This document consists of all 25 issues of Volume 11 of "The Hispanic Outlook in Higher Education," a biweekly journal that addresses issues in higher education for Hispanic Americans. Each issue contains several feature articles, a policy update column called "Outlook on Washington," a description of an exemplary program, and a sample student success story. Among topics addressed by feature articles in each issue are: (1) college admissions and the diversity plan of the University of Wisconsin; (2) education and the new Hispanic heritage; (3) Latin American jurists and legal education; (4) bilingual education and academic achievement; (5) Hispanic American achievement, Internet programs, and racial tensions; (6) Hispanic Americans in sports, science, and sociology; (7) Hispanic Americans at the City University of New York; (8) student financial aid and paying for college; (9) international education and the Latino educational agenda; (10) achievement of Hispanic American women; (11) 100 years of community colleges; (12) the new Secretary of Education, Roderick Paige; (13) Hispanic Americans in graduate education; (14) grading the states with regard to higher education; (15) top 100 colleges for Hispanics; (16) Latino accomplishments and Latino history; (17) Hispanic representation in health care; (18) educational change and innovation; (19) caucus of leaders of the American Association for Higher Education and "Hispanic Outlook"; (20) careers, college attendance, and the status of women; (21) affirmative action and the Hispanic American student; (22) Hispanic Americans and the arts; (23) national profile of independent colleges and universities; (24) the internationalization of U.S. higher education; and (25) Volume 11 index. Plan Now to Attend
The Nation’s Most Important
National Conference on Diversity
and Improving Minority Participation
in Postsecondary Education

Sponsored by the
American Council on Education’s
Division of Programs and Analysis
Office of Minorities in Higher Education

Educating All of One Nation

Recognizing the increasing challenges that colleges and universities face in sustaining and expanding educational opportunities for students of color and in defending diversity practices, this conference will:

• Identify and highlight innovative programs that improve access and achievement for students of color.

• Promote institutional change by focusing on diversity in the curriculum, student life, teaching, and employment.

• Encourage greater collaboration among higher education, K-12 education, and business on education reform.

• Help colleges and universities identify and better articulate the benefits of diversity for all students using the context of their institutional missions and societal needs.

• Help institutions analyze and undergird their diversity and affirmative action policies and practices.

¡Saludos!

Now that the new academic year is in full swing, we look forward to continuing to provide depth, in-depth stories, eyebrow-raising accounts, and personal perspectives—all aimed at making you say bmmmmm with every issue. This school year is of particular significance to HO as we celebrate a milestone—our 10th year anniversary—and taken on another. We also welcome our first editor's column, where it'll be my pleasure to regularly communicate, share, and respond.

In this back-to-school issue, we take a look at potpourri of topics such as bilingualism how certain institutions are bridging the cultural gap, and the importance of a biliterate workforce.

Throughout the 2000-01 school year, HO is primed to follow up on affirmative action developments, a dearth of tenured Hispanic faculty, employment and education inequities, and how universities have become more culturally and gender-sensitive.

One of the hot topics abuzz is Census 2000, where Hispanics are taking center stage. Preliminary data shows that the Latino population has experienced an explosive growth, almost a 40 percent increase since the 1990 Census, compared to a four percent total population growth.

The numbers indicate that Latinos have branched outside of traditional metropolitan enclaves. States like Nevada, Georgia, Kansas, Colorado, and Arkansas, in addition to New York, Florida, California, and Texas, have burgeoning Latino communities.

Hispanics comprise more than 31 million out of a total 272 million residents counted. This is invaluable to the Latino community, which is eager to finally achieve adequate representation in government, employment, education, and, a contentiously divisive subject, funding.

Take note, y hasta el próximo número.

M. Sarracent
A CAPITOL VIEW

20,000 U.S. Government Websites

BY GUSTAVO A. MELLANDER

Thomas Jefferson once said, “America’s institutions must move forward hand in hand with the progress of the human mind.” Clearly that progress is reflected in the development of the Internet over the past 20 years. Not to be left behind, the U.S. government has also moved into the Internet Age.

Washington is geared up to provide us and our students with a cornucopia of resource material only dreamed of in years past. And it is easily accessible from millions of computers throughout the nation.

There are now more than 20,000 government websites. Here are a few of those most pertinent to students, educators, and Hispanics.

Teachers, parents, and students can access lessons and educational materials on any topic via the Department of Education’s new Gateway to Educational Materials (www.ed.gov/free). Which connects users to more than 140 websites.

Agencies from across the federal government joined forces to provide Federal Resources for Academic Excellence (www.ed.gov/free), which makes hundreds of education resources available on the Web for teachers, students, or parents. Subjects range from an architectural tour of the National Gallery of Art’s East Building to a mutual fund cost calculator from the Securities and Exchange Commission.

Need a government statistic? FedStats (www.fedstats.gov) provides a single point of entry to 40 federal statistical programs. Since its inception in May 1997, FedStats has logged more than 35 million user sessions.

With Access America for Students (www.students.gov), students can gain information on how to obtain financial aid, pay their student loans, and get career information.

Learn how students can pay back student loans by volunteering in their communities through the Corporation for National Service (www.cns.gov).

Get information on choosing a health plan, a doctor, or a course of treatment, or a long-term care facility at the Department of Health and Human Service’s Healthfinder service (www.healthfinder.gov) provides information on the latest health research, different illnesses, and a host of medical resources. It served more than 4.5 million visitors in 1999.

Start your own business with help from the Small Business Administration (www.sba.gov). Offers information on loans and outreach initiatives for women and minority-owned businesses, e-mail counseling and mentoring, online educational courses, and a database of federal, state, and private contracts available to small firms.

Protect yourself and your children from environmental hazards. Secure data about drinking water quality, toxic air releases, hazardous waste in your neighborhood, water discharge permits, and superfund sites at the Environmental Protection Agency’s (www.epa.gov) Environmapper site.

Begin planning for retirement by computing your estimated Social Security benefits online at the Social Security Administration (www.ssa.gov). Explains how to obtain a Social Security number and provides information for employers on reporting earnings.

Is it possible that you or someone you know might be owed pension benefits without knowing it? The Pension Benefit Guaranty Corporation (www.pbgc.gov) reunites people with missing pensions, and features an online Pension Search Directory that allows you to find benefits that might be owed to you.

Learn how to get health insurance for your children through the Children’s Health Insurance Program (www.insurekidsnow.gov). CHIP’s webpage offers state-specific information on who is eligible and how to enroll.

Buy your first home with help from the Department of Housing and Urban Development (www.hud.gov). HUD’s webpage provides a comprehensive homebuyer’s kit, complete with searchable databases of HUD homes for sale, condominiums, and developments approved for FHA financing, and HUD approved lenders.

Learn food safety and handling tips, proper cooking temperature for food, how to test whether your own kitchen is safe from foodborne illness. Provided by the Department of Agriculture (www.foodsafety.gov).

Find a fuel-efficient car with help from the Department of Energy and the Environmental Protection Agency’s (www.eere.energy.gov) Environmapper site.

Kids, parents, and coaches can get tips from the U.S. Women's Soccer Team (and other experts) on good reasons not to smoke—for instance, not being able to run down the soccer field—on the Smoke-Free Kids website (www.smokefree.gov).

Curious about online trading? Learn how to invest wisely and avoid fraud on the Internet from the Securities and Exchange Commission (www.sec.gov).

Travelers can check for weather-related delays using the Federal Aviation Administration’s website (www.fly.faa.gov), which received nearly a million hits since its launch on April 2000, with the number of visitors doubling every week.

The Federal Emergency Management Agency (www.fema.gov) website provides information on where to find temporary shelters, crisis counseling, or legal counseling, and help in applying for help in rebuilding your home.

Find the Veterans’ Medical Center nearest you. Verify benefits you might qualify for, with help from the Department of Veterans’ Affairs (www.va.gov).

Learn about your Medicare benefits, get information about nursing homes in your area, or report suspected Medicare fraud. The Health Care Financing Administration’s (www.hcfa.gov) webpage also provides an online version of the Medicare & You 2000 handbook.

Dr. Mellander is a professor at George Mason University.

University of Wisconsin's Plan 2008: Doing It Better the Second Time Around

*New Diversity Plan at University of Wisconsin*

**BY**

**Inés Pinto Alicea**

University of Wisconsin officials say they are encouraged by the progress being made to diversify their 26 campuses. Critics were skeptical of their ability to succeed.

“I've seen movement where I didn't think I would see movement,” said Andrea Teresa “Tess” Arenas, assistant vice president for academic affairs for the University of Wisconsin system and senior advisor to the president for multicultural affairs. Arenas is overseeing progress at the system's four-year and two-year campuses.

“I'm pleased, and I'm a hard person to please. There is this sense of momentum.”

The UW system board of regents agreed in May 1998 to undergo a radical change in how it attempted to diversify its campuses. It abandoned numerical goals for minority enrollment and ended racial preferences in admissions. Instead, the board adopted PLAN 2008: Educational Quality Through Racial and Ethnic Diversity, which they said would diversify their campuses yet help them avoid affirmative action lawsuits. Each institution submitted its own 10-year plan, specifying initiatives to undertake to advance the goals of PLAN 2008 and identifying accountability measures it would use to demonstrate success.

The overall goal of PLAN 2008 is to bring participation and graduation rates for minorities in the UW system in line with the student body as a whole.

Critics, however, said that without specific, written numerical goals, it would be impossible to succeed. The system's annual accountability report does in fact offer a lot of numbers and gauges progress through numbers. For example, Latino enrollment jumped 8.6 percent from 1998 to 1999. Southeast Asian Americans accounted for the largest enrollment leap, with a 27.9 percent increase between those two years. But the numbers provide a mixed picture whose outcome won't be clear for a few more years. For example, while the percentage of Hispanic students who earned bachelor's degrees from 1989 to 1999 grew 99 percent, the percentage of Latino students earning all types of degrees slipped more than 11 percent between 1998 and 1999. Of the 25,000 degrees conferred in the 1997-98 school year, only about
The UW System has come far since 1944 when the UW-Madison University Club refused to accommodate Arthur Blake, a black graduate student. Undeniably, the UW System has still farther to go to achieve its diversity goals.

Racial/Ethnic Enrollment as a Percent of Total UW System, Fall 1998 Enrollment

Hispanic enrollment grew the most between ’89 and ’99—systemwide, from 371 students to 764, an increase of 105 percent. Yet they still comprised just 19 percent of the total student population in 1999. In the fall of 1998, only eight percent, or 12,000 students, were minorities.

Major goals of the overall plan include increasing the number of Wisconsin high school graduates of color who enroll, encouraging partnerships that build the educational pipeline, closing the achievement gap, increasing financial aid for needy students, improving accountability, and increasing faculty and staff of color.

Of the 10,450 faculty and instructional staff members in 1998, some 950 or nine percent were people of color.

Under those goals are many action steps: sponsoring precollege programs, increasing undergraduate or graduate scholarships, creating faculty and staff recruitment packages, supporting race/ethnic studies research, funding multicultural educational experiences and a campus climate hospitable to all students, providing undergraduate and graduate internships, and helping to create administrative internships for faculty and endowed chairs at various campuses.

Some sites have added their own twists to the umbrella plan. The Stevens Point campus is offering precollege programs for the migrant population in the area, both adults and children. Parkside campus includes consideration of diversity issues in teaching evaluations—giving significant weight to successful infusion of diversity issues in the classroom and the curriculum.

La Crosse determined that merit increases for deans, division heads, department chairs, and directors will be tied to their diversity efforts in accomplishing the goals of the campus PLAN 2008.

River Falls is working on improving retention by pairing high school students of color with faculty members in a research program prior to the start of college.

The Stout campus is investigating the possibility of offering a minor in ethnic studies. Eau Claire is piloting a “Grow Your Own Program” to expand its pool of academic staff minority applicants in underutilized disciplines by hiring at the master’s level and providing partial support for doctoral work.

One interesting aspect of the diversity plan is the call by several campuses to get their private foundations to finance their diversity efforts. They say that by using those foundations that raise private funds, they can offer race-based scholarships without encountering the legal and political questions that would arise if state funds were used. UW officials argue that they need such scholarships to diversify their campuses and to compete for students. A higher proportion of minority students—6 percent—graduate with debt as compared to all students, where the percentage is 58.

64 percent or 1,657 were conferred to students of color.

"Undeniably, the UW System has still farther to go…," said PLAN 2008. "That does not mean we should not make the effort. It means there is no more time to lose."

In Wisconsin, by the year 2025, the percentage of people of color in the total population will increase from 9.9 percent to 16.9 percent. People of color of traditional college age, 18-24, will increase from 12.9 percent to 21.7 percent. By 2025, Hispanics will comprise 5.1 percent of that population in Wisconsin.

UW-Milwaukee

UW-Milwaukee listed among its goals a plan to raise $25 million for scholarships for minority and low-income students.

“The campus had to step up...”

Lisa Reavill, director of the Academic Success Center
and make a commitment to these kids," said Gary L. Williams, UW-Milwaukee’s assistant vice chancellor for academic and multicultural affairs.

"Private institutions have been offering much better financial aid packages than public institutions," said Lisa Reavill, director of the Academic Success Center, which provides support services at the River Falls campus in the areas of career, counseling, health, and multicultural issues.

Reavill said her campus has been tracking retention of minority students for a decade. In the first eight years, the retention of minority students always stood 10 to 15 percentage points lower than that of white students. But in the last two years, minority students are being retained at the same rate as white students. Also, the number of students of color who enrolled at River Falls in the fall of 1999 was 247 and the previous year, 221, she said. The campus has worked hard to keep its minority students and has taken some proactive steps to do so, including sponsoring four multicultural organizations, providing faculty development money to integrate multicultural content into its courses, and offering a multicultural activity series.

"We want people to stay," said Reavill. She said too that the campus’ staff is spending more time recruiting students of color, including visiting Native American reservations across the state. The academic success center she runs now has a full-time person assigned to offering counseling to students of color on picking the right major, summer employment, and other issues.

UW-Milwaukee’s Williams led a group on campus to develop a document called “The Milwaukee Commitment” in response to the regents’ decision to end racial preferences in admissions. The document calls for a campus student population and a faculty and staff cadre that reflects the diversity of Milwaukee.

“We’ve set some goals,” said Williams. “We have not set quotas. We don’t have two sets of admissions criteria. If you look at the different campus plans, you’ll see some ambitious plans, very diversified plans tailored to the demographics of the area. As an urban campus, we decided we had to look like an urban area.”

Milwaukee, a city of some 628,000 people, has a population that is nearly one-third African American and a population of Latinos that stands at more than 370,000. The campus of nearly 23,000 students has made some progress in boosting Latino enrollment. In 1999, there were 598 Latino students. By 1999, that number had grown to 862.

Critics say that since the state is 92 percent white, tying their diversity efforts to the local student population is not an effective way to increase minority student enrollment. Williams agrees.

"We have to recruit students much like we recruit athletes," said Williams. "You go after them. We’re talking it up."

Williams said, however, that the school recognizes that some students might not fit the profile of the students they are seeking. They have established an alternative admissions program in which students who truly want to attend the University can submit additional information and meet with school officials.

A major thrust of the Wisconsin diversity plan is the effort to boost precollege programs throughout the state—tripling the number of students in the precollege program by 2008. Statistics show that 92 percent of participants graduate from high school and 65 percent go to college, but a lack of funding for the programs has limited the number of students who can participate. Of 6,640 precollege students served by UW institutions in 1998-99, some 35 percent were minorities.

W. Lee Hansen, a professor
emeritus of economics at Madison who has studied admissions policies nationwide, argues that the board of regents should not focus so much on precollege programs, which he said serve just students who are already intending to go to college. The state should emphasize improving the academic quality of the state’s public schools.

Williams disagrees, saying that the precollege programs are effective and they do attract minority students. More than 2,000 students participate in the Milwaukee program yearly, and the precollege programs have been altered to address the different needs of high school students.

“Because of the economy, the students have an opportunity to earn money in the summers,” said Williams. “The students don’t have that opportunity if they are participating in a precollege program. To address this situation, the programs started offering half days of classes so students who wanted to earn some money during the summer could do both.

PLAN 2008 is the successor to Design for Diversity, the University of Wisconsin’s first long-range plan for racial and ethnic diversity, adopted in 1988. Design for Diversity was said to have fallen short in a number of its goals, including efforts to double the number of minority students within a decade. The University used numerical goals in 1988 to determine if their efforts to diversity were working, and it did have some successes. The plan called for increasing faculty and staff of color by 75 percent within five years, which it did. It established ethnic studies as a general education or graduation requirement at every campus. It provided for a minority/disadvantaged coordinator at each institution.

“Nationwide, the idea of affirmative action is being challenged by those who believe it is no longer necessary, no longer practical or no longer legal,” said PLAN 2008, which is designed to achieve its goals “in accordance with, but without exclusive dependence on, existing affirmative action statutes.”

Reavill, who has worked for the UW system for 10 years, said she feels that PLAN 2008 is better than the previous diversity plan because it has more specific, concrete goals and because the state is providing more money to make it succeed.

“The state is providing the resources to get things done,” said Reavill. “There is a desire to do it better the second time around. The plan had a lot of input from different levels. The president of the system said they would hold the chancellors responsible for getting results.”

“Some people gave it to me right between the eyes,” said Williams. “Some of them said that the last 10-year plan got shelved and nothing happened. I can assure them this won’t get shelved. Everybody is on board. We have the commitment of the chancellor.”

Williams said that the Milwaukee campus has already accomplished some of the goals it set out to achieve when it released its plan publicly in June last year. The University planned to double its enrollment in precollege programs within five years and has already done that. The University also sought to hire a multicultural librarian, and did so recently.

“We’re moving along,” said Williams. “We’ll get there.”

Reavill agreed, saying that her campus adopted 45 action steps to achieve in their plan.

“We will keep chipping away at these steps,” Reavill said.
Admissions Advice: Apply Early

By Amalia Duarte

Survey Shows Online Applications, Class Size, and Early Decisions All Up
E-applications
But the biggest trend in this year's report is that of students going online to apply for college. The impact of the Internet on education is not news. But the increase in online applications as reflected in this latest report is pretty dramatic. Just two years ago, more than half of the schools responding to the survey reported that they didn't even offer online applications. The following year, which looked at the 1998 admissions cycle, 55 percent reported using the Internet. CB dubbed it the "Year of the (E)application."

Clearly, the Internet generation prefers clicking a mouse to licking a stamp.

Of the colleges and universities surveyed, 67 percent reported that they had received more online applications in 1999 than in 1998, a result of broader Internet access among students and a marked rise in the number of institutions offering online applications. For small schools, it's a chance to reach a wider audience. Alma College in (D.C.) director of admissions, Joseph Blassberg, in the survey. "More e-mail!" was reported at Nova Southeastern University in Florida, by Director of Admissions Jean Lewis. "More students obtaining information from the Web. More students applying via the Web," according to Erika Heet, publications coordinator at the University of California at Santa Cruz.

And, of course, schools are bragging about their wired environments. "Every incoming student receives a laptop," reported Alyssa McCloud, acting director of admissions at Seton Hall University (N.J.). "We're the #1 wired Catholic university in the nation."

Visiting Campuses
Despite the popularity of the Web, nothing beats a campus visit. Admissions officers across the country still strongly recommended a live tour to get a real feel for campus life. "Tour the campuses in which you are interested," counseled Associate Dean of Undergraduate Admissions Joseph Marrone at the University of Bridgeport in Connecticut. "Talk to students and alumni, if possible." Reina Gold, director of admissions at List College, the Undergraduate School of Jewish Theological Seminary of America (N.Y.), gave this bit of advice: "Visit schools before you apply. You may see something that will change your mind positively or negatively about the schools you think you want to attend."

Minority Update
In terms of minority enrollment, CB's survey didn't single out any noteworthy trends this year. But the numbers do show a positive upswing in Hispanic acceptances. Of the 126 schools surveyed, 40 percent reported an increase in their Hispanic admits, and another 27 percent stated that they'd admitted the same number of Hispanics as in the previous year. This is good...
news, but it marks a dip from the 1999 survey in which 64 percent of schools reported admitting higher numbers of Hispanic students.

At the same time, it's hard to draw any conclusions from this survey about minority enrollment for a number of reasons. First, the random survey doesn't track data for the same schools from one year to the next. And the survey also doesn't collect actual numbers of minorities. So, the percentage increases could reflect a mere handful of students or hundreds.

More Applicants

Other major trends in the survey include the continued rise in the total numbers of applications received by colleges and universities and in larger first-year classes. An overwhelming majority—77 percent of respondents—said they'd gotten more applications in 1999 than in 1998. This marks a jump over the past two surveys in which about two-thirds of institutions said they'd experienced an uptick in applications.

And big is definitely in. Some 57 percent of survey participants reported a larger first-year class than in the year prior. Again, this is an ongoing long-term trend. The 1998 survey found 74 percent of respondents reported larger class sizes; the year before, the figure was 67 percent.

The competition for admissions is, apparently, heating up as well. This year's survey of the 1999 admissions cycle reported that 35 percent of schools sent out fewer acceptance letters than they had the year before; 34 percent in the 1998 survey; 28 percent in the 1997 survey.

Fueling the competition is the fact that more students are banking on early decision as a strategy to get into their favorite school. Early decision continues to grow in popularity and has been climbing in College Bound's survey over the past three years. This year, about half of the participating schools offered early decision, and of those, 32 percent received more applications under that option. For example, at Muhlenberg College (Pa.), Dean of Admission and Financial Aid Christopher Hooker-Haring told College Bound, "For the class that just entered, we filled 201 seats on a total class target of 500 via Early Decision. This left us looking at over 3,000 applications for the remaining 299..."

The new reality for potential college goers is that it's getting harder to get in. "Students are beginning their college search as early as sophomore year," reported Kenneth MacKenzie, associate director, Office of Enrollment Planning at Boston University. "Our applicant pool has grown in both volume as well as quality. This translated into the strongest matriculated pool in the University's history." To combat the competition, Hooker-Haring reported that students should make sure "there are at least one or two colleges in the application group that are virtual sure thing 'accepts.'"

But underneath all these trends, one piece of advice remains the same. The refrain echoed by admissions officers all over the country is "Apply early."

---

**CALL FOR PAPERS**

**National Association of Hispanic & Latino Studies**

**National Conference**
**February 12-17, 2001**
**Houston, Texas**

Abstracts, not to exceed two pages, should be submitted which relate to any aspect of the Hispanic and Latino American experience. Subjects may include but are not limited to literature, demographics, history, politics, economics, education, health care, fine arts, religion, social sciences, business and many other subjects. Please indicate the time required for presentation of your paper (25 minutes/45 minutes).

**ABSTRACTS WITH HOME AND SCHOOL/AGENCY ADDRESS MUST BE POSTMARKED BY:** November 17, 2000

**SEND ABSTRACTS TO:**
Dr. Lemuel Berry, Jr.
Executive Director, NAHLS
Morehead State University
212 Rader Hall
Morehead, KY 40351

**THE UNIVERSITY OF UTAH**

**TENURE TRACK POSITION IN HIGH ENERGY/ASTROPARTICLE THEORY**

The Department of Physics at the University of Utah invites applications for a tenure-track, Assistant/Associate faculty position to begin August 2001 in the field of theoretical high energy physics. A research interest in astroparticle physics is desirable. A Ph.D. degree in physics or a related field is required. The successful candidate must be able to teach effectively at both the undergraduate and graduate levels. Recently, the Physics Department conducts research in lattice QCD, string theory, relativistic astrophysics, and the large-scale structure of the universe. It has a strong effort in computational physics and experimental high energy astrophysics. Further information may be found at the URL: http://www.physics.utah.edu

The deadline for receipt of application materials is December 15, 2000. A letter of interest, statement of research plan, vita publication list and three letters of recommendation should be sent to:

High Energy Search Committee Chair,
Department of Physics, University of Utah
115 South 1400 East, Rm 201,
Salt Lake City, UT 84112-0830

The University of Utah is an equal opportunity/affirmative action employer. It encourages applications from women and minorities and provides reasonable accommodations to the known disabilities of applicants and employees.
Latinos, Higher Education, Both Parties Courting Hispanics and the

BY INÉS PINTO ALICEA

Like all other interest groups, advocates for Latinos and advocates for higher education are clamoring for attention from the Democratic and Republican parties as the presidential election nears, and hoping that their causes will progress in the next administration.

In many areas, the two groups share common goals.

Both parties are catering more than ever before to the Latino vote. Both assigned Latinos to leadership positions and prominent speaking roles for their presidential nominating conventions. In 1996, only three percent of the Republican convention delegates were Latinos, and about 11 percent of those attending the Democratic convention. The numbers at this year’s convention remained about the same for the Democrats. The Republicans did not have data available, said GOP National Committee spokeswoman Leslie Sánchez.

The attention to the higher education community has been less visible, although several groups, including the American Council on Education (ACE), were invited to meet with party leaders to discuss their interests.

“Both parties are talking about education, but higher education is not showing up on the radar screen,” said Terry Hartle, senior vice president for the Washington-based ACE. “Perhaps it’s because the higher education mechanism is operating fairly well so they don’t want to change much.”

Still, higher education and Latino groups submitted wish lists to both parties of what they would like to see accomplished in the next administration, and all will submit copies to the transition team of the elected candidate. But most of the attention has focused on the Latino voting bloc.

The Latino vote is being taken more seriously in this campaign because of the sheer growth in the Latino population and also because large numbers of Latinos are located in states that are key to an electoral victory, states such as California, Illinois, and New York.

Estimates vary as to how many Latinos will vote, but Sánchez cast the number around eight million.

A Latina from El Paso, Texas, Lydia Camarillo, was named CEO of the Democratic National Convention Committee, becoming the first Hispanic woman to hold such a post for either major party. She has said her appointment signifies that Latinos are playing a growing role in politics. Camarillo previously headed the Southwest Voter Registration and Education Project, where she led a get-out-the-vote drive that boosted the numbers of Hispanic voters who showed up at the polls in 1996.

The Democratic presidential nominating convention was held Aug. 14-17 in Los Angeles.

Delia Pompa, executive director of the Washington-based National Association of Bilingual Education, praised Gore for his efforts as vice president on education issues and how they affected the Latino community. She said Gore was a major supporter of the Hispanic Education Plan, a federal initiative designed to improve Latino access to federal education programs. “He was a proponent and concerned about the education of Hispanics,” Pompa said.

Republicans worked hard to present a more diverse image at their presidential nominating convention July 31-Aug. 3. Many speakers were minorities or women, and a Latino, African American, and a woman shared the role of co-chairs of the convention.

The GOP said that four Latinos served on its 107-member platform committee. The Democratic National Committee reported 15 Latinos among 186 members.

Both Democrat Albert Gore and Republican George W. Bush have...
Education Advocates Are in There Pitching

attempted to mold some of their proposals to better meet the needs of minority voters, including their proposals on education.

In April, Gore told The New York Times that he would hold back aid from states that did not reduce the gap in dropout rates between minority and non-minority students and between low-income and middle-income students.

The Bush campaign literature cites several statistics to highlight his concerns on minority issues and education. For example, he said that even though African American and Hispanic students make up about 30 percent of public school students, they comprise only nine percent of Advanced Placement Calculus test takers. A similar disparity exists for AP biology. And according to the most recent National Assessment of Education Progress in math, the average score for African American and Hispanic eighth graders was below the basic level, which means they could add two-digit numbers but had difficulty with subtraction, multiplication, and division problems beyond one-digit calculations.

Bush Proposals

Gov. Bush said his education proposals are necessary to address the gaps in education. His proposals include the following:

- Provide incentives to high school students who take advanced college preparation courses in math and science by offering them an enhanced Pell Grant of an additional $1,000 to pay for college.
- Encourage math, technology, engineering, and science majors and minors to teach in public schools with a high percentage of low-income students for five years by forgiving from $5,000 to $17,500 in college loans.
- Establish a math and science partnership fund of $1 billion over five years to join states and institutions of higher education to strengthen K-12 math and science education. Those states involved would agree to meet clear accountability measures in boosting student achievement in math and science.

Gore Proposals

Among Gore's proposals are the following:

- Offer a College Opportunity Tax Cut that would provide a choice between a tax deduction or a 28 percent tax credit on up to $10,000 in tuition in order to make college, graduate school, and courses taken for a job more affordable. The plan would offer individuals up to $2,800 annually in tax relief per family and would give individuals in lower tax brackets the same amount of relief as those in higher brackets.
- Provide a savings incentive for families sending someone to college. He has proposed new 401(j) accounts that allow individuals and their employers to put money away to save for job training, education, and lifelong learning for themselves or their families and let those savings grow tax-free.
- Institute a 21st Century National Teacher Corps to eventually help 75,000 qualified people each year become teachers in high-need urban and rural schools.
- Require that all new teachers be tested for subject matter knowledge and teaching skills before they enter the classroom.
- Help high-poverty urban and rural school districts attract and retain high-quality teachers and principals through better pay and higher standards.

K-12

Bush and Gore both also offer proposals for elementary and secondary education, but their proposals sound similar. Both call for more charter schools, and both call for giving parents a choice as to where to send their child if the child is in a low-performing school. Gore, however, opposes using
federal funds to allow parents to send their children to a private school.

Both candidates call for punitive steps to be taken against low-performing schools.

"Both Gore and Bush are sensitive to the problems and issues associated with the lower than average college participation rate and high school graduation rate of Hispanics," said David Baine, director of governmental relations at the Washington-based American Association of Community Colleges.

Ramón Cortines, interim superintendent of the Los Angeles School District, told the Los Angeles Times that Gore's proposals to improve elementary and secondary education move "in the right direction" for improving teacher quality. "I don't see it as federal interference," Cortines said. "These are the kinds of things legislatures are talking about, boards of education, mayors as well as school people. I think he's been very smart: Instead of telling, I think he's listening."

Pompa said her organization was pleased that both platforms call for more accountability in the education system. "Both platforms are also favorable on bilingual education," Pompa said.

Baine said Gore's proposal to offer tax credits to workers who save money for furthering their education and training is a positive move.

Baine said too that Bush's education proposals go farther than those of previous GOP platforms but that Gore's seem a bit more ambitious from the standpoint of the education community. Still, Baine said that neither candidate has made "huge pie in the sky" proposals on education. Baine said his organization would like to see more emphasis placed by both candidates on enhancing the Pell Grant program.

"Pell grants tend to be more important to our colleges because of the cost structure of our colleges," said Baine. "We feel pretty strongly that neither candidate has emphasized Pell Grants." Peter Smith, director of public affairs for the Washington-based Association of American Universities, which represents the top 61 research universities in the country, said that the schools his organization represents were pleased with Senator Lieberman as Gore's choice for running mate.

"Lieberman is considered a champion of university research," Smith said. "That's pleasing for us."

Hartle said he was pleased with both Bush and Gore choices for running mates because he felt they chose "serious and substantial" candidates. There is nothing there to trouble anyone in higher education," he added.

But Smith said that historically Democrats have not been as supportive of basic research as have Republicans, though the Clinton administration has had a more favorable outlook than that of previous Democratic administrations. His organization is seeking increased funds for university research.

Smith said, however, he did not feel a candidate's platform should be given so much significance. "It's kind of historically less than reliable as a predictor of presidential behavior once he gets into office," said Smith.

Hartle said he felt that a platform is a good indicator of the tone of the future presidency and that "Typically, a platform gives attention to issues of great concern."

Hartle said his organization was concerned about Bush's proposal to offer enhanced Pell Grants to students who take advanced math or science courses because those grants traditionally have been given just to low-income students. He said it would also be extremely difficult to keep track of which students take or don't take the coursework. And that "for both philosophical and operational reasons, this will be a complex issue."

Hartle said that this year's GOP platform was overall a more positive document than that of 1996. "They laid out what they want to do in a non-hostile and less aggressive way."

Guadencindo Salas, vice president for governmental relations of HACU, the Hispanic Association of Colleges and Universities, helped prepare the education section of a document sent to both parties outlining what the National Hispanic Leadership Agenda, a coalition of the nation's largest groups, felt the Latino community would like to see accomplished by the next administration.

"We have identified what the Hispanic community needs in many areas," said Salas. "That's the road map for the next four years."

Sarah Flanagan, vice president for government relations and policy development for the Washington-based National Association of Colleges and Universities, said her organization's agenda is three-fold and that the organization will work closely with the next administration to achieve those goals.

"To maintain affordable and accessible higher education, full support of the need-based student aid programs must remain at the center of the federal government's higher education plan," said Flanagan, one of their first goal, adding that the organization feels that government support of these programs has increased significantly in recent years. Still, she said, more needs to be done.

"Fortunately, given the strong bipartisan support for these programs in Congress, we fully expect this to happen" she said. "We are also committed to working with the next administration to pass widely supported tax provisions that will help millions of students and their families to pay for, save for, and pay for college. In addition, we hope the next administration will help institutions enhance their affordability by supporting tax incentives for donors who generously contribute to higher education through philanthropic giving."
Barry University
Now Boasting a School of Law

by Roger Deitz

It is written that back in 1997, Barry University faced an uphill battle against Florida's State Board of Education, which was solidly against the Catholic school's merger with South Florida's public television and radio station WXEL. A number of newspapers questioned the move, and public universities clamored for access to the right to broadcast to the area known as the Florida "Treasure Coast."

Barry president, Sister Jeanne O'Laughlin, OP, Ph.D., pressed on in her Tallahassee meeting with the cabinet and late Governor Lawton Chiles. She ardently reminded them, "We're the ones who stepped in to help, and we're the ones dedicated to preserving the people's access to free, local public TV." The board voted to defer, and less than two months later, the state approved Barry's merger.

Then, armed with a $2 million gift, Sr. Jeanne helped lead the beleaguered WXEL to a financial turnaround. Six months passed, and the station posted the nation's best ratings improvements among all public television stations. In many ways, this isolated vignette exemplifies both the impact of Sr. Jeanne O'Laughlin on her university, and of Barry University on the community. It is well known around South Florida that no challenge ever daunted this dynamic college president, and there is no surprise watching Barry blossom as a result. CBS This Morning focused a four-minute special report on the educator, broadcasting that she was "part-P.T. Barnum, part-Mother Teresa." This observation is apt, says the many fans who adore and support the dynamic university president.

Assuming the presidency in 1981, Sr. Jeanne encountered a struggling, mostly women's college of 2,000 students. Since then, she has raised more than $140 million and transformed Barry University into a thriving institution of 8,000+ students. Despite its growth, Barry maintains an admirable 13:1 student-to-faculty ratio. With more than 800 employees (up from 340 in 1981) Barry University contributed nearly $200 million to South Florida's economy last year. There are more remarkable facts. Under Sr. Jeanne's leadership, Barry's budget has grown from $8.3 million to more than $108 million. The budget has grown 1,200 percent in 18 consecutive years of surprises. In the past 19 years, Barry has increased its endowment more than 2,000 percent to $18 million.

The University now offers seven doctoral degrees, including the only Doctorate of Podiatric Medicine in the Southeast, and one of seven in the entire nation. As for diversity, 72 countries are repre-

Sr. Jeanne O'Laughlin, OP, Ph.D., Barry University president

sent in the student body. For the second year in a row, Barry University is ranked No.1 in diversity among southern regional universities by U.S. News and World Report.

Last April, the school sponsored the Sixth Annual Festival of Nations to celebrate multiculturalism. The event included a parade of nations, twenty display booths, international foods and dancing, and other live entertainment. Held on the Weber Plaza area of the Barry campus in Miami Shores, a new multicultural workshop was established and aimed at 180 middle school students attending the Barry/Miami Shores Center School, and 35 low-income students from Miami-Dade middle schools. About 30 percent of Barry's enrollment is Hispanic, 17 percent Black, nine percent resident aliens, and six percent international. The latest figures available show that of the 398 new full-time, first-time first-year students in fall 1999, 34 percent were Hispanic. Of the 364 undergraduate students who graduated in May 2000, 40 percent were Hispanic. Of the 267 full-time faculty, 22 are Hispanic.

According to Barry University publicity, it is said to be the only institution of higher education founded and headed by women, the Adrian Dominican Sisters, who first built the college in 1940. Throughout all 60 years, Barry has continued to be led by women, the last 19 years by

Sr. Jeanne. And there are more kudos to be bestowed. With Sr. Jeanne's vision and determination, Barry acquired the University of Orlando School of Law in March of 1999. This makes Barry the only women-founded university in the United States to have a school of law.

The idea for such an institution of higher learning originated with the Most Reverend Patrick Barry, Bishop of St. Augustine, and his sister, Reverend Mother M. Gerald Barry, Priorress General of the Dominican Sisters of Adrian, Michigan. Plans for Barry College received active support from their brother, Reverend William Barry,
Pastor of St. Patrick’s Church of Miami Beach, and John Thompson, Mayor of Miami Shores, Florida.

In June 1940, a forty-acre tract in Miami Shores, covered with tropical vegetation, was transformed into the campus of Barry College. By action of the board of trustees, the College became Barry University on November 13, 1961. Today, Barry's 30 schools provide bachelor's, master's, law, and seven doctoral degrees to more than 8,000 students. The campus community is served by more than 700 administrators, faculty members, and support staff, representing diverse religious, cultural, and ethnic backgrounds. Barry University has had five Adrian Dominican Sisters serve as president since its inception: Mother M. Gerald Barry, Mother M. Genevieve Weber, Sister M. Dorothy Browne, Sister M. Trinita Flood, and today, Sister Jeanne O'Laughlin.

BU is coeducational and fully accredited. Continued development and expansion of the Barry community are promoted to keep pace with the growth and excellence of the educational programs and to meet the needs of the ever-increasing student population.

Today the physical plant includes 40 buildings, indoor and outdoor athletic facilities that utilize 40 of Barry's 122 acres. Monsignor William Barry Library holds the largest collection of Catholic Americana in the Southeast—50,000 items. Every office, classroom, and residence hall on campus is wired for complete computer networking. The tropical beauty of the campus, its excellent educational facilities, and the ideal South Florida climate combine to create an atmosphere conducive to learning and to continued personal development. All of Barry's Division II NCAA teams posted winning records, and many went on to the playoffs. In its 14-year NCAA history, Barry has won four national championships and earned 56 All-Americans and 36 Academic All-Americans. The school hosts off-campus instruction at 249 sites, and as an example of astonishing academic success, 90 percent of premed students are accepted to professional school on their first application attempt.

Last April, it was announced that Barry University would receive a $120,000 grant from the Microsoft Corporation. This provided new tools to bolster students' computer skills. The students can now anticipate a boost in accessible technology allowing for online conferencing, document sharing, task scheduling, and other such innovations. This all comes courtesy of a three-year award of $40,000 each year and an additional $75,000 worth of Microsoft software, allowing professors to establish the Microsoft Exchange environment to reach all of Barry's students on the main campus and 13 satellite campus sites throughout Florida. Barry is one of only five Hispanic Serving Institutions (HSIs) in the nation to win such a grant. Barry will use the grant to purchase a network server to provide enhanced email and messaging capabilities, provide training for technology staff who will in turn train students and faculty in the advanced uses of the software, and allocate mini-grants to selected faculty members to initiate technology-in-training innovations. The Microsoft funds provide a central curriculum development component to a five-year faculty development initiative that Barry is undertaking this year, thanks to a $1.75 million federal Title III grant. The competition among HSIs for these Microsoft grants, which are administered by HACU, was keen.

Acquired in 1999, the Barry University Orlando School of Law enrolls more than 350 students and emphasizes training lawyers to be ethical, moral, and professional practitioners with a strong commitment to public service. With classes averaging 30 students, the nationally recognized faculty of 25 maintains a high level of informal faculty-student interaction. The school has developed an exceptionally good record in outside competitions that test legal skills, unprecedented for a program so young. In addition to the main campus in Orlando, instruction is offered at three off-campus sites.

Barry's School of Graduate Medical Sciences was established in 1985 and anticipates the construction of an on-campus medical facility beginning this year. Class size averages around 55 for the nearly 350 students enrolled in the fully accredited Podiatric Medicine and Physician Assistant programs. In addition to their responsibility for classroom instruction, eighteen full-time and 85 part-time faculty members supervise medical students in 215 clinical sites and maintain a very active community service agenda. The school received two Humanitarian Awards for podiatric work in the Yucatan and has annually donated more than $650,000 in charitable care at Barry's Foot and Ankle Institutes.

Service to the community is essential at Barry. Last year, students logged 3,500 volunteer hours through 30 community service projects. The University is instrumental in helping migrant students access the classroom from farm fields with the MECHA or Migrant Education Consortium for Higher Achievement. The program is a collaboration between Barry University, Bade County Public Schools Migrant Education Program, public television, and others. Funded by a U.S. Department of Education grant, MECHA provides WebTV connections to some 100 Miami-based migrant school children, allowing them to stay connected to their teachers as they travel with their families along the migrant corridor through North Florida, Georgia, and beyond.
Making the Case for a Bilingual Workforce

Schools and Corporations Outline Programs and Strategies

BY MARILYN GILROY

Although the terms bilingual, bicultural, and biliterate are often tossed around interchangeably, the general meaning of these words usually includes the ability to function in two languages and cultures. But even when experts agree on the definition, there is often disagreement on how to deal with the myriad issues that are raised when the concepts are discussed.

For educators, the debate usually centers around different viewpoints on the following question: How can bilingual education help the U.S. ensure that all of its children receive the opportunity to achieve a quality education and the opportunities that it provides?

A second voice, that of business leaders, has been added to the dialogue as they increasingly ask: Where can we find the vast numbers of biliterate workers needed for the global economy?

"That is why I am challenging our nation to increase the number of dual-language schools to at least 1,000 over the next five years, and with strong federal, state, and local support, we can have many more."

RICHARD W. RILEY, U.S. SECRETARY OF EDUCATION

And of course, politicians want to know: What policies and programs should be put into effect to create progress on both of these issues?

Many educational, corporate, and government leaders are trying to agree on common goals and strategies that might begin to answer all of these questions. There is increasing evidence that the educational system and the corporate sector are forming alliances to help achieve the goal of a biliterate workforce while providing equity in educational opportunities for students from elementary school to college. And these partnerships are getting a boost at the national level through various federal initiatives.

Last spring, the White House Initiative on Educational Excellence for Hispanic Americans held a policy seminar entitled "K-16 Strategies to Develop a..."
Bilingual Workforce:" Panelists from the public and private sectors were chosen to speak about different approaches to the subject. Presenters included a representative from higher education, a corporate executive, a small-business leader, a researcher, and a public school administrator.

The seminar also featured U.S. Secretary of Education Richard W. Riley, who gave an overall perspective and offered the position that "language may be the center of future opportunities for the Hispanic community and the nation."

"Proficiency in English and one other language is something that we need to encourage among all young people," said Riley. "It is high time that we begin to treat language skills as the asset they are, particularly in this global economy. Anything that encourages a person to know more than one language is positive—and should be treated as such."

Although Riley and policymakers at the Department of Education say that their first concern is the education of citizens in the most diverse nation in the world, they also acknowledge that there are benefits for the entire community, including the corporate world.

Those benefits are being pursued aggressively by business leaders who are expressing their support for bilingual skills by speaking out in newspaper interviews, seminars, and surveys. The concerns come from large corporations and small business owners who are indicating a dire need for workers with bilingual abilities.

Seeking Bilingual Workers

A recent article from The Center for Applied Linguistics in Washington, D.C., "The Benefits of a Multilingual Workforce," summarized the need and views of top companies doing business in a diverse marketplace. Chase Manhattan is cited as an organization that conducts business in 52 countries and has 75,000 employees around the world, especially in key Asian and Hispanic markets. As one Chase executive says, "People with multilingual skills command a premium." Even at home, Chase's New York Chinatown branch bank serves local residents who speak Chinese, Korean, Spanish, or Vietnamese—and Chase must find employees who are proficient in at least one of those languages.

This same article quoted an AT&T official who reported that the company uses 1,200 interpreters in 140 languages, with 60 percent of its business volume being in Spanish. Other corporations, such as Amoco, noted that they are constantly looking for employees with diverse language and cultural backgrounds. Representatives of both companies said they offer bilingual employees higher wages because of the competition for their skills.

But it isn't just the big corporations that need bilingual workers. Healthcare agencies and medical language minorities benefit from the economy when they are fully bilingual. One survey reports that in Dade County, bilingual Hispanics make an average of $7,000 per year more than those who speak only one language.

With the growing need for workers who can communicate in both English and Spanish, it is no wonder that business is pressing the schools to produce fluent bilingual students. To this end, the Miami Chamber of Commerce and the district school board have become partners in finding ways to provide instruction in more than just one language in all grade levels of the public schools.

One way of achieving this goal in Florida as well as in other states is encouraging the dual language approach, which is sometimes referred to as two-way bilingual or dual immersion education.

In his policy address, Secretary Riley says he sees the development of dual-language bilingual programs across the country as the wave of the future. Specifically, Riley noted that about 260 schools have developed programs that help both Spanish- and English-speaking students develop language skills in the other language.

"Our nation needs to encourage more of these kinds of learning opportunities, in many different languages," said Riley. "That is why I am challenging our nation to increase the number of dual-language schools to at least 1,000 over the next five years, and with strong federal, state, and local support, we can have many more."

He called upon leaders at the bilingual policy seminar to understand that we are dealing with a demographic change that requires creative thinking and an eagerness to adapt and to incorporate cultural and linguistic differences into the learning process.

Riley was critical of those who view foreign language with suspicion and treat the idea of bilingual education as controversial and a barrier to success. "I can assure you that when they enter the workforce in several years, we will regret the inability of our children to speak two languages. Our global economy demands it; our children deserve it," he said.

Instead, Riley sees good, solid dual-language bilingual programs as making a difference in helping students learn English and achieve academically.

There is plenty of support for his position. Anna Alicia Romero, education assistant at the
Intercultural Development Research Association (IDRA) Institute for Policy and Leadership, seconded the case for immersion programs in her article “Two-Way Bilingual Programs: The Demand for a Multilingual Workforce.”

“Bilingual education is one of the many ways for schools to increase skill and competency levels among the new generation of the U.S. workforce to benefit everyone,” said Romero.

Romero says that children speaking little or no English are often viewed as burdens to the education system because they require extra resources to educate them. Instead, she argues, they should be seen as assets because the global economy is forcing the U.S. public schools to produce the workforce necessary to remain competitive with other countries where multilingualism is accepted and expected.

Two-way bilingual programs, especially in the elementary years, are being used as a way to prepare our children for a different world, she says, “one that is not nationalistic or looks only to one language for trade.” She points out that although there are many two-way programs being offered in Spanish, there are also those conducted in Cantonese, Korean, Navajo, Japanese, and Russian.

Dual-language programs will probably increase because employers in many parts of the nation, especially the South and Southwest, are reporting that they will not be able to sustain economic development without qualified bilingual employees, meaning people who can read, write, and conduct business in other languages.

Educators are quick to note that this is not just an appeal for the teaching of foreign languages. It is the notion of language proficiency that, in the eyes of many, holds much promise for helping students keep up with educational goals and standards. The long-term payoffs include higher salaries for professionals who often find that bonuses and movement to higher positions can be tied to linguistic abilities.

During the policy seminar, Secretary Riley offered broad ideas on why and how dual-language programs could work at the national level while several experts offered concrete suggestions on what teachers, school administrators, and policymakers, and members of the business community can do to foster the learning of languages among children and adults.

Public school administrators can promote language proficiency by developing a case for second-language learning and using planning meetings, PTA meetings, and teacher conferences as a means to build support for the agenda. This means that the curricula in elementary, middle, and high school levels must be restructured to provide course sequencing and instructional time sufficient enough to develop proficiency.

In higher education, some colleges and universities have already responded to the needs and trends. Institutions in Florida and Texas have begun to recruit and train Hispanics for careers in the technologies and health care fields so that they can work in the increasingly bilingual, multicultural commerce environment in those states. One college in southwest Texas offers customized placement services to match pre-screened skilled graduates with specific employer needs.

A Working Program

The University of Texas-Brownsville has developed an ambitious bilingual program at the graduate level. According to Antonio Zavaleta, vice president for external affairs, the University serves primarily a monolingual Spanish, largely foreign population, which makes it crucial that the University implement biliteracy into the curriculum to prepare students to function in both worlds. UT-Brownsville has sought to do this by identifying faculty who are capable of teaching in both languages and by creating biliteracy councils. The key to these initiatives involves training and immersion. The University is teaching in Spanish at the MBA level for certification in workforce biliteracy so that new MBAs have the skills necessary for the workplace.

This strategy seems like sound business theory and practice for corporations and for the nation. According to the Center for Applied Linguistics, proficiency in more than one language expands thinking, improves attitudes and ability to understand the values and views of others, and generates creativity and productivity. The best workers are those who can see problems from many perspectives and communicate effectively with clients and colleagues.

Organizers of the policy seminar hosted by the White House Initiative for Educational Excellence for Hispanic Americans hope that these sessions will create awareness in all sectors that the need for biliterate employees is critical, just as important as technical training was in the '80s and '90s. And although the need for technical training continues, it is imperative that the bilingual skills of America's workers be developed also.
Few Latinos In Ivy League

Best Numbers: Hispanic Grads 9 percent, Faculty 3 Percent

BY
MARÍ CARMEN SARRACENT

With anti-affirmative action watchdogs and the threat of lawsuits looming all over the country, universities nationwide are doing what they can to continue to implement admissions practices that uphold diversity and the best interests of the institutions, the student body, and future applicants.

This effort is one thing that drew Alex Almazan to Stanford University. "Stanford admissions has always made a conscious effort to bring in people of color," he says. "There is also a good group of Latino faculty. The majority of them work very hard, and they are supportive of all students and the community of color." According to faculty data reported to the U.S. Department of Education, three percent of total faculty at Stanford is Hispanic.

Almazan, born and raised in El Paso, Texas, is a senior at Stanford U., majoring in public policy, and he is also president of Los Hermanos de Stanford, a student-run organization on campus. "I got accepted right out of high school to Stanford. Of the universities that I got admitted to, Stanford seemed to have a bigger Latino community. I could find a lot more support. Being at the U.S.-Mexico border, it is a big part of my life being Chicano. It's very important to me." Stanford University in California is No. 1 among the 11 Ivy League institutions for graduating the most Hispanics. These include Brown, Columbia, Cornell, Dartmouth College, Harvard, MIT, Yale, and the University of Pennsylvania along the East Coast, and the University of Chicago in the Midwest.

Latino students who earned bachelor's degrees in 1997 (the most current data made available to DOE) represented nine percent (159) out of 1,694 total bachelor's. Latinas accounted for 10 percent of all women on whom B.A.'s were conferred. And Latina grads exceeded their male counterparts, at 55 percent. Hispanics represented five percent of all the master's degrees granted, three percent of total doctorates, and 13 percent of all professional degrees.

Stanford University in California is No. 1 among the 11 Ivy League institutions for graduating the most Hispanics.
The class of 2004 is noted for its diversity.

Doris Davis, associate provost for admissions and enrollment, stated, "They were chosen from a large and highly competitive applicant pool and bring a diverse range of interests, experiences, and talents." Hispanic Americans in the class of 2004 represent 5.2 percent, compared to five percent the previous year.

Early this year, Frank Ramírez, a Stanford alumnus, a trustee of the Stanford Business School Trust, and former member of the National Advisory Board of the Stanford Center for Chicano Research, received the 2000 Jerry I. Porras Award for Latino Leadership, which honors an alumnus for community involvement coupled with business achievement.

Almazan, who heads Los Hermanos de Stanford, recognizes the importance of mentoring and community involvement. About 25 to 30 Latinos are involved, he says. "They have a commitment to the Latino community at Stanford and in the area surrounding it where many low-income families reside, such as in East Palo Alto and Redwood City. Los Hermanos was formed hopefully to be a positive influence to those kids.

"For the past four years, we have put together an annual party, Club Caliente, in an effort to raise funds to support two $500 scholarships to deserving graduating high school seniors. The party attracts about 600 students from around the San Francisco Bay Area. At the party, we do not allow any alcohol, nor at any Hermanos function. We prefer not to exacerbate the negative stereotype of Latino men, and thus refrain from providing and consuming alcohol. Thus, for the past four years, we have been able to give this small aid to underprivileged youth going on to higher education."

Los Hermanos de Stanford is currently involved in a mentorship program at Edison-McNair Elementary School in East Palo Alto, and also works in partnership with Women and Youth Supporting Each Other (WYSE), a fellow student group that works exclusively with middle school girls in the area.

Princeton University also rose to the occasion, Hispanics representing seven percent of total B.A.s conferred (1,131). There were also more Latina B.A.s (59 percent) than Hispanic men. Latinas embodied nine percent of all bachelor's granted to women. Hispanics represented three percent of master's (351), and two percent of doctoral degrees.

Marilyn Marks, of the office of communications at Princeton U., provided HO with an update: "Last year (new figures not yet available), 287 of our 4,556 undergraduates identified themselves as Hispanic. In addition, 47 of our 1,768 graduate students identified themselves as Hispanic. This does not include international students from Spanish-speaking countries."

Several of the University's programs reflect a growing interest in diversity issues and cultures. Princeton offers undergraduates a certificate program in Latin American Studies, which provides an opportunity for the interdisciplinary study of Latin America and the Caribbean. Courses in that program are offered through the Program in Latin American Studies and the departments of anthropology, art and archaeology, history, politics, religion, romance languages and literatures, and sociology.
The Program in Latin American Studies does not award degrees at the graduate level, but graduate students are active participants in the program’s many public lectures, conferences, and cultural activities. Each year, distinguished Latin Americanists from all fields are invited to speak to students, faculty, and the community at large. The program also supports an ongoing workshop on Latin American history that brings together faculty and graduate students from universities in the Philadelphia-New York corridor to discuss works in progress. Small grants are offered to qualified students for field research in Latin America related to their graduate studies.

There are other opportunities for both graduate students and undergraduates to research issues relating to Latin America. For example, 17 undergraduates traveled to Cuba last semester for a program of lectures and research. Last year, Princeton held a Saturday “Latina Roundtable” relating to Hispanics in education. Like other universities, Princeton celebrated Latino Heritage Month with speakers and other presentations.

Organizations at Princeton that have an ethnic focus are: The Third World Center, a cultural and social center used primarily by minority students, including Hispanic students; the Chicano Caucus; Organización Latino America; Acción Puerto Rican y Amigos; and the Minority Business Association (includes other ethnic groups).

Princeton faculty numbered 885, of which Hispanics represent two percent. According to Marks, the University has an ongoing commitment to diversifying the faculty, including procedures and initiatives aimed at making it easier to recruit Latinos and Latinas at both the junior and senior levels, as soon as these people are available.

“We have had some success in recent years. Alejandro Portes, a well-known sociological researcher and author of City on the Edge: The Transformation of Miami (among other achievements), was hired in 1996. Other leading faculty members hired within the last few years include sociologist Marta Tienda, who is directing a major study of diversity in higher education with a special focus on Latinos, and Patricia Fernández-Kelly, a social anthropologist with an interest in international development. Fernández-Kelly’s book For We Are Sold, I and My People: Women and Industry in Mexico’s Frontier was featured by Contemporary Sociology as one of twenty-five favorite books of the last 25 years.”

THE NUMBERS

Harvard University Latino graduates represented seven percent (123) of total bachelor’s degrees conferred. Almost as many Hispanics received master’s degrees (120), accounting for four percent out of 2,770 total master’s, and three percent of total doctorates. More Latinas received doctoral degrees than did their male counterparts (15 to 10). Out of 808 professional degrees granted, Latinos accounted for four percent (34).

An umbrella organization at Harvard that encompasses campuswide Latino/a organizations and individuals is Concilio Latino. It was founded in the early 1990s to facilitate interaction and communication between different student groups. Welcome Day, a universitywide event that welcomes and introduces incoming undergrad and graduate students to myriad campus resources, and Café Viernes, which involves Latino/a student performances, are events run by Concilio Latino.

One of the group’s ongoing efforts is to attract more Hispanic students and faculty. According to DOE, out of 2,596 faculty members, Hispanics represent two percent.

Last spring, Concilio Latino hosted a discussion entitled “Agreeing to Disagree: Accepting and Celebrating Different Points of View among Harvard Latinos and the Communities They Left Behind.”

Russell Calleros, Harvard ’97, was very involved in Concilio Latino and is presently working with other Harvard graduates to create a Harvard Latino Alumni Association.

“We wanted to connect all the Latinos at all the Harvard Schools. It’s a vehicle for communication. It’s a nice way for graduate and undergraduate students to meet and share ideas. It was very rewarding to be a part of that. I got to meet students from other parts of Harvard that I would not have had a chance to meet.”

Other Latino groups on campus include Alianza, Comunidad Latina (from the Graduate School of Education), Latino Caucus (from Kennedy School of Government), MeSLA/National Chicano Health (Medical School), Phi Iota Alpha Fraternity, Inc., and Sin Fronteras, Du Bois Society (from the Graduate School of Arts and Sciences).

Brown University granted bachelor’s degrees to 1,458 students in 1997-98; five percent went to Hispanics. More Hispanic women than men received degrees.
Master's degrees totaled 241, of which two percent were awarded to Latinos; two percent of total doctorates went to Hispanics as well.

In this same year, Brown reported nine full-time Hispanic faculty members out of 624; this figure does not include research assistants and other staff members.

Of 1,476 bachelor degrees conferred, five percent went to Hispanics at Columbia University. Out of 750 male undergraduates, four percent (27) were Hispanic.

Hispanic women constituted six percent of all women graduates (726). Altogether, Hispanics represented three percent of all master's and two percent of doctoral degrees. Hispanics totaled three percent of total faculty.

At Cornell University, after white and Asian Pacific Islander students, Hispanics received more bachelor's degrees than did other ethnic groups. Of 1,912 B.A.s, five percent were awarded to Hispanics. Latinas represented seven percent of all women bachelor's.

Regarding master's degrees, Hispanics represented three percent (28) of the 1,024 awarded, two percent of doctorates, and seven percent of total professional degrees. Of 1,149 faculty members, Hispanics numbered 24 (two percent).

The class of 2004 is noted for its diversity. Doris Davis, associate provost for admissions and enrollment, stated, "They were chosen from a large and highly competitive applicant pool and bring a diverse range of interests, experiences, and talents." Hispanic Americans in the class of 2004 represent 52 percent, compared to five percent the previous year.

An innovative diversity effort on campus is taking place at Cornell's School of Industrial & Labor Relations. The Dean's Initiative is a diversity project with the purpose of educating undergraduates about the importance and value of learning to interact constructively with people of diverse backgrounds in the workplace.

The Minority ILR Student Organization (MILRSO), which is open to ILR students, fosters cross-cultural friendships and dialogue. It provides social, academic, and pre-professional support to members.

Cornell also has a Latino Studies Program, which this year welcomes a new director, María Cristina García, associate professor in the department of history.

Dartmouth College Hispanic B.A. recipients represented five percent of total bachelor's conferred (1,086). Latinos/as represented three percent of master's and three percent of professional degrees. Three percent of its faculty is Hispanic.

The Massachusetts Institute of Technology (MIT) graduated the second highest percentage of Hispanic baccalaureates in the 1997-98 academic year—eight percent (93) of 1,225. Latinos/as represented three percent of master's (50 out of 1,509) and one percent of total doctoral degrees conferred. Hispanic faculty accounted for two percent of all full- and part-time faculty at MIT.

At the University of Pennsylvania, 114 Latinos/as received bachelor's degrees out of 2,709, two percent of total master's, one percent of doctorates, and six percent of total professional degrees. Hispanic males accounted for eight percent of all professional degrees granted to all men. Latinas, on the other hand, represented 57 percent of the B.A.s awarded to Latinos as a whole.

Twenty-seven Latino/a full-time faculty members and 17 part-timers (one percent) were reported out of 5,430.

The University of Chicago reported 18 full-time Hispanic faculty members and six part-timers in 1997-98; total faculty numbered 2,632. Out of 877 bachelor's degrees granted in 1997-98, Hispanics accounted for 38 (four percent); two percent of Latino students received master's; three percent doctorates. Hispanics accounted for four percent of total first professional degrees.

Yale University conferred B.A.s to 85 Hispanic students (seven percent) out of 1,282 graduates, three percent of total master's (more of them to Latinas), two percent of total doctorates, and four percent of total professional degrees (again more Latinas than Hispanic men). Hispanic faculty representation at Yale totaled one percent, or 40 out of 2,979.
Cultural Identity and Bilingualism of Latino/as

In an Anglo-American Context

BY ROBERTO CLEMENTE, PH.D.

A job advertisement reads: "BILINGUAL PREFERRED, ENGLISH-Spanish, PREFERABLY EXPERIENCED WORKING IN AN ETHNICALLY DIVERSE ENVIRONMENT." Historically, the job market and the educational field have influenced and altered societal trends. It is not a secret that professionals capable of mastering two or three languages, with international-multiethnic experience, have an edge in the job market. Paradoxically, our public educational system has been sending mixed messages since the foundation of the United States of America.

On one hand, multilingualism is seen as an asset for educators and business people. On the other hand, foreigner/second-language education has been systematically suppressed in favor of monolingual English education.

Traditionally, students are exposed to a second language at the middle or high school level. By that time, individuals have developed a rigid approach to languages and an unconscious resistance to linguistic diversity. Most polyglots concur that they were exposed to more than one language early in their lives, which allowed them to expand their linguistic framework.

Typical European citizens master two to five languages with a relative degree of fluency that enables them to cross territorial and cultural boundaries with minimal difficulty. No one has dazed question the ability of European students to cope with multilingual education or how being exposed to multiple languages has affected their cognitive abilities. Nor have North American scholars attempted to correlate multilingualism and the erosion of intellectual development among European citizens.

We have found ourselves behind in a scholastic race in which a typical student from the USA scores below the European norm on standardized tests. In the United States of America (I say USA rather than America in view of the fact that America is a continent and not a country), three factors support the case for monolingualism:

1. The idea that a common language keeps the republic united and consolidates the citizens into a unilateral way of thinking. This theory is cemented in the fear of territorial secession.

2. The absence of multilingual-geographic boundaries that propitiate or press individuals to intermingle with their foreigner neighbors who speak different languages. Since all our neighbor countries/states (with the exception of Mexico and Quebec) use English as a vehicle of communication, there is not a need to learn other languages.

3. Monocentrism and arrogance dictate that there is no need to learn other languages because others should accommodate to the language of the powerful. The world should revolve around the powerful; therefore the powerful set the standards. This theory is grounded in power, control, and domination. If a group of individuals has the economic power, the rest of the world should change its languages and cultures to a "more practical one." This theory is supported by the conventionalized idea of the "ugly American traveler," incapable of communicating with others, rude, and intolerant of different customs and cultures.

Typically, individuals in the U.S. who master two or three languages belong either to an underrepresented ethnic group (I decline to use the term minority for the inferiority implications attached to it) or to the elite social strata. Therefore, pockets of multilingualism cannot be attributed to a conscious collective educational plan supported by the government, but to those who have financial means and international vision. Also, some multilinguals can attribute their abilities to a natural immersion in a multilingual/multiethnic environment in which it was the norm to communicate by means of various languages.

These issues are consistent with the admissions policies of higher education institutions, which "theoretically" recommend a second language that would place applicants in an advantageous posi-
tion over those who do not speak a second language. However, a second language as a prerequisite is rarely enforced as a requirement for admission. With the exception of language departments, the same applies to graduate programs.

Language cannot be viewed as an isolated construct but must be analyzed as an extension of culture. Therefore, cultural/ethnic identity is centered on language. A large number of emotions and ideas have no appropriate translations that convey the intensity of the individual. According to García and Zea (1997), Latino/as who live in the U.S., especially children and adolescents, struggle to define who they are in an environment that negates and deprecates their language and culture. Amalgamated messages driven by members of the family of origin and their socioeconomic environment entice young Latin/o/as into a dissociative pattern of behavior. When at home, they behave and speak like Latino/as, and when at school or in other settings, they must deny that identity and embrace the “North American” personality.

Although it is not always true, many Latino/as go through multiple stages of ethnic identity, the rejection of the culture of origin being the most prominent and difficult. “Ethnic identity may be defined as a psychological construct, an abstract set of ideas that we have about our own ethnic group membership and about who we are” (Bernal, Knight, Garza, Ocampo, & Costa, 1990).

A period of denial of the culture of origin is manifested by frustration and confusion against a “microworld” (i.e., nuclear and extended family) that is inconsistent with the “macroworld” (i.e., school, media, friends, etc.). The level of frustration is increased even more when young Latino/as realize that, at some point, they are viewed by the rest of their peers as hyphenated-Americans and labeled as minorities. At that point in their lives and in their quest to recapture their lost ethnic heritage, including language, they find themselves not fitting in either world. Their inability to have strong Spanish communication skills places them in the category of “newyoricans,” “chicanos,” “cholos,” etc., implying a hybrid Latino/a who is heavily influenced by the Anglo culture.

Some Latino/as opt to live in an “ethnic/cultural limbo,” and others, prompted by an intrinsic drive, find themselves reclaiming a lost linguistic identity. Many Latino/as are satisfied with having a Spanish surname, enjoying the cultural festivities and wearing cultural symbols (i.e., flags, patriotic names, etc.) that represent their country of origin. Others, however, engage themselves in an ongoing search of their linguocultural past that would bring not only a new cultural dimension but a professional practicality.

In order to promote and encourage a true multicultural-diverse education, the public education system must advocate an authentic multicultural curriculum with competent instructors and administrators committed to the agenda; an ethnic self-identification process that goes beyond the use of appropriate ethnic labels, but one that explores intrinsic idiosyncrasies of Latino/as; and a genuine multicultural education that promotes ethnic constancy, role behaviors, knowledge, preferences (including feelings associated with it), and acceptance.

A healthy development of a multiethnic population under a multilingual environment is not a process. Introduction to the Counseling Profession, Multiculturalism in Counseling, and Facilitating Career Development. He is actively involved with the diversity agenda at the university and community levels.

Dr. Clemente holds a Ph.D. in counselor education from Oregon State University; has published in the Professional School Counseling Journal of the American Counseling Association; and serves on several professional committees, at the national level, of the American Counseling Association.

He has led workshops in schools and agencies on multiculturalism, diversity, bilingualism, and Latino cultural identity, and is a presenter at conferences of the American Counseling Association, and Northern Central Association of Counselor Education and Supervision.

Rebuilding after **Hopwood**

High Standards No Barrier to Hispanic Enrollment

**BY**

**ADALYN HIXSON**

---

Judging from visits to other universities, I think it is the most beautiful campus I have ever seen.”

**HO** is talking with Santiago Guerra, aka “Chago,” son of migrant farmworkers, as he is about to leave his hometown of Garcitasville, Texas, population around 100, to enter Southwestern University, a private school in Georgetown, outside of Austin.

**HO** is told that many of the 100 people in Garcitasville are Chago’s relatives, and that Chago just might be the first in the town to go to college. He is definitely first in his family to do so.

But if you are envisioning a simple country lad, guess again, for Chago Guerra happens to be a talented scholar with a penchant for science who’s had his eye on higher education for much of his life.

“My interest in science has always been evident,” he told **HO**, “but the greatest experience—that finally made me realize that science was my “niche”—was when I conducted genetics research in entomology at Texas A&M University.”

Who does he credit as role models and spurs? “My family, especially my mother, my great science instructors over the years—Mrs. Penny Molina from Rio Grande City H.S., Larry Ross, Andrea Jensen, and Dr. J. Spencer Johnston, and many of the great scientists of our time, Mendel, Watson and Crick, Salk...and my friends, who challenge me intellectually.”

Guerra is entering Southwestern

---

“We were able to attract a critical mass of very bright young Hispanics through our NHI association that helped to attract other Hispanic students to Southwestern.”

**JOHN LIND,** VICE PRESIDENT OF ENROLLMENT MANAGEMENT

---

Of the 493 Hispanic students who entered between 1984 and spring 2000, 349 have either graduated from Southwestern or are still enrolled, a graduation and persistence rate of 71 percent.
tuition free, having been granted a Bishop Ernest T. Dixon, Jr. scholarship, named for the first Black bishop in United Methodist’s south central district.

Bishop Ernest T. Dixon, Jr.

Dixon, it is said, often spoke of his gratitude to members of Jacob’s Chapel United Methodist Church in San Antonio for helping him earn his degrees. And according to his widow, Dr. Ernestine Clark Dixon, he rarely, if ever, turned down a young person requesting financial assistance for education.

“Scholarships were very important to him,” she said. “I think he’s up in heaven smiling all over the place.”

Dixon, a magna cum laude graduate of Austin’s Samuel Huston College, later Huston-Tillotson, was president of Philander Smith College in Little Rock, Ark., and later president of United Methodist’s General Board of Higher Education.

From 1980 until he retired in ’92, he was Bishop of the Rio Grande Annual Conference, made up of Spanish-speaking United Methodist Churches, and of the Southwest Texas Annual Conference.

Enrollment Planning

“When I came to Southwestern University in 1982, the University had a Master Planning process that was just being established,” said John Lind, Southwestern’s VP for enrollment management. “And diversity of the student body was a part of the plan.”

“The University stated a goal of having 12 percent minority students by 1990,” Lind told HO. Minorities were just six percent at the time.

During his first year there, Lind asked about targeting specific minorities, and the decision was to aim for Hispanic and African American students—high achieving ones.

“We decided right from the outset during my tenure at Southwestern that we would not achieve the diversity in an entering class at the expense of lowering our standards. We steadfastly have held to that very important principle.”

It was clear, he said, that Hispanic students represented Southwestern’s “best possibility” for major growth in the student body, “due to our primary recruiting area being in Texas.”

Their objective was a student body of at least five percent African American and 15 percent Hispanic “as soon as possible.”

This, he said, “was the cornerstone of our beginning to attract and retain some very bright Hispanic students.” And if that cornerstone had a name, its name would be Ernesto Nieto.

National Hispanic Institute

“During my first or second year here, I was introduced to Ernesto Nieto and Gloria de Leon.” Nieto is a graduate of Southwestern, class of ’64.

“Ernie was the founder of the National Hispanic Institute and with his wife, Gloria, actually gave the leadership and direction to the entire organization.”

“When we first began our friendship,” said Lind, “I was quickly able to determine that the two of them were truly visionary and enlightened leaders who were going to make a real difference in the lives of young people.

“We began a partnership with the National Hispanic Institute in 1985 that centered the summer leadership program, the Texas LDZ, here on the Southwestern University campus. We have remained the host for this important activity every summer since.”

“When we partnered with NIH, it was because it truly was the right thing for us to do. I did not know at the time exactly what would happen to our relationship. What I knew was that we needed to believe in Ernie and Gloria and do all we could to assist them in their worthy mission.”

The trust was well-placed. As John Lind noted, and as many readers of HO are aware, “the National Hispanic Institute has grown into a thriving organization that has many programs that touch the lives of hundreds of young Hispanic persons each and every year. It is truly an impressive story in and of itself.”

“I have said for many years that working with the NIH high-achieving students has been the most pleasant professional experience I have had in working with any students,” Lind added. “These young people have had a thirst for learning what differentiates one college from another and for finding the environment that will propel them to the brightest future possible.”

Eyes on the Goal

In ’85, with the Southwestern/NHI collaboration in place, the school’s 15 Hispanics represented five percent of the total school population. The next year, there were 30 students, then 28, 19, 36, 39. And these were not marginal students, provisionally placed, but top-ranking scholars well equipped to succeed in college.

Not all of the Hispanic students came through the NIH program, said Lind. “What I think happened, however, was that we were able to attract
a critical mass of very bright young Hispanic through our NHI association that helped to attract other Hispanic students to Southwestern,” he said. “It has been my belief that our enrollment of Hispanic students was impacted most significantly by our NHI relationship.”

Then along came the Hopwood decision, in ’96. And the Hopwood “effect” two years later Hispanic students dropped back to six percent after rising to 11, 12, up to 14 percent.

**Dixon vs. Hopwood**

“When the Hopwood decision hit us here in Texas,” said Lind, “we had already begun to see more difficulty in attracting bright Hispanic students. We were finding that many of the students we were admitting were being heavily recruited by very prestigious and selective colleges across the country. Certainly, we had much more competition for these high-achieving Hispanic students, many of whom were residing here in Texas.”

“The Hopwood decision had a very negative impact on many of the programs we offered,” he said. “Our 1998 entering class had 23 Hispanic students—the lowest number in any class since 1988.”

Southwestern introduced The Dixon Scholar program in May ’99 to help it compete for the best and brightest Hispanic, African American, and Native American applicants, and to raise the number of applicants. And it worked. Later that same year, Southwestern enrolled 43 Hispanic first-year students, the highest number since 1993.

“We believe that the Dixon Scholar program was the major reason for us to jump 20 students in one year,” said Lind.

The news gets even better, with 66 Hispanic students planning to enroll this fall—18 percent of the entering class, the highest in Southwestern’s history.

**Texas Methodist Foundation**

The Texas Methodist Foundation created the Dixon program at Southwestern, said its president, Tom Locke, specifically to “further enhance its learning environment through diversity.” Bishop Dixon had been a trustee of both Southwestern and the Foundation.

Georgianne Hewett, director of foundation relations, told *HO* the Foundation’s commitment to the program “intensifies with each scholarship awarded.”

“These exceptional scholarship recipients benefit from Southwestern’s rigorous academic environment,” she said, “and conversely, their presence and contributions enrich the University community.” Hewett also noted that scholarship applicants need not be affiliated with the United Methodist Church.

**Professor Vicente D. Villa**

Eric Van Danen, Southwestern’s director of public relations and marketing, referred to incoming Dixon Scholar Chugo Guerra as “a Vicente Villa in the making.”

Dr. Villa, a biologist described as “part parent, part teacher, part pit bull, with a tenacious appetite for science education,” was named 1993 U.S. Professor of the Year by CASE, the Council for Advancement and Support of Education, chosen from 390 nominees from public and private colleges of all sizes across the country, including the Ivies and major research institutions. Students revere him. At least one enrolled at Southwestern after hearing just one of his lectures. He himself admits to a “God-given passion for teaching.”

A recent survey indicates that Hispanic parents value education even more highly than do white parents. *HO* asked Villa what he thinks causes the gap between desire and accomplishment. He said, “A lack of awareness of the process is at the heart of the problem.”

He mentioned “Passport to the Future,” a Southwestern outreach program targeting minorities and based on a declaration by Malcolm X that “education is our passport to the future.”

“In a very real sense,” said Villa, “the gap between desire for an education and its accomplishment...
involves entering a foreign land...and there is a lack of awareness of the process, a process that starts at home, before the students ever set foot in a formal classroom.

"The first member of a Hispanic family who completes her or his secondary education and goes on to successfully attend college is a pioneer in that this is potentially the beginning of what will become a family tradition."

 Asked how and when low-income Hispanic parents might intervene to get or keep their children on a college track, Villa said "it is never too early."

"Home schooling during the pre-school years sets the pace and pattern for the events to come. Public libraries are a wonderful resource that can be used to convey the importance of reading. Many actually have scheduled time for selected readings for young children. Reading to young children is an extremely important activity. The sooner children grasp the meaning of the written word, the better."

Dixon Scholar Guerra told HO he loved to read as a child, "including comic books (like X-Men, Spider Man, and Fantastic Four), the encyclopedia, National Geographic for Kids, and all the great children's books."

"The intervention process continues during the primary and secondary school years," said Villa. "The parents' expressed interest and proactive role in education is a powerful tool that delineates the direction the children will take. Parents should not hesitate to stress the high expectations they have for their children. High expectations are essential in the formulation of their educational dream or vision for their children."

Villa cites communication between parents and teachers as extremely important, saying that the learning process must continue at home, "and it should be very clear to the children that the parents support the teachers."

"It is my impression," he adds, "that the schools with the best programs are the schools with the highest level of parental involvement."

"My mother had a sixth grade education," said Villa, "and my father, who was born and raised on a south Texas ranch, never attended school, but my parents strongly emphasized education. I remember vividly my mother asking me about the homework assignments. She would encourage me to read aloud and to practice my spelling assignments. She stressed mathematics as being very important—and fun at the same time."

"My father served his country during WW II without the benefit of knowing English, and it was clearly a hardship for him" and came back, said Villa, as a very strong proponent of education.

"My family also stressed work-
ing during the summertime. Learning to work at an early age was an asset to me, for I developed the stamina and self-discipline to do my very best. Work also taught me lessons in what I did not want to do for a lifetime. I also had scores of teachers along the way who gave me a word of encouragement."

"I am forever grateful to the teachers who taught me how to dream of a brighter and more challenging future" Villa himself started at what was then Laredo Junior College, earned a B.S. in biology at UT-Austin, and a Ph.D. in microbiology at Rice.

Southwestern Students

John Lind tells HO that most of Southwestern's students, including its Hispanics, are Texas residents, come directly from high school, and live on campus all four years. Just one or two percent are not "traditional" age. The NHI relationship does draw some Hispanics from out of state. Family income of Hispanic students is lower on average, but some are from families deemed prosperous.

Of the 493 Hispanic students who entered between 1984 and spring 2000, 349 have either graduated from Southwestern or are still enrolled, a commendable graduation and persistence rate of 71 percent. During the same time, the rate for "Anglo" students has been 75 percent and for African Americans, 70 percent.

"It is one thing to enroll any student into your community," said Lind, "but it is much more important to graduate that student and have someone who has clearly been positively impacted by the experience of your education."

Asked if he finds high-achieving Hispanic students different in any significant way from their peers, Lind said, "I believe I do."

"Coming from what often are perceived as weaker schools and not having as much access to the AP classes or always the best prepared teachers has certainly required these students to rise above the challenges that some other students have not had to overcome. Maybe it is why our Hispanic students in general have been so willing to work so hard to improve themselves."

The Embracing Community

Asked what makes Southwestern a good place for Latinos, Villa cites its prevailing educational philosophy. "The faculty and administration believe in and provide a well-rounded education, the education of the whole person. This is a small liberal arts institution where students and faculty know each other well. Faculty members are available to interact in an intense manner with students. Mentoring of students is an integral part of our teaching activities. In addition, there are support groups in place by way of student organizations that enable the students to adjust to the Southwestern University environment."

It is, he says, "an embracing community."
The Changing Face of the Student Body

The Challenges before Us

BY ANGELA PROVITERA MCGLYNN

Like most faculty, I have returned to the classroom this fall to find an increasing number of nontraditional, international, and ethnically diverse students in my classes. It is an enrollment trend that is occurring at most campuses across the country as the changing face of the student body works its way through our higher education system.

I was reminded of the impact of this demographic phenomenon as I sat in the front row with my colleagues at Mercer County Community College’s (N.J.) graduation ceremony last spring when I had the privilege of watching several hundred of our 760 or so graduates receive a degree and get photographed. I already knew that MCCC, along with most of our nation’s colleges, particularly urban and community colleges, has an incredibly diverse student body, with students representing more than 50 countries. I knew that fact but was still impressed to see the culturally diverse faces before me. Diversity of age is another factor that was striking, as young adults paraded before me in juxtaposition with middle-aged adults and senior citizens. This ceremony also saw two parent-child sets of graduates: a father and his son, and a mother and her daughter.

My commencement experience was complemented by a New York Times article, “Swell of Minority Enrollment of Minority Students.” The study analyzes the 20-year span, from 1995 to the projections for the year 2015. In that time, the presence of white students on campus will decrease from 71 percent to 63 percent. By the year 2015, African Americans’ presence on campus will remain stable at 13 percent. Higher education will see increases among Asian Americans from five percent in 1995 to eight percent in 2015, and among Hispanic Americans, from 11 percent in 1995 to 15 percent in the year 2015.

Although minority college student enrollment is mushrooming, the statistics are deceiving. The numbers of African Americans and Hispanic Americans in college will not reflect the 18- to 24-year-old African American and Hispanic American overall populations. In fact, the ETS study says that there will actually be a decrease of these two groups in proportion to their college-age populations. Moreover, more than half of the

**Different Look To Student Body By 2015**

The college student population is expected to change in the future: the percentage of white students will fall and that of minorities will rise.

Source: Educational Testing Service

Students Is Predicted at Colleges” about an Educational Testing Service report showing that college enrollment will expand by two million students in the next decade and a half. That is not surprising since our nation has seen a steady climb in overall college enrollment during the last 50 years. This swell in enrollment can be attributed to the rise in U.S. births, increased immigration, and an increasing belief that a college degree is an absolute necessity for a good job with a decent salary.

The ETS study suggests that 80 percent of the projected growth will be accounted for by the expanded enrollment of minority students. The study analyzes the 20-year span, from 1995 to the projections for the year 2015. In that time, the presence of white students on campus will decrease from 71 percent to 63 percent. By the year 2015, African Americans’ presence on campus will remain stable at 13 percent. Higher education will see increases among Asian Americans from five percent in 1995 to eight percent in 2015, and among Hispanic Americans, from 11 percent in 1995 to 15 percent in the year 2015.

Although minority college student enrollment is mushrooming, the statistics are deceiving. The numbers of African Americans and Hispanic Americans in college will not reflect the 18- to 24-year-old African American and Hispanic American overall populations. In fact, the ETS study says that there will actually be a decrease of these two groups in proportion to their college-age populations. Moreover, more than half of the
overall increase in undergraduates over the next 15 years will be concentrated in only five states, those with large Hispanic populations: Arizona, California, Florida, New York, and Texas.

If we look back at increases in postsecondary education during the years 1973 to 1994, the overall number of high school graduates who enrolled in four-year institutions nearly doubled, from 16 percent to 31 percent. Within that same time span, the percentage of both whites and Blacks also doubled. Black college students increased from 13 percent to 25 percent, and white college students increased from 16 percent to 33 percent. However, Hispanic American college enrollment rates were not, and still are not, keeping pace either with the Hispanic American population numbers or with the numbers of Latino/a high school graduates.

As the President's Advisory Commission on Educational Excellence for Hispanic-Americans states (September 1996), at every level of education from pre-school through graduate school, this fastest growing U.S. minority group is at dramatic educational risk. In a HO article, "Improving the Future for Hispanic Americans: The Role of Community Colleges," I discussed some strategies with which our educational system might address the myriad inequities that contribute to the dual enrollment and achievement gaps often noted between white and Asian Americans and their African American and Hispanic American cohorts.

There are higher education institutions currently and proactively addressing the diversity issues arising from the changing demographics of our nation and of our college campuses. The New York Times article mentioned above quotes Stanley O. Ikenberry, president of the American Council on Education, who said that his 3,500-member campuses have "been working for a decade to diversify their student bodies and faculties." Ikenberry says they are working towards making college campuses "more comfortable places for students who have been underrepresented."

At Stanford University, Professor of Education Anthony Lising Antonio predicts that colleges will risk repeating the college-campus racial unrest this country witnessed in the late 1980s and early 1990s if they do not transform their curricula and programs to reflect the surge of new minority students. Professor Antonio also suggests that if college campuses do nothing about addressing their changing demographics, they will not "gain the benefits a diverse student body provides." Here, I am certain that among the benefits of a diverse student body, colleges have the opportunity—no, they have the obligation and mandate—to help all students understand, appreciate, and celebrate the diversity of our multicultural society. If such an appreciation does not develop by the end of a college program, how will harmonious interpersonal relations develop in a global world?

A Host of Challenges

The changing U.S. demographic picture provides us with a host of challenges:

- As a society, how can our educational system provide equal educational opportunities from pre-school through secondary education so that the numbers of minorities admitted to college will reflect the numbers of minorities in the population at large?
- How can we increase minority participation in pre-school educational programs, particularly in the Hispanic American community, where their numbers lag behind those of other groups?
- How can we improve the quality of education and the conditions of our urban schools?
- How can we address the expected teacher shortages, at all levels of education, predicted for the next several decades?
- Particularly in light of teacher shortages, how can we improve the quality of teacher preparation in terms of academics and especially in terms of multilingualism and multiculturalism?
- How can we improve retention and graduation rates of minorities at secondary and post-secondary levels?
- How can we ensure that colleges and universities will be hospitable, welcoming, and encouraging to minority students?
- Throughout the educational system, how can we promote the development of critical thinking skills, the development of written and oral communication skills, and the development of an appreciation of diversity?

These questions might seem daunting, but there are certainly ways to address these and other challenges that we face as a diverse culture. The multifaceted solutions require the coming together of the federal government, state and local governments, the private sector, and the school systems. For the solutions to work, The President's Commission on Educational Excellence for Hispanic Americans says that school systems "need to form viable partnerships with students, families, communities, other educational institutions and government bodies, as well as business and corporate leaders."

The changing demographics of our culture should be a cry for change in our educational system. At the 50th Anniversary Commemorative Services remembering Franklin D. Roosevelt, on April 12, 1995, President Clinton underscored this when he said, "...let's not forget that we also have an educational deficit. Education is the fault line in America today; those who have it are doing well in the global economy; those who don't are not doing well. We cannot walk away from this fundamental fact. The American dream will succeed or fail in the 21st century in direct proportion to our commitment to educate every person in the United States of America."

So many of us believe that education is the great societal equalizer. The National Center for Public Policy and Higher Education released a study this year showing that a majority of parents now believe that a college education is critical to opportunity in today's work world and society at large. They recognize that education has the potential to bring previously excluded people into the fold of the good and comfortable life in America, as well as raise their intellects and their spirits. Additionally, education has the potential to make society safer and more humane; education can bridge the ever-widening gap between the haves and the have-nots. Not only is educating minorities in America the right thing to do ethically in order for the society to be just, but America's productivity is at stake as well. As a society, if we don't equalize educational opportunities so that there truly is a level playing field, not only do the people who are left behind suffer, but the nation suffers. America simply cannot afford to leave people behind.

Latino Students a Powerful Presence at Albertson College

By Eric Cárdenas

Juan Morales was a bit surprised and embarrassed when, in a calculus class, mathematics Professor Ralph Applebee, Albertson College of Idaho, called on him to begin solving a math problem. But this wasn’t first-year-student jitters: Morales is actually a high school junior participating in a new mentoring program for Hispanic students.

He was able to answer the question, with some help, but he recalls it as a funny experience and one of the things he’ll remember about Albertson College.

“I really liked the class and the way the students actually know the professor; to me, that’s pretty important,” Morales said.

Morales is one of a handful of participants in the mentoring program that was launched last year by A.L.A.S.—Albertson Latino Americano Students. The program pairs up Hispanic high schoolers from nearby rural areas with Albertson College students to help encourage the youngsters not only to stay in school but to learn what it will take to succeed in college as well.

A small, private liberal arts college, Albertson has been innovative in its efforts to reach out to the local Hispanic community, and A.L.A.S. has become one of the biggest and most visible organizations on the tree-lined campus. A.L.A.S. members are predominantly Hispanic, but the organization welcomes non-Hispanics who are interested in Hispanic culture and issues.

Located in Caldwell, a 30-minute drive from the state capital of Boise, Albertson College is in the heart of Idaho’s Hispanic community. Of the state’s nearly 96,000 Hispanics, who are seven percent of the state’s total population, 22,000 live in Canyon County, where Albertson College is based. But the College’s Hispanic population, currently at five percent, is lower than the state’s. It’s a number that the A.L.A.S. group is working hard to increase, in part through the mentoring program. A former head of the Idaho Migrant Council recently listed the mentoring program as one of the state’s positive developments in multicultural relations.

The high schoolers and college students in the program tour the Albertson College campus, attend College athletic events, sit in on classes, and receive some tutoring. There are fun events too. A.L.A.S. recently reserved the McCain Center movie theatre on campus to show Dumb and Dumber, a movie that has become Morales’s favorite.

“I don’t see any way to get a good-paying job without a college degree. I don’t want to work in a restaurant; I want a good job so I can support my family,” Morales said. “And by visiting colleges, you get to know what’s
going on,” easing the transition, he notes.

An A.L.A.S. member since her first year at Albertson College, Aracely Barajas, a senior international business major from Greenleaf, Idaho, enjoys seeking publicity for the A.L.A.S. events, but even more enjoys her role as Morales’s mentor. She regularly accompanies him to the campus library and next year hopes to travel with other program participants to Seattle, for a Seattle Mariners baseball game. She also volunteers time to work with the Snake River Elementary Boy Scout Troop in Nampa—another A.L.A.S. program.

“I think Juan has a lot of potential,” Barajas said. “I think they all have a lot of potential.”

Barajas, who was born in California but lived in Michoacan, Mexico, until she was 12, remembers the difficult transition from high school to Albertson. She says that her background, along with her experience at college, is invaluable in helping younger Hispanic kids succeed.

“I can give these kids advice about college that they might not get from college recruiters,” Barajas said. “I have to be honest. I don’t want them to go to college and then fail.”

Morales is typical of many young Hispanics in Idaho. He has lived in Wilder, a small agricultural town in southwest Idaho, since he was four years old, when his parents moved from Oaxaca, Mexico, to become fieldworkers. He grew up with four brothers and two sisters in a three-bedroom house. Not far from his home, between the dusty downtown and the endless fields of mint and onions lies Wilder High School, a red brick, two-story, square building. It’s a building that could as easily serve as a bomb shelter or a warehouse as a school.

Lining the walls of the small high school are the graduating class composite portraits from the school’s founding, early in the 20th century, to the present. Gazing at the portraits through the ’70s, ’80s and ’90s provides a quick illustration of the changing demographic face of rural Idaho. While perhaps 15 percent of graduating classes were Hispanic in 1971, in 2001, the graduating class will be closer to 85 percent. And experts agree that the Hispanic population might double by 2025.

Increasing Presence

Like many northern states, Idaho has seen an influx of Hispanic fieldworkers, many of whom are seasonal and many of whom have made Idaho their home. The workers come from Mexico, California, and Texas.

Currently, nearly 25,000 farmworkers, nearly all Hispanic, work in fields in Idaho. The percentage that are migrant or seasonal workers ranges from 34 to 70 percent, depending on the time of year.

In the past decade, Hispanic issues have come to the forefront of Idaho politics, especially in agriculture and education. Four years ago, the Idaho Legislature passed legislation to guarantee workers’ compensation insurance for farmworkers. However, in each successive legislative session, the Legislature has grappled unsuccessfully with another existing exemption—a minimum wage for farmworkers. It’s a topic that becomes more heated every year.

Similarly, Idaho legislators and school officials have had to struggle with bilingual education issues, specialized curriculum for Hispanic students, and occasional flare-ups in schools between Hispanics and non-Hispanics.

Now, with nearly 85 percent of the students in Morales’s rural high school being Hispanic, statistics show that approximately 30 percent of them likely will drop out. The dropout rate of Hispanics in Idaho has steadily decreased from 60 percent 12 years ago but is still disproportionately higher than the dropout rates of non-Hispanics.

The number of Hispanics who attend college in Idaho is also disproportionate. In 1998, according to the State Board of Education, only 29 percent of Idaho’s college population was Hispanic.

It is these two statistics—the dropout rate and the number of Hispanics in higher education—that A.L.A.S. is hoping to influence. But A.L.A.S. targets high schoolers for the program who are both at high risk and low risk of dropping out.

Morales, for example, is a motivated student and plans to attend college. He played on Wilder’s junior varsity championship basketball team; he runs
a four-minute, 48-second mile for the track team; and he enjoys his geometry and biology classes. While his native language is Spanish, he speaks flawless English. He mentions that his mother "won't let me work," and that his older brother, Leo, is already a student at nearby Boise State University.

But, according to Arnold Hernandez, director of minority counseling at Albertson College, many migrant students who seem to be on the right track as sophomores still don't make it to college. That's why the program was expanded to target highly motivated kids along with high-risk kids.

"There's always something that might happen between then and now. Even the kids who want to go to college can fall through the cracks," Hernandez said. "I think all students—regardless of gender, race, age, or color—would highly benefit from a mentor program."

Hernandez knows firsthand the challenges faced by Hispanic children in rural Idaho. He dropped out of high school—the same school Morales attends—after his first year to work in the fields to help support the family. His family of 14 children had migrated from Monterrey, Mexico, only a few years earlier. Hernandez eventually made it to college, but not until he was 27.

He helped found the A.L.A.S. program at Albertson College back in 1996, with little more than an office, a handful of excited students, and a motto—"Volar Mas Alto." The program raised its own funds, hosting dinners with food often made by Hernandez and the students' mothers. Since its inception, A.L.A.S. has sponsored a combined Cinco de Mayo and Mother's Day celebration on campus for the college and the entire community. It attracts corporate sponsors and hundreds of festival-goers with its guest speakers, food, dance demonstrations, and car show, and has become one of Idaho's three biggest Cinco de Mayo festivals. And while the group works to preserve other traditions and celebrations—they celebrate Mexican Independence Day with a "Fiesta Aztlán" and co-host a Day of the Dead exhibit with a local community organization—the group is heavily invested in educational and service programs.

In response to the controversial minimum wage issue, A.L.A.S. invited a panel of speakers to Caldwell to discuss it. Representatives from the Idaho Department of Agriculture, the Walk for Wages political group, and the Idaho Farm Bureau were invited to participate in the panel discussion. The group also co-sponsored a speaker for Martin Luther King, Jr. Day last winter.

When a local elementary school held a read-a-thon, A.L.A.S. spent a morning reading to the students, both in English and Spanish. And they recruited the college president and the men's basketball team to help out.

On Oct. 10, A.L.A.S. is bringing activist Edward James Olimos to visit the college in conjunction with the second annual Idaho Inclusiveness Symposium. Olimos, a personal friend of Hernandez, will speak with students informally, in classes, and in a public lecture.

Seeing beyond the campus, A.L.A.S. is an affiliate member of some community groups as the Hispanic Business Association, the Idaho Migrant Council, the Idaho Human Rights Task Force, and the Council on Hispanic Education. It also regularly pays for members to attend the annual Idaho Hispanic Youth Symposium, the Oregon Leadership Institute, and the Hispanic Issues Training Conference.

The 40-member A.L.A.S. group continues to raise funds for projects, but now receives substantial funding through the College's student activity fee. Hernandez credits the community, the local school districts, and the College administration for supporting A.L.A.S. and its efforts. The new College president, Kevin Learned, who is bilingual and was a guest lecturer at the University of Guadalajara, frequently attends A.L.A.S. events and has steered the College toward greater diversity.

Learned and the College community spent much of the 1999-2000 school year developing a strategic plan for the College, one that would help focus the College for the next five years. Two of the plan's points directly impact A.L.A.S.: increasing the diversity on campus and preparing students for increased globalization by pushing study abroad programs. The next five years will undoubtedly see increased recruiting of minority students, and an increase of sensitivity to other cultures.

Minority Counselor Hernandez regularly joins admission counselors on recruiting trips, travels to youth symposia around the state, and is a frequent guest in the offices of area high school counselors. Although the College offers a number of minority scholarships, has personally initiated scholarships funds to help support Hispanic students.

While Hernandez is obviously biased toward Albertson College, he is most concerned that the high schools in the mentoring program make it to college—any college.

"Our ultimate goal is to see them get into higher education, period," Hernandez said.

Eric Cárdenas is a communication specialist at Albertson College of Idaho.
Tufts University Forges a Home-School Connection

Staff and Students Work with K-4 Hispanic Students and Families

BY SUSANNA BARRY

When the photography exhibit titled "Windows on Our Lives/Nuestras Vidas por una Ventana" was mounted last spring at Tufts University in Medford, Mass., it created an undeniable stir on campus. The opening reception in May was filled with more than 40 fledgling photographers, and their excitement was palpable. In fact, they dashed from one picture to another, squealing and pointing in delight at the sight of their artwork. Periodically, the artists stopped to restore themselves with cups of apple juice and handfuls of goldfish crackers, instead of the traditional wine and Brie.

The photographers were third-graders from the Spanish Transitional Bilingual Program in the Somerville, Mass., Public Schools, and the exhibit showcased photographs of their favorite people and things from home and school. It was the culmination of a photography project they began when they were in second grade, through their participation in the Tufts Home-School Connection program.

Home-School Connection is an innovative program for Hispanic immigrant children developed at the Eliot-Pearson Department of Child Development at Tufts. "The Home-School Connection program strengthens the communication between parents and teachers in order to promote the school success of Hispanic children," said director and child development professor Martha Julia Garcia-Sellers.

Without the program's mediating influence, the distance between home culture and school culture can be broad, with immigrant children bearing most of the burden for crossing it. Language differences between home and school, and a lack of communication about values and expectations, can make immigrant children feel that they inhabit one world between eight in the morning and three in the afternoon and a very different world the rest of the time. These cultural gaps can prevent communication between parents and teachers, and inhibit school achievement in children. Responding to needs expressed by both teachers and families, Home-School Connection was created in 1995 to help build a cultural bridge.

In keeping with the program's goals, the "Windows" exhibition used photography to reinforce communication among teachers, parents, and children. "These photographs give adults an opportunity to 'look through the windows' into the inner-world of the children in the program," said the exhibit's coordinator, Mindy Shapiro, a graduate student in child development.

With few exceptions, the children in the "Windows" project had never had cameras of their
own. But when García-Sellers received dozens of donated disposable cameras, the photography project naturally emerged from the idea that children would benefit from a visual means of capturing and expressing images they value. The photographs created by the children served as tools to open the lines of communication between school and family. “Photography is a very powerful and concrete medium for building bridges between the two cultures, and what the photographs communicate is unique for each child,” she said.

Children participating in Home-School Connection proved that a picture really is worth more than a thousand words—in any language. They took pictures at home and school, and later discussed the significance of the photographs and wrote stories about them. “The photographs allow children to communicate the affection they feel for two important cultures in their lives, home and school,” said García-Sellers, “to identify differences and to share what they value about each one with the others. Their photos express strong personal associations and a variety of emotions such as friendship, fear of personal loss, humor, family affection, satisfaction, embarrassment, and an overall wish to relate what they know of their home and school,” she said.

One student photographer chose a photo of her younger brother to share at school. “My friends would like to see it,” she explained, because “he is my best little brother.” His affection for his family provided an opportunity for his schoolmates and teachers to glimpse her home life. Another child shared a picture of a classmate with his family because, he said, “I always tell my brother that she is a good drawer and I think my brother would like to see her.” With this choice, he conveyed to his family the kinds of skills that are emphasized during the school day. A third child brought together the worlds of home and school by choosing to share a photo of a flag and a map of the Americas. “I want to share this at home,” he said, “because my mom wants to go to the Dominican Republic, so maybe I can show her where it is.”

These photos are just one tool used by the Somerville Public Schools and the Home-School Connection project as they work to bridge the communication gap between Spanish-speaking parents and teachers who are not always bilingual. “With these pictures, the teachers have a new way to engage the kids and learn what their students value at home, and vice versa with the parents,” said García-Sellers. “To understand how immigrant resolve pressures to conform to American culture and maintain pride in their family culture.

The major goal of the project has been to ease the immigrant children’s adaptation to school and improve their success in the classroom. Immigrant children tend to be less successful in school than do U.S.-born children, and among them, Spanish-speaking children have especially high rates of school dropout and academic failure. In 1990, studies showed that 70 percent of all non-native English speakers enrolled in schools spoke Spanish as a first language. In Somerville alone, between 1980 and 1990, the Spanish-speaking population tripled, making it the largest single minority group.

Home-School Connection represents a new model for supporting the success of Hispanic immigrant children—not by drilling vocabulary words or grammar, but by mediating their adaptation to school.

“Schools have sometimes gotten too caught up in the issue of language, to the exclusion of other influential factors. Supported adaptation is crucial to the process of helping children succeed in school and stay in school,” said the program director. Adaptation, as she defines it, is the process by which the “triangle” of the child, the parent, and the school is in balance and each is able to understand and negotiate the expectations of the others. Rather than pressuring immigrant children to play the role of mediator between home and school, García-Sellers’s program provides an adult bilingual mediator to support the child in the adaptation process; thus the child is considered “adapted with support.”

“At Home-School Connection, we adopt an ecological perspective toward the understanding of school adaptation,” she said. “The adaptation process is an active phenomenon, a learning process that every child experiences. The optimal situation is adaptation with support, so that the communication between home and school is promoted, and there is some continuity between the two subcultures. If school and family build up overlapping values and goals, the child’s transition can be facilitated. Parents and teachers need to be mutually respectful but fully aware of the dif-
ferences between their environments and develop ways to compensate for these differences."

Since its inception, Home-School Connection has also been a model of successful university-community collaboration. The main components of the program are assessment of children and mediation to strengthen the communication between teachers and parents. These are carried out through partnerships among Tufts and the participating schools and families.

Many of the children in the program have adaptation problems due to the cultural differences in expectations between their home and school. In response to these issues, the project builds a web of social support for Hispanic immigrant families. By visiting children and parents in their homes, program mediators are able to inform parents about school activities, educational expectations, and ways in which they can support their children. Mediators also help teachers understand children's behavior in the context of their families' values.

García-Sellers has found that parents view the home visits as opportunities to learn about their children's development and to reflect on educational goals. Both teachers and parents agree that the mediation process empowers them to collaborate with one another more effectively. As a result, children from families receiving home-school mediation perform better academically and evidence fewer behavior problems.

The program has created another link as well. Staffed in part by Hispanic Tufts students, Home-School Connection has provided college-age mentors to help families plan for their own children's college years. "Parents and family members have a great deal of interest in learning how our staff got to college, because they are thinking about their children's future," García-Sellers said. "This encourages their children's school success on yet another level."

When it began, the project worked with a handful of first graders, their teachers, and families. García-Sellers and her staff now work with 16 transitional bilingual classrooms, from kindergarten through fourth grade, at the Elderly Educational Center and the East Somerville School, both part of the Somerville Public Schools. A multi-year grant from the W.K. Kellogg Foundation has helped support the growth of the program. Currently, 320 families participate.

The project has also been rewarding for these Tufts students who staff the program each year, helping them learn to integrate valuable research skills with effective mediation skills. Their participation has produced several publications, theses, independent studies, and presentations at national and international professional conferences.

"Findings from this study have contributed, and will continue to contribute, to our understanding of the school adaptation process and school success of immigrant children," said García-Sellers. She has been invited to present the program model internationally, and García-Sellers's project has attracted the attention of educators from around the world, including representatives from Finland, Hong Kong, and Kuwait.

For more information about the Home-School Connection Program, please contact the Eliot-Pearson Department of Child Development at (617) 627-3555 or e-mail Susanna Barry (sbarr5@emerald.tufts.edu) or Dr. Martha Julia García-Sellers (msellers@emerald.tufts.edu).

Susanna Barry is the coordinator of communications and public relations at the Eliot-Pearson Department of Child Development, Tufts University.
Hispanic Heritage Month 2000 Events

Hispanic Heritage Month, now in its 32nd year, is being celebrated nationwide.

Washington, D.C., was recently the scene of the Hispanic Heritage Awards Foundation's 14th annual event, the 2000 Issues Conference of the Congressional Hispanic Caucus Institute (CHCI), the CHCI's 23rd Annual Gala, and the Las Primeras awards luncheon of the Mexican American Women's National Association.

Among the past, ongoing, and upcoming events are:

- Kennedy Center, Washington, D.C.—open House arts festival featuring Latin American music, song, dance, and woodcarving—Sept. 10
- Dallas—LULAC's annual Youth National Role Model Recognition Awards Gala—Sept. 12
- Santa Fe, N.M.—Mestiza Leadership International sponsors the 3rd annual Circle of Latina Leadership—Sept. 14–17
- Newport Beach, Calif.—Association of Hispanic Advertising Agencies' annual conference—Sept. 14–17
- Washington, D.C., Smithsonian Institution—programs, lectures, musical events—Sept. 15–Oct. 15
- University of New Mexico, Albuquerque—"Hispanic Culture Festival: Celebrating 508 Years of Hispanic Heritage"—Sept. 15–Oct. 15
- Washington, D.C.—Latin American cuisine, performances of Latin folklore and music—Sept. 16–24
- University of Miami—Festival Miami 2000—Sept. 16–Oct. 29
- Washington, D.C.—The National Hispanic Foundation for the Arts' recognition of Hispanics in the Arts at its annual gala dinner—Sept. 19
- Washington, D.C.—The Congressional Hispanic Caucus Institute's 23rd annual awards celebration—Sept. 20
- Ballet Folklorico de Mexico de Amalia Hernández 48th anniversary U.S. tour—Sept. 21–Oct. 22
- San Antonio, Texas—MALDEF hosts its San Antonio awards dinner—Sept. 22
- Washington, D.C.—The National Puerto Rican Coalition's annual policy conference—Sept. 22, 23
- Washington, D.C.—Latino Festival 2000's event, including Latin American cuisine, music, dancing, and more—Sept. 23, 24
- Chicago, Ill.—U.S. Hispanic Leadership Institute's 18th annual leadership conference—Sept. 28–Oct. 1
- Detroit, Mich.—Wayne State University's "Achieving Student Success: Resolving the Educational Crisis for Latino Students"—Sept. 30
- Chicago, Ill.—The (HNBA) Hispanic National Bar Association's 25th anniversary convention—Oct. 4–8
- Miami, Fla.—Miami's Hispanic Heritage Council's Legacy of Excellence Awards celebration honoring Latino families—Oct. 11
- Washington, D.C.—The National Association of Hispanic Publications' 3rd annual media summit—Oct. 11
- New York City—National Puerto Rican Forum's "Si, Se Puede" annual award luncheon—Oct. 12
- Salinas, Calif.—4th annual Salinas Valley International Mariachi Folklorico Dance Conference—Oct. 12–15
- Atlanta, Ga.—Society for the Advancement of Chicanos and Native Americans in Science 27th annual national conference—Oct. 12–15

News from the White House

President Clinton is launching an online National Teacher Recruitment Clearinghouse to help states and school districts across the nation address teacher shortages.

Developed by Recruiting New Teachers, Inc., with a grant from the U.S. Dept. of Education, it is a unique portal that will help connect teachers to job banks and job listings; help them identify possible opportunities in their field anywhere in the country; and make it easier for school districts to recruit new teachers through online résumé posting. It will also provide in-depth and up-to-date information on issues important to teachers and districts, such as recruitment, retention, certification, incentives, and pay.

Laredo Art Scholarships Assist Students

Gerardo René Castillo (l.), René Montiel (r.), Mario Isaac Maldonado, and Dalia

Alvarado are all one step closer to art careers thanks to a $750 scholarship that each received from the Laredo Art League, a fine arts partner with Laredo Community College (LCC) in Texas.

Castillo, 36, who also received a $200 scholarship from LCC, resumes his studies there. Montiel, a transfer student, is continu-
ing his education at the University of Texas-Austin. Both Maldonado and Alvarado are recent high school graduates who are starting their art education at ICC.

Miami-Dade Grad Earns Full Scholarship to Yale

Noemi Rigol, Cuban by birth and a Russian citizen most of her life, was awarded a full scholarship to study at Yale University (Conn.). Valued at more than $36,000, it will enable Rigol, a graduate of Miami-Dade Community College (M-DCC) in Fla., to study biology and physics and pursue a career as a doctor or scientist.

Hailed by professors as "a modern Marie Curie," Rigol was an honors student at M-DCC, excelling in both biology and mathematics, especially calculus. She will enter Yale's innovative ecology and evolutionary biology program to study modern genetics and the mathematical formulas that govern evolutionary processes.

Ramapo Professor Receives Rockefeller Grant

Demetria Royals, associate professor of media arts at Ramapo College of New Jersey and documentary filmmaker, is receiving a $25,000 multi-arts production fund grant from the Rockefeller Foundation. The grant will support the creation of a multimedia theater production based on Bertolt Brecht's "Mother Courage and Her Children," from the perspective of African American females. Royals will collaborate with choreographer Anita González, assistant professor at Florida State University and Fullbright scholar, and Robbie McCauley, a performance artist who won an OBIE award for best new American play for "Sallie's Rape."

González and McCauley were featured in Royals' 1996 film "Conjure Women," a performance-based feature film documentary nationally screened on PBS.

Colorado-Boulder Partners with NACME

Hector Moreno, enrolled in the University of Colorado (CU)-Boulder's College of Engineering and Applied Science, is the first in his family to go to college. Moreno thanked both NACME (the National Action Council for Minorities in Engineering) and CU-Boulder for enabling him to pursue a career that can impact his community.

Moreno is one of seven students from Denver's public schools selected to attend CU-Boulder's College of Engineering through an alternative, performance-based assessment developed by NACME. The students were on campus in July for the Summer Bridge program, an "academic boot camp" that helped prepare them to start college.

Public School Leader Praises George Fox

Merced Flores, 49, chief of staff of Portland's public schools since 1999, credits George Fox University (Ore.) with helping him grow as a leader and giving him a solid foundation of skills. The son of migrant farm workers in California, Flores grew up moving from town to town. After attending 18 high schools, Flores enrolled at the small liberal arts college on a partial scholarship, becoming the only Hispánico of its 1,000 or so students.

Feeling like a stranger in a strange land, Flores and several others led a cultural awareness program that helped change campus relationships with support from several faculty members, the charismatic student worked three jobs, played baseball, and tutored in migrant camps before becoming the first in his extended family of more than 100 to earn a bachelor's degree. He later earned a master's at Linfield College.

Texas A&M-Kingsville Leaders Attend D.C. Conference

South Texas leaders met with President Clinton and more than 100 national officials to discuss economic development, trade, affordable housing, and education. Included were representatives from counties, cities, economic development organizations, and colleges, and superintendents, school board members, and business leaders from throughout Texas' 15th district.

U.S. Rep. Patrick Kennedy, Minority Leader Richard Gephardt, and Mexican Ambassador to the U.S. Jesús Reyes-Heroles were among the speakers.

Bristol Women's Program Receives National Award

The Women in Technology Work-Based Experience program, one of several programs sponsored by the Bristol Tech Prep Consortium in Massachusetts, received a second place Exemplary Worksite Learning Award from the National Tech Prep Network/Caterpillar Inc. The program introduced young women to high tech careers through academic programs held throughout the year.

The National Tech Prep Network award, which Caterpillar Inc. sponsors, was established in 1994 to recognize tech prep consortium programs that have successfully integrated worksite learning experiences. Programs are judged on criteria that include professional development experiences, business involvement, and results.

Yale University Co-Finances Amistad Operation

A replica of the schooner La Amistad dropped anchor in New Haven, Conn. With the help of $25,000 donated by Yale University and Yale Divinity School, the ship is an ambassador for human rights and floating classroom, teaching the lessons of the Amistad incident.

More than a 150 years ago, 53 people from the Mende tribe of Sierra Leone, seized in Africa as slaves, were being taken from Havana to Puerto Príncipe, Cuba, aboard La Amistad, when they mutinied, killing the captain and the cook. The slaves ordered the remaining Cubans to pilot the ship to Africa, but instead were taken to Long Island, where they were arrested and held in nearby New Haven jail, charged with piracy and murder. Yale students, faculty, and alumni joined with local abolitionists.
ists and others around the country to help the Mende, who were freed in 1841.

A statue commemorating the Amistad stands in the north courtyard in front of New Haven's city hall.

Houston-Downtown Addresses Bilingual Teacher Shortage

In Texas, the University of Houston-Downtown's (UHD's) department of urban education received a $1.1 million federal grant for student scholarships in bilingual education and professional development—an initiative called the Bilingual Teacher Career Induction Project.

Noting UHD's aggressive pursuit of the funding, UHD President Dr. Max Castillo said that "UHD can now afford good students the opportunity to become excellent teachers."

The University projects that over the next five years the grant will help 136 bilingual education majors complete their degrees and become certified teachers.

Southwestern Bell Honors Dovalina at LULAC Convention

Houston Community Officials Visit Brazilian Educators

Houston Community College (HCC) Chancellor Dr. Ruth Burgos-Sasscer and Juan Pérez, executive director of international initiatives, visited with university and community college educators in the southern Brazilian cities of Cariniba, Porto Alegre, and Lajeado. Invited by the U.S. Department of State and the Brazilian State Secretariat of Science, Technology, and Higher Education, the HCC System representatives made presentations to Brazilian educators on HCC's technology and workforce development programs.

They were invited, said Pérez, "because we are a large urban community college with a strong emphasis on international relations and international students."

"We also are pioneers," he said, "in the use of distance education and technology in workforce education."

Elmhurst Selects Ponce for Merit Award

Analy Ponce was selected for the 1999-2000 Senior Merit Award at Elmhurst College (Ill.), given annually to a student who is an outstanding leader on campus and in the community and one who demonstrates excellence in academics and in written and oral communication. It is sponsored by the National Alumni Association, which began selecting a Senior of the Year in 1992.

Ponce, a member of the Dean's List, who earned a bachelor's degree in May, has a long list of honors, including a Motorola minority scholarship, a Hispanic Fund scholarship, and a Dr. Juan Andrade scholarship for young Hispanic leaders. She also was an Amoco Scholarship Foundation scholar and a United States Hispanic Leadership Institute intern scholar.

$1.4 Million Available for Low-Income Marquette Students

Marquette University in Wisconsin received two national grants totaling approximately $1.4 million, most of it targeted for low-income, academically talented, minority students.

A $1.2 million grant from the U.S. Department of Education will support 16 graduate fellowships over the next three years. The program GAANN (Graduate Assistance in Areas of National Need) places special emphasis on minority students. The departments of chemistry, biomedical engineering, and electrical and computer engineering will benefit.

A $220,000 grant from the National Science Foundation will be awarded in scholarship increments of $2,500 to 80 students over a two-year period. The money is specifically geared toward low-income, undergraduate or graduate students in the College of Engineering.

Coballes-Vega New Dean at Wisconsin-Oshkosh

Carmen Coballes-Vega, a leader in technology issues in education and literacy and former president of the Wisconsin State Reading Association, is new dean of the University of Wisconsin (UW)-Oshkosh College of Education and Human Services.

A professor of reading education, Coballes-Vega has more than 21 years of experience, including 12 with the UW System and seven with the State University of New York (SUNY), and is a frequent speaker on multicultural issues in education and literacy and on leadership.

Coballes-Vega, a Puerto Rican native who grew up in New York City, has a master's degree from New York University and a doctorate from the University of Illinois-Urbana Champaign.

Our Lady of the Lake Honors Rigual

Dr. Antonio Rigual, professor of Spanish at Our Lady of the Lake University (OLLU) in Texas, received the Francine and George Fleming Award for exemplary faculty service. The award honors OLLU faculty who represent the highest standards of instructional and professional behavior.

Rigual was instrumental in developing OLLU's weekend college program for nontraditional adult learners in San Antonio and Houston more than 20 years ago. The program expanded in 1994 to include a campus in Dallas.

He also originated the concept of the Hispanic Association of Colleges and Universities (HACU), the national organization of Hispanic-serving institutions of higher education.
Smithsonian Features Online Exhibition

The Latino Virtual Gallery of the Smithsonian Center for Latino Initiatives in Washington, D.C., is featuring the online exhibition “Revealing Personal Identity: The Indigenous Vision of Manuel Carrillo.” An exhibition about photography presented from a literary and artistic perspective, it brings Carrillo’s own identity quest to life through interpreting his photographs.

Every year, the Latino Virtual Gallery will feature three exhibitions. “The goal of the gallery is to provide Latino interpretations to collections related to U.S. history and culture,” says Center Director Refugio Rochín. “It will approach Latino contributions to America’s history, arts, and culture from a Latino perspective.”

Solley in New Post at Maricopa District

Arizona’s Maricopa Community College District named Dr. Anna Solley vice chancellor of academic affairs and student development.

Since 1997, Solley has been a North Central Association consultant evaluator. Having served in the district for 24 years, most recently at Estrella Mountain Community College, Solley becomes its first permanent woman vice chancellor. She has a bachelor’s degree, a master’s, and a doctorate, all from Arizona State University.

Solley’s professional memberships include the American Association of Higher Education, American Association of Women in Community Colleges, Arizona Association for Chicanos in Higher Education, and others.

Barry Receives $2 Million for Migrant Education

The U.S. Department of Education’s Office of Migrant Education awarded a grant of more than $2 million to Barry University’s (Fla.) Adrian Dominican School of Education. The HEP (High School Equivalency Program) grant will help adult migrant workers earn their GEDs.

“Then they will receive placement assistance in either career, college, or the military,” explained Janie Greenleaf, Barry’s director of Project MECHA. “This is a dynamic program that extends Barry’s outreach effectively to this specific population.”

The University’s program will receive nearly $422,000 per year, over five years.

St. Joseph’s Professor Studies Spanish Writers

While earning a doctorate from the Graduate Center of the City University of New York, St. Joseph’s College (N.Y.) Assistant Professor of Spanish Maria Montoya examined the influence of silent film in narrative works and essays. For her dissertation, “Spanish Vanguard Writers of the 1920s and American Silent Film,” Montoya looked at and studied the film essays and fiction of three prominent writers: Francisco Ayala, Antonio Espina, and Benjamin Jarín.

“I plan to continue my research on this topic and hope to publish,” said Montoya, who received her diploma in elementary education from the University of Santiago de Compostela in Galicia, Spain, and her bachelor’s and master’s in Spanish from Hunter College.

Castillon Leads Young Professionals at Lamar

Lamar University in Texas held its 13th Institute for Young Professionals, guided by a new director, Spanish instructor Catalina Castillon.

The nationally recognized program combines academic enhancement with programs to help students choose career fields and succeed in college. According to Castillon, the institute has proved an excellent recruitment tool. At least 20 percent of the program participants return to Lamar as students.

Born in Cleveland, Ohio, to Spanish parents, Castillon grew up in Madrid and Seville, Spain. She is founder and director of the Lamar University-Region 5 High School Foreign Language Competition and advisor to the Spanish Circle. She earned an international studies certificate at Mount Holyoke College, a master’s from the University of Massachusetts-Amherst, and a law degree from the University of Seville, Spain.

In the News at SUNY-Buffalo

Janine Santiago (l.), graduate student in American studies at the State University of New York (SUNY)-Buffalo, was elected president of the Graduate Student Association (GSA). Santiago will chair GSA senate meetings and be the primary student delegate to the University’s administration.

Santiago, who has a bachelor’s degree from the University of Puerto Rico-Rio Piedras and a master’s from SUNY-Buffalo, is writing a dissertation on the relationship between orality and writing in some of the works of Rosario Ferre and Ana Lydia Vega.

University of New Mexico School of Law Professor Margaret Montoya (r.) organized the Law and Society Association’s Eighth Summer Institute on Race and the Law, hosted by the Baldy Center for Law and Social Policy and the School of Law at SUNY-Buffalo. Montoya participated on a panel presentation, “Colonialisms and Modern Constructions of Race.”

Díaz Heads National Dermatology Society

Dr. Luis Díaz, chair of the department of dermatology at the University of North Carolina-Chapel Hill, is new president of the Society for Investigative Dermatology. Established in 1938 to foster research and education in cutaneous biology, the society now has more than 2,000 members worldwide. Díaz has served on its board of directors and several committees.

Díaz received his medical degree from Universidad Nacional de Trujillo in Peru, and completed his residency at the State University of New York-Buffalo in 1974. Author of more than 100 scientific and clinical publications, his research centers on autoimmune blistering diseases.
UTSA Engineering Professor Receives Award

A member of the civil engineering faculty at the University of Texas-San Antonio (UTSA) was nationally recognized for his contributions to engineering education.

Assistant Professor José Weissmann and seven colleagues from around the U.S. were given the Dow Outstanding New Faculty Award, presented by Dow Chemical USA to engineers who have recently entered the engineering education arena and have made significant contributions.

A native of Brazil, Weissmann joined UTSA in 1996. He completed his doctorate in engineering at the University of Texas (UT)-Austin, where he was principal investigator for its Center for Transportation Research.

Rochester Institute VP Receives Top Honor

Dr. Robert R. Davila, chief executive officer of the National Technical Institute for the Deaf and vice president of the Rochester Institute of Technology (RIT) in New York, was honored for his service in the field of deaf education at the 10th Annual TRIPOD Friends’ Awards luncheon in California.

TRIPOD is a private, nonprofit educational research organization that provides programs and services for hearing-impaired students and their families.

Davila is RIT’s first and only deaf vice president. His 47-year career includes past service as assistant secretary for special education and rehabilitation services of the U.S. Department of Education, the highest-ranking federal government position ever held by a deaf person. He has a bachelor’s degree from Gallaudet University, a master’s from Hunter College, a doctorate from Syracuse University, and honorary doctorates from RIT, Stonyhill, Hunter, and Gallaudet.

Goizueta Grant to Benefit Hispanics at Florida Atlantic

The Georgia-based Goizueta Foundation gave $200,000 to the Honors College at Florida Atlantic University to establish a scholarship fund for Hispanic students. The gift will be matched with $100,000 from the state of Florida.

The Goizueta Foundation Scholars Fund will provide annually one full need-based scholarship to a Hispanic student from Florida enrolled in the Honors College. When matching money is received, the Fund additionally will offer a partial scholarship based on the same criteria.

The Goizueta Foundation was established in 1992 to provide financial assistance to educational, cultural, religious, and charitable institutions. It is named for Roberto C. Goizueta, chair and CEO of the Coca-Cola Company until his death in 1997.

$150,000 to North Texas from AT&T

The University of North Texas System Center at Dallas was awarded $150,000 in cash and services from the AT&T Foundation. A portion will help maintain computer classrooms, computer labs, and a virtual library and will help initiate outreach efforts to area schoolchildren and their parents and teachers. The remainder will support broadband cable service, television recruitment advertisements, and airtime on cable channels.

Rep. Helen Giddings, who along with Sen. Royce West helped secure a $4.2 million appropriation for the Center, said, “Ultimately, gifts such as theirs will ensure a high-quality learning environment and increase the college-going rate among groups traditionally underrepresented in Texas universities.”

Carreon Elected to National Community College Board

Rio Hondo College (RHC) in California has a national voice with the election of its president, Dr. Jesus "Jess" Carreon, to the American Association of Community College’s (AACC’s) board of directors. Carreon is the first RHC president ever to be on the association’s 32-member board.

Carreon’s nomination was forwarded to the AACC’s 1,100 members by the National Council for Occupational Education. Elected with more affirmative votes than any other board candidate this year, Carreon will serve a three-year term as an affiliated council representative with complete voting rights for setting the community college’s national agenda.

Rodríguez New General Counsel at Texas Southern

Lynn Rodríguez is the new general counsel for Texas Southern University (TSU). Earlier, she was general counsel and director of access and equity for the Texas Higher Education Coordinating Board, where she advised on pending legal matters and on issues related to access to higher education by minorities and other underrepresented groups.

“I believe in what TSU is doing—providing educational opportunities for many students who would not otherwise attend a university,” said Rodríguez.

Rodríguez has a bachelor’s degree from Harvard University and a juris doctor from the University of Texas Law School.

Laredo Promotes Access to Education

Educational access for economically disadvantaged students is a high priority for Laredo Community College (LCC) in Texas. Through a program launched this year by the state, LCC has helped a record number of the region’s high school graduates finance their first year of college.

The new program has already awarded more than $260,000 to 39 LCC freshmen—an initial allocation of $161,000 and $99,500 after demonstrating additional need. Rick Moreno, LCC financial aid director, said LCC worked closely with area high schools to identify eligible students and invite them to apply.

Rep. Henry Cuellar (pictured t with Moreno) co-authored the program with Sen. Rodney Ellis.
New Partnership Provides Online Tutoring

SMARTHINKING, a Washington, D.C.-based online tutoring company, together with the Houghton Mifflin Company, a leading educational publisher, are providing college mathematics students with extra help they need to succeed in their studies, through free online tutoring services for students.

Students and professors using selected Houghton Mifflin college-level mathematics titles have access to three hours per day of textbook-specific online support from trained and qualified SMARTHINKING e-structors™. These e-structors—experts in their respective fields with experience in tutoring—have participated in a rigorous online training session and practicum. In addition, students have round-the-clock access to SMARTHINKING online study resources, such as reference materials, diagnostic tests, and research tools.

New Mexico Journalism Student Awarded $10,000

University of New Mexico (UNM) student Iliana René Limón is one of 10 college journalism students nationwide to participate in the Scripps Howard Foundation Top Ten Scholarship program. This fall, each will receive a $10,000 scholarship, covering a full academic year. The program was created to identify and reward the brightest college journalists in the U.S.

President of the Journalism Students Association, Limón interned with the Albuquerque Journal during the summer. She has been a reporter, photographer, and editor with the New Mexico Daily Lobo, UNM’s student newspaper.

A special scholarship committee selected the 10 winners, from 44 nominees, based on academic achievement and demonstrated interest in a journalism career.

Study Supports Diversity in College and Workplace

Americans continue to believe by wide margins that it is important for colleges to have students of different races, cultures, and backgrounds, and that colleges should be allowed to act to ensure a diverse student body says a major new public opinion study released by the Business-Higher Education Forum. The survey was conducted to gauge Americans’ views on these issues as public discussion continues on such matters as college admissions policies and corporate diversity initiatives.

The Business-Higher Education Forum, a partnership of the American Council on Education and the National Alliance of Business, is a membership organization of chief executives from American businesses, colleges and universities, and museums. The Forum recently launched the Diversity Initiative, which will help inform the public of the benefits of diversity in classrooms, on campuses, and in the workforce.

Golden Key Society Initiates Environmental Pledge

During an international convention in Los Angeles, Calif., of the Golden Key National Honor Society, more than 1,300 outstanding students from around the world pledged to unite in a global effort to protect the environment.

Arizona State University student Joyce Medina (pictured) was one of many to place a handprint on a 64-by-8-foot canvas in a symbolic oath of student commitment. The project “Global Minds. United Hands.” was initiated by an international delegation of Golden Key members who had selected environmental protection as the foremost global challenge.

The Honor Society, based in Atlanta, Ga., is a nonprofit organization honoring academic achievement in the top 15 percent of junior and senior students at colleges and universities worldwide. The highly diverse group includes individuals of 168 nationalities, as well as part-time and nontraditional students.

Latino Outreach Organization Holds Benefit

Education-Based Latino Outreach (EBLO), a nonprofit community-based organization in Maryland, recently sponsored “La Plaza Hispana” in celebration of National Hispanic Heritage Month.

The two-day gathering in Baltimore, part of the 34th Annual Fell’s Point Fun Festival, featured salsa, merengue, and Latin jazz groups and dance performances; Hispanic cuisine from the Americas and the Caribbean; arts and crafts; and an offering of information on Latino outreach resources.

EBLO is dedicated to improving the lives of Hispanic children, youth, and families living in Maryland by providing educational opportunities through cultural and educational programs and projects.

Texas-Pan American Aids Disadvantaged

Each summer at the University of Texas-Pan American, high school graduates interested in health care and medicine prepare for postsecondary education through the Health Careers Opportunity Program (HCOP).

Sponsored by a grant from the Division of Disadvantaged Assistance, U.S. Department of Health and Human Services, HCOP is designed to increase the number of individuals from disadvantaged backgrounds who enter and graduate from health and allied health professional schools.

“The goal of the summer enrichment program is to prepare these students academically, socially, and emotionally for their upcoming college career,” said Carlos Cavazos, HCOP academic advisor.

Latino USA Series Wins Award

Maria Emilia Martin, executive producer and correspondent for the University of Texas-Austin program Latino USA, won the Unda-USA Gabriel Award for her story “Who Were the Torturers? The Betrayal of Sister Dianna Ortiz,” a two-part series originally aired on National Public Radio in November 1999.

Martin revealed new information, obtained from a former federal agent, about the abduction of a U.S. nun in Guatemala, 10 years after she was kidnapped, tortured, and sexually assaulted by individuals she believes were members of the Guatemalan military. The program reported revelations about the U.S. government’s involvement with this incident and with repressive Latin American military regimes. Sister Ortiz had accused the U.S. government of suppressing information on her torturers.

Latino USA provides diverse audiences with multiple perspectives on issues affecting Latinos, fostering cross-cultural understanding, enhancing relationships among Latino
Continental Airlines Honors Lucent Executive

Continental Airlines named Fernando Figueredo, Lucent Technologies vice president of corporate communications, Caribbean and Latin America region, to receive HISPANIC magazine's US-Latin America Friendship Award, during the 10th annual Hispanic Achievement Awards.

Figueredo is a strong supporter of initiatives to increase cultural awareness and improve trade opportunities between the U.S. and Latin America. He leads Lucent's Partnership in Global Learning, which advances K-16 distance learning education throughout Latin America.

This was the third year Continental sponsored the Friendship Award and the HISPANIC Achievement Awards, which honor Hispanic Americans "who have made significant contributions in their chosen fields of endeavors as well as in the Latino community.'

El Paso Community Receives $32,000 Grant

The U.S. Department of Education awarded a $32,270 grant to El Paso Community College (EPCC) in Texas that will eventually expand into a new $2.5 million program, according to EPCC President Ramón Domínguez.

The funds are awarded to Hispanic-serving institutions to expand their capacity to serve Hispanic and low-income students. EPCC will be looking at student recruitment, student retention, distribution of resources, community collaboration, and external resources.

Secretary of Education Richard Riley said, "Hispanics continue to be the most underrepresented ethnic group in terms of college enrollment, a trend that will threaten U.S. vitality if left unresolved. As more jobs demand workers, the nation can simply not afford to pass up a quarter of the future workforce.'

The College Board Offers Three New Books

The Chronicle of Higher Education has disclosed that several well-known college guides receive compensation from colleges for publishing their profiles, which are edited primarily for style. While these publishers have agreed to make this practice more apparent to consumers, their books nonetheless remain a mix of comparable and non-comparable information about colleges.

While there is nothing wrong with students gathering information from a variety of sources, including such books, The College Board would like it to be known that it has never accepted payment from colleges to publish unverified profiles. The College Board also believes that what students need most of all is objective, easily compared information that has been subject to intense review for accuracy and completeness.

The following new books reflect the College Board's commitment to providing factual, comparable information to students and their families:

The College Board College Handbook 2001

This annually updated book includes a College Explorer® CD-ROM, and is a one-volume guide to all four-year and two-year colleges and universities. Data is updated with current information from an annual survey.

The College Board College Cost & Financial Aid Handbook 2001

This edition provides up-to-date facts needed to figure out the true cost of approximately 2,700 four- and two-year colleges.

The College Board Scholarship Handbook 2001

More than $64 million in total aid from federal, state, and institutional sources was available to students and their families in academic year 1999-2000. This updated handbook, with its FUND FINDER™ CD-
ROM, provides comprehensive information on more than 2,300 programs and more than two million individual awards.

Get Into Any College: Secrets of Harvard Students
By Jim Good and Lisa Lee

This book, written by Harvard graduates, is a how-to guide that helps students through every step of the admissions process.

The Human Tradition in Modern Latin America
William H. Beezley and Judith Ewell, eds.

This collection offers powerful, fascinating biographies of ordinary people caught in sometimes devastating historical changes. It personalizes the impact that revolution, economic upheaval, urbanization, the destruction of community life, and the disruption of both traditional family and gender roles have had on Latin Americans.

A Storyteller: Mario Vargas Llosa Between Civilization and Barbarism
By Braulio Muñoz

Braulio Muñoz offers a critical appraisal of Mario Vargas Llosa’s literary and political production from a socio-theoretical perspective. He engages the debate concerning the role of the writer in Latin America, the merits and shortcomings of modernist and postmodernist thought, and the differences between neoliberalism and alternative democratic positions.

In Defense of Honor: Sexual Morality, Modernity, and Nation in Early-Twentieth-Century Brazil
By Sueann Caulfield

With a close examination of legal theory on sexual offenses and case law in Rio de Janeiro from the end of World War I to the early years of the Estado Novo dictatorship, the author reveals how everyday interpretations of honor influenced official attitudes and even the law itself as Brazil attempted to modernize.

By Marisol de la Cadena

In the early 20th century, Peruvian intellectuals rejected biological categories of race as a basis for discrimination. But this did not eliminate social hierarchies; instead, it redefined racial categories as cultural differences, such as differences in education or manners. This book traces the history of the notion of race from this turn-of-the-century definition to a hegemony of racism in Peru.

Hidden Histories of Gender and the State in Latin America
Elizabeth Dore and Maxine Molyneux, eds.

Elizabeth Dore opens by arguing against the prevailing view that the 19th century was marked by a gradual emancipation of women, while Maxine Molyneux considers how various Latin American state forms have more recently sought to incorporate women into their projects of social reform and modernization. These essays are followed by 12 case studies that examine how states have contributed to the normalization of male and female roles and relations.

Feminism on the Border: Chicana Gender Politics and Literature
By Sonia Saldívar-Hull

Grounding her work in an analysis of the novels and short stories of three Chicana writers—Gloria Anzaldúa, Sandra Cisneros, and Helen María Viramontes—the author examines a range of Chicana feminist writing from several disciplines. She presents the voices of these and other Chicana writers in order to show their connection to feminist literature and to women of color in the United States.

The Subversive Voice of Carmen Lyra: Selected Works
Elizabeth Rosa Horan, ed.

These Central American trickster tales and satirical realistic stories by Carmen Lyra (the pseudonym of María Isabel Carvajal, 1888-1949) are the first translation into English of the writings of a leading revolutionary who was also an early 20th-century folklorist and children’s writer. Translated and with an introduction by Horan.
The Rise of American Research Universities: Elites and Challengers in the Postwar Era
By Hugh Davis Graham and Nancy Diamond

After 1945, America’s elite universities achieved global research leadership. Recently, successful challengers have emerged, often surpassing the established elites. This book provides a fresh historical interpretation of these large developments, one that emphasizes the distinctive features of American higher education.

Mexican Americans in Texas History: Selected Essays
Emilio Zamora, Cynthia Orozco, and Rodolfo Rocha, eds.

Only in recent decades have historians told the story of the many and significant contributions and influences of Mexican Americans in Texas history. This volume contains 11 essays from the 1991 conference “Mexican Americans in Texas History,” which was co-sponsored by the Texas State Historical Association. The gathering brought together some 600 participants, including nearly 100 leading scholars in the field of Mexican American studies.

Barrios Nortenos: St. Paul and Midwestern Mexican Communities in the Twentieth Century
By Dionicio Nodin Valdes

Mexican communities in the Midwestern United States have a history that extends back to the turn of the 20th century, when a demand for workers in several mass industries brought Mexican agricultural laborers to jobs and homes in the cities. This book offers a comprehensive social, labor, and cultural history of these workers and their descendants.

Pathways to Career Success for Minorities: A Resource Guide to Colleges, Financial Aid, and Work
Tim Schaffert, ed.

An increasingly diverse workforce faces both challenges and opportunities. Nearly two million businesses in the United States are minority-owned; minority-owned businesses take in more than $200 billion a year; minorities are members of 60 percent of U.S. corporate boards. This book includes essays on legal rights, affirmative action, mentoring, and other topics important to everyone concerned with diversity in today’s workplace and world.

The Puerto Rican Movement: Voices from the Diaspora
Andrés Torres and José E. Velázquez, eds.

The Puerto Rican movement was a response to U.S. colonialism on the island and to poverty and discrimination faced by most Puerto Ricans on the mainland. Interviews with such key figures as Elizam Escobar, Piri Thomas, and Luis Fuentes, as well as accounts by people active in the gay/lesbian, African American, and white Left movements, create a vivid picture of why and how people became radicalized and how their ideals intersected with their group’s own dynamics.

Many publications featured in this section are available through amazon.com.

TACHE 2000
November 29-December 1
The conference theme, “Latinos in Higher Education: Beyond the Demographics,” reflects the Texas Association of Chicanos in Higher Education’s interest in moving the dialogue beyond the numbers to a discussion of concrete strategic plans for addressing the challenges presented by the ethnic shifts in population.

6th Conference of the Recovering the U.S. Hispanic Literary Heritage Project
December 1-2
"Recovering the Past, Charting the Future: Archives, Canons, and Questions of Identity" is this year’s theme. At the University of Houston...
Book Review

By Eduardo Mendieta

Even as Hispanics refuse to line up before the sacrificial pyramid of pigmentocracy, despite efforts by the culture and institutions of race privilege in the U.S. to racialize us, race remains that Rubicon we must cross over to establish a new “America.” But this crossing over the “color line” cannot mean solely a leaving behind. It must also mean dealing with, inheriting, dismantling, and reconstructing. For us Hispanics—who are black, yellow, brown, mestizo, hybrid, negrito, mulato, and every other hue of color in the rainbow of human complexion—race is a wildly disquieting thing, sort of like Borges’ Chinese encyclopedia.

But there is one thing that we as Hispanics are not so well prepared to deal with, and that is the materiality, institutionality, structurality, viscosity, and permeability of race. Race suffuses every aspect of U.S. society, if only because its history has been so marked by the process of racial formation and the hierarchization of its social body according to a racial algorithm: black, negative and negating; white, positive and creative.

Race, like all social institutions, lives on because people invest their social wealth in its preservation and enhancement. People buy into this institution and derive great benefit from its regimenting, gerrymandering, and parceling. Race pays—to some, misfortune; to others, wealth. For this reason, our greatest challenge is going to be to be New Americans without investing in whiteness while at the same time not disinvesting ourselves from institutions that have racialized so many “Americans,” especially the black and indigenous. Lipsitz’s book should be an indispensable resource as we navigate these extremities.

All Hispanics, all U.S. citizens, need to read this book—ten chapters of incredible, but all too real, revelations, statistics, facts, and disclosures of covert and not-so-covert operations by the racist modus operandi of white-run government institutions. Lipsitz has culled material from history books, newspapers, government and private reports, historical reconstructions, memoirs, novels, movies, songs, magazines, etc. to weave a narrative that is both too bleak but un circumventable. This is the biggest, clearest, most persuasive, and most up-to-date exposé of American racism we can read.

Read about the convergence of wealth, corporate sponsorship, canon construction, and media access in the infamous case of historian Arthur M. Schlesinger, Jr. , author of the widely acclaimed The Disuniting of America, a trenchant critique of identity politics, a book commissioned by the Whistle Corporation, which started Channel One, an allegedly educational enterprise that donates equipment in exchange for exclusive rights to television time in schools. Time-Warner held assets in this enterprise, and Time magazine gave a front page to Schlesinger’s book. All of course, in the interest of a unified “America.”

Read about the mobilization of racial envy and animus in order to conceal the real sources of downward social mobility, about how whites are trained to see social inequity as a function not of political and economic policies and institutions, but as a consequence of cultural proclivities inscribed in the genetic code of colored people; about how whites are blind to their privilege and how they disavow their participation in maintaining our racial political economy. (My students, for instance, have never met a racist. Nor have they seen the performance of racism. Racism happens somewhere else, in black people’s imaginations.)

Read about the Bakke case against affirmative action in university admissions, and the willingness of courts to acknowledge the so-called wrong done to Bakke and yet look askew at the structural exclusion of minorities from most Ivy League universities. The fact is that whites have not just benefited from a de jure affirmative action of their privilege; they have also benefited from a de facto affirmative action that is best represented in the policies of most Ivy League schools to grant admission to relatives of alumni and donors. Privilege engenders privilege. Investment in whiteness spawns more investment in its value.

Lipsitz provides powerful endorsements of the work of many Chicano scholars, and the book concludes with some of the most illuminating analysis of California politics I have come across. And one of the best exposés of Ward Connerly, that inveterate critic but also long-time beneficiary of affirmative action. Race has exacted a price and produced surplus value: whites have reaped the benefits of a racial political economy, while Blacks, and other peoples of color, have paid for the “wages of whiteness,” to use that felicitous phrase by W. E. B. Du Bois.

Are we going to invest in whiteness, and thus perpetuate a privilege that has kept so many Americans from their dreams, and America itself from its truest dream: political and economic justice (as the great Pedro Henriquez Urena used to put it)? This book will help us to provide a clear and unequivocal answer.

Eduardo Mendieta is assistant professor of philosophy at the University of San Francisco.

Where success begins
CONSORTIUM FOR A STRONG MINORITY PRESENCE AT LIBERAL ARTS COLLEGES

Minority Scholar-in-Residence Program

With a view toward encouraging African-American, Asian-American, Hispanic-American, and Native American scholars to consider teaching and research careers at liberal-arts colleges, the Consortium for a Strong Minority Presence at Liberal Arts Colleges, an association of selective undergraduate institutions, has established the Minority Scholar-in-Residence Program. Applications are invited for the dissertation fellowship program or the post-doctoral fellowship program in all disciplines of the liberal arts and engineering. Applicants should be working toward the Ph.D. or the M.A. degree, or should have already been awarded the degree no more than five years prior to application.

The Minority Scholar-in-Residence will receive a stipend equal to the typical salary for beginning instructors (dissertation fellow) or assistant professors (post-doctoral fellow) at the host institutions. Scholarships will be expected to do some teaching and research, and to participate in other activities under the supervision of a mentor. It is required that the scholars work, upon completion of their residency, be strong candidates for tenure-track positions at member institutions of the consortium or at similar institutions.

Scholars must be citizens of the United States and have had no more than five years of teaching or relevant work experience before receiving the award. Ideally, applicants for the dissertation fellowship program should have completed their research before the beginning of the fellowship year.

Among the member institutions of the Consortium, the following offer to sponsor minority scholars during the 2001-02 academic year: Bowdoin College, Bryn Mawr College, Carleton College, Colorado College, Connecticut College, DePaul University, Grinnell College, Hamilton College, Haverford College, Macalester College, Mount Holyoke College, Oberlin College, Occidental College, Pomona College, Rhodes College, Southeastern University, Swarthmore College, Union College - NY, University of the South, Vassar College, Wellesley College, Whistler College - MA.

APPLICATION DEADLINE: NOVEMBER 15, 2000

Dean, College of Law

Florida International University invites applications and nominations for the position of Dean of the College of Law. The Dean will provide academic and administrative leadership of a new College of Law and will report to the Provost/Executive Vice President of Academic Affairs.

ABOUT THE UNIVERSITY: FIU is one of the fastest growing members of the State University System of Florida. Since its opening in 1972, FIU has become a large, modern, fast-growing, research university offering nearly 250 bachelor's, master's and doctoral degree to students from all 50 states and more than 119 countries. Enrollment currently exceeds 31,000. FIU has a strong history of diversity and minority representation among students, faculty, staff and administrators and ranks in the top one percent of all U.S. universities in campus diversity. In just 28 years, the University has achieved a national reputation for excellence and has become an international center of learning and research with state-of-the art facilities. FIU has two major campuses in Miami-Dade County, a teaching site in Broward County and several off-Campus locations. For further information visit www.fiu.edu.

ABOUT THE COLLEGE: On June 14, 2000, Governor Bush signed legislation creating a College of Law at FIU. The College will serve the needs of the State's legal, business and governmental communities by preparing attorneys to practice in fields that are in demand and underserved in South Florida. Our goal is to create a program that provides traditional preparation for practice with a curriculum infused with transnational theory and practice as well as a strong professional service ethic.

POSITION: The founding Dean of the College of Law will have the unique opportunity to establish the first public law school in South Florida. Candidates should have experience as a law school Dean or senior law school administrator; a record of scholarly production, evidence of entrepreneurial leadership and a demonstrated record of fundraising. Knowledge and experience in transnational law will complement the College's emphasis. The Dean should have the professional standing in the legal community to quickly identify and recruit senior and junior faculty and professional staff and create enduring partnerships between the College and the legal community.

We project the first class of approximately 120 part-time and full-time students to enter in September of 2002. Our goal is to have a highly qualified Dean as soon as possible.

COMPENSATION: The salary for this position is competitive, commensurate with experience and qualifications. Letter of inquiry or application accompanied by a current resume and the name of three professional references should be sent to:

Dean Ronald Berkenman, Chair, College of Law, Dean Search Committee Florida International University, University Park Campus, ECS 450 11200 SW 8th Street, Miami, Florida 33199, Fax (305) 348-5253

www.fiu.edu

Florida International University Applications must be postmarked by November 7, 2000. Florida International University is an equal opportunity/affirmative action employer.
Go to the head of the class.

It's never too early to think about your future career path. Which direction should you head in? What is your ultimate destination? Consider going to the head of the class by obtaining your business doctorate and becoming a professor. Think about it — getting your Ph.D. will give you the power to influence and inspire other talented young minorities like yourself to pursue a business career and diversify the work force of Corporate America.

If you're an African-American, Hispanic-American or Native American, The PhD Project is your link to your doctorate...the definitive source for everything you need to know to reach that goal. Think of it as your "Ph.D. guidance counselor." Then think about this — obtaining your doctorate and becoming a business school professor will not only encourage greater minority participation in business careers, it will also better prepare all students to work in a diverse environment. And as for you? It is your opportunity to realize a dream, to make a difference, to mentor a generation and, ultimately, to diversify America's business leadership.

If you are interested in pursuing your Ph.D. upon graduation, The PhD Project can help you. And, if you think you might consider pursuing a Ph.D. at some time in your future, The PhD Project will be there for you. Call 1-888-2GET-A-PHD for more information or visit us at www.phdproject.com for complete details.

We go the distance...

Today, education is a lifelong quest. Let NSU be your guide.

At Nova Southeastern University, we think of education as a lifelong odyssey. No matter where you stand on your learning path, we make you this promise—we go the distance.

NSU's small classes offer personalized attention, and are held at convenient times at more than 50 locations throughout Florida, across the United States, and around the world. Our broad range of programs extends education to an entire life span of students. Parents and infants participate in classes at the Family Center. Students from pre-K to 12th grade attend University School. Undergraduate and graduate students can enroll in day, evening, and weekend programs. Retirees enjoy lectures at the Institute for Learning in Retirement. In addition, NSU is a pioneer in distance education. Our exceptional technological abilities enable students to attend classes on campus, at distance education sites, or online.

NSU offers programs in the following disciplines:

- Allied Health
- Business and Entrepreneurship
- Computer and Information Sciences
- Dental Medicine
- Education
- Family Education
- Law
- Marine Biology
- Medical Sciences
- Optometry
- Osteopathic Medicine
- Pharmacy
- Psychology
- Social and Systemic Studies
- Undergraduate Studies

If you're eager to begin or continue your educational journey, contact us. We're as close as your telephone or computer screen, and we'll take you as far as you want to go.

3301 College Avenue, Fort Lauderdale, Florida 33314-7796

Spanish/Italian – Two positions. (V-24) Peninsular Literature (V-25) Latin American Literature

The College of Humanities and Social Sciences is offering the following 2-year non-tenure track terminal appointment: Spanish/Italian. (V-26) Generalist
For a complete job description on these positions, please contact Richard Gigliotti, Dean, College of Humanities and Social Sciences.

COLLEGE OF SCIENCE AND MATHEMATICS

Chemistry and Biochemistry. (V-28) Science Education. Ph.D. or Ed.D. in Chemical Education or Chemistry with a strong background and expertise in science education. Duties involve teaching general/specialty undergraduate courses and graduate level science education courses, contribution to the development of a doctoral program in science education for K-12 teachers, and establishment of successful research and grant activity in science pedagogy. Experience in directing science education research preferred.

Computer Science – Two positions. (V-29) Specialization in Informatics, or Human-Computer Interaction. Experience with Object Oriented programming environments including C++ or Java and modern architecture (RISC). Ph.D. in Computer Science or closely related field. Expected to have ongoing research plan, committed to quality teaching, and be involved in professional activities and the pursuit of grants.

Mathematical Sciences – Three positions. (V-30) and *V-(31) Mathematics Education. Teach undergraduate mathematics and mathematics education courses, and graduate mathematics education courses at the master's and Ed.D. level. Candidates should be capable of directing doctoral students and contributing leadership to the Department's active graduate program in Mathematics Education. Experience in supervising mathematics education research preferred. Required to be professionally active, committed to quality teaching and the pursuit of grants. Ph.D. or Ed.D. with some teaching experience and related research interests in grades 6-12 and a strong background in mathematics at least through the master's level required. (V-32) Pure and Applied Mathematics. Research interests in the following areas: combinatorics, game theory, graph theory, industrial mathematics, mathematical biology, mathematical economics, operations research or optimization. Must have a strong commitment to quality teaching in a broad range of courses at the undergraduate level and to a more specialized set of graduate courses. Ph.D. in Mathematics or Applied Mathematics required.

For a complete job description on these positions, please contact Ted Williamson, Acting Assistant Dean, College of Science and Mathematics.

SCHOOL OF THE ARTS

Fine Arts – Two positions. (V-33) Illustrator. Creative professional illustrator and educator to coordinate growing illustration area and teach beginning through advanced undergraduate courses. Responsibilities include coordination and development of illustration area and studio, advising students, hiring adjuncts in illustration, and service on departmental, school and university committees. MFA in Illustration, record of published work, exhibitions and college level teaching required. Knowledge of the Macintosh computer and applicable illustration software required. (V-34) Video/Multimedia Specialist. Knowledgeable in all aspects of Video/Multimedia, coordinate area and teach in a visual arts environment. Teach beginning through advanced levels of undergraduate courses in Video/Multimedia and film. Professional experience in video and 16mm film, including all applicable software programs and computer applications required. Development of Video/Multimedia area and lab advising students, hiring adjuncts, and service on departmental, school and university committees.

Music – Two positions. (V-35) Music Therapy. Teach undergraduate and graduate music therapy courses, supervise clinical training, administrative responsibilities, other duties as determined by departmental needs. Ph.D. in an appropriate area or equivalent. Music therapy certification required. Five years clinical experience preferable. Experience in adult psychology or gerontology. College teaching and publication record preferred. (V-36) Orchestra Director. Direct the University Orchestra. Teach applied music lessons, instrumental music education, orchestral conducting, string methods, chamber ensembles. Doctorate in Music Education or Performance. Professional Master's with extensive experience considered. Strong conducting and rehearsal skills, including knowledge of orchestral repertoire.

For a complete job description on these positions, please contact Ronald Sharp, Assistant Dean, School of the Arts.

SCHOOL OF BUSINESS

Accounting – Three positions. *(V-37) Teach all levels of accounting at both the undergraduate and graduate levels. CPA and Ph.D. in accounting preferred or enrollment in a Ph.D. Program. The School of Business offers a Bachelor of Science and a Master of Business Administration degree with a concentration in Accounting.

Economics and Finance. *(V-38) Finance. Teaching specializations, at the undergraduate and graduate levels, include Fundamentals of Finance, Corporate Finance, and International Finance. Ph.D. and at least one year of teaching experience required. Demonstrated commitment to excellence in teaching and a strong record of research publications.

Information and Decision Sciences – Two positions. *(V-39) Management Information Systems. Teach all levels of Management Information Systems in both undergraduate and graduate degree programs. Applicants should have a record of publications and have demonstrated commitment to excellence in teaching. A Ph.D. in Business Administration is required, with a major in Management Information Systems or a related field.

Management. *(V-40) Teach Entrepreneurship/Small Business Management and/or Behavioral courses at both the undergraduate and graduate level. A Ph.D. or D.B.A. required or an M.B.A. with a record of remarkable entrepreneurial accomplishments. The School of Business offers a Bachelor of Science and a Master of Business Administration degrees with a concentration in Management.

Marketing. *(V-41) Teach a wide range of marketing courses including e-commerce, sales/sales management, and business-to-business marketing at the undergraduate and MBA levels. Advise students, serve on department committees and participate in curriculum development. Ph.D. in Marketing preferred. ABADS will be considered. Demonstrated record of teaching, research and industry involvement required.

For a complete job description on these positions, please contact Karen Dennis, Assistant Dean, School of Business.

ADJUNCTS

(AV-001) Montclair State University is seeking an applicant pool of adjunct faculty for University departments for Fall 2001, Spring 2002.

Montclair State University has a long history of commitment to cultural diversity in its programs, faculty and students. To foster this multicultural environment, the University encourages applications from minority group members for its faculty openings.

PRESIDENT'S POSTDOCTORAL FELLOWSHIP PROGRAM

The University of California President’s Postdoctoral Fellowship Program was established in 1984 to encourage outstanding women and minority Ph.D. recipients to pursue academic careers at the University of California. The current President’s Postdoctoral Fellowship Program offers postdoctoral research fellowships and faculty mentoring to qualified scholars committed to university careers in research, teaching, and service that will enhance the diversity of the academic community at the University of California. For fellowships in the Humanities, Arts, Social Sciences, and professions, the program will prefer candidates whose research emphasizes issues such as diversity, multi-culturalism, and communities underserved by traditional academic research. For fellowships in Math, Engineering, Life Science and Physical Science, the program will prefer candidates who have participated in teaching, mentoring or outreach programs that promote educational opportunities for underrepresented students in higher education.

Fellows are awarded through competitions open to citizens and permanent residents of the United States. Applications from qualified persons are accepted and reviewed without regard to race, gender, or ethnicity.

Washington University Offers Annika Rodriguez Scholarship for Hispanic Students

Washington University in St. Louis is proud to offer up to five full-tuition scholarships for four years of undergraduate study to outstanding Hispanic students. This scholarship honors Annika Rodriguez, a young alumna who was tragically killed in an accident while working for the Peace Corps in Honduras. The scholarship is in addition to the $45 million in scholarships awarded annually to Washington University Undergraduate Students.

USF University of South Florida

Founded in 1956 as the first U.S. university to be created wholly in the 20th century, the University of South Florida is now the largest metropolitan university in the Southeastern United States, with a student body of nearly 35,500 spread across four campuses. The rich, multicultural atmosphere of the university is evident not only on the main Tampa campus, but at its branches in St. Petersburg, Sarasota/Manatee, New College, and Lakeland. USF promotes delivery systems, curricula, programs and activities that reflect the diversity of South Florida.

Some of USF “Points of Pride”
• The School of Accountancy is one of the best programs in the country. Its students routinely score among the nation’s top five advanced-degree schools in the country.
• Produces more MBA graduates than any other school in the state.
• The student body is diverse. Nearly six out of ten students are women and one out every five is a racial or ethnic minority.
• It has been named one of the year “2600” Best Florida employers for “Working Women” by the Florida Commission on the Status of Women.
• It has students from every state and more than 100 countries.
• It has the only College of Public Health in Florida.
• It is #1 for number of transfer students from community colleges and other institutions.

ITHACA

DEPARTMENT OF POLITICS

The Department of Politics at Ithaca College is seeking a tenure eligible Assistant Professor to teach introductory and intermediate level courses in international relations and comparative politics. At the intermediate and advanced levels, we invite applicants prepared to teach courses in international relations with a secondary specialization in area studies: specialization in the New Europe, including Russia, and another area preferred. We are interested in candidates who take a critical perspective on issues of global migrations, ethnic/national conflicts, diffusion of liberalism, and political movements. Ph.D. and an established record of teaching required.

Send vita, three letters of recommendation, writing sample, and other supporting materials to:

Asma Barlas, Chair
Department of Politics
Ithaca College, 370 Muller Center
Ithaca, NY 14850-7289

Screening of applications begins on December 11, 2000, and will continue until the position is filled.

Ithaca College is an Equal Opportunity/Affirmative Action Employer. Members of underrepresented groups (including people of color, persons with disabilities, Vietnam veterans, and women) are encouraged to apply.

Texas A&M University
College Station, Texas

Assistant or Associate Professor of Finance. Finance specialties desired are Business Finance, Investments, and Financial Institutions. TAMU is an Affirmative Action/Equal Opportunity Employer.

POSITION AVAILABLE: Fall 2001 SALARY: Competitive

CONTACT: Donald R. Fraser, Department Head, Finance Department, Texas A&M University, College Station, TX 77843-4218, (979)845-5200. FMA-Yes (Don Fraser) SPA-No; ASA-Yes (Don Fraser)
FACULTY POSITIONS

Agnes Scott College is a highly selective, independent, liberal arts college for women in the Atlanta area with a current enrollment of 900 students and a student-faculty ratio of 10:1. The teaching load in all departments is five courses per year. You are invited to browse our Web site at http://www.agnesscott.edu for further information on the department, the position and the College.

ECONOMICS (MICRO)
Tenure-track faculty position at either the assistant or associate professor level. The qualifications and experience of the successful candidate will determine rank. The teaching assignment in the four-person department will include introductory economics, microeconomics, labor economics and environmental economics. We will interview selected candidates at the ASSA meetings. Application deadline: November 15, 2000. Search chair: Dr. Rosemary T. Cunningham, Department of Economics.

ENGLISH (POSTCOLONIAL LITERATURE)
Assistant Professor of English, tenure-track, with specialization in Postcolonial Literature. Secondary specialization in Nineteenth-Century British Literature (poetry, fiction or prose) desirable. Position includes regular teaching of first-year introduction to literature and composition. Send letter of application, CV and dossier only. Application deadline: November 15, 2000. Search chair: Dr. Christopher Ames, Department of English.

FRENCH (MEDIEVAL AND/OR RENAISSANCE LITERATURE)
Tenure-track faculty position in French, rank open. Appointment at full professor level would be to an endowed chair. The qualifications and experience of the successful candidate will determine rank. Candidate will teach upper division courses with particular emphasis in Medieval and/or Renaissance Literature and will participate in language instruction at all levels. Native or near-native fluency in French is required. We will interview selected candidates at the MLA meeting in December. Application deadline: November 15, 2000. Search chair: Dean Edmund J. Sheehy, French Professor Search Committee.

HISTORY (PRE-20TH CENTURY AMERICAN)
Tenure-track assistant professor who specializes in a period of American history prior to the twentieth century and who can teach a wide range of courses, including women's history and African American history. Application deadline: November 15, 2000. Search chair: Dr. Katharine D. Kennedy, Department of History.

RELIGIOUS STUDIES (WORLD RELIGIONS)
Tenure-track faculty position in World Religions at either the assistant or associate professor level. The qualifications and experience of the successful candidate will determine rank. We seek someone with competencies in at least two major religious traditions or regions (Middle East, Africa, East Asia, South Asia, the Americas, etc.). Appointee will teach a two-semester sequence in world religions and upper level courses in one's areas of specialization. We will interview selected candidates at the Annual Meeting of the American Academy of Religion in Nashville in November. Application deadline: November 15, 2000. Search chair: Dr. Tina Pippin, Department of Religious Studies.

APPLICATION PROCESS
Unless otherwise noted in a specific listing:
• Positions begin August 2001.
• Candidates are expected to have completed the appropriate Ph.D. by July 1, 2001.
• Candidates for all positions are expected to have an ongoing program of scholarly work and publications appropriate to one’s areas of concentration, to demonstrate evidence of excellent teaching and to be willing to serve the department and the College during a period of growth.
• To ensure full consideration, applications should be received by the stated deadline.
• Send letter of application, CV and either a dossier or names and telephone numbers of three professional references to search chair listed at Agnes Scott College, 141 E. College Avenue, Atlanta/Decatur, GA 30030-3797.

Agnes Scott College does not discriminate on the basis of sex, race, color, religion, national origin, age or disability in its employment. Agnes Scott College has a strong commitment to diversity and urges members of underrepresented groups to apply.

Director of Student Records and Registration

Community College of Philadelphia is seeking applicants for the position of Director of Student Records and Registration. The Director of Student Records and Registration, under the direction of the Dean of Student Services Division, has overall supervision, planning, budgeting and administrative responsibilities for the Office of Student Records and Registration. The Director oversees the following: registration, records maintenance, transfer credit, graduation, and related services; student information technology and Web development; adherence to state and federal laws governing confidentiality and retention of education records, and enrollment statistics reporting; and, staff management and professional development. Additionally, the Director works closely with all Enrollment Management Offices toward meeting College recruitment and retention efforts. The successful candidate for the position will have a minimum of a Bachelor’s degree (Master’s degree preferred); at least 3 years of progressively responsible experience as Registrar, Assistant/Assistant Registrar or equivalent background in higher education, breadth management and supervisory experience; strong working knowledge of information technology used in academia as well as Internet applications and PC-based software; excellent face-to-face verbal and written communication skills; problem-solving ability; and experience working with people from diverse backgrounds. Experience to, and appreciation for, a collective bargaining environment is preferred. Salary: low $40s. Please send letter of interest, resume, and 3 references to: Community College of Philadelphia, 1700 Spring Garden Street, Philadelphia, PA 19130.

Community College of Philadelphia is an affirmative action, equal opportunity and access employer. The College encourages applications from individuals from traditionally underrepresented groups. AA/EOE

Director of Student Records and Registration

East Carolina University (ECU) invites inquiries, applications, and nominations for the position of Chancellor. East Carolina University, North Carolina’s third largest institution of higher learning and one of 16 universities in the University of North Carolina (UNC) system, is classified as Doctoral/Research University-Intensive. The Chancellor of East Carolina University is the chief executive officer and administrative head of the university, exercising overall authority subject to the direction of the President of the University of North Carolina system. The university was accredited by the Southern Association of Colleges and Schools in 1992 and will be reevaluated in 2002.

The 2000-2005 goals of the Chancellor and East Carolina University are to:

- expand the educational opportunities provided on and off campus by 20 percent;
- enrich the learning environment of students;
- increase the productivity of faculty, staff, and students in research and creative activity;
- extend external leadership and partnership roles in eastern North Carolina;
- become a leader in the application and development of information technology in higher education; and
- continue improving the quality and efficiency of services and operations.

East Carolina University was founded in 1907 as a state-supported teacher training school. In 1941 it became a liberal arts college, in 1967 a state university, and in 1972 a constituent campus of the University of North Carolina system. ECU serves as a focal point and leader for higher education in many fields in eastern North Carolina. The east campus is adjacent to downtown Greenville, the business, medical, cultural, and educational hub of eastern North Carolina. The health sciences campus is adjacent to Pitt County Memorial Hospital in west Greenville. Greenville is located 90 miles east of Raleigh, has a population of approximately 57,000, and is within easy driving distance of beach resorts.

Located on 484 acres, the campuses of ECU have 160 buildings with an estimated value of more than $422 million. The university’s current fund revenues totaled $372,963,13 for the fiscal year 1998-99, with unrestricted funds of $241,808,104 and restricted funds of $371,155,509. Also, there were $21,950,000, contracts, and cooperative agreements totaling $27,085,626.

East Carolina University serves approximately 18,000 students and employs 1,274 instructional faculty, of which 950 hold graduate degree, and 2,600 staff. The university offers bachelor’s degrees in 102 program tracks. The Graduate School has 67 master’s degree program tracks; three certificate of advanced study programs; one educational specialist degree program; one EdD program in the School of Education; PhD programs in biomedical physics, coastal resource management, bioenergetics, and communication sciences and disorders; and six PhD programs in the basic medical sciences. The MD degree is offered through the Brody School of Medicine. A PhD in nursing is in the planning phase. As a member of NCAA Division I-A, ECU offers 20 sports programs for both women and men athletes.

As a leader in the application and development of information technology in higher education, ECU is in the forefront of national networking initiatives, telemedicine, high performance computing, virtual reality, and distance education. In addition to installing a state-of-the-art campus network infrastructure, ECU has received major federal grants to support teaching/learning initiatives and membership in national partnerships and alliances.

East Carolina University seeks a Chancellor with the capacity to work with a wide range of internal and external constituencies to support and sustain the university’s mission. The Chancellor provides the overall leadership and direction for the university. The personal and professional leadership of the Chancellor will foster and build upon existing traditions and strengths of the university. The Chancellor, in concert with the faculty, will take an active leadership role in developing the academic programs and priorities of the university. The Chancellor also will be expected to oversee the implementation of the annual financial plan of the university, lead the university communities in the development of shared visions, and possess a clear sense of shared mission. The Chancellor is the principal public spokesperson for East Carolina University and takes an active leadership role in developing alliances and raising funds to expand the university’s resource base.

The successful candidate will have an advanced degree with a doctorate preferred; a proven record of 10 years of successful executive leadership experience and management of a diverse, complex organization; and evidence of strong academic credentials in teaching, research, and service.

For consideration, materials should be submitted prior to October 6, 2000. Review of applications will begin October 10, 2000, and continue until an appointment is made. Application materials should include a letter of application addressing how the candidate’s experiences match the position requirements, a curriculum vitae, and the name, title, e-mail, business address, and business and home telephone numbers of at least five references that include faculty, administrators, students and community leaders. Submission of materials as an MS Word attachment is strongly encouraged.

Inquiries, written nominations, and applications should be directed to:

East Carolina University is an equal opportunity/affirmative action university, which accommodates the needs of individuals with disabilities.
California State University, Sacramento (CSUS) invites applications from individuals interested in joining our dynamic and growing faculty. With a current student population in excess of 25,000, CSUS, the capital University, is one of the larger campuses in the 23 campus California State University system, the largest system of higher education in the nation. The University is organized around seven colleges. There are approximately 1,300 faculty who provide programs of instruction leading towards bachelors degrees in 60 disciplines and masters degrees in 40 disciplines, and one joint doctoral program.

Sacramento is California's capital city and is a high growth metropolitan area with a population of approximately 1.7 million. Outstanding cultural, recreational and entertainment opportunities are available both on campus and in the northern California region.

The departments listed below are recruiting for full-time tenure-track positions (unless otherwise noted), most at the rank of Assistant Professor, to begin Fall 2001. As departments make the information available, detailed announcements including the position description, qualifications, and application procedures will be posted on the California State University, Sacramento website: http://www.csus.edu and also on the California State University Electronic Bulletin Board (CSUEB) http://csueb.sfsu.edu

- Computer Science (Computer Networks & Distributed Systems) (Computer Architecture & Systems Software)

A successful California State University, Sacramento (CSUS) faculty member will promote the values of CSUS as a public, regional, comprehensive, metropolitan university. The CSUS Strategic Plan notes that “teaching and learning infuse and motivate all that we do.” In addition to positive contributions to teaching and learning, faculty are expected to engage in scholarship and to provide service to the university and to the greater community. At CSUS the quality of the education we provide is our top priority. Our campus community represents the broad diversity of our state and we believe that all are enriched and unified by this diversity.

California State University, Sacramento is an Affirmative Action/Equal Opportunity Employer, and has a strong institutional commitment to the principle of diversity in all areas. In that spirit, we are particularly interested in receiving applications from a broad spectrum of qualified people who would assist the University in meeting its Strategic Plan goal of pluralism: “To develop a campus community whose diversity enriches the lives of all and whose members develop a strong sense of personal and community identity as well as mutual respect.” CSUS hires only those individuals who are lawfully authorized to accept employment in the United States.

In compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, California State University, Sacramento has made crime reporting statistics available on-line at www.csus.edu/police/SRTKRPT.html. Print copies are available in the library, and by request from the Office of Public Safety and the Office of the Vice President for Student Affairs.
University of Connecticut Libraries has the following openings:

**Head, Collections Services**

(SEARCH #01A2D0)

The University of Connecticut Libraries seeks a knowledgeable, creative and dynamic manager to lead the Libraries into an increasingly electronic future. Under the general direction of the Head of Information Technology Services, the Collections and Services Librarian (CLS) participates in (or is responsible for) the selection, implementation, administration, and assessment of networked electronic resources and services for the University of Connecticut Libraries. The position requires a strong commitment to the selection and evaluation of networks and resources for new and continuing initiatives in the Collections and Services Area. This position is responsible for the Libraries’ Acquisitions, Cataloging, Preservation, and Stacks Management Teams, comprising 30 FTE staff and 7 collections budget of approximately $4.5 million. This is a senior management position reporting to the Director of Library Services and serving on the Libraries’ Leadership Council. Leadership Council has system-wide responsibility for strategic planning, personnel and resource allocation, organizational visioning, and the formulation of library priorities, goals, and policies. The complete job description is available at: http://www.lib.uconn.edu

Qualifications Include: An ALA accredited MLS degree in library and information science; a minimum of 3 years of supervisory experience of professional staff including formal evaluation in a research or academic library; a broad knowledge of library acquisitions, cataloging, collection development, and preservation activities, demonstrated expertise in one of these areas; experience in budget management and planning; and a commitment to effective management.

Compensation and Benefits: Anticipated hiring salary, mid-$70,000s. University benefits include 22 paid vacation days/year, 12 paid State holidays, excellent health and retirement plans, and tuition waivers.

**Network Services Librarian**

(SEARCH #01A8G)

The University of Connecticut Libraries seeks a forward-thinking, energetic individual to help lead the Libraries into an increasingly electronic future. Under the general direction of the Head of Information Technology Services, the Network Services Librarian (NSL) participates in (or is responsible for) the selection, implementation, administration, and assessment of networked electronic resources and services for the University of Connecticut Libraries. The position requires a strong commitment to the selection and evaluation of networks, resources and services for new and continuing initiatives in the Collections and Services Area. This position is responsible for the Libraries’ Acquisitions, Cataloging, Preservation, and Stacks Management Teams, comprising 30 FTE staff and 7 collections budget of approximately $4.5 million. This is a senior management position reporting to the Director of Library Services and serving on the Libraries’ Leadership Council. Leadership Council has system-wide responsibility for strategic planning, personnel and resource allocation, organizational visioning, and the formulation of library priorities, goals, and policies. The complete job description is available at: http://www.lib.uconn.edu/deg/jb oppps/

Qualifications Include: An ALA accredited MLS degree and 2 years of post-MLS experience in public services or systems position in an academic or special library with significant experience with technology support; demonstrated creativity in the application of emerging information technologies; solid understanding of networking LAN and WAN topologies, infrastructure and hardware; technical support knowledge of TCP/IP protocols, HTML, Internet accessible database development, Web browsers, other Internet clients, gateway/interface toolskits for access to bibliographic and other data through database interface mechanisms, and user-interface design; evidence of server-client application design or database application development; and, evidence of effective collaboration with faculty, staff, and students.

Compensation and Benefits: Minimum salary is $39,020. University benefits include 22 paid vacation days/year, 12 paid State holidays, excellent health and retirement plans, and tuition waivers.

University Setting: The University of Connecticut, established in 1881, is a Carnegie Research I University. It was recently cited as one of the top 20 public national universities and is engaged in UConn 2000, an ambitious ten year $1 billion campus building project. The main campus, situated in Storrs on 3100 acres of woodlands and rolling hills, is located approximately 30 miles from Hartford, the state capital, and midway between Boston and New York City. There are approximately 21,750 students system wide.

University Libraries: A member of the Association of Research Libraries, the Libraries are technologically advanced and recognized as an exciting center of intellectual life on campus. The Libraries are organized in team-based structures and are engaged in ongoing strategic programs. A dynamic organization, the Libraries offer creative, service-oriented individuals an exceptional opportunity for personal growth and learning.

Application Procedure: Submit a letter of application addressing how previous experience and personal qualities meet the requirements for the position; a resume; and the names, addresses, and telephone numbers of three professional references to:

**Deborah Stanbury Suyat**

Administrative Librarian

University of Connecticut Libraries

Box U-1005A

369 Fairfield Road

Storrs, CT 06269-1005

Screening will begin immediately and continue until the position is filled.

The University of Connecticut has a strong commitment to diversity. We actively encourage minorities and people with disabilities to apply.

**UIS**

Located in the state capital, the University of Illinois at Springfield is the third campus of the University of Illinois. The UIS campus serves approximately 4,000 students in 18 graduate and 20 undergraduate programs. The academic curriculum of the campus emphasizes a strong liberal arts core, an array of professional programs, extensive opportunities in experiential education, and a broad engagement in public affairs issues of the day. The campus offers many small classes, substantial student-faculty interaction, and a technology enhanced learning environment. Its diverse student body includes traditional, non-traditional, and international students. Its faculty are committed teachers, active scholars, and professionals in service to society.

UIS is seeking assistant professors (except where noted below) in the following disciplines, beginning August 15, 2001. All candidates must have an earned doctorate prior to beginning employment.

LOYOLA MARYMOUNT UNIVERSITY

The Department of Political Science invites applications for a tenure track position at the rank of assistant professor. We seek a specialist in comparative politics who can develop and teach courses focused on the political, economic and social dynamics of development in the Third World. A secondary emphasis in Latin America is highly desirable. Applicants should have a Ph.D. in political science in hand by August 1, 2001. The successful applicant will present evidence of excellent teaching and of the potential for outstanding scholarship. Salary is dependent upon qualifications. The application deadline is October 16, 2000. Applicants should send curriculum vitae (including e-mail address), academic transcripts, three letters of recommendation and evidence of teaching ability and research potential to:

Evan Gerstmann
Chair of Comparative Politics Search Committee
Department of Political Science
Loyola Marymount University
7900 Loyola Blvd.
Los Angeles, CA 90045-8410
(Egerstma@lmu.edu)

Loyola Marymount University, a Catholic university in the Jesuit and Marymount traditions, is a comprehensive university emphasizing excellent undergraduate education for a diverse student body, located on the western edge of Los Angeles, near the Pacific Ocean.

The University is an equal opportunity affirmative action employer and does not discriminate on the basis of race, gender, religion, ethnicity, sexual orientation or disability.

LOYOLA MARYMOUNT UNIVERSITY

MONTGOMERY COUNTY COMMUNITY COLLEGE

President

Montgomery County Community College invites applications for the position of College President. The President is the Chief Executive Officer of the College and is directly responsible to the Montgomery County Community College (MCCC) Board of Trustees. The Board of Trustees seeks a visionary leader, committed to learning, who will foster an inclusive climate for both the Central and West college campuses. As a strong academic institution, MCCC requires an individual who possesses the highest professional standards, integrity and open management style. Montgomery County Community College was founded in 1964 and ranks in the top four among student enrollment for community colleges in Pennsylvania. Over 9,000 full and part-time students were enrolled in the Fall, 1999 in 70 career and transfer degree programs and 23 one-year certificate programs. In addition, thousands more participated in non-credit programs that are offered each year. The College, located in suburban Philadelphia, offers an excellent salary and benefits package.

For a detailed Job Announcement visit our website at www.mc3.edu. Application documents must be received no later than October 20, 2000, for full consideration.

All correspondence should be addressed to:

Agnes Scott College
THE WORLD FOR WOMEN

VICE PRESIDENT FOR ACADEMIC AFFAIRS
AND DEAN OF THE COLLEGE

Agnes Scott College invites applications and nominations for the position of vice president for academic affairs and dean of the College.

Founded in 1889, Agnes Scott is a highly selective, independent, national liberal arts college for women located in metropolitan Atlanta. It offers the B.A. degree in 28 majors and an MAT in secondary English. Its endowment per student ranks among the highest of all colleges and universities and first among women’s colleges. The College currently has a full-time faculty equivalent of 90 and a diverse student population of more than 900. A dynamic program of institutional growth is on target to hire additional tenure-track faculty to meet the needs of increasing enrollment and curricular innovation. A strategic plan emphasizing international education, science, experiential learning and interdisciplinary study is being implemented, and a $120 million building program of expansion and renovation is well underway.

As chief academic officer, the vice president for academic affairs and dean of the College reports directly to the president. The vice president provides leadership in academic matters, oversees academic policy, budget and personnel, and works closely with the faculty to maintain the quality and vitality of the academic program and its support services, including the library and information technology.

The search committee will begin to review applications in late October 2000. Applicants may be assured that their candidacy will be held in strictest confidence. The anticipated starting date for the position is July 1, 2001.

To submit nominations or applications with letter of interest and curriculum vitae to:
Katharine Kennedy,
Chair of the Search Committee,
c/o Ms. Shelly Weiss Storbeck,
Vice President and Managing Director,
A.T. Kearney, Inc.,
333 John Carlyle Street,
Alexandria, VA 22314.
Phone: 703-739-4613; fax: 703-518-1782;
e-mail: shelly.storbeck@atkearney.com.

Agnes Scott College does not discriminate on the basis of sex, race, color, religion, national origin, age or disability in its employment.
Agnes Scott College has a strong commitment to diversity and urges Members of underrepresented groups to apply.

Athens, GA 30602-1815

The University of Georgia is an AA/EOE Institution.

FACULTY SEARCH
Religion & Philosophy
Hood College, Department of Religion and Philosophy, invites applications for a tenure-track position in religion for the 2001-2002 academic year. While there is flexibility regarding the candidate’s area of specialization, the following areas would be viewed favorably: Ethics, History of Philosophy, Philosophy of Religion. Areas of competence should include logic, professional ethics, ancient and medieval philosophy, twentieth-century philosophy, biomedical ethics. Ongoing research and publications appropriate to one’s areas of concentration are expected, and teaching experience is strongly preferred. Ph.D. required by time of appointment. Review of applications will begin December 1, 2000. Hood is a college of 900 undergraduates within an hour’s drive of Baltimore and Washington, D.C.

Hood College
Frederick, Maryland
Founded 1852

Hood College welcomes all students — women, men, individuals legally entitled to work in the United States, persons with disabilities — interested in applying.

University of Southern Maine

The Department of Political Science at the University of Southern Maine invites applications for two tenure track positions at the rank of Assistant Professor beginning September 2001. For both positions, evidence must be submitted that all Doctoral degree requirements will be completed by August 1, 2001. Review of application materials will begin November 1, 2000 and continue until positions are filled.

American Politics: The successful candidate will specialize in American Politics, be prepared to teach undergraduate courses in the U.S. Congress and some combination of Women & Politics, Media & Politics, or Intergovernmental Relations. Ability and willingness to teach an introductory course in American Government and either political science research methods or political behavior is also required. She/he must show promise of excellence in teaching and research, and an interest in public service. Send letter of application, vitae, copies of one publication or other written work, and no more than three letters of recommendation to: Dr. William Coogan, Search Chair, Department of Political Science, RE: 104, University of Southern Maine, P.O. Box 9300, Portland, ME 04104-9300.

International Relations or Comparative Politics: The successful candidate will specialize in International Relations or Comparative Politics, be prepared to teach undergraduate courses on European Politics broadly construed, and some combination of courses on International Political Economy, Democratization, and Women & Politics. Ability and willingness to teach an introductory course in either political science research methods or political behavior is also required. She/he must show promise of excellence in teaching and research, and an interest in public service. Send letter of application, vitae, copies of one publication or other written work, and no more than three letters of recommendation to: Dr. Richard Maiman, Search Chair, Department of Political Science, RE: 104, University of Southern Maine, P.O. Box 9300, Portland, ME 04104-9300.

The University of Southern Maine is strongly committed to diversity and to work/classroom environments that foster safety and respect. We strongly encourage applications from diverse ethnic and racial groups, women, gays/lesbians, and people with disabilities. We are an open and tolerant community interested in the whole of our faculty and staff. EEO/AA.
COUNSELOR POSITIONS

Founded in 1914, Grand Rapids Community College is the oldest community college in Michigan. The campus is located on six city blocks in the center of downtown Grand Rapids, the second largest city in Michigan. Grand Rapids is a metropolitan area in the economic, business, cultural, and educational hub in West Michigan with a population of nearly one million.

Grand Rapids, MI 49503-3295
www.grcc.cc.mi.us

Grand Rapids Community College is an equal opportunity institution.

An affirmative action/equal opportunity employer, Williams College especially welcomes and encourages applications from women and minority candidates.
Tenure Track Positions Fall 2001

Salem State College is seeking to fill several tenure track positions for Fall of 2001. For all positions we prefer candidates with experience in and commitment to teaching in a multicultural, multilingual environment with students with diverse backgrounds and learning styles, and candidates who enjoy serving as role models and mentors for a diverse student body. Salaries are competitive and commensurate with education and experience.

SCHOOL OF ARTS & SCIENCES

Art – Art Education

Doctorate in Art Education is preferred, but will consider M.F.A. with ABD in Art Education; 2 years of public school teaching is required. Responsibilities include teaching undergraduate and graduate courses in Art Education; supervising student teachers in Art Pre-K to 12; developing curriculum for new Master's level degree in Art Education; maintaining liaison with Education Department and area art teachers. The candidate must be able to teach foundation studio or introductory art appreciation courses, conduct and show evidence of research or studio work, and be familiar with state regulations for certification. Include statement of teaching philosophy, samples of research or studio work and slides of student work with other materials. Refer to: 01-AA-F-ART-AODE1.

Geography – Travel and Tourism

Ph.D. in Geography or a related field (ABD considered) and appropriate teaching experience are required. We prefer a candidate with specialization in travel and tourism and the ability to complement departmental offerings. The ability to assume a leadership role in Travel and Tourism, with a corporate travel emphasis, to advise a substantial number of majors, and to develop other programmatic interests that may include ecotourism, sustainable tourism and/or cultural tourism are also desired. Refer to: 01-AA-F-GEO-TRTT1.

Biology – Science Education

Ph.D. in Biology with course work in Education or Ed.D. and Master's degree in Biology or a related field; appropriate college level teaching of Biology, lectures and labs, and high school level science teaching; and other appropriate experience in secondary education. ABD candidates considered. We prefer candidates with 2+ years of teaching experience and experience supervising student teachers and advising Biology majors. Refer to: 01-AA-F-BIO-BIOE1.

Computer Science

Required qualifications include a terminal degree (Ph.D. or equivalent, ABD considered) in Computer Science or a closely related area with substantial graduate level coursework in Computer Science; knowledge of current software design methodology; Ada, Java, and Windows; expertise in at least one of the following areas: web programming, artificial intelligence, parallel/distributed computing, human-computer interfaces, and data communications; demonstrated excellence in college level teaching and experience or potential for teaching formal Computer Science courses beyond the CS1 level. Preferred qualifications include expertise in at least two of the above areas, research and/or industrial/commercial experience in the areas of object-oriented methodology, computer organization and architecture, UNIX, C++ and Internet/Web applications, and network design, implementation and maintenance. Refer to: 01-AA-F-CSC- CMCS1.

History – Ancient History

Required qualifications include a Ph.D. in History (ABD considered) with specialization in Ancient History and college teaching experience. Preferred are a Ph.D. in History (by 9/1/01), and expertise in Late Antiquity/Mediterranean, Early Medieval Europe, and/or Islamic History. Refer to: 01-AA-F-HIS-HISAN1.

Mathematics

Required qualifications include an earned Doctorate in Applied Mathematics, Statistics, or Pure Mathematics (ABD considered) and appropriate teaching experience. We prefer a person with demonstrated excellence in teaching at the undergraduate level, with a variety of teaching methods and styles, and involvement in research, and an interest in involving undergraduate students in research. Other capstone experiences. Strong commitment to innovation in teaching and a desire to teach in the M.S. and M.A.T. programs are also desired. Refer to: 01-AA-F-MAT-MAT1.

English – Composition and Literature

Ph.D. in English preferred, Ph.D. (or ABD with scheduled defense) in English or a closely related field considered; 2 years' accumulated experience teaching literature and composition and experience directing a college writing center required. We prefer a writing specialist with ability and interest in teaching literature sections, with literature fields in British or Non-U.S. English language literature. Experience in computer-assisted writing courses and/or on-line teaching a plus. Refer to: 01-AA-F-ENG-WRITC1.

Physics

Required qualifications include a Ph.D. in Physics, Physical Chemistry or a related field (Doctorate in hand by 8/1/00). We prefer a person with at least 2 years of college teaching experience, and the interest and ability to teach introductory Physics courses in an innovative environment, a commitment to undergraduate research, and experience in astronomy, radiation physics, and/or physics education research. The successful applicant will teach introductory physics courses in support of major programs in Biology, Chemistry and Geological Sciences, and a minor in Physics, and courses in physical science and radiation physics. Refer to: 01-AA-F-CAP-PHY1.

Psychology – Comparative Psychology

Required is an earned Doctorate in Psychology from an accredited institution (ABD considered), and experience teaching a diverse student body at the undergraduate and graduate level. The successful candidate will have expertise in one or more of the following specializations: biopsychology, contemporary learning theory, pharmacology, and evolutionary psychology. We are particularly interested in candidates who can include undergraduates in their research and who would be interested in developing new courses in comparative psychology. Send statement of research and teaching interests with other materials. Refer to: 01-AA-F-PSY-COMPYS1.

Computer Science

Required qualifications include a terminal degree (Ph.D. or equivalent, ABD considered) in Computer Science or a closely related area with substantial graduate level coursework in Computer Science; knowledge of current software design methodology; Ada, Java, and Windows; expertise in at least one of the following areas: web programming, artificial intelligence, parallel/distributed computing, human-computer interfaces, and data communications; demonstrated excellence in college level teaching and experience or potential for teaching formal Computer Science courses beyond the CS1 level. Preferred qualifications include expertise in at least two of the above areas, research and/or industrial/commercial experience in the areas of object-oriented methodology, computer organization and architecture, UNIX, C++ and Internet/Web applications, and network design, implementation and maintenance. Refer to: 01-AA-F-CSC-CMCS1.

Foreign Languages – Spanish and Language Pedagogy

Required qualifications include an earned Doctorate (ABD considered) and demonstrated teaching experience at the college level. We are seeking a specialist in language pedagogy/methodology and applied linguistics to develop and supervise teacher preparation for certification in foreign languages (levels 9-12), including course development, school placements and student teaching supervision. Familiarity with the National Standards for Foreign Language as recommended by the American Council on the Teaching of Foreign Languages a must. Preferred are the ability to teach a second language, an active research and publication agenda and the ability to teach courses outside the area of specialization, e.g. Translation, Business Spanish, etc. Teaching load is normally four courses per semester, including language and culture courses from beginning through advanced levels. Refer to: 01-AA-F-FRL-SPNPE1.

SCHOOL OF ARTS & SCIENCES

Art – Art Education

Doctorate in Art Education is preferred, but will consider M.F.A. with ABD in Art Education; 2 years of public school teaching is required. Responsibilities include teaching undergraduate and graduate courses in Art Education; supervising student teachers in Art Pre-K to 12; developing curriculum for new Master's level degree in Art Education; maintaining liaison with Education Department and area art teachers. The candidate must be able to teach foundation studio or introductory art appreciation courses, conduct and show evidence of research or studio work, and be familiar with state regulations for certification. Include statement of teaching philosophy, samples of research or studio work and slides of student work with other materials. Refer to: 01-AA-F-ART-AODE1.

Geography – Travel and Tourism

Ph.D. in Geography or a related field (ABD considered) and appropriate teaching experience are required. We prefer a candidate with specialization in travel and tourism and the ability to complement departmental offerings. The ability to assume a leadership role in Travel and Tourism, with a corporate travel emphasis, to advise a substantial number of majors, and to develop other programmatic interests that may include ecotourism, sustainable tourism and/or cultural tourism are also desired. Refer to: 01-AA-F-GEO-TRTT1.

Biology – Science Education

Ph.D. in Biology with course work in Education or Ed.D. and Master's degree in Biology or a related field; appropriate college level teaching of Biology, lectures and labs, and high school level science teaching; and other appropriate experience in secondary education. ABD candidates considered. We prefer candidates with 2+ years of teaching experience and experience supervising student teachers and advising Biology majors. Refer to: 01-AA-F-BIO-BIOE1.

Computer Science

Required qualifications include a terminal degree (Ph.D. or equivalent, ABD considered) in Computer Science or a closely related area with substantial graduate level coursework in Computer Science; knowledge of current software design methodology; Ada, Java, and Windows; expertise in at least one of the following areas: web programming, artificial intelligence, parallel/distributed computing, human-computer interfaces, and data communications; demonstrated excellence in college level teaching and experience or potential for teaching formal Computer Science courses beyond the CS1 level. Preferred qualifications include expertise in at least two of the above areas, research and/or industrial/commercial experience in the areas of object-oriented methodology, computer organization and architecture, UNIX, C++ and Internet/Web applications, and network design, implementation and maintenance. Refer to: 01-AA-F-CSC-CMCS1.

History – Ancient History

Required qualifications include a Ph.D. in History (ABD considered) with specialization in Ancient History and college teaching experience. Preferred are a Ph.D. in History (by 9/1/01), and expertise in Late Antiquity/Mediterranean, Early Medieval Europe, and/or Islamic History. Refer to: 01-AA-F-HIS-HISAN1.

Mathematics

Required qualifications include an earned Doctorate in Applied Mathematics, Statistics, or Pure Mathematics (ABD considered) and appropriate teaching experience. We prefer a person with demonstrated excellence in teaching at the undergraduate level, with a variety of teaching methods and styles, and involvement in research, and an interest in involving undergraduate students in research. Other capstone experiences. Strong commitment to innovation in teaching and a desire to teach in the M.S. and M.A.T. programs are also desired. Refer to: 01-AA-F-MAT-MAT1.

English – Composition and Literature

Ph.D. in English preferred, Ph.D. (or ABD with scheduled defense) in English or a closely related field considered; 2 years' accumulated experience teaching literature and composition and experience directing a college writing center required. We prefer a writing specialist with ability and interest in teaching literature sections, with literature fields in British or Non-U.S. English language literature. Experience in computer-assisted writing courses and/or on-line teaching a plus. Refer to: 01-AA-F-ENG-WRITC1.

Physics

Required qualifications include a Ph.D. in Physics, Physical Chemistry or a related field (Doctorate in hand by 8/1/00). We prefer a person with at least 2 years of college teaching experience, and the interest and ability to teach introductory Physics courses in an innovative environment, a commitment to undergraduate research, and experience in astronomy, radiation physics, and/or physics education research. The successful applicant will teach introductory physics courses in support of major programs in Biology, Chemistry and Geological Sciences, and a minor in Physics, and courses in physical science and radiation physics. Refer to: 01-AA-F-CAP-PHY1.

Psychology – Comparative Psychology

Required is an earned Doctorate in Psychology from an accredited institution (ABD considered), and experience teaching a diverse student body at the undergraduate and graduate level. The successful candidate will have expertise in one or more of the following specializations: biopsychology, contemporary learning theory, pharmacology, and evolutionary psychology. We are particularly interested in candidates who can include undergraduates in their research and who would be interested in developing new courses in comparative psychology. Send statement of research and teaching interests with other materials. Refer to: 01-AA-F-PSY-COMPYS1.
Required are a terminal degree in Sport Management or a related field (ABD considered); a strong background in sport marketing, public relations, budget and finance and organizational theory; and some expertise in teaching individual team sport and/or fitness activities. We prefer a candidate with knowledge of and experience with NAASN/NASPE Sport Management Review Protocol, college level teaching experience, grant writing ability and undergraduate advising experience. Refer to: 01-AA-F-SFL-SPMAN1.

SCHOOL OF BUSINESS

Accounting
Required is a Ph.D. or DBA in Accounting or a related field. We prefer a Ph.D. in Accounting, with college level teaching experience and research and scholarly publications in Accounting or a related field. Refer to: 01-AA-F-AFN-ACCI.

Finance

SALEM STATE COLLEGE IS AN EQUAL OPPORTUNITY/ AFFIRMATIVE ACTION EMPLOYER. PERSONS OF COLOR, WOMEN AND PERSONS WITH DISABILITIES ARE STRONGLY URGED TO APPLY.
DEAN
COLLEGE OF BUSINESS
ADMINISTRATION (COBA)

TTU invites applications and nominations for the position of Dean of COBA. The Dean is expected to provide dynamic, visionary leadership to enhance the prominence of the undergraduate, graduate, and outreach programs of the college. TTU is committed to providing substantial investments toward developing the strengths and reputation of the faculty and the college infrastructure.

The COBA is accredited by the AACSB, has approximately 110 full-time equivalents faculty and 60 graduate faculty members. The COBA has an annual budget of approximately $12 million, yearly research and sponsored projects expenditures of approximately $1 million, and an endowment of $40 million. Bachelor’s, Master’s, and Doctoral degrees in accounting, finance, information systems, management, marketing, and quantitative sciences are offered, and joint degree programs with other TTU colleges and reciprocal international programs have been established. The COBA and the TTU Health Sciences Center jointly direct the MBA/MD program, the only one of its kind in the country. Fall 1999 undergraduate enrollment includes 2,400 upper-division undergraduates, 420 masters, and about 60 doctoral students. The COBA houses the Center for Professional Development and the Texas Center for Productivity and Quality Work Life.

Qualifications and Characteristics

- An earned doctorate in business or a related discipline. Academic experience is desirable, but not required.
- Significant and successful administrative experience and successful interface with business through direct experience, consulting, or field-based research.
- A capacity for administrative as well as intellectual leadership. The successful applicant should be able to formulate, articulate, and implement a strategic vision for the future of business education at Texas Tech University.
- Dedication to student achievement, faculty development, and creation of an environment that promotes collegiality, pride, cultural diversity, and a commitment to excellence.
- An ability to develop and sustain partnerships with a supportive business (corporate and local) and alumni community, and to successfully accomplish fund-raising efforts.
- Be responsible to the various constituencies that comprise the College and the skills to work cooperatively with other academic units within the University.
- Ability to communicate with students, faculty, university administrators, business, government, foundations, and alumni.

Review of applicants will begin immediately; serious candidates should apply by October 15, 2000. Applications will continue to be reviewed until the position is filled. Candidates should submit a letter of application, curriculum vitae, and the names, telephone numbers, and addresses of three references. Nominations, applications, and confidential inquiries should be sent to:

Dr. John Barns, Provost
Texas Tech University
Box 42019
Lubbock, Texas 79409-2019
Phone: (806) 742-2184
Fax: (806) 742-1331
e-mail: john.barns@ttu.edu

Desired beginning date is January 2001, but is negotiable. Texas Tech University is located in Lubbock, a city of approximately 200,000, situated on the High Plains of West Texas and is the only university campus in Texas with a School of Medicine, a School of Law, and a comprehensive university on the same campus. The University holds the Carnegie Foundation Doctoral, Extensive Research classification with expenditures in excess of $40 million in sponsored projects annually. Enrollment of approximately 25,000 includes almost 3,500 graduate students, and degrees are offered in more than 150 undergraduate, 100 masters, and 60 doctoral fields of study.

Texas Tech University is an Equal Opportunity Employer and encourages nominations and applications from underrepresented groups and female applicants.

Specialist in Spanish Language Supervision. The position will consist of the following responsibilities: teach 2 classes per semester and 1 or 2 in the summer; coordinate lower-division Spanish language courses; train and supervise graduate students or instructors to assist in teaching Spanish language classes; develop and implement a Practicum in Service Learning Course. Salary: $40,000 (12 months). Preferred qualifications: Ph.D./Ed.D./ABD (must have degree in hand at time of appointment) in Spanish with a specialization in Pedagogy/Second Language Acquisition, or in Foreign Language Ed. With a specialization in Spanish: formal education and/or experience in language supervision; evidence of successful teaching; native or near-native ability in Spanish. Minorities and women are especially encouraged to apply. Applications received before November 20, 2000 will receive full consideration. Send letter of application, CV, placement file (or transcripts and 3 letters of recommendation) to:

Noel Fallows

(Phone: 217 / 265-0451; Fax: 217 / 244-5639)

The University of Illinois at Urbana-Champaign
Affirmative Action/Equal Opportunity Employer.
HEAD OF SPECIAL COLLECTIONS AND UNIVERSITY ARCHIVES

San Diego State University Library and Information Access is seeking an experienced librarian with strong leadership abilities and excellent interpersonal skills to serve as the Head of Special Collections and University Archives. Special Collections, which is a highly regarded program in teaching and research at the University, houses approximately 230,000 volumes of rare books and a collection of manuscripts, archives, photographs, art prints, postcards, memorabilia, etc., and oral histories. The printed collection includes innumerable nineteenth and twentieth century imprints which include material on heraldry, rare herbs, performing arts and archeology. Special Collections hosts the Emil Zinner Collection, one of the world's premiere collections of rare astronomy books, as well as the extensive Normand Collection on natural history. University Archives is the repository for materials which document the 100-year history of San Diego State University since it was founded in 1897 as a normal school. Complete details can be found on the department's web page: libweb.sdsu.edu/special/index.html.

Duties and Responsibilities:

The Head of Special Collections and University Archives reports to the Dean, Library and Information Access. The Head of Special Collections and University Archiver's primary responsibilities include managing and strengthening the distinguished collecting, preservation, and instruction programs; ensuring timely and high-quality access to the collections; and guides substantial programs involving scholarly and educational presentations, exhibits, and publications. The successful candidate will engage in scholarship via digitalization of unique holdings while promoting the continued relevance of the material and of special collections to research and teaching. Tenor duties are a critical responsibility of this position, which is a principal point of contact for library benefactors and is responsible for external activities and projects in collaboration with the Friends of the Library and the Office of University Advancement. The Head of Special Collections and University Archives is also responsible for collection development, active participation in instruction through, and liaison with, faculty and students; supervision of Special Collections staff and student assistants; the promotion of increased awareness and use of Special Collections for teaching and research; the implementation of future plans to bring the collections to theattention of faculty and students; and the implementation of new, creative and innovative programs. The University Archives is responsible for collection development, active participation in instruction through, and liaison with, faculty and students; supervision of Special Collections staff and student assistants; the promotion of increased awareness and use of Special Collections for teaching and research; the implementation of new, creative and innovative programs.

Qualifications:

Required:

- ALA-accredited degree or equivalent foreign degree and a minimum of two years post-degree experience working with special collections in an academic or research library.
- Demonstrate knowledge of current trends in the creation and digital management of special collections and archival materials.
- Excellent oral and written communication skills.
- Thorough knowledge of and experience with the administration of rare books, manuscripts, and archives.
- Evidence of a commitment to maintaining knowledge of rare books, manuscripts, and archives and ability to apply this knowledge in the planning, evaluation, and implementation of new services.
- Demonstrated leadership and supervisory experience.
- Ability to work successfully with students, colleagues, and research faculty and the research community.
- Knowledge of the principles and practices of scholarly research.
- Initiative and flexibility to successfully work in a dynamic environment.
- Ability to work effectively in a culturally diverse environment.
- Demonstrated potential for maintaining the requirements for tenure promotion and establishment of a service-oriented career.
- Support a commitment to professional development.

Preferred:

- Bilingual knowledge of one or more foreign languages.
- Grant writing experience.
- A second master's degree.

This is a full-time, twelve-month, tenure track faculty position. Award of tenure is dependent upon evidence of continuing library service effectiveness, professional growth, and service to the University and the community. The School of Library and Information Science at San Diego State University has a strong graduate program. Detailed information about the campus is available at <http://www.sdsu.edu>.

Send letter of application, resume, and at least two names of references to:

Helen Henry
Director, Administrative Operations
Library and Information Access
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-8050

A duplicate may be submitted by e-mail. Send to hhenry@lib.sdsu.edu. Please indicate the position for which you are applying.

To ensure full consideration, application should be received by November 13, 2000, when the Appointment Committee will begin screening.

SDSU is an Equal Opportunity, Title IX employer and does not discriminate against persons on the basis of sex, race, gender, national origin, age, sexual orientation, gender identity or expression, or disability. Women, ethnic minorities, and persons with disabilities are encouraged to apply.

FULL TIME POSITIONS

These positions will remain open until filled. Interested candidates are invited to submit a letter of application, curriculum vitae, and two letters of reference to:

Sdsu
Head of Special Collections
5500 Campanile Drive
San Diego, CA 92182-8050

Fax: 619-534-2081

To ensure full consideration, application should be received by November 13, 2000, when the Appointment Committee will begin screening.

SDSU is an Equal Opportunity, Title IX employer and does not discriminate against persons on the basis of sex, race, gender, national origin, age, sexual orientation, gender identity or expression, or disability. Women, ethnic minorities, and persons with disabilities are encouraged to apply.

KEEN STATE COLLEGE

Instructorial Designer

New Jersey City University is a culturally diverse, public, urban institution located in the greater New York Metropolitan area. NJCU is one of nine state colleges/universities in New Jersey. The University offers undergraduate, graduate and continuing education programs to approximately 10,000 students.

New Jersey City University's Title V Hispanic Service Institution Grant announces an opening for an Instructorial Designer.

The Instructorial Designer is responsible for working with faculty and students to assist in incorporating technology in the teaching, learning, and research environment; provides guidance to students for the selection and use of multimedia technologies in the development of coursework and curriculum design; and maintains facilities for the use of electronic media and applications such as the World Wide Web, mailing lists, and listservs. Reports to the Title V Coordinator.

Applicants should possess a Master's Degree in a related field with experience in multimedia development and production tools such as Blackboard's CourseWeb, WebCT, Dreamweaver 3.0, Fireworks 3.0, Adobe 5.5, Flash and related applications; internet applications such as the WWW, mailing lists, and digital media required. Excellent written and oral communication skills are required. Full-time faculty experience in a four-year comprehensive or university; administrative experience including supervision of a media center; experience in making presentations within the college/university context and at professional meetings is preferred.

Salary will be commensurate with experience. Cut off date for resumes: October 10, 2000.

Forward resume and cover letter to:
David F. Trujillo
Director of Grants and Sponsored Programs
New Jersey City University, 2039 Kennedy Boulevard
Room S330 Jersey City, NJ 07305
Or email to Dtrujillo@njcu.edu.
All e-mailed resumes must be received as an attachment.

Information about the University may be obtained electronically at www.njcu.edu.

An affirmative action, equal opportunity employer, the University especially welcomes and encourages applications from women and minority candidates.

CARLETON COLLEGE

The Department of Psychology at Colby College invites applications for a full-time, tenure-track position in Personality and Abnormal Psychology, beginning in Fall 2001. Must have completed Ph.D. by time of appointment; teaching experience desirable. Teaching responsibilities include courses in personality and abnormal psychology and advanced courses in the candidate's specialty area; participation in our team-taught introductory psychology course; and supervision of advanced students who are conducting research in the candidate's area of expertise. A strong background in quantitative methods and research design is required. The teaching load is five courses per year. The successful candidate will be expected to mount a generative research program on questions related to personality or abnormal behavior; a record of excellence in conducting rigorous empirical research is more important than any specific area of scholarship. Colby is a highly selective liberal arts college (with approximately 1750 students enrolled) recognized for excellence in undergraduate education and for close student-faculty interaction. The college offers a generousabbatical policy and funds for research and professional travel.

Applicants should send a curriculum vitae, transcripts, and statements of teaching and research interests along with three letters of recommendation to: Professor William Klein, Chair, Department of Psychology, Colby College, Waterville, ME 04901. Review of applications will begin in late December and will continue until the position is filled.

Colby is an Equal Opportunity/Affirmative Action employer and strongly encourages applications from women and minorities. Information about Colby College may be obtained on the Internet at http://www.colby.edu.
COLLEGE OF BUSINESS

Management Information Systems - Teach management information systems and networking. Ph.D. or D.B.A. in MIS required. Applicants to the associate rank must also have at least five years of successful teaching experience and a record of appropriate scholarship. Contact: Diane Hamilton, Chair, MIS Faculty Search Committee, Hamilton@rowan.edu.

Scholarly productivity, including professional presentation and publications is expected. Doctorate in school psychology, school counseling, or a closely related field; experience with diverse student populations as a school psychologist or counselor is a

COLLEGE OF ENGINEERING

Biological and Biomedical Engineering - (4 positions) Teach undergraduate and graduate courses in biology and biomedical engineering. Ph.D. or D.B.A. required. Ph.D. is preferred. Areas of interest include computer simulation, computer modeling, artificial intelligence, and modern control. Contact: Dr. Donald A. Fidler, Chair, Biological and Biomedical Engineering, fidler@rowan.edu.

Civil Engineering - Equivalent to assistant professor rank and is equivalent to full professor rank. Excellent A&M candidate. A complete job announcement for each position can be found at www.rowan.edu/ce.

Fall 2001 Faculty Positions

Rowan University is an Equal Opportunity, Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, or protected veteran status.
A SPECIAL OPPORTUNITY

The Maricopa Community College District
Director, Business & Workforce Development

The Maricopa Community College District is one of the largest educational systems in the country, located in one of the fastest growing counties with three million residents. The ten Maricopa Community Colleges and Centers offer 2,600 academic courses and 3,100 occupational courses in partnership with 1,000 corporations, government agencies and non-profit organizations.

The Maricopa Community Colleges serve nearly a quarter million culturally diverse students annually. MCCCD is dedicated to serving the needs of a diverse, growing population which, within a decade, will comprise more than 50% Hispanic and non-Anglo residents.

The Director, Business & Workforce Development reports to the Vice Chancellor, Academic Affairs and Student Development and is responsible for planning and coordinating business and workforce development programs to meet student and employer needs.

The Director heads a major department coordinating districtwide development of occupational programs and provides technical assistance to College Presidents, Deans, faculty and staff. The Director works with national and local agencies in developing occupational education and analyzes economic development, demographic and labor market characteristics to develop programs.

The Director must have knowledge and experience in economic development issues, industry training needs and current practices in occupational education in community colleges.

Training and experience required may include any combination of education or experience that enables a person to perform the duties required. This may include a college degree in Human Resources Training, Instructional Design or related field and/or professional experience in occupational education.

For complete information and an employment application visit www.dst.maricopa.edu/jobs.

This position will close October 27, 2000.

Direct inquiries to Lisanne Norman, Maricopa Community Colleges, 2411 West 14th St., Tempe, AZ 85281.

Michigan State University
Coordinator of Greek Life (New Position)
Position Announcement

Michigan State University invites applications for the newly established position of Coordinator of Greek Life in the Department of Student Life. In collaboration with the Assistant Director of Student Life/Greek Life, the Coordinator of Greek Life will provide administrative and educational support to the 56 constituent groups of the 4 Greek governing boards (Interfraternity Council, National Pan-Hellenic Council, 4th Greek Independent Council, and the women's Panhellenic Council). This is the second newly established position to support the MSU Greek community in the last three years.

The Coordinator of Greek Life will assist in the revitalization of the Greek community, through direct advising of Greek letter organizations; implementing programs in support of the Greek foundings of values of leadership, service, scholarship and lifelong friends; providing administrative support for the Greek community; and assisting in cultural change initiatives to ensure each Greek letter organization provides a healthy living-learning environment for their members.

The Coordinator will work in a rapidly changing multicultural Greek community, one in which refining established procedures and programs, creating new and exciting initiatives and collaborating across the University and City are the daily norm. This fast-paced, team oriented environment has a direct impact on 3,100 students involved in MSU Greek letter organizations.

For more information about the Department of Student Life, MSU Greek community or this position, please contact Billy Malasso, Assistant Director of Student Life, billym@msu.edu or call (517) 335-3860.

To make application, contact Michigan State University's Employment Office at (517) 432-1662. Refer to Posting # P00850. Initial screening of applications will begin November 1 and continue until the position is filled.

---

UNIVERSITY OF NEBRASKA AT OMAHA
Dean
College of Public Affairs and Community Service

The University of Nebraska at Omaha (UNOmaha) invites applications and nominations for the position of Dean, College of Public Affairs and Community Service. The university has a strong commitment to achieving diversity among faculty and staff. We are particularly interested in receiving applications from members of under-represented groups and strongly encourage women and persons of color to apply for this position.

The dean is the chief academic and administrative officer of the college and is responsible for providing leadership and direction to the college's teaching, research, and service efforts. The college, which has 70 full-time faculty and 30 staff members, is organized into six major units: the School of Social Work, the Departments of Criminal Justice, Gerontology, and Public Administration; the Center for Public Affairs Research; the Brennan Labor Institute; and the Goodrich Scholarship Program. All units are nationally accredited, where applicable. The college has 1,700 students. Doctoral degrees are offered in criminal justice and public administration.

Qualifications for the position include an earned doctorate; experience as a full-time faculty member; five years of academic administrative experience at the department level or higher, preferably in a metropolitan environment; a distinguished record of teaching, scholarship, and service to qualify for professorial rank and tenure in one of the college's units; demonstrated ability to provide dynamic leadership through a participatory management style in strategic planning, program and personnel management, budget management, and external grant development and funding; active involvement with professional organizations; community involvement; and effective interpersonal and communication skills.

Nominations and applications should be sent to: Dean Karee White, Chair Search Committee, 6001 Dodge Street, University of Nebraska at Omaha, Omaha, Nebraska 68182, FAX 402.554.3436. Applications should include a letter discussing experiences and accomplishments relevant to this position, a resume, and the names, addresses and telephone numbers of three references. Review of applications will begin November 15, 2000 and will continue until filled. See our website for further information: www.unomaha.edu/aa/faculty.html.

NINETEENTH CENTURY AMERICAN WEST/
SPANISH BORDERS
Tenure-Track Assistant Professorship

DePaul University is accepting applications for a tenure-track Assistant Professorship in Nineteenth Century American History, with a specialty in the history of the West/Spanish Borderlands, to begin in Autumn 2001.

The successful applicant should also be able to teach Native American history. Willingness to participate in and develop courses for the general education program is required. Involvement in interdisciplinary programs and initiatives, such as American Studies, Latin American and Latino Studies, and the Center for Latino Research, is encouraged.

Application deadline is November 15, 2000. Applicants should send letter of application outlining teaching experience and research interests, c.v., and three letters of recommendation to: Chair of the Search Committee, Department of History, DePaul University, 2230 N. Kenmore, Chicago, Illinois 60614. For more information see http://diversity.depaul.edu/jobs_las.html DePaul University is committed to diversity and equality in education and employment. Women and minorities are encouraged to apply.

DEPAUL UNIVERSITY
**Multimedia Technician**

New Jersey City University is a culturally diverse, public, urban institution located in the greater New York Metropolitan area. NJCU is one of nine state colleges/universities in New Jersey. The University offers undergraduate, graduate and continuing education programs to approximately 10,000 students.

New Jersey City University’s Title V Hispanic Service Institution Grant announces an opening for a Multimedia Technician.

The Multimedia Technician will provide technical support for installation, testing, configuration, deployment, management, monitoring and troubleshooting for small computer facility/lab. Research and test new software. Aid in the development and refinement of web and classroom based multimedia instructional materials; and assist faculty in effective use of software applications.

Required experience should include working knowledge of and experience with computer operating systems, hardwares, and software for PCs. Understanding of network infrastructure (LAN/WAN) concepts and TCP/IP networking. Strong verbal and written communication skills. Preferred experience should include familiarity with Blackboard’s CourseTools and WebCT and web based application design (HTML, Javascript, VBScript, Java). Bachelor’s Degree in Computer Science or related field preferred.

Salary will be commensurate with experience. Cut off date for resumes: October 10, 2000.

Forward resume and cover letter to:

David F. Trujillo
Director of Grants and Sponsored Programs
New Jersey City University, 2039 Kennedy Boulevard
Room S330 Jersey City, NJ 07305
Or e-mail to Dtrujillo@njcu.edu.

All e-mailed resumes must be received as an attachment. Information about the University may be obtained electronically at www.njcu.edu.

A representative of equal opportunity employer, the University especially welcomes applications from women and minority candidates.

**THE COLLEGE OF WOOSTER**

1189 Beall Avenue
Wooster, Ohio 44691-2363

SPANISH

Adjunct position in Spanish for Spring, 2001, to teach one course in beginning Spanish language. MA required. Letters of recommendation to John B. Gabriele, Chair, Department of Spanish, The College of Wooster, Wooster, OH 44691 by October 20, 2000.

The College of Wooster is an independent liberal arts college with a commitment to excellence in undergraduate education. The College values diversity and seeks to attract qualified women and minority candidates, and encourages individuals belonging to these groups to apply. Wooster seeks to ensure diversity by its policy of making appointments without regard to age, sex, race, creed, national origin, disability, handicap, sexual orientation, or political affiliation.

The College of Wooster is an Equal Opportunity, Affirmative Action Employer.

WICHITA STATE UNIVERSITY

ASSOCIATE DEAN FOR ADMINISTRATION

The Wichita State University Libraries seek applications and nominations for the position of Associate Dean for Administration. The successful candidate will become a member of the Libraries’ senior planning and management team and share in leadership responsibilities of the Libraries with the Dean and the Associate Dean for Information Services. The incumbent in the position must be a flexible, innovative, and experienced individual who will strengthen key fiscal, fund-raising, human resources, and assessment programs of the Libraries and who can work collaboratively with senior library administration, library divisions, units, and departments, the library faculty, and external clientele.

Responsibilities: Reporting to the Dean of University Libraries, the Associate Dean for Administration assumes responsibility for budget administration and assisting the dean with budget management and general library operations. Designs and directs operational activities related to budget preparation, analysis, accounting, monitoring, and purchasing; human resources administration and development, including training, compliance with Federal, State, and WSU requirements; appropriate classification for non-faculty personnel; and facilities administration to ensure a safe and pleasant environment that supports work and study; assessment activities; statistical reporting; grants writing and contracts. Establishes and maintains effective relationships as appropriate with the institution’s administrative offices, with external vendors, and contractors. Participates in strategic planning, top-level decision making processes, and works collaboratively with senior library administration, library divisions, departments, and unim to accomplish their goals. May represent the Libraries and the Dean on major institutional task forces and committees in key areas of responsibility. Major new initiatives in which incumbent will play a key role include redesign of the Libraries’ budget structure, developing human resources programs and initiatives, and leading the Libraries’ grants writing team.

Qualifications: Master’s degree from an ALA-accredited program; additional graduate degree in a relevant area of expertise; significant experience may be substituted for a second graduate degree; at least five years of increasingly responsible and successful experience in the following 3 major areas of responsibility: budget management, personnel management, and assessment. Substantial managerial and supervisory experience. Familiarity with current issues and trends affecting academic libraries and their institutions. Commitment to develop and build a successful and diverse population. Some knowledge of grant writing. Evidence of highly effective analytical, written and oral communication, interpersonal, and problem-solving skills. Evidence of scholarship and service credentials commensurate with faculty rank.

Salary and Benefits: Minimum salary $61,000. Salary and faculty rank negotiable, depending upon qualifications and experience. A tenure-earning faculty position. Excellent fringe benefits including TIAA/CREF, Blue Cross/Blue Shield, Long-term care insurance, SRAs, and HMO 22 days annual leave.

The Environment: Wichita State University is one of three research institutions in the state university system of Kansas. Supporting 104 undergraduate and master’s degree programs, 10 doctoral programs, and the National Institute for Aviation Research (NIAR), WSU functions as the urban research university with a strong emphasis in engineering, business, public health, liberal arts and sciences, and the fine arts. The library system is currently comprised of the main library and 2 branches, containing a collection of 1.2 million volumes, 15,000 serial subscriptions, more than 70 electronic databases, extensive archives, and 1,000,000 microforms. The Libraries are heavily engaged in collaborative electronic initiatives with the Kansas Regents Libraries and with the Kansas Digital Library Initiative.

Application: Deadline for receipt of applications: October 31, 2000. Send letter of application, resume, and the names, addresses and telephone number of three references to:

Kathy A. Downes
Chair, Search Committee for Associate Dean
University Libraries
Wichita State University
Wichita, KS 67260-0068

WICHITA STATE UNIVERSITY IS AN AFFIRMATIVE ACTION/EQUAL OPPORTUNITY EMPLOYER.

Dean, College of Veterinary Medicine

The University of Illinois at Urbana-Champaign invites nominations and applications for Dean of the College of Veterinary Medicine. Position requirements include a DVM or equivalent veterinary degree and demonstrated accomplishments that qualify the individual for tenure in a department within the College. Preferred qualifications include academic and research experience; excellence in administrative leadership; a commitment to equal opportunity; ability to lead the College in its academic responsibility as part of a nationally and internationally recognized land-grant university; and ability to relate to livestock, equine, companion animal and biotech industries. The Dean works closely with Campus and University administration; interacts with students, professional organizations, and leaders at local, state, and national levels; and plays a critical role in development of well-funded campus biotechnology initiatives. Full-time, 12-month appointment; salary and starting date are negotiable.

To assure full consideration, nominations and letters of interest (including vita) should be postmarked by November 15, 2000, and sent to:

Professor Robert Easter, Search Committee Chair
University of Illinois at Urbana-Champaign
601 East John Street
Champaign, IL 61820
Attention: Shirley Apperson

TOWSON UNIVERSITY

PRESIDENT

The Chancellor and Regents of the University System of Maryland invite nominations and applications for the position of President of Towson University. The new President will succeed Hoke Smith, who will retire on June 30, 2001, after 22 years of extraordinary leadership as Towson University’s tenth President.

The President of Towson University is the chief executive officer of the institution responsible for all aspects of campus administration. The ideal candidate will be a distinguished leader who can articulate a compelling vision of academic excellence; effectively fundraise; strongly advocate for institutional resources; develop a strong sense of community with an appreciation of shared governance; demonstrate an unflagging commitment to diversity; and actively foster an environment of intellectual pursuit and personal growth for students, faculty and staff. The President is responsible to the Regents and Chancellor of the University System of Maryland (USM) and operates in accordance with policies and procedures established by the USM Board of Regents.

Founded in 1866, Towson University is situated on a 328-acre setting in the beautiful suburban community of Towson, Maryland, just north of Baltimore and 45 miles from Washington D.C. Towson University is ranked seventh among the 65 regional public institutions in the north considered by U.S. News & World Report for its year 2000 America's Best Colleges issue. Based on academic reputation alone, it ranks second.

As the Baltimore area’s largest university and Maryland’s largest comprehensive university, Towson plays a vital role in the educational, economic, and cultural life of Baltimore, the State of Maryland, and the Middle Atlantic Region. Towson University enjoys a strong regional and national reputation for quality undergraduate education in the liberal arts and sciences, fine and performing arts, and professional programs in business, education, and the health professions. Its student body of 16,000 works closely with a distinguished full-time faculty. Towson University continues to expand its degree programs at the undergraduate and graduate levels, and will soon accept candidates for its first-ever applied doctoral degrees.

A complete application should include a letter of interest, curriculum vitae or resume, and a brief statement of philosophy of leadership in education. For best consideration, please send materials no later than October 13, 2000. Applications, nominations, inquiries, and expressions of interest should be forwarded, in confidence, to:

Gerard J. Gaeng, Esquire
Chair
Presidential Search Committee
Towson University
8800 York Road
Towson, MD 21252

or to:

Towson University is an Equal Opportunity/Affirmative Action Employer and has a strong institutional commitment to diversity. Women, minorities, persons with disabilities and veterans are encouraged to apply. For more information about Towson University, please visit our website, www.towson.edu or e-mail us at pressearch@towson.edu.
ASSISTANT COMMISSIONER FOR PARTICIPATION & SUCCESS

The Texas Higher Education Coordinating Board seeks to fill a senior position to help carry out a new plan to close the gaps in participation and success in higher education across the state and between Texas and other states, and build an educated workforce through effective collaboration among P-16 educators, business, and other organizations. This position requires creativity, leadership, knowledge, and the translation of the Board’s participation and success goals into results.

The Coordinating Board is Texas’ higher education agency, responsible for state-level coordination and planning of public higher education; working with the Governor, Legislature, and institutions for its improvement; establishing policies for the efficient use of the state’s higher education resources; and administering many of the state’s higher education programs, including those for student financial aid.

The Assistant Commissioner for Participation & Success is responsible to the Commissioner of Higher Education and the Deputy Commissioner for matters related to participation and success across all levels of higher education. Minimum qualifications for the position are: Master’s, doctoral, or professional degree from an accredited senior college or university. Significant and successful administrative and supervisory experience, including strategic planning, management of human resources, and fiscal oversight; and excellence in written, oral, and interpersonal communication; demonstrated expertise in educator preparation and improvement, and in building participation and success of underrepresented groups in education.

Salary - $91,140 - $98,004 annually

APPLICATIONS ACCEPTED UNTIL FILLED

PROPOSED STARTING DATE - As soon as possible, no later than January, 2001

Submit required State of Texas Application form to:

Texas Higher Education Coordinating Board
P. O. Box 12788
Austin, TX 78711

Please visit our website at www.thecb.state.tx.us or phone 512-427-6150 to request a full job description or a State of Texas Application Form.

Mankato, MN 56001

AA/EEO
Bowling Green State University

Dean of Firelands College

Fall 2000

Bowling Green State University seeks applications and nominations for the position of Dean of Firelands College, one of the seven academic colleges of the University. Located in Huron, Ohio, 62 miles east of Bowling Green, the mission of Firelands College is to offer high quality associate degree programs, as well as select baccalaureate and master’s programs, while being responsive to the needs of the region. With an enrollment of approximately 1300 students, the College also offers a full spectrum of continuing and professional education courses and is expanding customized training and distance learning components. For more information, visit our website at: www.firelands.ohio.gov.

Major responsibilities: The competitive candidate will possess the vision, skill, and motivation to lead this dynamic college in its academic growth and expansion. The Dean of Firelands College is the chief academic and fiscal officer and is responsible for all academic and support programs. All faculty, administrative staff, and classified staff of the Firelands Campus (including the offices of admissions, financial aid, registration and records, student services, technology support services, teaching and learning center, budget and operations, development, and college relations) report to the Dean. As one of the academic Deans, this individual is administratively responsible to the Provost and Vice President for Academic Affairs at Bowling Green State University. The Dean will be expected to: 1) provide leadership in maintaining and expanding its own academic programs as well as those in cooperation with the other colleges at BGSU; 2) effectively manage the comprehensive operations of the Firelands Campus; and 3) maintain and enhance existing community relationships.

Minimum qualifications: The curriculum vitae must clearly evidence: 1) an earned doctorate or equivalent terminal degree; 2) tenure status; 3) significant contributions to the national dialogue and to the discipline; and 4) a minimum of five years in academic administration. Preferred qualifications: The successful candidate will also demonstrate: 1) knowledge of or experience in a multi-campus administration; 2) ability to address the needs of diverse constituencies; and 3) development experience.

Application process: Applications, including: 1) cover letter; 2) current curriculum vitae; and 3) the names, addresses and telephone numbers of five references, should be postmarked by October 23, 2000. Screening of applicants will begin immediately. References will be treated in a confidential manner and will not be contacted until advanced stages of screening. Applications should be sent to:

Dr. Ernest Savage
Chairman of the Search Committee
c/o Dr. Carol Engler
Executive Assistant to the Provost
Office of the Provost and Vice President for Academic Affairs
230 McFall Center
Bowling Green State University
Bowling Green, OH 43403
Phone: (419) 372-2915

BGSU is an Affirmative Action/Equal Opportunity Employer and encourages applications from women, minorities, veterans, and persons with disabilities.

St. Lawrence University

The oldest coeducational institution of higher learning in New York State, educating students of the region, the nation and the world.

St. Lawrence University, chartered in 1856, is an independent, private, non-denominational university whose mission is to provide an inspiring and demanding undergraduate education in the liberal arts to students selected for their seriousness of purpose and intellectual promise. The University’s 2000 students come from 31 U.S. states and 21 countries. Located halfway between the high peaks of the Adirondack Mountains and the national capital of Canada, Ottawa, the University provides unparalleled access to outdoor recreation and international social and cultural opportunities.

St. Lawrence University offers a unique learning environment providing 35 majors, 32 minors, 3 graduate programs in Education, and 12 interdepartmental programs, including a nationally recognized First Year Program, taught by 95 full-time faculty. St. Lawrence is in the midst of an educational renaissance, with ambitious academic initiatives, designed to maximize learning, and with major facilities improvements, supported by a $30 million capital campaign, that provide expanded resources for undergraduate learning.

10/09/2000 O HISPANIC OUTLOOK
ASSISTANT REGISTRAR

The College of Wooster invites applications for the position of Assistant Registrar. This is a new position, reporting to the Registrar, with primary responsibility for providing technical support to the Registrar's Office. The Assistant Registrar will develop, maintain, and use the registration modules of an integrated student information system and play a key role in the development of a new campus web-based Intranet information system. The position will assist the Registrar with institutional research and reporting and supervise the Office in the absence of the Registrar.

Qualifications: A bachelor's degree with at least one year of experience working within a higher education setting are required. Database management expertise, experience with p.c. software, and management of higher education technology applications are important. Good communications and research skills are essential. Experience with the SRN software system, knowledge of higher education issues, and experience in a Registrar's Office are preferred.

Submit a letter of application, resume and contact information for three professional references to Glenn Davis, Registrar, The College of Wooster, 1189 Beall Avenue, Wooster, OH 44691-2363. Review of applications will begin on October 20, 2000.

The College of Wooster is an independent college of the liberal arts and sciences with a commitment to excellence in undergraduate education. The College values diversity, strives to attract qualified women and minority candidates, and encourages individuals belonging to these groups to apply. Wooster seeks to ensure diversity by its policy of making appointments without regard to age, sex, race, creed, national origin, disability, handicap, sexual orientation, or political affiliation.

The College of Wooster is an Equal Opportunity, Affirmative Action Employer.
SOUTHERN OREGON UNIVERSITY

The Oregon State Board of Higher Education invites nominations and applications for the position of President of Southern Oregon University (SOU). As chief executive officer of the University, the President reports to the Chancellor of the Oregon University System (OUS) according to policy set by the Board. The appointment will be effective July 1, 2023.

Preferred Qualifications

- An earned doctorate, appropriate terminal degree, or extraordinary accomplishment in one of the major academic areas offered at SOU.
- Excellent record of leadership relevant to managing a university.
- Commitment to higher education as an open exchange of ideas promoting the growth of the University community for the advancement of society.
- Dedication to an open and participatory style of institutional decision making, shared governance, and communication.
- Significant capacity for and achievement in legislative and philanthropic advocacy.
- Demonstrated commitment to multiculturalism and diversity in the curricula and all aspects relevant to the University teaching, administration, and culture, as well as achievement in affirmative action and equal educational and employment opportunities.
- Experience with the development and nurturing of alliances and partnerships that link a university’s academic resources to its region.
- Ability to maintain positive relationships for the University by effectively interacting with students, faculty, staff, alumni, business leaders, legislators, and the broader community.
- The necessary vision and presence to continue the University’s pursuit of excellence and innovation.

Applications

To assure full consideration, nominations and applications should be received no later than November 3, 2023. All nominations, inquiries, and applications will be held in the strictest confidence. Applicants should submit a detailed cover letter explaining how their expertise relates to the criteria for the position. In addition, applicants should enclose a complete curriculum vitae and the names of three current references. Address all materials to:

Mr. William H. Williams, Chair
President Search Committee
Southern Oregon University
1250 Siskiyou Boulevard
Mail Services Box 26
Ashland, Oregon 97520
Phone: 541-552-6324
Fax: 541-552-6337

Southern Oregon University is an affirmative action/equal opportunity employer committed to the development of an inclusive, multicultural community.
Central Michigan University
College of Education and Human Services
Mt. Pleasant, MI 48859

General Information: Central Michigan University is a comprehensive state university with 800 faculty and an ongoing campus enrollment in excess of 18,000 students. Offering undergraduate, master, specialist, and doctoral programs, CMU's 854 acre main campus is located in Mt. Pleasant, Michigan, a town of about 25,000 in the heart of Michigan's Lower Peninsula, 66 miles north of Lansing.

The College of Education and Human Services consists of five academic departments (Counseling and Special Education; Educational Administration and Community Leadership; Human Environmental Studies; Recreation, Parks, and Leisure Services Administration; and Teacher Education and Professional Development); numerous centers and special programs (e.g., Charter Schools, Michigan Schools in the Middle, Center for Leisure Services); 160+ faculty/staff; and about 4000 students.

The College of Education and Human Services welcomes and requires applications from individuals holding appropriate doctoral degrees from accredited institutions. ABD may be considered in specified situations. The college strives to enhance its diversity, reputation for teaching, scholarship, and service and enjoys the development of a strong sense of community. Salary and benefits are competitive.

All positions are Assistant Professor and tenure track unless otherwise noted. Tenure-track faculty are expected to teach between 9 and 12 credit hours; complete scholarly work, research, and pursue grant funding; advise undergraduate and graduate students; perform service and continue professional development. All faculty in Education and Human Services are expected to be engaged actively in their professional fields and, when appropriate, PK-12 schools. Positions in education departments require at least three years successful PK-12 classroom teaching experience or equivalents. Send inquiries or letter of application, including current vitae and list of at least three references, including their email addresses, as stated below. Review of credentials begins November 1, 2000 and all positions start August 2001 unless otherwise specified. Additional information about the university, the college, and academic departments can be found at www.cmich.edu and www.ehs.cmich.edu

Counseling and Special Education
Assistant Professor or Instructor, Special Education - Two-year appointment, contingent upon annual renewal. Primary responsibilities include: undergraduate and graduate teaching and field supervision. Additional Qualifications: degree in special education or related discipline (ABD or Master's considered); expertise in the field of mild/moderate disabilities; commitment to field-based supervision; special education teaching endorsement. Background in multicultural education preferred. Rank commensurate with education and experience.

Assistant Professor, Special Education - Primary responsibilities include: undergraduate and graduate teaching, advising, supervising research, active scholarship, and university service. Additional Qualifications: earned doctorate in special education (ABD considered); expertise in the field of mild/moderate or severe disabilities; commitment to field-based supervision; special education teaching endorsement. Prefer expertise in assessment.

Assistant or Associate Professor, Special Education - Primary responsibilities include: undergraduate and graduate teaching; advising, supervising research; active scholarship; university service. Rank commensurate with education and experience. Additional Qualifications: earned doctorate in special education or related discipline; expertise in the field of mild/moderate or severe disabilities; commitment to field-based supervision; previous experience working with educational issues related to individuals with disabilities. Evidence of successful teaching; scholarship and service. Prefer expertise in one or more of the following: multicultural education, assessment, and assistive technology. Apply to Ms. Susie J. Harper, Administrative Assistant, Central Michigan University, Counseling and Special Education, 208 Rowe Hall, Mt. Pleasant, MI 48859. Phone: (517) 774-3205. E-mail: Susan.Carol-Harper@cmich.edu.

Teacher Education and Professional Development
Early Childhood: Primary responsibilities include: teach undergraduate and graduate early childhood education courses or related courses, advise students, maintain scholarly productivity in research, publications and presentations at professional meetings, maintain an active schedule of personal professional development, and provide service to the university and K-12 schools and districts. Additional Qualifications: at least 3 years teaching experience in grades PK-3, teaching experience at the college or university level, ability to enhance teaching using appropriate technologies, ability to conduct research relevant to early childhood education, and evidence of scholarly contributions to the field of education.

Middle Level Educator: Primary responsibilities include: teach undergraduate and graduate middle level education courses, advise students, maintain scholarly productivity in research, publications and presentations at professional meeting, maintain an active schedule of personal professional development, and provide service to the university and K-12 schools and districts. Additional Qualifications: at least 3 years teaching experience in grades 5-8 in a middle level school, teaching experience at the college or university level, ability to enhance teaching using appropriate technologies, ability to conduct research relevant to middle level education, and evidence of scholarly contributions to the field of education.

Reading: Primary responsibilities include: teach undergraduate and graduate reading courses in elementary and secondary education, advise students, maintain scholarly productivity in research, publications and presentations at professional meeting, maintain an active schedule of personal professional development, and provide service to the university and K-12 schools and districts. Additional Qualifications: teaching experience at the college or university level, ability to enhance teaching using appropriate technologies, ability to conduct research relevant to reading, and evidence of scholarly contributions to the field of education.

Student Teaching: (Three positions.) Primary responsibilities include: supervise undergraduate and graduate students in one of the following areas: Grand Rapids, Bay City/Midland/Saginaw, or Wayne County, advise students, maintain scholarly productivity in research, publications and presentations at professional meeting, maintain an active schedule of personal professional development, and provide service to the university and K-12 schools and districts. Additional Qualifications: student teaching supervision experience at the college or university level, ability to enhance teaching using appropriate technologies, ability to conduct research relevant to clinical and field experiences, and evidence of scholarly contributions to the field of education.

Apply to: Search Committee, Central Michigan University, Teacher Education and Professional Development, 208 Ronan Hall, Mt. Pleasant, MI 48859

Human Environmental Studies
Department Chair- Anticipated start date is July 1, 2001. The successful candidate is expected to be a strong advocate for the department, able to represent its individual and collective strengths, thus serving as an effective conduit between the department and university administration. Department areas are: human development and family studies, design and merchandising, and foods and nutrition. The chairperson will provide leadership for faculty to conduct applied research consistent with a doctoral intensive institution. Responsibilities for teaching and scholarly activities depend upon the unique strengths, interests, and goals of the successful
candidate. Rank and salary are negotiable dependent upon experience and qualifications. Additional Qualifications: terminal degree (with at least one degree in a related area), experience and qualifications appropriate for rank as Associate or Full Professor, experience in academic innovation and leadership, successful interpersonal and organizational skills. Preferred qualifications: commitment to diversity and global perspectives, recent teaching competence and professional productivity in areas relevant to department, success in securing funding for scholarship, teaching and service activities, active participation in professional organizations, and experience in one or more of the following: multidisciplinary unit, budget management, program development, technological systems, and higher education learning methods. Review of applications will begin December 1, 2000. Send a letter of application and vitae, along with 1) the applicant's administrative philosophy, 2) a brief vision for this multidisciplinary department, 3) leadership abilities, and 4) teaching, research, and service experience. Three letters of reference should be sent under separate cover directly to the search committee. Apply to Janis M. Voge, PhD, Chair, HEV Chair Search Committee, Department of Human Environmental Studies, 215 Wrightman Hall, Central Michigan University, Mt. Pleasant, MI 48859. Phone: (517) 774-3458 Fax: (517) 774-2435. E-Mail: Janis.M.Voge@cmich.edu

Nutrition/Dietetics- Primary responsibilities include: teaching undergraduate and graduate courses in human nutrition, advising, conducting research, and participating in departmental, university, and professional activities. Additional Qualifications: earned doctorate in human nutrition or a related field, evidence of teaching effectiveness at the university level, evidence of scholarly/creative competence. Desired qualifications include: registered dietitian status; experience in community nutrition, and/or food service, and/or food science, and/or clinical nutrition is desired, computer mediated instruction and/or distance learning experiences. Apply to Jack Logomarsino, Ph.D., R.D., Chair, Nutrition/Dietetics Search Committee, Department of Human Environmental Studies, 205 Wrightman Hall, Central Michigan University, Mt. Pleasant, MI 48859. Phone: (517) 774-2004 Fax: (517) 774-2435. E-Mail: Jack.Logomarsino@cmich.edu Internet: www.nutrition.cmich.edu.

For more information about these positions, applicants are encouraged to visit the department's web page at http://www.chs.cmich.edu/hec.

RECREATION, PARKS, AND LEISURE SERVICES
ADMINISTRATION

Assistant or Associate Professor-Position is in the area of management and administration of outdoor recreation and adventure education. Teaching undergraduate and graduate courses, advising, research, university service, and professional involvement are primary duties. Additional Qualifications: Doctorate required, with at least one degree in the field, teaching experience, research competency, and professional experience in outdoor recreation and adventure education.

Associate or Full Professor-Position will focus on teaching in the areas of management, design, planning, and philosophy of recreation, parks, and leisure services. Teaching undergraduate and graduate courses, advising in commercial recreation, research, university service, and professional involvement are primary duties. Additional Qualifications: Doctorate required, with at least one degree in the field, teaching excellence, demonstrated research competency, and professional involvement.

Apply to: Dr. Dean Pybus, R.P.I. Department, Central Michigan University, Mt. Pleasant, MI 48859. Phone: (517) 774-7510. E-Mail: Dean.Pybus@cmich.edu.

Recently classified by the Carnegie Foundation as a doctoral/research-intensive university, CMU is a growing student-focused university with opportunities for leadership and involvement for its entire team.

CMU, an AA/EO institution, is strongly and actively committed to increasing diversity within its community see http://www.cmich.edu/aaceo.html

DEAN
COLLEGE OF NATURAL SCIENCES

California State University, San Bernardino invites nominations and applications for the position of Dean of the College of Natural Sciences. The preferred starting date is September 1, 2001. Reporting to the Provost, the Dean is responsible for the academic and administrative leadership of nine departments within the College. These departments are Biology, Chemistry, Computer Science, Geological Sciences, Health Science and Human Ecology, Mathematics, Nursing, Kinesiology, and Physics. In addition, the Dean is responsible for representing the College to the University and its external constituencies. Candidates should have an earned doctorate in one of the disciplines in the College of Natural Sciences and be eligible for a faculty appointment at the rank of Professor with tenure. Some variation from these requirements may be made for individuals with an outstanding record of academic or administrative leadership. Candidates should possess:

• Successful administrative experience related to organizations and/or educational programs in university settings, including personnel and financial management;
• Commitment to excellence in teaching, research, and service;
• Excellent communication skills;
• Commitment to student achievement and faculty development;
• Understanding of and commitment to principles of shared governance;
• Understanding and appreciation of the disciplines within the College;
• A record of intellectual contributions to their discipline;
• Evidence of effective community involvement and leadership;
• Commitment and advancement of women and minorities;
• A commitment to successful development and fund-raising activities.

California State University, San Bernardino, a comprehensive regional university, is one of the fastest growing of the 23 State University campuses with approximately 15,000 students, 490 full-time faculty, and 52 undergraduate and graduate degree programs. The University consists of Colleges of Business and Public Administration, Education, Arts and Letters, Natural Sciences, and Social and Behavioral Sciences. Off-campus programs are offered at the Coachella Valley Center in Palm Desert. The University is situated 70 miles east of Los Angeles, offering easy access to beaches, mountain, and desert resorts. The rapidly expanding metropolitan area offers a wide variety of cultural and recreational opportunities. Housing costs average 30% below those of Los Angeles and Orange Counties.

The College of Natural Sciences has 110 faculty members and 2250 students and it offers 10 undergraduate degree and 2 graduate degree programs. The Dean oversees the College as a whole and each department, which consists of its own Chair, faculty, clerical and technical staff. Though distinct and in some cases physically separate, all departments interact closely in support of students, collaborative research, shared activities and common interests.

Compensation is competitive. Review of applicants will begin October 31, 2000 and continue until the position is filled. The applicant should submit a resume accompanied by the names, telephone and fax numbers, and e-mail addresses of three references to:

Office of the Provost
Chair, College of Natural Sciences Dean Search Committee
California State University, San Bernardino
5500 University Parkway
San Bernardino, CA 92407

For more information about California State University, San Bernardino and the College of Natural Sciences see http://www.csusb.edu

California State University, San Bernardino is an Equal Opportunity Employer, and has a strong institutional commitment to the principle of diversity in all areas. In that spirit, we are particularly interested in receiving applications from a broad spectrum of qualified people who are representative of the diversity in California, including individuals from culturally diverse backgrounds, women, individuals with disabilities, and Vietnam-era veterans. California State University, San Bernardino hires only those individuals who are lawfully authorized to accept employment in the United States.
Dean
College of Science and Mathematics

Montclair State University is a comprehensive public university offering a rich array of programs to approximately 13,500 undergraduate students and post-baccalaureate students. Founded in 1908, the University is organized into three colleges and three schools: College of Education & Human Services, College of Humanities & Social Sciences, College of Science & Mathematics, School of the Arts, School of Business, and the Graduate School. Characterized by a faculty of 450 teacher-scholars, Montclair State offers 10 undergraduate degrees in more than 70 major areas of study and seven degrees at the master’s and doctoral level in 36 areas of study. The University is located 14 miles west of New York City on a beautiful 200-acre suburban New Jersey campus.

With a faculty of 78 scholar-teachers and more than 1,500 students, the College of Science and Mathematics provides a rich variety of programs leading to the bachelor of science, master of science and doctor of education degrees. The College is organized into five departments. These are: Biology and Molecular Biology, Chemistry and Biochemistry, Computer Science, Earth and Environmental Studies, and Mathematical Sciences. The College is home to a number of other programs including the New Jersey School of Conservation, the Health Careers Program, the Center for Equity and Teaching Enhancement in the Reform of Mathematics and Science, and the Math/Science Consultation Service. Programs within the College provide a sound foundation for careers in industry, government, the health professions and teaching, as well as for post-baccalaureate studies in graduate or professional schools, including several unique articulation programs with the University of Medicine and Dentistry of New Jersey.

The dean, who is appointed by the president and reports to the provost/vice president for Academic Affairs, serves as the chief academic and administrative officer of the College. The dean will be regarded as an intellectual leader not only within the College, but across the campus and within the community as well. She/he will have the vision to identify and pursue new opportunities for the College and the intellectual strength to direct its growth and development within the framework of shared academic governance. The dean will be responsible for the administrative and fiscal management of the College, with special attention to the recruiting and development of faculty. She/he will be responsible for effectively representing the College to the campus, alumni and external communities, and provide leadership in the pursuit of the external resources required to augment State appropriations. The dean will be a key member of the University’s senior leadership and will be imaginative in finding ways to advance the goals and objectives of both the College and the University, and fostering collaborations across the campus.

Qualifications: Each candidate should possess an earned doctorate and a record of distinguished academic achievement appropriate for appointment at the rank of full professor in a department of the College. In addition, she/he should possess:
- a thorough understanding of current issues and future directions in the sciences and mathematics
- a commitment to excellence in teaching, learning, scholarship, and research, and the application of knowledge
- a record of successful administration in higher education and a broad understanding of the trends in higher education
- a demonstrated record in the acquisition of external resources from government agencies, foundations, the corporate sector and/or private donors
- experience with instruction utilizing information technology and electronic access to information
- the ability to foster a collegial, collaborative work environment
- a commitment to maintaining and extending student and faculty diversity
- familiarity with a collective bargaining environment
- strong interpersonal communication and listening skills

Salary Range: Salary dependent upon qualifications
Starting Date: Open
Apply By: Review of applications for the dean of Science and Mathematics will begin immediately and continue until the position is filled.

Send Letter and Resume (include V-4) to: Dr. Dorothy Deremer, Chair, Search Committee, Montclair State University, Box C316—V-4085/HO, Upper Montclair, NJ 07043.

An Equal Opportunity/Affirmative Action Institution
www.montclair.edu

DEAN OF THE SCHOOL OF THE ARTS

The University of Wisconsin-Milwaukee (UWM) seeks nominations and applications for the position of Dean of the School of the Arts.

UWM, Wisconsin's premier urban research university, offers baccalaureate, masters, and doctoral degrees across 12 schools and colleges serving 23,000 students. The campus is located in an attractive setting near Lake Michigan, minutes from downtown Milwaukee.

The School of the Arts is an international center for professional training in dance, film, music, theatre, and visual arts, with an award-winning faculty of over seventy members. Recognition of the School's achievement is widespread, and it is presenty in the midst of an important expansion on all fronts. The School of the Arts is not only a player on the international and national scenes but maintains a high profile in the local area.
Purdue University invites nominations and applications for the position of Provost. As chief academic officer of the University, the Provost has key responsibilities for helping Purdue achieve its aspirations for continued excellence. The Provost reports to the President of the University.

One of the leading public universities in the nation, Purdue University is a comprehensive educational and research institution with its main campus in West Lafayette, Indiana — a community of 100,000 people known for its exceptional quality of life — and three regional campuses in Fort Wayne, Hammond, and Westville. Purdue has 67,000 students; 15,000 employees statewide, including 2,200 faculty; and a budget in excess of $1.1 billion. The University offers undergraduate, graduate, and professional degrees through its ten schools. Further information about Purdue is available at our Web site: www.purdue.edu.

The Provost works closely with the President in providing overall leadership for the University. The Provost directs the University’s academic programs in teaching, research, and service and oversees the University Libraries, the University Computing Center, Student Services, and International Programs. Recruitment, hiring, and review of deans and heads are also among the Provost’s responsibilities.

The successful applicant must have a distinguished record of academic accomplishments commensurate with that of a tenured professor in one of the University’s departments; must have an understanding of the broad spectrum of academic programs in a research university like Purdue; must have a strong commitment to academic excellence and high quality programs of teaching, research, and service; and must have a commitment to the land-grant philosophy and the principles of diversity. Administrative experience in a complex academic organization and experience in strategic planning, program development, and fund-raising are preferred.

Purdue University is an equal opportunity/equal access/affirmative action employer and encourages the nomination and application of women and minority candidates.

SPECIAL ASSISTANT TO THE PRESIDENT FOR INTERCULTURAL AFFAIRS

Loyola Marymount University, a Catholic comprehensive university in the Jesuit and Marymount traditions located in coastal Southern California, invites applications and nominations for the position of Special Assistant to the President for Intercultural Affairs. The University seeks a person who can help faculty, staff and students further develop our vision of LMU as an intercultural campus community, achieve the goals of our current programs, and create new initiatives, especially those that will link our multicultural and intercultural programs to the outside community. The University seeks a person with vision to define who we are relative to our multicultural and intercultural identity and to communicate to faculty, staff and students a plan for the further development of our multicultural and intercultural programs. The successful candidate will report to the President through the Academic Vice-President and will work closely with all the Vice Presidents and the Dean.

Responsibilities:

- serve as an advocate for multicultural and intercultural initiatives to the university administration and general campus community;
- coordinate and promote multicultural and intercultural activities on campus;
- work with faculty, staff and students on multicultural and intercultural goals and programs;
- interface with the outside community to develop joint programs;
- develop a model community for other universities to emulate and to provide students to work and study in the outside world after graduation; and
- serve on the President's Committee on Diversity.

Qualifications:

- The successful candidate should possess at least a master's degree with a PhD preferred. The candidate's education and experience should prepare her/him to lead our continuing efforts to create an intercultural community and faculty appointment is possible depending upon qualifications.
- Preferred Characteristics are:
  - an ability to work with the religious and social justice mission of the University;
  - excellent interpersonal and communication skills;
  - an ability to work under deadlines; and
  - demonstrated experience with grants writing and funding agencies.

The University's goal is to fill the position in fall 2000. The review of applications will begin October 30, 2000, and will continue until the position is filled. Applicants should send a letter of application including a description of the applicant's vision and experience in matters dealing with multiculturalism and interculturalism; A curriculum vitae; and Names, addresses, and telephone numbers of five references.

Applications materials should be sent to:

Dr. Gerald S. Jakubowski
Dean, College of Science and Engineering
Loyola Marymount University
7900 Loyola Boulevard
Los Angeles, CA 90045-3135

Women and minorities are strongly encouraged to apply. LMU offers housing assistance. Salary is competitive and will commensurate with background and experience. Loyola Marymount University, established in 1912, is the only private Catholic university in metropolitan Los Angeles. Over 6,000 students are enrolled in the Schools of Liberal Arts, Business Administration, Science and Engineering, Communication and Fine Arts, and the Law School. The University invites candidates who desire to participate in a mission based on the Jesuit and Marymount traditions of higher education.

Loyola Marymount University is an Equal Opportunity/Affirmative Action Employer.

GOVERNORS STATE UNIVERSITY

DIRECTOR OF BOARD OF GOVERNORS
BA DEGREE PROGRAM

Governors State University seeks applications and nominations for the position of Director of the Board of Governors BA (BOG/BA) Program. The BOG/BA Program is a degree completion program targeted at adults that have significant credit from multiple institutions and who need to complete a baccalaureate degree. The program has approximately 1600 active students and is currently experiencing 10+ growth. The leader of a non-traditional degree program, the successful candidate will possess significant experience in the field of adult education and student services, experience with distance learning technology and in streamlining and re-engineering processes to benefit students and academic programs. We are looking for a strong record of success in building and maintaining student enrollment through to graduation, as well as a strong ability to collaborate and work in a team environment in all levels of the University community. The Director of the BOG/BA program reports directly to the Dean of the Center for Extended Learning and Communications Services. Minimum Qualifications: A master's degree required, doctoral degree preferred; significant experience, at a professional level, in the development, administration, and delivery of adult and/or non-traditional degree programs; knowledge and experience in the analysis and redesign of academic programs; student retention and services, and academic program assessment; experience in utilizing technology to streamline and re-engineer administrative processes; experience in using distance learning technologies to deliver educational opportunities to students; experience in working collaboratively with a variety of internal and external constituent groups; experience in the administration of adult experiential degree programs; experience in marketing traditional and non-traditional academic programs; demonstrated success in promoting diversity and serving the needs of a diverse audience; advanced oral and written communication skills. The review of applications will begin immediately on or before January 1, 2001. The position is available immediately. To apply, interested candidates should send a letter of application addressing qualifications; a current vita/resume; and the names, addresses and appropriate contact information for three professional references: Jeanne Costa, Chairperson, BOG/BA Director Search Committee, Governors State University, University Park, IL 60466.

Qualifications: Earned Ph. D. or Ed.D. in Early Childhood Education; expertise in all early childhood education content areas including technology; teaching experience in Head Start, public or private pre-school and elementary schools (urban experience preferred); experience in supervision of teachers in child caring programs; University teaching and mentoring experience desirable. Responsibilities: Teach graduate and undergraduate courses in early childhood education; supervise students in the field; engage in research and scholarly writing; serve on department, school, college and university committees.

Send letter of application, curriculum vitae, and three (3) letters of reference to Dr. Ann L. Smith, Chairperson, Department of Curriculum and Teaching as soon as possible. Review will continue until a candidate has been selected.

HUNTER CITY UNIVERSITY OF NEW YORK

696 PARK AVE, NEW YORK, NY 10021

Equal opportunity affirmative action employer. Women, minorities, disabled persons, and veterans are encouraged to apply.

AMERICAN UNIVERSITY

WASHINGTON, DC

The History Department at American University seeks to fill three full-time positions to begin in the Fall semester 2001. A historian of nineteenth-century America, at any rank. We are interested in demonstrated excellence in scholarship and teaching, appropriate to rank, with potential for future significant contributions.

A tenure-track Assistant Professor in Early Modern Europe, excluding Britain, with a preference for the Atlantic World.

A tenure-track Assistant Professor of 19th Century European History, excluding Britain, Germany, and Russia, with a preference for France. For this position, the candidate should ideally have trans-national thematic interests.

Applicants should submit a dossier including a c.v., three letters of recommendation and a letter of interest to: Allen Lichtman, Chair, Department of History, American University, Washington, DC, 20016-8038. Consideration of files will begin immediately but all files should be complete by December 1.

American University is an Affirmative Action/Equal Opportunity Employer committed to diverse faculty, staff, and student body. Women and minority candidates are strongly encouraged to apply.
The College of Human Development and Community Service is pleased to announce the opening of the following searches for the 2001-2002 academic year. For all positions, review begins 10/16/00, however applications will be accepted until the positions are filled.

DEPARTMENT OF CHILD AND ADOLESCENT STUDIES

Child and Adolescent Studies offers an interdisciplinary undergraduate program to more than 1,200 majors. The Bachelor of Science degree in Child and Adolescent Development takes an interdisciplinary approach to the study of development from conception through adolescence and is designed to enhance the personal and professional preparation of majors to interact with culturally diverse children and families in a variety of child and youth-related professions. These include work in early childhood and elementary education, special education, child guidance, parent education, and a variety of youth-related social services.

2 positions-Open Rank
Family/Parenting Positions
Possess the appropriate background and expertise to prepare students for work with diverse families in a variety of child and youth related professions and to work with colleagues on the development of courses related to parenting and healthy families.

Developmental Assessment Position
Possess strong methodological preparation and appropriate experience to implement curriculum for majors on the assessment of physical, cognitive, and social development in infants, children, adolescents and family relationships using a variety of methods.

Interested applicants must submit a letter of intent, including the position for which you wish to be considered, a summary of relevant experience and personal qualifications, a philosophy of teaching, a summary of research agenda, a curriculum vita, and graduate transcripts. Applicants should arrange for 3 current letters of reference to be submitted, and should indicate who will be sending the reference letters. Please enclose a stamped, self-addressed envelope so that the department can notify you of the completeness of your application. Send all materials to:

Search Committee
Department of Child and Adolescent Studies, EC105
California State University, Fullerton
PO Box 6868
Fullerton, CA 92834-6868
Questions about these positions may be addressed to Search Committee Chairperson, ppzestnik1@fullerton.edu or you may call 714-278-2255.

DEPARTMENT OF COUNSELING

The Department of Counseling offers a Master of Science in Counseling which prepares students for state licensure as a Marriage and Family Therapist. The Department is committed to a training model that is Humanistic, student and community centered, and emphasizes systems approach to the understanding of human growth and development. Multicultural competency and the integration of theory and practice are emphasized and infused throughout the program. Graduates are prepared to work as professional counselors in a variety of community agencies and schools, and are oriented to serve as effective change agents for diverse populations through the delivery of a range of mental health services.

Three Positions:
Department Head-Associate/Full Professor
Provide vision and direction consistent with nationally connected leadership, strong research agenda resulting in productive scholarship, teach a variety of courses in the Masters program, coordinate student advisement, support and enhance community based linkages and training opportunities for students. Perspective candidate must be a Licensed Psychologist or Licensed Eligible.

Two Open Rank Positions-Tenure Track
Effective teaching that integrates theory/practice in the classroom, strong research agenda resulting in productive scholarship, student advisement and service to the university and community. Perspective candidates must be a Licensed Psychologist, or Licensed Eligible, or licensed as a Marriage and Family Therapist.

Interested persons should send a letter of intent, vita, and 3 letters of reference and a stamped self-addressed envelope to the following address:

Chair, Search Committee
Department of Counseling, EC105
California State University, Fullerton
P.O. Box 6868
Fullerton, CA 92834-6868
Questions about this position may be E-mailed to scoley@fullerton.edu or you may call 714-278-3311.

DEPARTMENT OF NURSING

The Department of Nursing offers an upper division RN-BSN completion program and two Master's of Science in Nursing concentrations in nursing administration and anesthesia. The RN-BSN completion program focuses on expanding registered nurses' capabilities to function in community-based roles, management positions, and educator roles. The MSN program prepares nurses to expand career options with an emphasis on refining the discipline base, and fostering interdisciplinary, collaborative, and independent functioning within a focused specialty area. The entire RN-BSN program and some MSN classes are taught using CODEC two-way audio-visual videoconferencing and web-based course work to off-campus sites.

Positions-Assistant/Associate
Teach undergraduate and graduate courses with content and clinical expertise in one or more of the following areas: advanced practice nursing, nursing leadership/administration, and nursing theory. Participation in distance education is required. Advisement, research/scholarly activities, and service are required components of the position, as well as community liaison activities.

Interested persons should submit a letter of application, transcripts of graduate work, current vita, 3 letters of recommendation to:

Arline Bils, Dr.PH, RN,Chair, Search Committee
Department of Nursing
California State University, Fullerton
PO Box 6868
Fullerton, CA 92834-6868
Questions about the positions may be sent to Chris Latham Department Chair at clatham@fullerton.edu or you may call 714-278-2291.

DIVISION OF KINESIOLOGY AND HEALTH PROMOTION

With emphasis on a "life span" approach, the Division of Kinesiology and Health Promotion offers 3 degree programs, which focus on a broad understanding of human movement and health. The B.S. and M.S. degrees in Kinesiology serve over 500 majors who are preparing for advanced study and/or for careers in areas such as teaching/coaching, fitness, sports medicine/athletic training, therapeutic exercise and sports studies/sport psychology.

The competency-based B.S. degree in Health Science prepares students for certification as a health education specialist. Through elective coursework students may focus their studies in areas such as community health and worksite health promotion.

3 positions-Open Rank
Applied/Clincial Exercise Physiology
Teach undergraduate and graduate courses in exercise physiology and related areas such as sports medicine, exercise testing, clinical exercise physiology, principles of conditioning, scientific basis of training, and/or nutrition. Assist with developing a new advisement track in clinical exercise physiology/therapeutic exercise.

Community/Youth Sports
Teach undergraduate courses in sociology of sport, human movement in cultural perspective and in at least one of the following areas: community/youth sports, teacher education, history/philosophy, and/or foundations of human movement. Assist with developing a new advisement track in community/youth sports.

Interested persons should submit a letter of application including a brief narrative regarding the candidate's views of the future direction of applied/clinical exercise physiology (for position #1), and of community/youth sports (for position #2). Also send transcripts of graduate work, current vita, 3 letters of recommendation and a stamped self-addressed envelope to:

Chair, Applied/Clincial Exercise Physiology Search Committee or
Chair, Community/Youth Sports Search Committee
Division of Kinesiology and Health Promotion
California State University, Fullerton
PO Box 6070
Fullerton, CA 92834-6870
Questions about the Applied/Clincial Exercise Physiology position may be E-mailed to bbeam@fullerton.edu.

Questions about the Community/Youth Sports position may be E-mailed to swalk@fullerton.edu.

Or you may call 714-278-3316 for a more complete position description.

Cal State Fullerton is Strongly Committed to Achieving a Climate of Success Through Diversity and Equity.
ASSISTANT PROFESSOR IN PSYCHOLOGY

The Ohio State University at Newark is seeking applications for a 9-month, tenure-track Assistant Professor in Psychology, with a specialization in SOCIAL Psychology, to begin in the Autumn of 2001. The Newark Campus is an extended campus in The Ohio State University system and is located about 30 miles east of the central Columbus campus.

DUTIES: Psychology faculty at the Newark Campus are members of the psychology department at The Ohio State University, and are evaluated accordingly. Hence, the successful candidate must maintain a productive and high-quality research program, which should: (a) be theoretically-driven, (b) be compatible with the resources of the campus, (c) seek to involve the resident undergraduate psychology majors at the Newark Campus. The student population of the Newark Campus is almost entirely undergraduate (autumn quarter enrollment is typically around 1800). Hence, the successful applicant is expected to regularly teach introductory psychology, as well as undergraduate psychology courses in the candidate's domain of expertise. Furthermore, we have a special need for someone who can teach introductory courses in psychology and/or statistics, so candidates with these competencies will be preferred. The ability and willingness to occasionally teach other psychology courses that meet undergraduate curriculum requirements and departmental needs is also desirable. Finally, the successful candidate is expected to actively participate in service activities at the Newark Campus, in the Psychology Department, and in the University.

QUALIFICATIONS: The candidate should have strong research credentials, which should include evidence of theoretically-driven research. The candidate should also have strong teaching credentials and be committed to and competent in undergraduate education. A record of service to department and/or discipline is beneficial.

SALARY: $40,000-$43,000, depending on qualifications and experience. A comprehensive benefits package is included.

APPLICATION PROCEDURE: To assure consideration, send a curriculum vitae, three letters of reference, a personal statement describing teaching, research, and service credentials to:

The Ohio State University at Newark
Human Resources
Search#00-24
1179 University Drive
Newark, Ohio 43055
by November 15, 2000

Ohio State University is an Equal Opportunity/Affirmative Action employer. Women, minorities, veterans, and individuals with disabilities are encouraged to apply.

To receive full consideration, applications and additional materials should be received by November 1, 2000.

**Technical Theater Director**

The Theater Department of Southern Connecticut State University seeks a dynamic professional to join the faculty as Technical Theater Director. This is a tenure track position, beginning in August 2001. Required qualifications include an MFA in technical theater production/design and three years teaching in higher education or professional theater. Job responsibilities include three yearly major productions, plus student directed productions; design responsibilities and supervision of students and work with other faculty designers. Twelve semester-hour teaching load: stage craft, principles of design. The department has two performance spaces: a 1500 seat thrust stage and a 50x50 black box.

Deadline for applying is November 20, 2000. Please send letter indicating qualifications and experience for the position, vita, and names of three references, portfolio upon request, to: William R. Elwood, Chair, Theater Department, Southern Connecticut State University, 501 Crescent Street, New Haven CT 06515.

SCSU is an AA/EOE/Affirmative Action employer. We strongly encourage minorities and women to apply.
California State University
Monterey Bay
African American Studies
Assistant or Associate Professor-Tenure Track
(Job #MBAAS-0002)

California State University, Monterey Bay (CSUMB) is a comprehensive public university committed to serving the diverse people of California, especially the working class, historically under-served, and low-income populations. The university values an educational environment of cultural and linguistic diversity and gender equity; ethical reflection and practice; effective and experiential use of technologies as resources to people and catalysts for learning; and the integration of cross-disciplinary models enabling students, faculty and staff to engage in innovative instruction and coordinated service learning. The curriculum is organized around student learning outcomes. It is global in perspective and of sufficient breadth and depth to meet local, regional, and statewide needs specifically those of both isolated rural communities and inner-city populations. The campus is located on Monterey Bay, 100 miles south of San Francisco.

The Institute for Human Communication, an integrated Humanities major invites applications for a tenure-track Assistant or Associate Professor of African American Studies, effective August 2001. The position includes teaching innovative courses and facilitating programmatic development in African American Studies; advising students; fostering community relations; and sustaining scholarly work. Salary commensurate with rank and experience.

Minimum Qualifications: Earned doctorate or equivalent in appropriate discipline or interdisciplinary field.

Priority Filing Date: December 1, 2000 for priority review. Position open until filled.

For full job description and application procedures, visit:
www.csumb.edu/general/fac-recruit

Equal Employment Opportunity

California State University
Chico

Department of Education
August 2001

**THE RICHARD STOCKTON COLLEGE OF NEW JERSEY**

**INSTRUCTIONAL TECHNOLOGY**

THE RICHARD STOCKTON COLLEGE OF NEW JERSEY is an innovative, residential, liberal arts and sciences college with a student body of 6,000 and a recognized record of academic excellence. Stockton is one of nine senior public Colleges which provide a vast array of baccalaureate and master level degrees. The College is located on a 1600-acre campus in southern New Jersey, 15 miles from Atlantic Ocean, 1 hour from Philadelphia, and 2 1/2 hours from New York City. The College has a mission to meet needs for master’s-level graduate education in southern New Jersey and currently provides programs in physical therapy, nursing, business studies, and instructional technology. Stockton is home to the Atlantic County Vocational Technology Training Center. Plans call for the establishment of additional programs in the near future.

The Master of Arts in Instructional Technology (MATT) program is designed for those interested in integrating technology to improve learning in both educational and corporate settings using electronic classrooms, computer labs and multimedia production facilities. The program has basic core courses in learning theories and instructional technologies followed by three tracks: one for K-12 teachers, one for school/district technology coordinators, and the other for preparing corporate training professionals. The Academic Computing facilities contain 26 computer laboratories and electronic classrooms with an ongoing technology improvement plan and a 10:1 student/computer ratio.

**INSTRUCTIONAL TECHNOLOGY:** tenure track, Assistant Professor starting January 2001 or September 2001. Stockton seeks a full-time faculty member for the graduate program in Instructional Technology. Candidates must have (1) an earned doctorate in instructional technology or related field, and (2) significant experience in design and training in corporate or non-profit environment emphasizing instructional design and the use of technology. Demonstrated ability to seek support from and work with local businesses, and an understanding of corporate training needs are highly desired. Possible courses are Instructional Design, Project Management, Adult Learning and Performance Technologies. Teaching load is six courses per year. Responsibilities will involve providing program development including the demonstrated ability to integrate corporate technology into the graduate instructional curriculum, to communicate effectively and to achieve strong interpersonal working relationships with students, administrators, faculty, and computer services.

Salary will depend on qualifications, experience and increases in the appropriately established compensation plan. Screening will continue until the position is filled. Send letter of application, resume, and three letters of recommendation to Dr. Dee Henderson, Professional Studies, AAS1, The Richard Stockton College of New Jersey, PO Box 195, Pomona, NJ 08240-9195. For information on the program, see http://www.stockton.edu.

Stockton is an EEO/AA Institution. Women and minorities are encouraged to apply.

R011407
The Massachusetts Institute of Technology's Office of Minority Education (OME) seeks to fill the positions of Assistant Dean/Assistant Director and Assistant Dean for Academic Programs and Advising to support the Institute's efforts to develop an effective academic support structure for underrepresented minority undergraduate students (African American, Native American, Mexican American and Puerto Rican).

ASSISTANT DEAN/ASSISTANT DIRECTOR

To initiate the development of a broader understanding of minority students by faculty and staff through the collaborative creation of academic programs and joint projects between the OME, academic departments and other Institute resources. Will be responsible for the planning and overall coordination of academic support programs in OME, including Project Interphase, Seminars on Academic/Admissions Resources, the Tutorial Services Program, and the Academic Success Program. Coordinating the Freshman Seminar XL Program and working with the Dean for Freshmen in the Office of Academic Services. Advising students on an array of academic and administrative concerns and contributing to the development of policies and procedures and assisting the Associate Dean for Undergraduate Education/Director of OME on new academic projects.

Requirements: a master's degree and a minimum of three years' related experience along with a demonstrated commitment to minority student education and knowledge of the factors and influences that impact the lives of minorities in higher education. Must have considerable administrative experience in an academic setting. Excellent interpersonal, organizational, communication, and supervisory skills needed. Job No. 00-1029

ASSISTANT DEAN FOR ACADEMIC PROGRAMS AND ADVISING

To support Institute efforts in developing a more effective academic support structure for MIT undergraduates with primary focus on minority students (African American, Native American, Mexican American and Puerto Rican) who are underrepresented at the Institute. Will initiate the development of a broader understanding of minority students by faculty and staff through the creation of collaborative academic programs and joint projects between OME and other academic departments and offices; plan and coordinate academic programs in the Office of Minority Education that are focused on providing support to upper-class underrepresented minority students in the schools of Architecture and Planning, Engineering, Humanities and Social Science, Sloan School of Management, and Science; work in conjunction with the Assistant Dean/Assistant Director in developing all freshmen academic programs and with the Associate Dean for Advising in the Office of the Dean for Undergraduate Education; advise minority students on an array of academic and administrative concerns and contribute to the development of policies and assist the Associate Dean for Undergraduate Education/Director of the Office of Minority Education in effectively carrying out the mission of the Office of Undergraduate Education and the OME.

Requirements: a master's degree and a minimum of three years' related experience along with a demonstrated commitment to minority student education and knowledge of the factors and influences that impact the lives of minorities in higher education. Excellent interpersonal, organizational, communication, and supervisory skills needed. Job No. 00-1030

Interested candidates should submit a resume and cover letter referencing appropriate Job No. to: Jennifer Walsh, MIT Human Resources, PO Box 391229, Cambridge, MA 02139-0013. To apply on-line: web.mit.edu/personnel/www/resume.htm.

EA/EO Institution
ABOUT THE COLLEGE:
Fairmont State College is an undergraduate, state-supported institution with an enrollment of approximately 6,650 students. The 90-acre campus is located in Fairmont, WV, 90 miles south of Pittsburgh, in a region known for its natural scenic beauty, its rich history, and its numerous recreational opportunities. Founded in 1865, the College offers 126 degree programs, including courses of study leading to baccalaureate degrees in business, fine arts, humanities, engineering technology, aviation technology, social and natural sciences, health careers and teacher education. The College also offers programs for career-technical education, granting a one-year certificate as well as the associate degree after two years of study. Preprofessional study is available in medicine, dentistry, law, pharmacy, architecture, engineering, and physical therapy. Two additional campuses are the Gaston Caperton Center, located in Clarksburg, and the Robert C. Byrd National Aerospace Education Center, a state-of-the-art facility dedicated to aviation technology. Along with its traditional academic foundation, Fairmont State College includes a comprehensive community and technical college component. For additional information, consult "The FSC Home Page" (http://www.fscw.edu).

APPLICATION PROCEDURE
A letter of application and résumé with name, address, and telephone number of three references should be sent to the contact listed for each academic school, Fairmont State College, 1201 Locust Ave., Fairmont, WV 26554-2470. Except as otherwise noted, it is normally expected that candidates for tenure-track positions will complete all requirements for their doctorates by the beginning of the 2001-2002 academic year. All positions are entry level with appointments made at the rank of assistant professor. Review of applications will begin on October 30, 2000, and continue until the positions are filled. Salaries are commensurate with credentials and experience. Faculty may be assigned to teach courses at the Gaston Caperton Center and at other off-campus sites. All faculty are expected to serve on committees, advise students, and participate in the academic community.

POSITIONS:
School of Business and Economics: Applications to Dr. Rebecca Schupp, Chair, School of Business and Economics

- Entrepreneurial Studies: Teach courses in entrepreneurship and other business-related fields. Appropriate terminal degree or other qualifying degree/experience required. Business experiences desirable.

School of Fine Arts: Applications to Dr. Suzanne Snyder, Chair, School of Fine Arts

- Speech Communication: Teach introductory and upper level speech communication courses and coach debate and individual speaking events, doctoral degree preferred; experience teaching speech communication theory and practice courses at the college level required; experience coaching intercollegiate forensics activities (Debate and I.E.) highly desirable.

School of Health Careers: Applications to Dr. Deborah Kimer, Chair, School of Health Careers

- Veterinary Technology: Teaching position in a nationally accredited two year Veterinary Technician program. Applicants with community college teaching experience are encouraged to apply. Candidates must be eligible for West Virginia veterinary licensure. Responsibilities include classroom and laboratory teaching and evaluation, course and curriculum development and evaluation, advising, preclinical supervision, recruitment and selection of students, participation in departmental, school, and college committee activities.

School of Language and Literature: Applications to Dr. Martin L. Bond, Chair, School of Language and Literature. Initial interviews may be scheduled at the MLA Convention.

- English: Two assistant professors, both Americanists #1, 188/199 C: #2, 19thC/Romantics. Desired scholarly interests are minor in literature and/or creative writing - PROSE. Both teach four (4) courses per semester, including a regular assignment at the Caperton Center.

School of Technology: Applications to Dr. Anthony L. Brizendine, P.E., Chair, School of Technology

- Architectural Engineering Technology: Requires a masters degree in Architecture with ability to teach design studio and related courses, and expertise in one of the following areas: architectural history and urban design or computer-aided design and presentation software. Professional experience, professional registration and/or a doctorate are desirable.

- Civil Engineering Technology: Teaching position is TAC of ABET accredited AS and BS programs. Requires expertise in at least two or more of the following areas: civil engineering CAD software, computer-aided design, site planning and development, highway design/transportation, materials, structures, hydraulics/hydrology, and surveying/GPS. A masters degree in Civil Engineering or Civil Engineering Technology or a closely-related area and a minimum of 3 years of professional experience is required. Professional registration and/or a doctorate is desirable.

- Electronics Engineering Technology: Teaching position in TAC of ABET accredited AS and BS programs. Requires expertise in at least two or more of the following areas: circuit analysis, shop practices, digital and microcomputer electronics, linear electronics, communications, industrial machinery/electronics/control systems, and networking/computer integration. Additional expertise in drafting, mechanical and/or manufacturing engineering technology would be beneficial. A masters degree in Electrical or Electronics Engineering or Engineering Technology or a closely-related area and a minimum of 3 years of professional experience is required. Professional registration and/or a doctorate is desirable.

FACED STATE COLLEGE IS AN EQUAL OPPORTUNITY, AFFIRMATIVE ACTION INSTITUTION. WOMEN AND MINORITIES ARE ENCOURAGED TO APPLY.
Position Announcement

FOUNDING DEAN

School of Natural Sciences, Mathematics and Engineering

California State University, Bakersfield

Description: As part of an academic reorganization, California State University, Bakersfield (CSUB) is initiating a search for the Founding Dean of the School of Natural Sciences, Mathematics and Engineering. We seek an academic leader with vision and energy who will work collaboratively with this Liberal Arts faculty who, over the past 30 years, have compiled a distinguished record in teaching, research, and service. Natural Sciences, Mathematics and Engineering offers baccalaureate and masters degree in disciplines of biological and physical sciences and mathematics and in computer science and nursing. Our new Bachelor of Science in Engineering program will be housed in this school and will begin in Fall, 2001. This school also participates in a diversified baccalaureate degree in Liberal Studies for students interested in elementary school teaching. In addition, Natural Sciences, Mathematics and Engineering has established baccalaureate degree programs at the University's off-campus center in Antelope Valley.

CSUB enrolled its first students in 1970 and is one of the 23 campuses in the California State University (CSU) system. In the Fall of 1999, CSUB enrolled 6,000 students (or 5,250 full-time equivalent students (FTES)). Of these students (1,000) were majors in the departments that now form the School of Natural Sciences, Mathematics and Engineering, with 165 full-time faculty members. The University’s diverse student body is reflected in the Fall 2000 admissions which included students of the following groups: African American 127, Asian 172, Latino 568, Native American 34, and White 826, including undergraduate and graduate students. For additional information, please refer to the CSUB Home Page at http://www.csubbk.edu/

The service region for CSUB is larger than West Virginia and includes the Southern San Joaquin Valley, the eastern Southern Sierra Nevada, and the western Mojave Desert. Bakersfield, the largest city in the region and one of the fastest growing in the state, has a population of 231,000; the service region exceeds 700,000. Bakersfield offers the amenities of modern city life and a relaxed life style for families. Los Angeles and the Pacific Ocean beaches are only two hours away. New housing is the best in the State for value and availability. Light industries and service businesses have expanded on the traditional economic base of oil and agriculture.

Responsibilities: The Founding Dean of the School of Humanities and Social Science (HSME) is expected to provide leadership within the context of the CSU system and CSUB’s service region. The Dean is responsible for ensuring excellence in teaching, in research and scholarship, and in community service; recruiting, hiring, and evaluating NSME faculty; academic planning, budgeting, and personnel management. The Dean is expected to work collaboratively with faculty and other academic administrators. The Dean will have major responsibilities in acquiring grants and contracts and engaging community leaders to establish partnerships that will enhance the School’s programs. The Dean represents the School within the University and to external constituencies.

Qualifications: 1. An earned doctorate and a record of teaching excellence, scholarly achievement, and other qualifications sufficient to merit appointment as a Professor in one of the disciplines in the School of Natural Sciences, Mathematics and Engineering;
2. Appropriate academic administrative experience preparing the candidate to perform the level and range of responsibilities described above;
3. Demonstrated success in the acquisition of external funding and the development of community partnerships;
4. A record of effective engagement with faculty, students, staff, university administrators, and the greater community;
5. A demonstrated commitment to serving the University’s ethnically and culturally diverse population.

Applications and Nominations: Review of applications will begin on October 15, 2000, and will be accepted until this position is filled. Application must include the following:
1. Letter of application addressing the responsibilities and qualifications described above;
2. Current vita that includes the names, addresses, telephone numbers, and e-mail addresses of at least four references;
3. At least four letters of reference addressing the candidate's qualifications for this position.

Nominations and applications should be sent to:
Dr. Thomas Meyer
Chair, Search Committee, NSME Dean
California State University Bakersfield
9001 Stockdale Highway
Bakersfield, CA 93311-1099

Salary and benefits are competitive and commensurate with experience and qualifications. Appointment is expected to begin on July 1, 2001.

CSUB fosters and appreciates ethnic and cultural diversity among its faculty, students, and administrative staff. Applications from women, ethnic minorities, veterans, and individuals with disabilities are welcome.

---

ANNENBERG SCHOOL FOR COMMUNICATION

The Annenberg School for Communication at the University of Southern California seeks applications from scholars who have demonstrated exceptional teaching, research, and/or industry experience and leadership to help build our new program in Entertainment, Communication, and Culture, which includes perspectives in culture, politics, industry practice and structure, law, policy, globalization, technology, and audience analysis.

We aim to fill one senior and one junior position. For the senior position, we are seeking a scholar who can take the lead in building our curriculum across undergraduate, masters, and Ph.D programs, provide a research agenda for the program, and develop relationships with industry. For the tenure-track assistant professor position, all aspects of entertainment, both qualitative and quantitative, are of interest. A commitment to advising graduate students in communication theory and research, and an interest in engaging in multidisciplinary inquiry is expected. These appointments are scheduled to begin in August 2001.

Applications and inquiries may be directed to:
Professor Sandra Ball-Rokeach
Chair, Faculty Search Committee
School of Communication
Annenberg School for Communication
University of Southern California
Los Angeles 90089-0281
ballroki@usc.edu
Tel (213) 740-1260, Fax (213) 740-3913

Applications should include curriculum vita, three letters of support, and relevant examples of work. Applications will be reviewed beginning November 15 until the positions are filled.

---

UNIVERSITY OF MINNESOTA

FACULTY AND ADMINISTRATIVE POSITIONS

UNIVERSITY OF MINNESOTA, TWIN CITIES

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Faculty positions currently available in the College of Education and Human Development, University of Minnesota are listed below. These positions all have starting dates of August 27, 2000 and are tenured or tenure-track. Salary offers will be competitive and commensurate with experience and level of appointment. These positions will remain open until filled, but review of application materials will begin no later than October 30. Individuals interested in any of these positions should submit a curriculum vitae, a letter of interest, and the names, addresses, telephone numbers, and e-mail addresses of four references to:

Dr. Mark Brandt
Interim Director of Interdisciplinary Training
Institute for Community Integration
300 Church Street SE
Minneapolis, MN 55455-0306

Phone: 612-624-5679; Fax: 612-624-4905
E-mail: brandt@umn.edu

Applications and nominations will be reviewed beginning November 15, 2000 and will remain open until positions are filled.

---

Educational Administration: Educational Leadership and Management (Assistant, Associate or Full Professor) Application review begins in September 2000.

Educational Program Evaluations (Assistant or Associate Professor) Application review begins in November 2000.

Learning and Cognition (Assistant or Associate Professor) Application review begins on 12/01.

Literacy Education (Assistant or Associate Professor) Application review begins on 12/01.

Special Education-Mental Retardation/Developmental Disabilities (Assistant Professor) Application review begins in December 2000.

An administrative position is also available in the college.

Department Chair with faculty rank, Department of Curriculum and Instruction. Nominations and applications are invited for this 12-month, full-time position. Candidates must currently hold, or be eligible for, an annual position at the rank of full professor and must provide evidence of expertise in one of the department's academic areas. Application review will begin on 10/01.

Complete position descriptions containing specific qualifications and application procedures are available on the internet: http://www.education.umn.edu or from the College Dean's Office (612-624-9253; email: mmoore@ctc.umn.edu).

The University is an equal opportunity educator and employer.
POSITION ANNOUNCEMENTS

Director of Financial Aid

Serve as the chief financial aid office for the University, managing a budget of over 76.5 million dollars in state, federal, and institutional funds. The director will support the management of aid packaging, develop packaging strategies which support institutional goals, and establish outreach initiatives to best assist students in their ability to access the resources necessary to successfully matriculate at the University of Arkansas.

A Bachelor’s Degree (master degree preferred) with a minimum of 8 years experience in financial aid and/or enrollment management positions. A mastery of federal regulations as they pertain to the awarding and management of aid programs. Strong oral and written communications skills as well as organizational and personnel management.

Project Leader for

Integrated Student Information System Implementation

The ISIS Project Leader will oversee the creation of specifications and design of a new campus-based integrated students information system for the University of Arkansas. The successful candidate will coordinate the implementation of the various modules of the new system through the effective utilization of core teams, user groups, and key support personnel as assigned to and affected by the project. This individual will represent the university with the external project consultants, developers, agencies, hardware and software vendors.

A Bachelor’s Degree (master degree preferred) with a minimum of 7-10 years of progressively responsible experience in administrative operations and support within a large university. Experience in project management, including those involving cross-departmental computer based systems and with software development, maintenance and operation as applied to large-scale administrative systems. An ability to work with modern computer-based office tools will be very important, as well as demonstrated ability to motivate, positively implement and effect change, and communicate orally and in writing, with a diverse community of individuals at different technical and professional levels.

Salaries are competitive based on qualifications.

Send Résumé and list of three references to: Ms. Teresa Clark, University of Arkansas, Division of Enrollment Services, 228 Silas H. Hunt Hall, Fayetteville, Arkansas 72701. Or contact by e-mail at clark@uark.edu

Dean of the Graduate College

UNIVERSITY OF ILLINOIS AT CHICAGO

The University of Illinois at Chicago (UIC) invites applications and nominations for the position of Dean of the Graduate College. The appointment will become effective fall 2001.

The University is one of the largest and most comprehensive institutions of higher learning in Illinois and is comprised of 15 colleges and schools with approximately 25,000 students, 8000 of whom are graduate and professional students. Nationally recognized as a Carnegie Doctoral Research-Extensive university, UIC takes great pride in the ethnic and economic diversity of its student body. Located just west of Chicago’s world-renowned Loop, UIC is a vital part of the educational, technological and cultural fabric of the entire metropolitan region.

The Dean of the Graduate College is the chief academic and administrative officer responsible for overseeing graduate programs in the arts and sciences, the professional colleges and interdisciplinary program areas. The Dean reports to the Provost and serves as a member of the Deans’ Council. The Dean oversees the College’s operating and fellowship budget and is responsible for identifying new sources of private and federal funding to increase support of graduate education. The Dean will also provide leadership in the recruitment and retention of graduate students.

The successful candidate will be an accomplished scholar with a record of demonstrated achievement in creating and sustaining distinguished and distinctive academic programs in collaboration with colleagues both within disciplines and across disciplinary lines. The individual chosen will act as an advocate for graduate programs at the campus level and to external constituencies and for graduate students at the departmental and campus levels. The candidate must possess an earned doctoral degree and qualify for appointment as a tenured full professor in an academic department.

A letter of interest and a current curriculum vita should accompany applications along with the names, addresses and phone numbers of five references. Review of applications and nominations will begin immediately and will continue until the position is filled. Applications and nominations should be sent to:

Dr. Cressie Finney Hairston, Chair
Search Committee for the Dean of the Graduate College
The University of Illinois at Chicago
Office of Academic Affairs (M/C 105)
610 South Morgan Street
Chicago, Illinois 60607-7128

The University of Illinois at Chicago is an Affirmative Action/Equal Opportunity Employer.
Dean
School of Natural Resources and Environment
The University of Michigan–Ann Arbor

The University of Michigan invites applications and nominations for the position of Dean of the School of Natural Resources and Environment. The School's over-arching objective is to contribute to the protection of the earth's resources and the achievement of a sustainable society. Through research and teaching, faculty and students of the School are devoted to generating knowledge and developing policies, techniques, and skills to manage and conserve environmental resources to meet the full range of human needs on a sustainable basis. We believe this is best accomplished through the joining of multiple disciplines and approaches in a creative research and teaching atmosphere.

Faculty and students are drawn from an unusually wide range of disciplinary backgrounds and professional experiences, representing the natural and social sciences, and numerous professional fields. Research activities take place in varied settings, from wilderness to urban, regionally and internationally, and involve diverse partners, from private sector to governmental and nonprofit. The School provides instruction through undergraduate, masters, and doctoral programs.

The Dean is the chief academic and administrative officer of the School and reports directly to the Provost and Executive Vice President for Academic Affairs. The Dean provides leadership for the highest quality of scholarly achievements and academic program planning and implementation. Candidates should have a demonstrated commitment to positive action that supports those educational goals associated with a diverse student body and faculty. The Dean is expected to represent the School effectively to internal and external constituencies and to seek and secure funds from a variety of sources. Qualifications should be appropriate to assume a tenured faculty position at the University of Michigan. We seek highly qualified candidates from professional as well as academic backgrounds.

Nominations and applications will be reviewed continuously beginning October 1, 2000, and will be accepted until the position is filled. The University's dedication to excellence is complemented by its commitment to building a culturally diverse academic community. Individuals from under-represented groups are encouraged to apply.

Correspondence should be addressed to:
J. David Allan
Chair, School of Natural Resources and Environment Search Advisory Committee
The University of Michigan
3074 Fleming Building
Ann Arbor, MI 48109-1340

E-mail may be addressed to snrdeansearch.chair@umich.edu. The University has retained the services of Judith Auerbach of Auerbach Associates to assist the Search Advisory Committee in this process. Telephone: (617) 451-0095; Fax: (617) 451-5199. E-mail may be addressed to jaa@auerbach-assc.com.

The University of Michigan treats inquiries, nominations, and applications for this position and others in a confidential manner. Applicants should confirm in their letters that they wish their applications to be kept confidential.

A Non-Discriminatory, Affirmative Action Employer
BRYN MAWR

Major Gifts Professionals

Located on an attractive suburban campus approximately 11 miles west of Philadelphia, Bryn Mawr College is a small, highly selective, liberal arts institution serving approximately 1,800 students at both the undergraduate and graduate levels. We seek experienced and energetic fundraising professionals to join our growing Major Gifts staff as we prepare for a comprehensive capital campaign.

Senior Major Gifts Officer

Reporting to the Director of Development, the Senior Major Gifts Officer will identify, cultivate, solicit, and steward a portfolio of c. 100 prospects and donors in assigned areas of the country. She will work closely with alumni campaign volunteers and will collaborate with fundraising colleagues on prospect management and strategies. She will travel extensively to identify and cultivate top-level prospects, with solicitation of gifts an expected outcome, and to educate donors and prospects about the College's Plan for a New Century and the attendant campaign.

The position requires a bachelor's degree (advanced degree desirable) and a minimum of 3 years of fundraising experience demonstrating success in face-to-face solicitations and in the utilization of volunteers, preferably in higher education. Familiarity with the mission of liberal arts colleges, strong verbal and written communication skills, ability to manage multiple tasks and to act both collaboratively and independently, and willingness and ability to travel extensively are essential.

We offer excellent benefits and competitive salaries. Send letter of introduction and resume plus the names, addresses, and telephone numbers of at least 3 references to: Assistant Director of Human Resources, Human Resources, 101 N. Merion Ave., Bryn Mawr College, Bryn Mawr, PA 19010-2899; EOE, M/F/D/V

THE UNIVERSITY OF MICHIGAN

College of Literature, Science, and the Arts

CONSTANCE F. AND ARNOLD C. POHS PROFESSORSHIP IN TELECOMMUNICATIONS

The College of Literature, Science, and the Arts at the University of Michigan seeks nominations and applications for the Constance F. and Arnold C. Pohs Professorship in Telecommunications. This faculty chair made possible by the Constance F. and Arnold C. Pohs Endowed Professorship in Telecommunications Fund, is intended for an eminent scholar and teacher who examines the social ramifications, global applications and comparative policies for telecommunication technologies. Candidates who study wireless telecommunication are especially encouraged to apply.

Applications should be qualified for a senior faculty appointment in the College, which maintains strong programs in the social sciences (including departments of communication studies, political science, psychology, sociology, history, economics, and anthropology). Joint appointment with another school or college of the University (public policy, information, business, or law) is also possible. The University maintains outstanding teaching and research facilities, including the Institute for Social Research and the recently completed Media Union.

The chair is expected to play a leadership role in helping to design, assemble and coordinate an interdisciplinary research program, and to organize an annual seminar with participants drawn from within and outside the University. The seminar and research program will provide a unique opportunity to work with leading experts in the field and to help in developing and sustaining a program in new communications technology at the University.

The University of Michigan is an equal opportunity employer. Women and minorities are encouraged to apply. Completed applications should include a vita, three letters of recommendation, and evidence of teaching effectiveness.

APPLICATIONS AND NOMINATIONS SHOULD BE DIRECTED TO:
Constance F. and Arnold C. Pohs Chair
Department of Communication Studies
The University of Michigan
2020 Frieze Building
105 South State Street
Ann Arbor, MI 48109-1281

DEADLINE: Review of nominations and applications will begin immediately and continue until the position is filled.

Vice President for Information Systems and Telecommunications

Community College of Philadelphia invites applications and nominations for the position of Vice President for Information Systems and Telecommunications. The College seeks an experienced, dynamic, outcomes-oriented, creative individual who can provide leadership and vision for a division that supports academic and administrative computing through excellence in service, education and training, and implementation of a College-wide information technology strategic plan.

Responsibilities: The Vice President reports directly to the President of the College and has broad-based responsibility for the College's computer infrastructure, networking functions, Web management and support, and telecommunications at the College's multiple locations. The Vice President will have a unique opportunity to lead in the implementation of a new long-range technology plan which outlines expected changes in student and administrative systems, expanded distance education opportunities, and increased staff and student access to technology.

Qualifications: An undergraduate degree is required; an advanced degree in an appropriate discipline is preferred. Candidates should have at least five years of relevant experience, preferably as a senior manager in higher education. The successful candidate will demonstrate an understanding of academic, administrative and student systems technologies and processes; experience in strategic IT planning; evidence in the management of technical personnel; effective communication and interpersonal skills; a proven record of building collaborative approaches to issues; a commitment to staff development; significant fiscal/budgetary experience; and the ability to bring creativity and resourcefulness to the implementation of a vision.

The College: Founded in 1965, the College enrolls more than 18,000 FTEs, with an annual budget of $79 million. The College is the only public institution of higher education in Philadelphia and the sixth largest college or university in the Commonwealth of Pennsylvania.

Start Date/Salary: The position is available on or after January 1, 2001. A highly competitive salary and a comprehensive benefits package are offered.

Applications: In making application, candidates must be responsive to the experience and requirements listed above. Interested candidates should forward their resume, three letters of recommendation and a letter of motivation (including salary history), postmarked by Sunday, November 12, 2000 to

Community College of Philadelphia
Human Resources (ST)
Community College of Philadelphia

A CALL FOR PAPERS FOR THE SIXTH CONFERENCE OF RECOVERING THE U.S. HISPANIC LITERARY HERITAGE

DECORATING THE U.S. HISPANIC LITERARY HERITAGE

Recovering the Past, Charting the Future: Archives, Canons, and Questions of Identity

Marking the tenth anniversary of the Recovering the U.S. Hispanic Literary Heritage Project, this year's conference will focus specifically on the future of the Recovering Project. A sense of the future is not complete without an earnest reflection on the gains and obstacles of the last decade. While the conference will continue to foreground the results of recent, Recoveries-related research, it will also provide ample space for measuring the effect of the Recovering Project on history and criticism in graduate education. Of particular interest in this year's conference are questions of pedagogy, classroom methodology, and how to translate the past into terms and concepts that students can understand today. Please join us in embarking upon the next ten years of the Recovering Project.

PAPERS OR PANELS ARE INVITED ON ANY OF THE FOLLOWING THEMES:

- Analytical Studies of Recovered Authors and/or Texts
- Critical and Theoretical Approaches to Recovered Texts
- Preparations of Critical Editions
- Curriculum Development
- Folklore/Oral Histories
- Historiography
- Language and Linguistics
- Preservation and Access
- Library and Information Science

Presenters will be asked to provide a publication-ready paper in hard copy and word processor diskettes prior to the conference. Selected papers will be published in the fifth volume of conference proceedings.

Submit a 150-word abstract and curriculum vitae by AUGUST 15, 2000 to:

Recovering the U.S. Hispanic Literary Heritage
University of Houston, 4000 Calhoun
411 Cullen Performance Hall, Room 204
Houston, TX 77204-3172

Phone: (713)743-3128
Fax: (713)743-3143

The Opportunity of a Lifetime for a Lifetime.

MBA Funding for

Tomorrow's Business Leaders

You've got the brains to compete. What you're missing is the MBA. Think it's out of your reach? Think again. Then reach out to the Consortium for Graduate Study in Management. We've spent over 30 years providing financial assistance to the brightest and best African, Hispanic and Native Americans during their MBA studies. Eleven top universities are members of the Consortium ... universities that can make the difference between having a job ... or a brilliant career. Our members also include some of America's most elite corporations. These generous sponsors eagerly do their part in nurturing the very minds that could one day set their future course.

Yet while the educational rewards are great ... the personal rewards are even greater. You see, our relationship with students extends way beyond funding. We're there for you every step of the way. Not just throughout your two years of study, but throughout your career.

So take your future into your own hands by picking up the phone. Call the Consortium at (888) 658-6814 or visit our website at www.cgsm.org/ho.html. And find out about a lifetime opportunity ... that's lifelong.

CONSORTIUM FOR GRADUATE STUDY IN MANAGEMENT -

Member Universities: • University of California at Berkeley • Dartmouth College • Indiana University–Bloomington • University of Michigan–Ann Arbor • New York University • University of North Carolina at Chapel Hill • University of Rochester • University of Southern California • University of Texas at Austin • University of Virginia • Washington University in St. Louis • University of Wisconsin–Madison
afternoon last semester, I looked up to see a young man in my office doorway holding an envelope. "I'm glad you're still here," he said. "I rushed from my internship so I could give this to you myself," he said. "It's an invitation to my graduation." He looked happy as he rushed off to work.

David would be the first in his family and one of the very few from his community to graduate from college. He was well on his way to becoming an elementary school teacher. He chose a profession where he could help children, especially children from his community, who faced hardships he knew all too well.

Reflecting on David's success, I thought about how intelligent, diligent, and motivated he was and how he still struggled with what many students would consider routine university procedures. It seemed that to David, the university was at times overwhelmingly large and impersonal. I'd sensed his intimidation and tried to help him navigate the system. I thought about him often working two jobs to help his family, while carrying a full course load. I'd often seen him rushing in and out of the computer lab between classes to work on his papers, and knew he didn't have a computer at home.

I thought about Maria, a student also studying to be a teacher, who introduced me to David, a member of her community. She hoped I might help him through my affiliation with a private endowment for education majors. At the time, Maria was ahead of David in school, but because of many hardships she faces, her graduation remains a distant dream, her teaching career limited to tutoring young children in a mission program. Maria and David are members of the migrant farmworker community.

Migrant farmworkers move with their families across the country following the growing seasons and attempting to obtain temporary work in agriculture, fishing, or food processing. Between three to five million currently travel throughout the U.S., planting, harvesting, and processing crops. Most are minorities. The majority are Hispanic. Migrant youth face harsh life circumstances—poverty, frequent moves, linguistic and cultural barriers. About 200,000 migrant children work the fields. Farmworkers have median incomes of $2,500 to $5,000. Three-fourths have annual family incomes of less than $8,000.

Migrant students often miss school, enroll late, and leave early. David's family moved between Florida and several mid-western states, leaving Florida in early April and not returning until October. The educational status of migrant children in general lags dramatically behind that of others. For many overage and frustrated migrant students, the lure of employment in the face of escalating family crises outweighs the desire and ability to stay in school. A recent survey reveals that only 15 percent of farmworkers in the U.S. complete 12 years of school or more. Largely due to economic necessity.

For the Marías and Davids who do eventually graduate from high school and aspire to college, the struggle intensifies. Due to gaps and inconsistent coursework across states, the high school GPAs of many migrant students do not accurately reflect their ability. Often, they've been penalized for excessive absences, lost credits due to transfers, and been ill advised about courses necessary to enter college. Special consideration in admissions and a commitment to ongoing academic and personal support are critical. They might not qualify for certain financial aid and tuition reductions because of residency requirements and often know little about private scholarships. Most are relied on to continue contributing to family income.

The federal government sponsors the highly successful College Assistance Migrant Program (CAMP), designed to help them gain admission and complete the first year of college. But these programs are few, and often geographically inaccessible and inadequately funded.

David's success is a testimony to the consistent commitment to hard work that characterizes the lives of migrant farmworkers. And to the efforts of individuals and agencies dedicated to helping them succeed. David was eager and able to grasp the opportunities provided him. For every David, however, there are many Marías who need our help and support to fulfill their dreams.

112 10/25/2000  •  HISPANIC OUTLOOK 3
¡Buenas!

Drawing nearer to the November 2000 presidential elections, citizens wonder who, after the last ballot is cast, will win. Still, many of the voting-age population are indifferent and aren’t following the candidates as well as they could.

This apathy is detrimental. Why? Perhaps, because people don’t feel a connection with any one candidate, they doubt the sincerity of the political platforms presented, and, finally, they believe that their votes are inconsequential.

According to Vanishing Voter Project (The Joan Shorenstein Center on the Press, Politics and Public Policy, Harvard’s John F. Kennedy School of Government), which conducted national polls during the campaigns, Hispanics have been less attentive to the presidential race than have non-Hispanics, and nearly half of the Hispanic respondents said the outcome would make little or no difference in the lives of people like themselves, compared with 41 percent of non-Hispanics. Is there a silver lining? Despite our involvement, the polls indicated that compared to other Americans, Latinos are less cynical about the process.

Grassroots organizations, Hispanic and women’s groups, and websites have been diligently working to reverse this unresponsiveness.

Before people head to their local polling place, they need to understand the voting process and have access to information that will enable them to make informed decisions. We all have the right to vote; the key is to learn how beneficial it can be if we do.

In this issue HO celebrates Hispanic Heritage. An article by Eduardo Padrón, president of Miami-Dade Community College discusses the important role community colleges play in the advancement of Latinos. We’ve also taken a look at accreditation standards and other initiatives. Our next issue will focus on Law Schools and law-related topics. And don’t forget to visit our booth (#307) at HACU’s 15th Annual Conference, Albuquerque, N.M., Nov 4-7.

Take note y hasta proximo número,

M. Sarracent
New and Extended Government Programs for Hispanics

Severa, Washington, D.C.-based government agencies have this year extended or launched ambitious new programs to reach out to Hispanics. I list a few.

Department of Education (Dept. of ED)

- The Department will soon release "Key Indicators of Hispanic Student Achievement: National Goals and Benchmarks for the Next Decade," a guide for federal, state, and local educators, policy makers, and community leaders to improve educational access and quality for Hispanic students. The Dept. of ED will also develop and provide progress indicators in the following areas: early childhood education, learning English, closing achievement gaps and the dropout rate, and increasing college completion.

- The "Idea Book"—The Dept. of ED's "Helping Hispanic Students Reach High Academic Standards: An Idea Book," designed to highlight promising strategies used by schools and communities to help Hispanic students succeed in learning, gain productive employment, and become responsible citizens, will be sent by the Dept. of ED to the 100 school districts with the fastest-growing Hispanic student populations. Colleges may request copies as well.

- Assisting School Districts with Rapidly Growing Hispanic Populations.

The Dept. of ED and the National Association of Bilingual Education will launch workshops for school districts on strategies for training teachers to address linguistic and cultural diversity in the classroom, effective bilingual education programs, teaching reading to English language learners, and using communitywide resources to meet the needs of new students and their families.

The Dept. of ED will provide technical assistance for superintendents and principals in communities experiencing a large increase in Hispanic students. They will provide successful strategies to build partnerships to improve academic performance and increase Hispanic high school completion rates.

- New Grants to Support HSIs—Hispanic Serving Institutions enroll the majority of all Hispanic students nationally and also provide access for many other disadvantaged students. The Dept. of ED's HSIs program will provide $258 million for 76 new development grants to enable eligible HSIs of higher education to expand their capacity to serve Hispanic students. Funds may be used for faculty development, administrative management, and improvement of academic programs, facilities, and student services.

- Title I Outreach Campaign—The Dept. of ED will launch an expansive outreach effort to provide more and higher-quality services to very young Hispanic children through Title I pre-school programs. All local school districts to use Title I funds for preschool, urging schools to reach out to Hispanic families, and explaining the flexibility in Title I schoolwide programs in selecting participants and in providing services.

- Outreach Campaign with the National PTA—The Dept. of ED and the National PTA will distribute "Vamos juntos a la escuela" (Let's Go to School Together), a videotape for Spanish-speaking families and the schools and organizations that serve them.

The tape, which will go to PTAs nationwide of schools with significant Hispanic populations, will provide basic suggestions for helping children succeed in school, covering subjects such as parent involvement, early childhood development, reading and mathematics, and preparing young people for college.

Other Government Programs

There are many sponsors of education programs geared for Hispanics. Some seem rather unusual, but they made their case to Congress and succeeded in being funded.

- Department of Energy (DOE)

For FY 2001, the DOE's Community College Institute (CCI) has committed to quadrupling the size of its summer "technical and research" internship program for college community students studying mathematics, science, or other technical subjects. The effort will provide additional incentives for interns who agree to mentor other students when they return to their community college after their internships.

- Department of Health and Human Services (HHS)—The Substance Abuse and Mental Health Services Administration is in partnership with the Hispanic community to develop and implement "SOY UNICA! SOY LATINA!" (I'M UNIQUE! I'M LATINA!), a national, comprehensive, multimedia bilingual campaign geared to Hispanics/Latinas 9 to 14.

The initiative will help young girls to build positive self-esteem in order to prevent drug use and avoid the harmful consequences of emotional and behavioral problems.

- Department of Defense (DOD)

The Department of Defense will expand its student teaching internship program to increase the number of Hispanic educators in overseas schools that serve family members of military personnel.

It has also entered into five new partnerships with HSIs to provide round-trip travel expenses to entice exceptional students majoring in education at HSIs to complete their student teaching internships in DOD schools overseas.

- HHS, HUD, and the White House Initiative on Educational Excellence for Hispanic Americans

The Department of Housing and Urban Development (HUD), Department of Health and Human Services (HHS), and the White House Initiative on Educational Excellence for Hispanic Americans will work together to provide English- and Spanish-language materials and educational forums to parents of young children through HUD's Neighborhood Networks and other community-based programs.

The parents will receive information on early brain development research, parenting tips, how to access child care subsidies and tax credit information. Data on how to choose a child care center, what Head Start has to offer, and other family support systems will be included as well.

All in all, it is going to be a stellar year of opportunity for Hispanics and education.

Dr. Mellander is a professor at George Mason University.
Education and the New Hispanic Heritage

A Miami Dade Perspective

By Eduardo J. Padrón

Associating an “ivory tower” with higher education has always been an anomaly to me. The image suggests a pristine, far-away place protected from the rigors of everyday life, an academic Oz reachable only by a chosen few. The rest of us were free to attend the school of hard knocks.

Until recently, Hispanics have been all too familiar with the latter “institution.” Higher education enrollment statistics and a host of demographic indicators spoke to the disconnection between Hispanics and higher education opportunity. While the battle is hardly won, the doors of “democracy’s colleges” have swung wide for Hispanics over the past decade. Community colleges—offering a bonafide entry pass to the new global economy—have offered Hispanics a new view of themselves, one that is colored in possibility and high expectations.

In South Florida, we are all too familiar with stories of dashed expecta-
tions and opportunities lost. Immigrants have arrived full of promise only to languish in low-end jobs for years, high hopes leveled by language and basic skills deficits. But community colleges, as they change the face of American higher education, are changing the lives of Hispanics and other minorities throughout the country.

Today, there are 1,100 community colleges across America, home to
more than 5.2 million credit students—40 percent of the country’s col-
giate population.

An additional five million students enroll in non-credit courses—including a host of short-term occupational courses aimed at an evolving global economy. Over the past decade, community college enrollment has grown by 24 percent, double the growth of four-year schools. Fully half of high school graduates who go off to college stay at home, at
their local community college.

“What we have proven beyond dispute is that underprepared does not mean incapable or powerless.”
For Hispanics, community colleges have offered a breakthrough. Of the more than 1.2 million Hispanics in higher education, 56 percent attend community colleges. Victims of inner-city poverty, over-crowded urban high schools, and poor English-language skills, many of these students would not otherwise have crossed the threshold of higher education, let alone set foot in a high-tech economy.

Sixty-three percent of Miami-Dade’s students are Hispanic, and the overwhelming majority are first-generation college students. Combined with African Americans, more than 88 percent of our students are minorities with over half first-generation in college. Many need developmental support, and the national prominence achieved by Miami-Dade is, in part, due to our work with these students. What we have proven beyond dispute is that underprepared does not mean incapable or powerless. Opportunity changes everything; community colleges “are doing what other educational institutions in America aren’t doing: preparing people, often those with mediocre basic schooling, to get well-paying, middle-class jobs.” Miami-Dade has a vault full of stories of people in their 20s, 30s, 40s, and older who went from dead-end $7/hour jobs to salaries of $30-50,000 and future growth.

The newness of the economy, offering services, products, and jobs never imagined, has leveled the playing field to a degree. Community colleges, with their open door, developmental support, and quick response to the marketplace, have offered a real chance to step onto that playing field. But the impact goes far beyond the new job and increased income. Education is always, at its core, about self-knowledge and understanding. For many Hispanics, community college has been their moment of recognition—of their talents, unique worth, and ability to contribute to the community. Not only do doors open and incomes surge, but more importantly, attitudes and expectations shift and extend into the community.

Recently, Miami-Dade undertook a marketing campaign that included billboards featuring prominent South Floridians who had attended the College. Many—bank presidents, the state’s attorney, a neurosurgeon, and more—were Hispanic. The comments we received were extraordinary, both in respect for the College’s work and in gratitude for demonstrating possibility to the entire Hispanic population. Such are the beginnings of a new Hispanic heritage, one filled with high expectations and practical results.

By nature, community colleges invite collaborative arrangements with key elements of the community. What ensues is a unique sense of involvement and ownership in the College and related community growth. The necessary connection between higher education and the local and regional economy has never been more apparent. South Florida’s example, though unique in its particulars, is typical of the community economy playing catch-up with the tide of a new marketplace. Industries driven by high-tech factors—bio-medical and health care, entertainment, information technology, and others—desperately need skilled personnel to sustain themselves. Like so many community colleges across the country, Miami-Dade has revamped its occupational curriculum in response to a countywide initiative fostering specific industry development.

In The Coming 20-Year Boom and What It Means to You, the authors, two Wall Street insiders, refer to “an exquisite sensitivity” in describing community colleges’ responsiveness to local labor markets. Training partnerships in which faculty and industry professionals collaborate on curriculum are sending students immediate employment and a tailor-made middle-class income. The likes of Ford, DuPont, and NYNEX suggest the range and potential of these alliances. At Miami-Dade, a Computer Certification Center—featuring program collaborations with Nortell/Bay Netwerks, Cisco Systems,
Oracle, IBM, Microsoft, Novell, and Sun Systems, all world leaders in software and networking fields and all available under the community's college umbrella—speaks to the vast possibilities of these partnerships.

There is no question that technology has opened up dynamic, lucrative fields that can be entered with a short-term certificate or associate's degree. Since the early '70s, the percentage of occupational degrees versus liberal arts degrees has risen from 43 percent to 70 percent. While direct entry into the workforce is more viable than ever, the transfer option to a four-year institution remains the cornerstone of the community college mission. Again, it is partnership that is allowing for smooth transitions for students. In Florida, some 55 percent of students in the State University System (SUS) began at community colleges. At Florida International University in Miami, 55 percent of the student population transferred from Miami-Dade.

The simple yet telling fact is that transfer students from community colleges perform on a par with native students in the SUS. What is amazing is that 80 percent of entering Miami-Dade students require developmental course work. Yet these students, many of them Hispanic and African American, move on to honors courses, graduation, and transfer to not only the SUS but the renowned of American Universities—Yale, Harvard, MIT, Stanford, and many others. M-DCC has articulation agreements with 52 colleges and universities, including Smith College and Georgia Tech.

It bears repeating that underprepared does not imply incapable. Community colleges are rightfully called the colleges of second chance and, in many cases, the only chance. Rest assured, these are the students who have allowed Miami-Dade to confer more degrees on Hispanics and African Americans than has any other institution in America.

Partnership and ownership extend beyond the classroom. Service learning projects such as America Reads take college students into the public schools to teach reading, reaching for the students whose hopes fade with lost time. For those who have found no entry into the mainstream economy, the College's One Stop and WAGES (Work and Gain Economic Self-sufficiency) centers provide counseling, job skills, and training opportunities for clients leaving the welfare roles.

For all of our progress, common sense and a few undeniable statistical references suggest that we ought not rest on our laurels in the Hispanic community. One of every four people living in poverty in the United States is Hispanic. With that in mind, it is ominous that by the year 2005, Hispanics are projected as the major minority in the country; and that by 2025, they will account for nearly 18 percent of the U.S. population. More sobering data indicates that Hispanics achieve high school competency, graduate, attend college, and achieve degrees at an alarmingly lower rate than do other students.

As clearly as these statistics state the problem, just as clearly the door has been pushed open to a new day. The Presidential Advisory Commission on Educational Excellence for Hispanic Americans, on which I have been privileged to serve, has recommended sweeping steps toward that new reality. Calling on government, private industry, and community organizations, the recommendations have the potential to stimulate growth from pre-school through graduate school. The Commission report is entitled, "Creating the Will: Hispanics Achieving Educational Excellence." Beneath and beyond all the program support, it is true that each person must find the will. Community colleges across America have demonstrated that the will to learn combined with the opportunity to excel is a sure-fire equation for success.

"Mi vida loca' is very emotional, with the presenters sharing their experiences of being involved in gangs. They go on to share how they have broken away from the gang life and how education has changed their lives. I sat in on the workshop a little while and was brought to tears several times as the presenters shared about their lives."

HO is talking with Maxwell Succe, college promotions specialist, Citrus College, Glendora, Calif., in charge of overall planning of this year’s Latino Youth Conference, now in its eleventh year. This is his first.

"Word of 'Mi vida loca' has spread among the students and teachers," he continued. "This year, each session was at its capacity. I believe the students really relate to the former gang members, who aren't too far removed from their previous lives. The presenters talk to the students rather than at them.

"Students, including the self-professed 'tough ones,' listen up in this workshop... Of note, on the evening before this year's conference, two of the participating schools were involved in a shooting; one of the students was killed. The workshop presenters were aware of this and addressed it in the workshop."

Citrus College, which serves an Hispanic population of more than 35 percent, enjoyed one of its best-ever annual Latino Youth Conferences this year. More than 250 Latino high school students visited the campus for a morning event about the value of a college education and personal empowerment.

After a continental breakfast, students were able to enjoy engaging speakers—many of them distinguished members of the community. They also attended workshops, were given door prizes, lunch, and entertainment.

"This conference has made the dream of college a reality for Latinos over the last 10 years. It breaks down the barriers that Latinos face when considering their future," said Michael Carrillo, a Citrus College instructor.

"Schools call us to see if we can accommodate additional students. As the popularity of the conference continues to grow among the students, teachers, and sponsors, we have to move it to a 1,500-seat auditorium."

Carillo, who is also the director of EOPS/CARE, helps to provide at-risk students with a smooth matriculation transition into the community college, and he also presents a
conference workshop called “Celebrating Our Latino Heritage.”

He believes the conference has been successful because of the intense planning and commitment by everyone involved, as well as the communication with local area high schools.

The conference, Carillo says, improves each year, but still needs to be fine-tuned. This is especially true of getting students to think about higher education, and providing them with the information they need to achieve it.

And the conference is heading toward that fine-tuning through implementation of a rating system introduced this year. Students, teachers, and counselors in attendance were asked to evaluate the speakers and workshops using a four-point system. The conference received an excellent overall rating of 3.6 out of 4. Eight out of the 9 workshops also received high scores, as did the opening program.

Citrus College’s Latino Recruitment Committee established the annual Latino Youth Conference. The U.S. Department of Education has designated Citrus an HSI, Hispanic Serving Institution, and most of Citrus’ Hispanic students are the first in their family to attend college.

Asked who is invited to the conference, Sucee told HO that priority is given to seniors from high schools in the Citrus College district. “Several schools from immediately outside of our district are also invited. In total, 12 high schools from Azusa, Pasadena, Monrovia, Covina, Duarte, and Claremont totaling 220 students attended the conference. Due to the popularity, I had to cut back on the number of students invited from outside of our district.”

New Goals This Year

“Based on the solid foundation established from previous conferences,” said Sucee, “and the philosophy that you can always improve, I looked to establish some new goals for this year’s conference.

“With my PR experience in the nonprofit sector in Toronto, Canada, I couldn’t help but see this conference as a wonderful marketing opportunity for the college and local businesses. Many businesses are looking for an opportunity to affiliate themselves with such a worthwhile cause. The other reality is that we coordinate several press releases about it. And he hoped that through sponsorship dollars and donations, there might be enough money left over to establish a scholarship program.

Raising Money

“I approached the Latino-owned Pueblo Corporation, which I came across as a result of an article in the LA Times that highlighted their commitment to education and event, and offered free advertising in our event’s program and the opportunity to distribute a coupon to the employees at our college. They jumped at the opportunity and donated both breakfast and lunch for the day. This also held the same for Pepsi, who donated all the soda for the event, and Trader Joe’s, who donated coffee, tea, and juice for the event.”

Local businesses and profes-

Citrus College Welcomes Young Latinos—Citrus College’s 11th Annual Latino Youth Conference welcomed approximately 200 students from its district and surrounding communities for a day focusing on enlightening and motivating, and on eliminating the barriers facing young Latinos and encouraging their pursuit of a postsecondary education.
"The Conference breaks down the barriers that Latinos face when considering their future," said Michael Carrillo, a Citrus College instructor.

they came up with Chill Out, Man!

"The workshop ended up being one of our most popular. It offers alternative methods of dealing with anxiety, restlessness, anger, and uncertainty. In return for her help, we designed and placed an ad in the event program, and I mentioned her involvement in all the materials we sent the press."

The media was sent several press releases prior to and after the event, and several favorable articles resulted, said Sucee.

Essential Help

"Having only been employed at the college for several months, and this being my first time planning the Conference, I faced several challenges in executing the logistics," said Sucee.

"My colleagues and director helped a great deal by pointing me in the right direction, but ultimately the Conference was my responsibility. I utilized the recruitment committee as my sounding board for the various ideas I was implementing. I was also left with an excellent paper trail from my predecessor."

"I really enjoy soliciting sponsorship. When you are working for a cause you believe in, it makes the job easy."

"Other than the week prior to the Conference, I had minimal assistance. I devoted about 70 percent of my time to the Conference in the two months leading up to the date. We have a graphic designer in our department who I worked closely with in designing the numerous print materials and the Conference T-shirts. I also relied heavily on several other departments at the College. Our transportation coordinator was a great help in providing transportation to all the schools—any of whom couldn't afford their own. Several counselors presented workshops, and our Career and Transfer Center provided me with the names of representatives from local four-year schools to participate in the On Route to University workshop. The day of the Conference, I had the assistance of my office—a director, three fellow promotion specialists, and three part-time workers."

Sucee said that volunteers are essential in pulling off a conference of this magnitude. "Most importantly, from the very beginning of the planning, I developed a critical path for the Conference that served as my 'bible' for the entire Conference. Another critical path and script was developed for the day of the Conference."

Students and Speakers

"I came across a very large (and I'm 6'5", 275 pounds) and angry young man who I related to because of our sizes and some of struggles I went through as a youth," said Sucee.

"He was a late registrant and very reluctant to be attending the Conference. His chaperone asked if I could suggest some workshops for him. We sat down and chose two workshops, and off he went, very hesitantly. I came across him again later in the day as he was coming out of the Chill Out, Man! work-
shop. He was grinning ear to ear, the expression on his face had changed dramatically, and he said he couldn't remember having ever felt so relaxed.

It was also very rewarding, said Succe, to see students, teachers, and workshop presenters dancing after lunch!

**Keynoter Acquisition**

"We wanted a speaker of Hispanic heritage who could address the value of a college education and personal empowerment," said Succe. "As a way to screen potential speakers, we asked for an audiotape of previous speaking engagements.

"My experience with securing a keynote speaker for the event is a story within itself. I negotiated with a Latino speaker's bureau that, after much negotiating back and forth, couldn't meet our fee, nor could they provide any samples of previous speaking engagements. I then contacted and negotiated with a Latino author and lawyer who was interested, only to tell me a few days later that he had a previous engagement. I then called a local professional sports team to see if they could provide a Hispanic athlete. They were also unable to provide anyone. Two local and prominent Latino politicians were then contacted, and neither of them was able to help us. One in fact accepted and then cancelled a month prior to the Conference due to another engagement. Through word of mouth, I contacted a famous Latino actor, who I never heard back from.

"I finally contacted Christina Cruz-Madrid, mayor of Azusa, a practicing attorney, published author, and native of Azusa. She demanded no fee and met and exceeded our expectations. She talked about growing up locally with her parents, who were orange pickers. She struggled with a mother who wanted her to stay home and attend beauty school. She knew who her audience was and used humor to keep them entertained.

"Victor Villaflora, vice president of public relations for Pueblo Corporation, also addressed the students. What was supposed to be a scholarship presentation turned out to be a motivational talk about empowerment and education. The two scholarship recipients were also wonderful examples for our guests."

help the students discover ways to tap their inner strengths, both personal and cultural, to help realize their goals.

"Students commented that it "helped me learn how to talk to other people and how to stop putting myself down, to keep my self-esteem high, and to work for my goals," and "showed us how to think positively and how to believe in from community college to a four-year university."

**Taking It to the Next Level**

"At 250 guests, the event is very manageable," said Succe. "However, the popularity of the Conference is enormous and, if we allow it, could triple in size. I would like to make the Conference a day-long event rather than just a morning event. All this will have to be decided in the next few months, when we begin planning for next year. In the next few weeks, we will also look at our finances and begin defining the parameters of a Latino Youth Conference scholarship.

"Finally, I will be looking to develop a new sponsorship package for businesses. Currently we offer them a great deal on advertising, and we can begin to charge a little for the opportunity to advertise to such a target market."

Succe would like to continue to expand on the Latino theme. Having the banda perform went extremely well, he thought, and perhaps, in addition, some Latino artists could display their work next year. He'd also like to arrange more giveaways for the students next year, without taking away from the focus on education and empowerment.

"We were able to get Wherehouse Music to donate CDs from Latino artists for everyone, I think there are a number of other businesses that can do the same."

Carrillo says, "As the popularity of the Conference continues to grow among the students, teachers, and sponsors, we will have to move it to a 1,500-seat auditorium."
LASPAU: Education Advancing Latin American Development

Harvard Affiliate Eyes Human and Technical Resources

BY MARILYN GILROY

In the beginning, which was 1964, there was the Latin American Scholarship Program of American Universities, a cooperative venture to enable talented Colombian high school students to obtain bachelor’s degrees in the United States. Today, there is LASPAU, an umbrella for a host of academic and professional services designed to meet the complex social, political, and economic challenges facing the Americas.

Its original purpose had a narrow focus, but LASPAU’s current mission includes a comprehensive array of programs to help strengthen institutions throughout the Americas. And while the annual report lists dozens of individual programs, affiliations, partnerships, and initiatives, they all play a collective part in the overall goal, using education to advance the development of Latin America.

LASPAU is a nonprofit organization affiliated with Harvard University and governed by an independent, inter-American board of trustees. The affiliation with Harvard is a mutually beneficial relationship that is really more of an alliance, says Elizabeth Langosy, editor of LASPAU’s newsletter Informativo.

“Harvard has about 20 organizations, such as its art museum, which are independently governed but share an affiliation with the University,” said Langosy. “These organizations are accountable to the University and consult with the University in establishing goals and programs, but they enjoy a certain amount of independence.”

One of the advantages of this relationship, explains Langosy, is that LASPAU can tap the resources of Harvard. Many of its workshops are led by Harvard faculty members.

LASPAU uses various means to help the regions of Central and South America strengthen higher education institutions, enhance scientific and technological capabilities, and use information technology more effectively. After all, says executive director Ned Strong, “strong academic institutions are critical to national development, and they often need significant resources to meet the challenges of research and training.”

LASPAU has achieved its goals by forming partnerships with institutions such as the Fulbright Academic Exchange Program and the World Bank. As its role as a consulting organization and facilitator of academic exchanges expanded over the years, it adopted the current acronym LASPAU, which now “stands for nothing,” says Langosy, and serves as an identifier for all ongoing programs and activities.

Most surprisingly, LASPAU does not award scholarships or grants of its own. Rather, says LASPAU program officer Craig Hastings, “We administer scholarship and educational loan programs for a variety of U.S. government as well as international funders.”

Just what are some of the specific activities of LASPAU?

A major component is the Fulbright Faculty Development Program, one of LASPAU’s collaborations with the U.S. Department of State’s Bureau of Educational and Cultural Affairs. The program supports the development of institutional capacity in a broad variety of disciplines through advanced training of university faculty. According to LASPAU’s latest annual report, more than 2,400 educators from 29 countries in Latin America and the Caribbean have received training through the program. The majority study at the master’s level, although doctoral and nondegree study is also supported.

The success of the faculty development program led the Fulbright Program and LASPAU to create the Amazon Basin Scholarship Program in 1991 to provide opportunities for professionals from the Amazon region to examine environmental issues. Grantees in the natural sciences, social sciences, and public policy study multidisciplinary approaches to sustainable development of the region.

“There are six scholarships given each year to candidates from the Amazon basin countries of Bolivia, Brazil, Colombia, Ecuador, Peru, and Venezuela,” says Hastings.

Competition for the awards is rigorous; and priority is given to individuals with extensive experience in the region. The program’s ultimate goal is to develop a well-prepared cadre of professionals from the Amazon Basin who, upon completion of their studies, will return to their respective institutions to share expertise with colleagues while maintaining contact with each other.

LASPAU also coordinates the Caribbean and
Central American Ecology Program, which awards another six grants to individuals from the region.

LASPAU staff participate in recruitment of candidates from Latin America and in the analysis of each candidate's academic credentials and professional qualifications.

"Only citizens of the sending countries are eligible to apply for grants in their home countries," says Hastings. "We do not administer any scholarships for U.S. citizens."

Adds Langosy, 'Our applicants must be citizens of Latin America, not immigrants from Latin America in the U.S. After all, our goal is to advance development in that region, so we want to make sure our grantees reflect that purpose."

Sorting through the inventory of LASPAU's vast array of programs, it is a daunting task, but the acronym is more familiar and have interesting explanations. For example, there is FUNDAYACUCHO, which stands for Fundación Gran Mariscal de Ayacucho, a public institution created in 1975 to support the development of human resources necessary for the advancement of Venezuela. According to the description, one of its current goals is to reduce the students' level of indebtedness in order to make educational loans available to middle-income families. Program officials meet this goal by identifying educational institutions that are able to consider cost-sharing arrangements. Its partnership with LASPAU began in 1989 when LASPAU began administering FUNDAYACUCHO's programs in North America. Approximately 255 new grantees began their studies in the 1999-2000 academic year.

Part of LASPAU's function is to place applicants in North American universities that are matched to their particular needs and goals. The list of participating colleges and universities is quite impressive, but so is the support from other organizations, such as law firms; food corporations, including Kraft Foods; pharmaceutical companies, such as Upjohn; media outlets; and healthcare institutions.

"These organizations provide practical training for our participants," said Langosy. "They usually work for about six months in a discipline-specific area."

Alumni of all of these programs have begun to fulfill their promise. The notes on alumni of LASPAU read like a Who's Who in Latin America. Dominican José Raúl Fernández, who studied urban planning technology at the University of Arizona under the Fulbright/LASPAU alliance, was recently named executive director of the Dominican City of Santiago's strategic development plan. The plan seeks to coordinate public and private sector efforts to make the city and municipality of Santiago an environmentally stable, economically competitive community.

Venezuelan Elisabeth Eljuri, who studied law in 1992 at Harvard under FUNDAYACUCHO, is a partner at MacLeod Dixon, a Canadian law firm specializing in energy-related issues. She is based at the firm's Caracas office, where she focuses on legal issues of oil and gas corporations. Eljuri has given presentations at several international conferences and written on various aspects of oil and gas laws, including production-sharing agreements.

Perhaps one of LASPAU's most important efforts has been its recent seminars on the strategic use of information technology (IT). Last year, LASPAU conducted seminars online over a one- to two-month period and at Harvard University for the final three days. The 33 participants learned the basics of telecommunications, followed by an in-depth study of the managerial and academic aspects of integrating technology into their organizations or universities.

"Our participants are higher-level administrators (deans, presidents, department heads), and most are at a critical juncture in their decision-making process vis-à-vis allocation of resources for technology," says Winthrop Carty, senior development officer for new programs and technology initiatives. "We help them focus on the issues impacting their choices."

In the online segment, participants studied the fundamentals of technology, research databases, and distance education while the on-site component at Harvard focused on the strategic elements. They used the traditional Harvard case study method to examine problems and discuss theory on how to use technology. Sessions were made as practical as possible so that participants could develop proposals to implement when they returned to their home universities to help upgrade the use of information technology.

"We find that our case-based approach encourages the melding of current theory with peoples' here-and-now problems," said Carty.

"In one case," recalls Carty, "a woman from a Brazilian university drafted the justification for the cost structure of her new distance education program, which, she informed us later, was approved by her university's rector (president) the week after she returned."

The IT seminars come at a time when the stakes for implementing technology in LASPAU's Latin American universities are very high and the challenge daunting. In the latest issue of Informativo, Carty points out that "Latin American public higher education is vulnerable from both within and without." He says that only the most advanced institutions in Latin America have invested in the training and infrastructure necessary to provide their faculty, librarians, and administrators with the tools to become information literate.

Pari of the battle also transmutes resources. Put simply, Carty says, "Latin America's universities need to accept very new ways of doing things."

But the situation is more complicated because the higher education system in the region is much more politicized than that of the United States. University leaders are often forced to be politicians first and administrators second, which impedes development of technology. In many cases, the public institutions have become what Carty terms "strike-ridden, overcrowded, and poorly run." This leaves students to migrate to new private universities as confidence in the public system is further eroded.

Carty sees the role of LASPAU and its partners as critical to helping Latin American institutions of higher education succeed internally and at the national level. His commitment to technology initiatives also includes involvement in the Aragón LASPAU Distance Learning Project, which delivers courses and seminars from U.S. universities to Buenos Aires via state-of-the-art communications technologies. Aragón, S.A., is Argentina's largest infrastructure construction company. In 1962, it established Fundación Aragón to promote access to higher education for Argentineans by distributing information on overseas graduate study and scholarship opportunities. LASPAU's role in the distance learning project is to identify the most appropriate courses and seminars from U.S. universities, negotiate costs and delivery schedules, and help students secure academic credits.

It will take all of these efforts and much more to effect needed changes in Latin America. As Carty says, "The clock is ticking as the local demand for more and better education grows. Latin American universities must depoliticize their governing structures, embrace bottom-up innovation, and build institutional links at the national, regional, and global levels."

And LASPAU will be there to help. Kenneth Keller, chair of the board of trustees, recently spoke of LASPAU's abiding mission. "We seek to provide access to learning opportunities for all people, cutting through conventional barriers with innovative programs and mounting outreach...to help the region reach its highest potential through education."
President Bill Clinton called the diverse student population at CSU-Northridge "the symbol of California's future," when he spoke on campus in 1995, "because of the educational opportunities open to all kinds of people from all walks of life and all different backgrounds here."

This is a very special community of learning, set in a resilient and battle-tested region. President Jolene Koester reports that since her appointment in July, she has learned much about the "strength and commitment of this institution to its students and community."

One of her primary goals as president will be to align the University more closely with the needs of the surrounding community, she says, and to forge closer bonds with the alumni of Cal State-Northridge. "We are proud of the increasing success and prominence of Cal State-Northridge alumni in the community and will make a stronger effort to involve them more fully in the life of the University. As many higher education institutions have discovered in recent years, alumni are an essential resource who are as important to the vitality of a university as its students and faculty, its facilities and classrooms."

Located in the San Fernando Valley of suburban Los Angeles, the institution was founded in 1958 and is situated on a 353-acre campus. The total student headcount is 27,948, with 20,474 full-time equivalents—21,560 undergrads and 6,387 graduate students. The average undergraduate age is 24.3; for graduate students, 34.4. Women are 60.2 percent of the student population. Approximately 25.8 percent of the student body is Hispanic.

Cal State-Northridge ranks 14th in the nation in the number of bachelor's degrees awarded to Hispanic students and 78th in the number of master's degrees conferred on them. The student population is also 13.1 percent Asian American, and 74 percent African American. The institution offers 48 bachelor's and 59 master's degrees.

Prominent among the alumni, of whom President Koester speaks so proudly, is comedian and actor Cheech Marin, Metropolitan Opera singer Carol Vaness, Hilton Hotel Corporation President and CEO Stephen Bollenbach, and Pulitzer Prize-winning journalist Frank del Olmo. Astronaut Scott Horowitz and Olympic athletes Bob Samuelson and the late Florence Griffith-Joyner. Star Trek: Voyager producer Jeri Taylor and actress Debra Winger are also on the roll.
as is MGM Chair Alex Yemenidjian.

Faculty members number over 1,700, and the staff adds nearly 2,000 employees. Eight faculty members in the University's short history have been awarded the prestigious Guggenheim Fellowship for research and creative activity. From 1982 through 1998, 20 CSUN faculty from 13 departments received Fulbright awards to conduct research and teach abroad. A survey of a random sample of students taken in fall 1998 showed that 86 percent of students were satisfied with their overall experience at CSUN and 87 percent were satisfied with the quality of instruction overall. During 1998-1999, CSUN awarded 3,975 bachelor's degrees in 51 disciplines and 834 master's degrees in 44 disciplines.

Part of the 23-campus California State University system, Cal State-Northridge is the only public university located in Los Angeles' San Fernando Valley. (If incorporated, the area, with its 1.6 million residents, would be the fifth largest city in the United States.) CSUN celebrated its 40th anniversary in 1998-99, having educated more than 130,000 students. The University mascot is the Matador, which pays tribute to the region's Spanish heritage.

The main Northridge campus covers 353 acres and has about two million square feet of facilities, including two dozen major buildings and more than 100 buildings in all. Campus physical assets are valued at more than $615 million. The Delmar T. Oviatt Library is the heart of the campus, with more than one million volumes. It is the first library to retrieve books from storage using a computer-automated system. Any stored book is available within minutes of the request. CSUN also operates a satellite campus in adjoining Ventura County.

During fiscal '97-'98, the University and its auxiliaries had total spending of $321.6 million. CSUN is one of the largest higher education institutions in California and the third-largest public university in Los Angeles County, after UCLA and Cal State-Long Beach.

In fall 1956, the San Fernando Valley campus of the Los Angeles
State College of Applied Arts and Sciences (later Cal State-Los Angeles) was established on the present Northridge site. Soon after, the state legislature passed a bill providing for the campus to separate from its college. On July 1, 1958, the founding date of the present university, the institution became San Fernando Valley State College, with about 3,300 students and 104 faculty. On June 1, 1972, the college was renamed California State University-Northridge by action of the state legislature and the board of trustees of the California State University.

Although the school sustained $390 million in damage in the 6.8 Northridge earthquake of January 17th, 1994, it reopened for spring classes only four weeks late-a mere two weeks after the scheduled start date. CSUN had sustained the most damage ever inflicted on a university by a natural disaster. The quick reopening was possible, in part because dedicated administration members, staff, and faculty worked in open fields and tents to prepare temporary buildings and make countless major adjustments.

"The University has shown remarkable agility throughout its history in embracing change and meeting challenges head on," President Koester says.

Post-earthquake construction is resulting in one of the most modern university campuses in the U.S. There are new and renovated buildings featuring state-of-the-art facilities wired to capitalize on today's electronic communication technology, and to comply with revised building and safety codes and the Americans with Disabilities Act. Recently, Harry E. "Bud" Rizer, nationally known expert in the field of assistive technology for people with disabilities, was named director of the Center on Disabilities at Cal State-Northridge. The Center, said Rizer, "has contributed greatly to the mission of focusing international attention towards the issues of disability and technology, and this effort must continue."

Cal State-Northridge enrolls one of the largest numbers of deaf and hearing-impaired students of any American university, averaging 230-250 a semester. This is thanks to its extensive support services, which include note-takers, tutors, and interpreters. These students are "mainstreamed": they take full part in the University's daily life. So are other disabled students, who also receive services tailored to their needs.

According to a National Science Foundation study, Cal Northridge ranked first among 520 similar universities in the number of graduates who went on to receive Ph.Ds in the social sciences and psychology. The institution ranked second in mathematics, and among the top 12 in biology, computer science, engineering, and physical sciences. The University's Music Department is recognized as the flagship among state university Music Departments in California and is among the best-regarded in the country. Other highly rated departments include Communication Disorders and Sciences, Chicano/a Studies, Accounting, Geography, and Health Sciences' physical therapy program.

CSUN's chapter of Phi Beta Delta, the Honor Society for International Scholars, was recognized as the outstanding chapter in the Western Region and overall best chapter in the U.S., at the most recent national conference. In the area of diversity, the journalism department ranks ninth nationally in the number of minority students it graduates. Student journalists on campus radio station KCSN-FM have won more than 325 awards, including 39 prestigious Golden Mike Awards from the Radio & Television News Association of Southern California, and honors from the Associated Press and the Corporation for Public Broadcasting.

The student newspaper, the Daily Sundial, wins between 10 and 20 awards annually from the California Intercollegiate Press Association. New Times magazine has named CSUN as "the place to find L.A.'s best Chicano theater - ¡Teatro si!" Because movie, television, and music studios are close by, the University established an entertainment industry institute and interdisciplinary programs to prepare students for industry careers. The Radio-Television-Film Department gets 600 calls a year from entertainment industry companies requesting Northridge students for internships.

The first Central American Studies Program (CASP) in the United States has been developed for California State University-Northridge "to meet the needs of a dynamic and growing community of Central Americans, who are projected to number more than 2.5 million by the year 2010."

CSUN ranks 10th in the nation in the number of bachelor's degrees awarded by four-year colleges and universities to Hispanic students, according to a survey conducted by The Hispanic Outlook. The results, published last May, indicate that 714 of the 3,783 bachelor's degrees awarded by CSUN went to Hispanic students-438 to females and 276 to males.

"We have made a great deal of progress over the last few years," said Gerald Reséndez, chair of the Chicano/a Studies Department at CSUN. "We have a ways to go, but the number of Latino faculty, the number of administrators, and especially the number of students, have increased dramatically. The administration has supported and encouraged our efforts to increase the outreach and recruitment of Latino students and has encouraged the development of solid academic programs. And, our students have been encouraged to go into any major that they wish, knowing that nothing is off-limits to them.

"We feel very optimistic about the future."
USF Hispanic Grads Up, Up, and Away

Off to Grad School: Two Engineers, One law Student

BY JEFF SIMMONS

¡Sí, se puede!

Think College
Discover USF

USF University of South Florida

The billboards were posted around Tampa last year. They weren’t flashy. Instead, they displayed two young faces, one with a backpack slung over his left shoulder. And emblazoned beside them was the catchy slogan: “Sí, se puede!”

That’s exactly the sentiment that Elsi and Julio Rodríguez wanted to convey when they agreed to be part of the campaign by the University of South Florida. The siblings overcame significant obstacles to attend college and want other Hispanic students to realize that they can follow in those footsteps.

“It means so much to me when people come up and say that I probably worked hard and that it motivates them,” Elsi Rodríguez says. “When people tell me I somehow motivate and inspire them to continue with higher education, that’s the best present and satisfaction I could get.”

Elsi and Julio, and classmate Miguel Collazo, were graduated at the top of their class this spring. The trio says that what provided the extra lift they needed to seek postsecondary studies was the University’s Latino Scholarship Program.

By December, the program, which will celebrate its 10th anniversary next year, will have 61 alumni. More than $525,000 in scholarships have been distributed, and that amount will grow to $650,000 by the year’s end. Support has come from endowments established through pledges, will bequests, and insurance policies.

The program awards not just financial but moral support to needy students. This spring’s graduating class included 16 recipients, 10 of whom graduated with honors. All were of the first generation of their families to complete college.

“The scholarships let them know that their community is behind them,” says Donna Parrino, director of the Office of Latin Community Advancement. “It wants to see them succeed.”

Recipients have to meet certain criteria. For example, they must be bilingual—because the program’s mission is to increase the number of bilingual professionals in the region, state, and nation. They must maintain a 3.0 GPA or better, and live within the seven surrounding counties.

“Beyond that, we look for students who, despite socioeconomic factors, have some stability in their lives. Because that’s a factor if they are going to succeed. We provide all of the support we can during the down times.”

The University has watched its Hispanic student population steadily climb in recent years. Last fall, the University enrolled 805 Hispanic students, a jump of 180—or 20 percent—from 625 the previous year. It’s that climate of inclusion that has made their experiences all the more valuable, they say.

Elsi Rodríguez

Elsi Rodríguez was the first in her family to apply to college. Like her brother, she was born in Tampa, but the family moved to Mexico City for five years while the two were in elementary school.
Shortly after the family returned to Florida, her father, Julio Rodríguez Gallegos, died, leaving behind his wife, Esther, and their three kids.

On weekends, Elsi and her brother toiled in their father's large carnation fields, planting seeds, irrigating the fields, and eventually selling the flowers. They later picked oranges, tomatoes, and strawberries and, during summertime, piled sod in pallets. She didn't have many opportunities. Elsi viewed the work as a way to make ends meet and to support her family. She dreamed of providing her mother with a more spacious home someday.

"The toughest obstacle in my entire life was my father's death," she says. "I was 12 and Julio was 11 and our little sister was two years old. That was very hard for us. For some time, we couldn't understand it, and I couldn't understand why it had to be that way."

Her father's death and her mother's insistence that the children remain in school were constant influences. Her father had taught her that hard work reaps rewards, and Elsi was a stellar student in school, despite spending the hours afterwards working.

"My mother is very motivational, very inspiring. She always wants us to do our best, and she always tries to provide the best for us," she says.

"Every time I feel a bit down, like I can't do it anymore and think I can't succeed, I think of my mother. I will do this for her and my brother and my sister. I know they will be proud of me. My family is my main inspiration," she says.

Occasionally, Elsi modeled and acted in high school, hoping to be a theater major at the nearby university. Word of the scholarship award signaled her ticket to higher education.

"We were very, very happy," she says. "We really didn't know anything about scholarships. Counselors at the high schools really need to work on that. No one at high school gave me advice on how to really look into scholarships and grants."

"I feel we were really fortunate to have Donna call us. We were in tears. That meant we could both go to college. We didn't have to make a tough decision about who was going to go. It was a turning point human factors, an ergonomic track that she felt was much more 'people-oriented.'"

Associate Professor Anita Callahan, acting associate chair of the Industrial and Management Systems Engineering Department, calls Elsi one of the hardest working and most committed students there. She would help others at USF in math, calculus, statistics, and Spanish.

She also worked with younger students on Saturdays, often taking part in arts and crafts and occasionally offering advice about college.

The Rodríguez siblings became active in Hispanic groups on campus, most prominently the Society of Hispanic Professional Engineers, of which Julio was president and Elsi vice president.

"I always wanted to be a leader," she says admitting that her own good-natured sibling rivalry forced her to be a better student. "We were close to the point that at times when we'd think about how well eventually he would do, we'd think about how we'd do. It was a tough decision about who was going to go."

At home, the two older siblings would encourage their younger sister, Elizabeth, to start thinking about college, even though she was only in the 8th grade. But graduation nevertheless meant that they would be leaving her behind.

Over the summer, Elsi traveled to Albuquerque, New Mexico, to work in an industrial engineering position for Sandia National Laboratories; the firm will pay her tuition in exchange for one year of employment.

This fall, she is attending Purdue University in West Lafayette, Indiana, in hopes of earning a master's degree concentrating on human factors ergonomics.

"It was very hard to leave my house," she says. "I was sad, but I also was happy to know that I was going to a place to gain more knowledge and I was able to be a part of a team, a part of a group. I was able to be a part of a team that was making a difference."
Julio Rodríguez

Like his sister, Julio Rodríguez names his mother as a key inspiration that influences his actions—and that's why he's settled on buying her the house.

"She struggled a lot to pull through since my father passed away," he says. "She was a single mom, and I just want to repay her for all of the work she has done to raise us."

Their mother, Esther, adores her home and doesn't want to leave. But Julio says that with his college degree, he should soon command a good enough salary to provide his mother with more spacious surroundings.

"We can decorate the house her way, very cultural. She really likes to have Mexican decorations," he says. "We don't want her to have to worry about anything."

Julio, who is 23 now, admits he didn't think he'd have to worry about bringing home a paycheck. After high school, he was ready to join the workforce and didn't figure on college playing a role in his future.

But then, somehow, he got accepted into college. Even though he didn't apply.

His big sister did that for him.

"I look back on it now, and it's pretty funny," Julio says. "I came home and my sister was like, 'You've been accepted.' I was like, 'What are you talking about?' And she said, 'I applied for you, you've been accepted, and you are going to college.'"

"I really thank my sister. She's been a major turning point in my life. I didn't know about the opportunities that were available, the help that was given to minorities and Latino students. In high school, it was like you had to finish school and get a job."

Elsa is a year older than her brother, but the two wound up in the same grade. When they were in elementary school in Mexico, Julio was bumped up to third grade because of his high intelligence. Still he wasn't sure whether college was for him.

He landed at USF unsure about what he wanted to pursue. He said he consulted friends, his sister, and some professors to get a better sense of direction. His curiosity was piqued by criminology, but eventually, required science courses led him down a different path.

"I said, 'Why don't I try a couple of engineering courses. I liked engineering'—have come without much-needed respite. He would take weekend trips with friends, and carouse at clubs. "I made sure to take some time off so I didn't stress myself too much," he says, adding, "The most valuable things I gained were lifetime relationships."

He wishes that Hispanic students understood how college should be a priority, but one in which they don't sacrifice other aspects of their life. "A lot of them are going to think that if they go to a university, they will not have time for fun. I tell them you meet so many other people, in the end it's very rewarding," he says.

Like his sister, Julio will pursue a master's and for him, the sky's the limit: his concentration will be in aerospace engineering. He wants to work on a space shuttle for NASA and this summer worked on aircraft engines for the General Electric Company in Cincinnati. GE will pay for his degree while he works there.

"There are so many opportunities, it would be a waste not to take advantage of them," he says.

Like his sister, he views the "Sí, se puede" billboards with pride. "We wanted to show the Hispanic community, especially around Tampa and the University, that it is possible," he says. "The community saw two Latinos face up there and said, 'Wow, look at these guys. They've done it.' I hope it's inspirational to them to continue their education."

Miguel Collazo

Miguel Collazo achieved a stellar academic record: he graduated with a cumulative 4.0 GPA.

His Cuban-born parents were poorly educated, and moved to Florida in 1967. He was born six years later, the son of a homemaker and a sod installation supervisor.

In high school, he wasn't in the top 10 percent of his graduating class. In fact, he failed several English classes, actions that caused his motivation to dwindle. He vowed to work harder if he went to college.

His parents strenuously urged him to attend college, saying they always wished for similar opportunities while growing up. "They had been struggling with language, and they didn't have enough money back then to attend college," he says.

One of his closest options was the University of South Florida, became his best option for financial reasons. It was six miles from home, and a public school where tuition was cheaper. He also said it had a good reputation in the community, and that he could live at home to save money.

"It wasn't like I was settling for anything," says Miguel, who also wanted to play his instrument, the French horn, for the school's marching band, the Herd of Thunder.

The scholarship program provided him with financial help, but also a moral lift. His sponsor was a local doctor, Adrienne García, who worked with the H. Lee Moffitt Cancer Research Center. Miguel says she was a mentor who encour-

Summa Cum Laude graduates, Gil Brito (l) and Miguel Collazo (r), are congratulated by the Dean of Arts and Sciences, Dr. David Stamps.
aged him to thrive.

"She was a very motivating person. I would call her at home, and we would talk about my future plans," he says. "She was very helpful in generating certain leads and meeting different people."

During his stay there, he played with the band at school football games and recorded a CD with the band during an outdoor concert. He also helped to revive the school's Senior Honor Society and served as its president.

Unlike Julio, he admits to sacrifice. "I had to give up evenings of fun," he says. He also worked at a local Pizza Hut to make ends meet.

Miguel, who graduated with a degree in English, says that graduation day will forever be etched in his memory. Graduates lined up at the University's sun dome during a sparkling day. His parents and sister were there to watch him receive his diploma.

Yet, he admits to an odd sensation.

"It was very anti-climactic. After four years of hard work, blood, sweat, and tears, then you graduate one day and it's over and they send you home," he says.

Like the Rodríguez siblings, once is not enough for him. He is now pursuing a law degree at the University of Florida. He received Florida's Minority Participation in Legal Education Scholarship to attend. He doesn't plan to stop there, harboring dreams of delving into city planning to "give back to the community."

Miguel spent the summer traveling and working. He earned extra cash as a telemarketing supervisor for a life insurance company. He also traveled to Barcelona and Madrid for vacation.

"I think a lot of people go to college nowadays for a piece of paper they get at the end which will help them get lots of money. The goal these days is to get a job," he says. "I highly recommend college not just for Latines but for all students. But they should go for personal growth."

"There would be a missing gap if you went straight from high school into what people call the 'real world' with a career and family. You need to spend some time finding out who you are. If you go to college, you can learn some pretty valuable things along the way."

- Take on leadership roles and become a leader. It helps you in the professional arena, gives a person much more confidence, helps inspire other students, and motivates them to get involved.

Miguel Collazo
attained a stellar academic record:
be graduated from
USF with a cumulative 4.0 GPA
and is heading for
Law School.

ENGISH MAJOR
MIGUEL COLLAZO

SUCCEEDING IN COLLEGE

“And she said, I applied for you, you’ve been accepted, and you are going to college.”

ENGINEERING STUDENT
JULIO RODRÍGUEZ

“No one at high school gave me advice on how to really look into scholarships and grants.”

ENGINEERING STUDENT
ELSI RODRÍGUEZ

ADVICE FROM JULIO

- Set goals that you want to achieve. You need to see what you really want. Priorities are important.
- Stay focused on those goals and don’t lose track of them. There are going to be hard times, ups, and downs during your college years, so stay focused.
- Never forget your background... because you are not going anywhere if you forget where you came from.

ADVICE FROM ELSI

- Continue to enhance your education.
- Get involved in different organizations. That is one of the key ways you can really get involved and help your community, have a lot of fun, meet a lot of people, and network.

ADVICE FROM MIGUEL

- Prepare financially, even if you must take out loans. In the long run, it's worth it.
- Prepare emotionally because you are going to have a lot of long-held beliefs challenged.
- Prepare spiritually because you need to have motivation to get you through.
Laura Barracough was having a tough time concentrating or even going to her classes at the University of California (UC) at San Diego. She was struggling with a personal problem that weighed heavily on her mind. She eventually found solace and support at the Cross Cultural Center on her campus in La Jolla, Calif.

"The support the staff and my coworkers gave me helped me get through that," said Barracough, who became a special and educational events intern at the Center. "In so many ways, we were like a family. They were the people I went to when I had personal or family problems. It was more than a workplace. The Center itself was a place for emotional support."

Barracough, who graduated in June and now works as an office assistant at SONY PlayStation in San Diego, is a good example of how a college cultural center can increase the retention and academic success of students, particularly underrepresented ones at predominantly white campuses. Cultural spaces such as the Cross Cultural Center at UC provide a place in which students from these groups, as well as the greater campus community, can find support and enrichment that leads to student retention and success, say center proponents. Still, while more and more schools across the country are opening up these centers, many of the centers remain understaffed and underfunded.

Barracough, who is white, said that the Center offered her and any student who was willing to walk in and participate wonderful opportunities.

In addition to networking at the Center, Barracough said she gained a lot of programming experience. "The programs I put on helped me learn a lot about other cultures."

Robert Lennox, facilities management intern, also from UC-San Diego's Cross Cultural Center in La Jolla, Calif., said it is difficult to quantify with any degree of certainty how many students stay on a campus or improve their grades significantly because of the programs that a multicultural center offers, but he said the centers tend to raise the students' comfort level, which is key in improving retention and academic success.

"You can't annotate that this many students stayed because they went to this Center or that their GPAs went up," Lennox said. "The Center does help them, and the reason we know this is because the people tell us. The students tell us that the Center made them feel accepted on the campus. We hear that a lot. More people of color leave a campus not because they are on academic probation but because they don't feel comfortable on campus."

People interviewed for this story said there is
Eduardo Sánchez, assistant director of the Office of Minority Affairs and the Multicultural Center at Grand Valley State University in Allendale, Mich., said that his university has 18,000 students and about two percent of the population is Latino at the school even though the Latino population in the surrounding communities stands at about 26 percent. He said the Center was created more than a decade ago to diversify the university. One of the major projects that the Center undertakes is to offer 25 full scholarships each year to incoming first-year minorities pursuing teaching, science, or business degrees. The Center also provides orientations, guest speakers, bridge courses, and tutoring, and helps the students arrange student groups.

"It's easy to get them here," said Sánchez. "The challenge is keeping them here." He said that some 240 minority students participate in Center activities and that the retention rate of those students is 92.7 percent. Also, he said that the students pursuing teaching degrees and participating in programs in the Center garner job contracts long before they graduate, as do many of the students pursuing business degrees. He credits much of the success of the Center to the university's president, Arend D. Lubbers, who he said has been very supportive of the Center's mission.

Sánchez said he believes it is important that multicultural centers be inclusive, that they not isolate minority students from other students on campus but rather try to bring all students together so they all learn about one another.

"We have to teach the students how to deal in the Anglo world, and the only way to do that is by not isolating them," Sánchez said. "As one of my students put it, 'We all have to kill fleas. We just each have our own way of doing it.'"

Sánchez said he believes the Multicultural Center has to be very responsive to students' needs but not so much so that the student does not become self-reliant. For example, Sánchez said he is more inclined to teach a student how to talk to or negotiate with a professor rather than intervene himself with a professor on behalf of a student.

"If a student has a problem, it's now and not a week later," Sánchez said. "They don't have to make an appointment with me. We can sit down and talk about things. We don't solve their problems. I tell students that they have to do that for themselves."

Also, centers face the challenge of making sure all groups represented are treated fairly. Sánchez said that his office sometimes must contend with certain student groups who are unhappy with activities planned by the Center or less favorable dates for their own activities, such as at the beginning of the school year when it is difficult to plan a major activity quickly.

Guadalupe Corona, assistant director of student activities and staff member at the United Front Multicultural Center at the University of San Diego in California, agrees with Sánchez that multicultural centers should be open to all who are interested in entering.

"The goal is to get everyone to learn about other cultures and learn more about their own," Corona said.

Corona said her school's Center was created four years ago because of student demands for such a center.

"Its creation validated the University's effort and commitment to diversity by providing resources, staff support, and programming," Corona said. The facility has a library, conference room, and cubicles for students and staff to do their work. Corona describes the Center as student activities-focused but said it also is a place where students can have their school papers reviewed, learn study techniques, and hone their writing skills. The Center is a place where students can "hang, study, eat, sleep, and study."

She sees her role at the Center as that of a mentor. "Anything that has to do with their success, I'm there for them," Corona said.

Her center offers a variety of programs, including sponsoring regular discussions on diversity issues.

"This is a safe place to have those discussions," Corona said. "We've had a very positive outcome
with those conversations. It's very eye-opening for all the groups involved. It's important to have those conversations because the students may experience the institution very differently.

The Center also provides training to student leaders throughout the campus through its human relations program. Students address issues including classism and gender.

"The program gives them more skills to create change in their own organization and address the difficult issues within their organizations," Corona said. The Center also sponsors training on hate crime prevention for students, faculty, and staff.

Her university has 4,000 undergraduates and 2,000 graduate students and is a small, private Catholic university. About 15 percent of the students are Latino. Her office is dealing with a great deal of success and interest in their program offerings. All of the work is carried out by one administrator (Corona), two graduate assistants, and an undergraduate work-study student. Eight faculty advisors also assist on different projects, as do special projects coordinators, but the work continues to grow, as do the needs for the Center. Corona said that in the future, she would like to see an ongoing video, book, and lecture fund, a fax line just for the Center, a lecture hall, a kitchen, a multimedia computer lab, and more competitive pay to offer graduate students helping carry out the work.

"We're outgrowing ourselves very fast," Corona said. "We need more staff to support our students."

The Center also offers peer counseling, speakers, parties, community activities and outreach, and a variety of other programs.

Lennox, who is African American and Native American, said the philosophy at the Center is that it sometimes must also reach out to the campus community rather than just open its doors.

"We try to go out to the campus rather than just say, 'Oh, you can exist.' Outreach has helped quell opposition some students expressed about the work of the Center. Some students had even thrown rocks at the facility, she said.

"A lot of white students don't feel welcome there, but if they just went into the Center, they would be welcome," Lennox said. "We realize it's important for the campus climate."

Barraclough said that outreach was vital since some students who had graduated indicated in surveys they did not even know the Center existed. Outreach has helped quell opposition some students expressed about the work of the Center. Some students had even thrown rocks at the facility, she said.

Creating a Generation of Public Intellectuals

Pew Trust Helping Fund Hispanic Theology Ph.D.s

BY GARY STERN

Though Hispanics are the fastest-growing minority in the United States, and though many Hispanics are religious, the number of Latinos who have gained doctorates in religion and theology is surprisingly low. Some experts consider that Hispanics face a crisis in religious leadership unless more programs such as the Hispanic Theological Initiative, a well-respected scholarship program, are instituted to increase Hispanic doctorates in religion or theology. Fewer than 100 Latinos nationwide have earned doctorates in religious studies, according to Dr. Zaida Maldonado Pérez, director of the Hispanic Theological Initiative, based in Princeton, New Jersey.

Why, if so many Hispanics are religious, are there so few who earn higher degrees? Finances are at the root of the dearth, replied Dr. Pérez.

“How can an Hispanic gain a doctoral degree and support a family?” she asked. Without gaining a grant or scholarship, most Latinos are unable to afford the cost of a doctoral education while not earning a full-time salary. Studying for a Ph.D. in religion can cost $50,000 a year and can take three years for a master’s degree and four to five years for a doctorate. Since most people who advance to doctorates in religious areas are middle-aged with families, it is problematic. But finances are only one impediment along a difficult route for Hispanics interested in earning doctorates.

“Another major issue is the welcoming factor,” Dr. Pérez explained. “Many Hispanics feel alienated or isolated in a doctoral program. Often Latinos will be the only minority in the theology department. Very often, there are no Hispanic faculty on staff,” she said. Without role models, Latinos often might not feel empowered to earn a doctorate or have any mentor to show them the way to earn an advanced degree.

In addition to finances and alienation, the politics of the church have played a role in preventing Latinos from assuming leadership roles, noted Dr. Justo L. González, author of For the Healing of the Nations: The Book of Revelations in an Age of Cultural Conflict (Orbis Press, 1999) and retired professor of theology at Emory University.

“Many denominations have been controlled by immigrants who are not Hispanic. And so, there was little room for leadership for Hispanics,” he said, choosing his words carefully, not wanting to offend any particular ethnic group. Faced with the fact that Hispanics are the fastest-rising ethnic population, church leaders sense “that they have a mission to attract a growing population,” said Dr. González. Now most denominations have devised plans to increase the number of Hispanic ministries, translate religious material into Spanish, and reach out to Hispanics in new ways.

Having so few Hispanic religious leaders undercuts the Latino community, suggested Dr. González. “If you look at the barriers in New York or East Los Angeles, the only permanent institutions are schools, churches, and bars. Bars won’t help communities. Schools very often are not controlled locally. And most churches have not been led by Latinos.”

The result of having so few Hispanics earning degrees in theology weakens the Latino religious community of both Catholics and Protestants. “Religion is a central part of who we Hispanics are. We are deeply spiritual. The ministers and priests become key figures to help us understand our reality and world view. Because of the lack of Latino Ph.D.s, we don’t have people
to help us understand that reality from our own perspective and experience,” opines Dr. Pérez.

Having so few Hispanic religious leaders undermines Hispanic youth as well. Along with Hispanics being the fastest-growing minority, it is also one of the youngest ethnic groups. “We have such a high dropout rate in high school that not having role models aggravates the situation. Who’s going to be leading our people in religion? Religion touches upon ethics,” noted Pérez. “We have a great number of young people who have no one in the system to look up to and say, ‘You’ve made it,’” she added.

Noting the lack, the Pew Charitable Trust investigated creating a scholarship program to address the situation. In 1994, Dr. Edwin Hernández, program officer in religion programs at the Philadelphia-based Trust, inaugurated the National Survey of Hispanic/Latino Theological Education. The project surveyed the needs of Hispanic religious students and conducted focus groups to discover what was on students’ minds. The result, said Hernández, revealed that “financial assistance was primary and that we needed to create a community of support, including mentoring relationships. The environment was not supportive.” Pew Charitable Trust provided a $3.3 million grant to create the Hispanic Theological Initiative (HTI), covering five years and up for renewal at the end of this year.

Integral to the HTI scholarship was the “partnership” established with religious institutions, noted Hernández. The scholarship aims to provide additional funding for a student, but the university or religious institution must agree to finance tuition. All participating institutions have agreed to this funding. “We wanted institutions to become more accountable to these scholars by matching resources,” he said. “The award must be used as the student sees fit—but not for tuition,” Pérez emphasized.

Students majoring in religion or theology and with a 3.5 undergraduate index can apply for a scholarship, which is based on their academic standing, commitment to the community, academic potential, and a written essay. Scholarships are granted for either master’s level, doctoral, or postdoctoral study, offering $6,000 total for the master’s, $12,000 a year for two years for doctoral students, $4,000 for one-year for dissertation awardees, and $8,000 to $15,000 for postdoctoral awardees. The scholarship actually pays for expenses while the university grants tuition. Scholarship winners at the master’s level must show an interest in advancing and earning a doctorate and not stopping at a master’s.

Without her HTI scholarship, Carla Roland Guzmán says that she would have been unable to finance her graduate education, studying for a combined Master of Divinity and Master of Arts degree at the Church Divinity School of the Pacific in Berkeley, Calif. Her advanced degree is fulfilling her ministry requirements in the Episcopal Church.

“The HTI scholarship,” Guzmán said, “has not only been a blessing financially but has provided many opportunities to interact with Latinos who are pursuing careers in areas of religion/theology. The networking opportunities have been invaluable and have helped give perspective on the isolation of being one of two Hispanics in a program of nearly 130 students.”

Having more Hispanics gain doctorates in religion and theology will strengthen the church and bolster the role of Latinos within it, Guzmán suggested. Hispanics, she said, “have a broad perspective and can be bridge builders. Also, the Hispanic population is growing in the U.S., and our voice needs to be heard in academic circles and in the leadership of the church.” Upon gaining her doctorate, Guzmán expects to continue the ordination process in the Episcopal Church of Puerto Rico. The HTI program offers “a holistic approach” to helping Hispanics earn advanced degrees in religion without offering “a quick fix,” Guzmán said. “It’s not a financial band-aid. It takes into account the multidimensional aspects of ministry and academics and does not isolate them from each other,” said Guzmán.

Pivotal to helping any scholarship winner
succeed at school is a summer workshop run by HTI that every scholarship winner attends. A student is assigned a mentor who will help the student navigate the classes. Attending the workshop are editors from academic presses who offer advice on how to write a doctoral thesis and what kind of writing can turn a thesis into a book. Students also learn teaching skills, how to prepare a syllabus, and how to organize a class. Doctoral students can help guide master's students, and networking is encouraged.

Since HTI’s inception, 159 Hispanic students have earned scholarships and advanced to higher degrees. Dr. Pérez sees the Hispanic Theological Initiative scholarship as a “wake-up” call to higher educational units offering degrees in religion and theology: “We’re trying to change the face of academia through diversity. If Latinos are going to be the largest minority community, then academics have to be able to prepare student ministers to teach in a diverse community. The scholarship is about teaching everyone, helping to prepare very intelligent and committed Latino scholars to go out and make a difference in academia,” Dr. Pérez said.

Though Pew Charitable Trust is undergoing a formal evaluation of HTI, Dr. Hernández considers the “program a phenomenal success.” He called it a “model program” because it provides funding and mentoring, and creates a community that overcomes feelings of alienation and marginalization, the predominant feelings that often hinder Latino students in doctoral programs. By having more Latino students earn advanced degrees in religion, a “pipeline” is established, he said. “The person through scholarship and writing will have impact on the larger church in which they’re involved, and their presence will help shift the curriculum. A greater number of students will then be attracted” and follow in their footsteps, he said. “The church has been the glue for sustaining the identity, attending to the needs of the community,” he added.

The HTI program has had a ripple effect on increasing the number of Hispanic theologians, noted Dr. González. “In the next few years, the program will have doubled the number of Hispanics gaining doctorates in religion. It also plays a role as a clearinghouse, finding positions for people who finish,” he said. He added that every Ph.D. who graduates and becomes a professor will affect approximately 50 future doctorates a year, of which a certain number of students will be Hispanics. Having more Hispanics as role models in doctoral programs will lead to extending the welcome that previously wasn’t there.

Most HTI graduates become scholars and teachers more than ministers and pastors. “Ultimately this program creates a whole generation of public intellectuals,” noted Dr. Hernández. “HTI is not only trying to produce more scholars but a different kind of scholar, a scholar who is more collaborative and more connected to the community. One thing that HTI requires is people who show commitment in the form of service to the Latino community,” concluded Dr. González.

---

**Brown University**

**Clinical Professor of Elementary Education**

Brown University seeks an outstanding teacher and teacher educator to serve as Lecturer/Clinical Professor in Elementary Education beginning, July, 2001. This is a 12-month position with teaching responsibilities during the summer and the school year. This is a three year renewable contract. The appointee must have at minimum a Masters degree, significant experience in elementary teaching and in the teaching and supervision of student teachers; an ability to work closely and productively with school and university colleagues; deep knowledge of the issues of elementary education, multicultural issues, and child development; significant awareness of current issues in school and teacher education, and special skills and experience in working with urban and minority populations. The deadline for receipt of application for this position is January 5, 2001. Please send a resume, three letters of reference, and a letter of intent to:

Yvette Nachmis-Baeu
Brown University
Education Department
Box 1938
Providence, RI 02912

Brown University is an EEO/Affirmative Action Employer. Minorities and women are encouraged to apply.
CHE Middle States about to Revamp Its Standards

Draft Expected before Year's End

BY
JEFF SIMMONS

It's a change prompted by the times, and it's taken months so far for 100 educators from across the country to study what needs to be done. The Middle States Commission on Higher Education is about to revamp its standards for accreditation.

"This is a major revision," says Jean Avnet Morse, executive director of the Commission. "We hope to be publishing a draft by the end of this year."

"Once we have the draft, there will be meetings all around the region, including Puerto Rico, to obtain members' comments." And the discussion will reach a feverish pace in December, when representatives from 500 or so institutions gather for the Middle States' annual meeting. They eventually must cast the deciding votes on whether to enact the changes.

Why such a focus on the changes? Because, according to Avnet Morse, the accreditation process assures quality in higher education, and focusing on high standards yields high results.

"We promote improvement by trying to involve the institution in deciding what improvements it wants to make," she explains.

Accreditation is essentially self-regulation and peer review, based on standards set by the educational community. Schools are evaluated as a whole: on everything from their mission to ethnic diversity to curricula, resources, administration, and facilities.

Colleges and universities voluntarily seek such endorsements, first applying for accredited status from Middle States or another agency. If they pass through accreditation, then they must consent to follow Middle States' standards while additionally following their own detailed agenda for improvement.

It's a process that has existed in the region since 1921, and in its current form since the 1950s. Middle States accredits about 500 institutions in Delaware, the District of Columbia, Maryland, New Jersey, New York, Pennsylvania, Puerto Rico, and the U.S. Virgin Islands.

The process allows a school to examine its strengths and weaknesses and involves an entire educational community in addressing goals. The process is multitudinous and brings not only administrators, but faculty, staff, and students into the fold.

The benefits are a promising draw: accreditation boosts the public's confidence in a school and helps students transfer credits between institutions. It also helps some students survive financially because the U.S. government mandates that only those in accredited institutions are eligible to partake of the federal tuition assistance programs.
"We are a gatekeeper for the federal government so that an institution's students are eligible for federal loans only if it is accredited by us or another gatekeeping institution," Annet Morse says.

Founded in 1919, the Middle States Commission on Higher Education is one of eight regional accrediting commissions that work with postsecondary institutions. It has made a concerted effort to maneuver inroads into the Hispanic community. Currently, it has 43 member schools in Puerto Rico, the most ever in that region since the first was accredited there in 1944. Four others are seeking accreditation, and five more are testing the waters and seeking information on the process. As of this date, the accredited schools on the island enroll 146,000 students and employ 11,000 faculty.

"Accreditation sets the bar on standards that institutions in Puerto Rico want to reach," says George Santiago, Jr., one of the Commission's four executive associate directors. Santiago works with schools in Puerto Rico. "They look at our standards and strive to attain those."

Diversity goals that many institutions strive for on the mainland aren't normally among the chief goals among the schools in Puerto Rico. Almost all of their enrollees are Hispanic or speak Spanish. It's not something they end up striving for whereas with American institutions, diversity is a part of their mission and they try to bring in more Latino students and staff, Santiago says.

"For me, it's a privilege, being Puerto Rican myself and having a love for higher education, to be able to work with institutions in Puerto Rico," says Santiago, who often travels to Puerto Rico to assist schools in the process. "Being Spanish-speaking and Puerto Rican, the folks in Puerto Rico have embraced me, because they know that one of their own is in this position, and to be able to assist them—I am very proud of that. We work together to see what needs to be done."

The process to earn accreditation is not simple, and it is not swift. The standards have been developed and refined over the years by higher education institutions, and 24 members now sit on the Commission. All volunteers, they decide the status of institutions and have been discouraged."

**Openers**

The toughest barrier is that first process. Schools must first determine if they are eligible. They must have a charter or formal authority from a governmental agency within the Middle States region to award academic degrees. There must be a "clearly stated mission," a diverse governing board, and functioning organizational structure.

Applicants also must provide appropriate student services and adequate physical facilities and have clearly defined objectives for students to be able to receive degrees. They also must administer nondiscriminatory employment policies and be able to provide "complete" information on all aspects of the school.

The process requires schools to submit a plethora of documents to even pre-apply for review. For one, the schools must first take a close look at themselves, using a self-assessment blueprint that sets five-year projections and maps out a school's goals and objectives.

After that, Commission staffers visit the campus and decide whether the school is ready even to be a candidate for accreditation. If they receive that nod of approval, they must then go through a much more thorough probe. And they could remain candidates from one to five years.

**Achieving the Standards**

The Commission appoints consultants to work with institutions as they try to achieve the standards for accreditation. Largely, the standards depend on the type of school, but there are common themes that affect them all.

Among the standards that an institution should meet is a "responsiveness to the need for institutional change and renewal appropriate to institutional mission, goals, and resources." What it comes down to, simply, is a school's knowing its mission, backing it up with resources and a clear focus, and succeeding.

Of late, Puerto Rican schools have been paying more attention to development. Santiago notes that schools in Puerto Rico traditionally did not perform fundraising activities as frequently as did those in the states, but that the times have now changed all of that.

"Puerto Rico is not a very wealthy country, whereas you have a lot more money in the United States, so there are more corporations that institutions can go to seek external funding," he says.

There were legal obstacles as well to obtaining donations to shore up facilities and improve a campus. "There has been a law in Puerto Rico that in the past didn't allow..."
any incentives for people to contribute money," Santiago says. "It didn't allow for any tax deductions."

However, a recently enacted law allows a third of the donation to a college to be written off, leading Santiago to speculate that more institutions will focus on fundraising in their subsequent self-reviews. "That is definitely going to change the culture of development on the island," he says.

The Process

Amet Morse says colleges traditionally have focused on analyzing new enrollees, but more recently, she has noticed there is a greater emphasis on outputs, what students are learning once they are in school.

"That is a very important factor in which the public and students and institutions are interested," she says. "Middle States looks at the mission an institution sets for itself. So if it's important to that institution to be multicultural, then the visiting team will look to see whether it's achieving that goal."

That visiting team—a tenth of the schools get visited each year for the 10-year review—is comprised of evaluators from similar colleges. They visit the campus and pore over reports about the institution. If schools are not truthful in their documentation, they could put their accreditation at risk.

The consultants complete periodic reports and notify school administrators of progress, achievement, and weaknesses. It's these reports that depict whether a school is nearing its goals or falling behind. That helps a school with the next step: a self-study normally done 18 months before the final evaluation.

Students are a big part of that evaluation. Institutions must show that their admissions programs encourage diversity in the student population and that student programs meet the needs of a diverse and often international enrollment.

"One of our standards deals exactly with students and student life. We expect students to be part of the self-study process; we expect they will be polled to find out if they are satisfied with the programs and services they are receiving. Students are a critical part of this whole picture."

In what for many is the final leg of the process, educators from other schools—in a peer review—pore through a school's self-study and other background materials, and interview other faculty, staff, students, and administrators. A team chair summarizes the findings and makes a recommendation to the full Commission. Often, some follow-up reporting is required.

"Once they go through that process in the first place, they generally continue to be accredited, though there might be specific problem areas where we would issue warnings," says Amet Morse.

"Sometimes there are institutions that have had to really turn around, and sometimes there are institutions that use the process very well to set their goals, and it's very satisfying to see them fulfill them."

Earning accreditation isn't the final step. There's much work to do after that. Members must be reaccredited in a self-study process every decade and, in the fifth year after that, must undergo another periodic review requiring approval.

Santiago often travels to Puerto Rico to assist schools with the process.

"What I like most about the job is knowing that I am making an impact on the landscape of higher education in general and hopefully making positive contributions," he says.

"It's all about accountability and being true to what you say you are doing, and what you are all about."

Currently Accredited

According to the MSCHE, the following institutions in Puerto Rico are currently accredited. The Inter American University of Puerto Rico, Sistema Universitario Ana G. Méndez, and University of Puerto Rico include multiple campuses:

- American University of Puerto Rico, Bayamon Campus - Main
- Bayamon Central University
- Caribbean Center for Advanced Studies, Miami Campus
- Caribbean Center for Advanced Studies, San Juan Campus
- Caribbean University, Bayamon Campus
- Centro de Estudios Avanzados de Puerto Rico y El Caribe
- Conservatory of Music of Puerto Rico
- Escuela de Artes Plásticas de Puerto Rico
- Evangelical Seminary of Puerto Rico
- IPR Junior College Hato Rey, Main Campus
- Inter American University of Puerto Rico
- Sistema Universitario Ana G. Méndez
- University of Puerto Rico

Fernando Ferrer: A Visionary Leader
With an Eye on Education, Ethics, and Access

BY JOSEPH BECK

Improving lives and human faces are common threads that pepper Ferrer's speech. "A very important time was when we were forging the consensus for rebuilding troubled areas of the Bronx," Ferrer notes. "It's not brain surgery. We found that for the most part, people of all races and ethnicities want the same things—like safe neighborhoods, good schools, job opportunities, and safe parks for people to relax in and enjoy. Everyone involved had something to gain. This is why a consensus was formed rather quickly."

One of the first visible signs of change appeared in the windows of the dilapidated skeleton buildings that lined the Cross Bronx Expressway and other highways that snake through and around the Borough. Decals on the windows of empty buildings depicted shutters, plants, and curtains, as if to disguise the vacant buildings for travelers speeding by in their cars. The facade didn't last long, according to Ferrer.

"The decals project was a well-intentioned holding action that was meant to appear a little better than a vacant building," he noted. "Now, after the test of time, we have real windows with real flower pots in them and real people living the American dream."

Ferrer's vision for the Bronx and its citizens didn't materialize overnight. It was forged carefully and with consistent hard work. Ferrer, a native of the Bronx, attended St. Anselm's School and Cardinal Spellman High School, both in the Bronx. He earned his bachelor's degree at the Bronx campus of New York University and studied Public Administration at Baruch and NYU. He has received honorary degrees from Manhattan and Mercy Colleges and, in 1999, from Audrey Cohen College.

One has only to look at Ferrer's track record to see that he is no stranger to hard work. During his 13-year tenure as Borough president, Ferrer designed and implemented the single largest rebuilding effort in the country.

"When historians tell the story, it will not be about the devastation but its revival," Ferrer said recently, as he accepted the prestigious National Civic League's All-American City Award. "We are no longer the borough where New York City's problems are on display," he added. "We are the borough where New York City's solutions are on display."

When elected Borough president, Ferrer pledged to forge effective partnerships that empower communities while shaping a better future for the Borough's 1.2 million residents. While doing so, he restored confidence in government by demonstrating how entrepreneurial and inclusive reforms can create responsive, accountable, and effective public service.

His belief in the highest common denominators of people, his integrity, and honesty helped shape one of his first official acts. He introduced a strict code of ethics for all staff members—one that now serves as a model for other municipalities.

"All my staff members get asked an initial question," he says. "That is, why do you want to work for me? I prefer to work with intelligent people who are willing to work with government in a progressive way." Ferrer pauses and rubs his chin. "If a person is smart, and willing to do terrific things out of the box, that's the person for..."
my staff,” he added. “The hours are long, and it’s a tough job sometimes...but you can accomplish a lot with the right attitude,” he concluded.

Ferrer has accomplished a lot. Since his election, he forged the support of local to national leaders for such large-scale planning projects as New Directions for the Bronx and the Bronx Center initiative, for which he received the Regional Plan Association’s STAR Award.

Over the last decade, he has initiated and overseen the largest housing revival in the nation. Again, the human face appears in Ferrer’s comments about what is clearly a proud accomplishment for the people of the Bronx.

“Just think about that,” he stated. “We now have 64,000 new and/or rehabilitated housing units where some people for the first time in their lives have reliable heat and hot water and can call the place their own. I can’t tell you how great that makes me feel that I’ve been able to help empower people to navigate their own lives like that,” he concluded.

Ferrer’s commitment to reliable housing and good jobs is evident in the work he has completed. He believes that more than the citizens benefited from the work he and his staff tackle. The Borough itself benefited. Overall, the Borough witnessed an estimated $25 billion in new construction since 1990, helped by Ferrer’s commitment of more than $752 million in capital funding for residential, industrial, and institutional development, which helped to leverage additional government and private funding.

To spur business expansion, Ferrer lobbied Washington and won a $50 million lending authority program by the Small Business Administration, the only one of its kind in New York City, to make low-cost, fixed-rate loans available to enable small businesses to create jobs.

Not only has new housing construction stopped people from leaving the Bronx, but coupled with incentives for hard-working people to start businesses and find good-paying jobs, it has helped people achieve a lifestyle they are proud of.

Residents of the new Bronx are not only staying but they are starting families. More kids mean better education. Again, Ferrer stepped up to the plate.

For more than a decade, Ferrer has championed the cause of systemic reform of New York City education. In 1994, he established the Commission on Integrity of School Officials to expose school board corruption. It led to Albany’s massive school reform legislation in 1996.

In order for kids to succeed in the 21st century, computer literacy and access to the technology is vital, according to Ferrer. He has made it a priority. “We talked with the schools chancellor and agreed to work hand in hand in equipping every school library in the Borough with computers and Internet access.”

Ferrer formed a group of people, organizations, and companies, dubbed the Digital Divide Task Force, to work on providing Internet access across the Bronx to schools, businesses, and homes. His initiative will place high-speed Internet access in every school library in the Bronx.

Incidentally, the Bronx is the only borough to complete such an ambitious project. “This provides tremendous opportunities for the kids of our borough, and provides access to the information age,” he said. In addition, Ferrer concentrated on a little more fun, but has come at the expense of equally hard work, dedication, and drive. He led the fight to keep the Yankees in the Bronx.

In September 1998, Ferrer issued a report confirming most New Yorkers’ feelings about the future of Yankee Stadium. The only site on solid economic ground that serves the public interest is the legendary House That Ruth Built.

“Under the Yankee Village Plan in the Bronx, government investment in the Yankees would serve the public economic interest by providing an economic stimulus for the Bronx and, by drawing consumers to a regional shopping center, generating new sales tax by virtually creating a new marketing venue,” said Ferrer. His personal feelings about the park and The Yankees hasn’t wavered either.

“Who can say that sitting in Yankee Stadium with a hot dog on a sunny day isn’t a great thing?” he said with a smile.

Medical care is also a concern of Ferrer’s, and he tackles problems concerning it with tenacity. Ferrer led Health Committee hearings that uncovered serious problems in the Emergency Medical Service. It worked to improve the quality of health care to residents of the Bronx.

During his State of the Bronx address, Ferrer reported that The Crown Community Award honored the Bronx Health Link—a network of Our Lady of Mercy Medical Center, Bronx-Lebanon Hospital, St. Barnabas Hospital, Montefiore Medical Center, and 160 community-based organizations—that identifies and addresses the specific health needs of Bronx communities.

Ferrer said of the Bronx Health Link, “Today, more people, regardless of language or ethnic background, are getting quality health care in their communities, from people they know and trust, because of these efforts.”

As the highest-ranking Hispanic person elected in New York State, Ferrer has more plans for the future. “In Fernando Ferrer’s perfect world, there would be a fresh coat of paint on all the houses in the Bronx, there would be spotless parks for kids to enjoy, everyone would show up for jury duty, we would all enjoy high-achieving schools, and nobody has a malevolent thought,” he said.

“One day that comes for citizens of the Bronx, I have a lot of work to do,” he added with a smile.

“After all,” he said, “the real reason people come here hasn’t changed. People want freedom, the freedom to govern their own lives. The reason is clear. They want high-achieving schools, good jobs, and safe neighborhoods.”
When Saundra Taylor entered the field of higher education 32 years ago, social activists of all colors were starting to challenge the status quo across the country. Within a few years, there was considerable momentum on campus for affirmative action and women’s rights. “All those things were very, very prevalent,” said Dr. Taylor, and she felt a great need to network with other women and to ask, “How do you do this professional thing?”

Three decades later, she still sees discrimination on campus “every day.” But many more resources are out there for underrepresented people who need to know “how to do this professional thing.”

One such resource is NASPA, the National Association of Student Personnel Administrators, serving the broad field of student affairs professionals and, through them, the nation’s students. Taylor, vice president of campus life at the University of Arizona, has been a member for 20 years.

NASPA boasts more than 8,000 members, seven active regions, each with its own activities, and many highly regarded publications, including a journal that breaks with scholarly tradition by publishing in user-friendly language that engages rather than excludes.

Membership is up about 2,000 since Dr. Gwendolyn Jordan Dungy became executive director in 1995, coming to the job from the AAC&U, where she’d worked on a Ford Foundation diversity project, American Commitments.

Members include student affairs professionals, institutions, nonprofits, faculty, and students, each group with its own dues, which for colleges and universities are scaled to their budgets and enrollment.

Asked how membership benefits institutions, Taylor starts by citing the wide array of “very helpful” educational materials available to members through listserves and monographs and through the journal. And networking across the membership.

“NASPA supports and reinforces,” she says, “and the central office of NASPA puts out information on legal issues, on federal issues, and other updates. And I find those terrific because I just don’t have time to read The Chronicle very often.”

“NASPA pulls out things that are salient for student affairs professionals, so I can get the information in a good format.”
In the realm of professional development, NASPA "stimulates and promotes," says Taylor.

It is the institutional membership, she says, that allows the national office to conduct activities across the country. NASPA's latest annual report reflects 1,179 institutional members, a record 580 of them community colleges.

"Lastly," says Taylor, "the membership gets the advocacy that we need at a national level for the professionals, but more importantly, for the students--issues around financial aid and the huge debt that students are incurring, and how we can work to promote better ways to monitor that debt, better ways to increase the grants and scholarship aid.

"These kinds of things are advocated by the national office and the executive director, and I think we have been in the business long enough to be at the various tables in Washington. That means our voice is being represented, and the voice of students is being represented."

**NASPA Agenda**

Asked what's hot or heating up at NASPA, Dr. Dungy first notes a "repackaging" of its information and development role, launched at its March convention, which drew 2,800 participants to Indianapolis.

NASPA will now have "Centers for Innovation"--not physical sites but data and service sites--a center for technology and for research, a center for public policy, and an academy for leadership and executive effectiveness. This restructuring is intended to make it easier for members to get the precise help they need.

Associate Executive Director Kevin Kruger will oversee technology and research; board member Cheryl Lovell, University of Denver, public policy, with assistance from Carol Hollander of the national office staff; and Laurence Smith, who recently retired as vice president of Eastern Michigan, the leadership academy. "All our programs for senior student affairs officer and executives will come through that academy," says Dungy.

"We want our members to come to us with anything they need information on." NASPA, she says, is responding to needs surveys within the field and in higher education in general, and staging research projects accordingly.

**Net Results,** NASPA's online magazine, currently down, is being launched with "increased vision," and will include feature articles as well as "news snippets," and should debut in November.

And NASPA is part of a newly formed consortium on public policy--too new to even have a name--with the American College Personnel Association, Association of College Unions International, Association for Student Judicial Affairs, and the American College Health Association.

**NASPA Origins and Mileposts**

HO asked Kristine Metter, director of membership, marketing, and human resources, how NASPA got started.

"In 1918, Robert Rienow, the dean of men at the University of Iowa, wrote a letter to Thomas Arkle Clark, dean of men at the University of Illinois, suggesting a meeting that is now recognized as the founding of NASPA." The meeting was held at the University of Wisconsin in 1919. Attending were three deans of men and three male professors. The resulting organization was NADAM, an association of deans of men. The name changed to NASPA in 1951.

Attendees at a post-WWII conference held more than 30 titles, woman president of NASPA.

In 1979, George Young, Broward Community College--first community college person elected president.

In 1985, Bob E. Leach, Florida State University--first minority president.

In 2000, Doris Ching, University of Hawaii--Manoa, first Asian American president.

Metter says that over the last five years, NASPA has specifically focused efforts on broadening its base.

**NASPA and Latinos**

"As we meet Latinos in the field of student affairs, we are asking them to come into NASPA in leadership positions to help us make sure that we are finding people."

"I see it as a real weakness," Dungy continues, "that we have not reached out to all Latinos for leadership in NASPA. We have had a couple of African American presidents, and now have an Asian American president."

Going through NASPA's website and its publications, HO has noted an Hispanic presence: Mike López, Minnesota State, associate editor, *NASPA Journal*; Adele Lozano Rodríguez, University of Iowa, and Yasti Torres, George Washington University, two of four authors of a Spring 2000 journal article about Latina college students; Magdalena de la Teja, Austin Community College, NASPA advisory board for diversity research; David F. López, Indiana University of Pa., co-author of a research study featured in NASPA's *Diversity on Campus, Reports from the Field; Ephraim (Fred) Vega, senior accountant, NASPA national staff."

"Sometimes," says Dungy, "the only way you can let people know that the organization is for them is to show them in the leadership. That is an area of growth for us, and something we want to put energy into."

**"We want our members to come to us with anything they need information on."**

Gwendolyn Jordan Dungy, Ph.D., NASPA executive director
NASPA and NAWE

*HO* learns through Dungy’s thoughtful column, “Goodbye to a Cherished Friend,” in the September/October newsletter *NASPA Forum*, that NAWE, the National Association for Women in Education, originally for women deans, administrators, and counselors, is about to dissolve due to “loss of traditional membership base, increased competition for members, a societal shift from single-sex organizations, and reduced attendance at national meetings.” Dungy was a lifelong member of NAWE.

“Until I came to NASPA,” she wrote, “NAWE was my professional home where I formed lasting friendships, learned how to follow and lead, and observed some of the most gifted role models one could hope to find in any profession. NAWE helped create the parts of me of which I am most proud.” Her words ring very true with this writer, who found a NAWE-sponsored conference in early 1999 especially well endowed with kindred spirits and savvy speakers.

Saundra Taylor, who joined NAWE in the ’70s, told *HO*, “The women who attended in that decade,” she said, “were just outstanding people who went on to do outstanding things—many becoming presidents and vice presidents in higher education.”

Dungy tells *HO*, “I hope NASPA will take the dissolution of NAWE as a mandate to pull out what we do for women and make it a priority in such a way that women know that NASPA is a place where women in higher education can come for scholarships, for professional development, for networking—and that we are talking about women from graduate students through the highest levels of administration.”

“Right now we have the Alice Manicur symposium, for women who want to be senior student affairs officers, and we have a women’s net-

work, but it is not nearly enough.”

**Mentoring Minorities**

Taylor, the national coordinator of MUFP, NASPA’s Minority Undergraduate Fellows Program, tells *HO* that it is now 12 years old. The program involves one-on-one year-round mentoring, a summer institute, and the option of a summer internship.

The program is in serious need of some action in this area, that a number of positions were now being filled with minority applicants, so there was access within the profession, but there wasn’t much to promote that access on an ongoing basis on our various campuses in terms of minority students.

“She made that connection—that we need to invest resources to guide these students—mentoring them and bringing them together for a summer institute that would reinforce the mentoring process and direct them toward graduate programs in higher education, and help them look at those options.”

Taylor had high praise too for Rockingham’s successor at the head of MUFP—Melvin Terrell.

“Melvin did a lot to formalize and publicize the program, and he also got the NASPA office to central-ize the responsibilities. It had really been Constance—her office and her personal time invested—that kept the thing afloat.”

“Melvin made a very good case that what was needed to centralize it and help professionalize it was to take it out of the hands of just volunteers. So the NASPA office stepped up, and they’ve been doing that at least for four or five years now.”

Dungy’s office manages the mailings to mentors and mentees on the summer program, the internships, and more. The national office sends completed fellowship applications to Taylor, who works with a small team.

“There’s an advisory board now for the program,” says Taylor, “minority professionals across the Association who help me look at the direction of the program.”

“The budget of $35,000 pays for the summer institute, but not for any staff, so we still have a lot of volunteers. I am not paid; the advisory board, the faculty in the summer institute are not paid. We provide expenses for those who participate in the summer institute, but it is all done out of commitment, and, I think, the belief among professionals and NASPA is that this is worth doing.” The $35,000 comes from membership dues.

MUFP Fellow applications for 2001-2002 became available Oct. 1. Information about applying can be sought via Dr. Taylor or a visit to www.naspa.org or a call to NASPA at (202) 165-7500.

 Asked from what fields student affairs professionals are drawn, Taylor says that the majors are “all over the map—psychology, anthropology, history, political science—a lot from the social and behavioral sciences. The next most frequent would be humanities—English, history. Sometimes they’re looking at whether they want to move toward business or education.”

Gwendolyn Jordan Dungy, NASPA executive director
MUFP Summer Institute

This fall, there are 85 fellows, 45 of them first-timers. Typically, between 20 and 23 attend a summer institute. Each year it moves to a different site. This summer, Dr. Eliseo Torres, vice president of student affairs at the University of New Mexico in Albuquerque, coordinated and hosted the event, held on his campus.

Most of the students had never been to New Mexico, and they came from all over—LA, Nevada, Connecticut, Pennsylvania, and Virginia, and some people from the Midwest. Emphasis over the five days of the institute is on leadership skills, presentation skills, what the requirements are for going on in the profession, what graduate schools are looking for in students.

Taylor calls it a "capstone experience for the mentoring process."

MUFP Internships

At this juncture, about 30 universities have established a MUFP summer internship. They range from HBCUs to community colleges to universities and regional universities, the largest group being the mid-sized to large, says Taylor, because they usually have more resources and more experience with internships.

Typically, the host pays for air travel, room and board, and a small stipend. "We had three Historically Black Institutions last year," says Taylor, "and they indicated that it was difficult for them to put together room and board. They could do one, but they couldn't do both. We looked at our funding sources and said, 'We can do it this one time.'"

Internships might involve working in residence life, getting a program ready for the fall, actively engaging in an orientation program, or perhaps working in campus health on a research project.

An eligible applicant is a MUFP fellow from a campus other than the host campus, and one who has been mentored for a year or more. Students are given chances to work in a new area, or a new population, or pursue a keen interest—in each case expanding the exposure.

Many opt to intern at those universities they want to consider for graduate study. The internship, says Taylor, "gives them a real close-up look at the way that university operates."

"We have more many more sites than interns. This year we had twelve interns; the year before, six; before that, four" NASPA is offering more flexible sequencing of MUFP activities, to maximize experiences for student affairs, especially the work now being done by many NASPA members in assessing student learning, looking at how everything they do contributes to student learning.

"I am very much interested in what the standards are going to look like, and how they are including student affairs. What I plan as an advocate is to make sure that we have something to say about them."

Dungy has several perspectives from which to view the standards. She holds a doctorate from Washington University, in St. Louis, the space in question being the Westin, the Sheraton, its Towers, the Hilton, the Wyndham, and the Washington State Convention & Trade Center. NASPA workers of the world—Seattle awaits you.

The revision of college accreditation standards, says Dungy, is "a very important area for me and for this association."

Coming Up

Dungy says something is very much on her mind of late—the revision of standards for college and university accreditation, some of which date back to the '50s. HO asks whether something is driving the current push for change. From what Dungy hears, it is concern about distance education. She has other concerns.

Gwendolyn Dungy wants NASPA and its constituents to review the standards to see if their authors "have understood enough about

the space in question being the Westin, the Sheraton, its Towers, the Hilton, the Wyndham, and the Washington State Convention & Trade Center. NASPA workers of the world—Seattle awaits you.

NASPA MEMBERSHIP DEMOGRAPHICS

- Asian American: 1990-1%, 1995-2%, 2000-2.6%
- African American: 1990-7%, 1995-11%, 2000-11.3%

- 1990: 44% female, 53% male, 3% no response
- 1995: 52% female, 47% male, 1% no response
- 2000: 55.8% female, 43.7% male, 0.5% no response

Starting with this year's forms, the category "transgendered" has been added.
College Board Announces SAT I Registration Dates

Parents and high school students returning to classes this fall should mark their calendars with the 2000-2001 registration deadlines and testing dates for the SAT I. Students can register for the SAT on The College Board's website, www.collegeboard.org or collegeboard.com. Sample test preparation materials are available.

First date is registration deadline; second is late registration; third is test date.

Barraza Exhibit at Texas A&M-Kingsville

Santa Barraza, art department chair, recently exhibited her latest show, "Santa Barraza: A Mexico-Tejana Artist from Népatla (Borderlands)," at Texas A&M-Kingsville's Ben Bailey Art Gallery.

Barraza received her bachelor's degree in studio painting and drawing from the University of Texas in 1975 and her master's in 1982. Her paintings hang in many private collections, including the University of California-Davis, the Mexican Museum in San Francisco, the Latino/Hispanic Design Archive at the Cooper Hewitt National Design Museum, the Tomás Ybarra Frausto Collection at the Smithsonian, and the Fondo del Sol Visual Arts Center in Washington, D.C.

After Kingsville, Barraza's exhibit will travel to the Robeson Cultural Center at Penn State University, Yale University, San Francisco's Yerba Buena Cultural Center, and Mexico City's Diego Rivera and Frida Kahlo Studio Museum.

New Mexico Receives Title V Grant

The U.S. Department of Education awarded a Title V Planning Grant of $31,000 to the University of New Mexico's (UNM's) division of academic affairs. The money will be used to address the needs of Hispanic students at UNM, one of only two Carnegie I Research Institutions in the country ranked as Hispanic-serving.

"We will work to design and write a comprehensive development plan for the full $2 million federal grant to improve the undergraduate educational experience for Hispanic students," stated Dr. Peter White, associate provost for academic affairs.

White said he will work with all appropriate groups in UNM's academic and student affairs; consult such national experts as Robert Ibarra, author of a noted book on the structure of higher education, and Hunter Boylan, director of the Center for Developmental Studies; and visit other institutions to study their successful organizations.

Yale Exhibits Books by Latin American Artists

Visually dazzling and intellectually challenging books by 16 contemporary Latin American artists are on exhibit at Yale University's (Conn.) Sterling Memorial Library through Nov. 27.

The exhibition "Poetics, Politics, and Song: Contemporary Latin American/ Latino(a) Artists' Books" features about 30 limited-edition works dating from the early 1970s through the 1990s. The artists, some of whom now live in the United States, originate from Argentina, Brazil, Chile, Cuba, the Dominican Republic, Mexico, and Puerto Rico.

New York-based Argentinean artist and William Paterson University of New Jersey Professor Leandro Kaz (pictured) lectured at the show's September opening. Chicano artist Enrique Chagoya spoke about his work at a Saybrook College Master's Tea earlier this month.

Texas A&M-Corpus Christi Showcases López

Gerald López (pictured), Michael Stephens, and Cordel Haws, all Texas A&M University-Corpus Christi graduates, exhibited their works in printing, printmaking, sculpture, and drawings during the "Summer Blowout Showcase" at the University's Weil Gallery.

López turns the ordinary into the extraordinary through the use of oil sticks and other paints. Stephens uses printmaking to portray a narrative story with the use of the woodcut process. Haws features both sculpture and rough, charcoal drawings to convey emotional struggle and pain.

New Mexico State Photographer Wins National Award

Hugo Pérez (picted), media specialist at New Mexico State University's KRWG-TV, won first place for television photography in the National Association of Hispanic Journalists competition. Pérez won the award for two stories he videotaped near Casas Grandes in Chihuahua, Mexico.

Pérez's series "Ancient Ruins" was shot in the spring of 1999. The first story focused on the Paquime Indian ruins located near Casas Grande and inhabited by the Paquime Indians around 1230 A.D. Pérez said the ruins are a "hidden treasure" that many in the U.S. do not know about.

The second story featured artist Juan Quezada, known for his pottery that resembles the ancient pottery of the Paquime Indians. Quezada is from the small village of Juan Mata Ortiz, located about 50 miles southwest of Casas Grandes.
Texas A&M-Kingsville Holds Group Study in Guatemala

Texas A&M University-Kingsville’s office of international programs and department of bilingual education organized a five-week Fulbright-Hays Group Projects Abroad program in Guatemala.

The purpose of “Guatemala: The Gateway for Understanding Central America” was to expose Texas participants to the history, politics, economy, culture, music, anthropology, art, languages, and historical sites of Guatemala to create a better understanding between Guatemalan and U.S. citizens and friendlier relations between the governments.

Dr. Ward Albro (pictured), history professor emeritus and director of the “transculturation” program at Texas A&M-Kingsville, directed the project. Dr. Mark Walsh, director of international programs, was project administrator.

Laredo Unveils Career Power Program

Leaders from Laredo Community College (LCC) in Texas, HACU, and other entities got together to unveil the Work to Succeed program, a new and innovative computer system designed to increase job retention and job performance.

The pilot program offers participants the opportunity to develop and advance their work skills utilizing the computer software program PLATO, which integrates literacy, math, and interpersonal skills training with technical skills development, and introduces participants to higher education through pre-college courses.

Among those present at the Mall del Norte, located in the Laredo Children’s Museum Fun House, were Dr. Juan Maldonado, LCC vice president for instruction and student development; Alma Hernández, LCC dean for adult and continuing education; and Anthony Andrade, senior account executive for Career Power, HACU’s Welfare to Work program.

Loislaw.com Adopted by Leading Law Schools

More than 90 percent of law schools accredited by the American Bar Association are taking advantage of Loislaw.com Inc. Loislaw.com Inc. provides lawyers, judges, law students, corporate legal departments, and consumers with legal research materials via a Web browser.

“The participating schools represent more than 110,000 potential student users and future prospective subscribers,” said Michael Romanes, of Loislaw.com, noting that there are about 140,000 enrolled law school students and an estimated 40,000 graduating every year.

Mirita Penelas Foundation Ups M-DCC Endowment

In Florida, Luis Penelas Jr., representing the family, presented a check to Miami-Dade Community College (M-DCC) for the Mirita Penelas Foundation scholarship program, created in 1999. The $15,000 gift, to be matched by the M-DCC Foundation, Inc., will increase the endowment to $300,000.

The Foundation was established by husband Luis Penelas Sr., and sons Alex, Miami-Dade County mayor, and Luis Jr., in honor of Mirita Penelas, who passed away from cancer. The funds will offer hope and help in the form of need-based scholarships to M-DCC students with cancer and students with family members who have the disease.

“As a former teacher, my mother loved young people and valued the importance of an education,” said Penelas.

Pictured (l. to r.) are M-DCC President Eduardo J. Padrón, M-DCC Board of Trustees Chair Roberto Martínez, and Penelas.

Special Ed Grant to South Florida

USF The University of South Florida’s (USF’s) special education department, sparked by Professor Brenda Townsend, hopes to improve public schooling for urban children who have or are suspected of having disabilities.

The U.S. Department of Education’s Office of Special Education Programs gave USF a $5 million grant for Laser (Linking Academic Scholars to Educational Resources), a program to develop and implement a definitive research agenda in urban special education. “This program will provide technical assistance and professional development for minority doctoral students and faculty,” said Townsend.

USF’s special education department will be recruiting cohorts of minority doctoral students who will conduct urban research studies. The doctoral students will spend their first two years at USF and their third at a minority institution, such as an HSI.

North Carolina-Chapel Hill Studies Teen Diets

Between 1965 and 1996, a considerable shift occurred in the diets of U.S. teenagers that could compromise the future health of the nation’s people, a major new University of North Carolina-Chapel Hill (UNC-CH) study shows. On the horizon, researchers say, are more strokes, heart disease, high blood pressure, and osteoporosis.

Total milk consumption dropped by close to 50 percent among adolescents over the three decades studied—a decrease accompanied by a heavy increase in consumption of sugar-laden soft drinks and fruit-flavored beverages. Teens also began eating more of their vegetables in the form of fatty fried potatoes.

A report on the findings appeared in Archives of Disease in Childhood, a professional journal. Authors are Dr. Barry Popkin, professor of nutrition at the UNC-CH schools of public health and medicine, Dr. Claude Cavadini, scientist at Nestle Research Center in Switzerland, and Dr. Anna Maria Siega-Riz (pictured), assistant professor of nutrition and of maternal and child health.

Minority Grads Up in New Mexico

The number of science, math, engineering, and technology degrees awarded to minorities in New Mexico has increased 87 percent since 1993, thanks in part to the New Mexico
Alliance for Minority Participation (AMP), based at New Mexico State University.

Sponsored by the National Science Foundation, New Mexico AMP is designed to help historically underrepresented minorities excel. This includes undergraduates in a wide range of majors, such as chemistry, engineering, microbiology, and wildlife sciences. It is a statewide partnership of 21 two-year colleges and six four-year universities, and one of 27 AMP programs in the nation.

“The focus of AMP as a whole is to recruit, retain, and graduate students with the expertise the country needs to contribute to the technical workforce, and to groom future faculty,” said Ricardo Jacque, AMP director.

Valencia a Top Producer of Degreed Minorities

VALENCIA  A report in Community College Week ranks Valencia Community College (Fla.) third in the nation in the number of associate’s degrees awarded and reports that it has one of the country’s highest graduation rates for minorities. It also ranks Valencia in the top ten in the number of degrees awarded to Hispanics.

Valencia offers three associate’s degrees. Associate of Arts parallels the first two years of a four-year bachelor’s degree. In Florida, graduates with an AA are guaranteed acceptance as juniors into the state university system. Valencia offers more than 50 Associate of Science, Associate of Applied Science, and certificate programs, which lead to immediate entry into the workforce.

Columbia Honors Journalists for Reporting on Latin America

Columbia University’s (N.Y.) Graduate School of Journalism awarded the 2000 María Moors Cabot Prizes for outstanding reporting on Latin America to four journalists reporting for The Associated Press; El Comercio, Lima, Peru’s leading daily newspaper; The Globe and Mail in Toronto, Canada; and the Jamaican Gleaner newspaper group. A special citation was awarded to Francisco Santos, a columnist living in exile who writes for Colombian’s leading daily newspaper, El Tiempo.

Eloy O. Aguilar has been chief of the AP’s Mexico Bureau since 1979, coordinating news and photo coverage throughout Mexico and Central America. Ricardo Uceda has been chief of the investigative unit at El Comercio, the leading daily in Lima, Peru, since 1994.

Paul Knox has been a writer and editor at The Globe and Mail in Toronto since 1978, and a regular commentator in Spanish for Radio Canada International, Canada’s short-wave radio service. Lloyd Williams, senior associate editor of The Gleaner Publications Group in Kingston, Jamaica, is the premier investigative reporter in Jamaican journalism.

Calvin Program Targets Minorities

Calvin College (Mich.) held the Entrada immersion program for ethnic minority high school juniors and seniors during the summer. Twenty-six students from around the country, including many from West Michigan, spent a month at Calvin, taking a summer school class, living in the dorms, eating in the residence halls, and more. The Entrada program is intended to show kids what it takes to make it in college.

Cal State-L.A. Students Awarded NASA Scholarships

The NASA/NAECA Space Station Engineering Scholars Program awarded scholarships to four CSU-Los Angeles MESA engineering program students: Jorge Arreola, Daniel Castellanos, Stephen Sierwyn, and César Robert Velasco. All four won the awards based on their academic achievements, and are involved in student chapters of national engineering societies and have been on the Dean’s List.

Along with covering college tuition and expenses, the $12,000 per year, renewable scholarships give these four students an opportunity to learn and participate in leadership seminars and internships and research related to NASA space projects.

Laredo Music Chair Performs in Colorado

Dr. Gilberto D. Soto, music and dance department chair at Laredo Community College (LCC) in Texas, gave a classical guitar concert at the Hazlerig Music House in Colorado, at the invitation of retired LCC music educator Sylvia Hazlerig, a colleague at LCC.

The concert included baroque, flamenco, bossa nova, and modern jazz. Hazlerig accompanied Soto on the harpsichord for Vivaldi’s concerto in D Major.

Soto has performed throughout the U.S. and Mexico, including the White House in 1988. He is on the subcommittee on higher education of the Texas Association of Music Schools and is a board member of the State-Level Field of Study Committee for Music of the Texas Higher Education Coordinating Board.

Colorado Mountain ESL Student Develops Rapidly

Rafael Duarte, a former struggling cab driver from Mexico City, received more than just his GED when he finished high school through Colorado Mountain College’s (CMC’s) learning labs. He received a present that changed his life—three free hours in any subject at CMC. It is a gift CMC’s Vail/Eagle Valley Campus gives to everyone who graduates from its GED program.

Duarte took a PC applications course, his first computer course, then completed one full year in CMC’s Cisco Academy. After two more semesters, he could command $50,000 a year building and programming computer networks.

“Rafael is an amazing student,” said ESL instructor Jan Atoma. “It takes seven to 10 years to develop cognitive skills, the ability to think abstractly in a second language. Rafael did it in two.”

Iyon Directs DePaul Center for Justice

Since 1977, when capital punishment was reinstated in Illinois, 13 death row inmates have been exonerated, which impelled the governor to declare a moratorium on the death penalty last January. Nationally, the statistics are even more staggering. Since 1973, according to the Death Penalty Information Center, 87 prisoners—many of
them minorities—have had their state-imposed death sentences revoked.

In the face of such startling numbers, the DePaul University College of Law has established the Center for Justice in Capital Cases with the aid of the Illinois State Appellate Defender’s Office.

Directed by Andrea Lyon (pictured), former chief of the Homicide Task Force for the Office of the Cook County Public Defender, the Center is a training ground for students interested in working on capital cases. As an expert in death penalty defense, Lyon has much experience providing adequate legal representation for the underserved.

Cortina New Assistant VP at Houston

In Texas, Dr. Rodolfo J. Cortina is the new assistant vice president for undergraduate studies at the University of Houston (UH), and will coordinate advising, course development, program reviews, international studies, and the scholars’ community.

A Spanish professor in the UH department of modern and classical languages, Cortina is an authority on the written traditions of Caribbean and Hispanic peoples. Among the dozen-plus books to his credit are Hispanic American Literature: An Anthology and Cultural Factors Affecting Healthcare: AIDS, Domestic Violence and Family Planning in Houston and in Mexico. He holds a bachelor’s degree from Texas A&M-Kingsville and a master’s and doctorate from Case Western Reserve.

Almaguer Strengthens Ethnic Studies at SF State

San Francisco State University’s (Calif.) College of Ethnic Studies—one of the few in the nation—has landed a new dean, Tomás Almaguer (pictured), former associate professor of sociology and director of the Center for Research on Social Organization at the University of Michigan-Ann Arbor.

Also hired is AIDS researcher Rafael Díaz, an expert on Latino sexuality, who has accepted a joint appointment in the colleges of ethnic studies and behavioral science. His work, it has been noted, shares elements in common with Almaguer’s, among whose projects is a book on gender and sexuality among Chicano gay men.

Almaguer says the College, which emerged from the civil rights movement of the 1960s and 1970s, has to connect more directly with contemporary scholarly concerns.

Higher Education Center Launches New Website

The U.S. Department of Education’s Higher Education Center for Alcohol and Other Drug Prevention launched a website (www.edc.org/hec/socialnorms) devoted to social norms marketing, an approach developed to address high-risk alcohol use among college and university students. The site contains background theory and research and offers advice on implementing social norms marketing campaigns. It provides examples of messages and describes what campuses are doing, gives a list of practical “do’s and don’ts,” and provides research and evaluation guidance. It includes an extensive list of references and resources, including relevant publications and website links.

The Higher Education Center for Alcohol and Other Drug Prevention, based in Massachusetts, offers training, technical assistance, publications, and information about changing the environment in which students make decisions about alcohol and other drug use.

News from HACU

Seventy-six Hispanic-serving institutions (HSIs) from 11 states, including Puerto Rico, were selected to receive a total of $25,770,568 from the 1999 Title V of the Higher Education Act. The grants are a result of the work the Hispanic Association of Colleges and Universities (HACU) and its supporters have done to promote continued funding for HSIs, whose enrollment is at least 25 percent Hispanic.

“With this money, HSIs can continue to provide Hispanic students with the quality education they need to succeed in the workforce,” said Antonio Flores, HACU president and CEO.

The Senate Hispanic-Serving Institutions Coalition, led by Texas Sen. Kay Bailey Hutchison and New Mexico Sen. Jeff Bingaman, has been a critical supporter of Hispanic education and HACU.

New Mexico Tech Launches Advisement Center

Administrators at the New Mexico Institute of Mining and Technology (NM Tech) reallocated some resources—human and fiscal—to establish the on-campus Advising Resource Center for students. New Mexico Tech President Daniel H. López (pictured) made the decision to go ahead with the project under the stipulation that current resources are used, and in a cost-effective manner.

“We first looked at models of advising centers which already had been established at other universities,” said Herbert M. Fernández, vp for institutional development, “then took what was best about these other programs and custom fit it to New Mexico Tech and the particular needs of Tech students.”

Trinity Opens Cultural Houses

Trinity College (Conn.) recently celebrated the opening of new cultural houses designed to provide a place for networking and support for students, and also as places where members of the Trinity community can develop a heightened awareness of the culture, politics, and social issues of the host groups.

“The opening of the cultural houses is both an opportunity to learn about, appreciate, and benefit from our differences as well as an occasion to celebrate our essential oneness as members of the human family,” said Karla Sperlock-Evans, dean of multicultural affairs and affirmative action officer at Trinity.

The houses, one for the Latino students’ group La Voz Latina and another for the Asian American Students Association, are joined by Umoja House, which belongs to Imani, the Black student union, and the new Hillel House for students of the Jewish faith.

Río Hondo Welcomes Back Poncho Sánchez

Eminent conga player and percussionist Poncho Sánchez recently played a return engagement at Río Hondo College (RHC) in California, having performed at its 1999 commencement.

Sánchez, who first recorded an album in 1982, played the rumbas, mambo, charangas,
boleros, and Latin jazz for which his band is well known. The former Grammy nominee is an annual highlight at the Monterey Jazz Festival in Northern California and the Playboy Jazz Festival at the Hollywood Bowl in Los Angeles.

Colorado-Boulder Professor Receives Medal of Galicia

The Council of Ministers of Galicia, Spain, awarded University of Colorado (CU)-Boulder Professor Luis González-del-Valle the Silver Medal of Galicia.

The professor was recognized for his efforts in the field of Hispanic studies in the U.S. and for his extensive research on the Galician writer Ramón del-Valle-Inclán. Galicia’s prime minister presented the medal during the festivities of St. James, patron saint of Spain.

González-del-Valle, who joined CU-Boulder in 1986, has written and edited 22 scholarly books and many articles. He is the executive secretary of the Twentieth Century Spanish Association of America, director of the Society of Spanish and Spanish-American Studies, and general editor of *Annals of Contemporary Spanish Literature*.

Northeastern Illinois Gets Faculty Development Grant

Northeastern Illinois University was awarded a $1,674,844 grant by the U.S. Department of Education to fund faculty development activities designed to improve student learning.

The grant will implement general education courses that incorporate student-centered teaching methods, including the use of the latest technology and classroom assessment techniques to measure student learning and course evaluation.

It qualified for the grant as a federally designated Hispanic-serving institution, a status awarded colleges and universities whose undergraduate population is at least 25 percent Hispanic. It is the only four-year institution in Illinois to be so designated.

Miami-Dade Re-Elects Martínez

The Miami-Dade Community College (M-DCC) board of trustees re-elected Roberto Martínez (pictured) as board chair. Appointed to the board in 1999 by Florida Gov. Jeb Bush, Martínez will be serving his second term.

Martínez is an attorney and partner in the law firm of Colson, Hicks, Eidson, Colson, Matthews, Martínez, and Mendoza. His career includes civil and criminal trial practice. He is a member of Gov. Bush’s Public Corruption Study Commission and of the boards of the International Rescue Committee and Ransom Everglades School. He holds a juris doctor from the Georgetown University Law Center and a bachelor’s and master’s from the University of Pennsylvania, Wharton School of Business.

The M-DCC board also re-elected Hank Klein as vice chair for a second term.

Santa Monica Names Martínez to New Post

Marvin Martínez, a Santa Monica College (SMC) dean who was instrumental in creating an economic development program and modernizing SMC’s vocational and professional programs, was named acting associate vice president of planning and development.

Martínez is now responsible for government relations and affairs; institutional research; institutional effectiveness; accreditation; Partnership for Excellence programs; and grants. He also will head up a “think tank” that will guide the college toward developing a vision and new programs in both academic and student affairs.

A doctoral candidate in higher education at the Claremont Graduate School, Martínez holds a bachelor’s degree and a master’s from UCLA.

Rice Grad School Wins Brillante

The National Society of Hispanic MBAs (NSHMBA) honored Rice University’s (Texas) Jesse H. Jones Graduate School of Management with the Brillante Award for exceptional contribution to the Hispanic community.

The Brillante Award is the most prestigious honor that NSHMBA grants to recognize those who “foster Hispanic leadership through graduate management education and professional development in order to improve society.” It is presented annually to a corporation, a non-profit organization, an educational institution, an individual, and a NSHMBA member.

“Successful business people must be comfortable with diversity,” said Gilbert R. Whitaker, Jr., dean of the Jones School. “They must understand that the best business decisions come from multiple perspectives.”

Prairie Foundation Helps Strengthen Enrollment at Laredo

The late philanthropists David and Barbara Fasken established a rich tradition in caring with the Prairie Foundation, dedicated to improving the quality of life. Last summer, their legacy helped enrich the lives of 49 gifted students from Texas high schools who got a head start on their education at Laredo Community College (LCC).

One of four nonprofits in Laredo to receive a $12,500 gift from the Prairie Foundation, LCC utilized its award to strengthen its early enrollment program, which benefits high school juniors and seniors who are enthusiastic about starting a college education. Participants earn college credit ahead of their high school graduation.

Pictured (l. to r.): Carolina Alfaro, Luis Peña, and Cynthia Ruiz are a few of LCC’s early-enrolled students.

New Soccer Field at Santiago Canyon

Santiago Canyon College (SCC) in California recently celebrated the opening of its first athletic facility, a regulation-size soccer field and accompanying practice field.

Led by Dr. Mark Rocha, SCC president, the ceremonies featured student athletes, local...
 Queensborough Student Wins Coca-Cola Scholarship

Queensborough Community College (N.Y.) student Blanca Bedoya received a $1,000 scholarship from the Coca-Cola Two-Year Colleges Scholarship Program.

Bedoya, who wants to become a dance therapist, works as a dance therapy assistant with the Association for the Help of Retarded Children and at a local public elementary school on a volunteer basis. Bedoya and her husband founded a community-based project, the Association for Integration, Realization, and Devotional Service.

Bedoya is a member of Phi Theta Kappa, the international honor society for two-year colleges. She plans to eventually pursue a doctorate.

U.S. Dept. of ED Announces Grants for Adult Learners

The U.S. Department of Education announced $186 million for 10 new grants that will enable adults to learn virtually around the clock from wherever they are through innovative use of technology.

The grants are awarded through Learning Anytime Anywhere Partnerships (LAAP), under which colleges work with one another and with public and private businesses and organizations to develop programs that expand access to high-quality learning opportunities, which students can access "anytime, anywhere"—through the Internet, for example. LAAP can be particularly important to those with limited access to a traditional campus because of their geographic location, a physical disability, or scheduling constraints of work and family.

LaGuardia Student Earns Scholarship, Studies Abroad

For Marisol Santos, summer 2000 will forever be memorable. She spent July in Florence, Italy, in the Study Travel Opportunities Study program for City University of New York students. When she returned, she learned that she was the recipient of a Coca-Cola two-year-college scholarship for her academic and community service record at Fiorello H. LaGuardia Community College.

During her one-month journey, the Phi Theta Kappa International Honors Society student—who was born in Ecuador—lived with the Americans, Bolivians, and Peruvians while she studied Italian and art history at the Scuola Lorenzo de Medici. "The most important thing I learned is that learning never ends," said Santos.

A vice president of the Ecuadorian Club at LaGuardia, Santos was one of only two LaGuardia students to receive the Coca-Cola scholarship.

Sacramento City Students Awarded MESA-NSF Scholarships

Sacramento City College (Calif.) students Michael Castillo, Rogelio Lepe, and Veronica Michelsohn were selected as 2000-2002 MESA-NSF (Mathematics, Engineering, Science Achievement-National Science Foundation) scholarship recipients. Each will receive $4,800 over the next two years to assist in successfully transferring in the fields of math, engineering, or computer science. The scholarships were awarded to 80 students in California recognized as leaders in the classroom as well as the community.

Identity and Power: Puerto Rican Politics and the Challenge of Ethnicity

By José E. Cruz

On the surface, identity politics appears to promote polarization. The author argues that, to the contrary, fragmentation and instability are more likely to occur only when the differences are ignored and non-ethnic strategies are employed. He illustrates his claims by focusing on one group of Puerto Ricans and how they mobilized to demand accountability from political leaders in Hartford, Conn.
Borderless Borders: U.S. Latinos, Latin Americans, and the Paradox of Interdependence
Frank Bonilla, Edwin Meléndez, Rebecca Morales, and María de los Angeles Torres, eds.

The “Latinization” of the United States is reflected in forces that reach well beyond our borders. It asserts itself demographically, politically, in the workplace, and in daily life. Now, with Latinos positioned to help bring about change in the Americas from within the U.S., Latin Americans and their enigmatic communities are developing new relationships.

Mexican American Women Activists: Identity and Resistance in Two Los Angeles Communities
By Mary S. Pardo

When we see children playing in a supervised playground or hear about a school being renovated, we seldom wonder about who mobilized the community resources to rebuild the school or staff the park. This book tells the stories of Mexican American women from two Los Angeles neighborhoods and how they transformed the everyday problems they confronted into political concerns.

Free Trade?: Informal Economies at the U.S.-Mexico Border
By Kathleen Staudt

In the aspiring global cities of Ciudad Juarez and El Paso, people generate income and develop their housing informally on both sides of the U.S.-Mexico border. Kathleen Staudt analyzes women and men in low- and middle-income neighborhoods in the core and in the old and new peripheries of two cities that straddle an international border.

Sponsored Identities: Cultural Politics in Puerto Rico
By Arlene M. Dávila

"Now everybody loves Puerto Rican culture," says a Puerto Rican schoolteacher and festival organizer, "but that's exactly the problem." Thus begins this major examination of cultural nationalism as a political construct involving party ideologies, corporate economic goals, and grassroots cultural groups.

Approaches to Teaching Cervantes' Don Quixote
Richard Bjornson, ed.

How can instructors of Don Quixote stimulate an intelligent appreciation for the breadth of Cervantes' 17th-century genius among students whose tastes, frames of reference, and attitudes toward literature have been formed in the late 20th century? This volume brings together an overview of available materials, a survey of classroom techniques, and a series of essays in which experienced teachers explain how they have taught the novel.

The novel One Hundred Years of Solitude is taught widely and in a variety of curricular contexts. When teaching the novel in North American classrooms, nearly all teachers must address similar issues—for example, Latin American history and magic realism. This volume suggests different methods for presenting these issues to undergraduates.

American Higher Education in the Twenty-First Century: Social, Political, and Economic Challenges
Philip G. Altbach, Robert O. Berdahl, and Patricia J. Gumport

America's colleges and universities are social institutions—embedded in the wider society and subject in various ways to its constraining forces. In this book, researchers who share this understanding explore the new realities of higher education and consider its greatest challenges for the next century.

On the Limits of the Law: The Ironic Legacy of Title VI of the 1964 Civil Rights Act
By Stephen C. Halpern

Stephen Halpern examines the legal struggle to control the enforcement of Title VI of the 1964 Civil Rights Act—the historic provision prohibiting racial discrimination in programs receiving federal financial assistance. Although the provision appeared to have immense power to fight racial inequality in education, Halpern argues, attacking the problem through legal rights and litigation distorted our understanding of educational
inequality based on race and limited the remedies used to address it.

The Development of Modern Spain: An Economic History of the Nineteenth and Twentieth Centuries
By Gabriel Tortella

This reinterpretation of the history of modern Spain from the Enlightenment to the threshold of the 21st century explains the surprising changes that took Spain from a backward and impoverished nation, with decades of stagnation, civil disorder, and military rule, to one of the ten most developed economies in the world. Translated by Valerie J. Herr.

The Mentor's Guide: Facilitating Effective Learning Relationships
By Lois J. Zachary

This book explores the critical process of mentoring and presents practical tools for facilitating the experience from beginning to end. It is based on Laurent A. Daloz's popular and widely used concept that mentoring is a learning journey in which the mentor and mentee serve as companions along the way.

The Jossey-Bass Reader on Technology and Learning
(The Jossey-Bass education series)

In this extensive collection of select articles, reports, and essays, leading experts and distinguished authors explore educational technology and its impact on learning. Drawing on the most current research and best practices, this book is meant to inspire teachers, administrators, superintendents, school technology directors, and policymakers to become thoughtful leaders in innovation and change.

Educating Everybody's Children: Diverse Teaching Strategies for Diverse Learners
Robert W. Cole, ed.

This book—the culmination of the work of the Association for Supervision and Curriculum Development’s Urban Middle Grades Network, Advisory Panel on Improving Student Achievement, and Improving Student Achievement Research Panel—offers a wide-ranging assortment of instructional strategies whose effectiveness has been gleaned from extensive review of both basic and applied research.

The Differentiated Classroom: Responding to the Needs of All Learners
By Carol Ann Tomlinson

It's an age-old challenge: How can teachers divide their time, resources, and efforts to effectively instruct so many students of diverse backgrounds, readiness and skill levels, and interests? The author looks to the latest research on learning, education, and change for the theoretical basis of differentiated instruction and why it's so important to today's children.

The Oxford History of Mexico
Michael C. Meyer and William H. Beezley

The work of 23 of today's leading authorities on Mexico, this narrative chronicle leads readers from Mexico's pre-colonial grandeur to its contemporary state. Politics, religion, technology, modernization, ethnicity, colonialism, ecology, the arts, mass media, and popular culture are examined in the light of the latest research.

Many publications featured in this section are available through amazon.com.

Forum 2000 & NACME Career Fair
October 25-28

"Affirming Diversity: Real Commitment, Real Results." Among the confirmed speakers are Dr. Ana Margarita "Cha" Guzmán, White House Commission on Educational Excellence for Hispanic Americans, and Dr. Elsa Macias, senior research associate, Tomás Rivera Policy Institute. At the Westin Hotel, Long Beach, Calif.

Contact: NACME, (212) 279-2626; website, www.nacme.org/events.

AAC&U's 3rd Biannual Diversity and Learning Conference
October 26-29

"Diversity and Learning: Identity, Community, and Intellectual Development" is designed both for working teams of faculty and administrators and for individuals interested in improving classroom teaching, changing their curricula, fostering systemic change in their institutions, and investing more in local and global communities. At the Westin William Penn Hotel in Pittsburgh, Pa.
Contact: (202) 387-3760; e-mail, meetings@aacu.nw.dc.us; website, www.aacu.edu.org/Meetings/diw2learn00.html.

The College Board Centennial Forum

October 28-November 1

Networking and professional development opportunities; sessions on cutting-edge field-specific research and development; keynote addresses by world-renowned speakers. At the Marriott Marquis Hotel, New York City.

Contact: (212) 713-8050; website, www.collegeboard.com.

HACU 14th Annual Conference

November 4-7

This year’s theme: “Championing Hispanic Success in Higher Education.” At the Albuquerque Convention Center, Albuquerque, N.M.

Research Centers in Minority Institutions International Symposium

November 12-15

International symposium on health disparities in San Juan, Puerto Rico.

Contact: Beatrice Ralfor or Walter Sullivan, (406) 752-1634; e-mail, ralforb@msm.edu; website, www.rcmi2000.upr.edu.

TACHE 2000

November 29-December 1

The conference theme, “Latinos in Higher Education: Beyond the Demographics,” reflects the Texas Association of Chicanos in Higher Education’s interest to move the dialogue beyond the numbers to a discussion of concrete strategic plans for addressing the challenges presented by the ethnic shifts in population.

Texas Association of Chicanos in Higher Education Annual Conference

November 29-December 1

“Latinos in Higher Education: Beyond the Demographics” in Dallas.

Contact: Rudy Rodriguez, (940) 898-2214; e-mail, rodriguez@twu.edu; or Gloria Bahamas, (940) 565-2456; e-mail, gba- mmos@unt.edu.

6th Conference of the Recovering the U.S. Hispanic Literary Heritage Project

December 1-2

“Recovering the Past, Charting the Future: Archives, Canons, and Questions of Identity” is this year’s theme. At the University of Houston.

Contact: Alejandra Balestra, (713) 743-3128; e-mail, artrec@jetson.uh.edu.

National Association of Student Personnel Administrators Institute

January 10-12

Contact: (202) 265-7500; e-mail, office@naspa.org.

AAHE Conference on Faculty Roles & Rewards

February 1-4, 2001

This 9th annual conference will focus on the changing professoriate and the two developments most salient in driving that change—new technologies and the generational shift now taking place in the faculty. At the Tampa Marriott Waterside in Tampa, Fla.

ACE 83rd Annual Meeting

February 17-20, 2001

The American Council on Education will meet on “Shaping Public Policy with New Leaders” at Marriott Wardman, Park Hotel, Washington, D.C.

Contact: (202) 939-9410; website, www.acenet.edu.
Book Review

By Mark Saad Saka

In this groundbreaking collection of original essays, scholars and activists alike are challenged to reexamine their views on mainstream American environmentalism, an ethos largely portrayed as a white, middle-class, and liberal innovation. Chicano Culture, Ecology, Politics decenters environmentalism from that base and recenters it within a Chicano framework rooted in rural working-class consciousness, political struggle, community activism, and ethnic identity. In so doing, this book forces Chicano scholars to integrate ecological degradation as a social problem for communities of color and accentuates the intersection of class and ethnicity as a cutting-edge field for future inquiry.

Devon Peña, editor of this provocative collection, has written many books, including The Terror of the Machine, an important treatment of the environmental destruction and oppressive, gender-based labor structures of the maquiladora factory regimes along the border.

The book’s geographic focus is the Rio Arriba, the upper Rio Grande region of northern New Mexico and southern Colorado. My students in Current Issues in Chicano Politics found Laura Pulido’s “Ecological Legitimacy and Cultural Essentialism” a point for extensive discussion. Pulido asserts that culturalism, an overromanticizing of the cultural heritage of non-European peoples, denigrates and endangers them by viewing them as “exotic” and “quaint.” The resultant cultural essentialism downplays power relationships and instead tends to view variation in environmental practices as originating in “natural,” “ethnic,” or “cultural differences.”

Culturalism, says Pulido, affirms a historically denigrated ethnic or national group, helps consolidate the moral authority of the group in question, and provides an important and readily available resource for political mobilization and resistance. Pulido rejects the notion that indigenous Chicanos of the Rio Arriba region are a “romantic” relic of a disappearing past. She also stresses that the Hispano grazers were never a “static” culture but had always modified and altered their natural environment as careful resource managers. Ecological degradation accompanied the post-1848 incorporation into the United States as a systematic capitalist exploitation, and intensified resource extraction altered the environmental balance of power in a sensitive bi-region. A successful political defense, based upon a culturalist argument, allowed the Hispano grazers to access state grazing lands and to therefore stake out a claim of ecological legitimacy by repudiating mainstream white environmentalists and state agencies that viewed Chicanos as historically poor resource managers. By centering overgrazing and recent environmental destruction within a structural and historical paradigm, culturalism provided Chicanos a tool for emancipatory political activism.

Gwyn Kirk's “Ecofeminism and Chicano Environmental Struggles” seeks common ground between the two. Kirk articulates a materialist, ecological feminism that focuses on the social and material reasons for women’s environmental concerns and activism that integrates gender, race, and class in its analysis. She examines many grassroots Chicano movements in New Mexico, including the Southwest Organizing Project, the Southwest Network for Environmental and Economic Justice, the Taos Valley Acequia Association, and the Concerned Citizens of Questa. Kirk emphasizes the need for Chicano and women activists to conceptualize how the domination of nature, of peoples of color, and of women are intrinsically interlinked and that these mechanisms of oppression cannot be destroyed until ethnicity and gender are integrated in a struggle for environmental sanity. Kirk specifically advocates greater cooperation and linkage between Chicano and women's studies programs as an important first step in this process.

In “Philosophy Meets Practice,” Malia Davis provides in-depth interviews with three Chicana environmental activists from Colorado and places women of color at the forefront of environmental thought and praxis. These interviews reveal a deep-rooted sense of spiritual and ecological consciousness that challenges Western patriarchal economic, political, and religious systems. Davis provides a grassroots Chicana perspective of environmentalism and articulates a subaltern defense of nature, gender, peoples of color, and spiritual politics for the 21st century. Her essay further decenters environmentalism from its white, middle-class mainstream to one grounded in the common struggles of all the world’s peoples.

The strength of this book is its integration of a wide range of genres, including poetry, autobiography, theoretical essays, and personal interviews that results in an interdisciplinary synthesis of ecology, cultural geography, environmental history, political economy, gender analysis, and Chicanoism. By examining dimensions of class, race, and gender, this collection roots the Mexican peoples of the upper Rio Grande in a geographic homeland and ecological consciousness that serves as a basis for collective survival.

Peña shatters the stereotype that white, middle-class Americans have on the environmental movement and successfully decolonizes both nature and the Chicano peoples in their ancestral homeland of Aztlan. In a broader sense, Peña also provides a warning for humanity of its potential demise from bio-cultural and bio-regional annihilation.

Dr. Saka, a Fulbright scholar, completed his Ph.D. at the University of Houston in 1995. He is a Mexican specialist whose areas of interest include peasant social movements and agrarian unrest in the Mexican countryside. An American of Arab ancestry, Professor Saka has taught in the Department of History at Sul Ross State University, Alpine, Texas, since 1995.

College of Lake County

Join us at the College of Lake County

Faculty like Natalia Casper and Raymond Salazar (pictured above) have found a dynamic and diverse academic community at the College of Lake County.

"I love the small classes and the fact that I have students of all ages and from many backgrounds," said Natalia Casper, a mathematics instructor who joined the college in 1998.

"The college encourages faculty to be creative and provides the resources to be innovative," said Raymond Salazar, a veteran instructor of Spanish.

Both instructors give high praise to the college’s award-winning orientation program for new faculty. "A new faculty member isn’t alone," Raymond Salazar said. "You have a support network," Natalia Casper added. "The college wants to help you succeed in the classroom."

The College of Lake County is a two-year community college with an enrollment of about 15,000, located in Grayslake, Illinois, a northern suburb of Chicago. The college offers an attractive compensation package and will recruit for a number of tenure-track teaching positions for the 2001-2002 academic year.

The College of Lake County salutes Hispanic Heritage Month and encourages readers to find out about teaching opportunities at the college.

For information, call 847-543-2065.
CALL FOR PROPOSALS

12th INTERNATIONAL CONFERENCE ON COLLEGE TEACHING AND LEARNING

April 17–21, 2001
Radisson Riverwalk Hotel — Jacksonville, Florida

Teaching, Learning and Technology: Humanizing the Learning Technologies

Keynote Presentations By:

*Ray Bradbury
Futurist and Author

*Rosalind Picard
Media Center, Massachussetts Institute of Technology

*Oliver Sacks
Author and Neurologist

The premier international conference on higher education learning encourages 25 or 45 minute proposals on...

1. Innovative college teaching/learning strategies
2. Technology — especially the use of the Web, multimedia and virtual reality in learning

SPECIAL EVENTS FOR 2001

* Twenty featured speakers
* Hands-on, interactive workshops
* Live, international videoconference in cooperation with PBS
* Presentation of Awards for Excellence in Teaching, Learning and Technology
* Presentation of Ernest L. Boyer International Award for Excellence in Teaching, Learning and Technology — $5,000 cash award contributed by Blackboard, Inc.
* Software Fair and Poster Session
* Over 250 faculty presentations

Selected, juried papers will be published and distributed to all participants.

For conference announcement and general information, consult http://www.teachlearn.org or contact:

Jack Chambers Email: chambers@fclcl.org
Ph: 904-632-3289
Fax: 904-632-3289

AA/EOE
San Francisco State University proudly announces the appointment of Tomas Almaguer—a leading scholar on race in America—as the university's new dean of the College of Ethnic Studies.

SINCE 1899, San Francisco State has been creating opportunity for students from all backgrounds.

San Francisco State University

Voices of a New Chicana/o History

Issues that inspired Voices are found in the backgrounds and lives of the work's contributors themselves. These scholars all are part of a new generation of Chicana/o historians, a generation that is in the midst of framing a debate over the future of the Chicana/o past. This selection of fourteen important new pieces of in-depth research forms a paradigm for expanding the boundaries of Chicana/o cultural studies.

Hispanic Serving Institution

Member, Hispanic Association of Colleges and Universities

President, Dr. Max Castillo
CONSORTIUM FOR A STRONG MINORITY
PRESENCE AT LIBERAL ARTS COLLEGES
Minority Scholar-in-Residence Program

With a view toward encouraging African-American, Asian-American, hispanic-American, and Native American scholars to consider teaching and research careers at liberal-arts colleges, the Consortium for a Strong Minority Presence at Liberal Arts Colleges, an association of selective undergraduate institutions, has established the Minority Scholar-in-Residence Program. Applications are invited for the dissertation fellowship program or the post-doctoral fellowship program in all disciplines of the liberal arts and engineering. Applicants should be working toward the Ph.D. or the M.F.A. degree, or should have been awarded the degree no more than five years before application.

The Minority Scholar-in-Residence will receive a stipend equal to the typical salary for beginning instructors/dissertation fellows) or assistant professors (post-doctoral fellows) at the host institutions. Scholars will be expected to do some teaching and research, and to participate in other activities under the supervision of a mentor. It is hoped that the scholars will, upon completion of their residency, be strong candidates for tenure-track positions at member institutions of the consortium or at similar institutions.

Scholars must be citizens of the United States and have had no more than five years of teaching or relevant work experience before receiving the award. Ideally, applicants for the dissertation fellowship program should have completed their research before the beginning of the fellowship year.

Among the member institutions of the Consortium, the following offer to sponsor minority scholars during the 2001-02 academic year: Bowdoin College, Bryn Mawr College, Carleton College, Colorado College, Connecticut College, Dauphin University, Grinnell College, Hamilton College, Haverford College, Macalester College, Mount Holyoke College, Oberlin College, Occidental College, Pomona College, Rhodes College, Southwest University, Swarthmore College, Union College - NY, University of the South, Vassar College, Wellesley College, Wheaton College - MA.

Duke University

DUKE FELLOWS IN
TEACHING WRITING
CENTER FOR TEACHING, LEARNING,
AND WRITING

We are building an interdisciplinary faculty to teach a first-year course in Academic Writing linked to an innovative Writing-in-the-Disciplines program. We seek several candidates with a PhD in any field and a demonstrated commitment to undergraduate teaching. Fellows draw on their disciplinary training and interests to design seminars introducing students to academic and intellectual writing. They teach three sections of these seminars per term with each section limited to 12 students. Please send a CV and a letter in which you discuss what your aims in teaching such a seminar might be and how you would try to achieve those aims. We may subsequently ask you to provide other supporting materials, including a more detailed course proposal, teaching materials, and letters of reference. Salary is competitive, with strong opportunities for professional development. Contract is for an initial three years, renewable for two more. Applications received by Friday, November 3, will be given first consideration. Please visit our website at http://www.cltw@anu.duke.edu, or mail hard copies to Joseph Harris, Director, CLTW, Duke University, Box 90236, Durham, NC 27708-0236.

Duke is an Affirmative Action/Equal Opportunity Employer. Women and minorities are urged to apply.
COLLEGE OF ARTS AND SCIENCES

CHEMISTRY - Experimental Physical Chemistry: Applications are invited for a tenure-track position. The area of concentration is defined broadly to include traditional physical chemistry and chemical physics, materials science, biophysics, physical inorganic and physical organic chemistry. The Department is housed in an award-winning research facility. The successful candidate is expected to maintain a prominent, externally funded research program. Applicants are sought at the entry assistant professor level, although outstanding applicants at all senior levels are also welcome. Applicants at the beginning assistant professor level should send a resume and a summary of research plans, and should arrange to have at least two letters of reference transmitted. Established investigators should send a letter of application and names, addresses, and telephone numbers of at least three letters of recommendation. Contact: Chair, Physical Chemistry Faculty Search, Department of Chemistry. Deadline: All applications completed by November 1, 2000 will be considered. Fax: (617) 552-2705. Website: http://chemserv.bc.edu.

COMMUNICATION - Interpersonal and Group Communication. Assistant Professor. Preference to applicants who also have expertise in one or both of the following areas: Organizational Communication and Research Methods. Applicants should have a Ph.D. in Communication, teaching experience, and an active research program. Send letter of application, curriculum vitae, selected publications or papers, teaching evaluations, and list of references to: Chair, Interpersonal Communication Search Committee, Department of Communication. Deadline: Applications must be received by October 27, 2000.

COMMUNICATION - Intercultural and International Communication. Preference given to applicants who can teach courses in issues of race and ethnicity in the global media context. Applicants should have a Ph.D. in Communication, teaching experience, and an active research program. Send letter of application, curriculum vitae, selected publications or papers, teaching evaluations, and list of references to: Chair, Intercultural Communication Search Committee, Department of Communication. Deadline: Applications must be received by October 27, 2000. All applications completed by November 1, 2000 will be considered.

ECONOMICS - Applications are invited for a full-time, tenure-track position. Applicants should display strong evidence that they are committed to producing research of the highest quality. Applicants should also have a strong interest in both graduate and undergraduate teaching. Salary is open. Please send a curriculum vitae, three letters of reference, and at least one research paper: Peter N. Ireland, Chair, Department of Economics; Website address: <finance.bc.edu/ECE/EC.html>.

ENGLISH - Assistant Professor (Ph.D. required) in Composition and Rhetoric to teach a range of graduate and undergraduate courses. Position requires (1) a dissertation and/or publications in composition studies, and (2) experience and/or strong interest in writing program administration. Theoretical and/or cultural approaches to the field are a plus. Application should include letter, curriculum vitae, writing sample, and dossier, postmarked by November 3, 2000. Address to: Paul Lewis, Chair, Department of English. Please include a self-addressed postcard for acknowledgement.

ENGLISH - Assistant Professor (Ph.D. required) in Gay and Lesbian Studies and/or Queer Theory with a specialization in any field of literature or culture. Teaching will include a range of undergraduate and graduate courses. Applications should include letter, curriculum vitae, writing sample, and dossier. Address to: Paul Lewis, Chair, Department of English. Please include a self-addressed postcard for acknowledgement.

ENGLISH - Senior Professor (associate or full) to join an established interdisciplinary Irish Studies Program and teach in the English Department. Candidates will be expected to take a leading role in further developing the program while participating in the department's undergraduate, M.A. and Ph.D. programs. Candidates must have a strong record of research and publication as well as in contemporary critical methodological work. Review of applications will begin September 15 and will continue to be accepted until the position is filled. It is anticipated that the successful candidate will assume the position July of 2001 or July of 2002. Nominations and applications should be addressed to Philip O'Leary, Irish Chair, Department of English.

HISTORY - African American History. Rank open, but candidates must hold Ph.D. in History by the time of appointment. Responsibilities involve teaching at both the undergraduate and graduate level and courses on areas of specialization. Ability to teach a wide range of courses particularly to attract students from diverse academic backgrounds. Send letter of application, curriculum vitae, three letters of recommendation, and a statement of research interests to: Cynthia Lightsey (lighsey@bc.edu), Chair, African American History Search Committee, Department of History. Deadline: November 27, 2000.

HISTORY - United States Foreign Relations. Assistant professorship in early American foreign relations. Candidates should hold Ph.D. by time of appointment. Responsibilities involve teaching at both the undergraduate and graduate levels, including survey courses and courses on areas of specialization. interest in comparative history or the Pacific Rim would be welcome. Send letter of application, curriculum vitae, three letters of recommendation, and a statement of research interests to: Marilyn Johnson (johnsohh@bc.edu), Chair, U.S. Foreign Relations Search Committee, Department of History. Deadline: November 27, 2000.

POLITICAL SCIENCE - International Relations. Assistant Professor or Instructor level, depending upon degree status. Will teach graduate and undergraduate courses in International Politics. The search is open with respect to the candidate's sub-field, but candidates should possess a strong interest and breadth in international politics theory. Candidates should have the Ph.D. In hand or be very close to completion. Interested candidates should send a letter of introduction, curriculum vitae, letters of recommendation, graduate transcripts, evidence of teaching effectiveness (if available) and a writing sample. Deadline: Completed applications must be received by October 15, 2000. Contact: Send application materials to International Relations Search Committee, Department of Political Science.

POLITICAL SCIENCE - American Politics. Full Professor. Applications are invited for a full-time, senior-level position. Will teach graduate and undergraduate courses in American Politics. The search is open with respect to the candidate's sub-field, but candidates should possess a strong interest and breadth in American politics theory. Candidates should have the Ph.D. In hand or be very close to completion. Interested candidates should send a letter of introduction, curriculum vitae, letters of recommendation, graduate transcripts, evidence of teaching effectiveness (if available) and a writing sample. Deadline: Completed applications must be received by November 1, 2000. Contact: Send application materials to Professor R. Skip Malinick, American Politics Search Committee, Department of Political Science.

PSYCHOLOGY - Assistant Professor in Behavioral Neuroscience. Responsibilities include research and teaching in the area of neuroscience in the context of an interdisciplinary curriculum. Applicants must have a Ph.D. and postdoctoral experience, and an active research program. Teaching responsibilities include at least one introductory psychology course and one upper-division course. Under exceptional circumstances, we would consider hiring at a higher level. Submit a letter of application, curriculum vitae, statements of research and teaching interests, and three letters of reference by December 31, 2000. Contact: Behavioral Neuroscience Search Committee, Psychology Department. For more information, see: <www.bc.edu/dept/psych/psych.htm>.

SOCIOLOGY - Two tenure-track positions. One position in Race/African American Sociology, rank open. Another position in advanced Quantitative Methods, Assistant Professor level. Candidates for both positions are expected to contribute to the home of our graduate program. -Social Economy and Social Justice, Gender, Race, and Class in a Global Context. Preference will be given to candidates with research interests in one or more of the following areas: Urban, Cultural Anthropology, Race and Ethnicity. Send vita and three letters of recommendation to: Sociology Department, Boston College. Review of applications will begin October 15, 2000.

THEOLOGY - Position in Old Testament/Hebrew Bible at the tenure-track level. Candidates must have a Ph.D. in Old Testament/Hebrew Bible and preferably some teaching experience. Candidates must be committed to teaching the Bible within the context of Christian theology. Teaching responsibilities include a two-semester introductory undergraduate core course in the Old and New Testaments, undergraduate electives and graduate courses for M.A. and Ph.D. students in Biblical and in Theology. Review of applications will begin on November 1, 2000 and continue until the position is filled. Candidates should send a letter of application, curriculum vitae, and three letters of recommendation to: Professor Stephen Pope, Chairperson, Department of Theology.

BOSTON COLLEGE SCHOOL OF LAW

The Law School expects to hire in the following areas: Business (including corporate finance and securities regulation); International Law (primarily international economic law, including international trade and foreign investment); Property (including advanced property such as land use and real estate transactions); and Intellectual Property. It is anticipated that openings will be available at both the tenure track and tenured level. In addition, there will be openings in the Clinical area with both solo and team teaching. Interested applicants must possess a J.D. degree, and significant experience such as practice at an advanced level, challenging government service, or a judicial clerkship. Scholarly promise, evidenced by publications, is also important. In the case of any appointees with tenure, a distinguished record of teaching and scholarship would be essential. Contact: Chair, Appointments Committee, Boston College Law School, Boston, MA 02215. Deadline: October 31, 2000. Email: bclaw@bc.edu.
BOSTON COLLEGE SCHOOL OF NURSING

Nursing - Areas of Specialization include: Adult Health, Maternal Child Health, Community Health and Psychiatric Mental Health. Application deadline: December 15.

For all positions, candidates must have a baccalaureate degree, a graduate degree in nursing or a related field, a Master's degree in Nursing, and experience as a registered nurse. All applicants must have demonstrated teaching experience in a recognized program of study. All applicants must have recent and relevant experience in teaching and research. Send letter of interest, curriculum vitae, supporting materials, and 3 letters of reference to: Dr. Anne Norris, Chair of Search Committee, URL: <http://www.bcschoolofnursing.org>.

WALLACE E. CARROLL SCHOOL OF MANAGEMENT

ACCOUNTING - An appointment at the Assistant Professor level is anticipated, but more senior appointments may also be considered. Qualifications include a Ph.D. in Accounting or related field and demonstrated excellence in teaching and research skills. All areas of specialization within Accounting will be considered. Deadline: Please direct inquiries before December 31, 2000. Contact: Professor Gregory Trompeter, Chair (gregory.trompeter@bc.edu).

COMPUTER SCIENCE - An appointment at the Assistant Professor level is anticipated but more senior appointments may also be considered. Qualifications include a Ph.D. in Computer Science or related field and demonstrated excellence in teaching and research skills. All areas of specialization within Computer Science will be considered. Deadline: Direct inquiries before December 31, 2000. Contact: Professor Robert Signorile, Chair, Computer Science Department (robert.signorile@bc.edu).

FINANCE - An appointment at the Assistant Professor level is anticipated, but more senior appointments may also be considered. Qualifications include a Ph.D. in Finance or related field and demonstrated excellence in teaching and research skills. All areas of specialization within Finance will be considered. Deadline: Please direct inquiries before December 31, 2000. Contact: Professor George Aragon, Chair, Finance (george.aragon@bc.edu).

MARKETING - An appointment at the Assistant Professor level is anticipated, but more senior appointments may also be considered. Qualifications include a Ph.D. in Marketing or related field and demonstrated excellence in teaching and research skills. All areas of specialization within Marketing will be considered. Deadline: Please direct inquiries before October 31, 2000. Contact: Professor Victoria Critten, Chair, Marketing Department (victoria.critten@bc.edu).

OPERATIONS AND STRATEGIC MANAGEMENT - An appointment at the Assistant Professor level is anticipated in Information Technology Management but more senior appointments may also be considered. Qualifications include a Ph.D. in Information Technology or related field and demonstrated excellence in teaching and research skills. All areas of specialization within Information Technology Management will be considered. Deadline: Please direct inquiries before October 31, 2000. Contact: Professor Mary Cronin, Operations and Strategic Management Department (mcr@bc.edu).

ORGANIZATION STUDIES - An appointment at the Assistant Professor level is anticipated, but more senior appointments may also be considered. Qualifications include a Ph.D. in Organization Studies or related field and demonstrated excellence in teaching and research skills. All areas of specialization within Organization Studies will be considered. Deadline: Direct inquiries before October 31, 2000. Contact: Professor William Stevenson, Chair, Organization Studies (william.stevenson1@bc.edu).

PETER S. AND CAROLYN A. LYNCH SCHOOL OF EDUCATION

ASSOCIATE DEAN AND CHAIR OF TEACHER EDUCATION - Experienced and committed individual to provide academic and administrative leadership for teacher education across the university and in collaboration with urban and suburban school communities. Applicants must have a master's degree in education and ability to respond to the needs of the community. We seek applicants from scholars/academics with experience in the development of field-based teacher education programs, school/university partnerships, and experience in pre-service and in-service education efforts. Applicants should send a letter of interest, curriculum vitae, and 3 letters of reference to: Dr. Mary Walsh (mwalsh@bc.edu).

ENDOWED CHAIR - Eminent scholar for the Anita L. Brennan Chair in Education sought. Boston College is committed to developing and supporting a cadre of models to prepare professionals for K-12 education in collaboration with schools and communities. The appointee to this endowed chair is expected to provide leadership in efforts to develop a comprehensive model of education within the Lynch School of Education at Boston College University and with schools and communities. We seek a senior scholar whose work in curriculum, professional preparation, research or pedagogy focuses on the advancement of practice, who demonstrates understanding of the needs of students who are poorly served by current school practices.

The Anita L. Brennan Professorship furthers the University's Jesuit ideals in pursuing social justice through a focus on the educational needs of all children and youth in schools. The Brennan Chair recipient should have made significant scholarly contributions to the theoretical foundations of education, teaching and learning, and be an expert in linking theory to the problems of professional practice. Two qualities would commend a person as a prospective Brennan Professor: emphasis on the development of all students and a distinguished record of teaching and scholarship in K-12 education. In addition to providing strong scholarship, the recipient must be able to build strong relationships with arts and sciences faculty in faculty in the Lynch School of Education. The Brennan Chair Chair will be the president of the Lynch School of Education. Applications will be accepted immediately and reviewed until the position is filled. Contact: Send letters of interest, curriculum vitae, and 3 letters of recommendation to: Dr. Carolyn A. Lynch School of Education, Campion Hall (bramjiang@bc.edu).

TEACHER EDUCATION, SPECIAL EDUCATION & CURRICULUM INSTRUCTION -

- A social studies/history educator with experience working in K-12 schools sought. The successful candidate will be able to teach introductory courses in secondary curriculum, history major field, and elementary education and building strong relationships with arts and sciences faculty in the Lynch School of Education. Qualifications include a Ph.D. in Curriculum and Instruction, or related field, and demonstrated excellence in teaching and research skills. All areas of specialization in Curriculum and Instruction will be considered. Deadline: Please direct inquiries before December 31, 2000. Contact: Professor George Aragon, Chair, Faculty (george.aragon@bc.edu).

- A teacher educator in the area of literacy with experience working in K-12 schools sought. The successful candidate will have an interest in preparing future teachers to promote optimal literacy development for the full range of diversity and disability in elementary and secondary classroom. In addition, candidates should be prepared to prepare educational specialists to identify reading difficulties and design appropriate interventions. Other areas of interest may include, scholarship in curriculum development, school/university partnerships, and qualitative methodology. Inquiries may be addressed to: Dr. Jean Mooney (mooney@bc.edu).

- A teacher educator with expertise in mental retardation, developmental delays, and particularly, assessment for special eligibility and the design of educational interventions/adaptations sought. The candidate will conduct research and teach courses related to mild/moderate and severe disabilities. Opportunities exist for collaboration with researchers and staff of an on-campus facility for children and youth with multiple disabilities, and to provide leadership for a teacher preparation program in intensive special needs. Other areas of interest could include special emphasis in transition from school to work, early intervention, assistive technology, bilingual special education, and family/community/university partnerships. Inquiries may be addressed to: Dr. Jean Mooney (mooney@bc.edu).

- A counselor educator with expertise in comprehensive health and wellness with a special emphasis in teaching and learning, the value of diversity, and the ability to respond to the needs of the community. We seek applicants from scholars/academics with experience in the development of field-based teacher education programs, school/university partnerships, and experience in pre-service and in-service education efforts. Applicants should send a letter of interest, curriculum vitae, and 3 letters of recommendation and 2 samples of their scholarship to: Dr. Mary Walsh (mwalsh@bc.edu).

EDUCATIONAL RESEARCH, MEASUREMENT, AND EVALUATION -

- Applicants for a tenure or tenure-track professorship in Educational Research and Assessment with a focus on emphasis on their relation to educational policy sought. The successful candidate will teach in the Educational Research, Measurement, and Evaluation (ERME) Department and be associated with the internationally acclaimed Center for the Study of Testing, Evaluation, and Educational Policy (CSTEPE). Candidates for this professorship in educational research and assessment should be nationally recognized scholars with distinguished publication records, strong records of professional service in educational policy analysis, and proven track records of raising external financial support for research. Candidates should have broad knowledge of statistical methodology and psychometrics as they apply to problems in educational research and assessment. Teaching and research activities will be valued highly. Applications will be reviewed immediately until the position is filled. Please send a current curriculum vitae, letter of interest, and samples of scholarly writing to: Dr. Albert Beaton, (beaton@bc.edu).

Send letters of interest, curriculum vitae, supporting materials and three letters of recommendation to the personnel office at BOSTON COLLEGE, Chestnut Hill, MA 02467. Boston College is an affirmative action/equal opportunity employer.

BOBTOON COLLEGE
A Jesuit Catholic University
INTEGRATED MARKETING COMMUNICATION

The Department of Communication in the School of Communication, Management and Public Policy at Emerson College invites applications for three full-time, tenure-track faculty positions starting Fall 2021. It is anticipated that two of the positions will be filled as Assistant Professors, and the third as an Associate/Full Professor. Candidates must have completed a doctorate (or equivalent professional experience) and be able to teach and do research in at least two of the following areas: media planning, media buying, integrated marketing communication, interactive marketing and e-communication, marketing management, brand management, public relations, and research methods. We seek individuals who are interested in teaching undergraduate and graduate courses. Our teaching orientation is global, applied, and multidisciplinary. We prefer applicants to have demonstrated excellence in teaching, a record of research or the immediate promise of publication, and some industry experience. We actively seek diversity in our faculty ranks.

The Department of Communication serves 300-plus graduate students and 350-plus undergraduate students in Global Marketing Communication and Advertising, Health Communication, Integrated Marketing Communication, Management and Organizational Communication, and Political Communication. We added eight new faculty members to our department as of September 1999, bringing the total to 24 full-time faculty. Emerson College is the only college in the US solely devoted to the study of communication and the performing arts.

To apply, please send a vita and three reference letters to: Dr. Mary Joyce, Chair of the Department of Communication, School of Communication, Management, and Public Policy, Emerson College, 120 Boylston Street, Boston, MA 02116-1596; or email: mary.joyce@emerson.edu; tel: (617) 824-7377; fax: (617) 824-8749.

The deadline for application materials is October 15, 2021 to ensure full consideration, but applications will be accepted until all positions are filled. Emerson College is an equal opportunity/affirmative action employer and is strongly committed to increasing the diversity of its faculty. Women and minorities are encouraged to apply. Visit our website at: www.emerson.edu.

EMERSON COLLEGE

VICE PRESIDENT FOR ACADEMIC AFFAIRS

Queensborough Community College seeks a proven academic leader for the position of Vice President for Academic Affairs. The College, a unit of The City University of New York situated on a 34-acre campus in Bayside, Queens, serves a diverse student population of 10,800 students. As a comprehensive community college, QCC offers 28 programs of study leading to Associate degrees & certificates.

The Vice President for Academic Affairs serves as the institution's chief academic officer, reports to the President, and is responsible for providing leadership in the formulation of policies for all the College's academic departments, the integration of new modalities of instruction in the existing curricula & working collaboratively with Student Affairs to provide academic support programs for student success. The Vice President reviews the recommendation of the academic department chairs & recommends to the President all faculty appointments.

An earned doctorate & demonstrated experience in progressively more responsible positions in academic administration are required. Excellent leadership, communication & computer literacy skills are desired. A proven record of scholarly activity is strongly desired. A successful candidate must possess a demonstrated commitment to the collective bargaining process, cultural diversity & shared governance.

This is an Executive Compensation Plan position; salary & benefits are competitive.

Applications will be accepted until the position is filled. Interviews will begin on or about October 30, 2021. Send letter of application & curriculum vita to: Ms. Lisa Laxson, Director of Faculty & Staff Relations, Room A-505, 222-05 56th Avenue, Bayside, NY 11364.

ILLINOIS UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN

HISPANIC OUTLOOK 0 10/23/2000
NC State University: The Department of Electrical and Computer Engineering invites applications for tenure track and research faculty positions at all ranks. Entry level and/or senior candidates are needed in the areas of: (1) analog, mixed signal, and low power circuit design; (2) computer engineering including embedded systems, microarchitecture and microsystems design; (3) solid state electronics and optoelectronics with emphasis on nanotechnology and fabrication/customization of novel devices and sensors using new materials technologies; (4) computer networking including optical networks, wireless networks, physical layer interfaces, and hardware implementation, and; (5) mechatronic systems including biomedical engineering and computational fabrics.

Qualifications include an outstanding academic or industrial record, a doctorate or equivalent in electrical or computer engineering or a closely related discipline, and a strong commitment to excellence in teaching and research. Successful candidates will have the opportunity to work with highly qualified faculty and outstanding students in well equipped laboratories associated with existing multidisciplinary technical centers such as the Center for Advanced Computing and Communication, the Center for Advanced Electronic Materials Processing, and the Center for Embedded Systems Research. For more information see the web site at http://www.ece.ncsu.edu.

Applicants should send a resume including a publication list and the names, addresses and telephone numbers of at least four references. In addition each applicant must send a one page professional statement describing his or her goals and aspirations at NC State University. Please send applications to ECE Department Head, Department of Electrical and Computer Engineering, 232 Daniels Hall, NC State University, Raleigh, NC 27695-7911.

NC State University is an Equal Opportunity/Affirmative Action Employer. Individuals with disabilities desiring reasonable accommodations in the application process should make contact through the above address, by e-mail at pbanks@eos.ncsu.edu or you may call 919/515-2335.

What Special Olympics athletes are really winning is acceptance.

For people with mental retardation or a closely related developmental disability, Special Olympics is training for life. It’s an important step toward becoming part of the community. And you can play a part in their success. For the phone number of your local Special Olympics Program, call 1-800-700-8585.
Dean
School of Business Administration
The University of Michigan–Ann Arbor

The University of Michigan invites both nominations and applications for the position of Dean of the University of Michigan Business School. The candidate should be committed to scholarship and have the desire, ability, and vision to lead a business school in one of the nation's premier research universities.

The Dean is expected to provide intellectual leadership for the Business School community, oversee the educational programs, supervise the budget and personnel administration and assume a major role in fundraising. As the chief academic, administrative and financial officer of the Business School, the Dean reports directly to the Provost and Executive Vice President for Academic Affairs.

Nominations and applications will be reviewed on an ongoing basis beginning immediately and will be accepted until the position is filled. The University's dedication to excellence is complemented by its commitment to building a culturally diverse academic community. Individuals from under-represented groups are encouraged to apply. Correspondence should be addressed to:

Joel B. Slemrod
Chair, University of Michigan Business School
Search Advisory Committee
Paul W. McCracken Professor of Economics, and
Professor of Business Economics and Public Policy
3074 Fleming Administration Building
University of Michigan
Ann Arbor, MI 48109

**SALARY:** Competitive and commensurate with experience and qualifications. Excellent benefits.

Texas Tech University is an EEO/ADA employer.
ASSOCIATE VICE CHANCELLOR FOR PUBLIC RELATIONS AND MARKETING COMMUNICATIONS

The State University of New York System Administration, located in Albany, New York, invites applications for the position of Associate Vice Chancellor for Public Relations and Marketing Communications. Reporting to the Vice Chancellor and Chief Operating Officer, the Associate Vice Chancellor oversees media relations, marketing communications, and all external and internal communications for the management organizations that support the Chancellor and the central leadership of the University. Overseeing a staff of 11, the incumbent coordinates closely with the leadership of the State University’s Construction Fund, Research Foundation and other administrative offices; serves as principal consultant for communications-related matters, working directly with the Chancellor and the Associate Vice Chancellor for Enrollment Management; and advises on research-based marketing communications strategies supporting the mission of the State University, both generally and in student recruiting. The Associate Vice Chancellor is expected to pay careful attention to the climate for higher education within the state and should establish relationships as necessary outside the University to fulfill this role. The incumbent will coordinate closely with and encourage communication among the public relations and marketing leadership of the 64 campuses within the University.

Qualifications: Bachelor’s degree in communications-related field required; Master’s degree preferred. Minimum 10 years of experience in leadership and management oversight of communications programs in a complex institution.

Salary: Commensurate with experience and qualifications.

Send letter of application and resume to: Office of Human Resources, State University of New York System Administration, State University Plaza, Room S125, Albany, New York 12246.

The State of New York is an EEO/AA employer. Applications from women, minority persons, disabled workers and/or Vietnam Era Veterans are especially welcome.

San Francisco Community College District

Vice Chancellor for Research
University of Colorado Health Sciences Center
Denver, Colorado

The Position: This is a newly-created role for a senior member of the Chancellor's staff for the centralized direction, leadership, and advocacy for research conducted at the UCHSC. As the chief science advocate for the UCHSC campus, schools, and its affiliates, the successful candidate will be responsible for technology initiatives, animal facilitated biomedical research and teaching, facilitating integrity in science and regulatory requirements, clinical trials, core program support, and collaboration among professional schools and across research units. See the website for further information and qualifications for the position. http://www.uchsc.edu/vicereresearch

The Campus: The University of Colorado's Health Sciences Center and its affiliated University of Colorado Hospital are ranked among one of the top 20 research and clinical campuses in the US. It has research funding of $200 million annually, with an extensive program of clinical trials and basic science research. The UCHSC is in the midst of an exciting, multi-year building program for a new campus and adjoining biomedical research complex on Denver's east side.

To Apply: Screening of applicants will begin December 1, and the position will remain open until filled. The University of Colorado Health Sciences Center is committed to equal opportunity and affirmative action. Interested parties should forward a letter of interest addressing their background related to selected areas of the qualifications and duties to:

UCHSC Vice Chancellor for Research Search Committee
Mail Stop A-055
4200 East Ninth Avenue
Denver, CO 80262

DIRECTOR OF STUDENT FINANCIAL AID
Student Financial Aid
Bowling Green State University

The Director provides overall management and leadership necessary for the effective administration of Bowling Green's student financial aid programs. The Director is responsible for directing the human resources and budgets of the Office of Student Financial Aid; for ensuring effective service to students, families, and other constituencies on financial aid matters; for taking a leadership role in collaboration with other BGSU offices, committees, and individuals in formulating up-to-date policies and practices with respect to financial aid; for ensuring that BGSU is in compliance with all federal, state, and third party requirements, regulations, and expectations relating to student financial aid; and for ensuring that the BGSU community is well-informed about important financial aid issues as they arise. Minimum Qualifications: Bachelor's degree required, Master's preferred, 6 to 8 years of professional experience in a financial aid office; 3 to 5 years of increasing responsibility as a manager in a student financial aid office or in another enrollment management area of a college of university; 2 years of direct customer service contact. Full-time administrative staff position. Administrative grade level 19; minimum salary $50,849. Salary is commensurate with education and experience. Full benefit package including tuition fee waiver provided. Submit letter of application, resume, and names/addresses/telephone numbers of 3 professional references postmarked by November 20, 2000 to:

Office of Human Resources (Search M-115)
100 College Park Office. Bldg.
BGSU
Bowling Green, OH 43403

BGSU is an AA/EO educator/employer.

DEAN
Hartford Seminary seeks a Dean of the Seminary. The Dean should be a person of theological and academic distinction, with an active faith commitment. The Dean is a member of the core faculty with an earned doctorate in a field related to Hartford Seminary educational programs. The Dean works with the President and faculty to exercise academic leadership in this interfaith graduate institution. We seek a creative scholar engaged in his/her own research, challenged by the Seminary's mission. The successful candidate should have significant and relevant leadership and administrative experience and effective skills at communications and consensus-building.

Founded in 1834, Hartford Seminary's mission is to support faithful living in a multi-faith environment. It offers the M.A. degree, the Doctor of Ministry degree and certificates in Black and Hispanic Ministry and Women's Leadership. It has an internationally recognized center for Islamic studies and Christian-Muslim relations and is the home to the nationally and internationally prominent Hartford Institute for Religion Research. The Seminary is a financially strong institution located in Hartford, Connecticut, which is easily accessible to New York and Boston.

Candidates should send a letter expressing their interest and a c.v. to Carl Dudley, co-chair, Dean Search Committee, Hartford Seminary, 77 Sherman Street, Hartford, CT, 06105, Fax (860) 509-9509, or deansearch@hartsem.edu. The committee will begin reviewing applications November 10, 2000, but applications will remain open until a new Dean is selected. Nominations and expressions of interest will be treated in confidence.

The search committee is being assisted by Dr. Patricia V. van der Vorm of Academic Search, who can be reached at (202) 263-7473 or pivoacademic-search.org.

An Affirmative Action, Equal Opportunity Employer, the Seminary encourages applications from women and minority candidates.

Indiana University invites applications for a faculty position in the Department of Communication and Culture and the Latino Studies Program. The candidate will be jointly appointed by Communication and Culture (the tenure home department) and Latino Studies. We seek a specialist in media in relation to Latino populations in the U.S. Media study in the Department of Communication and Culture focuses on the meanings generated and circulated through technologies of image and sound reproduction, including radio, film, television, and interactive digital media. Emphasis is placed on interpretive approaches to examining the aesthetics of media, investigating the discursive strategies, genres and media form that organize cultural production and reception within and across media, and exploring the linkages among media, ideology, and politics that influence public culture. Individuals with secondary research and teaching interests in performance, rhetoric, or the comparative study of media cultures are especially encouraged to apply.

The position is authorized at the level of tenure-track assistant professor, tenure associate professor or tenure full professor. Teaching responsibilities include undergraduate and graduate courses in Latino media, communication and culture in Latino communities, and other relevant areas of Latino Studies. Latino Studies is a new program at IU. The individual filling this position will be expected to participate actively in developing Latino Studies, which will become the tenure home for this position should Latino Studies achieve department status. In the ideal case, the incumbent will teach the same courses and maintain a strong collegial relationship with both Communication and Culture and Latino Studies before and after such a change. Applications should arrive by 27 October 2000 to insure full consideration but will be accepted until the position is filled for academic year 2001-2002. Letters of application should be accompanied by a curriculum vitae, samples of scholarship, evidence of effective teaching experience, and a list of three or more references. Mail applications to:

Richard Bauman
Search Committee Chair
Department of Communication and Culture
Indiana University
Bloomington IN, 47405

Additional information about Communication and Culture is available at <http://www.indiana.edu/~speech> and about Latino Studies at <http://www.indiana.edu/~latino>.

Indiana University is an equal opportunity and affirmative action employer. We especially encourage applications from women and minority candidates.
William Rainey Harper College is a comprehensive community college located in Chicago's northwest suburbs, which enrolls over 20,000 students of all ages. The college supports and encourages excellence in teaching, the recognition of different learning styles, the development of multicultural perspectives and the celebration of diversity.

Due to recent and anticipated retirements and organizational changes, the College seeks visionary academic leaders to join our dynamic, innovative educational environment. The College offers a very competitive salary and fringe benefit program.

**DEAN, Applied Technology, Mathematics and Physical Sciences**

**Requirements:** An advanced degree in one of the above disciplines and demonstrated success in teaching and supervisory responsibilities; effective change and understanding and appreciation of programs focusing on practical trades and applied technology; and significant experience with adult learners; an entrepreneurial approach with a results-oriented focus; ability to work collaboratively with business and industry leaders; and previous work experience in an applied technical area preferred, which should include administrative experience.

**DEAN, Resources For Learning**

Provides leadership for the areas of the College Library and Library Services, The Department of Instructional Technology, and Distance Learning Initiatives.

**Requirements:** A Master's degree in Library Science from an ALA accredited institution; an understanding and appreciation of the role of resources for learning in a community college setting; ability to work collaboratively with faculty and staff to support innovative educational programs such as learning communities, international studies and the honors program; a minimum of three years with multiple administrative duties including library administration, on-line instruction, instructional technologies or related systems; and practical experience with automated library systems.

**DIRECTOR, Department of Instructional Technology**

This is a new position that will administer and develop our new Department of Instructional Technology and implement the College's Instructional Technology plan. Responsibilities include encouraging the development and implementation of on-line instruction and the use of instructional technology in the classroom; collaboration with Information Technology to support the technical infrastructure to support instruction; assisting faculty with obtaining needed instructional and technical support; hardware and software for developing and delivering curriculum in the classroom and at a distance; and planning, budgeting and staff for the department.

**Requirements:** A Master's Degree in Instructional Design/Technology or related area with experience in managing a department of instruction design/technology, training or project development; hands-on experience producing educational and/or training materials; an understanding of instructional design principles; and familiarity with computer networks and network management, etc.

Application review will begin November 1, 2000 and will continue to be accepted until the position is filled. To be considered for any of the above positions, submit a resume, copies of credentials (including graduate transcripts), a statement outlining the contributions you can make to the college, and three (3) letters of recommendation to: William Rainey Harper College, Attn: Employment Specialist, 1200 W. Algonquin Rd., Palatine, IL 60067. Harper College is an Equal Opportunity, Affirmative Action Employer that encourages applications from women, minority group members, and persons with disabilities.

VICE PRESIDENT OF DEVELOPMENT

The Hispanic Scholarship Fund is located in San Francisco, California, seeks a mature, highly successful development professional for the position of Vice President of Development. Founded in 1975 to strengthen America by advancing the college education and resulting economic improvement for Hispanic Americans, HSF recently created a bold new mandate to double the rate of Hispanics canning college degrees by the year 2005 (from 9% to 18%). The Fund has awarded more than 40,000 scholarships totaling nearly $48 million; in the last year alone it awarded $9.3 million to 4,200 students. In 1999 HSF received a landmark grant from Lilly Endowment Inc. of $50 million and was selected as one of three partnering organizations to administer the 20-year, $1 billion Gates Millennium Scholars Program funded by the Bill & Melinda Gates Foundation.

Reporting to the President and CEO of HSF and serving as a member of her leadership team, the Vice President of Development is responsible for designing and implementing all fundraising initiatives including oversight of the final months of an endowment Campaign. Primary responsibility is to build and direct the entire development operation, including: major and planned gifts, corporate and foundation gifts, annual and alumni gifts, special events, and the establishment of six new regional offices.

The successful candidate must demonstrate an outstanding record of accomplishment in a comprehensive development program. A proven record of success in the identification, cultivation, solicitation and stewardship of six and seven figure gifts is imperative, as is experience working directly with boards of directors. This individual must be a highly energetic, creative, team builder with excellent leadership, organizational, and communications skills. Successful management of a staff of at least 8 is mandatory, and work experience in a diverse urban setting is highly desirable. A Bachelor’s degree is required, and an advanced degree is preferred.

The Hispanic Scholarship Fund offers a compensation package designed to attract an outstanding individual. Submit a cover letter, resume, and three references by November 1, 2000 to:

Belvedere Partners
PO Box 1275
Belvedere, CA 94920

The Hispanic Scholarship Fund is an equal opportunity employer.

AA / EEO Employer

Purdue University

Developmental Studies: The Department of Child Development and Family Studies at Purdue University is seeking a new professor for a faculty position in Child Development. The successful candidate will be expected to contribute to the development of courses related to the areas of Developmental Studies.

For the assistant professor position, the successful candidate will have a record that includes scholarly publications in refereed journals. Primary responsibilities include conducting and publishing research; seeking grant funding; and teaching undergraduate and graduate courses. Contributions to outreach and service activities are also expected. Applications should include a vita, statement of research interests, and three letters of reference. Inquiries should be directed to: Dr. Lynn Okagaki, Department of Child Development and Family Studies, Purdue University, W. Lafayette, IN 47907-1267.

Illinois State University

The College of Applied Life Studies at the University of Illinois at Urbana-Champaign invites nominations and applications for the position of Professor and Head, Department of Leisure Studies. Faculty research and teaching are centered around leisure from multiple social science perspectives. Candidates are expected to have a record of excellent teaching and research. The position is currently available from September 1, 2001. A letter of interest, curriculum vitae, and the names and telephone numbers of at least five references may be sent to:

Norman K. Denzin, Chair
Leisure Studies Head Search Committee
Attention: Joyce Wolverton
College of Applied Life Studies
University of Illinois at Urbana-Champaign
1206 S. Fourth Street
Champaign, Illinois 61820, USA
Telephone 217/333-4610 FAX 217/333-0404

To assure full consideration, applications must be received by December 1, 2000.
Carleton College
Mathematics and Computer Science

Statistics. The Department of Mathematics and Computer Science has a tenure-track position, with emphasis on teaching of statistics, to begin September, 2001. This is an entry-level position, although in special circumstances appointment at a higher level will be considered. A Ph.D. in statistics, mathematics, or a related field is required, and evidence of teaching excellence is essential.

Ordinarily, Carleton faculty teach two courses per term, three terms per nine-month year. We expect that the successful candidate would teach four or more statistics courses a year; if desired, the balance of the teaching load can be elsewhere in the department. Research and other scholarly activities are encouraged and supported. Carleton is engaged in efforts to attract, retain, and nurture underrepresented groups in mathematics and the sciences, we welcome candidates with interest in these efforts.

A letter of application, graduate transcript, c.v., a concise statement about working in an undergraduate liberal arts environment, and three letters of recommendation should be sent to Tenure-Track Search Committee, Department of Mathematics and Computer Science, One North College Street, Northfield, MN 55057-4025 (paper copies preferred; e-mail: mathsearch@mathcs.carleton.edu; fax: (507) 646-4312). At least one letter should specifically address teaching experience, and (for applicants whose research background is outside statistics) at least one letter should address statistical experience. Carleton is an AA/EO employer; women and members of other underrepresented groups are especially encouraged to apply. Review of applications will begin by January 1 and continue until the position is filled.

Carleton is a highly selective liberal arts college 35 miles south of Minneapolis/St. Paul. The department has 12 full-time members and 12 full-time computer technicians; it is located in a modern building with excellent facilities for learning and teaching. Computational resources include four teaching laboratories equipped with Pentium II and III PCs and SGIs, graphic workstations; operating systems include Linux, Windows, and Irix, and statistical packages used in undergraduate courses include SPSS and S-PLUS. For more information on the department, visit our website at:

CHAIR, DEPARTMENT OF PEDIATRICS

The Pennsylvania State University College of Medicine at the Milton S. Hershey Medical Center invites applications and nominations for the position of Chair of the Department of Pediatrics. The Chair reports to the Executive Vice President for Health Affairs and Dean of the College of Medicine of Penn State University and serves as the leader of the discipline and principal administrative and academic officer for the Department. This position is responsible for the coordination of teaching, research, and clinical services as well as for academic and clinical planning, development, and management of resources. The Chair also serves as the Medical Director of the Children’s Hospital.

The Department currently has 107 faculty in 12 subspecialty sections and a residency program. There are three endowed chairs, three endowed professorships, and almost $1 million in annual research expenditures. The Children’s Hospital at the Milton S. Hershey Medical Center is a 117-bed quaternary children’s care facility and includes a Rehabilitation Institute. With approximately 5,000 admissions per year and over 65,000 outpatient visits annually, it is the leading children’s care facility in the Central Pennsylvania region.

We seek a candidate with outstanding clinical and scholarly achievements, a deep commitment to academic excellence, a track record of superb leadership skills, and a vision for the further development of the discipline of pediatrics in an academic and community setting.

Letters of nomination and application should be forwarded to: Peter W. Dillon, M.D., Chair, Search Committee for Chair of Pediatrics, The Pennsylvania State University, College of Medicine at The Milton S. Hershey Medical Center, P.O. Box 850, 500 University Drive, Hershey, PA 17033-0850. Resumes accepted until position is filled.

Penn State is committed to affirmative action, equal opportunity and the diversity of its workforce.

CHAIRPERSONS

The School of Art and Design seeks three active artists/designers/educators and conceptual-style leaders to guide the continued growth of the following departments:

- **FINE ARTS** (Ceramics, Drawing, Jewelry, Printmaking, Painting & Sculpture)
- **FASHION DESIGN**
- **MEDIA ARTS** (Film, Animation, Video & Photography)

The Chairpersons will recruit and supervise faculty, develop curricula, advise students, teach, develop and monitor departmental budgets, serve on committees and represent their department within the Institute and the field. These administrative appointments carry full-time faculty rank and status.

We require a terminal degree in an equivalent field in the applicant’s discipline, administrative experience, college-level teaching experience and recognized leadership in teaching. Salary and faculty rank are commensurate with experience and qualifications.

Please submit your resume, letter (indicating your position of interest), and the names and addresses of three references by November 6, 2000 to Chairperson Search Committee, Dean of the School of Art and Design, Mass 420.

FULL-TIME FACULTY

Appointment to three tenure-track positions will be at the Assistant/Associate Professor rank. Responsibilities include teaching, student advisement; curriculum development and committee work. Salary and faculty rank are commensurate with experience and qualifications.

- **ILLUSTRATION**
- **INFORMATION AND LIBRARY SCIENCE**

The selected candidate will teach advanced conceptual illustration in all styles and mediums, both traditional and electronic, to junior and senior level students in the School of Art and Design’s undergraduate Communications Design department. A Bachelor’s degree or equivalent is required; a Master’s is preferred.

Nominations and applications, including resumes and three references, should be submitted to:

Mr. Randy J. Harris
Vice Chancellor for Administration and Finance, University of Houston System
Vice President for Administration and Finance, University of Houston

Ezekial Cullen Building, Suite 226
Houston, Texas 77204-2162

The University of Houston is an Equal Opportunity/Affirmative Action institution. Minorities, women, veterans, and persons with disabilities are encouraged to apply.
DEAN
COLLEGE OF ARTS AND SCIENCES

Loyola College in Maryland invites applications and nominations for the position of Dean of the College of Arts and Sciences. The previous dean has become the chief academic officer at Fordham University; the position is available July 1, 2001, and is being held by an interim appointee during the current academic year. Loyola College is a dynamic, highly selective Jesuit institution, steeped in the liberal arts tradition and recognized as a leading independent, comprehensive university in the mid-Atlantic region. Located on 65 acres in a beautiful residential section of Baltimore, Loyola enrolls over 3,300 students in its undergraduate programs and 3,000 students in its graduate programs. Loyola College operates on a budget of approximately $112 million and holds an endowment of $150 million.

The College of Arts and Sciences is composed of 20 academic departments with 171 full-time faculty. The College offers undergraduate degree programs in the traditional liberal arts and sciences, engineering, speech pathology, and education. It also offers master's programs in psychology, education, pastoral counseling, speech pathology, engineering, and modern studies. There is a Ph.D. program in pastoral counseling and a Psy.D. program in clinical psychology. Loyola has study abroad programs in Leuven, Belgium; Fresnes/Saint-Cloud, France; Tyne, England; Alcalá, Spain; Melbourne, Australia; and Bangkok, Thailand.

The dean is the principal executive officer of the College of Arts and Sciences; he or she reports to the vice president for academic affairs and serves on the president's management team. Reporting to the dean are 20 department chairs, the director of the College Honors Program, the director of the Center for the Humanities, and an associate dean. The dean's responsibilities include providing leadership in academic matters, facilitating the College's Jesuit mission, administering the College; supporting faculty excellence and professional growth; and promoting efforts to increase diversity. The dean will lead the strategic planning process for the College of Arts and Sciences and play an active role in shaping the plan for Loyola College as a whole.

Applicants must have academic leadership experience, preferably at an institution of high quality that values both teaching and scholarship; academic credentials and qualifications sufficient to hold the rank of professor in an academic department; and a strong record of accomplishment at a senior level; a clear vision of the purpose and goals of liberal education at a Jesuit, Catholic institution and a commitment to Jesuit, Catholic ideals; and a demonstrated commitment to diversity. The dean's salary is highly competitive and commensurate with qualifications and experience. Additional information about the institution and the position is available on the College's website at www.loyola.edu/cas_dean.

Nominations and applications are invited. Review of applications begins on November 10 and will continue until the position is filled. Confidentiality will be maintained until finalists have been named, and references will not be contacted until candidates have been notified. Candidate materials, including a letter describing interest in and qualifications for the position, and the names and phone numbers of five references, should be sent to:

Dr. Jean Dowdall
College's search consultant
A.T. Kearney Executive Search
330 John Carlyle Street
Alexandria, VA 22314

Communication and submission of materials by email as MS Word attachments is encouraged; send materials to: elizabeth.musley@atkearney.com.

For more information, our consultants can also be contacted by phone at (703) 437-3066, or by fax at (502) 395-1510.

Loyola College in Maryland is an Equal Employment Opportunity Employer.

FACULTY & TA DEVELOPMENT

The Ohio State University is seeking applications for two positions in the Office of Faculty and TA Development (FTAD), a university-wide service office that provides teaching support to departments, faculty, and teaching associates through orientations, conferences, workshops, and seminars, personal consultation, project assistance, research, program planning and coordination, and national services and involvement.

ASSISTANT DIRECTOR

Collaborates with director and staff to plan, coordinate, and implement a variety of programs and activities to support faculty and teaching associate professional development; consults with faculty and academic units about instructional design and teaching and learning; serves in preparation of budgets, plans, and reports; represents unit in absence of director. Seeking candidates with Ph.D. or other terminal degree; experience in university teaching, research, program planning, implementation, and evaluation related to teaching in higher education.

INSTRUCTIONAL DEVELOPMENT SPECIALIST

Coordinates programs and projects to improve teaching and learning climate for diversity, including the Commitment to Success Program (CSP), a diversity climate assessment initiative; participates in planning, implementing, and evaluating a full range of activities to promote understanding of teaching issues and generate creative approaches for fostering a successful teaching and learning climate for all students; works with academic units to develop long-term multicultural teaching and/or curricular action plans for change; designs, develops grant proposals to fund multicultural teaching activities; conducts research and contributes to national dialogue; develops and evaluates workshops, seminars, print, and Web-based materials and conferences; consults with faculty and academic units about all issues in teaching and learning; leads occasional courses and contributes to program planning for unit. Seeking candidates with doctoral degree in an appropriate field or equivalent; background in multicultural teaching in higher education and knowledge of faculty and TA development; experience with program planning, implementation, and evaluation related to multicultural teaching in higher education. Knowledge of disability issues a plus.

Review will begin on November 2, 2000, but applications will be considered until position is filled. Send cover letter indicating #1513-HOE for Assistant Director and #1514-HOE for Instructional Development Specialist, and two (2) copies of curriculum vita to: Employment Services, The Ohio State University, 2221 N. High Street, Columbus, Ohio 43210-4401.

The Ohio State University is an Equal Opportunity, Affirmative Action Employer. Women, minorities, veterans and individuals with disabilities are encouraged to apply.

EDUCATION

INSTRUCTORS

MAKE A DIFFERENCE!

Mott Community College, a leading educational institution located in Southeastern Michigan, is currently seeking candidates for full-time Instructor positions. The Campus Activities Complex has two openings:

**SYSTEM MANAGER**

The Office of Campus Dining has an immediate opening for an individual to manage its debit account and point-of-sale system operations. Supervising a staff of two, will have primary responsibility for all technical components of the campus-wide debit plan system to ensure uninterrupted service for customers and to support the administrative systems of the Campus Activities Complex. Will also manage the daily transaction data generated by the debit system and the financial reconciliation of debit plans with individual account activity; facilitate the growth and development of the debit account system on the MIT campus, and manage the department's web site and associated processes including e-commerce solutions for debit account growth. Will report to the Director of Campus Dining.

Requirements: A bachelor's degree in business administration or computer science or equivalent experience in debit card system management or related field. Must be self-motivated, resourceful, and have a proven track record of success in systems development and improvement. Should possess strong computer and communications skills with knowledge of computer system management. Excellent problem-solving abilities and customer service orientation a must. Job No. 00-1011H

**ASSISTANT MANAGER FOR EVENT PLANNING**

An immediate opening is available for an individual who will manage the scheduling, event planning, and information center functions with the Campus Activities Complex. This department performs in the division of Student Life and operates five facilities around the clock, programming and managing twenty-eight on-campus venues with over fourteen thousand scheduled events annually. This position functions in both supervisory and collaborative capacity. Primary responsibilities include coordinating all aspects of program reservations and site scheduling for all venues, overseeing the Event Management System database (EMS) providing training and leadership of front desk and event planning support staff; contributing to long-range area planning, policy, and web site development; supervising the Source, an information booth and box office; serving as liaison to appropriate departments regarding alcohol and entertainment licenses and policies; and assisting operations managers in coordinating areas such as security, catering, technical, and ticketing operations prior to the event.

Requirements: A bachelor's degree (master's preferred) and three to five years' related experience. Preference will be given to those with background in event planning, student/campus service organizations, customer service, supervision, and management. Must be an excellent communicator with working knowledge of computer applications and software. Experience with facility reservation systems highly desirable. Job No. 00-1035H

Interested candidates should submit a resume and cover letter referencing appropriate Job No. to: Jennifer Walsh, MIT Human Resources Dept., PO Box 391229, Cambridge, MA 02139-0013. To apply on-line: web.mit.edu/personnel/www/resume.htm.

**West Chester University of Pennsylvania**

**SOCIAL WORK**

(Two Tenure Track Positions)

West Chester University of Pennsylvania's Undergraduate Department of Social Work invites applicants for two tenure track faculty positions available Fall 2001. Each position will chair a curriculum sequence and teach primarily in two of the following areas: (1) policy, (2) research, (3) practice, and (4) human behavior in the social environment. Other responsibilities include student advising, committee assignments, scholarly activities, research, and community service. Applicants must be able to contribute to maintaining the BSW Program's accreditation with the Council on Social Work Education.

Requirements for appointment at the Associate Professor Level positions are (a) three years post MSW social work practice; (b) eligibility for PA licensure as a social worker; (c) Ph.D. or DSW; (d) at least five years of teaching experience in an accredited social work department preferably at the undergraduate level; (e) demonstrated leadership in undergraduate baccalaureate Social Work Education is preferred.

Requirements for the Assistant Level Position are (a) three years post MSW social work practice experience; (b) eligibility for PA licensure as a social worker; (c) Ph.D. or DSW preferred, ABD considered; (d) commitment to undergraduate education; (e) teaching experience in an accredited social work department.

The BSW Program has been accredited since 1974. This is a thriving department with approximately 200 students and is well respected in the practice community. It offers innovative programs that strive to meet community needs. Strategically located in the center of the Mid-Atlantic corridor, West Chester is convenient to major cultural, historical, commercial institutions, and recreational activities. Its proximity to unspoiled countryside affords a unique atmosphere, combining elements of urban, suburban, and rural living. West Chester is located just 25 miles west of Philadelphia and 17 miles west of Wilmington (DE).

Rank and salary are commensurate with qualifications and experience. Minority applicants are especially encouraged to apply. Applicants must successfully complete interview and a teaching demonstration. Submit letter of interest, curriculum vitae, graduate transcript, and three letters of recommendation to: Richard W. Voss, Undergraduate Department of Social Work, West Chester University, West Chester, PA 19383.

For more information please call 610-436-2527. Review of applications will begin immediately and continue until the positions are filled. West Chester University is an Equal Opportunity/Affirmative Action Employer.

EEO Institution
Texas A&M University—Corpus Christi

English Five tenure-track assistant professor positions beginning August 2001. Primary areas: Developmental Writing (Position 1); Community literacy and service learning (Position 2); Literatures of the Southwest (Position 3); Technical and Professional Writing (Position 4); American literatures and cultures to 1865 (Position 5). Desired secondary areas are English Education, cultural rhetorics, languages and literatures of the Borderlands, film as literature, and literary theory. No particular combination of primary and secondary areas is specified, although English Education is especially needed. Ph.D. preferred, ABD considered. Among positions 1, 2, & 3, an appointment as associate professor may be possible depending on current rank.

Send application letter (please refer to position by the above name and number), vita, graduate transcripts, and three letters of reference to Dr. Javier Villareal, Chair, College of Arts and Humanities, Texas A&M University—Corpus Christi, 6300 Ocean Drive, Corpus Christi, Texas 78412. To ensure fair consideration, completed application must be received by November 10, 2000. The A&M-CC English faculty (16 tenured line) emphasizes teaching (94 standard load), equal respect for literature and writing and linguistics, and service to the diverse communities of South Texas. Our M.A. in English degree emphasizes composition and rhetoric. Teaching loads are half lower-division courses and half upper-division/graduate.

A rapidly growing institution, Texas A&M University—Corpus Christi is an Equal Opportunity Employer with a commitment to diversity and specifically encourages women and minorities to apply.

INDIANA UNIVERSITY
KOKOMO

Indiana University Kokomo announces the following openings:

LECTURER IN SPANISH: Renewable position for a Lecturer in Spanish. Successful candidate will have a Masters degree in Spanish language, culture, or literature, or equivalent experience in Spanish with a minimum of one year teaching experience. Applicants must be devoted to undergraduate teaching and prepared to offer introductory, intermediate, and upper-level grammar/composition courses in Spanish culture and literature and for specific professional purposes. We seek a person with native or near native fluency and proficiency with computer-assisted foreign language instruction. The ability to teach French and/or German, while not required, will be considered positively. Other responsibilities include undergraduate advising and service on campus-wide and departmental committees. Send cover letter, curriculum vitae, and three letters of recommendation to Dr. Victor Krebs, Chair, Spanish Search & Screen Committee, Indiana University Kokomo, P.O. Box 9003, Kokomo, IN 46904-9003. Review of applications will begin on November 6, 2000, and continue until the position is filled. Position begins August 2001. Applicants should understand that the position is subject to budget availability.

One of eight campuses of the Indiana University, Indiana University Kokomo is a comprehensive non-residential campus located about 50 miles north of Indianapolis in Kokomo, Indiana, a city with a population of about 47,000. Committed to student success, the campus serves approximately 2,800 students from 22 counties in central Indiana. An additional 150 students pursue degrees in technology in cooperation with Purdue University. IUK has approximately 210 faculty and staff and 100 part-time employees. Associate, baccalaureate, and master’s degrees are offered. Additional information about Indiana University Kokomo can be accessed at http://www.iuk.edu.

Indiana University Kokomo maintains a vigorous affirmative action program and encourages applications from members of minority groups. Salary and benefits are competitive. IUK is an Equal Opportunities/Affirmative Action employer.

AMERICAN UNIVERSITY
WASHINGTON, DC

School of Public Affairs

ASSISTANT PROFESSOR
Public Policy and Administration

The Department of Public Administration at American University's School of Public Affairs in Washington, DC invites applications for a tenure track position at the rank of Assistant Professor beginning Fall, 2001. A Ph.D. is required by August 2001. The Department is seeking a faculty member understanding of public administration and expertise in application of information technology management in the public sector. This position will be expected to teach the MPA core course in information technology management and coordinate the information systems management concentration with the Department of Computer Science and Information Systems. The successful candidate must have scholarly and teaching interests in public policy and administration as well as a commitment to service in keeping with university standards. Review of all applications will begin November 15, 2000 and continue until the position is filled.

American University is an equal opportunity employer committed to a diverse faculty, staff, and student body. Women and minority applicants are strongly encouraged to apply. Nominations and applications should include a current vita, sample of recent publications, list of three references, including addresses to phone numbers, plus a short statement describing the candidate's contribution to public policy/admnistration and near-term intellectual agenda. Teaching evaluations should also be submitted. Please send materials to:

THE LOS ANGELES COMMUNITY COLLEGE DISTRICT

invites applications and nominations for the following position:

• VICE PRESIDENT OF ACADEMIC AFFAIRS

Los Angeles Mission College

WOMEN, MINORITIES AND THE DISABLED ARE ENCOURAGED TO APPLY

The Los Angeles Mission College District is seeking a Vice President of Academic Affairs to serve at Los Angeles Mission College. Interested individuals who possess the required training and experience are invited to submit applications.

The Vice President of Academic Affairs is the chief instructional officer, reporting directly to the College President. The Vice President will be an experienced and visionary academician who has the expertise to provide strong leadership in the initiation and development of curricular programs, in budgetary and personnel matters, in the understanding and support of K-12 and higher education reform issues, in the role of technology in education, and in the promotion of community connections and partnerships.

REQUIREMENTS: Applicants must have earned a master’s degree or an advanced degree of at least equivalent standard from an accredited college or university. Also required are three years of successful full-time experience as an administrator (clean or higher), and three years of successful full-time experience as a faculty member, both in accredited institutions of higher education. Teaching experience and excellent communication skills are desirable, as is experience in working with a population (faculty, staff and students) of diverse ethnic, linguistic, and socioeconomic backgrounds.

COMPENSATION: The current salary range is $89,999 to $115,531 annually. New employees to the District will be allocated within the salary range according to previous salary. Employee benefits include 15.5 paid holidays annually, 94 days paid vacation annually, medical/hospital, dental and vision care plans and a $40,000 group life insurance policy.

FILING AN APPLICATION: All applicants must file a letter of intent which relates to the responsibilities and desirable qualifications detailed in the position announcement. That announcement is available from the District. Candidates in the District pool will be notified by letter; their applications need not be reviewed if they fail to respond with a letter of intent which addresses the issues covered in the flyer. For those not in the pool, the letter of intent, resume, and the names, addresses and phone numbers of at least three references must be sent. Materials should be received no later than 4:30 p.m. on Friday, November 10, 2000, but late applications may be accepted until the position is filled. Selected candidates will be sent additional materials, and will be placed in a continuing pool for up to two years. If selected, additional documentation, such as official transcripts, will be required. Send to: Human Resources, Los Angeles Community College District, 770 Wilshire Blvd., Los Angeles, CA 90017, or FAX (213) 891-9341. For information on the District please access http://www.laccd.edu on Internet. For additional information, contact the Human Resources Division at (213) 891-9256.

UTPA is an EEO/AA employer.
KENYON COLLEGE
FACULTY POSITIONS

KENYON COLLEGE announces tenure-track positions at the Assistant Professor level for the 2001-2002 academic year.

KENYON COLLEGE is a highly selective private liberal arts college of 1300 students located in the beautiful village of Gambier in central Ohio. For faculty positions the Ph.D. or appropriate equivalent is expected. Candidates should have a strong commitment to teaching undergraduates in a liberal arts context and a well-articulated research plan.

ART HISTORIAN, ITALIAN RENAISSANCE AND BAROQUE ART. Assistant Professor. Teach western survey and develop intermediate and advanced courses in area of specialty; expectation of contributing to interdisciplinary mission of the college. Ph.D. required; teaching excellence and promise of scholarly research and publication expected. Send a letter of application, CV, three letters of recommendation and a writing sample (chapter of dissertation or published article) to: Chair, Renaissance/Baroque Search Committee, Art History, Bailey House, Kenyon College, Gambier, Ohio 43022. AC-INT by prior appointment only. A/D January 15, 2001.

BIOORGANIC CHEMISTRY. Assistant Professor. Involves active participation in undergraduate research as well as teaching Organic Chemistry and an advanced topics course in Biochemistry. Preference will be given to those with postdoctoral experience and whose research interests interface with nucleic acid chemistry or biomacromolecular NMR. To apply, submit a CV, undergraduate and graduate transcripts, statements of teaching philosophy and research interests and three letters of recommendation to: Professor Anthony T. Watson, Department of Chemistry, Kenyon College, Gambier, Ohio 43022. Review of applications will begin on November 17, 2000.

DANCE. TEACHER/CHOREOGRAPHER. Assistant Professor. Teach equivalent of three courses per semester, guide student creative work, advise, fulfill administrative responsibilities. Graduate degree in dance, MFA or equivalent required. Experience teaching dance at the college or university level highly desirable with ability to teach in additional areas: e.g., world dance forms, improvisation, kinesiology, labanotation. Strong commitment to teaching essential, including novice as well as experienced dancers. Send letter of application, CV, three letters of recommendation with phone numbers to: Harlene Marley, Chair, Department of Dance and Drama, Kenyon College, Gambier, Ohio 43022. A/D January 10, 2001.

ENGLISH. Kenyon has a newly endowed chair in creative writing and literature. The Robert Hubbard Chair in Poetry will have a 2/2 teaching load, will teach both poetry-writing workshops and literature courses. The Hubbard Chair will also have a special fund to support programs to foster the appreciation of poetry and to bring visiting writers to campus. We seek an accomplished poet, who can provide evidence of teaching excellence and who is committed to the study of poetry. MFA or Ph.D. preferred. Most appointments at Kenyon are made at the rank of Assistant Professor. However, exceptional applications at a senior level will be considered. Applications will be accepted until the position has been filled, but to ensure that your application will be reviewed in time for MLA interviews, send a letter of application and CV by November 15 to: James P. Carson, Chair, Department of English, Kenyon College, Gambier, Ohio 43022.

HISTORY. African American. Assistant Professor. The History Department is especially interested in a dynamic teacher and scholar whose work focuses on a period prior to the twentieth century. Teaching obligations will include occasional direction of the United States survey as well as introductory and upper-level courses in African American history. Ph.D. required by August, 2001. Selected interviews will be conducted at the AHA annual meeting. Send a letter of application, CV and three letters of recommendation to: Bruce Kinzer, Department of History, Kenyon College, Gambier, Ohio 43022. Please indicate if you will be attending the AHA. Review of applications will begin in mid-November.

MATH. Assistant Professor. A Ph.D. in Statistics or Mathematics is required. The teaching load will consist primarily, but not exclusively, of statistics courses. Send a letter of application, CV, transcripts a statement of teaching philosophy, and three letters of reference (at least one regarding teaching) to: Chair of the Search Committee, Department of Mathematics, Kenyon College, Gambier, Ohio 43022. A/D December 31, 2000. For more information see http://math.kenyont.edu.

PHILOSOPHY. Assistant Professor or Instructor. AOS: Ethics. AOC: Open, but the department has needs in Asian Philosophy, Feminist Theory, Kant, Social-Political Philosophy and Wittgenstein. A Ph.D. and experience with a small liberal arts college are highly desirable. In addition to offering courses in areas of expertise, the successful candidate is expected to regularly offer introductory courses in Applied Ethics. Send a CV, three letters of recommendation, graduate school transcript and one brief sample of written work to: Prof. Juan De Pascuale, Chair, Department of Philosophy, Kenyon College, Gambier, Ohio 43022. Faxed materials will not be accepted. Completed applications received before December 1, 2000 will be considered for interview at Eastern Division meetings in New York City.

PHYSICS. Assistant Professor (http://topaz.kenyont.edu/depts/physics). Duties include teaching introductory and advanced physics courses and laboratories. Candidates must have a Ph.D. in Physics and a commitment to teaching in a liberal arts context. The field of specialization is open, but must allow for the development of an active research program involving students. Competitive start-up funds are available. Send a CV, a statement describing how your professional goals and interests fit our liberal arts environment, and three letters of reference to: Dr. John Idehue, Chair, Department of Physics, Kenyon College, Gambier, Ohio 43022. (idehue@kenyon.edu). Applications received by January 1, 2000, will receive full consideration.

SPANISH. Assistant Professor or Instructor. Ph.D. preferred, evidence of teaching excellence and scholarly potential required. Must have native or near-native command of Spanish. The Department is seeking a specialist in any aspect of Latin American literature and culture, with a strong commitment to language teaching using communicative approaches. Teaching load is 3/3, 3/2 divided among language, literature and culture courses. Please send a letter of application, CV, dossier, and three letters of reference to: Charles A. Pianu, Chair, Spanish Search Committee, Department of Modern Languages and Literatures, Kenyon College, Gambier, Ohio by November 15.

For further information regarding Kenyon College visit: http://www.kenyon.edu

An equal opportunity employer, Kenyon encourages applications from women and minority candidates.
**SAINT FRANCIS COLLEGE**

**TENURE-TRACK APPOINTMENT IN PHILOSOPHY**

Saint Francis College seeks candidates for a tenure-track faculty appointment in philosophy at the assistant professor rank. Primary teaching responsibilities include Discovering Philosophy, Ancient and Medieval Philosophy, Philosophy of Human Nature, Logic, and Business Ethics; ability to teach Health Care Ethics a plus.

Saint Francis College, founded in 1847, is a private, comprehensive institution, Catholic in character and tradition and sponsored by the Franciscan Friars. Saint Francis College's scenic 600-acre campus is located about seventy miles east of Pittsburgh in the Allegheny Mountains of western Pennsylvania and provides an excellent learning environment for about 2000 undergraduate and graduate students.

Qualifications include the Ph.D. degree; demonstrated commitment to teaching excellence and student advising; willingness to participate in the College’s General Education Program, including teaching a freshman colloquium on a regular basis. Scholarship and service involvement will be expected, as will involvement with the College’s Ethics Institute.

Send letter of application, c.v., a statement of teaching philosophy, and names/addresses/phone numbers of three references to:

**UNION**

**DEAN OF ARTS AND SCIENCES**

Union College invites applications and nominations. Reporting to the Vice President for Academic Affairs/Dean of the Faculty, the Dean of Arts and Sciences has operational responsibility for all academic programs in Humanities, Social Sciences, and Natural Sciences. Primary responsibilities include faculty recruiting, faculty development and evaluation, attraction of external funding to strengthen individual and academic programs, and oversight of curriculum and budget.

The Dean of Arts and Sciences must be committed to research and teaching as mutually supportive enterprises and must demonstrate a sustained record of distinguished achievement in both areas. Union seeks someone with proven leadership in consensus building and collaborative problem solving who understands the goals of liberal education and will vigorously work to support and enhance the diversity of the faculty and student body.

Union College is firmly committed to Affirmative Action and strongly encourages women and those who are members of minority groups to apply. Union offers employment benefits to domestic partners of employees and prohibits discrimination on the basis of sexual orientation.

Candidates should include a letter of application, a current resume, and names, addresses and phone numbers of at least five references. All nominations and applications will be held in confidence. Review of applications will begin immediately. Please send applications or nominations by December 1, 2000 to:

**Professor Ruth Stevenson, Chair**  
Search Committee for the Dean of Arts and Sciences  
Felgenbaum Hall  
807 Union Street  
Schenectady, NY 12308-2311

Union College, founded in 1795, the nation’s oldest liberal arts college with engineering is private and highly selective. For further information see [www.union.edu](http://www.union.edu).
Case Western Reserve University
Director of University Budget

Case Western Reserve University, one of the nation's leading research institutions and a member of the Association of American Universities, invites nominations and applications for the position of Director of University Budget. The Director develops, manages, and evaluates the $500 million operating budget and the capital budget planning process of the University.

The Director reports to the Provost and works with Officers of the University and with the Deans of CWRU's nine academic units to formulate budget guidelines and develop short and long term financial planning processes as a key component of the University's strategic plan. The Director coordinates with the Vice President for Finance and Administration and the Vice President for Institutional Planning on appropriate major projects. The Director also serves as CWRU's financial control officer, supervising monthly and quarterly forecasts of budget operations.

The Director convenes the President's Financial Planning and Strategy Group (chaired by the President) and works with the Provost and other Group members to develop the agenda for these meetings. The Budget Director also directs the development of budget assumptions and goals and the budget preparation process for all units, providing coordination for budget officers across the University.

Qualifications: Minimum requirements for this position include a B.A. or B.S. with 10 years' experience in budget and financial planning in higher education or a related setting. Advanced degree strongly preferred. The successful candidate should have experience working with academic policy issues as well as budget analysis and resource planning. Familiarity with financial systems and related computer programs is essential, as are strong communications skills. The person must also possess the ability to work collaboratively with diverse constituencies in a complex, decentralized environment.

Application Procedure: Review of applications and nominations will begin immediately; please include cover letter, including salary history, along with resume and three references in confidence to:

Auerbach Associates/CWRU
65 Franklin Street, Suite 400
Boston, MA 02110
Fax: (617) 451-5199
Email: alyssa@auerbach-assc.com

In employment as in education, CWRU is committed to equal opportunity and affirmative action.

Willamette University has made a strong institutional commitment to diversifying its faculty, student body, and undergraduate curriculum.

WILLAMETTE UNIVERSITY
Rice University invites applications and nominations for the position of Dean of the School of Humanities. The dean should display outstanding qualities of collegiality, leadership, and interpersonal skills. The dean must also have a strong grasp of the challenges and opportunities confronting the humanities, represent the School of Humanities to a variety of constituencies, and participate in University fund-raising initiatives. The dean will report to the provost.

Rice University is an independent, coeducational, nonseminarian, private university dedicated to undergraduate and graduate education, research, and professional training in selected disciplines. Located in Houston, Texas, Rice has an undergraduate student population of 2,750, a graduate and professional student population of 1,400, and a full-time faculty of 476. Established in 1891, the University has an operating budget of approximately $305 million and an endowment of $2.9 billion. The School of Humanities currently consists of 11 departments with 111 full-time faculty members. There will be substantial opportunity to recruit faculty for humanities positions.

Applicants must have a distinguished record of scholarship commensurate with a tenured appointment at Rice University. Prior experience in academic administration is preferred. Salary is commensurate with experience and qualifications. To ensure full consideration, applications should be submitted by November 15. Rice University is an affirmative action/equal opportunity employer; women and minorities are encouraged to apply.

If you are interested in this position, please send a letter discussing your qualifications and current curriculum vitae to:

Responsibilities:

- Conduct the administrative responsibilities of the department
- Promote the research mission of the Department, College, and University
- Work with faculty to implement model graduate and undergraduate programs
- Support professional service
- Work with faculty to review personnel and to administer departmental matters
- Lead efforts to stimulate professional growth in a collegial environment
- Teach one course each semester, advise graduate students, and chair doctoral committees

Anticipated Beginning Date: July 1, 2001

Application Deadline: Initial screen will begin December 8, 2000

Applications must include a letter of application, curriculum vita, three scholarly publications, and three letters of reference. Please send applications to: Jayne Fleener, Chair  
Department Chair Search Committee (ILAC)  
College of Education  
The University of Oklahoma  
820 Van Vleet Oval  
Norman, OK 73019-0260

The University of Oklahoma is an Equal Opportunity/Affirmative Action Employer. OU is responsive to the needs of dual career couples. Underrepresented groups are encouraged to apply. The Department is committed to cultural pluralism in our programs, profession and society.
Salisbury State University seeks a proven, enthusiastic and energetic leader for the position of Provost and Vice President for Academic Affairs. The successful candidate must be an academic leader and a team player that is skilled in building consensus, fostering a collegial environment, and promoting a shared vision for the University. The appointment will be effective on or before July 1, 2001.

About the University: Founded in 1923, Salisbury State University is one of the 13 institutions that comprise the University System of Maryland. SSU is located on Maryland's scenic Lower Eastern Shore, close to ocean beaches and the Chesapeake Bay, and 2-3 hours from the metropolitan areas of Washington, Baltimore, Philadelphia and Norfolk. SSU offers 30 undergraduate majors and master's programs including English, history, psychology, education, nursing, applied health physiology, and business. SSU's four schools are endowed: the Peru School of Business, the Henson School of Science and Technology, the Fulton School of Liberal Arts, and the Seidel School of Education and Professional Studies. SSU has been cited nationally as one of the top ten public regional universities in the North according to U.S. News and World Report, and also has been recognized by the Princeton Review and Kaplan's magazine. With a student population of approximately 6,400, SSU has a full-time faculty of 271, an annual operating budget of approximately $74 million, and annual contract and grants revenues of approximately $3 million.

Primary responsibilities of the Provost and Vice President for Academic Affairs:
The Provost is the chief academic administrator of the University, responsible for the areas of academic policy, planning, curriculum, faculty development, faculty personnel administration, library, instructional technology, and academic budgeting. The Provost is the second-ranking officer at SSU, reporting directly to the president, and serving in her absence as the chief administrative officer. The Provost works collaboratively with the four academic deans, dean of the library, dean of enrollment management and the chief information officer, and other campus constituents in an environment where shared governance is highly valued. This position has responsibility for registrar, academic advising, admissions, financial aid, research, and general student services. The successful candidate also must be able to build partnerships with institutions, businesses, and individuals that will strengthen SSU's reputation and academic ties with the community.

Qualifications: Earned doctorate and a minimum of five years' experience in higher education administration; record of teaching and scholarship sufficient to qualify the candidate for rank of associate or full professor; impeccable character and personal integrity, healthy sense of humor; understanding of the needs of a variety of programs in the liberal arts and sciences and professional disciplines; participatory leadership style and commitment to shared governance; desire to work with faculty, students, alumni and donors to promote excellence in the academic programs of the institution; interest in integrating information and instructional technology for academic programs and outreach; strong commitment to promoting equal employment opportunity, affirmative action, cultural diversity, and global awareness; understanding of the importance of K-16 collaboration; knowledge of, and experience with, trends, policies and issues in higher education; demonstrated experience in fiscal matters; excellent problem-solving, interpersonal, and oral and written communication skills; ability and interest in working closely with the president in fundraising efforts.

Appointment Information: Salary range begins at $120,000. Applicants should submit a letter of interest that details experience and accomplishments relevant to the position, a current vita and list of five references. Review of applications will begin October 24, 2000, and continue until the position is filled. Send nominations and application materials to: Provost Search Committee, attn: Dr. Peggy Bibbo, Associate Vice President of Human Resources; 140 Holloway Hall, Salisbury State University, Salisbury, Maryland 21801.

Salisbury State University is committed to employment equity and diversity in the workplace. We especially welcome and encourage applications from women, minorities, and persons with disabilities. Our employment goals are to create a workforce from a variety of backgrounds and experience that will strengthen the values of a diverse university community. Salisbury State University is an Affirmative Action/Equal Opportunity employer.

ARIZONA STATE UNIVERSITY

DEAN, COLLEGE OF EDUCATION
ARIZONA STATE UNIVERSITY
MAIN CAMPUS

Arizona State University invites applications and nominations for the position of dean of the College of Education (COE), Main Campus. The dean reports directly to the senior vice president and provost, provides academic and administrative leadership and represents the college internally, across the state and nationally. The dean is expected to coordinate the college’s efforts with school districts, other colleges, state and federal agencies, and local communities; encourage excellence in professional education and original scholarship, and demonstrate a commitment to successful collaboration with public schools. The dean is responsible for planning, organizing, directing, and coordinating all activities of the college in the normal administrative areas, including personnel, budget, program development, student academic affairs, scheduling, advisement, research, service, outreach, and space management and utilization.

Arizona State University is a multicampus comprehensive research institution with its main campus located in the city of Tempe in metropolitan Phoenix, a cosmopolitan, culturally rich area of approximately three million people, enjoys excellent community support. Over 10,000 of the university’s more than 50,000 students are engaged in graduate studies.

The COE has a number of nationally respected programs and is engaged in an energetic effort to improve its already strong teacher education program and to connect more effectively to the schools. It is organized into three divisions (Curriculum and Instruction, Educational Leadership and Policy Studies, and Psychology in Education) and houses related centers and two clinics. Its more than 100 faculty offer B.A.E., M.A., M.C.Ed., Ed.S., Ed.D., and Ph.D. programs. Enrollment exceeds 2,600 FTE students with more than 2,300 undergraduate and 2,000 graduate majors. The total state budget is approximately $15 million; externally sponsored grants and contracts in the last fiscal year were near $1 million.

The successful candidate will possess an academic record that merits appointment as a professor with tenure. The candidate’s record will demonstrate a commitment to excellence in scholarship, quality undergraduate and graduate instruction and an enhancement of faculty, student, and staff diversity. The individual will have relevant administrative experience, preferably in a major research university, and will have demonstrated understanding of research, instructional, and service needs of public education.

Desired qualifications: demonstrated leadership, organizational and management skills; effectiveness in written communication; and proficiency in budgeting and resource management; strong interpersonal relationship skills and an ability to work effectively in shared governance with faculty, staff, students, and administration; and a commitment to team administration, including an ability to support group objectives and to take institutional perspectives on academic programs.

This position is a full-time, 12-month academic administrative appointment with a preferred starting date of July 1, 2001. The date is negotiable. The salary is competitive.

The review of applications will begin January 15, 2001. Applications and nominations received after this initial deadline will be reviewed on a biweekly cycle as necessary until the position is filled.

Candidates are asked to supply their curriculum vitae, a letter of interest, and names, addresses, and telephone numbers of three references who are qualified to comment on scholarship, teaching, and administrative ability. References will only be contacted after consultation with the candidate. Nominations and applications must be addressed to:

Patricia White, Chair
College of Education Dean Search Committee
Office of the Senior Vice President and Provost
Arizona State University
P.O. Box 872803
Tempe, AZ 85287-2803

ASSISTANT/ASSOCIATE PROFESSOR
PHARMACOLOGY & TOXICOLOGY
THE UNIVERSITY OF KANSAS

Applications are invited for a tenure-track position as an Assistant/Associate Professor of Pharmacology & Toxicology in the School of Pharmacy. The Pharmacy School at the University of Kansas ranks fourth nationally in NIH research funding among all such schools. The Department is recruiting a faculty member possessing a Ph.D., M.D., or equivalent degree and experience in transgenics, pharmacogenomics or proteomics. All applicants should have expertise in developing transgenic animal models, experience in establishing and operating a transgenic animal facility, some experience in functional genomics, i.e., microarray analysis, proteomics, genome scanning. Applicants for an Associate Professor should have an externally funded research program. All faculty are expected to participate in collaborative research projects and teach at the graduate and undergraduate levels. Excellent core facilities exist including those for DNA sequencing, protein analysis, peptide synthesis, fermentation cell culture, hybridoma production, confocal and electron microscopy, molecular modeling, NMR, mass spectrometry, X-ray crystallography and an excellent, spacious, low-cost animal care facility conveniently located in the basement floors of Maltan Hall. Underrepresented minorities and women are encouraged to apply. Send curriculum vitae, a description of research plans, and the names of 3 references to Dr. Rick T. Dobrowolsky, Dept. of Pharmacology & Toxicology, Univ. of Kansas, 5064 Maltan Hall, Lawrence, KS 66045-2505; e-mail: dobrowsky@ukans.edu. Review of applications begins Nov. 15, 2000 and will continue until the position is filled.

The University of Kansas is an Equal Opportunity Employer.

Position Announcements

I. Associate Vice President for Sponsored Research and Faculty Development

West Chester University of Pennsylvania invites applications and nominations for the position of Associate Vice President for Sponsored Research and Faculty Development and for the position of Dean of Undergraduate Studies and Student Support Services.

Position I- Associate Vice President for Sponsored Research and Faculty Development

Qualifications: Doctorate in a suitable discipline required, at least 8 years' experience as a university faculty member and/or in academic administration. Experience with grant applications and externally funded research required. Preference given for experience with faculty development, strong interpersonal skills and the ability to work cooperatively with diverse segments of the academic community. Commitment to the Teacher-Scholar Model is required.

Responsibilities: This is a management position and reports directly to the Vice President for Academic Affairs/Provost with supervision of 1.5 FTE support staff. Primary responsibilities include:

- Provide leadership for expanding the university's sponsored research programs.
- Provide leadership and advocate for a broad-based program of faculty development.
- Increase contact with funding agencies to improve university visibility and credibility with those agencies.
- Develop programs to assist faculty and professional staff in securing external funding opportunities.
- Stay current with existing and new guidelines and regulations and ensuring compliance for funding.
- Exercise fiscal responsibility/oversight of grants, contracts, and indirect costs funds.
- Enhance the diversity of faculty through oversight of the Frederick Douglass Teaching Scholars program and the Curriculum Integration Seminar.
- Collaborate with donors and other university offices to enhance faculty development.
- Coordinate the new faculty orientation programs and the University of West Chester.
- Actively participate in internal governance by serving as a member of Deans' and President's Councils and provides oversight to the Institutional Research Risk Committee and work closely with various campus committees.
- Promote efforts to expand student-faculty research programs.

Applications will be handled confidentially. Review of applications will begin on November 30, 2000 and will continue until the position is filled. No faxes or electronic mail applications accepted. The entrance salary is the range of $75,000 and is dependent on qualifications and experience, and includes an excellent fringe benefits package. To be considered as a finalist, candidates must successfully complete the interview process.

Position II- Dean of Undergraduate Studies and Student Support Services

Qualifications: Doctorate in a suitable discipline required, at least 8 years' experience as a university faculty member and/or academic affairs administrator. Preference given for experience with: developmental education, management of direct services provided to students, and collaborative efforts with Student Affairs.

Responsibilities: This is a management position and reports directly to the Associate Provost and includes the supervision and leadership for the Division of Academic Programs and Services comprised of the Academic Development Program, Learning Assistance and Resource Center, Pre-Major Advising Center, and the Office of Services for Students with Disabilities. Primary responsibilities include:

- Provide leadership for the Division of Academic Programs and Services and exercise fiscal responsibility - including oversight of grants.
- Provide leadership and advocate for a model of student success in collaboration with the Division of Student Affairs consistent with university's strategic plan.
- Develop programs and work with other university departments to enhance undergraduate Advising and facilitate the work of the Undergraduate Advising Council.
- Promote activities to expand the Learning Communities program.
- Assist the Division of Academic Affairs in meeting the university's Performance Outcomes and Plan, Serve as Dean to the faculty in Educational Services department.
- Actively participate in internal governance by serving as a member of Deans' and President's Council, the ADA Compliance Committee, Retention Committee and the Developmental Education Council.

Applications will be handled confidentially. Review of applications will begin on November 30, 2000, and will continue until the position is filled. No faxes or electronic mail applications accepted. The entrance salary is in the range of $80,000 and is dependent on qualifications and experience, and includes an excellent fringe benefits package. To be considered as a finalist, candidates must complete the interview process.

To Apply: Applicants must submit a letter of interest (indicate which position) and a description of relevant professional accomplishments, a current resume, and names, addresses, e-mail addresses and telephone numbers of at least five professional references to:

DEAN - COLLEGE OF BUSINESS

The University of Wyoming invites nominations and applications for the position of Dean of the College of Business. Preferred qualifications include an earned doctorate, expertise in at least one of the disciplines represented in the College, a distinguished record of teaching and scholarship consistent with a tenured appointment as Professor, and evidence of strong administrative ability.

The College of Business, centered in Laramie, is AACSB accredited at both the undergraduate and graduate levels. It includes Departments of Accounting, Economics and Finance, and Management and Marketing. It is home to 45 faculty and 1100 students. In addition to baccalaureate degrees in disciplines represented by the academic departments, the College offers the M.B.A., M.S. degrees in Accounting, Economics, and Finance, and a Ph.D. in Economics. The College recently initiated an M.S. in e-Business, and it delivers a growing array of off-campus and on-line instruction, including undergraduate and graduate courses in business administration and real estate certification. Also of increasing importance are the international dimensions of business education. More information is available at the College’s Web site, http://business.uwyo.edu.

Complete applications include a cover letter, curriculum vitae, names and contact data for at least three professional references, and a brief narrative summarizing the candidate’s administrative experience and interest in the University of Wyoming. The search committee will begin screening on November 10, 2000; however, applications will be accepted until the position is filled. We expect to make an appointment effective August 1, 2001. Please send all nominations and applications to Dr. Myron B. Allen, Associate Vice President for Academic Affairs, University of Wyoming, Laramie, WY 82071-3302. More information about the University and its regional setting is available on the Web site, http://www.uwyo.edu.

The University of Wyoming is an Affirmative Action, Equal Opportunity Employer.

NORTH PARK UNIVERSITY

The Communication Arts Department at North Park University in Chicago invites applications for a tenure-track assistant professor position in Media Studies. The position is contingent upon funding. Candidates should hold a Ph.D. in communication studies, media/film or a closely related field; have experience in both video production and teaching; and have an interest in community-based media. Candidates should be prepared to teach courses in media production, writing for mass media, media history, media theory and analysis, and the documentary tradition.

North Park University is an urban, private, Christian university with 1350 undergraduates and 500 students in graduate and professional programs. The university, sponsored by the Evangelical Covenant Church, is a Christian intellectual community dedicated to serving the city. Candidates should be able to articulate their understanding of how Christian faith and learning interface in academic disciplines and teaching.

North Park University maintains a diverse faculty and student body and encourages applications from women and candidates from ethnically diverse backgrounds. Applicants should send a letter of interest, a vita, a statement of faith and learning, and the names of three references by December 15, 2000, to:

Dr. Robert Hostetter
Chair, Communication Arts Dept.
North Park University
3225 W. Foster Avenue
Chicago, IL 60625

For further information, contact rhhostetter@northpark.edu or www.northpark.edu
Plattsburgh State University of New York invites applications for Fall 2001 tenure track positions.

Plattsburgh State University of New York is a comprehensive, coeducational, public institution of nearly 6,000 undergraduate and graduate students. Located on the shores of Lake Champlain, the College is the intellectual and educational center for the Lake Champlain/Adirondack region of New York State. The small city character of Plattsburgh and neighboring Burlington, VT provides a quality of life unsurpassed for the whole family. Outdoor activities abound along Lake Champlain, in the Adirondack High Peaks and nearby Olympic resort village of Lake Placid while the urban, multicultural lifestyle is rich in neighboring Montreal, Canada, one hour’s drive from campus. Plattsburgh is easily accessible to New York City and Boston via air, bus, train and interstate 87.

Successful candidates must be committed to excellence in teaching in an undergraduate institution offering programs in the arts and sciences, education, human and health services, business and economics with an understanding of and sensitivity to minority and gender concerns. Selected candidates will have an interest in interdisciplinary and collaborative programs such as Women’s Studies, Latin American Studies and Canadian Studies, all of which are strategic foci for the College; a desire to integrate information technologies; and a willingness to participate with new distance learning programs.

The faculty is challenged to redefine their teaching roles by incorporating recent research on learning with and to develop the career skills and the curriculum flexibility. The Center for Student Development through the NYS/UCP bargaining agreement, minority and women faculty may apply for one-year/affirmative action leaves to pursue scholarly projects. Other faculty funding includes the Jefferson Union Traveling Fellowship, College-funded in-house Mini-Grants to provide seed funding for research activities, Reddy Teaching Enhancement Awards, Presidential Research Awards, and Educational Technology Awards.

We offer a competitive salary and an excellent benefits package. Unless otherwise specified, review of applications begins immediately and continues until position is filled.

Application Procedure: Please send or fax cover letter, resume or curriculum vitae, transcripts, three letters of recommendation and other requests mentioned in individual ad to Chair, Search Committee (P# blank), c/o Human Resources, Plattsburgh State University of New York, 101 Broad Street, Plattsburgh, NY 12901-2681. Fax # (518) 564-5060.

Applications from women and minority candidates are especially welcome. Plattsburgh State University is an affirmative action, equal opportunity employer.

Tenure Track Positions
Starting Date: August 27, 2001

West Chester University of Pennsylvania, a member of the Pennsylvania State System of Higher Education, is continuing to build a culturally diverse, broadly trained faculty capable of fostering an inclusive environment which we feel is necessary to help prepare our students for the 21st Century. To achieve this goal, we aggressively seek to recruit minority faculty members who will be given serious consideration for filling 31 tenure track positions. West Chester, located 29 miles west of Philadelphia, is convenient to major cultural & commercial institutions, recreational activities, and is within driving distance of Wilmington, DE, NYC, and Washington, DC. The University is an equal opportunity, affirmative action employer encouraging diversity.

Unless indicated in the job description, a terminal degree in the field or related field is required. For all positions, excellence in teaching and the potential to develop an active program of research or scholarly activity in the discipline are essential. Effective communication and teaching must be demonstrated by presenting a seminar or lecture during an on-campus interview. Successful candidates will also have the opportunity to participate in teaching and research within interdisciplinary programs. Rank and salary are commensurate with experience.

For further information, including complete job descriptions, visit our Web Page at: http://www.wcupa.edu/vacancies

We seek an experienced admission professional to work with university constituents to enhance and increase international enrollment. Responsibilities include developing and implementing a strategic marketing plan and budget, coordinating processing of applications for international admission, collaborating with other university departments serving international students and evaluating applicant credentials.

The successful candidate should possess a bachelor’s degree, extensive experience in selective college admission, preferably international admission, evidence of excellent written and verbal communication skills, prior experience with admission databases and market research, and understanding of required international documents and visa issues.

Butler offers a full range of benefits including a tuition benefit for employees and eligible dependents. For additional information regarding the university see our website at www.batler.edu

Send resume, cover letter, references, and salary expectations to Organizational Development #5694, 4600 Sunset Avenue, Indianapolis, IN 46208.

Butler is an equal opportunity employer and employer.

CORNELL UNIVERSITY ASSISTANT PROFESSOR

The College of Human Ecology, Cornell University seeks applicants for a tenure track assistant professor in the area of life course studies. One area of emphasis is in the Department of Human Development. The successful candidate will actively participate in the activities of the Bronfenbrenner Life Course Center and will develop links with other departments in the College of Human Ecology and Cornell University. The successful candidate will focus on the social and cultural antecedents of the transition to adulthood and on the consequences of life course transitions. The ability to determine the nature and consequences of a variety of models of transitions, including but not limited to family, work, family, and community during later life, midlife, or adolescence will be required.

Qualifications: Responsibilities include teaching courses per year, supervising student research, and maintaining a rigorous, highly productive, and externally funded program of empirical research that will contribute to the department and college reputation in the life course area.

Salary: Negotiable depending on experience and qualifications, with competitive benefits package.

Contact: Send curriculum vita, samples of research, and three letters of recommendation to: April Kampe, Dir. Human Resources, College Human Ecology, Cornell University Ithaca, New York 14853

For first consideration send materials by December 10, 2000.
BRYANT COLLEGE

FACULTY POSITIONS

Bryant College, a student-centered College, is AACSB accredited at both the graduate and undergraduate level and enrolls approximately 3,000 undergraduate and graduate students. The College offers a Bachelor of Science in Business Administration, a Bachelor of Arts in Liberal Studies, a Master of Business Administration, a Master of Science in Taxation, and a Master of Science in Accounting.

Bryant College is located in Smithfield, RI, adjacent to Providence and one hour from Boston, seeks the following Assistant Professor level, tenure-track positions.

Accounting information Systems
Ph.D. is Accounting (preference with specialization in information systems or computer sciences). Teaching experience and ability to publish in refereed journals required. Professional certifications and interest in teaching one International Accounting course/year as a support area are desirable.

English Communication - Ph.D. in communication. Specialization should include Organizational and Small Group communication.

Early American Literature - Ph.D. in appropriate field. Specialization should encompass emergent pre-Civil War American Literature of the 19th century and other literature of early America including materials from Native Americans and Continental European colonials.

Literary Theory and Comparative Literature (European) - Ph.D. in appropriate field. Specific area of expertise open, with preference for Continental European and Cultural Studies.

Humanities and Performance Theory - Ph.D. in appropriate field. Specific field of expertise open, with preference for comparative performance studies.

Finance - Ph.D. required. Teaching and research interests in banking and/or financial services preferred, but applicants in all areas of specialty are urged to apply. The Finance Department is responsible for the finance component of the business core as well as servicing the needs of students concentrating in Finance and Financial Services.

Management - Ph.D. required in Policy/Strategic area. Teaching undergraduate and graduate capstone course.

Mathematics - Ph.D. required in related field. Preference to candidates with demonstrated interest in the actuarial field. Interest in business-related fields such as statistics, finance, or operations research also a strong consideration.

Psychology - Ph.D. in Psychology with specialization in appropriate areas. Teaching responsibilities for both positions include: general psychology and research methods.

Cognitive Psychology - Cognitive Psychology and a course in a cognitive specialty area with an applied emphasis required.

Health Psychology - Health psychology and a course that emphasizes biopsychology required.

Active screening begins on December 15, 2000 and will continue until the positions are filled. Letters of interest indicating position applied for, a current vitae, and two references should be sent to:

Human Resources Office II
Bryant College
1150 Douglas Pike
Smithfield, RI 02917-1284

Applicants should have a strong commitment to excellence in teaching, research and service, and to intellectual contributions, as defined by AACSB Standards. Teaching experience and a demonstrated record of continuing publications in refereed journals required.

Excellent benefits and AACSB-competitive salaries. Bryant College is an Equal Employment Opportunity/Affirmative Action Employer and an institution committed to diversifying its faculty, and women and minority are strongly encouraged to apply.

Bowling Green State University

Dean

College of Education and Human Development

Bowling Green State University invites applications and nominations for the position of Dean of the College of Education and Human Development. The four schools comprising the College are: 1) Education and Intervention Services, 2) Family and Consumer Sciences, 3) Human Movement, Sport and Leisure Studies, and 4) Leadership and Policy Studies. Accredited by NCATE and NCA, the College provides one of the largest and most comprehensive teacher-education programs in the country, has nationally ranked graduate education programs, and an excellent record in funded research. The College has two highly successful university research centers in evaluation research and transformative education and enjoys a prominent reputation for preparing students for a full range of professional careers. (For more information, visit our web site at: www.bgus.edu.)

William Paterson University

William Paterson University is a comprehensive public institution of higher learning, committed to promoting student success, academic excellence, and community outreach with opportunities for lifelong learning. Members of the faculty are highly distinguished and diverse teachers and scholars, many of whom are recipients of prestigious awards and grants from the Fulbright Council (24 scholars), the MacArthur Foundation, the National Endowment for the Humanities, the National Institute of Health, the National Science Foundation and the American Philosophical Society. Featuring nationally renowned academic programs, the University maintains a student-faculty ratio of 12:1 and small class size (21) for its 27 undergraduate and 18 graduate degree programs, supported by state-of-the-art information and communications technology. The University enrolls 13,000 students from across the country and from over 40 foreign nations. William Paterson University is situated on a beautiful suburban campus in Wayne, New Jersey, twenty miles west of New York City.

Associate Vice President for Enrollment Management

Reporting to the Provost and Executive Vice President, the Associate Vice President for Enrollment Management provides University-wide leadership for undergraduate and graduate enrollment planning and management. The Associate Vice President has primary responsibility for developing and implementing, in collaboration with academic and administrative units, a comprehensive strategic marketing and enrollment management plan; developing recruitment, admissions, and retention initiatives to ensure student access to the University; analyzing current demographic data and other enrollment research in order to implement innovative processes for the admissions, financial aid, registration, and retention functions. The Associate Vice President supervises the Enrollment Management areas, including the activities of the Associate Dean for Enrollment Management, and the Offices of Admissions, Financial Aid, Academic Support, Academic Advising, Freshman Life, Scholarships, Career Development, and Community College Articulation. The candidate serves as a member of the Provost’s Council and Academic Affairs Council, and works closely with administrators, faculty, staff, and students to design, develop, and implement creative and aggressive enrollment management strategies for the University.

Requirements for the position include at least seven years of senior-level administrative experience in the area of enrollment management; with demonstrated success in developing and implementing strategies for the recruitment and retention of a diverse student body; thorough knowledge of enrollment management theory and practice, particularly in a regional comprehensive university setting; and a demonstrated record of providing leadership for achieving University enrollment initiatives. The successful candidate must have significant breadth and depth of knowledge of technology advancements in student information systems; demonstrated ability to work collaboratively with faculty, students, and staff, and excellent written and oral communication skills. An advanced degree is required; doctorate preferred.

This is a twelve month administrative appointment. Salary is negotiable and commensurate with expertise and experience. Letters of application accompanied by a recent curriculum vitae and the names and addresses of three references should be sent to: Dr. Robert Seal, Executive Assistant to the Provost, 100 Raubinger Hall, Drawer 1Q, William Paterson University, 300 Pompton Road, Wayne, NJ 07470. Additional information about the University can be found at http://www.wpu.edu. The review of applications will begin immediately upon receipt. The position will remain open until filled. William Paterson University is an equal opportunity institution committed to diversity.

William Paterson University
Wayne, New Jersey

University of Houston Clear Lake

The University of Houston-Clear Lake is an upper-level educational institution with a distinct identity, whose primary role is to provide fair and equitable learning opportunities to graduate and undergraduate students. Conveniently located at the heart of Clear Lake’s high-technology community, UHCL is adjacent to NASA’s Johnson Space Center and minutes from downtown Houston and Galveston.

DIVISION CHAIR FOR ARTS,
HUMANITIES, AND SOCIAL SCIENCES
POSITION FA034 -
(Re-advertisement - Cut-off Date Extended)

J. Sargent Reynolds Community College

J. Sargent Reynolds Community College is Virginia’s third largest community college, serving more than 15,000 credit and 22,000 non-credit students annually. The College provides education and training at three campuses, at 15 satellite locations, and through distance learning programs. J. Sargent Reynolds plays a pivotal role in economic development in the region. The College is seeking candidates for the position of Division Chair for Arts, Humanities, and Social Sciences. TYPE OF APPOINTMENT: Full-time, twelve-month faculty rank appointment. Salary commensurate with the education and experience of the applicant. QUALIFICATIONS REQUIRED: Advanced degree in the area, humanities, and/or social sciences, or related area. Considerable knowledge of higher education or community college administration practices and principles; curriculum design and instructional methods and technology; course development, scheduling, and monitoring; budget and resource management; and personnel administration. Demonstrated ability to develop academic programs; conduct course assessments and evaluations; and make faculty assignments and teaching loads. Demonstrated ability to supervise and manage large numbers of full-time and adjunct faculty, staff and college employees; conduct employee evaluations; determine and recommend appointments; and make classification and hiring decisions. Demonstrated ability to perform administrative functions of the division office including strategic planning, student enrollment reporting, student advising, managing equipment usage and replacement, monitoring instructional technology, and assessing needs. Demonstrated ability to develop and manage division budget and to develop community relations to promote the academic offerings of the college. Demonstrated ability to communicate effectively, orally and in writing. QUALIFICATIONS PREFERRED: Previous teaching experience strongly preferred. Doctorate degree and progressive experience in college administration at the community college level also desired. POSITION RESPONSIBILITIES: The academic division chair provides college-wide strategic planning, leadership, supervision and management for the division and its faculty, staff and students to ensure consistency in the delivery of academic services. The Chair is responsible for the academic, administrative, fiscal and operations of the division, and acts as the spokesperson for the division and its programs and coordinates with other academic and administrative units of the college to plan, implement and assess quality educational courses and programs. APPLICATION PROCESS: Application inquiries must be received, if hand-delivered, or postmarked by JANUARY 31, 2001. A completed application folder consists of a completed State application and/or resume, three current letters of recommendation relevant to this position and all other documentation. All correspondence should be sent to the Human Resources Department, J. Sargent Reynolds Community College, P.O. Box 85622, Richmond, VA 23285-5622. Phone: (804) 371-3295.

POSITION IN

NON-NARRATIVE FILM PRODUCTION

The Cinema and Photography Department at Ithaca College invites applications for a position in non-narrative film production. Assistant/Associate Professor level, tenure-eligible position starting August 15, 2001.

The Department of Cinema and Photography at Ithaca College confers both B.S. and B.F.A. degrees. Our degree programs have a strong commitment to integrating production and critical studies. We offer courses in 16mm production and post-production, film sound post-production, directing, screenwriting, and computerized animation. Other specialized areas of study include narrative, documentary, experimental, and hybrid form. Our program has significant resources, including contemporary digital technology and support staff for both traditional 16mm production (including an on-site 16mm black-and-white processing lab) and post-production (e.g., Avid and Telecine).

MFA in filmmaking or related discipline and a strong record as a practicing filmmaker are required. Other degree candidates may be considered in the case of filmmakers with significant teaching experience and outstanding records of exhibition and creative accomplishment. An ideal candidate should demonstrate evidence of: (1) teaching effectiveness appropriate for an undergraduate film program; (2) skills in traditional and digital filmmaking technology and techniques; (3) a strong commitment to encouraging filmmaking as a creative practice; and (4) a commitment to teaching cinema production within the context of cinema as an academic discipline. The candidate should exhibit experience and interest in non-narrative production with an ability to teach and develop courses within the context of the history and practice of cinema in one or more of the following areas: documentary production; interactive multimedia/digital video/visual interfaces with the web; traditional and/or computer animation, and hybrid forms.

It is required that the candidate demonstrate qualifications to teach at all skill levels and have a strong creative and pedagogical commitment to teaching introductory level courses. The candidate appointed to this position will also set as an academic advisor to students and serve on department, school, and college committees. Tenure-eligible position; Assistant/Associate Professor rank; salary open, depending upon experience and qualifications.

Applications should forward a resume/vita, statement of interest including areas of teaching and professional experience, names and phone numbers of at least three references, and sample of creative work on film or video to:

Chair
Non-Narrative Film Production Search Committee
Cinema and Photography Department
Roy H. Park School of Communications
Ithaca College
Ithaca, New York 14850-7251

Additional samples of creative works and other supporting material may be requested at a later date. No faxed or electronically transmitted application materials will be accepted. Screening of applications will begin on November 13, 2000, and will continue until position is filled.

Ithaca College is an independent, residential, comprehensive college with an undergraduate enrollment of approximately 5,800 students. It is located in the scenic Finger Lakes Region of central New York.

The Roy H. Park School of Communications is one of four professional schools within the College, and enrolls approximately 2,200 students in the majors of three undergraduate programs (Cinema and Photography, Television-Radio, and Organizational Communications, Learning and Design); a B.A. in Journalism, a B.S. in Telecommunications Management, a B.F.A. in Film, Photography, and the Visual Arts, and a B.A. in Media Studies are also offered. The Ithaca College Los Angeles Communications Program offers an internship-based full-semester program to junior and senior communication students. The Graduate Studies program offers an M.S. in Communications. Recent grants and bequests from the Park Foundation and the estate of James B. Pendleton, totalling over $27 million, have positioned the Park School as one of the strongest undergraduate communication programs in the nation and created state-of-the-art support facilities in audio, video, film, photography, multi-media and telecommunications.

ITHACA COLLEGE IS AN EQUAL OPPORTUNITY/ AFFIRMATIVE ACTION EMPLOYER.
MEMBERS OF UNDER-REPRESENTED GROUPS (INCLUDING PEOPLE OF COLOR, PERSONS WITH DISABILITIES, VIETNAMESE VETERANS AND WOMEN) ARE ENCOURAGED TO APPLY.

Position: Visiting Assistant Professor in Language Education
Department School of Education, Indiana University

The Language Education Department seeks qualified applicants for a one-year visiting assistant professor position starting January, 3001. The position is available in the Foreign and Second Language Education Program component of the department. The program includes ESL and Bilingual Education for undergraduate/graduate students, international students and practicing teachers. There is a possibility the visiting position will be converted to a tenure-track line.

Qualifications

Applicants should have an earned doctorate or ABD in Foreign Language Education, Applied Linguistics or related area with a specialization in ESL and bilingual education. Candidates should demonstrate excellence in research and teaching in foreign and second language education, including ESL and bilingual education. Candidates should have a strong interest in teaching OL undergraduate, graduate students, international students, and practicing classroom teachers. In addition, candidates should be knowledgeable and have experience in the sociocultural, development, and teaching of distance education courses, including fully online education. See http://education.indiana.edu/~largo/ and also http://education.indiana.edu/~largo/positions.html

Responsibilities

Assignments include teaching foreign and second language methodology courses, create or online, to graduate and undergraduate students, international students and practicing teachers. The candidate will coordinate and supervise graduate students that are assigned to teach foreign and second language distance education topical courses. In addition, the candidate will have the opportunity to be involved in current interdisciplinary research.

Salary

The salary will be competitively competitive.

Applications are encouraged to submit an application letter, curriculum vitae, a minimum of two current publications, and three letters of reference by November 6, 2000. Review of applications will continue until the position is filled.

Please send correspondence to:

Dr. Carmen Sinich-Dodgeon

Faculty Opening in Latino History
Texas A&M University, College Station

The Department of History Texas A&M University seeks a scholar in Latino history to play a leading role in its new Graduate Program in Comparative Border Studies. The Comparative Border Studies Program at Texas A&M focuses on contact and conflict across racial, ethnic, and geographic boundaries within the Western Hemisphere. Scholars of diplomatic and military history, of ethnic and gender studies, of immigration, and of the environment currently staff the program. The History of the Americas Research Program (HARP), coordinated by H. W. Brands, supports scholarly conferences and research on relevant topics. Recently completed faculty research includes studies of border issues in Texas, the United States, the Caribbean, Canada, and Latin America. Texas A&M University is a Research 1 institution that offers both the M.A. and Ph.D. in history.

The individual selected for the position will offer undergraduate and graduate classes in Latino history. Rank and salary are negotiable. Review of applications begins November 1, 2000. The search will continue until the position is filled. Send nomination or letter of application, c. v., and three letters of recommendation to Walter Buenger, Department of History, Texas A&M University, 4236 TAMU, College Station, Texas 77843-4236.

Texas A&M is an AA/EOE.

WESLEYAN UNIVERSITY

Wesleyan University Library
Middleton, CT

HEAD OF ACCESS SERVICES

Wesleyan University seeks a librarian with a users services background to manage the Access Services Department which includes circulation, reserves, interlibrary loan, electronic document delivery services, and a group engaged in a special initiative to enhance the online catalog in ways that will improve access. The Head of Access Services reports to the Associate University Librarian.

The Access Services Department at Wesleyan University is committed to exploring and implementing new technologies to increase access to our holdings. A popular and successful electronic reserve program was launched last year using Ello, and the Interlibrary Loan office has implemented ILLiad, an electronic ILL package which enables an almost paperless ILL office to run smoothly and efficiently. Candidates should be extremely comfortable working in a wired environment, and should have a keen interest in pursuing new avenues that will strengthen services to users.

Minimum qualifications: ALA-accredited MLS, experience supervising a staff engaged in customer services; strong customer service skills; knowledge of circulation and reserve operations in an on-line environment; understanding of interlibrary loan systems and multi-vendor document delivery services; an understanding of MARC formats and how collections are represented in online catalogs; ability to interact positively in a rapidly changing collaborative environment. Desireable: experience with Sirsi's Unicorn; demonstrated experience with ILLiad.

Starting salary range: $40,000 - $50,000 depending upon experience

To apply submit a resume and a letter of application that specifically addresses each of the qualifications to: J. Robert Adams, University Librarian, Wesleyan University, Middleton, CT 06449. Wesleyan is committed to diversity through affirmative action and equal opportunity. Applications will be accepted until the position is filled, but to ensure consideration applications must be received by October 31, 2000. AA/EOE.

CORNELL UNIVERSITY

DEPARTMENT OF COMPUTER SCIENCE

Tenure-Track Positions, All Levels (Ref: APH1): Applications are invited for tenure-track positions. These positions are at the assistant, associate, or full professor level depending on experience. Applicants should have a Ph.D. in computer science or in a closely related field. The department requires demonstrations of research accomplishments at the highest level as well as outstanding teaching ability and leadership qualities. Candidates should be enthusiastic about the central role that computer science can play on the campus of a large research university. We are an expanding department with seven new faculty hires during the past two years and are part of a new administrative structure on campus that promotes interdisciplinary research and teaching in the computing and information sciences.

The Department of Computer Science at Cornell University encompasses a wide range of research areas, including artificial intelligence, concurrency and distributed computing, databases, algorithms, information organization and retrieval, multimedia systems, applied logic and semantics, numerical analysis and scientific computing, theory of computation, programming languages and methodology, computer vision, computational biology, graphics, theory, networks, operating systems, and natural language processing.

Although we are especially interested in networks, databases, digital libraries, graphics, systems, and computational biology and bioinformatics, applicants in all areas of computer science will be thoroughly considered.

Tenure Track Position in Computational Biology and Bioinformatics (Ref: CD2): We are seeking applicants at all ranks for an interdisciplinary tenure track position in computational biology. The applicant should have a very strong background in computer science, and should also have a very strong background and research interest in computational aspects of biology.

Research may include such topics as development of genomic databases, bioinformatics, and structural biology. We are looking for candidates with outstanding research accomplishments and who are committed to excellence in teaching computer science.

Non-Tenure Track Positions (Ref: NT85): We are seeking applicants for non-tenure track professorial positions at all levels as well as lecturers and instructors. The primary focus of these positions is teaching with a commitment to bringing computer science research ideas into the undergraduate classroom. Applicants should have a Ph.D. in computer science or closely related field, a research program with demonstrated accomplishments, and a devotion to excellence in teaching. With our expanding role on campus there are many opportunities for creative curricular development.

Research (Ref: RE598): Also available: research associate positions in scientific computing, databases, and software systems.

Further information about the department is available on the World Wide Web at URL: http://www.cs.cornell.edu/Applicants should submit a letter and the names of at least three references to: Chair, Faculty Recruiting Committee, Department of Computer Science, 4130 Upson Hall, Cornell University, Ithaca, NY 14853-7501. Please include reference number with application.

UNITED STATES MILITARY ACADEMY

The United States Military Academy was established in 1802. It is the only college specifically chartered with preparing young men and women for service as officers in the United States Army. As such, it has a singular educational philosophy of producing enlightened military leaders of strong moral character and high ideals. The Academy is committed to molding minds that are creative, critical, and resourceful. Located just 5 miles north of New York City, this prestigious institution is nestled in the beautiful Hudson River Valley. For more information on the Military Academy visit our website at www.usma.edu.

LIBRARY DIRECTOR, USMA LIBRARY:
The Military Academy is the Army's premier education institution and has much in common with the best undergraduate institutions in the country, graduating four Rhodes Scholars last year alone. The student body consists of 4000 men and women representing every state and several foreign countries. The Military Academy faculty is an integrated group of military and civilian educators. In addition to a core curriculum of academic and professional courses, majors are offered in over 20 fields. The USMA Library has a collection of over 500,000 volumes, significant web-based resources, and a staff of 45 full-time employees. The Library maintains an innovative interlibrary integrated library system that supports the online catalog and circulation system, serials, and acquisition functions. The Library system is accessible to faculty and students through the Academy network. The Military Academy is considering a major expansion and modernization of the Library in the next 10 years. The Librarian, USMA, reports through the Vice Dean for Education to the Dean of the Academic Board and is directly responsible for administration of all Library operations. The Librarian will hold an academic rank commensurate with higher credentials and experience and also will serve on academic and administrative committees. Candidates for this position will be evaluated against the following factors: (i) an advanced degree (M.L.S. degree) from an ALA accredited institution in Library Sciences, a doctorate or equivalent degree is highly desirable. (ii) A minimum of 10 years of professional library experience in an academic library including 5 years of proven administrative and managerial experience in large academic libraries, effective budget and personnel allocation, and personnel development is required. (iii) Experience in college-level teaching and faculty design and management is highly desirable. The successful candidate will support an active, student-centered library program that includes a strong emphasis on information literacy and other initiatives to encourage effective use of information resources. (iv) Thorough understanding of the role of technology in undergraduate education. (v) Dynamic leadership, superior communication skills and a demonstrated dedication to student and faculty service are essential. The successful candidate will assume his/her duties on or about April 2000. Salary is commensurate with experience. To be considered for the position please send, curriculum vitae, resume, letter of application, 3 letters of recommendation, and a DD214 (if claiming veterans preference) to the Office of the Dean, United States Military Academy, Bag 600, ATTN: Mrs. Kate Hauersma, West Point, New York 10996-5900. For additional questions contact (845) 938-6316 (DSN: 688-6316), FAX: (845) 938-5438, email: rz7699@usma.edu. All applications must be received by January 31, 2001. These positions are not restricted to U.S. citizens, but non-citizens cannot be hired if qualified U.S. citizens are available.

The United States Military Academy is an Equal Opportunity, Affirmative Action Employer. Women and Minorities are encouraged to apply.
THE UNIVERSITY OF NEBRASKA AT OMAHA

will recruit for positions in Biology: Communication; Psychology; English; Philosophy; Foreign Languages-Spanish; Economics; Management; Computer Science; Information Systems and Quantitative Analysis; Telecommunication; Library; Criminal Justice; and others. The University of California is an Equal Opportunity Employer.
Founded in 1914, Grand Rapids Community College is the oldest community college in Michigan. The urban campus is located on six city blocks in the center of downtown Grand Rapids, the second largest city in Michigan. Grand Rapids is a metropolitan area in the economic, business, cultural and educational hub in West Michigan with a population of nearly one million. GRCC offers credit and non-credit courses, associate degree and certificate programs and workforce training at both on- and off-campus locations.

Grand Rapids Community College is seeking candidates for faculty positions that are available Fall 2001. These positions are 32-week calendar assignments with a salary ranging of $40,804 - $43,683 for MA degrees and a salary ranging of $37,302 - $40,130 for BA degrees.

GRCC is especially interested in candidates who have the right combination of professional expertise, attitude, and abilities and candidates who embrace technology and a variety of effective teaching methods. The GRCC mission is to provide the community with learning opportunities that enable people to achieve their goals. GRCC will achieve its mission by accomplishing the following: Lifelong Learning, Workforce Development, Developmental Education, Community Outreach & Planning, Transfer Program & Articulation, and Support for Diversity.

NURSING INSTRUCTOR (position #0-03): Teach Practical & Associate Degree Nursing courses, both clinical and didactic. Master’s Degree in Nursing required. Candidates currently enrolled in a Master’s program will be considered but must submit proof of degree within one year of hire. Requires current Michigan Nursing License or eligibility and a minimum of two years direct clinical experience. Community College experience in nursing education preferred.

BUSINESS INSTRUCTOR (position #0-04): Teach Accounting and other general business courses. Bachelor’s Degree with CPA, CMA, or equivalent certification; MBA preferred. Undergraduate and/or graduate degree must include a minimum of 25 credit hours of accounting subjects. Must have two years of work experience in accounting field with post-secondary teaching/training experience. Preference will be to those with broad-based business experiences.

COMPUTER APPLICATION INSTRUCTOR (position #0-05): Teach computer programming and a variety of Internet-based courses. Requires Bachelor’s Degree in Computer Information Systems or closely related field. Master’s Degree preferred. Two years of related work experience in the computer applications field (with programming in a variety of languages) and post-secondary teaching/training experience, preferably in a community college.

VISUAL ARTS INSTRUCTOR (position #0-06): Teach classes and laboratories in beginning and advanced photography, including commercial studio application and digital photography. Ability to support digital and traditional studio-based approaches. Demonstrated skills in using Photoshop and other related computer applications in the classroom. Master’s in Art or Fine Art with major emphasis in studio photography recommended and two years college teaching experience. In addition to items noted at the end of this ad, please send 20 examples of work and 20 examples of student work in traditional and digital photography (slides, zip or CD) and self-addressed stamped envelope. (Note: Application deadline for this position only is Janaury 19, 2001.)

ENGLISH INSTRUCTOR (2 openings) (position #0-07): Teach composition classes within the discipline of English. Develop composition and literature courses appropriate for freshman and sophomore community college students. Minimum of Master’s Degree in English composition and rhetoric, language and literature, teaching of English, or equivalent. Minimum of six graduate hours of course work in teaching composition and six graduate hours of course work in literature. Experience in teaching composition and literature.

HUMANITIES INSTRUCTOR (position #0-08): Teach General Humanities courses covering contemporary arts and ideas: painting, sculpture, film, television, dance, music, and literature from artistic and historical contexts. Minimum of Master’s in Humanities or a Master’s in a related field plus concentrations or minors in two of the following: music, literature, dance, film, and visual media. Recent experience in teaching Humanities courses, preferably in a community college environment.

CHEMISTRY INSTRUCTOR (position #0-09): Teach lectures and laboratories at introductory levels of general chemistry, including general education chemistry, as well as an ability to teach introductory analytical and organic chemistry. Requires Master’s Degree or Ph.D. in Chemistry OR Master’s Degree or Ph.D. in related science field with a minimum of 18 graduate chemistry coursework hours. Requires experience using multi-media, computers, and demonstrations in lecture/laboratory classroom settings.

BIOLOGY INSTRUCTOR (position #0-10): Teach introductory level lectures and labs for general biology (non-majors). Teach majors-level lectures and labs for introductory cellular and molecular biology and/or microbiology. Requires Master’s Degree or Ph.D. in the biological sciences OR Master’s Degree in Ph.D. in a related biological science field with a minimum of 18 graduate credit hours in the biological sciences. Requires teaching experience at the college level for a minimum of one year (full-time teaching equivalent), and experience using multi-media, computers, and demonstrations in lecture/laboratory classroom settings.

As a college community working to support learners, we value:
- Our community of learners as the essence of our work
- Integrity, accountability, and responsible risk taking
- A high quality learning environment that is nurturing and challenging
- A working environment characterized by collaboration and shared responsibility for the whole
- Innovation and creativity
- Diversity and respect for all people
- Strong community connections

Interested candidates are requested to submit a cover letter (including the position number), resume, copies of their unofficial transcripts, and three letters of recommendation by December 1, 2000 to:

Director of Human Resources
Grand Rapids Community College
143 Bostwick NE
Grand Rapids, MI 49503-3295

Note: If items are sent separately, items should reference your name and the position number for which you are applying.

Visit www.grcc.cc.mi.us for more detailed job posting information.

Grand Rapids Community College is an equal opportunity institution.
UNITED STATES MILITARY ACADEMY

The United States Military Academy was established in 1802. It is the only college specifically chartered with preparing young men and women for service as officers in the United States Army. It is a singular educational philosophy of graduating enlightened military leaders of strong moral character whose minds are creative, critical, and resolute. Located just 25 miles north of New York City, this prestigious institution is nestled in the beautiful Hudson River Valley for more information on the Military Academy visit our website at www.usma.edu.

ASSISTANT PROFESSOR (ENGLISH): 2 positions available. Candidates for this position will be evaluated according to the following factors: (i) Advanced degree (Ph.D.) in English. (ii) Ability to teach undergraduates in a demanding academic environment. (iii) Ability to teach the core curriculum English courses in basic and advanced composition and in literature. (iv) Willingness to support cadet extramural activities. Applicant need not have any military experience but must have a genuine interest in the development of competent, committed military officers. To receive full consideration, applicants must submit a curriculum vitae. Promotion beyond the rank of assistant professor would require evidence of three referees who can attest to their performance as a classroom teacher, and a DECA (if claiming veterans preference) to the United States Military Academy, Department of English, ATTN: Mrs. Barbara Kaut, West Point, New York 10996, phone: (845) 938-2501, or email: ch729@email.usma.edu. All applications must arrive by December 1, 2000. These are three-year or one-half-year non-renewable appointments beginning in January 2001.

ASSISTANT PROFESSOR (PHILOSOPHY): Candidates for this position will be evaluated according to the following factors: (i) Advanced degree (Ph.D.) in philosophy. (ii) Ability to teach the exam curriculum philosophy course in ethics and as elective in introductory logic. (iii) Ability to design and present effective sequences of course material and will in support of extramural activities. Applicant need not have any military experience but must have a genuine interest for the development of competent, committed military officers. This position is a two-year non-renewable appointment beginning in July 2001. To receive full consideration, applicants must submit a curriculum vitae, dissertation abstract, the names of three referees who can attest to their performance as a classroom teacher, and a DECA (if claiming veterans preference) to the United States Military Academy, Department of English, ATTN: Mrs. Barbara Kaut, West Point, New York 10996, phone: (845) 938-2501, or email: ch729@email.usma.edu. All applications must arrive by December 1, 2000.

ASSISTANT PROFESSOR (MATHEMATICS): 2 positions available. Candidates for this position will be evaluated according to the following factors: (i) Advanced degree (Ph.D.) in mathematics, applied mathematics, operations research, statistics or mathematics education (must be complete by time of appointment). (ii) Must possess the ability to teach extramural underclassmen in introductory dynamic systems, calculus, differential equations, linear algebra, probability and statistics. (iii) Ability and desire to participate in the Center for Faculty Development, a three-year teaching program. (iv) Must have the desire to contribute to the United States Military Academy and the cadet environment as a role model for future leaders of the Nation. To receive full consideration, applicants must submit a curriculum vitae, transcripts, a statement of teaching philosophy and career goals, three letters of recommendation and a DECA (if claiming veterans preference) to the United States Military Academy, Department of Mathematics, ATTN: Capt. Tina Hardaway, West Point, New York 10996, phone: (845) 938-4502, or email: an0993@usma.edu. Applications should be received by January 30, 2001.

The above positions are three-year non-renewable positions expected to begin in July 2001. These positions are not restricted to U.S. Citizen, but non-citizens cannot be hired if qualified U.S. citizens are available. Salary is competitive with qualifications and experience.

ASSISTANT/ASSOCIATE PROFESSOR (MECHANICAL ENGINEERING): 2 positions available. Candidates for these positions will be evaluated according to the following factors: (i) Advanced degree (Ph.D.) in mechanical, aeronautical, or aerospace engineering. Professional registration and practical experience in engineering design are desirable. (ii) Ability to teach undergraduate courses in mechanical and aeronautical engineering. (iii) Willingness and ability to support extramural activities. (iv) Willingness and ability for scholarship, and participation in professional development activities with students outside the classroom, junior faculty development, and service. Applicant must have superior communication skills and a dedication to excellence in teaching. To receive full consideration, candidates should have a curriculum vitae, three letters of recommendation and a DECA (if claiming veterans preference) to the United States Military Academy, Department of Civil and Mechanical Engineering, ATTN: Colonel (Dr.) Wayne Whiteson, Mechanical Engineering Search Committee, Building 752, West Point, New York 10996. Applications will be accepted through February 15, 2001.

The above appointments are three-year renewable appointments expected to begin in July 2001. These positions are not restricted to U.S. Citizen, but non-citizens cannot be hired if qualified U.S. citizens are available. Salary is competitive with qualifications and experience.

ASSISTANT PROFESSOR (American Studies): Candidates for this position will be evaluated according to the following qualifications: (i) Advanced degree (Ph.D.) in American (general) preferred. (ii) Native or near-native fluency in Modern Standard American (Ph.D. and in English). (iii) Background in foreign language pedagogy. (iv) Record of successful teaching and scholarly potential. (v) Ability to teach undergraduate American literature, language, and culture courses. (vi) Experience with instructional technology and oral proficiency testing. (vii) Familiarity with the H1B application and the necessity for citizens to work harmoniously with both civilian and military colleagues. (viii) Capacity to serve as pedagogical and linguistic advisor. (ix) Background in linguistics is highly desirable.

The individuals selected for the above two positions will be required to demonstrate a commitment to maintaining an environment conducive to teaching and professional growth, and to the ethical and professional standards of the United States Military Academy. Appointment will be based on a competitive search and evaluation of qualified candidates. Applications and questions may be directed to Dr. Barry L. Shoop, US Military Academy, Department of Electrical Engineering and Computer Science, West Point, NY 10996-1787. (914) 938-5567, Barry-Shoop@usma.edu. Applications will be accepted until the position is filled.

The above positions are three-year renewable appointments expected to begin not later than July 30, 2001. These positions are not restricted to U.S. Citizen, but non-citizens cannot be hired if qualified U.S. citizens are available. Salary is competitive with qualifications and experience.

POSITION NOTICE

Latin American Studies Program

The Latin American Studies Program at the University of Illinois at Chicago seeks applicants for a full-time, tenure-track assistant professor in Mexican Studies, beginning fall 2001. Appointments at higher levels will also be considered. We seek a dynamic and outstanding Mexicoianist in history or other social sciences, with interdisciplinary interests and a desire to teach general courses about Latin America in an interdisciplinary program that combines Latin American and Latino Studies. A joint appointment with an appropriate department is also possible. The appointee will be expected to participate in an increasingly active program and in cultural events in the Chicago area in addition to the teaching and research requirements. Candidates must have Ph.D. in hand by August 2001 to be considered. Women and minorities are encouraged to apply. Please send cover letter, CV, and three letters of recommendation by NOVEMBER 15, 2000 to:

Frances R. Aparicio, Director
Latin American Studies Program (MC219)
1527 University Hall
University of Illinois at Chicago
601 S. Morgan Street
Chicago, IL 60607-7115

The University of Illinois is an Affirmative Action/Equal Opportunity Employer.

The following Associate positions all require a Master's degree in education or related field, Doctorate preferred; minimum 3-5 years' experience in education, generally K-12 classroom teaching; minimum of 3 years' experience designing and developing relevant programs and activities; knowledge of current educational research and trends; proficiency in interpersonal and teamwork skills; excellent written and verbal communication skills; professional presence; ability to work effectively with diverse staff and clients; ability to travel. Starting salary $38,377-$43,866.

ASSOCIATE—Position #2, Assessment Program. Design, develop and create materials and staff development activities for teaching and utilizing the Spanish-English Writs Rubrics. Conduct training workshops and focused research on assessment issues, and participate in team planning and project management. Experience working with Spanish-speaking English learners required.

TRAINING ASSOCIATE—Position #6, Comprehensive Program. Design, develop and implement training materials and programs and assist in planning and coordination of activities and seminars. Develop information for clients needs, collaborate in the production of products and services, participate in evaluations. Experience in Title I, Title VII, or other ESFA programs/operations.

RESOURCE DEVELOPMENT ASSOCIATE—Position #10, Development and Communications Unit. Provide leadership in developing proposals to governmental agencies for grants and contracts in support of the work of the Laboratory; maintain databases, develop descriptions of corporate capabilities, identify grant and contract opportunities and contribute to successful planning and implementation of programs. Five years experience in developing education grant and contract proposals required.

EQUITY ASSOCIATE—Position #15, Equity Center. Provide technical assistance and training in development of policies and educational programming. Plan, develop and provide assistance in needs sensing, curriculum and instruction, staffing patterns and school/community relations as they relate to national origin, race and gender desegregation, including English/ESL, Spanish-speaking research and technical assistance. Requires verbal and written fluency in English and current knowledge of race and gender equity, federal anti-discrimination laws and the ethnic and cultural groups in the NW States and Pacific Islands.

TRAINING AND TECHNICAL ASSISTANCE ASSOCIATE—Position #27, National Mentoring Center. Conduct inventory of programs such as mentoring, peer mediation, conflict resolution; identify training and technical assistance needs; establish guidelines for planning and implementing conferences, events and workshops. Provide technical assistance to clients and research topics relevant to mentoring programs; develop training materials and publications. Three years working with at-risk youth or five years teaching experience in a related field required.

SPECIALIST—Position #19, Evaluation Program. Design, develop and implement evaluation projects under contract with education, government and private sector agencies; develop new services and projects; lead proposal development efforts; supervise assigned staff and monitor project schedules and budgets. Must have experience using a DOS-based computer for data management and statistical analysis. K-12 experience preferred. Starting salary $43,911-$50,215.

SPECIALIST—Position #11, Assessment Program. Develop a process to maintain and update educational resources, monitor the use of the resource site and plan for client needs, use the Internet and other technology to expand the assessment training efforts, provide technical support to staff and support database applications using Access and other programs. Must have knowledge of educational trends and resources. Master's degree preferred. Starting salary $31,866-$37,035.

RESEARCH & EVALUATION SPECIALIST—Position #13, Education, Career and Community Program. Provide research, evaluation and technical support to staff. Collect and analyze assessment data for projects and secondary research data; draft research and evaluation reports and present to clients; develop evaluation models, databases and data files; and help coordinate agenda items for conferences and discussion groups. Master's degree preferred. Five years experience in education or human services; formal coursework in statistics and research methods; experience with SPSS, Procic and Ethnograph. Starting salary $32,386-$37,035.

Human Resources Office
Northwest Regional Educational Laboratory
101 S. W. Main Street, Suite 500
Portland, Oregon 97210
Phone: (503) 275-5516

We offer excellent benefits including vacation, medical, dental and life insurance; transportation benefits; generous employer-paid retirement; and opportunities for professional development. Applications will be accepted until all positions are filled. Send resume and letter of application to the NWREL Human Resources office, referencing position of interest by name and number. Other programs with similar responsibilities may review your application. NWREL is an employment-at-will and an Equal Opportunity Employer.

For complete job descriptions visit www.nwrel.org

TECHNICAL/RESOURCE SPECIALIST—Position #7, NWREL's Comprehensive Center. Prepare updates and recommend additioin to the Center's information center and coordinate information searches for staff clients and outside agencies. Assist in conducting workshops/presentations and represent the center in meetings related to activities within the area. Requires five years' experience with educational resources targeted at Title I, migrant, immigrant, limited, disabled, homeless and delinquent children and youth. Master's degree preferred. Starting salary $29,206-$33,399.

EQUITY SPECIALIST—Position #6, Equity Center. Collect and analyze information for use in training and technical assistance; assist with obtaining and developing training materials for the center. Assist with preparing for training activities; gather and review research related to race, gender, and national origin equity issues. Develop resource lists; assist with the preparation of program newsletters. Master's degree preferred. Starting salary $29,206-$33,399.

DIRECTOR

These Director positions require a Doctorate in a related field, unless otherwise noted; experience working with non-profit organizations and/or the healthcare industry; strong communication and leadership skills; experience working with a diverse work and client environment; PC proficiency; proven ability to prioritize tasks and organize workload.

PROGRAM DIRECTOR—Position #24, National Mentoring Center. Provide leadership in conceptualizing and developing long-range plans for research, development, training and technical assistance related to mentoring programs, including OJJDP funded JUMP programs. Oversee staff, manage human and fiscal resources, and establish leadership in the area of mentoring. Maintain a productive, equitable work environment that fosters teamwork and positive relationships. Requires 10 years' experience in Program Management; 5 years' experience managing large-scale training/technical assistance programs, experience in designing and conducting conferences. Starting salary range $57,380-$69,504.

DIRECTOR OF HUMAN RESOURCES—Position #29, Office of the Executive Director/CEO. Provide leadership in employment practices, temporary agency utilization, compensation and benefits. Stay abreast of local, state and federal HR laws and regulations; plan, review and evaluate HR policies and procedures; ensure maintenance and conformance of personnel and payroll policies; develop and maintain Affirmative Action Plan and Staff Development Plan; and maintain positive relationships with agency partners. Oversee travel. Must have broad related experience may be considered. Requires SPHR certification. 10 years' related experience in a leadership role, demonstrated knowledge of employment laws such as EIRSA, COBRA, ADA and others. Starting salary range high $70s – mid $80s. All applications must be received by 5:00 pm, October 27, 2000 (postmarks not accepted). Please send resumes for this position to the Office of the Executive Director/CEO at the address below.

For complete job descriptions visit www.nwrel.org
EXPANDING OPPORTUNITIES FOR HISPANIC STUDENTS

Funding of education in America needs to change. The educational playing field is not level for the underrepresented, particularly Hispanics. Funding inequities persist K-12 and in higher education. The result is a gap in access and quality.

At research universities, where state funding is highest, Hispanics are hardly a presence. At regional universities, Hispanic representation increases somewhat, and state funding drops substantively. The only regional universities with large Hispanic populations are HSIs, where 25 percent or more are Hispanic.

In 1990, MALDEF found that the lowest-funded regional universities in Texas were in South Texas and were all HSIs. Since then, the Texas legislature has made a good faith effort to increase their programs and capacity.

Ten years ago, when I was at the National Science Foundation (NSF), we examined the 25 universities receiving most of its awards. No HSIs were in this group. The Presidential Commission which I serve on and have chaired works with federal agencies to make them more aware of the potential at HSIs and community colleges. Federal programs have improved in the past seven years. The NSF has brought in community college personnel and expanded its grants program. The Department of Commerce has worked with HACU in an internship program. HUD has special grants programs. And the Department of Education has established a priority with the Hispanic Education Action Plan (HEAP) to ensure that funds are targeted to the needs of Hispanics.

Much remains to be done. When MALDEF began its fight for equitable funding for Texas public schools, wealthy school districts denied that money was a factor in educational quality. After a new Texas law equalized state funding to public schools, these same districts raised concerns that they couldn't educate their students with the reduced allocation.

For decades, Hispanics have endured the reality that inadequate school funding dilutes K-12 educational quality. Evidence is clear that higher education funding impacts quality too and that the majority of Hispanics are not attending the institutions receiving the lion's share of funds.

The impact is manifested in many ways. The cream of the crop of Ph.D.s seek jobs at research universities, where they are paid more. They have monies to help students apply for financial aid and endowment funds to provide scholarships. They can provide students with faculty mentors who, on average, teach only three or four courses each year. Undergraduates at these universities are exposed to more scholarly research, which encourages them to pursue graduate programs.

At regional universities, all these positive variables are diminished due to lower funding. Students receive less individual attention, scholarship funds, and research opportunities; professors are not as well connected and their teaching load is greater.

I have taught at a research institution, a regional university, and a community college, and have worked with faculty as an administrator. I am convinced that the quality of instruction at a community college is as high as that of other institutions. Lacking are the support services that would allow students to take full advantage of the quality instruction. Shortfalls in infrastructure and support mean that community colleges have difficulty retaining students.

The quality of instruction at a community college remains high, yet they suffer from a misperception that they are second-tier institutions. In a focus group with students at Austin Community College, I asked how their high school counselors helped them evaluate colleges. They said community colleges were seen as a last alternative.

Despite this perception, more than half of all Hispanic students attending college have chosen to attend a community college. We need to endorse their choice by extolling the value of community colleges. We also need to accept that students attend them for many reasons. Some only want certificates, others an associate's degree. Many are taking courses in preparation for transfer to a four-year institution. All are valid goals that can be achieved at a community college.

We need to stop considering community colleges a less than excellent choice when they can be the gateway to success for many. We must convince our state legislators to give priority to increased funding for regional universities and community colleges. Additional funding would allow more access to faculty mentors, research opportunities, and other avenues of success.

If interested in submitting a Punto Final "think piece," please e-mail us at sloutlook@aol.com for guidelines.
When Melissa Lopez Pope was considering a law degree, she wasn't sure she would be able to attend law school during the traditional day classes, and manage her full-time job and family commitments. What she really needed was the ability to attend classes on the weekends.

Weekend Classes...

Make it Possible

There are lots of reasons a student might not be able to attend school during traditional hours. The Thomas M. Cooley Law School opens doors for people like Melissa who was able to achieve her dream without sacrificing her family or career.

Cooley's weekend classes - the nation's first and only ABA-approved weekend option - allow you to complete your law degree by attending classes Saturday and Sunday only, or in conjunction with classes during the week.

Cooley has a variety of scheduling options that allow you to either continue working while going to school part-time or fast-track your education for earlier graduation. The choice is yours!

Hurry! You can start classes this January. Cooley operates year round with terms starting in September, January, and May.

If you would like more information, leave a message on our 24-hour, toll-free request line, at (800) 874-3511, or visit our Web site at www.cooley.edu and click on admissions for detailed information on admission requirements and scholarship opportunities.

P.O. Box 13038 • Lansing, MI 48901
(517) 371-5140, ext. 2244

Cooley Law School does not discriminate against qualified applicants or students on the basis of race, color, religion, age, national origin, disability, sex, weight, familial status, marital status, or gender. Cooley Law School's policy prohibits, and prohibits in good faith to accommodate applicants on these bases. The Office of the Dean, Equal Opportunity Coordinator, is designated to handle inquiries regarding the non-discrimination policies and procedures. Applicable state and federal laws prohibit discrimination. Where appropriate, the Law School provides reasonable accommodations for qualified students with disabilities. The Law School's disability accommodation coordinator is the Assistant Dean of Students.

IN TOWN!

Schools and the Failure of the American Dream back cover

Cover Photos Courtesy of: California Western School of Law
As the end of 2000 approaches, we can begin to reflect on a century of accomplishments during which Hispanics have played a fundamental role.

While it hasn’t been easy, Latinos have long been active in the evolution of the United States. The first Latino to serve the U.S. Congress was Joseph Marion Hernandez of Florida in 1822. Dennis Chavez, who was considered ahead of his time for championing equality for Hispanics, became the first Latino to serve a full term in the U.S. Senate. Other Hispanics have followed in their footsteps.

Latinos are heavily involved in all realms of our society—medicine, law, science, engineering, technology, politics, government. While our enthusiasm is great throughout, adequate representation is lacking in many areas. In the judicial branch, for instance, Latinos serve more in the lower courts, not the Circuit Court of Appeals. Circuit court decisions can only be overturned by the Supreme Court, on which we do not yet have a standing member.

Representation manifested by more Latino educators, professionals, entrepreneurs, elected officials, justices, and, yes, maybe even, a Hispanic presidential candidate, is an achievable goal in the new millennium.

In this issue, we examine the law track—dedicated Latino attorneys, activism, the legal system, diversity and the law and more. In our Publisher’s Pick issue, look for more on diversity, mentoring, and gender issues in higher education.

Take note, y basta el próximo número.
A CAPITOL VIEW

By Gustavo A. Meller

Throughout our history, when Congress and the executive branches were either hostile or indifferent to act, large, nation-wide issues have been resolved in the courts. The "rule of law," "due process," and the rights of "the common people" are all enshrined in our legal folklore and in the very fabric of our development as a nation.

The Magna Carta

How did this happen? American jurisprudence is a direct outgrowth of the British system, which traces its beginnings to angry barons who in 1215 forced their King John to sign and pledge to abide by the document dubbed the Magna Carta. It all transpired on a damp meadow near the Thames, in Runnymede, just outside of London.

It was a monumental leap forward for the rule of law and the rights of individuals. A key passage, "No Freeman shall be imprisoned or dispossessed except by the lawful judgment of his peers (and) by the law of the land," is frequently quoted.

From that revolutionary concept came American liberties. The Magna Carta formalized the rule of law—the concept that no individual, not even the sovereign, is above the law. It had powerful ramifications in Britain, though some of the sovereign's enemies did rot in the Tower of London and/or lose their heads, without due process.

Nevertheless, it stated a goal that both the U.S. and Britain have tried to institutionalize. Its egalitarian concepts and some of its precise wording can be found in the U.S. Constitution.

The Public Good

The question before us now is—can we extend these enshrined "rights of the people" so that all our nation's peoples are protected?

There is a need to make our laws empower, not exclude. Proper legal support must be provided for victims of prejudice and indifference. Good legal representation must not be the exclusive property of the wealthy.

We have lived through horrendous civil rights trials. Many in which justice was the least of the participants were aborted early on. Social policy issues continue to seize headlines. And whether they are about Waco or Microsoft or tobacco, we are all affected. The manner in which trials proceed and judgments are reached affects us more than many realize.

So old problems continue. Further, as issues are raised and adjudicated, matters in the public domain do not shrink but expand exponentially.

Cyberspace

With the explosion of the Internet, new laws, new modi operandi, are necessary to protect "the common good." Issues once thought solved bubble up again, for instance, intellectual property and the copyright. That right has suffered in the Internet age. As any college professor can tell you, plagiarism via the Internet is rampant. And thousands copy music from the Internet with impunity every day.

Big Brother

What about privacy rights versus freedom to explore? Are new protocols necessary?

The Fourth Amendment protects Americans from unreasonable search and seizure. But in our cyberspace age, "unreasonable search and seizure" might have new interpretations.

Recently, a top civil liberties group asked the FBI to reveal the computer source code and other information about an automated system it uses to wiretap e-mails of criminal suspects.

Using the Freedom of Information Act, the American Civil Liberties Union is trying to force the FBI to disclose details of the inner workings of its Carnivore system that can retrieve personal e-mail messages.

Carnivore, a computer-like box, can be hooked up to the network at an Internet provider. Using special software, it scans all incoming and outgoing e-mails, capturing those of specific individuals under investigation. But its software also scans the header information of all incoming and outgoing e-mails at the provider, Netscape, etc.—regardless of whether someone is under investigation. Does that constitute unreasonable search?

Carnivore can also capture and monitor a person's visits to Web sites and Internet chat sessions.

The FBI admits to using the tool to obtain e-mails of subjects under investigation—but stated it does so only after securing a search warrant. The FBI says the device gives the agency "a surgical ability to intercept and collect the communications which are the subject of a court order" and that the FBI ignores everything else. But the whole matter has raised concerns among privacy advocates.

Oversight

Attorney General Janet Reno, who is ultimately responsible for the FBI, has promised to review the computer system to determine whether it infringes on privacy rights.

The issue has also attracted congressional interest. At a hearing by the House Judiciary Committee's Constitution subcommittee, Rep. Charles Canady, a Florida Republican who heads the panel, said, "In this high-tech age, we must continually check to ensure that Fourth Amendment rights are protected, particularly as Internet advances provide greater tools for law enforcement."

In the months ahead, lawyers on both sides will address the balance between law enforcement needs and privacy rights, and whether current laws provide the federal government with the authority it needs to use such surveillance systems as Carnivore.

They might be well advised to re-read the Magna Carta before making those decisions.

Dr. Meller is a professor at George Mason University.
The Changing Faces of Law

California Western Re-training Latin American Jurists

BY JEFF SIMMONS
New York Supreme Court Judge Laura Safer Espinoza recently packed her bags and headed south to Costa Rica for a week. It was somewhat of a respite from the frenetic pace of the Bronx Criminal Courthouse where she sits each day, but nevertheless the trip was not a vacation getaway.

Safer Espinoza headed from the courtroom to the classroom—to teach lawyers how to be better in the courtroom.

"I would hope it was a good experience for them," she says from her chambers, a few weeks after arriving home. "I would hope I shared with them the vision of a judge who is concerned with guaranteeing the rights of people who are processed through the criminal justice system, and an image of a fair and impartial fact-finder."

That was crucial to her, and to those who gathered with her at the Colegio de Abogados, or College of Lawyers, in Costa Rica. For six days this August, with the help of the Costa Rica National Bar Association, the group met with close to 40 participants from a group of Latin American countries. There were lawyers, defense attorneys, and prosecutors, even judges.

The goal was to effect change, because in this ever-changing world, lawyering isn't the same as it used to be. And in Latin America, legislative reforms have caused the judicial process to evolve from an inquisitorial one toward an adversarial one, more closely reflecting the process in the U.S. However, the practice still adheres to a trial-by-judge instead of a trial-by-jury.

"I found people to be very anxious to know more about the trials that are done under an adversarial system with an independent prosecutor and a strong defense presence, which is different from my understanding of how the trials are currently done," says Safer Espinoza.

Behind the unique project, called Proyecto Acceso, were a number of forces and financial backers, but it was fueled largely by the efforts of the McGill Center for Creative Problem Solving at the California Western School of Law in San Diego.

"It means Project Access because it's all about access to justice," says Dr. James Cooper, the Center's executive director. "We are giving them as many skills as they can carry with them to make change happen."

The McGill Center, a think tank devoted to practical training in problem-solving, dispute resolution, and preventive law, partnered with the Universidad Católica de Temuco in Chile to create the Project. The Project was fueled by a grant from the William and Flora Hewlett Foundation.

Together, they have been fashioning a Latin American Center to train jurists from all walks of life, from magistrates to corporate lawyers.

"What's happened is, too often in training, you do it once or twice, and everyone forgets about it. We're trying to get them to understand there is a broad panoply of skills that jurists must possess," Cooper says.

"In the globalized world, where legal enlightenment is fast becoming more commonplace, there is an understanding that the older systems, while they have many strengths, were not transparent, and were open to corruption and patently unfair."

California Western is a small school—it has a little over 700 students—that focuses on creative problem-solving in law. The school has watched diversity skyrocket—from 9 to 33 percent in just a few years—and has reached out to judges in the area to mentor students.
agencies; that’s how we see ourselves, because we are dealing with a culture of change,” Cooper says.

Often, agencies have trained one group of professionals. But the Project strives, as Cooper puts it, to “mix up the jam” and bring together different professionals—by country and vocation—to “cross pollinate” and build bridges.

Organizers say that breaks down barriers because many of the Latin American professionals had been working in isolation.

In Costa Rica, four sectors of the justice system were drawn together. There were judges, prosecutors, public defenders, and officials from the Ministry of Justice sitting side by side, taking part in role-playing activities, and each wearing a different hat than in their day-to-day lives.

Besides Costa Rica, the 48 participants came from Bolivia, the Dominican Republic, El Salvador, Panama, Nicaragua, and Honduras. Ten trainers—from Canada, Mexico, Argentina, Chile and the United States—were on hand to manage six days of lessons and workshops.

Organizers say that each participant might have a different legal role but the jobs are connected.

“It was a holistic approach,” Cooper says. “By switching the roles, they learn about each other’s roles. Since they went to law school, they didn’t have to think about it. They would make mistakes now in front of each other; and build trust and relationships.”

As the judicial procedures have shifted, lawyers have required greater skills. In the past, much was submitted in writing, and magistrates served as prosecutors and sentencers. Now, defense attorneys and prosecutors more often confront oral presentations and witness cross-examinations.

“It’s a complete change of the process,” Cooper says. “Suddenly, they have oral trials, and so they have to know how to cross-examine experts, how to ask a good follow-up question, how to talk out loud.... We have to teach them how to talk. At the same time, we have to train judges how not to talk, because they no longer are the investigators.”

Sara Castillo, a legal officer with the Washington, D.C.-based

Dr. James Cooper, the McGill Center executive director

Its McGill Center has worked to open lines of communication between Mexican and U.S. legal professionals by coming up with mechanisms to address cross-border disputes. It also has created a legal curriculum for training the next generation of lawyers.

Noticing the swift pace of legal and judicial reforms across the globe, Cooper and California Western colleague Janeen Kerper, the Center’s academic director, came up with the idea of an outreach program to Latin American countries.

They observed that legislation altering the legal process had been enacted years ago, but it never was implemented. In Argentina, for instance, there’s the right to a jury trial, but it isn’t widely accepted.

“It’s often a lack of funding, or cultural barriers,” Cooper says. “The real struggle in all of this is thorough legal education in these countries.”

The result is enhanced advocacy on behalf of underrepresented populations in Latin America, and streamlined judicial systems, which are overburdened.

The Project started in 1997 in Aragonite, and then headed to Nicaragua and Chile. Last year, groups of Chilean legal professionals watched as Richard Page, a member of the McGill Center’s advisory board, conducted training sessions in Temuco and Santiago. He focused on problem-solving, mediation, arbitration, and conflict resolution.

“It started off in Chile because they are going through a transition from the inquisitorial to the adversarial. We are sort of judicial change-man-

Judge Laura Safer Espinoza, Bronx Criminal Court, New York, NY
Organization of American States, said that performance is critical to succeeding in an advancing legal culture. In the United States, oral training is par for the course in law school.

In Latin America, there are no classes assigned on learning oral presentation, and when cultures change from written to oral, this means a great deal of difficulty and effort and money to retrain people," says Castillo.

"It's as if somebody told a journalist—you cannot write the way you have been writing for years, and the whole way you do news has changed. It's like going from print to television journalism. It takes a lot of new training," she says.

The result is not just a better lawyer but also a better-represented client. Castillo, who helped to organize the Costa Rica trip, said eloquent attorneys more likely will succeed. "If you are not eloquent, your client could be at a great disadvantage," she says. "It's the same for public defenders, prosecutors, and judges."

Trainers remark about the changes that participants go through by the end of the week of workshops. Some might be timid at first, more adept at penning a legal diatribe than publicly reciting an argument. In the program, they find their voice.

"That is the most incredible feeling," Cooper says. "You see someone for the first time doing oral arguments, see the fire in their bellies and passion in their voices. They've never had an opportunity to exercise their voices."

The Project teaches "cultural negotiation," the non-legal parts of judicial reform needed to deal with different cultures, says Cooper. He pauses, then jokes about his observations that American influences even extended into the Latin American legal world.

"Everyone thinks they are Ally McBeal," he says.

Participants also receive training in media advocacy, how to handle journalists and reach out through the media. They are taught how to draft press releases and are videotaped performing public service announcements. Journalists critique them, as well.

Rafael Raffaeli, a Queens N.Y., attorney who is Argentinean, instructed the media portion in Costa Rica. The judges and veteran attorneys sitting before him seemed more like first-year law students because of the new issues to address.

"It was like they were sort of cutting their teeth on the legal process," Raffaeli says. "You could see them sort of having birth pains. They would struggle. They would make mistakes. It was all because it was so alien to them."

Sessions were steeped with feedback, constructive criticism, and analysis. Videotaped performances were replayed. There were mock trials, as well. In the end, he observed, "they seemed ready to use the techniques we had taught them."

As it has grown, the Project has received more aid. It now receives funding from the United Nations Development Programme and from the Organization of American States. The State Deapartment paid travel expenses for several participants and trainers.

Organizers caution that their work shouldn't be perceived as a lobbying effort. They say they aren't campaigning for an adversarial system but campaigning for jurists to employ what's at their disposal to their fullest potential. Still, Project leaders are creating modules on how to design grants and draft legislation.

They have been asked for an encore in Costa Rica and are planning a trip to Paraguay as well. They are working on incorporating Navajo principles on healing, reconciliation, and mediation into the program. And Cooper and Kerper also are working on a global legal curriculum that reflects worldwide changes in the law.

"We live in a globalized world, so there has to be a global curriculum," Cooper says. "San Diego is the perfect location for this. We often joke that from San Diego to Santiago, access to justice is a contact sport. You have to have contact with as many people as possible to make this a reality."
Lawyer/Activist
Kiko Martínez Honored at UNM

Donates Papers to Grassroots Activism Project

BY MARILYN GILROY

Twenty-seven years ago, he was a fugitive the FBI had ordered its agents “to shoot on sight.” This year, Francisco “Kiko” Martínez was guest of honor and featured speaker at a celebration to commemorate his donation of archival materials to the University of New Mexico’s Zimmerman Library Center for Southwest Research. His papers will enhance the Grassroots Activism Project (GAP).

For Francisco Kiko Martínez, a graduate of the University of Minnesota Law School, rebelling against the system began in 1970 when he took offense at a question on the Colorado bar exam. He refused to answer the question, but passed the bar anyway. At the swearing in ceremony, Martínez and several members of the American Indian Movement (AIM) protested the inclusion of the question, and it was later removed.

“This protest would serve as the symbolic harbinger of Kiko’s willingness to struggle for groups and individuals oppressed and dismissed by the system,” said Arturo Nieto, 1998-99 Dennis Chávez Fellow at the Center. Nieto, a third-year law student at UNM, was one of the students who processed the Martínez archival collection.

“I was deeply affected by my work on the Kiko Martínez papers. The magnitude of Kiko’s fight was amazing to me. This was a case of a railroad job to silence an activist. This time, however, the activist won,” said Nieto.

Nieto says that Martínez saw his role as an attorney as an intermediary between the oppressive nature of the system of U.S. laws and the negative effects that system wrought on his Chicano-Mexican nations. Once charged with mailing explosives, he decided to flee the country because he knew justice would not be served in his case, even though none of the bombs allegedly linked to him was ever detonated. He was caught trying to
re-enter the United States from Mexico under an alias in 1980.

Many believe that Martínez and his activist colleagues were man-handled by law enforcement and the courts, as evidenced by judicial and prosecutorial misconduct manifested during his first federal criminal trial. According to an article in the Denver Post, the trial "set Colorado's judicial system on its head." All of the Denver district court judges declared themselves incapable of guaranteeing Martínez a fair trial, so a judge was brought in from Oklahoma. Trials were further complicated by noisy protestors outside the courthouse.

After working his way through the justice system—a system that included surveillance at the funerals of his mother and brother—Martínez picked up where he left off. He joined a fight to reclaim La Sierra, a mountain tract in southern Colorado owned by a North Carolina timber interest but claimed by several generations of land grantees. He helped draft constitutional language for the post-Apartheid South African government and traveled to El Salvador to aid inmates.

"His life," said Nieto, "became a monument to victory, not just for himself as a criminal defendant but for all silenced, oppressed, people."

Martínez, who still practices law in Alamosa, said he was pleased to donate his collection to the UNM library and will always remember the day librarian Ann Massmann and her assistant visited his home to pick up the 50 vegetable boxes that held this piece of history.

In his remarks at UNM, Martínez expressed the hope that his papers will help the continuing fight of disenfranchised Americans and that they might inspire the next generation of dissidents.

The collection is scheduled to be available to the public this year. Adriana Nieto, Arturo's sister and a graduate student in Latin American studies at UNM, is now at work on the materials.

"My brother started this work, and I am honored to finish processing this collection," said Adriana Nieto.

Nieto says that the collection contains numerous legal papers regarding the indictment on the bomb charges. Many of the papers are Martínez's own handwritten notes from the trial, where he served as his own legal counsel. Parts of the collection have not been readily available until now. Undergraduate at Adams State College, where she learned about him from one of her professors who was close to Martínez.

It was during this period that Nieto became aware of how Martínez's life as an activist evolved. As she recalls, Martínez grew up in Alamosa, Colorado, about 40 miles north of the New Mexico border. He earned a bachelor's degree from Adams State and, during his college days, was involved in volunteer work on ever way they feel comfortable." She also praises his outlook on life.

"Despite all that he has been through, Martínez has a great attitude," said Nieto. "He's not wounded, nor does he feel like he's a victim. He's a great role model and very approachable."

Grassroots Project Branches Out

The Kiko Martínez papers are just part of the recent archival acquisitions of the UNM General Library's Grassroots Activism Project. The project is growing roots and branching out as word gets around that there's a place where the history of grassroots political activism is being documented and preserved. In addition to the Martínez collection, the Project has received the papers of Frank I. Sánchez and Reies López Tijerina.

"We collect political papers of leaders who have been in the forefront of Chicano community activism," said Massmann. "There were no archives or historical records of what some of these peo-
people had done. It's not like the legacies of elected political leaders, whose histories are written down."

For example, Reies López Tijerina was involved in disputes over land distribution in northern New Mexico which had been going on for years. Hispanics believed that tens of thousands of acres of land that should have been theirs had been taken by the federal government and set aside for national forests. It took López Tijerina, a former evangelical minister, to bring the issue onto the national agenda on June 5, 1967. López Tijerina and a group of New Mexicans left the village of Canjilon that day and drove to Tierra Amarilla, the Río Arriba county seat, to arrest the district attorney, who they thought should enforce the 1848 Treaty of Guadalupe Hidalgo and restore property rights to the heirs of those living on Mexican territory at the end of the Mexican-American war. The raid on the courthouse ended with a jailer and a state policeman shot and wounded, a reporter and a deputy sheriff taken hostage, National Guardsmen swarming over northern New Mexico, and the biggest manhunt the state had ever known.

López Tijerina was captured and went to prison for his part in the raid. He lived for a while in the village of Coyote before moving to Mexico early in the 1990s. His papers are now part of the Grassroots collection.

"What we are doing with this collection fits into the social history movement," said Massmann. "The idea is to document society's events from the bottom up...by the people who were part of them, instead of having history written for them, usually by white males or authority figures."

The Grassroots Project has been funded for three years by UNM's Center for Regional Studies. Massmann solicited the support through a grant application.

"I made a proposal because I was interested in Chicano community activism," said Massmann. "Now we have students who work with us in organizing and processing the records. They, too, become experts on the subjects."

The records are especially valuable for students and faculty who use them as primary resources in academic research. Massmann said that the library also receives requests from scholars around the world who are writing books and articles. Local community people are especially interested in the papers. Some of them were personally involved in these events, and the records contain references to FBI activities that affected them.

Massman and the staff have plans to expand the collection. "In addition to those personal archival collections, we have several others we are working on," she said.

Other materials being acquired for GAP include the records of the League of United Latin American Citizens (LULAC), dating back to 1929 in New Mexico, and the Tonantzin Land Institute materials.

"Tonantzin is a community-based organization that deals with land, water, and sovereignty issues," explained Massman. "There are crossover issues with Native Americans. Their files document their work with land and water disputes since the 1980s."

Additional collections include some from Albuquerque's Los Duranes neighborhood, from an activist who worked with López Tijerina, the New Mexico Brown Beret papers, and a collection of materials chronicling UNM's Chicano student groups.

Massman believes that the Grassroots collection preserves important historical moments. "We need to make sure that this recent history is passed on and that here is a source for understanding how the region developed," she said.

The UNM Public Affairs Department contributed to this article.

MSL argues in its recent civil rights complaint that the ABA’s rules have “no educational justification whatever.”

By a number of objective measures, the Massachusetts School of Law (MSL) at Andover would seem to be a successful institution. A majority of its students pass the bar examination on their first attempt, and 90 percent of its graduates go on to use their law degree in some way, whether they clerk for a judge or open a law office of their own.

And it does better than most law schools in one important area. While a good number of law schools have minority enrollments in the single digits, MSL can boast that some 20 to 25 percent of its students are Hispanic, African American, or Asian American. And this is in a region that is not home to a large minority population.

The law school does so well at enrolling minorities because that is a major part of the school’s core mission.

“When we started this school in 1988,” recalled Dean Lawrence R. Velvel in a recent interview, “it was to provide a legal education—and the opportunity that comes with a law degree—to people who had been frozen out of the legal field for decades. We wanted to educate Hispanics, Black Americans, immigrants, working-class people of all races, and older students who were making mid-career changes. The legal profession is a fount of power—it is a major route to the top. And all kinds of people were being kept out of that pipeline.”

Yet, the school faces a Catch-22: in order to win accreditation, MSL must change the very policies and practices that attract students like Gabaldón. “We would have to change the nature of our school in ways that would cause us to have to raise tuition by 50 to 100 percent,” said Velvel, “making it economically unavailable to the very people whom we wished to serve and making it unavailable academically as well.”

Rather than change, the school has taken on the ABA. Several years ago, it accused the ABA of being a monopoly that operates counter to the public interest, sparking an investigation by the U.S. Department of Justice. Then it complained to the Department of Education that the ABA has violated provisions of the Higher Education Act.

The latest salvo in this battle is a civil rights complaint filed by MSL against the ABA’s accrediting arm in early September. The complaint charges that the accrediting arm forces law schools to follow “discriminatory policies” against African Americans, Hispanic Americans, and immigrants in violation of Title VI of the Civil Rights Act of 1964. It compels schools to follow policies that exclude these groups “academically” and “economically” from law school. When reached, a spokeswoman for the
ABA said the organization declined to comment for this article.

While MSL challenges the ABA, it continues to attract eager students. From its inception, the school has blatantly flaunted ABA's accrediting rules. But administrators believed that by offering an excellent education, it could gain approval. The ABA's response initially surprised the founders of MSL.

"When we started, we thought it would not be difficult to get ABA accreditation," said Velvel. "According to the guidelines, a quality law school could obtain a waiver for these standards. But we couldn't get one."

MSL won't comply with standards that it says make most law schools expensive and elitist. MSL isn't your typical law school. In order to attract these underserved groups, MSL's founders created a different kind of institution. You won't find numerous massive, ivy-covered buildings on its modest campus. There's no cavernous law school library, but in this Internet age, that is perhaps irrelevant. The MSL library offers the most used core legal information available in book form and provides access to millions of other volumes through databases, interlibrary loans, and information ordered from other document delivery services. And the professors are mainly working lawyers and judges—not law professors who might never have argued an actual case in court.

This reduced overhead translates into cheaper tuition, which is a big plus for nontraditional law school students. This academic year, for example, tuition at MSL is $12,300. The tuition is $26,000 at Harvard, $24,700 at Boston University, $25,000 at the University of Connecticut, and $17,540 at the University of Maine.

And MSL allows its students to work full time if necessary. And the school does not take the standardized LSAT test into consideration. "We don't think the LSAT is a good measure of how someone will perform in law school," explained Velvel. "It doesn't take into account creativity or writing skills. And minorities and others don't score particularly well on it. For a mid-career person, the test is simply baffling." But recognizing the importance of passing the bar, MSL does offer bar preparation courses for credit.

All of these steps—from using practicing attorneys as professors to discounting LSAT scores to letting students work full time—are in violation of ABA accrediting standards. MSL argues in its recent civil rights complaint that the ABA's rules have "no educational justification whatever."

And MSL is gaining its supporters in the law community. In its civil rights filing, MSL names a number of high-profile academicians who back its position. Dr. David Adamany, president of Temple University, has called the ABA's standards the product of an "old boy's network." And others, including Dr. Norma Rees, president of California State University at Hayward, say the LSAT does not relate to learning outcomes.

Some of MSL's enrollees are seeking a more diverse campus experience. And once they graduate, these students are also taking a less worn path. "Many go back to their community and work for city or state attorneys' offices or work at shelters," said Velvel. They are not going to work at big, downtown law firms. They are doing the vital jobs in the community that wouldn't get done otherwise."

Indeed, the 1,000 graduates of MSL have gone on to enrich communities across the country. Rosario Terrazas of El Paso, Texas, is clerking for a federal magistrate but plans to work in the legal aid or public defender's office in her hometown someday. Terrazas is the pride of her family. Her Mexican immigrant mother has only a sixth-grade education, while her truck driver father, who is of Mexican descent, got as far as high school. Giving back to her community is high on the agenda. "I want to show people that, 'Yes, it can be done.' I am an average student, and I did it," she said. "I may not change a lot of things, but maybe I can help other people find their way."

If it weren't for MSL, Terrazas would likely not be on her way to becoming a lawyer. She had been turned down, or placed on a waiting list, by every other law school to which she had applied. She blames a low LSAT score. But MSL, she discovered, wasn't interested in her test number. The school judged her holistically.

"If I hadn't gotten accepted at MSL, I probably would have given up on law school," said Terrazas, who passed the Massachusetts bar and is now accumulating credit so that she can sit for the Texas bar. "They really gave me a chance; what I do now is up to me."

*Amalia Duarte is an editor in public relations for Avaya Inc.*
over a century ago, as the University prepared to open a law school, Cornell President Andrew Dickson White made clear his thoughts on what a law school should and should not become. Many of those views are consistent with more modern views realized by educators toward the close of the 20th century.

"Our aim," observed Dickson, "should be to keep instruction strong, its standards high, and so to send out not swarms of hastily prepared pettifoggers, but a fair number of well-trained, large-minded, morally based lawyers in the best sense, who as they gain experience may be classed as jurists and become a blessing to the country, at the bar, on the bench, and in various public bodies."

More than a hundred years later, that ideal still describes Cornell Law School, as well as the University with which it is affiliated.

Cornell Law is set in a natural environment that draws upon the resources of a great university. Cornell Law draws students from diverse backgrounds and produces well-rounded lawyers and accomplished practitioners. Known the world over as one of the truly great universities, Cornell is recognized for research, teaching, and scholarship alike.

Today, Cornell consists of thirteen colleges and schools—seven undergraduate units and four graduate and professional units in Ithaca, and two medical graduate and professional units in New York City. Its dual heritage as a private and public university combines the resources and prestige of the Ivy League with the vitality, humanity, and commitment to public service fostered by the nation's great state universities. And at Cornell, the makeup of the student body continues to be important, as indicated by a new initiative to help improve student diversity.

Last term, President Hunter R. Rawlings III approved an assertive, $100,000 initiative aimed at enhancing the diversity of the student community by improving the recruitment of underrepresented minority students. He announced, "One of the university's top priorities is to improve the undergraduate experience. To ensure that we are successful in that endeavor and in our overall goal of becoming the best research university for undergraduate education in this country, we must and will build a more diverse, more inclusive community on this campus."

Donald Saleh, dean of admissions and financial aid, agrees, saying, "The recruitment of underrepresented minority students is a very high priority for the University. The investment the president has approved and the steps we are taking will help us make that priority a reality." The past
several years have brought little growth, and in some cases a decline, in its underrepresented minority applicant pool, Saleh reported. He added that while the University continued to be successful in identifying underrepresented minority prospects, through travel and national test score searches, the conversion rate from prospect to applicant had fallen short. Saleh stressed that the yield of those who do apply and are admitted also must be improved, to insure a more diverse student community.

Jacquie Powers of the Cornell Chronicle reported that between fall 1995 and fall 1998, the applicant pool of African American students declined 49 percent, from 950 to 903, and that of Native Americans declined 28 percent, from 71 to 69. For Hispanics, the Puerto Rican pool of prospective students went from 228 to 218, a decline of 4.4 percent, and Mexican American students declined 13.4 percent, from 292 to 275. There was a rise in other Hispanic applicants, an increase from 583 to 588, or up 0.9 percent.

In 1995, 3,668 underrepresented students were enrolled, which was 27.4 percent of the 13,372 undergraduates. That included 63 Native Americans, 564 African Americans, 797 Hispanics, and 2,244 Asians or Pacific Islanders. Figures for the 1999 fall term show 811 Hispanics, 609 African Americans, 2,245 Asian or Pacific Islanders and 74 Native Americans among the 13,669 undergraduate students. Graduate stu-

dents numbered 3,916 in 1999. Among them were 123 Hispanics, 100 African Americans, 225 Asian or Pacific Islanders, and 20 Native Americans.

At this time, there are 35 Hispanic faculty, 43 African Americans, four Native Americans, and 98 Asians among a full-time faculty of 1,559.

The new initiative includes early expenses-paid visits to campus by outstanding students identified by regional admissions coordinators. Itineraries will be tailored to individual students. A fall Native American hosting program will support a group visit to campus by Native American
prospects before the application stage. There will be increased funding for Minority Hosting Weekend and Cornell Days visits, to pay for travel by students unable to attend Minority Hosting Weekend and also increased will be funding for faculty travel and presentations to high schools with high minority populations, in conjunction with admissions recruitment travel. Also on tap is a program to bring high school guidance counselors from minority-based high schools and agencies in the New York City area. In addition, Cornell alumni committee members will increase the number of telephone contacts to prospects and applicants in the market identified with strong prospect pools.

"These funds will help us take some very important steps to improve our recruitment of minority students," Saleh observed. "We are excited about the opportunities ahead. While there is still much to accomplish in order to achieve our goal, we believe this initiative will help significantly in moving us toward that end."

Since the 1860s, when Ezra Cornell launched his "institution where anyone can find instruction in any study," Cornell University has been committed to the "vitality of a multicultural community." With a community containing nearly 900 Hispanic students overall "from almost every place imaginable"—the U.S. Latino community at Cornell is one of the important contributors to the University's population. The Latin American Studies Program (LASP) presents films, lectures, exhibits, and other cultural events throughout the academic year. Faculty members affiliated with the Program come from disciplines across all seven undergraduate colleges. The Latino Studies Program (LSP) emphasizes the historical, linguistic, literary, social, economic, and political experiences of the Hispanic community in the United States. With more than fifteen undergraduate courses from which to choose, students may select a few electives or complete a concentration in Latino studies.

Founded in 1865 by Ezra Cornell and Andrew Dickson White, Cornell opened on October 7, 1868. Morrill Hall was the first building constructed on the main Ithaca campus, which today includes 260 major buildings on 745 acres. Cornell is a privately endowed university and a federal land-grant institution of New York State. It is a member of the Ivy League and a partner of the State University of New York (SUNY).

Cornell awarded the nation's first university degree in veterinary medicine and the first doctorate in electrical engineering and mechanical engineering. The institution established the first four-year schools of hotel administration and of industrial labor relations. Cornell endowed the nation's first university chairs in American literature, musicology, and American history. Cornell University Press was the first university publishing enterprise in the U.S. and is one of the country's largest college presses.

Twenty-seven Nobel laureates have been affiliated with Cornell as faculty members or students. The 1999-2000 Cornell faculty includes four Nobel laureates, one Crafoord Prize winner, five National Medal of Science winners, one Wolf Prize winner, four Presidential Early Career Award winners, six National Science Foundation CAREER grant winners, three Packard Foundation Grant winners, two MacArthur fellows, and three Pulitzer Prize winners. Cornell is among the top dozen universities in the nation in terms of total federally financed research and development expenditures. It ranked first in funds allocated by the National Science Foundation for programs in academic science and engineering in 1996-97 (the most recent data available). In 1998-99, Cornell received $341.3 million in federal research grants.

Among the points of interest is the Newell McGraw Tower and Cornell Chimes. Constructed in 1893 atop Uris Library; the tower is a campus landmark. 737 ft high and 161 steps from the ground, houses the Cornell clock, chimes, and chimes museum. The reconfigured, newly tuned, and expanded set of 21 bells was reinstalled in the tower in fall 1999. The chimes are played daily by student and alumni chimes masters, whose repertoire includes more than 2,000 songs (The Wizard of Oz, "Ode to Joy," "The Straight," opened in 1925 as one of the nation's first student unions. A state-of-the-art, gothic-styled building with cathedral ceilings, marble staircases, and oak paneling, houses dining facilities, a housing library, a music room, a ceramics studio, an art gallery, Cornell Cinema, meeting and activity rooms, and offices for more than forty student organizations.

The Herbert F. Johnson Museum of Art is housed in a building designed by I. M. Pei. Built in 1975 on the site where Ezra Cornell is said to have announced his intention to found a university, it offers spectacular views of the campus, Ithaca, and Cayuga Lake. The museum's Asian, American, and graphic arts collections are especially notable. Cornell Plantations holdings include 5,600 acres in and around Ithaca, and include all public. On or near the campus are the arboretum and botanical garden (200 acres) and 500 acres of natural areas encompassing woodlands, trails, streams, and gorges. The world-renowned Laboratory of Ornithology is situated not far from the main campus. The laboratory's facilities include the La Crosse Observatory, which overlooks a 10-acre pond and a bird-feeding garden, and the 200-acre Sapucker Woods, a wildlife sanctuary with more than four miles of trails. The laboratory's Library of Natural Sounds has the world's largest collection of bird-song recordings. The laboratory also is active in bioacoustics and bird population studies.

Cornell's physical education program, one of the largest in the nation, offers 120 different courses. The intramural athletics program, the largest in the Ivy League, involves 9,800 participants on 1,800 teams in 55 sports. There are 18 men's and 18 women's varsity teams. Varsity facilities include the Niemand-Robison Softball field; Schoellkopf Field for football, lacrosse, and field hockey; Lynah Rink for ice hockey; Newman Arena for basketball, volleyball, and wrestling; and the Kane Sports Complex for track and field, and soccer.
“Dirty Dozen”
Professor Sees Substantial Opportunity
Law Schools’ Latinos Assess Progress

By Michelle Adam

Frank Valdez, professor of law, University of Miami, has launched a national cyber classroom (http://www.nerdc.usf.edu/~malavet) in order to break the barriers of social isolation for Latinos in law schools.

About twenty years ago, Michael A. Olivas witnessed his first public shaming ritual in China. He thought it had “cross-cultural implications for what I consider to be the shameless underachievement on the part of law schools.”

Olivas, now a law professor at the University of Houston, is the originator of the “Dirty Dozen” that annually makes public the 12 schools “most shameless” in terms of low numbers of Latino faculty and large numbers of Latino students. When he started the list in 1988, there were only 22 Latino law professors teaching at only 15 universities throughout the country, he said.

“When I started teaching, there wasn’t a single Latino in the state of Florida teaching law. There was not a single Latino teaching in the state of New York. Some of these schools had well over 100 faculty and had never had Latinos!” he said.

The University of Texas and the University of Southern California were once on the list but have since been taken off due to the hiring of Latino faculty. Harvard, Yale, and New York University, said Olivas, were originally on the list and remain there. He told The Daily News that there is a “hard core,” or schools that “have not looked thoroughly enough.” But overall, he thinks the Dirty Dozen list “has been a tremendous success.”

Although the fight is far from over, Olivas can now look proudly upon the 140-plus Latino law professors who serve more than 85 universities throughout the country.

“There has never been a better time to be a law faculty member. The opportunities have been opened up so substantially,” said Olivas.

With the number of Latino professors more than tripled since Olivas became one in 1981, professors have sought to expand areas of legal study and research that impact the Latino community. The effort has been crucial, especially since Latino faculty remains an extremely small segment of the 5,586 full-time law professors recorded by the American Bar Association. For many, he says, being a Latino law professor is an isolating experience.

Frank Valdes, professor of law at the University of Miami, was one of several professors to establish LatCrit in 1994—an effort to advance legal issues of interest to Latinos—including immigration, bilingual education, voting rights,
and racial profiling. From its initial meeting with 50 attendees, LatCrit has become an annual conference, held on Cinco de Mayo, at which 150 or so Latinos and others discuss the Latino condition and compile a body of literature that then expands into the classroom.

"Community building has been essential through what we are doing at LatCrit," said Valdes. For him, the effects of the discussion and publication of relevant legal issues has been paramount to the Latino community. "I have seen that people's law no longer continue to replicate certain assumptions. Like when talking about race, it is no longer about white and Black," said Valdes.

"And we've pierced through the tendency to talk about race, equality, and civil rights as a separate issue inside this country than from outside. The division of the domestic and the international is something that LatCrit has tried to transcend."

In an effort to further assure the inclusion of Latino topics of interest in law school, Valdes conducts surveys of law schools to determine the status of law school curricula. He has also launched a national cyber classroom (http://www.nerdc.ufl.edu/~malaket) in order to break the barriers of social isolation for Latinos in law schools. A growing number of faculty and students use this venue to voice their concerns regarding their schools curriculum.

In 1995, Antoinette Cedillo Lopez, professor of law at the University of New Mexico, became one of the first—if not the first—to publish a large volume of works on Latinos in law. When Garland Publishing asked her to edit a compilation of articles on issues facing Latinos, "they were worried if they'd have enough for two volumes," said Lopez. She edited six volumes in all, titled Latinos in the United States: History, Law, and Perspective. The volume on Latinos, which Garland was concerned would not sell well, sold out the fastest. Included within these works were themes of history and identity, Latina issues, criminal justice, Latino employment, and labor, education, and political power. "There are many issues facing Latinos," said Lopez, who has since been asked to edit another series, Latino Communities: Emerging Voices—Political, Social, Cultural, and Legal Issues.

Lopez thinks back to when she was up for tenure in 1993 and people warned her, "write about safe issues." Some issues that were marginalized at the time, such as immigration and racial profiling, are now mainstream, she noted. And while she was one of the first to edit a book on Latinos in law, now there are Latino scholars not only editing books of this subject matter but writing them. "It’s important that we have Latino scholars writing about these issues," said Lopez. "I think it is really important, not only for the intellectual discourse, but also so people won't feel so isolated."

Rachel Moran, law professor at the University of California at Berkeley, has also witnessed change since she was appointed to her school in 1982. One of the first to make bilingual education her area of expertise, by 1988, when she sought tenure, bilingual education had become a "hot" topic, and she

the second largest number of Latino students to become law professors. But she has also witnessed a decline in numbers since California rescinded affirmative action policies. According to a study conducted by Berkeley law student William Kidder, since the ban on affirmative action in 1994, Latino enrollment at Berkeley, Davis, and UCLA law schools has decreased from approximately 12 percent to six percent. "The changes in affirmative action will have a drastic affect on Latinos," said Moran.

California is not alone in banning affirmative action and thus impacting Latino student enrollment. In 1996, the result of the Hopwood v. Texas case barred the University of Texas from considering race and ethnicity in its admissions process. Since the Hopwood decision, University of Texas schools have seen a 20 percent decrease in Latino first-year students, according to Stanford Law and Policy Review:

"Even with affirmative action in place for 40 years, the State Bar is 50 percent white in a state that is 40 percent non-white," said Raynaldo Anaya Valencia, law professor at Saint Mary's University School of Law in San Antonio, Texas.

"Where are we going to be now that it is gone?" Although Valencia's university is private, and an exception to the Texas trend, 41 percent of the student body is minority—Anaya has seen the number of Latinos in Texas law schools drop. "I have talked to many Latinos who said they would not attend Texas schools because they are inhospitable," he said.

Margaret Montoya, professor of law at the University of New Mexico, has been particularly concerned with the effects of affirmative action on Latinos and their enrollment in law. For 20 years, she has been involved with different aspects of affirmative action, teaching classes on the subject and for a time working administratively with affirmative action programs for schools. "If you
look at those states that banned affirmative action, you can see the number of minority professionals has already diminished," she said.

"Law schools have always drawn students interested in going into politics," says Montoya. The law field "draws the students who see themselves as leaders in communities. To close the doors to Latinos is a crisis for us."

Montoya argues that discrimination is "a present-day fact for our community" and that "many Latinos receive a substandard education." But she points out that under affirmative action programs that promote diversity, most law students excel despite their differences coming into school. "You can look at Bar passage rates after the second or third taking, and you will find that upwards of 80 percent of all students end up passing the Bar and being able to practice," she said. "We end up creating a whole cadre of leadership."

With intervention programs such as that at the University of New Mexico, the percentage of students passing the Bar is up to 90 percent, added Montoya. "Our graduates are the leadership in the legislature and have become law professors," she said.

Despite overall increases in law faculty and students during the past decades, those interviewed agreed that we have a far way to go. As Valencia pointed out, "the dearth of Latino faculty remains abysmal." The American Bar Association figures for last year revealed exactly that only 183 full-time Latino law professors of a 5,586 total. And as for students, bans on affirmative action in minority-heavy states only add to the concern. It remains up to this small but significant group of Latinos to continue bringing legal issues of Latino concern to the forefront and building leaders for the future.
Learned Society/Activist Agenda

Minority Students and Faculty a High Priority

BY ADALYN HIXSON

The delivery of competent legal services to many segments of our population is reaching crisis proportions, "says Dean Hill Rivkin, professor at University of Tennessee College of Law and director of the Equal Justice project of AALS, the Association of American Law Schools.

"Poor people lack proper representation in our civil and criminal systems, our juvenile courts, and in the pervasive administrative tribunals that determine important issues for people with disabilities, those out of work, or those facing discrimination," says Rivkin.

In response to what it calls a "critical national need" to provide competent lawyers for poor people and for poor communities, AALS is sponsoring 19 Equal Justice Colloquia at law schools across the country, an initiative of its new president, Elliot Milstein.

Mislein is a professor at American University's Washington College of Law, which co-hosted, with Howard University School of Law, the inaugural colloquium, held September 21-22. Howard is the alma mater of AALS executive director Carl C. Monk.

Colloquia have since been hosted by law schools at UCLA and Pepperdine, Capital, Washington in St. Louis, DePaul, Pace, University of Chicago, and of Tennessee.

Next up are the University of Minnesota, Minneapolis, November 10th; Tulane, New Orleans, November 11th; University of Arkansas, Fayetteville, and University of New Mexico, Albuquerque, both November 17. And right more, from Seattle to Syracuse and points in between, are slated for the first three months of 2001.

Milstein said the project "seeks to inspire law faculty to participate—through their teaching, scholarship, and service—in the tremendous challenges of providing effective representation to the large numbers of people and communities left out of today's legal system."

Carl C. Monk, AALS executive director

The colloquium structure includes plenaries and workshops. At each site, the law school hosts programs relevant to their communities, state, or region.

The inaugural in D.C. included working groups on race, women's rights, immigration and domestic application of human rights law, and more. The conference at University of Tennessee offered a workshop, "Building a Justice Network for Tennessee's New Immigrant Population," led by MacArthur Prize fellow Jennifer Gordon, Johnson City Attorney Bill Francisco, and Jeanine Ugarte of the Hispanic Ministry of Knoxville Diocese. Participating law schools were UT, Vanderbilt, CUNY, and University of Memphis.

Diversity

Carl Monk tells HO that AALS' commitment to diversity issues "goes way back."

"Even before Brown v Board of Education was decided [in 1954], we prohibited our member schools from discriminating in admissions to law school. And we have since then and for many years been in the forefront. As with the history of any institution, we could have done better and done more.

"We have filed a number of amicus briefs, including most recently the Hopwood case and the Michigan case. Another recent accomplishment is the diversity study. I know that some schools have already been able to use that study to their benefit in litigation and politically, and we have an
ongoing commitment.

"In 1990, we prohibited schools from discriminating based on sexual orientation. And before the Supreme Court ever prohibited discrimination against women, we did.

"I think there is a lot there that we can be proud of, and I feel very lucky to have the position I do with an association that has a conscience and works to achieve its objectives."

Law Faculty Views on Diversity

Last year, AALS surveyed the attitudes of law professors toward issues of diversity. A preliminary report on the findings, by Richard A. White, was released in May 2000. The research questions asked: Does your law school/university value diversity? What are its costs and benefits? Who benefits? Do your beliefs about it affect your teaching?

A thousand names were randomly chosen from the 6424 professors, associate professors, and assistant professors listed in the 1998-99 AALS Directory of Law Teachers. Fifty-seven percent of those eligible responded. This represented 558 returned questionnaires, 72 percent of them from full professors. Respondents’ years of teaching ranged from one to 53.

An AALS release says the results provide “strong empirical evidence of the importance that law faculty attach to racial diversity in the classroom,” with nearly three out of four deeming it important to their school’s mission and fewer than one in ten deeming it unimportant. Unsurprisingly, women and minorities hold the most positive views of diversity, senior faculty and those with the most years of teaching behind them hold the least positive views.

Task Force on Diversity Issues

“We have a task force on diversity issues,” says Monk, “that is spending a lot of time on pipeline issues, and how to get more people of color into law—how to do it, and how to do it within the constraints of something like Hopwood.”

The Task Force co-chairs are Elizabeth Patterson at Georgetown and David Chambers at Michigan.

"Kent Lollis at the Law School Admission Council is the LSAC liaison to our Task Force and we work with Shelton,” says Monk. The LSAC website, www.LSAC.org, is a very helpful one for law school candidates.

Four years ago, the AALS Newsletter published three reports by recommended techniques for successfully recruiting a diverse faculty. The third was “Retaining Faculty of Color.”

That third report described a common pattern—the revolving door. In ’95-96, 62 members of racial minorities became law professors; 31 left the field. In ’94-95, 46 entered the field; 22 left it. Earlier years told similar stories.

The Committee suggests ways to break that cycle, some of them familiar—mentoring on the “three ps”—policy, procedures, and politics, achieving a “critical mass” of minorities. And it makes a strong case for “Clearly Stated Standards and Procedures,” noting that yes indeed, minority law professors are sometimes judged differently, and that both hostile evaluation and lenient evaluation, or the perception of special privileges, are damaging.

All three reports, as well as that on the diversity study, information on the Equal Justice project, and more, can be found at www.aals.org.

Latino Recruitment

“We are very active,” says Monk, “in trying to interest more lawyers of color to become law professors because if we do, that will both help get more law students of color and probably improve their experience while in law school.

“The numbers keep going up. I believe about 20 percent in law school now are minorities, and about 12 percent are people of color in law teaching. We want to move that up even further.”

Every year at the Hispanic National Bar Association Meeting, says Monk, either he or the deputy director of AALS offers a program featuring Latino law professors who speak with attendees, typically 30 or 40, to try to interest them in teaching.

“Michael Olivas kind of got this started some years ago, and we’ve done programs of that type at meetings of some other national associations. But every year at the Hispanic association.”

Monk refers to Olivas, a professor at the University of Houston, as...
“one of the leading law education scholars in the country.” A former general counsel to the American Association of University Professors (AAUP), Olivas has been “very, very influential in getting more Latinos into legal education.”

“And indeed, he is chairing the planning committee for a workshop we’re doing in just two weeks in Denver,” says Monk. The workshop, a joint offering with the LSAC, first offered in 1988, is designed to help law schools attract more students of color and will offer programs on all aspects of financial aid, admissions, placement, law school environment.

Asked if any foundations come to mind that are especially drawn to funding scholarships for law students of color, Monk mentions William Paul of Oklahoma, immediate past president of the ABA, a man who has among his major objectives the raising of a million dollars for a scholarship fund for people of color.

“We have worked actively with ABA and William Paul to promote that objective,” says Monk, adding that the first of those scholarships were given this year. “There are certainly others.”

AALS Origins

Asked why AALS came to be, Monk says it was founded in 1900 out of concern over the quality of legal education. Part of that concern, he said, was about the quality of the apprenticeships that were once a common route to the bar, a path not taken these days but possibly existing on paper as an option in a state or two.

There was a belief, he says, that legal education in a law school would be of higher quality and thus serve clients better. The AALS mission, as stated in its first bylaw, is the improvement of the legal profession through legal education. Others noted at its website are “to serve as a learned society for law teachers” and as legal education’s “principal representative to the federal government and to other national higher education organizations and learned societies.”

Today, many of its activities are generated through its 78 “sections,” focused on 78 topics. Under A, for example, the options are: Academic Support, Administrative Law, Africa, Aging and the Law, Agricultural Law, Alternative Dispute Resolution, Antitrust and Economic Regulation, Art Law. Each section conducts programs at the annual meeting and produces newsletters throughout the year.

AALS has 32 charter members. Its first president was Professor James terms, and now teaches political science at the University of New Mexico.] Fred was elected, and he offered me a job in Washington.

“I went to Howard for two reasons: I had been active in the civil rights movement, and I thought it would be very interesting for me as a white person to attend a predominately minority law school. The other reason had nothing to do with civil rights—Howard was cheaper.

Washburn Law School has among the very highest percentages of faculty of color of any law school in the country—unusual for a law school in the middle of Kansas. Topeka was not only the headquarters for but also the principal rail yards of the Atchison, Topeka, and the Santa Fe Railroad. I don’t know the percentages, but there’s a pretty good-sized Latino population in Topeka.”

Also part of Monk’s past was a year teaching at the University of Hawaii, and two as deputy director of AALS, to which he returned when the post of executive director opened up in ‘92.

International Moves

Something new at AALS, something Carl Monk is very happy about, is its conference in May of international legal educators, which he hopes and expects to be the first of many. About 50 people, 30 from as many countries, 20 or so from the U.S., participated.

This was a very diverse group in terms of Latino connections,” says Monk. “We had the president of the Mexican association of law schools, the president of the Ecuadorian association of law schools, a man from Argentina, a woman from Brazil...”

“It really was a moving conference. The intellectual content as well was very moving, because people really came together and really did understand more about each other’s cultures and legal education systems. And there is an ongoing commitment to continuing this work, so that is something I think our association can be very proud of.

“We put it together, and we are not stopping. We will go forward from there. And that is the most recent thing of which I am very proud.”

This being the month in which we elect a new president, HO asks Monk if any past U.S. president was considered “the law president” or “the legal education president.”

He can’t think of any, but reminds me that many of our presidents were lawyers.
Four Latino Lawyers: Four Paths

BY INÉS PINTO ALICEA

Four accomplished Latino lawyers in mid-career talked candidly with an HO journalist about how they got where they are—a combination, it seems, of preparation, passion, hard work, connections, and serendipity. No two stories are the same. Indeed, their career paths illustrate the many doors that can be opened with a degree from a well-regarded school of law, including doors to the White House and to the U.S. Supreme Court.

JUAN MILANÉS

Juan Milanés knew in high school that he wanted to be a lawyer, and he set his sights on international law early on. But riots in a predominantly Latino neighborhood in Washington in 1991 sent him on a different path, that of public service.

Milanés, attorney advisor to the assistant secretary for Fair Housing and Equal Opportunity at the U.S. Department of Housing and Urban Development, Eva Plaza, said it is a path he has not regretted taking even though at times it has meant personal sacrifice.

“I’ve always had a bent for public service,” said Milanés, 35, “I know that somebody walking out of law school and going to work for a big firm makes more than me, but, what I do helps somebody. I highly recommend public service.”

In his last semester at American University’s Washington College of Law, Milanés decided to step into the world of civil rights law, a side interest. He went to work as an intern at AYUDA Legal Services, an organization that provides legal services to immigrants. He had made some strong contacts in the Washington Latino community, and when riots erupted in Mount Pleasant, a largely Latino section of the nation’s capital, Milanés asked his law professors if he could delay his law exams so he could assist in community negotiations with the city police.

“I felt close to the issue and the community, so I went out to help as best I could,” he said.

After he graduated, he put his plans to pursue an international law career on hold and accepted a position with a civil rights organization in the city, the Washington Lawyers Committee for Civil Rights and Urban Affairs.

“That had not taken one civil rights law course,” Milanés said, “My intention was to go into international law. I could see myself at the OAS [Organization for American States] or the World Bank. I still intend to do international law. I’m just not sure when I’ll get to it.”

For now, Milanés is very busy working on a number of projects on behalf of the Latino community, both at his job and in his personal life. He lives with his wife and two young children in northern Virginia and has been active in mobilizing Latinos in Virginia.

When he was with the Washington Lawyers Committee, he and the organization were instrumental in defeating legislation that would have led to widespread discrimination against Virginia Latinos. The legislation was in the final stages of passage, and Virginia lawmakers figured that since there was no opposition, Virginians were fine with the proposal. But Milanés showed them that they were wrong.

“It sent a message that ‘We will fight you on these things, and we will fight you in the public eye.’”

JUAN MILANÉS

“That bill did wonders for Latinos in Virginia,” said Milanés. “It mobilized the Latino community to go to Richmond and to fight anti-Latino bills. It woke us up as a community. It sent a message that ‘We will fight you on these things, and we will fight you in the public eye.’”

The fight over the legislation in Virginia also led to the creation of two important Latino organizations in the state, two organizations that Milanés was instrumental in creating—the Virginia Hispanic Bar Association and
the Hispanic Chamber of Commerce. He was the second president of the
Bar Association.

His work on fair housing issues is equally impressive. He helped devel-
and disseminate a program called "Reconozcalo" or "Recognize It," a
set of teaching materials to be used in ESL classrooms to help people learn
the language but also how to recognize discrimination in housing.

One of his most recent cases occurred in the city of Elgin, Illinois. City
officials there moved to enforce a law limiting the number of residents in
homes, but they were dispropor-
tionately targeting Latinos. Milanés
said that 68 percent of the fines
got to Latinos even though Latinos
comprised only about eight percent
of the population. So his office
stepped in to resolve the matter.

"There is a lot of discrimination
against Latinos in the housing mar-
et," said Milanés, adding that stud-
ies by his office indicate that
Latinos are twice as likely to be dis-
 criminated against as whites. Still,
less than 10 percent of the 10,000 hous-
ing discrimination complaints that
his office receives yearly are filed
for issues of national origin.

"They don't trust the govern-
ment, and they fear for their immi-
grant status," said Milanés.

But Milanés said there are only
about 400 fair housing investiga-
tors nationwide and that Congress
has not made a priority of increas-
ing funding to curtail discrimina-
tion. Milanés said that he is con-
cerned that matters for immigrants
could take a turn for the worse
again in the future.

"We'll see more bashing again
during the next economic
downturn," said Milanés.

So his work for now is not done.

RAY MARTÍNEZ

In his letter of resignation to
President Clinton, Ray Martínez
thanked the nation's leader for
being a mentor to him, a young
Hispanic man from the Texas border town of Alice, and for giving him an
opportunity to excel.

"I'm proud to be associated with his administration's accomplish-
ments," said Martínez, who in June finished his second round of working
in the White House during the Clinton presidency. Now he's back in Texas
in private practice and awaiting the birth of his first child.

Martínez for eight months had been deputy assistant to the president
for intergovernmental affairs.

"I'm a product of his vision of diversity and his commitment to give
people like myself a chance to get experience."

Martínez first ventured into politics in 1987, working as an unpaid vol-
unteer for then Senator Albert Gore's campaign for president.

"I tell people that you may have to start with humble beginnings, but if
you work hard, it will pay off," said Martínez. "It has for me. All of the peo-
ple I met [in that campaign] gave me jobs later."

After the Gore campaign, Martínez went to work as deputy
director for Dan Morales' 1990
campaign for attorney general of
Texas. A friend he met in that cam-
paign called him in 1992, when he
was in his first year of law school,
and asked him to take on a role in
the campaign for the presidency of
then Arkansas Gov. Bill Clinton.
Martínez put his studies on hold
and went to New Mexico to open a
campaign office and create a steer-
ing committee for Clinton in the
state, which had voted strictly for
Republican presidential candidates
since 1964. Martínez became the
campaign's state director, at age 27,
and was instrumental in delivering
New Mexico to Clinton.

"I was only going to take six
months off from law school, but it
turned into a four-year leave of
absence," said Martínez. "It was a
time fun. We won the state by nine
percentage points."

Martínez said the job was chal-
lenging. At the time, the race was
considered close nationwide, and
both incumbent President George
Bush and challenger Clinton were
working hard to get New Mexico's
five electoral votes.

His hard work was rewarded by
an appointment in 1992 to Clinton's
transition team to prepare for the
presidency and later by a nomina-
tion to the U.S. Department of
Health and Human Services (HHS)
as a White House liaison, where he helped about 150 political appointees,
recruited employees to the department, and took on special projects.

One of the projects he undertook at HHS was the development of a teen
advisory council for HHS Secretary Donna Shalala. Shalala said she wanted
to learn more about the pressures and concerns that teens were facing, so
Martínez gathered a group of teens from the nation's capital to meet with

One of Martínez's biggest projects at the
White House was the Southwest Border
Task Force, created by Clinton to spur
economic development, lower poverty,
decrease unemployment, and increase
educational attainment.
the secretary regularly to discuss their issues. They also provided feedback on the HHS anti-smoking public service announcements and other projects.

His work with the Clinton administration, said Martínez, fulfilled a lifelong dream. It truly has been a remarkable experience.

"Every day is a learning experience. Every day I learn about myself as a professional, about how I work with others, how to be a part of the decision-making process, and how policy develops."

Another HHS project that Martínez is proud of is the development of an HHS Hispanic Advisory Council, made up of Latino employees, that advises the secretary on how to bring more Hispanics into the federal government, particularly at the managerial level, where they are severely underrepresented, and how to better serve Latinos through federal HHS programs.

"It's so important to have minorities in public service," said Martínez, who spoke of his high regard for those in public service and the demanding nature of the work.

"Many people make huge sacrifices to their finances and their family's finances. The biggest challenge is balancing professional responsibilities with personal responsibilities. But it's such a privilege to serve, I would never say no if asked again. It is a satisfying way to make a living. It is a worthy profession."

In 1995, during Clinton's first term as president, Martínez was asked to serve as special assistant to the president in political affairs, covering the Western region. For a year and a half, he traveled extensively with the president, keeping him informed of important political issues in the western states and how policies were impacting those states. After that, he became Western political director for the president's reelection campaign in 1996.

Once the president was re-elected, Martínez said it was time to finish his law degree.

But just as he was finishing his law degree, he was tapped once again by the administration. This time he was appointed regional director of HHS in Dallas, Texas. He focused on three major issues during that stint—increasing funding for border health, preventive medicine, and community health centers. Less than a year later, he was asked back to the White House, the job he just finished in June. One of his biggest projects at the White House was the Southwest Border Task Force, created in 1999 by the president to spur economic development, lower poverty, decrease unemployment, and increase educational attainment along the U.S.-Mexico border.

"There is a very sincere effort on the part of the president and the vice president to help areas that have not experienced as much growth as others," said Martínez.

Martínez is now launching a new career back in his home state of Texas, with the Austin law firm Cantey and Hanger, where he will be handling cases involving county and local governments.

"The job builds on what I do here," said Martínez. "I know I will use the experience I've gotten here."

Jorge Alers

When Jorge Alers tries to send a fax or mail a package to business clients in Latin America and it doesn't arrive, he is frustrated.

The infrastructure for communications and transportation is not as developed as in the United States. But when Alers travels to one of the countries where a project he helped carry out is completed, it all seems worth the effort.

"The biggest satisfaction I have is to bring about a lot of projects that otherwise would not have been implemented, particularly in Latin America," said Alers, a law partner in Wilmer, Cutler & Pickering, specializing in international financial investment. "It is the greatest sense of professional accomplishment."

Alers said he developed an interest in economic development at an early age from his father, a sociology professor who focused his work and study on world economic development issues.

Alers was born in San José, Costa Rica, but is a U.S. citizen. He moved to the United States with his family at age three, later earning an undergraduate degree at Colorado State University and a law degree from Harvard Law School. Upon graduation, Alers moved to Miami, joining the Latin America Practice Group, a law firm at which he helps Latin Americans interested in investing in the United States.

Alers has been at that job for nearly four years. Alers said he has discovered that in doing business with Latin Americans, they are more inclined to focus on personal relations rather than legal documents in carrying out an effort. Alers said the Latin Americans will ask "What was the understanding we had?" rather than "What was documented by the business parties?"

"That is how the matter will be handled," said Alers. "Having spent a lot of my life in Latin America has helped allow me to interact with business-
people and learn how business is done.”

Alers said Chile, Brazil, Costa Rica, and Mexico are dynamic markets for investment and trade now and that Latin America is experiencing increased trade because of a new phenomenon throughout the area—regionalization. More and more countries are banding together as regional partners to increase trade and investment amongst themselves.

“There are tensions throughout the region, but the growth prospects are high,” said Alers. “There are always ups and downs in Latin America. By nature, I’m optimistic about the region.”

Alers said he enjoys his work but admits that the long hours, stress, and time away from his wife and four young sons is tough. But he said he highly recommends earning a degree in law.

“A legal career is not for everybody,” he said. “It doesn’t mean that you have to pursue a legal career when you graduate. Just get the legal training. A legal degree is attractive because it’s a springboard for other things.”

R. TED CRUZ

R. Ted Cruz was successfully practicing law in Washington when he got a call that made him sell his house and move to Texas in June 1999. That call was from the presidential campaign of Texas Gov. George Bush, asking him to serve as domestic policy advisor to the Republican candidate. Cruz decided to make the move despite his limited campaign experience.

“When I came down, I was not sure what I was getting into,” said Cruz, a native of Texas, who had not known the governor personally before joining the campaign but had followed his career because of his close ties to his home state. “It was a huge change in life and lifestyle, but I’m happy I made the decision. I believe deeply in the governor. He is genuinely a good man with a vision for this country that would make this a better country.”

Cruz graduated from Harvard Law School and was a law clerk for U.S. Supreme Court Justice William Rehnquist.

The next few months are going to be long, difficult months,” Cruz said. “People are going to focus on the campaign more and more as it gets closer.”

Cruz said Bush has made several higher education proposals. He wants to expand the Pell Grant program by providing $1 billion over five years for one million recipients who pass advanced placement math or science tests. Cruz said he also has called for $1 billion over five years to develop more partnerships between colleges and universities and K-12 schools to strengthen math and science education.
As she had the full force of the sun's energy packed into her body, Brooklyn Law School Professor Jennifer Rosato bounds from the classroom's podium, down the steps to the floor of the amphitheater. She paces and re-paces every inch and the full length of the wide aisle, continuing to lecture, and leans toward the students, who are attending to each word she utters. Helping her Legal Profession class clarify material in the prior night's reading, she begins to thread the information into a broader discussion. She focuses on each of her 60 students, all of whom she knows by name, although it's only the second week of the term, and then asks them to consider the hypothetical at hand.

The subject matter is lawyer-client confidentiality. She cautions the students to engage in an evenhanded dialogue. She begins to call on the students; those with their hands up and those who have not willingly volunteered.

"Good point," she says to one. "What do you think, Ms. Arthur? Do you agree? Do you disagree with Mr. Joseph's statement?" She slips easily between the lecture mode and the Socratic method of inquiry. Then she alters the parameters of the case and asks that the students rethink and refine their positions.

"Don't be so judgmental of people's points of view," she reminds her students as the debate grows in intensity and complexity. "There is no right answer," she says, "and no easy answer."

The first hour of the two-hour class is winding down. Rosato unexpectedly shifts out of both the lecture and Socratic modes and moves into role-playing. She sets a paper bag on the desk of an unsuspecting student, assumes the role of client, and places the student in the role of attorney.

"There's the gun," she says, and points to the bag. The class is startled and rapt. (Later, they discover that the bag holds a hairdryer.)

"What do you do when your client comes to you, confesses to a crime, and produces a piece of
evidence?” she asks. “How does this admission affect client-attorney confidentiality? Or does it? How does an attorney square her personal ethics with her professional ethics and obligations?”

For the rest of this class, and in every other course she teaches at Brooklyn Law School, including Civil Procedure, Children and the Law, and Family Law, Rosato works tirelessly at challenging the students’ thinking, honing their analytical skills, helping them to more precisely articulate their arguments, and preparing them to enter the legal arena.

“No matter what area of the law you are involved in,” she says, “you are always in the business of advocacy and persuasion and fashioning a good argument for solving problems.”

She is determined that her students succeed, and to ensure this positive end, she draws on the full breadth of her legal, social work, and education backgrounds and the use of traditional and innovative education techniques. Her students are always her top priority.

If you ask Rosato what she loves best about being a teacher, she states unequivocally, “It is the expression on my students’ faces when they’ve accomplished something, when they’ve learned something. That’s worth everything to me.”

Multiracial Beginnings

Professor Rosato is a dedicated advocate for children and a defender of their rights, but it is in teaching that she has found her calling. She has been on the faculty at Brooklyn Law School since 1992 and before that at Villanova University School of Law. She has written extensively on ethical and legal issues related to health care decisions made on behalf of children. These articles and her others on gender and the law have appeared in leading law reviews.

Most recently, two of her editorials on the Elian González case and another on notification rights, teens, and abortion were published in major newspapers. She appeared on Fox News Live as a legal expert on the González case. She has worked to improve child abuse and neglect laws, and last year was appointed to the P.E.A.C.E. Advisory Board, which organizes parental education programs in the family court.

Trained as an educator and social worker at Cornell, Rosato earned her J.D. degree from the University of Pennsylvania Law School. After clerking for a federal judge and serving as an associate in a Philadelphia law firm, she turned to educating law students.

“My heart has always been in teaching,” she says, “and what informs all of my teaching is that I grew up in a multicultural world.”

Her first teaching influence, she says, was her abuelita, her maternal grandmother, who did not speak one word of English, and her parents. Her mother is Nicaraguan, and her father, an American of Italian and Hungarian descent.

“I grew up,” she says, “belonging everywhere and nowhere.” She learned the value of community and the disadvantage of the lack of one.

Living among multiple cultures throughout her life also forced Rosato to be sensitive to and understand the struggles of integration and assimilation vs. separatism. As a child, she considered this a liability that made her feel different. But as a professional, she has been able to draw from her multiethnic background and her multidisciplinary experiences to help students learn the design of a particular teaching style uniquely her own. It is a style that encourages and facilitates the learning of students from diverse backgrounds.

A Style of Her Own

Rosato uses her prior experience of teaching ESL to fourth and fifth graders and junior high school students in public school, and translates it into teaching the language of the law to her
Brooklyn Law School students. Law students, like the ESL students, are being challenged to learn a new syntax, style, and language.

"Active learning techniques are critical in the learning process," she says, "and I continue to change things around." To accommodate visual and aural learners, Rosato incorporates visual materials and popular culture with her lecturing. She has said that she will use anything to help her students learn, even games and video clips of The Practice.

Role-playing is a daily staple of her classes. "I try to place the students into the role of attorneys facing dilemmas," she says, "and simulate the type of environment in which they may find themselves."

"Some may say this is pandering," she continues, "but I don't consider it that; it is moving to a place that is accessible. I look to what students will find interesting, and from there we can move to whatever it is that I am trying to accomplish in legal analysis and problem-solving."

Creating an Environment

"What I try to do in the classroom as an ideal," she says, "is create an environment of mutual respect and responsibility." She understands that this runs counter to the traditional Socratic-method pedagogy, where there is more of a hierarchy. In the Socratic approach, the teacher knows all and is in some way manipulating the students to try and get them to answer questions in a specific way that the professor desires.

Her research into the use of the Socratic method in law school teaching, documented in the paper "The Socratic Method and Women Law Students: Humanizing, Don't Feminize," recognized the value of the method but also the importance of "humanizing" it in a way that would benefit all types of students. She has adapted this approach to make it more facilitative of learning.

"I give the students a sense that I respect all of them and all of their ideas. I'm not going to humiliate them. Yes, I will challenge them; my classes are rigorous, but I am always affirming," Rosato says. "We are all going to be able to learn together."

Rosato is adamant that there be a comparable sense of responsibility for both teacher and student. "I come in prepared, and I expect my students to do the same. I expect that we will respect our colleagues. My classroom is a safe place where all students, men and women, Latinos, all minorities, the diverse population will be heard."

Providing a Safe Place

Professor Rosato is keenly aware of the particular difficulties that Latinos and other minority students experience in law school, and understands the isolation they might feel. Their numbers are few, and there are not many role models (professors, judges, law partners) to look to. Overall, it can be difficult for Latino students and other students of color to have equal access to the system. Not having comparable access, Rosato knows, impacts ability to succeed in such a traditional profession.

"Many minority students may be the first in their families to be lawyerly and have nobody to talk to when they want advice about jobs," says Rosato. "That was the hardest part for me. I saw other people going through the law school experience more easily than I could because they already had access, through their families, or knew what to do."

Even worse than the lack of access, says Rosato, latino students also face questions about their rightful place in law school.

"Do you belong here?" is a constant query. "Did you get here by affirmative action or were you chosen on merit?" is another. If the students avail themselves of the academic support programs in law school, as do many other students, it may be seen as evidence of their unequal footing.

"There is a sense of always having to prove yourself," Rosato says, "of saying 'Yes, I am as good as you are.' Knowing that I share a similar experience, minority students ask me questions that they might not ask other professors like, 'Don't you get tired of always proving yourself?'

Most days, Rosato's answer is an emphatic "No."

What the students need, Rosato believes, "is an environment that is a safe place, and a sense of support where those of similar experiences will come together and share." Because of the way she has structured her classroom, because of the inclusionary strategies she uses, it is this safe place. Students understand that this is an environment where academic integrity is never compromised, where everyone's ideas are given equal consideration.

Students who have taken Rosato's Legal Profession course talk about how demanding it is, but fair. "We are all expected to participate, we are treated just like everyone else," one student says, "and Professor Rosato is very tough on all of us, but when we take our turn, teach the class, or make a presentation, and we do a great job--as great or better than anyone else--that's an important lesson. Professor Rosato gives us that opportunity."

Leadership in and out of Law School

Outside her classroom as well as inside, Professor Rosato supports Latino students and their causes. Although she feels that the most important contribution she can make is the "less public work" of teaching and counseling students, she has worked hard for institutional change to benefit Latinos. While teaching at Villanova, she worked with students to organize a LaLSA (Latin American Law Students Association). She also directed the Farmworkers Legal Education Project, where she and students went out to mushroom farms and taught Mexican farmworkers about their legal rights.

At Brooklyn Law School, Rosato sits on the Minority Summer Fellowship panel, which recommends highly qualified first-year minority students to work in prestigious law firms over the summer. She is on the Faculty's Diversity Committee and an advisor to the School's LaLSA, where she provides academic and career counseling. She has also taught in the School's Academic Support Program.

Nationally, Rosato is active in the AALS (Association of American Law Schools), where she has participated in training new law school teachers. At this year's meeting of the Hispanic National Bar Association, she directed sessions on how to become a law professor and how to become a law clerk. Both workshops are important, she feels, "because they are consistent with my view that more Latinos need to get into the pipeline for these highly prestigious jobs. I feel it is my obligation to pass this information along to the next generation and to involve more Latinos in the process."

Although Rosato knows that she can be viewed as a role model, she prefers being known as a mentor.

"My role in the classroom," she says, "is not to proselytize as a Latino woman or professor, not to wear my ideals on my sleeve. In this way I can be the most effective and accessible for all of my students. I live out the ideal that we have a responsibility--all of us--to a community in which we respect one another's ideas. I create a sounding environment for students from all backgrounds. I am a teacher for all students."

Patricia Weiss is the associate editor of publications at Brooklyn Law School. She is finishing her MBA in fiction at Sarah Lawrence College and is currently at work on a collection of short stories and Saving Vivian, a novel about loss and survival.
Latinos Thrive in Law & Diversity Program

Praise for Support Systems at Western Washington University

BY TANYA ROWE

Perceiving the hand of the law as heavy and unjust in her community, Jovita Hernández says she never envisioned law as a possible career.

"I thought that the police contact was not the correct one, but I couldn't do anything about that since I did not have any knowledge of the law," says Hernández, who moved with her family from Mexico to California at age 15.

The oldest of eight children and the daughter of migrant farmworkers, Hernández traveled extensively throughout California, Oregon, and Washington. Although she balanced attending school with caring for younger siblings and working, she managed to graduate from high school, where she learned English. This feat marked the first of many challenges conquered by Hernández.

Wanting to attend college but heading into uncharted territory as the first in her family to do so, Hernández stumbled upon a brochure for Western Washington University's Law and Diversity Program. Hernández enrolled in Western's program, designed to prepare students from underrepresented groups for admission to and success in law school or law-related professions. She is now well on her way to becoming a lawyer.

Programs of this nature have helped increase minority enrollment in law school and the legal profession, but law and diversity advocates say that there is still much to accomplish.

In fall 1999, total minority enrollment of first-year students in law schools across the country was 25,253, compared to overall first-year student enrollment of 125,184, according to the American Bar Association. Of those 25,253, there were 646 Puerto Ricans, 2,483 Mexican Americans, and 3,991 who identified themselves as Other Hispanic students. Native Americans were the most underrepresented group, with 978 first-year law school students that year. This year, however, for the first time, more than 50 percent of first-year law school students are women.

LDP

WWU's Law and Diversity Program, known as LDP, has helped many Hispanics launch legal careers over the years. Next year, the program celebrates its 10th anniversary.

In 1990, WWU professor and environmental attorney Rand Jack heard Justice Charles Smith of the Washington Supreme Court deliver a speech about the lack of diversity in the legal profession. Smith challenged the bar to take action on this front.

Jack took Smith up on his challenge by creating LDP. The first cohort of students began in 1991, and LDP welcomed students, like Hernández, who have a strong interest in issues of law, diversity, and social justice. The program was

"Washington's I-200 has been extremely devastating," Madrid says regarding the state's anti-affirmative action initiative that passed last November.
designed for students whose ethnic, social, or economic community is underrepresented in the legal profession and who have the potential to act as leaders and role models in their community.

Today, LDP is a rigorous two-year interdisciplinary course of study for upper-level undergraduate students aimed at developing skills and knowledge necessary for law school success. Emphasis is placed on the development of skills essential to legal thinking: critical reading, writing, research, oral communication, and analytical ability. The program leads to a Bachelor of Arts degree from Western.

Located in Bellingham, WWU is 87 miles north of Seattle and 55 miles south of Vancouver, British Columbia. It is home to about 12,000 undergraduate and graduate students who come for a highly regarded liberal arts education offered by attentive faculty and through innovative programs, such as LDP.

LDP students take courses from WWU's Fairhaven College and other University departments. Students in Fairhaven College classes, including LDP classes, do not receive letter grades. Instead, students write self-evaluations for each course and receive faculty-written narrative evaluations.

Each week, LDP students attend an integrated seminar designed to link the themes and issues studied in the content courses. Guest speakers, attorney mentors, and a quarter-long legal internship reveal the many relationships between law, diversity, and social justice.

Sandra Madrid, assistant dean at the University of Washington Law School, is one of those mentors. She has served on Western's LDP advisory board, along with Justice Smith, since its inception. Madrid is nationally known for her recruitment of students of color in law school and her efforts toward their retention.

Welcoming students of color into law schools and the legal profession and encouraging their success through programs such as LDP influences the education of all law students—regardless of their ethnicity—and is critical to the balance of the justice system, Madrid says.

"Diversity of thought adds so much to the classroom and makes such an impact in law school," she says. "The professors always say the diversity of students enhances discussion."

A 1999 survey conducted by The Civil Rights Project at Harvard University supports this theory. It found that learning alongside students of different racial and ethnic backgrounds significantly enhanced the educational experiences of law students.

The survey reviewed the impact with other races and ethnic groups. In addition, interaction between law students of diverse backgrounds causes many students to alter their values and views about civil rights, the criminal justice system, and affirmative action policies. About 80 percent of students at both Harvard and Michigan favored strengthening or maintaining the existing admissions policy aimed at increasing enrollment of students of color.

Madrid says law schools must be very proactive in creating a welcoming atmosphere for students of color. The Law School Admission Council has designated February as National Minority Law School Recruitment Month and developed a grant program to encourage law schools to host recruitment events for prospective students in high school and early college.

"Washington's I-200 has been extremely devastating," Madrid says regarding the state's anti-affirmative action initiative that passed last November. As a result, many students—not wanting to come to a state that passed such an initiative—have pulled applications from law schools, she says. "That's why programs like LDP are so important. They are preparing wonderfully diverse students who will hopefully gain admission to law school."

Rail Martínez, a 28-year-old Mexican American, not only gained admission to law school but will earn his juris doctorate from Seattle University this May, and has already accepted a job at a corporate law firm in Seattle. Martínez graduated from LDP in 1995. Like Hernández, he too is the child of migrant farmworkers and spent much of his childhood living out of tents on riverbanks and in the back of the family's station wagon.

"I think a lot of people who come to law school maybe come from more stable families," Martínez says. "Academically it can be pretty rigorous. You need a pretty stable background to make it this
Many law students tend to think of earning their degree in terms of accumulating things—an avenue to having a stable career and living comfortably. Having come from the background that I’ve come from, I see it as more than that. It can also be an instrument for change of unfair conditions—especially relating to migrant farmworkers.”

Close one-on-one mentoring from LDP faculty and the support of the cohort have allowed many students who did not think they could go to law school to gain the skills and confidence necessary to pursue a legal career. Martínez says LDP gave him the stable background he needed to prepare him for law school.

“It taught me to look at the law, not as an intimidating field but a field that average people in society can enter and make a huge difference in,” Martínez says. “I look at LDP as a training field. It gave me confidence that I can succeed, and confidence knowing that I was doing it for the right reasons. It will be a rare instance in my life to have that kind of specialized attention from people who genuinely want me to succeed.”

Expanding Diversity in Law

Expanding the face of diversity in the legal profession is a priority of new LDP Director Julie Helling. This past summer, Helling took over for WWU faculty member Marian Rodríguez, who had led the Program since 1995. Rodríguez left Western to create her own consulting business, Six Fronteras (Without Borders).

Helling is a former domestic violence prosecutor and discrimination investigator. She received her juris doctorate cum laude from the University of Michigan Law School. However, she says her greatest education came from working with a diverse range of people, from attending high school in France, to teaching English two years as a Peace Corps volunteer in Niger, West Africa.

“As an attorney, I know that the legal profession desperately needs a multiplicity of voices and viewpoints,” Helling says. “LDP students have always included people of different ethnic backgrounds, gay and lesbian students, older and disabled students, and students of different economic status who are the first generation in their families to attend college. I am excited to build on this tradition and to continue to expand the perception of diversity.”

Since 1995, 58 students have graduated from Western’s LDP. Of those, 12 are known to have graduated from law school, and 10 are currently enrolled. This year, an LDP graduate is serving as a law clerk on the Washington State Supreme Court. Other LDP students have gone on to pursue master’s and Ph.D. degrees or work in law-related careers in juvenile justice, civic government, and domestic violence legal advocacy.

Prior to enrolling in LDP, K. Mauricio Peña worked in various law enforcement roles as a deputy, court interpreter, and private investigator. He graduated from LDP in 1999 and is currently a graduate student at Western. Peña, a 39-year-old Colombian, hopes to work at a community college, providing student services with a focus on minority retention. For now, his focus is on learning and educating his own children, ages two, five, and seven.

“I’m teaching my children how to think critically. My education has created a whole new Latino generation in my family,” Peña says. “They are definitely going to reap the benefits of the things I’ve learned.”

“Studying law has been a life-changing experience,” says Peña, who admits his definition of diversity was once much narrower. “It opened my eyes to bigotry—to who unjustly wields the power in America. It changed my views on every aspect of life, and it’s very hard to change a person, especially a person like me.”

Jovita Hernández, 26, is also slowly adjusting to the changes in her life, presently sleep deprivation. She graduated from WWU’s LDP in December 1999 and began her studies on a full-ride scholarship at the University of Akron Law School earlier this fall.

“I am the first one in my generation in my family to go to school and to graduate from all the education levels I have gone through,” Hernández says. “Still, I am really proud of my parents for all the support they have given me to keep going.”

Support in all its various forms, Hernández says, is key to one’s success in law school.

“My professors at Western helped me 100 percent in everything that I needed to prepare. I also learned a lot from my classmates. They made sure that I will succeed in my education. They kept on encouraging me every single day from the first day until I graduated from Western and even now that I am in law school,” she says.

“I hope to succeed here and be able to go back to my community and help mostly Latinos that are like myself when I first started LDP, in that because we don’t know our legal rights, people take advantage of our ignorance.”

Madrid sees a legal education in its broadest sense as an “entree into a higher leadership position.” Programs like LDP help assure that this entrée is obtainable by more students of color, she says.

Here Comes the Judge?

Don't Hold Your Breath

Latino Nominees to U.S. Courts Few and Always Kept Waiting

BY MARI CARMEN SARRACENT

A quick sweep of courtrooms nationwide would find judges of color, but their numbers are few, especially in the federal judiciary. There are none in the Supreme Court.

At the conclusion of 1999, the federal judiciary exhibited the following demographics (calculated as a percentage of the entire federal bench minus the vacancies): 83.1 percent white, 10.3 percent African American, 5.1 percent Latino, 0.9 percent Asian American, 0.3 percent Native American, and 1 percent Arab American. The gender breakdown is 80 percent men and 20 percent women.

Duard Bradshaw, an attorney at Buckley, King & Bluso, and chair of the Hispanic National Bar Association’s Judiciary Appointments Committee, says, “No president has nominated a Hispanic to the Supreme Court. This is something our association is concerned about. What I have found to be the biggest detriment or resistance is getting Latino judges confirmed by the Senate. This is not the case with the district court judges. In the last year and a half, every district court judge was approved. It’s a different story with the circuit courts. Circuit courts of appeals have a wider jurisdiction. After an extensive, long, and unjustified delay in confirmation, we were successful in getting Judge Paez in California.”

Enrique Moreno, Bradshaw adds, was nominated by the President, but “the nomination still needs to get a blue slip approval from the senators of that state. He’ll never get the opportunity. He made it to the door, but it hasn’t been opened.”

Triana R. D’Orazio, public affairs coordinator, Mexican American Legal Defense and Educational Fund, Washington, D.C., says, “Both senators in Texas are saying Enrique Moreno is not qualified. But he has gotten the highest consideration from the ABA. And he has worked for years in El Paso. And Judge Richard Paez of San Francisco, Calif.—it took four years for him to be confirmed. We have to wonder why.

“Is it a matter of connections? Do we not have the proper connections? We all know how the political process can be. The same goes for appointed positions in government. It certainly is not about education or lack of ability.”

Alliance for Justice (AFJ), Washington, D.C., reported that there has been no vacancy on the U.S. Supreme Court for six years and suggests the odds are high that vacancies will occur during the next presidential term, perhaps as many as three.

New justices could significantly shift the Supreme Court’s stance on many fundamental issues as the Court has become “increasingly divided over the past few sessions; 21 of the 74 cases heard this past term were decided on a 5-4 margin... And because justices are appointed for life, voters should think carefully about how the candidates’ positions on nominees could affect them,” noted an AFJ report.

Statistics

The Alliance’s “Judicial Selection Project Annual Report 1999,” which analyzes the federal judiciary, calls it “shamefully unrepresentative of the public it serves…”

“The Senate majority,” states the report, “has displayed an unprecedented level of intransigence, refusing to vote on Clinton nominees, especially those who are minorities and/or women… The slow pace of the process overall, and the unfair treatment of women and the minority nominees in particular, has resulted in unprecedented backlogs and judicial emergencies across the federal judiciary.”

In 1999, there were 64 judicial vacancies, of which 26 were judicial emergencies, and 21 nominations left pending from the previous year. Of the 21, seven were not resubmitted because of conservative opposition. Minority nominees who were not re-nominated in 1999 included Clarence J. Sundram and Annabelle Rodriguez, New York and Puerto Rico district court candidates.

The Judicial Conference of the United States determines judicial emergencies after considering the number and type of cases filed as well as how long a vacancy has been open.

Five of the eight nominees who waited more than a year for a Senate vote were women or minori-
ties. After his four-year wait, Richard Paez, was finally confirmed this spring to the Ninth Circuit Court of Appeals. Paez has 18 years of judicial experience. He is a native of Utah, and a Brigham Young University graduate.

“Miles to Go,” a report published this summer by the ABA’s Commission on Racial and Ethnic Diversity in the Profession, determined that progress has been especially slow for minority women in the profession. “There is only one minority female general counsel in the Fortune 500, only six minority female federal appellate judges, and two minority female law school deans.”

Task Forces for Equity
The Mexican American Legal Defense and Educational Fund, Washington, D.C., which recently stated in a paper on policy issues in the 2000 presidential campaign the importance of getting more Hispanics to the bench, and addressed the dragging out of the confirmation process.

“As of July 1, 2000, there are 60 judicial vacancies in the federal judiciary. Thirty-six of these have nominees pending,” reported MALDEF “Both the Citizens for Independent Courts and the Miller Center Commission suggest that the President should strive to meet the goal of nominating candidates within 90 days of the vacancies, and the Senate should meet the goal of confirming...within 60 days of the nomination.”

In 1989, the National Consortium of Task Forces and Commissions on Racial and Ethnic Bias in the Courts was established. Its membership includes the District of Columbia, Alaska, Arizona, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Iowa, Kentucky, Louisiana, Massachusetts, Michigan, Minnesota, Nebraska, Nevada, New Jersey, New Mexico, New York, Ohio, Oregon, Rhode Island, South Dakota, Tennessee, Texas, Utah, and Washington. Annual meetings are held in member states to discuss emergent issues relating to racial and ethnic bias concerns and to update members on individual states’ progress on its recommendations.

Grassroots organizations, associations, and committees believe that a diverse judiciary will help generate trust in the judicial system. The American Bar Association’s Forum on Justice Improvements, held October 1999, devoted a session to Bias in the Courts in which speaker Paulette Brown, special advisor, Council on Racial and Ethnic Justice, stated that “a diverse judiciary is essential to eliminating bias in the court. Perception is the key...So if you have a diverse judiciary, people can have a sense that...”

Source: MALDEF

they may be treated more fairly.

Brown also discussed the judicial selection process, which varies by state. "How we pick judges in our local jurisdiction is important. There's the merit selection system, which is, in my opinion, the most ideal; there are partisan elections, non-partisan elections, gubernatorial appointments, which happen in New Jersey and which may be worst of all, and legislative appointments. We must be active, active, active in ensuring that whoever is the president, nominations of people to the federal judiciary include people who are of color."

Cheryl Niro, president of the State Bar of Illinois, noted at the same ABA forum that two years earlier, it formed the Alliance of Bar Associations in Illinois, "specifically inviting all of the minority and ethnic bar associations to participate in judicial evaluations for selection and retention." The result, said Niro, was "improved ability to evaluate judicial candidates fairly."

From N.J., where judges are appointed by the governor and approved by the Senate, Yolande Marlow, judiciary executive assistant with the N.J. Courts Minority Concerns Unit, offered some statistics. "Ninety percent of our judges in N.J. are white, three percent are Hispanic, and 6.7 percent are black. There are 41 minority judges on the bench for the State," including N.J.'s supreme court, appellate division, and trial division, and no minority judges with its tax court.

Circuit Court Appointments

Appointment to the Circuit Court of Appeals is important as the decisions made from this bench set a precedent that can only be overruled by the Supreme Court. Adds Bradshaw, "The next step is the Supreme Court, after the circuit court decision is appealed."

Bradshaw explains that an appointment to circuit court "has traditionally been the president's choice. He nominates that individual. The Senate confirms the appointment, and then when they are ready to have a hearing, they will vote. There are a lot of personalities involved. A lot of politics, a lot of horse trading takes place."

Every senator, says Bradshaw, claims to be acting on behalf of the Constitution, "but some may have their own personal bias when it comes to circuit court appointment, and the process slows down."

Judicial elections take place every six-year period. In some states, judges are appointed or elected, and then must be re-elected at the completion of the term. Federal judges (circuit court and the Supreme Court) are appointed for life, unless they are impeached, notes Bradshaw.

What Can Be Done?

"We have to make our people aware of how the system operates," says Bradshaw. "We have to educate our people. We have to educate our communities. They have to work in their individual states. Start at the state level to put pressure on local senators, writing campaigns, telling the media. There is some strength behind our name. You have to get involved at the grass roots. Get on community boards. Our voices must be heard."

D'Orazio of MALDEF says, "It is a fact that Latinos have had to wait longer. Most of the judges that have been nominated are male. Latinos seem to receive a higher degree of scrutiny, particular if they have worked in the community and... they are considered activists."

"We try to get people confirmed in the circuit courts where they can be more influential, and appeals courts as well." They are precedent-setting, she says. "We need the people to represent our community in those courts. We have good representation in the district courts. But in the scope of the judicial system, these positions are less influential."

"We have sent out a policy paper," 46 pages in length, adds D'Orazio itemizing issues that are most important to the Latino community to both presidential candidates. We are talking hot-button issues, education, racial profiling. Again, it's back to those phone calls behind closed doors and who's had more of the connections and the politics."
$1 Million to UNM's Harwood Museum

The University of New Mexico's Harwood Museum of Art in Taos, N.M., received an anonymous cash gift of $1 million, the single largest cash gift ever made to the museum.

The Harwood preserves a unique record of both northern New Mexico's multicultural heritage and Taos' role in the development of early American art. It is home to paintings by the early Taos Society of Artists and paintings by contemporary artists. The Harwood also holds a significant collection of early Hispanic tinwork, retablos and butiros (three-dimensional carvings of saints), many of them given by Mabel Dodge Luhan, the New York arts patron who moved to Taos and introduced Ansel Adams, D.H. Lawrence, Edward Weston, Georgia O'Keeffe, and many others to the New Mexico landscape.

Texas A&M-Kingsville Director Earns Doctorate

Dr. María Consuelo Martínez, director of special programs, received her doctorate in bilingual education at Texas A&M University-Kingsville this summer. Martinez works with high school and college students who are migrants and/or first-generation college students.

Martínez said that as a young girl, she helped her family with the crops. Intensely driven, she received a four-year scholarship to North Texas but was not allowed to attend. Instead, she married, worked full time, raised her nine children, and eventually attended college with her oldest daughter.

Texas-Austin Observatory Receives $100,000

UT-Austin's McDonald Observatory received $100,000 from Joe R. Long and Dr. Teresa Lozano Long of Austin through the Long Foundations. The gift will support the innovative *Universona* radio program, sister program to *StartDate* radio, which has 57 million listeners in the United States.

Begun in 1995 with a National Science Foundation grant, *Universona* is a daily, two-minute Spanish-language radio program devoted to astronomy. It is broadcast on 175 radio stations in the U.S., Central America, and South America, with 35 million listeners each week.

Produced in the studios of KKCR-FM in El Paso, *Universona* is the most widely syndicated daily Spanish-language program on any subject in the U.S., airing in markets that are home to 90 percent of the Spanish-speaking population in the nation. The *Universona* website is http://universona.utexas.edu/.
wrote the one-act plays, containing messages of health and safety, for a target audience of farmworkers in nearby counties.

"We believe the most meaningful way to get needed health and safety information to non-English-speaking agricultural workers is in settings where they work or at other community events," said Kathy Pitts, Hispanic theater project coordinator of the EWU Center for Farm Health and Safety.

Justice Kennedy Visits California Western School of Law

U.S. Supreme Court Justice Anthony Kennedy delivered the keynote address at the dedication of the new law library at California Western School of Law.

"The law deals in abstractions, concepts, and ideas, and when we have the opportunity to see the elements of law and its purpose and its mission rendered into visible, tangible, physical form, it is always cause for celebration," said Kennedy.

The four-story, 50,000-square-foot state-of-the-art facility was built at a cost of $9 million. More than 600 alumni, faculty, students, donors, community and state representatives, and leaders in legal practice and education attended the dedication.

Tomatis Receives Honorary Doctorate from Grand Valley State

Grand Valley State University (GVSU) in Michigan gave an honorary doctorate to Luis Tomatis of the Van Andel Institute.

Tomatis became the founding president of the Van Andel Institute in 1995 after 30 years as a cardiac surgeon at Butterworth Hospital in Grand Rapids. He headed the hospital's thoracic and cardiovascular department and was a clinical professor of surgery at Michigan State University. He has published many scientific papers, lectured widely to professional audiences, and conducted research on surgical cost containment.

In 1981, Tomatis became president of the Michigan Society of Thoracic Surgeons; in 1993, he was made "Ciudadano ilustre de la ciudad de Rosario" in his native Argentina; and in 1995, he was given an honorary doctorate from the University of Rosario, Argentina.

The Van Andel Institute's George Vande Woude also received an honorary doctorate from GVSU.

Cal State-Northridge Graduate Named Miss Deaf America

California State University-Northridge (CSUN) graduate Lauren Teruel—who blossomed from a shy deaf child into an ambitious young adult who skydives, dances, acts, and aspires to be a writer—was chosen to represent the nation's estimated 28 million deaf and hard-of-hearing residents as Miss Deaf America for 2000-2002. The 22-year-old already had been named Miss Deaf Illinois.

Teruel, who is part Mexican American, was a very shy child who buried herself in books and shied away from conversation. In high school, she won awards in a Latin competition and as a cheerleader. Teruel currently is a full-time associate project coordinator with CSUN's National Center on Deafness. She is part of a federally funded project, Preparing Postsecondary Professionals, that creates materials to aid administrators and faculty members with the education of deaf college students.

CSUN's National Center on Deafness provides sign language interpreting and other specialized services to nearly 300 deaf students, serving the largest university population of deaf students in the western United States.

Saint Mary's Notes Contributions of Mexican Americans

The fall lecture series of the Center for Spirituality at Saint Mary's College (Ind.) reflected the school's 2000-2001 curricular theme, "Chicana 2000: Emerging Identities."

Father Arturo Pérez Rodríguez, a well-known authority on Mexican American literature, discussed the religious significance of the Mexican American feast, held annually on Nov. 2. A priest in the Chicago Diocese, he lectures on Hispanic liturgy and spirituality at the Catholic Theological Union in Chicago and also directs the Hispanic Liturgical Studies Program at Tepeyac Institute in El Paso, Texas.

Rancho Santiago Graduates Most Minority Students in State

Community College Week ranked the Rancho Santiago Community College District (RSCCD) as California's highest producer of minority graduates. The independent newspaper also ranked RSCCD ninth nationally in the same category. RSCCD placed 29th nationally among the top 100 schools in awarding associate degrees. The figures are based on data compiled by the U.S. Department of Education pertaining to the 1997-98 academic year.

"Our district is committed to providing quality education and access to all who wish to benefit from attending our colleges," said Dr. Eddie Hernández (pictured), district chancellor. "While our state and national rankings are impressive, we can still do more to enroll and retain students so they can reach their educational and career goals."

The district consists of two community colleges, Santa Ana College and Santiago Canyon College. Nearly half of the 1997-98 graduates were identified as ethnic minorities.

NALAC Will Meet at Texas A&M- Corpus Christi

Texas A&M University-Corpus Christi will help host a conference of the National Association of Latino Arts and Culture (NALAC), dedicated to defining the role of Hispanic art in the community. NALAC, formed in 1989, is an advocate for recognition, preservation, and development of Latino arts and culture in the United States. The conference, scheduled for Jan. 17-21, 2001, at the Ramada Inn Bayfront in Corpus Christi, is jointly sponsored by the South Texas Institute for the Arts, Texas A&M-Corpus Christi, and the Corpus Christi Hispanic Chamber of Commerce.
Workshops are scheduled on leadership and youth, the impact of immigration, assimilation and hybridization, and digital technology. There will be performances, readings, and exhibits throughout the conference, along with workshops in dance, music, theater, visual arts, literature, performance art, and media arts.

**UNM Students among First-Ever Gates Scholars**

Four University of New Mexico (UNM) students were selected as Gates Millennium Scholars—a program in its inaugural year, funded by the Bill and Melinda Gates Foundation. The program provides financial assistance to high-achieving minority students to support their pursuit of higher education opportunities.

Robert Estes, Esther Cadman, Karen Max, and Ranelle Sterling were among close to 1,000 scholars selected from more than 62,000 nominees. Additional scholars are being named on an ongoing basis.

The scholars' initiative is administered by the United Negro College Fund, with the support and participation of the Hispanic Scholarship Fund, American Indian College Fund, and Asian Pacific American Advisory Committee.

**UTSA Names New Alumni Board Officers**

R. René Escobedo is the new president of the board of directors of the UT-San Antonio (UTSA) Alumni Association for 2000-2001. An attorney and CPA in private practice, Escobedo received a bachelor's degree in accounting from UTSA in 1984 and completed his law degree at St. Mary's University in 1992. James Mickey is Association VP, and Clay Killinger is treasurer.

**Mexican Teachers Attend Texas A&M-Kingsville Workshop**

Texas A&M University-Kingsville's bilingual education department, chaired by Dr. Gustavo González, hosted its second Intensive English Professional Development Institute for Teachers. Instructors from Monterrey and Saltillo, Mexico, attended the workshop "Teaching for Excellence"; attended courses on classroom management, teaching of reading and writing, cooperative learning, whole language, and assessment and evaluation; and practiced English at the computer language lab.

Professors participating were Dr. Aima Pérez, Dr. Emma Garza, Dr. María Ayala-Schuemenan, and Dr. Sergio Garza, all alumni of the doctoral program in bilingual education. Also collaborating in the program were Dr. Lupita Thompson, Helen Melane, Joyce Mosley, Guillermo Miranda, and Rosie García-Belina.

**Rio Hondo Scholars Move Forward**

To help with a new year, more than 100 monetary awards were given to Rio Hondo College's (Calif.) highest achievers, and 40 students were recognized for outstanding accomplishments in their respective fields.

The list of outstanding students includes 1999-2000 Valedictorian José Antonio Alcaraz, who received the Marie Pellicer scholarship; and Alcaraz has a 4.0 GPA with the most units earned at Rio Hondo. Martha Sánchez was selected for the statewide all-California academic team for 1999-2000, the only Rio Hondo student to be so honored. Sánchez (pictured with Yoshio C. Nakamura) received the Yoshio C. Nakamura art scholarship, American Association of University Women, ASB scholarship, and Interclub Council scholarship.

**Ramapo Part of National Student Exchange**

Ramapo Students at Ramapo College of New Jersey now are able to spend either a semester or a full year studying at one of 161 colleges and universities in the U.S. and its territories. In return, students from those 161 institutions have the option of coming to Ramapo.

This program, the National Student Exchange, makes it possible to expand the boundaries of each institution, and allows students to experience a diversity of people, culture, courses, and geography. According to Rhoda Leshowitz, assistant director of admissions and Ramapo's Exchange coordinator, eligible students are those with a 2.5 or better GPA and between 30 and 85 completed credit hours. Participants qualify for in-state tuition at the schools in the Exchange.

**Father and Daughter Graduate Together at Texas A&M-Corpus Christi**

Sixty-year-old Gregorio Gallegos and his 25-year-old daughter, Gail Gallegos Bedell, simultaneously obtained master's degrees at Texas A&M University-Corpus Christi.

"I am so proud of my father," said Gail. "I think it's wonderful. I hope this inspires other older people to go back to school.

A bilingual teacher at M.B. Lamar Middle School in Laredo, Texas, Greg had been commuting to Texas A&M-Corpus Christi since 1997, when he became a graduate student. Gail, his youngest daughter, began working on a master's degree in 1998. Neither imagined they would graduate together.

"We are both excited and ecstatic," said Greg.

**Mercy Offers Spanish Bilingual Courses**

The Spanish bilingual program at Mercy College in New York is offering degree programs for Spanish-speaking students. Classes, offered at the Dobbs Ferry and Bronx campuses, include Introduction to Latin American History, Abnormal Psychology, Introduction to Financial Accounting, and International Business.

**ACCD's Martínez Honored for Leadership**

Dr. Ernest A. Martínez, executive vice chancellor of the Alamo Community College District (ACCD) in Texas, was recognized for outstanding community leadership in education by the West San Antonio Chamber of Commerce at a special luncheon. As the featured speaker, Martínez outlined the ACCD's new educational strategies for San Antonio's west side. Dr. Jude Valdez, VP of extended services at the UT-San Antonio, was the master of ceremonies.
In his post, Martínez supports the chancellor and the ACCD board in strategic planning, institutional effectiveness, capital improvements, developing policy, improving delivery of services, and initiatives enhancing academic programs and quality of life. He also supervises many key district areas, including human resources, information systems, procurement, student financial services, facilities, fiscal affairs, public safety, and student program development.

**Mexican Architect Directs Trinity Mega-Cities Project**

Cecilia Martínez de la Macorra, a professor of planning and urban design from Mexico, is the project director for the Mega-Cities Project at Trinity College (Conn.).

The project is a transnational nonprofit network of community, academic, government, business, and media leaders dedicated to sharing innovative solutions to urban problems. It seeks to make cities more socially just, ecologically sustainable, politically participatory, and economically vital.

A licensed architect in Mexico since 1975, Martínez has been with Mega-Cities since 1987. Earlier she was on the faculty of architecture at the Universidad Nacional Autónoma de Mexico. She has a master's degree from Edinburgh University in Scotland and doctorate from Oxford Brooks University in England.

**Minorities Not Reaping Benefits of California's Strong Labor Market**

While California's labor market continues to be strong, Latinos and African Americans, who are 31 percent of the state's working population, are being left behind by the state's technology-driven economic boom, according to the third California Work and Health Survey, led by University of California-San Francisco (UCSF) researchers.

Latinos are much less likely than are whites to benefit from the growth in jobs in the high-technology sector because they are less likely to have completed high school or college and much less likely to report using a computer in the workplace. Among employed Californians, Latinos are 11 times more likely than are whites to live in poverty. They are also more likely than are whites to lack pension plans and health insurance coverage and to report poor perceived health status.

Researchers at UCSF are funded by a grant from The California Wellness Foundation.

**UTSA Offers New Concentration in Mexican American Studies**

University of Texas-San Antonio (UTSA) students have a new choice in pursuing a bachelor's degree in Mexican American studies—literary and cultural studies. The new concentration offers courses in the literature of Texas and the Southwest, minority voices in American literature, Mexican American literature, pre-Columbian art, and the architecture of Mesoamerica. The studies complement those already offered: Spanish, political science, sociology, and history.

UTSA's Mexican American studies program differs from others around the country in that it is grounded in an academic discipline. Ellen Rojas Clark (picture) recently succeeded Joséphine Méndez-Negrete as program director.

**Cornell Hosts Urban Community Students**

Cornell University

Cornell is a private research university located in Ithaca, New York, United States. It is a member of the Ivy League and is widely regarded as one of the top universities in the world. Cornell offers a wide range of undergraduate and graduate programs, including liberal arts, business, engineering, agriculture, and architecture.

**Miami Offers Another First**

The University of Miami (UM) in Florida and The College Board are co-sponsoring the groundbreaking Executive Certificate Program in Enrollment Management through Distance Learning.

UM successfully introduced the nation's first master's degree and certificate programs in enrollment management in 1998 in its School of Education.

The new distance learning component, a joint product of the schools of education and business and the division of enrollments at UM, and The College Board, makes the program unique. It is designed for upper-level administrators and key decision-makers on college campuses who have a master's or doctoral degree and at least five years of professional experience.

**Mt. Hood Offers Nursing Classes to Spanish-Speakers**

A new program at Mt. Hood Community College in Oregon offers individuals who speak Spanish as their first language a unique opportunity to enter the medical field.

The Certified Nursing Assistant (CNA) program provides 12 weeks of instruction combining supervised clinical experience with vocational ESL coursework. The objective of the program, awarded a $28,504 grant by the Northwest Health Foundation, is to prepare Spanish-speaking students to take the Oregon State Board of Nursing exam in order to become licensed CNAs.

**In the News at the University of South Florida**

USF

Dr. Judith Genshaft became the sixth president of the University of South Florida (USF). Genshaft had been provost and VP for academic affairs at the State University of New York-Albany, an institution with a strong biology, biotechnology, public health, public administration, and teacher's education background. She has a bachelor's degree from the University of Wisconsin-Madison and a master's and doctorate from Kent State University.

The W.K. Kellogg Foundation awarded USF a $100,000 planning grant, part of a six-year $28.7 million ENLACE (Engaging Latino Communities for Education) initiative. USF would like to see more Hispanics remain in school and become teachers, to benefit the surrounding communities.

**Texas-San Antonio Fills New Positions**

Veteran educator Jesse T. Zapata (L) was named the first vice provost for the University of Texas-San Antonio (UTSA) Downtown
Campus. For six years, he was associate provost for UTSA-Downtown, where he played a key role in guiding the campus through several developmental stages. Zapata also will be dean of the College of Urban and Professional Programs, one of six colleges formed during UTSA’s recent academic restructuring effort. He has a bachelor’s degree from UT-Austin, a graduate degree from Texas Tech University, and a doctorate from Arizona State University.

James A. Almazán (r) was appointed to the new position of vice provost for research and international initiatives. The former interim associate VP for research will promote UTSA’s research capabilities and interests on a broader scale, seeking more public and private collaborations statewide, nationally, and internationally. He also will provide leadership in integrating more research opportunities into undergraduate education and in strengthening UTSA’s graduate education programs. Almazán holds many degrees, including a doctorate from UT-Austin.

Minnesota Program Hosts Puerto Rican Students

Laura Lynnette Avulse, Ixumary Álvarez Gutiérrez, and Mayra Rivera Hernández (featured l. to r.) of Puerto Rico were three of about 90 students from around the country to participate in this year’s University of Minnesota-Twin Cities Life Science Summer Research.

The 10-week program honored students interested in graduate studies in the life sciences. Students conducted intensive research, attended weekly seminars, and made poster presentations on their research. The goal was to demonstrate what university research is like and encourage students to pursue graduate work.

Aviles and Rivera Hernández are seniors at the University of Puerto Rico-Cayey. Álvarez Gutiérrez is a senior at the Colegio Universitario del Este.

Miramontes Oversees Diversity and Equity at Colorado-Boulder

Ofelia Miramontes became the permanent associate vice chancellor for diversity and equity at the University of Colorado-Boulder. She had held the position on an interim basis since the office of diversity and equity was formed in 1998.

Miramontes was a leader in coordinating diversity programs and services and increased scholarship funding for students—important components of the campus diversity plan. She is also an associate professor in the School of Education, and chaired the school’s equity, educational, and cultural diversity program group. She remains active in the development of programs for language minority students in public schools.

Miramontes has a bachelor’s degree from San Diego State University, a master’s from United States International University, and a doctorate from Claremont Graduate School.

California-Santa Barbara Conducts Border Project

The University of California-Santa Barbara’s Center for Chicano Studies was awarded a four-year $288,475 Rockefeller Foundation grant to study Chicano and Mexican cultures where they meet along the U.S.-Mexico border.

The funds, augmented by other university moneys, will bring seven border culture academics and artists to the campus for yearlong residencies, provide them with graduate and undergraduate student assistants, and fund a border-studies conference at the project’s conclusion in 2004. Results of the project, “The Dynamics of Chicana/o Literacy,” will be published after the conference.

Carl Gutiérrez-Jones is the acting director at the Center.

Mosquera Appointed at Alma

Alma College in Michigan appointed Juan Vianny Mosquera associate director of multicultural and international admissions.

Originally from Colombia, Mosquera came to the U.S. as a Fulbright exchange lecturer. Most recently, he was dean of the School of Simultaneous Translations at Corporación Universitaria de Colombia IDEAS. He also just translated INSIGHT: A Cognitive Approach for Women, a textbook and facilitator’s manual by Dr. Verona Gordon, emeritus professor, University of Minnesota.

A linguist, Mosquera was once an interpreter for Muhammad Ali, former heavyweight boxing champion of the world. He has a bachelor’s degree from the Universidad Libre de Colombia, master’s from Instituto Caro y Cuervo, Bogota, and doctorate from Southern University.

New Mexico Awards EMBA Scholarships

Four University of New Mexico staff members received Executive Master’s in Business Administration (EMBA) scholarship awards.

Two who were admitted to the 2000-2002 EMBA class received full scholarships—Clara de la Cruz Watral (l.), senior program manager in the general library, and Chris Vallejos (r.), accounting manager, FRS Control.

Two students from the 1999-2001 EMBA class, Stacy Heimer, and Don Butterfield, received $1,000 book scholarships.

Instituted in 1971, the EMBA program allows working professionals, whose average age is 37, to earn a master’s degree quickly and without interrupting their careers. Classes are held on campus on Friday afternoons and Saturday mornings for approximately 26 months.
Rio Hondo Project Addresses Teacher Shortage

To recruit more students into the teaching field, the California learning institutions Rio Hondo College (RHC) and Mt. San Antonio College partnered to implement a new teacher preparation program funded by the California Community College Chancellor's Office and the federally funded AmeriCorps program. Up to 40 RHC students have been part of the program, which trains them to work as paid tutors in local kindergarten through third-grade classrooms.

Early childhood education is a very popular and strong program at RHC. "The incentives for students interested in pursuing a teaching career have never been greater," said Robbie Bos, who coordinates the new teacher preparation program at RHC.

The Chancellor's Office has asked community colleges to partner with California State universities to create smoother pathways through the lower-division college preparation courses and the transfer process needed to complete a teaching credential.

UT-Austin Celebrates Díez y Seis de Septiembre

The University of Texas (UT)-Austin celebrated Díez y Seis de Septiembre with free concerts and guest speakers who discussed the celebration's origin—a priest's heroic call in 1810 for Mexico's independence.

Father Miguel Hidalgo y Costilla's "Grito de Dolores," on Sept. 16, 1810, at the village of Dolores, near Guanajuato, called for the end of Spanish rule in Mexico. On Sept. 16, 1825, the Republic of Mexico officially declared Díez y Seis de Septiembre its national Independence Day. Immigrants from Mexico brought the celebrations to the United States, and their descendants have continued the tradition, along with others who enjoy Mexican culture and music.

UT-Austin's Center for Mexican American Studies and Mexican American Culture Committee co-sponsored much of the festivities.

Sigma Lambda Upsilon Commits to Literacy

Sigma Lambda Upsilon/Señoritas Latinas Unidas Sorority, Inc., has identified literacy as its national philanthropy, advocating it as a means of ensuring the empowerment and success of the nation and of the people of its diverse communities.

Sigma Lambda Upsilon strives to encourage literacy as an asset that affords limitless possibilities, and promotes the acts of reading and writing as enjoyable, exciting, and empowering.

A national organization, Sigma Lambda Upsilon will promote literacy throughout the U.S. via its chapters' involvement in nationwide initiatives. Each year, a particular population will be targeted—a population defined by age, need, or location, around which all philanthropic efforts will focus.

News from Florida International University

The Florida Consortium in Latin American Studies, a partnership between the Latin American and Caribbean Center (LACC) at Florida International University (FIU) and the Center for Latin American Studies at the University of Florida, was awarded national resource center and graduate student fellowships totaling $735,000 by the U.S. Department of Education.

The LACC will increase the scope and quality of area studies and language training and will improve public knowledge about Latin America and the Caribbean.

Global Crossing, Ltd. and FIU will jointly establish Americas Path, a high-speed backbone network to interconnect research and education networks. Global Crossing's undersea and terrestrial fiber optic network will link participating countries to the Abilene Internet and Next Generation Internet networks in the U.S. and throughout the world. "This puts FIU and our Florida educational institutions at the forefront of research and education initiatives in Latin America," said Florida Gov. Jeb Bush.

FIU's Cuban Research Institute has edited Cuban Studies, the 30th volume of what some consider the leading academic journal in the field. It is the first of five annual issues of the hardback publication to be produced by the university.

Jacksonville Expands International Studies

During a visit to Jacksonville University (JU) in Florida, Gustavo Arzata (pictured), director of International Studies Abroad (ISA), signed an agreement for ISA to provide international programs to JU students.

ISA was established in 1987 to facilitate study abroad programs for American college and university students. ISA partners include institutions such as UCLA and the Virginia Military Institute.

Dr. J. Calvin Clarke III, professor of history and director of international education at JU, predicted that the agreement would dramatically increase the ability of JU students to study abroad at controlled prices.

Vallejo on Education Committee in West Palm Beach

Dr. María M. Vallejo, campus provost at Palm Beach Community College in Florida, was appointed to the city of West Palm Beach's Education Advisory Committee. West Palm Beach Mayor Joel T. Davis personally thanked Vallejo for her willingness to volunteer her time "to make the city a better place to live, work, and play."

Vallejo has a bachelor's degree from Hampshire College, two master's degrees from Columbia University, and a doctorate from NYU.

Brown Student Researches Women and Math Tests

Women perform as much as 12 percent better on math problems when tested in a setting without men, according to a study of Brown University (R.I.) undergraduates led by a graduate student of psychology.

Specifically, women tested in single-sex groups scored a 70-percent accuracy rate on math exams; women tested in groups in which they were outnumbered by men scored a 58-percent accuracy rate, said lead author Michael Inzlicht, whose study appeared in the September issue of the American Psychological Society's journal, Psychological Science.

Simply being in a classroom with men did not affect women's overall intellectual performance, Inzlicht said. The performance differences were limited to situations in which women were tested on math, a subject that is traditionally stereotyped—bringing to light a possible negative ramifications of stereotypes.
Texas A&M–Corpus Christi Hosts Fuentes and Calicanto

Laura Fuentes (pictured) and the group Calicanto performed at Texas A&M University–Corpus Christi, showcasing musical styles from Chile, Mexico, Peru, Puerto Rico, and Venezuela. Part of A&M’s Hispanic Heritage Month celebration, the performance was designed to promote a better understanding of Hispanic culture. Lucy Torres, multicultural programs director, was a key facilitator of the festivities.

Domingo Outlines Plans for L.A. Opera

In California, Plácido Domingo, artistic director of the Los Angeles Opera, announced several new artistic ventures and plans for the company.

The 2001-2002 season will bring a new production of Peter Ilyich Tchaikovsky’s Pikovaya dama (The Queen of Spades), co-produced with the Teatro Real, Madrid, and The Washington Opera and directed by Hugo de Ana; a revival of the company’s beloved 1999 production of Giuseppe Fortunio Verdi’s La traviata, conducted by Plácido Domingo himself and directed by Marta Domingo; three performances of Franz Lehár’s La viuda alegre (The Merry Widow), performed in Spanish; and much more.

Domingo announced an all-new staging of Richard Wagner’s epic Ring Cycle. To realize Wagner’s vision of a comprehensive, fantastical theatrical experience, this first-ever presentation of the Ring in Los Angeles will feature stage effects designed by Industrial Light and Magic (ILM). Founded in 1975 by George Lucas, ILM is the leading effects facility in the world.

Domingo’s Angels, a new underwriting program comprised of donors who have each pledged $1 million over 4 years, was created to support the opera’s artistic initiatives.

Rodríguez Headlines “Jazz at Drew” Music Series

Bobby Rodríguez and His 23-Piece Orchestra were among the headliners at the prestigious “Jazz at Drew” music series at the Charles R. Drew University of Medicine and Science in California. A gifted jazz trumpet player born in East Los Angeles, Rodríguez is a charismatic performer and dynamic composer and arranger. He and his salsa orchestra combine traditional big band music and a Latin rhythm section featuring timbales, congas, bongo, and hand percussion to produce a unique and highly infectious California salsa/jazz sound.

A popular music event in Southern California, Jazz at Drew celebrated its 10th anniversary. Over the years, Jazz at Drew—with the theme “Building Cultural Bridges Through Music”—has highlighted a broad multicultural mix of musical styles.

Cooley Law School Announces National Deans’ List

The second annual National Deans’ List, featuring top law students from around the country, has been published by the National Jurist, Inc.

Thomas E. Brennan, former Chief Justice of the Michigan Supreme Court, and president of the Thomas M. Cooley Law School (Mich.), launched the publication as a resource for the legal community, and judging from its success last year, it has found its mark.

“The book found immediate acceptance among judges and lawyers interested in recruiting top-notch talent,” said Brennan, who describes it as “a ready and useful resource for appellate court justices and judges who seek to recruit law clerks with diverse backgrounds and credentials,” Brennan said.

PUBLICATIONS

The Novels and Plays of Eduardo Manet: An Adventure in Multiculturalism

By Phyllis Zallin

Playwright and novelist, theater and film director—Eduardo Manet has been a major participant in the cultural worlds of both Cuba and France. But his work often has been overlooked by both French and Spanish American critics because of his unique position as a Latin American writing in French. Phyllis Zallin sets out to correct this oversight by offering a detailed analysis of Manet’s many genres and themes.

The Cuban Democratic Experience: The Auténtico Years, 1944-1952

By Charles D. Ameringer

The author looks at eight unique years in Cuban history that generally have been ignored by most commentators and examines the cultural, economic, political, and social features of the era. Without attempting to restore the Auténticos to good repute entirely, Ameringer probes the Cuban consciousness in order to understand the strengths and weaknesses of Cuban democracy during this special period.

Visible Nations: Latin American Cinema and Video

Chon A. Noriega, ed.

In the current global moment, the study of Latin American cinema has become insistently national—a phenomenon fully explored in this collection of essays. The contributors to this book examine different national film and video histories in Latin America since the silent period.

Sex, Race, and Merit: Debating Affirmative Action in Education and Employment

Faye J. Crosby and Cheryl VanDeveer, eds.

When people argue about affirmative action, they often speak past one another, meaning different things with the same words. This book traces the history of this divisive issue as it has been reflected in the writings of key opinion-makers and in public documents.

Exploring Mesoamerica: Places in Time

By John M.D. Pohl

Long before the arrival of Columbus, the civilizations of Mesoamerica were among the most sophisticated and spectacular of the ancient world. This book provides a guided tour of the most amazing archaeological sites of Mesoamerica, bringing to life the civilizations that once flourished there.

From Moon Goddesses to Virgins: The Colonization of Yucatecan Maya Sexual Desire

By Pete Sigal

This book decodes the process through which the colonization of Yucatecan Maya sexual desire occurred. Pete Sigal frames the discussion around a series of texts, including the Books of Chilam Balam and the Ritual of the Bacabs, that were written by 17th- and 18th-century Maya nobles to elucidate the history, religion, and philosophy of the Yucatecan Maya communities.

When Women Ask the Questions: Creating Women’s Studies in America

By Marilyn Jacoby Boxer

Boxer traces the successes and failures of women’s studies, examines the fields enduring impact on the world of higher education, and concludes that the rise of women’s studies has challenged the university in the same way that feminism has challenged society at large. Boxer is executive director of the Northern California Center for Interinstitutional Collaboration and professor of history at San Francisco State University.

By Dora L. Costa

With life expectancies steadily increasing, the retirement rate of men over age 64 has risen drastically. Dora L. Costa looks at factors underlying this increase and shows the dramatic implications of her findings for both the general public and the U.S. government.

Gabriel’s Fire: A Memoir

By Luis Gabriel Aguillera

This book grew out of the journals of Luis Gabriel Aguillera, an adolescent Mexican immigrant who came of age in a Polish neighborhood on the South Side of Chicago. It counters mainstream and mass-mediated images of the inner city, Hispanic culture, and troubled youth. In its honesty and energy, it is a poignant and compelling story of one man’s formative years.

Fray Angélico Chávez: Poet, Priest, and Artist

Ellen McCracken, ed.

New Mexico’s first native Franciscan priest, Fray Angélico Chávez (1910-1996), is known as a prolific historian, a literary and artistic figure, and an intellectual. The original essays collected here explore his wide-ranging cultural production: fiction, poetry, architectural restoration, journalism, genealogy, translation, and painting and drawing.

Crafts, Capitalism, and Women: The Potters of La Chamba, Colombia

By Ronald J. Duncan

Focusing on people of indigenous and mestizo descent in Colombia, Ronald Duncan documents how the global economy extends the labor exploitation that began with the defeat by the Spanish. He argues that the treatment of home-based craft workers that occurs today among women and children in La Chamba and other areas of Latin America is structurally similar to the slavery and indentured servitude that followed the Conquest.

Constructivism in Education: Opinions and Second Opinions on Controversial Issues
D.C. Phillips, ed.

Thirteen educators from the United States, Australia, and the United Kingdom engage one another and their readers in a wide-ranging discussion of several modes of constructivism and examine its real and potential influences on classroom teaching, especially in the precollege grades. This is Part I of the 99th Yearbook of the National Society for the Study of Education (NSSE).

My Own True Name: New and Selected Poems for Young Adults, 1984-1999
By Pat Mora

Pat Mora’s poems and prose works alike, written for both adults and younger readers, have received awards and critical acclaim for their grace, luminosity, and craft. In this anthology, she has gathered the best of her poems with young-adult readers in mind, and has added to them several new poems published here for the first time.

Chicano Chicánery: Short Stories
By Daniel Chacón

This publication presents a baker’s dozen of short stories featuring switched identities (in both Mexico and the United States); an involuntary gang initiation; men’s betrayals of their friends and of them- selves; and some slippery exploits at the law office and in a chicken-packing factory.

The Adventures of Don Chipote, or, When Parrots Breast-Feed
By Daniel Venegas

With bawdy humor and razor-sharp insight, this story relates the hapless journey of the poor farmer Don Chipote de Jesús María Domínguez, who naively leaves his wife and children behind in Mexico to seek riches in the United States—where, he is assured, one can sweep up gold dust off the streets and “suck the nectar from the tree of life.”

Many publications featured in this section are available through amazon.com.

CONFERENCES

“The Assessment Institute”
November 9-11

Sponsored by the National Center on Postsecondary Teaching Learning, and Assessment and by ACT. Philadelphia, Pa.
Contact: (814) 865-5917; e-mail, nctla@psu.edu; website, www.ed.psu.edu/cshe/nctla.htm.

Research Centers in Minority Institutions International Symposium
November 12-15

International symposium on health disparities. In San Juan, Puerto Rico.
Contact: Beatrice Rafter or Walter Sullivan, (404) 752-1634; e-mail, rafterb@msm.edu; website, www.rcmi2000.upr.edu.

Management Institute for Women in Higher Education Administration
November 17-18

Contact: Susan Knowles, (781) 283-2529; e-mail, sknowles@wellesley.edu.

TACHE 2000
November 29-December 1

The conference theme, “Latinos in Higher Education: Beyond the Demographics,” reflects the Texas Association of Chicanos in Higher Education’s interest to move the dialogue beyond the numbers to a discussion of concrete strategic plans for addressing the challenges presented by the ethnic shifts in population.

6th Conference of the Recovering the U.S. Hispanic Literary Heritage Project
December 1-2

“The Recovering the Past, Charting the Future: Archives, Canons, and Questions of Identity” is this year’s theme. At the University of Houston.
Contact: Alejandra Balestra, (713) 743-3128; e-mail, artrec@jeson.uh.edu.

National Association of Student Personnel Administrators Institute
January 10-12

Contact: (202) 265-7500; e-mail, office@naspa.org.

AAHE Conference on Faculty Roles & Rewards
February 1-4, 2001

This 9th annual conference will focus on the changing professoriate and the two developments most salient in driving that change—new technologies and the generational shift now taking place in the faculty. At the Tampa Marriott Waterside in Tampa, Fla.
Book Review

By Martha García

Éxito Latino is a compilation of the life stories of one hundred influential Hispanics residing in the United States. It investigates the multiple nationalities that encompass the enormous Latino attainments in marketing, industry, and educational systems within this country.

The book was created to counter the image of Hispanics as stereotyped by the media. According to co-author Augusto Failde, president of Tropix Media, Inc., in New York and graduate of Stanford University and of Harvard Business School, many negative Latino stereotypes were adopted by Hollywood movies and television, such as the Latina who does not speak English, a "mujer fatal," an illegal immigrant, and Latino extortionists. Co-author William Doyle, a writer and former manager of HBO and Walter Thompson, agrees that the media presents only one side of the coin and does not illustrate the successes and accomplishments of the Hispanic population in the U.S. This book, also published in English as Latino Success, presents interviews conducted with professionals in high-profile positions and demonstrates the positive contributions of people of Hispanic heritage.

In the first section, "Los consejos," those interviewed agree that in the end, individuals should decide for themselves, without regard to external influences. This section promotes independent thinking within any profession in which Latinos operate.

The next chapter, "Allanar el camino de juego," is an exhortation for education, verbal fluency in English and Spanish, and commitment to high-quality work, as these empower Hispanics to obtain positions of responsibility and authority. In short, wise decision-making and academic preparation are the vehicles that propel the Hispanic community to exhibit excellence within the professional environment.

Latinos' capacity to adapt to the U.S. is explored in the "Tremenda ventaja." Hispanics have proven their ability to interact with different environments away from their homeland. Also, their mastery of multiple languages provides Hispanics with the necessary tools to function and succeed where diversity has become an advantage.

In "Imagen," the interviewees share their experiences with physical appearance and verbal expression. This section maintains that first impressions and the manner in which ideas are presented at work are vital keys to reaching and maintaining success. According to José Olman, vice president and CEO of EDS, presentation is more important than content. In "Nunca temas fracasar," the reader senses the enthusiasm of these successful Latinos. They encourage others to attempt new challenges in order to achieve their goals in a foreign country. They caution that one must not underestimate responsibility and integrity in performing appropriately in the business world. In short, first impression, accurate presentation of ideas, and personal values are identified as important tools in accomplishing difficult tasks and complex assignments.

"Orgullo" is, without a doubt, the section that asserts the importance of maintaining and appreciating Hispanic roots in the U.S. According to the interviewees, the balance between culture and language produces personal satisfaction. This section calls on Latinos to find a balance in dealing with the pressures of a bicultural life. The interviewees state the need for remaining conscious of Latin roots as intrinsic and unique. Also, the multicultural society in the U.S. gives them the advantage and joy of diversity.

The last section, "Sigue tu camino," is an invitation to explore the spiritual side of the individual in order to reach physical and mental stability. One of those interviewed, Phil Ramos, executive president of Philatron International Inc., explains the secret of his success. His reading of the Bible every day helps him to interact with others. Jesus, according to Ramos, sets a solid example of management because he had to deal with numerous demands and much opposition. Jesus always found the appropriate way to comport himself among all kinds of people. In addition, this chapter reflects comments and suggestions of successful Latinos for maintaining a physical, mental, and spiritual equilibrium. This allows Hispanics to develop adequate courage and strength to cope with the obstacles and challenges of American society.

Éxito Latino is an informative and a well-documented book. It manifests the successes realized by Hispanics who have crossed the cultural and linguistic frontiers by achieving and maintaining their success. This book would be useful for courses about Hispanics in the U.S.A. because it provides a guide for living. Furthermore, this work offers a new perspective for classroom instruction in which students would reevaluate the significant impact of Hispanic society in the United States through positive and authentic examples.

Martha García teaches Spanish courses at Vanderbilt University, where she is a Ph.D. candidate. She taught at the University of Central Florida-Orlando, and was coordinator's assistant with its Spanish master's program.

HISPANIC OUTLOOK 49
11/06/2000
CONSORTIUM FOR A STRONG MINORITY PRESENCE AT LIBERAL ARTS COLLEGES
Minority Scholar-in-Residence Program

With a view toward encouraging African-American, Asian-American, Hispanic-American, and Native American scholars to consider teaching and research careers at liberal-arts colleges, the Consortium for a Strong Minority Presence at Liberal Arts Colleges, an association of selective undergraduate institutions, has established the Minority Scholar-in-Residence Program. Applications are invited for the dissertation fellowship program or the post-doctoral fellowship program in all disciplines of the liberal arts and engineering. Applicants should be working toward the Ph.D. or the M.F.A. degree, or should have been awarded the degree no more than five years before application.

The Minority Scholars-in-Residence will receive a stipend equal to the typical salary for beginning instructors (dissertation fellow) or assistant professors (post-doctoral fellow) at the host institutions. Scholars will be expected to do some teaching and research, and to participate in other activities under the supervision of a mentor. It is hoped that the scholars will, upon completion of their residency, be strong candidates for tenure-tracked positions at member institutions of the consortium or at similar institutions. Scholars must be citizens of the United States and have had no more than five years of teaching or relevant work experience before receiving the award. Ideally, applicants for the dissertation fellowship program should have completed their research before the beginning of the fellowship year.

Among the member institutions of the Consortium, the following offer to sponsor minority scholars during the 2001-2002 academic year: Bowdoin College, Bryn Mawr College, Carleton College, Colorado College, Connecticut College, DePauw University, Grinnell College, Hamilton College, Harvard College, Macalester College, Mount Holyoke College, Oberlin College, Occidental College, Pomona College, Rhodes College, Southwestern University, Swarthmore College, Union College - NY, University of the South, Vassar College, Wellesley College, Wheaton College - MA.

THE UNIVERSITY OF OKLAHOMA

DEPARTMENT CHAIR POSITION
INSTRUCTIONAL LEADERSHIP AND ACADEMIC CURRICULUM

The faculty of the Department of Instructional Leadership and Academic Curriculum (ILAC) in the College of Education at the University of Oklahoma is seeking a dynamic scholar and leader to serve as Chair. The Department offers an innovative extended teacher preparation program that is NCATE approved. The Department includes 17 full-time faculty positions and offers programs in Bilingual, Early Childhood, Elementary, English, Mathematics, Reading, Science, Secondary, and Social Studies Education. Degrees are offered at the bachelors, masters, and doctoral levels.

Position: Department Chair, Associate/Full Professor, and twelve month appointment

Required Qualifications:

• Earned doctorate with specialization related to one of the program areas offered in the department, teacher education or curriculum and instruction
• Experience in working collaboratively with faculty, students, practitioners, and external constituents
• A distinguished and active record of scholarship, teaching and service
• Experience in advising graduate students
• Experience in teaching at any level from pre-school through grade 12 for a minimum of three years

Desirable Qualifications:

• Collaborative and democratic leadership style
• Administrative and budgetary experience in higher education
• Experience with academic program development, implementation, and evaluation
• Experience with accreditation and program review
• Experience in supervising doctoral dissertations
• Ability to communicate effectively with administrators, faculty, students, and external constituents
• Success in obtaining external funding
• Eligible for rank of full professor

Responsibilities:

• Conduct the administrative responsibilities of the department
• Promote the research mission of the Department, College, and University
• Work with faculty to implement model graduate and undergraduate programs
• Support professional service
• Work with faculty to recruit personnel and to administer departmental matters
• Lead efforts to stimulate professional growth in a collegial environment
• Teach one course each semester, advise graduate students, and chair doctoral committees

Anticipated Beginning Date: July 1, 2001

Application Deadline: Initial screen will begin December 8, 2000

Applications must include a letter of application, curriculum vita, three scholarly publications, and three letters of reference. Please send applications to: Jayne Pleasse, Chair, Department Chair Search Committee (ILAC) College of Education The University of Oklahoma 830 Van Vleet Oval Norman, OK 73019-0240

The University of Oklahoma is an Equal Opportunity/Affirmative Action Employer. OU is responsive to the needs of dual career couples. Underrepresented groups are encouraged to apply. The Department is committed to cultural pluralism in our programs, profession and society.

Williams College

Gaius Charles Bolin Fellowships
for Minority Graduate Students

2001-2002 Academic Year

In 1985 Williams College established the Gaius Charles Bolin Fellowships to
undertake the importance of encouraging able minority students to pursue careers
in college teaching. The Bolin Fellowships enable two minority graduate students to
devote the bulk of their time during the academic year to the completion of
dissertation work.

Named in honor of its first black graduate, who was admitted to Williams in 1885,
the Bolin Fellowships will be awarded to minority students who are working
toward the Ph.D. in the humanities or in the natural, social or behavioral sciences.

ELIGIBILITY:

Applicants must be U.S. citizens, and must have
completed all doctoral work except the dissertation by the end of the current academic year.

TERMS:

The stipend for 2001-2002 is $26,500. The college will also
provide housing assistance, academic support
including office space and computer and library
privileges, and an allowance of up to $4,000 for research-related expenses.

During the year of residence at Williams, the Bolin Fellows will be assigned faculty advisers in the
appropriate departments, and will be expected to teach one
one-semester course.

APPLICATION:

Candidates should submit two full sets in hard copy form
(electronic applications will not be accepted) of each of
the following materials, postmarked by January 1, 2001,
to be received by January 10, 2001:

- A full curriculum vitae
- A graduate school transcript and three confidential
  letters of recommendation
- A copy of the dissertation prospectus, preferably limited
to 10-15 pp.
- A description of teaching interests

RESPOND TO:

Thomas A. Kohut
Dean of the Faculty
Hopkins Hall
Williams College
Williamstown, Massachusetts 01267

NOTIFICATION:

Candidates will be notified of the Selection Committee's

Williams College, a coeducational liberal arts institution, offers an outstanding
undergraduate education to its 2,000 students. The college has built its reputation
on a long tradition of outstanding teaching and scholarship and on the academic
excellence of its students. Among the opportunities that Williams offers its students
and approximately 260 faculty members are interdisciplinary programs and
courses, including the Oakley Center for the Humanities and Social Sciences, the
Multicultural Center, extensive library and museum collections, computer center and
well-equipped laboratories.

An Affirmative Action/Equal Opportunity Employer
The University of Wisconsin System (UWS) invites applications and nominations for the position of the Chancellor of the University of Wisconsin - La Crosse. UW-La Crosse is one of eleven comprehensive universities in a public higher education system that also includes two doctoral institutions, a system of freshman-sophomore transfer colleges, and a statewide Extension. The Chancellor of each UWS institution reports to the President of the UW System and provides institutional leadership within Wisconsin's tradition of shared governance with faculty, academic staff, and students.

The University of Wisconsin - La Crosse was founded in 1909. UW-L is located in the City of La Crosse with a metropolitan area population of 102,000. The La Crosse area, frequently referred to as the “Coulee Region,” is famous for its exceptional natural beauty, with bluffs towering above the Mississippi river banks, abundant water, woodlands, and varying terrain. Located on a 118-acre campus, the university has 34 buildings, including 12 used for instruction, 11 residence halls, and 3 student centers.

The enrollment of 9300 students includes 700 graduate students. The university offers 70 undergraduate majors in 30 disciplines within four colleges and 22 master’s degrees in 14 disciplines. The university is accredited by the North Central Association of Schools and Colleges, and all academic programs are fully accredited by appropriate agencies. UW-L is a member of the NCAA Division III and offers 19 programs in women’s and men’s sports.

As a result of its commitment to quality, UW-L has been ranked fourth among Midwest regional universities by the U.S. News and World Report’s 2001 college guide. Since 1994, UW-L freshmen have held the highest ACT and average percentile high school rank among UW System’s comprehensive institutions.

The university’s academic community includes approximately 1,050 employees, with 363 faculty, 355 academic staff, and 334 classified personnel. With an operating budget of $102.7 million, the university is also supported by the UW-La Crosse Foundation with $14 million in reserved and endowed funds.

UW-La Crosse seeks a chancellor with the capacity to lead an energetic institution within a large and dynamic public higher education system. Applicants or nominees should have the following professional and personal characteristics, among others:

- A record of academic accomplishment and relevant background at the university level, with experience in both teaching and administration. Others with comparable accomplishments in the public or private sectors relevant to university administration are also encouraged to apply;
- Academic credentials and accomplishments of a quality which will command the respect of the academic community; faculty tenure may be granted upon the recommendation of the appropriate department;
- Personal integrity, intellectual curiosity, compassion, resilience, and energy;
- Desire and ability to advance the university’s mission of undergraduate education and selected graduate programs; to provide leadership in the faculty in teaching, scholarship, public service, and to link the curriculum to the needs of the people of Wisconsin;
- A demonstrated commitment to support and enhance cultural awareness and diversity of the student, faculty, and staff population on campus and in the community;
- A demonstrated commitment to equal employment opportunity, affirmative action, and non-discriminatory practices.

Please see the UW-L Website for the complete set of characteristics.

The position is available April 1, 2001. Application materials should include a letter of application addressing the attributes noted above, a curriculum vitae, and the names, addresses, email, and telephone numbers of at least five references with include faculty, student, and community leaders. Submission of materials as a Microsoft Word attachment is strongly encouraged.

Evaluation of applications will begin on December 15 and will continue until the final candidate pool is established in late January. In accordance with Wisconsin’s Open Records Law, requests for confidentiality by nominees and applicants will be honored, except that names and titles of the finalists must be disclosed, if so requested.

Requests for information and written nominations and applications should be directed to:

Professor James Gallagher
Chair; Chancellor Search and Screen Committee
c/o Diane Jorstad
144 Craft Hall Main
University of Wisconsin-La Crosse
La Crosse WI, 54601-3788
e-mail: gallagher.jame@uwlacl.edu
fax: 608-785-8456
voice: 608-785-6470

The Committee is being assisted by Dr. Charles J. Bunting, A.T.Kearney Executive Search. Questions may be directed to him at: 703-739-4630; or email: charles.bunting@atkearney.com; 333 John Carlyle Street, Alexandria, Virginia 22314.

Further information about the search and UW-La Crosse is also available on the World Wide Web at http://www.uwlacl.edu/hr/chancellor_search_home.htm

The University of Wisconsin is an Affirmative Action/Equal Opportunity employer and actively seeks and encourages applications from women, minorities, and persons with disabilities. It is our policy to provide reasonable accommodations to qualified individuals with disabilities who are employees or applicants for employment.

Direct and manage student services operation for the College of Engineering. Supervise staff; offer academic advising; oversee administration of Part-Time Evening and First-Year programs; prepare and disseminate academic policy and procedure information; teach freshman seminar; act as College liaison to offices campus-wide. Master’s degree in Higher Ed Administration or related field and 3-7 years’ management experience in academic setting related to student affairs required. Strong interpersonal, communication, organizational, and analytical skills needed. Teaching experience preferred. Send resume to: Richard J. Scranton, 230 Snell, Northeastern University, 360 Huntington Avenue, Boston, MA 02115. Northeastern is an Equal Opportunity/Affirmative Action, Title IX Employer.

THE COLLEGE OF NEW JERSEY

ENGLISH DEPARTMENT
ASSISTANT PROFESSOR

The College of New Jersey is currently seeking applicants for a tenure-track position beginning September 2001. Responsibilities: teaching a required course on the history, development, and current state of the English language, with attention to dialectics and English as a world language. Opportunities are available to develop additional upper-level and graduate courses on language. Requirements: earned doctorate in an appropriate area of specialization at the time of employment; dedication to teaching is essential; scholarly activity is expected and supported. Women and members of minority groups are encouraged to apply. Applications will be accepted until the position is filled. Early applicants will be considered for interviews at the MLA Convention. Please send application, including vita, research plan, and three letters of reference (at least one must comment on teaching potential and experience) to: Dr. Jean Graham, Search Committee Chair, Department of English, The College of New Jersey, P.O. Box 7718, Ewing, New Jersey 08628-0718. To enrich education through diversity, The College of New Jersey is an Affirmative Action/Equal Opportunity Employer.
Neag School of Education

The Neag School of Education at the University of Connecticut has established a goal of becoming one of the premier schools of education in the country. Guided by a faculty-developed strategic plan, the Neag School is focusing on building selective interdisciplinary centers of excellence. Two years ago, the Neag School received the largest gift ever given to a School of Education in the nation. Raymond Neag's donation of $21 million was matched by $4 million of state funds. The Neag School now seeks outstanding individuals to help us achieve our goals. Those hired will join the Neag School at an exciting time, as the University has identified the Neag School as one of its Centers of Excellence and has provided funds to renovate facilities and support selective strategic initiatives.

The University of Connecticut is a comprehensive land-grant university located 25 miles east of Hartford and 60 miles southwest of Boston. The Neag School of Education is an upper-division undergraduate and graduate school within the University. Neag School of Education programs are approved by the State of Connecticut and NCATE and are associated with the Principles of the Higher Group and the National Network for Educational Renewal. The faculty of the Neag School has a strong history of research and scholarly productivity. Interdisciplinary programs and disciplines across the University and public schools in Connecticut, and across the nation. Additional information on the University and the Neag School of Education can be found at our website: http://www.education.uconn.edu

Director of Grants and Research
Search Number: 01A169HI

The Neag School of Education is seeking a Director of Grants and Research to provide collaborative leadership to conduct, oversee, and communicate research in public education. Doctoral degree in educational research or a related discipline is required. The successful applicant must have a teaching and scholarly record which would warrant an appointment as an associate or full professor at a Research 1 University. Qualifications include experience in research methodology, social science data collection and processing, and a high level of competency in managing human and financial resources in research or similar kinds of projects and demonstrated competency in providing leadership to large and small projects. The candidate should have successful experience in a research position in a university setting, a knowledge of and experience in planning at departmental and school-wide levels, and experience in providing effective staff support. Candidates should have a record of successful teaching and scholarship, and be qualified to hold a senior faculty position in a relevant department. Candidates must have exceptional oral and written communication, organization and management skills, function effectively in a collaborative environment, and be able to provide leadership for the Neag School of Education as we seek to enhance our national reputation.

Applicants for the position of Director of Grants and Research in the Neag School of Education should send a cover letter expressing their interest in the position with the Search Number noted, a CV, a research writing sample, and three letters of reference to:

Dr. Joseph Ruzzini, Chair

Palm Desert, CA 92260 E-mail: PERSONNEL@dcdcc.cc.ca.us

The successful applicant will be expected to assume the position on or before July 1, 2001.
Affirmative Action/Equal Opportunity Employer

OHIO UNIVERSITY
College of Arts and Sciences
Dissertation Scholar-in-Residence Program
for Minority Graduate Students
in the Humanities and Social Sciences

The College of Arts and Sciences at Ohio University invites applications for participation in its Dissertation Scholar-in-Residence Program for the academic year 2001-02. Appointments will be available in one of the following departments: African-American Studies, Classics, Economics, English, Geography, History, Linguistics, Modern Languages, Philosophy, Political Science, Psychology, Social Work, and Sociology-Anthropology.

Program: Ohio University faculty in the scholar’s discipline serve as mentors and advisors while the scholar completes the doctoral dissertation. The scholar will teach one one-quarter course during the year. The scholar will also make presentations of his/her research in department, college, and university colloquia. The scholar will participate in forums with undergraduates about succeeding in graduate study and other appropriate topics and will interact with students in other suitable settings. As desired, the college, the Office of Multicultural Programs, and community groups will offer networking opportunities for the scholar.

Compensation: The scholar will receive, at minimum, a stipend of $25,000 (plus benefits). The scholar will also receive office space, library privileges, and travel funds of up to $1,000 for attendance at a professional meeting in his/her field.

Qualifications: This program is open to U.S. citizens who are members of the following ethnic minority groups: Native American Indian, Alaskan Native (Eskimo or Aleut), Black/African American, Mexican American/Chicana/Chicano, Native Pacific Islander (Polynesian or Micronesian), Puerto Rican. The successful candidate must be committed to a career of college or university teaching. After receiving the doctorate, the candidate must be able to complete the doctorate dissertation during the 2001-2002 year.

Applicants should submit: a full curriculum vitae; a copy of the dissertation prospectus; an autobiographical sketch; a statement of purpose, including a statement of goals for teaching and scholarship; a graduate school transcript; and three letters of recommendation (one of which must be from the dissertation advisor at the home campus, who should indicate progress on the dissertation and prospects for completion). Applications should be addressed to:

Leslie A. Flemming, Dean
College of Arts and Sciences
204 Wilson Hall, College Green
Ohio University
Athens, OH 45701-2879

Ohio University is a Research II institution, enrolling over 19,000 students on the Athens campus and over 8,000 students on five regional campuses. The College of Arts and Sciences includes 323 tenured and tenure-track faculty and contains 19 departments, 7 of which offer the doctoral degree. The Ohio University Library is a member of the Association of Research Libraries. Further information about Ohio University may be found at the university’s web site:

http://www.ohiou.edu/
Associate Director
Budget and Planning
(Search Re-Opened – Prior Applicants Need Not Apply)

Reporting to the vice president for Budget, Planning, and Information Technology, works collaboratively with various constituent groups to link budgeting and strategic planning. Assists in all aspects of operational and capital budget planning, as well as strategic planning. Responsible for assigning and supervising projects of full and part-time budget analysts. Other duties include conducting research, interpreting data, and creating routine and unique reports that are useful for strategic planning, as well as financial management and decision-making.

Qualifications: MBA, master’s in accounting or finance, or equivalent, and 5 years of professional experience, preferably in higher education. Superior analytical and quantitative skills are required. Experience with strategic planning and its relationship to budgeting is preferred. Knowledge and experience in information technology and management information reporting is desirable. Experience in use of database applications, ability to clearly and effectively communicate, both orally and in writing, with all University constituents in a collegial manner is a must. Ability to effectively present quantitative and graphical information is critical. Salary is commensurate with experience.

Apply by: Review of applications will commence immediately and will continue until position is filled.

Application Instructions: For either position, submit a letter of application describing academic and research/scholarship interests, teaching philosophy and teaching effectiveness and outlining professional accomplishments and future goals to the Search Committee Chair.
ASSOCIATE DEAN FOR UNDERGRADUATE PROGRAMS

The New School, the founding division of New School University, seeks an experienced academic administrator who will provide leadership, planning, and development of undergraduate programs for adult students. Launched in 1944 as one of the first liberal arts degree programs designed specifically for adults, the current B.A. Program enrolls 300 students and is expected to grow. The Associate Dean will be responsible for developing new degree options and concentrations, fostering academic excellence, and engaging in fund-raising initiatives. The Associate Dean supervises the core faculty who teach, provide academic advising, and participate in program planning and development. He/she reports to the Dean of The New School and works closely with the Associate Dean for Academic Affairs, the Office of Admissions and Student Services, and the Department Chair who develop the curriculum. Candidates should have a strong academic background in the liberal arts with a Ph.D. preferred; administrative and teaching experience, preferably in a non-traditional university setting with adult students; flexibility, creativity, eclectic interests, excellent communication skills, and a collaborative management style.

Review of applications will begin November 17, 2000 for a July 2001 appointment. Letters of application or nominations along with a current curriculum vitae and names of three references should be sent to Linda Diame, Associate Dean for Academic Affairs, New School University, 66 West 12th Street, room 311, New York, NY 10011.

The New School is strongly committed to an educational environment in which curriculum and every other aspect of university life reflect the multicultural city and the international world in which we live. Affirmative action/equal opportunity employer.

St. Olaf College

Tenure Track Faculty Positions

St. Olaf College invites applications for eight tenure track positions, starting September 2001

All positions require commitment to undergraduate liberal arts education and to the College’s mission, a strong interest in undergraduate teaching, and a promise of continuing high quality scholarly or creative activity. In addition, the College seeks candidates with interest in interdisciplinary teaching, interest in global issues and international study, and commitment to achieving the College’s EOUAA goals. The positions are in the following departments:

- Biology
- Chemistry
- Education
- Norwegian
- Political Science
- Romance Languages - Spanish
- Mathematics - Statistics

St. Olaf College is a residential, co-educational liberal arts college of the Lutheran Church (ELCA), with about 3000 students. It is located in Northfield, Minnesota, approximately 35 miles south of Minneapolis/St. Paul.

St. Olaf is an equal opportunity/affirmative action employer and actively seeks diversity in its faculty, staff, and student population.

For additional information about the institution, the positions, and application materials required please refer to our web site at www.stolaf.edu/offices/dean-of-college.

VICE PRESIDENT
FOR INSTITUTIONAL ADVANCEMENT
Our Lady of the Lake University
San Antonio, Texas

Our Lady of the Lake University invites nominations and applications for the position of Vice President for Institutional Advancement. A successful and experienced professional is sought to lead this growing advancement program. The Vice President for Institutional Advancement oversees marketing and communications, development, alumni and government relations programs. He or she reports directly to the President and is a member of the President’s executive staff.

Our Lady of the Lake University was founded in 1895 by the Congregation of Divine Providence, has an independent board, and enjoys the continuing sponsorship of the Congregation. The University is a Catholic institution that welcomes people of all faith traditions. Our Lady of the Lake is a vibrant, Hispanic-serving institution with an enrollment of 3,500 undergraduate and graduate students in regular weekday and Weekend College programs at the main campus in San Antonio and two additional sites in Houston and Dallas.

The successful applicant will have significant experience in development or a related field, marketing and communications, alumni, and other constituent programs. This individual will have demonstrated leadership and the ability to work effectively with professional staff, donors, business leaders, trustees, and institutional colleagues.

Candidates must possess a bachelor’s degree; an advanced degree is preferred. Salary and benefits are competitive. The review of applications will begin November 27, 2000 and continue until the position is filled. Nominations, a letter of inquiry, resume, and the names of three or more references should be submitted to:

SUSAN DENTON
c/o Office of the President
Our Lady of the Lake University
411 SW 24th Street
San Antonio, TX 78207

OLLU is committed to the values of Catholic higher education and is an Equal Opportunity Employer. The University is committed to diversity and strongly encourages applications from women and minorities.

Cleveland State University

Vice President for University Relations and Development

Executive Director of the CSU Foundation

Cleveland State University invites nominations and applications for the position of Vice President of University Relations and Development and Executive Director of the CSU Foundation. This officer, reporting directly to the President and serving on the President’s Senior Staff, is primarily responsible for institutional advancement and for implementing policies and guidelines for fund-raising and university relations matters. Responsibilities include the cultivation, solicitation and stewardship of major donors and the design, coordination, and fiscal oversight of fund-raising and public relations initiatives. Development, Publications, Graphics, Public Relations and Alumni Relations report to the Vice President. The University seeks a seasoned individual who understands the culture of the community, its institutions and traditions; the core mission, financial needs and priorities of the University; and who can function effectively as part of a management team.

Requires a Bachelor’s degree and minimum of eight years of progressively responsible experience with an established record of success and accomplishment in directing annual and planned giving programs, comprehensive campaigns and major gift solicitations; building and maintaining relationships with foundation board members; and supporting activities related to marketing plans. Strong organizational, communication, supervisory and interpersonal skills are required along with a team-based approach to work. Graduate degree and higher education experience preferred.

Cleveland State University is a public, comprehensive university serving Cleveland and the Northeast Ohio region, enrolling some 18,000 students and employing 800 faculty and more than 1,300 staff. The metropolitan Cleveland area approximates 1.5 million people and features a thriving business community and outstanding cultural, recreational and intellectual activities in a pleasant environment with a wide choice of attractive communities in which to live.

Applications should include a letter of interest, curriculum vitae and the names, addresses (including e-mail) and phone numbers of three references. Send nominations and applications to: Dr. Donna Phillips, Chair, Vice President Search Committee, c/o Office of the President, RT 1201, Cleveland State University, Cleveland, OH 44115. Deadline for applications is November 15, 2000. Salary is commensurate with experience. The position will be available January 1, 2001. Cleveland State University is an AA/EO committed to nondiscrimination. M/F/D/V encouraged.
University of Massachusetts Amherst

Controller

The University of Massachusetts, the flagship campus of the Massachusetts public higher education system, is a leading center for public higher education in the Northeast. UMass Amherst was established in 1863 under the original Land Grant Act and is currently classified as a Research 1 Institution serving 25,000 students. Located in vibrant Western Massachusetts, the University is part of the Five Colleges, Inc., a consortium of local colleges, together which provide a rich cultural and economic environment. The University prides itself on the diversity of its student body and is committed to the principles of affirmative action, equality, equal opportunity, and the free exchange of ideas.

DEAN

SCHOOL OF SOCIAL WORK

**Faculty Positions in the College of Education and Human Services**

**The University of Wisconsin-Oshkosh**

The College of Education and Human Services is pleased to announce the following tenure-track, academic year positions beginning no later than September 4, 2001. Positions require completion of an earned doctorate. Successful candidates will show evidence of a commitment to teaching, research, publication and service.

**Position 111a - Multicultural Education/Educational Foundations**

Major responsibilities include the teaching of graduate and upper level survey of multicultural education. The individual will also be teaching in the area of social, philosophical and historical foundations of education. An earned doctorate in education with a major emphasis in educational foundations, or educational policy studies is required. The person needs to show evidence of academic preparation in the area of multicultural education and the social foundations of education. Preference will be given to candidates whose experience includes a successful record of teaching at the P-12 level. Senior level appointment assumes qualification commensurate with senior rank. Applications will not be accepted after December 8, 2000.

**Position 111b - Elementary Reading Education**

Major responsibilities include teaching undergraduate and graduate courses in a self-contained department of Reading Education. Assignments may also include supervision and administration of field experiences. At least three years of teaching experience at the elementary level is required. Experience in university teaching is preferred. A record of scholarship and service are expected. An earned doctorate with an emphasis in literacy education (focus on elementary classroom practices and instruction programs) is required. Related education or experience in early literacy and ability to work collaboratively within an integrated learning community are desirable. Also desirable are education and experience in administration and supervision of school reading programs. Applications will not be received after January 20, 2001.

Applicants should submit a letter of application specifying position number, resume, statement of teaching philosophy, transcripts, and three current letters of recommendation to: Dr. Michael Ford, Associate Dean, College of Education and Human Services, University of Wisconsin-Oshkosh, Oshkosh, WI 54901-8662. Additional information is available at [www.uwosh.edu](http://www.uwosh.edu). Nominees and applicants may request writing that their identity not be revealed. The names of those not making such a request and the names of all finalists must be revealed upon request under state law.

The University of Wisconsin-Oshkosh is an Affirmative Action/Equal Opportunity Institution.
San Diego State University is committed to high quality baccalaureate and graduate education to be attained through excellence in teaching, support for and dissemination of research by students and faculty, and community service. The University seeks to take advantage of the opportunities inherent in an urban setting with a diverse population that borders Mexico and the Pacific Rim. The University has a vision that extends beyond our immediate boundaries and touches the lives of people we aspire to serve. The University seeks faculty who possess the passion generated by the knowledge of the disciplines and who believe that the University is a part of the community in which it resides. GLOBAL SOCIOLOGY

The San Jose State University Sociology Department invites applications for a tenure-track Assistant Professor position to begin August 2001, at which time a Ph.D is required. We seek a macro sociologist whose expertise is in the political economy of the world system, global social change, development/underdevelopment, large-scale migration/migration patterns, social movements, global race, ethnic, gender or religious trends, or related topics. Prefer focus on Latin America or Pacific Rim. The second requirement is to demonstrate readiness to teach social theory at the undergraduate and MA levels. Applicants must show commitment to the needs of highly diverse students. Duties include teaching 12 units a semester, active research and publication, advising, and MA thesis and other committee service. Very competitive salary and benefits. Send letter of interest, Curriculum Vitae, best writing samples, and publication (one only), evidence of potential for teaching effectiveness and three (only) current reference letters to: Chair, Search Committee (PVIN SS01-028), Sociology Department, One Washington Square, San Jose State University, San Jose, CA 95192-0122, postmarked by December 1, 2000.

SJSS is an Affirmative Action/Equal Opportunity Employer. Women and other minorities are enthusiastically encouraged to apply.

THE RICHARD STOCKTON COLLEGE OF NEW JERSEY

DIRECTOR
CONTINUING PROFESSIONAL EDUCATION

Richard Stockton College is seeking an energetic, entrepreneurial person with a proven record in working with professional communities and corporate clients. The College is in need of a wide range of credit and non-credit professional development programs, including professional certification programs. The Director will assist the Dean in efforts to expand and develop continuing professional education programs in areas including interactive distributed learning, intensive, short courses, certificate programs, and executive seminars, video and teleconferencing.

Responsibilities will include implementation of all services and activities related to professional education, including support in meeting current standards of practice and maintaining certification, as well as coordinating the provision of educational resources. Additional responsibilities will include management of recruitment, marketing and promotion strategies, and cooperating with student and academic services in screening admission, advising and support service components. Working with faculty, staff, external constituencies, the Dean of Graduate and Continuing Professional Education and all divisional Deans, the Director will provide quality, innovative continuous learning opportunities to a diverse student and adult population by extending the educational resources of the College.

Qualifications: Master’s degree required, and the successful applicant is likely to have had the following types of experiences: a minimum of five years successful experience in event and professional meeting planning and management; conference and corporate training; demonstrated understanding of adult education and learning models, and ability to assess the educational/professional needs of the region; proven skill in developing and marketing successful programs, and in the innovative use of advanced technologies to enhance teaching and learning; and commitment to balancing the demands for professional training with a clear appreciation for a liberal arts education.

Richard Stockton College of NJ is a senior college of arts, sciences, and professional studies that provides distinctive undergraduate and graduate programs, including traditional and alternative approaches to education. The College’s 1600-acre campus is located in Pomona, NJ.

Salary is based on qualifications and experience. Send letter of application, resume, portfolio or other materials related to the qualifications outlined above, and the names, addresses, telephone and email addresses of at least three references to:

Dr. Debra M. Israel, Dean
Graduate Studies and Continuing Professional Education
Richard Stockton College of NJ
PO Box 195, AAS1
Pomona, NJ 08240-0195
Screening begins December 1, 2000, and will continue until the position is filled.

Stockton is an AA/EEO. Women and minorities are encouraged to apply.

COMPOSER & DIRECTOR OF COMPUTER MUSIC LAB MUSIC AND THEATER ARTS

Position: Assistant Professor (tenure track)
Qualifications: Ph.D. or equivalent in music composition.
Duties: Direct mini-based music lab. Play a leading role in developing the capabilities of the lab and integrating it into the section's art and educational programs. Special emphasis upon the role of the lab as a composition studio and music composition training facility. Teach undergraduate subjects in one or more of the following areas: basic theory, harmony and counterpoint, music literature.

Starring Date: September 2001
Deadline: Applications must be postmarked on or before January 15, 2001
Applications: Send only a resume, a letter, and three letters of reference to:
Professor Peter Child
Chair, Composer Search Committee
Music and Theater Arts, 14N-207
MIT
77 Massachusetts Avenue
Cambridge, MA 02139-4307
MIT is an Affirmative Action and Equal Opportunity Employer

GENEOSEO

FACULTY POSITIONS FALL 2001

SUNY Geneseo is a highly selective, primarily undergraduate institution located in an historic village in the Finger Lakes region of Western New York just south of Rochester. The College is consistently ranked among the best public undergraduate institutions in the country by publications such as US News & World Report and Kiplinger's. SUNY Geneseo is an affirmative action/equal opportunity employer committed to recruiting, supporting, and fostering a diverse community of outstanding faculty, staff, and students. Geneseo is a member of the Council of Public Liberal Arts Colleges. To learn more about the College visit: http://www.geneseo.edu. For fullest consideration apply to the relevant department by the date listed at: 1 College Circle, Geneseo, NY 14454.

Business - Marketing. Review continues until position filled.
Computer Science - 2 Positions. Review continues until positions filled.
Education - Special Education. Two positions. Review continues until positions filled.
Education - Early Childhood. Review continues until position filled.
Mathematics - Two Positions. Review continues until positions filled.
For complete descriptions see: http://www.geneseo.edu/empjobs or contact
D. Gordon, Associate Provost, 1 College Circle, SUNY Geneseo, Geneseo, NY 14454 (716-245-5331)
Oakton is a dynamic community college with two campuses serving the North Shore suburbs of Chicago. A member of the Skyway Community College Conference, Region IV of the NJCAA, Oakton offers intercollegiate athletic programs in men's and women's basketball; baseball and softball; wrestling; soccer; volleyball; cross-country, marathon and track; golf; and tennis. After nearly 30 years of distinguished service, the retirement of the current director provides an excellent opportunity for an innovative leader to continue a strong tradition of excellence.

The Director of Athletics plans, arranges and schedules all athletic contests; recruits and interviews candidates for coaching positions; supervises, directs and evaluates all coaches; and certifies the eligibility of athletes. The director develops, directs and supervises the intramural program, including facilities, employment of officials, selection and purchase of equipment and completion of records; directs the use of the physical education/athletic facilities; and represents the College in the Skyway Conference.

Candidates must have a master's degree and four years of administrative-level experience managing programs and supervising a complex department, preferably in higher education. Previous experience in intercollegiate athletics is desired.

To apply, submit your résumé and cover letter to:
Oakton Community College, Human Resources, 1600 E. Golf Road, Des Plaines, IL 60016
(847) 635-1675, fax: (847) 635-1764, e-mail: admirearch@oaktonedu

Additional information can be found at www.oakton.edu.

Full consideration will be given to applications received by December 1, 2000. Screening will continue until the position is filled. Preferred starting date is June 1, 2001. EOE.

Assistant Director
The Office of International Student Services and Programs at Plattsburgh State University of New York invites applications from interested and qualified candidates for the position of Assistant Director. This is a full-time, twelve-month position.

Responsibilities: With a strong focus on "extra customer service mentality," perform a variety of projects and assignments in support of the Office of International Student Services and Programs. Evaluate foreign credentials for admission decisions, transfer credit purposes & registration services. Organization and processing of inquiries, applications and admission files; organizing orientation programs and workshops; office procedures and budget, supervising staff, coordinating host and friendship family programs, student social and communication plan, coordinating with various student service providers. This position may require some evening and weekend commitments.

Qualifications: Bachelor's degree with minimum 5 yrs directly related experience is required. Masters degree with minimum 3 yrs experience strongly preferred. Applicable disciplines: Law, MBA, International Education, or a related field. Strong written, verbal and computer skills; minimum three years experience in F-1 & J-1 immigration law; and demonstrated ability to manage high volume of work in a fast-paced environment and meet quality standards and deadlines are required. Ability to perform outstanding work in a results-oriented office: the ability to communicate fluently in a foreign languag(e) especially Japanese and oversee living experience will be highly regarded. Advanced experience with technology, including proficiency in Microsoft Office, web page and Access database design and management, is very desirable. Must be able to perform well in a diverse environment, be cross-culturally sensitive, can handle multiple tasks simultaneously and work under pressure independently, possess strong problem solving and crisis management skills. The position requires an energetic & dynamic individual with excellent organizational skills and attention to detail.

Applications from women and minority candidates are especially welcomed. Plattsburgh State University of New York is an affirmative action, equal opportunity employer.

Salary: $37,000-$45,000 dependent upon qualifications and experience; excellent benefits package. Review of applications begins immediately and continues until position is filled. Please submit letter of interest; resume; and the names, addresses, and phone numbers of three references to: Chair, Search Committee (P/HR 2486-380), c/o Human Resources, Plattsburgh State University of New York, 101 Broad Street, Plattsburgh, NY 12901-2801. Fax: (518) 564-5069.
UNIVERSITY OF HOUSTON
Learning. Leading.

The Department of Electrical and Computer Engineering at the University of Houston invites applications for a tenure-track faculty position in advanced micro/nano-fabrication at the level of Assistant Professor beginning Aug. 15, 2001. The successful candidate is expected to contribute to ongoing research programs in VLSI manufacturing, the fabrication of spherical imaging arrays and studies of infrared frequency selective surfaces. Areas of expertise should include proximity and projection lithography, thin film deposition, and reactive ion etching. The position requires a Ph.D. in Electrical Engineering, or a closely related field. Responsibilities include developing an externally funded research program, supervising MS and Ph.D. students, and graduate and undergraduate teaching.

Successful candidates can expect a highly competitive start-up package and numerous opportunities for collaboration. The latter include working with the department’s strong opto-electronics group and various on-campus institutes including the Space Vacuum EpiXycenter (SVEC), the Texas Center for Superconductivity at the University of Houston (TCSUH) and the NSF Materials Science and Engineering Center (NSF-MSEC). TCSUH and NSF-MSEC provide access to outstanding analytical tools and services for materials and surface science research. The micro/nanoelectronics group enjoys close relationships with many industrial research laboratories.

The University of Houston is a public university with 23,000 undergraduates and 9000 graduate students located in a park-like campus a few minutes from downtown. The ECE department has 32 tenure track faculty, 700 undergraduates and 225 graduate students. Candidates should send a c.v., cover letter that includes research and teaching preferences, and the names of at least three references to:

Fritz Claydon, Professor and Chair
Department of Electrical and Computer Engineering
University of Houston
Houston, Texas 77204-4793

The University of Houston is an equal opportunity/affirmative action employer. Minorities, women, veterans, and persons with disabilities are encouraged to apply.

To ensure full consideration, applicants should respond by Jan. 15, 2001, though reviews will begin immediately and continue until the positions are filled.

There's more to you. There's more to MCC.

Rochester, New York
Announces a vacancy for the position of

VICE PRESIDENT
OF EDUCATIONAL TECHNOLOGY SERVICES

Monroe Community College (MCC), a multi-campus comprehensive community college located in urban and suburban Rochester, New York, invites applications and nominations for the position of Vice President of Educational Technology Services. This position presents an exceptional opportunity for an experienced administrator with vision to lead and manage a high profile institution in better meeting its student success goals.

MCC is an important educational institution in a city with an international reputation for excellence in products and services. Located in Rochester, New York, MCC serves a metropolitan area of over one million people and is the home of several institutions of higher education and Fortune 500 companies. Monroe Community College, a member of the League of Innovation in Community Colleges, has an enrollment of nearly 15,000 full and part-time credit students offering more than 60 degree and certificate programs. Fully focused on the success of its students, MCC ranked among the top ten community colleges in the number of degrees awarded. Graduates transfer successfully to dozens of excellent senior colleges including Seventeen with which we have developed dual admissions programs. Career program graduates readily find relevant jobs in the Rochester economy.

Minimum Qualifications:
Master's degree minimum, Ph.D. preferred in education or technology. A minimum of five years administrative experience in a higher education setting with teaching experience desirable. Demonstrated among interpersonal communication and organizational leadership skills. Demonstrated ability to work with internal constituents and external/community leaders. Knowledge of emerging technologies required. Leadership in regional, state and national efforts to promote community colleges, technology, library and related issues preferred.

Application Process:
Screening to commence on November 17, 2000. For full consideration, all materials must be postmarked by this date. Initial materials should be limited to: resume, name, address and telephone number of three references; letter of interest identifying proven achievements that address the challenges and preferred qualifications identified for this position (limit to 4 pages). Additional materials will be requested as needed.

Send application to: Doctoral Dean, MCC, 1000 E. Henrietta Rd., Rochester, NY 14623-5780.

Expected Date of Employment:
February 1, 2001

Compensation:
Salary and benefits competitive and commensurate with experience and qualifications.

Confidentiality:
The College will make every effort to maintain the confidentiality of the applicant pool until the finalists have been selected at which time the names and background materials will be public. Finalists will be notified in advance.

Website: http://www.monroecce.edu

Monroe Community College is a unit of the State University of New York. It is the policy of the University that this College not to discriminate on the basis of sex, race, color, religion, national origin, disability, age, or marital status in admissions, employment, and treatment of students and employees in any educational program or activity.

NORTHEASTERN ILLINOIS UNIVERSITY

DEAN OF THE COLLEGE OF EDUCATION

The College of Education houses 5 departments (9 undergraduate programs/11 graduate programs) as well as the Chicago Teachers' Center, an innovative outreach and drop-in center offering programs to improve urban education through collaborative partnerships. All programs are fully accredited by the National Council for Accreditation for Teacher Education. The Illinois State Board of Education, Seventy-six full-time tenure-track faculty serve 1,479 enrolled undergraduate majors and 1,057 enrolled graduate majors.

The Dean reports to the Provost; is responsible for all College curricular, budgetary, and personnel matters; and provides leadership/visibility in fulfilling the College and University missions and goals.

An earned doctorate in a discipline within the College of Education is required. Candidates must demonstrate an excellent record of achievement in teaching, research and service appropriate to appointment to senior faculty rank; excellent fiscal management and communication skills; ability to collaborate with multiple internal and external constituencies; a minimum of 3 years academic administrative experience at or above the level of department chair with knowledge in the areas of pedagogy, assessment, technology, grant procurement, and evaluation of faculty for promotion and tenure; and a commitment to faculty and student diversity.

Review of applications begins November 27, 2000. Send nominations/applications, resume, name/address/telephone number of 5 references to:

Terri Rothstein, Assistant Provost
NORTHEASTERN ILLINOIS UNIVERSITY
5900 N. St. Louis Ave.
Chicago, IL 60625-4699

Northeastern Illinois University is an equal opportunity/affirmative action employer and invites applications from women and minorities as well as other qualified individuals.

Northeastern Illinois University invites applications and nominations for the position of the Dean of the College of Education. Nationally recognized as having the most ethnically diverse student body in the Midwest, Northeastern Illinois is a comprehensive state university of 10,700 commuter students located on a 67-acre campus in a residential neighborhood on the northwestern side of Chicago. The College of Education is a national leader in teacher training. The college received over $9 million dollars in external funding in the last fiscal year to work with elementary and secondary schools in Chicago and the suburbs.

ASSOCIATE VICE PRESIDENT FOR ACADEMIC AFFAIRS

Montclair State University invites applications and nominations for the position of Associate Vice President for Academic Affairs (AVPAA).

Montclair State University is a comprehensive public university offering a rich array of programs to approximately 13,500 undergraduate and graduate students and post-baccalaureate students. Founded in 1908, the University is organized into three colleges and three schools: College of Education & Human Services, College of Humanities & Social Sciences, College of Science & Mathematics, School of the Arts, School of Business, and the Graduate School. Characterized by a faculty of 450 teacher-scholars, Montclair State offers 70 undergraduate degrees in more than 70 majors and minor programs in 36 areas of study. The University is located 14 miles west of New York City on a beautiful 200-acre suburban New Jersey campus.

The AVPAA reports to the Provost and Vice President for Academic Affairs and provides leadership in the areas of academic planning, program implementation, the curriculum, and the application of new technologies to the teaching/learning process. The AVPAA coordinates all accreditation and academic program review activities and provides administrative oversight for the Center for Community Based Learning. The AVPAA will participate in the resolution of student academic appeals and complaints, and will work closely with the Provost and the Associate Vice President for Information Technology and the Director of Institutional Research.

Qualifications: Applicants should possess an earned doctorate or equivalent degree, experience as a tenured faculty member, successful teaching and scholarly qualifications consistent with a tenure appointment in one of the University’s five schools. Candidates must demonstrate a record of successful administration in higher education, a broad understanding of current issues and future directions in higher education, especially at the interface of technology and the learning process, and the ability to raise external resources. The successful candidate will have excellent written and oral communication skills, a collaborative, facilitative leadership style, and a commitment to diversity.

Salary Range: Salary dependent on qualifications.

Starting Date: Open

Apply by: Review of applications will begin immediately and continue until the position is filled.

Send letter of interest, vita, evidence of teaching effectiveness, if available, and three letters of recommendation to: Mr. Jesse James Young, Executive Assistant to the Provost and Vice President for Academic Affairs, Montclair State University, Box C316-V1031/HOHE, Upper Montclair, NJ 07043

An Equal Opportunity/Affirmative Action Institution

MONTCLAIR STATE UNIVERSITY

CENTRAL MICHIGAN UNIVERSITY

DEPARTMENT OF JOURNALISM

3 TENURE-TRACK ASSISTANT PROFESSORS IN ADVERTISING, PUBLIC RELATIONS AND MASS MEDIA STUDIES

The Department of Journalism invites applications for 3 tenure-track positions in our undergraduate program with primary interest and expertise in: Advertising—teach principles, design, copywriting and layout, campaign management, media planning, database and interactive advertising, and portfolio preparation. Experience in the creative aspects of advertising and proficiency in Illustrator, Photoshop, Quark, PowerPoint and Internet applications is required. Public Relations—teach principles, writing and audio/visual/web presentation, program and campaign management, case studies, and portfolio preparation, as well as develop special topics seminars. The applicant may represent the department on an Integrated Public Relations Council supervising that interdisciplinary major.

Qualifications:
The department has two possible tenure tracks for these two positions: (1) for an earned doctorate or ABD in journalism, mass communication or related field required; or (2) for a nationally distinguished professional with a bachelor’s degree required, master’s degree preferred. Mass Media Studies—teach courses such as mass communications in contemporary society, international and cross-cultural mass communications, and mass media role in racial diversity. Ability to teach in a secondary area of mass media law, magazine journalism, and/or web news production is preferred. The successful candidate will provide leadership for the department’s three General Education courses by coordinating sections, monitoring quality and planning and conducting student outcomes assessment. Qualifications: An earned doctorate or ABD in journalism, mass communication or related field is required for this position. Additional qualifications for all three positions: Ability to integrate new communicative technology in the classroom is required. College teaching is preferred. Faculty are expected to conduct research relevant to the mission of the department; teach three courses per semester; advise students; and engage in professional development and service activities. In addition, applicants should be prepared to seek and create opportunities for curricular collaboration, including online projects.

Send letter of interest, vita, evidence of teaching effectiveness, if available, and three letters of recommendation to: Dr. T. Mark Stieve, Journalism Department, CMU, Mt. Pleasant, MI 48859. E-mail: jdandrew@cmich.edu

Fax: 517-774-7714. Review of applications will begin November 1, 2001 and continue until the position is filled.

Journalism is a growing department with 12 tenure-track and 3 full-time temporary faculty, 150 undergraduate majors, 100 minors, and is accredited by AEJMC.

CMU, an EEO institution, is strongly and actively committed to increasing diversity within its community. (see www.cmich.edu/aeeo.html).

UNIVERSITY OF HOUSTON

Learning. Leading.

The Department of Electrical and Computer Engineering at the University of Houston invites applications for tenure track faculty positions in areas of computer engineering such as VLSI, EDA, system design, networks, and telecommunications at the level of Assistant Professor beginning Aug. 15, 2001. Outstanding candidates in other areas of electrical engineering will also be considered. The positions require a Ph.D. in Electrical or Computer Engineering, or Computer Science. Responsibilities include developing an externally funded research program, supervising MS and Ph.D. students, and graduate and undergraduate teaching.

Successful candidates can expect a highly competitive start-up package and numerous opportunities for collaboration. The latter include working with various Houston institutions such as Compaq, NASA, and the Texas Medical Center, as well as the on-campus High Performance Computing Center (with a 64 node IBM SP), Texas Learning and Computation Center and Virtual Environments Research Institute (with a 3D cave). Other facilities include a regional OC-12 network connected to the vBNS which UH operates together with Rice, Baylor College of Medicine and Texas A&M.

The University of Houston is a public university with 23,000 undergraduates and 9000 graduate students located in a park-like campus a few minutes from downtown. The ECE department has 32 tenure track faculty, 700 undergraduates and 225 graduate students.

Candidates should send a c.v., cover letter that includes research and teaching preferences, and the names of at least three references to:

Fritz Claydon, Professor and Chair
Department of Electrical and Computer Engineering
University of Houston
Houston, Texas 77204-4793

The University of Houston is an equal opportunity/affirmative action employer. Minorities, veterans, and persons with disabilities are encouraged to apply.

To ensure full consideration, applicants should respond by Jan. 15, 2001, though review will begin immediately and continue until the positions are filled.

11/06/2000 0 HISPANIC OUTLOOK 67
Wayne State University invites applications for a Director of Admissions.

Wayne State University is a Carnegie Research University I with a comprehensive urban mission. Its 31,000 students study in 14 schools and colleges, including Law and Medicine. With cutting-edge research in such areas as cancer, diabetes, vision and bioengineering, many university programs are nationally ranked. With nearly 200,000 alumni living in a five-county area, WSU graduates represent a significant presence in the state.

The Office of University Admissions has the primary functions of recruiting, admitting and enrolling new students to WSU. The office also helps to coordinate the recruitment activities of individual departments, alumni groups and students, and it organizes visits to local high schools and community colleges. University Admissions includes two areas: undergraduate and graduate admissions. The office collects applications, application fees, official transcripts, and standardized test scores for domestic and international students. Extensive use is made of the Student Information System and the Contact Management System to input data, as well as to communicate with students. The Office is also responsible for evaluating and awarding transfer credit to those undergraduate students who present transcripts of work earned at other colleges.

The Director is responsible for directing staff, planning and administering the recruiting programs, determining department staffing needs and recruiting qualified personnel, overseeing the financial management of program budgets, and efforts designed to enhance service to students and the university community. The University regards Admissions as one of its most important outreach programs, and the Director is expected to support our pursuit of academic excellence.

Qualified candidates will have earned a Master's degree in a related field (or possess an equivalent combination of education and experience). Preference will be given to candidates who have a demonstrated ability to effectively and efficiently manage a complex organization with multiple programs. A strong record of achievement in higher education is required. Candidates are expected to have superior ability in interpersonal, oral and written communications skills, and to be well-versed in the advancement and management of institutional diversity of students and staff. In addition, candidates must have an unwavering commitment to academic integrity, rules compliance, and gender equity.

Candidates should submit a letter of application highlighting qualifications as outlined above and a current resume. Review of applications will begin immediately and will continue until a suitable candidate is selected. Submit applications and nominations to:

William E. Hill, chair, Admissions Search Committee
4107 Faculty Administration Building
Wayne State University, Detroit, MI 48202
E-mail: ad2137@wayne.edu

Wayne State University is an equal opportunity/affirmative action institution.
SPEECH SCIENCE POSITION
Assistant Professor, Speech Language Pathology. The Department of Communication Sciences and Disorders at Emerson College seeks applications for a tenure-track faculty member to teach speech science and phonetics as well as to teach courses in disorder areas of expertise. Responsibilities include teaching five 6-credit undergraduate and graduate courses per year, advising students, and preparing students for the certification examination in the state of Massachusetts. Candidates with additional expertise in disorders of fluency, disorders of voice, or disorders of swallowing would be given strong consideration. The position is a 9-month appointment beginning August 1, 2001. Interested applicants should send a letter of application, curriculum vitae, and three letters of recommendation to: Chair, Search Committee, Department of Communication Sciences and Disorders, Emerson College, 120 Boylston Street, Boston, MA 02116-4624.

Roger Williams University

Roger Williams University, an independent, co-educational institute located in the historic seacoast town of Bristol, Rhode Island, invites experienced qualified applicants for the position of Assistant Director, Career Center.

ASSISTANT DIRECTOR, CAREER CENTER

Roger Williams University seeks an experienced professional to fill the full-time position of Assistant Director of the Career Center. The Assistant Director shares responsibility for all Career Center functions to meet the career counseling, recruitment, and career services needs of students and alumni. The qualified candidate will possess skills in career counseling, office technology, employer and constituent relations, job search strategies, and the use of career assessment instruments. Other responsibilities include the development and implementation of marketing strategies, the development and implementation of employer relations programs, the management of the alumni network, and the development and implementation of a comprehensive internship program.

This position requires a Master’s degree in job development or Career Counseling. Experience in career services or related fields is preferred.

Salary commensurate with qualifications and experience, with a superior benefits package.

Send cover letter, resume, and a list of three professional references to: Office of Human Resources, Ref. #5078, Assistant Director for Career Center, Roger Williams University, One Old Ferry Road, Bristol, RI 02809.

Equal Opportunity/Affirmative Action/Americans with Disabilities Act Employer with a strong commitment to diversity. Roger Williams University does not discriminate on the basis of gender, handicap, race, age, color, sexual orientation, political affiliation, marital status, national origin, or religion. We encourage all qualified men and women to apply.

Chair: Department of Communication

Bryant College is expanding its Communication concentration and seeks a qualified person to chair the new Department of Communication and help develop the new Bachelor of Arts in Communication. In addition to heading the program, the successful candidate will also be expected to carry a normal research load and teach courses within the department.

Ph.D in Communication is required. The successful candidate should have a well-established publication record and evidence of other scholarly and professional activities; be active in the discipline and in professional organizations; and have significant teaching experience. The ability to engage in research and teach courses in the field of Communication is essential.

Candidates with previous administrative experience and the ability to develop and implement new programs are preferred.

Please submit a letter of application, vitae, and names and phone numbers of three references to:

Human Resources Office
Bryant College-H
1150 Douglas Pike
Smithfield, RI 02917

E-mail: kpercde@bryant.edu

Bryant College is an equal opportunity employer and committed to diversifying its faculty.
FULL TIME TENURE TRACK POSITIONS  
SPRING 2001

We are accepting applications for full-time tenure track and part-time faculty positions in the areas listed below. Rank and salary for each position will be commensurate with credentials and experience. The full-time tenure track appointments will begin Spring semester 2001. We seek energetic, successful, highly motivated individuals who excel in teaching. The ideal candidates must have demonstrated teaching effectiveness, publications, and professional activities, and must have the ability to incorporate technology into existing and developing curriculum, and demonstrate a history of innovation, global and multicultural perspective, and an interest in interdisciplinary projects. We offer a supportive academic environment, competitive salary and excellent benefits.

SCHOOL OF ART & DESIGN

INTERIOR DESIGN DEPARTMENT. Seeks an instructor with a professional and/or academic background to teach Design Studio and be literate in computer graphics, with expertise in at least three of the following areas: Lighting, Presentation Techniques, 2D/3D Drafting, Post-WWII History, Building Technology (Codes, Const, Systems), Historic Preservation. Bachelor’s degree in Interior Design or Architecture and NCIDQ certification desirable.

DISPLAY AND EXHIBITION DEPARTMENT seeks an instructor with a professional and/or academic background to teach Design and Exhibition Studies. Knowledge of visual merchandising, studio and mechanical skills; two dimensional drafting and graphic abilities with computer application. Bachelor’s degree required at time of tenure.

TEXTILE SURFACE DESIGN DEPARTMENT seeks a candidate with a Bachelor’s degree and a minimum of six years of extensive professional experience in textile/surface design in the area of either woven or print design. Excellent computer skills and expertise in emerging technologies required. College-level teaching experience preferred. The interview process will include a professional presentation of the candidate’s portfolio.

FASHION DESIGN DEPARTMENT. Apparel area. A minimum of 6 years experience as a professional designer in the domestic and global industry in the following areas: Tailoring, Evening Wear, Sportswear, Children’s Wear, Activewear, Computer and Knitwear. Technical skills in draping, pattermaking and sewing required. Knowledge of CAD preferred. Bachelor’s degree required at time of tenure.

PHOTOGRAPHY DEPARTMENT seeks a commercial photographer with a minimum of six years published work experience in advertising, product stills, fashion or editorial photography, including extensive studio and location lighting design skills. Knowledge of color and BW processes as well as digital tools required. College-level photography teaching experience preferred. Bachelor’s degree required at time of tenure. Submit non-returnable printed examples, slides, client list or CD of professional work with application.

ILLUSTRATION DEPARTMENT seeks an instructor with a minimum of ten years industry experience required in either fashion illustration or general illustration. Understanding of how technology (Photoshop, Illustrator and Fractal painter programs) dovetails with traditional drawing and painting courses. Must have earned a bachelor’s degree at time of tenure. Teaching experience preferred. Submit samples of current work or non-returnable slides (20 max) with application.

SCHOOL OF LIBERAL ARTS

FOREIGN LANGUAGE DEPARTMENT seeks a specialist in Italian. In addition to teaching language and conversation courses, responsibilities include leading the department in the use of multimedia technologies in language instruction. Ph.D. preferred in Italian or in Comparative Literature with an Italian concentration, with native or near-native fluency. Demonstrated effectiveness in college-level teaching and good command of English required.

SOCIAL SCIENCE DEPARTMENT seeks a Sociology Instructor with expertise in cross-cultural studies, sociology of work with a global perspective, and demonstrated ability to integrate critical thinking and an analytical perspective into classroom instruction. Ph.D. required.

HISTORY OF ART DEPARTMENT seeks an art historian with a non-Western specialization and pre-Renaissance concentration. Demonstrated effectiveness teaching general surveys and expertise in the latest instructional technologies required. Ph.D. preferred; minimum requirement is Master’s plus 30 graduate credits in ABD.

SCIENCE AND MATH DEPARTMENT seeks an instructor in the Physical Sciences with innovative curriculum ideas in such topics as earth science, environmental science, chemistry, physics, biology, etc. Ph.D. preferred; minimum requirement is 60 appropriate graduate credits and ABD status in a relevant discipline.

ADJUNCT OPPORTUNITIES in the following areas: American History, English and Speech, Business Writing, Foreign Languages, French, Italian, Spanish, Japanese; Health and Physical Education, Dance, Gymnastics, Swimming; Data Processing, History of Art, Ancient to Renaissance and Renaissance to Modern Surveys; Social Sciences; Sociology; Psychology; Economics; Philosophy; Anthropology, and Political Sciences; Science and Math; Statistics, Geometry in Art/Design, Biology, Earth Science. Ph.D. and college level teaching experience preferred; minimum requirement is 60 appropriate graduate credits including Master’s degree or ABD status.

SCHOOL OF BUSINESS & TECHNOLOGY

HOME PRODUCTS DEVELOPMENT AND MARKETING DEPARTMENT seeks a professional with a minimum of eight years executive experience in the home furnishings industry with a background in hard lines, and a knowledge of consumer based marketing. Bachelor’s degree required. Master’s degree for Associate Prof. level and above.

TO APPLY...

Completed applications will include a letter of interest, curricular ideas, vita, and contact information for three references (including names, titles, addresses, phone numbers and E-mail addresses). Submit to Personnel Administration, Fashion Institute of Technology, Seventh Avenue at 27th Street, New York City 10001-5992. Fax 212-217-5616. You may also submit your application via E-mail to: turnhaz@fitnyc.edu. Please be sure to include the discipline you are applying for. Application deadline November 17, 2000. For more information about FIT, visit our web site at http://www.fitnyc.edu.

ASSISTANT DIRECTOR, FACILITIES MAINTENANCE
DEPARTMENT OF RESIDENTIAL FACILITIES
UNIVERSITY OF MARYLAND/COLLEGE PARK

The Department of Residential Facilities provides the principal facilities management services for the 1.9 million square feet of undergraduate residence halls in 50 buildings, 14 fraternity and sorority buildings, and 313,000 square feet of recreation facilities in three buildings on the flagship campus of the University of Maryland System. The FY 2001 budget exceeds $18 million ($8.8 million in salary and wages, $9.4 million in operating budget) and represents 218 full-time employees and between 80 and 150 student staff during the academic year summer months, respectively.

DUTIES - establishes and reviews service standards, performance criteria, and workmanship expectations for a staff of approximately 48 trades workers and supervisors. Aggressively revises existing programs to improve and assure the effective delivery of services to the residents and our buildings. Analyzes and projects repair and replacement costs, including the development of multi-year facilities renewal and deferred maintenance budgets. Assures compliance with applicable building, fire, and life safety, and occupational health codes and regulations. Reviews with staff major unresolved and ongoing maintenance deficiencies and prioritizes work or funding as needed to respond to critical or unforeseen problems. Acts as the department liaison and director's representative with major campus and off-campus service agencies.

QUALIFICATIONS: Required - A Bachelor's degree, preferably in management or engineering fields. Minimum of seven years of full time management of the full range of maintenance services. Minimum four years supervising a maintenance/repair operation for buildings, with at least two years supervising a staff of 20 or more employees. Preferred - Minimum of two years direct supervisory responsibility for a facility in excess of 1 million gross square feet of interior space, with previous experience as a college or university campus. Experience in managing service and employee safety programs, automated facilities management systems, (work control, scheduling, inventory) and financial reporting systems.

BENEFITS - Salary commensurate with experience, ranging in mid $60,000s. Additional benefits include 22 working days annual leave; 14 paid holidays; 15 days sick leave a year, tuition remission up to 7 credits per semester; choice of two retirement programs; and eligibility for a variety of group health insurance plans.

TO APPLY: Position is being reposted; applications will be accepted until position is filled. Please include a chronological resume, letter of application, and an organizational chart of pertinent positions showing candidate's supervisory responsibilities. Resume and/or letter of application should have the following information for current and/or past positions/organizations: (1) number and types of buildings maintained, with overall square footage; (2) types of service/trades employees supervised/managed (e.g., carpentry, plumbing, HVAC, etc.) with numbers in each category; (3) labor, operating and renewal budgets; and (4) specific examples of significant responsibilities, such as facilities renewal activities, employee safety programs, automated facilities management and/or financial reporting systems. Send all application materials to Mr. Sean Ballantine, Department of Residential Facilities, Leonardtown Office Building, College Park, Md. 20742.

The University of Maryland is an Affirmative Action/Equal Opportunity Employer.

WAYNE STATE UNIVERSITY
DIRECTOR OF SCHOLARSHIPS AND FINANCIAL AID

WAYNE STATE UNIVERSITY invites applications for the position of Director of Scholarships and Financial Aid.

Wayne State University is a Carnegie Research University I with a comprehensive urban mission. Its 31,000 students study in 14 schools and colleges, including Law and Medicine. With cutting-edge research in such areas as cancer, diabetes, vision and bioengineering, many university programs are nationally ranked. With nearly 200,000 alumni living in a five-county area, WSU graduates represent a significant presence in the state.

The Office of Scholarships and Financial Aid (OSFA) is committed to providing individuals with the means to access higher education without regard to financial status. Through the successful management of heavily regulated, federal and state financial aid, as well as institutional and private financial aid resources, OSFA assists Wayne State University in meeting enrollment objectives.

The Director of OSFA is responsible for offering a broad range of student financial aid services on the main campus, the Law School, the School of Medicine and at the university's comprehensive extension centers. The financial aid services include the effective and timely delivery of financial aid awards in excess of $100 million. The Director also provides leadership to a large diverse professional full-time staff and part-time/student assistants.

Qualified candidates will have earned a Master's degree with considerable progressive responsibility within financial aid (or possess an equivalent combination of education and experience). Demonstrated in-depth experience is required with developing and managing comprehensive student aid systems and with federal, state and internal audit regulations and processes. Preference will be given to candidates who have a demonstrated ability to effectively and efficiently manage a complex organization with multiple programs. Candidates are expected to have superior ability in interpersonal, oral and written communications skills, and to be fully committed to sustaining and advancing the goal of institutional diversity of students and staff. In addition, candidates must have an unwavering commitment to academic integrity, rules compliance, and gender equity.

Candidates should submit a letter of application highlighting qualifications as outlined above and a current resume. Review of applications will begin immediately and will continue until a suitable candidate is selected. Submit applications and nominations to:

Julie Miller, chair, Scholarships & Financial Aid Search Committee
4200 Faculty Administration Building
Wayne State University
Detroit, MI 48221
E-mail: a26560j@wayne.edu

Wayne State University is an equal opportunity/affirmative action institution.

Tenure Track/ Joint Appointment
Cornell University invites applications for an open rank tenure-track joint appointment in Sociology and Latino/Studies. We seek outstanding junior candidates, or senior candidates who have demonstrated excellence in scholarship, teaching, and collegial service. Review of applications will begin on November 30 and will continue until the position is filled. The position is to begin July 1, 2000. Send cover letter, curriculum vitae, writing sample, and at least three letters of recommendation to: Douglas Hedrick, Search Committee Chair, Department of Sociology, 323 Uris Hall, Cornell University, Ithaca, NY 14853-7601.

UNIVERSITY OF WISCONSIN OSHKOSH
Director of Sponsored Programs

UW Oshkosh seeks full-time Director of Sponsored Programs. For a copy of the position description (including responsibilities, qualifications, and application procedures), please visit our web site at:

www.uwosh.edu/hbr/

or e-mail to splitt@uwosh.edu. Application deadline November 27, 2000. Start date: February 1, 2001, or negotiable.

AVEOADA.
POSITION IN NARRATIVE FILM PRODUCTION

The Cinema and Photography Department at Ithaca College invites applications for a position in narrative film production. Assistant Professor level, tenure-eligible position starting August 15, 2001.

The Department of Cinema and Photography at Ithaca College confers both B.S. and B.F.A. degrees. Our degree programs have a strong commitment to integrating production and critical studies. We offer courses in 16mm production and post production, film sound post-production, directing, screenwriting, and computerized animation. Other specialized areas of study include narrative, documentary, experimental, and hybrid form. Our program has significant resources, including contemporary digital technology and support staff for both traditional 16mm production (including an on-site 16mm black-and-white processing lab) and post-production (e.g., Avids and telcines).

MFA in filmmaking or related discipline and a strong record as a practicing filmmaker are required. Other degree candidates may be considered in the case of filmmakers with significant teaching experience and outstanding records of exhibition and creative accomplishment. An ideal candidate should demonstrate evidence of: (1) teaching effectiveness appropriate for an undergraduate film program; (2) skills in traditional and digital filmmaking technology and techniques; (3) a strong commitment to encouraging filmmaking as a creative practice; and (4) a commitment to teaching cinema production within the context of cinema as an academic discipline. The candidate should exhibit experience and interest in making a commitment to teaching with an ability to teach and develop courses in the following areas:

- Introduction to film production, directing, digital non-linear editing, and other specialty courses in the craft and studio areas of filmmaking.
- It is required that the candidate demonstrate qualifications to teach at all skill levels and have a strong creative and pedagogical commitment to teaching introductory-level film production courses.
- The candidate appointed to this position will also act as an academic advisor to students and serve on department, school, and college committees. Tenure-eligible position; Assistant Professor rank; salary open, depending upon experience and qualifications.

Applicants should forward a resume/vita, statement of interest including areas of teaching and professional experience, names and phone numbers of at least three references, and sample of creative works on film or video to:

Chair
Narrative Film Production Search Committee
Cinema and Photography Department
Roy H. Park School of Communications
Ithaca College
Ithaca, New York 14850-7251

Additional samples of creative works and other supporting material may be requested at a later date. No faxed or electronically transmitted application materials will be accepted. Screening of applications will begin on November 13, 2000, and will continue until position is filled.

Ithaca College is an independent, residential, comprehensive college with an undergraduate enrollment of approximately 5,800 students. It is located in the Finger Lakes Region of central New York.

The Roy H. Park School of Communications is one of four professional schools within the College, and enrolls approximately 1,100 students in the majors of three undergraduate departments (Cinema and Photography, Television-Radio, and Organizational Communications, Learning, and Design); a B.A. in Journalism, a B.S. in Telecommunications Management, a B.F.A. in Film, Photography, and the Visual Arts, and a B.A. in Media Studies are also offered. The Ithaca College Los Angeles Communications Program offers a semester-based full-semester program to junior and senior communication students. The Graduate Studies program offers an M.S. in Communications. Recent grants and requests from the Park Foundation and the estate of James B. Pendleton, totaling over $27 million, have positioned the Park School as one of the strongest undergraduate communication programs in the nation and created state-of-the-art facilities in audio, video, film, photography, multi-media and telecommunications.

ITHACA COLLEGE IS AN EQUAL OPPORTUNITY/ AFFIRMATIVE ACTION EMPLOYER.

MEMBERS OF UNDER-REPRESENTED GROUPS (INCLUDING PEOPLE OF COLOR, PERSONS WITH DISABILITIES, VETERANS AND WOMEN) ARE ENCOURAGED TO APPLY.

DePaul University, the Latin American/Latino Studies Program, invites applications for an Assistant Professor, tenure-track position beginning September, 2001. Candidates should have Ph.D. at time of appointment. Cultural Studies emphasis. Areas of interest may include (but are not limited to) some of the following: visual culture, art, film, media studies, theater and performance studies. We seek a scholar with a firm commitment to teaching a variety of courses in Latin American/Latino Studies and the university's interdisciplinary Liberal Stu(1) program, demonstrating superior teaching skills, and evidence of a strong publication record and/or potential. Applications are invited from candidates in any field of the Humanitie(2) and Social Sciences; the appointment will be made in the Latin American/Latino Studies Program. The Program explores the history, cultures, and politics of Latin America and Latinos in the United States. Eighteen faculty members from a wide range of disciplines contribute to the program. Send letter of interest, CV, a writing sample, three letters of recommendation, and a stamped, self-addressed postcard to acknowledge receipt of your application to Loulices Torres, Chair, Search Committee, Latin American/Latino Studies, 561 Schmitt Academic Center, 2320 N. Kenmore, DePaul University, Chicago, IL 60614. Deadline for applications is Dec. 1. DePaul is committed to recruiting a diverse faculty to complement the diversity of its student body and of the Chicago area. Therefore, we especially encourage women, minority candidates, and persons with disabilities to apply. DePaul University is committed to diversity and equality in education and employment.

DEPAUL UNIVERSITY

www.depaul.edu
Salisbury State University, located on the Eastern Shore of Maryland in close proximity to the Chesapeake Bay and Atlantic Ocean beaches, is a comprehensive regional university emphasizing undergraduate liberal arts, sciences, pre-professional programs, with several select, music applied, graduate programs. Particular emphasis is given to active learning, internships and undergraduate research, leadership, service, and civic engagement. Salisbury State University has achieved national recognition for the quality of its faculty, students, and academic programs. The University expects its faculty members to be excellent teachers and advisors, involved in scholarly activity including supervising undergraduate research, appropriately integrating technology in the teaching/learning process, mentoring student organizations, actively involved as collegiate participants in program, department, and university matters, and contributing in service to the department, school, university, and community.

Our employment goals are to attract a workforce from a variety of backgrounds and experiences that will strengthen the values of a diverse university community. The institution is committed to employment equity and diversity in the workplace. We especially welcome and encourage applications from qualified minorities, women, and persons with disabilities for the following positions. All positions are tenure track and, unless otherwise indicated, at the level of assistant professor:

- **ART (2-D and 3-D):** One position to teach computer-based graphic design, 2-D foundation courses, or print making; M.F.A. in graphic design or 3-D discipline. Second position to teach 3-D sculpture; expertise in web-design and web-publishing, glass, metal, and other media is a plus; M.F.A. required. For each position, professional experience desirable.

- **BIOLOGY:** Expertise in microbiology with responsibilities for teaching introductory and advanced courses in microbiology. Ph.D. in microbiology or closely related field preferred.

- **COMMUNICATION ARTS:** Teach a variety of media related courses, including Writing for Broadcasting, Journalism, Introduction to Mass media and other courses based on specialization. Ph.D. and evidence of effective teaching and practical experience required.

- **COMPUTER SCIENCE:** To help develop a Computer Science Major and teach a variety of courses in the major. M.S. in Computer Science required; Ph.D. in Computer Science or related field preferred.

- **EDUCATION (SCHOOL ADMINISTRATION):** Evidence of successful administrative experience in a P-12 setting and knowledge of current administrative practice in public schools. Teach, advise, supervise administrative interns, and engage in relevant scholarship. Ph.D. or Ed.D. in school administration or related field required.

- **EDUCATION (TEACHING AND LEARNING):** Demonstrated effective teaching using technology within the P-12 levels, provide expertise in distance learning, integrate technology into the curriculum, participate in a PT3 implementation grant, and provide leadership in program development. Ph.D. or Ed.D. in educational technology or related field required.

- **EDUCATION (ELEMENTARY/MIDDLE SCHOOLS):** Demonstrated excellence in teaching in P-12 schools, knowledge of contemporary elementary/middle school curriculum and teaching methods, to teach courses in elementary/middle school education, education foundations, and classroom management. Ability to teach reading/language arts, address multiple subject areas and expertise in the areas of diversity, educational technology, and assessment desirable. Ph.D. or Ed.D. required.

- **EDUCATION (VOCATIONAL):** Tenure track Associate/Full Professor; Possess strong administrative, interpersonal, and leadership skills. Teach in one or more of our graduate or undergraduate programs and serve as chair of the department. Provide leadership that supports faculty teaching, scholarship, and service. Supervise and evaluate full-time faculty, manage budget, plan strategically, oversee grants, and participate in ongoing program development emphasizing diversity, technology, and assessment. Requirements include Ph.D. or Ed.D. and demonstrated excellence teaching in P-2 and higher education, scholarship, and professional achievement.

- **EDUCATION (READING):** Background that demonstrates excellence in teaching reading/language arts in P-12 schools and knowledge of contemporary reading instruction and assessment. Teach courses in reading and language arts at the undergraduate and graduate levels and supervise student teachers. Ph.D. or Ed.D. in reading required, university teaching experience and ability to direct a reading intervention program desirable.

The University does not discriminate on the basis of race, color, national origin, sex, religion, age, disability, or sexual orientation in employment or the provision of services.
DEAN, Business, Computer Sciences and Engineering Technologies  
DEAN, Social Sciences and Humanities

MIDDLESEX COUNTY COLLEGE is a comprehensive community college in central New Jersey located on a 200-acre campus in Edison with outreach centers in New Brunswick and Perth Amboy. In addition to a credit enrollment of 11,000 students, the College maintains an aggressive program of corporate and community education. Its total operating budget is approximately $50 million.

The College is committed to high quality academic programs, both career- and transfer-oriented. Joint degree and/or dual degree programs are offered in partnership with Rutgers University, the University of Medicine and Dentistry of New Jersey and the New Jersey Institute of Technology. The College is also committed to contributing to the economic growth and development of its service area through the offering of an extensive range of training and retraining programs.

Qualified candidates will possess a Master’s degree in the appropriate academic discipline (an earned doctorate is preferred); a minimum of five years of academic administration experience; and at least five years of teaching experience at the collegiate level.

The successful candidate must be able to demonstrate evidence of the following: institutional leadership in fostering innovation and excellence in teaching and learning; knowledgeable in the application of technology to teaching and learning; experience in curricula design, development and evaluations; ability to work effectively with culturally and ethnically diverse students, faculty and staff; excellent interpersonal and supervisory skills; and a strong commitment to the philosophy of a comprehensive community college positioning itself for the future.

The position of DEAN, SOCIAL SCIENCES and HUMANITIES also requires experience with developmental/remedial educational programs.

Salaries for both positions are dependent upon qualifications and experience.

Application deadline date: November 29, 2000. Your resume, a copy of your college transcripts and a letter of candidacy which addresses how you meet the qualifications listed above, should be submitted to Human Resources Dept. Indicate Position Number 17-M for the DEAN, BUSINESS, COMPUTER SCIENCES and ENGINEERING TECHNOLOGIES, or Number 18-M for the DEAN, SOCIAL SCIENCES & HUMANITIES. Mail to:

MIDDLESEX COUNTY COLLEGE
2600 Woodbridge Avenue • P.O. Box 3050
Edison, NJ 08810

Ph.D. or M.F.A. in Creative Writing or equivalent from an accredited college or university (preferably in English). Instructor will also teach courses in one or more of the following areas: Composition, Freshman Literature, English Literature, graduate courses (if Ph.D.). A one-year appointment with the possibility of renewal. Women and minorities are encouraged to apply. Successful candidates must have a M.A. or M.F.A. in English. Salary is $28,000. Review of applications begins January 25, 2001. Send application letter, three letters of recommendation, and transcripts to:

Bates College
1800 College St.
Lewiston, ME 04240

Bates College seeks a diverse college community and seeks to ensure equal opportunity through a continuing and effective Affirmative Action Program.
DEAN OF THE SELLINGER SCHOOL OF BUSINESS AND MANAGEMENT

Loyola College in Maryland invites applications and nominations for the position of Dean of the Sellinger School of Business and Management. Loyola College is a dynamic, highly selective Jesuit school steeped in the liberal arts tradition and recognized as a leading independent, comprehensive university in the mid-Atlantic region. Located on 65 acres in a beautiful residential section of Baltimore, Loyola enrolls over 3,100 students in its undergraduate programs and 3,000 students in its graduate programs. Loyola College operates with a budget of approximately $112 million and holds an endowment of $150 million.

The Sellinger School is accredited by AACSB and consists of 55 full-time faculty and 16 staff. It offers baccalaureate programs in Accounting, Economics, Finance, General Business, International Business, Management, Management Information Systems, and Marketing to approximately 700 undergraduate students. It serves the Baltimore region with part time graduate MBA programs serving 1,100 students, including an executive MBA serving 70 experienced managers, a second executive MBA program for 100 middle managers, and a MS in Finance serving 60 students. It is organized into four departments: Accounting & Information Systems, Economics (including operations), Finance, Strategic and Organizational Studies (encompassing management, marketing, international business, and business law). The Sellinger School delivers programs at campuses in Baltimore City, Timonium, MD and Columbia, MD. It offers its MBA program in Santiago, Chile, in cooperation with Universidad Alberto Hurtado. Offices and most of the School’s classes are located in two new buildings equipped with the latest learning technologies. It is one of a number of Jesuit universities collaborating to offer an MBA in Beijing, China.

The Dean is the chief executive officer of the Sellinger School and reports to the Vice President for Academic Affairs. The Dean provides vision and leadership required to fulfill the mission of the school; supports the faculty in achieving standards of excellence in teaching, curriculum development, scholarly growth and intellectual contributions, and service to the community; leads in developing and implementing the School’s strategic plan; promotes efforts to increase diversity in the student body, staff, and faculty; and supports the Jesuit, Catholic mission of the College. The Dean also works with the Baltimore area business leaders to understand and meet the educational needs of the region’s businesses, especially through the School’s graduate programs. The Dean serves on the President's management team.

The Dean must be a strong leader who has an appreciation of the academic community, a clear vision of and commitment to the purpose of liberal education in the context of a Jesuit, Catholic institution, and have a demonstrated commitment to diversity. Applicants must demonstrate strong interpersonal skills, foster teamwork and promote data-based decision making. Applicants should be prepared to accept appointment on July 1, 2001. Salary is competitive and commensurate with qualifications.

Applications and nominations should be directed, in total confidence, to:

Shelly Weiss Storbeck, Managing Director and Vice President
And Elizabeth Moseley, Consultant
A.T. Kearney Education Practice
333 John Carlyle Street
Alexandria, VA 22314
Fax: 703/518-1782
Email: Elizabeth.Moseley@atkearney.com

Loyola College in Maryland is an equal employment opportunity employer.

CALIFORNIA STATE UNIVERSITY
SAN BERNARDINO

TENURE-TRACK POSITIONS FOR 2001-2002 ACADEMIC YEAR

California State University, San Bernardino, a comprehensive regional university, is one of the fastest growing of the 23 State University campuses with approximately 15,000 students, 450 full-time faculty, and 52 undergraduate and graduate degree programs. The University consists of Colleges of Business and Public Administration, Educatiion, Arts and Letters, Natural Sciences, and Social and Behavioral Sciences. Off-campus programs are offered at the Coachella Valley Center in Palm Desert. The University is situated 70 miles east of Los Angeles, offering easy access to beaches, mountains, and desert resorts. The rapidly expanding metropolitan area offers a wide variety of cultural and recreational opportunities. Housing costs average 30% below those of Los Angeles and Orange Counties.

We are seeking to recruit faculty members who will contribute to the goals and objectives of the University’s strategic plan. Accordingly, preferred candidates will be expected to meet the traditional requirements of excellence in teaching, active scholarship and professional work, and service to the University and community, as well as to demonstrate interest or experience in at least one of the following strategic plan areas: a) alternative modes of instructional delivery to include off-campus and distance learning; b) the learning process, i.e., innovative teaching strategies and/or research on how students learn and apply knowledge over an extended period of time; and c) partnership with the community to enhance social, economic, and cultural conditions.

The following departments are recruiting tenure-track faculty. Salaries are competitive and depend on qualifications and experience. For more information including closing dates please visit our Web site at http://www.csusb.edu

New School University

DIRECTOR, ACADEMIC ADVISING CENTER
UNIVERSITY OF IOWA

The University of Iowa is a major national research university with a solid liberal arts foundation and membership in the select Association of American Universities. Established in 1847 as Iowa's first public institution of higher education, it has won international recognition for its achievements in the arts, sciences, and humanities. Located in Iowa City, the university has 28,000 students, including 19,000 undergraduates. Of these, 15,000 are enrolled in liberal arts and the remainder are enrolled in business, education, engineering, and nursing.

Reporting to the Associate Provost for Undergraduate Education, the Director is responsible to plan, develop, direct and evaluate advising services for the approximately 8000 students served by the Academic Advising Center; to enhance the academic experience of undergraduate students and increase their persistence; to direct all activities of the Center and the staff of over 35; to coordinate advising services with academic departments and programs, the undergraduate colleges, the Honors Program, campus learning communities and student services; to monitor information about new undergraduates in order to identify advising needs; to develop and maintain records and provide data on undergraduates to the Associate Provost and other appropriate officers; to motivate change and advocate for students in the formulation of policy; and to motivate and lead diverse professional colleagues to fulfill their various roles in a coherent structure of shared responsibility and constant collaboration.

The successful candidate will have a graduate degree in a liberal arts discipline or in another relevant area of study, at least two years of experience in undergraduate advising, at least two years of experience in program planning and budgeting, and at least two years of experience in staff supervision. Also desirable are a doctorate in a liberal arts or related discipline, post-secondary teaching at the undergraduate level, a demonstrated commitment to exploring new technologies for advising and learning, and publication or other evidence of research on student development.

Screening of candidates will begin November 27 and continue until the position is filled. Send a letter detailing how you meet the required and desired qualifications for this position, a brief statement of your philosophy of advising, your curriculum vitae, and the names, addresses and phone numbers of three references to: Fred Antczak, Search Chair, Office of the Provost, 111 Jessup Hall, University of Iowa, Iowa City IA 52242.

Salary is competitive, and commensurate with experience and qualifications. The University of Iowa is an Affirmative Action and Equal Opportunity Employer. Women and minorities are encouraged to apply.

Washington State University

SPORT MANAGEMENT

The Department of Educational Leadership & Counseling Psychology, Washington State University, seeks an Assistant Professor for a permanent tenure track position effective Jan. 1, 2001 or Aug. 16, 2001. Responsibilities include teaching courses in two or more of the following areas: marketing/finance, sport governance/policy development, and sociology. Teach graduate courses in area of expertise. Advise undergraduate major, minor and graduate students. Conduct a program of research and scholarly activity. Develop and maintain partnerships with regional sport organizations. Provide service at the local, state, and national levels. Assist in maintaining alumni relations. Qualifications: Earned doctorate in Sport Management or in related field, or ABD with established defense date; ability or potential to teach at the university and establish a program of research; experience in and/or ability to advise students. Application: Send a letter of application that addresses qualification criteria; a current vita; three letters of recommendation and, the names, addresses (including email), and phone numbers of references to:

Dr. Sue Durrant
Search Committee Chair
Department of Educational Leadership & Counseling Psychology
P.O. Box 62136
Washington State University
Pullman, WA 99164-2136

Screening of applications will begin on November 1, 2000 and continue until the position is filled. Salary will be commensurate with education and experience.

UNIVERSITY OF NEW MEXICO
Anderson Schools of Management

ASSISTANT PROFESSOR - MARKETING

The Robert O. Anderson Schools of Management is seeking to fill two tenure-track positions in marketing at the Assistant Professor level to begin August 2001. Minimum qualifications preferred are a Ph.D. in marketing or closely related discipline. Will consider candidates who are close to completion of their doctorate. Candidates must show promise or a demonstrated ability to conduct scholarly research and a potential for, or demonstration of, excellent teaching. Candidates should also possess excellent communications skills. Teaching responsibilities will be in undergraduate and graduate courses. Preference will be given to candidates with teaching interests in marketing research, direct marketing/E-commerce/internet marketing, international marketing, promotion, sales management and marketing of services.

The marketing group is a small, cohesive group consisting of five people that is seeking to expand its course offerings to students of the Robert O. Anderson Schools of Management.

Please send a letter of application, curriculum vita, and the names of three references to:

Dr. Gerald Albaum
The Robert O. Anderson Schools of Management
University of New Mexico
Albuquerque, NM 87131

Applicants should indicate their preferred areas of teaching and research in the letter of application. For best consideration, applications must be received by January 5, 2001. The positions will remain open until filled.

For additional information contact Dr. Gerald Albaum, Visiting Scholar at 505-277-2437 or FAX 505-277-7124 or e-mail albaum@anderson.unm.edu. For information about the Schools see our web page at asm.unm.edu.

"UNM is an Equal Opportunity/Affirmative Action Employer and Educator."
A Public Liberal Arts College with a Teaching Tradition

FACULTY OPENINGS FOR 2001-2002

The State University of New York College at Potsdam, the oldest higher education institution in the State University of New York, invites applications for tenure track and other positions in the 2001-2002 year. Long recognized as one of the leading public colleges in the United States, SUNY Potsdam preserves a tradition of excellence in the liberal arts, music and teacher education. The college also offers an opportunity for students to engage in university level research through faculty-led projects. NSHE scientists and scholars are active in almost all areas of specialization as working with the National and World heritage.

SUNY Potsdam is primarily an undergraduate teaching institution. Faculty are expected to teach lower division as well as upper division courses, contribute to the General Education program, serve as advisors for both undeclared and major students and engage in scholarly activity. Candidates for all positions must demonstrate potential for excellence in teaching and commitment to student success.

SCHOOL OF ARTS AND SCIENCES

Art: Sculpture. MFA in sculpture required; teaching experience and significant exhibition record beyond school preferred. Responsibilities: direct sculpture program; teach sculpture and studio foundations; maintain well-equipped studio; advise students; serve on department and college committees. Candidates expected to exhibit in upper division courses, attend conferences, achieve national distinction, and maintain high level of expertise in metal casting, welding, wood, plaster, plastics, and mixed media. Teach three courses per semester. Send letter; CV; statements of artistic intent and teaching philosophy; course syllabi; slides of own work and up to 20 slides of student work of upper division sculpture; three letters of reference. Review of applications begins January 15.

Biography: Genetics. Qualifications include: 1) a Ph.D. in biology with an emphasis in molecular biology; 2) demonstrable record of excellence in teaching, and 3) the ability to conduct research which involves undergraduates. Interest in scholarly activity and excellence in teaching is essential. The successful candidate will teach undergraduate major courses and upper division electives in the area of specialty. Additionally, the successful candidate will be expected to offer a course for non-majors. Please include a statement outlining your teaching and research interests, and a copy (unofficial) of transcripts. Applications must be postmarked by December 15, 2000.

Chemistry: Analytical/Inorganic Chemistry. Position with evidence of excellent teaching, a proven record of potential for scholarly research and a commitment to liberal arts instruction are required. The preferred candidate will have accomplished research in their field, a proven commitment to teaching philosophy, a summary of proposed research, copies of graduate transcripts, and three letters of recommendation. Applications must be postmarked by December 21, 2000.

Computer and Information Sciences: Two Positions. Specialization open; needs are in classic computer science, computer science education, or computer science applications. New program concentrations are being designed using IS 97 and draft CC2001 guidelines. The CIS Department has over 1500 alumni and a Board of Advisors with representatives from key IT businesses. Opportunities for ongoing professional development for faculty are being designed in consultation with the Board. Salary is competitive. Application materials (see below) should include evidence of teaching experience; copies of grade reports, and the names, addresses, and phone numbers of at least five references. For full consideration, applications should be received by January 1, 2001.

Economics: One or more positions (term or tenure-track) teaching position at the rank of instructor or assistant professor. Some scholarship activity and excellence in teaching are required. Salary competitive. Submission of CV, letter describing your teaching philosophy and approach, v.g., copies of transcripts, teaching evaluations, and three letters of reference by December 29, 2000.

English: Writing, Compositions with expertise in technical and professional writing to teach such courses as information design and a course in the writing process and composition theory. Teaching responsibilities also include introductory composition as well as literature and linguistics courses as appropriate. Send letter, CV, copies of publications, and three letters of reference. Review of applications begins January 15.

History Department Chair: We are seeking a strong and experienced historian capable of leading the department and promoting its programs. Through a national search, the department has just hired two out of its current complement of six faculty and is expected to expand in 2001 to seven faculty and in 2002 to eight. The department seeks an individual with its own major requirements, but the new chair will also have the opportunity to contribute to the design of a new SUNY-wide general education and new state-mandated secondary degree programs in History. If you have been considered, we welcome all candidates regardless of fields of U.S. specialization. Base salary $50,000. In order to assure full consideration, applications should be received by November 10, 2000.

History —Three Assistant Professors: We are seeking three qualified candidates for tenure- or tenured-track positions to teach survey courses in early (to 1877) as well as recent (since 1877) U.S. Among these three, we are seeking:

One who is qualified to teach department needs at the upper division level in early U.S.; preference will be given to applicants who also qualify to offer courses meeting departmental requirement for upper division third world courses in Latin America, East Asia, and/or Africa.

One with upper division U.S. specialization but who also qualifies to offer courses meeting departmental requirement for upper division third world courses in Latin America, East Asia, and/or Africa.

One with upper division U.S. specialization in public history and New York State history.

In order to receive full consideration, applications should be received by November 10, 2000.

Modern Languages: Spanish. Candidates should be well versed in both the written and spoken, literary and cultural expertise in an emerging field most desirable. Familiarity with instructional technology as currently applied in second language instruction and significant participation in campus-wide activities of a teacher certification program are strongly solicited qualifications. The successful applicant will be expected to teach four courses per semester in Spanish, linguistics, literature and culture. We are seeking candidates who have the intellectual breadth of interests and flexibility to complement existing strengths of the department as well as to explore new directions and take part in new initiatives. Commitment to both teaching and scholarship, and native or near-native proficiency in Spanish.

Completed applications must be received by December 6, 2000. For consideration as candidates for possible interview at the MLA convention, applications received after this deadline may be considered until the position is filled.

Psychology: Psychopathology (Exceptionality): Primary responsibilities will include teaching courses in Child Psychopathology (Exceptionality). Evidence of teaching success is not required. An active research program that enlist undergraduate students and a publication and presentation record commensurate with the position is preferred. Applicants must submit a letter of application, a detailed CV, evidence of skill as a teacher, graduate transcripts, and at least three letters of recommendation. Review of applications will begin as received and continue until the position is filled.

Sociology: Criminal Justice. Non-tenure-track positions will be established to develop new interdisciplinary curricula in Criminal Justice, in collaboration with the Sociology and Criminal Justice faculty.

We also coordinate a new interdisciplinary Criminal Justice major. We are seeking a faculty member committed to quality undergraduate teaching and advising, professional growth and development, and service. Supervision of students engaged in field research and the design and teaching introduction to Sociology and Social Problems courses is also expected. Secondary areas of specialization will be considered to the degree they complement and extend the current strengths of the department. Normal teaching load is 12 credits per semester. Send vita, cover letter highlighting your contribution, three letters of reference, and copies of other supporting materials (such as evidence of teaching ability, course syllabi, and writing samples).

SCHOOL OF MUSIC

Musicology: Responsibilities include teaching undergraduate music history and literature courses, with the possibility of developing upper division classes. The successful candidate will represent the strengths of areas of expertise, and of course, of World Music. College-level teaching experience and an area of expertise within the common practice period and/or 20th century are preferred.

Class Piano: Lecturer (non-tenure-track, renewable). Responsibilities include teaching 5-6 sections per semester of keyboard classes for music and non-music majors. Opportunities for additional income include teaching music theory, music appreciation classes, freelance accompanying, or teaching private lessons to community students. Masters degree in piano pedagogy, performance or a related field required.

Vocal Coach: Lecturer (non-tenure-track, renewable). Responsibilities include directing/teaching sessions with voice students, accompanying choral groups and their pianists, as well as coaching sessions for the Opera Department. Salary competitive. We encourage national and/or international candidates who specialize in historically informed performance practice. Send vita, three letters of recommendation, and a list of any other relevant credentials. Review of applications will begin as received. Applications will be accepted until the position is filled.

Off-campus Student Teaching Supervisor: Lecturer (non-tenure-track, renewable). Responsibilities include directing student teaching experiences for all Music Education students; collaborating with the Music Education faculty to develop and direct additional field experiences; identifying and evaluating prospective music teachers to develop reflective teaching practices; performing supervisory practicum experiences in local elementary schools; and identifying sites for experiences in local schools. Masters degree in music education and professional teaching experience required. College-level teaching experience preferred.

Music Business: Teach music business courses, coordinate internships. Masters degree and significant experience in music business/music industry required. Previous college-level teaching desirable.

SCHOOL OF EDUCATION

Early Childhood Education. Assistant/Associate Professor to coordinate the newly developed field-based early childhood education program and teach undergraduate and graduate courses in that program. Candidates with early childhood certification experience, 3-5 years of college teaching and familiarity with NYS Learning Standards and NAEYC standards preferred. Salary mid-$40s.

Elementary Education. Teach undergraduate and graduate courses in social studies education and in general curriculum development and classroom management in a field-based program. Experience in elementary school classroom experience prepared to model the INTASC and NCESS standards.

Elementary Education. Teach undergraduate and graduate courses in classroom management and foundations. Candidates with at least 1-2 years of field experience and NYS Learning Standards and NYS Learning Standards preferred. Salary low/mid-$40s.

Additional information about the college is available at http://www.potsdam.edu. Questions can be e-mailed to persky@potsdam.edu.

SUNY Potsdam is an equal opportunity, affirmative action employer committed to excellence through diversity.
Assistant President
for External Relations
University of Maryland
College Park

The University of Maryland, College Park invites applications and nominations for the position of Assistant President for External Relations. The University is a major research institution and the flagship of a statewide system of higher education in Maryland, offering a comprehensive undergraduate and graduate program for over 30,000 students across 18 schools. The University is a Research 1 institution enrolling approximately 25,000 undergraduates and 8,000 graduate students annually. The campus is located on the campus grounds, with 1,500 rolling acres in a suburban environment. For more information about the University of Maryland, please consult the Website at www.maryland.edu.

The Assistant President for External Relations (AP) reports to the President and is a member of the President’s Cabinet. This person is responsible for developing and leading strategies for maximizing the University of Maryland’s effectiveness with federal and state authorities and the private sector. The AP will assume leadership in implementing a broad range of academic and public affairs efforts that will maximize the effectiveness of the university. Candidates for the Assistant President position should have strong leadership experience, a visionary view of the power of creative partnerships and experience in visualizing, conceptualizing, implementing, and leading large-scale projects. The AP will supervise and develop a small staff that will assist in accomplishing the objectives of this position.

Candidates for this position should have significant employment experience in the federal government and must have relevant and extensive experience with the government of the State of Maryland. Applicants must have established credibility by their performance at a senior level in their field. The interpersonal skills needed to work effectively with the university community, government, and corporate officials at the highest levels are also necessary. Direct experience in large-scale project management, capital programs, and the construction and development of research parks is highly desirable.

Candidates must have a Bachelor’s degree, a Master’s or Ph.D. or other professional degree in a relevant field is preferred. Salary is commensurate with experience. Women and minority applicants are specially encouraged to apply. Review of applications and nominations will begin on November 1, 2000, and will continue until the position is filled.

Applicants should submit a cover letter, resume, and the names, addresses, and telephone numbers of three references to:

Dr. William W. Doster
Vice President for Research and Chair, Search Committee
Office of the President
1101 Main Administration Building
University of Maryland
College Park, MD 20742

The University of Maryland is an Equal Opportunity Employer.

George Mason University
George Mason University Libraries
Instruction Coordinator

This newly created position will assist in forging a new vision of Information Literacy Instruction by working with library colleagues, faculty, and academic administrators to transform traditional library instruction. The Coordinator will be responsible for leading a systematic planning process focused on understanding the needs of users in the contemporary information environment, and developing, implementing, and evaluating an instruction program emphasizing information literacy abilities. Responsibilities encompass planning and implementing instruction within the University's revised general education program, as well as the technology-cross-curriculum initiative. Incumbent will have exciting opportunities to develop a program by collaborating with other campus units, including the University's computing services, the Division of Instructional Improvement and Instructional Technologies and the planned Teaching and Learning Center. The position reports to the Associate University Librarian for Public Services.

QUALIFICATIONS:
Required: ALA-accredited MLS or foreign equivalent; at least two years' professional experience in an academic library; knowledge of pedagogical theory; knowledge of information literacy concepts and applications, effective oral and written communication skills; and demonstrated leadership ability. Experience with several of the following is preferred: Instructional design, assessment of learning, and program development and evaluation; skill in designing instructional materials and developing web-based instruction; effective collaborative abilities; and a second Master's degree in Education or a liberal arts field. Salary: $36,000 minimum; higher depending on qualifications and experience.

Multi-Media and Liaison Librarian for Interdisciplinary Programs

The Multi-Media and Liaison Librarian works collaboratively with other librarians within University Libraries, and is responsible for providing reference, instruction and collection development services for the Johnson Center Library (JCL). Serves as the liaison librarian to a cluster of interdisciplinary programs including Film Studies, Cultural Studies, and others. Takes leadership role within University Libraries regarding multi-media issues, and provides professional guidance to JCL staff person responsible for overseeing media collections, equipment, services, and media course reserves. Works collaboratively with Library Systems Office and other University Information Technology units in the implementation of new multi-media technologies. Serves on Library and University committees. Reports to the Coordinator of Reference and Instruction Services, Johnson Center Library. QUALIFICATIONS: Required: ALA-accredited MLS or foreign equivalent; academic library reference/instruction experience; experience with instructional technology, and web-based multi-media technologies. Preferred: Experience developing collections; facility using HTML and development of web pages; and second Master's Degree in relevant subject field. Salary: $52,000 minimum, higher depending upon qualifications and experience.

INFORMATION
12-month administrative/professional faculty appointment, renewable. Excellent benefits: health plan options and paid life insurance; several retirement plan options, including TIAA/CREF, 401(k); paid holidays, and 12 sick leave days; and tuition waiver for self.

For more information about George Mason University and its Libraries, visit http://www.gmu.edu.

TO APPLY: Send letter of application, resumes and names, addresses (including e-mail), and telephone numbers of three professional references to:

Chair, Search Committee (specify position)
Library Administration
George Mason University
MIN 2FL
Fairfax, VA 22030-4444
Review of applications will begin on November 15, 2000. Will continue until filled.

George Mason University is an EQUAL EMPLOYMENT OPPORTUNITY EMPLOYER.

Mary Baldwin College

DEAN OF THE COLLEGE

Mary Baldwin College invites nominations and applications for the position of Dean of the College. The Dean of the College is the chief academic officer, reporting to the President and serving on the Executive Staff. The current Dean is retiring after 15 years of distinguished service.

Permanently ranked among the top ten colleges in the southern region by U.S. News & World Report, Mary Baldwin College enrolls approximately 850 young women on campus and another 1200 men and women across the Commonwealth of Virginia through its Adult Degree Program and Master of Arts in Teaching, on the home campus and at regional sites. The College combines a strong liberal arts tradition with commitment to career preparation in a unique combination of innovative programs. Since 1842 the primary focus of the College has underscored the traditional residential program for women. More recently the College has expanded its offerings to include the nationally renowned Program for the Exceptionally Gifted, which enrolls 62 students this fall. The Virginia Women’s Institute for Leadership stresses academics, physical training, practical leadership experience, and participation in ROTC and a Corps of Cadets. The Adult Degree Program blends a tutorial system with modern web-based instruction. The Master of Arts in Teaching program has an innovative inquiry-based curriculum.

Mary Baldwin actively seeks a diverse campus. In ten years, we have moved from a nearly homogeneous campus to one with 26% students of color and 3% international students. We have established an Office of Multi-Cultural Understanding which has helped lead students of color to assume a variety of leadership positions, including president of the student government and of the senior class. The campus has been enriched by new traditions such as Las Posadas, the International Culture Fest, and the Harlem Renaissance Ball, which join our other historical traditions.

We seek an individual who is able to bring academic leadership and vision to this community. The ideal candidate will have an earned doctorate in a field appropriate to the College with achievements in teaching, advising, and scholarship. He/she should be knowledgeable concerning applications of computer technology to collegiate education. We will look for a candidate with a track record of innovation, vigor, and successful academic program development.

Mary Baldwin College is located in Staunton, Virginia, a city of 24,000 in the Shenandoah Valley. It is within 40 miles of eight other institutions of higher education and a 150 miles southwest of Washington, D.C. In addition to a rich historical heritage, the area offers a wide variety of cultural, recreational, and educational opportunities. The College website may be visited at http://www.mbc.edu.

Nominations and applications, with current resume and contact information for at least three references, should be sent, in confidence (with a postmarked deadline of December 15), to:

Dr. John L. Kibler, III
Chair
Dean of the College Search Committee
c/o Mrs. Carolyn P. Meeks
Administrative Assistant to the President
Mary Baldwin College
Staunton, VA 24401
FAX: 540-887-7291
e-mail: cmbeeks@mbc.edu

MBC is committed to diversity of faculty, staff, and students.
CHAIR, DEPARTMENT OF WRITING, LITERATURE AND PUBLISHING

Emerson College seeks a teacher, writer, administrator to serve as Chair of the Department of Writing, Literature and Publishing. The Department consists of a nationally ranked MFA program in creative writing, an MA program in publishing and writing, and BA and BFA undergraduate programs that also provide language, literature and writing courses for Emerson College's general education curriculum. Appointment will be made at the Associate Professor or Professor level, depending on experience. College-level teaching and administrative experience, established publications record, and MFA or Ph.D. are required.

THE CATHOLIC UNIVERSITY OF AMERICA
Catholic School of Law
Washington, DC

A thriving center of scholarship and academic life, the Catholic University of America is unique as the nation's only university, the Catholic Church and the only higher education institution founded by the U.S. bishops. The Catholic School of Law at the Catholic University of America was founded in 1885 and is a recognized leader in the fields of communications, law, clinical legal education, law and religion, law and public policy, and comparative and international law. Its academic program emphasizes rigorous academics, strong communication skills, and the centrality of ethics, morals, and manners in every aspect of a lawyer's professional and personal life.

The Director of Advancement is responsible for the oversight of all areas of development and alumni relations within the Catholic School of Law, including major gifts, annual giving, research and records, as well as local and regional alumni events. The Director will plan and implement the development strategy for the law school and supervise staff in the areas of alumni relations, major gifts, research, gift recording, and annual fund. The Director of Advancement reports to the Dean of the Catholic School of Law and the Vice President for Institutional Advancement for the Catholic University of America.

The ideal candidate will possess significant, progressively responsible management, fund-raising, public relations, and alumni relations experience at a senior level in higher education or for a large, complex not-for-profit organization. Demonstrable personal success with the research, cultivation, solicitation, and stewardship of major gifts from individuals is required, as is a successful track record of having participated in conceiving, planning and implementing a comprehensive capital campaign effort. He or she will possess the ability to motivate, manage, and supervise a staff of diverse talents and responsibilities and have excellent interpersonal skills. An appreciation for and commitment to the mission of the Catholic University, the Hierarchy, and Church teachings and positions are essential. A bachelor's degree is required and an advanced degree is advantageous.

Please submit nominations and/or expressions of interest to: Sally Ann Hard & Howard Jessamy. EMN/Att/Kiefer, 4550 Montgomery Avenue, Suite 615N, Bethesda, MD 20814. 301-654-5070. 301-654-1318 FAX

catholiclaw@emca.edu

UNIVERSITY OF COLORADO AT BOULDER
POSITION ANNOUNCEMENT

The University of Colorado, Institute of Behavioral Science, in collaboration with either the Department of Economics or Geography, invites applications for the position of Director of the Research Program on Environment and Behavior in the Institute of Behavioral Science. Recruiting is targeted at the advanced Associate Professor level; however, individuals at a higher rank may be considered. The Director is expected to lead the Environment and Behavior Program in conducting research into socially-relevant, human-environmental problems, in securing external funding; in fostering interdisciplinary research; and in establishing links with the larger academic community engaged in environmentally-related research on the Boulder campus.

The position is fully rostered in the Institute of Behavioral Science. The successful candidate will also have teaching and service responsibilities and tenure in his or her cognate department. Candidates must demonstrate a track record of external support, a commitment to collaborative, multi-disciplinary research, and experience in program development. More information concerning the Environment and Behavior Program can be found in the Institute of Behavioral Science's brochure, available online at www.colorado.edu/ibs/brochure/

Applications should include a statement of research and teaching interests and experience, a perspective on how he/she would advance the program, a curriculum vitae, and key publications, along with the names and addresses of three references. The University of Colorado at Boulder is committed to diversity and equality in education and employment.

Applications must be received by January 1, 2001. Send to: Dr. J. Terrence McCabe, Search Chair, Environment and Behavior Program, Institute of Behavioral Science, Campus Box 468, University of Colorado at Boulder, Boulder, CO 80309-0468. E-mail: tmccabe@spot.colorado.edu
College of Health and Human Services
Tenure Track Positions

The primary mission of the College of Health and Human Services is to provide professionally oriented education at the baccalaureate level and to provide graduate programs in specialized disciplines related to health and human services. As a major academic unit in a comprehensive, regional university, the college is unique and important in educating health and human services professionals for the San Joaquin Valley. The academic disciplines within the college seek to foster interdisciplinary-biologic education for future health and human services providers. The following Tenure-Track faculty positions are available beginning Fall 2001. Please refer to our Web site: www.csufresno.edu/Health/school.html.

Communicative Disorders and Deaf Studies
Assistant or Associate Professor: Teaching coursework and supervising clinical practicum in a deaf education curriculum with a comprehensive philosophy. The successful candidate may be called upon to teach in a distance education mode. Contact: Dr. Paul Ogden, (559) 278-2423; paulo@csufresno.edu

Meteorology

Tenure Track - Fall 2001

Western Connecticut State University

The Department of Physics, and Astronomy is seeking applicants from qualified individuals to fill a FT faculty position in meteorology. The appointment is a tenure-track position and is expected to be made at the Assistant Professor level. Ph.D. in either meteorology, atmospheric science or a closely related field preferred. Candidates with less than the terminal degree who exhibit strong undergraduate teaching experience/credentials and/or operational forecasting experience will also be considered. The successful candidate will be expected to teach undergraduate courses in introductory meteorology, undergraduate weather analysis and forecasting, advise students, and help supervise undergraduate research in meteorology. The department, which includes the Center for Galactic Astronomy (CIGA) and the University Weather Center, currently consists of a physicist, an astrophysicist and an atmospheric-geophysical fluid dynamicist (all full-time) and two adjunct faculty.

Application materials must include: (1) a cover letter, (2) current curriculum vitae (CV), (3) a statement of teaching goals and philosophy, (4) a statement of research interests, and (5) the names of three professional references. Application review will begin on January 15, 2001. Applicants must be received by January 15, 2001 and will be considered until the position is filled. All application materials must be received by January 15, 2001. Address all correspondence to: Prof. Dennis W. Dawson, Chairperson, Department of Physics, Astronomy and Meteorology, Western Connecticut State University, 181 White Street, Danbury, CT 06810.

WCSU is an AA/EEO Educator/Employer.

11/06/2000 0 HISPANIC OUTLOOK
CHEMISTRY INSTRUCTOR

Brookdale Community College is a growing institution recognized for its vision, excellence in educational practices, effectiveness in meeting diverse and eclectic student needs, utilization of state-of-the-art technology and resources, and its capability to anticipate the current and future needs of the students, citizens and community it serves. Located on a 220-acre campus in central coastal New Jersey, the sprawling campus provides a pastoral setting and is approximately 5 miles south of New York City and 70 miles north of Philadelphia.

The College invites applications for an INSTRUCTOR, CHEMISTRY, to begin January 2001. Brookdale is an innovative and comprehensive open admissions two-year college with an enrollment of 11,500 credit students (approximately 7,500 FTE). We seek colleagues who share our unequivocal commitment to quality instruction, collaborative relationships, and a sense of service, diversity, innovation and technology literacy. This is a full time, tenure track position to be staffed at the entry-level. Position requires a Master's degree in Chemistry. Teaching responsibilities include both daytime and evening classes in Introductory Chemistry, General Chemistry, Allied Health Chemistry, Non-majors Chemistry, and potentially, Organic Chemistry and Biochemistry. Candidates should have familiarity with current technological advances related to the discipline, and experience with innovative approaches to teaching such as student-centered learning would be of special interest to us. Candidates invited for an in-person interview may be required to present a teaching demonstration.

Salary range for Instructor level is $33,506-$38,060. Position is entry-level and salary is commensurate with qualifications/experience within the identified range. Faculty members teaching extra courses during the academic year and in the summer receive additional compensation. Applicants should submit a letter of application, curriculum vitae, unofficial copy of graduate transcripts and three letters of recommendation via Fax: (732) 224-2970, or mail to the address listed below, attn: Human Resources Office. Visit our website or call our Opportunity Line at (732) 224-2281. Materials must be received postmarked no later than November 24, 2000.

Brookdale Community College
765 Newman Springs Road • Lincroft, NJ 07738
Visit our website: http://www.brookdale.cc.nj.us

Brookdale Community College is an Equal Opportunity/Affirmative Action Employer and its staffing process is pursued through an unwavering commitment to diversity, not only as a compliance responsibility, but as an active conscious effort to build and develop diversity within the faculty and staff.
Faculty Positions
(full-time, tenure track)

Harford Community College is seeking applicants for the following full-time, tenure track positions. These positions are 10-month positions scheduled to begin August 15, 2001, except for the fine art position which is scheduled to begin January 2, 2001. Starting salary will be commensurate with education and experience ($28,000 - $35,000). An excellent fringe benefits package is available.

**Fine Art Instructor**
master of fine arts degree

**Developmental English & Writing Instructor**
master’s degree, preferably in English, writing, or reading; master’s degree in a closely related field will be considered.

**Developmental Math Instructor**
master’s degree, preferably in mathematics; master’s degree in mathematics education or closely related field with graduate courses in math will be considered.

**Speech Instructor**
master’s degree in communications or a closely related field, such as journalism, liberal arts, speech, teaching, or theater.

Request the **required** application and **detailed** vacancy announcement by calling the Human Resources Office at (410) 836-4415 or via e-mail request to Vyshney@harford.cc.md.us. RESUMES ARE ENCOURAGED BUT WILL NOT BE ACCEPTED IN LIEU OF AN EMPLOYMENT APPLICATION. For best consideration, the completed application materials (incomplete applications will not be considered), should be returned by December 6, 2000. Only candidates receiving further consideration will be contacted.

**AGNES SCOTT COLLEGE**

**THE WORLD FOR WOMEN**

**Director of Capital Gifts and Gift Planning**

The Director of Capital Gifts and Gift Planning manages, plans, oversees and directs planning, organization and implementation of Planned Giving and Capital Gifts program at Agnes Scott College. Reporting to the Assistant Vice President for Development the successful candidate will work with alumnae, donors, foundations, corporations and volunteers to identify, cultivate, solicit, and obtain capital and planned gifts as part of the current capital campaign. The director manages assigned caseload of donor prospects, solicits assigned national and international prospects and monitors fund-raising progression toward campaign goals. The director also markets planned giving program as partner with capital gifts efforts, educates donors and serves as institutional resource for planned giving vehicles. Agnes Scott College is a highly selective, independent national liberal arts college for women located in metropolitan Atlanta. In offering the world for women, Agnes Scott’s curriculum encourages students to become fluent across disciplines, across continents and across centuries.

Requirements: BA/BS in related occupational field of study. Minimum of 5 years work experience with considerable knowledge of gift planning, capital campaign and major gift fund raising; a proven history of obtaining significant planned and major gifts; proficiency in grant and proposal writing; ability to generate relationships with prospective donors and estate planning advisors; proven managerial success in development program; excellent communication skills, and strong organizational skills.

Application Process: Send a resume, cover letter, professional references and salary requirements to Human Resources, Agnes Scott College, 141 E. College Avenue, Atlanta/Decatur, Georgia 30030. Review begins immediately and continues until position is filled. EOE

MONOGRAPH CATALOGER
WICHITA STATE UNIVERSITY LIBRARIES

General Description: WSU Libraries invites applications for the position of Monograph Cataloger. We are seeking a creative and knowledgeable individual to be part of a Technical Services team. The position will be one of three professional catalogers in a department with 12 support staff. The Library system maintains a collection of 1.2 million volumes, extensive archives, and two branch libraries. Wichita State University, with an enrollment of over 14,000, is one of three research institutions in the state university system of Kansas. The University is located in the largest metropolitan area of Kansas, which serves a diverse population of over 500,000.

Duties and Responsibilities: Reporting to the Head of Technical Services, the major responsibilities of the position include original and complex copy cataloging of monographic resources in a variety of print, non-print, and digital formats following AACR2, MARC, and appropriate authority/control standards. Other responsibilities include sharing database maintenance workloads, serving as a resource person for monographic cataloging, and keeping abreast of national standards for bibliographic control of library materials. The cataloger contributes to departmental policy, planning, and procedures development. Participates in library-wide strategic planning. Engages in professional service and scholarship.

Required Qualifications: ALA-accredited graduate degree (must have the degree at the hiring date). Demonstrated knowledge of cataloging principles and procedures, including AACR2, LC subject headings, LC classification, and MARC. Excellent interpersonal skills, and must show evidence of being self-motivated and able to work independently and successfully in a collegial environment. Must demonstrate potential for meeting the Library’s tenure and promotion requirements. Successful experience with diverse populations. Must be eligible to work in the United States.

Preferred Qualifications: Recent experience in one or more of the following areas: cataloging, cataloging course work, or paraprofessional cataloging of monographic materials equal to one or more years experience in an academic library or technical services department. Familiarity with government documents and SuDoc Classification, knowledge of CORC and other metadata principles, experience with authority control, supervisory experience, reading knowledge of one or more foreign languages, and an additional graduate degree in an academic discipline.

Salary and Benefits: This position is a 12-month contract, tenure-eligible faculty appointment, with a minimum starting salary of $32,000. Academic rank and salary are negotiable depending on experience and qualifications. The position is available immediately and the starting date is negotiable. Excellent fringe benefits, including TIAA-CREF, Blue Cross-Blue Shield, and HMOs. Twenty-two days of annual leave.

Application: For full consideration letter of application, resume, and names, addresses, telephone numbers, and e-mail addresses (if available) of three professional references must be received by November 27, 2000, to:

Sha Li Zhang
Chair, Search Committee
Wichita State University Libraries

WICHITA STATE UNIVERSITY IS AN AFFIRMATIVE ACTION/EQUAL OPPORTUNITY EMPLOYER

PROVOST & VICE CHANCELLOR
FOR ACADEMIC AFFAIRS

The University of Illinois at Springfield invites nominations and applications for the position of Provost and Vice Chancellor for Academic Affairs.

Located in the state capital of Springfield, Illinois, the University of Illinois at Springfield is one of three campuses of the University of Illinois. The campus serves approximately 4,000 students in 38 graduate and 20 undergraduate programs. The academic curriculum of the campus emphasizes a strong liberal arts core, an array of professional programs, extensive opportunities in experiential education, and a broad engagement in public affairs issues. The campus offers small classes, substantial student-faculty interaction, and a rapidly evolving technology-enhanced, learning environment. Its diverse student body includes traditional, non-traditional, and international students. Its faculty are committed teachers, active scholars, and professionals in service to society, operating in accordance with the Board of Trustee’s policy of accountability.

Reporting to the Chancellor, the primary functions of the Provost and Vice Chancellor for Academic Affairs are to coordinate campus operations and direct activities surrounding the implementation and achievement of the academic mission of the University of Illinois at Springfield and to coordinate campus initiatives across the division and to coordinate campus planning and budgeting activities.

Applicants for Provost and Vice Chancellor for Academic Affairs must have: 1) an earned doctorate at an accredited institution of higher education; 2) a substantive record of distinguished scholarly achievement; 3) an established record of successful university-level teaching, including a strong commitment to undergraduate and graduate-level teaching and professional education; 4) successful experiences in senior-level leadership at the level of Dean or higher at an accredited institution of higher education; 5) a demonstrated record of developing, implementing, and sustaining innovative policies and programs that foster excellence in teaching, research, and service in higher education; 6) demonstrated capabilities in strategic planning, academic policy-making, budgeting, and management in higher education; and 7) an established record of personal and professional ethics, character, and integrity.

Applications and nominations should be submitted to:

Lee Frost-Kumpf, Ph.D., Associate Professor and Chair
UIS Provost Search Committee, PAC 566
University of Illinois at Springfield
P.O. Box 19243
Springfield, Illinois 62794-9243

Applications should include a vita, a discussion of the candidate’s academic and administrative accomplishments and interest in the position; and the names, addresses, and telephone numbers of at least five references. Consideration of applications will begin on January 3, 2001, and continue until an appointment is made. The appointment will commence no later than July 1, 2001.

For more information about UIS, visit our web site at: www.uis.edu.

The University of Illinois at Springfield is an affirmative action, equal opportunity employer. Persons with disabilities, women, and minorities are encouraged to apply.

Amherst College
ASSOCIATE/ASSISTANT REGISTRAR

Amherst College, a private undergraduate liberal arts college for men and women, with 1,650 students and 170 faculty, seeks an experienced professional who will be responsible for the day-to-day operations of the Registrar’s Office including preregistration and registration activities. Located in western Massachusetts, Amherst participates with Hampshire, Mount Holyoke and Smith Colleges and the University of Massachusetts in the Five College Consortium.

The successful candidate will be responsible for coordinating communications with students and faculty, scheduling final exams, generating enrollment reports, monitoring student tracking, determining completion of degree requirements for seniors, maintaining the office’s Web pages, serving as liaison to the information technology department, supervising two staff members, and answering inquiries regarding academic regulations and practices from all constituencies.

Qualifications: Bachelor’s degree required, advanced degree preferred; 4 or more years’ experience as a registrar or in a registrar’s office or closely related area; experience with computerized information systems, previous experience with Datatel’s Colleague especially helpful. Strongly detail oriented with excellent oral and written communication skills and superior interpersonal skills required. Candidate must have a strong commitment to team building and customer service.

Interested candidates should submit a letter of application, resume, and the names of three references to: Office of Human Resources, 201 Converse Hall, Amherst College, Amherst, MA 01002-5001. A review of application will begin on November 15, 2000 and continue until the position is filled.

Amherst College is an Equal Opportunity/Affirmative Action employer and encourages women, minorities and persons with disabilities to apply.

Amherst College
The Center for International Programs and Exchanges at Plattsburgh State University of New York invites applications for a full-time, twelve-month Study Abroad Coordinator position. This position is expected to begin on December 6, 2000.

Responsibilities include: Administering Study Abroad and Exchanges programs at PSU; providing advice and guidance to students about study abroad opportunities, conducting orientation meetings; making arrangements for incoming exchange students; preparing promotional materials and visiting program sites abroad.

Qualifications: Bachelor's degree required, Master's degree preferred. A minimum of three to five years of administrative experience in study abroad and/or other international program activities at an institution of higher education; excellent written and oral communication skills; outstanding interpersonal, organizational and computer skills and ease in working with students are required. Advanced knowledge of a foreign language and experience living or studying abroad will be highly regarded.

Applications from women and minority candidates are especially welcomed. Plattsburgh State University of New York is an affirmative action, equal opportunity employer.

Salary: $33,000 to $38,000 dependent upon qualifications and experience, with excellent benefits. Review of applications begins immediately and continues until the position is filled. Please submit letter of application, resume, and the names, addresses and telephone numbers of three references to: Chair, Search Committee (PJH 2489-808), c/o Human Resources, Plattsburgh State University of New York, 101 Broad Street, Plattsburgh, NY 12901-2681. Fax: (518) 564-5060.

WILLAMETTE UNIVERSITY

Willamette University seeks candidates for an Assistant Professor (rank negotiable with appropriate experience) with expertise in American ethnic studies to teach undergraduate courses in American ethnic issues and the College of Liberal Arts general education program. The successful candidate will affiliate with one of the College's existing departments and will work closely with other interested faculty in developing an interdisciplinary, inclusive, and comparative American ethnic studies program that may in the future grow into a major. The position requires a doctorate in one of the traditional liberal arts disciplines or an interdisciplinary area that contributes to these disciplines.

Expertise in African American, U.S. Latin/Chicano, Asian/Pacific American, or Alaska Native/American Indian studies and experience in living and working with communities of color strengthen applications for this position. Inevitably, the person holding the position will be looked to for leadership by the student community of color.

Willamette University has made a strong institutional commitment to diversifying its faculty, student body, and undergraduate curriculum. The University strives to attract qualified candidates from minority communities and encourages individuals belonging to these groups to apply. The addition to the curriculum of courses in American ethnic relations and the creation of an American ethnic studies program are major priorities in Willamette University's commitment to diversity.

Please send a letter of application, vita, and three current references to: Professor Charlie Wallace, Ethnic Studies Search Committee Chair, Office of the Chaplain, Willamette University, 900 State Street, Salem, OR 97301. For additional information see: www.willamette.edu/dept/hr. If you will be attending your national conference, please let us know and we will try to arrange an interview. Application review will begin on December 15, 2000. However, applications will be accepted until the position is filled.

The Center for the Study of Religion (CSR), Princeton University, announces availability of 6 one-year (9/1/01-8/30/02) postdoctoral fellowships for pre-tenured scholars. Each is geared to a specific theme. To apply, submit CV, 3 letters of recommendation, a 5 page proposal, and published or unpublished paper demonstrating scholarly command of topic of one of the themes. Application deadline is 1/16/01. Contact CSR, 5 Fine Lane, Princeton University, Princeton, NJ 08544-1013; 609/258-5545; askins@princeton.edu; www.princeton.edu/csr/religion.

Princeton University is an equal opportunity and affirmative action employer.

- Death and Dying in Buddhist Cultures: special emphasis on death-related topics-preparation for dying, funerary and mortuary ritual, propitiation of spirits, etc.-from a multidisciplinary perspective in order to gain insight into Buddhism as a lived religion, especially in premodern societies. Fellow will conduct own research on a related topic, attend a weekly interdisciplinary workshop, and assist Professor Jacqueline Stone in arranging a course and conference on Buddhist death-related practices in the context of specific cultures.

- Poverty/Charity and Jewish Studies/Middle East Studies/Religion/History: special emphasis on the history of poverty and charity, especially their religious and social aspects, in Jewish communities. Preference for applicants working in medieval Islamic world, but other regions and periods considered. Fellow will conduct own research on a related topic, attend a weekly interdisciplinary workshop, and work with Professor Mark R. Cohen in a graduate seminar and conference on the comparative study of poverty and charity in Judaism, Christianity, and Islam.

- Christian Thought and Practice: (2) special emphasis on the religious life of American Christians, congregations, and clergy. Fellow should be engaged in projects of value to the ways in which Americans Christians live, preach, and teach, or to congregations and pastoral leadership. Fellow will conduct own research on historical or contemporary aspects of Christian thought and practice, attend a weekly interdisciplinary workshop, and participate in an annual symposium for scholars, clergy, and community leaders.

- Public Theology/Religion/Philosophy: (2) special emphasis on historical and contemporary manifestations of public theology in Christian faith communities. Fellow should be engaged in projects concerning the implications of theology for the religious life of American Christian communities, faith traditions, congregations, and/or clergy. Fellow will conduct own research, attend a weekly interdisciplinary workshop, hold regular meetings with a member of the Princeton faculty who serves as a host and mentor for the year, and participate in an annual symposium for scholars, clergy, and community leaders. Eligibility requires M.A., M.Div., or equivalent degree from an accredited seminary.

HISPANIC OUTLOOK 0 11/06/2000
STATE UNIVERSITY OF NEW YORK
COLLEGE AT BROCKPORT

DIRECTOR OF HUMAN RESOURCES

The College at Brockport invites applications for the position of Director of Human Resources to begin on or about January 15, 2001. Brockport is a public comprehensive college within SUNY, with 6,500 FTE students and over 1,200 employees in 7 bargaining units. It is located in a scenic village on the Erie Canal, 23 miles west of Rochester, NY. For additional information see our home page at http://www.brockport.edu.

Responsibilities: Reporting to the Vice President for Administrative Services, the Director of Human Resources directs the planning, development, organization and implementation of a comprehensive human resources program. The successful applicant will lead a department tasked with policy and procedures development; administration of employee/ labor relations for seven unions; position classification and compensation; benefit administration; payroll; human resources information system; regulatory compliance; administration of evaluation and awards systems; recruitment, selection, and placement activities; and orientation, training and professional staff development.

Required Qualifications: Master's degree in Human Resources, Public Administration, Personnel Administration, Business or related discipline, plus at least seven years of relevant professional human resource experience, including three years of supervisory and management experience. Excellent problem-solving and communication skills. Experience in a culturally diverse, unionized environment.

Preferred Qualifications: Experience in higher education. Demonstrated ability to work with the various constituencies of the College community. Experience with Human Resource/ Payroll database systems.

Applications: Send letter of application, curriculum vitae, and names, addresses and telephone numbers of three professional references to: Edward J. Kuzar, VP for Administrative Services, SUNY College at Brockport, 350 New Campus Drive, Brockport, NY 14429-2917. SUNY Brockport is an EEO/AA employer. Women, minorities, veterans, and persons with disabilities are encouraged to apply. Finalists will be required to submit three letters of reference and a transcript showing highest degree earned. Review of applications will begin on November 15 and continue until the position is filled. Applicants are encouraged to apply by the above date for full consideration.

VICE CHAIR
Center for Latin American Studies,
University of California at Berkeley

Salary range: $41,736-$57,948
Closing date: December 6, 2000
Starting date: January 15, 2001 (negotiable)

Working with the Chair, faculty, and staff, the Vice Chair coordinates all programmatic aspects of the Center: conferences and events, visiting scholars, faculty, funding, tri-annual newsletter, Website (http://www.cls.berkeley.edu/clas), working papers, and outreach. Responsibilities also include writing grant proposals and reports to university, government, and foundation funding sources; hiring and supervision. The Center participates in the Graduate Division and the College of Extended Studies.

Desired qualifications: excellent writing skills; evidence of success at fundraising; administrative skill and experience; advanced degree in a field relevant to the Center's program in Latin American Studies (PhD preferred), and advance competence in Spanish or Portuguese.

Applications should submit a letter of application, CV, professional writing samples, and names and addresses of three references to Harley Shaiken, Chair, Center for Latin American Studies, University of California, Berkeley, 2334 Bowditch Street, Berkeley, CA 94720-2312.

The University of California is an equal opportunity/affirmative action employer.

AMERICAN UNIVERSITY
WASHINGTON, D.C.

Government Department Advertisement Language

American University's School of Public Affairs, Department of Government, invites applications to two tenure positions at the Assistant Professor level to begin in the fall semester, 2001.

The first position is in American Politics; teaching interests and research fields are open. Candidates will be expected to teach in the United States, an introductory course in the university's general education program, and should be prepared to offer some upper level courses in the department's undergraduate, M.A. and/or Ph.D. programs.

The second position is in political theory; candidates will be expected to teach Individual Freedom vs. Authority, an introductory political theory course in the university's general education program. Preference will be given to candidates who can also teach Feminist Political Theory and related courses.

American University's School of Public Affairs is located in our nation's capital with convenient access to national, state, and local governments, organizations, and associations and is an ideal place to teach and conduct research in all areas of political science. For more information about our programs and our distinguished faculty, please visit our web site at http://www.american.edu/academic.depts/spa/gov/. American University is an Equal Opportunity Employer committed to a diverse faculty, staff, and student body. Women and minority applicants are strongly encouraged to apply.

Interested parties should submit a detailed letter of application, identifying the specific position of interest, curriculum vitae, and the names, addresses, emails, and three letters of recommendations to:

Department of Government Search
Office of the Dean/SPA
American University
4400 Massachusetts Ave NW
Washington, DC 20016

Please prominently identify the position as "American Politics" or "Political Theory".

FLORIDA GULFCOAST UNIVERSITY
COLLEGE OF ARTS & SCIENCES

The Biology Program at FGCU invites applications for a full-time, 9-month position at the Assistant/Associate Professor level within our Division of Mathematics and Sciences. A major task of this person will be the development of a program in biotechnology. Teaching responsibilities will include an undergraduate course in Genetics and additional courses to be determined by the interests of the applicant and needs of the Division. Min. Req: Ph.D. in the biological sciences (completed before August 2001). Evidence of excellence in teaching and continuing scholarship. Candidates with prior experience supervising undergraduate research are particularly encouraged to apply. Prefer: The applicant’s area of phylogenetic expertise is open, however, the successful applicant will be expected to develop a program in biotechnology, teach genetics (and other courses), and to involve undergraduate students in research. For more information about our program, see our web site (http://bio.fgcu.edu/). Informal inquiries may be made to Dr. Jerome Jackson (jackson@fgcu.edu).

SPECIAL POSITION NOTES: Appointment will be made at a faculty rank commensurate with the candidate’s exp. on a 9-mo. multi-year contract basis. The anticipated start date for this position is Fall 2001.

APPLICATION PROCESS: Applicants should submit two packages (one original and one photocopy): each package must include a letter of interest, curriculum vitae, statement of teaching philosophy, a statement of research interests articulating how he/she will involve undergraduates, and contact information for five references. These packets must be postmarked by November 27, 2000 and should be sent to: FLORIDA GULFCOAST UNIVERSITY, Position #13619, Director, Human Resources, 1801 FGCU Blvd. South, Ft. Myers, FL 33965-6466. Obtain additional information by visiting our website at www.fgcu.edu or call the 24-hr jobline at 941-590-1111.

FGCU is an Equal Opportunity/Equal Access/Affirmative Action Institution which has a commitment to cultural, racial, and ethnic communities and encourages women and minorities to apply. It is expected that successful candidates share in this commitment.

California Lutheran University is an Equal Opportunity Employer. The university encourages candidates who will contribute to the cultural diversity of CLU to apply.
DEAN OF ENROLLMENT MANAGEMENT
Clarion University of Pennsylvania
Search Re-Opened

Clarion University invites nominations and applications for the newly created position of Dean of Enrollment Management.

Responsibilities:
The Dean of Enrollment Management reports to the Provost and Academic Vice President and is responsible for the development, coordination, and direction of the university’s enrollment management program. Responsibilities include developing strategic and operational enrollment management plans, establishing enrollment management strategies and priorities, participating in university promotional activities, monitoring program success, and providing for continuous improvement of all enrollment management activities. The dean oversees admissions, financial aid, scholarship administration, student retention and advising functions, and is responsible for working with faculty and staff to create a positive enrollment management environment throughout the university.

Qualifications:
A doctoral degree in an appropriate field is preferred. A master’s degree with three years experience in an enrollment management environment is the minimum qualification. A thorough knowledge of strategic enrollment management principles and the ability to apply them effectively in a highly competitive market are required. A positive attitude, creativity in promotion of institutional image, an understanding of technology applications in enrollment management, a commitment to diversity, and the ability to work well with people are necessary characteristics. Competitive candidates will have significant marketing and research experience and will have previously supervised staff in at least one of the functional areas of responsibility for the position. Completion of a successful on-campus interview is required.

Applicants and Appointment:
Candidates for Dean of Enrollment Management must submit the following materials: a letter of application addressing qualifications for the position, resume, and names and addresses of three references. Application materials and requests for additional information concerning the position should be addressed to Ms. Bobbi Hester, Search Committee Coordinator, 115 Carrier Administration Building, Clarion University, Clarion, PA 16214. Applications received by November 20, 2000, will receive full consideration; review of applications will continue until the position is filled. Salary and benefits are competitive.

The University:
Committed to a strong teaching mission complemented by research and service, Clarion University of Pennsylvania takes pride in the accomplishments of its students, who graduate from programs recognized for quality and that have earned the most prestigious accreditations including, AACSB, ALA, AOTA, ASHA, NASM, NCATE, and NLN. Founded in 1867 and located in scenic western Pennsylvania, the university enrolls approximately 6,000 students who attend classes at campuses in Clarion and Oil City, the Pittsburgh area, and at various distance education locations throughout the state. Clarion University, as one of fourteen comprehensive public universities in the Pennsylvania State System of Higher Education, offers a substantial general education core and makes the latest in technology available to its students who pursue associate, undergraduate, and graduate degrees. Academic programs are conducted through the Colleges of Arts and Sciences, Business Administration, and Education and Human Services, and through the School of Nursing.

More information on Clarion University of Pennsylvania is available at:

Clarion University is building a diverse academic community and encourages people of color, women, veterans, and persons with disabilities to apply. AA/EOE.
DEPARTMENT OF COMPUTER INFORMATION SYSTEMS
FACULTY POSITIONS

The Department of Computer Information Systems is seeking applicants for two tenure-track positions at the assistant/associate professor level, starting date August 1, 2001, or earlier.

Candidates should have a doctorate in CIS/ MIS or Computer Science and teaching experience. In depth knowledge is required in two of the following areas: Visual Basic, C++, Java, Internet/intranets, telecommunications, networking, databases, and microcomputer software/applications. Preference will be given to candidates with a demonstrated record of continuing publication in refereed journals.

Faculty members in the CIS Department are expected to teach undergraduate courses to students who have a major concentration or minor concentration in computer information systems, students who are pursuing a Bachelor of Science in Information Technology, students who have CIS as a concentration in their MBA program, and students who are pursuing a Master of Science in Information Systems. In addition to teaching, faculty members are expected to provide community service and to publish in accordance with current AACSB standards.

Bryant College, a student-centered College, is AACSB accredited at both the graduate and undergraduate level and enrolls approximately 3000 undergraduate and graduate students. The College offers a Bachelor of Science in Business Administration, a Bachelor of Arts in Liberal Studies, a Master of Business Administration, a Master of Science in Taxation, and a Master of Science in Accounting. New programs include a Bachelor of Science in Information Technology and Master of Science in Information Systems. Bryant College is in Smithfield, RI, located 15 minutes from Providence and 1.5 hours from Boston.

Letters of interest indicating position applied for, a curriculum vitae, and two references should be sent to the Human Resources, HRI 09217-1284 by December 31. Inquiries should be made to Hal Records, CIS Department Chair Resources Office-C, Bryant College, 1150 Douglas Pike, Smithfield at hrecords@bryant.edu.

Salary and benefits are AACSB competitive.

Bryant College is an Equal Employment Opportunity/Affirmative Action Employer, and an institution committed to diversifying its faculty; and women and minority are strongly encouraged to apply.

DIRECTOR OF INSTITUTIONAL RESEARCH

California State University, Sacramento is seeking a Director of Institutional Research, effective March 2001. The director, under the supervision of the Associate Vice President for Academic Affairs (Budget and Planning) provides effective management and visionary leadership in the Office of Institutional Research. To this end, the primary responsibilities of the Director of Institutional Research are to develop and maintain information systems that provide accurate and reliable information to fulfill external mandates and internal needs; administer and analyze comprehensive surveys; collect and communicate key performance indicators; provide critical support for strategic planning by preparing reports based on survey and other performance data; maintain an institutional web-based portfolio; provide and encourage access to information and analysis that promotes effective institutional decision making; and perform and supervise special research studies.

Candidates must possess the ability to communicate complex information clearly to administrators, faculty, staff and students; experience in working with large data bases and complex information systems; excellent analytical skills; demonstrated ability to manage staff in a complex, multi-task environment; expert knowledge of basic desktop word processing, spreadsheet, database and presentation software; understanding of the role of the web in managing and communicating information; knowledge of trends and issues in assessment and planning in higher education; and demonstrated ability to work with faculty, students, and staff in a shared governance model with a culturally diverse populace. Candidates must also possess an advanced degree (doctorate preferred) in a field requiring expertise in social science and/ or educational research and the application of advanced statistics; progressively responsible experience in institutional research in a complex university environment; recent management experience at a university; a record of completed research projects; and documented success as an innovator and creative problem solver.

This is a full-time position defined in the Management Personnel Plan of the California State University.

Candidates must submit to the Office of Academic Affairs, Box 9002, California State University, Sacramento, CA 95819-6016, the following: a letter of application, current resume, and the names, addresses, and telephone numbers of at least three references (not all from the same institution). The letter of application should address the applicant's qualifications with specific reference to the required skills, knowledge, and abilities listed above.

Priority review of applications will begin November 27, 2000.

CSUS is an Affirmative Action/Equal Opportunity Employer.

Roanoke College

The Department of Sociology invites applications for the position of Chair of the Department at the Associate or Full Professor level to begin August 2001. Candidates should have a strong commitment to and experience with liberal arts education in a small college setting, to excellence in teaching, to a program of scholarship, and have demonstrated administrative ability. The position involves teaching two courses per semester and a course in the May Term every third year; teaching areas are open. In addition to the Chair, the Department consists of five full-time faculty, several part-time faculty, and a teaching associate. Roanoke College (www.roanoke.edu) is a coeducational, liberal arts college, affiliated with the Lutheran Church, with approximately 1700 students. The College is located in a community of 250,000 surrounded by the Blue Ridge Mountains in Southwestern Virginia. Applicants should submit a letter of interest, curriculum vitae, statements of teaching and research interests, and three letters of recommendation to: Dr. Ronda Carpenter; Chair of Search Committee; Sociology Department; Roanoke College; 221 College Lane; Salem, VA 24153; or FAX 540-375-2653. The deadline for applications is December 31, 2000.

Roanoke College is an Equal Opportunity Employer with a strong commitment to diversity.
2001 – 2002 Tenure Track Faculty & Full-Time Lecturers

CAL STATE FULLERTON is seeking dynamic faculty who are committed to providing students an exceptional educational experience through a variety of teaching/learning modalities which include classroom, experiential, and technology-assisted strategies.

CAL STATE FULLERTON faculty enjoy a number of advantages associated with working at an excellent comprehensive regional university including a collegial work environment; extensive faculty development programs; state-of-the-art technology; generous benefits package; educational fee waiver program for spouses and dependents; diverse student body and community; attractive Southern California coastal location and campus facilities; and access to numerous educational, cultural, athletic programs and activities.

Tenure track appointments are usually made at the rank of Assistant or Associate Professor, certain disciplines may appoint at a higher rank, and the doctorate is required by August 2001, unless otherwise noted. Metereology/Physics
Tenure Track - Fall 2001
WESTERN CONNECTICUT STATE UNIVERSITY

The Department of Physics, Astronomy and Meteorology is seeking applications from qualified individuals to fill a tenure-track faculty position in meteorology or physics. The appointment is a tenure-track position and is expected to be made at the Assistant Professor level. Candidates should have a Ph.D. (ABD candidates will also be considered) in either meteorology, atmospheric science, physics, or a closely related field. The successful candidate will be expected to teach undergraduate and graduate courses in meteorology/atmospheric science and physics, develop a strong research program, and advise students. The department, which includes the Center for Galactic Astronomy (CIGA) and the University Weather Center, currently consists of a physicist, an atmospheric scientist and a geophysical fluid dynamist (all full time), and two adjunct faculty. Special consideration will be given to candidates who have a demonstrated ability to help foster the development of the physics curriculum and laboratories, as well as teach undergraduate courses in physical oceanography, earth science, meteorological instrumentation, and electronics.

Application materials must include: (1) a cover letter, (2) current curriculum vitae (CV), (3) a statement of teaching goals and philosophy, (4) a statement of research interests, (5) samples of recent research work, and (6) the names of three professional references. Application review will begin on 15 January, 2001, and continue until the position is filled. All application materials must be received by 15 January, 2001, deadline for the application to receive consideration in the first round of screening. All application materials should be addressed to: Prof. Dennis W. Dawson, Chairperson, Department of Physics, Astronomy and Meteorology, Western Connecticut State University, 181 White Street, Danbury, CT 06810.

WCSU is an AA/EO/Educator/Employer.
DIRECTOR
Cornell United Religious Work (CURW)

Cornell University invites applications and nominations for the position of Director of Cornell United Religious Work (CURW). The first interfaith program on a major American campus, CURW is currently comprised of twenty-two affiliated religious communities. CURW offers programs of worship, study, and social events, as well as opportunities for students to engage in interfaith dialogue.

Responsibilities: Oversight and coordination of the religious ministries, supervision of a core staff, development of campus religious programs and lecture series, liturgical and preaching responsibilities in Sage Chapel and elsewhere, pastoral counseling and liaison with academic units, boards, and committees. May also officiate at funerals and weddings.

Qualifications: Candidates must have outstanding communication skills, a commitment to promoting inter-faith communication, cooperation, and collaboration, and a nonjudgmental acceptance of the existence of a wide spectrum of religious beliefs in CURW. A master's or doctoral degree in theology, divinity or an equivalent field and at least five years experience of demonstrated leadership in a faith and/or religious community is required. Scholarly interest and administrative experience in an institution of higher education are preferred. This position is open to qualified candidates of any faith background.

Applications: Review of applications begins immediately and will continue until the position is filled. Please send a cover letter, resume, and the names of four references to:
Ms. Sherry Karaim, Cornell University 401 Willard Straight Hall, Ithaca, NY 14853 (or sak@cornell.edu)

SOCIAL STUDIES
IN EARLY CHILDHOOD/ELEMENTARY EDUCATION

The Department of Teaching and Learning at Peabody College of Vanderbilt University is currently seeking candidates for the position of Assistant Professor of the Practice of Social Studies in Early Childhood/Elementary Education. The position will be a three-year, renewable appointment, beginning September 1, 2001. Candidates must have an earned doctoral degree in Social Studies Education, Early Childhood Education, Elementary Education, or a related field with experience in applying pedagogical knowledge in Pre-K-Grade 8 settings. The successful applicant will be expected to: 1) be a lead scholar in the education of future teachers of social studies at the early childhood and elementary levels; 2) teach courses in social studies education; 3) organize and coordinate field experiences that focus on schools, families, and communities; 4) advise students; 5) serve on committees; and 6) engage in community outreach.

Candidates must demonstrate excellence in scholarship and teaching. Salary and fringe benefits are competitive. Review of applications begins December 15, 2000, and will continue until the position is filled. Applicants should send a letter of interest and curriculum vita, and request three letters of reference be sent to: Professor Ann M. Neely, Search Committee Chair; Department of Teaching and Learning, Box 316, Peabody College; Vanderbilt University; Nashville, TN 37203. E-Mail: ann.m.neely@vanderbilt.edu

Prospective applicants are encouraged to visit the Peabody College of Vanderbilt University website at http://www.peabody.vanderbilt.edu/peabody/

Affirmative Action/Equal Opportunity Employer: Minorities and women are encouraged to apply.

For consideration on any of the above positions please send full dossier - including letter of candidacy, CV, official graduate transcript, teaching philosophy, three letters of reference, evidence or teaching excellence and research interest, by December 1, 2000 to Prof. C. Di Spilio, Chair Department of Romance Languages, Hunter College, 695 Park Avenue, New York, NY 10021.

HUNTER CITY UNIVERSITY OF NEW YORK

Equal opportunity/affirmative action employer. Women, minorities, disabled persons, and veterans are encouraged to apply.

M. METROPOLITAN
COMMUNITY COLLEGE

PRESIDENT
Metropolitan Community College
Omaha, Nebraska

The Board of Governors at Metropolitan Community College invites nominations and applications for the position of President. The President is the chief executive officer and reports to an elected 11-member Board of Governors. Candidates should have a proven record of executive leadership experience, preferably at a community college, and must have a master's degree, preferably an earned doctorate or terminal degree from an accredited institution.

Candidates should submit a letter of application (maximum 5 pages) that includes how their background has prepared them to succeed as the new president; a resume; and the names, addresses and telephone numbers of eight references (two supervisors, two subordinates, two faculty members and two community members).

Applications are requested by Nov. 30, 2000, and will be reviewed immediately upon receipt. Position remains open until filled. Candidates should be available for employment in early 2001.

Send applications to: Joe Conte, Search Consultant, 683 Lily Street, Palm Springs, CA 92262, Tel: 760/864/9939, Fax: 760/864/8979, Cell: 954/684/5078, E-mail: jconte@ix.netcom.com

Metropolitan Community College is an affirmative action/equal opportunity employer which actively seeks to diversify its workforce.
The UNIVERSITY OF

TOLEDO

Position Announcement:
The University of Toledo President

The Board of Trustees of The University of Toledo invites nominations and applications for the position of President.

Founded in 1872, The University of Toledo is one of 13 state universities in Ohio. It enrolls over 19,000 students and offers more than 200 programs of study in eight colleges: Arts and Sciences, Business, Education, Engineering, Health and Human Services, Law, Pharmacy and University College. The University provides an inclusive range of degrees from associate to doctoral with a focus on service to its urban community.

The University serves its students on six campus locations: the 255-acre main campus; the Center for the Visual Arts, which was designed by Frank Gehry and is adjacent to the nationally renowned Toledo Museum of Art; the downtown Seagate campus; the extensive outreach and teaching center for University College on the historic, original campus at Scott Park; the R.A. Stranahan Arboretum and The Lake Erie Research Center located in Maumee Bay State Park. All facilities are outstanding. The main campus is particularly attractive, with lannon and limestone buildings in Collegiate Gothic style and grounds that have been rated among the most beautifully-landscaped in the nation.

With a commitment to growth in research, increased quality in the academic experience of undergraduates and greater service to its non-traditional students, The University of Toledo seeks an experienced, optimistic leader who can empower others to realize the full potential of the University. More specifically, the University seeks a person of integrity, demonstrated ability in strategic planning, student recruitment and retention, institutional management and resource building, and proven ability as an effective advocate. The University wishes its new President to forge strong relationships both on campus and off, to encourage diversity, to have the ability to work with all campus constituencies, including faculty and staff unions, and with city leaders to build support for The University of Toledo with the State of Ohio.

With a highly competitive compensation package, the position is available in June 2001. Dr. Elaine H. Hairston and Dr. Allan W. Ostar of Academic Search Consultation Service are assisting the University with this search. Inquiries may be directed to: Elaine H. Hairston, Phone: 740-964-0959; Fax: 740-964-0936; E-mail: eh@academic-search.org or Allan W. Ostar, Phone: 202-263-7475; Fax: 202-234-7640; E-mail: awo@academic-search.org.

Nominations and applications may be directed to:

Joan Uhl Browne, Chair
Presidential Search Committee
Academic Search Consultation Service
1717 K Street, NW, Suite 210
Washington, DC 20008

Additional information about the search and the University is available at www.utoledo.edu. For most complete consideration, materials should be received by December 8, 2000, and should include a letter describing how the candidate’s experience relates to the characteristics desired by the University. In addition, the names and contact information for five references should be included.

Although every effort will be made to treat all candidates confidentially, Ohio is an open records state, so full confidentiality cannot be guaranteed. Informal preliminary inquiries are invited.

The University of Toledo is an Equal Access, Equal Opportunity Affirmative Action Employer and Educator.
William Paterson University is a comprehensive public institution of higher learning, committed to promoting student success, academic excellence, and community outreach with opportunities for lifelong learning. Members of the faculty are highly distinguished and diverse teachers and scholars, many of whom are recipients of prestigious awards and grants from the Fulbright Council (24 scholars), the Guggenheim Foundation, the National Endowment for the Humanities, the National Institutes of Health, the National Science Foundation and the American Philosophical Society. Featuring nationally renowned academic programs, the University maintains a low student: faculty ratio (12:1) and small class size (21) for its 29 undergraduate and 18 graduate degree programs, supported by state-of-the-art information and communications technology. The University enrolls 10,000 students from across the country and from over 40 foreign nations. William Paterson University is situated on a beautiful suburban campus in Wayne, New Jersey, twenty miles west of New York City.

**Director, Office of Minority Education**

The University is seeking an energetic and innovative individual who can provide effective leadership in the development and implementation of campus-wide programs and initiatives to enhance the recruitment, retention and academic achievement of minority students. The Director reports directly to the Associate Vice President for Diversity and Minority Affairs, and works closely with the University community, particularly academic departments and other administrative units, to help promote the academic success of minority students and also advance minority and diversity causes on campus. He/she supervises the staff in the Office of Minority Education.

Requirements for the position include an advanced degree from an accredited institution and a minimum of five years of successful administrative experience working with undergraduate populations and diverse constituencies in higher education; demonstrated grant writing and academic support programming experience related to minority student recruitment and retention; successful personnel guidance and counseling experience; and evidence of excellent interpersonal communication and organizational skills. Successful teaching experience in a college/university, and leadership in faculty-based and community-based initiatives are preferred.

This position is a twelve month administrative appointment. Salary is negotiable and commensurate with expertise and experience. The position includes a comprehensive benefits package including free tuition for dependent children after one year of full-time employment. Letters of application accompanied by a recent curriculum vitae and the names and addresses of three references should be sent to: Ms. Sydney Howse Barksdale, Associate Vice President for Diversity and Minority Affairs, Morrison Hall, William Paterson University, 360 Pompton Road, Wayne, NJ 07470. Additional information about the University can be found at [http://www.wpunj.edu](http://www.wpunj.edu). The review of applications will begin immediately upon receipt and continue until the position is filled. William Paterson University is an equal opportunity institution committed to diversity.

**LOYOLA COLLEGE IN MARYLAND**

**AUGUST A. BUSCH, JR. CHAIR IN MANAGEMENT**

The Strategic and Organizational Studies Department of the Sellinger School of Business and Management at Loyola College in Maryland invites applications and nominations for the August A. Busch, Jr., Chair in Management, beginning Fall 2001. The criteria are as follows: (1) Clearly demonstrated national reputation for expertise in management theory and practice; (2) leadership and collaborative skills in teaching, curriculum design, and research in management; (3) demonstrated skill in educating adult business and management professionals; (4) interest in teaching undergraduate students; (5) reputation in the management community for integrity and ethics; and (6) collegiality with business faculty. Preferred characteristics are as follows: (1) A record of scholarship consistent with a senior faculty appointment; (2) a record of excellence in teaching in a university setting, especially with executive students; (3) significant interest and/or experience in issues of ethics; and (4) a masters or doctorate in management or related field of business.

The successful candidate will teach annually three to four courses in seminars in the undergraduate, graduate, or executive programs. Organize conferences and a series of lectures. It is also expected that the individual will work effectively with the department's various constituencies including faculty, students, administrators, alumni, and executives and others in the business community.

The Sellinger School, an AACSB-accredited business school, has a diverse, high quality, internationally experienced and creative faculty. The school also has two Centers of Excellence - the Lemken Center for Information Systems and the Center for Closely Held Businesses dedicated to small and mid-size companies. The Sellinger School's Board of Sponsors includes representatives from several national companies. The school's undergraduate and graduate students are sought after by national and regional firms alike. The Sellinger School has state-of-the-art facilities with high-technology class and conference rooms and office space. The school has also one of the earliest Executive MBA programs in the country and aims to educate and develop future leaders for the public and private sector.

Founded in 1852 by the Jesuit Fathers, Loyola College in Maryland places a strong emphasis on undergraduate liberal arts education and a long tradition of academic excellence. Loyola is rated as one of the most-wired universities in the U.S. and ranked as one of the top comprehensive universities in the Northeast. Conveniently located in the Washington-New York corridor, Loyola offers easy access to a number of university research libraries, state and federal agencies, high technology firms, and many for-profit and not-for-profit organizations, including healthcare and financial institutions. See [http://www.loyola.edu](http://www.loyola.edu) for our profile.

Please send a letter and curriculum vitae by November 30, 2000, with four letters of reference to: Rev. Harold Ridley, S.J., President c/o Search Committee for August A. Busch, Jr., Chair in Management Loyola College in Maryland 4501 North Charles Street Baltimore, Maryland 21210

Loyola College in Maryland is an equal opportunity employer, which seeks applications from women and members of minority groups.
California State University Monterey Bay (CSUMB), is a comprehensive public university committed to serving the diverse people of California, especially the working class, historically under-served, and low income populations. The university values an educational environment of cultural and linguistic diversity and gender equity; ethical reflection and practice; effective and experimental use of technologies as resources to people and catalysts for learning; and the integration of cross-disciplinary models enabling students, faculty and staff to engage in innovative instruction and coordinated service learning. The curriculum is organized around student learning outcomes. It is global in perspective, and of sufficient breadth and depth to meet local, regional, and statewide needs, specifically those of both isolated rural communities and inner-city populations. The campus is located on Monterey Bay, 100 miles south of San Francisco.

Associate Vice President for Academic Planning and Budget
(Administrator IV, Job #MB00-APB)

The Associate VP for Academic Planning and Budget reports to the Provost/Vice President for Academic Affairs. The incumbent is responsible primarily for providing leadership, coordination, and management for academic and strategic planning for the academic program and infrastructure in a university that is highly diverse, rapidly growing, committed to working with students from underserved populations, and dedicated to innovation and collaboration. Integrated with strategic planning, this position is responsible for coordinating both annual and long-term budget planning for the Academic Affairs Division. The person in this role also manages and assists the on-going review of degree and support programs within the division.

Minimum Qualifications: Earned Doctorate, or other appropriate terminal degree or equivalent from an accredited institution
Salary Range: $95,000 - $100,000.

Institute for Teledratic Arts and Technology
Assistant or Associate Professor, Tenure-Track Position
(#MBTATP-0008)

The Institute for Teledratic Arts and Technology (TAT), one of the academic institutes within the Center for Science, Technology, and Information Resources, seeks an Associate Professor, effective August 2001. Responsibilities to include: organizing, designing, and teaching undergraduate and developing graduate level curriculum in new media production (multimedia, CD-ROM, DVD, web streaming media, broadband applications), animation, and/or digital storytelling; participating in development of an interdisciplinary teledratic program; participating in development of an outcomes-based approach to curriculum design and student capstone learning experiences; advising students, and serving on university committees.

Minimum Qualifications: Earned Doctorate, or other appropriate terminal degree or equivalent work experience.
Salary Range: $40,488 to $56,040

Institute for Communications Science and Technology
Assistant or Associate Professor, Tenure-Track Position
(#MBCSTP-0009)

The Institute for Communications Science and Technology (CST), one of the academic institutes within the Center for Science, Technology, and Information Resources, invites applications for a tenure-track Assistant or Associate Professor of Digital Interactive Multimedia Design, effective August 2001. Responsibilities to include: designing, developing, and delivering of undergraduate curricula including interactive multimedia design and production; advising students; serving on institute and university committees; participating in the development of this interdisciplinary program, and in the development of an outcomes-based approach to curriculum design and student capstone learning experiences; exploring innovative pedagogical approaches; participating in service based learning; participating in the development of entrepreneurial activities and grants; and implementing the unique vision of the University.

Minimum Qualifications: Earned Doctorate, or other appropriate terminal degree or equivalent work experience.
Salary Range: $40,488 to $64,512

Institute for Communications Science and Technology
Multi-Year Lecturer Position
(#MBCSTL-0010)

CSU Monterey Bay is an Equal Opportunity Employer
Dean of Graduate Studies

SUNY Empire State College invites applications and nominations for the position of Dean of Graduate Studies. Founded in 1971, ESC is a recognized leader in designing and delivering innovative programs that meet the needs of more than 10,000 students each year. These students, mostly working adults, enroll in associate, baccalaureate and master’s programs through instructional locations across New York State and at several international sites, as well as at a distance.

ESC offers five master's degrees: the MA in social policy, business and policy studies, labor and policy studies and liberal studies, and a unique, competency-based MBA. The College is in the early stage of developing additional graduate programs. Working with faculty mentors, students earn graduate degrees through weekend residencies, distance learning, and individual and group studies that integrate various educational technologies. Graduate Studies serves over 300 students, has eight full-time faculty and three professional staff and also draws on faculty from across the College. The graduate program is a focal point for program development and growth within the College.

Graduate students in the MBA program participate in on-line courses, supported by residencies. Faculty and students involved in the more individualized MA programs also have groupware and other electronic forms of support available on ESC's internal network. There is significant potential for further development of on-line learner supports to complement those already available to our students on the WWW. ESC's software platform for program development and delivery on the WWW is LotusNotes/Domino, and the College's professional staff offer technical and instructional design support.

The Dean reports to the Vice President for Academic Affairs, and is responsible for the high quality of the academic program; new program initiatives; academic policies and procedures; faculty development and evaluation; student services; enrollment and budget management; and effective leadership within an academic community that values shared governance. The Dean participates in the planning and administration of the College as a member of the President's Council.

Candidates should have a background of significant college-level teaching, administrative and program development experience, and appropriate credentials, including an earned doctorate. Preference will be given to candidates who demonstrate familiarity with graduate education, education of adult learners, interdisciplinary programs, learning technologies, distance education and innovative program delivery. Salary and benefits are competitive.

For additional information, please visit the College's web site (www.esc.edu).

The Search committee will begin review of applications on December 8, 2000. The anticipated appointment date is April 1, 2001 or after. Please send letter of application and resume to:

Graduate Dean Search Committee
Office of the Vice President for Academic Affairs
SUNY/Empire State College
One Union Avenue
Saratoga Springs, NY 12866

Empire State College is an equal opportunity employer and encourages the nomination and candidacy of women and persons of color.

Goucher College invites nominations and applications in a presidential search. President Judy Mowbray has assumed the leadership of the Virginia Piper Charitable Trust following an extremely successful term as president of Goucher. The appointment of the College's 10th president will begin July 1, 2001.

Founded in 1885, Goucher College is a highly selective private, coeducational college of liberal arts and sciences, enrolling about 1,200 undergraduates and 500 students in graduate and continuing studies programs. The college is financially secure with an endowment of approximately $150 million. Set on a beautiful and well-maintained campus in suburban Baltimore, about an hour from Washington D.C., the College offers undergraduate majors that are disciplinary, interdisciplinary, or student-designed, coupled with internships, study abroad and service learning programs. Students are recruited nationally and internationally to Goucher's challenging academic programs, which are especially strong in creative writing, the sciences and dance. Goucher offers a post-Baccalaureate pre-medical program and masters programs in education, arts administration, creative non-fiction and historic preservation, as well as professional certificate programs. The College is part of the Baltimore City College Network - a active consortium of 12 private and public institutions in the Baltimore area.

The new president should have proven accomplishments that earn the respect of the academic community, significant leadership experience, a deep commitment to liberal arts education, and the ability to articulate a compelling vision for the College.

Nominations and applications are invited. Review of candidates will begin immediately; for fullest consideration, materials should be received by December 1. Confidentiality will be maintained until finalists have been named, and references will not be contacted until candidates have been notified. Candidate materials, including a letter describing interest in and qualifications for the position, and the names and phone numbers of five references, should be sent to the College's search consultants,

Dr. Jean Dowdall and Dr. Jan Greenwood
A.T.Kearney Executive Search
333 John Carlyle Street
Alexandria VA 22314

Communication and submission of materials by email at MS Word attachments is encouraged; send materials to elizabeth.morseley@akearney.com. For more information, our consultants can also be contacted by phone at (757) 437-3006, or by fax at (520) 395-1510. Additional information about the institution and the position is available on the web at:

www.goucher.edu/PresSearch.

William Paterson University is situated on a beautiful suburban campus in Wayne, New Jersey, twenty miles west of New York City.

**Director of Instruction and Research Technology**

The Director of Instruction and Research Technology provides vision, leadership and management in support of the use of information technology in teaching and research for more than 300 full-time faculty in the five Colleges of the University (Arts and Communication, Business, Education, Humanities and Social Sciences, Science and Health). Reporting to the Associate Vice President for Library Services and Information Technology, the Director works with the academic community to enhance curricular and research activities through the use of information technology. Responsibilities include management of public access computing facilities; training programs for faculty; oversight and administration of the unit budget; and preparation of related grant proposals and other documents. The four functionally defined departments in the unit are: Student Technology Consultant program (STC), Instructional Design, Media Services, and Video Communications (satellite up/downlinks, and broadcast, cable, and interactive facilities to support video and teleconferencing). The Director advises administrative leaders of developments and trends in the application of information technology teaching and learning, as well as serving as a member of the IT Management Team.

Requirements include at least five years related professional experience in higher education with experience working directly with faculty in adopting information technology in the learning process. Experience as a teaching faculty member is preferred, and a doctorate in an academic discipline is required. Evidence of a strong user-service orientation, excellent written, oral, and interpersonal skills is required. Experience with use of Web application (such as Blackboard or WebCT) is preferred.

Salary is negotiable and commensurate with expertise and experience. The position includes a comprehensive benefits package including full tuition for dependent children after one year of full-time employment. Letters of application accompanied by a recent curriculum vitae and the names and addresses of three references should be sent to: Dr. John D. Gaboury, Associate Vice President for Library Services and Information Technology, Drawer HO, William Paterson University, 30 Pompton Road, Wayne, NJ 07470. Additional information about the University can be found at http://www.wpunj.edu. The review of applications will begin immediately upon receipt and continue until the position is filled. William Paterson University is an Affirmative Action/Equal Opportunity institution.

**FACULTY POSITIONS**

**Gallatin School of Individualized Study**

The Gallatin School of Individualized Study at New York University invites applications from outstanding teacher/scholars for two appointments beginning September 1, 2001, pending administrative and budgetary approval. Gallatin offers the BA and MA in individualized study: student-centered, interactive advisement and mentoring, experiential learning and student-centered teaching. Our courses bridge debates from the great books tradition with current scholarship, contemporary issues and alternative views.

**COMMUNITY LEARNING**

Gallatin seeks an experienced teacher/scholar with a record of excellence in learning formats that link the classroom and the community: experiential education, internships, action research, service-learning, field study. This new faculty member will: create and teach courses that connect theoretical inquiry with first-hand activity in community settings; consult with other faculty members who want to integrate experiential components into their courses; develop effective partnerships between Gallatin and various community-based organizations; help to administer and raise funds for community learning initiatives. The successful candidate may have (inter)disciplinary or professional training in: sociology, anthropology, psychology, history, urban studies, urban planning, community studies, community organizing, etc.; s/he must also have significant experience in community-based learning programs, preferably based in colleges or universities, as well as in college-level teaching. Rank is open.

**CLASSICS**

Gallatin seeks an experienced teacher/scholar whose interest in classical Greek culture includes a comparative background in the ancient Mediterranean world. Other related areas could include Mesopotamian, Hebrew, or Egyptian civilizations, Hellenistic or Roman cultures, or early Christian movements. We seek someone who teaches texts and artifacts in a cultural and historical context, and also comparatively, through multiple cultural influences. The candidate needs to guide students in reading texts in a complex and critical way, against the grain of canonization, in relation to current arguments about culture, gender, and politics. An ideal candidate loves teaching, takes interdisciplinary approaches to teaching and research, and is willing to engage in intensive individual mentoring of students. Rank is open.

**Qualifications:** Ph.D. or equivalent; commitment to non-traditional education, especially advising and mentoring; excellent teaching skills; ability to develop innovative courses and projects; high-quality scholarship.

Send letter of application and c.v. only to: Chair, Faculty Search Committee, Gallatin School of Individualized Study, New York University, 715 Broadway, New York NY 10031. Review of applications began on November 1. The Gallatin School is strongly committed to building a diverse community among our faculty, staff and students. Gallatin's website can be found at: www.nyu.edu/gallatin.

**NYU is an Equal Opportunity/Affirmative Action Employer.**
FACULTY OPENINGS

Loyola College in Maryland is pleased to announce the opening of the following searches for the 2001-2002 academic year. All positions are tenure-track unless otherwise noted.

ASSISTANT PROFESSOR IN AMERICAN LITERATURE

Position specializes in American Literature before World War One. Candidates should have teaching experience, dissertation, and publication interest in the field. Secondary interests in women's literature and minority literature are desired. Faculty responsibilities include teaching three classes each semester, with no composition. Salary is competitive.

Send letter of application and vita to Dr. Paul Lukacs, Department of English.

ASSISTANT PROFESSOR OF SPANISH

Specialist in Latino Literature in the U.S. Required to teach Spanish language and literature courses at all levels. Ph.D. in hand. Must be able to teach either Italian or French at the elementary and intermediate levels. Strong research potential and dedication to service. Ability to teach Spanish for Business.

Send c.v. and complete dossier by November 30, 2000 to Chair, Search Committee, Department of Modern Languages and Literatures.

ASSISTANT PROFESSOR OF MATH

Two positions available. Candidates should be recent Ph.D.'s in theoretical or applied mathematics. For one position, preferential areas are discrete mathematics, algebra, or allied areas, especially coding theory and cryptography. For the other position we seek expertise in numerical analysis, differential equations, dynamical systems, mathematical finance, or related areas. Experience with innovative teaching techniques, including technology, is a plus. Our homepage, www.loyola.edu/mathsci provides more information.

Submit resume, statement of research objectives, outline of teaching philosophy, and three letters of reference (at least one of which addresses the applicant's teaching ability) to Dr. Christopher Morrell, Chair, Department of Mathematical Sciences.

ASSISTANT PROFESSOR OF DRAMA

Qualified applicants should have a Ph.D. or D.M.A., although exceptional M.F.A. candidates with professional experience will be considered. Teaching experience, a strong background in acting, and an interest in directing are required. Candidates must also demonstrate potential as scholars and/or performers. Position will mentor students, develop drama program within the Fine Arts Department, and direct one mainstage production per year.

Send resume, cover letter, official transcript(s), dossiers, and supporting materials to Dr. Janet Headley, Chair, Fine Arts Department.

Loyola College is a Jesuit Catholic university offering undergraduate and graduate degree programs in two academic divisions: the College of Arts and Sciences and the Sellinger School of Business and Management. Enrolling 6000 students, Loyola has been ranked among the top 10 comprehensive universities in the North by US News and World Report for the past seven years.

Loyola College welcomes applicants from all backgrounds who can contribute to our unique educational mission. Loyola is an equal opportunity employer which seeks applications from a broad spectrum of candidates including women, members of minority groups, and people with disabilities.

AA/EEO. Excellent benefits and compensation.
DIRECTOR
CENTER FOR WORKFORCE ADVANCEMENT

SUNY Empire State College, a national leader in individualized and online education for mid-career adults, seeks an experienced and highly organized professional to direct its noncredit, contract training/workforce development services. This position is located in the nationally famous, but affordable, upstate resort community of Saratoga Springs, NY.

This position requires an individual with both a sense of vision and the ability to oversee the operations of a core staff of eight, and the activities of up to 150 occasional training associates. The Director will oversee an expanding program of 250 online training courses and lead in positioning the College as the premier provider of online training in the State University of New York. The Director will be a strategic planner, a marketer with an eye for new audience identification and development, an entrepreneur to spot new opportunities, and a leader who can confidently represent ESC and all its programs to corporate, governmental and educational clients.

Bachelor’s degree is required with five or more years of experience in designing and delivering educational outreach/workforce development programs. Experience in the design, delivery and marketing of online courses is a strong plus. Superior writing and applied computer skills are essential. Exemplary interpersonal skills are needed to work collaboratively with staff, clients and with the deans of the College’s regional centers throughout New York State. Salary and benefits are competitive.

The search committee begins review on November 27, 2000 and accepts applications until position is filled. Candidates are welcome to write or e-mail for a full job description. Letter and resume to: Dr. Hugh B. Hammett, Vice President for External Affairs, SUNY Empire State College, One Union Avenue, Saratoga Springs NY 12866. E-mail: hugh.hammett@esc.edu. AA/EOE

Empire State College
State University of New York

Modern Language Association
Annual Convention • 27–30 December 2000

- more than 800 sessions, events, and receptions
- a job information center for applicants and interviewers
- over 150 exhibits of books and educational products
- hotel rooms at less than half the regular rate
- special discounts on American Airlines
- register for the convention and reserve hotel rooms through the MLA Web site (www.mla.org)

Register for the convention and make hotel reservations through the MLA’s Web site

WILLIAMS COLLEGE

U.S. LATINO/A HISTORY

Williams College invites applications for a full-time, tenure-track appointment as an assistant professor in U.S. Latino/a history, beginning in fall of 2001. A senior appointment is possible in exceptional circumstances.

There is no preference with respect to subfields, but the ability to teach courses encompassing the diversity of the U.S. Latino/a population and its historical experiences is desirable.

Candidates should have received, or should expect to receive, their Ph.D. by September 2001. Please submit a letter of application, c.v., placement dossier, and a description of suggested courses by December 1, 2000 to:

William G. Wagner, Chair
Department of History
Williams College
Williamstown, MA 01267

Williams College is a coeducational liberal arts institution, offering undergraduate education to its 2,000 students. The college has built its reputation on a long tradition of outstanding teaching and scholarship and on the academic excellence of its students. Among the opportunities that Williams offers its students and approximately 260 faculty members are interdisciplinary programs and centers, including the Multicultural Center, the Oakley Center for the Humanities and Social Sciences, and the Center for Environmental Studies as well as extensive library and museum collections, a center for information technology, and well-equipped laboratories. See also Williams College website (http://www.williams.edu).

An Affirmative Action/Equal Opportunity Employer, Williams College especially welcomes applications from women and minority candidates.

SUNY
Cortland

State University of New York College at Cortland

PROVOST AND VICE PRESIDENT
FOR ACADEMIC AFFAIRS

The State University of New York College at Cortland invites inquiries, nominations, and applications for the position of Provost and Vice President for Academic Affairs. The Provost is the Chief Academic Officer of the College and reports to the President. The College has a School of Arts and Sciences and a School of Professional Studies, both of which are headed by an academic dean who reports to the Provost. Other areas of responsibility include Enrollment Management, Information Resources, Institutional Research and Assessment, Sponsored Programs, and Graduate Studies and Outreach.

One of 13 Arts and Sciences colleges in the State University of New York system, SUNY Cortland emphasizes undergraduate programs in the arts and sciences and the education of teachers. The College enrolls about 7,200 students.

The College is situated in the beautiful Finger Lakes region of New York with affordable housing, excellent public schools, and higher education partners Cornell, Syracuse, and Binghamton nearby.

Candidates for the position must have an earned doctorate or its equivalent and a record of progressively responsible administrative experience, and must present evidence of distinguished teaching and scholarly achievement. Academic rank is possible. Review of application materials will begin December 8 and will continue until the position is filled. Targeted date of appointment is July 1, 2001 or sooner.

Send letter of application, curriculum vitae, and names, addresses, and telephone numbers of references to:

Dr. Patricia Francis, Executive Assistant to the President
SUNY Cortland, P.O. Box 2000
Cortland, NY 13045

SUNY Cortland is an AA/EOE/ADA Employer

Baltazar Mendoza: Success Story

Baltazar Mendoza, born into poverty in rural Mexico, today is a student at The John Marshall Law School in Chicago building a successful career as an attorney. Baltazar’s determination, strong work ethic and family support are helping him succeed. John Marshall’s valued faculty and staff have helped nurture his love for learning. The law school’s student organizations and an Hispanic support network have enabled Baltazar to become a leader.

The John Marshall Law School welcomes Hispanic applicants with the same dreams and determination as Baltazar. Contact the Admission Office at 1.800.537.4280.
SCHOOLS AND THE FAILURE OF THE AMERICAN DREAM

Please take a few seconds and think of the food you’ve eaten today. Then take a few more to think about the farmworkers whose hard labor made it possible for all of us to have plates full of fruits and vegetables. Farmworkers struggle to produce the food we eat, and they struggle for a better life for themselves and their children.

We are told that hard work and discipline will bring us the margin of stability and prosperity we call the American Dream. Can we honestly say this is true for most farmworkers? If you answer yes, I ask you, where are they? Are they sitting with you and the rest of us enjoying a piece of the American pie?

For five years now, working with farmworkers, mostly Mexican and Mexican American, around Tampa Bay, I have seen how they strive. Unfortunately, these workers not only encounter hardship in the field, they struggle constantly against institutional obstacles in the schools their children attend, the agencies they must deal with, and the consequences of just being perceived as foreigners.

People of Mexican ancestry, who are 64 percent of all Hispanics in the U.S., show the lowest educational attainment and are least likely to be in professional/managerial positions. Many are clustered in agricultural occupations: last year, 46 percent of farmworkers and 68.2 percent of graders and sorters of agricultural products were Hispanic, reports the Bureau of Labor Statistics.

What has happened? Why are large segments of the Hispanic population left out of the Dream? Why are schools, those “engines of class mobility,” not living up to their mandate of equal education for all? As a rule, schools are not friendly institutions for these students, nor for their parents, who are often called only when their children are in trouble.

Mexican farmworkers go to schools—when they can get time off from the fields—to try to defend their children and, more painfully, themselves. If their children are having problems at school, problems at home are often assumed—drinking, lack of parental supervision, and lack of academic encouragement are often cited by schools. But to pretend that

**The MODERN LANGUAGE ASSOCIATION of America**

**THREE REASONS YOU SHOULD JOIN THE MLA**

1. **You can become part of communities that share your research and professional interests.** You'll have the chance to join divisions and discussion groups that focus on your specialties and to participate in and plan convention sessions. Some divisions focus on interdisciplinary and comparative studies, genres, teaching, and on specific areas of Hispanic literature:

   - Latin American Literature from Independence to 1900
   - 20th-Century Latin American Literature
   - Spanish Medieval Language and Literature
   - 16th- and 17th-Century Spanish Poetry and Prose
   - 16th- and 17th-Century Spanish Drama
   - 18th- and 19th-Century Spanish Literature
   - 20th-Century Spanish Literature
   - Luso-Brazilian Language and Literature
   - Literature of Colonial Spanish Americas

   In addition, members may join discussion groups in related fields: Chicana and Chicanismo Literature, Literatures of the United States in Languages Other Than English, and Puerto Rican Literature and Culture.

2. **You can strengthen activities that demonstrate the important work done by language and literature teachers—activities like the awarding of prizes honoring teaching and scholarship; the sponsorship of What's the Word?, a public-radio program designed to enhance understanding of the value of studying language and literature; the development of distinguished publications in language teaching and texts in their original languages.**

3. **You can add your voice to those of other MLA members in helping to set standards within the field on subjects like class size and workload, the use of part-time and full-time adjunct faculty members, professional ethics, and the use of outside reviewers.**

**TWO REASONS YOU SHOULD JOIN THE MLA NOW**

1. **As a new member you'll receive the special millennium issue of PMLA, comprising perspectives on the past and the future, archival documents, and essays on changes in the field.**

2. **You'll enjoy members' registration rates for both the 2000 convention in Washington, DC, and the 2001 convention in New Orleans.**

**MEMBERS RECEIVE**

- 6 issues of PMLA
- 4 issues of the MLA Newsletter
- a copy of Profession
- reduced registration fees at the MLA convention
- membership in up to 4 divisions and discussion groups
- 20% discount on more than 200 MLA books and pamphlets

---

**Please enroll me as a 2001 MLA member**

- New nonstudent member $35
- Student member $20

Student applications cannot be processed without complete institutional address.

**Please reinstate my membership**

- Income under $15,000 $25
- Income $15,000–$20,000 $40
- Income $20,000–$30,000 $50
- Income $30,000–$40,000 $65
- Income $40,000–$50,000 $75
- Income $50,000–$60,000 $85
- Income $60,000–$70,000 $95
- Income $70,000–$80,000. $105
- Income over $80,000 $125

**Join membership**

Add $20 to dues category of higher-income member.

**Please send me more information about MLA membership.**

¡Hola!

Para estudiantes de cualquier color que no sean beneficiarios de privilegios, educados en familias de origen, conocidas como el gentlemans C (una práctica que no está claramente definida pero que existe en la actualidad), el peso de uno's academic record, teacher recommendations, extracurricular activities, community involvement, outreach programs and, yes, affirmative action, cannot be underestimated. Recent research has shown that the Tomás Rivera Policy Institute (TRPI), a leading Latino research institute, completed the fourth of a series of studies that examine the impact of the elimination of affirmative action in the University of California medical schools, law schools, business schools, and general graduate programs. The results of TRPI's efforts offer an ominous future for minority enrollment.

TRPI found that Latinos and African Americans have been disproportionately affected by declining acceptance rates in law schools, MBA programs, and general education programs. Minority enrollment in UC law schools, for example, dropped 46 percent since 1996. Consequently, the Latino representation rate fell from 6.5 percent in 1996 to 6.7 percent in 1999. The increase in the acceptance rate at UC medical schools has compensated for the drop in applications. Latino applications declined from 2,270 in 1994 to 1,782 in 1999. Evidently, the gradual erosion of affirmative action will have long-term effects on the color of college campuses, educators, professionals, and folk in leadership positions in the future.

In our 2006 Publisher's Picks issue, we present institutions that continue to offer solid educational opportunities for Hispanic students. Also, the High School Graduates whose talents, hard work, dedication, and exemplary academic records earned them the respect and accolades of their families, teachers, and peers, HO scholarships and entrance to the college of their choice.

Next, stay tuned for a detailed look at a study on the Maya World and diversity in the workplace.

Take note, y hasta el próximo número.
College students do not burst forth like Venus from Zeus’ brow, fully formed. They come to earth as infants and struggle through childhood. Their environment and their reactions mold those who finally come to our campuses. Thus anyone interested in higher education has to be cognizant of what affects youngsters along the way.

America’s children are, on average, doing better in several respects than they have in recent years, according to the annual Federal report, “America’s Children: Key National Indicators of Well-Being.”

The Federal Interagency Forum on Child and Family Statistics’ report is a comprehensive study of such critical aspects of child well-being as family structure, economic security, health status, access to health care, behavior, social environment, and education.

Results

Infant, childhood, and adolescent death rates are down, as are teen smoking, teen crime, and teen birth rates. But the diets of children and youths are poor, and education is a mixed bag.

The decline of infant, child, and adolescent mortality is a true success story. Fewer children die during infancy, and the mortality rate for all children has continued to fall. The infant mortality rate has dropped since 1983, from 10.9 deaths to 7.2 deaths per 1,000 live births.

The drop was greatest for Black children ages one to four.

From 1996 to 1997, the death rate for Black children fell from 676 to 592 per 100,000. This rate, however, remained nearly twice that of white children, which was 316.

In 1996, the death rate for adolescents ages 15 to 19 was 78.6 deaths per 100,000. It had peaked in 1991 at 89. Among black males 15 to 19, the death rate from firearms dropped, from 120.3 per 100,000 in 1995 to 108.7 in 1996. Firearm deaths for white males 15 to 19 were much lower and also declined during the same period, from 273 to 231 per 100,000.

The birth rate for teenagers 15 to 17 dropped from 38.7 live births per 1,000 females in 1991 to 32.1 in 1997. More recently, promiscuity and early sexual experiences have dropped as well.

Although still high, smoking rates also declined among teenagers. The percentage of 10th and 12th graders who smoked daily dropped in 1998, after having gradually increased since 1992. For 10th graders, the percentage dropped from 18 percent in 1997 to 16 percent in 1998. Among 12th graders, it dropped from its recent high of 25 percent in 1997 to 22 percent in 1998. A large drop was noted in teen smoking in California where high tobacco taxes and an aggressive public health campaign seem to be working.

Diets

From 1994 through 1996, most children and adolescents had a diet that was poor or needed improvement. Older children had even poorer diets. For example, in 1996, 24 percent of children ages two to five had a good diet, and eight percent had a poor diet. The remainder had a diet that needed improvement.

For those 13 to 18, only six percent had a good diet, while 20 percent had a poor diet. The study suggests that the lower-quality diets of older children are linked to declines in their fruit and milk consumption.

Education

The report shows 12.3 percent of America’s children ages five to 17 have difficulty performing everyday activities, such as understanding schoolwork, communicating, eating, or dressing.

A higher percentage of children ages three to four was enrolled in preschool in 1997 than in 1996–48 percent, up from 45. Preschool enrollment increased most among Black, non-Hispanic children, from 45 to 55 percent.

High school completion and college completion rates have not improved. Disparities continue between Whites, Blacks, and Hispanics. High school completion rate for Blacks was 82 percent in 1997, and for Whites, 91 percent. The rate for Hispanics in 1997 was much lower–67 percent.

The percentage of those 25 to 29 who earned a bachelor’s degree or higher–31 percent–has remained relatively stable since 1996. Whites were highest, at 35 percent, while Blacks and Hispanics came in at 18 and 17 percent.

Economic Impacts

In some areas of children’s lives, economic disparities have decreased. The percentage of poverty-level children who have received the combined series of vaccines increased from 69 in 1996 to 71 in 1997. And the percentage of children living with their parents who had at least one parent working full time all year increased five percentage points to 76 from 1993 to 1997, largely from increased employment of single mothers. Moreover, preschool enrollment increased among children living in poverty, from 34 percent to 40 percent.

But significant disparities in child well-being still exist, principally along economic lines. About 19 percent of children still live in poverty, roughly the same percentage as 20 years ago.

Compared to children above the poverty level, children in poverty are more likely to have a significant disability, to live in substandard housing, to receive inadequate nutrition, and to have difficulties in school. ‘Bottom line–there are reasons to be both optimistic and wary.’

Dr. Mellander is a professor at George Mason University.
Letter from the Publisher

November 20, 2000

Dear Colleagues:

In late September, a blue ribbon panel headed by John Glenn declared that the education of all our children in math and science must be vastly improved. And that our status as a world power is at stake if that change does not come swiftly and surely.

The preparation of Hispanic children in the U.S. to gain a college education is equally imperative — for their own well-being and for the well-being of the country.

There is no safety in numbers and no lasting might in them if those numbers are unenlightened and uneducated.

It is thus a great pleasure to bring you, for the fifth year, our “Publisher’s Picks,” those colleges and universities that, in our view, attract, inspire, and empower Hispanic students, including those who by entering set a new family standard and launch a new set of dreams.

We are pleased as well to announce this year’s winners of The Hispanic Outlook Scholarship, now in its third year, and to encourage a new round of candidates. Our scholarship information for the coming year is available in this issue.

Their accomplishments, and those of other Hispanic students, scholars, faculty, schools, and activists, can be followed in our magazine and on our website, at www.hispanicoutlook.com, where we post the “People, Places, Publications & Conferences.”

We look forward to your continued readership and support as we report on the trials and triumphs of Hispanics in higher education.

Sincerely,

José López-Ilsa

... where graduate education knows no boundaries!

Busy professionals have turned to Walden University for online graduate programs for 30 years. Today, the University is a leader in distance education and many programs can be completed entirely online.

Degrees are offered in:
- Education (M.S./Ph.D.)
- Psychology (M.S./Ph.D.)
- Health Services (Ph.D.)
- Human Services (Ph.D.)
- Management (Ph.D.)

To advance your career and education, go to www.waldenu.edu today.

For further details, e-mail info@waldenu.edu or call 1-800-444-6795 and speak with an enrollment counselor.

Walden University is accredited by the North Central Association of Colleges & Schools

(T) - Top 50 Schools Graduating Hispanics
(C) - Top 50 Community Colleges Graduating Hispanics
The Hispanic Outlook Scholarship Fund is open to high school seniors of Hispanic descent, with at least one parent from a Spanish-speaking Latin American country or Spain. Applicants must be legal residents or citizens of the United States.

Applicants must be entering as a full-time student in a 2- or 4-year accredited U.S. college recommended in the PUBLISHERS PICK LIST as printed in the November 20, 2000 issue of The Hispanic Outlook in Higher Education Magazine.

Scholarship is renewable annually by students maintaining a 3.5 GPA or a
Scholarship amount $1,000.

Application deadline is May 1, 2001. Scholarship recipients will be notified by August 1, 2001.

To request an application, send a self-addressed stamped envelope to:

Paramus, NJ 07652
And HO Award Goes to....

Deanna Fierro of Canutillo, Texas, and Wenceslao Juan Peña, III, of Chula Vista, California

BY MARI CARMEN SARRACENT

The Hispanic Outlook is proud and pleased to report that the pool of well-qualified applicants for its $1,000 scholarship continues to deepen.

This year's winners are Deanna Fierro of Canutillo, Texas, and Wenceslao Juan Peña, III, of Chula Vista, California.

Deanna Fierro

Deanna Fierro, who ranked number three in a graduating class of 267 at Canutillo High School, is now enrolled at the University of Texas at El Paso, just a 30-minute commute from her home. Fierro, who turned 17 this summer, told HO, "I doubled up on classes in high school one year, so I was able to skip a year. I'd been in UTEP's Upward Bound program, so the UTEP campus is not new to her.

"I don't feel intimidated. Besides, everyone is here to learn, and no one cares about age."

An honor roll student throughout high school, Fierro took a number of honors courses, such as Algebra, Calculus AP, English, World History, and Biology, and received many awards—an Algebra II award in 1997, English Award in 1997, Optimist Youth Appreciation Week Award in 1999, a University of North Texas Upward Bound Math Award, and more.

Her academic excellence also won Fierro other scholarships.

"I was lucky enough to be one of the first-year Gates Millennium Scholars," she said. "Both the Outlook Scholarship and the Gates Millennium will help me greatly in my first year of college."

HO talked with Fierro, a computer engineering major, about what she expects of her first-year experience and of the classes she is now taking.

"In my first year of college I want to settle into the new type of school setting. I know that now I have to take complete responsibility of my studies and my success in school. I want to build a strong foundation this academic year.

"At the moment, many of my classes are very challenging. The material that is covered is much harder and taught at a much quicker pace. I really enjoy the new challenges and am able to really use all my skills, such as my study skills, in order to do my best in all my classes."

"Despite the fact that I am only 17 years old and most of the students that I am taking classes with are sometimes two to five years and more older, I have still been able to make new friends with other students of all ages. I enjoy the university attitude that both students and teachers have. Both are there for the same reasons—to learn from others and to teach others. I have been able to hear new ideas that I had never been exposed to before from many professors."

While in high school, Fierro was a manager of the JV boys basketball team, engaged in competitions with the Future Business Professionals, and was active in the community. She plans to stay just as active at UTEP.

"At the moment," she says, "I have only joined the University Honors Program where I have more one-to-one contact with my professors. I plan to become part of the Mexican American Engineering and Scientist Club (MAES) and the Society of Women Engineers (SWE)."

Wenceslao Juan Peña, III

Wenceslao Juan Peña, III, called Wences by family and friends, was accepted at Stanford University, thanks to his high intellect and his scholarly and community pursuits, achievements, and recognition. Peña ranked first of 340 seniors at Castle Park High School in Chula Vista, Calif.

Debora A. Allison, IB, AP, GATE Coordinator-Teacher, and senior class advisor and mentor, offered Peña her highest endorsement. She wrote, "Wences is an indomitable, popular, and academically curious young man who has exhibited clear evidence of his intellectual promise, initiative, and commitment to excellence. In his 'free time' he pursues hobbies in vocal/instru-
metal music, computers, jogging, and is a coin collector. He is a serious member of our community who believes in giving back that which he has received…"

Peña, she wrote, "will shine at the highest academic and leadership levels any esteemed institution offers…"

Peña's mother, Josephine Peña, couldn't agree more. "He has always been a very hard worker, a self-motivated person. He knew what he wanted. He always wanted to go to Stanford. It's nice to see him fulfill his dream."

Now a freshman at Stanford, Wences Peña says, "The competition is relatively high—although I feel confident that I can remain competitive and achieve personal success during my years of undergraduate study. During my freshman year, I hope to attain the skills necessary for continued success. Moving to a community of affluence and poor representation of minorities can be somewhat intimidating, considering that I was raised in a neighborhood of diversity with many Latinos who were mostly from a low socioeconomic background. Nearly all students entering undergraduate programs from my high school were first-generation college students, myself included. In turn, I hope to enrich other students and serve as a role model for other Latinos aspiring to enter the university."

Asked how his year was going, Peña said, "I have had limited interaction with professors and teaching assistants, although I have conversed with individuals from the Undergraduate Advising Program and have discovered that many diversity programs are available at Stanford. In addition, I plan to contact a professor in the engineering department who facilitates diversity in the fields of engineering and the sciences."

"I am planning to participate in Partners for Academic Excellence (PAE), sponsored by El Centro Chicano. This organization serves as a support group for freshmen of Hispanic background, and includes study groups and workshops. I have also attended Stanford's MECHA meetings and an organization called The Stanford Society of Chicano/Latino Engineers and Scientists (SSCLES). I would like to tutor minority students in East Palo Alto and possibly join an a cappella singing group at some time."

His current academic interests include biomedical or chemical engineering, human biology, and/or psychology (all with the pre-med option). "I have considered a double major since I entered with sophomore-level credits due to my scores on International Baccalaureate (IB) and Advanced Placement examinations." He describes IB as "a rigorous program with courses at the freshman/sophomore university level."

Peña agrees that the academically challenging preparation he underwent in high school will help him compete at Stanford. Of high school, he says, "My days generally began at 6:00 am and ended between 11 p.m. and 12 am., on average."

"I earned the IB Diploma, setting a new school record with my exam total of 42 points. To receive a diploma, one must earn 24 points over 6 exams (graded on a scale of [low] 1-[high] 7). I earned 7s in History of the Americas, Information and Technology in a Global Society, and Spanish. I earned 6s in English, Math Methods, and Chemistry. Furthermore, every diploma candidate must complete 150 hours of community service, write a 4,300-word paper, and take a course entitled The Theory of Knowledge. I earned As for my research paper in History and [for my] essays in the Theory of Knowledge course, setting another school record and earning the maximum bonus points awarded. Professors, in their respective areas of expertise, do assessment for the IB worldwide. For example, I had work and exams sent to England, Kenya, and China."

"Peña made time, too, for extracurricular activities. He was co-editor of the school literary and art magazine, IMAGES, which won third place at the Del Mar Fair, and co-captain of the school's academic decathlon team. "We ranked 10th in the county, our school's best finish, and finished 2nd in Mathematics and 4th in Essay as a team in San Diego County. I earned a silver medal for my score in the Essay portion of the competition."

"Peña says he frequently tutored other students, was a mentor for first-year students for two years, and a member of two service organizations—Trojan Knights Concession Service and the Octagon Community Service Club."

At Castle Park High School, Peña's awards included California Scholarship Federation Lifetime Seal Holder Membership, all four years; Academic Achievers (375 GPA or higher) all four years; Who's Who Among American High School Students, all four years; National Macy Scholar (Minorities in Medicine); and National Honor Roll.

Upon graduation, Peña received scholarships totaling $19,500 from Executive Women International, HNC Software High-Tech Academic Achievement, William S. Davila Scholarship, Elks CA, Robert C. Byrd Scholarship, San Diego Mcdonalds HACER Scholarship, So. CA United Food and Commercial Workers, and The Hispanic Outlook.

Both award recipients demonstrate acumen, responsibility, and wisdom far beyond their years. Fierro and Peña already have shown the stamina, determination, and wherewithal necessary for success, and are clearly on the path to leadership.
2000 College-Bound Seniors
A Profile of SAT® Program Test Takers
Math and Science Scores Rising on SATs
Latinos Up but Gap Persists, Says College Board
By Adalyn Hixson

www.collegeboard.org
late September, the National Commission on Mathematics and Science Teaching for the 21st Century, aka the Glenn Commission, issued “Before It’s Too Late,” a report that reaffirms the math and science status of U.S. 12th graders as being among the worst on the planet, a “dismal message of lackluster performance, now three decades old.” Then proceeds to suggest solutions. An early speaker before the commission, Dr. James W. Stigler, discussing education in Japan, noted too that Japanese schools don’t have janitors and cafeteria workers and don’t need them because the students serve lunch and clean up the schools.

Despite our students’ academic and behavioral shortfalls, there is improvement in some sectors. In late August, The College Board reported that this year’s SAT-takers have more high school math and science courses to their credit, better grades, and higher academic aspirations than had their predecessors of 20 years ago.

“Improved math and science preparation seems to be reflected in the average SAT score,” says a College Board press release, “which continued its upward trend with this year’s 3-point gain, bringing the score to 514, its highest level in 30 years.”

The College Board also reported that the SAT verbal score had remained stable, at 505, for the fifth consecutive year.

“The rise in math scores is cause for cautious optimism, as is the stability of verbal scores,” said College Board president Gaston Caperton. “Verbal scores are holding steady even though more of today’s college-bound high school students than ever before have English as their second language or have parents who aren’t native English speakers.”

Asked how the U.S. SATs would compare with tests given in other countries, a College Board spokesperson told HO, “The SAT is invalid for comparing countries because the numbers are too small.”

But some might draw conclusions from TIMSS, The Third International Mathematics and Science Study of student performance, in which not one of 20 nations assessed in advanced mathematics scored significantly lower than the U.S. and only one scored lower in physics. And then there’s the report by the Department of Education that, for 1995-96, nonresident aliens received 34.6 percent of all bachelor’s and 44 percent of all master’s degrees in engineering, mathematics, and information science.

According to Oxford University’s website information for international students, a Yank at Oxford—England, not Mississippi—would need to have scored “in excess of 675” on SAT 1 and SAT 2.

A message posted at an Internet education chat room claimed that taking the test over raises the total almost 42 points. Its author, a self-described former prep tutor, says the mean improvement of his several hundred students was 110 for the math and 60 for the verbal. Many of the test prep companies claim or promise a hefty score increase, some with a “money back guarantee.”

More than 83 percent of four-year colleges used SAT scores as a factor in recent admissions. And a record 1.26 million SAT-takers entered college this fall, roughly the same number of students as those entering year one at a four-year college.

Data on the Takers

According to Caperton, a look at this year’s SAT-takers indicates that:

- 69 percent of both men and women reported taking four or more years of mathematics, up from 68 percent of men and 62 percent of women 10 years ago: 26 percent of men and 22 percent of women took calculus, up four to six percentage points since 1990.
- A record 88 percent of students reported at least three years of natural science study in high school, up from 78 percent 10 years ago. 45 percent of women and 53 percent of men reported taking physics, the science subject with the highest average SAT math score.
- In the 1990s, Mexican American, African American, and Native American students experienced the greatest increase in college-preparatory coursework.
- The GPA is 3.26 on a 4.00 point scale, well above the average of 3.09 a decade earlier. This year, 40 percent of students reported grade averages of A+, A, or A-, up from 28 percent 10 years ago, indicating some grade inflation.
- The gap in average male and female verbal scores, as well as in math scores, is closing. Since 1990, women have added 8 points to their verbal scores, while men have added 2 points, reducing the verbal score gap to 3 points. Since the 1980s, the gap in math scores has dropped 5 points.

“The gender gap,” says Caperton, “may be attributable to a wide range of factors. More women than men take the SAT, and a higher percentage of test-takers usually results in lower average scores. In addition, women test-takers are more ethnically diverse, and a higher proportion of them come from families where neither parent attended college. We also know that there’s a difference in course-taking patterns for women and men in high school. The narrowing of the gender gap certainly could be linked to the way women are increasingly choosing tougher high school courses.”

SAT Math Scores Rising for All Groups

Since 1947, when The College Board began tracking such data, the number of foreign-born and first-generation American test-takers has increased by 47 percent—nearly three times the growth rate of the entire SAT test-taking population. And this year’s SAT-takers are a more diverse group than ever before. More than a third are first-generation college-bound students, more than half are women, and 34 percent are non-white.

*When the SAT was renamed in April 1995, mean scores were set at or near the midpoint of 500 of the 200-800 score scale, a process called recentering. All scores in this table reflect that process. Means after 1996 are recentered, and those for 1996 are based on recentered scores plus scores converted from the original to the new scale. Means for 1987-1995 were recomputed after individual scores were converted from the original to the new scale; means for 1972-1986 were converted to the new scale after a formula was applied to the original mean and standard deviation; and means before 1972 are based on estimates.
How have college-bound students changed in 10 years?
Based on high school students who took the SAT® I: Reasoning Test prior to graduation in 1990 and 2000.

*All 1993 scores are on the recentered scale.

**1993 incomes have not been adjusted to 2000 dollars
Since 1990, overall math scores have risen 13 points, with gains apparent across virtually all racial/ethnic groups and among male and female students. This year’s score averages rose to 553 for men and to 498 for women, but the male score advantage seems to be declining. The 41-point advantage men had in the 1980s was reduced to 36 points during the ’90s.

“The significant increase in this year’s math score and the overall upward trend of the last 10 years must be due, at least in part, to changes in the courses students take in high school,” Caperton said. “Over the last decade, male and female students from all ethnic backgrounds have been taking more pre-calculus, calculus, and physics. These are some of the most rigorous courses available, and they help students develop excellent math skills. The SAT math scores of students who take these courses are well above the national average.”

“To sustain this momentum, we must increase the availability of rigorous courses, including Advanced Placement (AP) courses, especially in inner cities and remote rural areas,” he added. “Today 1.2 million students, mostly juniors and seniors, take AP courses, and the College Board intends to double that number by the year 2010. All educators should focus on encouraging schools and students to introduce and take advantage of the most challenging curriculum.”

Advanced Placement

The College Board website notes that there are now exams for 33 Advanced Placement courses, including calculus, U.S. history, several foreign languages, and more.

According to The College Board figures for 2000, 59.8 percent of public schools in the U.S. offer Advanced Placement courses. That’s 9665 schools out of 16,711. Delaware leads with 100 percent, Connecticut is second at 97.3, New Jersey third at 96.8. North Dakota is lowest, at 76 percent; Arkansas, second lowest, at 11.5.

Of states with large Hispanic populations, California is at 83 percent; New Mexico, 46.7 percent; Arizona, 51 percent; Texas, 66.8; and Florida, 81.7. Florida Governor Jeb Bush stated in a New York Times op-ed piece Sept. 15, “Better Than Affirmative,” that Florida will make the PSAT available free of charge to its 10th graders and will provide free SAT prep courses to the lowest-performing schools. And it will guarantee students at those schools access to Advanced Placement coursework, addressing at least one criticism of his One Florida plan.

The percentage of AP exams passed in 2000 with a grade of 3 or above ranges from a low of 40.3 in Mississippi—the only percentage in the 40s—to a high of 74.1, in Massachusetts.

For 2000, the District of Columbia had the highest number of students per thousand taking AP exams—423—with 77.1 percent of exams scored at 3 and up. Next highest was Virginia, at 36 per thousand, with 63.3 percent scoring 3 and up.

National Council of Teachers of Mathematics

Few would disagree with Gaston Caperton that more U.S. schools need to offer more rigorous courses in math and science to more students. The Glenn Commission concluded: “The most direct route to improving mathematics and science achievement for all children is better mathematics and science teaching.”

HO asked Dr. Lee V. Stiff, president of NCTM, the National Council of Teachers of Mathematics, what teaching strategies seem to be working. Dr. Stiff, a professor of math education at North Carolina State University, from which he received his doctorate, talked first about standards.

NCTM, which has more than 100,000 members and more than 250 affiliate groups in North America, developed a set of standards in 1989, and unveiled an updated version in April of this year, Principles and Standards for School Mathematics, available at www.nctm.org.

“In Los Angeles, this approach—standards-based mathematics—has resulted in improvements among high school students. There have been a number of indications that this standards approach is working for Latino Students—how much math they take, how well they are doing in those math classes, and increased admissions of those students into the California university system.” The LA Unified School District, he says, should be able to share statistics and other details about student successes that result from the standards approach.

He mentions recent findings from Puerto Rico that students taught using standards-based math did better on ETS testing than did their counterparts taught by other methods in both public and private schools.

In general, he says, U.S. students need to improve their “problem-solving and other higher-order skills.”

“I just recently came from Japan, and what I observed was the attention that teachers in the system give to the improvement of instruction. The Glenn Commission talks about having the U.S. give that same kind of attention to instruction so that teachers can study their practice, and work together on the lesson plans, and refine them, and implement them, and see how it went, and then try them again.

“When you look at the lessons and instructions in the Japanese schools, you see more than number crunching. They immerse that into problem-solving and looking at relationships and understanding how math fits together, and that is what the Glenn Commission would hope for teachers here—be able to be users of knowledge in ways that support math teaching. So the Glenn Commission has been on point with what it is we have to do. And NCTM is most supportive. We believe we are already headed in the right direction.”

NCTM has a number of new initiatives, including its Academy for Professional Development. Two-day and five-day Academy institutes scheduled this fall and winter at sites throughout the country, some limited to a maximum 100 participants and “sold out,” will explore the standards and how they can impact curricula to improve teaching and learning.

NCTM will be converting some of its existing professional development materials for use online and creating others for online use to encourage and enable the sharing of professional information and the collaborative development of new strategies. These will include materials for students and information for their parents.

“Teachers need more time to enhance and upgrade their skills—in content and in how to teach that content,” said Dr. Stiff. “As an organization, we would welcome opportunities to extend what we currently do to help match the kinds of initiatives the Glenn Commission would like to undertake.”

HISPANIC CBS AND THE SAT

The following information on Hispanic CBS (College-Bound Seniors) taking the SAT was prepared for HO by Mérida Escandón, assistant director, SAT Program.

Over the last seven years, there has been an increase in the number of Hispanic SAT CBS College-Bound Seniors (CBS) and their average SAT I verbal and math scores, but their means remain below the national averages.
There has also been an increase in their years of study in English, mathematics, and the natural sciences, although Hispanics tend to have fewer than SAT-takers overall.

In 2000, the percent of Hispanics in lower income brackets was higher than the national percentage, with 61.16 percent indicating incomes at or lower than $35,000, while the national figure was 35.27 percent.

The largest number of Latino SAT I CBS are Mexican Americans. In 1993, they represented 44 percent of the Latino/Hispanic population taking it. In 2000, they represented close to 46 percent.

Geographic Distribution
California, Florida, New York, New Jersey, and Texas have continued to be the states with the highest populations of Latino/Hispanic SAT I College-Bound Seniors.

Parental Education
Of overall respondents in 2000, about 45.53 percent of CBS indicated that fathers held a bachelor's degree or higher, while that percent was 26.04 percent among Latino CBS, about the same as in 1993.

Nationally, about 39.16 percent of the Year 2000 CBS indicated that their mothers held a bachelor's degree or higher. Latinos who responded to the question indicated that 21.37 percent of their mothers held a bachelor's degree or higher, up from 18.61 percent in 1993.

Degree Goals
Degree goals among Latinos were consistent with the national norm, with about 24.98 percent of national CBS aspiring to achieve a bachelor's degree and 22.39 among the Latino groups. However, the number of Latinos who aimed to continue their studies beyond a bachelor's degree was higher (57.08 percent) than the national percent (52.79).

Intended Majors
Latino major interests were similar to those of CBS overall. Business and commerce, health professions, and social sciences remained the most popular majors. Examining the seven-year trend, however, showed a decrease in the percentage of Hispanics indicating interest in engineering and engineering technology majors (from 10 percent in 1993 to eight percent in 2000), a decrease that was also reflected in the national percent. Slight increases (up about 2 percent) in interest have been seen in visual and performing arts and computer and information services. The percent of CBS with undecided majors grew slightly as well, from 3 percent in 1995 to 5 in 2000.

Internet Activity
Internet activity data were first collected in 1998. This year 625,970 of the national SAT I cohort responded that they had some level of Internet activity. This number was 48,912 among Latinos. Nationally, the number of CBS indicating that they had no computer experience was 983,297, while that number was 7,595 among Latinos.

Extracurricular Activity
Overall 95 percent of national CBS and Latino CBS indicated that they participated in extracurricular activities that ranged from academic honor societies to community service to part-time employment. The number of CBS indicating that they did not participate in any extracurricular activities was 160,820 nationally. Among Latinos, that number was 3,796.

Honor Roll

University of California, Davis
Expanding Help for High Schools

by Roger Deitz

Chancellor Larry N. Vanderhoef says that UC Davis’ character has been built through decades of commitment to a “unique core of values and principles.” He reports, “We are using our talents and ingenuity to continue working toward a community that honors our diversity as individuals and reflects our belief in a shared set of values.” Of this quest, the chancellor notes, “The pursuit of a diverse community is an integral part of the pursuit of excellence. As we make decisions in this university, we are making them in a world that is rapidly shrinking and in a population that is rapidly growing in its diversity. We will make better decisions and our children will be better educated if, in fact, we have a truly diverse community on campus.”

Chancellor Vanderhoef points out that in higher education, students make lifelong friends and have experiences that determine their direction and growth as human beings and members of a larger community. “For that to happen, there must be a partnership among many individuals working together to ensure the most intellectually stimulating, technologically sophisticated, and culturally rich environment.” Vanderhoef says. “We are very proud of UC Davis. Long renowned for its agricultural and veterinary science programs, in recent years we have attained international stature for our programs in engineering, biological sciences, the humanities, and the social sciences. Members of our faculty have won MacArthur genius grants, Pulitzer prizes, Fulbright scholarships, and election to the nation’s top academies of the arts and sciences.

“UC Davis is a member of the prestigious Association of American Universities, a select group of 62 institutions of higher learning whose membership is by invitation only. Our alumni have made significant and lasting contributions to society as leaders in government, business, technology, media, and the arts. And our students—the cream of California’s crop—consistently persist and graduate at among the highest rates of University of California campuses.”

UC Davis was founded as the “University Farm” amid the fertile fields of California’s Central Valley. UC Davis owes much of its strength to its deep traditional roots in agriculture, the impressive diversity of academic programs that emerged from this foundation, a distinguished faculty of scholars and scientists, and a treasured sense of community.

It also has a dedication to the land-grant values of creative, responsive, and innovative teaching, research, and public service.

One of every 500 Californians is a UC Davis graduate. UC Davis is one of nine campuses of the University of California, which was chartered as a land-grant college in 1868 and now constitutes one of the most eminent systems of public higher education in the country. In 1905, legislation approved the establishment of a state agricultural school. A year later, a 778-acre site, once known as the Jerome C. Davis Farm, was purchased, and the University Farm School opened in 1908-1909. The College of Agriculture was established in 1922, a School of Veterinary Medicine welcomed its first students in 1948, and the College of Letters and Sciences was founded in 1951. In 1959, UC Davis was designated a "comprehensive campus." The College of Engineering was given full status in 1962, the School of Law held its first classes in 1966, and in 1967, the noted College of Agriculture was renamed the College of Agriculture and Environmental Sciences. Continuing its distinguished and rapid growth, the School of Medicine admitted its first students in 1968, and in 1981, the Graduate School of Management opened its doors.

UC Davis, situated on 5,200 acres, is the northernmost and physically largest of the nine UC campuses, second in budget, and third in enrollment. The General Library is ranked among the top research libraries in North America. It contains more than 2.6 million volumes, and comprises five units, including the Peter J. Shields Library, the Carlson Health Services Library, and the Physical Sciences and Engineering Library. In addition, the Law Library contains more than 255,000 volumes. The UC Davis Arboretum, located on 95 acres along the old north fork of Putah Creek, provides an outdoor classroom and laboratory for teaching and research. Students and faculty also take advantage of six outdoor reserves in Northern California managed by the campus for the UC Natural Reserve System. The UC Davis Washington Center, based in the nation's capital, offers government-related internships and makes possible satellite-assisted communica-
tion between classrooms and the Center.

U.S. News and World Report ranks UC Davis among the top 12 public universities nationally. A study reported in 1995 by the National Research Council placed four of UC Davis' graduate programs in the top 20 nationwide in terms of faculty quality, and graduate programs in ecology, evolution, and behavior ranked fifth in the nation. The same study ranked UC Davis faculty third in quality among the top 20 comprehensive universities nationwide. UC Davis stands 24th in research funding among universities in the United States, according to the most recent statistics from the National Science Foundation. The UC Davis Medical Center ranks among the nation’s best hospitals, according to U.S. News and World Report, in the areas of respiratory disease, cancer, digestive tract, geriatrics, and rheumatology.

Fall 1999, the institution enrolled 19,580 undergraduate students, with 5,512 pursuing graduate studies and enrolled in the various professional schools. The campus total for overall enrollment is 25,092. By gender, 54.5 percent of students are women. About 94 percent of students hail from California, three percent from out of state, and another three percent are of international origin. Chicano/Mexican Americans account for about 6.8 percent (1,493), Latino/other Spanish Americans, 31 percent (724), with an overall total minority representation of 51.5 percent. UC Davis places the number of alumni with degrees at 154,445. More than a half-dozen college presidents nationwide have emerged from the ranks of UC Davis alumni and faculty. There are 2,777 Hispanic personnel, 351 classified as "academic."

There are 1,597 faculty on campus and an additional 496 faculty at the UC Davis Health System, a total of 2,095. Other academic personnel include 2,416 on campus and 893 at the Health System for a total of 3,309 Annual tuition for resident undergraduates is $4,034.

The number of prospective first-time domestic first-year students accepting offers from UC Davis for fall 2000 climbed 13.3 percent this year. The big news is that the number of students from underrepresented groups intending to enroll increased by 18 percent. A UC Davis News Service spokesperson notes that students from historically underrepresented groups—African American, American Indian, Chicano and Latino—"relatively steady" in this year's admit pool (13 percent compared to last year's 12.5 percent). And 90 more than last year indicate they will enroll this fall (as of June 19, 2000). Underrepresented students comprise 13.1 percent of those intending to register, compared to 12.6 percent in 1999.

"The involvement of UC Davis students from all ethnic groups was an enormous asset to our success this year," says Gary Tudor, director of undergraduate admissions and outreach services at UC Davis. He adds that current students telephoned admitted students, visited hometown high schools and community colleges, spoke at recruitment events, and hosted visitors to campus. Students accepting admission offers who identified themselves as members of historically underrepresented groups numbered 588, compared to 498 in 1999. Increases were registered for African Americans, from 92 (in 1999) to 112 (in 2000) or 21.7 percent; for American Indians, from 28 to 31 or 10.7 percent; for Chicanos, from 277 to 336 or 21.3 percent; and for Latinos, from 101 to 109 or 7.9 percent.

Tudor says the record numbers of prospective students and their families learned more about UC Davis by visiting campus, attending seven statewide recruitment programs, and participating in a college fair held on campus. This year, 24,475 domestic applications; a record number, were reviewed. Of the 15,598 applicants offered admission, 4,485 indicated by the May 1 deadline that they intended to register. As the new academic year got underway this year, the first-year class settled in at approximately 4,300, with overall enrollment anticipated to increase by four percent, from 25,092 to 26,103. "We are planning increases in undergraduate enrollments that will allow us to provide access for more students," concludes Tudor.

In the last academic year, UC Davis dramatically expanded its programs in Northern California public schools to help thousands of students prepare for admission. The campus is also providing professional support for hundreds more teachers, counselors, and administrators. More than 10,000 additional students received help from UC Davis, largely in urban schools with a history of low college attendance. The programs are supported by an annual $24 million from the state legislature, targeted to boost enrollment of underrepresented and economically disadvantaged students.

"I am amazed by how much we have been able to accomplish in a year in more fully developing our school partnerships and in the expansion of our Early Academic Outreach Program. But I am also humbled by how much there is still to do," says Yvonne Marsh, assistant vice chancellor for student affairs, who has responsibility for several campus outreach efforts. "Our school partners are enthusiastic about our presence in their schools, and campus faculty have come forward with exciting programs for children and teachers. UC Davis will be a vital player in helping to support schools and contribute to well-prepared students from many of our most underserved communities."

Chicano/Mexican Americans account for about 6.8 percent (1,493), Latino/other Spanish Americans, 3.1 percent (724), and minorities overall are 51.5 percent.
Bilingual Education: The Debate Continues on Prop 227

BY PATRICIA HANSON

The 2000 census confirmed it: Caucasians in California are in the minority. White non-Hispanics are 49% percent of the state’s population; the majority is 30 percent Hispanic, 22 percent Asian/Pacific Islanders, and eight percent African American. While Spanish is the native language at the forefront of the nationwide bilingual education controversy (three-quarters of the nation’s bilingual education students speak Spanish), the diversity in some regions of the state gives new meaning to the term “English learners.” Seventy native languages are spoken by children in Anaheim schools, among them, Vietnamese, Cambodian, Chinese, and Portuguese.

In what for some could be an alarming trend, new policies in California’s schools are adding fuel to the fiery nationwide debate on bilingual education. Two years ago, the state in which voters repealed affirmative action and restricted immigration brought into law Proposition 227, a measure some have called the death knell for bilingual education. Partly because it usurped educators’ authority but also because its basic premises had not yet been established by scientific research, all the major education organizations in the state, including the California Teachers Association, opposed the bill, believing that it robbed teachers of professional autonomy and set a dangerous precedent.

In June of 1998, when Silicon Valley software entrepreneur Senator Ron K. Unz first financed and initiated the ballot measure, proponents said its goals were to teach English to language-minority students as quickly as possible, to reduce dropout rates among immigrant children, and to increase literacy and economic advancement. The arguments were so compelling that the measure passed 61 percent to 39 percent. Who wouldn’t want their youngster to be “immersed” in learning English as quickly as possible? Even a small but significant portion of Hispanic voters was behind it.

Now, two years later, controversy surrounds Prop. 227’s impact and its effects on school children. And its implications are starting to extend to other states considering similar ballot measures. Arizona will vote this month, Colorado narrowly missed getting one on the ballot this fall, and anti-bilingual forces are rallying in New York and Massachusetts.

Many know that statistics can be used to generate more heat than light, and tables turned to substantiate any argument; therefore, arguments of both camps on bilingual education deserve an eagle-eyed look. The loudest voices can be heard in television news reports, seen in magazines and newspapers. The New York Times, indeed, ran an editorial and a front-page feature, “Test Scores Rise, Surprising Critics of Bilingual Ban.”

A second and perhaps less media-savvy camp is a well-respected group of academic scientists, researchers, and educators. Their August 2000 headlines, which received less national coverage, focused on a comparison study of ten schools with and without strong bilingual education components, and read as follows: “Parents Given the Choice for Bilingual Education Have Reason to Celebrate: Test Scores Show Students in Bilingual Education Programs Meeting or Exceeding the Performance of Students in English Immersion Classrooms.”

What do the proponents of bilingual education say to this? Who is one to believe?

Patricia Gándara, associate professor of education at UC Davis, lead author of the report, said that “the ultimate victims of such disorder are the students.”
Simultaneous Changes

When Prop. 227 was implemented, several other major changes also went into effect in California. Class size was reduced from well over 30 to 20 students per room. Prior to 1996, California had the largest class sizes in the nation; now, in the early grades, it has among the lowest. This created an enormous demand for new teachers that the state has been unable to meet.

Dr. Russell Rumberger, director of UCSB's Language Minority Research Institute, spoke of the problems with implementation being compounded by the imposition of class-size reduction and new, standardized testing regulations at the same time.

"Salaries and working conditions became worse at the places that needed good teachers the most. Inner city schools, such as Los Angeles Unified School District, operated with 25 percent of its teachers 'emergency-credentialed' in the 1998-99 school year. The good got better and the bad got worse."

Educational reforms enacted in 1998 included new curricular standards and new restrictions against "social promotion" that could result in the retention of large numbers of students who do not meet grade-level standards. But most importantly, a high-stakes statewide testing program was implemented. Elementary teachers found themselves teaching youngsters how to respond to questions and how to mark bubbles on standardized test forms rather than on how to understand the subject matter they were also addressing.

What do test results really tell us?

In national press releases, Unz highlighted second grade reading scores in three districts near Oceanside, Calif., where the average reading score of a student classified as limited in English increased nine percentage points over the last two years, from the 19th to the 28th percentile. In mathematics, the increase in the average score for the same students was 14 points, from the 27th to the 41st percentile. Only in the tenth and eleventh grade were increases in test scores below four percentage points.

Stanford University's Kenji Hakuta, whose research and publications helped mount a comprehensive counter-attack to The New York Times editorial, writes about the post-Unz initiative studies about Oceanside and is quick to remind people who tout slight increases in test scores (some as low as six tenths of a percent, at the elementary levels only) that several other competing educational reforms have directly influenced those scores, not just Prop 227. Moreover, while test scores did indeed increase for LEP students, they increased for students in bilingual classrooms as well as those in English-only classrooms. Moreover, they also increased for English-only speakers. An increase in test scores was predictable, since simple familiarity with the standardized test normally confers small year-to-year gains.

"Tests never show the entire picture. Theories on language learning state that the proficiency with which one learns a second language depends on how literate you are in the first," retorted Patti Costello, a 30-year veteran bilingual educator in the Salinas Union High School District, responding to The New York Times article. Many of the children of migrant farm laborers do not have what she calls "print-rich environments" in their own homes. "If their parents and siblings can't reinforce the English they are learning, how can they succeed?"

Ms. Costello said of certain Oceanside statistics often touted by anti-bilingual critics: "First of all, those scores went from very, very bad to very bad. Next, they're only reported at second grade levels. What about the upper grade levels? Sure...if they could immerse every immigrant child at kindergarten or first grade, it might work, but they don't all enter school at that age. Many of our middle and high school youngsters come directly from Mexico. That's where kids really get lost and are in danger of acting out, even joining gangs, when school makes them feel like failures."

Ms. Costello said that "the effective filter," i.e., the level of fear that keeps a child from saying a word or giving an answer in class because s/he thinks it will be wrong, gets stronger the older children get. "How can we possibly immerse adolescent youngsters for only one year, and then move them to mainstream classes...? It's ridiculous."

Theorists and Practitioners

Learning theorists say they have solid evidence that structured immersion programs for one year only, as the California measure decreed, do more to harm and confuse immigrant children,
restricting their abilities to learn, rather than helping them grow and prosper in the system. One group of researchers visited 16 school districts and 25 schools throughout California to assess the implementation of the new law and its effects on learning. What they reported in "The Initial Impact of Proposition 227 on the Instruction of English Learners," produced by the Education Policy Center at the University of California at Davis (UC Davis) and the Linguistic Minority Research Institute based at University of California at Santa Barbara (UCSB), was that the initiative has contributed little to California classrooms but confusion, frustration, and inconsistency in its implementation.

Patricia Gandara, associate professor of education at UC Davis, lead author of the report, said that "the ultimate victims of such disorder are the students."

Inconsistent Implementation

Most districts in the state implemented Prop. 227 using their own interpretation of its wording, and based on their resources. Policy was developed and administered at different levels in different districts, sometimes varying from school to school even within the same district.

The LMRI report documented a variety of methods that districts and schools used to implement Prop. 227. Those districts with historically strong bilingual components disseminated their waivers to parents in such a way that they got them to check the box to keep their kids in bilingual education.

Gandara said that some schools created their own definition of terms such as "overwhelmingly in English." Thus students in structured English-immersion classes might have been provided with 52 percent of their instruction in English, meeting the definition. Another strategy was to provide "pre-instructional activities" and "review sessions" in the primary language, reserving the actual instructional time for English only.

Trine Rodríguez, principal of Gabitan Elementary School in Soledad, a population large with immigrant agricultural workers, immediately notified all parents in her district of the waiver, in language they could understand, and 60 percent of them chose to keep their youngsters in bilingual education. "These students have a right to education they can understand," she stated.

Anaida Colón-Muñiz, president of the California Association for Bilingual Education, said that "the implications for teacher training are immense." Beyond the economic reasons for training less-credentialed bilingual educators, she stated, "We need better knowledge of the basic dimensions of how English and non-English learners succeed. We need to prepare teachers with more command of what makes kids succeed, based on better research."

Teacher Estella Vásquez, of the Lincoln School in Salinas, spoke to educators in the elementary grades being overwhelmed. "It's all politics," she said. "There's so much pressure on teachers right now, and who loses in the end? The children."

What does (and should) the future hold?

The jury is still out on bilingual education. Carefully conducted research on the effectiveness of specific educational programs is needed. California authorized a statewide evaluation of Prop. 227, to be conducted over the next five years. It should provide useful information on a representative sample of schools.

Stanford's Hakukta said, "It is expected that the study will control for important alternative explanations for gains in student performance, such as class-size reduction, investments in teacher training and coaching, major changes in instructional methodology for all students, socioeconomic status, and other variables."

A federally funded 10-year longitudinal study is also in the works to more definitively ascertain what truly affects the learning of young children whose primary language is other than English. States with large immigrant populations will have to find their own answers to preparing the young for a marketplace that demands them.
BILINGUAL EDUCATION

PROONENTS
1. http://lmmnet.ucsb.edu/
The University of California Linguistic Minority Research Institute (UC LMRI), is a multi-campus research unit of the University of California, established in 1984, that supports, stimulates, and coordinates research, dissemination, and professional development activities that promote the understanding and improvement of language-minority students in schools.

Through LMRINet, information is made accessible through the Internet to researchers, students, and practitioners interested in issues of language, education, and public policy, especially as they relate to linguistic minorities. The April 2000 study by Gándara, et al., “The Initial Impact of Proposition 227 on the Instruction of English Learners,” can be downloaded from this site.

The website for Dr. Kenji Hakuta of Stanford University contains “What We Can Learn about the Impact of Proposition 227 from SAT-9 Test Scores: An Analysis of Results from 2006” Bulleted key points for press. Links to many research reports and other sites on bilingual education.

Site of the California Association of Bilingual Educators—contains information on legislative updates, upcoming conferences, and the most recent comparative study of ten California elementary schools with large enrollments of bilingual learners.

California Tomorrow is a non-profit organization dedicated to contributing to the building of a strong and fair multicultural, multinational, bilingual society that is equitable for everyone. "We believe such a society involves promoting equal opportunity and participation—social, economic and educational—and embracing diversity as our greatest strength." Also contains the Middleton Foundation August 2000 report, "Parents Given the Choice for Bilingual Education Have Reason to Celebrate: Test Scores Show Students in Bilingual Education Programs Meeting or Exceeding the Performance of Students in English Immersion Classrooms," sponsored by Californians Together and the Diane Middleton Foundation.

Promoting educational excellence and equity through bilingual education, the National Association for Bilingual Education (NABE) is the only national organization exclusively concerned with the education of language-minority students in American schools.

Gains small via Affirmative Action

Hispanic Faculty Up One Tenth of One Percent

BY JEFF SIMMONS

Kul B. Rai and John W. Critzer

Affirmative Action and the University
Race, Ethnicity, and Gender in Higher Education Employment

Throughout his career, Professor Kul Rai has written about what has interested him. Among his published books are examinations of foreign and domestic policies and their impact on America. He looked at challenges to and opponents of those policies.

His latest topic is a review of a decades-old effort fashioned to shape the academic and economic landscape in the country for years to come. But when he delved into his research on the political hot-potato of affirmative action, he was stunned by the revelations.

"I wanted to know, as this country was becoming more diverse and opposition to affirmative action has steadily grown, what advances have really been made for minorities and women," he said in a recent interview with The Hispanic Outlook.

"What you find is that as a country, we have become much more diverse, but as that has happened, the opposition to affirmative action has steadily built up," he says, pausing to note the political landscape. "Even though the Democrats have been generally more sympathetic to this program, the public has been increasingly opposed to it."

What he and a fellow political science professor at Southern Connecticut State University unearthed is that despite 20 years of affirmative action measures, white

men still dominate academic roles and that advancement has mainly—and only moderately—been achieved by white women.

"You keep hearing the misperception of a system of preferences that has been created for minorities and women at the cost of white males," Rai says. "Mainly, people think that minorities and women have had it really good on campuses, that they get hired and white males don't have a chance to get jobs."

"I have demonstrated that that has not happened and if anything, the program of affirmative action that was devised to help minorities and women gain jobs at the universities has not produced the results that were expected.”

His findings can be found in Affirmative Action and the University: Race, Ethnicity and Gender in Higher Education Employment, co-authored with colleague John W. Critzer. The book, published earlier this year by the University of Nebraska Press, is the only full-length study exploring the impact of affirmative action on the ranks of faculty, staff, and administrators on college and university campuses.

The authors use data supplied by the Equal Employment Opportunity Commission from 1979 to 1991, as well as information from the National Center for Education Statistics as recent as 1995. It exposes state-by-state findings, and gauges the demographic changes in employment of Hispanics and African Americans.

White men no longer hold all faculty jobs; but they nevertheless retain the largest chunk of them. In 1970, white men accounted for 68 percent of the faculties at all public and private higher education institutions. And 21 years later, that number had dropped to 59 percent.

Meanwhile, the number of white women has continued to climb, from 23 percent in 1970 to 28.5 percent in 1991. The research found that by 1991, whites still comprised 88 percent of all faculty. That, the authors note, represented only a three percent drop from 1970.

When it comes to Hispanic hires, the numbers of faculty and staff were low 20 years ago and, the professors note, have remained relatively stagnant, inching up only slightly. They blame this on the opposition to affirmative action.

They note, for instance: "In all institutions, the Hispanic share of faculty positions increased by only one-tenth of one percent since 1991. Surprisingly, some gains for both Hispanic men and Hispanic women occurred at private institutions. At public institutions, a minuscule increase for Hispanic female faculty was canceled by a similar decrease for Hispanic males."

Significant gains for minority faculty were achieved in the junior ranks, where the percentage of Hispanic junior professors rose between 1983 and 1991 from 1.8 to 37 percent, while the percentage of Black junior professors rose from 4.8 percent to seven percent. Asians climbed from 5.2 to 6.8 percent.

James Wyche, executive director of the Leadership Alliance, a consortium of 3,800 colleges and universities, agrees that progress has been modest at best.

"The higher-level positions are still mainly held by whites," Wyche says. "Very few minorities have been able to crack into the upper levels of administrative circles within colleges and universities. What's in place are legal mechanisms to ensure that there's no bias, that there are fair work practices with regard to hiring.

"In reality, it's a situation where people have to make decisions, and if those decision-makers are of only one group, you begin to ask the question of how comfortable they are in making decisions about incorporating people who are different from them or at least whom they perceive are different."  

The research stretches beyond state-by-state comparisons to various faculty levels, administrative jobs, and gender barriers. The most progress, the authors note, occurred in the administrative ranks. For instance, the percentage of Hispanic administrators rose from 1.4 to 2.6 from 1979 to 1991. Still, that was much lower than whites, let alone African Americans, whose numbers jumped from 4.4 to 8.7 percent.

The professors point out that a key reason why Hispanics might lag academically is because they did not found their own colleges in America.

"The lack of political power and of any colleges of their own, combined.
with the prevailing attitudes toward race, kept Hispanics out of higher education during the 19th century and a good part of the 20th century," they write.

The authors devote a chapter to Hispanics in higher education, finding that there have been some gains and observing a disturbing trend in which Hispanics were more likely to be hired for service-oriented jobs than for faculty and administrative ones. Among the findings:

- Hispanics made little progress between 1979 and 1983 in assuming faculty roles. But by 1984, there were greater numbers on campuses, and the increase for women surpassed the rise for men. Still, Hispanic females represented less than 1 percent of the faculty ranks in all higher education institutions.

- States with small Hispanic populations actually had better representation ratios for Hispanic faculty than did states with large Hispanic populations. New Mexico, for example, had a 38 percent Hispanic population in 1990—the largest of any state—and yet a 0.41 representation rate for Hispanic males and a 0.89 for Hispanic females.

- There were more Hispanics in faculty positions in public and private schools in 1991 than in 1983. In 1991, Hispanics represented 25 percent of faculty at public higher education institutions, and 16 percent at private ones—this despite a 40 percent surge in the country’s Hispanic population during the previous decade.

The number of states with fewer than one percent of Hispanic faculty members declined to fewer than 20. Only in three states—Arizona, Texas, and California—did Hispanics represent more than five percent of the faculty in public schools in 1991.

But in private institutions, only in Arizona did Hispanics account for more than five percent of faculty. In Colorado, they represented five percent, and in Florida and Texas, 4.8 and 4.7 percent, respectively. Only in one other state—California, with 3.4 percent—did Hispanics represent more than three percent of the faculty.

John Critzer, a political science professor at Southern Connecticut since 1989, noted the disparity when pitting public institutions against private ones.

Speaking of public institutions, Critzer says, "There is more bureaucracy involved in how one goes about hiring, and once you have this institutionalization put into effect, affirmative action continues on."

In four states—Delaware, Montana, North Dakota, and West Virginia—Hispanic faculty were almost invisible in private institutions. Their participation rates were less than 0.05 for both men and women. In public institutions, only Maine and South Dakota had such poor representation for males and females.

One study quoted by the authors noted that Mexican Americans accounted for the largest proportion of Hispanic faculty at all institutions. But their greater numbers could be found at two-year colleges, where about 70 percent were employed.

That study also noted that Hispanic faculty were largely concentrated in the social sciences, humanities, and education and often conducted research on "Hispanic-related topics."

- The number of Hispanics who became administrators climbed from 1979 to 1991, a sign of the country’s swelling Hispanic population and a growing pool of Hispanic applicants for the jobs. Still, one administrator cited in the book lamented that Hispanics were often stereotyped as foreigners without leadership skills responsible enough to hold such jobs.

In most states, Hispanics represented less than one percent of administrators in 1983. Only in California, Colorado, Washington, Connecticut, Texas, Utah, New Jersey, and Texas did their numbers exceed one percent.

The numbers remained "relatively small" nearly a decade later. Hispanics did make progress in several states, in both public and private institutions,
but still remained underrepresented in most states. The authors note that a few states still had participation rates above one percent. Colorado had a 49 percent participation rate, second only to Arizona, at 52 percent.

In California, there was one glaring drop: the participation rate for Hispanic males in public institutions actually dropped from 56 to 45 percent. New Mexico also saw its number of Hispanic male administrators drop.

Wych, of Brown University in Providence, Rhode Island, said the findings are disheartening though visibly true and speak to a “glass and steel ceiling.”

“You see very few people of color as CEOs and presidents as you look across the colleges and universities you visit,” he says.

“It’s not to say that there are not people who are qualified. But the people who make those selections are generally trustee boards, and they are looking for people who can carry out the traditional spirit and mission of the college or university they serve as they’ve always seen it.”

He adds, “They are now looking at people who are bringing something new to the plate....It’s a clash of concepts, of what one saw in the past and what some people see in the future. The question is how to reconcile that to improve the conditions at a college or university. In the future, I am hopeful there will be more progress than has happened to date.”

- Hispanics were more likely courted for service-oriented, secretarial, and clerical jobs than for faculty positions. The authors studied five other occupational categories on campuses and discovered that public institutions were more willing than private ones to hire Hispanic workers.

The authors note that despite occupational progress by Hispanics in the 1980s, their preponderance in service-oriented jobs projects “an image of a minority that is in demand for employment in positions with lower status and pay but that is not educated and trained sufficiently for employment in the higher education echelons of academia.”

“Historically there has been discrimination against Hispanics, and they have not had the same opportunities as other groups at obtaining education and moving ahead in life,” Rai says.

Sherryl Browne Graves, professor at New York City’s Hunter College, credits the research with dismantling a public misperception that affirmative action has stymied advancement for whites.

“People tend to focus on one or two people getting a job and assume that that is preventing someone they knew who might be eligible for that job from getting it,” says Graves, who is with Hunter’s School of Education’s Department of Educational Foundations and Counseling Programs.

She lays part of the fault on minority applicants themselves, saying they can be reluctant to move to places where it would be difficult to do research.

“If you do research on the minority population, and you’re in College Park, Pa., she reasons, “then you have to travel to Pittsburgh or Harrisburg or Philadelphia, whereas the white colleagues next to you can do research on the population that surrounds them.”

The authors were somewhat optimistic that the clamor over recent years for a more diverse faculty and staff pool has been fueled by a more diverse student population.

“It goes back to the idea that you have students who are very aware of what goes on on campuses, and you want them to see that kind of diversity,” Critzer says. “It reflects on the university to show this kind of openness to minorities and women.”

Rai hopes the findings will prompt institutions to take a good, hard look at themselves and “realize that affirmative action has really just done very much for minorities or women and it’s about time to remedy that,” says Rai, “to remedy past injustices by considering race and gender when hiring in the university.”

“It’s a matter of people realizing that reverse discrimination has not been created, that white males continue to dominate academia and that white males still have the highest paid and most powerful positions in faculty and administration.

“I would like to leave them with the impression that it’s about time to hire more minorities and women in higher education.”

Become a Better Version of Yourself

Valparaiso's Warmth Appeals to Minorities

BY LORI SOARD

Valparaiso, a small private university in northern Indiana, also known as Valpo, is considered by many to be a model school for minority programs. Other schools contact Valpo staff for advice on instituting programs for Latinos and other minorities.

Valpo's literature describes it as a campus where talented students of all ethnic and racial groups can be themselves while growing in knowledge, skill, character, and creativity.

"Valparaiso University," it continues, "is a place where you can comfortably become an even better version of yourself."

What are some of the programs that make Valparaiso effective? For one thing, its Mentor/Mentee program—M&M—is solidly in place and offers personal and academic support for students that helps them meet the challenges of college.

New students are paired with a peer to help ease the transition to university life. Valpo has found it extremely important that new students become involved in what is going on around them. Without that involvement, they might feel alienated and face a higher risk of dropping out.

Often the mentoring program offers a triad, with both a faculty member and a peer for the new student to fall back on. As in most programs of this kind, the mentor serves as positive role model, advisor, and friend. Mentors also play a host role, contacting new students to invite them to social activities and campus events.

A popular meeting place for mentors and fellow students is the Martin Luther King, Jr., Cultural Center (MLKCC) located next to Valpo's law school. The Cultural Center welcomes students of all races and cultures. Its stated mission is "to promote equality, peace, and intercultural understanding among all people," which includes a commitment to "creating and supporting a community of learners that value cultural, racial, and ethnic diversity."

Many of Valpo's planned cultural events take place at the Cultural Center, which offers a kitchen, a multicultural resource library, recreation room with TV, VCR, and stereo, a computer room, a bulletin board of events, and a patio area for backyard activities.

Staff members mentor students by offering moral and academic support. Often those who transferred from larger universities, where appointments with advisors and other faculty were scheduled in advance, are amazed when an advisor walks them around campus on their first day or welcomes them into an office for a long chat. Valpo's friendliness they find refreshing.

Students appreciate the personal attention. Eighty-seven percent of Valparaiso's first-year students return for a second year. The average time from enrollment to graduation is 4.3 years. And U.S. News and World Report consistently rates Valparaiso one of the top Midwest colleges.

"What I like about Valpo is its family atmosphere. I appreciate the fact that my advisor takes the time to help me, so I don't feel like I'm part of the pile," said Carolyn Brunson, a physical education/sports management major. "As a transfer student from a huge university, I value one-on-one attention and care. Students at Valpo can gain a wealth of knowledge and experience by being involved in the many organizations and activities and in community service."

Because Valparaiso is small, only 3,600 students, the minority retention rate is 10 percent higher than the national average. Jane Bello-Brunson, director of multicultural programming at Valparaiso, says, "Our minority population is at 12 percent. For a small university, we are doing a good job of getting the word out there about our programs."

Usually more than half the minority students receive diversity awards. Valpo's Diversity Awards and Christ College Diversity Scholarships are based on academics and not need alone.

Why is their retention rate higher than the national average? What is it about Valparaiso that allows minorities to find more success than at other colleges? Valparaiso staff credit its faculty and academic advising methods. Classes have an average of 22 students. Because of the high faculty-to-student ratio, professors can monitor how individual students are doing and look at personal issues that affect their performance.

There are several issues a counselor might...
look at if a student is failing or struggling. For first-year students, it is often an issue of leaving the warmth and familiarity of a close-knit home life. Involving the students in campus programs and helping them connect to the family atmosphere of the campus can help. Sometimes students unaccustomed to total freedom need to cut back on socialization a bit. A skilled advisor can help the student see this. For others, the classes need to be balanced so that the workload isn’t too intense. Perhaps a student is the first generation in the family to attend college and doesn’t know where to seek help when struggling. For those students, introducing them to support services can be critical.

Jane Bello-Brunson works closely with many of these students. One success story involves a young Puerto Rican man who found it hard to be separated from his family support system. “He was bright and exceptional, but he was really struggling. Small student numbers made a difference because I was able to help him get involved in Latinos for Excellence and other campus programs. He blossomed and eventually became a peer mentor. He graduated last year and is now working for an engineering firm in Chicago.”

That student still stays in touch with Bello-Brunson and with the two students he mentored, who both speak highly of him. This personal contact with other students helps to reinforce the family contact that so many students desperately miss. It’s an adjustment for many upon graduation because Valpo has become a second family.

**Campus Groups and Events**

LIVE, Latinos In Valparaiso for Excellence, is one of the most active groups on campus. It often co-sponsors events with the University to help students become involved with University life. One such event would be the Identity Culture Series, a program that encourages dialogue and discussion about issues such as race, religion, and ethnicity. The campus and Latino group also sponsor a Hispanic Heritage Month celebration each year. Colorful posters announce the event, followed by minority speakers, dinners, films, and a kickoff gathering. At the kickoff, there is a discussion of the Hispanic Leadership Program at Valpo. Afterwards, students can sample dishes from Mexico, Puerto Rico, Colombia, Cuba, and Spain and listen to Hispanic music.

This year, the Office of Multicultural Programs (OMP) began the semester with the annual Hispanic Heritage Dinner on September 9. Eduardo Garza, director of the Hispanic Leadership Program at the U.S. Hispanic Leadership Institute, was a featured speaker. A performance by Ballet Folklorico, a student art display, and poetry readings were also part of the event.

OMP and LIVE also have planned a multicultural film series on U.S. immigration policy, a panel discussion and film on California resi-

Diversity Concerns Committee, a member of Alpha Kappa Delta Honor Society, Hispanic Heritage Month coordinator for the Office of Multicultural Programs, and a mentor to new and transfer minority students.

Pantoja has been working hard to launch a chapter of Gamma Phi Omega, a Latina Sorority, at Valparaiso, and is finding it an uphill battle. “Getting the sorority founded has been a very difficult task,” she says, “as I have found that there is not much support for a Latin sorority on our campus. It’s really difficult to get people involved.”

But LIVE’s board is working hard to involve Latino students by promoting cultural awareness, and the organization has more to work with now than in the past. “We were mainlined by Student Senate this past academic year, which means that we will be given money by the Senate, whereas before we never had a budget to work from. LIVE in the past has had to do a lot of fundraising in order to pay for the cost of the events. Thankfully, all the hard work has paid off, and now we have a fairly reasonable budget.” LIVE hosts student events during the year, such as dinners and film festivals.

Valparaiso’s arts and sciences program actively promotes minority role models through displaying ethnic artwork and inviting dancers and musicians who reflect a variety of cultural heritages.

With many more programs in the works, and with hardworking student senators like Patty Pantoja, Valparaiso seems to be on the right track for remaining one of the most successful schools for minorities in the nation. Bello-Brunson believes that as word-of-mouth increases, Valpo’s Latino population will increase.

“There is a misconception that a private institution is not affordable; however, we have a good package with a quality education. And there is always financial assistance.”

For further information, visit Valparaiso’s website at http://www.valpo.edu or call the Office of Admissions at 1-888-GO-VALPO, toll-free.
Creating a Diversity Research Initiative

A Model to Emulate from UMB

BY ANGELA PROVITERA MCGLYNN

As a professor of psychology interested in transforming the teaching/learning process, and as a teacher committed to creating a campus climate that celebrates diversity, I was fascinated to learn about a Diversity Research Initiative undertaken at the University of Massachusetts, Boston. The project director was Esther Kingston-Mann, American Studies/History Department, and director of the Center for the Improvement of Teaching.

This initiative started in 1997, when a cohort of faculty and students from three of UMB’s five colleges created a research community that would explore issues of diversity, using the University as the site of the inquiry. The project lasted two years.

UMB sees as part of its urban mission the goal of creating a welcoming and inclusive campus. With that in mind, and aided by a Ford Foundation Grant, the research initiative had as its aim to educate and empower college students as researchers of campus diversity. UMB wanted to add a missing dimension to the national discourse—the perspectives of the urban commuter college.

The project was designed to give students a chance to acquire research skills and to explore the larger forces, values, and assumptions about diversity that tend to shape both researchers and their subjects.

This past decade, U.S. higher education has experienced dramatic demographic changes, with greater cultural diversity than ever in history. The decade has also witnessed the development of many projects for multicultural curriculum and teaching transformation. Many urban institutions, commuter institutions, state colleges, and community colleges have been in the forefront of diversity initiatives. Some institutions, such as Memphis State, Bloomfield College (N.J), North Seattle Community College, and UMass-Boston, stand out in their roles in diversity initiatives.

Institutions like these are attended by the most diverse student populations in the nation, and challenge their faculties to transform the nature of higher education. Yet the national discourse on diversity has often focused on institutions whose commitment to multicultural teaching and curriculum transformation is comparatively recent and fragile. The scholarly literature and the media often highlight Harvard, Stanford, and Berkeley and ignore the diversity initiatives of community colleges and urban commuter institutions. It is therefore quite significant that the Diversity Research Initiative emerged at a diverse, commuter institution, UMB, with a long-standing commitment to inclusive teaching, learning, and curriculum change.

All research runs the risk of encountering biased sources, biases that shape theoretical models, that influence what questions are asked and what hypotheses are posed, that dictate the choice of subjects, that affect the interpretation of results, and that even affect what results get published. Some theoretical models have inherent biases in their perspective, as, for example, the gender biases we find in Freudian psychoanalytic...
"Faculty participants had to shed their traditional "authority" role in the classroom, and assume the roles of coach, collaborator, and learner."

ANGELA PROVIDER MCGLYNN

thinking. The questions that are asked in a research study often reflect the biases of the researcher. And often, even the phrasing of questions can influence the nature of the results. For example, if a researcher asks college students, “Do you use drugs?” on a questionnaire, the response might be very different than if asking, “What drugs have you used in the past month?”

In an experimental research project, we know that the gender and race, and even the attire, of the experimenter, and other variables, can affect the results of the experiment. Interpretations of results can also harbor inherent biases. For example, in a study that asked male and female college students to estimate their scores on an Introduction to Psychology test, males estimated that their scores were much higher than did the females. This was automatically interpreted to mean that females have lower self-esteem and less self-confidence. When other researchers compared actual scores on the test with students’ estimates, it was found that males tended to inflate how well they had done while females gave a realistic appraisal of their performance. What tends to get published in psychology, and probably in other social sciences as well, is often results that are in some way sensational. For example, gender differences are published much more readily than are gender similarities.

With an understanding of the potential biases inherent in research, the UMB Initiative invited students of diverse backgrounds to engage in diversity research, for college credit, that would deepen their understanding of their own academic environment. Over a two-year period, student-faculty teams conducted research projects in which more than half of the participants, both students and faculty, were people of color. As one of the faculty participants pointed out, a major challenge of the project was to help students to develop research skills through investigation of an institutional environment by “insiders” who were part of the same community they were investigating. Both students and faculty believed they were undertaking research that really could make a difference in terms of institutional climate.

Examples of some of the many questions that were explored included: 1) What is the impact of Black Studies courses on white students? 2) What is the experience of gay, lesbian, bisexual, and transgendered students within UMB classrooms? 3) What is the degree and quality of faculty understanding of, and sensitivity to, students with disabilities? Student and faculty researchers were aware that they were being changed by what they were learning and by their interactions within and between their research teams. Students developed new conceptions of their relationship to the institution.

According to a student in the fall 1998 cohort, “The DRI was the best thing that I got out of UMB, especially being a senior and not feeling connected to the school. The project made me feel different. I felt a connection from working closely with the professors, playing a part in change, and making the school better. That’s very satisfying to me.”

Another student from the spring 1998 cohort had this to say, “One unexpected benefit was that we, the African American interviewers, learned about our own assumptions about White people in the process. This is something I had not expected, but one of the most valuable things that I’ve gotten out of the DRI experience. When you look outside for knowledge, you have to remember to look inside as well.”

The diverse backgrounds of the DRI participants were a source of insight and empathy for the research. In one group, a faculty participant told of her team’s rage and sadness at the discovery of racist attitudes held by faculty about students of Hispanic background. From The College of Nursing, Lin Zhan discussed the experience of her students, who shared not only their research findings with their seminar colleagues, but also their sadness over the pain that prejudiced remarks inflicted on their fellow students.

One by-product of the DRI was teacher transformation. Although designed as a significant learning opportunity for undergraduate college students, the project became an opportunity for teachers to challenge some of their assumptions about their own roles at the institution. Faculty participants had to shed their traditional “authority” role in the classroom, and assume the roles of coach, collaborator, and learner. In fact, there was wonderful collaboration not only between faculty within cohorts but also across cohorts as well. Faculty participants from one semester often attended seminars and presentations from the next semester and provided advice about interviewing techniques, coding of evidence, research readings, and strategies of inquiry. So the sense of community that was fostered among the student participants was also evidenced among the faculty, who became more faithful colleagues with a greater sense of institutional community.

The Diversity Research Initiative was certainly an ambitious project. The two-year initiative, through the creation of research learning teams and seminars, linked the teaching of research methodology with the creation of a collaborative, student-faculty community. The process of research, along with the findings they discovered, empowered students as researchers. It seems to me that the project at UMB moved the process of creating an inclusive institutional climate forward—while teaching students to become critical thinkers and analytical researchers, and helping them to develop a greater appreciation of diversity and empathy for others. Isn’t this what higher education should be about?

A Grain of Sand
In the Deep Hole of Misunderstanding

BY DICK KEY

Memories of my years as an American diplomat were dredged up by this letter from a friend's granddaughter:

Dear Mr. Key:
I'm working on a South America project for my fifth grade class. Would you mind answering a few questions?
1. What was your job title there?
2. What are the differences between South Americans and us? I am interested in education, religion, jobs, dress, food, cities, governments, etc.

Your friend, Jennifer

An inquiring young mind couldn't be ignored!

Dear Jennifer:
Quick answers. Understanding the complex, diverse area called South America takes years of study of the languages, customs, and aspirations of the millions of people arranged by history into different and therefore competing nations.

They all want what every human being wants—peace, happiness, adequate food, clothing, shelter, and education. Think of all these seeds and wants as one big pie. Everyone should be able to get a piece of it. But it never seems to get big enough to satisfy everybody. Even in our own country.

People and nations argue over markets, oil, fishing rights, land, access to food and minerals, and basic guarantees: of human rights and freedoms. Diplomacy is what we practice to lend our hand to the efforts of many at smoothing out the arguments between countries that crop up because of this competition. One serious problem between us, a problem that is only growing worse, is the large amount of illegal drugs produced in various countries there and smuggled into our country. In our own country, we struggle with the demand for these illegal drugs; in South America, the struggle is with the poverty that motivates farmers to produce the crops and the greed of dealers wanting to capitalize on them.

I was Cultural Affairs Officer in several U.S. embassies, arranging cultural and educational exchanges, "people to people" visits, exhibits, and book distribution, trying to get the United States and our host country to understand each other better.

I was also a public affairs officer, working with local journalists from TV, newspapers, magazines, and radio to get an accurate picture of our country put before the citizens of theirs.

I wouldn't have wanted any other job. Sincere personal friendships, with great people in each country, were mainly responsible for whatever successes I had. But, even when you've done your very best, you sometimes wonder if you've only dropped a few tiny grains of sand into a deep hole of misunderstanding. Then you think that if lots of grains of sand are dropped in over enough time, that hole will finally be filled up. To everyone's benefit.

Language is surely the key to the mysteries of another culture. So, study languages, Jennifer! Spanish, spoken in most South American countries, is already a second language in several parts of our country. Portuguese is indispensable for Brazil.

Religion? In South America, the predominant religion is Roman Catholic because of the priests who came with the explorers and the soldiers. In our country, it's the various Protestant denominations. Both priests and ministers do much good work in both parts of our hemisphere.
Education flourishes or wanes, according to the various governments' ability to support it. It's the pie again. Never big enough. Poor children in rural areas get the short end of the stick. That's why many families crowd into the cities. The city is the candy store where the goodies of civilization, especially jobs and better schooling, are to be had.

Their big cities are just as modern as any in the United States. Brasilia, a totally planned city, has architecture rivaling any in the world for beauty, form, and function. Most people dress like you and me. You'll find some native costumes on the streets only in countries like Guatemala, Peru, Bolivia, and Ecuador.

Food is as varied as the countries and climates that produce it. Rice, beans, corn, potatoes, and tropical fruits are staples. Fresh-water and ocean fish and local game and farm animals supplement them. But, of course, not everybody in an underdeveloped country gets enough food. There's that pie again!

We, in the United States, enjoy a stable democracy. It does a pretty good, though definitely not perfect, job of seeing to its citizens' needs. Its greatest strength—although some would argue that the playing field is not as equal as it should be—has been in offering opportunity to everyone to work toward fulfilling his or her personal dreams and aspirations in a free and open society.

There are some democratically elected governments in South America that are moving to follow our model. But, unfortunately, some governments have become military dictatorships, which offer their citizens oppression rather than opportunity. And, through corruption, meaning that some of the people in power take more of the pie than they leave for the rest of the citizens. South America makes little progress toward a humane, fair standard of living for the great mass of its people. Change is needed. A bigger pie, fairly divided, is needed. A democratic form of government is a big first step in this direction, although as we know full well in this country, it's only one step toward assuring fair distribution of power and assets to all citizens.

Jennifer, when you and your class study and explore further, your understanding will grow. And you will surely drop your own grains of sand into that hole I couldn't hope to fill up by myself in several lifetimes.

Good luck in your studies!
Dick Key

Now, many years later, my little friend, Jennifer, is a fine young woman enrolled at an eastern university. Guess what she's studying. Spanish. Getting ready to throw her own grains of sand down that big hole. To really understand. Way to go, Jen!

Dick Key, who earned his Ph.D. in romance languages and literatures from University of Kansas, was a U.S. cultural attaché to Argentina, Brazil, Mexico, Panama, and Venezuela 1960-71. 1976-79. He has taught Spanish at the University of Kansas and at Rutgers (N.J.) and Purdue (Ind.) Universities.

TRINITY
COLLEGE

FACULTY POSITION IN GEOPHYSICS / DEPARTMENT OF PHYSICS / TRINITY COLLEGE

The Department of Physics at Trinity College in Hartford, Connecticut is seeking applicants for a tenure track faculty position at the level of Assistant Professor with instructional duties jointly in physics and geophysics beginning in the Fall term, 2001. We seek applicants with a strong commitment to undergraduate teaching who will maintain an active program of research providing the opportunity for undergraduate involvement. A doctorate in geophysics is required. The successful candidate will be a major contributor to the creation of the College's new interdisciplinary Environmental Science Program, will develop and teach general and advanced courses in geology and geophysics, and will teach courses in elementary physics.

Qualified applicants should submit a curriculum vita, a description of research and teaching interests, a list of publications, and three letters of recommendation sent to: Prof. Barbara Walden, Search Committee Chair, Department of Physics, Trinity College, 300 Summit St., Hartford CT, 06106. Telephone: (860) 297-5324; Fax: (860) 987-6239; e-mail: barbara.walden@mail.trincoll.edu. To facilitate communication, please include your e-mail address. Consideration of applications will begin on Dec. 1, 2000 and the search will remain open until the position is filled.

Women and members of minority groups are particularly encouraged to apply. Trinity College is an Equal Opportunity/Affirmative Action Employer.

AMERICAN INSTITUTES FOR RESEARCH

RESEARCH ANALYSTS

The American Institutes for Research is a highly regarded research and development organization specializing in education, human development, human performance, employment equity and other social policy issues. Our research, evaluations, and technical assistance enable public and private sector clients to unravel complex issues and make creative, informed policy and program decisions. Positions are available for candidates with strong qualitative and/or quantitative skills.

Knowledge and experience required with American education and/or social policy issues including, though not limited to, early childhood, child welfare, special education, school reform, teacher education, test development, mathematics, reading, psychometrics or statistics. Successful candidates will have a Ph.D. in education, public policy, or another discipline that includes a specialization in education, together with strong research, writing, and interpersonal skills. Experience is a consulting environment desirable. Excellent compensation package. Forward resume with cover letter, writing samples, and availability to:

EOE
"A Great Source of Talent" for Arts and Entertainment

Strong Latino Presence at Columbia College Chicago

BY MARILYN GILROY

It reaches out to community-based organizations and forms partnerships in creating original works of theater, art exhibits, and dance performances.

It is the largest arts and communications college in the United States and one of the most diverse. Of its 9,000 undergraduate enrollment, 36 percent are minorities (20 percent African American and 11 percent Hispanic). And while the name of Columbia College Chicago might not enjoy widespread instant recognition, it has an enviable track record of success, and its talented alumni have found their place in the world of visual arts, broadcasting, and entertainment.

"What makes Columbia unique," says Mark Kelly, associate vice president of planning, "is that we have a commitment to diversity that is combined with our urban mission and our arts mission."

Kelly is referring to the strong ties that Columbia has to its surrounding neighborhoods and the cultural life of Chicago. It reaches out to community-based organizations and forms partnerships in creating original works of theater, art exhibits, and dance performances. The College also works with local middle and high schools to help prepare students for college by in-school and after-school tutoring, mentoring, and advising.

Columbia College Chicago upholds its commitment to serve urban students by maintaining a low tuition rate, especially compared to other colleges with visual and performing arts enrollments throughout the country. Its $10,500 tuition is less than half that of similar schools, such as Oberlin, Rhode Island College of Design, and Carnegie Mellon, and thousands of dollars less than other urban institutions such as the School of Visual Arts in New York and Minneapolis College of Art & Design.

"Our comparatively low tuition is a conscientious effort to provide opportunity for those who are passionate about the arts," said Kelly. "Our challenge is to provide the same student experience as those of students who are going to more expensive schools."

To do that, Columbia taps working professionals who teach classes and provide a rich combination of expertise and practical knowledge. Those...
faculties include people like Henry Godinez, a performer and director in local Chicago theater, and Gustavo Leone, who received an award from the American Academy of Arts and Letters for publishing new music. These faculty often open doors for students trying to break in to difficult fields, such as broadcasting.

Anita Padilla, a 1991 broadcast journalism graduate of Columbia College Chicago and a reporter for NBC-TV's Channel 5 in Chicago, recalled that her college's experience in commercial advertising helped her land her first job as a television station in Iowa. In a recent interview, Padilla praised Columbia College Chicago and said that it prepared her well for her career.

"I loved Columbia," she said. "I learned from real pros, not from a textbook. We went out and reported stories and had to meet deadlines." She is so enthusiastic about the College that she now serves on the Alumni Association Board.

"So many people went out of their way to help and encourage me. I want to be able to help others do what I have been able to do," said Padilla.

Another notable alumnus is George Tillman, Jr., who wrote and directed the 1997 popular film Soul Food starring Vivica Fox, Vanessa Williams, and Nia Long as three very different sisters trying to cope with the death of their mother. His latest film, Men of Honor, starring Cuba Gooding, Jr., and Robert DeNiro, was released this month.

As a student, Tillman worked for Spike Lee when the director was filming in Chicago, and he hooked up with local commercial companies to get experience and meet people in the industry. He says he sees Columbia as a "great source of talent" not only for the film industry but also for theater, music, and other creative fields.

Columbia offers a comprehensive array of programs. Undergraduates can choose from art and design programs in fine arts, interior design, fashion design, advertising design, graphic design, and product design. The communication arts programs include fiction writing and film/video programs with concentrations in cinematography, editing, sound, producing, directing, animation, screenwriting, and documentary. There are also programs in interactive multimedia, journalism, marketing, music, dance, photography, radio/sound, television, and an array of theater programs. Graduate studies include architecture and interior design.

This strong and impressive list of majors belies the college's history of struggling for survival.

Recasting Columbia's Image

How did Columbia College Chicago, which started as a women's speech college, become a premier college for education in the arts and communication? According to background from various publications, its history ascends in an irregular line from its founding in 1890 as the Columbia School of Oratory, an early pioneer in speech art education, to its position today as one of the country's leading arts and communication colleges. Along the way, it was known as the Columbia College of Expression and the Pestalozzi-Froebel Teachers College. In 1944, the name was changed to Columbia College Chicago as the curriculum began emphasizing radio broadcasting and the growing field of television, as well as other areas of communication.

Although it broadened its educational base in the 1950s and enjoyed a brief period of prosperity, Columbia was a dying institution by 1962. The College had fewer than 200 students, a part-time faculty of 25, and no endowments or visibility.

It was revived in 1963 when Mike Alexandroff became president and fashioned a new approach to liberal arts education. He repositioned the College as an affordable and imaginative place with an exceptional faculty drawn from the area's working professionals. Bit by bit, the College added programs and began to attract students who had become disenchanted with traditional universities.

As the College grew, so did its need for space. There were several periods when Columbia relied on rented facilities, but eventually, it purchased buildings in surrounding neighborhoods, thus enabling the College to set up film, photography, and sound studios, as well as theater and dance labs and academic offices, science laboratories, and general classrooms.

Alexandroff retired in September of 1992 after a 30-year tenure as president, having been the leading force behind its growth and development.

He was succeeded by John Duff, who led the institution to its current size of 9,000 students, 1,100 full- and part-time faculty, and a staff of 350. Within these numbers, the college's high minority enrollment is a source of pride, especially when compared to universities that enjoy more prestige and recognition. In a national survey of 32 private colleges with undergraduate visual and performing arts enrollments of 500 or more, Columbia had the highest Hispanic enrollment and exceeded the average Hispanic enrollment by more than five percent. Every effort is made to hire instructors who will be role models and provide inspiration for diverse students. Currently 207 percent of the College's full-time faculty is minority, with 45 percent Hispanic.
The curriculum reflects this diversity with classes such as Latin American and Caribbean History; Latinas in United States History; Latino Theater; Latin American Art, Literature and Music; and Hispanics in the United States, which examines historical and contemporary Hispanic issues. The College offers a minor in Latino/Hispanic Studies.

Supporting the academic offerings is the Latino Cultural Affairs Office, which was established in 1994 and participates in the U.S. Hispanic Leadership Institute Collegiate Leadership Development Program. Columbia also hosts the International Latino Cultural Center of Chicago, which organizes a yearly international Latino film/video festival as well as retrospectives, special screenings, lectures, workshops, and special events with directors and cinema artists to celebrate and increase awareness of Latino culture.

These partnerships and activities to promote awareness of minorities' contributions to the arts are a part of the college's larger context of playing a central role in providing enlightenment for students and the public. "After all," said Mark Kelly, "the Black and Latino cultures have dynamic undercurrents that feed American culture and the arts."

Because of its increasingly active role in Chicago's cultural life, Columbia has solidified its relationships with the community by establishing the Office of Community Arts Partnerships (OCAP). Created in 1998, OCAP was founded to enable the College to more fully realize its commitment to make itself a vital part of the community and to better prepare students to "author the culture of our time." It is the arm of the College that works with faculty and students in developing meaningful relationships with community residents.

Its community-based audience-development initiative aims to attract audiences for all the arts, especially among underserved populations who formerly had little or no access to the arts and communication fields.

Julie Simpson, who has directed the OCAP for two and a half years, said, "We focus on relationship-building. Until the OCAP was created, there was no centralized hub for what united the College and community. This provides a real, true reciprocal resource-sharing partnership." For example, one of the programs under the umbrella of OCAP is the Urban Missions Project, which involves representatives from five college departments and four community organizations. Two of the projects include the pairing of Columbia College's theater department with young people from the Association House of Chicago to create an original theater work and collaboration between the College's photography department and Free Street Programs for a photo exhibit.

OCAP is funded by several endowments that support partnerships between higher education institutions and their surrounding communities.

"The Lila Wallace Reader's Digest Foundation has provided us with support for six years," said Simpson. "And the Council of Independent Colleges has also provided funding."

One of OCAP's most exciting partnerships is Urban Credo, which hosts master artists from Chicago who conduct teaching "residencies" throughout the city for students interested in rhythm and dance traditions of Africa, Puerto Rico, and Brazil.

Columbia College Chicago's mission of diversity is also carried out through unique programs offered by Columbia 2—the Division of Continuing Education. Participants can earn a certificate in Mexican Studies offered in collaboration with the Mexican Consultate of Chicago and the Mexican Institute for Education and Culture in Chicago. The program consists of eight courses covering aspects of Mexican history, culture, literature, art, and politics as well as specific topics such as immigration, the Mexican experience in the United States, and relations between Mexico and the United States. Instructors are distinguished Mexican scholars from the Chicago area and visiting scholars from Mexico.

A New Era

Columbia has its eye on the future and has begun to fashion plans that will give it an international presence in the arts. Leadership in this endeavor will come from a new president, Warrick L. Carter, who assumed office on September 1. His knowledge of opportunities in the global community is the result of his previous position as the director of entertainment arts for Walt Disney Entertainment. Prior to that, he served for 12 years as dean of faculty and provost of academic affairs at Berklee College of Music. Carter is also a composer, jazz percussionist, and director of two internet start-up companies. In accepting the presidency, Carter identified several challenges that he has begun to tackle.

"First of all, I hope we can increase Columbia's visibility on the national and world stage. We have a great product, and we need to celebrate that. In addition, we need to increase our endowment so that we have the funds to do the things we want to do. In addition, we have to aggressively reach out to the arts and communications industries both locally and globally so that we develop partnerships and exchange programs that serve our students and faculty."
Straight Talk and Tough Stands

Ana María Salazar, U.S. Department of Defense

BY INÉS PINTO ALICEA

Foreign dignitaries often think that Ana María Salazar is an interpreter or someone's administrative assistant. But as the highest-ranking Latina in the U.S. Department of Defense, she is quick to clear up any confusion with her straight talk, tough stands, and overall presence.

"They are surprised to see me heading delegations," said Salazar, a 38-year-old Mexican American. "You have to take this with grace."

It's easy to see why people might get confused. Salazar, who was born in Tucson, Ariz., but as a younger was raised in Hermosillo, Mexico, looks much younger than her years, is a civilian, and is a woman, a combination not often encountered in military circles around the world.

An expert in the field of law enforcement, judicial reform, and mediation, she was appointed in July 1998 to her current position as deputy assistant secretary of defense for Drug Enforcement Policy and Support. In this role, she oversees an annual budget of $1 billion, which supports the Defense Department's anti-drug program in the U.S. and more than 20 other countries. Louis Caldera, the secretary of the Army, is the highest-ranking Latino at the Defense Department.

While her job is demanding and high-powered, Salazar said that she values the important role education has played in her life. She takes every opportunity she can, publicly and privately, to extol the virtues of education and to encourage other Latinos to follow suit.

"If there is a moment in our history when we most need Latino role models, the moment is now," she wrote in a column for the September issue of Hispanic magazine. "We all recognize that education is the single most important factor in determining whether one Latino or a whole community can move up and out of a cycle of poverty and violence."

Salazar said the Latino community has made significant progress in a number of areas and should be proud of that, but she said one of the most crucial areas the Latino community still needs to work on is education.

"We must take on the responsibility ourselves of making sure young Latinos have good role models," Salazar said. "We need to say to them, 'Your life will be different..."

### if you graduate from high school and go to college. It makes me so sad to see the low high school graduation rate among Latinos. In a room of 100 high school Latino students, only 60 will walk out of that room with a high school diploma.

Salazar said that not only were her parents excellent role models who encouraged their children to further their educations but other Latinos played pivotal roles throughout Salazar’s educational career in helping her advance. In 1986, prior to Harvard, she received a B.A. from the University of California at Berkeley.

“At each stage, there was a Latino or Latina who spent time with me, encouraging me to move on,” she said. “People encouraged me to seek these different opportunities.”

Salazar said that the Latinos who played these pivotal roles in her formation were not necessarily people who taught her anything specific. Instead, they cheered her on.

“What was important was that someone cared about me and said, ‘You can do it,’” she said. “That encouraged me to move ahead.”

Salazar said that while it is important to have role models such as singers and actors, the Latino community must urge those role models to glamorize education as well. She cited the recent airing of the Latino Grammy Awards as a wonderful opportunity to encourage education among Latinos.

“When I saw the Latino Grammys, I was so excited, but it was a wasted opportunity because the word education never came up,” she said. “That was an important forum. Don’t get me wrong. I have nothing against athletes, actors, or singers. My concern is that these individuals do not necessarily promote, encourage, and glamorize what our community most needs: education. Education, Education.”

Salazar said many professional Latinos don’t see the value of their work and the important role they play in the Latino community. In her column, she said the Latino community must accept that it is the “most undereducated community in our nation” and not claim that this lack of education among Latinos is simply other people’s stereotypes of Hispanics. She said that for addressing this “reality,” Latino role models who encourage education are essential.

“We have opportunities to be heroes in our communities,” she said in her interview with The Hispanic Outlook. “We Latinos don’t see ourselves as heroes. We see ourselves as regular, everyday professional Latinos and Latinas. But it’s easy to be a hero. We just need to spend time talking to young people. We need to take on the responsibility of talking about education. We need role models who encourage and glamorize education.”

And they don’t need to be entertainers or people in the public eye, says Salazar. “We are looking for your regular, hard-working Latino, proud of his or her heritage and language, supported by families and communities, who was encouraged to flourish and graduate. Those are the kinds of heroes we should hail. Those role models are you and I.”

She also wrote that the Latinos who have already made it in their professional lives “must give back to their communities by publicly advocating education.”

“We cannot and should not expect anything less,” she said. “Those of us who were fortunate to receive our education and diplomas owe our success to people who cared for us, served us as role models, and helped shape our lives and dreams. Now it is our turn to ensure that today’s youth get a fair chance to pursue their dreams and to succeed. It doesn’t take very much. You can make a difference in a young Latino’s life. I encourage people to become role models in the Latino community.”

At the Defense Department, Salazar regularly meets with students to discuss issues, and she also is a strong supporter of bringing student interns into her offices.

More information on internships within the Office of the Secretary of Defense is available at www.defenselink.mil or by calling Diana Hall at (703) 617-1178. Interested students will be asked to send a résumé, cover letter, and transcripts for the internships, some of which are paid. Also, the Hispanic Association of Colleges and Universities, based in San Antonio, Texas, sponsors paid internships for Latino students to work in federal government offices.

While the Clinton Administration winds down, Salazar, who is a political appointee and will be out of her job in the new year, is sitting quietly waiting for her next opportunity. Salazar said she is currently trying to create a senior advisory Hispanic working group within the Department of Defense to better address Latino concerns within the agency. She said she is having discussions with Defense Department leaders about the development of such a group.

“If we don’t speak up as Latinos, who will speak up?” she said about her efforts to organize a group of Latinos in the agency. As for the future, Salazar said she has been blessed with jobs that she has enjoyed and she does not worry about what is in store for her after President Clinton leaves office.

“I have faith I will find something I like,” she said.

Her absence at the Defense Department will be felt. Latinos are severely underrepresented in the
federal government, particularly in high-ranking positions. For example, in the Defense Department, 14 Latinos comprise 1.2 percent of the 1,211 employees in the highest government grade—the senior executive service, according to Defense Department statistics. Moreover, Latinos represent only 2.9 percent or 2,114 of the 72,023 employees in the next highest-rank grades in the federal government—GS 13-15, those statistics indicated.

Latinos do not fare better in other areas of the federal government. They make up 6.4 percent of the more than 1.8 million federal government employees, according to 1998 government statistics from the Office of Personnel Management. Those same records show that Latinos comprised about 6.2 percent of the nearly 710,000 Department of Defense employees. In the overall U.S. workforce, Latinos, however, represent 10.3 percent of all workers, which highlights the underrepresentation of Latinos in the federal government, according to the Bureau of Labor Statistics.

Still, while Salazar's days as an assistant secretary in the Defense Department might be coming to an end, her presence will be felt for a while because of the growing interest of the U.S. government in anti-drug efforts in Colombia, which she has overseen. The U.S. government recently gave the Colombian government $1.3 billion to help it reestablish government control and wipe out drug-producing plantations. The aid was designed to help Colombian President Andres Pastrana carry out his so-called Plan Colombia, which his government has portrayed as a strategy for peace that will include social and economic programs for small farmers so they can turn away from growing coca.

Colombia, which produces 80 percent of the world's cocaine, is the third largest recipient of U.S. aid, after Israel and Egypt. The aid package to Colombia has been highly controversial both in Colombia and in the U.S. Congress. In Colombia, citizens fear the U.S. military will. The U.S. Congress expressed a similar fear. But Salazar reassured House subcommittee members in her testimony that there are numerous "restrictions, constraints, and reviews that are involved in the approval of the deployment of U.S. military personnel on counter-drug missions in Colombia and elsewhere."

"Drug abuse is an undeniable threat to our national security that is measured in thousands of lives of foreign nations, to interdict the flow of drugs into our country."

In her testimony, she said that the United States is the nation with the greatest cocaine demand, consuming more than 200 metric tons annually from the Andean region. The Defense Department's primary role has been to provide training and equipment to facilitate drug interdiction, primarily in Colombia, Bolivia, and Peru. While a large portion of the programs she oversees are domestic, she also supervises a number of programs around the world where the office supports law enforcement in its.

In 1986, prior to Harvard, Ana received a B.A. from the University of California at Berkeley.

Salazar is the point of contact for the Office of the Director of National Drug Control Policy, and serves on boards, committees, and other groups pertaining to drug control matters.

Prior to joining the Defense Department, she was policy advisor at the White House for the president's special envoy for the Americas. From 1995 to 1997, she was at the U.S. State Department's Bureau of International Narcotics and Law Enforcement Affairs. Within a year of graduating from law school, Salazar was named judicial attaché at the United States Embassy in Bogota, Colombia, where she assisted in the prosecution of drug-trafficking kingpins until 1995. Also in Colombia, she acted as the project coordinator for the $36-million project designed to improve the administration of justice in that country, and helped Colombians in their efforts to draft a new constitution. Other international experience includes her work in Guatemala as the director of the judicial training program sponsored by Harvard Law School's Center for Criminal Justice.

"The Colombian people were wonderful," she said. "It was a matter of being in the right place at the right time. I had the opportunity to work with heroes, people who were willing to give up their lives for their country. It's not every day that you get to work with heroes."
Beginning teacher salaries and the cost of living in the mountains are keeping new bilingual teachers from moving into the area as quickly as people need their skills.

"We can't recruit bilingual teachers to work here in our resort communities," said Professor Laura Marasco, who teaches part of the program and directs it for CMC. "So we have to grow our own." CMC does it by finding people who have already found ways to live in the mountains, and teaching them to be bilingual teachers.

George Washington Honors Costa Rican President

The George Washington University in Washington, D.C., presented Costa Rican President Miguel Angel Rodriguez with an honorary doctorate of laws, "the continuation of a close relationship between Costa Rica and The George Washington University," said Stephen Joel Trachtenberg, university president. "Every year for more than a decade, students from George Washington have gone to Costa Rica to study abroad."

Rodriguez was sworn in as president of Costa Rica in May 1998 after serving in its legislative assembly for several years and writing many books and articles on economics, politics, and social philosophy. He was educated in law and economics in Costa Rica and at the University of California-Berkeley, and taught economics at universities in Costa Rica and the U.S.

Southern Colorado Controller Named "Rising Star"

The National Association of College and University Business Officers (NACUBO) gave Donald M. Ortega, Southern Colorado (USC) controller, the Rising Star Award, which recognizes outstanding individuals with high potential to succeed as executives in higher education.

Ortega was credited with leading several successful initiatives at USC, including creation of a one-stop shop for student financial services, recognized by the Sallie Mae Foundation as one of the 10 most important such initiatives of the year. Ortega has a bachelor's degree from the College of Santa Fe.

Also at USC, Dr. Russell J. Meyer was named dean of the College of Humanities and Social Sciences, and Rex D. Fuller became dean of the Hasan School of Business.

Texas A&M-Corpus Christi Newsmakers

Gerardo Moreno, director of the Tutoring and Learning Center at Texas A&M University-Corpus Christi, was certified as a developmental education specialist by the Kellogg Institute for the Training and Certification of Development Educators, one of about 30 educators nationwide to participate in the institute during the 1999-2000 academic year, and one of fewer than 700 in the field to be so certified. The Institute, now in its 22nd year, offers a month-long living and learning experience for education professionals who work with academically underprepared students on college campuses.

Dr. Joe M. Fox, physical and life science professor, and Dr. George Tintera, mathematics professor, received grants of $161,315 and $149,974, respectively, from the U.S. Department of Agriculture. Both hope to use these grants from the Cooperative State Research, Education and Extension Service to encourage students to pursue careers related to the agricultural sciences.

Delaware's First Celebration of Hispanic Heritage Month

The University of Delaware celebrated the first-ever campus observance of National Hispanic Heritage Month with a series of events, including many films, recognizing the richness and diversity of Hispanic culture.

Guest speaker Carmen Whalen of the Puerto Rican and Caribbean studies department at Rutgers University presented research on Puerto Rican migration to the Philadelphia area; the film The Heroes de otra patria told the story of the 40,000 Puerto Rican soldiers who engaged in the Vietnam War; the authentic voices of rural Colombians and Boston youth were heard through the films of Daniel de Leon and Patricia Valladares; and the film,
Twenty-two years ago, Zavala became the second Chicano in the country to receive a doctorate in botany. “That was grim, and the statistics aren’t much better today,” she said. “There aren’t that many of us out there who love to be researchers, teachers, and professors. We have a responsibility to show our students that it is possible and to help them along the way.”

Saint Mary’s Explores Chicana Identity

“Chicana 2000: Emerging Identities” is the campus-wide theme this semester at Saint Mary’s College in Indiana. The goal is to educate the college community about a growing segment of the student body and society at large—Mexican American women.

The theme has permeated most areas of teaching and learning at Saint Mary’s.

Dating back to the 1960s, the term Chicana has been said to signify a different kind of Mexican American woman: a politicized, proactive, progressive one. Mexican culture has dictated that women assume mainly traditional female roles. Chicanas are said to break the mold by pursuing leadership roles and careers outside the home. And they are more likely to attend college.

“To me,” the term Chicana signifies a Latina with a voice who is not afraid to speak her mind and make her own way,” said Saint Mary’s senior Nikki González.

Santa Monica Students Selected for Gates Scholarships

Five Santa Monica College (Calif.) students are inaugural Gates Millennium Scholars recipients and will receive substantial scholarships throughout their college careers. Microsoft founder Bill Gates announced a year ago the creation of the 20-year, $1-billion initiative for high-achieving students from low-income minority families.

Awardees are anthropology major Debbie Gutiérrez, Quan Chau, Annette Ford, Dawn Graham, and Jayme Wilson. Gutiérrez is a member of Alpha Gamma Sigma, the College’s honor society, and the anthropology and astronomy clubs.

Dr. Piedad F. Robertson, Santa Monica College president, is on the Gates Millennium Scholars Program Advisory Council.

Anaya Wins Award at Southwest Texas State

Angels, devils, spirits, and bogeymen inhabit children’s Hispanic literature as a means of teaching culture, respect, and values. Rudolfo Anaya has captured some of the most beloved children’s cuentos along with his own original tales in My Land Sings: Stories from the Río Grande.

For its originality in presenting these stories and its broad appeal to children, the book won the 1999 Tomás Rivera Mexican American Children’s Book Award, sponsored by Southwest Texas State University’s College of Education and Department of English and endowed by Anheuser-Busch Companies, Inc.

Anaya, often referred to as the padrino of Chicano literature, is the fifth winner of the Tomás Rivera award. A retired University of New Mexico professor, Anaya works as author, activist, and mentor to budding Chicano and Southwestern writers.

Lamadrid Portrays Historical Figure at New Mexico

The University of New Mexico (UNM) General Library brought history to life during Welcome Back Days, a campus tradition designed to raise awareness of UNM programs, services, and opportunities.

Enrique Lamadrid, associate professor in Spanish and Portuguese, dressed as and assumed the role of Rafael Chacon, a 19th-century military man who later served several terms in the Territorial Legislature. Lamadrid says that Chacon was witness to and participant in some of the most significant events in the formation of modern New Mexico, spanning the entire Territorial period in New Mexico—including the turbulent and decisive times between U.S. military invasion in 1846 and statehood in 1912. According to Lamadrid, Chacon committed his history to paper.

“His voice is clear and strong on all the issues of his day,” said Lamadrid, “issues important for us today as Nuevo Mexicanos.”
Young Gates Millennium Scholar Attends Mary Baldwin

At 16, Giannina Garces is possibly the youngest Gates Millennium Scholar. A junior biochemistry major at Mary Baldwin College in Virginia, Garces is a student in the program for the exceptionally gifted (PEG).

Garces received a PEG academic achievement award scholarship, given to PEG students with a cumulative GPA of 3.5 or higher, her first year in the program, and recently was given a PEG merit and leadership award. Garces also received the Hispanic Scholarship Fund award for spring 2000, and is an honors scholar, having earned a GPA of 3.75 GPA or higher.

Garces has volunteered at her local library and at a nursing home, and has been a teaching assistant and tutor for the biology, mathematics, and chemistry departments at Mary Baldwin.

Eastern New Mexico Program and Student Earn Recognition

The National Institute for Automotive Service Excellence (ASE) honored the Eastern New Mexico University-Roswell automotive technology program, including instructors Ray Torrez (l) and Bob Scribner (r). Based on an extensive evaluation, the program earned the highest level of achievement. All eight areas reviewed met the strict industry standards required for ASE master certification of the program.

Respiratory therapy student Jeff Molina received the Cory Sufrin scholarship from the New Mexico Society for Respiratory Care. Instructor and program director Gina Buldra (r.) handed Molina (l.) a $100 check and certificate. The selection was based on leadership skills, grades, cooperation, need, and an essay.

Western Illinois Hosts Global Ed Conference in Washington, D.C.

WIU The inaugural Partnerships for the Education of Future Global Business Leaders conference, co-sponsored by Western Illinois University (WIU), convened in Washington, D.C. Participants worked collaboratively to create strategies for building networks, enhancing professional development, and promoting curricular enrichment. WIU's cross-cultural educational programs (CCEP), College of Business and Technology, and the School of Extended and Continuing Education hosted the conference in conjunction with the Gordon Ford School of Business at Western Kentucky University and the University of Ottawa's faculty of administration.

More than 50 faculty and professionals from U.S. educational institutions attended, as well as partners from Canada, Mexico, and Europe. For a few years, WIU has been part of an international exchange program with universities in Canada and Mexico. "Western is bringing global perspectives, experiences, and awareness into the traditional educational curriculum," said CCEP director and conference co-coordinator Carol Fimmen.

Howard Co-hosts Diversity Venture Capital Conference

Howard University's (Washington, D.C.) Small Business Development Center, the District of Columbia Office of Banking and Finance, and Axis Partners, LLC, a private investment banking firm, formed an alliance that sponsored the inaugural Diversity Venture Capital Conference in Washington, D.C.

The conference featured a series of workshops designed to address the critical issue of access to capital among small, women-owned and minority businesses. Workshop topics included "The Art of the Deal" and "The Investor's Tools." Another workshop, "The Deal Room," provided aspiring entrepreneurs an opportunity to pitch their companies to an audience of qualified investors.

The Congressional Black Caucus Foundation co-sponsored the conference.

News from the White House

President Clinton, in partnership with the Department of Education, announced America Goes Back to School, 2000, a nationwide initiative to encourage and support family and community involvement in improving children's learning.

"The initiative's theme, 'Challenge Our Students and They Will Soar,' reflects the importance of setting high expectations for America's young people and reminds us that we each have a role to play in providing our nation's students with the schools, teachers, and standards they need to achieve their dreams and succeed in this new century," he said.

He said too that while his administration's proposed education budget for fiscal 2001 addresses the need for adequate classroom space and more qualified teachers, it is the cooperative efforts of local school boards, families, and communities that will make the crucial difference in preparing children for the future.

Pomona Promotes Teixido

Mercedes Teixido, a member of the Pomona College (Calif.) faculty since 1995, was promoted to associate professor of art and granted tenure. Teixido teaches Introductory Drawing, Advanced Drawing, Issues in Contemporary Drawing, and Installation: Art and Context.

Teixido's art has been shown throughout the world, including two recent solo exhibitions, "Instalación," at La Manzán de la Rivera in Asunción, Paraguay, in 1999, and "Love Letters," at the Joyce Goldstein Gallery in New York in 1998.

She has a bachelor's degree from Wake Forest University and a master's from the University of Arizona.

Cabrantes Joins Columbia Trustees

Columbia College alumni José Cabrantes, a U.S. Court of Appeals judge since 1994, was elected to the Columbia University (N.Y.) board of trustees.

A member of the Council on Foreign Relations, Cabrantes was counsel to the International League for Human Rights from...
1971 to 1977 and its vice president from 1977 to 1980. He was a founding member of the Puerto Rico Legal Defense and Educational Fund in 1972, chaired its board from 1977 to 1980, and also chaired ASPIRA, a national organization that develops leadership skills among Puerto Ricans.

Cabrera was general counsel of Yale University (1975-1979) and, from 1973 to 1975, special counsel to the government of Puerto Rico. He headed the Office of the Commonwealth of Puerto Rico in Washington, D.C.

Along with Cabrera, Richard Witten was named a trustee.

**Texas A&M-Corpus Christi Professor Receives NEH Grant**

Dr. R. Anthony Quiroz, assistant professor of history at Texas A&M University-Corpus Christi, received a competitive National Endowment for the Humanities “Extending the Reach: Faculty Research Award” of $24,000. The award will allow Quiroz time off from University duties to turn his 1998 dissertation on the formation and expression of Mexican American identity into a book.

In “Claiming Citizenship: Class and Consensus in a Mexican American Community,” Quiroz studied the Mexican American experience in Victoria, Texas. Rather than finding open militancy and resistance, Quiroz saw a quiet but significant struggle taking place for equal access to the rights and responsibilities of citizenship that, when fully experienced, could lead to material and personal success.

**UCSB Conference Weighs Religion’s Role in Latino Activism**

At the core of the Civil Rights Movement of the 1960s, ’70s, and beyond was the leadership of the African American clergy: Dr. Martin Luther King, Jr., the Rev. Ralph Abernathy, the Rev. Jesse Jackson, and many others.

Has religion played a similar role in the struggle of Hispanic Americans for equality and fair treatment in American society?

The Hispanic Churches in American Public Life project addressed the topic at a national conference at the University of California-Santa Barbara. Panel discussions included “Religion and Political Activism in the American Southwest,” “Church and Faith-based Civic Empowerment,” “Church-State Conflicts in the U.S. and Puerto Rico,” and “César Chávez and the Politics of Civic Engagement.”

Among many others, Dr. Lara Medina, Cal State-Northridge, presented “The Challenges and Consequences of Being Latina, Catholic, and Feminist.”

**Cooley Releases Program Achievement Rating**

The Thomas M. Cooley Law School (Mich.) released the third annual Program Achievement Rating (PAR) study, which ranks U.S. law schools using data published annually in the American Bar Association’s Official Guide to Approved Law Schools.

The PAR comparison ranking system uses only objective criteria—the selectivity of the schools and their bar passage rates. Schools that are less selective in admissions but produce positive bar results demonstrate that their academic programs have intellectual rigor, according to Don LeDuc, Cooley dean. Schools with challenging academic programs and rigorous standards are proving that they can produce bar results equal or superior to those of schools that are more exclusive in their admissions programs.

LeDuc said that schools with relatively open admissions provide access to the legal profession to groups that were historically denied that access.

(Ed. note: see the 11/05/00 issue of HO for feature story on Cooley and PAR.)

**Luciano Headlines Central Michigan’s Hispanic Awareness Month**

Felipe Luciano, journalist, entertainer, and activist, gave the keynote address during Central Michigan University’s Hispanic Awareness Month.

Luciano is founder and chair of the Young Lords Party, a grassroots organization with a commitment to community empower-

ment, ethnic pride, and civil rights. He is a former network news anchor for WNBC and co-host of Good Day Street Talk on the FOX Network. He was a feature journalist for New York publications such as the New York Daily News and The New York Times.

“The success of my career comes from reaching new and emerging markets by being goal-oriented and process-driven,” said Luciano. “Clearly identify what you want to achieve and navigate the road to its achievement by learning from history’s lessons.”

**Two Pasadena City Faculty Visit Havana**

Pasadena City College (Calif.) professors Coleman Griffith and Dr. Brock Klein spent a week in Havana, Cuba, the undisputed political, cultural, and economic center of Cuban life. Klein, associate professor of ESL, wanted to spend his time visiting language schools and studying the art of Havana. Griffith, assistant professor of architecture, is passionate about the people and the architecture.

Klein observed that racially the society sees itself either black or white and that while the society is not entirely polarized, there clearly is some discrimination against Afro-Cubans. Griffith said that while the architecture shows the wealth of previous periods in history, including Spanish colonial and American neo-colonial, many buildings need restoring.

Both said that the Cuban people are open: “they love Americans, they are excited about Americans and want news about America.”

**Fulbright Scholar Lectures at City College of San Francisco**

Luis-Martin Lozano, renowned curator and critic, lectured on Diego Rivera and Mexican modern art at City College of San Francisco (Calif.). Lozano received a Fulbright scholarship to lecture on the subject as well as to research the Pan American Unity mural at the college.

Lozano has spoken extensively at private and public museums in Mexico, Spain, Germany, Japan, and the U.S., and is known for his writings and lectures on Mexican modern masters of the 19th and 20th centuries, such as Diego Rivera, Rufino Tamayo, María Izquierdo, and Frida Kahlo.
Rivera’s mural, “Pan American Unity: Marriage of the Artistic Expression of the North and South of this Continent,” is owned by City College and housed at its Diego Rivera Theatre.

**News from Multicultural Marketing Resources, Inc.**

The Chase Manhattan Corporation has launched a corporate branding campaign targeting Hispanics in New York and Texas. "At Chase we recognize how important Hispanics are for our business, and we are committed to providing our Hispanic customer our broad portfolio of products and services in an in-language, culturally friendly setting," said Rika Levin, vice president of marketing.

Tuzona.com, a new company providing Hispanics in the U.S. and Latin America with easy access to the world of technology, joined the Women's Technology Cluster. Aiming to become the preeminent English/Spanish bilingual e-commerce site, Tuzona will offer the U.S. Hispanic and Latin American markets business-to-consumer and business-to-business technology products, information, and services.

HTVN, based in Fort Worth, Texas, has been serving the Hispanic population with more than 40 affiliates and 17 owned television stations, broadcasting to more than 20 million U.S. homes through cable and broadcast feeds, and through its affiliate Internet portal, Cubico.com.

**Villarreal Attains New Post at Palo Alto**

Velda Villarreal was named dean of student services at Palo Alto College, a community college in the southern sector of Texas’ Bexar County.

As its director of academic support services since 1994, she supervised the assessment office, student learning assistance center, and some special programs. As dean, she oversees admissions, counseling, testing, tutoring, recruitment, and student activities.

Villarreal has a bachelor’s degree and a master’s, both from St. Mary’s University.

**Barloco Becomes UTSA VP for Administration**

A senior executive with nearly 30 years of management experience in complex organizations became the new vice president for administration at the University of Texas-San Antonio.

Gerald H. Barloco, a retired colonel in the U.S. Army Reserves, recently was senior VP for information technology at the United Services Automobile Association in San Antonio, responsible for a division of more than 1,800 professionals.

Barloco has a bachelor's degree and a master's, both from St. Mary's University.

**Cal Poly Pomona Filmmakers Discuss New Documentary**

California State Polytechnic University-Pomona's College of Letters, Arts and Social Sciences screened *Maquila: A Tale of Two Mexico's*, a new documentary by Saul Landau and Sonia Angulo, Cal Poly Pomona filmmakers, who were on hand to discuss the film.

The documentary explores the corporate globalization process on the U.S.-Mexico border and contrasts it to the Chiapas jungles, where mobilized army convoys invade Mayan villages and take women who pick coffee to assemble telephone jacks at Juárez factories. *Maquila* profiles the newly arrived factory workers and has candid interviews with maquila owners. It examines "progress" in the midst of chilling sequences about the rape and murder of more than 200 women in Juárez.

**Maestas Assumes New Post at New Mexico**

Dr. Ricardo Maestas became executive affairs officer at the University of New Mexico (UNM), where he now serves as the chief aide to UNM President William C. Gordon and the UNM board of regents.

Maestas left his position as its associate dean of undergraduate studies but continues to lecture in the College of Education. He is now a member of the executive cabinet, which addresses institution-wide policy and planning.

Recently, he successfully defended his doctoral dissertation at the Center for the Study of Higher and Post-Secondary Education, University of Michigan-Ann Arbor. His bachelor's degree and master's are both from UNM. He has a certificate from the management development program, Graduate School of Education, Harvard University.

**Florida Sends Journalism Students to Costa Rica**

Fifteen University of Florida students in a newly developed program nicknamed the Florida Fly-Ins flew to Santa Cruz, Cost Rica, to gain field experience in international journalism.

Photographers and writers at the graduate and undergraduate levels teamed up during the 10-day trip to document the Santa Cruz culture and community. Course members were to publish an online magazine and produce an exhibition upon their return. Students spent the first part of the semester researching Costa Rica in the University’s Latin American studies special library collection and listening to expert guest lecturers, in preparation for writing and shooting their stories.

Pulitzer Prize winner John Kaplan and Dr. Kurt Kent, faculty members in the College of Journalism and Communications, conceived and developed the course.

**Bowling Green State Students Elect Leaders, Celebrate La Union**

Marcos Popovich and Rebecca Nieto respectively were elected president and vice president of the undergraduate student government for the academic year at Bowling Green State University in Ohio. The election marked the first time a Latino was elected president of the student organization and the first time both officers are Latino.

Well over one hundred students attended the opening session of Bowling Green State's La Union de Estudiantes Latinos, celebrating the organization's 30th anniversary. La Union is one of the most active student organizations on the campus. Dr. A. Rolando Andrade, associate professor in the department of ethnic studies, said the high student turnout is something he has never seen in his more than 20 years at the university.
McDonald's Licenses Future Networks Software

Fusion Networks announced that McDonald's, the world's largest global food-service retailer, is licensing Fusion Networks' Internet software to create a Hispanic-oriented portal, located at http://www.lomcximo.com. Designed to serve the U.S. Hispanic market, the portal will be featuring multimedia and multilingual content with interactive product-branded games designed specifically for McDonald's by Fusion Networks.

Fusion is a leading provider of One-to-One Internet marketing software, portal technology, applications, and content designed to enable corporate customers to develop effective Spanish, English, and Portuguese-related Internet strategies.

Abraham Baldwin Names Martínez CAMP Recruiter

Samuel Martínez is the new recruiter for CAMP, the College Assistance Migrant Program at Abraham Baldwin Agricultural College in Georgia.

As CAMP recruiter, Martínez's primary responsibility is to recruit students into the college's CAMP program by contacting schools, migrant outreach programs, and anyone else who works with migrant students. He also attends community events where he can come in contact with students and their parents.

Martínez has worked directly with migrants before, conducting office intake, providing transportation to those who needed it, and helping with food, shelter, and translation services related to medical attention. He has also worked with a mentoring program that encouraged migrant students to finish high school and possibly go on to college.

Martínez has a bachelor's degree from Bowling Green State University.

Dr. Giraffe Dean of Southwestern's New Multicultural Studies School

Dr. Yara Giraffe is leading the new School of Social Sciences and Multicultural Studies at Southwestern College in California.

"The disciplines available in this new school reflect every single class a student would need to respond to culture, politics, and economics in our local area and community," says the new dean.

Giraffe has a bachelor's degree from Colorado State University, a master's from Sonoma State University, and a doctorate from the Saybrook Institute.

LIU-Brooklyn Pays Tribute to Puente

A tribute to the late great "King of Latin Jazz," Tito Puente, took place at Long Island University (LIU)-Brooklyn in New York as part of the music department's Jazz Clinic and Concert Series. Three members of Puente's band—percussionists Johnny Rodríguez and Joe Madera, who is also band director, and saxophonist Mario Rivera—played the music of the Latin bandleader with LIU's Big Band.

Ernesto Antonio "Tito" Puente Jr., who often played at the Brooklyn campus with LIU's Big Band, and received an honorary doctorate from the University, died June 1. The Puerto Rican percussion legend grew up in New York City's El Barrio, starting his professional career as a drummer. After 177 albums and 400 original songs, the bandleader and composer continued to play salsa with an edge, remaining true to his Afro-Cuban and New York urban roots. His many honors included induction into the International Jazz Hall of Fame and the National Congressional Record, a Smithsonian Medal and a Medal of the Arts, a star on the Hollywood Walk of Fame, and five Grammy awards.

Palo Alto Holds Tejeda Scholarship Fundraiser

Palo Alto College in Texas and Sam's Club held the fourth annual fundraiser to benefit the Frank M. Tejeda/Palo Alto College Scholarship Fund.

The scholarship fund was established in honor of the U.S. congressman in April 1996. He died of brain cancer in January 1997.

La India Debuts at N.J. Performing Arts Center

NJPAC Having burst upon the scene with cool, innovative music bearing the combined signature motifs of salsa, jazz, hip-hop, blues, funk, Afro-Cuban, and gospel, La India debuted at the New Jersey Performing Arts Center, in Newark.

Born in Puerto Rico and raised in the Bronx, N.Y., Linda Caballero (her given name) began voice training at age 8. As a child, she sang in an African American church choir as its only Puerto Rican member, an association that clearly influenced her current style.

La India has enjoyed glowing reviews from The New York Times, El Diario, Rhythm Music Magazine, and Billboard.

Aztlan: A Journal of Chicano Studies, Vol. 25, No. 1

Chon A. Noriega, ed.

The 30th anniversary issue of this interdisciplinary, refereed journal—dedicated to scholarly research relevant to or informed by the Chicano experience—looks to provide a new image as it enters the 21st century. At the same time, it still holds itself "under the gaze of a self-critical eye," as it serves the Chicano community.

Spring 2000. 244 pgs. ISSN 0005-2604. $1250 paper. UCLA Chicano Studies Research Center. (310) 825-2642.

Market Values in American Higher Education: The Pitfalls and Promises

By Charles W. Smith
This book argues that current financial problems in higher education are not tied to such things as tenure, sabbaticals, overemphasis on research, and curriculum changes. Rather, they are due to counterproductive and expensive efforts to impose hierarchical corporate managerial structures, slash-and-burn cost-reduction schemes, and costly pursuits of phantom revenue sources, be they high visibility new programs, grants, or even gifts that actually need to be subsidized by the institution.

**American Education: Yesterday, Today, and Tomorrow**

Thomas L. Good, ed.

Geared towards teachers, administrators, educational researchers, and scholars, this volume reviews the evolution of educational beliefs, curriculum content, and teaching practices in American elementary schools over the full span of the 20th century.

**Hispanics in the Mormon Zion, 1912-1999**

By Jorge Iber

As immigrants came to the United States from Mexico, the term Greater Mexico was coined to specify the area of their greatest concentration. America's southwest border was soon heavily populated with Mexico's people, culture, and language. This book shows that Greater Mexico extends even farther than presumed as it explores the Hispanic population in one of the "whitest" states in the Union—Utah.

**Political Institutions and Economic Growth in Latin America: Essays in Policy, History, and Political Economy**

Stephen Haber, ed.

This book offers a new contribution to the literature on institutions and growth through the analysis of historical cases of institutional change and economic growth in Latin America in the 19th and 20th centuries.

**The United States and Human Rights: Looking Inward and Outward**

David P. Forsythe, ed.

This publication addresses the place of human rights in U.S. policy, both domestic and foreign. The contributors are leading analysts of international human rights, some having considerable experience working with human rights organizations and others providing expertise from such fields as law, developmental anthropology, political science, and public diplomacy.

**Between the Lines: The Mystery of the Giant Ground Drawings of Ancient Nasca, Peru**

By Anthony F. Aveni

The Nasca Lines are among the world's great enigmas. Who etched the more than 1000 animal, human, and geometric figures that cover 400 square miles of barren pampa in southern Peru? The author explores who might have made the lines and images, when, and for what purpose.

**Shaping Society through Dance: Mestizo Ritual Performance in the Peruvian Andes**

By Zoila S. Mendoza

During the patron saint fiesta in the Andean town of San Jerónimo, Peru, crowds gather at sunset in the town square, eagerly awaiting the entrance of the colorful dance troupe, or comparsas. With their masks, music, and surprising interpretations of contemporary events, the comparsas of the Cusco region are the focus of this multifaceted book. A CD accompanies the book.

**Statistical Handbook on Racial Groups in the United States**

By Tim B. Heaton, Bruce A. Chadwick, and Cardell K. Jacobson

Racial and ethnic diversity has been a salient feature of American society through most of its history. Today, we are a racially conscious society, and racial or ethnic membership is a significant part of identity. This volume documents important differences and major similarities among the races—the array of which negates facile conclusions regarding the characterization of any particular group.

**Writing Paris: Urban Topographies of Desire in Contemporary Latin American Fiction**

By Marcy E. Schwartz
Exploring Paris as a desired and imagined place in Latin American post-colonial identity, Marcy Schwartz examines fiction by Julio Cortázar, Manuel Scorza, Alfredo Bryce Echenique, and Luisa Futoransky as she uncovers the city's class, gender, political, and aesthetic resonances for Latin America.

Sun Inventions and Perfumes of Carthage: Two Novellas
By Teresa Porzecanski

Exotic characters from Europe, Africa, and the New World bring together and struggle with the mixture of Sephardic, Ashkenazic, and Latin American cultures. Sun Inventions is a story of an immigrant family, from the multifaceted perspective of a woman who is an academic, a mother, a writer searching for meaning in the universe. Perfumes of Carthage tells the stories of Lunita Malek and her Sephardic family and Angela Tejera (Weaver), whose name was given to her African grandfather by a Brazilian slave owner.

The Source Book of Multicultural Experts, 2000-2001
Lisa Skriloff, ed.

Marketing executives will find ad agencies, research firms, and other experts in multicultural marketing to help them reach growing populations. Human resource and purchasing executives will find contacts for vendors and suppliers that are minority- or women-owned businesses.

Safer Sex: The New Morality
By Evelyn Lerman

This thought-provoking call to action aims to help prevent teen pregnancy and sexually transmitted infections and reduce the need for abortion. Evelyn Lerman, a certified mediator and former teacher, discusses successful prevention strategies from other developed countries.

Loves Me, Loves Me Not
By Anilú Berardo

As this story follows teenager Maggie Castellós' quest to find an answer to "The Question," readers will discover not only the answer but also whether her question was the right one. This publication was named to two recommended reading lists for young people—the American Library Association's 2000 VAILSA Popular Paperbacks for Young Adults list and The New York Public Library's 2000 Books for the Teen Age.

Double Double
By José Yglesias

Spinning a tale of double trouble, José Yglesias takes on the iconic images and clichés of the 1960s—Black Panthers, third-world guerrilla movements, student riots, "consciousness-raising" through drugs and sex, hippie communes, and Flower Power—and puts them all into overdrive. The result is a near-surrealistic perspective on an era that's torn between adolescent naïveté and "by-any-means-necessary" absolutism, went haywire.

Many publications featured in this section are available through amazon.com.

CONFERENCES

TACHE 2000
November 29-December 1

The conference theme, "Latinos in Higher Education: Beyond the Demographics," reflects the Texas Association of Chicano in Higher Education's interest in moving the dialogue beyond the numbers to a discussion of concrete strategic plans for addressing the challenges presented by the ethnic shifts in population.

6th Conference of the Recovering the U.S. Hispanic Literary Heritage Project
December 1-2

"Recovering the Past, Charting the Future: Archives, Canons, and Questions of Identity" is this year's theme at the University of Houston.

Contact: Alejandro Balestra, (713) 743-3128; e-mail, artrec@uh.edu.

National Association of Student Personnel Administrators Institute
January 10-12

Contact: (202) 265-7500; e-mail, office@naspa.org.
NALAC Conference
January 17-21

Texas A&M University-Corpus Christi will help host a conference of the National Association of Latino Arts and Culture (NALAC), dedicated to defining the role of Hispanic art in the community. At the Ramada Inn Bayfront in Corpus Christi.

Workshops are scheduled on leadership and youth, the impact of immigration, assimilation and hybridization, and digital technology. There will be performances, readings, and exhibits throughout the conference, along with workshops in dance, music, theater, visual arts, literature, performance art, and media arts.

Contact: Lilly Flores Janacek, (361) 825-2427.

AAHE Conference on Faculty Roles & Rewards
February 1-4, 2001

This 9th annual conference will focus on the changing professoriate and the two developments most salient in driving that change—new technologies and the generational shift now taking place in the faculty. At the Tampa Marriott Waterside in Tampa, Fla.

USC Continuing Education 2001 National Conference
February 11-14

University of South Carolina’s department of continuing education presents “Stop Surfing, Start Teaching: Teaching and Learning through the Internet.” In Myrtle Beach, S.C.

Contact: (803)-777-9444; e-mail, confs@gwm.sc.edu; website, www.rcce.sc.edu/ssst.

ACE 83rd Annual Meeting
February 17-20, 2001

The American Council on Education will meet on “Shaping Public Policy with New Leaders.” At Marriott Wardman, Park Hotel, Washington, D.C.

Contact: (202) 939-9410; website, www.acenet.edu.

AACE 12th International Conference
March 5-10

The Association for the Advancement of Computing in Education presents the Society for Information Technology and Teacher Education 2001 12th International conference. In Orlando, Florida.

Contact: e-mail, info@aace.org; website, www.aace.org/conf.

AAHE 2001 National Conference on Higher Education
March 24-27

The American Association for Higher Education presents “Balancing Private Gain and Public Good.” The conference will “anticipate issues, debate ideas, highlight innovation and best practice, foster leadership and professional development, and provide networking opportunities.” At the Marriott Wardman Park Hotel in Washington, D.C.

National Association for Ethnic Studies Annual Conference
March 29-31

This year’s conference theme: “Race, Ethnicity, and Pedagogy in the 21st Century.” In New Orleans.

Contact: Susan L. Rockwell, (602) 965-2097; e-mail, susan.rockwell@asu.edu.

International Mentoring Association Annual Conference
March 29-31

This year’s conference theme: “Diversity in Mentoring.” In Washington, D.C.

Contact: at Western Michigan University, (616) 387-4174.

Center for the Study of Diversity in Teaching and Learning in Higher Education National Conference
April 18-21

“The Global Perspective: Teaching, Learning, and Student Equity” includes, among other conference highlights, concurrent sessions on critical thinking skills, curriculum, pedagogy, collaborative and interdisciplinary learning, and learning communities. At Hotel Inter-Continental, Miami.

Contact: Dr. Toni Forsyth, (408) 864-8309/8993; website, www.TeachLearn.fi.edu.
Book Review

By Eduardo Mendieta

One might argue that there are two magnetic poles orienting the conditions under which art is produced in the age of the digitization of everything and proliferation of simulacra. Due to the Baudrillardian effect of the liquidation of the real, art has ceased to be the attempt to create "perceptual equivalences," as Arthur C. Danto put it so felicitously.

Just as epistemology entered into crisis when both subject and object were consumed by mass culture and technological innovation, art also lost its object, the object it yearned after and so assiduously hunted with brush and chisel.

At best, art became a reflection on the act of perception, and this is how we should understand 20th century art—as a shift from the quest for the real to the analysis of the subjective conditions of the synthesis of perceptual representations (Impressionism, Expressionism, Cubism, even Futurism and Constructivism). At worst, art became a descent through the recently discovered underworld of the sub- and un-conscious (Surrealism, Dadaism, and so on), in search of the lost self or a search for something primal.

Art lost its object, became introspective and self-reflexive.

The other magnetic pole involves an equally momentous liquidation, the evisceration of the public domain by the forces of mass culture—mass production, mass consumption, and mass advertisement. In this hachatal, everything is swept into the whirl of hedonistic cannibalization and banalization. Ergo: in the night in which all are drunk and todos los gatos son pardos, it is impossible to position oneself critically against a system that, like Neptune, devours its critical children.

Art without an object, without a social space or public sphere from and in which to perform its function—these are the conditions of today's aesthetic production. And it is precisely at the ecuador between these two poles that Guillermo Gómez-Peña's work positions itself.

This book is a feast of poems, performance transcripts, interviews with critics and scholars, and the traces and ruins of reflections on reflections and on today's social scene. There is admonition, confession, theorizing, and wonderful, gripping narrative. The tone is irreverent, playful, blithe, celebrating, at times nostalgic, resigned, and laconic, but never indulgent or obnoxiously haughty and professorial. A most appealing aspect, at a prima facie level, is the way in which Gómez-Peña and his colleagues exhibited the virtues of linguistic carnivaleization. Spanglish has certainly found a Cervantes in Gómez-Peña.

Some images, turns of phrase, some conceptual considerations might offend, but no reader will be untouched by the profound care, tenderness, humility, and sense of engagement communicated by every page. And like all who cross borders, especially those without papers, this book is ready to serve all kinds of purposes. It is a frontal look at our contemporary socio-politico-cultural condition from the perspective of those most affected by the disaster trailing behind that which is celebrated as the end of history and the inevitability of globalization. This book dares to look back, straight in the eye, and to talk back, eloquently, loudly, and without shame.

Three themes make the book particularly important, and one we should recommend to each other and to those "white" friends we all have in the closet. First: high culture is no less kitschy than low culture, and conversely, the latter is no less smart than the former. What happens when we view expensive objects of art enshrined in temples called museums on the same level as art produced by the people on the streets of Puebla, Tunja, and Sao Paolo and peddled in airport curiosity shops, or authenticity tiendas on Valencia street? This de-sacralization and de-fetishization might cause vertigo to some, but for others, it will present a liberating truth: no effort at beauty and critique is exempt from commodification. Second: the myth of art as mastering technique seeks to conceal the truth that art is a crystallization of ideas. Behind the mask of the art object stands an idea. What happens when you dispense with the husk and gaze directly at the idea? The ruling art of any age has been the art produced by the controllers of the ideas that orient that age. What happens when you take control of the ideas? Your art becomes conceptual, because you are contesting not the images but what gives them life. Third: the subaltern subalternizes itself and its other by gazing through the eye of an absentee "master." We submit to control by introjecting the violence and thus coercion emanating from images created for us by others. What happens when you sequester those images and turn them against those who live by them and suffer under them?

It is nearly impossible to approach Guillermo Gómez-Peña's work in a pedestrian way. I rarely come across anything that so incites and invites deep, caring reflection as does this neobaroque composite. This Mexterminator, Border Brujo, Naftazteca, Web-back, Existentialist Mojado is also a Thought Guerrilla in times of the liquidation of thought.

Eduardo Mendieta teaches philosophy at the University of San Francisco.

NC State University: The Department of Electrical and Computer Engineering invites applications for tenure track and research faculty positions at all ranks. Entry level and/or senior candidates are needed in the areas of: (1) analog, mixed signal, and low power circuit design; (2) computer engineering including embedded systems, microarchitecture and microsystems design; (3) solid state electronics and optoelectronics with emphasis on nanotechnology and fabrication/characterization of novel devices and sensors using new materials technologies; (4) computer networking including optical networks, wireless networks, physical layer interfaces, and hardware implementation, and; (5) mechatronic systems including biomedical engineering and computational fabrics.

Qualifications include an outstanding academic or industrial record, a doctorate or equivalent in electrical or computer engineering or a closely related discipline, and a strong commitment to excellence in teaching and research. Successful candidates will have the opportunity to work with highly qualified faculty and outstanding students in well equipped laboratories associated with existing multidisciplinary technical centers such as the Center for Advanced Computing and Communication, the Center for Advanced Electronic Materials Processing, and the Center for Embedded Systems Research. (For more information see the web site at http://www.ece.ncsu.edu).

Applicants should send a resume including a publication list and the names, addresses and telephone numbers of at least four references. In addition each applicant must send a one page professional statement describing his or her goals and aspirations at NC State University. Please send applications to ECE Department Head, Department of Electrical and Computer Engineering, 222 Daniels Hall, NC State University, Raleigh, NC 27695-7911.

NC State University is an Equal Opportunity/Affirmative Action Employer. Individuals with disabilities desiring reasonable accommodations in the application process should make contact through the above address, by e-mail at pbanks@ece.ncsu.edu or you may call 919/515-2255.

Carleton is a selective liberal arts college with 1800 students located 45 miles south of Minneapolis/St. Paul. Carleton College is an affirmative action/equal opportunity employer. Women and minorities strongly encouraged to apply.

GATES MILLENNIUM SCHOLARS
LEADERSHIP PROGRAM
United Negro College Fund Inc.,
Fairfax, VA

The United Negro College Fund Inc. is seeking nominations for the positions of Director and Leadership Development Counselors (4) of the Gates Millennium Scholars (GMS) Leadership Program. The Leadership Program is a distinct component of the GMS initiative—a bold philanthropic program recently created and funded with a historic gift from the Bill and Melinda Gates Foundation to provide scholarships and leadership opportunities to academically talented minorities with demonstrated financial need. The Leadership Program will provide on-going mentoring services, leadership conferences, internship opportunities, and a virtual community to the thousands of recipients of GMS scholarships annually. More information on GMS is available at www.gms.org.

Director, Leadership Programs: Responsible for designing, coordinating, and evaluating all program activities; establishing comprehensive mentoring program including tracking system of Scholars; supervising a web-based communication network for Scholars and other program participants; overseeing development of comprehensive community service program; developing articulation agreements with corporations, educational institutions, and community agencies; supervising staff coordinating program activities with GMS Partners and program staff; monitoring and preparing budgets and internal and external reports. Reports to the Executive Director of GMS. Qualifications: Significant management experience; high degree of energy and creativity; analytical, organizational, and personal qualities that will command respect and cooperation within academic environment; minimum five years of higher education management experience; demonstrated organizational skills; proven record of achievement in teaching, research, and service; outstanding communication and interpersonal skills; technological literacy; commitment to student development; demonstrated skills in fostering interagency collaboration; knowledge of program evaluation procedures; commitment to working with diverse racial and ethnic constituencies; Masters Degree is required.

Leadership Development Counselor (4): Will work closely with the Director in developing and implementing all Leadership Program activities. Qualifications: minimum three years of high-education experience in student services; demonstrated organizational skills; achievement in community service; excellent communication and interpersonal skills; technological literacy; commitment to student development; skills in fostering collaboration; knowledge of program evaluation procedures; interest and ability to work with diverse racial and ethnic constituencies; Masters Degree is required.

Le Moyne College  
PRE-DOCTORATE TEACHING FELLOWSHIP  
2001-2002 ACADEMIC YEAR  

Le Moyne College seeks to underline the importance of encouraging graduate students of color to pursue teaching careers in higher education. The year-long Pre-Doctorate Teaching Fellowship will draw graduate students of color at the ABD stage who have advanced in candidacy and are nearing completion of their doctoral dissertation. All disciplines may apply but candidates in Accounting, Biology, Business, Education, French, History, Philosophy, Religious Studies, Sociology and Spanish will receive special consideration. At the successful completion of the Fellowship, the Teaching Fellow will receive consideration in the event a tenure track faculty position is authorized.  

TERMS  
- Salary and benefits  
- Library privileges, office space, and computer  
- Mentored by senior faculty  
- Valuable classroom teaching experience  
- Program dates: Aug. 15, 2001 - Aug. 4, 2002  

APPLICATIONS  
The following material must be received by January 15, 2001:  
- Full curriculum vitae  
- Graduate school transcripts and three letters of recommendation, including that of the dissertation advisor  
- Copy of the dissertation proposal  
- Description of teaching interests

SCIENCE FACULTY!  
Opportunities for Outstanding Students  

NATIONAL INSTITUTES OF HEALTH  
Undergraduate Scholarship Program  

The UGSP is sponsored by the National Institutes of Health (NIH), the Federal Government's premier biomedical research and research training agency. NIH offers scholarships to qualified students who are committed to a career in biomedical research. Scholarships of up to $20,000 per year support tuition, educational, and qualified living expenses (room, board, transportation) while students pursue an undergraduate degree.  

For each award year, scholars work 10 weeks with salary/benefits in our research laboratories in Bethesda, Maryland. They are assigned mentors, participate in developmental and science enrichment seminars, and are provided with housing and transportation. After graduation, they work 1 year of full-time employment at NIH for each year of scholarship award.  

THIS IS A SPECIAL OPPORTUNITY FOR SPECIAL STUDENTS!  
Advise students to apply if they:  
- Are committed to a career in biomedical research;  
- Are from a disadvantaged background;  
- Have a GPA of at least 3.5 or are in the top 5% of their class;  
- Are a U.S. citizen, national, or permanent resident;  
- Are enrolled or accepted for enrollment as a full-time student at a qualified accredited institution.  

For more information, contact the UGSP at:  
http://ugsp.info.nih.gov  
E-mail: ugsp@nih.gov  
Phone: 1-800-528-7689  
TTY: 1-888-352-3001  

CHABOT-LAS POSITAS

AMERICAN UNIVERSITY  
WASHINGTON, DC  

Washington College of Law  
Clinical Program Faculty Positions  
Practitioners-in-Residence  

American University's Washington College of Law is seeking applications for Practitioners-in-Residence in its Clinical Program for the 2001-2002 Academic Year. These are short-term (normally two year) appointments. Responsibilities in the on-the-ground client clinical program include teaching a seminar component of a clinic, conducting case rounds and supervising students in their fieldwork. These faculty members teach one additional course each year outside of the clinical curriculum. The Clinical Program will provide an orientation and training for incoming Practitioners, as well as mentoring while the Practitioner is in residence. The Washington College of Law currently has the following clinics: civil practice clinic, community and economic development law clinic, criminal justice clinic (prosecution and defense); domestic violence clinic (criminal and civil); international human rights clinic; tax clinic; and women and the law clinic. The practitioner's teaching responsibilities will depend on experience, interest, and the overall needs of the clinical program.  

Minimum qualifications include a J.D. degree, outstanding academic record, three years experience as a lawyer and membership in a bar. Desired qualifications include experience or training as a trial advocate, published legal scholarship and participation in clinical teachers' conferences and workshops. American University is an EEO/AA employer committed to a diverse faculty, staff and student body.  

Applications consisting of a curriculum vitae and cover letter should be sent to Professor Peter Jaziz, Chair, Faculty Appointments Committee, c/o Office of the Dean, American University, Washington College of Law, 4801 Massachusetts Avenue, N.W., Washington, D.C. 20016, with a copy to Professor Richard Wilson, Director, Clinical Program, at the same address.

DEPARTMENT OF PSYCHOLOGY
The University of Denver Department of Psychology is searching for an exceptionally qualified researcher and teacher who has an established program of research on developmental processes. We hope to fill the position in September 2001, and the position will remain open until it is filled. Level is open, but our preference is to hire at least at the advanced assistant level. Applicants with developmental interests in any area of psychology will be considered. Send a letter of interest, vita, at least three letters of recommendation (or the names and addresses of three referees who will not be contacted without your permission) and reprints/preprints to:

Developmental Search Committee
Department of Psychology
University of Denver
Denver CO 80208

The University of Denver is committed to enhancing the diversity of its faculty and staff and encourages applications particularly from women, minorities, veterans, and people with disabilities.

UNIVERSITY OF MAINE
AT FARMINGTON
The College of Education, Health and Rehabilitation seeks individuals to fill 7 faculty vacancies:
Early Childhood Education; Elementary Education (3 positions); Special Education; Middle/Secondary Education; and Science/Science Education (7-12). U.S. News and World Report ranked UMF the Top Public Liberal Arts College in the North for three years in a row! The region offers unequalled natural beauty and four seasons recreation. AA/EEO employer. For further information, see our website (www.umf.maine.edu), or contact the Dean's Office, 252 Main St., Farmington, ME, (207) 778-7153, pmorris@umf.maine.edu
CALL FOR PROPOSALS

12th INTERNATIONAL CONFERENCE ON COLLEGE TEACHING AND LEARNING

April 17-21, 2001
Radisson Riverwalk Hotel — Jacksonville, Florida

Teaching, Learning and Technology: Humanizing the Learning Technologies

Keynote Presentations By:

* Ray Bradbury
  Futurist and Author

* Rosalind Picard
  Media Center, Massachusetts Institute of Technology

* Oliver Sacks
  Author and Neurologist

The premier International conference on higher education learning encourages 25 or 45 minute proposals on...

1. Innovative college teaching/learning strategies
2. Technology — especially the use of the Web, multimedia and virtual reality in learning

SPECIAL EVENTS FOR 2001

• Twenty featured speakers
• Hands-on, interactive workshops
• Live, international videoconference in cooperation with PBS
• Presentation of Awards for Excellence in Teaching, Learning and Technology
• Presentation of Ernest L. Boyer International Award for Excellence in Teaching, Learning and Technology — $5,000 cash award contributed by Blackboard, Inc.
• Software Fair and Poster Session
• Over 250 faculty presentations

Selected, juried papers will be published and distributed to all participants.

For conference announcement and general information, consult http://www.teachlearn.org or contact:
Jack Chamberlain E-mail: jchamberlain@fai.org
Phone: 904-632-3231 Fax: 904-632-2289

Phone: 904-632-3088 Fax: 904-632-2289

SUBMISSION DEADLINE FOR PROPOSALS, JURIED PAPERS AND NOMINATIONS FOR AWARDS: December 1, 2000

The Center for the Advancement of Teaching and Learning
In Cooperation With
Florida High School Education Consortium for Mathematics and Science
BJETF

VICE CHAIR
Center for Latin American Studies,
University of California at Berkeley

Salary range: $41,736-$57,948
Closing date: December 6, 2000
Starting date: January 15, 2001 (negotiable)

Working with the Chair, faculty, and staff, the Vice Chair coordinates all programmatic aspects of the Center: conferences and events, visiting scholar, faculty, funding, tri-annual newsletter, Website (http://www.clas.berkeley.edu/clas), working papers, and outreach. Responsibilities also include writing grant proposals and reports to university, government, and foundation funding sources; hiring of Center staff; and communication with the faculty executive committee.

Desired qualifications: excellent writing skills; evidence of success at fundraising; administrative skill and experience; advanced degree in a field relevant to the Center's program in Latin American Studies (PhD preferred), and advance competence in Spanish or Portuguese.

Applicants should submit a letter of application, CV, professional writing samples, and names and address of at least three references to Harley Shaiken, Chair, Center for Latin American Studies, University of California, Berkeley, 2334 Bowditch Street, Berkeley, CA 94720-2312.

The University of California is an equal opportunity/affirmative action employer.

COLBY COLLEGE
IMMUNOLOGIST
Assistant Professor of Biology

Colby College is seeking an Immunologist to fill a tenure-track position as Assistant Professor of Biology to begin September 2001. Candidates should have a Ph.D. and a strong commitment to undergraduate education. Teaching normally involves three courses with laboratory per year. Teaching will include immunology, class-teaching in the introductory course in some years, and courses in the candidate's area of specialization. Expertise in molecular genetics is desirable. An active research program, including supervision of undergraduate research, will be expected. An attractive start-up package is available. Familiarity with liberal arts colleges, teaching experience or post-doctoral experience is desirable.

Women candidates will be considered for a Clare Boothe Luce Assistant Professorship which provides dedicated annual research funds.

Please submit a letter of application, statement of teaching interests and philosophy, statement of research interest/s, curriculum vitae, reprints of no more than three selected publications, undergraduate and graduate transcripts, and three letters of recommendation to: Professor W. Herbert Wilson, Jr., Chair, Department of Biology, Colby College, 5739 Mayflower Hill Drive, Waterville, ME 04901, Tel: 207-872-3432, e-mail: wwilson@colby.edu. Application review will begin December 31, 2000 and will continue until the position is filled. Applications and nominations of women and minorities who would enrich the diversity of the campus community are strongly encouraged. For more information about the College, please visit the Colby Web site: www.colby.edu

HISPANIC OUTLOOK ° 11/20/2000
FACULTY VACANCIES

Full-Time, Tenure Track

From its inception, College of DuPage has been a first rate institution of higher learning, providing DuPage County residents with 88 diverse areas of study. 3201 Burton St. SE, Grand Rapids, Michigan 49546-4388
DEPARTMENT OF ARTS AND HUMANITIES

ART AND ART EDUCATION

Position: Professor or Associate Professor, tenure-track. The Program is interdisciplinary, offering a range of courses in art, art history, and art theory. Candidates should have a strong research background and be committed to teaching at the undergraduate and graduate levels. The position involves research in a specialized field of expertise.

Responsibilities: Teach courses in the history of art, theory, and criticism; advise and mentor undergraduate and graduate students; participate in departmental and institutional activities.

Qualifications: A Ph.D. in a relevant field; established record of research and publication; evidence of excellence in teaching.

Send CV, a letter of application, and three letters of reference to Professor Marilyn Segal, Search Committee Chair.

DEPARTMENT OF ARTS AND HUMANITIES

ARTS ADMINISTRATION

Position: Assistant Professor, tenure-track. The Program offers a concentration in arts management, with opportunities for students to work in arts organizations and cultural institutions.

Responsibilities: Teach courses in arts management, arts administration, and non-profit management; advise and mentor students in their career development.

Qualifications: An M.A. in arts administration; demonstrated record of success in arts management.

Send CV, a letter of application, and three letters of reference to Professor Mark Hunter, Search Committee Chair.

DEPARTMENT OF INTERNATIONAL AND TRANSLATIONS STUDIES

BILINGUAL/BICULTURAL EDUCATION

Position: Assistant Professor. The Program offers a focus on bilingual education and multicultural settings, with opportunities for research and collaboration with local schools.

Responsibilities: Teach courses in language and cultural diversity; advise and mentor students in their professional development.

Qualifications: An M.A. or Ph.D. in bilingual education; evidence of excellence in teaching and research.

Send CV, a letter of application, and three letters of reference to Professor Jane Dufault, Search Committee Chair.

DEPARTMENT OF CURRICULUM AND TEACHING

ELEMENTARY/CHILDHOOD EDUCATION, PRESERVICE

Position: The Program offers a comprehensive program in elementary and childhood education, with opportunities for research and collaboration with local schools.

Responsibilities: Teach courses in early childhood education; advise and mentor students in their professional development.

Qualifications: A M.A. or Ph.D. in early childhood education; experience in teaching and research.

Send CV, a letter of application, and three letters of reference to Professor Jennifer Hill, Search Committee Chair.

DEPARTMENT OF HEALTH & BEHAVIOR STUDIES

BEHAVIORAL SCIENCES IN EDUCATION

Position: The Program offers a focus on research in behavior and learning, with opportunities for collaboration with local schools.

Responsibilities: Teach courses in educational psychology; advise and mentor students in their professional development.

Qualifications: A Ph.D. in educational psychology; experience in teaching and research.

Send CV, a letter of application, and three letters of reference to Professor John Smith, Search Committee Chair.
DEPARTMENT OF ORGANIZATION AND LEADERSHIP
EDUCATIONAL POLICY AND LEADERSHIP (3)
Position: The Department of Organization and Leadership seeks to develop leaders and potential leaders, to educate those who will assist these leaders in their work, and to create new knowledge based on sound theory and research. The faculty is committed to preparing leaders in new ways for new times and contexts for both the public and private sectors. We seek three colleagues who share this vision, who understand the demands of organizations in a global economy, who are at home with contemporary information technology, who are able to anticipate in the theory and practice of educational leadership, and who are able to provide the breadth of leadership that is essential to transform our schools and other organizations. There are openings with the following responsibilities and qualifications:

Responsibilities:
- Teach graduate courses in educational leadership, management, and policy
- Advise master's and doctoral students
- Maintain active research agenda
- Participate in service activities

Qualifications:
- Ph.D. or Ed.D. in educational leadership, management, or policy
- Demonstrated record of excellence in teaching, research, and service
- Ability to teach courses in educational leadership and management
- Experience with online teaching

DEPARTMENT OF HEALTH AND BEHAVIOR STUDIES
SCHOOL PSYCHOLOGY
Position: Scholar with demonstrated record of excellence in teaching, research, and publication. Expertise in the application of cognitive research to education (e.g., cognitive assessment; neuropsychological assessment); and/or expertise in intervention studies related to educational or social-emotional functioning in schools.

Responsibilities:
- Teach graduate courses; advise students; supervise doctoral students; conduct research; and serve on university committees.

Qualifications:
- Earned doctorate and postdoctoral training in school psychology
- Strong record of research, publication, and professional service
- Ability to develop and teach courses related to educational psychology

DEPARTMENT OF MATHEMATICS, SCIENCE AND TECHNOLOGY
COMMUNICATION, COMPUTING, AND TECHNOLOGY IN EDUCATION (3)
Position: The Department of Mathematics, Science, and Technology through Communication, Computing, and Technology (CCTE) in Education, provides a stream of degree programs for students who seek to develop leadership capacities in the use of information and communication technologies in education. The programs prepare candidates both for leadership roles in integrating digital technologies into education at all levels and for entry into creative work in the educational uses of new media. CCTE doctoral programs develop scholars who use the social and human sciences to study how applications of advanced technologies in education act as powerful social and historical forces, empowering educators to ask new questions to establish possibilities. Graduate study in CCTE is tightly integrated with the Department of Mathematics, Science, and Technology, the Center for Educational Technologies, and the beautiful educational and intellectual resources of Teachers College and Columbia University. Successful candidates for CCTE's faculty positions will be able to provide leadership in all dimensions of its academic enterprise, including making contributions to departmental efforts to clarify the relationship between technology, the educational enterprise, and society.

The Department seeks three faculty members for its programs in Communication, Computing, and Technology in Education, and seeks a particular strength capacity in three key areas:

1. MEDIA IN EDUCATION - Scholar who exhibits the pedagogical character of interactive media. Teaching the students how to critically examine and to create new knowledge, through problem solving and critical reflection.
2. TECHNOLOGY IN EDUCATION - Scholar who elaborates the implications of emerging technologies in the design, development, and evaluation of educational programs.
3. MEDIA IN SOCIETY - Scholar who explores the political and social implications of emerging technologies in the educational context.

Responsibilities:
- Teach graduate courses in education and technology
- Conduct research in education and technology
- Participate in service activities

Qualifications:
- Ph.D. in education or related field
- Demonstrated record of excellence in teaching, research, and service

DEPARTMENT OF ARTS AND HUMANITIES
PHILosophY AND EDUCATION
Position: Tenure-track position available in philosophy and education. The Department of Philosophy and Education seeks to bring together faculty who are already established in the field and those who wish to become established in the field. The successful candidate will be expected to maintain an active record of research and dissemination in their area of specialization and to contribute to the development of the program.

Responsibilities:
- Teach undergraduate and graduate courses in philosophy and education
- Maintain an active research agenda
- Participate in service activities

Qualifications:
- Ph.D. in philosophy or education
- Demonstrated record of excellence in teaching, research, and service

DEPARTMENT OF COUNSELING AND PSYCHOLOGY
COUNSELING PSYCHOLOGY
Position: Full-time, tenure-track position available in counseling psychology. The Department of Counseling and Psychology seeks applicants with a strong track record of scholarship and professional achievement in the area of counseling psychology.

Responsibilities:
- Teach undergraduate and graduate courses in counseling psychology
- Maintain an active research agenda
- Participate in service activities

Qualifications:
- Ph.D. in counseling psychology
- Demonstrated record of excellence in teaching, research, and service

DEPARTMENT OF HEALTH & BEHAVIOR STUDIES
READING SPECIALIST
Position: Professor-Practice. Experienced real-world specialists to serve as a faculty member in a program that provides leadership and direction in the assessment and remediation of reading and writing difficulties. This position is a Professor of Practice who provides leadership and direction in the assessment and remediation of reading and writing difficulties. This position is a Professor of Practice who provides leadership and direction in the assessment and remediation of reading and writing difficulties. This position is a Professor of Practice who provides leadership and direction in the assessment and remediation of reading and writing difficulties.

Responsibilities:
- Teach graduate courses in reading and writing remediation
- Maintain an active research agenda
- Participate in service activities

Qualifications:
- Ph.D. in reading or related field
- Demonstrated record of excellence in teaching, research, and service

DEPARTMENT OF ARTS AND HUMANITIES
TESOL (2)
Position: Scholar with demonstrated teaching and research interests in TESOL, particularly as this relates to the education of ESL/EFL students in K-12, adults, and international contexts.

Responsibilities:
- Teach graduate courses in TESOL, with a particular focus on research and methodology
- Maintain an active research agenda
- Participate in service activities

Qualifications:
- Ph.D. in TESOL or related field
- Demonstrated record of excellence in teaching, research, and service

DEPARTMENT OF ARTS AND HUMANITIES
TEACHERS COLLEGE COLUMBIA UNIVERSITY
525 West 120th Street, New York, NY 10027
http://www.tc.columbia.edu/
Wayne State University invites applications for the position of Director of Scholarships and Financial Aid.

Wayne State University is a Carnegie Research University with a comprehensive urban mission. Its 31,000 students study in 14 schools and colleges, including Law and Medicine. With cutting-edge research in such areas as cancer, diabetes, vision, and bioengineering, many university programs are nationally ranked. With nearly 200,000 alumni living in a five-county area, WSU graduates represent a significant presence in the state.

The Office of Scholarships and Financial Aid (OSFA) is committed to providing individuals with the means to access higher education without regard to financial status. Through the successful management of heavily regulated, federal and state financial aid, as well as institutional and private financial aid resources, OSFA assists Wayne State University in meeting enrollment objectives.

The Director of OSFA is responsible for offering a broad range of student financial aid services on the main campus, the Law School, the School of Medicine, and at the university’s comprehensive extension centers. The financial aid services include the effective and timely delivery of financial aid awards in excess of $100 million. The Director also provides leadership to a large diverse professional full-time staff and part-time/student assistants.

 Qualified candidates will have earned a Master’s degree with considerable progressive responsibility within financial aid (or possess an equivalent combination of education and experience). Demonstrated in-depth experience is required with developing and managing comprehensive student aid systems and with federal, state and internal audit regulations and processes. Preference will be given to candidates who have a demonstrated ability to effectively and efficiently manage a complex organization with multiple programs. Candidates are expected to have superior ability in interpersonal, oral and written communications skills, and to be fully committed to sustaining and advancing the goal of institutional diversity of students and staff. In addition, candidates must have an unwavering commitment to academic integrity, rules compliance, and gender equity.

Candidates should submit a letter of application highlighting qualifications as outlined above and a current resume. Review of applications will begin immediately and will continue until a suitable candidate is selected. Submit applications and nominations to:

Julie Miller, chair, Scholarships & Financial Aid Search Committee
4200 Faculty Administration Building
Wayne State University
Detroit, MI 48202
E-mail: aa6560@wayne.edu
Wayne State University is an equal opportunity/affirmative action institution.

FINANCE
Fall 2001, Tenure Track
WESTERN CONNECTICUT STATE UNIVERSITY

The Finance program at WCSU emphasizes financial markets and corporate finance and collaborates with firms in the surrounding community. Teaching assignments include undergraduate and graduate finance courses, and courses in international finance. WCSU is a technology-oriented university providing its faculty and students with the latest technology for teaching, academic use and research. Teaching is the cornerstone of our program; research and service to the University are expected. A Ph.D. in Finance is preferred; an equivalent graduate degree or expectation of a Ph.D. in the near future will be considered. Salary and academic rank dependent upon qualifications.

Send a cover letter, current vita, undergraduate and graduate transcripts, and three letters of recommendation to: Dr. Sara DeLoughry, Chairperson, Finance Department, Western Connecticut State University, 181 White St., Danbury, CT 06810. Deadline for applications is December 1, 2000.

WCSU is an AA/EOE Educator/Employer
OREGON STATE UNIVERSITY

Department of Philosophy
seeks assistant or associate professor in
Political & Social Philosophy
Hispanic Studies

Tenure-track Assistant or Associate Professor beginning fall 2001. 6 course-year (2/term), undergraduate and graduate. Customary non-teaching duties. Area of Specialty: political and social philosophy. Area of Competence: Hispanic studies. Successful applicant will have opportunity to teach philosophy of law and participate in new M.A. program in applied ethics. Ph.D. required by time of appointment, as well as excellence in classroom teaching, and record or promise of significant scholarship. The Philosophy Department is particularly interested in candidates who have experience mentoring Chicana/o and Latina/o students. Salary negotiable, depending on rank and experience.

Send letter of application, CV, evidence of excellence in teaching, one example of scholarly writing, and letters of recommendation from three persons in a position to evaluate your teaching and scholarship to: Kathleen Dean Moore, Chair, Search Committee, Department of Philosophy, Oregon State University, 208 Howland Hall, Corvallis, OR 97331. Deadline for applications is December 30, 2000, but early application is encouraged. Prearranged interviews will be held at the Eastern Division meetings of the American Philosophical Association in New York City on Dec. 28-29, 2000.

Oregon State University is an Affirmative Action/Equal Employment Opportunity employer with a policy of being responsive to dual-career needs.

EDUCATION FACULTY POSITIONS

The following are full-time tenure-track positions, to begin Fall 2001. Located in the San Francisco Bay Area, Mills is a selective liberal arts college for women, with coeducational graduate programs. See www.mills.edu for more information on the College. Persons of color and those committed to working in a multicultural environment are encouraged to apply. AA/EOE

ASSISTANT PROFESSOR, ELECTRONIC ARTS

The Intermedia Arts Program in the Fine Arts Division at Mills College seeks applicants for a tenure-track position as Assistant Professor in Electronic Arts, to begin in August 2001. Candidates should be accomplished artists with an established record of achievement in electronic and interdisciplinary media who possess a broad understanding of both contemporary visual arts and computer technologies. They must be prepared to play a leadership role in developing existing digital media facilities (Macintosh-based), and in developing the Intermedia Arts Program and its curriculum. Both undergraduate and graduate courses are involved.

Candidates should be fluent with: 1) basic photography, image-making, sculpture and installation concepts; 2) elements of performance; 3) elements of interactivity; 4) the history of electronic art and contemporary media theory. Three years of college teaching experience is preferred, and an MFA or equivalent experience is required. An application should include a cover letter discussing teaching experience and areas of expertise, a CV, representative selection of art work (such as slides, VHS video, Macintosh-compatible CD-ROMS, web-address), SASE, and contact information for 3 academic/professional references.

Application deadline extended to December 30, 2000. Please send application materials directly to: Prof. Anna Murch, Chair, Electronic Arts Search Committee, Art Department, Mills College, Oakland, CA 94613.

ASSISTANT PROFESSOR, VIDEO

The Intermedia Arts Program in the Fine Arts Division at Mills College seeks applicants for a tenure-track position as Assistant Professor in Video, to begin in August 2001. Candidates should be accomplished artists with an established record of achievement in video art who also possess a broad understanding of contemporary intermedia art. They must be able both to teach basic skills and to mentor advanced undergraduate and graduate students from a fine arts perspective. They must be prepared to play a leadership role in the development of the Intermedia Arts Program and its curriculum, which educates students with diverse needs and interests, including electronic cinema, installation, performance, sound, dance and theater. Both undergraduate and graduate courses are involved.

Familiarity is required with digital cameras, nonlinear video editing, and with emerging technological developments that will impact the future of the video medium. Three years of college teaching experience is preferred, and an MFA or equivalent experience is required. An application should include a cover letter discussing teaching experience and areas of expertise, a CV, a representative selection of video art work (on VHS), SASE, and contact information for 3 academic/professional references.

Application deadline extended to December 30, 2000. Please send application materials directly to: Prof. Chris Brown, Chair, Video Search Committee, Music Department, Mills College, Oakland, CA 94613.

MILLS COLLEGE
Oakland, CA

STATE UNIVERSITY OF NEW YORK
NEWPALTZ

State University of New York at New Paltz is a small, selective public university whose essential character is shaped by its location in the Mid-Hudson Valley region. SUNY New Paltz maintains a strong commitment to the primacy of undergraduate and graduate teaching, an ethnically and culturally diverse campus population, and international studies. It serves about 5,000 undergraduates and 750 graduate students, both traditional and non-traditional.

SUNY New Paltz has created a fund to enhance the diversity of its faculty. We are striving to better reflect the ethnic distribution of our student body. Currently, four under-represented positions can be created for Fall 2001 for excellent teachers/scholars who meet the departmental teaching needs and assist the university in meeting this goal. The departments with faculty position authorizations are as follows:

<table>
<thead>

Responsibilities: The successful candidate will teach undergraduate courses in the fashion industry, buying, fashion design, and other fashion merchandising related. Graduate instruction will consist of courses in adult education/training delivered using televised distance education methods. Additional responsibilities include supervising internships, advising students, conducting and publishing research and providing service to the department, university, community and profession. Qualifications: Applicants must hold an earned doctorate in marketing education, fashion merchandising, or consumer economics or related area. Teaching and professional experience preferred. A successful candidate must demonstrate a commitment to scholarly research and publications and participation in professional organizations and activities. Search Committee Chair: Dr. Allan H. Kaufman, Tel: 757/683-4995, FAX: 757/683-5227, e-mail: akaufman@odu.edu

ASSISTANT PROFESSOR OF MATHEMATICS EDUCATION
Responsibilities: The successful candidate will be expected to teach undergraduate and graduate courses in mathematics education for elementary, middle, and secondary levels that may include on- and off-campus courses, distance learning, and professional development schools. The candidate must possess strong instructional technology skills in the mathematics education curriculum. Qualifications: Applicants must hold an earned doctorate in mathematics or mathematics education, or be receiving the degree by June 2001. Preference will be given to applicants who have mathematics teaching experience in public schools and have an appreciation of diversity. The candidate will be expected to demonstrate a record of research and scholarship, including publications and presentations. Candidates must possess effective communication skills. Salary: highly competitive. Dr. E. Murray Rudisill, Search Committee Chair, Tel: 757/683-3300; FAX: 757/683-5593; e-mail: erudisil@odu.edu

ASSISTANT PROFESSOR OF SCHOOL COUNSELING EDUCATION
Responsibilities: The successful candidate will teach a wide range of counseling courses in a CACREP-approved counselor education program, with particular emphasis on those in K-12 school counseling; supervising interns; advising students; and actively participating in program development. Qualifications: The candidate must hold an earned doctorate in counseling, have both breadth and expertise in school counseling, show potential for leadership in school counseling, and be able to demonstrate a commitment to integrating school counseling programs. The candidate should be able to teach a wide range of counseling courses, and be an effective supervisor and advisor. A strong commitment to research, service, and building community linkages with local school systems is expected. The candidate must be able to effectively collaborate on the local, regional, and national levels in the area of school counseling, and demonstrate a strong interest in scholarly pursuits and service to the community and profession. Potential applicants are encouraged to visit our departmental web site at http://web.odu.edu/cc/ Search Committee Chair: Dr. Radha Horton-Parker, e-mail: rpark@odu.edu

ASSISTANT PROFESSOR OF SCHOOL LIBRARIANSHIP
Responsibilities: The successful candidate will assume leadership for the school library program which is housed in the Department of Curriculum and Instruction and will also develop off-campus and distance learning programs. In addition to teaching graduate courses in school librarianship, especially administration, reference, collection development, and the utilization of nonbook resources, the individual will advise students, conduct research and other scholarly activities, and provide service to the University and to the neighboring school divisions to form partnerships and collaborative relationships. Qualifications: Applicants must possess effective oral, written, and interpersonal communication skills, demonstrated teaching ability in either K-12 or higher education, research potential or a history of scholarly activities, and experience in K-12 school libraries. Preference will be given to candidates who possess a doctoral in Library/information science or education by June 2001. Salary: highly competitive.
Search Committee Chair: Dr. Katherine Bucher. Tel: 757/683-3254; FAX: 757/683-5682, e-mail: kbucher@odu.edu

ASSISTANT PROFESSOR OF SCIENCE EDUCATION
Responsibilities: The faculty member will teach undergraduate and graduate courses for elementary, middle, and secondary education levels that may include on- and off campus, distance learning, and Professional Development Schools. Qualifications: Applicants must hold an earned doctorate in science education. The candidate must be able to integrate instructional technology into the science education curriculum. The candidate must possess effective communication skills. Preference will be given to applicants who have science teaching experience in public schools and have an appreciation of diversity. The candidate will be expected to demonstrate a record of research and scholarship, including publications and presentations. Salary: highly competitive.
Search Committee Chair: Dr. M. Lee Manning, Tel: 757/683-5716 FAX: 757/683-5682; e-mail: mmanning@odu.edu

ASSISTANT PROFESSOR OF SPECIAL EDUCATION
Responsibilities: The successful candidate will teach undergraduate and graduate courses in special education, advise students, conduct research and other scholarly activities, provide community service, and assist with the coordination of the special education program and the department. Candidates will be expected to teach on/off campus and in field-based or distance learning programs. Qualifications: Applicant must hold an earned doctorate in Special Education with emphasis on mild to moderate disabilities including mental retardation, certification in one or more areas of special education, teaching experience in K-12 settings with diverse cultural and ethnic groups, and in settings serving students with and without disabilities. A successful candidate must demonstrate a strong commitment to scholarly research and publications, participation in professional organizations and activities, grant proposal writing, and provide evidence of potential excellence in teaching. The successful candidate will be expected to teach on TELETechNet, our distance learning program, as well as integrate instructional technology into the curriculum. Search Committee Chair: Dr. Cheryl Baker, Phone: 757/683-4117, FAX: 757/683-5993, e-mail cbaker@odu.edu

Application/Nomination Procedure: Applicants should submit a letter of interest specifying position applied for and addressing position qualifications, a curriculum vita and the names, addresses and telephone numbers of five references to the appropriate Search Committee Chair at: the Office of the Dean, Darden College of Education, Old Dominion University, Norfolk, Virginia 23529-0156. Screening of applicants will begin December 1, 2000 and continue until the positions are filled.

Old Dominion University is an affirmative action/equal opportunity institution and requires compliance with the Immigration Reform and Control Act of 1986.
College of Health and Human Services
Tenure Track Positions

The primary mission of the College of Health and Human Services is to provide professionally oriented education at the baccalaureate level and to provide graduate programs in specialized disciplines related to health and human services. As a major academic unit in a comprehensive, regional university, the college is unique and important in educating health and human services professionals for the San Joaquin Valley. The academic disciplines within the college seek to foster interdisciplinary-holistic education for future health and human services providers. The following Tenure-Track faculty positions are available beginning Fall 2001. Please refer to our Web site: www.csufresno.edu/Schools/Health/school.html.

Communicative Disorders and Deaf Studies
Asst/Assoc Professor: Teaching coursework and supervising clinical practicum in a deaf education curriculum with a comprehensive philosophy. The successful candidate may be called upon to teach in a distance education mode.
Contact: Dr. Paul Ogles, (559) 278-2423, paulog@csufresno.edu

Gerontology
Assistant or Associate Professor: Position will involve teaching and directing the Interdisciplinary Gerontology program and program development.
Contact: L.J. Fine (559) 278-2838; lawrence_fine@csufresno.edu

Health Science
Assistant/Associate Professor: Teaching and advising responsibilities in the environmental health option both at the undergraduate and graduate level. Responsibilities will include advising for the State of California's Registered Environmental Health Specialist, coordinating the Environmental Health option, and maintaining accreditations.
Contact Dr. Sherman Sowby (559) 278-4014; shermss@csufresno.edu

Kinesiology
Assistant Professor: Will teach in all curricular areas of exercise physiology, fitness and wellness at the undergraduate level. At the graduate level, teaching will include exercise physiology with specific applications such as cardiorespiratory physiology or exercise testing.
Contact: Dr. Catherine Jackson (559) 278-5165; cgjack@csufresno.edu

Nursing
Professor/Associate Professor: Department needs expertise in critical care and advanced medical-surgical nursing.
2 Assistant/Associate Professors: Expertise is needed in any of the following areas: geriatric nursing, medical-surgical nursing, pediatric nursing, and maternal child/health nursing.
Assistant Professor: Department needs expertise in the general medical-surgical nursing and public health nursing leadership.
Contact Dr. Mariamma Mathai (559) 278-2041; mariamma@csufresno.edu

Physical Therapy
Associate Professor: Teaching in an integrated Master of Physical Therapy degree program. Main responsibility will be leadership in developing program in Interdisciplinary Health and Rehabilitation Sciences.
Contact: Joanne Laslovich (559) 278-2896; joannel@csufresno.edu

Social Work
Assistant Professor: Primary teaching area will be social work and microclinical practice and HBSE.
Asst/Assoc Professor: Primary teaching areas will be social work practice with experience in children and families and secondarily, research.
Contact Dr. Jane Middleton (559) 278-3992; janel@csufresno.edu
UNIVERSITY OF CALIFORNIA, DAVIS

Water Resources Faculty Position Available

The Department of Civil and Environmental Engineering at the University of California, Davis, invites applications and nominations for a tenure-track position in water resources engineering with specialization in computational environmental hydrodynamics. The position is open at all levels. Requirements include a doctorate in civil engineering or related field and a demonstrated record of success in, or evidence of outstanding potential for, both teaching and building a vigorous independent research program. The successful candidate will have a strong background and interest in computational fluid dynamics and will also have a background and interest in the modeling of turbulent transport as related to environmental flow and transport processes. He/she will join departmental colleagues in teaching undergraduate courses in water resources engineering and graduate courses related to fluid mechanics and numerical applications.

To be assured of consideration, applications must be submitted by January 31, 2001. Applicants should submit a complete resume, including a statement of teaching and research interests, a list of relevant professional experience and publications, and the names and addresses of three references to Professor Melvin R. Ramey
Department of Civil and Environmental Engineering
University of California
One Shields Avenue
Davis, CA 95616-5294

E-mail inquiries may be addressed to either mramey@ucdavis.edu or belarock@ucdavis.edu. Information about the department can be found at http://ceed.engr.ucdavis.edu/

The University of California, Davis, and the Department of Civil and Environmental Engineering are interested in candidates who are committed to the highest standards of scholarship and professional activities, and to the development of a campus climate that supports equality and diversity.
The University of California is an affirmative action/equal opportunity employer.

ASSISTANT PROFESSOR OF PUBLISHING

Emerson College seeks an Assistant Professor of Publishing, with expertise in book and magazine design and production. Extensive professional experience in production and design, as well as a thorough knowledge of publishing arts history, is required. Additional experience in electronic publishing, marketing and business, and/or editorial work is strongly preferred. Master's degree required. Review of applications will begin on February 1, 2001, and will continue until the position is filled.

Send letter of application, vita, and three letters of reference to: Douglas Clayton, Chair, Publishing Search Committee, Department of Writing, Literature and Publishing, Emerson College, 120 Boylston Street, Boston, MA 02116. Emerson College is an equal opportunity/affirmative action employer focused on workforce diversity. Visit our website at: www.emerson.edu.

DRAKE UNIVERSITY

Dean, College of Arts and Sciences

Drake University invites nominations and applications for the position of Dean, College of Arts and Sciences, to be filled by summer, 2001.

Drake University is a private, comprehensive university of approximately 5,000 students located in Des Moines, the capital of Iowa. Drake University is committed to the continued development of a diverse and dynamic learning community integrating liberal arts and five professional schools through a broad range of educational programs and experiences. The College of Arts and Sciences, the largest college at the university, enrolls approximately 1,200 full-time students. The goals of the college are the provision of a vigorous liberal arts education to all students at the university, curricular innovation, a commitment to excellent undergraduate teaching, and an active program of scholarship by faculty and students, both individually and collaboratively. The ideal candidate will aid in the realization of these goals and be a leader in the further integration of various programs within both the college and the university. The Dean provides leadership and intellectual vitality for 16 departments in the humanities, natural sciences, and social sciences, and serves as Director of the School of Fine Arts.

Qualified applicants should send a letter of application that addresses their qualifications, a current curriculum vitae, and names, addresses, and telephone numbers of five professional references to:

William Dougherty
Chair, A&S Dean Search Committee
Drake University
2507 University Avenue
Des Moines, IA 50311

Review of applications will begin December 1, 2000 and continue until the position is filled.

Please visit Drake's website (www.drake.edu) for more detailed information.

Drake University is an equal opportunity employer.
ENDOWED PROFESSORSHIPS

The John Smart Centennial Professorship.
The first appointee to the Smart Centennial Professorship must have a distinguished record of teaching, research and practice about programs that promote independent and autonomous functioning. Preference will be accorded to candidates with a master’s and/or a doctoral degree in social work.

The Sylvia D. and Mose J. Firestone Centennial Professorship in Clinical Social Work.
The appointee to the Firestone Professorship must have a distinguished record of teaching, research and practice in clinical social work. Candidates must have a master’s and/or a doctoral degree in social work.

The Marion Kenworthy Professorship of Psychiatry in Social Work.
The appointee to the Kenworthy Professorship must have a distinguished record of teaching, research and practice in psychiatry and must be able to relate this expertise to social work education, particularly regarding human behavior and the social environment. Candidates must have an M.D. degree and advanced training in psychiatry.

Successful candidates must have nationally or internationally recognized research and publications in the above areas as well as a continuing record of exceptional teaching and innovation in the classroom. The candidate should be able to mentor students and junior faculty in ways that enhance the profession. Endowed Professors will exercise a leadership role in the School, particularly in procurement of major grants, collaborative research, and curriculum development in the cited areas.

Nominations and applications should be forwarded to:
Ronald A. Feldman, Dean
COLUMBIA UNIVERSITY
SCHOOL OF SOCIAL WORK
622 West 113th Street,
New York, NY 10025

Florida State University College of Social Sciences seeks three tenure-track faculty with experience and preparation in epidemiology, one at the rank of full professor and two assistant professors. This is a unique opportunity to conduct collaborative work with social/behavioral scientists, in particular demographers, economists, and sociologists, as well as biostatisticians and faculty in the newly formed College of Medicine. Qualifications include doctoral preparation (PhD/MD) in epidemiology or in a related field with post-doctoral training in epidemiology. Areas of concentration may include women's reproductive and child health, mental health and co-morbidities, substance/drug epidemiology, chronic disease, infectious disease, rural and underserved populations, aging and other related subject matter. Responsibilities include maintaining an active research program and contributing to the undergraduate and graduate social science and medical teaching programs. Preference will be given to individuals with a promising scholarly record of top tier refereed publications and the ability to develop a productive research program supported by external funding. These positions are part of a new Interdisciplinary Program in Epidemiology and are tenure earning in one of the six departments of the College of Social Sciences (Economics, Geography, Political Science, Public Administration, Sociology, and Urban and Regional Planning). We seek scholars excited by the challenge of establishing a new program and committed to the pursuit of national visibility.

Florida State University is a comprehensive research university with strong undergraduate and graduate programs in the social sciences. Information on the university, the College of Social Sciences, and the College of Medicine is available through the FSU home page: http://www.fsu.edu. Florida State University subscribes to equal opportunity and pluralism and complies with the Americans with Disabilities Act. These are nine-month tenure track positions at nationally competitive salaries.

Applications should include a cover letter, curriculum vitae, one research paper, and the names, addresses and fax numbers of three references. Screening of applications will begin December 15 and continue until the positions are filled. Submit application materials to:
Ms. Dalitz Vause
Office of the Dean
College of Social Sciences
Florida State University

ANEO/ADA

Faculty Opening – Computer Science
California State University, Bakersfield invites applications for two tenure-track positions. Applicants must have a Ph.D. in Computer Science, or in a closely related discipline with extensive background in Computer Science (or to be completed within one year from date of employment). Salary and Rank will be commensurate with background and experience. Review of applications begins January 2, 2001 and will continue until the positions are filled. Send letter of application, vita, copy of graduate transcripts, and three letters of recommendation to:
Dr. Thomas Meyers, Chair, Department of Computer Science, California State University, Bakersfield, 9001 Stockdale Highway, Bakersfield, CA 93311-1099. For more information telephone (661) 664-3082, FAX (661) 665-0960, or E-mail plamplins@csubak.edu.
SOUTHEAST MISSOURI STATE UNIVERSITY
Dean
College of Health and Human Services

The Dean is the chief administrative officer and academic leader of the College of Health and Human Services and reports directly to the Provost. The college consists of seven departments:

- Aerospace Studies
- Communication Disorders
- Criminal Justice
- Health and Leisure
- Human Environmental Studies
- Nursing
- Social Work

The 65 full-time faculty members in the college teach and supervise approximately 1,650 undergraduate majors and approximately 125 graduate students. Graduate programs include communication disorders, home economics education, health and leisure, criminal justice, and nursing. The college offers programs which integrate classroom study and field experience. Accreditations are held with the American Speech-Language-Hearing Association, American Dietetic Association, National League for Nursing, Council on Social Work Education, National Athletic Trainers Association, American Physical Therapy Association, National Academy of Early Childhood Programs, and National Recreation and Park Association.

Southeast Missouri State University is a comprehensive regional state university consisting of nine colleges and schools: Health and Human Services, Donald L. Harrison College of Business, Education, Graduate Studies, Extended Learning, Liberal Arts, Science and Mathematics, University Studies, and Polytechnic Studies. The university currently enrolls approximately 9,000 students and is the only four-year and Master's granting institution located in the 25 counties of southeast Missouri. Admissions are moderately selective. Southeast competes on the NCAA Division I level as a member of the Ohio Valley Conference in athletics.

Cape Girardeau, located on the Mississippi River less than two hours south of St. Louis and three hours north of Memphis, serves as the major medical, retail, wholesale, financial, transportation, and educational center for southeast Missouri and southern Illinois. The Cape Girardeau metropolitan area has a population of approximately 60,000.

Qualifications: The successful candidate must have the following: an earned doctorate from an accredited university and qualify for appointment as a full professor in a department in the college; a record of scholarly achievement; distinguished teaching experience; demonstrated administrative or leadership ability in an academic setting; demonstrated commitment to collegiality and creativity; evidence of ability to maintain and strengthen ties with educational, social service, and health-related communities; and demonstrated ability to acquire external resources through fund raising, grants, and contracts; evidence of a commitment to the recruitment, advancement, and retention of a diverse community of faculty, staff, and students; and strong interpersonal and communication skills.

Applications and nominations are invited for the position, which will be available July 1, 2000. To apply, send a letter of application, resume, and the names, addresses, and telephone numbers of five references familiar with the candidate's qualifications to College of Health and Human Services Dean Search Committee, Human Resources Office, Southeast Missouri State University, One University Plaza, Cape Girardeau, MO 63701, FAX 573-554-2190. Review of applications by the Search Committee will begin on January 15 and continue until the position is filled.

AN EQUAL OPPORTUNITY, M/F, AFFIRMATIVE ACTION EMPLOYER

UNIVERSITY OF REDLANDS

WHITEHEAD COLLEGE
Department of Management and Business
Statistics (Assistant/Associate Professor)

The Department of Management and Business at Whitehead College of the University of Redlands invites applications for a tenure-track faculty position in Business Statistics. Candidates must have an earned doctorate in business statistics or related field with a minor in statistics and research methods. The position is eleven months and provides one month of leave per annum. The position will be at Associate Professor or Assistant Professor rank, commensurate with qualifications.

The University of Redlands, located in southern California midway between Los Angeles and Palm Springs, is a private non-denominational, liberal arts university that offers programs for both resident and non-tenational students. The University's Whitehead College provides innovative degree programs to approximately 2,200 adult learners throughout Southern California. About 1,500 students are enrolled in the residential College of Arts and Sciences.

Candidates must have teaching experience and interest in adult students. Work experience in business and/or managerial statistics and in interdisciplinary, collaborative settings is strongly preferred. Candidates should submit evidence of effective teaching and have interest in curricular and program development. Experience in mentoring part-time faculty is desirable. Successful candidates for the position will demonstrate active scholarship and willingness to serve the academic community through committee work and governance. Candidates must be able to travel and teach at university sites in southern California.

The University of Redlands is an Equal Opportunity Employer and does not discriminate on the basis of race, color, religion, age, nonqualifying disability, gender, sexual orientation, veteran status, marital status, national origin or ethnic origin. We actively encourage applications from women and members of under-represented populations. You may want to visit our website: www.redlands.edu

The search committee will commence reviewing applications on November 27, 2000. The position will remain open until filled, and the position may start as early as July, 2001. Please send a letter of application with curriculum vitae and teaching evaluations, and request three references to send their letters of recommendation to:

Statistics Search, Dean's Office
Whitehead College
University of Redlands
1200 East Colton Avenue
P. O. Box 3080, Redlands, CA 92373-0999

UIC
The University of Illinois at Chicago

PROVOST AND VICE CHANCELLOR
FOR ACADEMIC AFFAIRS

Nominations and applications are invited for the position of provost and vice chancellor for academic affairs at the University of Illinois at Chicago (UIC).

UIC is the largest university in Chicago, with 25,000 students, 12,000 faculty and staff, 15 colleges and the state’s major public medical center. The university, part of the three-campus University of Illinois system, has a $1 billion budget and $175 million in annual research expenditures. The university’s 100-building, 200-acre campus is located just west of downtown Chicago. UIC is in the midst of a major expansion that will add new academic buildings, research facilities and student housing, along with market-rate residential units and other improvements to the campus environment.

The provost and vice chancellor for academic affairs is the chief academic officer and chief operating officer of UIC, working closely with the chancellor. All academic deans report to the provost, who bears responsibility for day-to-day campus operations, including the allocation and management of the campus budget. The successful candidate will have demonstrated scholarly distinction as well as proven leadership in a major academic administrative position. He or she should be prepared to provide educational leadership to the campus, promote excellence, foster the role of faculty in collaborative decision-making and address the special demands of public education in a multicultural urban environment.

UIC encourages applications from and nominations of women, minorities and persons with disabilities. Candidates are asked to supply a letter of interest and curriculum vitae. Review of applications and nominations will begin December 30, 2000 and continue until the position is filled. Send applications and nominations to:

Korn/Ferry International Education Practice
Attention: UIC
2100 McKinney Avenue
Suite 1800
Dallas, Texas 75201
(214) 954-1849 fax
(email: krtisha.creal@kornferry.com)

The University of Illinois at Chicago is an affirmative action/equal opportunity employer.

HISPANIC OUTLOOK 0 11/30/2000 394
WAYNE STATE UNIVERSITY

DIRECTOR OF ADMISSIONS

WAYNE STATE UNIVERSITY invites applications for a Director of Admissions.

Wayne State University is a Carnegie Research University I with a comprehensive urban mission. Its 31,000 students study in 14 schools and colleges, including Law and Medicine. With cutting-edge research in such areas as cancer, diabetes, vision and bioengineering, many university programs are nationally ranked: With nearly 200,000 alumni living in a five-county area, WSU graduates represent a significant presence in the state.

The Office of University Admissions has the primary functions of recruiting, admitting and enrolling new students to WSU. The Office also helps to coordinate the recruitment activities of individual departments, alumni groups and students; and it organizes visits to local high schools and community colleges. University Admissions includes two areas: undergraduate and graduate admissions. The Office collects applications, application fees, official transcripts, and standardized test scores for domestic and international students. Extensive use is made of the Student Information System and the Contact Management System to input data, as well as to communicate with students. The Office is also responsible for evaluating and awarding transfer credit to those undergraduate students who present transcripts of work earned at other colleges.

The Director is responsible for directing staff, planning and administering the recruiting programs, determining department staffing needs and recruiting qualified personnel, overseeing the financial management of program budgets, and efforts designed to enhance service to students and the university community. The University regards Admissions as one of its most important outreach programs, and the Director is expected to support our pursuit of academic excellence.

Qualified candidates will have earned a Master’s degree in a related field (or possess an equivalent combination of education and experience). Preference will be given to candidates who have a demonstrated ability to effectively and efficiently manage a complex organization with multiple programs. A strong record of achievement in higher education is required. Candidates are expected to have superior ability in interpersonal, oral and written communications skills, and to be fully committed to sustaining and advancing the goal of institutional diversity of students and staff. In addition, candidates must have an unwavering commitment to academic integrity, rules compliance, and gender equity.

Candidates should submit a letter of application highlighting qualifications as outlined above and a current resume. Review of applications will begin immediately and will continue until a suitable candidate is selected. Submit applications and nominations to:

William E. Hill, chair, Admissions Search Committee
4107 Faculty Administration Building
Wayne State University, Detroit, MI 48202
E-mail: ad2107@wayne.edu
Wayne State University is an equal opportunity/affirmative action institution.
HOBART AND WILLIAM SMITH COLLEGES

ANNOUNCES THE FOLLOWING OPENINGS FOR THE 2001-02 ACADEMIC YEAR

HOBART AND WILLIAM SMITH COLLEGES

Hobart and William Smith are residential liberal arts colleges, located in a small diverse city in the Finger Lakes Region. The Colleges, which have a combined enrollment of 1,843, offer a remarkably broad array of majors and minors, with a cross-disciplinary flavor intended to better inform both professional and intellectual pursuits. The Colleges are noted also for an ambitious emphasis on international study, and for their programs in community service. Hobart College for men and William Smith College for women share faculty, facilities, and curriculum, but maintain separate dean's offices, athletic programs, student governments, and traditions. Applications should be submitted directly to the designated search committee chair at Hobart and William Smith Colleges, Geneva, NY 14456.

We actively seek applications from under-represented groups and do not discriminate on the grounds of race, color, religion, sex, marital status, national origin, age, disability, veteran's status, or sexual orientation. To learn more about Hobart and William Smith Colleges, visit our Web site at www.hws.edu.

Art History, East Asian, A tenure-track position for the Henry Luce Junior Professorship in East Asian Art History beginning July 2003. A Ph.D. is required. The teaching load is 5 courses per year that will include two introductory courses in East Asian and/or Asian Art History, two advanced courses in East Asian Art History, and one course in which the Luce Professor would contribute his/her knowledge of Asian art, history, and culture to the College's general curriculum program. This last course could be either a First-Year Seminar or an interdisciplinary course that would be team-taught with a colleague or colleagues from different academic disciplines. All courses taught by the Luce Professor will be cross-listed in Asian Studies and will become key components of the Asian Studies as well as the Art and Art History curricula. Candidates should send a CV and a cover letter detailing their background and interest in the position, and request three letters of recommendation to be sent to: Joanna Issad, Chair, Henry Luce Professor of East Asian Art Search, Department of Art. The review of applications will begin December 1, 2000 and will continue until the position is filled.

For more information on the Department of Art, see our web site at: www.hws.edu/aca/depts/art.

Organic Chemistry, a tenure-track position beginning July 2003. A Ph.D. in chemistry is required, along with a commitment to excellence in undergraduate teaching and research. The Chemistry department is ACS-certified and very well equipped. Further information and a more detailed description of the position opening may be found at: www.hws.edu/~chem. Applicants should submit a CV, a description of teaching philosophy and research plans, and three letters of recommendation to: Organic Professor Search Committee - Selena Poon, Chair, Department of Chemistry. Review of applications will begin October 2, 2000 and will continue until the position is filled.

Economics: Public, Labor, Mathematical and Quantitative Methods. One tenure-track position at the Assistant Professor (Ph.D.) or Instructor (ABD) level. Prerequisites in public and labor economics. Strong preparation in statistics and econometrics is required, as well as an interest in teaching in these areas using quantitative methods in research. Teaching load is five courses per year on a two-year cycle in both areas. The position includes responsibility for two calculus prerequisite courses each year, a course in public sector economics and another in labor economics, and other departmental offerings as needed. Applicants should submit an application letter, curriculum vitae, and evidence of teaching experience, and arrange for three letters of recommendation to be sent to: Professor Genevieve Gilbert, Department of Economics, for further information on the Colleges Economics Department, see our web site at: www.hws.edu/aca/depts/econ. Review of applications will begin after November 1, 2000, and interviews will be conducted at the American Economic Association meetings in New Orleans.

Education: Tenure track. An educator with a strong background in science education is sought to join a collegial and productive department that operates a field-based teacher education program teaching a broad curriculum in the life sciences. The department currently teaches courses to undergraduate students, and is developing plans for an MAT program. Responsibilities will include (1) providing seminars and workshops on science and mathematics methods for students pursing New York State certification as elementary or elementary/secondary education teachers, and as secondary science teachers and biology, chemistry, and physics; (2) supervising student field experiences and collaborating with school personnel to enhance those experiences; and (3) teaching liberal arts education courses open to all students both in the candidate's areas of expertise as well as the Colleges' interdisciplinary general curriculum. Successful candidates will hold a Ph.D. or Ed.D. (Candidates with advanced preparation in the experimental sciences and some teaching experience in courses in the sciences will also be considered). Candidates will be expected to offer optional instruction in teaching methods and to guide students' inquiry into topics of education as intellectually formative pursuits. Expertise in one or more of the following areas would be most welcome: mathematics education, urban education, minority issues, gender, instructional technology, or philosophy of science. Experience or the ability to mentor minority students is desirable. Please submit a letter of interest, a vita, a recent article or other writing sample, and three letters of reference to: Charles Temple, Chair, Education Search Committee. Women members of traditionally under-represented groups are strongly encouraged to apply. Review of complete applications will begin on November 20, 2000, and will continue until the position is filled. For more information about the Colleges Education Department see our web site www.hws.edu/aca/depts/edu.

English: Assistant Professor, tenure-track, in fiction writing. Preferred requirements: M.F.A. and significant publications. Successful candidate will be qualified to teach fiction and poetry as the introductory level in both literature and creative writing classes, an advanced fiction workshop, literature courses in area of expertise, and be able to contribute to the College's interdisciplinary general curriculum. Applications must include 5-7 current papers, 2-3 semester. For further information on the Colleges and the Department of English and Comparative Literature, see www.hws.edu/aca/depts/eng. Please send CV and a writing sample to: Deborah Tall, Department of English.

Geoscience: Physical Geology, Sedimentary Geology, Paleontology. Assistant Professor, tenure-track position to teach introductory physical/environmental geology as well as courses in the field of sedimentary geology, historical geology and/or palaeontology, depending upon the candidate's expertise and the department's needs. In addition to departmental teaching, candidates will be required to teach in the institution's general curriculum. Departmental faculty members also assume leadership roles in the Colleges' Environmental Studies Program. Faculty are research-active and strongly encouraged to engage in research. The teaching load is five courses per year (which may include courses in other programs as needed). Research by faculty members is expected, and candidates are encouraged to apply. To apply send the following information to: Hobart College, William Smith College, Human Resources Office, Geneva, N.Y. 14456. Correspondence may be addressed to: President David D. Mathes. Hobart and William Smith Colleges are committed to diversity and strongly encourage applications from qualified women, persons of color, members of the disabled community, and persons with international experience.

Modern Languages - Spanish: Assistant Professor of Spanish IWS announces a tenure-track position to start in Fall 2000, for a specialist in contemporary Hispanic American women writers with a strong background in feminist literary theory. Knowledge of the work of Latin American writers is highly desirable. Native fluency required. Ph.D. a decided advantage. Candidates must demonstrate evidence of a strong potential for scholarship as well as an excellent teaching record. Must be able to teach a range of language and literature courses (3 per year) and to participate in a program of cultural activities. Experience in the use of multimedia technology desirable. For further information see our web site: www.hws.edu/aca/depts/geo. Applicants should send a letter of application and curriculum vitae and arrange for three letters of recommendation to be sent to: William E. Ahrnsbrak, Geoscience Department. Review of applications will begin January 1, 2000.

Political Science: American Politics/Ethnic and Racial Politics, Assistant Professor, tenure-track position. We seek a broadly trained Americanist who, in addition to teaching introductory level American politics might offer courses in African-American politics, public policy, Latino/a politics, identify construction, and/or social movements. As a liberal arts colleges offering diverse and liberal education, we seek candidates committed to the intellectual and moral benefits of diversity. A Ph.D. is preferred. We will consider ABD's. The normal teaching load is 3/2; Women and minority candidates are encouraged to apply and welcome to identify themselves. Candidates should send a CV, a letter expressing their research and teaching interests and preferences, a recent graduate school transcript of sample work written, and three letters of recommendation to: Professor Jodi Dolc, Chair, American/Ethnic and Racial Politics Search Committee, Department of Political Science, jdean@hws.edu. For more information about the department, visit our website at: www.hws.edu/aca/depts/polisci/. Application deadline is November 1, 2000.

Political Science: International Relations. The Department of Political Science is looking for a candidate for a three-year, renewable position in International Relations. We are looking for a broadly trained person able to teach courses in some of the following: international organizations, international security, the I.T. economy, international political economy, and globalization. Specific regional interests (e.g., Africa, Asia) are a plus. As a liberal arts college offering diverse and interactive courses, we invite you to design and offer courses with your particular bullshit of interest. A Ph.D. is preferred, but we will consider ABD's. The normal teaching load is 3/2. Women and minority candidates are encouraged to apply and welcome to identify themselves. Candidates should send a cover letter expressing their research and theoretical interests. A CV, graduate school transcript, sample of written work, and three letters of recommendation to: Professor David D. Mathes, Chair, Political Science ost@hws.edu. For more information about the department, visit our web site at www.hws.edu/aca/depts/polisci/. Application deadline is November 1, 2000.

Physics: The Department of Physics invites applications for a tenure track position at the Assistant Professor level, commencing Fall 2001. We seek candidates with an advanced degree in experimental physics (Ph.D. strongly preferred), a genuine interest in teaching and liberal arts education, and the ability to involve our undergraduate students in experimental research. We are open to all research specializations. Experience in courses in applied physics and the ability to offer additional instruction in teaching methods and to guide students' inquiry into topics of education as intellectually formative pursuits. Expertise in one or more of the following areas would be most welcome: mathematics education, urban education, minority issues, gender, instructional technology, or philosophy of science. Experience or the ability to mentor minority students is desirable. Please submit a letter of interest, a vita, a recent article or other writing sample, and three letters of reference to: Charles Temple, Chair, Education Search Committee. For more information about the department, visit our web site at www.hws.edu/aca/depts/phys.

PSYCHOBIO: two tenure-track positions. Applications are solicited in the following three areas: 1) Clinical, 2) Sensation and Perception, and 3) Personality. Areas of specialization should reflect an ongoing interest in the areas described. Psychobiology is an area where we are especially interested in candidates who have research and academic interests that are interdisciplinary and/or address the needs and concerns of racial and cultural minorities and/or women. All applicants must have or be near the completion of the Ph.D. to be committed to teaching in a small, residential, liberal arts institution. In addition, they will be expected to establish an active research program and continuation of personal scholarship complementary to a liberal arts curriculum. The Department of Psychology has excellent laboratory, office, and classroom facilities. Applicants in this field should be licensed or license-eligible by the New York State Department of Health. A Ph.D. is required and consists of five courses per year, including core and advanced courses, a laboratory-based class in one specialty area and contributions to the Colleges' general curriculum. Candidates should be willing to participate in community and departmental service, including serving as a faculty advisor to majors. Review of applications will begin immediately and continue until the positions are filled. Submit cover letter, CV, statement of teaching interests and philosophy, relevant reprints, and three letters of recommendation (at least one of which comments on teaching) to: the Chair of Search Committee, Department of Psychology. For more information about the department, see our web site at www.hws.edu/aca/depts/psych.

HISPANIC OUTLOOK 11/20/2000

Materials Submitted Should Include: A letter of interest, curriculum vitae, names, addresses, and telephone numbers of three references, and college transcripts. Information should be sent no later than February 9, 2001 to:

Dr. Ronald Mitchell, Associate Chair  
Search Committee Chair  
Idaho State University Department of Nursing  
Campus Box 8101  
Pocatello, ID 83209

Idaho State University is an Equal Opportunity/Affirmative Action Employer
Tenure Track Positions
Starting Date: August 27, 2001

West Chester University of Pennsylvania, a member of the Pennsylvania State System of Higher Education, is continuing to build a culturally diverse, broadly trained faculty capable of fostering an inclusive environment which we feel is necessary to help prepare our students for the 21st Century. To achieve this goal, we aggressively seek to recruit minority faculty members who will be given serious consideration for filling 31 tenure track positions. West Chester, located 25 miles west of Philadelphia, is convenient to major cultural & commercial institutions, recreational activities, and is within driving distance of Wilmington, DE, NYC, and Washington, DC. The University is an equal opportunity, affirmative action employer encouraging diversity.

Unless indicated in the job description, a terminal degree in the field or related field is required. For all positions, excellence in teaching and the potential to develop an active program of research or scholarly activity in the discipline are essential. Effective communication and teaching must be demonstrated by presenting a seminar or lecture during an on-campus interview. Successful candidates will also have the opportunity to participate in teaching and research within interdisciplinary programs. Rank and salary are commensurate with experience.

THE UNIVERSITY OF TEXAS AT DALLAS FACULTY POSITIONS IN ACCOUNTING

The School of Management is recruiting to fill two open positions in the Accounting Program effective September, 2001. Appointment at Assistant, Associate or Full Professor level will be considered, depending upon the qualifications of the candidates. Appointees must have a Ph.D. degree or equivalent and demonstrate the ability to conduct a nationally recognized research program. Graduate education in a university emphasizing Research training and ability and interest for interacting with faculty colleagues on research projects in related disciplines are desirable. Candidates must present evidence of excellence in teaching and a record of scholarly publication in refereed journals commensurate with their level of appointment. Applicants should send a complete curriculum vitae (educational history, teaching, research and other pertinent work experience, list of publications, current research papers and presentations), and names, addresses and telephone numbers of three references to: Academic Search 4403, The University of Texas at Dallas, P.O. Box 830668, M/S AD 23, Richardson, TX 75083-0668. Indication of sex and ethnicity for affirmative action statistical purposes is requested as part of the application but not required. Review of applicants materials will commence in November, 2000 and will continue until the position is filled or the search is closed on May 31, 2001.

The University of Texas at Dallas is an Affirmative Action/Equal Opportunity Employer and strongly encourages applications from candidates who would enhance the diversity of the University’s faculty.

Carleton College
HEAD COACH OF FOOTBALL
PHYSICAL EDUCATION,
ATHLETICS AND RECREATION

Carleton College invites applications for a full-time faculty/coaching position at the assistant professor level in an NCAA Division III Institution, beginning March of 2001. Exceptional candidates with more experience will be considered. Candidates will play an active role in both coaching and teaching in an activity-based physical education program and assisting in a second sport. The successful applicant will be responsible for organizing and administering all phases of the football program, as well as recruitment of student-athletes to a highly selective liberal arts institution. Other responsibilities include teaching a variety of activity courses throughout the year, and/or teaching content courses such as CPR/First Aid, Principles and Methods of Coaching as well as assisting in a second sport. Other appropriate responsibilities will be assigned by the Department Chair/Athletic Director.

Masters degree in Physical Education or an appropriate field required or near completion. At least three years of successful coaching and teaching experience. Demonstrated ability to coach and teach successfully at the college or high school level, an understanding of and commitment to academic and athletic excellence in a highly selective liberal arts institution, and a commitment to the NCAA Division III philosophy.

Send statement of interest, resume and three current letters of reference to:

Leon Lunder
Chair/Athletic Director
P.E.A.R. Department
Carleton College
One North College Street
Northfield, MN 55057

Review of applications will begin November 27, 2000.

Carleton is a highly selective liberal arts college with 1800 undergraduates located 45 miles south of Minneapolis and St. Paul. The Carleton calendar includes three 10-week terms. Carleton College is an affirmative action/equal opportunity employer. Minorities strongly encouraged to apply.

For additional information, visit Carleton’s website at http://www.carleton.edu/
ROY H. PARK SCHOOL OF COMMUNICATIONS

Two full-time, tenure-eligible assistant professor positions, one in advertising and one in public relations, starting August 15, 2001 offers the successful applicants the opportunity to teach and research in a lively, creative, and engaging environment and to take part in shaping an evolving curriculum in one of the strongest undergraduate communication programs in the country.

The Department of Television-Radio at Ithaca College is committed to providing students a liberal arts education within a professional program. The department currently confers the B.S. degree in Television-Radio (with concentrations in video production, audio production, international communication, advertising/public relations, media management, and directed studies); the B.A. degree in Journalism; the B.A. degree in Media Studies; and the B.S. degree in Telecommunications Management.

Position Descriptions

Ph.D. in Advertising or Public Relations, or a related field preferred; Master's Degree required. Significant professional and teaching experience preferred.

The ideal candidates should demonstrate evidence of: 1) teaching effectiveness appropriate for an undergraduate communication program; and 2) an ongoing and dynamic scholarship/professional profile, as well as potential for such, and/or a record of successful experience in the advertising or public relations field. We are especially interested in candidates who can provide leadership in curriculum development and help build strong professional relationships.

ADVERTISING POSITION

Teaching responsibilities will primarily consist of courses in Advertising at all levels of the curriculum, particularly those dealing with design, copywriting and layout, and portfolio preparation. Experience in the creative aspects of advertising and proficiency in Pagemaker, Illustrator, Photoshop, and Quark is required. Additional teaching responsibilities may include Television-Radio Department core courses such as Introduction to Mass Media. Maintenance of a scholarly/professional profile is required. Moreover, the successful candidate will assist the department in working toward a proposed major in integrated marketing communication. There is also the opportunity to work with our award-winning AAF NSAC team.

PUBLIC RELATIONS POSITION

Teaching responsibilities will primarily consist of courses in public relations at all levels of the curriculum, particularly those dealing with writing and audio/visual presentations, program and campaign management, and portfolio preparation. Additional teaching responsibilities may include research methods, media writing, and other core courses depending on the expertise of the candidate. Maintenance of a scholarly/professional profile is required. Moreover, the successful candidate will assist the department in working toward a proposed major in integrated marketing communication. There is also the opportunity to work with our award-winning PRSIA team.

The successful candidates will also act as academic advisors to students and serve on department, school, and college committees.

Applicants should send a current vita, statement of interest in either the advertising or public relations position, including areas of teaching and professional specialization, and three current reference letters to:

Chair, Ad/PR Search Committee
c/o Karen Armstrong, Department of Television-Radio
Roy H. Park School of Communications
Ithaca College
328 Roy H. Park Hall
Ithaca, NY, 14850-7253
Phone: 607-274-3269
Email: karmstrong@ithaca.edu.

No faxed or electronically transmitted application materials will be accepted. Screening of applicants will begin November 13, 2000. Applications will be accepted until the positions are filled.

Ithaca College is an Equal Opportunity/Affirmative Action Employer. Members of underrepresented groups (including people of color, persons with disabilities, Vietnam veterans, and women) are encouraged to apply.

DEAN OF FACULTY
Ammerman Campus
And
DEAN OF STUDENT SERVICES
Western Campus

Suffolk County Community College located on Long Island is New York State's largest multi-campus community college, invites applications for the Dean of Faculty at its Ammerman Campus, Selden, N.Y. and Dean of Student Services at the Western Campus, Brentwood, N.Y. The Ammerman Campus has 11,100 students and 300 full time faculty. The Western Campus has 6500 students and 130 full time faculty.

Both Deans report to the respective campus Executive Dean. Candidates should possess a substantial record of incremental administrative experience in higher education, preferably at the community college level. They should have expertise in program development; familiarity with emerging technologies and their applications; a record of encouraging faculty and staff development and be well versed in program review and the accreditation process. The successful candidate must be proactive, a visionary and possess outstanding interpersonal skills.

Please refer to the college website for position description and qualifications:

http://www.sunysuffolk.edu

Review of applications will continue until position is filled. Send a letter of application and a resume to:

NATIONAL SCIENCE FOUNDATION
DIVISION OF EARTH SCIENCES

PROGRAM DIRECTOR FOR INSTRUMENTATION & FACILITIES

The National Science Foundation’s Division of Earth Sciences is seeking qualified candidates for the position of Program Director of the Instrumentation & Facilities Program. This position is offered from the competitive civil service and may be filled on a permanent basis, a 1 to 2-year visiting scientist/temporary basis, or under the provisions of the Intergovernmental Personnel Act (IPA). IPA applicants must be permanent, career employees of eligible organizations for at least 90 days prior to entering into a mobility assignment agreement with NSF and the individual’s institution. Current annual salary for the program director position ranges from $71,954 - $112,141.

Applicants must have a Ph.D. or equivalent experience in an Earth sciences field plus 6 years of successful research, research administration, and/or management experience beyond the Ph.D. in an area supported by the program. A broad general knowledge of Earth sciences research, familiarity with the U.S. scientific community and experience in an academic setting are desirable.

The Instrumentation & Facilities Program provides support for the acquisition of new research equipment or the modernization of existing equipment; the development of new instrumentation or techniques that extend current research capabilities in the earth sciences; the support of shared facilities that make complex and expensive instruments available on a national or regional basis; and the support of research technicians.

Interested applicants should submit a letter of recommendation and curriculum vitae to the National Science Foundation, Division of Human Resources, Attn: Myra Loyd, Room 315, 4201 Wilson Blvd., Arlington, VA 22230; and reference the following vacancy announcement:

Instrumentation & Facilities Program: Permanent Position E20010027

MILLERSVILLE UNIVERSITY
Dean of Humanities and Social Sciences
MILLERSVILLE University of Pennsylvania invites applications and nominations for the position of the Dean of the School of Humanities and Social Sciences. MILLERSVILLE University, founded in 1855, is one of 14 institutions of the PA State System of Higher Education. As a student-centered institution, the University is highly regarded for offering quality instruction and is strong in the liberal arts. Nationally ranked as one of the top regional public institutions of higher learning by U.S. News and World Report, MILLERSVILLE is also listed among Kiplinger's 100 "best value universities" in the nation. The University has an honored history of providing excellent teaching and a strong liberal arts curriculum in the arts, sciences, and humanities. The University enrolls 7,500 undergraduate and graduate students, and employs 550 staff and 350 full-time faculty. The School of Humanities and Social Sciences enrolls 41% of MILLERSVILLE's undergraduate students and 12% of its graduate students. The School of Humanities and Social Sciences, the largest of MILLERSVILLE University's three schools, is located in a 13-acre academic department with 2,550 undergraduate and 130 graduate students. Every one of MILLERSVILLE's 6,400 undergraduates takes most of their general education courses in the School. The School is firmly committed to its mission to provide "An intellectual setting for the study of the liberal arts that values initiative, scholarship, creativity and integrity." Located in historic Lancaster County, the campus is within three hours' drive of numerous cultural and recreational opportunities in the cities of Baltimore, Philadelphia, Washington, New York, the Pocono Mountains, and the Atlantic Ocean beaches. Because of its economic diversity, Lancaster County is among one of the most prosperous counties in the country. For more information, contact the MILLERSVILLE University's Web page at www.millersville.edu.

RESPONSIBILITIES: The Dean is the senior academic officer of the School and reports directly to the Provost and Vice President for Academic Affairs. The Dean provides academic and administrative leadership, direction, and support for instructional, research, and professional activities in the School in the development of:

- Art
- Business Administration
- Communication & Theatre
- Economics
- English
- Government & Political Affairs
- History
- Foreign Languages
- Geography
- Philosophy
- Sociology/Anthropology
- Music

The Dean must be able to assume a university-wide perspective, work, and communicate effectively with students, faculty, administrators, external organizations and institutions in a diverse community. This position is responsible for the continued recruitment and expansion of the largest core of qualified students by the faculty and continuing the university's academic, economic, and administrative connections. The Dean must encourage and promote the recognition, understanding, and respect of cultural and human diversity in the School's faculty, staff, students, and curricula, and must be committed to increasing diversity within the School as well as on campus. A capacity and willingness to listen, create consensus, solve problems, and assume responsibility are essential.

QUALIFICATIONS: Candidates must demonstrate the capacity to be an innovative, visionary leader committed to excellence in teaching, learning and partnership with community. Applicants must possess an earned doctorate in one of the disciplines in the School of Humanities and Social Sciences. Also, essential is a record of qualified scholarship, teaching, and service in higher education; a commitment to faculty development of the liberal arts, and academic freedom; and evidence of success in building an inclusive community. Candidates need to present a record of progressive academic administrative experience which demonstrates likelihood success in activities such as: planning, program development, fund raising, grant writing, advocacy for all the School's disciplines, evaluation of teaching effectiveness, assessment of programmatic outcomes, and personnel and budget management in a public university setting. Candidates must demonstrate an appreciation or the role of technology in an educational institution and the ability to function effectively in a team-oriented collective-bargaining environment. A successful interview is crucial.

NOMINATIONS AND APPLICATIONS: Applications should include a letter detailing their experiences relating to the qualifications for the position; a vita; the names, addresses, and telephone numbers of at least three professional references. Full consideration will be given to complete applications received by January 10, 2001. Anticipated starting date is July 1, 2001. Electronic submissions will not be accepted. Nominations and applications should be sent to: Search Chair Dean of Humanities and Social Sciences Search/HO1120 MILLERSVILLE UNIVERSITY P.O. Box 1002, Millersville, PA 17551-0302

An Equal Opportunity/Affirmative Action Institution

Dr. Michael Jordan, Associate Dean
School of Arts and Sciences
715 North Avenue
New Rochelle, NY 10801-1890

Baron
INSTRUCTOR OF SPANISH
(revised)
plus one of the following languages: Italian (preferred), French, or German

Primary responsibility will be to teach Spanish, develop and modify curriculum, refine and modify course syllabi, and identify required teaching materials. A master's degree in Spanish and at least 20 semester hours (15 of which are graduate hours) in Italian (preferred), French, or German; or, alternatively, a master's degree in Spanish and native speaker proficiency in Italian (preferred), French, or German. Relevant college teaching experience required. 2000-2001 base salary range is $35,087 - $52,631, placement commensurate with experience plus benefits. Starting date August 26, 2001.

To receive application materials call (810) 445-7885, or you may print an application form directly from our website at www.macomb.cc.mi.us.

To ensure consideration, the following required application materials must be received by Friday, January 5, 2001, at 4:00 p.m. Application for employment, letter addressing how you meet the stated qualifications for the position, a short statement about pedagogy, transcripts (unofficial acceptable for screening) and resume. A screening committee will review applicant materials as soon as possible after the published deadline. The search will continue until the position is filled.

MI Relay Center 1.800.649.3777 (Voice and TDD).

ASSISTANT, ASSOCIATE OR FULL PROFESSOR, DEPARTMENTS OF CHEMISTRY, PHYSICS & BIOLOGY

As part of a major CUNY Photonics Initiative involving 20 new faculty lines at various levels, a similar number of support lines and extensive new facilities, Hunter College is currently seeking applications for both junior and established faculty. Multiple appointments will be made - at least one in each of the chemistry, physics and biology departments. All areas of photonics will be considered, but self-organizing materials and biological applications of new instruments are areas of special interest.

Send CV including publications list, and a brief outline of research to: Prof. C.M. Duan, Department of Chemistry, Hunter College at CUNY, 695 Park Ave., New York, NY 10021.

HUNGER CITY UNIVERSITY OF NEW YORK
Hunter College is an affirmative action equal opportunity employer. Women and members of under-represented minorities are especially encouraged to apply.

Carnegie Mellon
Pittsburgh, Pennsylvania
Program Associate, Job No. 26320

Description: The position plans, implements and participates in activities to retain African American, Hispanic and Native American students including personal counseling, academic advising and career guidance. Requires knowledge of US Hispanic cultural groups and serves as an internal resource, identifies needs and recommends programs and services to address them.

Requirements: Minimum qualifications include a bachelor's degree in guidance and counseling, educational psychology, student personnel or education; master's degree preferred. Familiarity with the educational, social and cultural issues of ethnic minority students is essential. Fluency in Spanish is a plus.

CHAIR, DEPARTMENT OF COMMUNICATION

The School of Communication, Management and Public Policy at Emerson College seeks a Chair of the Department of Communication, a tenured/tenure-track position with faculty rank at the Associate or Full Professor level, beginning September 2001. The Department of Communication is one of two departments housed in the School, and offers undergraduate and/or graduate programs in health communication, marketing communication (advertising and public relations), management/organizational communication, political communication, and speech communication, and general education courses in related humanities and social science disciplines. Please visit our website www.emerson.edu for more information about the organization, degree programs and faculty of the School and Department.

The Chair reports directly to the Dean of the School of Communication, Management and Public Policy, and exercises academic leadership in the teaching, scholarship, planning and related activities of the Department. We seek candidates who are senior scholars, with a doctorate and research/teaching interests in one or more programmatic areas of the Department (see above), and who are excited by the challenge of leading professionally oriented communication programs. Previous administrative experience is preferred, but not required.

The individual appointed to this position will possess organizational skills appropriate to the administration of a complex academic unit; a scholarly background lending itself to a leadership role especially with regard to curriculum and faculty development; and an entrepreneurial spirit suitable to collaboration with the Dean and other administrative offices in responding to such external challenges/opportunities as student recruitment, fund raising, etc.

The Department of Communication enrolls 300-plus graduate and 350-plus undergraduate students, taught by 28 full-time tenured/tenure-track faculty and approximately 10 FTE adjuncts per semester. The Department's mission and curricula are consistent with the Emerson tradition at the undergraduate level of integrating liberal arts education with communication preparation that combines theory and practice, and at the graduate level of offering professional education to recent college graduates and individuals at the early stages of their careers. The campus is located adjacent to the Boston Common and in the nearby Back Bay region of Boston. A private college, with an urban feel, Emerson College enrolls approximately 4,000 students across three Schools, 20% of which are international.

Review of documents by the faculty search committee will begin on January 15, 2001, but applications will be accepted until the position is filled. Please send a resume, cover letter, contact information for three referees, and a sample of no more than two publications to: Stuart J. Sigman, Dean, School of Communication, Management and Public Policy, Emerson College, 120 Boylston Street, Boston, MA 02116. For more information, contact Stuart.Sigman@emerson.edu or call: 617-824-8354.

Preliminary interviews may be conducted at the November 2000 NCA conference in Seattle.

EMERSON COLLEGE

REGISTRAR

Founded in 1791, the University of Vermont is a comprehensive public research university of approximately 10,000 students and 3000 faculty and staff. The University enrolls students in eight undergraduate colleges, a graduate college, a medical college, and a division of continuing education. The University is located in Burlington, Vermont's largest city with a population of 40,000. Burlington is consistently ranked as one of the nation's most livable cities.

The University of Vermont invites applications and nominations for the position of Registrar. The Registrar reports to the Vice Provost for Undergraduate Education and is responsible for the following key functions: student academic records; all registration services, including course registration and course scheduling; monitoring developments in technology and maintenance of technological systems to support registration, record keeping and student information systems; and, supervision of Transfer Affairs. The Registrar will be a member of the UVM Enrollment Management Team focusing on student recruitment, retention and satisfaction. The Registrar is expected to lead an office that provides excellent service to students, faculty, staff, and community members. Working with other members of the campus, the Registrar will develop strategies to serve UVM's increasingly diverse students both on campus and in other sites. We seek a Registrar who will be a visible, active leader in the UVM community.

Qualifications: Master's degree, or equivalent combination of education and experience, is required as are a minimum of six years of experience directly related to registration and records and which includes experience with budgets and development and implementation of student information systems and applications. The successful candidate also will have significantly increasing experience managing employees, and a proven record of excellent communication, leadership, organizational, and team management skills. Candidates should be familiar with current trends in academic records, enrollment management, and have extensive experience in analyzing and using data.

Review of applications and nominations will begin December 1 and continue until the position is filled. Expected start date: July 1, 2001. The University of Vermont welcomes applications from all qualified individuals, especially women and individuals of diverse racial, ethnic, and cultural backgrounds and people with disabilities.

Applications should include a cover letter describing how the applicant's background corresponds to the position requirements and a vita/resume. Send application and nominations to: Rosalind E. Andreas, Ph.D., Chair, Registrar Search Committee, Office of Financial Aid, The University of Vermont, 500 Waterman Building, 85 S. Prospect, Burlington, VT 05405. For further information, call or email the chair at Rosalind.Andreas@uvm.edu or 802-656-3282.

KENTON COLLEGE

Mathematics Department

Kenyon College invites applications for a two-year visiting position at the assistant professor level. Ph.D. in Mathematics required. Analysis or topology preferred, not required. A typical load consists of five or six courses per year.

A letter of application, vita, transcripts, a statement of teaching philosophy, and three letters of reference (at least one indicating teaching) should be sent to: Chair, Visiting Search Committee, Department of Mathematics, Kenyon College, Gambier, Ohio 43022.

An equal opportunity employer, Kenyon encourages the applications of women and minority candidates.
QUINNIPAC UNIVERSITY

Quinnipiac University is a private, coeducational, nonsectarian institution located in Hamden, Connecticut, 90 minutes north of New York City and two hours from Boston. Quinnipiac has 250 full-time faculty and enrolls 4500 full-time undergraduates and 2000 graduate students in 50 undergraduate and 15 graduate programs of study in Business, Health Sciences, Law, Liberal Arts, and Communication. Quinnipiac consistently ranks among the top northern regional universities in U.S. News and World Report's America's Best Colleges.

FACULTY POSITIONS

All applicants should consult the University's web site at www.quinnipiac.edu/services/jobs/default.asp to obtain more detailed job descriptions and important information such as required application materials and application review dates.

College of Liberal Arts

PROGRAM IN COMPUTER SCIENCE - Tenure-track position in COMPUTER SCIENCE, all ranks and areas of specialization will be considered. A Ph.D. in Computer Science or a related field is required, though ABD candidates at the time of application are encouraged to apply. This new position will include teaching, undergraduate curriculum design and development, shepherd the new Computer Science/Internet Studies major as it grows into a department, and eventually the design and implementation of a Masters degree.

DEPARTMENT OF SOCIOLOGY - Tenure-track Assistant or Associate Professor in CRIMINAL JUSTICE. The Department of Sociology invites applications from candidates who have a Ph.D. in Sociology or Criminal Justice and the ability to teach courses in criminal justice/criminology as well as in general sociology. Those candidates with expertise in the area of minority relations in the criminal justice system are encouraged to apply. The appointee will be instrumental in the development of the new Criminal Justice program, including fostering relationships with agencies involved in criminal justice and collaborating with the University’s program in Legal Studies and its School of Law.

DEPARTMENT OF ENGLISH - is reopened the search for a FRESHMAN COMPOSITION DIRECTOR at the advanced Assistant or Associate Professor level. With administrative reductions the teaching load is 2-3, and the appointee will work closely with the newly appointed campus Writing Director and the Chair of English. Responsibilities include hiring, scheduling, mentoring, and evaluating a large adjunct staff. Applicants must have the Ph.D. in Rhetoric and Composition or a related field, and a demonstrable commitment to assessment and pedagogical innovation.

DEPARTMENT OF ENGLISH - is also looking for two tenure-track Assistant Professor of English to teach COMPOSITION under the new Freshman Composition Director and the Chair of English. A Ph.D. is preferred, but outstanding ABDs in Composition or a related field will be considered if they have a demonstrable commitment to teaching, testing, innovation, and scholarship.

DEPARTMENT OF HISTORY AND GEOGRAPHY - is seeking candidates for a tenure-track Assistant Professorship in MODERN EUROPEAN HISTORY. 1918 to the present, with an area of regional or country specialization. The department invites applications from candidates who have a completed Ph.D. and are able to teach survey sections of Western civilization and American history. Some teaching experience and publications are desirable.

DEPARTMENT OF MATHEMATICS - Invites applications for a tenure-track position in MATHEMATICS at the Assistant or Associate Professor level, to teach both undergraduate mathematics courses and graduate courses in the Master of Arts in Teaching Program. Candidates should possess a Ph.D. in Mathematics or Mathematics Education, and have a demonstrable record of achievement and research and collegiate mathematics instruction.

DEPARTMENT OF PSYCHOLOGY - is looking for a Developmental/General Psychologist at the Assistant Professor level. Applications are invited from candidates who will have completed Ph.D. by Fall 2001, with a record of teaching excellence and a well-articulated successful research agenda. In addition to Child and Adolescence Development and Introductory Psychology, the teaching responsibilities will include some of the following: Introductory Psychology, Statistics, Abnormal Psychology, and Home's own area of specialization: candidates with interest in research and experience with children with special needs are especially encouraged to apply.

DEPARTMENT OF MODERN LANGUAGES - is looking for a tenure-track Assistant or Associate Professor of SPANISH who has a native or near-native command of the Spanish language and a strong commitment to teaching language and literature and to scholarship. Area of specialization is open, but preference will be given to candidates with an interest in teaching 20th-century peninsular literature or pre-20th-century Spanish American literature.

School of Business

DEPARTMENT OF ACCOUNTING - has an opening for a tenure-track position open to all ranks, depending upon qualifications, in Accounting. Candidates must have a Ph.D. from an AACSB accredited institution in the field of accounting. The position will be for a faculty member who can provide a blend of teaching, scholarship and service. Faculty with interest in financial accounting and auditing are encouraged to apply.

DEPARTMENT OF FINANCE - has an opening for a tenure-track position in Finance for Fall 2001. A Ph.D. or a D.B.A. from an AACSB accredited institution is required. Preference will be given to candidates with interest in Corporate Finance, Risk Management and Investments. Industry experience is helpful.

DEPARTMENT OF COMPUTER INFORMATION SYSTEMS - is seeking candidates for a tenure-track position in Finance for Fall 2001. A Ph.D. or D.B.A. from an AACSB accredited institution is required. Preference will be given to candidates with interest in Computer Information Systems. Industry experience is helpful. The candidate will be required to teach a course in database management, and an additional course in programming.

School of Communications

ASSISTANT/ASSOCIATE PROFESSOR, TELEVISION AND MEDIA PRODUCTION - The successful candidate will have a demonstrated ability to write, produce and direct Imaginative, challenging and engaging programs, and have a firm grasp of all phases of studio and remote television production and editing in both analog and digital environments. Experience with film production, web site development, and the fundamentals of desktop publishing would be helpful. Candidates should value the creative and artistic uses of production media and be comfortable with the integration of theory and practice. Teaching experience and a Master’s degree is desirable.

ASSISTANT PROFESSOR, PUBLIC RELATIONS - is looking for an Assistant Professor of Public Relations to join a new, growing program that emphasizes teaching, within a curriculum modeled after PRSA recommendations. We need faculty interested in offering Public Relations courses such as Principles, Research, Writing, Management, Campaigns, and Special Topics. Research and service are also important. A doctorate or Master’s degree with significant professional experience will be considered.

School of Health Sciences

DEPARTMENT OF BIOLOGY - Full-time, 12 month, tenure-track position is available July 1, 2001 at the assistant or associate professor rank, depending on experience and qualifications. The successful candidate will have expertise in Comparative Anatomy and Developmental Biology, and will be expected to teach an introductory course in each, as well as to participate as a member of a team of faculty teaching a multi-section undergraduate course (General Biology or Anatomy and Physiology). A strong commitment to teaching, significant teaching experience and a willingness to involve undergraduate students in research are all highly desirable. The position requires a doctoral degree, and will be effective with the fall semester of 2001.

Visit our web site at: http://www.quinnipiac.edu

Quinnipiac University has a strong commitment to the principles and practices of diversity throughout the University community. Women, minorities and individuals with disabilities are invited and encouraged to consider this opportunity and to apply.
UNIVERSITY OF WISCONSIN-PARKSIDE
Kenosha, Wisconsin

DIRECTOR OF ADMISSIONS

No phone calls accepted.

DEAN
of the
Misher College
of Arts and
Sciences

www.usp.edu

Founded in 1821 as the Philadelphia College of Pharmacy, the first college of pharmacy in the United States, University of Sciences in Philadelphia has grown to become an institution of 2,200 students with 17 undergraduate majors, 9 of which are in The Misher College of Arts & Sciences. USP is situated on 32 acres in historic Philadelphia, in close proximity to several major academic institutions.

The Dean is the chief academic officer of the Misher College, leading the departments of Biological Sciences, Chemistry and Biochemistry; Humanities; Information Sciences; Mathematics; Physics and Computer Sciences; Physical Education; and Social Sciences.

The Dean is a member of the Deans’ Council of the Vice President for Academic Affairs, the University’s Senior Administrative Group, and the Academic and Planning Committee of the Board of Trustees. Both undergraduate and graduate degree programs are offered by the faculty of Misher College. MCAS is also the home of the University Core Curriculum.

The successful applicant will have an earned doctorate in one of disciplines of the College, and be able to demonstrate:

- Eligibility for appointment at the rank of Professor, based on teaching and scholarly qualifications
- A strong administrative track record
- Eagerness to promote high academic standards and to support the programs necessary to achieve them
- A commitment to Scholarship
- Leadership in teaching and learning
- A strong interest in emerging teaching and learning technologies
- A commitment to collaborative and collegial decision-making
- Ability to understand, articulate, and champion both College and University visions and needs

In addition to Misher College of Arts and Sciences, the three other Colleges which comprise the University include:

- Philadelphia College of Pharmacy
- College of Health Sciences
- College of Graduate Studies

A leader in health sciences and natural sciences education for 179 years, University of the Sciences in Philadelphia is the premier co-educational academic institution, providing undergraduate, professional and graduate education in the health professions and natural sciences. Our College’s mission is to provide an academic environment where the value of a broad education is nurtured—where the physical and natural sciences may be learned in concert with the humanities and social sciences.

The successful candidate will be a leader who can build upon our strengths and be a catalyst for productive change and growth. Salary is competitive and commensurate with experience, knowledge, and skill level.

Review of applications will begin January 1, 2001. This position will begin on July 1, 2001.

Send curriculum vitae, statement of leadership style, and names/contact information for three references to:

George E. Downs, Pharm. D., Chair, MCAS Dean Search Committee

 DEADEN OF STUDENTS

The College of Wooster invites nominations and expressions of interest for the position of Dean of Students. The appointee will succeed Kenneth Plusquellic, who retires in 2001 following a distinguished 33-year career at Wooster, 26 as Dean of Students.

As a member of the Faculty and the College administration, the Dean of Students at The College of Wooster has primary responsibility for the general welfare of the student body and for promoting and maintaining an environment conducive to and supportive of intellectual and personal development. The Dean seeks to develop and maintain an accurate understanding of the attitudes and concerns of students and to communicate these concerns to others in the College community.

The Dean of Students attempts to achieve equitable solutions to problems facing students through effective administrative action, policy formation and implementation, and individual and group discussions and negotiations. He or she works to coordinate the student personnel functions with the academic program of the College.

The Dean of Students has broad responsibility for planning and coordinating the total program of student services, including residential life and housing, student activities, student personnel records, student discipline, career services, campus safety and security, black and international student affairs, student health and counseling services, new student orientation, campus ministries, and maintaining liaison with the Treasurer, Financial Aid, Hospitality Services, and plant maintenance in the area of residence halls.

The Dean of Students also has responsibility for the coordination of the Committee on Academic Standards and for follow-up counseling and recordkeeping.

The Dean of Students reports to the Vice President for Academic Affairs and is a voting member of the Faculty.

Qualifications:
- Required: Bachelor's degree, preferably in a liberal arts field; Master's degree, either in student personnel administration or a liberal arts field.
- Preferred: Ph.D. or Ed.D. degree. At least ten years experience in student personnel administration or the equivalent.

Review of nominations and expressions of interest will begin December 1, 2000, and those received by December 10 will receive full consideration.

Send nominations or letters of application addressing position criteria, with curriculum vitae, to:

Karolyn King
Office of the Vice President for Academic Affairs, Galpin Hall
The College of Wooster
1189 Beall Avenue
Wooster, OH 44691-2363

The College of Wooster is an independent college of the liberal arts and sciences with a commitment to excellence in undergraduate education. The College values diversity, strives to attract qualified women and minority candidates, and encourages individuals belonging to these groups to apply. Wooster seeks to ensure diversity by its policy of making appointments without regard to age, sex, race, creed, national origin, disability, handicap, sexual orientation, or political affiliation.

The College of Wooster is an Equal Opportunity, Affirmative Action Employer.
HEAD OF BFA PROGRAM IN MUSICAL THEATRE

Head of nationally recognized BFA Musical Theatre program sought by Emerson College. Full-time, tenure-track. Rank and salary commensurate with credentials, training and experience. The candidate should have an appropriate terminal degree and/or significant professional experience in acting and directing for the Musical Theatre, with proven success in college-level instruction. The candidate should bring vision and pragmatism to leading a Musical Theatre program that is based in a liberal arts curriculum.

Responsibilities: to teach undergraduate and graduate courses in the performance and production of Musical Theatre; to direct and administer the Musical Theatre program within the Department of Performing Arts; to direct Musical Theatre productions for Emerson Stage; to advise and mentor BFA Musical Theatre majors; to serve on departmental and college committees and perform other services as appropriate to the position; to share in the collegial development of the curriculum; and to share in recruiting responsibilities for the Musical Theatre area; and to advance the academic and professional reputation of the institution.

The Emerson College Department of Performing Arts, located in the downtown area of Boston, Massachusetts, has a large undergraduate program (450 students) offering a BA in Theatre Studies and Theatre Education, BFA in Acting, Musical Theatre, Dance/Theatre, Design/Technology and Production/Stage Management and an MA (50 students) in Theatre Education. The Department offers productions mounted in four different venues, including the 900-seat Emerson Majestic Theatre.

Interested candidates should forward a cover letter describing their point of view on the philosophy and structure of a pre-professional Musical Theatre Program in a liberal arts setting, along with a current vita and contact information for three references, to: Scott Wheeler, Chair Musical Theatre Search Committee, Emerson College, Department of Performing Arts, 120 Boylston St., Boston, MA 02116-4624. Application deadline: February 1, 2001. Emerson College is an Equal Opportunity/Affirmative Action Employer focused on workforce diversity. Visit our web site: www.emerson.edu.

EMERSON COLLEGE

BALL STATE UNIVERSITY

Ball State University is located in Muncie, Indiana, on an attractive campus 30 miles northeast of Indianapolis. Approximately 17,500 graduate and undergraduate students enroll in one of seven academic colleges that offer 126 undergraduate programs, 76 master’s programs, and 20 doctoral programs. Ball State University strives to be a premier teaching institution offering instruction and scholarly inquiry of high quality within an environment that emphasizes personal attention.

Ball State University encourages all interested applicants to frequently visit the official Ball State University web site at www.bsu.edu when all open positions are listed and described in detail.

Ball State University is an equal opportunity, affirmative action employer and is strongly and actively committed to diversity within its community.

Sarah Lawrence College seeks applicants for a new tenure-track position in East Asian cultural/human geography beginning Fall 2001. Strong preference for a candidate with a special interest in China and a reading/speaking knowledge of Chinese, but applicants with special interests in other East Asian countries will be considered as well. The Sarah Lawrence College approach to education is described in our Web site, www.slc.edu. Send application materials, including three letters of recommendation and two undergraduate course descriptions to Naudia Forbes, Faculty Secretary, Geography Search, Sarah Lawrence College, Bronxville, NY 10708. Deadline is December 31, 2000. Please indicate if you will be attending the annual meeting of the American Association of Geographers in NYC in February. Applicants not attending will receive equal consideration.

SLC is an AA/EO employer.

DEPAUL UNIVERSITY

For over 100 years, DePaul University has fostered an environment dedicated to providing superior academic and professional advantages. The Department of Management in the College of Commerce announces three tenure-track Assistant Professor positions and three non-tenure-track Lecturer positions.

OPERATIONS MANAGEMENT
(1 Tenure Track, 1 Non-Tenure Track)
Ph.D. in Operations Management strongly preferred; ABD considered. Demonstrated empirical research interest in quality service or technology management is plus.

Review of applications begins January 8, 2001 and continues until position is filled.

UVM is an EO/AA employer.
Dean—College of Engineering
University of California, Davis

The University of California, Davis, invites applications and nominations for the position of Dean—College of Engineering. The Dean reports to the Chancellor and is the chief academic and administrative officer of the College.

The Dean is responsible for leadership of the College in the areas of teaching, research, and outreach; academic planning; development and management of resources; articulation of the goals and programs of the College with alumni, the profession, industry, and government; and campus-wide policy development through membership on the Council of Deans and Vice Chancellors.

We seek candidates with a deep commitment to academic excellence who have the vision to lead the College in its continuing development. Qualifications include a distinguished record of teaching, research, and professional service appropriate for an appointment as Full Professor in one of the departments in the College; an understanding of the challenges facing engineering education at both the undergraduate and graduate levels; an appreciation of the importance of fostering and strengthening interactions with industry; and creative leadership ability. The University of California, Davis, has a strong institutional commitment to the achievement of diversity among its faculty, staff, and students and seeks an individual who shares that commitment.

Established in 1962, the College is composed of over 150 faculty in seven departments: Applied Science, Biological and Agricultural Engineering; Chemical Engineering and Materials Science, Civil and Environmental Engineering, Computer Science, Electrical and Computer Engineering, and Mechanical and Aeronautical Engineering, and a Division of Biomedical Engineering. It has approximately 2800 undergraduate majors and 750 graduate students in masters and doctoral programs. Extramural funding for research totaled about $33 million for academic year 1999-00.

Salary will be commensurate with experience and qualifications. The starting date is July 1, 2001, or as negotiated.

Nominations and applications are being accepted immediately and should be received by December 15 to ensure full consideration. The position will remain open until filled. Materials should be submitted to:

Larry N. Vanderhoef, Chancellor
Office of the Chancellor
University of California, Davis
One Shields Avenue
Davis, CA 95616

The University of California, Davis, is an equal opportunity/affirmative action employer committed to excellence through diversity.

School of Education
Indiana University
Bloomington, Indiana
http://education.indiana.edu/

The School of Education at Indiana University Bloomington is seeking outstanding applicants for three positions. The School of Education is located at the flagship campus of the Indiana University system. We have 102 tenure-track faculty members and offer undergraduate teacher certification and graduate programs in five academic departments: Counseling and Educational Psychology, Curriculum and Instruction, Educational Leadership and Policy Studies, Instructional Systems Technology, and Language Education. The W. W. Wright Building, which houses the School of Education, was completed in 1992. The building has an advanced networked environment with state of the art facilities for interactive distance education. Capitalizing on these resources, the School of Education is a national demonstration site for research on the use of technology in education.

The Department of Curriculum and Instruction seeks applicants for a tenure-track assistant professor position. Applicants should have a doctoral degree and teacher education expertise in one or more of the following areas: social studies education (elementary level) preferred, science education, and/or special education. Pre-college teaching experience and ability to work with graduate, undergraduate, and international students in a variety of specialties is expected. The primary consideration is the selection process will be the potential for developing a strong program of research and scholarship in one of the above areas. Interested persons should submit a vita and letter of application, undergraduate and graduate transcripts, and three letters of reference to Susan M. Klein, Chair, Curriculum and Instruction Search Committee, 3258 Wright Education Building, Indiana University, Bloomington, IN 47405-1006. Screening of applications will begin January 8, 2001 and continue until a suitable candidate is selected. For additional information, contact: Susan Klein (812-856-8165; mklein@indiana.edu).

The Inquiry Faculty of the School of Education invite applications for a tenure-track assistant/associate professor position with expertise in qualitative research methodology. Qualifications for the position include an earned doctorate in education or a discipline related to the study of education, and a commitment to scholarly study and teaching of interpretive inquiry methodology, including the empirical implications of particular theoretical stances as well as the theoretical and epistemological underpinnings of inquiry. We seek a person who will complement the current strengths of the School of Education and take a leadership role in maintaining a dialogue about inquiry methodology among the faculty in the School and the University.

Responsibilities include maintaining an active research program, teaching beginning and advanced inquiry methodology courses (one other courses depending on area of specialization), advising and mentoring graduate students, and directing dissertations. Persons with a substantive interest in the following areas are encouraged to apply: program evaluation, policy analysis, study of learning and teaching, philosophy of education, and social science. Interested individuals should submit a brief statement of research and teaching interest, a vita, the names and contact information for three references, and representative publications to: Gertie Delandshere, Inquiry Search Committee, Department of Counseling and Educational Psychology, Indiana University, 201 North Rose Avenue, Bloomington, IN 47405, (812) 856-8347 gedelands@indiana.edu. Applications received prior to January 1, 2001 will receive fullest consideration, although applications will be accepted until the position is filled.

The Department of Language Education at Indiana University seeks a tenure-track assistant professor who will contribute to the advancement of education through research and development, innovative program development, and service to the professional community. The tenure-track position requires a new doctoral program in literacy education. Responsibilities include maintaining an active research program, teaching beginning and advanced inquiry methodology courses (one other courses depending on area of specialization), advising and mentoring graduate students, and directing dissertations. Persons with a substantive interest in the following areas are encouraged to apply: program evaluation, policy analysis, study of learning and teaching, philosophy of education, and social science. Interested individuals should submit a brief statement of research and teaching interest, a vita, the names and contact information for three references, and representative publications to: Jerome C. Harste, Chair, Reading/Language Arts Research Committee, 3056 Education Building, Indiana University, Bloomington, IN 47405, jharste@indiana.edu. Review of credentials will begin January 15, 2001.

All positions start in August of 2001. Faculty in the School of Education are expected to teach two courses per semester, to have high levels of research and publication productivity, and to provide service to P-12 public schools, and their respective disciplines. Collaborative work with colleagues within and across departments is especially valued. Salaries and benefits are nationally competitive. Potential candidates are encouraged to contact the search committee chair at the email address or phone number indicated for additional information.

INDIANA UNIVERSITY IS AN EQUAL OPPORTUNITY/AFFIRMATIVE ACTION EMPLOYER. WE ARE COMMITTED TO INCREASING REPRESENTATION OF WOMEN AND MINORITY GROUPS AND STRONGLY ENCOURAGE APPLICANTS FROM THESE GROUPS.
THE UNIVERSITY OF ARIZONA
TUCSON ARIZONA

VICE PRESIDENT FOR UNDERGRADUATE EDUCATION

The University of Arizona invites applications for the position of Vice President for Undergraduate Education. The University seeks a respected scholar with a vision and judgment to provide dynamic leadership in advancing the institution's very strong commitment to undergraduate education in general and to its recently implemented general education program in particular. In addition to an earned doctorate or its equivalent and academic credentials appropriate for a full professor appointment, the successful applicant must have had administrative experience at a high level within a university setting and have demonstrated the capacity to communicate effectively with faculty, students, and staff members, as well as external constituents. Sensitivity to the concerns of women and minorities is critical. The successful candidate must have a record of exemplary teaching.

The University is a public land-grant institution with a three-fold mission of teaching, research, and service. Today, the University is one of the top 20 research universities in the nation with over 54,000 students and over 12,500 faculty and staff members. It is a member of the American Association of Universities. During the 1990s, the University began an ambitious undertaking to enhance instruction (particularly undergraduate education) and more fully integrate teaching, research, and service, implicit in the land-grant philosophy. The University is proud in defining itself as a student-centered research university in which education is centered on discovery and the processes of discovery and the development of life-long learners capable of improving society.

Some of the special leadership opportunities and challenges that await the successful applicant are: the recruitment and retention of students from diverse backgrounds, enrollment growth and management, the newly constructed Integrated Learning Center (the academic home of the University's freshmen), improving the ways in which undergraduate advising is accomplished, and the further development of first-year colloquia and senior capstone experiences. The successful applicant will be expected to actively participate in the University’s recently announced one billion dollar fund-raising campaign and to play a major role in defining the new directions in undergraduate education that funding will make possible.

The Vice President for Undergraduate Education reports directly to the Senior Vice President for Academic Affairs (Provost) and is a member of the President’s cabinet. Units reporting to the Vice President for Undergraduate Education include: Honors College, University College and the Humanities Program, Extended University, International Affairs, Office of Curriculum and Registration, Office of Financial Aid, Office of Admissions and New Student Enrollment, Undergraduate Teaching Center, Office of Assessment and Enrollment Research, Undergraduate Learning Center, and the Office of Academic Services. The Vice President for Undergraduate Education has oversight responsibility for the University General Education Committee and the Undergraduate Council and represents the University to the University of Arizona Alumni Association, The University of Arizona Foundation, the Arizona Board of Regents, and the State Legislature.

The University: 352-acre main campus is situated in urban Tucson, a city of over 800,000 inhabitants. Only a 45-minute drive from the U.S.-Mexico border, Tucson has a rich mixture of ethnic and non-ethnic cultures. The city, which is located in the scenic Sonoran Desert, is surrounded by accessible mountain ranges. More information about the University is available upon request as well as through The University of Arizona’s home page at http://www.arizona.edu

The University is an equal opportunity, affirmative action employer and strongly encourages the candidacies of women and minorities. The position is available as soon as it can be filled. The University plans to begin the review of nominations and applications on November 30, 2000. The successful applicant should plan to begin no later than July 1, 2001.

Please submit a detailed letter of application and c.v. or nominations to: Dr. Charles Tatum, Dean, College of Humanities and Chair of the Vice President for Undergraduate Education Search Committee, Administration Building, Room 712, P.O. Box 210066, The University of Arizona, Tucson, AZ 85721-0066.

The University of Arizona is an Equal Employment Opportunity/Affirmative Action Employer. Minorities/Women/Disabled/Veterans.

THE UNIVERSITY OF WEST FLORIDA
Faculty Position in Bioorganic Chemistry

The Department of Chemistry at the University of West Florida seeks applications for a tenure track faculty position at the Assistant Professor level, beginning in August 2001. Candidates must have a Ph.D. in Organic Chemistry (or Biochemistry with a strong organic background in chemistry) and postdoctoral research experience. Teaching experience is desirable. Duties include teaching organic chemistry and biochemistry at the undergraduate level and establishing an active research program. Women and minorities are encouraged to apply. Applicants should send a complete resume, documentation supporting their teaching experience, and a description of plans for research and scholarly activity, and arrange for three letters of recommendation to be sent to: Ms. Rosalind Fisher, Assistant Vice President for Equal Opportunity and Diversity, The University of West Florida, 1200 University Parkway, Pensacola, Florida 32514. Salary is competitive. Consideration of applications will begin on December 1, 2000 and will continue until the position is filled. Additional information about the university and department can be found at our website: http://uwf.edu/chem.

The University of West Florida is an Equal Opportunity/Access Affirmative Action employer.

INSTRUCTIONAL TECHNOLOGY AND HUMAN RESOURCE DEVELOPMENT

The Department of Human Resource Development at Oakland University invites applications for two faculty positions at the level of Assistant or Associate Professor. The positions are available August 15, 2001.

Instructional Technology: Qualified candidates must possess a doctorate in Instructional Technology or related field. The successful applicant will primarily teach courses in instructional technology and information management systems at the undergraduate and graduate levels.

Human Resource Development: Qualified candidates must possess a doctorate in Human Resource Development, Human Resource Management, Industrial Psychology or a related field. The successful applicant will teach courses in two of the following areas: performance assessment, career development, recruitment, selection, employment relations, and professional ethics.

For both positions, candidates must exhibit an enthusiasm for teaching at the undergraduate and graduate levels, have a commitment to conduct scholarly research leading to publication in academic journals, and show a willingness to become involved in university and community service activities.

Spring and summer teaching is available. Salary is competitive and depends on rank and experience. The university provides thirteen percent contribution to TIAA/CREF and full medical and dental insurance.

The Department of Human Resource Development offers a Bachelor of Science degree in Human Resource Development and a Master of Training, and Development degree. Further information about the department and the university can be obtained at http://www.oakland.edu.

Review of applications will begin January 8, 2001 and continue until the position is filled. Applications for the position should include a curriculum vita, copies of up-to-date publications, and three letters of recommendation. Applications should be sent to:

James Quinn, PhD
Chair, Faculty Search Committee
Department of Human Resource Development
Oakland University
Rochester, MI 48309-4494

Informal inquiries about the position can also be directed to Dr. Quinn at quinn@oakland.edu or at (248) 370-3041.

Oakland University is an affirmative action/equal opportunity employer and encourages applications from women and minorities.
PACE UNIVERSITY
DYSON COLLEGE OF ARTS & SCIENCES

Tenure Track Positions for 2001-2002

The Dyson College of Arts & Sciences at Pace University invites applications for several full-time, tenure-track positions to begin Fall 2001. Pace University is a private, nonsectarian institution with nearly 14,000 students and campuses in New York City and Westchester County. The University is ranked among the best national universities in U.S. News & World Report. All successful candidates will reflect Dyson College's commitment to excellence in teaching and scholarly research leading to publication. Candidates should be able to implement a variety of educational technologies. A doctorate is required for all positions. Salary and benefits package is competitive.

■ Professor of Psychology, Department Chairperson

Applications are invited for a distinguished scholar and teacher who can provide skilled academic leadership for the Psychology Department on the New York City campus. The department has two undergraduate majors and four graduate programs, including an APA-accredited program in combined school-clinical psychology. The field of specialization is open. Applicants must possess administrative and leadership skills, an active research program and involvement in national and regional professional organizations.

■ Professor of Political Science, Department Chairperson

The University seeks a noted political scientist with experience in public administration to lead a new combined department of political science and public administration as well as assume the directorship of the Michaelian Institute for Public Policy and Management, a renowned center that conducts research and training for the public and nonprofit sectors. The department consists of an undergraduate program in political science and a graduate program in public administration. The field of specialization is open. The successful candidate will be a seasoned educator with leadership/administrative experience and an active member in national and regional professional organizations.

■ Assistant Professor, Anthropology

Seeking a broadly trained anthropologist who can teach both cultural and physical anthropology in an undergraduate sociology/anthropology program. The successful candidate will have a focus in one or more of the following areas: global development, urban ethnography and forensic research.

■ Assistant Professor, Chemistry and Physical Sciences

The department requires an organic chemist who is highly committed to teaching organic chemistry, biochemistry and related advanced courses at the undergraduate level as part of an American Chemical Society-approved chemistry program.

■ Assistant Professor, Philosophy/Environmental Studies

The Department of Philosophy and Religious Studies seeks an excellent educator with an AOS: History of philosophy and an AOC: Environmental philosophy to teach courses in two recently developed undergraduate majors, philosophy and religious studies and environmental studies, an interdisciplinary program.

■ Assistant Professor, History

The Department of History on the New York City campus seeks a specialist in Chinese history who would teach Asian surveys and electives in Chinese history and supervise the East Asian studies minor. An additional field in Asian history (other than Japan) is desirable. Include peer evaluations of teaching in application.

■ Assistant Professor, Mathematics

This teaching position is based at the Pleasantville (Westchester County), NY campus in a department that offers two undergraduate majors and a new graduate certificate program in financial mathematics. Field of specialization is open.

Application Procedure

Send a letter of application, CV, three references and statement of teaching philosophy and research interests to: Pace University, Dyson College of Arts & Sciences, Office of the Dean, 1 Pace Plaza, New York, NY 10038. Review of applications began in November.

Pace University is an Affirmative Action/Equal Opportunity employer. Women and minorities are encouraged to apply.

CALIFORNIA STATE UNIVERSITY, LONG BEACH

Tenure Track Position

CHICANO/ LATINO STUDIES DEPARTMENT

The Chicano & Latino Studies Department at California State University, Long Beach seeks applicants for a tenure-track assistant professor or associate professor in Chicano or Latino literature or cultural studies, effective August 30, 2001. ELEMETARY EDUCATION

Utah State University has nine-month, tenure-track Assistant Professor positions available in bilingual education, reading education, or instructional supervision/leadership. Requires earned terminal degree by August 2001 with emphasis in related area; current or prior elementary teaching certification; successful teaching experience at K-8 level; ability to conduct and disseminate research and write grants to support scholarly activity; effective interpersonal communication skills; and experience teaching at college/university level. See http://personnel.unl.edu/ (2-166) for full description. Send letter of application; three letters of reference; names and numbers of three additional references; complete transcripts; and curriculum vita to:

Chair, Search Committee
Department of Elementary Education
Utah State University
2805 Old Main Hill
Logan, UT 84322-2805

Review begins January 15, 2001 and continues until the positions are filled.

AA/EOE
SPECIAL EDUCATION FACULTY POSITION

Assistant Professor. Tenure-track position starting August, 2001. This position involves teaching undergraduate and graduate courses related to Emotional and Behavioral Disorders (EBD) and high incidence disabilities, advisement, supervision, research, and service. Eligibility requirements: Earned doctorate in an appropriate discipline, EBD preferred, and professional experience with school-age children or youth with disabilities, and evidence of scholarly accomplishment. Preference will be given to candidates with experience in university teaching and supervision, proposal writing, and school-based research and practice. Applicants must be committed to a collaborative, unified approach to teacher preparation, and an inclusion model of service delivery. Apply to:

Dr. Stephen W. Smith
G315 Norman Hall
Box 117050
University of Florida
Gainesville, FL 32611

Deadline: A letter of application, curriculum vitae, and reprints of two recent papers must be postmarked by January 12, 2001. Three letters of recommendation should be sent to the same address.

The University of Florida is an EEO/AA employer. Applications from women and minorities are especially welcome.

DEAN & DIRECTOR

University of Minnesota Extension Service
St. Paul, Minnesota

The University of Minnesota is seeking an experienced leader for the position of Dean and Director of the University of Minnesota Extension Service (Extension). This position will have responsibility for statewide programs of Extension including: fiscal management, personnel management, academic oversight, coordination of administrative service and support units, coordination of strategic planning efforts, and the development of academic and institutional policy related to connecting the research and education services of the University to Minnesota's statewide and community needs. The successful candidate will be expected to exercise substantial influence in working with communities and provide leadership for extensive outreach programs of Extension.

The Extension mission is to connect community needs and University resources. The University of Minnesota Extension Service has a direct collaborative partnership with 14 University of Minnesota colleges and campuses, with a potential of drawing on resources from the entire system to fulfill its mission. Through Extension, the University is represented in each of Minnesota's 87 counties.

Qualifications include: Earned doctorate and experience in broad interdisciplinary professional education programs. Experience in creating an environment that sustains change, growth and risk taking. Effectiveness in planning and management of personnel, budgets, and programs, as well as effectiveness in supervision and team management, experience in academic administration, fiscal management, and senior administrative leadership. Accomplishments in strategic framing, in forming successful partnerships with external organizations, and in developing fiscal and human resources. Anticipated start date is July 1, 2001.

Review of applications begins January 5, 2001 and will continue until position is filled. To apply, submit: 1) letter indicating interest in and qualifications for the position; 2) curriculum vitae; 3) description of commitment to diversity; 4) names, addresses, and telephone numbers of three references. Apply to: Extension Dean & Director Search, c/o Jill Lietz, Office of the Associate Vice President for Outreach, 233 Peters Hall, 1404 Gorter Ave., St. Paul, MN 55108. Full position description available at www.umn.edu/ohe/jobs.

The University of Minnesota is an equal opportunity educator and employer.

MICHIGAN STATE UNIVERSITY

The College of Education announces 13 tenure system positions in the following areas to begin fall 2001.

Assistant Professor:
Human Development, K-12 School Leadership, Literacy and Language Education, and Mathematics Education

Assistant or Associate Professor:
Student Affairs Administration, and Teacher Education

Associate or Full Professor:
Educational Psychology, Higher Education, and Mathematics Education

Minimum qualifications for all positions include an earned doctorate in an appropriate field and evidence of high quality scholarship commensurate with the position level.

Women and minorities are encouraged to apply. MSU is an affirmative action/ equal opportunity institution.
Literacy with Specialization in Reading, Assistant Professor, Tenure Track

The successful applicant will have an earned doctorate in the field of literacy or a related field of study, teaching experience in multi-grade public school environments, preferably pre-k through middle school, knowledge of both traditional and alternative reading approaches, and supervision related to teaching and facilitating reading and familiarity with multicultural and critical literacy issues. Preferred credentials include experiences in urban education with diverse populations, knowledge of standards-based reform, familiarity with clinical preparation of teachers, and interest in school-system collaborations. The position offers an opportunity for a faculty member to collaborate with faculty and research colleagues in developing and implementing a literacy track for pre-service teacher preparation pre-k through middle school, general and special education. The chosen candidate will be expected to review applications until December 1, 2000 and will continue until the position is filled.

Special Education/Emotional Disturbance, Associate Professor, Tenure Track

Requirements include an earned Doctorate in Special Education or related discipline, a record of or potential for scholarly activity commensurate with a tenure track appointment, teaching experience with children/adolescents with emotional disturbance, and evidence of proposal writing skills or successful grant development. Experience in professional development, teacher education and clinical supervision related to children/adolescents with emotional disturbance is preferred. Responsibilities include: course instruction at master’s and doctoral programs, the development of a relevant program of research, collaborative work in professional development, supervision of degree candidates, and curriculum development at the program level. Review of application credentials will commence on December 1, 2000 and will continue until the position is filled.

Curriculum & Instruction/ Educational Technology, Assistant Professor (3 Year Contract)

Requirements include an earned Doctorate in Curriculum & Instruction, Educational Technology or related discipline, with completion of all requirements for the degree by August 21, 2001, a record of or potential for scholarly activity, K-12 school based experience of leadership in technology and distance education. Experience in schools, teacher training and supervision related to technology and curriculum development is preferred. Responsibilities include: course instruction in master’s and doctoral programs, advising of degree candidates, curriculum development at the program level, and the development of a relevant program of research. Review of applicant credentials will commence on December 1, 2000 and will continue until the position is filled.

Interested candidates should send a letter of application, curriculum vitae, official academic transcripts, as example of scholarly productivity, and three letters of recommendation to:

Emily Finn, Executive Aide to Chair
Department of Teacher Preparation and Special Education
Graduate School of Education and Human Development
The George Washington University
2134 G Street, NW
Washington, DC 20052
For additional information call 202-994-1541 or visit www.gwu.edu/~gsebd/faculty/jobindex.htm

The George Washington University is an Equal Opportunity, Affirmative Action Employer.

ASSISTANT PROFESSOR

New York State College of Human Ecology
A Statutory College of the State University
at Cornell University, Ithaca, New York 14853

POSITION DESCRIPTION

Level: Assistant Professor, tenure track.

Description: Research responsibilities (50%) include empirical applied analyses of public finance issues in one or more of the Department's focal areas: Consumer Policy, Family and Social Welfare Policy and Health Policy. Undergraduate and graduate teaching responsibilities (50%) will be drawn from public finance, policy analysis, statistics, econometrics, and intermediate microeconomics. FACULTY POSITION

UNIVERSITY OF CALIFORNIA, LOS ANGELES

The University of California, Los Angeles (UCLA) seeks an outstanding scholar who can make a strong contribution to the teaching and research program in the African American Studies. The appointment will be split between a disciplinary department and the African American Studies program. Areas of interest include, but are not limited to, policy studies, health policy studies, modern African American history (the Civil Rights movement to the present), religious studies, behavioral sciences/studies, communications studies, gender studies, Diaspora studies and urban studies. The effective date of appointment is July 1, 2001.

Candidates should have a Ph.D. or equivalent degree with evidence of strength and great potential in teaching, research, and professional service. Scholars at all levels are encouraged to apply. Salary will be commensurate with experience and level of appointment.

Applications and nominations should be sent with current curriculum vitae, samples of published or unpublished work (samples will not be returned). In addition, three letters of reference should be sent to:

Faculty Search Committee
c/o Rene Benisits, Coordinator
Executive Search
Office of the Chancellor
University of California
3159 Murphy Hall
Los Angeles, CA 90095-1407

To be ensured full consideration, nominations and applications should be sent by January 5, 2001, however, the search will remain open until the position is filled.

UCLA is an Equal Opportunity Employer

HISPANIC OUTLOOK 0 11/20/2000
Assistant Professor

New York State College of Human Ecology
A Statutory College of the State University
at Cornell University, Ithaca, New York 14853

POSITION DESCRIPTION

Level: Assistant Professor, tenure track

Description: Research responsibilities (50%) include applied policy analysis/evaluation in one or more of the Department’s focal areas: Consumer Policy, Family and Social Welfare Policy, and Health Policy. Extension/Outreach responsibilities (50%) include leadership in a coalitional education program that addresses critical issues affecting the citizens of municipalities, the state, and the nation. Expectations include the development and implementation of highly visible extension/outreach education programs. Evidence of this includes the development of program-related education materials, audience-appropriate analysis of key issues and the implementation or delivery of outreach education programs.

Qualifications: A Ph.D. in an applied Social Science or a related discipline is required. Teaching and curriculum development experience is highly desirable. The position requires the ability to develop and outreach education program, based on innovative peer reviewed research, that includes the dissemination of research findings, the practical application of research (both the individual’s and that of others), the use of appropriate delivery methods and development of appropriate materials.

Salary: Negotiable, depending on qualifications and expertise.

Location: Position is in an applied, multidisciplinary department containing the Sloan Graduate Program in Health Administration and with faculty members drawn from economics, evaluation, psychology, public health, social work, sociology, and urban planning. There is ample opportunity for faculty cooperation and interactions, not only within the department but across the university and the extension system.

Contact: For further information contact: Professor Rosemary Avery at rja@cornell.edu. Send resume, samples of research and extension/outreach materials, and three letters of recommendation to: Richard V. Burkhauser, Chair, Policy Analysis and Management, 108B MVR Hall, Cornell University, Ithaca, NY 14853-4461.

EXECUTIVE

PROVOST AND DEAN OF THE FACULTY

Mills College, the oldest women’s college established west of the Rockies, invites nominations and expressions of interest in its search for a Provost/Dean of Faculty.

Founded in 1852, Mills College is an independent, liberal arts college committed to women-centered education, offering baccalaureate degrees to women and graduate degrees to women and men. With approximately 700 undergraduate women and 400 graduate women and men, the faculty numbers approximately 90 full-time and 65 part-time.

The Provost/Dean of Faculty is the ranking educational officer of the college, reporting to the President. In this role, the Provost/Dean of Faculty shares in the college-wide leadership and in institutional policy formulation, planning, and administration. The Academic Deans, Director of Library and Academic Computing Services, College Chaplain, Director of the Art Museum, Director of Technical Services, and directors of special programs report to the Provost/Dean of Faculty.

QUALIFICATIONS

- Passion for the mission of the college as a women-centered liberal arts institution in a global multicultural society
- Creativity and curricular innovation in the context of Mills’ mission
- A strong commitment to racial, ethnic, and cultural diversity
- A record of success in the fundamental elements of leadership, including academic planning, program implementation, allocation of resources, and evaluation
- Ability to develop, lead, and empower a capable administration, faculty, and staff team
- Effective communication and group process skills to assure collaborative working relationships among administration, faculty, and other constituencies with the ability to build consensus
- Understanding of the dual roles of faculty advocate and administrator
- A strong record of commitment to shared governance
- Interest and effectiveness in being a spokesperson for academic programs, faculty achievements, student successes, and alumni accomplishments to external audiences
- An earned doctorate or terminal degree from an accredited institution of higher education, and a distinguished record of teaching, scholarship and service; administrative experience in higher education preferred.

Review of resumes will begin immediately and continue until the position is filled. Each candidate should submit a letter of interest that reflects upon the qualifications required, a resume, and five references (with names, addresses, and telephone numbers). Dr. Shirley S. Chater, of the Academic Search Consultation Service of Washington, DC is providing assistance with this search. Confidential inquiries may be made to her at 415-389-5451. Expressions of interest and nominations should be sent to:

SUNY College of Technology

Equal Opportunity/Affirmative Action Employer. Minorities, women and persons with disabilities are encouraged to apply. If an accommodation due to a disability is needed to apply, please indicate in your letter of application.
ASSISTANT PROFESSOR OF PSYCHOLOGY IN AGING

The Department of Psychology at Lafayette College invites applications for a tenure-track Assistant Professor position in Aging beginning August 2001. Applicants must have a Ph.D. in Psychology. We seek applicants with teaching experience in adult development and aging and the ability to contribute to departmental core courses such as introductory psychology, statistics, and research methods. Applicants should have an active research program in any aspect of aging. Our department is part of Lafayette’s Natural Science Division and it is expected that all faculty embrace the division’s tradition of involving undergraduates in faculty research and mentoring them in independent scholarship. We can offer competitive start-up funds for research and space for teaching and research in a new state-of-the-art psychology and neuroscience facility. Lafayette College is a “most competitive” private undergraduate college with academic programs and opportunities characteristic of larger institutions. Situated on a hill overlooking the Delaware River, the college is approximately 70 miles from both NYC and Philadelphia. Send cover letter, vita, and arrange for 3 letters of recommendation to be sent to:

Dr. Ann McGillicuddy-De Lisi, Psychology Department, Easton, PA 18042-1781 by January 15.

E-mail applications are welcome at mailto: vitoko@lafayette.edu.

More information about our department is available at www.lafayette.edu/psych and at www.lafayette.edu/info/admissions/majors/neuroscience/index.html.

Women and minorities are encouraged to apply.

Lafayette College is an Equal Opportunity Employer.

DIVERSITY DATABASE

The Northern Illinois Community College Consortium in the greater Chicago area is an association of several community colleges actively seeking minorities for their faculty and administrative staff. WILLAMETTE UNIVERSITY

Willamette University seeks candidates for an Assistant Professor (rank negotiable with appropriate experience) with expertise in American ethnic studies to teach undergraduate courses in American ethnic issues and the College of Liberal Arts general education program. The successful candidate will affiliate with one of the College’s existing departments and will work closely with other interested faculty in developing an interdisciplinary, inclusive, and comparative American ethnic studies program that may in the future grow into a major. The position requires a doctorate in one of the traditional liberal arts disciplines or an interdisciplinary area that contributes to these disciplines.

Expertise in African American, U.S. Latin/Chicano, Asian/Pacific American, or Alaska Native/American Indian studies and experience in living and working with communities of color strengthen applications for this position. Inevitably, the person holding the position will be looked to for leadership by the student community of color.

Willamette University has made a strong institutional commitment to diversifying its faculty, student body, and undergraduate curriculum. The University strives to attract qualified candidates from minority communities and encourages individuals belonging to these groups to apply. The addition to the curriculum of courses in American ethnic relations and the creation of an American ethnic studies program are major priorities in Willamette University’s commitment to diversity.

Please send a letter of application, vita, and three current references to: Professor Charlie Wallace, Ethnic Studies Search Committee Chair, Office of the Chaplain, Willamette University, 900 State Street, Salem, OR 97301. For additional information see: www.willamette.edu/dep/hr. If you will be attending your national conference, please let us know and we will try to arrange an interview. Application review will begin on December 15, 2000. However, applications will be accepted until the position is filled.
Florida International University

PRESIDENTIAL ASSISTANTSHIPS FOR DOCTORAL STUDIES

Florida International University is an urban, multiple campus, doctoral-granting institution located in Miami, Florida. The Division of Graduate Studies is pleased to announce the availability of the Presidential Enhanced Graduate Assistantships for doctoral study beginning in the Fall 2001. These assistantships are available for full-time doctoral study and are awarded on a competitive basis. Recipients of these assistantships will receive tuition waivers plus a $20,000 annual stipend renewable for a maximum of four years. Recipients will be given a research or teaching assignment in their respective departments.

Students must submit an application for admission to any of the doctoral programs at Florida International University by February 1, 2001. Individual Departments will nominate qualified applicants to the Division of Graduate Studies which in turn will coordinate the final selection. Recipients will be notified in March 2001.

For more information, or to receive application materials please contact:

POSITION ANNOUNCEMENT
Assistant Dean of Students/
Director of Residence Life

The College of the Holy Cross invites nominations/applications for the position of Assistant Dean of Students/Director of Residence Life.

THE COLLEGE OF THE HOLY CROSS

Holy Cross is, by both tradition and choice, a highly selective residential liberal arts college rooted in the Jesuit tradition. Founded in 1843, Holy Cross is the oldest Catholic college in New England and the only religiously affiliated institution consistently ranked among the top thirty liberal arts colleges in the country. Fewer than fifty percent of the students applying to the College are accepted, with more than six applicants for each opening in the first year class. The 2700 members of the student body hail from 32 states, have a median class rank in the top six percent of their high school class, and have combined SAT scores averaging 1,260.

THE POSITION

The residential nature of the College is a foundation of the Holy Cross education. We seek an experienced, innovative educator who has a clear vision of the ideal residence life program in a private liberal arts setting, and who can demonstrate the ability to clearly articulate and realize this vision. The Assistant Dean/Director of Residence Life will be expected to have a thorough knowledge of best practices in residential programs at the national level complemented by the creative capacity to lead a residential program well beyond the traditional models. The candidate selected will direct an extensive program of facilities construction and renovation tailored to meet these objectives.

QUALIFICATIONS

The successful applicant will possess a master's degree, with preference for candidates with an earned doctorate. In addition, the candidate will demonstrate no fewer than eight years of experience with residential programs in a liberal arts setting, at least five of which are at the director level. The candidate's ability to successfully supervise new and experienced professionals must be demonstrated through personal philosophy and professional references. It is essential that the candidate demonstrate superior communication skills, the ability to work collaboratively with multiple departments, a commitment to supporting and enhancing the academic program of the College, and a commitment to the values of cultural and ethnic diversity.

COMPENSATION

Salary is commensurate with education, experience and the ability to contribute to the stated mission and needs of the College. Total compensation also includes a comprehensive benefits program.

APPLICATION PROCESS

Review of applications will commence on November 13, 2000. To apply, forward a letter of application, vita/resume, graduate and undergraduate transcripts, and a list of at least three professional references to:

Recruiter
PO Box PER
College of the Holy Cross
One College Street
Worcester, MA 01610

Holy Cross is an affirmative action/equal opportunity employer.
California State Polytechnic University, Pomona invites applications and nominations for the position of Vice President for Student Affairs.

The University: California State Polytechnic University, Pomona is a comprehensive public university with a polytechnic emphasis in the application of science, technology, and the arts to the needs of the professions and society. Cal Poly Pomona was founded in 1938 and is noted for its scenic and historic 1,400-acre campus, once the winter ranch of cereal magnate W.K. Kellogg. The campus is located 25 miles east of downtown Los Angeles in the Inland Valley, one of the fastest growing regions in the country. Cal Poly Pomona's 18,400 students (14,800 FTES and 59% ethnic minorities) are enrolled in 55 baccalaureate and 16 master's degree programs with approximately 1,000 full-time and part-time faculty. The University is one of the 23 campuses of the California State University (CSU), the largest system of higher education in the country. Additional information is available at the University's web site: http://www.csupomona.edu.

Duties and Responsibilities: The Vice President for Student Affairs provides vision, leadership, and strategic direction to the Division of Student Affairs. The Vice President articulates and models the University's student-centered philosophy, and provides leadership in creating programs that promote student development, achievement, and empowerment. As the institution's chief student affairs officer, the Vice President leads a division that encompasses the following units: Admissions and Outreach, Orientation Services, Registrar, Financial Aid, Educational Equity Services, University Advising Center, Disabled Student Services, Student Life, Cultural Centers, Center for Re-Entry Services and Women's Resources, Judicial Affairs, Student Health Services, Counseling and Psychological Services, Career Center, University Housing Services, Athletics, Police and Parking Services, and the University Union. The Vice President is expected to develop a strong student affairs team, serve as an effective advocate for students, exercise a visible presence in the resolution of conflict, and maintain connections to the University's many constituencies. The Vice President serves as an advisor to Associated Students, Inc. (ASI) and collaborates with colleagues in the other divisions: Academic Affairs, Administrative Affairs, University Advancement, and Instructional and Information Technology. The Vice President is responsible for a staff of 450 employees and a $22 million budget. One of five senior executive officers, the Vice President reports to the President and, as a member of the President's Cabinet, is directly involved in the overall planning, management, and advancement of the University.

Qualifications: The successful candidate will be an innovative, accomplished, student-oriented executive who possesses the following qualifications:
- An earned doctorate from an accredited institution;
- At least five years of successful and progressively responsible experience in a student affairs administration in higher education;
- Excellent interpersonal and communication skills, including demonstrated ability to work effectively with people of diverse backgrounds;
- A collaborative style of leadership conducive to working effectively with various internal and external constituencies within the context of a strong shared governance system;
- Strong commitment to the University's student-centered philosophy and evidence of successful leadership in creating programs that promote student development, achievement, and empowerment;
- Evidence of personal involvement in student activities and ability to develop excellent rapport with students;
- Demonstrated ability to partner effectively with faculty and academic administrators to create programs that sustain positive learning experiences for students;
- Knowledge and proven ability to oversee the wide array of units and functions of the Student Affairs Division, including enrollment management, student retention, and the use of technology in student affairs;
- Significant experience in resource planning, allocation, and management;
- Evidence of commitment and ability to uphold the educational equity goals of the University and its increasingly diverse ethnic, cultural, and international character.

Appointment and Salary: The University seeks to fill this position by June 1, 2001. The successful candidate may also qualify for an academic appointment. Salary is competitive and includes a comprehensive benefits package.

Application and Nomination: Review of complete applications will begin on February 1, 2001 and will continue until the position is filled. A complete application will include: (1) a letter of interest, which explains in detail and, where possible, provides examples of how the candidate meets each of the qualifications specified in this announcement; (2) a current curriculum vitae or résumé; and (3) the names, titles, addresses, telephone numbers, and e-mail addresses of five colleagues who can provide current assessments of the candidate's qualifications for the position. All applications and expressions of interest will be handled confidentially; the short list of individuals to be invited for on-campus interviews will be publicized. Finalists for the position should be prepared to provide three letters of reference upon request. Nominations are welcome and will be most helpful when they address the position qualifications and include the nominee's full name, title, address, telephone number, and e-mail address. Qualified nominees will be invited to apply.

Direct inquiries, nominations, and applications to:

AA/EOE
American University's Washington College of Law is seeking applications for a tenure-track professor and visiting professors in its Clinical Program for the 2001-2002 Academic Year. Responsibilities in the in-house, live-client clinical program include teaching a seminar component of a clinic, conducting case rounds and supervising students in their fieldwork. In addition, these faculty members teach one course each year outside of the clinical curriculum and participate fully in all aspects of the life of the law school. The Washington College of Law currently has the following clinics: civil practice clinic, community and economic development law clinic, criminal justice clinic (prosecution and defense); domestic violence clinic (criminal and civil); international human rights clinic; tax clinic; and women and the law clinic. The applicant's teaching responsibilities will depend on experience, interest, and the overall needs of the clinical program.

Minimum qualifications include a J.D. degree, outstanding academic record, three years experience as a lawyer, equivalent experience or training as a clinical teacher and membership in a bar. Desired qualifications include published legal scholarship and participation in clinical teachers' conferences and workshops. American University is an EEO/AA employer committed to a diverse faculty, staff and student body. Applications consisting of a curriculum vitae and cover letter should be sent to Professor Peter Jussi, Chair, Faculty Appointments Committee, c/o Office of the Dean, American University, Washington College of Law, 4801 Massachusetts Avenue, N.W., Washington, D.C. 20006-8084, with a copy to Professor Richard Wilson, Director, Clinical Program, at the same address.

Assistant Professor (Tenure Track)/Lecturer (Temporary) with Possibility of Conversion to Tenure Track

http://www.csufresno.edu/Schools/Health/school.html

UNIVERSITY OF NEBRASKA AT OMAHA

DEAN, COLLEGE OF ARTS AND SCIENCES

The University of Nebraska at Omaha, a comprehensive metropolitan university, invites applications and nominations for the position of Dean of the College of Arts and Sciences. The Dean reports to the Vice Chancellor for Academic Affairs and serves on the Chancellor's Council and the Dean's Forum. The College of Arts and Sciences has more than 190 full-time faculty, 390 part-time faculty, 3,900 undergraduate students, and 300 graduate students in fourteen departments. The University has a strong commitment to achieving diversity among faculty and staff. We are particularly interested in receiving applications from members of under-represented groups and strongly encourage women and persons of color to apply for this position.

Preferred qualifications include an earned doctorate in one of the disciplines within the College; a record of academic achievement in the discipline warranting the rank of full professor; a commitment to excellence in teaching and scholarly activities; a commitment to the promotion of liberal arts and sciences, global education, and preprofessional programs within the College and the community; a record of administrative effectiveness in such positions as college dean, associate/assistant dean, and/or department chairperson; and the ability to interact and work effectively with faculty, administration, staff, and students in a collegial and multicultural environment.

Applications should include a letter discussing relevant experience and accomplishments, a resume, and the names, addresses, and telephone numbers of three references. Review of applications will begin January 8, 2001 and will continue until the position is filled. Direct nominations, applications and inquiries to: Dean Tom Gouttierie, Search Committee Chair, ASH 238, University of Nebraska at Omaha, Omaha, NE 68182-0227, FAX (402) 554-3681. Additional information can be found at http://www.unomaha.edu/aa/faculty.html.
Assistant Professor
New York State College of Human Ecology
A Statutory College of the State University
at Cornell University, Ithaca, New York, 14853
DEPARTMENT OF POLICY ANALYSIS AND MANAGEMENT
SOCIAL WELFARE EVALUATION

Level: Assistant Professor, tenure track
Starting Date: July 2001

Description: The Department of Policy Analysis and Management seeks to fill a tenure-track position in social welfare evaluation with 50% research and 50% teaching responsibilities. The candidate will undertake a program of evaluation and field-based research on social welfare policies and programs. Relevant research would include topics like: evaluation of health and human service organizations; management and evaluation of the implementation of welfare reform; community-based, participatory approaches to evaluation of social welfare services.

Teaching and advising responsibilities support an undergraduate major and graduate field in Policy Analysis and Management, which includes the Sloan Program in Health Services Administration. The candidate will be expected to teach, among other things, a core graduate course in qualitative and mixed methods approaches to policy analysis and management.

Qualifications: A Ph.D. in a discipline or field such as sociology, social work, ethnography, health or related policy sciences, with strong expertise in field-based research is required. Candidates need a strong background in program evaluation methodology, and must demonstrate expertise in collection and analysis of qualitative and quantitative data including mixed method empirical strategies.

Salary: Negotiable depending on experience and qualifications. Competitive benefit package.

Location: Position is in an applied, multidisciplinary department with faculty members drawn from economics, sociology, social work, evaluation, psycholgy, public health and urban planning. There is ample opportunity for faculty cooperation and interaction, not only within the department but across the university.

Contact: We will begin reviewing applications immediately and will continue to accept applications until the position is filled. Send resume, samples of research, and three letters of recommendation to: Richard V. Burkhauser, Chairman, Department of Policy Analysis & Management, 120A MVR Hall, Cornell University, Ithaca, NY 14853-4601. Telephone: 607-255-2077. Fax: 607-255-0799.

If you will be attending any of the following meetings and are interested in inquiring or interviewing for the position, contact the representative listed below:
American Evaluation Association Conference, November 1-5: Contact Bill Trochim wnt1@cornell.edu
Association for Public Policy Analysis & Management, November 2-4: Contact Charles McClintock cmcl@cornell.edu
National Council on Family Relations, November 10-13: Contact Charles McClintock cmcl@cornell.edu

EDUCATIONAL STUDIES

URBAN EDUCATION GENERALIST

Carleton College invites application for one full-time, tenure-track appointment beginning September 1, 2001, at the rank of assistant professor. We are seeking PhDs with a commitment to teach in a liberal arts setting. Candidates should have a solid disciplinary and interdisciplinary background in the psychological, sociological, historical, or philosophical foundations of education. Strong research interests in urban education and/or multicultural education is desirable. Responsibilities include teaching courses in multicultural education, special methods courses, and supervision of student teaching. The successful candidate would also be expected to create his or her own courses to strengthen a teacher licensure program that focuses on urban education. Secondary school teaching experience and prior supervision of student teachers desirable.

Candidates should speak to their experience and desire to work in an educational studies program within the context of a highly selective liberal arts college. Send resume, letters and transcript by January 31, 2001, to:

Deborah Appleman
Chair, Educational Studies
Carleton College
Northfield, MN 55057

Carleton College is an affirmative action/equal opportunity employer. Women and minorities strongly encouraged to apply.

Dean, University Center
Idaho Falls, Idaho

The University of Idaho seeks qualified applicants and nominees for the position of Dean, University Center, Idaho Falls. The university is seeking an individual with administrative and teaching/research experience to provide leadership for academic, research and services provided through the center. The University Center at Idaho Falls is one of eight extended campus centers supported by the University of Idaho. The Idaho Falls Center focuses on graduate education, selected undergraduate programs, and research initiatives in the sciences, engineering, and education. The position is a full-time, twelve-month appointment and is responsible for managing and allocating financial resources, coordination of academic and research programs, market assessment and development, personnel management and support services. Compensation will be competitive and commensurate with qualifications.

Qualifications:

This position requires a master's degree in an area of specialization with at least five years of related administrative experience. Prior experience in graduate education, education or the sciences, engineering, or a related field, including the selection and evaluation of academic programs, is desirable. The candidate should possess excellent organizational, management, interpersonal, and communication skills. Previous experience as a dean, associate dean, or other administrative position is preferred.

Application Procedures:

Candidates must submit a letter of interest, a statement of their view of outreach and research in a Carnegie doctoral research and land-grant university context, a current curriculum vita, and the names, titles, positions, addresses and telephone numbers of five professional references. Nominations are welcome. The review process will begin December 2000 and will continue until a qualified candidate has been selected. Send application package to: David Thompson, Search Committee Chair, University Center, Idaho Falls, ID 83402. (Phone: 208-894-6499; Fax: 208-894-6445; e-mail: DThompson@uidaho.edu)

Director of Campus Unions

A dynamic and creative leader will be chosen as the new director of campus unions at the University of Illinois at Chicago. The director maintains the highest quality of customer service, employee development, and facility improvement.

Supporting the university's academic mission and the enrichment of campus life, Campus Unions provide diverse programs and activities, services, and facilities that strongly support student learning and place the interests of UIC's diverse and multicultural population at highest priority.

The campus unions director oversees Campus Programs, Campus Recreation, and Union Building Operations. More importantly, the position is responsible for maintaining an environment that is focused on students and empowers them to lead.

The UIC campus is served by two campus union buildings—the Chicago Circle Center and the Chicago Illini Union—comprising approximately 560,000 square feet of space, making it one of the largest campus union operations in the country.

The selected candidate will have demonstrated credentials in leadership, innovation, budget management, employee development, and student learning within a campus union environment.

Remuneration is competitive, as is the benefit package, which includes a tuition waiver.

To be considered for this position, candidates must have at least seven years of experience in campus union operations, preferably as the director. A master's degree in student personnel services, higher education, or another appropriate discipline is required; a doctorate is preferred.

Candidates must submit a letter of interest, a resume, and a brief (one-page) summary of their philosophy of the role of campus unions in a student's academic experience to:

Ms. Shaune Williamson-Sissac
Search Coordinator
Campus Auxiliary Services Employment (MC 1177)

ACANCY ANNOUNCEMENT

New Jersey City University is a culturally diverse, public, urban institution located in the greater New York Metropolitan area, and is one of nine state colleges/universities in New Jersey. The University offers undergraduate and professional studies to over 8,000 students, an extensive cooperative education program, and an expanding continuing education program. Faculty number almost 250.

We are interested in faculty who want to become a member of a dedicated faculty which is committed to excellence in teaching and who are actively involved in innovative teaching approaches including use of technology. Faculty may be assigned classes at off-campus sites and asked to provide online instruction.

Faculty positions will be filled at the level of assistant professor or instructor level if ABD. Selected appointments may be made at the associate level for outstanding candidates.

**COLLEGE OF PROFESSIONAL STUDIES**

Business Administration/Management- Position requires a successful teaching record in Management Information Systems and/or Production/Operations Management as well as introductory management courses. Preference will be given to candidates with related industry background. A proven ability to develop applications using state of the art online and distance learning technologies will be considered a plus. Commitment and a major advisement, student retention and department development is essential. Ph.D. or D.B.A. in Management is required; A.B.D. will be considered for exceptional candidates.

Applicants should send a letter of application, resume and the names, addresses and telephone numbers of three (3) references to: Steven W. Lambrecht, Ph.D., Dean, College of Professional Studies, sbloumbrecht@njcu.edu. (Indicate Code: HD when responding)

**COLLEGE OF EDUCATION**

Early Childhood Education- Requirements: Earned Doctorate in Early Childhood Education or an appropriate discipline. Overall understanding of child development, early childhood curriculum development and assessment must match training and classroom teaching experience in early childhood education. Experiences in public school teaching in urban settings and NJ Teaching Certification a plus.

Educational Administration- Requirements: Earned Doctorate in Educational Administration or an appropriate discipline, with a strong theoretical, research and/or publication background, teaching experience at building, district, regional or state levels, and school administration desirable. Help to provide program leadership and faculty development.

Literacy Education- Requirements: Earned Doctorate in Reading or an appropriate discipline, with early childhood, elementary or secondary teaching experience. Effective teaching experience at graduate level preferred. Active involvement with professional organizations and commitment to diversity and multicultural education desirable.

Special Education (3 positions)- Requirements: Earned Doctorate in Special Education or an appropriate discipline, professional experience with school age children or youth with disabilities, and evidence of potential for significant scholarly accomplishment. Teaching experience at the University level is desirable. Commitment to a collaborative, unified approach to developing curriculum and teaching.

Applicants should send a letter of application, resume and the names, addresses and telephone numbers of three (3) references to: Yiping Wan, Ph.D., Dean, College of Education, ywan@njcu.edu. (Indicate Code: HD when responding)

**COLLEGE OF ARTS AND SCIENCES**

Computer Science-Department Chair/Professor- Duties include teaching a range of courses, curriculum development, faculty recruitment/ supervision/development, supervision of advisement, budgeting, enrollment management, and other duties as necessary. Candidate should have appropriate Doctorate, successful teaching experience, and a record of accomplishment appropriate for senior rank. Interest in and innovative approaches to the education of a diverse student body is desirable. Prior administrative experience is a must.

English- Faculty position for an expert in the teaching of writing to college students. Candidates should be very familiar with the theory of teaching writing, including writing center practices, the use of computer technology and writing across the curriculum programs. The position requires the ability and willingness to teach courses in Freshman Composition and Developmental Writing. Ph.D. and two years of full-time teaching experience is the equivalent.

Mathematics- Individual must hold earned Doctorate or be a A.B.D. in Mathematics or Mathematics Education and be able to fulfill within three years. Evidence of successful College or Graduate level teaching is necessary. Assigned courses include remedial courses as well as graduate-level courses. Experience with computers and graphing calculators is also a requirement. Individual must have a sincere desire to help students.

Modern Languages- Faculty position for Spanish instructor with a specialty in second language acquisition. Experience with communicative approach and demonstrated commitment to teaching excellence. Preference given to candidates who have experience with: 1) teaching Spanish at the University level; 2) elementary school world languages curriculum and pedagogy; and 3) computer-assisted language learning.

Music, Dance and Theatre- Technical Director/Theatre Technician- Responsible for the construction of all sets and scenic design for the Department of Music, Dance and Theatre. It is his/her duty to ensure the set design functions as intended by the designer. Other duties include the supervision of the Williams Theatre scene shop and the handling of all shop and running crews for all department and collaborative productions. Has responsibility for overseeing technical rehearsals, the ordering of all tools and materials and tracking budget expenditures. Should be qualified to teach production classes.

Music, Dance and Theatre- Production Manager-Serves as assistant to the Chair and all concert and production directors in dealing with production and concert schedules, budget expenditures, publicity, programs, mailings, box office and campus security policies. Bachelor's Degree with background in music and/or theatre, and experience with all aspects of stage production required.

Music, Dance and Theatre- Music Theory- Faculty with a strong music theory background to teach freshman and sophomore level harmony and ear-training. Candidate should be able to teach other areas such as Music History and/or Applied Music. Doctorate and teaching experience at the college level is a must.

Music, Dance and Theatre- Technical Director/Lighting Designer (half-time)- Will be responsible for all technical aspects of running a 150-seat experimental theatre, including, but not limited to, lighting designs and their implementation, plus sound reinforcement and recording for all events. The supervision of student crews in the areas of lighting and sound is also required. Minimum BFA with essential experience at the academic or professional level required. MFA is preferred.

Music, Dance and Theatre- Production Manager (half-time)- Will be responsible for the coordination and use of a 190-seat experimental theatre. Duties include, but are not limited to, working with the box office, maintaining and cleaning the theatre space, and administrative tasks, with direct application to the performing arts. Candidate should have a degree in Theatre Management. A business degree with some theatrical background will also be considered. An adjunct teaching assignment in the theatre program is a possibility.

Opportunity Scholarship Program- EOF Counselor to advise non-declared majors; provide academic, personal and career counseling; assist students in making progress toward degree requirements; assist students in completing the financial aid process; prepare reports and maintain accurate student records. Responsibilities include teaching orientation to college courses, creating retention programs and mentoring peer counselors. Applicants should have excellent organizational, interpersonal and writing skills and should have a minimum of one year experience counseling college/university students. Previous experience working with EOF/EOF students is preferred. Bachelor's Degree is required.

Opportunity Scholarship Program- Program Assistant- Maintain the CSP database of EOF Supplement, monitor and process the DSP summer reimbursement and academic year bookstore voucher program. Coordinate academic mid-term warning system and assist in the recruitment process. Should possess a Bachelor's Degree in Business or related major and demonstrated organizational and computer skills. Experience working with EOF/EOF programs and the EOF supplement a plus.

Philosophy/Religion- Assistant Professor- Department has teaching needs in the following areas: History of Philosophy, Metaphysics, Ethics, Epistemology and Civilization courses in the General Studies Program. Applicants must be A.B.D. by the time of appointment. Candidates must possess strong commitment to teaching and mentoring.

Psychology- Faculty member to provide Undergraduate and Graduate level instruction in Developmental Psychology as well as a host of related course work in the discipline (i.e., research, statistics, etc.). In addition, the successful candidate will serve as a mentor, assisting students in guided research projects, Psi Chi, Psychology Club, etc.

Women's and Gender Studies- Requirements are a Ph.D. in Women's Studies or a related field at a Master's Degree. Career counseling and development is necessary. Assigned courses include introductory courses and courses in Women's Studies, and substantial teaching experience in interdisciplinary women's studies core courses (including introductory courses). Prefer candidates who present a demonstrated commitment to feminist theory, methodologies, and pedagogy as well as to mentoring students at all levels. Academic fields of interest include, but are not limited to, the natural sciences, public policy, economics, global and transnational feminisms, post colonial and diasporic studies, and women of color studies. Candidates with other areas of expertise in the Social Sciences will also be considered.

Applicants should send a letter of application, resume and the names, addresses and telephone numbers of three (3) references to: Professor of Computer Science, College of Arts and Sciences, alaman@njcu.edu. (Indicate Code: HD when responding)

Adjunct positions available in all areas. The search committees will begin reviewing application materials on December 15. 2000. All positions will remain open until the successful candidate has accepted the position.

HISPANIC OUTLOOK 11/20/2000

An affirmative action, equal opportunity employer, the University especially welcomes and encourages applicants from women and minority candidates.
Director of Campus Retail Operations

A dynamic, creative, and enterprising individual with superior managerial skills will be chosen as the new director of campus retail operations at the University of Illinois at Chicago. The director maintains the highest quality of customer service, employee development, financial success, and facility improvement.

Supporting the university's academic mission, the enrichment of campus life, and UIC's commitment to multiculturalism, Retail Operations provides merchandise, services, and amenities to UIC's 25,000 students, 12,000 faculty and staff, and the general public. The director is responsible for:

- a 73,000 square foot traditional college bookstore (annual sales of $18+ million)
- medical, dental, and trade bookstores
- central store (for departmental supplies)
- two computer stores
- four convenience stores
- five copy shops and numerous self-service and sales areas

These facilities are self-operated and self-supporting. In addition, the director is responsible for leased retail operations, including travel agencies and barbershops.

The successful candidate will possess these qualifications:

- a minimum of 10 years of experience as a retail professional, five of them as a director of a college or university bookstore
- experience in running a complex retail operation and creating new markets
- familiarity with the challenges facing retail in the college market
- a bachelor's degree (master's preferred)
- strong interpersonal and communication skills

Remuneration is competitive, as is the benefit package, which includes a tuition waiver.

Candidates must submit a letter of interest, a resume, and a brief (one page) summary of their philosophy for directing retail operations.

Ms. Shaine Williamson-Sissac
