The Research and Curriculum Unit (RCU), located in Starkville, MS, as part of Mississippi State University, was established to foster educational enhancements and innovations. In keeping with the land grant mission of Mississippi State University, the RCU is dedicated to improving the quality of life for Mississippians. The RCU enhances intellectual and professional development of Mississippi students and educators while applying knowledge and educational research to the lives of the people of the state. The RCU works within the contexts of curriculum development and revision, research, assessment, professional development, and industrial training.

- George Schloegal – Hancock Bank
- Charlene Sproles – Mississippi School Counselor Association
- Mike Thomas – North American Coal Corporation
- Pete Walley – Institutions of Higher Learning
- Clarence Ward – Boys and Girls Clubs of the Gulf Coast
- Dr. Debra West – State Board for Community/Junior Colleges

The members of the Marketing and Economics Curriculum Framework and Supporting Materials Professional Advisory Team were a vital part of the curriculum. Members of this team include the following:

- Sheila Bowden, White Lily
- Aimee Brown, Newton Career Center
- Debbie Burnham, Forest-Scott County Vo-Tech Center
- Lynn Collier, Itawamba Community College
- Rochelle Dahmer, Forrest County Public Schools
- Dr. Diane Fisher, University of Southern Mississippi
- Dr. Renee Gammill, Research and Curriculum Unit
- Denise Hanebuth, Mississippi Department of Education
- Suzanne Johnson, Copiah-Lincoln Community College
- Teresa Jones, Mississippi Department of Education
Jennifer Koon, Prentiss County Vocational Center  
Dr. Nicole Lueg, Mississippi State University  
Stephanie McCullough, Gulfport Public Schools  
Danny Mitchell, Godwin Marketing  
Emily Montgomery, Hinds Community College  
Dr. Brian J. Reithel, University of Mississippi  
Robin Silas, Mississippi Department of Education  
Dr. Pam Smith, Mississippi Council on Economic Education  
Pam Stuart, Clinton Public Schools  
Melinda Young, Millsaps Career and Technology Center  
Gail Litchliter, Mississippi ITS  
Walt Littleton, Ross Collins Career and Technical Center  
Sam Puckett, The Ad Agency

Also, a special thanks is extended to the teachers who contributed teaching and assessment materials that are included in the framework and supporting materials. Members who contributed are as follows:

Tammie Brewer, Hinds Community College, Rankin, MS  
Nelda Davidson, Ross Collins Career and Technical Center, Meridian, MS  
Angie Davis, Tupelo High School, Tupelo, MS  
Kathy Dawkins, Millsaps Career and Technology Center, Starkville, MS  
Heather Burch, Northwest Rankin High School, Brandon, MS

Appreciation is also expressed to the following staff members at the Mississippi Department of Education who provided guidance and insight throughout the development process:

Denise Hanebuth, Program Coordinator, Office of Career and Technical Education, Mississippi Department of Education, Jackson, MS  
Chris Wall, Director of Instructional Programs and Student Organizations, Office of Career and Technical Education, Mississippi Department of Education, Jackson, MS

Gratitude is expressed to the members of the Technology Advisory Committee. This committee played an instrumental role in the development of the Marketing and Economics Curriculum Framework and Supporting Materials Laboratory Specifications. Members of this committee were as follows:

Dr. Doug Belk, Technology Coordinator, Pascagoula School District  
Mr. Mike Mulvihill, Bureau Director, Office of Career and Technical Education  
Ms. Christy Todd, Education Specialist, Office of Career and Technical Education
Standards

Standards in the Business Fundamentals Curriculum Framework and Supporting Materials are based on the following:

**Academic Standards**

Mississippi Department of Education Subject Area Testing Program

**ACT College Readiness Standards**

The College Readiness Standards are sets of statements intended to help students understand what is expected of them in preparation for the ACT. These standards are integrated into teaching and assessment strategies throughout the curriculum framework.

**21st Century Skills and Information and Communication Technologies Literacy Standards**

In defining 21st century learning, the Partnership for 21st Century Skills has embraced five content and skill areas that represent the essential knowledge for the 21st century: Global awareness; civic engagement; financial, economic, and business literacy; learning skills that encompass problem-solving, critical-thinking, and self-directional skills; and Information and Communication Technology (ICT) Literacy. **National MBA Research Standards**

Secondary career–technical education programs in Mississippi are faced with many challenges resulting from sweeping educational reforms at the national and state levels. Schools and teachers are increasingly being held accountable for providing true learning activities to every student in the classroom. This accountability is measured through increased requirements for mastery and attainment of competency as documented through both formative and summative assessments.

The courses in this document reflect the statutory requirements as found in Section 37-3-49, Mississippi Code of 1972, as amended (Section 37-3-46). In addition, this curriculum reflects guidelines imposed by federal and state mandates (Laws, 1988, ch. 487, §14; Laws, 1991, ch. 423, §1; Laws, 1992, ch. 519, §4 eff. from and after July 1, 1992; Carl D. Perkins Vocational Education Act IV, 2007; and No Child Left Behind Act of 2001).
Executive Summary

Program Description

Business Fundamentals serves as the foundation for all Business Pathways. Courses in Business Fundamentals provide instruction in basic business skills and knowledge related to economic fundamentals, management, communications, finance, human relations, career development, ethics, and business etiquette.

Industry Certifications

This document was developed according to national standards for business education, as prepared by the National the National Educational Technology Standards for Students (NETS), 2000–02, developed by the International Society for Technology in Education (ISTE); and the SCANS Competencies published by the U.S. Department of Labor, 1992.

Assessment

Students will be assessed using the Business Fundamentals MS-CPAS2 assessment. Districts that elect to implement Option 1 will administer the exam to students who are completing Business Fundamentals (Course Code: 992300). Districts that elect to implement Option 2 will administer the exam to students who have completed Management Business Fundamentals I (Course Code: 992301) and will be completing Business Fundamentals II (Course Code: 992302) at the time the MS-CPAS2 is administered.

Student Prerequisites

In order for students to be able to experience success in the Secondary Business Cluster programs, the following student prerequisites are in place:

1. C or higher in English (the previous year)
2. C or higher in Pre-Algebra
3. Instructor approval

or

1. TABE Reading Score (Eighth grade or higher)

or

1. Instructor approval

Applied Academic Credit

Personal Finance content from the curriculum was aligned to the 2004 Mississippi Personal Finance Framework Revised Academic Benchmarks. Upon the completion of this program, students will earn 1/2 Personal Finance credit that can be used for graduation requirements. The curriculum framework includes economics content aligned to the 2004 Mississippi Economics Framework Revised Academic Benchmarks. Upon completion of this program, students will earn 1/2 Economics credit to meet graduation requirements.

Licensure Requirements

Please refer to the licensure requirements found in the curriculum for each Business Pathway.
Professional Learning

If you have specific questions about the content of each training session provided, please contact the Research and Curriculum Unit at 662.325.2510, and ask for the Professional Learning Department.

Options for Delivery

This Business Cluster curriculum framework provides multiple options for local school districts to implement based on the local needs of industry and students. For flexibility, the content can be taught in either 1 or 2 Carnegie units.

Option 1 – Two Two-Carnegie-Units

Course Description: Business Fundamentals
This year long course begins with an introduction to business and marketing fundamentals, communication and interpersonal skills, and professional development for continued education, training, and careers in business management. Major topics of study in this course are economics, business, management, and entrepreneurship, business law, and personal finance. Participation in DECA (student organization) is ongoing. Students will develop skills toward meeting requirements for the Microsoft Project Skill Standards for Microsoft Office Specialist Certification.

Business Fundamentals Research Synopsis

Introduction

The Business Education Career Cluster covers the field of occupations related to the management of business operations, finance, and information. There were over 62 million jobs in the business field in 2010. However, individuals completing programs in business education are employed in almost all economic sectors; therefore, job prospects will be good for most completers. The industry is projected to have above average growth, 14% in the United States and 17% in Mississippi, between 2010 and 2019.

Needs of the Future Workforce

Business, Management, and Administration

Business, management, and administration professionals plan, direct, maintain, and organize business operations for an organization. Business and administration managers are employed in all economic sectors. Business managers’ and administrators’ responsibilities vary based on their economic sector and the needs of their employers (US Bureau of Labor Statistics, 2009).

Business, Management, and Administration Employment Projections and Earnings

In 2010, business managers and administrators held over 5 million jobs in the United States. Their employment is widespread throughout every industry in the nation. The Business, Management, and Administration field is projected to grow 16% in Mississippi and 15% in the United States (EMSI, 2010) over the next decade. Job prospects will be best for those with a degree, industry certifications, and job experience (Bureau of Labor Statistics, 2010).

Marketing

The Marketing Pathway provides instruction in marketing skills and related sales operations in retailing, as well as 70 hr of applied economics instruction. Courses in the program provide a foundation of skills and knowledge related to basic principles of marketing and related economic fundamentals, management, merchandising, communications and career development, human relations, ethics, and etiquette.
Marketing Employment Projections and Earnings

Over 1 million workers in the United States were employed in the marketing and economics sector in 2010. There will be better than average employment growth in the United States between 2010 and 2019. However, in Mississippi the growth will be well above average 16% between 2010 and 2019 (EMSI, 2010). Job prospects will be good for those with formal education, but many will face keen competition in more desirable regions and sectors (US Bureau of Labor Statistics, 2009).

Finance and Accounting

The Finance and Accounting Pathway is designed to introduce students into the field of financial analysis and management. Students in the Finance and Accounting Pathway will acquire knowledge and develop skills through classroom learning and hands-on experiences. Nearly every organization has a financial manager or an accountant employed. They oversee investment strategies, maintain budgets, prepare financial reports and statements, and help implement long-term financial goals for their organizations (US Bureau of Labor Statistics, 2009). In this field, firms are not only seeking individuals with advanced degrees, but they also want future employees that have past work experience.

Finance and Accounting Employment Projections and Earnings

Financial analysts are among the fastest growing occupations in Mississippi. The occupation is projected to grow 46% in the next decade, which is faster than any other occupation in the pathway. Occupations within the Finance and Accounting Pathway are expected to have above average growth in the United States, 22% and in Mississippi, 21% (EMSI, 2010). Job prospects will be best for those with job experience and advanced degrees as firms are increasingly employing individuals with graduate degrees or higher (US Bureau of Labor Statistics, 2009).

Using This Document

Each secondary career-technical course consists of a series of instructional units that focuses on a common theme. All units have been written using a common format that includes the following components:

**Unit Number and Title**

**Suggested Time on Task**

An estimated number of clock hours of instruction that should be required to teach the competencies and objectives of the unit. A minimum of 140 hours of instruction is required for each Carnegie unit credit. The curriculum framework should account for approximately 75 to 80% of the time in the course.

**Competencies and Suggested Objectives**

A competency represents a general concept or performance that students are expected to master as a requirement for satisfactorily completing a unit. Students will be expected to receive instruction on all competencies. The suggested objectives represent the enabling and supporting knowledge and performances that will indicate mastery of the competency at the course level.

**Suggested Teaching Strategies**

This section of each unit indicates research-based strategies that can be used to enable students to master each competency. Emphasis has been placed on strategies that reflect active learning methodologies. Teachers should feel free to modify or enhance these suggestions based on needs of their students and resources available in order to provide optimum learning experiences for their students.

**Suggested Assessment Strategies**

This section indicates research-based strategies that can be used to measure student mastery. Examples of suggested strategies could include rubrics, class participation, reflection, and journaling. Again, teachers should feel free to modify or enhance these suggested assessment strategies based on local needs and resources.

**Integrated Academic Topics, 21st Century Skills and Information and Communication Technology Literacy Standards, ACT College Readiness Standards, and Technology Standards for Students**

This section identifies related academic topics as required in the Subject Area Assessment Program (SATP) in Algebra I, Biology I, English II, and U. S. History from 1877, which are integrated into the content of the unit. Research-based teaching strategies also incorporate ACT College Readiness standards. It also identifies the 21st Century Skills and Information and Communication Technology Literacy skills. In addition, national technology standards for students are associated with the competencies and suggested objectives for the unit are also identified.

**References**

A list of suggested references is provided for each unit. The list includes some of the primary instructional resources that may be used to teach the competencies and suggested objectives. Again, these resources are suggested, and the list may be modified or enhanced based on needs and abilities of students and on available resources.

f. Assess student understanding by observing class discussions and participation in activities.

Assess students’ knowledge through a summative assessment using a classroom response system and/or Blackboard.

Competency 2: Examine the characteristics of economic systems, and discuss the relationships among them. (DOK2, BCA, EC3)

Suggested Enduring Understandings

1. There are many types of economic systems.
2. Economic freedom is not available in all areas of the world.
3. Organized labor can be a benefit or deterrent to economic growth.
4. Global economic systems are different from those in the United States.
5. The stock market and its activities play a major role in the economic wellness of our country.
6. The American Banking System contributes to the stability of our economy.

Suggested Essential Questions

1. What types of economic systems exist in our society?
2. What is economic freedom, and why is it important to you?
3. How does organized labor affect the economy in the United States?
4. How do global economic systems differ from those in the United States?
5. What is the importance of the stock market in our economy?

| Competency 3: Examine economic indicators and trends such as production, distribution, and consumption of goods and services.  |

**Suggested Enduring Understandings**

1. A healthy economy is demonstrated by economic indicators.
2. The unemployment rate can adversely affect the economy.
3. A country’s standard of living is determined by economic factors.
4. The scarcity of resources can determine how goods and services are produced and distributed.
5. The Gross Domestic Product is the value of all goods and services produced over a period of time.
6. The Consumer Price Index is the value of a selection of goods and services purchased by a typical American family.

**Suggested Essential Questions**

1. What are indicators of a healthy economy?
2. How does the unemployment rate affect the economy?
3. What factors contribute to a country’s standard of living?
4. How does the scarcity of resources determine how goods and services are produced and distributed?

Have students use the Internet to identify health concerns (carpal tunnel syndrome, eye strain, falls, spills, burns, muscle strain, and unsafe equipment operation) in the workplace and then create a brochure that discusses health concerns, its cause, and solutions to the problem. (E1, E2, E3, E4, E5, E6, R1, R2, R3, R4, R5, R6, W1, W2, W3, W4, W5, CS1, CS2, CS3, CS4, CS5, T1, T2, T3, T4, T5, T6)

Have students demonstrate safety precautions used when using equipment such as a photocopier, scissors, a stapler, a hot glue gun, and extension cords in the workplace. (CS1, CS2, CS3, CS4, CS5)

Invite a local business representative to discuss procedures for emergency situations in the workplace. (CS1, CS2, CS3, CS4, CS5)

Invite a human resource specialist to discuss his or her safety training plan. Have students take notes. (CS1, CS2, CS3, CS4, CS5)

Have students work in teams to create a safe
work environment portfolio/policy/procedures manual for a local business to include safety rules, potential safety hazards, and solutions or preventions. (E1, E2, E3, E4, E5, E6, R1, R2, R3, R4, R5, R6, W1, W2, W3, W4, W5, CS1, CS2, CS3, CS4, CS5, T1, T2, T3, T4, T5, T6)

Speaker Evaluation Form.

Evaluate student understanding by using the Group Work Assessment Rubric.

g. Investigate federal safety regulations and procedures for reporting noncompliance. (DOK1)

g. Have students tour the career–technical center to discover various health and safety regulations related to each occupational area. Have them work in teams to create a booklet for each program’s health and safety rules and procedures. (E1, E2, E3, E4, E5, E6, R1, R2, R3, R4, R5, R6, W1, W2, W3, W4, W5, CS1, CS2, CS3, CS4, CS5, T1, T2, T3, T4, T5, T6)

g. Evaluate research for content and appearance.

Competency 2: Determine the various aspects of contract law. (DOK1, BC1)

Suggested Enduring Understandings

1. There are different types of legally binding contracts.
2. Legal contracts are binding.

Suggested Essential Questions

1. Why should I be concerned about signing a contract?
2. What are my options when dealing with a legal contract?

Suggested Performance Indicators

a. Describe the four types of contracts including expressed, implied, unilateral, and bilateral. (DOK1)

b. Discuss contractual concept of mistake, misrepresentation, and fraud. (DOK1)

Suggested Teaching Strategies

a. Create index cards that have the words, “expressed, implied, unilateral, and bilateral” written on them. After defining these terms, present students with case studies that involve various types of contracts. Have them to hold up the card with the type of contract that they think the situation involves. (R1, R2, R3, R4, R5, R6, CS1, CS2)

b. Identify the difference in mistakes, misrepresentations, and fraud in contracts. Have students draw random slips of paper that have “mistake,” “misrepresentation,” or “fraud” written on individual slips. Students will draw a slip and tell a fact about that type of contract. (R1, R2, R3, R4, R5, R6, CS2, CS3)

Suggested Assessment Strategies

a. Use a teacher-created Jeopardy game with headings and answers for expressed, implied, unilateral, and bilateral to assess student understanding.

b. Evaluate student understanding by observation.

Competency 3: Determine legalities of borrowing money and paying bills. (DOK1, BC1)

Suggested Enduring Understandings

1. Name some types of negotiable instruments.
2. Name some different types of bankruptcy.
3. Define secured and unsecured credit.

Suggested Essential Questions

1. What are negotiable instruments?
2. What is the difference in secured and unsecured credit?

Suggested Performance Indicators

a. Define various types of negotiable instruments, such as checks, (DOK1)

Suggested Teaching Strategies

a. Discuss the types and the legalities of negotiable instruments. Play the game, “What Am I?” (20 questions). Students will describe a negotiable instrument.

Suggested Assessment Strategies

a. Assess student understanding by observation.
Competency 4: Define and discuss sales and property law. (DOK1, BC1)

Suggested Enduring Understandings

1. It is important to carefully deal with a bill of sale.

Suggested Essential Questions

1. Why should I have a bill of sale for the purchase or resale of a vehicle?

Appendix B: 21st Century Skills Standards

CLS1  Flexibility and Adaptability
CLS2  Initiative and Self-direction
CLS3  Social and Cross-cultural Skills
CLS4  Productivity and Accountability
CLS5  Leadership and Responsibility

Today’s life and work environments require far more than thinking skills and content knowledge. The ability to
navigate the complex life and work environments in the globally competitive information age requires students to
pay rigorous attention to developing adequate life and career skills.

CS 1  Flexibility and Adaptability
• Adapting to varied roles and responsibilities
• Working effectively in a climate of ambiguity and changing priorities

CS 2  Initiative and Self-direction
• Monitoring one’s own understanding and learning needs
• Going beyond basic mastery of skills and/or curriculum to explore and expand one’s own learning and
  opportunities to gain expertise
• Demonstrating initiative to advance skill levels toward a professional level
• Defining, prioritizing, and completing tasks without direct oversight
• Utilizing time efficiently and managing workload
• Demonstrating commitment to learning as a lifelong process

CS 3  Social and Cross-cultural Skills
• Working appropriately and productively with others
• Leveraging the collective intelligence of groups when appropriate
• Bridging cultural differences and using differing perspectives to increase innovation and the quality of
  work

CS 4  Productivity and Accountability
• Setting and meeting high standards and goals for delivering quality work on time
• Demonstrating diligence and a positive work ethic (e.g., being punctual and reliable)

CS 5  Leadership and Responsibility
• Using interpersonal and problem-solving skills to influence and guide others toward a goal
• Leveraging strengths of others to accomplish a common goal
• Demonstrating integrity and ethical behavior
• Acting responsibly with the interests of the larger community in mind

Appendix C: Mississippi Academic Standards

ECONOMICS

EC1  Identify and apply basic economic concepts. (C, H, G, E)

EC2  Explain how people organize for the production, distribution, and consumption of goods and services. (C, H, G, E)

EC3  Discuss relationships among the various economic systems (e.g., households, business firms, banks, government agencies, labor unions, and corporations, etc.). (C, H, G, E)

EC4  Understand global connections, conflicts, and geographic interdependence. (C, H, G, E)

EC5  Compare and contrast how values and beliefs influence economic decisions in different societies. (C, H, G, E)

EC6  Demonstrate the ability to apply and interpret social studies tools (e.g., time lines, maps, globes, graphs, charts, a compass, technology, primary and secondary documents, political cartoons, etc.). (C, H, G, E)

Appendix D: ACT College Readiness Standards

English

E1 Topic Development in Terms of Purpose and Focus
- Identify the basic purpose or role of a specified phrase or sentence.
- Delete a clause or sentence because it is obviously irrelevant to the essay.
- Identify the central idea or main topic of a straightforward piece of writing.
- Determine relevancy when presented with a variety of sentence-level details.
- Identify the focus of a simple essay, applying that knowledge to add a sentence that sharpens the focus or to determine if an essay has met a specified goal.
- Delete material primarily because it disturbs the flow and development of the paragraph.
- Add a sentence to accomplish a fairly straightforward purpose such as illustrating a given statement.
- Apply an awareness of the focus and purpose of a fairly involved essay to determine the rhetorical effect and suitability of an existing phrase or sentence or to determine the need to delete plausible but irrelevant material.
- Add a sentence to accomplish a subtle rhetorical purpose such as to emphasize, to add supporting detail, or to express meaning through connotation.
- Determine whether a complex essay has accomplished a specific purpose.
- Add a phrase or sentence to accomplish a complex purpose, often expressed in terms of the main focus of the essay.

E2 Organization, Unity, and Coherence
- Use conjunctive adverbs or phrases to show time relationship in simple narrative essays (e.g., then, this time, etc.).
- Select the most logical place to add a sentence in a paragraph.
- Use conjunctive adverbs or phrases to express straightforward logical relationships (e.g., first, afterward, and in response).
- Decide the most logical place to add a sentence in an essay.
- Add a sentence that introduces a simple paragraph.
- Determine the need for conjunctive adverbs or phrases to create subtle logical connections between sentences (e.g., therefore, however, and in addition).
- Rearrange the sentences in a fairly uncomplicated paragraph for the sake of logic.
- Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward.
- Make sophisticated distinctions concerning the logical use of conjunctive adverbs or phrases, particularly when signaling a shift between paragraphs.
- Rearrange sentences to improve the logic and coherence of a complex paragraph.
- Add a sentence to introduce or conclude a fairly complex paragraph.
- Consider the need for introductory sentences or transitions, basing decisions on a thorough understanding of both the logic and rhetorical effect of the paragraph and essay.
E3  Word Choice in Terms of Style, Tone, Clarity, and Economy

- Revise sentences to correct awkward and confusing arrangements of sentence elements.
- Revise vague nouns and pronouns that create obvious logic problems.
- Delete obviously synonymous and wordy material in a sentence.
- Revise expressions that deviate from the style of an essay.
- Delete redundant material when information is repeated in different parts of speech (e.g., “alarmingly startled”).
- Use the word or phrase most consistent with the style and tone of a fairly straightforward essay.
- Determine the clearest and most logical conjunction to link clauses.
- Revise a phrase that is redundant in terms of the meaning and logic of the entire sentence.
- Identify and correct ambiguous pronoun references.
- Use the word or phrase most appropriate in terms of the content of the sentence and tone of the essay.
- Correct redundant material that involves sophisticated vocabulary and sounds acceptable as conversational English (e.g., “an aesthetic viewpoint” versus “the outlook of an aesthetic viewpoint”).
- Correct vague and wordy or clumsy and confusing writing containing sophisticated language.
- Delete redundant material that involves subtle concepts or that is redundant in terms of the paragraph as a whole.

E4  Sentence Structure and Formation

- Use conjunctions or punctuation to join simple clauses.
- Revise shifts in verb tense between simple clauses in a sentence or between simple adjoining sentences.
- Determine the need for punctuation and conjunctions to avoid awkward-sounding sentence fragments and fused sentences.
- Decide the appropriate verb tense and voice by considering the meaning of the entire sentence.
- Recognize and correct marked disturbances of sentence flow and structure (e.g., participial phrase fragments, missing or incorrect relative pronouns, or dangling or misplaced modifiers).
- Revise to avoid faulty placement of phrases and faulty coordination and subordination of clauses in sentences with subtle structural problems.
- Maintain consistent verb tense and pronoun person on the basis of the preceding clause or sentence.
- Use sentence-combining techniques, effectively avoiding problematic comma splices, run-on sentences, and sentence fragments, especially in sentences containing compound subjects or verbs.
- Maintain a consistent and logical use of verb tense and pronoun person on the basis of information in the paragraph or essay as a whole.
- Work comfortably with long sentences and complex clausal relationships within sentences, avoiding weak conjunctions between independent clauses and maintaining parallel structure between clauses.
E5 Conventions of Usage

- Solve such basic grammatical problems as how to form the past and past participle of irregular but commonly used verbs and how to form comparative and superlative adjectives.
- Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject–verb and pronoun–antecedent agreement, and which preposition to use in simple contexts.
- Recognize and use the appropriate word in frequently confused pairs such as there and their, past and passed, and led and lead.
- Use idiomatically appropriate prepositions, especially in combination with verbs (e.g., long for and appeal to).
- Ensure that a verb agrees with its subject when there is some text between the two.
- Ensure that a pronoun agrees with its antecedent when the two occur in separate clauses or sentences.
- Identify the correct past and past participle forms of irregular and infrequently used verbs, and form present–perfect verbs by using “have” rather than “of.”
- Correctly use reflexive pronouns, the possessive pronouns “its” and “your,” and the relative pronouns “who” and “whom.”
- Ensure that a verb agrees with its subject in unusual situations (e.g., when the subject–verb order is inverted or when the subject is an indefinite pronoun).
- Provide idiomatically and contextually appropriate prepositions following verbs in situations involving sophisticated language or ideas.
- Ensure that a verb agrees with its subject when a phrase or clause between the two suggests a different number for the verb.

E6 Conventions of Punctuation

- Delete commas that create basic sense problems (e.g., between verb and direct object).
- Provide appropriate punctuation in straightforward situations (e.g., items in a series).
- Delete commas that disturb the sentence flow (e.g., between modifier and modified element).
- Use commas to set off simple parenthetical phrases.
- Delete unnecessary commas when an incorrect reading of the sentence suggests a pause that should be punctuated (e.g., between verb and direct object clause).
- Use punctuation to set off complex parenthetical phrases.
- Recognize and delete unnecessary commas based on a careful reading of a complicated sentence (e.g., between the elements of a compound subject or compound verb joined by and).
- Use apostrophes to indicate simple possessive nouns.
- Recognize inappropriate uses of colons and semicolons.
- Use commas to set off a nonessential/nonrestrictive appositive or clause.
- Deal with multiple punctuation problems (e.g., compound sentences containing unnecessary commas and phrases that may or may not be parenthetical).
- Use an apostrophe to show possession, especially with irregular plural nouns.
- Use a semicolon to indicate a relationship between closely related independent clauses.
- Use a colon to introduce an example or an elaboration.

Math

M1 Basic Operations and Applications

- Perform one-operation computation with whole numbers and decimals.
• Solve problems in one or two steps using whole numbers.
• Perform common conversions (e.g., inches to feet or hours to minutes).
• Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent.
• Solve some routine two-step arithmetic problems.
• Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average.
• Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour).
• Solve word problems containing several rates, proportions, or percentages.
• Solve complex arithmetic problems involving percent of increase or decrease and problems requiring integration of several concepts from pre-algebra and/or pre-geometry (e.g., comparing percentages or averages, using several ratios, and finding ratios in geometry settings).

M2 Probability, Statistics, and Data Analysis
• Calculate the average of a list of positive whole numbers.
• Perform a single computation using information from a table or chart.
• Calculate the average of a list of numbers.
• Calculate the average, given the number of data values and the sum of the data values.
• Read tables and graphs.
• Perform computations on data from tables and graphs.
• Use the relationship between the probability of an event and the probability of its complement.
• Calculate the missing data value, given the average and all data values but one.
• Translate from one representation of data to another (e.g., a bar graph to a circle graph).
• Determine the probability of a simple event.
• Exhibit knowledge of simple counting techniques.*
• Calculate the average, given the frequency counts of all the data values.
• Manipulate data from tables and graphs.
• Compute straightforward probabilities for common situations.
• Use Venn diagrams in counting.*
• Calculate or use a weighted average.
• Interpret and use information from figures, tables, and graphs.
• Apply counting techniques.
• Compute a probability when the event and/or sample space is not given or obvious.
• Distinguish between mean, median, and mode for a list of numbers.
• Analyze and draw conclusions based on information from figures, tables, and graphs.
• Exhibit knowledge of conditional and joint probability.

M3 Numbers: Concepts and Properties
• Recognize equivalent fractions and fractions in lowest terms.
• Recognize one-digit factors of a number.
• Identify a digit’s place value.
• Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor.
• Find and use the least common multiple.
• Order fractions.
• Work with numerical factors.
• Work with scientific notation.
• Work with squares and square roots of numbers.
• Work problems involving positive integer exponents.*
• Work with cubes and cube roots of numbers.*
• Determine when an expression is undefined.*
• Exhibit some knowledge of the complex numbers.†
• Apply number properties involving prime factorization.
• Apply number properties involving even/odd numbers and factors/multiples.
• Apply number properties involving positive/negative numbers.
• Apply rules of exponents.
• Multiply two complex numbers.†
• Draw conclusions based on number concepts, algebraic properties, and/or relationships between expressions and numbers.
• Exhibit knowledge of logarithms and geometric sequences.
• Apply properties of complex numbers.

M4 Expressions, Equations, and Inequalities
• Exhibit knowledge of basic expressions (e.g., identify an expression for a total as b + g).
• Solve equations in the form x + a = b, where a and b are whole numbers or decimals.
• Substitute whole numbers for unknown quantities to evaluate expressions.
• Solve one-step equations having integer or decimal answers.
• Combine like terms (e.g., 2x + 5x).
• Evaluate algebraic expressions by substituting integers for unknown quantities.
• Add and subtract simple algebraic expressions.
• Solve routine first-degree equations.
• Perform straightforward word-to-symbol translations.
• Multiply two binomials.*
• Solve real-world problems using first-degree equations.
• Write expressions, equations, or inequalities with a single variable for common pre-algebra settings (e.g., rate and distance problems and problems that can be solved by using proportions).
• Identify solutions to simple quadratic equations.
• Add, subtract, and multiply polynomials.*
• Factor simple quadratics (e.g., the difference of squares and perfect square trinomials).*
• Solve first-degree inequalities that do not require reversing the inequality sign.*
• Manipulate expressions and equations.
• Write expressions, equations, and inequalities for common algebra settings.
• Solve linear inequalities that require reversing the inequality sign.
• Solve absolute value equations.
• Solve quadratic equations.
• Find solutions to systems of linear equations.
• Write expressions that require planning and/or manipulating to accurately model a situation.
• Write equations and inequalities that require planning, manipulating, and/or solving.
• Solve simple absolute value inequalities.
M5 Graphical Representations
- Identify the location of a point with a positive coordinate on the number line.
- Locate points on the number line and in the first quadrant.
- Locate points in the coordinate plane.
- Comprehend the concept of length on the number line.*
- Exhibit knowledge of slope.*
- Identify the graph of a linear inequality on the number line.*
- Determine the slope of a line from points or equations.*
- Match linear graphs with their equations.*
- Find the midpoint of a line segment.*
- Interpret and use information from graphs in the coordinate plane.
- Match number line graphs with solution sets of linear inequalities.
- Use the distance formula.
- Use properties of parallel and perpendicular lines to determine an equation of a line or coordinates of a point.
- Recognize special characteristics of parabolas and circles (e.g., the vertex of a parabola and the center or radius of a circle).†
- Match number line graphs with solution sets of simple quadratic inequalities.
- Identify characteristics of graphs based on a set of conditions or on a general equation such as $y = a \times 2 + c$.
- Solve problems integrating multiple algebraic and/or geometric concepts.
- Analyze and draw conclusions based on information from graphs in the coordinate plane.

M6 Properties of Plane Figures
- Exhibit some knowledge of the angles associated with parallel lines.
- Find the measure of an angle using properties of parallel lines.
- Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., $90^\circ$, $180^\circ$, and $360^\circ$).
- Use several angle properties to find an unknown angle measure.
- Recognize Pythagorean triples.*
- Use properties of isosceles triangles.*
- Apply properties of $30^\circ$-$60^\circ$-$90^\circ$, $45^\circ$-$45^\circ$-$90^\circ$, similar, and congruent triangles.
- Use the Pythagorean theorem.
- Draw conclusions based on a set of conditions.
- Solve multistep geometry problems that involve integrating concepts, planning, visualization, and/or making connections with other content areas.
- Use relationships among angles, arcs, and distances in a circle.

M7 Measurement
- Estimate or calculate the length of a line segment based on other lengths given on a geometric figure.
- Compute the perimeter of polygons when all side lengths are given.
- Compute the area of rectangles when whole number dimensions are given.
- Compute the area and perimeter of triangles and rectangles in simple problems.
- Use geometric formulas when all necessary information is given.
- Compute the area of triangles and rectangles when one or more additional simple steps are required.
- Compute the area and circumference of circles after identifying necessary information.
- Compute the perimeter of simple composite geometric figures with unknown side lengths.*
- Use relationships involving area, perimeter, and volume of geometric figures to compute another measure.
- Use scale factors to determine the magnitude of a size change.
- Compute the area of composite geometric figures when planning or visualization is required.

**M8 Functions**
- Evaluate quadratic functions, expressed in function notation, at integer values.
- Evaluate polynomial functions, expressed in function notation, at integer values.†
- Express the sine, cosine, and tangent of an angle in a right triangle as a ratio of given side lengths.†
- Evaluate composite functions at integer values.†
- Apply basic trigonometric ratios to solve right-triangle problems.†
- Write an expression for the composite of two simple functions.†
- Use trigonometric concepts and basic identities to solve problems.†
- Exhibit knowledge of unit circle trigonometry.†
- Match graphs of basic trigonometric functions with their equations.

**Notes:**
- Students who score in the 1–12 range are most likely beginning to develop the knowledge and skills assessed in the other ranges.
- Standards followed by an asterisk (*) apply to the PLAN and ACT Mathematics Tests only.
- Standards followed by a dagger (†) apply to the ACT Mathematics Test only.

**Reading**

**R1 Main Ideas and Author’s Approach**
- Recognize a clear intent of an author or narrator in uncomplicated literary narratives.
- Identify a clear main idea or purpose of straightforward paragraphs in uncomplicated literary narratives.
- Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives.
- Understand the overall approach taken by an author or narrator (e.g., point of view and kinds of evidence used) in uncomplicated passages.
- Identify a clear main idea or purpose of any paragraph or paragraphs in uncomplicated passages.
- Infer the main idea or purpose of straightforward paragraphs in more challenging passages.
- Summarize basic events and ideas in more challenging passages.
- Understand the overall approach taken by an author or narrator (e.g., point of view and kinds of evidence used) in more challenging passages.
- Infer the main idea or purpose of more challenging passages or their paragraphs.
- Summarize events and ideas in virtually any passage.
- Understand the overall approach taken by an author or narrator (e.g., point of view and kinds of evidence used) in virtually any passage.
• Identify clear main ideas or purposes of complex passages or their paragraphs.

R2 Supporting Details
• Locate basic facts (e.g., names, dates, and events) clearly stated in a passage.
• Locate simple details at the sentence and paragraph level in uncomplicated passages.
• Recognize a clear function of a part of an uncomplicated passage.
• Locate important details in uncomplicated passages.
• Make simple inferences about how details are used in passages.
• Locate important details in more challenging passages.
• Locate and interpret minor or subtly stated details in uncomplicated passages.
• Discern which details, though they may appear in different sections throughout a passage, support important points in more challenging passages.
• Locate and interpret minor or subtly stated details in more challenging passages.
• Use details from different sections of some complex informational passages to support a specific point or argument.
• Locate and interpret details in complex passages.
• Understand the function of a part of a passage when the function is subtle or complex.

R3 Sequential, Comparative, and Cause–Effect Relationships
• Determine when (e.g., first, last, before, or after) or if an event occurred in uncomplicated passages.
• Recognize clear cause–effect relationships described within a single sentence in a passage.
• Identify relationships between main characters in uncomplicated literary narratives.
• Recognize clear cause–effect relationships within a single paragraph in uncomplicated literary narratives.
• Order simple sequences of events in uncomplicated literary narratives.
• Identify clear relationships between people, ideas, and so forth in uncomplicated passages.
• Identify clear cause–effect relationships in uncomplicated passages.
• Order sequences of events in uncomplicated passages.
• Understand relationships between people, ideas, and so forth in uncomplicated passages.
• Identify clear relationships between characters, ideas, and so forth in more challenging literary narratives.
• Understand implied or subtly stated cause–effect relationships in uncomplicated passages.
• Identify clear cause–effect relationships in more challenging passages.
• Order sequences of events in more challenging passages.
• Understand the dynamics between people, ideas, and so forth in more challenging passages.
• Understand implied or subtly stated cause–effect relationships in more challenging passages.
• Order sequences of events in complex passages.
• Understand the subtleties in relationships between people, ideas, and so forth in virtually any passage.
• Understand implied, subtle, or complex cause–effect relationships in virtually any passage.

R4 Meaning of Words
• Understand the implication of a familiar word or phrase and of simple descriptive language.
• Use context to understand basic figurative language.
• Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages.
• Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages.
• Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages.
• Determine the appropriate meaning of words, phrases, or statements from figurative or somewhat technical contexts.
• Determine, even when the language is richly figurative and the vocabulary is difficult, the appropriate meaning of context-dependent words, phrases, or statements in virtually any passage.

R5 Generalizations and Conclusions
• Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives.
• Draw simple generalizations and conclusions about people, ideas, and so forth in uncomplicated passages.
• Draw generalizations and conclusions about people, ideas, and so forth in uncomplicated passages.
• Draw simple generalizations and conclusions using details that support the main points of more challenging passages.
• Draw subtle generalizations and conclusions about characters, ideas, and so forth in uncomplicated literary narratives.
• Draw generalizations and conclusions about people, ideas, and so forth in more challenging passages.
• Use information from one or more sections of a more challenging passage to draw generalizations and conclusions about people, ideas, and so forth.
• Draw complex or subtle generalizations and conclusions about people, ideas, and so forth, often by synthesizing information from different portions of the passage.
• Understand and generalize about portions of a complex literary narrative.

Science

S1 Interpretation of Data
• Select a single piece of data (numerical or non-numerical) from a simple data presentation (e.g., a table or graph with two or three variables or a food web diagram).
• Identify basic features of a table, graph, or diagram (e.g., headings, units of measurement, or axis labels).
• Select two or more pieces of data from a simple data presentation.
• Understand basic scientific terminology.
• Find basic information in a brief body of text.
• Determine how the value of one variable changes as the value of another variable changes in a simple data presentation.
• Select data from a complex data presentation (e.g., a table or graph with more than three variables or a phase diagram).
• Compare or combine data from a simple data presentation (e.g., order or sum data from a table).
• Translate information into a table, graph, or diagram.
• Compare or combine data from two or more simple data presentations (e.g., categorize data from a table using a scale from another table).
• Compare or combine data from a complex data presentation.
• Interpolate between data points in a table or graph.
• Determine how the value of one variable changes as the value of another variable changes in a complex data presentation.
• Identify and/or use a simple (e.g., linear) mathematical relationship between data.
• Analyze given information when presented with new, simple information.
• Compare or combine data from a simple data presentation with data from a complex data presentation.
• Identify and/or use a complex (e.g., nonlinear) mathematical relationship between data.
• Extrapolate from data points in a table or graph.
• Compare or combine data from two or more complex data presentations.
• Analyze given information when presented with new, complex information.

S2 Scientific Investigation
• Understand the methods and tools used in a simple experiment.
• Understand the methods and tools used in a moderately complex experiment.
• Under a simple experimental design.
• Identify a control in an experiment.
• Identify similarities and differences between experiments.
• Understand the methods and tools used in a complex experiment.
• Understand a complex experimental design.
• Predict the results of an additional trial or measurement in an experiment.
• Determine the experimental conditions that would produce specified results.
• Determine the hypothesis for an experiment.
• Identify an alternate method for testing a hypothesis.
• Understand precision and accuracy issues.
• Predict how modifying the design or methods of an experiment will affect results.
• Identify an additional trial or experiment that could be performed to enhance or evaluate experimental results.

S3 Evaluation of Models, Inferences, and Experimental Results
• Select a simple hypothesis, prediction, or conclusion that is supported by a data presentation or a model.
• Identify key issues or assumptions in a model.
• Select a simple hypothesis, prediction, or conclusion that is supported by two or more data presentations or models.
• Determine whether given information supports or contradicts a simple hypothesis or conclusion and why.
• Identify strengths and weaknesses in one or more models.
• Identify similarities and differences between models.
• Determine which model(s) is (are) supported or weakened by new information.
• Select a data presentation or a model that supports or contradicts a hypothesis, prediction, or conclusion.
• Select a complex hypothesis, prediction, or conclusion that is supported by a data presentation or model.
• Determine whether new information supports or weakens a model and why.
• Use new information to make a prediction based on a model.
• Select a complex hypothesis, prediction, or conclusion that is supported by two or more data presentations or models.
• Determine whether given information supports or contradicts a complex hypothesis or conclusion and why.

Writing

W1 Expressing Judgments
• Show a little understanding of the persuasive purpose of the task, but neglect to take or to maintain a position on the issue in the prompt.
• Show limited recognition of the complexity of the issue in the prompt.
• Show a basic understanding of the persuasive purpose of the task by taking a position on the issue in the prompt, but do not maintain that position.
• Show a little recognition of the complexity of the issue in the prompt by acknowledging, but only briefly describing, a counterargument to the writer’s position.
• Show understanding of the persuasive purpose of the task by taking a position on the issue in the prompt.
• Show some recognition of the complexity of the issue in the prompt by doing the following:
  o Acknowledging counterarguments to the writer’s position
  o Providing some response to counterarguments to the writer’s position
• Show clear understanding of the persuasive purpose of the task by taking a position on the specific issue in the prompt and offering a broad context for discussion.
• Show recognition of the complexity of the issue in the prompt by doing the following:
  o Partially evaluating implications and/or complications of the issue
  o Posing and partially responding to counterarguments to the writer’s position
• Show clear understanding of the persuasive purpose of the task by taking a position on the specific issue in the prompt and offering a critical context for discussion.
• Show understanding of the complexity of the issue in the prompt by doing the following:
  o Examining different perspectives
  o Evaluating implications or complications of the issue
  o Posing and fully discussing counterarguments to the writer’s position

W2 Focusing on the Topic
• Maintain a focus on the general topic in the prompt through most of the essay.
• Maintain a focus on the general topic in the prompt throughout the essay.
• Maintain a focus on the general topic in the prompt throughout the essay, and attempt a focus on the specific issue in the prompt.
• Present a thesis that establishes focus on the topic.
• Maintain a focus on discussion of the specific topic and issue in the prompt throughout the essay.
• Present a thesis that establishes a focus on the writer’s position on the issue.
• Maintain a clear focus on discussion of the specific topic and issue in the prompt throughout the essay.
• Present a critical thesis that clearly establishes the focus on the writer’s position on the issue.

W3 Developing a Position
• Offer a little development, with one or two ideas; if examples are given, they are general and may not be clearly relevant; resort often to merely repeating ideas.
• Show little or no movement between general and specific ideas and examples.
• Offer limited development of ideas using a few general examples; resort sometimes to merely repeating ideas.
• Show little movement between general and specific ideas and examples.
• Develop ideas by using some specific reasons, details, and examples.
• Show some movement between general and specific ideas and examples.
• Develop most ideas fully, using some specific and relevant reasons, details, and examples.
• Show clear movement between general and specific ideas and examples.
• Develop several ideas fully, using specific and relevant reasons, details, and examples.
• Show effective movement between general and specific ideas and examples.

W4 Organizing Ideas
• Provide a discernible organization with some logical grouping of ideas in parts of the essay.
• Use a few simple and obvious transitions.
• Present a discernible, though minimally developed, introduction and conclusion.
• Provide a simple organization with logical grouping of ideas in parts of the essay.
• Use some simple and obvious transitional words, though they may at times be inappropriate or misleading.
• Present a discernible, though underdeveloped, introduction and conclusion.
• Provide an adequate but simple organization with logical grouping of ideas in parts of the essay but with little evidence of logical progression of ideas.
• Use some simple and obvious, but appropriate, transitional words and phrases.
• Present a discernible introduction and conclusion with little development.
• Provide unity and coherence throughout the essay, sometimes with a logical progression of ideas.
• Use relevant, though at times simple and obvious, transitional words and phrases to convey logical relationships between ideas.
• Present a somewhat developed introduction and conclusion.
• Provide unity and coherence throughout the essay, often with a logical progression of ideas.
• Use relevant transitional words, phrases, and sentences to convey logical relationships between ideas.
• Present a well-developed introduction and conclusion.

W5 Using Language
• Show limited control of language by doing the following:
  o Correctly employing some of the conventions of standard English grammar, usage, and mechanics but with distracting errors that sometimes significantly impede understanding
  o Using simple vocabulary
  o Using simple sentence structure
  o Correctly employing some of the conventions of standard English grammar, usage, and mechanics but with distracting errors that sometimes impede understanding
- Using simple but appropriate vocabulary
- Using a little sentence variety, though most sentences are simple in structure
- Correctly employing many of the conventions of standard English grammar, usage, and mechanics but with some distracting errors that may occasionally impede understanding
- Using appropriate vocabulary
- Using some varied kinds of sentence structures to vary pace
- Correctly employing most conventions of standard English grammar, usage, and mechanics, with a few distracting errors but none that impede understanding
- Using some precise and varied vocabulary
- Using several kinds of sentence structures to vary pace and to support meaning
- Correctly employing most conventions of standard English grammar, usage, and mechanics, with just a few, if any, errors
- Using precise and varied vocabulary
- Using a variety of sentence structures to vary pace and to support meaning
Appendix E: National Industry Standards

National Business and Marketing Core Standards

BC = Business Core
MKT = Marketing Core

BC1 Understands the responsibility of business to know, abide by, and enforce laws, regulations, and ethical behavior that affect business operations and transactions

BC2 Understands the concepts, strategies, and systems used to obtain and convey ideas and information

BC3 Understands the techniques and strategies used to foster positive, ongoing relationships with customers

BC4 Understands the economic principles and concepts fundamental to business operations

BC5 Understands techniques, strategies, and systems used to foster self-understanding and enhance relationships with others
