This Hudson County Community College (HCCC), New Jersey, Research Profile examines the transfer/graduation careers of three recent cohorts of HCCC students at New Jersey public colleges/universities. Over three-quarters of HCCC students who transfer to public institutions in New Jersey transfer with freshman status. In contrast, fewer than 10% of transfers do so with junior status. For the 3 cohorts, between 46% and 55% of the transfer students graduated within 6 years. For freshman and sophomore transfers, the native graduation rate is higher than the rate for NCCC students, with a 10% difference in graduation rates between native students and NCCC students for freshman transfers: 60.14% of native freshmen graduated within 6 years, while 50.5% of freshman HCCC transfers graduated within 6 years. A more in-depth analysis of who transfers during the first year may provide some indications for intervention prior to transfer. The data presented are based on cohorts at HCCC during the limited period of 1993-1995. During the past 5 years, the Liberal Arts program has become the largest in terms of enrollment and has accounted for one-third (100 of 298) of fiscal year 2002 degrees. This growth, coupled with the institution of an Honors program, may result in different transfer/graduation patterns for more recent HCCC cohorts. (Author/NB)

TRANSFER STATUS AND GRADUATION RATES OF HCCC STUDENTS WHO TRANSFER TO NEW JERSEY SENIOR PUBLIC INSTITUTIONS

Introduction

One of the eight general goals identified in HCCC’s Mission Statement is “To provide liberal arts and science courses and associate degree programs that will prepare students to transfer to four-year colleges and universities.” In this Research Profile we examine the transfer/graduation careers of three recent cohorts of HCCC students at New Jersey public colleges/universities.

Transfer Status

A well-documented phenomenon among community colleges is that many of their students who transfer do so before they complete their associate degree program. In the words of The Sixth Annual Systemwide Accountability Report (July 2002) of The New Jersey Commission on Higher Education, “more community college students are transferring prior to completing the associate degree” (p. 25).

Over three-quarters of the HCCC students who transfer to senior public institutions in New Jersey transfer with freshman status. In contrast, fewer than 10% of the transfers do so with junior status.

Graduation Rates

For graduation purposes, 150% of the time for degree is the standard tracking time; six years for four-year degrees and three years for two-year degrees. The data in Table 2 compare graduation rates for HCCC transfers and for students who started at public senior institutions (natives). For the three cohorts, between 46% and 55% of the transfers graduated within six years. Although such combined data for natives is not available, comparative data for students according to transfer status are presented. The N’s for Junior transfers (3,6,12) are so small that comparisons are not worth making. For Freshmen and Sophomore transfers, the native graduation rate is higher than the rate for HCCC students. However, in the case of Sophomore transfers, the HCCC graduation rate has improved with each cohort. Given the finding that approximately 75% of the transfers are freshmen, the most significant and reliable rates are rates for those students. There is a 10% difference in graduation rate between these transfers and native students.

Discussion

The major findings are that for the 1993 – 1995 cohorts, three-quarters of the transfer students transfer as freshmen and transfers are somewhat less likely than are native students at New Jersey public colleges/universities to graduate within six years.

Although transfer prior to completion of degree is commonly found among community college students, the proximity of a low-cost public university, New Jersey City University, probably contributes to this phenomenon at HCCC. A more in-depth analysis of who transfers during the first year may provide some indications for intervention prior to transfer. In terms of proximity of four-year colleges, it is unfortunate that data on transfers to Saint Peter’s College are not available through the state’s SURE (Student Unit Record Enrollment) system.

Finally, the data presented are based on cohorts at HCCC during a limited time period. During the past five years the Liberal Arts program has become the largest in terms of enrollment and has accounted for one-third (100 of 298) of the FY 2002 degree. This growth coupled with the institution of an Honors Program may result in different transfer/graduation patterns for more recent cohorts.
I. DOCUMENT IDENTIFICATION:

Title: TRANSFER STATUS AND GRADUATION RATES OF HCCC STUDENTS WHO TRANSFER TO NEW JERSEY SENIOR PUBLIC INSTITUTIONS

Author(s): MARK OROMANER

Corporate Source: HUDSON CO. COMM. COLLEGE

Publication Date: OCT. 2002

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, Resources in Education (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

The sample sticker shown below will be affixed to all Level 1 documents.

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

________________________

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 1

☑

Check here for Level 1 release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g., electronic) and paper copy.

The sample sticker shown below will be affixed to all Level 2A documents.

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE, AND IN ELECTRONIC MEDIA FOR ERIC COLLECTION SUBSCRIBERS ONLY, HAS BEEN GRANTED BY

________________________

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 2A

☐

Check here for Level 2A release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only.

The sample sticker shown below will be affixed to all Level 2B documents.

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE ONLY HAS BEEN GRANTED BY

________________________

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 2B

☐

Check here for Level 2B release, permitting reproduction and dissemination in microfiche only.

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.
