Preface

The assessments for the Courses of Study in the Humanities (Interdisciplinary, Visual and Performing Arts, Foreign Language) are performance-based. Performance-based testing methods require that students demonstrate their competencies or knowledge by creating an answer or a product. Performance-based portfolios involve collecting a student’s work over time that reflects his or her mastery of the Idaho Humanities Achievement Standards.

The assessment tools included in this booklet include both performance activities and portfolio items. It is understood that products or entire portfolio collections may include original, printed, or electronic materials. Items from the Bank of Assessment Prompts may be selected for an end-of-course summative test and as periodic evaluations of products and performances.

The Bank of Assessment Prompts should not be interpreted as a required objective test with a predetermined number of questions, or a specific test with a given time limit. The teacher should select the number of prompts according to the specific course and time allotted for testing. The teacher should also select prompts that represent all three Idaho Humanities Achievement Standards. The Bank of Assessment Prompts references specific standards (content knowledge and skills) covered within the teaching blocks of the given Course of Study. A sample of final year exams is included at the end of the Bank of Assessment Prompts.

The resource section includes examples of charts, illustrations, or references sources that may be used to administer the assessment prompts.
"... an education for all human beings cannot succeed unless we have ways of ascertaining what has been understood and what has been mildly or fatally misconstrued. I envision a world citizenry that is highly literate, disciplined, capable of thinking critically and creatively, knowledgeable about a range of cultures, able to participate actively in discussions about new discoveries and choices, willing to take risks for what it believes in.” Howard Gardner *The Disciplined Mind*

**Introduction**

**Background**

In response to a need for curricular support, the Idaho State Department of Education gathered teams of exemplary educators from throughout the state to write courses of study related to all subject areas within Idaho’s Achievement Standards. A need arose to assess areas not tested statewide in a performance-based manner. Teachers involved in writing the courses of study for foreign language were asked to return and prepare an assessment based on the Idaho Humanities Achievement standards and the foreign language courses of study. The following assessments are recommended for use with those courses of study.

**Purpose**

The Foreign Language Course of Study covers content knowledge and skills in the areas of Historical/Cultural Contexts, Critical Thinking, and Performance as these areas relate to foreign language studies. This document provides a framework to assist teachers in foreign language assessment as they prepare their students to meet Idaho’s Humanities Achievement Standards.
