INTRODUCTION

The Bureau of Educational Facilities receives many requests for information concerning recently constructed schools and community college facilities. This publication is prepared in response to these requests.

Contained within is pertinent information including photographs and floor plans of many of Florida's newest educational facilities occupied in 1999.

Appreciation is extended to school district staff, community college staff, and their consultants who provided information for this publication, and to those who contributed many hours to its development and publication.

Your comments and suggestions are always encouraged.
