Daily conversation.</td>
<td>Phone calls</td>
</tr>
<tr>
<td>Alumni celebrations.</td>
<td>Complaint logs.</td>
</tr>
<tr>
<td>Follow up reports.</td>
<td></td>
</tr>
</tbody>
</table>

- Review the points on Overhead 3-27 with the work from the flip chart.
Module 3. Customer Feedback

- Put on Overhead 3-28.

<table>
<thead>
<tr>
<th>Customer Feedback</th>
<th>Phase 2: Collect</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Continued</td>
</tr>
<tr>

<td>Reactive</td>
</tr>
<tr>
<td>Proactive</td>
<td>Proactive</td>
</tr>
</tbody>
</table>

(Use Activity Worksheet 3-B to note your answers.)

- Help attendees to locate Activity Worksheet 3-B (a form based on Overhead 3-28).

- At the tables have attendees list ALL the methods they use for collecting customer feedback and list it on Activity Worksheet 3-B within the appropriate cell on the matrix.

- Put on Overhead 3-29.

Customer Feedback
Phase 2: Collect
Continued

Customer Research Considerations

- Nothing is absolute
- More complicated methods = greater chance of error
- Choose the technique based on what you want to know
Module 3. Customer Feedback

- Review the overhead points one at a time. Make sure the attendees understand that the method an organization chooses to use in collecting customer feedback is based on the type of information that is needed.

- If time allows, have attendees break into teams. Have some teams determine which of the quantitative methods seem to be the most complicated, while other teams determine which of the qualitative methods seem to be the most complicated.

- Have the different teams share their conclusions.

- Put on Overhead 3-30.

- Help attendees locate Activity Worksheet 3-C. Review the instructions for Activity Worksheet 3-C.

Customer Feedback
Phase 2: Collect
Continued
Working within your tables:

- Review each scenario on Activity Worksheet 3-C.
- Determine which collection method would be the most effective method to gather the customer data described.
- Share with the other groups.

3-30

- Have members at each table work together to complete the exercise.

- Set the timer for 5 minutes.

- After 5 minutes, check to see how the different tables are progressing, and, if needed, give another 5 minutes.
Module 3. Customer Feedback

- After the time is up, review the answers.

*We have now discussed the first two phases of the customer feedback cycle.*

*The third phase will be discussed next. Who remembers what Phase 3 is?*

- Reward the person who says “analyze.”

- State that there is a different approach to analyzing qualitative and quantitative data.

- Put on Overhead 3-31.

- Review the overhead points one at a time.

**Customer Feedback**

**Phase 3: Analyze**

**Qualitative Methods**

- Organize data.
- Categorize/code data.
- Interpret data.
  - Known - confirmed or challenged?
  - Suspected - confirmed or challenged?
  - New information?
- Write/deliver report.

- Put on Overhead 3-32.

- Review the overhead points one at a time.
Customer Feedback
Phase 3: Analyze
Continued

Quantitative Methods

- Edit data.
- Categorize/code data.
- Enter data into research database.
- Tabulate/summarize:
  - E.g., Tallies, percentages, averages
- Determine variance.
- Determine reliability/representation.
- Display findings graphically.

- Note that you use similar but distinct analytic steps to analyze qualitative and quantitative data. To analyze qualitative data, you categorize, code, and interpret customer feedback. To analyze quantitative data, you categorize data, then use statistical analysis techniques to summarize and display findings.

- Put on Overhead 3-33.

Change is not *what* you know; it's what you *do* with what you know.
Module 3. Customer Feedback

- Read the overhead.

Going through just the first 3 phases of the customer feedback cycle will not lead to improved customer satisfaction, unless you also do the fourth phase.

Do you remember what is Phase 4?

- Reward the person who says "utilize."
- Put on Overhead 3-34.

Customer Feedback
Phase 4: Utilize

- Every decision—from board policies to staff procedures—should be based upon customer data.
- Use customer feedback to make individual daily improvements. What does this data tell me to do differently?
- Implement customer feedback within a continuous improvement system.

- Review the overhead points one at a time.

- Note that Board members should use customer data to establish policies that staff should utilize customer feedback to determine procedures.

Feedback must be used to make daily improvements. Thus, you must be continuously collecting and analyzing feedback. This is
Module 3. Customer Feedback

an ongoing cycle. It doesn’t happen only one time but over and over again. This ongoing customer feedback cycle is what drives the continuous improvement process.

- Put on Overhead 3-35.

```
Customer Feedback
Phase 4: Utilize
Continued
Continuous Improvement Process
- Study current situation (problem identification).
- Determine root cause(s).
- Choose a cause.
- Determine solution(s)- choose one.
- Test solution.
- Implement solution.
- Measure results- go back to beginning. 3-35
```

- Review the overhead points one at a time.

- Note that the “problem” may be something that is causing customer dissatisfaction, or, it could be something that is going OK today, but without improvement may cause customer dissatisfaction tomorrow.

You don’t have to improve ONLY those things that are problems.

You must determine the root cause of a problem so that you are fixing the true problem and not just the symptom.

- Note that there may be a variety of causes. It is important to choose the cause that is the most dissatisfying for the customer instead of one that only causes a little dissatisfaction. (Remember the 80/20 rule, which says that 80% of the problems result from 20% of the root causes.)
Module 3. Customer Feedback

It is important to brainstorm a variety of possible solutions and then to review these possibilities to find the best. Do not just try the first solution that comes to mind. It may not be the best solution.

It is important to test out the solution for "bugs" or unanticipated problems before undertaking full-scale implementation.

- Note that testing the solution allows for refinement prior to full implementation. Part of testing the solution is gathering data to determine how well the solution worked.

- Once one problem has been handled, it is important to go back to the beginning of the continuous improvement cycle and begin again with a new problem or area for improvement.

- Put on Overhead 3-36.

"The customer, in spirit and in flesh, must pervade the organization -- every system in every department, every procedure, every measure, every meeting, every decision."

Peters
Thriving on Chaos

- Read the quotation aloud.

- Ask how One-Stops are currently demonstrating their commitment to this quote.
Module 3. Customer Feedback

- Capture the responses on the flip chart.

- Put on Overhead 3-37.

Customer Feedback
Phase 4: Utilize
Continued

- Review the scenario described on Activity Worksheet 3-D.
- Work with your group to determine what you would do to increase satisfaction and decrease dissatisfaction.
- Share with the other groups.

3-37

- Help attendees to find Activity Worksheet 3-D.

- Review the activity instructions and ask for questions. Tables will work together.

- Set the timer for 5 minutes.

- After 5 minutes, check with the tables to see if the time is adequate.

- Have each table report out.
Module 3. Customer Feedback

- Put on Overhead 3-38.

**Practicing the Steps to Customer Feedback**

- Focus Groups: one qualitative method of customer feedback

- State that since focus groups are not as widely used as surveys to gather customer feedback, we will be completing an exercise that gives some hands-on contact with focus groups.

*To elicit comprehensive customer feedback, a One-Stop system will need to collect feedback using both qualitative and quantitative methods.*

**Who has conducted focus groups?**

- Have individuals with focus group experience describe focus groups and how they have utilized them in their organizations/One-Stop systems.

- Put on Overhead 3-39.
Module 3. Customer Feedback

Practicing the Steps to Customer Feedback - Focus Groups

What Are Focus Groups?
- The most effective way to collect qualitative data (the WHY of an issue).
- Bring 8-12 people together.
- Designated time and place.
- Use a moderator (trained interviewer).
- Loosely structured, free flowing dialogue focused on predetermined issues.
- May be video taped/observed.

- Review the overhead points one at a time.

- Note the importance of having a skilled moderator for the focus group. One reason a skilled moderator is needed is to ensure that the discussion achieves a useful balance between “loosely structured/free flowing” and “focused.”

- Put on Overhead 3-40.

Practicing the Steps to Customer Feedback - Focus Groups

- Determine Objectives
- Review Objectives with Key Players
- Determine Target Audience
- Prepare Script
- Identify/Recruit Participants
- Conduct/Observe Focus Group
- Analyze Focus Group
- Present/Utilize Data

Compare the steps involved in conducting focus groups to the

Where are the 4 phases within this list of steps? Where does each begin and end?
Module 3. Customer Feedback

four phases of the customer feedback cycle. Which of the focus group steps correspond to each of the four phases?

- Put on Overhead 3-41.

Practicing the Steps to Customer Feedback - Focus Group
Phase 1 - Prepare to Collect
- Determine objectives.
- Review objectives.
  Agree on purpose?
- Determine target audience.
- Prepare discussion guide.
  9 to 12 questions with 1 to 5 probes, 2 pages, structure using stages.

- Review the overhead points one at a time.

- Put on Overhead 3-42.

Practicing the Steps to Customer Feedback - Focus Group
Phase 1 - Prepare to Collect, Continued
- Identify/recruit participants:
  - Determine selection criteria (homogeneous, reflective of target, unfamiliar with each other, not likely to agree).
  - Develop potential list.
  - Develop screening list.
  - Screen, select, invite, confirm attendance.

- Review the overhead points one at a time.
Module 3. Customer Feedback

- Put on Overhead 3-43.

**Practicing the Steps to Customer Feedback - Focus Group**

*Phase 2: Collect*

- **Logistics**
  - Comfortable, accessible, neutral facility
  - Circle or u-shape room arrangement
  - Compensation

- **Moderator**
  - Select
  - Skills required

- **Observation**
  - Prepare note taking form
  - Use tape recorder
  - Make seating chart
  - Organize notes around questions
  - Capture main points
  - Use 10 effective questions

- Review the overhead points one at a time.

- Highlight the role of the moderator and the need for a highly skilled moderator to achieve the best results.

- Highlight the role of the observers and how they need to take down quotable quotes, know where the questions are on the script, and capture the answers where they go instead of where the person may have responded.

- Put on Overhead 3-44.
Module 3. Customer Feedback

Practicing the Steps to Customer Feedback - Focus Group
Phase 2: Collect, Continued

Focus Group Format

- Introduction.
  Establish rapport, environment, session logistics.
- Transition.
  Obtain overview, set stage for in-depth discussion.
- In-Depth Investigation.
  Elicit details, enable participants to elaborate.
- Closure.
  Clarify/alter, verify conclusions, thank participants, handle logistics.

- Review the overhead points one at a time.

- Put on Overhead 3-45.

Practicing the Steps to Customer Feedback - Focus Group
Phase 2: Collect

Focus Group Role Play

- Determine if you are an observer or participant.
- Participants follow script handed out by trainer.
- Observers take notes on participant comments using Activity Worksheet 3-E.

- Ask for volunteers to be participants in a mock focus group.
- Once selected, hand out copies of the focus group script and have each participant select a person in the script to role play.
- Give the remaining attendees a copy of the observer form—Activity Worksheet 3-E.

The role of observers is to listen and take notes while the role
Module 3. Customer Feedback

play is happening. One useful practice for observers is to take down “quotable quotes.”

- Conduct the role play focus group.

- Put on Overhead 3-46.

**Practicing the Steps to Customer Feedback - Focus Group**

*Phase 3: Analyze*

Using your notes, as a group, determine:

- What requirements/standards the customers had for the One-Stop.
- What products the customers identified.
- What requirements the customers had for those products.
- What standards they had for the requirements.

- Have the attendees summarize the focus group findings, question by question. Capture notes on a flip chart.

- Ask the observers first. Then augment with the focus group participants.

- Put on Overhead 3-47.
Module 3. Customer Feedback

Practicing the Steps to Customer Feedback - Focus Group

Phase 4: Utilize

Using the case study description found in Activity Worksheet 3-F:

- Flow chart the customer flow for services that "help customers find jobs."
- Review your chart against the requirements/standards identified in the focus group summarized in the handout.
- Revise/develop your customer flow to meet customer requirements.

Activity Worksheet 3-F summarizes the results of a series of customer focus groups from a One-Stop in the state of Oklahoma. In this exercise you will analyze how customers flow through processes that "help customers find jobs." You will then use customer feedback to revise the customer flow to better meet customer requirements.

- Have each group flow chart the current job referral process described in the example.

- Set the timer for 5 minutes. Check with each group to make sure that they have had adequate time to complete the exercise.

- When the time is up, have the groups review their current customer flow against the customer requirements that were stated in the case study.

- Have the groups revise their flowchart, as needed, to more closely follow customer requirements and standards.

- Set the timer for another 5 minutes. Check with each group to give adequate time.

- Have each group report out on how they changed their job referral system to respond to customer feedback. Highlight the
Module 3. Customer Feedback

key points from each group that show how they listened to and utilized customer requirements and standards from the case study.

We have designed two “homework” assignments to help your local One-Stop partnership practice and apply the ideas presented in this session.

Assignment #1 is designed to help you implement a process to collect and analyze customer feedback on an ongoing basis.

Assignment #2 is designed to help you collect and analyze customer feedback on the One-Stop function “help customers find jobs.” This information will be needed in training Module 4 to guide your efforts to reengineer this function to improve customer satisfaction.
Module 3. Customer Feedback

**Assignment 1:**
Develop Action Plan  
To Improve Customer Feedback

- Review all of the materials of the session.
- With your team members, review what customer feedback steps and phases are missing within your One-Stop.
- Identify what you will do as first steps to revise your customer feedback process.
- Write down your action plan. Have all team members sign. Share with a partner team.

- Review the instructions for Assignment 1.

- If there is time during the training session, teams can spend five minutes brainstorming how they will approach Assignment 1 and report out ideas to the whole group.

- Emphasize the importance of setting measurable goals, specific time schedules, and assignments to make action plans happen.

**Assignment 2:**
Collect and Analyze Data on Customer Requirements

- Review existing information on customer requirements for products that "help customers find jobs."
- Collect new information as needed from customer surveys and focus groups.
- Summarize and analyze customer requirements.
- Bring information to Module 4 session on Redesigning Customer Services

- Review the instructions for Assignment 2.

- If the team will be proceeding with Module 4, develop an action plan for collecting customer feedback relevant to the
Module 3. Customer Feedback

function “help customers find jobs.”

- If the session on Module 4 will occur before any new data can be collected, have the team brainstorm what they think customers are concerned about and what customer requirements and standards would look like.

Techniques and Tools

The Tool Kit at the end of the Participant Workbook summarizes the process and continuous improvement tools that have been discussed in this and other sessions.

- Put on Overhead 3-52. Review the tools covered in this session.

Tools Referred to in Module 3
- Using customer surveys and other quantitative feedback methods.
- Using customer focus groups and other qualitative feedback methods.
- Flow-charting the customer service process.
- Comparing the current process to identified customer requirements.
Partnering for Quality under the Workforce Investment Act:
A Tool Kit for One-Stop System Building

Module 3
Collecting and Using Customer Feedback

Participant Workbook

200 Middlefield Road, Suite 100
Menlo Park, CA 94025
Phone (650) 617-8625/Fax (650) 617-8630
Customer/Provider Activity

Purpose

• To learn the importance of using customer feedback to develop a product.

Instructions:

• Find a partner—Designate one person as "A" and one person as "B." "A"'s play the role of the customer; "B"'s play the role of the provider.
• The trainer will hand out picture to "A"s.
• "A"s will review a picture and develop a one-word description of what they want "B"'s to draw for them.
• "B"'s have 2 minutes to draw the picture based on the one-word description.
**Module 3: Collecting and Using Customer Feedback**

**Customer/Provider Activity**

**Instructions, Continued**

- "A"s review drawing and determine if it meets their criteria.
- "A"s provide additional verbal feedback to "B"s and use the next 2 minutes to help them to create the picture they require.
- Debrief the process.

**Review Questions**

- "B"s - When you were unable to check with your customer, did you provide the product they were expecting?
- "B"s - How did you feel what did you think without information from your customer? Was it hard or easy to know what to draw?
- "B"s - How did you feel what did you think when you worked with your customer? What was easy? What was hard?
- "A"s - Did you get what you expected with the first picture?
- "A"s - What difference did you find when you were able to communicate with the provider as they were drawing the picture?
- As a customer (A), is your input important to get what you want and need? As a Provider (B), is the customer's input needed in order for you to know what the product should look like?

**The Customer's Perspective**

When one has no stake in the way things are, when one's needs or opinion are provided no forum, when one sees oneself as the object of unilateral actions, it takes no particular wisdom to suggest that one would rather be elsewhere.

Seymour Sarason, 1990

Goals Clarification:
Develop a System Perspective

Get rid of:

"MY" Products

versus

"YOUR" Products

Create:

"OUR" Products

Learning Objectives

- Learn why customer feedback is a foundation for One-Stop services.
- Understand the process of customer feedback.
- Understand the 4 phases of customer feedback.
- Learn how to identify the product(s), customer(s), requirement(s), and standard(s) of the One-Stop system.

Learning Objectives, Continued

- Understand the two types of customer feedback and the methods to collect each type.
- Learn the methods to analyze customer feedback.
- Explore how customer requirements impact program design, customer flow, staffing patterns, office layout.
Participant Workbook
Module 3: Collecting and Using Customer Feedback

Learning Objectives, Continued

- Learn how to create a team action plan to begin designing/refining your One Stop's Customer Feedback Process.

Agenda

- Introductions/Welcomes
- Why Use Customer Feedback to Design One-Stop Centers/Systems?
- The Cycle of Customer Feedback
- 4 Phases to the Customer Feedback Cycle
  - Prepare to Collect
  - Collect
  - Analyze
  - Utilize
- Setting Goals for Improving Customer Services

The Customer Feedback Cycle

- ID Services/Products
- ID Customers of the Services/Products
- ID What Customer Values About Each Service/Product
- ID Customer Requirements (Attributes) for Each
- ID Product Features
- ID Customer Standards for the Requirements
- ID What to Measure
- ID What Data to Collect
- Qualitative?
- Quantitative?
- ID How to Measure - Which Statistical Process Control Tools
  - To Collect
  - To Analyze
- Collect the Data
- Analyze the Data
  - Meet Incorporated Customer Standard?
  - Not Meet Customer Standard?
- Make Improvements

Social Policy Research Associates
4 Phases to the Customer Feedback Cycle

- Prepare to Collect
- Collect
- Analyze
- Utilize

Customer Feedback Phase 1: Prepare to Collect

FOCUSING THE PROCESS - ("THE MISSING PIECE")

- Identify services and/or products.
- Identify customers of each.
- Identify what customer values about each.
- Identify customer requirement(s)/attribute(s) for each.
- Identify product features.

Customer Feedback Phase 1: Prepare to Collect

Continued

- Identify standards for each requirement.
- Identify what to measure - what do you want to know?
- Identify what data to collect.
  -- Qualitative?
  -- Quantitative?
- Identify how to measure - which statistical process control tools to use to collect.
Customer Feedback
Phase 1: Prepare to Collect
Continued

Product Criteria

- It must be a noun.
- It must be made plural with an "s" or "es."
- It must be deliverable (you must be able to give it to someone).
- It must be yours to give.

Activity Worksheet 3-A--Identifying Customer Standards -- will be used for an exercise that will ask you to:

- Identify products.
- Identify customers.
- Identify product outcomes and features.
- Identify customer requirements.
- Define customer standards.

Identify Products

- Working with your table, and using the criteria, identify products that your One-Stop:
  - delivers currently.
  - could deliver in the future.

Social Policy Research Associates
Module 3: Collecting and Using Customer Feedback

Customer Feedback
Phase 1: Prepare to Collect
Continued

Identify Customer(s)
Who directly receives that product?

- Working within your table, take 3 products that you have identified.
- For each one, identify the customer(s) for that product.

Customer Feedback
Phase 1: Prepare to Collect
Continued

Identify What Customer Values

- Product Outcome: What does the customer want as a result of the product?
  "A satisfying product results in..."

- Product Feature: "A satisfying product has..."

Customer Feedback
Phase 1: Prepare to Collect
Continued

Identify Product Requirements
What would satisfy the customer?

- Using one product and one customer of that product, list the adjectives the customer would use to describe a satisfying one.
Customer Feedback
Phase 1: Prepare to Collect
Continued

Identify Customer Standards
How does the customer define his/her product requirement(s)?

- Using your list of requirements, identify the customer's definition of product requirements.

Customer Feedback
Phase 2: Collect

- Categories of Customer Feedback:
  - Qualitative
  - Quantitative

Customer Feedback
Phase 2: Collect
Continued

Qualitative Data
- Provides a clear and precise statement of the problem.
- Identifies the "why."
- Identifies what the customer may be feeling.
- Data CANNOT be generalized.

Examples of Qualitative Methods:
- Focus groups.
- Advisory boards.
- Informal conversations.
- Management by walking around.
Participant Workbook
Module 3: Collecting and Using Customer Feedback

Customer Feedback
Phase 2: Collect
Continued

Quantitative Data
- Attempts to quantify attitudes and behaviors from the population of interest.
- Identifies the "what", "when", "where."
- Draws on a sample that represents the whole.

Examples of Quantitative Methods:
- Paper and pencil surveys.
- Mail surveys.
- Telephone surveys.
- Personal interviews.

3-25

Customer Feedback
Phase 2: Collect
Continued

Qualitative
- Describes belief.
- No predetermined categories.
- In-depth, small sample of population.
- Subjective.
- Interpretive - how and why.

Quantitative
- Describes prevalence
- Predetermined categories
- Wide breadth, large sample of population.
- Objective
- Statistical - what and how many.

3-26

Customer Feedback
Phase 2: Collect
Continued

Proactive
- Paper and pencil surveys.
- Focus groups.
- Daily conversation.
- Alumni celebrations.
- Follow up reports.

Reactive
- Unsolicited communication.
  Letters
  Phone calls
- Complaint logs.

3-27
Module 3: Collecting and Using Customer Feedback

Customer Feedback  
Phase 2: Collect  
Continued

What methods do you currently use to collect customer feedback?

- Qualitative?
- Quantitative?
- Reactive
- Proactive

(Use Activity Worksheet 3-B to note your answers.)

Customer Feedback  
Phase 2: Collect  
Continued

Customer Research Considerations

- Nothing is absolute
- More complicated methods = greater chance of error
- Choose the technique based on what you want to know

Customer Feedback  
Phase 2: Collect  
Continued

Working within your tables:

- Review each scenario on Activity Worksheet 3-C.
- Determine which collection method would be the most effective method to gather the customer data described.
- Share with the other groups.
Customer Feedback
Phase 3: Analyze

Qualitative Methods
- Organize data.
- Categorize/code data.
- Interpret data.
  - Known - confirmed or challenged?
  - Suspected - confirmed or challenged?
  - New information?
- Write/deliver report.

Customer Feedback
Phase 3: Analyze
Continued

Quantitative Methods
- Edit data.
- Categorize/code data.
- Enter data into research database.
- Tabulate/summarize:
  - E.g., Tallies, percentages, averages
- Determine variance.
- Determine reliability/representation.
- Display findings graphically.

Change is not what you know; it’s what you do with what you know.
Customer Feedback
Phase 4: Utilize

- Every decision should be based upon customer data, from board policies to staff procedures.
- Use customer feedback to make individual daily improvements. What does this data tell me to do differently?
- Implement customer feedback within a continuous improvement system.

Continuous Improvement Process

- Study current situation (problem identification).
- Determine root cause(s).
- Choose a cause.
- Determine solution(s)- choose one.
- Test solution.
- Implement solution.
- Measure results- go back to beginning.

"The customer, in spirit and in flesh, must pervade the organization -- every system in every department, every procedure, every measure, every meeting, every decision."

Peters
Thriving on Chaos
Customer Feedback
Phase 4: Utilize
Continued

- Review the scenario described on Activity Worksheet 3-D.
- Work with your group to determine what you would do to increase satisfaction and decrease dissatisfaction.
- Share with the other groups.

Practicing the Steps to Customer Feedback

Focus Groups: one qualitative method of customer feedback

Practicing the Steps to Customer Feedback - Focus Groups

What Are Focus Groups?
- The most effective way to collect qualitative data (the WHY of an issue).
- Bring 8-12 people together.
- Designated time and place.
- Use a moderator (trained interviewer).
- Loosely structured, free flowing dialogue focused on predetermined issues.
- May be video taped/observed.
Module 3: Collecting and Using Customer Feedback

Practicing the Steps to Customer Feedback - Focus Groups

- Determine Objectives
- Review Objectives with Key Players
- Determine Target Audience
- Prepare Script
- Identify/Recruit Participants
- Conduct/Observe Focus Group
- Analyze Focus Group
- Present/Utilize Data

Where are the 4 phases within this list of steps? Where does each begin and end?

3-40

Practicing the Steps to Customer Feedback - Focus Group

Phase 1 - Prepare to Collect

- Determine objectives.
- Review objectives.
  Agree on purpose?
- Determine target audience.
- Prepare discussion guide.
  9 to 12 questions with 1 to 5 probes, 2 pages, structure using stages.

3-41

Practicing the Steps to Customer Feedback - Focus Group

Phase 1 - Prepare to Collect, Continued

- Identify/recruit participants:
  - Determine selection criteria (homogeneous, reflective of target, unfamiliar with each other, not likely to agree).
  - Develop potential list.
  - Develop screening list.
  - Screen, select, invite, confirm attendance.

3-42
Practicing the Steps to Customer Feedback - Focus Group
Phase 2: Collect

- Logistics
  - Comfortable, accessible, neutral facility
  - Circle or U-shape room arrangement
  - Compensation
- Moderator
  - Select
  - Skills required
- Observation
  - Prepare note taking form
  - Use tape recorder
  - Make seating chart
  - Organize notes around questions
  - Capture main points
  - Use 10 effective questions

Activity Worksheet 3-C
Choosing Customer Feedback Methods

Your organization is interested in knowing the following information. For each type of information describe the method you would recommend to gather it and why.

- What percentage of welfare mothers believe that child care should be provided at the One Stop?

- The number of youth that completed training in Program Year 1997 compared to the number of adults and older workers.

- What products/services should be delivered in the One Stop?

- How satisfied are the customers using your services?

- What are the requirements/standards for the top 3 products/services requested by your customers?
Activity Worksheet 3-D
(Version 1)
Utilizing Customer Feedback

Survey results state that 95% of your customers are dissatisfied with your services because they had to wait for more than 30 minutes after arrival before being able to meet with a staff person. Your team was given the responsibility to decrease customer dissatisfaction and increase customer satisfaction. What do you do?
Survey results state that two out of every three job seeker plus customers who use the resource room would use it more if you were open nights and weekends. Your team was given the responsibility of increasing customer satisfaction. What do you do?
Survey results state that employer customers are dissatisfied with your services because the response time for referring applicants is two weeks. Your team was given the responsibility to decrease customer dissatisfaction and increase customer satisfaction. What do you do?
Activity Worksheet 3-D (Version 4)
Utilizing Customer Feedback

Survey results state that 75% of your employer customers are dissatisfied with your services because they have to explain their needs to multiple workforce development representatives/agencies and no one seems to have a grasp on the total scope of available services. The employer customers say they want a single point of contact to be satisfied. Your team was given the responsibility to decrease customer dissatisfaction and increase customer satisfaction. What do you do?

Activity Worksheet 3-E
Roleplay Script for Employer Focus Group

Topic: Job Referral Services

I. INTRODUCTION- 10 minutes

Welcome! My name is _____________ and I will be your moderator for this focus group.

Thank you for agreeing to be a part of our focus group. Your participation today will provide us with the opportunity to gather information and feedback from you in order to increase your satisfaction with the job referral services offered by _____________ Workforce Development.

Although some of you may know each other, we would like each of you to introduce yourselves. Please tell us our name, the company you represent, and your job title. This will help me as a moderator of the focus group and our observers _____________, _____________, and _____________ get to know you.

___________ Workforce Development is transitioning and experiencing change. Your input will be valuable in assisting us to better meet the needs of our employer customer. We provide job referral and placement services to employers in the surrounding six counties (A, B, C, X, Y, Z.) Our purpose is to provide quality job applicants in a timely manner. We attempt to meet your needs through the use of our computerized job matching system. This system matches applicant skills, experience and education to specific job requirements. In order for this process to work more efficiently, we need specific information from both the employer and the prospective job applicant. We will focus on what a satisfying recruitment service is, how useful our job referral service have been in the past, what skills/requirements you need from qualified job applicants and what improvements can be made to the current job referral process.

We are conducting five additional focus groups like this one so that we can design a system that you, the customers say they want, need and will use. We have developed a list of questions addressing issues we feel are important to the success of the referral and placement system and meeting your need to find skilled workers.
Activity Worksheets
Module 3. Collecting and Using Customer Feedback

During the next 90 minutes, we will be having an open dialogue regarding the _______ workforce development referral and placement process. All of you have today have used the services of one or more of the agencies within__________ workforce development. We will be asking questions about when you have used those agencies and when you have used other referral and recruitment agencies. There are no right or wrong answers. Each of you has equally valuable information and thoughts that are very interested in hearing. I would encourage you to be as open and honest with during the meeting as you possibly can.

The purpose of our observers is to record what you say. We don’t want to miss any of your ideas. In addition to taking notes, we will be videotaping this session. I want to assure you that the information gathered at this meeting will be kept confidential and anonymous. The tapes will not be used to identify who said what, but to record all the ideas from the discussion.

Because our time is limited during this session, my role as moderator is to make certain that all topics are covered and to move the discussion along, while ensuring that everyone has a chance to participate in the discussion. As moderator, I want to review the guidelines for participating in focus group:

Give priority to those who have not spoken
Speak briefly and often
Speak one at a time...not on top of each other
Be open and honest
Be specific...talk from your own experiences
Listen without interruption
Present problems...focus on solutions
It is okay to disagree...but not be disagreeable
There are no right or wrong answers...all responses are valid
"Piggy-back" on (augment) other's answers

Again, the focus group is scheduled to last approximately 90 minutes. Are there any questions about what we are going to do today or about anything that I have said? Okay, let's turn on the tape and begin our discussion.
It is okay to disagree, but not be disagreeable.

I. EXPERIENCES WITH WORKFORCE DEVELOPMENT AGENCY JOB REFERRAL SERVICES
   (20 minutes)

   Contextual statement: The focus of the second area of discussion is to identify your past experiences with job referral services provided by the workforce development system agencies we discussed earlier.

   Primary Question: As you think back on those placement service experiences that you had with those agencies, what was satisfying to you?

II. EXPERIENCES WITH WORKFORCE DEVELOPMENT AGENCY JOB REFERRAL SERVICES
    Continued

    What was not satisfying?

    What could have made it more satisfying?

III. SKILL REQUIREMENTS - 20 minutes

   Contextual Statement: The focus of the third area of discussion is on finding out what skills/qualities you require of the job applicant referrals we make to you that would lead to a better match, less employee turnover and more productivity.

   Primary Question: What are the skills/qualities you are looking for when hiring an individual?

   Skills

   Further Describe:

   Primary Question: What are the skills that are the most important to you?

   Primary Question: What are the skills that are least important to you?
IV. WRAP UP COMMENTS

1. In summary - here are the important items that I learned from you about-----

   A. The requirements of a recruitment/job referral agency are........
   B. What you liked about the experiences with our agencies is........
   C. What you disliked about your experiences with us is........
   D. The skills/qualities you want in a qualified employee are........

2. What did I miss?

3. Before we wrap up, I would like to open the discussion for you to bring up any other issues that you would like to discuss on these topics.

4. Here's what we will do with the information we have gathered today:
   - Take information from all 6 focus groups
   - Analyze it
   - Make decisions on designing referral processes, how referrals will be made and how you will receive them.
   - Feed back this information to you in a report as well as in our changed behaviors.

Thank you again for helping us to design a referral and placement system that will be useful to you.
MODERATORS QUESTION FOR EMPLOYER FOCUS ON JOB REFERRAL PROCESS

I. SATISFYING RECRUITMENT RESOURCE – 20 minutes

Contextual statement: The focus of our first area of discussion is on finding out what you look for when choosing a recruitment resource...what is important to you in how you receive those services.

Primary Question: A satisfying recruitment resource IS.................

REQUIREMENT: STANDARD-What does that mean to you?
TIMELY
EASY TO ACCESS
CONVENIENT
EXPANSIVE
PRE-SCREENED

Primary Question: Which are the most important of these requirements?

PRE-SCREENED
PRE-SCREENED
PRE-SCREENED

Primary Question: Which are the least important of these requirements?

EASY TO ACCESS

CONVENIENT

Primary Question: Which are the least important of these requirements?

LARGE POOL OF APPLICANTS

Activity Worksheet 3-E
Activity Worksheets
Module 3. Collecting and Using Customer Feedback

Primary Question: A satisfying recruitment resource HAS

A LARGE POOL OF APPLICANTS THAT MEET MY SKILLS NEEDS
FRIENDLY STAFF
KNOWLEDGEABLE STAFF (staff that know me and my needs, that know how
to screen to fit my particular organization's culture)
INTERNET ACCESS-I am able to input my job order on the internet-without
having to call your office
INTERNET ACCESS
INTERNET ACCESS
STAFF WHO ARE ABLE TO PRE-SCREEN FOR I-9S, LEGAL PROBLEMS OF
THE APPLICANT, TRUTH ABOUT EDUCATION CERTIFICATIONS AND
DEGREES, PREVIOUS POOR WORK HISTORY OF THE JOB APPLICANTS

II. EXPERIENCES WITH WORKFORCE DEVELOPMENT AGENCY JOB
REFERRAL SERVICES-20 minutes

Contextual Statement: The focus of this second area is to identify your past
experiences with job referral services provided by the
workforce development system agencies we
discussed earlier.

Primary Question: As you think back on those placement services
experiences that you had with those agencies, what was satisfying to you?

FRIENDLY STAFF
FRIENDLY STAFF
FRIENDLY STAFF

KNOWLEDGEABLE STAFF

Who was NOT satisfying?

I HAD TO WAIT TOO LONG FOR THE REFERRALS-4 DAYS IS TO LONG
Activity Worksheets
Module 3. Collecting and Using Customer Feedback

I HAD TO WAIT TO LONG FOR THE REFERRALS

ALL OF THE JOB APPLICANTS WERE NOT ADEQUATELY SCREENED-SOME OF THEM SAID THAT THEY HAD SCHOOLING THAT THEY DID NOT HAVE

YOUR HOURS OF OPERATION ARE NOT EXPANSIVE ENOUGH-I NEED TO BE ABLE TO ACCESS YOU ON SATURDAYS ON OR AFTER 6 PM DURING THE WEEK

What could have made it more satisfying?

QUICKER TURNAROUND ON REFERRALS

ABLE TO ACCESS WHEN I NEED IT

III. SKILL REQUIREMENTS 20-minutes

Contextual Statement: The focus of the third area of discussion is on finding out what skills/qualities you require of the job applicant referrals we make to you that would lead to a better match, less employee turnover and more productivity.

Primary Question: What are the skills/qualities you are looking for when hiring an individual?

skills: further describe:

COMPUTER SKILLS KEYBOARD/WORD PROCESSING
COMPUTER SKILLS WORD PROCESSING

DESIRE TO WORK THERE EVERY DAY, ON TIME
FOLLOW THROUGH SCHEDULE DR. APPOINTMENTS OFF WORK
RELIABLE ABLE TO WORK WITH TEAMS TO GET WORK DONE
PROBLEM SOLVING DON'T HAVE TO ALWAYS ASK WHAT TO DO INTERDEPENDENT

TEAM SKILLS CAN WORK WITH OTHERS
DESIRE TO WORK COMES READY TO WORK-DOESN'T BRING HOME PROBLEMS WITH THEM
Activity Worksheets
Module 3. Collecting and Using Customer Feedback

GOOD BASIC SKILLS  MATH FOR SPC, CAN READ INSTRUCTIONS

FOCUSED ON THE CUSTOMER

GOOD BASIC SKILLS  I CAN TEACH THEM THE JOB SKILLS IF THEY
                  HAVE THE READING AND MATH SKILLS AND
                  SKILLS THAT HELP THEM LEARN

Primary Question: What are the skills that are the most important to you?

COMPUTER SKILLS, BASIC SKILLS

COMPUTER SKILLS RELIABLE, WILLING TO WORK

BASIC SKILLS, WILLING TO WORK

Primary Question: What are the skills that are important to you?

NONE

ALL ARE IMPORTANT

 ALL ARE IMPORTANT

IV. WRAP UP 20 minutes

1. In summary—here are the important items that I learned from you about......
   
   A. The requirements of a recruitment/job referral agency are......
   B. What you liked about the experiences with our agencies is...
   C. What you disliked about your experiences with us is...
   D. The skills/qualities you want in a qualified employee are...

2. What did I miss?
   EVERYTHING WAS COVERED

YOU CAPTURED EVERYTHING

3. Before we wrap up, I would like to open the discussion for you to bring up
   any other issues that you would like to discuss on these topics.

WILL YOU BE ABLE TO STRAT SERVE PEOPLE THAT ARE NOT TARGETED?
IIT IS HARD FOR ME TO FIND PEOPLE WITH THE SKILLS I NEED AND I WANT YOU TO HAVE THE LARGEST POOL OF PEOPLE TO WORK WITH AS POSSIBLE

I WOULD LOVE FOR YOUR AGENCY TO LESSEN THE RISK FOR MY ORGANIZATION TO HIRE PEOPLE—COULD YOU REFER PEOPLE TO ME THAT YOU WOULD PAY THEIR WAGES DURING A TRYOUT PERIOD OF 3 MONTHS. I WOULD BE WILLING TO PAY YOU, WITH A SMALL ADMINISTRATIVE FEE... IF YOU COULD LESSON MY LIABILITY ON NEW WORKERS. I WOULD THEN BE ABLE, AFTER THE TRYOUT PERIOD

4. Here's what we will do with the information we have gathered today...

- Take information from 6 focus groups
- Analyze it
- Make decisions on designing referral processes, how referrals will be made and how will you receive them.
- Feed back this information to you in a report as well in our changed behaviors.

Thank you again for helping us to design a referral and placement system that will be useful to you.

Activity Worksheet 3-F
Welcome! My name is _______ and I will be your moderator for this focus group.

Thank you for agreeing to be a part of our focus group. Your participation today will provide us with the opportunity to gather information and feedback from you in order to increase your satisfaction with the job referral services offered by _______ Workforce Development.

Although some of you may know each other, we would like each of you to introduce yourselves. Please tell us your name, the company you represent, and your job title. This will help me as a moderator of the focus group and our observers ________, _____________, and ______________ get to know you.

___________ Workforce Development is transitioning and experiencing change. Your input will be valuable in assisting us to better meet the needs of our employer customer. We provide job referral and placement services to employers in the surrounding six counties (A, B, C, X, Y, Z.) Our purpose is to provide quality job applicants in a timely manner. We attempt to meet your needs through the use of our computerized job matching system. This system matches applicant skills, experience and education to specific job requirements. In order for this process to work more efficiently, we need specific information from both the employer and the prospective job applicant. We will focus on what a satisfying recruitment service is, how useful our job referral services have been in the past, what skills/requirements you need from qualified job applicants and what improvements can be made to the current job referral process.

We are conducting five additional focus groups like this one so that we can design a system that you, the customers say they want, need and will use. We have developed a list of questions addressing issues we feel are important to the success of the referral and placement system and meeting your need to find skilled workers.
During the next 90 minutes, we will be having an open dialogue regarding the workforce development referral and placement process. All of you here today have used the services of one or more of the agencies within workforce development. We will be asking questions about when you have used those agencies and when you have used other referral and recruitment agencies. There are no right or wrong answers. Each of you has equally valuable information and thoughts that we are very interested in hearing. I would encourage you to be as open and honest with during the meeting as you possibly can.

The purpose of our observers is to record what you say. We don’t want to miss any of your ideas. In addition to taking notes, we will be videotaping this session. I want to assure you that all the information gathered at this meeting will be kept confidential and anonymous. The tapes will not be used to identify who said what, but to record all the ideas from the discussion.

Because our time is limited during this session, my role as moderator is to make certain that all topics are covered and to move the discussion along, while ensuring that everyone has a chance to participate in the discussion. As moderator, I want to review the guidelines for participating in a focus group:

- Give priority to those who have not spoken.
- Speak briefly and often.
- Speak one at a time, not on top of each other.
- Be open and honest.
- Be specific. Talk from your own experiences.
- Listen without interruption.
- Present problems. Focus on solutions.
It is okay to disagree, but not be disagreeable.

There are no right or wrong answers. All responses are valid.

"Piggy-back" on (augment) others' answers.

Again, the focus group is scheduled to last approximately 90 minutes. Are there any questions about what we are going to do today or about anything that I have said? Okay, let's turn on the tape and begin our discussion.

Case Studies

Module 3
CASE STUDY EXAMPLE

MODULE 3. COLLECTING AND USING CUSTOMER FEEDBACK

CENTRAL TEXAS PRIVATE INDUSTRY COUNCIL

In Central Texas, a “bottom-up” approach was used to develop a customer-driven service delivery system. First, a customer satisfaction survey was used to establish the baseline by which to measure expected improvements. When reviewing the survey results, it became clear that “while we knew how customers felt about what mattered to us, we were no closer to understanding how customers felt about what mattered to them”. Central Texas then moved “Beyond the Survey” and selected a multiple focus group format as stage two in their efforts to facilitate a customer communication process. The focus group plan included four job seeker focus groups and two employer focus groups, followed by a front-line staff “workshop”. The front-line staff workgroup included representatives from all of the One-Stop partners, who were tasked with analyzing the focus group responses and recommending service improvements.

Focus group participants were solicited through multiple methods of marketing, including news releases, display advertising, public service announcements and Chamber of Commerce newsletters. Each of the focus groups was provided with a “Customer Information Packet”, which included an individualized “thank-you” letter and informational brochures about One-Stop services. The focus group questions were carefully crafted by staff (“Don’t ask about things that you can’t fix!” advises strategic planner and project director Linda Angel). The University of Central Texas Research Institute provided skilled “neutral” moderators.

A summary of the key points brought out through the focus groups was developed by the facilitators and presented to the One-Stop Career Center Staff and the Central Texas Workforce Development Board. Examples of areas identified from the focus groups for Board consideration are as follows:

---

1 Central Texas has been using customer satisfaction surveys and customer (and staff) focus groups to guide the strategic planning process since 1995. Plans are in the works to move “Beyond the Survey and Beyond the Focus Groups” and develop an “on-line” customer survey to augment their customer satisfaction measurement system.
The clearest challenge identified from the job seeker focus group discussion was the need to have personalized care and attention while still maintaining and/or developing the ability to serve large numbers of customers.

Job seekers identified difficulties associated with parking, accessibility, and service locations.

Employers desired access to enhanced services that are built upon those that are currently available. Elimination of current services was strongly discouraged. Primarily, employers were noted to want a system which provides rapid response for the identification of quality applicants.

Employers described “quality” services as customer friendly, including access to computers and staff visiting employers on-site.

Employers recommended “team” service delivery – with staff members establishing habitual relationships with their employer customers; teams would include specialists to handle special needs. (Examples of specialist services include disabilities, veterans, technical assistance, etc.)

Front-line staff noted that the new system would require generalists (who know a little about all agencies and services) and specialists (who are experts in the requirements of a specific function and service). Staff felt that true integration would require a significant increase in cross-agency and cross-functional training as well as an increase in general information dissemination.

Based upon the focus group responses and the front-line staff recommendations, a Customer Satisfaction Strategic Plan was developed that included specific recommendations to address challenges such as communication, accessibility, integration, training, job seeker and employer services. Copies of the focus group questions and the customer satisfaction survey results are provided on the following pages.

In the words of a Central Texas employer, “in Central Texas we asked customers what they wanted, and began making what sells, as opposed to selling what we make.” (From Measuring Customer Satisfaction Beyond the Survey, Linda Angel, Central Texas Workforce Development Board, Belton, Texas)

Three exhibits are included as examples of the tools used to collect customer feedback by the Central Texas Private Industry Council. Exhibit 3-1 lists the questions posed at focus groups with job seekers. Exhibit 3-2 lists the questions posed at focus
groups with employers. Exhibit 3-3 lists the questions that were used in a mail survey of all JTPA participants and summarizes the customer feedback obtained from the survey.

(Case Study Completed January 1999)

Insert blank page here when making double-sided copies
Job Seeker Questions

- Are you aware of the services currently provided in the Central Texas One-Stop Career Centers? If yes,
- What satisfied you most?
- How could your experience with the One-Stop Centers have been better?
- What more would you like to see One-Stop Centers provide in the future?
- Has anyone had experience working with One-Stop Career Centers before? Why or why not?
- What do you remember?
- What went right?
- What went wrong?
- What kind of job seekers should use the Centers? Why?
- Describe an ideal Center - the kind you would recommend to your best friend.
- What about staff?
- What about facilities?
- What about materials?
- What about services?
- Okay, now, what would "turn you off" about a One-Stop Career Center? Could you give an example?
- What would be an acceptable time to:
  - Wait to be seen?
  - Receive information or services that meets your needs?
  - Expect results (for example, attain employment)?
- Is there anything else?
Employer Questions:

- Have you used any services currently provided in the Central Texas One-Stop Career Centers? If yes, what satisfied you most?
- How could your experience with the One-Stop Centers have been better?
- What would you like to see One-Stop Centers provide in the future?
- Has anyone used a One-Stop Career Center like this before? Why or why not?
- What do you remember?
- What went right?
- What went wrong?
- What kind of employers should use the Centers? Why?
- What kind of job seekers should use the Centers? Why?
- Describe an ideal Center - the kind you would use often.
- What about staff?
- What about facilities?
- What about materials?
- What about services?
- Okay, now, what would “turn you off” about a One-Stop Career Center?
- Could you give an example?
- How long should you have to wait for results?
- Access to successful workers?
- Receive information or services that meets your needs?
- How can the One-Stop Career Centers keep you involved in making it better?
- Is there anything else?
