ARL Academic Law Library Statistics 2007–2008

The tables presented in this publication are not indicative of performance and outcomes and should not be used as measures of library quality. In comparing any individual library to ARL medians or to other ARL members, one must be careful to make such comparisons within the context of differing institutional and local goals and characteristics.

The *ARL Academic Law Library Statistics* datafiles and accompanying documentation are available at www.arl.org/stats/annualsurveys/law/index.shtml.

HIGHLIGHTS
ARL ACADEMIC LAW LIBRARY STATISTICS 2007–2008

- Out of 113 ARL university libraries, 74 responded to this survey.¹
- Law libraries reported median values of 345,935 volumes held and 8,033 gross volumes added. Also, these libraries employed the full-time equivalent of 2,129 staff members in the fiscal year 2007–2008.
- Responding libraries reported total expenditures of \$215,630,657.² As seen in the graph below, materials expenditures made up the largest portion of the total, with 47% of aggregated expenses falling under a materials-related category.
- Law libraries reported a total of \$20,345,053 on electronic materials, or a median of 22% of their total materials budgets. This includes a total of \$17,200,532 on electronic serials.

EXPENDITURES IN ARL ACADEMIC LAW LIBRARIES 2007–2008

¹ 80 ARL university libraries included data for a Law library in the 2007–2008 *ARL Statistics*; among them, Alberta, British Columbia, Laval, Louisville, Manitoba, Toronto and Wayne State did not complete this survey. Alberta, Louisville and Toronto completed this survey in the past, but chose not to complete this survey in 2007-08. Colorado completed this survey but did not include a law library in the *ARL Statistics*. Rutgers has two administratively independent Law libraries, which respond separately to this survey; they are aggregated together in the *ARL Statistics*.

² This figure includes Canadian universities, whose expenditures were converted to U.S. dollars at the rate of 1.0101 Can\$ = 1 US\$, the average monthly noon exchange rate published in the *Bank of Canada Review* for the period July 2007–June 2008.

ARL STATISTICS QUESTIONNAIRE, 2007–2008

INSTRUCTIONS FOR COMPLETING THE QUESTIONNAIRE

General Instructions

Definitions of statistical categories can be found in NISO Z39.7-2004, *Information Services and Use: Metrics & statistics for libraries and information providers--Data Dictionary* (<http://www.niso.org/>). ARL has been modifying the interpretation of the standard definitions to address questions posed by library staff at various member institutions that complete the survey and with feedback from the ARL Statistics and Assessment Committee (<http://www.arl.org/stats/program/meeting.html>).

Please do not use decimals. All figures should be rounded to the nearest whole number.

Please respond to every question. If an exact figure cannot be provided, use NA/UA to indicate that the figure is either unavailable or not applicable. If the appropriate answer is zero or none, use 0.

Although the form allows for data to be entered from both main and branch campuses, an effort should be made to report figures for the main campus only. (The US National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS) defines a **branch institution** as “a campus or site of an educational institution that is not temporary, is located in a community beyond a reasonable commuting distance from its parent institution, and offers organized programs of study, not just courses.”) If figures for libraries located at branch campuses are reported, please specify which branch libraries are included and which ones are excluded in the notes below.

A **branch library** is defined as an auxiliary library service outlet with quarters separate from the central library of an institution, which has a basic collection of books and other materials, a regular staffing level, and an established schedule. A branch library is administered either by the central library or (as in the case of some law and medical libraries) through the administrative structure of other units within the university. Departmental study/reading rooms are not included.

The questionnaire assumes a fiscal year ending **June 30, 2008**. If your fiscal year is different, please indicate this in the notes below by adjusting the reporting period.

Footnotes. Explanatory footnotes will be included with the published statistics. Provide any notes you may have in the footnotes area at the end of the survey. Reporting libraries are urged to record there any information that would clarify the figures submitted in that line, e.g., the inclusion and exclusion of branch campus libraries. Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Specific Instructions

Question 1. Volumes in Library. Use the ANSI/NISO Z39.7-2004 definition for **volume** as follows:

*a single physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, distinguished from other units by a separate binding, encasement, portfolio, or other clear distinction, which has been **cataloged, classified, and made ready for use**, and which is typically the unit used to charge circulation transactions. Either a serial volume is bound, or it comprises the serial issues that would be bound together if the library bound all serials.*

Include duplicates and bound volumes of periodicals. For purposes of this questionnaire, unclassified bound serials arranged in alphabetical order are considered classified. Exclude microforms, maps, nonprint materials, and uncataloged items. If any of these items cannot be excluded, please provide an explanatory footnote

Include government document volumes that are accessible through the library's catalogs regardless of whether they are separately shelved. “Classified” includes documents arranged by Superintendent of Documents, CODOC, or similar numbers. “Cataloged” includes documents for which records are provided by the library or downloaded from other sources into the library's card or online catalogs. Documents should, to the extent possible, be counted as they would if

they were in bound volumes (e.g., 12 issues of an annual serial would be one or two volumes). Title and piece counts should not be considered the same as volume counts. If a volume count has not been kept, it may be estimated through sampling a representative group of title records and determining the corresponding number of volumes, then extrapolating to the rest of the collection. As an alternative, an estimate may be made using the following formulae:

52 documents pieces per foot
10 "traditional" volumes per foot
5.2 documents pieces per volume

Include e-book units, as long as these e-books are owned or leased and have been cataloged by your library. Include electronic books purchased through vendors such as NetLibrary® or Books 24x7, and e-books that come as part of aggregate services. Include individual titles of e-book sets that are treated as individual reference sources. Include locally digitized electronic books and electronic theses and dissertations. Provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles in a note.

Include volumes purchased collectively where the cost is shared at the time of purchase.

If either formulas or sampling are used for deriving your count, please indicate in a footnote.

Question 1b. Volumes Added. Include only volumes cataloged, classified, and made ready for use. Include government documents if they have been included in the count of volumes on line 1a. Do not include as part of Volumes Added Gross any government documents or other collections (such as large gift collections or e-book packages) that were added to the collection as the result of a one time download or addition to the OPAC. Include these items in Volumes Held of the previous year (Line 1a) and provide a footnote explaining the revision of Line 1a.

Question 2. Monographic Volumes Purchased. Report number of volumes purchased; do not include volumes received or cataloged. Include all volumes for which an expenditure was made during 2007–2008, including volumes paid for in advance but not received during the fiscal year. Include monographs in series and continuations. Include e-books that fit the NetLibrary® model, i.e., electronic manifestations of physical entities and/or units; provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles. If only number of titles purchased can be reported, please report the data and provide an explanatory footnote.

Question 3: Basis of Volume Count. A physical count is a piece count; a bibliographic count is a catalog record count.

Questions 4–5. Serials. Use the following definition adapted from AACR2 for a serial:

A bibliographic resource issued in a succession of discrete parts, usually bearing numbering, that has no predetermined conclusion. Examples of serials include journals, magazines, electronic journals, continuing directories, annual reports, newspapers, and monographic series.

Report the total number of **unique** serial titles, NOT SUBSCRIPTIONS, that you currently acquire and to which you provide access. Do not include duplicate counts of serial titles. Report each title once, regardless of how many subscriptions or means of access you provide for that title. Exclude unnumbered monographic and publishers' series. Electronic serials acquired as part of a bundle or an aggregated package should be counted at the title level, even if they are not cataloged, as long as the title is made accessible directly by the library (e.g., through a finding aid). If access is provided only through the overall platform or aggregator, do not report the individual titles but count the package as a single title.

Question 4a. Serial titles currently purchased. In the case of consortial agreements, count under 'serial titles currently purchased' those titles for which the library pays any amount from its budgeted expenditures. Include all titles that are part of bundles or aggregated packages, even if your library makes a partial payment for access to those titles. If a purchased title includes electronic access to the title, count that title **ONLY ONCE (DEDUPED)** as electronic only. If a database includes full-text and abstracted titles, the number of full-text titles can be counted.

Question 4b. Serial titles: Not Purchased. Report other titles that your library receives and does not pay for directly under 'serial titles received but not purchased.' These titles may include exchanges, gifts, etc.

If serial titles have been purchased through a consortium whose budget is centrally funded and independent from the library's budget, these serials should be reported under 'serial titles currently received but not purchased.' If within a purchased or aggregated package it cannot be determined that some titles are not purchased, report all titles as purchased.

Freely accessible titles are those your library provides direct access to via cataloging records or through online serial lists of other finding aids.

To the extent possible, report all government document serials separately in 4b.iv.

If separate counts of non-purchased and purchased serial titles are not available, report only the total number of serial titles currently purchased and received on line 4, and report U/A for lines 4a and 4b.

Question 6. Microforms. Report the total number of physical units: reels of microfilm, microcards, and microprint and microfiche sheets. Include all government documents in microform; provide a footnote if documents are excluded.

Question 7. Government documents. Report the total number of physical units (pieces) of government documents in paper format that have not been counted elsewhere. Include local, state, national, and international documents; include documents purchased from a commercial source if shelved with separate documents collections and not counted above. Include serials and monographs. To estimate pieces from a measurement of linear feet, use the formula $1 \text{ foot} = 52 \text{ pieces}$ and indicate in a footnote that the count is based on this estimate. Exclude microforms and non-print formats such as maps or CD-ROMs. Adjust line 1a, i.e., last year's Volumes Held, and provide a footnote if you are adding records to the OPAC for government documents previously held but not counted as part of Volumes Held (line 1a).

Question 8. Computer files. Include the number of pieces of computer-readable disks, tapes, CD-ROMs, and similar machine-readable files comprising data or programs that are locally held as part of the library's collections available to library clients. Examples are US Census data tapes, sample research software, locally mounted databases, and reference tools on CD-ROM, tape or disk. Exclude bibliographic records used to manage the collection (i.e., the library's own catalog in machine-readable form), library system software, and microcomputer software used only by the library staff.

Question 9. Manuscripts and archives. Include both manuscripts and archives measured in linear feet.

Question 10. Cartographic materials. Include the numbers of pieces of two- and three-dimensional maps and globes. Include satellite and aerial photographs and images.

Question 11. Graphic materials. Include the number of pieces of prints, pictures, photographs, postcards, slides, transparencies, film strips, and the like.

Question 12. Audio materials. Include the number of pieces of audiocassettes, phonodiscs, audio compact discs, reel-to-reel tapes, and other sound recordings.

Question 13. Film and video materials. Include the number of pieces of motion pictures, videocassettes, video laser discs, and similar visual materials.

Questions 14-20. Expenditures. Report all expenditures of funds that come to the library from the regular institutional budget, and from sources such as research grants, special projects, gifts and endowments, and fees for service. (For question 17, include non-library funds; see instruction Q17.) Do not report encumbrances of funds that have not yet been expended. **Canadian libraries should report expenditures in Canadian dollars.** (For your information, if interested in determining figures in US dollars, divide Canadian dollar amounts by 1.0101, the average monthly noon exchange rate published in the Bank of Canada *Review* for the period July 2007–June 2008.) **Please round figures to the nearest dollar.**

Question 15a. Monographs. Report expenditures for volumes purchased counted on line 2.

Question 15b. Serial titles. Report expenditures for serial titles counted on line 4a. Exclude unnumbered monographic and publishers' series, and encumbrances.

Question 15c. Other library materials. Include expenditures for all materials not reported in Questions 15a and 15b, e.g., backfiles of serials, charts and maps, audiovisual materials, manuscripts, etc. If expenditures for these materials are included in lines 15a and/or 15b and cannot be disaggregated, please report U/A and provide a footnote. Do not include encumbrances.

Question 15d. Miscellaneous expenditures. Include any other **materials funds expenditures** not included in questions 15a-c, e.g., expenditures for bibliographic utilities, literature searching, security devices, memberships for the purposes of publications, etc. Please list categories, with amounts, in a footnote. **Note:** If your library does not use materials funds for non-materials expenditures—i.e., if those expenditures are included in “Other Operating Expenditures”— **report 0, not U/A**, on line 15d.

Question 16. Contract Binding. Include only contract expenditures for binding done outside the library. If all binding is done in-house, state this fact and give in-house expenditures in a footnote; do not include personnel expenditures. (This figure should also be reported in the 2007–2008 ARL Preservation Survey, question 7b.)

Questions 17. Salaries and wages. Exclude fringe benefits. If professional and support staff salaries cannot be separated, enter U/A, on lines 17a and 17b and enter total staff on line 17.

Question 17c. Salaries and wages: Student Assistants. Report 100% of student wages regardless of budgetary source of funds. Include federal and local funds for work study students.

Question 19. Other operating expenditures. Exclude expenditures for buildings, maintenance, and fringe benefits.

Questions 21–25. Electronic expenditures. These items are intended to indicate what portion of your institution's total library expenditures are dedicated to electronic resources and services. Please use the Footnotes to indicate any electronic materials expenditures you believe not to be covered by these questions. **Many expenditures recorded in these questions should have been included in Question 20, total library expenditures.**

Question 21. One-time electronic resource purchases. Report expenditures that are not current serials (i.e. are non-subscription, one-time, or monographic in nature) for software and machine-readable materials considered part of the collections. Examples include periodical backfiles, literature collections, one-time costs for JSTOR membership, etc. Expenditures reported here may be derived from any of the following categories: Monographs (Q15a), Other Library Materials (Q15c), Miscellaneous (Q15d), or Other Operating Expenditures (Q19).

Question 22. Ongoing electronic resource purchases. Report subscription expenditures (or those which are expected to be ongoing commitments) for serial publications whose primary format is electronic and for online searches of remote databases such as OCLC FirstSearch, DIALOG, Lexis-Nexis, etc. Examples include paid subscriptions for electronic journals and indexes/abstracts available via the Internet, CD-ROM serials, and annual access fees for resources purchased on a “one-time” basis, such as literature collections, JSTOR membership, etc. Not all items whose expenditures are counted here will be included in Serial titles currently received (Question 4) or Serials Expenditures (Question 15b).

Q23. Bibliographic Utilities, Networks, and Consortia. Because it is increasingly common for ARL Libraries to enter into consortial arrangements to purchase access to electronic resources, both “Library” and “External” expenditure blanks and instructions are provided. Please use a footnote to describe expenditures that you believe are not covered by the question, or situations that do not seem to fit the instructions.

Q23a. From internal library sources. Report expenditures paid by the Library for services provided by national, regional, and local bibliographic utilities, networks, and consortia, such as OCLC and RLG, unless for user database access and subscriptions, which should be reported in Questions 21 or 22. Include only expenditures that are part of Other Operating Expenditures (Q19).

Q23b. From external sources. If your library receives access to computer files, electronic serials or search services through one or more centrally-funded system or consortial arrangements for which it does not pay fully and/or directly

(for example, funding is provided by the state on behalf of all members), enter the amount paid by external bodies on its behalf. If the specific dollar amount is not known, but the total student FTE for the consortium and amount spent for the academic members are known, divide the overall amount spent by your institution's share of the total student FTE.

Q24. Computer hardware and software. Report expenditures from the library budget for computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer, and whether for staff or public use. Include expenditures for: maintenance; equipment used to run information service products when those expenditures can be separated from the price of the product; telecommunications infrastructure costs, such as wiring, hubs, routers, etc. Include only expenditures that are part of Other Operating Expenditures (Q19).

Q25. Document Delivery/Interlibrary Loan. Report expenditures for document delivery and interlibrary loan services (both borrowing and lending). Include fees paid for photocopies, costs of telefacsimile transmission, royalties and access fees paid to provide document delivery or interlibrary loan. Include fees paid to bibliographic utilities if the portion paid for interlibrary loan can be separately counted. Include only expenditures that are part of Miscellaneous Materials Expenditures (Q15d) or Other Operating Expenditures (Q19), and only for those ILL/DD programs with data recorded in Questions 34-35.

Questions 26. Personnel. Report the number of FTE (full-time equivalent) staff in filled positions, or positions that are only temporarily vacant. ARL defines temporarily vacant positions as positions that were vacated during the fiscal year for which ARL data were submitted, for which there is a firm intent to refill, and for which there are expenditures for salaries reported on line 17.

Include cost recovery positions and staff hired for special projects and grants, but provide an explanatory footnote indicating the number of such staff. If such staff cannot be included, provide a footnote. To compute full-time equivalents of part-time employees and student assistants, take the total number of hours per week (or year) worked by part-time employees in each category and divide it by the number of hours considered by the reporting library to be a full-time work week (or year). **Round figures to the nearest whole numbers.**

Question 26a. Professional Staff. Since the criteria for determining professional status vary among libraries, there is no attempt to define the term "professional." Each library should report those staff members it considers professional, including, when appropriate, staff who are not librarians in the strict sense of the term, for example computer experts, systems analysts, or budget officers.

Question 26b. Support Staff. Report the total FTE (see instruction 26) of staff not included in 26a.

Question 26c. Student Assistants. Report the total FTE (see instruction Q26) of student assistants employed on an hourly basis whose wages are paid from funds under library control or from a budget other than the library's, including federal work-study programs. Exclude maintenance and custodial staff.

Question 27. Number of staffed library service points. Count the number of staffed public service points in the main library and in all branch libraries reported in this inventory, including reference desks, information desks, circulation, current periodicals, reserve rooms, reprographic services (if staffed as a public facility), etc. Report the number of designated locations, not the number of staff.

Question 28. Number of weekly public service hours. Report an unduplicated count of the total public service hours per typical full-service week (i.e., no holidays or other special accommodations) across both main library and branches using the following method (corresponds to IPEDS): If a library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, it should report 40 hours per week. If several of its branches are also open during these hours, the figure remains 40 hours per week. Should Branch A also be open one evening from 7:00 p.m. to 9:00 p.m., the total hours during which users can find service somewhere within the system becomes 42 hours per week. If Branch B is open the same hours on the same evening, the count is still 42, but if Branch B is open two hours on another evening, or remains open two hours later, the total is then 44 hours per week. **Exclude 24-hour unstaffed reserve or similar reading rooms.** The maximum total is 168 (i.e., a staffed reading room open 7 days per week, 24 hours per day).

Questions 29–30. Instruction. Sampling based on a typical week may be used to extrapolate TO A FULL YEAR for Questions

29 and 30. Please indicate if responses are based on sampling.

Question 29. Presentations to Groups. Report the total number of sessions during the year of presentations made as part of formal bibliographic instruction programs and through other planned class presentations, orientation sessions, and tours. If the library sponsors multi-session or credit courses that meet several times over the course of a semester, each session should be counted. Presentations to groups may be for either bibliographic instruction, cultural, recreational, or educational purposes. Presentations both on and off the premises should be included as long as they are sponsored by the library. Do not include meetings sponsored by other groups using library meeting rooms. Do not include training for library staff; the purpose of this question is to capture information about the services the library provides for its clientele. Please indicate if the figure is based on sampling.

Question 30. Participants in Group Presentations. Report the total number of participants in the presentations reported on line 29. For multi-session classes with a constant enrollment, count each person only once. Personal, one-to-one instruction in the use of sources should be counted as reference transactions on line 31. Please indicate if the figure is based on sampling. Use a footnote to describe any special situations.

Question 31. Reference Transactions. Report the total number of reference transactions. A **reference transaction** is

an information contact that involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include (a) printed and nonprinted material; (b) machine-readable databases (including computer-assisted instruction); (c) the library's own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library. When a staff member uses information gained from previous use of information sources to answer a question, the transaction is reported as a reference transaction even if the source is not consulted again.

If a contact includes both reference and directional services, it should be reported as one reference transaction. Include virtual reference transactions (e.g., e-mail, WWW form, chat). Duration should not be an element in determining whether a transaction is a reference transaction. Sampling based on a typical week may be used to extrapolate TO A FULL YEAR for Question 31. Please indicate if the figure is based on sampling.

EXCLUDE SIMPLE DIRECTIONAL QUESTIONS. A directional transaction is an information contact that facilitates the logistical use of the library and that does not involve the knowledge, use, recommendations, interpretation, or instruction in the use of any information sources other than those that describe the library, such as schedules, floor plans, and handbooks.

Questions 32–33. Circulation. For Question 32, count the number of initial circulations during the fiscal year from the general collection for use usually (although not always) outside the library. Do not count renewals. Include circulations to and from remote storage facilities for library users (i.e., do not include transactions reflecting transfers or stages of technical processing). Count the total number of items lent, not the number of borrowers.

For Question 33, report total circulation for the fiscal year including initial transactions reported on line 32 and renewal transactions. Exclude reserve circulations; these are no longer reported.

Questions 34–35. Interlibrary Loans. Report the number of requests for material (both returnables and non-returnables) provided to other libraries on line 34 and the number of filled requests received from other libraries or providers on line 35. On both lines, include originals, photocopies, and materials sent by telefacsimile or other forms of electronic transmission. Include patron-initiated transactions. Exclude requests for materials locally owned and available on the shelves or electronically. Do not include transactions between libraries covered by this questionnaire.

Questions 36. PhD Degrees. Report the number awarded during the 2007–2008 fiscal year. Please note that only the number of **PhD** degrees are to be counted. Statistics on all other advanced degrees (e.g., DEd, DPA, MD, JD) should not be reported in this survey. If you are unable to provide a figure for PhDs only, please add a footnote.

Question 37. PhD Fields. For the purposes of this report, PhD fields are defined as the specific discipline specialties

enumerated in the US Department of Education's Integrated Postsecondary Education Data System (IPEDS) "Completions" Survey. Although the IPEDS form requests figures for all doctoral degrees, only fields in which PhDs are awarded should be reported on the ARL questionnaire. Any exceptions should be footnoted.

Question 38. Instructional Faculty. Instructional faculty are defined by the US Department of Education as

members of the instruction/research staff who are employed full-time as defined by the institution, including faculty with released time for research and faculty on sabbatical leave.

Full-time counts generally exclude faculty who are employed to teach fewer than two semesters, three quarters, two trimesters, or two four-month sessions; replacements for faculty on sabbatical leave or leave without pay; faculty for preclinical and clinical medicine; faculty who are donating their services; faculty who are members of military organizations and paid on a different pay scale from civilian employees; academic officers, whose primary duties are administrative; and graduate students who assist in the instruction of courses. Please be sure the number reported, and the basis for counting, are consistent with those for 2006–2007 (unless in previous years faculty were counted who should have been excluded according to the above definition). Please footnote any discrepancies.

Questions 39–42. Enrollment. US libraries should use the Fall 2007 enrollment figures reported to the Department of Education on the Integrated Postsecondary Education Data System survey. Please check these figures against the enrollment figures reported to ARL last year to ensure consistency and accuracy. **Note:** In the past, the number of part-time students reported was FTE; the number now reported to IPEDS is a head count of part-time students. Canadian libraries should note that the category "graduate students" as reported here includes all post-baccalaureate students.

FOOTNOTES

Please consult the data entry Web interface (www.arlstatistics.org) for a copy of last year's footnotes. These can be found under "Data Repository" after you login into www.arlstatistics.org. Explanatory footnotes will be included with the published statistics. Reporting libraries are urged to record in the footnote section any information that would clarify the figures submitted, e.g., the inclusion and exclusion of branch campus libraries (see the "General Instructions" for definition of branch campus libraries). Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Submit the completed questionnaire
by **January 30, 2009.**

For assistance, please e-mail Martha Kyrillidou (martha@arl.org) or Les Bland (les@arl.org)
Tel. (202) 296-2296.

ARL STATISTICS WORKSHEET 2007–2008

This worksheet is designed to help you plan your submission for the 2007–2008 *ARL Statistics*. The figures on this worksheet should be similar to those in the “Summary” page of your web form, except in cases where data are unavailable. If an exact figure is unavailable, use “NA/UA”. If the appropriate answer is zero or none, use “0.”

40. Part-time students, undergraduate and graduate (40) _____
(Add line 22, columns 15 & 16, and line 28, columns 15 & 16.)

41. Full-time graduate students (Line 14, columns 15 & 16.) (41) _____

42. Part-time graduate students (Line 28, columns 15 & 16.) (42) _____

FOOTNOTES

On the Web form, you will be able to add footnotes to individual questions, as well as footnotes that apply to your entire institution. Please provide any information which would clarify the figures submitted, e.g., the inclusion of branch campus libraries or any special projects which might cause radical increases or decreases. Please use the footnotes in the *ARL Statistics 2006–2007* for comparison if necessary. Please consult the data entry Web interface (www.arlstatistics.org) for a copy of last year's footnotes. These can be found under "Historical Data" by clicking a survey's arrow icon under the "View Summary" column and then selecting the "Footnotes" tab. Please make an effort to word your footnotes in

a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Submit the completed questionnaire by **January 30, 2009**.

For assistance, please e-mail Martha Kyrillidou (martha@arl.org) or Les Bland (les@arl.org)
Tel. (202) 296-2296.

FOOTNOTES

Footnotes may also include errata and corrections to data not previously reported from prior years. Numbers refer to columns in Library Data Tables and to Questionnaire numbers. Unless otherwise noted, all figures are as of 06/30/2008.

QUESTION FOOTNOTE
NUMBER

ALABAMA

All figures are as of 09/30/2008.

- 4a-4b Separate numbers of print and electronic not available.
- 10 Includes bibliographic utilities and literature searching.

ARIZONA

- 2 Number indicates titles purchased.
- 4b E-journal management tools were implemented during 2007–2008 and it became possible to identify and track journal titles that are provided to users that were not easily available for inclusion in journal title counts performed in earlier years.

ARIZONA STATE

Tempe, West, Polytechnic and Downtown Phoenix branches are not included.

- 1a Volumes held 30 June 2007 revised to 271,748.
- 7 2006–2007 figure revised to 1,255.
- 15d 2006–2007 figure under-reported.
- 42 2006–2007 figure revised to 18.

BOSTON

- 1a Volumes held 30 June 2007 revised to 632,923. The number of volumes held June 30, 2007 has changed because the Law library acquired more electronic books than originally reported in 2006–2007.

BOSTON COLLEGE

All figures are as of 05/31/2008.

- 1a Volumes held 30 June 2007 revised to 250,956. 5,132 online resources added to 2006–2007's total volume count of 245,824.
- 2 Included in this count are 5,132 e-titles: Hein Online: 303; LLMC Digital: 182; BNA ALL: 428; CALI: 718; Lexis-Nexis E-treatises: 1,389; Westlaw E-treatises: 1,946; MyILibrary ebooks: 157.
- 4 Serials for all libraries at Boston College are reported on the university library survey only (see the 2007–2008 ARL Statistics).
- 7 This count is based on 86 linear feet of material.
- 16 Binding expenses for 2007–2008 were paid for from a deposit account.

BRIGHAM YOUNG

All figures are as of 12/31/2007.

- 4ai Using the Library Catalog, we did a search restricted to items that were in the Marc format for Serials, had a hyperlink to an electronic version of the title, and were owned by the Law Library. In 2006–2007, we concluded that we had at least 1, but the Information Systems Librarian never came up with a simple method that we could reproduce every year. We now have that method and therefore each year will have the correct amount of electronic serial titles purchased.

CALIFORNIA, BERKELEY

- 1a Volumes held 30 June 2007 revised to 705,659.

CALIFORNIA, DAVIS

- 1a Volumes held 30 June 2007 revised to 297,061.
 - 1b This figure demonstrates a greater number of withdrawn duplicate volumes.
 - 9 Duplicate archival materials withdrawn.
 - 15-15b Less spent on print materials and more on electronic resources.
 - 17a Director position open during 2007–2008.
 - 17c Greater use of student help.
-

CALIFORNIA, DAVIS, cont.

- 19 Less spent on equipment than in years prior to 2007–2008.
- 20 Smaller figure than 2006–2007 because of director's vacancy and fewer one-time expenses.
- 38 The number of full time instructional faculty in 2007–2008 for the Law School is 44.
- 41 The number of full time graduate students for the Law School is 597.

CALIFORNIA, LOS ANGELES

- 4a This figure is repeated from the previous year (2006–2007). UCLA has not yet determined accurate counts for subscription titles that are obtained without cost via the internet, since these titles do not have order records in UCLA's bibliographic database. Because there is a significant increase in these titles, UCLA is devoting efforts to capturing this information in a systematic and reliable way for the next annual statistical report.
- 27 Included in the General Library Count-- 1 service point open for 97 hours.

CHICAGO

- 1 The combination of withdrawing 38,608 volumes in 2006–2007 and adding 21,804 electronic titles resulted in a 5.88% increase in the collection.
- 1b In 2007–2008 withdrew 38,608 volumes that were duplicative or available in electronic form and available in the university library.
- 2 Fewer books were purchased because there was less “carry forward” money to spend on monographs in 2007–2008 than in 2006–2007.
- 4a Number of serials is based on count of titles in serial record plus the number of unique electronic serials separately cataloged.
- 8 Purchased fewer CDs in 2007–2008.
- 12 More audio was purchased to meet instructional and professional development requests.
- 15a Fewer monographs were purchased in 2007–2008 than the previous year because in 2006–2007 accumulated carry forward money was expended.
- 17a As a result of incorrectly reporting student expenditures in 2006–2007, total salaries and wages were also underreported. The correct figure for 2006–2007 was \$1,398,523.
- 17c Student expenditures were incorrectly reported in 2006–2007 because only expenditures for part of the year were included. The correct amount for 2006–2007 expenditures was \$73,583.
- 19 Centralized indirect expenses previously not reflected in the law library budget are now attributed to the law library budget.
- 20 The 15.8% increase in total expenditures can be attributed to underreporting student expenditures in 2006–2007; an increase in support staff expenditures; filling vacant positions and the inclusion of indirect centralized costs that are now allocated to the law library budget. The correct figure for 2006–2007 was \$3,517,556.
- 23a During 2007–2008 the Provost Office and University Library along with the Law Library completed a project to track Law Library expenditures, when necessary using a prorated portion of the total of some specific library expenses. The increased account now reflects law library expenditures for OCLC and other consortia and cataloging expenses, i.e., LIPA, YPB cataloging; authority control; tables of content & book jacket services, etc.
- 24 During 2007–2008 the Provost Office and University Library along with the Law Library completed a project to track law library expenditures, when necessary using a prorated portion of the total of some specific library expenses. In previous years few of these expenses were charged back to the law library. The increased accounts now reflect law library expenditures. For example, these expenditures include: Horizon (the library's shared ILS); ARENS (the library's reserve system) Lens (Aquabrowser); Web Express, Outlook, library web site support; SFX & support for e-resource connections, the proxy server, e-links, support & equipment for both staff & public computing; digital projects server support, database development & support; maintenance agreements, campus networking payments; CIC cooperative digital depository agreement; authority control; CIC cooperative digital depository agreement; etc.

CINCINNATI

- 1b For 2006–2007, many more withdrawals were reported, affecting the “volumes added” very negatively. This is a return to more usual activity.
- 16 We are no longer binding periodicals.
- 20 Decrease in salary expenditures because of several vacancies.
- 22 Increase reflects including some resources that may not have been included in 2006–2007.
- 29-30 Instruction numbers are lower because of a position vacancy.

COLUMBIA

- 1 Includes 23,366 e-books.
-

COLUMBIA, cont.

- 15b Number for prior year (2006–2007) should have been submitted as \$2,171,546.
- 25 Correct total for Law Library is \$25,643; number is marked as UA/NA in order to submit correct overall number for Columbia (see footnote to question 25, Butler Library; 2007–2008 ARL Statistics).
- 34 Includes 5,475 for fee-based services.

CORNELL

- 1a Volumes held 30 June 2007 revised to 565,742. Change in volumes held June 30, 2007 reflects the fact that additional e-books were counted.
- 1bi Includes a small number of manually cataloged e-books.
- 4 The count was calculated before the 2007–2008 definition was released; therefore, following the 2006–2007 definition. These figures are an estimate only and 1,900 were estimated to be non-current e-titles. Print count includes non-serial continuations.
- 15d Includes shipping costs only.
- 17a Includes expenditures for librarians and "exempt" staff.
- 26a Includes librarians and "exempt" staff.
- 31 Figure was under-reported in 2006–2007 due in large part to the new sampling method.
- 32-33 Includes ILL lending and some staff transactions.
- 38 Instructional faculty count should have been 37 for 2006–2007.

DUKE

- 34 Decrease due to the renovation of the library. ILL lending was suspended during this year (2007–2008) until the renovation was completed.
- 36-42 This data is reported in the main library survey (2007–2008 ARL Statistics).

EMORY

All figures are as of 8/31/2008.

- 1a Volumes held 30 June 2007 revised to 217,631.

FLORIDA STATE

- 4 Vast differences in serials numbers are due to change in counting procedure and new categories.
- 4ai Includes 1,202 HeinOnline journal titles contained in Serial Solutions.
- 4aai Items previously counted in this category are now counted in another category.
- 4biii This entry contains items previously counted that are now reported in a different location.
- 15d Lexis/Westlaw \$86,643 and SOLINET \$7,885.
- 39, 41 2007–2008's number was included in the Main survey (see 2007–2008 ARL Statistics).

GEORGE WASHINGTON

- 15 Reduction in expenditures from 2006–2007 due to decrease in purchases of historic resources and cancellations of serials duplicated in online services.
- 17c Decrease in expenditures for student employees due to restructuring of support staff and reduced need for student workers.
- 19 Reduction in amount of equipment purchased from 2006–2007.
- 32-33 Increased circulation probably caused by increased use by graduate students and law review members.

GEORGETOWN

- 4biv Government documents are not counted separately.
- 34 Numbers for filled requested provided and received were reversed in 2006–2007. 2006–2007 response should have been 2,233; therefore, the percentage of change in 2007–2008 is actually -3.81%.
- 35 Numbers for filled requested provided and received were reversed in 2006–2007. 2006–2007 answer should have been 3,477. The percentage of change in 2007–2008 is only 1.24%.

GEORGIA

- 4b Data for law library non-purchased serials are not available.

HARVARD

- 4 Total number of unduplicated current serials titles received, including periodicals, is approximately 15,500.
- 15a Increase due to acquisitions of special collections.
- 15c, 21 Increase reflects range of expenditures for some research resources and digitization.
- 24 Increase in part due to periodic server replacement.

HAWAII

All figures are as of 07/01/2008.

Library branches included: William S. Richardson School of Law Library.

- 4 The reported serial titles figures for 2006–2007 were erroneous. The numbers reported for 2007–2008 more accurately reflect the Law School Library's holdings.
- 15d This number is also reported in (23a) and includes our bibliographic utilities, such as OCLC (\$4,372), Ex Libris (\$30,254), Cassidy Cataloging (\$3,115), Serials Solutions (\$4,000), Classification Web (\$325) and Cataloger's Desktop (\$575).
- 19 This number includes library equipment, library supplies, and professional staff development (including membership fees and travel expenses).
- 23a This number is also reported in (15d) and includes our bibliographic utilities, such as OCLC, Ex Libris, Cassidy Cataloging, Serials Solutions, Classification Web, and Cataloger's Desktop. The directions were confusing as to where these should be reported. The survey seemed to ask for them twice.

HOUSTON

- 4biv This data is included in 4biii.

HOWARD

- 1a Volumes held 30 June 2007 revised to 209,826.
- 4ai All titles in databases are counted if there is a record for them in the OPAC.

INDIANA

- 1a Volumes held 30 June 2007 revised to 449,617.
- 18 Fringe benefits are not included with figures for salaries because they are not broken down by professional and support staff. The total expenditure for fringe benefits is \$389,419.
- 38 In addition to the 63 full-time faculty members, the Law School also has approximately 6 clinical and 21 adjunct faculty members.

IOWA

- 1a Volumes held 30 June 2007 revised to 798,317.
- 2 This figure is an estimate.
- 4 Figure is lower than 2006–2007. Discrepancy is due because previously, serial subscriptions were reported and now serial titles are counted.
- 4a-4b These figures are estimates.
- 6 These are microform units. ARL has no method of calculating volumes from microforms. This figure is derived by adding microform individual units with microfilm reels.
- 17 Does not include fringe benefits and does not include Associate Dean's salary.
- 17c Includes federal government contribution.
- 20 This figure is lower than ABA figures because fringe benefits were not counted.

KANSAS

Library branches included: Wheat Law Library.

- 1a Volumes held 30 June 2007 revised to 258,761. Correction to 2006–2007's figure.
- 1bii Wide disparity in comparison to 2006–2007 due to the fact that 1 1/4 floors were lost during a remodeling transition.
- 2 Significant drop in this figure reflects significant budgetary cutback in library budget for 2007–2008.
- 12 Added several audio tapes for two different classes which were placed on reserve for students.
- 17a 2007–2008 increase reflects addition of one new position and significant raises for several others.
- 26a Added one new librarian position in 2007–2008.

KANSAS, cont.

- 34 Less materials available to lend due to remodeling in 2007–2008.
- 35 Borrowing less materials because we are getting more materials electronically now.

KENTUCKY

- 4bi-4bii Unable to “separate out” Law journals. They are included in count for the Main Library (see the 2007–2008 ARL Statistics).

LOUISIANA STATE

- 4a Used EBSCO's AtoZ overlap report to identify unique electronic serial titles. Original report included all Law packages, as well as LOUIS consortium packages, including LexisNexis Academic package since this would overlap many of our titles. Added LLMC-Digital serials which are not included in EBSCO AtoZ. Created a master list of electronic titles from this data, excluding the LOUIS consortium package titles since these are also owned by the main campus. Deduped this list and removed obvious monographs and collections from list.
- 4b Created a list of current print serials from order records.
- 4biii Created list of print serials that are not purchased from our serial control records; excluded Louisiana (State) and Federal documents, since the main campus is a regional depository.

MCGILL

All figures are as of 05/31/2008.

- 4b We do not keep separate statistics for electronic material.
- 15-25 Expenditures as reported in Canadian dollars: (15a) 378,868; (15b) 529,857; (15c) 3,139; (15d) 83,314; (15) 995,178; (16) 0; (17a) 347,557; (17b) 310,017; (17c) 28,798; (17) 686,372; (19) 10,054; (20) 1,691,604; (21) 28,862; (22) 43,836; (23a) 0; (23b) 0; (24) 0; (25) 0.
- 26 The total is 12.5 FTE.
- 26a Actual figure is 12.5 FTE.
- 26b The actual figure is 7.5 FTE.
- 35 This service is provided by the central library's Interlibrary Loan office.

MIAMI

- 17a Excludes law library director's salary.
- 36-42 Institutional-level data reported in the 2007–2008 ARL Statistics.

MICHIGAN

- 1 27,526 of these volumes are e-books.
- 1a Volumes held 30 June 2007 revised to 703,599.
- 2 1,526 are e-books
- 32-33 This figure includes reserves.

MICHIGAN STATE

- 1b, 2 Include 21,800 new e-books from the *Making of Modern Law*.
- 15d Expenditures under "Misc" increased over those reported in 2006–2007.
- 25 Expenditures for ILL/document delivery declined because fewer copyright permissions were necessary.

MINNESOTA

- 11 Audio visual breakdown for entire library system is unavailable. Law Library AV breakdown: Graphic: 0; Audio: 12; Film/Video: 62.

MISSOURI

- 39 This figure refers to law students.

NEBRASKA

Library branches included: Schmid Law library.

- 1a Volumes held 30 June 2007 revised to 240,601.
- 1b The materials budget has been heavily reduced due to budget cuts.
- 4 Unable to obtain data for electronic serials.
- 4biii This decrease is due to the decision to replace print serials with electronic versions.

NEBRASKA, cont.

- 15a-15d In order to fund serials, monographs, other library materials, miscellany have been reduced
- 16 Revisited library policy for binding and decided to reduce funding for this area.
- 17a This figure has decreased from 2006–2007 because of attrition.
- 17c The funding for student assistants was cut.
- 22 Expenditures for electronic resources continue to rise because of the demand for them. Skyrocketing serials prices are out of pace with our serials budget, so resources have been taken from other areas.
- 24 The 2007–2008 budget for computer hardware and software was cut.
- 29-30 The demand for instruction (i.e. faculty requests for it) has decreased.
- 31 Reference transactions appear to have been steadily decreasing for numerous reasons: improved signage, ability of patrons to find information independently, and a larger number of our users use the library virtually.
- 32-33 Reduced 2007–2008 circulation statistics appear to be a downward trend.
- 34 Library staff unable to account for the decrease in filled requests.
- 35 The large increase in ILL requests can be attributed to two factors. First, the law School started a new Telecommunications Law Program that is highly specialized and three faculty members were hired in this new program. Much of the research in this program is published in Europe and not available in the United States. Second, another faculty member's research is in an esoteric area that is not yet well represented in the collection.
- 39-40 There are no undergraduates in the UNL Law Programs

NORTH CAROLINA

- 36-42 See "University Library" branch figures (2007–2008 ARL Statistics) for institutional totals for questions 36-42.

NORTHWESTERN

All figures are as of 08/31/2008.

OHIO STATE

- 23b Law library total is inseparable from total university libraries figure of \$1,185,462.

OKLAHOMA

- 4a-4ai Inclusion of Law Integrating Resources. Serials statistics are reported as de-duped for all libraries.
- 4b-4biv Serials statistics are reported as de-duped for all libraries following ARL Best Practices.

OREGON

Library branches included: Jaqua Law Library.

- 1b Large number of e-books added and cataloged in 2007–2008.
- 4 Large package of e-journals purchased and cataloged for 2007–2008.
- 4ai The number of print journals is only an estimate.
- 15 Payments now performed on a normal fiscal-year cycle. Some payments were previously charged twice in one year or not at all in some years.
- 15c Paid as monographs or serials.
- 15d Abstracting and indexing services are now reported here instead of as serials expenditure.
- 21 MOML (Modeling Markup Language) payment.
- 25 Law can not be separated from main library statistics (see the 2007–2008 ARL Statistics).
- 35 This figure is incomplete- most transactions can not be separated out for the general library statistics (see the 2007–2008 ARL Statistics).

PENNSYLVANIA STATE

Library branches included: Dickinson School of Law and H. Laddie Montague, Jr. Law Library branches located at: 214 Katz Building, University Park, PA 16802; 150 S. College Street, Carlisle, PA 17013.

- 1bi E-books counted as titles because volume count unavailable (15,449).
- 2 The 2006–2007 figure included the purchase of over 21,000 e-books as part of *The Making of Modern Law* online package.

- 4 The 2006–2007 figures were a manual estimate of the number of e-serial titles. For 2007–2008, we utilized director’s station to pull the data. For 2007–2008, we were able to more accurately calculate the serial titles figure due to electronic bibloads and a reliable data retrieval method.

PENNSYLVANIA STATE, cont.

- 9 During the 2007–2008, our archival collection was physically transferred to the University Libraries Special Collections division.
10 During the 2007–2008 we discarded or donated our entire cartographic collection.
11 We own a sizable collection of historical institutional photographs, which have not been cataloged or counted in any quantifiable manner.

QUEENS

All figures are as of 04/30/2008.

- 4-4biv Included in main library survey (see 2007–2008 ARL Statistics).
5, 7 Included in main library survey (see 2007–2008 ARL Statistics).
10-11 These are incorporated in the main library report (see 2007–2008 Statistics).
15-25 Expenditures as reported in Canadian dollars: (15a) 157,679; (15b) 739,014; (15c) 5,048; (15d) 0; (15) 901,741; (16) 11,528; (17a) 119,881; (17b) 299,247; (17c) 47,120; (17) 466,248; (19) 25,391; (20) 1,404,908; (21) 0; (22) 162,866; (23a) 0; (23b) 0; (24) 0; (25) 0.
23a-24 Included in main survey (2007–2008 ARL Statistics).
34-35 Included in main survey (2007–2008 ARL Statistics).
38 This data is current as of October 2007.
39-42 This data comes from November 2007

RUTGERS, CAMDEN

- 17c Student assistants increased while recruiting for vacant staff positions.

RUTGERS, NEWARK

- 1bi, 2 2006–2007 included 24,921 e-books: Making of Modern Law Legal Treaties.
15a Includes a \$9,000 payment for e-books (World Trials).
15c \$32,345 is an installment payment on e-books (Making of Modern Law-MOML) added in 2006–2007.
33 Increase is real—we have no explanation.

SASKATCHEWAN

All figures are as of 04/30/2008.

- 27 Number of staffed library service points: 2006/07 should have reflected 2 points of service (data entry error for 2006–2007 survey showed 27 points of service).
15-25 Expenditures as reported in Canadian dollars: (15a) 113,268; (15b) 745,116; (15c) 0; (15d) 0; (15) 858,384; (16) 5,507; (17a) 209,991; (17b) 183,656; (17c) 22,426; (17) 416,073; (19) 0; (20) 1,279,964; (21) 0; (22) 0; (23a) 0; (23b) 0; (24) 0; (25) 0.

SUNY-BUFFALO

- 4ai, 4bii Included in main survey response (see 2007–2008 ARL Statistics).
17 Law Library director salary not included; paid by the Law School.
23a Included in main survey response (see 2007–2008 ARL Statistics).
23b This information was unavailable.
24 Included in main survey response (see 2007–2008 ARL Statistics).
25 This information is unavailable.
36-42 Included in main survey response (see 2007–2008 ARL Statistics).

TEMPLE

- 7 Figures reported in previous editions were for calendar years and not fiscal years.

TENNESSEE

Library branches included: College of Law Library.

- 4a Before de-duplication: Law Titles Purchased: Electronic 1,342, Print 1,724 for a total 3,066.

4b Law serials titles not purchased: no consortial or gift titles are received. Freely accessible and government document titles are received, but were not reported.

28 The College of Law Library is open 112 hours, but occurrence is within the 148 hours of operation for the University Libraries.

TEXAS

All figures are as of 08/31/2009.

TEXAS TECH

All figures are as of 08/31/2008.

VANDERBILT

30 The 2006–2007 number for Law Library was incorrect. We reported 226, but the number should have been 2,260.

VIRGINIA

Library branches not included: Alderman (main), Astronomy, Biology/Psychology, Brown Science & Engineering, Chemistry, Clemons Undergraduate, Education, Fiske Kimball Fine Arts, Math, Music, Physics, Small Special Collections, Darden Graduate Business.

1 Includes 25,579 e-books.

1bi Includes 4,579 e-books.

1bii No e-books are included.

2 3,656 e-books are included.

4 The serials figures for all University of Virginia libraries are reported in the main survey only (see 2007–2008 ARL Statistics).

36-42 Reported for all University of Virginia libraries in the main survey (see 2007–2008 ARL Statistics).

WASHINGTON

4 Law library reported only total number of serial titles and did not break down by any subcategory.

22 This includes only database fees.

WASHINGTON U.-ST. LOUIS

1 Includes 43,016 e-books broken down as follows: Making of Modern Law: 23,811; Marchive Load e-gov doc: 9,948; LexisNexis Congressional Serial set: 7,936; HeinOnline: 3,731; JATOR IV: 155; LegalTrac: 168; miscellaneous: 267.

1a Includes 31,083 e-books.

1bi Includes 11,933 e-books for 2007–2008.

4 Methodology used: add bibliographic linked record exists to check-in; add bibliographic 245 field (no microform) and bibliographic law (note field not cancelled). After auto deduping by III, this resulted in 5,788 records.

4a Search record with linked record to order and order paid amount; resulted in 2,498 records.

4biii The total of serials received is 3,258 and 1,820 are government documents. The other 1,438 were entered under print since they could not be broken down by the other categories. The total figure had to be entered in a category in order to get (4b) to add up to the bottom line.

19 Fringe benefits are included in other operating expenditures and are not included in the salary figures.

31 Reference transactions figures are not available for the Law Library.

WESTERN ONTARIO

All figures are as of 04/30/2008.

4ai Electronic resources centrally funded and made available for law library use.

15-25 Expenditures as reported in Canadian dollars: (15a) 135,618; (15b) 719,188; (15c) 0; (15d) 0; (15) 854,806; (16) 10,256; (17a) 235,966; (17b) 157,848; (17c) 10,565; (17) 404,379; (19) 13,762; (20) 1,283,203; (21) 0; (22) 0; (23a) 0; (23b) 0; (24) 0; (25) 0.

15d This is included in Main Library expenditures (centrally funded).

21-25 Centrally funded and included in the main library survey (see 2007–2008 ARL Statistics).

35 Law figures included with main library (see 2007–2008 ARL Statistics). This service is provided through a central office.

WISCONSIN

2 E-books: 4,327 (Hein Online: 3152; LLMC: 1,119; LoisLaw: 56).

4-4biv Per data source, reluctant to report partial figures and cannot track all of the relevant resources and collections.

- 15d Includes Access fees and shipping.
- 19 Operating Expenditures includes: computing, preservation, library supplies, consulting fees, library equipment and staff development.
- 36-42 Numbers reported for entire University of Wisconsin-Madison campus, regardless of discipline affiliation, school or college.

YALE

- 1a Volumes held 30 June 2007 revised to 899,997.
- 6 This is a volume equivalent.
- 17a Figure excludes director's salary.

YORK

Library branches included: Osgoode Law School Library.

All figures are as of 04/30/2008.

- 15-25 Expenditures as reported in Canadian dollars: (15a) \$198,197; (15b) \$744,693; (15c) \$46,061; (15d) \$3,830; (15) \$992,781; (16) \$26,899; (17a) \$611,286; (17b) \$698,264; (17c) \$43,869; (17) \$1,353,419; (19) \$171,250; (20) \$2,544,349; (21) 0; (22) \$153,075; (23a) \$4,274; (23b) 0; (24) \$28,000; (25) \$1,764.

ARL MEMBER LIBRARIES AS OF JANUARY 1, 2009

The Association of Research Libraries (ARL) represents the interests of 123 libraries that serve major North American research institutions. The ARL Statistics and Measurement program is organized around identifying, collecting, analyzing, and distributing quantifiable information describing the characteristics of research libraries.
