January 2006

Dear Student:

You are one of the thousands of students who receive an interesting and challenging assignment each school year - - to complete a special project on North Carolina. The majority of you are in-state fourth or eighth graders studying “The Tar Heel State” in your social studies classes. Numerous other students at a variety of grade levels from states across the nation also engage in research for reports about our state.

This student sampler has been compiled to assist you in your study of North Carolina. It is designed to introduce you to the people, places, and events that have shaped our history. You will also learn about the resources that will help to determine the future of our great state.

A great deal of information is provided in this sampler but it is only a beginning point for learning about North Carolina. Use the addresses, phone numbers, and web sites to further research state government, historical sites, recreational opportunities, or the university system. Whether you’re searching for state symbols or learning about landforms, we hope you find this resource useful and enjoy your study of the state we call home.

Thanks for your interest in North Carolina and good luck in your research efforts.

Sincerely,

[Signature]

June St. Clair Atkinson

JSA: mw
Dear Friends of North Carolina:

Thank you for your interest in the state of North Carolina. As Chairman of the State Board of Education, I am a strong advocate of well-informed students and citizens. Through this document, you will be learning about various aspects of our great State.

You will find many fascinating facts and figures about North Carolina – the names of famous North Carolinians, our State symbols, and highlights from history. There are numerous resources regarding the people, culture, economy and geography for you to peruse. This document will not only assist you in projects, but will also help you develop an appreciation for the diversity and background of North Carolina. I hope you gather useful knowledge and find the information as captivating as I do.

Sincerely,

[Signature]

Howard N. Lee
Dear North Carolina Scholar:

Thank you for requesting the accompanying information about North Carolina. It is my pleasure to share with you some interesting aspects of the fascinating history, cultural diversity, and geographic variety our state offers.

Among these pages is a depiction of The Great Seal of the State of North Carolina. On it appears our state motto, "Esse Quam Videri," Latin words meaning "To be rather than to seem." These words are as important today as they ever were. As a state and as a people, the state motto describes the way we want to live, the way we want to work, and the way we want to raise our families.

I wish for you every success in your efforts to learn about North Carolina.

With kindest regards, I remain

Very truly yours,

[Signature]

Michael F. Easley
General Information about North Carolina

Statehood: November 21, 1789, the 12th state
State Capital: Raleigh (established 1792)
State Colors: Blue and Red
State Motto: Esse Quam Videri (To Be Rather Than To Seem)
State Nickname: The Tar Heel State
Name Origin: From Latin “Carolus” in honor of King Charles I of England
State Song: “The Old North State”; words written by William Gaston, music collected and arranged by Mrs. E.E. Randolph

State Symbols

State Beverage: Milk
State Bird: Cardinal
State Boat: Shad Boat
State Dog: Plott Hound
State Fish: Channel Bass
State Flower: Dogwood
State Insect: Honey Bee

State Mammal: Gray Squirrel
State Reptile: Eastern Box Turtle
State Rock: Granite
State Shell: Scotch Bonnet
State Stone: Emerald
State Tree: Pine
State Vegetable: Sweet Potato
The State Flag of North Carolina

The state flag is divided into three rectangles, two horizontal and one vertical. The upper right rectangle is red and the lower right rectangle is white. The entire background of the rectangle on the left is dark blue. The ribbons and the letters N and C are gold. The dates on the ribbons are dark blue. The star is white.

The state flag, adopted in 1885, displays two dates, May 20, 1775 is the date thought to have been when the Mecklenburg Declaration of Independence was issued. This document made a bold statement in favor of independence for the colonies. It stated that English laws were no longer in effect in Mecklenburg County. April 12, 1776 is the date of the Halifax Resolves. In this document, North Carolina authorized its delegates to the Continental Congress to vote for independence from England. These dates celebrate the fact that North Carolina was the first colony to declare its independence from England well before the famous July 4, 1776 date.
State Name and Nicknames

In the 1600’s England established a royal colony in the New World. The colony was named for King Charles I of England. The word Carolina is from the word “Carolus”, the Latin form of Charles.

When Carolina was divided in the early 1700’s, the southern part was called South Carolina and the northern or older settlement was called North Carolina, or “The Old North State”. The title, the Old North State, is one nickname often given to the state. A song by that title is the official state song.

North Carolina is also known as the Tar Heel State. There are several stories about how the state got this nickname. One story refers to the state’s early production of naval stores, the tar and pitch from pine trees used to waterproof wooden ships. Workers cut pine trees to collect the sticky sap called pitch. Tar was drained from burning logs and saved for use of ships also. One story claims that workers got tar on their feet as they worked and were called Tar Heels. Because of the production of naval stores from pine trees, some people called North Carolina the Pine Tree State.

Another story about the origin of the nickname Tar Heels dates back to the Civil War. Supposedly, some troops from other states were driven off the battlefield during a battle, leaving the North Carolinians to fight the Yankees alone. After the battle, some passing soldiers asked, “Any more tar down in the Old North State, boys?” A quick reply followed. “No, not a bit. Old Jeff (referring to Jefferson Davis, President of the Confederacy) bought is all up.” “Is that so? What is he going to do with it?” was asked. “He’s going to put it on you-uns heels to make you stick better in the next fight.” After hearing about the incident, General Robert E. Lee was said to have commented, “God bless the Tar Heel boys!” Like the tar, the nickname Tar Heels stuck after that.

(Adapted from Grandfather Tales of North Carolina by R.B. Creecy and Histories of North Carolina Regiments, Vol III, by Walter Clark)
The State Seal of North Carolina

North Carolina has had a seal for use on official documents since the days of the Lords Proprietors. Shortly after they were issued their charter in 1663, the Lords Proprietors adopted a seal which featured the coats-of-arms of the eight Lords on one side and was used on all official papers for Carolina.

About 1665, the government of Albemarle was organized and it adopted, with some modifications, the 1663 seal. It was first used for the government of the county of Albemarle, and then became the seal of the Province of North Carolina. This seal was used from 1665 to 1730.

When North Carolina was purchased by the Crown in 1729, the king ordered that a new seal be prepared. This seal of the Province of North Carolina was used from 1730 to 1767. At a council held in New Bern in 1767, Governor Tryon introduced a new seal to be used in sealing all patents and grants of lands and all public instruments passed in the king’s name for service within the province.

In 1776, an ordinance was passed by the Provincial Congress at Halifax appointing three commissioners to procure a Great Seal for the State of North Carolina, but no record of a report being made by them was found. In 1778, a bill was introduced in the general assembly held in New Bern that “William Tisdale, Esq., be appointed to cut and engrave a Seal, under the Direction of his Excellency the Governor, for the use of the State…”

When the government of the State of North Carolina was organized, the constitution adopted at Halifax in 1776 provided, “That there shall be a Seal of this State; which shall be called the Great Seal of the State of North Carolina, be affixed to all grants and commissions.”

In 1792, the general assembly meeting again in New Bern authorized that a new seal “be prepared with only one side…” This was a major change, since all other seals had been two-sided. Other major changes were made in 1835, 1893, and 1971. The most recent alteration was made in 1983 when the April 12, 1776 was added at the bottom to commemorate the Halifax Resolves.

The current seal features two women, Plenty and Liberty. Liberty is the lady on the left holding a scroll in her right hand. On the scroll is written the word “Constitution”. In her left hand, Liberty holds a pole with the cap of liberty on top of it. Plenty sits on the right with three heads of wheat in her right hand. From her left hand to her feet in a cornucopia, or horn of plenty, containing fruits and vegetables. There is a three-masted ship on a body of water in the background and mountains running left to right in the middle of the seal.

The date April 12, 1776 is inscribed just below the women. This is the date of the Halifax Resolves, the document which gave North Carolina’s delegates to the Continental Congress the authority to vote for independence. Within the inner circle above the heads of the women is the date May 20, 1775. This is thought to be the date of the Mecklenburg Declaration of Independence. Around the upper perimeter of the seal is the inscription, “The Great Seal of the State of North Carolina.” The state motto, “Esse Quam Videri,” which is Latin meaning “To be rather than to seem”, is at the bottom of the seal in this outer circle.
THE GREAT SEAL OF THE STATE OF NORTH CAROLINA

MAY 20, 1775

APRIL 12, 1776

ESSE QUAM VIDERI
The State Song

“The Old North State” was adopted as the official song of the state of North Carolina by the General Assembly in 1927. The words were written by William Gaston and the music was collected and arranged by Mrs. E.E. Randolph.

The Old North State
Carolina! Carolina! Heaven’s blessings attend her,
While we live we will cherish, protect, and defend her,
Tho’ the scorner may sneer at and witlings defame her,
Still our hearts swell with gladness when ever we name her.

Chorus:
Hurrah! Hurrah! The Old North State forever,
Hurrah! Hurrah! The good Old North State.

Tho’ she envies not others, their merited glory,
Say whose name stands the foremost, in liberty’s story,
Tho’ too true to herself e’er to crouch to oppression,
Who can yield to just rule a more loyal submission.

(Repeat chorus)

Then let all those who love us, love the land that we live in,
As happy a region as on this side of heaven,
Where plenty and peace, love and joy smile before us,
Raise aloud, raise together the heart thrilling chorus.

(Repeat chorus)
The State Toast

This poem, composed in 1904 by Leonora Martin and Mary Burke Kerr, was officially adopted as the toast of North Carolina by the General Assembly of 1957.

Here’s to the land of the long leaf pine,
The summer land where the sun doth shine,
Where the weak grow strong and the strong grow great,
Here’s to the “Down Home”, the Old North State!

Here’s to the land of the cotton bloom white,
Where the scuppernong perfumes the breeze at night,
Where the soft southern moss and Jessamine mate,
‘Neath the murmuring pines of the Old North State!

Here’s to the land where the galax grows,
Where the rhododendron’s rosette glows,
Where soars Mount Mitchell’s summit great,
In the “Land of the Sky”, in the Old North State!

Here’s to the land where maidens are fair,
Where friends are true and cold hearts rare,
The near land, the dear land whatever fate,
The blest land, the best land, the Old North State!
Economy

Gross State Product (GSP)

North Carolina’s gross state product was $267.7 billion in 2001, which was a growth of 86% since 1991.

The top three manufacturing growth industries were chemicals and allied products, rubber and plastic, and tobacco products.

The top three non-manufacturing growth industries were finance, insurance and real estate (FIRE), construction, and services.

The top five industries contributing to the Gross State Product:

- Finance, Insurance, Real Estate - $52 million
- Services - $47 million
- Government - $35 million
- Retail Trade - $25 million
- Transportation and Utilities - $18 million

North Carolina Exports

In 2003, North Carolina ranked 12th in the nation in manufactured exports with a sum of nearly $70 billion.

The top five countries for export included:

- Canada - $ 3.9 billion
- Japan - $1.6 billion
- Mexico - $1.5 billion
- Honduras - $695 million
- United Kingdom - $687 million

The top five exports industries from North Carolina:

- Machinery - $2.9 billion
- Electric Machinery - $1.8 billion
- Knit Apparel - $900 million
- Tobacco - $877 million
- Plastics - $824 million

Employment

The top five employers by industry are:

- Manufacturing – 602,000
- Healthcare and Social Assistance – 453,800
- Retail Trade – 436,600
- Educational Services – 325,100
- Accommodation and Food Service – 292,000

Government

State Government

North Carolina state government is guided by a state constitution, like the Constitution of the United States. The state Constitution says the purpose of government is to serve the people. North Carolina’s Constitution begins with a preamble, or introduction. The state’s Constitution also contains a Bill of Rights which lists the rights and freedoms of citizens of the state.

*The state Constitution calls for three branches of government: legislative, executive, and judicial.*

The legislative branch is called the General Assembly, and it makes the state’s laws. The General Assembly is divided into two parts: the Senate and the House of Representatives. Members of both parts are elected by the people. The General Assembly meets in the State Legislative Building in Raleigh.

*State Senators: 50; serve 2-year terms*  
*State Representatives: 120; serve 2-year terms*

The executive branch is headed by the governor. He is called the chief executive of the state and is elected by the people. The governor’s job is to carry out state laws. He can suggest new laws to the General Assembly but cannot vote on them. All bills, or plans for new laws, passed by the General Assembly must be sent to the governor. If the governor agree to a bill and signs it, the bill will become law. If the governor does not sign a bill, it can still become a law after ten days. If the governor opposes a bill, he can veto, or say no to it. The General Assembly can still pass a bill the governor vetoed if three-fifths of the members of both the House and the Senate vote to do so.

*Governor: serves 4-year term; limited to 2 consecutive terms*

The judicial branch is the third part of North Carolina’s government. The judicial branch is made up of courts and judges that hear and decide legal cases. The judges make sure that North Carolina laws are used fairly and that they agree with the state Constitution. The highest court in North Carolina is the state Supreme Court. It decides cases about the state Constitution and the rights and freedoms of the citizens of North Carolina.

*North Carolina Supreme Court: six judges; one head judge called the Chief Justice; serve 8-year terms; elected by voters*

Michael F. Easley's inauguration as Governor of North Carolina follows nearly two decades of public service, spent fighting crime, protecting children and the elderly, and standing up for working families. Easley, born in 1950, is the first post-World War II "baby boomer" to be elected as Governor of North Carolina.

Mike Easley was first elected to public office in 1982 when, at age 31, he became District Attorney for the 13th Judicial District in Brunswick, Bladen, and Columbus counties. He was one of the state's youngest district attorneys, and he used his youthful energies to battle drug trafficking and public corruption along the district's coastline, achieving one of the highest drug conviction rates in the state. Easley prosecuted South American drug kingpins and was recognized as one of the nation's top "Drug-Busters" by USA Today. While serving as a district attorney, Mike Easley boldly ignored political threats and directed the prosecution of numerous corrupt public officials in his district.

As district attorney, he developed the first Rape and Child Abuse Victim Assistance program operated out of a district attorney's office. He also worked with the General Assembly to create investigative grand juries, a tool he then used to prosecute major drug traffickers. In addition, he also helped to create the Fair Treatment to Victims Act.

Mike Easley was elected North Carolina's Attorney General in 1992, recording the highest-ever vote total for any candidate in North Carolina. When he was re-elected to the state's top law enforcement position in 1996, Easley was again the state's top vote-getter, receiving nearly 60% of votes cast.

Soon after taking office as the Attorney General, Easley waged an aggressive and high-profile fight against consumer fraud, using the tools of litigation, legislation, and consumer education to prevent North Carolinians from falling prey to scam artists. His efforts have resulted in a dramatic decrease in fraudulent telemarketing calls in North Carolina. In the wake of Hurricanes Fran and Floyd, Easley quickly initiated the pursuit and prosecution of home-repair scam artists.

One of Attorney General Easley's first priorities was to restore meaningful punishment to North Carolina's criminal justice system. Working closely with members of the General Assembly, prison officials, judges, prosecutors, and local law enforcement, he successfully challenged the federal court order that limited the state's prison population. The removal of this prison "cap" has kept thousands of violent criminals behind bars. Combined with the state's structured sentencing law, this action has resulted in a doubling of the average time served by violent felons. During Easley's eight years as Attorney General, North Carolina's violent crime rate fell by 15% and its murder rate dropped by 21%. Easley also worked to impose alternative punishments and establish drug treatment courts for non-violent offenders, to institute a statewide "Safe Neighborhoods" program, and
to give law enforcement officers better tools to fight violent crime.

In his role as leader of the North Carolina Department of Justice, Mike Easley spearheaded efforts to reach a national tobacco settlement and played a pivotal role in brokering the $206 billion dollar deal—the largest financial recovery in history. His efforts will bring an unprecedented $5 billion in revenue to North Carolina over the coming years. The settlement also promises to be a giant step towards bringing stability to the state's tobacco industry and tobacco farmers.

Attorney General Easley’s legislative achievements have included pushing new laws through the General Assembly that created "weapon-free" state school zones, removed the spousal defense for rape, ensured "truth in sentencing," attacked telemarketing fraud and predatory lending, and prevented youth access to tobacco products. He was also a strong advocate for the Victim’s Rights Amendment, ratified by North Carolina voters in November 1996.

While Attorney General, Easley also led the successful effort to create the nation’s first Business Court in North Carolina in an effort to better serve the legal needs of businesses and provide an incentive to attract industry and jobs to the state. He successfully argued before the North Carolina Supreme Court the case that established the right of governments to provide targeted economic incentives to companies, enabling the state and municipalities more effectively to recruit companies and increase the number of good jobs in North Carolina.

With the support of the state’s leading environmental organizations, Easley recently reached landmark agreements with major hog producers to develop environmentally superior technologies to treat hog waste and better protect the state’s rivers and streams.

In recognition of his professional accomplishments, Easley has received several awards including the North Carolina Association of Black County Officials' Humanitarian Award and the North Carolina Chapter of the American Academy of Pediatrics' Excellence in Public Service for Children Award. Easley also received North Carolina Common Cause’s 1999 Leadership in State Government Award for his efforts to strengthen North Carolina’s campaign finance reform laws and to maintain the state ban on corporate contributions to political candidates.

In recognition of his public health initiatives, Easley received the 1998 Health Policy Award from the state Heart and Lung Associations, and the Cancer Society.

Mike Easley began his campaign for governor by vowing to continue his fight for working families: "I am running for governor because I want to guarantee that the working men and women of this state—the people who get up early, fight traffic, do the dishes, and pay the bills—have a champion in Raleigh. They deserve someone who will speak frankly about the challenges facing this state and who will carry forward the progressive spirit that has been North Carolina’s hallmark for the past 100 years."

Easley also pledged that his administration would be committed to uniting North Carolina and making sure every family can prosper in the New Economy: "I am running for governor to make sure that North Carolina grows and that, as changes occur around us, our working families get a fair share in the process and a fair share of the prosperity that comes our way. Every region and every citizen of North Carolina must be included."

Born in Nash County, just outside Rocky Mount, Easley was raised on a tobacco farm, the second of seven children. His parents, Huldah and Alex, instilled in their children the importance of a good education and hard work. After graduating from Rocky Mount High School in 1968 Easley received his B.A. in Political Science from the University of North Carolina in 1972 with honors. In 1976, he earned his law degree from North Carolina Central University School of Law, where his wife Mary now serves as a professor of law. He graduated cum laude from law school and also served as Managing Editor of the Law Review.

Easley is an avid hunter and sailor and an accomplished woodworker. He and his wife Mary have one child, Michael, Jr., age 15.

Local Government

County Government

Counties: 100
County Seat: Town or city where county government conducts business (like a state’s capital city)
Governing Body: County Board of Commissioners – elected by citizens of county; serve 2-4 year terms; 2-7 member board

Municipal Government

Municipal governments are city or town governments. There are two forms of municipal government in North Carolina: mayor-council and council-manager.

Mayor-Council Form
Mayor: represents the city or town
Council: makes laws for the city

Council-Manager Form
Council: makes plans for the city; appoints a city manager
City Manager: manages all city services; appoints department heads

For more information on county and municipal governments, contact:
NC League of Municipalities
PO Box 3069
Raleigh, NC 27602-3069

Pope Air Force Base – Spring Lake
Seymour Johnson Air Force Base - Goldsboro
North Carolina History

North Carolina Firsts

- The first state art museum in the country is located in Raleigh.
- The University of North Carolina was the first public university in the United States to open its doors.
- Babe Ruth hit his first professional home run in Fayetteville on March 7, 1914.
- The first English colony in America was located on Roanoke Island.
- The first outdoor drama in America, *The Lost Colony*, is staged every year in Manteo, North Carolina.
- The first X-ray photograph was made on January 12, 1896, by Dr. Henry Louis Smith of Greensboro.
- Cabarrus County, North Carolina was the site of America’s first gold rush.
- North Carolina established the first state-supported symphony orchestra in the nation in 1946.
- The nation’s first black textile mill was owned and operated by Warren C. Coleman of Concord, North Carolina.
- Harriet Abigail Morrison Irwin of Mecklenburg County was the first American woman to receive a patent for architectural innovation.
- In 1969, North Carolina chartered the first totally natural habitat zoo in the United States.
- In 1942, Thomas Oxendine of Pembroke became the first Native American to graduate from the United States Naval Flight School.
- In 1992, Eva Clayton became the first woman in North Carolina history elected to Congress.
- The first Pepsi was created and served in New Bern, North Carolina in 1898.

Highlights from History

1500’s Three major Native American language families exist in what is now North Carolina: Algonquian, Iroquoian, and Siouan.
1524 Giovanni de Verrazzano explored the North Carolina coast.
1526 Spanish and Africans led by Lucas Vasquez de Avalon attempt to start a colony on the Roanoke River.
1540 Spanish explorer Hernando de Soto explored southwestern North Carolina in search of gold.
1584 Sir Walter Raleigh sends Amadas and Barlowe to explore North Carolina.
1585 English establish their first colony at Roanoke Island.
1587 Second group of colonists – The Lost Colony – arrive on Roanoke Island.
1663 King Charles II gave Carolina to the eight Lords Proprietors.
1705 Bath founded – first town in North Carolina.
1711 Tuscarora Indian War in North Carolina.
1729 North Carolina became a royal colony.
1770 Tryon Palace completed.
1774 Edenton Tea Party
1775 Mecklenburg Declaration of Independence
1776 Halifax Resolves, Battle of Moore’s Creek Bridge
1781 Battle of Guilford Courthouse
1789 North Carolina becomes 12th state.
1795 Raleigh becomes state capital.
1795 First state university, the University of North Carolina, opened.
1799 Gold discovered in North Carolina – Reed Gold Mine.
1813 First Cotton Mill in North Carolina
1818 First steamboat in North Carolina
1828 Andrew Jackson became the 7th president of the United States; Dismal Swamp Canal completed.
1838 First operating live mine in the United States opened near Lexington; Cherokee Indians are forced west along the “Trail of Tears”.
1840 First steam-powered locomotive completed in North Carolina; First public school opens in North Carolina.
1845 James K. Polk becomes the 11th president of the United States.
1865 Andrew Johnson becomes the 17th president of the United States.
1877 North Carolina organizes the Department of Agriculture.
1888 First furniture-making factory in High Point
1901 Governor Charles B. Aycock began campaign to improve public schools.
1903 Wright Brothers make first successful flight at Kitty Hawk.
1918 Fort Bragg established.
1921 State highway system begins.
1940 Great Smoky Mountains National Park dedicated
1943 Pembroke State College (now UNC-Pembroke) becomes nation’s first public four year college for Native Americans.
1959 Research Triangle Park opened.

Geography of North Carolina

Location
Absolute Location: Between 33 degrees North and 37 degrees North latitude; between 75 degrees West and 85 degrees West longitude.

Relative Location: North Carolina is located in the southeast region of the United States. The state is bordered by Virginia to the north, Tennessee to the west, South Carolina to the south, and Georgia to the southwest. The Atlantic Ocean forms North Carolina’s eastern border.

Landforms

There are three distinct landforms of the Southeast and of North Carolina: the Coastal Plain, the Piedmont, and the Appalachian Mountains.

The Coastal Plain is low, flat to gently sloping land that extends along the Atlantic Ocean and the Gulf of Mexico. Much of the Southeast lies within the Coastal Plain.

The Piedmont, characterized by hilly, rolling land, borders the Coastal Plain. The Piedmont extends from Virginia to Alabama.

The Appalachian Mountains, the largest range in the eastern United States, stretch from Canada to northern Alabama.

Regions

The three landforms of North Carolina make up the three major geographic regions of the state: the Coastal Plain, the Piedmont, and the Mountains.

Coastal Plain

North Carolina’s Coastal Plain is low, flat land along the Atlantic Ocean. It is often divided into two parts – the Outer Coastal Plain and the Inner Coastal Plain.

The Outer Coastal Plain is made up of the Outer Banks and the Tidewater region. The Outer Banks are a string of barrier islands separated from the mainland by sounds or inlets. The largest islands in the Outer Banks are Bodie, Hatteras, Ocracoke, Portsmouth, and the Core Banks. Three capes are part of the Outer Banks: Cape Hatteras, Cape Lookout, and Cape Fear. Near these capes are dangerous shoals, or underwater sandbars which are hazards to ships. Cape Hatteras is known as the Graveyard of the Atlantic because shifting sand has caused many ships to run aground. The Outer Banks stretch more than 175 miles along the coast.

The Tidewater is the area along the coast close to sea level. The mouths of the major streams and rivers empty into sounds or the ocean. There are seven sounds in the Tidewater region: Pamlico, Albemarle, Currituck, Croatan, Roanoke, Core, and Bogue Sounds. This region has many low-lying areas called wetlands, where water covers the land. The Great Dismal Swamp, a series of swamps scattered from Virginia, to North Carolina, South Carolina, and Georgia, is North Carolina’s largest wetland area. It covers about 750 square miles, making it one of the largest swamps in the United
Swamps. The Tidewater is the only place in the world where the Venus Flytrap plant grows naturally.

The **Inner Coastal Plain**, a higher, drier area, begins west of the Tidewater. The rich, sandy soil here is some of the state’s best farmland. In the southwestern corner of the Inner Coastal Plain are the Sandhills, a subregion of rolling, sandy hills. This area has the highest elevation on the Coastal Plain, ranging from about 900 to 1,000 feet above sea level. Longleaf pines are native to this area.

**The Piedmont**

The Piedmont is the middle region of the state, located between the Coastal Plain and the Mountain regions. Piedmont is a French word meaning “foot of the mountain.” The elevations of this region range from about 300 feet in the western Coastal Plain to about 1,500 feet near the mountains. The boundary between the Coastal Plain and the Piedmont is called the fall line or fall zone. Along this area, rivers flow from the older, harder rocks of the Piedmont to the softer rocks of the Coastal Plain. Along the fall line, rivers form shoals, low waterfalls, and rapids. Below the fall line, streams are usually sluggish and smooth-flowing. Above the fall line, the streams are rocky and shallow, making boating difficult. The land of the Piedmont is called a plateau because it is high and mostly flat.

**The Mountains**

The western part of the state is the Mountain region. It is smaller in area that the Piedmont and Coastal Plain. The elevation in this region reaches to more than one mile high. The Blue Ridge Mountains separate the Piedmont from the Mountain region. Other ranges in the Mountain region include the Bald, Balsam, Black, Brushy, Great Smoky, Iron, Pisgah, Stone, and Unaka. All of these ranges are part of the larger Appalachian Mountains, possibly the oldest mountains in the United States. North Carolina has at least 40 mountains that rise to 6,000 feet and 100 that rise more than 5,000 feet. Mount Mitchell in the Black Mountain range is 6,684 feet high. This is the highest point in North Carolina and the highest in the United States east of the Mississippi River. The Eastern Continental Divide runs east from those flowing west. Rivers on the eastern side of the divide flow east toward the Atlantic Ocean. Rivers that run on the western side of the divide flow toward the Tennessee and Ohio rivers and into the Gulf of Mexico.
Recreation and Places to Visit

North Carolina is the nation’s variety vacation land, ranking eighth in the nation for visitation. Recreational opportunities abound throughout the state. Boating, swimming, saltwater fishing, and most other water sports are enjoyed along the North Carolina coast. The mountains offer scenic beauty and a variety of activities, including hiking, golfing, whitewater rafting, and skiing. Horseback riding, boating, fishing and golfing are popular activities in the piedmont region. North Carolina is recognized worldwide for its more than 450 golf courses located throughout the state.

Recreation areas in North Carolina include the Great Smoky Mountain National Park, the Blue Ridge Parkway, Cape Hatteras and Cape Lookout National Forests, and 36 state parks and recreation areas. Park facilities include more than 60 public campgrounds. In addition, North Carolina has more than 300 private camping facilities. The North Carolina Zoological Park, the nation’s first state operated national-habitat zoo, is located in Asheboro. Other attractions include Carowinds theme park and the Charlotte Motor Speedway.

*In 2004 domestic travelers spent $13.3 billion across the state.*

North Carolina is a wonderland of cultural and historic activities and sites. Symphonies, museums, summer theaters, and art and crafts festivals are found throughout North Carolina. Some of the state’s most popular cultural attractions include the North Carolina Museum of Art, the North Carolina Museum of Natural History, the American Dance Festival, “The Lost Colony” Outdoor Drama, the North Carolina Symphony and the North Carolina Maritime Museum in Carteret County.

Historic sites include the Wright Brothers National Memorial, restored Old Salem Village, the Carl Sandburg and Thomas Wolfe homes, Tryon Palace, Biltmore House and Gardens, Roanoke Island, Cape Hatteras Lighthouse, Duke University Museum of Art, and the Woolworth’s Building in Greensboro, the location where, in 1960, four black students from North Carolina A&T University seated themselves at a “whites only” counter.
