Kelli Milliga  
Economics Teacher  
Elko High School
Introduction

The 2009 Nevada Legislature approved Senate Bill 317 (SB 317) requiring that Nevada’s public high schools, including charter schools, provide instruction in financial literacy. In an effort to assist school districts with implementation of instruction in financial literacy, the Nevada Department of Education assembled a task force (Financial Literacy Task Force) comprised of teachers and district personnel from around the state to develop this guidance document. The purpose of this document is to provide districts with the requirements of SB 317, an interpretation of the language of SB 317, the correlated state standards, and resources for teaching financial literacy.

This document is not policy, nor is it meant to be a curriculum guide; rather, it is a tool to aid school districts in the implementation of SB 317. The document provides an alignment between the requirements of SB 317 and state standards in three content areas: Business, Family and Consumer Sciences, and Social Studies (Civics and Economics). It is the responsibility of the local school districts to determine where financial literacy will be included in the curriculum. SB 317 specifically states, “The board of trustees of each school district and the governing body of each charter school that operates as a high school shall ensure that instruction on financial literacy is provided to pupils enrolled in each public high school within the school district or in the charter school...”

To assist school district staff and teachers in reading this document, it has been divided into three columns. The first column notes the requirements of SB 317; the second column is an explanation of the content of the bill; and the final column aligns each section of the law with corresponding state standards in Business, Family and Consumer Sciences, and Social Studies.

A resource list is included to assist teachers with the implementation of financial literacy in their classrooms. The list contains free resources available from various government entities, non-profit organizations, and foundations. This is not meant to be an all inclusive list, and no single resource will meet all the requirements of SB 317.

| **A. The skills necessary to develop financial responsibility, including, without limitation:** | Understand the impact of widespread access and use of technology, for example:  
- social networks  
- online shopping  
- public email and other information sharing | 3.3 Students will be able to read for information, understanding, and appreciation.  
3.5 Students will apply social communications skills in personal and professional situations.  
6.4 Students will demonstrate an understanding of financial institutions and banking procedures.  
11.12 Students will demonstrate an understanding of risk management policies and procedures for information technology, and follow policies for managing privacy and ethical issues in a technologically-based society.  
13.3 Students shall demonstrate the ability to select, apply, and maintain appropriate technology. |
| **4. Control personal information** | Understand how personal information affects:  
- credit reporting  
- access to higher education  
- employment opportunities  
- quality of life goals | **Family and Consumer Sciences:**  
4.5 Evaluate the impact of technology on individual and family resources.  
5.4 Students shall demonstrate the ability to select, apply, and maintain appropriate technology. |
| | Understand how to maintain and secure records and files. | **Economics:**  
*E9.[9-12].1* Analyze choices and incentive systems used by parents, teachers, employers and government.  
*E9.[9-12].4* Evaluate career paths.  
*E10.[9-12].4* Explain what a credit rating is and how it affects access to loans. |

| A. The skills necessary to develop financial responsibility, including, without limitation: | Research consumer protection laws found at:  
  - websites  
  - public libraries  
  - school, university, college libraries  
  - federal and state information depositories  
  - non-profit consumer agencies  
  - current news sources | **Business Education:**  
  2.5 Students will demonstrate an understanding of consumer law.  
  2.8 Students will demonstrate an understanding of laws that apply to personal and real property.  
  4.7 Students will demonstrate an understanding of the role of government in economic systems. |
| 5. Reviewing and summarizing federal and state consumer protection laws | Organize the research through useable formats, such as:  
  - compare and contrast charts  
  - summary paragraphs  
  - multiple note taking strategies  
  - technology based presentations  
  - graphs, tables and charts | **Family and Consumer Sciences:**  
  4.3 Analyze consumer rights and responsibilities within the economic system. |
| | | **Economics & Civics:**  
  E10.[9-12].3 Explain why a real interest rate accurately measures the benefit of saving or the cost of borrowing, and indicate ways a high interest rate could be detrimental or beneficial.  
  E10.[9-12].4 Explain what a credit rating is and how it affects access to loans.  
  E10.[9-12].5 Compare the risks and rewards of using the services offered by different financial institutions  
  E11.[9-12].6 Analyze the role of government in a market economy.  
  C13.[9-12].6 Examine the rights of citizens and how these rights are protected and restricted. |

| B. The skills necessary to manage finances, including, without limitation: | Develop a spending & savings plan including:  
- budget  
- income  
- expenses  
- savings  
- investments  
Create a system for records management including:  
- bank statements  
- earning statements  
- investment statements  
- receipts  
- insurance policies  
- tax related documents  
Develop a financial plan and consider the following:  
- needs  
- wants  
- values  
- priorities  
- short term goals  
- long term goals  
- periodic review and evaluation | **Business Education:**  
4.1 Students will demonstrate an understanding of the allocation of resources.  
6.2 Students will demonstrate an understanding of financial budgeting and planning.  
8.6 Students will demonstrate an understanding of financial decision-making based upon industry analysis.  
10.2 Students will demonstrate an understanding of the characteristics, motivations and behavior of consumers. |
| 1. Develop a plan for spending and saving |  | **Family and Consumer Sciences:**  
1.4 Analyze factors affecting the decision to parent.  
2.3 Apply management principles related to food and nutrition.  
3.4 Examine the consumer skills needed to effectively manage the apparel dollar.  
4.1 Demonstrate management of individual and family resources, which includes food, clothing, housing, health care, recreation, and transportation.  
4.4 Demonstrate management of financial resources to meet the goals of individuals and families across the life span.  
4.6 Develop responsible behavior and skills that include decision-making, goal setting, teamwork, and leadership. |
| 2. Develop a system for keeping and using financial records |  | **Economics:**  
E9.[9-12].2 Analyze how consumers adjust their purchases in response to price changes using the concept of price elasticity. |
