This activity for students in grade 12 aims to increase their knowledge of the U.S. Constitution and its fundamental ideas: checks and balances, separation of powers, Bill of Rights, and the amendments. Students judge the constitutional powers of each brand of government by participating in the power game. The activity explains how the game is played and sets up 10 "power grabs" for students to resolve (to win the game). The lesson plan lists resources. The teacher notes section addresses California state history/social science content standards; states lesson purpose; discusses classroom organization; and provides power grab answers. (BT)

Power Grab Game

Grade 12 - Principles of American Democracy Lesson
by Don M. Carlson

http://rims.k12.ca.us/power_grab_game/index.html
The highest law of the land in the United States is the Constitution. This is why you spend so much time learning about it in school. This activity will increase your knowledge of the Constitution and its fundamental ideas: checks and balances, separation of powers, Bill of Rights and amendments. When finished you will be able to:

1. Identify the three branches of American government.
2. Describe the function of each branch of government.
3. Explain how the "checks and balances" system functions to protect the individual citizen from illegal power-hungry politicians.
4. Describe how each branch of government is "separate" in its powers to the other branches of government.
5. Explain how the amendments to the Constitution function today.

You be the judge of the Constitutional powers of each branch of government by participating:

**The Power Game -- Checks and Balances in the Constitution:**

1. Divide your class into three groups: Executive, Legislative and Judicial branches of government. Each student should have a copy of the Constitution.
2. In each round the teacher will give each branch of government an opportunity for an unconstitutional "Power Grab". The remaining two groups have two minutes to find proof from the Constitution (amendments included) by Article, section and clause, why the power grab is unconstitutional.
3. When a person thinks he finds the appropriate check he yells "check". He must be prepared to respond with the answer immediately. If wrong,
others may try to block the grab for power with the two minutes, alternating between branches until the two minutes are gone or the answer is correct.

4. When checked correctly, the branch receives 10 points. If no one gets the correct answer, the branch grabbing power gets 5 points. No penalty for wrong answers.

5. A round is a question for each branch.
