DESCRIPTORS College Outcomes Assessment; Community Colleges; *Employer Attitudes; Employment; Institutional Evaluation; Participant Satisfaction; *Performance Based Assessment; Student Attitudes; Two Year Colleges

IDENTIFIERS Canada; *Ontario Colleges of Applied Arts and Technology

ABSTRACT

Summarizes findings from the Key Performance Indicator Satisfaction Survey administered by Sheridan College in the summer 2000, fall 2000, and winter 2001 terms. This survey was administered in compliance with the Ontario government's efforts to increase the accountability of the Colleges of Applied Arts and Technology through the measurement of institutional performance on five key performance indicators (KPI): (1) graduate employment; (2) graduate satisfaction; (3) employer satisfaction; (4) student satisfaction; and (5) graduation rate. The graduate employment, graduate satisfaction, and employer satisfaction data were collected through telephone surveys and utilized in the distribution of \$14 million in performance-based funding. The graduate population for the survey period was 3,946 and the survey generated a 75% return rate. Key survey findings indicate that Sheridan College had high KPI satisfaction (80%) and KPI Employment (90%) ratings that were close to the Provincial averages. In addition, Sheridan's graduates were slightly more likely to recommend their college to others. Other key findings reported in the document include the top five drivers of KPI Satisfaction: (1) preparation for the job market; (2) specific job-related skills; (3) specific job-related knowledge; (4) skills developed in Co-op and career placement services; and (5) course content. (RC)

Introduction to the KPI Project

Background to the KPI Survey

In the mid 1990s, the Ontario Government decided to enhance the accountability of Colleges of Applied Arts & Technology by measuring and rewarding their performance in meeting specific goals and outcomes. The Ministry of Training Colleges and Universities identified these goals and outcomes. The KPI Satisfaction Survey is a tool developed by the Ministry of Training Colleges and Universities in conjunction with the colleges to measure college performance. The government and colleges worked together to identify and define the following five key performance indicators (KPI):

- graduate employment
- graduate satisfaction
- employer satisfaction
- student satisfaction
- graduation rate

The project was launched in 1997, when graduate and employer data was collected over the Fall of '97 and Winter of '98. KPI Student satisfaction data collection began in 1998. The current survey data, which constitutes the KPI project's fourth survey period, was collected from graduates in the Summer 2000, Fall 2000 and Winter 2001.

Graduate employment, graduate satisfaction and employer satisfaction data are collected through telephone surveys. These three KPI are used to determine the distribution of a portion of government transfer payments amongst Ontario's colleges. In 2000-01, colleges received \$14 million in performance-based funding. The government also uses this information to produce its annual Employment Profile of college graduates.

The KPI Student Satisfaction Survey is a paper-based survey distributed to all students in Ontario's Colleges of Applied Arts & Technology. The colleges calculate student graduation rates. These two KPI are not linked to funding at this time.

The information collected from students, graduates and employers is used by the colleges to identify their strengths, demonstrate their achievements and to improve their programs and services.

Introduction to Sheridan College Graduate Executive Summary Report

This report is an in-depth analysis of the Graduate KPI results at Sheridan College. It identifies the College's strengths and Areas for improvement. It determines the drivers of Satisfaction at the College and the Top and Bottom programs. Graduates have also been analyzed by industry.

The graduate population for the Summer 2000, Fall 2000 and Winter 2001 survey period was 3,946. A return rate of 75% was achieved with 2,962 telephone surveys.

In the worst case scenario, the College level results in this report are accurate to within +/-1% at the 95% confidence level.

At the end of this report there are extensive Appendices which contain easy-to-read tables and charts for each of the sections in this report.

Summary of Results

College Strengths

Sheridan College had high KPI Satisfaction (80%) and KPI Employment (90%) ratings that were all close to the Provincial averages. In specific aspects of programs and skills and abilities learned, graduates from Sheridan College indicated satisfaction that was similar to the Provincial ratings.

In addition to this, Sheridan College graduates are slightly more likely to recommend their College.

College Areas for Improvement

The College needs to improve in areas that are specifically related to a graduate's job. 'Preparation for the job market', 'Specific job-related knowledge' and 'Job-relatedness of program' all had ratings lower than the Province (by 3% to 4%), but had '*Strong*' to '*Very Strong*' relationships with KPI Satisfaction. Improvement in these areas would likely have a positive impact on KPI Satisfaction.

All of the skills and abilities listed in Question 32 had the same or lower ratings than the Province. The lowest rated was 'Math skills' with 65% which was 8% below the Provincial rating.

Drivers of Satisfaction

The top 5 drivers of KPI Satisfaction were determined by correlational analysis and were identified as follows:

1. 'Preparation for the job market'
2. 'Specific job-related skills'
3. 'Specific job-related knowledge'
4. 'Skills developed in Co-op, clinical, field placement experience, and career placement services'
5. 'Course Content'

These are some of the same drivers that were identified for 'Overall satisfaction with College preparation'. Improvement in these factors would have a positive impact of College KPI and overall satisfaction ratings. Job-related skills, knowledge and preparation for the job market in programs are key to graduate satisfaction.

When it came to recommending their programs and the College, graduates again showed that job-related factors are key. Also of importance were course related factors such as 'Overall quality of instruction' and 'Course content'.

Of the 'other' factors examined, employment factors have the strongest relationship with KPI Satisfaction. The 'helpfulness of the skills developed in college in getting their job' and having 'related employment' strongly impact the graduates' KPI Satisfaction rate.

Summary of Results

Top and Bottom Programs

An analysis was done to identify the College's Top and Bottom ranked programs in the graduate survey. To be considered a Top program KPI Satisfaction had to be more than 90% over the four survey periods combined, and had to have at least 20 responses in both the KPI Satisfaction and Employment rates. The following are Sheridan College's Top programs:

Program	KPI Satisfaction rate
Montessori EC Teacher Ed (1198)	100%
Music Theatre – Performance (6320)	100%
Police Recruit Ed & Prep (13R0)	100%
Esthetician (1340)	95%
Early Childhood Education (1190)	93%
Police Foundations (1101)	93%
Personal Support Worker (1926)	92%
Architectural Technology Co-op (5200)	92%
Office Admin – Executive (2180)	91%

All of the programs above also made the Top programs list for the current survey period. These programs were analyzed in detail for the current survey period in comparison to the Province, College, Top 10 Programs average and its corresponding MCU program ratings.

To be considered a Bottom program KPI Satisfaction had to be less than 60% over the four survey periods combined, and had to have at least 20 responses in both the KPI Satisfaction and Employment rates. The following are Sheridan College's Bottom programs:

Program	KPI Satisfaction rate
Electronics Engineering Technology (5120)	59%
Computer Programmer (3220)	59%
Security System Implementation & Design (1005)	58%
Investigation – Public & Private (1002)	56%
Logistics Co-op (2012)	53%
Court and Tribunal Agent (1004)	53%

The programs above that are listed in bold are those that made the Bottom programs list for the current survey period. These programs were analyzed in detail for the current survey period in comparison to the Province, College, Bottom 10 Programs average and its corresponding MCU program ratings.

Summary of Results

Trends

The graduate KPI Satisfaction (80%) and KPI Employment (90%) rates have decreased since the last survey period by 1% and 3% respectively.

When it comes to graduate satisfaction in specific aspects of their programs and skills and abilities learned, 'Equipment was up-to-date' had the greatest increase in satisfaction since the last survey period (+5%, from 78% to 83%). On the other hand, 'Preparation for the job market' had the largest decrease in satisfaction since the last survey period (-3%, from 77% to 74%).

Although the job-relatedness has dropped since the last survey period, it is up 2% since the 1998/1999 survey period. The same trend can be seen at the Provincial level.

Demographically, between this survey period and the last there has been a 6% decrease in the number of graduates who said that they are 'employed' but an increase in those who are 'not employed' or 'employed but looking for another job'. There was also an increase in those saying that they currently had 'two jobs' and a decrease in those who said that they only had 'one job'.

Industry Analysis

Graduate responses were sorted into North American Industry Classification System (NAICS) Sectors. The NAICS system is used to classify businesses across Canada, the USA and Mexico. The industries with 5% or more of the total graduate responses from Sheridan College over the 4 survey periods were examined in some detail. These are summarized as follows:

1. PROFESSIONAL, SCIENTIFIC & TECHNICAL SERVICES

This industry employs the largest proportion of Sheridan College graduates. Professional, Scientific & Technical Services had a KPI Satisfaction rate and overall satisfaction with College preparation rate of 83%. Eighty-eight percent of these graduates stated that the skills they developed in College were 'Helpful' in getting their job. Most of these graduates work '30-49 hours' per week (88%), have a gross starting salary of '\$20,000 to \$39,999' (73%) and needed a 'College' education to get their job (54%).

2. HEALTH CARE & SOCIAL ASSISTANCE

This industry employs the second largest proportion of Sheridan College graduates. It has the highest KPI Satisfaction rate of all the industries with 90% and the second highest overall satisfaction with College preparation at 91%. The College is doing a good job of preparing students for employment in this industry with high satisfaction ratings across the board. The majority of graduates in the Health Care & Social assistance industry work '40-49 hours' per week (45%), needed a 'College' education to get their job (65%), and make '\$10,000 to \$29,999' as a gross starting salary (72%).

Summary of Results

3. RETAIL TRADE

Ratings for the Retail Trade industry were low for KPI Satisfaction rate (at 68%), overall satisfaction with College preparation (74%) and the 'Helpfulness' of the skills they developed at College to get their job (60%). Most of the graduates from this industry work '40-49 hours' per week (51%), needed 'High school' education to get their job (39%) and earn '\$10,000-\$29,999' as a gross starting salary (70%).

4. MANUFACTURING

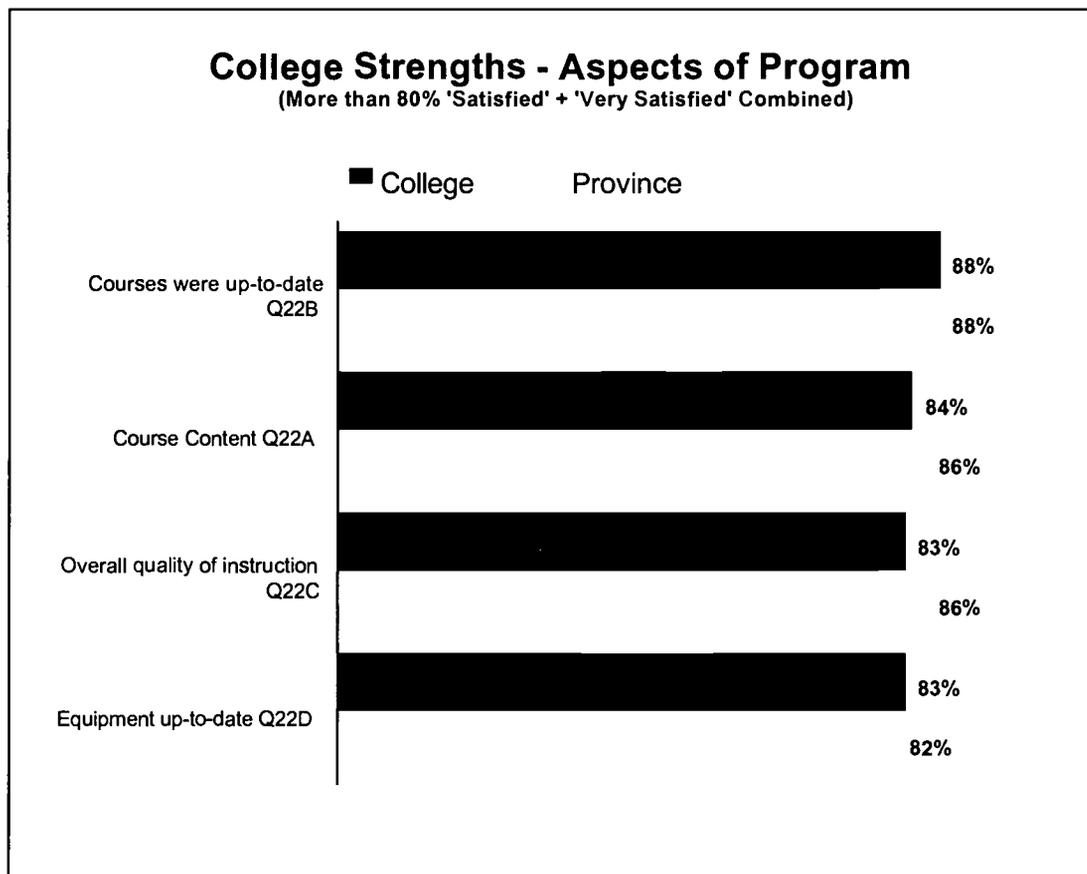

Manufacturing graduates had a KPI Satisfaction rate of 79% and 84% of the graduates in this industry were 'Satisfied', overall, with their College preparation for work. The majority of the graduates in this industry needed a 'College' education to get their job (44%), work '40 to 49 hours' per week (76%) and make '\$20,000 to \$39,999' as their gross starting salary (73%).

College Strengths

Sheridan College had a KPI Satisfaction rate of 80% that was close to the Provincial average of 81%. The College had a slightly higher KPI Employment rate, at 90%, than the Province (by 1%).

Sheridan College showed strength in graduate satisfaction ratings for specific aspects of their programs with satisfaction rates ranging from 74% to 88%. In all the aspects of programs listed in Question 22¹, graduates indicated that their satisfaction was comparable to the Provincial level, within 3%. The largest difference was in 'Overall quality of instruction' and 'Preparation for the job market' where Sheridan College graduates rated 3% lower than the Provincial level.

The following chart shows the aspects of the program for which graduates were more than 80% 'Satisfied'. These are considered Sheridan College's strengths.

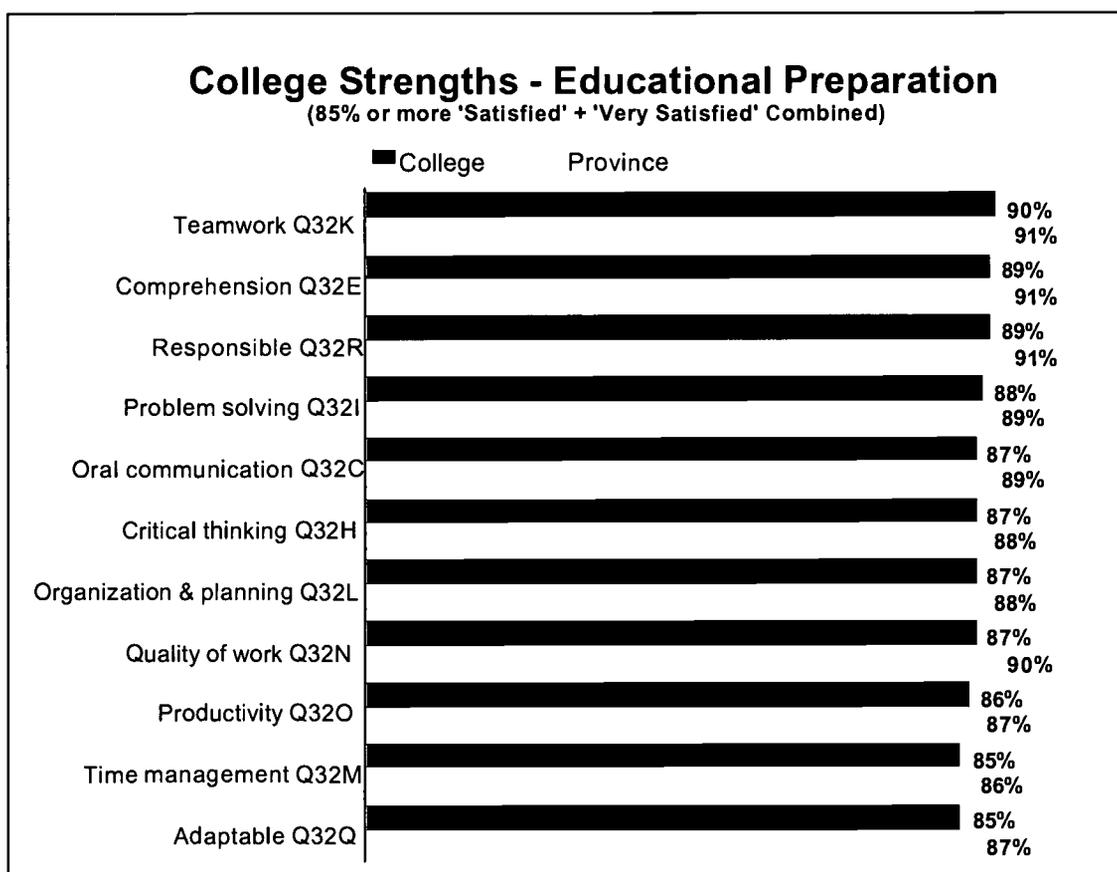

¹ Q22 "Thinking about the demands of this job, how satisfied are you with the following aspects of your program?"

College Strengths

Sheridan College graduates showed strength in graduate satisfaction ratings for all the educational preparation skills and abilities listed in Question 32². Most of the satisfaction ratings were 80% or higher. The skills and abilities that were below 80% include 'Specific job-related knowledge', 'Research and Analysis', 'Computer skills' and 'Math Skills'.

All of the skills and abilities were comparable to the corresponding Provincial ratings, within 4%. The exception to this was in 'Math Skills', where 8% fewer graduates at the College were 'Satisfied' than at the Provincial level.

The following chart lists skills and abilities that received 85% or more 'Satisfied'. These are considered Sheridan College's strengths.

Many of the College's graduates stated that they would recommend their Program (86%) and the College (96%) to someone else. These rates are relatively the same as the Provincial ratings within 1%.

² Q32 "When you first started working after graduation how satisfied were you with your educational preparation for the following skills and abilities?"

College Areas for Improvement

In summary, the College needs to improve in areas that are specifically related to a graduate's job. 'Preparation for the job market', 'Specific job-related knowledge' and 'Job-relatedness of program' all had ratings lower than the Province but had '*Strong*' to '*Very Strong*' relationships with KPI Satisfaction. Improvement in these areas would likely have a positive impact on KPI Satisfaction.

All of the skills and abilities listed in Question 32 had the same or lower ratings than the Province.

One aspect of the graduates' program had a satisfaction rate that was less than 80%: 'Preparation for the job market'. This aspect was also 3% below the Provincial rating and also had the highest dissatisfaction rate of 13%. Preparation for the job market' is an important aspect, as it has been determined to be a '*Very Strong*' driver of KPI Satisfaction. Graduates who were 'Satisfied' with this aspect were 50% more likely to be 'Satisfied' in the KPI question than those who were 'Dissatisfied'.

'Specific job-related knowledge' had a satisfaction rate of 79% at the College. This is 4% less than the Provincial rating. Like 'Preparation for the job market', this aspect is important, as it has been determined as a '*Very Strong*' driver of KPI Satisfaction. Graduates who were 'Satisfied' with the educational preparation for 'Specific job-related knowledge' were 48% more likely to be 'Satisfied' in the KPI question than those who were 'Dissatisfied'.

Another area that needs improvement is the job-relatedness of the programs. When graduates were asked if their jobs were related to the program from which they graduated, only 61% said 'Yes'. This rating is 4% below the Province. This factor is important, as it has been determined as a '*Strong*' driver of KPI Satisfaction. Graduates who have program-related employment are 32% more likely to be 'Satisfied' in the KPI question than those who do not.

All the skills and abilities listed in Question 32 were below the Provincial average, except for 'Creativity and innovation', which was rated the same. There were four skills and abilities that had ratings that were less than 80%. These include 'Specific job-related knowledge', 'Research and analysis', 'Computer skills' and 'Math Skills'.

'Math Skills' was the lowest rated skill at the College with a satisfaction rate of 65%. This was 8% below the Provincial rating. Twelve percent of the graduates at Sheridan College stated that they were 'Dissatisfied' with their educational preparation of 'Math Skills'.

BEST COPY AVAILABLE

College Areas for Improvement

Analysis was done to determine which Programs over the past four survey periods (i.e. Fall 1997 through Winter 2001), with at least 20 responses, had particularly low job-relatedness. The criteria for being a low job-related program was to have had less than 50% 'Yes' and/or more than 30% 'No' to the corresponding question. For a complete list of programs at Sheridan College that have low job-relatedness, see Appendix 7, Table 1. The 11 programs with the lowest job-relatedness are presented in the table below.

PROGRAM	Question 20 "Was this job related to the program that you graduated from?"			
	Yes	Yes, partially	No	Responses
Business – General (2150)	38%	21%	41%	39
Risk Analyst (1215)	38%	18%	44%	34
Community Outreach & Develop (1001)	38%	5%	56%	39
Illustration – Interpretive (6091)	36%	22%	42%	125
Human Services Administration (1570)	31%	24%	45%	49
Investigation – Public & Private (1002)	31%	22%	47%	78
Business – Human Resources (A120)	30%	33%	36%	33
Art and Art History (6370)	24%	16%	60%	62
Computer Foundations (3460)	19%	23%	58%	52
General Arts & Science (13A0)	12%	16%	72%	69
Art Fundamentals (6350)	4%	7%	89%	187

As can be seen by the table in Appendix 7, Table 1, there are 36 programs which are considered to have low job-relatedness. The program which graduates reported having the lowest job-relatedness was Art Fundamentals (4% 'Yes' and 89% 'No'). This is understandable, as this is a one-year certificate program that is not preparing a graduate for a specific job. The same can be said for General Arts and Science that came in second with a 12% 'Yes' to job-relatedness. However, there are other programs on this list that are very specific in training graduates for jobs and yet still have low job-relatedness ratings.

From the programs listed in the table above, the KPI Satisfaction ratings for the four survey periods ranged from 56% to 83%.

A comparative table has been displayed in Appendix 7, Table 2 to present the same programs for the current survey period (i.e. Summer 2000, Fall 2000 and Winter 2001). All of the programs from the four survey periods also had low job-relatedness for the current survey period, except for four. These four programs are Cosmetic Techniques & Management (65% 'Yes'), Law & Security Administration – Loss (100% 'Yes', 2 responses), Environmental Control (55% 'Yes') and Court and Tribunal Agent (60% 'Yes'). Keep in mind that these programs all had low response rates.

Drivers of Satisfaction – Graduate Survey

What are Drivers of Satisfaction?

“Drivers of satisfaction” are certain aspects of college preparation that most strongly influence graduates’ satisfaction ratings in the KPI and other **key survey questions**³.

In order to establish these drivers of satisfaction, correlational analysis was conducted to determine which factors were most highly related to the key overall questions. The stronger the relationship between the key question and educational factors, the more strongly these factors appear to drive graduate satisfaction ratings. [It should be noted that correlations do not prove that one factor *causes* another factor, but rather establishes that the two factors are related. An experiment would be required to determine a causal relationship.]

General

The College’s graduate data from all survey periods (Fall 1997 through Winter 2001) was combined to provide a larger number of cases and more weight to the conclusions being made in this section. Data from the current survey period (Summer 2000, Fall 2000 and Winter 2001) was also examined to see if there were any significant differences from the combined data.

Detailed results of the correlational analysis are presented in Appendix 2, Tables 1 through 8, in easy to read tables.

The educational factors which were examined to determine the drivers of graduate satisfaction included the eighteen skills and abilities listed in Question 32⁴ and the six program-related aspects in Question 22⁵.

Demographic factors were also examined to see the differences in satisfaction.

Throughout the survey a general pattern existed. When graduates said that a particular factor was ‘important’ to them, they tended to be more ‘Satisfied’ with that factor than graduates who said that it was ‘Not Important’.

It is also worthy of note that if a graduate indicated that they were ‘Satisfied’ with a certain aspect of their program or skill and ability that they learned in their program, then there was an 81% to 88% chance that they would be ‘Satisfied’ in the KPI Satisfaction question.

³ KPI Q34 “How would you rate your satisfaction with the usefulness of your college education in achieving your goals after graduation?”

Q33 “How would you rate your overall satisfaction with the college preparation for the type of work you were doing?”

Q35 “Would you recommend the Program to someone else or not?”

Q37 “Would you recommend the College to someone else or not?”

⁴ Q32 “When you first started working after graduation how satisfied were you with your educational preparation for the following skills and abilities?”

⁵ Q22 “Thinking about the demands of this job, how satisfied are you with each of the following aspects of your program?”

Drivers of Satisfaction – Graduate Survey

Drivers of KPI Question 34⁶

The top 5 drivers of graduate KPI Satisfaction came from the aspects of programs and skills and abilities that were rated in Questions 22⁷ and 32⁸. These are listed below in order of the strength of relationship between the KPI question and the driver. The stronger the relationship between these drivers and the KPI question, the more they affect the KPI Satisfaction rate.

Top 5 Drivers of KPI Satisfaction

1. 'Preparation for the job market'
2. 'Specific job-related skills'
3. 'Specific job-related knowledge'
4. 'Skills developed in Co-op, clinical, field placement experience, and career placement services'
5. 'Course Content'

The first three drivers of satisfaction are all '*Very Strongly*' related with the KPI Satisfaction question. If a graduate is 'Satisfied' with the way their program prepared them for the job market, then 88% of the time they will also be 'Satisfied' in the KPI question. Similarly, satisfaction with specific skills and specific knowledge pertaining to their jobs will yield high satisfaction rates with the KPI question (87% to 88%).

The last 2 drivers listed above have a '*Strong*' relationship with the KPI question. It should be noted that 6 additional drivers also have a '*Strong*' relationship with the KPI question. For a detailed listing of these drivers and all of the other factors and their relationships see Appendix 2, Tables 1 and 2.

It appears from this list of drivers that graduates are most 'Satisfied' in the KPI question when they are 'Satisfied' with aspects of their programs that are job-related and the skills and abilities they develop in their programs that prepare them specifically for their job.

This does not mean that outcomes for the other factors are not important, but simply that should the college wish to improve the KPI, then the factors most strongly related should be the priority. In this case, that would mean focussing on job-related aspects of the programs.

⁶ KPI Q34 – "How would you rate your satisfaction with the usefulness of your college education in achieving your goals after graduation?"

⁷ Q22 – "Thinking about the demands of this job, how satisfied are you with each of the following aspects of your program?"

⁸ Q32 – "When you first started working after graduation how satisfied were you with your educational preparation for the following skills and abilities?"

Drivers of Satisfaction – Graduate Survey

Drivers of Overall Satisfaction with college preparation (Question 33⁹)

Listed below you will see the top nine drivers for 'Overall satisfaction with college preparation for the type of work the graduate is currently doing'. These are listed below in order of the strength of relationship between Question 33 and the driver. Again, the stronger the relationship between these drivers and Question 33, the more they affect the graduates' satisfaction.

Top 9 Drivers of Overall Satisfaction Question 33

1. 'Specific job-related skills'
2. 'Specific job-related knowledge'
3. 'Preparation for the job market'
4. 'Course content'
5. 'Overall quality of instruction'
6. 'Skills developed in co-op, clinical, field placement experience, and career placement services'
7. 'Quality of work'
8. 'Adaptable'
9. 'Productivity'

All of the top drivers are '*Very Strongly*' related to Question 33. Again, job-related skills and knowledge are very important to graduate satisfaction and top the list.

It is also worthy to note that though only the top 9 drivers of satisfaction are listed, there are 12 additional factors that are '*Strongly*' related to Question 33. For a detailed listing of these factors and their relationships see Appendix 2, Table 3 and 4.

If you compare lists of drivers from Question 32 for both the KPI question and Question 33, the top five drivers are the same, including 'Specific job-related skills,' 'Specific job-related knowledge,' 'Quality of work,' 'Adaptable' and 'Productivity'. This indicates that satisfaction with these five drivers will affect both the satisfaction in the KPI question and the satisfaction in Question 33. See Appendix 2, Tables 1 and 3 for details.

It is interesting to note that 'Overall quality of instruction' also made the top 5 drivers for Question 33.

In both of the KPI Satisfaction question and 'Overall satisfaction with college preparation' graduates reveal how important job-relatedness factors are to satisfaction.

⁹ Q33 "How would you rate your overall satisfaction with the college preparation for the type of work you were doing?"

Drivers of Satisfaction – Graduate Survey

Drivers of the willingness to recommend the College (Q37¹⁰) and their program (Q35¹¹)

Analysis was conducted to find out what the drivers were to having graduates recommend the College and their programs. It appears that graduates who are 'Satisfied' with the aspects of their program in relation to the demands of their job and with their educational preparation are more willing to recommend their College and program than those who are Not satisfied'. See Appendix 2, Tables 5 through 8 for complete details.

There are 4 factors that had '*Strong*' relationships when it came to graduates recommending their program. When graduates are 'Satisfied' with these top 4 drivers, they will be more likely to recommend their program.

Top 4 Drivers of Recommending Program

1. 'Overall quality of instruction'
2. 'Course content'
3. 'Preparation for the job market'
4. 'Skills developed in co-op, clinical, field placement experience, and career placement services'

It is interesting to note that when a graduate considers satisfaction with college preparation and usefulness of college education, the job-related factors are at the top of the list. However, when a graduate considers whether they will recommend their program to someone, though a job-related factor is there, the stronger relationship exists with program aspects such as 'Quality of instruction' and 'Course content'.

Job-relatedness is still a factor however. If a graduate is 'Satisfied' with how their program prepares them for the job market, 94% of the time they are willing to recommend their program to someone else.

There were no '*Strong*' relationships between any factors and graduates' willingness to recommend the college. Although the relationship is a '*Moderate to weak*' one, the 'Overall quality of instruction' is the number 1 driver for graduates to recommend the College.

When it comes to recommending their program, graduates are driven firstly by course-related aspects such as 'Quality of instruction' and 'Course content', and secondly by the job-related aspect.

¹⁰ Q37 – "Would you recommend the College to someone else or not?"

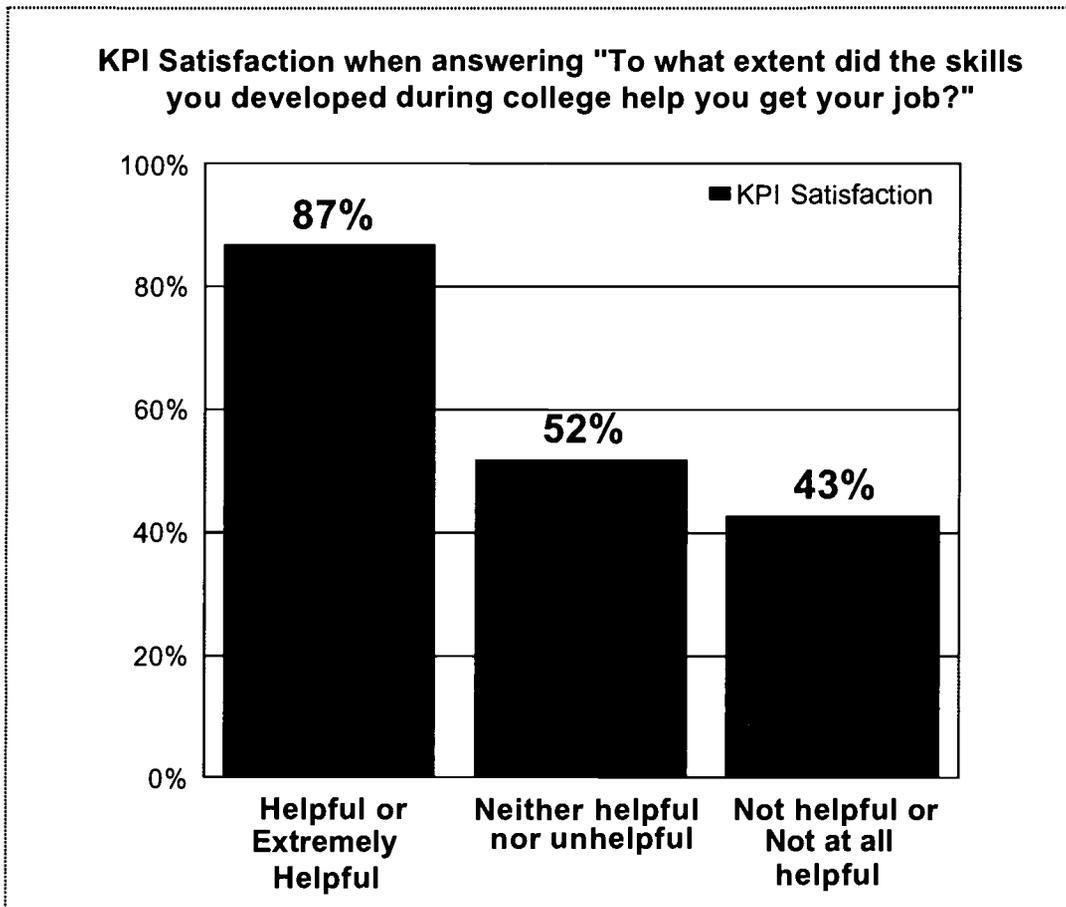

¹¹ Q35 – "Would you recommend the Program to someone else or not?"

Drivers of Satisfaction – Graduate Survey

How Demographic Factors Affect Satisfaction

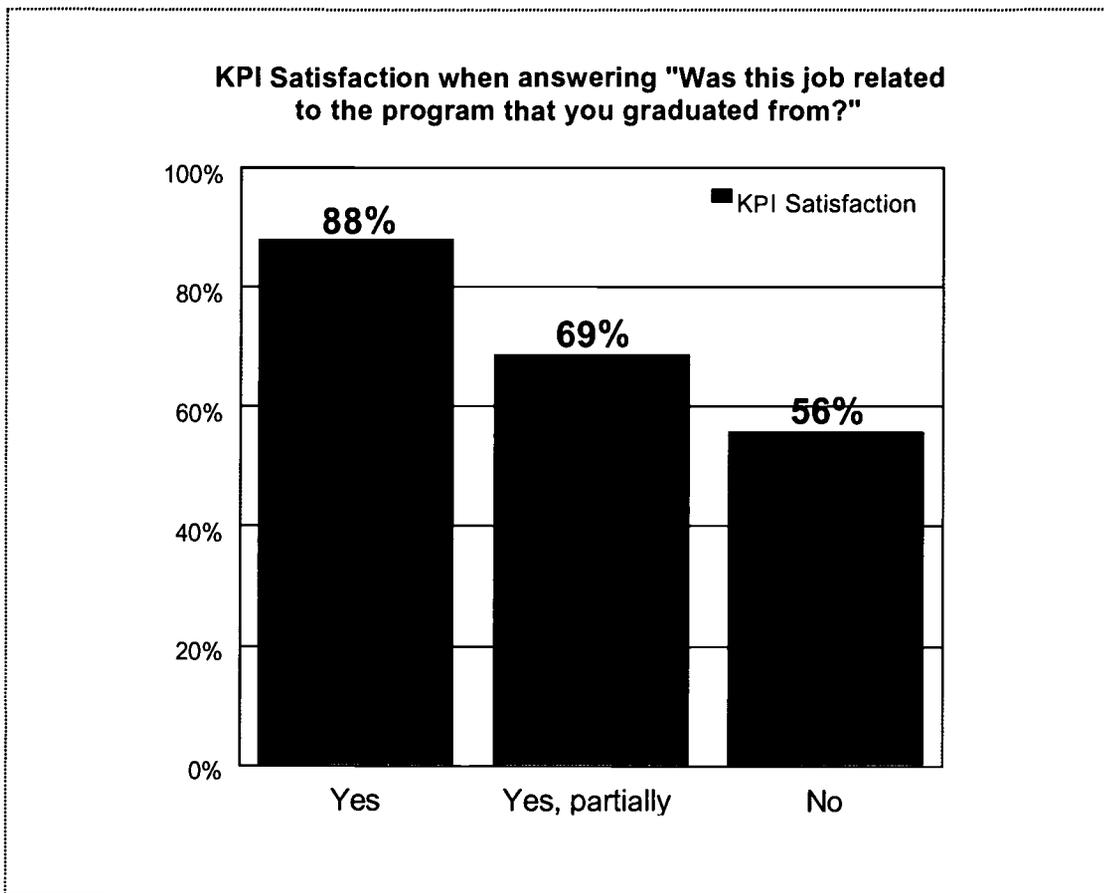

A number of other factors were examined to see how they were related to KPI Satisfaction. Most of these were demographic factors such as 'Male/Female' differences, 'Age', 'Educational Status', 'Employment Status', 'Type of Employee', 'Job/Education Relatedness', 'Hours working in job' and 'Gross Starting Salary'.

The relationship between the helpfulness of the skills developed during college to help graduates get their job and KPI Satisfaction was 'Very Strong.' Eighty-seven percent of graduates who stated that the skills developed were 'Helpful or Extremely helpful' were 'Satisfied'; whereas only 52% of graduates who felt the skills were 'Neither helpful nor unhelpful' were 'Satisfied'. Lastly, only 43% of graduates who felt the skills were 'Not helpful or not at all helpful' were 'Satisfied'. The difference between the skills being 'Helpful' to get their job and 'Unhelpful' to get their job is 44%.

Drivers of Satisfaction – Graduate Survey

Another important finding relating to employment was the 'Strong' relationship between satisfaction and whether the graduate currently had related employment. Eighty-eight percent of graduates who were employed in a related field were 'Satisfied'. Only 69% of those employed in a partially related field were 'Satisfied' and only 56% of those employed in an unrelated field were 'Satisfied' in the KPI Question. Again the difference in satisfaction is quite substantial at 32%.

The relationships between employment and KPI Satisfaction are the strongest. The helpfulness of the skills developed in college and being employed strongly impact the graduates' satisfaction.

Drivers of Satisfaction – Graduate Survey

Some other interesting findings:

- When graduates were broken down by gender it was found that 4% more 'females' than 'males' were 'Satisfied' in the KPI question.
- Graduates interviewed who were 'unemployed and/or looking for a job' were 17% less 'Satisfied' than those in other categories.
- Those who were working more or less hours than an average workweek ('30-49 hours') were up to 11% less 'Satisfied' than those working an average workweek.
- In general graduates with a higher starting salary (i.e. 'more than \$30,000') were up to 20% more 'Satisfied' than those with a lower starting salary.
- Graduates who were on 'contract' or considered 'permanent employees' were up to 11% more 'Satisfied' than those who were in other categories of employment types.

Top & Bottom Program Rankings

General

The following analysis goes beyond the overall college results to the results of specific programs. Here it becomes evident that there is a very significant spread in the satisfaction and characteristics of one program to another. Top and bottom programs are selected based on the results in order to understand the characteristics of a highly rated program and to identify programs that may require a more in-depth examination.

In order to rank the programs, satisfaction results have been used from the last 4 survey periods (Fall 1997 through Winter 2001). This gives more weight to the selection process. Programs that appeared among the top programs in this combined survey period as well as in the current survey period have been analyzed in more detail.

In Appendix 4, table 1, you will find tables that display the Top Programs with all their ratings for KPI as well as other **key survey questions**¹². A 'Top 10' programs average has been created for benchmark purposes along with the College and Provincial averages. In Appendix 4, table 2, you will find a table that clearly compares all of the Top programs to their MCU counterparts.

In Appendix 5, table 1, you will find tables that display the Bottom programs with all their ratings for KPI as well as other **key survey questions**¹². A 'Bottom 10' programs average has been created for benchmark purposes along with the College and Provincial averages. In Appendix 5, table 2, you will find a table that clearly compares the Bottom programs to their MCU counterparts.

In Appendix 3 you will find tables displaying all the College's programs with their statistical accuracy ratings for the current survey period and for all survey periods combined. This is a percentage that tells you when you look at program numbers how accurate they are to within plus or minus a certain percentage in the worst case scenario at the 95% confidence level. The program's KPI Satisfaction rate and the KPI Employment rate are also presented in these tables.

¹² Q20 - "Was this job related to the program that you graduated from?"

Q21 - "To what extent did the skills you developed during college help you get your job?"

Q33 - "How would you rate your overall satisfaction with the college preparation for the type of work you were doing?"

KPI Q34 "How would you rate your satisfaction with the usefulness of your college education in achieving goals after graduation?"

Q35 - "Would you recommend the program to someone else or not?"

Q37 - "Would you recommend the College to someone else or not?"

Top & Bottom Program Rankings

Top Programs

The Top Programs for the Sheridan College Graduate Survey were considered to be those with more than 90% KPI Satisfaction rate and which had at least 20 responses in both the KPI Satisfaction rate and KPI Employment rate from Fall 1997 through to Winter 2001. Nine programs qualified to be Top Programs. These are listed in the table below:

SHERIDAN COLLEGE TOP PROGRAMS		
Programs with more than 90% KPI Satisfaction (Fall 1997 through to Winter 2001)	KPI Satisfaction	Reponses in KPI Satisfaction (at least 20 responses)
Montessori EC Teacher Ed. (1198)	100%	23
Music Theatre – Performance (6320)	100%	34
Police Recruit Ed & Prep (13R0)	100%	28
Esthetician (1340)	95%	80
Early Childhood Education (1190)	93%	434
Police Foundations (1101)	93%	70
Personal Support Worker (1926)	92%	128
Architectural Technology Co-op (5200)	92%	47
Office Admin – Executive (2180)	91%	130

The 7 programs that were included in both this list & the Top KPI Employment list (pg.21) are bolded.

For these Top Programs, the KPI Employment rate ranged from 91% to 100%.

An additional 23 programs at the College had KPI Satisfaction rates between 80% and 90% for the same time period. This means that over one third of Sheridan College programs received 80% or more for their KPI Satisfaction rate (i.e. 32 of 86 programs which had at least 20 responses in the KPI Satisfaction rate and KPI Employment rate over the four survey periods).

Top & Bottom Program Rankings

The Current Year

For comparison purposes the top programs for the current survey period have been listed. Please note that many of these programs have low responses and therefore it is very likely, that there will be changes in the Top Programs list from year to year, because even one respondent's rating will have a large impact on the program's average rating.

The Top Programs for this survey period were considered to be those more than 90% KPI Satisfaction and which had at least 5 responses in both the KPI Satisfaction rate and KPI Employment rate. These are listed in the table below:

Program	KPI Satisfaction	Reponses in KPI Satisfaction (at least 5 responses)
Early Childhood Assistant (1840)	100%	24
Esthetician (1340)	100%	22
Police Recruit Ed & Prep (13R0)	100%	15
Montessori EC Teacher Ed. (1198)	100%	14
Sports Injury Management (1911)	100%	13
Music Theatre - Performance (6320)	100%	11
Community Outreach & Develop (1001)	100%	7
Computer Science Technician (3280)	100%	7
Chemical Eng. Technology Co-op (5750)	100%	7
Human Services Administration DE (1571)	100%	6
Crafts & Design - Glass (4270)	100%	6
Computer Animation - Tech Dir. (6121)	100%	5
Early Childhood Education (1190)	96%	154
Human Resource Mgmt Co-op (A680)	96%	70
Architectural Technology Co-op (5200)	95%	20
Office Admin - Legal (2200)	94%	18
Police Foundations (1101)	93%	44
Office Admin - Executive (2180)	93%	29
Risk Analyst (1215)	93%	14
Personal Support Worker (1926)	92%	61
Info Technology - Support Services Co-op (3614)	92%	12

The programs that made the top list for the four survey periods and the current year are bolded.

All of the top programs from the four survey periods were included in the Top programs of the current year.

Top & Bottom Program Rankings

Top Graduate KPI Employment

There were 26 Programs that had more than 95% KPI Graduate Employment and that had at least 20 graduate responses in both the KPI Satisfaction and KPI Employment rate. These are listed in the table below:

Programs with more than 95% KPI Employment for Fall 1997 through to Winter 2001	KPI Employment rate	Responses (Must be 20 or more)	Q20 Job-relatedness 'YES'
Architectural Technology Co-op (5200)	100%	42	87%
Journalism - Print (2741)	100%	31	40%
Police Foundations (1101)	99%	65	46%
Cosmetic Techniques & Mgmt (2843)	98%	57	61%
Telecommunications Management (3410)	98%	56	84%
Business Admin - Marketing Co-op (2520)	98%	44	69%
Pharmacy Assistant Co-op (1915)	98%	84	83%
Theatre Arts - Tech Production (6737)	97%	39	65%
Early Childhood Education DE (1197)	97%	67	83%
Electronics Engineering Technology (5120)	97%	33	48%
Sports Injury Management (1911)	97%	64	68%
Risk Analyst (1215)	97%	32	38%
Mechanical Eng. Technology Co-op (5380)	97%	31	79%
Development Disabilities Worker (1000)	97%	29	60%
Personal Support Worker (1926)	97%	114	86%
Chemical Eng. Technology Co-op (5750)	96%	28	60%
Police Recruit Ed & Prep (13R0)	96%	26	55%
Correctional Worker (1691)	96%	103	62%
Bachelor of Design Hon Deg (6131)	96%	25	71%
Esthetician (1340)	96%	73	81%
Animal Care (5430)	96%	163	54%
Human Services Administration (1570)	96%	46	31%
Early Childhood Education (1190)	96%	331	79%
Interior Design (6950)	96%	133	78%
Office Admin - Legal (2200)	96%	44	85%
Montessori EC Teacher Ed. (1198)	96%	22	96%

The 7 Programs that were included in both this list and the top KPI Satisfaction list are bolded.

Top & Bottom Program Rankings

Only two of the top College programs listed did not make the list for top employment rates. These programs are:

- Office Admin – Executive (2180), with an employment rate of 93%, and
- Music Theatre – Performance (6320), with an employment rate of 91%

Although these 26 programs all have over 95% Employment rates, it is important to note that their employment is not always related to the program from which they graduated. Since 'job-relatedness' has a '*Strong*' relationship with KPI Satisfaction, this can and has affected the satisfaction rates of most of these programs and should not be overlooked. This can be seen clearly from the table above, as programs with lower percentages of graduates working in a job-related field did not make the top program list for KPI Satisfaction rate although they had very high KPI Employment rates. For instance, although the program, Electronics Engineering Technology, has a 97% KPI Employment rate, it has a low satisfaction rate (59%) and few graduates from this program indicated that their job was related to their program (48%).

Twelve of these programs have less than 65% job-relatedness.

The following analysis is a brief examination of Sheridan College Top Programs. The programs examined include those that were Top programs in both the combined survey periods (i.e. Fall 1997 through Winter 2001) and the current survey period (i.e. Summer 2000 through Winter 2001).

Top & Bottom Program Rankings

Montessori EC Teacher Ed (1198)

This program had one of the highest reported KPI Satisfaction rates over the four survey periods at 100% and therefore made the top programs list. It has had 35 graduates with 27 survey responses over the four survey periods. Seventy-seven percent of the graduates from this program are represented in the results. This program also made the top programs list for this current survey period (i.e. Summer 2000 through to Winter 2001), ranking 1st for the KPI Satisfaction rate.

Overall, the Montessori EC Teacher Ed graduates had high ratings over the four survey periods, ranging from 96% to 100%, making it one of the strongest programs at Sheridan College.

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Montessori EC Teacher Ed. (1198)	F97 – W01	100%	23	96%	22
	S00 – W01	100%	14	92%	13
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	100%	14	92%	13
Top 10 Programs	S00 – W01	100%	126	100%	149

Benchmark Comparisons (Summer 2000 through Winter 2001)

This program had ratings the same as its **MCU counterpart**, which means it is representing the MCU ratings on its own and therefore there will be no comparisons to make.

In **KPI Satisfaction**, Montessori EC Teacher Ed was 19% to 20% above the Provincial and College ratings; however, it was the same as the Top 10 Programs average.

Montessori EC Teacher Ed's **KPI Employment rate** was up to 3% higher than both the College and Provincial averages; however, it is 8% lower than the Top 10 Programs average.

Montessori EC Teacher Ed's **Overall satisfaction with College preparation for work** was very high at 100%. It was up to 18% higher than both Province and College, and the same as the Top 10 Programs average.

The fact that the KPI Employment rate is high is good news for the College as 94% also reported that their program was **job-related**. Moreover, job-relatedness for this program is much higher than both the Province and College ratings (29% and 33% respectively), and is slightly above (+2%) the Top 10 Programs average.

Top & Bottom Program Rankings

Again, when graduates were asked whether their **skills were helpful in getting their job**, Montessori EC Teacher Ed. at Sheridan College had ratings higher than the Provincial and College average but only slightly higher (+1%) than the Top 10 Programs average.

Graduates from Montessori EC Teacher Ed at Sheridan College are more willing to **recommend their program** than graduates at both the Provincial and College levels, however, they are less likely to **recommend their College**.

Top & Bottom Program Rankings

Music Theatre – Performance (6320)

This program had a high Satisfaction rate over the four survey periods at 100% and therefore made the top programs list. It has had 85 graduates with 40 survey responses over the four survey periods. Forty-seven percent of the graduates from this program are represented in the results. This program also made the top programs list for this current survey period (i.e. Summer 2000 through Winter 2001) ranking 1st for the KPI Satisfaction rate.

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Music Theatre – Performance (6320)	F97 – W01	100%	34	91%	34
	S00 – W01	100%	11	100%	9
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	87%	23	95%	20
Top 10 Programs	S00 – W01	100%	126	100%	149

Benchmark Comparisons (Summer 2000 through Winter 2001)

In **KPI Satisfaction**, Music Theatre – Performance graduates at Sheridan College were 19% to 20% above the Provincial and College ratings. This program also rated much higher than the corresponding MCU program (13% higher) and was the same as the Top 10 Programs average.

Music Theatre – Performance's **Overall satisfaction with College preparation for work** rate was very high at 100%. It was 15% to 18% higher than both Province and College, the same as the Top 10 Programs average and 14% higher than the corresponding MCU program.

Music Theatre – Performance's **KPI Employment rate** was 10% to 11% higher than both the College and Provincial averages, 5% higher than its MCU counterpart and the same as the Top 10 Programs average.

When it comes to **job-relatedness**, these graduates rated 11% to 15% lower than the Provincial and College averages, as well as 42% lower than the Top 10 Programs average. Despite this, the Music Theatre – Performance graduates at Sheridan College rated 2% higher than the corresponding MCU program.

When graduates were asked whether their **skills were helpful in getting their job**, this program had lower ratings than the Province and College (by 13% and 12% respectively), and they also rated lower than its corresponding MCU program by 5% and much lower than the Top 10 Programs by 32%.

Top & Bottom Program Rankings

When it came to **recommending their program** Music Theatre – Performance graduates were 5% to 6% more likely to recommend their program than at the Provincial or College level. However, they were 8% less likely to recommend their program than the Top 10 Programs average and 4% less likely to recommend their program than the corresponding MCU program.

When it came to **recommending the College**, Music Theatre - Performance graduates were 4% to 5% more likely to recommend the College than at the Provincial or College level. These graduates rated the same as the Top 10 Programs average and the corresponding MCU program.

Music Theatre – Performance Sheridan College vs. MCU

The Music Theatre – Performance graduates from Sheridan College scored up to 13% higher than its MCU program counterpart for all key survey questions, with 2 exceptions.

The first exception was that Sheridan College Music Theatre – Performance Graduates scored 4% lower in recommending their program. The second exception was that Sheridan College graduates scored 5% lower when it came to skills helpful in getting their job.

Top & Bottom Program Rankings

Police Recruit Ed & Prep (13R0)

This program had a high Satisfaction rate over the four survey periods at 100% and therefore made the top programs list. It has had 41 graduates with 33 survey responses over the four survey periods. Eighty percent of the graduates from this program are represented in the results. This program also made the top programs list for this current survey period (i.e. Summer 2000 through Winter 2001) ranking 1st for the KPI Satisfaction rate.

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Police Recruit Ed & Prep (13R0)	F97 – W01	100%	28	96%	26
	S00 – W01	100%	15	93%	14
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	100%	15	93%	14
Top 10 Programs	S00 – W01	100%	126	100%	149

Benchmark Comparisons (Summer 2000 through Winter 2001)

This program had ratings the same as its **MCU counterpart**, which means it is representing the MCU ratings on its own and therefore there will be no comparisons to make.

In **KPI Satisfaction**, Police Recruit Ed & Prep at Sheridan College was 19% to 20% above the Provincial and College ratings. It was rated the same as the Top 10 Programs average.

In **Overall satisfaction with College preparation for work** Police Recruit Ed. & Prep graduates rated slightly above the College rating (1% higher) and slightly below the Provincial rating (2% lower). The graduates of this program rated 17% lower than the Top 10 Programs average for this key question.

Police Recruit Ed & Prep's **KPI Employment rate** was 3% to 4% higher than the College and Provincial averages; however, it was 7% lower than the Top 10 Programs average.

When it comes to **job-relatedness**, Police Recruit Ed & Prep graduates gave a low rating of 31%. This rating was 30% to 34% lower than the College and Provincial average. This program also rated much lower than the Top 10 Programs average (by 61%). This area is in need of improvement.

When graduates were asked whether their **skills were helpful in getting their job**, this program had lower ratings than the Province and College (16% and 15% respectively) and had much lower ratings than the Top 10 Programs average by 35%.

Top & Bottom Program Rankings

When it came to **recommending their program and the College**, Police Recruit Ed & Prep graduates were 4% to 7% more likely to recommend them than at the College or Provincial level. When comparing to the Top 10 Programs average, these graduates were 7% less likely to recommend the program, but would recommend the College at the same rate (at 100%).

Top & Bottom Program Rankings

Esthetician (1340)

This program had a high Satisfaction rate over the four survey periods at 95% and therefore made the top programs list. It has had 114 graduates with 86 survey responses over the four survey periods. Seventy-five percent of the graduates from this program are represented in the results. This program also made the top programs list for this current survey period (i.e. Summer 2000 through Winter 2001) ranking 1st for the KPI Satisfaction rate.

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Esthetician (1340)	F97 – W01	95%	80	96%	73
	S00 – W01	100%	22	95%	21
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	92%	50	96%	47
Top 10 Programs	S00 – W01	100%	126	100%	149

Benchmark Comparisons (Summer 2000 through Winter 2001)

In **KPI Satisfaction**, Esthetician at Sheridan College was 19% to 20% above the Provincial and College ratings. It was rated the same as the Top 10 Programs average; however, it was much higher than the corresponding MCU program (8% higher).

In **Overall satisfaction with College preparation for work** Esthetician graduates rated 15% to 18% higher than Provincial and College ratings. This program also rated 6% higher than its MCU counterpart and the same as the Top 10 Programs average.

Esthetician's **KPI Employment rate** was 5% to 6% higher than the College and Provincial averages. It was, however 5% lower than the Top 10 Programs average and 1% lower than its MCU counterpart.

Esthetician's rated 100% on **KPI Satisfaction, Overall Satisfaction with college preparation for work, Skills helpful in getting their job, and recommending both the program and the College**. The rating for **KPI Employment and job-relatedness** was 95%. These scores make it one of Sheridan College's strongest programs this current survey period.

The program being **job-related** is a definite strength of this program. A much higher proportion of graduates from the Esthetician at Sheridan College said that their program was job-related in comparison with graduates from the Province and College (30% and 34% respectively). This program also scored 3% higher for job-relatedness than the Top 10 Programs average and 7% higher than the corresponding MCU program.

Top & Bottom Program Rankings

When graduates were asked whether their **skills were helpful in getting their job**, this program rated very high at 100%. This rating was much higher than the Province and College by 20% to 21%. This program also rated slightly higher than the Top 10 Programs average, and 8% higher than its corresponding MCU program.

One hundred percent of the Esthetician graduates would **recommend their program and the College**. These graduates rated 4% to 14% higher than the Provincial and College ratings, and rated the same as the Top 10 Programs average. In comparison with the corresponding MCU program, Esthetician graduates from Sheridan College were 13% more likely to recommend their program and 2% more likely to recommend the College.

Esthetician Sheridan College vs. MCU

Sheridan College Esthetician scored 2% to 13% higher than MCU Esthetician graduates for all key survey questions with one exception.

The exception was that Sheridan College Esthetician Graduates had a 1% lower Employment rate.

Top & Bottom Program Rankings

Early Childhood Education (1190)

This program had a high Satisfaction rate over the four survey periods at 93% and therefore made the top programs list. It has had 621 graduates with 493 survey responses over the four survey periods. Seventy-nine percent of the graduates from this program are represented in the results. This program has had the second largest number of graduates of all the programs at Sheridan College over the past 4 survey periods; the program with the largest number of graduates is Art Fundamentals (with 1,017 graduates). It also made the top programs list for this current survey period (i.e. Summer 2000 through Winter 2001) ranking 2nd for the KPI Satisfaction rate.

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Early Childhood Education (1190)	F97 – W01	93%	434	96%	331
	S00 – W01	96%	154	94%	131
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	93%	1,373	94%	1,109
Top 10 Programs	S00 – W01	100%	126	100%	149

Benchmark Comparisons (Summer 2000 through Winter 2001)

In **KPI Satisfaction**, Early Childhood Education at Sheridan College was 15% to 16% above the Provincial and College ratings. This program was also slightly above the corresponding MCU Program (by 3%). It was, however, slightly below the Top 10 Programs average (4% lower).

In **Overall satisfaction with College preparation for work** Early Childhood Education graduates rated 10% to 13% higher than Provincial and College ratings. This program also rated slightly higher (1%) than its MCU counterpart but rated lower than the Top 10 Programs average by 5%.

Early Childhood Education's **KPI Employment rate** was 4% to 5% higher than both the College and Provincial averages, and was rated the same as its MCU counterpart. This program, however, was 6% lower than the Top 10 Programs average.

This program had a much higher rating than both the Province and College for **job-relatedness** (16% and 20% respectively). It was slightly lower than its MCU counterpart (by 2%) and much lower than the Top 10 Programs average (by 11%).

When graduates were asked whether their **skills were helpful in getting their job**, this program had higher ratings than the Province and College (12% and 13% respectively). Compared to its corresponding MCU program, the graduates at Sheridan College rated slightly higher (1%), but had lower ratings than the Top 10 Programs average (by 7%).

Top & Bottom Program Rankings

When it came to **recommending their program and the College**, Early Childhood Education graduates were 1% to 7% more likely to recommend them than at the College or Provincial level. These graduates rated lower than the Top 10 Programs average by 3% to 7%. In comparison with the corresponding MCU program, Early Childhood Education graduates from Sheridan College were 1% less likely to recommend their program but would recommend the College the same (at 97%).

Early Childhood Education Sheridan College vs. MCU

MCU Early Childhood Education rated about the same as Sheridan College's Early Childhood Education, within 3%.

Top & Bottom Program Rankings

Police Foundations (1101)

This program had a high Satisfaction rate over the four survey periods at 93% and therefore made the top programs list. It has had 90 graduates with 72 survey responses over the four survey periods. Eighty percent of the graduates from this program are represented in the results. This program also made the top programs list for this current survey period (i.e. Summer 2000 through Winter 2001) ranking 5th for the KPI Satisfaction rate.

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Police Foundations (1101)	F97 – W01	93%	70	99%	65
	S00 – W01	93%	44	98%	40
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	84%	848	93%	691
Top 10 Programs	S00 – W01	100%	126	100%	149

Benchmark Comparisons (Summer 2000 through Winter 2001)

In **KPI Satisfaction**, Police Foundations at Sheridan College was 12% to 13% above the Provincial and College ratings. This program was also above the corresponding MCU Program by 9%. It was, however, below the Top 10 Programs average by 7%.

In **Overall satisfaction with College preparation for work** Police Foundations graduates rated 6% to 9% higher than Provincial and College ratings, and also rated 6% higher than its MCU counterpart. This program, however, rated 9% lower than the Top 10 Programs average.

Police Foundations' **KPI Employment rate** was 8% to 9% higher than the College and Provincial averages and 5% higher than its MCU counterpart. This program, however, was slightly lower (2%) than the Top 10 Programs average.

When it comes to **job-relatedness**, Police Foundations graduates gave a low rating of 48%. This rating was 13% to 17% lower than the College and Provincial average. This program also rated much lower than the Top 10 Programs average (by 44%). However, when compared to its MCU counterpart, the graduates at Sheridan College rated 7% higher.

When graduates were asked whether their **skills were helpful in getting their job**, this program had lower ratings than the College and Province by 9% to 10%, and also had a lower rating than the Top 10 Programs average by 29%. When compared to its corresponding MCU program, the graduates at Sheridan College rated 5% higher.

Top & Bottom Program Rankings

When it came to **recommending their program and the College**, Police Foundations graduates were 4% to 7% more likely to recommend them than at the Provincial or College level. In comparison with the corresponding MCU program, Police Foundations graduates from Sheridan College were 2% more likely to recommend their program and 5% more likely to recommend the College.

Police Foundations Sheridan College vs. MCU

Sheridan College Police Foundations scored 2% to 9% higher than the MCU Police Foundations for all key survey questions. KPI Satisfaction was 9% higher for Sheridan College graduates and job-relatedness was 7% higher.

Top & Bottom Program Rankings

Personal Support Worker (1926)

This program had a high Satisfaction rate over the four survey periods at 92% and therefore made the top programs list. It has had 222 graduates with 172 survey responses over the four survey periods. Seventy-seven percent of the graduates from this program are represented in the results. This program also made the top programs list for this current survey period (i.e. Summer 2000 through Winter 2001) ranking 6th for the KPI Satisfaction rate.

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Personal Support Worker (1926)	F97 – W01	92%	128	97%	114
	S00 – W01	92%	61	98%	52
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	93%	1,206	93%	1,075
Top 10 Programs	S00 – W01	100%	126	100%	149

Benchmark Comparisons (Summer 2000 through Winter 2001)

In **KPI Satisfaction**, Personal Support Worker at Sheridan College was 11% to 12% above the Provincial and College ratings. It was, however, below both the Top 10 Programs average (8% lower) and the average for the corresponding MCU program (1% lower).

In **Overall satisfaction with College preparation for work** Personal Support Worker graduates rated 10% to 13% higher than Provincial and College ratings. This program, however, rated slightly lower than its MCU counterpart (by 1%) and lower than the Top 10 Programs average by 5%.

Personal Support Worker's **KPI Employment rate** was 8% to 9% higher than the College and Provincial averages and was 5% higher than its MCU counterpart. This program, however, was slightly lower (2%) than the Top 10 Programs average.

This program had a much higher rating than both the Province and College for **job-relatedness** by 17% and 21% respectively. It was below its MCU counterpart by 4% and also below the Top 10 Programs average by 10%.

When graduates were asked whether their **skills were helpful in getting their job**, this program had higher ratings than the Province and College by 10% to 11%, but had lower ratings than the Top 10 Programs average by 9%. When comparing to its corresponding MCU program, the graduates at Sheridan College rated the same.

Top & Bottom Program Rankings

When it came to **recommending their program and the College**, Personal Support Worker graduates were 2% to 3% more likely to recommend them than at the College or Provincial level. In comparison with the corresponding MCU program, Personal Support Worker graduates from Sheridan College were 6% less likely to recommend their program but 1% more likely to recommend the College.

Personal Support Worker Sheridan College vs. MCU

MCU Personal Support Worker scored 1% to 6% lower than Sheridan College Personal Support Worker for all key survey questions with 3 exceptions.

The first exception was that Sheridan College Personal Support Worker Graduates had a 5% higher Employment rate. Second was that they had the same rating for skills helpful in getting their job, and third was that 1% more Sheridan College Personal Support Worker Graduates would recommend their College.

Top & Bottom Program Rankings

Architectural Technology Co-op (5200)

This program had a high Satisfaction rate over the four survey periods at 92% and therefore made the top programs list. Architectural Technology Co-op has had 68 graduates with 52 survey responses over the four survey periods. Seventy-six percent of the graduates from this program are represented in the results. This program also made the top programs list for this current survey period (i.e. Summer 2000 through Winter 2001) ranking 3rd for the KPI Satisfaction rate.

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Architectural Technology Co-op (5200)	F97 – W01	92%	47	100%	42
	S00 – W01	95%	20	100%	21
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	86%	186	95%	173
Top 10 Programs	S00 – W01	100%	126	100%	149

Benchmark Comparisons (Summer 2000 through Winter 2001)

In **KPI Satisfaction**, Architectural Technology Co-op at Sheridan College was 14% to 15% above the Provincial and College ratings. This program was also 9% above the corresponding MCU program. It was, however, below the Top 10 Programs average by 5%.

In the area of **Overall satisfaction with College preparation for work**, the Architectural Technology Co-op graduates rated quite low at 77%. This rate is 5% to 8% lower than the College and Provincial averages, is 23% lower than the Top 10 Programs average and is 9% lower than the corresponding MCU Program.

Architectural Technology Co-op's **KPI Employment** rate was very high at 100%. It was 10% to 11% higher than the College and Provincial ratings, the same as the Top 10 Programs average and 5% higher than the corresponding MCU program.

When it comes to **job-relatedness**, these graduates rated at a very high rating of 91%. This rating was 26% to 30% higher than the Provincial and College average and 12% higher than its MCU program counterpart. Architectural Technology Co-op graduates rated slightly below the Top 10 Programs average (by 1%).

When graduates were asked whether their **skills were helpful in getting their job**, this program had higher ratings than the Province and College by 11% and 12% respectively, and slightly higher than its MCU program counterpart (by 4%), but had lower ratings than the Top 10 Programs by 8%.

Top & Bottom Program Rankings

When it came to **recommending their program and the College**, Architectural Technology Co-op graduates rated the same or slightly below (1%) the ratings at the Provincial and College level. In comparison with the corresponding MCU program, Architectural Technology Co-op graduates from Sheridan College were 3% less likely to recommend their program but 2% more likely to recommend the College.

Architectural Technology Co-op Sheridan College vs. MCU

Sheridan College Architectural Technology Co-op scored 2% to 12% higher than MCU Architectural Technology Co-op for all key survey questions with 2 exceptions.

The first exception was that Sheridan College Architectural Technology Co-op Graduates had a 9% lower satisfaction with College preparation for work and second was that 3% fewer Sheridan College Architectural Technology Co-op graduates would recommend their program.

Top & Bottom Program Rankings

Office Admin – Executive (2180)

This program had a high Satisfaction rate over the four survey periods at 91% and therefore made the top programs list. It has had 193 graduates with 149 survey responses over the four survey periods. Seventy-seven percent of the graduates from this program are represented in the results. This program also made the top programs list for this current survey period (i.e. Summer 2000 through Winter 2001) ranking 5th for the KPI Satisfaction rate.

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Office Admin – Executive (2180)	F97 – W01	91%	130	93%	121
	S00 – W01	93%	29	93%	27
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	87%	292	85%	259
Top 10 Programs	S00 – W01	100%	126	100%	149

Benchmark Comparisons (Summer 2000 through Winter 2001)

In **KPI Satisfaction**, Office Admin – Executive at Sheridan College was 12% to 13% above the Provincial and College ratings. This program was also above the corresponding MCU Program by 6%. It was however, below the Top 10 Programs average by 7%.

In **Overall satisfaction with College preparation for work** Office Admin – Executive graduates rated 8% to 11% higher than Provincial and College ratings and rated slightly higher than its MCU counterpart (by 1%). This program, however, rated lower than the Top 10 Programs average by 7%.

Office Admin - Executive's **KPI Employment rate** was 3% to 4% higher than the College and Provincial averages, and 8% higher than its MCU counterpart. This program, however, was 7% lower than the Top 10 Programs average.

When it came to **job-relatedness**, these graduates gave a low rating of 60%. This rating was 1% to 5% lower than the College and Provincial average and was much lower than the Top 10 Programs average by 32%. In comparison to its MCU counterpart, the graduates at Sheridan College rated 7% lower. This is an area in need of improvement for this program.

The Office Admin – Executive graduates rated high when it came to their **skills being helpful in getting the job** at 90%. This is a definite strength of this program. These graduates scored 10% to 11% higher than at the Provincial and College level, and were 5% higher than the corresponding MCU Program.

Top & Bottom Program Rankings

When it came to **recommending their program and the College**, Office Admin – Executive graduates were 4% to 11% more likely to recommend them than at the College or Provincial level. In comparison with the corresponding MCU program, Office Admin – Executive graduates from Sheridan College were 4% more likely to recommend their program and 5% more likely to recommend the College.

Office Admin – Executive Sheridan College vs. MCU

Sheridan College Office Admin - Executive scored 1% to 8% higher than MCU Office Admin - Executive for all key survey questions with 1 exception.

The exception was that Sheridan College Office Admin - Executive Graduates had a 7% lower job-relatedness rating than MCU Office Admin – Executive.

Top & Bottom Program Rankings

Bottom Programs

The Bottom Programs for the Sheridan College Graduate Survey were considered to be those with less than 60% KPI Satisfaction and which had at least 20 responses in both the KPI Satisfaction and KPI Employment rates from the Fall 1997 through to the Winter 2001.

Six programs met the criteria for Bottom Programs. These are listed in the table below:

SHERIDAN COLLEGE BOTTOM PROGRAMS		
Programs with less than 60% for Fall 1997 through to Winter 2001	KPI Satisfaction	Responses KPI Satisfaction (must be at least 20)
Electronics Engineering Technology (5120)	59%	34
Computer Programmer (3220)	59%	273
Security System Implementation & Design (1005)	58%	48
Investigation - Public & Private (1002)	56%	82
Logistics - Co-op (2012)	53%	32
Court and Tribunal Agent (1004)	53%	74

For these Bottom Programs, the KPI Employment rate ranged from 86% to 97%. None of these programs were included in the bottom KPI Employment list.

There were an additional 16 programs that had KPI Satisfaction rates between 60% and 70% and had at least 20 responses in both KPI Satisfaction and KPI Employment rates. This means that, a total of 22 programs had KPI Satisfaction rates of 70% or less, with at least 20 responses in both KPI Satisfaction and KPI Employment rates. In other words, about only one quarter of Sheridan College's programs have moderate to low levels of Satisfaction (22 of 86).

Top & Bottom Program Rankings

The Current Year

For comparison purposes we have also listed the bottom programs for the current survey period (i.e. Summer 2000, Fall 2000 and Winter 2001). Please note that most of these programs have low responses, and therefore it is highly likely, that there will be changes in the Bottom Programs list from year to year, because even one respondent's rating will have a large impact on the program's average rate.

The Bottom Programs for this survey period were considered to be those with less than 60% KPI Satisfaction and which had at least 5 responses in both the KPI Satisfaction and KPI Employment rates. Six programs qualified to be Bottom Programs. These are listed in the table below:

Program	KPI Satisfaction	Responses KPI Satisfaction
Journalism - Print (2741)	59%	17
Quality Assurance Mfg. & Mgt. Co-op (5113)	58%	12
Computer Programmer (3220)	58%	76
Interactive Multimedia (3600)	56%	18
Animation Classical (6010)	51%	41
Electronics Engineering Technology Co-op (5300)	50%	10
Logistics - Co-op (2012)	20%	10

The two programs bolded were in the bottom programs for the four survey periods and the current year.

Top & Bottom Program Rankings

Bottom Graduate KPI Employment

There were 4 Programs that had 80% or less Graduate Employment rate and which had 20 or more graduate responses in both the KPI Satisfaction and KPI Employment for the Fall 1997 through to the Winter 2001. These are listed in the table below.

Programs with 80% or less KPI Employment rate for Fall 1997 through to Winter 2001	KPI Employment rate	Responses (Must be 20 or more)	Q20 Job relatedness 'Yes'
Animation - Classical (6010)	80%	76	77%
Quality Assurance Mfg & Mgt Co-op (5113)	80%	25	79%
Journalism - New Media (2747)	74%	23	67%
Corporate Communications Co-op (2019)	71%	21	72%

The KPI Employment rate for these programs ranged from 71% to 80%, which, although considered to be the bottom programs in this category, are relatively high.

Although the graduates of these 4 programs have lower employment rates overall, they all have relatively high job-relatedness, ranging from 67% to 79%. Since job-relatedness has a '*Strong*' relationship with KPI Satisfaction, this may be the reason that these programs are not part of the bottom programs for KPI Satisfaction.

The following analysis is a brief examination of Sheridan College bottom programs. The programs examined include those that were Bottom programs in both the combined survey periods (Fall 1997 through Winter 2001) and the current survey period (Summer 2000 through to Winter 2001).

Top & Bottom Program Rankings

Computer Programmer (3220)

This program had a low KPI Satisfaction rate over the four survey periods of 59% and therefore is considered a bottom program. It has had 437 graduates with 322 survey responses over the four survey periods. Seventy-four percent of the graduates from this program are represented in the results. This program was also a bottom program for this current survey period (i.e. Summer 2000, Fall 2000 and Winter 2001) having the fifth lowest KPI Satisfaction rating among programs.

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Computer Programmer (3220)	F97 – W01	59%	273	90%	240
	S00 – W01	58%	76	88%	66
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	68%	649	75%	591
Bottom 10 Programs	S00 – W01	56%	258	73%	146

Benchmark Comparisons (Summer 2000 through Winter 2001)

In general, this program had ratings that were lower than the Province, College and corresponding MCU program but were higher than the Bottom 10 Programs average.

In **KPI Satisfaction**, Computer Programmer at Sheridan College was 22% to 23% below the College and Provincial ratings and it was 10% below the corresponding MCU program ratings. These are very large differences in KPI Satisfaction and definitely leave much room for improvement. This program was, however, 2% above the Bottom 10 Programs average.

The same pattern is seen in **Overall satisfaction with College preparation for work**. Computer Programmer graduates rated 22% to 34% lower than Provincial, College and MCU program ratings, however, rated slightly higher than the Bottom 10 Programs average (by 1%).

Computer Programmer's **KPI Employment rate** was just slightly lower than the College and Provincial averages by 1% to 2%. It was, however, 13% higher than its MCU counterpart and 15% higher than the Bottom 10 Programs average.

This program had a much lower rating than both the College and Province for **job-relatedness** by 35% to 39%. It also had a 25% lower rating than its corresponding MCU program. It did, however, rate 3% higher than the Bottom 10 Programs average.

Top & Bottom Program Rankings

When Computer Programmer graduates were asked whether their **skills were helpful in getting their job**, they rated much lower than the College and Provincial averages by 26% to 27%, and 18% below the corresponding MCU program. This program, however, rated the same helpfulness rating as the Bottom 10 Programs average.

When it came to **recommending their program and College**, Computer Programmer graduates were less likely to recommend their program than to recommend the College. Twelve percent to 24% less would recommend their program than at the Provincial level, College level and with the corresponding MCU program whereas, only 0% to 5% less would recommend the College. The Computer Programmer rating for recommending their program was 4% higher than the Bottom 10 Programs average, and was 12% higher for recommending the College than the Bottom 10 Programs average.

Computer Programmer Sheridan College vs. MCU

Computer Programmer at Sheridan College had lower ratings in all of the key survey questions than its corresponding MCU program with 2 exceptions.

The first exception is KPI Employment Rate where Sheridan College Computer Programmer graduates scored 13% higher and Graduates willing to recommend their college, which was 5% higher than the corresponding MCU program.

Top & Bottom Program Rankings

Logistics – Co-op (2012)

This program had a low KPI Satisfaction rate over the four survey periods of 53% and therefore is considered a bottom program. It has had 47 graduates with 38 survey responses over the four survey periods. Eighty-one percent of the graduates from this program are represented in the results. This program was also a bottom program for this current survey period (i.e. Summer 2000, Fall 2000 and Winter 2001) having the lowest KPI Satisfaction rating among programs (at 20%).

		KPI Satisfaction rate	Responses in KPI Satisfaction rate	KPI Employment rate	Responses in KPI Employment rate
Logistics – Co-op (2012)	F97 – W01	53%	32	93%	30
	S00 – W01	20%	10	100%	11
College	S00 – W01	80%	2,617	90%	2,205
Province	S00 – W01	81%	30,790	89%	25,382
MCU Program	S00 – W01	63%	24	96%	22
Bottom 10 Programs	S00 – W01	56%	258	73%	146

Benchmark Comparisons (Summer 2000 through Winter 2001)

In **KPI Satisfaction**, Logistics – Co-op at Sheridan College was much lower than the College and Provincial ratings by 60% to 61%. It was lower than the Bottom 10 Programs average and corresponding MCU program ratings by 36% and 43% respectively. These are very large differences in KPI Satisfaction and definitely leave much room for improvement. It is clear that the graduates from this program are not 'Satisfied', with a satisfaction rating of 20%, however, because there are few graduates from this program included in this current survey period (only 10), even one respondent's rating will have a large impact on the program's average rating.

The same pattern exists in **Overall satisfaction with College preparation for work**. Logistics - Co-op graduates rated 64% to 67% lower than the College and Provincial ratings. It also rated 32% below the Bottom 10 Programs average and 39% below the MCU program ratings.

Logistics – Co-op graduates' **KPI Employment** rate for the current survey period was very high at 100%. It was 10% to 11% higher than the College and Province, 27% higher than the Bottom 10 Programs average and 4% higher than the corresponding MCU program.

Logistics – Co-op had a fairly high **job-relatedness** rating for a Bottom Program (73%). This rating was 8% to 12% higher than the Provincial and College average. It was also much higher than the Bottom 10 Programs average by 50%. This program, however, was slightly below the corresponding MCU program by 4%.

Top & Bottom Program Rankings

Logistics – Co-op graduates did not rate quite so low when graduates were asked whether their **skills were helpful in getting their job**. This program rated slightly above the Provincial and College averages by 2% to 3% and 29% higher than the Bottom 10 Programs average. It was, however, below the corresponding MCU program by 4%.

When it came to **recommending their program**, Logistics – Co-op graduates were less likely to recommend their program than at the Provincial level, College level, the Bottom 10 Programs average and with the corresponding MCU program by 32% to 60%.

When it came to **recommending their College**, Logistics – Co-op graduates were less likely to recommend their College than at the Provincial level (22% lower), the College level (23% lower), the Bottom 10 Programs average (by 10%) and the corresponding MCU program (by 11%).

Logistics – Co-op Sheridan College vs. MCU

Logistics – Co-op at Sheridan College had lower ratings in all of the key survey questions than its corresponding MCU program, except for KPI Employment, which was 4% higher.

The biggest difference was in the KPI Satisfaction rate where Logistics - Co-op graduates at Sheridan College were 43% less satisfied than the MCU program. In all other key questions, Logistics – Co-op at Sheridan College scored between 4% and 39% lower.

College Trends

General

This section indicates the progressions or digressions being made by the College by looking at how ratings have changed over the four survey periods.

There was a significant change in the scale of the survey in the Summer 1998 through to the Winter 1999 survey period. This had a dramatic effect on graduate satisfaction ratings. Therefore, in this section, analysis will be focussed on the changes in the last 3 survey periods from which time the scale has been consistent.

Appendix 6 displays the College's trends in easy-to-read tables for the four survey periods.

KPI Satisfaction rate and KPI Employment rate

The KPI Graduate Satisfaction rate increased by 3% between the 1998/1999 and 1999/2000 periods but for this current survey period, it has remained fairly stable decreasing by 1%.

The KPI Employment rate remained constant for the first three survey periods, however, for this current survey period, it has dropped by 3%.

Survey Year	KPI Graduate Satisfaction rate	KPI Graduate Employment rate
1997/1998	70%	93%
1998/1999	78%	93%
1999/2000	81%	93%
2000/2001	80%	90%

College Trends Between Fall 1997 & Winter 2001

Satisfaction Ratings

The table below shows graduate satisfaction ratings for various aspects of College programs for the four survey periods.

The rating that has had the largest increase (by 5%) from the last survey period was 'Equipment was up-to-date'. This aspect also had a 2% increase from the 1998/1999 survey period to the 1999/2000 survey period.

Another significant improvement occurs with 'Courses were up-to-date'. Since the 1998/1999 survey period, satisfaction has increased 5% at the College.

'Preparation for the job market' has decreased slightly (by 3%) from the 1999/2000 survey period to the 2000/2001 survey period. This was after the rating of satisfaction had increased by 6% from the 1998/1999 survey period to the 1999/2000 survey period. And because 'Preparation for the job market' has a 'Very Strong' relationship with the KPI Satisfaction, this aspect is in need of attention.

The greatest decrease from the last survey period to the current one (by 9%) was 'Skills developed in Co-op, clinical field placement experience, and career placement services'. The reason for this is due to the change in the wording of this question for the current survey period from 'Skills developed in courses' in previous survey periods.

Q22 "Thinking about the demands of this job, how satisfied are you with each of the following aspects of your program?"	1997/1998 Graduate Satisfaction	1998/1999 Graduate Satisfaction	1999/2000 Graduate Satisfaction	2000/2001 Graduate Satisfaction	Difference between 1999/2000 & 2000/2001
22A. Course content	67%	80%	84%	84%	0%
22B. Courses were up-to-date	74%	83%	86%	88%	+2%
22C. Overall quality of instruction	69%	81%	83%	83%	0%
22D. Equipment was up-to-date	66%	76%	78%	83%	+5%
22E. Preparation for the job market	57%	71%	77%	74%	-3%
22F. Skills developed in Co-op, clinical, field placement experience, and career placement services*	75%	86%	89%	80%	-9%

* This question changed for the 2000/2001 survey period. For previous survey periods it was 'Skills developed in courses'

College Trends Between Fall 1997 & Winter 2001

The table below shows graduate satisfaction ratings for various skills and abilities linked with educational preparation.

Graduate satisfaction has remained fairly stable over the last three survey periods with many skills and abilities having slight increases from the last survey period.

Both 'Critical thinking' and 'Problem solving' have increased by 2% in satisfaction from the 1999/2000 survey period to the 2000/2001 survey period, and they have also increased another 2% in satisfaction from the 1998/1999 survey to the 1999/2000 survey period. 'Productivity' has also seen a 2% increase from the 1999/2000 survey period to the current survey period.

Although satisfaction with 'Math skills' has remained constant since the last survey period of 1999/2000 (at 65%), it increased 5% from the 1998/1999 survey period to the 1999/2000 survey period.

Q32 "When you first started working after graduation how satisfied were you with your educational preparation for the following skills and abilities."	1997/1998 Graduate Satisfaction	1998/1999 Graduate Satisfaction	1999/2000 Graduate Satisfaction	2000/2001 Graduate Satisfaction	Difference between 1999/2000 and 2000/2001
A. Specific job-related knowledge	66%	77%	79%	79%	0%
B. Specific job-related skills	66%	79%	80%	80%	0%
C. Oral communication	76%	85%	86%	87%	+1%
D. Written communications	66%	81%	83%	84%	+1%
E. Comprehension	75%	87%	88%	89%	+1%
F. Math skills	39%	60%	65%	65%	0%
G. Computer skills	65%	74%	77%	77%	0%
H. Critical thinking	73%	83%	85%	87%	+2%
I. Problem solving	75%	84%	86%	88%	+2%
J. Research and analysis	62%	74%	77%	78%	+1%
K. Teamwork	82%	88%	90%	90%	0%
L. Organization and planning	79%	85%	86%	87%	+1%
M. Time management	76%	82%	85%	85%	0%
N. Quality of work	78%	87%	88%	87%	-1%
O. Productivity	75%	84%	84%	86%	+2%
P. Creative and Innovative	66%	76%	79%	80%	+1%
Q. Adaptable	72%	85%	86%	85%	-1%
R. Responsible	83%	88%	89%	89%	0%

College Trends Between Fall 1997 & Winter 2001

Job-Relatedness

When it came to the job-relatedness of programs, there was a 2% decrease of graduates reporting that their jobs are related to the program from which they graduated from the 1999/2000 survey period to the current 2000/2001 survey period. This is after a 4% increase between the 1998/1999 survey period and the 1999/2000 survey period. Despite the decrease, the current survey period had 61% of Sheridan College graduates say 'Yes' that their jobs were related to their program compared to 59% in the 1998/1999 survey period, which is a 2% increase over the 2 survey periods.

The decrease in job-relatedness in the current year is a factor that should be monitored, as it was a '*Strong*' driver of KPI Satisfaction.

The same trend can be seen with job-relatedness at the Provincial level where it dropped by 2% from 67% to 65%, in this current survey period after it had climbed 2% before that.

When graduates were asked, "To what extent did the skills you developed during college help you get your job?", 79% answered 'Helpful' or 'Extremely helpful' which is 2% less than in the last survey period 1999/2000. This is after a 5% increase in helpfulness from the 1998/1999 survey period to the 1999/2000 survey period (from 76% to 81%).

Demographic Trends

As can be seen in the table on the following page, the most significant change in demographics between this survey period and the last was the 6% decrease in the percentage of graduates who were 'attending an educational institution on a full-time or part-time basis at Sheridan College' during reference week. Since the 1998/1999 survey period, the percentage of students at Sheridan College full-time or part-time', during reference week, has decreased by 9%.

Another significant decrease (by 6%) in demographics from the last survey period to the current one was the percentage of graduates who said that they were 'Employed or self-employed'. This was compensated by a higher percentage of graduates who were 'Unemployed and looking for a job' and 'Employed but looking for another job'. Up until the current survey period, the employment demographics of the graduates at Sheridan College were fairly stable.

There was a 3% increase for this survey period in the number of graduates who reported having 'Two jobs' and a 4% decrease in the number who reported having 'One job'.

College Trends Between Fall 1997 & Winter 2001

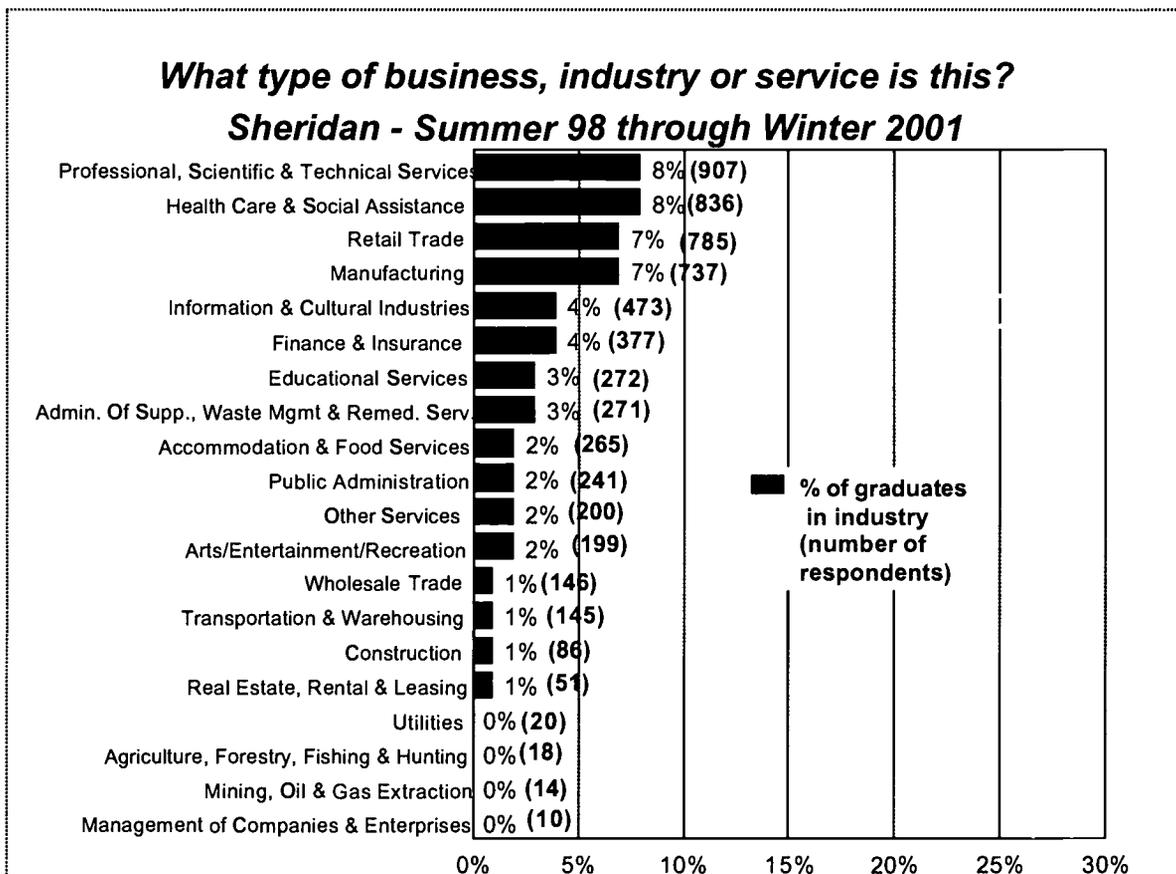

The table below presents demographic results for the last four survey periods. The current year is highlighted in the last column.

College Demographic Information	1997/ 1998	1998/ 1999	1999/ 2000	2000/ 2001
Number of graduates included in KPI Satisfaction rate	1,868	2,080	2,396	2,617
Number of graduates included in KPI Employment rate	1,531	1,622	1,938	2,205
Completion rate (number of completed surveys/total number of graduates)	75%	72%	72%	73%
Response rate [number of completed surveys/number of valid graduates available for surveying (e.g. a valid telephone number was available, etc.)]	86%	82%	83%	84%
Q1 Percentage of graduates attending an educational institution on a full-time basis	20%	21%	18%	15%
Q1 Percentage of graduates attending an educational institution on a part-time basis	4%	5%	5%	5%
Q1 Percentage of graduates not attending an educational institution during the reference week	76%	74%	77%	80%
Q2 Percentage of graduates who were attending an educational institution on a full-time or part-time basis at Sheridan College	51%	53%	50%	44%
Q6 Percentage of graduates who were: 'Employed or self-employed'	83%	83%	82%	76%
Q6 : 'Employed but looking for another job'	7%	8%	8%	12%
Q6 : 'Not employed but had accepted a job to start shortly'	0%	0%	1%	1%
Q6 : 'Not employed but looking for a job'	7%	7%	6%	9%
Q6 : 'Not employed but not looking for a job'	3%	3%	3%	2%

Analysis by Industry

Graduate responses were sorted into North American Industry Classification System (NAICS) Sectors. The NAICS system is used to classify businesses across Canada, the USA and Mexico. This section of the report will determine in which industries graduates from the College are getting employment, what characteristics these industries have and how graduates from the different industries rate the College.

Data from the Summer of 1998 through to Winter 2001 was used in this analysis to provide a large number of cases. Over this time period 6,053 graduates provided an answer to "What type of business, industry or service is this?" The chart below lists all the industries applicable to the College, and gives the number of graduate responses in each, along with the proportion of the total responses.

The tables and charts in Appendix 8 provide details of this Analysis. The industries with 5% or more of the total graduate responses, of which there were four, were examined in some detail on the following pages.

Analysis by Industry

PROFESSIONAL, SCIENTIFIC & TECHNICAL SERVICES

This industry employs the largest proportion of Sheridan College graduates. Professional, Scientific & Technical Services had a KPI Satisfaction rate and overall satisfaction with College preparation rate of 83%. Eighty-eight percent of these graduates stated that the skills they developed in College were 'Helpful' in getting their job. Most of these graduates work '30 to 49 hours' per week (88%), have a gross starting salary of '\$20,000-\$39,999' (73%) and needed a 'College' education to get their job (54%).

- The Professional, Scientific & Technical Services industry employed 8% of Sheridan College graduates over the past 4 survey periods. This includes 907 graduates since the Summer of 1998.
- This industry had a KPI Satisfaction rating of 83%, which was the 6th highest among the industries. It also had an overall satisfaction with College preparation of 83%.
- Graduates from Professional, Scientific & Technical Services were 76% to 84% 'Satisfied' in all aspects of their programs. The highest of these were 'Skills developed in Co-op, clinical, field placement experience, and career placement services' along with 'Courses were up-to-date', both of which had 84% satisfaction.
- It was evident from the results that 14 skills and abilities are 'Important' to more than 90% of the graduates employed in this industry. Of note, 98% of graduates in this industry indicated that both 'Quality of work' and 'Responsible' were 'Important', and 97% indicated that both 'Productivity' and 'Comprehension' were 'Important'. The lowest rated skills and abilities included 'Math skills' with a 53% importance rating and 'Research and analysis' with a 76% importance rating. For a complete listing of these and other factors see Appendix 8, Table 6.
- The majority (61%) of Professional, Scientific & Technical Services graduates work between '40 - 49 hours' per week. Twenty-seven percent work between '30 - 39 hours' per week.
- Fifty-four percent of Professional, Scientific & Technical Services graduates indicated that they needed a 'College' education to get their job.
- The majority (73%) of graduates from this industry indicated that their gross starting salary was between '\$20,000 to \$39,999', however, 14% said they made more than '\$40,000' and 13% said that they made '\$19,999 or less'.
- Eighty-eight percent of Professional, Scientific & Technical Services graduates said that the skills they developed in College helped them to get their job. This is the second highest helpfulness rating of the industries behind Health Care & Social Assistance and Educational Services.
- Ninety percent of Professional, Scientific & Technical Services graduates would recommend their program and 97% would recommend the College.

Analysis by Industry

HEALTH CARE & SOCIAL ASSISTANCE

This industry employs the second largest proportion of Sheridan College graduates. It has the highest KPI Satisfaction rate of all the industries with 90% and the second highest overall satisfaction with College preparation at 91%. The College is doing a good job of preparing students for employment in this industry with high satisfaction ratings across the board. The majority of graduates in the Health Care & Social Assistance industry work '40 - 49 hours' per week (45%), needed a 'College' education to get their job (65%), and make '\$10,000 to \$29,999' as a gross starting salary (72%).

- The Health Care & Social Assistance industry employed 8% of Sheridan College graduates over the past 4 survey periods. This includes 836 graduates since the Summer of 1998.
- This industry was tied with Utilities for the highest KPI Satisfaction rate among the industries at 90%. This industry also had a high overall satisfaction with College preparation at 91%. This is the second highest among the industries.
- Graduates from Health Care & Social Assistance were most 'Satisfied' with the fact that their 'Courses were up-to-date' with a 94% satisfaction rate. Graduates from this industry were 83% to 94% 'Satisfied' in all aspects of their programs.
- There were 10 other skills and abilities that over 90% of Health Care & Social Assistance graduates said were 'Important'. Of note, 100% of graduates from this industry indicated that being 'Responsible' was 'Important' in performing their work, and 99% indicated that 'Oral communication' and 'Quality of work' was 'Important' in performing their work. The lowest importance ratings for this industry were in 'Math skills' (39%), 'Computer skills' (50%) and 'Research and analysis' (63%). See Appendix 8, Table 6 for details.
- The majority of Health Care & Social Assistance graduates work between '40 - 49 hours' per week (45%). Thirty-three percent of graduates in this industry work '30 - 39 hours' per week.
- Sixty-five percent of Health Care graduates indicated that they needed a 'College' education to get their job.
- The majority (72%) of graduates from this industry indicated that their gross starting salary was between '\$10,000 to \$29,999'; however, 18% indicated that their starting salary was '\$30,000 to \$39,000', 6% indicated that their salary was 'Less than \$10,000' and 5% said 'greater than \$40,000'. This is due to the wide range of jobs in the Health Care & Social Assistance industry.
- Health Care & Social Assistance had the highest rating among all of the industries for the 'helpfulness' of the 'skills they developed in college in getting their job' with a rating of 91%, along with Educational Services.
- Ninety-three percent of Health Care & Social Assistance graduates would recommend their program and 97% would recommend the College.

Analysis by Industry

RETAIL TRADE

Ratings for the Retail Trade industry were low for KPI Satisfaction rate (at 68%), overall satisfaction with College preparation (74%) and the 'Helpfulness' of the skills they developed at College to get their job (60%). Most of the graduates from this industry work '40 - 49 hours' per week (51%), needed 'High school' education to get their job (39%) and earn '\$10,000 - \$29,999' as a gross starting salary (70%).

- The Retail Trade industry employed 7% of Sheridan College graduates over the past 4 survey periods. This includes 785 graduates since the Summer of 1998.
- This industry had a low KPI Satisfaction rate of 68%. This was the second lowest among the industries. This industry had an overall satisfaction with College preparation of 74%.
- Graduates from Retail Trade were 79% to 85% Satisfied' in all aspects of their program with one exception. This exception was in 'Preparation for the job market' where only 69% of graduates said they were 'Satisfied'. This is an area for improvement as 'Preparation for the job market' has a 'Very Strong' relationship with the KPI Satisfaction rate. The highest rated aspect of their program was Courses were up-to-date' at 85%.
- There were 8 skills and abilities that more than 90% of graduates from this industry indicated were 'Important' in performing their work. The highest of these were: 'Responsible' with 97% 'Important', and 'Oral communication' and 'Teamwork', both with 95% 'Important'. The lowest rated skills and abilities include 'Research and analysis' with a 53% importance rating and 'Math skills' with a 60% importance rating. For a complete listing of these and other factors see Appendix 8, Table 6.
- The majority (51%) of Retail Trade graduates work between '40 - 49 hours' per week. Twenty-eight percent work '30 - 39 hours' per week, and 20% work 'Less than 30 hours' per week. Graduates in this industry work fewer hours than in the average industry.
- Thirty-nine percent of Retail Trade graduates indicated that they needed 'High School' education to get their job, 14% said that they needed 'No qualifications', and 25% said that they needed 'College'.
- The majority (70%) of graduates from this industry indicated that they had a gross starting salary of '\$10,000 - \$29,999'. Fourteen percent said '\$30,000 - \$39,999' and 13% said 'Less than \$10,000'. This is the highest proportion of graduates starting at 'Less than \$10,000' of all the industries.
- Only 60% of Retail Trade graduates said that the skills they developed in College helped them get their job. This is the fourth lowest rating among the industries.
- Eighty-five percent of Retail Trade graduates would recommend their program and 96% would recommend the College.

Analysis by Industry

MANUFACTURING

Manufacturing graduates had a KPI Satisfaction rate of 79% and 84% of the graduates in this industry were 'Satisfied', overall, with their College preparation for work. The majority of the graduates in this industry needed a 'College' education to get their job (44%), work '40 to 49 hours' per week (76%) and make '\$20,000 - \$39,999' as their gross starting salary (73%).

- The Manufacturing industry employed 7% of Sheridan College graduates over the past 4 survey periods. This includes 737 graduates since the Summer of 1998.
- Manufacturing has a KPI Satisfaction rate of 79%, which is 7th highest among the industries. Eighty-four percent of the graduates in this industry were 'Satisfied', overall, with College preparation for work.
- Graduates from Manufacturing were 74% to 86% 'Satisfied' in all aspects of their program. 'Preparation for the job market' was rated the lowest at 74%, and this would be a good area to improve as it has a 'Very Strong' relationship to KPI Satisfaction.
- There were 10 skills and abilities that 90% or more Manufacturing graduates indicated were 'important' to them in performing their work. The highest of these were: 'Quality of work' and 'Responsible' with a 97% importance rating and 'Productivity' with a 95% importance rating. The lowest rated skills and abilities in this industry include 'Math skills' with a 62% importance rating, 'Research and analysis' with a 66% importance rating and 'Creative and Innovative' with a 69% importance rating. Complete details can be seen in Appendix 8, Table 6.
- The majority of Manufacturing graduates work between '40-49 hours' per week (76%). Only 3% of these graduates work either 'less than 30 hours' per week or '50 hours or more' per week.
- Forty-four percent of Manufacturing graduates indicated that they needed a 'College' education to get their job and 15% indicated that they needed a 'University' education to get their job.
- The majority (73%) of Manufacturing graduates indicated that their gross starting salary was between '\$20,000 to \$39,999', however, 19% said that they made 'more than \$40,000' and 7% said they made between '\$10,000 to \$19,999'. Many of these graduates are making above average starting salaries.
- Eighty-two percent of Manufacturing graduates said that the skills they developed in College helped them get their job.
- Eighty-eight percent of Manufacturing graduates would recommend their program and 94% would recommend the College.

APPENDIX 2 - Drivers of Satisfaction (Correlations)

CORRELATIONS - General

- Correlational analysis has been conducted to determine which factors are most highly related to the KPI Satisfaction Question 34 “How would you rate your satisfaction with the usefulness of your college education in achieving your goals after graduation?” and to Question 33 “How would you rate your overall satisfaction with the college preparation for the type of work you were doing?”. Factors analyzed include other related questions and demographics. It should be noted that correlations do not prove that one factor causes another factor, but rather establishes that the two factors are related. An experiment would be required to determine a causal relationship. In a fictitious example where factor A is highly related to factor B, it is not statistically known whether A causes B, or B causes A, or whether C, a separate factor, causes both A and B. Hence, a certain amount of judgement must be employed in interpreting correlational results.
- Correlations in this report were determined by hypothesizing that there is no relationship between the two factors under study and employing the chi-square test at the 95% confidence level to find evidence against the hypothesis. The Pearson’s R statistic has been displayed in the tables as a measure of the strength of the correlation and the ranking is based on this statistic. Correlations with Pearson’s R values of 0.4 or more were considered ‘*Very Strong*’, between 0.3 and 0.4 they were considered ‘*Strong*’ and less than 0.3 they were termed ‘*Moderate/Weak*’.
- Some key percentages are displayed in the correlation tables to demonstrate the relationship in a simple and less technical manner (e.g. percentage of graduates who were satisfied in question X if they were satisfied in question Y, versus percentage satisfied in question X if they were dissatisfied in question Y). The difference between these two percentages is another way to appreciate the strength of the correlation. The ranking of factors by either the percentage difference or the Pearson’s R usually lead to the same conclusions.
- This year the Fall 1997 through Winter 2001 data was combined to provide a larger number of cases. All graduates were used in the analysis so long as they answered the necessary questions.

APPENDIX 2 – Correlation KPI Question 34 (F97 - W01)

Table 1 “How would you rate your satisfaction with the usefulness of your college education in achieving your goals after graduation?”

Satisfaction with educational preparation of following skills and abilities	Ranking	Pearson's R	Chi-Square	% Satisfied in Q34 if Satisfied in Q32 A to R	% Satisfied in Q34 if 'Not Satisfied' in Q32 A to R	Difference in Satisfaction
32B. Specific job-related skills	1	.417	1356	87%	37%	50%
32A. Specific job-related knowledge	2	.416	1326	88%	40%	48%
32N. Quality of work	3	.340	888	83%	34%	49%
32O. Productivity	4	.335	857	84%	32%	52%
32Q. Adaptable	5	.322	809	84%	33%	51%
32I. Problem solving	6	.319	761	83%	37%	46%
32E. Comprehension	7	.307	760	83%	33%	50%
32L. Organization and planning	8	.297	667	83%	43%	40%
32P. Creative and Innovative	8	.297	687	84%	45%	39%
32H. Critical thinking	10	.295	635	83%	39%	44%
32R. Responsible	11	.275	562	82%	34%	48%
32M. Time management	12	.273	589	82%	43%	39%
32J. Research and analysis	13	.266	522	84%	48%	36%
32C. Oral Communication	14	.263	537	82%	43%	39%
32D. Written Communications	15	.246	450	83%	45%	38%
32K. Teamwork	16	.242	462	81%	44%	37%
32G. Computer Skills	17	.235	427	83%	58%	25%
32F. Math Skills	18	.228	358	84%	59%	25%

NOTE:

Correlations with Pearson's R values of 0.4 or more were considered 'Very Strong', between 0.3 and 0.4 they were considered 'Strong' and less than 0.3 they were termed 'Moderate/Weak'. Pearson's R is a measure of the strength of correlation between two variables. Questions were ranked by Pearson's R values.

APPENDIX 2 – Correlation KPI Question 34 (F97 - W01)

Table 2 “How would you rate your satisfaction with the usefulness of your college education in achieving your goals after graduation?”

Satisfaction with the following aspects of program	Ranking	Pearson's R	Chi-Square	% Satisfied in Q34 if Satisfied in Q22 A to F	% Satisfied in Q34 if 'Not Satisfied' in Q22 A to F	Difference in Satisfaction
22E. Preparation for the job market	1	.458	1736	88%	38%	50%
22F. Skills developed in Co-op, clinical, field placement experience, and career placement services *	2	.375	1117	84%	38%	46%
22A. Course Content	3	.370	1140	84%	36%	48%
22C. Overall quality of instruction	4	.341	945	84%	38%	46%

22F. Skills developed in Co-op, clinical, field placement experience, and career placement services*	4	.427	1310	87%	35%	52%
22B. Courses were up-to-date	5	.393	1196	86%	34%	52%
22D. Equipment was up-to-date	6	.256	486	85%	55%	30%

* This question changed for the S00 - W01 survey period. In previous survey periods it was 'Skills developed in courses'.

NOTE:

Correlations with Pearson's R values of 0.4 or more were considered '*Very Strong*', between 0.3 and 0.4 they were considered '*Strong*' and less than 0.3 they were termed '*Moderate/Weak*'. Pearson's R is a measure of the strength of correlation between two variables. Questions were ranked by Pearson's R values.

APPENDIX 2 – Correlation Question 35 (F97 - W01)

Table 5 “Would you recommend your Program to someone else or not?”

Satisfaction with educational preparation of following skills and abilities	Ranking	Pearson's R	Chi-Square	% 'Yes' in Q35 if Satisfied in Q32 A to R	% 'Yes' in Q35 if 'Not Satisfied' in Q32 A to R	Difference in Satisfaction
32B. Specific job-related skills	1	.293	580	93%	62%	31%

* This question changed for the S00 - W01 survey period. In previous survey periods it was 'Skills developed in courses'.

NOTE:

Correlations with Pearson's R values of 0.4 or more were considered 'Very Strong', between 0.3 and 0.4 they were considered 'Strong' and less than 0.3 they were termed 'Moderate/Weak'. Pearson's R is a measure of the strength of correlation between two variables. Questions were ranked by Pearson's R values.

APPENDIX 3 –KPI Statistical Accuracy Table (F97 - W01)

Table 1 This table presents all the programs from Fall 1997 through Winter 2001 listed alphabetically. The college level results in this report can be treated as accurate to within +/- 1.5% at the 95% confidence level (based on the worst case scenario). Results at the program level range significantly depending on the return rate – accuracy increases with a larger sample (number of surveys). A program with 20 surveys of 25 students would be accurate to within 5-10%, depending upon the result (e.g. satisfaction results at the high end or low end are statistically more accurate than are results around the 50% mark).

PROGRAM	Prg. Code	KPI Grad. Satis. Rate	KPI Employ -ment rate	Total Grads	Survey Responses	% of Grads rep. in results	Worst case scenario +/- % Accuracy at 95% confidence level

APPENDIX 3 –KPI Statistical Accuracy Table (S00 - W01)

Table 2 This table presents all the programs from Summer 2000 through Winter 2001 listed alphabetically. The college level results in this report can be treated as accurate to within +/- 1.5% at the 95% confidence level (based on the worst case scenario). Results at the program level range significantly depending on the return rate – accuracy increases with a larger sample (number of surveys). A program with 20 surveys of 25 students would be accurate to within 5-10%, depending upon the result (e.g. satisfaction results at the high end or low end are statistically more accurate than are results around the 50% mark).

PROGRAM	Prg. Code	KPI Grad. Satis. Rate	KPI Employ-ment Rate	Total Grads.	Survey Res-ponses	% of Grads rep. in results	Worst case scenario +/- % Accuracy at 95% confidence level

APPENDIX 5 – College Bottom Programs – MCU Comparison

Table 2 This table displays the Summer 2000 through Winter 2001 ratings for Bottom programs which made both the Bottom list for Fall 1997 through Winter 2001 and Summer 2000 through Winter 2001 shaded in gray. In comparison you can see the Summer 2000 through Winter 20001 ratings for the MCU program which corresponds to each program not shaded.

Program Name & Code	KPI Satisfaction rate	KPI Employment rate	Q33 Overall satisfaction with college prep. for work	Q35 Would Recommend Program	Q37 Would Recommend College	Q20 Job-related to Program? 'Yes'	Q21 Skills helpful in getting job
Computer Programmer (3220)	58% (76)	88% (66)	51%	63%	95%	26%	53%
50503 Computer Programmer	68% (649)	75% (591)	73%	75%	90%	51%	71%
Logistics - Co-op (2012)	20% (10)	100% (11)	18%	27%	73%	73%	82%
78902 Logistics	63% (24)	96% (22)	57%	60%	84%	77%	86%

Note: The numbers in brackets in the KPI Satisfaction rate and Employment rate columns refer to the number of respondents.

APPENDIX 6 – Graduate Satisfaction Trends – Results from the four Survey Periods

- The following three tables present a comparison in College ratings for the four survey periods.
- Notice that the large increase in graduate satisfaction ranging from 8% between 97/98 and 98/99 was due to the significant change in the scale made in the survey. Scales in Fall 97 and Winter 98 were defined by the end points only (e.g. 1 – ‘Very Dissatisfied’ and 5 – ‘Very Satisfied’, whereas from Summer 98 onwards each of the five points were explicitly defined).

Table 1 This table compares the graduate satisfaction rates from the three survey periods for the following survey questions:

Graduate Satisfaction Trends	KPI Satisfaction rate	KPI Employment rate	Q33 Overall satisfaction with college preparation for work	Q35 Would Recommend Program	Q37 Would Recommend College	Q20 Job related to Program? ‘Yes’	Q21 Skills helpful in getting job
1997/1998 Graduate Satisfaction	70%	93%	69%	89%	97%	60%	59%
1998/1999 Graduate Satisfaction	78%	93%	81%	88%	96%	59%	76%
1999/2000 Graduate Satisfaction	81%	93%	84%	88%	96%	63%	81%
2000/2001 Graduate Satisfaction	80%	90%	82%	86%	96%	61%	79%

APPENDIX 6 – Graduate Satisfaction Trends – Results from the four Survey Periods

Table 2 This table compares the graduate satisfaction rates for Question 32 from the four survey periods. Q32 “When you first started working after graduation how satisfied were you with your educational preparation for the following skills and abilities.”

	Graduate Satisfaction				Graduate Neither Satisfied nor Dissatisfied				Graduate Dissatisfaction			
	1997/1998	1999/2000	2000/2001	2000/2001	1997/1998	1998/1999	1999/2000	2000/2001	1997/1998	1998/1999	1999/2000	2000/2001
A. Specific job-related knowledge	66%	77%	79%	79%	21%	13%	12%	13%	13%	10%	9%	9%
B. Specific job-related skills	66%	79%	80%	80%	22%	12%	12%	13%	12%	9%	7%	7%
C. Oral communication	76%	85%	86%	87%	19%	10%	10%	9%	6%	5%	4%	4%
D. Written communications	66%	81%	83%	84%	25%	13%	13%	11%	9%	7%	4%	5%
E. Comprehension	75%	87%	88%	89%	21%	10%	10%	9%	4%	3%	2%	2%
F. Math skills	39%	60%	65%	65%	29%	27%	24%	23%	32%	13%	11%	12%
G. Computer skills	65%	74%	77%	77%	20%	15%	13%	12%	15%	12%	10%	11%
H. Critical thinking	73%	83%	85%	87%	21%	12%	11%	10%	5%	5%	4%	3%
I. Problem solving	75%	84%	86%	88%	20%	12%	10%	8%	5%	4%	4%	4%
J. Research and analysis	62%	74%	77%	78%	26%	18%	16%	15%	11%	8%	7%	7%
K. Teamwork	82%	88%	90%	90%	14%	8%	7%	7%	4%	4%	3%	4%
L. Organization and planning	79%	85%	86%	87%	16%	10%	9%	9%	5%	5%	5%	4%
M. Time management	76%	82%	85%	85%	18%	12%	10%	10%	6%	6%	5%	4%
N. Quality of work	78%	87%	88%	87%	17%	8%	9%	9%	4%	5%	4%	4%
O. Productivity	75%	84%	84%	86%	21%	12%	12%	10%	5%	4%	4%	4%
P. Creative and Innovative	66%	76%	79%	80%	25%	16%	15%	14%	8%	8%	6%	6%
Q. Adaptable	72%	85%	86%	85%	23%	11%	11%	12%	5%	4%	3%	3%
R. Responsible	83%	88%	89%	89%	13%	8%	8%	8%	3%	3%	3%	3%

APPENDIX 6 – Graduate Satisfaction Trends – Results from the four Survey Periods

Table 3 This table compares the graduate satisfaction rates for Question 22 from the four survey periods. Q22 “Thinking about the demands of this job, how satisfied are you with each of the following aspects of your program?”

	Graduate Satisfaction				Graduate Neither Satisfied nor Dissatisfied				Graduate Dissatisfaction			
	1997-1998	1998-1999	1999-2000	2000-2001	1997-1998	1998-1999	1999-2000	2000-2001	1997-1998	1998-1999	1999-2000	2000-2001
22A. Course content	67%	80%	84%	84%	25%	12%	11%	10%	8%	8%	6%	6%
22B. Courses were up-to-date	74%	83%	86%	88%	19%	10%	7%	7%	7%	7%	5%	5%
22C. Overall quality of instruction	69%	81%	83%	83%	24%	12%	10%	11%	7%	7%	6%	6%
22D. Equipment was up-to-date	66%	76%	78%	83%	24%	12%	10%	9%	12%	12%	9%	9%
22E. Preparation for the job market	57%	71%	77%	74%	26%	14%	11%	13%	16%	15%	12%	13%
22F. Skills developed in Co-op, clinical, field placement experience, and career placement services*	75%	86%	89%	80%	19%	9%	7%	9%	6%	5%	4%	11%

* This question changed for the S00-W01 survey period. In previous survey periods it was ‘Skills developed in courses’.

APPENDIX 7 – Programs For Which There Is Low Job-Relatedness (F97-W01)

Table 1 Programs for which graduates reported low job-relatedness
 Programs chosen had more than 20 responses and less than 50% 'Yes' or more than 25 responses and more than 30% 'No' to Question 20 'Was this job related to the Program that you graduated from?' Programs are sorted by 'Yes' column.

Program	Question 20			Responses
	Yes	Yes, partially	No	
2843 Cosmetic Techniques & Mgmt	61%	5%	34%	62
2840 Tourism & Travel	58%	7%	35%	169
1005 Security System Implementation & Design	58%	4%	38%	45
13M0 Law & Security Administration - Loss	57%	6%	37%	116
13M1 Law & Security Administration - Private Security	57%	5%	38%	103
13R0 Police Recruit Ed & Prep	55%	3%	41%	29
1150 Social Service Worker	54%	9%	37%	169

APPENDIX 11 – KPI Statistical Accuracy

This table presents all the programs for 2002 listed alphabetically. The College level results in this report can be treated as accurate to within one percent at the 95% confidence level (based on the worst case scenario). Results at the program level range significantly depending on the return rate – accuracy increases with a larger sample (number of surveys). A program with 20 surveys of 25 students would be accurate to within 5 to 10%, depending upon the result (e.g. satisfaction results at the high end or low end are statistically more accurate than are results around the 50% mark).

Program	Prg. Code	Enrol.	Completed Surveys	% Repres	Worst Case +/-% Accuracy at 95% confidence level	KPI Satisfaction
Advanced Illustration	6192	13	11	85%	12%	66%

APPENDIX 14 – Program – Semester Differences

All of the College's Programs were analyzed by semester to determine if there were significant differences in student satisfaction ratings of the KPI and Capstone questions between semesters. (At the College level, it was found a higher proportion of students in Semester 2 were satisfied than those in Semesters 3 and 4, and the smallest proportion of satisfied students was in semesters 5 and above.)

A list of Programs is displayed below where substantial differences (20% or greater) existed from semester to semester (only semester clusters with 10 or more students were included in this table).

Capstone Question 14 "OVERALL, your Program is giving you knowledge and skills that will be useful in your future career."

Capstone Question 26 "The OVERALL quality of the learning experiences in this Program."

Capstone Question 44 "The OVERALL quality of facilities/resources in the College."

Capstone Question 45 "The OVERALL quality of the services in the College."

PROGRAM (Semester)	KPI Satisfaction	Q14	Q26	Q44	Q45	Responses
1001 Community Outreach & Develop (2)	82%	86%	86%	86%	71%	56
