This document provides a framework for a broad-based secondary and postsecondary curriculum to prepare students for employment in medical office management. The first part of the technical competency profile (TCP) contains the following items: an explanation of the purpose and scope of Ohio's TCPS; college tech prep program standards; an overview of the scope and purpose of tech prep; a key to the profile codes; lists of the skills used in field of medical office management and sample occupations in the field; a business core and medical office management overview chart; lists of the core and medical office management instructional units; and lists of the business core competencies taught in each instructional unit. The remainder of the TCP details the competencies and key indicators addressed in the 14 instructional units of Ohio's medical office management program, which cover the following topics: professional development and networking; communication skills; front office management; financial functions of the front office; insurance claims management; medical office ethics; mid-level office management; human resources management; marketing; information systems management; risk management; organizational management; and clinical operations management. The following items are appended: a list of review panel members; the college tech prep pathway template; a list of professional associations and certificates; and a map of Ohio tech prep consortia. Introduction

Technical Competency Profiles (TCP) are collaboratively developed by the Ohio Board of Regents and the Ohio Department of Education, Career-Technical and Adult Education, and the Center on Education and Training for Employment at The Ohio State University. The profile provides a framework for a broad-based secondary and post-secondary curriculum.

The profile includes essential competencies for programs from secondary through post-secondary associate degree programs. Each area contains competencies common to each of the occupations within a career cluster and competencies specific to an occupation. This profile design reflects programming flexibility that represents many options for educational studies and career planning.

Representatives from a broad spectrum of Ohio professionals played a critical role in defining the vision and scope of the TCP and in defining the essential and recommended skills for current and future employees. Secondary and post-secondary educators representing Ohio schools and colleges leveled the competencies to create career pathways from secondary to associate degree programs. A list of business and industry representatives and educators participating in the development of the profile appears in Appendix A.

Technical Competency Profiles (TCP) are used as the basis for the development of an integrated delivery system that provides opportunities for new and challenging programs and courses. Career-Technical Education, College Tech Prep, and post-secondary degree programs will be enhanced and expanded through the use of the Technical Competency Profile (TCP).

The profiles are available on the Internet at www.ohtpcs.org. At this location users can download copies of the entire profile or conduct searches on a number of key variables.

College Tech Prep Program Standards

College Tech Prep programs are rigorous programs of study starting at the secondary school level and continuing through the associate degree and beyond. In accordance with the Carl D. Perkins Vocational Technical Education Enhancement Act of 1998, College Tech Prep programs are seamless, non-duplicative programs of study combining high-level academic and technical preparation in a variety of career fields.

The Carl D. Perkins Vocational and Technical Education Act of 1998 defines College Tech Prep as:

A program that provides technical preparation in a career field such as engineering, applied science, a mechanical, industrial or practical arts or trade, agriculture, health occupations, business or applied economics and must do the following:

- Combines at least two years of secondary and two years of post-secondary education in a sequential course of study without duplication of coursework
- Integrates academic, vocational and technical education, and if appropriate and available, work-based learning
- Provides technical preparation for careers
- Leads to an associate or a baccalaureate degree or post-secondary certificate in a specific career field
- Leads to placement in appropriate employment or further education.

The Ohio College Tech Prep Advisory Council recommended to the Ohio Board of Regents and the Ohio Department of Education the following standards for all College Tech Prep programs:

1. Academics are taught at a college-preparatory level and are aligned with state models and academic content standards.
2. In addition to Ohio graduation requirements specified in SB 55, required academic components for College Tech Prep programs include:
   a. Mathematics taught at a minimum level of Algebra II by the completion of high school.
   b. An integrated or stand alone senior-year math component
   c. Three units of science including at least two lab-based science courses
3. College Tech Prep programs will use a state-developed Technical Competency Profile (TCP) as the basis for pathway development. The pathway document should reflect secondary and post-secondary course work and should be made available for stakeholders. All secondary and post-secondary TCP competencies must be clearly identified and addressed. The TCP is the framework used to develop all associated curricular documents; however, components from other competency profiles such as OCAP's (Occupational Competency Analysis Profile), ITAC's (Integrated Technical and Academic Competencies) and SCANS (The Secretary's Commission on Achieving Necessary Skills—America 2000) may be included and are not mutually excluded from a TCP.
4. Articulated pathways will be reviewed every two-years at the consortia level.
5. Pathways operate under an articulation agreement between/among partners in a consortium.
6. College Tech Prep programs at the secondary level will operate as state-approved, career-technical education programs.
7. Academic and technical instruction is integrated and delivered in a contextual approach where possible.
8. Programs have common representation from secondary education, higher education, business, and labor members.
10. Programs must operate under either regionally accredited post-secondary institutions/degrees or approved apprenticeship programs meeting U.S. Department of Labor standards.
11. College Tech Prep programs, secondary and post-secondary, must comply with the state College Tech Prep Advisory Council's performance measures.

State College Tech Prep Advisory Council
Revised and Approved: May 1, 2002
College Tech Prep

College Tech Prep is a high school and college career path linked to business, industry, and labor that insures a specified seamless pathway from high school to college to careers, meeting Ohio’s technological employment needs.

A College Tech Prep student is enrolled in a state-approved College Tech Prep education program. A College Tech Prep Program means a program of study that:

- Combines, at a minimum, two years of secondary education (as determined by Ohio definitions) with a minimum of two years of post-secondary education in a non-duplicative, sequential course of study.

- Integrates academic and technical instruction and utilizes work-based and work-site learning, where appropriate and available.

- Provides technical preparation in a career field such as engineering technology; applied science; mechanical; industrial or practical arts or trades; agriculture; health occupations; business; or applied economics.

- Builds student competencies in mathematics, science, reading, writing, communications, economics, and workplace skills through applied, contextual academics, and integrated instruction, in a coherent sequence of courses.

- Leads to an associate or baccalaureate degree, or a BAT (Bureau of Apprenticeship Training) apprenticeship requiring a minimum of two years in a specific career field.

- Leads to placement in related employment, or to further education.
Key to Profile Codes

Importance of Competencies

All of the competencies in this document represent the minimum requirements for a College Tech Prep program. It is the responsibility of the local consortia to further define and/or expand, as needed, the key indicators for each competency. Each competency must be taught at the Proficient level (P) by the completion of the College Tech Prep program, which is an Associate Degree (AD). A minimal number of competencies have been identified as Introduce (I) at the Associate Degree level. These may require further higher education.

This document integrates college prep level academics with technical skill. Technical skills are a required component.

I = Introduce (Learner will demonstrate knowledge and comprehension of the competency.)

P = Proficient (Learner will demonstrate ability to apply knowledge of and/or perform the competency.)

R = Reinforced (Competencies marked proficient at the secondary level are to be reinforced at the associate degree level.)

Grade Level: 12 = by the end of grade 12
AD = by the end of the Associate Degree

ACADEMIC CONNECTION

All College Tech Prep programs are responsible for meeting the academic content standards.

**Competency 1.1:** Explore career pathways in Business Management

**Key Indicators:**

1.1.1 Identify current and future career options and earning potential for a person trained in Business Management

1.1.2 Research historical evolution of the various careers in Business Management

1.1.3 Identify education and training needed for a career in Business Management

1.1.4 Identify personal characteristics required for a person to work as a Business Management professional

- Competency should be introduced by end of 12th grade with proficiency achieved by the end of the associate degree.

**Key Indicators lead to competency proficiency.**
Medical Office Management

Students who study a Medical Management program will be prepared for employment in a variety of medical office and healthcare management settings. The curriculum includes skills that are critical to success in a medical office, i.e., professionalism, communication skills, front office management, insurance claims management, medical office ethics; other management sectors included are: financial operations, human resources, marketing, information systems, risk management, organizational, and clinical operations management. Employment in the health-care services field is expected to grow faster than the average for most occupations.

Sample Occupations

Benefits Coordinator
Clinical Data Specialist
Patient Information Coordinator
Medical Records and Health Information Technician
Medical Accounts Specialist
Medical Billing Specialist
Medical Compliance Officer
Medical Records Technician
Medical and Health Services Manager
Medical Unit Coordinator
Claims Processor
Medical Code Specialist (Insurance)
### 2003 Medical Office Management Competency Chart

**Note:** Instruction in the Medical Office Management competency profile should be preceded by instruction in the Business Core Competencies. Each competency is coded: I = Introductory; P = Proficient; R = Reinforce.

Instructional Unit 5: Accounting

Competency 5.1: Complete the accounting cycle

Key Indicators:
5.1.1 Describe terminology in the accounting cycle
5.1.2 Analyze transactions using source documents
5.1.3 Explain double-entry system of accounting
5.1.4 Apply debit and credit rules when analyzing business transactions
5.1.5 Prepare a chart of accounts
5.1.6 Apply debit and credit rules when recording business transactions
5.1.7 Analyze differences in the uses of credit cards, debit cards, installment loans, term loans, and commercial loans
5.1.8 Journalize transactions using various journal formats
5.1.9 Post transactions to general ledger
5.1.10 Post adjustments (e.g., accruals, deferrals)
5.1.11 Prepare a trial balance
5.1.12 Post transactions to subsidiary ledgers
5.1.13 Prepare accounting reports (e.g., balance sheets, income statements, worksheets)
5.1.14 Use spreadsheets and accounting software to maintain accounting records

Competency 5.2: Apply generally accepted accounting principles to determine the value of assets, liabilities, and owner's equity

Key Indicators:
5.2.1 Create/maintain accounts receivable subsidiary ledger
5.2.2 Apply appropriate accounting concepts and techniques for acquisition, depreciation, and disposal of property
5.2.3 Create/maintain accounts payable subsidiary ledger
5.2.4 Record mortgage and lease obligations and subsequent principal and interest payments
5.2.5 Apply appropriate accounting techniques to account for investments and withdrawals by owners
5.2.6 Determine inventory valuation according to different plans including LIFO (last in; first out), FIFO (first in; first out), specific identification, and weighted average

Competency 5.3: Maintain cash control

Key Indicators:
5.3.1 Identify cash control procedures (e.g., signature cards, deposit slips, internal/external controls, check clearing)
5.3.2 Process checks
5.3.3 Reconcile a bank statement
5.3.4 Journalize/post entries to establish and replenish petty cash
5.3.5 Journalize/post entries related to banking activities
5.3.6 Explain the benefits of electronic funds transfer (e.g., automated teller machine [ATM] transactions, debit cards, direct deposits)
Instructional Unit 6: Computation

Competency 6.1: Apply mathematics skills in business operations
Key Indicators:
6.1.1 Solve for unknowns using algebraic equations
6.1.2 Apply number relations (e.g., greater than, less than, equal)
6.1.3 Interpret measurements (e.g., weight, capacity, length, area, volume)
6.1.4 Calculate break-even sales
6.1.5 Calculate discounts and due dates
6.1.6 Calculate percentages
6.1.7 Make estimates based on given data (e.g., time, financial, inventory)
6.1.8 Prove financial data (e.g., checkbooks, cash drawers, accounting forms)

Competency 6.2: Determine mathematical procedures to solve business problems
Key Indicators:
6.2.1 Determine correct mathematical processes to use for various problem situations using correct formula when appropriate
6.2.2 Select/utilize appropriate tools, programs, and/or procedures when solving problems (e.g., calculators, spreadsheets)

Competency 6.3: Use mathematical procedures to calculate wages and benefits
Key Indicators:
6.3.1 Describe math terms/concepts related to the workplace (e.g., gross pay, net pay, Federal Insurance Commission Act [FICA], commissions)
6.3.2 Maintain payroll register and individual earnings records and tax information
6.3.3 Complete employer's quarterly federal tax return/data for employee and employer tax
6.3.4 Calculate fringe benefits
6.3.5 Calculate wage and salary increase plans (e.g., Cost-of-Living Allowance [COLA], merit increases, profit sharing)

Competency 6.4: Interpret data using common statistical procedures
Key Indicators:
6.4.1 Use tables, charts, and graphs (e.g., construct, read, interpret)
6.4.2 Infer data from tables, charts, and graphs
6.4.3 Calculate measures of central tendency (i.e., mean, median, mode)
6.4.4 Construct frequency distribution
6.4.5 Use probability concepts to solve problems involving uncertainty
Competency 6.5: Use mathematical procedures to solve business problems

Key Indicators:

6.5.1 Compute compound interest and the resulting compound amount at the maturity date for savings and investments
6.5.2 Calculate present value of an investment with compound interest
6.5.3 Determine outstanding amount for installment purchases
6.5.4 Determine finance/additional charges, periodic payment, total costs, and APR (annual percentage rate) on an installment contract
6.5.5 Calculate effects of early payoff of an installment plan
6.5.6 Calculate net business purchases with discounts and purchase returns and allowances
6.5.7 Determine dollar amount of markdown, regular selling price, or reduced price when one of the three variables are unknown
Instructional Unit 7: Business Law

Competency 7.1: Examine foundation of business law
Key Indicators:
7.1.1 Explain why laws exist
7.1.2 Compare/contrast ethics, morals, and law
7.1.3 Describe relationship between historical law and current law
7.1.4 Explain use of the Constitution and Bill of Rights as sources of law
7.1.5 Compare/contrast the United States Constitution with state and local law
7.1.6 Match regulatory agencies with their responsibilities
7.1.7 Describe rights and responsibilities of customers/clients
7.1.8 Compare/contrast the American business law system with systems in other developed countries

9.2.2 Develop job descriptions aligning tasks with needs in respect to total organization (e.g., medical job categories, lab jobs, non-medical job categories)
9.2.3 Develop job descriptions delineating specific tasks for each employee (e.g., roles of office manager, accounting personnel, front office personnel, laboratory personnel, healthcare support services staff, professional staff)
9.2.4 Incorporate ethical human resource medical practices (e.g., ensure no pay inequities, training provided)

Competency 9.3: Identify employee placement and workforce needs

Key Indicators:

9.3.1 Conduct analyses to identify needs for the medical office organization to operate in a cost-effective and efficient manner
9.3.2 Evaluate staffing requirements to meet the goals and objectives of the organization
9.3.3 Identify challenges of diverse staffing
9.3.4 Develop/implement process improvement program with adequate workers for flow of work
9.3.5 Estimate future hiring projections (e.g., retirements, expanding client level, new procedures)
9.3.6 Design recruitment/selection process for new employee(s)
9.3.7 Apply knowledge of employee development that helps the total medical office setting
9.3.8 Establish selection criteria for new hires (e.g., EEO [Equal Employment Opportunities] and ADA [Americans with Disabilities Act] factors, assessment, reference checks, criminal investigation, health information)
9.3.9 Interview employee candidates using employee skill-assessment tools and interviewing techniques
9.3.10 Process background check of prospective employee
9.3.11 Supervise employees
9.3.12 Delegate responsibilities
9.3.13 Develop work schedule to ensure that sufficient staff is available to meet needs of medical practice and office tasks, and that work hours/workload are equitable and fair for compensation
Competency 9.4: Develop procedures for employee evaluation and appraisal

Key Indicators:

9.4.1 Develop employee review method(s) (e.g., physician review, performance standards met, peer review, productivity/merit pay, critical incident event)
9.4.2 Design system for constructive feedback to improve performance
9.4.3 Develop plan for improved performance and/or promotion
9.4.4 Provide professional mentoring and guidance to employees
9.4.5 Develop strategies for retaining employees
9.4.6 Design a scale for merit pay

Competency 9.5: Design an employee training and continuing education program

Key Indicators:

9.5.1 Determine philosophy of medical practice for importance of training and education
9.5.2 Determine individual learning styles (e.g., coaching, formal, self-directed, group)
9.5.3 Prepare/manage resources for in-service training (e.g., time, finances)
9.5.4 Schedule employee in-service training
9.5.5 Respond to employees' request for continuing education and training on emerging technology
9.5.6 Research best medical practices regarding continuing education programs for employees in healthcare professions/offices (e.g., training models, seminars, text material, software programs)
9.5.7 Assess outcome of seminar or training and its value

Competency 9.6: Develop program for conflict resolution and office employee relations

Key Indicators:

9.6.1 Explore the laws and regulations for employee relations (e.g., local, state, federal, union policies, office employee manual)
9.6.2 Address/manage internal complaints and grievances
9.6.3 Explore strategies for dealing with cultural conflicts and differences
9.6.4 Employ established decision-making, problem solving, conflict resolution, and prioritizing techniques
9.6.5 Design a discipline procedure for specific infractions of office policy (e.g., reprimand, written warning, suspension, discharge, termination, documentation)
9.6.6 Comply with ADA (American with Disabilities Act) guidelines
9.6.7 Design employee assistance programs that are cost-effective and beneficial to both employee and employer (e.g., stress/anger management, counseling, substance abuse)
9.6.8 Release employee following established procedures for employee exit
9.6.9 Conduct exit employee interview (e.g., voluntary or involuntary exit)
9.6.10 Comply with FMLA (Family Medical Leave Act)

Competency 11.2: Conduct information system training

Key Indicators:
11.2.1 Conduct needs assessment
11.2.2 Plan for system needs (e.g., budget, equipment needed, instruction)
11.2.3 Plan for implementation of information system integration in to medical practice
11.2.4 Conduct training

BIL: Essential

| EDU: | 12 | AD | P |

Competency 11.3: Manage database for information system

Key Indicators:
11.3.1 Identify needs for database (e.g., purchase or lease)
11.3.2 Secure database program software
11.3.3 Oversee database management and information systems
Competency 11.4: Manage network security for information system

Key Indicators:
11.4.1 Ensure compliance with Health Insurance Portability and Accountability Act (HIPAA)
11.4.2 Monitor accountability within the medical practice
11.4.3 Ensure that all confidentiality policies for the medical practice are enforced (e.g., disclosure, releases)
11.4.4 Maintain information system integrity

Competency 11.5: Access electronic information resources

Key Indicators:
11.5.1 Ensure medical practice has appropriate equipment for information system (e.g., computers, video, audio, CD-ROMs, interactive systems)
11.5.2 Oversee individual office information systems within the total office (e.g., database systems, front office, accounting office)
11.5.3 Manage the information network system for total office
Instructional Unit 12: Risk Management

Competency 12.1: Maintain safety in the medical setting
Key Indicators:
12.1.1 Identify preplanned action in an emergency (e.g., fire, inclement weather, lock-down, bomb threat)
12.1.2 Initiate triage procedures in event of medical emergency
12.1.3 Explain legal implications in event of emergency

Competency 12.2: Complete first aid and cardiopulmonary resuscitation (CPR) training
Key Indicators:
12.2.1 Acquire first-aid certification through the American Red Cross
12.2.2 Acquire cardiopulmonary resuscitation (CPR) certification through the American Red Cross or American Heart Association
12.2.3 Maintain basic first-aid and CPR certification

Competency 12.3: Respond to medical office emergencies
Key Indicators:
12.3.1 Recognize medical emergency situations
12.3.2 Seek the assistance of personnel appropriate to given situation
12.3.3 Locate emergency equipment (e.g., crash cart/kit, eyewash station)
12.3.4 Follow office protocol for emergencies
Competency 12.4: Protect workers from ergonomic injuries in office setting

Key Indicators:
12.4.1 Ensure healthy ergonomic medical practices
12.4.2 Avoid repetitive motion activities that might cause injury
12.4.3 Maintain posture to prevent injuries in medical office (e.g., sitting, chairside assisting, at computer)
12.4.4 Lift/transport objects and materials in accordance with established safe medical practices

Competency 12.5: Maintain legal compliance for risk management within the medical practice

Key Indicators:
12.5.1 Research local, state, and federal laws and regulations (e.g., OSHA [Occupational Safety and Health Administration], ADA [Americans with Disabilities Act], FMLA [Family Medical Leave Act], ERISA [Employee Retirement Income Security Act 1974])
12.5.2 Maintain relationship with legal counsel in event of need
12.5.3 Explore extent of legal liability for medical practice and employees (e.g., fraud and abuse, contracts)
12.5.4 Explore options of risk-management strategies (e.g., peer review, evaluation of care, staff participation, notification, documentation of activities)
12.5.5 Monitor medical practice compliance (e.g., continuing education requirements, prevention of fraudulent medical practices, record falsification or alternation, inadequate training, patient abuse, lack of follow-up)
12.5.6 Develop a plan for communication to audiences for damage control (e.g., public relations, staff, patients)
Competency 12.6: Utilize record-keeping procedures that include procedure for archiving medical practice history data

Key Indicators:
12.6.1 Describe a system for medical practice recordkeeping
12.6.2 Use computer system for records
12.6.3 Organize the record systems to maximize its efficiency (e.g., flow, discriminate what to keep and what to discard, longevity of records, archiving records, storage and distribution)

Competency 12.7: Maintain liability insurances (e.g., property, personal, malpractice, embezzlement)

Key Indicators:
12.7.1 Explore options available for insurance (e.g., compare coverage, costs, contract terms, underwriting)
12.7.2 Investigate risks/benefits of insurance plans
12.7.3 Determine medical practice commitment to maintaining insurance
12.7.4 Purchase/adjust insurance

Competency 12.8: Establish personnel and property security plans and policies

Key Indicators:
12.8.1 Explore local, state and federal laws and regulations with regard to harassment in workplace, confidentiality, FLSA [Fair Labor Standards Act], and OSHA
12.8.2 Utilize HR investigation guidelines and models (e.g., interview, recording, interpretation of findings, documentation)
12.8.3 Implement monitoring procedures that are legal, appropriate, and protect confidence
12.8.4 Assess potential for workplace security risks (e.g., internal theft, technology sabotage, vandalism)
12.8.5 Develop/document property security procedures (e.g., physical facility, equipment)
12.8.6 Communicate security plan and procedures internally
12.8.7 Conduct scheduled security checks documenting date, time, and findings
