Every spring the Career Center at the John H. Lounsbury School of Education of Georgia College and State University sponsors a job fair and invites recruiters for school systems to meet students. Recruiters, many of whom have worked with the college's graduates in the past, are asked to complete a questionnaire that includes a need analysis and a satisfaction survey. In February 2002, 18 questionnaires were returned from the 30 to 40 recruiters at the fair. Students were rated highly in content knowledge, ability to work with challenging students, and reliability and judgment. Lowest rated were their understanding of current educational laws and their ability to test and assess learning. There were many positive comments about students and the teacher education program. Perceived needs were greatest for elementary school teachers, and for special education teachers in general. Other areas of need were physical education and music teachers and middle grade teachers in all subject areas. High schools were most in need of science, mathematics, and business education teachers, as well as school administrators. (SLD)

Report for 2001 & 2002 Employer/Recruiter

Needs Analysis & Satisfaction with GC&SU Graduates

Data Analysis by
Sharene L. Smoot, Ph.D., Associate Professor
Department of Foundations & Secondary Education

Date of Report: August 19, 2002
Survey of Spring Career Center Job Fair Participants

2001 and 2002

Every spring the GC&SU Career Center sponsors a job fair and invites school systems from all over Georgia to send recruiters to this event. All students completing initial certification are encouraged to attend, submit their resumes and schedule afternoon interviews with school systems where they are interested in working. Scheduling problems and turnover in the Career Center staff limited the participation in this job fair in 2000 and 2001, but last year the timing and turnout was better.

In the packet for the school system, the assessment committee included a two page questionnaire for the recruiters to fill out and leave at the main desk. Part of the questionnaire is a needs analysis and the next page is a satisfaction survey. This year in February 2002 at the job fair, 18 questionnaires were returned. Last year, the surveys came back in the mail and we only received about 8. There are usually about 30-40 school systems at the career fair. Many of the recruiters know our students only by reputation, but the smaller, nearby school systems in Middle Georgia often send a person who has actually worked with our students.

Satisfaction with Overall Quality of GC&SU Graduates was 100% Positive

Note: Seven of the 26 respondents did not answer the Satisfaction questions because they had no personal knowledge, for example they were recruiters from the school system central office staff. Of the rest, 47% rated our recent graduates as Excellent and 53% rated them as Good.
Number Returning Surveys in 2001 was Eight, in 2002 There Were 18.

In the Last Two Years They Have Hired About 118 GC&SU Graduates

Eleven respondents hadn’t hired any and one respondent had hired about 30! The list of school systems at the job fair is at the end of this report.
About half of the recruiting school systems were from Middle Georgia.

The recruiters were mostly from rural school systems.

Quality Ratings by Middle Georgia School Systems were 46% Excellent. Schools outside of Middle Georgia had even higher ratings (57% excellent). Of the 26 respondents, 8 had not hired any of our graduates recently and so did not reply to this part of the questionnaire.

Our students were rated highest in their content knowledge, their ability to work with challenging students, and their reliability and judgment. Next came their interpersonal skills, their ability to use technology, their teaching ability and their ability to test and assess learning. Lowest rated was their understanding of current educational laws and their ability to manage behavior. There were many positive comments about our students and our teacher education preparation program. See the next page.
Written Comments

Notably good qualities of the GC&SU teacher preparation programs graduates are:

- Good field experience!
- Time spent in regular classrooms.
- Students are well prepared for the school environment.
- Already equipped with valuable classroom teaching experience

- Student to professor ratio seems good
- Professional & courteous
- Knowledgeable of content
- Ability to work with others
- Receptive to constructive criticism
- They are well trained.

The GC&SU teacher preparation program graduates would be better if:

- Some of the graduates were placed in neighboring systems such as Warren County to do their student teaching.

- Encourage your graduates not to dismiss the smaller rural systems for some valuable teaching experiences—this can prove more beneficial to the individual by providing more varied opportunities than a larger system can provide.

- The turnout for this job fair was the lowest I have ever seen it—I don’t understand why.

Employer/Recruiter Needs & Satisfaction Survey

GC&SU Teacher Preparation Programs

Please take a few minutes to give us your feedback. We need this information for continuing accreditation visits. You can leave this completed form at the Registration Table.

Needs Assessment

1. About how many openings do you usually have annually for the following teaching fields?
   - For Primary/Elementary schools? ________  For Middle/Junior High Schools? ________
   - For High Schools ________  Areas most in need? ___________________________________________
   - For Special Education:
     - Mental Retardation ________  Interrelated ________
     - Behavior Disorders ________  Learning Disabilities ________
   - For Other Areas:
     - Health ________  Physical Education ________  Music ________
     - Library/Media ________  Technology ________  Leadership ________

2. About how many GC&SU graduates have you hired in the last 2 years? ________

3. About what percent were beginning teachers (not experienced)? ________%

4. Is your school system in Middle Georgia?  Yes  No

5. Is your school system (circle one)  Rural  Urban  Suburban  ?

Satisfaction with recent (last five years) GC&SU School of Education graduates

How would you rate?  (Please circle your answer, skip any questions if you feel that you are not familiar enough with details about our graduates)

1. The overall quality of teachers you have hired from GC&SU?  Excellent  Good  Fair  Poor

2. Their knowledge of the content area in their specialty?  Excellent  Good  Fair  Poor

3. Their ability to teach (plan and carry out lessons)?  Excellent  Good  Fair  Poor

4. Their ability to manage classroom behavior?  Excellent  Good  Fair  Poor

5. Their ability to test and assess learning in their students?  Excellent  Good  Fair  Poor
6. Their willingness to work with challenging students?  
7. Their reliability, judgment, and professional ethics?  
8. Their understanding of current educational laws?  
9. Their communication skills and ability to work with others?  
10. Their ability to use current technology?  

11. Notably good qualities of the GC&SU teacher preparation programs graduates are:

12. The GC&SU teacher preparation program graduates would be better if:

Today’s date is ____/____/_____.

Please return your surveys to Ms. Pricilla Hooks, Senior Secretary, at the Registration Table before you leave. Thanks very much for your input and feedback about our program.

I. DOCUMENT IDENTIFICATION:

Title: Report for 2001-2002 Employer/Recruiter Needs Analysis & Satisfaction with CC&SU Graduates

Author(s): Sharone L. Smoot, Ph D

Corporate Source: Georgia College & State University

Publication Date: 8-19-02

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, Resources in Education (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Check here for Level 1 release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g., electronic) and paper copy.

Check here for Level 2A release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only.

Check here for Level 2B release, permitting reproduction and dissemination in microfiche only.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.
