Index to the 2011–2012 Federal Student Aid Handbook

Page numbers are given in the following format: Volume number–Page number.
AVG in place of a volume number refers to the “Application and Verification Guide.”
In general, concepts with established acronyms are found under the acronym (e.g., FAFSA, FSEOG).
Entries with multiple page numbers are in blue italics.

A
A-numbers, FAFSA and, 1–21, 1–24, 1–31, 1–38
AAI. See Adjusted available income
Ability-to-benefit tests
administration of, 1–8, 1–10
approved tests and publishers, 1–9
certification of, 1–8
COD reporting of ATB data, 1–8
counting previous test results, 1–10
definitions, 1–10
evaluation and approval of, 1–8
non-native English speakers and, 1–10
persons with disabilities and, 1–10
school accountability and, 1–10
state tests and processes, 1–8
Absences, excused, 3–17, 5–52, 5–90
ACA. See Administrative Cost Allowance
Academic amnesty/renewal, 1–12

Advisory boards, compensation for service on, 2–40
Affiliated organizations
  definition, 2–124
  preferred lender arrangements, 2–124
Age, Selective Service System registration and, 1–61, 1–64
Aggregate basis, nonfederal share, 6–13
Aggregate loan limits
  effect of change in student state on, 3–117
  PLUS loans, 3–91, 3–116
  Stafford loans, 3–91, 3–116
### Index

**AGI.** See Adjusted gross income

**Alcohol abuse prevention programs**
- consequences of noncompliance, 2–153
- consumer information, 2–119

**Drug-Free Schools and Communities Act**
- requirements, 2–154
- information sources, 2–154
- measuring effectiveness of, 2–153
- requirement for, 2–153

**Alien Registration Receipt Cards**, 1–43

**Aliens**
- conditional resident, 1–27, 1–32, 1–33
- illegal aliens under the legalization (also called amnesty) program, 1–30

**Allocations**
- of campus-based awards, 4–36, 6–4
- carry forward/carry back of funds and, 6–8
- definition, 6–14
- Federal Work-Study Programs and, 6–14, 6–40
- reallocation effect on minimum expenditures, 6–15
- reallocation of funds, 6–5
- supplemental, of campus-based awards, 4–36
- waiver of reduction in, 6–5
- withholding final allocation, 6–4

**Alternate EFCs**, AVG–41

**American Opportunity and Lifetime Learning tax credits**, FAFSA and, AVG–18

**American Opportunity credit**, FAFSA and, AVG–18

**American Samoa**, 1–22, AVG–13, AVG–39, AVG–82

**AmeriCorps.** See also VISTA Volunteers
- benefits packaging, 3–139
- cancellation of loans and, 6–76, 6–84
- deferment of loan repayment and, 6–72
- Federal Work-Study Programs and, 6–30

**Analysis Tool, for ISIRs**, AVG–80

**Annual awards**, 3–41, 3–69

**Anti-lobbying provisions**
- campus-based funds disclosure, 2–153
- certification and disclosure, 2–153
- prohibition on the use of FSA funds, 2–152

**Appeals**
- audits, 2–158
- program reviews, 2–158
- satisfactory academic progress, 1–12

**Selective Service System and**, 1–64

**Application updates**
- accreditation changes, 2–99
- adding locations, 2–95
- adding programs, 2–98
- branch campuses and, 2–96
- changes in ownership, 2–84
- chapter highlights, 2–83
- dependency status and, AVG–100
- effect on previous disbursements, AVG–101
- electronic submission requirement, 2–84
- foreign schools and, 2–94
- household size and, AVG–101
- number of children in college and, AVG–101
- recertification, 2–83
- reporting substantive changes, 2–92
- submitting, AVG–101
- temporary approval for continued participation, 2–90
- third-party servicers changes, 2–101
- written approval from the Department of Education and, 2–93

**Apportioning charges**, 4–14

**Armed services.** See also Iraq and Afghanistan Service Grants; Selective Service System; Veterans; Veterans’ benefits
- cancellation of loans and, 6–76, 6–86
- combat pay, FAFSA and, AVG–13, AVG–18
- deferments and, 6–71, 6–72
- definitions, 2–52, 6–71
- discharge of loans for service-connected disability, 6–88
- early exit cadets, AVG–22
- FAFSA and, AVG–13, AVG–18, AVG–20, AVG–22, AVG–24
- grace periods for reservists on active duty, 6–58
- in-state tuition rates for active duty service members and family attending public institutions, 2–51
- military service academies and preparatory schools, AVG–22
on-base housing, AVG–20
readmission to an institution and, 2–6, 2–51
repayment of loans and, 6–87
Reserve Educational Assistance Program, 3–140
special pay in areas of hostilities/imminent danger, 6–86

Introduction

This publication is intended for financial aid administrators and counselors who help students begin the aid process—filing the Free Application for Federal Student Aid (FAFSA), verifying information, and making corrections and other changes to the information reported on the FAFSA.

Throughout the Handbook we use “college,” “school,” and “institution” interchangeably unless some more specific use is given. “Parents” in this volume refers to the parents of dependent students, and “you” refers to the primary audience of the Handbook: financial aid administrators at colleges. “We” indicates the United States Department of Education (Department, ED), and “federal student aid” and “Title IV aid” are synonymous terms for the financial aid offered by that department.

We appreciate any comments that you have regarding the Application and Verification Guide (AVG), as well as all the volumes of the Federal Student Aid Handbook. We revise and clarify the text in response to questions and feedback from the financial aid community, so please contact us at fsaschoolspubs@ed.gov to let us know how to improve the Handbook so that it is always clear and informative.

CHANGES FOR 2011–2012

Because Academic Competitiveness and National Science and Mathematics Access to Retain Talent Grant program funding was not extended, we have removed all references to ACG and National SMART in this volume.

We removed the clause at the top of the first page of Chapter 1 and the margin note indicating that students who are only receiving a parent PLUS loan don’t need to fill out a FAFSA; those students must now fill out the application.

In the margin of page 8 we included the new definition of a valid SAR and ISIR.

On page 11 we noted there is a new FAFSA question that asks for the name, city, and state of the high school the student graduated from. This question pertains to the new requirement that colleges must investigate the high school completion of a student when they or the Department has reason to suspect that the diploma is not valid or did not come from an entity that provides a secondary school education. See Volume 1: Student Eligibility for more information.
Under Step 1 in Chapter 2 we removed the guidance pertaining to the questions on enrollment status and prospective teachers because those questions were removed from the application.

We expanded the guidance on page 13 about IRS Data Retrieval and noted how it will become more important beginning in the 2012–2013 year.

On page 19 we added a note in the margin that the making work pay tax credit counts as untaxed income on the FAFSA, and we included the long-time resident homebuyer tax credit in the existing note about the new home-buyer credit.

Sometimes a student will receive an outside stipend or other award that is difficult to classify as income or estimated financial assistance. We added guidance to the margin of page 19 that we hope will help you determine if such an award counts as estimated financial assistance or not.

We removed the text that indicated that the first $2,400 of unemployment benefits counts as untaxed income. The exclusion of those funds from taxable income was a provision, thus far not extended, of the American Recovery and Reinvestment Act of 2009.

The maximum income a student or parent can have and remain eligible for the automatic zero EFC is now $31,000. We note this on page 40.

While the program integrity regulations package that was published in the Federal Register on October 29, 2010, contained a new Subpart E for verification, that subpart will not be effective until July 1, 2012, so this volume does not contain those changes to verification.

Also in Chapter 4 we replaced the references to the Special Leveraging Educational Assistance Partnership (SLEAP) program with references to the Grants for Access and Persistence (GAP) program.

We revised the Quality Assurance Program margin note on page 80.

We received inquiries about whether students needed to complete verification if they were not selected until after they were no longer enrolled at the school. As long as these students will not receive a late disbursement, you do not need to verify their application. We note this on page 81.

In a margin note on page 83, we updated the reference to Dear Colleague Letter (DCL) GEN-04-04 to GEN-10-16, which supersedes earlier guidance on awarding Title IV aid in the aftermath of federally declared disasters.

We added text to pages 84, 88, and 89 explaining that acceptable documentation for income, taxes paid, and certain types of untaxed income includes a code on the ISIR indicating that the student or parents retrieved their data directly from the IRS and didn’t change it.

We added a margin note to page 102 citing DCL GEN-11-04, which discusses in part previous special guidance that is still in effect on the use of professional judgment (PJ) for persons receiving unemployment benefits.
The Application Process: FAFSA to ISIR

The laws governing the Federal Student Aid (FSA) programs require that a person apply for aid with a form provided by the U.S. Department of Education (ED) and that no fee be charged for processing it. This form is the “Free Application for Federal Student Aid” (FAFSA), and its online version is FAFSA on the Web.

To be considered for federal student aid, a student must complete a FAFSA. It collects financial and other information used to calculate the expected family contribution (EFC) and to determine a student’s eligibility through computer matches with other agencies.

The FAFSA is the only form students must fill out to apply for Title IV aid. A school cannot require extra information from students except for verification or resolution of conflicting information. However, a school may require additional information for other purposes, such as packaging private or institutional aid. If the school collects additional information that affects Title IV eligibility, it must take the information into account when awarding Title IV aid.

Types of Applications

Most students use FAFSA on the Web to apply for federal student aid. With an aid administrator’s help, they can apply via FAA Access to CPS Online. The paper FAFSA and its portable document format (PDF) version are also available.

FAFSA on the Web (FOTW)

Students can complete an application online at www.fafsa.gov and submit it directly to the Central Processing System (CPS). They can also correct any of their previously submitted data except for the Social Security number (SSN). Help is available online, and students can also call the Federal Student Aid Information Center (FSAIC) at 1-800-4-FED-AID (1-800-433-3243).

FAA Access to CPS Online

You can submit a student’s application data at FAA Access to CPS Online (http://faaaccess.ed.gov/). You can also connect to the site through EDExpress.

Before submitting the data, print out the signature page/FAFSA summary for the student (and parent) to sign, or have the student fill out and sign a paper FAFSA. But to reduce the need for paper applications, we recommend the former method. As noted on page 36, you will need to retain either the

FAFSA on the Web Worksheet

To make using the Web application easier, ED makes available the FAFSA on the Web Worksheet. The worksheet can be printed from the website, and schools can order bulk quantities on the Web at www.fsapubs.gov.

Advantages of electronic filing

We strongly recommend electronic applications over the paper FAFSA because of the following benefits:

• Faster processing
• Fewer errors and rejected applications because internal and end-of-entry data edits ensure that required fields are completed and conflicts are resolved prior to submission
• Skip logic, which helps “shorten” the form by allowing applicants to skip over questions that don’t pertain to them
• Availability of online help

Free CPS/SAIG technical support for schools or their destination points

1-800-330-5947
CPSSAIG@ed.gov
signed signature page/summary or signed FAFSA for your records, even if the student doesn’t receive aid or attend your school.

**Paper FAFSA**

Schools can place limited orders (at www.fsapubs.org) of up to 50 copies of the paper FAFSA. Students can request a copy from the FSAIC by calling 1-800-433-3243. Another paper option is the PDF FAFSA, in color or black and white, which students can get at www.federalstudentaid.ed.gov. They can print the PDF and fill it out by hand, or they can type their data on the PDF before printing and mailing it.

**FAFSA on the phone**

Students who have limited or no Internet access and are facing pressing deadlines can choose to complete and submit their application by calling 1-800-433-3243, telling a representative they would like to fill out their FAFSA over the phone, and providing their information. This typically takes about half an hour. Students will receive a paper SAR seven to ten days later, which they (and their parents, if appropriate) must sign and return. Because this is not the preferred method to apply for aid, it should be used sparingly and only by those students identified above.

**The personal identification number (PIN)**

The FSA PIN, along with other identifiers, gives students Internet access to their information in FSA systems. Students (and parents) can get a PIN by going to the website at www.pin.ed.gov or by choosing to apply for a PIN when completing a FAFSA on the Web. The PIN is available to use immediately to sign the FAFSA; once the application passes the Social Security Administration (SSA) match, the PIN becomes fully functional. Applicants can use the PIN to:

- electronically sign a FAFSA on the Web or access and sign a renewal FAFSA on the Web;
- correct their student aid report (SAR) online;
- see their EFC and other SAR information as soon as the FAFSA is processed;
- review their financial aid history as maintained in the National Student Loan Data System (NSLDS);
- access Direct loan information and tools, including online entrance and exit counseling;
- sign electronic promissory notes for Direct loans.

Students without a PIN will automatically receive one if their application was signed, passed the data match with the SSA, and had a complete address. They will receive a paper PIN mailer with the number or an e-mail (if an e-mail address was given) with a secure link to their PIN online.

Students should not give their PIN to anyone. No person or entity may request, obtain, or use a student’s PIN for submitting a FAFSA on behalf of...
the student. The unauthorized use of a PIN by anyone but the owner may result in the deactivation of the PIN or the invalidation of signed documents, including FAFSAs and promissory notes.

**Renewal FAFSA**

When a renewal-eligible student who had a valid application the year before enters her personal identifiers on FAFSA on the Web, she will be asked if she wants to pre-fill some of the application with data from the prior year. If she chooses that option, she can review each pre-filled item, correct any that has changed, and provide new information as needed. Students who filled out the FAFSA4caster form on or before December 31, 2010, also have the option of pre-filling data on FAFSA on the Web; we will not retain the information of those who use FAFSA4caster for the first time after that date. If an aid administrator’s school does not appear on the renewal application, she can use the student’s data release number (DRN) to get the application on FAA Access.

In January and February 2011 most students automatically received a renewal reminder by e-mail if they provided an e-mail address in the previous application year or by regular mail if they did not. The reminder tells students that they can reapply for aid on the Web and that if they forgot their PIN, they can retrieve it online.

**PROCESSING THE FAFSA**

Paper FAFSAs go to the FAFSA processor for data entry and then to the CPS. Applications that are signed and submitted on the Web go directly to the CPS. If a Web applicant indicated she would sign electronically later or send a paper signature page, her FAFSA goes to a signature hold file for up to 14 days. If some type of signature is not received in that time, the application will be sent to the CPS but will be rejected; it won’t be processed again until a signature is received.
The CPS uses the application data to calculate the EFC and to match against several databases: those of NSLDS, the Department of Justice, the Social Security Administration, and the Department of Veterans Affairs; the Department of Homeland Security’s database of noncitizens and the Selective Service System registration database.

The CPS also checks the application for possible inconsistencies and mistakes. For instance, if a dependent student reported the parents’ marital status as married but reported the household size as “2,” the edit checks would catch the inconsistency. Even when data is inconsistent, the CPS may be able to calculate an EFC based on assumptions. For applications that your school submits through FAA Access, you can anticipate certain assumptions and correct or override information on the student’s FAFSA submission. Students who submit applications using FAFSA on the Web can also correct or override some of the CPS edits before submitting the application.

**OUTPUT DOCUMENTS: THE SAR AND ISIR**

After processing is complete, the CPS produces output documents or records that show the information the student originally provided, the EFC, the results of the eligibility matches, and information about any inconsistencies identified through the CPS edits. If the CPS was unable to calculate an EFC, the output record will not show one.

There are two types of output documents: the *Institutional Student Information Record* (ISIR), which is made available electronically to the schools the student listed on the FAFSA (or added later), and the *Student Aid Report* (SAR), which is sent to the student or made available to her online.

You will receive an ISIR for the student only if she includes your school on her FAFSA. If your school is not listed, you can request an ISIR for her through FAA Access if you have her DRN. The DRN appears in the upper right corner of the first page of the SAR and at the top of the correctable pages. The DRN and PIN are different: the DRN authorizes your access to the student’s application information; the PIN is the student’s personal code, which she should give to no one. A school may ask for the student’s DRN, but it should never request the PIN.

Schools are required to receive ISIRs and to accept SARs from students, but they cannot require students to submit SARs to the school in order to receive aid. We recommend making corrections electronically, via FAFSA on the Web (the student) or FAA Access (the school); however, a school can require the student to use a SAR to make corrections. If you don’t have an ISIR for a student who provided a SAR or SAR Acknowledgement, you must use the SAR or the acknowledgement to award and disburse the student aid. You must also ensure that your school is added to the CPS record for the student (see page 101).

The SAR arrives in one of three ways. (1) Students who give an e-mail address, whether on a paper FAFSA or an electronic application (FAA Access or FAFSA on the Web), will receive an e-mail with a link to an online SAR that they can access by providing their SSN, date of birth, and first two letters of their last name. (2) Students who don’t give an e-mail address and who
apply with a paper application will receive a paper SAR. (3) Students who apply electronically and don’t provide an e-mail address will receive a SAR Acknowledgement, which has fewer and less detailed comments than the SAR and which can’t be used for corrections as the SAR can. If a student or parent signature is missing, students will receive a rejected paper SAR.

The SARs and ISIRs include comment codes and text explaining any questionable results from the matches and edits described above. For some of these there will also be a C code, which you must resolve before paying the student aid. For instance, if a student has defaulted on a federal student loan, the SAR and ISIR will note this in several places, including comments to the student and the NSLDS financial aid history page.

For other problems, the SAR and ISIR will show that the student’s application has been rejected and no EFC has been calculated. The SAR will tell the student how to remove the reject by providing signatures or more information or by correcting errors. Reject codes are given in the FAA Information section, and a complete list of reject codes is in The ISIR Guide 2011–2012 at www.ifap.ed.gov.

DEADLINES
The application processing cycle lasts 18 months. For the 2011–12 award year, applications are accepted beginning January 1, 2011, and will be accepted through June 30, 2012.

The CPS must receive a student’s electronic FAFSA by June 30, 2012. A paper FAFSA must be legible, and it must be mailed to the Federal Student Aid Programs address listed on the FAFSA in time for the processor to receive it by June 30, 2012. There are no exceptions to these deadlines. An electronic application cannot be received before January 1, 2011, and if it is received after June 30, 2012, it will not be processed. A paper application received before January 1, 2011, or after June 30, 2012, will be returned unprocessed with a letter of explanation. If it is signed before and received after January 1, 2011, it will be accepted, but the student will receive a rejected SAR asking him to date and re-sign the SAR and return it for processing.

In addition to the above dates, the following are anticipated (see the margin note) deadlines for the 2011–12 award year:

• Corrections on a paper SAR must be received by September 17, 2012.

• Corrections through FAFSA on the Web or FAA Access to CPS Online must be received and accepted by the CPS before midnight (central time) on September 17, 2012.

• Address and school changes through the Federal Student Aid Information Center can be made through September 17, 2012.

• A school must pay or offer to pay any disbursements for a student if it receives a SAR or ISIR with an official EFC while she is enrolled and eligible, but not later than September 24, 2012.
To give a Pell grant to a student, a school must have a valid output document while the student is still enrolled for the award year or in the timeframe the student qualifies for a late disbursement under 34 CFR 668.164(g)(4)(i) but no later than September 24, 2012.

For students selected (by ED or the school) for verification, the school must have verification documents, and for Pell grant recipients a valid output document, no later than 120 days after the last day of enrollment or September 24, 2012, whichever is earlier. Schools may set earlier deadlines for the Campus-based and loan programs.

For the deadlines above, the date the CPS processed the ISIR transaction is considered to be the date the institution received the ISIR. On the SAR, SAR Acknowledgement, and ISIR printout, the processed date is above the EFC on the first page.

Valid SAR or ISIR
A SAR or ISIR on which all the information reported on a student’s FAFSA is accurate and complete as of the date the application is signed.
The FAFSA is the first step in the financial aid process. Because it’s important to complete the form correctly, this chapter discusses some of the more difficult questions that arise. While the chapter more closely follows the organization of the paper application, the guidance applies equally to FAFSA on the Web. To see how FAFSA data are used to calculate the Expected Family Contribution, refer to Chapter 3.

The FAFSA is organized as steps, each consisting of a group of related questions. There are also instructions on how to fill out the form.

As of the date the FAFSA is signed, it is considered a “snapshot” of the family’s information that can be updated only in certain circumstances and only for certain items; see Chapter 5.

The guidance in this chapter supplements the application instructions. Students can get similar advice on filling out the FAFSA online at www.studentaid.ed.gov. The parents mentioned are those of dependent students. The numbers in parentheses are for the items as they appear on the SAR, ISIR, paper FAFSA, and FAA Access.

STEP ONE: GENERAL STUDENT INFORMATION

Purpose: This section of the application identifies the student and establishes his aid eligibility based on factors such as citizenship, educational level, and Selective Service registration (see also Volume 1: Student Eligibility). Some questions are included to help the school package awards and to eliminate the need for students to fill out a separate state or school financial aid form.

- **Student’s name (1–3).** The name, along with other identifying information, is used for several data matches. Because the U.S. Department of Education (ED) matches the student’s name and Social Security number (SSN) with the Social Security Administration (SSA), the name here should match the one in the SSA’s records.

- **Permanent mailing address (4–7).** This cannot be the school address, with two exceptions: an incarcerated student or homeless youth (see page 27) may use his college’s administrative address and, if he is submitting a paper FAFSA, he will include with it a letter from the school indicating that he is incarcerated or homeless and is using the school’s address. If he is applying on the Web, he should send the letter to the FAFSA processor (the same address to which a paper FAFSA is sent) and be sure that it contains his SSN.

Completing the FAFSA

Information for students about completing the FAFSA is posted on the Web at www.studentaid.ed.gov/completefafsa

You may wish to add a link from pages that students use on your website to this reference information. You can also download FAFSA on the Web banner graphics to use on your website. Go to http://www.ifap.ed.gov/fafsa/0330FAFSA4caster.html
The student should be careful when entering her SSN; although it can be corrected after the FAFSA is processed, the number originally entered will always be used as her ID, and it is likely to cause confusion and extra work for the financial aid administrator if it doesn’t match the student’s SSN. While not required, the student can solve the confusion by filing a new original FAFSA using the correct SSN.

- **Student’s e-mail address (13).** If the student provides this address, he should get an e-mail with a link to his online SAR data within one to three days after the CPS receives his application. The Department will also use this e-mail address to correspond with him regarding his application and PIN.

- **Citizenship status (14).** Examples of noncitizenship categories are given in the FAFSA instructions, and a detailed discussion of citizenship issues can be found in Volume 1: Student Eligibility. Only citizens or certain classes of noncitizen are eligible for Title IV aid; however, a student should still submit the FAFSA if she might be eligible for aid from institutional, state, or private sources that do not require U.S. citizenship.

- **Student’s marital status (16 and 17).** This is marital status “as of today”—the day the application is signed. Marital status cannot be projected or updated during the award year.

- **Student’s state and date of legal residence (18–20).** This information is used in the EFC calculation to determine the appropriate allowance for state and other taxes.

It also indicates which state agency should receive the student’s FAFSA information. States have varying criteria for determining whether the student is a resident for purposes of their financial aid. However, residing in one state for four years will meet any state’s criteria. Therefore, a person answering “Yes” to question 19 will likely meet the residency requirements of the state reported in question 18, while the state eligibility for a person answering “No” will depend on the date reported in question 20 and the state’s requirements.

- **Conviction for possessing or selling illegal drugs (23).** Students convicted of a federal or state offense of selling or possessing illegal drugs that occurred while they were receiving federal student aid should still complete and submit the FAFSA because they may be eligible for federal aid, and even if they aren’t, they may be eligible for state or institutional aid.
Students who fill out their FAFSA online and answer “Yes” to question 23 will immediately receive a series of questions to determine their eligibility.

Students who fill out a paper FAFSA and answer “Yes” to this question will receive a worksheet with their SAR to determine whether the conviction affects their eligibility for federal student aid. If the date they regain eligibility falls before July 1, 2011, the worksheet will instruct them to change the response to a “1,” indicating full eligibility for the award year. If the date falls between July 1, 2011, and June 30, 2012, they will not be eligible for part of the award year and will need to change the response to a “2.” If the date falls after June 30, 2012, the students’ response will remain a “3.” They will not be eligible for federal aid during the entire award year unless they complete a qualified drug rehabilitation program or pass two unannounced drug tests given by such a program. See Volume 1: Student Eligibility for more information.

Students who leave question 23 blank cannot be paid Title IV aid until they respond by submitting a corrected SAR or ISIR.

■ **Highest level of school completed by student’s parents (24 and 25).** Some state agencies use this information to award grants and scholarships. Father and mother are defined here as the student’s birth or adoptive parents but not stepparents, guardians, or foster parents. This definition is unique to these questions—all others use the definition on page 25.

■ **High school completion status (26).** The student indicates whether he has a high school diploma or General Educational Development (GED) certificate, he was homeschooled, or none of these apply. The last category includes those who have the equivalent of a high school diploma (see Volume 1, Chapter 1 of the FSA Handbook), for example, students who have passed the California High School Proficiency Exam (CHSPE) but did not earn a high school diploma; California considers a passing grade on the CHSPE to be equivalent to a diploma.

■ **High school (27).** This question asks for the name of the high school where the student received or will receive her diploma, as well as the city and state where it is located. On FAFSA on the Web, the student will be able to choose the name from a drop-down list or, if the school is not given, write in the name. See Volume 1 of the Handbook about checking the validity of a high school education.

■ **First bachelor’s degree (28).** The student answers if he will have a first bachelor’s degree before July 1, 2011, because eligibility for Pell and Federal Supplemental Educational Opportunity grants (FSEOGs) is almost exclusively restricted to students who have not received a bachelor’s degree or completed the requirements for one. See “Pell Grants” in Chapter 6 of Volume 1: Student Eligibility regarding degrees from unaccredited and foreign schools, which can count as bachelor’s degrees for Pell and FSEOG eligibility.

---

**STEP 1**

**Questions 23–28**

**Student information**

---

**Undergraduate student definition**

A student who is enrolled in a program of study that usually does not exceed four academic years or is enrolled in a longer program that is designed to lead to a first degree at the baccalaureate level. A student enrolled in a program that lasts longer than five years is considered an undergraduate for only the first four years.

For the FSEOG, Pell, and TEACH Grant programs, a student is an undergraduate only if he has not earned, or completed the requirements for, a bachelor’s or professional degree. Students enrolled in a postbaccalaureate program as described in 34 CFR 686.2(d) and 690.6 are still undergraduates for receiving TEACH and Pell grants.

Students enrolled in dual degree programs that confer a bachelor’s degree and either a graduate or first professional degree are undergraduates for at least the first three years of the program. The school determines at what point after three years the student ceases to be an undergraduate. 34 CFR 668.2(b)

---

**Graduate or professional student definition**

A graduate student is one who: is not receiving aid as an undergraduate for the same period of enrollment; is enrolled in a program above the bachelor’s level or one leading to a professional degree; and has completed the equivalent of at least three years of full-time study, either before entrance into the program or as part of it. 34 CFR 668.2(b)
STEP 2
Questions 29–39 and 79–87
Grade level, tax return, and income

■ Student’s grade level at the start of the school year (29). This is not based on the number of years the student has attended college but on work completed toward the degree/certificate. For instance, a full-time student might attain second-year grade level after one year of study, while a half-time student would take two years to reach that level.

■ Interest in work-study (31). The student indicates whether she is interested in receiving work-study. This helps the school in packaging her award. If she isn’t sure about wanting work-study, she should answer “don’t know” so she will be considered for it; later she can decline any aid she doesn’t want.

STEP TWO: STUDENT/SPOUSE INCOME AND ASSETS

Purpose: Questions 32–44 ask for the student’s (and spouse’s) income and assets. Step Four collects similar information about parents’ income and assets, so the following discussion pertains to parents as well as the student and spouse. Income, assets, and living allowances are used to calculate the student’s portion of the EFC.

If the student or the student’s parent wasn’t married in 2010 but is married at the time the application is signed, the applicant also needs to provide income and asset information for the new spouse. If the student or the student’s parent was married in 2010 but is now separated or divorced, or the spouse has died at the time the application is signed, the student or parent doesn’t provide income and asset information for that spouse, even though the information may be on the 2010 tax forms.

The FAFSA asks for income and taxes paid according to lines on the IRS tax forms for 2010, the “base year” for 2011–12. Data from the completed tax year is used as a predictor of the family’s financial situation for the current year. If 2010 tax data is not available yet, best estimates can be used on the application, though the student may need to correct them later if they differ from the tax return.

The FAFSA also collects information for certain investments and other assets. Applicants only report the net worth of assets, instead of reporting the value and debt. They should report asset amounts as of the date the application is signed.

■ Tax return filed (32–34, 79–81 for parents). These questions ask if a 2010 tax return was completed, which return was or will be filed, and whether the student or parents were eligible to file a 1040A or 1040EZ. The CPS uses this information in part to identify if the student is eligible for the simplified needs test or the auto zero EFC (see the margin note on page 15).

■ Adjusted gross income (AGI) and other tax data (35–39, 83–87 for parents). Dependent students report these items for their parents. Each question gives the line reference to the 2010 IRS tax forms, so it will be easier to enter the income and tax paid if the tax return has been completed. A student can instead estimate answers, but if the estimated information is wrong, she might have to correct it when...
the tax return is filed. The worksheet on page 14 can help students estimate their tax information.

**IRS Data Retrieval** allows students and parents who are using FAFSA on the Web and who have already submitted their federal tax return to electronically retrieve their tax data from the IRS database. The ISIR will show data was imported and if it was altered. Data retrieval is useful for verification and corrections as well; see the relevant chapters in this guide. Using this process is voluntary, but beginning with the 2012–2013 year, all students and parents of dependent students who indicate on the application that they have already filed a federal tax return and who are otherwise eligible to use IRS Data Retrieval will be directed to do so. Those who do not import their data directly from the IRS or subsequently change their data will be informed that they will have to explain to the school why the information they provided is more accurate than what would have been imported from the IRS, and they may still need to retrieve IRS data directly, for instance, if selected for verification.

Students or parents who filed a joint return but are divorced, separated, or widowed when the application is signed won’t be able to copy the information from the tax forms. Instead, they must figure out how much of the income and taxes paid is attributable to them and not their spouses. For more on this calculation, see “Using a joint return to figure individual AGI and taxes paid” in Chapter 4.

If the student, spouse, or parents were not required to file a tax return, the student should still report any **income earned from work** in lines 38–39 (student and spouse) and lines 86–87 (parents). The W-2 form and other records should be used to determine these amounts. Do not include combat pay (see the margin note).

Income earned from work is used to calculate allowances for the Social Security and Medicare tax (aka the Federal Insurance Contributions Act or FICA tax) and for the added costs incurred by working families. For non-taxfilers it will also be used in place of AGI and will cause the application to be rejected if it is above the tax filing threshold.

For a fiscal year tax return, as opposed to one for the calendar year, the applicant should report information from the fiscal year return that includes the greater number of months in 2010.

If the student or parents filed a tax return using something other than a common IRS form, such as a foreign or Puerto Rican tax form, the student should report on the FAFSA the amounts (converted to U.S. dollars) from the lines of the form that correspond most closely to those on the common IRS forms.

**Assets (40–42, 88–90 for parents)**. An asset is property the family owns and that has an exchange value. The FAFSA collects current (as of the day of signing the FAFSA) data about cash, savings and checking accounts, investments, businesses, and investment farms. Most assets are **investments**, for example, college savings plans, Coverdell savings accounts, real estate, installment and land sale contracts (including

---

**STEP 2**

Questions 35–42 and 83–90

Income, other tax data, and assets

**Income earned from work and combat pay**

Because combat pay is not counted as untaxed income and is removed from the AGI when it is taxable, it should not be included in the income earned from work.

**Fiscal year return example**

Owen’s parents file a fiscal year tax return. They start their fiscal year in September. The return they filed for the fiscal year starting in September 2009 includes eight months in 2010. The return they’ll file for the fiscal year starting in September 2010 only includes four months of 2010. Therefore, they should use the information from the tax return for the fiscal year that started in September 2009.

**Other tax forms**

The following tax forms are considered alternatives to a U.S. Form 1040A and 1040EZ: the income tax returns required by the tax codes of the Commonwealth of Puerto Rico, Guam, American Samoa, the U.S. Virgin Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau. Information from these tax returns would be reported on the FAFSA in the same manner as U.S. tax information, and copies of these forms can be used for verification in the same way as U.S. tax forms are. Amounts are already reported in U.S. dollars and the school should look at tax return line items that are comparable to the IRS line items for verification.
**Zero income**

Occasionally an applicant will report no income for the base year. This can occur when the family has tax write-offs that produce a negative AGI or when the applicant neglected to report untaxed assistance. Zero income is noted in our CPS edits and may increase the likelihood that the applicant will be selected for verification. If the CPS does not select the student for verification, you may still choose to ask her for further information about her means of support during the base year. Also, you may use professional judgment (PJ) to adjust the income line items to reflect income the family receives that doesn’t appear on the tax return.

Any cash support for the student, other than support from a parent for a dependent student, counts as untaxed income and must be reported. In-kind help (see page 21) from a friend or relative is not considered untaxed income, but you may use PJ to account for the value of that in-kind support. For example, you could adjust the room and board component of the cost of attendance (COA) for a student who lives with his aunt and eats meals with her family.

---

### AGI Worksheet for those who have not completed a tax return

Use this worksheet to estimate adjusted gross income (AGI) if you have not completed a tax return.

mortgages held), trust funds, mutual funds, money market funds, UGMA and UTMA accounts, certificates of deposit, stocks, stock options, bonds, commodities, and precious metals. If the asset isn’t a business or investment farm, it should be reported as an investment.

The FAFSA asks for the net worth of investments, which is their total current market value minus their associated debts. If their net worth is negative, the student reports a zero.

Similarly for businesses and investment farms, the current net worth is reported for land, buildings, machinery, equipment, livestock, and inventories. The current market value of a business or investment farm is reduced by the debt owed on it to determine the net worth. Business or farm debt means only those debts for which the business or farm was used as collateral.

Excluded assets—not reported on the FAFSA:

➔ **Possessions** such as a car, a stereo, clothes, or furniture are not reported as an asset.

➔ **A family’s principal place of residence** is not reported, even if it is part of a business.

➔ **A family farm** (including equipment, livestock, etc.) isn’t included as an investment on the FAFSA if:

  • it is the principal place of residence for the applicant and his family (spouse or, for dependent students, parents), and

  • the applicant (or parents of a dependent student) materially participated in the farming operation.

➔ **Family-owned and controlled small businesses** (which can include farms) that have 100 or fewer full-time or full-time equivalent employees do not count as an asset. “Family-owned and controlled” means that more than 50% of the business is owned by persons who are directly related or are or were related by marriage (family members do not have to be counted in the household size for this question).

➔ **Retirement plans and whole life insurance.** The value of retirement plans (401[k] plans, pension funds, annuities, non-education IRAs, Keogh plans, etc.) is not counted as an asset, but distributions do count as income—they appear in the AGI if taxable and in questions 44 and 92 if untaxed. Similarly, the cash value or equity of a whole life insurance policy isn’t reported as an asset, but an insurance settlement does count as income.

The full amount of the distribution is reported, whether it was a lump sum or annual distribution, and it will count as taxable or untaxed income, as appropriate. An exception to reporting pension distributions is when they are rolled over into another retirement plan in the same tax year.
Qualified education benefits

Qualified tuition programs (QTPs, also known as section 529 plans because they are covered in section 529 of the IRS tax code) and Coverdell education savings accounts are grouped together in the law as qualified education benefits and have the same treatment: they are an asset of the owner (not the beneficiary because the owner can change the beneficiary at any time), except when the owner is a dependent student, in which case they are an asset of the parent. When the owner is some other person (including a non-custodial parent), distributions from these plans to the student count as untaxed income, as “money received.”

States, their agencies, and some colleges sponsor plans known in the IRS tax code as qualified tuition programs. The IRS mentions two types of QTPs that are commonly called prepaid tuition plans and college savings plans. States may offer both plan types, but colleges may only sponsor prepaid tuition plans.

Prepaid tuition plans allow a person to buy tuition credits or certificates, which count as units of attendance. The number of units doesn’t change even though tuition will likely increase before the beneficiary gets to use the tuition credits. They are an asset of the plan owner, and their worth is the refund value of the credits or certificates.

College savings plans allow a benefactor to deposit money into an account that will be used for the beneficiary’s college expenses. The buyer does not pre-purchase tuition credits as with a prepaid tuition plan. Rather, this type of plan is essentially a savings account, and its value as an asset is the current balance of the account.

Coverdell education savings accounts, or ESAs, are another tax-advantaged savings vehicle for college education. They are treated the same as college savings plans: the current balance is an asset of the account owner.

As long as distributions from QTPs and ESAs do not exceed the qualified education expenses for which they are intended, they are tax-free, so they will not appear in the next year’s AGI. They should not be treated as untaxed income (except in the cases mentioned above) or as estimated financial assistance. For more information on these benefits, see the IRS’s Publication 970, Tax Benefits for Education.

Reporting “take-back” mortgages

In a take-back mortgage, the seller of a house finances a portion of its cost for the buyer, who repays this additional mortgage to the seller. The seller reports the interest part of any payments received from the buyer on Schedule B of IRS Form 1040. Therefore, if a student or his parents report such interest on the tax return, it likely indicates an asset that should be reported on the FAFSA: the value of the take-back mortgage. There would be no debt reported against this asset. For example, if a dependent student’s parents sold their house for $200,000 and financed a take-back mortgage of $40,000 to the buyer, the parents should report $40,000 as the net worth of the investment. The worth will decrease each year depending on how much of the principal the buyer paid back that year. This concept applies to other forms of seller financing of the sale of a home or other property.
Reporting trust funds

Trust funds in the name of a student, spouse, or parent should be reported as that person's asset on the application, generally even if the beneficiary's access to the trust is restricted. If the settlor of a trust has voluntarily placed restrictions on its use, then the student should report its present value as an asset, as discussed below. If a trust has been restricted by court order, however, the student should not report it. An example of such a restricted trust is one set up by court order to pay for future surgery for the victim of a car accident.

How the trust must be reported depends on whether the student (or dependent student's parent) receives or will receive the interest income, the trust principal, or both. In the case of a divorce or separation where the trust is owned jointly and ownership is not being contested, the property and the debt are equally divided between the owners for reporting purposes unless the terms of the trust specify some other method of division.

Interest only

If a student, spouse, or parent receives only the interest from the trust, any interest received in the base year must be reported as income. If the interest accumulates and is not paid out, the recipient must report an asset value for the interest she will receive. The trust officer can usually calculate the value of the interest the person will receive while the trust exists. This value represents the amount a third person would be willing to pay for the interest income.

Principal only

The person who will receive only the trust principal must report as an asset the present value of his right to that principal. For example, if a $10,000 principal reverts to a dependent student's parents when the trust ends in 10 years and the student is receiving the interest, he would report the interest he received as income and report as a parental asset the present value of his parents' rights to the principal. The present value of the principal can be calculated by the trust officer; it's the amount that a third person would pay for the right to receive the principal 10 years from now—basically, the amount that one would have to deposit now to receive $10,000 in 10 years.

Both principal and interest

If a student, spouse, or parent receives both the interest and the principal from the trust, the student should report the present value of both interest and principal, as described in the discussion of principal only. If the trust is set up so that the interest accumulates within the trust until it ends, the beneficiary should report as an asset the present value of the interest and principal that she is expected to receive when the trust ends.

Ownership of an asset

In some cases the ownership of an asset is divided or contested, which can affect how the student reports the asset.

Part ownership of asset

If the parent or student has only part ownership of an asset, the student should report only the owned part. Generally the value of an asset and debts against it should be divided equally by the number of people who share ownership unless the share of the asset is determined by the amount invested or the terms of the arrangement specify some other means of division.

Contested ownership

Assets shouldn't be reported if the ownership is being contested. For instance, if the parents are separated and can't sell or borrow against jointly owned property because it's being contested, the parent reporting FAFSA information would not list any net worth for the property. However, if the ownership of the property is not being contested, the parent would report the property as an asset. If ownership of an asset is resolved after the initial application is filed, the student can't update this information.

Lien against, and imminent foreclosure of, an asset

If there's a lien against the asset, the net value of the asset is determined by subtracting from its total value any associated debt as well as the amount of the lien. If foreclosure of an asset is imminent, the net value of the asset would still be reported until the party making the foreclosure completes legal action to take possession of the asset. If the status of the property changes after the application is filed, the student can't update the asset information.
STEP 2
Questions 43 and 91
Taxable income offsets

Excluded assets for Native American students. The law excludes reporting any property received under the Per Capita Act or the Distribution of Judgment Funds Act (25 U.S. Code 1401, et seq.), the Alaska Native Claims Settlement Act (43 U.S. Code 1601, et seq.), or the Maine Indian Claims Settlement Act (25 U.S. Code 1721, et seq.).

Taxable income offsets (43 and 91). These questions total certain types of taxable income that appear on the tax return but are excluded from the need analysis. When the CPS calculates the EFC, it subtracts this excluded income from the AGI. Having the AGI from the tax return listed on the application makes verification easier.

- a. Education tax credits. These are the American Opportunity and Lifetime Learning tax credits; the FAFSA refers to lines 49 and 31 on the 1040 and 1040A tax returns respectively. See the margin note.

- b. Child support payments made during 2010 because of divorce, separation, or legal requirement by the student, spouse, or parent whose income is reported on the FAFSA. Don’t count child support received for a child in the household size; that is untaxed income.

- c. Taxable earnings from need-based work programs. These are earnings from any need-based work program including Federal Work-Study and need-based employment portions of fellowships or assistantships. The student uses the W-2s or other records she received for these earnings.

- d. Student grant and scholarship aid. A student reports only the amount of grants and scholarships received that is taxable income. This includes grant and scholarship (not employment) portions of fellowships and assistantships, as well as taxable stipends and employer tuition reimbursements. Include also AmeriCorps benefits (awards, living allowances, and interest accrual payments) except those for health care or child care. The filer usually writes the taxable amount of the grant or scholarship separately on the tax form next to the line where wages and other earnings are reported. If the amount was reported this way, the student can copy it from the tax form.

- e. Combat pay. Enter only the portion that was included in adjusted gross income. This should be zero for enlisted persons and warrant officers (including commissioned warrant officers) because their combat pay is entirely non-taxable. For commissioned officers generally, combat pay in excess of the highest enlisted person’s pay (plus imminent danger/hostile fire pay) is taxable. To determine the taxable amount, find the total combat pay from the serviceperson’s leave and earnings statements and subtract the untaxed portion, which is reported in box 12 of the W-2 form with code Q. See IRS Publication 3, Armed Forces’ Tax Guide, for more information.

- f. College cooperative education program earnings from work. The student uses the W-2s or other records she received for these earnings.

American Opportunity credit
This credit takes the place of the Hope credit. Part of it can be refundable, that is, payable to tax filers even if they do not owe any federal income tax. The nonrefundable portion appears on the same lines of the tax return and the FAFSA as the Lifetime Learning credit. The refundable portion appears on line 66 of the 1040 form and line 43 of the 1040A. It does not appear on the lines of the FAFSA for the education tax credits, nor does it count as untaxed income.

Reimbursements and stipends
Employers often help with education costs by paying stipends or reimbursing employees for classes taken. These benefits count as estimated financial assistance (or reduce the cost of attendance) even if they aren’t received until the end of the class(es) and are contingent on earning a minimum grade. Any taxable portion received in the prior year and appearing in the AGI is entered in question 43 or 91.

Child support payments example
Steven and his wife each have a child from a previous relationship who doesn’t live with them and for whom they pay child support. Because Steven provides over half of his daughter’s support through his payments, he counts her in his household size. Therefore, he doesn’t report the amount of child support he pays on his FAFSA. Steven’s wife isn’t providing over half of her son’s support, so he isn’t included in Steven’s household size. Therefore, Steven can report the amount of child support his wife pays.
Untaxed income (44 and 92). These questions total the untaxed income, some of which is reported on the tax form even though it isn’t taxed. A student who hasn’t filed a return will have to estimate these amounts, and students or parents may need to separate information from a joint return.

a. Payments to tax-deferred or sheltered pension and savings plans (paid directly or withheld from earnings). This includes untaxed portions of 401(k) and 403(b) plans. These types of payments are listed in boxes 12a through 12d of the W-2 and will have one of the following codes: D, E, F, G, H, or S. Note that employer contributions to these plans shouldn’t be reported as an untaxed benefit.

b. Deductible IRA or Keogh payments. Payments to an IRA or Keogh plan that are excluded from taxation are reported as untaxed income. These amounts appear on the tax return.

c. Child support received for all children.

d. Tax-exempt interest income. Certain types of interest, such as interest on municipal bonds, are tax-exempt. This amount is on line 8b on both the 1040 and 1040A forms.

e. and f. Untaxed IRA distributions and pension or annuity payments. A tax filer determines how much of his IRA distribution or pension or annuity payment is taxable when he completes his tax return. The applicant reports the untaxed portion, which is determined from the tax return, but should not include rollovers (transfers of funds from one IRA to another).

g. Housing, food, and other living allowances. Some people, particularly clergy and military personnel, receive these allowances as compensation for their jobs. Money received to pay for rent should also be reported, as should the free use of a house or apartment (the rent or market value of a comparable house or apartment can be used). Similarly, if the student received free room or board in 2010 for a job that was not awarded as student financial aid (including resident advisor positions that provide free room and board as part of the student’s non-need-based employment compensation), she must report the value of the room and board as untaxed income. Note the housing exclusions on the following page.

h. Veterans’ noneducation benefits. This includes disability, the death pension, Dependency and Indemnity Compensation (DIC), and Veterans Affairs (VA) educational work-study allowances.

i. Any other untaxed income not reported elsewhere. This can include disability, worker’s compensation, interest income on education IRAs, untaxed portions of Railroad Retirement benefits, black lung benefits, refugee assistance, the untaxed portion of capital gains, and foreign income that wasn’t taxed by any government and isn’t part of the Foreign Earned Income Exclusion.

Homebuyer tax credits
2010 tax returns can include a $6,500 or $8,000 (these are maximum amounts) tax credit for long-time resident or first-time homebuyers respectively. Because these credits are not explicitly excluded by law from the need analysis, as are other credits, they count as untaxed income. Note that legislation added a documentation requirement for these credits, so a person must file a paper return to claim them.

Making work pay tax credit
This refundable tax credit may appear on the 2010 tax return. Like the homebuyer credits above, it counts as untaxed income.

EFA or not?
Sometimes an outside financial award can be difficult to account for. If a student receives the award because of postsecondary enrollment, it counts as estimated financial assistance if it is not considered wages for employment according to federal or state rules, or if it is considered wages and is based on need. Any amount that appears in income on the tax return will also be included on the appropriate line of item 43 or 91 on the FAFSA. If the award is considered wages for employment but is not based on need, then it is not EFA and it remains in income.

Independent student with parental support example
Doug is a graduate student, so he’s independent even though he still lives with his parents and has no income of his own. Although the FAA at his school can’t make him a dependent student, she decides to use professional judgment to add an amount to his untaxed income to account for the in-kind support his parents provide.
STEP 2
Untaxed income not reported on the FAFSA

Box 14 items on the W-2
Schools are not required to review income listed in box 14 of the IRS’s W-2 form. There are a few reasons for this: several of the items that the IRS suggests could be reported in box 14 are captured already on the FAFSA (in adjusted gross income for instance); also, employers could include in box 14 certain non-elective pension plan contributions, and non-elective contributions should not be counted in the need analysis; finally, because no employer is required to provide information in box 14, it is unlikely that employers will be consistent in what they report there.

But if you are aware that a box 14 item should be reported—i.e., if it represents discretionary income—you should include it on the pertinent line. For example, clergy parsonage allowances often appear in box 14, and you would count that on line g of question 44 or 92.

Dependent benefits example
Stanislaw’s uncle Yvor lives with him and receives a small disability payment each month. This amount is paid directly to Yvor, so Stanislaw doesn’t report it as income when he completes the FAFSA. The payment is small enough that Stanislaw is still providing more than half of Yvor’s support, and because he expects to continue to provide more than half support during the award year, he includes Yvor as a dependent in his household size. However, starting the July after the current award year, Yvor expects to also start receiving a pension. The combination of the pension and the disability payment will be enough that Stanislaw won’t be providing more than half of his uncle’s support and therefore won’t be able to include Yvor in his household size after this award year.

j. Money received (44 only). The student reports any cash support he has received. But if he is dependent, he does not count his parents’ support, with one exception: money from a non-custodial parent that is not part of a legal child support agreement is untaxed income to the student. Cash support includes money, gifts, and loans, plus housing, food, clothing, car payments or expenses, medical and dental care, college costs, and any money paid to someone else on his behalf. For example, if a friend or relative pays his electric bill or part of his rent, he must report the amount as untaxed income. If he is living with a friend who pays the rent and the student’s name is on the lease, the rent paid on his behalf counts as cash support because he is responsible for payments that his friend is making. Note that this item does not appear in the parents’ question (93)—only the student reports this information.

Tips on reporting benefits:

The student reports the actual amount of benefits received during the year, even if it is an underpayment or an overpayment that will be corrected in the next year. However, if the underpayment or overpayment was adjusted in the same year, only the net amount received during that year would be reported.

Benefits the student or parent receives on behalf of anyone included in his FAFSA household size count as income to him unless the person is an adult (e.g., a grandmother; a child would not count) who receives the benefits in her name. Such a person is not included in the household size if benefits in her name total more than half of her support.

Income and benefits NOT to be included:

➔ **Student aid** is accounted for in packaging (see *Volume 3: Calculating Awards and Packaging*); it does not count as income in the calculation of the EFC. Student aid includes tuition benefits a parent receives for a dependent, such as those from the parent’s employer. Student aid that was included in the AGI is reported separately as an exclusion so that it can be subtracted from income.

➔ **Veterans’ education benefits.** Appendix A in *Chapter 8 of Volume 3* for 2010–11 has the list of excluded benefits. See also the electronic announcement dated 8/13/09 at [www.ifap.ed.gov](http://www.ifap.ed.gov) for information.

➔ **The value of on-base housing** or the basic allowance for housing (BAH) for students or parents who are in the military. However, the basic allowance for subsistence (BAS) still counts as untaxed income.

➔ **Rent subsidies for low-income housing.**

➔ **Payments and services received from states for foster care or adoption assistance**, under Part A or Part E of Title IV of the Social Security Act.
Per capita payments to Native Americans. Money received in 2009 from the Per Capita Act or the Distribution of Judgment Funds Act should not be reported unless it exceeds $2,000 per payment. Any amount over that is reported as untaxed income.

Heating/fuel assistance. This includes payments or allowances received under the Low-Income Home Energy Assistance Act (LIHEA). Payments under the LIHEA are made through state programs that may have different names.

Flexible spending arrangements. These are employee benefit programs, sometimes called “cafeteria plans.” Neither contributions to nor payments from these programs should count as untaxed income.

Welfare benefits (e.g., Temporary Assistance for Needy Families or TANF), untaxed Social Security benefits, and the earned income and additional child tax credits.

Combat pay, foreign income exclusion, and credit for federal tax on special fuels.

In-kind support is other than money, for example, friends or relatives giving the student food or allowing him to live with them rent-free. That support isn’t included as untaxed income, though you may use professional judgment (e.g., by reducing the cost of attendance or increasing income) with students who receive such in-kind support. This is not the same as housing and other allowances received as compensation for a job, which, as stated earlier, must be reported. If the student is living with someone who is paying living expenses, it can be difficult to determine whether the support is cash support or in-kind support. The basic rule is: if someone pays a cost the student is obligated to pay, the amount counts as cash support.

STEP THREE: DEPENDENCY STATUS

Purpose: The law governing the FSA programs is based on the premise that the family is the first source of the student’s support, and the law provides several criteria that decide if the student is considered independent of her parents for aid eligibility. Note that a student reaching the age of 18 or 21 or living apart from her parents does not affect her dependency status.

If the student is considered a dependent of his parents, information on the income and assets of the parents must be included on the FAFSA. The CPS will calculate a parental contribution and add it to the student’s contribution to derive an EFC.

In unusual cases an aid administrator can determine that a student who doesn’t meet any of the independence criteria should still be treated as an independent student. (See “Dependency overrides” later in this section.)

Married (46). The student must answer this question according to her marital status at the time the FAFSA is signed; after that, she cannot update FAFSA information for changes in her marital status.
STEP 3
Questions 47–49
Dependency status

Military service academies and preparatory schools
U.S. Military Academy (West Point)
U.S. Naval Academy (Annapolis)
U.S. Air Force Academy
U.S. Coast Guard Academy
U.S. Merchant Marine Academy
U.S. Military Academy Preparatory School
Naval Academy Preparatory School
U.S. Air Force Academy Preparatory School

Early exit cadets
Students who attend a U.S. military academy or military academy preparatory school and who are discharged other than dishonorably prior to commission are veterans for FSA purposes but might not be veterans for VA purposes. These students will likely receive match results showing that they aren't veterans. Just like other students who receive these match results, if an early exit cadet meets one of the other criteria for independence, no resolution is required. But if he meets no other independence criteria, he must provide the school with documentation that shows he was a cadet of a military academy or its preparatory school.

Example: surviving parent and stepparent
Meurig’s parents divorced when he was seven; his mother later remarried, and Meurig lived with his mother and stepfather. His stepfather didn’t adopt him. His mother died last year, but his father is still living. Meurig doesn’t meet any of the independence criteria, so he’s a dependent student. Because his father is his only surviving parent, Meurig needs to report his father’s information on the form, even though he’s still living with and being supported by his stepfather.

A student who is only engaged answers as unmarried unless she waits until after the wedding to complete the FAFSA. A student is considered married if she is separated or planning to divorce or if she has a relationship that meets the criteria for common-law marriage in her state. A student who was independent only because she was married becomes dependent for the next award year if she divorces and cannot answer yes to any of the dependency questions.

Graduate or professional study (47). The FAFSA asks if the student will be working on a master’s, doctorate, or graduate certificate program at the beginning of the school year. A student who is a graduate or professional student is independent for purposes of Title IV aid.

Graduate and professional students aren't eligible for Pell grants, so a student who incorrectly answers “Yes” to this question must submit a correction before he can get a Pell grant, even if he is independent for another reason.

Students should fill out the FAFSA based on their expected grade level at the beginning of the award year. If a dependent student completes her undergraduate program during the year and begins graduate school, she can update the answer to the dependency question so that the CPS can reprocess her application, or the aid administrator at the graduate school can recalculate her EFC and use it to package her graduate aid.

Member or veteran of the U.S. Armed Forces (48 and 49).
Veterans and persons on active duty in the U.S. Armed Forces (the Army, Navy, Air Force, Marines, or Coast Guard) for purposes other than training are independent.

Veterans are those who were in active service (which includes basic training) and were released under a condition other than “dishonorable.” This includes those who fraudulently entered the service as long as their entire period of service was not voided. There is no minimum amount of time the student has to have served to be a veteran, but it does have to be active service. This is less stringent than the VA’s definition of veteran for receiving certain VA benefits.

The application also tells students to answer “Yes” to the question about veteran status if they aren’t yet a veteran but will be by June 30, 2012. Students who attended a U.S. service academy or preparatory school (see margin note) for at least one day and were released under conditions other than “dishonorable” count as veterans for Title IV purposes. Students serving in ROTC or currently attending a U.S. military academy are not veterans.

Members of the National Guard or Reserves are only considered veterans if they were called up to active federal duty by presidential order for a purpose other than training. It does not matter how long the active duty lasted or if the student returned to reserve status afterward, but, as with the other qualifying veterans, the student must have had a character of service that was not “dishonorable.”
Children and legal dependents (50 and 51). Students who have legal dependents are independent. Legal dependents comprise children (including those who will be born before the end of the award year) of the student who receive more than half their support from the student, and other persons (except a spouse) who live with and receive more than half their support from the student as of the FAFSA signing date and will continue to do so for the award year. The same criteria apply to household size.

When a student applies after the award year has begun, in order to count a person not her child as a dependent, the support already given that year plus the future support must total more than 50% for the whole year. See the margin example.

Orphan, foster child, or ward of the court (52). A student who was an orphan—both her parents were dead—when 13 or older is independent even if she was subsequently adopted. Likewise, a student who was at any time since the age of 13 a foster child or a ward of the court is independent even if her status changed later.

A student is a ward of the court if the court has assumed legal custody of her. In some states the court may impose its authority over a juvenile who remains in the legal custody of her parents; such a student is not a ward of the court. Also, incarceration of a student does not qualify her as a ward of the court. In some states the phrase “ward of the state” is used. This is considered the same as a ward of the court for dependency status as long as the student is a ward of the state not due to incarceration.

Emancipation and legal guardianship (53 and 54). Students are independent if they are, or were upon reaching the age of majority, emancipated minors (released from control of their parent or guardian) or in legal guardianship, both as adjudicated by a court in their state of legal residence at the time of the adjudication. Students in legal guardianship to their parents, for instance, if they are handicapped adults and under their parents’ care, are not independent by this criterion and would answer “No” to question 54.

Unaccompanied homeless youth (55–57). A student is independent if at any time on or after July 1, 2010 (irrespective of whether the student is currently homeless or at risk thereof), she is determined to be an unaccompanied homeless youth by a school district homeless liaison or the director (or designee) of an emergency shelter program funded by the Department of Housing and Urban Development (HUD). The director (or designee) of a runaway or homeless youth basic center or transitional living program can determine this as well, plus whether a student is independent because she is an unaccompanied youth who is self-supporting and at risk of being homeless. These authorities make this determination if the student is receiving their programs’ services or if, in the case of a school district homeless liaison, the student is in high school.

STEP 3
Questions 50–57
Dependency status

Legal dependent examples
Laurel is going to college and is her cousin Paul’s legal guardian. Paul receives Social Security benefits, but because he’s a minor, the benefits are paid to Laurel on his behalf. These benefits provide more than half of Paul’s support. Because Paul lives with Laurel and will be supported by her (through the Social Security benefits) throughout the award year, Laurel answers “Yes” to the legal dependent question. If Paul didn’t live with Laurel, she would have to answer “No” to the question.

Alan pays $4,000 to support his girlfriend, Cathy, who lives with him. She has earned income of $3,000, and she receives $200 a month ($2,400 a year) from her parents. She uses all of this for her support. Alan cannot consider Cathy a dependent since the $4,000 he provides is not more than half of her total support of $9,400.

In April 2011 Anika applies for aid for 2010–11. One month prior to that her cousin Bettina came to live with her. Even though Anika provides all of her cousin’s support, the one month of support she has given plus the two months left in the award year would not amount to more than 50% for the entire year, so she can’t consider Bettina her dependent for 2010–11. If Bettina had moved in just before the midpoint of the year, Anika would have been able to count her as a dependent for 2010–11.
STEP 3
Veteran match

Veteran match (for question 49)
If the student answers “Yes” to the question about veteran status, the CPS performs a match with the U.S. Department of Veterans Affairs (VA) records to confirm that status. The VA sends the result back, which appears as a match flag in the FAA Information section of the output document. For flags 2, 3, and 4, a comment and a C flag will appear on the SAR only if veteran status is the sole reason that the student would be independent. See the guide SAR Comment Codes and Text: 2011–2012 on the IFAP website.

Successful match (match flag 1)
There won’t be any comments on the output document if the VA confirms that the student is a veteran.

Not a veteran (match flag 2)
A student will receive this flag if the VA database indicates he is not a veteran. If the student answered “Yes” to one of the other dependency questions, he is independent based on that question and can receive student aid without resolving his veteran status.

If the student answered “No” to all the other dependency questions and he believes he is a qualifying veteran, he should provide the financial aid office at his school a copy of his DD214 (the Certificate of Release or Discharge from Active Duty, with “Character of Service” as anything but “dishonorable”). If it shows that he is a veteran, he can receive aid as an independent student. A dependency override is not necessary because the CPS accepts his “Yes” answer to the veteran question. If a national guardsman or a reservist who served on active duty (for other than training) did not receive a DD214 but can obtain a letter from a superior officer that documents the call-up to active duty and that classifies the character of service as anything but “dishonorable,” the student will be considered a veteran for FSA purposes. If the student turns out not to be a veteran, he will need to change his answer to the question from “Yes” to “No” and provide parent information, including a parent’s signature.

If the VA match problem is due to an error in the VA’s database, the student should contact the VA and correct the error. A subsequent transaction will then redo the match with the VA.

Not on database (match flag 3)
Much of the guidance above applies for students not on the VA database: if the student is independent for a reason other than being a veteran, she doesn’t need to resolve the problem before receiving student aid, although she should have the VA correct its database if it’s wrong. If she answered “No” to the other dependency questions, she must either correct any problem with the VA, provide documentation showing she is a veteran or will be one by June 30, 2012, or, if she is not a veteran and will not be one by that date, provide parent data and change her response to the question from “Yes” to “No.”

Active duty (match flag 4)
If the student is currently on active duty, he isn’t a veteran yet, but if his active duty will end by June 30, 2012, he counts as a veteran for dependency status. Because he should have answered “Yes” to the active duty question, he would be independent by that criterion, and he wouldn’t have to resolve this situation.
STEP 3
Who is a parent or has dependents

Who counts as a parent?
If the applicant answers “No” to questions 45–57, then she is dependent and must report parental information. In most cases it’s clear who the parents are, but not always.

✔ Adoptive parents and stepparents
An adoptive parent is treated just like a biological parent. For reporting income and assets in Step 4, a stepparent is considered a parent if married to a biological or adoptive parent and if the student counts in their household size.

However, a stepparent who did not adopt the student cannot be the sole parent for determining dependency status. If the other parent dies, the student is still a dependent of the remaining biological parent, not the stepparent. If no biological parent remains, the student answers “Yes” to Question 53 and is independent.

✗ Foster parents, legal guardians, and relatives
A foster parent or a legal guardian is not treated as a parent for FSA purposes. If at any time since the age of 13 both of the student’s parents were dead (and he did not have an adoptive parent) or he was in foster care, he is independent. If he is now, or was when he became an adult, an emancipated minor or in legal guardianship (see the exception under Question 54), he is independent.

If a student is living with her grandparents or other relatives, their data should not be reported on the FAFSA as parental data unless they have adopted the student. Any cash support from persons other than the student’s parents should be reported as untaxed income, as discussed in Step 2. The school may also consider other kinds of support as part of the student’s financial resources and use professional judgment to include the support under the item for student’s untaxed income (see Chapter 5 on professional judgment).

Other sources of support for children and other household members
If the student is receiving support to raise her child, is the child still considered a legal dependent? If one or both of the student’s parents are directly or indirectly providing more than 50% support in cash or other assistance to the child, then the student would answer “No” to the FAFSA question about legal dependents. “Indirect support” to the child includes support that a parent gives to the student on behalf of the child. If the student is living with a parent who is paying for most of the household expenses, the parent would usually be considered the primary source of support to the child, and the student would answer “No” to the question about legal dependents. However, there may be some cases where the student can demonstrate that she provides more than half of her child’s support even while living at home, in which case she would answer “Yes” to the question about legal dependents.

When the student receives money for the child from any source other than her parents, she may count it as part of her support to the child. Sources include child support and government programs, such as Temporary Assistance for Needy Families (TANF) and the Supplemental Nutrition Assistance Program (SNAP, formerly the federal Food Stamp Program), that provide benefits for dependent children. So a student may be considered independent when the benefit she receives is the primary support for her child. For example, if a student who lives alone with her child receives cash from her boyfriend that amounts to more than 50% support for her child, then she would be able to count the child as a dependent and in her household size, and she would be independent. If the boyfriend is the father of the child and a student himself, then he would also be able to count the child as a dependent and in his household size, and he would be independent too.
STEP 3
Questions 55–57
Unaccompanied homeless youth

Student living with relatives example
Millie’s father is dead, and her mother can’t support her, so she is living with her grandmother. Her mother doesn’t pay any money for her support. Millie doesn’t meet any of the independence criteria, so she has to provide parental information. Because her grandmother hasn’t adopted her, her grandmother isn’t her parent. Millie will have to provide information about her mother on the form unless there are unusual circumstances that would warrant a dependency override or her receiving only unsubsidized loans. In any case, the school might use PJ to account for the grandmother’s support.

Homeless youth definitions
At risk of being homeless—when a student’s housing may cease to be fixed, regular, and adequate, for example, a student who is being evicted and has been unable to find fixed, regular, and adequate housing.
Homeless—lacking fixed, regular, and adequate housing.
Self-supporting—when a student pays for his own living expenses, including fixed, regular, and adequate housing.
Unaccompanied—when a student is not living in the physical custody of a parent or guardian.
Youth—a student who is 21 years old or younger or still enrolled in high school as of the date he signs the application.

Housing
Fixed—stationary, permanent, and not subject to change.
Regular—used on a predictable, routine, or consistent basis.
Adequate—sufficient for meeting both the physical and psychological needs typically met in the home.

A financial aid administrator can also determine if a student is an unaccompanied youth who is either homeless or is self-supporting and at risk of being homeless. It is important to examine students’ living situations and claims on a case-by-case basis. This is not a dependency override or an exercise of professional judgment. If a student does not have, and cannot get, documentation from any of the above authorities, you must determine if she is an unaccompanied youth who is homeless or is self-supporting and at risk of being homeless.

As defined in the margin note, a student is considered homeless if he lacks fixed, regular, and adequate housing. This is broader than just living “on the street.” It includes temporarily living with other people because he had nowhere else to go; living in substandard housing (if it doesn’t meet local building codes or the utilities are turned off, it is generally not adequate); living in emergency or transitional shelters, for example, trailers provided by the Federal Emergency Management Agency (FEMA) after disasters; or living in motels, camping grounds, cars, parks, abandoned buildings, bus or train stations, or any public or private place not designed for humans to live in. It also includes living in the school dormitory if the student would otherwise be homeless. A student living in any of these situations and fleeing an abusive parent may be considered homeless even if the parent would provide support and a place to live.

The documentation for an FAA’s evaluation of the living arrangements of a student must demonstrate that she meets the definition of this category of independent student. The determination may be based on a documented interview with the student if there is no written documentation available.

When you are making a determination of homelessness:
• Ask for help with determining eligibility from local school district homeless liaisons, state homeless education coordinators, or the National Center for Homeless Education (http://center.serve.org/nche/).
• School district homeless liaisons and shelter providers can help you develop and implement procedures for verification.
• Relevant information can come from recognized third-parties such as private or publicly funded homeless shelters and service providers, financial aid administrators from another college, college access programs such as TRIO and GEAR UP, college or high school counselors, other mental health professionals, social workers, mentors, doctors, and clergy.
• Use discretion when gathering information, and respect the student’s privacy. Some information, such as that protected by doctor-patient privilege, is confidential. Also, documents such as police or Child Protective Services reports are not necessary.
• Determine eligibility based on the legal definitions provided.
• A determination of being homeless is not a dependency override or a case of professional judgment. Students should understand that they are able to contest an eligibility determination by a financial aid office by providing supporting information to be reviewed collaboratively by the school’s general counsel, the financial aid di-
rector, and a recognized McKinney-Vento practitioner (such as a school district homeless liaison, state homeless education coordinator, or the National Center for Homeless Education). Students may also appeal a determination to the Department.

- Unaccompanied homeless youth, like incarcerated students, may use the address of your school as their own on the FAFSA.

For students you determine to be unaccompanied homeless youths or unaccompanied, self-supporting youths at risk of being homeless, process their FAFSA as if you were making a dependency override. As with a dependency override, you may rely on a determination by another school that on or after July 1, 2010, a student was in this category.

Students who are older than 21 but not yet 24 and who are unaccompanied and homeless or self-supporting and at risk of being homeless qualify for a dependency override.

**Dependency overrides**

A financial aid administrator (FAA) may do dependency overrides on a case-by-case basis for students with unusual circumstances. If the FAA determines that an override is appropriate, she must write a statement detailing the determination and must include the statement and supporting documentation in the student’s file. However, none of the conditions listed below, singly or in combination, qualify as unusual circumstances meriting a dependency override:

1. Parents refuse to contribute to the student’s education;
2. Parents are unwilling to provide information on the FAFSA or for verification;
3. Parents do not claim the student as a dependent for income tax purposes;
4. Student demonstrates total self-sufficiency.

Unusual circumstances do include an abusive family environment or abandonment by parents and may cause any of the above conditions. In such cases a dependency override might be warranted. See Chapter 5 for guidance on other professional judgment (PJ) changes.

The presence of these conditions would not disqualify a student from being an unaccompanied youth who is homeless or self-supporting and at risk of being homeless. As noted above, such a student who is too old to be a “youth” would merit a dependency override.

An aid administrator may override only from dependent to independent (though as suggested earlier, if an independent student receives substantial support from others, a school may use PJ to adjust the COA or FAFSA data items such as untaxed income).

An FAA may, without gathering documentation, use an override that another school granted in the same award year. However, overrides do not carry over from one year to the next; the FAA must reaffirm each year that the unusual circumstances persist and an override is still justified.

**Verification not required**

You are not required to verify the answers to the homeless youth questions unless you have conflicting information. A documented phone call with, or a written statement from, one of the relevant authorities is sufficient verification.

It is not conflicting information if you disagree with an authority’s determination that a student is homeless. If you believe the authority is incorrect or abusing the process, accept his determination but contact the following oversight party, as relevant, to evaluate the authority’s determinations:

- School district homeless liaison: contact the coordinator of education for homeless children and youth programs of the state’s educational agency. A list of state coordinators can be found at: http://center.serve.org/nche/states/state_resources.php.
- Director of an emergency shelter or transitional housing program: contact the local Continuum of Care administering the HUD homeless assistance program. A list of local Continuums of Care and state HUD field offices may be found at http://www.hudhre.info/index.cfm?do=viewCocContacts.
- Director of a runaway or homeless youth basic center or transitional living program: contact the National Clearinghouse on Families and Youth by telephone at (301) 608-8098 or by e-mail at ncfy@acf.hhs.gov.
STEP 3
Students without parent support

Dependency overrides
HEA Sec. 480(d)(7). Also see Dear Colleague Letter GEN-03-07.

Overrides and professional judgment
The phrase “professional judgment” is commonly used for the discretion that FAAs apply to dependency overrides and to data adjustments in the application. It is important to note that the provisions for these two types of changes are in separate places in the HEA. The citation for dependency overrides is in Sec. 480(d)(7); the citation for data adjustments is in Sec. 479A and is copied in toto in a margin note on page 104 of this guide.

Unable to provide parent data
FAFSA on the Web allows students to indicate that they believe they have special circumstances that prevent them from providing parent information. A student who indicates this is thoroughly informed about what warrants a dependency override and what the results will be for his application. If he persists through those screens and does not include parent data, he will get a rejected ISIR that will have the special circumstances flag set. You will have to review the student’s situation and determine if he is an unaccompanied homeless individual, merits a dependency override, must instead provide parent data, or should be permitted to borrow only unsubsidized Stafford loans because he can document that his parents have refused to support him and to provide their information on his FAFSA.

The documentation of unusual circumstances should come from a third party that knows the student’s situation (such as a teacher, counselor, medical authority, or member of the clergy). If third party documentation is truly not available, the school can accept a signed and dated statement from the student or a family member detailing the unusual circumstances. Such a statement should be a last resort.

To override the student’s dependent status on an initial application through FAA Access, the FAA should use the Dependency Override code of “1” (see the EDE Technical Reference for more information).

To authorize a dependency override on a paper FAFSA, the FAA marks the oval for an override, labeled “D/O,” in the “College Use Only” box, fills in the school’s federal school code, and signs. A separate letter attached to the application in lieu of making the override is not acceptable.

If the student has already applied, you can use FAA Access to CPS Online to authorize or cancel an override; overrides cannot be done on the SAR. If she had an override done at another school in the current year, that will be noted with the school’s federal code on FAA Access. Only the school performing the override will receive that transaction. If the student adds your school to the transaction or if she gives you her data release number (DRN), you can access the record.

Students without parent support
Students whose parents refuse support are not eligible for a dependency override, but they may be able to receive unsubsidized Stafford loans only. For a student to be eligible for this provision (the text of which is in the “Professional judgment” margin note in Chapter 5), you must get documentation (1) that his parents refuse to provide information for his FAFSA and (2) that they do not and will not provide any financial support to him. Include the date support ended. If the parents refuse to sign and date a statement to this effect, you must get documentation from a third party (the student himself is not sufficient), such as a teacher, counselor, cleric, or court.

As noted above, this situation does not justify a dependency override. But as with overrides, resolving the situation is at your discretion. If you decide that a student falls into this category, you must document your decision and ensure that the student submits a FAFSA and passes all the eligibility matches. The result will be a rejected application with no EFC. You can then award the student unsubsidized Stafford loans up to the maximum the student would normally be eligible for depending on his grade level (but not the amount a student can get when his parent is unable to get a PLUS loan). See DCL GEN-08-12 for more information.
Reporting information in cases of death, separation, divorce, and remarriage

If the parents of a student divorce or separate, a student must answer parental questions on the FAFSA as they apply to the surviving or responsible parent.

Death of a parent

If one, but not both, of the student’s parents has died, the student answers the parental questions about the surviving biological or adoptive parent and does not report any financial information for the deceased parent. If both her parents are dead when she fills out the FAFSA, she must answer “Yes” to Question 52, making her independent. Remember that an adoptive parent counts as a parent, but a legal guardian doesn’t. If the surviving parent dies after the FAFSA has been filed, the student must update her dependency status and report income and assets as an independent student.

Stepparent

A stepparent is treated like a biological parent if the stepparent has legally adopted the student or if the stepparent is married, as of the date of application, to a student’s biological or adoptive parent whose information will be reported on the FAFSA. **There are no exceptions.** A prenuptial agreement does not exempt the stepparent from providing information required of a parent on the FAFSA. The stepparent’s income information for the entire base year, 2010, must be reported even if the parent and stepparent were not married until after 2010. See above for how to fill out the parent questions when the stepparent’s spouse (the biological parent) dies; if the stepparent has not adopted the student, he would no longer provide parental information as before, but any financial support he gives to the student would be counted as untaxed income.

Divorce of the student’s parents

If the student’s parents are divorced, he should report the information of the parent with whom he lived longer during the twelve months prior to the date he completes the application, regardless of which parent claimed him as an exemption for tax purposes. If the student lived equally with each parent or didn’t live with either one, then he should provide the information for the parent from whom he received more financial support or the one from whom he received more support the last calendar year for which it was given. Note that it is not typical that a student will live with or receive support from both parents exactly equally. Usually you can determine that the student lived with one of the parents more than half the year or that he received more than half support from one of the parents.

Separation of the student’s parents or the student and spouse

A couple need not be legally separated to be considered separated—they may deem themselves informally separated when one of the partners has left the household for an indefinite period and the marriage is severed. While a married couple that lives together can’t be informally separated, in some states they can be legally separated. If their state allows this, and if they are still living together and are legally separated, then that is their status on the FAFSA. For a dependent student, use the rules for divorce to determine which parent’s information to report.

Common-law marriage

If a couple lives together and has not been formally married but meets the criteria in their state for a common-law marriage, they should be reported as married on the application. If the state doesn’t consider their situation to be a common-law marriage, then they aren’t married; a dependent student would follow the rules for divorce to determine which parent’s information to report. Check with the appropriate state agency concerning the definition of a common-law marriage.
STEP FOUR: PARENTS’ INFORMATION (DEPENDENT STUDENTS ONLY)

Purpose: Questions 58–78 collect information about the student’s parents and their household. Questions 79–92 collect tax and financial information for the parents, and because these questions are answered in the same way as for the student, they were discussed under Step 2.

- Parents’ personal information (58–67). The FAFSA asks for parents’ SSNs, last names, first initial, date of birth, and month and year they were married, separated, divorced, or widowed. This is to prepare for a possible match with the IRS on AGI, taxes paid, filing status, and number of exemptions claimed. If the SSN, last name, and birth date for at least one parent are not provided, or if neither parent’s SSN matches with the Social Security Administration, the application will be rejected. When the SSN doesn’t match with SSA, the wrong number must be corrected so that the application and SSA agree. For a name or birth date that doesn’t match, correct the application if it’s wrong or re-enter the information if it’s correct. If the parent doesn’t have an SSN, enter 000-00-0000 to prevent or remove a reject code. (See also the SSN chapter in Volume 1.)

- Parents’ state of residence (69–71). Parents who do not live in the U.S. should enter “FC” for question 69.

- Household size (72). This determines the standard living allowance that offsets family income in the EFC calculation. The following persons count in the household size of a dependent student’s parents:
  
  - The student and parents, even if the student is not living with them. Exclude a parent who has died or is not living in the household because of separation or divorce.

  - The student’s siblings and children, if they will receive more than half their support from the student’s parent(s) from July 1, 2011, through June 30, 2012. Siblings need not live in the home. This includes unborn children and siblings of the student who will receive more than half support from the student’s parent(s) from birth to the end of the award year. It also includes siblings who would be considered dependent based on the FAFSA dependency questions (i.e., they need not be students nor apply for aid).

  For children in the household size, the “support test” is used rather than residency because there may be situations in which a parent supports a child who does not live with her, such as when the parent is divorced or separated. If the parent receives benefits (such as Social Security payments) in the child’s name, these benefits must be counted as parental support to the child. An exception to this is foster care payments, which typically cover the costs of foster children, who for FSA purposes are not considered children of the foster parents and are not counted in the household size.

  - Other persons who live with and receive more than half their support from the student’s parent(s) and will receive more than half support
for the entire award year. When the application is submitted after the start of the year, see the relevant paragraph and example about legal dependents on page 23.

■ Number in college (73). The applicant is always included in the number in college, but parents are not included. Others who count in the household size are in the number in college if they are or will be enrolled at least half time during the award year in an eligible degree or certificate program at a school eligible for any of the FSA programs. The definition of half-time enrollment for this question must meet the federal requirements even if the school defines half time differently. (See Volume 1: Student Eligibility for enrollment status requirements.) Do not include students at a U.S. service academy (see the margin note on page 22) because most of their primary educational expenses are paid for by the federal government.

■ Receipt of means-tested federal benefits (74–78). This as an alternative for the tax return requirement of the simplified needs and automatic zero EFC tests.

■ Tax forms filed by parents, income, and assets (79–81, 83–92). The criteria for reporting income, assets, and the tax forms filed are basically the same for parents as for the student, so refer to the discussion in Step Two for these questions.

■ Dislocated worker (82). This status, as defined (see 29 U.S.C. 2801) in the Workforce Investment Act of 1998 or WIA, is an alternative to the tax return and means-tested federal benefits criteria for determining if a person qualifies for the simplified needs test or automatic zero EFC. A person would answer “Yes” to this question if she meets the statutory definition of dislocated worker but does not appear to because of the general nature of the FAFSA instructions. Under the WIA, a dislocated worker is someone who falls into at least one of these categories:

1. A person who meets all of the following requirements:
   - he was terminated or laid off from employment or received a notice of termination or layoff;
   - he is eligible for or has exhausted his unemployment compensation, or he is not eligible for it because, even though he has been employed long enough to demonstrate attachment to the workforce, he had insufficient earnings or performed services for an employer that weren’t covered under a state’s unemployment compensation law; and
   - he is unlikely to return to a previous industry or occupation.

2. A person who was terminated or laid off from employment or received a notice of termination or layoff as a result of any permanent closure of, or any substantial layoff at, a plant, facility, or enterprise.

3. A person who is employed at a facility at which the employer made a general announcement that it will close within 180 days.
4. A person who is employed at a facility at which the employer made a
general announcement that it will close.

5. A self-employed person (including farmers, ranchers, or fishermen) who
is unemployed because of natural disasters or because of general economic
conditions in his community.

6. A displaced homemaker, someone who meets all of the following re-
quirements:
   • she has been providing unpaid services to family members in the home;
   • she has been dependent on the income of another family member but is
     no longer supported by that income; and
   • she is unemployed or underemployed and is having difficulty obtaining
     or upgrading employment. An “underemployed” person is one who is work-
     ing part time but wants to work full time or one who is working below the
demonstrated level of her education or job skills.

Not everyone who receives unemployment benefits will meet the
definition of dislocated worker. For example, in general those who
quit their jobs are not considered dislocated workers, even if they are
receiving unemployment benefits.

You are not required to verify the answer to this question. If you
choose to verify it, documentation can include, as appropriate to the
category, a letter or a layoff or termination notice from the employer,
unemployment insurance (UI) system verification, tax returns, a
business license, or newspaper articles. You may also use documents
from the state workforce agency or a “one-stop career center,” though
they are not required to provide you such documentation and a
person may meet the dislocated worker definition without going to the
workforce investment system for services. Absent all other evidence,
self-certification will suffice, such as a statement signed by the person
affirming that he meets the definition of dislocated worker.

Information from the workforce investment system. The local
workforce investment system and state UI agency may support
financial aid administrators by:

• providing general information to dislocated workers;

• providing general information to financial aid administrators, such as
  about the WIA definition of dislocated workers and appropriate samples of
documentation that financial aid offices can request from an individual to
verify dislocated worker status;

• providing specific information to dislocated workers. A person can re-
  quest documentation from the career center or other appropriate office that
he is receiving dislocated worker services through the workforce investment
system. That office can give the documentation to him, or at his request it
may (it is not obligated to) give the documentation directly to the college.
If you must determine if someone is a dislocated worker, you have sole responsibility and must make the determination regardless of whether the person has proof of dislocated worker status—or is receiving dislocated worker services—from the workforce investment system.

**STEP FIVE: INDEPENDENT STUDENT DATA**

**Purpose:** Questions 93–100 collect information about independent students. Only students who answered “Yes” to one or more questions in Step Three complete this step.

- **Student’s household size (93).** The following persons are included in the household size of an independent student:
  - The student and his or her spouse, unless the spouse has died or is not living in the household due to separation or divorce.
  - The student’s children, regardless of where they live, if they will receive more than half of their support from the student from July 1, 2011, through June 30, 2012. This includes the student’s unborn children who will be born during the award year and will receive more than half their support from the student from birth to the end of the award year. Foster children do not count in household size.
  - Other persons who live with and receive more than half their support from the student and will receive more than half support for the entire award year. When the application is submitted after the start of the year, see the relevant paragraph and example about legal dependents on page 23.

- **Number in college (94).** The student is always included in the number in college. Also included are those in the household size who are or will be enrolled at least half time during the award year in a degree or certificate program at a Title IV-eligible school and who can reasonably be expected to receive aid from the family for their education. This excludes students at a U.S. service academy because their entire education is paid for by the federal government. The definition of half-time enrollment for this question must meet the federal requirements even if the school defines half time differently.

- **Receipt of means-tested federal benefits (95–99).** This is an alternative for the tax return requirement of the simplified needs and automatic zero EFC tests.

- **Dislocated worker (100).** See question 82.

**STEP SIX: SCHOOL INFORMATION**

**Purpose:** These items collect information about which colleges the student wants to receive his FAFSA information. For a college to be able to receive his data, the student must list the college’s federal school code (not the OPE ID) or enter its complete name, address, city, and state. There is a federal school code search on FAFSA on the Web (www.fafsa.gov), and the
entire list of school codes is available in portable document format (PDF) and Excel on the IFAP site (www.ifap.ed.gov).

For each school, the student is asked to indicate whether he expects to live on campus, with his parents, or off campus. While this information is not used to calculate the student’s EFC, it is useful to schools for determining the cost of attendance.

The student can list up to four schools on the paper FAFSA and ten on the Web (at least one is required). If he wants his information to be available to more schools, he can use his SAR or FAFSA on the Web to change the schools listed. The CPS will send data to no more than four (or ten) schools at a time. Chapter 5 describes how a student can add or change schools.

**STEP SEVEN: SIGNATURE(S)**

**Purpose:** By signing the FAFSA, the applicant is assuming responsibility for the accuracy of the information reported.

**Date and signature(s) (102–103).** In addition to certifying that the data on the FAFSA are correct, the student is also signing a Statement of Educational Purpose, which is required to receive FSA funds. Among other things, the student agrees to spend FSA funds only on educational expenses and affirms that he is not in default on a federal loan or does not owe a grant overpayment. If he is dependent, one parent whose information is reported on the FAFSA must also sign.

**Substitutes for a parent’s signature.** While parent information must be provided for a dependent student, a high school counselor or a college aid administrator may sign the application in place of a parent if:

- the parents are not currently in the United States and cannot be contacted by normal means,
- the current address of the parents is not known, or
- the parents have been determined physically or mentally incapable of providing a signature.

The signer must provide her title in parentheses next to her signature and briefly state the reason (only one is needed) why she is signing for the parents. The signer assures a minimum level of credibility in the data submitted; however, she does not assume any responsibility or liability in this process. If the counselor or FAA finds any inaccuracies in the information reported, she should direct the student to send the SAR through the normal correction process or, if she is an FAA, she can submit corrections through FAA Access. Because this proxy signing isn’t possible electronically, it must be done on a paper FAFSA or on the signature page/FAFSA summary used with FAA Access.
Preparer’s ID and signature (104–106). Only persons who are paid a fee to help the student fill out the application are considered FAFSA preparers. Those who advise students without charging a fee, such as high school counselors and FAAs, are not preparers. A preparer must include his name, his company’s name (if applicable), his address or the company address, and either his SSN or the company employer identification number (EIN, as assigned by the IRS). With the paper FAFSA, the preparer must also sign and date the form.

Preparers have other obligations. In their advertising and their initial contact with a consumer, including via the Internet or phone, they must clearly inform him that the FAFSA is free and can be completed electronically or on paper without professional help. If they have a website for their service, it must link to FAFSA on the Web. They may not use any form other than the FAFSA for the purpose of applying for Title IV aid.

A preparer who knowingly falsifies information on the application is subject to the same penalties as an applicant.
Signatures for electronic applications

FAA Access to CPS Online
If you enter a student's original application through FAA Access to CPS Online, you must obtain original or “wet” signatures on the printed signature page/FAFSA summary or on a completed paper FAFSA, and you must keep the signed document in the school files even if the student doesn't receive federal student aid or attend your school. You may electronically store the original document, but you may not accept faxed or copied signatures from the student for the FAFSA. (You have more latitude regarding verification documents and changes to the application; see chapters 4 and 5.)

FAFSA on the Web
Students who have PINs can electronically sign their FAFSA on the Web. Parents who have a PIN can also electronically sign. Both parents and students will have to provide their name ID (first two letters of their last name), SSN, and date of birth with the PIN. Parents also must provide their child's name ID, SSN, and DOB in order to match the parent's signature record with the student's FAFSA.

Alternately, students can print the signature page, sign it, and mail it to the processor. If the processor doesn't receive the signature page within 14 calendar days of receiving the application data, it will mail a “reject 16” SAR to the student (“Missing student signature on Web application”), which the student can sign and return. If the student chooses not to print and send a signature page, or if no printer was available, the processor won’t wait 14 days to print a rejected SAR for the student but will generate one within 72 hours of receiving the data.

If the student indicated on an electronic FAFSA that she would print, sign, and mail in a signature page but the processor has not received the signature page, the student can call FAFSA on the Web customer service and have her record released from the FAFSA hold file. Because no signature page has been received, the FAFSA processor will produce a rejected SAR and mail it to the student to sign and return. The processor will accept the first signature document it receives—either the signed signature page or the signed SAR.

Schools and states receive ISIRs for rejected records. A student's reject 16 SAR and her ISIR will reflect the data that she provided on the application; however, the CPS won’t calculate an official EFC for the student (an unofficial EFC that cannot be used to award or disburse aid will appear on the ISIR) or do any database matches until it receives a signed signature page, a signed SAR, or an electronic signature. A school can also collect the required “wet” signatures at the school, either on the SAR or a document that has the required certification statements (FAA Access allows schools to print out a signature page for the ISIR). The school can then submit an electronic correction showing that the signatures have been provided.

Renewal FAFSA on the Web
To access their Renewal FAFSA on the Web, students must provide their PIN and other identifiers. In addition to allowing access to application data over the Internet, the PIN is a legal equivalent to a manual or “wet” signature for FSA purposes. For an independent student, no other signatures are needed, and the application will be processed within 72 hours.

Parents of dependent students can sign with their own PIN. Otherwise, the student can print a signature page for the parent. If the student indicates that no printer was available, the CPS will generate a “reject 15” (“Missing parent signature on FAFSA or SAR”) output document for the student within 72 hours. If the student indicated she would send in a signature page, the processor will wait up to 14 calendar days to receive the signed page. If it doesn't receive a signed signature page after 14 days, it will generate a reject 15 SAR and send it to the student. The student must have a parent sign the SAR and must send it back to the address on the SAR. For reject 15 records, a student’s SAR and ISIR will reflect the data provided on the application, but the processor won’t calculate an EFC for the student until it receives the parent’s electronic signature or the signed SAR or signature page.

Signature requirements for changes made after the FAFSA is filed will be discussed in Chapter 5.
### Signature Requirements: Application and Verification for All FSA Programs

<table>
<thead>
<tr>
<th>Application <strong>(FAFSA, FAFSA on the Web, FAA Access to CPS Online)</strong></th>
<th>IRS Forms <strong>(1040 or other form submitted for verification)</strong></th>
<th>Verification Worksheet</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Student</strong></td>
<td>Must sign statement that data are accurate and other conditions are met (on paper FAFSA, Web summary, or signature page or by using PIN).</td>
<td>Tax return must be signed by student (or spouse), or the tax preparer must provide his name and SSN, EIN, or PTIN.</td>
</tr>
<tr>
<td><strong>Parent(s)</strong> <em>(if student is dependent)</em></td>
<td>One parent must sign statement that data are accurate (on paper FAFSA, Web summary, or signature page or by using PIN).</td>
<td>Tax return must be signed by one parent, or the tax preparer must provide his name and SSN, EIN, or PTIN.</td>
</tr>
<tr>
<td><strong>Aid Administrator</strong></td>
<td>Must certify if overriding dependency status (can't be done on FAFSA on the Web).</td>
<td></td>
</tr>

*These requirements apply to any submission of changes to the Central Processing System, whether required by regulation (for Pell grant recipients or corrections to data match items) or at the discretion of the financial aid administrator (for Campus-based aid and Stafford loans).*
EXPECTED FAMILY CONTRIBUTION (EFC)

The EFC is a measure of how much the student and his or her family can be expected to contribute to the cost of the student’s education for the year. The EFC is calculated according to a formula specified in the law. In this chapter we describe the EFC formula in detail.

GENERAL INFORMATION

All the data the CPS uses to calculate the EFC come from the information the student provides on the FAFSA. The EFC formula uses many variables, including income, assets, the number of persons in the household, and the number attending college for the award year.

Every year the Department publishes updated tables used in the EFC calculation. The 2011–2012 updates are in the May 27, 2010, Federal Register. Also available at www.ifap.ed.gov is the EFC Formula Guide.

The law provides three different formulas to calculate the EFC: one for dependent students, one for independent students without dependents other than a spouse, and one for independent students with dependents other than a spouse. In addition there are three simplified versions of each formula with fewer data elements.

SIMPLIFIED FORMULA

The simplified formula is basically the same as the regular formula except that asset information isn’t considered in the calculation. A dependent student qualifies for the simplified calculation if:

• the parents’ combined AGI (for tax filers) or income earned from work (for non-filers) was less than $50,000, and

• either: (1) the parents were not required to file an IRS Form 1040,1 (2) one of them is a dislocated worker as defined in the Workforce Investment Act of 1998 (see Chapter 2 for a description of dislocated worker), or (3) anyone counted in their household size received a means-tested federal benefit during 2009 or 2010.2

An independent student qualifies for the simplified calculation if:

• the student’s and spouse’s combined AGI (tax filers) or income earned from work (non-filers) was less than $50,000, and

1 Persons not required to file the IRS Form 1040 comprise those who do not have to submit a return, who filed or will file a 1040A or 1040EZ, and who were eligible to file a 1040A or 1040EZ but filed or will file a Form 1040 for no substantial reason or solely to claim an education tax credit.

2 See margin note #2 on the next page.
• either: (1) the student and spouse were not required to file an IRS
Form 1040,¹ (2) one of them is a dislocated worker as defined in the
Workforce Investment Act of 1998, or (3) anyone counted in the
household size received a means-tested federal benefit during 2009 or
2010.²

The application asks for asset information from all students. If the stu-
dent qualifies for the simplified formula and provides the asset informa-
tion, the CPS will make two EFC calculations: one using the assets and one ex-
cluding them. The EFC from the simplified formula (which excludes assets)
is called the primary EFC and is printed on the front of the student’s SAR,
while the EFC from the full calculation is called the secondary EFC and is
printed in the FAA Information section. To determine the student’s aid, the
school must use the primary EFC, which will always be less than or equal to
the secondary EFC. If it turns out that the student was not eligible for the
simplified formula, the school must correct and submit the record and use
the EFC reported on the resulting transaction.

AUTOMATIC ZERO EFC

The law also provides for an automatic zero EFC for some students. The
CPS will assign a zero EFC to a dependent student if:

- the parents’ combined AGI (for tax filers) or combined income earned
  from work (for non-filers) is $31,000 or less, and

- either: (1) the parents were not required to file an IRS Form 1040,¹ (2)
one of them is a dislocated worker as defined in the Workforce
Investment Act of 1998, or (3) anyone counted in their household size
received a means-tested federal benefit during 2009 or 2010.²

An independent student with dependents other than a spouse
automatically qualifies for a zero EFC if:

- the student’s and spouse’s combined AGI (for tax filers) or combined
  income earned from work (for non-filers) is $31,000 or less, and

- either: (1) the student and spouse were not required to file an IRS
Form 1040,¹ (2) one of them is a dislocated worker as defined in the
Workforce Investment Act of 1998, or (3) anyone counted in the
household size received a means-tested federal benefit during 2009 or
2010.²

Independent students with no dependents other than a spouse do not
qualify for an automatic zero EFC.

DEPARTMENT OF DEFENSE MATCH AND
IRAQ AND AFGHANISTAN SERVICE GRANT

Schools will consider the EFC to be zero for Pell-eligible students with
a parent or guardian who was a member of the U.S. Armed Forces and who
died as a result of service in Iraq or Afghanistan after September 11, 2001.
These students must have been less than 24 years old or enrolled in college when the parent or guardian died.

The CPS will match applications against a file provided by the Department of Defense. If a match is found, a personalized letter will be sent to the student explaining the potential increase in funding and the DOD match flag will be set to “Y” on the ISIR and a date will appear in the parent’s date of death field (which, out of sensitivity, will not be noted on the SAR). The CPS will calculate an EFC normally; the school should use a zero EFC when packaging qualifying students.

Students in this situation who are not Pell-eligible because their EFC is too high will be able to receive an Iraq and Afghanistan service grant (see Volume 1, Chapter 6) in the same amount of the Pell grant they would have been eligible for with a zero EFC. However, for these students the school uses the EFC calculated by the CPS and does not reduce it to zero.

**ALTERNATE EFCS**

The law specifies how the EFC of a dependent student must be modified if the student is going to enroll for other than a nine-month period. The EFC found in the upper-right-hand corner of the first page of the output document is based on a nine-month enrollment period and should always be used for awarding a Pell grant, even if the student is attending for a longer or shorter period. The second section of the “FAA Information” area contains a table of alternate primary and secondary EFCS for periods of one to twelve months. These are alternate EFCS that you must use to award aid (other than Pell grants) if the student is attending for other than nine months.

**THE EFC WORKSHEETS**

The end of the chapter contains the EFC worksheets, which can be used to manually calculate an EFC or to see how the EFC is determined for each of the formulas explained hereafter. For items that are taken from the FAFSA, the worksheets indicate the corresponding FAFSA/SAR line numbers. On the worksheets for the simplified formula, the parts of the calculation that aren’t used are blacked out.

**FORMULA A—DEPENDENT STUDENTS**

The EFC for a dependent student is calculated using the FAFSA information for the student and his parents. The CPS calculates the parents’ contribution (which includes their assets), the student’s contribution from income, and the student’s contribution from assets; the EFC is the sum of these three.

Under the simplified formula, the parent’s contribution doesn’t include assets, nor is the student’s contribution from assets counted.

**Parents’ contribution**

The parents’ available income and contribution from assets are first determined, and then these are used with the number in college to calculate the parents’ contribution.
▼ *Parents’ available income.* The parents’ available income is calculated by subtracting certain allowances from the parents’ total income. These allowances account for certain nondiscretionary expenses, such as taxes and basic living expenses. Once a minimum level of support has been offset for those expenses, the formula assumes that the remaining income is available for discretionary purposes, including paying for a postsecondary education. The available income can be a negative number.

The total income is the sum of the taxable and untaxed income, minus amounts reported in the income but excluded from the formula. If the parents are tax filers, the parents’ AGI as reported on the FAFSA is the amount of the parents’ taxable income used in the calculation. If the parents are not tax filers, the calculation uses the parents’ reported income earned from work. Total income can be a negative number.

The sum of the following allowances are used to reduce the parents’ total income:

- **U.S. income tax paid.** Use the amount reported on the FAFSA. Non-taxfilers don’t receive this allowance. If this is a negative amount, it is set to zero.

- **State and other tax allowance.** Use Table A1. This allowance is a percentage of parents’ total income and approximates the average amount paid in state and other taxes. The percentage varies according to the state and according to whether the parents’ total income is below $15,000 or is $15,000 or more. The state used is the parents’ state of legal residence reported on the FAFSA. If this item is blank or invalid, the student’s reported state of legal residence is used. If both are blank or invalid, the state in the student’s mailing address is used. If all three are blank or invalid, the rate shown in Table A1 for a blank or invalid state is used (3% for total income below $15,000; 2% for total income of $15,000 or more). If the allowance is a negative amount, it’s set to zero.

- **Father’s and mother’s Social Security tax allowance.** The father’s and mother’s Social Security taxes are calculated separately by applying the rates shown in Table A2 to the father’s income earned from work and the mother’s income earned from work in 2010 (as reported on the FAFSA). The total allowance for Social Security taxes is never less than zero.

- **Income protection allowance.** Use Table A3. This allowance is for the basic living expenses of a family. It varies according to the number in the parents' household and the number in college in 2011–12, as reported on the FAFSA. In general, a school can assume that 30% of the income protection allowance amount is for food, 22% for housing, 9% for transportation expenses, 16% for clothing and personal care, 11% for medical care, and 12% for other family consumption. The income protection allowance used for a particular student is provided as one of the intermediate values in the FAA Information Section of the output document (labeled as “IPA”).
• **Employment expense allowance.** Families with two working parents and one-parent families have extra expenses that must be considered, such as housekeeping services, transportation, clothing and upkeep, and meals away from home. This allowance recognizes those extra expenses. For two working parents, the allowance is 35% of the lesser of the father’s income earned from work (question 86) or the mother’s income earned from work (question 87), but may not exceed $3,500. For one-parent families, the allowance is 35% of the parent’s income earned from work, also not to exceed $3,500. If a student’s parents are married and only one parent reports an income earned from work, the allowance is zero. The employment expense allowance is never less than zero.

▼ **Parents’ contribution from assets.** The full formula uses the assets of parents of a dependent student and determines a “contribution from assets.” This amount is combined with available income to give an accurate picture of the family’s financial strength. In the simplified formula assets aren’t counted.

First, the parents’ **net worth** is calculated by adding assets reported on the FAFSA. The net worth of a business or a farm is adjusted to protect a portion of the net worth of these assets. Use Table A4 to calculate the amount to be used.

Second, the parents’ **discretionary net worth** is calculated by subtracting the education savings and asset protection allowance (Table A5) from the parents’ net worth. As with income, this is done to protect a portion of assets. The allowances for ages 40 through 65 approximate the present cost of an annuity which, when combined with Social Security benefits, would provide at age 65 a moderate level of living for a retired couple or single person. As shown in Table A5, the allowance increases with the age of the older parent (as reported on the FAFSA) to indicate the cost of purchasing such an annuity at a given age. Discretionary net worth may be less than zero.

Finally, the discretionary net worth is multiplied by the conversion rate of 12% to obtain the **parents’ contribution from assets**, which represents the portion of parental assets considered available to help pay for the student’s postsecondary education. If the contribution from assets is less than zero, it is set to zero.

▼ **Calculation of parents’ contribution.** This is the final step in determining the parents’ contribution. The parents’ available income and contribution from assets are added together to determine the parents’ adjusted available income, which can be a negative number. The total parents’ contribution from adjusted available income is calculated from the amounts and rates in Table A6 and is the total amount parents are expected to contribute toward all of their family’s postsecondary educational costs. The rates in Table A6 increase from 22% to 47% as the adjusted available income increases. This is based on the principle that as income increases beyond the amount needed to maintain a basic standard of living, the portion used for family maintenance decreases and the portion available for
discretionary purposes increases. Therefore, a progressively larger amount of income may be contributed toward postsecondary educational costs.

The parents’ contribution for the individual student is calculated by dividing the total parents’ contribution from adjusted available income by the number in college in 2011–12, as reported on the FAFSA. Parents are not included in the number attending college.

**Student’s contribution from income**

To determine the student’s contribution from income, the student’s available income (AI) is first calculated by subtracting total allowances from the student’s total income. The AI is then assessed at a rate of 50% to obtain the student contribution from available income. If the student contribution from available income is less than zero, it’s set to zero.

As with the parents’ income information, the student’s total income is calculated using information from the student’s FAFSA. The student’s total income is the sum of the student’s taxable and untaxed income, minus amounts reported in the income but excluded from the formula (see Chapter 2 for more on these exclusions). If the student is a tax filer, the student’s AGI as reported on the FAFSA is the amount of taxable income used in the calculation. If the student is not a tax filer, the calculation uses the student’s reported income earned from work. Total income may be a negative number.

The allowances are calculated by adding the following:

- **U.S. income tax paid.** Use the amount reported on the FAFSA. Non-tax filers don’t receive this allowance. If this is a negative amount, it’s set to zero.

- **State and other tax allowance.** Use Table A7. This allowance is a percentage of the student’s total income. The percentage varies according to the state. The state to be used is the student’s state of legal residence reported on the FAFSA. If that item is blank or invalid, the state in the student’s mailing address is used. If both items are blank or invalid, the parents’ state of legal residence is used. If all three items are blank or invalid, the rate for a blank or invalid state in Table A7 is used (2%). If the allowance is a negative amount, it’s set to zero.

- **Social Security tax allowance.** The student’s Social Security taxes are calculated by applying the rates shown in Table A2 to the student’s income earned from work in 2010 (as reported on the FAFSA). The total allowance for Social Security taxes is never less than zero.

- **Income protection allowance.** The income protection allowance for a dependent student is $5,250.

- **Parent’s negative AAI.** To recognize that a student’s income may be needed to help support the family, the EFC calculation allows a parent’s negative adjusted available income (AAI) to reduce a dependent student’s contribution from income. Because the student’s
contribution from income cannot be negative, this will not affect the student’s contribution from assets.

**Student’s contribution from assets**

The student’s assets are treated the same way as the parents’ assets with three differences: there is no adjustment to the net worth of a business or farm, there is no education savings and asset protection allowance, and net worth is assessed at the rate of 20%. Remember that under the simplified formula there is no student contribution from assets.

The student’s net worth is calculated by adding assets reported on the FAFSA (negative amounts are converted to zero for this calculation). The net worth is multiplied by 20% to obtain the student’s contribution from assets, which is the portion of assets considered available to help pay for his postsecondary education.

**Alternate EFCs for other than nine-month enrollment**

The standard parents’ contribution is for a nine-month enrollment period. For a shorter period, the parents’ contribution is prorated according to the number of months of enrollment. The student’s contribution from available income is also prorated and then added to the student asset contribution, which is not prorated. For an enrollment of more than nine months, the parents’ contribution is calculated by adjusting the standard nine-month formula on page 3 of Worksheet A of the EFC worksheets, and the student’s contribution remains at the nine-month amount.

**FORMULA B—INDEPENDENT STUDENT WITHOUT DEPENDENTS OTHER THAN A SPOUSE**

The EFC for an independent student without dependents other than a spouse is calculated using the FAFSA information for the student and spouse. The CPS calculates a contribution from available income and a contribution from assets. The sum of these two is divided by the number in college in 2011–12, as reported on the FAFSA. The result is the EFC for the 2011–12 award period. Under the simplified formula, the contribution from assets isn’t used.

**Contribution from available income**

The student’s available income, which can be a negative number, is calculated by subtracting the total allowances from the total income. These allowances account for certain nondiscretionary expenses, such as taxes and basic living expenses. Once a minimum level of support has been provided to meet those expenses, the formula assumes that the remaining income is available for discretionary purposes, including paying for a postsecondary education. The available income is then assessed at a rate of 50% to obtain the student’s contribution from available income.

▶️ **Total income.** The total income is the sum of the student’s and her spouse’s (if the student is married) taxable and untaxed income, minus amounts reported in the income on the FAFSA but excluded from the formula (see Chapter 2 for more on these exclusions). If the student and spouse are tax filers, their AGI as reported on the FAFSA is the amount of taxable income used in the calculation. If the student and spouse are not
tax filers, the calculation uses reported income earned from work. Untaxed income is included in the formula because it may have a considerable effect on the family’s financial strength and, in some cases, may be the family’s main source of income. Note that “earned income credit” is included as part of total untaxed income and benefits only if the student or spouse are tax filers. Total income can be a negative number.

▼ Allowances against income. Total allowances are calculated by adding the following:

- **U.S. income tax paid.** Use the amount reported on the FAFSA. Non-taxfilers don’t receive this allowance. If this is a negative amount, it’s set to zero.

- **State and other tax allowance.** Use Table B1. This allowance is a percentage of the student and spouse's total income. The percentage varies according to the state. The state to be used is the student’s state of legal residence reported on the FAFSA. If that item is blank or invalid, the state in the student’s mailing address is used. If both items are blank or invalid, the rate for a blank or invalid state is used (2%). If the allowance is a negative amount, it’s set to zero.

- **Social Security tax allowance.** The student and spouse’s Social Security taxes are calculated separately by applying the tax rates shown in Table B2 to the student's income earned from work in 2010 and the spouse's income earned from work in 2010 (as reported on the FAFSA). The total allowance for Social Security taxes is never less than zero.

- **Income protection allowance.** The income protection allowance for an unmarried student is $8,550. For a married student, the income protection allowance is $8,550 if the student's spouse is enrolled at least half time, and $13,710 if the student's spouse isn't enrolled at least half time.

- **Employment expense allowance.** Families with two working spouses have extra expenses that must be considered, such as housekeeping services, transportation, clothing and upkeep, and meals away from home. This allowance recognizes those extra expenses. If the student isn't married, the employment expense allowance is zero. If the student is married but only one person is working (either the student or the student's spouse), the allowance is zero. If both the student and his spouse are working, the allowance is 35% of the lesser of the student's income earned from work (question 38) or the spouse's income earned from work (question 39), but may not exceed $3,500.

**Contribution from assets**

For students who qualify for the simplified formula, there is no contribution from assets. In the full formula, the assets of an independent student with no dependents other than a spouse are considered in order to fully measure the family’s ability to contribute toward postsecondary educational costs.
First, the **net worth** of the student and spouse’s assets is calculated by adding assets reported on the FAFSA. The net worth of a business or a farm is adjusted to protect a portion of the net worth of these assets. Use Table B3 to calculate the amount to be used.

Second, the student and spouse’s **discretionary net worth** is calculated by subtracting the asset protection allowance (Table B4) from the net worth. The allowance increases with the age of the student as of December 31, 2011, which may be determined from the student’s date of birth as reported on the FAFSA. This is done to protect a portion of assets that may be needed for purposes other than education, such as emergencies or retirement. Discretionary net worth can be less than zero.

Finally, the discretionary net worth is multiplied by the conversion rate of 20% to obtain the student and spouse’s contribution from assets, which represents the portion of the value of the assets that is considered available to help pay for the student’s college education. If the contribution from assets is less than zero, it’s set to zero.

**Alternate EFCs for other than nine-month enrollment**

The standard EFC is for a nine-month enrollment period. If the student will be enrolled for less than nine months, the EFC is simply prorated by dividing it by nine and then multiplying the result by the number of months the student will be enrolled. For an enrollment of more than nine months, however, the EFC remains at the nine-month amount.

**FORMULA C — INDEPENDENT STUDENT WITH DEPENDENTS OTHER THAN A SPOUSE**

The EFC for an independent student with dependents other than a spouse is calculated using the information for the student and spouse provided on the FAFSA. The formula is almost the same as the formula for the parents of a dependent student. There are three basic steps. First, the student’s available income is determined. Then, the student’s contribution from assets is calculated. Finally, the EFC is calculated using the available income, the contribution from assets, and the number in college.

**Available income**

Available income is calculated by subtracting certain allowances from the student’s total income. These allowances account for certain nondiscretionary expenses, such as taxes and basic living expenses. Once a minimum level of support has been provided for those expenses, the formula assumes that the remaining income is available for discretionary purposes, including paying for a postsecondary education. The available income can be a negative number.

▼ **Student’s total income.** The student’s total income is the sum of the student’s and his or her spouse’s (if the student is married) taxable and untaxed income, minus amounts reported in the income on the FAFSA but excluded from the formula (see Chapter 2 for more information on these exclusions). If the student and spouse are tax filers, AGI as reported on the FAFSA is the amount of taxable income used in the calculation. If the student and spouse are not tax filers, the calculation uses reported income
earned from work. Note that “earned income credit” is included as part of total untaxed income and benefits only if the student and spouse are tax filers. Total income can be a negative number.

▼ Allowances against income. Total allowances are calculated by adding the following:

- **U.S. income tax paid.** Use the amount reported on the FAFSA. Non-tax filers don't receive this allowance. If this is a negative amount, it is set to zero.

- **State and other tax allowance.** Use Table C1. This allowance is a percentage of the total income and approximates the average amount paid in state and other taxes. The percentage varies according to the state and according to whether the total income is below $15,000 or is $15,000 or more. The state to be used is the student’s state of legal residence reported on the FAFSA. If this item is blank or invalid, the state in the student’s mailing address is used. If both items are blank or invalid, the rate for a blank or invalid state is used (3% for total income below $15,000; 2% for total income of $15,000 or more). If the allowance is a negative amount, it’s set to zero.

- **Social Security tax allowance.** The student’s and spouse’s Social Security taxes are calculated separately by applying the tax rates shown in Table C2 to the student’s income earned from work and the spouse’s income earned from work in 2010 (as reported on the FAFSA). The total allowance for Social Security taxes is never less than zero.

- **Income protection allowance.** Use Table C3. This allowance provides for the basic living expenses of a family. It varies according to the number in the student’s household and the number in college in 2011–12, as reported on the FAFSA. In general, a school can assume that 30% of the income protection allowance amount is for food, 22% for housing, 9% for transportation expenses, 16% for clothing and personal care, 11% for medical care, and 12% for other family consumption. The income protection allowance used for a particular student is provided as one of the intermediate values in the FAA Information Section of the output document (labeled as “IPA”).

- **Employment expense allowance.** Families with two working parents and one-parent families have extra expenses that must be considered, such as housekeeping services, transportation, clothing and upkeep, and meals away from home. This allowance recognizes those extra expenses. When both the student and spouse work, the allowance is 35% of the lesser of the student’s income earned from work (question 38) or the spouse’s income earned from work (question 39), but may not exceed $3,500. If the student isn't married, the allowance is 35% of the student’s income earned from work, or $3,500, whichever is less. If a student is married and only the student or the spouse (but not both) reports an income earned from work, the allowance is zero. The employment expense allowance is never less than zero.
**Contribution from assets**

In the full formula, the assets of an independent student with dependents other than a spouse are considered in order to fully measure the family’s ability to contribute toward postsecondary educational costs. The formula determines a "contribution from assets," an amount that is combined with available income to give an accurate picture of the family’s financial strengths. In the simplified formula, the assets aren’t counted at all.

First, the **net worth** of a student and spouse’s assets is calculated by adding assets reported on the FAFSA. The net worth of a business or farm is adjusted to protect a portion of these assets. Use Table C4 to calculate the amount to be used.

Second, the student and spouse’s **discretionary net worth** is calculated by subtracting the asset protection allowance (Table C5) from the net worth. The allowance increases with the age of the student as of December 31, 2011, which may be determined from the student’s date of birth as reported on the FAFSA. This is done to protect a portion of assets that may be needed for purposes other than education, such as emergencies or retirement. Discretionary net worth can be less than zero.

Finally, the discretionary net worth is multiplied by 7% to obtain the **contribution from assets**, which is the portion of the value of the student’s and spouse’s assets considered to be available to help pay for the student’s postsecondary education. If the contribution from assets is less than zero, it is set to zero.

**Calculation of student’s EFC**

This is the final step in determining the EFC for the independent student with dependents other than a spouse. The available income and the contribution from assets are added together to obtain the adjusted available income. The adjusted available income can be a negative number. The total contribution from adjusted available income is calculated from using Table C6. This is the total amount the student’s family is expected to contribute toward family postsecondary educational costs. The rates in Table C6 increase from 22% to 47% as the adjusted available income increases. The rate is based on the principle that as income increases beyond the amount needed to maintain a basic standard of living, the portion used for family maintenance decreases, while the portion available for discretionary purposes increases. The larger the income, the easier it is for a family to contribute toward postsecondary educational costs with less effect on the maintenance of the family.

The EFC is calculated by dividing the total student’s contribution from adjusted available income by the number in college in 2011–12, as reported on the FAFSA. The result is the EFC for the 2011–12 award period.

**Alternate EFCs for other than nine-month enrollment**

The standard EFC is for a nine-month enrollment period. If the student will be enrolled for less than nine months, the EFC is simply prorated by dividing it by nine and then multiplying the result by the number of months the student will be enrolled. For an enrollment of more than nine months, however, the EFC remains at the nine-month amount.

|      | (Exclude parents) (FAFSA/SAR #73) + |
| 28.  | PARENTS' CONTRIBUTION (standard contribution for nine-month enrollment)***  
|      | If negative, enter zero. = |

*STOP HERE if the following are true:*

- Line 3 is $31,000 or less and
- The parents are eligible to file a 2010 IRS Form 1040A or 104EZ (they are not required to file a 2010 Form 1040) or they are not required to file any income tax return or
- Anyone included in the parents’ household size (as defined on the FAFSA) received benefits during 2009 or 2010 from any of the designated means-tested Federal benefit programs or
- Either one of the parents is a dislocated worker

If these circumstances are true, the Expected Family Contribution is automatically zero.

---

**Note: Do not complete the shaded areas; asset information is not required in the simplified formula.**

</tbody>
</table>

*Do not include the student’s home.

**To calculate the EFC for other than nine-month enrollment, see the next page.

Note: Do not complete the shaded areas; asset information is not required in the simplified formula.
Note: Use this additional page to prorate the EFC only if the student will be enrolled for other than nine months and only to determine the student’s need for campus-based aid, or a Federal Direct Subsidized Loan. Do not use this page to prorate the EFC for a Federal Pell Grant or TEACH Grant. The EFC for the Federal Pell Grant Program is the nine-month EFC used in conjunction with the cost of attendance to determine a Federal Pell Grant award from the Payment or Disbursement Schedule.

### Calculation of Parents’ Contribution for a Student Enrolled LESS than Nine Months

<table>
<thead>
<tr>
<th>Calculation</th>
</tr>

Multiply Parents’ Total Income (EFC Formula Worksheet A, line 7) by the appropriate rate from the table above to get the “State and Other Tax Allowance” (EFC Formula Worksheet A, line 9). Use the parents’ State of Legal Residence (FAFSA/SAR #69). If this item is blank or invalid, use the student’s State of Legal Residence (FAFSA/SAR #18). If both items are blank or invalid, use the State in the Student’s Mailing Address (FAFSA/SAR #6). If all three items are blank or invalid, use the rate for a blank or invalid state above.
### Table A2: Social Security Tax

Calculate separately the Social Security tax of father, mother, and student.

<table>
<thead>
<tr>
<th>Income Earned from Work*</th>
<th>Social Security Tax</th>
</tr>
</thead>
<tbody>
<tr>
<td>$0 - $106,800</td>
<td>7.65% of income</td>
</tr>
<tr>
<td>$106,801 or greater</td>
<td>$8,170.20 + 1.45% of amount over $106,800</td>
</tr>
</tbody>
</table>

*Father’s/stepfather’s 2010 income earned from work is FAFSA/SAR #86. Mother’s/stepmother’s 2010 income earned from work is FAFSA/SAR #87. Student’s 2010 income earned from work is FAFSA/SAR #38. Social Security tax will never be less than zero.

### Table A3: Income Protection Allowance

<table>
<thead>
<tr>
<th>Number in parents’ household, including student (FAFSA/SAR #72)</th>
<th>Number of college students in household (FAFSA/SAR #73)</th>
</tr>
</thead>
<tbody>

Multiply the total income of student and spouse (EFC Formula Worksheet B, line 7) by the appropriate rate from the table above to get the “state and other tax allowance” (EFC Formula Worksheet B, line 9). Use the student’s State of Legal Residence (FAFSA/SAR #18) reported on the FAFSA. If this item is blank or invalid, use the State in the Student’s Mailing Address (FAFSA/SAR #6). If both items are blank or invalid, use rate for blank or invalid state above.
**Table B2: Social Security Tax**

Calculate separately the Social Security tax of student and spouse.

<table>
<thead>
<tr>
<th>Income Earned from Work*</th>
<th>Social Security Tax</th>
</tr>
</thead>
<tbody>
<tr>
<td>$0 - $106,800</td>

<td>EXPECTED FAMILY CONTRIBUTION for nine month enrollment. If negative, enter zero.</td>
<td></td>
</tr>
</tbody>
</table>

**Do not** include the student’s home.

***To calculate the EFC for less than nine-month enrollment, see the next page. If the student is enrolled for more than nine months, use the nine-month EFC (line 28 above).

**Note:** **Do not** complete the shaded areas; asset information is not required in the simplified formula.
**Note:** Use this additional page to prorate the EFC only if the student will be enrolled for other than nine months and only to determine the student’s need for campus-based aid, or a Federal Direct Subsidized Loan. Do not use this page to prorate the EFC for a Federal Pell Grant or TEACH Grant. The EFC for the Federal Pell Grant Program is the nine-month EFC used in conjunction with the cost of attendance to determine a Federal Pell Grant award from the Payment or Disbursement Schedule.

### Calculation of Expected Family Contribution for a Student Enrolled for Less than Nine Months

<table>
<thead>
<tr>
<th>Step</th>
<th>Formula</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Expected Family Contribution (standard contribution for nine-month enrollment, from line 28)</td>
<td>Expected Family Contribution for nine-month enrollment.</td>
</tr>
<tr>
<td>2</td>
<td>Divide by 9</td>
<td>$\div 9$</td>
</tr>
<tr>
<td>3</td>
<td>Expected Family Contribution per month</td>
<td>Expected Family Contribution for the month of enrollment.</td>
</tr>
<tr>
<td>4</td>
<td>Multiply by number of months enrollment</td>
<td>Expected Family Contribution for less than nine-month enrollment.</td>
</tr>
</tbody>
</table>

*Substitute the student’s EFC for less than nine-month enrollment in place of the EFC for the standard nine-month enrollment (EFC Formula Worksheet C, line 28).
Multiply the total income of student and spouse (EFC Formula Worksheet C, line 7) by the appropriate rate from the table above to get the “state and other tax allowance” (EFC Formula Worksheet C, line 9). Use the student’s State of Legal Residence (FAFSA/SAR #18) reported on the FAFSA. If this item is blank or invalid, use the State in the Student’s Mailing Address (FAFSA/SAR #6). If both items are blank or invalid, use the rate for blank or invalid state above.
**Table C2: Social Security Tax**

Calculate separately the Social Security tax of student and spouse.

<table>
<thead>
<tr>
<th>Income Earned from Work*</th>
<th>Social Security Tax</th>
</tr>
</thead>
<tbody>
<tr>
<td>$0 - $106,800</td>
<td>7.65% of income</td>
</tr>
<tr>
<td>$106,801 or greater</td>
<td>$8,170.20 + 1.45% of amount over $106,800</td>
</tr>
</tbody>
</table>

*Student’s 2010 income earned from work is FAFSA/SAR #38.
Spouse’s 2010 income earned from work is FAFSA/SAR #39.
Social Security tax will never be less than zero.

**Table C3: Income Protection Allowance**

Verification

Because students sometimes make errors on their application, colleges have procedures for verifying the reported information. The regulations include this verification as part of the FSA program requirements. The Department only requires that a portion of the FAFSA filers at your school be verified, as selected by the Central Processing System. However, you also have the authority—and may be required—to verify additional students.

Verification concerns applicants for most FSA programs, but it isn’t required if the student will only receive a parent or graduate PLUS loan, an unsubsidized Stafford loan, a TEACH grant, a Stafford loan at a foreign school, or LEAP or GAP funds. Yet a student can’t avoid verification by choosing to borrow an unsubsidized loan instead of a subsidized loan. If he tries to do this, the school is to continue with verification.

REQUIRED POLICIES

Your school must have written policies and procedures on the following verification issues:

• deadlines for students to submit documentation and consequences of the failure to meet those deadlines,

• a method of notifying students of award changes due to verification,

• required correction procedures for students, and

• standard procedures for referring overpayment cases to the Department.

Additionally, the school must give each applicant selected for verification a written statement explaining the following:

• Documents required for verification.

• Student responsibilities—including correction procedures, the deadlines for completing any actions required, and the consequences of missing the deadlines.

• Notification methods—how your school will notify a student if her award changes as a result of verification and the time frame for such notification.

Required Verification Items:
34 CFR 668.56
1. Household size
2. Number in college
3. Adjusted gross income (AGI)
4. U.S. taxes paid
5. Certain types of untaxed income and benefits:
   ➔ Child support
   ➔ IRA/Keogh deductions
   ➔ Interest on tax-free bonds
6. All other untaxed income included on the U.S. income tax return, excluding information on the schedules

Online verification assessment module

New verification regulations
The program integrity regulations published on October 29, 2010, included significant changes to verification that are not discussed here because they are not effective until the 2012–2013 year.
Applications are selected for verification either by the CPS or by the school. Under certain circumstances, a CPS-selected application may be excluded from required verification (see “30% Verification Option” and “Verification Exclusions” in this section).

Students’ output documents show if their application was chosen by the CPS: the verification flag, which is in the Financial Aid Office Use Only section with the match flag results, will have a value of “Y.” Also, next to the EFC will be an asterisk referring to a comment in the student section of page 1 that tells applicants they will be asked by their schools to provide copies of certain financial documents.

A school must verify any application information that it has reason to believe is incorrect [34 CFR 668.54(a)(3)] or discrepant [34 CFR 668.16(f)]. Students with these applications are considered to be selected for verification by the school even though it may not be verifying the same data as for CPS-selected applications.

The school may also select applications for verification beyond those required. In these cases the school decides which items to verify: it can choose any that must be verified on CPS-selected applications, or it can choose different items.

Regardless of whether the CPS or the school selected the application for verification, all other verification requirements, such as deadlines and allowable tolerances and interim disbursement rules, apply equally to all students who are being verified.

If you want to learn more about verification results, you can use the ISIR Analysis Tool, which provides a variety of reports and analyses using current Web technology. The reports it generates can help you identify potentially faulty applications that discretionary verification or the CPS edits might be missing. They can also help you develop discretionary verification edits that focus on student changes that affect the EFC and Pell eligibility. See “Program Integrity” in the School Eligibility and Operations volume.

30% Verification option

A school must verify all applications the CPS selects for verification, up to 30% of the school’s total number of federal aid applicants in an award year. The school may choose to verify more than 30%, and if the CPS selects less than that, the school isn’t required to reach 30%; it is not a quota. Applications a school selects and those with conflicting information don’t count toward the 30% level.

Schools have the flexibility to define “applicant.” For example, it can be anyone who applies to the school (i.e., they need not be enrolled), anyone who is enrolled, or, even more narrowly, anyone enrolled who is also eligible to receive an aid award. Whatever definition your school uses, the students you count toward the 30% limit must meet that definition.

The verification tracking flag on the ISIR uses a four-digit number to prioritize applicants—the higher the number, the greater the potential for
30% Verification Examples

Frisson College has 1,000 applicants for federal student aid. The CPS selected 475 of the applications for verification. Frisson also selected 100 other applications based on its own criteria. To meet the 30% level, Frisson needs to verify at least 300 applications from the 475 the CPS selected; the 100 Frisson selected don’t count toward the 30% requirement.

Brust Conservatory has 1,000 applicants for federal student aid, and the CPS selected 289 of the applications for verification. Brust must verify all 289 applications because that number isn’t more than 30% of the total applicants, but it does not have to select 11 more applications to reach 30%.

Benoit Institute has 1,000 applicants for federal student aid, of which the CPS selected 300 for verification. Also, the school identified 40 additional applications as having conflicting information that Benoit must resolve. However, because the resolution of conflicting information is separate from CPS-selected verification, these 40 applications don’t count toward the 30% level. Benoit must also verify all 300 applications that were selected for verification, because this number isn’t more than 30% of the total applicants for federal student aid.

significant error. If you use the 30% option, this field will help you choose applications for verification that might have the most significant mistakes.

Verification exclusions

A selected application may be exempt from some or all of the verification requirements due to unusual circumstances. Except in the case of the student’s death, however, none of the exemptions excuse you from the requirement to resolve conflicting information. You don’t have to verify the application (unless qualified below) of a student in the following situations:

➔ Post-enrollment. The student was selected for verification after ceasing to be enrolled at your school and all (including late) disbursements were made.

➔ Incarceration. The student is in jail or prison at the time of verification.

➔ Recent immigrant. The student is an immigrant who arrived in the United States during calendar years 2011 or 2012.

➔ Spouse unavailable. A school isn’t required to verify spousal information if any of the following conditions apply:

- The spouse is deceased or mentally or physically incapacitated.
- The spouse is residing in a country other than the United States and can’t be contacted by normal means.
- The spouse can’t be located because his or her address is unknown, and the student can’t obtain it.

You should document the basis for the exclusion. Because this exemption only applies to the spouse’s data, the application must still be verified according to all other requirements.

30% Verification option

34 CFR 668.54(a)(2)

Verifications exclusions

34 CFR 668.54(b)

In addition to unsubsidized Stafford Loans and PLUS Loans, verification is not required—
- for Stafford Loans (subsidized or unsubsidized) received for study at eligible foreign schools.
- for the TEACH Grant Program.
- for the Leveraging Educational Assistance Partnership (LEAP) and Grants for Access and Persistence (GAP) Programs.
- for the Robert C. Byrd Honors Scholarship Program.

Also note that schools participating in the Quality Assurance Program can develop verification procedures different than those specified in the FSA regulations.
Parents unavailable. You don’t have to verify a dependent student’s application if any of the following conditions apply:

- The student’s parents are deceased or mentally or physically incapacitated. (If both parents are dead, the student is an orphan and is thus independent. If the parents die after he has applied, he must update his dependency status, as discussed in Chapter 5.)
- The parents are residing in a country other than the United States and can’t be contacted by normal means.
- The parents can’t be located because their address is unknown, and the student can’t obtain it.

Death of the student. You don’t have to continue verification if you made an interim disbursement and the student died before verification was completed. You can’t make any additional disbursements, except for FWS funds already earned, to any of the student’s beneficiaries. For more information see Chapter 2 of Volume 5.

Applicant verified by another school. The student completed verification for the current award year at another school before transferring. To document this exclusion, you must get from the school that completed verification a letter that includes:

- a statement that the student’s application data have been verified,
- the transaction number of the verified application, and
- if relevant, the reasons why the school was not required to recalculate the student’s EFC (for example, the application errors may have been within the allowable tolerance—see “Verification tolerance,” page 91).

Pacific Island resident. The student is either:

- a legal resident of Guam, American Samoa, or the Commonwealth of the Northern Mariana Islands, or
- a citizen of the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau.

For this exclusion a dependent student’s parents must meet the same criteria. As documentation, you should note the permanent mailing address in the student’s file.

Not an aid recipient. The student won’t receive FSA for reasons other than his failure to complete verification. This includes students ineligible for Title IV aid and those who withdraw without receiving aid.

REQUIRED VERIFICATION ITEMS
If the CPS selects an application for verification, you must verify five major data elements:
• household size,
• number enrolled in college,
• adjusted gross income (AGI),
• U.S. income tax paid, and
• certain untaxed income and benefits.

In addition to verifying these required items for CPS-selected students, you can choose to verify any other application items, requiring any reasonable documentation, in accordance with consistently applied institutional policies. You may decide which students must provide documentation for any additional data elements and what constitutes acceptable documentation.

**General documentation requirements and the verification worksheets**

This chapter includes the verification worksheets developed by the Department. Master copies are available on the IFAP website at [www.ifap.ed.gov](http://www.ifap.ed.gov), and you may reproduce as many as you need. When a student completes a verification worksheet and attaches the appropriate tax forms or alternative documents, you will usually have enough information to complete verification.

However, you’re not required to use the verification worksheets. Your school may use its own worksheet or none at all. You may require other documentation in addition to or instead of a completed verification worksheet. The chart on page 85 shows other forms of acceptable documentation for each required verification item.

If you require students to complete verification worksheets, you must provide the appropriate (dependent or independent) worksheets to the selected students. You should remind your students that they must submit the completed worksheet and copies of the relevant income tax returns or alternative documents to your financial aid office, not to the Department of Education.

When you receive the student's submission, you should make sure that the worksheet is signed, that all required sections are completed, and that the relevant tax returns or alternative documents are attached. As explained later in this section, copies (such as photocopies, faxes, digital images) of worksheets, tax returns, or other documents are acceptable. Unless specifically noted in this chapter, a signature on a copy is as valid as an original signature (i.e., a handwritten or “wet” signature). After checking the documentation against the student’s application data, you may either disburse the student’s award or make the necessary corrections and updates. (See “After documentation is complete,” page 91.)

**Household size**

Steps 4 and 5 in Chapter 2 discuss household size. If the student completed the Department’s verification worksheet, no further
Household size documentation and exceptions
Student assistance general provisions
34 CFR 668.57(b)
34 CFR 668.56(a)(3), (b), (c)

documentation for this item is required. Instead of the worksheet, you may accept a statement signed by the student (and, for dependent students, at least one of the parents) and listing the names of the household members, their ages, and their relationship to the student.

You don’t have to verify household size if any of the following apply:

• It’s the same as reported and verified in the previous award year.

• You receive the student’s ISIR or SAR within 90 days after the date the application was signed.

• For a dependent student, the household size reported for married parents is three—or two if the parent is single, divorced, separated, or widowed.

• The household size reported for a married independent student is two—or one if the student is single, divorced, separated, or widowed.

Number enrolled in college

If the student completes the Department’s verification worksheet, no further documentation for this item is required. Instead of the worksheet, you may accept a statement signed by the student (and at least one of the student’s parents, for dependent students). The statement can be combined with the statement verifying household size and should include the names and ages of those enrolled and the names of the schools they plan to attend. If you have reason to doubt the enrollment information reported, you should require the student to obtain documentation from the other students and schools listed. (If other students in the family haven’t enrolled yet, documentation from the other schools may not be available.)

You don’t have to verify the number enrolled in college if any of the following conditions apply:

• The reported number enrolled is one (the student only).

• You receive the student’s ISIR or SAR within 90 days after the date the application was signed.

• The family members the student lists are enrolled at least half time at your school, and you have confirmed their enrollment through your school’s own records.

Adjusted gross income (AGI) and U.S. income tax paid

Students and parents who used the IRS Data Retrieval process to import their data directly from the IRS—either when the application was first filled out or later as a corrective—and who didn’t change the data will have an associated code on the ISIR. That is sufficient to verify AGI and U.S. income tax paid.

A copy of the signed U.S. income tax return is also sufficient to verify AGI and taxes paid. The documents you need may depend on whether the return was filed electronically or on paper. Documents must have the
signatures (or preparer’s stamp or other official validation) and data required for verification. If all necessary data are not present, the student must provide additional documentation as described in this section.

You must check the tax returns for anyone whose financial data were reported on the FAFSA: the student and his spouse or parents if applicable. They should have reported on the FAFSA either what tax return they filed or that they were not required to file a return. The type of form reported on the FAFSA should match what the student and parents actually filed.

The AGI reported on the FAFSA should always match the AGI on the tax return, unless the FAFSA amount has been adjusted from a joint return due to divorce, separation, or professional judgment (see “Using a joint return to figure individual AGI and taxes paid,” page 90). If the figures don’t match, a correction may be needed, as discussed later in this chapter. For more information on how specific types and special categories of income should be reported on the FAFSA, see Chapter 2.

The chart on page 89 shows the tax form line numbers for the most commonly reported items. This chart is a reference only; it is not a list of all the items the school must check on a tax return.

For verification purposes you can accept a copy (such as a photocopy, fax, or digital image) of the original signed return filed with the IRS. If an acceptable copy is of an unsigned return, the filer (or at least one of the filers of a joint return) must sign it. You can accept a tax form that was completed to duplicate the filed return; this duplicate must have at least one filer’s signature. You can also accept an electronic copy of the return that has been electronically signed by the person to whom the document belongs, provided your school’s process for accepting an electronic signature complies with the Electronic Signatures in Global and National Commerce (ESIGN) Act. But a signature on Form 8879, the IRS e-file Signature Authorization, is not an acceptable substitute for a signature on the tax return.
Tax documents: special situations and alternatives

There are certain situations, such as when the student filed a tax return electronically or earned foreign income, when the school may need to do something other than examine a 1040, 1040A, or 1040EZ form.

Electronic filing (e-file)
The IRS e-file program comprises two electronic filing methods. The taxfiler can go to an e-file provider who will send the return to the IRS, or he can use tax filing software on a home computer for submission to the IRS. The filer should always receive a paper copy of the return in some format. Software used on a home computer may allow the tax filer to print out a standard 1040, 1040A, or 1040EZ form that contains the information that was filed electronically. The e-file provider might print out a copy of the return using its own format. Any of these paper copies of the return are acceptable documentation for verification as long as they are signed by at least one of the tax filers. (When an electronic tax return is filed, the filer also submits IRS Form 8453, which doesn’t have enough information and can’t be used for verification.)

Returns in the e-file provider’s format might not contain every line item, showing instead only the data the tax filer provided. For example, if Item 8a, “Taxable interest income,” does not appear on such a return, that means no taxable interest income was reported.

Non-filers
An AGI figure won’t be available for someone who isn’t required to file a tax return. A non-filer would instead report on the FAFSA income earned from work, which includes any income reported on the individual’s W-2 forms plus any other earnings from work not reported on those forms. Even if no taxes were paid on this income earned from work, it should not be reported as untaxed income on the FAFSA.

A properly completed federal verification worksheet sufficiently documents income earned from work. No further documentation is required. If the student doesn’t complete a verification worksheet, the school must require from each non-filer a signed statement certifying his or her non-filer status and listing the sources and amounts of income.

Financial aid professionals are not expected to have special knowledge or expertise regarding the U.S. tax code. If someone whose data were required on the FAFSA submits a signed statement claiming non-filer status and you have reason to believe that person would have been required to file a U.S. tax return, this constitutes conflicting information and must be resolved. (For more on conflicting information, see Chapter 5.) For example, in such a case, you might require a letter from the IRS, a copy of the applicable tax provision, or other documentation supporting the claim to non-filer status. Conflicting information must be resolved before you can disburse federal student aid.

Immigrants are not exempt from tax filing. The IRS is concerned whether a person is a resident alien—legal or illegal does not matter—and a resident alien’s income is generally subject to tax in the same manner as a U.S. citizen’s. Immigrants who do not have an SSN and are unable to get one can apply with the IRS for an individual taxpayer identification number (ITIN). The ITIN is only for tax purposes. It does not authorize a person to work, endorse his legal status, or entitle him to the earned income credit or Social Security benefits.

Filing extensions
If any of the persons required to report information on the FAFSA will file but hadn’t filed a tax return at the time of application, they would have used an estimated AGI on the FAFSA. At the time of verification, the necessary tax returns should have been filed and must be used for verification. If a return hasn’t been filed by then and a filing extension was granted by the IRS, the school shall accept as alternative documentation copies of the W-2 forms, and, as proof that the IRS has granted a filing extension, either a copy of IRS Form 4868—Application for Automatic Extension of Time to File U.S. Individual Income Tax Return (automatically grants the taxpayer a six-month extension beyond the April 15 deadline) or a copy of the IRS approval of an extension beyond the automatic six-month extension.
In addition, the student must submit a copy of the tax returns when filed. When you receive the completed tax returns, you may use them to re-verify the required data. A student who fails to submit a copy of the filed tax return or alternative documents before the deadline for verification is ineligible for FSA funds and is required to repay any aid disbursed.

**Fiscal year tax returns**

For a fiscal year return, as opposed to one for the calendar year, the student should report the AGI and U.S. income tax paid from the return that includes the greater number of months in the base year (see Chapter 2 for an example). Accordingly, you should use the tax return from that fiscal year for verification purposes.

**Nonresident filers**

1040NR is a special return filed by certain nonresidents, mostly individuals holding temporary visas (such as an F-1 or H-1). Such persons are neither permanent residents nor U.S. citizens. The 1040NR is acceptable documentation for verification purposes.

**Foreign income**

As noted in Step 2 in Chapter 2, information from non-IRS tax returns would be reported on the FAFSA, with the value of the foreign income and taxes reported in U.S. dollars, using the exchange rate at the time of application. For verification purposes, these returns would be considered equivalent to an IRS Form 1040. If the student (or the student’s parents) earned foreign income but did not pay any taxes on that income, it should be reported as untaxed income.

**If a tax return isn't available**

If a copy of the tax return is not available, the student must instead submit a copy of any IRS form that lists tax information and provides the information needed for verification. The form must be signed by the student unless the IRS sent the form directly to the school.

A common form is the tax transcript. A student can order one by calling the IRS at 1-800-829-1040 or by completing and mailing Form 4506-T, Request for Transcript of Tax Return. If the transcript does not have as much financial information as the tax return, the student may have to provide additional documents to complete verification.

If the IRS can’t provide a copy of the return or any form with tax account information, you must get a copy of the W-2 unless the filer is self-employed or a W-2 is otherwise unavailable; in those cases you can accept a signed statement from the filer certifying that his or her income and other appropriate information is correct.

**Obtaining a tax transcript or a copy of a return**

If a person wants an exact copy of a return, she must complete and mail a Form 4506; the IRS charges a fee for this. If she wants a tax transcript, she can either submit a Form 4506-T or she can call 1-800-829-1040 and follow the automated system prompts to request one; there is no charge for a tax transcript.

Citations: 34 CFR 668.57(a)(4)(i)
34 CFR 668.57(a)(2)
34 CFR 668.57(a)(4)(ii), (a)(5)
Instead of a return the filer has signed, you may accept a paper return on which the tax preparer has stamped, typed, signed, or printed her name (not the name of her company) and her SSN, EIN (Employer Identification Number), or PTIN (Preparer Tax Identification Number). You may also accept a copy of an IRS form with tax information that the IRS mailed directly to your school (otherwise at least one of the filers must sign the form). Documents from electronic returns must be signed by the filer as explained on page 86. In some cases you can waive the requirement for spouse information and signatures (see “Verification exclusions,” page 81).

**Untaxed income and benefits**

The term “untaxed income” means any income excluded from federal income taxation under the IRS code. For an application selected for verification, you must verify up to three specific types of untaxed income and benefits:

- child support,
- IRA/Keogh deductions, and
- interest on tax-free bonds.

In addition, you must verify all other untaxed income reported on the U.S. individual income tax return (excluding schedules). Chapter 2 discusses the untaxed income and benefits that must be reported on the FAFSA.

Except for child support, the required items can be verified with the tax return, alternative tax documents, or an indication on the ISIR that IRS Data Retrieval was used and the data were not altered. Non-filers should submit a signed statement confirming that they did not file a tax return and listing the amount and sources of untaxed income and benefits by name.

You’re not required to verify any untaxed income and benefits received from a federal, state, or local government agency on the basis of a financial need assessment. Also, “in-kind” income (see Chapter 2) is not reported on the FAFSA and does not have to be verified.

**Verifying child support received**

You must verify child support if the student, student’s spouse, or student’s parents report receiving it, or if you have reason to believe it was received. Child support doesn’t have to be verified if the amount reported is the same amount that was verified in the previous year.

A completed verification worksheet is sufficient to verify child support received. If you don’t use a worksheet, you must require a statement signed by the student (and one parent if the student is dependent) confirming the amount of child support received for all children in the household. If child support is paid through a government agency, a statement from that agency is also acceptable. If you have reason to doubt the statement provided, you should request at least one of the following:

- a copy of the divorce decree or separation agreement showing the amount of child support to be provided,
• a signed statement from the parent who provided the support showing the amount of child support provided, or

• copies of the canceled checks or money order receipts.

✔ Verifying deductions for IRA and Keogh plans

Deductible payments to IRA and Keogh plans can be verified by the tax return or an unaltered data retrieval from the IRS. The deducted amounts are reported on lines 28 and 32 of IRS Form 1040 or line 17 of Form 1040A.

✔ Verifying interest on tax-free bonds

Interest on tax-free bonds can be verified by the tax return or an unaltered data retrieval from the IRS. Refer to line 8b of IRS Form 1040 or Form 1040A.

COMPLETING THE PROCESS

A student selected for verification must complete it. You have the authority—and in some instances are required—to withhold disbursement of any FSA funds until she does. Adopting this policy substantially reduces the incidence of overpayments. You can, however, make an interim disbursement before verification is finished. Remember that verification requirements apply to CPS- and school-selected students.

Interim disbursements

You can make an interim disbursement of some Title IV funds before verification is complete if you have no reason to believe the application information is inaccurate. Your school is liable for an interim disbursement if verification shows the student received an overpayment or if he fails to complete verification. The limitations for each program follow.

- Pell Grant, Perkins, and FSEOG. You can make one disbursement from each of these programs for the student’s first payment period. If you make an interim Pell disbursement, you report the payment with a “W” verification status code. See “Verification status codes” later in this chapter.
Using a joint return to figure individual AGI and taxes paid

If the filer of a joint return has become widowed, divorced, or separated since filing the return, it may be necessary to determine the individual's income and taxes paid using the joint return and the relevant IRS W-2 forms. (If a filer is self-employed or if a W-2 is not available, the school may accept a signed statement from the filer that certifies the base year AGI and U.S. taxes paid.)

Add the income amounts from the individual's W-2 forms to any other income that can be extracted from the joint return. Any interest or business income earned on joint accounts or investments should be assessed at 50%. (The same procedure should be used to divide business or farm losses.) Also, if the AGI listed on the joint return was adjusted (“Adjustment to Income”), you should reduce the individual's AGI by the portion of the adjustment that applies solely to him or her. For example, if an adjustment was made for moving expenses (which applies to the couple jointly), only 50% of the adjustment amount can be applied against the individual's income. An AGI figure can be calculated for the individual filer, using a joint return, a signed statement from the filer certifying that the data from the joint return were accurately assessed is sufficient documentation for this method.

Use one of the following methods to figure the individual's taxes paid:

- **Tax table (preferred method).** Using the IRS Tax Table or Tax Rate Schedule for the appropriate year, calculate the amount of tax that would have been paid if a separate return had been filed. Use the deduction and number of exemptions the individual could have claimed if he or she had filed a separate return. (If itemized deductions were taken, count only the portion of those deductions that could have been claimed on a separate tax return.)

- **Proportional distribution.** Determine what percentage of the joint AGI was attributable to the individual and then assess the joint tax paid by that same percentage.

**Example 1: Calculating individual AGI from joint return example**

Eddy's application is selected for verification. He and his wife filed a joint return for 2010 and have since separated. The AGI on Eddy's FAFSA matches the AGI of $38,000 on the 2010 tax return, which means it's wrong because it includes his wife's income.

Eddy's W-2 shows that his income for 2010 was $14,900, and the tax return shows $200 in interest. Because it was interest on a joint savings account, the aid administrator adds $100 of it to Eddy's income and submits $15,000 as the corrected income via FAA Access.

**Example 2: Calculating individual taxes paid from a joint return**

The aid administrator determines that Eddy's part of the $38,000 AGI he and his wife reported is $15,000. Eddy and his wife claimed five exemptions on their tax return (themselves, two children, and Eddy's nephew). Eddy's wife has custody of the children and will claim them as her dependents when she files her tax return for 2011. Eddy's nephew still lives with him. Therefore, Eddy would have had two exemptions (himself and his nephew), totaling $6,100. In the new situation, Eddy's filing status is “head of household” instead of “married.” Therefore, his standard deduction is $7,000 (instead of the $9,500 for married filers). Eddy's income of $15,000 minus the $6,100 for exemptions and the $7,000 standard deduction results in $1,900 in taxable income.

The aid administrator uses the tax table to determine how much tax Eddy would have paid on this amount, taking into account any applicable credits reported on the original return. With a taxable income of $1,900, the amount of tax paid from the tax schedule would be $191.

To use the proportional distribution method instead, the aid administrator figures out what percentage of the joint AGI Eddy's income represents. The percentage is 39% (15,000 divided by 38,000 is .3947). The aid administrator then multiplies the income tax paid as reported on the tax return ($1,323 for this example) by this percentage. Therefore, Eddy's income tax paid would be $516 (.39 x $1,323).
Federal Work-Study. You can employ a student under FWS for up to 60 consecutive days after he enrolls (or in summer employment for up to 60 days). After 60 days, if verification has not been completed, you can't continue to employ the student under FWS. If you later discover that the student has been overawarded, you should attempt to adjust the student's other aid. Otherwise, you must reimburse the FWS Program from school funds. Except in the case of proven student fraud, a student can’t be required to repay FWS wages earned. (See Volume 6: Campus-Based Programs.)

Direct Subsidized Loans. You can originate a Direct Subsidized loan for a student who hasn’t completed verification, but you can’t disburse the loan. See Volume 4: Processing Aid and Managing FSA Funds regarding loan disbursements and limits on how long your school can hold loan money before disbursing it or returning it to the lender.

Selection after disbursement
A student’s application might be selected for verification after corrections are submitted and after the student has already been paid based on the previous unselected CPS transaction. (There is a change flag on the ISIR to call attention to this situation.) You must verify his application before making further disbursements. If verification does not justify aid already disbursed, then the student is responsible for repaying all aid for which he is not eligible, though he may keep any Stafford loan money he received and FWS wages he earned. See page 92 for what happens if he fails to complete verification.

After documentation is complete
When you’ve obtained all necessary verification documents from the student, you should compare them to the SAR or ISIR you are reviewing for payment. If all the student’s information is correct and there are no outstanding issues or conflicting information, you may award and disburse aid for which the student is eligible.

If verification reveals errors or inconsistencies, the student may have to make corrections or update information (see Chapter 5).

Verification tolerance
Verification can sometimes uncover minor errors that won’t significantly affect the student’s eligibility, so the regulations provide a tolerance for verification changes.

This tolerance is $400: if the total difference between the incorrect and correct values for certain items is more than $400, the information must be corrected. To calculate the difference, first add the original (incorrect) AGI and untaxed income amounts. From that sum subtract the original U.S. income tax paid to get the uncorrected total. Do the same for the correct values: add the correct AGI and untaxed income and subtract the correct U.S. income tax paid to get the corrected total. If the difference between the uncorrected total and the corrected total is $400 or less, the errors are within tolerance; you may award the student aid without submitting a correction or recalculating the EFC. Using the tolerance is optional—you can always have the student submit corrections for reprocessing.

Disbursing unsubsidized and PLUS loans without verification
As already mentioned, verification isn’t required for PLUS and unsubsidized Stafford loans. Therefore, schools can originate, certify, and disburse these loans regardless of a student’s verification status.

Example: selection after disbursement
Owen is attending Guerrero University. His application isn’t selected for verification, and he receives aid in the fall. In December, Owen submits a correction on his SAR that causes the ensuing transaction to be selected for verification. The aid administrator at Guerrero tells Owen he needs to submit verification documents if he wants his aid for the spring and if he wants to keep the Pell funds he received for fall, but Owen doesn’t turn in the documents. Owen doesn’t have to repay the Stafford loan he got in the fall, but he does have to return the Pell grant, and Guerrero must cancel his aid package for the spring.

Interim disbursements
34 CFR 668.58

34 CFR 668.58
Note that there is no tolerance for errors in nondollar items. If the original application has an error in any nondollar item, such as household size, the student or school must correct it.

**Deadlines and failure to submit documentation**

A Pell applicant selected for verification must complete the process by the deadline published in the Federal Register. As of this writing the notice for 2011–12 has not been published, but the deadline is expected to be September 24, 2012, or 120 days after the last day of the student’s enrollment, whichever is earlier. Campus-based and Stafford loan applicants must complete verification by the same deadline or by an earlier one established by your aid office.

Verification is complete when you have all the requested documentation. Also, for Pell grants, the student must have corrected any errors or shown that the information is correct, and you must have his valid correct ISIR or SAR. For Campus-based and Stafford loan funds, you must have an ISIR or SAR with an official EFC that shows the application data were processed through the CPS at least once while the student was enrolled.

If a student fails to provide the required documentation by the deadline:

- Do not disburse additional Pell, FSEOG, or Perkins loan funds to the student.
- Do not continue the student’s employment in an FWS job.
- Do not disburse Stafford loan funds to the student or originate a Stafford loan application.
- Return to the Department any undisbursed Stafford loan money.
- If the student already received Pell, FSEOG, or Perkins funds in a disbursement prior to being selected for verification, he must return that money (see Volume 5 for information on overpayments the student is responsible for). If he received it as an interim disbursement you gave while waiting to complete verification, your school is responsible for returning the money to the programs.

**Late disbursements**

Generally a student ceases to be eligible for aid once he has finished the term and is no longer enrolled. However, he may submit verification documentation and receive a late disbursement after that time if the Department processed a SAR or ISIR with an official EFC while he was still enrolled. Also, if there was a change in his EFC due to verification completed after he was enrolled, any Pell grant awarded would be based on the higher EFC. For information on post-withdrawal disbursements, see Volume 5.

**Verification status codes**

When you disburse a Pell grant, you must report through Common Origination and Disbursement (COD) the student’s verification status even if he wasn’t selected for verification.
V—You have verified the student. This includes students selected by the CPS and those your school chose to verify based on its own criteria.

W—The student was selected for verification by the CPS or your school, and you chose to pay a first disbursement of Pell without documentation. This code must be updated once verification is complete, or COD will reduce the Pell grant to zero.

S—The CPS selected the student for verification, but you did not verify him because you already reached the 30% verification threshold, because he satisfied one of the exclusions under 34 CFR 668.54(b) that are described earlier in the chapter, or because your school participates in the Quality Assurance Program and the student’s application did not meet your school’s verification criteria.

Blank—Report a blank if you have not performed verification because neither the CPS nor your school selected the student.
Your application was selected for review in a process called “Verification.” In this process, your school will be comparing information from your application with signed copies of your and your parent(s)’ 2010 Federal tax forms, or with W-2 forms or other financial documents. The law says we have the right to ask you for this information before awarding Federal aid. If there are differences between your application information and your financial documents, you or your school may need to make corrections electronically or by using your Student Aid Report (SAR).

Complete this verification form and submit it to your financial aid administrator as soon as possible, so that your financial aid won’t be delayed. Your financial aid administrator will help you.

A. Student Information

Last name          First name      M.I.  Social Security Number
Address (include apt. no.)  Date of birth
City           State      ZIP Code  Phone number (include area code)

B. Family Information

List the people in your parent(s)’ household, including:
• yourself and your parent(s) (including stepparent) even if you don’t live with your parents, and
• your parents’ other children, even if they don’t live with your parent(s), if (a) your parents will provide more than half of their support from July 1, 2011 through June 30, 2012, or (b) the children would be required to provide parental information when applying for Federal Student Aid, and
• other people if they now live with your parents, and your parents provide more than half of their support and will continue to provide more than half of their support from July 1, 2011 through June 30, 2012.

Write the names of all household members in the space(s) below. Also write in the name of the college for any household member, excluding your parent(s), who will be attending at least half time between July 1, 2011 and June 30, 2012, and will be enrolled in a degree, diploma, or certificate program. If you need more space, attach a separate page.

E. Sign this Worksheet

Each person signing this form certifies that all the information reported on it is complete and correct. The student and at least one parent must sign and date.

WARNING: If you purposely give false or misleading information on this worksheet, you may be fined, be sentenced to jail, or both.

Student

Date

Parent

Date

Do not mail this worksheet to the Department of Education. Submit this worksheet to your Financial Aid Administrator at your school. Don’t forget to sign your tax forms.
Your application was selected for review in a process called “Verification.” In this process, your school will be comparing information from your application with signed copies of your (and your spouse’s, if you are married) 2010 Federal tax forms, or with W-2 forms or other financial documents. The law says we have the right to ask you for this information before awarding Federal aid. If there are differences between your application information and your financial documents, you or your school may need to make corrections electronically or by using your Student Aid Report (SAR).

Complete this verification form and submit it to your financial aid administrator as soon as possible, so that your financial aid won’t be delayed. Your financial aid administrator will help you.

What you should do

1. Collect your (and your spouse’s) financial documents (signed Federal income tax forms, W-2 forms, etc.).
2. Talk to your financial aid administrator if you have questions about completing this worksheet.
3. Complete and sign the worksheet.
4. Submit the completed worksheet, tax forms, and any other documents your school requests to your financial aid administrator.
5. Your financial aid administrator will compare information on this worksheet and any supporting documents with the information you submitted on your application. You or your school may need to make corrections electronically or by using your SAR.

Do not mail this worksheet to the Department of Education. Submit this worksheet to your Financial Aid Administrator at your school. Don’t forget to sign your tax forms.
Corrections, Updates, and Adjustments

There are situations where the original application information may need to be changed: when errors need to be corrected; when dependency status, household size, or number in college must be updated; and when the application is adjusted based on an aid administrator’s professional judgment. This chapter discusses these changes.

Students and schools can correct items that were incorrectly reported on the original FAFSA submission, but because the FAFSA is considered to be a “snapshot” of the family’s financial situation as of the date the application was submitted, only a few answers from the FAFSA can be updated to reflect changes after the FAFSA was signed. Also, as an aid administrator you have the discretion to use your professional judgment to adjust the student’s reported information to account for special circumstances.

CORRECTING ERRORS

In general, your school must have correct data before paying the student, which in some cases means that you or the student must submit corrections for reprocessing. The student can use IRS Data Retrieval online to correct income and tax data that were estimated when the application was filled out, which will increase the accuracy of the data and make verification simpler. However, there are cases where you can pay the student without waiting for corrections to be reprocessed—for instance, if the aid amount doesn’t change or, for the Campus-based and Stafford/PLUS programs, if you base the award on your recalculation of the EFC. For students selected for verification, there are additional situations where corrections aren’t required (see Chapter 4).

Even if the EFC or award amount doesn’t appear to change, corrections must be submitted to the CPS (or the discrepancy otherwise resolved) if the Social Security number is wrong or there are problems with other application questions (such as those on citizenship) that are subject to data matches.

Options if error doesn’t affect eligibility

If there would be no change to the Pell grant, the student doesn’t have to submit corrections for reprocessing unless something such as a data match item must be changed. When submitting payment information in such a case, you must use the verified transaction. The rule is similar for the Campus-based and Stafford loan programs—you can award aid based on the original data if your recalculation of the EFC shows the correction would not change the student’s award amount. Of course, for any program you can require corrections to be submitted for reprocessing.

Regulations on corrections and updating

Corrections for Pell Grants
34 CFR 690.14
Verification and updating, interim disbursements, options for payment, etc. 668.55, 668.58–61
**Correction if misreported as graduate**

Any student who reports on the FAFSA that she is a graduate student can’t receive Pell funds. Therefore, a student who incorrectly reported that she is a graduate student must correct that information, even if there are no errors that affect the EFC.

**Examples—errors not affecting EFC**

Stanislaw reported $1,000 for cash, savings, and checking accounts, and also reported $1,000 for the net worth of investments. He reported no other assets. He actually should have reported $2,500 for the net worth of investments. However, because his asset protection allowance is $4,700, making the correction won’t change his EFC at all. Therefore, he can receive aid from any of the programs without submitting a correction, based on the data he originally reported.

Eric reported an AGI of $20,000 but forgot to report untaxed income of $120. Eric’s EFC was 826. The FAA at Frisson College determines that making the correction would change Eric’s EFC to 886. For an EFC of 826, the scheduled award is $3,900, as it is for an EFC of 886, so the college can pay Eric’s Pell without requiring him to make a correction. When Frisson submits the origination record for Eric, it uses the original EFC of 826. (The college will need to either use its recalculated EFC or submit a correction for aid from the Campus-based or Direct Loan programs; see “Options if correction decreases eligibility.”)

**Correction increases eligibility, Pell grants**

34 CFR 668.59(b)(2)(ii)(A)

**Verification completed within 120-day period for Pell**

34 CFR 668.60(c)(1)

**Options if correction increases eligibility**

For Pell grants, if the scheduled award would increase and if the student completes verification and submits no corrections, you may use the original EFC and grant amount. Otherwise, you must pay the student the increased amount by submitting the corrections to the CPS for reprocessing. If the student was selected for verification, you can make a first payment based on the original EFC and adjust the second payment upon receipt of the reprocessed ISIR/SAR, or you can wait until you receive the new EFC before you pay the student. If the student wasn’t selected for verification, you must wait until you receive the reprocessed EFC before making a payment.

There’s an important limitation when a student completes verification while no longer enrolled but within the subsequent 120-day period allowed for verification. In such cases you must always use the higher EFC, even if it was the original and incorrect EFC (refer to the regulation cited in the margin).

For the Campus-based and Stafford loan programs, if your recalculation shows that the student’s eligibility will increase, you can either pay the student based on your recalculation or require the student to submit a correction and use the new EFC from the CPS. Remember that your school will be liable for any overpayment if your recalculation is incorrect.

**Options if correction decreases eligibility**

If the student would be eligible for less aid based on the correct information, you can’t use the incorrect EFC to award FSA aid.

For Pell grants, if the scheduled award would decrease, the data must be corrected and submitted to the CPS. You can’t make any grant payments to the student until you receive the new output document.

For the Campus-based and Stafford loan programs, when your recalculation of the EFC shows that the corrections would decrease the student’s aid, you can either pay the student based on your recalculation or require the student to submit a correction and use the new EFC from the CPS.

**UPDATING**

Generally, a student cannot update information, such as income or assets, that was correct as of the date the application was signed. For example, if the student’s family sold some stock after she signed the FAFSA and spent the money on a non-reported asset such as a car, she can’t update her information to show a change in the family’s assets. However, three items—household size, number in college, and dependency status—must be updated in certain circumstances.

**Dependency status**

A student must update his dependency status any time during the award year unless it changed because his marital status changed. This update is required whether or not he was selected for verification. For the Pell Grant Program, the updated information must be submitted to the CPS for reprocessing. For the Campus-based and Stafford/PLUS loan programs, you can recalculate the student’s EFC based on the updated dependency status and

---

**Correction if misreported as graduate**

Any student who reports on the FAFSA that she is a graduate student can’t receive Pell funds. Therefore, a student who incorrectly reported that she is a graduate student must correct that information, even if there are no errors that affect the EFC.

**Examples—errors not affecting EFC**

Stanislaw reported $1,000 for cash, savings, and checking accounts, and also reported $1,000 for the net worth of investments. He reported no other assets. He actually should have reported $2,500 for the net worth of investments. However, because his asset protection allowance is $4,700, making the correction won’t change his EFC at all. Therefore, he can receive aid from any of the programs without submitting a correction, based on the data he originally reported.

Eric reported an AGI of $20,000 but forgot to report untaxed income of $120. Eric’s EFC was 826. The FAA at Frisson College determines that making the correction would change Eric’s EFC to 886. For an EFC of 826, the scheduled award is $3,900, as it is for an EFC of 886, so the college can pay Eric’s Pell without requiring him to make a correction. When Frisson submits the origination record for Eric, it uses the original EFC of 826. (The college will need to either use its recalculated EFC or submit a correction for aid from the Campus-based or Direct Loan programs; see “Options if correction decreases eligibility.”)

**Correction increases eligibility, Pell grants**

34 CFR 668.59(b)(2)(ii)(A)

**Verification completed within 120-day period for Pell**

34 CFR 668.60(c)(1)
use that recalculated EFC. Remember that your school will be liable for any overpayment due to recalculation errors.

Once you’ve originated a Stafford loan, the origination record can’t be changed to reflect a change in dependency status. However, you can use the updated status and recalculated EFC to originate or certify additional loans if the student qualifies.

**Household size and number in college**

Unlike dependency status, household size or number in college cannot be updated unless the student is selected for verification. If he is selected, these items must be updated to be correct at the time of verification unless they changed due to a change in the student’s marital status, in which case updating is not permitted.

For Pell Grants, the student doesn’t have to submit updated information for reprocessing if the scheduled award will increase or remain the same; you can disburse Pell funds using the original EFC. But in order for the student to get the increased grant amount, the updated information must be submitted to the processor. You can make a first payment based on the original EFC, adjusting the second payment upon receipt of the reprocessed output document, or you can wait until you receive the new EFC before paying the student. If the award will decrease, the updated information must be submitted to the processor. You can’t make any payments until you have the new output document with the updated information.

For the Campus-based and Stafford/PLUS programs, you can require the student to submit the updated information for the CPS to recalculate the EFC, or you can recalculate the student’s EFC yourself. Remember that your school will be liable for any overpayment due to recalculation errors.

**Effect on previous disbursements**

If you paid a student based on information that is updated later, you must use the revised EFC to determine the correct award and adjust future disbursements or require a repayment by the student if necessary.

**HOW TO SUBMIT CORRECTIONS AND UPDATES**

Corrections and updates can be submitted by the student on the SAR or the Web or by the school using FAA Access to CPS Online.

**Using FAFSA on the Web (FOTW)**

Any student who has a PIN—regardless of how he originally applied—may correct any of his own data, except SSN, by using FAFSA on the Web at www.fafsa.gov. If dependent students need to change parental data, a parent must either sign electronically with her own PIN or print out and sign a signature page.

**Submitting changes via FAA Access to CPS Online**

Your school can submit corrections and updates electronically through FAA Access to CPS Online even if the original application wasn’t submitted with that method. If your school isn’t listed on the transaction you want to correct, the student will have to give you the DRN printed on the SAR or

---

**Example: correction increases eligibility**

Chris’s EFC is 616. He correctly reported his household size of three but incorrectly reported the number in college as one. The FAA at Benoit Institute determines that correcting the number in college to two would change Chris’s EFC to 534. This would increase his Pell award by $100. Benoit can disburse Pell to Chris on the lower scheduled award but not on the higher award unless he sends in a correction and receives a new output document. Benoit could use the recalculated EFC for awarding under the Campus-based or Direct Loan programs without any corrections being submitted.

**Example: correction decreases eligibility**

On the application, Chavo reported his $6,000 in income as taxes paid instead of income earned from work. Making the correction will increase Chavo’s EFC, so his eligibility will be reduced. Because Chavo will still qualify for a Pell, the FAA at Sarven Technical Institute sends the correction to the CPS for recalculation. Chavo can’t receive any Pell payments until Sarven receives the corrected ISIR. However, Sarven could recalculate his EFC and disburse Campus-based aid or Direct Loans to Chavo before it receives the corrected data from the CPS.

**Parent remarriage after applying**

While the applicant does not update household size or number in college because of a change in his marital status, if he is a dependent student and his parent remarries between application and verification, he must update household size to include the new stepparent. However, the student would not count the new stepparent’s income and assets. The school could use professional judgment to include the stepparent’s income or to otherwise account for the change.

Student aid report
paper corrections sent by mail

By phone
Change schools listed or student address (DRN required)
Federal Student Aid Information Center (FSAIC)
1-800-4-FED-AID (1-800-433-3243)

Corrections by phone limited to processor errors
As we’ve discussed, a student with a DRN can change his address and school listings by calling the Federal Student Aid Information Center.

Most other corrections can’t be made over the phone—they have to be done on the SAR or through FOTW or FAA Access. There is only one exception, and that’s when the information the student submitted on a paper FAFSA or SAR was not scanned or input correctly.

If a student contacts the FSAIC and an operator can verify by viewing the image file of the document that an answer to an item was not correctly recorded by the FAFSA processor, the operator can correct that error.

The correction will be transmitted to the CPS, a corrected ISIR will be available to the student’s schools within 72 hours, and he will receive a corrected SAR in the mail within 10 days. The student doesn’t have to sign for this correction because he has already signed the original paper document that has the correct information.

SAR Acknowledgement so that you can add your school in the next available institution field and then get electronic access to the resulting corrected transaction. If all the fields are filled, the student will have to tell you which school to replace with yours.

If you send a correction or update for a student using FAA Access, you must first have signed documentation from the student and parent. This can be signatures on Part 2 of the SAR, a signed copy of the correction or update, or a signed verification document. Unlike those for the original application, these do not have to be wet signatures. See Chapter 2 for more on signature requirements.

The CPS will process the change, send an ISIR to the school, and send the student a one-page SAR acknowledgement or, if the CPS has her e-mail address, an e-mail with a link to her SAR information on the Web.

Using the Student Aid Report (SAR) to make corrections
Students who received a paper SAR may make corrections or updates on it, then sign and return it to the FAFSA processor at the address given at the end of the SAR (of course, students with PINs can instead use FOTW). One parent must also sign if the student is dependent, unless the only corrections are to the institution or housing codes, the address, or telephone number.

If the student applied electronically through a school or received an e-mail link to SAR information on the Web but would like to make corrections with a paper SAR, she can have one mailed to her by calling the FSAIC at 1-800-433-3243 and providing her name, SSN, and date of birth.

Adding schools and changing a student’s address
As with other changes, a student can add schools or change her address, e-mail address, or telephone number on the Web or on a paper SAR. But she can also update these items over the phone by calling 1-800-4-FED-AID and providing her DRN. You can submit those changes for her through FAA Access, though, as noted before, if your school was not listed on the student’s application, you will need her DRN to add your school.

The FAFSA has limited space for a student to list schools that will receive the application data: four schools can appear on the paper application, ten with either FAFSA on the Web or FAA Access. If the student wants information sent to more schools, he can use any of the methods listed previously to replace some or all of the original schools, though the replaced schools will not receive an ISIR. For example, if the student originally listed ten schools on the application and then used FOTW to replace two schools with two new ones, those that were replaced would not receive an ISIR from this correction or any subsequent correction on which they did not appear.

PROFESSIONAL JUDGMENT
An aid administrator may use professional judgment (PJ), on a case-by-case basis only, to alter the data used to calculate the EFC. This alteration is valid only at the school making it. You submit a PJ change electronically, via FAA Access to CPS Online or third-party software, and you may do it without a signature from the student or parent. In FAA Access, you select “EFC
adjustment requested” for the professional judgment field. The next ISIR will indicate “Professional judgment processed.”

The reason for the adjustment must be documented in the student’s file, and it must relate to the special circumstances that differentiate him—not to conditions that exist for a whole class of students. You can also use professional judgment to adjust the student’s cost of attendance. You must resolve any inconsistent or conflicting information shown on the output document before making any adjustments. An aid administrator’s decision regarding adjustments is final and cannot be appealed to the Department.

The statute states that nothing within it shall be construed as limiting the authority of aid administrators to make data adjustments for some situations. However, the law gives some examples of special circumstances, such as elementary or secondary school tuition, medical or dental or nursing home expenses not covered by insurance, unusually high child care costs, being homeless or a dislocated worker, recent unemployment of a family member, or other changes in the family’s income or assets. Use of professional judgment is neither limited to nor required for the situations mentioned.

Another situation where you might want to use professional judgment involves Roth IRAs. When someone converts a regular IRA into a Roth IRA by transferring funds, the amount converted has to be reported as taxable income on the tax return. So the income reported on the FAFSA will be higher than without the Roth conversion, even though the family doesn’t actually have additional income or assets available. You can use professional judgment to reduce the income and taxes paid to the amount that would have been reported if there was no Roth conversion if you think the adjustment is warranted for a student. As with the specific special circumstances listed in the law, you’re not required to make an adjustment in this situation.

The law doesn’t allow you to modify either the formula or the tables used in the EFC calculation; you can only change the cost of attendance or the values of specific data elements used in the EFC calculation. In addition, you can’t adjust data elements or the cost of attendance solely because you believe the tables and formula are not adequate or appropriate. The data elements that are adjusted must relate to the student’s special circumstances. For example, if a family member is ill, you might modify the AGI to allow for lower earnings in the coming year or might adjust assets to indicate that family savings will be spent on medical expenses.

Professional judgment can’t be used to waive general student eligibility requirements or to circumvent the intent of the law or regulations. For instance, you cannot use professional judgment to change FSEOG selection criteria. Nor can you include post-enrollment activity expenses in the student’s COA. For example, professional licensing costs to be incurred after the enrollment period would not be includable (though one-time licensing costs incurred during the enrollment period may be—see Cost of Attendance in Volume 3).

Occasionally aid administrators have made decisions contrary to the professional judgment provision’s intent. These “unreasonable” judgments have included, for example, the reduction of EFCs based on recurring costs such as rent or car payments. The Department has determined that such adjustments are inconsistent with the intent of the law and have been reversed.

Adjustment example

Kitty’s mother had income earned from work of $25,000 in 2008 but is no longer employed. After receiving documentation confirming this, the FAA at Krieger College decides to adjust the AGI reported for Kitty’s parents to take into account their reduced income. The FAA also reduces the income earned from work for Kitty’s mother to zero.

IPA percentage example

In 2010 Alan had $2,850 in medical expenses that were out-of-pocket costs. He is married, has two children, and is the only member of his household in college, so his IPA is $33,300. Because his expenses are less than the amount for medical expenses already provided for in the IPA (11% of $33,300 is $3,663), the aid administrator at Sarven Technical Institute does not make an adjustment to Alan’s FAFSA information.
as vacation expenses, tithing expenses, and standard living expenses (related to utilities, credit card expenses, children’s allowances, and the like). Aid administrators must make “reasonable” decisions that support the intent of the provision. Your school is held accountable for all professional judgment decisions and for fully documenting each decision.

An FAA should keep in mind that an income protection allowance (IPA) is included in the EFC calculation to account for modest living expenses. Before adjusting for an unusual expense, consider whether it is already covered by the IPA. It is reasonable to assume that approximately 30% of the IPA is for food, 22% for housing, 9% for transportation expenses, 16% for clothing and personal care, 11% for medical care, and 12% for other family consumption. The income protection allowance is one of the intermediate values in the FAA Information section of the output document (labeled as “IPA”). See Chapter 3 for the IPA values.

If you use professional judgment to adjust a data element, you must use the resulting EFC consistently for all FSA funds awarded to that student. For example, if for awarding the student’s Pell grant you adjust a data element that affects the EFC, that new EFC must also be used to determine the student’s eligibility for aid from the Campus-based and Stafford loan programs.

**CONFLICTING INFORMATION**

In addition to reviewing application and data match information from the CPS, a school must have an adequate internal system to identify conflicting information—regardless of the source and regardless of whether the student is selected for verification—that would affect a student’s eligibility, such as information from the admissions office as to whether the student has a high school diploma or information from other offices regarding academic progress and enrollment status. The school must resolve all such conflicting information, except when the student dies during the award year.

If your school has conflicting information concerning a student’s eligibility or you have any reason to believe a student’s application information is incorrect, you must resolve the discrepancies before disbursing FSA funds. If you discover discrepancies after disbursing FSA funds, you must still reconcile the conflicting information and take appropriate action under the specific program requirements.

**Subsequent ISIRs**

You are required to review all subsequent transactions for a student for the entire processing year, even if you have already verified an earlier transaction. First determine if the EFC or the “C” flag has changed or if there are new comments or NSLDS information that impacts eligibility for aid. Also check any updates or corrections. If the EFC has not changed and there are no changes in the “C” flag or NSLDS information, no action is generally required. If the EFC does change but it either doesn’t affect the amount and type of aid received or the data elements that changed were already verified, no action is required. But if the EFC changes and the pertinent data elements were not verified, then you must investigate. Of course, any time the “C” flag changes or NSLDS data have been modified, you must resolve any conflicts.
**Discrepant tax data**

We have already stated that financial aid administrators do not need to be tax experts, yet there are some issues that even a layperson with basic tax law information can evaluate. Because conflicting data often involve such information, FAAs must have a fundamental understanding of relevant tax issues that can considerably affect the need analysis. You are obligated to know: (1) whether a person was required to file a tax return, (2) what the correct filing status for a person should be, and (3) that an individual cannot be claimed as an exemption by more than one person.

Publication 17 of the IRS, *Your Federal Income Tax*, is a useful resource for aid administrators. You can view it on the Web at [www.irs.gov](http://www.irs.gov) or you can call the IRS at 1-800-829-3676 to order a copy. It addresses pertinent tax issues on these pages: the filing requirements—i.e., who is required to file a return—are on pages 4–7; the instructions on which form a person should file are on pages 7–8; and the filing status requirements are on pages 19–24.

For example, an FAA noticing that a dependent student’s married parents have each filed as “head of household” (which offers a greater tax deduction than filing as single or married) must question whether that is the correct filing status. Publication 17 explains on pages 21–23 the criteria a person must meet to file as head of household. Resolution of the conflict may be a reasonable explanation of why there appears to be a conflict but is none, or the parents may refile and submit a copy of the amended return.

**Resolution of conflicting information**

You may not disburse aid until you have resolved conflicting information, which you must do for any student as long as he is at your school. Even if the conflict concerns a previous award year, you must still investigate it. You have resolved the matter when you have determined which data are correct; this might simply be confirming that an earlier determination was the right one. Of course, you must document your findings in the student’s file and explain why, not simply assert that, your decision is justified.

**REFERRAL OF FRAUD CASES**

If you suspect that a student, employee, or other individual has misrepresented information or altered documentation to fraudulently obtain federal funds, you should report your suspicions and provide any evidence to the Office of Inspector General. See also *Volume 2.*

Applying for Stafford and PLUS loans

This chapter explains the process of making a loan and describes what information is required of the student, parent, and school. There will be some variations from school to school, but this chapter discusses the requirements that are common to schools.

APPLYING FOR AID AND COMPLETING THE MPN

A student who wishes to receive a Stafford loan must complete a Free Application for Federal Student Aid (FAFSA) and a master promissory note (MPN). An MPN can be used to make multiple loans over several years.

In the traditional paper process, a student might complete a Stafford MPN at the school, or the school or ED might send the MPN to the student for his signature, and the school will originate the loan based on his acceptance of the aid package. If you receive the MPN, you must ensure that the information on it does not conflict with any other information you have for the student.

The electronic MPN (eMPN) is completed and signed, and the borrower is authenticated, on the student loans website (see the URL in the margin). Student and parent borrowers complete the eMPN for both Stafford and PLUS loans at the same site. A borrower who wishes to complete an eMPN must sign it electronically. If a school or borrower does not want an MPN signed electronically, a paper MPN is required.

Schools may offer borrowers the option of completing and signing an eMPN, but they may not require it. A borrower who wishes to complete a paper MPN must be given that option.

Required borrower information on MPN

The MPN collects identifying information for the borrower, including name, permanent address, date of birth, Social Security number, driver’s license number, and two references with U.S. addresses. Some of this information may be preprinted on the MPN. The borrower must read, sign, and date the MPN.

MULTI-YEAR MPN AND WHEN A NEW MPN IS REQUIRED

When used as a multi-year document, the MPN enables student and parent borrowers to get additional loans without signing a new MPN.
These circumstances require a borrower to complete a new MPN:

- The borrower transfers to a school that is not eligible to use, or chooses not to use, the multi-year feature of the MPN.
- The borrower only previously borrowed under the FFEL program using a FFEL MPN.

Borrowers may request an annual MPN or that no additional loans be made using their current multi-year MPN. The latter request must be in writing.

In some cases a new MPN has to be executed because the maximum period for use of the MPN has expired. Additional loans may no longer be made under an MPN after the earlier of:

- the date ED or the school receives the borrower's written notification that no further loans be made;
- the end of the 12-month period after the date ED received the MPN if no disbursement is made during that time; or
- ten years after the date ED received the MPN. If a portion of a loan is made on or before the 10-year limit, remaining disbursements of that loan can be made.

Although the Direct Loan Program regulations allow the second and third expiration conditions to be based either on the date the borrower signed the MPN or the date ED receives the MPN, the COD system currently uses the date the MPN is received.

### Consumer information for the borrower

Borrowers need to be fully advised on the costs and responsibilities of borrowing. Accordingly, the law requires that the borrower receive the following information:

1. At the same time as the MPN, a borrower’s rights and responsibilities statement.
2. At or prior to the first disbursement, a disclosure statement with specific information about that borrower’s loans (usually provided by ED).
3. For any subsequent loans provided under an existing MPN, a plain language disclosure (PLD) provided by ED. (The PLD is an abbreviated version of the borrower’s rights and responsibilities Statement that was provided with the MPN.)

Some of this information should be reviewed with the borrower as a part of entrance and exit counseling (see Volume 2: School Eligibility and Operations).

**The confirmation process**

With a multi-year MPN, the confirmation process is crucial. It may be part of the required notifications discussed in Volume 4, or it may be a separate process.

Confirmation helps the student or parent maintain control over borrowing: a student borrower must accept, either actively or passively, the loan amount offered.

- **Active confirmation**—a school does not disburse the loan until the borrower affirmatively requests or accepts the proposed loan type and amount or requests changes to the loan package.
- **Passive confirmation**—a school does not disburse the loan until the borrower is notified of his proposed loan package and the time given him to respond has elapsed. The borrower only needs to take action if he wants to decline the loan or make adjustments to the type or amount of the loan.

For example, your school’s award letter may be used as part of either an active or passive confirmation. For active confirmation, the borrower would be asked to confirm the loan amount offered by responding to your school’s offer. For passive confirmation, the borrower would be asked to respond only if she wanted to cancel or reduce the loan amount offered.
**Declining the use of the multi-year MPN**

Schools are not required to use the multi-year feature of the MPN. You may decide that you want some or all of the borrowers at your school to sign a new MPN each year. If you don’t want to use the multi-year feature for any of your students, contact the COD School Relations Center.

Student loan borrowers may decline to use the multi-year feature of the MPN. Borrowers may also cancel authorization for subsequent loans to be made under an MPN after the first loan is made by notifying the school in writing. Borrowers may send their written notification to their servicer or to their school to forward to COD. The effective date is the date the school, COD, or the servicer receives the written cancellation request. If the borrower cancels the multi-year authorization on a loan that is not completely disbursed, the school may make remaining disbursements on existing loans unless the borrower tells the school to cancel or adjust the disbursements. To obtain additional loans, the borrower will need to complete a new MPN.

**PLUS MPN**

Parents and graduate/professional students apply for a PLUS loan by completing the PLUS application and master promissory note. All students who receive PLUS funds must complete a FAFSA, whether they are graduate student PLUS borrowers or dependent undergraduates who will receive the funds via their parents. All PLUS borrowers must receive the Borrowers’ Rights and Responsibilities Statement with the loan application.

At U.S. domestic schools a parent may obtain for a dependent student additional PLUS loans based on the original MPN for up to 10 years after the date the parent first signed it, as discussed in the previous section on the multi-year use of the MPN. A separate PLUS MPN is required for each dependent student or if both parents want to borrow individually on behalf of the same student. A new PLUS MPN would be required under the conditions discussed in the section on when a new MPN is required. A graduate or professional student PLUS borrower may also obtain additional loans under the original MPN for up to 10 years after the date it was signed.

If a graduate or professional student PLUS borrower is also a parent who is borrowing a PLUS loan for one or more dependent students, she must sign one MPN for herself and a separate MPN for each dependent student.

Both parent and student PLUS borrowers may choose to sign a new MPN for each loan even if that would not otherwise be required. A school may require a new MPN for each PLUS loan.

**Establishing graduate/professional PLUS eligibility**

Before originating a PLUS loan application for a graduate or professional student, a school must determine her eligibility for a Stafford loan. If the student is eligible for a Stafford loan but has not requested the maximum amount she can receive, the school must notify her of that and give her the opportunity to request the maximum amount. The school must also provide the student with a comparison of:

**Using the MPN for multiple loans within an academic year**

Note that the MPN may be used to make multiple loans within the same academic year. Even schools that are not authorized or choose not to use the multi-year feature of the MPN can make more than one loan under an MPN within the same academic year.
PLUS borrowers

Unless otherwise noted, “PLUS borrower” refers to both parents and graduate/professional students who borrow PLUS loans.

- the maximum interest rate for Stafford and PLUS loans;
- the periods when interest accrues on Stafford and PLUS loans; and
- when Stafford and PLUS loans enter repayment.

A graduate or professional student is not required to accept a Stafford loan as a condition for receiving a PLUS loan, nor can a school require that.

Unless the borrower has received a FFEL or Direct PLUS loan before, a school must conduct initial loan counseling prior to the first disbursement of a graduate/professional PLUS loan. Loan counseling requirements do not apply to parent PLUS borrowers.

PLUS loan origination

Because a parent or graduate/professional student may borrow up to the student’s cost of attendance minus other estimated financial assistance for the loan period, it is important that the borrower specify how much he wants to borrow. A PLUS loan may not be made for more than what the borrower requests.

Your school must collect this information before originating the PLUS loan and may use various means such as a borrower response section on your financial aid award letter, a separate PLUS form, documented telephone or electronic requests, or other means.

You must establish and document how the PLUS borrower’s loan amount request will be collected. You also must maintain a record of any requests (written, electronic, or by phone) from the borrower for any adjustment to the loan amount.

The Direct PLUS Loan Request feature on the StudentLoans.gov website allows borrowers, both parents and graduate/professional students, to request a PLUS loan and initiate a credit check. It can take the place of a school-based process. Borrowers can request the amount that they wish to borrow or choose to have the school determine the maximum amount they are eligible to receive. This process is optional; schools can choose not to allow it or to allow it for parent or student borrowers only. But a school using this process will meet the active confirmation requirement. See the electronic announcement dated 4/23/10 on the IFAP website for more information.

Before originating a parent PLUS loan, you must determine the FSA eligibility of the dependent student for whom the parent is borrowing, and you must obtain the student’s complete financial aid history. A parent may not take out a PLUS loan when the student is ineligible for FSA funds or when the parent herself is ineligible. Also, when originating a parent PLUS loan, you must certify the student’s enrollment status and anticipated completion/graduation date.

Your school must confirm the student’s dependency status when determining whether a parent is eligible to borrow under the PLUS Program or the dependent student is eligible for additional unsubsidized Stafford loan limits.

Foreign schools and the multi-year MPN

Foreign schools are not currently authorized to use the multi-year feature of the MPN for either Stafford or PLUS loans. A new MPN is required for each academic year.

Determination of Stafford eligibility required

34 CFR 685.301(a)
If your school uses the multi-year PLUS MPN, the borrower’s PLUS loan request for subsequent years is sufficient documentation to make additional loans, but the borrower’s PLUS loan amount request must be secured for each loan made using an MPN. Schools using the PLUS loan MPN as a multi-year note are required to have an active confirmation process.

**Adverse credit history and use of endorser**

To borrow a PLUS loan, a person must not have an adverse credit history, but if he has such a history, he may still receive a PLUS loan by using an endorser who does not have an adverse credit history. In these cases a separate endorser addendum is required for each PLUS loan. Any loan that requires an endorser must be made under a new PLUS MPN with a new endorser addendum because the endorser is liable only for the specific loan or loans she agrees to endorse. The addendum includes the requested loan amount; if the parent borrower wants to increase that amount, the endorser must approve it, and it requires a new MPN and endorser addendum.

**Establishing a confirmation process**

As long as schools follow the regulations and the Department’s guidelines, they have the discretion to establish their own confirmation process, including the timing of confirmation. For example, confirmation could take place when students apply for aid, when aid is packaged, when loan funds are disbursed, or at some other appropriate time. A school could combine elements of active and passive confirmation. The confirmation process could cover the entire loan for the academic year or loan period or, instead, could require that the student confirm each loan disbursement. DCL GEN-98-25 provides examples of each of these confirmation approaches.

Effective processes will vary, and schools are encouraged to test and use different technologies, which can include the Internet, e-mail, card technologies, and voice response.

Generally a school should use the same confirmation process for all borrowers, but it may want to establish more than one process to accommodate existing administrative procedures or because the school believes it can best inform borrowers of their loan obligations if it uses different confirmation processes for different groups of students. For example, a school could require active confirmation for undergraduate students and passive confirmation for graduate students.

Schools must document whatever process(es) they use. They must retain a description of the process(es) in effect for each academic year in which they make second or subsequent loans under MPNs. Documentation of a process can be in paper or electronic format and need not be kept in individual borrower files. Documentation must be kept indefinitely because it must be submitted to the Department, upon request, if a borrower challenges the enforceability of a loan.

We recommend that schools include a description of the confirmation process(es) in their student consumer information just as they do for other school policies, such as refunds and academic progress.

---

**Initial PLUS loan counseling required**

34 CFR 685.304(a)(2)

**Adverse Credit History**

When determining whether a borrower is ineligible for a PLUS Loan based on an adverse credit history, the Department obtains a credit report on the borrower from at least one national credit bureau. Adverse credit is defined in the regulations as the applicant being 90 days or more delinquent on a debt or having been subject in the last five years to a default determination, bankruptcy discharge, foreclosure, repossession, tax lien, wage garnishment or write-off of an FSA debt. The absence of any credit history is not considered adverse credit.

**Increased unsubsidized Stafford for independent students and dependent students whose parent can’t get PLUS**

If at least one of a dependent student’s parents has not been able to borrow a PLUS loan, the student may be eligible for higher unsubsidized Stafford borrowing limits. See Volume 3, Chapter 4.
Introduction

This volume of the Federal Student Aid (FSA) Handbook discusses the eligibility requirements for students and parent borrowers and your responsibilities to ensure that recipients qualify for their aid awards.

SOURCES OF INFORMATION

There are many factors you must consider when reviewing an application for aid from the FSA programs, such as whether the student is a U.S. citizen or permanent resident, whether he is making satisfactory academic progress, and whether he has a defaulted FSA loan. To answer these questions you receive information about the student from different sources, including the Department of Education’s Central Processing System (CPS) for financial aid applications and the National Student Loan Data System (NSLDS).

Throughout the year the Department provides updates to schools in the form of dear colleague letters (DCLs). These and other releases, such as Federal Register notices and announcements containing system updates and technical guidance, are available on the Information for Financial Aid Professionals (IFAP) website (www.ifap.ed.gov).

The FSA Handbook doesn’t cover the operation of software. For schools using software from the Department, there are technical references on the FSA Download website (see the margin) that explain how the software operates. Schools using third-party software should consult the vendor’s reference materials for technical guidance.

RECENT CHANGES

The biggest changes for this volume for 2011–2012 are a result of the Program Integrity regulations package that was published in the Federal Register on 10/29/10. In Chapter 1 the ability-to-benefit (ATB) and satisfactory academic progress sections were rewritten because the pertinent regulations are new.

The Department has provided guidance on trial periods of enrollment in DCL GEN-11-12. We note this on page 3.

We added guidance on pages 6 and 7 relating to the new administrative requirement to check the validity of a student’s high school completion when there is a question about the diploma not being valid or coming from an entity that does not provide a secondary school education, i.e., a “diploma mill.”
Because second Pell grants within an award year have been eliminated, we have removed text relating to them in this volume.

On page 15 we added a margin note clarifying how enrollment status is determined for students with intellectual disabilities since their comprehensive training programs can contain work for which the school awards no credit.

On page 16 we noted that FSA funds can only be awarded for instruction that is provided or overseen by the school.

We reorganized Chapter 2 to gather similar topics and make the material easier to understand and reference. We added to the margin on page 31 and the guidance on parolees on page 33 that U.S. Citizenship and Immigration Services will release a new G-845 form in 2011. On page 43 we added newer images of the permanent resident card. Also in this chapter, we noted that U.S. nationals can possibly include persons born in the U.S. Minor Outlying Islands.

On page 51 we added to the section on total and permanent disability discharges and distinguished between loans that were discharged on or after July 1, 2010, and those conditionally discharged before that date.

We modified the margin note on page 65 regarding the backlog in requests for status information letters from the Selective Service System.

We removed Chapter 6 from last year’s edition of *Student Eligibility* because it covered Academic Competitiveness and National Science and Mathematics Access to Retain Talent grants, and those grants have not been extended by new legislation.

We removed guidance from Chapter 6 on LEAP grants and Byrd scholarships as those programs have been defunded.

We added the definition of undergraduate student in the margin of page 67 and modified the text in the body of that page to make it clear that students with a master’s degree are not eligible for Pell grants in any circumstance.

We replaced the margin note on refusing or reducing loans on page 70. The old note cited the law, while the new one cites the corresponding regulations, which are clearer.

We noted on page 70 that incarcerated parents are not eligible to receive PLUS loans.

On page 72 we noted that not all students who receive Federal Supplemental Education Opportunity Grants will necessarily have received Pell grants.

If you have any comments regarding the FSA Handbook, please contact Research and Publications via e-mail at fsaschoolspubs@ed.gov.
School-Determined Requirements

In this chapter we discuss student eligibility requirements that don’t require information from the Department’s systems. The school determines on its own whether the student meets these eligibility requirements. In some cases the financial aid office will need to get information from other school offices, such as the admissions office or the registrar, or from other organizations, such as high schools or testing agencies.

REGULAR STUDENT IN AN ELIGIBLE PROGRAM

A person must be enrolled as a regular student in an eligible program in order to receive FSA funds (exceptions are discussed later in this chapter). A regular student is someone who is enrolled or accepted for enrollment in an eligible institution for the purpose of obtaining a degree or certificate offered by the school. The requirement for an eligible program are discussed in Volume 2, Chapter 2.

A school must document a student’s enrollment in an eligible program at the time of admission, and it must have a system to notify the financial aid office if the student leaves the program. It must also document that an aid recipient is a regular student.

▼ Conditional acceptance. Some schools admit students provisionally, for example, until they provide further documentation, such as academic transcripts or test scores, or demonstrate an ability to succeed in the program by receiving acceptable grades in program coursework. Typically the school will limit these students’ enrollment in terms of number of courses or enrollment status until they meet the necessary conditions.

Students admitted as conditional are regular students only if the school officially accepts them into the eligible degree or certificate program. The Department does not define official acceptance or admission. If the student is merely allowed to take some courses before being officially admitted to the program, she is not considered a regular student and is not eligible until she is officially admitted.

Schools may offer a trial or conditional period during which a student attends a program without incurring program charges or receiving FSA funds. If he continues beyond the trial period and enrolls as a regular student, the school can pay him FSA grants for the entire payment period and loans for the period of enrollment.

▼ Continuing education. Regular students may receive aid for classes they take in a school’s continuing education department as long as the classes apply to their degree or certificate program.

Student eligibility
34 CFR 668.32
See Volume 2, Chapter 2 for eligible program requirements.

Regular student example
HEA Sec. 484(a)(1), (b)(3), (4); 34 CFR 668.32(a)(1)

Lem Community College (LCC) allows anyone with a high school diploma or the equivalent to enroll in any course. Many of LCC’s students do not intend to receive a degree or certificate; they are not regular students. LCC requires those who want to receive a degree or certificate to complete a form stating which degree or certificate they are studying for and to meet periodically with an academic advisor. LCC considers them to be regular students.

Trial periods
DCL GEN-11-12
**Conditional acceptance examples**

1. Guerrero University allows students to take graduate courses before they have taken the GRE, but it limits them to no more than three courses and does not admit them into its graduate programs until they have submitted acceptable GRE scores. They aren’t regular students, and since the school hasn’t admitted them, they aren’t eligible for FSA funds.

2. When Park University accepts students into its graduate programs, it requires that the students receive no grade lower than a “B” in the first three courses. During this time the school considers students to be admitted into the program, so they are eligible for FSA. If, however, students receive a grade lower than a B in any of the first three classes, their admittance will be withdrawn and they then will be ineligible for FSA funds.

**Continuing education examples**

1. Park University has a continuing education department that offers many online (telecommunications) courses that students in other departments of the school may take and that apply to the degree or certificate program the students are enrolled in. These are regular students who are eligible for FSA funds.

2. Guerrero University has a continuing education department that offers many courses. Some students enroll in these courses without being admitted to the university. They are not regular students and are not eligible for FSA funds.

**Remedial coursework**

Remedial coursework prepares a student for study at the postsecondary level (compare with preparatory coursework, which prepares a student for a given program), and a student enrolled solely in a remedial program is not considered to be in an eligible program. If acceptance into an eligible program is contingent on completing remedial work, a student cannot be considered enrolled in that program until she completes the remedial work.

However, if the student is admitted into an eligible program and takes remedial coursework within that program, he can be considered a regular student, even if he is taking all remedial courses before taking any regular courses. You may count up to one academic year’s worth of these courses in his enrollment status for federal aid. For the purpose of this limit, that is 30 semester or trimester hours, 45 quarter hours, or 900 clock hours. If the remedial classes are non-credit or reduced-credit, you must determine how many credit hours they are worth to count in the student’s enrollment (see “Enrollment status” on page 15).

A remedial course cannot be below the educational level needed for a student to successfully pursue her program after one year in that course. Also, remedial courses must be at least at the high school level, as determined by the state legal authority, your school’s accrediting agency, or the state agency recognized for approving public postsecondary vocational education. If that agency determines that a remedial class is at the elementary level, the school must abide by that determination, and the class cannot be included for FSA purposes. Nor can FSA funds be used for a remedial course that uses direct assessment of student learning instead of credit or clock hours.

You can’t use non-credit remedial hours to determine a student’s enrollment status if the course is part of a program that leads to a high school diploma or its recognized equivalent. A student is never permitted to receive funds for GED training or for coursework prior to the completion of high school, even if the GED or high school training is offered at postsecondary schools or is required for the postsecondary program.

Similar to other remedial coursework, a student may receive FSA funds for ESL courses that are part of a larger eligible program. There are differences though: ESL courses don’t count against the one-year limitation on remedial coursework mentioned above, and they need not be at the secondary school level.

If your school permits a student to enroll in ESL or other remedial courses that don’t apply to his degree or certificate, be aware that awarding FSA loans over a series of semesters for such work can exhaust his eligibility for FSA loans before he completes his program.

**Preparatory coursework**

A student not enrolled in a degree or certificate program is eligible for Stafford and PLUS loans for up to one year if she is taking coursework necessary for enrollment in an eligible program. See the discussion under Stafford and PLUS loans beginning on page 69.
**Teacher certification coursework**

A student may receive Federal Work-Study (FWS) and Stafford, Perkins, and PLUS loans if he is enrolled at least half time in required teacher certification coursework, even if it does not lead to a degree or certificate awarded by the school. To qualify, the coursework must be required for elementary or secondary teacher certification or recertification in the state where the student plans to teach and must be offered in credit or clock hours (courses using direct assessment in lieu of credit or clock hours are not eligible). Optional courses that the student elects to take for professional recognition or advancement, and courses recommended by your school but not required for certification, do not qualify. You should document that the courses are required by the state for teacher certification.

A student with a bachelor’s degree who is enrolled in a postbaccalaureate teacher certification program can receive a Pell grant in limited situations. See page 68.

**Students with intellectual disabilities**

Students with an intellectual disability (see margin note) can receive funds from the Pell Grant, FSEOG, and FWS programs. They must be enrolled or accepted for enrollment in a comprehensive transition and postsecondary program for students with intellectual disabilities and must maintain satisfactory academic progress as determined by the school for this program. These students

- do not have to be enrolled for the purpose of obtaining a degree or certificate, and
- are not required to have a high school diploma or its recognized equivalent or to have passed an ability-to-benefit (ATB) test.

Except the statutes governing need analysis, the Secretary has the authority to waive any Pell grant, FSEOG, FWS, or institutional eligibility provisions necessary to ensure that programs enrolling these students are eligible for Federal Student Aid and that eligible students receive those funds.

**ELEMENTARY OR SECONDARY ENROLLMENT**

A student enrolled in elementary or secondary school is not eligible for aid from the FSA programs, even if she is simultaneously enrolled in an eligible college program. A student is considered to be enrolled in secondary school if she is pursuing a high school diploma or if she has completed the requirements for a diploma, has not yet received it, and either she is taking college coursework for which her high school gives credit or her high school still considers her to be enrolled there.

An adult pursuing a GED (not a high school diploma) is not considered to be enrolled in secondary school. However, as stated earlier, a student can’t get aid for GED training, though he can receive aid for other college courses if he meets ability-to-benefit, homeschool, or high school equivalent requirements. An adult can take a course offered by a high school, such as a driver’s education course, without being considered enrolled there.

**Students with intellectual disabilities**

HEA Sec. 484(s), 34 CFR 668.230–233

Students who
- 1) have mental retardation or a cognitive impairment characterized by significant limitations in intellectual and cognitive functioning and adaptive behavior as expressed in conceptual, social, and practical adaptive skills; and
- 2) are currently or were formerly eligible for special education and related services under the Individuals with Disabilities Education Act (IDEA) (20 U.S.C. 1401), including students who were determined eligible for special education or related services under the IDEA but were homeschooled or attended private school.

See 668.233(c) for documentation requirements.

20 U.S.C. 1091, 1140

1 As defined in 668.231.

**Elementary/secondary enrollment**

HEA Sec. 484(a)(1), 34 CFR 668.32(b)

**Secondary school enrollment examples**

Lida is a junior in high school and enrolls in an electronics technician program at Lem Community College (she is above the age of compulsory school attendance for her state and so can be admitted as a regular student at LCC). The coursework is offered evenings and weekends, so she can still attend her high school classes. The electronics technician program is an eligible postsecondary program, and Lida will receive a certificate from Lem when she completes the program. However, she is not eligible for aid because she is still enrolled in high school.

Owen, a regular student at Guerrero University, decides to take a driver’s education course at the local high school during the summer. This does not mean he is enrolled in secondary school.
To receive FSA funds, a student must be qualified to study at the postsecondary level. A student qualifies if she:

- has a high school diploma (this can be from a foreign school if it is equivalent to a U.S. high school diploma);
- has the recognized equivalent of a high school diploma, such as a general educational development or GED certificate;
- has completed homeschooling at the secondary level;
- has passed a Department-approved ability-to-benefit test; or
- has satisfactorily completed six credits or 225 clock hours of college work that are applicable to a degree or certificate offered by the school.

A student may self-certify on the FAFSA that he has received a high school diploma or GED or that he has completed secondary school through homeschooling as defined by state law. If a student indicates that he has a diploma or GED, your school isn’t required to ask for a copy—except as noted below—but if your school requires one for admission, then you must rely on that copy of the diploma or GED and not on the student’s certification alone.

**Checking the validity of a high school diploma**

Beginning with 2011–2012, if a college or the Department has reason to believe that the high school diploma is not valid or was not obtained from an entity that provides secondary school education, the college must evaluate the validity of the student’s high school completion. Students who indicate on their FAFSA that they graduated high school must give the name, city, and state of the high school. FAFSA on the Web will not allow students to skip these items, and it will have a drop-down list of both public and private high schools populated by the National Center for Education Statistics (NCES). Inclusion on the list does not mean that a diploma from the school is valid, nor does exclusion from the list mean that the diploma is invalid. Note also that diplomas from unaccredited high schools can be valid and qualify students to receive FSA funds as well as to meet college admission standards.

Acceptable documentation for checking the validity of a student’s high school completion can include the diploma and a final transcript that shows all the courses she took. For students who completed their secondary schooling outside the United States, comparable documents can help, as can the services of companies that determine the validity of foreign secondary school credentials. Another resource is the state department of education in which the high school is located, if that department has jurisdiction over the high school. Colleges are also free to consult with each other as they develop their procedures for checking the validity of high school diplomas.

For 2011–2012 the ISIR will not provide any more information than what the student submitted on the FAFSA, though in the future the ISIR may indicate that the Department considers a student’s high school questionable and in need of validation by the college. We do not expect colleges to check the high school data for every student against other information obtained by
the college during admissions, but if it has reason to believe the high school diploma is dubious—e.g., the college knows the student bought the diploma or transcript and was required to perform little or no work—it must validate the diploma.

A student’s self-certification is not sufficient to validate the high school diploma that is in question. Students who have, for example, passed an ATB test or earned a GED do not need to have a high school diploma, but it should be remembered that for a college to be an eligible institution, it must admit as regular students only those with a high school diploma or the recognized equivalent or who are beyond the age of compulsory school attendance.

As in other areas of FSA administration, colleges have final authority in meeting this requirement. The Department does not plan to have an appeal process or to intervene in reasonable judgments of college administrators, such as a decision to move a high school from a college’s acceptable to unacceptable list or a case where one college has different lists than another.

Equivalents to a high school diploma

The Department recognizes several equivalents to a high school diploma:

- A GED;

- A certificate demonstrating that the student has passed a state-authorized examination (for example, the California High School Proficiency Exam) that the state recognizes as the equivalent of a high school diploma;

- An academic transcript of a student who has successfully completed at least a two-year program that is acceptable for full credit toward a bachelor’s degree; or

- For a student who enrolls before completing high school, a transcript indicating the student has excelled in high school. The student must no longer be enrolled in high school, must satisfy your school’s written policy for admitting such students, and must be starting a program that leads at least to an associate’s degree or its equivalent.

Homeschooling

Though homeschooled students are not considered to have a high school diploma or equivalent, they are eligible to receive FSA funds if their secondary school education was in a homeschool that state law treats as a home or private school. Some states issue a secondary school completion credential to homeschoolers. If this is the case in the state where the student was homeschooled, she must obtain this credential in order to be eligible for FSA funds. She can include in her homeschooling self-certification (see above) that she received this state credential.

An eligible institution is defined in part as one that admits as regular students only those who have a high school diploma or equivalent or are beyond the compulsory age of attendance for the school’s state. For students who finish homeschooling at a younger age, the Department considers them
to be beyond the age of compulsory attendance if your school’s state would not require them to further attend secondary school or continue to be homeschooled. See also Volume 2, Chapter 1.

**Ability-To-Benefit (ATB) test**

Students who do not have a high school diploma or equivalent and did not complete secondary school in a homeschool setting can still qualify for FSA funds by passing an “ability-to-benefit” test.

All test administrators must be certified, and students whose native language is not English are not able to use an unapproved test in their native language in place of an ATB test. Because we don’t expect a Spanish language test will be approved by July 1, 2011, the Department will not enforce that provision until a Spanish ATB test is approved. In the meantime, schools can operate under the previous regulations, which allowed that when no test is reasonably available for students whose native language is not English and who are enrolled in a program taught in their native language, any test in their language may be considered approved as long as:

- the test has not been rejected previously by the Department,
- the test measures basic verbal and quantitative skills at the secondary school level, and
- the passing scores and method of determining the passing scores are fully documented.

**Administration of tests.** Only a certified test administrator can proctor an ATB test. Contact the test publisher to find certified test administrators. They may include high school guidance counselors, test and measurement experts, human resource development professionals, qualified professional educators, or regional Armed Forces Command staff who are experts in education, training, and human resource development.

A test must be independently and properly administered. It is independently administered if given at an assessment center by an employee who is a certified administrator or given by an independent test administrator who keeps the test at a secure location and submits within two business days to the publisher or state either the test for scoring or, for a computerized test, the record of the test score. A school may not compromise test security or procedures or interfere with the administrator’s independence, nor may it pay him a bonus or any other incentive based upon the scores or pass rates of students taking the test.

A test is properly administered if the administrator is certified by the publisher or the state; if he administers the test according to its instructions and only to a test taker at a regularly scheduled time; and he secures the test against disclosure or release and submits to the publisher or state, as applicable, either the completed test for scoring or, for a computerized test, the record of the test score. This submission must be within two business days for independent test administrators. Assessment centers that score the test (which is the case unless they have made an agreement with the publisher...

</tbody>
</table>

or the state) must provide weekly all copies of the completed test or a report with the scores of all test takers and the schools to which those were sent; in either case, the center must include the name and address of the test administrator as well as any identifier given to him by the test publisher or the state. Assessment centers must promptly notify the school and student of his score and whether he passed the test.

Schools must keep for each person who took an ATB test a record that includes the name of the test and the date she took it, her score(s), the name and address of the test administrator, as well as any identifier given to him by the test publisher or the state. The report must also indicate whether a test taker had a disability and was unable to be evaluated with an approved ATB
ATB definitions

Assessment center—A facility that
1. is located at an eligible school that provides two- or four-year degrees or is a postsecondary vocational institution;
2. is responsible for gathering and evaluating information about students for multiple purposes, including course placement;
3. is independent of admissions and financial aid processes at the school;
4. has professionally trained staff;
5. uses test administrators (see definition below) to proctor ATB tests; and
6. does not have as its primary purpose the administration of ATB tests.

Independent test administrator—A test administrator at a location other than an assessment center who
1. has no current or prior financial or ownership interest in the school, its affiliates, or its parent corporation, other than the fees earned for administering approved ATB tests, and who has no controlling interest in any other school;
2. is not a current or former employee of or consultant to the school, its affiliates, its parent corporation, a person in control of another school, or a family member of any of these persons;
3. regarding the school, its affiliates, its parent corporation, or any other school, is not a current or former: member of the board of directors, employee of or consultant to a member of the board of directors, the chief executive officer, or the chief financial officer, and is not a member of the family of any of these individuals; and
4. is not a current or former student of the school.

An independent test administrator may not score a test.

Individual with a disability—A person who has a physical or mental impairment that substantially limits one or more major life activities.

Test administrator—A person who is certified by a test publisher (or state in the case of an approved state test) to administer its ATB test in accord with the instructions, including protecting the test and results from improper disclosure, and who is not compensated on the basis of test outcomes.

test or she requested or required accommodations, documentation of her disability, and the arrangements that were provided.

You don’t have to always use the same test; you can pick the one most suitable for each student. Also, a person who fails a test may not retake the same form of the test for the period prescribed by the publisher or the state.

Administering tests for non-native English speakers and the disabled.

For someone whose native language is not English and who is not fluent in it, the test a school must use depends on which of the following situations prevails:

- A student enrolling in a program given entirely in his own language must take a test approved under 34 CFR 668.146 and 148(a)(1).
- A student enrolling in a program that is taught in English with an ESL component must take an English language proficiency assessment approved under 668.148(b)—such as the CELSA or the ESL Placement Test—and, before beginning the portion of the program taught in English, a test approved under 668.146.
- A student enrolling in a program taught in English without an ESL component or he does not enroll in any ESL component that is offered must take a test in English approved under 668.146.
- A student enrolling in an ESL program must take an ESL test approved under 668.148(b).
- A student enrolling in a program taught in his native language that either has an ESL component or a portion that is taught in English must take an English proficiency test approved under 668.148(b) before beginning the portion of the program taught in English.

Persons with disabilities must use a test described in 668.148(a)(2) or 149(a) that reflects the student’s skills and learned abilities. The administrator must ensure that documentation supports that the person has a disability and requires accommodations, such as taking extra time or a quiet room, for taking an approved test or is unable to be evaluated by an approved test. Documentation of a disability can be a written determination by a licensed psychologist or physician that includes a diagnosis and, if available, information about testing accommodations or a record of the disability from a local or state educational agency or another government agency, such as the Social Security Administration, or a vocational rehabilitation agency. This record might include a diagnosis and recommended testing accommodations.

Counting previous test results and school accountability. A student who has taken an approved, independently administered test must have the test publisher or the assessment center submit the official score to the school to demonstrate the student’s ability to benefit. If you accept the results of a previously administered test, you must obtain documentation (usually through the previous school) that the test and its administration met federal requirements. Test scores are valid for ATB purposes indefinitely.
A school is liable for FSA funds disbursed to a student if his eligibility was determined by using a test that was not administered independently, if the school or its employee compromised the testing process in any way, or if the school cannot document that the student received a passing score on an approved test.

**SATISFACTORY ACADEMIC PROGRESS (SAP)**

To be eligible for FSA funds, a student must make satisfactory academic progress, and your school must have a reasonable policy for monitoring that progress. The Department considers a satisfactory academic progress policy to be reasonable if it meets the criteria explained in this section.

The policy must be at least as strict as that for students who are not receiving FSA funds at your school, and it must apply consistently to all educational programs and to all students within categories, e.g., full-time, part-time, undergraduate, and graduate students. It must require an academic progress evaluation at the end of each payment period for students in programs lasting one year or less, and for all other programs at least annually and corresponding with the end of a payment period.

**Grades and pace of completion**

The policy must specify the qualitative standard (grade point average or GPA) that a student must have at each evaluation or, if GPA is not an appropriate qualitative measure, a comparable measure against a norm. Students enrolled in a program of more than two academic years must have a GPA of at least a “C” or its equivalent or must have an academic standing consistent with your school’s graduation requirements.

Having a standing consistent with the requirement for graduation means you could use an escalating GPA instead of a fixed one. For example, if your school uses a 4-point scale, it could require students to have a 2.0 average by graduation but allow their average to be lower earlier in their program. If your policy permits such a progression and a student falls below a C average, you must be able to document that her average is consistent with the academic standard required for graduation.

Your policy must specify the quantitative standard (pace) at which students must progress through their program to ensure that they will graduate within the maximum timeframe, and each academic progress check must measure this. You calculate the pace at which a student is progressing by dividing the total number of hours the student has successfully completed by the total number he has attempted. You don’t have to include remedial courses.

Checking a student’s pace of completion allows for variations of enrollment status since you look at the percentage of classes successfully completed rather than the number. Also, you can use a graduated completion percentage for each year of a program. For instance, your policy can permit students to complete a lower percentage of their classes in the first academic year but require them to complete an increasing percentage in subsequent years so that they finish their program in time.

**Satisfactory Academic Progress**

HEA Sec. 484(c), 34 CFR 668.16(e)
34 CFR 668.32(f)
34 CFR 668.34

As with the ATB regulations, the SAP regulations were rewritten in 2010 and appear in the October 29, 2010, Federal Register.

**Satisfactory progress definitions**

**Appeal**—A process by which a student who is not meeting SAP standards petitions the school for reconsideration of his eligibility for FSA funds.

**Financial aid probation**—A status a school assigns to a student who is failing to make satisfactory academic progress and who successfully appeals. Eligibility for aid may be reinstated for one payment period.

**Financial aid warning**—A status a school assigns to a student who is failing to make satisfactory academic progress. The school reinstates eligibility for aid for one payment period and may do so without a student appeal. This status may only be used by schools that check SAP at the end of each payment period and only for students who were making SAP in the prior payment period.

**Maximum timeframe**—

• For an undergraduate program measured in credit hours, a period no longer than 150 percent of the published length of the program.
• For an undergraduate program measured in clock hours, a period no longer than 150 percent of the published length of the program as measured by the cumulative number of clock hours the student is required to complete and expressed in calendar time. (Note that a student in a clock hour program cannot receive aid for hours beyond those in the program; the maximum timeframe applies to the amount of calendar time the student takes to complete those hours.)
• For a graduate program, a period the school defines that is based on the length of the program.
Grades for test-based credits
Some schools have developed tests in accord with their academic standards, such as language proficiency tests, that students can take and receive course credit for. If such credits count toward the student’s program, the grades for those credits count in the student’s GPA for all FSA purposes.

Your policy must explain how GPA and pace of completion are affected by course incompletes, withdrawals, and repetitions, and by transfer credits from other schools. At a minimum, transfer credits that count toward the student’s current program must count as both attempted and completed hours. You may have reasonable rules for students who initially enroll in specific courses but modify that enrollment within a limited time. However, your policy cannot exclude from the progress review courses in which a student remained past the add/drop period and earned a grade of “W” (or its equivalent), nor can it routinely exclude certain hours attempted, such as those taken during a summer session.

Generally all periods of the student’s enrollment count when assessing progress, even periods in which the student did not receive FSA funds. However, your policy may permit that for students who change majors, credits and grades that do not count toward the new major will not be included in the satisfactory progress determination. You may limit how many times a student can in this way “reset” academic progress by changing majors.

If a satisfactory progress check shows that a student does not have the required GPA or is not maintaining the required pace, she becomes ineligible for FSA funds unless she is placed on financial aid warning or probation, as explained below. Your policy must describe both of these statuses if it allows for them, and it must provide for notification to students of the results of any evaluation that affects their eligibility for FSA funds.

Financial aid warning
Only schools that check satisfactory progress at the end of each payment period may place students on financial aid warning as a consequence of not making satisfactory progress. A school may do this without appeal or any other action by the student. Warning status lasts for one payment period, during which the student may continue to receive FSA funds. Students who are still failing to make satisfactory progress after the warning period lose their aid eligibility unless they successfully appeal and are placed on probation. Schools do not need to have warnings; they can instead require students to immediately appeal to be placed on probation.

Appeals, financial aid probation, and academic plans
All schools can have financial aid probation in their satisfactory progress policy. When a student loses FSA eligibility because he failed to make satisfactory progress, he may appeal that result on the basis of: his injury or illness, the death of a relative, or other special circumstances. His appeal must explain why he failed to make satisfactory progress and what has changed in his situation that will allow him to make satisfactory progress at the next evaluation. You can grant his appeal and put him on probation if you determine that he should be able to meet the standards after the subsequent payment period or if you develop an academic plan that, when followed, will ensure that he will meet the standards by a specific time. Students who fail the satisfactory progress check after the end of the probationary payment period may only continue to receive aid if they successfully appeal, you develop an academic plan for them, and they are meeting its requirements.

Your school determines the process and documentation required for an appeal. It may decide to require more extensive information on an initial ap-
The regulations do not specify what must be included in an academic plan. The school and the student should develop a plan that ensures that the student is able to meet the school’s satisfactory progress standards by a specific time, though an academic plan could instead take the student to successful program completion. Students must also appeal to change their plan. They must explain what has happened to make the change necessary and how they will be able to make academic progress.

**Reestablishing aid eligibility**

Your policy, even if it does not permit appeals, must explain how students who are not making satisfactory academic progress can restore their eligibility for FSA funds. Other than when a student is placed on financial aid warning or probation or has agreed to an academic plan as outlined above, he can regain eligibility only by taking action that brings him into compliance with your school’s satisfactory progress standards.

The requirement that a student complete a number of credits or enroll for a number of academic periods without receiving FSA funds, or that he interrupt his attendance for one or more academic periods, may be part of your academic progress policy. However, neither paying for one’s classes nor sitting out for a term affects a student’s academic progress standing, so neither is sufficient to reestablish aid eligibility.

<table>
<thead>
<tr>
<th>Satisfactory Academic Progress Examples: One-Year Programs</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>One-year credit-hour program with financial aid warning:</strong> Sarven Technical Institute has a program that a full-time student can complete in 24 semester hours. Because this is a one-year program, Sarven must check SAP every payment period. Their policy is that students must complete the program by the time they have attempted 36 (150% of 24) hours, and the pace of completion is 2/3 or 66.67%. They require a 2.0 GPA at all times. Suzie plans to take two classes (eight hours) each semester. In the first term she fails one class and gets a B in the other. Her GPA is 1.5 and her pace of completion is 50%, so Sarven automatically places her on financial aid warning and informs her of this. In her second semester, Suzie gets a C (in the class she failed in the first semester) and an A, raising her GPA to 2.25 (Sarven counts all grades for re-taken classes), and she has completed 75% of her classes, so she restores her aid eligibility.</td>
</tr>
<tr>
<td><strong>Clock-hour program with appeal:</strong> Frisson Community College has a 900-clock-hour program that normally takes eight months to complete. Frisson allows a maximum timeframe of 12 months to complete the program, and students must complete at least 300 clock hours every four months and maintain a 2.0 GPA. Because the program is so short and financial aid warnings would delay a rigorous review of students’ academic performance until late in (or the end of) the program, Frisson decides not to use warnings. Instead, it requires students to submit an appeal when they are not meeting SAP standards. After the first four months, Jerry’s GPA is 3.0, but he completes only 250 of the 300 clock hours that were required. Frisson informs him that he must submit an appeal to continue to receive FSA funds. Jerry tells the administrator that he was diagnosed with depression, which prevents him from doing as much as he’d like. He provides a note from his psychiatrist and affirms that he is doing better since he has gotten regular treatment. The administrator grants his appeal and puts him on financial aid probation since he determines that Jerry can finish the program in the remainder of the year. She drafts a plan that allows him some flexibility in his pace of completion and that requires him to check with her once a month to inform her of his progress in his classes. After four more months, Jerry’s GPA is 3.3, and he has completed 580 hours out of the 600 required under Frisson’s published SAP policy, which would normally make him ineligible for FSA funds. But because he is progressing according to his personal SAP plan and is predicted to complete the program within the maximum timeframe, he may still receive aid.</td>
</tr>
</tbody>
</table>
Four-year credit-hour program with appeal: Students in a bachelor’s degree program at Brandt College must complete 120 credits and may attempt up to 180 credits (120 x 150%). Brandt reviews a student’s academic progress once per year and has a pace of completion of 2/3 or 66.67% of the classes that students attempt; it requires a cumulative GPA of 1.50 after the first year, 1.75 after the second year, and 2.0 after the third year and beyond.

In his first semester, Homer fails one and withdraws (late in the term) from one of his five courses (15 credits). He takes four courses in his second semester and again fails one and withdraws from one. Though his GPA is 1.71, he isn’t making SAP by the end of the first year because he completed only 15 credits out of the 27 he attempted, and two thirds of 27 is 18. Homer applies for an appeal, but because his only reason for not making SAP is that he wasn’t able to concentrate on college after being in high school, and because he doesn’t offer evidence showing what has changed, the aid administrator at Brandt denies his appeal, and he is ineligible for aid in his second year.

Even if Homer had a more convincing reason for failing at SAP, such as being injured in a car accident, the administrator might still have denied his appeal because she saw little improvement or variation in Homer’s pace of completion and did not determine that he would likely be making SAP a year later. If Homer’s academic performance improves by the end of his second year so that he is meeting the SAP criteria, he can again receive FSA funds.

Four-year credit-hour program with warning and appeal: Krieger University checks SAP every quarter, which permits it to use financial aid warnings. Students must complete 144 credit hours to receive a BA or BS degree, and they may attempt up to 216 credit hours to complete a program. Students must complete at least half of the credits they attempt in their first year and 75% of their credits in each year after that. They must have no less than a 2.0 GPA at all times.

Gina finishes her first year at Krieger with a 2.25 GPA and completes all of the credits that she attempts, so she is making SAP. After the first quarter in her second year, she again completes all of her classes but poor grades leave her with a 1.94 GPA. The aid administrator places her on financial aid warning for one quarter and informs her that she is not meeting the SAP standards. Gina does poorly in the next quarter as well, and her GPA drops to 1.85. The aid administrator informs her that she can’t continue on warning status and needs to submit an appeal explaining why she is failing to make SAP and why she thinks that will change and allow her to again make SAP.

Gina brings the administrator an obituary showing that her mother died recently, which required that she help with family affairs and caused her to lose her focus at school. She asserts that is over now. The administrator places her on probation and suggests that she might take fewer courses. But Gina enrolls full time and again receives poor grades, causing her GPA to drop to 1.80. The administrator informs Gina that she has become ineligible for FSA funds but that she can become eligible again if she raises her GPA to 2.0 or that she can submit another appeal and this time request to be placed on an academic plan.
ENROLLMENT STATUS

A student must be enrolled at least half time to receive aid from the Stafford and PLUS loan programs. The Pell, TEACH Grant, and Campus-based programs don’t require half-time enrollment, except for postbaccalaureate Pell grants for teacher education and Perkins and FWS for students enrolled in a program for a teaching credential. But enrollment status does affect the amount of Pell a student receives; see Volume 3.

To be enrolled half time, a student must be taking at least half of the course load of a full-time student. Your school defines a full-time workload, but it must meet the minimum standards in the FSA regulations. The definition of full time for FSA purposes can differ from that used for other purposes at your school, such as the definition used by the registrar’s office.

Your definition of a full-time workload for a program must be used for all students in that program and must be the same for all FSA-related purposes, including loan deferments. You can’t accommodate a student with a learning disability or other handicap by allowing her a full-time enrollment status lower than the minimum standard (see the margin note on students with intellectual disabilities).

▼ Minimum standards for full-time enrollment. Students’ workload may include any combination of courses, work, research, or special studies that your school considers sufficient to classify them as full time. This includes, for a term-based program, one repetition of a previously passed course that is not due to the student failing other coursework. The regulations specify a minimum standard for undergraduate students but not for graduate students. For undergraduates, full-time status must be at least:

- 12 semester hours or 12 quarter hours per academic term in an educational program using a semester, trimester, or quarter system;
- 24 semester hours or 36 quarter hours per academic year for an educational program using credit hours but not using a semester, trimester, or quarter system, or the prorated equivalent for a program of less than one academic year;
- 24 clock hours per week for an educational program using clock hours;
- a series of courses or seminars equaling 12 semester or quarter hours over a maximum of 18 weeks;
- for a program that measures credit hours and uses nonstandard terms, the number of weeks of instruction in the term divided by the number of weeks of instruction in the academic year, multiplied by the number of credit hours in the academic year;
- the work portion of a cooperative education program in which the amount of work performed is equivalent to the academic workload of a full-time student; or
- for correspondence work, a course load commensurate with the definitions listed above, and at least half of that load must be

Counting non-credit or reduced-credit remedial work

A student can receive aid for a limited amount of remedial coursework that is included as part of a regular program. As long as the student qualifies for aid for remedial courses, you must include the remedial courses in the student’s enrollment status.

Some schools give no credit or reduced credit for remedial classes. To determine enrollment status, credit hours for the remedial class should be the same as for the comparable full-credit class. If you’re using credit hours, you can compare the number of classroom and homework hours of study that the remedial course requires with the hours required for similar courses offered for full credit. Clock-hour schools should use the number of classroom hours attended in the remedial program.

Enrollment status for students with intellectual disabilities

Because a comprehensive training program for students with intellectual disabilities can include work for which the school awards no credit, such as audited courses, the school must develop equivalencies in credit hours for such work, just as it must do with non-credit remedial coursework. This will allow the school to determine the enrollment status for students in these programs.
non-correspondence coursework that meets half of the school’s requirement for full-time students.

Your school must have a written policy stating what enrollment status the work portion of a co-op program is equivalent to. If it equals a full-time academic load, the co-op student is considered full time regardless of how many credits are earned for the co-op work.

A student taking only correspondence courses is never considered to be enrolled more than half time. See Volume 3 for more on Pell and enrollment status and correspondence courses.

If a student is enrolled in courses that do not count toward his degree, they cannot be used to determine enrollment status unless they are eligible remedial courses. This means you cannot award the student aid for classes that do not count toward his degree or certificate. Also, Federal Student Aid can be awarded only for learning that results from instruction provided or overseen by the school. It cannot be awarded for any portion of a program based on study or life experience prior to enrollment in the program, or based on tests of learning that are not associated with educational activities overseen by the school.

**STUDENTS CONVICTED OF POSSESSION OR SALE OF DRUGS**

A federal or state drug conviction can disqualify a student for FSA funds. The student self-certifies in applying for aid that he is eligible; you’re not required to confirm this unless you have conflicting information.

Convictions only count if they were for an offense that occurred during a period of enrollment for which the student was receiving Federal Student Aid—they do not count if the offense was not during such a period. Also, a conviction that was reversed, set aside, or removed from the student’s record does not count, nor does one received when she was a juvenile, unless she was tried as an adult.

The chart below illustrates the period of ineligibility for FSA funds, depending on whether the conviction was for sale or possession and whether the student had previous offenses. (A conviction for sale of drugs includes convictions for conspiring to sell drugs.)

<table>
<thead>
<tr>
<th></th>
<th>Possession of illegal drugs</th>

</tr>
<tr>
<td>2nd offense</td>
<td>2 years from date of conviction</td>
<td>Indefinite period</td>
</tr>
<tr>
<td>3+ offenses</td>
<td>Indefinite period</td>
<td></td>
</tr>
</tbody>
</table>
If the student was convicted of both possessing and selling illegal drugs, and the periods of ineligibility are different, the student will be ineligible for the longer period.

Schools must provide each student who becomes ineligible for FSA funds due to a drug conviction a clear and conspicuous written notice of his loss of eligibility and the methods whereby he can become eligible again.

A student regains eligibility the day after the period of ineligibility ends or when he successfully completes a qualified drug rehabilitation program or passes two unannounced drug tests given by such a program. Further drug convictions will make him ineligible again.

Students denied eligibility for an indefinite period can regain it after successfully completing a rehabilitation program (as described below), passing two unannounced drug tests from such a program, or if a conviction is reversed, set aside, or removed from the student’s record so that fewer than two convictions for sale or three convictions for possession remain on the record. In such cases, the nature and dates of the remaining convictions will determine when the student regains eligibility. It is the student’s responsibility to certify to you that she has successfully completed the rehabilitation program; as with the conviction question on the FAFSA, you are not required to confirm the reported information unless you have conflicting information.

When a student regains eligibility during the award year, you may award Pell grant, TEACH, and Campus-based aid for the current payment period and Direct loans for the period of enrollment.

**Standards for a qualified drug rehabilitation program**

A qualified drug rehabilitation program must include at least two unannounced drug tests and satisfy at least one of the following requirements:

- Be qualified to receive funds directly or indirectly from a federal, state, or local government program.

- Be qualified to receive payment directly or indirectly from a federally- or state-licensed insurance company.

- Be administered or recognized by a federal, state, or local government agency or court.

- Be administered or recognized by a federally- or state-licensed hospital, health clinic, or medical doctor.

If you are counseling a student who will need to enter such a program, be sure to advise the student of these requirements. If a student certifies that he has successfully completed a drug rehabilitation program, but you have reason to believe that the program does not meet the requirements, you must find out if it does before paying the student any FSA funds.

**Drug abuse hold**

The Anti-Drug Abuse Act of 1988 includes provisions that authorize federal and state judges to deny certain federal benefits, including student aid, to persons convicted of drug trafficking or possession. The Central Processing System maintains a hold file of those who have received such a judgment, and it checks applicants against that file to determine if they should be denied aid. This is separate from the check for a drug conviction via question 23; confirmation of a student in the drug abuse hold file will produce a rejected application and a separate comment from those associated with responses to question 23. See the ISIR Guide on the IFAP publications page for more information.
INCARCERATED STUDENTS

A student is considered to be incarcerated if she is serving a criminal sentence in a federal, state, or local penitentiary, prison, jail, reformatory, work farm, or similar correctional institution (whether it is operated by the government or a contractor). A student is not considered to be incarcerated if she is in a half-way house or home detention or is sentenced to serve only weekends.

Incarcerated students are not eligible for FSA loans but are eligible for FSEOGs and FWS. They are also eligible for Pell grants if not incarcerated in a federal or state penal institution. See Chapter 6 for more information on this and on sex offenders who were incarcerated but are now subject to an involuntary civil commitment.

You may accept the student’s written self-certification that he is no longer incarcerated.

CONFLICTING INFORMATION

In addition to reviewing data provided by the Department’s application system and NSLDS (as discussed in the rest of this volume), your school must have an internal system to share information relevant to the student’s eligibility, such as his academic standing. The FSA program regulations require a school to develop an adequate system to ensure the consistency of any data related to a student’s application or eligibility for Federal Student Aid regardless of the source of that data. Your school is responsible for reconciling all inconsistencies that it receives with one exception: if the student dies during the award year, you aren’t required to resolve conflicting information.

If your school has conflicting information for a student or you have any reason to believe his application is incorrect, you must resolve such discrepancies before disbursing FSA funds. If you discover a discrepancy after disbursing FSA funds, you must reconcile the conflicting information and require the student to repay any aid for which he wasn’t eligible, unless he is no longer enrolled for the award year and will not re-enroll. Refer to the Application and Verification Guide and Volume 2, Chapter 3 for more information.

CHANGE IN STATUS

A student’s eligibility status can change during the award year, which almost always affects whether he can be paid. The special rules for changes in satisfactory academic progress status were discussed in the SAP section.

Gaining eligibility

A student who applies for aid by filling out a FAFSA is eligible for aid for the entire award year. A student who gains eligibility is one who was previously ineligible for some reason. In general, she may receive Pell grant, TEACH, and Campus-based funds for the entire payment period and Stafford and PLUS loans for the period of enrollment in which she becomes eligible.
A student is eligible for Pell grant, TEACH, and Campus-based aid for the entire award year, not just the payment period, in which he becomes eligible by meeting the requirements for citizenship, valid Social Security number, or Selective Service registration.

**Losing eligibility**

A student cannot receive any Federal Student Aid after losing eligibility for it, unless he qualifies for a late disbursement.

---

**Gaining eligibility examples**

Allen enrolls in a one-year certificate program at Sarven Technical Institute. Sarven won’t officially admit Allen before he provides an academic transcript from his previous school, but it lets him start classes in the fall. Sarven receives Allen’s transcript after he’s attended for a month and officially admits him. He’s still in his first payment period when admitted, so he can receive Pell and campus-based funds for his entire period of enrollment. The school can also use the program length of one year as the period of enrollment for which Allen can receive a loan.

Chavo is finishing his senior year in high school; his classes end June 4. He decides to start classes in the winter at Sarven Technical Institute on January 11. The second payment period begins on May 17. Chavo isn’t eligible for aid when he first starts classes at Sarven. However, when he becomes eligible after June 4, Sarven can disburse Pell and campus-based funds to Chavo retroactively for the current payment period that started on May 17 (but not for the payment period that started in January) and a Stafford loan for the current period of enrollment, which does include the payment period that began in January.

---

**Losing eligibility example**

George is a student at Guerrero University. At the end of September, after the start of the fall term, he is convicted in a state court for possession of drugs. It is his first offense, and he isn’t incarcerated, but he is ineligible for aid. Guerrero gave George his first Direct subsidized loan disbursement at the beginning of the semester in September and was going to disburse a Perkins loan to him in October. Now Guerrero can’t disburse the Perkins loan. George doesn’t have to pay back the first disbursement of his Direct loan, but he can’t receive additional FSA funds until one year elapses or he successfully completes a qualified drug rehabilitation program.
Eligibility Requirements for Specific Educational Programs

See Volume 2, Chapter 2 for more information on the topics below. Note that a school may not refuse to provide FSA funds to a student because he is enrolled in correspondence or distance education courses unless they are not part of an eligible program.

**Correspondence courses**

A correspondence or “home study” course is one for which the school provides instructional materials and exams for students who don’t physically attend classes at the school and who are studying independently. When a student completes a portion of the materials, he takes the related exam and returns it to the school for grading. If the course uses video cassettes or discs, it is a correspondence course unless the school provides the same instruction to students who physically attend the school that year. Distance education courses are not considered correspondence courses.

A student enrolled in a correspondence course can only receive FSA funds if the course is part of a program that leads to an associate’s, bachelor’s, or graduate degree; if the program leads to a certificate, the student is not eligible for aid for that course. There are also restrictions regarding cost of attendance for correspondence courses; see Volume 3, Chapter 2.

HEA Sec. 484(k), 34 CFR 600.2, 34 CFR 668.38

**Distance education courses**

Distance education refers to instruction delivered to students who are separated from their instructor and in support of regular and substantive interaction between them, whether in real time or through time delay. Technologies used may include the Internet; one-way and two-way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, or wireless communications devices; audio conferencing; or, if used in conjunction with the previous technologies, video cassettes, DVDs, and CD–ROMs. If a course does not qualify as a distance education course, it is considered to be a correspondence course.

Students can receive FSA funds for distance education courses under these conditions: the courses must belong to an eligible program, and the school must have the capability to effectively deliver distance education programs as determined by an accrediting agency that is recognized by the Department and that has the evaluation of distance education programs within the scope of its recognition. Short-term certificate programs of less than one year offered via distance education are eligible for FSA funds, and they are not considered correspondence programs.

HEA Sec. 103 and 484(l), 34 CFR 600.2, 34 CFR 668.38

**Students studying abroad**

A student in a study-abroad program is eligible for aid if the program is approved for academic credit toward her degree by the eligible home school at which she is enrolled as a regular student. The home school must have a written agreement with the foreign school (or with another U.S. school that contracts with the foreign school) or a single written arrangement with a study-abroad organization to represent an agreement between the home school and the foreign school.

HEA Sec. 484(o), 34 CFR 668.39
A student has to be a citizen or eligible noncitizen to receive Federal Student Aid (FSA). In this chapter we describe how the student’s FAFSA information is matched with other agencies to determine citizenship status. We also describe immigration documents that you may have to collect to make sure that the student meets this requirement.

ELIGIBLE CATEGORIES

A student must be one of the following to be eligible to receive Federal Student Aid:

- A U.S. citizen or national;
- A U.S. permanent resident or other eligible noncitizen;
- A citizen of the Freely Associated States: the Federated States of Micronesia and the Republics of Palau and the Marshall Islands. These students can only receive aid from some of the FSA programs (see page 38).

The general requirement for eligible noncitizens is that they be in the U.S. for other than a temporary purpose with the intention of becoming a citizen or lawful permanent resident, as evidenced by the United States Citizenship and Immigration Services (USCIS) in the Department of Homeland Security (DHS). We use DHS throughout this chapter, and we also refer to USCIS since it is the actual agency that handles immigration matters and whose field offices you and your students might have to contact.

The Department of Education matches all applications with the Social Security Administration (SSA) to determine if the student is a U.S. citizen. If he provides an alien registration number (A-number or ARN) on the FAFSA, his record is also sent to DHS to check noncitizen status. The results of both matches appear on the Institutional Student Information Report (ISIR), and a failed match with either agency will produce a C code on the student’s output document.

A student’s citizenship status only needs to be checked once during the award year; if the status is eligible at that time, it remains so for the rest of the award year.

If a parent wants to take out a PLUS loan for a dependent undergraduate student, both the parent and the student must be U.S. citizens or nationals or eligible noncitizens.
Citizenship Match with the SSA

All applications are matched with Social Security records to verify name, date of birth, U.S. citizenship status, the Social Security number (SSN), and possible date of death (see Chapter 4). The CPS will reject the application for insufficient information if any of these items except the last is not provided. The result of this match is reported under SSA of the match flags on the ISIR and “SSA Citizenship Code” on the SAR.

If the student leaves the citizenship question on the FAFSA blank, the CPS will still attempt the citizenship match with the SSA. If there is a complete match with the student’s Social Security number, name, date of birth, and U.S. citizenship, the CPS will determine the student to be a citizen.

▼ Successful match. The SAR and ISIR will have a match flag (but no comment) indicating that the student’s status was confirmed.

▼ Data doesn’t match. If the student’s SSN, name, or date of birth doesn’t match SSA records, his citizenship status can’t be confirmed and a C code and a comment will appear on the output document. The student should correct the SSN, name, or date of birth (see Chapter 4 for more on SSN match problems) and submit it. The CPS will perform the match again, and you must see if the new ISIR confirms the student’s citizenship status; if it does, the C code will no longer appear.

▼ Citizenship not confirmed. The SAR and ISIR will include a C code and a comment (code 146) explaining that the SSA was unable to confirm the student is a citizen and that she needs to provide her financial aid office with documents proving citizenship. If she provides eligible noncitizen documentation, make a correction by entering her A-number on the ISIR, changing her citizenship status to eligible noncitizen, and submitting it to the CPS, which will attempt a match with DHS records to confirm the student’s status.

Note that U.S. citizens born abroad might fail the citizenship check with the SSA, unless they have updated their citizenship information (see “Updating status for citizens born abroad,” page 23).

U.S. Citizenship Documentation

If a student must prove his status as a citizen or national, you decide what documents are acceptable. The Department doesn’t specify them, but here are documents you might choose to use:

- A copy of the student’s birth certificate showing that she was born in the United States, which includes Puerto Rico (on or after January 13, 1941), Guam, the U.S. Virgin Islands (on or after January 17, 1917), American Samoa, Swain’s Island, or the Northern Mariana Islands, unless the person was born to foreign diplomats residing in the U.S.

- A U.S. passport, current or expired, except limited passports (which are typically issued for short periods such as a year and which don’t receive as much scrutiny as a regular passport when applying). In the case of nationals who are not citizens, the passport will be stamped “Noncitizen National.”
The State Department issues a wallet-sized passport card that can only be used for land and sea travel between the United States and Canada, Mexico, the Caribbean, and Bermuda. It is adjudicated to the same standards as the passport book and is therefore a fully valid attestation of the U.S. citizenship and identity of the bearer.

- A copy of Form FS-240 (Consular Report of Birth Abroad), FS-545 (Certificate of birth issued by a foreign service post), or DS-1350 (Certification of Report of Birth). These are State Department documents.

- A Certificate of Citizenship (N-560 or N-561), issued by USCIS to individuals who derive U.S. citizenship through a parent.

- A Certificate of Naturalization (N-550 or N-570), issued by USCIS through a federal or state court, or through administrative naturalization after December 1990 to those who are individually naturalized.

Older versions of the Certificate of Citizenship and of the Certificate of Naturalization instruct the holder not to photocopy them. The USCIS has advised the Department that these documents (and others) may be photocopied for lawful purposes such as documenting eligibility for FSA funds.

If the student’s documentation verifies that he is a citizen, you can disburse aid to him. Unlike the case of eligible noncitizens, you don’t submit the documents to the DHS or any other agency for verification, but you do need to keep a copy in the student’s file. The student should also contact the Social Security Administration to have it update its database—something all naturalized citizens should do—but he doesn’t have to do this to receive aid; in this case the C code can remain on his record.

**Updating status for citizens born abroad**

Students born abroad to U.S. citizens are also U.S. citizens, and their status is usually noted in the SSA’s database when they receive an SSN. But occasionally a student’s citizenship might not be correct, and such a student (for example, one born on a military base abroad) will fail the citizenship match even if he has a Social Security number. He can contact the SSA to have its database corrected.

Such students can document citizenship by providing a “Consular Report of Birth Abroad” (Form FS-240, which is proof of U.S. citizenship) or a “Certification of Report of Birth” (Form DS-1350, which is evidence of U.S. citizenship and equivalent to a birth certificate). If the birth of the student was registered with the American consulate or embassy in a foreign country before he turned 18, he can receive a copy of one of these by sending a written, notarized request to the address in the margin.

The student should provide his name given at birth, the date and location of birth, the parents’ names, available passport information, a return address, and a daytime phone number. The signature and a copy of valid photo identification of the requester must be included. For form FS-240 the student also has to include the original form (to exchange it) or a signed, notarized affidavit that the original was destroyed or lost. The FS-240 is $50, and the DS-1350 is $50 for each copy. This should be sent as a check or money order.
If the student is over 18 and the birth wasn’t registered, she can file a self-petition for a “Certificate of Citizenship” to any local USCIS office (Form N-600). Proof of the parents’ U.S. citizenship at the time of the student’s birth must be provided.

**NONCITIZEN MATCH WITH THE DHS**

The DHS assigns to all legal immigrants an A-number, which FSA uses to verify the immigration status of permanent residents and other eligible noncitizens. If the applicant indicates on the FAFSA that he is an eligible noncitizen and provides an A-Number, identifying information is sent to the DHS for primary (and, if necessary, secondary) verification.

The results of the match are shown by a match flag in the “FAA Information” section of the output document, under the heading “DHS” on the ISIR or “DHS Match Flag” on the SAR. There will also be a comment about the results on the output document.

Because all applications are matched with the SSA, an application with an A-number will be matched with both DHS and SSA records. If results are received from both matches, only those from DHS will display on the ISIR; the SSA results will be suppressed.

If a student leaves the citizenship question blank but provides an A-number, the CPS will attempt to match with DHS records. If the student leaves both the citizenship question and A-number blank, the CPS will reject the application. The output document will explain that SSA was unable to confirm that the student is a U.S. citizen. She must submit a correction with the citizenship status and A-number if she is an eligible noncitizen.

▼ *Successful match.* If the match confirms the student’s immigration status as an eligible one, he can receive aid if the other eligibility criteria are also met. Comment code 143 will appear on the SAR and ISIR, and the successful match results are documentation of the student’s eligibility. Of course, if you have other information about his status that seems to contradict the successful match result, you must resolve the conflict before paying the student (see “Conflicting Information” in Chapter 1).

▼ *Record was not sent to DHS.* The match won’t be attempted if the student left the citizenship question blank (comment code 068), if she said she was an eligible noncitizen but provided either no A-number or an illegible or invalid one (code 142), or if she changed her response to the citizenship question or changed her A-number after previous verification by the DHS (code 141). Instead, the student will receive a C code and a comment explaining the problem and directing her to provide the school with documentation of her eligibility. Compare the document with the SAR/ISIR to determine the appropriate action. If you or the student corrects the A-number and submits it so that the match can be conducted, and her eligibility is confirmed, the C code will not appear on the new ISIR. If a correction is not required,
the C code will remain, but you should put documentation in the student’s file as proof that her record is correct.

Note that students who are citizens of the Marshall Islands, the Federated States of Micronesia, and Palau won’t pass the DHS match because they don’t have A-numbers to report. While these students aren’t required to provide proof of their eligible noncitizen status, you may request their citizenship documentation and copy it for their record if necessary.

\[ \text{DHS has not yet confirmed the student’s noncitizen status. DHS will continue to check its records.} \]
The SAR and ISIR will have comment code 144 and a DHS match flag of “N” (for no match) and a DHS secondary confirmation match flag of “P” (indicating that the procedure is still in progress). The DHS will continue to check its records in a process called automated secondary confirmation. Within three days, the CPS should generate a SAR and ISIR showing one of the responses in the margin.

The school should wait at least five but no more than 15 business days for the result of automated secondary confirmation. If the result has not been received by that time, the school must begin the paper process.

A correction made while the DHS is conducting the automated secondary confirmation will start the process over, i.e., the correction will be sent through primary confirmation. Though unlikely, if the new primary confirmation match yields a “Y,” the transaction can be used to award aid. A correction made to a transaction that contains secondary confirmation results of “Y” or “C” (or a transaction with a primary confirmation result of “Y”) will not be sent through the DHS citizenship match again. Otherwise the record will be re-sent for matching.

**G-845 PAPER SECONDARY CONFIRMATION**

If the student didn’t pass automated secondary confirmation or if you have conflicting information about his immigration status after receiving a match result, you must use paper secondary confirmation. The student must give you unexpired documentation that shows he is an eligible noncitizen. If you determine the evidence is not convincing, he isn’t eligible for FSA funds. But if the documentation appears to demonstrate that he is an eligible noncitizen, you must submit it to the USCIS (in the DHS) to confirm it is valid. One exception to this applies to victims of human trafficking, as noted below.

You must always examine and copy original immigration documents, and you must keep a copy in the student’s file with the secondary confirmation results from the USCIS. While generally not permitted, you may legally photocopy immigration documents (such as Forms I-551 or I-94) when a person needs to prove his immigration status for a lawful purpose such as applying for Federal Student Aid.

**Eligible noncitizens and documentation**

- **Lawful permanent residents** are noncitizens who are legally permitted to live and work in the U.S. permanently. The standard document is the Permanent Resident Card (Form I-551 since 1997) or Resident Alien Card (Form I-551 before 1997). Both forms are referred to colloquially...
Use of copy of I-94 or I-94A
Note that a refugee or an asylee may apply for permanent-resident status. During the period in which the application is being reviewed, the student may have a copy of the I-94 that includes the endorsement “209a (or 209b) pending. Employment Authorized.” Students with this form of documentation are eligible for FSA funds as long as the I-94 has not expired.

Permanent residents may also present an Arrival/Departure Record (CBP Form I-94) or the Departure Record (Form I-94A, which is used at land border ports of entry) with the endorsement “Processed for I-551. Temporary Evidence of Lawful Admission for Permanent Residence. Valid until ____________. Employment Authorized.” The form will have an A-Number annotated on it and is acceptable if the expiration date has not passed.

The U.S. Department of State issues a machine readable immigrant visa (MRIV) in the holder’s passport. The MRIV will have a U.S. Customs and Border Protection (CBP) inspector admission stamp, and the statement “UPON ENDORSEMENT SERVES AS TEMPORARY I-551 EVIDENCING PERMANENT RESIDENCE FOR 1 YEAR” will appear directly above the machine readable section. An MRIV with this statement, contained in an unexpired foreign passport and endorsed with the admission stamp, constitutes a temporary I-551, valid for one year from the date of endorsement on the stamp.

The USCIS issues the United States Travel Document (mint green cover), which replaced the Reentry Permit (Form I-327) and the Refugee Travel Document (Form I-571). It is used by lawful permanent residents (as well as refugees and asylees) and is annotated with “Permit to Reenter Form I-327 (Rev. 9-2-03).”

If the student has an I-551 with a baby picture, she should update the I-551 with the USCIS. Permanent residents are expected to get a new picture and be fingerprinted at the age of 14. But you can submit the documents to USCIS and pay a student who has an I-551 with a baby picture as long as you can confirm that it belongs to the student. You can do this by comparing the I-551 to a current photo ID that has the student’s name, date of birth, and signature. The current ID must also be consistent with any identifying information in the student’s file.

A student who has an approved application for permanent residence on file with the USCIS and who is waiting for a permanent resident card may not have proof of her permanent resident status. She should contact her local USCIS office for the passport stamp or I-94 stamp described at the end of this chapter, as these are available to a student before the normal permanent resident documentation is issued. Note that an application for permanent resident status is not sufficient for determining eligibility for FSA funds.

If a person is applying to suspend deportation, she must request a hearing before an immigration law judge who will render an oral or written decision. If that is favorable, the USCIS will give the applicant a Form I-551, which will certify her lawful permanent resident status. There is no special category for persons who have been granted suspensions of deportation.
- **Conditional resident aliens** are eligible for aid if their documentation has not expired. They may have a valid I-551, I-94, I-94A, or a passport with an MRIV bearing the statement “Upon endorsement serves as temporary I-551 evidencing permanent residence for 1 year.”

The Marriage Fraud Amendments established a two-year conditional permanent resident status for alien spouses of U.S. citizens or legal immigrants whose marriage took place less than two years before the spouse applied for permanent resident status. This status may also apply to any of the spouse’s children who are aliens.

A Form I-551 of a conditional permanent resident alien is the same I-551 that is issued to regular permanent residents, except that the card for a conditional permanent resident expires in two years, as opposed to 10 years for the regular card. A conditional permanent resident must file a petition for removal of this restriction in the 90 days before the end of the two years. The USCIS will review the petition and, if the result of the review is satisfactory, drop the restriction and issue new documents.

For classes of eligible noncitizens other than permanent residents, evidence of their status typically is on the I-94, but other documents are also acceptable.

- **Refugees** are given indefinite employment authorization. Their status continues unless revoked by DHS or until lawful permanent resident status is granted, which refugees apply for after one year. They may have a Form I-94 or I-94A annotated with a stamp showing admission under Section 207 of the Immigration and Nationality Act (INA). They may also have the old Refugee Travel Document (Form I-571) or the newer U.S. Travel Document annotated with “Refugee Travel Document Form I-571 (Rev. 9-2-03).”

- **Persons granted asylum** in the United States are also authorized for indefinite employment, and they can apply for permanent residence after one year. Asylee status continues unless revoked by DHS or until permanent resident status is granted. Asylees will have an I-94 or I-94A with a stamp showing admission under Section 208 of the INA. They may also have the same travel documents described for refugees.

- **Persons paroled into the U.S. for at least one year** must provide evidence (such as having filed a valid permanent resident application) from the DHS that they are in the U.S. for other than a temporary purpose and intend to become a citizen or permanent resident. Their documentation must have a stamp indicating that the student has been paroled into the United States for at least one year, with a date that has not expired. (Federal Student Aid cannot be disbursed after the document has expired.)

- **Cuban-Haitian entrants** as defined by Section 501(e) of the Refugee Education Assistance Act (REAA) of 1980. These are Cubans who entered the United States illegally between April 15 and October 10, 1980, and Haitians who entered the country illegally before January 1, 1981.

### Jay Treaty

There is one unusual circumstance where you will need to collect documentation from the student without requiring secondary confirmation. Section 289 of the Immigration and Nationality Act (INA) gives persons with at least 50% Native American blood who were born in Canada the legal right to live and work in the United States. This is based on the Jay Treaty of 1794 and subsequent court decisions. Such individuals are not subject to the legal restrictions typically imposed on aliens by the DHS, are not required to obtain documentation from the DHS, and are considered “lawfully admitted for permanent residence.” They also are permitted to have an SSN, which they must enter on the FAFSA.

Because few FSA applicants are eligible under the INA, the FAFSA does not include a separate response for them. Therefore, a student eligible for FSA funds under the INA should report that she is an “eligible noncitizen” and fill in “A999999999” for the A-Number. She will fail the match, and a comment 144 will be printed on the output document. The school must obtain proof that the student has 50% Native American blood and was born in Canada. To do so, the student should provide one or more of the following documents:

- A “band card” issued by the Band Council of a Canadian Reserve, or by the Department of Indian Affairs in Ottawa;
- Birth or baptism records;
- An affidavit from a tribal official or other person knowledgeable about the applicant’s or recipient’s family history;
- Identification from a recognized Native American provincial or territorial organization.

If the student can provide one of the above forms of documentation and is otherwise eligible, the school must document the file and can award FSA funds.
1981. Students will have a stamp across the face of the I-94 indicating that they have been classified as a “Cuban-Haitian Entrant (Status Pending). Reviewable January 15, 1981. Employment authorized until January 15, 1981.” Note that a document showing that the holder is a Cuban-Haitian entrant is valid even if the expiration date has passed.

- **Conditional entrants** are refugees who entered the United States under the seventh preference category of P.L. 89-236 or whose status was adjusted to lawful permanent resident alien under that category. They had to have entered the U.S. prior to the enactment of the Refugee Act of 1980. Students may have an I-94 with a stamp displaying “Section 203(a)(7)” and indicating that the person was admitted to the United States as a conditional entrant. Because the predecessor of the DHS stopped using this category after March 31, 1980, you should not disburse FSA funds if the student has an I-94 with conditional entrant status granted after that date.

As of January 2005, the stamps mentioned use red and blue security ink: the date of admission is red, and the rest of the stamp is blue. The stamp contains three codes: the first is a two-digit code to the left of the date that designates the field office with jurisdiction over the port of entry. On most stamps this code will be two numbers and no letters. Letters are currently only used on HQ stamps. The three-letter code located under the word “ADMITTED” shows the port of entry. The third code, to the right of the date, is the stamp’s unique four-digit number. When referring to a particular stamp, the port of entry code and the stamp’s unique number should be used.

The endorsement or stamp can be placed anywhere on the I-94. If the original stamp does not copy well due to the ink color, you should replicate it by hand on the photocopy. Because CBP offices don’t have uniform procedures or stamps, you should contact the local office with questions regarding acceptable immigration documents.

- **Victims of human trafficking** have the same eligibility for federal benefits as refugees under the Victims of Trafficking and Violence Protection Act (VTVPA), though the Department of Health and Human Services (HHS), rather than the DHS, is responsible for certifying this status. Because of this, these students will not pass the DHS match, and the normal paper secondary confirmation does not apply. You must instead review the student’s certification or eligibility letter from the HHS and call the Office of Refugee Resettlement at 1-866-401-5510, as noted on the letter, to verify its validity and confirm that the eligibility has not expired. You must note the date, time, and results of the call and retain a copy of the letter. If the student applies for Federal Student Aid in a subsequent year at your school, you must call again to ensure that the student’s status is still in force.

The spouse, child, or parent of a trafficking victim might be eligible for aid. He will not have a certification letter but will have a T-visa (e.g., T-2 or T-3). He will also fail the DHS match, so you must call the same office as above, verify the validity of his T-visa as well as the victim’s certification letter, note the time and results, and save a copy of both documents.
• **Battered immigrants-qualified aliens** are victims of domestic violence by their U.S. citizen (U.S.C.) or lawful permanent resident (L.P.R.) spouses. They may, with their designated children, be eligible under the Violence Against Women Act (VAWA) for federal public benefits, including Federal Student Aid. Information on these immigrants is not maintained in the system used for matching between the Department and DHS, so there is a separate procedure for establishing eligibility for these students.

They indicate on the FAFSA that they are eligible noncitizens, though they will not pass the DHS match. Instead, they will need to obtain and provide you documentation based on their case type: self-petition, suspension of deportation, or cancellation of removal.

In **self-petitioning cases** under VAWA, the immigrant submits an I-360 form to the USCIS, which will deny the petition, approve it, or find that a “prima facie” case has been established. Either an approval or a prima facie finding makes a student eligible for aid, though the latter has an expiration date after which the person becomes ineligible. In some cases the USCIS will acknowledge receipt of a petition. This does not establish eligibility for aid.

With an **approval of a petition**, the USCIS will provide a Form I-797, Notice of Action form, that will indicate it is an approval notice for a self-petitioning spouse of a U.S.C. or L.P.R. and that the petition has been approved. A separate I-797 will be issued with the names and dates of birth of children listed by the applicant, and it will indicate that they are named on the approved petition. These children are eligible for aid, and because their USCIS status continues after reaching the age of majority, their eligibility for aid continues as well. In some cases a dependent child can petition for battered immigrant status; the I-797 would then indicate a self-petitioning child of a U.S.C. or L.P.R.

With a **prima facie case**, the USCIS will issue an I-797 that will sometimes indicate an establishment of prima facie case. This status is usually for a period of up to 180 days, though the USCIS may extend that period until the case is approved or denied. Petitioners can submit a written request for the extension. As long as the deadline has not expired, the person is eligible for FSA funds. Children may be included on the I-797, though their eligibility is subject to the same expiration date. If a spouse is ultimately denied approval, the children on the I-797 would also be denied and ineligible for aid.

The I-797 form has a wider usage by the USCIS than for just the cases described above. Therefore it is important to examine the notice carefully. For example, USCIS may issue a Notice of Deferred Action, which is an administrative choice to give lower priority for removal of an immigrant from the U.S. Such a notice could pertain to cases unrelated to petitions for battered immigrant status, and it would not be sufficient for documentation of a self-petitioner. Moreover, it generally will have a termination date; a student with a petition approval or an establishment of prima facie case will be eligible for aid through that date and ineligible afterward.
An immigration judge may issue a **suspension of deportation** of the abused person under the VAWA. The applicant will receive a copy of the court order. As long as it has not expired and clearly indicates suspension of deportation by the judge, an otherwise eligible person can receive FSA funds.

An immigration judge can also issue a **cancellation of removal** of the abused person under the VAWA. The applicant will receive a copy of the court order. As long as that has not expired and clearly indicates cancellation of removal by the judge, an otherwise eligible person can receive FSA funds.

You must examine the USCIS document and keep a copy in the student's file. If it indicates he is eligible for aid and the expiration date has not passed, you may award aid. If the student applies for FSA funds in a subsequent year, you may rely on the original document if it has not expired, but you must have the student provide a dated, written statement that his immigration status under VAWA remains in effect without change. If his documentation has expired, he must renew it.

If documentation is lost or expired or if you are unclear about it, submit a completed G-845 form and attach a copy of the document(s). Check “Box 8—Other” of the form and specify “VAWA verification” and submit the items to USCIS at the address (which is not that of the Buffalo field office) in the margin. The student's eligibility for aid will be based on the result of the submission.

**Ineligible statuses and documents**

- **Persons with nonimmigrant visas** include those with work visas, students, visitors, and foreign government officials. Someone with a nonimmigrant visa isn't eligible for FSA funds unless she has a Form I-94 with one of the endorsements given in the eligible document section. Nonimmigrant visas include the F-1, F-2, or M-1 Student Visa, B-1 or B-2 Visitor Visa, J-1 or J-2 Exchange Visitors Visa, H series or L series Visa (which allow temporary employment in the U.S.), or a G series Visa (pertaining to international organizations). Someone who has only a “Notice of Approval to Apply for Permanent Residence (I-171 or I-464)” cannot receive FSA funds.

- **Family unity status** individuals have been granted relief from deportation under the Family Unity Program. They may present an approved Form I-817, Application for Family Unity Benefits. Previously they were eligible for FSA funds, but they are no longer eligible.

- **Temporary residents** are allowed to live and work in the U.S. under the Legalization or Special Agricultural Worker program. Previously they were eligible for FSA funds, but they are no longer eligible.

- **Illegal aliens under the legalization (also called the amnesty) program** established by the Immigration Reform and Control Act of 1986 (IRCA). These individuals were given documentation that allowed them
to work while their application for permanent resident status was being processed, but they aren’t eligible for aid unless their application was approved. Documents they might have in the interim are the Employment Authorization Card (Form I-688A), Employment Authorization Documents (Form I-688B or the I-766), or the Temporary Resident Card (Form I-688). None of these documents qualifies a student for FSA.

- **Students with “Temporary Protected Status”** stamped on their I-94 forms. This is used for persons who are from countries that are in upheaval, but the status differs significantly from refugee or asylee because it provides no conversion to permanent resident status. These students are not eligible for FSA funds.

If the document a student submits is for an ineligible status, you shouldn’t submit the documentation for secondary confirmation. The USCIS can only confirm current immigration status based on the document presented; it doesn’t determine whether the student is eligible for FSA funds. Unless the student can submit documentation for an eligible status, as described above, the student can’t receive aid.

**Using the G-845 for secondary confirmation**

To initiate paper secondary confirmation, you must complete a Form G-845 and send it to the USCIS field office for your area within 10 business days of receiving the student’s documentation. The G-845 (“Immigration Status/Document Verification Request”) is a standard form that asks the USCIS to confirm a noncitizen’s immigration status. See the electronic announcement dated March 4, 2010, on the [www.ifap.ed.gov](http://www.ifap.ed.gov) website for more information on where to send the form and to download a copy of it.

To complete the G-845, fill in each item on the top half of the form. You must enter the A-Number in box 1. For box 5 you must provide the 15-digit DHS verification number that is printed in the match flag section of the SAR and ISIR. Paper G-845 requests without this number will be returned unprocessed. “Education Grant/Loans/Workstudy” must be marked in box 8, “Benefit.” Also, at the bottom of box 8, write “SSN” in the space marked “Other” and the student’s SSN in the space next to it. You must write your name as the submitting official and your school’s name as the submitting agency. Enter the DHS field office in the “To” space and your school’s name and address in the “From” space in the right column.

Photocopies of the front and back sides of the student’s immigration document must be attached to the G-845. Be sure to submit each pertinent visa and immigration document along with the form; the G-845 submitted by itself can’t be used to determine FSA eligibility. A student who lost documents or surrendered them when entering prison is responsible for getting copies of them before the G-845 is submitted. (See “Replacing Lost DHS Documents” on page 39.) You can request copies of immigration documents directly from penal institutions at the request of the student. Send the completed G-845 and attachments to the field office serving the prison’s locale.

Noncitizens may also present other documents, such as marriage records or court orders, that indicate the identity or United States residency of the holder. Although these documents may not serve as adequate proof of im-

**Which G-845 form to use?**

You might have noticed that there is a more current version of the G-845 and G-845S forms on the USCIS website. Because the older form we have reproduced here and in our electronic announcements contains useful elements that the new forms lack, such as the checkbox for parolees of one year or longer, you should continue to use it until further notice. The USCIS will process it normally. You can download it from the IFAP website ([www.ifap.ed.gov](http://www.ifap.ed.gov)) by going to the electronic announcement dated March 4, 2010. In late summer or early fall of 2011, USCIS plans to release a new version of the G-845 and discontinue the G-845S. You will be able to use the new form for secondary confirmation; look for it on the USCIS website at [www.uscis.gov](http://www.uscis.gov) under "Forms."

**The A-number on the FAFSA and the DHS verification number**

When the CPS matches with DHS records, a 15-digit verification number is assigned to the student and printed in the “FAA Information” section of the SAR and ISIR. This number is needed for paper secondary confirmation with the DHS; it is reported in box 5 of the G-845 form. If the student did not provide an A-number on the FAFSA, the match won’t be made and he won’t receive a DHS verification number. He should make a correction to add the A-number so that the data match can be made and he can receive a verification number. If his A-number is eight digits, add a leading zero when making the correction.
Sending the G-845 to the USCIS
Submit the G-845 to the USCIS field office (Los Angeles or Buffalo) that serves your state or territory. See their website at www.uscis.gov. Search on “Direct Filing Addresses for Form G-845.” Do not send the form to the Department of Education.

Determining eligibility if USCIS response is late
34 CFR 668.136(b)

Lack of response example
Mikko is a refugee and received aid from Guerrero University for the 2009–10 school year. His status wasn’t confirmed through the DHS match, so Guerrero had to perform secondary confirmation. The DHS didn’t respond in time, so Guerrero paid Mikko without any response. When Mikko applies for 2010–11, the CPS still doesn’t confirm his status. Even though Guerrero began secondary confirmation for Mikko last year and his documents haven’t expired, because the school never received a DHS response, it must perform secondary confirmation again.

migration status, copies of them should be submitted with the G-845, as they may be useful to the status verifier.

A status verifier at the district USCIS office will search the student’s record to confirm his immigration status, complete the “USCIS Response” section, and send the G-845 back to your office, generally within 10 federal working days of receipt. We recommend that you document any mailings to the USCIS and, if you haven’t heard back, that you call DHS’s Case Resolution Team at (877) 469-2563 to make sure the G-845 was received. See www.uscis.gov/save for contact and other information. If you don’t receive a response from the USCIS after at least 15 business days from the date you sent the G-845, if you have sufficient documentation to make a decision, and if you have no information that conflicts with the student’s documents or claimed status, you shall review his file and determine whether he meets the eligible noncitizen requirements. If he does meet the requirements, make any disbursement for which he is eligible and note in his file that USCIS exceeded the time allotment and that noncitizen eligibility was determined without their verification.

When secondary confirmation results in an eligible status, you must keep the G-845. If the confirmation process indicates a discrepancy, you must ask the student to correct the discrepancy with the USCIS. No certification of loans or further disbursement of funds can be made until the discrepancy is corrected. If the discrepancy isn’t reconciled, the student must repay all aid except wages earned under FWS. Whenever the student is able to provide new information, it must be submitted to the USCIS on a new G-845.

As long as you have followed the procedures outlined here, including notifying the student of the discrepancy and withholding further payments and loan certifications as soon as a discrepancy is found, your school isn’t liable for aid disbursed prior to secondary confirmation. This assumes that you had no other conflicting information prior to making the disbursement and had reviewed the available documentation and concluded that the student was otherwise eligible.

Interpreting the USCIS response
The status verifier will mark one or more of the checkboxes on the G-845. The following list explains whether checking a box means the student is eligible. In reviewing the completed G-845, bear in mind that it reflects the student’s most recent status with the USCIS and may show a different status than the documentation presented by the student. In this case, you should verify that both documents identify the same person. If they do, the status on the G-845 should be used since it is more current.

For descriptions of the following immigration statuses, see the earlier sections on eligible and ineligible noncitizens and their documentation:

1. “Lawful Permanent Resident alien of the United States.” A student with this status is eligible for FSA funds.

2. “Conditional Resident alien of the United States.” A student with this status is eligible for FSA funds.
3. "Refugee under Section 207 of the INA." A student with this status is eligible for FSA funds.

4. "Asylee under Section 208 of the INA." A student with this status is eligible for FSA funds.

5. “Alien paroled into the United States pursuant to Section 212(d)(5) of the INA ...” The student is eligible for aid if paroled into the U.S. for one year or more (the corresponding subsidiary box must be checked) and if he has evidence from the DHS (such as having filed a valid permanent resident application) that he is in the U.S. for other than a temporary purpose and intends to become a citizen or permanent resident. The new G-845 form that USCIS will issue in 2011 (mentioned in the margin note on page 31) has date fields for the start and end of the parole period. If, for example, the start date were September 22, 2011, and the end date were September 21, 2012, the parole period would be for one year.

6. “Alien who is a Cuban/Haitian entrant as defined by Section 501(e) of the REAA of 1980.” A student with this status is eligible for FSA funds.

7. “Alien who is a conditional entrant.” A student with this status is eligible for FSA funds.

8. “Alien who is a nonimmigrant.” Students with this status are not eligible for FSA funds.

9. “Alien who has an application pending for:” This is checked for an alien waiting for a new immigration status or a change of status. If a change is pending, the block indicating the current status will also be checked elsewhere on the G-845. A pending application for an immigration status doesn't by itself make the student eligible for FSA funds; he must have an eligible status checked on the form or provide other documentation of an eligible status.

10. “U.S. citizen.” Because the verification request is used to check the status of immigrants, this box should be infrequently checked, and you should not see this in the financial aid office because, as explained earlier in the chapter, you would have reviewed the student's documentation, and if it showed him to be a U.S. citizen, you would not have submitted it to the USCIS.

11. “Alien authorized employment as indicated below.” This indicates the expiration date or that there is no expiration. Employment authorization doesn't make the student eligible for FSA funds. Unless some eligible status is also checked or the student can provide other documentation that can be confirmed by the USCIS, the student isn't eligible for aid.

12. “Alien not authorized employment in the United States.” This block is checked when an alien's status prohibits employment in the United States. Students with this status aren't eligible for aid.
Citizenship and Immigration Services will initial and stamp the front of the G-845 in the signature block.

The comments block on the back of the G-845 provides further instructions for boxes that are checked:

13. “The document is not valid because it appears to be . . .” This and the appropriate subsidiary box are checked when the document has expired, been revoked, or when it appears to be counterfeit or altered. Notify the student that unless corrective action is taken with the USCIS, the case will be submitted to the Office of Inspector General (OIG). Until this is resolved, no further aid may be disbursed, awarded, or certified. If the student does not take corrective action in a timely manner, you must report the case to the OIG.

14. “The attached Form I-551, Permanent Resident Card or Resident Alien Card, has expired. The card does not indicate that the alien's status has expired. The expiration date on the Form I-551 indicates the card has expired and must be renewed. Please refer the applicant to their local USCIS Application Support Center for a replacement card.” Students whose LPR card has expired are still lawful permanent residents, and if there are no other problems, they remain eligible for aid and should not be reported to the OIG.

15. “Continue to process as legal alien. USCIS is searching indices for further information.” This block is checked if the USCIS is withholding judgment, pending further investigation on the status or validity of documentation. This statement doesn't imply that the applicant is an illegal alien or the holder of fraudulent documentation. Benefits shouldn't be denied on the basis of this statement. The student's documentation should be accepted at face value until the USCIS sends final notification regarding immigration status. If the student appears to be an eligible noncitizen based upon your review of the documents, you may pay the student any FSA funds for which she is eligible. If the USCIS later notifies you that the student's documentation isn't valid, you must cancel further disbursements, but your school isn't liable for the payments already made—the student is.

16. “Copy of document is not readable.” Resubmit the G-845 with higher quality copies of the original documentation.

17. “No determination can be made without seeing a copy of both sides of the document submitted.” Resubmit the G-845 with copies of both sides of each document.

18. “Unable to process request without an original consent of disclosure statement signed by the applicant.” Ignore this comment; it does not apply to FSA applicants.
### Section A. - To be completed by the submitting agency.

**To:** U.S. Citizenship and Immigration Services (USCIS)

**Attn:** Status Verifier

**From:** Typed or Stamped Name and Address of submitting Agency

(USCIS may use above address with a No. 20 window envelope.)

17. ☐ No determination can be made without seeing a copy of both sides of the document submitted. (Resubmit request.)

18. ☐ Unable to process request without an original consent of disclosure statement signed by the applicant. (Resubmit request.)

19. ☐ Other (Provide comments. Attach additional sheet of paper, if necessary.)

---

Instructions

- Submit a copy of the front and back of the alien's original immigration documentation.

- Make certain a complete return address has been entered in the "From" portion of the form.

- The Alien Registration Number ("A" Number) is the letter "A" followed by a series of seven, eight or nine digits. The number found on Form I-94 may also be recorded in the block. (Check the front and back of the Form I-94 document. If the "A" Number appears, record that number when requesting information, instead of the longer admission number, because the "A" Number refers to the most integral record available.)

- If Form G-845 is submitted without a copy of the applicant's original immigration documentation, it will be returned to the submitting agency without any action taken.

- Address this verification request to the local office of the U.S. Citizenship and Immigration Services.
**Student rights**

You must allow the student at least 30 days from the time you receive the output document to provide documentation of his immigration status. During this period and until the results of the secondary confirmation are received, you can’t deny, reduce, or terminate aid to him. If the documentation supports the student’s status as an eligible noncitizen, and if at least 15 business days passed since the date on which the documentation was submitted to the USCIS, you can disburse aid to an otherwise eligible student pending the USCIS response.

Your school isn’t liable if you erroneously conclude that a student is an eligible noncitizen, provided that you had no conflicting data on file and you relied on:

- a SAR or ISIR indicating that the student meets the requirements for Federal Student Aid,
- a USCIS determination of an eligible immigration status in response to a request for secondary confirmation, or
- immigration status documents submitted by the student, if the USCIS did not respond in a timely fashion.

The student (or parent borrower of a PLUS loan) is liable for any FSA funds received if he is ineligible. If you made your decision without having one of these types of documents, your school is held responsible for repaying FSA funds to the Department.

Your school should establish procedures to ensure due process for the student if FSA funds are disbursed but the aid office later determines (using secondary confirmation) that the student isn’t an eligible noncitizen. The student must be notified of his ineligibility and given an opportunity to contest the decision by submitting to your school any additional documents that support his claim to be an eligible noncitizen. If the documents appear to support the student’s claim, you should submit them to USCIS using paper secondary confirmation. You must notify the student of your office’s final decision based on the secondary confirmation results.

For every student required to undergo secondary confirmation, you must furnish written instructions providing:

- an explanation of the documentation the student must submit as evidence of eligible noncitizen status;
- your school’s deadline for submitting documentation (which must be at least 30 days from the date your office receives the results of the primary confirmation);
- notification that if the student misses the deadline, he may not receive FSA funds for the award period or period of enrollment; and
- a statement that you won’t decide the student’s eligibility until he has a chance to submit immigration status documents.
The Freely Associated States

The Compact of Free Association (P.L. 99-239) created three political entities from the former Trust Territory of the Pacific Islands. Two of these entities, the Marshall Islands and the Federated States of Micronesia, voted in 1986 to end political ties with the United States. The third entity, Palau, voted to ratify the compact in 1994; its independence was effective October 1, 1994. These three entities are the Freely Associated States.

34 CFR 600.2

CITIZENS OF THE FREELY ASSOCIATED STATES

Students who are citizens of the Freely Associated States—the Federated States of Micronesia and the republics of Palau and the Marshall Islands—are eligible for Pell grants (citizens of Palau are also eligible for FWS and FSEOG; see the margin note) but are not eligible for FSA loans. They should indicate on the FAFSA that they are eligible noncitizens and leave the A-Number item blank. If the student doesn’t have an SSN, he enters 888 and ED will give him a number to use, or if he was given a number in the previous year, he should use that. Because he isn’t giving an A-Number, his application won’t go through the DHS match. As long as his file contains consistent information on his citizenship, you aren’t required to collect documentation.

Citizens of the Freely Associated States whose applications were sent through FAA Access to CPS Online may indicate that they are eligible noncitizens, and their state of legal residence will be confirmed. If they are determined to be residents of the Freely Associated States, they won’t be required to provide an A-Number.

DOCUMENTING IMMIGRATION STATUS IN LATER AWARD YEARS

There are several cases in which you must document a student’s immigration status in a subsequent award year if that student again is not confirmed through the application process.

For example, a student who presented a Temporary Form I-551 in a prior award year should have received a permanent I-551 by the next year and shouldn’t still have a temporary card. You should refer the student to USCIS to obtain a permanent I-551 or an updated endorsement on the previous card. The documents should also be submitted to USCIS on a G-845.

You must also document the eligible noncitizen status each award year for a conditional permanent resident, a refugee, a Cuban-Haitian entrant, or a person granted asylum. Students in any of these categories may have been redesignated to permanent-resident status or may have had their statuses revoked. You will have to send the documents for secondary confirmation if the student’s status isn’t confirmed through the USCIS match.

You don’t have to document a student’s eligible noncitizen status in subsequent award years if you’ve documented that the student is a U.S. citizen or national, is a citizen of the Freely Associated States, or has a Form I-551 or I-151.

In addition, you aren’t required to perform secondary confirmation if for a previous award year it showed that the student was an eligible noncitizen and the documents used for that secondary confirmation haven’t expired. You must also have no conflicting information or reason to doubt the student’s claim of having eligible noncitizen status. Also note that you must have confirmed the status in a previous award year. (Although you can disburse aid without the USCIS response if the USCIS doesn’t respond in time, you can’t count that lack of response as confirmation for the following year.)

No FSEOG and FWS

The Compact of Free Association Amendments Act of 2003, or the Compact Act, eliminates eligibility for citizens of the Republic of the Marshall Islands (RMI) and the Federated States of Micronesia (FSM) for FSEOG and FWS funds. To mitigate this loss, the Compact Act authorizes Supplemental Education Grants (SEGs) that may be awarded to the FSM and RMI. For more information, students of the FSM and RMI should contact their local education authority. Also under the Compact Act, students who are citizens of the Republic of Palau will continue to be eligible for FWS and FSEOG through the 2011–12 year.

The Freely Associated States

The Compact of Free Association (P.L. 99-239) created three political entities from the former Trust Territory of the Pacific Islands. Two of these entities, the Marshall Islands and the Federated States of Micronesia, voted in 1986 to end political ties with the United States. The third entity, Palau, voted to ratify the compact in 1994; its independence was effective October 1, 1994. These three entities are the Freely Associated States.

34 CFR 600.2
REPLACING LOST DHS DOCUMENTS

If a student can’t locate his official USCIS documentation, the student must request that the documents be replaced because noncitizens who are 18 years and older must have immigration documentation in their possession at all times while in the United States. Requests for replacement documents should be made to the USCIS District Office that issued the original documents.

The student will be asked to complete a Form I-90, “Application to Replace Alien Registration Card” or a Form I-102, “Application for Replacement/Initial Nonimmigrant Arrival-Departure Document.” PDF versions of these forms can be downloaded from the USCIS web site at www.uscis.gov. A temporary I-94 may be issued while the replacement documents are pending.

In cases of undue hardship, where the student urgently needs documentation of his status, the Freedom of Information Act (FOIA) allows him to obtain photocopies of the documents from the USCIS District Office that issued the original documents. The student can submit a Form G-639 to make this request or can simply send a letter to the district office. If he is not sure which district office issued the original documents, he can submit the request to the field office nearest to his place of residence.

Exclusion from subsequent secondary confirmation
34 CFR 668.133(b)
CITIZEN NOT BORN IN U.S./NONCITIZEN NATIONAL

**U.S. Passport**
Can be used to document citizenship for citizen born abroad.

For a noncitizen national, must be stamped “Noncitizen National.”
(Note that a passport issued by another country may be used to document permanent resident status if it has the endorsement “Processed for I-551” and has a currently valid expiration date.)

**U.S. Passport Card**
This resembles a credit card in size and form. Though it cannot be used for international air travel, it is, like the passport book, proof of U.S. citizenship.

**Certificate of Citizenship**
The Certificate of Citizenship is issued to persons who were born abroad of U.S. parent(s), who became citizens when their parents were naturalized, or who were adopted by U.S. parents.

**Certification of Birth Abroad**
Issued to U.S. citizens born abroad. Must have embossed seal of the State Department.
Ch. 2—Citizenship

PERMANENT RESIDENT/OTHER ELIGIBLE NONCITIZEN

I-94 Arrival-Departure Record
For permanent resident status, must be stamped “Processed for I-551” with expiration date or “Temporary Form I-551” with appropriate information filled in.

For other eligible noncitizens, must be stamped as Refugee, Asylum Status, Conditional Entrant (before April 1, 1980), Parolee, or Cuban-Haitian Entrant. See pages 27–28.

Warning - A nonimmigrant who accepts unauthorized employment is subject to deportation.
Important - Retain this permit in your possession; you must surrender it when you leave the U.S. Failure to do so may delay your entry into the U.S. in the future. You are authorized to stay in the U.S. only until the date written on this form. To remain past that date, without permission from immigration authorities, is a violation of the law.
Surrender this permit when you leave the U.S.:
- By sea or air, to the transportation line.
- Across the Canadian border, to a Canadian official.
- Across the Mexican border, to a U.S. official.
Students planning to reenter the U.S. within 30 days to return to the same school, see “Arrival-Departure” on page 2 of Form I-94 prior to surrendering this permit.

Record of Changes

See Other Side
STAPLE HERE

A revised version of the Certificate of Naturalization is issued to citizens who filed for naturalization after October 1, 1991.
United States Travel Document
(front cover)
This replaces the Reentry Permit (Form I-327) and the Refugee Travel Document (Form I-571). It is used by lawful permanent residents, refugees, and asylees and will be annotated as described earlier in the chapter.

Machine Readable Immigrant Visa (MRIV)
The MRIV will appear in the holder’s (foreign) passport. If the passport is unexpired and endorsed with an admission stamp and the statement “Upon endorsement serves as temporary I-551 evidencing permanent residence for 1 year,” it serves as a temporary I-551 and as valid documentation for establishing aid eligibility.
PERMANENT RESIDENT

Permanent residents are issued identification cards that they are required to have in their possession at all times. The first Alien Registration Receipt Card was introduced in 1946 and through various revisions was primarily green, which caused it to be known as a “green card.” This term is still used, though the cards have changed color over the years.

**Alien Registration Receipt Card I-151**  
(front and back)  
Issued prior to June 1978 to permanent residents.  
Note: As of March 20, 1996, Form I-151 is no longer acceptable to USCIS as evidence of permanent residence, though it may be used to receive FSA funds.

**Resident Alien Card**  
I-551 (two versions, front only)  
The I-551 is a revised version of the I-151. It was phased in beginning in January 1977 and was revised in 1989.

The “Conditional Resident Alien Card” is identified by a “C” on the front and an expiration date on the back.

**Permanent Resident Card I-551** (front only for older versions, front and back for the current version)  
The Permanent Resident Card was introduced in December 1997 and revised in 2004. In 2010 it was again updated, with the color green used once more in the design of the front of the card.
A person generally isn’t eligible for FSA funds if he is in default on an FSA loan or he owes an overpayment on an FSA grant or loan and he has not made a repayment arrangement for the default or overpayment. Also, for a parent to receive a PLUS Loan, neither the parent nor the student may be in default or owe an overpayment on an FSA loan or grant (though a parent in default on a PLUS loan does not make a student ineligible for aid). Exceptions to these general rules are noted in the discussion below.

Any student applying for FSA funds must certify that he isn’t in default on any FSA loan and doesn’t owe an overpayment on any FSA grant, or that he has made satisfactory arrangements to repay the overpayment or default. This certification statement is printed on the Free Application for Federal Student Aid (FAFSA).

A student is also ineligible if she inadvertently exceeded annual or aggregate loan limits. She can regain eligibility by repaying the extra amount borrowed or making arrangements, satisfactory to the loan holder, to repay it. See Volume 5 of the FSA Handbook.

A student who has been convicted of, or has pled no contest or guilty to, a crime involving fraud in obtaining FSA funds must have completely repaid the fraudulently obtained funds to the Department or the loan holder before regaining aid eligibility. Any Perkins or Direct loan so obtained is not eligible for rehabilitation. You can handle this requirement as you would a judgment lien below: you don’t need to collect certification from each student but can deal with the situation when you become aware of it.

Finally, a student is ineligible if his property is subject to a judgment lien for a debt owed to the United States, and a parent can’t receive a PLUS loan if either the student or parent is subject to such a lien. For example, if the Internal Revenue Service (IRS) had placed a lien on a student’s property for failure to pay a federal tax debt or make satisfactory arrangements for repayment, the student would be ineligible for Federal Student Aid.

When the FAFSA is processed, the Central Processing System (CPS) matches the student against the National Student Loan Data System (NSLDS) online at www.nsldsfaap.ed.gov; for questions call 1-800-999-8219. NSLDS will also help you track changes to the student’s financial aid history through the postscreening and transfer student monitoring processes.
Judgment lien example
When Charlotte provides her parents’ tax return to the aid administrator at Brandt College, he notices that they’ve reported business income but didn’t report a business asset on the FAFSA. Charlotte explains that they didn’t report the business as an asset because there’s a lien against the business for a federal loan. The aid administrator tells her that the asset must still be reported, and also that her parents won’t be able to borrow a PLUS Loan as long as they are subject to the lien.

Adding a school and the NSLDS match
When a school is added after the FAFSA has been submitted, it goes through the NSLDS match again rather than be processed in real time. This ensures that the new school receives the latest financial aid history (FAH) on the ensuing transaction. This does not affect schools’ responsibility to use transfer student monitoring. See page 25 of the Summary of Changes for the Application Processing System posted as an electronic announcement on the IFAP website on 11/25/05.

To supplement the ISIR and ensure a student’s history is considered, some schools submit entire rosters of FAH requests. See TSM/FAH processes and batch file layouts posted on the IFAP website at the NSLDS Reference Materials link under Processing Resources.

(NSLDS) to see if she is in default, owes an overpayment, or has exceeded the loan limits. The CPS doesn’t perform any matches to determine whether or not the student is subject to a judgment lien for a federal debt, and you aren’t required to check for such liens. However, if you know that she is subject to such a lien, you can’t pay her FSA funds.

NSLDS MATCH
To help you identify students with problems such as defaulted loans or overpayments, the CPS matches the student’s FAFSA information with her financial aid history in the NSLDS database. You must resolve any conflicts between NSLDS and other information you have about the student before disbursing FSA funds, for example, if NSLDS shows that a student isn’t in default but you have documentation showing that she is in default.

The results of the NSLDS match are provided on the SAR and ISIR on the NSLDS Financial Aid History page. As with other matches, a “C” next to the student’s expected family contribution (EFC) indicates problems that must be resolved. See Appendix B of the ISIR Guide for the complete tables of NSLDS match results.

Successful match
The SAR and ISIR will contain the NSLDS financial aid history only if the student’s identifying information matches the database and there is relevant information for the student in the database. If the student has no defaults or overpayments or has made satisfactory repayment arrangements on a defaulted loan, the NSLDS match flag will be 1 and no C code will appear on the output document. A match flag of 2, 3, or 4 indicates that the student has defaulted loans or owes an overpayment or both. You will need to document that the problem has been resolved before disbursing aid.

Note that for “real-time” processing—if a student uses Corrections on the Web or an aid administrator uses FAA Access to CPS Online—the CPS does not match against the NSLDS database (except when a school is added; see the margin note), but the output document will show NSLDS data from the last transaction that did match against NSLDS. The ISIR might not, therefore, reflect the most current information.

No data from match
There are several reasons why an output document may not have financial aid history information: for example, if the application was rejected for lack of a signature or if identifying information was missing. For other cases, you can check the NSLDS flags reported in the “FAA Information” section.

▼ Partial match. If the student’s SSN is in the NSLDS database but the first name or date of birth don’t match what the student reported, no financial aid history will be reported and the output document will have an NSLDS match flag of “7” and a C code. There will also be a comment explaining why the financial aid history isn’t given and directing the student to work with the school to resolve any discrepancies. A partial match requires resolution; otherwise you won’t have information from the Department on defaults and overpayments.
If the student originally reported incorrect identifying information, you can have her submit correct information, which will be sent through the match again.

If the student did not submit incorrect identifying information, you can call NSLDS support at the number in the margin for help with determining the identifiers with the SSN in the NSLDS database. If you discover the discrepancy is due to the student misreporting the name or date of birth on the FAFSA, you should have the student make a correction. However, you may use the NSLDS record to determine the student’s eligibility; you don’t need to wait for the corrected data to be reported.

If you find that the financial aid history associated with the student’s SSN doesn’t belong to the student, you should assume that the student has no relevant financial aid information. You may request that the data in NSLDS be corrected by providing relevant supporting documents. NSLDS will work with the previous data providers to correct the identifiers. You aren’t required to request a correction; however, doing so will prevent the same FAFSA response in subsequent award years.

▼ **Student not in database.** If a match with NSLDS is completed but there’s no information on the student in the database, the output document will comment that the student’s SSN is not associated with any financial aid history. You can assume this is correct unless you have conflicting information. If NSLDS should show a loan history, help the student by contacting the appropriate loan servicer or, for FFEL, guaranty agency.

▼ **No relevant history.** If a student’s SSN matches a record in the NSLDS database but there’s no relevant financial aid history to report, no information will be on the output document. For example, if the only data for a student was about a Pell grant received in the previous award year, that would not be reported because it isn’t needed to determine the student’s aid eligibility for the current award year. The SAR and ISIR will have a comment that the student’s record was matched with NSLDS but no information was found to print on the NSLDS page.

▼ **Processing problem.** If there was a problem with the match, the SAR and ISIR won’t include financial aid history information. The output document will have a C code and a comment explaining that the CPS couldn’t determine whether the student has loans in default and will direct her to contact the financial aid administrator. You must get the student’s financial aid history before disbursing aid. If she has to make corrections of any kind, her information will go through the match again when the corrections are submitted, and you can use the results of that match to determine her eligibility.

**Postscreening—changes after initial match**

Once you receive the financial aid history through NSLDS, you aren’t required to check for changes to the data before disbursing funds to the student. But if you learn from NSLDS or another source that he was not or is no longer eligible, you must not disburse any more FSA funds and must help make sure he arranges to repay the aid for which he wasn’t eligible.
NSLDS uses a postscreening process to let you know when there are significant changes (such as a defaulted loan or an overpayment) to a student’s financial aid history. If postscreening identifies changes that may affect the student’s eligibility, the CPS will generate new output documents so schools that are listed for receipt of the student’s FAFSA information will automatically be notified. Items that have changed since the last transaction are marked on the output document with a “#” sign, and the reason code for the postscreening will be given.

To help you identify when NSLDS data has changed, the document will include an NSLDS transaction number in the “FAA Information” section with the other match flags. This is the number of the last transaction on which NSLDS data changed, so if you receive an ISIR on which that number is higher than the one on the ISIR you used to determine the student’s eligibility, you must review the NSLDS data on the new ISIR to be sure there are no changes affecting the student’s eligibility. There will be postscreening codes (see The ISIR Guide for the list) to help determine what changed.

**CHECKING THE FINANCIAL AID HISTORY FOR TRANSFER STUDENTS**

Before disbursing FSA funds to a transfer student, you must obtain his financial aid history if he may have received aid at another school since your latest ISIR. The NSLDS Transfer Student Monitoring Process was established to allow schools to use NSLDS information for its transfer students.

- **Reviewing the student’s NSLDS financial aid history.** If a student transfers to your school during the award year, you’ll need to review her aid history on the ISIR or online at the NSLDS website. From this you can determine:
  
  - Whether the student is in default or owes an overpayment on an FSA loan or grant;
  
  - The student’s scheduled Pell grant and the amount already disbursed for the award year;
  
  - Data pertaining to TEACH grants, including those converted to loans;
  
  - The student’s balance on all FSA loans; and
  
  - The amount and period of enrollment for all FSA loans for the award year.

  Usually the financial aid history on the ISIR will be enough, but there are cases where you might check NSLDS for more information. For example, if the student has more than six loans, the ISIR won’t have detailed information for some of the loans. If you need that level of detail for those loans, you can get the information from NSLDS. Or, as discussed previously, you might need to use NSLDS to resolve a partial match situation (see “Partial match,” page 46).
Transfer student monitoring process. You must send NSLDS identifying information for students transferring to your school during the award year so that NSLDS can notify you of changes to their financial aid history. You may send information for students who have expressed an interest in attending your school even if they have not yet formally applied for admission.

Through transfer student monitoring, NSLDS will alert you to any relevant changes in the transfer student’s financial aid history—other than the default and overpayment information reported in the postscreening process—that may affect the student’s current award(s). There are three steps: inform, monitor, and alert.

- **Inform.** You must identify students who are transferring to your school by creating a list of transfer students on the NSLDS website or by sending the list to NSLDS as an electronic batch file (see the margin note) through SAIG. You may use either or both methods, and a change in method does not require prior notification to the CSC.

- **Monitor.** NSLDS will monitor these students for a change in financial aid history that may affect their current awards and alert you when: a new loan or grant is being awarded, a new disbursement is made on a loan or grant, or a loan or grant (or a single disbursement) is cancelled. Note that defaulted loans and overpayment information are not monitored in transfer student monitoring, as they are already covered in the postscreening process. If the student has not listed your school in Step Six when filing the FAFSA, he has to add your school in order for you to receive the postscreening information.

- **Alert.** Finally, if changes are detected for one or more of your students and NSLDS creates an alert, it will also send an e-mail notification reminder to the address given on the School Transfer Profile setup page. Your school’s designated contact person may then either review the alert list on the NSLDSFAP website or download a batch file, if batch alerts were requested, through SAIG in report or extract format.

Timing of the disbursement. To pay the student you’ll need to have an output document and an accurate EFC. A valid ISIR will include that and the student’s financial aid history, and it will also tell you if he is in default or owes an overpayment. The postscreening process will send you another ISIR if he subsequently goes into or out of default or owes or ceases to owe an overpayment.

When you initiate transfer monitoring for a student, NSLDS will alert you to significant award changes since you last received an ISIR or alert for her; this will continue for 30 to 120 days (depending on the monitoring duration you’ve established) after the enrollment begin date. If you start transfer monitoring before you receive ISIRs for a student, NSLDS will track changes in her financial aid history from the date of your request or a future monitoring begin date you choose.

The regulations state that a school may not make a disbursement to the student for seven days following the transfer monitoring request to NSLDS.
Resolving grant overpayments
Because FSA grants have priority in packaging, aid overpayments can often be resolved by adjusting other types of aid in the package. If necessary, you can also adjust later grant payments for the same award year. But if a student receives more grant money than she is eligible for and the excess can’t be offset, she must return the overpayment. As noted at the beginning of the chapter, a student with an outstanding FSA grant overpayment is ineligible for aid until she repays it or makes satisfactory repayment arrangements. See Volume 5 for a complete discussion.

EFFECT OF BANKRUPTCY OR DISABILITY DISCHARGE

A student who has filed for bankruptcy or had a loan discharged for disability may need to give additional documentation before receiving aid.

Bankruptcy
A student with an FSA loan or grant overpayment that has been discharged in bankruptcy remains eligible for FSA loans, grants, and work-study (NSLDS loan status code BC for loans that did not default and status code DK or OD for loans that defaulted prior to the bankruptcy discharge). A borrower doesn’t have to reaffirm a loan discharged in bankruptcy in order to be eligible. The Bankruptcy Reform Act of 1994 prohibits denial of aid based solely on filing for, or having a debt discharged in, bankruptcy.

A borrower who lists a defaulted FSA loan or grant overpayment in an active bankruptcy claim is not eligible for further FSA funds unless she provides you with documentation from the holder of the debt stating it is dischargeable (NSLDS loan status code DO).

A borrower who includes a non-defaulted FSA loan in an active bankruptcy claim, so that collection on the loan is stayed, is eligible for aid as long as he has no loans in default (including the stayed loan).

Perkins, FFEL, and Direct loan borrowers may qualify to have their loans discharged if they become totally and permanently disabled. Except for veterans who qualify for a total and permanent disability (TPD) discharge based on a determination by the Department of Veterans Affairs (VA) that they are unemployable due to a service-connected disability, the Department of Education monitors the status of borrowers who have received a TPD discharge for a three-year period.

Borrowers whose discharge applications are received on or after July 1, 2010, receive a final discharge followed by a post-discharge monitoring period that begins on the date the discharge was granted and lasts for up to three years. Borrowers whose discharge applications were received before July 1, 2010, received
a conditional discharge followed by a conditional discharge period that begins on the date the borrower’s physician certified the disability discharge application and lasts for up to three years.

If the borrower does not meet certain eligibility requirements throughout the post-discharge monitoring period or conditional discharge period, the Department reinstates the borrower’s obligation to repay the discharged loan(s) or returns the conditionally discharged loan(s) to repayment status.

The same criteria and procedures are used to discharge and reinstate the service obligation for TEACH grant recipients who become totally and permanently disabled.

If a borrower whose prior loan was discharged due to a total and permanent disability wishes to take out another FSA loan or wishes to receive a TEACH grant, he must obtain a physician’s certification* that he has the ability to engage in substantial gainful activity, and he must sign a statement acknowledging that the new FSA loan or the TEACH grant service obligation can’t later be discharged for any present impairment unless it deteriorates so that he is again totally and permanently disabled.

If the borrower requests a new loan or TEACH Grant during the post-discharge monitoring period or the conditional discharge period, he must also resume payment on the old loan before receipt of the new loan or TEACH grant. If the loan on which the borrower must resume payment was in default when it was discharged or conditionally discharged, it remains in default upon reinstatement, and the student must make satisfactory repayment arrangements before receiving the new loan, in addition to meeting the other requirements described.

A borrower who received a TPD discharge based on a determination from the VA that he is unemployable due to a service-connected disability is not subject to a monitoring period and is not required to resume payment on the discharged loan as a condition for receiving a new loan. But he must still provide the physician’s certification and borrower acknowledgement described above.

**RESOLVING DEFAULT STATUS**

A student in default on an FSA loan can’t receive further FSA funds until she resolves the default, which she can do in a few ways.

**Repayment in full (including consolidation).** A student can resolve a default and regain eligibility for FSA funds by repaying the loan in full (loan status code DP). If the school writes off a regulatorily permissible amount that the student repays, that counts as paying the loan in full (code DC). If a defaulted loan is successfully consolidated, it is also counted as paid in full (code DN). However, if the loan holder just writes off the entire loan (except for Perkins), it isn’t paid in full, and the student remains ineligible for FSA funds (code DW).

The student regains eligibility whether repayment was completed voluntarily or involuntarily (that is, through IRS offset or wage garnishment).

---

**Total and permanent disability**

The condition of an individual who:

- is unable to engage in substantial gainful activity by reason of a medically determinable physical or mental impairment that can be expected to result in death; has lasted for a continuous period of at least 60 months; or can be expected to last for a continuous period of at least 60 months; OR

- has been determined by the Department of Veterans Affairs (VA) to be unemployable due to a service-connected disability.

* The student only needs to obtain the physician certification once; the school keeps a copy of it in the student’s file. But the school must collect a new borrower acknowledgment from the student each time he receives a new loan.

**Substantial gainful activity**

The phrase “substantial gainful activity” means a level of work performed for pay that involves doing significant physical or mental activities or a combination of both. If a physician’s certification does not appear to support this status, the school should contact the physician for clarification.

**Perkins writeoffs**

Note that Perkins writeoffs don’t make a student ineligible. See Volume 6 for more information.

**No defense of infancy**

Students who are minors may receive federal student loans, and they may not refuse to repay those loans based on a “defense of infancy,” i.e., that they were too young to enter into the contract of signing the promissory note. See HEA Sec 484A(b)(2).
A student who has repaid her defaulted loan in full is eligible for aid if the repayment was voluntary. However, you can still consider the default to be evidence of a student’s unwillingness to repay loans and deny the student Perkins loans. If the repayment was involuntary, you should consider the default as such evidence and deny the student Perkins loans.

If a student has paid a defaulted loan in full but the SAR and ISIR have a comment showing that he is ineligible because of the default, he must give you documentation proving that the loan was paid.

▼ **Satisfactory repayment arrangements.** A student in default on an FSA loan can be eligible for FSA funds if he has made repayment arrangements that are satisfactory to the loan holder. After he makes six consecutive, full, voluntary payments on time, he regains eligibility for FSA funds (loan status code DX). Voluntary payments are those made directly by the borrower and do not include payments obtained by federal offset, garnishment, or income or asset execution. A student may regain eligibility under this option only one time.

You can pay the student as soon as you have documentation that she has made satisfactory repayment arrangements. For example, the guaranty agency may update the code for the loan in NSLDS to DX once six payments have been made; you could then use that as confirmation of the repayment arrangement. You may also use a written statement from the loan holder indicating that the student has made satisfactory repayment arrangements as documentation of the arrangement.

▼ **Loan rehabilitation.** Although a student can regain eligibility for all FSA funds by making satisfactory repayment arrangements, the loan is still in default. After the student makes more payments, the loan may be rehabilitated, that is, it won’t be in default anymore, and the student will have all the normal loan benefits, such as deferments. A loan is rehabilitated once the borrower makes nine full, voluntary payments on time (no later than 20 days after the due date) within 10 consecutive months. See Volume 6, Chapter 6 for more information on rehabilitation in the Perkins/NDSL program.
# NSLDS Loan Status Codes

## 2011–2012 SARs & ISIRs

<table>
<thead>
<tr>
<th>Code</th>
<th>Status</th>
<th>Eligible for FSA funds</th>

</tbody>
</table>
The FAFSA collects the student’s SSN (and parents’) so that the Central Processing System (CPS) can validate it through a match with the Social Security Administration (SSA). The CPS verifies that the name and birth date associated with the SSN match the name and birth date on the application. For the full list of SSN match results, see SAR Comment Codes and Text: 2011–2012 (www.ifap.ed.gov).

The CPS won’t process an application without an SSN. A student who doesn’t have an SSN or doesn’t remember it must contact the local Social Security office for help. There is one exception to the requirement to provide SSNs (see “Exception for Micronesia, Marshall Islands, Palau”).

The SSN is a key identifier for the student’s records, so you must be sure the Department knows the right SSN if you find out it’s wrong on the application or output document. We discuss correcting such errors later.

**SSN MATCH**

The CPS prints the SSN match result in the “FAA Information” section of the output document as the SSN Match Flag. If the match is successful, the CPS doesn’t match the student’s data against the Social Security database on subsequent transactions. However, the CPS will attempt the match again if the student makes corrections to the name, birth date, or SSN.

**Successful match**

If the CPS match with the Social Security Administration confirms the student’s SSN, and the Social Security records have the same name and birth date as reported on the FAFSA, you may disburse aid to the otherwise eligible student. No comment is provided on the output document when the SSN match is successful. Of course, if you have any conflicting information about the SSN, you must resolve the conflict before disbursing FSA funds to the student.

Once a student’s SSN is confirmed and there is no discrepancy on the name or birth date, the student can’t change the SSN. If a student whose match data have been confirmed subsequently tries to change his SSN, the
CPS won’t accept the change. Instead, the student’s SAR will have a comment telling the student to contact his financial aid administrator for help. In the unlikely event that the confirmed SSN is wrong, the student must correct it by filing a new FAFSA.

**No match on the Social Security number**

You must resolve any problems with the match before disbursing aid. If the SSN is not found in the Social Security Administration database, the student’s application will be rejected. The student will also receive a comment that instructs her to correct her SSN or contact the SSA if she believes the number reported is correct. If it is wrong on the application, the student will have to correct it with the CPS and get a successful match result before she can receive aid.

▼ **Student reported wrong SSN on the FAFSA.** If the student’s application is rejected because she reported an SSN that is not in the Social Security Administration’s database, the student must provide the correct SSN to the CPS. This will change the current SSN in the CPS, but it will not change the original, identifying SSN. A student can file a new FAFSA to correct the original SSN, but since the Common Origination and Disbursement (COD) System will use the current SSN to process records, changing the original SSN is not always necessary (however, see Applicants Using Same SSN later in this chapter).

COD replaced the Direct Loan and Pell (RFMS) reporting systems, but there are other systems, such as EDExpress and possibly some mainframe and servicer systems, that will still use the original SSN to identify records. These systems will be able to interface with COD but might still need the original SSN to process records.

▼ **FAFSA data entry error.** If a student provided the correct SSN on the FAFSA, but the SSN on the output document is wrong, the student can contact the Federal Student Aid Information Center at 1-800-4-FED-AID (1-800-433-3243). If the Information Center confirms that there was a data entry error, it will refer the error to the Department for correction—the student does not need to submit a correction. After the data entry error is corrected, the CPS will produce new output documents. See Chapter 5 of the Application and Verification Guide for general information on data entry error corrections.

▼ **Error in Social Security database.** If the SSN on the FAFSA is correct but isn’t in the Social Security database, the student must contact a local or regional Social Security Administration office to correct the database, which is updated daily with information from local and regional offices. The student must report the correct SSN and provide verifying documentation. He must also contact a Social Security office directly—the Department of Education cannot correct SSA records. Once the database is updated, the student can submit a correction by re-entering the SSN originally reported as if it is a correction. The CPS will then do another SSN match. The student can’t simply verify that the SSN is correct; the application will be rejected until the SSA database is updated.

Error in SSA database
➔ Contact SSA office; resubmit SSN as correction after SSA change is made

**Other match problems**

➔ SSN matches, but name and date of birth don’t match
➔ Missing FAFSA information: student didn’t report a name or birth date, or didn’t sign the FAFSA
➔ SSN record includes date of death

**COD and SSN changes**

See the electronic announcements on the IFAP website at [www.ifap.ed.gov](http://www.ifap.ed.gov) for information about COD. See the January 7, 2004, announcement for SSN corrections in CPS.
No match on name or birth date

The student’s application will be rejected if her or a parent’s SSN is in the Social Security database but the name there differs from the one she gave. Misspellings or name changes due to marriage are common reasons for a non-match. The student should make sure that the name on the application matches the one on the Social Security card.

This reject is verifiable, which means that the name is questionable but not necessarily wrong. The student can eliminate the reject by entering the right name. If the name was correct on the application, she reenters it on the paper SAR, or she chooses “Data is Correct” for both the first and last name on Corrections on the Web. If her name is incorrect in the SSA database, we strongly recommend that she contact the SSA to correct it.

If the student’s (or parent’s) name and SSN match the SSA’s database but the date of birth does not, the application will also be rejected, and the student must correct the application. If the error is with the SSA’s database, he should contact the SSA to correct the record. He can override the reject by reentering the date on the paper SAR or, on Corrections on the Web, by choosing “Data is Correct” for the date of birth. The application will be sent through the match again, and if the SSA’s record has been corrected, the match flag will be cleared and no further action is needed. If there is still a disagreement with the SSA record, the student will need to provide the aid office with documentation of his date of birth.

If the student reported the current or a later year as her birth date, her application will be rejected and she must correct the error.

Missing information

No match is performed if the student doesn’t sign the FAFSA or provide a last name or birth date. The student’s FAFSA will be rejected and the student must submit the missing information.

Although the CPS doesn’t conduct the match, it will check to see whether the reported SSN falls within a range of valid numbers. If it does, the student will receive a comment explaining that the match could not be conducted without the name, birth date, or signature. The student must submit a correction providing the missing information. When the correction is sent, the information will be sent to the Social Security Administration for matching, and you should check the new output document for match results.

If the SSN is not within the valid range, the student will receive a comment and reject P stating that the reported SSN does not appear to be valid. In addition to submitting the missing name, birth date, or signature on a correction, the student must either contact the Social Security Administration to correct its records (if the reported SSN is correct) or correct the SSN she reported. Again, you should check the new output document for match results.

Date of death

If the Social Security Administration’s database shows a date of death associated with the SSN the student reported, the student’s application will be rejected. Students resolve this problem in the same way as problems match-

Example: Incorrect name on application
When Sarven Technical Institute receives Tod’s ISIR, the SSN match shows the name on the application isn’t the one associated with the SSN in the database. The aid administrator asks Tod to bring in documentation showing his correct name and SSN. He brings in his Social Security card, and the first name on the card is Warren, not Tod. He also has a driver’s license showing his first name is Warren. The administrator tells Tod to correct his name on the application to Warren.

Example: Correct name not in database
Elizabeth’s ISIR shows that her name doesn’t match the one the SSA has on file for her SSN. When the administrator talks to Elizabeth, she explains that she recently got married and changed her last name. Elizabeth gives the administrator a copy of her marriage certificate. The administrator plans to disburse aid to Elizabeth and tells her to reenter her current name and advises her to contact SSA to have its database updated to prevent future problems.
ing the SSN. The student must either contact Social Security Administration to get the records corrected, or must submit a change with the correct SSN (see “No match on the Social Security number,” page 56).

**MASTER DEATH FILE**

The CPS will verify that student SSNs do not appear on a master death file the Department obtains from the SSA. This will be in addition to the date of death match. The CPS will regularly compare its records with those in the master death file. If a match is found, the CPS will resend the student record to SSA. If the SSA does not confirm a date of death for the applicant, the CPS will do nothing further. If the SSA does confirm a date of death, the CPS will send an ISIR to the schools listed on that transaction but will not send a SAR to the student.

Also, the CPS will disable PINs and will not generate renewal applications for individuals found in the death file. Their record will not be deleted from the CPS database. If an applicant wrongly appears in the death file, he will need to apply for a PIN again and receive a clean match before a new PIN will be issued.

**APPLICANTS USING SAME SSN**

When one student uses another’s SSN, the duplicate SSN flag will be set in the ISIR, and the student’s application will likely fail the SSN match, but it will be processed. She will have to make a correction as described earlier in this chapter.

If a student uses the same SSN and first two letters of the last name (together these data are the record identifier) as another student, the CPS will not accept her application because it will assume it to be a duplicate application of the first student. If she is using FAFSA on the Web, she will receive an immediate message telling her the proper way to make a correction or, if her record identifier is correct and she is trying to apply for aid, how she can proceed. If she is submitting a paper FAFSA, she will receive a letter giving her the same information and stating that the application was not processed.

If the student using the correct SSN applied after the other student, she must submit a special “correction application” that she can only get from the Department of Education. It will enable the CPS to accept her data instead of treating her application as a duplicate. The first student, who used the wrong SSN, must correct the error by filing a new FAFSA because the CPS uses the record identifier for students for the entire award year, even if they later change their SSN or last name. If the student simply corrected her SSN, her record identifier would still be wrong.

If the student using the correct SSN applied first, the CPS will have her data, so a correction application isn’t necessary. The second student will need to submit a new application.

Both students should keep copies of all output documents, including those from the first FAFSAs filed. When a student files a correction application or a new FAFSA, the application receipt date is changed. Because some
schools and agencies use this receipt date to determine if the student met a deadline, she should keep the output documents to show the original receipt date and to show why a later application was necessary.

Contact the Department at (319) 665-7101 if you believe that a correction application may be needed; one can be mailed to your office or to the student.

EXCEPTION FOR THE FREELY ASSOCIATED STATES: MICRONESIA, MARSHALL ISLANDS, AND PALAU

Students from the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau might not have SSNs. The CPS will assign an identification number to students who indicate on their FAFSA that their state of legal residence is one of the above Pacific island nations and who do not provide a Social Security number. These applications don’t go through the SSN match with the SSA. If the students are using FAFSA on the Web, there is an edit that allows them to enter in the SSN field their identification number, which will begin with 888.
Any man required to register with Selective Service at any time must have done so to receive Federal Student Aid (FSA). The Central Processing System (CPS) performs a match with Selective Service to confirm a student’s registration status. In this chapter we discuss that match and the registration requirement.

REGISTRATION REQUIREMENT

Men aged 18–25 are required to register with the Selective Service System (SSS). This requirement covers men residing in the United States who are U.S. citizens or noncitizens, except that a man who is in the U.S. as a lawful nonimmigrant isn’t required to register as long as he maintains that status (see the exceptions to the registration requirement under “Exemptions” below). Students who are required to register with the Selective Service must do so to be eligible for FSA funds, but parents who want to borrow a PLUS loan aren’t required to have registered.

The student has several ways to register, which include using the FAFSA; there is a question that asks if the student wants Selective Service to register him. If he indicates that he wants to be registered, we will submit his registration information to the Selective Service. If he doesn’t answer this question, he can do so later on the student aid report (SAR) and submit the correction (the answer to the question “Are you male?” must be yes too). The student may also register online at the Selective Service website (www.sss.gov) or by filling out a form available at the post office.

In some cases, a student will not be able to register using the FAFSA or SAR. Generally, however, a male student who is 18–25 and who has not registered previously may use this method. Students who have questions about Selective Service registration may contact the Selective Service at (847) 688-6888 or on the Web.

EXEMPTIONS

Men exempted from the requirement to register include:

- males currently in the armed services and on active duty (this exception does not apply to members of the Reserve and National Guard who are not on active duty);

- males who are not yet 18 at the time that they complete their applications (an update is not required during the year, even if a student turns 18 after completing the application);
Exemptions
34 CFR 668.37(a)(2)

Exemption examples
Tod has been on active duty in the Army from the time he was 18 and didn’t register with Selective Service before he joined the Army. He’s now 24, is planning to leave the Army, and wants to receive financial aid. If he applies while he’s still on active duty, he doesn’t need to register with Selective Service. Once he leaves, he must be registered, or else he won’t be able to receive aid in later years. In most cases, when someone completes an enlistment contract he is automatically registered, so Tod is probably already registered even though he didn’t complete a separate registration form.

George was enrolled in an officer procurement program at the Virginia Military Institute, which he started a month before he turned 18. When he was 22, he had a serious accident and was hospitalized; he officially dropped out of school a month after he was hospitalized. Due to his injuries he was hospitalized for four years. Because he qualified for a waiver for the entire time he was 18–25, he was not required to register with Selective Service.

Documentation for exempt noncitizens includes: proof of birth date on a passport, birth certificate, or U.S. driver’s license or state ID; proof of immigration date into the U.S. from an entry date stamp on the I-94 form or in the passport, or a letter from the USCIS indicating the entry date; and, for those here on a valid visa who are at least 18 and less than 26 years old, a student visa form (I-20) or other valid U.S. passport visa stamp with expiration date (the dates must be from entry until after the man turned 26).

*A citizen or national of the Republic of the Marshall Islands or the Federated States of Micronesia who lives in the United States for more than one year for any reason except as a student or employee of the government of his homeland must register.
SELECTIVE SERVICE MATCH
The CPS performs a match with the SSS to determine if relevant students are registered. The output document displays the match result in the FAA Information section, as well as a comment about the result.

Successful matches
If the match shows that the student is registered or exempt, a comment confirming this fact will be on the student’s output document. The student is then eligible for aid.

The student is also eligible for aid if the match shows that the student is still too young to register. If the student asks to be registered, Selective Service will hold onto that registration request until 30 days before the student’s 18th birthday and will then register the student.

Finally, the student is also eligible if the CPS successfully forwards the student’s name to Selective Service for registration.

Unsuccessful matches
If the match doesn’t confirm the student’s registration or the student can’t be registered, the output document will have a comment about the problem. A “C” flag will also be printed next to the student’s EFC. Until the student resolves the registration problem, you can’t pay FSA funds to the student or certify or originate a loan.

▼ Registration not confirmed. If the match shows that the student isn’t registered, he must either register or provide evidence that he is registered or is exempt from registration. His Selective Service Registration Acknowledgement or letter of registration shows that he is registered. You can also go to the Selective Service System website at www.sss.gov and check on the student’s status—a printout of the webpage is acceptable documentation that the student is registered. If he doesn’t have an acknowledgement or letter of registration and the website doesn’t confirm his registration, he’ll have to contact Selective Service to resolve the problem. If the conflict is resolved in his favor, he’ll receive a letter from the Selective Service documenting that he is registered or is exempt from registering.

▼ Unsuccessful registration. The CPS won’t be able to forward the student for registration if certain information—first and last name and date of birth—is missing. The student should submit a correction with the required information, and you can check the match results from this correction to see if the student is eligible.

If the student is 26 or older, the CPS cannot register the student but will send his record through the data match. If the student is not registered, he can no longer do so, and you will have to determine if he is eligible for aid despite failing to register.

Status information letter codes
The Selective Service has different status information letters, which are indicated by a code that appears in the lower left-hand corner. Determination of aid eligibility for a man who failed to register with Selective Service should not be based solely on these letter codes. Financial aid administrators are obliged to review all evidence presented by a student to determine if he has shown “by a preponderance of evidence” that his failure to register was neither willful nor knowing. The codes are:

• E1–E8: These codes indicate that the student was not required to register or was exempt the entire time he could have registered (ages 18–25).
• NM: The student did not register although he was on active duty in the armed forces only for a portion of the time when he could have registered (between ages 18–25) and was, therefore, required to register.
• NR: The student was born before 1960 and is therefore not required to register.
• RD: The student gave a reason for not registering or documentation to show he was exempt from the requirement, but the Selective Service determined the reason or documentation to be invalid. Therefore, the student was required to register but did not. No requests to comply with the registration requirement were sent.
• RH: The student was sent one or more letters requesting that he register during the required period, but all letters were returned by the post office as undeliverable.
• RL: The student was required to register, but the Selective Service has no record of his registration and their records show he was sent one or more letters requesting that he register.
• RR: The student said he attempted to register, but Selective Service has no proof of the attempt.

Out of concern for privacy, the SSS only displays the last four digits of the Social Security number on correspondence.
FAILURE TO REGISTER

Some students have been denied aid because they failed to register with the Selective Service before their 26th birthday. The Selective Service will register only males age 18–25, leaving older students with no way to remedy their situation if they failed to register. However, the student may still be eligible to receive aid if he can demonstrate that he did not knowingly and willfully fail to register.

A student who served on active duty in the armed forces but who did not register before turning 26 is still eligible to receive FSA funds because it’s reasonable to conclude that he was not trying to avoid registering for the draft. Ask the student to provide a copy of his DD Form 214, “Certificate of Release or Discharge from Active Duty,” showing military service in the armed forces—other than the reserve forces, the Delayed Entry pool, and the National Guard.

Students without military service who knew of the registration requirement but chose not to register are considered to have knowingly and willfully failed to register and are therefore ineligible for FSA funds. Your school’s decision in this case is final and cannot be appealed to the Department except as noted in the margin.

Determining if non-registration was knowing and willful

Unless you can document that the student meets one of the registration exemptions or that he served on active duty in the armed forces (with a character of service other than dishonorable), he must write to the Selective Service to get a status information letter addressing his failure to register. He may also download a request form from www.sss.gov to print out, complete, and mail. The student should provide as complete a description about his situation as possible: where he was living during the period when he should have registered, whether he was incarcerated or institutionalized, his citizenship status during the period, if applicable, and so on.

If the student receives a “general exemption letter” (codes E1-E8) or a “DOB before 1960” letter (code NR), he is exempt from registration and may receive FSA funds. If he receives any other type of letter, you must determine based on all relevant evidence whether he knowingly and willfully failed to register. The letter from Selective Service may provide information that is crucial to your decision. For example, if the student received a letter indicating a compliance letter had been sent (code RL), this would be a negative factor when you make the determination. If the student received a “Military Service: Noncontinuous” letter (code NM), you might reasonably determine that the student did not knowingly and willfully avoid registration.

Most of the status information letters state that the final decision regarding the student’s eligibility rests with the agency awarding funds. For the purposes of the FSA Programs, the decision is made by your school, which represents the Department of Education. If you determine that the student’s failure to register was knowing and willful, the student loses FSA eligibility.

When deciding whether the student had knowingly and willfully failed to register, you should consider the following factors:

Unsuccessful registration example

On his FAFSA, Hector asks the CPS to forward his information to the Selective Service for registration. However, he’s over 26, so the Selective Service can’t register him. His output document comes back with a blank match flag and comment 33. Hector didn’t enter the U.S. until after his 26th birthday, so he doesn’t have to be registered. Guerrero University already has information about his citizenship status, including the date he arrived in the U.S., so it has documentation that he is exempt from registration. The aid administrator explains to Hector why he wasn’t required to register.

Failure to register

34 CFR 668.37(d), (e)

Veteran Status Match

See the Application and Verification Guide for information on the veteran match and dependency status.

Appeals

The school’s decision is final and cannot be appealed to the Department except in one limited instance. The regulations state that the Department will hear appeals from students who have provided their schools with proof that they are in compliance (i.e., that they are registered or exempt from registration) but who are still being denied Federal Student Aid based on the registration requirement.

34 CFR 668.37(f)
- **Where the student lived when he was age 18–25.** For example, if a student was living abroad, it is more plausible that he would not come into contact with the requirement for registration.

- **Whether the student claims that he thought he was registered.** Mistakes in recordkeeping can occur. Correspondence indicating an attempt to register could form a basis for determining that the student did not knowingly and willfully fail to register. On the other hand, a letter from Selective Service stating that it received no response to correspondence sent to the student at a correct address would be a negative factor.

- **Why the student claims he was not aware of the widely publicized requirement to register when he was age 18–25.**

---

**Exception if SSS does not respond in 30 days**

As of this writing, the Selective Service System does not have a delay in responding to requests for status information letters. However, you may award aid while waiting for the letter from the SSS if their response time is longer than 30 days and if you have no evidence that a student intentionally failed to register. If the SSS response or other subsequent information causes you to conclude the student did knowingly and willfully fail to register, then he becomes ineligible for Federal Student Aid and he, not your school, is responsible for returning the aid he received.
Chapter 6

Eligibility for Specific FSA Programs

Most of the student eligibility requirements we have discussed so far apply to all or most of the FSA programs, but there are additional factors that are program specific.

PELL GRANTS

In general, a student must be enrolled in an undergraduate course of study to receive a Pell grant, though there are teaching certification exceptions (see the next page). A student who has earned a baccalaureate degree or a first professional degree cannot receive a Pell grant.

A student who completes a master’s program has earned a degree beyond the baccalaureate level (in many instances a professional degree), making her ineligible for a Pell grant even if she does not have a bachelor’s degree and enrolls in an undergraduate program.

A student who has received an associate degree—or any certificate or diploma below the baccalaureate level—and who enrolls in another undergraduate program continues to be considered an undergraduate student until she has completed the curriculum requirements for a first bachelor’s degree.

A student with a baccalaureate or professional degree is ineligible even if the degree is from an unaccredited school or is not recognized by your school. Similarly, a student with a baccalaureate or professional degree from a foreign school usually isn’t eligible for a Pell grant. But because a foreign degree often won’t translate neatly into the American classification, the school must judge whether it equates to a U.S. bachelor’s degree. If the student provides written documentation that the foreign degree is not equivalent to a bachelor’s degree awarded in the United States, your school may determine that he does not have a bachelor’s degree. The documents may include information about the type of school the student attended and total years of education leading to the degree.

Occasionally a student will complete all the requirements for a bachelor’s degree but will continue taking undergraduate courses without accepting the degree. Your school must decide whether and at what point the student completed the baccalaureate course of study. If your school determines that the student did complete a bachelor’s program, then he is no longer eligible to receive a Pell grant.

Undergraduate student definition

34 CFR 668.2(b)
A student enrolled in a program of study that is usually four, or sometimes five, academic years and that leads to a baccalaureate degree. A student enrolled in a program that lasts longer than five years, typically first professional degree programs such as a six-year pharmacy program, can be considered an undergraduate for only the first three or four years.

Students enrolled in dual degree programs that confer a bachelor’s degree and either a graduate or first professional degree are undergraduates for at least the first three years of the program. The school determines at what point after three years the student ceases to be an undergraduate.

For the FSEOG, Pell, and TEACH Grant programs, a student is an undergraduate only if he has not earned, or completed the requirements for, a bachelor’s or professional degree. Students enrolled in an eligible postbaccalaureate program as described on the next page are still undergraduates for receiving TEACH and Pell grants.

34 CFR 668.2(b), 686.2(d), and 690.6
Incarcerated students and sex offenders

Students incarcerated in federal and state penal institutions aren’t eligible for Pell grants, but those incarcerated in local penal institutions are. Students incarcerated by jurisdictions defined as a state in the law, such as the District of Columbia, are considered to be in a state penal institution and aren’t eligible for Pell grants. A student isn’t considered incarcerated if she is in a halfway house or home detention or is sentenced to serve only on weekends.

The cost of attendance for students who are incarcerated in local penal institutions is limited to tuition and fees and the price of books and supplies specifically related to the student’s course of study. For more information on the cost of attendance, see Volume 3, Chapter 2.

A student cannot receive a Pell grant if he is subject to an involuntary civil commitment following incarceration for a sexual offense (as determined under the FBI’s Uniform Crime Reporting Program).

Duration of eligibility

All students who first received a Pell grant on or after July 1, 2008 (the limit does not apply to students who received their first Pell grant before then), may receive Pell grants for up to 18 semesters or the equivalent. This means students can receive no more than nine scheduled awards; less-than-full-time students are assessed accordingly.

Eligible postbaccalaureate program

A student who is enrolled at least half time in a postbaccalaureate teacher certification or licensure program is eligible to receive a Pell grant for the period necessary to complete the program if:

- the program does not lead to a graduate degree;
- the school offering the program does not also offer a bachelor’s degree in education;
- the student is pursuing an initial teacher certification or licensing credential within a state; and
- the program consists of the courses required by a state to receive a professional certification or licensing credential necessary for employment as a teacher in an elementary or secondary school in that state.

Under this very limited provision, a postbaccalaureate program is defined as a program that generally requires a student to have a bachelor’s degree before being admitted to the program. Accordingly, a program in which undergraduate students are routinely allowed to enroll would not meet the definition of a postbaccalaureate program for this purpose, nor would a program that is generally open to undergraduates but that also admits students with bachelor’s degrees.

For FSA purposes, a school must treat a student who receives a Pell grant under this provision as enrolled in an undergraduate program. He is eligible for fifth-year undergraduate (not graduate student) Stafford loan limits. He is not eligible for an FSEOG.
IRAQ AND AFGHANISTAN SERVICE GRANTS & ZERO EFCS
A student whose parent or guardian died as a result of U.S. military service in Iraq or Afghanistan after September 11, 2001, may receive increased FSA funds if at the time of the parent or guardian’s death the student was either less than 24 years old or was enrolled in college.

- If the student is eligible for a Pell grant, you award and package all Title IV aid based on an EFC of zero.

- If the student is ineligible for a Pell grant only because his EFC is too high, he may receive an Iraq and Afghanistan Service Grant. As with Pell Grants, there is a receipt limit of 18 semesters, and payments are adjusted for students enrolled less than full time. Unlike Pell grants, these non-need-based grants do not count as estimated financial assistance.

  See Volume 3, Chapters 3 and 7 for the award and packaging rules for these students.

STAFFORD AND PLUS LOANS
To be eligible for Stafford loans, undergraduate students attending a school that participates in the Pell Grant Program must first receive a determination of their eligibility for Pell grants. See Volume 3, Chapter 7.

Generally a student must be enrolled or accepted for enrollment in a degree or certificate program to receive FSA funds, but there are exceptions that apply to Stafford and PLUS loans.

Preparatory coursework
A student may apply for a Stafford or PLUS loan for coursework the school has documented is necessary for him to enroll in an eligible program. The courses must be part of an eligible program otherwise offered by the school, though the student does not have to be in that program. If enrolled at least half time in these prerequisite courses, he is eligible for loans for one consecutive 12-month period (not per program) beginning on the first day of the loan period. If the period of preparatory courses spans more than one academic year, the student may receive multiple loans.

To be eligible for loans under this exception, the student must be taking classes that are a prerequisite for admission. If he is only taking them to raise his GPA in order to be admitted, he would not qualify.

Teacher certification coursework
Chapter 1 explains when a student may receive a Stafford or PLUS loan, among other aid, for courses necessary for an elementary or secondary school teaching credential or certification.

Parent borrower eligibility
To borrow a PLUS loan for a student, the parent must be the student’s biological or adoptive mother or father. Both parents may get a PLUS loan as long as the total aid package does not exceed the student’s cost of attendance. A stepparent is also eligible to borrow a PLUS loan if her income and
assets would be taken into account when calculating the dependent student’s EFC. A legal guardian is not considered a parent for FSA purposes.

A parent may receive a PLUS loan only to pay for the education costs of a dependent undergraduate student who meets the eligible student definition.

A parent must meet the same citizenship and residency requirements as a student. Similarly, a parent who owes an overpayment on an FSA grant or is in default on an FSA loan is ineligible for a PLUS loan unless he has made satisfactory arrangements to repay the grant or loan. Yet the parent’s ineligibility for a PLUS loan does not affect the student’s eligibility for FSA funds.

If the parent had a prior Stafford loan that was cancelled for total and permanent disability, he must adhere to the same eligibility requirements outlined for Stafford borrowers in Chapter 3.

Finally, a parent is not eligible for a PLUS loan if the federal government holds a judgment lien on her property or if she is incarcerated.

**Adverse credit history for PLUS**

A parent or graduate/professional student with an adverse credit history is prohibited from obtaining a PLUS loan unless he meets additional criteria. The Department obtains a credit report on each applicant for a loan from at least one national credit bureau. An applicant is considered to have an adverse credit history if:

- he is 90 days or more delinquent on any debt, or
- during the five years preceding the date of the credit report, he has been determined to be in default on a debt, his debts have been discharged in bankruptcy, or he has been the subject of foreclosure, repossession, tax lien, wage garnishment, or write-off of an FSA debt.

An applicant cannot be rejected for a PLUS loan because she has no credit history—i.e., the absence of a credit history cannot be construed as an adverse credit history.

Someone with an adverse credit history can qualify for a PLUS loan by securing an endorser who doesn’t have an adverse credit history. For a parent borrower, the endorser may not be the dependent student for whom he is borrowing. Instead of securing an endorser, an applicant may appeal a determination of adverse credit history to the Department by documenting extenuating circumstances. The Department has the final decision on whether to make a loan to the person.

If your school participates in the PLUS program but a student’s parent cannot obtain a PLUS loan, the student is allowed to borrow additional unsubsidized Stafford money (see Volume 3, Chapter 5).

**CAMPUS-BASED AID GENERAL REQUIREMENTS**

Unlike the Stafford and PLUS loan programs, a student does not have to be enrolled at least half time to be eligible to receive aid through the campus-
based programs unless the student is seeking aid to attend a teacher certification or professional credential program.

A student enrolled as an undergraduate, graduate, or professional student is eligible to receive assistance from the Federal Perkins Loan and Federal Work-Study (FWS) programs. Only undergraduate students who do not have a baccalaureate or first professional degree are eligible to receive Federal Supplemental Educational Opportunity Grants (FSEOGs). This means that a student who has earned a bachelor’s or first professional degree may receive a Perkins loan or FWS wages to pursue a graduate or additional undergraduate degree, but he may not get an FSEOG.

See the margin note on page 38 about how the Compact Act affects FSEOG and FWS eligibility for students from the Republic of the Marshall Islands and the Federated States of Micronesia.

**Teacher certification programs**

As with Stafford loans, a student may receive a Perkins loan or FWS for coursework that doesn’t lead to a degree or certificate from the school but that is required by a state for an elementary or secondary school teaching credential or certificate. See Chapter 1.

**PERKINS LOANS**

Both undergraduate and graduate students may receive Perkins loans, but those with *exceptional financial need* (as defined by your school) have priority. To receive a Perkins loan, a student must meet the general eligibility requirements and must not have borrowed the maximum amounts. A student who has earned a bachelor’s or first professional degree may receive a Perkins loan to pursue an additional undergraduate degree.

For students to receive a Perkins loan, they must provide the school a driver’s license number (if they have one) when they apply for the loan, and they must have their eligibility for a Pell grant determined if they are undergraduates.

A borrower who is in default on an FSA loan is not eligible for a Perkins loan unless she has regained eligibility. However, a borrower who satisfies any of the conditions that remove her defaulted Perkins loan from the school’s cohort default rate becomes eligible for additional Perkins loans.

As with Stafford loans, if a borrower received a discharge of a Perkins loan or NDSL due to total and permanent disability and applies for another Perkins loan or NDSL, she must follow the procedure explained in Chapter 3.

**Willingness to repay**

In selecting Perkins loan recipients, a school must consider evidence of a borrower’s willingness to repay the loan. Delinquency, default, or other failure to meet repayment obligations on a previous loan is evidence that the borrower is unwilling to repay a loan. For example, if a borrower has previously satisfied a defaulted student loan involuntarily (such as by garnishment of the borrower’s wages), a school should consider this as evidence of unwillingness to repay and should deny further loan assistance to the borrower.
Previous Perkins loan discharged in bankruptcy

Due to the Bankruptcy Reform Act of 1994, a student or parent may not be denied FSA loans solely on the basis of a bankruptcy filing or discharge. They also may not be required to repay a previously discharged loan in order to reestablish eligibility for new loans. However, aid administrators have more latitude in making awards under the Perkins than the Direct Loan program because they may consider a student’s willingness to repay. If a student has filed for or received a loan discharge in bankruptcy or has had an FSA loan determined dischargeable by a court of law, the bankruptcy may be considered when determining a student’s willingness to repay provided it is not the sole basis for the determination and for a denial of a Perkins loan. Schools may also, of course, consider the student’s post-bankruptcy credit history in determining willingness to repay.

FEDERAL WORK-STUDY (FWS)

To be eligible for a Federal Work-Study (FWS) job, a student must meet the usual eligibility criteria and must have financial need, that is, his cost of attendance must be greater than his expected family contribution (EFC). Also, a financial aid administrator may not award FWS employment to a student if that award, when combined with all other resources, would exceed the student’s need. However, unlike the other two Campus-based programs, the FWS Program does not require that priority be given to students who have exceptional financial need. In choosing students for FWS employment, schools must follow the procedures discussed in Volume 3, Chapter 6.

A student can be employed in an FWS job during a period of non-attendance, such as a summer term. He must be planning to attend school during the next period of enrollment and must have financial need for that period—his current FWS earnings must be used to cover expenses for it and will count as estimated financial assistance. See Volume 6, Chapter 2, for more information.

FSEOG

To receive a Federal Supplemental Educational Opportunity Grant (FSEOG), a student must have financial need and must meet the general eligibility requirements discussed in the other chapters of this volume. Students with the lowest EFCs who will also receive Pell grants for the award year have primary consideration for an FSEOG. If after giving FSEOG awards to all its Pell recipients a school has FSEOG funds remaining, it can award those funds to eligible students with the lowest EFCs who will not receive Pell grants. See Volume 3, Chapter 6.

Additionally, to receive an FSEOG one must be enrolled or accepted for enrollment as an undergraduate student and must not have previously earned a bachelor’s or first professional degree.

A school must make FSEOG funds reasonably available (to the extent that funds remain) to all eligible students.
### TEACH GRANTS

The Teacher Education Assistance for College and Higher Education (TEACH) Grant Program provides $4,000 annual grants to students who plan to become teachers. Candidates must agree to serve as full-time teachers at certain schools and within certain high-need fields for at least four academic years within eight years of completing the course of study for which a grant was received. If a grant recipient does not meet that obligation, the TEACH grant funds he received convert to a Direct unsubsidized loan that must be repaid with interest.

### Amount of grant funds available

A full-time TEACH grant recipient may receive four scheduled awards of $4,000 each, or a total of $16,000, for her first (those after the first are not eligible) baccalaureate and postbaccalaureate programs combined. A graduate student may receive two scheduled awards, or a total of $8,000, for a master’s degree program. Students who are enrolled less than full time have the same maximums, though the annual awards will be smaller: for example, a student enrolled half time in a master’s program could receive an annual award of $2,000 for each of the four years it would take her to complete her program. A TEACH grant in combination with other assistance the student receives cannot exceed the cost of attendance; if it does, her aid package must be reduced.

### Receiving a TEACH grant

To qualify for a TEACH Grant, a student fills out not only a FAFSA but an agreement to serve (explained later) and must be enrolled in a program and at a school that are both TEACH-grant eligible.

Students must adhere to an academic standard: they must have a grade point average of at least 3.25 on a 4.0 scale, or the numeric equivalent (see “Schools without a traditional GPA” on page 75), or must have scored above the 75th percentile on at least one of the batteries on a nationally-normed standardized undergraduate, postbaccalaureate, or graduate school admissions test. An undergraduate student uses for the first year her final high school GPA or the GPA for all the classes she has taken at college through the most recently completed payment period; after the first year she uses the latter GPA. A graduate student uses her undergraduate GPA for the first payment period and her cumulative graduate school GPA thereafter.

You must have documentation of the GPA from the cognizant authority or from the student. For high school grades the authority is typically the high school or, in the case of homeschooled students, the parents or guardians. If the student provides the document and you have reason to question its accuracy, you must obtain documentation directly from the cognizant authority.

The above academic requirements do not apply to certain graduate students. This group comprises current teachers or retirees from another occupation with expertise in a high-need field who are seeking a master’s degree, as well as current or former teachers who are completing a high-quality alternative certification, such as Teach for America.

When you determine TEACH grant eligibility for transfer students and calculate their GPA, you must, for at least the first payment period, include
grades for courses accepted for transfer into the TEACH grant-eligible program. For subsequent payment periods, follow your academic policy regarding the calculation of the GPA, whether that is to include grades for courses that transfer or to exclude them.

Agreement to serve

To receive a TEACH grant, a student must sign an agreement to serve. This document explains that the student will:

- Serve as a full-time teacher for a total of at least four academic years within eight calendar years of completing or otherwise ceasing to be enrolled in the course of study for which the TEACH grant was received;
- Teach at a school or educational service agency serving low-income students;
- Comply with the requirements for being a highly qualified teacher (see the margin note on the next page);
- Teach (in the majority of classes) in a high-need field, which includes subjects on the nationwide shortage area list at [http://www.ed.gov/about/offices/list/ope/pol/tsa.html](http://www.ed.gov/about/offices/list/ope/pol/tsa.html) that is updated each year by the Department;
- Upon completion of each year of service, provide certification of that service from the chief administrative officer of the school or educational service agency; and
- If she fails or refuses to carry out her service obligation in the time noted above, repay as an unsubsidized Direct loan the total amount of the TEACH grants received, with interest accrued as of the date of disbursement of each grant.

A person must complete a four-year service obligation for each program of study for which he receives TEACH grants. The eight-year period for completing this obligation begins when his enrollment in the program ends. Teaching may apply to more than one obligation: for example, a student who completes a bachelor’s and a master’s program consecutively and receives TEACH grants for both would have two service obligations. He could receive a suspension for completing the obligation for the undergraduate program while he is enrolled in the master’s program. Once that is done, four years of qualifying teaching would satisfy the service obligations for both programs. However, if he finishes the bachelor’s program, completes the obligation for it, and later enrolls in the master’s program, he would need to complete another four-year service obligation.

For each year of the person’s service obligation, she must teach a majority of classes in a high-need field. Fields on the nationwide list must be designated as high-need by the state where and when she begins teaching or they must have been listed when she received her TEACH grant. Teaching in a geographic region of a state or in a grade level not associated in the nationwide list with the student’s field does not satisfy the service obligation.
Schools without a traditional GPA

Schools that do not use a standard 4.0 GPA scale for a program must have a written equivalency policy with a numeric scale and must make it available upon request. The policy must clearly differentiate student performance so that it can support a determination that a student has achieved at a level commensurate with at least a 3.25 GPA on a 4.0 scale. Generally a grading scale that includes only “pass/fail,” “satisfactory/unsatisfactory,” or some other non-numeric evaluation will not meet this requirement unless it can be shown that a “pass” or “satisfactory” grade has a numeric equivalent to a traditional 3.25 GPA (or higher) or that a student’s performance on tests and assignments yielded such a numeric equivalent.

Such a policy must be consistent with other grading scales that the school has developed for academic and other (including FSA) purposes—e.g., graduate school applications, scholarship eligibility, insurance certifications—to the extent that such scales distinguish between levels of student academic performance.

School without traditional GPA
At Chisos Basin University instructors submit at the end of the semester an evaluation that the work a student does in a class is “satisfactory” or “unsatisfactory.” The catalog indicates that the evaluation is never translated into a grade by the registrar’s office. Neither the catalog, the faculty handbook, nor any other CBU publication differentiates levels of satisfactory student performance. Even though the state scholarship program accepts a “satisfactory” as the equivalent of a “B,” the university may not make such an assumption for the TEACH Grant program. Moreover, a “B” grade generally corresponds to a GPA of 3.0, while TEACH grants require a GPA of 3.25 or better.

Highly qualified teacher
The definition of “highly qualified” with respect to teachers is lengthy and is explained in Section 9101(23) of the Elementary and Secondary Education Act [USC 7801(23)] and Section 602(10) of the Individuals with Disabilities Education Act [USC 1401(10)].
Institutional Eligibility

This chapter discusses the three types of institutions that are eligible to participate in the Federal Student Aid (FSA) programs. If circumstances change and a participating school no longer qualifies as an eligible institution, it must notify the Department (see Chapter 5) and carry out the closeout procedures described in Chapter 9 of this Volume.

A school that wishes to participate in the FSA programs must demonstrate that it is eligible to participate before it can be certified for participation. A school must apply to and receive approval from the Department of its eligibility to participate. Some schools apply only for a designation as an eligible institution (they do not seek to participate) so that students attending the school may receive deferments on FSA program loans, or be eligible for the HOPE/Lifetime Learning Scholarship tax credits or other non-FSA programs that require that the school be FSA-eligible. The same application is used to apply for both eligibility and certification for participation (see Chapter 2).

TYPE & CONTROL

Type: the three definitions of eligible institutions

The regulations governing institutional eligibility define three types of eligible institutions— institutions of higher education, proprietary institutions of higher education, and postsecondary vocational institutions. Under the three definitions, a school is eligible to participate in all the FSA programs provided the school offers the appropriate type of eligible program (see chart on next page). This section covers the key elements of the three definitions, giving special attention to those requirements that affect the definition of an eligible program.

Although the criteria for the three types of institutions differ somewhat, note that it is possible for some programs at a public or private nonprofit institution to meet the requirements for a postsecondary vocational institution.

Institutional control

The control of an institution distinguishes whether the institution is public or private, nonprofit or for-profit. Under the institutional definitions, an institution of higher education or a postsecondary vocational institution can be either public or private, but is always nonprofit. A proprietary institution of higher education is always a private, for-profit institution.
# Type and Control of Eligible Institutions

<tbody>
<tr>
<td>A public or private nonprofit educational institution located in a state</td>
<td>The institution must provide training for gainful employment in a recognized occupation, or have provided a program leading to a baccalaureate degree in liberal arts continuously since Jan. 1, 2009 (with continuous regional accreditation since Oct. 1, 2007 or earlier). Programs offered: must meet the criteria of at least one category below. (1) Provides at least a 15-week (instructional time) undergraduate program of 600 clock hours, 16 semester or trimester hours, or 24 quarter hours. May admit students without an associate degree or equivalent. (2) Provides at least a 10-week (instructional time) program of 300 clock hours, 8 semester or trimester hours, or 12 quarter hours. Must be a graduate/professional program, or must admit only students with an associate degree or equivalent. (3) Provides at least a 10-week (instructional time) undergraduate program of 300–599 clock hours. Must admit at least some students who do not have an associate degree or equivalent, and must meet specific qualitative standards. Note: These programs are eligible only for Direct Loan participation.</td>
<td>A public or private nonprofit educational institution located in a state</td>
</tr>
</tbody>
</table>

Program offered:

(1) Associate, bachelor’s, graduate, or professional degree, or

(2) At least a two-year program that is acceptable for full credit toward a bachelor’s degree, or

(3) At least a one academic year training program that leads to a certificate or other nondegree recognized credential and prepares students for gainful employment in a recognized occupation.

All three institutional types may also provide a comprehensive transition & postsecondary program for individuals with intellectual disabilities.

“Two-Year Rule” (applicable to proprietary and postsecondary vocational institutions) — Legally authorized to give (and continuously has been giving) the same postsecondary instruction for at least two consecutive years.
BASIC CRITERIA FOR ELIGIBLE INSTITUTIONS

To be eligible, an institution must:

- be **legally authorized** by the state where the institution offers postsecondary education to provide a postsecondary education program,
- be **accredited** by a nationally recognized accrediting agency or have met the alternative requirements, if applicable, and
- **admit as a regular student** only individuals with a high school diploma or its recognized equivalent, or individuals beyond the age of compulsory school attendance in the state where the institution is located.

These requirements are discussed in the following sections.

LEGAL AUTHORIZATION BY A STATE

Generally, an eligible institution must be located in a state. A school is physically located in a state or other instructional site if it has a campus or instructional site in that state. There are exceptions:

- Institutions of higher education in the Federated States of Micronesia and the Republic of the Marshall Islands are eligible for purposes of the Federal Pell program.
- Institutions of higher education in Palau are eligible for purposes of the Federal Pell, FSEOG, and FWS programs.
- Foreign schools are eligible to participate in the Direct Loan program, subject to the rules for foreign schools in 34 CFR 600.51-57.

To qualify as an eligible institution under any of the three institutional definitions, a school must be legally authorized by the state in which it offers an educational program to provide the program.

A school is legally authorized by a state when it is established **by name** as an educational institution by a state through a charter, statute, constitutional provision, articles of incorporation, or other action issued by an appropriate state agency or state entity and is authorized to operate educational programs beyond secondary education, including programs leading to a degree or certificate. The school must comply with any applicable state approval or licensure requirements, except in cases where the state exempts the school from any of its requirements based upon the school being in operation for at least 20 years or the school’s accreditation by one or more accrediting agencies recognized by the Department.

If a school has not been established **by name** as an educational institution but has been established by a state on the basis of an authorization to conduct business in the state or to operate as a nonprofit charitable organization, the school must be approved or licensed **by name** by the state to offer programs beyond secondary education, including programs leading to a degree or certificate. Such a school may not be exempted from the state’s approval or
licensure requirements based on accreditation, years in operation, or other comparable exemption.

The regulations list several exceptions to the state authorization requirement—

1. the federal government has authorized the school by name to offer educational programs beyond secondary education.

2. an Indian tribe (as defined in 25 USC 1801(a)(2)) has authorized the school by name to offer educational programs beyond secondary education, provided that the school is located on tribal lands and the tribal government has a process to review and appropriately act on complaints concerning a school and enforces applicable tribal requirements or laws.

3. the school is exempt from state authorization as a religious institution under the state constitution or by state law (see sidebar for regulatory definition).

A school must have evidence that it has the authority to operate in a state at the time of the school’s certification to participate in the FSA programs. For more information on applying for participation in the FSA programs, see the New School Guide.

<td>The State must have a State approval or licensure process, and the institution must comply with the State approval or licensure process and be approved or licensed by name. An institution in this category may not be exempted from State approval or licensure based on accreditation, years in operation, or a comparable exemption.</td>
</tr>
<tr>
<td>Charitable Organizations</td>
<td>A nonprofit entity established by the State on the basis of an authorization or license for the public interest or common good.</td>
<td>The State must have a State approval or licensure process, and the institution must comply with the State approval or licensure process and be approved or licensed by name. An institution in this category may not be exempted from State approval or licensure based on accreditation, years in operation, or a comparable exemption.</td>
</tr>
</tbody>
</table>

Note: The chart does not take into account requirements related to state reciprocity or federal, tribal, and religious institutions that are exempt from these requirements.
ACCREDITATION

Generally, a school must be accredited or preaccredited by a nationally recognized accrediting agency or association (both referred to here as agencies) to be eligible.

Except as provided below, a school must be accredited by an agency that has the authority to cover all of the institution’s programs. An agency such as this is referred to as the school’s primary accrediting agency. A school can have only one primary accreditor.

A school may also be accredited by one or more programmatic accrediting agencies. A programmatic accrediting agency is one that accredits only individual educational programs that prepare students for entry into a profession, occupation, or vocation.

If a school is seeking to change primary accreditors it must first provide the Department (and the agencies) all materials documenting the reasons and causes for making the change. (Information on changes in accreditation can be found in Chapter 5.)

Alternatives to regular accreditation

The law provides two statutory alternatives to accreditation by a recognized accrediting agency. First, a public or private nonprofit institution may be preaccredited by an agency or association that has been approved by the Department to grant such preaccreditation. Second, public postsecondary vocational educational institutions may be eligible for FSA funds if accredited by a state agency that the Department determines to be a reliable authority.

Primary accreditor

The primary accreditor typically is an accrediting agency whose scope is institution-wide rather than only programmatic. A participating institution must advise the Department which accrediting agency it wants to serve as its primary accrediting agency for the purpose of FSA eligibility. If a school offers only programs of a singular nature, the school’s primary accreditor may be an agency that accredits only those specific educational programs.

Dual accreditation

If a school is accredited by two agencies at the same time, the school must designate which agency’s accreditation will be used in determining institutional eligibility for FSA funds and must inform the Department via the E-App. Further, the school must provide to the Department (and to both agencies) all materials documenting the reasons and causes for dual accreditation before the school adds the additional accreditation. See Chapter 5 for more on changes in accreditation and loss of eligibility.

ADMISSIONS STANDARDS

An eligible institution may admit as regular students only persons who have a high school diploma or its recognized equivalent, or persons who are beyond the age of compulsory school attendance in the state in which the school is located. (Admissions standards also play a role in student eligibility, as discussed in Volume 1, Chapter 1.)
High school diploma

A high school diploma is a document recognized by the state in which the high school is located. Unless required by its accrediting or state licensing agency, the school is not required to keep a copy of a student’s high school diploma or GED (the recognized equivalent of a high school diploma, see below). Rather, the school may rely on the student’s certification (including that on the FAFSA) that he or she has received the credential and a copy of the certification must be kept on file. This certification need not be a separate document. It may be collected on the school’s admissions application. The school may also require the student to provide supporting documentation.

Recognized equivalent of a high school diploma

Generally, a recognized equivalent of a high school diploma is either a GED or a state certificate (received after the student has passed a state-authorized test) that the state recognizes as being equivalent to a high school diploma. However, the regulations also recognize two special cases that are equivalent to a high school diploma:

• An academic transcript showing that the student has successfully completed at least a two-year program that is acceptable for full credit toward a bachelor’s degree.

• For a student who is seeking enrollment in a program of at least the associate degree level, documentation showing that the student has excelled academically in high school and has met the formalized written admissions policies of the postsecondary school.

Homeschooled students & compulsory school attendance

The Department considers that a homeschooled student is beyond the age of compulsory school attendance if the state in which the eligible institution is located does not consider the student truant once he or she has completed a homeschool program.

For instance, if your state requires children to attend school until age 17, you may admit as a regular student a homeschooled student who completes the secondary curriculum at age 16 if your state

• would not consider the student truant, and

• would not require that student go back to high school or continue a home-school education until age 17.

You may rely on a homeschooled student’s self-certification that he or she completed secondary school in a homeschool setting, as discussed in Volume 1, Chapter 1, under “Academic Qualifications.”

Preparatory programs for students without high school diploma or equivalent

A school that admits students without a high school diploma or its recognized equivalent (except homeschooled students) must make available to its students a program that has proven successful in assisting students in obtaining the recognized equivalent of a high school diploma.
For example, such a program might assist a student in obtaining a General Educational Development (GED) test or a state certificate received by a student after the student has passed a state-authorized examination that the state recognizes as the equivalent of a high school diploma. Such programs include preparatory programs that are conducted by state and local secondary school authorities, as well as programs for which the school has documentation that statistically demonstrates success. The school must provide information about the availability of the preparatory program to affected students.

The program does not have to be provided by the school itself, and the school is not required to pay the costs of the program. The program must be offered at a place that is convenient for the students and the school must take reasonable steps to ensure that its students have access to the program, such as coordinating the timing of its program offerings with that of the preparatory program.

The law does not require a school to verify that a student is enrolled in a preparatory program or to monitor the student’s progress in the program. A student admitted based on his or her ability to benefit who does not have a high school diploma or its recognized equivalent is not required by law to enroll in a program, but the school may make this an admission requirement.

A student may not receive FSA funds for the program, although he or she may be paid for postsecondary courses taken at the same time as the preparatory coursework, including remedial coursework at the secondary level or higher.

“TWO-YEAR” RULE FOR NEW PROPRIETARY OR VOCATIONAL SCHOOLS

To be eligible as a proprietary institution or a postsecondary vocational institution, a school must be legally authorized to give (and have continuously been giving) the same postsecondary instruction for at least two consecutive years prior to its application. The educational program(s) offered must remain substantially the same in length and subject matter, except for changes made because of new technology or requirements of other federal agencies. A school subject to the two-year rule may not award FSA funds to a student in a program that is not included in the school’s approval documents.

If a school is subject to the two-year rule, during the school’s initial period of participation in the FSA programs the Department will not approve additional programs that would expand the institution’s eligibility. An exception would be considered if the school demonstrates that the program has been legally authorized and continuously provided for at least two years prior to the date of the request.

A branch campus of an eligible proprietary institution or postsecondary vocational institution seeking status as a main campus or freestanding institution is subject to the two-year rule. A branch campus must be designated as such by the Department for two years after certification as a branch campus before the branch can seek certification as a main or freestanding school.

**Limitation on students admitted without HS diploma or equivalent**

A school that admits students who do not have a high school diploma nor its recognized equivalent has some additional considerations. A waiver of this limitation is possible for some schools. See the discussion under Limitation on students without HS diploma or equivalent.

**Students without high school diploma or equivalent: related topics**

Remedial coursework, ability to benefit tests, students with intellectual disabilities, see Volume 1, Chapter 1. Transition programs for students with intellectual disabilities are discussed in Chapter 2.

**Branch campus**

A branch campus is a location of a school that is geographically apart and independent of the main campus of the school. A location is considered to be independent of the main campus if the location:

- is permanent in nature;
- offers courses in educational programs leading to a degree, certificate, or other recognized educational credential;
- has its own faculty and administrative or supervisory organization; and
- has its own budgetary and hiring authority.

**Citations**

Branch campus
34 CFR 600.2 and 600.8
Additional location
34 CFR 600.32
An additional location must obtain approval from the Department to become a branch campus. A branch campus then must operate as a branch campus for two years (satisfying the two-year rule) before it may be considered for status as a freestanding institution. Time as an additional location of an eligible proprietary institution or postsecondary vocational institution does not count toward the two-year rule.

FACTORS LEADING TO LOSS OF ELIGIBILITY

Limitations
An otherwise eligible institution becomes an ineligible institution if the school violates, among other requirements—

- the 50% limit on students without a high school diploma or equivalent (for schools that don't offer a 4-year bachelor's degree program or a 2-year associate degree program),
- the incarcerated student limitation (25%) or
- the correspondence course limitation (50%) or the correspondence student limitation (50%).

The school must demonstrate compliance with these limitations, and its calculations must be attested to by the independent auditor. We will discuss the calculations in more detail in Chapter 4, which describes FSA audit requirements. As discussed in Chapter 4, the school must notify the Department of the failure to meet any of these requirements.

Bankruptcy or crimes involving FSA programs
A school is not eligible if it files for for relief in bankruptcy or has entered against it an order for bankruptcy. The school is also ineligible if either of these circumstances apply to an affiliate of the school that has the power, by contract or ownership interest, to direct or cause the direction of the management of policies of the school.

A school also loses its eligibility if the school, its owner, or its executive officer has

- pled guilty to, has pled nolo contendere to, or is found guilty of, a crime involving the acquisition, use, or expenditure of FSA program funds; or
- been judicially determined to have committed fraud involving FSA program funds.

If a school becomes ineligible for any of these reasons, the school must notify the Department of the change within 10 days. A school that becomes ineligible because of one of these factors must immediately stop awarding FSA funds and must follow the requirements for a school that has lost its FSA participation (see Chapter 9). The loss of eligibility is effective as of the date of the bankruptcy, or the date the school or individual pleads to or is found responsible for the crime, as applicable. A loss of eligibility for these two reasons is permanent. The institution’s eligibility cannot be reinstated.
CRITERIA TO PARTICIPATE IN TEACH GRANT PROGRAM

Eligibility for the Teacher Education Assistance for College and Higher Education (TEACH) Grant program is not automatically extended to an FSA-eligible postsecondary school. A school qualifies as a “TEACH Grant-eligible institution” if it offers a high-quality teacher preparation program at either the baccalaureate or masters level and provides supervision and support services to teachers (or assists in the provision of such services). The teacher preparation program must be—

- accredited by a specialized accrediting agency recognized by the Department for the accreditation of professional teacher education programs, or
- approved by a state and must provide extensive pre-service clinical experience.

If a school does not have a teacher preparation program, it can qualify for TEACH grants if it—

- provides one or more 2-year programs of study that are acceptable for full credit to either a baccalaureate teacher preparation degree program or a baccalaureate degree program in a high-need field at another TEACH-eligible school with which it has an agreement;
- offers a baccalaureate degree that, in combination with other training or experience, will prepare a student to teach in a high-need field and has an agreement with another institution that offers a teacher preparation program or a post-baccalaureate program that prepares students to teach; or
- Offers a post-baccalaureate program that will prepare a student to teach.

APPLYING AS AN ELIGIBLE NONPARTICIPATING SCHOOL

Some schools choose to establish their eligibility for FSA programs but elect not to participate in them because designation as an eligible institution qualifies a school or its students to apply to participate in non-FSA programs, such as the HOPE and Lifetime Learning Tax Credit. In addition, only students attending eligible institutions qualify for in-school deferments of payments on their federal education loans.

A nonparticipating eligible institution wishing to be designated an eligible nonparticipating institution may submit an E-App to the Department at any time. The application must be materially complete.

Following submission of an application, the Department will contact the school if it has additional questions about the application. Generally, this will be within 90 days of the Department receiving an application. After completing its review, if a school’s application has been approved, the Department will send an electronic notice to the president and financial aid officer notifying them that the school is eligible and that its approval letter and ECAR must be printed and maintained. If the school’s application has not been approved, the Department will notify the school and explain why.
WITHDRAWAL RATES

New schools (schools that seek to participate in an FSA program for the first time) must have an undergraduate withdrawal rate for regular students of no more than 33% during the school’s latest completed award year.

When calculating the withdrawal rate, the school must include all regular, enrolled students. The definition of enrolled does not require either payment of tuition or class attendance; therefore, the withdrawal rate calculation must include enrolled students who have not yet paid tuition or who did not actually begin attending classes.

A student is considered to have withdrawn if he or she officially withdraws, unofficially drops out, is expelled from the school, or receives a refund of 100% of his or her tuition and fees. A student who withdraws from one or more courses or programs but does not withdraw entirely from the school, does not meet the definition of withdrawn. Instead, this action is considered a change in enrollment status (e.g., the student reduced his credit hours from 12 to 6).

THE PROGRAM PARTICIPATION AGREEMENT

To participate in the FSA programs, a school must have a current Program Participation Agreement (PPA), signed by the school’s President or Chief Executive Officer and an authorized representative of the Secretary of Education.

Purpose and scope of the PPA

Under the PPA, the school agrees to comply with the laws, regulations, and policies governing the FSA programs. After being certified for FSA program participation, the school must administer FSA program funds in a prudent and responsible manner. A PPA contains critical information about a school’s participation in the FSA programs. In addition to the effective date of a school’s approval, the date by which the school must reapply for participation, and the date on which the approval expires, the PPA lists the FSA programs in which the school is eligible to participate.

Expiration or termination of the Agreement

Either the school or the Department may terminate the Program Participation Agreement. The Agreement automatically terminates if the school loses eligibility.
A school’s Program Participation Agreement expires on the date that—

- the school changes ownership that results in a change in control (see Chapter 5),
- the school closes or stops providing educational programs for a reason other than a normal vacation period or a natural disaster that directly affects the school or its students (see closure procedures in Chapter 9),
- the school ceases to meet the eligibility requirements (see Chapter 4 and “Factors Leading to Loss of Eligibility” in this chapter),
- the school’s period of participation expires, or
- the school’s provisional certification is revoked (see Chapters 4, 5, and 9).

In the case of a location of the school, the school’s program participation agreement no longer covers a location as of the date on which that location ceases to be a part of the participating institution.

**Programs covered by the PPA**

An eligible school must enter into a PPA with the Department to participate in the following programs:

- Federal Pell Grant
- Iraq and Afghanistan Service Grant*
- TEACH Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Federal Work-Study (FWS)
- Federal Perkins Loan (Perkins)
- Federal Direct Loan Program (DL)

* A school that is certified for Pell Grant purposes is considered to be certified for the Iraq and Afghanistan Service Grant program.
Selected provisions of the Program Participation Agreement

Most of the provisions of the Program Participation Agreement (PPA) are discussed in detail in Volume 2 and other volumes of the Federal Student Aid Handbook. In this section, we highlight some of the general school requirements in the PPA that may not be as familiar to financial aid professionals.

Note that the PPA may list additional requirements that are school-specific; schools must carefully review all of the requirements listed on their PPA.

General Terms & Conditions

• The school certifies that it will comply with
  a. Title VI of the Civil Rights Act of 1964, as amended, barring discrimination on the basis of race, color, or national origin;
  b. Title IX of the Education Amendments of 1972, barring discrimination on the basis of sex;
  c. the Family Rights and Privacy Act of 1974 (see Chapter 9)
  d. Section 504 of the Rehabilitation Act of 1973, barring discrimination on the basis of physical handicap (34 CFR Part 104); and
  e. The Age Discrimination Act of 1975 (34 CFR Part 110);
• The school acknowledges that the Department, states, and accrediting agencies may share information about the school without limitation.
• The school acknowledges that the school must, prior to any other legal action, submit any dispute involving the final denial, withdrawal, or termination of accreditation to initial arbitration.

General Provisions

• The school will use funds received under any FSA program as well as any interest and other earnings thereon solely for the purposes specified for that program.
• If the school is permitted to request FSA program funds under an advance payment method, the school will time its requests for funds to meet only the school's immediate FSA program needs (see Volume 4, Chapter 2).
• The school will not charge for processing or handling any application, form, or data used to determine a student's FSA eligibility (see Chapter 3).
• The school will establish administrative/fiscal procedures and reports that are necessary for the proper and efficient management of FSA funds, and it will provide timely information on its administrative capability and financial responsibility to the Department and to the appropriate state, guaranty, and accrediting agencies (see Chapter 8).
• The school must acknowledge the authority of the Department and other entities to share information regarding fraud, abuse, or the school's eligibility for participation in the FSA programs (see Chapter 9).
• The school must, in a timely manner, complete reports, surveys, and any other data collection effort of the Department including surveys under the Integrated Postsecondary Education Data System (see Chapter 8).
• The school cannot penalize in any way a student who is unable to pay school costs due to compliance with the FSA program requirements or due to a delay in an FSA loan disbursement caused by the school.
program participation agreement—selected provisions, continued

• The school must comply with the program integrity requirements established by the Department, state authorizing bodies, and accrediting agencies (see Chapter 9).

• The school is liable for all improperly administered funds received or returned under the FSA programs including any funds administered by a third-party servicer (see Chapter 3).

• If the stated objectives of an educational program offered by the school are preparing students for gainful employment in a recognized occupation the school will
  a. demonstrate a reasonable relationship between the length of the program and entry level requirements for the recognized occupation, and
  b. establish the need for the training for the student to obtain employment in the recognized occupation for which the program prepares the student.

Certifications
Three certifications are included in the PPA:
• Lobbying; Debarment, Suspension, and other responsibility matters; and Drug-Free Workplace Requirements (see Chapter 8).
• Drug Prevention Certification (see Chapter 8).
• Certification regarding Debarment, Suspension, Eligibility, and Voluntary Exclusion—lower tier covered transactions.

Direct Loans
• The school will not charge any fees of any kind to student or parent borrowers for loan application, origination activities, or the provision and processing of any information needed to receive a Direct Loan.
• The note or evidence of obligation of the loan shall be the property of the Secretary.
• The school accepts responsibility and financial liability stemming from its failure to perform its functions under this Program Participation Agreement.

Additional requirements
In addition to the requirements listed on the PPA, a school must meet any requirements for participation in the General Provisions (34 CFR Part 668), as well as those specific to an individual FSA program.

* Federal Pell Grant Program, 20 USC 1070a et seq; 34 CFR Part 690.
* Federal Direct Student Loan Program, 20 USC 1087a et seq; 34 CFR Part 685.
* Federal Supplemental Educational Opportunity Grant Program, 20 USC 1070b et seq; 34 CFR Part 676.
* Federal Work-Study Program, 42 USC 2751 et seq; 34 CFR Part 675.

These requirements are discussed in the Application and Verification Guide and volumes 1–6 of this Federal Student Aid Handbook.
CHAPTER 2

Program Eligibility, Written Arrangements, & Distance Education

Many of the program eligibility requirements are derived from the institutional definitions that we discussed in Chapter 1. However, bear in mind that institutional eligibility does not mean that all programs at the school are eligible. A financial aid office should have a process to confirm the eligibility of an educational program before paying any FSA funds to students enrolled in that program, and should promptly report changes to the Department following the procedures in Chapter 5.

DETERMINING PROGRAM ELIGIBILITY

Because a school’s eligibility does not necessarily extend to all its programs, the school must ensure that a program is eligible before awarding FSA funds to students in that program. The school is responsible for determining that a program is eligible.

In addition to determining that the program meets the eligible program criteria given in this chapter, the school should make certain that the program is included under the notice of accreditation from a nationally recognized accrediting agency (unless the agency does not require that particular programs be accredited).

The school should also make certain that it is authorized by the appropriate state to offer the program (if the state licenses individual programs at postsecondary institutions). In some instances a school or program may need a general authorization as well as licensure for a specific program approval. (Please see the chart on Eligible Institutions and the discussion under Legal authorization by a state in Chapter 1.)

A school’s eligibility extends to all eligible programs and locations that were identified on the school’s E-App, unless the School Participation Team (SPT) determines that certain programs or locations did not meet the eligibility requirements or it has not approved the expansion for purposes of FSA eligibility. In general, the school’s eligible nondegree programs and locations are specifically named on the Eligibility and Certification Approval Report (ECAR). Additional locations and programs may be added later. Once the SPT has approved the program/location, it will notify the school and you can print out the updated ECAR.

If a program offered through telecommunications or continuing education meets the definition of an eligible program, students enrolled in that program must be considered for FSA program assistance on the same basis as students enrolled in eligible programs offered through traditional modes. With some limitations, if a program offered through correspondence

CHARTER 2 HIGHLIGHTS

- Determinating program eligibility
- Basic types of eligible programs
  - at an institution of higher education
  - at proprietary or postsecondary vocational institutions
- Programs leading to gainful employment
- Criteria for other program types
  - Programs for: students with intellectual disabilities; TEACH Grants; ESL; direct assessment; study abroad; flight school
- Written arrangements between schools
- Distance education & correspondence study
- Clock-hour/credit-hour conversions

Program eligibility

34 CFR 668.8
34 CFR 691.2(b)

Program eligibility and school & student eligibility

To qualify as an eligible institution, a school must offer at least one eligible program. Not all programs at an eligible institution must be eligible, but at least one of the programs at the school must meet the eligible program requirements.

Except for students enrolled in certain preparatory or teacher certification courses, a student must be enrolled in an eligible program to receive FSA funds (for more information, see Volume 1, Chapter 1).
meets the definition of an eligible program, students enrolled in that program will be considered eligible (see *Distance education and correspondence study* in this chapter).

### BASIC TYPES OF ELIGIBLE PROGRAMS

**Eligible programs at an institution of higher education**

At a school that qualifies as a public or private nonprofit institution of higher education, the following types of programs are eligible for FSA purposes:

- a program that leads to an associate, bachelor’s, professional, or graduate degree.
- a program of at least 2 academic years in duration that is acceptable for full credit toward a bachelor’s degree,
- a program of at least 1 academic year in duration that leads to a certificate or other nondegree recognized credential, and prepares students for gainful employment in a recognized occupation, or
- a certificate or diploma training program that is less than 1 year (if the school also meets the definition of a postsecondary vocational institution).

Note that a nondegree program at a public or private nonprofit institution is subject to the rules for a “gainful employment program” (unless the program is at least a 2-year transfer program). Gainful employment programs are explained below.

**Eligible programs at a proprietary or postsecondary vocational institution**

There are three types of eligible programs at a proprietary institution or a postsecondary vocational institution. All of these programs must have a specified number of weeks of instruction, and must provide training that prepares a student for gainful employment in a recognized occupation.

- The first type of eligible program must provide at least 600 clock hours, 16 semester or trimester hours, or 24 quarter hours of undergraduate instruction offered during a minimum of 15 weeks of instruction. The program may admit as regular students persons who have not completed the equivalent of an associate degree.
- The second type of eligible program must provide at least 300 clock hours, 8 semester hours, or 12 quarter hours of instruction offered during a minimum of 10 weeks of instruction. The program must be a graduate or professional program or must admit as regular students only persons who have completed the equivalent of an associate degree.
- The third type of program is known as the short-term program. A short-term program qualifies for the Direct Loan program only. This type of program must provide at least 300 but less than 600 clock hours of instruction offered during a minimum of 10 weeks of instruction. The program must admit as regular students some

**Recognized occupation**

All non-degree programs must prepare students in that program for gainful employment in a specific recognized occupation. (This requirement also applies to degree programs at proprietary schools.)

A “recognized occupation” is one that is:

- identified by a Standard Occupational Classification (SOC) code established by the Office of Management and Budget, or an Occupational Information Network (O*NET—SOC) code established by the Department of Labor and available at O*NET OnLine, at [http://www.onetonline.org/](http://www.onetonline.org/), or its successor site, or
- considered by ED, in consultation with the Department of Labor, to be a recognized occupation.

Please note that if the title of your program does not clearly indicate the specific occupation that the program prepares the student for, you must provide that information on the school’s E-App.

**Credit & clock hours**

Later in this chapter is a discussion of how program length is measured in credit and clock hours.

**Other eligible programs**

Recent legislation adds several additional categories of eligible programs:

- a direct assessment program approved by the Department (discussed later in this chapter),
- a comprehensive transition and postsecondary program approved by the Department (discussed later in this chapter), and
- a program leading to a baccalaureate degree in liberal arts (as defined in 34 CFR 600.5(e)), at a proprietary school that is accredited by a recognized regional accrediting agency or association. (The school must have been continuously accredited by a regional accrediting agency since at least October 1, 2007, and have provided the program continuously since January 1, 2009.)

Higher Education Act of 2008
34 CFR 668.8
persons who have not completed the equivalent of an associate degree.

There are several additional requirements that a short-term program must meet. The program must—

• have verified completion and placement rates of at least 70% (see chart),
• not be more than 50% longer than the minimum training period required by the state or federal agency, if any, for the occupation for which the program of instruction is intended, and
• have been in existence for at least one year.

Completion & placement rates for short-term programs

For the purpose of demonstrating compliance with the standards for short-term (300–600 clock-hour) programs, a school must calculate the completion and placement rates for the award year. The independent auditor who prepares the school’s compliance audit report must attest to the accuracy of the school’s calculation of completion and placement rates. See 34 CFR 668.8(e), (f), and (g)

Number of regular students who earned credentials for successfully completing the program within 150% of the length of the program

= Completion Rate

Number of regular students enrolled in the program for the award year
– number of regular students who withdrew with a 100% refund of tuition and fees
– number of regular students enrolled at the end of the award year

Number of students who obtained employment* within 180 days of receiving credential and who are employed (or have been employed) for at least 13 weeks following receipt of credential

= Placement Rate

Number of regular students who received credential for successfully completing the program during the award year

*in the recognized occupation for which they were trained or in a related comparable occupation

The school must document the employment of any student it includes as employed in the placement rate calculation. Examples of such documentation include, but are not limited to, a written statement from the employer, signed copies of state or federal income tax forms, or written evidence of payment of Social Security taxes.

The school must reasonably determine whether a related occupation is comparable. For instance, for a student who was trained as an auto mechanic, it is reasonable to determine that a job as a boat mechanic is comparable. However, for a person trained in retail sales management, a counter-service job at a fast-food restaurant is not comparable.
Note that all degree and nondegree programs at a proprietary institution are subject to the rules for a “gainful employment program,” except for the liberal arts programs described in the sidebar. Gainful employment programs are explained below.

**PROGRAMS LEADING TO GAINFUL EMPLOYMENT**

In order to be eligible for funding under the FSA programs, an educational program must lead to a degree (associate, bachelor’s, graduate, or professional) or prepare students for “gainful employment in a recognized occupation.” In addition, virtually all programs—degree and nondegree—offered by proprietary institutions must prepare students for “gainful employment in a recognized occupation.”

Collectively, we refer to these programs, all nondegree educational programs offered by public and nonprofit institutions and virtually all academic programs offered by proprietary institutions, as “gainful employment programs” (or “GE Programs”).

Many institutions that participate in the FSA programs, even those that are public or nonprofit and that predominantly offer degrees, will likely have one or more gainful employment programs. In fact, fewer than 1,000 out of the approximately 6,000 institutions that are currently participating in the FSA programs have no gainful employment programs. Therefore, all institutions must be aware of the new regulatory requirements and the information in this letter to ensure that they will be in compliance with the new gainful employment regulations.

The following provides specific information, presented separately for different types of institutions, on the educational programs that are considered to be gainful employment programs and, therefore, subject to the new rules relating to reporting, disclosures, and the addition of new gainful employment programs.

Certain disclosure and reporting requirement apply to gainful employment programs (see sidebar).

**Domestic proprietary institutions & domestic postsecondary vocational institutions**

Gainful Employment Programs—The following educational programs offered by these institutions are gainful employment programs subject to the new regulations:

- Undergraduate and graduate degree programs.
- Certificate programs. Certificate programs include undergraduate certificate programs, post-baccalaureate certificate programs, graduate certificate programs, and postgraduate certificate programs.
- Teacher certification programs that result in a certificate awarded by the institution (see sidebar).
• Approved “Comprehensive Transition Programs” for students with intellectual disabilities.

Not Gainful Employment Programs—The following educational programs offered by these institutions are not subject to the new GE Program regulations:

• Programs that lead to a baccalaureate degree in liberal arts if the institution has been accredited by a regional accrediting agency since October 2007 and the institution has offered the program since January 2009.

• Preparatory courses of study that provide course work necessary for enrollment in an eligible program.

Domestic public and domestic private nonprofit institutions of higher education

Gainful Employment Programs—The following educational programs offered by these institutions are gainful employment programs subject to the new regulations:

• Nondegree programs, including all certificate programs. Certificate programs include undergraduate certificate programs, postbaccalaureate certificate programs, graduate certificate programs, and postgraduate certificate programs. Note that awarding students one or more certificates as part of a degree program does not create GE programs based upon the awarding of the certificate(s).

• Teacher certification programs that result in a certificate awarded by the institution (see sidebar).

• Approved “Comprehensive Transition Programs” for students with intellectual disabilities.

Not Gainful Employment Programs—The following educational programs offered by these institutions are not subject to the new gainful employment program regulations:

• Programs that lead to a degree, including associate’s degrees, bachelor’s degrees, graduate degrees, and professional degrees.

• Programs that are at least two years in length that are fully transferable to a bachelor’s degree program.

• Preparatory courses of study that provide course work necessary for enrollment in an eligible program.

Foreign proprietary institutions

Gainful Employment Programs—The only programs at foreign proprietary institutions that are eligible for the FSA loan programs are degree programs in medicine, nursing, and veterinary science. These programs offered at these institutions are gainful employment programs subject to the new requirements.

Degree program where student receives certificate in addition to degree

If students are enrolled in only the degree program and are not also enrolled in a separate certificate program, it is the degree program that should be evaluated using the guidance in Gainful Employment Electronic Announcement #11.

If the institution also offers a separate certificate program, students enrolled in the degree program only should not be included in either the disclosures or reporting for the separate certificate program.

If students are enrolled in a certificate program, even if the enrollment is concurrent with enrollment in the degree program, those students must be included in the certificate gainful employment program’s reporting and disclosures, and also in the degree program’s reporting and disclosures if the degree program is considered a gainful employment program under Gainful Employment Electronic Announcement #11.

If a significant number of the students enrolled in the degree program are awarded only the certificate and not the degree, the students enrolled in the degree program must be included in the disclosures and reporting for a certificate GE Program. If the institution does not offer a separate certificate program, it must, for gainful employment purposes, treat the degree program as a gainful employment certificate program for which the institution must comply with the gainful employment regulatory requirements. Gainful Employment Electronic Announcement #12.

Foreign proprietary institutions
Applying for eligibility for a transition program
When applying to the Department for eligibility for a comprehensive transition program, a school must follow the procedures in 34 CFR 600.20 and provide the information described in 34 CFR 668.232.

Definition of intellectual disability
A student with an intellectual disability means a student
1) with mental retardation or a cognitive impairment characterized by significant limitations in—
   (i) Intellectual and cognitive functioning; and
   (ii) Adaptive behavior as expressed in conceptual, social, and practical adaptive skills; and
2) Who is currently, or was formerly, eligible for special education and related services under the Individuals with Disabilities Education Act (IDEA) (20 U.S.C. 1401), including a student who was determined eligible for special education or related services under the IDEA but was home-schooled or attended private school.

ACG/SMART grants
Note that references to the Academic Competitiveness Grant (ACG) and the National Science and Mathematics Access to Retain Talent (National SMART) Grant programs have been removed—these programs are not authorized beyond the 2010–2011 award year.

Not Gainful Employment Programs—None.

Foreign public and nonprofit institutions
Gainful Employment Programs—Same as domestic public and domestic nonprofit institutions, as provided previously.

Not Gainful Employment Programs—Same as domestic public and domestic nonprofit institutions, as provided previously.

ADDITIONAL ELIGIBILITY REQUIREMENTS
There are additional FSA program eligibility requirements for specific educational programs. For example, only undergraduate educational programs are eligible under the Pell Grant and FSEOG programs. Correspondence programs are not eligible unless they meet the general requirements for an eligible program and are required for the student’s regular program of study leading to a degree.

Transition programs for students with intellectual disabilities
A student with an intellectual disability who enrolls in a comprehensive transition and postsecondary program at a school that participates in the FSA programs is eligible for nonloan assistance (Pell Grants, FSEOG, and Federal Work Study). As discussed in Volume 1, the student is exempt from several student eligibility requirements.

A comprehensive transition and postsecondary program is a degree, certificate, nondegree, or noncertificate program that is designed to support students with intellectual disabilities who want to continue their instruction (academic, career and technical, and independent living) at a postsecondary school in order to prepare for gainful employment.

The program must
- be delivered to students physically attending the institution,
- include an advising and curriculum structure, and
- provide students with intellectual disabilities opportunities to participate in coursework and other activities with students without disabilities.

Such programs must require students with intellectual disabilities to have at least 1/2 of their participation in the program, as determined by the school, focus on academic components through one or more of the following activities:
- taking credit-bearing courses with students without disabilities.
- auditing or otherwise participating in courses with students without disabilities for which the student does not receive regular academic credit,
- taking non-credit-bearing, nondegree courses with students without disabilities, and,
- participating in internships or work-based training in settings with individuals without disabilities.

ACG/SMART grants
Note that references to the Academic Competitiveness Grant (ACG) and the National Science and Mathematics Access to Retain Talent (National SMART) Grant programs have been removed—these programs are not authorized beyond the 2010–2011 award year.
A school that offers a comprehensive transition and postsecondary program must apply to the Department to have the program determined to be an eligible program.

**Educational programs eligible for TEACH Grants**

To qualify as an eligible program for TEACH Grants, an educational program must be a program of study that

- is designed to prepare an individual to teach as a highly-qualified teacher in a high-need field and leads to a baccalaureate or master’s degree (including 2-year programs of study that are acceptable for full credit toward a baccalaureate degree), or
- is a post-baccalaureate program of study for students who have completed a baccalaureate degree but need to take additional state-required courses for teacher certification or licensure.

A post-baccalaureate program consists of courses required by a state in order for a student to receive a professional certification or licensing credential that is required for employment as a teacher in an elementary school or secondary school in that state. It must be a program that is treated as an undergraduate program for FSA purposes, and may not lead to a graduate degree. In addition, note that a program of instruction offered by a TEACH Grant-eligible institution that offers a baccalaureate degree in education cannot be considered a postbaccalaureate program. For information on TEACH program requirements as a student eligibility issue, see Volume 1, Chapter 6.

**ESL Programs**

Students enrolled in a program that consists solely of English as a Second Language (ESL) instruction are eligible for FSA funds only from the Pell Grant program. An ESL program must meet the general requirements for an eligible program (for example, it must lead to a degree or other credential). Moreover, an ESL program may admit only students who need instruction in English to be able to use the knowledge, training, or skills they already have. The school must document its determination that the ESL instruction is necessary for each student enrolled.

A school that wishes to award FSA assistance to students enrolled in an ESL program must request an eligibility determination for the program from the Department.

**Direct assessment programs**

Instead of using credit hours or clock hours as a measure of student learning, some instructional programs use direct assessment of student learning, or recognize the direct assessment of student learning by others. Examples of direct measures include projects, papers, examinations, presentations, performances, and portfolios. The assessment must be consistent with the accreditation of the institution or program using the results of the assessment.

A school that wishes to award FSA funds in a program using direct assessment must apply to the Department for approval of the program, using the E-App. The application must specify the equivalent number of

---

**TEACH Grant program**

The Teacher Education Assistance for College and Higher Education (TEACH) Grant program was created by the College Cost Reduction and Access Act of 2007 (CCRAA).

34 CFR Part 686

**Program eligibility vs. student eligibility in TEACH**

The preamble to the June 23, 2008 TEACH regulations draws a distinction between program eligibility (where the school may identify, within the parameters of the regulations, the scope of school programs that are TEACH Grant-eligible) and student eligibility (where the school must adhere to the eligibility criteria in the regulations);

The preamble further states: Ultimately, it is up to the institution to decide, based on regulatory requirements, what programs are TEACH Grant-eligible and when a student is considered to be accepted into a TEACH Grant-eligible program.

For instance, a school can determine that only some of the programs for which it currently awards other FSA funds are also eligible for TEACH, even if some programs it does not wish to make TEACH Grant-eligible meet the regulatory definition.

**Additional ESL considerations**

➔ A school must define the effect of any noncredit remedial courses (including ESL courses) on a student's academic progress. See Chapter 10 in this Volume.

➔ Awarding FSA loans to a student over a series of semesters for ESL or remedial coursework could potentially exhaust the student's eligibility under the aggregate loan limits before the student completes his/her educational program. See Volume 1, Chapter 1.

**Direct Assessment programs**

FSA eligibility for direct assessment programs was established by the Higher Education Reconciliation Act of 2005.

For application procedures and other information, see 34 CFR 668.10.
Direct assessment as a measure of learning

Direct assessment of student learning means a measure by the institution of what a student knows and can do in terms of the body of knowledge making up the educational program. These measures provide evidence that a student has command of a specific subject, content area, or skill or that the student demonstrates a specific quality such as creativity, analysis or synthesis associated with the subject matter of the program.

Academic year & weeks

An academic year in a direct assessment program is a period of instructional time that consists of a minimum of 30 weeks of instructional time. A week of instructional time in a direct assessment program is any 7-day period in which at least 1 day of educational activity occurs. Educational activity in a direct assessment program includes regularly scheduled learning sessions, faculty-guided independent study, consultations with a faculty mentor, development of an academic action plan addressed to the competencies identified by the school, or, in combination with any of the assessments.

Independent study

For purposes of direct assessment programs, independent study occurs when a student follows a course of study with predefined objectives but works with a faculty member to decide how the student is going to meet those objectives. The student and faculty member agree on what the student will do (e.g., required readings, research, and work products), how the student's work will be evaluated, and on what the relative timeframe for completion of the work will be. The student must interact with the faculty member on a regular and substantive basis to assure progress within the course or program.

credit or clock hours for a direct assessment program (or portion of the program, as applicable). (The clock or credit hours will be used as the basis for the FSA award calculations described in Volume 3, Chapter 1.) As a part of its application, the school must explain how it determined the equivalent number of credit or clock hours for the program.

A direct assessment program may use learning resources (e.g., courses or portions of courses) that are provided by entities other than the school providing the direct assessment program without regard to the limitations on contracting for part of an educational program (see Written arrangements between schools).

FSA funds may be awarded only for learning that results from instruction provided, or overseen, by the school. FSA funds cannot be awarded for any portion of the program based on study or life experience prior to enrollment in the program, or based on tests of learning that are not associated with educational activities overseen by the school.

Several types of programs and coursework that might otherwise be eligible for FSA purposes are not eligible if they involve direct assessment:

- Programs at foreign schools.
- Preparatory coursework required for entry into an eligible program (see Volume 1, Chapter 6).
- Courses necessary for an elementary or secondary school teaching credential or certificate (see Volume 1, Chapter 6).
- Remedial coursework measured through direct assessment.

However, note that remedial instruction offered in credit or clock hours in conjunction with a direct assessment program is eligible for FSA funds.

If the school plans to change any aspect of the program described in the application, it must obtain prior approval from the Department by reapplying.

Study abroad programs

A participating institution may establish programs of study abroad for which its students are eligible to receive assistance through the FSA programs. A study abroad program is an eligible program if—

- students studying abroad concurrently remain enrolled at their eligible home school; and
- the eligible home school awards academic credit for the program of study abroad.

While the study abroad program must be considered part of the student’s eligible program, it does not have to be a required part of the student’s eligible degree program in order to be an eligible study abroad program. However, a school must have a written agreement with the institution offering the study abroad program, or with an entity representing that institution (see next section). Moreover, in the information it provides to students about a study abroad program, a school must inform students about the availability of FSA assistance.
**Flight school programs**

A flight school program must maintain current valid certification by the Federal Aviation Administration to be eligible.

**WRITTEN ARRANGEMENTS BETWEEN SCHOOLS**

Under a consortium or contractual agreement (including those for study-abroad programs), the home school must give credit for courses taken at the other schools on the same basis as if it provided the training itself. The underlying assumption of such an agreement is that the home school has found the other school’s or organization’s academic standards to be equivalent to its own, and a completely acceptable substitute for its own instruction.

A home school may decline to give credit for courses in which a student earns a grade that is not acceptable at the home school even though the host school has a policy of accepting that grade for its resident students. In addition, even though grades received through consortium or contractual agreements do not have to be included in the calculation of the student’s grade point average (GPA), they must be included when calculating the quantitative component (the percentage of credits earned vs. attempted) of a student’s satisfactory academic progress.

If not written for an individual student or group of students, agreements between schools can go on indefinitely. These agreements do not have to be renewed unless the terms of the agreement change.

A school must provide enrolled and prospective students with a description of the written arrangements it has entered into, including—

- The portion of the educational program that the school that grants the degree or certificate is not providing;
- The name and location of the other schools or organizations that are providing the portion of the educational program that the institution that grants the degree or certificate is not providing;
- The method of delivery of the portion of the educational program that the school that grants the degree or certificate is not providing; and
- Estimated additional costs students may incur as the result of enrolling in an educational program that is provided, in part, under the written arrangement.

**Consortium Agreement**

A consortium agreement can apply to all FSA programs. Under a consortium agreement, students may take courses at a school other than the home school and have those courses count toward the degree or certificate at the home school. A student can only receive FSA assistance for courses that are applicable to the student’s certificate or degree program.
A consortium agreement can be a blanket agreement between two or more eligible schools, or it can be written for a specific student. Such an agreement is often used when a student takes related courses at neighboring schools or when a student is enrolled in an exchange program with another eligible school for a term or more. A school could have

- one agreement for each student;
- a separate agreement with each host school; or
- a blanket agreement with a group of schools.

In a consortium agreement there is no limit on the portion of the eligible program that may be provided by eligible schools other than the home school. Agreement contents can vary widely and will depend upon the interests of the schools involved and the accrediting or state agency standards. (See sidebar for required contents of an agreement.)

Usually, the home school is responsible for disbursing funds, but if the student is enrolled for a full term or academic year at the host school, it may be easier for the host school to monitor the student’s eligibility and make payments.

When there is a written arrangement between eligible schools, any of the schools participating in the written arrangement may make FSA calculations and disbursements without that school being considered a third-party servicer. This is true even if the student is not currently taking courses at the school that is calculating and disbursing the aid.

The school that disburses an FSA award is responsible for maintaining information on the student’s eligibility, how the award was calculated, what money has been disbursed, and any other documentation associated with the award (even if some of that documentation comes from other schools). Moreover, the school paying the student must return FSA funds if required (for example, in refund/return or overpayment situations). For details on how agreements affect Pell Grant calculations, see Volume 3, Chapter 3.

Contractual Agreement

Provided the limitations in the following paragraphs are adhered to, an eligible institution may enter into a contractual agreement with an ineligible school or organization under which the ineligible school or organization provides part of the educational program of students enrolled at the eligible school.

An eligible school is prohibited from entering into a contract with an ineligible school or organization whose—

- eligibility or certification to participate in the FSA programs has been terminated or revoked by the Department, or
- application for certification or re-certification to participate in the FSA programs denied by the Department.

Similarly, an eligible school is prohibited from entering into a contract with an ineligible school or organization that has voluntarily withdrawn from the FSA program.
from participation in the FSA programs under a termination, show-cause, suspension, or similar type proceeding initiated by the school’s state licensing agency, accrediting agency, guarantor, or by the Department.

Under a contractual agreement, the eligible school is always the home school. The home school performs all the aid processing and disbursement functions for its students attending the ineligible school or organization. The home school is responsible for maintaining all records necessary to document student eligibility and receipt of aid (see Chapter 7).

For schools in a contractual agreement, there is a limit on the portion of the program that can be offered by the ineligible school. If both the home and ineligible schools are owned or controlled by the same individual, partnership, or corporation, no more than 25% of the educational program can be provided by the ineligible school. If the two schools are separately owned or controlled, the ineligible school can provide up to 50% of the educational program. However, in the case of separately owned schools, if the contracted portion is more than 25% of the program, the home school’s accrediting agency or state agency (in the case of a public postsecondary vocational institution) must determine and confirm in writing that the agreement meets its standards for contracting out education services.

**Study Abroad or Domestic Exchange Programs**

A study abroad program must be part of a written contractual or consortium agreement between two or more schools. The study abroad program does not have to be a required part of the eligible program at the home school in order for the student to be eligible to receive FSA funds, but the credits earned through the study abroad or exchange program must be acceptable toward graduation in the student’s program by the home school.

When there is a written arrangement between eligible schools, any of the schools participating in the written arrangement may make FSA program calculations and disbursements without that school being considered a third-party servicer. This is true even if the student is not taking courses at the schools that is calculating and disbursing the aid.

Students enrolled in study abroad programs with costs of attendance higher than those of the home school should have those costs reflected in the cost of attendance on which their aid is based. This may result in a student being eligible for additional FSA funds, including a higher Pell award, not to exceed the Pell award maximum.

**Types of Study-Abroad Programs**

Study abroad program configurations include:

A home school sends students to a study abroad program at an eligible or ineligible foreign (host) school. The home school must have a consortium or contractual agreement with the foreign school.

A home school allows a student to complete a portion of the student’s program at an eligible host school in the United States and that host school offers a study abroad program in conjunction with either an eligible or ineligible foreign school.
The home and host schools in the United States must have a consortium agreement.

The host school in the United States must have a consortium or contractual agreement with the foreign school.

A home school has a written arrangement with a study abroad organization that represents one or more foreign schools instead of a separate agreement directly with each foreign school that its students are attending. For purposes of administering the FSA programs, the written agreement between the eligible institution and the study abroad organization must adequately describe the duties and responsibilities of each entity and meet the requirements of the regulations.

A variant of the study abroad program occurs when a home school sends faculty and students to a foreign site. This does not represent a consortium or contractual study abroad program. Rather, the foreign site is considered an additional location under 34 CFR 600.32.

DISTANCE EDUCATION & CORRESPONDENCE STUDY

Schools use distance education and correspondence courses to respond to students' needs for alternatives to the schedules and locations at which courses traditionally have been offered. A school may not refuse to provide FSA funds to a student because he or she is enrolled in correspondence or distance education courses unless the courses are not part of an eligible program.

Some participating institutions contract with distance education providers that are not eligible to participate in the FSA programs. These participating institutions must ensure that they do not exceed the limitations on contractual arrangements (see previous section).

Distance Education

A distance education program at a domestic school is considered an eligible FSA program if it has been accredited by an accrediting agency recognized by ED for the purpose of evaluating distance education. The definition of “correspondence course” was revised and a new definition of “telecommunications course” was added to 34 CFR 600.2. Pursuant to HEOA 2008, the definition of “telecommunications” was removed from 34 CFR 600.2 and the statutory definition of “distance education” was added.

Pursuant to HEOA 2008, the definition of “telecommunications course” was revised and a new definition of “distance education” was added to 34 CFR 600.2. Pursuant to HEOA 2008, the definition of "telecommunications" was removed from 34 CFR 600.2 and the statutory definition of "distance education" was added. Federal Register, October 27, 2009.

State process for complaints

Note that under 34 CFR 668.43(b) you must provide state contact information to students or prospective students for filing complaints in each state in which you operate. (See Chapter 6 for the school consumer information requirement.)

Accreditation for distance education

The Department reminded schools in September 2006 that distance education programs must be evaluated by an accrediting agency that is recognized by ED for the purpose of evaluating distance education. This letter included specific instructions on notifying ED if the school intended to seek new accreditation, and updating the E-App to reflect changes to the school’s accreditation. GEN-06-17

Telecommunications & correspondence study at foreign schools

A program offered by a foreign school in whole or in part by telecommunications, by correspondence, or as a direct assessment program is not an eligible program. 34 CFR 600.51(d)
A course taught through video cassettes or discs is also considered a distance education course but only if one of the three technologies listed is used to support interaction between the students and the instructor.

**Correspondence courses**

Unlike distance education courses, which are now treated in the same way as all other eligible programs, some restrictions apply to correspondence courses.

A correspondence course is a home-study course provided by a school under which the school provides instructional materials, including examinations on the materials, to students who are not physically attending classes at the school. Interaction between the instructor and student is limited, is not regular and substantive, and is primarily initiated by the student.

Correspondence courses are typically self-paced. When a student completes a portion of the instructional materials, the student takes the examinations that relate to that portion of the materials and returns the examinations to the school for grading.

- If a course is part correspondence and part residential training, the course is considered to be a correspondence course.

- If a school adds telecommunications technology, such as electronic delivery of course materials or an online discussion board, to a correspondence course, the school must ascertain the predominant method of instruction (correspondence or telecommunications), keeping in mind that a telecommunications course must use technology to support regular and substantive interaction between students and the instructor. The school must apply the rules for the predominant method in administering its participation in the FSA programs.

- A course that is delivered in whole or in part through the use of video cassettes or video discs is a correspondence course unless the school also delivers comparable instruction to students attending resident classes at the school during the same award year.

If a school offers more than 50% of its courses by correspondence or if 50% or more of its students are enrolled in its correspondence courses, the school loses its eligibility to participate in the FSA programs (see Chapter 1).

Note that correspondence students enrolled in certificate programs are not eligible for FSA funds. For a full discussion of when a school may pay a student for correspondence study, see Volume 1, Chapter 1. Also see Volume 3, Chapter 2 for limitations on the cost of attendance for correspondence students and Volume 3, Chapter 1 for the timing of disbursements to correspondence students.
CLOCK-HOUR/CREDIT-HOUR CONVERSIONS IN DETERMINING PROGRAM ELIGIBILITY

The credit hour definition and the credit/clock hour conversion rules serve two purposes—

1. to determine program eligibility, and

2. to determine the award amount for certain FSA programs.

In this section, we discuss the first of these topics—the use of the credit and clock hour rules in determining if a program meets the minimum program length requirements discussed earlier in the chapter. For a discussion of the use of credit and clock hours in determining enrollment level and FSA awards, see Volume 3, Chapter 1.

When a school must use clock hours for FSA purposes

A school may consider any program to be a clock-hour program. A GE program (see “Programs leading to gainful employment” earlier) must be considered to be a clock-hour program for purposes of the FSA programs if—

• A program is required to measure student progress in clock hours when 1) receiving federal or state approval or licensure to offer the program; or 2) completing clock hours is a requirement for graduates to apply for licensure or the authorization to practice the occupation that the student is intending to pursue;

• The credit hours awarded for the program are not in compliance with the definition of a credit hour (see below); or

• The school does not provide the clock hours that are the basis for the credit hours awarded for the program or each course in the program and, except for allowable excused absences (34 CFR 668.4(e)), requires attendance in the clock hours that are the basis for the credit hours awarded.

However, these requirements do not apply to a program if there is a state or federal approval or licensure requirement that a limited component of the program must include a practicum, internship, or clinical experience component of the program that must include a minimum number of clock hours.

Definition of a clock hour

A clock hour is defined as a period of time consisting of—

• A 50- to 60-minute class, lecture, or recitation in a 60-minute period;

• A 50- to 60-minute faculty-supervised laboratory, shop training, or internship in a 60-minute period; or

• Sixty minutes of preparation in a correspondence course.
Definition of a credit hour

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than—

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately 15 weeks for one semester or trimester hour of credit, or 10 to 12 weeks for one quarter hour of credit, or at least the equivalent amount of work over a different amount of time; or

2. At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

The regulations make an exception to this definition in the case of programs that are subject to one of the clock-hour/credit hour conversion formulas (below).

Clock/Credit Hour conversions in determining program eligibility

If your school offers an undergraduate educational program in credit hours that is considered a GE program, it must use one of the following conversion formulas, unless—

- The program is at least 2 academic years in length and provides an associate degree, a bachelor’s degree, a professional degree, or an equivalent degree as determined by the Department; or

- Each course within the program is acceptable for full credit toward that institution’s associate degree, bachelor’s degree, professional degree, or equivalent degree as determined by the Department, provided that 1) the school’s degree requires at least two academic years of study; and 2) the school demonstrates that students enroll in, and graduate from, the degree program.

The conversion formula will determine whether the program includes the minimum number of credit hours to qualify as an eligible program for FSA purposes.

For purposes of determining the number of credit hours in that educational program with regard to the FSA programs—

- A semester hour must include at least 37.5 clock hours of instruction;

- A trimester hour must include at least 37.5 clock hours of instruction, and

- A quarter hour must include at least 25 clock hours of instruction.

Rounding

Because the results of these formulas determine the eligibility of a program, the resulting number of credit hours may not be rounded up. The results for each course may include the result with fractions or must be rounded down.

Exemption if ED determines that the program offers “equivalent degree”

The regulations also stipulate that the school is exempted from using the clock-hour/credit-hour formulas if the Department determines that the program provides a degree equivalent to an associate degree, a bachelor’s degree, or a professional degree. This does not permit a school to ask for a determination that a nondegree program is equivalent to a degree program.

State/accrediting agency criteria for clock/credit hours

The regulations for state and accreditation agencies explain how an agency reviews a school’s assignment of credit hours. 34 CFR 602.24 and 603.24

Clock/credit hour conversions

34 CFR 668.8(k) & (l)
Out-of-class student work
The school’s conversions to establish a minimum number of clock hours of instruction per credit may be less, if the school’s designated accrediting agency, or recognized state agency for the approval of public postsecondary vocational institutions for participation in the FSA programs has not identified any deficiencies with the school’s policies and procedures, or their implementation, for determining the credit hours (as defined above), that the school awards for programs and courses, in accordance with 34 CFR 602.24(f), or, if applicable, 34 CFR 603.24(c), so long as—

- The school’s students work outside of class combined with the clock-hours of instruction meet or exceed the numeric requirements (37.5 or 25); and
- 1) A semester hour must include at least 30 clock hours of instruction; 2) A trimester hour must include at least 30 clock hours of instruction; and 3) A quarter hour must include at least 20 hours of instruction.

Merely having coursework that is outside of class does not mean a school can automatically divide by 30. The minimum may be higher than 20 or 30 depending on the amount of out-of-class work that is expected in the different educational activities of a program and may vary depending on the particular activity. The case study that follows illustrates a method for accurately accounting for any out-of-class work a student may have in a course.

Also, the amount of out-of-class work in a particular course or activity in a program does not carry over to other courses or activities.

To determine if the program meets the FSA standard for the minimum number of credit hours for that type of program, schools must use one of the following formulas.

For a semester or trimester hour program

**Number of clock hours in the credit-hour program**

- **37.5**

For a quarter hour program

**Number of clock hours in the credit-hour program**

- **25**

If a school applies the appropriate formula and finds that a program is eligible, the converted credit hours are used to determine the amount of FSA funds that a student who is enrolled in the program is eligible to receive as explained in Volume 3, Chapter 1.

Credits approved by state and accrediting agencies

When some states and accrediting agencies approve programs, they also approve the number of credits in the programs. The credits approved by states and accrediting agencies are not necessarily the credits for FSA purposes. For FSA purposes, the number of credits in the program will be those determined by the conversion formula, and they will never be more than those approved by a state or accrediting agency.
Conversion Case Study (to semester hours)

- A program with 720 clock hours consists of—
  - 5 classroom courses with 120 clock hours each, and
  - A 120 clock-hour externship with no out-of-class student work.

- The institution determines that for—
  - The first 3 classroom courses, a student generally is required to perform 40 hours of out-of-class work for each course, and
  - The last 2 classroom courses have 8 hours of out-of-class work for each course.

- Two options
  - Default option: convert only based on clock hours and ignore any out-of-class work
  - Full formula option: take into account both clock hours and out-of-class work to determine the maximum allowable credit hours

- Four possible outcomes depending on institutional policy for option and rounding (always round down course-by-course):
  - Default option: 19.2 or 18 semester hours
  - Full formula option: 22.026 or 21 semester hours

- Default option: use the default 37.5 clock hours per semester hour, ignoring the out-of-class work (conversion must be course by course)

  \[
  \frac{120}{37.5} = 3.2 \text{ semester hours per course (or 3, if rounding; always round down course-by-course)}
  \]

  - Converted program = 3.2 * 6 = 19.2 semester hours (or 3 * 6 = 18 semester hours, if rounding)

- Full formula option
  Illustrates:
  - Must evaluate on individual coursework components of a program
  - Total clock hours and out-of-class student work is irrelevant
  - Must meet limitation for the minimum number of clock hours per credit hour in addition to out-of-class work
  - Excess out-of-class student work per credit hour does not carry over between courses or educational activities in a program
  - Use exact calculation including any fractions of credit hours or round down any fraction, including a fraction equal to or greater than \( \frac{1}{2} \)
  - Rounding on individual course or educational activity, not on the total

</table>

Total clock hours and out-of-class student work (amount not relevant) 826

Total semester hours if no rounding 22.026

Total semester hours if rounding (must round down any fractions to ensure no overawards) 21

NOTES:

**Limitation:** the rules do not allow more than 7.5 hours of out-of-class prep for every 30 hours in class

(A) 120 in-class hours divided by 30 hours = 4

There are 10 hours of out-of-class prep per 30 clock hours \((40/4 = 10)\), but cannot have more than 7.5 \((4 \times 7.5 = 30)\)

(B) 120 in-class hours divided by 30 hours = 4

There are 7.5 or fewer hours of out-of-class prep per 30 clock hours \((8/4 = 2)\), so use actual hours of out-of-class prep (8)

**Semester hours per course**

(C) 150 total clock and prep hours divided by 37.5 = 4

(D) 128 total clock and prep hours divided by 37.5 = 3.413

(E) 120 total clock hours divided by 37.5 = 3.2
FSA Administrative & Related Requirements

This chapter describes aid-related requirements that a school must meet in order to participate in the Federal Student Aid programs. Many of these requirements require coordination with other offices at your school. For instance, you may wish to share the contents of this chapter with your school’s human resources office, because of the requirements for adequate staffing, the incentive compensation prohibition, and hiring restrictions related to the misuse of government funds. Similarly, your school’s academic divisions and its business office will need to be aware of the standards for satisfactory progress policies, readmission of servicemembers, and instate tuition rates for servicemembers and their families.

ADMINISTRATIVE REQUIREMENTS FOR THE FINANCIAL AID OFFICE

Consistency of information & conflicting information

A school must have a system of identifying and resolving discrepancies in all FSA-related information received by any school office. A school must resolve discrepancies for all students, not just those selected for verification. Resolution includes determining what information is correct and documenting the school’s findings in the student’s file.

Such a system must include a review of—

- all student aid applications, need analysis documents, MRRs, POPs from COD, Statements of Educational Purpose, Statements of Registration Status, and eligibility notification documents presented by or on behalf of each applicant,
- the Student Aid Report/ISIR for a student—even if a school has previously verified the information on a student’s SAR/ISIR, the school must review all information on subsequent SARs/ISIRs, and resolve discrepancies,
- any documents, including any copies of state and federal income tax returns, that are normally collected by the school to verify information received from the student or other sources, and
- any other information submitted or normally available to the school regarding a student’s citizenship, previous educational experience, documentation of the student’s Social Security number, or other factors relating to the student’s eligibility for funds under FSA programs.

For instance, if a student receives an academic scholarship through one school office, that office must notify the aid administrator of these benefits to ensure that the amounts are correctly reported on the student’s aid application and are counted as estimated financial assistance for the Campus-Based and Direct Loan programs.
Other examples include—

- a school’s admissions or registrar’s office must provide the aid office with any information it has that might affect a student’s eligibility such as the student’s enrollment in an ineligible program, or enrollment in summer classes immediately preceding a fall term of enrollment; and
- a school’s business office must inform the aid office whenever it receives information about a student receiving an outside scholarship.

There is a distinction between how long you need to be alert for conflicting information and how long you have to actually resolve a conflict. Even if the processing year has ended, you must continue to resolve conflicting information unless—

- all aid for the period of enrollment has been disbursed, and
- at the time of disbursement, there was no conflicting information, and
- the student is no longer enrolled at the school (and is not intending to re-enroll).

You may not ignore a document in your files unless a student is no longer enrolled. If you have conflicting information in your files, you must resolve it as expeditiously as possible. If you become aware of conflicting information for a student who is no longer enrolled, and there is aid to be disbursed, you must resolve the conflict before making the late or postwithdrawal disbursement.

If aid (that the school was unaware of) is received after the end of a period of enrollment for a student who is intending to re-enroll, that aid must be treated as estimated financial assistance for either the period of enrollment just completed, or for the subsequent period of enrollment. (See the discussion of estimated financial assistance and packaging in Volume 3.)

Remember, if any office at your school has information that might affect a student’s eligibility for FSA funds, it must provide that information to the school’s designated coordinating official. That individual, in turn, must forward it to the financial aid office where procedures must be in place to ensure that any conflicting information is resolved and documented before the student receives any (or any additional) FSA funds.

**OIG Referrals**

A school must refer to the Department’s Office of Inspector General (OIG) any credible information indicating that an applicant for Federal Student Aid may have engaged in fraud or other criminal misconduct in connection with his or her application.

Commonly falsified items include false claims of independent student status, false claims of citizenship, use of false identities, forgery of signatures of certifications, and false statements of income. Remember that fraud is the intent to deceive as opposed to a mistake. If you suspect such intent on the part of a student, report it to the OIG by phoning 1-800-MISUSED.
Schools must also refer to the OIG any third-party servicer who may have engaged in fraud, breach of fiduciary responsibility, or other illegal conduct involving the FSA Programs.

It is always appropriate for a financial aid administrator to consult with a school’s legal counsel prior to referring suspected cases of fraud or misconduct to an agency outside of the school. Referrals to the IG are also mentioned in the Application and Verification Guide.

Coordinating official

A participating school must designate a capable individual to administer the FSA programs and to coordinate aid from these programs with all other aid received by students attending the school. To properly package and most effectively use the various types of student assistance (federal, school, state, private, etc.), the coordinating official must be aware of all aid received by students attending the school, regardless of the source. When creating a student’s financial aid package, in order to ensure that a student’s aid does not exceed his or her need, an aid administrator must include aid the student is receiving from external sources as well as institutional aid and FSA program assistance. Therefore, a school’s operations must be administered in a way that ensures all the information the school receives that might affect a student’s FSA eligibility is communicated to the coordinating official and to the financial aid office.
Counseling
Schoo...
OWNERSHIP, EMPLOYEES & CONTRACTORS

Debarment of school owners or staff

If one of the principals of the school is debarred or suspended by a federal agency, that person is prohibited from participating in any FSA program, so long as the agency’s procedures include due process protections that are equivalent to those provided by ED.

The principals of the school include its owners, directors, officers, partners, employees, and any other persons with management or supervisory responsibilities. A principal may also be someone who is not employed by the school but who has critical influence on or substantive influence over a covered transaction (such as the receipt of Pell Grant or Campus-Based funds). For example, a principal may be someone whether or not employed by the school who—

• is in a position to handle federal funds;
• is in a position to influence or control the use of those funds; or
• occupies a technical or professional position capable of substantially influencing the development or outcome of an activity required to perform the covered transaction.

Schools participating in the FSA programs have a fiduciary responsibility to safeguard FSA funds, and ensure those funds are used for the benefit of the students for whom they are intended. We expect participating institutions to thoroughly examine the background of individuals they employ (or are considering employing) in management or supervisory positions. If a school discovers that a person employed in a management or supervisory capacity has been suspended, or debarred by a federal agency, the school must remove that person from such a position or risk losing its FSA eligibility. Moreover, a school may not enter into a relationship (and must terminate an ongoing relationship) with a lender, third-party servicer, or loan servicer the school determines has been debarred or suspended.

Certifying current or prospective employees or contractors

Before a school may receive FSA funding, it must certify that neither the school nor its employees have been debarred or suspended by a federal agency. (You can find this certification in the Program Participation Agreement and in the Web-based FISAP package available to schools participating in the Campus-Based programs.)

The certification provided by the school is a material representation of fact relied upon by the Department when it enters into a Participation Agreement with the school. Moreover, a school is expected to have knowledge and information normally possessed by a prudent person in the ordinary course of business dealings. Although the Department doesn’t dictate how a school must ensure that its principals/employees have not been debarred or suspended by a federal agency, we do hold the school responsible for any information it could reasonably have been expected to know in the course of ordinary operations. In addition, we expect the school to expend a reasonable amount of effort ensuring that it and its employees are in compliance. If the Department learns that a prospective participant knowingly rendered an erroneous certification, in addition to other remedies available, the Department may terminate the participation of the institution.

Debarment and suspension

In order to protect the public interest, it is the policy of the federal government to conduct business only with responsible individuals. In order to implement this policy, the government takes debarment and suspension actions against individuals whom it determines constitute a current risk to federal agencies.

Executive Order 12549
Federal Acquisition Regulations
(48 CFR Part 9, Subpart 9.4)
34 CFR Part 85

Similar debarment and suspension limitations apply to lenders, third-party servicers, loan servicers, and any individuals who provides services described in 34 CFR 668.2 or 682.200 to an FSA recipient whether or not they are employed by the school as described in 34 CFR 600.85.995(b).

Covered transactions

For purposes of the debarment/suspension rules, covered transactions include:

• disbursement of FSA funds to a student or borrower,
• certification by an educational institution of eligibility for an FSA loan, and
• acquisition or exercise of any servicing responsibility for a grant, loan, or work study assistance under an FSA program.

Checking debarment/suspension status online

The “List of Parties Excluded from Federal Procurement and Nonprocurement Programs” is available for review at the Excluded Parties List System website (maintained by the General Services Administration):

http://epls.arnet.gov/

You should keep a copy of the search results in your records.

Notifying the Department of change of control

A school must report any changes of control under which a person acquires the ability to affect substantially the actions of the school. Such changes in control trigger a review to determine if the school is financially responsible (see Chapter 5).
A school chooses the method and frequency for making a determination about the eligibility of its principals. This might include asking current and prospective employees and contractors, in person or in writing, about their debarment or suspension histories. In addition, a school might also examine the List of Parties Excluded from Federal Procurement and Nonprocurement Programs to find out if an individual or organization is debarred or suspended. A school should discuss with its attorney the procedures appropriate to its circumstances.

The employees who award FSA funds and those who disburse them should always be included in those whose backgrounds are examined. In addition, employees who participate in other transactions from which the regulations exclude individuals who have been debarred or suspended should be included. A school should consult with its attorney on the individuals it must certify.

The debarment or suspension of a person who is not a principal of the school and who does not work in the financial aid office will not affect the school’s FSA eligibility, so long as that person is not involved in any covered transactions.

Lower-tier transactions
Examples of common lower-tier covered transactions are a school’s contracts with a financial aid consultant service or with a loan collection or billing agency.

Sample certification statement from lower-tier organization
The Department disseminated the following language in April 1989 as a model that schools may use to obtain the required certification statement from a lower-tier organization.

“The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in this transaction by any Federal department or agency.

Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.”

Crimes involving FSA program funds
In order to safeguard FSA funds, schools are prohibited from having as principals or employing or contracting with other organizations that employ individuals who have engaged in the misuse of government funds. Specifically, a school must not knowingly—

- employ in a capacity that involves the administration of the FSA programs or the receipt of funds under those programs, an individual who has been convicted of, or has pled nolo contendere or guilty to, a crime involving the acquisition, use, or expenditure of federal, state, or local government funds, or has been administratively or judicially determined to have committed fraud or any other material violation of law involving federal, state, or local government funds;
- contract with a school or third-party servicer that has been terminated from the FSA programs for a reason involving the acquisition, use, or expenditure of federal, state, or local government funds, or that has been administratively or judicially determined to have committed fraud or any other material
violation of law involving federal, state, or local government funds; or

- contract with or employ any individual, agency, or organization that has been, or whose officers or employees have been:
  (1) convicted of, or pled nolo contendere or guilty to, a crime involving the acquisition, use, or expenditure of federal, state, or local government funds; or (2) administratively or judicially determined to have committed fraud or any other material violation of law involving federal, state, or local government funds.

Past performance of persons affiliated with a school
The Department does not consider a school to be financially responsible if any person who exercises substantial control over the school (or any members of the person’s family alone or together) owes a liability for an FSA program violation or has ever exercised substantial control over another school (or a third-party servicer) that owes a liability for an FSA program violation, unless that person, family member, school, or servicer demonstrates that the liability is being repaid in accordance with an agreement with the Department.

The Department may consider a school that does not meet this requirement to be financially responsible if the school:

- notifies the Department that the individual repaid to the Department an acceptable portion of the liability, in accordance with the regulations;
- notifies the Department that the liability is currently being repaid in accordance with a written agreement with the Department; or
- demonstrates to the satisfaction of the Department: (1) why the person who exercises substantial control should nevertheless be considered to lack that control, or (2) why the person who exercises substantial control and each member of that person’s family does not or did not exercise substantial control over the school or servicer that owes the liability.

Code of Conduct
If a school participates in an FSA loan program, it must publish and enforce a code of conduct that includes bans on:

- revenue-sharing arrangements with any lender,
- steering borrowers to particular lenders or delaying loan certifications, and
- offers of funds for private loans to students in exchange for providing concessions or promises to the lender for a specific number of FSA loans, a specified loan volume, or a preferred lender arrangement.

The code of conduct applies to the officers, employees, and agents of the school and must also prohibit employees of the financial aid office from receiving gifts from a lender, guaranty agency, or loan servicer.

Disqualified individuals & PPA
In its Program Participation Agreement (see Chapter 1), a school agrees to not knowingly employ in a capacity involving the administration of FSA funds, anyone who has pled nolo contendere or guilty or has been administratively or judicially determined to have committed fraud or any other material violation of the law involving federal, state, or local government funds.
(34 CFR 668.14(b) (18)(i)).

Fidelity bond coverage for employees
In the past, schools were required to maintain fidelity bond coverage for their employees. This is no longer a federal requirement for schools that participate in the FSA programs. However, by state law some schools are still required to maintain fidelity bond coverage. Even if a school is not required to do so, it may choose to maintain fidelity bond coverage to protect itself when losses occur because of a lack of integrity, on the part of the school’s employees or officers.
The code must also prohibit financial aid office staff (or other employees or agents with responsibilities with respect to education loans) from accepting compensation for:

- any type of consulting arrangement or contract to provide services to or on behalf of a lender relating to education loans; and
- service on an advisory board, commission, or group established by lenders or guarantors, except for reimbursement for reasonable expenses.

**Compensation for serving on an advisory board**

A person employed in a financial aid office who serves on an advisory board cannot receive anything of value from the lender but can receive reimbursement for reasonable expenses associated with participation. A school must report annually to ED any such reasonable expenses paid or provided to any employee who is employed in the financial aid office, or who otherwise has responsibilities with respect to education loans or other financial aid of the institution.

The report must include:

- the amount of each specific instance of reasonable expenses paid or provided;
- the name of the financial aid official, other employee, or agent to whom the expenses were paid or provided;
- the dates of the activity for which the expenses were paid or provided; and
- a brief description of the activity for which the expenses were paid or provided.

**CONTRACTS WITH THIRD-PARTY SERVICERS**

Schools are permitted to contract with consultants for assistance in administering the FSA programs. However, the school ultimately is responsible for the use of FSA funds and will be held accountable if the consultant mismanages the programs or program funds.

The General Provisions regulations contain requirements for all participating institutions that contract with third-party servicers. As defined by regulation, a third-party servicer is an individual or organization that enters into a contract (written or otherwise) with a school to administer any aspect of the school’s FSA participation.

Examples of functions that are covered by this definition are:

- processing student financial aid applications, performing need analysis, and determining student eligibility or related activities;
- certifying loans, servicing loans, or collecting loans;
- processing output documents for payment to students, and receiving, disbursing, or delivering FSA funds;
- conducting required student consumer information services;
• preparing and certifying requests for cash monitoring or reimbursement funding, preparing and submitting notices and applications required of eligible and participating schools, or preparing the Fiscal Operations Report and Application to Participate (FISAP); and
• processing enrollment verification for deferment forms or Student Status Confirmation Reports.

Excluded functions
Examples of functions excluded from the definition of “third-party servicer” are:

• performing lockbox processing of loan payments;
• performing normal electronic fund transfers (EFTs) after being initiated by the school;
• publishing ability-to-benefit tests;
• acting as a Multiple Data Entry Processor (MDE);
• financial and compliance auditing;
• mailing documents prepared by a school or warehousing school records;
• participating in a written arrangement with other eligible schools to make eligibility determinations and FSA awards for certain students (see Chapter 2); and
• providing computer services or software.

A person or organization performing these functions is not considered to be a third-party servicer and is not subject to third-party servicer requirements.

Excluded individuals
An employee of a school is not a third-party servicer. For this purpose, an employee is one who:

• works on a full-time, part-time, or temporary basis,
• performs all duties on site at the school under the supervision of the school,
• is paid directly by the school,
• is not employed by or associated with a third-party servicer, and
• is not a third-party servicer for any other school.

Requirements for contracting with a third-party servicer
For purposes of administering FSA programs, a school may only contract with an eligible third-party servicer as specified by the regulatory criteria. Under such a contract, the servicer agrees to comply with all applicable requirements, to refer any suspicion of fraudulent or criminal

Notifying ED of 3rd-party servicer contracts
Schools are required to notify the Department of all third-party servicer contracts, and changes to third-party servicer contracts, as described in Chapter 5.

If a school has submitted information regarding its third-party servicers as part of applying for certification or recertification, no additional submission is required.
Referring information to OIG
The regulations provide the following examples of criminal misconduct:
- False claims by the school for FSA program assistance;
- False claims of independent student status;
- False claims of citizenship;
- Use of false identities;
- Forgery of signatures or certifications;
- False statements of income; and
- Payment of any commission, bonus, or other incentive payment based in any part, directly or indirectly, upon success in securing enrollments or the award of financial aid to any person or entity engaged in any student recruitment or admission activity or in making decisions regarding the award of FSA program funds. (See next section on Incentive Compensation.)

Incentive compensation in the law & regulations
The prohibition of incentive compensation appears in Section 487(a)(20) of the HEA and in the Student Assistance General Provisions regulations at 34 CFR 668.14(b)(22).

Definitions
See Table 3 for regulatory definitions of
- Commission, bonus, or other incentive payment
- Securing enrollments or the award of financial aid
- Entity or person engaged in any student recruitment or admission activity or in making decisions about the award of financial aid
- Enrollment

“Safe harbors” exceptions
Regulations issued on October 29, 2010 eliminate the safe harbors effective July 1, 2011.

Conduct in relation to FSA program administration to the Department’s Inspector General (see margin), and, if the servicer disburses funds, to confirm student eligibility and make the required Returns to Title IV funds (see Volume 5) when a student withdraws.

If the contract is terminated, or the servicer ceases to perform any functions prescribed under the contract, the servicer must return to the school all unexpended FSA funds and records related to the servicer’s administration of the school’s participation in the FSA programs.

A third-party servicer must refer to the Department’s Office of Inspector General any information indicating there is reasonable cause to believe that the school might have engaged in fraud or other criminal misconduct in connection with the school’s administration of, or application for, the FSA programs (see sidebar for examples).

INCENTIVE COMPENSATION PROHIBITION

Schools may not provide any commission, bonus, or other incentive payment based directly or indirectly on success in securing enrollments or making decisions related to securing financial aid in any part, directly or indirectly, upon success in securing enrollments or the award of financial aid to any individual or entity engaged in recruiting or admission activities or in making decisions regarding the award of FSA program funds.

As stated above, only two types of activities are subject to the incentive compensation ban: securing enrollment (recruitment) and securing financial aid. No other activities are subject to the ban.

The incentive compensation prohibition applies to all individuals with responsibility for recruitment or admission of students, or making decisions about awarding FSA funds. As shown in Table 1, the Department draws a distinction between recruitment activities that involve working with individual students and policy-level determinations that affect recruitment, admission, or the awarding of FSA funds. The Department expects that employees who have titles such as enrollment counselors, recruitment specialists, recruiters, and enrollment managers have sufficiently direct involvement in recruitment that the incentive compensation ban applies to them. Senior managers and executive level employees who are only involved in the development of policy and do not engage in individual student contact or the other covered activities listed in Table 1 will not generally be subject to the incentive compensation ban.

When other activities are coupled with recruitment or securing financial aid, a school must consider how they compensate persons or entities to avoid payments that are prohibited. Table 1 illustrates how these principles would be applied to activities that schools carry out in support of recruitment and financial aid. Payments to persons or entities that undertake or have responsibility for recruitment and decisions related to securing financial aid are subject to the incentive compensation ban even if their work also includes other activities.
Schools may use factors such as seniority or length of employment as a basis for compensating employees covered by the incentive compensation prohibition. Many other qualitative factors may also be used so long as they are not related to the employee’s success in securing student enrollments or the award of financial aid. These factors may include such things as job knowledge and professionalism, skills such as analytic ability, initiative in work improvement, clarity in communications, and use and understanding of technology, and traits such as accuracy, thoroughness, dependability, punctuality, adaptability, peer rankings, student evaluations, and interpersonal relations.

### Incentive compensation

On March 17, 2011, the Department issued additional guidance on incentive compensation. In addition to the tables included in this text, this Dear Colleague Letter provided examples of how the incentive compensation rules are applied, as well as guidance on "tuition sharing" and "profit sharing" and other forms of compensation. See GEN 11-05.

### Two-part test to evaluate if a payment is incentive compensation

1. Is the payment a commission, bonus, or other incentive payment, defined as an award of a sum of money or something of value paid to or given to a person or entity for services rendered?
2. Is the commission, bonus, or other incentive payment provided to any person based, in any part directly or indirectly, upon success in securing enrollments or the award of financial aid?

If the answer to each question is “yes,” the payment would be prohibited.

### Table 1: Activities covered by prohibition on incentive compensation

<table>

<th>Covered Activities</th>
<th>Exempt Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Activities that are ALWAYS subject to the ban on incentive compensation</strong></td>
<td><strong>Activities NOT subject to the ban on incentive compensation include the following, unless the activities of the employee or entity also involve a covered activity</strong></td>
</tr>
</tbody>
</table>
| Recruitment activities, including:  
  - Targeted information dissemination to individuals;  
  - Solicitations to individuals;  
  - Contacting potential enrollment applicants; aiding students in filling out enrollment application information | Marketing activities, including:  
  - Broad information dissemination;  
  - Advertising programs that disseminate information to groups of potential students;  
  - Collecting contact information;  
  - Screening pre-enrollment information to determine whether a prospective student meets the requirements that an institution has established for enrollment in an academic program;  
  - Determining whether an enrollment application is materially complete, as long as the enrollment decision enrollment decision remains with the institution |
| Services related to securing financial aid, including completing financial aid applications on behalf of prospective applicants (including activities which are authorized by the Department, such as the FAA Access tool, which can be used to enter, correct, verify, or analyze financial aid application data) | Student support services offered after the point at which financial aid is allowed to be disbursed for a payment period, including:  
  - General student counseling;  
  - Career counseling;  
  - Financial aid counseling, including loan management;  
  - Online course support - both professional services and computer hardware and software;  
  - Academic support services, including tutoring, baimed at student retention, whether that support is provided prior to attendance in classes or after attendance has begun |
<p>| Policy decisions made by senior executives and managers related to the manner in which recruitment, enrollment, or financial aid will be pursued or provided, such as, e.g., decisions to admit only high school graduates |</p>

</tbody>
</table>
REQUIRED ELECTRONIC PROCESSES

Schools must be able to use the FSA electronic processes in order to be considered administratively capable of participating in the FSA programs.

In order for a school to exchange data with the FSA Systems, it must have Internet access through its network or through an Internet Service Provider. Your school will also need to enroll in the Student Aid Internet Gateway (SAIG) and establish a data mailbox. Most schools prepare student data records in a software package such as EDExpress and transmit the records as batch files to the SAIG mailbox. The Department’s systems send edited records back to the SAIG mailbox, where the school downloads the records and uses its software to update the records in its own database.

Schools must use COD’s common record format, complying with the published schema for the corresponding award year, to send and receive origination and disbursement data for Pell Grants, TEACH grants, and Direct Loans. This common record format uses Extensible Markup Language (XML).

Summary of required electronic processes

To be in compliance with the administrative capability requirements of 34 CFR 668.16(o), a school must—

- use the E-App to submit and update the school’s eligibility information:
  www.eligcert.ed.gov
- enroll in the Student Aid Internet Gateway (SAIG):
  www.fsawebenroll.ed.gov
- use FAA Access or its SAIG mailbox to exchange FAFSA or ISIR data with the Department’s Central Processing System:
- use the COD website or its SAIG mailbox to exchange award and disbursement data for Pell Grants, TEACH grants, and Direct Loans:
  cod.ed.gov or www.saigportal.ed.gov
- use the eCampus-Based (eCB) System to file the FISAP application and report (see Volume 6):
  www.cbfsiap.ed.gov
- submit to the National Student Loan Data System (NSLDS) the school’s Federal Perkins Loan data, student enrollment records, FSA program overpayments, and NSLDS Transfer Student Monitoring records:
  https://www.nsldsfaap.ed.gov/secure/logon.asp
- electronically submit the school’s annual compliance and financial statement audits, and any other required audits:
  ezaudit.ed.gov
- use the Default Management website to receive its draft and official cohort default rate data electronically: ifap.ed.gov/DefaultManagement
- use the Information for Financial Aid Professionals (IFAP) website to review Dear Colleague Letters, announcements, or Federal Registers: ifap.ed.gov
To create and edit student records, your school may use the Department’s EDExpress software, or develop its own software, or rely on a third-party software vendor. If you are not using EDExpress software to prepare your records, it is your responsibility to ensure that the software you use is capable of generating COD records in XML format.

As an alternative, you can now create and edit student records directly on many of our Web sites, such as COD, CPS, and NSLDS. When creating and editing records on the Web, you do not have to transmit the changes through your SAIG mailbox.

Information for Financial Aid Professionals (IFAP)

Program information is communicated through our IFAP website (ifap.ed.gov) in the form of electronic announcements, Dear Colleague letters, and Federal Registers. One of the most useful features of this website is its notification service, which sends you daily or weekly e-mails that summarize recent postings to IFAP. (Go to “Member Services” on IFAP and select Subscription Options after you’ve registered.)

Even if you use a third-party servicer to manage your student aid activities, you are responsible for knowing about all new requirements posted on IFAP.

The IFAP site also has links to all major FSA Web sites and services, and a “Help” link that includes contact information for FSA call centers and customer service offices.

Minimum systems requirements

In the past, ED has issued the minimum system requirements schools must meet in order to participate in the Department’s electronic processes. (The most recent issuance was for 2005–2006, and gave an optimal configuration of 2.8 GHz/333 MHz Processor and 80 GB hard drive with a high speed Internet connection.) When reviewing your office’s computer needs, you should be aware that its system requirements (processor speed, RAM, hard-drive storage, etc.) will depend on which FSA functions the school uses, the number of records processed, and school database interfaces.

SHARING INFORMATION WITH NSLDS, DL SERVICERS & GUARANTORS

Reporting student enrollment data to NSLDS

All schools participating (or approved to participate) in the FSA programs must have some arrangement to report student enrollment data to the National Student Loan Data System (NSLDS) through a Roster file (formerly called the Student Status Confirmation Report or SSCR).

Student enrollment information is extremely important, because it is used to determine if the student is still considered in school, must be moved into repayment, or is eligible for an in-school deferment. For students moving into repayment, the out-of-school status effective date determines when the grace period begins and how soon a student must begin repaying loan funds.

Enrollment Reporting Requirements

34 CFR 682.610 FFEL
34 CFR 685.309(b) Direct Loans
“Dear Colleague” letter GEN-96-5
“Dear Colleague” letter GEN-96-17
See “NSLDS Reference Materials” on IFAP for NSLDS Newsletters, Updates, and other information

Receiving Roster Files

A school (or its servicer) must sign up to receive Roster Files through the SAIG Enrollment site
www.fsawebenroll.ed.gov/PMEnroll/index.jsp

Updating enrollment information on the Web

You can create or update student enrollment status by using the “Enroll” tab on the NSLDS Professional Access site:
https://www.nsldsfordaf.ed.gov/
Support: 1-800-999-8219

Enrollment Reporting/SSCR Technical References

For more information on reporting enrollment information to NSLDS, including record layouts, error codes, etc., see the Enrollment Reporting Guide (formerly the SSCR User’s Guide), which is available online on the ifap.ed.gov site (see NSLDS Reference Materials > NSLDS User Documentation)

If you will be using the SSCR software package for Enrollment Reporting, see the SSCR Desk Reference, which includes record layouts, error codes, etc. and is available at:
www.fsadownload.ed.gov
Enrollment Status Codes

These codes are listed in the Record Layouts in the SSCR Technical Reference. Data submitted to the Student Loan Clearinghouse uses most of these codes.

A = Approved Leave of Absence
D = Deceased
F = Full-time
G = Graduated
H = Half-time or more, but less than full-time
L = Less than half-time
W = Withdrawn (voluntary or involuntary)
X = Never attended
Z = Record not found

Privacy: Sharing student records with lenders

A student authorizes his or her school to release information to lenders by signing the promissory note as part of the loan application process. This authorization covers information relevant to the student’s or parent’s eligibility to borrow as well as locating the borrower. Examples of such information are enrollment status, financial assistance, and employment records. See Chapter 7 for more information about recordkeeping and privacy.

Loan information from the guarantor

Upon request, the guarantor must inform the school of students in default on FFELs.

34 CFR 682.401(b)(24)

If the lender requests preclaims assistance, the guarantor must inform the school of this request, if the school has requested such notification.

34 CFR 682.404(a)(4)
Sec. 428(c)(2)(H) of the HEA

The guarantor must notify the school when a loan made at that school changes hands, if the school requests such information.

Sec. 428(b)(2)(F) of the HEA
34 CFR 682.401(b)(25)

At scheduled times during the year, not less than semiannually, NSLDS sends a Roster file electronically to your school (or its designated servicer) through its SAIG mailbox. The file includes all of the school’s students who are identified in NSLDS as Stafford (Direct and FFEL) borrowers (or the beneficiaries of a PLUS loan). The file is not necessarily connected to loans made at your school—you also must report information for students who received some or all of their FSA loans at other schools but are currently attending your school.

Your school (or servicer) must certify the information and return the Roster file within 30 days of receiving it. You may also go to www.nsldsfa.ed.gov and update information for your students online. You’re required to report changes in the student’s enrollment status, the effective date of the status and an anticipated completion date. Changes in enrollment to less than half-time, graduated, or withdrawn must be reported within 30 days. However, if a Roster file is expected within 60 days, you may provide the data on that Roster file.

If the Roster file that you are returning contains records that don’t pass the NSLDS Enrollment Reporting edits, you will receive a response file with the records that didn’t pass. Within 10 days, you’ll need to make the necessary corrections to these records and resubmit them. If you are using a servicer, you may need to assist the servicer in correcting these errors. Please remember that your school is ultimately responsible for notifying NSLDS of student enrollment changes.

If your school reports enrollment data to the NSLDS, it does not have to complete SSCRs received directly from guaranty agencies. (Receiving an SSCR report from a guaranty agency may be an indication that your school has not reported to NSLDS within the last six months.) However, you must still respond to requests for borrower information from guaranty agencies, lenders, and loan servicers. You must continue to provide loan holders and loan servicers with a borrower’s enrollment status and other information needed to locate the borrower for deferment and other repayment purposes.

Updating borrower information at separation

Within 60 days after the exit counseling session, your school must provide the Direct Loan servicer (or the guaranty agency for FFEL) that was listed in the borrower’s student aid records any updated information about: the borrower’s name; address; references; future permanent address; Social Security number; the identity and address of the borrower’s expected employer; the address of the borrower’s next of kin; and the borrower’s driver’s license number and state of issuance.

Sharing information about delinquent/defaulted borrowers

To promote loan repayment, DL schools are encouraged to notify the appropriate Direct Loan servicer if they receive new information about a delinquent borrower’s location or employment.

The Direct Loan servicers send electronic reports to participating schools listing all delinquent and defaulted Direct Loan borrowers who took out loans while attending the school. The report, which contains the borrowers’ names, addresses, and phone numbers, is organized by the number of days
past due so that schools can contact and counsel borrowers to avoid default. The school may also wish to work with borrowers who have defaulted on their Direct Loans to help these borrowers bring their loans out of default.

A former FFEL school may make agreements to provide the holders of delinquent loans with information about the delinquent borrower’s location or employment. The school may also try to contact the borrower and counsel him or her to avoid default.

Former FFEL schools may ask a guaranty agency to provide information about students who were enrolled at the school who have defaulted on their Stafford loans. The guarantor may not charge for this information. The school may also ask the guarantor to notify the school whenever a lender requests default aversion assistance on a loan made at your school, and provide the borrower’s name, address, and Social Security number. (The guaranty agency may charge a reasonable fee for this service.) Your school may only use the information to remind the borrower to repay his or her loan(s).

If you’ve requested it, the guaranty agency must also notify your school when loans to its students are sold, transferred, or assigned to another holder. (The notification must include the address and telephone number of the new loan holder.) This notification requirement only applies to loans that are in the grace period or in repayment, and only if your school was the last school the borrower attended before the loan entered repayment. (For instance, if a student received several Stafford loans while earning a bachelor’s degree at your school, but pursued a master’s degree at another school before those loans entered repayment, the guarantor is not required to notify you if the loan is sold.)

Financial Aid History & Transfer Monitoring

A school must consider a student’s financial aid history in making FSA program awards. The regulations require that schools use NSLDS data to obtain information about a student’s financial aid history.

In order to receive students’ financial aid history, your school must register for the Transfer Student Monitoring Process.

Through the transfer student monitoring process, NSLDS will monitor a transfer student’s financial aid history and alert you to any relevant changes—other than the default and overpayment information reported in the postscreening process—that may affect the student’s current award(s).

You must send NSLDS identifying information for students transferring to your school so that NSLDS can use transfer monitoring to notify you of changes to the student’s financial aid history. You may send information for students who have expressed an interest in attending your school, even if they have not yet formally applied for admission.

You can find a complete discussion of this requirement and the transfer student monitoring process in Volume 1, Chapter 3.
SATISFACTORY ACADEMIC PROGRESS

To be considered administratively capable, a school must have a satisfactory academic progress policy that, for an FSA recipient, is the same as or more strict than the school’s standards for a student enrolled in the same educational program who is not receiving assistance under an FSA program.

Because satisfactory progress issues are most often raised in specific student eligibility cases, we discuss the details of satisfactory progress standards in Volume 1, Chapter 1 of the FSA Handbook. You should carefully review the discussion in Volume 1 if your school is developing or amending its satisfactory progress policy.

Basic elements of a satisfactory progress policy

As discussed in Volume 1, a school’s policy must include certain basic elements that are measured at least annually:

- a qualitative component consisting of grades or comparable factors that are measurable against a norm,
- a quantitative component that consists of a maximum time-frame in which a student must complete his or her educational program, subdivided into increments, and
- measurement of progress at the end of each increment.

In addition, your school’s policy must explain:

- the effect of ESL courses and remedial courses on progress,
- how progress is measured if a student changes majors or seeks to earn additional degrees,
- how course repetitions are handled,
- the procedures for appealing a satisfactory progress determination, and
- the procedures for re-establishing satisfactory progress.

The policy must include provisions for consistent application of the standards to all students within categories (e.g., full-time, part-time, undergraduate, and graduate students), and educational programs established by the school. Generally, the quantitative and qualitative standards used to judge academic progress include all periods of the student’s enrollment. Even periods in which the student did not receive FSA funds must be counted.

“C” average required after 2 years

In addition to any school-determined standards, federal law requires that a student enrolled in a program of study of more than 2 academic years must, once the student has been enrolled for two academic years, have a “C” average or its equivalent, or have an academic standing consistent with the school’s requirement for graduation. If your school does not use letter grades, it must define the equivalent of a “C” average.
TAKING ATTENDANCE

A school is required to take attendance if—

- an outside entity (such as the school’s accrediting agency or a state agency) has a requirement that the institution take attendance;
- the school itself has a requirement that its instructors take attendance; or
- the school or an outside entity has a requirement that can only be met by taking attendance or a comparable process, including, but not limited to, requiring that students in a program demonstrate attendance in the classes of that program, or a portion of that program.

See the regulatory text in the margin for further information.

PROVISIONS FOR U.S. ARMED FORCES MEMBERS & FAMILY

In-state tuition rates for active-duty servicemembers & family attending public institutions

A public postsecondary school may not charge a member of the armed forces who is on active duty for a period of more than 30 days more than the school’s tuition rate for residents of the state. Similarly, the servicemember’s spouse and dependent children are entitled to the in-state tuition rate.

In addition, if the servicemember, spouse, or dependent child pays the in-state tuition rate, the public institution must allow them to continue to pay such a rate as long as the individual is continuously enrolled, even if there is a subsequent change in the permanent duty station of the servicemember to a location outside of the state.

Readmission of servicemembers

A school must promptly readmit a servicemember with the same academic status as he or she had when last attending the school or accepted for admission to the school. This requirement applies to any student who cannot attend school due to military service (see sidebar for definition).

The student must notify the school of his or her military service and intention to return to school, as follows:

- Notification of military service. The student (or an appropriate officer of the Armed Forces or official of the Department of Defense) must give oral or written notice of such service to the school as far in advance as is reasonable under the circumstances. This notice does not have to indicate whether the student intends to return to the school and may not be subject to any rule of timeliness. (Timeliness must be determined by the facts in any particular case.) Alternatively, at the time of readmission, the student may submit an attestation of military service that necessitated the student’s absence from the school. No notice...
is required if precluded by military necessity, such as service in operations that are classified or would be compromised by such notice.

- **Notification of intent to return to school.** The student must also give oral or written notice of his or her intent to return to the school within 3 years after the completion of the period of service. A student who is hospitalized or convalescing due to an illness or injury incurred or aggravated during the performance of service must notify the school within 2 years after the end of the period needed for recovery from the illness or injury. A student who fails to apply for readmission within these periods does not automatically forfeit eligibility for readmission, but is subject to the school’s established leave of absence policy and general practices.

A school must designate one or more offices that a student may contact to provide notification of service and notification of intent to return. The school may not require that these notices follow any particular format.

The school must promptly readmit the student into the next class or classes in the student’s program beginning after the student provides notice of intent to reenroll, unless the student requests a later date or unusual circumstances require the school to admit the student at a later date. This requirement supersedes state law—for example, a school must readmit a qualifying servicemember to the next class even if that class is at the maximum enrollment level set by the state.

The school must admit the student with the same academic status, meaning—

- to the same program to which the student was last admitted or, if that exact program is no longer offered, the program that is most similar to that program, unless the student chooses a different program;
- at the same enrollment status, unless the student wants to enroll at a different enrollment status;
- with the same number of credit hours or clock hours previously completed, unless the student is readmitted to a different program to which the completed credit hours or clock hours are not transferable, and
- with the same academic standing (e.g., with the same satisfactory academic progress status) the student previously had.

If the student is readmitted to the same program, for the first academic year in which the student returns, the school must assess the tuition and fee charges that the student was or would have been assessed for the academic year during which the student left the school.

- If veterans’ education benefits or other servicemember education benefits will pay the amount in excess of the tuition and fee charges assessed for the academic year in which the student left the school, the school may assess up to the amount of tuition and fee charges that other students in the program are assessed for that academic year.
If the student is admitted to a different program, and for subsequent academic years for a student admitted to the same program, the school must assess no more than the tuition and fee charges that other students in the program are assessed for that academic year.

The cumulative length of the absence and of all previous absences from the school for military service may not exceed 5 years. Only the time the student spends actually performing service is counted. (See the chart on the next page for additional rules pertaining to cumulative length of absence.)

Reasonable efforts to help prepare student

If the school determines that the student is not prepared to resume the program with the same academic status at the point where the student left off, or will not be able to complete the program, the school must make reasonable efforts at no extra cost to help the student become prepared or to enable the student to complete the program. This includes providing refresher courses and allowing the student to retake a pretest at no extra cost.

The school is not required to readmit the student if it determines—

• that there are no reasonable efforts it can take to prepare the student to resume the program at the point where he or she left off or to enable the student to complete the program.

• after it makes reasonable efforts, that the student is not prepared to resume or complete the program.

The school carries the burden to prove by a preponderance of the evidence that the student is not prepared to resume the program with the same academic status at the point where the student left off, or that the student will not be able to complete the program.

• "Reasonable efforts" means actions that do not place an undue hardship on the institution.

• "Undue hardship" means an action requiring significant difficulty or expense when considered in light of the overall financial resources of the institution and the impact otherwise of such action on the operation of the institution.

Termination for bad conduct

A student’s readmission rights terminate in the case of a dishonorable or bad conduct discharge, general court-martial, federal or state prison sentence, or other reasons as described in 34 CFR 668.18(h).
Readmission for servicemembers—additional information

34 CFR 668.18 (a) General

(3) This section applies to an institution that has continued in operation since the student ceased attending or was last admitted to the institution but did not begin attendance, notwithstanding any changes of ownership of the institution since the student ceased attendance.

(4) The requirements of this section supersede any State law (including any local law or ordinance), contract, agreement, policy, plan, practice, or other matter that reduces, limits, or eliminates in any manner any right or benefit provided by this section for the period of enrollment during which the student resumes attendance, and continuing so long as the institution is unable to comply with such requirements through other means.

668.18 (e) Cumulative length of absence.
For purposes of paragraph (c)(1)(ii) of this section, a student’s cumulative length of absence from an institution does not include any service—

(1) That is required, beyond five years, to complete an initial period of obligated service;

(2) During which the student was unable to obtain orders releasing the student from a period of service in the uniformed services before the expiration of the five-year period and such inability was through no fault of the student; or

(3) Performed by a member of the Armed Forces (including the National Guard and Reserves) who is—

   (i) Ordered to or retained on active duty under—

      (A) 10 U.S.C. 688 (involuntary active duty by a military retiree);
      (B) 10 U.S.C. 12301(a) (involuntary active duty in wartime);
      (C) 10 U.S.C. 12301(g) (retention on active duty while in captive status);
      (D) 10 U.S.C. 12302 (involuntary active duty during a national emergency for up to 24 months);
      (E) 10 U.S.C. 12304 (involuntary active duty for an operational mission for up to 270 days);
      (F) 10 U.S.C. 12305 (involuntary retention on active duty of a critical person during time of crisis or other specific conditions);
      (G) 14 U.S.C. 331 (involuntary active duty by retired Coast Guard officer);
      (H) 14 U.S.C. 332 (voluntary active duty by retired Coast Guard officer);
      (I) 14 U.S.C. 359 (involuntary active duty by retired Coast Guard enlisted member);
      (J) 14 U.S.C. 360 (voluntary active duty by retired Coast Guard enlisted member);
      (K) 14 U.S.C. 367 (involuntary retention of Coast Guard enlisted member on active duty); or
      (L) 14 U.S.C. 712 (involuntary active duty by Coast Guard Reserve member for natural or man-made disasters);

(ii) Ordered to or retained on active duty (other than for training) under any provision of law because of a war or national emergency declared by the President or the Congress, as determined by the Secretary concerned;

(iii) Ordered to active duty (other than for training) in support, as determined by the Secretary concerned, of an operational mission for which personnel have been ordered to active duty under section 12304 of title 10, United States Code;

(iv) Ordered to active duty in support, as determined by the Secretary concerned, of a critical mission or requirement of the Armed Forces (including the National Guard or Reserve); or

(v) Called into Federal service as a member of the National Guard under chapter 15 of title 10, United States Code, or section 12406 of title 10, United States Code (i.e., called to respond to an invasion, danger of invasion, rebellion, danger of rebellion, insurrection, or the inability of the President with regular forces to execute the laws of the United States).

668.18 (g) Documentation.

(1) A student who submits an application for readmission to an institution under paragraph (c)(1)(ii) of this section shall provide to the institution documentation to establish that—

   (i) The student has not exceeded the service limitation in paragraph (c)(1)(ii) of this section; and
   (ii) The student’s eligibility for readmission has not been terminated due to an exception in paragraph (h) of this section.

(2)(i) Documents that satisfy the requirements of paragraph (g)(1) of this section include, but are not limited to, the following:

   (A) DD (Department of Defense) 214 Certificate of Release or Discharge from Active Duty.
   (B) Copy of duty orders prepared by the facility where the orders were fulfilled carrying an endorsement indicating completion of the described service.
   (C) Letter from the commanding officer of a Personnel Support Activity or someone of comparable authority.
   (D) Certificate of completion from military training school.
   (E) Discharge certificate showing character of service.
   (F) Copy of extracts from payroll documents showing periods of service.
   (G) Letter from National Disaster Medical System (NDMS) Team Leader or Administrative Officer verifying dates and times of NDMS training or Federal activation.

(ii) The types of documents that are necessary to establish eligibility for readmission will vary from case to case. Not all of these documents are available or necessary in every instance to establish readmission eligibility.

(3) An institution may not delay or attempt to avoid a readmission of a student under this section by demanding documentation that does not exist, or is not readily available, at the time of readmission.
Schools that participate in the FSA programs are generally required to have annual compliance and financial statement audits. This chapter will discuss the audit requirement and the financial standards and limitations that apply to a school’s FSA eligibility. In addition, we will discuss the annual calculation of a school’s cohort default rate.

**FSA AUDIT REQUIREMENTS FOR SCHOOLS**

A school that participates in any FSA program, including a participating foreign school, generally must have an independent auditor conduct an annual audit of the school’s compliance with the laws and regulations that are applicable to the FSA programs in which the school participates (a compliance audit), and an audit of the school’s financial statements (a financial statement audit).

While a compliance audit covers the school’s administration of the FSA programs, a financial statement audit provides the Department with information necessary to evaluate a school’s status vis-a-vis the financial standards that are discussed later in this chapter.

The type of compliance audit a school or servicer must undergo depends on its type of control: public, for-profit, or nonprofit.

- All for-profit schools must have an FSA compliance audit conducted under the Inspector General’s *Audit Guide* (for FSA school audits), which is available on the IFAP website.

- Public and nonprofit schools must comply with the Single Audit Act. The Single Audit Act requires these schools to have an audit conducted in accordance with the Office of Management and Budget’s (OMB) Circular A-133, Audits of States, Local Governments, and Nonprofit Organizations. (Circular A-133 allows an FSA compliance audit under the criteria of the *Audit Guide* under limited circumstances.)

The Office of Inspector General (OIG) also conducts audits, usually in cases where there is concern over a school’s administration of the FSA programs. An OIG or other federal audit does not satisfy the requirement that a school have annual compliance and financial statement audits performed by an independent public accountant.

Note that audit requirements also apply to third-party servicers. However, a school may never use a third-party servicer’s audit in place of its own required audit, because the school is ultimately liable for its own violations as well as those incurred by its third-party servicers.

**School Participation Teams**

For information regarding accounting and compliance issues, a school should contact the School Participation Team for its region. See the contact information on the IFAP website (ifap.ed.gov).

**Audit requirements & waiver**

HEA Sec. 487(c)
20 USC 1094
34 CFR 668.23(a)(1) to (5)
Waiver: 34 CFR 668.27
TIMING OF AUDIT SUBMISSIONS

Simultaneous FSA audit submissions

A school that has an audit performed under the Audit Guide for FSA schools must submit both the compliance audit and the audited financial statements within six months of the end of the school’s fiscal year. Both audits must be prepared by an independent public accountant in accordance with the Generally Accepted Accounting Principles (GAAP) and audited in accordance with the Generally Accepted Government Auditing Standards (GAGAS). The compliance audit and financial statement audit may be performed by different auditors. However, the audits must be submitted as one package.

Both the compliance audit and the financial statement audit must be performed on a fiscal-year basis. In cases where the school’s fiscal year does not coincide with an award year, the school’s compliance audit will cover parts of two award years (see example below).

Example: school’s fiscal year ≠ FSA award year

<table>
<thead>
<tr>
<th>July 1, 2010</th>
<th>June 30/July 1 2011</th>
<th>June 30 2012</th>
</tr>

<td>2011–2012 award year</td>
<td></td>
</tr>
</tbody>
</table>

School’s 2011 fiscal year

January 2011 to December 2012 (period covered by audit)

Submission dates for FSA audits

A school’s or servicer’s annual compliance and financial statements audits performed under the Audit Guide must be based upon the fiscal year and submitted to the Department within six months after the end of the school’s or servicer’s fiscal year. (These requirements do not apply to audits performed under the Single Audit Act that are due as specified in OMB Circular A-133.)

The chart on the next page lists audit due dates and the period the audit must cover. (The chart provides information for the most common institutional fiscal-year-end dates.)

Generally, a school’s first audit performed under these requirements must cover the entire period of time since the school began to participate in the FSA programs. Each subsequent audit must cover the period since the end of the period covered by the preceding audit that is accepted by the Department.
Waivers of requirement for an annual FSA audit

A school may request a waiver of the requirement for an annual audit for up to three years.

- A proprietary school must have disbursed less than $200,000 dollars in each of the two most recently completed award years to be eligible for the waiver. (The school must also meet the other regulatory conditions in 34 CFR 668.27.)
- A public or private nonprofit institution that expends less than $500,000 in federal funds in a fiscal year is exempt from filing compliance audits after the school gains initial eligibility.

If the waiver is approved, at the end of the waiver period the school must submit a compliance audit covering each individual fiscal year in the waiver period and a financial statement audit for the last year of the waiver period.

This exception to the annual audit requirement may not be granted for the award year preceding a school’s required recertification.

If the Department grants the waiver, the school does not have to submit its compliance or audited financial statement until six months after—

- the end of the third fiscal year following the fiscal year for which the school last submitted a compliance audit and audited financial statement; or
- the end of the second fiscal year following the fiscal year for which the school last submitted compliance and financial statement audits if the award year in which the school will apply for recertification is part of the third fiscal year.

A school’s waiver request may include the fiscal year in which that request is made, plus the next two fiscal years.

A school remains liable for repaying any FSA funds it improperly expends during the waiver period. A compliance audit is the vehicle for discovering improper expenditures. Therefore, a school will be required to pay any liabilities when the school eventually submits a compliance audit for the fiscal years in which it made improper expenditures.

### Audits required at end of waiver period

The regulations do not waive the requirement that a school audit its administration of the FSA programs; they waive the requirement that these audits be submitted on an annual basis. Therefore, if a school is granted a waiver for 3 years, when the waiver period expires and the school must submit its next compliance audit, that audit must cover the school’s administration of the FSA programs since the end of the period covered by its last submitted compliance audit.

The auditor for a proprietary school must audit, and attest to, the school’s annual 90/10 determination for each individual year in the waiver period (in accordance with 34 CFR 668.23(d)(4)).

### Rescinding the waiver

The Department rescinds a waiver if the school:
- disburses $200,000 or more of FSA program funds for an award year;
- undergoes a change in ownership that results in a change of control; or
- becomes the subject of an emergency action or a limitation suspension, fine, or termination action initiated by the Department or a guaranty agency.
Qualifying for waiver

To qualify for a waiver, a school must demonstrate that it:
• is not a foreign school;
• disbursed less than $200,000 in FSA program funds during each of the two completed award years prior to the audit period;
• agrees to keep records relating to each award year in the unaudited period for two years after the end of the regular record retention period for the award year;
• has participated in the FSA programs under the same ownership for at least three award years preceding the school’s waiver request;
• is financially responsible under the general requirements of financial responsibility, and does not rely on the alternative standards and requirements of exceptions to participate in the FSA programs;
• is not receiving funds under the reimbursement or cash monitoring system of payment;
• has not been the subject of a limitation, suspension, fine, or termination proceeding, or emergency action initiated by the Department or a guaranty agency in the three years preceding the school’s waiver request;
• has submitted its compliance audits and audited financial statements for the previous two fiscal years, and no individual audit disclosed liabilities in excess of $10,000; and
• submits a letter of credit in the amount as determined below, which must remain in effect until the Department has resolved the audit covering the award years subject to the waiver.

For purposes of this section, the letter of credit amount is 10% of the total FSA program funds the school disbursed to or on behalf of its students during the award year preceding the school’s waiver request.

Examples of effects of waivers

Example 1: The school is still required to have its administration of the FSA programs audited for the waiver period. If a school is granted a waiver for three years, when the waiver period expires, the next audit must cover the school’s administration of the FSA programs since the end of the period covered by its last submitted compliance audit. For example, if a school’s fiscal year coincides with an award year (July 1–June 30), it submits a compliance audit for its fiscal year that ends on June 30, 2011, and then receives a waiver so that its next compliance audit is due six months after the end of its 2013–2014 fiscal year. When it submits that audit, it must cover the 2011–2012, 2012–2013, and 2013–2014 fiscal years.

Example 2: If a school’s fiscal year ends June 30, 2011, and the school receives a waiver on May 1, 2011, the next compliance audit is due six months after the end of the school’s 2013–2014 fiscal year.
STANDARDS & GUIDELINES FOR FSA AUDITS

Audited financial statement requirement

A school’s audited financial statement must cover the school’s most recently completed fiscal year. The Department uses the information in a school’s audited financial statement to evaluate the school’s status vis-a-vis the financial standards discussed in this chapter. In addition to a school’s audited financial statement, the Department may require that the school submit additional information. For example, the Department may require a school to submit or provide access to the auditor’s work papers. Also, if the Department finds it necessary to evaluate a particular school’s financial condition, the Department can require a school to submit audited financial statements more frequently than once a year.

FSA compliance audits

Compliance audits must be conducted in accordance with the general standards and the standards for compliance audits contained in the U.S. General Accountability Office’s (GAO’s) Government Auditing Standards. In addition, the auditor should use the following guidance, based on school type:

- Public and private nonprofit schools audited under Single Audit Act: OMB Circular A-133.
- For-profit schools, foreign schools, and third-party servicers: the latest Audit Guide for the FSA programs (see sidebar).

In conducting an audit, the auditor may also find it useful to consult the accounting and recordkeeping manual for the FSA programs (known as The Blue Book), and the G5 Users Guide, as applicable.

A school (or third-party servicer) may use the same independent auditor or auditing firm for its required nonfederal audit as the one that usually audits its fiscal transactions. To produce unbiased conclusions, the auditor must be independent of those authorizing the expenditure of FSA funds.

The Department may require a school to provide a copy of its compliance audit report to guaranty agencies, lenders, state agencies, other federal agencies, or accrediting agencies.

Single Audit Act (A-133 audit) guidelines

Nonprofit and public schools are required to have audits performed under the guidelines of the Single Audit Act. (These audits are also known as “A-133 audits” because the audit guidelines are established in OMB Circular A-133). A-133 audits satisfy the Department’s audit requirements.

A-133 audits have distinct auditing and submission requirements and must be submitted to the Federal Audit Clearinghouse. (A copy of the audit must also be submitted to the Department through the eZ-Audit website.) A school submitting an audit under the guidelines of the Single Audit Act must use the submission deadlines established by the Single Audit Act.

Audit Guide (for FSA programs)
The official title of the Inspector General’s audit guide for the FSA programs is Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers.

The Audit Guide and the “Blue Book” are available on the IFAP website (ifap.ed.gov) under “Publications.”

The G5 Users Guide is available at https://www.g5.gov/

Financial statements must use accrual basis & GAAP standards

Financial statements must be prepared on an accrual basis in accordance with generally accepted accounting principles (GAAP), and audited by an independent auditor in accordance with GAGAS and other guidance contained in OMB Circular A-133, or in the Department’s Audit Guide (for FSA school audits).

Circular A-133 & the Single Audit Act

Office of Management and Budget (OMB) Circular A-133 was issued pursuant to the Single Audit Act of 1984. The Single Audit Act was amended in 1996—the current requirements are found in Chapter 75 of title 31, U.S. Code.

Circular A-133 is titled “Audits of States, Local Governments, and Nonprofit Organizations” and is applicable to nonprofit postsecondary schools, states, local governments, and Indian tribal governments. For many schools, this is a combined audit of all the federal programs at that school. OMB circular A-133 is available through the OMB Home Page at www.whitehouse.gov/omb/circulars/index.html
Exemptions

A school that expends less than $500,000 of federal funds during a fiscal year is exempt from submitting an annual A-133 audit. However, a school that spends less than $500,000 in all federal funds is still required to submit a financial statement to the Department within 6 months after the close of its fiscal year. The financial statement does not have to be audited by a CPA, and may be created as compiled or reviewed statements. If the school has prepared a set of audited financial statements for its own use or for another entity, the school must submit those audited financial statements to the Department no later than 6 months after the end of the institution’s fiscal year.

Circular A-133 permits the submission of program-specific audits if an entity expends funds in only one federal program and the program’s regulations do not require a financial statement audit. The FSA program regulations require a financial statement audit. Therefore, a school may not submit a program-specific audit to satisfy the Department’s audit submission requirements.

Circular A-133 also now allows an independent auditor to use professional judgment to determine whether certain federal programs must be included in the scope of an audit. An independent auditor can exclude certain program components, such as FSA program funds, if they fall below a predetermined dollar and risk threshold.

The independent auditor must make an annual assessment of the dollar and risk conditions, determine whether such exclusions are appropriate, and whether any FSA programs must be included within the scope of the audit. You can find additional information on this topic in the latest Compliance Supplement to Circular A-133.

FSA consolidated statements

In some cases, a school’s relationship with another entity may cause the Department to require a school to submit additional financial statements both of the school and the entity, such as audited consolidated financial statements; audited full consolidated financial statements; audited combined financial statements; or, under certain circumstances, audited financial statements of one or more related parties. This occurs when the Department determines that the activities or financial health of another entity may impact upon the school’s total financial health. So that the Department can make this determination, a school must include in its audited financial statements a detailed description of related entities based on the definition of a related entity in the Statement of Financial Accounting Standards (SFAS) 57. In addition, the description must include all related parties and a level of detail that would enable the Department to readily identify the related party. This information may include, but is not limited to, the name, location, and description of the related entity, including the nature and amount of any transaction between the related party and the school, financial or otherwise, regardless of when it occurred.
A proprietary school must disclose the percentage of its revenues derived from the FSA programs that the school received during the fiscal year covered by the audit as a footnote to its audited financial statements. The school must also report in the footnote the dollar amount of the numerator and denominator of its 90/10 ratio as well as the individual revenue amounts identified in section 2 of appendix C to subpart B of part 668 (see sidebar).

A school that converts from a for-profit to a nonprofit status must report its compliance with the 90/10 revenue test for the first year after its conversion. A school changing from for-profit to nonprofit must continue to file this report for the first year of its nonprofit status.

To be eligible for FSA participation, a proprietary school must derive at least 10% of its revenues for each fiscal year from sources other than the FSA programs, or be subject to sanctions. The calculation of this percentage and the funds included must be arrived at using the cash basis of accounting. A school must determine its revenue percentages using the formula described in the chart on the following pages each fiscal year.

Proprietary schools have 45 days after their most recent fiscal year has ended to report to the Department if they did not satisfy the 90/10 Rule for that period.

- If a school fails to satisfy the 90/10 rule for any fiscal year, it becomes provisionally certified for up to two fiscal years after the fiscal year it failed to satisfy the revenue requirement. (Among other factors, the provisional certification is limited by the expiration date of the school’s program participation agreement.)
- If a school fails to satisfy the 90/10 rule for two consecutive fiscal years, it loses its eligibility to participate in the FSA programs for at least two fiscal years.

If the school loses eligibility, it must immediately stop awarding FSA funds and follow the closeout procedures described in Chapter 9.
Section 668.28(a) of the Student Assistance General Provisions provides the following explanation of how to count revenue from FSA vs. non-FSA sources: See Appendix C of Subpart B of the Student Assistance General Provisions for calculation procedures.

(3) Revenue generated from programs and activities.
The institution must consider as revenue only those funds it generates from—

(i) Tuition, fees, and other institutional charges for students enrolled in eligible programs as defined in §668.8;
(ii) Activities conducted by the institution that are necessary for the education and training of its students provided those activities are—
   (A) Conducted on campus or at a facility under the institution’s control;
   (B) Performed under the supervision of a member of the institution’s faculty; and
   (C) Required to be performed by all students in a specific educational program at the institution; and
(iii) Funds paid by a student, or on behalf of a student by a party other than the institution, for an education or training program that is not eligible under §668.8 if the program—
   (A) Is approved or licensed by the appropriate State agency;
   (B) Is accredited by an accrediting agency recognized by the Secretary under 34 CFR part 602;
   (C) Provides an industry-recognized credential or certification, or prepares students to take an examination for an industry-recognized credential or certification issued by an independent third party;
   (D) Provides training needed for students to maintain State licensing requirements;
   (E) Provides training needed for students to meet additional licensing requirements for specialized training for practitioners that already meet the general licensing requirements in that field.

(4) Application of funds.
The institution must presume that any Title IV, HEA program funds it disburses, or delivers, to or on behalf of a student will be used to pay the student’s tuition, fees, or institutional charges, regardless of whether the institution credits the funds to the student’s account or pays the funds directly to the student, except to the extent that the student’s tuition, fees, or other charges are satisfied by—

(i) Grant funds provided by non-Federal public agencies or private sources independent of the institution;
(ii) Funds provided under a contractual arrangement with a Federal, State, or local government agency for the purpose of providing job training to low-income individuals who need that training;
(iii) Funds used by a student from a savings plan for educational expenses established by or on behalf of the student if the saving plan qualifies for special tax treatment under the Internal Revenue Code of 1986; or
(iv) Institutional scholarships that meet the requirements in paragraph (a)(5)(iv) of this section.

(5) Revenue generated from institutional aid.
The institution must include the following institutional aid as revenue:

(i) For loans made to students and credited in full to the students’ accounts at the institution on or after July 1, 2008 and prior to July 1, 2012, include as revenue the net present value of the loans made to students during the fiscal year, as calculated under paragraph (b) of this section, if the loans—
   (A) Are bona fide as evidenced by standalone repayment agreements between the students and the institution that are enforceable promissory notes;
   (B) Are issued at intervals related to the institution’s enrollment periods;
   (C) Are subject to regular loan repayments and collections by the institution; and
   (D) Are separate from the enrollment contracts signed by the students.

(6) Revenue generated from loan funds in excess of loan limits prior to the Ensuring Continued Access to Student Loans Act of 2008 (ECASLA).
For each student who receives an unsubsidized loan under the FFEL or Direct Loan programs on or after July 1, 2008 and prior to July 1, 2011, the amount of the loan disbursement for a payment period that exceeds the disbursement for which the student would have been eligible for that payment period under the loan limit in effect on the day prior to enactment of the ECASLA is included and deemed to be revenue from a source other than Title IV, HEA program funds but only to the extent that the excess amount pays for tuition, fees, or institutional charges remaining on the student’s account after other Title IV, HEA program funds are applied.
(7) Funds excluded from revenues.
For the fiscal year, the institution does not include—
(i) The amount of Federal Work Study (FWS) wages paid directly to the student. However, if the institution credits the student's account with FWS funds, those funds are included as revenue;
(ii) The amount of funds received by the institution from a State under the LEAP, SLEAP, or GAP programs;
(iii) The amount of institutional funds used to match Title IV, HEA program funds;
(iv) The amount of Title IV, HEA program funds refunded or returned under §668.22. If any funds from the loan disbursement used in the return calculation under §668.22 were counted as non-title IV revenue under paragraph (a)(6) of this section, the amount of Title IV, HEA program funds refunded or returned under §668.22 is considered to consist of pre-ECASLA loan amounts and loan amounts in excess of the loan limits prior to ECASLA in the same proportion to the loan disbursement; or
(v) The amount the student is charged for books, supplies, and equipment unless the institution includes that amount as tuition, fees, or other institutional charges.

Other 90/10 guidance

Cash basis of accounting
Except for institutional loans made to students under 34 CFR 668.28(a)(5)(i), a proprietary school must use the cash basis of accounting in calculating its revenue percentage under the 90/10 Rule. Under the cash basis of accounting, revenue is recognized when received rather than when it is earned.

Revenue
For the purpose of calculating the qualifying percentages under the 90/10 Rule, revenue is an inflow or other enhancement of assets to an entity, or a reduction of its liabilities resulting from the delivery or production of goods or services. A school may recognize revenue only when the school receives cash, i.e., when there is an inflow of cash. As a result, in order for a school to recognize revenue under the cash basis of accounting, that revenue must represent cash received from a source outside the institution.

Tuition waivers
Institutional grants in the form of tuition waivers do not count as revenue because no new revenue is generated. Similarly, internal transfers of cash among accounts are not considered revenue because they do not represent an inflow of cash to the institution. Institutional scholarships are not revenues generated by the school (unless they are donated by an unrelated or outside third party). An exception is permitted for schools to use donations from a related party to create restricted accounts for institutional scholarships, but only the amount earned on the restricted account and used for scholarships would count as revenue in the denominator of the calculation.

Funds held as credit balances in institutional accounts cannot be counted in the 90/10 formula. However, once funds held as credit balances are used to satisfy institutional charges, they would be counted in both the numerator and the denominator of the formula.

Revenues from loans
When a school makes a loan to a student, it does not receive cash from an outside source. Accordingly, cash revenue from institutional loans is recognized only when those loans are repaid, because that is when there is an inflow of cash from an outside source. Loan proceeds from institutional loans that were disbursed to students may not be counted in the denominator of the fraction, because these proceeds neither generate nor represent actual inflows of cash. The school may include only loan repayments it received during the appropriate fiscal year for previously disbursed institutional loans.

Loans made by a private lender that are in any manner guaranteed by the school are known as recourse loans. The proceeds from recourse loans may be included in the denominator of an institution's 90/10 calculation for the fiscal year in which the revenues were received, provided that the institution's reported revenues are also reduced by the amount of recourse loan payments made to recourse loan holders during that fiscal year. Note that recourse loan payments may be for recourse loans that were made in a prior fiscal year. Under the cash basis of accounting the reductions to total revenues in the denominator of the 90/10 calculation are reported in the fiscal year when the payments are made.

The nonrecourse portion of a partial recourse loan may be included in a 90/10 calculation. In order to include a partial recourse loan in a 90/10 calculation, the contract must identify the percentage of the sale that is nonrecourse; only that percentage may be included. Furthermore, no after-the-fact adjustments may be provided. Revenue generated from the sale of nonrecourse institutional loans to an unrelated third party may be counted as revenue in the denominator of the 90/10 calculation to the extent that the revenues represent actual proceeds from the sale.

The sale of institutional loan receivables is distinguishable from the sale of a school's other assets because receivables from institutional loans are produced by transactions that generate tuition revenue. Tuition revenue represents income from the major service provided by a school. That would not be true in the case of the sale of other school assets.

Counting LEAP funds
Note that the LEAP Program is not funded beyond July 1, 2011, so the following guidance applies to LEAP grants funded before that date.

If a state agency specifies the exact amount or percentage of LEAP funds included in an individual student's state grant, only the specified amount or percentage of the student's state grant up to $5,000 (the statutory maximum LEAP award) is considered LEAP funds.

If the state agency identifies a specific student's state grant as containing LEAP funds but does not provide an exact amount or percentage, the entire amount of the grant up to $5,000 is considered LEAP funds. State grant funds that are not LEAP/SLEAP are included in the denominator.

If the state agency does not specify the amount of LEAP funds included in a student's individual grant but does specify the percentage of LEAP funds in the entire amount of state grant funds provided to the school and the student meets the FSA student eligibility requirements, the school must apply this percentage to the individual student's total state grant to determine the amount of the grant up to $5,000 to be considered LEAP funds.
AUDIT & AUDIT REVIEW PROCESS

Having the audit performed

The school or servicer must make its program and fiscal records, as well as individual student records, available to the auditor. (Required recordkeeping is discussed in Chapter 7.) Both the financial aid and business offices should be aware of the dates the auditors will be at the school, and make sure that someone is on hand to provide requested documents and answer questions during that period.

At the end of the on-site review, the auditor conducts an exit interview. At a school, this exit interview is usually conducted with the personnel from the school’s financial aid and other relevant offices. The exit interview is not only an opportunity for the auditor to suggest improvements in procedures, but it also gives the school or servicer a chance to discuss the draft report and review any discrepancies cited in the report. The exit interview is a good time to resolve any disagreements before the final report is prepared.

The final report is prepared by the auditor and submitted to the school or servicer.

Review of FSA audit submissions

The Department reviews the audit report for format, completeness, and to ensure that it complies with the government’s auditing standards.

We will use the general information to make an initial determination of whether the audits are materially complete and conducted in accordance with applicable accounting standards. Based on the financial data, we will also make a preliminary determination as to whether your school is financially responsible with respect to the financial responsibility ratios, or in the case of a change in ownership resulting in a change in control, whether the school satisfies the financial ratio requirements (discussed later in this chapter). Later, the Department will review submissions to determine whether the school must provide additional information or ED should take further action.

Based on the audit findings and the school’s or servicer’s written explanation, the Department will determine if any funds were spent improperly. Unless the school or servicer has properly appealed the decision, the school or servicer must repay any improperly spent funds within 45 days.

Access to records

Once the audit is complete, the school or servicer must give the Department and the OIG access to all records and documents needed to review the audit. A school that uses a third-party servicer must give the Department and the OIG access to all records and documents needed to review a third-party servicer’s compliance or financial statement audit. In addition, the school’s or servicer’s contract with the auditor must specify that the auditor will give the Department and the OIG access to the records and documents related to the audit, including work papers. Cooperation includes providing timely and reasonable access to records (including computer records) for examination and copying, and to personnel for the purpose of obtaining relevant information.

Information about eZ-audit

Website: http://ezaudit.ed.gov
E-mail contact: fsaezaudit@ed.gov
eZ-Audit Help Desk: 877-263-0780.

Use of eZ-AUDIT required

Schools are required to submit their compliance audits, audited financial statements, and letters confirming their status as public schools through the Department’s eZ-AUDIT Electronic Financial Reporting System. This requirement applies to any compliance audits or financial statements required under 34 CFR 600.20(a) or (b) to begin or continue participating in the FSA programs, any financial statements required due to a change in ownership resulting in a change in control as provided under 34 CFR 600.20(g); any compliance audits and financial statements required annually under 34 CFR 668.23, and any compliance audits and financial statements required when a school ceases to participate in the FSA programs as provided under 34 CFR 668.26(b).

Cooperation with audit & review process

Throughout the audit process, and for other examinations such as program reviews and state reviews, the school or servicer is required to cooperate fully with its independent auditor, the Department and its Inspector General, the Comptroller General of the United States, accrediting agency, and the appropriate guaranty agency.
The eZ-Audit website provides a paperless single point of submission for financial statements and audits (i.e., compliance reports). eZ-Audit provides automatic error checking as you enter the data and before submission. In addition, it gives you instant acknowledgment of receipt.

All schools that participate in the FSA programs must use eZ-Audit to submit financial statements and compliance audits (including copies of the A-133 reports that nonprofit and public institutions file with the Federal Audit Clearinghouse).

Nonprofit and public institutions are still required to submit their A-133 audits in writing to the Federal Clearinghouse.

The eZ-Audit process

To access the eZ-Audit Web site you must be a registered user. Each school must select an eZ-Audit institution administrator who will be responsible for managing your school’s access to the eZ-Audit website. This institution administrator will receive the user name and password necessary for your school’s access and will be responsible for granting access to others you name as additional users.

Each registered user must sign and retain the eZ-Audit rules of behavior. (For registration instructions and to download the rules of behavior, please visit ezaudit.ed.gov).

Once you have obtained your school ID, you will access the appropriate page on the audit website, and—

1. enter general information about your school’s compliance audit and financial statement;
2. enter specific financial data directly from its audited financial statement; and
3. attach authentic electronic copies of the audit originals.

After you have entered the required information, you must attach a copy of the audit prepared and signed by the independent auditor. The copy must be in a non-editable, portable document format (PDF) created using Adobe Acrobat version 5.0 or higher.
AUDITS FOR THIRD-PARTY SERVICERS

Audit requirements also apply to third-party servicers. If a servicer contracts with several FSA schools, a single compliance audit can be performed that covers its administrative services for all schools. If a servicer contracts with only one FSA school and that school’s own audit sufficiently covers the functions performed by the servicer, the servicer does not have to submit a compliance audit. A servicer must submit its compliance audit within six months after the last day of the servicer’s fiscal year. The Department may require a servicer to provide a copy of its compliance audit report to guaranty agencies, lenders, state agencies, the Department of Veterans Affairs, or accrediting agencies.

In addition to submitting a compliance audit, a servicer that enters into a contract with a lender or guaranty agency to administer any aspect of the lender’s or guaranty agency’s programs must submit annually audited financial statements. The financial statements must be prepared on an accrual basis in accordance with GAAP and audited by an independent auditor in accordance with GAGAS and any other guidance contained in audit guides issued by the Department’s Office of the Inspector General.

If the Department determines that, based on audit findings and responses, a third-party servicer owes a liability for its administration of the FSA programs, the servicer must notify each school with which it has a contract of the liability. Generally, unless they submit an appeal, schools and servicers owing liabilities must repay those liabilities within 45 days of being notified by the Department.

As noted earlier, a school may never use a third-party servicer’s audit in place of its own required audit, because the school is ultimately liable for its own violations as well as those incurred by its third-party servicers. (See Chapter 3 for more information on third-party servicers.)
DEMONSTRATING FINANCIAL RESPONSIBILITY

In order to participate in the FSA programs, a school must demonstrate that it is financially responsible. To provide the Department with the information necessary to evaluate a school’s financial responsibility, schools are required to submit financial information to the Department every year. A school must provide this financial information in the form of an audited financial statement as part of a combined submission that also includes the school’s compliance audit. For-profit schools have six months from the end of the schools’ fiscal year to provide the combined submission; other schools have nine months.

What follows is an overview of the financial responsibility standards. Schools should refer to Subpart L of the Student Assistance General Provisions for complete information.

The Department determines whether a school is financially responsible based on the school’s ability to:

- provide the services described in its official publications and statements;
- properly administer the FSA programs in which the school participates; and
- meet all of its financial obligations.

The financial responsibility standards can be divided into two categories: (1) general standards, which are the basic standards used to evaluate a school’s financial health, and (2) performance and affiliation standards, which are standards used to evaluate a school’s past performance and to evaluate individuals affiliated with the school.

Financial responsibility for public schools

A public school is financially responsible if its debts and liabilities are backed by the full faith and credit of the state or another government entity. The Department considers a public school to have that backing if the school notifies the Department that it is designated as a public school by the state, local, or municipal government entity, tribal authority, or other government entity that has the legal authority to make that designation. The school must also provide the Department with a letter from an official of the appropriate government entity confirming the school’s status as a public school. A letter from a government entity may include a confirmation of public school status for more than one school under that government’s purview. The letter is a onetime submission and should be submitted as a separate document.

Public schools also must meet the past performance and affiliation standards discussed later, and must submit financial statements prepared in accordance with generally accepted accounting principles (GAAP) and prepared on the accrual basis.

Financial responsibility for proprietary or private nonprofit schools

A proprietary or private nonprofit school is financially responsible if the Department determines that—

Financial responsibility

Sec. 498(c) of the Higher Education Act
34 CFR 668 Subpart L

Change in ownership

When a change in ownership occurs, the Department applies the standards in 34 CFR 668.15.

Return of Title IV funds

The requirements for return of Title IV funds for students who withdraw from the educational program are described in Volume 5.
the school has a composite score of at least 1.5;
the school has sufficient cash reserves to make the required refunds, including the return of Title IV funds (these requirements are known as the refund reserve standards);
the school is meeting all of its financial obligations, including making required refunds, including the return of Title IV funds and making repayments to cover FSA program debts and liabilities; and
the school is current in its debt payments.

These requirements are discussed in more detail in the next section.

Even if a school meets all of the general requirements, the Department does not consider the school to be financially responsible if—

- in the school’s audited financial statement the opinion expressed by the auditor was adverse, qualified, or disclaimed, or the auditor expressed doubt about the continued existence of the school as a going concern (unless the Department determines that a qualified or disclaimed opinion does not have a significant bearing on the school’s financial condition), or
- the school violated one of the past performance requirements discussed later in this chapter.

### STANDARDS FOR FINANCIAL RESPONSIBILITY

#### Composite score

The composite score standard combines different measures of fundamental elements of financial health to yield a single measure of a school’s overall financial health. This method allows financial strength in one area to make up for financial weakness in another area. In addition, this method provides an equitable measure of the financial health of schools of different sizes.

The composite score methodology takes into account the differences between proprietary schools and private nonprofit schools. The variance takes into account the accounting differences between these sectors of postsecondary schools. However, the basic steps used to arrive at the composite score are the same. These steps are described later in this section.

#### Refund reserve standards

One of the standards that a school must satisfy in order to be considered financially responsible is that it must have sufficient cash reserves to return FSA funds when a student withdraws. A school is considered to have sufficient cash reserves if it:

- is located in a state that has an ED-approved tuition recovery fund and the school contributes to that fund, or
- for its two most recently completed fiscal years, the school made all required returns in a timely manner (see Volume 5, Chapter 2 for more information on returns, including timely payment).
Returning funds in a timely manner

Unearned funds must be returned no later than 45 days after the date of the school’s determination that the student withdrew. ED considers the school to have returned funds, depending upon the method it uses to return them. Specifically, the regulations provide that a school has returned funds when it has:

- deposited or transferred the funds into the bank account it maintains for federal funds (see sidebar) no later than 45 days after the date it determines that the student withdrew,
- initiated an electronic funds transfer (EFT) no later than 45 days after the date it determines that the student withdrew, or
- issued a check no later than 45 days (as supported by the school’s records) after the date it determines that the student withdrew.

If a check is used to return unearned funds, the Department requires that the check be endorsed by ED no later than 60 days after the school’s determination that a student withdrew in order to be considered a timely return.

Compliance thresholds for timely return of funds

The Department provides for a small margin of error in determining that a school has paid all required refunds and returns on time. The Department considers a school to have paid returns in a timely manner if—

- there is less than a 5% error rate in a sample of returns (composed of students for whom the school was required to return unearned funds) examined in a compliance audit, an audit conducted by the Office of the Inspector General (OIG), or a program review conducted by the Department or guaranty agency, or
- there are no more than two late returns in the sample (regardless of the number or percentage of late returns in the sample).

In addition, if the reviewer or auditor finds a material weakness or reportable condition in the school’s report on internal controls relating to the return of unearned Title IV aid, the Department considers the school to have not paid returns in a timely manner.

Letter of credit required when funds are not returned in timely manner

Public schools and schools covered by a state tuition recovery fund that has been approved by the Department are not subject to the letter of credit requirements. If any other school exceeds the compliance thresholds in either of its two most recently completed fiscal years, the school must submit an irrevocable letter of credit acceptable and payable to the Department. The letter of credit must be equal to 25% of the returns the school made or should have made during its most recently completed fiscal year.

A school that is required to submit a letter of credit must do so no later than 30 days after the earlier of the date that:

Deposit to operating account or separate federal bank account

A school that maintains a separate federal bank account must deposit to that account, or transfer from its operating account to its federal account, the amount of unearned program funds, as determined under the Return of Title IV funds regulations. The date the school makes that deposit or transfer is the date used to determine whether the school returned the funds within the 45-day timeframe permitted in the regulations.

Unless the Department requires a school to use a separate account, the school may use its operating account for FSA purposes. In this case, the school must designate that account as its federal bank account, and have an auditable system of records showing that the funds have been allocated properly and returned in a timely manner. If there is no clear audit trail, the Department can require the school to begin maintaining FSA funds in a separate bank account.

34 CFR 668.163(a)

Making new awards with returned funds

After a school has returned unearned funds to its federal account, provided those funds were originally received from the Department or from an FFEL lender under a process that allows the school to reuse the unearned funds, the school can use the funds to make disbursements to other eligible students.

Address for Letters of Credit

Letters of credit are submitted to:

Director
Performance Improvement & Procedures
U.S. Department of Education
Federal Student Aid
830 First Street, NE
UCP-3, MS 5435
Washington, DC 20002-8019
• the school is required to submit its compliance audit;
• the OIG issues a final audit report;
• the designated department official issues a final program review determination;
• the Department issues a preliminary program review report or draft audit report, or a guaranty agency issues a preliminary report showing that the school did not return unearned funds for more than 10% of the sampled students; or
• ED sends a written notice to the school requesting the letter of credit that explains why the school has failed to return unearned funds in a timely manner.

If the finding in the preliminary report is that the school did not return unearned funds in a timely manner for 10% or fewer of the sampled students, a school would generally be required to submit the letter of credit only if the final report shows that the school did not return unearned funds in a timely manner for 5% or more of all the students in the sample. If the final report indicates that a letter of credit is required, the school would have to submit it no later than 30 days after the final report is issued.

**Exceptions to the letter of credit requirement**

A school is not required to submit a letter of credit of less than $5,000. However, to meet the reserve requirement, such a school would need to demonstrate that it has available at all times cash reserves of at least $5,000 to make required returns.

In addition, a school may delay submitting a letter of credit while it asks for reconsideration of a finding that it failed to return unearned FSA funds in a timely manner. A school may request that the Department reconsider its finding if the school submits documents showing that:

• the unearned FSA funds were not returned in a timely manner solely because of exceptional circumstances beyond the school's control and that the school would not have exceeded the applicable threshold had it not been for the exceptional circumstances; or
• it did not fail to make timely returns.

A school that submits an appeal, together with all required supporting documents, by the date the letter of credit would be due is not required to submit a letter of credit unless the Department notifies the school that its request has been denied.

**Current in debt payments**

A school is not current in its debt payments if

• it is in violation of any existing loan agreement at its fiscal year end, as disclosed in a note to its audited financial statements or audit opinion, or
• fails to make a payment in accordance with existing debt obligations for more than 120 days, and at least one creditor has filed suit to recover funds under those obligations.
Calculating a composite score

The first step in calculating a school’s composite score is to determine the school’s primary reserve, equity, and net income ratios by using information from the school’s audited financial statement. These ratios take into account the total financial resources of the school. The Primary Reserve Ratio represents a measure of a school’s viability and liquidity. The Equity Ratio represents a measure of a school’s capital resources and its ability to borrow. The Net Income Ratio represents a measure of a school’s profitability.

Upon review, some items from a school’s audited financial statement may be excluded from the calculation of the ratios. For example, the Department may exclude the effects of questionable accounting treatments, such as excessive capitalization of marketing costs, from the ratio calculations. (See box below for regulatory list of exclusions.)

All long-term debt obtained for the school’s purposes may be included for purposes of the Primary Reserve Ratio calculation. However, it is important to note that the overall level of debt obtained for long-term purposes that can be included in the numerator of the Primary Reserve Ratio is limited under the regulations. It cannot exceed the amount of the school’s net property, plant, and equipment.

A strength factor score is then calculated for each ratio using equations established by the Department. A strength factor score reflects a school’s relative strength or weakness in a fundamental element of financial health, as measured by the ratios. Specifically, the strength factor scores reflect the extent to which a school has the financial resources to: 1) replace existing technology with newer technology; 2) replace physical capital that wears out over time; 3) recruit, retain, and retrain faculty and staff (human capital); and 4) develop new programs.

A weighting percentage is applied to each strength factor score to obtain a weighted score for each ratio. The weighting percentages reflect the relative importance that each fundamental element has for a school in a particular sector (proprietary or private nonprofit).

The sum of the weighted scores equals the school’s composite score. Because the weighted scores reflect the strengths and weaknesses represented by the ratios and take into account the importance of those strengths and weaknesses, a strength in the weighted score of one ratio may compensate for a weakness in the weighted score of another ratio.

Once a composite score is calculated, it is measured along a common scale from negative 1.0 to positive 3.0 as indicated in the diagram on the next page. This scale reflects the probability a school will be able to continue operations and meet its obligations to students and the Department.

Exclusions

Excluded items. In calculating an institution’s ratios, the Secretary—

(1) Generally excludes extraordinary gains or losses, income or losses from discontinued operations, prior period adjustments, the cumulative effect of changes in accounting principles, and the effect of changes in accounting estimates;

(2) May include or exclude the effects of questionable accounting treatments, such as excessive capitalization of marketing costs;

(3) Excludes all unsecured or uncollateralized related-party receivables;

(4) Excludes all intangible assets defined as intangible in accordance with generally accepted accounting principles; and

(5) Excludes from the ratio calculations Federal funds provided to an institution by the Secretary under program authorized by the HEA only if—

(i) In the notes to the institution’s audited financial statement, or as a separate attestation, the auditor discloses by name and CFDA number, the amount of HEA program funds reported as expenses in the Statement of Activities for the fiscal year covered by that audit or attestation; and

(ii) The institution’s composite score, as determined by the Secretary, is less than 1.5 before the reported expenses arising from those HEA funds are excluded from the ratio calculations.

34 CFR 172(c)
Example: Calculation of a composite score for a proprietary institution*

**Calculation of Ratios**

- **Primary Reserve Ratio**
  \[
  \text{Primary Reserve Ratio} = \frac{\text{Adjusted equity}}{\text{Total expenses}} = \frac{\$760,000}{\$9,500,000} = 0.080
  \]

- **Equity Ratio**
  \[
  \text{Equity Ratio} = \frac{\text{Modified equity}}{\text{Modified expenses}} = \frac{\$810,000}{\$2,440,000} = 0.332
  \]

- **Net Income Ratio**
  \[
  \text{Net Income Ratio} = \frac{\text{Income before taxes}}{\text{Total revenues}} = \frac{\$510,000}{\$10,010,000} = 0.051
  \]

**Calculation of Strength Factor Score**

- **Primary Reserve Strength Factor Score**
  \[
  \text{Primary Reserve Strength Factor Score} = 20 \times \text{Primary Reserve Ratio} = 20 \times 0.080 = 1.600
  \]

- **Equity Strength Factor Score**
  \[
  \text{Equity Strength Factor Score} = 6 \times \text{Equity Ratio} = 6 \times 0.332 = 1.992
  \]

- **Net Income Strength Factor Score**
  \[
  \text{Net Income Strength Factor Score} = 1 + (33.3 \times \text{Net Income Ratio}) = 1 + (33.3 \times 0.051) = 2.698
  \]

**Calculation of Weighted Score**

- **Primary Reserve Weighted Score**
  \[
  \text{Primary Reserve Weighted Score} = 30\% \times \text{Primary Reserve Strength Factor Score} = 0.30 \times 1.600 = 0.480
  \]

- **Equity Weighted Score**
  \[
  \text{Equity Weighted Score} = 40\% \times \text{Equity Strength Factor Score} = 0.40 \times 1.992 = 0.797
  \]

- **Net Income Weighted Score**
  \[
  \text{Net Income Weighted Score} = 30\% \times \text{Net Income Strength Factor Score} = 0.30 \times 2.698 = 0.809
  \]

**Composite Score**

\[
\text{Composite Score} = 0.480 + 0.797 + 0.809 = 2.086 \quad \text{rounded to 2.1}
\]

* The definition of terms used in the ratios and the applicable strength factor algorithms and weighting percentages are found in the Student Assistance General Provisions (regulations) (34 CFR 668) Subpart L, Appendix A for proprietary schools and Appendix B, for private nonprofit schools.
ALTERNATIVES TO THE GENERAL FINANCIAL STANDARDS

If a school does not meet the general standards for financial responsibility, the Department may still consider the school to be financially responsible or may allow the school to participate under provisional certification if the school qualifies for an alternative standard.

If the Department determines that a school that does not meet one or more of the general standards and does not qualify for an alternative, the Department may initiate a limitation, suspension, or termination action against the school (see Chapter 9 for more information on corrective actions and sanctions).

Letter of credit alternative for new school

A new school (a school that seeks to participate in the FSA programs for the first time) that does not meet the composite score standard (i.e., has a composite score of less than 1.5) but meets all other standards may demonstrate financial responsibility by submitting an irrevocable letter of credit to the Department. The letter of credit must be acceptable and payable to the Department and equal to at least 50% of the FSA program funds that the Department determines that the school will receive during its initial year of participation.

Letter of credit alternative for participating school

A participating proprietary or private nonprofit school that fails to meet one or more of the general standards or is not financially responsible because it has an adverse audit opinion may demonstrate financial responsibility by submitting an irrevocable letter of credit to the Department. The letter of credit must be acceptable and payable to the Department and equal to at least 50% of the FSA program funds that the school has received during its most recently completed fiscal year. The school is then considered to be financially responsible.

Zone alternative

A participating school that fails to meet the composite score standard (i.e., has a composite score of less than 1.5) but meets all other standards may demonstrate financial responsibility for up to three consecutive fiscal years if the Department determines that the school’s composite score is equal to 1.0 to 1.4 for each of those years and the school meets specific monitoring requirements.

This alternative gives a school the opportunity to improve its financial condition over time without requiring the school to post a letter of credit or participate under provisional certification. Under the zone alternative, a school’s operations, including its administration of the FSA programs, are monitored more closely. If a school does not score at least 1.0 in one of the three subsequent fiscal years or does not improve its financial condition to attain a composite score of at least 1.5 by the end of the three-year period, the school must satisfy another alternative standard to continue participating. In addition, if a school fails to comply with the information reporting or payment method requirements, the Department may determine that the school no longer qualifies under this alternative.

Alternative standards and requirements

34 CFR 668.175

Information to be provided under the zone alternative

The school must provide timely information regarding any of the following oversight and financial events:

- Any adverse action, including a probation or similar action, taken against the institution by its accrediting agency;
- Any event that causes the institution, or related entity as defined in the Statement of Financial Accounting Standards (SFAS) 57, to realize any liability that was noted as a contingent liability in the institution’s or related entity’s most recent audited financial statement;
- Any violation by the institution of any loan agreement;
- Any failure of the institution to make a payment in accordance with its debt obligations that results in a creditor filing suit to recover funds under those obligations;
- Any withdrawal of owner’s equity from the institution by any means, including by declaring a dividend; or
- Any extraordinary losses, as defined in accordance with Accounting Principles Board (APB) Opinion No. 30.

The school may also be required to:

- submit its financial statement and compliance audits earlier than the time specified under 34 CFR 668.23(a)(4); and
- provide information about its current operations and future plans.

34 CFR 668.175(d)(2)
Under the zone alternative, a school—

- must request and receive funds under the cash monitoring or reimbursement payment methods, as specified by the Department (see Volume 4, Chapter 2);
- must provide timely information regarding certain oversight and financial events (see sidebar);
- may be required to submit its financial statement and compliance audit earlier than normally required (see the discussion of audit submission deadlines earlier in this chapter); and
- may be required to provide information about its current operations and future plans.

The school must also require its auditor to express an opinion, as part of the school’s compliance audit, on the school’s compliance with the requirements of the zone alternative, including the school’s administration of the payment method under which the school received and disbursed FSA program funds.

**Provisional certification for school not meeting standards**

If a participating proprietary or private nonprofit school fails to meet one or more of the general standards or is not financially responsible because it has an unacceptable audit opinion, the Department may permit the school to participate under provisional certification for up to three years.

The Department may permit a school that is not financially responsible to participate under provisional certification if the school is not financially responsible because it:

- does not satisfy the general standards;
- has an unacceptable audit opinion; or
- has a past performance problem that has been resolved.

If the Department permits a school to participate under provisional certification, the Department will require the school:

- to submit to the Department a letter of credit, payable and acceptable to the Department, for a percentage (10%–100%) of the FSA program funds received by the school during its most recent fiscal year.
- to demonstrate that it has met all of its financial obligations and was current on its debt payments for its two most recent fiscal years.

Moreover, the school must comply with the requirement under the zone alternative that it provide timely information regarding certain oversight and financial events. Finally, a school that is required to post a letter of credit will be placed on heightened cash monitoring or reimbursement.

If a school is still not financially responsible at the end of a period of provisional certification, the Department may again permit provisional certification. However, the Department may require the school or persons or
entities that exercise substantial control over the school to submit financial guarantees to the Department to satisfy any potential liabilities arising from the school’s FSA program participation. The same persons may be required to agree to be jointly and severally liable for any FSA program liabilities.

The Department is not required to offer provisional certification to a school. It is an alternative that the Department may choose to offer in exceptional circumstances.

**Provisional certification for school where persons or entities owe liabilities**

If a school is not financially responsible because the persons or entities that exercise substantial control over the school owe an FSA program liability, the Department may permit the school to participate under provisional certification if:

- the persons or entities that owe the liability repay or enter into an agreement with the Department to repay the liability (or the school assumes the liability and repays or enters into an agreement to repay the liability);
- the school meets all the general standards of financial responsibility and demonstrates that it has met all of its financial obligations and was current on its debt payments for its two most recent fiscal years; and
- the school submits to the Department a letter of credit, payable and acceptable to the Department, for an amount determined by the Department (at least 10% of the FSA program funds received by the school during its most recent fiscal year).

The school also must comply with the requirements under the zone alternative.

In addition, the Department may require the school or persons or entities that exercise substantial control over the school to submit financial guarantees to the Department to satisfy any potential liabilities arising from the school’s FSA program participation. The same persons may be required to agree to be jointly and severally liable for any FSA program liabilities.
PAST PERFORMANCE & AFFILIATION STANDARDS

In addition to meeting the numeric standards of financial responsibility and fulfilling all its financial obligations, a school must demonstrate that it properly administers the FSA programs in which it participates. Past actions of the school or individuals affiliated with the school may reveal mismanagement of FSA program funds, thereby demonstrating that a school is not financially responsible. Therefore, in evaluating the way a school administers the FSA programs, the Department considers the past performance of both the school and individuals affiliated with the school.

Past performance of a school

A school is not financially responsible if it—

- in the last five years, has been subject to a limitation, suspension, or termination action or has entered into an agreement to resolve a limitation, suspension, or termination action initiated by the Department or a guaranty agency;
- in either of its two most recent FSA program reviews or audits, has had findings for the current fiscal year or two preceding fiscal years that required repayment of more than 5% of the FSA program funds received by the school;
- has been cited during the last five years for failing to submit audits as required; or
- has failed to satisfactorily resolve any compliance issues identified in program reviews or audit reports, upheld in a final decision of the Department.

Past performance of persons affiliated with a school

A school is not financially responsible if any person who exercises substantial control over the school (or any members of the person’s family alone or together) owes a liability for an FSA program violation or has ever exercised substantial control over another school (or a third-party servicer) that owes a liability for an FSA program violation, unless that person, family member, school, or servicer demonstrates that the liability is being repaid in accordance with an agreement with the Department.

The Department may consider a school that does not meet this requirement to be financially responsible if the school:

- notifies the Department that the individual repaid to the Department an acceptable portion of the liability, in accordance with the regulations;
- notifies the Department that the liability is currently being repaid in accordance with a written agreement with the Department; or
- demonstrates to the satisfaction of the Department: (1) why the person who exercises substantial control should nevertheless be considered to lack that control, or (2) why the person who exercises substantial control and each member of that person’s family does not or did not exercise substantial control over the school or servicer that owes the liability.

Fidelity bond coverage for employees

In the past, schools were required to maintain fidelity bond coverage for their employees. This is no longer a federal requirement for schools that participate in the FSA programs. However, by state law some schools are still required to maintain fidelity bond coverage. Even if a school is not required to do so, it may choose to maintain fidelity bond coverage to protect itself when losses occur because of a lack of integrity, on the part of the school’s employees or officers.

Notifying the Department of change of control

A school must report any changes of control under which a person acquires the ability to affect substantially the actions of the school. Such changes in control trigger a review to determine if the school is financially responsible (see Chapter 5).
LIMITATIONS

An otherwise eligible institution becomes an ineligible institution if the school exceeds

- the 50% limit on students without a high school diploma or equivalent,
- the incarcerated student limitation (25%), or
- the correspondence course limitation (50%) or the correspondence student limitation (50%).

A school must calculate these percentages to demonstrate compliance with a requirement or to demonstrate eligibility for a limitation waiver. For each of the tests enumerated above, the calculation performed by the school must be attested to by the independent auditor who prepares the school’s audited financial statement or its FSA compliance audit. If a school’s initial or previous calculation was in error, the auditor’s report must be part of the audit workpapers and must include a recalculation. The auditor’s attestation report must indicate whether the school’s determinations (including any relevant waiver or exception) are accurate.

For each of the limitation requirements, the school must notify the Department (via Section G of the E-App) of the school’s failure to meet a requirement, its falling within a prohibited limitation, or its ineligibility for a continued waiver, as applicable. The school’s notification must occur by July 31 following the end of an award year. A school that fails to meet any of these requirements loses its eligibility to participate in any FSA program as of the last day of the most recent award year for which the school failed to meet the requirement.

If a school loses its eligibility because it failed to meet one or more of the limitation requirements, the school cannot regain eligibility until it can demonstrate that it was in compliance with all of the limitation requirements for the most recently completed award year. Once this has occurred the school may apply to regain its eligibility. In addition, it must also show how its administrative practices and policies have been changed to ensure that it will not fall within prohibited limits in the future.

**Limitation on students admitted without HS diploma or equivalent**

A school that does not provide a 4-year bachelor’s degree program, or a 2-year associate degree program is ineligible if, for its latest complete award year, more than 50% of its regular enrolled students had neither a high school diploma nor its equivalent.

If a public or private nonprofit institution exceeds the 50% limit because it serves significant numbers of these students through contracts with federal, state, or local government agencies, the Department may waive the limitation.

The waiver will only be granted if no more than 40% of the public or private nonprofit regular students not served through contracts with federal, state, or local government agencies to provide job training do not have a high school diploma or its equivalent. If granted, the waiver may be extended.

---

**Conditions of institutional ineligibility**

34 CFR 600.7

In addition to the limitations discussed in this chapter, a school is not eligible if it (or its owner) files for bankruptcy, or if the school, its owner, or its CEO is responsible for a crime involving FSA program funds. See chapters 1 and 3.

A school that becomes ineligible because of one of these factors must immediately stop awarding FSA funds and must follow the requirements for a school that has lost its FSA participation (see Chapter 9).

**Incarcerated student definition**

A student who is serving a criminal sentence in a federal, state, or local penitentiary, prison, jail, reformatory, work farm, or other similar correctional institution (this does not include detention in a halfway house, home detention, or weekend-only sentences).

**Waiver of incarcerated student limitation**

➔ For a public or private nonprofit school offering only two-year or four-year programs that lead to associate or bachelor’s degrees, the waiver applies to all programs offered at the school.

➔ However, if the public or private nonprofit school offers other types of programs, the waiver would apply to any of the school’s two-year associate degree programs or four-year bachelor’s degree programs, and also to any other programs in which the incarcerated regular students enrolled have a 50% or greater completion rate. (The calculation of this completion rate is specified in 34 CFR 600.7(e)(2) of the Institutional Eligibility regulations and must be attested to by an independent auditor.)

➔ A nonprofit school may request the waiver using the E-App (http://www.eligcert.ed.gov), by answering the questions in “Section G” and explaining in “question 69.”

**Limitations on incarcerated students & correspondence study**

Incarcerated students

34 CFR 600.7(a)(1)(ii) and 600.7(c)

Correspondence study

Sec. 481(a)(3)(A) and (B) of the HEA

34 CFR 600.7(a)(1)(i) and (ii)
Correspondence student eligibility
For information about a student’s eligibility for FSA funds while enrolled in a correspondence course and cost of attendance information for correspondence courses, see Volume 1, Chapter 1 and Volume 3, Chapter 2.

A school is the sum only of its eligible programs
Some postsecondary institutions offer programs that are eligible for FSA as well as programs that are not FSA-eligible. For FSA program purposes, we consider an eligible institution is the sum of its “eligible programs.”

In order to minimize the effect on its institutional eligibility of offering programs solely by correspondence that do not lead to a degree, a school might choose to identify those programs as not part of its FSA-eligible programs.

A program (and students enrolled therein) that was so identified would not be considered part of the school in these two formulas.

Notifying ED when limit is exceeded
34 CFR 600.7(h)
If there is a change to any of a school’s answers to the Yes/No questions in Section G of a submitted Electronic Application (E-App) (which deal with enrollment thresholds in these areas), the school must notify the Department via the E-App (see Chapter 5).

The Department will advise the school of its options, including whether the school might be eligible for a waiver. (Waivers are available for the correspondence student limitation, the incarcerated student limitation, and the limitation on students without a high school diploma or equivalent.)

Correspondence student eligibility
For information about a student’s eligibility for FSA funds while enrolled in a correspondence course and cost of attendance information for correspondence courses, see Volume 1, Chapter 1 and Volume 3, Chapter 2.

Incarcerated student limitation
A school is ineligible if, in its latest complete award year, more than 25% of its regular students are incarcerated. A public or private nonprofit school can ask the Department to waive this limitation (see sidebar for details). If granted, the waiver is effective as long as the public or private nonprofit school continues to meet the waiver requirements each award year. For information on the eligibility of incarcerated students for FSA assistance, see Volume 1, Chapter 1.

Correspondence course & correspondence student limitation
In general, a school is ineligible if, for the latest complete award year—

- more than 50% of the school’s courses were correspondence courses (correspondence course limitation).
  Note: This limitation does not apply to a school that mainly provides vocational adult education or job training (as defined under Sec. 521(4)(C) of the Carl D. Perkins Vocational and Applied Technology Education Act).

- 50% or more of the school’s regular enrolled students were enrolled in correspondence courses (correspondence student limitation).
  This limitation may be waived for a school that offers a 2-year associate degree or 4-year baccalaureate degree program if the school demonstrates to the Department that in that award year, the students enrolled in its correspondence courses receive no more than 5% of the total FSA program funds received by all of the school’s students in the award year.

  Note that the 50% limits apply to the school, not to its individual programs. An educational program composed entirely of correspondence courses could still be an eligible program if no more than 50% of the school’s courses were offered through correspondence, and the program met other eligibility requirements.

  This limitation may be waived for a 2-year associate or 4-year baccalaureate degree program if the school can demonstrate to the Department that students enrolled in correspondence courses received no more than 5% of the total FSA program funds awarded to its students in the award year. Also note that the limitations on correspondence courses and correspondence students do not apply to a school that mainly provides vocational adult education or job training (as defined under section 3(3C) of the Carl D. Perkins Vocational and Applied Technology Education Act of 1995).

  The school’s correspondence course calculation and correspondence student calculation must be attested to by an independent auditor.

  For additional information on correspondence study in the context of program eligibility, see Chapter 2.
Calculating the percentage of correspondence courses

• If a school offers a course both by correspondence and residential training, the course counts twice, as a correspondence course and as a residential course. Thus, it would count as one in the numerator and as two in the denominator.
• Regardless of how many sections of a course or program are offered during the award year (as a residential or as a correspondence course), the course is counted only once under each type.
• A program not offered in courses or modules counts as one correspondence course.

Using the latest complete award year, the formula for determining the percentage of correspondence courses is as follows:

\[
\frac{\text{number of school's correspondence courses}}{\text{total number of school's courses}} = \% \text{ of correspondence courses}
\]

Calculating the percentage of correspondence students

• All enrolled regular students must be counted. (A regular student is “a person enrolled for the purpose of obtaining a degree, certificate, or other recognized educational credential offered by the school.”)
• A school must use a straight head count of enrolled students, including full-time and part-time students and students who don’t receive aid as well as FSA recipients.
• If a student withdrew from the school and received a full refund the student is not counted.

Using the latest complete award year, the formula for determining the percentage of enrolled students is as follows:

\[
\frac{\text{number of regular students enrolled in the school's correspondence courses}}{\text{number of regular students enrolled in all of the school's courses}} = \% \text{ of correspondence students}
\]
COHORT DEFAULT RATES

A school’s eligibility for the FSA programs can be affected by a high cohort default rate (CDR). The Department calculates a school’s CDR based on information from the loan holders, including private lenders (for FFEL), schools (for Perkins), and the Direct Loan servicers.

The Department sends draft default rates to participating schools in February to allow each school an opportunity to review and correct the data that will be used to calculate its official cohort default rates. In September of each year, the Department issues the official cohort default rates. These rates are electronically delivered to schools and posted on the Web. Your school must be enrolled in the eCDR process for electronic delivery of the rates (see sidebar note for instructions and appeal procedures).

Time-frames for cohort default rates

A school’s annual CDR is based on a “cohort” of students who received FFEL or Direct Loans at your school and entered repayment in a single fiscal year. The fiscal year that is used is the federal fiscal year (October 1–September 30).

For instance, your school’s FY 2009 CDR is based on the cohort of students who received FFEL or Direct Loans at your school and entered repayment on those loans between October 1, 2008 and September 30, 2009. This number becomes the denominator (the lower part of the fraction) in the CDR calculation.

\[
\text{Total borrowers who entered repayment during FY2009}
\]

The Department tracks this group of students during the fiscal year in which they enter repayment, and through the end of the following fiscal year. The sum of students who default on their loans (or meet other related conditions) during those two fiscal years become the numerator (top part of the fraction) in the CDR calculation.

\[
\text{Total borrowers who entered repayment in FY2009 who defaulted in FY2009 and 2010}
\]

Because it takes two years to track the outcomes, the initial FY 2009 CDR for your school is not released until two years later, at the beginning of 2011. This is one of the reasons that your school should closely monitor student borrowing and implement effective default prevention procedures as soon as possible. The steps you take to help your students this year may reduce the number of defaults in your school’s CDR two years down the road.

The terminology, criteria, calculations, and exceptions for the rates are described in more detail in the Cohort Default Rate Guide.

Change to 3-year time-frame for FY2009 cohort default rates

Beginning with the cohort of students who enter repayment in FY 2009 (October 1, 2008–September 30, 2009), the default calculation for schools will be based on defaults that occur during a 3-year period (rather than 2 years).
Thus, the CDR for FY2009 will count those students in the FY2009 cohort who default in FY 2009, 2010, and 2011.

No sanctions will be applied to schools based on the new rates until three annual rates have been calculated. During this transition period, sanctions will be based on the 2-year cohort default rate that we described in the previous section. Thus, the Department will calculate both a 2-year and a 3-year CDR rate for each school for FY 2009, 2010, and 2011. Sanctions based on the new 3-year rates will be applied for the FY 2011 rates, to be released in September 2014.

**Effect of cohort default rates**

Currently, a school is not considered to be administratively capable when—

- the cohort default rate for Perkins loans made to students for attendance at the school exceeds 15% (see *Volume 6* for details), or
- the cohort default rate for Federal Stafford/SLS loans or for Direct Subsidized/Unsubsidized Loans made to students for attendance at the school equals or exceeds 25% for the three most recent fiscal years, or if the most recent cohort default rate is greater than 40%.

When a high default rate demonstrates a lack of administrative capability, the Department may choose to provisionally certify such a school.

In addition to affecting a school’s administrative capability and limiting the school’s participation in the FSA programs, a high default rate may make a school ineligible to participate in the Direct Loan, Pell Grant, or Perkins programs. For detailed information on default requirements refer to the *Cohort Default Rate Guide* (posted on IFAP—see sidebar).

**Default prevention & management plan**

If your school’s cohort default rate is equal to or greater than 30%, it must establish a default prevention task force that prepares a plan that—

- identifies the factors causing your cohort default rate to exceed the threshold,
- establishes measurable objectives and the steps your school will take to improve your cohort default rate, and
- specifies the actions your school will take to improve student loan repayment, including counseling students on repayment options.

You must submit your default prevention plan to your School Participation Team for review (see sidebar for contact). If your cohort default rate is equal to or greater than 30% for two consecutive fiscal years, you must revise your default prevention plan and submit it to us for review.

**Contacting the default office**

The Operations Performance Division in Federal Student Aid responds to questions about FFEL/DL cohort default rates, and reviews FFEL/DL cohort default rate challenges, adjustments, and appeals. It also provides technical assistance and outreach to schools to assist them in lowering their default rates.

- Web: ifap.ed.gov/DefaultManagement
- Hotline: 202-377-4259
- FAX: 202-275-0913
- E-MAIL: fsa.schools.default.management@ed.gov

**Default prevention & management plan**

34 CFR 668.217

**Default prevention & management plan for new schools**

New schools are required to implement a default prevention and management plan prior to certification. In addition, a school that undergoes a change in ownership that results in a change in control or a school that changes its status as a main campus, branch campus, or additional location must also implement a default management plan.

Schools applying to participate are exempt from submitting a default plan if—

- the school, including its main campus and any branch campus, does not have a cohort default rate greater than 10%, and
- the new owner of the school does not own and has not owned any other school that had a cohort default rate greater than 10% during the owner’s tenure.

**Sample Default Plan**

A “Sample Default Prevention and Management Plan” was issued as an attachment to GEN-05-14. The sample plan is also posted in the collection of “Default Rate Materials” on the IFAP website.
CHAPTER 5

Updating Application Information

This chapter describes the regular recertification of schools, as well as changes that can affect a school’s participation and how and when to report these changes to the Department on the E-App.

RECERTIFICATION

A school may be certified to participate for up to six years. Recertification is the process through which a school that is presently certified to participate in the FSA programs applies to have its participation extended beyond the expiration date of its current Program Participation Agreement (PPA). The Department will notify a school six months prior to the expiration of the school’s PPA. The school must submit a materially complete application before the expiration date listed in its PPA.

If a school that is currently certified submits its materially complete application to the Department no later than 90 calendar days before its PPA expires, its PPA remains valid, and its eligibility to participate in the FSA programs continues until its application is either approved or not approved. This is true even if the Department does not complete its evaluation of the application before the PPA’s expiration date. (For example, if a school’s PPA expires on June 30 and it submits its application by March 31, the school remains certified during the Department’s review period—even if the review period extends beyond June 30.) If the 90th day before the PPA’s expiration falls on a weekend or a federal holiday and the school submits its Application (E-App) no later than the next business day, the Department considers the application to be submitted 90 days before the PPA expires.

If the school’s application is not received at least 90 days before the PPA expires or is not materially complete, the school’s PPA will expire on the scheduled expiration date and the FSA program funding will cease. If a school’s eligibility lapses, the school may not continue to disburse FSA funds until it receives the Department’s notification that the school is again eligible to participate in the programs.

Following submission of an application, the School Participation Team will contact the school if it has questions about the application. Generally, this will be within 90 days of the Department receiving an application. If a school’s application has been approved, the Department will send an electronic notice to the president and financial aid officer notifying them that the school’s PPA is available to print, review, sign, and return. If the school’s application is not approved, ED will notify the school and explain why.

CHAPTER 5 HIGHLIGHTS

- Recertification
- Change in ownership
- Changes in ownership interest & 25% threshold
- Steps to be taken during a change in ownership
- Temporary approval for continued participation
- Reporting substantive changes
- Changes to location, branch, or campus
- Adding programs
- Changes in accreditation
- Changes to 3rd-party servicers

FSA Assessment modules
To assess your compliance with the provisions of this chapter see “Recertification,” at ifap.ed.gov/qahome/qaassessments/institutionalelig.html

Recertification
Sec 498(g) and (h) of the HEA
34 CFR 600.20(b) and (f)

Eligible nonparticipating school
Nonparticipating eligible schools are only required to renew their eligibility when the Department requests it. Their eligibility status continues indefinitely as long as the school continues to meet the institutional eligibility requirements. If the school wishes to be certified to participate in the FSA programs, it must submit an application and other supporting documentation (see Chapter 1).
34 CFR 600.20(b)(1)
**Changes in ownership**

Sec. 496(i) of the HEA
34 CFR 600.31
Family defined
34 CFR 600.21(f)
Excluded Transactions
34 CFR 600.31(e)(1) and (2)
Change in ownership—publicly traded corporation
34 CFR 600.31(c)(2)

**CHANGE IN OWNERSHIP**

**Changes at public institutions**

The Department does not consider that a public institution has undergone a change in ownership that results in a change of control if there is a change in governance, and the institution after the change remains a public institution, provided—

- the new governing authority is in the same state as included in the institution’s program participation agreement; and
- the new governing authority has acknowledged the public institution’s continued responsibilities under its program participation agreement (PPA).

Within 10 days of undergoing a change in governance, however, a public institution must report that change to the Department. The institution must also explicitly acknowledge its continued responsibilities under its PPA. If the documentation transferring control of a public institution to another in-state entity does not specifically acknowledge the aforementioned responsibilities, the institution must acknowledge them in a separate letter or notice.

**Change in ownership that results in a change of control, structure, or governance**

A change in ownership and control occurs when a person or corporation obtains new authority to control a school’s actions, whether the school is a proprietorship, partnership, or corporation. A change in ownership that results in a change in control includes any change through which a person or corporation

- acquires an ownership interest in the entity that owns the school or the parent corporation of that entity, or
- who owns or acquires an ownership interest attains or loses the ability to control the school.

The most common example of this change in controlling interest is when the school is sold to a new owner. Other kinds of “covered transactions” include—

- the transfer of the controlling interest of stock of the school or its parent corporation;
- the merger of two or more eligible schools;
- the division of one school into two or more schools;
- the transfer of the liabilities of a school to its parent corporation;
- a transfer of assets that comprise a substantial portion of the educational business of the school, except if it is exclusively in the granting of a security interest in those assets; or
• a conversion of the school from a for-profit to a nonprofit school or a nonprofit to a for-profit.

**Change in ownership for closely-held corporations**

A closely-held corporation (including the term close corporation) is—

• A corporation that qualifies under the law of the state of its incorporation as a closely-held corporation; or

• If the state of incorporation has no definition of closely-held corporation, a corporation the stock of which is held by no more than 30 persons; and has not been and is not planned to be publicly offered.

For a closely-held corporation, a change in ownership and control occurs when—

• A person acquires more than 50% of the total outstanding voting stock of the corporation;

• A person who holds an ownership interest in the corporation acquires control of more than 50% of the outstanding voting stock of the corporation; or

• A person who holds or controls 50% or more of the total outstanding stock of the corporation ceases to hold or control that proportion of the stock of the corporation.

**Change in ownership for publicly traded corporations**

For publicly traded corporations, a change in ownership and control occurs when—

• a person acquires ownership and control of the corporation such that the corporation is required to file a Form 8K with the Securities and Exchange Commission notifying that agency of the change in control; or

• a person who is a controlling shareholder of the corporation ceases to be a controlling shareholder.

A controlling shareholder is a shareholder who holds or controls through agreement both 25% or more of the total outstanding voting stock of the corporation and more shares of voting stock than any other shareholder. A controlling shareholder for this purpose does not include a shareholder whose sole stock ownership is held as a U.S. institutional investor, held in mutual funds, held through a profit-sharing plan, or held in an Employee Stock Ownership Plan.

For a publicly traded corporation, when a change of ownership occurs, instead of a same-day balance sheet, the school may submit its most recent quarterly financial statement as filed with the Securities and Exchange Commission (SEC). Together with its quarterly financial statement, the

---

**Excluded transactions—transfers to family members**

Changes of ownership do not include a transfer of ownership and control to a member of the owner’s family (whether or not the family member works at the school) that includes:

• parent, stepparent, sibling, step-sibling, spouse, child or stepchild, grandchild or step-grandchild;

• spouse’s parent or stepparent, sibling, step-sibling, child or stepchild, or grandchild or step-grandchild;

• child’s spouse; and

• sibling’s spouse.

Nor does it include a transfer of ownership and control, upon the retirement or death of the owner, to a person (who is not a family member) with an ownership interest in the school who has been involved in management of the school for at least two years preceding the transfer, and who has established and retained the ownership interest for at least two years prior to the transfer.

These are known as excluded transactions, and they apply only to the transfer of the entire portion of the owner’s interest.

34 CFR 600.21(f)  
34 CFR 600.31(e)

**Training requirement after a change in ownership or control**

If a school undergoes a change in ownership, the school’s chief financial aid administrator and its chief administrator (or a high-level school official designated by the chief administrator) must attend Fundamentals of Title IV Training.

If the financial aid administrator and/or the chief administrator have not changed, the school may request a waiver of the training requirement from its School Participation Team. ED may grant or deny the waiver for the required individual, require another official to take the training, or require alternative training.
a school must submit copies of all other SEC filings made after the close of the fiscal year for which a compliance audit has been submitted to ED.

Consider a publicly traded school that is provisionally certified because of a change in ownership that experiences another change of ownership. If any controlling shareholder on the newer change of ownership application was listed on the ownership application for which the provisional approval was granted, the expiration date for the original provisional certification remains unchanged if the newer application is approved.

Change in ownership for corporations that are not closely held or registered with the SEC

A change in ownership and control of a corporation that is neither closely held nor required to be registered with the SEC occurs when a person who has or acquires an ownership interest acquires both control of at least 25% of the total outstanding voting stock of the corporation and managing control of the corporation.

Preacquisition review

Schools may submit an E-App marked “preacquisition review” before a change in ownership takes place. The purpose of this review is to determine whether the school has answered all the questions completely and accurately. A preacquisition review application must be submitted at least 45 days prior to the expected date of the transaction.

The SPT will notify the school of the results of the review. However, the school will not be given a decision whether or not its application would be approved as a result of this preacquisition review. Please note that a preacquisition review is not required; it is an option.

If the potential owner decides not to purchase the school, he or she must notify the School Participation Team of the decision to withdraw the application.

If the potential owner considering the change in ownership decides to go through with the purchase and wants to participate in the FSA programs, he or she must:
• notify the Department within 10 days of the date the change in ownership actually took place (If this date falls on a weekend or a federal holiday, the notification may be no later than the next business day.); and
• submit the supporting documents required for a materially complete application. (Refer to section “M” of the E-App for the list of specific forms to submit.)
Ownership or ownership interest means a legal or beneficial interest in a school or its corporate parent, or a right to share in the profits derived from the operation of a school or its corporate parent. The school must report any change in ownership interests whenever—

- an owner acquires a total interest of 25% or greater;
- an owner who held a 25% or greater interest reduces his or her interest to less than 25%; or
- an owner of a 25% or greater interest increases or reduces his or her interest but remains the holder of at least a 25% ownership interest.

Because of these reporting requirements, even though transferring ownership interest through death or retirement may be excluded from being considered a change in ownership resulting in a change of control, the resulting change in percentages of ownership interests must be reported to the Department.

A school must report any changes that result in an individual or owner (including a corporation or unincorporated business entity) acquiring the ability to substantially affect the actions of the school. Such a change must be reported within 10 days of the change. A school owned by a publicly traded corporation must report the change within 10 days after the corporation learns of the change. Adherence to these requirements is enforced during the institutional participation approval process, program reviews, and audit process. All schools are bound by these reporting requirements, and substantial penalties may be imposed on schools that fail to comply with them.

An individual or corporation has the ability to substantially affect the school’s actions when he, she, or it—

- personally holds, or holds in partnership with one or more family members, at least a 25% ownership interest in the school;
- personally represents (with voting trust, power of attorney, or proxy authority), or represents in partnership with one or more family members, any individual or group holding at least a 25% ownership interest in the school;
- is the school’s general partner, chief executive officer (or other executive officer), chief financial officer, individual designated as the lead program administrator for the FSA programs at the school, or a member of the school’s board of directors; or
- is the chief executive officer (or other officer) for any entity that holds at least a 25% ownership interest in the school, or is a member of the board of directors for such an entity.

To ensure that its FSA program participation isn’t jeopardized, a school must report to the Department an ownership change (including the names of persons involved). On receiving the notification, the Department will investigate and notify the school whether a change in ownership resulting in a change of control has occurred that will require the school to submit a materially complete application.
**STEPS TO BE TAKEN DURING A CHANGE IN OWNERSHIP**

**Steps to be taken by former owners**

If a school is changing control, the former owners must notify the Department about the change and the date it occurs, and provide any supporting information the Department requests. This must be at the same time that the owner notifies the school’s accrediting agency, but no later than 10 days after the change occurs. (If the former owner fails to notify the Department, the prospective owner is responsible for doing so.) The current owner also must notify the state agency that licenses or approves the school.

**Steps to be taken by prospective owners**

The prospective owner should request that the former owner provide copies of the school’s existing Eligibility and Certification Approval Report (ECAR), school refund policy, return of FSA funds policy, any required default management plan, program reviews, audited financial statements (for at least the two most recently completed fiscal years), and compliance audits. The prospective owner will need this information to receive approval to participate.

Accompanying the application must be audited financial statements for the school’s two most recently completed fiscal years (if the school has not yet submitted statements for those years), an audited balance sheet showing the financial condition of the school at the time of the change, and a default management plan (if required). Each participating school must demonstrate financial responsibility independently. If the entity that has acquired the school is an ongoing entity (partnership or corporation), the school must also submit completed audited financial statements of the acquiring entity for the last two consecutive fiscal years. For information on financial responsibility and submitting audited financial statements see Chapter 4.

The school also must submit proof that its accreditation is continued under the new ownership or control, along with a photocopy of its state legal authorization under the new ownership.

The school may not award FSA program funds until it receives a new PPA signed on behalf of the Secretary.

**Accepting liabilities and responsibility for return of funds**

If new owners acquire a school or if a school is the result of the merger of two or more schools that formerly were operating separately, the new owner is liable for any debts that accrued from the former owner’s FSA program administration. A new owner accepts liability for any federal funds that were given to the school but that were improperly spent before the date the change in ownership, structure, or governance became effective. A new owner must also abide by the school’s refund and the FSA Return of Funds policy for students enrolled before the date the change became effective, and must honor all student enrollment contracts signed before the date of the change.

**Payments to eligible students**

Before the change in ownership, structure, or governance takes place, the former owner should make sure that all students receive any FSA payments already due them for the current payment period and that all records are

**Audits and closeout procedures**

Although a separate financial aid compliance audit is not required when there is a change in ownership, structure, or governance, the prospective owner may choose to have the accounts audited before they are closed out. Questions about FSA accounts or closeout procedures should be addressed to the appropriate School Participation Team (see the “Contacts” listing on the IFAP website at ifap.ed.gov).
current and comply with federal regulations. If the school needs additional funds for its students for the current payment period, it should request them and disburse them to all eligible students before the change takes place.

The school loses its approval to participate in the FSA programs when the change takes place. Generally, a school may

- use Pell Grant or Campus-Based funds that it has received or request additional Pell Grant or Campus-Based funds from the Department to satisfy any unpaid commitment made to a student from the date the school's participation ended until the scheduled completion date of the payment period; and

- credit a student's account with the proceeds of a second or subsequent disbursement of a Direct Loan to satisfy any unpaid commitment made to the student under the Direct Loan Program from the date participation ends until the scheduled completion of that period of enrollment. (The proceeds of the first disbursement of the loan must have been delivered to the student or credited to the student's account prior to the end of the participation.)

The school must notify all new students that no federal aid funds can be disbursed until the school’s eligibility is established and a new PPA signed by the Department is received.

Beginning on the date that the change becomes effective, The school may no longer award FSA funds. If the school’s prospective owners wish the school to participate in one or more of the FSA programs, the school must submit a materially complete application to the Department.

The school can apply for preacquisition review (described in the previous section) and temporary provisional approval after the change in ownership (described in the next section).

---

**Definition of commitment**

A commitment under the Pell and TEACH grant programs occurs when a student is enrolled and attending the school and has submitted a valid student aid report to the school or when a school has received a valid institutional student information report.

A commitment under the Campus-Based programs occurs when a student is enrolled and attending the school and has received a notice from the school of the amount that he or she can expect to receive and how and when that amount will be paid.

34 CFR 668.26(e)(1)
TEMPORARY APPROVAL FOR CONTINUED PARTICIPATION

The Department, at its discretion, may permit a school undergoing a change in ownership that results in a change in control to continue to participate in the FSA programs on a provisional basis if the school meets the following specific requirement.

The school must submit a materially complete application that must be received by the Department no later than 10 business days after the change becomes effective. A materially complete application for the purpose of applying for a temporary approval must include—

- a completed application form;
- a copy of the school’s state license or equivalent that was in effect on the day before the change in ownership took place;
- a copy of the accrediting agency’s approval (in effect on the day before the change in ownership) that granted the school accreditation status including an approval of the nondegree programs it offers;
- financial statements of the school’s two most recently completed fiscal years that are prepared and audited in accordance with the requirements of the Generally Accepted Accounting Principles (GAAP), published by the Financial Accounting Standards Board, and the Generally Accepted Governmental Auditing Standards (GAGAS) published by the U.S. General Accounting Office (submitted via eZ-Audit at https://ezaudit.ed.gov);
- audited financial statements for the school’s new owner’s two most recently completed fiscal years that are prepared and audited in accordance with GAAP and GAGAS, or acceptable equivalent information for that owner (submitted via eZ-Audit at https://ezaudit.ed.gov); and
- a completed signature page, Section L.

If the application is approved, the School Participation Team will send the school a Temporary Provisional Program Participation Agreement (Temporary PPA). The Temporary PPA extends the terms and conditions of the PPA that were in effect for the school before its change of ownership.

The Temporary PPA expires on the earlier of the—

- date that the Department signs a new program participation agreement;
- date that the Department notifies the school that its application is denied; or
- last day of the month following the month in which the change of ownership occurred unless the school provides the necessary documents described as follows.
The Department can automatically extend the Temporary PPA on a month-to-month extension if, prior to the expiration date, the school submits—

- a same day balance sheet showing the school’s financial position on the day the ownership changed, prepared in accordance with GAAP and audited in accordance with GAGAS;

- approval of the change of ownership from the school’s state agency that legally authorizes postsecondary education in that state (if not already provided);

- approval of the change of ownership from the school’s accrediting agency (if not already provided); and

- a default management plan that follows examples provided by the Department, or notification that it is using ED’s plan or is exempt from providing a plan (see exceptions under Change in Ownership for For-Profit and Nonprofit Institutions).
REPORTING SUBSTANTIVE CHANGES

A school is required to report changes to certain information on its approved application, as listed on the following pages. A school may also wish to expand its FSA eligibility and certification. Some of these changes require the Department’s written approval before the school may disburse the FSA program funds; others do not.

If a change occurs in an E-App item not listed on the following pages, the school must update the information when it applies for recertification.

When the Department is notified of a change, if further action is needed, it will tell the school how to proceed, including what materials and what additional completed sections of the E-App need to be submitted. If a school has questions about changes and procedures, it should contact the appropriate School Participation Team.

After receiving the required materials (and depending on the circumstances), the Department will evaluate the changes, approve or deny them, and notify the school.

Approval required from accreditor & state agency

For a change requiring written approval from the Department (unless otherwise noted) and for some changes that do not require written approval from the Department, a school must obtain approval from the appropriate accrediting agency and state authorizing agency.

Notification of school closure or bankruptcy

If a school closes or files for bankruptcy, the school must notify the Department within 10 calendar days of either event by sending a letter on the school’s letterhead that indicates the date the school closed or plans to close, or the date the school filed for bankruptcy, as appropriate.
Changes requiring written approval from ED

All schools must report and wait for written approval from the U.S. Department of Education before disbursing funds when the following occur (the number in parentheses refers to the number of the question on the E-App):

1. a change in accrediting agency (notify the Department, when you begin making any change that deals with your school’s institution-wide accreditation) (#15);
2. a change in state authorizing agency (#17);
3. a change in institutional structure (#18);
4. an increase in the level of educational programs beyond the scope of current approval (#26);
5. the addition of accredited and licensed nondegree programs beyond the current approval (#27);
6. the addition of short-term (300–599 clock-hour) programs (#27);
7. changes to the FSA programs for which the school is approved.* (Approvals from your accrediting agency and state authorizing agency are not required for this change.) (#37);
8. a change in the type of ownership (#22–24);
9. a change in ownership (#24); and
10. the addition of an accredited and licensed location (#30) (see Adding Locations later in this chapter), and when a school—
   a. is provisionally certified; or
   b. is on the cash monitoring or reimbursement system of payment; or
   c. has acquired the assets of another school that provided educational programs at that location during the preceding year, and the other school participated in the FSA programs during that year; or
   d. would be subject to a loss of eligibility under the cohort default rate regulations (34 CFR 668.188) if it adds that location; or
   e. has been advised by the Department that the Department must approve any new location before the school may begin disbursing FSA funds.

When one of the changes that requires the Department’s written approval occurs, a school must notify the Department. The school must apply to the Department for approval of the change via the electronic application within 10 calendar days of the change (in the case of a change in ownership, 10 business days). As soon as the school has received approvals for the change from its accrediting agency and state authorizing agency, it must send to the Department:

- copies of the approval for the change,
- any required documentation, and
- Section L of the E-App containing the original signature of the appropriate person.

* For TEACH Grants, select “Add TEACH Grants” and then use question 69 to explain the eligibility criteria that your school meets for TEACH participation. See DCL GEN 08-07.
Changes that do not require ED’s written approval

Though they need not wait for the Department’s approval before disbursing funds, all schools must report the following information to the Department.

1. change to name of the school* (#2)
2. change to the name of a CEO, president, or chancellor (#10)
3. change to the name of the chief fiscal officer or chief financial officer (#11)
4. change in the individual designated as the lead program administrator (financial aid administrator) for the FSA programs (#12)
5. change in governance of a public institution (#24)
6. a decrease in the level of program offering (e.g., the school drops all its graduate programs) (#26)
7. change from or to clock hours or credit hours (#27)
8. address change for a principal location* (#29)
9. name or address change for other locations* (#30)
10. the closure of a branch campus or additional location that the school was required to report (#30)
11. the addition of an accredited and licensed location unless the school meets the conditions specified on the previous page (34 CFR 600.20(c)(1)) (#30)
12. change to the school’s third-party servicers that deal with the FSA program funds (#58)

When one of these changes occurs, a school must notify the Department by reporting the change and the date of the change to the Department via the E-App within 10 calendar days of the change. In addition, a school must mail to the School Eligibility Service Group (see address on second page of chapter):

- any required supporting documentation, and
- Section L of the E-App containing the original signature of the appropriate person.

Foreign school reporting on the E-App

A foreign school must report changes to its postsecondary authorization (#42), degree authorization (#43), program equivalence (#44), program criteria (#45), or to its U.S. administrative or recruiting office (#46).

A foreign medical school must report changes to the facility at which it provides instruction (#47), its authorizing entity (#46), the approval of its authorizing entity (#46), the length of its program (#46), or the clinical or medical instruction that it provides in the U.S.

Other changes reported on the E-App

- Change to address for FSA mailings to an address different than the legal street address (#13)
- Change to address for FSA mailings to an additional location that is different than the legal street address (#30)
- Change of Taxpayer Identification Number (TIN) (#6a)
- Change of DUNS number (#6b)
- Change in board members (#20)
- Reporting foreign gifts (see Chapter 12) (#71)
- Change to institution’s website address (#9)
- Change of phone/fax/e-mail of CEO, president, or chancellor (#10)
- Change of phone/fax/e-mail of CFO (#11)
- Change of phone/fax/e-mail of financial aid administrator (#12)

* As soon as it has received approvals for the change from its accrediting agency and state authorization agency, a school must send the Department copies of the approvals for change.
CHANGES TO LOCATION, BRANCH, OR CAMPUS

The Eligibility and Certification Approval Report (ECAR) that the Department sends to the school lists the educational programs and locations that are eligible. (The eligibility of a school and its programs does not automatically include separate locations and extensions.) If, after receipt of the ECAR, a school wishes to add a location at which at least 50% of an educational program is offered, it must notify the Department.

Eligibility of additional locations

For purposes of qualifying as an eligible location, an additional location is not required to satisfy the two-year requirement unless:

- the location was a facility of another school that has closed or ceased to provide educational programs for a reason other than a normal vacation period or a natural disaster that directly affects the school or the school’s students,

- the applicant school acquired, either directly from the school that closed or ceased to provide educational programs, or through an intermediary, the assets at the location, and

- the school from which the applicant school acquired the assets of the location is not making payments in accordance with an agreement to repay a liability for a violation of FSA program requirements.

An additional location that falls into one of the aforementioned categories is not required to satisfy the two-year rule (see Chapter 1) if the applicant school agrees:

- to be liable for all improperly expended or unspent FSA funds received by the school that has closed or ceased to provide educational programs,

- to be liable for all unpaid refunds owed to students who received FSA funds, and

- to abide by the policy of the school that has closed or ceased to provide educational programs regarding refunds of institutional charges to students in effect before the date of the acquisition of the assets of the additional location for the students who were enrolled before that date.

Each site must be legally authorized. To apply for eligibility for an added location, the school must submit an E-App to the Department with the required application sections completed, a copy of the accrediting agency’s notice certifying that the new location is included in the school’s accredited status, and a copy of the state legal authorization from the state in which the additional site is physically located.

Regulations

Reporting
34 CFR 600.21
Approval required
34 CFR 600.20(c)(1)
Disbursing prohibited
34 CFR 600.20(f)(3)
34 CFR 600.21(d)

Teach-outs at closed school locations

A school that conducts a teach-out at a site of a closed school may apply to have that site approved as an additional location if the closed school ceased operations and the Department has taken a limitation, suspension, termination, or emergency action, regardless of whether the Department took that action before or after the school closed. The teach-out must be approved by the school’s accrediting agency.

The school that conducts the teach-out may establish a permanent additional location at the closed school without having to satisfy the 2-year requirement and without assuming the liabilities and cohort default rate of the closed institution, provided the schools are not commonly owned or managed. See 34 CFR 600.32(d), as amended on October 29, 2009, for further details.

HEOA 2008, §496, HEA §498
Effective date: August 14, 2008

Liability for disbursements if change not approved

If a school does not obtain ED approval for a new location, branch, program, or increase in program offering, the school is liable for all FSA funds it disburses to students enrolled at that location or branch or in that program.
Reporting a new location

All schools are required to report (using the E-App) to the Department adding an additional accredited and licensed location where they will be offering 50% or more of an eligible program if the school wants to disburse FSA program funds to students enrolled at that location.

Schools must not disburse FSA program funds to students at a new location before the school has reported that location and submitted any required supporting documents to the Department. Once it has reported a new licensed and accredited location, unless it is a school that is required to apply for approval for a new location (see below), a school may disburse FSA program funds to students enrolled at that location.

Applying for approval of a new location

If a school meets one or more of the following criteria, it must apply for and wait for approval before disbursing FSA funds at an additional location where it will be offering 50% or more of an eligible program:

- The school is provisionally certified.
- The school is on the cash monitoring or reimbursement system of payment.
- The school has acquired the assets of another school that provided educational programs at that location during the preceding year, and the other school participated in the FSA programs during that year.
- The school would be subject to a loss of eligibility under the cohort default rate regulations if it adds that location, or
- The school was previously notified by the Department that it must apply for approval of an additional location.

The Department will review the information and will evaluate the school’s financial responsibility, administrative capability, and eligibility. Depending upon the circumstances, the Department may conduct an on-site review. If it approves the additional location, a revised ECAR and Approval Letter will be issued. The location is eligible as of the date of the Department’s determination.

Changing the status of a campus or branch

If a school wishes to seek approval for a branch campus, the school must submit a completed application with the required supplemental documentation (see the following list) on (1) the main campus and (2) the proposed branch campus.

A branch campus of an eligible proprietary institution of higher education or postsecondary vocational school must be in existence for at least two years (after it is certified in writing by the Department as a branch campus) before seeking to be designated as a main campus or a freestanding school.
Documentation required for approval of a branch campus

The following required supplemental documentation must be submitted for the School Participation Team to make a determination as to whether a non-main campus educational site is an eligible branch campus:

- A statement listing the distance between the main institution and the applicant non-main campus educational site.
- State authorization of the quasi-independent status of the non-main campus educational site from the main institution in any of the following forms: applicable state law, state charter, university system organization document, or state department of education or state board or regents’ regulations or documentation.
- State authorization (in any of the four forms above) for the non-main educational site to have its own faculty and administrative staff, its own operating budget, and its own authority to hire and fire faculty and staff.
- An official statement from the school describing the hiring authority of the non-main educational site.
- A statement from the main institution’s primary accrediting agency indicating that it has accredited both the main institution and the non-main educational site through separate on-site visitations, and that the non-main educational site’s accreditation is distinct yet dependent upon the main institution.
- A specific description of the relationship between the main campus of an institution of higher education and all of its branches, including a description of the student aid processing that is performed by the main campus and that is performed at its branches.
- The operating budget of the non-main campus educational site for the current year and the two prior fiscal years.
- Consolidated financial statements for the prior two years showing a breakdown of the applicant’s financial circumstances.
- Other documents requested by the School Participation Team.
**ADDING PROGRAMS**

*Adding a program—when a school may make eligibility determinations*

An additional educational program is a program—

- with a CIP code (see sidebar) that is different from any other program offered by the school;
- that has the same CIP code as another program offered by the school but leads to a different degree or certificate; or
- that the school’s accrediting agency determines to be an additional program.

Except for direct assessment programs or pursuant to a requirement included in a school’s Program Participation Agreement, a school does not have to apply for approval to add any other type of educational program. However, a school must notify the Department in advance when it intends to add a gainful employment program—see the discussion at the end of this section. After receiving the school’s notification regarding a gainful employment program, the Department may send an alert to the school informing the school that it must wait for approval.

Before the school may determine these programs to be eligible and disburse funds to enrolled students, the school must have received both the required state and accrediting agency approvals. The school must include any “self-certified” programs on its next recertification application, and provide copies of the state and accreditor approvals.

**ED must approve all other added programs**

In all other cases, the eligibility of an added educational program must be determined by the Department before FSA program funds can be awarded. The school must submit an E-App with the appropriate sections completed, and copies of the approval of the new program from its accrediting agency and state authorizing agency. The Department will evaluate the new program and the school. If the Department approves the additional program, a revised ECAR and Approval Letter is issued for the school, and the school is eligible as of the date of the Department’s determination. Only after receiving an Approval Letter may the school begin disbursing FSA funds to students enrolled in the program. For more on program eligibility, see Chapter 2.

**School must notify ED when adding new gainful employment program**

The school must notify the Department at least 90 days before the first day of class when it intends to add an educational program that prepares students for gainful employment in a recognized occupation. The school may proceed to offer the program described in its notice, unless the Department advises the school that the additional educational program must be approved under §600.20(c)(1)(v).
The school’s notice to the Department must include sufficient 
information to demonstrate that the program meets the requirements of an 
eligible program, as discussed in Chapter 2. The notice must include—

- the date of the first day of class of the new program;
- a description of how the school determined the need for the program 
  and how the program was designed to meet local market needs, 
  or for an online program, regional or national market needs (any 
  wage analysis the institution may have performed, including any 
  consideration of Bureau of Labor Statistics (BLS) data related to the 
  program).
- a description of how the program was reviewed or approved by, 
  or developed in conjunction with, business advisory committees, 
  program integrity boards, public or private oversight or regulatory 
  agencies, and businesses that would likely employ graduates of the 
  program.
- documentation that the program has been approved by its 
  accrediting agency or is otherwise included in the institution’s 
  accreditation by its accrediting agency, or comparable 
  documentation if the institution is a public postsecondary vocational 
  institution approved by a recognized state agency for the approval of 
  public postsecondary vocational education.

Unless the Department requires approval for a new program, the school 
is not required to get Department’s approval after notification is submitted. If 
the Department needs to approve the program, an alert notice will be sent to 
the school at least 30 days before first day of class.

If the school’s notification to the Department was not timely, the school 
must obtain the Department’s approval.

CHANGES IN ACCREDITATION

If a school decides to change its accrediting agency, it must notify the 
school participation team (SPT) when it begins the process of obtaining 
accreditation from the second agency. As part of this notice, the school 
must submit materials relating to its current accreditation and materials 
demonstrating a reasonable cause for changing its accrediting agency. If a 
school fails to properly notify the Department, the Department will no longer 
recognize the school’s existing accreditation.

If a school decides to become accredited by more than one accrediting 
agency, it must submit to the SPT (and to its current and prospective agency) 
the reasons for accreditation by more than one agency. This submission 
must be made when the school begins the process of obtaining the additional 
accreditation. If a school obtains additional accreditation and fails to properly 
submit to the Department its reasons for the additional accreditation, the 
Department will not recognize the school’s accredited status with either 
agency.
Gainful employment programs subject to FSA requirements
Nothing in the regulations, GEN-11-10, or Gainful Employment Announcement #5 supersedes the requirement that a provisionally certified institution must wait for Departmental approval before disbursing FSA funds to students enrolled in any new program or the requirement that the school must wait for approval before disbursing FSA funds to students enrolled in a new program if it receives a notice to that effect from the Department.

Loss of accreditation
If a school loses its primary accreditation, it is ineligible to participate in the FSA programs and must notify the Department within 10 days of the loss of accreditation. (For any dispute involving the termination of accreditation, an accredited or preaccredited school must agree to submit to binding arbitration before initiating any other legal action.) However, if a school’s accrediting agency loses its recognition from the Department, the school has up to 18 months in which to obtain accreditation from another recognized agency. Other changes in accreditation may also jeopardize institutional participation.

Change in institution-wide accreditation
If the school decides to change its institution-wide accreditation, it must notify the Department when it begins the accreditation application process with a different agency. (Note that it must also notify the Department when it completes the process.) As part of the notice, the school must submit materials about its current accreditation and materials demonstrating reasonable cause for changing accreditation. If the school fails to notify the Department of the proposed change to its institution-wide accreditation, or if the school does not provide the materials just described, the Department will not recognize the school’s existing accreditation. If this happens, or if the school drops its association with its former accreditor before obtaining Department approval of the change, the school would no longer have accredited status and would no longer be eligible to award FSA funds.

Therefore, when a school secures new institution-wide accreditation it must notify the Department using the online electronic application (E-App). At that time, it must advise the Department which accrediting agency will be its accreditor for purposes of FSA gatekeeping. Only after the Department provides written notice that it recognizes the new accreditor as the institution’s primary accreditor should the school drop its association with its prior accreditor.

Changing to accreditation by more than one institution-wide accrediting agency
If the school decides to become accredited by more than one institution-wide accrediting agency, it must notify the Department when it begins the process of obtaining additional accreditation.

As part of the notice, the school must report (in question 15 of the E-App) its current institution-wide accrediting agency, the prospective institution-wide accrediting agency, and the reason (in question 69 of the E-App) it wishes to be accredited by more than one agency. If the school obtains the additional institution-wide accreditation and fails to notify the Department of the reason for the additional accreditation, the Department
will not recognize the school’s accredited status with either agency. This means the school would lose its accredited status and its eligibility to award FSA funds.

**CHANGES TO 3RD-PARTY SERVICERS**

Schools are required to notify the Department of all third-party servicer contracts. If a school has submitted information regarding its third-party servicers as part of applying for certification or recertification, no additional submission is required.

The school must promptly notify the Department of any of the following changes to servicer arrangements:

- the school enters into a contract with a new third-party servicer,
- the school significantly modifies a contract with an existing third-party servicer,
- the school or one of its third-party servicers terminates a contract, or
- a third-party servicer ceases to provide contracted services, goes out of business, or files for bankruptcy.

A school notifies the Department by updating Section J of the E-App within 10 days of the date of the change or action. This notification must include the name and address of the servicer and the nature of the change or action.

A school is only required to submit a copy of its contract with a third-party servicer if the Department requests it. A school is not required to submit the contract as part of the recertification process. (See Chapter 3 for more information about contracts with third-party servicers.)
Providing Consumer & Safety Information

This chapter describes information that a school must provide about financial aid and its campus, facilities, and student-athletes, as well as information to promote campus security and fire safety, and to prevent drug and alcohol abuse. It also discusses counseling for students receiving FSA loans, and disclosures that must be made for private education loans. Additional disclosure requirements that are specific to disbursements of FSA loans are described in Volume 4.

AVAILABILITY OF INFORMATION

Notice to enrolled students
Each year a school must distribute to all enrolled students a notice of the availability of the information it must provide in the following general categories:

1. general disclosures for enrolled or prospective students,
2. annual security report and annual fire safety report,
3. report on athletic program participation rates and financial support data (Equity in Athletics Data or EADA), and
4. FERPA information (Family Educational Rights and Privacy Act of 1974, discussed in Chapter 7).

The notice must list and briefly describe the information and tell the student how to obtain the information.

The notice must be provided to an individual on a one-to-one basis through an appropriate mailing or publication, including direct mailing through the U.S. Postal Service, campus mail, or electronic mail. Posting on an Internet website or an Intranet website does not constitute a notice.

Web dissemination
A school may satisfy the requirements for the general disclosures and the EADA, security, and fire safety reports by posting the information on the Web.

- Enrolled students or current employees—the school may post the information on an Internet website or an Intranet website that is reasonably accessible to the individuals to whom the information must be disclosed.
- Prospective students or prospective employees—the school may post the information on an Internet website.

CHAPTER 6 HIGHLIGHTS

- Availability of information
- General student disclosures
- Disclosures and gainful employment

Consumer information
HEA Sec. 485(f); 20 USC 1092
Regulations: 34 CFR 668.41–48
Notice to enrolled students: 34 CFR 668.41(c)
Web dissemination: 34 CFR 668.41(b), (c)(2), (e)(2) through (4), and (g)(1)(ii)
Availability of school staff: 34 CFR 668.44

Suggestions for disseminating HEA-required information
The National Postsecondary Education Cooperative (NPEC) has issued a publication entitled Information Required to Be Disclosed Under the Higher Education Act of 1965: Suggestions for Dissemination. (NPEC 2010-831), prepared by Carol Fuller and Carlo Salerno, Coffey Consulting. This publication is available at: http://nces.ed.gov

Note: NPEC was established by the National Center for Education Statistics (NCES) in 1995 as a voluntary organization comprising federal agencies, postsecondary schools, associations, and others with an interest in postsecondary education data collection. The information and opinions in NPEC publications do not necessarily represent the policy or views of the U.S. Department of Education or NCES.
A school that uses Internet or Intranet disclosure for this purpose must include in its annual notice to enrolled students—

- The exact electronic address at which the information is posted, and
- A statement that the school will provide a paper copy of the information on request.

In the case of Internet or Intranet distribution of the security and fire safety reports to current employees, the school must, by October 1 of each year, distribute to all current employees a notice that includes a statement of the report’s availability, the exact electronic address at which the report is posted, a brief description of the report’s contents, and a statement that the school will provide a paper copy of the report upon request.

The same information must be included in a notice to prospective students and employees if a school that decides to use the Web to provide annual security or fire safety reports to them. The only difference is that there is no annual date for distribution of this notice. In the case of Web distribution to prospective students and employees, note that the school must use an Internet, rather than an Intranet, site.

**Availability of employees for information dissemination purposes**

A school must designate an employee or group of employees who shall be available on a full-time basis to assist enrolled or prospective students in obtaining the information on financial assistance, the school, graduation and completion rates, and security policies and crime statistics, as described in the following sections.

If the school designates one person, that person shall be available, upon reasonable notice, to any enrolled or prospective student throughout the normal administrative working hours of that school. If more than one person is designated, their combined work schedules must be arranged so that at least one of them is available, upon reasonable notice, throughout the normal administrative working hours of that school.

The Department may waive this requirement if the school’s total enrollment, or the portion of the enrollment participating in the FSA programs, is too small to necessitate an employee or group of employees being available on a full-time basis. The school must request this waiver from the Department.

**GENERAL STUDENT DISCLOSURES**

A school must make the following information available to any enrolled student or prospective student through appropriate publications, mailings, or electronic media.

**Financial assistance available to students**

At a minimum, the school must publish and make readily available to current and prospective students a description of all the federal, state,
private, and institutional student financial assistance programs available to its students, including both need-based and non-need-based programs.

For each of these financial aid programs, the information provided by the school must describe—

- the procedures and forms by which students apply for assistance,
- the student eligibility requirements,
- the criteria for selecting recipients from the group of eligible applicants, and
- the criteria for determining the amount of a student's award.

The school may describe its own financial assistance programs by listing them in general categories.

The school must also describe the rights and responsibilities of students receiving financial assistance and, specifically, Federal Student Aid funds. This description must include specific information regarding—

- criteria for continued student eligibility under each program,
- satisfactory progress standards that the student must meet to receive financial assistance; and criteria by which the student who has failed to maintain satisfactory progress may re-establish his or her eligibility for financial assistance (see Volume 1),
- the method by which financial assistance disbursements will be made to the students and the frequency of those disbursements,
- the way the school provides for Pell-eligible students to obtain or purchase required books and supplies by the 7th day of a payment period (see Volume 4 for conditions), and how the student may opt out.
- the terms of any loan received by a student as part of the student's financial assistance package, a sample loan repayment schedule for sample loans and the necessity for repaying loans,
- the general conditions and terms applicable to any employment provided to a student as part of the student's financial assistance package,
- the terms and conditions of the loans students receive under the Direct Loan and Perkins Loan programs, and
- the exit counseling information the school provides and collects as described later in this chapter. (Also see Volume 6 for Perkins Loans exit counseling.)

Explaining verification requirements

Although it is not among the financial aid disclosures given to all students, you should be aware of the following information that must be provided in writing to students who are selected for verification—

1. Documents required for verification,
2. Student responsibilities—including correction procedures, deadlines for completing any actions required, and the consequences of missing the deadlines.
3. Notification methods—how your school will notify students if their awards change as a result of verification, and the time frame for such notification.

34 CFR 668.53

Consumer information from the Department

The Department is required to make available to schools, lenders, and secondary schools descriptions of the FSA programs to assist students in gaining information through school sources, and to assist schools in carrying out the FSA program requirements.

We provide comprehensive student aid information to students and their families through the Student Aid on the Web site (http://studentaid.ed.gov).

Colleges and high schools may order bulk quantities of student/borrower publications such as the College Preparation Checklist from the FSA Pubs website (www.fsapubs.gov).

Statutory requirement:

HEA Sec. 485
Net Price Calculator
A school with undergraduate students that participates in the FSA programs must have posted a net price calculator on its website by October 29, 2011.

The net price calculator uses institutional data to provide estimated net price information to current and prospective students and their families based on a student’s individual circumstances.

ED’s National Center for Education Statistics has designed and developed a fully functional net price calculator available to all schools. A school may use the Department’s net price calculator template or develop its own. Institutionally developed calculators must include “at a minimum the same data elements” found in the Department’s Net Price Calculator template.

To use or review the template, go to http://npc.inovas.net/institution/

More information about the calculator and the template is available at: http://nces.ed.gov/ipeds/resource

See GEN–08–12 (pages 33ff) for a description of the requirements for the calculator.
Higher Education Opportunity Act of 2008 20 USC 1015a

College affordability website
The Department’s College Affordability and Transparency Center (http://collegecost.ed.gov/catc/Default.aspx) includes information for students, parents, and policymakers about college costs at America’s colleges and universities. The Center includes several lists of institutions based on the tuition and fees and net prices (the price of attendance after considering all grant and scholarship aid) charged to students. These lists meet requirements outlined in the HEOA and will be updated annually and posted on the College Navigator website (http://nces.ed.gov/collegenavigator/) by July 1.

Vaccination policy
Schools must make available to current and prospective students information about its vaccinations policies.
Higher Education Opportunity Act of 2008 HEA section 485(a)

Information about the school’s academic programs, costs, facilities, & policies
At a minimum, the school must provide to enrolled and prospective students the following information about itself.

Academic programs—
• The current degree programs and other educational and training programs.
• The instructional, laboratory, and other physical facilities that relate to the academic program.
• The school’s faculty and other instructional personnel.
• Any plans by the school to improve its academic program, upon a determination by the school that such a plan exists.
• A description of the written arrangements it has entered into (see Written Arrangements in Chapter 2).

School costs—
• Tuition and fees charged to full-time and part-time students.
• Estimates of costs for necessary books and supplies.
• Estimates of typical charges for room and board.
• Estimates of transportation costs for students.
• Any additional cost of a program in which a student is enrolled or expresses a specific interest.

Withdrawal procedures, refunds, and return of aid—
• The requirements and procedures for officially withdrawing from the school.
• Any refund policy with which the school is required to comply for the return of unearned tuition and fees or other refundable portions of costs paid to the school.
• A summary of the requirements for the return of FSA grant or loan funds (see Volume 5).

Accreditation and licensure—
• The names of associations, agencies, or governmental bodies that accredit, approve, or license the school and its programs.
• The procedures by which documents describing that activity may be reviewed—the school must make available for review to any enrolled or prospective student a copy of the documents describing its accreditation, approval, or licensing.
• Contact information for filing complaints with its accreditor, its state approval or licensing entity, and any other relevant state official or agency that would appropriately handle a student’s complaint.
Disability—

- The services and facilities available to students with disabilities, including students with intellectual disabilities (see Volume 1 for a definition for students with intellectual disabilities).

FSA eligibility for study abroad—

- A statement that a student’s enrollment in a program of study abroad approved for credit by the home institution may be considered enrollment at the home institution for the purpose of applying for assistance under the FSA programs.

Transfer of credit policies—

- Any established criteria the school uses regarding the transfer of credit earned at another institution.
- A list of postsecondary schools with which the school has established an articulation agreement.

Contact information—

- The titles of persons designated by the school to provide information to enrolled and prospective students and information regarding how and where those persons may be contacted.

Penalties and institutional policies on copyright infringement—

- A statement that explicitly informs its students that unauthorized distribution of copyrighted material, including unauthorized peer-to-peer file sharing, may subject the students to civil and criminal liabilities.

Sample statement of penalties for copyright infringement

A school may use this sample statement to meet the requirement that it disseminate a summary of the penalties for violating federal copyright law. The use of this sample summary is optional.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or “statutory” damages affixed at not less than $750 and not more than $30,000 per work infringed. For “willful” infringement, a court may award up to $150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense. For more information, please see the website of the U.S. Copyright Office at www.copyright.gov.
A summary of the penalties for violation of federal copyright laws (see the following sample statement).

A description of the school’s policies with respect to unauthorized peer-to-peer file sharing, including disciplinary actions that are taken against students who engage in illegal downloading or unauthorized distribution of copyrighted materials using the school’s information technology system.

The legal alternatives for downloading or otherwise acquiring copyrighted material, based on the school’s periodic review described in Chapter 7. (This information is to be provided through a website or other means.)

Disseminating completion, graduation, and transfer-out rates (Student Right-to-Know)

As explained in Chapter 8, a school must report its completion or graduation rates (and, if required, the transfer-out rate) to the Department through the IPEDS website. A school must make its annual rates available no later than July 1st each year.

In the case of a request from a prospective student, the information must be made available prior to the student’s enrolling or entering into any financial obligation with the school.

Retention, placement & post-graduate study

The school must also provide information on

- Its retention rate as reported to the Integrated Postsecondary Education Data System (IPEDS). In the case of a request from a prospective student, the information must be made available prior to the student’s enrolling or entering into any financial obligation with the institution.

- The placement of, and types of employment obtained by, graduates of the school’s degree or certificate programs. Placement rate information may be gathered from state data systems, alumni or student satisfaction surveys, the school’s placement rate for any program, if it calculates such a rate, or other relevant sources. If the school calculates a placement rate, it must disclose that rate.

- For any 4-year program at the school, the types of graduate and professional education in which its graduates enroll. This information may be gathered from state data systems, alumni or student satisfaction surveys, or other relevant sources.

In the case of placement information, and the types of graduate and professional education, the school must identify the source of the information, as well as any time frames and methodology associated with it.
DISCLOSURES AND GAINFUL EMPLOYMENT PROGRAMS

A school must disclose certain information about each of its gainful employment programs to prospective students—

- The occupations that the program prepares students to enter (by occupation name and SOC code), along with links to occupational profiles on the O*NET website (see sidebar),

- The on-time graduation rate for students completing the program (see below),

- The tuition and fees the school charges a student for completing the program within normal time; the cost of room and board, if applicable; and the typical costs for books and supplies (unless those costs are included as part of tuition and fees),

- The job placement rate for students completing the program (see below).

- The median loan debt incurred by students who completed the program (separately by FSA loans, private educational loans, and institutional financing plans, as described below),

- Other information the Department provided to the school about the program.

Your school may include information on other costs, such as transportation and living expenses, but it must provide a Web link, or access, to the cost information discussed earlier.

Disseminating information about gainful employment programs

The school must include the required information in promotional materials it makes available to prospective students and post the information on its websites—

- The information must be provided in a simple and meaningful manner on the home page of the school’s program website, in an open format that can be retrieved, downloaded, indexed, and searched by commonly used Web search applications. (An open format is one that is platform-independent, is machine-readable, and is made available to the public without restrictions that would impede the reuse of that information.)

- Any other webpage containing general, academic, or admissions information about the program must provide a prominent and direct link to the single webpage that contains all the required information.

These disclosures must begin no later than July 1, 2011. A school must use an ED-developed disclosure form when that form is made available (see sidebar). Schools are responsible for meeting these disclosure requirements using their own form until the Department releases its form.

Gainful employment programs

“Gainful employment” refers to certain programs offered at public, private nonprofit, and proprietary institutions.

- All programs at for-profit schools except for programs leading to baccalaureate degree in liberal arts (proprietary institution)

- Any program at a public or nonprofit school that is not—
  - A program leading to a degree
  - A transfer program of at least two years

Source: GEN-11-10 (4/20/2011)

See detailed explanation in Chapter 2.

CIP & SOC codes

Classification of Instructional Programs (CIP) codes are developed by the U.S. Department of Education’s National Center for Education Statistics.

The Standard Occupational Classification (SOC) codes are listed on the Occupational Information Network (www.onetonline.org).

You may identify the occupations for each of your programs by entering the program’s full 6-digit CIP code on the O*NET crosswalk (www.onetonline.org/crosswalk).

If the crosswalk lists more than 10 related occupations for a program, your school may provide Web links to a representative sample of the identified occupations (by name and SOC code) for which its graduates typically find employment within a few years after completing the program.

ED-provided disclosure form via Web

34 CFR 668.6(b)(2)(iv)

Schools will be required to use an ED-developed website to create their own webpages containing the required disclosure information for their gainful employment programs.

Your school will enter the data for each gainful employment program into the online form, resulting in an HTML file that the school will post to the website home page for that program. (The process is similar to the one used for ED’s net price calculator template.)

Some of the information entered (such as the OPEID of the institution and CIP code for the program) will be used to look up and import data from Department databases for use in the output disclosure webpage. Additional program-level data will be entered by the school and included on the output page.

Access to the Web application and a more detailed description of the data elements required to be entered will be made available at a later date.
Median loan debt

As noted, your school must disclose the median loan debt incurred by students who completed the gainful employment program. In anticipation of the receipt of student-level information from schools (see Section 2.8.2) and to provide consistency among schools, these median amounts will be provided to the school by the Department for the school’s disclosure to prospective students.

However, since the first disclosures under the new regulation must be made no later than July 1, 2011, and the first reporting by schools is not required until October 1, 2011, a school must include in its disclosures its own calculation of median debt—separately showing FSA debt and other educational debt—until such time as the Department provides that loan debt information.

The loan debt information disseminated by the school should be consistent with the information the school reports to the Department.

Placement rates

The placement rates for students completing a gainful employment program are to be determined under a methodology developed by the National Center for Education Statistics (NCES) when that rate is available.

In the meantime, beginning on July 1, 2011, if the school is required by its accrediting agency or state to calculate a placement rate on a program basis, it must disclose the rate under this section and identify the accrediting agency or state agency under whose requirements the rate was calculated. If the accrediting agency or state requires a school to calculate a placement rate at the institutional level or other than a program basis, the school must use the accrediting agency or state methodology to calculate a placement rate for the program and disclose that rate.

CAMPUS CRIME & SAFETY INFORMATION

A school must distribute campus security report to its students and employees on an annual basis. If the school maintains on-campus student housing, it must also disseminate an annual fire safety report.

The reports that are disseminated to the school community must include descriptions of the school’s policies, procedures, and programs, as listed in the chart that follows.

Note that these reports must include the campus security and fire safety statistics reported to the Department each year (see Chapter 8).

Distributing security and fire safety reports to enrolled students & current employees

By October 1 of each year, a school must distribute to all enrolled students and current employees its annual security report and fire safety reports, through appropriate publications and mailings, including—
• direct mailing to each individual through the U.S. Postal Service, campus mail, or electronic mail;
• a publication or publications provided directly to each individual; or
• posting on an Internet or Intranet website (see conditions for Web distribution at the beginning of this chapter).

The two reports can be published together or separately. If published together, the title of the document must clearly state that it contains both the Annual Security Report and the Annual Fire Safety Report. If published separately, each report must contain information on how to directly access the other report.

Dissemination of reports to prospective students & prospective employees
For each of the reports, the school must provide a notice to prospective students and prospective employees that includes a statement of the report’s availability, a description of its contents, and an opportunity to request a copy. A school must provide its annual security report and annual fire safety report, upon request, to a prospective student or prospective employee.

If the school chooses to provide either its annual security report or annual fire safety report to prospective students and prospective employees by posting the disclosure on an Internet website, the school must follow the procedures for Web dissemination described earlier.

Sample statement of availability
Schools may use the following sample notice from the Handbook for Campus Safety and Security Reporting to inform students and employees of the availability of its Combined Annual Security Report and Annual Fire Safety Report:

CNO University is committed to assisting all members of the CNO community in providing for their own safety and security. The annual security and fire safety compliance document is available on the UPD website at http://_______.edu

If you would like to receive the combined Annual Security and Fire Safety Report that contains this information, you can stop by the University Police Department at 2033 Canal Street, NW, Mercer Building, Washington, DC, 20052 or you can request that a copy be mailed to you by calling (XXX) XXX-XXXX.

The website and booklet contain information regarding campus security and personal safety including topics such as: crime prevention, fire safety, university police law enforcement authority, crime reporting policies, disciplinary procedures, and other matters of importance related to security and safety on campus. They also contain information about crime statistics for the three previous calendar years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by CNO; and on public property within, or immediately adjacent to and accessible from the campus.

This information is required by law and is provided by The CNO University Police Department.
Required contents of annual campus security & fire safety reports

The Annual Security Report must include—

1. The crime statistics submitted to the Department (see Chapter 8).

2. A statement of current campus policies regarding procedures for students and others to report criminal actions or other emergencies occurring on campus. This statement must include the institution's policies concerning its response to these reports, including—
   • Policies for making timely warning reports to members of the campus community regarding the occurrence of crimes described in Chapter 8;
   • Policies for preparing the annual disclosure of crime statistics; and
   • A list of the titles of each person or organization to whom students and employees should report criminal offenses for the purpose of making timely warning reports and the annual statistical disclosure. (See Chapter 8 for a list of criminal offenses that must be reported).
   • This statement must also disclose whether the institution has any policies or procedures that allow victims or witnesses to report crimes on a voluntary, confidential basis for inclusion in the annual disclosure of crime statistics, and, if so, a description of those policies and procedures.

3. A statement of current policies concerning security of and access to campus facilities, including campus residences, and security considerations used in the maintenance of campus facilities.

4. A statement of current policies concerning campus law enforcement that—
   • Addresses the enforcement authority of security personnel, including their relationship with State and local police agencies and whether those security personnel have the authority to arrest individuals;
   • Encourages accurate and prompt reporting of all crimes to the campus police and the appropriate police agencies; and
   • Describes procedures, if any, that encourage pastoral counselors and professional counselors, if and when they deem it appropriate, to inform the persons they are counseling of any procedures to report crimes on a voluntary, confidential basis for inclusion in the annual disclosure of crime statistics.

5. A description of the type and frequency of programs designed to inform students and employees about campus security procedures and practices and to encourage students and employees to be responsible for their own security and the security of others.

6. A description of programs designed to inform students and employees about the prevention of crimes.

7. A statement of policy concerning the monitoring and recording through local police agencies of criminal activity in which students engaged at off-campus locations of student organizations officially recognized by the institution, including student organizations with off-campus housing facilities.

8. A statement of policy regarding the possession, use, and sale of alcoholic beverages and enforcement of state underage drinking laws.

9. A statement of policy regarding the possession, use, and sale of illegal drugs and enforcement of federal and state drug laws.

10. A description of any drug or alcohol-abuse education programs, as described in Chapter 8. For the purpose of meeting this requirement, an institution may cross-reference the materials the institution uses to comply with the requirements in Chapter 8.

11. A statement of policy regarding the institution's campus sexual assault programs to prevent sex offenses, and procedures to follow when a sex offense occurs. The statement must include—
   • A description of educational programs to promote the awareness of rape, acquaintance rape, and other forcible and nonforcible sex offenses;
   • Procedures students should follow if a sex offense occurs, including procedures concerning who should be contacted, the importance of preserving evidence for the proof of a criminal offense, and to whom the alleged offense should be reported;
   • Information on a student’s option to notify appropriate law enforcement authorities, including on-campus and local police, and a statement that institutional personnel will assist the student in notifying these authorities, if the student requests the assistance of these personnel;
   • Notification to students of existing on- and off-campus counseling, mental health, or other student services for victims of sex offenses;
   • Notification to students that the institution will change a victim's academic and living situations after an alleged sex offense and of the options for those changes, if those changes are requested by the victim and are reasonably available;
   • Procedures for campus disciplinary action in cases of an alleged sex offense, including a clear statement that—
     (A) The accuser and the accused are entitled to the same opportunities to have others present during a disciplinary proceeding; and
     (B) Both the accuser and the accused must be informed of the outcome of any institutional disciplinary proceeding brought alleging a sex offense. Compliance with this paragraph does not constitute a violation of the Family Educational Rights and Privacy Act (see Chapter 7). For the purpose of this paragraph, the outcome of a disciplinary proceeding means only the institution’s final determination with respect to the alleged sex offense and any sanction that is imposed against the accused; and
     • Sanctions the institution may impose following a final determination of an institutional disciplinary proceeding regarding rape, acquaintance rape, or other forcible or nonforcible sex offenses.

12. A statement advising the campus community where law enforcement agency information provided by a state under 42 USC 14071(j), concerning registered sex offenders may be obtained, such as the law enforcement office of the institution, a local law enforcement agency with jurisdiction for the campus, or a computer network address.

13. A description of the school's emergency response and evacuation procedures, as described in Chapter 8, including—
   • a list of the titles of those persons or organizations responsible for determining whether an emergency or dangerous situation exists and who are authorized to initiate the notification process,
   • a statement that the school will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

14. A statement of the school's policy regarding missing student notification procedures, as described in Chapter 8.
The Annual Fire Safety Report must include—

1. The fire statistics submitted to the Department (see Chapter 8).
2. A description of each on-campus student housing facility fire safety system.
3. The number of fire drills held during the previous calendar year.
4. The institution's policies or rules on portable electrical appliances, smoking, and open flames in a student housing facility.
5. The institution's procedures for student housing evacuation in the case of a fire.
6. The policies regarding fire safety education and training programs provided to the students and employees. In these policies, the institution must describe the procedures that students and employees should follow in the case of a fire.
7. For purposes of including a fire in the statistics in the annual fire safety report, a list of the titles of each person or organization to which students and employees should report that a fire occurred.
8. Plans for future improvements in fire safety, if determined necessary by the institution.

INFORMATION ABOUT ATHLETICS

Report on athletic program participation rates & financial support

The Equity in Athletics Disclosure Act (EADA) requires a school that has an intercollegiate athletic program to make prospective students aware of its commitment to providing equitable athletic opportunities for its men and women students. The required contents of this report are described as a part of the reporting requirements in Chapter 8.

A school must publish its EADA report by October 15 and make it available upon request to students, prospective students, and the public in easily accessible places. For example, a school may make copies of the report physically available in intercollegiate athletic offices, admissions offices, or libraries, or by providing a copy to every student in his or her electronic mailbox.

A school must provide the report promptly to anyone who requests the information. For example, a school may not refuse to provide a copy of the report to the news media, and the school may not require an individual requesting the information to come to the school to view the report. A school may not charge a fee for the information.

Providing completion & graduation rates for student athletes

When a school offers a prospective student athlete athletically related student aid, it must provide the report on completion or graduation rates for student athletes to the prospective student and the student's parents, high school coach, and guidance counselor (see the sidebar exception).

Equity in Athletics Disclosure Act (EADA)

Equity in Athletics Disclosure Act (EADA) of 1994
HEA Section 485(e) and (g)
20 USC 1092
34 CFR 668.41(g)
34 CFR 668.47

EADA data on the Web

The Department posts the EADA reports for participating schools on the Web at:
http://ope.ed.gov/athletics/

Waiver of completion/graduation data calculation

A school does not have to calculate and make available its completion or graduation rate (and, if applicable, transfer-out rate) if it is a member of an athletic association or conference that has voluntarily published completion or graduation rate data, or has agreed to publish data and ED has granted a waiver of the requirements to provide these rates to coaches and guidance counselors.

To receive a waiver, your school or its athletic association or conference must submit a written application to ED that explains why it believes the data the athletic association or conference publishes are accurate and substantially comparable to the information required by this section.

Even if the waiver is granted, your school must comply with the requirements of §668.41(d) [upon request, providing its retention rate to a prospective student] and (f) [providing retention rates and completion or graduation rates for student athletes].
34 CFR 668.45(e)(1)

Exception to providing completion/graduation rates for student athletes

A school does not have to provide a report on completion or graduation rates to the prospective student athlete and the athlete's parents, high school coach, and guidance counselor, if—

(A) The institution is a member of a national collegiate athletic association,
(B) The association compiles data on behalf of its member institutions, which ED determines are substantially comparable to those required by §668.48(a), and
(C) The association distributes the compilation to all secondary schools in the United States.
34 CFR 668.41(f)
TEXTBOOK INFORMATION

To the maximum extent practicable, a school must post verified textbook pricing information for both required and recommended materials for each class on the schedule of classes that the school has posted online.

This pricing information must include the International Standard Book Number (ISBN) and retail price of the materials charged by the school or a bookstore on the campus or otherwise associated with the school. If the ISBN is not available, the pricing information must include the publisher and copyright date, as well as the title and author. If the school determines that disclosure of this pricing information is not practicable, it may substitute the designation “To Be Determined (TBD)” in lieu of the required pricing information.

If applicable, the school must include on its written course schedule a reference to the textbook information available on its Internet schedule and the Internet address for that schedule.

Schools are encouraged to provide information on renting textbooks, purchasing used textbooks, textbook buy-back programs, and alternative content delivery programs.

A school must provide the following information to its bookstore, if the college bookstore requests it:

- the school’s course schedule for the subsequent academic period; and
- for each course or class offered, the information it must include on its Internet course schedule for required and recommended textbooks and supplemental material, the number of students enrolled, and the maximum student enrollment.

LOAN COUNSELING

Entrance counseling

Before making the first disbursement of a loan to a Direct Subsidized or Unsubsidized Loan borrower, a school must ensure that the student has received entrance counseling or document that the student has received a prior Direct Subsidized, Direct Unsubsidized, Federal Stafford, or Federal SLS Loan. Similarly, a school must ensure that a graduate or professional student who is borrowing a Direct PLUS Loan has received entrance counseling, unless the student has received a prior Direct PLUS Loan or Federal PLUS Loan. There are similar counseling and disclosure requirements for Perkins loans (see Volume 6). (Note that loan counseling is not required for parent PLUS borrowers.)

Direct Loan counseling on the Web

The Direct Loan Program offers both entrance and exit counseling on the Web (see sidebar). Your school may also elect to provide entrance counseling through an in-person session, or using a separate written form provided to the student that the student signs and returns to the school.
If your staff are conducting in-person counseling sessions, charts, handouts, audiovisual materials, and question-and-answer sessions can help convey the information in a more dynamic manner. We also recommend the use of written tests or interactive programs to ensure that the student understands the terms and conditions of his or her loans. Moreover, the regulations require (for any form of counseling) that someone with expertise in the FSA programs be available shortly after the counseling to answer borrowers’ questions about those programs.

Regardless of the counseling methods your school uses—

- It must ensure that an individual with expertise in the FSA programs is reasonably available shortly after the counseling to answer the student’s questions.
- It must document that the student received and understood entrance and exit counseling.

Providing borrower information at separation

The personal and contact information collected at the time of exit counseling must be provided to the student’s loan servicer within 60 days. A student authorizes his or her school to release information to lenders as part of the promissory note the student signs as part of the loan application process. No further permission is needed.

Exit counseling follow up

If the student borrower drops out without notifying your school, you must confirm that the student has completed online counseling, or mail exit counseling material to the borrower at his or her last known address. It is also acceptable to email the information to the borrower at his or her home (not school) email address, if you have that address. Note that you may send the print or PDF version of the Exit Counseling Guide for Federal Student Loan Borrowers to satisfy the exit counseling requirement. The material must be mailed or emailed within 30 days of your learning that a borrower has withdrawn or failed to participate in an exit counseling session.

When mailing exit materials to a student who has left school, you’re not required to use certified mail with a return receipt requested, but you must document in the student’s file that the materials were sent. If the student fails to provide the updated contact information, you are not required to take any further action.

TEACH exit counseling

Since TEACH Grants convert to loans if the service requirement is not completed, all grant recipients receive entrance counseling and subsequent counseling on the TEACH website before receiving their grant.

In addition, all recipients must receive TEACH Grant exit counseling, which is available on the NSLDS Student Access site (www.nslds.ed.gov/nslds_SA/). You will receive reports from NSLDS on all students who have

TEACH Grant Counseling

Initial and subsequent counseling is delivered through the TEACH website before the student receives his or her grant.

Students complete exit counseling on the NSLDS Student Access site (www.nslds.ed.gov/nslds_SA/). It is the school’s responsibility to see that TEACH recipients receive exit counseling when they are no longer enrolled in the program.

See NSLDS Newsletter #33 on the IFAP website (http://ifap.ed.gov) for more details on TEACH exit counseling and for information on related reporting tools on the NSLDS Professionals website (www.nslds.ed.gov/nslds_FAP/).

Student PLUS borrowers

Counseling requirements for graduate/professional PLUS borrowers were published November 1, 2007.

34 CFR 685.304

Direct Loan counseling materials

Direct Loan schools can order counseling materials, such as the Direct Loan Entrance Counseling Guide and the Direct Loan Exit Counseling Guide from the FSA PUBS Web site at www.fsapubs.gov

Alternative entrance counseling approaches

The Direct Loan regulations describe how a school may adopt alternative approaches as a part of its quality assurance plan—see 34 CFR 685.304(a)(8).

Providing borrower information

A Direct Loan School should mail updated borrower information to the Direct Loan servicer to whom the loan has been assigned.
Providing additional information

Your school can take additional steps to counsel its students in developing a budget, estimating their need for loans, and planning for repayment. You can reinforce these messages through continuing contacts with your student borrowers. You have an opportunity at each disbursement to remind students about the importance of academic progress, planning for future employment, and staying in touch with the holder of the loan. Additional ideas for loan counseling are given in the “Sample Default Management and Prevention Plan.”

Financial literacy—schools should provide borrowers with information concerning the income potential of occupations relevant to their course of study, counseling at various stages of enrollment, interactive tools to manage debt, repayment options, and school contact information. Schools can offer this information through a variety of media such as counseling, classes, publications, e-tutorials, electronic newsletters to email accounts, and adding the information to award letters.

At-Risk Students—schools should identify and provide special counseling for “at-risk” students (such as students who withdraw prematurely from their educational programs, borrowers who do not meet standards of satisfactory academic progress, or both). The most recent sample default plan was issued as an attachment to GEN-05-14 and is also available in the collection of “Default Rate Materials” on the IFAP website.

completed TEACH exit counseling. If the student doesn’t complete the exit counseling session on the NSLDS website, you must ensure that the counseling is provided either in person, through interactive electronic means, or by mailing written counseling materials (such as the PDF version of the exit counseling program on the NSLDS website) to the grant recipient’s last known address. In the case of unannounced withdrawals, you must provide this counseling within 30 days of learning that a grant recipient has withdrawn from school (or from a TEACH Grant-eligible program).

Counseling for correspondence and study-abroad students

If the student has enrolled in a study-abroad program (approved by a U.S. school for credit) or a correspondence or distance learning program, and has not previously received an FFEL or Direct Loan at that school, the school must document that the student has completed online entrance counseling that meets FSA requirements, or provide entrance counseling information by mail before releasing loan proceeds.

In the case of exit counseling for correspondence programs or study abroad programs, the school may mail or email the borrower written counseling materials within 30 days after the borrower completes the program, with a request that the borrower provide the contact and personal information that would ordinarily have been collected through the counseling process.
### Entrance Counseling for Direct Subsidized and Unsubsidized Loans

34 CFR 685.304(a)(6)

Entrance counseling for Direct Subsidized and Unsubsidized loan borrowers must:

(i) Explain the use of a master promissory note (MPN);

(ii) Emphasize to the borrower the seriousness and importance of the repayment obligation the student borrower is assuming;

(iii) Describe the likely consequences of default, including adverse credit reports, delinquent debt collection procedures under federal law, and litigation;

(iv) Emphasize that the student borrower is obligated to repay the full amount of the loan even if the student borrower does not complete the program, does not complete the program within the regular time for program completion, is unable to obtain employment upon completion, or is otherwise dissatisfied with or does not receive the educational or other services that the student borrower purchased from the school;

(v) Inform the student borrower of sample monthly repayment amounts based on—
   (A) A range of student levels of indebtedness of Direct Subsidized Loan and Direct Unsubsidized Loan borrowers, or student borrowers with Direct Subsidized, Direct Unsubsidized, and Direct PLUS Loans depending on the types of loans the borrower has obtained; or
   (B) The average indebtedness of other borrowers in the same program at the same school;

(vi) To the extent practicable, explain the effect of accepting the loan to be disbursed on the eligibility of the borrower for other forms of student financial assistance;

(vii) Provide information on how interest accrues and is capitalized during periods when the interest is not paid by either the borrower or the Secretary;

(viii) Inform the borrower of the option to pay the interest on a Direct Unsubsidized Loan while the borrower is in school;

(ix) Explain the definition of half-time enrollment at the school, during regular terms and summer school, if applicable, and the consequences of not maintaining half-time enrollment;

(x) Explain the importance of contacting the appropriate offices at the school if the borrower withdraws prior to completing the borrower’s program of study so that the school can provide exit counseling, including information regarding the borrower’s repayment options and loan consolidation;

(xi) Provide information on the National Student Loan Data System and how the borrower can access the borrower’s records; and

(xii) Provide the name of and contact information for the individual the borrower may contact if the borrower has any questions about the borrower’s rights and responsibilities or the terms and conditions of the loan.

### Entrance Counseling for Graduate or Professional Students (Direct PLUS Loan borrowers)

34 CFR 685.304(a)(7)

Entrance counseling for graduate or professional student Direct PLUS loan borrowers must:

(i) Inform the student borrower of sample monthly repayment amounts based on—
   (A) A range of student levels or indebtedness of graduate or professional student PLUS loan borrowers, or student borrowers with Direct PLUS Loans and Direct Subsidized Loans or Direct Unsubsidized Loans, depending on the types of loans the borrower has obtained; or
   (B) The average indebtedness of other borrowers in the same program at the same school;

(ii) Inform the borrower of the option to pay interest on a PLUS Loan while the borrower is in school;

(iii) For a graduate or professional student PLUS Loan borrower who has received a prior FFEL Stafford, or Direct Subsidized or Unsubsidized Loan, provide the information specified in §685.301(a)(3)(i)(A) through §685.301(a)(3)(i)(C);* and

(iv) For a graduate or professional student PLUS Loan borrower who has not received a prior FFEL Stafford, or Direct Subsidized or Direct Unsubsidized Loan, provide the information specified in paragraph (a)(6)(i) through paragraph (a)(6)(xii) of this section. [See the entrance counseling requirements i-xii beginning in the first column of this page]

---

* §685.301(a)(3)(i) requires that the counseling provide the borrower with a comparison of—

(A) The maximum interest rate for a Direct Subsidized Loan and a Direct Unsubsidized Loan and the maximum interest rate for a Direct PLUS Loan;

(B) Periods when interest accrues on a Direct Subsidized Loan and a Direct Unsubsidized Loan, and periods when interest accrues on a Direct PLUS Loan; and

(C) The point at which a Direct Subsidized Loan and a Direct Unsubsidized Loan enters repayment, and the point at which a Direct PLUS Loan enters repayment…
Exit counseling must:

(i) Inform the student borrower of the average anticipated monthly repayment amount based on the student borrower’s indebtedness or on the average indebtedness of student borrowers who have obtained Direct Subsidized Loans and Direct Unsubsidized Loans, student borrowers who have obtained only Direct PLUS Loans, or student borrowers who have obtained Direct Subsidized, Direct Unsubsidized, and Direct PLUS Loans, depending on the types of loans the student borrower has obtained, for attendance at the same school or in the same program of study at the same school;

(ii) Review for the student borrower available repayment plan options including the standard repayment, extended repayment, graduated repayment, income contingent repayment plans, and income-based repayment plans, including a description of the different features of each plan and sample information showing the average anticipated monthly payments, and the difference in interest paid and total payments under each plan;

(iii) Explain to the borrower the options to prepay each loan, to pay each loan on a shorter schedule, and to change repayment plans;

(iv) Provide information on the effects of loan consolidation including, at a minimum—
   (A) The effects of consolidation on total interest to be paid, fees to be paid, and length of repayment;
   (B) The effects of consolidation on a borrower’s underlying loan benefits, including grace periods, loan forgiveness, cancellation, and deferment opportunities;
   (C) The options of the borrower to prepay the loan and to change repayment plans; and
   (D) That borrower benefit programs may vary among different lenders;

(v) Include debt-management strategies that are designed to facilitate repayment;

(vi) Explain to the student borrower how to contact the party servicing the student borrower’s Direct Loans;

(vii) Meet the requirements described in paragraphs (a)(6)(i), (a)(6)(ii), and (a)(6)(iv) of this section [see entrance counseling requirements (i), (ii), and (iv) in the first column of the previous page];

(viii) Describe the likely consequences of default, including adverse credit reports, delinquent debt collection procedures under Federal law, and litigation;

(ix) Provide—
   (A) A general description of the terms and conditions under which a borrower may obtain full or partial forgiveness or discharge of principal and interest, defer repayment of principal or interest, or be granted forbearance on a title IV loan; and
   (B) A copy, either in print or by electronic means, of the information the Secretary makes available pursuant to section 485(d) of the HEA;

(x) Review for the student borrower information on the availability of the Department’s Student Loan Ombudsman’s office;

(xi) Inform the student borrower of the availability of title IV loan information in the National Student Loan Data System (NSLDS) and how NSLDS can be used to obtain title IV loan status information;

(xii) A general description of the types of tax benefits that may be available to borrowers; and

(xiii) Require the student borrower to provide current information concerning name, address, social security number, references, and driver’s license number and state of issuance, as well as the student borrower’s expected permanent address, the address of the student borrower’s next of kin, and the name and address of the student borrower’s expected employer (if known).

* Section 485 requires the Secretary (i.e., the Department) to provide “descriptions of federal student assistance programs including the rights and responsibilities of student and institutional participants,” including “information to enable students and prospective students to assess the debt burden and monthly and total repayment obligations” for their loans.

Section 485(d) also mentions information—
• to enable borrowers to assess the practical consequences of loan consolidation, including differences in deferment eligibility, interest rates, monthly payments, and finance charges, and samples of loan consolidation profiles.
• concerning the specific terms and conditions under which students may obtain partial or total cancellation or defer repayment of loans for service.
• on the maximum level of compensation and allowances that a student borrower may receive from a tax-exempt organization to qualify for a deferment, and shall explicitly state that students may qualify for such partial cancellations or deferments when they serve as a paid employee of a tax-exempt organization.
• on state and other prepaid tuition programs and savings programs and disseminate such information to states, eligible institutions, students, and parents in departmental publications.
DRUG AND ALCOHOL ABUSE PREVENTION

A school that participates in the FSA programs must provide information to its students, faculty, and employees to prevent drug and alcohol abuse. (A school is also required to have a drug and alcohol prevention program, as discussed in Chapter 8.)

In addition, a school that participates in the Campus-Based programs must have a drug-free awareness program for its employees that includes a notice to its employees of unlawful activities and the actions the school will take against an employee who violates these prohibitions.

Information to be included in drug prevention materials for students

A school must provide the following in its materials:

- information on preventing drug and alcohol abuse;
- standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of drugs and alcohol by students and employees on the school's property, or as part of the school's activities;
- a description of the sanctions under local, state, and federal law for unlawful possession, use, or distribution of illicit drugs and alcohol;
- a description of any drug and alcohol counseling, treatment, or rehabilitation programs available to students and employees;
- a description of the health risks associated with the use of illicit drugs and alcohol; and
- a clear statement that the school will impose sanctions on students and employees for violations of the standards of conduct (consistent with local, state, and federal law) and a description of these sanctions, up to and including expulsion, termination of employment, and referral for prosecution.

Distribution of materials to all students and employees

The school may include this information in publications such as student or employee handbooks, provided that these publications are distributed to each student and employee. Merely making drug prevention materials available to those who wish to take them is not sufficient. The school must use a method that will reach every student and employee, such as the method used to distribute grade reports or paychecks.

The school must distribute these materials annually. If new students enroll or new employees are hired after the initial distribution for the year, the school must make sure that they also receive the materials.

Drug and alcohol prevention

Drug-Free Schools and Communities Act (Public Law 101-226)
Drug-Free Workplace Act of 1988 (Public Law 101-690)
34 CFR 84 Government-Wide Requirements for Drug-Free Workplace
34 CFR 86 Drug and Alcohol Abuse Prevention
34 CFR 668.14(c)

Notice of penalties

A school must provide to every student, upon enrollment, a separate, clear, and conspicuous written notice with information on the penalties associated with drug-related offenses (see Volume 1 of this Handbook for a description of the penalties).
Higher Education Act of 2008
HEA section 485(k)
A school is deemed to have engaged in **substantial misrepresentation** when the school itself, one of its representatives, or other related parties (see below), makes a substantial misrepresentation regarding the school, including about the nature of its educational program, its financial charges, or the employability of its graduates.

**Misrepresentation**

*Misrepresentation* is defined as a false, erroneous or misleading statement made directly or indirectly to—

- a student, prospective student, or any member of the public, or
- an accrediting agency, a state agency, or the Department.

A *misleading statement* includes any statement that has the likelihood or tendency to deceive or confuse. A statement is any communication made in writing, visually, orally, or through other means.

This definition applies to statements made by—

- an eligible school
- one of its representatives, or
- any ineligible institution, organization, or person with whom the eligible institution has an agreement to provide educational programs, or to provide marketing, advertising, recruiting or admissions services.

Misrepresentation includes the dissemination of a student endorsement or testimonial that a student gives either under duress or because the school required the student to make such an endorsement or testimonial to participate in a program.

**Substantial misrepresentation**

*Substantial misrepresentation* is defined as any misrepresentation on which the person to whom it was made could reasonably be expected to rely, or has reasonably relied, to that person’s detriment.

Substantial misrepresentations are prohibited in all forms, including those made in any advertising, promotional materials, or in the marketing or sale of courses or programs of instruction offered by the institution.
Misrepresentation regulations

34 CFR 668.72 Nature of educational program

Misrepresentation concerning the nature of an eligible institution’s educational program includes, but is not limited to, false, erroneous or misleading statements concerning—
(a) The particular type(s), specific source(s), nature and extent of its institutional, programmatic, or specialized accreditation;
(b)(1) Whether a student may transfer course credits earned at the institution to any other institution;
(2) Conditions under which the institution will accept transfer credits earned at another institution;
(c) Whether successful completion of a course of instruction qualifies a student—
(1) For acceptance to a labor union or similar organization; or
(2) To receive, to apply to take or to take the examination required to receive, a local, State, or Federal license, or a nongovernmental certification required as a precondition for employment, or to perform certain functions in the States in which the educational program is offered, or to meet additional conditions that the institution knows or reasonably should know are generally needed to secure employment in a recognized occupation for which the program is represented to prepare students;
(d) The requirements for successfully completing the course of study or program and the circumstances that would constitute grounds for terminating the student’s enrollment;
(e) Whether its courses are recommended or have been the subject of unsolicited testimonials or endorsements by—
(1) Vocational counselors, high schools, colleges, educational organizations, employment agencies, members of a particular industry, students, former students, or others; or
(2) Governmental officials for governmental employment;
(f) Its size, location, facilities, or equipment;
(g) The availability, frequency, and appropriateness of its courses and programs to the employment objectives that it states its programs are designed to meet;
(h) The nature, age, and availability of its training devices or equipment and their appropriateness to the employment objectives that it states its programs and courses are designed to meet;
(i) The number, availability, and qualifications, including the training and experience, of its faculty and other personnel;
(j) The availability of part-time employment or other forms of financial assistance;
(k) The nature and availability of any tutorial or specialized instruction, guidance and counseling, or other supplementary assistance it will provide its students before, during or after the completion of a course;
(l) The nature or extent of any prerequisites established for enrollment in any course;
(m) The subject matter, content of the course of study, or any other fact related to the degree, diploma, certificate of completion, or any similar document that the student is to be, or is, awarded upon completion of the course of study;
(n) Whether the academic, professional, or occupational degree that the institution will confer upon completion of the course of study has been authorized by the appropriate State educational agency. This type of misrepresentation includes, in the case of a degree that has not been authorized by the appropriate State educational agency or that requires specialized accreditation, any failure by an eligible institution to disclose these facts in any advertising or promotional materials that reference such degree; or
(o) Any matters required to be disclosed to prospective students under §§ 668.42 and 668.43 of this part.

(Authority: 20 U.S.C. 1094)

34 CFR 668.73 Nature of financial charges

Misrepresentation concerning the nature of an eligible institution’s financial charges includes, but is not limited to, false, erroneous, or misleading statements concerning—
(a) Offers of scholarships to pay all or part of a course charge;
(b) Whether a particular charge is the customary charge at the institution for a course;
(c) The cost of the program and the institution’s refund policy if the student does not complete the program;
(d) The availability or nature of any financial assistance offered to students, including a student’s responsibility to repay any loans, regardless of whether the student is successful in completing the program and obtaining employment; or
(e) The student’s right to reject any particular type of financial aid or other assistance, or whether the student must apply for a particular type of financial aid, such as financing offered by the institution.

(Authority: 20 U.S.C. 1094)

34 CFR 668.74 Employability of graduates

Misrepresentation regarding the employability of an eligible institution’s graduates includes, but is not limited to, false, erroneous, or misleading statements concerning—
(a) The institution’s relationship with any organization, employment agency, or other agency providing authorized training leading directly to employment;
(b) The institution’s plans to maintain a placement service for graduates or otherwise assist its graduates to obtain employment;
(c) The institution’s knowledge about the current or likely future conditions, compensation, or employment opportunities in the industry or occupation for which the students are being prepared;
(d) Whether employment is being offered by the institution or that a talent hunt or contest is being conducted, including, but not limited to, through the use of phrases such as “Men/women wanted to train for * * *,” “Help Wanted,” “Employment,” or “Business Opportunities”; or
(e) Government job market statistics in relation to the potential placement of its graduates; or
(f) Other requirements that are generally needed to be employed in the fields for which the training is provided, such as requirements related to commercial driving licenses or permits to carry firearms, and failing to disclose factors that would prevent an applicant from qualifying for such requirements, such as prior criminal records or preexisting medical conditions.

(Authority: 20 U.S.C. 1094)

34 CFR 668.75 Relationship with Department of Education

An eligible institution, its representatives, or any ineligible institution, organization, or person with whom the eligible institution has an agreement may not describe the eligible institution’s participation in the title IV, HEA programs in a manner that suggests approval or endorsement by the U.S. Department of Education of the quality of its educational programs.

(Authority: 20 U.S.C. 1094)
INFORMATION ABOUT PRIVATE LOANS

A private education loan is a non-FSA loan that is made to a borrower expressly for postsecondary education expenses, regardless of whether the loan is provided through the educational institution that the student attends or directly to the borrower from the private educational lender. (See sidebar definition for exclusions.)

Private education loans made by schools include Public Health Service Loans, such as Health Professions Student Loans. However, Federal Perkins Loans are not considered to be private educational loans.

If a private education loan is part of a preferred lender arrangement, it is also subject to the rules for those arrangements (as described later in this section).

Disclosures required for private education loans

A school or affiliated organization that provides information regarding a private education loan from a lender to a prospective borrower must provide the following disclosures, even if it does not participate in a preferred lender arrangement.

The private education loan disclosures must—

- provide the prospective borrower with the information required by 15 U.S.C. 1638(e)(1) [12 CFR 226.47(a) in the the Federal Reserve System regulations], and
- inform the prospective borrower that he or she may qualify for FSA loans or other assistance from the FSA programs, and that the terms and conditions of an FSA loan may be more favorable than the provisions of private education loans.

The school or affiliate must ensure that information regarding private education loans is presented in such a manner as to be distinct from information regarding FSA loans.

The school must, upon the request of the applicant, discuss with the applicant the availability of federal, state, and institutional student financial aid.

Self-certification form for private education loans

A lender must obtain a completed and signed self-certification form from the applicant before consummating a private education loan.

The loan applicant may obtain a copy of the self-certification form from the private lender and submit it to your school for completion or confirmation. A school may also, at its option, provide the information needed to complete the form directly to the lender.

If the applicant requests a copy of the self-certification form from your school, you must provide it.
If the student has been enrolled or admitted to the school, the student or parent loan applicant may request that the school complete section 2 before providing the form to the applicant. The school must comply with the applicant’s request to the extent that the school possesses the required information. Section 2 of the self-certification form collects the following information—

The school must also provide the information required to complete the form, to the extent the school possesses such information, including—

- the applicant’s cost of attendance (see Volume 3, Chapter 2);
- the applicant’s estimated financial assistance (including, for students who have completed the FAFSA, the amounts of financial assistance used to replace the EFC, as determined by the school in accordance with the rules in Volume 3, Chapter 9); and
- the difference between the applicant’s cost of attendance and estimated financial assistance, as applicable.

The school should not include any private education loans that it is making to an enrolled applicant when determining the amount of estimated financial assistance to report in section 2 of the self-certification form.

Schools as private lenders

Note that if a school solicits, makes, or extends private education loans, it is considered to be a private educational lender that is subject to the Federal Reserve’s regulations on private educational lenders.

When the school is the private education lender, it must complete and provide the Self-Certification form to the loan applicant, and subsequently obtain the signed form from the applicant before consummating the private education loan.

In some cases, a school may be making more than one private education loan to an applicant. For example, a school may be providing a loan funded by the school (or from donor-directed contributions) and a Public Health Service loan. In such cases, the school can provide one Self-Certification form to the applicant.

Preferred lender lists

For any year in which the school has a preferred lender arrangement, it will at least annually compile, maintain, and make available for students attending the school, and the families of such students, a list in print or other medium, of the specific lenders for private education loans that the school recommends, promotes, or endorses in accordance with such preferred lender arrangement.

The school’s preferred lender list must fully disclose—

- why it participates in a preferred lender arrangement with each lender on the preferred lender list, particularly with respect to terms and conditions or provisions favorable to the borrower, and

Self-certification form for private education loans

Beginning February 14, 2010, schools must provide the Private Education Loan Applicant Self-certification form upon request from the loan applicant. A school may post an exact copy (pdf) of the self-certification form on its website for applicants to download, or it may provide a paper copy directly to an applicant. A copy of the self-certification form is included as an attachment to GEN 11-01.

The self-certification form must be printed by the school (or lender) with black ink on white paper. The typeface, point size, and general presentation of the form may not be changed from the version approved by OMB.

The only changes that may be made to the self-certification form are:
- Bold type in section headings may be removed, and bold or italic type may be added to the instructions.
- Schools and lenders may use any blank spaces at the top, bottom, or sides of the form for bar coding or other school/lender-specific information. (However, such space may not be used to include the student’s or parent’s Social Security number.)

Source: GEN-11-01

Public health service loans

Loans made under Titles VII and VIII of the Public Health Service Act are considered to be private education loans, including—
- Health Professions Student Loan (HPSL)
- Primary Care Loan (PCL)
- Loans for Disadvantaged Students (LDS)
- Nursing Student Loan (NSL)

These loans are administered by the Health Resources and Services Administration (www.hrsa.gov).

Preferred lenders

34 CFR 601.10
12 CFR 226.47
20 USC 1019(a)(1)(A) and 1019(b)(c)
15 USC 1638(e)(11)

As enacted in—
HEA section 153(a)(2)(A)
Truth in Lending Act, section 128(e)(11)
Preferred lender lists
The school is required to
• exercise a duty of care and a duty of
  loyalty to compile the preferred lender
  list, without prejudice and for the sole
  benefit of the school’s students and their
  families and
• not deny or otherwise impede the
  borrower’s choice of a lender for those
  borrowers who choose a lender that is
  not included on the preferred lender list.

The preferred lender list must also prominently disclose the method and
criteria used by the school in selecting lenders, to ensure that such lenders are
selected on the basis of the best interests of the borrowers, including—

• payment of origination or other fees on behalf of the borrower,
• highly competitive interest rates, or other terms and conditions or
  provisions of FSA loans or private education loans,
• high-quality servicing for such loans, or
• additional benefits beyond the standard terms and conditions or
  provisions for such loans.

The preferred lender list must indicate, for each listed lender, whether
the lender is or is not an affiliate of each other lender on the preferred lender
list. If a lender is an affiliate of another lender on the preferred lender list, the
listing must describe the details of this affiliation.

Use of school or lender name
34 CFR 612
20 USC 1019a(a)(2)–(a)(3)

Preferred lenders & code of
conduct
Note that the code of conduct discussed in
Chapter 3 prohibits school staff from steering
borrowers to particular lenders or delaying
loan certifications.

Institution-affiliated organization
definition
34 CFR 601.2
(1) Any organization that—
(i) Is directly or indirectly related to a
  covered institution; and
(ii) Is engaged in the practice of
  recommending, promoting, or endorsing
  education loans for students attending such
  covered institution or the families of such
  students.
(2) An institution-affiliated organization—
(i) May include an alumni organization,
  athletic organization, foundation, or social,
  academic, or professional organization, of a
  covered institution; and
(ii) Does not include any lender with
  respect to any education loan secured, made,
  or extended by such lender.

Preferred lender disclosures
For each type of private education loan offered under a preferred lender
arrangement, a school (or school-affiliated organization) must disclose—

• the maximum amount of FSA grant and loan aid available to
  students, in an easy-to-understand format,
• the Truth in Lending information [15 USC 1638(e)(11)], for each
  type of private education loan offered through a preferred lender
  arrangement to the school’s students and their families, and
• when available, the information identified on a model disclosure
  form (to be developed by the Department), for each type
  of education loan that is offered through a preferred lender
  arrangement to the school’s students or their families.

The school must disseminate this information on its website and in all
informational materials such as publications, mailings, or electronic messages
or materials, that—

• are distributed to prospective or current students and their
  families, and
• describe financial aid that is available at an institution of higher
  education.
Use of institution & lender name

A school or school-affiliated organization that participates in a preferred lender arrangement regarding private education loans must not agree to the lender’s use of its name, emblem, mascot, or logo in the marketing of private education loans to students attending the school in any way that implies that the loan is offered or made by the school or its affiliate instead of the lender. This prohibition also applies to other words, pictures, or symbols readily identified with the school or affiliate.

The school or its affiliate must also ensure that the name of the lender is displayed in all information and documentation related to the private education loans described in this section.
Recordkeeping, Electronic Processes, & Privacy

Schools must maintain detailed records to show that FSA funds are disbursed in the correct amounts to eligible students. These records must be made available to authorized parties in the course of audits, program reviews, or investigations. Personally identifiable information in these records may only be released to other parties under certain conditions specified in the FERPA regulations. Required information may be collected and stored electronically, subject to appropriate safeguards. Note that a school is also required to take steps to prevent the unauthorized distribution of copyrighted material on its network. You may wish to share the contents of this chapter with your school’s IT office or provider.

**REQUIRED RECORDS**

A school must keep comprehensive, accurate program and fiscal records related to its use of FSA program funds. The importance of maintaining complete, accurate records cannot be overemphasized. Program and fiscal records must demonstrate the school is capable of meeting the administrative and fiscal requirements for participating in the FSA programs. In addition, records must demonstrate proper administration of FSA program funds and must show a clear audit trail for FSA program expenditures. For example, records for each FSA recipient must clearly show that the student was eligible for the funds received, and that the funds were disbursed in accordance with program regulations.

In addition to the general institutional recordkeeping requirements discussed here, a school must also comply with all program-specific recordkeeping requirements contained in the individual FSA regulations.

**Records related to school eligibility**

A school must establish and maintain on a current basis any application the school submitted for FSA program funds. Other program records that must be maintained include:

- Program Participation Agreement, Approval Letter, and Eligibility and Certification Approval Report (ECAR),
- application portion of the FISAP,
- accrediting and licensing agency reviews, approvals, and reports,
- state agency reports,
- audit and program review reports,
- self-evaluation reports, and
- other records, as specified in regulation, that pertain to factors of financial responsibility and standards of administrative capability.

**CHAPTER 7 HIGHLIGHTS**

- Required records
- Record retention periods
- Record Formats & Maintenance
- Examination of Records
- Privacy of Student Information (FERPA)
- E-Sign Act & Information Security
- Preventing Copyright Violations

**FSA Assessment module**

To assess your compliance with the provisions of this chapter, see Activity 2 under "Fiscal Management" at ifap.ed.gov/qahome/qaassessments/fiscalmanagement.html

**Recordkeeping**

34 CFR 668.24

**Closed-school records**

If a school closes, stops providing educational programs, is terminated or suspended from the FSA programs, or undergoes a change in ownership that results in a change of control, it must provide for the retention of required records. It must also provide for access to those records for inspection and copying by the Department. A school that formerly participated in the FFEL Program must also provide access for the appropriate guaranty agency.
Records relating to student eligibility

A school must keep records that substantiate the eligibility of students for FSA funds, such as:

- cost of attendance information
- documentation of a student’s satisfactory academic progress (SAP)
- documentation of student’s program of study and the courses in which the student was enrolled
- data used to establish student’s admission, enrollment status, and period of enrollment
- required student certification statements and supporting documentation
- documents used to verify applicant data, and resolve conflicting information
- documentation of all professional judgment decisions
- financial aid history information for transfer students

Fiscal records

A school must keep fiscal records to demonstrate its proper use of FSA funds. A school’s fiscal records must provide a clear audit trail that shows that funds were received, managed, disbursed, and returned in accordance with federal requirements.

The fiscal records that a school must maintain include, but are not limited to:

- records of all FSA program transactions,
- bank statements for all accounts containing FSA funds,
- records of student accounts, including each student’s institutional charges, cash payments, FSA payments, cash disbursements, refunds, returns, and overpayments required for each enrollment period,
- general ledger (control accounts) and related subsidiary ledgers that identify each FSA program transaction (FSA transactions must be separate from school’s other financial transactions),
- Federal Work-Study payroll records, and
- FISOP portion of the FISAP.

A school must also maintain records that support data appearing on required reports, such as:

- Pell Grant statements of accounts,
- cash requests and quarterly or monthly reports from the G5 payment system,
- FSA program reconciliation reports,
- audit reports and school responses,
- state grant and scholarship award rosters and reports,
- accrediting and licensing agency reports, and
- records used to prepare the income grid on the FISAP.

Retaining records for a branch that closes

If a school has an additional location or branch that closes, the school should maintain its loan records beyond the end of the three-year record retention requirement in order to respond to the Department or to refute borrower claims of eligibility for discharge.
Record retention requirements

From § 668.24 Record retention and examinations.

Program Records
A school must establish and maintain, on a current basis, any application for FSA funds and program records that document—
• the school’s eligibility to participate in the FSA programs,
• the FSA eligibility of the school’s programs of education,
• the school’s administration of the FSA programs,
• the school’s financial responsibility,
• information included in any application for FSA program funds, and
• the school’s disbursement of FSA program funds.

Fiscal records
A school must account for the receipt and expenditure of all FSA program funds in accordance with generally accepted accounting principles.

A school must establish and maintain on a current basis—
• financial records that reflect each FSA program transaction, and
• general ledger control accounts and related subsidiary accounts that identify each FSA program transaction and separate those transactions from all other school financial activity.

Records for FSA recipients
A school must maintain records for each FSA recipient that include, but are not limited to—
• The Student Aid Report (SAR) or Institutional Student Information Record (ISIR) used to determine a student’s eligibility for FSA program funds
• Application data submitted to the Department, lender, or guaranty agency by the school on behalf of the student or parent
• Documentation of each student’s or parent borrower’s eligibility for FSA program funds (e.g., records that demonstrate that the student has a high school diploma, GED, or the ability to benefit)
• Documentation relating to each student’s or parent borrower’s receipt of FSA program funds, including but not limited to:
  • The amount of the grant, loan, or FWS award; its payment period; its loan period, if appropriate; and the calculations used to determine the amount of grant, loan, or FWS award;
  • The date and amount of each disbursement of grant or loan funds, and the date and amount of each payment of FWS wages;
  • The amount, date, and basis of the school’s calculation of any refunds/returns or overpayments due to or on behalf of the student; and
  • The payment of any refund/return or overpayment to the FSA program fund, a lender, or the Department, as appropriate.
• Documentation of and information collected at any initial or exit loan counseling required by applicable program regulations
• Reports and forms used by the school in its participation in an FSA program, and any records needed to verify data that appear in those reports and forms
• Documentation supporting the school’s calculation of its completion or graduation rates, and transfer-out rates (see Chapter 6).
Loan program records

There are special record keeping requirements in the Direct and FFEL loan programs. A school must maintain—

- A copy of paper or electronic loan certification or origination record, including the amount of the loan and the period of enrollment.
- The cost of attendance, estimated financial assistance, and expected family contribution used to calculate the loan amount (and any other information that may be required to determine the borrower’s eligibility, such as the student’s Federal Pell Grant eligibility or ineligibility).
- The date(s) the school disbursed the loan funds to the student (or to the parent borrower), and the amount(s) disbursed. (For loans delivered to the school by check, the date the school endorsed each loan check, if required.)
- Documentation of the confirmation process for each academic year in which the school uses the multi-year feature of the Master Promissory Note. This may be part of the borrower’s file, but acceptable documentation can also include a statement of the confirmation process that was printed in a student handbook or other financial aid publication for that school year. The documentation may be kept in paper or electronic form. There is no retention limit for this documentation; you must keep it indefinitely because it may affect the enforceability of loans.

A school must keep records relating to a student or parent borrower’s eligibility and participation in the Direct Loan or FFEL program for three years after the end of the award year in which the student last attended the school. A school must keep all other records relating to the school’s participation in the Direct Loan or FFEL program for at least three years after the end of the award year in which the records are submitted.

Perkins & FWS records

In addition:

- Participants in the Perkins Loan Program must follow procedures in 34 CFR 674.19 for documenting the repayment history for each borrower for that program; and
- Participants in the FWS Program must follow procedures established in Section 675.19 for documentation of work, earnings, and payroll transactions for the program.

(See Volume 6—Campus-Based Programs).
RECORD RETENTION PERIODS

Schools must retain all required records for a minimum of three years from the end of the award year. However, the starting point for the three-year period is not the same for all records. For example, FFEL/DL reports must be kept for 3 years after the end of the award year in which they were submitted, while borrower records must be kept for 3 years from the end of the award year in which the student last attended.

Different retention periods are necessary to ensure enforcement and repayment of Perkins loans, which are normally handled by the school. Perkins Loan repayment records, including cancellation and deferment records, must be kept for three years from the date that the loan was assigned to the Department, cancelled, or repaid. Perkins original promissory notes and original repayment schedules must be kept until the loan is satisfied or needed to enforce the obligation (for more information, see Volume 6—Campus-Based Programs).

A school may retain records longer than the minimum period required. Moreover, a school may be required to retain records involved in any loan, claim, or expenditure questioned in any FSA program review, audit, investigation, or other review, for more than three years (see Chapter 9 for information on program reviews and audits). If the three-year retention period expires before the issue in question is resolved, the school must continue to retain all records until resolution is reached.

There are also additional record retention requirements that apply to schools granted waivers of the audit submission requirements.

Minimum record retention periods

Pell and TEACH grants, Campus-Based Programs 3 years from the end of the award year for which the aid was awarded

Except:
- Fiscal Operations Report (FISAP) and supporting records 3 years from the end of the award year in which the report was submitted
- Perkins repayment records* until the loan is satisfied, or the documents are needed to enforce the obligation
- Perkins original promissory notes* 3 years from the date the loan is assigned to ED, canceled, or repaid

Direct Loans & FFEL
- Records related to borrower’s eligibility and participation 3 years from the end of the award year in which the student last attended
- All other records, including any other reports or forms 3 years from the end of the award year in which the report was submitted

* after 12/87, includes original repayment schedule, though manner of retention remains same as promissory note
** before 12/87, included original repayment schedule
RECORD MAINTENANCE

Acceptable formats

A school must maintain all required records in a systematically organized manner. Unless a specific format is required, a school may keep required records in:

- hard copy
- microform
- computer file
- optical disk
- CD-ROM
- other media formats

Record retention requirements for the Institutional Student Information Record (ISIR) are discussed below. All other record information, regardless of the format used, must be retrievable in a coherent hard copy format (for example, an easily understandable printout of a computer file) or in a media format acceptable to the Department.

Any document that contains a signature, seal, certification, or any other image or mark required to validate the authenticity of its information must be maintained in its original hard copy or in an imaged media format. This includes tax returns, verification statements, and Student Aid Reports (SARs) used to determine eligibility, and any other document when a signature, seal, etc., contained on it is necessary for the document to be used for the purposes for which it is being retained.

A school may maintain a record in an imaged media format only if the format is capable of reproducing an accurate, legible, and complete copy of the original document. When printed, the copy must be approximately the same size as the original document.

Please note that promissory notes that are signed electronically must be stored electronically and the promissory note must be retrievable in a coherent format.

Special requirements for SARs and ISIRs

Special maintenance and availability requirements apply for SARs and ISIRs used to determine eligibility. It is essential that these basic eligibility records be available in a consistent, comprehensive, and verifiable format for program review and audit purposes.

Because the SAR is a hard copy document, it must be maintained and available in its original hard copy format or in an imaged media format. The ISIR, an electronic record, must be maintained and available in its original format (e.g., as it was archived using EDExpress software supplied to the school). A school that uses EDExpress has the ability to preserve the ISIR data that it has maintained during the applicable award year by archiving the data to a disk or other computer format.
EXAMINATION OF RECORDS

Location
A school must make its records available to the Department at a location of the school designated by the Department. These records must be readily available for review, including any records of transactions between a school and the financial institution where the school deposits any FSA funds.

A school is not required to maintain records in any specific location. For example, it may be more appropriate for a school to maintain some records in the financial aid office while maintaining others in the business office, the admissions office, or the office of the registrar. The responsible administrator in the office maintaining the records should be aware of all applicable record retention requirements.

Cooperation with agency representatives
A school that participates in any FSA program, and the school’s third-party servicers, if any, must cooperate with the agencies and individuals involved in conducting any audit, program review, investigation, or other review authorized by law (see sidebar).

A school must cooperate by providing—

- timely access to requested records, pertinent books, documents, papers, or computer programs for examination and copying by any of the agents listed above. The records to which timely access must be provided include, but are not limited to, computerized records and records reflecting transactions with any financial institution with which the school or servicer deposits or has deposited any FSA program funds.
- reasonable access to all personnel associated with the school’s or servicer’s administration of the FSA programs so that any of the agents listed above may obtain relevant information. A school or servicer must allow those personnel to supply all relevant information and allow those personnel to be interviewed without the presence of the school’s or servicer’s management (or tape-recording of the interviews by the school or servicer).

If requested by the Department, a school or servicer must provide promptly any information the school or servicer has regarding the last known address, full name, telephone number, enrollment information, employer, and employer address of a recipient of FSA program funds who attends or attended the school. A school must also provide this information, upon request, to a lender or guaranty agency in the case of a borrower under the FFEL Program.
PRIVACY OF STUDENT INFORMATION (FERPA)

The Family Educational Rights and Privacy Act (FERPA) sets limits on the disclosure of personally identifiable information from school records and defines the rights of the student to review the records and request a change to the records.

With exceptions such as those noted in this section, FERPA generally gives postsecondary students the right

- to review their education records,
- to seek to amend inaccurate information in their records, and
- to provide consent for the disclosure of their records.

These rules apply to all education records the school keeps, including admissions records (only if the student was admitted) and academic records as well as any financial aid records pertaining to the student. Therefore, the financial aid office is not usually the office that develops the school’s FERPA policy or the notification to students and parents, although it may have some input.

Student’s & parents’ rights to review educational records

A school must provide a student with an opportunity to review his or her education records within 45 days of the receipt of a request. A school is required to provide the student with copies of education records, or make other arrangements to provide the student access to the records, if a failure to do so would effectively prevent the student from obtaining access to the records. While the school may not charge a fee for retrieving the records, it may charge a reasonable fee for providing copies of the records, provided that the fee would not prevent access to the records.

FERPA responsibilities & student rights

A school is required to—

✔ annually notify students of their rights under FERPA;
✔ include in that notification the procedure for exercising their rights to inspect and review education records; and
✔ maintain a record in a student’s file listing to whom personally identifiable information was disclosed and the legitimate interests the parties had in obtaining the information (does not apply to school officials with a legitimate educational interest or to directory information).

A student has the right to—

✔ inspect and review any education records pertaining to the student;
✔ request an amendment to his/her records; and
✔ consent to disclosure of personally identifiable information from education records, except when FERPA permits disclosure without consent.
While the rights under FERPA have transferred from a student’s parents to the student when the student attends a postsecondary institution, FERPA does permit a school to disclose a student’s education records to his or her parents if the student is a dependent student under IRS rules.

Note that the IRS definition of a dependent is quite different from that of a dependent student for FSA purposes. For IRS purposes, students are dependent if they are listed as dependents on their parent’s income tax returns. (If the student is a dependent as defined by the IRS, disclosure may be made to either parent, regardless of which parent claims the student as a dependent.)

There are several other situations in which a school official may disclose information about the student to the student’s parents, as noted in the sidebar.

Prior written consent to disclose the student’s records

Except under one of the special conditions described in this section, a student must provide written consent before an education agency or school may disclose personally identifiable information from the student’s education records.

The written consent must—

• state the purpose of the disclosure,
• specify the records that may be disclosed,
• identify the party or class of parties to whom the disclosure may be made, and
• be signed and dated.

If the consent is given electronically, the consent form must—

• identify and authenticate a particular person as the source of the electronic consent, and
• indicate that person’s approval of the information contained in the electronic consent.

The FERPA regulations include a list of exceptions where the school may disclose personally identifiable information from the student’s file without prior written consent. Several of these allowable disclosures are of particular interest to the financial aid office, since they are likely to involve the release of financial aid records.

Disclosures to school officials

Some of these disclosures may be made to officials at your school or another school who have a legitimate interest in the student’s records. Typically, these might be admissions records, grades, or financial aid records. Disclosure may be made to:

• other school officials, including teachers, within the school whom the school has determined to have legitimate educational interests.
• to officials of another postsecondary school or school system where the student receives services or seeks to enroll.

Sole possession records

Sole possession records are not included in the term “education record,” and thus are not subject to FERPA. Sole possession records are kept in the sole possession of the maker of the record and are—

• used as a memory or reference tool,
• not accessible or revealed to any other person except a temporary substitute for the maker of the record, and
• typically maintained by the school official unbeknownst to other individuals.

Records that contain information taken directly from a student or that are used to make decisions about the student are not sole possession records.

Campus security records

Records created and maintained by a school’s campus security unit for law enforcement purposes are exempt from the privacy restrictions of FERPA and can be shared with anyone.

A school may disclose information from “law enforcement unit records” to anyone—including parents or federal, state, or local law enforcement authorities—without the consent of the eligible student.

FERPA & crime records

There are two different FERPA provisions concerning the release of records relating to a crime of violence. One concerns the release to the victim of any outcome involving an alleged crime of violence (34 CFR 34 CFR 99.31(a)(13)). A separate provision permits a school to disclose to anyone the final results of any disciplinary hearing against an alleged perpetrator of a crime of violence where that student was found in violation of the school’s rules or policies with respect to such crime or offense (34 CFR 99.31(a)(14)).

Third-party housing records

Whether the rent is paid to the third party by the school on behalf of the student or directly by the student, a student housing facility owned by a third party that has a contract with a school to provide housing for the school’s students is considered “under the control” of the school. Therefore, records (maintained by either the third-party or the school) related to the students living in that housing are subject to FERPA.
If your school routinely discloses information to other schools where the student seeks to enroll, it should include this information in its annual privacy notification to students. If this information is not in the annual notice, the school must make a reasonable attempt to notify the student at the student’s last known address.

**Disclosures to government agencies**

Disclosures may be made to authorized representatives of the U.S. Department of Education for audit, evaluation, and enforcement purposes. “Authorized representatives” includes employees of the Department—such as employees of the Office of Federal Student Aid, the Office of Postsecondary Education, the Office for Civil Rights, and the National Center for Education Statistics—as well as firms that are under contract to the Department to perform certain administrative functions or studies. In addition—

- Disclosure may be made if it is in connection with financial aid that the student has received or applied for. Such a disclosure may only be made if the student information is needed to determine the amount of the aid, the conditions for the aid, the student's eligibility for the aid, or to enforce the terms or conditions of the aid.
- A school may release personally identifiable information on an F, J, or M nonimmigrant student to U.S. Immigration and Customs Enforcement (formerly the Immigration and Naturalization Service) in compliance with the Student Exchange Visitor Information System (SEVIS) program without violating FERPA.

**Disclosures in response to subpoenas or court orders**

FERPA permits schools to disclose education records, without the student’s consent, in order to comply with a lawfully issued subpoena or court order.

In most cases, the school must make a reasonable effort to notify the student who is the subject of the subpoena or court order before complying, so that the student may seek protective action. However, the school does not have to notify the student if the court or issuing agency has prohibited such disclosure.

A school may also disclose information from education records, without the consent or knowledge of the student, to representatives of the U.S. Department of Justice in response to an ex parte order issued in connection with the investigation of crimes of terrorism.

**Documenting the disclosure of information**

Except as noted in the sidebar, a school must keep a record of each request for access and each disclosure of personally identifiable student information to other parties. The record of the request and disclosure must identify the parties who requested the information and their legitimate interest in the information. This record must be maintained in the student’s file as long as the educational records themselves are kept.
For instance, if Department officials request student records in the course of a program review, the school must document in each student’s file that the student’s records were disclosed to representatives of the Department. The easiest way for the school to do this is to photocopy a statement to this effect and include it in each student’s file. A statement such as the following would be appropriate for a review of the FSA programs conducted by a Department regional office.

These financial aid records were disclosed to representatives of the U.S. Department of Education, School Participation Team, Region ___ on (Month/Day/Year) to determine compliance with financial aid requirements, under 34 CFR Part 99.31(a)(4).

When redisclosure is anticipated, the additional parties to whom the information will be disclosed must be included in the record of the original disclosure. For instance, to continue the example for an FSA program review, the following statement might be added:

The School Eligibility Channel may make further disclosures of this information to the Department’s Office of Inspector General, and to the U.S. Department of Justice, under 34 CFR 99.33(b). Schools should check with the program review staff to find out if any redisclosure is anticipated.

**HIPPA (privacy of health records) and FERPA**

The Health Insurance Portability and Accountability Act of 1996 (HIPPA) sets standards to protect the confidentiality of health information.

However, the HIPAA Privacy Rule excludes from its coverage those records that are protected by FERPA at school districts and postsecondary institutions that provide health or medical services to students. This is because Congress specifically addressed how education records should be protected under FERPA. For this reason, records that are protected by FERPA are not subject to the HIPAA Privacy Rule and may be shared with parents under the circumstances described above.

Your school’s Disability Services office normally obtains and maintains health records for each student who applies for services or waivers. So the receipt and maintenance of health records by student services units is well established.

Note: In most cases, a student receiving a waiver from a school’s academic progress policy would also have applied for services from your school’s Disability Services office. Since most financial aid offices are not used to handling medical records, you may find it more practical to have the Disability Services office maintain the record, and reference that record in your file in the financial aid office. (Of course, you will have to ensure that the record maintenance requirements are complied with.)

For more information on HIPPA, see the U.S. Department of Health & Human Services: www.hhs.gov/ocr/hipaa/  
HIPPA regulations are published as:  
45 CFR Parts 160, 162, and 164
THE E-SIGN ACT & INFORMATION SECURITY

The E-Sign Act permits lenders, guaranty agencies, and schools to use electronic signatures and electronic records in place of traditional signatures and records that, under the HEA and underlying regulations, otherwise must be provided or maintained in hard-copy format.

The E-Sign Act provides specifically for the creation and retention of electronic records. Therefore, unless a statute or regulation specifically requires a school to provide or maintain a record or document on paper, your school may provide and maintain that record electronically. Similarly, unless a statute or regulation specifically requires schools to obtain a pen and paper signature, you may obtain the signature electronically as long as the electronic process complies with the E-Sign Act and all other applicable laws.

Obtaining voluntary consent for electronic transactions

Before conducting electronic transactions to provide to a recipient of FSA funds, the recipient must affirmatively consent to the use of an electronic record. The recipient’s consent must be voluntary and based on accurate information about the transactions to be completed.

The consent must be obtained in a manner that reasonably demonstrates that the individual is able to access the information to be provided in an electronic form. For example, if you are going to send financial information by email, you could send a request for consent to the recipient via email, require the recipient to respond in a like manner, and maintain a record of that response.

Safeguarding confidential information in electronic processes

Any time a school uses an electronic process to record or transmit confidential information or obtain a student’s confirmation, acknowledgment or approval, the school must adopt reasonable safeguards against possible fraud and abuse. Reasonable safeguards a school might take include:

- password protection,
- password changes at set intervals,
- access revocation for unsuccessful log-ins,
- user identification and entry-point tracking,
- random audit surveys, and
- security tests of the code access.

If you use an electronic process to provide notices, make disclosures and direct students to a secure website, you must provide direct individual notice each year to each student that you are going to do so. You may provide the required notice through direct mailing to each individual through the U.S. Postal Service, campus mail, or electronically directly to an email address.

E-Sign Act

The Electronic Signatures in Global and National Commerce Act (E-Sign Act) was enacted on June 30, 2000. The E-Sign Act provides, in part, that a signature, contract, or other record relating to a transaction may not be denied legal effect, validity, or enforceability solely because it is in electronic form, or because an electronic signature or electronic record was used in its formation.

Disclosures via website

Subject to certain conditions, disclosure may be made through Internet or intranet sites. CFR 34 668.41(b) & (c)

Voluntary Consent Required

Voluntary consent to participate in electronic transactions is required for all financial information provided or made available to student loan borrowers, and for all notices and authorizations to FSA recipients required under 34 CFR 668.165—Notices and Authorizations. See Volume 4 for more information on notices and authorizations for disbursements.

Using electronic processes for notifications & authorizations

So long as there are no regulations specifically requiring that a notification or authorization be sent via U.S. mail, a school may provide notices or receive authorizations electronically. You may also use an electronic process to provide required notices and make disclosures by directing students to a secure website that contains the required notifications and disclosures.

For additional information on electronic transactions involving student loans, see Section 2 of Standards for Electronic Signatures in Electronic Student Loan Transactions, in GEN-01-06, May 2001.
The annual individual notice must—

- identify the information required to be disclosed that year,
- provide the exact Inter- or intranet address where the information can be found,
- state that, upon request, individuals are entitled to a paper copy, and
- inform students how to request a paper copy.

**Establishing & maintaining an information security program**

The Federal Trade Commission has ruled that most colleges are subject to the provisions of the Financial Services Act’s Security Provisions (also known as the Financial Services Modernization Act). In the regulation, the commission created a definition of financial institutions that includes most colleges on the basis of the financial relationships they have with students, donors, and others. Consequently, colleges must draft detailed policies for handling financial data covered by the law, such as parents’ annual income, and must take steps to protect the data from falling into the wrong hands.

Financial institutions, including postsecondary institutions, are required to have adopted an information security program by May 23, 2003, under the FTC rule. For specific requirements, see the box on “FTC Standards for Safeguarding Customer Information” on the following pages.

Thus, while schools have maximum flexibility in choosing a system that provides for electronic requests for release of personally identifiable information, they must ensure that their systems provide adequate safeguards.

**Information security requirements**

- Federal Trade Commission regulations: 16 CFR 313.3(n) and 16 CFR 314.1–5
- Financial Services Modernization Act of 1999 (also known as the Gramm-Leach-Bliley Act or GLB Act)
  - Pub. L. No. 106-102
  - Sections 501 and 505(b)(2)
  - 15 USC 6801(b), 6805(b)(2)

**Effective dates**

Your school was required to implement an information security program that meets these requirements no later than May 23, 2003.

The FTC regulations include a “grandfathering” provision for contracts made with nonaffiliated third parties to perform services for your school or functions on your school’s behalf; this provision expired on May 24, 2004.

**Reporting security breaches to students and ED**

Schools are strongly encouraged to inform their students and the Department of any breaches of security of student records and information. The Department considers any breach to the security of student records and information as a demonstration of a potential lack of administrative capability.
FTC Standards for Safeguarding Customer Information

Postsecondary educational institutions participating in the FSA programs are subject to the information security requirements established by the Federal Trade Commission (FTC) for financial institutions.

Customer information that must be safeguarded

These requirements apply to all customer information in your school’s possession, regardless of whether such information pertains to students, parents, or other individuals with whom your school has a customer relationship, or pertains to the customers of other financial institutions that have provided such information to you.

Customer information means any record containing nonpublic personal information (see definition) about a customer of a financial institution, whether in paper, electronic, or other form, that is handled or maintained by or on behalf of you or your affiliates.

* Definition of “nonpublic personal information”: Personally identifiable financial information; and any list, description, or other grouping of consumers (and publicly available information pertaining to them) that is derived using any personally identifiable financial information that is not publicly available.

Establishing & maintaining an information security program

As a financial institution covered under these information security requirements, your school must develop, implement, and maintain a comprehensive information security program.

* Definition of “information security program”: the administrative, technical, or physical safeguards you use to access, collect, distribute, process, protect, store, use, transmit, dispose of, or otherwise handle customer information.

The information security program must be written in one or more readily accessible parts and contain administrative, technical, and physical safeguards that are appropriate to the size and complexity of the school, the nature and scope of its activities, and the sensitivity of any customer information at issue.

The safeguards shall be reasonably designed to achieve the following objectives:

• Insure the security and confidentiality of customer information,
• Protect against any anticipated threats or hazards to the security or integrity of such information, and
• Protect against unauthorized access to or use of such information that could result in substantial harm or inconvenience to any customer.

Sources:
FTC regulations: 16 CFR 313.3(n) and 16 CFR 314.1–5
Gramm-Leach-Bliley Act: Sections 501 and 505(b)(2)
U.S. Code: 15 USC 6801(b), 6805(b)(2)

Required elements of an information security program

Designated coordinators. Your school must designate an employee or employees to coordinate its information security program.

Risk Assessment. Your school must identify reasonably foreseeable internal and external risks to the security, confidentiality, and integrity of customer information that could result in the unauthorized disclosure, misuse, alteration, destruction, or other compromise of such information, and assess the sufficiency of any safeguards in place to control these risks.

At a minimum, the school’s risk assessment should include consideration of risks in each relevant area of your operations, including:

• Employee training and management,
• Information systems, including network and software design, as well as information processing, storage, transmission, and disposal, and
• Detecting, preventing, and responding to attacks, intrusions, or other systems failures.

Safeguards & Testing/Monitoring. Your school must design and implement information safeguards to control the risks you identify through risk assessment, and regularly test or otherwise monitor the effectiveness of the safeguards’ key controls, systems, and procedures.

Evaluation & Adjustment. Your school must evaluate and adjust its information security program in light of the results of the required testing and monitoring, as well as for any material changes to your operations or business arrangements or any other circumstances that it has reason to know may have a material impact on your school’s information security program.

Overseeing service providers. A service provider is any person or entity that receives, maintains, processes, or otherwise is permitted access to customer information through its provision of services directly to your school. Your school must take reasonable steps to select and retain service providers that are capable of maintaining appropriate safeguards for the customer information at issue and require your service providers by contract to implement and maintain such safeguards.
PREVENTING COPYRIGHT VIOLATIONS

A school must implement written plans to effectively combat the unauthorized distribution of copyrighted material by users of the school’s network, without unduly interfering with educational and research use of the network.

These plans must include the use of one or more technology-based deterrents, and must include procedures for handling unauthorized distribution of copyrighted material (including disciplinary procedures). No particular technology measures are favored or required for inclusion in the school’s plans, and each school retains the authority to determine its own plans, including those that prohibit content monitoring.

The school’s plans must also include measures to educate its community about appropriate versus inappropriate use of copyrighted material, including the information described under the student consumer information rules in Chapter 6. These mechanisms may include any additional information and approaches that the school determines will contribute to the effectiveness of the plans. For instance, the school might include pertinent information in student handbooks, honor codes, and codes of conduct in addition to email and/or paper disclosures.

The school must have a written plan for the periodic review of the effectiveness of these measures, using relevant assessment criteria.

The school must, in consultation with its chief technology officer (or other designated officer)—

- periodically review the legal alternatives for downloading or otherwise acquiring copyrighted material (and disseminate the results, as described in Chapter 6).
- offer legal alternatives for downloading or otherwise acquiring copyrighted material (to the extent practicable and as determined by the school).

The Department anticipates that individual institutions, national associations, and commercial entities will develop and maintain up-to-date lists that may be referenced for compliance with this provision.

---

**Copyright requirements**

Program Participation Agreement
34 CFR 668.14(b)(30)
See Chapter 6 for requirement to disseminate copyright policies.

**Examples of deterrents**

Technology-based deterrents include bandwidth shaping, traffic monitoring, accepting and responding to Digital Millennium Copyright Act (DMCA) notices, and commercial products designed to reduce or block illegal file sharing.

GEN-10-08
SAFETY REQUIREMENTS

Crime log

A school that participates in the FSA programs and has a campus police or security department must maintain a written, easily understood daily crime log. The log must list, by the date the crime was reported, any crime that was reported to the campus police or security department that occurred

- on campus,
- on a noncampus building or property,
- on public property, or
- within the police or security department’s patrol jurisdiction.

The crime log must include the nature, date, time, and general location of each crime and the disposition of the complaint, if known.

The school must make an entry or an addition to an entry to the log within two business days (Monday–Friday, except days when the school is closed) of the report of the information to the campus police or security department, unless that disclosure is prohibited by law or would jeopardize the confidentiality of the victim.

A school may withhold one or more of the required pieces of information if there is clear and convincing evidence that the release of the information would—

- jeopardize an ongoing criminal investigation or the safety of an individual,
- cause a suspect to flee or evade detection, or
- result in the destruction of evidence.

However, the school must disclose any information withheld for any of these reasons once the adverse effect is no longer likely to occur.

The school must make the crime log for the most recent 60-day period open to public inspection during normal business hours. The school must make any portion of the log older than 60 days available within two business days of a request for public inspection.
Policies on timely reporting of crimes

Schools must have policies that encourage complete timely reporting of all crimes to the campus police and appropriate law enforcement agencies.

Fire safety

A school that has any on-campus student housing facility must maintain a written, easily understood log that records, by the date that the fire was reported, any fire that occurred in an on-campus student housing facility. This log must include the nature, date, time, and general location of each fire.

The school must:

- make an entry or an addition to an entry to the log within two business days of the receipt of the information,
- make the fire log for the most recent 60-day period open to public inspection during normal business hours, and
- make any portion of the log older than 60 days available within two business days of a request for public inspection.

A school must annually submit a copy of the fire safety statistics to the Department (see “Annual campus security and fire safety reports” in the next section) and include the fire safety statistics in its annual report to the campus community (see Chapter 6).

Missing persons procedures—private right of action

The requirements for a school to establish missing persons procedures do not provide a private right of action to any person to enforce a provision of the subsection or create a cause of action against any institution of higher education or any employee of the institution for any civil liability.

Students must be advised that—

- their contact information will be registered confidentially, that this information will be accessible only to authorized campus officials, and that it may not be disclosed, except to law enforcement personnel in furtherance of a missing person investigation;

Definitions

On-campus student housing facility—a dormitory or other residential facility for students that is located on a school’s campus.

Campus—any building or property owned or controlled by an institution within the same reasonably contiguous geographic area and used by the institution in direct support of, or in a manner related to, the institution’s educational purposes, including residence halls.

Missing persons procedures

A school that provides on-campus student housing facility must establish a missing student notification policy and include a description of its policy in its Annual Security Report to the campus community (see Chapter 6). The notification policy must—

- include a list of titles of the persons or organizations to which students, employees, or other individuals should report that a student has been missing for 24 hours;
- require that any missing student report must be referred immediately to the school’s police or campus security department (if the school doesn’t have such a department, it must refer the report to the local law enforcement agency that has jurisdiction in the area); and
- include an option for each student to identify a contact person or persons whom the school shall notify within 24 hours of a determination (by the school’s police or campus security department, or the local law enforcement agency) that the student is missing.

Effective date: August 14, 2008

Vol. 2—School Eligibility and Operations, 2011–2012
• if they are under 18 years of age and not emancipated, the school must notify a custodial parent or guardian within 24 hours of the determination that the student is missing, in addition to notifying any additional contact person designated by the student; and

• the school will notify the local law enforcement agency within 24 hours of the determination that the student is missing, unless the local law enforcement agency was the entity that made the determination that the student is missing.

When a student who resides in an on-campus student housing facility is determined to have been missing for 24 hours, the school must within 24 hours notify:

• the contact person (if the student has designated one), and

• the student’s custodial parent or guardian (if the student is less than 18 years old and is not emancipated).

In all cases, the school must inform the local law enforcement agency that has jurisdiction in the area within 24 hours that the student is missing.

Emergency response & evacuation

A school must develop emergency response and evacuation procedures, and include a description of its procedures in its Annual Security Report to the campus community (see Chapter 6).

A school must develop procedures to immediately notify the campus community upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on the campus.

At a minimum, schools must have procedures to—

• confirm that a significant emergency or dangerous situation (as described above) exists;

• determine the appropriate segment or segments of the campus community to receive a notification, the content of the notification; and to initiate the notification system;

• disseminate emergency information to the larger community; and

• test the emergency response and evacuation procedures on at least an annual basis, including announced or unannounced tests.

The school must compile a list of the titles of those persons or organizations responsible for determining whether an emergency or dangerous situation exists and who are authorized to initiate the notification process, and include this information in the annual report.

Publicizing procedures

The school must publicize its emergency response and evacuation procedures in conjunction with at least one test per calendar year. The school must document each test with a description of the exercise, stating the date and time, and indicating whether it was announced or unannounced.

Definition of “test”

Regularly scheduled drills, exercises, and appropriate followthrough activities, designed for assessment and evaluation of emergency plans and capabilities.

Crimes to be reported to campus community

34 CFR 688.46(c)(1)
(i) Criminal homicide:
  (A) Murder and nonnegligent manslaughter.
  (B) Negligent manslaughter.
(ii) Sex offenses:
  (A) Forcible sex offenses.
  (B) Nonforcible sex offenses.
(iii) Robbery.
(iv) Aggravated assault.
(v) Burglary.
(vi) Motor vehicle theft.
(vii) Arson.
(viii) (A) Arrests for liquor law violations, drug law violations, and illegal weapons possession.
(B) Persons not included in paragraph (c)(1)(viii)(A) of this section, who were referred for campus disciplinary action for liquor law violations, drug law violations, and illegal weapons possession.

34 CFR 688.46(c)(3)
An institution must report, by category of prejudice, the following crimes reported to local police agencies or to a campus security authority that manifest evidence that the victim was intentionally selected because of the victim’s actual or perceived race, gender, religion, sexual orientation, ethnicity, or disability:
(i) Any crime it reports pursuant to paragraph (c)(1) through (vii) of this section.
(ii) The crimes of larceny-theft, simple assault, intimidation, and destruction/damage/vandalism of property.
(iii) Any other crime involving bodily injury.

Definition of “test”
In the event of an emergency or dangerous situation, a school must, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

**Timely warning & emergency notification**

A school must, in a manner that is timely and will aid in the prevention of similar crimes, report to the campus community on crimes that are—

- included in campus crime statistics, such as arson, robbery, burglary, motor vehicle theft, aggravated assault, criminal homicides, and sex offenses (see full listing in sidebar), or
- reported to local police agencies or to campus security authorities (as identified under the school’s statement of current campus policies), and
- considered by the school to represent a threat to students and employees.

A school is not required to provide a timely warning with respect to crimes reported to a pastoral or professional counselor.

If there is an immediate threat to the health or safety of students or employees occurring on campus, a school must follow its emergency notification procedures. A school that follows its emergency notification procedures is not required to issue a timely warning based on the same circumstances; however, the school must provide adequate follow-up information to the community as needed.

**REPORTING CAMPUS DATA TO ED**

**Completion, graduation, & transfer rates (Student Right-to-Know)**

Each year, a school must prepare the completion or graduation rate of its certificate- or degree-seeking, first-time, full-time undergraduate students. Your school must report its completion or graduation rates every spring to the Department through the IPEDS website (see sidebar).

If the school’s mission includes providing substantial preparation for students to enroll in another eligible school, it must also prepare the transfer-out rate of its certificate- or degree-seeking, first-time, full-time undergraduate students.

The annual rates are based on the 12-month period that ended August 31st of the prior year. The rates will track the outcomes for students for whom 150% of the normal time for completion or graduation has elapsed. Normal time is the amount of time necessary for a student to complete all requirements for a degree or certificate according to the institution’s catalog. This is typically four years for a bachelor’s degree in a standard term-based institution, two years for an associate degree in a standard term-based institution, and the various scheduled times for certificate programs. (See the IPEDS instructions for further details on calculating the rate.)

**Definitions**

*Undergraduate students*—For purposes of §§668.45 and 668.48 [completion and graduation rates for students and student athletes] only, means students enrolled in a bachelor’s degree program, an associate degree program, or a vocational or technical program below the baccalaureate.

*Certificate or degree-seeking student*—a student enrolled in a course of credit who is recognized by the institution as seeking a degree or certificate.

**College Navigator site**

Note that your school’s graduation rates are displayed on the IPEDS College Navigator site. http://nces.ed.gov/collegenavigator/

**Optional calculations**

In addition to calculating the completion or graduation rate as described, a school may, but is not required to—

1. Calculate a completion or graduation rate for students who transfer into the school;
2. Calculate a completion or graduation rate for students described in paragraphs (d)(1)(i) through (iv) of this section; and
3. Calculate a transfer-out rate, even if the school determines that its mission does not include providing substantial preparation for its students to enroll in another eligible school.

**Reporting rates to IPEDS**

The graduation, completion, and transfer-out rates are reported through the Department’s Integrated Postsecondary Education Data System (IPEDS) Web site. The IPEDS survey is conducted by the National Center for Education Statistics (NCES). Information on NCES and IPEDS is available at http://www.nces.ed.gov/IPEDS

Survey forms, instructions, FAQs, worksheets, and other information are posted at: ncies.ed.gov/ipeds/web2000/springdataitems.asp

Information can only be reported to this system by the school designated “keyholder.” Schools may change keyholders at any time during the year by contacting

Jan Plotczyk
202-502-7459
IPEDS Universe Coordinator
Rm. 8122 1990
K Street NW
Washington DC 20006

Note that your school’s graduation rates are displayed on the IPEDS College Navigator site. http://nces.ed.gov/collegenavigator/
Completion, graduation & transfer-out rates for student-athletes

Schools that participate in an FSA program and offer athletically related student aid must use the IPEDS Web survey to provide information on completion or graduation rates, transfer-out rates, if applicable, and other statistics for students who receive athletically related student aid.

The definition of athletically related student aid used here is the same definition that is also used for the Equity in Athletics Disclosure Act (EADA) disclosure requirements (as discussed in the next section). The definitions of certificate- or degree-seeking students, first-time undergraduate students, undergraduate students, and normal time are the same as those used for the calculation of completion or graduation and transfer-out rates for a school’s general student body cohort (also discussed above).

In addition to the completion rates and transfer-out rates, schools must report

- the number of students, categorized by race and gender, who attended the school during the year prior to the submission of the report, and
- within each sport—the number of those attendees who received athletically related student aid, categorized by race and gender.

Equity in Athletics (EADA) report

Any coeducational institution of higher education that participates in an FSA program and has an intercollegiate athletic program must prepare an annual EADA report. Officially, it is The Report on Athletic Program Participation Rates and Financial Support Data. It is commonly referred to as the EADA Report.

A school must submit its Equity in Athletics report to the Department via the EADA Survey website annually, within 15 days of making it available to students, prospective students, and the public.

The school’s EADA report must include information on—

- the number of male and female full-time undergraduate students that attended the school (undergraduate students are those who are consistently designated as such by the school),
- the total amount and ratio of athletically related student aid awarded to male athletes compared to female athletes,
- the expenses incurred by the school for men’s and women’s sports,
- total annual revenues for men’s or women’s sports,
- the annual school salary of non-volunteer head coaches and assistant coaches for men’s and women’s teams,
- for each varsity team in intercollegiate competition, the number and gender of participants and coaches, operating expenses, etc.

For specific categories and reporting rules, please see the EADA User’s Guide for the online survey.

Equity in Athletics Disclosure Act (EADA)

Equity in Athletics Disclosure Act (EADA) of 1994
HEA Section 485(e) and (g)
20 USC 1092
34 CFR 668.41(g)
34 CFR 668.47

Reporting EADA data to ED

Schools report their EADA data on the Web at the Athletic Disclosure website:
http://surveys.ope.ed.gov/athletics

Note that a password and user ID are required for use of this website. They are sent by the Department to the chief administrator at the school. For help with this site, contact:
eadahelp@westat.com

FSA HB NOV 2011 2–147
**Handbook for Campus Crime Reporting**

To assist schools in fully complying with the Crime Awareness and Security Act of 1990, the Department has developed *The Handbook for Campus Safety and Security Reporting*. The handbook defines the categories of crime and procedures for reporting them, as well as the requirements for timely warnings and maintenance of a daily crime log. The Handbook is available at: www.ed.gov/admins/lead/safety/campus.html

**Reporting campus crime & fire safety information**

Each year in the late summer, the Department sends a letter and a certificate to the school's president or chief executive officer. The certificate includes the User ID and password needed to access the Campus Safety and Security Survey website. https://surveys.ope.ed.gov/security/

**Reporting on gainful employment programs**

34 CFR 668.6
34 CFR 668.8(c)(3) and (d)
GEN 11-10 (April 20, 2011)

Schools may use the NSLDS Professional Access website to report required gainful employment data to the U.S. Department of Education. Technical details are provided in the NSLDS Gainful Employment Users Guide.

While the regulations provide that the deadline for institutions to report GE Program information for the 2006–2007 through 2009–2010 award years is October 1, 2011, the August 2 Federal Register notice provides that the Department will continue to accept information from these earlier award years through November 15, 2011, the same date as the reporting date for the 2010–2011 award year.

See Gainful Employment Electronic Announcements #13, #14, #15, and #18 for more information on reporting Gainful Employment information through SAIG and NSLDS.

Continuing updates on this topic will be posted on the Gainful Employment Information Page on IFAP.

---

**Annual submission of campus security & fire safety statistics**

A school must use the Campus Safety and Security Survey website to submit the crime statistics that are documented in the crime log described earlier in this chapter.

A school that maintains any on-campus student housing facility must also submit annual fire safety statistics to the Department. The report must include statistics on the number and causes of fires, as well as fire-related injuries, death, and property damage for each on-campus student housing facility during the three most recent calendar years for which data are available.

The fire safety statistics will be due at the same time as the crime statistics. Please visit the Campus Safety and Security Survey website for a detailed explanation of how campus crime and fire safety statistics are to be tabulated.

**INFORMATION FOR GAINFUL EMPLOYMENT PROGRAMS**

Schools must report to the Department certain information about all of its students who enrolled in gainful employment programs, regardless of whether a student received FSA funds.

Schools will use the existing Enrollment Reporting Process to submit the gainful employment program information to the Department. This is the reporting system currently used by schools to submit enrollment information to the National Student Loan Data System (NSLDS).

The Enrollment Reporting data format will be modified to include the additional data items needed for gainful employment reporting. For information on the current process, see the October 2009 edition of the Enrollment Reporting Guide. Further information will be posted to the IFAP website as it becomes available.

**Information to be reported to ED**

The Department is still finalizing the complete list of data items that schools will report, but you can view the preliminary list attached to GEN 11-10.

The regulations list the following information to be reported for each student who enrolled in a gainful employment program during an award year—

- information needed to identify the student and the postsecondary institution the student attended; and

- if the student began attending a program during the award year, the name and the Classification of Instructional Program (CIP) code of that program.

However, you should not report students for whom your school does not have a Social Security Number (SSN).
If the student completed a program during the award year, you must also report—

• the name and CIP code of that program, and the date the student completed the program;

• the amounts the student received from private education loans and the amount from institutional financing plans that the student owes the institution upon completing the program; and

• whether the student matriculated to a higher credentialed program at the school or if available, evidence that the student transferred to a higher credentialed program at another school.

The school must report for each gainful employment program, by name and CIP code, the total number of students that are enrolled in the program at the end of each award year and identifying information for those students.

Time frame for reporting

The first reports must be submitted to the Department no later than November 15, 2011, and must include information on students who were enrolled in a gainful employment program during the—

• 2007–08 through 2009–10 award years;

• the 2006–07 award year (to the extent that the information is available)

The Department will publish deadline dates in the Federal Register for information to be reported for subsequent award years.

For any award year, if the school is unable to provide all or some of the required information, it must provide an explanation of why the missing information is not available (see the box on the next page).
Submitting Explanations of Missing or Incomplete Data

If your school is not able to report the required information about students who were enrolled in any of its gainful employment programs, it must provide an explanation of the reason(s) why the information cannot be reported.

The following is a list of circumstances that require such an explanation:

• The institution has no GE Programs.
• The GE Program was eligible for the FSA programs in the 2010–2011 award year, but was not eligible in one or more of the award years between 2006–2007 and 2010–2011.
• The institution is a foreign school and will not be reporting for a GE Program because there were fewer than 10 students enrolled in the program in the relevant award year. Note: Domestic institutions must report for all GE Programs, regardless of the number of students who were enrolled.
• The institution is unable to report for one or more of the required award years (2006–2007 through 2010–2011).
• The institution is unable to report for one or more of its GE Programs.
• The institution is unable to report for one or more of the students who were enrolled in a GE Program.
• The institution is unable to report all of the information required for each student who was enrolled in a GE Program in the required award years (2006–2007 through 2010–2011).
• Any other circumstance where the institution is unable to meet the regulatory reporting requirements by the established timelines for reporting.

How to submit explanations of missing or incomplete Information

The required explanation(s) of missing or incomplete GE Program information must be submitted by an institution in an e-mail sent to GE-Missing-Data@ed.gov.

• Subject Line of e-mail—To ensure a timely review of each explanation, we request that the “subject” line of the e-mail include the first 6 digits of the institution’s OPEID and the institution’s name. For example, if North South University’s six digit OPEID is “012345”, the subject line would read 012345–North South University.
• Body of e-mail—At the top of the body of the e-mail, please provide the name, phone number, and e-mail address of a contact person at the institution. This is the person we will contact if we have any questions on the missing or incomplete data explanation provided.
• Following the contact information, the e-mail should provide the explanation of why the information will not be provided or will be incomplete. Be certain to indicate the award year and the specific GE Program identifiers (the institution’s name of the GE Program and the GE Program’s six-digit CIP code and its two-digit credential level code). (See NSLDS User’s Guide, page 45). For example, “We are unable to submit data for the ABC Program 191234-01 for the 2006–2007 Award Year because . . .”

Please do not attach any documents to the e-mail. Upon review of the explanation, Department staff will be contact the institution if additional information is needed.

Data that must be excluded from the email

The e-mail message to GE-Missing-Data@ed.gov must not include the following:
• Students’ personally identifiable information—(e.g., Name, Social Security Number or other identifying number, or Date of Birth)
• File attachments (e.g., a Word or PDF document or Excel spreadsheet)
• Questions about gainful employment regulations or policy. If the institution has questions about gainful employment requirements, please send an e-mail to ge-questions@ed.gov.
• Technical questions about gainful employment reporting. If the institution has technical questions about using the National Student Loan Data System to report gainful employment information, please send an e-mail to nsldsge@ed.gov.

Deadline for submitting explanations of missing/incomplete data

Consistent with the regulatory reporting dates, institutions must submit any missing or incomplete information explanations no later than October 1, 2011.

Important Note: GE Electronic Announcement #15 explained that the Department will continue to accept GE Program information from institutions through November 15, 2011. However, as noted above, explanations of missing or incomplete GE Program information must be submitted by October 1, 2011.

Acknowledgement from ED

An auto-response message will be returned acknowledging receipt of the e-mail. This auto-response e-mail is not an approval. Submissions will be evaluated and institutions will either be asked for additional information or will receive an approval or denial of the explanation. This e-mail will be directed to the person identified in the email as the contact person.
Federal law requires most 2-year and 4-year postsecondary schools (whether or not the school is eligible to participate in the FSA programs) to report

- ownership or control by foreign sources.
- contracts with or gifts from the same foreign source that, alone or combined, have a value of $250,000 or more for a calendar year.

**Who must report**

A school (and each campus of a multicampus school) must report this information if the school—

- is legally authorized to provide a program beyond the secondary level within a state,
- provides a program that awards a bachelor’s degree or a more advanced degree, or provides at least a two-year program acceptable for full credit toward a bachelor’s degree,
- is accredited by a nationally recognized accrediting agency, and
- is extended any federal financial assistance (directly or indirectly through another entity or person) or receives support from the extension of any federal financial assistance to the school’s subunits.

**Timing and content of submission**

A school must report this information by January 31 or July 31 (whichever is sooner) after the date of receipt of the gifts, date of the contract, or date of ownership or control. The January 31 report should cover the period July 1–December 31 of the previous year, and the July 31 report should cover January 1–June 30 of the same year.

**Information to be reported**

Using the E-App, you must report the following information in Section K, question 71:

- for gifts received from or contracts entered into with a foreign government, the name of the country and the aggregate amount of all gifts and contracts received from each foreign government;
- for gifts received from or contracts entered into with a foreign source other than a foreign government, the name of the foreign state to which the contracts or gifts are attributable and the aggregate dollar amount of the gifts and contracts attributable to a particular country (The country to which a gift or a contract is attributable is the country of citizenship or, if unknown, the principal residence for a foreign source who is a natural person and the country of incorporation or, if unknown, the principal place of business for a foreign source that is a legal entity); and
- in the case of a school that is owned or controlled by a foreign entity—the identity of the foreign entity, the date on which the

**Where to report foreign gift information**

Foreign gift, contract, and ownership or control reports must be submitted to the FSA School Participation Teams using FSA’s electronic application (E-App) found at www.eligcert.ed.gov.

Go to Section K, Question 71, and enter the appropriate information about the foreign gift, contract, or ownership and control, then go to Section L to complete the signature page. You may then submit your report.

**Foreign gifts references**

Higher Education Act: Sec. 117
Reminder to schools of requirements for reporting foreign gifts.

**Definitions**

A foreign source is
- a foreign government, including an agency of a foreign government;
- a legal entity created solely under the laws of a foreign state or states;
- an individual who is not a citizen or national of the United States; and
- an agent acting on behalf of a foreign source.

A gift is any gift of money or property.

A contract is any agreement for the acquisition by purchase, lease, or barter of property or services for the direct benefit or use of either of the parties.

A restricted or conditional gift or contract is any endowment, gift, grant, contract, award, present, or property of any kind that includes provisions regarding
- the employment, assignment, or termination of faculty;
- the establishment of departments, centers, research or lecture programs, or new faculty positions;
- the selection or admission of students; or
- the award of grants, loans, scholarships, fellowships, or other forms of financial aid restricted to students of a specified country, religion, sex, ethnic origin, or political opinion.
foreign entity assumed ownership or control, and a description of any substantive changes to previously reported ownership or control, or institutional program or structure resulting from the change in ownership or control,

- for restricted or conditional gifts received from, or restricted or conditional contracts entered into with a foreign government—the name of the foreign country, the amount of the gift or contract, the date of the gift or contract, and a description of the conditions or restrictions,

- for restricted or conditional gifts received from or restricted or conditional contracts entered into with a foreign person—the citizenship (or if unknown, the principal residence) of that person, the amount of the gift or contract, the date of the gift or contract, and a description of the conditions and restrictions, and

- for restricted or conditional gifts received from or restricted or conditional contracts entered into with a foreign source (legal entity other than a foreign state or individual—the country of incorporation or, if unknown, the principal place of business for that foreign entity), the amount of the gift or contract, date of the gift or contract, and a description of the conditions and restrictions.

Any conditions or restrictions on the foreign gift must be reported in question 69.

Once you’ve entered the appropriate information about the foreign gift, contract, or ownership and control, then go to Section L to complete the signature page. You may then submit your report.

Alternative reporting
In lieu of the reporting requirements listed above:

- If a school is in a state that has substantially similar laws for public disclosure of gifts from, or contracts with, a foreign source, a copy of the report to the state may be filed with the Department. The school must provide the Department with a statement from the appropriate state official indicating that the school has met the state requirements.

- If another department, agency, or bureau of the executive branch of the federal government has substantially similar requirements for public disclosure of gifts from, or contracts with, a foreign source, the school may submit a copy of this report to the Department.

**ANTI-LOBBING PROVISIONS**

**Prohibition on use of FSA funds**

HEOA 2008 section 119
(no corresponding HEA section)
Effective date: August 14, 2008

FSA funds may not be used to pay any person for trying to influence

- a member of Congress or an employee of a member of Congress, or

- an officer or employee of Congress or any agency.
This prohibition applies to the making of a federal grant or loan, awarding federal contracts, and entering into federal cooperative agreements, as well as to the extension, continuation, renewal, amendment, or modification of a federal contract, grant, loan, or cooperative agreement.

In addition, FSA funds may not be used to hire a registered lobbyist or to pay any person or entity for securing an earmark. Schools receiving FSA funds will have to certify their compliance with these requirements annually.

**Campus-based disclosure**

If a school that receives more than $100,000 in Campus-Based funds has used nonfederal funds to pay any person for lobbying activities in connection with the Campus-Based programs, the school must submit a Disclosure Form (Standard Form LLL) to the Department. The school must update this disclosure at least quarterly and when changes occur.

The disclosure form must be signed by the Chief Executive Officer (CEO) or other individual who has the authority to sign on behalf of the entire school. A school is advised to retain a copy in its files.

The school must require that this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

**PROGRAMS TO PREVENT DRUG & ALCOHOL ABUSE**

Every school that participates in the FSA programs must have a drug and alcohol prevention program for its students and staff, as described below. A school that receives Campus-Based funding must also have a drug prevention program for its employees.

**Drug & alcohol abuse prevention program**

Every participating school must certify that on the date it signs the Program Participation Agreement, it has a drug and alcohol abuse prevention program in operation that is accessible to any officer, employee, or student at the school. The program adopted by the school must include an annual distribution to all students, faculty, and staff of information concerning drug and alcohol abuse and the school’s prevention program.

A school must review its program once every two years to determine its effectiveness and to ensure that its sanctions are being enforced. As a part of this biennial review, the school must determine—

- the number of drug and alcohol-related violations and fatalities that occur on a school’s campus, or as part of any of the school’s activities and are reported to campus officials; and
- the number and type of sanctions that are imposed by the school as a result of drug and alcohol-related violations and fatalities on the school’s campus or as part of any of the school’s activities.

If a school does not certify that it has a prevention program or fails to carry out a prevention program, the Department may terminate any or all FSA programs to which the school is participating.

**Anti-Lobbying Certification & Disclosure**

As a result of that legislation, the Office of Management and Budget (OMB) issued interim final common regulations on February 26, 1990, for implementing and complying with the law. See 34 CFR Part 82.

**ACA may not be used for association membership**

A school may not use its Administrative Cost Allowance to pay for its membership in professional associations (such as the National Association of Student Financial Aid Administrators, the National Association of College and University Business Officers, etc.), regardless of whether the association engages in lobbying activities.

**Drug & alcohol abuse prevention programs**

These requirements are found in 34 CFR 86—Drug and Alcohol Abuse Prevention. The regulations published in the Federal Register, August 16, 1990, offer a number of suggestions for developing a drug prevention program.

**Consequences of noncompliance**

The regulatory provisions for termination of federal aid to the school and repayment of federal funds received are found in 34 CFR 86.301.

**Measuring the effectiveness of prevention programs**

The effectiveness of a school’s prevention program may be measured by tracking the number of drug & alcohol-related

- disciplinary actions,
- treatment referrals, and
- incidents recorded by campus police or other law enforcement officials.

You may also find it useful to track the number of students or employees attending self-help or other counseling groups related to alcohol or drug abuse; and survey student, faculty, and employee attitudes and perceptions about the drug and alcohol problem on campus.
Drug-Free Workplace
The FSA requirements are derived from the 1989 Amendments to the Drug-Free Schools and Communities Acts of 1986 and 1988. See Public Law 101-226. Because a school applies for and receives its Campus-Based allocation directly from the Department, the school is considered to be a federal grant recipient and as such is required to make a good faith effort on a continuing basis to maintain a drug-free workplace. 34 CFR Part 84 Also see the Drug-Free Workplace Act of 1988 (Public Law 101-690)

Drug-Free Workplace requirements for Campus-Based schools
A school that participates in the Campus-Based programs must take certain steps to provide a drug-free workplace, including—

- establishing a drug-free awareness program to provide information to employees,
- distributing a notice to its employees of prohibited unlawful activities and the school’s planned actions against an employee who violates these prohibitions, and
- notifying the Department and taking appropriate action when it learns of an employee’s conviction under any criminal drug statute.

A school’s administrative cost allowance may be used to help defray related expenses, such as the cost of printing informational materials given to employees. The administrative cost allowance is discussed in Volume 6: Campus-Based Programs.

The drug-free workplace requirements apply to all offices and departments of a school that receives Campus-Based funds. Organizations that contract with the school are considered subgrantees not subject to the requirements of the Drug-Free Workplace Act.

VOTER REGISTRATION
Schools in most states and the District of Columbia must make a good faith effort to distribute voter registration forms to their students. (Schools in Idaho, Minnesota, New Hampshire, North Dakota, Wisconsin, and Wyoming are exempt from this requirement.) The school must make the voter registration forms widely available to its students. It must individually distribute the forms to its degree- or certificate-seeking (FSA-eligible) students.

The school can mail paper copies, or, alternatively, it may distribute voter registration forms by electronically transmitting to each student a message containing an acceptable voter registration form or an Internet address where that form can be downloaded. The electronic message must be devoted exclusively to voter registration.

In states where this condition applies, schools must request voter registration forms from the state 120 days prior to the state’s deadline for registering to vote. This provision applies to general and special elections for federal office and to the elections of governors and other chief executives within a state. If a school does not receive the forms within 60 days prior to the deadline for registering to vote in the state, it is not liable for failing to meet the requirement during that election year.

Applicability of voter registration requirement
The voter registration requirement was included in the National Voter Registration Act of 1993. In essence, if a participating school is located in a state that requires voter registration prior to election day and/or does not allow the ability to register at the time of voting, then the school must make a good faith effort to distribute voter registration forms to its students.

The Department of Justice has identified the states that meet this criteria—The requirements of the National Voter Registration Act of 1993 (also known as the “NVRA” or “motor voter law”) apply to 44 States and the District of Columbia. Six States (Idaho, Minnesota, New Hampshire, North Dakota, Wisconsin, and Wyoming are exempt from this requirement.) Likewise, the territories are not covered by the NVRA (Puerto Rico, Guam, Virgin Islands, American Samoa).

—From U.S. Department of Justice, “Questions and Answers” on “The Voter Registration Requirements of Sections 5, 6, 7 and 8 of the National Voter Registration Act.”
In this chapter we discuss program reviews conducted at schools, sanctions and corrective actions, and procedures for schools that are ending their participation in one or more of the FSA programs.

PROGRAM REVIEWS BY THE DEPARTMENT

One of the U.S. Department of Education’s functions is to oversee the FSA programs to help ensure that they are administered properly. The Department conducts program reviews to confirm that a school meets FSA requirements for institutional eligibility, financial responsibility, and administrative capability. A program review will identify compliance problems at the school and identify corrective actions.

If a school is cited in a program review for improperly disbursing FSA program funds, the school must restore those funds as appropriate. If a school is cited in a program review for other serious program violations, the school may be subject to corrective action and sanctions, such as fines, emergency action, or limitation, suspension, or termination discussed later in this chapter.

A program review covers many of the same areas as an audit (see Chapter 4), including fiscal operations and accounting procedures, as well as the school’s compliance with the specific program requirements for student eligibility and awards. However, program reviews are not conducted annually at every school. Priority is given to schools that meet certain criteria as specified in the law.

During a program review, Department reviewers evaluate the school’s compliance with FSA requirements, assess liabilities for errors in performance, and identify actions the school must take to improve its future administrative capabilities. The reviewers will:

- analyze the school’s data and records and identify any weaknesses in the school’s procedures for administering FSA funds;
- determine the extent to which any weaknesses in the school’s administration of FSA funds may subject students and taxpayers to potential or actual fraud, waste, and abuse;
- identify corrective actions that will strengthen the school’s future compliance with FSA rules and regulations;

FSA Assessments

To assess your school’s compliance with the provisions of this chapter see the FSA Assessment module for “Institutional Eligibility” (ifap.ed.gov/qahome/qaassessments/institutionalelig.html).
Program review priority

The Department gives priority in program reviews to schools that meet criteria specified in the law as follows:

- a school has a high cohort default rate or dollar volume of default;
- a school has a significant fluctuation in Pell Grant awards or FSA loan volume that is not accounted for by changes in the programs;
- a school is reported to have deficiencies or financial aid problems by the appropriate state agency or accrediting agency;
- a school has high annual dropout rates; and
- it is determined by the Department that the school may pose a significant risk of failing to comply with the administrative capability or financial responsibility requirements.

In addition, the Department is required to:

- establish guidelines designed to ensure uniformity of practice in the conduct of program reviews;
- make copies of all review guidelines and procedures available to all participating schools;
- permit schools to correct administrative, accounting, or recordkeeping errors if the errors are not part of a pattern and there is no evidence of fraud or misconduct; and
- inform the appropriate state and accrediting agency whenever it takes action against a school.

Scope of the review

A program review may be either a general assessment review, a focused review, or a compliance assurance review. A general assessment review is the most common type of review and is normally conducted to evaluate the school’s overall performance in meeting FSA administrative and financial requirements. A focused review is normally conducted to determine if the school has problems with specific areas of FSA program compliance. A compliance assurance review is a tool that is used to help validate the Department’s risk assessment system.

For general assessment, compliance assurance, and some focused reviews, the review team will identify students whose files will be reviewed. In general, a review sample consists of 15 randomly selected students from each award year under review. The academic file, student account ledger, student financial aid file, and the admissions file for each student in the review sample will be analyzed.

Reviewers will also examine school records that are not specific to individual students. These records include required policies and procedures, fiscal records, and consumer information (i.e. the school’s website, school catalog(s), pamphlets, etc.).

It may be necessary for the reviewer to conduct interviews with school officials including academic or education personnel or the registrar, admissions personnel, financial aid personnel, fiscal office personnel, placement officer, and/or campus security personnel. In addition, the reviewer may interview students.

Location of the review

Program reviews are typically conducted at the institution. However, in some circumstances institutions are asked to submit copies of selected records to the Department for review at its offices, and interviews are conducted via telephone rather than in person.

Notification of the review

Most reviews are announced up to 30 days prior to the review by a telephone call to the president and financial aid administrator. The school is also sent written notice of the review and is asked to provide relevant materials prior to the start of the review (e.g., policies and procedures, consumer publications, a list of FSA recipients, etc.). The school will also be expected to make other records available on-site at the start of the review. In some cases, notice for the review is given the day before the review (via overnight delivery or fax), the morning of the review (via fax), or at the time the review team arrives at the school.

Communication with state agencies

The Higher Education Amendments of 1998, Public Law 105-244, require that each state (through at least one state agency) must:

- furnish the Department, upon request, with information regarding licensing and other authorization for a school to operate in that state;
- promptly notify the Department of revocations of licensure or authorization; and
- promptly notify the Department of credible evidence that a school has committed fraud in the administration of the FSA programs or has substantially violated a provision of the HEA.

Department’s recognition of state agencies

Sec. 495 of the HEA
20 USC 1087–1(b)
34 CFR 603
Case Management & School Participation Teams

Case management is the Department’s approach to oversight of schools that participate in the FSA programs. School Participation Management conducts program reviews, reviews compliance audits and financial statements, reviews recertification applications, and provides the Department with a picture of a school’s overall compliance through the use of School Participation Teams.

FSA’s School Eligibility Service Group (SESG) coordinates the case management approach. School Participation Teams are staffed by personnel in the regions and in Washington, DC, and each is assigned a portfolio of schools. Each team is responsible for oversight functions for the schools in its portfolio. These functions include audit resolution, program reviews, financial statement analysis, initial eligibility and recertification, and method of payment.

The entire team will evaluate information on the school from a variety of sources to identify any compliance issues at the school. The team can then assess potential risk to the FSA programs and determine appropriate action. Once appropriate actions are decided upon, the case manager assigned to the school ensures that the recommended actions are taken.

School Participation Teams will collect and review information on a school from many sources including, but not limited to:

- applications for recertification,
- financial and compliance audits,
- state agencies,
- accrediting agencies and licensing boards,
- student complaints, and
- Department databases.

A School Participation Team may decide to take actions that include, but are not limited to:

- renewing full recertification or awarding only provisional certification;
- initiating a program review;
- establishing liabilities;
- developing a strategy for providing technical assistance,
- transferring the school to the cash monitoring or reimbursement payment method (see Volume 4: Processing Aid and Managing FSA Funds);
- requiring a letter of credit; and
- referring the school for an enforcement action.

Actions do not always have to be negative. For example, the School Participation Team can recommend a school for participation in the Quality Assurance Program.

Case management provides the additional benefit of permitting a school to contact one team that will have all information on the school available in one place. (For a list of phone numbers for the regional School Participation Teams, see the “Help” link on the IFAP website (http://ifap.ed.gov/).)
Schools are required to cooperate with the Department in the event of a program review and provide unrestricted access to any and all information requested to conduct the review. Failure to provide this access to the program review team may lead to an adverse administrative action.

**Entrance and exit/status conference**

The review team will hold an entrance conference with school officials at the beginning of the review. The purpose of the entrance conference is to provide school officials with information about the review and the program review process, and for reviewers to learn how Federal Student Aid is processed at the school.

The review team will hold an exit or status conference at the end of a program review. The purpose of the exit conference is to inform school officials about the next steps in the process, summarize preliminary findings, advise school officials of any immediate changes that must be made, and/or provide details of any remaining outstanding items. If the fieldwork is not complete or the data has not been fully analyzed, a status meeting is conducted. A return visit may be necessary or an exit conference may be conducted via telephone after further analysis is completed.

**Written report**

The program review team prepares a preliminary written report after completion of the review. In most instances, this report will be sent to the school within approximately 60 days of the review. The school may respond to this report if it wishes to offer additional information to support its position or if it disagrees with any of the report’s findings. When the Department has fully considered the school’s response and any additional documentation provided by the school, the Department will send a Final Program Review Determination (FPRD) letter to the school.

**Final Program Review Determination (FPRD)**

An FPRD is a report that includes each finding identified in the program review report, the school’s response, and the Department’s final determination. The FPRD may require the school to take further action to resolve one or more of the findings. This action may include making student level adjustments in COD and the G5 payment system, and paying liabilities to the Department, student, or lenders on behalf of the student.

Any funds the school owes as a result of the FPRD must be repaid within 45 days of the school’s receipt of the FPRD unless the school submits an appeal to the Department or enters into a payment plan with ED’s Financial Management Group. The cover letter of the FPRD provides instructions on how to file an appeal. If payment or an appeal is not received within 45 days, the Department may elect to use administrative offset to collect the funds owed.
The goal of accreditation is to ensure that education provided by postsecondary educational institutions meets an acceptable level of quality. The Department recognizes agencies that meet established criteria, and such recognition is a sign that an agency has been determined to be a reliable authority on the quality of the institutions or programs the agency accredits.

An accrediting agency can be recognized by the Department for institutional or programmatic accreditation. An institutional accreditation agency accredits an entire institution. A programmatic accrediting agency accredits specific educational programs, departments, or schools within an institution.

An agency must have standards that effectively address the quality of a school or program in the following areas:

- success with respect to student achievement in relation to mission, including, as appropriate, consideration of course completion, state licensing examination, and job placement rates;
- curricula;
- faculty;
- facilities, equipment, and supplies;
- fiscal and administrative capacity as appropriate to the specific scale of operations;
- student support services;
- recruiting and admissions practices, academic calendars, catalogs, publications, grading, and advertising;
- measures of program length and the objectives of the degrees or credentials offered;
- record of student complaints received by, or available to, the agency;
- record of compliance with the school's FSA program responsibilities, based on items such as default rate data and the results of compliance audits and program reviews and any other information that the Department may provide to the agency; and
- any additional accreditation standards the accrediting agency deems appropriate.

There are many additional statutory requirements a national accrediting agency must meet to qualify for recognition. For example, an accreditation agency must:

- consistently apply and enforce standards for accreditation that ensure that the education or training offered by an institution or program, including any offered through correspondence or telecommunications, is of sufficient quality to achieve its stated objectives for the duration of the school's accreditation period;
- perform, at regularly established intervals, on-site inspections and reviews of institutions of higher education (that may include unannounced site visits) with particular focus on educational quality and program effectiveness;
- agree to submit any dispute involving the final denial, withdrawal, or termination of accreditation to initial arbitration prior to any other legal action; and
- if it is an institutional accrediting agency, maintain adequate substantive change policies that ensure that any substantive change to the educational mission, program, or programs of an institution after an agency has accredited or preaccredited the institution does not adversely affect the capacity of the institution to continue meeting the agency's standards.

Information and a complete list of agencies recognized by the Department can be found at [www.ed.gov/admins/finaid/accred/index.html](http://www.ed.gov/admins/finaid/accred/index.html)

Department’s recognition of accrediting agencies
Sec. 496 of the HEA
20 USC 1099b
34 CFR 602
CORRECTIVE ACTIONS & SANCTIONS

Sanctions

Sanctions include emergency actions, fines, limitations, suspensions, and terminations (see descriptions on next page). The Department may initiate actions against any school that:

- violates the law or regulations governing the FSA programs, its Program Participation Agreement, or any agreement made under the law or regulations; or
- substantially misrepresents the nature of its educational programs, its financial charges, or its graduates’ employability. For details on misrepresentation, see Chapter 6.

In addition, the Department has the authority to terminate a school or program that no longer meets the eligibility criteria given in Chapter 1.

Similarly, the Department may also sanction a third-party servicer that performs functions related to the FSA programs. Further, the Department has the authority to sanction a group of schools or servicers if it finds that a person or entity with substantial control over all schools or servicers within the group has violated any of the FSA program requirements or has been suspended or debarred from program participation. (See Chapters 1 and 4.)

Criminal penalties

The law provides that any person who knowingly and willfully embezzles, misapplies, steals, obtains by fraud, false statement, or forgery, or fails to refund any funds, assets, or property provided or insured under Title IV of the Higher Education Act, or attempts to commit any of these crimes will be fined up to $20,000 or imprisoned for up to five years, or both. If the amount of funds involved in the crime is $200 or less, the penalties are fines up to $5,000 or imprisonment up to one year, or both.

Any person who knowingly and willfully makes false statements, furnishes false information, or conceals material information in connection with the assignment of an FSA program loan or attempts to do so, will, upon conviction, be fined up to $10,000 or imprisoned for up to one year, or both. This penalty also applies to any person who knowingly and willfully:

- makes, or attempts to make, an unlawful payment to an eligible lender of loans as an inducement to make, or to acquire by assignment, a loan insured under such part.
- destroys or conceals, or attempts to destroy or conceal, any record relating to the provision of FSA program assistance with intent to defraud the United States or to prevent the United States from enforcing any right obtained by subrogation under this part.
Corrective Actions & Sanctions

Emergency action
The Department may take an emergency action to withhold FSA program funds from a school or its students if the Department receives information, determined by a Department official to be reliable, that the school is violating applicable laws, regulations, special arrangements, agreements, or limitations. To take an emergency action, the Department official must determine that:

- The school is misusing federal funds.
- Immediate action is necessary to stop this misuse.
- The potential loss outweighs the importance of using established procedures for limitation, suspension, and termination.

The school is notified by registered mail (or other expeditious means) of the emergency action and the reasons for it. The action becomes effective on the date the notice is mailed.

An emergency action suspends the school’s participation in all FSA programs and prohibits the school from disbursing FSA program funds or certifying FFEL applications. The action may not last more than 30 days unless a limitation, suspension, or termination proceeding is initiated during that period. In that case, the emergency action is extended until the proceeding, including any appeal, is concluded. The school is given an opportunity to show cause that the action is unwarranted.

Suspension
A suspension removes a school from participation in the FSA programs for a period not to exceed 60 days (unless a limitation or termination proceeding has been initiated, or the Department and the school agree to an extension). A suspension action is used when a school can be expected to correct an FSA program violation in a short time.

Corrective action
As part of any fine, limitation, or suspension proceeding, the Department may require a school to take corrective action. This may include making payments to eligible students from its own funds or repaying illegally used funds to the Department. In addition, the Department may offset any funds to be repaid against any benefits or claims due the school.

Termination
A termination ends a school’s participation in the FSA programs. A school that has violated the law or regulations governing the FSA programs, its PPA, or any other agreement made under FSA regulations and was terminated from participating in the FSA programs generally may not apply to be reinstated for at least 18 months.

Possibility of reinstatement
A school requesting reinstatement in the FSA programs must submit a fully completed E-App to the Department and demonstrate that it meets the standards in 34 CFR Part 668. As part of the reinstatement process, the school must show that it has corrected the violation(s) on which its termination was based, including repaying all funds (to the Department or to the eligible recipients) that were improperly received, disbursed, caused to be disbursed, or withheld. The Department may approve the request, deny the request, or approve the request subject to limitations (such as granting the school provisional certification). If the Department approves the reinstatement request, the school will receive a new ECAR and enter into a new PPA.

Fine
The Department may fine a school up to $27,500 for each statutory or regulatory violation. In determining the amount of the fine, the Department considers the gravity of the offense, the nature of the violation, and the school’s size. The school is notified by certified mail of the fine action, the amount of the fine, and the basis for the action. A school has twenty days from the date of mailing to submit a written request for a hearing or to submit written material indicating why the fine should not be imposed.

Limitation
Under a limitation, the Department imposes specific conditions or restrictions upon a school as it administers FSA program funds. As a result, the school is allowed to continue participating in the FSA programs. A limitation lasts for at least 12 months. If the school fails to abide by the limitation’s conditions, a termination proceeding may be initiated.
CLOSEOUT PROCEDURES (WHEN FSA PARTICIPATION ENDS)

A school may stop participating in the FSA programs voluntarily or it may be required to leave involuntarily, as described below. In either situation, it must follow the closeout procedures specified in the FSA regulations.

Involuntary withdrawal from FSA participation

A school’s participation ends in the following circumstances:

- the school closes or stops providing instruction for a reason other than normal vacation periods or as a result of a natural disaster that directly affects the school or its students (see details on next page);
- the school loses its accreditation (see details on next page);
- the school loses its state licensure;
- the school loses its eligibility (see details on next page);
- the school’s PPA expires;
- the school’s participation is terminated under Subpart G;
- the school’s provisional certification is revoked by the Department;
- the school’s cohort default rate exceeds allowable limits; or
- the school files a petition for bankruptcy or the school, its owner, or its CEO is responsible for a crime involving FSA funds.

Closeout procedures when participation ends

In general, a school that ceases to be eligible must notify its School Participation Team within 30 days of its loss of eligibility to participate in the FSA programs.

The school must also comply with the following minimum requirements:

- within 45 days of the effective ending date of participation, submit to the Department all financial reports, performance reports, and other reports, as well as a dated letter of engagement for an audit by an independent certified public accountant of all FSA program funds received. The completed audit report must be submitted to the Department within 45 days after the date of the letter of engagement.
- report to the Department on the arrangements for retaining and storing (for the remainder of the appropriate retention period described in Chapter 7) all records concerning the school’s management of the appropriate FSA programs.
- tell the Department how the school will provide for collecting any outstanding FSA loans held by the school.
- refund students’ unearned FSA student assistance. (See Volume 5, Chapter 2.)

In addition, a school that closes must refund to the federal government or, following written instructions from the Department, otherwise distribute
End of FSA participation

School closes or stops providing instruction
If the school closes its main campus or stops providing instruction on its main campus, its loss of eligibility includes all its locations and programs.

If a school ceases to provide educational instruction in all FSA-eligible programs, the school should make arrangements for its students to complete their academic programs. If the school chooses to enter into a formal teachout arrangement, the school should contact the appropriate School Participation Team for guidance.

School loses eligibility
A school loses its eligibility to participate in the FSA programs when it no longer meets the requirements of 34 CFR Part 600, certain requirements of Part 668, or when the Department terminates the school under Subpart G of the General Provisions.

Voluntary withdrawal from FSA participation
For any number of reasons, a school may voluntarily withdraw from participating in one or all of the FSA programs. For instance, a school might wish to withdraw from the Perkins Loan Program to work on lowering high student-loan cohort default rates. To withdraw from one or all of the FSA programs, the school must notify the Department via the electronic application. For more information on these requirements and procedures, contact the appropriate School Participation Team.

A school that withdrew voluntarily (for instance, to lower its default rate) can request to participate again without the waiting period required for a school that was terminated from the program involuntarily or withdrew voluntarily while under a show-cause or suspension order.

Withdrawing from the FSA programs while under a termination order or other sanction—or to avoid being placed under them—is not considered a voluntary withdrawal.

School loses primary accreditation
When a school loses its institution-wide accreditation, the Department generally may not certify or recertify that school to participate in any FSA program for two years after the school has had its accreditation withdrawn, revoked, or otherwise terminated for cause or after a school has voluntarily withdrawn under a show cause or suspension order. If a school wishes to be reinstated, it must submit a fully completed E-App to the Department.

The Department will not recertify a school that has lost its institution-wide accreditation in the previous two years unless the original accrediting agency rescinds its decision to terminate the school’s accreditation. In addition, if a school voluntarily withdrew from accreditation during the last two years under a show cause or suspension order, the Department will not recertify the school unless the original order is rescinded by the accrediting agency. Finally, a school may not be recertified on the basis of accreditation granted by a different accrediting agency during the two-year period.

There are two exceptions to the two-year rule:

1. If the Department determines that loss of institution-wide accreditation was due to the school's religious mission or affiliation, the school can remain certified for up to 18 months while it obtains alternative accreditation.
2. If a school’s institution-wide accrediting agency loses its Department recognition, the school has up to 18 months to obtain new accreditation.

Note that it is possible for accreditation to be withdrawn from one of the programs at a school without affecting the accreditation (and eligibility) of other programs at the school.
any unexpended FSA funds it has received (minus its administrative cost allowance, if applicable).

**Unpaid commitments**

If a school’s participation ends during a payment period, but the school continues to provide education in the formerly eligible program until the end of the payment or enrollment period, the school may use the FSA funds in its possession to—

- satisfy unpaid Pell Grant or Campus-Based program commitments made to students for that payment period or for previously completed payment periods before the school’s participation ended.
- use the FSA funds in its possession to satisfy unpaid Direct Loan commitments made to students for that period of enrollment before participation ended by delivering subsequent Direct Loan disbursements to the students or by crediting them to their accounts (if the first disbursement already was delivered or credited to the students’ accounts before the school’s participation ended).

Note that the school may request additional funds from ED to meet these commitments.

**Teach-out plan**

A school must submit a teach-out plan to its accrediting agency if

- ED initiates an emergency action, or initiates the limitation, suspension, or termination of the school’s participation in any FSA program;
- the school’s accrediting agency acts to withdraw, terminate, or suspend the accreditation or preaccreditation.
- the school’s state licensing or authorizing agency revokes the institution’s license or legal authorization to provide an educational program.
- the school intends to close a location that provides 100% of at least one program.
- the school otherwise intends to cease operations.

**Closure of a branch or location**

A separate closeout audit is not required if a school closes an additional location or a branch campus because the next due compliance audit for the school must report on the use of FSA program funds at the closed location. However, the school must notify the Department of the additional location or branch closure. See Chapter 5 for information on reporting information to the Department.
**Loss of eligibility or withdrawal from the Direct Loan Program**

If a school is notified that it has lost its eligibility to participate in the Direct Loan Program and the school does not intend to appeal the decision, it must immediately inform all current and prospective students of its loss of eligibility. The school must also explain that it can no longer originate Direct Loans for students or parents. If the school appeals its loss of eligibility within the required timeframe, the school may continue originating Direct Loans during the appeal process. Once a final decision on the appeal is made, the school must take the actions described in the Department’s final appeal determination letter.

If a school plans to withdraw from participation in the Direct Loan Program, it must notify the Department of its decision in writing. Once the effective date of withdrawal has been established, the school is prohibited from disbursing loan funds to the student. However, if your school made a first disbursement to the student before it lost eligibility, it may still be able to make a subsequent disbursement to that student. See the conditions in 34 CFR 668.26(d).
ACADEMIC YEAR REQUIREMENTS

Every eligible program, including graduate programs, must have a defined academic year. The academic year is used to determine the student’s eligibility for Pell Grant and Stafford loan awards.

A school may have different academic years for different academic programs. For example, a school may choose to define the academic year for a term-based program differently from a nonterm program. In some cases the definition must be different, such as in the case of a clock-hour program and a credit-hour program. For FSA purposes, the academic year is defined in weeks of instructional time and for undergraduate programs in credit or clock-hours. The program’s academic year does not have to coincide with a program’s academic calendar.

A school may treat two versions of the same academic program (day and night, for example) as separate programs and define different academic years for each version. If your school establishes separate versions of a program, with different academic years, but allows individual students to take courses from both versions, your school must be able to demonstrate which program the student is actually enrolled in. Generally, to be considered enrolled in a particular program or version of a program, a student must be taking at least 50% of his or her coursework in that program.

Although a school may have different academic years for different programs, it must use the same academic year definition for all FSA awards for students enrolled in a particular program, and for all other FSA program purposes.
Weeks of instructional time in an academic year

An academic year for a credit-hour or direct assessment program must be defined as at least 30 weeks of instructional time, and for a clock-hour program, at least 26 weeks of instructional time.

The number of weeks of instructional time is based on the period that begins on the first day of classes in the academic year and ends on the last day of classes or examinations. For all FSA programs, a week of instructional time is any period of 7 consecutive days in which at least 1 day of regularly scheduled instruction, examination, or (after the last day of classes) at least 1 scheduled day of study for examinations occurs. Instructional time does not include periods of orientation, counseling, homework, vacation, or other activity not related to class preparation or examination. Therefore, the weeks of instructional time may be less than the number of calendar weeks that elapse between the first day of classes and the last day of classes or examinations.

Credit or clock-hours in an academic year

The law and regulations set the following minimum standards for coursework earned by a full-time student in an academic year in an undergraduate educational program (including direct assessment programs):

- 24 semester or trimester credit-hours or 36 quarter credit-hours for a program measured in credit-hours; or
- 900 clock-hours for a program measured in clock-hours

There is no minimum hours component to the definition of an academic year for graduate and professional programs. For purposes of Direct Loans, a loan period certified for an academic year in a graduate or professional program would include the weeks of instructional time in the academic year and the hours a full-time student is expected to complete in those weeks. See Chapter 5 for more details on loan limits.

Awards are affected when a program does not meet one of the academic year standards

The FSA academic year that a school defines for a program has to meet the regulatory minimums for both clock or credit-hours AND weeks of instructional time. In some instances, the academic year may not coincide with the academic calendar of the school. These cases may affect Pell and loan disbursements, and, in Direct Loans, annual loan limits and annual loan limit progression.

For example, awards would be affected if a program is an academic year in length in credit or clock-hours but not in weeks of instructional time. Also, for a program longer than an academic year in length, awards would be affected if the completion of the credit or clock-hours in the program’s academic year do not coincide with completing the weeks of instructional time in the academic year.

Citations
Award Year: 34 CFR 600.2
Academic Year: 34 CFR 668.3
Payment Period: 34 CFR 668.4
Weeks of instructional time: 34 CFR 668.3(b)

Note that the Department has not set a regulatory standard for the number of hours of instructional time that make up one day of instruction. This has been left to the reasonable interpretation of schools and their accrediting agencies.

Reductions in academic year length

Schools that provide 2- or 4-year associate or baccalaureate degree programs may apply to ED if they want to establish a full academic year of less than 30 weeks of instructional time. ED is permitted to grant a reduction for good cause to no less than 26 weeks of instructional time. For further details on submitting such a request, see 34 CFR 668.3 (c) & HEOA Section 481.
Counting weeks of instructional time

This graphic illustrates how you would count weeks of instructional time in a 16-week term where classes are held Monday through Friday. In this hypothetical term*, August 1st is a Sunday, and classes begin on August 23rd and end December 3rd, with examinations held December 6th-10th.

Note that the school holds no classes on Labor Day (September 6th) on this calendar, Veterans Day (November 12th), and Thanksgiving break (November 24th-26th). The circles indicate the points at which each of the weeks of instructional time begin. There are 16 weeks of instructional time.

Remember: If a week in the term has no days of instruction, examination, or (after the last day of classes) study for examination, that week does NOT count as a week of instructional time. For example, a week comprised entirely of vacation days is not a week of instructional time.

*Note that this example is not meant to illustrate any specific calendar year.
**ACADEMIC CALENDARS & TERMS**

Schools offer programs with many kinds of academic calendars that differ from the traditional Fall-Spring school year. For purposes of the FSA programs, there are three basic types of academic calendars: standard term, nonstandard term, and nonterm.

Generally, a term is a period in which all classes are scheduled to begin and end within a set time frame, and academic progress is measured in credit-hours. However, if these periods overlap within a program, they may not be treated as a term-based program for FSA purposes. Term-based programs can have either standard terms or nonstandard terms.

**Standard terms: semesters, trimesters, and quarters**

Semesters and trimesters are terms that are generally 14 to 17 weeks long. An academic calendar that uses semesters traditionally has two terms, in the fall and spring, and a trimester academic calendar traditionally has three terms, in the fall, spring, and summer. Academic progress is measured in semester credit-hours, and full-time is at least 12 semester credits.

Similarly, quarter terms are approximately 10 to 12 weeks in length and the academic calendar includes three quarters in the fall, winter, spring, and often a summer term. Academic progress is measured in quarter credit-hours, and full-time is at least 12 quarter credits.

You may combine shorter terms or modules to meet the requirements of a standard term such as a semester. For example: a program is offered in 8 nonstandard terms, each 6 weeks in length, and students earn 6 quarter credits in each term. You may choose to combine each consecutive pair of nonstandard terms and consider the program to be offered in 4 quarters.

In certain limited cases for academic programs offered in standard terms, a short nonstandard term may be treated as part of one of the standard terms, and the combined terms may be considered to be a single standard term. For example, a program is offered in a calendar consisting of two 15-week semesters and a 4-week intersession. To consider the program as consisting only of semesters, the intersession may be treated as part of one of the two semesters as long as the same treatment is applied for all FSA purposes to all students enrolled in the program. In addition, hours taken in the intersession must count towards a student’s enrollment status for the combined term and costs for the intersession must be appropriately included in the cost of attendance.

If you choose not to combine a nonstandard term in this manner, the program must be treated as a nonterm program for DL, and a formula 3 program for Pell & TEACH. The fact that you did not combine the term does not negate the requirement that a student must be considered for FSA aid if enrolled and eligible in the term.
Nonstandard terms

Nonstandard terms are terms (where all coursework is expected to begin and end within a set period of time) that are not semester, trimester, or quarter terms. In some cases, the terms may be of unequal length, though it is also possible for programs with terms of equal length to be considered nonstandard. For instance, a school could offer a program with six consecutive 5-week modules, with each module counting as a nonstandard term.

Unlike standard terms, the length of the term is not necessarily associated with the type of credit-hours awarded. Some nonstandard terms are the length of a semester (14-17 weeks) but award quarter credits. Others are the length of a quarter (10-12 weeks) but award semester credits.

Nonterm characteristics

If a program measures progress in clock-hours, it is always treated as a nonterm program. A program that measures progress in credit-hours is considered to be using a nonterm calendar if it has:

- courses that do not begin and end within a set period of time;
- courses that overlap terms;
- self-paced and independent study courses that overlap terms; or
- sequential courses that do not begin and end within a term.

Programs that must be treated as clock hour for FSA aid

You must calculate FSA aid using the methods for clock-hour programs for a program in certain instances. You can find a complete discussion of these requirements in Volume 2, Chapter 2 (Section 2.2.6 of the HTML version).

Credits and nonstandard terms

Remember, just because progress in a program is measured in semester or quarter credits, this does not necessarily mean that the program is offered in semester or quarter terms. Also, even though a school may label a term as a quarter, semester, or trimester it may be considered a nonstandard term for Federal Student Aid purposes if it does not conform to the Federal Student Aid standards for a semester, trimester, or quarter.

Combining terms examples

See the example at the end of this section for guidance on combining concurrent and consecutive terms.

Programs that must be treated as clock hour

34 CFR 668.8(k),(l)

Exception to new clock hour requirements for current students

34 CFR 668.8(k),(l)

For students enrolled continuously in both the 2010-11 and 2011-12 award years, in programs subject to the new credit vs. clock-hour calculation requirements and the elements of (and when to use) the credit to clock-hour conversion formula, you may choose to either:

- apply the pertinent regulations as they existed prior to Oct 29, 2010, as described in the 2010-11 FSA Handbook Vol. 3 until these students complete the program; or
- apply the amended guidance as described in the 2011-12 FSA Handbook Vol. 3 for all students enrolled in payment periods assigned to the 2011-12 and subsequent award years.
Combining concurrent terms

Clark University offers a program in both 15-week terms and 8-week terms. Clark University combined two 8-week terms with a 15-week term to make each semester; each semester provides 16 weeks of instructional time.*

![Diagram showing 15 weeks and 8 weeks terms combined]

Combining consecutive terms

Sanders College offers a separate degree program in education with a short 4-week* term between two 15-week* semesters. The terms don't overlap. Sanders College has defined the academic year for this program as 24 semester hours and 34 weeks of instructional time. Sanders College could combine the short term with one of the standard terms and for purposes of FSA programs treat the program as being offered in two semesters:

![Diagram showing 15 weeks and 4 weeks term]

Sanders College can also choose not to combine the terms. In this case, the program would have a 4-week term and two semesters. For certain FSA program requirements, this may mean you will treat all terms in a nonstandard term manner, or as part of a nonterm program. For more details, see discussion on previous pages.

Treatment of modules

A school may choose to group modules together and treat the entire period as a term. (For example, grouping three five-week* modules together may create a 15-week* semester; or grouping four one-month modules into a 16-week semester would be acceptable.)

![Diagram showing 5 weeks and 4 weeks modules]

On the other hand, programs that are offered in modules may sometimes be counted as programs measured in nonstandard terms. For example, in a program that offers six 5-week modules, each module could be treated as a nonstandard term. In addition, a school may choose to consider a program that consists of consecutive modules as a nonterm program. Whatever academic calendar your school adopts for a program, you must apply it to all students enrolled in that program and document the program's treatment in your policies and procedures manual.

*Weeks in these examples are weeks of instructional time, as defined earlier in this chapter.
PAYMENT PERIODS

The definition of a payment period is applicable to all FSA programs except FWS. The common definition is integral to requirements for the administration of FSA funds. For example, FSA program disbursements (except FWS payments) must be made on a payment period basis. Another example is that a student’s satisfactory academic progress evaluation is required to correspond with the end of a payment period.

For clock-hour programs, the payment period is defined not only in clock-hours but also in weeks of instructional time. A student must successfully complete the clock-hours and weeks of instructional time in a payment period to progress to the next payment period.

For Direct Loans, the payment period for clock-hour programs, nonterm credit-hour programs and nonstandard term programs with terms not substantially equal in length are defined in clock or credit-hours and weeks of instructional time (as has been the case for the other FSA programs). Previously for such programs, second disbursements in loan periods were based on the calendar midpoint of the academic year. A student must successfully complete the clock-hours and weeks of instructional time in a payment period to progress to the next payment period (as has been the case for annual loan limit progression and for grant and Perkins loan payment period progression in clock-hour and nonterm credit-hour programs).

For FSA purposes, you will use either “term-based” payment periods (the payment period is the term), or payment periods based on the completion of credit or clock-hours and weeks of instructional time. The payment period you use depends on the kind of academic calendar your school uses, as described below, and the FSA program for which you are disbursing funds.

Programs using standard terms or substantially equal nonstandard terms (term-based)

For credit-hour programs that use standard terms, or that use nonstandard terms that are substantially equal in length (see sidebar), the payment period is the term itself.

Programs with nonstandard terms not substantially equal in length

For purposes of Pell Grants, TEACH, FSEOGs and Perkins Loans, if the program uses nonstandard terms, the payment period is the term.

For Direct Loans, if a credit-hour program has nonstandard terms that are not substantially equal in length, use the nonterm payment periods described below (under “Clock-hour programs and nonterm programs”).

Payment periods

→ Definition of payment periods
34 CFR 668.4

Two payment period limit in an academic year or program

Unless you are using terms as payment periods under FSA rules, there are no more than 2 payment periods in the lesser of the program, the academic year, or the remainder of the program.

You may make multiple disbursements within a single payment period; however, schools should note that making multiple disbursements within a payment period does not create a new or additional payment period.

“Successfully Completes”

34 CFR 668.4(h)(1),(2)
A student “successfully completes” credit or clock-hours if your school considers the student to have passed the coursework associated with those hours.

“Substantially Equal”

34 CFR 668.4(h)(1),(2)
For purposes of measuring payment periods in programs offered in nonstandard terms, “substantially equal” means that no term in the program is more than 2 weeks of instructional time longer than any other term in that program. “Not substantially equal in length” means nonstandard terms that have at least 1 term more than 2 weeks of instructional time longer than another in the same program.
Direct Loan payment periods for graduate/professional students (clock-hour, nonterm, etc.)
For a graduate or professional student in a clock-hour or nonterm program, or a program with terms not substantially equal in length, the DL payment period is 1/2 of what a full-time student would be expected to complete, in both weeks of instructional time and credit or clock-hours. This policy also relates to annual loan limit progression for graduate or professional students (for more on loan limits, see Chapter 5 of this Volume).

Unable to determine completion of hours in payment period
34 CFR 668.4(c)(3)
If your school is tracking progress by clock or nonterm credit-hours, and is unable to determine when a student has successfully completed half of the credit or clock-hours in a program, academic year, or remainder of a program, the student is considered to have begun the second payment period of the program, academic year, or remainder of a program at the later of the date (identified by the school) that the student has successfully completed:
1. half of the academic coursework in the program, academic year, or the remainder of the program; or
2. half of the number of weeks of instructional time in the program, academic year, or the remainder of the program.

Clock-hour programs with terms
The payment periods for clock-hour programs that use terms are determined in the same way as for nonterm clock-hour programs. The student must successfully complete all the clock-hours in the payment period before receiving any more FSA funds. If a student doesn't complete all the hours scheduled for a term, each payment period still contains the number of clock-hours originally scheduled, even if this means that none of the student's succeeding payment periods coincide with the terms.

Clock-hour and nonterm programs
The following types of programs must use payment periods that are based on the time it takes for the student to successfully complete the credit or clock-hours and weeks of instructional time in the payment period:

- Nonterm credit-hour programs
- Clock-hour programs
- For DL purposes, nonstandard term credit-hour programs with terms not substantially equal in length.

If you are determining the payment periods for a program for which one of the measures (either clock or credit-hours or length of instructional time) is less than an academic year and the other measurement is not, the program is considered less than an academic year in length, and you follow the payment period rules for a program that is less than an academic year.

If the program is one academic year or less, the academic year or program is divided into two payment periods. The first payment period is the period in which the student successfully completes half of the credit or clock-hours AND half of the weeks of instructional time in the program. The second payment period is the period in which the student completes the remainder of the program.

If the program is more than one academic year in length:

- Use the rule for one academic year (above) for each full academic year in the program.
- For any remaining portion of a program that is half of an academic year or less, the remaining portion is treated as a single payment period.
- For any remaining portion of a program that is more than half of an academic year but less than a full academic year, the remaining portion is divided into two payment periods and the first payment period is the period in which the student successfully completes half of the credit or clock-hours AND 1/2 of the weeks of instructional time in the remaining portion.
Nonterm Example 1: Clock-hour Program

A student enrolls in a clock-hour program with an academic year (AY) of 900 clock hours and 26 weeks of instructional time. The program is 900 clock hours and 24 weeks of instructional time in length and consists of 6 successive graded courses. Each course has 150 clock hours and is completed over 4 weeks of instructional time.

In this case, the scheduled payment periods are identical for the student's Pell Grant and Stafford loan and are ½ of the length of the program in clock hours and weeks of instructional time: 450 clock hours and 12 weeks of instruction.

First payment period:
- 150 hours earned.
- 150 hours failed.
- No hours earned.
- Payment period extended.
- 150 hours earned by passing repeat of 2nd course.
- 3 weeks of instruction & 150 hours earned.
- Complete 1st payment period.
- 450 clock hours AY & 12 weeks of instruction

Second payment period:
- 3 weeks of instruction & 150 hours earned.
- Complete 2nd payment period.
- 450 clock hours AY & 12 weeks of instruction

In this case, the student successfully completes all 6 courses except the second course that the student immediately repeats and passes.

Our student successfully completes all 6 courses except the second course that the student immediately repeats and passes.

Four weeks of instructional time. Each course has 150 clock hours and is completed over 4 weeks of instructional time. The course is 900 clock hours and 26 weeks of instructional time. The program is 900 clock hours and 24 weeks of instructional time.

Conclusions:
- The student's Pell Grant and Stafford loan payment periods are identical for the second disbursement period.
- The student does not complete the first payment period until after attending for 600 clock hours and 15 weeks of instruction due to the need to successfully complete the 450 clock hours in the payment period. As a result, the second disbursement date is extended, and the student does not complete the first payment period until after attending for 600 clock hours and 15 weeks of instruction.

If appropriate, the FFEL lender must be rescheduled, and the school will need to report the rescheduled disbursement date for the second disbursement period to COD for Pell and Direct Loans. The student does not complete the first payment period until after attending for 600 clock hours and 15 weeks of instruction since the first 450 clock hours and weeks of instructional time are not successfully completed. The student does not complete the first payment period until after attending for 600 clock hours and 15 weeks of instruction. However, the first payment period is extended since the first 450 clock hours and weeks of instructional time are not successfully completed. The student does not complete the first payment period until after attending for 600 clock hours and 15 weeks of instruction. However, the first payment period is extended since the first 450 clock hours and weeks of instructional time are not successfully completed.
Another program will in academic year of 24 semester hours and 30 weeks of instructional time has 48 semester hours and 60 weeks of instructional time.

### Pell Grant: Payment Periods

#### Instructional Time

For the grant and Perkins Loan programs, by definition, all four payment periods are 1/2 of the defined academic year; 12 hours and 15 weeks of instructional time.

#### Nonterm Example: 2nd Work Completed Test in 2nd Year

Stafford: Payment periods

1st disbursement – 1st loan
1st disbursement – 2nd loan
2nd disbursement – 1st loan
2nd disbursement – 2nd loan

In 19th week of instruction (12 weeks of instruction attended)
In 37th week of instruction (18 weeks of instruction attended)
In 49th week of instruction (18 weeks of instruction attended)

1st loan
1st payment period completed after student has completed 18 weeks of instruction and earned 12 semester hours AND 18 weeks of instruction attended
1st loan
2nd payment period completed after student has completed 18 weeks of instruction and earned 12 semester hours AND 18 weeks of instruction attended
2nd loan
1st payment period completed after student has completed 12 weeks of instruction and earned 12 semester hours AND 12 weeks of instruction attended
2nd loan
2nd payment period completed after student has completed 12 weeks of instruction and earned 12 semester hours AND 18 weeks of instruction attended

Nonterm Example 2, continued
Nonterm Example 3:  More hours earned in the first academic year

For Stafford/PLUS, you will certify a loan for the first academic year using start and end dates reflecting the first 30 weeks of instructional time since a student would complete the hours of an academic year within that time. Note that where 6 semester hours in the first period of enrollment would be considered part of the sixth payment period for Stafford/PLUS, they would be considered part of the initial BBAY loan period. Thus, for each

For the Stafford/PLUS program, the payment periods are half of the weeks and hours of the FSA academic year: 12 hours and 15 weeks each.

For the Perkins Loan Program, the payment periods are half of the weeks and hours of the FSA academic year: 12 hours and 15 weeks each.

For the Pell Grant, the payment periods are half of the weeks and hours of the FSA academic year: 12 hours and 15 weeks each.

Completion of the first academic year is reflected in the last 30 weeks of enrollment as an academic year of 24 semester hours and 30 weeks of instructional time.
Chapter 1 — Academic Calendar, Payment Periods, & Disbursements

For the first loan period, the payment periods are 15 hours and 15 weeks of instructional time, i.e., half of the weeks of instructional time and half of the hours the student is expected to complete in the loan period. For the second loan period, the remaining balance of the program is less than an academic year. Therefore, there are two equal payment periods of 9 hours and 15 weeks of instructional time. Note that the annual loan limit must be prorated for this second period of enrollment by 18/24 based on the semester hours in the loan period and the hours in the defined academic year. By 18/24 based on the semester hours in the loan period and the hours in the defined academic year. For the first loan period, the payment periods are 15 hours and 15 weeks of instructional time, i.e., half of the weeks of instructional time and half of the

Nonterm Example 3, continued
Nonstandard Term Example: Terms not substantially equal

For a nonstandard term program, you may have to use different payment periods for Stafford/PLUS loans than the ones you use for FSA grants and Perkins loans. In this example, we show how the payment periods for a Pell Grant and a Stafford Loan can differ in a program that has nonstandard terms that are not substantially equal in length. In this program, the payment periods for Pell Grants are the terms, while the payment periods for the Stafford loan are the nonterm payment periods. A student earns at least 23 semester hours at the end of the 6-week term.

### Academic Year =
24 semester hours, 30 weeks of instructional time

<table>

<tr>
<td>1st Disbursement</td>
</tr>
</tbody>
</table>
The illustration shows the disbursements for a half-time student enrolled in a program of 48 semester credits that a full-time student completes in 60 weeks of instructional time. For this program, the school has defined the academic year as 24 semester credits and 30 weeks of instructional time.

Under the regulations, this half-time student would receive second disbursements after completing half of the credit-hours AND half of the weeks of instructional time in the academic year. Because the student in the example is a half-time student, it takes the student 30 weeks of instructional time to successfully complete 12 credit-hours. The student is eligible for a new loan and a new Pell Grant once the student has successfully completed 24 credit-hours and 60 weeks.

End of program
Nonterm Programs—One Academic Year or Less

In both of these examples, the school defines the academic year for the program as 24 semester hours and 30 weeks of instructional time. The first program is less than an academic year; the second program is a full academic year.

**Academic Year = 24 semester hrs & 30 wks of instructional time**

**Program 1 = 16 semester hours & 20 weeks of instructional time**
- 1st payment period - 8 semester hours AND 10 weeks*
- 2nd payment period - 8 semester hours AND 10 weeks*

**Program 2 = 24 semester hours & 30 weeks of instructional time**
- 1st payment period - 12 semester hours AND 15 weeks*
- 2nd payment period - 12 semester hours AND 15 weeks*

Nonterm Programs—More than an Academic Year

In both of these examples, the school defines the academic year for the program as 24 semester hours and 30 weeks of instructional time. The first program is an academic year with a remaining portion less than ½ an academic year; the second program is an academic year with a remaining portion greater than ½ an academic year.

**Academic Year = 24 semester hrs 30 wks of instructional time**

**Program 1 = 30 semester hours and 36 weeks of instructional time**
- 1st payment period - 12 semester hours AND 15 weeks*
- 2nd payment period - 12 semester hours AND 15 weeks*
- 3rd payment period - 6 semester hours AND 6 weeks* Since at least one measure is 1/2 or less of the academic year, a single payment period

**Program 2 = 40 semester hours and 50 weeks of instructional time**
- 1st payment period - 12 semester hours AND 15 weeks*
- 2nd payment period - 12 semester hours AND 15 weeks*
- 3rd payment period - 8 semester hours AND 10 weeks*
- 4th payment period - 8 semester hours AND 10 weeks*

*Weeks of instructional time.
Progression based on completion of hours and weeks (rather than term-based progression)

As described in the previous section, there are two cases where you must use credit or clock-hours and weeks of instructional time to determine the length of the payment period:

- clock-hour and nonterm credit-hour programs; and,
- for Direct Loans, programs with terms not substantially equal in length.

For these programs, each subsequent payment period cannot begin until the student successfully completes the credit or clock-hours and weeks of instruction in the previous payment period.

Except for a second or subsequent loan period in Direct Loans, if a student completes additional weeks of instructional time or hours while completing the other measure of a payment period, these additional weeks or hours count towards completing the next payment period. For Direct Loans, the first payment period of a second or subsequent loan period includes only the weeks of instructional time and hours that begin on the first calendar day of the new loan period.

Excused absences in clock-hour programs

In a clock-hour program, you are allowed to count a limited number of excused absences when deciding whether the student has completed the hours in a payment period. An excused absence may only be counted if the student is excused from hours that were actually scheduled, were missed and do not have to be made up for the student to receive the degree or certificate for the program.

For instance, a student in a program that has 450-clock-hour payment periods might miss 20 clock-hours and only have attended 430 clock-hours at the point where other students that did not miss any clock-hours had received 450 clock-hours of instruction. If your school has an excused absences policy, the 20 missed clock-hours are considered excused, and this student could be paid the next disbursement.

To be counted for FSA purposes, excused absences must be permitted in your school’s written policies. Under FSA regulations, no more than 10% of the clock-hours in a payment period may be considered excused absences. If your school’s accrediting agency or the state agency that legally authorizes your school to operate allows fewer hours to be counted as excused absences, you must follow the stricter standard rather than the FSA standard.

Direct Assessment program payment periods

Because Direct Assessment programs don’t use credit or clock-hours as measures of learning, you must establish a method to reasonably equate the Direct Assessment program (or Direct Assessment portion of any program) to credit or clock-hours for the purpose of determining the payment periods in the program. You must provide a reasonable written description that supports your claim that the program or portion of a program is equivalent to a specific number of credit or clock-hours (note that any credits awarded for “life experience” are not counted for FSA purposes).

Once you have established credit or clock-hour equivalencies, Direct Assessment program payment periods are measured in the same manner as other programs, according to the payment period rules described earlier in this chapter.

34 CFR 668.10
**Direct Loan Disbursements within a single term/payment period**

Unless it qualifies for the special rule based on low cohort default rates (see below), a school must generally make two disbursements of a Direct Loan that is certified or originated for a single term or a single payment period:

- For credit-hour programs offered in standard terms or nonstandard terms that are substantially equal in length, the second disbursement may not be paid until the calendar midpoint between the first and last scheduled days of class in the loan period.

- For all other programs, including clock-hour and nonterm credit-hour programs, and nonstandard term programs with terms that are not substantially equal or with terms that are substantially equal and less than 9 weeks of instructional time in length, for a remainder of a program equal to or less than half of an academic year, the payment period is the remainder of the program.

**Special rule:** Schools with cohort default rates of less than 10% for each of the 3 most recent fiscal years for which data are available, may disburse, in a single installment, loans that are made for: 1 semester, 1 trimester, 1 quarter or loans made for a 4-month period or less for one nonstandard or nonterm loan period. Note that a program offered in substantially equal terms at least nine weeks in length may not disburse in a single installment for a term if the term is longer than four months. (In the case of loans made to students in study abroad programs, the home school’s default rate must be less than 5% for the most recent fiscal year for which data are available to qualify for this special rule.)

**Pell or TEACH disbursements within a single term**

If a school uses Formula 3 to calculate a Pell Grant or TEACH Grant, the student’s total payment for a payment period may exceed 50% of the student’s annual award. However, the disbursements of the student’s Pell or TEACH Grant in the payment period cannot exceed 50% of the student’s annual award until the student completes in the payment period at least half of the weeks of instructional time in the academic year.

</tbody>
</table>
| Credit-hour programs offered in nonstandard-terms that are not substantially equal in length. | The payment period is the successful completion of:  
  • half of the weeks of instructional time in the academic year/program less than an academic year; and  
  • half of the clock/credit-hours in the academic year/program less than an academic year.  
  For the remainder of a program equal to or less than half of an academic year, the payment period is the remainder of the program. | Term                              |
| Clock-hour programs and nonterm credit-hour programs. | The payment period is the successful completion of:  
  • half of the weeks of instructional time in the academic year/program less than an academic year; and  
  • half of the clock/credit-hours in the academic year/program less than an academic year.  
  For the remainder of a program equal to or less than half of an academic year, the payment period is the remainder of the program. | The payment period is the successful completion of:  
  • half of the weeks of instructional time in the academic year/program less than an academic year; and  
  • half of the clock/credit-hours in the academic year/program less than an academic year.  
  For the remainder of a program equal to or less than half of an academic year, the payment period is the remainder of the program. |

1 Successful completion means that the student has earned a passing grade or otherwise received credit for the credits or clock-hours in the payment period.

2 If a program is offered in a combination of standard and nonstandard terms and the program does not qualify to use a "SAY," then for Direct Loan purposes, the program is subject to the disbursement requirements that apply to nonstandard programs that are not substantially equal in length.
Review of completion

Term-based programs using credit-hours
For a credit-hour term program, there is no requirement that a student successfully complete all of the coursework to receive payment in the next term. For instance, a student could receive a Stafford disbursement in the Spring term after failing several courses in the Fall term, provided that the student was still making satisfactory progress under the school’s policy. (However, if the program uses nonstandard terms that are not substantially equal in length, you must use the nonterm-based rules for Stafford/PLUS disbursements, below.)

Pell, Perkins Loans, FSEOG and TEACH Grants in clock-hour or nonterm programs
For a credit-hour program without terms or a clock-hour program, a school may disburse a Pell, Perkins Loans, FSEOG or TEACH grant only after it determines that the student has successfully completed the credits or clock-hours and weeks of instructional time in the prior payment period.

Stafford/PLUS loans in clock-hour, nonterm, and certain nonstandard term programs
If an educational program does not use terms to measure academic progress for FSA purposes, the school may not make the second loan disbursement until the student successfully completes the weeks of instructional time and the credit or clock-hours in the payment period. These coursework completion requirements apply to clock hour and nonterm programs, and programs with nonstandard terms that are not substantially equal in length.
TIMING OF DISBURSEMENTS—GENERAL RULES

Except for FWS wages, FSA disbursements are made on a payment period basis. The timing of disbursements is especially important for Pell and TEACH Grants and Stafford/PLUS loan funds, because you must report disbursement dates with the Department (through COD) and/or private lenders.

Basic rules for early and delayed disbursements

In general, the earliest that a school may disburse FSA funds by crediting the student’s account or by paying directly to the student or parent is 10 days before the first day of classes for that payment period.

For credit-hour nonterm and clock-hour programs, the earliest a school may disburse FSA funds (other than FWS wages) is the later of:

- 10 days before the first day of classes for that payment period; or
- the date the student completed the previous payment period for which he or she received FSA funds.

This disbursement timing limitation is also applicable to Stafford and PLUS disbursements in credit-hour programs with non-standard terms that are not substantially equal in length. In some cases, as we’ll discuss, other restrictions apply.

If a student is in the first year of undergraduate study and is a first-time Stafford borrower, your school may not disburse the first installment of the Stafford loan until 30 calendar days after the student’s program of study begins. You are not required to delay disbursement for such students if you have a cohort default rate of less than 10% for each of the three most recent years for which data is available, or if you are a home institution originating a loan to cover the cost of attendance in a study abroad program and have a cohort default rate of less than 5% for the single most recent year for which data is available.

If a student is scheduled to begin class in a module of a term-based program that starts after the first day of classes for the semester, you may not make the initial disbursement until 10 days before the start of the first module in which the student is scheduled to begin attendance. Also, if you post a credit to a student’s account before the earliest date permitted by regulation, the date the FSA funds are considered to be disbursed is the earliest date permitted by regulation.
Chapter 1 — Academic Calendar, Payment Periods, & Disbursements

**Early disbursement & advance credit to account**

Aug 2: School posts credit marked as Pell Grant funds to student’s account.

Aug 15: School disburses Pell funds 10 days before 1st day of classes.

Dec 21

The earliest a school may disburse Pell funds is 10 calendar days before the first day of class in the semester (August 15 is the example).

If you post a credit to a student’s account before the earliest date permitted by regulation (August 2nd vs. August 15 in the example), for FSA purposes, the date the Pell is considered to be disbursed is the earliest date permitted by regulation: August 15.

**Disbursement rules for terms made up of modules**

When a student is attending a modular program, but won’t attend the first module, the date when classes begin for making disbursements is the starting date of the first module that the student will actually attend.

The earliest the school can pay a student who is scheduled to begin attendance in the second of three 5-week modules that make up the payment period is 10 days before the first day of the second module. (Or 30 days after the second module begins, if the student is a first-time, first-year borrower and the school does not meet the requirements for a waiver in 34 CFR 685.303(b)(4).)

**Module Example:** A 1-year program with no terms awards 24 credit-hours, which are taught in a series of six 4-hour modules. The school groups the modules into two 12-hour payment periods. The first payment period takes 15 weeks to complete. The student cannot progress to the second payment period until the student successfully completes 12 credit-hours and the 15 weeks of instruction have elapsed. If the student fails the first 4-hour module, he or she will still need to successfully complete three modules (for a total of 12 credits) to progress to the next payment period.
Retroactive disbursements for completed periods

Your school must pay a student retroactively for any completed payment periods within the award year if the student was eligible for payment in those periods. Thus, in the case of a Pell Grant, if you don’t receive a valid SAR/ISIR for a student until the spring term, but the student was also enrolled and eligible for a disbursement in the previous fall term, that student must be paid retroactively for the fall term.

If you are paying a Pell or TEACH grant for a completed term in which no disbursement has been made, the grant must be based on the hours completed by the student for that term. If the student had enrolled full time at the beginning of the fall term but dropped to half-time status by the end of the term, the retroactive disbursement must be based on half time status. At a term school, all completed coursework counts towards enrollment status, including earned F’s and incompletes that have not converted to “F” grades because the student failed to complete the course work. (This requirement does not apply to any other FSA program.)

To include an earlier period of eligibility when originating a Stafford Loan, the student would have had to complete at least a half-time coursework in that period. For instance, you could include the Fall term and its costs when originating a loan for the student in the Spring, if your school’s half-time standard is 6 credit-hours and the student received a “B” and an incomplete in two 3-hour courses taken that Fall.

In the case of loans disbursed on a payment period basis, if a student attended the previous payment period but did not maintain eligibility for a Stafford loan, you may not include the previous payment period or its costs in the loan period.

A school can make any retroactive disbursements in one lump sum.
Multiple disbursements within a payment period

FSA regulations generally permit schools to pay FSA funds at such times and in such installments within each payment period as will best meet students’ needs. This gives schools the ability to apportion the payment if doing so will be in the best interest of the student. For example, if a payment period is particularly long, a school might choose to pay in multiple installments to the extent program requirements permit to ensure that a student will have funds to pay rent later in the payment period.

Also bear in mind that FSA funds must be provided to students in a timely manner to best assist them in paying their educational expenses. Consequently, a school may not delay the disbursement of funds until after the 60% point, for example, to avoid the administrative burden of performing a Return of Title IV Funds calculation and the requirements that go along with it, or to prevent the student from having to return funds upon withdrawal.

Multiple loan disbursements within a payment period

A school may schedule multiple disbursements within a payment period, as long as the disbursements in a loan period are substantially equal.

However, for nonterm and clock-hour programs, a school may not elect to have more than two payment periods per loan.

Schools that use payment periods as the basis for their Return of funds calculations should note that making multiple disbursements within a payment period does not create a new or additional payment period. See Volume 5 to see how withdrawal calculations handle multiple disbursements.
TIMING OF FSA GRANT & PERKINS LOAN DISBURSEMENTS

Disbursements in credit-hour term-based programs

As noted earlier, for a student enrolled in a credit-hour program that uses any type of academic term, for Pell, TEACH, FSEOG, and Perkins Loan program funds, the payment period is the academic term. Under the advance payment method, FSA Grants actual disbursement information can be submitted no earlier than 7 calendar days prior to the disbursement date.

Disbursements in clock-hour and credit-hour nonterm programs

For clock-hour programs and nonterm credit-hour programs, a student can receive the first disbursement of FSA grant or Perkins loan funds when the student begins the program or academic year. The student becomes eligible to receive a disbursement of FSA grant funds for the second payment period when the student successfully completes half of the weeks of instructional time AND half of the credit-hours/clock-hours in the academic year or program or the remaining portion of a program that is more than one-half of an academic year but less than a full academic year.

Timing of grant disbursements within a payment period

You may time the disbursement of Pell and TEACH Grant funds for a payment period to best meet the needs of students at your school. For instance, some schools credit the student accounts for school charges as soon as is permissible, and then pay the credit balance to students when they begin classes. Other schools wait until the end of the add/drop period to disburse funds, or pay students in monthly installments to help meet living expenses throughout the payment period. (If as opposed to making multiple disbursements within the payment period, your school rations disbursements to students by crediting the entire disbursement for the payment period to the student’s account and making periodic disbursements to the student from these funds, it must have the student’s voluntary written authorization.)

Uneven disbursements of FSEOG & Perkins

A school that is awarding an FSEOG or a Perkins Loan for a full academic year must disburse a portion of the grant or loan during each payment period. In general, to determine the amount of each disbursement, a school will divide this award amount by the number of payment periods the student will attend.

However, if the student incurs uneven costs or receives uneven resources during the year and needs extra funds in a particular payment period, your school may disburse the additional FSEOG or Perkins amounts to the student in whatever manner best meets the student’s needs.
Additional grant disbursement notes

**Disbursements exceeding 50% of award**

If you use Formula 3 to calculate a Pell or TEACH Grant, the student’s total payment for a payment period may exceed 50% of the student’s annual award. However, the disbursements of the student’s Pell or TEACH Grant in the payment period cannot exceed 50% of the student’s annual award until the student completes in the payment period at least half of the weeks of instructional time in the academic year. Therefore, you generally must make at least two disbursements to the student in the payment period.

You may not withhold funds as an administrative convenience if you wish to make a single disbursement.
**STAFFORD/PLUS DISBURSEMENTS**

*Standard terms and substantially equal nonstandard terms at least nine weeks in length (SE9W)*

If the program uses *standard academic terms* (semesters, trimesters, or quarters) or it has *nonstandard terms of substantially equal length*, at least one disbursement must be made in each term in the loan period. A program is considered to have substantially equal terms if no term in the program is more than two weeks of instructional time longer than any other term in the program.

*If there is more than one term in the loan period,* the loan must be disbursed over all terms of the loan period. For example, if a loan period is for an academic year that includes three quarters, the loan must be disbursed in three substantially equal disbursements.

If there is only one term in the loan period, the loan generally must be disbursed in two payments. In a credit-hour program that uses a semester, trimester, or quarter system, or is “SE9W,” (see sidebar) the second disbursement may not be made until the student reaches the calendar midpoint between the first and last scheduled days of class of the loan period. For clock-hour and nonterm programs, and nonstandard term programs that are non-SE9W, the school may not make the second disbursement until the student successfully completes half of the credit or clock-hours AND at least half of the weeks of instructional time in the payment period.

*Clock-hour programs, nonterm credit-hour programs, and programs with non-standard terms that are not substantially equal*

If the program is one academic year or shorter, the loan period is usually the length of the program. (For more information on nonterm loan periods, see Chapter 5.) If the program is longer than an academic year, there will usually be another loan period for any subsequent academic year or remaining portion of an academic year.

For each loan period in these programs:

- The loan must be disbursed in at least two substantially equal amounts, with the first disbursement generally disbursed at or near the beginning of the loan period; and

- The second half of the loan proceeds may not be disbursed until the student has successfully completed half of the coursework and half of the weeks of instructional time in the loan period.

The payment period for the remainder of a program less than or equal to one-half of an academic year is the remainder of the program.

When a Direct Loan is made for one payment period, the loan must be disbursed in two installments, and the second installment may not be disbursed until the student has successfully completed half the number of credit or clock-hours and half the weeks of instructional time in the payment period.
Exceptions to disbursement rules for schools with low default rates

Schools with cohort default rates of less than 10% for each of the three most recent fiscal years for which data are available, including eligible foreign schools, may disburse, in a single installment, loans that are made for one semester, one trimester, one quarter or a four-month period. Such schools also are not required to delay the delivery or disbursement of a first disbursement of a loan for 30 days for first-time, first-year undergraduate borrowers.

You may pay a student in an eligible study-abroad program in one disbursement, regardless of the length of the loan period if your school’s most recently calculated Stafford loan default rate is less than 5% for the single most recent fiscal year for which data is available.

When a school that qualifies for the cohort default rate exemption offers nonstandard term credit-hour programs with:

- terms not substantially equal in length;
- nonterm credit hour programs; or
- clock-hour programs;

the payment period, for purposes of Direct Loan funds, is the portion of the program to which the cohort default rate exemption applies. For example, if the loan period for a nonterm credit hour program is three months in length and the institution meets the cohort default rate exemption, the three-month loan period is the payment period and only one disbursement of the loan is required for that period.

Low cohort default rate exemptions
Section 428G(a)(3) and (b)(1) of the HEA, Direct Loans 34 CFR 685.301(b)(8)

Single disbursements for study-abroad students
If a borrower is enrolled in a study-abroad program approved for credit by the home school and the home school had a Stafford loan default rate less than 5% in the single most recent fiscal year for which data is available, AND the loan is for one semester, one trimester, one quarter or a four-month period, the school may make a single disbursement of the loan proceeds.

34 CFR 685.303(b)(4)(i)(B)
34 CFR 685.301(b)(8)(i)(B)
Also see Cohort Default Rate Guide.
RETAKING COURSEWORK IN TERM PROGRAMS

Beginning in the 2011-12 award year, you may count towards enrollment status and award Title IV funds to a student who is repeating, for the first time only (i.e. one repetition per class), a previously passed course in a term-based program. You may also count towards enrollment status and award aid for any class (i.e. potentially more than one repetition) that the student previously passed in a term-based program that needs to be retaken due to academic requirements of the program, for example, if a student needed to earn a minimum grade.

Conversely, you may not pay a student for retaking previously passed courses if the student is required to retake those courses because they failed a different course. For example, a student enrolls in four classes in the fall semester and passes three of them and fails one. The school requires the student to retake the three classes because they failed the one class. The student retakes all four classes in the spring semester. The failed class would be counted towards the student’s enrollment status (and could have Title IV aid awarded for it), but the three classes previously passed in the fall would not be counted towards the student’s enrollment status and would not be eligible for aid.

In any case, remember that retaken classes may count against satisfactory academic progress, and the student’s eligibility is still constrained by all the requirements of satisfactory academic progress, as discussed in Volume 1 of the FSA Handbook. Also, the one-year academic limitation on noncredit and reduced credit remedial coursework still applies, so, for example, a student repeating a remedial course that exceeds the one-year limitation could not have the class included in his or her enrollment status.

If a student who received an incomplete in a course in the prior term is completing the coursework in the subsequent term to erase the incomplete in the prior term, the student is not considered to be enrolled in the course for the subsequent term. Therefore, the hours in the course do not count toward the student’s enrollment status for the subsequent term, and the student may not receive FSA funds for retaking the course. However, if a student who received an incomplete in a course in the prior term is retaking the entire course for credit in the subsequent term, the hours in the course count toward the student’s enrollment status and the student may receive FSA funds for retaking the course.

Students enrolled in non-term-based programs may not receive credit for retaking coursework.
TRANSFER, RE-ENTRY, & REPEATING COURSEWORK WHEN PROGRESS IS NOT TRACKED BY TERMS

Re-entry within 180 days
A student who withdraws from a clock-hour or credit-hour nonterm program and then re-enters within 180 days is considered to remain in the same payment period when he/she returns and, subject to conditions imposed by ED, is eligible to receive FSA funds for which he/she was eligible prior to withdrawal, including funds that were returned under the R2T4 rules in Volume 5, Chapter 2.

Re-entry after 180 days and transfer students
Generally, you must calculate new payment periods for a clock-hour or credit-hour nonterm program for:

- a student who withdraws and then re-enters the same program at the same school after 180 days, or
- a student who withdraws from a program and enrolls in a new program at your school, or at another school within any time period.

For purposes of calculating payment periods ONLY, the length of the program is the number of credit or clock-hours and weeks of instructional time the student has remaining in the program that he/she re-enters or transfers into. If the remaining hours and weeks constitute half of an academic year or less, the remaining hours constitute one payment period. In this circumstance, the student may be paid for repeating coursework if the student is receiving credit for repeating the course.

However, you may consider a student who transfers from one program to another at your school to remain in the same payment period if all of the following conditions apply:

- the student is continuously enrolled at your school;
- the coursework in the payment period the student is transferring out of is substantially similar to the coursework the student will be taking in the program into which he/she is transferring;
- the payment periods are substantially equal in length in weeks of instruction and credit or clock-hours;
- there are little or no changes in school charges associated with the payment period; and
- the credits from the payment period the student is transferring out of are accepted for credit in the new program.

Re-entry within and after 180 days
34 CFR 668.4(f),(g),(h)

Pell Grant Disbursements for Re-entering Students
For Pell and TEACH Grant disbursements in the award year, if a student enrolled in a clock-hour or nonterm credit-hour educational program re-enters the program within 180 days after initially withdrawing and before the deadline for the award year published, a school may request administrative relief to disburse the student’s grant by the earlier of 30 days after the student re-enrolls or the deadline for the award year published in the Federal Register.

Repeating after program completion
Any student who completes an entire nonterm credit-hour or clock-hour program, and later re-enrolls to take that same program again or to take another program may be paid for repeating coursework regardless of the amount of time between completion of the first program and beginning the program or another program again.

Satisfactory progress & repeated coursework
For satisfactory academic progress purposes, each time a course is taken counts as an attempt, only the first time a passing grade is received is counted as a completion.
Stafford/PLUS payment periods when student transfers to a new school

If a student transfers into a program at a new school, and the program is not offered in either standard or “SE9W” terms, the new school may originate a loan for the remaining portion of the program or academic year if:

- the new school accepts a student’s credit or clock-hours earned at a prior school, and
- the period of enrollment for the loan at the first school overlaps the period of enrollment at the new school.

The loan at the new school may not exceed the remaining balance of the student’s loan limit at the new school, after the disbursements at the first school are taken into account. In addition, the loan period at the new school must cover the remaining hours and time-frame of the overlapping prior loan period. (See example on next page.)

If the new school has not accepted any credits on transfer, the new school must originate a loan for an academic year, or for the remaining balance of a program if less than an academic year. The applicable annual loan limit is the difference between the amount disbursed at the prior institution and the student’s new applicable annual loan limit.

Stafford/PLUS payment periods for a student starting a new program at same school in same academic year

When completing a program, when the student’s last loan to complete that program was for coursework less than an academic year in length, and the student then begins a new program at the same school, the school may originate a loan for the remainder of the academic year. In this case the school may originate a loan for an amount that does not exceed the remaining balance of the student’s annual loan limit at the loan level associated with the new program. You must determine the new payment periods for that reduced loan period. The payment periods may not coincide with the payment periods for grants and Perkins loans.
Example: Re-entry after 180 days

A student withdraws after completing 302 clock-hours of a 900-clock-hour program, so there are 148 hours in the payment period that the student did not complete. The student re-enrolls after 180 days in the same program and receives credit for 100 hours. The program length for purposes of determining the new payment periods and period of enrollment is 800 clock-hours (the remainder of the student’s program), so the new payment periods are 400 hours and 400 hours. The FSA payments would be for 400 hours for both payment periods, not limited to 148 hours for a payment period. If the student in this example received no credit for previously completed hours, the student’s program length for purposes of determining the payment periods would be 900 clock-hours.

Transfer student with overlapping loan periods

James transfers on September 15 into Hammet Technical College, which accepts 200 hours from James’s prior school towards a 3-year program that has an academic year of 26 weeks and 900 clock-hours.

James says that he received a Stafford Loan at the prior school, but he doesn’t remember the exact dates. The financial aid administrator at Hammet checks NSLDS and finds that the loan period began July 15 and was scheduled to end January 15. James earned the 200 clock-hours at the beginning of this loan period, between July 15th and August 30, and Hammett accepted these hours on transfer.

The aid administrator at Hammett may originate a loan for the period during which James is expected to complete at least the remaining 700 hours of Hammett’s academic year, September 15 through January 15. During this period, which comprises 20 weeks of instructional time, James will be eligible for his remaining annual loan limit (after deducting the amount received at the prior school).

The 20-week loan period is divided into two payment periods, each comprised of 350 clock-hours and 10 weeks of instructional time. On February 1, James will be able to start a new BBAY and loan period at Hammet with a new annual loan limit. Note that the payment periods for the new BBAY will be 450 clock-hours and 13 weeks of instructional time, and this will continue through the end of the program.

In the case of grants and Perkins Loans, James’s initial payments will be half of the program’s academic year: 450 clock-hours and 13 weeks of instructional time. Note that the second payment period for the Pell Grant begins three weeks later (in weeks of instructional time) than the second payment period for the Stafford Loan. The difference between the start dates of the Pell and the Stafford payment periods will vary throughout the rest of the program at Hammet. Also note that the last academic year, for purposes of grants and Perkins Loans, will only be 700 clock-hours and 20 weeks of instructional time. Thus, his last two Pell Grant disbursements will be reduced on the basis of payment periods of 350 hours and 10 weeks of instructional time.
Cost of Attendance (Budget)

Awards for each of the Federal Student Aid (FSA) programs are based on some form of financial need, beginning with cost of attendance. This chapter picks up at the point where you have established the student’s EFC (see the Application and Verification Guide) and the student’s basic eligibility (see Volume 1). Most schools establish average costs for different categories of students and set these cost categories in EDExpress or other software that they use to determine awards and package aid. The typical costs that you establish for your students will be used to calculate their FSA award amounts and package their aid.

Unlike scholarship programs that may award funds based on academic merit or the student’s field of study, “need-based” grants, loans, and work-study are based on the family’s demonstrated financial need for assistance.

The cost of attendance is the cornerstone of establishing a student’s financial need, as it sets a limit on the total aid that a student may receive for purposes of the TEACH Grant, Campus-Based Programs, and Stafford/PLUS loans, and is one of the basic components of the Pell Grant calculation.

ALLOWABLE COSTS

The cost of attendance for a student is an estimate of that student’s educational expenses for the period of enrollment. As we’ll see, you can use average expenses (for students with the same enrollment status) at your school, rather than actual expenses. For example, for the tuition and fees component, you can use the same average amount for all full-time students, instead of figuring the actual tuition and fees for each individual student. You can have different standard costs for different categories of students, such as a cost of attendance for out-of-state students (who have higher tuition) and a lower cost of attendance for in-state students. However, you cannot combine the COA figures for each separate enrollment status and award aid to a student on the basis of the average COA. Students must be awarded on the basis of a COA comprised of allowable costs assessed all students carrying the same academic workload.

If a student is enrolled in a program that has extra fees or costs, such as lab fees, you can add those fees to the student’s cost or use a standard cost that you’ve established for all students in that program. If you establish standard cost categories, you must apply the cost allowances uniformly to all students in those categories.

There are different ways to arrive at average costs for your students, such as periodic surveys of your student population and local housing costs.

CHAPTER 2 HIGHLIGHTS

Allowable Costs

Determined by school, taking into account:

➔ Tuition and fees
➔ Books, supplies, transportation, personal, misc.
➔ Room and board
➔ Dependent care
➔ Study abroad expenses
➔ Disability expenses
➔ Employment expenses for co-op study
➔ Loan fees

Exceptions

➔ Less than half-time enrollment
➔ Correspondence study
➔ Incarcerated students

Costs met from other sources

➔ Tuition and fees not paid by student
➔ Free room and board
➔ Other cost specified by source

Costs for period of enrollment

➔ Campus-Based, TEACH Grants and Stafford/PLUS are based on costs for the period of enrollment; for instance, costs for a student attending a single semester in the school year would be limited to the costs for that time period.
➔ Pell is always based on the cost of full-time attendance for a full academic year.
Allowable costs in general

The types of costs that may be included are the same for all FSA programs. The cost of attendance, based on the student’s enrollment status, for the Campus-Based, TEACH Grant, and Stafford/PLUS programs is a student’s cost for the period in which the aid is intended. The cost of attendance used for Pell Grants is always the full-year costs for a full-time student, so you may have to prorate actual or average costs up for students who are attending less than an academic year (or who are part-time in a term program) or prorate down for students who are attending for periods longer than an academic year. We’ll discuss this at the end of this chapter.

A student’s cost of attendance is the sum of the following. If a cost is not mentioned in these categories (which are derived from the only source on COA components, Section 472 of the HEA), it is not to be included as COA:

- The tuition and fees normally assessed for a student carrying the same academic workload. This includes costs of rental or purchase of equipment (including equipment for instruction by telecommunications), materials, or supplies required of all students in the same course of study. If you charge tuition for the entire program at the start of the first period of enrollment, for Stafford/PLUS and Campus-Based aid, the tuition costs apply only to the first period of enrollment. For Pell, you must prorate these charges to reflect the academic year in accordance with the procedures outlined in Chapter 3 of this Volume.

- An allowance for books, supplies, transportation, and miscellaneous personal expenses. This can include a reasonable amount, as determined by your school, for the documented rental or purchase of a personal computer that the student will use for study for the enrollment period. For example, a computer purchased in the summer for use in the fall term may be included.

- An allowance for room and board. For students without dependents living at home with their parents, this will be an allowance that you determine. For students living on campus, the allowance is the standard amount normally assessed most residents. For those living off-campus but not with their parents, the allowance must be based on reasonable expenses for the student’s room and board.

- For a student with dependents, an allowance for costs expected to be incurred for dependent care. This covers care during periods that include, but that are not limited to, class time, study time, field work, internships, and commuting time for the student. The amount of the allowance should be based on the number and age of such dependents and should not exceed reasonable cost in the community for the kind of care provided.
• An allowance for the one time direct costs of obtaining a first professional license or certificate for students who are enrolled in a program that requires such professional licensure or certification. This allowance may only be provided one time per student per eligible academic program. Examples of allowable costs include fees charged to take a licensing exam, costs of applying for and obtaining the license or certification, and, at the discretion of the school, costs incurred in traveling to a residency interview for a medical student. Under this provision, the costs must be incurred during (not after) a period of enrollment, even if the exam is after the end of the period.

• For study-abroad programs approved for credit by the student’s home institution, reasonable costs associated with such study.

• For a student with a disability, an allowance for expenses related to the student’s disability. These expenses include special services, personal assistance, transportation, equipment, and supplies that are reasonably incurred and not provided by other agencies.

• For students engaged in a work experience through a cooperative education program, an allowance for reasonable costs associated with such employment.

• For students receiving loans, the fees required to receive them (for example, the loan fee for a Direct Loan). You may also include the fees required for nonfederal student loans (that is, nonfederal loans that must be considered EFA for the student when packaging aid). In all cases, you can either use the exact loan fees charged to the student or an average of fees charged to borrowers of the same type of loan at your school. To be included in the COA, any loan fees for private loans must be charged to the borrower during the period of enrollment for which the loan is intended.

• For less than half-time students, a limited allowance for room and board. Schools may include in the COA for a less-than-half-time student an allowance for room and board for up to three semesters (or equivalent), with no more than two of the semesters being consecutive at any one school. You are not required to monitor COA components from other schools attended by the student.

• For students living in housing located on a military base or housing for which they receive a military housing allowance (Basic Allowance for Housing, “BAH”), the room and board COA component shall include an allowance for board only. This applies to:

  • independent students who receive, or whose spouse receives, a military housing allowance (BAH) or who live on a military base; and
  • dependent students who are living with parents who are receiving a military housing allowance (BAH) or who live on a military base.

Free room and board/tuition waivers
Guerrero University saves some of its Resident Assistant jobs for students with exceptional financial need. All Resident Assistants receive a waiver of room and board charges. If the student quits the job, the waiver is removed and the student has to pay the room and board charges. All the students have the room and board charges in their cost of attendance. For students who are Resident Assistants because of their financial need, Guerrero must count the room and board waiver as estimated financial assistance. The waiver would not be counted as untaxed income, but if included in the AGI, such a waiver would be reported as “grant and scholarship aid reported to the IRS” and would be excluded from total income in the EFC formula.
Exceptions to the normal cost allowances

The following are the exceptions to the normal cost of attendance allowances discussed above:

- For students who are enrolled less than half-time, only the costs for tuition and fees and allowances for books and supplies, transportation, a limited amount of room and board, and dependent care expenses may be included as part of the cost of attendance (miscellaneous expenses and personal expenses may not be included).

- Generally, the cost of attendance for correspondence study is restricted to tuition and fees, which often include books and supplies. If the costs of books and supplies are separate, then they may also be counted in the cost of attendance. If the student is fulfilling a required period of residential training, the cost of attendance can also include required books and supplies, an allowance for travel, and room-and-board costs specifically incurred for the period of residential training (as mentioned in Chapter 1 of Volume 1, a student isn't eligible to receive FSA aid for correspondence courses unless the student is enrolled in an associate-, bachelor's-, or graduate-degree program).

- The cost of attendance for incarcerated students is limited to tuition and fees and required books and supplies. Remember that an incarcerated student is ineligible for FSA loans, and if the student is in a federal or state penal institution, he is ineligible for Pell Grants as well.

- You have the authority to use professional judgment to adjust the cost of attendance on a case-by-case basis to allow for special circumstances. Such adjustments must be documented in the student's file. (See “Professional Judgment” in the Application and Verification Guide.)

WIA reimbursement contracts

Some WIA contracts operate on a reimbursement basis; that is, the student must fulfill the terms of the contract before WIA will reimburse the school for tuition and fee costs. If the student doesn’t fulfill the terms of the contract, the school is left with an unpaid tuition and fees charge. The school isn’t permitted to hold the student liable for the unpaid tuition and fees. Contracts are established this way to offer schools an incentive to properly train and place students enrolled in the training programs. However, if a tuition and fees charge is included in a FSA aid recipient’s budget, the student would be liable for any outstanding charges that are not reimbursed by WIA. Therefore, schools that enter into reimbursement contracts must remove the tuition and fees component from the FSA budget because, under these contracts, schools are prohibited from holding the student liable for outstanding charges.

Changes in Pell COA

For more on when changes in Pell COA necessitate a recalculation of a Pell award, see Volume 3, Chapter 3.
Costs waived or paid by other sources

When a specific component of a student’s cost of attendance is waived or explicitly paid by another source, special treatment may be necessary. In some situations, the student is charged the normal tuition and fees charge with an offsetting credit issued. In other situations, the student is never charged tuition and fees at all. Although this section discusses this concept in terms of tuition and fee charges, it applies to any of the components of a student’s cost of attendance.

In some cases, such as under Workforce Investment Act (WIA) programs, a student’s tuition and fees are paid by another organization or are waived. The student’s costs are based on what the school is actually charging the student, based on the agreement between the school and the student.

If the student is charged for the tuition and fees, even if the charge is eventually paid by someone besides the student (e.g., a scholarship agency or other source of aid), then that tuition and fee amount is included in the cost of attendance in most circumstances (see sidebar on “Alternate example of waived or paid COA component”). The tuition and fees payment would then be counted as estimated financial assistance. The charge is documented in the same way as for any non-WIA student—for instance, in your school’s contract with the student or in the agreement with the WIA agency. (If your school charges the student for tuition and fees, your school would have to expect the student to pay the charge if the WIA agency or other source of assistance doesn’t pay on the student’s behalf.)

If the student is never charged for tuition and fees, then the cost of attendance wouldn’t include the tuition and fees component. Some WIA agreements with schools provide that the school can’t charge the tuition and fees to the student, even if WIA doesn’t cover the costs. If your school is prohibited under such an agreement from charging tuition and fees to the student, then the tuition and fees aren’t included in the student’s cost of attendance, and, therefore, that amount would not be included as estimated financial assistance.

Even if there’s no tuition and fees component, the student’s budget still includes the other costs listed previously, such as an allowance for living expenses. The option to either include the cost and aid in both COA & EFA versus excluding both from COA & EFA only applies to non-Federal sources of assistance, and only when that assistance is designated to offset specific components of COA (i.e, tuition, room and board).

Alternate example of waived or paid COA component

The state in which Guerrero University was founded charges all full-time students the same tuition charge. However, in-state students receive a voucher to cover the difference between what most states consider in-state versus out-of-state tuition. Guerrero has two options. The first option would allow Guerrero to include the same tuition charge in the full-time COA for all students and include the amount of the voucher as estimated financial assistance (EFA) in the respective students’ financial aid packages. Alternatively, Guerrero could exclude the amount of the voucher from both COA and EFA because the voucher must be used to explicitly pay a specific component of the COA. Regardless of the option Guerrero chooses, it must apply the option consistently.
Pell Grant Cost Example #1: prorating total costs by lesser of two fractions

You may take the student’s entire cost of attendance (tuition and fees, room and board, etc.) and multiply it by the lesser of the two fractions that represent the length of the academic year. If the lesser fraction is one, then you don’t prorate the cost of attendance. One fraction is based on credit or clock hours and the other is based on weeks of instructional time, as shown in this example.

Let’s use the example of a program that charges $10,500, awards 18 semester credits, and is completed by most full-time students within 20 weeks of instructional time.

\[
\begin{align*}
\text{Credit/clock hours in academic year definition} &= 24 \\
\text{Credit/clock hours awarded} &= 18 \\
\text{Weeks in academic year definition} &= 30 \\
\text{Weeks provided} &= 20
\end{align*}
\]

Since the fraction using credit hours is the lesser fraction, the program cost of $10,500 is multiplied by 24/18 to find the full-year Pell cost.

\[
\$10,500 \times \frac{24}{18} = \$14,000
\]

In this case, the full-time cost is $14,000. (Note: If one of the fractions is equal to one, for instance, if the program awards 24 credit hours, then the prorated cost is the same as the original cost of attendance.)

Pell Grant Cost Example #2: prorating academic costs & living expenses separately

As an alternative, you can separately prorate the costs associated with credit or clock hours (tuition and fees, books and supplies, loan fees) and the costs associated with weeks of instructional time (room and board, miscellaneous expenses, disability expenses, transportation, dependent care, study abroad, reasonable costs associated with employment as part of a cooperative education program).

Using our earlier example of a program lasting 20 weeks and awarding 18 credit hours, and specifying that the student’s tuition, books, supplies, etc. come to $4,500 and living expenses amount to $6,000, the calculation would look like this:

\[
\begin{align*}
24 \text{ credit hours} & \times $4,500 = $6,000 \\
18 \text{ credit hours} & \\
30 \text{ weeks} & \times $6,000 = $9,000 \\
20 \text{ weeks} &
\end{align*}
\]

In this example, the student’s Pell budget is the sum of the two prorated costs, or $15,000.

Pell Grant Cost Example #3: prorating costs for a nonterm program longer than an academic year

Costs must also be prorated if they are charged for a period longer than an academic year. You may use either of the proration methods shown in Examples 1 and 2. We’ll use the example of a program awarding 1,000 clock hours and providing 40 weeks of instructional time. Let’s assume that the school uses the regulatory minimums in defining the academic year as 900 clock hours and 26 weeks. The total costs over the 40 weeks, including tuition and living expenses, is $5,900. If we use the method in Example 1, this amount must be prorated by the lesser of the following two fractions:

\[
\begin{align*}
\text{Credit/clock hours in academic year definition} &= 900 \\
\text{Credit/clock hours awarded} &= 1000 \\
\text{Weeks in academic year definition} &= 26 \\
\text{Weeks provided} &= 40
\end{align*}
\]

The lesser of the two fractions is the one based on weeks (26/40). Multiply the total program cost by this fraction to determine the Pell costs for a full academic year: $5,900 \times \frac{26}{40} = \$3,835.
Pell Grant cost of attendance for a consortium program

A student receiving a Pell Grant for attendance at two schools through a consortium agreement may have costs from both schools at the same time. The student’s cost of attendance is calculated in the same way as for a student taking classes at only one school. The student’s charges for tuition and fees and books and supplies at the consortium schools have to be combined into a single charge for a full academic year for purposes of the Pell calculation. The school paying the student can choose to use actual charges for the student, which would simply be the sum of the actual charges at both schools. Of course, if the student isn’t attending full-time, your school will have to prorate these tuition and fees and books and supplies charges so that they are the correct amounts for a full-time, full-year student.

If the disbursing school is using average charges, then the average full-time charges at each of the schools must be prorated and combined. If the student is taking a full-time load at each school, the full-time tuition and fees charges for an academic year at each school can be averaged to determine the tuition and fee cost. However, if the student is taking an unequal course load, the disbursing school must prorate the charges based on the number of hours the student is taking at each school.

Pell Grant cost of attendance for a co-op program

If a student has a co-op job for the first term, the tuition and fees for that period can be prorated over the full academic year for the program (which must include at least 24 semester/trimester hours, 36 quarter credit-hours, or 900 clock-hours, as well as 30 weeks of instructional time, or, for clock-hour programs, 26 weeks). This prorated amount is then added to the other cost of attendance components to arrive at the total cost for a full-time student for a full academic year.

For the rest of the year, your school can either use the cost of attendance with the projected amount or can recalculate the student’s tuition and fees at the end of the first term to determine a new cost of attendance for the remaining payment periods. This decision must be consistent with your school’s overall policy on recalculating for changes in a student’s costs. (See the discussion of Pell Grant recalculations in Chapter 3 of this volume for more information.) Note that the cost of attendance can also include employment-related expenses.
**Costs for periods other than 9 months**

For Stafford, PLUS, and Campus-Based aid and TEACH, the cost of attendance used for packaging must reflect the student’s cost for that period that he or she is actually enrolled.

For instance, if a student is completing her program of study by taking a 1/2-time course load for the fall semester at your school, and that’s the only term that she’ll be attending in the award year, you could use the actual tuition and fee charges for the student’s costs. If you use average costs for living expenses for a 9-month academic year for students in that program, you may divide your average costs by the number of terms in the academic year to find the cost for this enrollment period (assuming the terms are substantial in length).

For Pell Grants, you could either use an average tuition cost for a full-time, full-year student in the program or prorate the student’s actual tuition for the fall term to arrive at a full-year, full-time cost. Costs for living expenses may also be average costs for a full academic year—if a full-year average cost is used, it doesn’t have to be prorated for Pell Grant awards.

**Costs for full program charged at start**

A school may charge the total tuition cost for a program at the beginning of the first period of enrollment. If the program is longer than an academic year, for Stafford/PLUS loans and Campus-Based aid, the tuition costs apply only to the first period of enrollment. For Pell, you must prorate these charges to reflect the academic year in accordance with the procedures outlined in Chapter 3.

**COSTS FOR PERIODS OTHER THAN NINE MONTHS**

The cost of attendance used to package Campus-Based aid and Stafford/PLUS loans and TEACH covers the student’s actual period of enrollment. Therefore, if the student will be attending for more than 9 months, you must use a higher cost of attendance that includes living expenses, such as room and board, for the longer period of time. If the student will be attending for less than 9 months, you must use a lower cost of attendance. You can choose to prorate the allowances you use for 9 months, or can calculate the cost in any other reasonable way.

**Adjusting Costs for Pell**

The types of costs included in the Pell budget are the same as those for the other FSA programs; however, Pell costs are always based on the costs for a full-time student for a full academic year.

For Pell, costs for programs or enrollment periods longer or shorter than an academic year must be prorated so that they are the costs for one full academic year. This is true for both parts of the academic year definition: if either the number of weeks or the number of clock/credit hours differs from the academic year standard, the costs must be prorated to determine the full-time, full-year Pell budget. The need to prorate Pell costs is most likely to occur in these situations:

- a term-based program that provides less than the weeks of instructional time in an academic year.
- a nonterm program that provides less than 24 semester hours, 36 quarter hours, or 900 clock hours and/or provides less than the weeks of instructional time in an academic year; or
- a program that is longer than an academic year, where the costs for the entire program are charged at the beginning of the program.

There are two ways to prorate Pell costs, as shown in the first two examples at the end of this section. Both of these examples are based on a program that is shorter than an academic year. The third example shows how costs are prorated when they are charged for a program that is longer than an academic year. Note that prorating the cost of attendance usually does not affect the amount of Pell Grant the student receives. However, you’re required to report the full-time, full-year Pell budget when reporting disbursements to COD.*

---

*If the student is in a category where costs are limited, such as less-than-half-time enrollment, those costs that are allowable must be based on costs for a full-time student for a full academic year. For instance, the tuition component of the Pell cost of attendance for a less-than-half-time student must be based on the tuition costs that would be incurred by a full-time student attending a full academic year. Note that prorating the cost of attendance usually does not affect the amount of Pell Grant the student receives. However, you’re required to report the full-time, full-year Pell budget when reporting disbursements to COD.
Calculating Pell and Iraq & Afghanistan Service Grant Awards

Pell Grant awards are based on the 9-month Expected Family Contribution (EFC) on the student’s valid SAR or ISIR, the academic year structure (see Chapter 1), and the cost of attendance for a full-time student for a full academic year (see Chapter 2). The Scheduled Award amounts are specified on the Pell Payment Schedules released by the Department. For term-based programs, awards for part-time students are also based on enrollment status, using the part-time charts in the Pell Grant Disbursement Schedules.

In this chapter, we’ll show you how to calculate Pell Grant & Iraq & Afghanistan Service Grant payments for your students, using the appropriate formula for the term or nonterm calendar.

**SCHEDULED AWARD, AWARD YEAR, & ANNUAL AWARD**

The Scheduled Award is the maximum amount the student can receive during the award year, if he or she attends full-time for a full academic year. The award year begins on July 1 of one year and ends on June 30 of the next year. For example, the 2011-12 award year begins July 1, 2011, and ends June 30, 2012.

The student’s Scheduled Award is established by the Pell Grant payment schedule that the Department issues prior to the start of each award year. The amount of the Scheduled Award is always taken from the Full-Time payment schedule, and is based on the student’s EFC and Cost of Attendance. The annual award is the maximum amount a student would receive during a full academic year for a given enrollment status, EFC, and COA. Note that for a full-time student, the annual award will be the same as the Scheduled Award.

At a term school, a part-time student will have an annual award that is less than the Scheduled Award. If the student attends part-time, the student’s annual award is taken from the 3/4-time, 1/2-time, or less-than-1/2-time disbursement schedules. For instance, if a student’s Scheduled Award is $5,550, but the student is enrolled as a 1/2-time student in a term program, the student’s annual award would only be $2,775.

**CHAPTER 3 HIGHLIGHTS**

Calculations for:
- Zero EFC treatment for children of soldiers
- Iraq & Afghanistan Service Grants
- Credit-hour term programs with fall through spring standard terms that provide 30+ weeks of instructional time and certain other standard term programs (Formula 1 or Formula 3)
- Credit-hour term programs with fall through spring standard terms that provide less than 30 weeks of instructional time (Formula 2 or Formula 3)
- Any credit-hour term programs including nonstandard term programs (Formula 3)
- Clock-hour programs and nonterm credit-hour programs (Formula 4)
- Summer terms, crossover payment periods, and mini-sessions
- Transfer students
- Recalculations (required and optional) when EFC, cost, or enrollment status changes

**Scheduled Award limit**

34 CFR 690.63(g)

Appendices to Chapter 3

Appendix A - Formula 2: Calculations for standard-term programs with less than 30 weeks in fall through spring
Appendix B - Formula 5: Calculations for correspondence study programs
Appendix C - Formula summaries for all five Pell formulas

**Pell payment schedules**

The Pell payment schedules can be found in Dear Colleague Letter P-11-01 on the IFAP website. The 2011-12 Payment Schedules are the same as the Schedules for 2010-11; the maximum award and maximum eligible EFC have not changed.

**Maximum duration of Pell eligibility**

34 CFR 690.6(e), HEA Section 401(c)

A student may receive a total of 9 Pell Grant Scheduled Awards, measured by percentage of Scheduled award(s) disbursed (Lifetime Eligibility Used, or “LEU” field in COD up to 900%). This provision only applies to students who receive a Pell Grant for the first time on or after July 1, 2008.
Two Pell Grant Scheduled Awards in the 2011-12 award year

The provision for a 2nd Pell Grant Scheduled Award has been repealed, effective for the 2011-12 award year. As such, no 2nd Pell Grant Scheduled Awards may be sourced out of 2011-12 funds. The last period in which you may award a 2nd Pell Grant Scheduled Award is a summer crossover period in 2011. The regulation requiring sourcing a crossover Pell from the period from which the student would receive the greater payment for the payment period is waived for 2nd Pell Awards in 2011 crossover periods.

Pell Grant Administrative Cost Allowance

34 CFR 690.10
HEA Sec. 489(a)
For each student that receives a Pell Grant at your school each award year, your school is paid $5 to help pay the associated administrative costs. This money must be used solely to pay for the costs of administering the Federal Pell Grant, Federal Perkins Loan, Federal Work-Study, and FSEOG programs.

Minimum Pell Grant

HEOA Section 401
The HEOA eliminated the $400 minimum award and instead set a new minimum award at 10% of the maximum award appropriated each year. Students who are eligible for between 5 and 10% of the maximum award will receive 10% of the maximum award appropriated each year.

Ground rules for Pell

Fractions

When using fractions, be careful to multiply first, and then divide to avoid an incorrect result. For example, here’s the correct way to prorate a $2,150 Scheduled Award for a payment period that is a nonstandard term of 10 weeks of instructional time, for a program that has 30 weeks of instructional time.

\[
\frac{2,150 \times \frac{10}{30}}{} = 716.67
\]

In this case, if you divide the fraction to get a decimal (.333333...) and then round the decimal either down (.33) or up (.34), your calculation will result in a number that’s too low (709.50) or too high (731).

Rounding

The Common Origination and Disbursement System (COD) accepts cents in payment amounts. Schools are not required to round disbursements to the nearest dollar, but can if they choose. When rounding, round up if the decimal is .50 or higher; round down if its less than .50. When rounding for a student expected to be enrolled for more than one payment period in the award year, alternate rounding up and down. The amount used to round (whether it be a dollar or penny) is carried forward to the next payment and applied before the rounding calculation is performed for that payment period. Your policy on rounding must be applied equally to all students.
Chapter 3 — Calculating Pell & IASG Awards

Additional Aid Eligibility for Children of Soldiers:
Zero EFC treatment or Iraq & Afghanistan Service Grant

July 30, 2010 E-Announcement, February 11, 2011 E-Announcement

An otherwise-Pell eligible student whose parent or guardian died as a result of U.S. military service in Iraq or Afghanistan after September 11, 2001, may receive increased amounts of Federal Student Aid if the student was less than 24 years old when the parent or guardian died, or enrolled at an institution of higher education at the time of the parent or guardian's death. There are two different provisions for such students, depending on whether the student has an EFC that falls within the range for Pell eligibility or not.

Zero EFC treatment for children of soldiers
A school must use an EFC of 0 to package all Federal Student Aid if the student meeting the above criteria has a Pell-eligible EFC. (Note that the zero EFC is only used for packaging purposes, you do not actually change the student's calculated EFC.)

When submitting an origination to COD for a student of this type, you must include the CPS transaction containing the DoD Match Flag set to “Y,” or the award will not be accepted.

A student with an EFC that is not Pell eligible is potentially eligible to receive an award under the new Iraq & Afghanistan Service Grant program (see IASG column to the right).

Iraq and Afghanistan Service Grant
To receive the Iraq & Afghanistan Service Grant, the student must have an EFC that is not Pell eligible. (The student must meet the other criteria for Pell eligibility.)

Iraq & Afghanistan Service Grants are made under the same terms and conditions as Pell, and disbursements for each payment period are calculated in the same manner as described in this chapter for Pell. Use the following annual award amounts for each enrollment status: full-time: $5,550, three-quarter-time: $4,163, half-time: $2,775, and less-than-half-time: $1,388

When submitting an origination to COD for a student of this type, you must include the CPS transaction containing the DoD Match Flag set to “Y,” or the award will not be accepted.

The award may not exceed the student’s cost of attendance. Iraq and Afghanistan Service Grants are not considered Estimated Financial Assistance for packaging purposes. For more detail on packaging awards, see Chapter 7 of this Volume.

Identification of eligible students & notification by ED:
The Department will notify schools when a student appears to meet the criteria for Zero EFC treatment for the Iraq & Afghanistan Service Grant, based on a match with a Department of Defense (DoD) file of eligible dependents. The match will be performed when a student submits a FAFSA or FAFSA correction (and periodically thereafter). When an eligible student is identified, ED will generate a Central Processing System (CPS) transaction for the student, and the resulting ISIR will include a “DoD Match Flag,” associated comment code 298, and the parent or guardian's date of death.

Use the flag and date of the parent or guardian's death, along with the student's calculated EFC, to determine if the student is eligible for either Zero EFC treatment for children of soldiers, or an award under the Iraq & Afghanistan Service Grant program. ED will also send a letter to each matched student that informs the student of his or her possible increase in eligibility for FSA funds. The letter advises the student to contact his or her financial aid administrator for more information.
TERMS AND PAYMENT METHODS FOR CALCULATING PELL

Generally, if all the coursework is scheduled to be completed within a specific time frame, the program can be considered term-based. Term-based programs can have either standard terms or nonstandard terms. Generally, Pell Grants are calculated differently for the two types of terms. Standard term programs may be treated similarly to nonstandard term programs if the program does not conform to a traditional academic calendar or meet certain other conditions.

**Standard terms**

Standard terms are semesters, trimesters, or quarters, as these words are traditionally used. In traditional usage, an individual semester or trimester provides about 14 to 17 weeks of instructional time and full-time is defined as at least 12 semester or trimester hours. The program’s academic calendar generally consists of three terms, one each in fall, spring, and summer. In traditional usage of the term “quarter,” an individual quarter provides about 10 to 12 weeks of instructional time, and full-time is defined as at least 12 quarter hours. The program’s academic calendar generally includes three quarters in the fall, winter, and spring and often a summer quarter as well.

**Nonstandard terms**

Any term that isn’t one of the standard terms described above is a nonstandard term. Sometimes schools refer to terms by standard names when they are, in fact, nonstandard terms. For example, a program may be made up of terms called quarters but progress is measured in semester hours.

**Nonterm programs**

Nonterm programs may be measured in either clock hours or credit hours. If the courses of a program are not offered in an academic calendar requiring the completion of the courses within the beginning and end dates of the terms, it is likely a nonterm program.
Chapter 3 — Calculating Pell & IASG Awards

CREDIT-HOUR TERM-BASED PROGRAMS

Annual award based on enrollment status

In a term-based program, academic progress is always measured in credit hours, and the student’s annual award depends on his or her enrollment status. Your school’s standards for enrollment status must meet the minimum regulatory requirements, which are discussed in further detail in Volume I: Student Eligibility (Chapter 1).

For standard terms, the minimum enrollment standards are:

- Full-time: 12 semester hours per semester/trimester 12 quarter hours per quarter
- 3/4-time: 9 semester hours per semester/trimester 9 quarter hours per quarter
- 1/2-time: 6 semester hours per semester/trimester 6 quarter hours per quarter
- Less than 1/2-time: less than half of the workload of the minimum full-time requirement.

If the student is enrolled full-time, then the annual award is the Scheduled Award, which is based on the full-time payment schedule. If the student is attending part-time, you must use the 3/4-time, 1/2-time, or less than 1/2-time disbursement schedules, depending on the number of credit hours in which the student enrolls. If the student is enrolled less-than-half-time, it will also affect the cost components that are used in the student’s Budget (see Chapter 2). Schools do not have the discretion to refuse to pay an eligible part-time student, including during a summer term or intersession.

On the appropriate full-time or part-time Payment or Disbursement schedules, use the student’s Cost of Attendance and EFC to look up the Pell annual award for the year at that enrollment status. Most student aid software programs, such as EDExpress, will do this for you automatically, but you can also refer to the Pell schedules online at the IFAP website.

Pell Grant payments by term

Pell Grants must be paid in installments over the course of a program of study to help meet the student’s cost in each payment period. The payment period affects when Pell funds are disbursed and the exact amount to be disbursed. For credit-hour term programs, the payment period is the term. If the student doesn’t enroll in one of the terms, he or she won’t receive a portion of the award for that payment period. If the student’s enrollment status changes in the next term, his or her annual award will be different for that term. (See discussion of terms and payment methods.)

Academic calendar & enrollment status changes

Because the academic calendar for a program determines which Pell formula you use, you need to review the conditions for the use of each formula if the calendar for the program changes. This is particularly true if you are using Formulas 1 and 2, since they have the most restrictive conditions.

If a student’s enrollment status changes during the year, your school may have to recalculate the student’s Pell Grant payment based on the new enrollment status. At the end of this chapter we’ll discuss when a school is required to recalculate due to a change in enrollment status.

34 CFR 690.63
34 CFR 690.80(b)

Enrollment status under consortium agreement

The enrollment status of a student attending more than one school under a consortium agreement is based on all the courses taken that apply to the degree or certificate at the home institution. The disbursing school may have to make some adjustments if the coursework at the other school is measured in different units.

Enrollment status for cooperative education

In a cooperative education program, your school assesses the work to be performed by the student and determines the equivalent academic course load. The student’s enrollment status is based on the equivalent academic course load.

Including remedial coursework in enrollment status

When determining enrollment status, your school must include any reduced-credit or noncredit remedial coursework designed to increase the student’s ability to pursue his or her program of study. See the discussion of “Enrollment Status” in Volume I: Student Eligibility (Chapter 1).
Variations in enrollment status standards

If any program uses standard terms, the enrollment status standards in the program don’t have to be proportional—for instance, a program could have a 15-hour standard for full-time enrollment, but set a 9-hour minimum for 3/4-time status and a 6-hour minimum for 1/2-time status.

In addition, your school’s academic standard may differ from the enrollment standard used by the financial aid office for FSA purposes. For example, your school may define full-time as six hours during the summer; however, the financial aid office uses 12 hours as full-time for all terms including the summer term. Your school must apply its FSA full-time enrollment standards consistently to all students enrolled in the same program of study for all FSA purposes. For more on enrollment status, see Volume 1, Chapter 1.

Enrollment status for students taking regular and correspondence courses

If a student is enrolled in a non-correspondence study program, but correspondence coursework is combined with regular coursework, the correspondence courses must meet the following criteria to be included in the student’s enrollment status:

- The courses must apply toward the student’s degree or certificate or must be remedial work to help the student in his or her course of study.
- The courses must be completed during the period required for the student’s regular coursework, e.g., a term.
- The amount of correspondence work counted can’t be more than the number of credit hours of regular coursework in which the student is enrolled.

If the student is taking at least a half-time load of correspondence courses, the student would be paid as at least a half-time student, regardless of the credit hours of regular coursework. A student will be paid as a less-than-half-time student for any combination of regular and correspondence work that is less than 6 credit hours or the appropriate equivalent of half-time.

<table>
<thead>
<tr>

</table>

This chart assumes that the school defines full-time enrollment as 12 credit hours per term, and half-time enrollment as 6 credit hours per term. As you can see in the second and third examples, the number of correspondence hours counted in the total course load was adjusted so that the correspondence hours never exceeded the regular hours taken. Note that in the last example, the student is eligible for payment based on half-time enrollment in correspondence courses, despite the fact that the student only took 2 credit hours of regular coursework.
FORMULA 1: CREDIT-HOUR TERM-BASED PROGRAMS

For you to be able to use Formula 1, the program must meet one of two sets of requirements.

For a program with a traditional academic calendar, the program:

- must have an academic calendar that consists, in the fall through spring, of two semesters or trimesters, or three quarters (note that summer may not be a standard term);
- must have at least 30 weeks of instructional time in fall through spring terms;
- must not have overlapping terms; and
- must define full-time enrollment for each term in the award year as at least 12 credit hours and must measure progress in credit hours.

Other programs offered in standard terms may use Formula 1 if they start the terms for different cohorts of students on a periodic basis (for example, monthly). These programs:

- must have an academic calendar that consists exclusively of semesters, trimesters, or quarters;
- must have at least 30 weeks of instructional time in any two semesters or trimesters or any three quarters;
- must start the terms for different cohorts of students on a periodic basis (for example, monthly);
- must not allow students to be enrolled in overlapping terms and must stay with the cohort in which they start unless they withdraw from a term (or skip a term) and re enroll in a subsequent term.
- must define full-time enrollment for each term in the award year as at least 12 credit hours and must measure progress in credit hours.

For formula 1, the term is the payment period, and you divide the student’s award by the number of terms in the program’s FSA academic year.
Formula 1: Basic Calculation

In Formula 1, the annual award is simply divided by the number of terms in the fall through spring at a school with a traditional academic calendar.

Take the case of Jeff, who is enrolled full-time in a program that has an academic year of 30 weeks of instructional time and 24 semester hours. The program has fall and spring semesters that provide a total of 30 weeks of instruction and a 12 week summer nonstandard term with 12 semester hours as full-time. Jeff has a Scheduled Award of $3,040, and since he is enrolled full-time, that is also his annual award. Since the fall through spring has standard terms, it doesn’t matter that the summer term is nonstandard; you still calculate summer payment based on Formula 1.

\[
\frac{3,040}{2} = 1,520 \text{ disbursement for a quarter}
\]

The same formula would be used if Jeff enrolled in a program that has fall, winter, and spring quarters that provide at least 30 weeks of instruction and has a summer term with 12 quarter hours as full-time. The only difference is that Jeff’s annual award of $3,040 is divided by 3.

\[
\frac{3,040}{3} = 1,013.33 \text{ disbursement for each payment period}
\]

Note that Jeff is receiving a full Scheduled Award because he is attending for two semesters or three quarters as a full-time student and has no remaining eligibility for the summer payment period included in the award year.
Majel is enrolled full-time at Roddenberry University in a program that has an academic year of 36 weeks of instructional time and 36 quarter hours and is offered exclusively in quarters. A new cohort of students starts a quarter on the first workday of each month, and a student is not allowed to take courses in overlapping terms outside that student’s cohort.

Any three quarters of the program provide at least 36 weeks of instructional time since each quarter is 12 weeks of instructional time in length. To be full-time a student must be enrolled in at least 12 quarter hours for a quarter. Majel has a Scheduled Award of $5,550, and since she is enrolled full-time, that is also her annual award.

Because any three quarters is at least 30 weeks of instructional time and the academic year encompasses three quarters, Majel’s payment for each payment period is calculated by dividing the annual award by 3:

\[
\frac{5,550}{3} = 1,850
\]

Note that Majel is receiving a full Scheduled Award because she is attending for three terms as a full-time student and has no remaining eligibility for the next payment period if it is included in the same award year.
Micki enrolls full-time in the fall semester. She has a cost of $10,000 and EFC of 100, so her Scheduled Award, taken from the full-time payment schedule, is $5,500. Since she’s attending full-time, this is also her annual award. If your school defines its academic year as 30 weeks of instructional time and 24 semester hours, Micki’s annual award is divided by 2 to arrive at the disbursement for the fall semester.

$$\frac{5,500}{2} = 2,750 \text{ for Fall}$$

Micki decides that a full-time schedule is too ambitious, so she enrolls in the spring term as a 3/4-time student. Her EFC is the same, and even though her tuition is slightly less, the Pell award is still based on full-time costs. However, her annual award is now based on the 3/4-time disbursement schedule, so her spring payment will be less than her fall payment.

$$\frac{4,125}{2} = 2,062.50 \text{ for Spring}$$

Note that Micki’s Scheduled Award is still $5,500, and she has only received $4,812.50. This means that she is still eligible for up to $687.50 in Pell funds from her Scheduled Award if she attends a summer term assigned to the same award year.
**FORMULA 2: STANDARD-TERM PROGRAMS WITH LESS THAN 30 WEEKS IN THE FALL THROUGH SPRING**

Formula 2 may be used for programs that would qualify for Formula 1 except that the program’s academic calendar provides less than 30 weeks of instructional time in the fall through spring terms. Like Formula 1, it simplifies the calculation payments by providing for the same calculation for all payment periods in the award year. Only a small number of schools use Formula 2; therefore, it is covered in Appendix A of this chapter.

**FORMULA 3: GENERAL FORMULA FOR ANY TERM-BASED PROGRAM**

Any term-based program may use this formula for Pell calculations, but you must use this formula for a term-based program that does not qualify for Formulas 1 or 2, for instance, a program that uses only nonstandard terms.

To calculate the payment for the term, you must prorate the annual award that you looked up on the appropriate Pell Grant payment or disbursement schedule. Unlike the term calculation in Formula 1, the annual award can’t simply be divided evenly among the terms. Instead, you must multiply the annual award by a fraction that represents the weeks of instructional time in the term divided by the weeks of instructional time in the program’s academic year.

\[
\text{weeks* in term} \div \text{weeks* in academic year (at least 30)}
\]

If the resulting amount is more than 50% of the annual award, your school generally (see exception in sidebar) must make the payment in at least two disbursements in that payment period regardless of whether the term is a standard term or a nonstandard term. A single disbursement for a payment period can generally not be for more than 50% of the annual award. You may disburse more than 50% of the annual award once the student has completed half of the weeks of instructional time in the program’s academic year definition.

**Enrollment status standards for nonstandard terms**

If you are using Formula 3 for a program that contains standard terms, the minimum enrollment standards previously discussed would still apply for the standard terms. However, if a program has nonstandard terms, the enrollment standard must be calculated for the nonstandard terms. The full-time enrollment status is determined for a nonstandard term based on the length of the term in relation to the academic year**

\[
\text{Credit hours in academic year} \times \frac{\text{weeks* in nonstandard term}}{\text{weeks* in academic year (at least 30)}}
\]

** If the resulting number isn’t a whole number, it is rounded up to the next whole number. For example, 3.3 is rounded up to 4, if the program’s coursework is offered in whole credits. If the program’s coursework is offered in fractions, the full-time enrollment status need not be rounded. For example, 3.3 would remain 3.3 as full-time and a student taking 3.4 credits in the term would be full-time.

---

**Regulatory citations**

Formula 3 described: 34 CFR 690.63(a)(3)

Enrollment status for nonstandard terms: 34 CFR 668.2

Disbursement cannot exceed 50% of the annual award: 34 CFR 690.63(f)

**Fractions**

Remember when using fractions, multiply first, and then divide. Dividing the fraction first to produce a decimal can cause an error if you need to round the decimal up or down.

* These fractions use weeks of instructional time as defined in Chapter 1, which are not necessarily the same number as the calendar weeks in an academic year.
After you determine the number of credit hours required for full-time enrollment, you can then determine the less-than-full-time status for the nonstandard term using the following formula:

\[
\frac{\text{Credit hours student takes in the nonstandard term}}{\text{Credit hours required for full-time enrollment in the nonstandard term}}
\]

**Formula 3: Payments for standard terms**

Hodge College has a semester-based program with a 2-semester academic calendar that comprises 28 weeks of instructional time. The program’s academic year is defined as 24 semester hours and 30 weeks of instructional time. If both semesters are 14 weeks in length, the Pell payment for a full-time student with a Scheduled Award of $4,540 would be calculated as follows:

\[
\frac{14 \text{ weeks* in term}}{30 \text{ weeks* in academic year}} \times 4,540 = 2,118.66
\]

**Formula 3: Payments for nonstandard terms of equal length**

Just a few miles down the road from Hodge, Greenway University has a program that consists of four 8-week terms. Greenway University defines the academic year as 40 quarter hours and 32 weeks of instructional time. Because this program does not use standard terms (semesters, trimesters, or quarters), Greenway University must use Formula 3 to calculate Pell disbursements for students in the program. Let’s use the example of a student who attends all four terms for 10 quarter hours each term in the 2011-2012 award year, and has a Scheduled Award of $3,740.

Because the program has nonstandard terms, Greenway University must determine the number of credit hours required for full-time enrollment in each term, as follows:

\[
\frac{8 \text{ weeks* in term}}{32 \text{ weeks* in academic year}} \times 40 \text{ quarter hours} = 10 \text{ quarter hours}
\]

A student enrolled for 7 hours could be paid as a half-time student (7/10 = .7, which is less than 3/4 [.75] but greater than 1/2 [.5]). Since the student in our example will be enrolled for 10 hours each term, she is a full-time student and her annual award is the same as her Scheduled Award. This is a term-based, credit-hour program, so the payment period is the term.

To determine the student’s payment for each payment period, multiply her annual award by the length of the nonstandard term compared to the length of the academic year:

\[
\frac{8 \text{ weeks* in term}}{32 \text{ weeks* in academic year}} \times 3,740 = 935
\]

*These fractions use weeks of instructional time as defined in Chapter 1, which will not necessarily be the same number as the calendar weeks in an academic year.
Chapter 3 — Calculating Pell & IASG Awards

Formula 3: Payments for nonstandard terms of unequal length

Bob is enrolled in a semester-hour program at Dalaran University that has a 10-week nonstandard term between two 12-week nonstandard terms. The terms do not overlap. The academic year for the program is defined as 34 weeks of instructional time and 24 semester hours. Courses are offered in whole credits. Dalaran must use Formula 3 to calculate Pell Grant payments for students in this program. He enrolls for 6 semester hours in each of the three terms. Because the program has nonstandard terms, Dalaran must determine the number of credit hours required for full-time enrollment in each term, as follows.

For the first and third term:

\[
\frac{12 \text{ weeks}^* \text{ in term}}{34 \text{ weeks}^* \text{ in academic year}} \times 24 \text{ semester hours} = 8.47 \text{ (round up to 9)}
\]

For the second term:

\[
\frac{10 \text{ weeks}^* \text{ in term}}{34 \text{ weeks}^* \text{ in academic year}} \times 24 \text{ semester hours} = 7.06 \text{ (round up to 8)}
\]

A student must enroll in 9 semester hours (rounded up from 8.47) in the first and third terms, and 8 semester hours (rounded up from 7.06) in the second term, to be full-time. Bob is enrolled half-time in the first and third terms (6 semester hours/9 semester hours = .67). He is enrolled three-quarter time in the second term (6 semester hours/8 semester hours = .75). The cost of attendance does not need to be prorated because the fall through spring terms provide the same number of weeks of instructional time as in the academic year definition. Further, the school has determined the costs for a full-time student for a full academic year.

The half-time disbursement schedule shows that Bob is eligible for an annual award of $2,050. Because this is a term-based credit-hour program, the payment period is the term. To calculate Bob’s payment for the first and third terms, the school uses the fraction 12/34:

\[
\frac{12 \text{ weeks}^* \text{ in term}}{34 \text{ weeks}^* \text{ in academic year}} \times \$2,050 = \$723.53
\]

Bob’s payment for each of the first and third terms will be $723.53.

Since Bob’s enrollment status for the middle term is three-quarter time, the payment for that term is based on a three-quarter-time annual award of $3,075. To calculate the payment for the middle term, the school uses the fraction 10/34:

\[
\frac{10 \text{ weeks}^* \text{ in term}}{34 \text{ weeks}^* \text{ in academic year}} \times \$3,075 = \$904.41
\]

Bob’s payment for the middle term (the second payment period) is $904.41.

*These fractions use weeks of instructional time as defined in Chapter 1, which will not necessarily be the same number as the calendar weeks in an academic year.
Formula 4 requirements
34 CFR 690.63(a) and (e). All clock-hour and nonterm credit-hour programs must use Formula 4.

Enrollment status standards for clock-hour and other nonterm programs
For nonterm programs, the enrollment minimums are:
- Full-time in credit hours: 24 semester hours, 24 trimester hours, or 36 quarter hours per academic year.
- Less than 1/2-time status is defined as less than half of the workload of the minimum full-time requirement.
- Full-time in clock hours: at least 24 clock hours per calendar week.

Coursework completion requirement & withdrawal/re-entry
Students in nonterm programs must successfully complete a payment period to receive subsequent payments. We'll discuss the effect of withdrawal and re-entry into a program in Volume 5.

Receiving less than the Scheduled Award due to crossover
A student may also receive less than a Scheduled Award in an award year, if the program crosses award years and the student’s Pell Grant award in one of the award years is for a portion of the program that is less than a full academic year.

FORMULA 4: CLOCK-HOUR AND NONTERM CREDIT-HOUR PROGRAMS

Checking 1/2-time enrollment status
For clock-hour programs and for nonterm credit-hour programs, enrollment status only makes a difference if the student is attending less-than-half-time. If that’s the case, only certain components of the cost of attendance are used. (See discussion in Chapter 2.)

The annual award for a student in a clock-hour or nonterm credit-hour program is taken from the full-time payment schedule, even if the student is attending less than full-time.

Calculating payment amounts
Pell Grants must be paid in installments over the course of the academic year or program of study to help meet the student’s cost in each payment period. The payment period determines when Pell funds are disbursed and the exact amount to be disbursed. You must use the rules discussed in Chapter 1 to determine the payment periods for clock-hour and nonterm credit-hour programs.

In nonterm programs, the student’s Pell award is not reduced for part-time enrollment unless the student is enrolled less than half-time in which case the student’s cost of attendance must be adjusted. However, if the program is less than an academic year (in either clock/credit hours or weeks of instructional time), students enrolled in that program won’t receive a full Scheduled Award.

As in the case of the other formulas, you must perform comparable prorations of the award for each payment period in the student’s program. The calculation for the payment period prorates a student’s Scheduled Award based on the number of credit or clock hours in the payment period as they compare to the credit or clock hours in the defined academic year or the number of weeks of instructional time in the payment period as they compare to the weeks of instructional time in the academic year. To determine the payment for a payment period, multiply the student’s Scheduled Award by the lesser of:

\[
\text{Number of credit/clock hours in the payment period} \div \text{Number of credit/clock hours in the program’s academic year}
\]

or

\[
\text{Weeks* in the payment period} \div \text{Weeks* in the program’s academic year (at least 30 for credit-hour, at least 26 for clock-hour)}
\]

*These fractions use weeks of instructional time as defined in Chapter 1, which are not necessarily the same number as the calendar weeks in an academic year.
Payments for credit-hour nonterm program (Formula 4)

Chance is enrolled at Tinkers Technical Institute (TTI) and has a Scheduled Award of $4,190. His program is 24 quarter hours and 20 weeks of instructional time in length. The academic year for the program is defined as 36 quarter hours and 30 weeks of instructional time. TTI has established two payment periods of 12 quarter hours and 10 weeks* each for Chance’s program. To determine the disbursement for the payment period, TTI must multiply the Scheduled Award by the lesser of the fraction comparing the hours in the payment period to the hours in the academic year, or the fraction comparing the weeks in the payment period to the weeks in the academic year. The two possible calculations would be as follows:

1) 12 quarter hours in payment period \( \frac{12}{36} \) X $4,190 = $1,396.67; or
2) 10 weeks* in payment period \( \frac{10}{30} \) X $4,190 = $1,396.67

Since the two resulting fractions (12/36 and 10/30) are the same, there technically is no "lesser" fraction and you use either to get $1,396.67. Thus, Chance’s payment for the first payment period will be $1,396.67. Chance can receive this payment when he begins the program. TTI can make the payments of $1,396.67 for the second payment period after TTI has determined that Chance has successfully completed 12 quarters hours and 10 weeks of instructional time of the program.

Payments for clock-hour program (Formula 4)

Chance is enrolled in a program 900 clock-hours and 22 weeks of instructional time in length at Evers Technical Institute (ETI) and is eligible for a Scheduled Award of $2,640. ETI defines the academic year for the program based on the regulatory minimums: 900 clock hours and 26 weeks of instructional time. To calculate Chance’s payment, ETI calculates the payment for each payment period as follows: It multiplies the Scheduled Award ($2,640) by the lesser of the fraction comparing the hours in the payment period to the hours in the academic year, or the fraction comparing the weeks in the payment period to the weeks in the academic year. The two possible calculations would be as follows:

1) 450 clock hours in the payment period \( \frac{450}{900} \) X $2,640 = $1,320; or
2) 11 weeks* in the payment period \( \frac{11}{26} \) X $2,640 = $1,117

Chance’s payment for the first payment period will be $1,117. He can get this payment when he begins the program. He can receive his second payment of $1,117 after he successfully completes the 450 clock hours in the first payment period.

*The fractions in these examples use weeks of instructional time as defined in Chapter 1, which will not necessarily be same number as the calendar weeks in an academic year.
SUMMER TERMS & OTHER “CROSSOVER PAYMENT PERIODS”

Payment periods don’t always fall neatly into one award year or another. When a payment period falls into two award years—that is, it begins before July 1 and ends on July 1 or later—it’s called a “crossover payment period.”

The formula for calculating the payment for a crossover payment period is the same as that for any other payment period in the award year.

Crossover payment from the proper award year

For Pell purposes, you must consider a crossover payment period to occur within one award year and calculate the student’s Pell award and disburse Pell funds from the award year selected. You may assign two consecutive crossover payment periods to the same award year. You may assign the Pell award to a different award year than the rest of the student’s Title IV aid. You can make a payment for a crossover payment period out of either award year, if the student has a valid SAR/ISIR for the award year selected.

You may assign two consecutive payment periods to the same award year. For example, you could treat summer 2011 and summer 2012 as both being in the 2011-2012 award year.

With the exception of 2011 crossover periods for which you are awarding a 2nd Pell Grant Scheduled Award (which may only be paid out of 2010-11 funds), you must always assign the payment period to the award year in which the student would receive the greater payment (and must pay with funds from the corresponding award year), based on all of the information available when you initially calculate Pell for the student, (i.e., not based on EFC or Scheduled Award alone), keeping in mind that:

- prior enrollment during the same award year will reduce the student’s remaining Pell eligibility (as measured as a percentage of the 1st Scheduled Award), and
- the student may be eligible for a 2nd scheduled award during the award year (last chance to award is 2011 crossover periods).

If you only have a valid SAR/ISIR from one award year, you must rely on that record and the award year to which the SAR/ISIR pertains.

Besides these considerations, the decision about which award year to use is usually based on the student’s remaining eligibility in the earlier award year.
Term schools: using the right formula for summer session

If your school offers a summer term in addition to Fall through Spring terms that qualify for Formula 1 or 2, you will calculate the student’s payment for the summer term using the same Formula that you used to calculate payments for the other terms in the award year to which the summer term is assigned. If you use Formula 3 for Pell Grant calculations in any of the terms in an award year, then you must use Formula 3 for all terms in that program that occur in that award year, including the fall through spring terms. (Note that if your program is a standard-term program in the fall through spring and does not define full-time enrollment in the summer as at least 12 credit hours, you must use Formula 3 for Pell calculations for all terms in the award year.) With regard to enrollment status, your school must apply its definition of full-time status for the summer term consistently for all FSA program purposes.

The cost of attendance for summer terms

Costs for summer terms are figured in the same way as for any other payment period; that is, the costs are based on a full-time student for a full academic year. If your school has fall and spring semesters that comprise an academic year, you can’t add the costs for the summer term to the costs for the fall and spring semesters. The award for the summer term is still based on the costs for one academic year. However, if the academic year definition includes the summer term, then the costs for the summer term must be included in the cost for a full academic year.

If the student was previously enrolled in the award year, you may be able to use the same cost of attendance for the summer term that it used for the immediately preceding term that the student attended. However, this isn’t possible if the costs are different from the fall through spring such as a different tuition charge per credit hour or you are required to recalculate the cost of attendance. (See the end of this chapter for information on when recalculations are required.) If it’s necessary to base the student’s cost of attendance on the summer term, you must prorate the summer costs to the length of an academic year to establish the cost for an academic year. (See Chapter 2 on prorating costs in the Pell Grant program.)

If the summer session is the first term in the award year for that student (for example, your school is paying a student for the summer 2011 term from the 2011-12 award year), you must establish the student’s full-year cost based on the costs for the summer term. If the student enrolls in another term in that award year, you may have to recalculate the student’s costs for the later term.
Summer minisessions

If a term-based school offers a series of minisessions that overlap two award years (by “crossing over” the June 30 end date for one award year), these minisessions may be combined and treated as one term. However, schools are not required to combine these minisessions unless they overlap each other.

When you combine minisessions into a single term (i.e., payment period), the weeks of instructional time in the combined term are the weeks of instructional time from the beginning of the first minisession to the date the last minisession ends. The student’s enrollment status for the entire payment period must be calculated based on the total number of credits the student is projected to take for all sessions. You must project the enrollment status for a student on the basis of the credits the student has:

- pre-registered or registered to take for all sessions;
- committed to take for all sessions in an academic plan or enrollment contract; or
- committed to take for all sessions in some other document.

When you combine the minisessions into a single term, a student cannot be paid more than the amount for one payment period for completing any combination of the minisessions. If the minisessions are not combined into a single payment period, you must treat each minisession as a separate nonstandard term and generally must use Formula 3 to calculate Pell Grant payments. If for each minisession you define full-time as at least 12 credit hours, you may be able to use Formula 1 or 2 if the program otherwise qualifies for one of these formulas.

If a combined minisession term crosses over the June 30-July 1 date, the combined term must be treated as a crossover payment period, regardless of what classes students attend. If your program has 2 summer sessions and only 1 of the sessions crosses over the award year date boundary and you do not combine the sessions into a larger term, then only the term that actually spans the award year boundary is considered a crossover payment period.

If the minisessions are combined in a single term and a student does not begin attendance in all of the minisessions, recalculation of prior disbursements is required based on the resulting changed enrollment status as discussed later in this chapter.

---

### Minisession Enrollment Status Example

Bob is enrolled in a summer session with three-week minisessions that his school, Falcon University, has combined into 1 term. Falcon U. is using Formula 1 to calculate Bob’s combined term, and knows as such they must define full-time enrollment as at least 12 credit hours, even though the individual component minisessions may have originally considered full-time to be something less than 12 credit hours. Bob is enrolled for 6 credits during the combined summer minisession term. Bob’s enrollment status is equal to the proportion of his credits to the school’s definition of full-time for the combined term. Therefore, Bob should be credited with half-time enrollment status for the combined summer term.

### Formula 3 minisessions and other nonstandard terms

If you use Formula 3 for any of the summer minisessions, or any other nonstandard term, e.g., a winter intersession, remember that you must also use it for all other terms in the award year, including Fall through Spring.
Chapter 3 — Calculating Pell & IASG Awards

Gary enrolls part time at Jackson University which defines its academic year as 24 semester hours and 30 weeks of instructional time. In addition to fall and spring semesters, Jackson offers three summer minisessions. Each minisession provides 4 weeks of instructional time. Jackson can either combine the minisessions into a single nonstandard term, or treat each session as a separate nonstandard term. The school chooses to combine the sessions into a single payment period providing 12 weeks of instructional time with full-time enrollment in this period defined as 12 semester hours. If Jackson meets the conditions for use of Formula 1 in its fall and spring semesters, it can use Formula 1 to calculate Pell payments for this summer session.

Gary enrolls for 3 semester hours in each of the minisessions, so he’s enrolled three-quarter time (9 hours total in the combined term). His applicable Scheduled Award is $3,540 and his annual award (from the 3/4-time disbursement schedule) is $2,655. To calculate Gary’s payment, Jackson simply divides the annual award by 2, the number of terms in the fall through spring: $2,655 / 2 = $1,327.50.

Suppose Jackson didn’t combine these minisessions. If it defined full-time enrollment for each 4-week minisession as less than 12 semester hours, it would have to calculate all Pell payments for the program using Formula 3. Because these are nonstandard terms, Jackson would have to determine Gary’s enrollment status for each mini-session by prorating the standard for full-time enrollment in a full academic year (24 semester hours):

\[
\frac{4 \text{ weeks* in term}}{30 \text{ weeks* in academic year}} = 3.2 \text{ semester hours (round up to 4**)}
\]

For each of the 4-week terms, a full-time student must enroll in 4 semester hours, and based on that standard, the 3 semester hours that Gary is attending in each minisession counts as 3/4 time enrollment status. Note that Jackson would use the Pell cost of attendance for a full-time student attending a full academic year. Jackson would determine his payment for each minisession (assuming his Scheduled Award remains unchanged across both award years and that he is not receiving a 2nd Scheduled Award within 1 award year) using the following calculation:

\[
\frac{4 \text{ weeks* in term}}{30 \text{ weeks* in academic year}} \times 2,655 = 345.15.
\]

Gary would receive $345.15 for each of the minisessions, for a total of $1,035.45 for the summer. Again, these payments for one or more minisessions that are in the prior award year may need to be reduced if Gary had previously received payments for the fall and spring semesters in the same award year. Also, Jackson must use Formula 3 for the fall through spring terms.

** since Jackson only offers courses in whole credits

*These fractions use weeks of instructional time as defined in Chapter 1, which are not necessarily the same number as the calendar weeks in an academic year.
TRANSFER STUDENTS

The Pell payment for a transfer student is calculated in the same way as for any new student. That is, you must calculate payments for each payment period following the rules given in this chapter. However, a transfer student’s remaining Pell eligibility at your school is reduced if the student received Pell funds for the same award year at any prior schools. You can identify the student’s prior Pell disbursements when you review his or her Financial Aid History in NSLDS (see sidebar).

Calculating remaining eligibility

Once you’ve identified the Pell amounts that a transfer student has already received for the ongoing award year, you must calculate the percentage of the Scheduled Award that has been used. This percentage is calculated by dividing the amount disbursed at the previous school by the student’s Scheduled Award at that school.

\[
\text{Percent of remaining eligibility} = \frac{\text{Pell disbursed at prior school}}{\text{Scheduled Award at prior school}} \times 100 \%
\]

Then subtract this percentage from 100%. The result is the maximum percentage of the Scheduled Award that the student may receive at your school. Note that a transfer student receives the same payments as any other student until the limit (100% of a Scheduled Award) is reached. You give the student the full amount for each payment period, rather than trying to ration the remaining amount by splitting it evenly across the remaining terms.

A transfer student may be eligible for a second Pell Grant Scheduled Award after he or she has received all of his or her first Scheduled Award (for 2011-12, a 2nd Pell may only awarded for a crossover payment period in 2011, and must be sourced out of 2010-11 funds; if the student has exhausted Pell eligibility for 2010-11, they may not receive a further Pell funds.

Payment period for a transfer student at a nonterm school

When a student transfers into a nonterm credit-hour or clock-hour program at a new school, that student is starting a new payment period. For nonterm programs, you must use the payment period rules described in Chapter 1 to determine the payment periods for the remainder of the student’s program.

However, for a transfer student, the length of the program is the number of clock or credit hours and the number of weeks of instructional time that the student will be required to complete in the new program. If the remaining clock or credit-hours or weeks of instructional time are half an academic year or less, then the remaining hours and weeks of instructional time constitute one payment period.
AWARDING REMAINING PELL ELIGIBILITY

Consider a student who is eligible for Federal Pell Grant funds and who transfers from one school (school A) to another school (school B) within the same award year. Before paying any Pell funds to the student, school B must determine the percentage of eligibility remaining to the student. After transferring, a student’s remaining Pell Grant eligibility for a Pell Scheduled Award (they may be eligible for a second Scheduled Award) during an award year is equal to the percentage of the student’s Scheduled Award that remains unused, multiplied by the student’s Scheduled Award at the new school.

School B may pay the student a Pell Grant only for that portion of an academic year in which the student is enrolled and in attendance at school B. The grant must be adjusted, as necessary, to ensure that the funds received by the student for the award year do not exceed the student’s Scheduled Award for that award year.

The award for each payment period is calculated using the (full) Scheduled Award. The student receives a full award until the student has received 100% of the student’s remaining eligibility for a Scheduled Award. This avoids a school having to ration the remaining amount by splitting it evenly across the remaining terms.

To calculate a transfer student’s remaining eligibility for a Scheduled Award, school B must first determine what percentage of the Scheduled Award the student used at school A. On the student’s current ISIR, on the Financial Aid History Page, in a section headed Pell Payment Data, school B will find an entry for % Sch. Used. School B subtracts the percentage listed under % Sch. Used from 100%.

The remainder is the unused percentage of the student’s Scheduled Award— the percentage the student may receive at school B. (Use percentages rather than dollars because a transfer student may have different Scheduled Awards at the two schools; using percentages rather than dollars adjusts for this possible difference.) School B then multiplies the percent of eligibility remaining times the Scheduled Award at the new school. The result is the maximum amount of Federal Pell Grant funds the student may receive for their first Scheduled Award (see sidebar) at school B during the balance of the award year.

Transfers and remaining eligibility

34 CFR 690.65

Note: Following the appropriate procedures relative to the figure reported in % Sch. Used will ensure that a transfer student does not receive more than 100% of the student’s Scheduled Award. Therefore, school B may ignore the actual grant and overpayment amounts from school A in school B’s calculations.

Avoiding Pell Grant Overawards

A Pell Grant overaward can be caused by a school making an error in reading the (correct) Pell Payment Schedule, for example, using the wrong EFC or COA.

A Pell Grant overaward can also be caused by a school using the wrong payment schedule, as when it uses the full-time schedule to determine the award for a student who is not registered as a full-time student, or who reduced his/her enrollment schedule to less than full time before beginning attendance in all classes.

A Pell Grant overaward can also result if an applicant enters incorrect data on a FAFSA and the EFC derived from the incorrect data is smaller than it should be (for more detail about the FAFSA and EFC data, see the Application and Verification Guide).

A Pell overaward also exists if the student scheduled to receive it fails to begin class or is otherwise determined to be ineligible for FSA assistance.

Finally, an overaward exists whenever a student is scheduled to or is receiving a Pell Grant for attendance at two or more schools at the same time. All of these Pell Grant overawards must be corrected (for more detail on the methods and requirements of resolving overawards, see Volume 5, Chapter 1).
RECALCULATIONS

In certain cases, you may have to recalculate the student’s Pell Grant after the initial calculation or disbursement, to account for changes to the student’s costs, EFC, or enrollment status. For more information on how to resolve overawards, see Volume 5, Chapter 1.

Change in the EFC (recalculation required)

If the student’s EFC changes due to corrections, updating, or an adjustment, and the EFC change would change the amount of the Pell award, you must recalculate the Pell award for the entire award year. If, as a result of the recalculation, the student has received more than his or her award amount, then the student has received an overpayment. In some cases, you may be able to adjust an award by reducing or canceling later payments to the student in the same award year. However, if the overpayment can’t be eliminated, you must follow the procedures in Volume 5 of the FSA Handbook.

A student selected for verification can’t increase his or her eligibility based on a corrected output document that you receive during the “verification extension” (120 days after the student’s last day of enrollment, not to extend beyond the deadline date established by a Federal Register notice). For example, if the student submits a reprocessed SAR during the extension period and the SAR has a lower EFC than the previous SAR (increasing the student’s eligibility), you may not recalculate the student’s Pell Grant based on the later SAR. The student would be paid based on the higher EFC on the SAR that was submitted earlier. However, if the corrections reduce the student’s eligibility (that is, if the reprocessed SAR had a higher EFC), then the award must be calculated based on the reprocessed SAR.

Change in enrollment status between terms (recalculation required)

In a term program that uses credit hours, you must calculate a student’s payment for each term based on the enrollment status for that term. If a student attended full-time for the first term and then enrolled half-time in the second term, you must use the half-time enrollment status to calculate the student’s payment for the second term.

If the student has already been paid based on the original EFC, the award will have to be recalculated.
Student doesn’t begin attendance in all classes within a term
(recalculation required)

If the student doesn’t begin attendance in all of his or her classes, resulting in a change in the student’s enrollment status, you must recalculate the student’s award based on the lower enrollment status. A student is considered to have begun attendance in all of his or her classes if the student attends at least one day of class for each course in which that student’s enrollment status was determined for Federal Pell Grant eligibility. Your school must have a procedure in place to know whether a student has begun attendance in all classes for purposes of the Federal Pell Grant Program. The Department does not dictate the method a school uses to document that a student has begun attendance. However, a student is considered not to have begun attendance in any class in which the school is unable to document that attendance.

Change in enrollment status within a term
(optional recalculations)

The regulations don’t require any recalculation for changes in enrollment status after the student has begun attendance in all of his or her classes. However, your school can have a policy of recalculating an award if a student’s enrollment status changes within a term. If such a policy is established, it must be applied consistently to all students in a program. For example, if the school chooses to recalculate for a student whose enrollment status increases from half-time to full-time, it must also recalculate for a student whose enrollment status decreases. If the school establishes a policy allowing optional recalculations for an educational program, this policy must be in writing.

Your school’s policy may set a date after which Pell Grants will not be recalculated for enrollment status changes. For example, a school can establish a policy that it will recalculate Pell awards only for enrollment changes that occur up to the “add/drop” date of a term. This policy is true regardless of whether there is compressed coursework. The initial calculation of a student’s Pell Grant may occur subsequent to the “add/drop” date of the term, including terms with compressed coursework.

If that is the case, you must use the student’s effective enrollment status on the date of the initial calculation, and there would be no recalculations of the student’s Pell Grant for the term due to a subsequent change in enrollment status, assuming the student began attendance in each class. If the student’s payment for the term is being disbursed in a subsequent payment period, you may pay the student only for the coursework completed in the term.
In the case of programs offered with compressed coursework or modules within the terms, the school may adopt a policy of setting the date based on the add/drop date of the last class in which the student enrolls, or is expected to enroll, for the term. In this circumstance, the school must take into account all adjustments to the enrollment status, both increases and decreases, up to the add/drop date of the student’s last class.

If a school doesn’t establish a policy for recalculation within a term, a student who begins attendance in all classes would be paid based on the initial calculation, even if his or her enrollment status changes before the disbursement is made.

If the student withdraws from all of his or her classes (or doesn’t begin attending any classes), you must follow the procedures discussed in Volume 5.

Change in cost of attendance  (recalculation required if you are recalculating for an enrollment status change; otherwise optional )

You’re not required to recalculate Pell awards for cost changes during the award year. For instance, if the student gets accepted into on-campus housing after the fall term and your student budget for on-campus housing is lower, you’re not required to recalculate the student’s Pell award. If you choose to recalculate for changes in costs, you have to consistently apply that recalculation policy.

If you recalculate a Pell award because the student’s enrollment status has changed, you must also take into account any changes in the student’s costs at that time. For example, if a student enrolls full-time for the first semester and then drops to less than 1/2-time during that semester, the student’s costs will change, because only certain cost components are allowed for less than 1/2-time students. If your school’s policy is to recalculate for the enrollment change, you must use the cost for a less-than-half-time student for a full year to calculate the student’s less-than-half-time award. You must not combine the two costs or average them.

Enrollment change: required recalculation example
Ryne registers for a full-time course load (15 credit hours), and Auberdine College makes a first-term disbursement on that basis 10 days before the term starts. When the term starts, Ryne only begins attendance in three classes (9 credit hours). Auberdine must recalculate Ryne’s Pell award based on the lower enrollment status. Any difference between the amount Ryne received and his new recalculated award is an overpayment. See Volume 5 for a discussion of overpayments.

SAR/ISIR with different EFC
If you receive a SAR or ISIR with an EFC different from the one you used for the payment calculation, you must first decide which document is valid. If the new information is the correct information, the new SAR or ISIR is the valid record. In most cases you must recalculate the student’s Pell award for the entire award year based on the new EFC. For more information on SARs, ISIRs, and EFC, see the Application and Verification Guide.

Enrollment change within payment period
Juan registers for a full-time course load at Coulton College, and Coulton initially calculates a full-time award for him. He begins attending all of his classes but subsequently drops to half-time. Depending on Coulton’s recalculation policy, Juan may still be paid based on full-time enrollment as long as he’s otherwise eligible for payment. On the other hand, if Coulton did not receive Juan’s first processed valid SAR or ISIR with an official EFC until after he dropped to half-time enrollment, the Pell initial calculation would be based on his enrollment status at the time the output document was received (half-time).
COA changes between payment periods

A school may have a policy of recalculating awards when the cost of attendance changes from one payment period to the next—for example, because of changes to the student’s tuition and fee costs, or because a student’s living situation changes (such as when a student moves off campus). Schools also have the option to establish a policy to recalculate financial aid awards when a student’s costs change within an award year, as long as the recalculation policy is carried out for all students whose costs change.

COA changes within a payment period

You may establish a policy of recalculating for cost changes from one payment period to the next, and at the same time, have a policy not to recalculate for cost changes within a payment period. You also have the option to establish a policy to recalculate financial aid awards when a student’s costs change within a payment period. For instance, if a student with no dependents moves from a dormitory to off-campus housing at midterm, the school may wish to recalculate the student’s award for that payment period.

For Pell purposes, such a policy is acceptable if its carried out for all students whose costs change within the payment period.

You may not recalculate the payment for a payment period that took place before the cost change. For instance, in the example above, if the student lives in the dormitory during the first quarter and then moves off campus for the second and third quarters, the recalculation would only affect the payments for the second and third quarters.
Chapter 3 Appendices:

APPENDIX A: FORMULA 2: CALCULATIONS FOR STANDARD TERM PROGRAMS WITH LESS THAN 30 WEEKS IN FALL THROUGH SPRING

APPENDIX B: FORMULA 5: CALCULATIONS FOR CORRESPONDENCE STUDY PROGRAMS

APPENDIX C: PELL FORMULA SUMMARIES
APPENDIX A

FORMULA 2: CALCULATIONS FOR STANDARD TERM PROGRAMS WITH LESS THAN 30 WEEKS IN FALL THROUGH SPRING

The regulations provide an option for standard-term programs whose fall through spring terms provide less than 30 weeks of instructional time. Formula 2 may be advantageous for your summer term calculations. You may use Formula 2 if the program:

➔ has an academic calendar that consists of two semesters or trimesters (in the fall through the following spring) or three quarters (in the fall, winter, and spring);
➔ does not have overlapping terms; and
➔ measures progress in credit hours and defines full-time enrollment for each term in the award year as at least 12 credit hours.

Using Formula 2
34 CFR 690.63(a)(2), 690.63(c)

Formula 2 Alternative Calculation
Under Formula 2, you can perform the same alternate calculation as performed under Formula 1 if the weeks of instructional time in the defined academic year are the same as the total number of weeks of instructional time in all the terms in the award year. See the example for alternate calculation under the discussion of Formula 1 earlier in this chapter.
The regulations offer an alternative formula for standard term programs with fall through spring standard terms that provide less than 30 weeks of instructional time. The significant effect of this formula is to allow you to pay the same Pell amount for the summer term as you would for one of your traditional fall through spring terms. To use this formula, the program must have two semesters or trimesters (in the fall through the following spring) or three quarters (in the fall, winter, and spring), with no overlapping terms, and define full-time enrollment for each term in the award year as at least 12 credit hours.

Let’s take the example of Juan, who is attending Coulton College (Coulton), which has fall and spring semesters of 14 and 15 weeks, and a summer term of 10 weeks. Coulton defines the academic year of Juan’s program as 24 semester hours and 30 weeks.* His Scheduled Award is $3,390, and he is attending as a full-time student. Because the fall and spring terms provide less than the minimum 30 weeks of instructional time for an academic year, Juan’s full-time award is prorated as follows:

\[
\frac{29 \text{ weeks}^* \text{ in term}^*}{30 \text{ weeks}^* \text{ in academic year}} \times 3,390 = 3,277
\]

This prorated amount is then divided by the number of terms:

\[
\frac{3,277}{2} = 1,638.50
\]

Juan will receive $3,277 for his attendance in both semesters. Note that this is less than his Scheduled Award; he may be able to receive the remaining $113 if he enrolls in a summer term.

The difference between Formula 2 and Formula 3 lies in whether you must make a separate calculation for each term. Under Formula 2, you do not have to perform a separate calculation based on the length of each term. Juan’s Pell eligibility as a full-time student would be $1,638.50 under Formula 2. If Coulton used Formula 3, the annual award would be prorated based on the length of each term: 14 weeks (14/30), 15 weeks (15/30), and 10 weeks (10/30), and Juan’s payments for the payment periods would be $1,582, $1,695, and $1,130 respectively.

Juan only has $113 in remaining Pell eligibility for the summer term under both formulas. His summer payment would only be different for each formula if Coulton chose to pay the summer term out of the subsequent award year. (Note that Juan’s Scheduled Award and his summer payment would then be based on the EFC for the following award year.)

---

*These fractions use weeks of instructional time as defined in Chapter 1, which are not necessarily the same number as the calendar weeks in an academic year.

**Fall through spring.
APPENDIX B

FORMULA 5: CALCULATIONS FOR CORRESPONDENCE STUDY PROGRAMS

Students enrolled in correspondence courses are eligible for aid under FSA programs only if the courses are part of a program leading to an associate, a bachelor’s, or a graduate degree. Also, to be eligible, a correspondence program must meet the criteria for an eligible program (see the Volume 2 of the FSA Handbook: Institutional Eligibility and Participation).

PELL COST OF ATTENDANCE (CORRESPONDENCE)

The cost of attendance for correspondence programs is limited to tuition and fees, and in certain cases, books and supplies. Traditionally, books and supplies have been included as part of the correspondence program’s tuition. If books and supplies are not included in the program’s tuition, they may be counted as costs, for either a residential or nonresidential period of enrollment. As always, the cost of attendance must be based on the costs for a full-time student for a full academic year for the relevant component (for correspondence COA, there would be no room and board, etc.). If the student’s program or period of enrollment, as measured in credit hours, is longer or shorter than an academic year as measured in credit hours, the tuition and fees for the program or enrollment period must be prorated. Because the correspondence study cost of attendance for the nonresidential component only includes costs associated with credit hours, your school always uses the credit hour-related fraction to prorate the cost of attendance as follows (because there are no costs associated with weeks of instructional time in the correspondence cost of attendance, your school has to prorate the cost only if the number of hours in the program is shorter or longer than in an academic year):

Credit hours in program’s definition of an academic year
Credit hours to which the costs apply

The resulting amount is the full-time, full-academic-year cost used for calculating Pell Grant eligibility. When there is a residential portion in a correspondence student’s program, Formula 3 or 4 (whichever applies) is used to calculate the student’s payment for a payment period for a residential portion. Refer to Formula 3 or 4 guidelines, including cost of attendance determinations, for this circumstance.
PELL ENROLLMENT STATUS (CORRESPONDENCE)

Students enrolled in programs of correspondence study are considered to be no more than half-time students, even if they’re enrolled in enough coursework to be full-time. However, if the correspondence study is combined with regular coursework, the student’s enrollment status might be more than half-time.

A student enrolled only in a nonterm correspondence program always has his or her award calculated based on the half-time Disbursement Schedule. For a student enrolled in a term-based correspondence program, your school must determine whether the student is enrolled half-time (6 or more credit hours in a term) or less than half-time (less than 6 credit hours in a term). Special rules are used to determine the student’s enrollment status when the student is enrolled in a combination of regular and correspondence coursework.

PELL CORRESPONDENCE PAYMENT PERIODS & TIMING OF PAYMENTS

For a nonterm correspondence program, there must be two equal payment periods in each academic year. Each payment period is the lesser of half the academic year or half the program (measured in credit hours). In addition, you can’t disburse a Pell payment for the first payment period until the student has completed 25% of the work in the academic year or the program, whichever is shorter. It can’t make the second payment until the student has completed 75% of the work in the academic year or program.

For a term-based correspondence program, as for other term-based programs, the payment period is the term. However, you can’t disburse the Pell for a payment period until the student has completed 50% of the lessons or completes 50% of the work for the term, whichever is later.

If the correspondence program has a required period of residential training, you must treat the residential training as an additional payment period and determine the payment for that payment period using either Formula 3 or Formula 4. Note that the correspondence portion of the program is still treated as a separate portion of the program that’s divided into two equal payment periods.

PELL CALCULATIONS IN CORRESPONDENCE PROGRAMS

Formula 5 is used for students enrolled only in correspondence courses (not including residential components of correspondence programs). There are two versions of Formula 5: Formula 5A (which is similar to Formula 4) is used for nonterm programs, and Formula 5B (which is similar to Formula 3) is used for term-based programs. For a residential component of a correspondence program, your school must use either Formula 3 or Formula 4. If the residential component is a term, your school uses Formula 3; otherwise, it uses Formula 4.
For nonterm correspondence programs, this step of the calculation is similar to the step under Formula 4. For term correspondence programs, this step is the same as under Formula 3.

For the Pell calculation, you are required to determine the number of weeks of instructional time in the program by preparing a written schedule for the lessons that the student will submit. A nonterm correspondence program must require at least 12 hours of preparation per week. A term-based correspondence program must require at least 30 hours of preparation per semester hour or at least 20 hours of preparation per quarter hour during the term.

**Nonterm correspondence program—Formula 5A**

You first multiply the annual award (taken from the half-time disbursement schedule) by the lesser of:

\[
\frac{\text{Number of credit hours in the payment period}}{\text{Credit hours in program’s academic year definition}} \\
\frac{\text{Weeks* in the payment period}}{\text{Weeks* in program’s academic year definition}}
\]

or

\[
\frac{\text{Weeks* in the payment period}}{\text{Weeks* in program’s academic year definition}}
\]

**Term correspondence program—Formula 5B**

You multiply the annual award (taken from the half-time or less-than-half-time Disbursement Schedule) by the weeks of instructional time in the term divided by the weeks in the academic year:

\[
\frac{\text{Weeks* in term}}{\text{Weeks in program’s academic year definition}}
\]

A single disbursement for a payment period can never be more than 50% of the annual award. If the resulting amount is more than 50% of the annual award, your school must make the payment in at least two disbursements in that payment period. You may not disburse an amount that exceeds 50% of the annual award until the student has completed the period of time in the payment period that equals 50% of the weeks of instructional time in the program’s academic year definition.

*Note: The fractions on this page use weeks of instructional time as defined in Chapter 1, which are not necessarily the same number as the calendar weeks in an academic year.*
APPENDIX C  FORMULA SUMMARY

Formula 1 Summary

Standard-term, credit-hour programs, with 30 weeks of instructional time (or waiver applies) For a program with a traditional academic calendar, the program:

- must have an academic calendar that consists, in the fall through spring, of two semesters or trimesters, or three quarters (note that summer may not be a standard term);
- must have at least 30 weeks of instructional time in fall through spring terms;
- must not have overlapping terms; and
- must define full-time enrollment for each term in the award year as at least 12 credit hours and must measure progress in credit hours.

Other programs offered in standard terms may use Formula 1 if they start the terms for different cohorts of students on a periodic basis (for example, monthly). These programs:

- must have an academic calendar that consists exclusively of semesters, trimesters, or quarters;
- must have at least 30 weeks of instructional time in any two semesters or trimesters or any three quarters;
- must start the terms for different cohorts of students on a periodic basis (for example, monthly);
- must not allow students to be enrolled in overlapping terms and must stay with the cohort in which they start unless they withdraw from a term (or skip a term) and re enroll in a subsequent term.
- must define full-time enrollment for each term in the award year as at least 12 credit hours and must measure progress in credit hours.

Step 1: Determine Enrollment Status

Full-time, three-quarter time, half time, or less than half time

Step 2: Calculate Pell COA

Full-time, full academic year costs

Step 3: Determine Annual Award

If the student’s enrollment status is full-time, the annual award is taken from the full-time payment schedule (Scheduled Award). If the student’s enrollment status is 3/4-time, 1/2-time, or less-than-1/2 time, the annual award is taken from the appropriate part-time Disbursement Schedule.

Step 4: Determine Payment Periods

Payment period is the academic term

Step 5: Calculate Payment for a Payment Period

Annual Award
2 for programs with semesters or trimesters; 3 for programs with quarters

OR

For alternate calculation:

Annual Award
Number of terms in the award year
Chapter 3 — Calculating Pell & IASG Awards

Formula 2 Summary

Standard-term, credit-hour programs, with fewer than 30 weeks of instructional time, and waiver does not apply

- Enrollment for at least 12 credit hours each term required for full-time status
- Program terms don’t overlap
- Academic calendar includes 2 semesters/trimesters (fall and spring) or 3 quarters (fall, winter, and spring)
- Fall through spring terms are less than 30 weeks of instructional time

Step 1: Determine Enrollment Status

Full-time, three-quarter time, half-time, or less-than-half-time

Step 2: Calculate Pell COA

Full-time, full academic year costs

Cost for fall through spring terms prorated. If fall through spring terms provide the same number of credit hours as are in the academic year definition, prorated COA is the same as non prorated COA.

Step 3: Determine Annual Award

If the student’s enrollment status is full time, the annual award is taken from the full-time payment schedule (Scheduled Award). If the student’s enrollment status is 3/4-time, 1/2-time, or less-than-1/2 time, the annual award is taken from the appropriate part-time Disbursement Schedule.

Step 4: Determine Payment Periods

Payment period is the academic term

Step 5: Calculate Payment for a Payment Period

\[
\text{Annual Award} \times \frac{\text{Weekly instructional time in fall through spring terms}}{\text{Weekly instructional time in program's academic year definition}} \div 2 \text{ (if semesters or trimesters)} \text{ OR } 3 \text{ (if quarters)}
\]

OR

For alternate calculation:

\[
\frac{\text{Annual Award}}{\text{Number of terms in the award year}}
\]
Formula 3 Summary

Any term-based, credit-hour programs; may include those qualifying for Formulas 1 and 2

Step 1: Determine Enrollment Status

Full-time, three-quarter time, half-time, or less-than-half-time

Step 2: Calculate Pell COA

Full-time, full academic year costs

Cost for program or period not equal to academic year prorated. Two fractions are compared:

\[
\frac{\text{Hours in program's definition of academic year}}{\text{Hours to which the costs apply}}
\]

\[
\frac{\text{Weeks of instructional time in program's definition of academic year}}{\text{Weeks of instructional time in the enrollment period to which the costs apply}}
\]

The entire cost is multiplied by the lesser of the two fractions to determine Pell COA.

Step 3: Determine Annual Award

If the student's enrollment status is full-time, the annual award is taken from the full-time payment schedule (Scheduled Award). If the student's enrollment status is 3/4-time, 1/2-time, or less-than-1/2-time, the annual award is taken from the appropriate part-time Disbursement Schedule.

Step 4: Determine Payment Periods

Payment period is the academic term

Step 5: Calculate Payment for a Payment Period

\[
\frac{\text{Weeks of instructional time in the term}}{\text{Weeks of instructional time in the program's academic year definition}}
\]

A single disbursement can't exceed 50% of the annual award
### Formula 4 Summary

Clock-hour programs and credit-hour programs without terms, residential portion of nonterm correspondence programs.

**Step 1: Determine Enrollment Status**

At least half-time or less-than-half-time

**Step 2: Calculate Pell COA**

Full-time, full academic year costs

Cost for program or period not equal to academic year prorated. Two fractions compared:

\[
\text{Full-time, full academic year costs} = \frac{\text{Hours in program’s definition of academic year}}{\text{Hours to which the costs apply}} \times \frac{\text{Weeks of instructional time in program's definition of academic year}}{\text{Weeks of instructional time in the enrollment period to which the costs apply}}
\]

The entire cost is multiplied by the lesser of the two fractions to determine Pell COA.

**Step 3: Determine Annual Award**

Always taken from full-time payment schedule (equal to Scheduled Award). Does not mean students are always considered full-time

**Step 4: Determine Payment Periods**

Length of payment period measured in credit or clock hours. Minimum of 2 equal payment periods required for programs shorter than an academic year, or 2 equal payment periods in each full academic year (or final portion longer than half an academic year) for programs longer than or equal to an academic year.

**Step 5: Calculate Payment for a Payment Period**

Annual award multiplied by the lesser of:

\[
\text{Annual award} \times \min\left(\frac{\text{The number of credit or clock hours in the payment period}}{\text{The number of credit or clock hours in the program’s academic year}}, \frac{\text{The number of weeks of instructional time in the payment period}}{\text{The number of weeks of instructional time in the program’s academic year}}\right)
\]

Note: A single disbursement can’t exceed 50% of the annual award.
**Formula 5A Summary**

Correspondence programs nonterm correspondence component. For residential portion, use Formula 4 to calculate payment periods and amounts. The schedule for the submission of lessons must reflect a workload of at least 12 hours of preparation per week of instructional time.

**Step 1: Determine Enrollment Status**

Enrollment status is never more than half-time

**Step 2: Calculate Pell COA**

Full-time, full academic year costs (for applicable components)

Cost for program or enrollment period not equal to academic year prorated according to the following formula:

For tuition and fees:

\[
\text{Costs} \times \frac{\text{Credit hours in program's definition of academic year}}{\text{Credit hours to which costs apply}}
\]

**Step 3: Determine Annual Award**

Annual award taken from half-time Disbursement Schedule

**Step 4: Determine Payment Periods**

Length of payment period measured in credit hours.

The first payment period is the period of time in which the student completes the lesser of the first half of the academic year or the first half of the program. (First payment can be made only after the student has completed 25% of the lessons or otherwise completed 25% of the work scheduled, whichever comes last.)

The second payment period is the period of time in which the student completes the lesser of the second half of the academic year or the second half of the program. (Second payment may be made only after the student has submitted 75% of the lessons or otherwise completed 75% of the work scheduled, whichever comes last.)

**Step 5: Calculate Payment for a Payment Period**

Annual award is multiplied by the lesser of:

\[
\frac{\text{Number of credit hours in the payment period}}{\text{Number of credit hours in the program’s academic year}}
\]

OR

\[
\frac{\text{Weeks of instructional time in the payment period}}{\text{Weeks of instructional time in the program’s academic year}}
\]

Note: A single disbursement can’t exceed 50% of the annual award.
Chapter 3 — Calculating Pell & IASG Awards

Programs of study by correspondence, term correspondence component. During each term, the written schedule for the submission of lessons must reflect a workload of at least 30 hours of preparation per semester hour or at least 20 hours of preparation per quarter hour.

Step 1: Determine Enrollment Status
Enrollment status is never more than half-time.

Step 2: Calculate Pell COA
Full-time, full academic year costs (for applicable components).

Cost for program or enrollment period not equal to academic year prorated according to the following formula:

For tuition and fees:

\[
\text{Costs} \times \frac{\text{Credit hours in program’s definition of academic year}}{\text{Credit hours to which costs apply}}
\]

Step 3: Determine Annual Award
Annual award taken from half-time or less-than-half-time Disbursement Schedule.

Step 4: Determine Payment Periods
Length of payment period is the academic term.

Step 5: Calculate Payment for a Payment Period
Annual award multiplied by:

\[
\frac{\text{Weeks of instructional time in the term}}{\text{Weeks of instructional time in program’s academic year definition}}
\]

When there is a residential portion in a term-based correspondence program, Formula 3 is used to calculate the student's payment for a payment period for the residential portion.

A single disbursement cannot exceed 50% of the annual award.
In this Chapter we will illustrate the amounts a student may receive under the TEACH Grant program and show how to determine the correct grant award for each payment period. For more detail on TEACH Grant criteria and eligibility, see Volume 1, Student Eligibility. For more on payment periods, see Chapter 1 of this volume, and for cost of attendance, see Chapter 2 of this volume.

**TEACH GRANT BASICS**

The TEACH Grant program is a non-need-based grant program that provides up to $4,000 per year to students who are enrolled in an eligible program and who agree to teach in a high-need field, at a low-income elementary or secondary school as a highly qualified teacher, for at least four years within eight years of completing the program for which the TEACH Grant is awarded. The student must sign a service agreement to this effect, and complete all required counseling prior to receiving a TEACH Grant.

If the student subsequently fails to meet the requirements of the service agreement, the TEACH Grant will be treated as a Direct Unsubsidized loan, and the student must repay the TEACH funds, with interest accrued from the date of disbursement, through the Direct Loan Servicing Center. For more details on the TEACH Grant service agreement, eligibility, and conversion from a grant to a loan, see Volume 1.

With respect to enrollment status, the program must require an undergraduate student to enroll for at least 12 credit-hours in each term in the award year to qualify as full-time. For a graduate student, each term in the award year must meet the minimum full-time enrollment status established by your school for a semester, trimester, or quarter.

---

**Chapter 4 Highlights**

- Award amounts
- Calculating a TEACH Grant for a payment period
- Calculating TEACH for a payment period that occurs in two award years
- TEACH for transfer students
- Correspondence study and TEACH
- Frequency of payment
- Recalculation of TEACH Grants

**TEACH Grant regulations**

34 CFR 686
Scheduled, annual, and aggregate awards
34 CFR 686.21

**Packaging TEACH Grants**

The amount of a student’s TEACH Grant, in combination with any Pell Grant or other estimated financial assistance, may not exceed the student’s cost of attendance. However, TEACH Grants may replace the EFC for packaging purposes. See Chapter 7 for packaging rules.
TEACH Grant Scheduled, Annual, and Aggregate Awards

The TEACH Grant award amounts are similar to Pell awards in that there is a Scheduled Award, which is the maximum that a full-time student would earn for a year, and an Annual Award, which is the amount a student would receive by enrolling for a year in an enrollment status (e.g. full-time, three-quarter-time, half-time, or less-than-half-time). For the 2011-2012 award year, the Scheduled Award for TEACH is $4,000, and the annual awards are:

- Full-time ............................................ $4,000
- 3/4-time............................................. $3,000
- 1/2-time............................................. $2,000
- less-than-1/2-time ............................. $1,000

A student may receive up to $16,000 in TEACH grants for undergraduate and post-baccalaureate study, and up to $8,000 for a TEACH-eligible master’s degree program.

CALCULATING TEACH GRANT PAYMENTS FOR PAYMENT PERIODS

As for other FSA programs, for purposes of calculating a TEACH Grant for a payment period, the definition of an academic year must include, for undergraduate programs of study (including those post-baccalaureate programs that are TEACH Grant eligible), both the required credit or clock hours and weeks of instructional time (see Chapter 1).

The formula you will use to calculate the amount of a student’s TEACH Grant that will be awarded for a payment period depends on the academic calendar used by the student’s program. These formulas are the same as for Pell Grants, with the exception of master’s degree programs. For details on these payment formulas, see Chapter 3 of this volume. For master’s degree programs, a TEACH Grant eligible program’s academic year must be defined as at least the required number of weeks of instructional time and the minimum number of credit or clock hours that a full-time student would be expected to complete in the weeks of instructional time.

Note that no payment for a payment period may be less than $25.
Crossover payment periods
In the same way as for Pell, if a student enrolls in a payment period that is scheduled to occur in two award years, the entire payment period must be considered to occur within one of those award years, and the school must pay the student for that payment period with funds from that award year. There is no requirement for a TEACH Grant crossover payment period to be placed in the same award year as Pell.

In most cases, it is up to the school to determine the award year in which the payment period will be placed. However, if more than six months of a payment period is scheduled to occur within one award year, you must place that payment period in that award year.

Payment within payment period & retroactive payment
Within each payment period, you may pay the student at such times and in such installments as you determine will best meet the student’s needs. You may pay a student TEACH Grant funds in one lump sum for all prior payment periods for which the student was eligible within the award year as long as the student has signed the agreement to serve prior to disbursement of the TEACH Grant (for more details on the agreement to serve and TEACH Grant eligibility, see Volume 1.)

Transfer students
A student who receives a TEACH Grant at one institution and subsequently enrolls at a second institution may receive a TEACH Grant at the second institution if the second institution obtains the student’s valid SAR or ISIR with an official EFC.

The second institution may pay a TEACH Grant only for that period in which a student is enrolled in a TEACH Grant-eligible program at that institution. The second institution must calculate the student’s award using the appropriate formula, unless the remaining balance of the Scheduled Award at the second institution is the balance of the student’s last Scheduled Award and is less than the amount the student would normally receive for that payment period.

A transfer student must repay any amount received in an award year that exceeds the amount which he or she was eligible to receive.

A student may not receive TEACH Grant payments concurrently from more than one school.

Required TEACH Grant Counseling
Before receiving a TEACH Grant, a student must, among other requirements, complete initial and subsequent counseling on the TEACH website. You must ensure that exit counseling is conducted with each TEACH Grant recipient when that student completes or withdraws from the TEACH-eligible program. The exit counseling must be in person, by audio-visual presentation, or by interactive electronic means (such as the TEACH Grant website: https://teach-ats.ed.gov/ats/factsheet.action).

In each case, you must ensure that an individual with expertise in the FSA programs is reasonably available shortly after the counseling to answer the grant recipient’s questions. (In the case of a grant recipient enrolled in a correspondence program or a program approved for credit at the home school, the grant recipient may be provided with written counseling materials within 30 days after she or he completes the program.

It is the school’s responsibility to see that TEACH recipients receive exit counseling when the student is no longer enrolled in the program. You will receive reports from the DL servicing center on all students who have completed counseling. If the student doesn’t complete the exit counseling session on the TEACH website, you must ensure that exit counseling is provided either in person, through interactive electronic means, or by mailing written counseling materials (such as the PDF version of the exit counseling program on the TEACH website) to the grant recipient’s last known address. In the case of unannounced withdrawals, you must provide this counseling within 30 days of learning that a grant recipient has withdrawn from school (or from a TEACH Grant-eligible program).
The requirements for calculating a TEACH Grant payment for a payment period are exactly the same as Federal Pell Grant program requirements and use the same formulas as the Pell Grant program. TEACH Grant Formulas 1, 2, 3, 4 and 5 are identical to the corresponding Pell formulas. The school disburses a TEACH Grant, like Pell, over the hours and weeks of instruction in an eligible program’s academic year, as defined by the school.

As with Pell Grants, TEACH Grant Scheduled Awards are divided into at least two payments based on the payment periods in a year. The calculation formula you use depends on the academic calendar of a student’s eligible program and would be the same formula used to calculate payments of Pell Grants for that academic program. For students ineligible for Pell Grants, such as masters degree students, you must use the calculation formula that corresponds to the academic calendar of the eligible student’s program. Refer to Chapter 3 of this volume on Pell Grants for a more detailed explanation of these formulas.

A student’s payment for a payment period is calculated based on the coursework in the student’s TEACH Grant-eligible program. For a TEACH Grant, the school must ensure that the student’s courses are necessary for the student to complete the student’s TEACH Grant eligible program.
RECALCULATING TEACH GRANTS

Recalculating for changes in enrollment status

If a student’s enrollment status changes from one term to another within the same award year, you must recalculate the TEACH Grant award for the new payment period, taking into account any changes in the cost of attendance.

If a student’s projected enrollment status changes during a payment period after the student has begun attendance in all of his or her classes for that payment period, you may (but are not required to) establish a policy under which you recalculate such a student’s TEACH Grant award. Any such recalculations must take into account any changes in the cost of attendance. In the case of an undergraduate or post-baccalaureate program of study, if such a policy is established, it must match your Pell Grant recalculation policy, and you must apply the policy to all students in the TEACH-eligible program.

If a student’s enrollment status changes during a payment period before the student begins attendance in all of his or her classes for that payment period, you must recalculate the student’s enrollment status to reflect only those classes for which he or she actually began attendance.

Recalculating for changes in cost of attendance

If a student’s cost of attendance changes during the award year and his or her enrollment status remains the same, your school may, but is not required to, establish a policy under which you recalculate the student’s TEACH Grant award. If you establish such a policy, you must apply it to all students in the program.
Stafford/PLUS Loan Periods and Amounts

The rules for awarding Stafford and PLUS loans are different than for Pell Grants and other FSA programs. Annual loan limits vary by grade level, and there are aggregate limits on the total amount that may be borrowed at one time. Also, the loan period, payment period, and the disbursements within that period may not always correspond to the payment periods that you’re using for Pell Grants. Finally, the requirement to prorate Stafford loan limits is different than the requirements for calculating Pell Grants.

To request Stafford or PLUS loan funds for a student, a school must certify that the borrower is eligible for the loan award, and must provide specific amounts and dates for each disbursement of the loan award.

A borrower’s eligibility for a Stafford or PLUS Loan is calculated differently than for a Pell Grant. There are no fixed tables such as the Pell Grant Payment and Disbursement Schedules that determine award amounts. Stafford Loans have annual and aggregate limits that are the same for all students at a given grade level and dependency status. In general, you may not originate a loan for more than the:

- amount the borrower requests,
- borrower’s cost of attendance (see Chapter 2),
- borrower’s maximum borrowing limit as described in this chapter), or
- borrower’s unmet financial need (as determined using the rules in Chapter 7 of this volume).

In Direct Loans, the certification information is part of the loan origination record sent electronically to COD. You must provide this certification each time you make a loan under an MPN.

The school’s origination includes the borrower’s grade level, loan period, anticipated disbursement dates, and the amounts of the disbursements (using the rules described in this chapter).

CHAPTER 5 HIGHLIGHTS:

- Measurements of academic and loan periods
  - Loan periods, academic terms, & program length
  - Scheduled Academic Year (SAY) may be used for credit-hour programs with standard terms and certain nonstandard term programs
  - Borrower-Based Academic Year (BBAY) may be used as an alternative to an SAY for programs also offered in an SAY
  - BBAY must be used for clock-hour, nonterm, and nonstandard-term programs, and for standard-term credit-hour programs without an SAY
  - “SE9W” (a program with terms substantially equal in length, with each term comprised of 9 or more weeks of instructional time)

- Annual Loan Limits
  - Stafford limits for dependent undergraduates, independent undergraduates & dependent undergraduates whose parents can’t get PLUS, and graduate/professional students
  - Undergraduate limits based on grade level
  - Undergraduate limits must be prorated for a program or remaining portion of a program less than an academic year
  - Stafford limits for transfer students, teacher certification coursework, and coursework necessary for enrollment in an eligible program

- Aggregate Loan Limits
  - Loan information provided through “Financial Aid History” on SAR, ISIR, and on NSLDS Web site.
  - Enhanced Aggregate Information displays on the NSLDS Web site.
Originating a loan

A financial aid administrator should be aware of the responsibility incurred in originating a loan. The school, not the Department, determines the borrower’s eligibility for a Stafford or PLUS Loan. Schools that originate loans for ineligible borrowers, or for loan amounts that exceed loan limits or the borrower’s need, are subject to administrative actions such as a fine, limitation, suspension and termination, as well as liabilities such as repayment to the government of interest and costs it has paid on the ineligible loans. A school may not originate a loan for a period that includes hours in an academic year in which the student is no longer enrolled (regardless of whether a student has ceased attendance or advanced to the next academic year).

Refusing to originate a loan or originating for less than maximum eligibility

HEA Sec. 479(A)(c), 34 CFR 685.301(a)(8), DCL GEN-11-07

On a case-by-case basis, you may refuse to originate the loan for an individual borrower. You may NOT limit borrowing by students or parents on an across the board or categorical basis. Similarly, you may originate a loan for an amount less than the borrower’s maximum eligibility. However, you must ensure that these decisions are made on a case-by-case basis, and do not constitute a pattern or practice that denies access to borrowers because of race, sex, color, income, religion, national origin, age, or handicapped status. Also note that your school cannot engage in a practice of originating Stafford loans only in the amount needed to cover the school charges, or to limit unsubsidized Stafford borrowing by independent students. When you make a decision not to originate a loan or to reduce the amount of the loan, you must document the reasons and provide the explanation to the student in writing.

Checklist for loan origination

For all Title IV loans, you must document the student’s cost of attendance, expected family contribution (EFC) and estimated financial assistance in the student’s file. This information must be made available to the Department upon request.

For all Stafford and PLUS Loans, the school must confirm that the student (and parent) meet the definition of eligible borrower, including:

- For parents receiving a PLUS loan, the student has completed a FAFSA (review student’s SAR/ISIR)
- Determining that the student is enrolled at least half-time and making satisfactory academic progress (see Volume 1);
- Reviewing the NSLDS information on the ISIR to ensure that the student is not in default, does not owe an overpayment on an FSA grant or loan (see Volume 1), and will not exceed the annual or aggregate loan limits (as described in this chapter);
- Ensuring that the amount of the loan, in combination with other aid, will not exceed the student’s financial need (see Chapter 7 of this Volume); and
- Ensure that the loan disbursement dates meet cash management and disbursement requirements.

For a Stafford Loan, the school must also:

- Determine the student’s Pell Grant eligibility and if eligible, include the grant in the student’s aid package;
- For an unsubsidized Stafford Loan, first determine the student’s eligibility for a subsidized Stafford Loan;
- Ensure that the amount of the loan will not exceed the student’s annual or aggregate loan limit; and
- Prorate the Stafford annual loan limit for an undergraduate enrolled in a program or remaining period of study that is shorter than an academic year (as described in this chapter).
LOAN PERIODS, ACADEMIC TERMS, & PROGRAM LENGTH

It’s important to define the loan period (sometimes referred to as the period of enrollment) at the outset, because the length of the loan period will determine the timing and amount of disbursements. This discussion assumes that your school has already established its academic measurements. If you have not already done so, see Chapter 1 of this volume for a discussion of eligible programs, academic years, payment periods, and conversion of clock hours/credit hours.

Generally, if a credit-hour program uses standard terms (semesters, trimesters, or quarters), or has nonstandard terms that are substantially equal in length, with each term at least 9 weeks in length (“SE9W,” see sidebar p. 3-111), the minimum loan period is a single academic term (e.g., a semester).

As an example, if a student will be enrolled in the fall semester only and will skip the spring semester, you may originate a loan for that term alone. (Remember, however, that the loan amount must be based on the reduced costs and EFC for that term, rather than for the full academic year.)

For all other programs, including clock-hour and nonterm credit-hour programs, the minimum loan period is the lesser of:

- the academic year as defined by the school (see Chapter 1)
- the length of the student’s program (if the program is shorter than an academic year); or
- the remaining portion of the program (if the remaining portion of the student’s program is less than an academic year).

**Period of enrollment (loan period)**
34 CFR 685.102(b)
The period of enrollment for which a Stafford or PLUS loan is intended must coincide with an academic period established by the school for which institutional charges are generally assessed (e.g., semester, trimester, quarter, length of the student’s program or academic year). The period of enrollment is also referred to as the loan period.

**Minimum and Maximum Loan Periods**
34 CFR 685.301(a)(9)
- Maximum = generally school’s academic year. Greater than an academic year, in some cases, if loan is for the length of the program that is longer than an academic year.
- Minimum (standard term programs and SE9W programs) = one academic term.
- Minimum (all other programs, i.e, clock hour, nonterm, and other nonstandard term) = Lesser of the academic year, the student’s program, the remaining portion of the program, or the remaining portion of an academic year. These loan periods also apply to programs that are a mixture of standard terms and nonstandard terms not offered in a traditional academic calendar.
Also, for these other programs, you may originate a loan for the remaining portion of the academic year if:

- a student transfers into the school with credit or clock hours from another school, and the prior school originated a loan for a period of enrollment that overlaps the period of enrollment at the new school, or

- a student completes a program at a school, where the student’s last loan to complete that program had been for less than an academic year, and the student then begins a new program at the same school.

In either of these cases, the loan amount must not exceed the remaining balance of the student’s annual loan limit at the loan level associated with the new program.

For all programs, the **maximum** loan period for annual loan limits is generally the school’s academic year. However, you can have more than one loan in an academic year up to the annual loan limit.

**Stafford/PLUS at multiple schools**

Unlike Pell Grants, it is possible for a student who is separately enrolled and eligible at multiple schools to get a Stafford (and for a graduate/professional student or parent to receive a PLUS) at more than one school for the same period. The schools that the student is attending are responsible for coordinating to make sure that the total amount of the loans the student receives does not exceed the applicable annual loan limit. In addition, the schools must ensure that there is no duplication of non-institutional costs when determining the student’s cost of attendance. (Note that in this case—which is different than the consortium arrangements discussed in Volume 2—loan funds awarded at one school are not to be included as estimated financial assistance by any other school the student is attending when determining the student’s loan eligibility for the same period.)
ANNUAL LOAN LIMITS

Stafford Loans have annual loan limits, based on the student’s dependency status and grade level. There are higher unsubsidized Stafford annual loan limits for some health professions students, and special loan limits for certain students who are not enrolled in a degree or certificate program. In some cases, the annual loan limits must be prorated (reduced). The annual loan limits are the maximum amounts that a student may receive for an academic year.

Depending on the academic calendar of the program, a student who has reached the annual loan limit cannot receive another Stafford Loan until he or she either begins another academic year, or progresses within an academic year to a grade level with a higher annual loan limit.

### Stafford Loan Limits
Ensuring Continued Access to Student Loans Act of 2008 (ECASLA) (Dear Colleague Letter GEN-08-08)
HEA Sec. 425(a)(1)(A)
HEA Sec. 428(b)(1)(A)
HEA Sec. 428H(d)
DL - 34 CFR 685.203

### Minimum Direct Loan amount
When originating Direct Loans in the COD system, there is no minimum loan amount.

#### Annual Loan Limits: Basic Principles

**Annual loan limits**
- Stafford loans and Graduate/Professional Loans have annual loan limits.
- There is an overall annual loan limit for Stafford loans, and a separate limit for subsidized Stafford.
- Dependent students have a lower annual loan limit than independent students; if a dependent student’s parent(s) cannot borrow a PLUS loan, the student becomes eligible for the higher Stafford loan limits for an independent student.
- The academic year is used as the basis for the student’s annual loan limits.
- The student’s maximum annual loan limit increases as the student progresses to higher grade levels.
- The loan limit may have to be prorated if the student is attending a program (or remaining portion of a program) that is less than an academic year.

**Academic years: SAY/BBAY**
- For Stafford/PLUS, a school must use either a Scheduled Academic Year (SAY) or a Borrower-Based Academic Year (BBAY) to determine when a student is eligible for a new annual loan limit.
- An SAY generally begins/ends at the same time each year; a BBAY “floats” with the student’s enrollment.
- A traditional calendar program, or an SE9W program with a comparable calendar, may use an SAY.
- A clock-hour or nonterm program, or a program that does not have an SAY, must use a BBAY.
- In a clock-hour or nonterm program, or a program with nonstandard terms that are not SE9W, the borrower must successfully complete the hours and weeks of instructional time in the FSA academic year before the borrower is eligible for a new annual loan limit.
- In a standard-term or SE9W program, it is possible for a student to advance a grade level and become eligible for a higher loan amount within an academic year.
**Stafford limits for a dependent undergraduate student**

Effective for loans first disbursed on or after July 1, 2008, for loan periods that include July 1, 2008 or begin on or after that date, dependent undergraduate students (excluding dependent undergraduates whose parents are unable to obtain PLUS loans) are eligible for an additional $2,000 in unsubsidized Stafford Loan funds each academic year.

For these students, the annual loan limits are:

- $3,500 combined subsidized and/or unsubsidized plus $2,000 additional unsubsidized for dependent first-year undergraduates;
- $4,500 combined subsidized and/or unsubsidized plus $2,000 additional unsubsidized for dependent second-year undergraduates; and
- $5,500 combined subsidized and/or unsubsidized plus $2,000 additional unsubsidized for dependent third-, fourth-, or fifth-year undergraduates.

These loan limits represent the total of all subsidized and unsubsidized Stafford Loans a dependent undergraduate student may borrow at each level of study, for a single academic year. For example, a dependent first-year undergraduate may receive up to $5,500 in Stafford Loans for a single academic year, but no more than $3,500 of this amount may be subsidized.

See guidance later in this chapter on additional unsubsidized eligibility for students in certain health professions programs; special loan limits for preparatory & teacher certification coursework.

### Increased unsubsidized Stafford limits for independent students and dependent students whose parents can’t get PLUS

There are higher additional unsubsidized annual loan limits for independent undergraduate students. These higher additional unsubsidized loan limits also apply to dependent undergraduate students whose parents are unable to borrow PLUS loans due to adverse credit or other documented exceptional circumstances.

- $3,500 combined subsidized and/or unsubsidized plus $6,000 additional unsubsidized for independent first-year undergraduates;
- $4,500 combined subsidized/and or unsubsidized plus $6,000 additional unsubsidized for independent second-year undergraduates; and
- $5,500 combined subsidized and/or unsubsidized plus $7,000 additional unsubsidized for independent third-, fourth-, or fifth-year undergraduates.

### Example: additional unsub for independent undergraduate

Dottie is a first-year independent undergraduate student at Ferrar's Institute. Her COA is $14,500, her EFC is $1,800, and she is receiving a $2,981 Pell Grant. Dottie qualifies for a subsidized Stafford Loan of $3,500. She may also receive the maximum additional unsubsidized Stafford Loan amount of $6,000 to cover most of her unmet need. Her total loan amount in subsidized and unsubsidized Stafford Loans is $9,500. (Note that Dottie’s loan eligibility would be the same if she were a dependent undergraduate whose parent was unable to obtain a PLUS loan.)

### Stafford for students whose parents have ended financial support and refuse to file a FAFSA

Schools may offer a dependent student an unsubsidized Direct Stafford loan if the student’s parents have ended financial support and refuse to file a FAFSA. For more detail, see Chapter 5 of the Application and Verification Guide and DCL GEN-08-12.
Health professions & accreditors

The following disciplines are eligible for the increased unsubsidized loan limits. (Must be accredited by the agency shown in italics.)

- Doctor of Pharmacy
  Accreditation Council for Pharmacy Education
- Graduate in Public Health
  Council on Education for Public Health
- Doctor of Chiropractic
  Council on Chiropractic Education, Commission on Accreditation
- Doctoral Degree in Clinical Psychology
  American Psychological Association, Committee on Accreditation
- Masters or Doctoral Degree in Health Administration
  Commission on Accreditation of Healthcare Management Education
- Doctor of Naturopathic Medicine, Doctor of Naturopathy
  Council on Naturopathic Medical Education
- Doctor of Allopathic Medicine
  Liaison Committee on Medical Education
- Doctor of Osteopathic Medicine
  American Osteopathic Association, Bureau of Professional Education
- Doctor of Dentistry
  American Dental Association, Commission on Dental Accreditation
- Doctor of Veterinary Medicine
  American Veterinary Medical Association, Council on Education
- Doctor of Optometry
  American Optometric Association, Council on Optometric Education
- Doctor of Podiatric Medicine
  American Podiatric Medical Association, Council on Podiatric Medical Education

Example of annual loan limit

The increased unsubsidized amounts that an eligible health professions student may receive are in addition to the regular Stafford annual loan limits. For example, a student enrolled in a 9-month Doctor of Dentistry program is eligible for the regular Stafford subsidized/unsubsidized annual loan maximum for a graduate/professional student ($20,500, not more than $8,500 of which may be subsidized), plus the maximum increased unsubsidized amount of $20,000, for a total Stafford loan maximum of $40,500.

As with the loan limits for dependent undergraduates, these loan limits represent the total of all subsidized and unsubsidized Stafford Loans that an independent undergraduate student (or a dependent undergraduate whose parent is unable to obtain a PLUS loan) may borrow at each level of study, for a single academic year. For example, an independent first-year undergraduate may receive up to $9,500 in Stafford Loans for a single academic year, but no more than $3,500 of this amount may be subsidized.

Note that a dependent undergraduate whose parent is unable to obtain a PLUS loan is not eligible to receive both the $2,000 in additional unsubsidized Stafford described above, plus the additional $6,000 or $7,000 in additional unsubsidized Stafford that is available to independent undergraduates and dependent undergraduates whose parents are unable to obtain PLUS loans.

Stafford Loan limits for graduate and professional students

The subsidized loan limit for a graduate or professional student is $8,500 per academic year. The additional unsubsidized loan limit for graduate or professional students is $12,000 per academic year. (See the box at the end of this section for situations where a program combines graduate and undergraduate study, or a student with a degree is pursuing an undergraduate program.)

The regulations define a graduate/professional student as a student who is enrolled in a program or course above the baccalaureate level or in a professional program and has completed the equivalent of 3 academic years of full-time study either prior to entrance or as part of the program itself. Also, a student who is receiving FSA aid as an undergraduate student can’t be considered a graduate/professional student for that same period of enrollment.

There are several rules to consider if a student is simultaneously taking undergraduate and graduate courses. A student in an undergraduate program can’t get the graduate loan limits based on taking graduate coursework as a part of the undergraduate program. In contrast, a graduate student who is taking some undergraduate coursework is eligible for the graduate loan limits if the student is enrolled at least half-time in courses (either graduate or undergraduate) that can be applied to the graduate program requirements. However, the student must already be admitted into the graduate program—a student with a bachelor’s degree who is taking preparatory work for graduate school (or whose full admission to the graduate program is contingent upon completion of certain undergraduate courses) is not eligible for graduate loan limits.

Increased unsubsidized eligibility for health professions students

To replace loan funds that otherwise would have been available under the HEAL Program, certain health professions students may borrow increased unsubsidized Stafford Loan amounts. Schools may award the increased unsubsidized amounts to students who are enrolled at least half-time in a health professions discipline that was eligible under the HEAL Program, or in certain naturopathic medicine programs. The program must be accredited by an approved accrediting agency (see sidebar).
The disciplines that were eligible under the HEAL Program and the approved accrediting agencies for these disciplines are shown in the loan limit chart for the increased unsubsidized amounts at the end of this section. Note that the HEAL Program required a need analysis test, while need analysis (represented by the EFC) is not required for unsubsidized Stafford loans.

Because the increased annual unsubsidized Stafford Loan limits are intended to replace funds that would have been available previously under the HEAL Program, the annual loan limits for the increased unsubsidized amounts are the same as the HEAL Program annual loan limits.

In addition to the health professions disciplines that were eligible under the HEAL Program, domestic schools may also award additional unsubsidized Stafford Loan amounts to a student who is enrolled in a program that leads to a Doctor of Naturopathic Medicine (N.M.D.) degree or a Doctor of Naturopathy (N.D.) degree, and (the program must be accredited by the Council on Naturopathic Medical Education).

The chart on the next page shows the annual loan limits for the increased unsubsidized amounts, which vary by discipline and academic year length. The combined subsidized/unsubsidized aggregate loan limit for graduate and professional health professions students who are eligible to receive the increased unsubsidized amounts is $224,000 (not more than $65,500 of this amount may be in subsidized loans). If a student receives the additional Stafford loan amounts on the basis of study in a health profession program, but then leaves that program and enters a program in a different field, the student is no longer eligible for the increased Stafford loan limits. However, the additional loan amounts received on the basis of health professions study are not counted toward the normal aggregate Stafford Loan limit for that student.

PLUS loan amounts for parents & graduate/professional students

There are no fixed annual or aggregate loan limits for PLUS loans. A graduate or professional student may be awarded a PLUS loan for up to the student’s cost of attendance minus other estimated financial assistance (see Chapter 7 for packaging rules). Therefore, a graduate/professional student has additional PLUS eligibility beyond the maximum subsidized and unsubsidized loan limits.

Similarly, the total PLUS Loan amount borrowed by one parent or borrowed separately by more than one parent (including a non-custodial parent) may not exceed the student’s estimated cost of attendance minus other financial aid awarded for the period of enrollment. This is the only borrowing limit for PLUS Loans. For more on borrower eligibility, see Volume 1, Chapter 7.

HEAL program phaseout
The Health Education Assistance Loan (HEAL) Program, administered by the Department of Health and Human Services, was gradually phased out from 1995-1999.

“Dear Partner” Letter GEN-99-21

Foreign schools not HEAL-eligible
Foreign schools were not eligible to participate in the HEAL Program, and they may not award the increased unsubsidized Stafford Loan amounts.

PLUS Loans for Graduate/Professional Students
HEA Sec. 428(b)
DCL GEN-06-02
DCL GEN-11-07
PLUS loans for graduate/professional students were authorized by the Higher Education Reconciliation Act of 2005, effective July 1, 2006. Participation in the Direct PLUS loan program is optional for schools. If your school offers Direct PLUS for graduate/professional students, you must also offer Direct PLUS to eligible undergraduate students.

Entrance counseling requirements for Grad/Professional PLUS borrowers
For entrance counseling requirements for Grad/Professional PLUS—see Volume 2, Chapter 6, Providing Consumer Information.
**Increased Stafford limits for health professions students**

**Additional Unsubsidized eligibility for HEAL-eligible students**
Schools may award the following additional Unsubsidized Loan amounts to students who are enrolled at least half-time in the following accredited health professions disciplines that were eligible under the former HEAL Program (administered by the U.S. Department of Health and Human Services). See previous page for accreditation requirements.

- **Graduate in Public Health; Doctor of Pharmacy or Chiropractic; Doctoral Degree in Clinical Psychology; Masters or Doctoral Degree in Health Administration**
  - 9-month academic year: $12,500*
  - 12-month academic year: $16,667*

- **Doctor of Dentistry, Veterinary Medicine, Optometry, Allopathic Medicine, Osteopathic Medicine, Podiatric Medicine, Naturopathic Medicine, or Doctor of Naturopathy**
  - 9-month academic year: $20,000*
  - 12-month academic year: $26,667*

Students in these programs are also eligible for higher aggregate limits for combined Subsidized/Unsubsidized loans ($224,000).

* PRORATION OF ANNUAL LOAN LIMIT FOR ACADEMIC YEAR COVERING 10 OR 11 MONTHS: For programs with an academic year covering 10 or 11 months, the annual additional unsubsidized loan limit must be prorated. If the academic year covers 10 or 11 months, the prorated annual loan limit is determined by dividing the applicable loan limit for an academic year covering 9 months by 9, and then multiplying the result by 10 or 11.

**Stafford limits for preparatory coursework & teacher certification**

In Volume 1, Chapter 1, we discussed 3 instances in which a student may receive a Stafford loan for coursework that is not part of an eligible program. If the student and the academic program meet the conditions described in that Volume, the annual loan limits are:

- **Preparatory coursework (not to exceed 12 consecutive months)**
  - For undergraduate degree/certificate program:
    - Subsidized & Unsubsidized: $2,625**
    - Additional Unsubsidized for independent students and dependent undergrads whose parents can't get PLUS: $6,000**
  - For graduate or professional program:
    - Subsidized & Unsubsidized: $5,500**
    - Additional Unsubsidized for independent students and dependent undergrads whose parents can't get PLUS: $7,000**

- **State-required teacher certification coursework**
  - Subsidized & Unsubsidized: $5,500**
  - Additional Unsubsidized for independent students and dependent undergrads whose parents can't get PLUS: $7,000**

Note that no additional unsubsidized loan amount is available to dependent undergraduate students who are enrolled in preparatory coursework or teacher certification coursework (except for dependent undergraduates whose parents can't get PLUS).

** Loan limit is not prorated if the coursework lasts less than an academic year. See Volume 1, Chapter 6, FSA Handbook for more information on FSA eligibility for this coursework.
Chapter 5: Stafford/PLUS Loan Periods and Amounts

Dependent students whose parents are unable to borrow PLUS loans due to adverse credit or other exceptional circumstances may receive additional unsubsidized Stafford loans for the same amount as independent undergraduate students. The increased loan amounts do not substitute entirely for the amount a parent may borrow under the PLUS program, which may be up to the difference between COA and EFA. As a result, you should examine the parent’s ability to borrow a PLUS loan using an endorser who does not have an adverse credit history before originating additional unsubsidized loan amounts for the dependent student.

Before originating a loan for increased loan amounts, you must document the basis of the dependent student’s eligibility. Some basic guidelines for making this determination include the following:

• The parent’s unwillingness to borrow a PLUS does not make the dependent student eligible.

• A school’s decision not to participate in the PLUS program does not make the dependent student eligible.

• The aid administrator’s belief that a parent should not borrow a PLUS does not make the dependent student eligible.

• Only one parent must apply for a PLUS and be denied based on adverse credit. However, if both parents apply independently and one is approved and the other denied, the dependent student is not eligible for the increased loan amounts.

• The parent’s denial of a PLUS loan based on adverse credit in one year does not support the dependent’s eligibility in subsequent years.

• The dependent student may become eligible at any time during an academic year if a parent has first been approved and then later denied a PLUS based on a subsequent application. Under these circumstances, any previous PLUS funds received during the same period of enrollment are treated as estimated financial assistance in determining the student’s remaining eligibility for additional unsubsidized loan amounts.

The dependent student may also be eligible for increased unsubsidized loan amounts if you determine and document that other exceptional circumstances exist that will prevent a parent from borrowing a PLUS loan. The regulations provide examples, but not an exhaustive list, of the exceptional circumstances that might be used to document the dependent student’s eligibility:

• The parent is incarcerated.

• The parent’s whereabouts are unknown.

• The parent has filed for bankruptcy and has provided a letter from the bankruptcy court stating that as a condition of the bankruptcy filing, the parent may not incur any additional debt.

• The parent’s income is limited to public assistance or disability benefits and you have documented that the parent would not be able to repay the PLUS loan.

• You have examined the family financial information and documented the parent’s likely inability to repay the PLUS loan due to an existing debt burden or the parent’s expected income-to-debt ratio.

• The parent of a dependent student is not a U.S. citizen or permanent resident, or is not able to provide evidence from the U.S. Citizenship and Immigration Service that he or she is in the United States for other than a temporary purpose with the intention of becoming a citizen or permanent resident.

If a dependent student is determined to be eligible for additional unsubsidized loan amounts under exceptional circumstances, you must re-examine and document that these exceptional circumstances continue to apply before originating additional unsubsidized loan amounts for the dependent in a subsequent year.
**Graduate vs. Undergraduate limits: special cases**

- **Combined undergraduate/graduate programs.**
  Some programs combine undergraduate and graduate study, where the first years of the program are undergraduate study and the final years of the program are graduate study. For instance, in a 5-year program leading to a graduate or professional degree, the school may define the first 3 or 4 years of study as being undergraduate level.

- **Students returning for second baccalaureate degree.**
  If a student with a baccalaureate degree enrolls in another baccalaureate program, his/her loan limits would be based on the amount of work that the school counts towards satisfying the requirements of the new program. For instance, if your school decides to accept 30 semester hours of a student’s work in her previous baccalaureate program towards the requirements for a BS in Chemistry at your school and 30 semester hours are the amount needed to progress in grade level, then the student would be eligible for second-year undergraduate loan limits.

- **Transfer from graduate to undergraduate program during an academic year**
  If a student transfers from a graduate program to an undergraduate program in the middle of an academic year, the undergraduate annual loan limit for the student’s grade level applies, but amounts previously borrowed at the graduate level within the same academic year do not count against the undergraduate annual loan limit. The total amount awarded for the academic year may not exceed the higher (grad/professional) annual loan limit.

- **BA or AA but not a grad/professional student.**
  A student who has an associate or baccalaureate degree that is required for admission into a program, but is not a graduate or professional student, may borrow up to the highest undergraduate annual loan limit ($5,500 for a dependent student; additional $7,000 in unsubsidized Stafford for an independent student or a dependent student whose parent is not eligible for PLUS), subject to the undergraduate aggregate loan limits.

- **Undergraduate student with graduate degree.**
  In some cases, a student who previously received undergraduate and graduate degrees returns to school to complete a second undergraduate program. Only the loans that the student received for the first undergraduate program are included in determining the student’s remaining eligibility for loans for the second undergraduate program, up to the undergraduate aggregate limits.

  Although loans received for graduate study are not counted toward a student’s undergraduate aggregate loan limit, the combined loan amounts received for undergraduate and graduate programs may not exceed the total allowable aggregate loan limits. (See example below.)

### Example: graduate student returning to undergraduate program

<table>
<thead>
<tr>
<th></th>
<th>Subsidized:</th>
<th>Unsubsidized:</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Undergraduate</strong></td>
<td>$20,500</td>
<td>$10,000</td>
<td>$30,500</td>
</tr>
<tr>
<td><strong>Graduate</strong></td>
<td>$45,000</td>
<td>$40,000</td>
<td>$85,000</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>$65,500</td>
<td>$50,000</td>
<td>$115,500</td>
</tr>
</tbody>
</table>

An independent student has received the following loan amounts for a first undergraduate program and a graduate program:

The student has now enrolled in a second undergraduate program. Only the loans received for the first undergraduate program are counted toward the student’s undergraduate aggregate loan limit. Because the total amount received for the first undergraduate program ($30,500) does not exceed the aggregate loan limit for an independent undergraduate ($57,500, maximum $23,000 subsidized), the student has remaining loan eligibility for the second undergraduate program.

However, the loans received for the graduate program must still be considered to ensure that the student does not exceed the total aggregate loan limits. In this case, the total subsidized amount already received ($65,000) is the maximum subsidized amount that a student may receive for undergraduate and graduate study combined. Therefore, the student may receive only unsubsidized loans for the second undergraduate program. The student may not exceed the combined undergraduate/graduate aggregate loan limit of $138,500. This means that the student’s remaining loan eligibility for the second undergraduate program is $23,000 in unsubsidized loans ($138,500 - $115,500 already received for the first undergraduate program and the graduate program).
ANNUAL LOAN LIMIT PROGRESSION

Academic Year & loan limits

The academic year is used as the basis for the student’s annual loan limits. (The award year concept for Pell and the Campus-based programs is not a factor for Stafford and PLUS loans.) The loan period is often equivalent to an academic year, but there are also many situations where this is not the case. In this section, we’ll discuss how you can match the student’s loan periods to his/her enrollment and your school’s academic calendar. (If you are not familiar with the definition of an academic year, see Chapter 1 of this Volume.)

Two types of academic years for annual loan limits:
SAY and BBAY

There are two types of academic years that may be used to monitor annual loan limits for Stafford loans: a Scheduled Academic Year (SAY) or a Borrower-Based Academic Year (BBAY). (Note that although there is no annual loan limit for PLUS loans, PLUS loans are awarded for the same SAY or BBAY period that is used for Stafford loans.)

An SAY corresponds to a traditional academic year calendar that is published in a school’s catalogue or other materials (for example, fall and spring semesters, or fall, winter, and spring quarters, or, for a nonstandard SE9W program, an academic calendar comparable to a traditional academic calendar).

An SAY is a fixed period of time that begins and ends at the same time each year. A BBAY does not have fixed beginning and ending dates. Instead, it “floats” with a student’s (or group of students’) attendance and progression in a program of study.

If a program is offered in an SAY calendar, you have the option of using either an SAY or BBAY 1 to monitor the annual loan limits for students in that program. You must use a BBAY to monitor the annual loan limits for any academic program that does not meet the definition of a program allowed to use an SAY. However, there are significant differences between:

- BBAY 1, for credit-hour programs using a Scheduled Academic Year with standard terms or nonstandard SE9W terms.
- BBAY 2, for credit-hour programs not using an SAY, with standard terms or nonstandard SE9W terms.
- BBAY 3, for clock-hour programs, nonterm programs, and any nonstandard-term program, or a program with standard and nonstandard terms, not described above.

We will describe the differences between the SAY, BBAY 1, BBAY 2, and BBAY 3 in more detail in the following pages.

Academic Year
See Volume 3, Chapter 1 for a discussion of academic year requirements.

Standard Terms
Standard terms are semesters, trimesters, or quarters. See Chapter 3 of this Volume for more detail on standard terms. A standard term program may use an SAY if it has a traditional academic calendar (i.e., have terms that start at about the same time each year, where, for example, the fall and spring semesters or the fall, winter, and spring quarters normally make up the academic year. 34 CFR 668.4

Nonstandard “SE9W” Terms
34 CFR 685.301(b)(3)
If a credit-hour program has nonstandard terms, the terms are substantially equal in length, and each term is at least 9 weeks of instructional time in length, then the terms, for annual loan limit progression purposes, are referred to throughout this Chapter as “SE9W.”

The length of terms are measured in weeks of instructional time, as defined in Chapter 1. Nonstandard terms are substantially equal if no term in the loan period is more than 2 weeks of instructional time longer than any other term in that loan period.

A nonstandard program with SE9W terms may use an SAY if it has a fixed academic calendar comparable to a traditional academic calendar (i.e., terms that start at about the same time each year, where 2 or more nonstandard terms normally make up the academic year in the fall through spring).

SE9W SAY Example
Great PlainsBusiness College has programs with an academic calendar using semester hours with four terms, each with 12 weeks of instructional time in length, with three of the terms offered over the fall through spring and the fourth term offered in the summer. Great Plains defines its academic year as 36 weeks of instructional time and 24 semester hours. As “quarters” using semester hours, the terms are nonstandard terms.

Because these terms are nonstandard terms that are substantially equal and at least nine weeks of instructional time in length (SE9W), and are offered in a fixed schedule that encompasses the FSA academic year and also there is a summer term in an academic calendar comparable to a traditional calendar, these programs may use an SAY and BBAY 1.
Must use BBAY 3

(1) standard terms

Credit Hour Programs that are offered in a

Scheduled Academic Year (SAY)

Credit Hour Programs that are offered in a

Nonstandard (nonSE9W) Terms
Credit-hour programs with traditional calendar using standard terms or nonstandard SE9W terms with a comparable calendar: may use SAY

As noted above, an SAY corresponds to a traditional academic year calendar, and usually begins and ends at the same time each calendar year (for example, beginning on the first day of the fall semester and ending on the last day of the spring semester). An SAY must meet the FSA requirements for an academic year (the latter as described in Chapter 1). An SAY may include one or more terms that a student does not attend.

Summer terms are generally not considered to be part of the SAY, but for loan limit purposes they may be treated as a “trailer” to the preceding SAY or as a “header” to the following SAY. Your school has the option to establish a policy that designates its summer term as either a trailer or header to the SAY for all students. You can also choose to make different designations for different educational programs, or for different students, as long as you ensure that there is no overlap in academic years. Note that a fixed designation of the summer term can limit a student’s eligibility. For instance, if you always treat your summer term as a trailer to a preceding fall-spring SAY, a student who receives the full annual loan limit for fall-spring would have no remaining loan eligibility for summer.

The annual loan limit applies to the SAY, plus the summer trailer or header. Once the calendar period associated with all of the terms in the SAY and the summer header or trailer (if any) has elapsed, a student regains eligibility for a new annual loan limit.

Treatment of summer minisessions
Summer minisessions must be grouped together as a single trailer or header term if the program is to have a BBAY, or they can be treated separately and assigned to different SAYs. (See Chapters 1 and 3 for treatment of minisessions as payment periods and in determining Pell payments.) If the summer minisessions are grouped and treated as a single term, the summer cost of attendance cannot include costs for a minisession for which the student is not expected to be enrolled.

SAY for standard term, credit-hour programs using a traditional academic year calendar

Springfield Academy offers a 2-year program measured in semesters and awarding credit hours. It defines its FSA academic year in accordance with the minimum requirements and uses an SAY that provides 30 weeks of instruction and 24 semester hours, and includes two semesters (Fall and Spring), each 15 weeks of instructional time in length. Springfield Academy also offers a Summer session that it treats as a “trailer” to the SAY.

Most of Springfield’s students do not attend the Summer session, so the aid office typically originates Stafford loans for a period of enrollment that starts with the Fall semester (August 27) and concludes at the end of the Spring semester (May 2). However, there are some first-year students who decide to enroll in the Summer term in order to complete their studies sooner. The annual loan limit applies to the Fall through Spring SAY, plus the Summer trailer. Students who receive the maximum annual loan amount for Fall-Spring have no loan eligibility for summer and may not borrow again until the start of the next SAY in the Fall, unless Springfield opts to place them in a BBAY beginning with the summer term.

Year 2: Scheduled Academic Year

Academic Year for loan limit purposes = 2 semesters + summer trailer
Credit-hour programs with an SAY: may use BBAY 1

If a program is offered in a SAY, you have the option of using a BBAY as an alternative to the SAY for monitoring annual loan limit progression. Unlike an SAY, a BBAY is not a fixed period that begins and ends at the same time each year. Instead, a BBAY’s beginning and ending dates depend on the individual student’s enrollment.

For programs with an SAY, a BBAY must include the same number of terms as the SAY that would otherwise be used (not including any summer “trailer” or “header”). For example, if the SAY includes three quarters (fall, winter, spring), a BBAY would consist of any three consecutive terms. A BBAY may include terms the student does not attend if the student could have enrolled at least half-time in those terms, but (unlike an SAY) it must begin with a term in which the student is actually enrolled (even though the student may be enrolled less-than-half-time for the first term and not eligible for a loan for that term). Also, any minisessions (summer or otherwise) that run consecutively within a term must be combined and treated as a single term.

Like an SAY, a BBAY must meet the minimum FSA requirements for an academic year. However, a BBAY that includes a summer term may include fewer than 30 weeks of instructional time or fewer credit hours than the minimum number required for an SAY. This is because a summer term may be shorter than a standard term in an SAY, but is recognized as academically equivalent to a standard term when used as one of the terms in a BBAY. (NOTE: This exception applies only to a BBAY used as an alternative for a program with an SAY.)

You may use BBAYs for all students, only for students in certain programs, or on a student-by-student basis. For example, you could use a BBAY for students enrolled in a program that begins in a term other than the first term of the SAY. You can even alternate BBAYs and SAYs for a student, provided the academic years don’t overlap. This treatment may allow a student to receive another loan sooner than would be allowed under an SAY standard.

As with an SAY, the annual loan limit applies to the BBAY. Once the calendar period associated with all of the terms in the BBAY has elapsed, a student regains eligibility for a new annual loan limit.
Standard term, credit-hour programs using a traditional academic year calendar: BBAY 1

1. **BBAY where SAY contains 2 semesters**

Examples 1a through 1c illustrate the optional use of a BBAY for a program that is offered in an SAY consisting of two semesters, Fall and Spring, each 15 weeks of instructional time in length. (Note that in each example, the first BBAY is the same as the SAY.)

In example 1a, the initial Fall and Spring terms could be considered either an SAY or BBAY. If the student attends the Summer session at the school, the aid administrator can elect to treat the Summer term and the next Fall as a BBAY for the student. In that case, the following Spring and Summer would also constitute a BBAY. The maximum loan limit for an academic year applies to each BBAY. If these were the first three years of study for a dependent student and the student progressed a grade level each academic year, he/she would be eligible for up to the maximum Stafford amounts of $3,500, $4,500 and $5,500 for the respective academic years.

</tbody>
</table>

A student doesn’t have to attend all of the terms in a BBAY, but the BBAY cannot begin with a term that the student doesn’t attend. In example 1b, the student is not enrolled in the second term (Fall) of year 2.

In example 1c, if the student does not attend a term that otherwise would have been the beginning of a BBAY (in this case, Spring), then the student’s next BBAY cannot begin until the next term that the student attends. As with example 1a, the annual loan limit applies to each BBAY.

2. **BBAY where SAY contains 3 quarters**

The same concepts apply to quarter-term programs. For instance, in example 2, the Fall, Winter, and Spring terms constitute the school’s SAY. If the student attends the Summer session at the school, it can be the first term of a BBAY that includes the following Fall and Winter terms.

<table>

Standard-term programs and nonstandard term SE9W programs 
without a SAY: BBAY 2

If a program with standard terms or nonstandard SE9W terms is not 
offered in a traditional academic year calendar (SAY), a BBAY must be used. 
If the program uses semesters or trimesters, a BBAY generally consists of 
any two consecutive terms (similarly, with quarters, any three consecutive 
terms). If the program uses SE9W nonstandard terms, a BBAY consists of 
the number of consecutive terms that coincide with the weeks of instructional 
time in the program’s academic year.

As with the optional BBAY that may be used for programs with an SAY, 
the BBAY may include terms that a student does not attend (as long as the 
student could have enrolled at least half-time in those terms), but it must 
begins with a term in which the student is actually enrolled (even though 
the student may be enrolled less-than-full-time for the first term and not 
eligible for a loan for that term). Unlike the optional BBAY for programs 
offered in an SAY, there is no exception to the minimum FSA academic 
year requirements for a BBAY that includes a summer term: the BBAY 
for standard-term programs that are not offered in a traditional academic 
calendar, or a comparable calendar if SE9W nonstandard terms, must 
always include enough terms to meet the minimum FSA academic year 
requirements for weeks of instructional time.

The annual loan limit applies to the BBAY. Once the calendar period 
associated with all of the terms in the BBAY has elapsed, a student regains 
eligibility for a new annual loan limit.

---

Springfield Academy also has a program that measures academic progress in credit 
hours and uses 15-week semesters, but is not offered in a traditional academic 
year calendar (SAY). New students begin the program each month, and a 15-
week semester begins at that time for that cohort of students. The school must 
use a BBAY to monitor annual loan limits. A BBAY consists of any two consecutive 
semesters, beginning with a semester in which a student is enrolled:

</table>
Clock-hour, nonterm credit-hour, and nonstandard term programs that are not SE9W: BBAY 3

All clock-hour programs, nonterm credit-hour programs, and nonstandard term programs with terms that are not SE9W must use a BBAY that meets the minimum requirements for an academic year. That is, the BBAY must contain at least 30 (or, for clock-hour programs, 26) weeks of instructional time and at least the appropriate number of credit or clock hours: for undergraduate programs, 24 semester or trimester hours, 36 quarter hours, or 900 clock-hours; for graduate programs, the number of hours a student would complete under the school’s full-time standard in the weeks of the FSA academic year, which must be a minimum of 30 weeks of instructional time, or, for clock-hour programs, at least 26 weeks of instructional time. This requirement also applies to a program that consists of both standard and nonstandard terms and that does not qualify to use an SAY.

The BBAY begins when a student enrolls and does not end until the later of the date the student successfully completes the hours in the academic year, or the number of weeks of instructional time in the academic year.

Because a student must successfully complete the minimum number of hours or weeks of instructional time in an academic year (whichever comes later) before a new BBAY begins, a student’s enrollment status may affect how soon the student regains eligibility for a new annual loan limit. For example, a student who is attending part-time will take longer to complete a BBAY than a full-time student. (In contrast, an SAY or BBAY for a standard term program, or a nonstandard SE9W program ends when the calendar period associated with the terms in the SAY or BBAY has elapsed, regardless of how many credit hours or weeks of instruction the student completed during the SAY or BBAY.)

Clock-hour, nonterm and nonstandard BBAYs based on full-time progress

In many clock-hour, nonterm and nonstandard-term programs, students are allowed to progress at an individual pace. For example, a school that defines its academic year as 900 clock hours and 26 weeks of instructional time offers a 900 clock-hour program that most students complete in 26 weeks. However, one student might complete 900 clock hours in 22 weeks, and another in 30 weeks. You do not have to prorate the loan limit for the occasional student who completes the program in less than 26 weeks. (Note that this policy applies only to programs that are exactly one academic year in length. If a program is longer than an academic year, proration may be required for a loan covering the remaining portion of the program if a student completes more than the minimum number of hours during the first 26 weeks of instructional time. See loan limit proration example 3 later in this chapter).

BBAY 3 and programs with standard terms

If a program has standard terms and nonstandard terms and does not qualify to use an SAY, the program must use BBAY 3. One common example is a program with a 4-1-4 calendar where the winter intersession is not combined with either the fall or spring semester (it is not permissible to ignore a student’s enrollment in a winter intersession). Another common example is a degree-completion program with 20-week nonstandard terms where students must also attend regular semesters to complete their degree (these programs can affect all degree-seeking students at an institution depending on how they are structured).

BBAY 3 Program remaining eligibility

34 CFR 668.4(g)
34 CFR 685.301(a)(10)
Clock-hour, nonterm, and nonstandard term programs
(other than SE9W programs): BBAY 3

Example 1: Nonterm credit-hour program
A school offers a 48 semester hour, 60 weeks of instructional time program with a defined academic year of 24 semester hours and 30 weeks of instructional time. A student could receive two loans for this program. The period of enrollment for the first loan would be the time needed for a student to successfully complete the first 24 hours and 30 weeks of instructional time. The period of enrollment for the second loan would be the time needed to complete the remaining hours and weeks of instructional time of the program. A student does not become eligible for the second loan until the later of the date that he/she successfully completes (passes) either 24 semester hours or 30 weeks of instructional time before receiving the second loan.

Example 2: Nonstandard term, credit hour program, terms not substantially equal in length
A school offers a 72 quarter hour program with 60 weeks of instructional time and a defined academic year of 36 quarter hours and 30 weeks of instructional time. Courses are offered in 2-week and 5-week terms. A student could receive two loans, one for the period in which the student successfully completes the first 36 hours or 30 weeks, whichever comes later, and another for the remaining hours and weeks of the program.

Although this program uses terms and measures academic progress in credit hours, the terms are nonstandard terms that are not substantially equal in length. A student does not become eligible for the second loan until he or she has completed 36 quarter hours or 30 weeks of instructional time, whichever comes later, regardless of the number of terms that have elapsed. For instance, a student who successfully completes (passes) thirty-three quarter hours in the first 30 weeks of instructional time must complete an additional three quarter hours before receiving the second loan. Generally, one would originate a loan through the term in which the student would complete the hours and weeks of instructional time of the academic year.

Example 3: Clock-hour Program
Springfield Academy has a 1,800 clock-hour program with 52 weeks of instructional time, and defines its academic year as 900 clock hours and 26 weeks of instructional time. The initial BBAY always begins with the student’s actual enrollment date. An enrolling student may receive two Federal Stafford Loans during the program (provided all eligibility criteria are met) because the program exceeds one academic year. The period of enrollment for the first loan would be the time it will take the student to successfully complete (pass) either 900 clock hours or 26 weeks of instructional time, whichever comes later. The period for the second loan would be the time it takes to successfully complete the final 900 hours and 26 weeks of instructional time. Note that the student cannot receive the second loan until he/she has successfully completed the first 900 hours of the program or 26 weeks of instruction, whichever comes later.

A student who completes the first 900 hours in less than 26 weeks must still complete 26 weeks of instructional time before a new BBAY begins and the student becomes eligible to receive another loan. In this case, the second loan period would be for the clock hours remaining and the weeks of instructional time to complete those hours. Similarly, a student who has completed fewer than 900 clock hours after 26 weeks of instructional time must successfully complete 900 hours before receiving another loan.
GRADE LEVEL PROGRESSION

The annual loan limit for Stafford Loans increases as a student progresses in his/her studies. Generally, a student’s grade level for loan limit purposes is set according to the school’s academic standards. Progression to a higher grade level does not always coincide with the beginning of a new academic year. For example, a student in a standard term program (or a student in a nonstandard substantially equal-terms of 9+ weeks [SE9W] program) who completes only 12 semester hours during the first academic year could receive another loan when the calendar period associated with that academic year has elapsed. However, the student will still be classified as a first-year undergraduate at the start of the second academic year.

Grade level progression within the same academic year

In standard term programs or nonstandard SE9W programs, a student who has already borrowed up to the annual limit within an academic year can receive additional loan funds if the student progresses to a grade level with a higher annual loan limit during that same academic year.

For instance, if a dependent student was classified as a 2nd-year student in the fall, he/she might have received as much as $3,250 in the first Stafford disbursement. If the student achieved 3rd-year academic status based on the coursework completed in the fall semester, the student would now be eligible for the $7,500 Stafford annual limit. If the student had sufficient financial need, you could disburse the difference between the amount the student already received and the new annual limit in the spring term ($7,500 minus $3,250 = $4,250).

In all cases, the student may borrow the difference between the amount already borrowed within the academic year and the student’s new loan limit. Usually, the increase in the loan amount can be made as an adjustment to the student’s existing loan rather than making a new loan. For a clock-hour program, nonterm program, or nonstandard-term program that is not SE9W, the student will never progress to a higher grade level within an academic year. In a clock-hour program, nonterm program, or nonstandard-term program that is not SE9W that is longer than an academic year, the student moves to a higher grade level only when he or she completes the BBAY.

Grade level progression

While the law defines minimum coursework for an academic year, it doesn’t define how much coursework a student must complete to progress from one grade level to another. Unless a student’s program of study or a school’s academic standards clearly specify when this grade-level progression takes place, a reasonable approach would be to base grade levels on the number of credits required for the program, divided by the number of academic years it takes a typical student to earn that number of credits. For instance, if your school has a baccalaureate program that requires 120 semester hours of work and is typically completed in four academic years, then you might use a standard of 30 hours completed at each grade level.

Remedial work & grade level

Remedial coursework can be counted towards the student’s grade level progression, but only if the school’s written and officially approved academic grade level progression policy specifies that remedial coursework can be counted for this purpose. Example: A school requires that the student complete 30 semester hours to progress to second-year grade level, and specifies that up to 10 of the hours may be in the form of remedial coursework.
Increasing the loan when grade level changes during academic year

The best method for increasing the amount of an existing loan may depend on your school’s software and the Department’s loan system. Here are two commonly-used methods:

1. Originate a new loan at the new grade level for the applicable amount (the difference between the new loan limit and the amount of the first loan). The loan period for the new loan must correspond to the term(s) during which the student qualifies for the higher loan limit (that is, it may not include a prior term when the student was classified at a lower grade level). If the new loan period is for a single term, the loan must be disbursed in two installments. (The school could also choose to cancel any pending disbursements of the first loan and originate a new loan for an amount equal to the canceled disbursements of the first loan plus the additional amount for which the student is eligible due to the grade level change.)

2. Adjust the amount of the current loan. For Direct Loans, change the grade level in the loan record and increase the amount of the existing loan to the new amount. For both loan programs, if the increased amount is for a single term (for example, a spring semester), it must be disbursed in two equal installments, one at the beginning of the term and one at the midpoint.

With either option, the student’s remaining financial need must be calculated using only the costs and estimated financial assistance for the term(s) during which the student qualifies for the higher loan limit.

Grade level progression: clock-hour, nonterm credit-hour, and other nonterm programs

In contrast, progression to a higher grade level and the beginning of a new academic year for loan limit purposes always happen at the same time for a student in a clock-hour program, nonterm program, or nonstandard-term program in which the terms are not substantially equal in length or one or more terms have less than nine weeks of instructional time. In order to advance to the next grade level in such a program, for annual loan limit purposes a student must successfully complete the weeks and hours in the program’s FSA academic year, i.e., at least 30 weeks of instructional time (or, for clock-hour programs, at least 26 weeks) and the academic credit, whichever comes later. For instance, a first-year student in a 2-year nonterm program who earns 36 quarter-credits over 24 weeks of instructional time cannot progress to the next grade level until another 6 weeks of instructional time are completed (the point at which the loan period for that academic year will be completed).

If a program can normally be completed in one year of full-time study, a student in that program can never receive more than the 1st-year annual loan limit in any given year, no matter how long it takes the student to finish. (Similarly, a student in a two-year program can never receive more than the 2nd-year annual loan limit for an academic year.)
New annual amount for same grade level

For both standard-term programs and SE9W programs, if a student is enrolled at the same grade level after a full academic year has elapsed, the student may be eligible for a new annual maximum amount. For instance, if the student maintains satisfactory academic progress, he or she could conceivably receive two Stafford loans at the maximum annual loan limit for a first-year undergraduate while completing the first year of the program.

If the student is maintaining satisfactory academic progress, your school is not permitted to have a general policy that limits the number of times the student can receive the maximum annual loan limit at one grade level. A school may refuse to originate a loan, or may originate a loan for an amount less than the borrower’s maximum eligibility, only on a case-by-case basis.

Transfers & grade level

If you’re awarding a Stafford loan to a student who is transferring from a program at another school to a program at your school that is greater than one academic year in length, you may use the loan limits for a student in the 2nd-year or higher level of study if your school classifies the student at that level based on the number of academic credits it accepts from the prior school, or based on the granting of advance standing in the new program. Note, however, that if an associate or bachelor’s degree is required for entry into a program at your school, you must use the 3rd-year loan limits for a student who transfers to that program.

Note that the “Eligibility and Certification Approval Report” lists “one-year” as the highest educational program offered by the school if its longest program is one year or more, but less than two years in length. Students in programs longer than one year can be paid as 2nd year students even though the ECAR lists the school’s highest offering as “one-year.” For instance, if a student is enrolled in a 1,500-hour program, he/she would be eligible for the 2nd-year loan limits after completing 900 clock hours and 30 weeks of instruction (or, for clock-hour programs, at least 26 weeks). However, the loan limit would have to be prorated for the remaining hours of the student’s program (see next section).
Stafford Loan proration
Direct Loans: 34 CFR 685.203(a), (c)

When and when not to prorate
You must prorate a Stafford Loan limit for an undergraduate program if:
• the academic program is shorter than an academic year; or
• the student’s remaining period of study is shorter than an academic year.

Stafford Loan limits are prorated only in these two situations. Loan limits are not prorated based on a student’s enrollment status, such as when a student is enrolled less than full-time or is enrolled for a period of less than a full academic year that is not a remaining period of study. In addition, Stafford Loan limits are not prorated for students enrolled in graduate or professional level programs.

Loan proration requirements also do not apply to loans made to students taking preparatory coursework or coursework necessary for teacher certification. The annual loan limit must be prorated only when a student is enrolled in a program or remaining portion of a program that is shorter than an academic year. Students taking preparatory coursework or coursework needed for teacher certification are not enrolled in a program.

PRORATING ANNUAL LOAN LIMITS FOR STAFFORD LOANS (UNDERGRADUATE ONLY)

The annual maximum loan amount an undergraduate student may borrow must be prorated in certain situations, including:

• when the student is enrolled in a program that is shorter than a full academic year; and

• when the student is enrolled in a program that is one academic year or more in length, but is in a remaining period of study that is shorter than a full academic year.

Bear in mind that loan limit proration determines the maximum loan amount that a student may borrow for a program or remaining balance of a program, not the loan amount that the student actually receives. In some cases, the actual loan amount that a student is eligible to receive (based on costs, EFC, and other aid) may be less than the prorated loan limit.

Prorating loan limits for programs of study shorter than a full academic year
If an academic program is shorter than a full academic year in length, you must multiply the applicable loan limit(s) by the lesser of —

\[
\frac{\text{Semester, trimester, quarter, or clock hours enrolled in program}}{\text{Semester, trimester, quarter, clock hours in academic year}}
\]

or

\[
\frac{\text{Weeks enrolled in program}}{\text{Weeks in the academic year}}
\]

The result is the prorated annual loan limit for that program. (You may express these fractions as decimals to see more easily which is less or to calculate the prorated limit.)

Prorating loan limits for remaining periods of study shorter than an academic year
You must also prorate loan limits for students enrolled in remaining periods of study shorter than an academic year. This circumstance can occur when a student is enrolled in a program that is one academic year or more in length, but the remaining period of study needed to complete the program will be shorter than an academic year.

Proration is required only when it is known in advance that a student will be enrolled for a final period of study that is shorter than an academic year. If a student originally enrolls for a final period of study that is a full academic year in length, but completes the program early in less than a full academic year, it is not necessary to retroactively prorate the annual loan limit.
In a standard term program, or a credit-hour program using nonstandard SE9W terms, a remaining period of study is considered shorter than an academic year if the remaining period contains fewer terms than the number of terms covered by the school’s FSA academic year. (For programs that are offered in a Scheduled Academic Year, the number of terms covered in the school’s FSA academic year usually does not include any summer “header” or “trailer” term.)

In a clock-hour program, nonterm program, or a program with nonstandard terms that are not SE9W, a remaining period of study is considered less than an academic year for this purpose if the remaining period consists of fewer clock or credit hours than the program’s defined FSA academic year.

For all types of programs, in each of the cases where there is a remaining portion less than an academic year, the annual loan limit for the student’s grade level is multiplied by the following fraction to determine the prorated loan limit:

\[
\frac{\text{Semester, trimester, quarter, or clock hours enrolled in program}}{\text{Semester, trimester, quarter, clock hours in academic year}}
\]

Unlike proration for programs that are shorter than an academic year, there is no comparison of weeks and hours. Only the credit or clock hours that the student is scheduled to attend or is actually attending at the time of origination are used in the calculation.

Prorating loan limits for programs of study longer than a full academic year

For students in a program of study of at least one academic year but less than 2 academic years in length, the additional $2,000 in unsub Stafford eligibility is multiplied by the following ratio:

\[
\frac{\text{Semester, trimester, quarter, or clock hours enrolled in program}}{\text{Semester, trimester, quarter, clock hours in academic year}}
\]

For students in a program of study of less than an academic year in length, the additional $2,000 is multiplied by the lesser of the following 2 ratios:

\[
\frac{\text{Semester, trimester, quarter, or clock hours enrolled in program}}{\text{Semester, trimester, quarter, clock hours in academic year}}
\]

or

\[
\frac{\text{Weeks in program}}{\text{Weeks in academic year}}
\]
Proration examples for programs shorter than an academic year

Example 1

<table>
<thead>
<tr>
<th>Program: 400 clock hrs, 12 weeks of instructional time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Academic year: 900 clock hrs, 26 weeks of instructional time</td>
</tr>
</tbody>
</table>

Jill is a dependent student enrolled in a 12-week program at Hancock Career College. HCC defines the academic year for this program as 900 clock hours providing 26 weeks of instructional time. Measured in clock hours, Jill’s program is 400 clock hours long.

To determine the maximum loan amount she can borrow, convert the fractions based on weeks (12/26 = .46) and hours (400/900 = .44) to decimals. Multiply the smaller decimal (.44) by the first-year annual loan limits: $3,500 subsidized and $2,000 unsubsidized.

\[
\begin{align*}
$3,500 \times .44 &= $1,540 \text{ subsidized} \\
$2,000 \times .44 &= $880 \text{ unsubsidized}
\end{align*}
\]

The maximum combined subsidized and unsubsidized loan amount Jill can borrow for the program is $2,420, but no more than $1,540 of this amount may be in subsidized loans.

Example 2

<table>
<thead>
<tr>
<th>Program: 24 quarter hours; 20 weeks of instructional time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Academic year: 36 credit hrs, 30 weeks of instructional time</td>
</tr>
</tbody>
</table>

Morgan is an independent student enrolled in a program at Hancock Career College that provides 24 quarter hours and 20 weeks of instructional time. HCC defines the academic year for this program as 36 quarter hours and 30 weeks of instructional time. To determine the maximum loan amount she can borrow, convert the fractions based on weeks (20/30 = .67) and quarter hours (24/36 = .67) to decimals. Multiply the smaller decimal (in this case, both are .67) by the first-year annual loan limits for subsidized and unsubsidized Stafford:

\[
\begin{align*}
$9,500 \times .67 &= $6,365 \text{ total Stafford} \\
$3,500 \times .67 &= $2,345 \text{ subsidized}
\end{align*}
\]

The maximum combined subsidized and unsubsidized Stafford amount Morgan can borrow for the program is $6,365, with the subsidized loan amount limited to $2,345.
Chapter 5: Stafford/PLUS Loan Periods and Amounts

**Example 1: Academic year contains 3 quarters**

Remaining period = 1 quarter

<table>
<thead>
<tr>
<th>Fall</th>
<th>Winter</th>
<th>Spring</th>
</tr>
</thead>
</table>

Rudy has attended 6 quarters in a 2-year program at Beulah Community College, but to finish the program, he needs to attend an additional quarter as a half-time student (6 quarter hours). Rudy is a dependent undergraduate student, and BCC defines its academic year (covering three quarters) as 36 quarter hours and 30 weeks of instructional time.

To determine the prorated Stafford loan limit, convert the fraction based on the hours that Rudy is expected to attend and the hours in the academic year to a decimal (6/36 = .17).

Multiply this decimal by the second-year undergraduate annual loan limits:

- $4,500 (subsidized) x .17 = $765
- $2,000 (unsubsidized) x .17 = $340

Total prorated Stafford limit $1,105, of which $765 may be subsidized.

**Example 2: Academic year contains 2 semesters**

Remaining period = 1 semester

<table>
<thead>
<tr>
<th>Fall</th>
<th>Winter</th>
<th>Spring</th>
</tr>
</thead>
</table>

Rudy transfers to a BA program at Lacy Springs College. By taking 18 hours a semester, he will be able to graduate in the fall term of his second year. Rudy is a dependent undergraduate student, and Lacy Springs defines its academic year (covering two semesters) as 24 credit hours and 30 weeks of instructional time.

To determine the prorated Stafford loan limit, convert the fraction based on credit hours to a decimal (18/24 = .75). Multiply this decimal by the fourth-year undergraduate annual loan limits:

- $5,500 (subsidized) x .75 = $4,125
- $2,000 (unsubsidized) x .75 = $1,500

Total prorated Stafford limit $5,625, of which $4,125 may be subsidized.

**Example 3: Academic year contains 900 clock hours and 26 weeks**

Program = 1800 clock hours

Year 1: Student completes 1040 clock hours in 26 weeks
Year 2: 750 clock hours remaining in program

Knox Career College has an 1800 clock-hour program and defines its academic year as 900 clock hours and 26 weeks of instructional time. Sally, a dependent undergraduate student, successfully completes the first 900 clock hours of the program in 22 weeks of instructional time. However, she must complete an additional four weeks of instructional time before she may receive a second loan. After 26 weeks of instructional time have elapsed, Sally has successfully completed 1040 clock hours. She may then receive a second loan, but the loan limit must be prorated based on the number of clock hours remaining in her program at this point.

To determine the prorated loan limit for Sally’s second loan, convert the fraction based on the clock hours remaining to a decimal (760/900 = .84). Multiply this decimal by the second-year undergraduate annual loan limit (total with added unsub):

$6,500 x .84 = $5,460

**Example 4: Remaining period of study with scheduled period of nonenrollment**

Fall | Winter | Spring

O’Donnell Institute has an academic year that covers three quarters: fall, winter, and spring. Milton will be enrolling in the fall and spring quarters, but not the winter quarter, and will graduate at the end of the spring quarter.

Because the fall quarter is in the same academic year as Milton final quarter, it is part of the final period of study, even though there is a term between the final quarter and the fall quarter in which he will not enroll.

O’Donnell Institute may award Milton a single loan for the fall and spring quarters (costs for the winter quarter must be excluded), or separate loans for fall and spring. In either case, the annual loan limit must be prorated. If Milton decided to enroll for the winter quarter on a less-than-half-time basis, his remaining period of study (three terms) would be equal to a full academic year and proration would not be required for a loan covering the fall and spring quarters.
REMAINING LOAN ELIGIBILITY FOR STUDENTS WHO TRANSFER OR CHANGE PROGRAMS

The annual loan limits are based on an academic year. If a student transfers from one school to another school or changes to a different program at the same school and there is an overlap of academic years, this overlap may affect the amount that the student is eligible to borrow at the new school or for the new program.

An overlap in academic years exists at the new school if the academic year at the new school or new program at the same school begins before the calendar end date of the academic year at the prior school or program. You may obtain documentation from the prior school of the specific beginning and ending dates for the prior academic year or may consider the prior academic year to have begun with the starting date of the student’s most recent loan period (as shown in NSLDS) and to have ended 30 calendar weeks later. (However, if the most recent loan period was more than 30 calendar weeks in length, the new school must consider the academic year at the prior school to have ended on the last date of the prior loan period.)

The same principles for students who transfer from one school to another school would apply in the case of students who change programs within the same school.

For programs with standard terms or nonstandard SE9W terms (use SAY, BBAY 1, or BBAY 2)

If a student enrolls in a program with standard terms (or nonstandard SE9W terms) after already having taken out a loan at another school with an overlapping academic year, the student initially may not receive more than the annual loan limit minus the amount received at the prior school.

However, the student may borrow again for a subsequent term within the same academic year at the new school if the term begins after the end of the academic year at the prior school. For a subsequent term that begins after the end of the prior school’s academic year, but within the initial academic year at the new school, the student may borrow up to the difference between the applicable annual loan limit and the amount already received for the new school’s academic year.
Standard Term

A student receives a $2,000 Stafford loan at School A for a loan period from May 1 to August 31. The student, a dependent undergraduate, transfers to a program at School B in September and is admitted at grade level 2. The student requests a loan for the Fall and Spring semesters (September-May). School B makes a determination that the academic year at School A ended on November 27 (30 weeks after the start of the loan period at School A).

Because the academic year at School B begins before the end of the academic year at School A, the student may initially receive only up to a maximum of $4,500 for the Fall semester at School B. This amount represents the difference between the annual loan limit ($6,500) and the amount received at School A ($2,000) for the overlapping academic year period. At the start of the Spring semester in January (after the end of the academic year at School A), the student may borrow up to an additional $2,000, the difference between the annual loan limit and the amount already borrowed for the Fall-Spring academic year at School B.

As an alternative, School B could choose to place the student on a BBAY schedule beginning with the Spring semester. The student would then be eligible to borrow up to the full annual loan limit for a Spring/Summer BBAY.

Clock-hour program

For example, a student receives the first disbursement ($2,750) of a Stafford loan at School A for a loan period from April 1 to December 31. The student, a dependent undergraduate, leaves school A in June and transfers to an 1,800 clock-hour program at School B, and School B does not accept any transfer hours. Because the academic years at the two schools overlap, the maximum loan amount that the student may receive for the first academic year of the program at School B (900 clock hours and 30 weeks of instructional time) is $2,750, the difference between the first-year annual loan limit ($5,500) and the amount received at School A ($2,750).

If School B had accepted some hours on transfer, it would have originated a loan for the remaining balance of the annual loan limit for the period covering the remaining portion of the School A loan period. After this remaining balance is completed, the student would have progressed to a new annual loan limit.
For clock-hour and nonterm programs, and programs with nonstandard terms that are not SE9W (use BBAY 3)

Transfers between schools:

If a student who enrolls in a clock-hour or nonterm program (or a program with nonstandard terms that are not SE9W) after already having taken out a loan at another school with an academic year that overlaps the academic year at the second school, then the student is restricted to the original annual loan limit until the completion of the first academic year at the new school unless the second school accepted transfer credits or clock hours from the first school. If the second school accepts transfer hours from the first school, the second school would certify a loan for the remaining balance of the annual loan limit for the period that covers the remaining portion of the loan period at the first school. After this remaining balance is completed, the student would progress to a new loan period and a new annual loan limit.

Transfers between programs at the same school:

For a transfer between programs at the same school, you would look to the requirements for payment periods. There would be a new loan period with new payment periods or, if you choose to consider the student to be in the same payment period, there would be no new loan period.

Same payment period and same loan period—At your option, you can consider a transferring student to be in the same payment period if:

- The student is continuously enrolled at the school;
- The coursework in the payment period the student is transferring out of is substantially similar to the coursework the student will be taking when he or she first transfers in the new program;
- The payment periods are substantially equal in length in weeks of instructional time and credit or clock hours, as applicable;
- There are little or no changes in school charges associated with the payment period to the student; and
- The credits or clock hours from the payment period the student is transferring out of are accepted toward the new program.

If the student is kept in the same payment period, the original loan period should remain the same. However, you may need to take into account any changes as to when the student would complete the hours and weeks of instructional time of the academic year and make adjustments such as the ending date of the loan period or the date of the second disbursement.
New payment period and new loan period

If a transferring student is placed, or must be placed, in a new payment period, you would perform a Return of Title IV calculation for his or her withdrawal from the payment period in the old program (assuming that the student did not complete that payment period without starting a new one before transferring into the new program if the R2T4 is done on a payment period basis; or assuming the student did not complete the loan period if the R2T4 is done on a period of enrollment basis). That calculation would close out the original loan period. Then the student would start over with a new loan period for his new program that uses the remaining annual loan limit eligibility from the prior loan period. The new loan period would be for an academic year using the remaining annual loan limit eligibility if the student’s new program is at least an academic year in length. If the new program is less than an academic year, the student’s annual loan limit is the lesser of the remaining annual loan limit eligibility or the prorated annual loan limit based on hours to be completed in the new program.

Student completes a program and starts another at the same institution

A student completes a program at your school and then begins a new program at your school, and the student’s last loan for the completed program is for less than an academic year. In this case, you may originate the loan for the remainder of the academic year for the new program. You may originate the loan for an amount that does not exceed the remaining balance of the student’s annual loan limit at the loan level associated with the new program.
AGGREGATE LOAN LIMITS

A borrower who has reached his or her aggregate borrowing limit may not receive additional loans. Once the loans are repaid, in full or in part, the borrower may apply for additional Stafford Loans. Certain aggregate loan limits have increased for loans disbursed on or after July 1, 2008.

The maximum outstanding total subsidized and unsubsidized Stafford Loan debt is:

- $31,000 for a dependent undergraduate student,
- $57,500 for an independent undergraduate student (or a dependent undergraduate student whose parents do not qualify for PLUS loans). No more than $23,000 of this aggregate amount may be in the form of subsidized loans.
- $138,500 for a graduate or professional student (including loans for undergraduate study). No more than $65,500 of this aggregate amount may be in the form of subsidized loans.

The loan amounts counted towards these maximums include any outstanding amounts borrowed in the form of Stafford Loans or Supplemental Loans for Students program (the discontinued SLS program). In the case of a Consolidation Loan, the outstanding amount of the Consolidation Loan representing any underlying Stafford or SLS loans that were paid off by the Consolidation Loan is counted towards the aggregate Stafford Loan limits.

Checking loan amounts on NSLDS

If a student at your school has FSA loans that were received at other schools, you may need to check the National Student Loan Data System (NSLDS) Web site to make sure the student still has remaining eligibility under the aggregate loan limits.

As long as there is no conflicting information, you may rely on the financial aid history (provided on the ISIR as well as the NSLDS Web site) and the Transfer Student Monitoring process to tell you if a student is about to exceed the aggregate Stafford Loan limits. (The NSLDS financial aid history may affect eligibility for other FSA programs, so it is discussed in more detail in Volume 1, Chapter 3.)

The aggregate loan limits do not include accrued interest and other charges. To avoid counting interest and other charges when determining a student’s remaining loan eligibility using NSLDS, use the aggregate outstanding principal balance (Agg OPB) shown in NSLDS for each of the student’s outstanding Stafford Loans. For instance, if the student has been making payments on a $3,500 loan and the aggregate outstanding principal balance is now $3,100, count the $3,100 towards the student’s aggregate loan limit.
For Consolidation Loans, which may include Subsidized and Unsubsidized Stafford Loans, NSLDS will now show separate totals for the Subsidized AggOPB and Unsubsidized Agg OPB. In addition, NSLDS will show a total for “Unallocated” loan amounts for loans that cannot be identified. You are not responsible for reviewing these Unallocated loans to determine their origin.

**Effect of change in student status on aggregate loan limits**

In some cases, a student may qualify for higher loan limits, but then lose the eligibility for the higher limits. This situation could occur because a dependent student’s parent received a PLUS loan after having been denied in previous years, and the student therefore could no longer borrow at the independent student loan levels, or because a student with a graduate degree entered an undergraduate degree program. In these cases, you only count the loan amounts that the student would have received under his or her current eligibility as an undergraduate or dependent student against the applicable undergraduate aggregate loan limit.

The NSLDS Web site now displays undergraduate and graduate aggregate amounts in the Aggregate Loan Information section for subsidized, unsubsidized, combined, and unallocated portions of consolidated loans. The undergraduate aggregate section will display only if the student has undergraduate loans and the graduate aggregate section will display only if the student has graduate loans. Because NSLDS previously flagged graduate borrowers as exceeding undergraduate loan totals and only provided the cumulative total amounts, FAAs often had to manually separate and categorize each undergraduate and graduate loan and add the amounts together.

**Financial Aid History Requirement & NSLDS**

To ensure that a student doesn’t exceed the annual and aggregate Stafford Loan limits, the student’s FAFSA data is matched with the National Student Loan Data System and the student’s loan history is included in the ISIR. If a student transfers to your school, you must inform NSLDS so that it can begin the Transfer Student Monitoring process. More detailed information on how this requirement applies to all of the FSA programs can be found in Volume 1, Chapter 3 of the FSA Handbook.

**Handling unallocated amounts in NSLDS**

You do not have to review unallocated amounts in NSLDS. NSLDS does not add the amount of unallocated loans when triggering the close to or exceeds aggregate limits flags. See NSLDS Newsletter 11, February 2006.

**Treatment of consolidated Perkins Loans**

A consolidated Perkins Loan is not counted toward the aggregate Stafford Loan limits.
Example: Consolidation and Stafford Loan Limits

An independent undergraduate student transfers to your school to complete her fourth year of baccalaureate study. She applies for a Stafford Loan and has financial need for the maximum annual loan amount ($5,500 in subsidized Stafford and $7,000 in unsubsidized Stafford). Her NSLDS record indicates that she has an Agg OPB of $24,625 on a Consolidation Loan made by a FFEL lender. Because the undergraduate aggregate subsidized limit is $23,000, you cannot disburse any subsidized loan funds unless you can determine that the total amount of subsidized Stafford Loans represented in the consolidation amount is less than $23,000.

The student's loan record shows that her Consolidation Loan was made on August 30, 2007. She previously had three subsidized loans that were paid through consolidation (PC) earlier in July and August. The Disbursed Amounts for her loans are: $2,625 for her first-year loan, $3,500 in her second year, and $5,500 in her third year. The NSLDS record also shows two unsubsidized loans, paid-in-full in July and August, which she received in her second and third years, when she qualified as an independent student. Note that although the annual loan limits have risen; these amount are for past years with the old annual loan limits.

<table>

<td>$5,000</td>
<td>$36,875</td>
</tr>
<tr>
<td>TOTAL SUB + UNSUB</td>
<td>$20,625</td>
<td></td>
</tr>
</tbody>
</table>

Adding the loans up, we can see that the student has received a total of $11,625 in subsidized Stafford and an overall total of $20,625 in Stafford funds.* Therefore, you may pay the student her full loan amounts ($5,500 subsidized and $7,000 unsubsidized) without exceeding the aggregate Stafford Loan limit ($57,500) for an independent undergraduate.

*There are several possible reasons why the $25,000 Consolidation Loan is greater than the total Stafford borrowed ($20,625)— the Consolidation amount may include Perkins or health loans that have been consolidated, or it may include capitalized interest or other charges.

Example: Aggregate loan limits with additional unsubsidized Stafford when parents are denied PLUS

If a dependent student was treated as an independent student for loan limit purposes and received additional unsubsidized Stafford amounts for the first 3 years at your school because a parent was denied a PLUS loan for each of those years, but a parent was eligible to borrow PLUS for the student’s fourth year, the student would be eligible for the following Stafford amounts:

1st year (independent student loan limit) = $9,500
2nd year (independent student loan limit) = $10,500
3rd year (independent student loan limit) = $12,500
4th year (dependent student loan limit) = $7,500

The additional unsubsidized Stafford Loan amount of $13,000 that the student received in the first three years of the undergraduate program ($4,000 in years 1 and 2, $5,000 in year 3. $6,000 of the $19,000 of the additional unsub total amount would have been available without the PLUS denials, $2,000 per year) is not counted against the $31,000 dependent undergraduate aggregate loan limit. Excluding the additional unsubsidized amount, the student received only $13,500 for the first three years. The student may therefore receive the entire 4th year maximum loan amount, even though the student’s total outstanding Stafford Loan amount will be $40,000.
Also new to the NSLDS website, the Exceeds Loan Limits warning symbols have been enhanced to provide automatic filters to display the Loan Summary list on the Loan History web page to show those loans that were attributed to the applicable loan limit overage. These improved website enhancements will assist with separating undergraduate, graduate and overall loan totals and will aid in eligibility determinations.

EFFECT OF OVERBORROWING

A student who has inadvertently received more than the annual or aggregate Stafford loan limits is ineligible to receive any FSA funds until the overborrowing is resolved. The student can regain eligibility for aid by repaying the amount that exceeded the Stafford annual or aggregate loan limits, or by making satisfactory arrangements with the loan servicer to repay the excess amount. The holder of the loan may choose to develop a repayment plan that has the borrower reaffirm that he or she will repay the excess according to the terms and timing of the original promissory note. If the inadvertent overborrowing occurred at your school, you should work with the student and the loan holder to ensure that the necessary actions are taken to restore the student’s eligibility.

Once you have documented that the student has either repaid the excess loan amount or has made satisfactory arrangements with the loan holder to repay the excess amount, you may award additional aid. However, the student may or may not be eligible to receive additional Stafford loan funds, depending on the circumstances. For example, a dependent undergraduate who inadvertently exceeded the $23,000 aggregate Stafford limit could not receive any additional Stafford Loan funds as a dependent undergraduate unless the outstanding debt was paid down below the $23,000 limit. However, the student could receive additional non-Stafford aid. An independent undergraduate who inadvertently exceeded the $23,000 subsidized limit (but who has not reached the $57,500 combined aggregate loan limit for independent undergraduates) could borrow additional unsubsidized Stafford once he or she makes satisfactory arrangements to repay the subsidized amount that exceeds $23,000. For more on overborrowing and overawards, see Volume 5.

Consolidation of loan amounts that exceed the annual or aggregate loan limit

If a borrower who inadvertently received more than the annual or aggregate Stafford Loan limits has consolidated the loan(s) that caused the borrower to exceed the loan limit, the consolidation loan is considered to be a satisfactory arrangement to repay the excess amount that restores the borrower’s eligibility for FSA aid. (Note, however, that consolidation of an amount that exceeded the aggregate Stafford Loan limits does not automatically make a student eligible for additional Stafford Loan funds. See the discussion on this page under “Effect of Overborrowing.”)
Example: Resolving cases of overborrowing

Beth, an independent undergraduate student, is applying for a Stafford Loan for her fifth and final year of baccalaureate study at your college. Beth has remaining loan eligibility under the $57,500 combined aggregate loan limit for independent undergraduates and at first, she appears to be within the aggregate limit for undergraduate subsidized Stafford Loans.

However, you have recently become aware that Beth previously borrowed Stafford Loans while attending a community college several years prior to coming to your college. Note that although the annual loan limits have risen, these amounts are for past years with the old annual loan limits.

**STAFFORD LOANS**

<table>
<thead>
<tr>
<th>Bank One 1991</th>
<th>$2,625</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bank One 1992</td>
<td>$3,500</td>
</tr>
<tr>
<td>Bank Two 1998</td>
<td>$2,625</td>
</tr>
<tr>
<td>Bank Two 1999</td>
<td>$3,500</td>
</tr>
<tr>
<td>Bank Two 2000</td>
<td>$5,500</td>
</tr>
<tr>
<td>Bank Three 2001</td>
<td>$5,500</td>
</tr>
</tbody>
</table>

**TOTAL SUBSIDIZED** ................................................................. $23,250

Your review of her NSLDS records indicates that Beth has borrowed $250 in subsidized Stafford Loans in excess of the aggregate undergraduate limit (although the overall aggregate limit has increased, the subpart of this aggregate limit that is permitted to be in subsidized loans remains the same at $23,000). Because the loan made by BANK THREE was the one that exceeded the loan limit, Beth needs to make arrangements with BANK THREE to repay the amount for which she was not eligible.

When BANK THREE has confirmed that Beth has made satisfactory arrangements to repay the excess loan amount, you may make other FSA awards to Beth, including unsubsidized Stafford Loans. You can’t make a subsidized Stafford Loan to Beth until she has repaid the $250 that exceeds the aggregate subsidized Stafford Loan limit and further repaid enough of her outstanding balance to be eligible for the Stafford amount that you intend to award to her.
Review of the Stafford MPN Process

www.studentloans.gov

The process for completing the MPN for a Stafford Loan and making the initial loan includes the following elements, though some school procedures may be in a slightly different order.

Student Applies for Aid.
The student fills out the FAFSA (or a renewal FAFSA) and an MPN for the initial loan.

School Determines Eligibility and Loan Amount.
The school confirms the student’s eligibility for federal student aid, determines the loan period and loan amount and packages the loan(s) requested.

Origination.
The school originates the loan.

- In the Direct Loan Program, the school submits an origination record to COD and receives an acknowledgment from COD.

Student completes MPN.
The student fills out an MPN for the initial loan.

- The Borrower’s Rights and Responsibilities Statement must be given to the borrower with the MPN.

Disclosure & Entrance Counseling.
Either before or at the time of the first disbursement, the borrower must be given a disclosure statement with specific information about the types of loans the borrower is getting, anticipated disbursement amounts, anticipated disbursement dates and instructions on how to cancel the loans. (The disclosure is often provided by ED.)

- First-time Stafford borrowers must complete entrance counseling before a disbursement can be made. (See Volume 2, chapter 6.)

Disbursement to the Borrower.
The school (after checking that the borrower is still eligible) disburses the loan funds to the student’s account or directly to the borrower, and notifies the borrower of each disbursement. (See Chapter 2 of this Volume.)

Making Subsequent Loans.
If the MPN is used as a multi-year note, a new MPN is not required for subsequent loans. However, your school must use a confirmation process (either active or passive) for subsequent loans, and the borrower must receive a Plain Language Disclosure, at or prior to the disbursement of any subsequent loans provided under an existing MPN. (The Plain Language Disclosure is usually sent to the borrower by ED.) If the MPN is not used as a multi-year note, a borrower completes a new MPN for each subsequent loan period.

- Copies of the Master Promissory Note are provided by ED to borrowers and schools. For your reference, sample copies of the MPN and related materials are available online:

  Direct Stafford Loan MPN: www.ed.gov/DirectLoan/mpn.html
Awarding Campus-Based Aid

Your school has more latitude in selecting recipients of its Campus-Based funds than in Pell or Stafford/PLUS. This chapter discusses the criteria that you must consider when selecting Campus-Based recipients, and the amounts that you may award to them. In addition, the student must meet the general eligibility criteria discussed in Volume 1, and your Campus-Based awards may not exceed the student’s financial need, as described in Chapter 7 of Volume 3.

GENERAL CAMPUS-BASED AWARD RULES

Selecting independent & part-time students

If any part of a school’s FSEOG, FWS, or Federal Perkins Loan allocation is directly or indirectly based on the financial need of independent students or students who are attending part-time, then you must offer a reasonable proportion of the FSEOG allocation, the FWS allocation, and the dollar amount of the loans made from the Perkins revolving fund to such students. This requirement includes part-time students at eligible additional locations as well as part-time students on the main campus. A policy that excludes part-time or independent students is not acceptable.

“Part-time students” also includes correspondence students. To be considered enrolled in a program of correspondence study, the student must be enrolled in a degree-seeking program and must have completed and submitted the first lesson.

Uneven costs/unequal disbursements

If the student incurs uneven costs or receives uneven resources during the year and needs extra funds in a particular payment period, you may make unequal disbursements of FSEOG and Perkins. There is no explicit provision for unequal disbursements in FWS. However, because FWS wages are disbursed as work is performed, usually on a weekly or bi-weekly schedule, total disbursement amounts are likely to be different from one payment period to the next. In addition, as we’ll discuss in the FWS section, a student may be paid for work performed during certain periods of non-attendance.

Summer school and special sessions

A student who enrolls as a regular student in an eligible program during summer school or a special session may receive Campus-Based aid if he or she meets the same general eligibility requirements that apply to a student enrolled in a regular session. If a student is not enrolled during the summer or special session, the student is not eligible to receive Campus-Based aid during the period of nonattendance, except in the case of an FWS job. (See FWS discussion in this chapter.)

CHAPTER HIGHLIGHTS

FSEOG:
➔ Undergraduate only — see Volume 1 for rules.
➔ Maximum $4,000, Minimum $100.
➔ Priority order for FSEOG recipients is based on Pell eligibility and lowest EFCs.

Perkins:
➔ Undergraduate/graduate eligibility.
➔ Undergraduate: $5,500 annual and $11,000/$27,500 aggregate.
➔ Graduate: $8,000 annual and $60,000 aggregate.
➔ Selection based on exceptional financial need as defined by school.
➔ Also note Equal Credit Opportunity requirements.

FWS
➔ Undergraduate/graduate eligibility.
➔ Awards based on academic workloads & other factors, packaged based on net earnings, after taxes and job-related costs are subtracted.
➔ Student may be employed during certain periods of nonattendance.

Related Information:
➔ See Chapter 7 of this Volume for a discussion of packaging Campus-based aid with other assistance so as not to exceed the student’s financial need.
➔ See Volume 1 for rules on undergraduate vs. graduate status.
➔ See Volume 4 for rules governing timing of disbursements & general FSA funds management.
➔ See Volume 6 for information on operating an FWS or Perkins Loan program, including allowable types of employment, JLD and Work-Colleges, due diligence in making Perkins loans, terms of repayment, etc.
AWARDING FSEOG

Award Amounts
The maximum Federal Supplemental Educational Opportunity Grant (FSEOG) for a full academic year is usually $4,000. However, you may award as much as $4,400 to a student participating in a study-abroad program that is approved for credit by the home school. The minimum FSEOG amount is $100, but you may prorate this amount if the student is enrolled for less than an academic year.

The FSEOG maximum award for a student applies to both the Federal share and the required non-federal share. However, when your school has a waiver of the non-federal share, the FSEOG maximum applies to just the FSEOG federal funds. When there is no waiver, the FSEOG federal dollars awarded to a student are considered to be 75 percent of that student’s total FSEOG award and the school must account for the remaining 25 percent non-federal share, regardless of the type of school resources used and the method used to match. For more detail on the requirements of federal and non-federal shares, see Volume 6, Chapter 1.

Selecting FSEOG Recipients
When awarding FSEOG funds for an award year, you must first select students with the lowest expected family contributions (EFC) who will also receive Pell Grants in that award year. This group is known as the FSEOG first selection group. If your school has remaining FSEOG funds after making awards to all Pell Grant recipients for that award year, you must next select students with the lowest EFCs who are not receiving Pell Grants. This group of students is known as the FSEOG second selection group. A student who will also receive a Pell Grant in that award year is a student who has demonstrated Pell Grant eligibility for the same award year based upon an EFC that you have calculated for the student, or the EFC on the student’s valid SAR or ISIR.

You must keep documentation of the eligible EFC that was calculated for the student, and you must confirm Pell Grant eligibility prior to disbursement of the FSEOG. If the FSEOG recipient does not actually receive a Pell Grant during the award year, but the documentation shows that the FSEOG award and disbursement was made in good faith, you are not required to recover the FSEOG funds. If the student loses Pell Grant eligibility prior to disbursement of the FSEOG, you must cancel the FSEOG award.

Crossover payment period
Certain flexibilities exist when determining whether a student is considered to be in the FSEOG first selection group during a crossover payment period, that is, a period that begins before July 1 of any award year and ends after July 1 of that same award year. If a student will also receive a Pell Grant during a payment period that occurs in two award years and the student is among those students with the lowest EFCs, the student satisfies the FSEOG first selection group requirements for the same crossover period regardless of which award year the Pell Grant funds are attributed.
In order to be considered part of the FSEOG first selection group, a student does not necessarily have to receive a Pell Grant in the same crossover payment period. A student can also be awarded FSEOG funds under the FSEOG first selection group requirements during a crossover payment period, from either award year’s allocation, as long as the student will also receive a Pell Grant in the award year to which the crossover payment period is attributed for Pell Grant purposes.

**Establishing categories of students**

Your selection procedures may specify categories of students to ensure that the students in each category have an opportunity to be awarded FSEOG funds. Categories may be based on class standing, enrollment status, program, date of application, or a combination of factors. You may choose to assign a percentage or dollar amount of FSEOG funds to each category; there is no requirement to make the percentage or dollar amount proportional to the need of students in a particular category or even to the number of students in the category.

However, categorization may not be used to exclude certain students or groups of students from consideration. If you know that your school’s funds are so limited as to effectively exclude year after year categories that come later in the sequence, your school may not be in compliance with the “reasonably available” provision.

Your school’s written selection procedures must ensure that FSEOG recipients are selected on the basis of the lowest EFC and Pell Grant priority requirements over the entire award year. If your school enrolls students as often as monthly or weekly, FSEOG funds can be reserved for use throughout that award year (on the basis of your school’s experiences from previous periods), and selection practices can be applied in a manner that would assure a reasonable consistency over the entire award year.

When you use categories to package FSEOG, within each category you must first award the assigned FSEOG funds to students with the lowest EFCs who will also receive a Pell Grant. If FSEOG funds assigned for that category still remain, you must next award FSEOG funds to students in the category with the lowest EFCs who will not receive a Pell Grant.

**Frequency & amount of FSEOG disbursements**

If you’re awarding an FSEOG for a full academic year, you must pay a portion of the grant during each payment period, even if the student’s program doesn’t use standard academic terms. (See Chapter 1 of this volume for an explanation of payment periods.)

To determine the amount of each disbursement, you would usually divide the total FSEOG award by the number of payment periods the student will attend. However, you are allowed to pay an FSEOG in unequal amounts if the student has costs or resources that are different for different payment periods. You may make payments within a payment period in whatever installments will best meet the student’s needs.
AWARDING PERKINS LOANS

The maximum amount an undergraduate student may borrow is $5,500 per award year; the maximum for a graduate or professional student is $8,000 per award year.

Like Stafford Loans, Perkins also have aggregate loan limits:

- $11,000 for any student who has not completed two academic years of undergraduate work.
- $27,500 for an undergraduate student who has completed two academic years and is pursuing a bachelor's degree.
- $60,000 for a graduate or professional student, including loans borrowed as an undergraduate student.

The aggregate loan limits now include only unpaid principal. (Previously, a student who had borrowed the maximum cumulative amount for a graduate or professional student would not be eligible for another loan even if the student had repaid part or all of the amount he or she had borrowed.)

The annual maximums and aggregate maximums include any amounts borrowed previously under the Federal Perkins Loan Program, including National Direct/Defense Student Loans.

Perkins selection criteria

When awarding Perkins Loans, you must give priority to those students with exceptional financial need, as defined by your school. Your school’s Perkins selection procedures must be in writing, uniformly applied, and kept on file at the school. See Volume 2 for record retention and consumer information requirements.

Before you may award a student a Perkins Loan, you must determine the student’s Pell Grant eligibility. You may use an unofficial calculation to determine Pell Grant eligibility before a student has filed a Free Application for Federal Student Aid (FAFSA). However, your school may not disburse the Perkins Loan until you have received the student’s official EFC for that award year (on the student’s valid SAR or ISIR).

Increased loan eligibility to cover higher costs of study abroad

If the reasonable costs of the foreign study program exceed the cost of attending the home school, the awarded Perkins Loan may exceed the annual and/or aggregate loan limits by up to 20%. A school may disburse a Perkins Loan to a student engaged in a program of study abroad if the student meets all eligibility requirements and is enrolled in an eligible program at the school that will accept credits earned abroad.

Uneven costs/unequal disbursements example

Dan will receive a $1,000 Perkins Loan and must spend $300 for books and supplies at the beginning of the school year. Ingram College could disburse that $300 along with the first payment. To determine the first payment, Ingram College subtracts the extra amount (in this case, $300) from the total loan ($1,000) and divides the remainder ($700) by the number of payment periods (in this case, 2). Ingram then adds the regular amount for one payment period ($350) to the extra amount ($300) to determine the initial payment ($650). The remaining amount ($350) is then disbursed during the second payment period for a total loan of $1,000.
AWARDING FEDERAL WORK-STUDY (FWS)

Unlike the other two Campus-Based programs, the FWS Program does not require that priority be given to students who have exceptional financial need. However, you must make FWS jobs reasonably available, to the extent of available funds, to all eligible students. Your selection procedures must be in writing, uniformly applied, and kept in your school’s files.

There are no specific award limits for FWS earnings, other than the requirement that the amount of the FWS award not exceed the student’s financial need. For a full discussion of packaging FWS with other aid, see Chapter 7 in this volume.

When deciding on an appropriate FWS award for a student, you should consider the student’s academic workload and any other factors that might affect the hours that a student could work each week.

**Basing FWS awards on net work earnings**

The gross amount of the award is based on the total number of hours to be worked multiplied by the anticipated wage rate. For awarding and packaging purposes, you should use the student’s net FWS earnings, which exclude taxes and job-related expenses. To determine the student’s net FWS earnings, you should subtract any job-related costs and non-refundable taxes from the student’s gross FWS earnings. If you are certain that the student’s federal or state taxes paid will be refunded, you should not subtract those taxes paid from the student’s gross earnings.

Job-related costs are costs the student incurs because of his or her job. Examples of job-related costs include uniforms, the cost of meals at work, and transportation to and from work. For work during vacation periods, job-related costs can include room and board as long as the FWS student incurs these costs only because of the FWS employment. For example, room and board during the summer cannot be included in job-related costs if the FWS student also takes summer courses.

**Calculating Maximum Gross Earnings Example**

Chris has unmet financial need of $1,000 at Peterson University. Because Chris has a Social Security tax of 7.65% (that will not be refunded) and $108 in job-related costs, the school may allow Chris to earn an FWS award amount that is higher than his $1,000 unmet financial need in order for him to earn the allowable $1,000 net FWS earnings.

To calculate the FWS award amount to reflect the maximum gross FWS earnings that Chris may earn without the net FWS earnings exceeding the student’s $1,000 financial need, the school must do the following:

1. Add the amount of job-related costs to the amount of his unmet need ($108 + $1,000 = $1,108) for a total of $1,108.
2. Account for the Social Security tax by determining that his net FWS earnings are 92.35% of his gross earnings (100% - 7.65% = 92.35%) or (.9235).
3. Divide the total in step 1 by the ratio in step 2 ($1,108/.9235 = $1,199.78) for a result of $1,199.78 ($1,200 after rounding).

Peterson University may give Chris a $1,200 FWS award and his net FWS earnings will not exceed his $1,000 unmet financial need.

**Certain FWS Students exempt from FICA taxes**

Under certain IRS specified conditions, FWS student wages for students employed by the school may be exempt from FICA taxes (for more detail, see http://www.irs.gov/charities/article/0,,id=120663,00.html).
Earnings for the next period of enrollment

Many FWS students must pay the bulk of their education costs in the beginning of each period of enrollment, before they have had a chance to earn FWS wages. Therefore, you may allow a student to earn FWS wages to cover educational expenses in the next period of enrollment that your school offers. The student must be planning to enroll in that next period of enrollment and must demonstrate financial need for that period of enrollment. The next period of enrollment is usually the next term, including a summer period, or in the case of summer earnings, the next full academic year.

A student may earn FWS funds for the next period of enrollment during any period of enrollment, including a period of enrollment that is comprised, in whole or in part, of minisessions. A student may also earn FWS wages towards the next period of enrollment during a period of nonattendance, as discussed below.

Working during periods of nonattendance

A student may be employed under FWS during a period of nonattendance, such as a summer term, an equivalent vacation period, the full-time work period of a cooperative education program, or an unattended fall or spring semester. To be eligible for this employment, a student must be planning to enroll for the next period of enrollment and must have demonstrated financial need for that period of enrollment. The student’s net earnings (earnings minus taxes and job-related costs) during this period of nonattendance must be used to cover expenses associated with his or her financial need for the next period of enrollment.

When a student who had an FWS job in a period of non-attendance fails to enroll in the next academic period, you must be able to demonstrate that the student was eligible for employment and that, at the time the FWS was awarded, you had reason to believe the student intended to enroll in the next period. At a minimum, you must keep a written record in your files showing that the student had accepted the school’s offer of admittance for the next period of enrollment. If during the period of nonattendance you learn that the student will no longer enroll in the next period of enrollment, the student must immediately stop working under FWS.

FWS and minisessions

If your school combines a series of minisessions or modules into one term (e.g., three summer minisessions into one summer semester), an FWS student attending any of the minisessions may earn FWS wages at any time throughout that term. You may apply those earnings towards the student’s financial need for the mini-session(s) attended and/or the next period of enrollment. You must base the student’s financial need for attending the summer term on the period when the student is actually enrolled in the minisessions.

The amount of FWS wages a student may earn at any given point in the term does not depend on whether or not the student is enrolled in a mini-session at that point in time. You have some flexibility in deciding with the student how to distribute the hours worked throughout the summer term. (See the example in the sidebar.)
Packaging Aid

Once you’ve received the student’s FAFSA information (including EFC) and calculated the student’s aid eligibility, you can package the student’s aid. The general rule in packaging is that the student’s total financial aid and other Estimated Financial Assistance (EFA) must not exceed the student’s financial need (Need = Cost minus the EFC). If you discover that the student has other EFA that cause the aid package to exceed the student’s need, you must attempt to adjust the aid package to eliminate the overaward. If the overaward can’t be eliminated, you must follow the overaward procedures in Volume 5.

In earlier chapters of this volume, we described how to calculate student awards, based on costs, period of enrollment, and statutory award maximums. Except for Pell Grants, FSA award amounts are also constrained by the other aid that a student receives, known as estimated financial assistance (EFA). The general rule is that the student’s total aid may not exceed the student’s financial need. (Need = Cost of Attendance minus EFC.)

The process of awarding aid without exceeding the student’s financial need is traditionally called packaging. Packaging is a process that varies from school to school, depending on the types of scholarship and other aid available at the school, and the characteristics of the student population. Schools may have different packaging philosophies, but they generally try to find the best combination of aid to meet the financial need of the students they serve.

To help you package Federal student aid with your other aid awards, we provide a Packaging module in EDExpress. You can enter information about your school’s student aid programs and set up factors to be considered in packaging, and then use the software to automate the packaging process.

Most schools use some form of packaging software, whether EDExpress or software from a commercial vendor. You are not required to use EDExpress to package FSA awards, and you do not have to report the student’s aid package to the Common Origination and Disbursement system.

CHAPTER HIGHLIGHTS:

- Related software: EDExpress Packaging Module

- Packaging Principles
  ➔ Pell Grants packaged first; not reduced for other aid.
  ➔ Campus-Based and Subsidized Stafford Loans based on Pell, eligibility, EFC, and estimated financial assistance.
  ➔ Subsidized Stafford Loans based on Pell eligibility, EFC, and estimated financial assistance.
  ➔ Unsubsidized Stafford Loans and PLUS based on Pell eligibility and estimated financial assistance.
  ➔ Iraq & Afghanistan Service Grant

- Treatment of need-based earnings

- Treatment of other aid: special cases
  ➔ AmeriCorps and veterans educational benefits
  ➔ Vocational rehabilitation assistance
  ➔ Bureau of Indian Affairs grants

Financial need

\[
\text{Cost of Attendance} - \text{EFC} = \text{Financial Need}
\]

Requirements for arrangements with private lenders

34 CFR 601

For more detail on the school’s responsibilities with respect to education loans from private lenders, see the participation and student consumer information requirements Volume 2 of the FSA Handbook.
PELL GRANTS AS FIRST SOURCE OF AID

Pell Grants are considered to be the first source of aid to the student, and packaging FSA funds begins with Pell eligibility. A correctly determined Pell Grant is never adjusted to take into account other forms of aid. Therefore, if a student’s aid package exceeds his/her need, you must attempt to eliminate the overaward by reducing other aid your school controls.

The Department issues Pell payment schedules that base the award solely on the student’s cost of attendance, EFC, and enrollment status. As we’ll see, aid from the other FSA programs must be awarded to ensure that the student’s need is not exceeded, unless certain types of aid are used to replace the EFC, as permitted.

Traditional financial aid practice suggests that you would also adjust non-federal aid awards, if necessary, to ensure that the student’s financial need is not exceeded. But it’s possible that the student will receive a scholarship or other aid that you can’t adjust and is large enough (in combination with the Pell Grant) to exceed the student’s need. In this case, the student is still eligible for a Pell Grant based on the payment schedule. However, you can’t award any FSA funds other than the Pell Grant.

For instance, the National Collegiate Athletic Association’s rules for athletic aid sometimes permit a school to award athletic aid that exceeds the student’s need. You must still pay the full Pell Grant to the student, but you may not pay other FSA funds to the student, because his/her financial need has already been met.

PACKAGING RULES FOR CAMPUS-BASED AID AND DIRECT LOANS

You should consider a number of things when developing a packaging policy. For instance, some schools give more grant assistance to beginning students, who may have more difficulty adjusting to campus life, increasing the proportion of loans and work-study in subsequent years.

For the Campus-Based programs and other programs where the available funds may not be sufficient to meet every eligible student’s need, some schools decide to give a higher proportion of aid to the neediest students. Other schools award funds as an equal proportion of each student’s need.

Many schools use software, such as the Packaging module in EDExpress, that can be configured to implement the school’s packaging philosophy. For instance, in EDExpress, you can specify the order in which aid sources are to be applied to the student’s unmet need, and set overall percentage limits on the amount of gift (grants/scholarships) and self-help aid that will be included in the aid package.

Prepaid tuition plans

GEN-06-05, HEA Sec. 480(f) & (j)
Prepaid tuition plans are not considered EFA; instead, they are treated the same as Coverdell education and 529 savings accounts: their value is considered an asset of the owner of the account, unless the owner of the account is a dependent student. When the owner is a dependent student, the value of the account is reported as an asset of the parents on the FAFSA.

Prohibition on originating Stafford for school charges only

HEA Sec. 479A(c)(1)(A)
34 CFR 685.301(a)(8)
DCL GEN-11-07
Your school cannot engage in a practice of originating Stafford loans only in the amount needed to cover the school charges, or to limit unsubsidized Stafford borrowing by independent students. See Chapter 5 of this volume for further information on originating loan amounts.
ESTIMATED FINANCIAL ASSISTANCE (EFA)

In contrast to Pell and Iraq and Afghanistan Service Grants (IASG), you must take other aid into account when awarding TEACH Grant funds, Campus-Based aid, Stafford or PLUS loans. As noted earlier, the other aid that must be considered is called “estimated financial assistance” (EFA). The term estimated financial assistance is used in the same way for Stafford/PLUS purposes as for TEACH and the Campus-Based programs. However, there are differences in the treatment of AmeriCorps and Chapter 30 GI benefits (discussed later in this chapter).

In general, the term estimated financial assistance, as defined for the Campus-Based programs, and TEACH, refers to aid from the FSA programs, as well as grants, scholarships, loans, and need-based employment that you can reasonably anticipate at the time you award aid to the student, whether the assistance is awarded by the school or by an individual or organization outside the school. EFA does not include non-FSA aid if that aid offsets all or a portion of a component of a student’s COA and that amount is excluded from COA as well. If aid is excluded from either EFA or COA, that amount must be excluded from both EFA and COA. The regulations specify that “estimated financial assistance” is aid that the student will receive for the same period of enrollment as the Stafford or PLUS loan. As noted in Chapter 1, it’s usually best to originate a Stafford or PLUS loan for a period that matches the academic year or other period that you’re using to award funds from other FSA programs.

When classifying non-FSA sources of aid, if a student receives the award because of postsecondary enrollment (for example, a scholarship from a local social club that requires a student to be attending a postsecondary school), it counts as estimated financial assistance (EFA) if it is not considered wages for employment according to federal or state rules, or if it is considered wages and is based on need. Any amount that appears in income on the tax return will also be included on the appropriate line of item 43 or 91 on the FAFSA. If the award is considered wages for employment but is not based on need, then it is not EFA and it remains in income.

Examples of Estimated Financial Assistance

**Estimated Financial Assistance**

Includes any educational benefits paid because of enrollment in postsecondary education, such as:

- the student’s Pell Grant eligibility;
- unsubsidized and subsidized Stafford and PLUS (Federal Family Education Loans and Direct Loans);
- Chapter 1607/REAP Benefits;
- long-term loans made by the school, including Federal Perkins Loans (short-term emergency loans are not considered to be Estimated Financial Assistance);
- grants, including Federal Supplemental Educational Opportunity Grants (FSEOGs), state grants, and Reserve Officer Training Corps (ROTC) living allowances;
- scholarships, including athletic scholarships and ROTC scholarships, and scholarships that require future employment but are given in the current year;
- employer reimbursement of employee’s tuition waivers of tuition and fees;
- fellowships or assistantships;
- income from insurance programs that pay for the student’s education;
- need-based employment such as FWS
- net income from need-based employment;
- McGraw Postbaccalaureate Achievement Program;
- TEACH Grant funds

**NOTE:**

- The Iraq & Afghanistan Service Grant is NOT considered EFA
- HEA 480(c) Veterans’ benefits are not considered EFA
- You may exclude from EFA, up to the amount of any subsidized DL that you award to the student when the student received AmeriCorps or Chapter 30 benefits on determining eligibility for subsidized DL you must exclude the entire amount of AmeriCorps benefits or Chapter 30 veterans educational benefits from Estimated Financial Assistance.
PACKAGING AID FOR CHILDREN OF IRAQ & AFGHANISTAN SOLDIERS

As noted in Chapter 3, a student whose parent or guardian died as a result of U.S. military service in Iraq or Afghanistan after September 11, 2001, may receive increased amounts of Federal Student Aid, if, at the time of the parent or guardian’s death, the student was 1) 23 years of age or younger, or 2) enrolled at an institution of higher education.

The aid award and the method of packaging depends upon whether a student who meets the above criteria has a Pell-eligible EFC:

- If the student has a Pell-eligible EFC, you must award all FSA aid based on an EFC of zero and must package all aid based on an EFC of zero, without regard to the student’s calculated EFC (you don’t actually change the student’s EFC).

- If the student has an EFC that is too high to qualify for a Pell Grant, he or she is potentially eligible to receive an Iraq and Afghanistan Service Grant.

**Packaging Iraq & Afghanistan Service Grants**

The amount of the Iraq and Afghanistan Service Grant is determined by enrollment status only (see Chapter 3), without respect to the student’s cost of attendance or EFC. For students receiving Grants, you include the student’s normally calculated EFC when packaging other FSA aid. The Grant is not based on need and is not considered EFA (for purposes of awarding aid from other FSA programs). For more detail on the Iraq & Afghanistan Service Grant, including calculating an award for a payment period, see Chapter 3 of this volume.

An Iraq & Afghanistan Service Grant is not adjusted to take into account other forms of aid, so if a student’s aid package includes a Grant and the total package exceeds the student’s need or cost of attendance, you must reduce other aid to eliminate the overaward. If a student’s total Grant payments, by themselves, excluding other aid, will exceed his or her FSA cost of attendance for a period of enrollment, the total amount of the Grant paid to the student must be reduced to the cost of attendance for the period of enrollment (reduce each payment for each payment period by an equal amount).
CONSIDERING GRANTS AND SUBSIDIZED LOANS FIRST

The law requires aid administrators to find out whether the student is eligible for certain other FSA programs that would reduce the need for borrowing. If your school participates in the Federal Pell Grant Program, you must include the student’s estimated Pell Grant eligibility as Estimated Financial Assistance when making Campus-Based awards, whether or not the student has received the Pell Grant at the time you make your Campus-Based award.

Similarly, you must determine an undergraduate student’s Pell Grant eligibility before originating a subsidized or unsubsidized Stafford Loan for that student. In addition, you may not originate an unsubsidized Stafford Loan without first determining the student’s need for a subsidized Stafford Loan. (The difference between subsidized and unsubsidized Stafford Loans is explained in Chapter 5 of this Volume.) However, if the amount of the subsidized Stafford is $200 or less and the amount can be included as part of an unsubsidized Stafford Loan, you are not required to originate a separate subsidized loan.

For a dependent student, you may originate a Parent PLUS and disburse Parent PLUS funds without determining the student’s Pell Grant and subsidized Stafford Loan eligibility. Determining Pell eligibility is not relevant for Grad PLUS, but (unlike Parent PLUS) your school must determine a grad/professional student’s maximum subsidized/unsubsidized Stafford eligibility before the student applies for PLUS.

SUBSTITUTING UNSUBSIDIZED LOANS OR TEACH FOR THE EFC

A school may substitute certain types of loans or TEACH Grant funds for the student’s expected family contribution (EFC). Forms of aid that may replace the student’s EFC include unsubsidized Stafford Loans, PLUS Loans, state loans, private education loans, any other non-need-based loans, and TEACH Grant funds. If any of these are used to substitute for EFC, amounts that exceed the EFC are counted as estimated financial assistance.

You must package Campus-Based funds and subsidized Stafford loans before unsubsidized loans; as such, treatment of unsubsidized loans only becomes a factor when awarding unsubsidized Stafford and PLUS loans. When awarding Stafford/PLUS loans, unsubsidized loan amounts are only counted in estimated financial assistance if they exceed the EFC.
Ricki is a dependent student, returning as a sophomore to Dwight College. For academic purposes, Dwight College considers him to be a 2nd-year student. His cost of attendance is $12,500, and his EFC for the current year is 2,500; therefore, the packaging process begins with $10,000 in unmet need.

The aid administrator at Dwight College begins by awarding Pell Grants and applying the outside scholarship before awarding Campus-Based aid. Ricki’s Estimated Financial Assistance is a $1,600 Pell and a $1,400 outside scholarship from the Wildwood Conservation Fund, so he has sufficient need for the maximum awards that the aid administrator can make under Dwight’s policy for Campus-Based funds: $800 FSEOG, a $900 Perkins Loan, and $1,800 in FWS employment.

The aid administrator at Dwight College finishes the packaging process by awarding FSA loans available to meet Andrew’s need. As a 2nd-year student, Ricki’s Stafford loan limit is $4,500. Because his remaining need is $3,500, he can receive that amount as a subsidized Stafford Loan. If he chooses, he can borrow up to $3,500 unsubsidized Stafford to partially cover the EFC (the remaining eligibility under his annual loan limit). Since he is a dependent student, his parents can borrow up to the remaining amount of the EFC in the form of a PLUS Loan. As an alternative to Ricki borrowing an additional $3,500 in unsubsidized Stafford, his parents could borrow that full amount in a PLUS.
Kent enrolls in a graduate-level program at McCausland University with a total Cost of Attendance $31,000. Kent has already been awarded a graduate scholarship of $5,000. Kent is a graduate student, so his annual loan limit is $20,500 (maximum $8,500 subsidized). Kent is eligible to receive a subsidized Stafford loan of $8,500. Kent now has $2,000 in remaining need. Next, he can receive $12,000 in unsubsidized Stafford ($2,000 in need and $10,000 partially covering the EFC) Finally, Kent can receive a PLUS loan for $5,500 to cover the remaining portion of the EFC.
### Using Loan Funds to Replace the EFC: Dependent example

Nichelle is a first-year dependent student at Sandberg Community College. His cost of attendance is $5,800 and his ISIR shows that he has an EFC of 4,200, so his financial need is $1,600. Nichelle’s EFC makes him ineligible for a Pell Grant, and Sandberg does not participate in the Campus-Based programs. The Stafford annual loan limit for a first-year dependent student is $3,500. Nichelle qualifies for a $1,600 subsidized Stafford loan, and has no remaining need.

Since an unsubsidized Stafford Loan can replace the EFC and Nichelle hasn’t reached the Stafford annual loan limit, he can borrow an additional $1,900 in the form of an unsubsidized Stafford Loan to cover part of the EFC. ($3,500 Stafford annual loan limit - $1,600 subsidized Stafford Loan = $1,900 unsubsidized Stafford eligibility.) Nichelle could borrow $1,900 in unsubsidized Stafford to partially cover the EFC. His parents could then borrow $2,300 in PLUS to cover the remaining EFC. Alternatively, his parents could borrow up to $4,200 in the form of a PLUS loan.

![Diagram: Using Loan Funds to Replace the EFC: Dependent example](image)

### Using Loan Funds to Replace the EFC: Independent example

Jesse enrolls in Trice Technical College as a 1st-year independent student with an $8,500 cost of attendance and TTC has received an ISIR for her with an EFC of $2,050. She is eligible for a $2,260 Pell Grant and TTC also awards her a $1,000 FSEOG. Her remaining need is $3,190, so she can receive that amount in a subsidized Stafford Loan (the maximum subsidized Stafford loan for a 1st-year student is $3,500).

Since Jesse is an independent student, she can take out an additional unsubsidized Stafford loan to replace the EFC, and as "self-help" to meet the EFC. Thus, TTC is able to award Jesse an additional $2,050 in unsubsidized Stafford Loan funds.

![Diagram: Using Loan Funds to Replace the EFC: Independent example](image)
COUNTING NEED-BASED EARNINGS AS ESTIMATED FINANCIAL ASSISTANCE

The treatment of earnings from a job sometimes presents a problem—should the earnings be reported as income in need analysis or should they be counted as a form of student aid in the packaging process? Net earnings from need-based employment are considered to be student aid. "Need-based employment" means employment that is awarded by the school itself or by another organization to a student on the basis of financial need to meet educational expenses for the award year. Only income from need-based employment may be considered as student aid. A Federal Work-Study job is clearly a form of need-based student aid. Employment with a state is considered to be student aid if that employment is based on the student's financial need for assistance to pay for educational expenses.

Non-need-based earnings are not to be considered as EFA for the current award year because they will be reported as income on the Free Application for Federal Student Aid (FAFSA) for the subsequent award year and will be used in calculating the future EFC. An example of non-need-based employment would be a job a student locates on her own with a private employer such as a local grocery store. Another example would be a job cleaning the labs in the Chemistry Department on campus, if the Chemistry Department hired the student using non-need-based criteria and funds.

CROSSOVER PERIODS

Crossover periods are payment, award, or loan periods that overlap two award years. In general, you may choose which award year EFC to use for a student, with three exceptions:

- You must assign a crossover period to the award year in which the student would receive the greatest Pell award based on the information available when you first calculate Pell for the student;

- When more than six months of a Pell Grant recipient’s payment period falls into one award year, the payment period must be placed in that year; and

- when awarding FWS to a student not attending classes, the EFC for the next period of enrollment must be used.

The following chart summarizes the key flexibilities and options in handling crossover payment periods in the major FSA programs. Note that for the award year selected, the student must have an official EFC calculated by the CPS, and for a Pell Grant the CPS must also have processed a valid SAR or ISIR. For crossover payment periods, you must use the same EFC, COA and need for all programs except Pell; for Pell, use the EFC for the award year from which the student will be paid.

CROSSOVER PERIODS AND FSA AID

In a crossover payment period when using Pell from a different award year from other FSA aid, you must use the same EFC, COA and need for all programs except Pell. For Pell, you use the EFC, COA and need for the award year from which the student will be paid, and apply the amount of Pell received against the need when packaging aid from other FSA programs.

EFCs for periods other than 9 months

For detail on how to handle Direct Loans, and Campus-Based Programs that are based on an enrollment period of other than 9 months, see Alternate EFCs in Chapter 3 of Volume 1 of the FSA Handbook.

Pell Crossover Issues

You must assign a crossover period to the award year in which the student would receive the greatest Pell award. You must take into account the possibility of a 2nd Pell Scheduled Award. You may assign the Pell award to a different award year than the rest of the student’s Title IV aid. For more detail on calculating Pell awards in crossover, summer, minisession, and transfer situations, see Volume 3, Chapter 3.

Prior Year Charges and FSA Aid

Generally, FSA aid may only be used for current year charges. Recent regulatory amendments have allowed some limited use of current year funds to pay for prior year charges; see Volume 4 of the FSA Handbook for more detail on the circumstances and limitations of this provision.
### Handling Crossover Periods for FSA Programs

### Award letters and notification requirements

Many schools use an award letter to notify students of their proposed aid package. Whether you use an award letter or other electronic means such as email, you must fulfill the consumer information requirements, as described in Volume 2, Chapter 6. You are also responsible for certain notifications and authorizations at the time of disbursement, as described in Volume 4, Chapter 1.
PACKAGING VETERANS BENEFITS, AMERICORPS, VOCATIONAL REHABILITATION FUNDS, & BIA GRANTS

Veterans and AmeriCorps benefits

For FSA purposes, federal veterans education benefits, as defined under Section 480(c) of the HEA, are no longer treated as estimated financial assistance (EFA). You can ask the student to provide the specific program or benefit under which they are receiving their veteran’s benefits. As in the past, veteran’s benefits are also not to be counted as income, and therefore are not reported as income on the FAFSA. For a full list of federal veterans education benefits, see Appendix A at the end of this chapter.

No AmeriCorps benefits are included in the EFA when determining eligibility for subsidized Stafford loans. Note that this packaging exclusion does not affect any Campus-Based, or TEACH awards made to the student, because you may exclude the subsidized Stafford from the EFA, up to the amount of the student’s AmeriCorps benefits, for those programs. All AmeriCorps benefits are included as EFA when determining eligibility for unsubsidized Stafford loans.

For example, a 2nd-year student has a COA of $12,000 and is receiving $4,000 in Pell and $3,000 in AmeriCorps benefits. You package her with $1,000 in FSEOG and $2,000 in Perkins. You may award this student another $3,500 in Stafford because the EFA for subsidized Stafford would not include the AmeriCorps benefits. Because there is a complementary exclusion Stafford that is equal to or less than AmeriCorps, this does not necessitate a recalculation of the Campus-Based awards.

Note that the income earned from the Veterans Affairs Student Work-Study Allowance Program (VASWSAP) is not treated as a veterans education benefit, and is not considered estimated financial assistance. It should be reported as untaxed income (not income earned from work) on the FAFSA.

Noneducational veterans benefits are not counted as estimated financial assistance. Noneducational veterans benefits include Death Pension and Dependency and Indemnity Compensation (DIC) benefits, and income from the Veterans Affairs Student Work-Study Allowance Program (VASWSAP). The student must report these noneducational benefits as nontaxable income on the FAFSA.
Vocational rehabilitation agreements with state agencies

Some state vocational rehabilitation agencies have established agreements with schools that specify how vocational rehabilitation assistance will be coordinated with other forms of financial aid. Check with your school’s vocational rehabilitation coordinator to see if it has such an agreement.

Vocational Rehabilitation Packaging

Adrian has $4,000 in vocational rehabilitation aid for the 2010-11 academic year. At Friedman University, Adrian has a COA of $5,000. He is eligible for a $5,000 Perkins Loan. Although Friedman coordinates funding with the vocational rehabilitation agency to prevent an overaward, the vocational rehabilitation funds themselves are not considered EFA, because they cover costs that are not components in Adrian’s COA, and Adrian’s vocational rehabilitation costs are also not included in his COA. Adrian has $2,000 of disability costs that are not met by his vocational rehabilitation award, so $2,000 may be added to his COA. Friedman decides to award Adrian a $2,000 Direct Loan to cover his COA. This is not an overaward, since Adrian’s original $5,000 COA was increased by the $2,000 in unmet disability costs not included in his COA.

BIA Grants

34 CFR 673.6

Packaging Byrd Scholarships with other FSA funds

You must ensure that the total amount of federal financial aid awarded to the Byrd Scholar does not exceed the scholar’s total cost of attendance. If any federal loans are part of the scholar’s financial aid package, they must be reduced prior to reducing the Byrd Scholarship. In addition, a Federal Pell Grant must not be reduced on the basis of the receipt of a Byrd Scholarship.

Reserve Educational Assistance Program (REAP or Chapter 1607)

DCL GEN-05-16

As with all veterans benefits, Chapter 1607 benefits are not taxable and will not be used in the EFC calculation. In addition, Chapter 1607 benefits are not considered EFA under the Campus-Based regulations (34 CFR 673.5) nor under the Direct Loan Program regulations (34 CFR 685.102).

Vocational rehabilitation funds

If you have a student who qualifies for both FSA funds and for vocational rehabilitation assistance funds, you should determine the student’s package exclusive of both the costs related to the student’s disability and anticipated vocational rehabilitation assistance. In this way, the student with disabilities will be offered the same aid package as a student who is in the same financial situation but who doesn’t have disabilities; the student with disabilities will also receive the maximum amount of vocational rehabilitation aid to which he or she is entitled. If the vocational rehabilitation agency doesn’t fully meet the student’s disability costs, you may wish to include the unmet disability expenses in the student’s cost of attendance, and increase his or her aid award.

Although the vocational rehabilitation funds shouldn’t be considered estimated financial assistance when you initially package aid for the student, you must coordinate funds available from the vocational rehabilitation agency and from institutional, state, and federal student financial assistance programs to prevent an overaward. The amount of assistance from the vocational rehabilitation agency must be documented in the student’s file.

Coordination with Bureau of Indian Affairs grants

When packaging Campus-Based aid for a student who is or may be eligible for a Bureau of Indian Affairs (BIA) grant, you must first develop a financial aid package without considering any BIA funds. If the total aid package—after BIA funds are added—does not exceed the student’s need, no adjustment may be made to the aid package. If the total package plus the BIA grant does exceed need, you must eliminate the excess in the following sequence: loans, work-study awards, and grants other than Pell Grants. (You may not reduce a Pell Grant or BIA grant.) You may alter this sequence of reductions upon the student’s request if you believe it would benefit the student. We encourage you to consult with area officials in charge of BIA postsecondary financial aid when packaging FSA funds with BIA grants.

Reserve Educational Assistance Program (REAP or Chapter 1607)

A new veterans education benefit program referred to as REAP or Chapter 1607 was signed into law on October 28, 2004. It is for reservists who serve on active duty on or after September 11, 2001, under Title 10 U.S.C. for a contingency operation and who serve at least 90 consecutive days or more. National Guard members also are eligible if their active duty is under section 502(f), Title 32 U.S.C. and they serve at least 90 consecutive days or more. National Guard members also are eligible if their active duty is under section 502(f), Title 32 U.S.C. and they serve for 90 consecutive days when authorized by the President or Secretary of Defense for a national emergency and that active duty is supported by federal funds. Disabled members who are injured or have an illness or disease incurred or aggravated in the line of duty and who are released from active duty before completing 90 consecutive days are also eligible. The U.S. Department of Defense will identify contingency operations that qualify for benefits under Chapter 1607.
TREATMENT OF OVERAWARDS

If, at any time during the award period, the student receives additional Estimated Financial Assistance that was not considered in calculating the student’s eligibility for Campus-Based aid and if the estimated financial assistance combined with the expected financial aid will exceed the student’s need, the amount in excess of the student’s need is considered an overaward.

The treatment of overawards in the Stafford/PLUS programs depends on whether the loans have been fully disbursed— if you discover that there’s going to be an overaward before Stafford/PLUS funds are disbursed, you must eliminate the overaward through the packaging process, by canceling the loan or by making a downward adjustment to a Direct Loan, or by reducing/canceling aid over which you have direct institutional control.

If the overaward situation occurs after Stafford funds have been disbursed to the borrower, there is no Stafford Loan overaward that needs to be addressed, however, you might need to adjust the student’s aid package to prevent an overaward of Campus-Based funds (see sidebar). See Chapter 1 of Volume 5 of the FSA Handbook for a full discussion of overawards for all programs.

There is a $300 overaward tolerance for the Campus-Based programs. If the student’s package is overawarded by $300 or less (as a result of a late outside award, not the school’s awarding methodology) and Campus-Based funds are part of the package, you can consider the student to not be overawarded.

For more on Pell Grant recalculations, including when they are optional and mandatory, see Chapter 3 of this volume.
APPENDIX A

FEDERAL EDUCATION BENEFITS TO BE EXCLUDED FROM ESTIMATED FINANCIAL ASSISTANCE AS LISTED IN SECTION 480(C) OF THE HIGHER EDUCATION ACT:

- Chapter 103 of title 10, United States Code (Senior Reserve Officers’ Training Corps).

- Chapter 106A of title 10, United States Code (Educational Assistance for Persons Enlisting for Active Duty).

- Chapter 1606 of title 10, United States Code (Selected Reserve Educational Assistance Program).

- Chapter 1607 of title 10, United States Code (Educational Assistance Program for Reserve Component Members Supporting Contingency Operations and Certain Other Operations).

- Chapter 30 of title 38, United States Code (All-Volunteer Force Educational Assistance Program, also known as the ‘Montgomery GI Bill—active duty’).

- Chapter 31 of title 38, United States Code (Training and Rehabilitation for Veterans with Service-Connected Disabilities).

- Chapter 32 of title 38, United States Code (Post-Vietnam Era Veterans’ Educational Assistance Program).

- Chapter 33 of title 38, United States Code (Post-9/11 Educational Assistance).

- Chapter 35 of title 38, United States Code (Survivors’ and Dependents’ Educational Assistance Program).

- Section 156(b) of the ‘Joint Resolution making further continuing appropriations and providing for productive employment for the fiscal year 1983, and for other purposes’ (42 U.S.C. 402 note) (Restored Entitlement Program for Survivors, also known as ‘Quayle benefits’).

- The provisions of chapter 3 of title 37, United States Code, related to subsistence allowances for members of the Reserve Officers Training Corps.
Introduction to Volume 4

The purpose of this publication is to provide participating schools with guidance on how to request, disburse, manage and report on the use of Federal Student Aid funds.

Here, we provide a summary of the changes and clarifications presented in greater detail in the chapters that follow. Alone, the text herein does not provide schools with the guidance needed to satisfactorily administer the Title IV, HEA programs. For more complete guidance, you should refer to the text in the chapters cited, the Code of Federal Regulations (CFR) and the Higher Education Assistance Act (HEA) as amended:

Throughout this volume, new information is indicated with the following symbol:

When we believe that historically there might be some misunderstanding of a requirement, or wish to emphasize a topic, we indicate that with:
Major Changes

We’ve updated the Volume to include references to the Iraq and Afghanistan Service Grants where applicable.

Chapter 1 — Disbursing Federal Student Aid Funds

- We remind schools that Direct Loan (DL) funds returned within 120 days of disbursement and DL funds returned in compliance with a regulatory requirement are treated as a cancellation.
- We have added a discussion explaining the new requirement that schools, by the seventh day of a payment period, must provide a way for a student who is eligible for a Federal Pell Grant to obtain or purchase the books and supplies required for the payment period.
- We have provided a new Sample Authorization to Hold a FSA Credit Balance.

Chapter 2 — Requesting and Managing FSA Funds

- We remind schools that when all or a portion of a Direct Loan is cancelled, the school must make the appropriate adjustment to the student records in COD.
- We have added a discussion clarifying when funds are considered to have been returned.
- We remind schools that Direct Loan funds are not student-specific, but are program year-specific, and that when all or a portion of a loan for a student is cancelled, the cancelled loan funds can be disbursed to another eligible student who is receiving a loan for that same program year.
Disbursing FSA Funds

These rules apply to the following programs: Pell, TEACH, and Iraq and Afghanistan Service (IAS) Grants, FSEOG, Perkins Loans, and Direct Loans. We have indicated when a rule applies to FWS funds. This chapter will discuss the rules for crediting Federal Student Aid (FSA) funds to the student’s account and making direct disbursements to the student or to the parent (PLUS), with provisions for early disbursements, delayed disbursements and late disbursements.

NOTIFICATIONS

Notification of disbursement

In general, there are two types of notifications a school must provide: (1) a general notification to all students receiving FSA funds; and (2) a notice when loan funds are credited to a student’s account.

General notification

A school must notify a student of the amount of funds the student and his or her parent can expect to receive from each FSA program, including FWS, and how and when those funds will be disbursed. This notification must be sent before the disbursement is made.

If the funds include a Direct Loan, the notice must indicate which funds are from subsidized loans and which are from unsubsidized loans. A school must provide the best information that it has regarding the amount of FSA program funds a student can expect to receive. Because the actual loan disbursements received by a student may differ slightly from the amount expected by the school (due to loan fees and rounding differences), you may include the gross amount of the loan disbursement or a close approximation of the net disbursement amount.

Loan notification

Except in the case of loan funds made as part of a Post-withdrawal Disbursement, when Perkins, Stafford or PLUS loan funds are being credited to a student’s account, the school must also notify the student or parent in writing (in writing means on paper or electronically) of the:

- anticipated date and amount of the disbursement;
- student’s (or parent’s) right to cancel all or part of the loan or disbursement; and
- procedures and the time by which the student (or parent) must notify the school that he or she wishes to cancel the loan or disbursement.

Note on IAS Grants

The HEA (Sec. 420R(d)) specifies that those grants shall be awarded in the same manner, and with the same terms and conditions, as Federal Pell Grants.

Notices

34 CFR 668.165

Borrower notification via email

If you are notifying the student of the next disbursement by electronic mail or other electronic means, you are encouraged to follow up on any electronic notice for which you receive an “undeliverable” message.
Acceptable means of notification

Your school may not use an in-person or telephonic conversation as the sole means of notification because these are not adequate and verifiable methods of providing notice. However, a school may use in-person and telephone notices in addition to those provided in writing.

Confirmation process
34 CFR 668.165(a)(6)(i)

Proration of loan fees for returned FSA loan funds

If a school returns a Direct Loan disbursement or a portion of a disbursement because a borrower has cancelled a loan, or because the school must satisfy a regulatory requirement, any fees or interest associated with the returned amount are reduced in proportion to the amount returned.

The school’s administrative system, EDExpress, or COD, as applicable, should automatically make those adjustments. However, periodically, schools should review data on cancelled loans to ensure those reductions actually took place.

If a borrower requests cancellation outside of the period during which is required to cancel the loan, a school has the option of canceling the loan or directing the borrower to contact the appropriate servicer.

Self-assessment tool for fiscal management procedures

You can evaluate your school’s procedures by referring to “Fiscal Management” in the Managing Funds module of FSA Assessments at:

The timing of the notification varies depending on whether a school obtains affirmative (active) confirmation from a student that he or she wants a loan. Affirmative confirmation is a process under which a school obtains written confirmation of the types and amounts of FSA program loans that a student wants for an award year before the school credits the student’s account with those loan funds. See the AVG, chapter 6, for more information on the confirmation process.

This notification must be sent –

- **if the school obtains affirmative confirmation**, no earlier than 30 days before and no later than 30 days after crediting the student’s account.
- **if the school does NOT obtain affirmative confirmation**, no earlier than 30 days before and no later than 7 days after crediting the student’s account.

If the student or parent borrower wishes to cancel all or a portion of a loan, he or she must inform the school. A school must return the loan proceeds, cancel the loan, or do both, provided that the school receives the loan cancellation request within the following time-frames –

- **if the school obtains affirmative confirmation from the student**, by the later of the first day of a payment period or 14 days after the date the school notifies the student or parent of his or her right to cancel all or a portion of a loan; or
- **if the school does not obtain affirmative confirmation from the student**, within 30 days of the date the school notifies the student or parent of his or her right to cancel all or a portion of a loan.

If the school receives a student’s or parent’s request for cancellation after these dates, the school may, but is not required to, honor the request. Regardless of when the request is received, the school must inform the student or parent in writing of the outcome of the request.

When acting upon a loan cancellation request, your school must return the loan funds (if received) and/or cancel the loan as appropriate. A school is not responsible for returning any portion of a loan that was disbursed to a student or parent directly (e.g., as a result of a credit on the student’s account) before the request for cancellation was received. However, you are encouraged to take an active role in advising the borrower to return the funds already received.
DL funds that are returned within 120 days of the disbursement by the school or the borrower, for any reason, are treated as a partial or full cancellation, with the appropriate adjustment of the loan fee and interest. In addition, DL funds that are returned by a school at any time to comply with a regulatory or statutory requirement are treated as a partial or full cancellation. DL funds that a borrower returns (or that a school returns at the request of the borrower) 120 days or more after disbursement are processed as a payment, and there is no adjustment of the loan fee or interest.

**TEACH Grant notification and cancellation**

Before making a disbursement of a TEACH Grant, a school must notify the student of the amount of TEACH Grant funds that the student is eligible to receive, how and when those funds will be disbursed, and the student’s right to cancel all or a portion of the TEACH Grant.

If a school receives a TEACH Grant cancellation request from the student by the later of the first day of a payment period or 14 days after the date it notifies the student of his or her right to cancel all or a portion of a TEACH Grant, the school must return the TEACH Grant proceeds, and/or cancel the TEACH Grant.

If a student requests cancellation of a TEACH Grant after the 14-day period but within 120 days of the date the TEACH Grant was disbursed, the school may return the TEACH Grant proceeds and/or cancel the TEACH Grant.

If the school does not return the TEACH Grant proceeds, or cancel the TEACH Grant, the school must notify the student that he or she may contact the Department to request that the TEACH Grant be converted to a Federal Direct Unsubsidized Loan.
AUTHORIZATIONS

You must obtain authorization from a student (or parent borrower), before your school can perform any of the following activities:

- use FSA funds to pay for allowable educationally related charges other than tuition, fees, and room and board (if the student contracts with the school);
- credit FWS wages to a student’s account to pay any educationally related charges;
- disburse FWS wages by Electronic Funds Transfer (EFT) to a bank account designated by the student or parent;
- hold an FSA credit balance; or
- apply FSA funds (including FWS) to prior-year charges other than for tuition, fees, room, and board.

An authorization must explain what FSA funds are covered by the document, and it must specify the time period covered by the authorization. Unless otherwise specified a student or parent may authorize a school to carry out the allowable activities for a specific period of time such as an academic year, or it may allow the activities for the entire period the student is enrolled, including multiple academic years.

A school may not require or coerce the student or parent to provide an authorization, and it must clearly explain to the student or parent how to cancel or modify the authorization. The school must also explain that a cancellation is not retroactive.

A student or parent may cancel or modify an authorization at any time. A cancellation or modification is not retroactive—it takes effect on the date that the school receives it from the student or parent. If a student or parent cancels an authorization to use FSA funds to pay for other allowable charges, the school may use FSA funds to pay any authorized charges incurred by the student before the notice was received by the school. If a student or parent cancels an authorization to hold excess funds, the funds must be paid directly to the student or parent as soon as possible but no later than 14 days after the school receives the notice. (See the discussion under Credit Balances later in this chapter.)

However, regardless of any authorization obtained by a school, the school must pay any remaining balance on FSA loan funds by the end of the loan period and any other remaining FSA program funds by the end of the last payment period in the award year for which they were awarded.
Authorization to hold an FSA credit balance

All elements of an authorization must be conspicuous. An authorization must include the following elements:

- An authorization must explain what FSA funds are covered by the document, and it must specify the time period covered.
- An authorization must clearly provide the student or parent with the information he or she needs to make an informed decision.
- The student or parent must be informed that he or she may refuse to authorize any individual item, that he or she may cancel such authorization at any time, and that a cancellation is not retroactive.
- The authorization must clearly explain how the school will carry out an activity. For example, a credit-balance authorization must provide detail that is sufficient to give the student or parent an idea of how the credit balance will be used.

When an authorization is cancelled

If a student or parent cancels an authorization to hold an FSA credit balance, the school must pay those funds directly to the student within 14 calendar days of receiving the notification.
TRISKAIDEKA MARLEY UNIVERSITY

AUTHORIZATION TO HOLD A FEDERAL STUDENT AID CREDIT BALANCE

Through this document, you will tell Triskaideka Marley University (TKMU/the University) how you would like the school to manage the Federal Student Aid (FSA) credit balance on your student account.

An FSA credit balance is created when the total of all FSA funds credited to a student’s account exceeds the total of tuition, fees, room, board, and other eligible educational charges on a student’s account. Your FSA credit balance of $2,500 was created by funds from the Federal Pell Grant and Federal Direct Loan programs.

Unless a student or parent (in the case of a Parent PLUS loan) authorizes a school to hold a credit balance, the credit balance must be paid to the student or parent as soon as possible, but no later than 14 calendar days after the balance is created (or 14 calendar days after the first day of class if the credit balance was created before the first day of class).

This form, if signed by you, authorizes TKMU to retain an FSA credit balance and pay it to you (the student or parent, as applicable) in accordance with TKMU’S Procedure for Paying Federal Student Aid Credit Balances. TKMU will pay credit balances by depositing the funds in a savings or checking account designated by the student or parent or transferring the funds to a “Stored-Value” or “Debit Card” designated by the student or parent.

A student or parent has the right to withhold their agreement from all or part of this authorization. If you elect not to authorize the University to hold your FSA credit balance, the funds will be paid to you (the student or parent as applicable) within the 14-day period noted above). Note that if you elect not to sign this form or if you later cancel your authorization, you will be required to pay any outstanding charges to the University.

This authorization will remain in effect for each subsequent payment period unless you withdraw it. However, in no case, will the TKMU hold an FSA credit balance of loan funds beyond the end of the loan period, nor an FSA credit balance of other funds beyond the end of the last payment period in the award year for which the funds were awarded.

This authorization may be withdrawn at any time by providing a written request to the following address:

TKMU Financial Aid Office
Director of Financial Aid
1300 Ted Drive, Suite 1313
Pixie, CA 13013

If you withdraw your authorization, the University will deliver any remaining credit balance to you within 14 days. (Note that your cancellation is not retroactive.)

Authorization

I voluntarily authorize the University to hold and manage my FSA credit balance as described above, and I acknowledge that interest will not be earned on these balances.

______________________________  ______________________________
Signature                      Date
Authorizations

A school may include two or more of the items that require authorization in one statement. Each component and term in the authorization must be conspicuous to the reader, and a student (or parent borrower) must be informed that he or she may refuse to authorize any individual item on the statement.

An authorization must clearly explain how the school will carry out an activity, but it does not need to detail every aspect pertaining to the activity. However, a blanket authorization that only identifies the activities to be performed is not acceptable. For instance, an authorization permitting a school to use an FSA credit balance (discussed later in this chapter) must provide detail that is sufficient to give the student or parent a general idea of what the credit balance would be used to pay. A blanket statement that the credit balance would cover any charges is not acceptable.

Using electronic processes for notifications & authorizations

So long as there are no regulations specifically requiring that a notification or authorization be sent via U.S. mail, a school may provide notices or receive authorizations electronically. You may also use an electronic process to provide required notices and make disclosures by directing students to a secure website that contains the required notifications and disclosures.

If you use an electronic process to provide notices, make disclosures or direct students to a secure website, then every year you must notify each student individually. You may provide the required notice through direct mailing to each individual through the U.S. Postal Service, campus mail, or electronically directly to an email address.

The annual individual notice must —

- identify the information required to be disclosed that year;
- provide the exact inter- or intranet address where the information can be found;
- state that, upon request, individuals are entitled to a paper copy, and inform students how to request a paper copy.
Voluntary Consent Required

Voluntary consent to participate in electronic transactions is required for all financial information provided or made available to student loan borrowers, and for all notices and authorizations to FSA recipients required under 34 CFR 668.165.

Power of attorney in disbursing FWS and Perkins

A school may not obtain a student’s power of attorney to authorize FWS disbursements unless the Department has granted prior approval (contact your School Participation Team). Your school must be able to demonstrate that there is no one else (such as a relative, landlord, or member of the clergy, for example) who could act on behalf of the student.

Similarly, a school official may not use a student’s power of attorney to endorse any Perkins Loan disbursement check or to sign for any Perkins Loan advance unless the Department has granted prior approval. Approval may be granted only if:

- the student is not available to sign the promissory note and there is no one else (such as a relative, landlord, or member of the clergy) who could act on behalf of the student,
- the school shows that the funds cannot be directly deposited or electronically transferred,
- the power of attorney is not granted to a school official or any other official who has an interest in the loan, and
- the power of attorney meets all legal requirements under the law of the state in which the school is located and the school retains the original document granting power of attorney in its files.

Power of attorney
Perkins: 34 CFR 674.16(h)
FWS: 34 CFR 675.16(d)
METHOD OF DISBURSEMENT

There are two ways to disburse FSA funds: by crediting the student’s account for allowable charges at your school or by paying the student or parent directly.

Credit to the student’s account

When a school disburses FSA funds to a student by crediting a student’s account, it may do so only for allowable charges.

Allowable charges include:

- current charges for tuition and fees as defined in Volume 3, chapter 2 and room and board (if the student contracts with the school);
- if you obtain the student’s or parent’s (as applicable) written authorization, other educationally related charges incurred by the student at the school;
- prior-year charges not exceeding $200 (See the discussion under Paying prior-year charges later in this chapter.).

Direct disbursement to the student

You may also disburse FSA funds directly to the student or parent. Most schools choose to first credit FSA funds to the student’s account at the school and then disburse the credit balance to the student or parent.

There are three ways that a school may disburse FSA funds directly to the student or parent:

1. Issuing a check or other instrument payable to and requiring the endorsement or certification of the student or parent (a check is issued if the school releases or mails the check to a student or parent, or notifies the student or parent that the check is available for immediate pickup).
2. Initiating an electronic funds transfer (EFT) to a bank account designated by the student or parent, including transferring funds to stored-value cards and debit cards (see the discussion under Credit Balances later in this chapter).
3. Disbursing to the student in cash, provided that your school obtains a signed receipt from the student or parent.

Self-assessment tool for disbursement procedures

You can evaluate your school’s procedures by referring to Disbursing Aid in the Fiscal Management module of FSA Assessments.

Method of disbursement

- Credit to students account: 34 CFR 668.164(c)
- Direct disbursements: 34 CFR 668.164(c)
- Releasing a Pell check: 34 CFR 690.78(c)
- Cost of attendance: Section 472 of the HEA
- Prior-year charges: 34 CFR 668.164(d)(2)

Tuition and fees cite

Section 472 of the HEA
34 CFR 668.164(d)(2)
DCL-GEN-09-11

Crediting Direct Loan funds to current charges first

Direct Loan funds credited to a student’s account must first be used to pay for current charges.

Disbursements in programs of less than one year where grades are not awarded

Before disbursing funds to students enrolled in programs equal to or less than one year in which students do not receive grades or credits until the end of the program, your school must have a satisfactory academic progress standard as described in Volumes 1 and 2 of the FSA Handbook, and you must:
- measure a student’s standing vis-a-vis satisfactory academic progress by the time the student has completed one-half of the program; and
- not make second disbursements of FSA funds to a student who is not making satisfactory academic progress.
PAYING SCHOOL CHARGES

Paying pass-through charges

The law allows a school to credit a student’s account with FSA funds only to pay for institutionally provided housing. However, it is not necessary that the school actually own the student housing. The school may enter into a contract with a third party to provide the institutional housing.

If a school enters into a contract with a third party to provide institutional housing, the school may credit FSA funds to a student’s account to pay for housing provided by a third party.

Keep in mind that other FSA requirements apply to both the funds used for the housing payment and to the physical location of the housing. For instance –

- A school must include the cost of housing as an institutional charge in any Return calculation required when an eligible recipient ceases to be enrolled prior to the end of the payment period or period of enrollment. (See Volume 5, chapter 2.)
- The school must include the third-party housing among the locations for which it fulfills the requirements enumerated in The Handbook for Campus Safety and Security Reporting. (http://www2.ed.gov/admins/lead/safety/handbook-2.pdf) (See Volume 2, chapter 6 for additional information.)

The third party must comply with the civil rights and privacy requirements contained in the school’s Program Participation Agreement. (See Volume 2.)
Paying prior-year charges

In general, FSA funds may only be used to pay for the student’s costs for the period for which the funds are provided. However, a school may use current-year funds to satisfy prior award year charges for tuition and fees, room, or board (and with permission, educationally related charges) for a total of not more than $200. **A school may not pay prior-year charges in excess of $200.**

FSA funds may not be used to repay a student’s loan. Loan payments are not part of the cost of attendance for the period of enrollment.

The costs of education and other services a school provides a student are associated with the “year” for which the education and services are provided. **A school has discretion over how it defines a “year.”**

- **If a student’s aid package includes a Direct Loan, the “year” is the loan period.** In this scenario, costs for the current year are defined as charges for education and services the institution will provide during the current loan period for which the school originates a Direct Loan.

- **If the student does not have a Direct Loan, the “year” is the award year,** and costs for the current year are defined as charges for education and services the school will provide during the current award year.
Apportioning and prorating charges

In most cases, the total charges a school assesses the student in a semester, academic year, or other instructional period are for education and services the institution provides within that period of time. However, some schools charge a student upfront for the total cost of a multi-year program – for example, the student signs an enrollment agreement and is charged for the total costs of an 1,800 clock-hour program at the beginning of the program. In this case, because the charges assessed upfront represent the costs of education and services that will be provided over a two-year period, the institution would, on a program basis, apportion the total charges over the two-year period to determine the amount of charges applicable to each year (each loan period or award year, as appropriate).

Institutional charges (generally speaking, tuition and fees) allocated to each year (or portion of a year) would be based on the education and services the school provides during that period of time, in the same way as they are for schools that charge their students year by year. Charges for books, equipment, supplies, and other materials could be allocated on a pro rata basis, or, alternatively, could be allocated to the period in which they must be purchased. An institution would use the total charges allocated to each year in determining the amount of current-year charges. The amount of current year charges would then be used for determining whether the student has an FSA credit balance as described later in this chapter.

Note that this procedure for apportioning the costs over the length of the program does not affect how a school maintains or should maintain its accounting records.
Example: Apportioning charges when a school posts all charges to the student’s account during the first payment period and the student has an FSA Loan

Katrina Technical Center (KTC) is a nonprofit postsecondary institution located in Houma, Louisiana, offering a program in storm-water abatement. Hanna Galiano entered KTC’s Abatement program on May 4, 2009. KTC posts the charges for the entire (1,500 hour) program at the beginning of the program.

When a school charges for an entire program at the start of the course (up front), a school may apportion or otherwise assign the total charges for a multi-year program to determine the amount of those charges applicable to each year (loan period or award year as appropriate). Note that a school must use the same basis to apportion the charges for all students in a program. For example, KTC could:

- apportion the charges in proportion to the number of clock hours in each loan period (900 hours/$8,100 in the first loan period and 600 hours/$5,400 in the second loan period; or
- increase the charges the school assigned to the first loan period and decrease the charges in the second loan period because the school retained charges for books and materials in the first period; or
Apportioning charges example continued

- apportion the $13,500 equally ($6,750) over each of the two loan periods (four payment periods).

KTC chose to apportion the charges in proportion to the number of clock-hours in each loan period.

On May 4, 2009, the school credited Hanna’s account with $4,150 in FSA funds — $2,400 in 2008-2009 Pell Grant funds and $1,750 in Stafford Loan funds. When applied against the $4,050 in school charges for the first payment period, the FSA funds created an FSA credit balance of $100.00 ($4,150 – $4,050) that the school electronically transferred to the bank account that Hanna had previously specified be used for that purpose.

On August 17, 2009, the school credited Hanna’s account with $4,150 in FSA funds — $2,400 in 2009-2010 Pell funds and $1,750 in Stafford funds. When applied against the $4,050 in school charges for the 2nd payment period, the FSA funds created an FSA credit balance of $100.00 ($4,150 – $4,050) that the school electronically transferred to Hanna’s specified bank account.

On November 30, 2009, the school credited Hanna’s account with $2,967 in FSA funds — $1,800 in 2009-2010 Pell funds and $1,167 in Stafford funds. When applied against the $2,700 in school charges for the 3rd payment period, the FSA funds created an FSA credit balance of $267.00 ($2,967 – $2,700) that the school electronically transferred to Hanna’s specified bank account.

Hanna began the 4th and final payment period on February 8, 2010, and the aid officer posted $1,167 in Stafford funds to Hanna’s account. When the aid officer looked at Hanna’s Pell eligibility, she found that Hanna had already used 100% of her scheduled award, so Hanna was ineligible for additional Pell funds.

When the $1,167 in Stafford Loan funds was applied against the $2,700 in school charges for the fourth payment period, an unpaid balance of $1,533.00 ($2,700 – $1,167) remained. Hanna told the aid officer that she was able to meet her living expenses through her part-time job, but needed additional help to pay her tuition.

After discussing the matter, they arrived at the decision that Hanna would use an unsubsidized Stafford Loan in the amount of $1,750.00 to cover the balance of the tuition, and the aid officer would transfer any credit balance to the bank account Hanna had previously identified for that purpose.

Hannah’s tuition and fees were now paid in full.

Hanna graduated from KTC and is working for the Army Corps of Engineers helping to ensure that the levees in New Orleans never again fail.
PAYING FSA CREDIT BALANCES

An FSA credit balance occurs whenever your school credits FSA program funds to a student’s account and the total amount of those FSA funds exceeds the student’s allowable charges. Please see Volume 5 for a discussion of credit balances when a student withdraws.

Paying FSA credit balances by issuing a check

A school may pay a credit balance to a student by issuing a check payable to and requiring the endorsement of the student or parent. A school is considered to have issued the check on the date that it –

- mails the check to the student or parent; or
- notifies the student that the check is available for immediate pickup and provides the specific location.

A school that is paying a student his or her credit balance with a direct disbursement must pay the student within the 14-day time frame. A school can, within that 14-day period, do a number of things, including sending a notice to the student that his or her money is available. A school that does that is considered to have met the 14-day requirement to give the student his or her credit balance, as long as the school’s process complies with the rest of the regulation. That is, the school must be able to give the student a check when the student comes to the office within the 14-day time frame.

If a student is told (within the 14-day period) to come to the business office to pick up his or her credit balance, the student must be able to leave the business office with the funds in some form (e.g., a check, cash, or an appropriate stored value card), and not be told that a check will be mailed to him or her.

A school may hold the check for up to 21 days after the date it notifies the student. If the student does not pick up the check within this 21-day period, the institution must immediately mail the check to the student or parent, initiate an EFT to the student’s or parent’s bank account, or return the funds to the appropriate FSA program.

Paying FSA credit balances by initiating an EFT

A school may pay a credit balance by initiating an electronic funds transfer (EFT) to a bank account designated by the student or parent. Moreover, a school may establish a policy requiring its students to provide information about an existing bank account or open an account at a bank of the student’s choosing as long as this policy does not delay the disbursement of FSA funds to students. Consequently, if a student does not comply with the school’s policy, the school must nevertheless disburse the funds to the student either by dispensing cash, for which the school obtains a signed receipt, or issuing a check. A school must disburse the credit balance within the regulatory time frame.

Delivery of FSA funds must be cost-free

Schools are prohibited from charging students a fee for delivering FSA funds. If a school delivers FSA funds to students by crediting funds to a school-issued debit or smart card, the school may not charge students a fee for making withdrawals of FSA funds from that card. However, the school may charge for a replacement card.

Bank Account

Bank Account means a Federal Deposit Insurance Corporation (FDIC) insured account or a National Credit Union Share Insurance Fund (NCUSIF) account. This account may be a checking, savings, or similar account that underlies a stored-value card or other transaction device.
Standards for School-Required Bank Accounts (34 CFR 668.164(c)(3))

In cases where a school opens a bank account on behalf of a student or parent, establishes a process the student or parent must follow to open a bank account, or similarly assists the student or parent in opening a bank account, the school must –

1. Obtain in writing affirmative consent from the student or parent to open that account. (If a school fails to obtain a student’s consent, the school must have an alternative means of ensuring the student has access to his or her FSA credit balance within the time allowed by regulations and at no cost to the student);

2. Before the account is opened, inform the student or parent of the terms and conditions associated with accepting and using the account;

3. Not make any claims against the funds in the account without the written permission of the student or parent, except for correcting an error in transferring the funds in accordance with banking protocols;

4. Ensure that the student or parent does not incur any cost in opening the account or initially receiving any type of debit card, stored-value card, other type of automated teller machine (ATM) card, or similar transaction device that is used to access the funds in that account:
   • Ensure that the student has convenient access to a branch office of the bank or ATMs of the bank in which the account was opened (or ATMs of another bank), so that the student does not incur any cost in making cash withdrawals from that office or ATMs.

   This branch office or these ATMs must be located on the institution’s campus, in institutionally-owned or operated facilities, or consistent with the meaning of the term “Public Property” immediately adjacent to and accessible from the campus.

5. Ensure that the debit, stored-value or ATM card, or other device can be convertible to cash, and can be widely used, e.g., the institution may not limit the use of the card or device to particular vendors; and

6. Not market or portray the account, card, or device as a credit card or credit instrument, or subsequently convert the account, card, or device to a credit card or credit instrument.
Chapter 1 — Disbursing FSA Funds

When a school uses third-party servicers to disburse FSA funds

In response to current trends, banks and financial service companies are now offering services that include:

- obtaining the student’s authorization to perform electronic transfers;
- transferring the funds electronically to the student’s bank account;
- opening a bank account for the student; and
- issuing debit cards in conjunction with a participating bank.

Companies that contract with schools to provide these types of services in some instances become third-party servicers.

So long as a school cannot recall or receive a payment from an student or parent account, the Department considers the electronic transfer of funds to a bank account a servicer opens on behalf of a student to be the equivalent of a school’s transfer of funds to a student’s account and the equivalent of making a direct payment to a student.

A school that enters into a contract with a servicer to provide debit, demand or smart cards through which FSA credit balances are paid to students must have a system to ensure compliance with all regulatory time frames including students having access to any credit balance within the 14 days, and to any FWS wages at least once per month.

Third-Party Servicers

A third-party servicer is an entity that contracts with a school to administer any aspect of its FSA programs. Thus, if a school contracts with a company to perform activities that are the school’s responsibilities under the FSA regulations, the company is a third-party servicer.

In the contract between the school and the servicer, both parties must agree to comply with all statutory and regulatory provisions governing the FSA programs and agree to be jointly and severally liable for any violation by the servicer of these provisions. Also, unless a third-party servicer has only one client, the servicer must submit an annual audit of the activities it performs on behalf of the school to the Department. (See Volume 2 for more information about Third-Party Servicers.)

TIME FRAMES FOR PAYING FSA FUNDS

Prompt disbursement rules

In general, schools that are not receiving federal cash from the Department through one of the heightened cash monitoring payment methods must make disbursements as soon as administratively feasible but no later than 3 business days after receiving funds from the Department. The disbursements may be credited to the student’s account or made directly to the student or parent, as discussed earlier.

Note that these time frames for disbursing to the student’s account (or directly to the student or parent) are different than those for paying FSA credit balances to the student or parent. As we discussed earlier, a school generally has 14 days to pay an FSA credit balance to the student or parent, unless it has written permission to hold the credit balance.

Excess cash is discussed in Chapter 2.

Three-day rule

In order to comply with the excess cash regulations (described in chapter 2), when requesting funds with which to make FSA disbursements, schools must ensure they do not draw down more cash than they can disburse over the next three days.

Submitting disbursement records

A school must submit Federal Pell Grant, Iraq and Afghanistan Service Grant, TEACH Grant, and Direct Loan disbursement records no later than 30 days after making a disbursement or becoming aware of the need to adjust a student’s disbursement.

A school’s failure to submit disbursement records within the required 30-day time frame may result in an audit or program review finding. In addition, the Department may initiate an adverse action, such as a fine or other penalty for such failure.
Defining the date of disbursement

(These rules apply to the FWS program as well.)

It is important to define the date of disbursement because several regulatory requirements are based on that date. For instance, you must disburse an FSA credit balance to a student within 14 days of the date it was created or within 14 days of the first day of class, and you must notify a student of a loan disbursement within a time frame related to the date of that disbursement.

The date of disbursement also determines when the student becomes an FSA recipient and has the rights and responsibilities of an FSA recipient. For example, when FSA loan funds are disbursed to a recipient, the student or parent assumes responsibility for the loan and has the right to cancel the loan.

A disbursement occurs when your school credits a student’s account or pays a student or parent directly with:

- FSA funds received from the Department;
- School funds labeled as FSA funds in advance of receiving actual FSA funds (except as noted below).  

When using school funds in place of FSA funds, there are two situations where the FSA disbursement is considered to have taken place on the earliest day that the student could have received FSA funds rather than the actual disbursement date:

- If a school credits a student’s account with its own funds earlier than 10 days before the first day of classes of a payment period, that credit is not considered an FSA disbursement until the 10th day before the first day of classes (the earliest a school may disburse FSA funds).
- If a student borrower is subject to the 30-day disbursement delay and a school credits the student’s account with its own funds before the 30 days have elapsed, this is not counted as an FSA loan disbursement until the 30th day after the beginning of the payment period.

1 If your school simply makes a memo entry for billing purposes or credits a student’s account and does not identify it as an FSA credit (for example, an estimated Federal Pell Grant), it is not a disbursement. For example, some schools prepare billing statements or invoices showing the estimated amount of FSA funds that students are eligible to receive. These estimated amounts are not FSA disbursements.
Crossover payment periods

When a payment period is in two award years (that is, when it begins before and ends after July 1), the student is paid for compensation earned through June 30 with funds allocated for the first award year and for compensation earned beginning July 1 with funds allocated for the following award year. (See Volume 6 for a discussion of carrying back funds for summer employment.)

Disbursing to students from the correct award year is important; schools have been held liable when students were paid from the wrong FWS authorization. For audit and program review purposes, your school must have documentation (e.g., canceled checks, bank statements) showing that students received disbursements in the amount charged to the FWS Program.

Holding FWS funds on behalf of the student

With written authorization from a student, a school may hold, on behalf of the student, FWS funds that would otherwise be paid directly to the student (unless this is prohibited by the terms of a reimbursement payment method). The restrictions for such an authorization are the same as those that apply to written authorizations for disbursements to student accounts. If your school holds FWS funds on behalf of students, it must:

- identify the amount of FWS funds held for each student in a designated subsidiary ledger account,
- maintain cash in its bank account that is always at a minimum equal to the FWS funds being held for students, and
- disburse any remaining balance by the end of the school’s final FWS payroll period for the award period.
**Timeframe for paying credit balances**

If FSA disbursements to the student’s account at the school creates an FSA credit balance, you must pay the credit balance directly to the student or parent as soon as possible but no later than 14 days after:

- the date the balance occurred on the student’s account, if the balance occurred after the first day of class of a payment period, or
- the first day of classes of the payment period if the credit balance occurred on or before the first day of class of that payment period.

The law requires that any excess PLUS Loan funds be returned to the parent. Therefore, if PLUS Loan funds create a credit balance, the credit balance would have to be given to the parent. However, the parent may authorize your school (in writing) to transfer the proceeds of a PLUS Loan credit balance directly to the student for whom the loan is made (for example, to a bank account in the student’s name). The Department does not specify how a school must determine which FSA funds create an FSA credit balance.

A school may not require a student to take any actions to obtain his or her credit balance. It is the sole responsibility of the school to pay, or make available, any FSA credit balance within the 14-day regulatory time frames.

---

**Refunds vs. paying credit balances**

FSA regulations refer to the amount of aid that exceeds the allowable charges as a credit balance. School administrators sometimes refer to this as a refund; however, it is not the same thing as a refund under the school’s refund policy or a Post-withdrawal Disbursement given to a student under the Return of Title IV Funds rules.

---

**School responsibility to pay credit balance in time frame**

FR 72-152, August 8, 2007, page 44630

---

**Credit balances under $1**

A school is not required to pay a credit balance that is less than $1.
FSA credit balances example

An FSA credit balance occurs only if the total amount of FSA program funds exceeds allowable charges.

For example, Ms. Inu Nagar enrolls at Eaglewood Technical Institute as a computer student, and her total allowable charges for the fall term amount to $1,500. ETI credits $2,000 to her account, comprising $1,000 in FSEOG, $500 in private scholarship funds, and $500 in Pell Grant funds.

Although there is an excess of $500 on the account, this does not constitute an FSA credit balance because the total amount of FSA funds ($1,500) does not by itself exceed the amount of allowable charges ($1,500).

If, in this example, ETI credited $600 of Pell Grant funds, rather than $500, an FSA credit balance of $100 would be created because the total FSA funds credited to the account ($1,600) would exceed the allowable charges ($1,500). The order in which these funds were credited does not matter.
**HOLDING CREDIT BALANCES**

An FSA credit balance occurs whenever your school credits FSA program funds to a student’s account and the total amount of those FSA funds exceeds the student’s allowable charges. Please see Volume 5 for a discussion of credit balances when a student withdraws.

A school is permitted to hold credit balances if it obtains a voluntary authorization from the student (or parent, in the case of PLUS). If your school has the authorization to hold the credit balance, it must identify the amount of funds that it holds for the student or parent in a subsidiary ledger account designated for that purpose. Your school also must maintain, at all times, cash in its bank account at least equal to the amount that it holds for students. The school is permitted to retain any interest earned on the student’s credit balance funds.

Because FSA funds are awarded to students to pay current year charges, notwithstanding any authorization from the student or parent, you must pay:

- any remaining balance on FSA loan funds by the end of the loan period, and
- any other remaining FSA program funds by the end of the last payment period in the award year for which they were awarded.

If your school has lost contact with a student who is due a credit balance, you must use all reasonable means to locate the student. If you still cannot find the student, your school must return the credit balance to the appropriate FSA program(s) and/or lender. The FSA regulations do not set specific rules for determining which funds created a credit balance. However, we encourage schools to return FSA funds to loan programs first to reduce the borrower’s loan balance.

**School-issued stored-value cards**

When a school pays an FSA credit balance to a student by making those funds available through a school-issued stored-value card over which the school exercises control, the school is, in effect, holding a student’s FSA credit balance. Therefore, all of the conditions on holding credit balances apply.
Requirements for Stored-Value and Prepaid Debit Cards
(DCL GEN 05-16 as modified by 34 CFR 668.164(3))

A stored-value card is a prepaid debit card that can be used to withdraw cash from an automated teller machine (ATM) or to purchase goods from a merchant. We distinguish a stored-value card from a traditional debit card in this discussion by defining a stored-value card as not being linked to a checking or savings account.

Typically, a school enters into an agreement with a bank under which the bank issues stored-value cards directly to students identified by the school. In a payroll or credit balance transaction, the school electronically transfers funds to the bank on behalf of a student, and the bank makes those funds available to the student by increasing the value of the card. Since the funds are transferred from the school’s account to the bank, so long as the school cannot recall those funds to pay other charges for the student without the student’s written permission, the transaction would be equivalent to paying the funds directly to the student.

Under the following conditions, a school may use stored-value cards as a way to make direct payments to students (such as credit balances and Federal Work Study (FWS) wages) by following the 10 rules.

1. A school must obtain a student’s authorization to use a stored-value card for paying FWS wages.

2. The value of the card must be convertible to cash (e.g., a student must be able to use it at an ATM to make a cash withdrawal). In some cases, the cards are branded with the VISA or MasterCard logo, so the card may also be used to buy goods and services. We would not expect a school to limit the use of the card to specific vendors.

3. A student should not incur any fees for using the card to withdraw the disbursement from ATMs of the issuing bank or credit union.

   So long as ATMs from the issuing bank are conveniently located for a student, it would appear to be reasonable for a fee to be charged if the student chooses to use an ATM that is not affiliated with the issuing bank.

4. A student should not be charged by either a school or the affiliated bank for issuing a stored-value card, but it would be reasonable if a student was charged for a replacement card.

5. In order to minimize any risks with disbursing funds to a stored-value card account set up for a student, the account at the bank or credit union must be Federal Deposit Insurance Corporation (FDIC) or National Credit Union Share Insurance Fund (NCUSIF) insured. This means that there has to be an individual account for each student that is FDIC or NCUSAIF insured.

6. In order for the disbursements to the stored-value card to be treated as payments made to a student, a school cannot make any claims against the funds on the card without the written permission of the student, except to correct an error in transferring the funds to the bank under existing banking rules.

7. Since the stored-value card is being set up to disburse Federal Student Aid funds to a student, the account should not be marketed or portrayed as a credit card account and should not be structured to be converted into a credit card at any time after it is issued.

   A bank may wish to use its relationship with a student to offer other banking services such as checking accounts, savings accounts, or credit cards, but those should not link to the stored-value card account.

8. A school must inform a student of any terms and conditions associated with accepting and using the stored-value card.

9. A school must ensure that its stored-value card process meets all regulatory time frames. (For example, a student must have access via the card to any credit balance within the 14-day time frames in 34 CFR 668.164, or to any FWS wages at least once per month.)

10. A student’s access to the funds on the stored-value card should not be conditioned upon the student’s continued enrollment, academic status or financial standing with the institution.

---

1. If a school fails to obtain a student’s authorization, the school must have an alternative means of ensuring the student has access to his or her FSA credit balance within the time allowed by regulations and at no cost to the student.
SPECIAL PROVISIONS FOR BOOKS AND SUPPLIES

In order to academically succeed in a program, a student must be able to purchase books and supplies at the beginning of the academic period. Therefore, by the seventh day of a payment period, a school must provide a way for a student who is eligible for a Federal Pell Grant to obtain or purchase the books and supplies required for the payment period if:

- ten days before the beginning of the payment period, the school could have disbursed FSA funds to the student; and
- disbursement of those funds would have created an FSA credit balance.

A school must consider all the FSA funds that a student is eligible to receive at that time it makes the determination, but the school need not consider aid from non-FSA sources.

A school that includes the costs of books and supplies in the tuition charged and provides all of those materials to the student at the start of his or her classes meets the requirements of these regulations.

The amount a school must provide is the lesser of the presumed credit balance or the amount determined by the school that the student needs to obtain the books and supplies. In determining the required amount, a school may use the actual costs of books and supplies or the allowance for those materials used in estimating the student’s cost of attendance for the period.

A school’s policy must allow a student to decline to participate in the process the school provides for the student to obtain or purchase books and supplies.

If a school uses a bank-issued stored-value or prepaid debit card that is supported by a federally insured bank account to deliver funds for books and supplies, a student must have access to the funds via the card by the seventh day of his or her payment period. If a bank delays issuing a stored-value or prepaid debit card to the student because it must resolve conflicting identity data under Federal law, the Department will not hold the institution accountable as long as the institution exercises reasonable care and diligence in providing in a timely manner any identity information about the student to the bank. Likewise, the school is not responsible if the student provides inaccurate information or delays in responding to a request from the bank to resolve any discrepancies.

Provisions for books and supplies
34 CFR 668.164(i)

Authorization not required
If a Pell eligible student uses the process provided by the school to obtain books or supplies, the student is considered to have authorized the use of the FSA funds, and no written authorization is required.

School Options
A school has the flexibility to choose the method or methods to satisfy this provision based on its administrative needs and constraints or an evaluation of the costs and benefits of one or more method. For example, the school may issue a bookstore voucher, make a cash disbursement, issue a stored-value card, or otherwise extend credit to students to make needed purchases.

Schools may credit credit balances early to all students
Although the requirement is about a school providing a way for a student who is eligible for a Federal Pell Grant to obtain books and supplies, a school is not prevented from making credit balance funds available early in the payment period to other students.

Effect of Verification
To be eligible to receive the disbursement for books and supplies, a student must meet all the student eligibility requirements before the start of the student’s payment period.

A student who has not completed the verification process, has an unresolved “C” code on the SAR and ISIR, or has unresolved conflicting information is not covered by the special provisions for books and supplies if those issues have not been resolved at least 10 days before the start of the student’s payment period.
Under a consortium agreement between two eligible schools, if a student is enrolled in a course at the host school and classes start before the payment period begins at the home school that is paying the FSA funds, the regulations require that the student obtain the books and supplies by the seventh day of the start of the payment period of the home school. If the host school is paying the FSA funds, the student must be able to obtain the books and supplies by the seventh day of the start of the payment period of the host school.

A student may decline to participate (opt out) in the way a school provides for obtaining books and supplies. For instance, if a school provides a bookstore voucher, the student may opt out by not using the voucher. If the school provides the funds using a stored-value or prepaid debit card, the school must have a procedure through which the student may opt out. For example, a school may require a student to notify the school by a certain date so that the school does not unnecessarily issue a check to the student or transfer funds to the student’s bank account. If a student opts out, the school may, but is not required to, offer the student another way to purchase books and supplies as long as it does not otherwise delay providing funds to the student as a credit balance.

A school is required to provide, in its financial aid information and its notifications provided to students receiving FSA funds, information on the way the school provides for Federal Pell Grant eligible students to obtain or purchase required books and supplies by the seventh day of a payment period under certain conditions and how the student may opt-out. The information must indicate whether the school will enter a charge on the student’s account at the school for books and supplies or pay funds to the student directly. Also, during the aid counseling process, the school must explain to a student who qualifies for the funds advanced to purchase books and supplies how the method is handled at the school and how a student may opt out.

**Book vouchers and institutional charges in the return of Title IV funds calculations**

Remember, if a book voucher issued by a school cannot be used to purchase course materials from a convenient unaffiliated source, the student does not have a real and reasonable opportunity to purchase his or her course materials elsewhere.

In that case the school must include the cost of books and materials purchased with the voucher as institutional charges in Step 5, Part L of the any Return of Title IV funds calculation.
CHECKING ELIGIBILITY AT THE TIME OF DISBURSEMENT

Before you awarded funds to a student, you confirmed that he or she was an eligible student and was making satisfactory academic progress (See Volume 1, Student Eligibility). However, before disbursing FSA funds, you must determine and document that a student remains eligible to receive them. That is, you must confirm that:

- the student is enrolled in classes for the period;
- a student enrolled in a non-term program has completed the previous period (credits and weeks or clock-hours and weeks of instruction);
- if the disbursement occurs on or after the first day of classes, that the student has begun attendance;
- for DL loans, the student is enrolled at least half time;
- first-time FSA borrowers have completed entrance counseling and/or received the required disclosures;
- for TEACH Grants, the student has, for that award year –
  a) completed the relevant initial or subsequent counseling;
  b) signed an “Agreement to Serve;” and
  c) the appropriate GPA, has otherwise met the performance standard through testing, or is a retiree or a current or former teacher (See Volume 1.)
- for a second Pell or Iraq and Afghanistan Service Grant within an award year –
  a) the student is enrolled at least half time;
  b) the student is taking hours attributable to a second academic year within the same award year; and
  c) if the student is enrolled in a payment period that is scheduled to occur in two award years, the entire payment period is considered to occur within one award year, and the school has assigned the payment period to the award year in which the student receives the greater payment for the period.

The most common change that would make a student ineligible for a Stafford or PLUS disbursement is if the student has dropped below half time, so it is important that your office have a system to check the student’s enrollment status at the time of disbursement.

If the student has dropped below half time temporarily, you may still make a Stafford or PLUS disbursement after the student resumes at least half time enrollment.

Interim disbursements to students selected for verification

A school can make an interim disbursement of certain types of FSA funds to a student who is selected for verification (including a student selected for verification by the school rather than the CPS). If the school has any conflicting documentation or other reason to believe that it does not have a valid output document, it may not make such a disbursement. See the current version of the Application and Verification Guide, for more details.

Disbursements to students on leave of absence

A school may disburse Pell, TEACH Grant, IAS Grant, FSEOG, or Perkins funds to a student on a leave of absence. However, a school must not disburse Direct Loan funds to a student on a leave of absence.

Because FSA credit balance funds are funds that have already been disbursed, a school must pay an FSA credit balance to a student on leave of absence.

Liability for incorrect payments

A school is liable for any incorrect payments made to the student due to school error. School officials may be subject to a $10,000 fine, a prison sentence, or both if they knowingly makes false or misleading statements.

TEACH Grant Counseling

A student must complete TEACH Grant Initial Counseling prior to receiving the first disbursement of the student’s first TEACH Grant. See Volume 2 for information about the required counseling.
DISBURSING FWS WAGES

Your school may use any type of payroll period it chooses, provided students are paid at least monthly. It is a good idea to have the FWS payroll correspond to other similar payrolls at the school. Unless you are paying the student with noncash contributions (see sidebar), you must pay the nonfederal share to the student at the same time you pay the federal share.

FWS wages are earned when the student performs the work. A school may pay the student after the last day of attendance for FWS wages earned while he or she was still in school. However, when a student has withdrawn from school and is not planning to return, FWS funds may not be used to pay for work performed after the student withdrew. A correspondence student must submit the first completed lesson before receiving a disbursement under the FWS Program.

FWS Disbursements
34 CFR 675.16.

Direct payments
34 CFR 668.164(c)

Noncash contribution

Your school also has the option of paying its share of a student’s FWS wages in the form of a noncash contribution of services or equipment — for example, tuition and fees, room and board, and books and supplies. However, you may not count forgiveness of a charge such as a parking fine or library fine against a student who is employed under FWS as part of the school’s noncash contribution to the student.

Noncash payments (tuition, fees, services or equipment) must be made before the student’s final payroll period of the award period. If the school pays its share for a forthcoming academic period in the form of prepaid tuition, fees, services or equipment, it must give the student — again, before the end of the student’s final payroll period — a statement of the amount of the noncash contribution earned.
LATE DISBURSEMENTS

Generally, an otherwise eligible student or parent becomes ineligible to receive FSA funds on the date that the student:

- for the Direct Loan program, is no longer enrolled at least half time; or
- for the FSA Grant, or the Perkins Loan programs, the student is no longer enrolled at the school for the award year.

However, if certain conditions are met, students must be considered for a disbursement after the date they became ineligible. These disbursements are called "late disbursements."

Conditions for a late disbursement

A student must be considered for a late disbursement if the Department processed a SAR/ISIR with an official EFC before the student became ineligible. Therefore, a school must review its records to see if a student who did not receive a disbursement of FSA funds before becoming ineligible is eligible for a late disbursement (Check the “processed date” as described in the sidebar.) In addition, for a Direct Loan, the loan must be originated prior to the date the student became ineligible. For an FSEOG or a Federal Perkins Loan, the school must have made the award to the student prior to the date the student became ineligible. For a TEACH Grant, the school must have originated the award.

If a school receives a valid SAR/ISIR for a student who is no longer enrolled, before performing a Return calculation, the school must recalculate the FSA grant eligibility based on the student’s enrollment status on the date the student ceased to be enrolled.

Late disbursements that must be made vs. late disbursements that may be made

If a student who qualifies for a late disbursement completes the payment period or period of enrollment, or withdraws during the payment period or period of enrollment, a school must make or offer, as appropriate, the late disbursement. A late disbursement for a student who has withdrawn during the payment period or period of enrollment is called a Postwithdrawal disbursement (see Volume 5, chapter 2).

If a student did not withdraw or fail to complete the payment period or period of enrollment but ceased to be enrolled as at least a half-time student, a school may make a late disbursement of a Direct Loan. So long as a school has previously confirmed that a student started the loan period enrolled at least half time, a school is not required to re-confirm a student’s attendance before making a late disbursement of an FSA loan.
A student who withdraws and subsequently signs a promissory note in time for the school to include the loan funds in the Return of Title IV Aid calculation may receive a late (Postwithdrawal) disbursement of the applicable amount of his or her loan funds (see Volume 5 for more information). In addition, a student who loses eligibility for a reason other than his or her withdrawal and subsequently signs a promissory note may receive a late disbursement of the applicable amount of his or her loan funds.

Limitations on making a late disbursement

The regulations prohibit a school from making a late disbursement in certain situations, even if a student otherwise meets the conditions for a late disbursement. A school is prohibited from making:

- a late second or subsequent disbursement of Direct Loan funds unless the student has graduated or successfully completed the loan period;
- a late disbursement of Direct Loan funds to a first-year, first-time borrower who withdraws before the 30th day of the student’s program of study (unless the school meets the requirements for a waiver based on low default rates (See Volume 1); and
- a late disbursement of FSA grant funds to a student for whom the school did not have a valid SAR/ISIR by the deadline established by ED;
- a late disbursement of FSA grant funds made for a second academic year within the same award year; if a student’s enrollment status for the grant was not half-time on the date the student ceased to be enrolled.

In addition, a school may not make a late disbursement later than 180 days after the date the student becomes ineligible.
Paying a late disbursement

If a school chooses to make a late disbursement of a Direct Loan to a student who ceases to be enrolled as at least a half-time student, the school determines the amount of the late disbursement of the Direct Loan it will offer the student by determining the educational costs the student incurred for the period of instruction during which the student was enrolled at least half time.

A school must contact a student prior to making any late disbursement of FSA loan funds and explain to the student his or her obligation to repay the loan funds if they are disbursed. The information provided in this notification must include the information necessary for the student or parent to make an informed decision about whether the student or parent would like to accept any disbursement of the loan funds. In addition, the school must confirm that the loan funds are still needed by the student and that the student wishes the school to make the disbursement.

Your school may credit a student’s account with a late disbursement of FSA grant funds without the student’s permission for any current allowable charges. A school must obtain a student’s authorization to credit a student’s account with FSA grant funds for charges other than current charges.

If grant funds remain to be disbursed from a late disbursement after the outstanding charges on the student’s account have been satisfied, the school must pay the grant funds directly to the student within 14 days.

If a student had an FSA credit balance before becoming ineligible and that credit balance consists of FSA loan funds, the school must offer the funds in writing to the student, and may not disburse the loan funds directly to the student without first having obtained the student’s authorization.

---

1 Within this chart, the rules for a Pell Grant also apply to Iraq and Afghanistan Service Grants.

2 A school may not originate a Direct Loan for a loan period in which the student is no longer enrolled on at least a half-time basis, even if the student is otherwise still enrolled at the school.

3 For all programs, the late disbursement is made no later than 180 days after the date of the school’s determination that the student withdrew, or, for a student who did not withdraw, 180 days after the student became ineligible.
Except for funds received as an administrative cost allowance (ACA), FSA funds received by a school are held in trust by the school for students and the Department. The cash management regulations discussed in this chapter establish rules and procedures that a school must follow in requesting and managing FSA Program funds. These rules and procedures also apply to third-party servicers.

OVERVIEW OF G5 SYSTEM

Schools use the G5 payment system to request payments, adjust drawdowns, and report expenditures. G5 also provides continuous access to current grant and payment information, such as authorized amounts, cumulative drawdowns, current award balances and payment histories.

A school’s authorization is the amount of FSA funds a school is eligible for in the year and program in question. The authorization is called the Current Funding Level (CFL). Please note that in Direct Loan and TEACH Grant programs, you might also hear the authorization referred to as the Cash Control Account (CCA).

A school’s available balance is the amount of cash available for a school to draw down through G5. The available balance is the difference between the authorized amount and the school’s net drawdowns to date. A separate authorization is maintained for each program by award year.

A school may not request more funds than it needs immediately for disbursements the school has made or will make to eligible students and parents. Therefore, a school must make the disbursements as soon as administratively feasible, but no later than three business days following the date the school receives those funds.

If G5 accepts a school’s request for funds, it will make an electronic funds transfer (EFT) of the amount requested to a bank account designated by the school.

Chapter 2 Highlights

- Drawing down funds
- Maintaining & accounting for funds
- Excess cash
- Administrative Cost Allowance
- Fiduciary responsibility; escheating & garnishing prohibited
- Returning funds

Self-assessment tool for fiscal management

**Funding methods**

Cite: 34 CFR 668.162, except as noted.

---

**The Advance Payment method**

Under the advance payment method, a school may submit a request for FSA funds after their funding levels have been established.

---

**Receiving Funds Under Heightened Monitoring**

Schools that receive funds under the Reimbursement, Heightened Cash Monitoring 1 (HCM1), or Heightened Cash Monitoring 2 (HCM2) funding method do not receive an initial authorization. These schools receive an authorization once the COD System has accepted and posted actual disbursement records.

---

**IAS Grant disbursements**

For the IAS Grant Program, schools will not submit actual disbursements in the 2011-2012 award year. In the IAS Grant Program, ED will provide schools with an “Exception-Based Process” through which schools will be funded when they submit anticipated disbursements (DRI = False).

---

**Supplemental Campus-Based Allocations**

In the spring of the award year, schools can apply for and may receive a Supplemental Allocation – an additional amount of Campus-Based funds (funds reallocated from unused funds released by participating schools).

---

**DRAWING DOWN FSA FUNDS**

**Drawing down funds in the Direct Loan Program**

Generally, schools under the Advanced Funding method receive Initial Direct Loan authorizations in late spring of the previous award year. Initial authorizations are based on a school’s expenditures in those programs during the previous award year, and an Electronic Statement of Account (ESOA) containing this information is sent to each school’s Student Aid Internet Gateway (SAIG) mailbox.

As a school submits actual Direct Loan disbursement records, the COD System will apply the total accepted and posted amount for each disbursement to the amount of the school’s initial authorization. The school’s authorization will be increased to cover additional accepted and posted disbursements when the initial authorization has been exceeded. A new ESOA will be sent to the school each time its authorization changes.

**Drawing down funds in the Pell, TEACH, and Iraq and Afghanistan Service Grant programs**

There will be no Initial Authorizations for the Pell, TEACH, and Iraq and Afghanistan Service Grant programs for the 2011-2012 Award Year. The school’s authorization for these programs will be based on the accepted and posted actual disbursement records schools submit to the COD System. A new ESOA will be sent to a school’s SAIG mailbox each time a program’s authorization changes.

**Drawing down funds in the Campus-Based programs**

The Department awards Campus-Based funds to a school for an upcoming award year on the basis of The Application to Participate portion of the The Fiscal Operations Report and Application to Participate (FISAP). The way in which schools request Campus-Based funds from G5 will vary depending on the funding method under which schools operate. In all cases, a school may not request funds in excess of the actual disbursements it has made or will make to students (plus any Administrative Cost Allowance (ACA), if applicable).

Note: For the Campus-Based programs, schools do not report individual disbursements in COD. Therefore, a school’s allocation of Campus-Based funds is not revised during the year unless the school receives a supplemental allocation (see sidebar).

See Volume 6, Chapter 1 for more information on applying for and receiving Campus-Based funding.
Chapter 2 — Requesting & Managing FSA Funds

Heightened Cash Management

The Department places a school on Reimbursement or Cash Monitoring if it determines there is a need to monitor strictly the school’s participation in the FSA programs. Under these payment methods, the Department releases funds to the school after the school has made the disbursement to the student (or parent borrower).

A school on the Reimbursement or Heightened Cash Monitoring 2 (HCM2) funding method must complete and submit Standard Form 270 with each request for reimbursement. (Note that a school may only submit one such request for reimbursement during any 30-day period.)

If a school is placed on reimbursement or HCM1 its administration of the reimbursement or cash monitoring payment method must be audited every year. The independent auditor engaged by the school to conduct its annual compliance audit must express an opinion in the audit report regarding the school’s compliance with the reimbursement or cash monitoring requirements, as applicable.

Reimbursement payment method

A school on Reimbursement must first disburse FSA program funds to eligible students and parents before it can request those funds from the Department. As part of its request, a school that has been placed on Reimbursement must:

- identify the students and parents for whom it is seeking reimbursement; and
- submit documentation demonstrating that each student and parent included in the request was eligible to receive, and received, FSA funds.

After the reimbursement request is approved, the Department transfers electronically the appropriate amount of FSA funds to the bank account in which the school maintains its Federal funds.

Cash Monitoring Payment Methods

Unlike the reimbursement payment method where a school must provide detailed documentation for each student to whom it made a disbursement, the Department may relax the documentation requirements under cash monitoring payment method and provide funds to a school in one of two ways:

1. **Heightened Cash Monitoring 1** (HCM1). After a school makes disbursements to eligible students, it draws down FSA funds to cover those disbursements in the same way as a school on the advance payment method.

2. **Heightened Cash Monitoring 2** (HCM2). After a school makes disbursements to eligible students, it submits only the documentation specified by the Department. The Department may tailor the documentation requirements for schools on a case-by-case basis.

If a school is placed on reimbursement or HCM1, its administration of the reimbursement or cash monitoring payment method must be audited every year. The independent auditor engaged by the school to conduct its annual compliance audit must express an opinion in the audit report regarding the school’s compliance with the reimbursement or cash monitoring requirements, as applicable.
MAINTAINING AND ACCOUNTING FOR FUNDS

All schools must maintain a bank account into which the Department transfers, or the school deposits, FSA funds. The account must be federally insured or secured by collateral of value reasonably equivalent to the amount of FSA funds in the account. A school generally is not required to maintain a separate account for each FSA program unless the Department imposes this requirement as a result of a program review or other action.

When a school does not maintain a separate account

A school has a fiduciary responsibility to segregate Federal funds from all other funds and to ensure that Federal funds are used only for the benefit of eligible students. Absent a separate bank account, the school must ensure that its accounting records clearly reflect that it segregates FSA funds. Under no circumstances may the school use Federal funds for any other purpose, such as paying operating expenses, collateralizing or otherwise securing a loan, or earning interest or generating revenue in a manner that risks the loss of FSA funds or subjects FSA funds to liens or other attachments (such as would be the case with certain overnight investment arrangements or sweeps). Clearly, carrying out these fiduciary duties limits the ways the school can otherwise manage cash in an operating account when that account contains FSA funds.

If a school does not maintain a separate account for FSA program funds, its accounting and internal control systems must:

- identify the balance for each FSA program that is included in the school’s bank or investment account as readily as if those funds were in a separate account; and
- identify earnings on FSA program funds in the school’s bank or investment account.

A school must maintain its financial records in accordance with the recordkeeping requirements described in Volume 2.

Bank account notification requirements

For each account that contains FSA program funds, a school must identify that FSA funds are maintained in the account by:

- including the phrase Federal funds in the name of the account, or
- notifying the bank or investment company of the accounts that contain FSA funds and keeping a copy of this notice in its records and, except for public institutions, filing a Uniform Commercial Code Form (UCC-1) statement with the appropriate state or municipal government entity that discloses that an account contains Federal funds.

The school must keep a copy of the UCC-1 statement in its records.
**Interest-bearing or investment account**

FSA funds must be maintained in an interest-bearing account or an investment account unless:

- the school drew down less than $3 million of these funds in the prior award year and anticipates that it will not draw down more than $3 million in the current award year, or
- the school can demonstrate that it would not earn over $250 in interest on the funds it will draw down during the award year.

An investment account must consist predominantly of low-risk income-producing securities. If a school chooses to maintain Federal funds in an investment account, the school must maintain sufficient liquidity in that account to make required disbursements to students.

Any interest earned on FSA funds maintained in an interest-bearing account or an investment account that exceeds $250 per award year must be remitted to the Department by June 30 of that award year (see sidebar). A school may keep up to $250 per year of the interest or investment revenue earned (other than that earned on Perkins Loan funds) to pay for the administrative expense of maintaining the account.

**Additional Perkins Loan requirements**

A school that participates in the Perkins Loan Program must always maintain an interest-bearing account or an investment account for Perkins Loan funds. The school must maintain sufficient liquidity in its Perkins fund to make all required distributions.

If a school is also required to maintain an interest-bearing account or investment account for other Federal funds, the school may use one account for Perkins Loan funds and all other Federal funds. However, if the school chooses to maintain one account, it must determine the amount of any interest earned on the Perkins Loan funds and retain those funds for use in the Perkins program. The interest earned on the school’s Perkins funds is not included in the $250 maximum award year interest the school is permitted to retain.

A school may deduct from the interest earned any bank or service charges incurred as a result of maintaining the fund assets in an interest-bearing account and deposit only the net earnings.

If a collection agency or third-party servicer receives funds directly from Perkins borrowers, it must immediately deposit those funds in a school trust account. The agency or servicer may open and maintain the account, but the funds in it belong to the school. If the funds will be held for more than 45 days, the account must be interest-bearing.

**Remitting Interest**

The fastest, most efficient way to remit interest is through the G5 website at

http://www.g5.gov

A school with a user ID and password can go to the main menu and select “Refunds” then “Interest.” They will be taken to the screens through which they can send ED interest.

Schools can also return excess interest income to ED by check. Send the check to:

U.S. Department of Education
P.O. Box 979053
St. Louis, Missouri 63197-9000

The school should note on the check the school’s DUNS number and Document Award Number, and it should also indicate that the remittance is for interest earned.
EXCESS CASH

As mentioned earlier, under the advanced payment method a school must disburse funds no later than three business days following the date the school receives them. The Department considers excess cash to be any amount of FSA funds, other than Perkins Loan funds, that a school does not disburse to students or parents by the end of the third business day following the date the school –

- received those funds from the Department; or
- deposited or transferred to its Federal funds account previously disbursed FSA funds received from the Department, such as those resulting from award adjustments, recoveries, or cancellations.

Sometimes a school cannot disburse funds in the required three days because of circumstances outside the school’s control. For example, a school may not have been able to disburse funds because of a change in a student’s enrollment status, a student’s failure to attend classes as scheduled, or a change in a student’s award as a result of verification. In view of these circumstances, a school may maintain some excess cash for up to seven additional days.

Allowable excess cash tolerances

A school may retain for up to seven days an amount of excess cash that does not exceed one percent of the total amount of funds the school drew down in the prior award year. The school must return immediately to the Department any amount of excess cash over the 1% tolerance and any amount remaining in its account after the seven-day tolerance period.

The Department reviews schools to determine where excess cash balances have been improperly maintained. Upon a finding that a school has maintained an excess cash balance in excess of allowable tolerances, a school is required to reimburse the Department for the costs that the government incurred in making those excess funds available to the school.

Where excess cash balances are disproportionately large or where they represent a continuing problem with the school’s ability to responsibly administer the FSA programs, the Department may initiate a proceeding to fine, limit, suspend or terminate the school’s participation in one or more of the FSA programs. For more on fines and other actions against schools, see Volume 2.
ADMINISTRATIVE COST ALLOWANCE (ACA)

The ACA is an annual payment calculated by ED and automatically deposited in the school’s account to help offset the costs of administering the FSA programs. The Department reimburses schools participating in the Pell Grant Program $5 per award year for unduplicated recipients at the school who receive a Pell Grant. For the Campus-Based Program, the ACA is taken from the school’s federal allocation and the maximum amount permissible is up to 5 percent of the sum of the loans advanced in Perkins, the total earned compensation in FWS, and the total awards to recipients in FSEOG.

For the Campus-Based programs, the ACA is not a separate allowance sent to the school. Rather, the school has the option of taking its Campus-Based ACA out of the annual authorizations the school receives for the FSEOG and FWS Programs and/or from the available cash on hand in its Perkins Loan fund. A school may draw its allowance from any combination of Campus-Based programs, or it may take the total allowance from only one program provided there are sufficient funds in that program and as long as the school has disbursed funds to students from that program during the award year.

A school must use its administrative costs allowance to offset its cost of administering the Pell Grant, FWS, FSEOG, and Federal Perkins Loan programs. Administrative costs may include the expenses incurred in carrying out a school’s student consumer information requirements. In addition, a school may use up to 10 percent of its ACA that is attributable to the school’s expenditures under the FWS Program to pay the administrative costs of conducting community service programs.

Administrative Cost Allowance
34 CFR 690.10(b) and 34 CFR 673.7

Charging Perkins cost against ACA
If a school charges any ACA against its Perkins Loan fund, it must charge these costs during the same award year in which the expenditures for these costs were made.
USE OF FUNDS: PROHIBITION ON GARNISHMENT AND ESCHEATING

Fiduciary responsibility

Except for funds received by a school for administrative expenses and for funds used for the Job Location and Development Program, funds received by a school under the FSA programs are held in trust for the intended student beneficiaries. As a trustee of those funds, a school may not use (or use as collateral) FSA funds for any other purpose.

FSA funds are awarded to a student to pay current-year charges. Notwithstanding any authorization obtained by a school from a student or parent, the school must pay:

- any remaining balance from loan funds by the end of the loan period; and
- other remaining FSA funds by the end of the last payment period in the award year for which they were awarded.

A school that fails to disburse funds by those dates is in violation of the Department’s cash management regulations.

In addition, a school has a fiduciary responsibility to –

- safeguard FSA funds;
- ensure FSA funds are used only for the purposes intended;
- act on the student’s behalf to repay a student’s FSA education loan debt when the school is unable to pay a credit balance directly to the student; and
- return to the Department any FSA funds that cannot be used as intended.

Garnishment of FSA funds is prohibited

No FSA grant, loan, or work assistance (or property traceable to that assistance) is subject to garnishment or attachment except to satisfy a debt owed to the Department.

A student’s FWS wages may be garnished only to pay any costs of attendance that the student owes the school or that will become due and payable during the period of the award. Schools must oppose any garnishment order they receive for any other type of debt.

By law, FSA funds may only be used for educational purposes. If your school is not the employer in an off-campus employment arrangement, it must have an effective procedure to notify off-campus employers that garnishment of FWS wages for any debt other than a cost of attendance is not permissible.
Prohibition on escheating

A school must return to the Department any FSA program funds, except FWS Program funds, that it attempts to disburse directly to a student or parent if the student or parent does not receive the funds or cash the check. (For FWS Program funds, a school is required to return only the Federal portion of the payroll disbursement.)

A school must have a process that ensures FSA funds never escheat to a state, or revert to the school or any other third party. A failure to have such a process in place would call into question a school’s administrative capability, its fiscal responsibility, and its system of internal controls required under the FSA regulations.

Time frame for returning unclaimed funds

If a school attempts to disburse the credit balance by check or EFT and the check is not cashed or the EFT is rejected, the school must return the funds no later than 240 days after the date it issued that check or made the EFT.

However, if a check is returned to a school, or an EFT is rejected, the school may make additional attempts to disburse the funds, provided that those attempts are made not later than 45 days after the funds were returned or rejected.

In cases where the school does not make another attempt, the funds must be returned before the end of the initial 45-day period.

The school must cease all attempts to disburse the funds and return them no later than 240 days after the date it issued the first check.

Example of a policy to prevent escheating

Typically, each state establishes the useful life of a check or bank draft used to disburse FSA program funds. After this established date, the check cannot be negotiated and the proceeds of an uncashed check normally escheat to an unintended third-party (the state or the institution).

In state A, a bank check has a useful life of 180 days. In order to prevent FSA funds from escheating to a third-party, the Business Office at School A, at the end of each month, identifies all outstanding uncashed checks containing FSA funds. Prior to the 180th day, the Business Office voids the uncashed checks and restores the funds back to the applicable FSA program.

Undelivered Perkins funds

If a portion of the undelivered credit balance consists of Perkins funds, the school must reimburse its Perkins Loan fund for that amount and report those funds as other income in Part III, Section A of the FISAP.
RETURNING FUNDS

There are a number of reasons why a school may have to return funds to the Department, including –

- the return of FSA funds required when a school must correct an overaward or an overpayment, and the return of funds required when a student withdraws or otherwise ceases attendance during a payment period or period of enrollment (The return of funds under these circumstances is discussed in Volume 5);
- having FSA funds on hand with no expectation they can be disbursed to other eligible students within three days (excess cash);
- owing the Department for expenditures disallowed during a program review or audit;
- having earned interest on its Federal funds (other than in its Perkins account) in excess of $250.00; and
- holding large Federal Perkins Loan cash balances on hand (COH) (on the FISAP).

Schools can return money to the Department (including excess interest) using the Electronic Refund Functionality in G5 for up to 10 years following the end of the award year. For complete instructions on returning funds through G5, see The Blue Book and the G5 Refund Manual.

Only in exceptional circumstances should a school return funds by sending a check instead of using the electronic refund functionality in G5.

Returning funds by depositing them in a federal funds account

For funds obtained from the Department, a school meets the Return requirement if it deposits or transfers the funds into its Federal account no later than 45 days after the school determined that a student withdrew or received an overpayment the school was responsible for returning (See Volume 5 — Overawards, Overpayments, and Withdrawal Calculations.)

If a school has not drawn down Federal funds or has made disbursements that exceed the amount the school has drawn, the school does not need to deposit funds in its Federal account. Of course, the school’s accounting records must show that school funds were used to credit the student’s account.
When funds are considered to have been returned

The Department considers a school to have returned FSA funds when the school has—

1. deposited or transferred the funds into its Federal funds account;
2. initiated an electronic funds transfer (EFT) to the Department; or
3. issued a check. A school has not satisfied this requirement until the bank used by the Department has endorsed and cancelled that check (processed it for deposit).

Downward adjustment of FSA Grant disbursement records and Direct Loan disbursement records required

Returns of FSA Grants funds (except FSEOG and Iraq and Afghanistan Service Grants), other than funds that are being returned to stay in compliance with the excess cash requirements, must be offset by downward reductions in students records in COD. In addition, when all or a portion of a Direct Loan is cancelled (either because the borrower requested the cancellation within the regulatory timeframes or to comply with statutory or regulatory requirements) the school must make the appropriate adjustment to the student records in COD.

All returns of FSA Grants and Direct Loan funds previously disbursed (unclaimed credit balances) should be made through the G5 system.

Returning funds from an audit or program review

If, as a result of a program review or audit, a school is required to repay FSA funds, a copy of its Final Audit Determination Letter (FADL) or Final Program Review Determination (FPRD) letter is sent to ED’s Receivables and Cash Receipts Team (RCRT), where an account receivable is established for the school. The Department will then, through its billing agent, bill the school for the disallowed expenditures, accrued interest, and penalties, if any. Payment instructions will be included with the bill.

- If a school owes ED $100,000 or more, it must remit payment through its financial institution by FEDWIRE.
- If a school owes ED less than $100,000, it must remit payment by check to ED's billing agent.

A school may not reduce amounts reported as net drawdowns on its G5 Activity Reports to account for expenditures disqualified as a result of an audit or program review. Any FSA funds returned for this purpose will not be credited to a school’s G5 account.

Recommendation

We strongly recommend returning funds electronically because this method is faster and more secure than manual/paper processing and less likely to result in errors. Note that refunds of cash greater than $100,000 must be returned electronically via G5.

For additional information on returning funds via G5, refer to the G5 website or call the G5 Hotline at 888/336-8930 for assistance.

Returning DL funds that can’t be disbursed within three days

A school that has drawn down more funds than it can disburse due to changes in students’ status between the drawdown and disbursement date would need to return the funds if they could not disburse them within the allowed time frame. However, such returns would not be offset by reductions in the students’ records in COD.

Direct Loan Funds may be reawarded

Direct Loan funds are not student-specific; they are program year-specific. This means that when all or a portion of a loan for a student is cancelled, the cancelled loan funds can be disbursed to another eligible student who is receiving a loan for that same Direct Loan program year.

If the funds cannot be disbursed within the regulatory timeframes, they must be returned to the Department via G5.
Unless otherwise directed by the FADL or FPRD letter, a school may not adjust its prior-year FISAPs or Federal Pell Grant/Iraq and Afghanistan Service Grant processed payment information to reflect expenditures disallowed as a result of an audit or program review. Also, unless specifically instructed by the Department, a school should always repay funds using the appropriate function in G5.

**Returning funds after 240 days**

*In all cases, a school will have to request permission to make a change to the FISAP after December 15 following the close of the award year.*

If FSA Grant funds (other than FSEOG and Iraq and Afghanistan Service Grants) must be returned after 240 days, a school must:

- enter the student’s revised Pell Grant award in COD;
- return the funds to the Department through G5, if applicable; and
- make the appropriate change to the FISAP.

Note that for Pell funds from a prior award year, a school may not use the funds for an eligible student in the current year.

If FSEOG funds must be returned after 240 days, a school must:

- enter the student’s revised FSEOG award both in the individual student’s account and the school’s FSEOG ledger;
- either return the funds to the Department through G5 **or** carry them forward to the next award year; and
- make the appropriate change to the FISAP.

If Perkins Loan funds from a prior award year must be returned after 240 days, a school must:

- reimburse its Perkins Loan fund;
- report those funds as income in Part III, Section A of the FISAP; and
- reduce the student’s Perkins Loan balance and make an accounting entry to tie that reduction to the journal entry for the aforementioned reimbursement of its Perkins Loan fund.

The school should not make any changes to the student’s Perkins promissory note.
If a school cannot locate a student to whom it owes FWS funds the student has earned, the federal portion must be returned to the school’s FWS account. If the student comes back or the school later locates the student, the school can recover the FWS funds as long as the account for that year is still open. If the account is closed, the school must pay the student (under the wage and hour laws) using its own funds.

**Returning funds from FFEL loans purchased/serviced by the Department**

From August 2008 through September 2010, The Department purchased Federal Family Education Loan (FFEL) Program loans from FFEL loan holders. The Department has contracted with five organizations to provide loan services on these purchased FFEL loans.

If a school is required to return any portion of a FFEL Program loan that has been purchased by the Department, the money would be returned to the appropriate Federal servicer for that loan.

To identify the current servicer of an FSA loan, access NSLDS and select “Aid.” Then identify the student and select “Loan History.” Under Loan History, the current loan will be listed at the top. Use the field “Servicer” to identify the organization to which you will be returning funds. Additional contact information for the loan servicers is available on IFAP under the “Help” menu (“Contact Information” / “Service Centers for Schools,” / “Loan Service Centers for Schools.”

**Returning Direct Loan funds**

If a school is required to return DL funds to comply with a regulatory or statutory requirement, even if more than 120 days have elapsed since the disbursement date, the school must return DL funds through G5. The school returns DL funds to the Department following the same procedures the school follows when making other G5 refunds/returns.

---

**Information required when returning loan funds to a servicer by check**

If you cannot use the electronic process preferred by the loan’s servicer and must return the funds with a paper check, together with your check for the funds you are returning, you must include, on school letterhead, the following information:

1. The borrower’s name,
2. The borrower’s social security number,
3. The loan’s unique CommonLine ID,
4. The type of loan (subsidized, unsubsidized, PLUS, etc.),
5. The period for which the loan was certified,
6. The scheduled and actual date of the disbursement,
7. The amount of the disbursement,
8. The amount being returned,
9. The reason the funds are being returned (cancellation, overpayment, withdrawal, or failed to begin class),
10. The school OPE ID, and
11. The name and phone number of the school official returning the funds.
1. Enter the information below. Missing information may prevent your check (or checks) from being processed correctly.

School Name: _______________________________ Direct Loan Code or OPE ID: __________

Name/Title: ___________________________________________ Telephone #: _____________

E-mail Address: ______________________________ Servicer (if applicable): ______________

Check Date: ____________ Check #: _____________ Amount: ___________________

2. Check (✔) the award year for which you are returning Direct Loan Refunds of Cash. If you are returning funds for more than one award year, you must enclose a separate transmittal sheet and a separate check for each award year.

2011/2012   ___________
2010/2011   ___________
2009/2010   ___________
2008/2009   ___________
OTHER (specify year)   ___________

3. Sign and date below.

Contact’s Signature: _______________________________ Date: _____________

4. Mail completed transmittal sheet(s) and Direct Loan Refunds of Cash check(s) to:

---

---
An overpayment occurs when the student receives more aid than he or she was eligible to receive. One kind of overpayment, traditionally called an overaward, results from changes in the student's aid package; a second occurs when a student withdraws. This volume covers how a school should respond when either of these types of overpayments occurs.

Here, we provide a summary of the changes and clarifications presented in greater detail in the chapters that follow. Alone, the text herein does not provide schools with the guidance needed to satisfactorily administer the Title IV, HEA programs. For more complete guidance, you should refer to the text in the chapters cited, the Code of Federal Regulations (CFR) and the Higher Education Assistance Act (HEA) as amended:

Throughout this volume, new information is indicated with the following symbol:

![NEW](image)

When the text represents a clarification rather than a change, it is indicated with this symbol:

![Clarification](image)

When we believe that historically there might be some misunderstanding of a requirement, we indicate that with:

![Warning](image)

Finally, if we want to point out a bit of helpful information we indicate it with:

![Tip](image)
**Major Changes**

**Chapter 1 — Overpayments and Overawards**

- We have clarified when an overaward exists.
- We explain when an Iraq and Afghanistan Service Grant overawards exists that must be corrected.
- We clarify the difference between TEACH Grant overawards when a student is, and is not, receiving need-based aid.
- We remind schools that they must treat a TEACH Grant as EFA if it is not used to finance the EFC for a student who has an overpayment.
- We have added instructions on Amending a FISAP after it has been accepted by ED.

**Chapter 2 — Withdrawals and the Return of Title IV Funds**

- We explain that since this volume was last published, the Department has made substantial changes to the regulations that govern the Return of Title IV Aid and published a Dear Colleague letter explaining those changes.
- We notify schools of the effective date of the new regulations.
- We have revised the treatment of when a student is considered withdrawn.
- We remind schools that if a student who failed to begin all the classes on which their aid was based withdraws, the school must recalculate the student’s eligibility before performing a Return calculation.
- We explain the Date of Determination when a student who was enrolled in a series of modules fails to return as scheduled.
- We clarify the conditions under which a student who transfers from one program to another at the same school to remain in the same payment period.
- We explain that a school may not make a first disbursement of a Direct Loan to a student enrolled in a modular program who has withdrawn before beginning attendance in enough courses to establish a half-time enrollment status.
- We provide a detailed treatment of schools the Department considers are required to take attendance.
- We have revised the treatment of academic attendance and attendance at an academically related activity.
- We remind schools that they must retain documentation of a student’s withdrawal date.
• We have added a treatment of withdrawals from programs offered in modules.

• We explain how schools can determine if a program is offered in modules and whether a student enrolled in a program offered in modules has withdrawn.

• We explain the treatment of a student who withdraws from a series of modules and then returns within the payment period or period of enrollment.

• We have added instructions for adjusting Direct Loans when a student renets or transfers.

• We remind schools that they must obtain written confirmation of future attendance from a student who fails to begin a module within a term as scheduled for that student not to be considered a withdrawal.

• We explain how to determine the withdrawal date, numerator and denominator of the Return calculation for a student who withdraws from a program offered in modules.

• We discuss determining the percentage of the period completed for a student who withdraws from a program offered in modules.

• We discuss the aid to include the Return calculation for a student who withdraws from a program offered in modules.

• We have added instructions on Amending a FISAP after it has been accepted by ED.

• We have added instructions on Returning funds after 240 days.

• We have added a discussion on making downward adjustments of FSA grant and loan funds.

Case Studies in the Return of Title IV Funds

• We have added two case studies that address students who withdraw from programs offered in modules.
In this chapter we will discuss a student’s and a school’s responsibility for resolving overawards and overpayments. This chapter does not cover returning funds when a student withdraws.

Please see chapter 2 for a discussion of those returns.

OVERAWARDS

An overaward exists when a student’s aid package exceeds his or her need. While your school must always take care not to overaward a student when packaging his or her aid, circumstances may change after you have packaged the student’s aid that result in an overaward. (Please see Volume 3 for a discussion of avoiding overawards during the packaging process.) For instance, the student may receive a scholarship or grant from an outside organization. When an overaward situation arises, you may be required to adjust the Federal Student Aid (FSA) in the student’s package in order to eliminate the overaward.

Overawards only become overpayments if the school cannot correct them. In an overpayment situation, some or all of the funds that make up the overaward have been disbursed to the student.

An overaward exists whenever:

- a school awards aid either to a student who is ineligible for a specific program or to a student who is ineligible for any FSA program assistance;
- a student’s award in an individual program exceeds the regulatory maximum, e.g., the annual or aggregate loan limits, the annual limit on Federal Supplementary Educational Opportunity Grant (FSEOG) awards or a Pell award based on the wrong payment schedule/enrollment status;
- a student’s aid package exceeds his or her need (including when the student’s Expected Family Contribution (EFC) is revised upward after initial packaging);
- a student’s award exceeds his or her Cost of Attendance; and
- a student is receiving a Pell, or Iraq and Afghanistan Service Grant at multiple schools for the same period.

In general, unless a school is liable, a student is liable for any overpayment made to him or her.
WHEN A STUDENT FAILS TO BEGIN ATTENDANCE

If your school disburses Pell Grant, Iraq and Afghanistan Service Grant, TEACH Grant, Perkins or FSEOG funds, but the student never begins attending classes, you must return the disbursed funds to the respective programs even if those funds were disbursed directly to the student. If the student begins attending some but not all of his or her classes, you will have to recalculate the student’s Pell or Iraq and Afghanistan Service Grant award based on the student’s actual enrollment status—see Volume 3, chapter 3.

If a school disburses Direct Loan funds but the student does not begin attendance, the school must return all Direct Loan funds that were credited to the student’s account at the institution for the payment period or period of enrollment. In addition, a school must return the amount of any payments made directly by or on behalf of the student to the school for the payment period or period of enrollment, up to the total amount of the loan funds disbursed.

In addition, a school must return any Direct Loan funds that it disbursed directly to a student if the school knew prior to disbursing the funds directly to the student that the student would not begin attendance. (For example, if a student notified the school that he or she would not be attending or if the school expelled the student prior to directly disbursing the funds.)

For any remaining loan funds disbursed directly to a student, the school must notify the Department of the loan funds that are outstanding, so that the Department can issue a 30-day demand letter to the student.

A school may not ignore information available to any office at the school indicating that a student failed to begin attendance.

All schools must return funds disbursed to a student who failed to begin attendance as soon as possible, but no later than 30 days after the date that the institution becomes aware that the student will not or has not begun attendance.

1. For Pell, Perkins, TEACH Grant, IAS Grant or FSEOG funds, a school may satisfy this requirement either by redepositing the funds in its federal funds account and disbursing them within three days to another eligible student, or by returning them to the appropriate FSA program using the refund function in G5.
At a school that is not required to take attendance but that has a census date on which it reports its enrollment levels to a state, local jurisdiction or outside agency, it would be reasonable to expect the school to return funds as soon as possible, but no later than 30 days following the census date.

A school that draws down FSA grant or Direct Loan funds under the advanced payment method must disburse those funds no later than three business days following the date the school receives them. If after a school draws down FSA grant or Direct Loan funds, but before the school disburses them, the school discovers that it cannot disburse all the funds because one of the students for whom the funds were intended has not begun classes, the school must return those funds within the three-day period except as described under Excess Cash in Volume 4.

**After the start of classes, FSA funds should not be disbursed without schools confirming that recipients have begun attendance.**

When funds are considered to have been returned for a student who fails to begin attendance

The Department considers a school to have returned FSA funds timely if the school—

1. deposits or transfers the funds into its federal funds account no later than 30 days after the date that the school becomes aware that a student will not or has not begun attendance;

2. initiates an electronic funds transfer (EFT) no later than 30 days after the date that the school becomes aware that a student will not or has not begun attendance; or

3. issues a check no later than 30 days after the date that the school becomes aware that a student will not or has not begun attendance. An institution does not satisfy this requirement if –

   a. the school’s records show that the check was issued more than 30 days after the date that the school becomes aware that the student will not or has not begun attendance; or

   b. the date on the cancelled check shows that the bank used by the Department endorsed that check more than 45 days after the date that the school becomes aware that the student will not or has not begun attendance.
Pell Grants

A Pell Grant is determined by using the Pell Payment Schedule appropriate for the student’s enrollment status, as well as the correct EFC and Cost of Attendance. A correctly determined Pell Grant is never adjusted to take into account other forms of aid. Therefore, if a student’s aid package exceeds his or her need, you must attempt to eliminate the overaward by reducing other aid your school controls. A Pell Grant awarded to an ineligible student is an overaward as is a grant based on an enrollment status greater than that for which the student is enrolled.

Iraq and Afghanistan Service Grants

The following situations are considered Iraq and Afghanistan Service Grant overawards and must be corrected:

- an award made to an ineligible student;
- an award based on a Pell Grant Payment Schedule for an enrollment status greater than that for which the student is enrolled; and
- an award that by itself exceeds a student’s cost of attendance.

Iraq and Afghanistan Service Grants, like Pell Grants, are not adjusted to take into account other forms of aid. So, if a student’s aid package includes an Iraq and Afghanistan Service Grant and the aid package exceeds his or her need or cost of attendance, but the Iraq and Afghanistan Service Grant was determined correctly and by itself does not exceed the student’s need, you must reduce other aid in your effort to eliminate the overaward.

TEACH Grants

When a student has no need-based aid

If you discover a situation where a student is not receiving any need-based financial assistance and the TEACH Grant in combination and other non-need-based EFA exceeds the student’s cost of attendance, the TEACH Grant must be reduced.

When a student is receiving need-based aid

If a student’s EFC, plus the student’s TEACH Grant and estimated financial assistance exceeds a student’s cost of attendance, the school should first apply the TEACH Grant to replace the EFC. (Remember, any TEACH Grant above the EFC is considered financial assistance for the other FSA programs.) If the EFC, plus any remaining TEACH Grant, plus any other EFA still exceeds the student’s cost of attendance, the student is in an overaward status, and the school must resolve it.

Before reducing a student’s need-based aid, the school should re-evaluate the student’s cost of attendance to determine whether the student has increased costs that were not anticipated when the school initially awarded aid to the student. If the student’s costs have increased,
and if the total package does not exceed the revised COA, the school is not required to take further action. If a school determines that the student’s package still exceeds the student’s COA, the school must resolve the overpayment.

### TEACH Grant Overpayments - Examples

#### Example 1

**When a student is not receiving need-based aid**

*Rule: The Teach Grant, in combination with other non-need-based EFA, may not exceed COA, and any EFC is ignored.*

<table>
<thead>
<tr>
<th>COA</th>
<th>$9,000.00</th>
<th>TEACH Grant</th>
<th>$4,000.00</th>
</tr>
</thead>
<tbody>
<tr>
<td>EFC (ignore)</td>
<td>1,000.00</td>
<td>Other non-need-based EFA</td>
<td>6,000.00</td>
</tr>
<tr>
<td>Total EFA</td>
<td></td>
<td></td>
<td>10,000.00</td>
</tr>
</tbody>
</table>

A student receives a $6,000 non-need-based scholarship after beginning class and after his TEACH Grant has been posted to his account. The student is not receiving any need-based EFA, and therefore the EFC is ignored. The TEACH Grant plus the other non-need-based EFA exceeds the COA by $1,000 ($10,000 – $9,000). The $1,000 is a TEACH Grant overpayment the school must resolve.

#### Example 2

**When a student is receiving need-based aid**

*Rule: The student’s EFC plus the Teach Grant in combination with any other EFA may not exceed COA. However, the TEACH Grant may be used to replace the EFC. If a school elects this option, the amount by which the TEACH Grant exceeds the EFC is considered EFA for FSA purposes.*

<table>
<thead>
<tr>
<th>COA</th>
<th>$10,000.00</th>
<th>TEACH Grant</th>
<th>$4,000.00</th>
</tr>
</thead>
<tbody>
<tr>
<td>EFC (must be considered)</td>
<td>1,000.00</td>
<td>Need-based EFA</td>
<td>7,000.00</td>
</tr>
<tr>
<td>Need</td>
<td>$9,000.00</td>
<td>Total EFA</td>
<td>11,000.00</td>
</tr>
</tbody>
</table>

A student receives a $6,000 need-based scholarship after beginning class and after his TEACH Grant has been posted to his account. The student is receiving need-based EFA. Therefore, the EFC must be considered. The total of the EFC ($1,000), the TEACH Grant ($4,000), and other EFA ($7,000), exceeds the COA by $2,000 ($12,000 – $10,000). The $2,000 is an overpayment the school must resolve.

If the school elects to use $1,000 of the TEACH Grant to *replace* the EFC, the overpayment that must be resolved by the school will be reduced to $1,000 (from $2,000).
Campus-Based programs

If a school learns that a student received financial assistance that was not included in calculating the student’s eligibility for aid from the Campus-Based programs and that assistance resulted in the student’s total financial assistance exceeding his or her financial need by more than $300, the school must take steps to resolve the overpayment.

Before reducing the student’s Campus-Based aid, the school should re-evaluate the student’s need to determine whether he or she has increased need that was not anticipated when the school initially awarded aid to the student. If the student’s need has increased and if the total financial assistance does not exceed the revised need by more than $300, the school is not required to take further action.

If the school recalculates the student’s need and determines that the student’s need has not increased, or that his or her need has increased but that the total financial assistance still exceeds his or her need by more than $300, the amount that exceeds the student’s need by more than $300 is an overpayment. The school must eliminate the amount of the overpayment that exceeds the $300 threshold.

FWS Program

Because a student can’t be required to repay wages earned, you can only adjust FWS by reducing the hours a student can work in the future and thus the student’s future earning. You can continue to employ the student, but the student can’t be paid from FWS funds. If you’ve already adjusted all other federal aid and institutional aid, and there’s still an overaward, you must reimburse the FWS program from your school’s funds. You cannot require the student to repay wages earned.

FSEOG Overpayments

For purposes of FSEOG overpayments, when a school awards FSEOG using the individual recipient or aggregate matching share methods, the FSEOG overpayment amount includes only the federal share. When a school uses the fund-specific method of matching, there is no distinction between federal and other funds. As a result, 100% of the funds disbursed are considered part of the overpayment.
Stafford Loans

If you discover that a student has been overawarded, and if your school has already received and disbursed Stafford or PLUS loan funds, you have a number of options:

- If the package includes an unsubsidized Stafford, a PLUS Loan or a nonfederal loan and the aid package doesn’t already apply these loans to finance the EFC, and the school so chooses, the aid package can be adjusted so that all or some part of these loans replaces the EFC, thus reducing or eliminating the overaward.

- The second or subsequent disbursement of a Stafford Loan can be canceled or reduced.

- If the aforementioned adjustments have been made and an overaward still exists for a Direct Loan borrower, you must withhold and promptly return to ED any funds that have not yet been disbursed to the borrower.

If the student is determined to be ineligible for the entire loan disbursement and the overaward cannot be reduced or eliminated, you must return all of the loan proceeds. Note that Direct Loan overawards must be repaid before adjusting or canceling Campus-Based funds.

- If a student becomes ineligible for only a part of a Direct Loan, you can reduce the loan to eliminate the amount for which the student is ineligible.

If the overaward situation occurs after Direct Loan funds have been fully disbursed, you do not need to adjust it. However, you might have to adjust the aid package to prevent an overaward of Campus-Based funds.

Although a school isn’t required to return Stafford Loan funds that were disbursed to the borrower (either directly or by applying them to the student account) before the overaward situation occurred, the law doesn’t prevent your school from returning funds that were applied to the student account if you choose to do so. A borrower who receives a direct payment of loan funds is not required to repay an overawarded amount, unless the overaward was caused by his or her misreporting or withholding information.
A resolved overaward may become an overpayment

If a school has resolved an overpayment by reducing scheduled future disbursements for a second or subsequent payment period and the student ceases attendance before the end of the current payment period, that portion of the student’s award that was an overpayment must be repaid outside of the requirements of 34 CFR 668.22.

If the school is responsible for repaying the overpayment, the school must repay the overpayment before completing any required Return calculation as described in chapter 2 of this volume.

If the student is responsible for repaying the overpayment, and the student withdrew after the 60 percent point in the payment period or period of attendance, as applicable, the school should try to collect the overpayment from the student, and if it is unable to do so, should refer the student to ED’s Debt Resolution Services.

If the student is responsible for repaying the overpayment, and the student withdrew before the 60 percent point in the payment period or period of attendance, as applicable, the school should not take any action until it has completed the required Return calculation.

However, when performing the Return calculation, the school should not include the amount of the overpayment for which the student is responsible as Aid that was or could have been disbursed (See chapter 2.). Then, when the school has completed the Return calculation, it should document the amount of the overpayment and, as applicable, reduce any post-withdrawal disbursement or increase any amount the student must return by the amount of the overpayment owed by the student.
TREATMENT OF OVERPAYMENTS

Overpayments for which the school is responsible

Please also see the discussion later in this chapter under “Overpayments for which the student is responsible.”

Your school is liable for any amount of a Pell Grant, Iraq and Afghanistan Service Grant, TEACH Grant, Perkins Loan or FSEOG overpayment (including amounts under $25) that occurred because your school failed to follow the requirements in 34 CFR parts 668, 673, 674, 676, 690 or 691 as applicable. If your school makes a Perkins Loan or FSEOG overpayment in any amount for which it is liable, you must immediately restore (to your Perkins loan fund or FSEOG account, as applicable) an amount equal to the overpayment plus any administrative cost allowance claimed on the overpayment. When returning Pell Grant, Iraq and Afghanistan Service Grant and TEACH Grant overpayments, you must make a downward adjustment to the student’s award in COD, and either return the funds through G5, or disburse them to another eligible student. For a description of overpayments for which students are responsible, see the discussion later in this chapter.

A school may attempt to collect funds it has returned from a student. However, this is not an FSA debt, because an overpayment for which a school is responsible can never become an FSA debt for a student. Therefore an overpayment for which a school is responsible can never result in a student’s losing FSA eligibility and should never be reported to NSLDS or referred to ED for collection.

If an overpayment is the result of an interim disbursement (see the Application and Verification Guide), and the student does not repay it, the school must repay the overpayment from the school’s funds. The school must repay the overpayment within 60 days following the student’s last day of attendance or by the last day of the award year, whichever comes first. Because the interim disbursement was made at the school’s discretion, the school is ultimately responsible for repaying it. Moreover, because the student does not owe an FSA overpayment, the student should not be reported to NSLDS or referred to ED for collection.

Examples of overpayments due to school error

Allen received a Pell at Sarven Technical Institute. Although Sarven had the correct EFC on Allen’s ISIR, the school looked at the wrong chart and used a different EFC in the Pell calculation. So, Allen received too much money. Because the overpayment is due to school error, Sarven is liable for the overpayment.

Owen received an outside scholarship to attend Guerrero University. The bursar’s office was notified of the scholarship so that it would apply the payments properly, but didn’t notify the financial aid office. Owen received a Perkins Loan, but the financial aid office didn’t take the scholarship into account when awarding the loan because it didn’t know about the scholarship. When the financial aid office later found out about the scholarship, it discovered that Owen received too much aid and had a $600 Perkins overpayment. Because the school had information about the scholarship (even though the financial aid office didn’t), the overpayment is due to a school error.
A student may not receive Federal Pell Grant or Iraq and Afghanistan Service Grant funds for concurrent enrollment at more than one institution (nor both at the same institution). The COD system will identify students who have been reported as Pell Grant recipients by multiple institutions as potential overawards (POP files). The schools that awarded the student Pell Grant funds for the period must coordinate their response so that the student is receiving Pell Grant funds for attendance at only one school during the period. If after 30 days the schools have not resolved the overpayment, the COD system will reduce both schools’ authorization for this student to zero, and the issue will have to be addressed with ED’s involvement.

Note: COD will not automatically notify schools if a student is receiving an Iraq and Afghanistan Service Grant at multiple institutions. Rather, the Department will monitor Iraq and Afghanistan Service Grants, and inform schools of students who are over or incorrectly awarded.

Overpayments for which the student is responsible

In some instances, a student rather than the school is responsible for repaying the overpayment.

If a student has received more Pell or Iraq and Afghanistan Service Grant funds than the student was eligible to receive because the student’s eligibility for a Pell or Iraq and Afghanistan Service Grant decreased, you can try to eliminate the Pell or Iraq and Afghanistan Service Grant overpayment by adjusting later disbursements for the award year. You may not reduce a student’s correctly awarded and disbursed Pell or Iraq and Afghanistan Service Grant to address overpayments in other programs.

For TEACH Grant, FSEOG and Perkins overpayments, you can adjust subsequent disbursements.

If that is not possible, you must promptly attempt to recover the overpayment by notifying the student (by paper or electronically) and requesting full payment. The notice must state that if the student fails to repay the overpayment or to make satisfactory arrangements for repayment, he or she will be ineligible for FSA funds until the overpayment is resolved.

If the student claims that your school made a mistake in determining the overpayment, you must consider any information he or she provides and judge whether the objection is warranted.

Examples of overpayments due to student error

When Chavo applied, he didn’t have his tax returns, so he estimated his income and said that he wasn’t going to file a tax return. After he received his aid from Sarven Technical Institute in June, he told the FAA that he’d underestimated his income, and had to file a tax return. When Chavo submitted the corrections, his EFC increased, and Sarven determined that he’d received a Pell overpayment. Sarven canceled his second Pell disbursement, but he still owed $100. Sarven allowed Chavo to make an agreement to repay $25 a month for four months so that he’d still be eligible for other aid for the rest of the year.

Meurig has to report financial information about his father on the application although he’s living with his stepfather. On the 2008-2009 application, he didn’t report any assets for his father, and Brust Conservatory used the information from that application to award FSA aid. However, his 2009-2010 application is selected for verification, and during the verification process Brust discovers that Meurig’s father has a business that should have been reported as an asset. Brust asks for tax information for the previous year and determines that Meurig should also have reported the business as an asset on the 2008-2009 application. Meurig’s EFC increases when he makes the correction, and he received an overpayment for the 2008-2009 award year. Because he’s already received all his aid for the year, he has to either pay the overpayment or negotiate a satisfactory repayment agreement.
If, after notification to the student and consideration of possible objections, an overpayment remains, and the student has not repaid or made satisfactory arrangements to repay the overpayment, you must take further action.

For TEACH Grant, FSEOG, Iraq and Afghanistan Service Grant and Pell Grant funds, you must refer the overpayment to the Department with the required information (see Referring overpayment cases to Borrower Service’s later in this chapter), and you must report to NSLDS the unresolved overpayment. After that, you are not required to make any further attempt to collect the TEACH Grant, FSEOG, Iraq and Afghanistan Service Grant or Pell Grant overpayment.

For Perkins Loans, you are not required to refer overpayments to Debt Resolution Services, but you must report them to NSLDS, because the student is required to repay the overpayment to your school’s revolving loan fund.

A student is not liable for an overpayment when the original amount of the overpayment is less than $25. A student is liable for an overpayment of less than $25 when that $25 is a remaining balance. That is, when the overpayment amount was originally $25 or more, but is now less than $25 because the student has made payments.

A student is also liable for overpayments of less than $25 when that amount is the result of applying the $300 Campus-Based overaward threshold/tolerance. For example, if a school discovers that after a student’s Campus-Based aid was disbursed, the student received additional aid that resulted in the aid the student received exceeding his or her need by $314, the $314 is an overaward. When the school applies the $300 overaward tolerance, the student only has a Campus-Based overpayment of $14. The student is responsible for repaying the $14 because the initial amount of the overpayment (before the $300 tolerance was applied) was $314 (which is in excess of the less than $25 de minimus amount).

Your school may decide to pay a student’s obligation by returning to the appropriate FSA program account the amount overpaid to the student. Once your school makes the appropriate return, the student will no longer owe an FSA debt, but rather a debt to your school that you can collect according to your procedures. The student’s eligibility for FSA funds is restored as long as the student meets other FSA eligibility criteria.

A student who receives an overpayment of an FSA program loan, or an FSA program grant, may reestablish eligibility for FSA program assistance by repaying the excess amount, or by making arrangements satisfactory to the holder of the overpayment debt to pay the excess amount.
Exceptions to student liability

There are some exceptions to holding a student liable for a Pell Grant, Iraq and Afghanistan Service Grant, TEACH Grant, Perkins Loan or FSEOG overpayment.

Generally a student is liable for any Pell Grant, Iraq and Afghanistan Service Grant, FSEOG, or Perkins overpayment he or she receives unless the school is liable for it. However, as noted previously, the student is not liable for the overpayment if it is less than $25 and is not a remaining balance or, in the case of a Perkins Loan or FSEOG, is the result of the application of the $300 overaward threshold.

Such overpayments do not affect the student’s FSA eligibility. Therefore, your school need not –

- attempt recovery of such overpayments,
- report such overpayments to NSLDS, or
- refer such overpayments to the Department for collection.

Though HERA increased the de minimus threshold for overpayments due to withdrawal, the de minimus amount for all other overpayments remains less than $25.
Overpayments created by inadvertent overborrowing

Another kind of overpayment occurs when a student inadvertently has received FSA loan funds in excess of annual or aggregate loan limits and is no longer eligible for FSA funds. A student who is not in default on an FSA program loan, but who has inadvertently obtained FSA program loan funds in an amount that exceeds the annual or aggregate loan limits is ineligible for any further FSA program assistance until the student (1) repays in full the excess loan amount; or (2) makes arrangements, satisfactory to the holder of the loan, to repay that excess loan amount.

Satisfactory repayment arrangements are determined by the Department, but may involve having the borrower sign an agreement acknowledging the debt and affirming the borrower’s intention to repay the excess amount as part of the normal repayment process.

If a student has inadvertently exceeded the subsidized annual or aggregate loan limit, it may be possible in some cases to eliminate the excess subsidized amount by changing it to an unsubsidized loan.

If a student has consolidated the loan(s) that exceeded the annual or aggregate loan limit, he or she is considered to have made satisfactory arrangements to repay the debt, and no additional action on the part of the student is required. This is true regardless of the type of loan (FFEL or Direct) consolidated and no matter the type of consolidated loan the student obtained. Note that a student who lost eligibility because he or she exceeded the undergraduate aggregate maximum loan limit does not automatically regain eligibility if he or she advances to the graduate level. Rather, the student must resolve the previous overpayment in order to regain eligibility for FSA funds.

Once you have documented that the inadvertent overborrowing has been resolved (through repayment in full, making satisfactory arrangements to repay the debt, replacement of an excess subsidized loan with an unsubsidized loan, or consolidation of the excess loan amount), you may award additional FSA funds to the student. Keep in mind, however, that the student may have no remaining loan eligibility, or may be eligible only for unsubsidized loans.

Because you’re responsible for knowing about the student’s prior FSA loans before disbursing additional loan funds to the student, inadvertent overborrowing shouldn’t occur often. Excess borrowing might occur if a school is unaware of loans a student received at another school. This might happen if the student received the loans under a different name or SSN. (See Volume 1, chapter 3 for a description of how the NSLDS post-screening and transfer monitoring processes can help prevent these kinds of overpayments.)
RETURNING FUNDS

Returning funds by depositing them in a federal funds account

For funds obtained from the Department, a school meets the Return requirement if it deposits or transfers the funds into its federal account no later than 45 days after the school determined that a student withdrew or received an overpayment the school was responsible for returning.

If a school has not drawn down federal funds or has made disbursements that exceed the amount the school has drawn, the school does not need to deposit funds in its federal account. Of course, the school’s accounting records must show that school funds were used to credit the student’s account.

Return of Title IV funds when a school does not maintain a separate federal bank account

The Department considers a school that maintains FSA funds and general operating funds in the same bank account (commingles) to satisfy the requirement that it return unearned funds on a timely basis if:

- the school maintains subsidiary ledgers for each type of funds commingled in that account that clearly show how and when those funds were used and reconciled to its general ledger,
- the subsidiary ledger for each FSA program provides a detailed audit trail on a student-by-student basis that reconciles to the amount of FSA program funds received and disbursed by the school, and
- the school updates the relevant subsidiary ledger accounts in its general ledger no later than 30 days after it determines that the student withdrew.

More specifically, the return of an unearned funds transaction should be recorded as a debit to an FSA program fund subsidiary ledger account and a credit to the school’s operating fund subsidiary ledger account. The date of the return is the date this transaction is posted to the school’s general ledger.
Chapter 1 — Overawards and Overpayments

When funds are considered to have been returned

The Department considers a school to have returned FSA funds when the school has—

- deposited or transferred the funds into its federal funds account;
- initiated an electronic funds transfer (EFT) to the Department; or
- issued a check. A school has not satisfied this requirement until the bank used by the Department has endorsed and cancelled that check (processed them for deposit).

We strongly recommended returning all FSA funds (including DL funds) electronically, because this method is faster and more secure than manual/paper processing, and less likely to result in errors.

Note that refunds of cash greater than $100,000 must be returned electronically via G5. For additional information on returning funds via G5, refer to the G5 Website or call the G5 hotline at 888/336-8930 for assistance.

Returning funds to the Department

Using the electronic refund function in G5 is the preferred method whenever a school must return FSA Grant funds because this method is faster and more secure than manual/paper processing, and less likely to result in errors. Note that refunds of cash greater than $100,000 must be returned electronically via G5.

For additional information on returning funds via G5, refer to the G5 Website or call the G5 hotline at 888/336-8930 for assistance (M–F 8 a.m. to 6 p.m. ET).

Only in exceptional circumstances (and never for a current FSA Grant) should a school return funds from a Return calculation by sending a check instead of using the electronic refund function in G5.

If circumstances require that you return FSA funds by check, you must –
1. make the check payable to the U.S. Department of Education;
2. use a separate check for each award year;
3. note the school’s D-U-N-S number and the appropriate Program Award Number (Pell Grant Award Number) on the check; and
4. include a memorandum that specifies the name and Social Security number for each student for whom funds are being returned and how much is being returned for each student.

The G5 lockbox address for FSA (except for Direct Loan) funds is:

U.S. Department of Education
P.O. Box 979053
St. Louis, Missouri 63197-9000

(See the discussion under Returning Direct Loan Funds later in this chapter for additional information.)
Returning funds after 240 days

In all cases, a school will have to request permission to make a change to the FISAP after December 15 following the close of the award year.

If FSA Grant and TEACH Grant funds must be returned after 240 days, a school must:

- enter the student’s revised Pell Grant award in COD; and
- return the funds to the Department through G5, if applicable.

Note that for Pell funds from a prior award year, a school may not use the funds for an eligible student in the current year.

If FSEOG funds must be returned after 240 days, a school must:

- enter the student’s revised FSEOG award both in the individual student’s account and the school’s FSEOG ledger;
- either return the funds to the Department through G5, OR carry them forward to the next award year; and
- make the appropriate change to the FISAP (See sidebar).

If Perkins Loan funds from a prior award year must be returned after 240 days, a school must:

- reimburse its Perkins Loan fund;
- report those funds as income in Part III, Section A of the FISAP (See sidebar); and
- reduce the student’s Perkins Loan balance and make an accounting entry to tie that reduction to the journal entry for the aforementioned reimbursement of its Perkins Loan fund.

The school should not make any changes to the student’s Perkins promissory note.

If a school cannot locate a student to whom it owes FWS funds the student has earned, the federal portion must be returned to the school’s FWS account. If the student comes back or the school later locates the student, the school can recover the FWS funds as long as the account for that year is still open. If the account is closed, the school must pay the student (under the wage and hour laws) using its own funds.
Returning funds on FFEL loans purchased/serviced by the Department

From August, 2008, through September, 2010, the Department purchased Federal Family Education Loan (FFEL) Program loans from FFEL loan holders. The Department has contracted with five organizations to provide loan services on these purchased FFEL loans.

If a school is required to return any portion of a FFEL Program loan that has been purchased by the Department, the money would be returned to the appropriate federal servicer using the specific electronic process preferred by that loan’s servicer.

To identify the current servicer of an FSA loan, access NSLDS and select “Aid.” Then identify the student and select “Loan History.” Under Loan History, the current loan will be listed at the top. Use the field “Servicer” to identify the organization to which you will be returning funds. Additional contact information for the loan servicers is available on IFAP under the “Help” menu (“Contact Information” / “Service Centers for Schools,” / “Loan Servicing Centers for Schools.”

Information required when returning loan funds to a servicer by check

If you cannot use the electronic process preferred by the loan’s servicer and must return the funds with a paper check, together with your check for the funds you are returning, you must include, on school letterhead, the following information:

1. The borrower’s name,
2. The borrower’s social security number,
3. The loan’s unique CommonLine ID,
4. The type of loan (subsidized, unsubsidized, PLUS, etc.),
5. The period for which the loan was certified,
6. The scheduled & actual date of the disbursement,
7. The amount of the disbursement,
8. The amount being returned,
9. The reason the funds are being returned (cancellation, overpayment, withdrawal or failed to begin class),
10. The school OPEID and
11. The name and phone number of the school official returning the funds.
12. You must also include a completed Direct Loan Refund of Cash form (available at the end of this chapter).
Recording student payments and reductions in the Direct Loan Program

If through its Return calculation a school determines that a student has received an overpayment of Direct Loan funds, the school should reduce the student’s award/disbursements by making a downward adjustment in COD.

Schools can report current year adjustments for awards/disbursements either through their loan processing software or by using the COD website at:

https://cod.ed.gov

Returning Direct Loan funds

If a school is required to return DL funds to comply with a regulatory or statutory requirement – even if more than 120 days have elapsed since the disbursement date – the school must return DL funds through G5. The school returns DL funds to the Department following the same procedures the school follows when making other G5 refunds/returns.

Recording student payments and reductions in the Pell Grant, Iraq and Afghanistan Service Grant, and TEACH Grant programs

For reductions and payments to awards, schools should record reductions and payments by entering a replacement value in the COD system. The replacement value will be the original value less only the amount the school has returned (the sum of: (a) that amount the school is responsible for returning + (b) any portion of the grant overpayment that otherwise would be the responsibility of the student, but which the school has chosen to return for the student + (c) any portion of the grant overpayment the school has collected from the student.). Do not reduce the award/disbursement by the amount the student must return (unless the student has made a payment to the school).

If a school receives a payment for a current-year overpayment that has not been referred to Debt Resolution Services, the school should NOT send the payment to Debt Resolution Services. Instead, after you have reduced the student’s disbursement in COD, return the unearned funds as follows:

• If your school has made repayment arrangements with a student and received a payment on a current-year overpayment, the school should deposit the funds in its Pell, Iraq and Afghanistan Service Grant, or TEACH Grant account and make the appropriate entry in the COD system.

Returning DL Funds by Check
(These instructions do not apply to returning funds from an audit or program review.)

Only in exceptional circumstances should Direct Loan Funds be returned by check. If circumstances do require that you return Direct Loan funds by check, you must:

1. make the check payable to the U.S. Department of Education;
2. use a separate check for each award year;
3. note the school’s D-U-N-S number, Direct Loan school code and award year on each check; and
4. provide the information included on the Direct Loans Return of Cash (found at the end of this chapter with each check);
5. include a memorandum that specifies the name and social security number for each student for whom funds are being returned and how much is being returned for each student.

The address for returning Direct Loan funds by check is:

U.S. Department of Education
Attention Direct Loans Refunds of Cash
P.O. Box 9001
Niagara Falls, New York 14302

The address for returning Direct Loan funds by check overnight requiring signature is:

U.S. Department of Education
Attention Direct Loans Refunds of Cash
2429 Military Road, Suite 200
Niagara Falls, New York 14304

Phone number for tracking the status of your return:

716-284-2225

For questions about returning Direct Loan funds via a paper check, contact the COD School Relations Center at 800/848-0978.
• If a student makes a payment on any previous year’s Pell, Iraq and Afghanistan Service Grant, ACG, National SMART or TEACH Grant overpayment, a school makes the aforementioned COD system entry using the same software the school used to create the award. The school then returns the funds to the Department using the Electronic Refund function in G5 following the same procedures the school follows when making other G5 refunds/returns.

If through its Return calculation a school determines that a student has received an overpayment of FSEOG funds, the school must adjust its institutional ledgers, financial aid records, and the student’s account by subtracting the amount the school must return (the FISAP filed for the year will reflect the net award to the student). If a student makes a payment on an FSEOG overpayment made in the current award year, the school should deposit the payment in its federal funds account, and award the funds to other needy students.

If the school collects an overpayment of an FSEOG for an award made in a prior award year, the funds recovered should be returned to the Department using the Electronic Refund function in G5. Payments should be applied to the award year in which the recovered funds were awarded.

REPORTING OVERPAYMENTS TO NSLDS

You must report overpayments or changes to previously submitted information to NSLDS within 30 days of the date you learn of the overpayment or change.

If a grant overpayment is the result of the student’s withdrawal and a return to Title IV calculation, you must contact the student within 30 days of determining that the student withdrew (see chapter 2).

You only report unresolved overpayments if they’re due to student error; don’t report overpayments that are a result of school error. Instead, as discussed previously, you must use school funds to repay the overpayment.

You must use the NSLDS Professional Access Website to report overpayments. To do so, your school must have Internet access, and your Primary Destination Point Administrator (PDPA) must have signed up at least one user for Overpayment updates for NSLDS online services at https://fsawebenroll.ed.gov.

Once the overpayment is reported to NSLDS, the student’s future output documents will show that she has an overpayment (see “NSLDS Match”). The Financial Aid History section of the SAR and ISIR will have information on the overpayment, including whether the student has made satisfactory repayment arrangements.
REFERRING OVERPAYMENTS

Referring overpayments to Debt Resolution Services

If you have tried but not succeeded in collecting a Pell Grant, Iraq and Afghanistan Service Grant, ACG, National SMART Grant, TEACH Grant or FSEOG overpayment for which the student is liable, you must refer the overpayment to FSA’s Debt Resolution Services. To be referred, the initial amount of the overpayment must be at least $25.

Note: For an FSEOG overpayment, when a school uses the individual recipient or aggregate matching methods, the overpayment includes only the federal share. When the school uses the fund-specific method of matching, the overpayment includes both the federal and nonfederal shares. See Volume 6 – Campus-Based Programs for more information.

You would still refer a student debt of less than $25 to Debt Resolution Services when the amount due is a remaining balance or when the amount is the result of the application of the Campus-Based overaward threshold/tolerance. You must make this referral in addition to reporting the overpayment to NSLDS. If your school elects not to refer an overpayment to Debt Resolution Services, then your school is liable for the overpayment. In that case, the school must repay the overpayment from its own funds.

To refer student overpayments for collection, schools should use a format similar to the one found at the end of this chapter and send the form to the address at the bottom of that page. Each referral must be typed or printed and must be submitted on school letterhead.

In order to avoid creating a double record for a single overpayment, the school must populate its Overpayment Referral Form: Dates of Disbursement, with the exact same dates the school used when it created the NSLDS record. In addition, a school must ensure that it enters the year the disbursement was made in the award year field.

In addition, when you refer the overpayment, you should update the overpayment information previously reported to NSLDS by changing the “Source” field from SCH-SCHOOL to TRF-TRANSFER. Once Debt Resolution Services has accepted a referred student overpayment, Debt Resolution Services will transmit the information to NSLDS and “ED Region” will replace “School” as the appropriate contact source for information about the overpayment.

On its Overpayment Referral, schools must provide their school’s Pell Identification Number. Schools should NOT enter their Routing Identifier.
School responsibility after referral

Once you have referred the account to Debt Resolution Services, you have no further responsibility in the collection of the debt unless the student contacts your school to make a payment or Debt Resolution Services sends the referral back because it is incomplete. If Debt Resolution Services sends the referral back to you because it is incomplete, you’ll need to supply additional information and resend the referral. If the student tells you that he or she wishes to make a payment, you may accept it on behalf of the Department and forward it to Debt Resolution Services.

You must return to ED any funds accepted from a student who owes an overpayment. Before forwarding the check to Debt Resolution Services, make sure the student’s name and SSN are on the check. If the check covers more than one student, list each student’s name and SSN and each payment amount. Send the check to:

National Payment Center
P.O. Box 105028
Atlanta, Georgia 30348-5028

If you want a payment to be applied to a specific overpayment (by program and award year) you must include a memorandum on school letterhead. The memorandum must include the award year and program award number of the award you want credited, and your DUNS number.

If the student whose overpayment case has been accepted by the Department wishes to establish a repayment schedule, the student should contact Debt Resolution Services by calling:

1-800-621-3115

After October 1, 2011, a student will be able to contact us by going to: www.myeddebt.com; selecting the Borrower tab, Contact Us, and Secure email.
Accepting payments on referred overpayments

A school may continue to accept payment on an FSA grant overpayment after the overpayment has been referred to the Department. A school that accepts a check made out to the Department on an overpayment that has been referred to Borrower Service’s must –

1. note the student’s name and SSN on the check;
2. indicate that the payment is for an overpayment of an FSA grant; and
3. forward the payment to Debt Resolution Services at:

   National Payment Center  
P.O. Box 105028  
Atlanta, Georgia 30348-5028

If a school accepts a cash payment from one or more students who owe overpayments and who have been referred to Debt Resolution Services, the school should write its own check to the Department and attach a letter indicating that the check is for an FSA grant overpayment. The school must include in its letter a roster that includes, for each student who made a payment, the student’s name, social security number, and amount paid.

If a school receives a payment for an overpayment previously referred to Debt Resolution Services and if –

- the overpayment was made in the current award year, and
- the payment will retire the student’s debt in full,

the institution must:

1. deposit the payment in its appropriate institutionally maintained federal funds account;
2. for Federal Pell Grant overpayments, make the appropriate entry in the student’s record on the COD system (either on COD or via common record) and
3. send a letter or fax to Debt Resolution Services identifying the student and indicating that the student’s overpayment has been completely repaid. This will allow the Department to properly update its records in both the Debt Resolution Services system and NSLDS.  
The fax number for this purpose and school use only is –

   (903) 454-5398

Note: This process cannot be performed via email.

Payment in full

Anytime a school receives a payment (including the application of an FSA credit balance) that will repay an overpayment in full, the school must also update its original submission to NSLDS by changing the entry on the “Overpayment Update Screen” for the Indicator Field to “Repaid.”
In the fax or letter, a school must include the:

1. award year of the overpayment (current award year only);
2. student’s social security number;
3. student’s last name, first name and middle initial;
4. student’s date of birth;
5. type of overpayment — Federal Pell Grant, Iraq and Afghanistan Service Grant, FSEOG, ACG, National SMART Grant or TEACH Grant; and
6. the disbursement date the institution used to create the overpayment record in NSLDS.

For information on handling student payments after you have referred an overpayment to Debt Resolution Services, see the discussion under *Accepting payments on referred overpayments* later in this chapter.

**Responsibilities of Debt Resolution Services**

Upon receipt of an overpayment referral, the Department will determine if enough information has been provided to start collection activity; any referral lacking information will be returned to your school to be completed.

Debt Resolution Services will then try via letters and telephone to establish a repayment schedule or to secure payment in full. Debt Resolution Services will also update the NSLDS information that you’ve already reported to show that the Department now holds the overpayment. Any future SARs or ISIRs for the student will show that he or she owes an overpayment and will direct the student to contact Debt Resolution Services instead of the school. Finally, Debt Resolution Services also communicates Pell Grant overpayment referrals to the COD system. COD will then alert a school of a student’s Pell overpayment status if the student submits a FAFSA in the future. A student’s and Iraq and Afghanistan Service overpayment status will be tracked and reported manually.
Direct Loan Refunds of Cash

1. Enter the information below. Missing information may prevent your check (or checks) from being processed correctly.

   School Name: _______________________________ Direct Loan Code or OPE ID: __________

   Name/Title: __________________________________________ Telephone #: _____________

   E-mail Address: ______________________________ Servicer (if applicable): ______________

   Check Date: ________________ Check #: ________________ Amount: ___________________

2. Check (✔) the award year for which you are returning Direct Loan Refunds of Cash. If you are returning funds for more than one award year, you must enclose a separate transmittal sheet and a separate check for each award year.

   2011/2012
   2010/2011
   2009/2010
   2008/2009
   OTHER (specify year)

3. Sign and date below.

   Contact’s Signature: ___________________________________ Date: _____________

4. Mail completed transmittal sheet(s) and Direct Loan Refunds of Cash check(s) to:

Withdrawals and the Return of Title IV Funds

This chapter will discuss the general requirements for the treatment of Federal Student Aid funds when a student withdraws and will then discuss the principles applicable to the worksheets.

WITHDRAWALS

This chapter explains how Federal Student Aid (Title IV) funds are handled when a recipient of those funds ceases to be enrolled prior to the end of a payment period or period of enrollment. These requirements do not apply to a student who does not actually cease attendance at the school. For example, when a student reduces his or her course load from 12 credits to 9 credits, the reduction represents a change in enrollment status, not a withdrawal. Therefore, no Return calculation is required.

The Return of Title IV Funds (Return) regulations do not dictate an institutional refund policy. Instead, a school is required to determine the earned and unearned portions of Title IV aid as of the date the student ceased attendance based on the amount of time the student spent in attendance or, in the case of a clock-hour program, was scheduled to be in attendance. Up through the 60% point in each payment period or period of enrollment, a prorata schedule is used to determine the amount of Title IV funds the student has earned at the time of withdrawal. After the 60% point in the payment period or period of enrollment, a student has earned 100% of the Title IV funds he or she was scheduled to receive during the period.

For a student who withdraws after the 60% point-in-time, there are no unearned funds. However, a school must still determine whether the student is eligible for a Post-withdrawal disbursement.

The Return regulations do not prohibit a school from developing its own refund policy. However, the school must comply with refund policies required by a state or other outside agencies. Although a school, state or agency refund policy will determine the charges a student will owe after withdrawing, those policies will not affect the amount of Title IV Aid the student has earned under the Return calculation.

New Regulations

Since this volume was last published, the Department has made substantial changes to the regulations that apply to the Return of Title IV Aid. In October 2010, The Department issued regulations that, among other things, modified the definition of “schools required to take attendance” and changed the treatment of Title IV funds for students who withdraw from modules.

In addition, on July 20, 2011, the Department issued a Dear Colleague Letter (DCL GEN-11-14) that provides guidance on the changes to the regulations.

Effective date of new regulations

The changes to the Return of Title IV Funds regulations (34 CFR 668.22) apply to students who withdraw from payment periods or periods of enrollment that begin on or after July 1, 2011. They do not apply to students who withdraw from a 2011 crossover payment period even if the student receives Title IV funds from the 2011-2012 award year for that crossover payment period.

Return of Funds

HEA, Section 484B
34 CFR 668.22
DCL-GEN-11-14

The FSA Assessment module that can assist you in understanding and assessing your compliance with the provisions of this chapter is “Return of Title IV Funds,” at:

General requirements

Title IV funds are awarded to a student under the assumption that the student will attend school for the entire period for which the assistance is awarded. When a student withdraws, the student may no longer be eligible for the full amount of Title IV funds that the student was originally scheduled to receive.

If a recipient of Title IV grant or loan funds withdraws from a school after beginning attendance, the amount of Title IV grant or loan assistance earned by the student must be determined. If the amount disbursed to the student is greater than the amount the student earned, the unearned funds must be returned. If the amount disbursed to the student is less than the amount the student earned, and for which the student is otherwise eligible, he or she is eligible to receive a Post-withdrawal disbursement of the earned aid that was not received.

When a student withdraws before a school’s census date

A student begins earning Title IV funds on his or her first day of attendance. Therefore, even if a student withdraws before a school’s census date, the school must perform a Return calculation using the number of days the student attended, or the number of scheduled clock hours the student attended class as the numerator in STEP 2, Part H.

When a student is considered withdrawn

A student is considered to have withdrawn from a payment period or period of enrollment if –

- in the case of a program that is measured in credit hours, the student does not complete all the days in the payment period or period of enrollment that the student was scheduled to complete;
- in the case of a program that is measured in clock hours, the student does not complete all of the clock hours and weeks of instructional time in the payment period or period of enrollment that the student was scheduled to complete; or
- for a student in a nonterm or nonstandard-term program, the student is not scheduled to begin another course within a payment period or period of enrollment for more than 45 calendar days after the end of the module the student ceased attending, unless the student is on an approved leave of absence, as defined later in this chapter.

Please see Withdrawals from programs offered in modules later in this chapter for more information about withdrawals from modular programs.
**When a student who fails to begin attendance in all the courses he or she was scheduled to attend withdraws**

Anytime a student begins attendance in at least one course, but does not begin attendance in all the courses he or she was scheduled to attend, regardless of whether the student is a withdrawal, the school must check to see if it is necessary to recalculate the student’s eligibility for Pell Grant and Campus-Based funds based on a revised enrollment status and cost of education.

If the student is a withdrawal, this recalculation must be done before performing a Return of Title IV Funds calculation, and the school must use the recalculated amounts of aid in the Return calculation.

If a student who has withdrawn did not begin attendance in enough courses to establish a half-time enrollment status, the school may not make a first disbursement of a Direct Loan to the student after the student withdraws. However, the funds are included as aid that could have been disbursed in the Return calculation. For more information, please see the discussion under *Withdrawals from programs offered in modules* later in this chapter

**Worksheets and the Return of Title IV Funds Web product**

The Department has developed worksheets and software to assist schools in implementing the Return regulations (you can find blank worksheets at the end of this chapter). There is one worksheet for students who withdraw from credit-hour programs and one for students who withdraw from clock-hour programs. These worksheets are also in portable document file (PDF) format on the Department’s Information for Financial Aid Professionals website at:

http://ifap.ed.gov

The Department has developed a Return of Title IV Aid Web product. It is accessible via the main menu of the FAA Access at the CPS Online website:

http://www.faaaccess.ed.gov

The use of the Department’s worksheets and the Web Product is optional.
Consumer information

Section 485(a)(1)(F), 34 CFR 668.43

For more information see chart on “Institutional and Financial Assistance Information for Students” in “Volume 1 – Student Eligibility.”

Sample summary provided

A sample summary of the requirements of 34 CFR 668.22 is provided at the end of this chapter.

Changing the basis of the calculation

A school may change the basis for its Return calculations for new students as they begin classes. However, for continuing students, since the institution’s Return policy must be included in the published materials the school provides to students as part of the consumer information requirement, the school would have to change its catalog, its written policies and procedures and its enrollment agreements (if any), and allow sufficient time for those continuing students who would be governed by the new policy to receive and review the materials.

Consumer information

In the consumer information a school must make available upon request to prospective and enrolled students, the school must include a statement of –

- any refund policy with which the school must comply;
- the requirements for the treatment of Title IV funds when a student withdraws and
- the requirements and procedures for officially withdrawing from the school.

A school should provide sufficient information for a student or prospective student to be able to determine the procedures for withdrawing and the financial consequences of doing so. In addition, a student should be able to estimate how much Federal Student Aid he or she will retain, and how much he or she may have to return upon withdrawing. Because the Return provisions do not affect institutional refund policies, a school must provide a student with information on both the school’s refund policy and the federal Return requirements, and explain the interaction between the two. The information should include a discussion of how a school might adjust a student’s charges to take into account any Return of FSA funds the school might be required to make. Finally, a student or prospective student should be informed that if he or she withdraws, school charges that were previously paid by FSA funds might become a debit that the student will be responsible for paying.

As a part of the institution’s disclosure of the procedures for officially withdrawing, the school must identify the office or offices that it has designated to accept notification of official withdrawals.
GENERAL TITLE IV PRINCIPLES WITH SPECIAL APPLICABILITY IN THE RETURN OF TITLE IV AID

Definition of a Title IV recipient

The requirements for the treatment of Title IV funds when a student withdraws apply to any recipient of Title IV grant or loan funds who ceases all attendance. For purposes of these requirements, a recipient of grant or loan assistance is a student who has actually received Title IV funds or has met the conditions that entitled the student to a late disbursement. These conditions are listed in a chart on Late Disbursements in Volume 4 – Processing Aid and Managing Federal Student Aid Funds.

The return requirements apply only to the receipt of or qualification for aid that can be included in the calculation. For example, the requirements of 34 CFR 668.22 do not apply to Federal Work-Study funds. Therefore, the Return requirements do not apply to a student if the only Title IV program assistance that the student has received or could have received was FWS funds.

Please note that if the student never actually began attendance for the payment period or period of enrollment, 34 CFR 668.22 does not apply. Likewise, if a student began attendance, but was not and could not have been disbursed Title IV grant or loan funds prior to withdrawal, the student is not considered to have been a Title IV recipient and the requirements of 34 CFR 668.22 do not apply. In these cases, Title IV funds would be handled in accordance with other Title IV regulations (see margin).

Verification

The Return calculations impose no additional liability for interim disbursements made to students selected for verification. However, the Return requirements do place limits on interim disbursements that can be made to students selected for verification who have ceased attendance. A school may not make an interim disbursement to a student after the student has ceased attendance.

The Department establishes deadlines for the submission of required verification documents that apply to all Title IV programs.

For Campus-Based program funds and subsidized Direct Loan program funds, an institution may establish an institutional verification deadline that may be earlier than the date established by ED. The institution must include its verification deadlines in the consumer materials it provides to students.

Title IV Recipient

In determining whether the requirements of 34 CFR 668.22 apply, a school must first determine whether a student was eligible to receive any Title IV funds.

If a student withdraws before Title IV funds are disbursed

Even if a student paid all institutional charges and ceased enrollment prior to Title IV funds being disbursed, if Title IV funds could have been disbursed, the institution must determine the Title IV funds earned by the student and follow the procedures for making a Post-withdrawal disbursement.

Returning funds for students who do not register or fail to begin attendance

34 CFR 668.167
34 CFR 674.16(f)(1)&(2)
34 CFR 676.16(d)(1)&(2)
34 CFR 685.303(b)(3).
34 CFR 690.78(b)(1)&(2)

No earlier deadline for Pell

For the Pell and IAS Grant programs, a school may not establish an earlier deadline than that established by the Department in annual notice. Therefore, if a Pell-eligible student submits the documents required for verification no later than 120 days after the student’s last day of attendance or the deadline established by the Department, whichever is earlier a school must make any applicable Post-withdrawal Disbursement of the student’s Pell Grant.
The following rules apply when a school is completing a Return calculation for a student subject to verification.

- A school must always return any unearned Title IV funds it is responsible for returning within 45 days of the date the school determined the student withdrew, and offer any Post-withdrawal disbursement of loan funds within 30 days of that date.

- A school must disburse any Title IV grant funds a student is due as part of a Post-withdrawal disbursement within 45 days of the date the school determined the student withdrew, and disburse any loan funds a student accepts within 180 days of that date.

- Unless a student subject to verification has provided all required verification documents in time for the school to meet the Return deadlines, the school includes as Aid Disbursed or Aid That Could Have Been Disbursed in the Return calculation only those Title IV funds not subject to verification.

- If a student who failed to provide all required verification documents in time for the school to meet the Return deadline later provides those documents prior to the applicable verification deadline, the school must perform a new Return calculation on all of the aid the student qualified for based on the completed verification documents and make the appropriate adjustments.

**When verification is completed before the Return deadlines**

A school must offer any Post-withdrawal disbursement of loan funds within 30 days of the date of the school’s determination that the student withdrew, and return any unearned funds and make a Post-withdrawal of grant funds within 45 days of that date. If a student provides all documents required for verification after withdrawing but before the verification submission deadline, and in time for the institution to meet the 30-day Return deadline, the institution performs the Return calculation including all Title IV aid for which the student has established eligibility as a result of verification and for which the conditions of a late disbursement had been met prior to the student’s loss of eligibility due to withdrawal. (See Volume 4 – Processing Aid and Managing Federal Student Aid Funds, and 34 CFR 668.164(g)(2).)
When verification is not completed before the Return deadlines

If a student who has withdrawn does not provide the required documents in time for the school to complete the verification process and meet the Return deadlines noted previously, the institution includes in the Return calculation only the Title IV aid that was not subject to the verification process. For a student who failed to provide all required verification documents, the only aid that may be included in a Return calculation are PLUS loan funds and unsubsidized Stafford loan funds (verification is not required for receipt of these funds) for which the conditions of a late disbursement (as discussed under Title IV aid that could have been disbursed) were met prior to the student’s loss of eligibility due to withdrawal.

If a school has made an interim disbursement to a student who has failed to provide all the documents required for verification in time for the school to meet the 45-day Return deadline, at that point in time the student has failed to establish eligibility for those Title IV funds affected by verification. Therefore, the institution must return any Title IV funds subject to verification that were disbursed to the student on an interim basis, and may not include any of those funds as aid that was or could have been disbursed in the Return calculation.

When verification is completed after the Return deadlines

If, before the verification deadline but after the institution has completed the Return calculation, a student provides all the documentation required for verification, the institution must perform a new Return calculation including as Aid that could have been disbursed all Federal Student Aid for which the student has established eligibility based upon verification and for which the conditions of a late disbursement have been met prior to the student’s loss of eligibility due to withdrawal. If, as a result of verification, the student’s eligibility for Federal Pell Grant, Iraq and Afghanistan Service Grant, FSEOG, TEACH Grant and Federal Perkins funds has been reduced, only the reduced amount is included in the new Return calculation.

For additional information on verification, please consult The Application and Verification Guide.
Maximum Timeframe or LOA

When calculating the maximum timeframe for a student’s approved LOA, the school must ensure that it accounts for all periods of nonattendance (including weekends and scheduled breaks).

Thus, since an approved LOA may not be more than 180 days, a school might have to reduce the length of a student’s LOA if the 180th day is scheduled to fall on a day the school would be closed.

Reminder

Full tuition credit

An institution may grant a full tuition credit toward the course the student chooses to re-enter as a way to comply with the requirement that the institution not assess the student any additional charges upon return from an approved leave of absence.

Disbursement rules for students on leave of absence (LOA)

You may NOT make a disbursement of the proceeds of a Direct Loan to a student on an LOA (34 CFR 682.604(c)(4)).

You may disburse Pell Grant, IAS Grant, FSEOG and Perkins funds to a student on an LOA.

You may pay any funds that are part of a Title IV credit balance (and therefore are funds that have already been disbursed) to a student on an LOA.

Approved leave of absence

A leave of absence (LOA) is a temporary interruption in a student’s program of study. LOA refers to the specific time period during a program when a student is not in attendance. An LOA is not required if a student is not in attendance only for an institutionally scheduled break. However, a scheduled break may occur during an LOA.

An LOA must meet certain conditions to be counted as a temporary interruption in a student’s education instead of being counted as a withdrawal requiring a school to perform a Return calculation. If an LOA does not meet the conditions in 34 CFR 668.22(d), the student is considered to have ceased attendance and to have withdrawn from the school, and the school is required to perform a Return calculation.

In order for an LOA to qualify as an approved LOA –

- the school must have a formal written policy regarding leaves of absence requiring that all requests for leaves of absence be submitted in writing and include the reason for the student’s request;
- the student must follow the school’s policy in requesting the LOA;
- there must be a reasonable expectation that the student will return from the LOA;
- the school must approve the student’s request for an LOA in accordance with the school’s policy;
- the institution may not assess the student any additional institutional charges, the student’s need may not increase, and therefore, the student is not eligible for any additional Federal Student Aid;
- the LOA, together with any additional leaves of absence, must not exceed a total of 180 days in any 12-month period;
- except in a clock-hour or nonterm credit-hour program, a student returning from an LOA must resume training at the same point in the academic program that he or she began the LOA and
- if the student is a Title IV loan recipient, the school must explain to the student, prior to granting the LOA, the effects that the student’s failure to return from an LOA may have on the student’s loan repayment terms, including the expiration of the student’s grace period.

A student granted an LOA that meets the criteria in this section is not considered to have withdrawn, and no Return calculation is required. Upon the student’s return from the leave, he or she continues to earn the Federal Student Aid previously awarded for the period.
Written formal policy required

Among the policies and procedures a school must maintain is one that discusses the procedures a student must follow in applying for a leave of absence, and the criteria the school will apply in determining whether to approve the application. A school’s LOA policy must specify that all requests for an LOA be submitted in writing, be signed and be dated.

As mentioned previously, the regulations provide that a school must determine, before it grants an LOA, that there is a reasonable expectation that the student will return from the leave. In order for the school to make such a determination, and in order for it to ensure that the student meets the criteria in the school’s LOA policy, the school must know the student’s reason for requesting the leave. Therefore, a school’s LOA policy must specify that the reason for a student’s leave request be included on a student’s application for an LOA.

A school’s policy must require a student to apply in advance for an LOA unless unforeseen circumstances prevent the student from doing so. For example, if a student were injured in a car accident and needed a few weeks to recover before returning to school, the student would not have been able to request the LOA in advance. A school may grant an LOA to a student who did not provide the request prior to the LOA due to unforeseen circumstances if the school documents the reason for its decision and collects the request from the student at a later date. In this example, the beginning date of the approved LOA would be determined by the school to be the date the student was unable to attend school because of the accident.

A school must publicize its LOA policy. The school may do this by including that policy in the consumer information the school makes available to students (see Volume 2 – School Eligibility and Operations).

Reasonable expectation of return

This condition is specified to make clear that a school may not grant a student an LOA merely to delay the return of unearned Title IV funds.
Completion of coursework upon return in term-based credit-hour programs

Approved leaves of absence are viewed as temporary interruptions in a student’s attendance. For term-based programs, a student returning from an LOA must complete the term in order to be eligible to receive a second or subsequent disbursement.

Therefore, for students enrolled in credit-hour term programs, in order for an LOA to be an official LOA, a school must allow a student returning from an LOA to complete the coursework that he or she began prior to the LOA. In addition, the institution may not impose additional charges and may not award the student additional Title IV assistance.

Completion of coursework upon return in clock-hour and credit-hour nonterm programs

For nonterm-based programs, the regulations provide that the payment period is the period of time it takes a student to complete both half the number of credits and half the number of weeks of instruction in the academic year, program or remainder of the program. For clock-hour programs, the payment period is the period of time it takes a student to complete half the number of clock hours and half the weeks of instructional time in the academic year. Therefore, for clock-hour and nonterm programs it doesn’t matter whether the student returns to the same course and point when the LOA began, or the student starts in a new course within the program (so long as there are no additional charges).

For clock-hour programs and nonterm credit-hour programs, upon returning from an LOA, a student need not complete the same coursework he or she began prior to the leave. For a nonterm program, once the student has earned half the required credits, and completed half the number of weeks in the period and half the weeks of instructional time the student has earned the Title IV funds he or she was previously paid. For a clock-hour program, once the student has completed half the number of clock hours, the student has earned the Title IV funds he or she was previously paid. At that point, if otherwise eligible, the student may receive a second or subsequent disbursement of Title IV program funds.

A student may return early from a leave of absence

A school may permit a student to return to class before the expiration of the student’s LOA in order to review material previously covered. However, until the student has resumed the academic program at the point he or she began the LOA, the student is considered to still be on the approved LOA.
If a student returns early, the days the student spends in class before the course reaches the point at which the student began his or her LOA must be counted in the 180 days maximum for an approved leave of absence. That is, a student repeating coursework while on LOA must reach the point at which he or she interrupted training within the 180 days of the start of the student’s LOA.

The requirement that an institution not impose additional charges when an approved LOA ends and the student resumes his or her program of study applies when a student returns to repeat prior coursework. Moreover, even if the student enters at the beginning of the module or course from which he or she took the leave of absence, a student is not eligible for any additional Title IV program assistance for this preparatory phase.

Since a student is still considered to be on an LOA while repeating prior coursework, if the student fails to resume attendance at the point in the academic program where he or she interrupted training at the beginning of the LOA, the student must be treated as a withdrawal. In that case, at an institution that is not required to take attendance, the date of the student’s withdrawal that must be used in the Return calculation is the date the student began the LOA.

At an institution that is required to take attendance, the Last Date of Attendance (LDA) is used as the withdrawal date for a student that does not return from an LOA.

Leaves of absence versus the grade of incomplete

At term-based schools, students who are unable to complete the requirements of an individual course are often assigned the grade of incomplete (I). Students are usually expected to complete the required work within a reasonable time in order to receive credit and a passing grade.

If a student is assigned an incomplete status for one or several courses but continues to attend other courses, the student is not considered to have withdrawn. A student who is awarded the grade of incomplete in all of his or her classes is not considered a student on an approved LOA unless the LOA meets the criteria in this section.

Because of the criteria that must be met in order for an LOA to be an approved LOA, term-based schools can grant LOAs that meet the Department’s criteria for an approved LOA in a very limited number of cases. A term-based, credit-hour institution that wishes to explore the possibility of granting an LOA that meets the criteria specified in 34 CFR 668.22(d), should call its School Participation Team for additional information.
No additional charges for students on leaves of absence

An LOA is a temporary break in the student’s attendance during which, for purposes of determining whether a Return calculation is required, the student is considered to be enrolled. Since students who are continuously enrolled are not assessed additional charges, any additional charges to a student, even minimal re-entry charges, indicate that the institution does not truly consider the student to be on an approved LOA.

No additional Title IV assistance while a student is on a leave of absence

Since an institution may not assess any additional charges to a student returning from LOA, the institution may not award any additional Title IV aid until the student has completed the coursework in which the student was enrolled when the leave was granted.

A leave of absence not to exceed 180 days in any 12-month period

Institutions, at their discretion, may grant a student multiple leaves of absence as long as the total number of days for all leaves does not exceed 180 days within a 12-month period. This 12-month period begins on the first day of the student’s initial LOA.

When a student fails to return from a leave of absence

At an institution not required to take attendance, if a student does not return to the school at the expiration of an approved LOA (or a student takes an unapproved LOA), the student’s withdrawal date is the date the student began the LOA. At an institution required to take attendance, the withdrawal date for the same student would always be the student’s last day of attendance.
Explanation of consequences of withdrawal to loan recipients granted a leave of absence

A student who is granted an approved LOA remains in an **in-school status** for Title IV loan repayment purposes. If a student on an approved LOA fails to return, the school must report to the loan holder the student’s change in enrollment status as of the withdrawal date.

One possible consequence of not returning from an LOA is that a student’s grace period for a Title IV program loan might be exhausted. Therefore, in order for an LOA to be an approved LOA, prior to granting a leave of absence, a school must inform a student who is a Title IV loan recipient of the possible consequences a withdrawal may have on the student’s loan repayment terms, including the exhaustion of the student’s grace period.

**Unapproved leaves of absence**

A school may grant a student an LOA that does not meet the conditions to be an approved LOA for Title IV purposes (for example, for academic reasons). However, an **LOA that does not meet all of the conditions for an approved LOA** is considered a withdrawal for Title IV purposes. The student’s withdrawal date at an institution not required to take attendance is the date the student begins the LOA. At an institution required to take attendance, the student’s withdrawal date is the student’s last day of attendance.

An **unapproved LOA may not be treated as an unofficial withdrawal**. An unofficial withdrawal is one where the school has not received notice from the student that the student has ceased or will cease attending the school. If a school has granted a student an unapproved LOA, the school would know immediately that the student had ceased attendance for Title IV purposes, and must use the specified withdrawal date in the Return calculation.

**Deferment or Forbearance**

A student who has exhausted his or her grace period and is unable to begin repayment of a loan may apply for a deferment or forbearance of payment.
INSTITUTIONAL CHARGES

Institutional charges are used to determine the portion of unearned Title IV aid that the school is responsible for returning. Schools must ensure that all appropriate fees as well as applicable charges for books, supplies, materials and equipment are included in Step 5, Part G of the Return calculation (see Example of Determining Institutional Charges). Institutional charges do not affect the amount of Title IV aid that a student earns when he or she withdraws.

Use of institutional charges in determining the school’s responsibility for return

The institutional charges used in the calculation usually are the charges that were initially assessed the student for the entire payment period or period of enrollment as applicable. Initial charges may only be adjusted by those changes the institution made prior to the student’s withdrawal (for example, for a change in enrollment status unrelated to the withdrawal). If, after a student withdraws, the institution changes the amount of institutional charges it is assessing a student, or decides to eliminate all institutional charges, those changes affect neither the charges nor aid earned in the calculation. (Please see Step 3 — Amount of Title IV aid earned by the student, for a further discussion of aid earned and institutional charges.)

The return regulations presume that Title IV program funds are used to pay institutional charges ahead of all other sources of aid. Institutional charges may not be reduced even if other sources of aid are used to pay those charges. For example, a school may not reduce institutional charges when an outside agency supplying aid requires that aid to be used for tuition.

When to prorate charges

When a school chooses to calculate the treatment of Title IV, HEA program assistance on a payment period basis for a nonterm credit-hour or clock-hour program, but the school charges for a period longer than the payment period (most likely the period of enrollment), there may not be a specific amount that reflects the actual institutional charges incurred by the student for the payment period. (Again, institutional charges incurred by the student are charges for which the student was responsible that were initially assessed by the institution for the payment period or period of enrollment.)

When a student is charged for a period longer than a payment period, the institutional charges incurred by the student for the payment period generally are a pro-rated amount of institutional charges for the longer period. However, if a school has retained Federal Student Aid funds in excess of the pro-rated amount to cover institutional charges, then the institutional charges for the payment period are the amount retained.
A school that charges by the period of enrollment but performs its Return calculation on a payment period basis before entering data in STEP 5, Part L, of the Return calculation must determine whether it must enter: (a) the prorated amount of all institutional charges, or (b) the amount the school retained. To do this, first, the school prorates **all institutional charges**. Then, the school determines the amount actually retained. The school compares the two results and enters in STEP 5, Part L the greater of the two amounts.

For example, institutional charges are $8,000 for a nonterm-based program that spans two payment periods of 450 clock hours each. The school chooses to calculate the treatment of Federal Student Aid funds on a payment period basis. A student withdraws in the first payment period. The pro-rated amount of institutional charges for each payment period is $4,000. However, the school has retained $5,000 of the Federal Student Aid funds for institutional charges [$4,000 for the prorated portion of the tuition and $1,000 for books and supplies for the entire period of enrollment] for the payment period. Therefore, the institutional charges the school must use in the Return calculation for the payment period are $5,000.

**Effects of waivers on institutional charges**

If your school treats a waiver as a payment of tuition and fees that have actually been charged to a student, then the waiver is considered estimated financial assistance, and the full amount of the tuition and fees must be included in STEP 5, Part L of the Return calculation. On the other hand, if the student is never assessed the full charges, the waiver is not considered to be financial aid, and only the actual charges would be included in the Return calculation (see DCL GEN 00-24, January, 2000, for a further discussion of waivers and the Return calculation).
Institutional versus noninstitutional charges

Institutional charges generally are defined as the charges for tuition and fees, room and board and other educational expenses that are paid to the school directly. If a fee (like a registration or technology fee) is required for all students in a program, then the fee should be considered an institutional charge. A charge does not have to appear on a student’s account to be considered an institutional charge.

The following educational expenses must be considered institutional charges –

- all charges for tuition, fees and room and board (if contracted with the school) and
- expenses for required course materials, if the student does not have a real and reasonable opportunity to purchase the required course materials from any place but the school.

Exceptions: Excludable costs are costs a school may exclude from the total amount of institutional costs, such as the documented cost of unreturnable equipment, and documented cost of returnable equipment if not returned in good condition within 20 days of withdrawal.

Noninstitutional charges (not included in a Return calculation) include –

- charges for any required course materials that a school can document a student had a real and reasonable opportunity to purchase elsewhere (see the discussion that follows);
- charges to a student’s account for group health insurance fees, if the insurance is required for all students and the coverage remains in effect for the entire period for which the student was charged, despite the student’s withdrawal and
- charges to a student’s account for discretionary, educationally related expenses (e.g., parking or library fines, the cost of athletic or concert tickets, etc.).

Returning equipment

If a school can substantiate that its return policies are reasonable, consistent and fair to all students, and students are notified in writing of those policies when they enroll, the school may exclude documented costs for nonreturnable equipment, and returnable equipment, if not returned in good condition within 20 days of withdrawal. A policy that classifies all used books or equipment as nonreturnable is not reasonable or fair. An acceptable policy must specify the specific circumstances that would prevent the school from selling the books or equipment to other students.
Demonstrating a real and reasonable opportunity

A school may treat charges for books, supplies, equipment, and materials as noninstitutional charges if the school can substantiate that its students have the option of obtaining the required course materials from an alternative source. The school must be able to document that: (1) the required course materials were available for purchase at a relatively convenient location unaffiliated with the school; and (2) the school provided financial aid funds in a way and at a time that made it possible for the student to purchase the materials in a timely manner. A signed statement by a student that he or she had the option to purchase the materials from an alternative source is not sufficient documentation.

Example of school charges versus non-school charges

Aerospace Tech requires its students to purchase a titanium-plated tool set by the first day of class. Aerospace’s enrollment agreement does not contain a charge for the tools, and it does not say that the student is required to purchase the tools from Aerospace or a vendor affiliated with Aerospace. As it happens, the required tools are available for purchase from Aerospace and from a retailer across the street. As a routine practice, Aerospace gets written authorization from its students to credit all financial aid to their school accounts, hold any credit balances and establish a line of credit for students at the campus store so they can purchase the required tools by the first day of class. Most students buy the tools at the campus store and charge the purchase to their school accounts.

Although the cost of the tools is not listed as a charge in the student’s enrollment agreement, Aerospace requires that the tools be purchased by everyone in the program of study. Therefore, as a general rule, the tool charges would be considered school charges. However, under the exceptions rule, the tool charges do not have to be considered school charges if Aerospace can demonstrate that – (1) the tools were available for purchase elsewhere; (2) Aerospace made financial aid available to students in time to purchase the tools from another vendor before the first day of class; and (3) Aerospace’s practices provide students with an equal opportunity to purchase tools from the campus bookstore or the retailer across the street.

In this case, the school meets the first criterion, the tools are available at the store across the street, so an opportunity could exist. However, the school fails to satisfy the second and third criteria because the school’s routine practice of crediting students’ accounts with all financial aid, and extending lines of credit for purchases at the campus bookstore, discourages students from purchasing the required tools from another vendor. Unless a student specifically requests that Aerospace not hold his or her credit balance, a student whose education is funded primarily through financial assistance has to purchase the tools at the campus store. As a result, the cost of the tools must be classified as school charges.
This treatment applies only to the handling of Title IV credit balances when a student withdraws. For a discussion of credit balances in other circumstances, please see Volume 4 – Processing Aid and Managing Federal Student Aid Funds.

When a student withdraws during a period, a Title IV credit balance created during the period is handled as described below:

1. Do not release any portion of a Title IV credit balance to the student and do not return any portion to the Title IV programs prior to performing the Return calculation. The institution must hold these funds even if, consistent with the 14-day credit balance payment requirement of 34 CFR 668.164(e), it would otherwise be required to release them.

2. Perform the Return calculation including any existing Title IV credit balance for the period in the calculation as disbursed aid.

3. Apply any applicable refund policy (state, accrediting agency, institutional, etc.) to determine if doing so creates a new or larger Title IV credit balance.

4. Allocate any Title IV credit balance as follows –
   a) Any Title IV credit balance must be allocated first to repay any grant overpayment owed by the student as a result of the current withdrawal. The institution must return such funds to the Title IV grant account within 14 days of the date that the institution performs the Return calculation.

Although not included in a Return calculation, any Title IV credit balance from a prior period that remains on a student’s account when the student withdraws is included as Title IV funds when you determine the amount of any final Title IV credit balance when a student withdraws. Remember, the school must use the final credit balance first to satisfy any current student grant overpayment.

b) Within 14 days of the date that the institution performs the Return calculation, an institution must pay any remaining Title IV credit balance funds in one or more of the following ways —
   • in accordance with the cash management regulations to pay authorized charges at the institution (including previously paid charges
that now are unpaid due to a return of Title IV funds by the institution); A school may not use a Title IV credit balance to return funds for which it is responsible as a result of a Return calculation (STEP 5, item O).

- **with the student’s authorization**, to reduce the student’s Title IV loan debt (not limited to loan debt for the period of withdrawal) or
- to the student (or parent for a PLUS loan).

c) If the institution cannot locate the student (or parent) to whom a Title IV credit balance must be paid, it must return the credit balance to the Title IV programs. The Department does not specify the order of return to the Title IV programs for a credit balance. We encourage institutions to make determinations that are in the best interest of the individual student.

You must apply your school refund policy before allocating a Title IV credit balance. However, you are not required to actually complete the refund process (for example, by making a refund to a student) before completing the steps for allocating the Title IV credit balance.

In order to accommodate differences in institutional accounting and administrative processes, you are not required to actually apply the Title IV credit balance to the student’s grant overpayment before applying the Title IV credit balance to other debts, as long as the grant overpayment is satisfied by the 14-day deadline. You may use school funds instead of the actual Title IV credit balance to satisfy any student grant overpayment.

For the treatment of credit balances when a student dies, see the discussion under **Death of a student** later in this chapter.

**Timeframe for returning an unclaimed Title IV credit balance**

If a school attempts to disburse the credit balance by check and the check is not cashed, the school must return the funds no later than 240 days after the date the school issued the check.

If a check is returned to a school or an EFT is rejected, the school may make additional attempts to disburse the funds, provided that those attempts are made not later than 45 days after the funds were returned or rejected. When a check is returned or EFT is rejected and the school does not make another attempt to disburse the funds, the funds must be returned before the end of the initial 45-day period.

The school must cease all attempts to disburse the funds and return them no later than 240 days after the date it issued the first check.
Example of a school performing a Return calculation for a student whose account has a Title IV credit balance

Legolas, a first-time student at Northern Mirkwood Community College (NMCC), began classes on September 1. His account was credited with a Pell Grant of $2,000 and debited with institutional charges of $500, creating a Title IV credit balance of $1,500. Because NMCC has several mini-semesters in which Legolas had expressed an interest, the school obtained the student’s permission to hold the Title IV credit balance while Legolas considered his options.

On September 30, when he has completed 25% of the semester, Legolas informs the school that he has decided to withdraw in order to pursue his dream of winning a gold medal as an Olympic archer. NMCC places a hold on Legolas’s account while it performs the required Return calculation and applies its institutional refund policy.

The school performs the required Return calculation on October 20, and determines that the Amount of unearned funds due from the school is $375, and that the initial amount of unearned funds due from the student is $1,125. Since the $1,125 is composed entirely of grant funds, after applying the 50% grant protection, the Amount for the student to return is a grant overpayment of $125.00.

Before Legolas withdrew, the Title IV funds on his account totaled $2,000, and $500 of that $2,000 was used to cover the existing charges. There were no charges due the school, and the Title IV credit balance was $1,500. After the school returned the $375 it is required to return, the new total of Title IV funds on the student’s account was $1,625 ($2,000 – $375), and the new Title IV credit balance was $1,125.

Then, the school applies its institutional refund policy. Under NMCC’s refund policy, a first-time student who withdraws before the 50% point in the semester is entitled to an 80% refund of institutional charges. Since Legolas withdrew at the 25% point of the semester, he is entitled to a refund of 80% of the amount he was charged or $400 ($500 X .80). So, the new institutional charges on the student’s account are $100, and the new (final) Title IV credit balance is $1,525 ($1,625 – $100). Note that this new credit balance is larger than the credit balance that existed before the student withdrew.

Because Legolas has a Title IV credit balance on his account, NMCC has 14 days from October 20 (the date they performed the Return calculation) to return the student’s grant overpayment (it can use its own funds or Title IV funds) from the student. After the school returns the $125.00 grant overpayment, the Title IV credit balance of the student’s account is $1,400 ($1,525.00 – $125.00). The school must pay those funds to the student within 14 days of October 20.

Note: With a never before achieved “perfect score,” Legolas won a gold medal in the Olympic archery competition.
PRINCIPLES WITH UNIQUE APPLICATIONS IN THE RETURN OF TITLE IV AID

Date of the institution’s determination that the student withdrew

The date of the institution’s determination that the student withdrew varies depending on the type of withdrawal. For example, if a student begins the official withdrawal process or provides official notification to the school of his or her intent to withdraw, the date of the institution’s determination that the student withdrew would be the date the student began the official withdrawal process, or the date of the student’s notification, whichever is later. If a student did not begin the official withdrawal process or provide notification of his or her intent to withdraw, the date of the institution’s determination that the student withdrew would be the date that the school becomes aware that the student ceased attendance. The types of withdrawal and the corresponding definition of the date of the institution’s determination that the student withdrew are listed in the chart on Withdrawal Dates at the end of this chapter.

For a student who withdraws from a school that is not required to take attendance without providing notification, the school must determine the withdrawal date no later than 30 days after the end of the earlier of (1) the payment period or the period of enrollment (as applicable), (2) the academic year or (3) the student’s educational program.

Date of determination that a student has withdrawn
34 CFR 668.22(l)(3)

Example of making a determination at a school required to take attendance

Consider a school that makes a determination on September 10 that a student has not been in attendance since September 1. The school contacts the student who tells the school he or she’s been ill but plans on coming back during the next week (and this falls within the time period for excused absences and absences allowed by state, accrediting agency and other applicable policies). For the moment, the school may delay taking any action. However, if the student does not return, the school must complete a Return calculation using September 1 as the student’s last day of attendance, and September 15 as the date of the institution’s determination that the student withdrew. The school must return any unearned funds by October 30.
Date of determination at institutions that are required to take attendance

Institutions that are required to take attendance are expected to have a procedure in place for routinely monitoring attendance records to determine in a timely manner when a student withdraws. Except in unusual instances, the date of the institution’s determination that the student withdrew should be no later than 14 days (less if the school has a policy requiring determination in fewer than 14 days) after the student’s last date of attendance as determined by the institution from its attendance records.

When a student enrolled in a series of modules fails to return as scheduled

When a student is not treated as a withdrawal from a program offered in modules at a school that is required to take attendance because the student has confirmed attendance in a module that begins later in the payment period or period of enrollment, no action is required by the school unless the student does not return as scheduled.

If the student does not return as scheduled, the student is treated as a withdrawal, and the date of the school’s determination that the student withdrew should be no later than 14 days after the date that the student was scheduled to resume attendance. For more information on withdrawals from programs offered in modules, see "Withdrawals from programs offered in modules" later in this chapter.

If a student provides notification to the school of his or her withdrawal prior to the date that the school normally would determine that the student withdrew, the date of determination is the date of the student’s notification. The school is NOT required to administratively withdraw a student who has been absent for 14 days (or less if applicable). However, after 14 days, it is expected to have determined whether the student intends to return to classes or to withdraw. If the student is eventually determined to be a withdrawal, the end of the 14-day period begins the timeframe for completing a Return of Title IV Funds calculation.

If a school has a policy that states the maximum number of excused absences that can occur after which a student will be administratively withdrawn, it may delay contacting the student until that date. However
if the student eventually is determined to be withdrawn, the date of deter-
mination of the student’s withdrawal remains 14 days from the student’s
last day of attendance. If the number of days in the school’s policy is less
than 14 days, then the date of the school’s determination that the student
withdrew is the date the school’s policy indicates that the student will be
administratively withdrawn. A school must return the amount of Title
IV funds for which it is responsible as soon as possible, but no later than
45 days after it determines or should have determined that the student
withdrew. In addition, if a student is due a Post-withdrawal disburse-
ment, then the date of the school’s determination must allow for the
school to meet the 30-day Post-withdrawal disbursement notification
requirement.

This requirement does not affect a student’s withdrawal date. At a
school that is required to take attendance, a student’s withdrawal date is
always the last date of attendance as determined by the school from its at-
tendance records.

A student who ceases attendance during a payment period or period
of enrollment is a withdrawal for Title IV purposes unless the student
is on an approved LOA. Therefore, for a student who has ceased atten-
dance, the institution must either –

• place the student on an approved LOA (provided that the con-
ditions for an approved LOA are met) or

• withdraw the student and, if the student returns, treat the stu-
dent as a re-entry if permitted under the regulations.

As noted above, the date of the institution’s determination that the
student withdrew is not necessarily the same as a student’s withdrawal
date. A student’s withdrawal date is used to determine the percentage of
the payment period or period of enrollment completed and, therefore, the
amount of aid a student has earned. The date of the institution’s determi-
nation that the student withdrew is used in the following circumstances:

• A school must offer any amount of a Post-withdrawal disburse-
ment that is not credited to the student’s account within 30
days of the date of determination.

• If the student or parent submits a timely response that instructs
the school to make all or a portion of the Post-withdrawal disbur-
senement, the school must normally disburse the funds within
180 days of the date of determination.

• A school must document a student’s withdrawal date and
maintain the documentation as of the date of determination.

• Within 30 days of the date of determination, a school must
notify a student if a grant overpayment is due.
- A school that is collecting an overpayment must require repayment of the full amount of the overpayment within two years of the date of determination.

- The school must return the amount of Title IV funds for which it is responsible no later than 45 days after the date of determination.

- The amount of aid disbursed as of the date of determination is used to determine the amount of unearned aid that must be returned.

**Use of payment period or period of enrollment**

The worksheets require that a school indicate whether the calculation is being done on the basis of a payment period or a period of enrollment. For students who withdraw from semester, trimester, or quarter programs, a school must perform the Return calculation on a payment period basis. For students who withdraw from a nonstandard term-based or nonterm-based educational program, the school has the choice of performing the Return calculation on either basis. The institution must use the same basis (payment period or period of enrollment) in its calculations for all students within a program who cease attendance.

An exception is allowed for students who transfer to or re-enter a school that offers nonterm-based or nonstandard term-based educational programs. For students who transfer to or re-enter a nonterm-based or nonstandard term-based educational program, a school may make a separate selection of payment period or period of enrollment to use in calculating their Return of Title IV funds for everyone within the group that transfers or re-enters.

The periods used for transfer and re-entry students do not have to be the same. A school may choose to use payment period for transfer students and period of enrollment for re-entry students.

**Payment period**

The definition of a payment period is the same definition used for other Title IV program purposes. This definition is found in 34 CFR 668.4 (see Volume 3 – Calculating Awards and Packaging). Schools that use payment periods as the basis for their Return calculations should note that making multiple disbursements within a payment period does not create a new or additional payment period.
Chapter 2 — Withdrawals and the Return of Title IV Funds

Period of enrollment

A period of enrollment is the academic period established by the school for which institutional charges are generally assessed (i.e., the length of the student’s program or the academic year, but consistent with the period for which loans generally are originated.

For information on determining the length of a payment period or period of enrollment for a student who withdraws from a program offered in modules, see Withdrawals from programs offered in modules later in this chapter.

Applicability

The use of payment period or period of enrollment is important for many aspects of the Return calculation. For example, if a school is determining the treatment of Title IV funds on a payment period basis, the student’s Title IV program assistance to be used in the calculation is the aid that is disbursed or that could have been disbursed for the payment period. Also, the institutional charges used in the calculation generally have to reflect the charges for the payment period.

Generally, the higher the institutional charges, the greater the amount of unearned aid that is to be returned by the school (see STEP 4). In some cases, this mitigates against a school using the period of enrollment as the basis for the Return to Title IV funds calculation. An institution must prorate the charges for the period of enrollment to correspond to a payment period if the institution has elected to use the payment period rather than period of enrollment basis for the Return calculations.

If, for a nonterm or nonstandard term program, a school chooses to calculate Returns on a payment period basis, but the school charges for a period longer than a payment period (e.g., period of enrollment), total institutional charges for the period will be the greater of the –

- prorated institutional charges for the period, or
- the amount of Title IV assistance retained for institutional charges as of the student’s date of withdrawal.
Rounding

Enter dollars and cents using standard rounding rules to round to the nearest penny. Final repayment amounts that the school and student are each responsible for returning may be rounded to the nearest dollar.

Percentages are calculated to four decimal places, and rounded to three decimal places. The third decimal place is rounded up if the fourth decimal place is five or above. For example, .4486 would be rounded to .449, or 44.9%.

The one exception to the rounding rule occurs in determining the percentage of Title IV program assistance earned. Students who withdraw at any point after the 60% point in the payment period or period of enrollment have earned 100% of their Title IV funds. If the standard rounding rules were used in this situation, a quotient of .6001 through .6004, which is greater than 60%, would be rounded down to .600 (60%), and the student would not have earned 100% of his or her Federal Student Aid. In order to recognize that students completing more than 60% of the period (by any amount) earn 100% of their Federal Student Aid, amounts of .6001 through .6004 are not rounded for the purpose of determining whether a student has earned 100% of the Title IV funds for the term.
**Funds to include in a Return calculation**

The calculation of earned Title IV funds includes certain Title IV grant and loan funds if they were disbursed or could have been disbursed to a student for the period of time for which the calculation is being performed (payment period or period of enrollment).

- Pell Grant,
- Iraq and Afghanistan Service Grant,
- ACG,
- National SMART Grant,
- TEACH Grant,
- FSEOG,
- FFEL,
- Direct Loan, and
- Perkins Loan.

The Return of Title IV Funds requirements no longer apply to funds from the GEAR UP, SSS or GAP programs.

Also, Federal Supplemental Educational Opportunity Grant (FSEOG) Program funds continue to be excluded under certain circumstances. As in the past, Federal Work-Study (FWS) funds are not included in the calculation.

**FSEOG Program funds**

The nonfederal share of FSEOG Program funds is excluded when a school meets its FSEOG matching share by either the individual recipient method or the aggregate method. If a school meets its matching share requirement through the use of a fund-specific match, 100% of the FSEOG award (both the federal and nonfederal shares) must be included in the Return calculation. Otherwise, the nonfederal share of FSEOG awards is excluded from the calculation. For more information on types of FSEOG matching funds see Volume 6 – Campus-Based Programs.

---

**Funds to include when a student enrolled in a crossover period withdraws before the higher Pell is disbursed**

If for a student enrolled in a crossover period, a school had a second SAR/ISIR with an official EFC, (reflecting eligibility for more Pell funds) before the student lost eligibility, but the school had failed to disburse the additional funds before the student withdrew, the school must include the additional funds in the Return calculation as *Aid that could have been disbursed*.

The school must do the following:

1. Enter the Pell funds that were disbursed while the student was in school in STEP 1, line 1, column A as, *Aid that was disbursed*.

2. Enter the increase (the difference between student’s higher Pell eligibility and the Pell that was disbursed) in STEP 1, line 1, column C as, *Aid that Could Have Been Disbursed*, together with any Pell funds from the original award that were not disbursed.

3. Enter any other Title IV aid as it stood when the student withdrew, and perform the Return calculation as directed.
A resolved overaward may become an overpayment

If a school has resolved an overpayment by reducing scheduled future disbursements for a second or subsequent payment period and the student ceases attendance before the end of the current payment period, that portion of the student’s award that was an overpayment must be repaid outside of the requirements of 34 CFR 668.22.

If the school is responsible for repaying the overpayment, the school must repay the overpayment before completing any required Return calculation.

If the student is responsible for repaying the overpayment, and the student withdrew during the payment period or period of attendance, as applicable, the school should try to collect the overpayment from the student and if it is unable to do so, should refer the student to ED’s Debt Resolution Services.

If the student is responsible for repaying the overpayment, and the student withdrew during the payment period or period of attendance, as applicable, the school should not take any action until it has completed the required Return calculation. When performing the Return calculation, the school should not include the amount of the overpayment for which the student is responsible as aid disbursed or could have been disbursed. Then, when the school has completed the Return calculation, it should document the amount of the overpayment and, as applicable, reduce any Post-withdrawal disbursement or increase any amount the student must return by the amount of the overpayment owed by the student.
SPECIAL TREATMENT OF STUDENTS WHO WITHDRAW AND THEN TRANSFER OR RE-ENTER A CREDIT-HOUR, NON-TERM-BASED PROGRAM OR A PROGRAM THAT MEASURES PROGRESS IN CLOCK HOURS

Re-entry within 180 days

A student who re-enters within 180 days is treated as if he or she did not cease attendance for purposes of determining the student’s aid awards for the period.

For credit-hour nonterm-based programs or programs that measure progress in clock hours, a student who withdraws and then re-enters the same program at the same school within 180 days is considered to be in the same payment period he or she was in at the time of the withdrawal. The student retains his or her original eligibility for that payment period, and is treated as though he or she did not cease attendance.

A student who re-enters a credit-hour, nonterm-based program or a program that measures progress in clock hours within 180 days of his or her withdrawal is immediately eligible to receive all Title IV funds that were returned when the student ceased attendance. Thus, upon the student’s return, the school must restore the types and amount of aid that the student was eligible for before the student ceased attendance, and schedule the appropriate disbursements. Actions to be taken by the school would include:

- re-disbursing aid that had been disbursed and then returned under the Return of Title IV Aid provisions;
- disbursing aid the student was otherwise eligible for that had not yet been disbursed at the time the student withdrew; and
- canceling any overpayments assessed the student as a result of the prior withdrawal that were disbursed upon re-entry.

Once the student completes the payment period for which he or she has been paid, he or she becomes eligible for subsequent Title IV student aid payments.

There are limitations on redisbursing and making second disbursements of Direct Loan funds when a student re-enters. If the date of a student’s return is outside of the period for which the loan was certified/originated, the school must agree to extend the loan period. (The school may originate a new loan as explained later.) Likewise, if the date scheduled for a second disbursement is outside of the period for which the loan was originated, the school must extend the loan period and the date(s) for the second and any subsequent disbursement. For more information on this topic, please see the chart Loan Principles Applicable to Transfer and Re-entry at Nonterm Schools later in this chapter.
Note: For a student who completed more than 60% of his or her training before ceasing attendance, the school would not have returned any Title IV aid. If that student were to re-enter training within 180 days, because the student had received 100% of his or her aid for the period, the student would not be eligible to receive additional Title IV aid until he or she has completed the weeks of instructional time and hours or credits (as applicable) in the academic year.

For a treatment of the re-admission requirements for members of the uniformed services, see Volume 2.

What to do when a student whose overpayment has been referred to Debt Resolution Services re-enters within 180 days

If a student whose overpayment has previously been referred to Debt Resolution Services returns to school within 180 days, the school must send Debt Resolution Services a fax identifying the student overpayment, and stating that it should be made void. This will allow the Department to properly update its records in both the Debt Resolution Services system and NSLDS.

This fax number is for school use only and only for this purpose:

Fax Number: (319) 665-7646

Note: This process cannot be performed via email.

In the fax, the school must include the –

- award year of the overpayment;
- student’s Social Security number;
- student’s last name, first name and middle initial;
- student’s date of birth;
- type of overpayment — Federal Pell Grant, TEACH Grant, Iraq and Afghanistan Service Grant or FSEOG;
- the disbursement date the institution used to create the overpayment record in NSLDS;
- a letter that includes the following:

This student has returned to school. The regulations (34 CFR 668.4(e)) require that the overpayment referenced herein be voided.
Chapter 2 — Withdrawals and the Return of Title IV Funds

Change in maximum loan period

On November 1, 2007, (effective July 1, 2008, unless a school elects to implement the changes earlier) the Department published regulations that eliminated the maximum 12-month loan period for loans in the Direct Loan program (72 FR, No. 211, Part III). The regulations now also allow schools to certify a loan for students in nonterm and nonstandard term programs that are less than an academic year in length, and give schools greater flexibility in rescheduling disbursements to students who cease attendance and then return to school.

Subsequently, for a student who withdraws and returns within 180 days, a school may extend the original loan period and schedule new disbursement dates for second or subsequent disbursements. Note that this does not mean an increase in the loan amount the student may receive for the period. Cites: 685.301(a)(10)(ii)(A); and 685.301((a)(9)(i).

Re-entry within 180 days, example

Consider a student who began attendance in a clock-hour program that was 1,500 hours in length with a defined academic year of 900 hours. For the first 450 hour payment period the student was awarded and disbursed $1500 in Pell Grant funds, $500 in FSEOG funds, and $500 in Title IV loan funds, for a total of $2500 in Title IV aid.

Assume that this student withdrew from school after completing 200 of the 225 hours he or she was scheduled to complete by that point in the payment period (50%), and the school uses payment periods to calculate the Return of Title IV Aid. Under the Return regulations, the school used scheduled hours (225) to determine that the student earned 50% of his or her Title IV aid. The school returned $500 to the loan program. The $750 the student was initially scheduled to return (Step “S”) was eliminated by the application of grant protection in Step “U.”

If the student returns to the same program at the same school within 180 days of the withdrawal, the student would be considered to be in the same payment period, and the student’s eligibility for Title IV aid should be the same as if the student had not left. If the student is returning within the original loan period, the school redisperses the $500 the school had returned. If the date of a student’s return is outside of the period for which the loan was originated, the funds the school must extend the loan period and set new dates for any second disbursement or additional disbursements. In addition, the institution would schedule additional Title IV disbursements for the day after the student is expected to complete the remainder of the payment period.

If the student withdraws again before completing the payment period, the institution would apply the provisions of the Return regulations using the total number of hours the student was scheduled to complete in the numerator, the full 450 hours in the payment period in the denominator and then applying that fraction to the total Title IV aid disbursed for the period.

FSA HB Jan 2012

5–61
When a student re-enters in a new award year

A student who was originally enrolled in a payment period that began, and was scheduled to end, in one award year could return after the end of that award year (June 30). However, the intent of the new regulations is that such a student is to be considered, upon his or her return, to be in the same period. Therefore, any Title IV program funds that will be disbursed to the student should be paid from the original award year regardless of whether the resumption of the payment period is in a new award year.

Consider a student who received Pell Grant funds and ceased attendance in one award year who then re-enters training within 180 days, but in a new award year. If the school returned funds after a Return calculation, the student might be due Pell funds from an award year that is over.

In order to request these funds, the school will have to go to the COD website at:

https://cod.ed.gov/cod
log in under the “School” tab using the school’s user name and password (available from the school’s system administrator), select “Post Deadline System Processing” on the left side, and request administrative relief with “Re-entry within 180 days” as the reason.

For the Campus-Based programs, if funds are not available from the year in which the awards were originally made, the school may award funds from the current year. Note that doing this does not increase the annual maximum awards that may be made to an individual student.

Re-entry after 180 days

Re-entry after 180 days, transfer into a new program at the same institution or transfer to a new institution

If a student withdraws from a credit-hour, nonterm program or a clock-hour program without completing the period and –

- re-enters the same program at the same institution more than 180 days after withdrawal, receiving credit for hours previously earned; or
- transfers into another credit-hour nonterm or clock-hour program at any time (either at the same institution or at a new institution) and the institution accepts all or some of the hours earned in the prior program; then

the student starts a new payment period when he or she re-enters or transfers.
In calculating awards for a student who re-enters the same program after 180 days, re-enters in a new program, or transfers to a new institution, the institution treats the hours remaining in the program as if they are the student’s entire program. The number of payment periods and length of each payment period are determined by applying the rules in the appropriate part of the definition of a payment period to the hours remaining in the program upon transfer or re-entry.

A school may consider a student who transfers into another program at the same school to remain in the same payment period if five conditions are met:

- the student is continuously enrolled at the school;
- the coursework in the payment period the student is transferring out of is substantially similar to the coursework the student will be taking when he or she first transfers into the new program;
- the payment periods are substantially equal in length in weeks of instructional time and credit hours or clock hours, as applicable;
- there are little or no changes to the institutional charges to the student for the period and
- the credits from the payment period the student is transferring out of are accepted toward the new program.

This provision addresses situations where a student’s transfer to a new program at the same institution results in very little change to the student’s academic circumstance, e.g., a change that is really nothing more than a change in majors. The Department believes that when this occurs it is appropriate to spare the school the burden of withdrawing a student, performing a Return calculation, and returning Title IV grant or loan funds, only to award them again for the new payment period(s).

If a school treats the student as one who is not withdrawing from the institution, no Return calculation is performed, and the student continues in the same payment period he started in with his original program.

If a student for whom this approach is taken later withdraws from the institution, the start and end dates used in STEP 2 of the Return calculation will be the start of the first program and the end of the second. The charges used in STEP 5 will be the total charged the student for the two programs.
Eligibility of transfer students for additional Title IV funds

Generally, at a clock-hour or nonterm credit-hour school, a student can be paid again for clock hours or credit hours that he or she has already completed at that school only if he or she has completed a program and re-enrolls to take that program again or to take another program. In addition, when a student re-enters a clock-hour or credit-hour nonterm-based program after 180 days, the student may be paid for repeated courses.

For example, a student who withdraws after completing 302 clock hours of a 900 clock-hour program has 148 hours remaining in the 450-hour payment period. The student re-enrolls after 180 days in the same program and receives credit for 100 hours. The program length for purposes of determining the new payment periods is 800 clock hours (the remainder of the student’s program), so the new payment periods are 400 hours and 400 hours (the 302 hours completed and the 148 hours that remained do not apply). Any reduction in the payment would be based on whether the student’s scheduled award or annual loan limits are exceeded. (If the student in this example received no credit for previously completed hours, the student’s program length for purposes of determining the payment periods would be 900 clock hours.)

However, a transfer student’s eligibility for additional Title IV funds may be subject to a variety of limitations associated with the aid the student received during the student’s most recent period of attendance. For example, in the Pell Grant Program, a student may never receive more than his or her Pell scheduled award for an award year. In the Federal Direct Loan program, the application of the annual loan limits imposes additional limitations on a borrower’s eligibility for funds when the borrower transfers (see chart).
Chapter 2 — Withdrawals and the Return of Title IV Funds

LOAN PRINCIPLES
APPLICABLE TO TRANSFER AND Re-Entry AT NONTERM SCHOOLS

1. For nonterm programs, a Borrower–Based Academic Year (BBAY) must be used to monitor annual loan limits. For a student who transfers or re-enters a program, the loan period certified must be the lesser of the —
   • academic year,
   • program or
   • remaining balance of a program of study.

2. A school may certify or originate a loan for a period that exceeds 12 months.

3. When we say balance, we mean the borrower’s annual loan limit, less any amount previously borrowed for the same academic year, plus any amount returned per 34 CFR 668.22.

For a transfer student, when an overlap exists between the borrower’s original loan period and the borrower’s new period of attendance, or the academic years of the two schools, the borrower is eligible to receive a loan for an amount that does not exceed the remaining balance of the student’s annual loan limit. The new school may certify or originate the loan for the remaining portion of the program or academic year. **The borrower is not eligible for a new loan until the original loan period and original academic year have ended.**

Note that if the original academic year is unknown, a school must assume the previous school had an academic year of 30 weeks.

A receiving school that accepts fewer credits or clock hours than the student successfully completed at his or her prior school may, if it can document that the student successfully completed additional credits or clock hours, count those hours as completed hours in the student’s loan period.

Note that when we say **successfully completes**, we mean that the student earns a passing grade or otherwise receives credit for the course.

If there is no overlap, the borrower is immediately eligible for a new annual loan limit. The receiving school can certify the borrower for a loan period that corresponds to its academic year, or the entire balance of the program. If the portion of the program that remained was less than an academic year, the loan would be subject to proration.

5. When certifying a loan for returning student for a new BBAY, the Cost of Education may include only those costs associated with the period for which the loan is certified. It may not include any costs used in certifying the previous loan unless those costs represent charges for which funds were returned to ED or refunded to the student, subsequent to the previous withdrawal.
Loan Principles, continued

6. When a student re-enters the same program within 180 days and before the end of the student’s initial loan period, a school can ask the lender/GA to establish a new end date for the loan period and reschedule any second or subsequent disbursements. Similarly, a Direct Loan school could change the original loan period end date and reschedule the second disbursement. In this case, the student is held to the same disbursement requirements that applied initially (e.g., for one additional disbursement, they must successfully complete one-half the coursework and one-half the weeks of instructional time in the loan period before they can receive the second disbursement).

7. When a student re-enters the same program within 180 days and before the end of the student’s initial loan period, if the lender or GA declines to adjust the loan period and reschedule the second disbursement, the school can ask the GA to approve a loan with a new loan period that begins on the date the borrower returns to school and extends to either the balance of the original loan period or balance of the program, whichever is shorter. The student is eligible to receive only the balance of the loan, and it must be made in multiple disbursements.

The borrower is not eligible for a new loan until the original loan period and original academic year have ended. If some portion of the program remains after the completion of the new loan period, the school could certify a new loan for that portion of the program. If the portion of the program that remained was less than an academic year, the loan would be subject to proration.

8. If a student re-enters a program after the end date of the initial loan period or BBAY, a school may certify a new loan for either the balance of the program or academic year, whichever is shorter. If the portion of the program that remained was less than an academic year, the loan would be subject to proration.

DIRECTIONS FOR ADJUSTING DIRECT LOANS

If a student who ceased attendance for a period in which he or she received a Direct Loan returns to school within the time that regulations require that his or her Title IV aid be re-disbursed, a school must submit a change record to the Common Origination and Disbursement (COD) System that:

- Adjusts the amount of the loan to that appropriate to the enrollment status at which the student has reenrolled.
- Adjusts the academic year and loan period (award period) to the student’s new anticipated completion date.
- Changes the disbursement dates to reflect when disbursements actually occur.

If a school needs to submit a change record after the closeout date for an award year (18 months after July 31 in the award year in which the loan was originated), the school will need to request “extended processing,” as explained in the “Closeout Letter” for the appropriate award year.
Transfer Students

Example 1

Consider an academic program that consists of 1,500 clock hours that students are expected to complete over 50 weeks of instructional time. The program has a defined academic year of 900 hours and 30 weeks of instructional time. For students who enter at the beginning of the program, initially there would be four payment periods as follows:

1. the first 450 hours of the first academic year and 15 weeks of instructional time;
2. the next 450 hours of the first academic year and 15 weeks additional weeks of instructional time;
3. the first 300 hours of the 600 hours remaining in the program and 10 weeks of instructional time; and
4. the final 300 hours of the 600 hours remaining in the program and 10 weeks of instructional time;

If the school accepts a transfer student and grants the student 300 hours of credit toward the completion of its 1,500 hour program, the school would subtract the 300 hours and 10 weeks of instructional time from the 1,500 hours and 50 weeks of instructional time in the student’s program, and determine that the student needs to complete 1,200 hours and 40 weeks of instructional time at the new institution in order to complete the program.

Then, consistent with the regulations in 34 CFR 668.4(b), the school determines the payment periods in the 1,200 hours that constitute the student’s program. Since the number of remaining hours and weeks in the program is greater than an academic year, the payment periods for the rest of the program are:

1. the first 450 hours after the student transfers, and 15 weeks of instructional time;
2. the next 450 hours in the academic year following the student’s transfer; and 15 weeks additional weeks of instructional time;
3. the 300 hours remaining in the program and 10 weeks of instructional time (since this balance is less than one-half of an academic year). However, the school must make two disbursements of any FSA loan awarded for this period – the second when the student has completed 150 hours and 5 weeks of instructional time.

The institution would then award and disburse Title IV aid based upon the length of the payment period(s) consistent with the awarding rules under each of the Title IV programs and the Cash Management rules contained in Subpart K of Part 668 of the regulations.
Transfer Student, Example 2

On August 1, 2010, David Allen enrolled at Penny’s Hair Academy (PHA). After completing 400 of the 900 clock hours in his program, David had to relocate, and he withdrew from school.

On February 1, 2011, having settled into his new home, David enrolled at Marion’s Esthetics Institute (MEI) as a transfer student. David was awarded 400 clock hours of transfer credit in MEI’s 1,000 clock-hour program (the program definition of an academic year is 900 clock hours and 30 weeks of instructional time). David’s program is 600 clock hours and 20 weeks of instructional time.

When the financial aid officer (FAO) at MEI examined David’s 2010-2011 ISIR, he found the following entry:

  %Sch. Used: 50.0     As Of: 01/28/2004       Pell Verification        EFC: 0

The FAO subtracted the 50% used previously from 100% and found that the percentage of David’s scheduled award that remained unused was 50%. Therefore, David was eligible to receive 50% of his scheduled Pell award of $4,731 during the balance of the award year. In addition, the FAO used the 600 hours and 20 weeks of instructional time remaining in David’s program to establish the appropriate two payment periods (per 34 CFR 668.4(b)) each of 300 clock hours and 10 weeks of instructional time.

The aid officer performed the required multiplication and determined that David could receive as much as $2,365 (.50 X $4,731 = $2,365 ) if he remained enrolled at MEI for the balance of the year.

During the first payment period, David received $1577 ($4,731 X 300 hours in the period ÷ 900 hours in the academic year) = $1,577 in Pell funds.

However, in the second payment period, David could only receive funds until his total Pell at EIA reached $2,365 (his total for the year reached $4,731). Therefore, for the second payment period at MEI, David could only receive $788 ($2,365 – $1,577 = $788).

On February 5, 2011, David came to the FAO at MEI and inquired about a loan like the one he had at PHA. The FAO examined David’s ISIR and his record in NSLDS and determined that David had received $1,750 in loan funds (from his first-year loan of $3,500) while attending PHA.

The FAO tells David that because there is an overlap of the two school’s academic years, David is only eligible to receive a loan for the balance of his eligibility as a first-year student — $1,750. In addition, the FAO tells David that the one-half of his loan will be disbursed within a few days, and the balance when David has successfully completed 300 clock hours (half of the hours in the remainder of his program) and half the weeks of instructional time in the loan period.
BREAKS IN ATTENDANCE FOR STUDENTS ENROLLED IN PROGRAMS MEASURED IN CREDIT HOURS WITHOUT ACADEMIC TERMS

In order to receive Title IV aid, a student must be enrolled in an eligible program. That program has required courses, some of which must be taken in sequence. If no specific academic plan exists for a particular student, we consider the program requirements to be the student’s academic plan.

A student who completes a course is expected to begin attending the next available course in the program, until the student completes the credits for which he or she has received Title IV aid. If before a student completes the credits for which he or she has received Title IV aid, the student fails to enroll in the next (appropriate in sequence) course in the program, the student must be put on an approved LOA or considered withdrawn.

A student who has completed the credits for which aid was awarded does not have to be considered a withdrawal or placed on LOA if he or she takes a break before enrolling in additional courses.

CHANGING OR CORRECTING A RETURN CALCULATION

Changes that aren’t corrections are allowed only if the change can be made in time for the institution to meet any applicable Return of Title IV Funds deadline.

A change is not a correction if a calculation (return/Post-withdrawal disbursement) was correct at the time it was processed. For example, a school that used the midpoint as the withdrawal date may want to go back and revise an already processed Return of Title IV Funds calculation to use a last date of attendance at an academically related activity past the midpoint. Such a change is not a correction, because the use of the midpoint was not a mistake – as would be using the wrong amount of a Pell Grant disbursement. Similarly, the signing of a promissory note after a calculation is processed is not a correction because failing to sign a promissory note is not a mistake.

An institution is never required to do a recalculation of a change that is not a correction.
Applicable deadlines

Two main deadlines impact most Return of Title IV Funds calculations – the 45-day timeframe for the Return of Funds (also see the discussion under Timeframe for the return of Title IV funds later in this chapter); or the 30-day required notification of the need for authorization to make a Post-withdrawal disbursement of Title IV loan funds (also see the discussion under Post-withdrawal disbursement of Title IV Loan funds later in this chapter). Any action taken after a deadline, even a correction, is a violation of the deadline requirement. So, when an institution corrects a Return of Title IV Funds calculation and, as a result, returns funds after the 45-day deadline, it is a late return. When the school makes a correction and notifies the student or parent later than 30 days of the date of the institution’s determination that the student withdrew of the need for authorization to make any loan Post-withdrawal disbursement of Title IV loan funds, the school has violated that deadline.

In the next section, we will discuss the data elements in the order in which they occur on the worksheets. The discussion that follows is not a set of instructions. It is an explanation of the criteria a school must consider as it enters data in the steps of the calculation.
STEP 1: STUDENT’S TITLE IV AID INFORMATION

Title IV aid disbursed

A school must calculate the amount of earned Title IV funds by applying a percentage to the total amount of Title IV program assistance that was disbursed and that could have been disbursed. Under STEP 1 of the worksheet, a school fills in the amount of each type of Title IV aid that was disbursed and that could have been disbursed. When entering the amount of loan funds, a school should enter the net amount disbursed and that could have been disbursed.

Generally, a student’s Title IV funds are disbursed when a school credits a student’s account with the funds or pays a student or parent directly with Title IV funds received from the Department. There are a couple of exceptions to this definition. For a complete discussion of the definition of disbursed Title IV funds, see Volume 4 – Processing Aid and Managing Federal Student Aid Funds.

A student’s aid is counted as aid disbursed in the calculation if it is disbursed as of the date of the institution’s determination that the student withdrew (see the discussion under Date of the institution’s determination that the student withdrew).

However, one type of disbursement is not treated as Aid that was disbursed in a Return calculation. Inadvertent overpayments – disbursements inadvertently made to a student after the student ceased attendance but prior to the date of the institution’s determination that the student withdrew – are included in a Return calculation as Aid that could have been disbursed as discussed later in this chapter under Treatment of inadvertent overpayments.

A school may not alter the amounts of Title IV grant and loan funds that were disbursed prior to the school’s determination that the student withdrew. For example, a school may not replace a withdrawn student’s loan funds with grant funds that the student was otherwise eligible to receive before performing the Return calculation.

Title IV aid that could have been disbursed

In addition to aid disbursed, aid that could have been disbursed is also used in the calculation. There are two principles that govern the treatment of disbursements of Title IV funds in Return calculations. The first principle provides that, for purposes of determining earned Title IV aid, generally, so long as the conditions for late disbursements in 34 CFR 668.164(g)(2) (described below) were met prior to the date the student became ineligible, any undisbursed Title IV aid for the period for which the return calculation is performed is counted as aid that could have been disbursed (regardless of whether the institution was prohibited from making the disbursement on or before the day the student withdrew because of the limitations in 34 CFR 668.164(g)(4) or elsewhere).
Any undisbursed Title IV aid for the period that the school uses as the basis for the Return calculation is counted as aid that could have been disbursed as long as the following conditions were met before the date the student became ineligible—

- for all programs, the Department processed a Student Aid Report (SAR) or Institutional Student Information Record (ISIR) with an official Expected Family Contribution (EFC) for the student;
- for an FSEOG award, the institution made the award to the student;
- for a Direct Loan, the institution certified or originated the loan, as applicable; and
- for a Federal Perkins Loan, the institution made the award to the student.

A promissory note must be signed for a loan to be included as Aid that could have been disbursed in a Return calculation. The signature may be obtained after the student withdraws. However, in order for the loan to be included as Aid that could have been disbursed, the promissory note must be signed before the school performs the Return calculation.

Similarly, both the ACG and National SMART Grant programs require that students fulfill academic year and GPA requirements in order to continue receiving these grants (See Volume 1 – Student Eligibility). A student who had completed the required number of credits for the previous academic year, but for whom no GPA had been calculated at the beginning of the first semester of the subsequent year, is eligible to receive an ACG or National SMART grant if the required GPA becomes available during the semester. In order for an ACG or National SMART grant to be included as aid that could have been disbursed, the eligible GPA must be available before the school performs the Return calculation.

If a school has made an interim disbursement of an ACG or National SMART Grant and the grades, when they become available, indicate that the student does not have the required GPA, the disbursement becomes an overpayment, must be returned by the school and is not included in the Return calculation.

Of course, a school can only include aid (e.g., the loan funds) for the period for which the institution does the Return calculation. If the calculation is performed on a payment period basis, the loan funds counted are those for the payment period; if the calculation is performed on the period of enrollment basis (e.g., the academic year basis), the loan funds counted are those for the entire period of enrollment.
The second principle provides that a student can never receive as a Post-withdrawal disbursement any funds from a disbursement that the institution was prohibited from making on or before the date the student withdrew. Therefore, although the following potential disbursements can be counted as Aid that could have been disbursed (if intended for the period for which the Return calculation is being performed) an institution is prohibited from disbursing –

- for nonstandard term credit-hour programs where the terms are not substantially equal in length, credit-hour nonterm programs, and clock-hour programs, a second disbursement of Direct Loan funds where the student has not reached the later of the calendar midpoint of the loan period or the date that the student completes half of the academic coursework or clock hours (as applicable) in the loan period (34 CFR 685.301(b)(5), or (6));
- a second or subsequent disbursement of Direct Loan funds unless the student has graduated or successfully completed the loan period (34 CFR 668.164(g)(4)(ii));
- a disbursement of Direct or Perkins loan funds for which the borrower has not signed a promissory note;
- for clock-hour or credit-hour nonterm programs, a disbursement of a Federal Pell Grant, Iraq and Afghanistan Service Grant, TEACH Grant, ACG or National SMART Grant for a subsequent payment period when the student has not completed the earlier payment period for which the student has already been paid (34 CFR 690.75(a)(3) and 34 CFR 691.75(a)(3)&(4));
- a disbursement of a Direct Loan to a first-year, first-time borrower who withdraws before the 30th day of the student's program of study (34 CFR 668.164(g)(4)(iii)) (except when this delay does not apply because of low default rates);
- a disbursement of a Federal Pell Grant, Iraq and Afghanistan Service Grant, TEACH Grant, ACG or National SMART Grant to a student for whom the institution did not have a valid SAR/ISIR by the deadline established by ED (34 CFR 668.164(g)(4)(iv)) annually in the public deadline notice and
- a first disbursement of a Direct Loan (i.e., the first disbursement of a Direct Loan in a loan period) to a student enrolled in a modular program who has withdrawn before beginning attendance in enough courses to establish a half-time enrollment status.

Some schools can use the 50% point as the withdrawal date for a student who unofficially withdraws in determining earned Title IV aid. However, in order to determine whether the funds can be disbursed as a Post-withdrawal disbursement, the school must make a separate determination of the date the student lost eligibility.
Treatment of inadvertent overpayments

An inadvertent overpayment occurs when an institution disburses funds to a student who is no longer in attendance, for example, when an institution makes a scheduled disbursement on Monday to a student who dropped out on the previous Friday. Inadvertent overpayments are included in Return calculations as Aid that could have been disbursed rather than Aid that was disbursed.

A school is allowed to hold an inadvertent overpayment while determining if the student is owed a Post-withdrawal disbursement. However, this is not intended to affect the amount of aid a student would receive under a Return calculation. Rather, it is permitted only to avoid a school having to return funds only to have to later request and disburse them if a student is eligible for a Post-withdrawal disbursement.

An inadvertent overpayment does not create a separate basis for permitting funds to be paid to a student’s account. So, if an inadvertent overpayment does not meet the criteria for a late disbursement, the second principle under Title IV aid that could have been disbursed applies, and neither the institution nor the student may retain any portion of the overpayment. However, the funds are included as Aid that could have been disbursed and may result in a student being able to retain more grant funds.

In order to be consistent with the aforementioned second principle, an institution must now treat inadvertent overpayments as aid that could have been disbursed, rather than aid that was disbursed. If the inadvertent overpayment could not have been made as a late disbursement under the regulations, the institution must return the entire amount of the overpayment. If the overpayment could have been made as a late disbursement, the institution must return only the unearned portion of the inadvertent overpayment.

An institution is not required to return the inadvertent overpayment immediately, but must return it within 45 days of the date of the institution’s determination that the student withdrew (the timeframe for an institution’s return of Title IV funds under 34 CFR 668.22(j)(1)). An institution must return an inadvertent overpayment in accordance with the applicable regulations for returning overpayments.
For example, if a late disbursement would have been prohibited because the student had withdrawn and the disbursement would have been a late second or subsequent disbursement of a Direct Loan, the inadvertent overpayment must be returned because the student had not successfully completed the period of enrollment for which the loan was intended (34 CFR 668.164(g)(4)(ii)).

**Institutions are expected to have the administrative capability to prevent inadvertent overpayments on a routine basis.** Specifically, an institution is expected to have in place a mechanism for making the necessary eligibility determinations prior to the disbursement of any Title IV, HEA program funds — for example, a process by which withdrawals are reported immediately to those individuals at the institution who are responsible for making Title IV, HEA program disbursements. During a program review we would question a pattern or practice of making these inadvertent overpayments.
Examples of second or subsequent DL disbursements and an example of a second payment period Pell disbursement

Example 1

Consider a student who withdrew after completing 400 clock hours in a 900 clock-hour program and before passing the midpoint in calendar time of the loan period. The loan period is the 900 clock-hour academic year. The payment periods are 450 hours each. The Return calculation is done on a period of enrollment basis. Half of the Direct Stafford loan and half of a Federal Pell Grant were disbursed at the beginning of the first payment period and the student was scheduled to receive the other half in the second payment period. Because the student had not completed half of the clock hours and, for the loan, half of the time in the loan period, the student was not eligible to receive the second installment of the loan and the Federal Pell Grant. Therefore, the second disbursements were not made before the student withdrew.

Under current guidance, the second disbursements of both the Pell Grant and the loan are included as Aid that could have been disbursed in the calculation of earned Title IV aid so that the amount of Title IV aid used in the calculation (and earned by the student) will be larger.

Please note, however, the institution may not make a Post-withdrawal disbursement from the second scheduled disbursements of Pell or Direct Loan funds because of the prohibition on making these disbursements.

Example 2

Consider a student who completed 500 clock hours in a 900 clock-hour program and passed the midpoint in calendar time of the loan period at an institution that uses the period of enrollment as the basis for its Return calculations. The loan period is the 900 clock-hour academic year. The payment periods are 450 hours each. Half of the Stafford loan was disbursed at the beginning of the first payment period and the student was scheduled to receive the second half in the second payment period. Although the student completed half of the clock hours and passed the midpoint in calendar time of the loan period, and was otherwise eligible to receive the second installment of the loan, the second disbursement of the loan was not disbursed before the student withdrew. Because the Department had processed a SAR/ISIR, and the institution previously had certified or originated the loan before the student lost eligibility, the second disbursement of the loan is included as aid that could have been disbursed in the calculation of earned Title IV aid.

However, the late disbursement regulations prohibit an institution from making a second or subsequent disbursement of a Direct Stafford Loan unless the student has graduated or successfully completed the period of enrollment for which the loan was intended. The Return requirements, including the Post-withdrawal disbursement requirements, do not supersede this provision. Therefore, although in this case a second or subsequent Direct Loan disbursement is counted as aid that could have been disbursed for purposes of determining earned Title IV aid, the funds may not be disbursed as part of a Post-withdrawal disbursement.
Chapter 2 — Withdrawals and the Return of Title IV Funds

Late arriving aid

If a school is determining the treatment of Title IV funds on a payment period basis, the student’s Title IV program assistance used in the calculation is the aid that is disbursed or that could have been disbursed for the payment period during which the student withdrew. (Also, the institutional charges used in the calculation generally have to reflect the charges for the payment period.)

If aid that could have been disbursed during a previous payment period (completed by the student) is received in a subsequent period during which the student withdrew, the aid is not considered Aid disbursed or Aid that could have been disbursed in the period during which the student withdrew. This late-arriving assistance, while it can be disbursed in the current term, is disbursed for attendance in the previous term. Therefore, it is not included in the Return calculation for the period in which the student withdrew.

For a student who has withdrawn, a school cannot disburse aid received for a previous semester unless the student qualifies for a late disbursement.

Example 3

Consider a student who withdraws after completing 350 clock hours in a 900 clock-hour program at an institution that uses the period of enrollment as the basis for its Return calculations. The loan period is the 900 clock-hour academic year. The payment periods are 450 hours each. The institution chooses to disburse the loan in four disbursements. The first quarter of the Stafford loan for the first quarter (225 hours) of the period of enrollment has been disbursed. The student is scheduled to receive the second quarter of the loan in the second half of the first 450-hour payment period. The student withdraws during the first payment period after receiving only the first disbursement of the loan. The second, third, and fourth scheduled disbursements of the loan are included in the calculation as Aid that could have been disbursed, because the school has chosen to perform the Return calculation on the period of enrollment basis for all students in this program. However, the institution may not make a Post-withdrawal disbursement from the second (or subsequent) scheduled disbursement of the loan because of the prohibition on making second or subsequent disbursements of Direct Stafford loans when a student has not completed the period for which the loan was intended.
STEP 2: PERCENTAGE OF TITLE IV AID EARNED

The percentage of Title IV aid earned is determined differently for credit-hour program withdrawals and clock-hour program withdrawals. The requirements for determining a student’s withdrawal date, however, differ based on whether a school is required to take attendance or not. The withdrawal date is used to determine the point in time that the student is considered to have withdrawn so the percentage of the payment period or period of enrollment completed by the student can be determined. The percentage of Title IV aid earned is equal to the percentage of the payment period or period of enrollment completed.

If the day the student withdrew occurs when or before the student completed 60% of the payment period or period of enrollment, the percentage earned is equal to the percentage of the payment period or period of enrollment that was completed. If the day the student withdrew occurs after the student has completed more than 60% of the payment period or period of enrollment, the percentage earned is 100%.

Part 1 — Withdrawal date

The definition of a withdrawal date as outlined here is required for Title IV program purposes only — including the withdrawal date that a school must report to the Department if Direct Loan Program funds were received. A school may, but is not required to, use these withdrawal dates for its own institutional refund policies.

The definition of a withdrawal date is used in determining the amount of aid a student has earned. Do not confuse it with the date of the institution’s determination that the student withdrew, discussed previously and used for other purposes in the Return of funds process.

Withdrawal date for a student who withdraws from a school that is required to take attendance

The goal of the Return provisions is to identify the date that most accurately reflects the point when a student ceases academic attendance, not the date that will maximize Federal Student Aid to the institution or to the student. Generally, the most precise determination of a student’s withdrawal date is one that is made from institutional attendance records.

If a school is required to take attendance, a student’s withdrawal date is always the last date of academic attendance as determined by the school from its attendance records. This date is used for all students who cease attendance, including those who do not return from an approved LOA, those who take an unapproved LOA, and those who officially withdraw. For information on what qualifies as academic attendance see Academic attendance and attendance at an academically related activity later in this chapter.
Schools required to take attendance

In October, 2010, the Department issued regulations that modified the definition of schools required to take attendance. The Department now considers that a school is required to take attendance not only when a school is required to take attendance by an outside entity (such as the school's accrediting agency or a state agency) that has a requirement that the school take attendance, but also when:

- the school itself has a requirement that its instructors take attendance or
- the school or an outside entity has a requirement that can only be met by taking attendance or a comparable process, including, but not limited to, requiring that students in a program demonstrate attendance in the classes of that program, or a portion of that program.

These regulations describe when a school is considered to be required to take attendance for Title IV purposes; they do not require schools to take attendance. Again, a school is considered to be required to take attendance only when a school either requires the taking of attendance or is required by an outside entity to take attendance. A requirement that a student self-certify attendance directly to an outside entity does not make a school one that is required to take attendance. For example, a veterans’ benefits requirement that benefit recipients self-report attendance would not result in a school requirement to take attendance of those students unless the school is required to verify the student’s self-certification.

Example of taking attendance

For example, ten students at Peabody University receive assistance from the state. The state requires the school to take attendance for the recipients of the state’s education benefits. Peabody University is not required by any other outside entity to take attendance for any of its other students. Seven of the ten students who receive state benefits are also Title IV program recipients. If any of those seven students withdraw from the school, the school must use the state required attendance records for them to determine the withdrawal date as required for institutions required to take attendance. For all other Title IV program recipients at Peabody University who withdraw, the school must determine the withdrawal date in accordance with the requirements for students who withdraw from a school that is not required to take attendance.
A school requirement for taking attendance

If a school does not require faculty to take attendance, but a faculty member chooses to take attendance, then the school is not considered a school required to take attendance. If, however, a school requires its faculty to take attendance, whether at the program, department or institutional level, then those attendance records must be used by the school in determining a student’s date of withdrawal.

Schools that do not require the taking of attendance and are not required to take attendance by an outside entity are not prohibited from using individual faculty members’ attendance records in determining a student’s date of withdrawal. The Department encourages schools to use the best information available in making this determination.

A school is responsible for ensuring that it is in compliance with the requirements for schools that are required to take attendance even if some faculty do not comply with the school’s attendance-taking policy. For students enrolled in classes taught by faculty who fail to take attendance, a student’s withdrawal date will be the last date of academic attendance from the attendance records taken by the faculty that did take attendance. If no records of a student’s academic attendance exist, the student is considered not to have begun attendance for Title IV program purposes and never to have established eligibility for the Title IV program funds. Title IV program funds received by a student who failed to establish eligibility must be handled by the school in accordance with the procedures described in Volume 5, chapter 1, under When A Student Fails to Begin Attendance.

When a school requires faculty to provide an LDA for students who receive all “F” grades

A requirement that faculty provide a last date of attendance for students who receive all “F” grades in order to determine whether a student with failing grades has unofficially withdrawn does not make the school one that is required to take attendance.

Only if the school requires its faculty to collect or record information about whether a student was in attendance is the school considered to be one that is required to take attendance.

Monitoring students’ logging in to online classes

The monitoring of whether online students log into classes does not by itself result in a school being a school that is required to take attendance for Title IV purposes.

If, however, the monitoring of student activity is tracking academic engagement, then the school would be a school that is required to take attendance for Title IV purposes.
Requirements that can only be met by taking attendance

The Department is looking at the substance of the information that is available rather than the way that information is described or portrayed by the school or outside entity. If the school is required to collect or record information about whether a student was in attendance during a payment period, or during a limited period of time during a payment period, that information should be used to determine if the student ceased attendance during that period.

For schools that are required to measure the clock hours a student completes in a program, the Department believes that this is, in substance, a requirement for those schools to take attendance for those programs since they satisfy both the requirement of determining that a student is present and that the student is participating in a core academic activity.

Attendance taking requirements for some students

If a school is required to take attendance by an outside entity (for example, a state Workforce Development Agency), for only some students, the school is required to use those attendance records to determine a student’s withdrawal date (the last date of academic attendance) for those students. The school would not be required to take attendance for any of its other students, or to use attendance records to determine any of its other students’ withdrawal dates, unless the school is required to take attendance for those students by another outside entity.
When a school takes attendance for one day or a limited period

The October 29, 2010 final regulations added to the regulations two long-standing policies: First, if a school is required to take attendance, or requires that attendance be taken on only one specified day to meet a census reporting requirement, the school is not one required to take attendance. Second, if a school is required to take attendance, or requires that attendance be taken, for a limited period, the school must use its attendance records for that limited period to determine a withdrawal date for a student. Students in attendance the last time attendance is required to be taken during the limited period who subsequently stop attending during the payment period will be treated as students for whom the school was not required to take attendance.

Unless a school demonstrates that a withdrawn student who is not in attendance at the end of the limited period of required attendance taking attended after the limited period, the student’s withdrawal date would be determined according to the requirements for a school that is required to take attendance. That is, the student’s withdrawal date would be the last date of academic attendance, as determined by the school from its attendance records.

If the school demonstrates that the student attended past the end of the limited period, the student’s withdrawal date is determined in accordance with the requirements for a school that is not required to take attendance. So, for a student the school has determined attended past the limited period and has unofficially withdrawn, the student’s withdrawal date is the midpoint of the payment period or period of enrollment unless the school uses a last date of attendance at an academically related activity. The school, therefore, has the option to document a student’s last date of attendance at an academically related activity, but a school is not required to take attendance past the end of the limited period of attendance taking.

When attendance taking is required only for some classes

A school is only one that is required to take attendance if attendance taking is required in all classes in the program for a period of time. For example, if a school requires that attendance be taken in all core classes but not elective classes, when the core classes in the program are taken in isolation, for the period of time that students are taking only core classes, the program is one for which the school is required to take attendance.

If core and elective classes are taken at the same time and attendance taking is not required for the elective classes, then for the period of time that core and non-core classes are taken together, the school is not one that is required to take attendance for that program.
Determining a student’s withdrawal date at a school that is not required to take attendance

If a school is not required to take attendance, the determination of a withdrawal date varies with the type of withdrawal. The chart on Withdrawal Dates at the end of this chapter lists the withdrawal date for the various types of withdrawals, as well as the date of the institution’s determination that the student withdrew for each type of withdrawal.

Official notification

A student may provide official notification of his or her intent to withdraw by following the school’s withdrawal process. In this case, the withdrawal date is the date the student begins the school’s withdrawal process. A student may also provide official notification in other ways. If a student otherwise provides official notification (as explained below), the withdrawal date is the date notification was provided.

These withdrawal dates apply even if a student begins the school’s withdrawal process or otherwise notifies the school of his or her intent to withdraw and projects a future last date of attendance. However, a school that is not required to take attendance may always use a last date of attendance at an academically related activity as a student’s withdrawal date (this is discussed in detail below). Therefore, a school could use a later, last documented date of attendance at an academically related activity if this date more accurately reflects the student’s withdrawal date than the date the student begins the school’s withdrawal process or notifies the school of his or her intent to withdraw.

Official notification

34 CFR 668.22(c)(1)(i) and (ii)

Official notification defined

A notice of intent to withdraw that a student provides to an office designated by the institution.
34 CFR 668.22(c)(5)(i)

Notification example

For example, if on May 5, a student provided notification of his or her intent to cease attending the school beginning on May 10, the withdrawal date is May 5. However, the school may use May 10 as the student’s withdrawal date if the institution documents May 10 as the student’s last date of attendance at an academically related activity.
**School’s withdrawal process**

The beginning of the school’s withdrawal process must be defined. The individual definition is left up to the school. Schools are required to make available to students a statement specifying the requirements for officially withdrawing from the school.

While the institution’s officially defined withdrawal process might include a number of required steps, and though the institution might not recognize the student’s withdrawal (for purposes of determining an institutional refund) until the student has completed all the required steps, for the purpose of calculating the Return of Title IV funds, the date the student began the institution’s withdrawal process is the withdrawal date for Title IV purposes.

**Otherwise provides official notification**

Official notification to the school occurs when a student notifies an office designated by the school of his or her intent to withdraw. In its written description of its withdrawal procedures a school must designate at least one office for this purpose. For example, a school could designate a dean’s, registrar’s or financial aid office. If a student provides notification to an employee of that office while that person is acting in his or her official capacity, the student has provided official notification.

Official notification from the student is any official notification that is provided in writing or orally to a designated campus official acting in his or her official capacity in the withdrawal process. Acceptable official notification includes notification by a student via telephone, through a designated Website or orally in person. The responsibility for documenting oral notifications is the school’s; however, the school may request, but not require, the student to confirm his or her oral notification in writing. If a student provides official notification of withdrawal to the institution by sending a letter to the designated office stating his or her intent to withdraw, the withdrawal date is the date that the institution receives the letter. Notification is not provided to an institution until the institution receives the notification. Note that an institution always has the option of using the date of a student’s last participation in an academically related activity as long as that participation is documented by a campus official.
Intent to withdraw means that the student indicates he or she has either ceased to attend the school and does not plan to resume academic attendance, or believes at the time he or she provides notification that he or she will cease to attend the school. A student who contacts a school and only requests information on aspects of the withdrawal process, such as the potential consequences of withdrawal, would not be considered a student who is indicating that he or she plans to withdraw. However, if the student indicates that he or she is requesting the information because he or she plans to cease attendance, the student would be considered to have provided official notification of his or her intent to withdraw.

**When a student triggers both dates**

A student might both begin the school’s withdrawal process and otherwise provide official notification to the school of his or her intent to withdraw. For example, on November 1, a student calls the school’s designated office and states his or her intent to withdraw. Later, on December 1, the student begins the school’s withdrawal process by submitting a withdrawal form. If both dates are triggered, the earlier date, November 1 in this case, is the student’s withdrawal date.

Remember that a school that is not required to take attendance is always permitted to use the last date of an academically related activity that the student participated in as the student’s withdrawal date. So, if a student continues to attend class past the date the student provides notification, and the school chooses to do so, the school may document and use the student’s last day of attendance at an academically related activity as the student’s withdrawal date in the Return calculation.

**Official notification not provided by the student**

A student who leaves a school does not always notify the school of his or her withdrawal. There are two categories of these unofficial withdrawals for purposes of this calculation. First, if the school determines that a student did not begin the withdrawal process or otherwise notify the school of the intent to withdraw due to illness, accident, grievous personal loss or other circumstances beyond the student’s control, the withdrawal date is the date the school determines that the student ceased attendance because of the aforementioned applicable event.

The second category of unofficial withdrawals encompasses all other withdrawals where official notification is not provided to the school. This rule applies only to schools that are not required to take attendance. For these withdrawals, commonly known as dropouts, the withdrawal date is the midpoint of the payment period or period of enrollment, as applicable, or the last date of an academically related activity that the student participated in.
Withdrawal without student notification due to circumstances beyond the student’s control

There are two circumstances in which a special rule applies that defines a withdrawal date for a student who withdraws due to circumstances beyond the student’s control. They apply when (1) a student who would have provided official notification to the school was prevented from doing so due to those circumstances; and (2) a student withdrew due to circumstances beyond the student’s control and a second party provided notification of the student’s withdrawal on the student’s behalf.

A school may determine the withdrawal date that most accurately reflects when the student ceased academic attendance due to the circumstances. If a student is assaulted, he or she may continue to attend school, but ultimately not be able to complete the period because of the trauma experienced. Because the student’s withdrawal was the result of the assault, the withdrawal date would be the date the student actually left the school, not the date of the assault. A school should document that the student left at the later date because of issues related to the assault.

If a school administratively withdraws a student (e.g., expels, suspends or cancels the student’s registration) who has not notified the school of his or her intent to withdraw, the last possible date of withdrawal for the student is the date the school terminates the student’s enrollment. However, an institution may not artificially create a withdrawal date for such a student that is beyond the midpoint of the period by simply choosing to withdraw the student after the midpoint. Of course, if the school can document that the student continued his or her attendance past the midpoint, the school may use a later date.

All other withdrawals without student notification

For all other withdrawals without notification, the withdrawal date is the midpoint of the payment period or the period of enrollment, as applicable at an institution not required to take attendance by an outside entity.
Timeframe for the determination of a withdrawal date for an unofficial withdrawal

A school may not know that a student has dropped out (unofficially withdrawn) until the school checks its records at the end of an academic period. However, to ensure that Title IV funds are returned within a reasonable period of time, a school must determine the withdrawal date (for a student who withdrew without providing notification) within 30 calendar days from the earlier of (1) the end of the payment period or period of enrollment, as applicable, (2) the end of the academic year or (3) the end of the student’s educational program.

A school must develop a mechanism for determining whether a student who began attendance and received or could have received an initial disbursement of Title IV funds unofficially withdrew (ceased attendance without providing official notification or expressed intent to withdraw) during a payment period or period of enrollment, as applicable. Section 34 CFR 668.22(j)(2) requires that a school have a mechanism in place for identifying and resolving instances where a student’s attendance through the end of the period cannot be confirmed. That is, institutions are expected to have procedures for determining when a student’s absence is a withdrawal. The school must make that determination as soon as possible, but no later than 30 days after the end of the earlier of –

- the payment period or period of enrollment, as applicable;
- the academic year or
- the program.

When students fail to earn a passing grade in any of their classes

An institution must have a procedure for determining whether a Title IV recipient who began attendance during a period completed the period or should be treated as a withdrawal. We do not require that an institution use a specific procedure for making this determination.

If a student earns a passing grade in one or more of his or her classes offered over an entire period, for that class, an institution may presume that the student completed the course and thus completed the period. If a student who began attendance and has not officially withdrawn fails to earn a passing grade in at least one course offered over an entire period, the institution must assume, for Title IV purposes, that the student has unofficially withdrawn, unless the institution can document that the student completed the period.
In some cases, a school may use its policy for awarding or reporting final grades to determine whether a student who failed to earn a passing grade in any of his or her classes completed the period. For example, a school might have an official grading policy that provides instructors with the ability to differentiate between those students who complete the course but failed to achieve the course objectives, and those students who did not complete the course. If so, the institution may use its academic policy for awarding final grades to determine that a student who did not receive at least one passing grade nevertheless completed the period. Another school might require instructors to report, for all students awarded a non-passing grade, the student’s last day of attendance (LDA). The school may use this information to determine whether a student who received all “F” grades withdrew. If one instructor reports that the student attended through the end of the period, then the student is not a withdrawal. In the absence of evidence of a last day of attendance at an academically related activity, a school must consider a student who failed to earn a passing grade in all classes to be an unofficial withdrawal.

**Example of a grading policy that could be used to determine whether a student unofficially withdrew**

**F** (Failing) Awarded to students who complete the course but fail to achieve the course objectives.

**U** (Unauthorized Incomplete) Awarded to students who did not officially withdraw from the course, but who failed to participate in course activities through the end of the period. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible.

To serve as documentation that a student who received all “F” grades had not withdrawn, such a grading policy would have to require instructors to award the “F” (or equivalent grade) only to students who completed the course (but who failed to achieve the course objectives). In addition, the policy would have to require that instructors award an alternative grade, such as the “U” grade (in the example above), to students who failed to complete the course. If the system allows an instructor to indicate the date the student last participated in course activities, this date would be helpful if an institution chose to use attendance at an academically related activity as a student’s withdrawal date.

At a school using such a grading policy, if a student received at least one grade of “F” the student would be considered to have completed the course and, like a student who received at least one passing grade, would not be treated as a withdrawal. A student who did not officially withdraw and did not receive either a passing grade or an “F” in at least one course must be considered to have unofficially withdrawn. As noted above, when a student unofficially withdraws from an institution that is not required to take attendance, the institution may use either the student’s last date of attendance at an academically related activity or the midpoint of the period as the student’s withdrawal date.
Last date of attendance at an academically related activity

A school that is not required to take attendance may always use a student’s last date of attendance at an academically related activity, as documented by the school, as the student’s withdrawal date, in lieu of the withdrawal dates listed above. So, if a student begins the school’s withdrawal process or otherwise provides official notification of his or her intent to withdraw and then attends an academically related activity after that date, the school would have the option of using that last actual attendance date as the student’s withdrawal date, provided the school documents the student’s attendance at the activity. Similarly, a school could choose to use an earlier date if it believes the last documented date of attendance at an academically related activity more accurately reflects the student’s withdrawal date than the date the student began the school’s withdrawal process or otherwise provided official notification of his or her intent to withdraw. Please note that a school is not required to take class attendance in order to demonstrate academic attendance for this purpose. For more information on what qualifies as academic-related activity, see the discussion under Academic attendance and attendance at an academically related activity.

Withdrawals after rescission of official notification

A student may provide official notification to the school of the intent to withdraw and then change his or her mind. To allow a student to rescind his or her intent to withdraw for purposes of this calculation, the school must obtain a written statement from the student stating his or her intent to remain in academic attendance through the end of the payment period or period of enrollment. If the student subsequently withdraws after rescinding an intent to withdraw, the withdrawal date is the date the student first provided notification to the school or began the school’s withdrawal process, unless the school chooses to document a last date of attendance at an academically related activity.

For example, Dave notifies his school of his intent to withdraw on January 5. On January 6, Dave notifies the school that he has changed his mind and has decided to continue to attend the school, and provides the required written statement to that effect. On February 15, Dave notifies the school that he is withdrawing and actually does. The school has a record of an exam that Dave took on February 9. The school may use February 9 as Dave’s withdrawal date.

If the school could not or did not choose to document a last date of attendance at an academically related activity for Dave (in this case, the record of the exam), his withdrawal date would be January 5, the date of Dave’s original notification of his intent to withdraw, not February 15.
Academic attendance and attendance at an academically related activity.

For a school that is required to take attendance, the withdrawal date is always the last date of academic attendance as determined by the school from its attendance records. A school that is not required to take attendance may always use as a withdrawal date a student’s last date of attendance at an academically related activity.

Moreover, the school (not the student) must document –

- that the activity is academic or academically related, and
- the student’s attendance at the activity.

Academically related activities include, but are not limited to — physically attending a class where there is an opportunity for direct interaction between the instructor and students;

- submitting an academic assignment;
- taking an exam, an interactive tutorial or computer-assisted instruction;
- attending a study group that is assigned by the school;
- participating in an online discussion about academic matters and
- initiating contact with a faculty member to ask a question about the academic subject studied in the course.

A school that is required to take attendance may use the school’s records of attendance at these activities as evidence of attendance, provided there is no conflict with the requirements of an outside entity that requires the school to take attendance or, if applicable, the school’s own requirements.

Academically related activities do not include activities where a student may be present, but not academically engaged, such as —

- living in institutional housing;
- participating in the school’s meal plan;
- logging into an online class without active participation or
- participating in academic counseling or advisement.

Participation in academic counseling and advising are no longer considered to be academic attendance or attendance at an academically related activity.
In a distance education context, documenting that a student has logged into an online class is not sufficient, by itself, to demonstrate academic attendance by the student. A school must demonstrate that a student participated in class or was otherwise engaged in an academically related activity, such as by contributing to an online discussion or initiating contact with a faculty member to ask a course-related question.

**Documentation of a withdrawal date**

A school must document a student’s withdrawal date and maintain that documentation as of the date of the school’s determination that the student withdrew. A school must determine the attendance records that most accurately support its determination of a student’s withdrawal date and the school’s use of one date over another if the school has conflicting information. The determination of a student’s withdrawal date is the responsibility of the school. A student’s certification of attendance that is not supported by institutional documentation is not acceptable. If a school is required to take attendance, it is up to the school to ensure that accurate attendance records are kept for purposes of identifying a student’s last date of academic attendance.

As with other Title IV program records, documentation must be retained and available for examination in accordance with the regulatory provisions for recordkeeping (sec. 668.24).

---

**Documenting a student’s withdrawal date**

34 CFR 668.22(b)(2)
34 CFR 668.22(c)(4)

**Determining a student’s withdrawal date at a school that is not required to take attendance**

34 CFR 668.22(c)

---

**Maintaining Records**

A school must determine and maintain the records that most accurately support its determination of a student’s withdrawal date and the school’s use of one withdrawal date over another if the school has conflicting information.

At a school that is not required to take attendance, but is using a last date of attendance at an academically related activity as a withdrawal date, it is up to the school to ensure that accurate records are kept for purposes of identifying a student’s last date of academic attendance or last date of attendance at an academically related activity.
Withdrawals from programs offered in modules

Previously, under guidance provided in Dear Colleague Letter GEN-00-24, if a student attending a standard, term-based program offered in modules ceased attendance after completing one module, the student was not considered to have withdrawn, and the school was not required to perform a Return calculation. This is no longer the case. Under the October 29, 2010, final regulations, for all programs offered in modules, a student is a withdrawal for Title IV purposes if the student ceases attendance at any point prior to completing the payment period or period of enrollment, unless the school obtains written confirmation from the student at the time of the withdrawal that he or she will attend a module that begins later in the same payment period or period of enrollment.

In addition, for a student in a nonterm or nonstandard-term program offered in modules, a student is considered to have withdrawn from the program if the student is not scheduled to begin another course within the payment period or period of enrollment for more than 45 calendar days after the end of the module the student ceased attending, unless the student is on an approved leave of absence. So, for a student in a nonterm or nonstandard term program offered in modules who ceases attendance, the student is a withdrawal for Title IV purposes unless the school obtains written confirmation from the student at the time of the withdrawal that he or she will attend a module that begins later in the same payment period or period of enrollment, provided the later module the student will attend begins no later than 45 calendar days after the end of the module the student ceased attending.

If a school obtains a written confirmation of future attendance but the student does not return as scheduled, the student is considered to have withdrawn from the payment period or period of enrollment and the student’s withdrawal date and the total number of calendar days in the payment period or period of enrollment would be the withdrawal date and total number of calendar days that would have applied if the student had not provided written confirmation of future attendance.

As discussed earlier in this chapter under Re-entry within 180 days, if a student who withdraws from a clock-hour or non-term credit hour program returns to the same program at the school within 180 calendar days, the student is treated as though he or she did not cease attendance. Similarly, under the October 29, 2010, final regulations, if a student enrolled in a term-based, credit-hour program offered in modules who withdrew without confirming an intent to return to a module later in the payment period or period of enrollment re-enters the same program prior to the end of the payment period or period of enrollment, the student is treated as if he or she did not cease attendance.
Determining if a program is offered in modules

A program is offered in modules if, for a payment period or period of enrollment, a course or courses in the program do not span the entire length of the payment period or period of enrollment. The determination of whether a program is offered in modules is made on a payment period-by-payment period or period of enrollment-by-period of enrollment basis, as appropriate, and is student specific. So, while some payment periods or periods of enrollment in a student’s program may be considered to be offered in modules, others may not. If all the courses in a program for a particular payment period or period of enrollment, as applicable, span the entire length of the period, the program is never considered to be offered in modules for that period for any student who withdraws during the period.

Conversely, if none of the courses in a program for a particular payment period or period of enrollment span the entire length of the period, the program is always considered to be offered in modules for that period for any student who withdraws during the period. If some courses in the program for a particular payment period or period of enrollment span the entire length of the period but some do not, the program is considered to be offered in modules only for those students who are scheduled to attend at least one course that does not span the entire length of the period, and withdraw during the period.

For example, an institution offers a credit hour program in semesters with two optional summer sessions. All the courses in the fall and spring semesters span the entire length of the semester. The two summer sessions are offered sequentially and are both seven weeks long. The institution chooses to combine the summer sessions into one term. Students have the option to enroll in either session or both sessions. The fall and spring semesters are never considered to be offered in modules for any student who withdraws because all classes span the entire length of the payment period (the term). However, for the summer sessions, where the payment period is the term comprising both sessions, all students who withdraw are considered to be withdrawing from a program offered in modules (with each session being a module) because none of the courses offered spans the entire length of the payment period. If, for the summer term, the institution also offered courses that were 14 weeks in length (i.e., spanned the entire length of the payment period) and a student who withdrew was scheduled to attend only these 14-week long courses, the program would not be considered to be offered in modules for purposes of determining the applicability of the Return of Title IV Funds requirements to that student’s withdrawal.
How to determine whether a student in a program offered in modules has withdrawn

Schools can determine whether a student enrolled in a series of modules is a withdrawal by asking the following questions.

1) After beginning attendance in the payment period or period of enrollment, did the student cease to attend or fail to begin attendance in a course he or she was scheduled to attend?

   If the answer is no, this is not a withdrawal. If the answer is yes, go to question 2.

2) When the student ceased to attend or failed to begin attendance in a course he or she was scheduled to attend, was the student still attending any other courses?

   If the answer is yes, this is not a withdrawal; however other regulatory provisions concerning recalculation may apply. If the answer is no, go to question 3.

3) Did the student confirm attendance in a course in a module beginning later in the period (for nonterm and nonstandard term programs, this must be no later than 45 calendar days after the end of the module the student ceased attending)?

   If the answer is yes, this is not a withdrawal, unless the student does not return. If the answer is no, this is a withdrawal and the Return of Title IV Funds requirements apply.
Examples of using the three questions to determine whether a student who is scheduled to complete two courses in each of the first two of three modules within a payment period has withdrawn

Scenario 1

The student begins attendance in both courses in the first module, but ceases to attend both courses after just a few days and does not confirm that he will return to any courses in modules two or three. The student is a withdrawal because he or she ceased to attend courses he or she was scheduled to attend (Yes to question 1); was not still attending any other courses (No to question 2); and did not confirm attendance in a course in a module beginning later in the period (No to question 3).

Scenario 2

If, however, the student begins attendance in both courses in the first module, but drops just one of the courses after just a few days, the student is not a withdrawal. Although the student ceased to attend a course he or she was scheduled to attend (Yes to question 1), the student was still attending another course (Yes to question 2). Of course, the student's eligibility must be recalculated.

Scenario 3

If the student completes both courses in module one, but officially drops both courses in module two while still attending the courses in module one, the student is not a withdrawal. Because the student officially dropped both courses in module two before they began, the student did not cease to attend or fail to begin attendance in a course he or she was scheduled to attend (No to question 1). However, because the student did not begin attendance in all courses, other regulatory provisions concerning recalculation may apply.
When a student who has withdrawn returns within a payment period or period of enrollment

If a withdrawn student returns to the school within the same payment period or period of enrollment for a term-based program offered in modules, or within 180 calendar days for a clock-hour or non-term credit hour program, the student is treated as though he or she did not cease attendance and the school must “undo” the Return of Title IV Funds calculation.

As with a student who re-enters a clock hour or nonterm credit hour program within 180 days, for a student who returns to a term-based credit hour program offered in modules within the same payment period or period of enrollment, the school must restore the student’s original Title IV program funds award to the original amounts, with no adjustments required for partial attendance of a module. However, if a student did not attend an entire module he or she was originally scheduled to attend during the time the student was away from the school, the school must adjust the student’s original Title IV fund amounts to take into account that the student never began the courses in that module.

The regulations require that funds be returned to ED or delivered or offered to a student due a Post-withdrawal disbursement within a specified period of time, and a school is expected to begin the Return of Title IV funds process immediately upon its determination that a student has withdrawn in order to perform any required actions in a timely manner. (See the chart, Return of Title IV Funds Requirements and Deadlines for a description of all time-limited actions.) Therefore, once it has determined that a student has withdrawn, a school may not delay performing a Return calculation to see if the student will return later in the payment period or period of enrollment.

For further treatment of this topic, please see the discussion under Special Treatment of students who withdraw and then transfer or re-enter a credit-hour, nonterm-based program or a program that measures progress in clock hours earlier in this chapter.
Chapter 2 — Withdrawals and the Return of Title IV Funds

Written confirmation of future attendance

A student is not considered to have withdrawn if the school obtains a written confirmation from the student at the time of the withdrawal that he or she will attend a module that begins later in the same payment period or period of enrollment. This confirmation must be obtained at the time of withdrawal, even if the student has already registered for subsequent courses.

“At the time that would have been a withdrawal” means close to the date that the student actually ceased attendance and before the time when the school was required to return Title IV funds, offer any Post-withdrawal disbursement of loan funds or take any other action under the Return of Title IV Funds requirements. Without confirmation of future attendance, a school must assume a student who has ceased attendance is a withdrawal and begin the Return of Title IV Funds process. A school is expected to begin the Return of Title IV Funds process immediately upon its determination that a student has withdrawn in order to perform required actions in a timely manner, and may not delay the Return of Title IV Funds process in case a student might return. Of course, because the notice must confirm attendance in a module that begins later in the same payment period or period of enrollment, the notice must always be obtained prior to the beginning of the module in which the student is confirming attendance.

A student who has provided written confirmation of his or her intent to return is permitted to change the date of return to a module that begins even later in the same payment period or period of enrollment, provided that the student does so in writing prior to the return date that he or she had previously confirmed, and, for nonterm and nonstandard-term programs, the later module that he or she will attend begins no later than 45 calendar days after the end of the module the student ceased attending.

Online confirmation of attendance

An online confirmation of future attendance from a student may constitute written confirmation that the student will attend a module that begins later provided that the confirmation is a timely positive confirmation of future attendance. A school may not assume a student will be returning for a later module in which he or she was registered before the student ceases attendance. Rather, the school must ensure that the online confirmation requires the student to reaffirm attendance in a module that begins later in the period if that attendance is the basis for the future attendance. Of course, if at the time of the withdrawal, the student enrolled in a course in a later module in the same payment period or period of enrollment (that the student was not previously scheduled to attend), the newly added course would count as positive confirmation of future attendance for Title IV, HEA program purposes.

When a student ceases attendance between modules

A student who ceases attendance between modules that he or she was scheduled to attend is considered to have withdrawn because: (1) the student has not completed all the days in the payment period that he or she was scheduled to complete (§668.22(a) (2)(ii)(A)); and (2) his or her Title IV aid was based on attendance in all the modules he or she was originally scheduled to attend.

For example, a student enrolls in two three-credit courses in the first module (35 days in the module), and one three-credit course in the second module of a semester (35 days in the second module) comprising three modules of five weeks each. The student completes the two courses in the first module, but never begins attendance in the second module and does not provide written confirmation of future attendance in the payment period (the semester). The student is considered to have withdrawn because the student was scheduled to complete, but did not complete, the days in the second module. Under the new regulations, completion of one course in one module in a term-based, credit-hour program no longer results in a student not being counted as a withdrawal; therefore, the institution would make a determination that the student earned 50 percent of his or her Title IV, HEA program funds (35 days / 70 days = 50 percent).
Withdrawal date from a program offered in modules

The October, 2010, regulations do not change the definition of a student’s withdrawal date under §668.22.

For a school that is required to take attendance, a student’s withdrawal date is always the last date of academic attendance as determined by the school from its attendance records (34 CFR 668.22 (b)(1)). For a school that is not required to take attendance, the withdrawal date is determined in accordance with the requirements of section 34 CFR 668.22 (c).

The withdrawal date for a student who withdraws from a school that is not required to take attendance when the student does not provide official notification to the school of his or her withdrawal (i.e., unofficially withdraws), is the midpoint (the 50 percent point) of the payment period or period of enrollment.

To determine the midpoint of the payment period or period of enrollment for a student who withdraws from a program offered in modules, a school must first determine the length of the payment period or period of enrollment (i.e., the total number of calendar days in the period) for Return of Title IV Funds purposes as discussed under Determining the percentage of the payment period or period of enrollment completed for a student who withdraws from a program offered in modules later in this chapter.

Consider a student who, after completing the first module, withdraws on day 20 of the second module of a period comprising two eight-week modules with a four day break in between. The total number of calendar days in the payment period or period of enrollment includes all days in the payment period or period of enrollment, excluding days in which the student was on an approved leave of absence, and scheduled breaks of at least five consecutive days when the student is not scheduled to attend a module or other course offered during that period of time. Because there are no scheduled breaks of at least five consecutive days during or between the modules, the total number of calendar days in the period would be the total number of days in each module (8 weeks x 7 days=56 days in each module; 56 days x 2 modules=112 days in the modules) plus the four days in between the modules (112 days in the modules + 4 days between modules) for a total of 116 calendar days in the period). Therefore, the midpoint and, thus, the withdrawal date would be day 58.
Determining the percentage of the payment period or period of enrollment completed for a student who withdraws from a program offered in modules

In determining the percentage of the payment period or period of enrollment completed for a student who withdraws from a program offered in modules, the school includes in the denominator (the total number of calendar days in the payment period or period of enrollment) all days within the period that the student was scheduled to complete prior to ceasing attendance, excluding days in which the student was on an approved leave of absence and any scheduled breaks of at least five consecutive days when the student was not scheduled to attend a module or other course offered during that period of time.

Note that, for nonterm credit hour programs offered in modules, a school must take into consideration any credits that a student has attempted, but not successfully completed before withdrawing, as well as whether the program is self-paced when determining the total number of calendar days in the period. For more information, see Credit hour programs under Percentage of Title IV aid earned for a withdrawal from a credit-hour nonterm program later in this chapter. The numerator includes the number of the total days in the payment period or period of enrollment that the student has completed.

Adjustments to a student’s enrollment status made after the student ceases attendance have no bearing on the Return requirements. Thus, if a student enrolled in three modules completes one module and drops the two remaining modules after ceasing attendance, the total number of calendar days in this student’s payment period or period of enrollment would include the days in all three modules, except for any scheduled breaks of at least five consecutive days when the student is not scheduled to attend a module or other course offered during that period of time, and days in which the student was on an approved leave of absence. However, if the student drops the classes in the two remaining modules prior to ceasing attendance (necessitating a recalculation of the student’s eligibility for Title IV funds), the total number of calendar days in the student’s payment period or period of enrollment would include only the days in the first module, except for any scheduled breaks of at least five consecutive days and days in which the student was on an approved leave of absence. Note that scheduled breaks include both those within and between modules. So, breaks of less than five consecutive days, including those that take place between modules, are included in the total number of days in the period, and breaks longer than five days within or between modules are not.
Aid to include in the Return calculation

If a student withdraws before beginning attendance in the number of credit hours for which the Federal Pell Grant and Campus-Based funds were awarded, before performing the required Return calculation, a school must recalculate the student’s eligibility for Pell and Campus-Based funds based on a revised cost of education and enrollment status (34 CFR 690.80(b)(2)(ii)). The school then performs a Return calculation using the student’s revised award.

For such a student, a change in enrollment status to less than half time as a result of the failure to begin attendance in all subsequent modules would not affect a student’s eligibility for any federal education loan funds previously received because at the time the previous disbursements were made, the student was still scheduled to attend on at least a half-time basis. (Of course, a student may not receive as a late disbursement any second or subsequent disbursement of the loan.)

A school may not disburse the proceeds of a Direct Loan to an ineligible borrower. Therefore, if a student who was enrolled in a series of modules withdraws before beginning attendance as a half-time student, and the student had not received the first disbursement of Title IV loan before withdrawing, the school may not make the first disbursement because the school knows the student was never enrolled on at least a half-time basis. Section 668.164(g)(3)(iii), which permits a school to make a late disbursement of a Direct Loan for costs incurred to a student who did not withdraw, but ceased to be enrolled as at least a half-time student, does not apply because the student never really was a half-time student.

Recalculation for students withdrawing from non-term programs offered in modules

Any time a student enrolled in a non-term program offered in modules changes his or her enrollment status, the school must recalculate the student’s COA to determine if the student’s eligibility for Campus-Based funds has changed. The school may not include in the COA costs associated with any classes the student failed to begin. The school does not have to recalculate the student’s eligibility for Pell.

When a student enrolled in a non-term program withdraws, a school that calculates Returns on a period of enrollment basis may not include in the COA costs associated with any future payment period for which the student has not confirmed attendance at the time of withdrawal and that does not start within 45-days.

Title IV program funds are disbursed to a student on the presumption that he or she will attend the hours for which aid has been awarded. Therefore, a school is not required to delay the disbursement of Title IV program funds until a student has attended enough hours to qualify for the enrollment status for which the funds were awarded. However, if the student has withdrawn and has not begun attendance in enough courses to establish a half-time enrollment status, the presumption is no longer valid. Thus, the school may not make a first disbursement of a Direct Loan to such a student. Section 668.164(g)(3)(iii), which permits a school to make a late disbursement of a Direct Loan for costs incurred to a student who did not withdraw, but ceased to be enrolled as at least a half-time student, does not apply because the student never really was a half-time student.
For example, take a credit-hour program where each semester comprises three modules of five weeks each. If a student enrolls in one three-credit course in the first module, and one three-credit course in the second module, the student will not begin attendance in six credit hours, the school’s minimum half-time enrollment status, until starting the course in the second module. The school is not required to, nor should it, delay the disbursement of the student’s Direct Loan program funds until the student begins the course in the second module. However, if the student withdraws during the first module and the school has not made the first disbursement of a Direct Loan to the student prior to the withdrawal, the school may not make that first disbursement of the Direct Loan to the student at this point (although the loan would be included as *Aid that could have been disbursed*).
Withdrawal date when a student dies

If an institution that is not required to take attendance is informed that a student has died, it must determine the withdrawal date for the student under 34 CFR 668.22(c)(1)(iv). This section provides that, if the institution determines that a student did not begin its withdrawal process or otherwise provide official notification of his or her intent to withdraw because of illness, accident, grievous personal loss, or other such circumstances beyond the student’s control, the withdrawal date is the date that the institution determines is related to that circumstance.

The withdrawal date can be no later than the date of the student’s death. For an institution that is required to take attendance, the withdrawal date for a student who has died is the last date of attendance as determined from the institution’s attendance records. In all cases, the institution should maintain the documentation it received that the student has died and determine an appropriate withdrawal date. (For more information on how the death of a student affects the Return process, see the discussion under Death of a student later in this chapter.)
Part 2 – Percentage of Aid Earned
Percentage of payment period or period of enrollment completed

Once a student’s withdrawal date is determined, a school needs to calculate the percentage of the payment period or period of enrollment completed. The percentage of the payment period or period of enrollment completed represents the percentage of aid earned by the student. This percentage is determined differently for students who withdraw from credit-hour programs and students who withdraw from clock-hour programs.

Scheduled breaks

Institutionally scheduled breaks of five or more consecutive days are excluded from the Return calculation as periods of nonattendance and, therefore, do not affect the calculation of the amount of Federal Student Aid earned. This provides for more equitable treatment of students who officially withdraw near either end of a scheduled break. In those instances, at institutions not required to take attendance, a student who withdrew after the break would not be given credit for earning an additional week of funds during the scheduled break, but would instead earn funds only for the day or two of training the student completed after the break. If a scheduled break occurs prior to a student’s withdrawal, all days between the last scheduled day of classes before a scheduled break and the first day classes resume are excluded from both the numerator and denominator in calculating the percentage of the term completed. If a student officially withdraws while on a scheduled break of less than five days, the actual date of the student’s notification to the institution is the student’s withdrawal date. (Note that if the withdrawal occurs prior to a scheduled break, the days in the break are excluded only from the denominator.)

Please note that the beginning date of a scheduled break is defined by the school’s calendar for the student’s program. In a program where classes only meet on Saturday and/or Sunday, if a scheduled break starts on Monday and ends on Friday, the five weekdays between the weekend classes do not count as a scheduled break because the break does not include any days on which classes are scheduled. Therefore, the five days would not be excluded from the numerator or denominator in STEP 2 of a Return calculation.
Example of Withdrawal Date When a Student Withdraws During a Scheduled Break of Five or More Days

If a student officially withdraws while on a scheduled break of five consecutive days or more, the withdrawal date is the last date of scheduled class attendance prior to the start of the scheduled break. For example, the institution's last date of scheduled class attendance prior to spring break is Friday, March 7. Spring break at the institution runs from Saturday, March 8, to Sunday, March 16. If the student contacts the institution's designated office on Wednesday, March 12, to inform the institution that he will not be returning from the institution's Spring break, the student's withdrawal date is Friday, March 7, which was the institution's last day of scheduled class attendance.

However, the date of the institution's determination that the student withdrew is March 12, the date the student actually informed the institution that he would not be returning. The date of the institution's determination that the student withdrew is used as the starting date for institutional action, such as the requirement that an institution return Title IV funds for which it is responsible no later than 45 days after this date.
Credit-hour programs

For a credit-hour program, the percentage of the period completed is determined by dividing the number of calendar days completed in the payment period or period of enrollment, as of the day the student withdrew, by the total number of calendar days in the same period.

The number of calendar days in the numerator or denominator includes all days within the period, except for institutionally scheduled breaks of five or more consecutive days. Days in which the student was on an approved leave of absence would also be excluded. The day the student withdrew is counted as a completed day.

Percentage of Title IV aid earned for withdrawal from a credit-hour nonterm program

The regulations provide that the percentage of Title IV aid earned by a student is equal to the percentage of the period completed by the student (except if that percentage is more than 60%, the student is considered to have earned 100% of the Title IV aid). For any credit-hour program, term-based or nonterm-based, the percentage of the period completed is calculated as follows:

\[
\text{Percentage earned} = \frac{\text{Number of calendar days completed in the period}}{\text{Total number of calendar days in the period}}
\]

Scheduled breaks of at least five consecutive days and days in which the student was on an approved LOA are excluded from this calculation (34 CFR 668.22(f)(1)(i) and (2)).

In a credit-hour, nonterm program, the ending date for a period and, therefore, the total number of calendar days in the period, may be dependent on the pace at which an individual student progresses through the program. Therefore, for a student who withdraws from a credit-hour, nonterm program in which the completion date of the period is dependent on an individual student’s progress, an institution must project the completion date based on the student’s progress as of his or her withdrawal date to determine the total number of calendar days in the period. (See the example that follows.)

If a student withdraws from a self-paced nonterm credit-hour program before earning any credits, the institution must have a reasonable procedure for projecting the completion date of the period. To the extent that any measure of progress is available, the institution should base its determination on that progress (see examples 2 and 3).
For a school that offers credit-hour, nonterm programs in which the student does not earn credits or complete lessons as he or she progresses through the program, the institution must have a reasonable procedure for projecting the completion date of the period based on the student’s progress before withdrawal. If the total number of calendar days in the period is not dependent on the pace at which a student progresses through a program (the completion date is the same for all students) and the student has not failed any courses for which he or she was paid in the payment period, the total number of calendar days in the period will be the same for all students.

Consider a nonterm credit-hour program offered in modules where some or all courses are offered sequentially and all students begin and end the modules at the same time. For a student who successfully completed all modules attempted up to the time the student withdrew, the completion date (and the corresponding number of days in the Return calculation) will be the number of days between the start of the first module and the originally scheduled end of the last module.

However, an institution must take into consideration any credits that a student has attempted, but not successfully completed before withdrawing. (Those credits must be successfully completed before the student is considered to have completed the period.) To do this, the school must modify the denominator used in the Return calculation. The school must add to the number of days between the start of the first module and the scheduled end of the last module, the number of days the student spent in the failed courses/module(s) the student did not successfully complete.
Examples of Calculating a completion date for a student who withdraws from a credit-hour, nonterm program

Example 1, lessons completed

David enrolled in a program offered in a credit-hour nonterm format and withdrew before earning any credits, but has completed two lessons. The institution uses David's completed assignments as an interim measure of his progress and compares it to information from its records about other students who have completed the same program to determine an end date.

Looking at the records of students who have completed the same program, the institution identifies other students who complete the two lessons in approximately the same amount of time as David. The school determines the number of days it took those students to complete the period. The institution uses the same number of days in the denominator of the Return calculation for David.

Example 2, nothing completed

Danny enrolls in a program offered in a credit-hour nonterm format. Danny withdraws before earning any credits, completing any lessons, or providing any other measure of progress toward the course or program goals at the time he withdrew. The institution uses its records to identify the student who took the longest to complete the period to determine the number of days it took that student to complete the period. The institution uses the same number of days in the denominator of the Return calculation for Danny.

Continued on next page
Calculating a completion date for a student who withdraws from a credit-hour, nonterm program

Example 3, percentage completed

Barbara is enrolled in a 24 credit-hour nonterm program at an institution that calculates Returns on a payment period basis. Students in the program are expected to complete 12 credit hours each payment period in 15 weeks (105 days).

When Barbara began classes, she received a Federal Pell Grant and a Stafford Loan. She completed the 12 credit hours in the first payment period (the first half of the program) in 120 days (past the calendar midpoint of the original program length of 210 days). When Barbara completed the first half of her program she became eligible for the second disbursements of both her Federal Pell Grant and Stafford Loan.

Barbara withdrew from school on day 53 of the second payment period. At the time she withdrew Barbara had completed only one-third of the work (four credits) in the payment period. If Barbara had continued to progress at her current pace of four credits earned every 53 days, Barbara would not complete the additional eight credit hours for another 106 days. She would not complete the 12 credit hours in the second payment period until day 159.

For this student, therefore, the total number of days in the payment period (and the number used in the denominator of the Return calculation) is 159. The percentage of the payment period Barbara completed before withdrawing is 33.3% (53 days completed divided by 159 total days in the payment period).

In general, to calculate the number of days in the period do the following:

Determine the percentage of credits earned

\[
\frac{\text{Number of credits completed (4)}}{\text{Number of credits in payment period (12)}} = \text{Percentage of credits earned (.333)}
\]

Determine the number of days in the period

\[
\frac{\text{Number of days attended (53)}}{\text{Percentage of credits earned (.333)}} = \text{Number of days in the period (159)}
\]

The school enters “159” as the number of “Total Days” in STEP 2, Box H, of the Return calculation.
Example 4, projecting a completion date for a withdrawal from a self-paced, non-term program

Pixie is enrolled in a self-paced 30 credit-hour, nonterm program in pet grooming offered over 30 weeks at an institution that calculates Returns on a payment period basis. Students in the program are expected to complete three modules of five credits hours each over the 15 weeks (105 days) in a payment period. (A student is expected to complete each five credit module in five weeks (35 days) time.)

It takes Pixie 7 weeks (49 days) to complete 100% of the lessons in the first module and she did not earn a passing grade (the lack of opposable thumbs was a disadvantage she could not overcome). Pixie decides to withdraw from school in order to accept a position as a cohost of the annual AKC show at Madison Square Garden.

Because Pixie is a withdrawal, the school must perform a Return calculation. In addition, because Pixie was progressing more slowly than the rate expected, the school must project a new end date and a new number of “total days” to be used in the Return calculation.

Important: Because Pixie was progressing at a slower rate (it took her 49 days instead of 35) to complete 100% of the lessons in the first module, the school can not simply add the length of a scheduled (make-up) module (35 days) to arrive at the projected number of days in the payment period. The school must project the number of days in the period as follows.

Project the time it would have taken Pixie to complete the first module by dividing the number of days attended (28) by the percentage of the lessons completed.

\[
\frac{\text{Number of days attended (49)}}{\text{Percentage of payment period completed (1.00)}} = \text{Number of days required for one module (49)}
\]

Project the number of days in the payment period by multiplying the number of days required for one module (49) by the number of modules in the payment period (3) and adding a module (1) for the student to make up the module failed.

\[
\text{Number of days it takes a student to complete a module (49)} \times \left(\frac{\text{Number of modules in payment period (3) + a makeup module (1)}}{4}\right) = \text{Number of projected days in payment period (196)}
\]

The school enters “196” as the number of “Total Days” in STEP 2, Box H, of the Return calculation.
Clock-hour programs

Only scheduled hours are now used to determine the percentage of the period completed by a student withdrawing from a clock-hour program.

For a clock-hour program, the percentage of the period completed is determined by dividing the number of hours the student was scheduled to complete in the payment period or period of enrollment, as of the day the student withdrew, by the total number of clock hours in the same period as follows:

\[
\text{percentage completed} = \frac{\text{number of clock hours the student was scheduled to complete in the period}}{\text{total number of clock hours in the period}}
\]

A student withdrawing from a clock-hour program earns 100 percent of his or her aid if the student’s withdrawal date occurs after the point that he or she was scheduled to complete 60 percent of the scheduled hours in the payment period or period of enrollment.

The scheduled clock hours used for a student must be those established by the school prior to the student’s beginning class date for the payment period or period of enrollment, and must have been established in accordance with any requirements of the state or the institution’s accrediting agency. These hours must be consistent with the published materials describing the institution’s programs. However, if an institution modified the scheduled hours in a student’s program prior to and unrelated to, his or her withdrawal in accordance with any state or accrediting agency requirements, the new scheduled hours may be used.
**When a school disburses Title IV aid to a student using different payment periods**

Nonstandard term, credit-hour programs with terms that are not substantially equal in length have two defined payment periods: one for Title IV grant and Perkins Loan funds, and one for Direct Loan funds. Because only one payment period may be used in determining earned Title IV grant and loan funds for a student who withdraws and was disbursed or could have been disbursed aid under both payment definitions, the regulations now specify the payment period a school must use in the Return calculation, that is, the payment period that ends later.

Any aid disbursed for payment periods that overlap the payment period used in the calculation must be attributed to the payment period that ends later.

**Example of performing a Return calculation for a student receiving aid under two payment period definitions**

The Ted Animal Institute (TAI) offers programs in nonstandard, credit-hour terms that are not substantially equal in length.

Pixie Marley enrolls for TAI’s varmint retrieval program offered over 30 weeks in three terms of 10 weeks, 6 weeks, and 14 weeks respectively. After attending classes for 50 days, Pixie decides that she could make a greater contribution if she studied home health care. Subsequently, she withdraws from TAI.

TAI’s Academic Year = 24 credits hours over 30 weeks of instructional time comprising the academic year. Term 1 = 8 credits over 10 weeks. Term 2 = 5 credits over 6 weeks. Term 3 = 11 credits over 14 weeks.

Each scheduled payment period for Pixie’s Stafford loans was one-half of the program’s academic year or 12 credits and 15 weeks.

Pixie was scheduled to receive three disbursements (one in each payment period) of her Pell Grant as follows:
- PP1 at day 1
- PP2 at the completion of 8 hours and 10 weeks of instructional time
- PP3 at the completion of 13 hours and 16 weeks of instructional time

The scheduled disbursements and withdrawal date are shown in the graphic that follows.
Pixie withdrew on the 50th day after the start of classes. Her Direct Loan funds were disbursed for loan payment period 1 (the first half of the academic year). Her Pell Grant funds were disbursed for Pell Grant payment period 1 (the first term, which is 10 weeks in length).

Loan payment period 1 (the Direct Loan payment period) is the payment period during which the student withdrew that ends later, so that is the payment period the school is required to use for the Return of Title IV Funds calculation.

As shown by the horizontal dashed line, the first two Pell Grant payment periods overlap with the Loan payment period 1, so aid that was disbursed or could have been disbursed for the two Pell Grant payment periods are attributed to the Loan payment period 1.

All of Pell Grant payment period 1 falls within loan payment period 1, so all of the Pell Grant funds that were disbursed for Pell Grant payment period 1 are included in the calculation. Pell Grant payment Period 2 of six weeks overlaps with Loan Payment Period 1 for five of those weeks. (The loan period 15 weeks; Pell Grant payment period 1 is 10 weeks and five additional weeks from Pell Grant payment period 2 bring the Pell Grant payment period used in the calculation up to 15 weeks.)

To determine the amount of Pell Grant funds that could have been disbursed that are attributable to the five additional weeks, the school would take the full amount of Pell Grant funds that could have been disbursed for Pell Grant payment period 2, and multiply it by five-sixths.
STEP 3: AMOUNT OF TITLE IV AID EARNED BY THE STUDENT

The amount of Title IV aid earned by the student is determined by multiplying the percentage of Title IV aid earned (Box H on the worksheet) by the total of Title IV program aid disbursed plus the Title IV aid that could have been disbursed to the student or on the student’s behalf (Box G on the worksheet).

STEP 4: TOTAL TITLE IV AID TO BE DISBURSED OR RETURNED

If the student receives less Federal Student Aid than the amount earned, the school must offer a disbursement of the earned aid that was not received. This is called a Post-withdrawal disbursement. If the student receives more Title IV Aid than the amount earned, the school, the student or both must return the unearned funds in a specified order.

Part 1 – Post-withdrawal disbursements

If a Post-withdrawal disbursement is due, a school stops at STEP 4, Box J on the worksheet. A school may use the Post-withdrawal Disbursement Tracking Sheet to track the handling of the Post-withdrawal disbursement, or it may use a form developed by someone other than ED. A school must maintain written records of its Post-withdrawal disbursements.

The requirements for a Post-withdrawal disbursement are similar in many areas to the requirements under Subpart K – Cash Management of the Student Assistance General Provisions regulations. However, in some cases, the Post-withdrawal disbursement requirements differ from the cash management requirements.

Any Post-withdrawal disbursement due must meet the current required conditions for late disbursements. For example, ED must have processed a Student Aid Report (SAR) or Institutional Student Information Record (ISIR) with an official expected family contribution (EFC) prior to the student’s loss of eligibility. These conditions are listed in a chart on Late Disbursements in Volume 4 – Processing Aid and Managing Federal Student Aid Funds. A school is required to make (or offer as appropriate) Post-withdrawal disbursements. A Post-withdrawal disbursement must be made within 180 days of the date the institution determines that the student withdrew. The amount of a Post-withdrawal disbursement is determined by following the requirements for calculating earned Title IV Aid, and has no relationship to incurred educational costs.
Disburse grant before loan

A Post-withdrawal disbursement, whether credited to the student’s account or disbursed to the student or parent directly, must be made from available grant funds before available loan funds. Available grant or loan funds refers to Title IV program assistance that could have been disbursed to the student but was not disbursed as of the date of the institution’s determination that the student withdrew.

The regulations do not address how a school should ensure that Title IV funds are disbursed to the proper individual. However, a school may not require a student who has withdrawn from a school (or a parent of such a student, for PLUS loan funds) to pick up a Post-withdrawal disbursement in person. Because the student is no longer attending the school, he or she may have moved out of the area and may be unable to return to the school to pick up a Post-withdrawal disbursement.

Summary of actions a school must take before making a Post-withdrawal disbursement

The actions a school must take before it may disburse funds from a Post-withdrawal disbursement vary depending on the source of the funds.

A school must obtain confirmation from a student, or parent for a parent PLUS loan, before making any disbursement of loan funds from a Post-withdrawal disbursement.

Without obtaining a student’s permission, Title IV grant funds from a Post-withdrawal disbursement are credited to a student’s account to pay for tuition, fees and room and board (if the student contracts with the school) or disbursed directly to a student. A school must obtain a student’s authorization to credit a student’s account with Title IV grant funds for charges other than current charges.

Disburse grant before loan example
34 CFR 668.22(5)(i)

If a student is due a Post-withdrawal disbursement of $500, and the student has received $400 of $1,000 in Federal Pell Grant funds that could have been disbursed, and $1,200 of the $2,000 in Federal Stafford Loan funds that could have been disbursed, the available undisbursed funds are $600 in Federal Pell Grant funds, and $800 in Federal Stafford loan funds.

Any portion of the $500 Post-withdrawal disbursement that the school makes must be from the $600 in available Federal Pell Grant funds.
Post-withdrawal disbursement of Title IV grant funds

A school is permitted to credit a student’s account with the Post-withdrawal disbursement of Title IV grant funds without the student’s permission for current charges for tuition, fees and room and board (if the student contracts with the school) up to the amount of outstanding charges. A school must obtain a student’s authorization to credit a student’s account with Title IV grant funds for charges other than current charges.

A school is permitted to use a student’s or parent’s authorization for crediting the student’s account for educationally related expenses that the school obtained prior to the student’s withdrawal date so long as that authorization meets the cash management requirements for student or parent authorizations. If the school did not obtain authorization prior to the student’s withdrawal, the school would have to obtain authorization in accordance with the cash management requirements before the school could credit the student’s account for other current charges or for educationally related activities. (See Volume 4 – Processing Aid and Managing Federal Student Aid Funds for more information on student and parent authorizations.)

A school must credit the student’s account with the Post-withdrawal disbursement for current charges within 180 days of the date of determination.

A school must disburse any amount of a Post-withdrawal disbursement of grant funds that is not credited to the student’s account. Moreover, the school must make the disbursement as soon as possible, but no later than 45 days after the date of the school’s determination that the student withdrew.
Post-withdrawal disbursement of Title IV Loan funds

A school must notify a student, or parent for a parent PLUS loan, in writing prior to making any Post-withdrawal disbursement of loan funds, whether those loan funds are to be credited to the student’s account or disbursed directly to the student (or parent). The information provided in this notification must include the information necessary for the student, or parent for a parent PLUS loan, to make an informed decision as to whether the student or parent would like to accept any disbursement of loan funds and must be provided within 30 days of the date of a school’s determination that a student has withdrawn. In addition, the notice must request confirmation of any Post-withdrawal disbursement that the student or parent, as applicable, wishes the school to make.

The notice must identify the type and amount of the loan funds it wishes to credit to the student’s account or disburse directly to the student or parent, explain that a student, or parent for a parent PLUS loan, may accept or decline all or a portion of the funds. The notice must also explain to the student, or parent for a parent PLUS loan, the obligation to repay the loan funds whether they are disbursed to the student’s account or directly to the borrower.

The notice must also make clear that a student, or parent for a parent PLUS loan, may not receive as a direct disbursement loan funds that the institution wishes to credit to the student’s account unless the institution agrees to do so. If the student, or parent for a parent PLUS loan, does not wish to accept some or all of the loan funds that the institution wishes to credit to the student’s account, the institution must not disburse those funds.

In the information a school provides to a student when the school informs the student that he or she is due a Post-withdrawal disbursement of loan funds, the school should include information about the advantages of keeping loan debt to a minimum. If a Post-withdrawal disbursement includes loan proceeds, unless the recipient needs the funds to pay educational costs, the school might want to suggest that the student cancel the loan. With a student’s permission, Title IV grant funds due a student in a Post-withdrawal disbursement can be used to pay down a Title IV loan, thereby reducing any Post-withdrawal disbursement made directly to the student.

The school must document the result of the notification process and the final determination made concerning the disbursement and maintain that documentation in the student’s file.
If a school has completed Post-withdrawal loan notification (described previously) and confirmed a student’s desire for any loan funds included in the Post-withdrawal disbursement, the school is permitted to credit a student’s account with the Post-withdrawal disbursement without additional permission from the student (or parent, in the case of a PLUS loan) for current charges as described above.

A school may combine providing loan counseling, obtaining authorization to credit loan funds to a student’s account for outstanding charges and authorization to make a direct disbursement to the student.

Once a school has received confirmation from a student, or parent in case of a PLUS loan, that he or she wants to receive the Post-withdrawal disbursement of loan funds, a school must make the Post-withdrawal disbursement of Title IV loan proceeds as soon as possible, but no later than 180 days after the date of the school’s determination that the student withdrew.

**Separate authorization required for educationally related expenses**

A school is permitted to use a student’s or parent’s authorization for crediting the student’s account for educationally related expenses that the school obtained prior to the student’s withdrawal date so long as that authorization meets the cash management requirements for student or parent authorizations. If the school did not obtain authorization prior to the student’s withdrawal, the school would have to obtain authorization in accordance with the cash management requirements before the school could credit the student’s account for other current charges for educationally related activities. (See *Volume 4 – Processing Aid and Managing Federal Student Aid Funds* for more information on student and parent authorizations.)
An institution should not request Title IV funds for a Post-withdrawal disbursement unless and until it has determined that it can disburse any Post-withdrawal disbursement within three business days of receiving the funds.

The requirements for the treatment of Title IV funds when a student withdraws reflect the cash management requirements for disbursing Title IV funds. An institution must obtain a student’s authorization to credit a student’s account with Title IV funds for charges other than current charges for tuition, fees, room and board (if the student contracts with the school) (see Volume 4 – Processing Aid and Managing Federal Student Aid Funds and chart on “Institutional and Financial Assistance Information for Students” in Volume 2 – School Eligibility and Operations for more information).

Outstanding charges on a student’s account are charges for which the institution will hold the student liable after the application of any applicable refund policy. These are the institutional charges, after any adjustment, that reflect what the student will owe for the current term after his or her withdrawal, any other current charges, plus any permitted minor prior year charges.

A school may credit a student’s account for minor prior award year charges in accordance with the cash management requirements (see Volume 4 – Processing Aid and Managing Federal Student Aid Funds). Schools should make every effort to explain to a student that all or a portion of his or her Post-withdrawal disbursement has been used to satisfy any charges from prior award years.

Outstanding charges example

Consider a student who is due a Post-withdrawal disbursement of $800. The institutional charges that the student was originally assessed by the institution totaled $2,300. However, under the institution’s refund policy, the institution may only keep $600 of those institutional charges. No funds had been paid toward the institutional charges at the time the student withdrew. In addition, the student owes $150 for a bus pass. The outstanding charges on the student’s account that would be entered in Box 2 of the Post-withdrawal Disbursement Tracking Sheet are $750 (the $600 in institutional charges plus the $150 owed for the bus pass).

A portion of the $800 the institution must disburse under the Post-withdrawal disbursement provisions may (with authorization if they are loan funds) be used to satisfy the outstanding balance. If the student has provided written authorization to credit Title IV funds to his account and use them for non-educational charges, the school may credit $750 to institutional charges and offer $50 to the student. If the student has not provided (and does not provide) written authorization to use the funds for non-educational charges, the school may only credit $600 to institutional charges, and must offer $200 to the student.
Notice to a student offering a Post-withdrawal disbursement – Flexibility in notifying students

In order to avoid having to contact a student a multiple times, a school may use one contact to –

- notify a borrower about his or her loan repayment obligations;
- obtain permission to credit loan funds to a student’s account to cover unpaid institutional charges;
- obtain permission to make a Post-withdrawal disbursement of grant or loan funds for other than institutional charges and
- obtain permission to make a Post-withdrawal disbursement of loan funds directly to a student.

A school must send the notification as soon as possible, but no later than 30 calendar days after the date that the school determines the student withdrew.

In the notification, the school must advise the student or parent an institution may set a deadline of 14 days or more. Any deadline must apply to both confirmation of loan disbursements to the student’s account and direct disbursements of a Post-withdrawal disbursement. The notification must make it clear that if the student or parent does not respond to the notification within the timeframe, the school is not required to make the Post-withdrawal disbursement. However, a school may choose to make a Post-withdrawal disbursement based on an acceptance received from a student or parent received after school’s deadline.

A school that chooses to honor a late response must disburse all the funds accepted by the student or parent as applicable. The school cannot credit the student’s account in accordance with the student’s request, but decline to disburse Post-withdrawal funds accepted as a direct disbursement. If a response is not received from the student or parent within the permitted timeframe, or the student declines the funds, the school would return any earned funds that the school was holding to the Title IV programs.
If a student or parent submits a timely response accepting all or a portion of a Post-withdrawal disbursement, per the student’s or parent’s instructions, the school must disburse the loan funds within 180 days of the date of the institution’s determination that the student withdrew. (For additional information, see the discussion under Date of the institution’s determination that the student withdrew earlier in this chapter.) Note that the date of the institution’s determination that the student withdrew is the same date that triggers the 30-day period that the school has for notifying the student or parent of any Post-withdrawal disbursement available for direct disbursement. Consequently, the sooner a school sends the notification to a student or parent, the more time the school has to make any accepted Post-withdrawal disbursement.

If authorization from a student (or parent for a PLUS loan) is received after the deadline and the school chooses not to make a Post-withdrawal disbursement of loan funds, the school must notify the student (or parent) that the Post-withdrawal disbursement will not be made and why. This notification must be made in writing. If an authorization from the student (or parent for a PLUS loan) is never received, or if the school chooses to make a Post-withdrawal disbursement of loan funds per the recipient’s instructions on an authorization received after the deadline, the school does not need to notify the student.
Example of the Post-withdrawal Disbursement Requirements

Michael drops out of school on November 5. On November 10, the school becomes aware that Michael has ceased attending. The school determines that because Michael has earned $900 in Title IV Program assistance that he has not received, he is due a Post-withdrawal disbursement of $900. When Michael withdrew, only $600 of the $1,000 in Federal Pell Grant funds that could have been disbursed had been disbursed. Of the $500 in Federal Stafford Loan funds that could have been disbursed, none had been disbursed. The school determines that Michael has $50 in outstanding tuition charges and $100 in outstanding parking fines for the payment period. The school obtained permission from Michael at the beginning of the term (prior to his withdrawal) to credit his account for educationally related charges other than tuition, fees and room and board. Because available grant funds must be used before available loan funds to make a Post-withdrawal disbursement, the school credits Michael’s account with $150 of Michael’s Federal Pell Grant funds. On November 12 (the last date school could have sent the funds was December 24th − 45 days after the date of the school’s determination that the student withdrew), the school sends the remaining $250 in Pell Grant funds to Michael. On the same day (the last date the school could have sent the notification was December 9th − 30 days after the school’s determination that the student withdrew) the school sends a notification to Michael stating that:

1. He is due a Post-withdrawal disbursement of $500 in Federal Stafford Loan funds to be disbursed directly to him.
2. Michael may accept all, a portion or none of the $500 in Federal Stafford Loan funds.
3. Any loan funds that Michael accepts will have to be repaid.
4. The school is obligated to make a Post-withdrawal disbursement of loan funds only if Michael accepts the funds by November 25, 14 days after the school sent the notification. Note that a school may allow more than 14 days for a response.

Michael responds on November 19 and informs the school that he is accepting $250 of the $500 in Federal Stafford Loan Funds. The school has until June 9 (180 days after November 10 − the date the school determined that the student withdrew) to make the disbursement (34 CFR 668.22(a)(5)(iii)(C)). The school must document the notification and the final determination pursuant to it (whether the student accepts a partial- or full-disbursement or declines the entire disbursement (34 CFR 668.22(a)(5)(iv)).
When a student who has died is due a Post-withdrawal disbursement

A school may not make a Post-withdrawal disbursement of Title IV funds to the account or estate of a student who has died.

If an institution is informed that a student has died during a period, it must perform a Return calculation. If the Return calculation indicates that an institution is required to return Title IV funds, the institution must return the Title IV funds for which it is responsible.

The student’s estate is not required to return any Title IV funds. Therefore, an institution should neither report a grant overpayment for a deceased student to NSLDS, nor refer a grant overpayment for a deceased student to Debt Resolution Services. If an institution had previously reported a grant overpayment for a student who is deceased to Debt Resolution Services, it should inform Debt Resolution Services that it has received notification that the student is deceased.

The regulations governing the Direct and Federal Perkins loan programs provide for a discharge of a borrower’s obligation to repay a Federal Direct or Federal Perkins loan if the borrower dies (including a PLUS loan borrower’s obligation to repay a Direct PLUS loan if the student on whose behalf the parent borrowed dies). If a school is aware that a student who has died has any outstanding Title IV loan debt, the school should contact the student’s estate and inform it of the actions it can take to have the student’s Title IV loan debt cancelled.

If a Title IV credit balance created from funds disbursed before the death of the student exists after the completion of the Return calculation and the institutional refund calculations, the institution must resolve the Title IV credit balance as follows:

1. in accordance with the cash management regulations, paying authorized charges at the institution (including previously paid charges that are now unpaid due to the Return of Title IV funds by the institution);

2. returning any Title IV grant overpayments owed by the student for previous withdrawals from the present school (the institution may deposit the funds in its federal funds account and make the appropriate entry in G5);

If the institution has previously referred the grant overpayment to Debt Resolution Services, the institution should provide Debt Resolution Services with documentation that the student has died so that Debt Resolution Services can delete the overpayment from its records.

3. returning any remaining credit balance to the Title IV programs.
Part 2 – Title IV aid to be returned

If the student receives more Federal Student Aid than the amount earned, the school, the student or both must return the unearned funds in a specified order. The amount of Federal Student Aid to be returned is determined by subtracting the amount of earned Title IV aid (Box I) from the amount of Title IV aid that was actually disbursed to the student (Box E).

Step 5: Amount of unearned Title IV aid due from the school

When a Return of Title IV funds is due, the school and the student may both have a responsibility for returning funds. Funds that are not the responsibility of the school to return, must be returned by the student. Although these requirements talk in terms of returning funds, a school is not required to actually return its share before the student. Rather, it is the Return calculation of the amount of assistance the school is responsible for returning to the Title IV accounts that must be calculated first. Thus, the student’s repayment obligation is determined after the school’s share is calculated.

The school must return the lesser of –

- the amount of Title IV funds that the student does not earn; or
- the amount of institutional charges that the student incurred for the payment period or period of enrollment multiplied by the percentage of funds that was not earned.

The percentage not earned (Box M) is determined by subtracting the percentage of Title IV aid earned (Box H) from 100%.

Aid disbursed to the student before institutional charges are paid

Consider a case in which, in order to assist a student with living expenses, a school elects to disburse an anticipated credit balance to a student rather than pay itself for institutional charges from the first Title IV funds the school receives. Then, the student withdraws before the school receives anticipated aid from all the Title IV programs. The Return calculations indicate the school must return funds, but the school had passed through all funds to the student. The school still must return the funds it is responsible for returning as a result of the Return calculation.
Institutional charges

Institutional charges are used to determine the portion of unearned Federal Student Aid that the school is responsible for returning. Schools must ensure the inclusion of all appropriate fees as well as applicable charges for books, supplies, materials, and equipment in STEP 5, Part L of the Return calculation. (See Institutional versus noninstitutional charges earlier in this chapter.) Institutional charges do not affect the amount of Federal Student Aid that a student earns when he or she withdraws.

If an institution enters into a contract with a third party to provide institutional housing, the institution must include the cost of housing as an institutional charge in a Return calculation if a student living in the third-party housing withdraws.

Use of institutional charges in determining the school’s responsibility for return

The institutional charges used in the calculation are always the charges that were assessed the student for the entire payment period or period of enrollment, as applicable, prior to the student’s withdrawal. Initial charges may only be adjusted by those changes the institution made prior to the student’s withdrawal (e.g., for dropping or adding a class or changing enrollment status). If after a student withdraws the institution changes the amount of institutional charges it assessed a student, or decides to eliminate all institutional charges, those changes affect neither the charges nor aid earned in the calculation. (Please see STEP 3 — Amount of Title IV Aid Earned by the Student, for a further discussion of aid earned and institutional charges.)

Institutional charges may not be reduced even if other sources of aid are used to pay those charges. For example, a school may not reduce institutional charges when an outside agency supplying aid requires that aid to be used for tuition. The Return regulations presume Title IV program funds are used to pay institutional charges ahead of all other sources of aid.

When an institution that offers courses in a nonterm, credit-hour format calculates the aid for which the student is eligible, it does so using costs associated with the number of courses it expects the student to complete in the period for which aid is awarded. If the student later withdraws, the charges entered in STEP 5 of the Return calculation must include the charges for all the courses the student was initially expected to complete.
Effects of a Post-withdrawal reduction in charges

If a student withdraws and as a result of applying an institutional refund policy the school reverses, reduces or cancels a student’s charges, the Return requirements still apply. The statute mandates that an otherwise eligible student who begins attendance at a school and is disbursed or could have been disbursed Title IV grant or loan funds prior to a withdrawal earns a portion of those Title IV funds. If as a result of the withdrawal, an institution adjusts or eliminates a student’s institutional charges, or changes a student’s enrollment status, the changes made by the institution have no bearing on the applicability of the requirements in 34 CFR 668.22. Moreover, the charges used in the Return calculation are always the charges on the student’s account prior to withdrawal. However, if a student’s enrollment status changed prior to and unrelated to the withdrawal, the effect of that change on institutional charges appropriately should be reflected in any Return calculation.

When to prorate charges

As stated previously, for students who withdraw from a nonterm-based educational program, the school has the choice of performing the Return calculation on either a payment period basis or a period of enrollment basis. If a school with a nonterm program chooses to base the Return calculation on a payment period, but the school charges for a period longer than the payment period (most likely the period of enrollment), there may not be a specific amount that reflects the actual institutional charges incurred by the student for the payment period. In this situation, the student’s institutional charges for the payment period are the prorated amount of institutional charges for the longer period. However, if a school has retained Title IV funds in excess of the institutional charges prorated amount, including allocating costs for equipment and supplies to the beginning of the program, the funds retained by the school are attributed to that payment period because they are a better measure of the student’s institutional charges for that period.

Effects of waivers on institutional charges

If your school treats a waiver as a payment of tuition and fees that have actually been charged to a student, then the waiver is considered a financial aid resource, and the full amount of the tuition and fees must be included in STEP 5, Part L, of the Return calculation. On the other hand, if the student is never assessed the full charges, the waiver is not considered to be financial aid, and only the actual charges would be included in the Return calculation. (See DCL GEN 00-24, January 2000, for a further discussion of waivers and the Return calculation.)
**STEP 6: RETURN OF FUNDS BY THE SCHOOL**

### Order of return of Title IV funds

<table>
<thead>
<tr>
<th>34 CFR 668.22(i)</th>
</tr>
</thead>
</table>

### Timeframe for return of Title IV funds

<table>
<thead>
<tr>
<th>34 CFR 668.22(j)(1)</th>
</tr>
</thead>
</table>

### If a school has not drawn federal funds

If a school has not drawn down federal funds or has made disbursements that exceed the amount the school has drawn, the school does not need to deposit funds in its federal account. Of course, the school’s accounting records must show that institutional funds were used to credit the student’s account.

### Return of Title IV funds when a school does not maintain a separate federal bank account

The Department considers a school that maintains Title IV funds and general operating funds in the same bank account (commingles) to satisfy the requirement that it return unearned funds on a timely basis if:

- the school maintains subsidiary ledgers for each type of funds commingled in that account that clearly show how and when those funds were used and reconciled to its general ledger,
- the subsidiary ledger for each Title IV program provides a detailed audit trail on a student-by-student basis that reconciles to the amount of Title IV program funds received and disbursed by the school, and
- the school updates the relevant subsidiary ledger accounts in its general ledger no later than 30 days after it determines that the student withdrew.

More specifically, the return of an unearned funds transaction should be recorded as a debit to a Title IV program fund subsidiary ledger account and a credit to the school’s operating fund subsidiary ledger account. The date of the return is the date this transaction is posted to the school’s general ledger.

### Order of return of Title IV funds

A school must return Title IV funds to the programs from which the student received aid during the payment period or period of enrollment as applicable, in the following order, up to the net amount disbursed from each source:

- Unsubsidized Direct Stafford loans (other than PLUS loans).
- Subsidized Direct Stafford loans.
- Federal Perkins loans.
- Federal PLUS loans.
- Direct PLUS loans.
- Federal Pell Grants for which a return of funds is required.
- Academic Competitiveness Grants for which a return of funds is required.
- National SMART Grants for which a return of funds is required.
- Federal Supplemental Educational Opportunity Grants (FSEOG) for which a return of funds is required.
- Federal TEACH Grants for which a Return is required.
- Iraq and Afghanistan Service Grant for which a return is required.

### Timeframe for the return of Title IV funds

A school must return unearned funds for which it is responsible as soon as possible, but no later than 45 days from the determination of a student’s withdrawal.

A school will be considered to have returned funds timely if the school does one of the following as soon as possible, but no later than 45 days after the date it determines that the student withdrew:

- deposits or transfers the funds into the school's federal funds bank account;
- initiates an electronic funds transfer (EFT) to an account belonging to the student;
- initiates an electronic transaction that informs ED to adjust the borrower's loan account for the amount returned or
- issues a check.

A school is considered to have issued a check timely if the school’s records show that the check was issued within 45 days of the date the school determined that the student withdrew, and the date on the cancelled check shows that the bank endorsed that check no more than 60 days after the date the school determined that the student withdrew.
Downward adjustment of FSA Grant disbursement records and Direct Loan disbursement records required

Returns of FSA Grants funds (except FSEOG and Iraq and Afghanistan Service Grants), other than funds that are being returned to stay in compliance with the excess cash requirements, must be offset by downward reductions in students records in COD. Likewise, all returns of Direct Loan funds must be offset by downward reductions in students records in COD.

In addition, when all or a portion of a Direct Loan is cancelled (either because the borrower requested the cancellation within the regulatory timeframes or to comply with statutory or regulatory requirements) the school must make the appropriate adjustment to the student records in COD.

All returns of FSA Grants and Direct Loan funds previously disbursed (unclaimed credit balances) should be made through the G5 system.

Returning Direct Loan funds

If a school is required to return DL funds to comply with a regulatory or statutory requirement, even if more than 120 days have elapsed since the disbursement date, the school must return DL funds through G5. The school returns DL funds to the Department following the same procedures the school follows when making other G5 refunds/returns.

Returning funds from FFEL loans purchased/serviced by the Department

From August 2008 through September 2010, The Department purchased Federal Family Education Loan (FFEL) Program loans from FFEL loan holders. The Department has contracted with five organizations to provide loan services on these purchased FFEL loans.

If a school is required to return any portion of a FFEL Program loan that has been purchased by the Department, the money would be returned to the appropriate Federal servicer for that loan.

To identify the current servicer of an FSA loan, access NSLDS and select “Aid.” Then identify the student and select “Loan History.” Under Loan History, the current loan will be listed at the top. Use the field “Servicer” to identify the organization to which you will be returning funds. Additional contact information for the loan servicers is available on IFAP under the “Help” menu (“Contact Information” / “Service Centers for Schools,” / “Loan Service Centers for Schools.”

Information required when returning loan funds to a servicer by check

If you cannot use the electronic process preferred by a loan’s servicer, and must return the funds with a paper check, together with your check for the funds you are returning, you must include, on school letterhead, the following information:
1. The borrower’s name,
2. The borrower’s social security number,
3. The loan’s unique CommonLine ID,
4. The type of loan (subsidized, unsubsidized, PLUS, etc.),
5. The period for which the loan was certified,
6. The scheduled & actual date of the disbursement,
7. The amount of the disbursement,
8. The amount being returned,
9. The reason the funds are being returned (cancellation, overpayment, withdrawal or failed to begin class),
10. The school OPEID and
11. The name and phone number of the school official returning the funds.

You must also include a completed Direct Loan Refund of Cash form (available at the end of this chapter).
Returning funds after 240 days

In all cases, a school will have to request permission to make a change to the FISAP after December 15 following the close of the award year.

If FSA Grant funds (other than FSEOG and Iraq and Afghanistan Service Grants) must be returned after 240 days, a school must:

- enter the student’s revised Pell Grant award in COD;
- return the funds to the Department through G5, if applicable; and
- make the appropriate change to the FISAP (see sidebar).

Note that for Pell funds from a prior award year, a school may not use the funds for an eligible student in the current year.

If FSEOG funds must be returned after 240 days, a school must:

- enter the student’s revised FSEOG award both in the individual student’s account and the school’s FSEOG ledger;
- either return the funds to the Department through G5 OR carry them forward to the next award year; and
- make the appropriate change to the FISAP (see sidebar).

If Perkins Loan funds from a prior award year must be returned after 240 days, a school must:

- reimburse its Perkins Loan fund;
- report those funds as income in Part III, Section A of the FISAP; and
- reduce the student’s Perkins Loan balance and make an accounting entry to tie that reduction to the journal entry for the aforementioned reimbursement of its Perkins Loan fund.

The school should not make any changes to the student’s Perkins promissory note.

If a school cannot locate a student to whom it owes FWS funds the student has earned, the federal portion must be returned to the school’s FWS account. If the student comes back or the school later locates the student, the school can recover the FWS funds as long as the account for that year is still open. If the account is closed, the school must pay the student (under the wage and hour laws) using its own funds.
STEP 7: INITIAL AMOUNT OF UNEARNED TITLE IV AID DUE FROM THE STUDENT

The statute specifies that a student is responsible for all unearned Title IV program assistance that the school is not required to return. The initial amount of unearned Federal Student Aid due from the student (or parent, for PLUS loan funds) (Box Q) is determined by subtracting the amount returned by the school (Box O) from the total amount of unearned Title IV funds to be returned (Box K). This is called the initial amount due from the student because a student does not have to return the full amount of any grant repayment due. Therefore, the student may not have to return the full initial amount due.

STEP 8: REPAYMENT OF STUDENT LOANS

The student loans that remain outstanding (Box R) consist of the loans disbursed to the student (Box B) minus any loans the school repaid in STEP 6, Block P. These outstanding loans are repaid by the student according to the terms of the student's promissory notes.
STEP 9: GRANT FUNDS TO BE RETURNED BY A STUDENT

The regulations limit the amount a student must repay to the amount by which the original overpayment amount exceeds 50 percent of the total grant funds disbursed or could have been disbursed by the student for the payment period or period of enrollment.

The initial amount of unearned Title IV grant aid due from the student (Box S) is found by subtracting the loans to be repaid by the student (Box R) from the initial amount of unearned aid due from the student (Box Q).

The amount of grant overpayment due from a student is limited to the amount by which the original grant overpayment (Box S) exceeds half of the total Title IV grant funds disbursed and could have been disbursed to the student (Box F).

**Student overpayments of $50 or less**

A student does not have to repay an original grant overpayment of $50 or less for grant overpayments resulting from the student’s withdrawal. As a result, an original grant overpayment of $50 or less will not make the student ineligible to receive Title IV, HEA program assistance should the student return to school. A school is not required to attempt recovery of that overpayment, report it to the Department’s National Student Loan Data System (NSLDS) or refer it to Federal Student Aid’s Debt Resolution Services.

Amounts of $50 or less are considered *de minimus*. These *de minimus* amounts are program specific. That is, if a Return calculation resulted in a student having to return $150 in Pell funds and $40 in FSEOG funds, the student would have to return the Pell funds, but the FSEOG funds would be considered *de minimis* and treated as described above.

STEP 10: RETURN OF GRANT FUNDS BY THE STUDENT

The student is obligated to return any Title IV overpayment in the same order that is required for schools.

Grant overpayments may be resolved through –

- full and immediate repayment to the institution;
- repayment arrangements satisfactory to the school; or
- overpayment collection procedures negotiated with Debt Resolution Services.
A SCHOOL’S RESPONSIBILITIES IN THE RETURN OF FUNDS BY THE STUDENT

A school has responsibilities that continue beyond completing the Return calculation and returning the funds for which it is responsible. Here we discuss the institution’s participation in the return of funds by the student.

Grant overpayments

The applicable regulations limit the amount of grant funds a student must repay to one-half of the grant funds the student received or could have received during the applicable period. Moreover, repayment terms for students who owe Title IV grant overpayments were established to ensure that students who could not immediately repay their debt in full had the opportunity to continue their eligibility for Title IV funds. Students who owe overpayments as a result of withdrawals initially will retain their eligibility for Title IV funds for a maximum of 45 days from the earlier of the –

- date the school sends the student notice of the overpayment, or
- date the school was required to notify the student of the overpayment.

Within 30 days of determining that a student who withdrew must repay all or part of a Title IV grant, a school must notify the student that he or she must repay the overpayment or make satisfactory arrangements to repay it. In its notification, a school must inform the student that:

1. The student owes an overpayment of Title IV funds.
2. The student's eligibility for additional Title IV funds will end if the student fails to take positive action by the 45th day following the date the school sent or was required to send notification to the student.
3. There are three positive actions a student can take to extend his or her eligibility for Title IV funds beyond 45 days:
   a. The student may repay the overpayment in full to the school.
   b. The student may sign a repayment agreement with the school.

Note: Two years is the maximum time a school may allow for repayment.
c. The student may sign a repayment agreement with the Department.

If the student takes no positive action during the 45-day period, the school should report the overpayment to NSLDS immediately after the 45-day period has elapsed. (Because making this change in the NSLDS system is a simple process, we expect an institution will complete making the change within a few days of the end of the 45-day period.)

4. If the student fails to take one of the positive actions during the 45-day period, the student's overpayment immediately must be reported to the NSLDS and referred to the Debt Resolution Services for collection.

5. The student should contact the school to discuss his or her options.

**When a student receives additional funds during the 45-day period of extended eligibility**

Students who owe overpayments as a result of withdrawals generally will retain their eligibility for Title IV funds for a maximum of 45 days from the earlier of (a) the date the school sends the student notice of the overpayment, or (b) the date the school was required to notify the student of the overpayment.

A student who receives Title IV funds within that period of extended eligibility and then fails to return the overpayment or make repayment arrangements becomes ineligible for additional Title IV program funds on the day following the 45-day period. However, any Title IV program funds received by the student during the 45-day period were received while the student was eligible. Therefore, those Title IV funds do not have to be returned (unless the student withdraws a second time). A student who loses his or her eligibility for Title IV funds at the expiration of the 45-day period will remain ineligible for additional Title IV funds until the student enters into a repayment agreement with the Department.

If at any time a student who previously negotiated a repayment arrangement fails to comply with the terms of his or her agreement to repay, that student immediately becomes ineligible for additional Title IV funds. Any Title IV program funds received by the student between the time the student negotiated the repayment arrangement and the time the student violated the agreement were received while the student was eligible. Therefore, those Title IV funds do not have to be returned (unless the student withdraws a second time). A student who violates the terms of a repayment agreement and loses eligibility remains ineligible for Title IV funds until the student has made satisfactory repayment arrangements with the Department.

---

**45-Day period example**

On October 30th, during the fall semester, a student withdraws and owes a grant overpayment. On November 29th, the school notifies the student of the overpayment. The student has 45 days (until January 13) to repay the overpayment in full or to make arrangements with the institution or the Department to repay the overpayment.

The spring semester begins on January 7, before the 45-day period ends, and the student receives Title IV aid for the spring semester on January 10. The student then fails to repay the overpayment in full or sign a repayment agreement by the end of the 45-day period – January 13. The student is not required to return the Title IV funds received on January 10. However, the student becomes ineligible for additional Title IV funds on January 14 and remains ineligible until he or she enters into a repayment agreement with the Department.
If, in either of the two aforementioned cases, the student withdraws a second time, any unearned funds from the disbursements that were made while the student was still eligible would have to be returned in accordance with the Return requirements.

**Student overpayments of $50 or less**

A student does not have to repay a grant overpayment of $50 or less for grant overpayments resulting from the student’s withdrawal. As a result, a grant overpayment of $50 or less will not make the student ineligible to receive Title IV, HEA program assistance should the student return to school. A school is not required to attempt recovery of that overpayment, report it to the Department’s National Student Loan Data System (NSLDS), or refer it to Debt Resolution Services.

These *de minimus* amounts are program specific. That is, if a Return calculation resulted in a student having to return $150 in Pell funds and $40 in FSEOG funds, the student would have to return the Pell funds, but the FSEOG funds would be considered *de minimis* and treated as described above.

If a school is currently holding an overpayment resulting from a withdrawal for which the *original amount* (after the grant protection was applied) was less than $50, the school should delete the overpayment in NSLDS by following these steps:

1. from the Overpayment History Page, select the overpayment to be deleted by clicking on the blue number icon;
2. on the Overpayment Display page, verify that this is the overpayment you want to delete, and then click the Delete button;
3. on the Overpayments Delete Confirmation page, click the Confirm Button.

This new standard does not apply to remaining grant overpayment balances. That is, a student must repay a grant overpayment that has been reduced to $50 or less because of payments made. An overpayment for which the original amount was more than $50 that has a current balance of less than $50 may not be written off.

**Note:** Debt Resolution Services will not accept referrals for which the original amount was less than $25.

**This provision does not apply to funds that a school is required to return.** A school must return the full amount owed to any Title IV program that the school is responsible for returning. However, a school does not have to return amounts of less than $1.00.
Examples of the relationship between the date of notification and the expiration of the 45-day period

Example 1 – A school sends notification to a student within the 30 days allowed.

If a school sends notification to a student within the 30 days allowed, the 45-day period begins on the day after the school sends the notification to the student. If a school determines on August 20 that a student withdrew and owes a repayment and the school sends notification to the student on September 1 (within the 30 days allowed), then the first day of the 45-day period is September 2. Unless the student takes positive action to resolve the overpayment before the end of the 45-day period, the student loses his or her eligibility on the 45th day. Thus, in this case, the last day of the student’s eligibility for Title IV funds is October 16.

Example 2 – A school fails to notify the student or notifies the student after the 30 days allowed.

If the school fails to notify the student or notifies the student after the 30 days allowed, the 45-day period begins on the day after the end of the 30-day period (the date by which the school should have sent the notification to the student). Consider a school that determines on August 1 that a student withdrew on June 15. The school should have sent the student a letter by July 15. Because it failed to do so, the first day of the 45-day period is the day after the end of the 30-day period (July 16). Unless the student takes action to resolve the overpayment, the last day of the student’s eligibility for Title IV funds is August 29, the end of the 45-day period that began on July 16.

If a student agrees to a repayment arrangement and then fails to meet the terms of that arrangement, the student’s eligibility ends as of the date the student fails to comply with the terms of the repayment arrangement.

Payments on a student’s behalf

The grant protection always applies to the repayment of grant funds for which the student is responsible, regardless of who actually returns the funds. If an institution chooses to return all or a portion of a grant overpayment that otherwise would be the responsibility of the student to return, the grant protection still applies. If an institution returns a grant overpayment for a student, the student would no longer be considered to have a Title IV grant overpayment and as such no reporting to NSLDS is required and no referral to Debt Resolution Services for collection is allowed. This would be true whether the institution simply returned the overpayment for the student or returned the overpayment and created a debit on the student’s school account.
Recording student payments and reductions in the Title IV grant programs

For reductions and payments to awards in award years after 2005-2006, schools should record reductions and payments by entering a replacement value.

If through its Return calculation a school determines that a student has received an overpayment of Pell Grant, Iraq and Afghanistan Service Grant, ACG, National SMART Grant or TEACH Grant funds, the school should reduce the student’s award/disbursements and return the funds.

First, reduce the student’s award/disbursements by entering a replacement value in the COD system. The replacement value will be the original values less only the amount the school has returned (the sum of: (a) that amount the school is responsible for returning + (b) any portion of the grant overpayment, that otherwise would be the responsibility of the student, but which the school has chosen to return for the student + (c) any portion of the grant overpayment the school has collected from the student.). Do not reduce the award/disbursement by the amount the student must return (unless the student has made a payment).

If a school receives a payment for a current-year overpayment that has not been referred to Debt Resolution Services, the school should NOT send the payment to Debt Resolution Services. Instead, after you have reduced the student’s disbursement in COD, return the unearned funds as follows:

- If your school has made repayment arrangements with a student and received a payment on a current-year overpayment, the school should deposit the funds in its Pell, Iraq and Afghanistan Service Grant or TEACH Grant account and make the appropriate entry in the COD system.

- If a student makes a payment on any previous year’s Pell Grant, Iraq and Afghanistan Service Grant, ACG, National SMART or TEACH Grant overpayment, a school makes the aforementioned COD system entry using the same software the school used to create the award. The school then returns the funds to the Department using the Electronic Refund function in G5 following the same procedures the school follows when making other G5 refunds/returns.
If through its Return calculation a school determines that a student has received an overpayment of FSEOG funds, the school must adjust its institutional ledgers, financial aid records, and the student’s account by subtracting the amount the school must return (the FISAP field for the year will reflect the net award to the student). If a student makes a payment on an FSEOG overpayment made in the current award year, the school should deposit the payment in its federal funds account, and award the funds to other needy students. If the school collects an overpayment of an FSEOG for an award made in a prior award year, the funds recovered should be returned to the Department using the Electronic Refund function in G5. Payments should be applied to the award year in which the recovered funds were awarded.

For information on handling student payments after you have referred an overpayment to Debt Resolution Services, see the discussion under Accepting payments on referred overpayments later in this chapter.

**Recording student payments and reductions in the Direct Loan Program**

If through its Return calculation a school determines that a student has received an overpayment of Direct Loan funds, the school should reduce the student’s award/disbursements by making a downward adjustment in COD.

The school then returns the funds to the Department using the Electronic Refund function in G5 following the same procedures the school follows when making other G5 refunds/returns.

Only in exceptional circumstances should a school return funds by sending a check instead of using the electronic refund function in G5.

If a school has to return funds by check, the school must –

- use a separate check for each award year;
- make the check payable to the US Department of Education;
- note the school’s DUNS number, Direct Loan school code (or OPE ID) and award year on each check and
- include a completed Direct Loans Return of Cash form (available at the end of this chapter).

Note: A separate check and transmittal sheet must be used for each award year.

The address for returning Direct Loan funds by check is:

U.S. Department of Education  
COD School Relations Center  
Attention Refunds of Cash  
P.O. Box 9001  
Niagara Falls, New York 14302

---

**Important**

**Reporting reductions**

Schools can report current year adjustments for awards/disbursements either through their loan processing software or by using the COD Website at:

https://cod.ed.gov

If you are returning funds by check, together with your check for the funds you are returning, you must include, on school letterhead, the following information:

1. The borrower’s name,
2. The borrower’s social security number,
3. The loan’s unique CommonLine ID,
4. The type of loan (subsidized, unsubsidized, PLUS, etc.),
5. The period for which the loan was certified,
6. The scheduled & actual date of the disbursement,
7. The amount of the disbursement,
8. The amount being returned for each student,
9. The reason the funds are being returned (cancellation, overpayment, withdrawal or failed to begin class),
10. The school OPEID, and
11. The name and phone number of the school official returning the funds.
12. You must also include a completed Direct Loan Refund of Cash form available at the end of this chapter.
Chapter 2 — Withdrawals and the Return of Title IV Funds

Notifying the Department

A school is never required to enter into a repayment agreement with a student; rather, a school may refer an overpayment to the Department at any time after the student has had the opportunity to pay off the overpayment in full to the school or indicate his or her intent to negotiate repayment arrangements with Debt Resolution Services. However, if a school reports a student overpayment (for which a student has not negotiated repayment arrangements) to NSLDS before the 45-day period has elapsed, the student will appear to be ineligible for Title IV aid. Since students retain their eligibility for 45 days, schools should provide students with every opportunity to repay their debt or negotiate repayment arrangements before reporting it to NSLDS and referring it to Debt Resolution Services.

Important: Debt Resolution Services is unable to respond to a student-initiated request to negotiate a repayment arrangement until a school has referred the student’s account for collection. In addition, Debt Resolution Services uses the information about the student in the NSLDS while conversing with a student.

In order to ensure a student overpayment has been reported and referred to ED, when the school is communicating with a student about making repayment arrangements with ED, the school should make it clear that the student should contact the school before contacting the Department. Repayment agreements with the Department will include terms that permit students to repay overpayments while maintaining their eligibility for Title IV funds. Schools are encouraged to negotiate similar repayment agreements with students. However, schools’ repayment arrangements with students must provide for complete repayment of the overpayments within two years of the date of the institutions’ determination that the students withdrew.

NSLDS
DCL-GEN-98-14 July 1998

You must use the NSLDS FAP website to report overpayments. To do so, your school must have Internet access, and your Primary Destination Point Administrator (DPA) must have signed up at least one user for Overpayment updates for NSLDS online services at https://fsawebenroll.ed.gov.

DCL GEN-04-08 gives the most recent technical specifications.

Reporting required

If a student is determined to have withdrawn from a school, the student is no longer considered to be enrolled and in attendance. Therefore, the student is no longer eligible for an in-school deferment, and the school must report the student as withdrawn for this purpose.

Reporting overpayments to NSLDS
DCL GEN-98-14, July 1998

All new Perkins, Pell Grant, IAS Grant, ACG, National SMART Grant, TEACH Grant and FSEOG overpayments and previously reported FSEOG overpayments for which a data element has changed must be reported.

Perkins and other data providers must meet all NSLDS reporting requirements as detailed in the appropriate operating manuals.

NSLDS reference materials are available at:
ifap.ed.gov/ifap/byYear.jsp?type=nslds_materials&set=archive

The email address for NSLDS Customer Service is:
NSLDS@ed.gov

The phone number for SCHOOL USE ONLY
800-999-8219
There are exceptions to the recommendation that a school wait the full 45 days before reporting a student overpayment through NSLDS. If during the 45-day period a student indicates that he or she cannot repay his or her debt in full and wishes to negotiate a repayment agreement with the Department, the school should immediately report the overpayment to NSLDS and refer the overpayment to Debt Resolution Services. Likewise, if a student contacts a school that will not be offering institutional repayment agreements and indicates that he or she cannot pay the overpayment within the 45 days, the school should immediately report the overpayment to NSLDS and refer the overpayment to Debt Resolution Services. Debt Resolution Services will need time to receive and record an overpayment before it can respond to a student inquiry. Schools should advise students to wait at least 10 days before contacting Debt Resolution Services.

After a school has reported and referred a student’s overpayment, the school should provide the student with the phone number and postal address for Debt Resolution Services. A student can contact Debt Resolution Services by calling 800-621-3115 or by writing Debt Resolution Services at the following address:

U.S. Department of Education
Debt Resolution Services
P.O. Box 5609
Greenville, Texas 75403

Reporting and referring overpayments

Referring overpayments for collection is a separate process from reporting overpayments to NSLDS. Reporting is the process of creating within NSLDS a record of a student’s overpayment. Referring is the process of turning over a student’s debt to Debt Resolution Services. Students who pay their debts in full during the 45-day period should neither be reported to NSLDS nor referred for collection.

A school reports overpayments to the NSLDS via the NSLDS website. A school sends referrals to Debt Resolution Services through the U.S. Mail to the –

Student Loan Processing Center – Overpayments
P.O. Box 4157
Greenville, Texas  75403
If a student who owes a repayment of a Title IV grant calls Debt Resolution Services before Debt Resolution Services has received and recorded the student’s overpayment, Debt Resolution Services will examine the student’s record in the NSLDS. If a school has reported the overpayment to NSLDS correctly, Debt Resolution Services will inform the student that the overpayment is being processed and that the student should call back in ten days for further information. If a student calls Debt Resolution Services before a school has reported the student’s overpayment to the NSLDS, Debt Resolution Services will find no record of the overpayment and will tell the student to contact the school to resolve the discrepancy.

A student who does not take positive action during the 45-day period becomes ineligible for Title IV funds on the 46th day from the earlier of (1) the date the school sends a notification to the student of the overpayment; or (2) the date the school was required to notify the student of the overpayment. The student will remain ineligible until the student enters into a satisfactory repayment agreement with the Department. An overpayment resulting from a student’s withdrawal remains an overpayment until it is repaid in full. Though a student may regain Title IV eligibility by negotiating and satisfying the requirements of a satisfactory repayment arrangement, the information on the student’s NSLDS account will continue to reflect the status of the overpayment until the debt is repaid in full.

If a school enters into a repayment arrangement with a student who owes an overpayment, the school should immediately report the repayment arrangement using the online NSLDS screens. The school should report the status (Indicator field) of an overpayment for which it has entered a repayment agreement as “SATISFACTORY ARRANGEMENT MADE.” After the information is reported to the NSLDS, any future output from the CPS (SARs and ISIRs) will show that the student owes a repayment of a Title IV grant and that the student has negotiated a satisfactory repayment arrangement with the school.

As long as the student fulfills his or her commitment under the repayment arrangement, the NSLDS overpayment status of “SATISFACTORY ARRANGEMENT MADE” will indicate that, though the student owes an overpayment, the student remains eligible for Title IV funds. If at any time a student fails to comply with the terms of the student’s agreement to repay, or if the student fails to complete repayment in the two years allowed, the school must immediately update the student’s overpayment status (Indicator field) to “OVERPAYMENT.” From that point on the NSLDS will inform schools that the student is not eligible for Title IV funds.
**Required referrals**

A school must refer to the Department/Debt Resolution Services a student who:

- does not satisfy the requirements of a repayment agreement with the school;
- fails to contact the school during the 45-day period;
- fails, during the 45-day period, to pay his or her overpayment in full or enter into a repayment arrangement or
- fails to complete repayment in the two years allowed.

If a school is referring to Debt Resolution Services a student overpayment previously reported to NSLDS, the school must also update the information previously reported to NSLDS by changing the Source field from “School” to “Transfer.” If a school is referring a student who has failed to satisfy the terms of his or her repayment agreement, the school should also change the status code (Indicator field) from “Satisfactory Arrangement Made” to “Overpayment.” If a school is referring for collection a student not previously reported to NSLDS, the school must report the account to NSLDS as a referred overpayment, enter “TRF-Transfer” as the initial source in the Source field and “Overpayment” as the overpayment status (Indicator field).

To refer student overpayments for collection, schools should use a format similar to the one found at the end of this chapter and send the form to the address at the bottom of that page. Each referral must be typed or printed and must be submitted on school letterhead.

In order to avoid creating a double record for a single overpayment, the school must populate its Overpayment Referral Form, Dates of Disbursements, with the exact same dates the school used when it created the NSLDS record. In addition, a school must ensure that it enters for award year, the year the disbursement was made.

Once Debt Resolution Services has accepted a referred student overpayment, Debt Resolution Services will transmit the information to NSLDS and “EDR Region” will replace “Transfer” as the appropriate contact source for information about the overpayment. On its Overpayment Referral, schools must provide their School’s Pell Identification Number. Schools should not enter their Routing Identifier.

**If your school does not have a Pell ID**

If you are referring a TEACH Grant to Debt Resolution Services for collection and your school does not have a Pell ID, on the “Overpayment Referral Form,” under “School Information,” you must provide your OPEID.
If the student whose overpayment case has been accepted by the Department wishes to establish a repayment schedule, the student should contact Debt Resolution Services by calling:

1-800-621-3115

After October 1, 2011, a student will be able to contact us by going to: www.myeddebt.com; selecting the Borrower tab, Contact Us, and Secure email.

Summary

- If during the 45-day period a student repays his or her debt in full to the institution, the institution should neither report the overpayment in NSLDS nor refer the student to Debt Resolution Services.

- If during the 45-day period a student signs a repayment agreement with the institution, the institution should immediately (within a few days) make the appropriate entries in NSLDS.

- If during the 45-day period a student indicates that he or she will not or cannot repay the overpayment and wishes to negotiate a repayment agreement with the Department, the institution should immediately (within a few days) report the overpayment in NSLDS and refer the overpayment to Debt Resolution Services.

- If the institution will not be offering institutional repayment arrangements to students and during the 45-day period a student indicates that he or she cannot repay the debt in full, the institution should immediately (within a few days) report the overpayment in NSLDS and refer the overpayment to Debt Resolution Services.

- If a student fails to take any positive action during the 45-day period, upon the expiration of that period the institution should immediately (within a few days) report the overpayment in NSLDS and refer the overpayment to Debt Resolution Services.

- If a student signs a repayment agreement with an institution and at any time then fails to fulfill the terms of that agreement, the institution should immediately (within a few days) report the overpayment in NSLDS and refer the overpayment to Debt Resolution Services.
Accepting payments on referred overpayments

A school may continue to accept payment on a Title IV grant overpayment after the overpayment has been referred to the Department. (Before accepting the funds, the school should verify the Department has accepted the debt by examining the “Source” field in NSLDS.) A school that accepts a check made out to the Department on an overpayment that has been referred to Debt Resolution Services must –

1. note the student’s name and SSN on the check;
2. indicate that the payment is for an overpayment of a Title IV grant and
3. forward the payment to Debt Resolution Services’ National Payment Center at –

   National Payment Center  
   P.O. Box 105028  
   Atlanta, Georgia 30348-5028

If a school accepts a cash payment from one or more students who owe overpayments and who have been referred to Debt Resolution Services, the school should write its own check to the Department and attach a letter indicating that the check is for a Title IV grant overpayment. The school must include in its letter a roster that includes, for each student who made a payment, the student’s name, social security number and amount paid.

If a school receives a payment for an overpayment previously referred to Debt Resolution Services and if –

- the overpayment was made in the current award year, and
- the payment will retire the student’s debt in full,

the institution must:

1. deposit the payment in its appropriate institutionally maintained federal funds account;
2. make the appropriate entry in the COD system (the replacement value) and
3. send a letter or fax to Debt Resolution Services identifying the student and indicating that the student’s overpayment has been completely repaid. This will allow the Department to properly update its records in both the Debt Resolution Services system and NSLDS.

The fax number (This process cannot be performed via email.) for this purpose and school use only is –

(903) 454-5398
In the fax or letter, a school must include the:

1. award year of the overpayment (current award year only);
2. student’s social security number;
3. student’s last name, first name and middle initial;
4. student’s date of birth;
5. type of overpayment — Federal Pell Grant, Iraq and Afghanistan Service Grant, SEOG, ACG, National SMART Grant or TEACH Grant; and
6. the disbursement date the institution used to create the overpayment record in NSLDS.

**Corrections or recalls of referred overpayments**

If you determine that a student who you have referred to Debt Resolution Services does not owe an overpayment or that the amount you referred was incorrect, you should fax or mail a letter explaining the situation to Debt Resolution Services at:

(903) 454-5398

Important: You should not send a revised referral form when making changes or corrections.

The letter must include the –

- student's last name, first name and middle initial;
- student’s social security number;
- award year of the overpayment;
- disbursement date the institution used to create the overpayment record in NSLDS;
- amount originally referred and
- description of the issue, and the requested action.

Debt Resolution Services will cease collection efforts and change the record in NSLDS so that the overpayment will be shown as “Satisfied.”
When a student loses eligibility at a former school while receiving aid at a second school

If a student who owes a Title IV overpayment due to a withdrawal from one school receives additional Title IV aid at another school (based upon the student’s having entered into an agreement with either Debt Resolution Services or the first school) and then fails to meet the requirements of the agreement, Debt Resolution Services or the school, as appropriate, will update NSLDS to show that the student is no longer eligible due to his or her violation of the agreement. The NSLDS postscreening process will then cause a new ISIR record to be created and sent to all schools listed in the CPS record.

As noted previously under When a student receives additional funds during the 45-day period of extended eligibility, the student loses eligibility as soon as he or she fails to meet the terms of the repayment agreement. The second school is not liable for any aid it disbursed after the student became ineligible but prior to being notified of the ineligibility via the NSLDS postscreening process.

As provided for in previous guidance (GEN-96-13, Q&A 13 and 15), once the school receives a record from NSLDS showing that a student is not eligible, it may no longer disburse Title IV aid to the student and must assist the Department in requiring the student to repay any funds he or she was not eligible to receive.

If a student who is receiving Title IV aid at an institution with which he or she has entered into a repayment agreement for a previous overpayment resulting from a withdrawal violates the terms of that agreement, the institution must immediately cease disbursing Title IV aid to the student. The school must immediately update the NSLDS record and refer the overpayment to Debt Resolution Services.

---

1. In place of the dates listed, a school may always use as a student’s withdrawal date the student’s last date of attendance at an academically related activity if the school documents that the activity is academically related and that the student attended the activity.

2. For a student who withdraws without providing notification to the school, the school must determine the withdrawal date no later than 30 days after the end of the earliest of the (1) payment period or period of enrollment (as appropriate), (2) academic year or (3) educational program.
Chapter 2 — Withdrawals and the Return of Title IV Funds

SAMPLE SUMMARY OF THE REQUIREMENTS OF 34 CFR 668.22
(TO PROVIDE TO STUDENTS AS PART OF CONSUMER INFORMATION)

Treatment of Title IV Aid When a Student Withdraws

The law specifies how your school must determine the amount of Title IV program assistance that you earn if you withdraw from school. The Title IV programs that are covered by this law are: Federal Pell Grants, Iraq and Afghanistan Service Grants, Academic Competitiveness Grants, National SMART grants, TEACH Grants, Stafford Loans, PLUS Loans, Federal Supplemental Educational Opportunity Grants (FSEOGs) and Federal Perkins Loans.

When you withdraw during your payment period or period of enrollment (your school can define these for you and tell you which one applies), the amount of Title IV program assistance that you have earned up to that point is determined by a specific formula. If you received (or your school or parent received on your behalf) less assistance than the amount that you earned, you may be able to receive those additional funds. If you received more assistance than you earned, the excess funds must be returned by the school and/or you.

The amount of assistance that you have earned is determined on a prorata basis. For example, if you completed 30% of your payment period or period of enrollment, you earn 30% of the assistance you were originally scheduled to receive. Once you have completed more than 60% of the payment period or period of enrollment, you earn all the assistance that you were scheduled to receive for that period.

If you did not receive all of the funds that you earned, you may be due a Post-withdrawal disbursement. If your Post-withdrawal disbursement includes loan funds, your school must get your permission before it can disburse them. You may choose to decline some or all of the loan funds so that you don’t incur additional debt. Your school may automatically use all or a portion of your Post-withdrawal disbursement of grant funds for tuition, fees and room and board charges (as contracted with the school). The school needs your permission to use the Post-withdrawal grant disbursement for all other school charges. If you do not give your permission (some schools ask for this when you enroll), you will be offered the funds. However, it may be in your best interest to allow the school to keep the funds to reduce your debt at the school.

There are some Title IV funds that you were scheduled to receive that cannot be disbursed to you once you withdraw because of other eligibility requirements. For example, if you are a first-time, first-year undergraduate student and you have not completed the first 30 days of your program before you withdraw, you will not receive any Direct Loan funds that you would have received had you remained enrolled past the 30th day.

If you receive (or your school or parent receive on your behalf) excess Title IV program funds that must be returned, your school must return a portion of the excess equal to the lesser of:

1. your institutional charges multiplied by the unearned percentage of your funds, or
2. the entire amount of excess funds.

The school must return this amount even if it didn’t keep this amount of your Title IV program funds.
If your school is not required to return all of the excess funds, you must return the remaining amount. Any loan funds that you must return, you (or your parent for a PLUS Loan) repay in accordance with the terms of the promissory note. That is, you make scheduled payments to the holder of the loan over a period of time.

Any amount of unearned grant funds that you must return is called an overpayment. The maximum amount of a grant overpayment that you must repay is half of the grant funds you received or were scheduled to receive. You do not have to repay a grant overpayment if the original amount of the overpayment is $50 or less. You must make arrangements with your school or the Department of Education to return the unearned grant funds.

The requirements for Title IV program funds when you withdraw are separate from any refund policy that your school may have. Therefore, you may still owe funds to the school to cover unpaid institutional charges. Your school may also charge you for any Title IV program funds that the school was required to return. If you don’t already know what your school’s refund policy is, you can ask your school for a copy. Your school can also provide you with the requirements and procedures for officially withdrawing from school.

If you have questions about your Title IV program funds, you can call the Federal Student Aid Information Center at 1-800-4-FEDAI (1-800-433-3243). TTY users may call 1-800-730-8913. Information is also available on Student Aid on the Web at www.studentaid.ed.gov.

<td>10. FFEL/Direct PLUS (Graduate Student)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>11. FFEL/Direct PLUS (Parent)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### STEP 2: Percentage of Title IV Aid Earned

- Start date: / / 
- Scheduled end date: / / 
- Date of withdrawal: / / 

A school that is not required to take attendance may, for a student who withdraws without notification, enter 50% in Box H and proceed to Step 3. Or, the school may enter the last date of attendance at an academically related activity for the "withdrawal date," and proceed with the calculation as instructed. For a student who officially withdraws, enter the withdrawal date.

**H. Percentage of payment period or period of enrollment completed**

Divide the calendar days completed in the period by the total calendar days in the period (excluding scheduled breaks of five days or more AND days that the student was on an approved leave of absence).

\[
\text{Completed days} \div \text{Total days} = \% 
\]

- If this percentage is greater than 60%, enter 100% in Box H and proceed to Step 3.
- If this percentage is less than or equal to 60%, enter that percentage in Box H, and proceed to Step 3.

#### STEP 3: Amount of Title IV Aid Earned by the Student

Multiply the percentage of Title IV aid earned (Box H) by the Total Title IV aid disbursed and that could have been disbursed for the period (Box G).

\[
\% \times \Box H = \Box I 
\]

#### STEP 4: Title IV Aid to be Disbursed or Returned

- If the amount in Box I is greater than the amount in Box E, go to Item J (Post-withdrawal disbursement).
- If the amount in Box I is less than the amount in Box E, go to Title IV aid to be returned (Item K).
- If the amounts in Box I and Box E are equal, STOP. No further action is necessary.

**J. Post-withdrawal disbursement**

From the Amount of Title IV aid earned by the student (Box I) subtract the Total Title IV aid disbursed for the period (Box E). This is the amount of the post-withdrawal disbursement.

\[
\Box I - \Box E = \Box J 
\]

You should use this form when the withdrawal date is on or after 7/1/2010

---

Monetary amounts should be in dollars and cents (rounded to the nearest penny). When calculating percentages, round to three decimal places. (For example, .4486 = .449, or 44.9%)
STEP 4: Aid to be Disbursed or Returned CONTINUED

K. Title IV aid to be returned

From the Total Title IV aid disbursed for the period (Box E) subtract the amount of Title IV aid earned by the student (Box I). This is the amount of Title IV aid that must be returned.

\[ \text{Box E} - \text{Box I} = \text{K.}\] .

STEP 5: Amount of Unearned Title IV Aid Due from the School

L. Institutional charges for the period

Tuition: ..............................
Room: ..............................
Board: ..............................
Other: ..............................

Total Institutional Charges (Add all the charges together) = \[ L.\] .

M. Percentage of unearned Title IV aid

\[ 100\% - \% = M.\] .

N. Amount of unearned charges

Multiply institutional charges for the period (Box L) by the percentage of unearned Title IV aid (Box M).

\[ \text{Box L} \times \% = \text{N.}\] .

O. Amount for school to return

Compare the amount of Title IV aid to be returned (Box K) to amount of unearned charges (Box N), and enter the lesser amount.

\[ \text{O.}\] .

STEP 6: Return of Funds by the School

The school must return the unearned aid for which the school is responsible (Box O) by repaying funds to the following sources, in order, up to the total net amount disbursed from each source.

Title IV Programs

1. Unsubsidized FFEL/Direct Stafford Loan
2. Subsidized FFEL/Direct Stafford Loan
3. Perkins Loan
4. FFEL/Direct PLUS (Graduate Student)
5. FFEL/Direct PLUS (Parent)

Total loans the school must return = \[ P.\] .

STEP 7: Initial Amount of Unearned Title IV Aid Due from the Student

From the amount of Title IV aid to be returned (Box K) subtract the Amount for the school to return (Box O).

\[ \text{Box K} - \text{Box O} = \text{Q.}\] .

If Box Q is < zero, STOP. If greater than zero, go to Step 8.

STEP 8: Repayment of the Student’s loans

From the Net loans disbursed to the student (Box B) subtract the Total loans the school must return (Box P) to find the amount of Title IV loans the student is still responsible for repaying. These loans consist of loans the student has earned, or unearned loan funds the school is not responsible for repaying. They are repaid to the loan holders according to the terms of the borrower’s promissory note.

\[ \text{Box B} - \text{Box P} = \text{R.}\] .

If Box Q is less than or equal to Box R, STOP. The only action a school must take is to notify the holders of the loans of the student’s withdrawal date.

If Box Q is greater than Box R, proceed to Step 9.

STEP 9: Grant Funds to be Returned

S. Initial amount of Title IV grants for student to return

From the initial amount of unearned Title IV aid due from the student (Box Q) subtract the amount of loans to be repaid by the student (Box R).

\[ \text{Box Q} - \text{Box R} = \text{S.}\] .

T. Amount of Title IV grant protection

Multiply the total of Title IV grant aid that was disbursed and that could have been disbursed for the period (Box F) by 50%.

\[ \text{Box F} \times 50\% = \text{T.}\] .

U. Title IV grant funds for student to return

Multiply the initial amount of Title IV grants for student to return (Box S) by the Amount of Title IV grant protection (Box T).

\[ \text{Box S} \times \text{Box T} = \text{U.}\] .

If Box U is less than or equal to zero, STOP. If not, go to Step 10.

STEP 10: Return of Grant Funds by the Student

Except as noted below, the student must return the unearned grant funds for which he or she is responsible (Box U). The grant funds returned by the student are applied in order as indicated, up to the amount disbursed from that grant program minus any grant funds the school is responsible for returning to that program in Step 6.

Note that the student is not responsible for returning funds to any program to which the student owes $50.00 or less.

Title IV Grant Programs

1. Pell Grant
2. Academic Competitiveness Grant
3. National SMART Grant
4. FSEOG
5. TEACH Grant
6. Iraq and Afghanistan Service Grant

Amount To Return
Post-withdrawal DISBURSEMENT TRACKING SHEET

Student's Name ___________________________ Social Security Number ___________________________

<td>4. FFEL/Direct PLUS (Graduate Student)</td>
<td></td>
</tr>
<tr>
<td>5. FFEL/Direct PLUS (Parent)</td>
<td></td>
</tr>
</tbody>
</table>

Total loans the school must return = P.$

### STEP 7: Initial Amount of Unearned Title IV Aid Due from the Student

From the amount of Title IV aid to be returned (Box K) subtract the Amount for the school to return (Box O).

\[ \text{Box K} - \text{Box O} = Q.\$ \]

If Box Q is \( \leq \) zero, STOP. If greater than zero, go to Step 8.

### STEP 8: Repayment of the Student’s loans

From the Net loans disbursed to the student (Box B) subtract the Total loans the school must return (Box P) to find the amount of Title IV loans the student is still responsible for repaying (Box R).

These loans consist of loans the student has earned, or unearned loan funds the school is not responsible for repaying. They are repaid to the loan holders according to the terms of the borrower’s promissory note.

\[ \text{Box B} - \text{Box P} = R.\$ \]

If Box Q is less than or equal to Box R, STOP.

The only action a school must take is to notify the holders of the loans of the student’s withdrawal date.

If Box Q is greater than Box R, proceed to Step 9.

### STEP 9: Grant Funds to be Returned

<table>
<thead>
<tr>
<th>S. Initial amount of Title IV grants for student to return</th>
</tr>
</thead>
<tbody>
<tr>
<td>From the Initial amount of unearned Title IV aid due from the student (Box Q) subtract the amount of loans to be repaid by the student (Box R).</td>
</tr>
</tbody>
</table>

\[ \text{Box Q} - \text{Box R} = S. \]

<table>
<thead>
<tr>
<th>T. Amount of Title IV grant protection</th>
</tr>
</thead>
<tbody>
<tr>
<td>Multiply the total of Title IV grant aid that was disbursed and that could have been disbursed for the period (Box F) by 50%.</td>
</tr>
</tbody>
</table>

\[ \text{Box F} \times 50\% = T. \]

If Box U is less than or equal to zero, STOP. If not, go to Step 10.

### STEP 10: Return of Grant Funds by the Student

Except as noted below, the student must return the unearned grant funds for which he or she is responsible (Box U). The grant funds returned by the student are applied in order as indicated, up to the amount disbursed from that grant program minus any grant funds the school is responsible for returning to that program in Step 6.

Note that the student is not responsible for returning funds to any program to which the student owes $50.00 or less.

Case Studies in Withdrawal and the Return of Title IV Aid

Case Study 1: Penny Jones
Calculating the return of Title IV funds for a student attending a two-year community college (semester) who is receiving Title IV grants and loans (partially disbursed), and is due a Post-withdrawal disbursement.

Case Study 2: Bob Ellison
Calculating the return of Title IV funds when a student receiving Title IV grants and loans at a low-cost public community college that measures progress in credit hours withdraws and both the school and the student must return grant funds.

Case Study 3: Richard Sherman
When a student receiving Title IV grants and loans at a school that uses the aggregate method for matching the school’s FSEOG federal allocation withdraws unofficially.

Case Study 4: Harry Springer
When a student receiving Title IV grants and loans at a school that measures academic progress in clock hours and performs its Return calculations on a period of enrollment basis withdraws unofficially.

Case Study 5: Jordan Aire
When a student receiving Title IV grants and loans at a school that measures academic progress in clock hours and performs its Return calculations on a payment period basis withdraws unofficially.

Case Studies 6 & 7: Thompson S. Hunter
When a student receiving Title IV grants at a school that utilizes a term-based modular course structure, measures academic progress in credit hours and performs its Return calculations on a payment period basis officially withdraws, returns and withdraws again.

Case Study 8: Eli Kraut
When a student receiving Title IV grants at a school that utilizes a non-term modular course structure, measures academic progress in credit hours and performs its Return calculations on a payment period basis officially withdraws.
CASE STUDY 1: PENNY JONES

Calculating the return of Title IV funds for a student attending a two-year community college (semester) who is receiving Title IV grants and loans (partially disbursed), and is due a Post-withdrawal disbursement.

**Learning Objectives**

Learn to complete STEPs 1 – 4 of the Treatment of Title IV Funds when a Student Withdraws from a Credit-Hour Program worksheet, and be able to:

- identify the basic information needed to complete the worksheet, including the withdrawal date and date of the institution’s determination that the student withdrew;
- calculate the percentage of the payment period or period of enrollment the student completed;
- calculate both the percentage and the amount of Title IV aid earned by the student;
- determine either that the student is due a Post-withdrawal disbursement (PWD) of Title IV aid or that Title IV aid must be returned;
- determine the amount to be offered to the student or returned; and
- provide the information a school must maintain in its files when a student is eligible for a Post-withdrawal disbursement, and complete a Post-withdrawal Tracking Sheet.

### School Profile

Everyone Should Have an Education Community College (ESECC) is a two-year, public, semester-based institution that measures academic progress in credit hours.

<table>
<thead>
<tr>

**Student Profile**

Penny Jones is a first-year student in Virginia. Charges to her account for the first semester are as follows:

<table>
<thead>
<tr>
<th>Charge</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition and fees</td>
<td>$1,000.00</td>
</tr>
<tr>
<td>Technology fee</td>
<td>$100.00</td>
</tr>
<tr>
<td>Books and Supplies</td>
<td>$400.00</td>
</tr>
<tr>
<td>Health Insurance</td>
<td>$200.00</td>
</tr>
</tbody>
</table>

Charges remaining on Penny’s account after the withdrawal:

<table>
<thead>
<tr>
<th>Charge</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>$100.00</td>
</tr>
</tbody>
</table>

School Authorized to Credit Account for Other Charges: Yes (all charges)

Penny’s financial aid package included the following annual awards:

<table>
<thead>
<tr>
<th>Award</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$2,000.00</td>
</tr>
<tr>

<tr>
<td>State Grant</td>
<td>$500.00</td>
</tr>
<tr>
<td>College Grant</td>
<td>$200.00</td>
</tr>
</tbody>
</table>

**Discussion**

On the first day of the fall semester, August 23, Penny received the following disbursements to her student account:

<table>
<thead>
<tr>
<th>Award</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$1,000.00</td>
</tr>
<tr>
<td>Direct Subsidized Loan</td>
<td>$0.00</td>
</tr>
<tr>
<td>State Grant</td>
<td>$500.00</td>
</tr>
<tr>
<td>College Grant</td>
<td>$100.00</td>
</tr>
</tbody>
</table>

Although Penny is grateful for the assistance, she is concerned about meeting her living costs for the year.

On October 8, Penny came to the Financial Aid Office to advise that she doesn’t think she is doing very well and is considering dropping out prior to November 1, the last day to withdraw from classes without academic penalty. To help her make a decision, she requests information on the withdrawal process. You are fairly certain that Penny is having a hard time adjusting to college life, and want to encourage her to hang in until the end of the semester, December 10. After you provide her preliminary information, you ask her if it is her intent to withdraw. Penny says that she needs some time to think it over, and makes a follow-up appointment for October 13.
When Penny comes to see you on October 13, she indicates that the last class she attended was on September 30. Because she doesn’t see how she can get caught up on the work she’s missed, she is adamant about withdrawing, so you give her instructions on completing the college’s official withdrawal process and advise her where she can get the appropriate forms. Penny picks up the forms from the registrar on October 14. She turns the completed forms in on October 15.

Let’s review some basic information about Penny as well as our learning objectives for this case. Penny attended a two-year community college, which was on the semester system. Students earned academic credits based on credit hours taken. Before withdrawing, Penny received her Pell Grant disbursement, but not her Direct Loan.

The first thing we’ll need to do is to decide on the date of the school’s determination that Penny withdrew. Then, we’ll complete Step 1: Student’s Title IV Aid Information, which includes:

- Title IV aid disbursed, and
- Title IV aid that could have been disbursed.

**Solution**

The date of the institution’s determination is the date you were advised by Penny that she had decided to withdraw (October 13). On the earlier date, October 8, she was only thinking about withdrawing.

Date of the institution’s determination that the student withdrew = October 13.

Note that for a student who provides notification to the institution of his or her withdrawal, the *date of determination* is the student’s withdrawal date, or the date of notification of withdrawal, whichever is later (34 CFR 668.22(l)(3)(i)). In this case, the dates are identical, October 13.

The withdrawal date for Title IV purposes, October 13, is described in **Step 2**.

**STEP 1: Student’s Title IV Aid Information**

<table>
<thead>
<tr>
<th>Box A.</th>
<th>Title IV grants aid disbursed –</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Pell Grant</td>
</tr>
<tr>
<td></td>
<td>$ 1,000.00</td>
</tr>
</tbody>
</table>

A. = $ 1,000.00

<table>
<thead>
<tr>
<th>Box B.</th>
<th>Net Title IV loans disbursed = $ 0.00</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Box C.</th>
<th>Title IV grants that could have been disbursed = $ 0.00</th>
</tr>
</thead>
</table>
Box D. Penny’s Direct Loan had not been disbursed yet. But, she was eligible for the disbursement. Net Title IV loans that could have been disbursed = $1,750.00

\[ D = 1,750.00 \]

Box E. Although Penny also received disbursements of state and institutional aid, only Title IV aid is considered in the return of funds calculation. Title IV aid disbursed = $1,000.00.

\[ E = 1,000.00 \]

Box F. Box F is equal to the $1,000.00 from Box A plus $0.00 from Box C. Box F = $1,000.

\[ F = 1,000.00 \]

Box G. Both the disbursed Pell (Box A) and undisbursed Direct Loan (Box D) are included Box G. Total Title IV aid disbursed plus Title IV aid that could have been disbursed = $2,750.

Pell Grant (Box A) $1,000.00
Direct Subsidized Loan (Box D) $1,750.00

Total Title IV aid disbursed plus could have been disbursed (Box G) $2,750.00

\[ G = 2,750.00 \]

**STEP 2: Percentage of Title IV Aid Earned**

1. Payment period start date = August 23
2. Payment period end date = December 10
3. Withdrawal date = October 13

**Note:** Since ESECC is not required by an outside entity to take attendance, the withdrawal date is the date Penny began the official school withdrawal process. Since the school includes the financial aid office as one of those places where the student can begin the withdrawal process, Penny’s withdrawal date is October 13.

Although the school’s refund policy is that the withdrawal date is the date a student turns in the signed withdrawal forms — which she did on October 15 — that date is superseded for a student receiving Title IV aid by the federal requirement to use the date the student begins the withdrawal process or otherwise provides official notification (October 13).

Although Penny stopped attending classes on September 30, she didn’t notify the school (begin the official withdrawal process) until October 13. When she came to see you on October 8, she was only thinking about withdrawing.

Of course, the school could have documented a last date of attendance at an academically-related activity and used that as her withdrawal date if it so chose.
Box H. Percentage of payment period completed

- Since the student attended a credit-hour school, the percentage of aid completed is calculated by dividing the number of calendar days completed by the total number of calendar days in the payment period. Number of calendar days completed in payment period = 52 (August 23 – October 13).

- Because the semester does not include a scheduled break of five or more consecutive days, all of the calendar days in the period from August 23 to December 10 are counted. Number of calendar days in payment period = 110.

Note: Days in a period are counted as follows:
1. the first day of the payment period is the first scheduled day of academically related activity;
2. the last day of the payment period is the last scheduled day of academically related activity;
3. the school must count the date of withdrawal as a date of attendance.

- 52 days ÷ 110 days = .4727, rounded to .473, or 47.3%. Percentage of payment period completed = 47.3%.

Because this percentage is less than 60%, the Percentage of Title IV aid earned,

\[ H = 47.3\% \]

STEP 3: Amount of Title IV Aid Earned by the Student

Box I. 47.3% (Percentage of Title IV aid earned from Box H) × $2,750.00 (Total Title IV aid disbursed plus Title IV aid that could have been disbursed from Box G) = $1,300.75.

Amount of Title IV aid earned by the student (Box I) = $1,300.75.

\[ I = 1300.75 \]

STEP 4: Total Title IV Aid to Be Disbursed or Returned

Box J. Because the total aid earned (Box I) is greater than the total aid disbursed (Box E), Penny is due a Post-withdrawal disbursement. $1,300.75 (Box I) – $1,000.00 (Box E) = $300.75.

Post-withdrawal disbursement (Box J) = $300.75.

\[ J = 300.75 \]

If a Post-withdrawal disbursement is due the student, you stop here on the worksheet. Your next step is to begin compiling the information a school must maintain in its files when a student is eligible for a Post-withdrawal disbursement (ESECC has chosen to use FSA’s Post-withdrawal Tracking Sheet), and providing the required notifications to the student.
THE POST-WITHDRAWAL DISBURSEMENT TRACKING SHEET

The FAO performed the Return calculation on October 15 and determined that Penny was eligible for a Post-withdrawal disbursement of $300.75 (STEP 4, Box J).

Because the Post-withdrawal disbursement would be composed entirely of loan funds, the school could not credit any funds to Penny’s account or disburse any funds to her directly without sending Penny written notification advising her of her responsibility to repay the funds and obtaining Penny’s confirmation that she still wanted them.

Therefore, on October 20, the school sent Penny a letter explaining that:

- she was eligible for a Post-withdrawal disbursement of Subsidized Direct Loan funds in the amount of $300.75;
- she could accept some or all of the funds;
- Penny was obligated to repay any loan funds she accepted;
- if she accepted the disbursement, $100 would be credited to her account for unpaid charges and that Penny could not receive that $100;
- if she accepted the disbursement, the school would make a direct disbursement directly to her of $200.75; and
- she has until November 13 (24 days from the day the school mailed the letter)\(^1\) to accept the disbursement, and that if her response was received after that date, the school did not have to make the disbursement.

On November 13, the school received confirmation from Penny that she accepted all of the funds.

On November 15, the school drew down $300.75 in Subsidized Direct Loan funds through GAPS, credited the $300.75 to Penny’s account, took $100 for unpaid charges and sent Penny a check for the credit balance of $200.75. (Note that the school could have drawn down the funds, credited the student’s account with $100 and sent the student the balance of $200.75, but we do not require a school to deviate from its normal cash management procedures and establish a different type of audit trail for Post-withdrawal disbursements.)

The FAO placed a record of all the aforementioned in Penny’s permanent financial aid file.

\(^1\) The regulations now allow a school to set a deadline later than 14 days, provided the later deadline applies to both confirmation of loan disbursements to the student’s account and direct disbursements of a Post-withdrawal disbursement.
**Treatment Of Title IV Funds When A Student Withdraws From A Credit-Hour Program**

A school that is not required to take attendance may, for a student who withdraws without notification, enter 50% in Box H and proceed to Step 3. Or, the school may enter the last date of attendance at an academically related activity for the “withdrawal date,” and proceed with the calculation as instructed. For a student who officially withdraws, enter the withdrawal date.

Monetary amounts should be in dollars and cents (rounded to the nearest penny). When calculating percentages, round to three decimal places. (For example, .4486 = .449, or 44.9%)

### STEP 1: Student’s Title IV Aid Information

<table>
<thead>
<tr>
<th>Title IV Grant Programs</th>
<th>Amount Disbursed</th>
<th>Amount that Could Have Been Disbursed</th>
<th>E. Total Title IV aid disbursed for the period.</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Pell Grant</td>
<td>1,000.00</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Academic Competitiveness Grant</td>
<td></td>
<td></td>
<td>+ B. 00.00</td>
</tr>
<tr>
<td>3. National SMART Grant</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. FSEOG</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. TEACH Grant</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. Iraq Afghanistan Service Grant</td>
<td></td>
<td></td>
<td>+ E. $1,000.00</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Title IV Loan Programs</th>
<th>Net Amount Disbursed</th>
<th>Net Amount that Could Have Been Disbursed</th>
<th>F. Total Title IV grant aid disbursed and that could have been disbursed for the period.</th>
</tr>
</thead>
<tbody>
<tr>
<td>7. Unsubsidized FFEL/Direct Stafford Loan</td>
<td>1,750.00</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8. Subsidized FFEL/Direct Stafford Loan</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>9. Perkins Loan</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>10. FFEL/Direct PLUS (Graduate Student)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>11. FFEL/Direct PLUS (Parent)</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### STEP 2: Percentage of Title IV Aid Earned

A school that is not required to take attendance may, for a student who withdraws without notification, enter 50% in Box H and proceed to Step 3. Or, the school may enter the last date of attendance at an academically related activity for the “withdrawal date,” and proceed with the calculation as instructed. For a student who officially withdraws, enter the withdrawal date.

H. Percentage of payment period or period of enrollment completed

Divide the calendar days completed in the period by the total calendar days in the period (excluding scheduled breaks of five days or more AND days that the student was on an approved leave of absence).

\[
\text{Percentage} = \frac{\text{Completed days}}{\text{Total days}} \times 100
\]

\[
\frac{52}{110} = 47.3\%\]

If this percentage is greater than 60%, enter 100% in Box H and proceed to Step 3.

If this percentage is less than or equal to 60%, enter that percentage in Box H, and proceed to Step 3.

### STEP 3: Amount of Title IV Aid Earned by the Student

Multiply the percentage of Title IV aid earned (Box H) by the Total Title IV aid disbursed and that could have been disbursed for the period (Box G).

\[
\text{Amount} = \text{Percentage} \times \text{Total Title IV aid disbursed and that could have been disbursed for the period.}
\]

\[
47.3\% \times 2,750.00 = \text{I.} \ 1,300.75
\]

### STEP 4: Total Title IV Aid to be Disbursed or Returned

- If the amount in Box I is greater than the amount in Box E, go to Item J (Post-withdrawal disbursement).

- If the amount in Box I is less than the amount in Box E, go to Title IV aid to be returned (Item K).

- If the amounts in Box I and Box E are equal, STOP. No further action is necessary.

J. Post-withdrawal disbursement

From the Amount of Title IV aid earned by the student (Box I) subtract the Total Title IV aid disbursed for the period (Box E). This is the amount of the post-withdrawal disbursement.

\[
\text{Amount} = \text{Amount in Box I} - \text{Total Title IV aid disbursed for the period.}
\]

\[
1,300.75 - 1,000.00 = \text{J.} \ 300.75
\]

Stop here, and enter the amount in “J” in Box 1 on Page 3 (Post-withdrawal disbursement tracking sheet).

You should use this form when the withdrawal date is on or after 7/1/2010

---

**Example 1**

- **Student’s Name:** Penny Jones
- **Date of school’s determination that student withdrew:** 10/13
- **Start date:** 08/23
- **Scheduled end date:** 12/10
- **Date of withdrawal:** 10/13

CASE STUDY 2: BOB ELLISON

Calculating the return of Title IV funds when a student receiving Title IV grants and loans at a low-cost public community college that measures progress in credit hours withdraws and both the school and the student must return grant funds.

Learning Objectives

Learn to complete STEPs 1–10 of the Treatment of Title IV Funds when a Student Withdraws from a Credit-Hour Program worksheet, and be able to:

• identify the basic information needed to complete the worksheet, including the withdrawal date and date of the institution’s determination that the student withdrew for a student who officially withdraws;
• calculate the percentage of the payment period or period of enrollment the student completed;
• calculate both the percentage and the amount of Title IV aid earned by the student;
• determine either that the student is due a Post-withdrawal disbursement (PWD) of Title IV aid or that Title IV aid must be returned;
• determine the amount to be offered to the student or returned; and
• apply the Title IV grant protection; and
• apply the de minimis grant repayment provision.

School Profile

West Coast Community College (WCCC) is a two-year public, credit-hour institution.

Academic Year/Program: 2 semesters
32 weeks

Period: 16 weeks
110 calendar days

Period Start Date: January 8

Period End Date: May 4

Institutionally Scheduled Break: Yes, 7 days

Taking Attendance Required: No

Method for Matching FSEOG: Fund-specific
Student Profile

Bob Ellison is a first-time freshman at WCCC. Charges to his account are as follows:

Tuition and Fees: $1,000.00/16 week semester

School Authorized to Credit Account for Other Charges: Yes (all charges)

Bob’s financial aid package includes the following annual awards:

- Pell Grant $2,050.00
- ACG $750.00
- FSEOG $2,400.00

Discussion

Bob Ellison enrolled as a first-time freshman at WCCC for the spring semester on January 8. On January 18, Bob got a call from the state treasurer informing him that the programming job he had applied for six months ago was his for the taking. That same day, Bob contacted the Financial Aid Office to advise it that he was withdrawing from WCCC, beginning WCCC’s formal withdrawal process (11 calendar days into the semester) and find out what to do next. All of his financial aid for the semester had been disbursed.

Solution

The date of the institution’s determination that Bob withdrew is the day he contacted the Financial Aid Office to advise the school that he was withdrawing from WCCC: January 18.

STEP 1: Student’s Title IV Aid Information

Box A. Because WCCC uses the fund-specific method of matching FSEOG funds, 100% of Bob’s FSEOG grant is used in the calculation. Title IV grant aid disbursed = $2,600.00.

<table>
<thead>
<tr>
<th>Grant</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$1,025.00</td>
</tr>
<tr>
<td>ACG</td>
<td>$375.00</td>
</tr>
<tr>
<td>FSEOG</td>
<td>$1,200.00</td>
</tr>
</tbody>
</table>

\[ \text{A. = $2,600.00} \]

Box B. Net Title IV loans disbursed = $0.00.

Box C. Grants that could have been disbursed = $0.00.
Box D.  Net Title IV loans that could have been disbursed = $ 0.00.

Box E.  Total Title IV aid disbursed for the payment period = A + B = 2,600.00 + 0.00 = $ 2,600.00.

Box F.  Total Title IV grant aid disbursed and could have been disbursed for the payment period = A + C = 2,600.00 + 0.00 = $ 2,600.00.

Box G.  Total Title IV aid disbursed and could have been disbursed for the payment period = A + B + C + D = 2,600.00 + 0.00 + 0.00 + 0.00 = $ 2,600.00.

STEP 2: Percentage of Title IV Aid Earned

1. Payment period start date = January 8.
2. Payment period end date = May 4.
3. Date of withdrawal = January 18.
4. Percentage of payment period completed:
   • Number of calendar days completed = 11 calendar days.
   • Number of calendar days in payment period = 110 calendar days.
   • 11 days ÷ 110 days = .100. Percentage of payment period completed = 10.0%.

Box H.  Because this percentage is less than 60%, the Percentage of Title IV aid earned = 10.0%.

STEP 3: Amount of Title IV Aid Earned by Student

Box I.  Multiply 10.0% (Percentage of Title IV aid earned from Box H) X $2,600.00 (total Title IV aid disbursed plus Title IV aid that could have been disbursed from Box G) = $260.00
Amount of Title IV aid earned by student = $260.00.

Box I.  = $260.00

STEP 4: Total Title IV Aid to be Disbursed or Returned

Box J.  Because the total Title IV aid earned (Box I) is less than the aid disbursed (Box E), no Post-withdrawal disbursement is due, and we proceed to Box K. Post-withdrawal disbursement = N/A.

Box K.  Because the total aid disbursed (Box E) is greater than the total aid earned (Box I), Title IV aid will need to be returned.
$2,600.00 (Box E) – $260.00 (Box D) = $2,340.00. Title IV aid to be returned = $2,340.00.
STEP 5: Amount of Unearned Title IV Aid Due from the School

Box L. Institutional charges for the payment period or period of enrollment = $1,000.00.

Tuition and Fees $ 1,000.00

Box M. Subtract 10.0%, the percentage of Title IV aid earned (Box H), from 100% (100% – 10.0% = 90.0%). Percentage of Title IV aid unearned = 90.0%.

Box N. First, calculate the unearned institutional charges. $1,000.00 (institutional charges from Box L) X 90.0% (% Title IV aid unearned from Box M) = $900.00 (no rounding needed).

Amount of unearned institutional charges = $900.00.

Box O. Then, compare the amount of Title IV aid to be returned (Box K) to unearned institutional charges (Box N) and enter the lesser amount for Box O.

Box K = $ 2,340.00
Box N = $ 900.00

Amount of unearned Title IV aid due from the school = $900.00.

STEP 6: Return of Funds by the School

Box P. The student had no loans, so the total loans the school must return = $0.00

Box P = $ 0.00

The student’s Pell Grant ($1,025.00) exceeds the amount the school must return ($900.00), so the school must return $900.00 to the Federal Pell Grant program. The school must return the funds as soon as possible, but no later than **45 days** from the date it determined Bob withdrew.

STEP 7: Initial Amount of Unearned Title IV Aid Due from Student

Box Q. Subtract the amount of Title IV aid that the school must return $900.00 (Box O) from the total amount of Title IV aid that is to be returned $2,340.00 (Box K). $2,340.00 – $900.00 = $1,440.00. Initial amount of unearned Title IV aid due from student = $1,440.00.

STEP 8: Repayment of the Student’s Loans

Box R. The student had no loans, so the total loans the student must return = $0.00.
STEP 9: Grant Funds to be Returned

Box S. Initial amount of Title IV grants for the student to return

Subtract the amount of loans to be repaid by the student ($0.00 from Box R) from the initial amount of unearned Title IV aid due from the student ($1,440.00 from Box Q) to find the Initial amount of Title IV grants for the student to return. $1,440.00 – $0.00 = $1,440.00.

Box T. Amount of grant protection

Multiply the total of Title IV grant aid that was disbursed and could have been disbursed for the payment period or period of enrollment ($2,600.00 from Box F) by 50%. Amount of grant protection = $2,600.00 X 50.0% = $1,300.00.

Box U. Title IV grant funds for the student to return

Subtract the protected amount of Title IV grants ($1,300.00 from Box T) from the initial amount of Title IV grants for student to return ($1,440.00 from Box S). Total grants for student to return = $1,440.00 – $1,300.00 = $140.00.

STEP 10: Return of Grant Funds by the Student

Amount of Title IV grants for the student to return

- Subtract the amount the school had to return to the Federal Pell Grant program ($900.00) from the amount Federal Pell Grant disbursed to the student ($1,025.00). Remaining un-earned Pell Grant balance = $1,025.00 – $900.00 = $125.00.
- Subtract the Remaining unearned Pell Grant balance of $125.00 from the $140.00 in Title IV grants for the student to return. ACG for student to return = $140.00 – $125.00 = $15.00.

* Because the $15.00 to be returned to the ACG program is $50.00 or less, it is considered a de minimis amount. Therefore, the school is not required to return it to the ACG program, report it to NSLDS or refer it to ED for collection.
### Treatment Of Title IV Funds When A Student Withdraws From A Credit-Hour Program

</tr>
</tbody>
</table>

#### Total Title IV Aid Disbursed

**Subtotal**

A. 2,600.00

B. 0.00

C. 0.00

**Subtotal**

**E. Total Title IV aid disbursed for the period.**

F. $2,600.00

G. Total Title IV aid disbursed and that could have been disbursed for the period.

H. Percentage of payment period or period of enrollment completed

- Divide the calendar days completed in the period by the total calendar days in the period (excluding scheduled breaks of five days or more AND days that the student was on an approved leave of absence).

   - Completed days / Total days = Percentage

   - If this percentage is greater than 60%, enter 100% in Box H and proceed to Step 3.
   - If this percentage is less than or equal to 60%, enter that percentage in Box H, and proceed to Step 3.

### STEP 2: Percentage of Title IV Aid Earned

**Start date** 01/08

**Scheduled end date** 05/04

**Date of withdrawal** 01/18

A school that is not required to take attendance may, for a student who withdraws without notification, enter 50% in Box H and proceed to Step 3. Or, the school may enter the last date of attendance at an academically related activity for the “withdrawal date,” and proceed with the calculation as instructed. For a student who officially withdraws, enter the withdrawal date.

#### H. Percentage of payment period or period of enrollment completed

- [ ] Payment period

**Completed days** 11

**Total days** 110

- Percentage = 11 / 110 = 10.0%

**If this percentage is greater than 60%, enter 100% in Box H and proceed to Step 3.**

**If this percentage is less than or equal to 60%, enter that percentage in Box H, and proceed to Step 3.**

### STEP 3: Amount of Title IV Aid Earned by the Student

Multiply the percentage of Title IV aid earned (Box H) by the Total Title IV aid disbursed and that could have been disbursed for the period (Box G).

- **I. $260.00**

### STEP 4: Total Title IV Aid to be Disbursed or Returned

- **If the amount in Box I is greater than the amount in Box E, go to Item J (Post-withdrawal disbursement).**

- **If the amount in Box I is less than the amount in Box E, go to Title IV aid to be returned (Box K).**

- **If the amounts in Box I and Box E are equal, STOP. No further action is necessary.**

#### J. Post-withdrawal disbursement

- From the Amount of Title IV aid earned by the student (Box I) subtract the Total Title IV aid disbursed for the period (Box E). This is the amount of the post-withdrawal disbursement.

- **$ NA**

**Stop here, and enter the amount in “J” in Box 1 on Page 3 (Post-withdrawal disbursement tracking sheet).**

You should use this form when the withdrawal date is on or after 7/1/2010

<td></td>
<td></td>
</tr>
</tbody>
</table>

**Total Institutional Charges**

(Add all the charges together)

\[
\begin{align*}
\text{=} & \quad \text{L.$ 1,000.00} \\
\end{align*}
\]

<table>
<thead>
<tr>
<th>M.</th>
<th>Percentage of unearned Title IV aid</th>
</tr>
</thead>
</table>
| 100% - 10.0 | \text{= M. 90.0 }% \\
| Box H |

**N. Amount of unearned charges**

Multiply institutional charges for the period (Box L) by the percentage of unearned Title IV aid (Box M).

\[
\begin{align*}
1,000.00 & \quad \text{Box L} \\
\times & \quad 90.0 \% \\
\hline
\text{=} & \quad \text{N.$ 900.00} \\
\end{align*}
\]

<table>
<thead>
<tr>
<th>O.</th>
<th>Amount for school to return</th>
</tr>
</thead>
<tbody>
<tr>
<td>Compare the amount of Title IV aid to be returned (Box K) to amount of unearned charges (Box N),</td>
<td></td>
</tr>
</tbody>
</table>

\[
\begin{align*}
\text{O.$} & \quad 900.00 \\
\end{align*}
\]

#### STEP 6: Return of Funds by the School

The school must return the unearned aid for which the school is responsible (Box O) by repaying funds to the following sources, in order, up to the total net amount disbursed from each source.

<table>
<thead>
<tr>
<th>Title IV Programs</th>
<th>Amount for School to Return</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Unsubsidized FFEL/Direct Stafford Loan</td>
<td></td>
</tr>
<tr>
<td>2. Subsidized FFEL/Direct Stafford Loan</td>
<td></td>
</tr>
<tr>
<td>3. Perkins Loan</td>
<td></td>
</tr>
<tr>
<td>4. FFEL/Direct PLUS (Graduate Student)</td>
<td></td>
</tr>
<tr>
<td>5. FFEL/Direct PLUS (Parent)</td>
<td></td>
</tr>
</tbody>
</table>

**Total loans the school must return**

\[
\begin{align*}
\text{=} & \quad \text{P.$ 0.00} \\
\end{align*}
\]

6. Pell Grant 900.00
7. Academic Competitiveness Grant
8. National SMART Grant
9. FSEOG
10. TEACH Grant
11. Iraq Afghanistan Service Grant

#### STEP 7: Initial Amount of Unearned Title IV Aid Due from the Student

From the amount of Title IV aid to be returned (Box K) subtract the Amount for the school to return (Box O).

\[
\begin{align*}
2,340.00 & \quad \text{Box K} \\
- & \quad \text{900.00} \\
\hline
\text{=} & \quad \text{Q.$ 1,440.00} \\
\end{align*}
\]

\[\text{IF Box Q is less than or equal to Box R, STOP. If greater than zero, go to Step 8}\]

#### STEP 8: Repayment of the Student’s loans

From the Net loans disbursed to the student (Box B) subtract the Total loans the school must return (Box P) to find the amount of Title IV loans the student is still responsible for repaying (Box R).

These loans consist of loans the student has earned, or unearned loan funds the school is not responsible for repaying. They are repaid to the loan holders according to the terms of the borrower’s promissory note.

\[
\begin{align*}
00.00 & \quad \text{Box B} \\
- & \quad \text{00.00} \\
\hline
\text{=} & \quad \text{R.$ 00.00} \\
\end{align*}
\]

\[\text{IF Box Q is less than or equal to Box R, STOP. If greater than zero, go to Step 9.}\]

#### STEP 9: Grant Funds to be Returned

<table>
<thead>
<tr>
<th>S.</th>
<th>Initial amount of Title IV grants for student to return</th>
</tr>
</thead>
<tbody>
<tr>
<td>From the initial amount of unearned Title IV aid due from the student (Box Q) subtract the amount of loans to be repaid by the student (Box R)</td>
<td></td>
</tr>
</tbody>
</table>

\[
\begin{align*}
1,440.00 & \quad \text{Box Q} \\

</tr>
</thead>
<tbody>
<tr>
<td>Multiply the total of Title IV grant aid that was disbursed and that could have been disbursed for the period (Box F) by 50%</td>
<td></td>
</tr>
</tbody>
</table>

\[
\begin{align*}
2,600.00 & \quad \text{Box F} \\
\times & \quad 50\% \\
\hline
\text{=} & \quad \text{T.$ 1,300.00} \\
\end{align*}
\]

<table>
<thead>
<tr>
<th>U.</th>
<th>Title IV grant funds for student to return</th>
</tr>
</thead>
<tbody>
<tr>
<td>From the Initial amount of Title IV grants for student to return (Box S) subtract the Amount of Title IV grant protection (Box T)</td>
<td></td>
</tr>
</tbody>
</table>

\[
\begin{align*}
1,440.00 & \quad \text{Box S} \\
- & \quad \text{1,300.00} \\
\hline
\text{=} & \quad \text{U.$ 140.00} \\
\end{align*}
\]

\[\text{IF Box U is less than or equal to zero, STOP. If not, go to Step 10.}\]

#### STEP 10: Return of Grant Funds by the Student

Except as noted below, the student must return the unearned grant funds for which he or she is responsible (Box U). The grant funds returned by the student are applied in order as indicated, up to the amount disbursed from that grant program minus any grant funds the school is responsible for returning to that program in Step 6.

**Note that the student is not responsible for returning funds to any program to which the student owes $50.00 or less.**

CASE STUDY 3: RICHARD SHERMAN

When a student receiving Title IV grants and loans at a school that uses the Aggregate method for matching the school’s FSEOG federal allocation withdraws unofficially.

Learning Objectives

Learn to complete Steps 1–9 of the Treatment of Title IV Funds when a Student Withdraws from a Credit-Hour Program worksheet, and be able to:

- identify the basic information needed to complete the worksheet, including the withdrawal date and date of the institution’s determination that the student withdrew for a student who withdraws unofficially;
- calculate the percentage of the payment period or period of enrollment the student completed;
- calculate both the percentage and the amount of Title IV aid earned by the student;
- determine either that the student is due a Post-withdrawal disbursement (PWD) of Title IV aid or that Title IV aid must be returned;
- determine the amount to be offered to the student or returned; and
- apply the Title IV grant protection.

School Profile

The Ultra Large State University (ULSU) is a four-year, semester-based, public institution that measures academic progress in credit hours and uses the Aggregate method for matching the school’s FSEOG federal allocation with state grant funds.

- Academic Year/Program: 2 semesters, 30 weeks
- Period: 15 weeks, 100 calendar days
- Period Start Date: September 1
- Institutionally Scheduled Break: None
- Required to Take Attendance: No
- Method for Matching FSEOG: Aggregate
**Student Profile**

Richard Sherman is a third-year student with a 3.5 cumulative GPA majoring in engineering.

School Authorized to Credit
Account for Other Charges: Yes (all charges)

Richard's financial aid package included the following **annual** awards:

- Pell Grant $4,000.00
- National SMART Grant $4,000.00
- State Grant $1,000.00
- FSEOG (Federal Portion) $1,500.00
- Net Unsubsidized Stafford Loan $3,860.00

All of Richard's financial aid for the first semester (i.e., 1/2 of his annual awards) was disbursed on the first day of classes.

**Discussion**

Richard is a brilliant computer engineering major in his third year at The ULSU. Over the summer between his second and third year, Richard developed and submitted to Gigantic Computer Corporation (GCC) an idea for a new memory chip. In October, Richard got a six figure offer of employment from GCC. Richard was so excited by the offer that he packed his bags and headed for Seattle without telling anyone at the school that he was leaving.

Instructors at The ULSU must report a last date of attendance (LDA) whenever they submit a non-passing grade, and those dates appear on a report of Title IV recipients who failed to earn a passing grade in any of their classes that is provided by the Computer Center to the financial aid office at the end of each grading period.

On December 16, after grades have been submitted for the fall semester, the Computer Center at The ULSU ran the program that identified Title IV recipients who failed to earn a passing grade in any of their classes. When the aid office received and evaluated the report for the fall semester it found that Richard’s LDA was October 10. Because Richard did not provide official notification of his withdrawal, he is considered an unofficial withdrawal.
At the beginning of the semester, the following awards were posted to Richard’s account at ULSU.

- Pell Grant $2,000.00
- National SMART Grant $2,000.00
- State Grant $500.00
- FSEOG $750.00
- Unsubsidized Stafford $1,930.00

**Solution**

The date of the institution’s determination that Richard withdrew is the date the aid office received and processed the report from the Computer Center. Date of institution’s determination that the student withdrew = December 16.

Note: For a student who withdraws without providing notification from a school that is not required to take attendance the school must determine the withdrawal date no later than 30 days after the end of the earlier of (1) the payment period or the period of enrollment (as applicable), (2) the academic year, or (3) the student’s educational program.

**STEP 1: Student’s Title IV Aid Information**

**Box A.** Because The ULSU uses the Aggregate method for matching the school’s FSEOG federal allocation, the state grant funds that make up the match are excluded from the Return calculation.

Title IV grant aid disbursed –

- Pell Grant $2,000.00
- National Smart Grant $2,000.00
- FSEOG $750.00

\[
A. = \sum \text{Title IV grants disbursed} = 2,000.00 + 2,000.00 + 750.00 = 4,750.00
\]

**Box B.** Net Title IV loans disbursed, Unsubsidized FFEL/Direct Stafford = $1,930.00

**Box C.** Title IV grants that could have been disbursed = $0.00.

**Box D.** Net Title IV loans that could have been disbursed = $0.00.

**Box E.** Total Title IV aid disbursed for the payment period =\[ A + B = 4,750.00 + 1,930.00 = 6,680.00. \]
Box F. Total Title IV grant aid disbursed and could have been disbursed for the payment period
\[ = A + C = 4,750.00 + 0.00 = 4,750.00. \]

Box G. Total Title IV aid disbursed and could have been disbursed for the payment period
\[ = A + B + C + D = 4,750.00 + 1,930.00 + 0.00 + 0.00 = 6,680.00. \]

**STEP 2: Percentage of Title IV Aid Earned**

Because Richard did not officially withdraw from school and The ULSU is not required to take attendance by an outside agency (other than for a one day snapshot for state census purposes), the school may use either the midpoint of the payment period or the last date of Richard’s attendance in an academically related activity as the withdrawal date. The school elects to choose the midpoint of the period as Richard’s withdrawal date.

1. Payment period start date = September 1
2. Payment period end date = December 9
3. Date of withdrawal = October 20
4. Percentage of payment period completed
   - Number of calendar days completed = 50
   - Number of calendar days in the payment period = 100
   - \( \frac{50}{100} = 0.5000 \). Percentage of payment period completed = 50.0%

Box H. Because this percentage is less than 60%, the Percentage of Title IV aid earned = 50.0%.

**STEP 3: Amount of Title IV Aid Earned by the Student**

Box I. 50.0% (Percentage of Title IV aid earned from Box H) \( \times \) $6,680.00 (Total of the Title IV aid disbursed and could have been disbursed for the payment period or period of enrollment from Box G) = $3,340.00. Amount of Title IV aid earned by the student = $3,340.00.

**STEP 4: Total Title IV Aid to be Disbursed or Returned**

Box J. Because the total Title IV aid earned (Box I) is less than the total Title IV aid disbursed (Box E), no Post-withdrawal disbursement is due, and we proceed to Box K.

Post-withdrawal disbursement = NA.

Box K. Because the total Title IV aid disbursed (Box E) is greater than the total Title IV aid earned (Box I), Title IV aid must be returned.

\[ $6,680.00 \text{(Box E)} - $3,340.00 \text{(Box I)} = $3,340.00. \text{Title IV Aid to be returned} = $3,340.00. \]
**STEP 5: Amount of Unearned Title IV Aid Due from the School**

**Box L.** Institutional charges for the payment period or period of enrollment = $6,500.00.
- Tuition and fees $4,000.00
- Room $1,000.00
- Board $1,000.00
- Books $500.00

**Box M.** Subtract the percentage of Title IV earned from Box H (50.0%) from 100.0%. 100% – 50.0% = 50.0%. Percentage of Title IV aid unearned = 50.0%.

**Box N.** Calculate the amount of unearned charges. $6,500.00 (institutional charges from Box L) X 50% (% of Title IV aid unearned from Box M) = $3,250.00 (no rounding needed). Amount of unearned institutional charges = $3,250.00.

**Box O.** Compare the amount of Title IV aid to be returned (Box K) to unearned institutional charges (Box N), and enter the lesser amount in Box O.
- Box K = $3,340.00
- Box N = $3,250.00

Amount of unearned Title IV aid due from the school = $3,250.00.

**STEP 6: Return of Funds by the School**

**Box P.** The only Title IV loan disbursement Richard received was an Unsubsidized FFEL Stafford loan disbursement of $1,930.00. Since $1,930.00 is less than the $3,250.00 (Box O) the school must return, the school must return the entire $1,930.00. Box P = $1,930.00.

After the school returns $1,930.00 to the Title IV loan programs, $1,320.00 remains to be returned by the school ($3,250 (from Box O) – $1,930 (from Box P)). Richard received $2,000.00 in Pell Grant funds, so the school returns the $1,320.00 to the Pell Grant program.

**STEP 7: Initial Amount of Unearned Title IV Aid Due from Student**

**Box Q.** Subtract the amount of Title IV aid the school must return ($3,250.00 from Box O) from the total amount of Title IV aid that is to be returned ($3,340.00 from Box K) to find the Initial amount of Title IV aid Due from the Student. $3,340.00 – $3,250.00 = $90.00.

**STEP 8: Repayment of the Student’s Loans**

**Box R.** Subtract the Total Loans the school must return ($1,930.00 from Box P) from the Net Loans Disbursed to the Student ($1,930.00 from Box B) to find the total of the loans the student must repay $1,930.00 – $1,930.00 = $0.00.

**Remember**, you must notify the holder of Richard’s loan that he has withdrawn from school.
STEP 9: Grant Funds to be Returned

Box S. Initial amount of Title IV grants for the student to return

Subtract the amount of loans to be repaid by the student ($0.00 from Box R) from the Initial Amount of Unearned aid due from the student ($90.00 from Box Q) to find the Initial amount of Title IV grants for the student to return. $90.00 – $0.00 = $90.00.

Box T. Amount of grant protection

Multiply the Total of Title IV grant aid disbursed or could have been disbursed for the payment period or period of enrollment ($4,740.00 from Box F) by 50.0%. $4,750 \times 50.0\% = $2,375.00.

Box U. Title IV grant funds for the student to return

Subtract the amount of grant protection ($2,375.00 from Box T) from the initial amount of Title IV grants for the student to return ($90.00 from Box S) to find the Title IV grant funds for the student to return. $90.00 – $2,375.00 = $0.00^1.

---

1 If this amount is less than or equal to $0.00, enter = NA, and stop here. Richard is not required to return any Title IV grant funds.
### Treatment Of Title IV Funds When A Student Withdraws From A Credit-Hour Program

#### STEP 1: Student’s Title IV Aid Information

<table>
<thead>
<tr>
<th>Title IV Grant Programs</th>
<th>Amount Disbursed</th>
<th>Amount that Could Have Been Disbursed</th>
<th>E. Total Title IV aid disbursed for the period</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Pell Grant</td>
<td>2,000.00</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Academic Competitiveness Grant</td>
<td>2,000.00</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. National SMART Grant</td>
<td>750.00</td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. TEACH Grant</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. Iraq Afghanistan Service Grant</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Subtotal</strong></td>
<td><strong>4,750.00</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Title IV Loan Programs</th>
<th>Net Amount Disbursed</th>
<th>Net Amount that Could Have Been Disbursed</th>
<th>F. Total Title IV grant aid disbursed and that could have been disbursed for the period</th>
</tr>
</thead>
<tbody>
<tr>
<td>7. Unsubsidized FFEL/Direct Stafford Loan</td>
<td>1,930.00</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8. Subsidized FFEL/Direct Stafford Loan</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>9. Perkins Loan</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>10. FFEL/Direct PLUS (Graduate Student)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>11. FFEL/Direct PLUS (Parent)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Subtotal</strong></td>
<td><strong>1,930.00</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### STEP 2: Percentage of Title IV Aid Earned

<table>
<thead>
<tr>
<th>Start date</th>
<th>Scheduled end date</th>
<th>Date of withdrawal</th>
</tr>
</thead>
<tbody>
<tr>
<td>09 / 01</td>
<td>12 / 09</td>
<td>10 / 20</td>
</tr>
</tbody>
</table>

A school that is not required to take attendance may, for a student who withdraws without notification, enter 50% in Box H and proceed to Step 3. Or, the school may enter the last date of attendance at an academically related activity for the “withdrawal date,” and proceed with the calculation as instructed. For a student who officially withdraws, enter the withdrawal date.

**H. Percentage of payment period or period of enrollment completed**

Divide the calendar days completed in the period by the total calendar days in the period (excluding scheduled breaks of five days or more AND days that the student was on an approved leave of absence).

\[
\text{Percentage} = \frac{\text{Completed days}}{\text{Total days}} \times 100\%
\]

- If this percentage is greater than 60%, enter 100% in Box H and proceed to Step 3.
- If this percentage is less than or equal to 60%, enter that percentage in Box H, and proceed to Step 3.

#### STEP 3: Amount of Title IV Aid Earned by the Student

Multiply the percentage of Title IV aid earned (Box H) by the Total Title IV aid disbursed and that could have been disbursed for the period (Box G).

\[
\text{Amount Earned} = \text{Box H} \times \text{Box G}
\]

#### STEP 4: Total Title IV Aid to be Disbursed or Returned

- If the amount in Box I is greater than the amount in Box E, go to Item J (Post-withdrawal disbursement).
- If the amount in Box I is less than the amount in Box E, go to Item K (Title IV aid to be returned).
- If the amounts in Box I and Box E are equal, STOP. No further action is necessary.

**J. Post-withdrawal disbursement**

From the Amount of Title IV aid earned by the student (Box I) subtract the Total Title IV aid disbursed for the period (Box E). This is the amount of the post-withdrawal disbursement.

\[
\text{J. \$} = \text{Box I} - \text{Box E}
\]
### Example 3

#### STEP 5: Amount of Unearned Title IV Aid Due from the School

<table>
<thead>
<tr>
<th>Institution Charges for the Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
</tr>
<tr>
<td>Room</td>
</tr>
<tr>
<td>Board</td>
</tr>
<tr>
<td>Other</td>
</tr>
</tbody>
</table>

**Total Institutional Charges**

*(Add all the charges together)*

\[ L. \text{ Total} = 6,500.00 \]

**M. Percentage of unearned Title IV aid**

\[ 100\% - 50.0\% = M. 50.0\% \]

**N. Amount of unearned charges**

Multiply institutional charges for the period (Box L) by the percentage of unearned Title IV aid (Box M).

\[ 6,500.00 \times 50.0\% = N. 3,250.00 \]

**O. Amount for school to return**

Compare the amount of Title IV aid to be returned (Box K) to amount of unearned charges (Box N).

\[ O. = 3,250.00 \]

#### STEP 6: Return of Funds by the School

The school must return the unearned aid for which the school is responsible (Box O) by repaying funds to the following sources, in order, up to the total net amount disbursed from each source.

**Title IV Programs**

<table>
<thead>
<tr>
<th>Program</th>
<th>Amount to Return</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Unsubsidized FFEL/Direct Stafford Loan</td>
<td>$1,930.00</td>
</tr>
<tr>
<td>2. Subsidized FFEL/Direct Stafford Loan</td>
<td></td>
</tr>
<tr>
<td>3. Perkins Loan</td>
<td></td>
</tr>
<tr>
<td>4. FFEL/Direct PLUS (Graduate Student)</td>
<td></td>
</tr>
<tr>
<td>5. FFEL/Direct PLUS (Parent)</td>
<td></td>
</tr>
</tbody>
</table>

**Total loans the school must return**

\[ P. = 1,930.00 \]

#### STEP 7: Initial Amount of Unearned Title IV Aid Due from the Student

From the amount of Title IV aid to be returned (Box K) subtract the amount for the school to return (Box O).

\[ 3,340.00 - 3,250.00 = Q. 90.00 \]

If Box Q is less than or equal to zero, **STOP**. If greater than zero, go to Step 8.

#### STEP 8: Repayment of the Student’s loans

From the net loans disbursed to the student (Box B) subtract the total loans the school must return (Box P) to find the amount of Title IV loans the student is still responsible for repaying (Box R).

\[ 1,930.00 - 1,930.00 = R. 0.00 \]

If Box Q is less than or equal to Box R, **STOP**. The only action a school must take is to notify the holders of the loans of the student’s withdrawal date.

If Box Q is greater than Box R, proceed to Step 9.

#### STEP 9: Grant Funds to be Returned

**S. Initial amount of Title IV grants for student to return**

From the initial amount of unearned Title IV aid due from the student (Box Q) subtract the amount of loans to be repaid by the student (Box R).

\[ 90.00 - 0.00 = S. 90.00 \]

**T. Amount of Title IV grant protection**

Multiply the total of Title IV grant aid that was disbursed and that could have been disbursed for the period (Box F) by 50%.

\[ 4,750.00 \times 50\% = T. 2,375.00 \]

**U. Title IV grant funds for student to return**

From the initial amount of Title IV grants for student to return (Box S) subtract the Amount of Title IV grant protection (Box T).

\[ 90.00 - 2,375.00 = U. NA \]

If Box U is less than or equal to zero, **STOP**. If not, go to Step 10.

#### STEP 10: Return of Grant Funds by the Student

Except as noted below, the student must return the unearned grant funds for which he or she is responsible (Box U). The grant funds returned by the student are applied in order as indicated, up to the amount disbursed from that grant program minus any grant funds the school is responsible for returning to that program in Step 6.

Note that the student is not responsible for returning funds to any program to which the student owes $50.00 or less.

**Title IV Grant Programs**

<table>
<thead>
<tr>
<th>Grant Program</th>
<th>Amount To Return</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>
CASE STUDY 4: HARRY SPRINGER

When a student receiving Title IV grants and loans at a school that measures academic progress in clock hours and performs its Return calculations on a period of enrollment basis, withdraws unofficially.

Learning Objectives

Learn to complete Steps 1–8 of the Treatment of Title IV Funds when a Student Withdraws from a Clock-Hour Program worksheet, and be able to:

- determine withdrawal date for student who did not provide notification of intent to withdraw at a school required to take attendance;
- determine the scheduled clock hours;
- calculate the percentage of the period of enrollment the student completed;
- calculate both the percentage and the amount of Title IV aid earned by the student;
- determine either that the student is due a Post-withdrawal disbursement (PWD) of Title IV aid or that Title IV aid must be returned; and
- determine the amount to be offered to the student or returned.

School Profile

Quality Tech School (QTS) is a proprietary school that measures academic progress in clock hours.

<table>
<thead>
<tr>
<th>Academic Year/Program/ Period of Enrollment</th>
<th>900 hours/30 weeks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Payment Period</td>
<td>450 hours</td>
</tr>
<tr>
<td>Period Start Date</td>
<td>January 8</td>
</tr>
<tr>
<td>Period End Date</td>
<td>August 3</td>
</tr>
<tr>
<td>Institutionally Scheduled Break</td>
<td>None</td>
</tr>
<tr>
<td>Required to Take Attendance</td>
<td>Yes</td>
</tr>
<tr>
<td>Period used in Return calculation</td>
<td>Period of Enrollment</td>
</tr>
</tbody>
</table>
Student Profile

Harry Springer enrolled at QTS for a 30-week program of study period consisting of 900 clock hours offered over 30 weeks. The first payment period is 450 clock hours. Charges to Harry’s account are as follows:

<table>
<thead>
<tr>
<th>Item</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition and fees</td>
<td>$8,000.00/30 week program</td>
</tr>
<tr>
<td>Room</td>
<td>$non-residential program</td>
</tr>
<tr>
<td>Board</td>
<td>$non-residential program</td>
</tr>
<tr>
<td>Books and Supplies</td>
<td>$500.00/program</td>
</tr>
</tbody>
</table>

School Authorized to Credit Account for Other Charges: Yes (all charges)

Harry’s financial aid package included the following annual awards:

<table>
<thead>
<tr>
<th>Item</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$4,000.00</td>
</tr>
<tr>
<td>Net Subsidized Stafford Loan</td>
<td>$3,860.00</td>
</tr>
</tbody>
</table>

All of Harry’s financial aid for the first payment period (450 clock hours, i.e. one-half his annual awards) was disbursed on the first day of classes.

Discussion

On the first day of the winter period, January 8, Harry received the following disbursements to his student account:

<table>
<thead>
<tr>
<th>Item</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$2,000.00</td>
</tr>
<tr>
<td>Subsidized Stafford Loan</td>
<td>$1,930.00</td>
</tr>
</tbody>
</table>

Everything seemed to be going very well for Harry. It wasn’t until January 26 that the school discovered Harry hadn’t been attending classes and didn’t plan on returning. The director of the program notified the aid office that Harry’s last day of attendance was January 17 (through which time Harry was scheduled to have attended 45 hours), and the aid office began the withdrawal process and required calculations.
**Solution**

The date of the institution’s determination that Harry withdrew (January 26) is the date the aid office received the information from the Director of Student Services. Because QTS is required to take attendance, Harry’s withdrawal date is his last day of attendance at an academically related activity, January 17.

At the beginning of the semester, the following awards were posted to Harry’s account at QTS.

- **Pell Grant** $2,000.00
- **Subsidized Stafford Loan** $1,930.00

**STEP 1: Student’s Title IV Aid Information**

**Box A.** Title IV grant aid disbursed –

<table>
<thead>
<tr>
<th>Grant Type</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$2,000.00</td>
</tr>
</tbody>
</table>

**A.** = $2,000.00

**Box B.** Net Title IV loans disbursed –

<table>
<thead>
<tr>
<th>Loan Type</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unsubsidized FFEL/Direct Stafford</td>
<td>$1,930.00</td>
</tr>
</tbody>
</table>

**B.** = $1,930.00

**Box C.** Because QTS uses the period of enrollment as the basis for its Return calculation, the $2,000 in Pell funds Harry was scheduled to receive once he had completed the first 450 hours of his program is included as Title IV grants that could have been disbursed.

**C.** = $2,000.00

**Box D.** Because QTS uses the period of enrollment as the basis for its Return calculation, the $1,930.00 in Subsidized Stafford Loan funds Harry was scheduled to receive once he had completed the first 450 hours and the calendar midpoint of his program of his program is included as Title IV grants that could have been disbursed.

**D.** = $1,930.00

**Box E.** Total Title IV aid disbursed for the period of enrollment = **A + B** = $2,000.00 + $1,930.00 = $3,930.00.

**Box F.** Total Title IV grant aid disbursed and could have been disbursed for the period of enrollment = **A + C** = $2,000.00 + $2,000.00 = $4,000.00.

**Box G.** Total Title IV aid disbursed and could have been disbursed for the period of enrollment = **A + B + C + D** = $2,000.00 + $1,930.00 + $2,000.00 + $1,930.00 = $7,860.00.
STEP 2: Percentage of Title IV Aid Earned

Because QTS is required to take attendance by an outside agency, the school must use the last date of Harry’s attendance in an academically related activity as determined from its attendance records as the withdrawal date. Harry’s last date of attendance was January 17.

1. Period of enrollment start date = January 8.
2. Period of enrollment end date = August 3.
3. Date of withdrawal = January 17.

Box H. Percentage of payment period completed

Under the Higher Education Reconciliation Act of 2005 (HERA), only scheduled hours are used to determine the percentage of the period completed by a student withdrawing from a clock-hour program. The percentage of the period completed by a student is determined by dividing the number of hours the student was scheduled to complete in the payment period or period of enrollment as of the day the student withdrew, by the total number of clock hours in the same period.

- Number of clock hours Harry was scheduled to complete on January 17 = 45.
- Number of clock hours in the period of enrollment = 900.
- 45 clock hours ÷ 900 clock hours = 0.050.

Percentage of period of enrollment completed = 5.0%.

Because this percentage is less than 60%, the Percentage of Title IV aid earned, Box H = 5.0%.

STEP 3: Amount of Title IV Aid Earned by the Student

Box I. 5.0% (Percentage of Title IV aid earned from Box H) X $7,860.00 (Total of the Title IV aid disbursed and could have been disbursed for the period of enrollment from Box G) = $393.00. Amount of Title IV aid earned by the student = $393.00.

STEP 4: Total Title IV Aid to be Disbursed or Returned

Box J. Because the total Title IV aid earned (Box I) is less than the total Title IV aid disbursed (Box E), no Post-withdrawal disbursement is due, and we proceed to Box K.

Post-withdrawal disbursement = NA.

Box K. Because the total Title IV aid disbursed (Box E) is greater than the total Title IV aid earned (Box I) Title IV aid must be returned.

$3,930.00 (Box E) – $393.00 (Box I) = $3,537.00. Title IV Aid to be returned = $3,537.00.
STEP 5: Amount of Unearned Title IV Aid Due from the School

Box L. Institutional charges for the period of enrollment = $8,500.00.

- Tuition and fees $ 8,000.00
- Books & Supplies $ 500.00

Box M. Subtract the percentage of Title IV earned from Box H (5.0%) from 100.0%. 100% – 5.0% = 95.0%. Percentage of Title IV aid unearned = 95.0%.

Box N. Calculate the amount of unearned charges. $8,500.00 (institutional charges from Box L) x 95% (Percentage of Title IV aid unearned from Box M) = $8,075.00 (no rounding needed). Amount of unearned institutional charges = $8,075.00.

Box O. Compare the amount of Title IV aid to be returned (Box K) to unearned institutional charges (Box N), and enter the lesser amount in Box O.

- Box K = $ 3,537.00
- Box N = $ 8,075.00

Amount of unearned Title IV aid due from the school = $3,537.00.

STEP 6: Return of Funds by the School

Box P. The only Title IV loan disbursement Richard received was a Subsidized FFEL Stafford loan disbursement of $1,930.00. Since $1,930.00 is less than the $3,537.00 (Box O) the Amount for school to return, the school must return the entire $1,930.00 to the FFEL program.

- Box P = $ 1,930.00

After the school returns $1,930.00 to the FFEL program, the balance to be returned by the school is $1,607.00 ($3,537.00 [from Box O] – $1,930.00 [from Box P]). Harry received $2,000.00 in Pell Grant funds, so the school returns the $1,607.00 to the Pell Grant program.

The school must return any unearned funds within 45 days from the date of the institution’s determination that Harry withdrew.

STEP 7: Initial Amount of Unearned Title IV Aid Due from Student

Box Q. Subtract the amount of Title IV aid the school must return ($3,537.00 from Box O) from the total amount of Title IV aid that is to be returned ($3,537.00 from Box K) to find the Initial Amount of Title IV aid Due from the Student. $3,537.00 – $3,537.00 = $0.00.
STEP 8: Repayment of the Student’s Loans

**Box R.** Subtract the Total Loans the school must return ($1,930.00 from Box P) from the Net Loans Disbursed to the Student ($1,930.00 from Box B) to find the total of the loans the student must repay $1,930.00 – $1,930.00 = $0.00.

Since the amount from Box Q ($0.00) is equal to (or less than) the amount from Box R ($0.00), the calculation ends here.

**Remember,** you must notify the holder of Harry’s loan that he has withdrawn from school.
### Treatment Of Title IV Funds When A Student Withdraws From A Clock-Hour Program

**Student’s Name** | Harry Springer  
---|---  
**Social Security Number** | Example 4  
**Date form completed** | / /  
**Date of school’s determination that student withdrew** | 1 / 26 /  
**Period used for calculation (check one)** | [ ] Payment period  [ ] Period of enrollment

---

*Monetary amounts should be in dollars and cents (rounded to the nearest penny). When calculating percentages, round to three decimal places. (For example, .4486 = .449, or 44.9%)*

### STEP 1: Student’s Title IV Aid Information

<table>
<thead>
<tr>
<th>Title IV Grant Programs</th>

<td>1,930.00</td>
<td>1,930.00</td>
</tr>
<tr>
<td>8. Subsidized FFEL/Direct Stafford Loan</td>
<td></td>
<td></td>
</tr>
<tr>
<td>9. Perkins Loan</td>
<td></td>
<td></td>
</tr>
<tr>
<td>10. FFEL/Direct PLUS (Graduate Student)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>11. FFEL/Direct PLUS (Parent)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**A.** 2,000.00  
**B.** 1,930.00  
**C.** 2,000.00  
**D.** 1,930.00  

### STEP 2: Percentage of Title IV Aid Earned

**Withdrawal date** | 1 / 17 /  
**H. Determine the percentage of the period completed:**

- Divided the clock hours scheduled to have been completed as of the withdrawal date in the period by the total clock hours in the period.

\[
\frac{45}{900} = 5.0\% 
\]

- If this percentage is greater than 60%, enter 100% in Box H and proceed to Step 3.
- If this percentage is less than or equal to 60%, enter that percentage in Box H, and proceed to Step 3.

**H.** 5.0 %

### STEP 3: Amount of Title IV Aid Earned by the Student

Multiply the percentage of Title IV aid earned (Box H) by the Total Title IV aid disbursed and that could have been disbursed for the period (Box G).

\[
\frac{5.0\%}{100\%} = \frac{0.05}{1} \times 7,860.00 = 393.00 
\]

**Box H**  
**Box G**  

### STEP 4: Title IV Aid to be Disbursed or Returned

- If the amount in Box I is greater than the amount in Box E, go to Item J (Post-withdrawal disbursement).
- If the amount in Box I is less than the amount in Box E, go to Title IV aid to be returned (Item K).
- If the amounts in Box I and Box E are equal, **STOP**. No further action is necessary.

#### J. Post-withdrawal disbursement

From the Amount of Title IV aid earned by the student (Box I) subtract the Total Title IV aid disbursed for the period (Box E). This is the amount of the post-withdrawal disbursement.

\[
\text{Box I} - \text{Box E} = \text{NA} 
\]

If there’s an entry for “J,” **Stop here**, and enter the amount in Box 1 on Page 3 (Post-withdrawal disbursement tracking sheet).

#### K. Title IV aid to be returned

From the Total Title IV aid disbursed for the period (Box E) subtract the Amount of Title IV aid earned by the student (Box I). This is the amount of Title IV aid that must be returned.

\[
\text{Box E} - \text{Box I} = 3,537.00 \]
STEP 5: Amount of Unearned Title IV Aid Due from the School

L. Institutional charges for the period
   - Tuition: $8,000.00
   - Room: 
   - Board: 
   - (Books & Supplies): $500.00

Total Institutional Charges (Add all the charges together) = $8,500.00

M. Percentage of unearned Title IV aid
   \[ 100\% - \frac{5.0}{\text{Box } H} \% = \text{M. } 95.0 \% \]

N. Amount of unearned charges
   Multiply institutional charges for the period (Box L) by the Percentage of unearned Title IV aid (Box M).
   \[ 8,500.00 \times 95.0\% = \text{N. } $8,075.00 \]

STEP 6: Return of Funds by the School

The school must return the unearned aid for which the school is responsible (Box O) by repaying funds from the following sources, in order, up to the total net amount disbursed from each source.

<table>
<thead>
<tr>
<th>Title IV Programs</th>
<th>Amount for School to Return</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Unsubsidized FFEL/Direct Stafford Loan</td>
<td>$1,930.00</td>
</tr>
<tr>
<td>2. Subsidized FFEL/Direct Stafford Loan</td>
<td></td>
</tr>
<tr>
<td>3. Perkins Loan</td>
<td></td>
</tr>
<tr>
<td>4. FFEL/Direct PLUS (Graduate Student)</td>
<td></td>
</tr>
<tr>
<td>5. FFEL/Direct PLUS (Parent)</td>
<td></td>
</tr>
</tbody>
</table>

Total loans the school must return = $1,930.00

6. Pell Grant
   - Amount: $1,607.00

7. Academic Competitiveness Grant
8. National SMART Grant
9. FSEOG
10. TEACH Grant
11. Iraq Afghanistan Service Grant

STEP 7: Initial Amount of Unearned Title IV Aid Due from the Student

From the amount of Title IV aid to be returned (Box K) subtract the Amount for the school to return (Box O).

\[ 3,537.00 - 3,537.00 = \text{Q.}$0.00 \]

If Box Q is \( \leq \) zero, STOP. If greater than zero, go to Step 8.

STEP 8: Repayment of the Student’s loans

From the Net loans disbursed to the student (Box B) subtract the Total loans the school must return (Box P) to find the amount of Title IV loans the student is still responsible for repaying (Box R).

\[ 1,930.00 - 1,930.00 = \text{R.}$0.00 \]

If Box Q is less than or equal to Box R, STOP. The only action a school must take is to notify the holders of the loans of the student’s withdrawal date.

If Box Q is greater than Box R, proceed to Step 9.

STEP 9: Grant Funds to be Returned

S. Initial amount of Title IV grants for student to return
From the Initial amount of unearned Title IV aid due from the student (Box Q) subtract the amount of loans to be repaid by the student (Box R).

\[ \text{Box Q} - \text{Box R} = \text{S.} \]

T. Amount of Title IV grant protection
Multiply the total of Title IV grant aid that was disbursed and that could have been disbursed for the period (Box F) by 50%.

\[ \text{Box F} \times 50\% = \text{T.} \]

U. Title IV grant funds for student to return
From the Initial amount of Title IV grants for student to return (Box S) subtract the Amount of Title IV grant protection (Box T).

\[ \text{Box S} - \text{Box T} = \text{U.} \]

If Box U is less than or equal to zero, STOP. If not, go to Step 10.

STEP 10: Return of Grant Funds by the Student

Except as noted below, the student must return the unearned grant funds for which he or she is responsible (Box U). The grant funds returned by the student are applied in order as indicated, up to the amount disbursed from that grant program minus any grant funds the school is responsible for returning to that program in Step 6.

Note that the student is not responsible for returning funds to any program to which the student owes $50.00 or less.

<table>
<thead>
<tr>
<th>Title IV Grant Programs</th>

You should use this form when the withdrawal date is on or after 7/1/2010
CASE STUDY 5: JORDAN AIRE

When a student receiving Title IV grants and loans at a school that measures academic progress in clock hours and performs its Return calculations on a payment period basis withdraws unofficially.

Learning Objectives

Learn to complete Steps 1–8 of the Treatment of Title IV Funds when a Student Withdraws from a Clock-Hour Program worksheet, and be able to:

- determine withdrawal date for student who did not provide notification of intent to withdraw at a school required to take attendance;
- determine the scheduled clock hours;
- calculate the percentage of the payment period the student completed;
- calculate both the percentage and the amount of Title IV aid earned by the student;
- determine either that the student is due a Post-withdrawal disbursement (PWD) of Title IV aid or that Title IV aid must be returned and
- determine the amount to be offered to the student or returned.

School Profile

Learn to Earn Technical School (LETS) is a proprietary school that measures academic progress in clock hours.

| Academic Year/Program/Period of Enrollment | 900 hours/30 weeks |
| Payment Period                      | 450 hours |
| Period Start Date                  | April 2 |
| Period End Date                    | October 26 |
| Institutionally Scheduled Break    | None |
| Required to Take Attendance        | Yes |
| Period Used in Return Calculation  | Payment Period |
Student Profile

Jordan Aire enrolled at LETS for a 30-week program of study period consisting of 900 clock hours offered over 30 weeks. The first payment period is 450 clock hours. Charges to Jordan’s account are as follows:

- Tuition and fees $9,000.00/30 week program
- Room $non-residential program
- Board $non-residential program
- Books and Supplies $500.00/program

School Authorized to Credit
Account for Other Charges: Yes (all charges)

Jordan’s financial aid package included the following annual awards:

- Pell Grant $4,000.00
- Net Subsidized Stafford Loan $3,860.00

All of Jordan’s financial aid for the first payment period (450 clock hours, i.e. one-half his annual awards) was disbursed on the first day of classes.

Discussion

On the first day of the period, April 2, Jordan received the following disbursements to his student account:

- Pell Grant $2,000.00
- Subsidized Stafford Loan $1,930.00

On May 3, the Retention Specialist at LETS is informed by the director of Jordan’s program that since April 21, Jordan has not been attending classes. The Retention Specialist contacts Jordan who tells him that he’s been ill, but plans on coming back to school during the next week. Since this falls within the time period for excused absences allowed by school policy, as well as absences allowed by the state and the school’s accrediting agency, the school delays taking any action. However, on May 11 when the Retention Specialist follows up with the Program Director, he finds that Jordan has not returned to school. Since Jordan has now exceeded the number of absences allowed by school policy, LETS must administratively withdraw Jordan from school.

Note: Remember that institutions that are required to take attendance are expected to have a procedure in place for routinely monitoring attendance records to determine in a timely manner when a student withdraws. Except in unusual instances, the date of the institution’s determination that the student withdrew should be no later than 14 days after the student’s withdrawal date.
The institution is not required to administratively withdraw a student who has been absent for 14 days. However, after 14 days, it is expected to have determined whether the student intends to return to classes or has withdrawn. Moreover, the institution must return any unearned funds within 45 days of the date of the institution’s determination that Jordan withdrew (May 4).

**Solution**

Jordan’s withdrawal date is his last day of attendance at an academically related activity as determined from the school’s attendance records, April 20.

The school must use May 4 (14 days from the student’s last day of attendance) as the date of the institution’s determination that the student withdrew.

At the beginning of the semester, the following awards were posted to Jordan’s account at LETS.

<table>
<thead>
<tr>
<th>Award</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$2,000.00</td>
</tr>
<tr>
<td>Subsidized Stafford Loan</td>
<td>$1,930.00</td>
</tr>
</tbody>
</table>

**STEP 1: Student’s Title IV Aid Information**

- **Box A.** Title IV grant aid disbursed –
  - Pell Grant $2,000.00
  - \( A = \) $2,000.00

- **Box B.** Net Title IV loans disbursed –
  - Unsubsidized Direct Stafford $1,930.00
  - \( B = \) $1,930.00

- **Box C.** Title IV grants that could have been disbursed = $0.00.

- **Box D.** Title IV loans that could have been disbursed = $0.00.

- **Box E.** Total Title IV aid disbursed for the payment period = \( A + B = 2,000.00 + 1,930.00 = 3,930.00 \).

- **Box F.** Total Title IV grant aid disbursed and could have been disbursed for the payment period = \( A + C = 2,000.00 + 0.00 = 2,000.00 \).

- **Box G.** Total Title IV aid disbursed and could have been disbursed for the payment period = \( A + B + C + D = 2,000.00 + 1,930.00 + 0.00 + 0.00 = 3,930.00 \).
STEP 2: Percentage of Title IV Aid Earned

Because LETS is required to take attendance by an outside agency, the school must use the last date of Jordan’s attendance in an academically related activity as determined from its attendance records as the withdrawal date. Jordan’s last date of attendance was April 20.

1. Payment Period start date = April 2.
2. Payment Period end date = October 26.
3. Date of withdrawal = April 20.

Box H. Percentage of payment period completed

Under the Higher Education Reconciliation Act of 2005 (HERA), only scheduled hours are used to determine the percentage of the period completed by a student withdrawing from a clock-hour program. The percentage of the period completed by a student is determined by dividing the number of hours the student was scheduled to complete in the payment period or period of enrollment as of the day the student withdrew, by the total number of clock hours in the same period.

- Number of clock hours Jordan was scheduled to complete on April 20 = 90
- Number of clock hours in the payment period = 450
- 90 clock hours ÷ 450 clock hours = 0.20

Percentage of payment period completed = 20.0%

Because this percentage is less than 60%, the Percentage of Title IV aid earned in Box H = 20.0%.

STEP 3: Amount of Title IV Aid Earned by the Student

Box I. 20.0% (Percentage of Title IV aid earned from Box H) X $3,930.00 (Total of the Title IV aid disbursed and could have been disbursed for the payment period or period of enrollment from Box G) = $786.00. Amount of Title IV aid earned by the student = $786.00.

STEP 4: Total Title IV Aid to be Disbursed or Returned

Box J. Because the total Title IV aid earned (Box I) is less than the total Title IV aid disbursed (Box E), no Post-withdrawal disbursement is due, and we proceed to Box K.

Post-withdrawal disbursement = NA.

Box K. Because the total Title IV aid disbursed (Box E) is greater than the total Title IV aid earned (Box I) Title IV aid must be returned.

$3,930.00 (Box E) – $786.00 (Box I) = $3,144.00. Title IV Aid to be Returned = $3,144.00.
STEP 5: Amount of Title IV Aid Due from the School

Box L. A school that charges by the period of enrollment but performs its Return calculation on a payment period basis before entering data in STEP 5, Part L, of the Return calculation, must determine whether it must enter: (a) the prorated amount of all institutional charges, or (b) the amount the school retained. To do this, first, the school prorates all institutional charges. Then, the school determines the amount actually retained. The school compares the two results and enters in STEP 5, Part L, the greater of the two amounts. Because LETS provides students with their books and supplies on the first day of class, and retains 100% of those fees in addition to the tuition charged for the first payment period, LETS must include 100% of the cost of those books and supplies in its institutional charges for the first payment period.

Institutional charges for the payment period = $5,000.00.

Tuition and fees $4,500.00
Books and Supplies $500.00

Box M. Subtract the percentage of Title IV earned from Box H (20.0%) from 100.0%. 100% – 20.0% = 80.0%. Percentage of Title IV aid unearned = 80.0%.

Box N. Calculate the amount of unearned charges. $5,000.00 (institutional charges from Box L) X 80% (Percentage of Title IV aid unearned from Box M) = $4,000.00 (no rounding needed). Amount of unearned institutional charges = $4,000.00.

Box O. Compare the amount of Title IV aid to be returned (Box K) to unearned institutional charges (Box N), and enter the lesser amount in Box O.

Box K = $3,144.00
Box N = $4,000.00

Amount of unearned Title IV aid due from the school = $3,144.00.

STEP 6: Return of Funds by the School

Box P. Jordan received a Subsidized FFEL Stafford loan disbursement of $1,930.00. Since $1,930.00 is less than the $3,144.00 (Box O) the school must return, the school must return $1,930.00 to the lender. Box P = $1,930.00.

After the school returns $1,930.00 to the Title IV loan programs, the balance to be returned by the school is $1,214.00 ($3,144.00 (from Box O) – $1,930 (from Box P)).

Jordan received $2,000.00 in Pell Grant funds, so the school returns $1,214.00 to the Pell Grant program.

The school must return any unearned funds within 45 days from the date of the institution’s determination that Jordan withdrew (May 4).
**STEP 7: Initial Amount of Unearned Title IV Aid Due from Student**

**Box Q.** Subtract the amount of Title IV aid the school must return ($3,144.00 from Box O) from the total amount of Title IV aid that is to be returned ($3,144.00 from Box K) to find the Initial amount of Title IV aid Due from the Student. $3,144.00 – $3,144.00 = $0.00.

**STEP 8: Repayment of the Student’s Loans**

**Box R.** Subtract the Total Loans the school must return ($1,930.00 from Box P) from the Net Loans Disbursed to the Student ($1,930.00 from Box B) to find the total of the loans the student must repay $1,930.00 – $1,930.00 = $0.00.

Since the amount from Box Q ($0.00) is equal to (or less than) the amount from Box R ($0.00), the calculation ends here.

**Remember,** you must notify the holder of Jordan’s loan that he has withdrawn from school.
Treatment Of Title IV Funds When A Student Withdraws From A Clock-Hour Program

Student’s Name: Jordan Aire
Social Security Number: Example 5

Date form completed: / / 
Date of school’s determination that student withdrew: 5 / 04 / 

Period used for calculation (check one) Payment period Period of enrollment

Monetary amounts should be in dollars and cents (rounded to the nearest penny). When calculating percentages, round to three decimal places. (For example, .4486 = .449, or 44.9%)

### STEP 1: Student’s Title IV Aid Information

**Title IV Grant Programs**

<table>
<thead>
<tr>
<th>Program</th>

</tr>
</tbody>
</table>

**Total**

A. 2,000.00

### Title IV Loan Programs

<table>
<thead>
<tr>
<th>Program</th>
<th>Net Amount Disbursed</th>
<th>Net Amount that Could Have Been Disbursed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unsubsidized FFEL/Direct Stafford Loan</td>
<td>1,930.00</td>
<td>0.00</td>
</tr>
<tr>
<td>Subsidized FFEL/Direct Stafford Loan</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Perkins Loan</td>
<td></td>
<td></td>
</tr>
<tr>
<td>FFEL/Direct PLUS (Graduate Student)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>FFEL/Direct PLUS (Parent)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Total**

B. 1,930.00

### E. Total Title IV aid disbursed for the period.

\[
\begin{align*}
A & = 2,000.00 \\
B & = 1,930.00 \\
\text{Total} & = E. \$ 3,930.00
\end{align*}
\]

### F. Total Title IV grant aid disbursed and that could have been disbursed for the period.

\[
\begin{align*}
A & = 2,000.00 \\
C & = 0.00 \\
\text{Total} & = F. \$ 2,000.00
\end{align*}
\]

### G. Total Title IV aid disbursed and that could have been disbursed for the period.

\[
\begin{align*}
A & = 2,000.00 \\
B & = 1,930.00 \\
C & = 0.00 \\
\text{Total} & = G. \$ 3,930.00
\end{align*}
\]

### STEP 2: Percentage of Title IV Aid Earned

Withdrawal date: 4 / 20 / 

H. Determine the percentage of the period completed:

Divide the clock hours scheduled to have been completed as of the withdrawal date in the period by the total clock hours in the period.

\[
\frac{90}{450} = 20.0\%
\]

- If this percentage is greater than 60%, enter 100% in Box H and proceed to Step 3.
- If this percentage is less than or equal to 60%, enter that percentage in Box H, and proceed to Step 3.

### STEP 3: Amount of Title IV Aid Earned by the Student

Multiply the percentage of Title IV aid earned (Box H) by the Total Title IV aid disbursed and that could have been disbursed for the period (Box G).

\[
20.0\% \times 3,930.00 = I. \$ 786.00
\]

### STEP 4: Title IV Aid to be Disbursed or Returned

- If the amount in Box I is greater than the amount in Box E, go to Item J (Post-withdrawal disbursement).
- If the amount in Box I is less than the amount in Box E, go to Title IV aid to be returned (Item K).
- If the amounts in Box I and Box E are equal, STOP. No further action is necessary.

#### J. Post-withdrawal disbursement

From the Amount of Title IV aid earned by the student (Box I) subtract the Total Title IV aid disbursed for the period (Box E). This is the amount of the post-withdrawal disbursement.

\[
\begin{align*}
\text{Box I} & - \text{Box E} = NA
\end{align*}
\]

If there’s an entry for “J,” Stop here, and enter the amount in Box 1 on Page 3 (Post-withdrawal disbursement tracking sheet).

#### K. Title IV aid to be returned

From the Total Title IV aid disbursed for the period (Box E) subtract the Amount of Title IV aid earned by the student (Box I) . This is the amount of Title IV aid that must be returned.

\[
\begin{align*}
\text{Box E} & - \text{Box I} = 3,144.00
\end{align*}
\]
Student’s Name: Jordan Aire

**STEP 5: Amount of Unearned Title IV Aid Due from the School**

**L. Institutional charges for the period**
- Tuition: $4,500.00
- Room: $500.00

**Total Institutional Charges**

\[ \text{Total Institutional Charges} = 5,000.00 \]

**M. Percentage of unearned Title IV aid**

\[ 100\% - 20.0\% = 80.0\% \]

**N. Amount of unearned charges**

\[ \text{Multiply institutional charges for the period (Box L) by the Percentage of unearned Title IV aid (Box M).} \]

\[ 5,000.00 \times 80.0\% = N. \$4,000.00 \]

**O. Amount for school to return**

\[ \text{Compare the amount of Title IV aid to be returned (Box K) to Amount of unearned charges (Box N), and enter the lesser amount.} \]

\[ O. \$3,144.00 \]

**STEP 6: Return of Funds by the School**

The school must return the unearned aid for which the school is responsible (Box O) by repaying funds to the following sources, in order, up to the total net amount disbursed from each source.

**Title IV Programs**

1. Unsubsidized FFEL/Direct Stafford Loan
2. Subsidized FFEL/Direct Stafford Loan
3. Perkins Loan
4. FFEL/Direct PLUS (Graduate Student)
5. FFEL/Direct PLUS (Parent)
6. Pell Grant
7. Academic Competitiveness Grant
8. National SMART Grant
9. FSEOG
10. TEACH Grant
11. Iraq Afghanistan Service Grant

\[ \text{Total loans the school must return} = P. \$1,930.00 \]

**STEP 7: Initial Amount of Unearned Title IV Aid Due from the Student**

\[ 3,144.00 - 3,144.00 = Q. \$0.00 \]

\[ \text{If Box Q is} \leq \text{zero, STOP. If greater than zero, go to Step 8.}\]

**STEP 8: Repayment of the Student’s loans**

From the Net loans disbursed to the student (Box B) subtract the Total loans the school must return (Box P) to find the amount of Title IV loans the student is still responsible for repaying (Box R).

\[ 1,930.00 - 1,930.00 = R. \$0.00 \]

**If Box Q is less than or equal to Box R, STOP.**

The only action a school must take is to notify the holders of the loans of the student’s withdrawal date.

**If Box Q is greater than Box R, proceed to Step 9.**

**STEP 9: Grant Funds to be Returned**

**S. Initial amount of Title IV grants for student to return**

\[ \text{From the Initial amount of unearned Title IV aid due from the student (Box Q) subtract the Amount of loans to be repaid by the student (Box R).} \]

\[ \frac{3,144.00}{50\%} = T. \]  \[ 20.00 \]

**T. Amount of Title IV grant protection**

\[ \text{Multiply the total of Title IV grant aid that was disbursed and that could have been disbursed for the period (Box F) by 50%.} \]

\[ 4,000.00 \times 50\% = T. \]  \[ 2.00 \]

**U. Title IV grant funds for student to return**

\[ \text{From the Initial amount of Title IV grants for student to return (Box S) subtract the Amount of Title IV grant protection (Box T).} \]

\[ O. \]  \[ 3,144.00 \]

**STEP 10: Return of Grant Funds by the Student**

Except as noted below, the student must return the unearned grant funds for which he or she is responsible (Box U). The grant funds returned by the student are applied in order as indicated, up to the amount disbursed from that grant program minus any grant funds the school is responsible for returning to that program in Step 6.

**Note that the student is not responsible for returning funds to any program to which the student owes $50.00 or less.**

**Title IV Grant Programs**

1. Pell Grant
2. Academic Competitiveness Grant
3. National SMART Grant
4. FSEOG
5. TEACH Grant
6. Iraq Afghanistan Service Grant
CASE STUDY 6: THOMPSON S. HUNTER

When a student receiving Title IV grants at a school that utilizes a term-based modular course structure, measures academic progress in credit hours and performs its Return calculations on a payment period basis, officially withdraws.

Learning Objectives

Learn to complete Steps 1–10 of the Treatment of Title IV Funds when a Student Withdraws from a Credit-Hour Program worksheet, and be able to:

• determine whether or not the student must be considered as withdrawn;
• determine the total number of days the student was in attendance;
• recalculate the student’s eligibility for Pell and Campus-Based funds;
• calculate the percentage of the payment period the student completed;
• calculate both the percentage and the amount of Title IV aid earned by the student;
• determine either that the student is due a Post-withdrawal disbursement (PWD) of Title IV aid or that Title IV aid must be returned and
• determine the amount to be offered to the student or returned.

School Profile

Las Vegas School of Digital Journalism (LSDJ) is a public residential institution that utilizes a term-based modular course structure and measures academic progress in credit hours.

Academic Year/ Period of Enrollment 2 semesters/ 32 weeks
Payment Period 1 semester 117 calendar days
Period Start Date August 22
Period End Date December 16
Institutionally Scheduled Break Yes
Required to Take Attendance No
Period used in Return calculation Payment Period
School Profile, continued

Scheduled starting and ending dates for modules within the term.

<table>
<thead>
<tr>
<th>Start</th>
<th>End</th>
</tr>
</thead>
<tbody>
<tr>

<td>September 16</td>
</tr>
<tr>
<td>September 19</td>
<td>October 14</td>
</tr>
<tr>
<td>October 17</td>
<td>November 11</td>
</tr>
<tr>
<td>November 14</td>
<td>December 16</td>
</tr>
</tbody>
</table>

A scheduled break begins after the last class on Friday, November 18. Classes resume on Monday, November 28. The scheduled break is nine days long.

Though it is not a school that is required to take attendance, LSDJ has a school policy of using a student’s last date of attendance at an academically related activity as the withdrawal date when a student withdraws from a program offered in modules.

Student Profile

Thompson Hunter is an independent, third-year student enrolled at LSDJ for 12 credits offered in four modules. In each module a student is enrolled in one course that begins and ends on a fixed date. In Thompson’s case, each course is worth three credits.

Charges to Thompson’s account for the payment period are as follows:

<table>
<thead>
<tr>
<th>Item</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition and fees</td>
<td>$1,200.00/12 credits</td>
</tr>
</tbody>
</table>

School Authorized to Credit Account for Other Charges: Yes (all charges)

Thompson’s financial aid package is based on the following academic year (9 month budget):

<table>
<thead>
<tr>
<th>Item</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>$2,400.00</td>
</tr>
<tr>

<td>$1,600.00</td>
</tr>
<tr>
<td>Books</td>
<td>$800.00</td>
</tr>
<tr>
<td>Personal Expenses</td>
<td>$800.00</td>
</tr>
<tr>
<td>Travel</td>
<td>$800.00</td>
</tr>
</tbody>
</table>
Thompson’s financial aid package included the following annual awards:

- Pell Grant $5,550.00
- FSEOG $3,650.00

All of Thompson’s financial aid for the first payment period (one-half his annual awards) was disbursed on the first day of classes.

Discussion

On the first day of the period, August 22, Thompson received the following disbursements to his student account:

- Pell Grant $2,775.00
- FSEOG $1,825.00

On October 14, Thompson comes to see you. He tells you that his dog Gonzo has just had 10 puppies. He fears that if he’s not around to help her, something terrible might happen to the puppies, and he doesn’t want to deal with the self-loathing that would result. He feels it best if he withdraws from the first semester now.

When a student withdraws from one of a series of modules in a term-based program, a school must first determine whether or not the student must be treated as a withdrawal. In order to do so, the school must answer three questions:

1. After beginning attendance in the payment period or period of enrollment, did the student cease to attend or fail to begin attendance in a course he or she was scheduled to attend?

   If the answer is no, this is not a withdrawal. If the answer is yes, go to question 2.
   In Thompson’s case, the answer to Question 1 is Yes; you go on to Question 2.

2. When the student ceased to attend or failed to begin attendance in a course he or she was scheduled to attend, was the student still attending any other courses?

   If the answer is yes, this is not a withdrawal; (Note, however that other regulatory provisions concerning recalculation may apply. If the answer is no, go to question 3.
   In Thompson’s case, the answer to Question 2 is No; you go on to Question 3.

3. Did the student confirm attendance in a course in a module beginning later in the period (for non-term and nonstandard-term programs, this must be no later than 45 calendar days after the end of the module the student ceased attending)?

   If the answer is yes, this is not a withdrawal, unless the student does not return. If the answer is no, this is a withdrawal and the Return of Title IV Funds requirements apply.

   In Thompson’s Case, the answer is No; you must treat Thompson as a withdrawal.
Therefore, though Thompson completed the first two modules in the semester, since he doesn’t intend on returning to a module in this semester, the revised Return regulations require that LSDJ treat him as a withdrawn student.

Because Thompson failed to begin attendance in all of the classes on which his Pell Grant was based, before performing the required Return calculation, LSDJ must recalculate Thompson’s Pell based on his enrollment in just the two modules he began – six credits or half time. Thompson’s scheduled annual Pell award as a half-time student is $2,775. His revised first semester award is $1,388.00. LSDJ must return $1,387.00 (the difference between Thompson’s initial Pell disbursement of $2,775.00 and his new award of $1,388.00), and include only his new award of $1,388.00 in the Return calculation. The school returns the $1,387.00 through G5 and reduces Thompson’s Pell Grant in COD to $1,388.00.

In addition, since Thompson was receiving Campus-Based aid (FSEOG), the school has to recalculate his eligibility for Campus-Based funds, eliminating the costs attributable to the modules that he did not begin attending to see whether a reduction of the Campus-Based aid is necessary. Based on a revised COA of $3,600.00 for the fall semester and revised Pell Grant of $1388.00, Thompson’s remaining first-semester need is $2,212.00. That is more than his FSEOG of $1,825.00. Therefore, LSDJ does not need to reduce Thompson’s FSEOG award before performing the Return calculation.

LSDJ performed a return calculation using Thompson’s last day of attendance of October 14 as his withdrawal date (as per school policy); $1,388.00 as the amount of Pell Grant disbursed; and $1,825.00 as the amount of FSEOG funds disbursed. On October 24, LSDJ returned the funds for which it was responsible to the appropriate programs, and made the appropriate adjustments in COD.
Solution

Per school policy, Thompson’s withdrawal date is his last day of attendance at an academically related activity as determined from the school’s attendance records, October 14.

At the beginning of the semester, the following awards were posted to Thompson’s account at LSDJ.

<table>
<thead>
<tr>
<th>Award</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$2,775.00</td>
</tr>
<tr>
<td>FSEOG</td>
<td>$1,825.00</td>
</tr>
</tbody>
</table>

**STEP 1: Student’s Title IV Aid Information**

Box A. After recalculating and returning the Pell Grant funds for which Thompson was ineligible, the Title IV grant aid disbursed was –

<table>
<thead>
<tr>
<th>Award</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$1,388.00</td>
</tr>
<tr>
<td>FSEOG</td>
<td>$1,825.00</td>
</tr>
</tbody>
</table>

A. = $3,213.00

Box B. Net Title IV loans that could have been disbursed = $0.00.

Box C. Title IV grants that could have been disbursed = $0.00.

Box D. Title IV loans that could have been disbursed = $0.00.

Box E. Total Title IV aid disbursed for the payment period = A + B = 3,213.00 + 0.00 = $3,213.00.

Box F. Total Title IV grant aid disbursed and could have been disbursed for the payment period = A + C = 3,213.00 + 0.00 = $3,213.00.

Box G. Total Title IV aid disbursed and could have been disbursed for the payment period = A + B + C + D = 3,213.00 + 0.00 + 0.00 + 0.00 = $3,213.00.
STEP 2: Percentage of Title IV Aid Earned

LSDJ has an institutional policy of using the last date of attendance in an academically related activity as determined from its attendance records as the withdrawal date for students who cease attendance before completing 60 percent of the payment period. Thompson’s last date of attendance was October 14.

1. Payment Period start date = August 22.
2. Payment Period end date = December 16.
3. Date of withdrawal = October 14.
4. Percentage of payment period completed
   • Number of calendar days completed = 54
   • Number of calendar days in the payment period = 108 (117 – 9 day scheduled break)
   • 54 days ÷ 108 days = 0.50. Percentage of payment period completed = 50.0%

Box H. Because this percentage is less than 60%, the Percentage of Title IV aid earned = 50.0%.

STEP 3: Amount of Title IV Aid Earned by the Student

Box I. 50.0% (Percentage of Title IV aid earned from Box H) X $3,213.00 (Total of the Title IV aid disbursed and could have been disbursed for the payment period or period of enrollment from Box G) = $1,606.50. Amount of Title IV aid earned by the student = $1,606.50.

STEP 4: Total Title IV Aid to be Disbursed or Returned

Box J. Because the total Title IV aid earned (Box I) is less than the total Title IV aid disbursed (Box E), no Post-withdrawal disbursement is due, and we proceed to Box K.

Post-withdrawal disbursement = NA.

Box K. Because the total Title IV aid disbursed (Box E) is greater than the total Title IV aid earned (Box I) Title IV aid must be returned.

$3,213.00 (Box E) – $1,606.50 (Box I) = $1,606.50. Title IV Aid to be returned = $1,606.50.
STEP 5: Amount of Title IV Aid Due from the School

Box L.  The institutional charges on Thompson's account are the charges initially assessed for the payment period. Note that books and supplies are not included because Thompson had an opportunity to purchase them elsewhere, and did.

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition and fees</td>
<td>$1,200.00</td>
</tr>
<tr>
<td>Room</td>
<td>$1,400.00</td>
</tr>
<tr>
<td>Board</td>
<td>$800.00</td>
</tr>
<tr>
<td>Box L =</td>
<td>$3,400.00</td>
</tr>
</tbody>
</table>

Box M.  Subtract the percentage of Title IV earned from Box H (50.0%) from 100.0%.

100% – 50.0% = 50.0%. Percentage of Title IV aid unearned = 50.0%.

Box N.  Calculate the amount of unearned charges. $3,400.00 (institutional charges from Box L) X 50.0% (% of Title IV aid unearned from Box M) = $1,700.00.

Amount of unearned institutional charges = $1,700.00.

Box O.  Compare the amount of Title IV aid to be returned (Box K) to unearned institutional charges (Box N), and enter the lesser amount in Box O.

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Box K =</td>
<td>$1,606.50</td>
</tr>
<tr>
<td>Box N =</td>
<td>$1,700.00</td>
</tr>
</tbody>
</table>

Amount of unearned Title IV aid due from the school = $1,606.50.

STEP 6: Return of Funds by the School

Box P.  Thompson received a recalculated Pell Grant disbursement of $1,388.00. Since $1,388.00 is less than the $1,606.50 (Box O) the school must return, the school must return the $1,388.00 to the Pell Grant Program and an additional $218.50 (1,606.50 – 1,388.00) to the FSEOG program through the G5 system. The school must also reduce Thompson's Pell Grant in COD to $0.00.

The school must return any unearned funds within 45 days from the date of the school’s determination that Thompson withdrew.
STEP 7: Initial Amount of Unearned Title IV Aid Due from Student

Box Q. Subtract the amount of Title IV aid the school must return ($1,606.50 from Box O) from the total amount of Title IV aid that is to be returned ($1,606.50 from Box K) to find the Initial amount of Title IV aid Due from the Student. $1,606.50 - $1,606.50 = $0.00.

Box Q = $ 0.00

Because Box Q is $0.00, no further calculation is needed.
Treatment Of Title IV Funds When A Student Withdraws From A Credit-Hour Program

Student’s Name: Thompson Hunter
Social Security Number: Example 6

Date form completed
Date of school’s determination that student withdrew: 10/17

Period used for calculation (check one)

PAYMENT PERIOD

MONETARY AMOUNTS SHOULD BE IN DOLLARS AND CENTS (ROUNDED TO THE NEAREST PENNY). WHEN CALCULATING PERCENTAGES, ROUND TO THREE DECIMAL PLACES. (FOR EXAMPLE, .4486 = .449, OR 44.9%)

STEP 1: Student’s Title IV Aid Information

<table>
<thead>
<tr>
<th>Title IV Grant Programs</th>

</tbody>
</table>

B. 0.00
D. 0.00

E. $3,213.00
F. $3,213.00

G. $3,213.00

STEP 2: Percentage of Title IV Aid Earned

<table>
<thead>
<tr>
<th>Start date</th>
<th>Scheduled end date</th>
<th>Date of withdrawal</th>
</tr>
</thead>
<tbody>
<tr>
<td>08/22</td>
<td>12/16</td>
<td>10/14</td>
</tr>
</tbody>
</table>

A school that is not required to take attendance may, for a student who withdraws without notification, enter 50% in Box H and proceed to Step 3. Or, the school may enter the last date of attendance at an academically related activity for the “withdrawal date,” and proceed with the calculation as instructed. For a student who officially withdraws, enter the withdrawal date. (Less 9 day scheduled break)

H. Percentage of payment period or period of enrollment completed

Divide the calendar days completed in the period by the total calendar days in the period (excluding scheduled breaks of five days or more AND days that the student was on an approved leave of absence).

54 ÷ 108 = 50.0%

If this percentage is greater than 60%, enter 100% in Box H and proceed to Step 3.
If this percentage is less than or equal to 60%, enter that percentage in Box H, and proceed to Step 3.

H. 50.0%

STEP 3: Amount of Title IV Aid Earned by the Student

Multiply the percentage of Title IV aid earned (Box H) by the Total Title IV aid disbursed and that could have been disbursed for the period (Box G).

\[ \text{Amount Earned} = \frac{\text{Percentage Earned}}{100} \times \text{Total Title IV Aid} \]

\[ \text{Amount Earned} = \frac{50.0}{100} \times 3,213.00 = 1,606.50 \]

I. $1,606.50

STEP 4: Title IV Aid to be Disbursed or Returned

- If the amount in Box I is greater than the amount in Box E, go to Item J (Post-withdrawal disbursement).
- If the amount in Box I is less than the amount in Box E, go to Title IV aid to be returned (Box K).
- If the amounts in Box I and Box E are equal, STOP. No further action is necessary.

J. Post-withdrawal disbursement

From the Amount of Title IV aid earned by the student (Box I) subtract the Total Title IV aid disbursed for the period (Box E). This is the amount of the post-withdrawal disbursement.

\[ \text{Amount to be Disbursed} = \text{Amount Earned} - \text{Total Title IV Aid} \]

\[ \text{Amount to be Disbursed} = 1,606.50 - 3,213.00 = -1,606.50 \]

J. $NA

Stop here, and enter the amount in “J” in Box 1 on Page 3 (Post-withdrawal disbursement tracking sheet).

You should use this form when the withdrawal date is on or after 7/1/2010.
STEP 4: Aid to be Disbursed or Returned CONTINUED

K. Title IV Aid to be returned

From the Total Title IV aid disbursed for the period (Box E) subtract the amount of Title IV aid earned by the student (Box I). This is the amount of Title IV aid that must be returned.

\[
\begin{align*}
3,213.00 & \quad 1,606.50 \\
\underline{3,213.00} & \quad \underline{1,606.50} \\
\text{Box E} & \quad \text{Box I} \\
\end{align*}
\]

\[
K. \$ 1,606.50
\]

STEP 5: Amount of Unearned Title IV Aid Due from the School

L. Institutional charges for the period

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>1,200.00</td>
</tr>
<tr>
<td>Room</td>
<td>1,400.00</td>
</tr>
<tr>
<td>Board</td>
<td>800.00</td>
</tr>
<tr>
<td>Other</td>
<td></td>
</tr>
<tr>
<td>Other</td>
<td></td>
</tr>
<tr>
<td>Other</td>
<td></td>
</tr>
</tbody>
</table>

Total Institutional Charges = \[ L. \$ \quad 3,400.00 \]

M. Percentage of unearned Title IV aid

\[
100\% - 50.0\% = M. \quad 50.0\%
\]

N. Amount of unearned charges

Multiply institutional charges for the period (Box L) by the percentage of unearned Title IV aid (Box M).

\[
3,400.00 \times 50.0\% = N. \$ \quad 1,700.00
\]

O. Amount for school to return

Compare the amount of Title IV aid to be returned (Box K) to amount of unearned charges (Box N), and enter the lesser amount.

\[
O. \$ \quad 1,606.50
\]

STEP 6: Return of Funds by the School

The school must return the unearned aid for which the school is responsible (Box O) by repaying funds to the following sources, in order, up to the total net amount disbursed from each source.

Title IV Programs

1. Unsubsidized FFEL/Direct Stafford Loan
2. Subsidized FFEL/Direct Stafford Loan
3. Perkins Loan
4. FFEL/Direct PLUS (Graduate Student)
5. FFEL/Direct PLUS (Parent)

Total loans the school must return = \[ P. \$ \quad 0.00 \]

6. Pell Grant $1,388.00
7. Academic Competitiveness Grant
8. National SMART Grant $218.50
9. FSEOG
10. TEACH Grant
11. Iraq Afghanistan Service Grant

STEP 7: Initial Amount of Unearned Title IV Aid Due from the Student

From the amount of Title IV aid to be returned (Box K) subtract the Amount for the school to return (Box O).

\[
\begin{align*}
1,606.50 & \quad 1,606.50 \\
\underline{1,606.50} & \quad \underline{1,606.50} \\
\text{Box K} & \quad \text{Box O} \\
\end{align*}
\]

If Box Q is \( \geq \) zero, STOP. If greater than zero, go to Step 8.

STEP 8: Repayment of the Student’s loans

From the Net loans disbursed to the student (Box B) subtract the Total loans the school must return (Box P) to find the amount of Title IV loans the student is still responsible for repaying (Box R).

\[
\begin{align*}
0.00 & \quad 0.00 \\
\underline{0.00} & \quad \underline{0.00} \\
\text{Box B} & \quad \text{Box P} \\
\end{align*}
\]

If Box Q is less than or equal to Box R, STOP.

The only action a school must take is to notify the holders of the loans of the student’s withdrawal date.

If Box Q is greater than Box R, proceed to Step 9.

STEP 9: Grant Funds to be Returned

S. Initial amount of Title IV grants for student to return

From the initial amount of unearned Title IV aid due from the student (Box Q) subtract the Amount of loans to be repaid by the student (Box R).

\[
\begin{align*}
 & \quad S. \$ \\
\end{align*}
\]

T. Amount of Title IV grant protection

Multiply the total of Title IV grant aid that was disbursed and that could have been disbursed for the period (Box F) by 50%.

\[
\begin{align*}
 & \quad T. \$ \\
\end{align*}
\]

U. Title IV grant funds for student to return

From the Initial amount of Title IV grants for student to return (Box S) subtract the Amount of Title IV grant protection (Box T).

\[
\begin{align*}
 & \quad U. \$ \\
\end{align*}
\]

If Box U is less than or equal to zero, STOP. If not, go to Step 10.

STEP 10: Return of Grant Funds by the Student

Except as noted below, the student must return the unearned grant funds for which he or she is responsible (Box U). The grant funds returned by the student are applied in order as indicated, up to the amount disbursed from that grant program minus any grant funds the school is responsible for returning to that program in Step 6. Note that the student is not responsible for returning funds to any program to which the student owes $50.00 or less.

Title IV Grant Programs

1. Pell Grant
2. Academic Competitiveness Grant
3. National SMART Grant
4. FSEOG
5. TEACH Grant
6. Iraq Afghanistan Service Grant

Amount To Return

You should use this form when the withdrawal date is on or after 7/1/2010
CASE STUDY 7: THE RETURN OF THOMPSON S. HUNTER

When a student receiving Title IV grants at a school that utilizes a term-based modular course structure, measures academic progress in credit hours and performs its Return calculations on a payment period basis, officially withdraws, returns within the payment period, and withdraws again.

Learning Objectives

Learn to complete Steps 1–10 of the Treatment of Title IV Funds when a Student Withdraws from a Credit-Hour Program worksheet, and be able to:

- identify the steps that must be taken when a student who withdrew from a term-based program offered in modules returns within the payment period;
- determine the numerator and denominator when calculating the percentage of the payment period completed for a student who withdraws, returns and withdraws again.
- recalculate the student's eligibility for Pell and Campus-Based funds;
- calculate the percentage of the payment period the student completed, and the percentage and the amount of Title IV aid earned by the student;
- determine if the student is due a Post-withdrawal disbursement (PWD) of Title IV aid or that Title IV aid must be returned, how much the school must return and
- determine the amount to be offered to the student or returned by him.

School Profile

Las Vegas School of Digital Journalism (LSDJ) is public residential institution that utilizes a term-based modular course structure and measures academic progress in credit hours.

| Academic Year/Period of Enrollment | 2 semesters/32 weeks |
| Payment Period | 1 semester117 calendar days |

</tbody>
</table>

A scheduled break begins after the last class on Friday, November 18. Classes resume on Monday, November 28. The scheduled break is nine days long.

Though it is not a school that is required to take attendance, LSDJ has a school policy of using a student’s last date of attendance at an academically related activity as the withdrawal date when a student withdraws from a program offered in modules.

Student Profile

Thompson Hunter is an independent third-year student enrolled at LSDJ for 12 credits offered in four modules. In each module a student is enrolled in one course that begins and ends on a fixed date. In Thompson’s case, each course is worth three credits.

Charges to Thompson’s account for the payment period are as follows:

- Tuition and fees: $1,200.00/12 credits
- School Authorized to Credit Account for Other Charges: Yes (all charges)

Thompson’s financial aid package is based on the following academic year (9 month budget):

- Tuition: $2,400.00
- Room: $2,800.00
- Board: $1,600.00
- Books: $800.00
- Personal Expenses: $800.00
- Travel: $800.00
Thompson’s financial aid package included the following annual awards:

- **Pell Grant**: $5,550.00
- **FSEOG**: $3,650.00

All of Thompson’s financial aid for the first payment period (one-half his annual awards) was disbursed on the first day of classes.

**Discussion**

On November 11, Thompson Hunter (the student from Case Study 7) walks into your office with the news that his wife Barbara Ann has quit her acting job in LA and moved back to Las Vegas. Longing for a normal family life, Barbara Ann is more than happy to care for Gonzo and the puppies. Thompson would like to re-enter the program when the fourth module begins on November 14.

When Thompson returns for module four, 34 CFR 668.22(a)(2)(iii)(A) applies. That regulation provides that, if a student withdraws from a term-based credit hour program offered in modules and re-enters the same program prior to the end of the payment period, the student is treated as if he or she did not cease attendance for purposes of determining the student’s aid awards for the period. The student is considered to be in the same payment period he or she was in at the time of the withdrawal and retains his or her original Title IV eligibility for that payment period, provided the student’s enrollment status continues to support the same amount of those funds. To do this, the school must:

- recalculate Thompson’s Title IV program eligibility based upon enrollment in modules 1, 2 and 4 and then re-disburse any Title IV, HEA program funds that had been disbursed and then returned under the Return of Title IV Funds provisions, adjusting, if necessary, for any change in his enrollment status;
- disburse any Title IV, HEA program funds for which Thompson was otherwise eligible that had not yet been disbursed at the time he withdrew, adjusting for the change in enrollment status; and
- cancel any Title IV overpayments assessed Thompson as a result of the prior withdrawal.

When Thompson returns in module four, the three credits for that module are added to the six credits that Thompson completed previously. Nine credits at LSDJ are the minimum number required for three-quarter-time enrollment status. Therefore, the school must recalculate Thompson’s eligibility for Title IV assistance as a three-quarter time student. Thompson’s scheduled annual Pell award as a three-quarter-time student is $4,163.00, and his one-semester award is $2,081.50.

After recalculating Thompson’s eligibility from full time to half time when he withdrew previously, the school returned $1,387.00 (the difference between Thompson’s initial Pell disbursement of $2,775.00 and his half-time award of $1,388.00). The school then included only his new award of $1,388.00 in the Return calculation, and returned the entire amount as a result of the calculation. The school also reduced his Pell award in COD to $0.00. When Thompson returns, the school must once again adjust his award in COD (this time to his three-quarter-time award of $2,081.50) and draw down and disburse $2081.50 to his account.
In addition, the school has to recalculate Thompson’s eligibility for Campus-Based funds, adding the costs attributable to the additional module that he has begun attending, to see whether a modification of his Campus-Based aid is necessary. Based on a revised COA of $4,100.00 for the fall semester and revised Pell Grant of $2,081.50, Thompson’s remaining first-semester need is $2,018.50. That is greater than his initial FSEOG award of $1,825.00. Therefore, since it has not already awarded the $218.50 that it returned previously to another eligible student, the school re-awards and disburses the $218.50 in FSEOG funds to Thompson.

When the aid officer reviews the results of the previous Return calculation, he finds that Thompson had not been required to return any Title IV funds; therefore, there are no student overpayments to cancel.

On the first day of module 4, November 14, Thompson made the following disbursements to his student account:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$2,081.50</td>
</tr>
<tr>
<td>FSEOG</td>
<td>$218.50</td>
</tr>
</tbody>
</table>

(restitoring his total to $1,825)

After class on December 5, Thompson once again comes to see you. He says that his uncle Raoul (born in England under mysterious circumstances) has just discovered that he is in line to be the Duke of Marlboro. Raoul must go to England immediately to claim the title, and he’s willing to cover the cost of Thompson’s traveling with him to the investiture. Therefore, Thompson has decided to withdraw immediately.

When a student withdraws from one of a series of modules in a term-based program, a school must first determine whether or not the student must be treated as a withdrawal. In order to do so, the school must answer three questions:

1. After beginning attendance in the payment period or period of enrollment, did the student cease to attend or fail to begin attendance in a course he or she was scheduled to attend?

   If the answer is no, this is not a withdrawal. If the answer is yes, go to question 2.

   In Thompson’s case, the answer to Question 1 is Yes; you go on to Question 2.

2. When the student ceased to attend or failed to begin attendance in a course he or she was scheduled to attend, was the student still attending any other courses?

   If the answer is yes, this is not a withdrawal; (Note, however that other regulatory provisions concerning recalculation may apply.) If the answer is no, go to question 3.

   In Thompson’s case, the answer to Question 2 is No; you go on to Question 3.

3. Did the student confirm attendance in a course in a module beginning later in the period (for non-term and nonstandard term programs, this must be no later than 45 calendar days after the end of the module the student ceased attending)?

   If the answer is yes, this is not a withdrawal, unless the student does not return. If the answer is no, this is a withdrawal and the Return of Title IV Funds requirements apply.

   In Thompson’s case, the answer is No; you must treat Thompson as a withdrawal.
Thompson began attendance in all of the classes on which his Pell Grant was based (modules 1, 2, and 4). Therefore, the school did not need to recalculate Thompson’s revised Pell Grant. In addition, since Thompson began attendance in all of the classes on which his Campus-Based aid (FSEOG) was based, the school did not have to recalculate his eligibility for Campus-Based funds.

**Solution**

Per school policy, Thompson’s withdrawal date is his last day of attendance at an academically related activity as determined from the school’s attendance records, December 5.

**STEP 1: Student’s Title IV Aid Information**

Box A. Since Thompson had begun all modules (classes) on which his Pell and Campus-Based aid was based, the Title IV grant aid disbursed was –

- Pell Grant $2,081.50
- FSEOG $1,825.00

A. = $3,906.50

Box B. Net Title IV loans that could have been disbursed = $0.00.

Box C. Title IV grants that could have been disbursed = $0.00.

Box D. Title IV loans that could have been disbursed = $0.00.

Box E. Total Title IV aid disbursed for the payment period = A + B = 3,906.50 + 0.00 = $3,906.50.

Box F. Total Title IV grant aid disbursed and could have been disbursed for the payment period = A + C = 3,906.50 + 0.00 = $3,906.50.

Box G. Total Title IV aid disbursed and could have been disbursed for the payment period = A + B + C + D = 3,906.50 + 0.00 + 0.00 + 0.00 = $3,906.50
STEP 2: Percentage of Title IV Aid Earned

Though it is not a school that is required to take attendance, LSDJ has a school policy of using a student’s last date of attendance at an academically related activity as the withdrawal date when a student withdraws from a program offered in modules.

The total number of days in the payment period is the original 108 days. While the student did not begin module three, since module three was included in the original payment period or period of enrollment and used to determine the amount of Title IV, HEA funds eligibility, the days from module three are included in the denominator.

The total number of completed calendar days in the period reflects the completed days in modules one, two and four. From the previous Return calculation, we know that Thompson completed 54 days in modules one and two. He completed 13 days in module 4 (22 days less the 9 day scheduled break). The total number of days completed (the days completed in modules one, two and four) are the sum of the days completed during each period or 67 days (54 + 13).

1. Payment Period start date = August 22.
2. Payment Period end date = December 16.
3. Date of withdrawal = December 5.
4. Percentage of payment period completed
   • Number of calendar days completed in modules one, two, and four = 67
   • Number of calendar days in the payment period = 108 (117 – 9 day scheduled break)
   • 67 days + 108 days = 0.62. Percentage of payment period completed = 62.0%

Box H. Because this percentage is greater than 60%, the Percentage of Title IV aid earned = 100.0%. Note that although no return is required, the school must complete STEP 3 in order to determine whether 100% of his aid has been disbursed, or Thompson was due a Post-withdrawal disbursement.

Percentage of Title IV aid earned = 100.00%

STEP 3: Amount of Title IV Aid Earned by the Student

Box I. 100.0% (Percentage of Title IV aid earned from Box H) X $3,843.50. (Total of the Title IV aid disbursed and could have been disbursed for the payment period or period of enrollment from Box G) = $3,843.50.

Amount of Title IV aid earned by the student = $3,843.50.

Box J. When we subtract the amount of Title IV aid disbursed, $3,843.50 (Box E) from the amount of Title IV earned, $3,843.50 (Box I), the aid officer found that the answer is $0.00. Therefore, Thompson has received all the Title IV aid to which he was entitled and is not due a Post-withdrawal disbursement.

No further action is necessary.
### Treatment Of Title IV Funds When A Student Withdraws From A Credit-Hour Program

**Student’s Name**: Thompson Hunter  
**Social Security Number**: Example 7

**Date form completed**: / /  
**Date of school’s determination that student withdrew**: 12 / 05 /

**Period used for calculation (check one)**: [ ] Payment period  [ ] Period of enrollment

---

*Monetary amounts should be in dollars and cents (rounded to the nearest penny). When calculating percentages, round to three decimal places. (For example, .4486 = .449, or 44.9%)*

### STEP 1: Student’s Title IV Aid Information

<table>
<thead>
<tr>
<th>Title IV Grant Programs</th>
<th>Amount Disbursed</th>
<th>Amount that Could Have Been Disbursed</th>
<th>E. Total Title IV aid disbursed for the period</th>

<td></td>
</tr>
<tr>
<td><strong>Subtotal</strong></td>
<td><strong>0.00</strong></td>
<td><strong>C. 0.00</strong></td>
</tr>
</tbody>
</table>

---

### STEP 2: Percentage of Title IV Aid Earned

<table>
<thead>
<tr>
<th>Start date</th>
<th>Scheduled end date</th>
<th>Date of withdrawal</th>
</tr>
</thead>
<tbody>
<tr>
<td>08 / 22</td>
<td>12 / 16/</td>
<td>12 / 5/</td>
</tr>
</tbody>
</table>

A school that is not required to take attendance may, for a student who withdraws without notification, enter 50% in Box H and proceed to Step 3. Or, the school may enter the last date of attendance at an academically related activity for the “withdrawal date,” and proceed with the calculation as instructed. For a student who officially withdraws, enter the withdrawal date. *(Less 9 day scheduled break)*

#### H. Percentage of payment period or period of enrollment completed

Divide the calendar days completed in the period by the total calendar days in the period (excluding scheduled breaks of five days or more AND days that the student was on an approved leave of absence).

\[
\frac{67}{108} = 62.0\% 
\]

- If this percentage is greater than 60%, enter 100% in Box H and proceed to Step 3.
- If this percentage is less than or equal to 60%, enter that percentage in Box H, and proceed to Step 3.

### STEP 3: Amount of Title IV Aid Earned by the Student

Multiply the percentage of Title IV aid earned (Box H) by the Total Title IV aid disbursed and that could have been disbursed for the period (Box G).

\[
100.0 \% \times 3,906.50 = I. \$3,906.50 
\]

### STEP 4: Title IV Aid to be Disbursed or Returned

- **If the amount in Box I is greater than the amount in Box E**, go to Item J (Post-withdrawal disbursement).
- **If the amount in Box I is less than the amount in Box E**, go to Title IV aid to be returned (Item K).
- **If the amounts in Box I and Box E are equal**, STOP. No further action is necessary.

#### J. Post-withdrawal disbursement

From the Amount of Title IV aid earned by the student (Box I) subtract the Total Title IV aid disbursed for the period (Box E). This is the amount of the post-withdrawal disbursement.

\[
3,906.50 - 3,906.50 = 0.00 \$ 
\]

*Stop here, and enter the amount in “J” in Box 1 on Page 3 (Post-withdrawal disbursement tracking sheet).*

---

You should use this form when the withdrawal date is on or after 7/1/2010
CASE STUDY 8: ELI KRAUT

When a student receiving Title IV grants and loans at a school that utilizes a non-term modular course structure, measures academic progress in credit hours and performs its Return calculations on a payment period basis officially withdraws and is not scheduled to return within 45 days.

Learning Objectives

Learn to complete Steps 1–10 of the Treatment of Title IV Funds when a Student Withdraws from a Credit-Hour Program worksheet, and be able to:

- determine whether or not a student must be considered a withdrawal;
- determine if it is necessary to, and if so, recalculate the student’s eligibility for Pell and Campus-Based funds;
- determine the total number of days the student was in attendance, and the numerator and denominator when calculating the percentage of the payment period completed;
- calculate the percentage of the payment period the student completed, and both the percentage and the amount of Title IV aid earned by the student;
- determine either that the student is due a Post-withdrawal disbursement (PWD) of Title IV aid or that Title IV aid must be returned and
- determine the amount to be offered to the student or returned.

School Profile

The Giant School of Sports Medicine (GSSM) is private, for profit, institution that utilizes a non-term modular course structure and measures academic progress in credit hours.

**Student Profile**

Eli Kraut is a dependent, fourth-year student enrolled at GSSM for 16 credits offered in four modules. In each four week module, a student enrolls in one course that begins and ends on a fixed date. In Eli’s case, each course is worth three credits.

Charges to Eli’s account for the payment period are as follows:

- **Tuition and fees**: $3,200.00/12 credits
- School Authorized to Credit Account for Other Charges: Yes (all charges)

Eli’s financial aid package is based on the following nine month academic year cost of attendance (COA).

- **Tuition**: $6,400.00
- **Room**: $3,200.00
- **Board**: $3,200.00
- **Books**: $1,600.00
- **Personal Expenses**: $3,200.00
- **Travel**: $800.00

$18,400.00
Eli’s financial aid package included the following annual awards:

<table>
<thead>
<tr>
<th>Award</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$5,550.00</td>
</tr>
<tr>
<td>FSEOG</td>
<td>$4,000.00</td>
</tr>
<tr>
<td>Subsidized Direct Loan</td>
<td>$5,500.00</td>
</tr>
<tr>
<td>Federal Work Study (FWS)</td>
<td>$3,350.00</td>
</tr>
</tbody>
</table>

Except for his FWS award, all of Eli’s financial aid for the first payment period (one-half his annual awards) was disbursed on the first day of classes.

**Discussion**

On the first day of the period, August 1, Eli received the following disbursements to his student account:

<table>
<thead>
<tr>
<th>Award</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant</td>
<td>$2,775.00</td>
</tr>
<tr>
<td>FSEOG</td>
<td>$2,000.00</td>
</tr>
<tr>
<td>Subsidized Stafford Loan</td>
<td>$2,750.00</td>
</tr>
</tbody>
</table>

On August 25, Eli comes to see you. He tells you that his twin brother, Jake, has just won an all-expense Mediterranean cruise for two and has invited Eli (the lucky dog) to accompany him on the cruise. Eli has decided not to miss this chance-of-a-lifetime. He intends to drop modules two and three, and return for the fourth module on October 24. On August 26, Eli completes modules 1 and withdraws.

When a student withdraws from one of a series of modules in a term-based program, a school must first determine whether or not the student must be treated as a withdrawal. In order to do so, the school must answer three questions:

1. **After beginning attendance in the payment period or period of enrollment, did the student cease to attend or fail to begin attendance in a course he or she was scheduled to attend?**

   If the answer is no, this is not a withdrawal. If the answer is yes, go to question 2.

   In Eli’s case, the answer to Question 1 is **Yes**; you go on to Question 2.

2. **When the student ceased to attend or failed to begin attendance in a course he or she was scheduled to attend, was the student still attending any other courses?**

   If the answer is yes, this is not a withdrawal; (Note, however that other regulatory provisions concerning recalculation may apply. If the answer is no, go to question 3.

   In Eli’s case, the answer to Question 2 is **No**; you go on to Question 3.

3. **Did the student confirm attendance in a course in a module beginning later in the period. For non-term and nonstandard term programs, this must be no later than 45 calendar days after the end of the module the student ceased attending?**
If the answer is yes, this is not a withdrawal, unless the student does not return. If the answer is no, this is a withdrawal and the Return of Title IV Funds requirements apply.

**Note:** CFR 34 668.22(a)(2)(i)(C) provides that a student in a non-term or nonstandard term program is considered to have withdrawn for Title IV purposes if the student is not scheduled to begin another course within a payment period or period of enrollment for more than 45 calendar days, unless the student is on an approved leave of absence.

34 CFR 668.22(a)(2)(ii)(A)(2) provides that, for a non-term or nonstandard term program, an institution must treat as a withdrawal a student who ceases attendance in a module not withstanding a student's confirmation of attendance in a future module in the payment period or period of enrollment if that module does not begin within 45 days of the end of the module the student ceased attending. (For additional information see Withdrawals from programs offered in modules in Chapter 2.)

The module in which Eli will be returning (Module 4) does not start until October 24. That is 58 days from August 26, the end of the first Module. Therefore, you must treat Eli as a withdrawal.

Because Eli failed to begin attendance in all of the classes on which his Title IV aid was based, before performing the required Return calculation GSSM must recalculate Eli’s eligibility for Title IV funds based on his enrollment in just the one module he began – three credits, or less than half time.

**Note:** Pell Grant awards for students in clock-hour programs and programs without terms are always based on the Payment Schedule for Determining Full-Time Awards. Therefore a school does not have to recalculate a Pell Grant when a student attending a non-term program or clock-hour program withdraws.

The school does have to recalculate Eli’s eligibility for Campus-Based aid (FSEOG and FWS), eliminating the costs attributable to the modules that he did not begin attending, to see whether a reduction of the Campus-Based aid was necessary. After eliminating the expenses associated with the period of non-attendance, the school determined that the COA (for Campus-Based purposes) associated with Eli’s enrollment in the one module was $2,600.00. The loan funds that Eli had already received (and for which his eligibility does not have to be recalculated – $2,750.00) plus his Pell Grant ($2,775.00), plus the $500.00 in FWS Eli has earned to date equal $6,025.00. Since $6,025.00 exceeds Eli’s revised COA of $2,500.00, the aid officer determined that Eli was not eligible for any FSEOG funds, so the school had to reduce Eli’s FSEOG award to $0.00 and either award the $2,000.00 in FSEOG funds to another eligible student or return them to ED. Note that Pell Grants and earned FWS funds are never reduced to address an overpayment.

**Note:** Any time a student enrolled in a clock-hour or non-term program changes his or her enrollment status, the school must recalculate the student’s COA to determine if the student’s eligibility for Campus-Based funds has changed. The school may not include in the COA costs associated with any classes the student failed to begin. Moreover, when a student enrolled in a clock-hour or non-term program withdraws, a school that calculates Returns on a period of enrollment basis may not include costs associated with any future payment period for which the student has not confirmed attendance at the time of withdrawal and that does not start within 45-days in the student’s COA.

GSSM performed a return calculation using Eli’s last day of attendance of August 26 as his withdrawal date; $2,775.00 as the amount of Pell Grant disbursed; $0.00 as the amount of FSEOG funds disbursed; and $2,750.00 as the amount of Subsidized Direct Loan funds disbursed. On September 4, GSSM returned the funds for which it was responsible to the appropriate programs.
Solution

Eli’s withdrawal date is his last day of attendance at an academically related activity as determined from the school’s attendance records, August 26.

At the beginning of the semester, the following awards were posted to Eli’s account at GSSM.

- Pell Grant $2,775.00
- FSEOG $2,000.00
- Subsidized Stafford Loan $2,750.00

STEP 1: Student’s Title IV Aid Information

Box A. After recalculation, the Title IV grant aid disbursed was –

- Pell Grant $2,775.00
- FSEOG $0.00

A. = $2,775.00

Box B. Net Title IV loans disbursed

- Subsidized Stafford loan $2,750.00

B. = $2,750.00

Box C. Title IV grants that could have been disbursed = $0.00.

Box D. Title IV loans that could have been disbursed = $0.00.

Box E. Total Title IV aid disbursed for the payment period = A + B = 2,775.00 + 2,750.00 = $5,525.00.

Box F. Total Title IV grant aid disbursed and could have been disbursed for the payment period = A + C = 2,775.00 + 0.00 = $2,775.00.

Box G. Total Title IV aid disbursed and could have been disbursed for the payment period = A + B + C + D = 2,775.00 + 2,750.00 + 0.00 + 0.00 = $5,525.00.
STEP 2: Percentage of Title IV Aid Earned

For Title IV purposes, Eli’s withdrawal date is August 26, the day he dropped modules two and three and notified the school that he would not be returning until the start of module 4. Note that because Eli didn’t drop modules two and three before withdrawing, the days in those modules are included in the number of days in the payment period.

1. Payment Period start date = August 1.
2. Payment Period end date = November 18.
3. Date of withdrawal = August 26.
4. Percentage of payment period completed
   • Number of calendar days completed = 26
   • Number of calendar days in the payment period = 110
   • 26 days ÷ 110 days = 0.2363. Percentage of payment period completed = 23.6%

Box H. Because this percentage is less than 60%, the Percentage of Title IV aid earned = 23.6%.

STEP 3: Amount of Title IV Aid Earned by the Student

Box I. 23.6% (Percentage of Title IV aid earned from Box H) X $5,525.00 (Total of the Title IV aid disbursed and could have been disbursed for the payment period or period of enrollment from Box G) = $1,303.90. Amount of Title IV aid earned by the student = $1,303.90.

\[ I = \$1,303.90 \]

STEP 4: Total Title IV Aid to be Disbursed or Returned

Box J. Because the total Title IV aid earned (Box I) is less than the total Title IV aid disbursed (Box E), no Post-withdrawal disbursement is due, and we proceed to Box K.

Post-withdrawal disbursement = NA.

Box K. Because the total Title IV aid disbursed (Box E) is greater than the total Title IV aid earned (Box I) Title IV aid must be returned.

\[ $5,525.00 \text{ (Box E)} - $1,303.90 \text{ (Box I)} = $4,221.10. \text{ Title IV Aid to be returned} = $4,221.10. \]

\[ K = \$4,221.10 \]
STEP 5: Amount of Title IV Aid Due from the School

**Box L.** The institutional charges on Eli’s account are the charges initially assessed for the payment period. Note that books and supplies are not included because Eli had an opportunity to purchase them elsewhere, and did

- Tuition and fees $ 3,200.00
- Room $ 1,600.00
- Board $ 1,600.00

$6,400.00

**Box M.** Subtract the percentage of Title IV earned from Box H (23.6%) from 100.0%. 100% – 23.6% = 76.4%. Percentage of Title IV aid unearned = 76.4%.

M = 76.4%

**Box N.** Calculate the amount of unearned charges. $6,400.00 (institutional charges from Box L) X 76.4% (% of Title IV aid unearned from Box M) = $4,889.60. Amount of unearned institutional charges = $4,889.60.

N = $4,889.60

**Box O.** Compare the amount of Title IV aid to be returned (Box K) to unearned institutional charges (Box N), and enter the lesser amount in Box O.

- Box K = $ 4,221.10
- Box N = $ 4,889.60

Amount of unearned Title IV aid due from the school = $4,221.10.

STEP 6: Return of Funds by the School

**Box P.** The amount of unearned Title IV aid due from the school is $4,221.10 (Box O), and Title IV loans are returned before Title IV grants. Since Eli received a Subsidized Stafford loan of $2,750.00, the school returns the entire $2,750.00 to the Direct Loan Program.

The school also returns $1,471.10 (4,221.10 (0) – $2,750.00 (P)) to the Pell Grant Program.

The school must return any unearned funds within 45 days from the date of the institution’s determination that Eli withdrew.
STEP 7: Initial Amount of Unearned Title IV Aid Due from Student

Box Q. Subtract the amount of Title IV aid the school must return ($4,221.10 from Box O) from the total amount of Title IV aid that is to be returned ($4,221.10 from Box K) to find the Initial amount of Title IV aid Due from the Student. $4,221.10 – $4,221.10 = $0.00.

Box Q = $ 0.00

There is no unearned aid due from the student, so the Return calculation ends here. The only further action the school must take is to notify the loan holder that the student has ceased attendance.
Treatment Of Title IV Funds When A Student Withdraws From A Credit-Hour Program

Student’s Name: Eli Kraut
Social Security Number: Example 8
Date form completed: / / 
Date of school’s determination that student withdrew: 08 / 26 /
Period used for calculation (check one): ☐ Payment period ☐ Period of enrollment

Monetary amounts should be in dollars and cents (rounded to the nearest penny).
When calculating percentages, round to three decimal places. (For example, .4486 = .449, or 44.9%)

**STEP 1: Student’s Title IV Aid Information**

**STEP 2: Percentage of Title IV Aid Earned**

<table>
<thead>
<tr>
<th>Start date</th>
<th>Scheduled end date</th>
<th>Date of withdrawal</th>
</tr>
</thead>
<tbody>
<tr>
<td>08 / 01</td>
<td>11 / 18</td>
<td>08 / 26</td>
</tr>
</tbody>
</table>

A school that is not required to take attendance may, for a student who withdraws without notification, enter 50% in Box H and proceed to Step 3. Or, the school may enter the last date of attendance at an academically related activity for the “withdrawal date,” and proceed with the calculation as instructed. For a student who officially withdraws, enter the withdrawal date.

**H. Percentage of payment period or period of enrollment completed**

(Less 9 day scheduled break)

Divide the calendar days completed in the period by the total calendar days in the period (excluding scheduled breaks of five days or more AND days that the student was on an approved leave of absence).

\[
\text{Completed days} \div \text{Total days} = \frac{26}{110} = 23.6\% 
\]

If this percentage is greater than 60%, enter 100% in Box H and proceed to Step 3.
If this percentage is less than or equal to 60%, enter that percentage in Box H, and proceed to Step 3.

**STEP 3: Amount of Title IV Aid Earned by the Student**

Multiply the percentage of Title IV Aid Earned (Box H) by the Total Title IV aid disbursed and that could have been disbursed for the period (Box G).

\[
\text{Box H} \times \text{Box G} = 23.6\% \times 5,525.00 = \$1,303.90 
\]

**J. Post-withdrawal disbursement**

From the Amount of Title IV aid earned by the student (Box I) subtract the Total Title IV aid disbursed for the period (Box E). This is the amount of the post-withdrawal disbursement.

\[
\text{Box I} - \text{Box E} = \text{J.}$ \quad \text{NA} 
\]

Stop here, and enter the amount in “J” in Box 1 on Page 3 (Post-withdrawal disbursement tracking sheet).

Step 4 continued
STEP 4: Aid to be Disbursed or Returned CONTINUED
From the Total Title IV aid disbursed for the period (Box E) subtract the amount of Title IV aid earned by the student (Box I). This is the amount of Title IV aid that must be returned.

\[
\begin{align*}
5,525.00 & \quad - \quad 1303.90 \\
& = \quad K. \quad 4,221.10
\end{align*}
\]

STEP 5: Amount of Unearned Title IV Aid Due from the School

L. Institutional charges for the period

\[
\begin{array}{c}
\text{Tuition} \\
\text{Room} \\
\text{Board} \\
\text{Other}
\end{array}
\begin{array}{c}
3,200.00 \\
1,600.00 \\
1,600.00 \\

\end{array}
\]

\[
\text{Total Institutional Charges} = L. \quad 6,400.00
\]

M. Percentage of unearned Title IV aid

\[
100\% - 23.6\% = M. \quad 76.4\%
\]

N. Amount of unearned charges

Multiply institutional charges for the period (Box L) by the percentage of unearned Title IV aid (Box M).

\[
\begin{align*}
6,400.00 & \quad \times \quad 76.4\% \\
= N. \quad 4,889.60
\end{align*}
\]

O. Amount for school to return

Compare the amount of Title IV aid to be returned (Box K) to amount of unearned charges (Box N).

\[
O. \quad 4,221.10
\]

STEP 6: Return of Funds by the School

The school must return the unearned aid for which the school is responsible (Box O) by repaying funds to the following sources, in order, up to the total net amount disbursed from each source.

<table>
<thead>
<tr>
<th>Title IV Programs</th>
<th>Amount for School to Return</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Unsubsidized FFEL/Direct Stafford Loan</td>
<td>2,750.00</td>
</tr>
<tr>
<td>2. Perkins Loan</td>
<td>2,750.00</td>
</tr>
<tr>
<td>3. FFEL/Direct PLUS (Graduate Student)</td>
<td>2,750.00</td>
</tr>
<tr>
<td>4. FFEL/Direct PLUS (Parent)</td>
<td>2,750.00</td>
</tr>
<tr>
<td>5. Pell Grant</td>
<td>1,471.10</td>
</tr>
<tr>
<td>6. Academic Competitiveness Grant</td>
<td>1,471.10</td>
</tr>
<tr>
<td>7. National SMART Grant</td>
<td>1,471.10</td>
</tr>
<tr>
<td>8. FSEOG</td>
<td>1,471.10</td>
</tr>
<tr>
<td>9. TEACH Grant</td>
<td>1,471.10</td>
</tr>
<tr>
<td>10. Iraq Afghanistan Service Grant</td>
<td>1,471.10</td>
</tr>
<tr>
<td>11. National SMART Grant</td>
<td>1,471.10</td>
</tr>
<tr>
<td>12. FSEOG</td>
<td>1,471.10</td>
</tr>
<tr>
<td>13. TEACH Grant</td>
<td>1,471.10</td>
</tr>
<tr>
<td>14. Iraq Afghanistan Service Grant</td>
<td>1,471.10</td>
</tr>
</tbody>
</table>

\[
\text{Total loans the school must return} = P. \quad 2,750.00
\]

STEP 7: Initial Amount of Unearned Title IV Aid Due from the Student

From the amount of Title IV aid to be returned (Box K) subtract the Amount for the school to return (Box O).

\[
\begin{align*}
4,221.10 & \quad - \quad 4,221.10 \\
= Q. \quad 0.00
\end{align*}
\]

STEP 8: Repayment of the Student’s loans

From the Net loans disbursed to the student (Box B) subtract the Total loans the school must return (Box P) to find the amount of Title IV loans the student is still responsible for repaying (Box R).

\[
\begin{align*}
\text{Total loans the school must return} & \quad = \quad 2,750.00 \\
\text{Net loans disbursed} & \quad = \quad 6,400.00 \\
\text{Amount to return} & \quad = \quad 3,650.00
\end{align*}
\]

These loans consist of loans the student has earned, or unearned loan funds the school is not responsible for repaying. They are repaid to the loan holders according to the terms of the borrower’s promissory note.

STEP 9: Grant Funds to be Returned

S. Initial amount of Title IV grants for student to return

From the initial amount of unearned Title IV aid due from the student (Box Q) subtract the amount of loans to be repaid by the student (Box R).

\[
\begin{align*}
\text{Initial amount of unearned Title IV aid due from student} & \quad = \quad 4,221.10 \\
\text{Amount to return} & \quad = \quad 0.00 \\
\text{Amount for school to return} & \quad = \quad 4,221.10
\end{align*}
\]

T. Amount of Title IV grant protection

Multiply the total of Title IV grant aid that was disbursed and that could have been disbursed for the period (Box F) by 50%.

\[
\begin{align*}
\text{Total Title IV grants} & \quad = \quad 6,400.00 \\
50\% & \quad = \quad 3,200.00
\end{align*}
\]

U. Title IV grant funds for student to return

Multiply the total of Title IV grant aid that was disbursed and that could have been disbursed for the period (Box F) by 50%.

\[
\begin{align*}
\text{Total Title IV grants for student to return} & \quad = \quad 4,221.10 \\
\text{Amount for school to return} & \quad = \quad 4,221.10 \\
\text{Amount for student to return} & \quad = \quad 0.00
\end{align*}
\]

STEP 10: Return of Grant Funds by the Student

Except as noted below, the student must return the unearned grant funds for which he or she is responsible (Box U). The grant funds returned by the student are applied in order as indicated, up to the amount disbursed from that grant program minus any grant funds the school is responsible for returning to that program in Step 6. Note that the student is not responsible for returning funds to any program to which the student owes $50.00 or less.

<table>
<thead>
<tr>
<th>Title IV Grant Programs</th>

<td>5. TEACH Grant</td>
<td></td>
</tr>
<tr>
<td>6. Iraq Afghanistan Service Grant</td>
<td></td>
</tr>
</tbody>
</table>

You should use this form when the withdrawal date is on or after 7/1/2010
A school must first enter into a Program Participation Agreement (PPA) with the Department before making any awards of FSA funds.

A school completes an online Fiscal Operations Report and Application to Participate (FISAP on the Web) to apply for Campus-Based funds for the coming year and to report its Campus-Based expenditures for the prior year.

PROGRAM PARTICIPATION AGREEMENT

The school’s financial aid administrator is responsible for ensuring that eligible students at the school receive Campus-Based and other FSA program funds according to the provisions of the Program Participation Agreement (PPA), signed by both a representative of the Department and the school’s chief administrative officer, as well as the applicable provisions of the law and regulations.

The Federal Perkins Loan and Federal Work-Study (FWS) programs have specific additional requirements that are part of the Program Participation Agreement, as described in this volume. For more information on this agreement and the General Provisions requirements for all FSA programs, see Volume 2, School Eligibility and Operations.

Perkins PPA Requirements

The Program Participation Agreement requires the school to annually submit to the Department a report containing information that determines the school’s Perkins default rate.

The agreement for the Federal Perkins Loan Program also requires the school to establish and maintain a Fund and to deposit into the Fund:

- any Federal Capital Contribution (FCC) the school receives as its federal allocation for the program for each award year (currently no FCC is being allocated to schools in the Perkins Loan Program);
- the Institutional Capital Contribution (ICC), including any ICC to match transfer of funds from other Campus-Based programs;

Related information

The rules for awarding and packaging Campus-Based aid are discussed with the other FSA programs (Volume 3), since the financial aid office is responsible for awarding and packaging all FSA program funds using similar rules.

NDSL & Perkins loans

The Perkins Loan program was initially authorized in 1958 as the National Defense Student Loan Program. The Higher Education Amendments of 1972 renamed the program the National Direct Student Loan Program. In 1986, the program was renamed the Perkins Loan Program.
Program participation requirements
The basic list of Program Participation Agreement (PPA) requirements is found in 34 CFR 668.14. Under the PPA, the school agrees to use the funds it receives solely for the purposes specified in the regulations for that program and to administer each program in accordance with the Higher Education Act of 1965 (HEA), as amended, and the General Provisions regulations.

PPA requirements for Perkins
34 CFR 674.8
PPA requirements for Federal Work-Study
34 CFR 675.8

Treatment of FWS in 90/10 calculation
FWS funds recovered by the school are excluded from revenues in the 90/10 calculation, unless the school used those funds to pay for a student’s institutional charges. (See Volume 2 for discussion of the 90/10 calculation)

- payments the school receives for repayment of loan principal, interest, collection charges, and penalty or late charges on loans from the fund;
- payments the school receives from ED for cancellations, such as teacher service cancellations (see Chapter 5 of this volume);
- any other earnings on fund assets, including net interest earnings on funds deposited in an interest-bearing account (total interest minus bank charges incurred on the account); and
- proceeds of any short-term no-interest loans the school makes to the fund in anticipation of receipt of its FCC or of loan collections.

Federal Work-Study PPA Requirements
Under the Program Participation Agreement, schools participating in the FWS Program must:

- make FWS employment reasonably available, to the extent of available funds, to all eligible students;
- award FWS employment, to the maximum extent practicable, that will complement and reinforce each recipient’s educational program or career goals;
- assure that FWS employment may be used to support programs for supportive services to students with disabilities; and
- inform all eligible students of the opportunity to perform community services and consult with local nonprofit, government, and community-based organizations to identify those opportunities.
FISAP REPORT AND APPLICATION

Application for funds

To apply for and receive funds from the Department for one or more of the Campus-Based programs, a school must submit a FISAP for each award year. The Department posts instructions for submitting the FISAP in an Electronic Announcement on the IFAP Web site (typically around May-July).

On Part II of the FISAP, you will report enrollment and aid eligibility information, such as the amount of tuition and fees your school assessed, total Pell and ACG/SMART funds disbursed, and the number of eligible aid applicants at your school at different income levels. The information reported on the FISAP must be accurate and verifiable, as it will be used in the funding allocation formula (see next section).

You must submit your school’s FISAP by October 1. Although most of the information on the FISAP is submitted electronically, please remember that you must print the combined certification and signature pages for your FISAP submission, obtain the required signatures, and mail these documents (with the original signatures) to the address given below.

Reporting expenditures

The school uses the Fiscal Operations Report portion of the FISAP to report its expenditures under the Campus-Based programs in the previous award year.

Completing & Submitting the FISAP

FISAP on the Web

Schools submit the FISAP through the FISAP on the Web, available at: www.cbfisap.ed.gov

To submit the FISAP on the Web, you must have a User ID and password, which can be obtained on the eCampus-Based Web site (select “Login,” and select the registration link). Once you have registered, you will receive your User ID via email.

The FISAP is available for completion on the Web by August 1 of each year. It must be completed no later than October 1 of the same year. (The deadline will be earlier if October 1st falls on a weekend.) A list of all Campus-Based submission dates is posted on the FISAP on the Web site.

Schools may also make corrections via the FISAP on the Web site.

Certifications on the FISAP

Part I of the FISAP includes two required certifications:

1. Form 80-0013, Certifications Regarding Lobbying; Debarment, Suspension, and Other Responsibility Matters; and Drug-Free Workplace Requirements.

2. Standard Form LLL, Disclosure of Lobbying Activities (should only be completed if a school expends funds for lobbying activities)

See Volume 2 for more information on these requirements.

Address for certification/signature pages

FISAP Administrator
3110 Fairview Park Drive
Suite 950
Falls Church, VA  22042

Campus-Based Call Center For assistance submitting corrections for closed years, or for questions concerning the preparation of the FISAP, contact the Campus-Based Call Center at 1-877-801-7168 (8 a.m.–8 p.m. Eastern time);
cbfob@ed.gov

FISAP requirement

E-Announcement July 21, 2011
To participate in the Federal Perkins Loan, FWS, or FSEOG programs, an institution shall file an application before the deadline date established annually by the Secretary through publication of a notice in the Federal Register. See 34 CFR 673.3.

First-time Campus-Based program applicants

A school that has applied to participate in the Campus-Based programs for the first time should submit a FISAP by the deadline even if the school has not been certified to participate in the programs. The Department will calculate a funding level for the school and put the funding on “hold” status until the school has been approved to participate. See “Allocation of Funds” for more information.

Use the 2012–2013 FISAP to:

Apply for 2012–2013 Funds
Report 2010–2011 Expenditures
**Federal Capital Contribution (Perkins)**

Congress has not authorized any Federal Capital Contribution (FCC) through the 2011-12 application year.

---

**Release of tentative & final funding levels**

HEA 462(a)
34 CFR 673.4
E-Announcements January 25, 2011, April 1, 2011

Your school’s funding levels and corresponding worksheets will be posted in the “Self-Service” area on the eCB Web site before your school’s Campus-Based contact person will be notified by e-mail when the tentative and the final funding levels are issued. Review your funding levels on the eCB website, and if you feel they are not correct, you may contact the Campus-Based Call Center at 877-801-7168.

---

**Allocation of Campus-Based Funds**

The Department allocates funds for each of the Campus-Based programs directly to schools each award year in the amount of funding the school is authorized to receive from the Department for an award year. The Department bases the allocation amount on statutory formulas and program funding. A school will not, however, receive an allocation that is in excess of its request. Your school’s initial allocation is based on the amount allocated for the base award year, 1999–2000.

If your school submits the FISAP by the 1st of October, the Department provides your school with tentative allocation information in January of the following year and with final allocation information by the 1st of April. A school is notified via e-mail when its tentative or final allocation information is available in the “Self-Service” section of the eCampus-Based Web site.

If a school does not use its total allocation of funds for the Campus-Based programs, the school must release unexpended amounts to the Department. In June/July, the Department posts a Dear Colleague Letter on IFAP that requests schools to release any previous award year funds that they have not expended and offers schools the opportunity to request supplemental FWS funds for community service. The Reallocation Form for schools wishing to return funds or request supplemental FWS funds can be found in the Setup section of the eCampus-Based Web site.

---

**Witholding final allocation**

In some cases, ED calculates a school’s final allocation, but does not issue the final allocation by April 1st. We may withhold a school’s final allocation if:

- the school lost its eligibility to participate in FSA programs;
- the school is a new applicant for the FSA programs and/or for Campus-Based programs and has not been approved yet; or
- we have not received the FISAP signature/certification form with the required original signature of the school’s CEO.

When the reason for holding the school’s final allocation is resolved, we will release the school’s final allocation.
REALLOCATION OF FUNDS

You must complete the Campus-Based Reallocation Form (on the eCampus-Based Web site) if—

• you do not intend to spend your entire allocation in any of the Campus-Based programs, or
• you want to request supplemental FWS funds to pay students in community service jobs (based on the criteria discussed later in this section).

A school may request supplemental FWS funds if it—

• has spent at least 5% of its total FWS funds for the award year to compensate students employed as reading tutors of children or in family literacy activities as part of its community service activities, and
• has an FWS fair share shortfall as shown on the school’s final funding worksheet, provided with the final allocation letter.

Releasing unused funds

After schools release their unexpended allocations, the Department reallocates the funds to schools that have met the criteria for receiving a supplemental allocation (based on statutory and regulatory guidelines).

If a school returns more than 10% of its allocated funds for a given award year under any one of the Campus-Based programs, the Department will reduce the school’s allocation for the second succeeding award year by the dollar amount returned unless the Department waives this provision.

Reduction of allocation

34 CFR 673.4(d)(3)

Waiver of allocation reduction

To request a waiver, a school must submit an explanation of the circumstances with its FISAP. ED explains the process a school must use to request a waiver in the FISAP Instruction Booklet.

ED may waive this provision for a specific school if the school returned more than 10% of its allocation due to circumstances that are beyond the school’s control, and are not expected to recur.

Reallocation of unexpended Campus-Based funds

Unexpended FSEOG and FWS funds returned to ED will be reallocated to an eligible school in a manner that best carries out the purposes of the FSEOG program.

In years in which the Department makes a Federal Capital Contribution; ED reallocates 80% of returned Perkins loan funds in accordance with 462(i) of the HEA and reallocates 20% in a manner that best carries out the purposes of the program. For more detail on reallocation for the 2011-12 award year, see the E-Announcement published July 21, 2011.
TRANSFER OF CAMPUS-BASED FUNDS

Several general rules apply to the transfer of funds between Campus-Based programs:

- You must award transferred funds according to the requirements of the program to which they are transferred.
- You must report the transfer of funds on the Fiscal Operations Report portion of the FISAP.
- Any transferred funds that are unexpended must be transferred back to the original program at the end of the award year.
- You may not transfer funds from one program to another unless you have awarded funds to students in the program from which you are transferring in the same award year. For example, you may not transfer FWS funds to another program in 2011-12 if you are not also making FWS awards in 2011-12.

Federal Work-Study transfer to FSEOG or Perkins

A school may transfer up to a total of 25% of its FWS allocation (initial plus supplemental) for an award year to its Perkins FCC allocation or FSEOG allocation, or both. This means that the total dollar amount of the FWS allocation transferred to both programs may not exceed 25% of the FWS allocation. (The FWS allocation does not include any amounts that may have been carried forward or carried back from other award years, as discussed in the next section.) You may not transfer FWS funds to FSEOG or Perkins unless you have awarded FWS funds to students in the same award year that you intend to transfer funds.

If the school wants to transfer an allowable percentage of its FWS allocation to the FSEOG Program or transfer an allowable percentage of its FSEOG allocation to the FWS Program, the program that the school wants to transfer funds to must also have an allocation for that same award year. The official allocation letter for both the FWS and FSEOG programs for the same specific award year is the school’s authority to exercise the FWS and FSEOG transfer of funds option from one to the other.

Your school must match any FWS funds transferred to FSEOG at the matching rate of the FSEOG Program, but the match doesn’t have to be made until the transfer has occurred.

Your school may transfer up to 25% of its total FWS allotment allocation (initial and supplemental) to its Perkins Loan fund, in addition to the FSEOG Program allotment. Your school must have a Perkins Loan Level of Expenditure from the Department for the award year in order to do this. The Department’s permission is not required.
FSEOG transfer to FWS

A school may now transfer up to 25% of its FSEOG allocation to its FWS allocation. (The school must have an FWS allocation to be able to transfer the funds.) You may not transfer FSEOG funds to FWS unless you have awarded FSEOG funds to students in the same award year that you intend to transfer funds.

Example: transferring funds

Example: Mimosa Tech has a $20,000 FWS allocation, but only $18,000 of FSEOG. The aid administrator decides to transfer the maximum 25% of FWS to the FSEOG program.
**FWS carry forward/carry back**
34 CFR 675.18(b)
34 CFR 675.18(c)

**G5: Funds Carried Forward/Back**
Any FWS funds carried forward or carried back between award years must be entered in G5 as an expenditure against the FWS authorization for the award year from which the funds were taken, not the authorization for the award year in which the funds were used. The same requirement holds for FSEOG funds.

---

**FSEOG & FWS CARRY FORWARD/CARRY BACK**

### Carry Forward
Your school may spend up to 10% of its current year’s FWS or FSEOG allocation (initial and supplemental) in the *following* award year (carry forward). Before a school may spend its current year’s allocation, it must spend any funds carried forward from the previous year.

### Carry Back
Your school is also permitted to spend up to 10% of its current year’s FWS or FSEOG allocation (initial and supplemental) for expenses incurred in the *previous* award year (carry back).

Your school must match FWS or FSEOG funds carried forward or carried back in the award year that they are spent. A school’s future FWS or FSEOG program allocation is not affected by carrying forward or carrying back funds between award years.

You may carry back FWS funds for summer employment; that is, you may use any portion of your school’s initial and supplemental FWS allocations for the current award year to pay student wages earned on or after May 1 of the previous award year but prior to the beginning of the current award year (July 1). This summer carry back authority is in addition to the authority to carry back 10% of the current year’s FWS allocation for use during the previous award year.

Also, your school may spend any portion of its current award year’s initial and supplemental FSEOG allocations to make FSEOG awards to students for payment periods that begin on or after May 1st of the prior award year but end prior to the start of the current award year (carry back for summer). This carry-back authority for summer FSEOG awards is in addition to the authority to carry back 10% of the current year’s FSEOG allocation for use during the previous award year.

On the FISAP, you must report FWS or FSEOG funds that your school carries back and carries forward. For example, if a school carried forward 10% of its FWS 2010–2011 allocation to be spent in 2011–2012, the school must report this amount on the FISAP in Part V of the Fiscal Operations Report for 2010–2011 (due Sept 30, 2011).

### General principles
The official allocation letter for a specific award period is the school’s authority to exercise these options. A school may not carry forward or carry back FWS funds to any award year in which there is no specific FWS allocation, and the same requirement holds for FSEOG funds.
**FWS limitations on use of funds carried forward or back**

Schools are not permitted to add funds that are carried forward or back to the total FWS allocation for an award year when determining the maximum percentage of available funds that may be used in that award year for any of the following purposes:

- transferring FWS funds to FSEOG;
- providing the federal share of wages in private for-profit sector jobs;
- or
- the Job Location and Development (JLD) Program.

For example, if a school carries $10,000 forward from 2010–2011 to 2011–2012, it may not include the $10,000 in the total 2011–2012 FWS allocation for the three purposes above. For these purposes, the 2011–2012 percentage is based on a school’s total 2011–2012 original FWS allocation plus any supplemental FWS allocation for the 2011–2012 year.

---

**Carry forward/carry back**

![Diagram](image)

Rule: for both the FWS and FSEOG programs: a school may transfer up to 10% of its current year allocation (initial & supplemental) forward to the next award year, or back to the previous award year.
FEDERAL SHARE LIMITATION

Federal share of FWS

In general, the federal share of FWS wages paid to a student may not exceed 75% of the student’s total wages. However, there are some important exceptions to this rule, as described below.

If the student is working for a private for-profit organization, the federal share of the student’s wages may not exceed 50%.

On the other hand, a school may use the federal share to pay up to 100% of the FWS wages paid to a student who is

- performing civic education and participation activities in community service projects;
- employed as a reading tutor for preschool-age children or elementary school children;
- employed as a mathematics tutor for children in elementary school through ninth grade; or
- performing family literacy activities in a family literacy project that provides services to families with preschool or elementary age children.

A school is not required to ask the Department for a waiver of the FWS nonfederal share requirement to receive the 100% federal share authorization for an FWS student employed in one of these jobs. Instead, the school should use 100% federal dollars to pay such a student and then show on its FISAP that it did so. (See Chapter 2 of this volume.)

A school may use the federal share of FWS wages to pay up to 90% of a student’s wages if:

- The student is employed at a private nonprofit organization or a federal, state, or local public agency. (Employment at the school itself is not eligible.)
- The school does not own, operate, or control the organization or agency. To satisfy this requirement, your school must keep a statement in the school’s file, signed by both the agency and the school, stating that they have no such relationship.
- The school selects the organization or agency on an individual, case-by-case basis. This requirement is satisfied when the school selects the agency through its normal process of selecting potential employers.
- The organization or agency must be unable to pay the regular nonfederal share. To satisfy this requirement, the school must keep in its file a signed letter from an officer of the agency stating that the agency cannot afford to pay the regular nonfederal share.

Wages from federal agency

The portion of the FWS wages contributed as the school share by a federal off-campus agency is not considered part of the “federal share.” Thus, a federal agency may provide the required share of student compensation normally paid by off-campus agencies plus any other employer costs that they agree to pay.

Separate FISAP for locations ineligible for waiver

If your school files a FISAP on behalf of two or more separately eligible school locations, but not all of these locations are eligible for a waiver of the nonfederal share requirement, you must file a separate FISAP for any locations that are not eligible for a waiver of the nonfederal share requirement. Only those locations that are eligible will receive a waiver of the nonfederal share requirement.

Contributing greater than minimum nonfederal share of FWS

An employer can choose to contribute more than the minimum required nonfederal share. For example, if a school has a large demand for FWS jobs from its various departments, it may contribute more than the usual 25% to allow for additional employment. However, schools should not report any contributions over the 25% requirement on the FISAP.
• The 90% federal share is limited to no more than 10% of the students paid under the FWS Program. For purposes of this calculation, the school must use the total number of FWS students paid during the current award year. The 10% limit on the number of students paid with the 90% federal share does not include students whose FWS wages have been exempted from the full nonfederal share requirement due to being employed as a reading tutor, mathematics tutor, or performing family literacy activities.

**Federal share of Perkins**

The federal funds allocated to a school in an award year under the Federal Perkins Loan Program are called the Federal Capital Contribution (FCC), and the matching share is called the Institutional Capital Contribution (ICC). Note that Congress has not authorized new Federal Capital Contribution for 2011–12. See prior-year Handbooks for guidance on how the FCC/ICC match has been treated in those years.

**Federal share of FSEOG**

The federal share of FSEOGs made by a school may not exceed 75% of the total FSEOGs. The school must contribute a nonfederal share (also called “institutional share”) of 25%.

**Full federal share of FWS wages for schools under 34 CFR 606-609**

The Department may authorize a federal share of 100% of FWS wages at schools designated as eligible schools under 34 CFR parts 606, 607, 608, or 609 (Hispanic-Serving Institutions, Historically Black Colleges and Universities, and institutions eligible under the Strengthening Institutions program). The work performed by the student must be for the school itself, for a federal, state, or local public agency, or for a private nonprofit organization. Your school is considered to have applied for a waiver of the nonfederal share requirement if your school is designated as an eligible school and your school submits a complete FISAP by the established deadline. Such schools will receive a letter from the Department indicating that they have been granted a waiver of the FWS nonfederal share requirement. (For more information, see *The Blue Book* on IFAP.)
NONFEDERAL SHARE

Nonfederal share of FWS

The nonfederal share of a student’s FWS wages must be at least 25% each award year, except as noted in the previous section. Your school may use any resource available to pay its share of FWS compensation except federal funds allocated under the FWS Program (or any other program funds where this use is prohibited). The school’s share may come from its own funds, from outside funds (such as from an off-campus agency), or from both. However, if a student is employed by a private, for-profit organization, that organization must provide the nonfederal share.

Your school may also pay the institutional share with noncash contributions. If the school’s noncash contribution is less than the remaining 25%, the school must make up the difference in cash.

Funds from programs sponsored by federal agencies (such as the National Science Foundation or the National Institutes of Health) may be used to pay the nonfederal share, as long as the programs have the authority to pay student wages. A school should contact the appropriate federal agency to see if the program in question does have this authority.

Nonfederal share of FSEOG

The nonfederal share of FSEOGs must be made from the school’s own resources. These resources may include:

- institutional scholarships and grants;
- waivers of tuition or fees;
- state scholarships and grants; and
- funds from foundations or other charitable organizations.

All state scholarships and grants, except for the Leveraging Educational Assistance Partnership (LEAP), the Special Leveraging Educational Assistance Partnership (SLEAP) program, and the Grants for Access and Persistence (GAP) awards are eligible funds that may be used to meet the nonfederal share requirement of FSEOGs. However, since the LEAP/SLEAP and GAP programs are not funded for 2011-12, the full amount (100 percent) of the State scholarships and grants an FSEOG eligible student received from a State are eligible funds that may be used to meet the FSEOG nonfederal share requirement for 2011-12. For 2011-12, the Department will not publish an Electronic Announcement with a chart showing the different percentages of State scholarships and grants that may be used for each State as the nonfederal share of FSEOG awards.

The nonfederal share requirement of 25% (unless the school qualifies for a waiver) may be met by one of three methods. In the following discussion of these methods, you should note that for a student to meet the definition of an FSEOG recipient, some portion of the grant awarded to the student must have come from the FSEOG federal dollars. Also, by the time the FSEOGs are disbursed (regardless of when in the award period the disbursements are made), the required match must have been accomplished; that is, the...
school’s own resources must have been disbursed before or at the time the federal dollars are disbursed. However, outside resources (such as state grants, foundation, or other charitable organization funds) can be used to match FSEOGs even if the funds are received at a later date, provided that the school has written information about funds that the non-institutional agency or organization is awarding to the student involved. The written information must be kept on file at the school.

The three methods a school may use to meet its nonfederal share follow:

- Individual FSEOG recipient basis—the school provides its share to an individual FSEOG recipient together with the federal share; that is, each student’s total FSEOG would consist of 25% nonfederal resources and 75% federal dollars for the award year.
- Aggregate basis—the school ensures that the sum of all funds awarded to FSEOG recipients in the 2010–2011 award year comprises 75% FSEOG federal funds and 25% nonfederal resources. (See sidebar for example)
- Fund-specific basis—the school establishes an FSEOG fund into which it deposits FSEOG federal funds and the required 25% nonfederal share. Awards to FSEOG recipients are then made from the fund.

Nonfederal share of Perkins

The nonfederal share required from the school’s own funds for the Federal Perkins Loan Program is called the Institutional Capital Contribution (ICC). Even though there will be no new FCC for 2011–2012, the school may elect to make its own contributions to the Perkins revolving fund.

Example of aggregate basis for FSEOG nonfederal share

For example, if a school awards a total of $60,000 to FSEOG recipients in an award year, it has to ensure that $45,000 comes from FSEOG federal funds and $15,000 comes from nonfederal resources; if there are 100 FSEOG recipients, the entire $15,000 nonfederal resource requirement can be met by awarding a total of $15,000 in nonfederal resources to four FSEOG recipients. However, each FSEOG recipient must receive some FSEOG federal funds.
**USE OF FWS ALLOCATED FUNDS**

**Private for-profit organizations (25% of allocation)**

Your school may use up to 25% of its FWS allocation and reallocation for an award year to pay the wages of FWS students employed by private for-profit organizations.

**Work-Colleges**

An approved school may use part of its FWS allocation for the purpose of meeting the costs of the Work-Colleges Program discussed in Chapter 2.

**Community Service Jobs**

There are two community service expenditure requirements that a school must meet.

- A school must use at least 7% of its FWS federal allocation for an award year to pay the federal share of wages to students employed in community service jobs for that year.
- In meeting the 7% community service requirement, one or more of the school’s FWS students must be employed as a reading tutor for children in a reading tutoring project or performing family literacy activities in a family literacy project.

A school that fails to meet one or both of these FWS community service requirements will be required to return FWS federal funds in an amount that represents the difference between the amount a school should have spent for community service and the amount it actually spent. Further, a school that is not compliant with the FWS community service requirements may be subject to a Limitation, Suspension, and Termination (L, S, & T) proceeding, through which the school could be denied future participation in the FWS Program, and possibly other FSA programs, and/or subject to a substantial fine.

A school may request a waiver of either of these requirements by the annual deadline. The school should include detailed information that demonstrates that the requirement would cause a hardship for students at the school. The fact that it may be difficult for the school to comply with these requirements is not, in and of itself, a basis for granting a waiver. See the box on the next page for more information on waivers.
Community service waivers

E-Announcement Mar 15, 2011
HEA Sec 443(b)(2)(B)
34 CFR 675.18(g)

The Department in the past has approved a limited number of waivers of the community service requirements for schools that have demonstrated that enforcing these requirements would have caused a hardship for their students. Examples of waiver requests include:

Case Study #1 - Small FWS allocation

The school had a very small FWS allocation. The supporting information submitted by the school noted that 7% of the school’s allocation only provided enough funds for a student to work for a short period of time. Therefore, the school was unable to find placement for a student in community service.

Case Study #2 - Rural area

The school was in a rural area that was located far away from the types of organizations that would normally provide community service jobs. The school provided information that showed that its students lacked the means of transportation to get to the town where the community jobs were located. In a similar waiver request in which transportation did exist, a school provided documentation that showed that the transportation costs were extremely high for the students.

Case Study #3 - Specialized program

The school offered only a single program of specialized study that required its students to participate in extensive curriculum and classroom workloads. The school provided information that demonstrated that this specialized educational program prevented the students from performing community service jobs at the time those work opportunities were available.

These examples are not the only circumstances that may result in approval of a waiver request, however, you must always submit a justification of your request.

The Department posts an annual announcement to the IFAP Web site describing the electronic waiver process and giving the deadline date for that year.

A school must submit its waiver request to the Department electronically via the eCampus-Based (eCB) Web site at: www.cbfisap.ed.gov. For more detail, see the E-Announcement referenced at the beginning of this section.

Reallocation effect on minimum community service expenditures

When a school receives reallocated FWS funds, the minimum amount of FWS federal funds the school must expend on community service jobs for an award year is one of the following two amounts, whichever is greater:

7% of the sum of:
• your original FWS allocation, plus
• your FWS supplemental allocation (if any), minus
• any amount of FWS federal funds you returned through the reallocation process or earlier

OR

100% of your FWS supplemental allocation (if any)
CAMPUS-BASED RECORDKEEPING

A school must follow the recordkeeping requirements in the General Provisions (discussed in Volume 2), and those specific to the Campus-Based programs.

A school must keep financial records that reflect all Campus-Based program transactions and must keep all records supporting the school’s application for Campus-Based funds. This documentation includes the applications and records of all students who applied for Campus-Based assistance for a specific award year and were included on the school’s FISAP for that award year.

The school must also retain applications and records of students who applied for, but did not receive aid, either because the school had no more funds to award or because the school determined that the student did not need funds. The school must keep general ledger control accounts and related accounts that identify each program transaction and must separate those transactions from all other institutional financial activity. Fiscal records must be reconciled at least monthly.

The Campus-Based records a school must maintain include, but are not limited to:

- the Student Aid Report (SAR) or Institutional Student Information Record (ISIR) used to determine a student’s eligibility for Campus-Based program funds;
- application data submitted to the Department or the school on behalf of the student;
- documentation of the payment of any return of Title IV funds or overpayment to the FSA program fund or the Department;
- documentation of the amount of a Perkins Loan, FSEOG or FWS award, its payment period, and the calculations used to determine the amount of the loan, grant, or FWS award;
- documentation of each FSEOG or Perkins Loan disbursement and the date and amount of each payment of FWS wages;
- documentation of the school’s calculation of any refunds or overpayments due to, or on behalf of, the student and the amount, date, and basis of the school’s calculation;
- information collected at initial and exit loan counseling required by Perkins Loan regulations; and
- reports and forms used by the school in its participation in a Campus-Based program, and any records needed to verify data that appear in those reports and forms.

Perkins recordkeeping

Perkins Loan records of a school must maintain and include, but are not limited to:

- documentation of each student’s eligibility for a Perkins Loan,
- the promissory note,
- documentation of the amount of a Perkins Loan, its payment
period, and the calculations used to determine the amount of the loan,
• documentation of the date and amount of each disbursement of Perkins Loan funds, and
• information collected at initial and exit loan counseling required by Perkins Loan regulations.

You must maintain a copy of the promissory note signed by the student (see the next section for acceptable formats for paper and electronic promissory notes). When the borrower has fully repaid the Perkins Loan, your school must either notify the borrower in writing, or mark the original note “paid in full” and return to the borrower. Your school must keep the original or a copy of the promissory note for at least three years after the date the loan was paid in full.

If your school uses an electronic Perkins promissory note, it must maintain an affidavit or certification regarding creation and maintenance of the electronic note, including its authentication and signature processes. Documentation and certification requirements for assignment of Perkins Loans made using an electronic promissory note or MPN are discussed in Chapter 6, under "Perkins Assignment."

For each Perkins Loan borrower, a school must also maintain a repayment history that shows:

• the date and amount of each repayment during the life of the loan;
• the amount of each repayment credited to principal, interest, collection costs, and either penalty or late charges;
• the date, nature, and result of each contact with the borrower (or endorser for loans made prior to July 23, 1992) in the collection of an overdue loan; and
• copies of all correspondence to or from the borrower (and endorser for loans made prior to July 23, 1992), except for bills, routine overdue notices, and routine form letters (demand letters, notices of intent to accelerate, and the like are not considered to be routine form letters).

**FWS Recordkeeping**

For schools administering FWS, you must also follow the procedures established in 34 CFR 675.19 for documenting a student’s FWS work, earnings, and payroll transactions. You must establish and maintain an internal control system of checks and balances that ensures that no office can both authorize FWS payments and disburse FWS funds to students. If you use a fiscal agent for FWS funds, that agent may perform only ministerial acts.

In school records, schools must distinguish expenditures for FWS compensation from other institutional expenditures. You should enter FWS compensation on a separate voucher or, if listed on the general payroll voucher, you should group FWS compensation separately from other compensation. If payrolls are handled on automatic data processing equipment, you should identify FWS with a special code.
You must establish and maintain program and fiscal records that are reconciled at least monthly. The records must include:

- a payroll voucher containing sufficient information to support all payroll disbursements;
- a noncash contribution record to document any payment of the school's share of the student's earnings in the form of services and equipment; and
- a certification by the student's supervisor, an official of the school (or off-campus agency) that each student has worked and earned the amount being paid. Your school may use an electronic certification process (see sidebar). The school may still continue to have the FWS student's supervisor sign a paper certification. If the students are paid on an hourly basis, the certification must include or be supported by a time record showing the hours each student worked in clock time sequence, or the total hours worked per day.

In addition, each FWS position should have a job description that includes the following:

- the name and address of the student's employer (department, public agency, nonprofit organization);
- the purpose of the student's job;
- the student's duties and responsibilities;
- the job qualifications;
- the job's wage rate or range;
- the length of the student's employment (beginning and ending dates); and
- the name of the student's supervisor.

The job description has several purposes:

- It clearly defines whether the job qualifies under the FWS Program.
- It provides the information needed to explain the position to a student and to help him or her select the type of employment most closely related to his or her educational or career objectives.
- It helps the financial aid administrator, the student, and the supervisor determine the number of hours of work required at the specified wage rate to meet a student's financial need.
- It establishes a written record, for both student and employer, of the job's duties and responsibilities so that there will be no misunderstanding.

If a student is employed with an agency or organization that provides community services, the school should, as with any other FWS position, have a job description that includes the duties and the responsibilities. Schools should use the job description to verify that the job meets the definition of community services in the FWS regulations (see Chapter 2). In addition, for students performing reading tutoring or family literacy activities, the job description should support those jobs.
**FSEOG Recordkeeping**

In addition to following the fiscal procedures and records requirements mentioned earlier and in *Volume 2, Chapter 7*, a school must meet the following requirements, which are included in the FSEOG regulations:

- A school must establish and maintain an internal control system of checks and balances that ensures that no office can both authorize FSEOG payments and disburse FSEOG funds to students.
- A school must establish and maintain program and fiscal records that are reconciled at least monthly.
- Each year a school must submit a FISAP and other information the Department requires. The information must be accurate and must be provided on the form and at the time specified by the Department.

**Payroll vouchers**

Payroll vouchers must support all payroll disbursements and should provide space for the following information:

- the school’s name and address;
- the starting and ending dates of the payroll period;
- the student’s name;
- an identification of the student’s job;
- the number of hours worked during the pay period;
- the hourly rate of pay for an undergraduate student;
- the student’s gross earnings;
- any compensation withheld for federal, state, county, or city taxes, and other deductions;
- any noncash payments;
- the student’s net earnings;
- a check number, duplicate receipt, or other payment identification; and
- any overtime earnings (a student may be paid overtime with FWS funds).
- the hourly rate of pay or salary for a graduate student;
- any overtime earnings (a student may be paid overtime with FWS funds).
RECORD RETENTION & FORMATS

Availability of records & period of retention

Your school must make its records readily available for review by the Department or its authorized representative at an institutional location the Department or its representative designates. Generally, a school must keep records relating to the school’s administration of a Campus-Based program for 3 years after the end of an award year for which the aid was awarded and disbursed under that program.

There are some exceptions to this requirement:

- The school must retain the FISAP containing reported expenditures and any records necessary to support the data contained in the FISAP, including “income grid information,” for three years after the end of the award year in which the FISAP is submitted.
- The school must keep the original signed promissory note and repayment schedule until all loans made on the promissory note or MPN are satisfied or until the original note or MPN is needed to enforce loan collection. Only authorized personnel may have access to these records.
- If a promissory note or MPN was signed electronically, you must store it electronically for at least 3 years after all loans made on the promissory note or MPN are satisfied. (The Department recommends that the school maintain a certified copy of the signed promissory note as well as a record of the full amount owed in its records beyond the 3-year record retention requirement.) You must ensure that the promissory note or MPN can be retrieved in a coherent format.
- The school must keep repayment records for Perkins Loans, including records relating to cancellation and deferment requests for at least 3 years from the date a loan is repaid, cancelled, or assigned to the Department. If a loan is assigned to the Department due to total and permanent disability, the school must retain any loan-related documentation that it does not submit for at least 3 years from the date the loan is assigned (Electronic Announcement September 10, 2010).
- Records questioned in an audit or program review must be kept until the questions are resolved or until the end of the retention period applicable to the records, whichever is later.
Record formats, storage, etc.

A school must keep its Campus-Based program records in one of the following formats:

- The school must retain the original signed promissory notes and signed repayment schedules for Perkins/NDSL loans in a locked fireproof container. If a loan is assigned to the Department, the school must send the original promissory note or a certified copy of the note, as well as a copy of the original deferment or cancellation form(s). The school may not send computer-generated form(s) or microform(s).
- A school may keep other required records in hard copy or in microform, computer file, optical disk, CD-ROM, or other media formats, but all record information must be retrievable in a coherent hard copy format or in other media formats acceptable to the Department except that any document that contains a signature, seal, certification, or any other image or mark required to validate the authenticity of its information must be kept in its original hard copy or in an imaged media format.
- Any imaged media format used to keep required records must be capable of reproducing an accurate, legible, and complete copy of the original document, and, when printed, this copy must be approximately the same size as the original.
PERKINS REIMBURSEMENT & ASSIGNMENT

Reimbursement of Perkins fund for overpayment or default

The Department may require your school to reimburse its Perkins Loan Fund for any outstanding balance on an overpayment or a defaulted loan for which your school failed to record or retain the promissory note, record disbursements, or exercise due diligence. Your school must also reimburse the Perkins Loan Fund for the amount of the administrative cost allowance claimed on any reimbursed portion of a loan.

You do not have to reimburse the Perkins Loan Fund if your school can recover the defaulted loan or show the Department that the borrower would not have paid the loan even if your school properly exercised due diligence. Also, you should not reimburse the Perkins Loan Fund for loans on which your school obtains a judgment.

Assigning loans to FSA collections if Perkins participation ends

Your school must assign to FSA Collections all its Perkins and NDSL loans if:

- your school is closing;
- your school is withdrawing from the Federal Perkins Loan Program; or
- the Department is terminating your school’s participation in the program.

Perkins Liquidation

When a school liquidates its Perkins Loan portfolio, it must:

- Notify the Department of Education of your school’s intent to liquidate its Perkins Loan portfolio;
- Assign all of its outstanding Perkins Loans to the Department;
- Continue National Student Loan Data System reporting until all its outstanding Perkins Loans have been either fully retired, accepted for assignment, or purchased by the school;
- Return the federal share of its Perkins Loan revolving fund to the Department;
- File the final Fiscal Operation Report;
- Have an independent compliance audit conducted of all Perkins Loan funds it has received; and
- Reconcile the information that it reported on the FISAP with Department data.

After the Department completes the reconciliation process and determines that your school has satisfied the liquidation requirements, we will send a letter of approval to your school.
ADMINISTRATIVE COST ALLOWANCE

A school participating in the Campus-Based programs is entitled to an Administrative Cost Allowance (ACA) for an award year if it advances funds under the Perkins Loan Program, provides employment under the FWS Program, or awards grants under the FSEOG Program to students in an award year. The ACA may be used to help offset administrative costs, such as salaries, furniture, travel, supplies, and equipment. The ACA can also be used for service fees that banks charge for maintaining accounts. Computer costs associated with Perkins Loan billing may also be paid from this allowance. Schools may use the allowance to help pay the costs of administering not only the Campus-Based programs but the Federal Pell Grant Program as well. Administrative costs also cover expenses for carrying out the student consumer information services requirements.

The amount of the ACA is calculated as a percentage of the school’s expenditures to students for an award year under the Campus-Based programs.

\[
5\% \text{ of the first } \$2,750,000 \text{ of a school’s Campus-Based expenditures to students} \]

\[+\]

\[4\% \text{ of Campus-Based expenditures greater than } \$2,750,000 \text{ but less than } \$5,500,000\]

\[+\]

\[3\% \text{ of Campus-Based expenditures greater than } \$5,000,000\]

When a school calculates its ACA for the award year, the school is to include in its calculation the full amount of its FSEOG awards—both the 75% federal share and the required 25% nonfederal share. However, a school that chooses to provide more than a 25% institutional share to FSEOG recipients may not include an FSEOG institutional share in excess of 25% in its FISAP or in the calculation of its ACA.

If a school makes no match after receiving a waiver of its required institutional share for the FSEOG Program or the FWS Program, that school’s ACA may be calculated only on the full federal portion of its awards for those programs.

The school takes the ACA out of the annual authorizations the school receives for the FSEOG and FWS programs and from the available cash on hand in its Perkins Loan fund. It is not a separate allowance sent to the school. A school may draw its allowance from any combination of Campus-Based programs, or it may take the total allowance from only one program provided there are sufficient funds in that program. However, a school may
not draw any part of its allowance from a Campus-Based program unless the school has disbursed funds to students from that program during the award year. If a school charges any ACA against its Perkins Loan fund, it must charge these costs during the same award year in which the expenditures for these costs were made.

Your school may use up to 10% of the ACA, as calculated above, as attributable to its expenditures under the FWS Program to pay the administrative costs of conducting its program of community service. These costs may include:

- developing mechanisms to assure the academic quality of a student’s experience;
- assuring student access to educational resources, expertise, and supervision necessary to achieve community service objectives; and
- collaborating with public and private nonprofit agencies and programs assisted under the National and Community Service Act of 1990 in the planning, development, and administration of these programs.

Some schools do not claim an ACA so that all the funds can be used for student awards. This option is the school’s decision.

---

Using ACA to train FWS tutor

A school may use a portion of its administrative cost allowance (ACA) to cover the costs of training an FWS tutor. A school may also use a portion of its ACA to cover expenses that are related to employing a student as a tutor with a local school district and that the school may not incur with another organization. If, for example, a school district requires all employees to undergo a background check and be fingerprinted at a cost of $40 per employee, the postsecondary school may use a portion of its ACA to cover this cost. The FWS Program does not provide for any additional funds beyond the ACA for technical assistance and training of tutors.
Operating a Federal Work-Study Program

This chapter covers issues specific to operating a Federal Work-Study (FWS) program, including Community Service, Job Location and Development, and Work-College programs. For student eligibility criteria relating to Campus-Based programs, including FWS, refer to Volume 1. For information on selecting Campus-Based recipients, and calculating and packaging Campus-Based awards, see Volume 3. For information on disbursing FWS funds, see Volume 4.

FWS JOBS & EMPLOYERS

A student may be employed under the FWS program by the school in which the student is enrolled (on-campus). You may also arrange for your school’s FWS recipients to be employed off-campus by—

- federal, state, or local public agencies, or
- certain private nonprofit or for-profit organizations.

Off-campus FWS jobs with federal, state, or local public agencies or private nonprofit organizations must be in the public interest.

Off-campus FWS jobs with private, for-profit organizations must be academically relevant to the maximum extent possible. Also, your school must use at least 7% of its FWS allocation to employ students in community service jobs with at least one FWS student employed as a reading tutor for children in a reading tutoring project or performing family literacy activities in a family literacy project.

A school must make FWS jobs reasonably available to all eligible students at the school. To the maximum extent practicable, a school must provide FWS jobs that complement and reinforce each recipient’s educational program or career goals.

In assigning an FWS job, a school must consider the student’s financial need, the number of hours per week the student can work, the period of employment, the anticipated wage rate, and the amount of other assistance available to the student. While there is no minimum or maximum award, the amount for each student should be determined based on these factors.

CHAPTER 2 HIGHLIGHTS

- FWS jobs & employers
- Employment conditions & limitations
  - Wages
  - Disasters—flexible use of funds
  - General restrictions
- FWS jobs & periods of enrollment/nonenrollment
- Community service jobs
- Work for a proprietary school
- Work on campus
- Work off-campus
  - Nonprofit or government agency
  - Off-campus agreements
  - Employing FWS students as tutors
- JLD programs
  - Fund limitations and allowable costs
  - Multi-institutional JLD programs
- Work colleges program
- Appendices:
  - Model Off-Campus Agreement;
  - NEED Assessment for FWS Community Service

Related information

- Since most business offices have to consult the disbursement rules for all FSA funds being disbursed to a single student, information on disbursement of FWS and garnishment of wages is found in Volume 4 of the FSA Handbook (Processing Aid & Managing FSA Funds).
- Similarly, the rules for awarding and packaging FWS funds are discussed with the other FSA programs (Volume 3), since the financial aid office is responsible for awarding and packaging all FSA program funds using similar rules.
EMPLOYMENT CONDITIONS AND LIMITATIONS

FWS employment must be governed by employment conditions, including pay, that are appropriate and reasonable according to the type of work performed, the geographic region, the employee’s proficiency, and any applicable federal, state, or local law.

Wages

FWS employers must pay students at least the federal minimum wage in effect at the time of employment. If a state or local law requires a higher minimum wage, the school must pay the FWS student that higher wage. (See sidebar for link to federal and state information.)

A student’s need places a limit on the total FWS earnings permissible but has no bearing on his or her wage rate. It is not acceptable to base the wage rate on need or on any other factor not related to the student’s skills or job description. If a student’s skill level depends on his or her academic advancement, the school may pay a student on that basis. For example, a junior or third-year lab student may be paid a higher rate than a sophomore or second-year lab student. However, in most cases, students performing jobs comparable to those of other employees should be paid comparable wages, whether the other employees are students at different class levels or are regular employees.

Disasters—flexible use of funds

An eligible school located in any area affected by a major disaster may make FWS payments to disaster-affected students for the period of time (not to exceed the award period) in which the students were prevented from fulfilling their FWS obligations. The FWS payments—

- May be made to disaster-affected students* for an amount equal to or less than the amount of FWS wages the students would have been paid had the students been able to complete the work obligation necessary to receive the funds; and
- Must meet the FWS matching requirements described in Chapter 1, unless those requirements are waived by the Department.

FWS payments may not be made to a student who was not eligible for FWS, was not completing the work obligation necessary to receive the funds, or had already separated from their employment prior to the occurrence of the major disaster.

34 CFR 675.18(i)

* Disaster-affected student—a student enrolled at an institution who 1) received an FWS award for the award period during which a major disaster occurred; 2) earned FWS wages from an institution for that award period; 3) was prevented from fulfilling his or her FWS obligation for all or part of the FWS award period because of the major disaster; and 4) was unable to be reassigned to another FWS job.

The term “major disaster” means: any natural catastrophe (including any hurricane, tornado, storm, high water, wind driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought), or, regardless of cause, any fire, flood, or explosion, in any part of the United States, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster assistance under this chapter to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby.

—Section 102(2) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122(2)
General restrictions on employment

FWS employment must not displace employees (including those on strike) or impair existing service contracts. Also, if the school has an employment agreement with an organization in the private sector, the organization’s employees must not be replaced with FWS students. Replacement is interpreted as displacement.

FWS positions must not involve constructing, operating, or maintaining any part of a building used for religious worship or sectarian instruction. In determining whether any FWS employment will violate this restriction, a school should consider the purpose of the part of the facility in which the work will take place and the nature of the work to be performed. For example, if the part of the facility in which the student will work is used for religious worship or sectarian instruction, the work cannot involve construction, operation, or maintenance responsibilities. If that part of the facility is not being used for religious worship or sectarian instruction, the school should make sure that any work the student will perform meets general employment conditions and that other limitations are not violated.

Neither a school nor an outside employer that has an agreement with the school to hire FWS students may solicit, accept, or permit the soliciting of any fee, commission, contribution, or gift as a condition for a student’s FWS employment. However, a student may pay union dues to an employer if they are a condition of employment and if the employer’s non-FWS employees must also pay dues.

The Fair Labor Standards Act of 1938, as amended, prohibits employers (including schools) from accepting voluntary services from any paid employee. Any student employed under FWS must be paid for all hours worked.

Federal share may not be used to provide fringe benefits

The federal share may not be used to provide fringe benefits such as sick leave, vacation pay, or holiday pay, or employer’s contributions to Social Security, workers’ compensation, retirement, or any other welfare or insurance program. These restrictions on the federal share apply even when the Department authorizes a federal share of 100% of FWS wages.

Earning academic credit & compensation for FWS jobs

A student may earn academic credit as well as compensation for FWS jobs. Such jobs include but are not limited to internships, practica, assistantships (e.g., research or teaching assistantships), and service learning programs. However, a student employed in an FWS job and receiving academic credit for that job may not be:

- paid less than he or she would be if no academic credit were given;
- paid for time while receiving instruction in a classroom, laboratory, or other academic setting; and
- paid unless the employer would normally pay a non-FWS person for the same job.
**FWS JOBS & PERIODS OF ENROLLMENT/NONENROLLMENT**

**FWS earnings for the next period of enrollment**

Many FWS students must pay the bulk of their education costs in the beginning of each period of enrollment before they have had a chance to earn FWS wages. To provide the opportunity to earn wages before incurring education costs, the Department allows students to earn FWS wages to cover expenses for the next period of enrollment offered by the school.

The student must be planning to enroll for that next period and must demonstrate financial need for it. The next period of enrollment is usually the next term, including a summer period, or in the case of summer earnings, the next full academic year. A student may earn FWS wages toward the next period of enrollment during any period, including during a period of nonattendance (see below) or a period of enrollment made up, in whole or in part, of mini-sessions.

**Periods of nonattendance for FWS students**

If a school combines a series of mini-sessions or modules into one term (e.g., three summer mini-sessions into one summer term), an FWS student attending any of the mini-sessions may earn FWS wages at any time throughout that term. The school may apply these earnings toward the student’s financial need for the mini-session(s) attended or the next period of enrollment. The school must base the student’s financial need for attending the summer term on the period of time for which the student is actually enrolled in the mini-sessions.

The amount of FWS wages a student may earn at any point in the term does not depend on whether the student is then enrolled in a mini-session. The school or student may choose how to distribute the hours worked throughout the summer term.

A student who was not attending school in the summer but who was eligible for summer FWS employment because he anticipated being enrolled in the fall may fail to then attend school. When a student fails to attend for the next period of enrollment, the school that employed him must be able to demonstrate that he was eligible for employment and that the school had reason to believe the student intended to study at that school in the next period of enrollment. At a minimum, the school that employed the student must keep a written record in its files showing that he had accepted the school’s offer of admittance for the next period of enrollment.
COMMUNITY SERVICE JOBS

Your school must use at least 7% of its FWS allocation to employ students in community service jobs. Community Service jobs can be either on-campus or off-campus. Nonprofit agencies can qualify as community service employers if the work performed meets the definition of community services in the regulations. See the list of programs and activities that are recognized as appropriate work in community services at the end of this section. (Note that private, for-profit organizations do not qualify as employers for community service under the FWS Program.)

At least one of the FWS students your school employs to fulfill this requirement must:

• perform family literacy activities in a family literacy project that provides services to families with preschool age children or elementary school children; or
• serve as a reading tutor for children who are preschool age or are in elementary school.

To further encourage schools to employ FWS students in these positions and as mathematics tutors, FWS regulations authorize a 100% federal share of FWS wages. (See Chapter 1 for more information about Community Service funding and employment requirements, and waivers.)

Employing an FWS student in these positions serves the needs of the community and gives the FWS student an enriching and rewarding experience.

Schools must inform students of FWS community service opportunities available in the local community. The Program Participation Agreement also requires your school to work with local nonprofit, governmental, and community-based organizations to identify community service opportunities, including those that assist supportive services to students with disabilities. Schools should promote these opportunities to students by notifying each student individually or via general means such as campus Web sites or publications.

Community services eligible for FWS

Community services are defined as services that are identified by an institution of higher education through formal or informal consultation with local nonprofit, government, and community-based organizations, as designed to improve the quality of life for community residents, particularly low-income individuals, or to solve particular problems related to their needs. These services include:

• such fields as health care, child care, literacy training, education (including tutorial services), welfare, social services, transportation, housing and neighborhood improvement, public safety, crime prevention and control, recreation, rural development, community improvement, and emergency preparedness and response;
• work in service opportunities or youth corps under Americorps, and service in the agencies, institutions, and activities described in the box to the left;

• support services for students with disabilities (including students with disabilities who are enrolled at the school*); and

• activities in which an FWS student serves as a mentor for such purposes as tutoring (see below), supporting educational and recreational activities, and counseling, including career counseling.

To be considered employed in a community service job for FWS purposes, an FWS student does not have to provide a “direct” service. The student must provide services that are designed to improve the quality of life for community residents or to solve particular problems related to those residents’ needs. A school may use its discretion to determine what jobs provide service to the community, within the guidelines provided by the statute, regulations, and this Handbook. See Appendix B at the end of this chapter for a model need assessment form that can be used with community service agencies.

There is no restriction as to whether these jobs must be on or off-campus. However, a university or college is not considered a community for the purposes of the FWS community service requirements. On-campus jobs can meet the definition of community services, provided that the services are designed to improve the quality of life for community residents, or to solve problems related to their needs, and that they meet the regulatory and statutory provisions pertaining to the applicable FWS employment limitations and conditions.

**Employing FWS students as tutors**

Many schools employ FWS students as reading or mathematics tutors. This type of employment allows students to help children develop reading or mathematics skills necessary for their education and future employment.

There is no limit on the amount of funds a school can spend from its FWS allocation to pay FWS reading or mathematics tutors. When employing students as reading tutors, schools must, to the maximum extent possible, give placement priority to schools that are participating in a reading reform project that is (1) designed to train teachers how to teach reading on the basis of scientific research on reading; and (2) is funded under the Elementary and Secondary Education Act of 1965. The school must further ensure that reading tutors receive training from the employing school in the instructional practices used by the school.

*This is the only statutory exception to the requirement that community service be open and accessible to the community.
Community service: service opportunities, youth corps programs, other programs & activities

The definition of community services for FWS includes work in "service opportunities" or "youth corps," as defined in Section 101 of the National and Community Service Act of 1990.

Service opportunity. A program or project, including a service learning program or project, that enables students or out-of-school youth to perform meaningful and constructive service in agencies, institutions, and situations where the application of human talent and dedication may help to meet human, educational, linguistic, and environmental community needs, especially those relating to poverty.

Youth corps program. A program, such as a conservation corps or youth service program, that offers full-time, productive work (to be financed through stipends) with visible community benefits in a natural resource or human service setting and that gives participants a mix of work experience, basic and life skills, education, training, and support services.

The definition of “community services” also includes service in agencies, institutions, and activities that are designated in Section 124(a) of the National and Community Service Act of 1990. These include the following conservation corps and human services corps programs, as well as programs that encompass the focus and services of both.

Conservation corps programs
Conservation corps programs that focus on:

- conservation, rehabilitation, and the improvement of wildlife habitat, rangelands, parks, and recreation areas;
- urban and rural revitalization, historical and site preservation, and reforestation of both urban and rural areas;
- fish culture, wildlife habitat maintenance and improvement, and other fishery assistance;
- road and trail maintenance and improvement;
- erosion, flood, drought, and storm damage assistance and controls;
- stream, lake, waterfront harbor, and port improvement;
- wetlands protection and pollution control;
- insect, disease, rodent, and fire prevention and control;
- the improvement of abandoned railroad beds and rights-of-way;
- energy conservation projects, renewable resource enhancement, and recovery of biomass;
- reclamation and improvement of strip-mined land;
- forestry, nursery, and cultural operations; and
- making public facilities accessible to individuals with disabilities.

See 34 CFR 675.2 Definitions; “Community Service”

Human services corps programs
Human services corps programs that include service in:

- state, local, and regional government agencies;
- nursing homes, hospices, senior centers, hospitals, local libraries, parks, recreational facilities, child and adult daycare centers, programs serving individuals with disabilities, and schools;
- law enforcement agencies and penal and probation systems;
- private nonprofit organizations that primarily focus on social service such as community action agencies;
- activities that focus on the rehabilitation or improvement of public facilities; neighborhood improvements; literacy training that benefits educationally disadvantaged individuals; weatherization of and basic repairs to low-income housing, including housing occupied by older adults, energy conservation (including solar energy techniques); removal of architectural barriers to access by individuals with disabilities to public facilities; activities that focus on drug and alcohol abuse education, prevention and treatment; and conservation, maintenance, or restoration of natural resources on publicly held lands; and
- any other nonpartisan civic activities and services that the commission determines to be of a substantial social benefit in meeting unmet human, educational, or environmental needs (particularly needs related to poverty) or in the community where volunteer service is to be performed.
What is a Family Literacy Project? How are Family Literacy activities defined?

Research shows that children whose parents work with them on literacy skills during early childhood have a better chance of reading well and independently. The family literacy concept recognizes the family as an institution for education and learning and the role of parents as their children's first teachers.

A family literacy program integrates four components. It provides:

- literacy or pre-literacy education to children,
- literacy training for parents or other caregivers of children in the program,
- a means of equipping parents or other caregivers with the skills needed to partner with their children in learning, and
- literacy activities between parents or other caregivers and their children.

This definition is consistent with the Even Start and Head Start definitions of family literacy programs.

The Department does not define “family literacy activities” for purposes of the community service expenditure requirement or the waiver of the institutional share requirement. The Department gives schools reasonable flexibility to determine the job description and duties for an FWS student performing family literacy activities.

**Family literacy activities are not limited to just tutoring positions.** For example, family literacy activities may include training tutors, performing administrative tasks such as coordinating the tutors, or working as an instructional aide who prepares the materials for the project. However, it would not be reasonable to include janitorial or building repair jobs as family literacy activities.

ESTABLISHING FWS COMMUNITY SERVICE JOBS

In contacting potential community service agencies, schools should place a priority on jobs that will meet the human, educational, environmental, and public safety needs of low-income individuals.*

**Step #1: Identify Potential Jobs and Employers**

Identify jobs

- Brainstorm types of jobs that would meet the community service requirement. What jobs do your students currently hold, on campus or off-campus, that meet the community service definition?
- Communicate the community service requirements to your school’s student employment office.

Identify employers

- Which local community service organizations might be interested in employing your FWS students?
- Contact local nonprofit, government, and community-based organizations to assess their needs and determine what interest exists for employing FWS students.

Talk to colleagues

- Talk to colleagues at other schools to get ideas on implementing, locating, and developing the community service jobs.

**Step #2: Research Your Students’ Interest in Community Service**

- Research your FWS students’ degrees or certificate programs, interests, and skills to determine which recipients might find community service jobs appealing.

**Step #3: Promote Community Service Jobs**

- Devise a plan to market community services under the FWS Program to eligible student employers and the community;
- obtain a listing of potential community service agencies;
- ask to be a presenter at various organizations’ meetings;
- engage in networking activities;
- hold and attend job fairs;
- host a financial aid office “open house;” and
- visit local agencies.

* There is no formal definition of “low-income individuals” for this purpose, and there is no statutory requirement that a particular number or proportion of the individuals must be low-income persons. Some examples of jobs that provide services to persons in the community who may not necessarily be low-income individuals are jobs that provide supportive services to individuals with disabilities or that prevent or control crime in the community.
WORK ON CAMPUS (SCHOOL IS EMPLOYER)

A student may be employed on campus at any type of postsecondary institution, including at a proprietary school.

A school, other than a proprietary school, may employ a student to work for the school itself, including certain services for which the school may contract, such as food service, cleaning, maintenance, and security. Work for the school’s contractors is acceptable as long as the contract specifies the number of students to be employed and specifies that the school selects the students and determines their pay rates.

A proprietary school also may employ a student to work for the school itself with certain restrictions (discussed below under “Work for Proprietary School”).

At any type of postsecondary institution, including proprietary schools, an FWS student may be assigned to assist a professor if the student is doing work the school would normally support under its own employment program. Having a student serve as a research assistant to a professor is appropriate, as long as the work is in line with the professor’s official duties and is considered work for the school itself.

Work for proprietary school

A proprietary school may employ a student to work for the school itself but only in jobs that meet certain criteria.

If the jobs are in community service, they may be either on or off-campus. Students employed by a proprietary school and performing community service do not have to furnish student services that are directly related to their education.

If the jobs are not in community service, they must be on campus and must provide student services that are directly related to the FWS student’s training or education. To the maximum extent possible, the job must complement and reinforce the FWS student’s educational program or vocational goals. The job may not involve soliciting potential students to enroll at the proprietary school.

In general, jobs that primarily benefit the proprietary school are not student services. For example, jobs in facility maintenance or cleaning are never student services. See the sidebar for a list of examples of jobs that do not provide student services. Again, this list is not exhaustive. Jobs in the admissions or recruitment area of a school are not acceptable student services because such jobs are considered to involve soliciting potential students to enroll at the school.

The non-community service job must provide student services that are directly related to the FWS student’s training or education. This does not mean that the FWS student must be enrolled in an academic program for that field. Instead, it means that the FWS student must be receiving work experiences that are directly applicable to the skills needed for his or her career path. For example, an FWS student enrolled in an air-conditioning
repair program wants to work in the school’s library. Although the student is not pursuing a career as a librarian, the student would still be able to work in the library. The job is directly related to his or her training because he or she is learning customer service and basic office functions that are applicable to work in an air-conditioning repair shop or dealership. Similarly, a job in another student service office such as financial aid, registrar, and job placement would also be considered directly related to the FWS student’s training.

Student services are services that are offered to students. Students are persons enrolled or accepted for enrollment at the school. An FWS student who provides services only to the school’s former students is not providing student services because the services are not offered to currently enrolled students. However, an FWS student who provides services to both current students and former students is providing student services, because the services are offered to currently enrolled students. For example, an FWS student provides job placement assistance to current students and alumni of the school. The FWS student is considered to be providing student services because his or her services are offered to current students, as well as alumni.

Student services do not have to be direct services or involve personal interaction with other students. Services are considered student services if the services provide a benefit either directly or indirectly to students. For example, an FWS student may work in assisting an instructor in the lab or in other work related to the instructor’s official academic duties at the school. See the sidebar for an expanded list of examples of jobs that provide student services. The list is not exhaustive. The fact that a job has some operational functions does not preclude it from being an acceptable FWS job as long as it furnishes student services.

**Student services**

Student services may include:
- jobs in financial aid
- jobs in a library
- peer guidance counseling
- job placement
- assisting an instructor with curriculum-related activities (e.g., teaching assistant)
- security
- social and health services
- tutoring

Student services never include:
- facility maintenance
- cleaning
- purchasing
- public relations

34 CFR 675.2(b)
WORK OFF-CAMPUS

A postsecondary school (including a proprietary school) may use FWS funds to pay a portion of the wages of a student who is employed off campus by certain nonprofit agencies or private employers.

Work off-campus for nonprofit or government agency

If a student is employed off-campus by a federal, state, or local public agency or by a private nonprofit organization, providing jobs related to the student’s academic or vocational goals is encouraged, but not required.

A private nonprofit organization is one in which no part of the net earnings of the agency benefits any private shareholder or individual. An organization must be incorporated as nonprofit under federal or state law. A school classified as a tax-exempt organization by either the federal or state Internal Revenue Service meets this requirement. Examples of private nonprofit organizations generally include hospitals, daycare centers, halfway houses, crisis centers, and summer camps.

Work must be “in the public interest”

Work performed off-campus must be in the public interest. Work in the public interest is defined as work performed for the welfare of the nation or community, rather than work performed for a particular interest or group.

Work is not “in the public interest” if:

- it primarily benefits the members of an organization that has membership limits, such as a credit union, a fraternal or religious order, or a cooperative;
- it involves any partisan or nonpartisan political activity or is associated with a faction in an election for public or party office;
- it is for an elected official unless the official is responsible for the regular administration of federal, state, or local government;
- it is work as a political aide for any elected official;
- it takes into account a student’s political support or party affiliation in hiring him or her; or
- it involves lobbying on the federal, state, or local level.

Political activity, whether partisan or nonpartisan, does not qualify as work in the public interest. For example, a student is not considered to be working in the public interest if working at voting polls—even if he or she only checks off the names of those who came to vote and does not pass out flyers supporting a particular candidate. Also, a student is not considered to be working in the public interest if working to support an independent candidate. Another example of nonpartisan political activity is work for a city political debate.

Working for an elected official as a political aide also does not qualify as work in the public interest. For example, a student could not represent a member of Congress on a committee. However, a student could be assigned
to the staff of a standing committee of a legislative body or could work on a special committee, as long as the student would be selected on a nonpartisan basis and the work performed would be nonpartisan.

Under certain circumstances, work for an elected official responsible for the regular administration of federal, state, or local government may be considered to be in the public interest. "Regular administration" means the official is directly responsible for administering a particular function. Such a person would not create, abolish, or fund any programs, but would run them. Working for a sheriff would be acceptable, as would working for an elected judge (because he or she has direct responsibility for the judicial system).

As stated above, any political activity would not be acceptable—raising funds for the official’s reelection, for example. An FWS position that involves lobbying at the federal, state, or local level is not work in the public interest. FWS students are prohibited from working for the Department of Education due to the potential appearance of conflict of interest.

Work off-campus for private for-profit companies

Schools also may enter into agreements with private for-profit companies to provide off-campus jobs for students; however, these jobs must be academically relevant, to the maximum extent practicable, to the student’s program of study. (A student studying for a business administration degree could work in a bank handling customer transactions, for example.) Private for-profit organizations do not qualify as employers for community service under the FWS Program.

Off-campus agreements

If your school would like an off-campus organization to employ FWS students, your school must enter into a written agreement—a contract—with the off-campus organization. A written agreement is required with the off-campus organization even if your school is considered the employer of the FWS student. The school must make sure the off-campus organization is a reliable agency with professional direction and staff and that the work to be performed is consistent with the purpose of the FWS Program. (See Appendix A at the end of this chapter for a model off-campus agreement. The model need not be followed exactly but serves as a guide.)

The agreement should specify what share of student compensation and other costs will be paid by the off-campus organization. For-profit organizations must pay the nonfederal share of student earnings. Any off-campus organization may pay:

- the nonfederal share of student earnings;
- required employer costs, such as the employer’s share of Social Security or workers’ compensation; and
- the school’s administrative costs not already paid from its Administrative Cost Allowance (ACA).
The agreement sets forth the FWS work conditions and establishes whether the school or the off-campus organization will be the employer for such purposes as hiring, firing, and paying the student. The employer is generally considered to be the entity that will control and direct the work of the FWS students—supervising them at the work site, regulating their hours of work, and generally ensuring that they perform their duties properly. However, the school is ultimately responsible for making sure that payment for work performed is properly documented and that each student’s work is properly supervised.

The agreement should define whether the off-campus organization will assume payroll responsibility and bill the school for the federal share of the students’ wages, or whether the school will pay the students and bill the off-campus organization for its contribution. The school must make up any payments the off-campus organization does not make. It is the school’s responsibility to ensure that FWS payments are properly documented, even if the off-campus organization does the payroll. To fulfill that responsibility, the school must keep copies of time sheets and payroll vouchers and keep evidence that the students were actually paid (usually copies of the canceled checks or receipts signed by the students). Payroll records are discussed in detail later in this chapter.

The school is also responsible for ensuring that each student’s work is properly supervised. School officials should periodically visit each off-campus organization with which they have an off-campus agreement to determine whether students are doing appropriate work and whether the terms of the agreement are being fulfilled.

The agreement must state whether the school or off-campus organization is liable for any on-the-job injuries to the student. The employer is not automatically liable. Federal FWS funds cannot be used to pay an injured student’s hospital expenses.

In determining whether to continue an off-campus agreement, many schools have found it helpful to require that students submit a formal evaluation of their work experience at the end of the assignment. The school may also use the evaluation to help off-campus agencies improve their work programs.

Staff members of the off-campus organization must become acquainted with a school’s financial aid and student employment programs to better understand the school’s educational objectives. The school must supply the off-campus organization with this information.

Rules for private for-profit organizations
Private for-profit organizations may not hire FWS employees to replace regular employees. Also note that the federal share of FWS wages paid to a student working for a private for-profit organization may not exceed 50% (see Chapter 1).

Work in the public interest: examples
In deciding whether work is in the public interest, schools must consider the nature of the work as well as that of the organization. For example, a private nonprofit civic club may employ a student if the student’s work is for the club’s community drive to aid handicapped children. If the student’s work is confined to the internal interests of the club, such as a campaign for membership, the work would benefit a particular group and would not be in the public interest. As another example, a student may work for a private nonprofit membership organization, such as a golf club or swimming pool, if the general public may use the organization’s facilities on the same basis as its members. If only members may use the facilities, FWS employment is not in the public interest.
EMPLOYING FWS STUDENT AS TUTORS: FAQs

What are the requirements for a “reading tutor” or “math tutor?”

The Department does not define “tutor” for the FWS Program. This gives schools flexibility in determining the job description and duties of a tutor. For example, a reading tutor could be an FWS student who reads to a group of preschoolers in a public library.

An FWS student employed as a tutor does not have to meet certain statutory (for reading tutors) or regulatory (for reading and mathematics tutors) educational standards or qualifications for the school to receive an institutional-share waiver. However, an FWS reading or math tutor must have adequate reading or math skills, as appropriate, and the Department strongly recommends that the tutors be well trained before they tutor.

The Department does not require background checks of FWS tutors. However, some state and local jurisdictions may require such checks. The requirements will vary according to the agency or organization involved.

What is a preschool age child?

A preschool age child is a child from infancy to the age at which his or her state provides elementary education.

What is the definition of an elementary school?

The definition of an elementary school varies from state to state. Because the Department does not wish to interfere with a state’s determination of what constitutes children who are in elementary school, we will not provide guidance on the maximum grade level for elementary school for purposes of the institutional-share waiver for tutoring.

What setting must the tutoring take place in?

Tutoring may be one-on-one or in a group. Tutoring sessions can take place in a school setting or another location, such as a public library or community center. Tutoring sessions can be held during regular school hours, after school, on weekends, or in the summer.

Can FWS students tutor children in parochial schools?

An FWS student can tutor a child in a parochial school under certain conditions:

- The parochial school must be classified as a private, nonprofit school by the Internal Revenue Service or a state taxing body;
- The work may not involve constructing, operating, or maintaining any part of a building used for religious worship or sectarian instruction; and
- The FWS tutor may not use religious material to tutor the child.

Should tutors be trained?

The Department strongly recommends that the tutors be well trained before they tutor. When an FWS student receives training from a specialist or expert for sufficient duration and intensity, he or she is more likely to be successful with the child he or she is tutoring. Tutor training should emphasize the importance of the tutor’s communication with the regular classroom teacher to maximize effectiveness. The amount and type of training will often vary, depending on the needs of the child who is being tutored and the subject being studied. (See Chapter 1 for information on using the administrative cost allowance to pay for the cost of training tutors.)
Can students be paid while in training?

Under limited circumstances, an FWS tutor can receive FWS wages while he or she is being trained, and these wages can qualify for a waiver of the institutional share. This training period must be only for a reasonable and limited length of time. The Department would not consider a training period of an academic term to be reasonable. The Department would consider a reasonable training period to be one that occurs before the student begins tutoring and that does not exceed approximately 20 hours. A school may not pay an FWS student to take an academic course the school developed to provide classroom training on tutoring children. An FWS student may take such a course as long as he or she is not paid for taking the course (34 CFR 675.18(h)). See Chapter 4 for more information.

Can students be paid during preparation and evaluation activities?

The preparation time and evaluation time worked by an FWS tutor qualify for a 100% federal share as long as the time spent for this purpose is reasonable. For example, the Department would consider attending evaluation and preparation meetings once a week for approximately one hour to be reasonable. The Department wants to give some flexibility because of the value of evaluation and preparation time. However, the goal is to spend funds for FWS students to interact with the children in family literacy programs, not for other activities.

Will a tutoring job always satisfy the community service requirement?

An FWS tutor job might qualify for a waiver of the institutional share (100% federal share) but not qualify as part of the 7% community service requirement. If, for example, a postsecondary school employs FWS students to tutor young children in its daycare center and the center is not open and accessible to the community, the job would qualify for the waiver, but would not qualify as part of the 7% community service requirement.

What if the FWS student is training tutors, performing related administrative tasks, or works another FWS job?

The wages of an FWS student who is training tutors or who is performing administrative tasks related to supporting other people who are actually providing the reading or mathematics tutoring do not qualify for a federal share of up to 100%; rather, an institutional share is required.

Remember that it is the FWS reading or mathematics tutor job, not the student working in the job, that qualifies for the institutional-share waiver. Thus, an FWS student who is working another FWS job in addition to the tutor job can be paid with 100% federal funds only for the time he or she is working as a tutor, not for time spent on the other job. If, for example, an FWS student spends only half of his or her time working as a reading tutor (including preparation and evaluation time) and the other half on non-tutoring tasks, the student may be paid 100% federal funds only for half the time and the other half must be paid with a maximum of 75% federal funds and a minimum of 25% nonfederal funds.

How can my school start placing FWS students as tutors?

Your school may construct its own reading tutor program or join existing community programs.

You may use the Job Location and Development (JLD) Program to locate or develop jobs for FWS students as tutors of children. However, you may not use JLD funds exclusively for this purpose because you would be in violation of the JLD statutory requirement to expand off-campus jobs for currently enrolled students who want jobs regardless of their financial need.
JOB LOCATION AND DEVELOPMENT PROGRAM

The Job Location and Development (JLD) Program is a part of the FWS Program. An institution is allowed to use part of the federal funds it receives under the FWS Program to establish or expand a JLD Program.

The JLD Program locates and develops off-campus job opportunities for students who are currently enrolled in eligible institutions of higher education and who want jobs regardless of financial need. This means that jobs may be located and developed under the JLD Program for FWS and non-FWS eligible students.

Under the JLD Program, your school must locate and develop off-campus jobs that are suitable to the scheduling and other needs of the employed student and must, to the maximum extent practicable, complement and reinforce the educational program or vocational goal of the student.

JLD jobs may be part-time or full-time, for either a for-profit or nonprofit employer.

JLD Program participation

A school that participates in the FWS Program is also eligible to participate in the JLD Program. A school that has an executed Program Participation Agreement (PPA) for the FWS Program may participate in the JLD Program without any prior contact with the Department and without any revision to its PPA. Under the PPA, the school agrees to administer the JLD Program according to the appropriate statutory and regulatory provisions.

If the Department terminates or suspends a school’s eligibility to participate in the FWS Program, that action also applies to the school’s JLD Program.

Student eligibility

Any student employed in a job developed under the JLD Program must be currently enrolled at the school placing him or her in a job. A school may place in JLD jobs both students who do not meet FWS student eligibility criteria and those who do meet those criteria. However, using JLD funds to find jobs only for FWS students would not satisfy the program purpose of expanding off-campus jobs for students who want jobs regardless of financial need.

Use of FWS allocation for JLD Program

When establishing or expanding a program to locate and develop off-campus jobs, including community service jobs, a school may use up to the lesser of the following two amounts:

- 10% of its FWS allocation and reallocation; or
- $75,000.
Use of JLD Program funds

Your school may use federal JLD funds to pay for the cost of establishing and administering the JLD Program. You may not use JLD funds to:

- pay students whose jobs were located and developed through the JLD Program;
- locate and develop jobs at your school or other eligible schools;
- place students upon graduation; and
- displace employees or impair existing service contracts.

A school is expected to generate total student wages exceeding the total amount of the federal funds spent under JLD.

Federal share limitation

You may use federal FWS funds to pay up to 80% of the allowable costs (listed below). Your school must provide the remaining 20% of allowable costs either in cash or in services. This requirement, unlike the institutional-share requirement for FWS earnings, cannot be waived.

Your school’s 20% share may be either (1) 20% of each allowable cost, or (2) varying percentages of allowable costs, as long as its total expenditures of institutional funds and/or provision of services equals at least 20% of the total allowable costs for the JLD Program.

You must maintain records that indicate the amount and sources of your school’s matching share. Procedures and records requirements for JLD are the same as those for all Campus-Based programs.

Allowable program costs

Allowable costs of carrying out the JLD Program include:

- staff salaries (and fringe benefits, if they are the same as those paid to other institutional employees in comparable positions and are not paid to a student employed through the FWS Program);
- travel expenses related to JLD activities;
- printing and mailing costs for brochures about the JLD Program;
- JLD telephone charges, including installation of a separate line for off-campus employers;
- JLD costs for supplies, equipment, and furniture;
- newspaper or other types of advertising that inform potential employers of the services JLD offers; and
- JLD workshops for students and employers.

Costs that are not allowable are costs related to purchasing, constructing, or altering the facilities that house a JLD project. Indirect administrative costs also are not allowable. One example of an indirect administrative cost is a portion of the salary of someone who is not directly involved in the program, such as the JLD director’s supervisor. Other examples of indirect...
JLD reporting on the FISAP

If your school participates in the JLD Program during an award year, you must provide information about its JLD activities on the Fiscal Operations Report and Application to Participate (FISAP). You must report the total JLD expenditures, federal expenditures for JLD, institutional expenditures for JLD, number of students for whom jobs were located or developed, and total earnings for those students. Your school may not include student staff jobs in the JLD Office on the FISAP in the JLD section for reporting the count of students and the earnings of students for whom jobs were located or developed through the JLD Program. However, if your school used its own funds to pay the institutional share of wages for student staff jobs, you may count those funds in meeting the minimum 20% institutional-share requirement for the JLD Program.

Multi-institutional programs
cite
34 CFR 675.34

administrative costs are lighting, heating, or custodial costs incurred as part of the normal operations of the facility in which the JLD program is administered, such as the financial aid or placement offices.

Students as staff in the JLD Program office

The prohibition against using JLD funds to locate and develop jobs at any school does not mean that your school is also prohibited from employing FWS and non-FWS students as staff in the JLD Program office. Your school may employ FWS and non-FWS students as staff in the JLD Program office as long as you do not use JLD funds to locate and develop these jobs. For example, your school could use the FWS Program to employ an FWS student as a staff member in the JLD Program office.

If your school places an FWS student as staff in the JLD Program office, there are some important points to note. The statute and the FWS regulations prohibit the use of any funds allocated under the FWS Program from being used to pay the institutional share of FWS compensation to its students. Hence, your school may not use federal JLD funds to pay the institutional share of FWS wages earned by an FWS student working as staff in the JLD Program office. Instead, you must use your school’s funds to pay the institutional share of these wages.

Multi-institutional JLD Programs

Your school may enter a written agreement with other eligible schools for those schools to establish and to operate a JLD Program for its students. The agreement must designate the administrator of the program and must specify the terms, conditions, and performance standards of the program. Each school that is part of the agreement retains responsibility for properly disbursing and accounting for the federal funds it contributes under the agreement.

For example, each school must show that its own students have earned wages that exceed the amount of federal funds the school contributed to locate and develop those jobs. This fiscal information must be reported on each school’s FISAP.

If your school uses federal funds to contract with another school, suitable performance standards must be part of that contract. Performance standards should reflect each school’s philosophy, policies, and goals for the JLD Program. You may not develop performance standards, conditions, or terms that are inconsistent with the statute or regulations. In all cases, the performance standards should be clearly understandable, because they will be included in the formal written agreement that each party must observe as part of its responsibility within the particular arrangement.
WORK-COLLEGES PROGRAM

Schools that satisfy the definition of “work-college” may apply to the Department to participate in the program. A work-college may transfer funds from its FWS and/or Perkins Loan allocations to fund its Work-Colleges Program.

The term “work-college” is defined as an eligible school that:

• has been a public or private nonprofit, 4-year, degree-granting institution with a commitment to community service;
• has operated a comprehensive work-learning-service program (see sidebar for definition) for at least two years;
• requires resident students, including at least one-half of all students who are enrolled on a full-time basis, to participate in a comprehensive work-learning-service program for at least 5 hours each week, or at least 80 hours during each period of enrollment (except summer school), unless the student is engaged in an school-organized or approved study abroad or externship program; and
• provides students participating in the comprehensive work-learning-service program with the opportunity to contribute to their education and to the welfare of the community as a whole.

Allowable costs

Allocated program funds may be used to:

• support the educational costs of students through self-help provided under the work-learning-service program within the limits of their demonstrated financial need;
• promote the work-learning-service experience as a tool of education and community service;
• carry out FWS and JLD program activities;
• administer, develop, and assess comprehensive work-learning-service programs;
• coordinate and carry out joint projects and activities to promote work-service learning; and
• conduct a comprehensive longitudinal study of academic progress and academic and career outcomes.

Work Colleges Program

The Higher Education Amendments of 1992 authorized the Work-Colleges Program. The Work-Colleges Program recognizes, encourages, and promotes the use of comprehensive work-learning-service programs as a valuable educational approach when used as an integral part of the school’s educational program and as a part of a financial plan that decreases reliance on grants and loans. The program also encourages students to participate in community service activities.

Purpose of Work-Colleges Program cite 34 CFR 675.43
Definition of Work-College cite 34 CFR 675.41
Application to participate in the Work-Colleges Program
E-Announcement 2/8/11

Additional citations

Additional requirements for the Work-Colleges Program are found in 34 CFR 675, Subpart C.

The Higher Education Opportunity Act of 2008 introduced the term “work-learning-service” and revised the definition of “Work College.”

HEOA section 447
HEA section 448

*Comprehensive student work-learning-service program

A student work/service program that:
• is an integral and stated part of the institution’s educational philosophy and program;
• requires participation of all resident students for enrollment and graduation;
• includes learning objectives, evaluation, and a record of work performance as part of the student’s college record;
• provides programmatic leadership by college personnel at levels comparable to traditional academic programs;
• recognizes the educational role of work-learning-service supervisors; and
• includes consequences for nonperformance or failure in the work-learning-service program similar to the consequences for failure in the regular academic program.

42 U.S.C. 2756b [HEA Section 448]
34 CFR 675.41(b)
Crediting FWS funds to student’s account & paying credit balance

675.16(b) Crediting a student’s account at the institution.

(1) If the institution obtains the student’s authorization described in paragraph (d) of this section, the institution may use the FWS funds to credit a student’s account at the institution to satisfy—

(i) Current year charges for—
   (A) Tuition and fees;
   (B) Board, if the student contracts with the institution for board;
   (C) Room, if the student contracts with the institution for room; and
   (D) Other educationally related charges incurred by the student at the institution; and

(ii) Prior award year charges with the restriction provided in paragraph (b)(2) of this section for a total of not more than $200 for—
   (A) Tuition and fees, room, or board; and
   (B) Other institutionally related charges incurred by the student at the institution.

(2) If the institution is using FWS funds in combination with other Title IV, HEA program funds to credit a student’s account at the institution to satisfy prior award year charges, a single $200 total prior award year charge limit applies to the use of all the Title IV, HEA program funds for that purpose.

(c) Credit balances.

Whenever an institution disburses FWS funds by crediting a student’s account and the result is a credit balance, the institution must pay the credit balance directly to the student as soon as possible, but no later than 14 days after the credit balance occurred on the account.

(d) Student authorizations.

(1) Except for the noncash contributions allowed under paragraph (e)(2) and (3) of this section [see previous page], if an institution obtains written authorization from a student, the institution may—

(i) Use the student’s FWS compensation to pay for charges described in paragraph (b) of this section that are included in that authorization; and

(ii) Except if prohibited by the Secretary under the reimbursement or cash monitoring payment method, hold on behalf of the student any FWS compensation that would otherwise be paid directly to the student under paragraph (c) of this section.

(2) In obtaining the student’s authorization to perform an activity described in paragraph (d)(1) of this section, an institution—

(i) May not require or coerce the student to provide that authorization;

(ii) Must allow the student to cancel or modify that authorization at any time; and

(iii) Must clearly explain how it will carry out that activity.

(3) A student may authorize an institution to carry out the activities described in paragraph (d)(1) of this section for the period during which the student is enrolled at the institution.

(4)

(i) If a student modifies an authorization, the modification takes effect on the date the institution receives the modification notice.

(ii) If a student cancels an authorization to use his or her FWS compensation to pay for authorized charges under paragraph (b) of this section, the institution may use those funds to pay only those authorized charges incurred by the student before the institution received the notice.

(iii) If a student cancels an authorization to hold his or her FWS compensation under paragraph (d)(1)(ii) of this section, the institution must pay those funds directly to the student as soon as possible, but no later than 14 days after the institution receives that notice.

(5) If an institution holds excess FWS compensation under paragraph (d)(1)(ii) of this section, the institution must—

(i) Identify the amount of funds the institution holds for each student in a subsidiary ledger account designed for that purpose;

(ii) Maintain, at all times, cash in its bank account in an amount at least equal to the amount of FWS compensation the institution holds for the student; and

(iii) Notwithstanding any authorization obtained by the institution under this paragraph, pay any remaining balances by the end of the institution’s final FWS payroll period for an award year.
Model Off-Campus Agreement

The paragraphs below are suggested as models for the development of a written agreement between a school and a Federal, State, or local public agency or a private nonprofit organization that employs students who are attending that school and who are participating in the Federal Work-Study (FWS) Program. Institutions and agencies or organizations may devise additional or substitute paragraphs as long as they are not inconsistent with the statute or regulations.

This agreement is entered into between ______________, hereinafter known as the “Institution,” and ______________, hereinafter known as the “Organization,” a (Federal, State, or local public agency), (private nonprofit organization), (strike one), for the purpose of providing work to students eligible for the Federal Work-Study Program [FWS].

Schedules to be attached to this agreement from time to time must be signed by an authorized official of the institution and the organization and must set forth—

1. brief descriptions of the work to be performed by students under this agreement;
2. the total number of students to be employed;
3. the hourly rates of pay; and
4. the average number of hours per week each student will be used.

These schedules will also state the total length of time the project is expected to run, the total percent, if any, of student compensation that the organization will pay to the institution, and the total percent, if any, of the cost of employer’s payroll contribution to be borne by the organization. The institution will inform the organization of the maximum number of hours per week a student may work.

Students will be made available to the organization by the institution to perform specific work assignments. Students may be removed from work on a particular assignment or from the organization by the institution, either on its own initiative or at the request of the organization. The organization agrees that no student will be denied work or subjected to different treatment under this agreement on the grounds of race, color, national origin, or sex. It further agrees that it will comply with the provisions of the Civil Rights Act of 1964 (Pub. L. 88-352; 78 Stat. 252) and Title IX of the Education Amendments of 1972 (Pub. L. 92-318) and the Regulations of the Department of Education which implement those Acts. Two examples of Off-Campus Agreements are included to provide additional guidance.

Where appropriate, any of the following 3 paragraphs or other provisions may be included

1. Transportation for students to and from their work assignments will be provided by the organization at its own expense and in a manner acceptable to the institution.
2. Transportation for students to and from their work assignments will be provided by the institution at its own expense.
3. Transportation for students to and from their work assignments will not be provided by either the institution or the organization.
Sample language to specify employer

Whether the institution or the organization will be considered the employer of the students covered under the agreement depends upon the specific arrangement as to the type of supervision exercised by the organization. It is advisable to include some provision to indicate the intent of the parties as to who is considered the employer. As appropriate, one of the following two paragraphs may be included.

Although the following paragraphs attempt to fix the identity of the employer, they will not necessarily be determinative if the actual facts indicate otherwise. Additional wording that specifies the employer’s responsibility in case of injury on the job may also be advisable, since federal funds are not available to pay for hospital expenses or claims in case of injury on the job. In this connection it may be of interest that one or more insurance firms in at least one state have in the past been willing to write a workers’ compensation insurance policy which covers a student’s injury on the job, regardless of whether it is the institution or the organization that is ultimately determined to have been the student’s employer when he or she was injured.

1. The institution is considered the employer for purposes of this agreement. It has the ultimate right to control and direct the services of the students for the organization. It also has the responsibility to determine whether the students meet the eligibility requirements for employment under the Federal Work-Study Program, to assign students to work for the organization, and to determine that the students do in fact perform their work. The organization’s right is limited to direction of the details and means by which the result is to be accomplished.

2. The organization is considered the employer for purposes of this agreement. It has the right to control and direct the services of the students, not only as to the result to be accomplished, but also as to the means by which the result is to be accomplished. The institution is limited to determining whether the students meet the eligibility requirements for employment under the Federal Work-Study Program, to assigning students to work for the organization, and to determining that the students do perform their work in fact.

Sample language to specify responsibility for payroll disbursements and payment of employers’ payroll contributions

Compensation of students for work performed on a project under this agreement will be disbursed—and all payments due as an employer’s contribution under State or local workers’ compensation laws, under Federal or State social security laws, or under other applicable laws, will be made—by the (organization) (institution) (strike one).

If appropriate, any of the following paragraphs may be included

1. At times agreed upon in writing, the organization will pay to the institution an amount calculated to cover the organization’s share of the compensation of students employed under this agreement.

2. In addition to the payment specified in paragraph (1) above, at times agreed upon in writing, the organization will pay, by way of reimbursement to the institution, or in advance, an amount equal to any and all payments required to be made by the institution under State or local workers’ compensation laws, or under Federal or State social security laws, or under any other applicable laws, on account of students participating in projects under this agreement.

3. At times agreed upon in writing, the institution will pay to the organization an amount calculated to cover the Federal share of the compensation of students employed under this agreement and paid by the organization. Under this arrangement the organization will furnish to the institution for each payroll period the following records for review and retention:
   a) Time reports indicating the total hours worked each week in clock time sequence and containing the supervisor’s certification as to the accuracy of the hours reported;
   b) A payroll form identifying the period of work, the name of each student, each student’s hourly wage rate, the number of hours each student worked, each student’s gross pay, all deductions and net earnings, and the total Federal share applicable to each payroll; and
   c) Documentary evidence that students received payment for their work, such as photographic copies of canceled checks.

* These forms, when accepted, must be countersigned by the institution as to hours worked as well as to the accuracy of the total Federal share which is to be reimbursed to the organization or agency.

   If YES:
   Number of students: ______
   Dates employed: __________________
   Average length employed: _____________

9. Additional Comments:
The Federal Perkins Loan Program includes Federal Perkins Loans, National Direct Student Loans (NDSLs), and National Defense Student Loans (Defense Loans). (No new Defense Loans were made after July 1, 1972, but a few are still in repayment.) Perkins Loans and NDSLs are low-interest (currently 5%), long-term loans made through school financial aid offices to help needy undergraduate and graduate students pay for postsecondary education. For Perkins disbursement rules, see Volume 4.

**MAKING A PERKINS LOAN**

A Perkins Loan (or NDSL) is made when the borrower has signed the Perkins Master Promissory Note (MPN) and the school makes the first disbursement of loan funds under that promissory note for that award year. The student is required to sign the MPN only once. Additional Perkins Loans may be disbursed to a student for up to 10 years after the date the MPN is signed. Although the borrower is only required to sign the MPN once, a school may choose to require a borrower to sign a new MPN for each award year. A student may also make a written request to sign a separate MPN for each award year.

After a student files a FAFSA and the Department determines an official Expected Family Contribution (EFC) for the student, the school must award financial aid based on the student’s loan eligibility and the maximum amounts for each FSA program. For a complete explanation of awarding Perkins funds, see Volume 3, Chapter 7: Awarding Campus-Based Aid. As with the other Campus-Based programs, funds from the Perkins Loan Program must be “packaged” with other expected financial assistance to ensure that the student’s total aid does not exceed his/her cost of attendance. The packaging process is discussed in Volume 3, Chapter 8.

DISCLOSURE TO STUDENTS PRIOR TO FIRST DISBURSEMENT

Before making the first Perkins Loan disbursement for an award year, the school must inform the student of his or her rights and responsibilities under the Federal Perkins Loan Program. The school must also remind the student that the loan may be used only for educational expenses and that the loan must be repaid. The school should also inform the student that the school holds the MPN.

The school must disclose all information to the student in writing—as part of the application material, as part of the promissory note, or on a separate form. Although the information can be mailed to a student, it is preferable for the aid administrator to meet with the student to answer any questions and to emphasize his or her responsibility to repay the loan.

The school must review all of the repayment terms in the promissory note. In addition, the school must give the following information to the student:

- the name and address of the school to which the debt is owed and the name and address of the official or servicing agent to whom communications should be sent;
- the maximum annual and aggregate amounts the student may borrow;
- the effect that accepting the loan will have on the borrower’s eligibility for other types of student aid;
- a statement of the total cumulative balance owed by the student to that school and an estimate of the monthly payment amount needed to repay that balance;
- options the borrower may have to consolidate or refinance;
- a brief notice about the Department of Defense program for repaying loans based on certain military service;
- a complete list of charges connected with making the loan, including whether those charges are deducted from the loan or whether the student must pay them separately; and
- a notice that the school will report the outstanding balance of the loan to a national credit bureau at least annually.

The school should also update the identification and contact information (see sidebar).

Your school must provide the disclosure information annually before the first disbursement of each Perkins Loan made under the MPN.
PERKINS PROMISSORY NOTE

The promissory note is the legally binding document that is evidence of a borrower’s indebtedness to a school. The note includes information about the loan’s interest rate, repayment terms, and minimum rates of repayment; deferment, forbearance, and cancellation provisions; credit-bureau reporting; late charges, attorney fees, collections costs, and consequences of default.

You must ensure that each Perkins Loan is supported by a legally enforceable promissory note. If the school does not have a valid note or other written evidence that would be upheld in a court of law, the school has no recourse against a borrower who defaults. Two examples of invalid notes are notes that have been changed after they were signed and notes without proper signatures or dates. In such cases, the school would have to repay to its Perkins Loan Fund any amounts loaned, whether recovered from the borrower or not, as well as any Administrative Cost Allowance (ACA) claimed on those amounts.

If an error is discovered in a promissory note, the school should obtain legal advice about what action it should take. The appropriate school official and the student should sign by or initial all approved changes in the note.

When the borrower has fully repaid the Perkins Loan, your school must either notify the borrower in writing, or mark the original note “paid in full” and return it to the borrower. As noted in Chapter 1, your school must keep a copy of the note for at least three years after the date the loan was paid in full.

It is also essential to report to the National Student Loan Data System that the loan has been paid.

Single vs. Multi-Year use of the MPN

The Master Promissory Note (MPN) for the Perkins Loan Program is a promissory note under which the borrower may receive loans for a single award year or multiple award years.

Because the MPN can be used to award Perkins Loans on a multi-year basis, there is no box for loan amount or loan period on the note. When used as a multi-year note, the borrower signs the MPN only once, before the first disbursement of the borrower’s first Perkins Loan. The signed MPN covers all loans that the school makes to the borrower until the MPN expires.

You may make Perkins Loans under an MPN for up to 10 years from the date the borrower signed the MPN. However, the first disbursement must be made within 12 months of the date the borrower signed the MPN. If no disbursements are made within that 12-month period, the borrower must sign another MPN before receiving a Perkins Loan. In addition, no further loans may be made under an MPN after the school receives written notice from the borrower requesting that the MPN no longer be used as the basis for additional loans.

If you choose to use the MPN as a single award-year promissory note, the borrower must sign a new Perkins MPN for each subsequent award year.
Implementing an electronic Perkins MPN

A school that offers an electronic Perkins MPN must ensure that the text of their electronic version is updated to exactly match the text of the revised Perkins MPN with the August 31, 2012 expiration date. No changes may be made to the text of the MPN except as provided in Dear Colleague Letter CB-09-05 under “Document formats for the revised Perkins MPN and Addendum.” Schools using an electronic Perkins MPN should review the Department’s standards for electronic signatures as provided in Dear Partner Letter GEN-01-06 before implementing an electronic Perkins MPN. Schools wishing to obtain an electronic version (HTML) of the revised Perkins MPN should send a request to: Neil.Sattler@ed.gov. Source: DCL CB-09-07

Retaining the electronic MPN

If the student completes an electronic MPN (eMPN), your school must maintain the original electronic promissory note, plus a certification and other supporting information, regarding the creation and maintenance of any electronically-signed Perkins Loan promissory note or Master Promissory Note (MPN) and provide this certification to the Department, upon request, should it be needed to enforce an assigned loan. Schools and lenders are required to maintain the electronic promissory note and supporting documentation for at least 3 years after all loan obligations evidenced by the note are satisfied.

Using ED-approved MPN & customizing the MPN

You must use the ED-approved MPN (see sidebar). You may not make changes to, deletions from, or additions to the prescribed language on the MPN. However, you may delete bracketed text and you may print information (name, address, and telephone number) identifying your school in Section B, Item 6. You may also use appropriate coding (for example, bar coding to reflect the source, type, or other identification system for filing or processing) in this area.

You may print bar coding or coding identifiers, such as student ID number or loan number, in the side or bottom margins to meet the requirements of your school’s processing systems. You may not print these coding identifiers on the promissory note in a way that would alter the general layout of the note. You may also print in the lower margin of the note a reference to the type, for example: original, student copy, file copy.

You may adjust the height of the boxes in Sections A and B to meet the requirements of individual processing systems, as long as the change doesn’t alter the general format of the form, result in reduced point size, move text from one page to another, or otherwise change the general presentation of the form.

You must print the original and borrower copies of the promissory notes with black ink on white paper. You may not change the typeface, point size, and general presentation of the form from the documents approved by the Department. However, you may print your school’s identifying information located in Section B, Item 6 in another color to make your school’s name and address more pronounced. It is preferable to print the MPN on two sheets of paper, front and back. However, you may print the MPN on four single-sided pages as well.

Prior guidance

The Perkins closed-end and open-end promissory notes expired on October 31, 2004. You must use the MPN for all loans made on or after November 1, 2004. Implementation guidance for the Perkins closed-end and open-end promissory notes was provided in Volume 5, Chapter 3, of the 2003–2004 FSA Handbook. The Department issued instructions in Dear Colleague Letter CB-06-10 for using the revised Perkins Master Promissory Note.

Montgomery, AL 36104
Standards for electronic signatures: highlights for Perkins eMPNs

Before implementing the eMPN, your school should review the Standards for Electronic Signatures in Electronic Loan Transactions published in Dear Colleague Letter GEN-01-06.

The standards are voluntary; however, adherence to the standards will provide your school some protection should a court find a loan unenforceable due to the processing of an electronic signature or related records.

**Why apply these standards?**

If your school’s system for processing Perkins eMPNs adheres to the standards and a court finds the loan legally unenforceable based solely on the processing of the electronic signature or related records, the Department will not consider your school liable for the loan and will not require your school to reimburse its Perkins Loan Fund.

If your school’s system for processing Perkins eMPNs does not adhere to the standards and a court finds the loan legally unenforceable based solely on the processing of the electronic signature or related records, the Department has the option to require your school to reimburse its Perkins Loan Fund.

**Verify the borrower's identity. Verify the borrower's electronic signature.**

Collect at least the following identifying information: name, Social Security number, driver’s license number, date of birth. Verify the borrower’s identity by authenticating this data with an independent source such as a national commercial credit bureau, a commercial data service, a state motor vehicle agency, or a government database.

The electronic signature may be a PIN, a password, another unique credential, a biometric value unique to the borrower, such as a fingerprint or retinal pattern, or a signature image. A typed name must be paired with one of the above to constitute an electronic signature.

Ensure that the electronic signature is secure.

**Get the borrower's consent. Make sure the borrower understands.**

Obtain consent from the borrower to use an electronic record. It must be clear that the borrower has consented to use a Perkins eMPN in place of a paper MPN. Require the borrower to confirm that he or she has the necessary hardware and software to view, print, download, or otherwise complete the electronic signature process. Keep a record showing that the borrower gave this consent prior to electronically signing the Perkins eMPNs.

Ensure that the borrower understands he or she is signing a promissory note. The borrower must click through all terms and conditions of the Perkins eMPNs and acknowledge that he has read the terms and conditions.

Notify the borrower when his or her electronic signature is about to be applied to the Perkins eMPNs. Give the borrower an opportunity to cancel the signature process.

After the borrower signs the Perkins eMPNs, provide the borrower with reasonable access to the full electronic record of the eMPNs.

**Minimum monthly payment option**

The optional provision regarding a minimum monthly repayment amount is included as a single, optional sentence at the end of the repayment paragraph on page 1 of the MPN. You would include this sentence in the MPN if your school is exercising the minimum monthly payment amount provision. Page 2 of the MPN includes a summary of this provision.

If the optional provision is included in the school’s note, a minimum monthly payment of $40 is required for a loan made on or after October 1, 1992, to a borrower who had no outstanding balance on a Perkins Loan, NDSL, or Defense Loan on the date the loan was made. (For other borrowers, the monthly minimum amount remains $30.)
MASTER PROMISSORY NOTE—QUESTIONS AND ANSWERS

LOAN AMOUNT AND LOAN PERIOD

Q. Why are there no boxes for the loan amount and loan period on the MPN?

A. The borrower only signs the MPN once, prior to disbursement of the borrower’s first loan. Since the MPN can be used as either an annual or multi-year promissory note, it does not contain specific reference to the dollar amount of the loan to be disbursed, the disbursement dates, or the enrollment or award period covered by the loan.

Q. If a school chooses to use the MPN on an annual basis, can the school put boxes on the MPN for the award amount and the loan period?

A. No. The MPN is a federal form approved by the Office of Management and Budget (OMB). Schools may not add data elements to an OMB-approved form. Schools may only make minimal modifications to the MPN, as described in Dear Colleague Letter CB-09-05 and elsewhere in this chapter.

RECORD RETENTION

Q. Should a school retain a record of the date and amount of each disbursement in the borrower’s file to document that the borrower received the loan?

A. Yes. Since this information is not shown on the MPN, the school should maintain documentation of the loan amount, award period, and disbursement dates as part of the borrower’s records. Disbursement records or student account records showing a Perkins Loan credit would serve this purpose.

Q. Are third party servicers’ records sufficient to satisfy a school’s need to retain supporting records showing loan amount, award period, and disbursement dates?

A. Unless the servicer is performing loan origination and disbursement functions for the school, only school records definitively show that the borrower was enrolled, the borrower’s account was credited from Perkins loan funds, and the date and amount of disbursements. With certain borrower challenges, third party servicer records may not be sufficient.
SUBSEQUENT DISCLOSURES & NOTIFICATIONS

Loan amount, loan period & cumulative balance

Schools must provide loan amount and loan period information to the borrower through a means other than the MPN. Schools may provide this information in any number of formats, such as award letters or other written notifications and disclosures that schools are required to provide to the borrower.

Each Perkins Loan received under an MPN is a separate and distinct loan. The disclosure information must be provided to the borrower annually, before the first disbursement of each new Perkins Loan awarded under the MPN. The disclosure information must include a statement of the total cumulative balance owed by the borrower to the school and an estimate of the monthly payment amount needed to repay the balance. In the case of a borrower who makes payments on the loan while still in school, the statement of cumulative balance owed by the borrower should be adjusted to reflect those payments.

Loan disbursements

When a school credits a Perkins Loan disbursement to a borrower’s account, the school must notify the borrower of the date and amount of the disbursement, the borrower’s right to cancel all or part of the disbursement, and the procedures for notifying the institution that the borrower wishes to cancel the loan or the loan disbursement. The school must send this notification to the borrower no earlier than 30 days before, and no later than 30 days after, crediting the borrower’s account.

You will need to retain subsidiary records of disbursements and adjustment to ensure that each Perkins Loan is legally enforceable. Actual disbursement records or student account records would serve this purpose.

Since a change in loan amount will not be reflected on the MPN, the school should notify the borrower, in writing, of any increase or decrease.
FTC “Red Flags Rule” on identity theft & Perkins Loans

E-Announcement June 14, 2010

The Federal Trade Commission (FTC), in concert with other federal agencies, has issued regulations that require financial institutions and creditors to develop and implement a written identity theft prevention program to detect, prevent, and respond to patterns, practices, or specific activities that may indicate identity theft and are known as “red flags.”

The “Red Flags Rule” applies to institutions participating in the Federal Perkins Loan Program and may apply to other credit programs administered by an institution. Although the “Red Flags Rule” is not issued by the Department of Education, the Department has issued a series of announcements to make schools in the Perkins loan program aware of the requirement, and encourages Perkins schools to review these regulations with their attorneys to ensure compliance.

The Rule became effective on January 1, 2008, with full compliance for all covered entities originally required by November 1, 2008. The FTC has issued several Enforcement Policies delaying enforcement of the Rule. The most recent Enforcement Policy delayed enforcement of the “Red Flags Rule” through December 31, 2010. As of January 1, 2011, the FTC is now enforcing the red flags rule.

The FTC noted in a press release (05/28/2010) that it has published a compliance guide for business, and created a template that enables low risk entities to create an identity theft program with an easy-to-use online form (www.ftc.gov/bcp/edu/microsites/redflagsrule/get-started.shtm). The regulations covering the “Red Flags Rule” were published in the Federal Register on November 9, 2007 by the FTC, the Federal bank regulatory agencies, and the National Credit Union Administration jointly issued regulations (72 FR 63718).

Further information about the “Red Flags Rule” and the actual text of the regulations is available on the FTC Web site at: http://www.ftc.gov/opa/2007/10/redflag.shtm
CHAPTER 4

Perkins Repayment, Forbearance & Deferment

Repayment terms vary substantially among Perkins Loans, National Direct Student Loans, and National Defense Student Loans. Schools may obtain software from third-party vendors that have automated many of the following requirements and calculations. The Federal Perkins Loan Program offers borrowers a variety of forbearance and deferment options. These options do not allow for capitalization of interest at the end of any forbearance or deferment period.

GRACE PERIODS

A “grace period” is the period of time before the borrower must begin or resume repaying a loan. There are two kinds of grace periods for Perkins loans:

• Initial grace period—a 9-month grace period that immediately follows a period of enrollment and immediately precedes the date repayment is required to begin for the first time. A borrower is only entitled to one initial grace period.

• Post-deferment grace period—a 6-month grace period that follows any subsequent period of deferment.

Initial Grace Periods

A Perkins borrower is entitled to an initial grace period of 9 consecutive months after dropping below 1/2-time enrollment. If the borrower who returns to school on at least a 1/2-time basis before the 9 months have elapsed, the initial grace period has not been used. The borrower will be entitled to a full initial grace period (9 consecutive months) from the date that he or she graduates, withdraws, or drops below 1/2-time enrollment again.

Post-deferment grace periods

A “post-deferment grace period” is the period of 6 consecutive months that immediately follows the end of a period of deferment and precedes the date on which the borrower must resume repayment on the loan. Neither the deferment nor the grace period is counted as part of the 10-year repayment period.

Except for hardship deferments on loans made before July 1, 1993, all deferments for all loans made under the Federal Perkins Loan Program have post-deferment grace periods of 6 consecutive months.

Chapter 4 Highlights

- Grace periods
  - Calculating the grace period
  - Establishing a repayment plan
  - Multiple loans
- Minimum monthly payments
- Establishing repayment dates
- Payment processing
- Forbearance
- Deferment procedures

Grace Period

Length of initial grace period;
Grace period delayed during active duty;
Prepayment
34 CFR 674.31(b)
Less-than-1/2-time grace periods
34 CFR 674.32

Grace periods for NDSLs

Note that repayment of an NDSL made on or after October 1, 1980, begins 6 months after the date that the borrower drops below at least 1/2-time enrollment.

NDSL on or after 10/1/80
• Initial grace period is 6 months
• Post-deferment period is 6 months

NDSL before 10/1/80
• Initial grace period is 9 months
• Post-deferment period is 6 months
Applicable grace period when student is attending less than 1/2-time

A borrower who is attending less than ½-time and who has no outstanding Perkin/NDSL Loan must begin repaying a new loan 9 months from the date the loan is made or 9 months from the date the student enrolled less than ½-time, whichever is earlier. (This 9-month period includes the date the loan was made.)

A borrower who is attending less than 1/2-time and who has an outstanding Perkins Loan or NDSL must begin repayment on an additional loan when the next scheduled installment of the outstanding loan is due; there is no formal grace period or in-school deferment on the new loan.

Calculating the grace period

A grace period is always day specific—an initial grace period begins the day after the day the borrower drops below 1/2-time enrollment. Similarly, a post-deferment grace period begins on the day immediately following the day on which an authorized period of deferment ends.

If a borrower has received loans with different grace periods (and different deferment provisions), the borrower must repay each loan according to the terms of its promissory note; the borrower must pay the minimum monthly payment amount that applies to each loan that is not in a grace or deferment period.

Grace period when student doesn’t return from leave of absence

Students granted approved leaves of absence retain their in-school status for FSA loans. However, if a student does not return from an approved leave of absence, the student’s grace period begins the date the student began the leave of absence. (If the school is required to take attendance, the grace period begins on the last date of academic attendance.)

For a student who does not return from an approved leave of absence, this withdrawal date might result in the exhaustion of some or all of the student’s grace period.

Leaves of absence no longer qualify as approved leaves of absence for FSA purposes unless the school explains the effects that the student’s failure to return from an approved leave of absence might have on the student’s loan repayment terms, including the exhaustion of some or all of the student’s grace period.
Use of initial grace period

Example: student returns before initial grace period elapses

Fenriz takes out a Perkins Loan in the fall quarter at Sims School of Botany but drops out of school for the winter quarter. He reenrolls as a 1/2-time student in the summer session, before the 9-month grace period has expired. Therefore, Fenriz is entitled to a full initial grace period once he again leaves school or drops below half-time status.

Example: different grace period for earlier loans

Steve took out several Perkins Loans while attending New Frontier Community College, and began repaying them 9 months after graduating. Later, he enrolled in a Bachelors degree program at Old Ivy College, and was able to defer his older Perkins Loans. He took out two additional Perkins Loans at Old Ivy.

When Steve graduates from Old Ivy, he is entitled to an initial grace period (9 months) for his Perkins Loans at Old Ivy, but must resume repaying his older Perkins loans (from New Frontier CC) at the end of the 6-month postdeferment period.

Exclusion for reservists on active duty

For a borrower who is a member of the Armed Forces Reserve, the initial grace period does not include any period up to 3 years during which the borrower is ordered to active duty for more than 30 days, including the period necessary for the borrower to resume enrollment at the next available enrollment period. The period necessary for the borrower to resume enrollment at the next available enrollment period may not exceed 12 months.

The borrower must notify you of the beginning and end dates of his or her service, and the date he or she resumes enrollment. A borrower who enrolls in a different educational program after returning from active duty is entitled to the same grace period benefits. A borrower who is in a grace period when called or ordered to active duty is entitled to a new grace period upon conclusion of the excluded period.

Grace periods & less than 1/2-time enrollment

Example: Perkins received while enrolled less than 1/2-time

Paula starts school full-time in September. She does not have an outstanding Perkins Loan or NDSL. In January, Paula drops to 1/4-time and in March, she receives a Perkins Loan.

Since Paula dropped below 1/2-time enrollment before the Perkins Loan was made, Paula must begin repayment 9 months after the date she dropped below 1/2-time enrollment—her first payment will be due in October.

Example: Second Perkins Loan received while first loan is in repayment

Jason has been making monthly payments on Perkins Loan #1, which went into repayment 9 months after he completed a one-year program at a career school.

He subsequently enrolls in a new program at a community college and takes out Perkins Loan #2 in September. He is only enrolled 1/4-time at the community college, so he is not eligible for in-school deferment. His next payment on Loan #1 is due October 15. Jason will begin repaying Loan #2 at the same time. Remember that the repayment status of the outstanding loan determines the repayment status of the second loan.
ESTABLISHING A REPAYMENT PLAN

A borrower must repay his or her loan, plus interest, in 10 years. This repayment period never includes authorized periods of deferment, forbearance, or cancellation.

The repayment plan must be established and disclosed to the student before the student ceases to be enrolled at least half-time.

If a borrower wants to repay the loan in graduated installments, he or she must request permission to do so from the school; if the school agrees to this type of repayment, a graduated installment schedule is prepared and submitted to the Department for approval. If the Department approves the school’s request, the borrower may use the graduated method of repayment.

If a student receives loans from more than one school, the repayment of each loan is made to (or default is attributed to) the school where the student received the loan.

Calculating the payment amount

Schools may require the borrower to make payments on a monthly, bimonthly, or quarterly basis. Each of the borrower’s payments must sufficiently cover the interest accruing between payments to ensure that the loan is repaid in 10 years. Schools calculate the correct payment amount by multiplying the principal by the appropriate constant multiplier (see table). Schools using the minimum monthly payment plan option, introduced in the next section, may require the borrower to pay a minimum monthly amount of $40 instead.

If the installment for all loans a school made to a borrower is not a multiple of $5, the school may round the installment payments to the next highest dollar amount that is a multiple of $5.

If the last scheduled payment is $25 or less, the school may combine it with the next-to-last payment.

10-year repayment table of constant multipliers

<table>
<thead>
<tr>
<th>Annual Rate</th>
<th>Payment Frequency</th>
<th>Payments per year</th>
<th>Total Payments</th>
<th>Constant Multiplier</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>5%</td>
<td>Bimonthly</td>
<td>6</td>
<td>60</td>
<td>.0212470</td>
</tr>
<tr>
<td>5%</td>
<td>Quarterly</td>
<td>4</td>
<td>40</td>
<td>.0319214</td>
</tr>
</tbody>
</table>

Principal $ \times \text{Constant Multiplier} = \text{Payment Amount}
Interest accrual

Interest on a Perkins Loan must be computed at the rate of 5% per annum simple interest on the unpaid principal balance. Although interest accrues on a Perkins Loan, your school may not capitalize it. This means that your school may not add unpaid interest to the principal balance to increase the principal balance of the Perkins Loan. Instead, your school must track principal and interest as separate figures, adding accrued interest to the interest balance, not the principal balance.

Generally, interest is computed from the date a payment is received rather than from the due date. However, there are exceptions. Interest charges may be computed to the nearest first-of-the-month, or they may be computed in accordance with the borrower’s established schedule of payments of principal and interest if the borrower is making payments on a regular basis according to that schedule. For example, if a grace period expires in the middle of a month, interest may be computed to the beginning of the next month. Also, if a past-due payment is received before the next regularly scheduled payment, the interest may be computed according to the established payment schedule—no adjustments are necessary.

Incentive repayment program

To encourage repayment, a school may:

- reduce a loan’s interest rate by up to 1% if the borrower makes 48 consecutive monthly payments;
- discount by up to 5% the balance a borrower owes on a loan if he or she pays the loan in full before the end of the repayment period; or
- with the Secretary’s approval, establish any other repayment incentive options that reduce default and replenish student loan funds.

Prepayment

If the borrower repays more than the amount due for any repayment period after the initial grace period has ended, the school must use the excess to prepay principal, unless the borrower designates the excess as an advance payment on the next regular installment. If the borrower designates the excess as an advance payment on the next installment and that advance payment exceeds the amount of the next regularly scheduled installment, the school must use the excess to prepay principal.

The borrower may prepay all or part of the loan at any time without penalty. Amounts repaid during the academic year the loan was made and before the initial grace period has ended are not considered prepayments but must be used to reduce the original loan amount.

Payment made during initial grace period example

Shannon applies her yearly birthday check of $400 to her $1,000 Perkins Loan before the initial grace period ends. The principal advanced to Shannon becomes $600. This is not considered a prepayment because payment was made before the end of the initial grace period.

Simple interest accrual example

Fred has been granted a hardship forbearance for a year. At the beginning of his forbearance period, Fred’s loan balance is $1,000:

| Principal: | $1,000 |
| Interest:  | $0     |

Interest accrues throughout the forbearance period at a simple rate of 5% per annum. At the end of the year-long forbearance period, Fred’s loan balance is $1,050:

| Principal: | $1,000 |
| Interest:  | $50    |

When Fred makes his first payment after the end of the forbearance, his payment is applied to interest first, then principal. Fred makes a payment of $25, reducing his balance to $1,025:

| Principal: | $1,000 |
| Interest:  | $25    |
Minimum monthly repayment amounts

Schools may choose to include a minimum monthly repayment requirement in the Perkins Loan promissory note. The minimum monthly repayment amount is $40, unless the borrower on the date the new loan is made has an outstanding balance on a Perkins Loan, NDSL, or Defense Loan made before October 1, 1992, that included a $30 minimum monthly repayment provision. (See sidebar.)

To determine the minimum repayment for bimonthly and quarterly payment schedules, schools should multiply $40 by 2 (months) and 3 (months), respectively.

Conditions for minimum monthly repayment

A school may require a borrower to pay a minimum monthly payment amount of $40 on a Perkins Loan if:

- the promissory note includes a provision specifying a minimum monthly repayment of $40 and the monthly repayment of principal and interest for a 10-year repayment period (as calculated using a constant multiplier) would be less than $40; or
- the borrower has received Perkins Loans with different interest rates at the same school and the total monthly payment would otherwise be less than $40 (provided any of the promissory notes includes the minimum monthly repayment provision).

Under no circumstances may a school require a minimum monthly repayment of more than $40.

Multiple loans at same school

If a borrower has multiple Perkins Loans from the same school, any of which include the minimum monthly payment provision, the school may require the borrower to make a minimum monthly payment if the borrower’s total monthly payment on all the loans totals less than $40. (A student’s monthly payment amount may need to be higher than $40, of course, so that his or her debt is repaid by the end of 10 years.)

If the school exercises this option, the school must divide each monthly payment among all the loans proportionate to the amount of principal advanced under each loan. If the borrower’s total monthly payment equals or exceeds $40 for all of the loans made at that school, the school may not exercise the minimum monthly payment on any loan. The school determines the minimum monthly repayment in this manner even if the Perkins Loans have different interest rates.

If the borrower has received Perkins Loans with different grace periods and deferments, the school must treat each note separately. The school still divides the minimum monthly payment proportionately among the loans. However, the borrower must pay each loan’s portion when it is due.
Loans from multiple schools

A borrower may have received Perkins Loans from more than one school. If the borrower wants your school to coordinate minimum monthly payments with another school, he or she must request such coordination.

If the total of the monthly payments is

- at least equal to $40, none of the lending schools may exercise the minimum monthly repayment requirement.
- less than $40, but only one school exercises the minimum monthly payment option, that school receives the difference between $40 and the repayment owed to the second school.
- less than $40 and each school exercises the minimum repayment option, the $40 minimum repayment is divided among the schools in proportion to the total amount of principal each has advanced.

If the borrower requests that your school coordinate minimum monthly payment amounts with another school, you should ask the borrower for

- the names of all other schools to which the borrower owes funds under the Federal Perkins Loan Program,
- the approximate amount borrowed from, and the current indebtedness to, each school, and
- any information that would help identify the loans—for example, the loan number and the dates of loan advances.

Using this information, the schools should contact each other and negotiate the amount each should receive from the borrower.

Minimum monthly payment for multiple loans (same school)

Marv has Perkins Loans of $1,500 and $1,000 (for a total debt of $2,500) and has a promissory note that includes the minimum monthly payment provision. Using the constant multiplier table, the total monthly payment on the two loans would be less than $40:

<table>
<thead>
<tr>
<th>Monthly payment on loan #1</th>
<th>$1,500  X 0.0106065 = $15.91</th>
</tr>
</thead>
<tbody>
<tr>
<td>+ Monthly payment on loan #2</td>
<td>$1,000  X 0.0106065 = $10.61</td>
</tr>
<tr>
<td>= Total payment per month</td>
<td>$26.52</td>
</tr>
</tbody>
</table>

Because the monthly payment on the two loans is less than $40, Cook College may decide to exercise the minimum $40 payment option. If the school does so, Cook calculates the monthly payment for each loan by dividing the original principal of the loan by the total original principal of all loans:

<table>
<thead>
<tr>
<th>Monthly payment on loan #1</th>
<th>$1,500  ÷  $2,500 = 0.600000 X $40 = $24</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monthly payment on loan #2</td>
<td>$1,000  ÷  $2,500 = 0.400000 X $40 = $16</td>
</tr>
</tbody>
</table>

| Monthly payment on loan #1 | $24 |
| + Monthly payment on loan #2 | $16 |
| = Total payment per month | $40 |

Two schools/minimum monthly payment amount example

Betsy has Perkins Loans from Heinz College and Elise University. Heinz does not exercise the minimum monthly payment option and receives from Betsy $25 a month (the amount due under its established 10-year repayment plan). Elise exercises the $40 option and receives from Betsy $15, the difference between $40 and the amount of principal and interest paid to Heinz.
ESTABLISHING REPAYMENT DATES

Depending on the repayment schedule (monthly, bimonthly, or quarterly), the borrower’s first payment is due one, two, or three months from the date the grace period expires. Repayment schedules must be adjusted (preferably on the first installment) so that the loan will be repaid within the normal 10-year period or as prescribed in the terms of the promissory note.

For convenience, a school may establish standard repayment dates for borrowers who are on quarterly repayment schedules. The first repayment date may be the first day of the calendar quarter after the grace period has expired. Four standard repayment dates would be used: January 1, April 1, July 1, and October 1. (See the chart below.)

Alternatively, a school may adopt a “rolling” quarterly repayment schedule in which each borrower’s first payment is due exactly three months after the date his or her grace period expires. For example, if a borrower’s first grace period expires on May 17, the first installment payment is due August 18. Another borrower’s grace period expires May 18, so the first installment payment on that loan is due August 19.

Once the payment date is established, the borrower will owe principal and interest for any portion of a scheduled installment period not covered by a deferment. However, if the borrower is in deferment on a due date, any amounts owed are carried over and paid on the first due date on which the borrower is out of deferment.

Use of fixed repayment dates

For collection and bookkeeping purposes, a fixed repayment date is preferred. Otherwise, if the borrower is entitled to a deferment, the school may have problems computing payments due.

Perkins Loan Quarterly Billing Example

</tbody>
</table>
Extending repayment period for illness, unemployment, or low income

A school may extend a repayment period if the borrower is experiencing a period of prolonged illness or unemployment.

A school may also extend the repayment period for a Perkins Loan if, during the repayment period, the school determines that the borrower qualifies as a low-income individual based on total family income (see sidebar).

In the case of low-income individuals, the repayment period may be extended up to 10 additional years. You must review the borrower’s income status annually to determine whether he or she still qualifies as a low-income individual.

If you determine that a borrower ceases to qualify for an extended repayment period, you must amend the borrower’s repayment schedule. The amended repayment schedule may not exceed the number of months remaining on the original repayment schedule (not including any extensions of the repayment period).

There are two other ways that a school may adjust the repayment schedule for a borrower who qualifies as a low-income individual:

- The school may require the borrower to pay a reduced amount for a limited time and then later increase the payment amount so that the borrower catches up on payments. The repayment period does not have to be extended. For example, a school reduces the payment amount to $10 per month for six months and then increases it to $50 per month until the borrower catches up.
- The school may allow the borrower to pay $10 per month for a year and then resume normal payments. This type of adjustment extends the repayment period.

Interest continues to accrue during an extension of a repayment period for any of these reasons.

PAYMENT PROCESSING

Any payment a school receives must be applied in the following order:

1. collection costs;
2. late charges (or penalty charges);
3. accrued interest; and
4. principal

Past-due payments should be applied in the same order as other payments, except that past-due payments must be applied to the “oldest” past-due dollars first.
**FORBEARANCE**

Forbearance is usually a temporary postponement of payments. Forbearance is available for all loans made under the Federal Perkins Loan Program, regardless of when they were made.

The borrower may alternatively request an extension of time allowed for making payments or the acceptance of smaller payments than were previously scheduled.

Schools may grant forbearance to borrowers who are experiencing financial hardship, poor health, or for other acceptable reasons. For example, the Department strongly encourages schools to grant periods of forbearance to borrowers who are serving in AmeriCorps. Also, the Department may authorize periods of forbearance due to a national military mobilization or other national emergency.

Borrowers must request forbearance and provide supporting documentation of the reason for forbearance. (Schools may now process forbearance requests based on a verbal request from a borrower.) The school and borrower must agree to the terms of the forbearance. The school confirms this agreement by notice to the borrower, and by recording the terms in the borrower’s file.

Schools may grant the borrower forbearance for a period of up to 1 year at a time. The forbearance may be renewed, but the periods of forbearance collectively may not exceed a total of 3 years. A school may apply an authorized period of forbearance to begin retroactively (that is, to begin on an earlier date than the date of the borrower’s request) if the borrower requests that the school do so and if he or she provides adequate documentation to support the request.

Schools may not include periods of forbearance in determining the 10-year repayment period.

**Hardship**

A school must grant forbearance if the total amount the borrower is obligated to pay monthly on all FSA loans is equal to or greater than 20% of the borrower’s total monthly gross income. Total monthly gross income is the gross amount of income received by the borrower from employment (either full-time or part-time) and from other sources.

To receive forbearance for hardship, the borrower must submit at least the following documentation:

- evidence of the amount of the borrower’s most recent total monthly gross income; and
- evidence of the amount of the monthly payments the borrower owes for the most recent month on his or her FSA loans.
DEFERMENT PROCEDURES

Under certain circumstances, a borrower is entitled to have the repayment of a loan deferred. During deferment, the borrower is not required to pay loan principal and interest does not accrue. After each deferment, the borrower is entitled to a post-deferment grace period of 6 consecutive months.

In most cases, the borrower must request deferment unless the borrower is engaged in service that may qualify for loan cancellation or the school can determine that the borrower is enrolled at least half-time at an eligible school. Borrowers are no longer required to request deferments in writing. However, a borrower who requests deferment must provide the school with all the information and documents the school requires by the school’s deadline. Borrowers must immediately report any change in their deferment status to lending schools.

You may grant a deferment, at the borrower’s request, based on information from the holder of an FSA loan that a borrower has been granted a deferment for the same reason and the same time period on the borrower’s Perkins, Direct, or FFEL Stafford or PLUS Loan. (Holders of FSA loans include another Perkins school, an FFEL lender, the Department of Education, or a guaranty agency.) This simplified deferment granting process is optional, and only applies to in-school deferments, graduate fellowship deferments, rehabilitation training program deferments, unemployment deferments, economic hardship deferments, military service deferments, and active duty student deferments.

If a borrower is currently in deferment, the school must reaffirm continued eligibility for deferment on at least an annual basis (except for Peace Corps service—see sidebar). Schools may not include periods of deferment in the 10-year repayment period.

Concurrent deferment/cancellation

Schools must automatically defer loans during periods when the borrower is performing service that will qualify him or her for loan cancellation. Borrowers do not need to apply for concurrent deferment. Schools may grant concurrent deferment for up to 12 months at a time. Concurrent deferment is available to all loans made under the Federal Perkins Loan Program, regardless of disbursement date and contrary provisions on the promissory note.

A borrower who receives concurrent deferment is also entitled to a post-deferment grace period of 6 consecutive months. Therefore, regardless of the length of time that the eligible service is performed, repayment is deferred during that period of service and does not resume until 6 months after the cessation of service.

Schools exercising the minimum monthly payment provision listed in the promissory note must cease doing so and grant a deferment to cover any period of qualifying service. The amount to be deferred and subsequently canceled must be calculated using the 10-year repayment period.
Deferment and default

A borrower is not entitled to a deferment on a defaulted loan. If the borrower signs a new repayment agreement, however, a school may grant a deferment even if the school has “accelerated” the loan. The school would have to de-accelerate the loan before granting the deferment.

The borrower must file for deferment by a deadline that the school establishes and provide satisfactory documentation that he or she qualifies for the deferment.

Before granting a deferment on a defaulted loan, the school may require the borrower to pay immediately late fees, collection costs, and some or all of the amount past due as of the date on which the school determined that the borrower had demonstrated eligibility for a deferment. The Department encourages schools to require the borrower to do so, thus “curing” the default.

A school is not required to grant deferments on loans in default. However, if a school does so, it is expected to calculate past-due accrued interest. If a school believes this is too burdensome, it may deny deferments on defaulted loans.

Maintaining in-school enrollment status vs. in-school deferment

When a student borrower graduates or leaves school, and subsequently reenrolls at another school before the initial grace period expires, he or she retains “in-school” enrollment status and does not “use up” the 9-month initial grace period.

The borrower is entitled to a full initial grace period when he or she ceases half-time enrollment in the new program.

The borrower may submit proof at any time—even after a loan has been accelerated—that he or she reenrolled at least half-time before the initial grace period expired. Upon receipt of this proof, the school must recalculate the first date of repayment. The school must also deduct from the loan balance any interest accrued and any late charges added before the date the repayment period actually should have begun.

Note that the borrower remains responsible for payments that would have been due under the recalculated repayment period and that the school is not obligated to grant a deferment for any payments past due under that period.

If a Perkins borrower graduates or leave school, and reenrolls at least half-time in an eligible postsecondary school after the initial grace period has expired, the student is no longer in-school enrollment status. However, the student may be eligible for an in-school deferment (see box on next page). Keep in mind that the grace period after a deferment is only 6 months.
Deferments for all Perkins Loans

The deferments that follow are available to all loans made under the Federal Perkins Loan Program, regardless of disbursement date or contrary provisions in the promissory note.

**In-school deferment**

A borrower may defer repayment of a Perkins Loan if he or she is enrolled at least half-time in an eligible school.

To receive an in-school deferment, the borrower must be enrolled as a regular student in an eligible institution of higher education or a comparable institution outside the United States approved by the Department for deferment purposes. A regular student is one who is enrolled for the purpose of obtaining a degree or certificate. (The eligible institution need not participate in the Federal Perkins Loan Program.)

If the borrower is attending at least half-time as a regular student for a full academic year and intends to do so in the next academic year, he or she is entitled to a deferment for **12 months**. This means that a school must continue to apply the in-school deferment through the summer session, even if the borrower does not attend classes during the summer session. In-school deferment ends on the day the borrower graduates or drops below half-time enrollment.

Schools may grant in-school deferments to borrowers based on student enrollment information provided by third-party servicers or other schools. The enrollment information must establish that the borrower is enrolled as a regular student on at least a half-time basis. If a school grants deferment based on this information, the school must notify the borrower of the deferment and offer the option to cancel deferment and continue repayment of the loan.

If a borrower is attending a school that ceases to qualify as an institution of higher education, the borrower’s deferment ends on the date the school ceases to qualify.

Except for a program in dentistry, an in-school deferment may not be granted to a borrower who is serving in a medical internship or residency program.

**Graduate fellowship**

A borrower may defer repayment if he or she is enrolled and in attendance as a regular student in a course of study that is part of a graduate fellowship program approved by the Department, including graduate or postgraduate fellowship-supported study (such as a Fulbright grant) outside the United States. To receive deferment for enrollment in a graduate fellowship program, the borrower must provide certification that he or she is engaged in full-time study in an approved graduate fellowship program (or has been accepted by the program).

**Rehabilitation training**

A borrower may defer repayment if he or she is enrolled in a course of study that is part of a Department-approved rehabilitation training program for disabled individuals.

To receive this deferment, the borrower must provide the school with certification that:

- the borrower is receiving, or scheduled to receive, rehabilitation training from the agency;
- the agency is licensed, approved, certified, or otherwise recognized by a state agency responsible for programs in vocational rehabilitation, drug abuse treatment, mental health services, or alcohol abuse treatment; or by the Department of Veterans Affairs; and
- the agency provides or will provide the borrower rehabilitation services under a written plan that (1) is individualized to meet the borrower’s needs; (2) specifies the date that services will end; and (3) is structured in a way that requires substantial commitment from the borrower.

A substantial commitment from the borrower is a commitment of time and effort that would normally prevent the borrower from holding a full-time job either because of the number of hours that must be devoted to rehabilitation or because of the nature of the rehabilitation.

**Seeking full-time employment**

A borrower may defer repayment on a Perkins Loan for up to 3 years, regardless of disbursement date and contrary provisions on the promissory note, if the borrower is seeking and unable to find full-time employment. Schools may determine the documents the borrower must provide to apply for this deferment.
Economic hardship

A borrower is entitled to an economic hardship deferment for periods of up to 1 year at a time, not to exceed 3 years cumulatively, if the borrower provides the school with satisfactory documentation showing that:

1. The borrower has been granted an economic hardship deferment for either a Stafford or PLUS Loan for the same period of time for which the Perkins Loan deferment has been requested.
2. The borrower is receiving federal or state general public assistance, such as Temporary Assistance to Needy Families, Supplemental Security Income, or Food Stamps.
3. The borrower is working full-time* and is earning a total monthly gross income that does not exceed (1) the monthly earnings of someone earning the minimum wage, or (2) 150% of the poverty line** for the borrower’s family size.***
4. The borrower is not receiving total monthly gross income that is more than twice the amount in (3) above and that income minus an amount equal to the borrower’s monthly payments on federal postsecondary education loans does not exceed the amount specified in (3) above.

The borrower must submit at least the following documentation:***

- evidence showing the amount of the borrower’s most recent total monthly gross income from all sources—that is, the gross amount of income the borrower received from employment (either full-time or part-time) and from other sources; and
- evidence showing the most recent monthly amount due on each of the borrower’s federal postsecondary education loans, as determined by the method described below

If the repayment schedule for the loan is 10 years or less, use the actual monthly payment amount. If the repayment schedule for the loan is more than 10 years, use a monthly payment amount that would have been due for a 10-year repayment schedule. If the borrower’s payments are due less frequently than monthly, use the payment amount that is proportional for a month.

5. The borrower is serving as a volunteer in the Peace Corps. Schools may grant deferments for Peace Corps service for periods longer than 1 year at a time, but these periods must not collectively exceed 3 years.

Note that the deferment provision for borrowers whose debt burden exceeds 20% of total monthly gross income has been eliminated. See the 2008–09 FSA Handbook for details on the 220% limitation for that deferment.

* a borrower is considered to be working full-time if he or she is expected to be employed for at least 3 consecutive months for at least 30 hours per week.

** The poverty guidelines are published annually by the Department of Health and Human Services. If a borrower is not a resident of a State identified in the poverty guidelines, the poverty guideline to be used for the borrower is the poverty guideline (for the relevant family size) used for the 48 contiguous states.

*** To qualify for a subsequent period of deferment that begins less than 1 year after the end of the deferment described in option 3 or 4 above, the borrower must submit a copy of his or her federal income tax return if the borrower filed a tax return within the 8 months preceding the date the deferment is requested.

Determining maximum monthly gross income & 150% of poverty line (#3)

Monthly gross income at minimum at minimum wage

The current hourly minimum wage is available at www.dol.gov/dol/topic/wages/minimumwage.htm

To find monthly gross income, multiply the minimum wage by the typical work-hours in a year (2008), and then divide this amount by 12 months.

As of July 24, 2009, the minimum wage is $7.25, making the current monthly gross income of a minimum wage earner $1,213.

Determining 150% of the poverty line for the borrower’s family size

Annual poverty line guidelines, as defined by Section 673(2) of the Community Service Block Grant Act, are available at http://aspe.hhs.gov/poverty/poverty.shtml

Note that an unborn child may be included if that child will be born during the year the borrower certifies family size or for the period the borrower requests an economic hardship deferment.
Military service deferment

A borrower who is serving on active duty in the U.S. Armed Forces or performing qualifying National Guard duty may defer repayment (principal or interest) on a Perkins Loan, if the duty is in connection with a war, military operation, or national emergency.

The overall 3-year limit for this deferment was eliminated in October of 2007, as was the provision that limited the availability of the deferment to loans first disbursed on or after July 1, 2001. A borrower may receive deferment for all eligible outstanding loans in repayment as of October 1, 2007. A borrower whose deferment eligibility had expired due to the prior 3-year limitation and who was still serving on eligible active duty on or after October 1, 2007 may receive the deferment retroactively from the date the prior deferment expired until the end of the borrower's active duty service.

Effective October 1, 2007, the deferment is extended 180 days for qualifying periods of service that include October 1, 2007 or that begin on or after that date. This additional period is available each time a borrower is demobilized at the conclusion of qualifying service. This additional 180-day deferment may not be granted without documentation supporting the borrower's claim of end-of-military-service date.

A borrower may not be reimbursed for any payments made by or on behalf of a borrower during a period for which the borrower qualified for a deferment.

13-month post-active duty deferment

Effective October 1, 2007, borrowers who are members of National Guard or Armed Forces Reserve, and members of the Armed Forces who are in retired status, are eligible for a 13-month period of deferment on repayment of their Perkins loans following the completion of their active duty military service if they were enrolled in a postsecondary school at the time of, or within 6 months prior to, their activation. Reserve or retired members of the Armed Forces may qualify for both the post-active duty deferment and for the military service deferment, and may receive both deferments if eligible. If a student receives both deferments, the overlapping periods of deferment will run concurrently.

A borrower returning from active duty who is in a grace period is not required to waive the grace period to use the 13-month post-active duty student deferment. If the borrower reenrolls in postsecondary school (at least half-time) prior to the expiration of the 13-month period, the deferment ends on the date the student re-enrolls.

Unlike the military service deferment described above, students receiving the active duty student deferment need not be activated in connection with a war, national emergency, or other military operation.

For purposes of the post-active duty student deferment, “active duty” has the same meaning as in Section 101(d)(1) of Title 10, United States Code, but does not include active duty for training or attendance at a service school/academy.

Members of the National Guard may qualify for this deferment for Title 32 full-time National Guard duty under which a Governor is authorized, with the approval of the President or the U.S. Secretary of Defense, to order a member to State active duty and the activities of the National Guard are paid for by federal funds; or for State active duty under which a Governor activates National Guard personnel based on State statute or policy, and the activities of the National Guard are paid for by State funds. Active duty does not include a borrower who is serving full-time in a permanent position with the National Guard, unless the borrower is reassigned as part of a call-up to active duty service.

Definitions for purposes of military service deferments

**Active duty** means full-time duty in the active military service of the United States, except that it does not include active duty for training or attendance at a service academy.

**Military operation** means a contingency operation that is designated by the Secretary of Defense as an operation in which members of the Armed Forces are or may become involved in military actions, operations, or hostilities against an enemy of the U.S. or an opposing military force; or results in the call to or retention on active duty of members of the uniformed services.

**National Guard duty** means training or other duty, other than inactive duty, when called to active service authorized by the President of the United States or Secretary of Defense (and paid for with federal funds) for a period of more than 30 consecutive days in connection with a war, national emergency, or other military operation.

**National emergency** means a national emergency by reason of terrorist attacks as declared by the President on September 14, 2001, or subsequent national emergencies declared by the President by reason of terrorist attacks.
Deferments for Loans Made Before July 1, 1993

The deferments in this section are only available for Perkins Loans made before July 1, 1993, and NDSLs made between October 1, 1980 and July 1, 1993. For information on deferment provisions exclusive to loans made before October 1, 1980, see the 1994–95 Federal Student Financial Aid Handbook or 34 CFR 674.37.

Military & related service deferments

A borrower may defer repayment for up to 3 years, and interest will not accrue while he or she is:

- a member of the U.S. Army, Navy, Air Force, Marines, or Coast Guard;
- a member of the National Guard or the Reserves serving a period of full-time active duty in the Armed Forces;
- an officer in the Commissioned Corps of the U.S. Public Health Service;
- (for Perkins Loans made before July 1, 1993, only) on full-time active duty as a member of the National Oceanic and Atmospheric Administration Corps.

Parenting deferments [for Perkins Loans made before July 1, 1993, only]

A borrower may defer repayment (and interest will not accrue) during a period of up to 1 year if the borrower is a mother of a preschool-age child, provided the mother is working (or going back to work) at a salary that is no more than $1.00 above the minimum hourly wage.

A borrower may also defer repayment for up to six months if the borrower is pregnant, or if he or she is taking care of a newborn or newly adopted child. This deferment is called a parental leave deferment. The borrower must be unemployed and not attending school and must apply for deferment within 6 months of leaving school or dropping below half-time status.

Hardship deferments

Loans disbursed before July 1, 1993 are eligible for an additional type of hardship deferment, which is separate and different from an economic hardship deferment.

A borrower may defer repayment for hardship, as determined by the school (for example, if the borrower is facing a prolonged period of illness or unemployment). A borrower may qualify for unlimited deferments due to hardship.

Interest will continue to accrue during the hardship deferment. Also, hardship deferments do not have post-deferment grace periods.

Service as (or comparable to) Peace Corps/Americorps*VISTA Volunteer

A borrower may defer repayment for up to three years and interest will not accrue while he or she is a Peace Corps or AmeriCorps*VISTA (under Title I, Part A of the Domestic Volunteer Service Act of 1973) volunteer or providing comparable service. A borrower is considered to be providing service comparable to Peace Corps or AmeriCorps*VISTA service if he or she meets all of the following five criteria:

1. The borrower serves in an organization that is exempt from taxation under the provisions of Section 501(c)(3) of the Internal Revenue Code of 1954;
2. The borrower provides service to low-income persons and their communities to assist them in eliminating poverty and poverty-related human, social, and environmental conditions;
3. The borrower does not receive compensation that exceeds the rate prescribed under Section 6 of the Fair Labor Standards Act of 1938 (the federal minimum wage), except that the tax-exempt organization may provide the volunteer with health, retirement, and other fringe benefits that are substantially equivalent to the benefits offered to other employees of the organization;
4. The borrower, as part of his or her duties, does not give religious instruction, conduct worship service, engage in religious proselytizing, or engage in fund-raising to support religious activities; and
5. The borrower has agreed to serve on a full-time basis for a term of at least 1 year.
Temporary Total Disability Deferment

An affidavit from a qualified physician is required to prove disability. (A qualified physician is a doctor of medicine or osteopathy who is legally authorized to practice medicine.) A borrower is temporarily totally disabled if he or she is, due to illness or injury, unable to attend an eligible school or to be gainfully employed during a reasonable period of recovery.

A borrower may receive deferment for temporary total disability of a spouse or dependent if the spouse or dependent requires continuous nursing or other services from the borrower for a period of at least 3 months due to illness or injury.

The definition of dependent for temporary total disability deferment purposes is the same as the definition used in the Free Application for Federal Student Aid (FAFSA) for a member of the independent applicant’s household: A borrower’s dependent is a child who receives more than half of his or her financial support from the borrower or another person who lives with the borrower and who receives more than half of his or her financial support from the borrower.

Internship/Residency Deferment

A borrower who is serving in a medical internship or residency program is not considered to be in school for deferment purposes and may not receive an in-school deferment on that Perkins Loan for the internship or residency program; however, the borrower is eligible for an internship deferment for up to 2 years.

While the borrower is serving an eligible internship, he or she may defer repayment for up to 2 years. Interest will not accrue during the internship deferment. An eligible internship is one that requires the borrower to hold at least a bachelor’s degree before beginning the program.

The internship must also be required by a state licensing agency as a prerequisite for certification of the individual for professional practice or service. The borrower must provide the school certification from an official of the appropriate state licensing agency indicating that the successful completion of the internship is required by the state licensing agency as a prerequisite for certification for professional practice or service. The borrower must further provide a statement from the organization where the borrower will be an intern certifying:

- that applicants must hold a bachelor’s degree to be admitted into the internship program;
- that the borrower has been accepted into the internship program; and
- the dates when the borrower is expected to begin and complete the program.

Borrowers of Perkins Loans made before July 1, 1993, may alternatively show that the internship or residency program leads to a degree or certificate awarded by an institution of higher education, a hospital, or a health care facility offering postgraduate training. The borrower must provide the school with a statement from an authorized official of the internship program certifying that:

- an individual must have a bachelor’s degree to be admitted into the program;
- the borrower has been accepted into the program; and
- the internship or residency program leads to a degree or certificate awarded by an institution of higher education, a hospital, or a health care facility that offers postgraduate training.
Perkins Cancellation

A borrower may have all or part of his or her loan cancelled for teaching, certain volunteer service serving in the military or as a law enforcement or corrections officer, or full-time employment in certain other public services. In addition, loans may be discharged if the borrower becomes disabled or dies, or in certain cases involving bankruptcy or school closure.

GENERAL CANCELLATION PROVISIONS

Application for cancellation

The following cancellation application procedures apply to any loan under this program.

The borrower applies for cancellation of his or her loan by obtaining the appropriate cancellation form from the business or student loan office of the school that made the loan (or from the school’s billing service if it uses one). The borrower submits the form to the school, along with any supporting documentation the school requests, by the deadline the school establishes.

A school must determine, based on the borrower’s documentation, whether the borrower is entitled to have any portion of his or her loans cancelled. This responsibility cannot be delegated. For information on documentation, see the appropriate cancellation category in this section.

Concurrent deferment

Schools must automatically defer loans during periods of service for which schools also grant loan cancellation. Borrowers do not need to apply for these automatic deferments.

ED reimbursement to school

If funds are appropriated, the Department will reimburse each school every award year for the principal and interest cancelled from its Perkins Loan Fund for all of the cancellation provisions except for death, total and permanent disability, bankruptcy, and closed school discharge. Note that no funds were appropriated this year for reimbursements for the 2009-10 award year. (See the electronic announcement dated May 12, 2011)

If it receives reimbursement, a school must deposit the amount reimbursed in its Perkins Loan Fund. For more information and a full Q&A on reimbursing amounts cancelled, see Dear Colleague Letter CB-05-08.

Note that interest does not accrue on any loan during the period that a borrower is performing service to qualify for cancellation benefits.
CANCELLATION RESTRICTIONS

Prior service & payments prior to cancellation

Schools may not cancel any portion of a loan for services the borrower performed either before the date the loan was disbursed or during the enrollment period covered by the loan.

Schools may not refund payments made during a period for which the borrower qualified for a cancellation, unless the borrower made the payment because of the school’s error. To reduce the chance of error, a school should keep the borrower informed of any new cancellation benefits.

Defaulted loans

A school may cancel a defaulted loan if the only reason for the default was the borrower’s failure to file a cancellation request on time. If the loan has already been accelerated, only eligible service performed prior to the date of acceleration can be considered for cancellation. A borrower is not entitled to cancellation for any eligible service performed after the date of acceleration.

AmeriCorps recipients

Schools may not grant cancellation of a Perkins Loan or National Direct Student Loan (NDSL) to a borrower who has received a national service education award for volunteer service with AmeriCorps (Subtitle D of Title I of the National and Community Service Act of 1990).
ELEMENTARY/SECONDARY TEACHER CANCELLATION

Schools must cancel up to 100% of a Perkins Loan if the borrower has served full-time in a public or nonprofit elementary or secondary school system as:

- A teacher in a low-income school or a low-income educational service agency.
- A teacher in a teacher shortage field, including mathematics, science, foreign languages, or bilingual education or any other field of expertise that is determined by a state education agency to have a shortage of qualified teachers in that state.
- A special-education teacher, including teachers of infants, toddlers, children, or youth with disabilities.

The cancellation form that the borrower files must be signed by an official in the school system or agency to certify the borrower’s service. Eligibility for teacher cancellation is based on the duties presented in an official position description, not on the position title. To receive a cancellation, the borrower must be directly employed by the school system.

To qualify for cancellation based on any of these three conditions, a borrower must teach full-time for a complete academic year or its equivalent. See the next page for exceptions covering special cases, such as illness or pregnancy.

Cancellation for teaching in a low-income school or educational service agency

A borrower qualifies for this cancellation by teaching full-time in a low-income public or other nonprofit elementary or secondary school, or by teaching full-time for an educational service agency (ESA) listed in the Teacher Cancellation Low-Income Directory (see sidebar).

For cancellation purposes, a borrower employed by an ESA may be teaching

- at a location operated by the ESA (such as a stand-alone school that serves students from many different school districts), or
- in a conventional elementary and secondary school (such as a vocational education teacher employed by the ESA to teach courses in several different secondary schools).

If a borrower is teaching at a school that is on the list one year but not in subsequent years, the borrower may continue to teach in that school and remain eligible to receive a cancellation for service in that school.

Cancellation for teaching in a teacher shortage field

A school must cancel up to 100% of the outstanding balance on a borrower’s Perkins loan for a full-time teacher in a field of expertise that is determined by a state education agency to have a shortage of qualified teachers in that state. A borrower who is teaching in science, mathematics,
A teacher is a person who provides students direct classroom teaching, classroom-type teaching in a non-classroom setting, or educational services directly related to classroom teaching (e.g., school librarian, guidance counselor).

It is not necessary for a teacher to be certified or licensed to receive cancellation benefits. However, the employing school must consider the borrower to be a full-time professional for the purposes of salary, tenure, retirement benefits, and so on. In other words, to qualify, the borrower should accrue the same benefits as teachers who are licensed and/or certified.

A supervisor, administrator, researcher, or curriculum specialist is not a teacher unless he or she primarily provides direct and personal educational services to students.

Under certain conditions, a teacher’s aide may be considered eligible for teacher cancellation. The teacher’s aide must meet the definition of a “full-time teacher.” He or she must have a bachelor’s degree and be a professional recognized by the state as a full-time employee rendering direct and personal services in carrying out the instructional program of an elementary or secondary school.

Volunteer teachers are not professionally employed on a full-time basis and, therefore, are not eligible for teacher cancellation benefits.

Teaching full-time for a full academic year

The borrower must teach full-time for a full academic year or its equivalent. There is no requirement that a teacher must teach a given number of hours a day to qualify as a full-time teacher; the employing school is responsible for determining whether or not the individual is considered to be a full-time teacher.

An “academic year or its equivalent” for teacher cancellation purposes is defined as one complete school year. Two half-years count as an academic year if they are complete, consecutive, from different school years (excluding summer session), and generally fall within a 12-month period.

A borrower who cannot complete the academic year because of illness or pregnancy may still qualify for cancellation if he or she has completed the first half of the academic year and has begun teaching the second half, but the borrower’s employer must consider the borrower to have fulfilled his or her contract for the academic year.

Teaching part-time at multiple schools

Schools must grant cancellation to a borrower who is simultaneously teaching part-time in 2 or more schools if an official at one of the schools where the borrower taught certifies that the borrower taught full-time for a full academic year. For example:

- under a consortium agreement, a borrower may be employed by the consortium and teach at member schools;
- two or more schools, by mutual agreement, could arrange to have one school employ the borrower on a full-time basis and then hire out his or her services to the other school(s) involved in the agreement; or
- a borrower can be considered to have been a full-time teacher for an academic year if he or she can obtain appropriate certifications that he or she has taught in two half-time teaching positions for a complete academic year in two elementary or secondary schools or in two secondary schools.

A school may refuse cancellation for simultaneous teaching in two or more schools if it cannot easily determine that the teaching was full-time.

Teaching in a private school

A borrower may receive teacher cancellation for services performed in a private elementary or secondary school or academy, if the private school or academy has established its nonprofit status with the Internal Revenue Service (IRS) and if the school or academy is providing elementary or secondary education according to state law. The school or academy does not necessarily need to be accredited for a borrower teaching there to qualify for teacher cancellation.

Teaching in a school system

To be eligible for cancellation, a borrower employed in a public or other nonprofit elementary or secondary school system or an educational service agency must be directly employed by the school system.

Teaching in a preschool or prekindergarten program

A borrower may receive teacher cancellation for teaching service performed in a preschool or prekindergarten program if the state considers the program to be a part of its elementary education program. A low-income-school-directory designation that includes prekindergarten or kindergarten does not suffice for a state determination of program eligibility. The school must check with the state superintendent of public instruction to determine whether these programs are part of the state elementary education program.

Teaching both children and adults

If the borrower teaches both children and adults, the majority of students must be children for the borrower to qualify for cancellation.

Job Corps teachers

Teaching service performed in a Job Corps Project does not qualify for Perkins cancellation unless the teaching is conducted in an elementary or secondary school or school system.

How are low-income schools & ESAs selected?

The Department selects elementary/secondary schools and educational service agencies (ESAs) for inclusion in the Teacher Cancellation Low-Income Directory, in consultation with each state’s educational agency, based on these criteria:

- the school or ESA is in a school district that qualifies for “Title I” federal funding based on the large number of low-income families in the district; and
- more than 30% of the school’s or ESA’s enrollment is made up of children from low-income families.
foreign language, or bilingual education qualifies for cancellation even if the state has not designated the subject area in which he or she is teaching as a shortage area.

For a borrower to be considered as teaching in a field of expertise that has a shortage of teachers, the majority of classes taught must be in that field of expertise.

**Cancellation for teaching in special education**

A school must cancel up to 100% of the outstanding balance on a borrower’s Perkins loan for a full-time special education teacher of infants, toddlers, children, or youth with disabilities. The teaching service must be performed in a public or other nonprofit elementary or secondary school system.

A person performing one of the following services is considered a teacher if the service is part of the educational curriculum for handicapped children:

- speech and language pathology and audiology;
- physical therapy;
- occupational therapy;
- psychological and counseling services; or
- recreational therapy

To qualify for cancellation, the borrower must be licensed, certified, or registered by the appropriate state education agency for that area in which he or she is providing related special educational services.

---

**Children and youth with disabilities**

Children and youth from ages 3 through 21, inclusive, who require special education and related services because they have disabilities as defined in Section 602(3) of the Individuals with Disabilities Education Act (the Act). The Act defines a “child with a disability” as one (1) with mental retardation, hearing impairments (including deafness), speech or language impairments, visual impairments (including blindness), serious emotional disturbance, orthopedic impairments, autism, traumatic brain injury, other health impairments, or specific learning disabilities; and (2) who, by reason thereof, needs special education and related services.

For a child age 3 through 9, the term a “child with a disability” may include, at the discretion of a state and the local education agency, individuals (1) experiencing developmental delays, as defined by the state and as measured by appropriate instruments and procedures, in one or more of the following areas: physical development, cognitive development, communication development, social or emotional development, or adaptive development; and (2) who, by reason thereof, require special education and related services.
PUBLIC SERVICE CANCELLATIONS

Nurse or medical technician cancellation

Schools must cancel up to 100% of a Perkins Loan if the borrower has served full-time as a nurse or medical technician providing health care services. The borrower must provide health care services directly to patients.

For purposes of this cancellation—

- a nurse is a licensed practical nurse, a registered nurse, or other individual who is licensed by the appropriate state agency to provide nursing services.
- a medical technician is an allied health professional (working in fields such as therapy, dental hygiene, medical technology, or nutrition) who is certified, registered, or licensed by the appropriate state agency in the state in which he or she provides health care services; an allied health professional is someone who assists, facilitates, or complements the work of physicians and other specialists in the health care system. (See Dear Colleague Letter CB-08-14 for a more detailed discussion of the eligibility requirements for the medical technician cancellation.)

A school may refuse a request for cancellation based on a claim of simultaneous employment as a nurse or medical technician in two or more facilities if it cannot determine easily from the documentation supplied by the borrower that the combined employment is full-time. However, it shall grant the cancellation if one facility official certifies that a nurse or medical technician worked full-time for a full year.

Firefighter cancellation

A school must cancel up to 100% of the outstanding balance on a borrower’s Perkins loan for service that includes August 14, 2008, or begins on or after that date, as a full-time firefighter.

A firefighter is an individual who is employed by a federal, state, or local firefighting agency to extinguish destructive fires; or provide firefighting related services such as conducting search and rescue, providing hazardous materials (HAZMAT) mitigation, or providing community disaster support and, as a first responder, providing emergency medical services.

Early intervention (for disabled infants/toddlers) cancellation

Schools must cancel up to 100% of the outstanding balance on a Perkins Loan if the borrower has been employed full-time as a qualified professional provider of early intervention services in a public or other nonprofit program. “Early intervention services” are provided to infants and toddlers with disabilities, (see box for definition).

This cancellation applies to Perkins loans made on or after July 23, 1992. Perkins loans made prior to that date are eligible for cancellation for early intervention service that is performed on or after October 7, 1998.
Early intervention definitions

**Infants and toddlers with disabilities**

An individual under 3 years of age who needs early intervention services because the individual (1) is experiencing developmental delays, as measured by appropriate diagnostic instruments and procedures, in one or more of the areas of cognitive development, physical development, communication development, social or emotional development, and adaptive development; or (2) has a diagnosed physical or mental condition which has a high probability of resulting in developmental delay.

The term may also include, at a state's discretion, individuals under age 3, who are at risk of having substantial developmental delays if early intervention services are not provided. Section 632(5)(A) of the Individuals with Disabilities Education Act.

**Qualified professional provider of early intervention services**

A provider of services, as defined in Section 632 of the Individuals with Disabilities Education Act. Section 632 of that Act defines early intervention services as developmental services that:

- are provided under public supervision;
- are provided at no cost except where federal or state law provides for a system of payments by families, including a schedule of sliding fees;
- are designed to meet the developmental needs of an infant or toddler with a disability in one or more of the following areas: physical development, cognitive development, communication development, social or emotional development, or adaptive development;
- meet the standards of the state in which they are provided;
- are provided by qualified personnel, including: special educators; speech and language pathologists and audiologists; occupational therapists; physical therapists; psychologists; social workers; nurses; nutritionists; family therapists; orientation and mobility specialists; and pediatricians and other physicians;
- to the maximum extent appropriate, are provided in natural environments, including the home, and community settings in which children without disabilities participate; and
- are provided in conformity with an individualized family service plan adopted in accordance with Section 636 of the Individuals with Disabilities Education Act.

Under the Individuals with Disabilities Education Act, early intervention services include: family training, counseling, and home visits; special instruction; speech-language pathology and audiology services; occupational therapy; physical therapy; psychological services; service coordination services; medical services only for diagnostic or evaluation purposes; early identification, screening, and assessment services; health services necessary to enable the infant or toddler to benefit from the other early intervention services; social work services; vision services; assistive technology devices and services; and transportation and related costs necessary to enable infants, toddlers, and their families to receive other services identified in Section 632(4).
**Child or family services cancellation**

A school must cancel up to 100% of the outstanding balance on a Perkins Loan made on or after July 23, 1992, for service as a full-time employee in a public or private nonprofit child or family service agency. To qualify for cancellation, the borrower must be providing services directly and exclusively to *high-risk children* from *low-income communities* and to the families of these children, or supervising the provision of such services. Any services provided to the children’s families must be secondary to the services provided to the children.

For purposes of this cancellation—

- *high-risk children* are defined as individuals under the age of 21 who are low-income or at risk of abuse or neglect, have been abused or neglected, have serious emotional, mental, or behavioral disturbances, reside in placements outside their homes, or are involved in the juvenile justice system.

- *low-income communities* are communities in which there is a high concentration of children eligible to be counted under Title I rules (see sidebar).

The types of services a borrower may provide to qualify for a child or family service cancellation include child care and child development services, health, mental health and psychological services, as well as social services. The Department has determined that an elementary or secondary school system, a hospital, or an institution of higher education is not an eligible employing agency. When reviewing child or family service cancellation requests, Perkins schools and their servicers should refer to Dear Colleague Letter GEN-5-15, which provides a more detailed discussion of the eligibility requirements for child or family service cancellations.

**Speech pathologist (at Title I school) cancellation**

A school must cancel up to 100% of the outstanding balance on a borrower’s Perkins loan for full-time employment that includes August 14, 2008, or begins on or after that date, as a speech pathologist. A speech pathologist is someone who evaluates or treats disorders that affect a person’s speech, language, cognition, voice, swallowing and the rehabilitative or corrective treatment of physical or cognitive deficits/disorders resulting in difficulty with communication, swallowing, or both, and has obtained a postgraduate academic degree awarded after the completion of an academic program of up to 6 years in duration (excluding a doctorate or professional degree).

To qualify for cancellation, the speech pathologist must have a master’s degree and be working exclusively with Title I-eligible schools.
**Librarian (at Title I school) cancellation**

A school must cancel up to 100% of the outstanding Perkins balance for service that includes August 14, 2008, or begins on or after that date, as a full-time librarian.

The librarian must have a master’s degree. A librarian with a master’s degree is defined as an information professional trained in library or information science who has obtained a postgraduate academic degree in library science awarded after the completion of an academic program of up to 6 years in duration (excluding a doctorate or professional degree).

The librarian must be employed

- in an elementary school or secondary school that is eligible for Title I assistance (see sidebar), or
- by a public library that serves a local school district that contains one or more Title I-eligible schools.

**Faculty member at a tribal college or university.**

A school must cancel up to 100% of the outstanding balance on a borrower’s Perkins loan for service that includes August 14, 2008, or begins on or after that date, as a full-time faculty member at a Tribal College or University.

A faculty member at a Tribal College or University is an educator or tenured individual who is employed by a Tribal College or University to teach, research, or perform administrative functions. For purposes of this definition an educator may be an instructor, lecturer, lab faculty, assistant professor, associate professor, full professor, dean, or academic department head.

**Tribal college or university.**

An institution that—

1. Qualifies for funding under the Tribally Controlled Colleges and Universities Assistance Act of 1978 (25 U.S.C. 1801 et seq.) or the Navajo Community College Assistance Act of 1978 (25 U.S.C. 640a note); or

34 CFR 674.51(bb)

The Department of Education maintains a list of tribal colleges and universities at:

http://www2.ed.gov/about/insps/list/whtc/edlite-tclist.html
LAW ENFORCEMENT & PUBLIC DEFENDER CANCELLATIONS

Law enforcement or corrections officer cancellation

A school must cancel up to 100% of a Perkins Loan made on or after November 29, 1990, if the borrower performs full-time service for 12 consecutive months as a law enforcement or corrections officer for an eligible employing agency.

To establish the eligibility of a borrower for the law enforcement or corrections officer cancellation provision, the school must determine that (1) the borrower’s employing agency is eligible and that (2) the borrower’s position is essential to the agency’s primary mission.

A local, state, or federal agency is an eligible employing agency if it is publicly funded and its activities pertain to crime prevention, control, or reduction, or to the enforcement of the criminal law. Such activities include, but are not limited to—

- police efforts to prevent, control, or reduce crime or to apprehend criminals;
- activities of courts and related agencies having criminal jurisdiction;
- activities of corrections, probation, or parole authorities; and
- the prevention, control, or reduction of juvenile delinquency or narcotic addiction.

Agencies that are primarily responsible for enforcement of civil, regulatory, or administrative laws are ineligible. However, because the activities of many divisions and bureaus within local, state, and federal agencies pertain to crime prevention, control, or reduction, or to the enforcement of criminal law, a sub-unit within a larger, non-law enforcement agency may qualify as a law enforcement agency for purposes of a law enforcement cancellation.

For the borrower’s position to be considered essential to the agency’s primary mission, he or she must be a full-time employee of an eligible agency and a sworn law enforcement or corrections officer or person whose principal responsibilities are unique to the criminal justice system and are essential in the performance of the agency’s primary mission. The agency must be able to document the employee’s functions.

Individuals whose official responsibilities are supportive, such as those that involve typing, filing, accounting, office procedures, purchasing, stock control, food service, transportation, or building, equipment, or grounds maintenance are not eligible for the law enforcement or correction officer loan cancellation, regardless of where these functions are performed.

Law enforcement cancellation for loans prior to Nov. 29, 1990

A school must cancel up to 100% of the outstanding loan balance on a Perkins (or NDSL or Defense loan) made prior to November 29, 1990, for law enforcement or correction officer service performed on or after October 7, 1998, if the cancellation benefits provided under this section are not included in the terms of the borrower’s promissory note. The service must be full-time, and be performed over 12 consecutive months.
Public defender cancellation

Prosecuting attorneys whose primary responsibilities are to prosecute criminal cases on behalf of public law enforcement agencies are eligible for cancellation benefits. Full-time attorneys employed in federal public defender organizations or community defender organizations (see sidebar), are now also eligible.

For purposes of this cancellation

- *a community defender organization* is a defender organization established in accordance with section 3006A(g)(2)(B) of Title 18, United States Code.

- *a federal public defender organization* is a defender organization established in accordance with section 3006A(g)(2)(A) of Title 18, United States Code.

Cancellations are for eligible service that includes August 14, 2008, or begins on or after that date, regardless of whether information on the expansion of the cancellation category appears on the borrower’s promissory note.

---

Eligible public/community defender organizations

34 CFR 674.51(e)

Federal public defender organizations or community defender organizations are established in accordance with Section 3006A(g)(2) of Title 18, U.S.C.
Change to military service cancellation limitation
Borrowers may now receive military service cancellation of up to 100% percent of the loan. Effective for a full year of qualifying service that includes August 14, 2008 or begins after that date.

Military cancellations for earlier loans
• A school must cancel up to 50% of a Defense loan made after April 13, 1970, for the borrower’s full-time active service starting after June 30, 1970, in the U.S. Armed Forces.
• A school must cancel up to 50% of the outstanding balance on a Perkins/NDSL loan for active duty service that ended before August 14, 2008, as a member of the U.S. armed forces in an area of hostilities that qualifies for special pay under section 310 of title 37 of the United States Code (see below).

The cancellation rate is 12.5% of the original loan principal, plus the interest on the unpaid balance accruing during the year of qualifying service, for each complete year of qualifying service.

Special pay in areas of hostilities/imminent danger
The Department of Defense maintains an updated listing of hostile fire/imminent danger pay areas at the following URL: www.dod.mil/comptroller/fmr/07a/index.html

The Department of Defense does not prorate or reduce a hostile fire/imminent danger pay area payment if the service in the hostile fire/imminent danger pay area is for a period of time less than a full month. If a member of the U.S. Armed Forces is on active duty in a hostile fire/imminent danger pay area for any part of a month, the service member qualifies for the full payment of hostile fire/imminent danger pay for that month.

MILITARY SERVICE CANCELLATION
A school must cancel up to 100% of the outstanding balance of a Perkins loan for a full year of active duty service in the U.S. armed forces in an area of hostilities or an area of imminent danger that qualifies for special pay (see sidebar). The “U.S. armed forces” are the United States Army, Navy, Air Force, Marine Corps, or Coast Guard.

The borrower’s commanding officer must certify the borrower’s service dates. Active duty service for less than a complete year or a fraction of a year beyond a complete year does not qualify. A complete year of service is 12 consecutive months.

Areas that qualify for hostile fire/imminent danger pay are listed on the Web (see sidebar). Note that the borrower does not have to serve the full 12 months of active duty service in such an area to qualify for the cancellation. If a borrower is on active duty in such an area for any part of a month, that month counts towards the borrower’s eligibility for a military cancellation.

The cancellation rate is the standard progression for up to 100% cancellation: 15% for the first and second year of qualifying service, 20% for the third and fourth year of qualifying service, and 30% for the fifth year of qualifying service.

EARLY CHILDHOOD EDUCATION CANCELLATION
(PREKINDERGARTEN, CHILD CARE, HEAD START)
A school must cancel up to 100% of a Perkins Loan if the borrower has served

• as a full-time staff member in a Head Start program.
• as a full-time staff member of a prekindergarten or child care program that is licensed or regulated by the state.

For purposes of these early education cancellations
• “Head Start” is a preschool program carried out under the Head Start Act (subchapter B, chapter 8 of Title VI of Pub. L. 97–35, the Budget Reconciliation Act of 1981, as amended; formerly authorized under section 222(a)(1) of the Economic Opportunity Act of 1964). (42 U.S.C. 2809(a)(1))
• A prekindergarten program is a state-funded program that serves children from birth through age six and addresses the children’s cognitive (including language, early literacy, and early mathematics), social, emotional, and physical development.
• A child care program is a program that is licensed or regulated by the state and provides child care services for fewer than 24 hours per day per child, unless care in excess of 24 consecutive hours is needed due to the nature of the parents’ work.
• A full-time staff member is someone who is regularly employed in a
full-time professional capacity to carry out the educational part of the early education program.

For the prekindergarten and child care program cancellation, the period of service must include August 14, 2008, or begin on or after that date.

In order to qualify for cancellation, the early education program in which the borrower serves must operate for a complete academic year, or its equivalent. The borrower’s salary may not exceed the salary of a comparable employee working in the local educational agency of the area served by the early education program.

The cancellation rate is 15% of the original loan principal, plus the interest on the unpaid balance accruing during the year of qualifying service, for each complete academic year, or its equivalent, of full-time teaching service.

An official of the early education program should sign the borrower’s cancellation form to certify the borrower’s service.

VOLUNTEER SERVICE CANCELLATION

Schools must cancel up to 70% of a Perkins Loan if the borrower has served as a Peace Corps or AmeriCorps*VISTA (under Title I, Part A of the Domestic Volunteer Service Act of 1973) volunteer. An authorized official of the Peace Corps or AmeriCorps*VISTA program must sign the borrower’s cancellation form to certify the borrower’s service.

AmeriCorps volunteers do not qualify for this cancellation unless their volunteer service is with AmeriCorps*VISTA. An AmeriCorps*VISTA volunteer may only qualify for this cancellation if the AmeriCorps*VISTA volunteer elects not to receive a national service education award for his or her volunteer service. The AmeriCorps*VISTA volunteer must provide appropriate documentation showing that the volunteer has declined the AmeriCorps national service education award.

Schools apply cancellation for volunteer service in the following increments:

- 15% of the original principal loan amount—plus any interest that accrued during the year—for each of the first and second 12-month periods of service; and
- 20% of the original principal loan amount—plus any interest that accrued during the year—for each of the third and fourth 12-month periods of service.

For Peace Corps Volunteers, the 12-month periods of service include any pre-enrollment training the Volunteer receives at the Peace Corps Post.

U.S. Army loan repayment program

It is useful to know that the U.S. Army offers a loan repayment program as an enlistment incentive. If a Perkins Loan (or Stafford Loan) borrower serves as an enlisted person in the U.S. Army, in the Army Reserves, or in the Army National Guard, the U.S. Department of Defense will repay a portion of the loan. For more information, the student should contact his or her local military recruiting office. This is a recruitment program, not a cancellation, and does not pertain to an individual’s prior Army service.

Early education cancellations for Defense loans

- Head Start. An institution must cancel up to 100% of the outstanding balance on a Defense loan for service as a full-time staff member in a Head Start program performed on or after October 7, 1998, if the cancellation benefits provided under this section are not included in the terms of the borrower’s promissory note.
DISCHARGING PERKINS LOANS

Discharge due to death

You must discharge the remaining balance of any Perkins Loan, NDSL, or Defense Loan if the borrower dies. You must base your determination of death of the borrower on an original or certified copy of the death certificate, or an accurate and complete photocopy of the death certificate.

In most cases, the school should try to obtain a copy of the death certificate from the borrower’s next of kin. If the school is unable to obtain a copy from the next of kin, it may be able to obtain a copy from the state vital statistics office.

Under exceptional circumstances and on a case-by-case basis, your school’s chief financial officer may approve a discharge based upon other reliable documentation supporting the discharge request.

Discharge for total and permanent disability (nonveterans)

If a borrower becomes totally and permanently disabled, he or she must submit a discharge request application certified by a physician who is a doctor of medicine or osteopathy legally authorized to practice in a state. By signing the discharge application, the physician certifies that the borrower is totally and permanently disabled, as defined in the Perkins Loan Program regulations (see sidebar).

The borrower must submit the application to your school within 90 days of the date the physician signed it. The 90-day submission deadline applies to the initial discharge application. The deadline does not apply to requests that your school may make for additional supporting documentation, based on its evaluation of the initial application.

Upon receiving the borrower’s complete application, the school must suspend collection activity on the loan and inform the borrower that the school will review the application and assign the loan to the Department for an eligibility determination if it determines that the application supports the conditions for discharge. If the school determines that the application does not support the conditions for discharge, it must resume collection on the loan.

The school must inform the borrower of the responsibility to return any disbursement of a previously-awarded FSA loan or TEACH Grant that the student receives after the date the physician certified the application. The full amount of the disbursement must be returned to the Department within 120 days of the disbursement date. Failure to do so will cause the loan to be reinstated.
The school must also inform the borrower that the loan will be reinstated if, within 3 years of the date the discharge application was certified, the borrower

- has annual earnings from employment that exceed 100% of the poverty guideline for a family of two (see sidebar).
- receives a new TEACH Grant or a new loan under the Perkins or Direct Loan programs, except for a Direct Consolidation Loan that includes loans that were not discharged.

If your school determines, based on certification from the borrower’s physician, that the borrower is totally and permanently disabled, it must assign the account to the Department (see sidebar for ED servicers). At that time, it must notify the borrower that it has assigned the account to the Department for determination of eligibility for a total and permanent disability discharge and that no payments are due on the loan.

During its review of the application, the Department may ask the borrower to provide additional medical evidence, and may arrange for an additional review of the borrower’s condition by an independent physician at no expense to the borrower.

- If the Department concludes that the borrower is totally and permanently disabled, it will discharge the loan and notify the borrower.
- If the Department concludes that the certification provided by the borrower does not establish that the borrower is totally and permanently disabled, the Department will notify the borrower that the discharge application has been denied and that the loan must be repaid to the Department under the terms of the promissory note.

If your school receives payments from a borrower after the physician certifies the borrower’s loan discharge application, you must forward these payments to the Department and notify the borrower that there is no need to make payments on the loan while the discharge application is under review, unless the Department informs the borrower otherwise.

**Discharge for service-connected disability (veterans)**

A veteran’s Perkins Loan will be discharged if the veteran is unemployable due to a service-connected disability, as determined by the Department of Veterans Affairs (VA). To qualify for discharge of a Perkins loan based on a disability determination by the VA, a veteran must submit a completed copy of the ED-approved discharge application to the school that holds the loan.

The application does not need to be certified by a physician. Instead, the veteran must include documentation from the VA showing that the veteran is unemployable due to a service-connected disability. The veteran will not be required to provide any additional documentation related to his or her disability.
When it receives the completed application and the required documentation, the school must suspend collection activity on the loan and inform the veteran that the school will review the application and supporting documentation and—

- if the documentation from Veterans Affairs indicates that the veteran meets the conditions for a service-related disability discharge, the school will submit the application and supporting documentation to the Department’s servicer for an eligibility determination.

- if the documentation from the Veterans Affairs does not indicate that the veteran meets the conditions for the discharge, the school will resume collection on the loan.

The school must also inform the veteran that even if he or she does not qualify for a service-connected disability discharge, the veteran may reapply for a disability discharge if he or she meets the general definition of “totally and permanently disabled” (see previous topic).

The Department of Education will notify the school of its determination of the veteran’s eligibility for the discharge. If the Department concludes that the veteran is eligible for the discharge, the school must discharge the veteran’s obligation to make further payments on the loan. The school must also return any loan payments received on or after the effective date of the determination by the Department of Veterans Affairs that the veteran is unemployable due to a service-connected disability. (Any such loan payments must be returned to the person who made them.)

However, if the school or the Department of Education determines, based on a review of the documentation, that the veteran is not totally and permanently disabled, the school must resume collection on the loan.

**Closed School Discharge**

Your school must assign to Federal Student Aid (FSA) Collections all its outstanding Perkins and NDSL loans if it is closing (see Chapter 1 of this volume for assignment procedures).

FSA Collections may discharge a Perkins Loan or NDSL made on or after January 1, 1986, if the borrower is unable to complete his or her program of study due to the closure of the school. FSA Collections must reimburse borrowers for payments made voluntarily or by forced collection.

A borrower whose loan was in default and then discharged under this provision is not considered to have been in default and reestablishes FSA eligibility, provided he or she meets all other eligibility criteria. FSA Collections reports the discharge to the credit bureaus to which the previous loan status was reported.
**Discharge for spouses of 9-11 victims**

Schools must discharge the outstanding balance of a Perkins Loan that was made to the spouse of an eligible public servant who died or became permanently and totally disabled due to injuries suffered in the September 11, 2001 terrorist attacks. An eligible public servant is a police officer, firefighter, or other safety or rescue personnel, or a member of the Armed Forces, who died or became permanently and totally disabled due to injuries suffered in the September 11, 2001 terrorist attacks. This discharge is only available on Perkins, NDSL, or Defense Loan amounts that were owed on September 11, 2001. The law doesn’t authorize refunding of any payments made on a loan prior to the loan discharge date.

**Bankruptcy Discharge**

The basic actions a school must take when a borrower files for bankruptcy protection are covered here, in Dear Colleague Letter GEN-95-40 (dated September 1995), and in 34 CFR 674.49. For the best advice on how to proceed when a borrower files for bankruptcy protection, a school should consult its attorney. The school should ensure that the attorney is aware of the due diligence provisions that apply to school actions.

If a school receives notice that a borrower has filed for bankruptcy protection, it must immediately stop collection efforts (outside the bankruptcy proceeding itself). If the borrower has filed under Chapter 12 or 13 of the Bankruptcy Code, the school must also suspend collection efforts against any endorser.

The school must file a proof of claim in the bankruptcy proceeding unless, in the case of a proceeding under Chapter 7 of the Bankruptcy Code, the notice of meeting of creditors states the borrower has no assets.

Effective for bankruptcies filed on or after October 8, 1998, a borrower who receives a general discharge in bankruptcy does not by that order obtain a discharge of a loan that has been in repayment for 7 years or more at the time of the bankruptcy filing. For these bankruptcies, a student loan is discharged by a general discharge order only if the borrower also obtains a court ruling that repayment of the loan would impose an undue hardship on the borrower and his or her dependents.
Bankruptcy procedures

Responding to complaint for determination of dischargeability

Customarily, a borrower obtains a judicial ruling of undue hardship by filing an adversary proceeding—a lawsuit within the bankruptcy proceeding—in the bankruptcy court seeking to prove undue hardship. If a borrower files an adversary proceeding to prove undue hardship under 11 U.S.C. 523(a)(8), the school must decide, on the basis of reasonably available information, whether repayment under the current repayment schedule or under any adjusted schedule would impose undue hardship on the borrower and his or her dependents.

If the school concludes that repayment would not impose an undue hardship, the school must then decide whether the expected costs of opposing the discharge would exceed one-third of the total amount owed on the loan (principal, interest, late charges, and collection costs). If the expected costs do not exceed one-third of the total amount owed on the loan, the school must oppose the discharge and, if the borrower is in default, seek a judgment for the amount owed. If necessary, the school may compromise a portion of that amount to obtain a judgment.

If the school opposes a request for determination of dischargeability on the ground of undue hardship, a school may also file a complaint with the court to obtain a determination that the loan is not dischargeable and to obtain a judgment on the loan.

Schools that are state instrumentalities may, as an alternative, oppose an undue hardship claim by asserting their immunity from suit in bankruptcy. As with any other action in defending student loans in bankruptcy, the school should consult with counsel and should ensure that counsel is fully informed about recent changes in Department regulations to support this position.

Procedures for responding to proposed Chapter 13 repayment plan

Under Chapter 13, the borrower may generally obtain an adjustment in repayment terms of all of his/her debts. The borrower proposes a repayment plan that addresses whether and how each debt or class of debts will be paid. If the court approves the plan, creditors are bound to the terms of that plan for duration of the plan, typically 3 to 5 years. If the borrower’s repayment plan proposes full repayment of the Perkins Loan, including all principal, interest, late charges, and collection costs on the loan, no response from the school is required. The school is also not required to respond to a proposed repayment plan that does not include any provision in regard to the Perkins Loan obligation or to general unsecured claims.

If the borrower proposes to repay less than the total amount owed and that the remainder be discharged, the school must determine, from its own records and court documents, the amount of the loan dischargeable under the plan. The school does this by subtracting the total proposed payments from the total amount owed. The school must also determine from its own records and court documents whether the borrower’s proposed repayment plan meets the requirements of 11 U.S.C. 1325. Two of those requirements are particularly relevant:

- First, the amount to be paid under the plan must at least equal the amount the school would receive if the debtor had filed under Chapter 7 rather than under Chapter 13.
- Second, to pay creditors under the plan, the debtor must use all income not needed to support himself or herself and his or her dependents.
Chapter 5—Perkins Cancellation

Bankruptcy procedures, continued

If the borrower’s proposed repayment plan does not meet the requirements of 11 U.S.C. 1325, the school must object to the confirmation by the court of the proposed plan, unless the cost of this action will exceed one-third of the dischargeable loan debt; if the cost will exceed one-third of the dischargeable debt, the school is not required to take this action.

Also, when a borrower proposes to repay less than the total amount owed, the school must determine whether grounds exist under 11 U.S.C. 1307 for the school to move to have the Chapter 13 case either dismissed or converted to a Chapter 7 proceeding. Such grounds include a borrower’s failure to (1) begin payments under the plan within the required time (usually 30 days from the date the plan is filed), (2) file a proposed plan in a timely manner, or (3) pay required court fees and charges.

If the school determines that such grounds do exist, the school must move to dismiss or convert the Chapter 13 case to a Chapter 7 proceeding, unless the cost of this action will exceed one-third of the dischargeable loan debt.

After a borrower’s proposed repayment plan is confirmed by the court, the school must monitor the borrower’s compliance with the repayment plan. If the school determines from its own records or court documents that the borrower either has not made the payments required under the plan or has filed for a hardship discharge under 11 U.S.C. 1328(b), the school must determine whether grounds exist under 11 U.S.C. 1307 to dismiss the case filed under Chapter 13 or to convert the Chapter 13 case to a Chapter 7 proceeding or whether the borrower is entitled to a hardship discharge. If grounds do exist under 11 U.S.C. 1307 to dismiss or convert a Chapter 13 case, the school must move to convert or dismiss the case. If a borrower has not demonstrated entitlement to a hardship discharge under 11 U.S.C. 1328(b), the school must oppose the hardship discharge request, unless the costs of these actions, when added to those already incurred, would exceed one-third of the dischargeable debt.

Resuming/terminating billing and collection

A school must resume billing and collection procedures after the borrower has received a discharge under 11 U.S.C. 727, 11 U.S.C. 1141, 11 U.S.C. 1228, 11 U.S.C. 1328(a), or U.S.C. 1328(b) unless the court has found that repayment would impose an undue hardship. If the court has found that repayment would impose an undue hardship, the school must terminate all collection action and write off the loan. If a school receives a repayment from a borrower after a loan has been discharged, it must deposit that payment in its Perkins Loan Fund.

Bankruptcies filed before October 8, 1998

COMMUNICATION WITH BORROWER

While billing and collection activities involve many steps, there are general requirements that your school must adhere to at all times. You must inform the borrower of all program changes that affect his or her rights and responsibilities. Your school must respond promptly to the borrower’s inquiries. If a borrower disputes a loan and you cannot resolve the dispute, you must explain the services provided by the Department’s Federal Student Aid (FSA) Ombudsman’s office.

Keeping current information on a borrower makes it easier for the school to know when repayment must begin and where to send billing notices. The various offices at the school—the admissions, business, alumni, placement, financial aid, and registrar’s offices, and others, as necessary—must provide any available information about the borrower that is relevant to loan repayment, including:

- the borrower’s current enrollment status;
- the borrower’s expected graduation or termination date;
- the date the borrower officially withdraws, drops below half-time enrollment, or is expelled; and
- the borrower’s current name, address, telephone number, Social Security number, and driver’s license number (if any).

Exit interviews for students enrolled in a correspondence or study-abroad program

In the case of students enrolled in a correspondence program or a study-abroad program that your school approves for credit, you may provide written counseling materials by mail within 30 days after the borrower completes the program.

Perkins NSLDS Reporting

34 CFR 674.16
You must report enrollment and loan status information to NSLDS by the deadline date established in the Federal Register Web site http://www.nslds.ed.gov
Phone number: 1 (800) 999-8219

Requirements at End of Enrollment

Exit Interviews

Contact with the borrower becomes even more important as the borrower’s last day of attendance approaches. Your school must conduct exit counseling with borrowers either in person, by audiovisual presentation, or by interactive electronic means. (If you conduct exit counseling through interactive electronic means, you must take reasonable steps to ensure that each student borrower receives the counseling materials and participates in and completes the exit counseling.)

Schools must conduct this counseling shortly before the student graduates or drops below half-time enrollment (if known in advance). If individual interviews are not possible, group interviews are acceptable. Your school may employ third-party servicers to provide Perkins Loans borrowers with exit counseling. In the case of correspondence study, distance education, and students in the study-abroad portion of a program, you may provide written counseling materials by mail within 30 days after the borrower completes the program.

During the exit interview, the financial aid counselor must review and update all of the repayment terms and information addressed in the initial loan counseling session. (See the sidebar on the next page for a list of information included in the loan counseling session.)

The exit interview must also discuss:

- debt-management strategies that would facilitate repayment,
- the availability of FSA loan information on the National Student Loan Database System (NSLDS), and
- how to contact the FSA Ombudsman’s office and an explanation of the services this office provides.

As part of the exit information, you must collect the name and address of the borrower’s expected employer.

FSA Ombudsman

The Ombudsman’s office is a resource for borrowers to use when other approaches to resolving student loan problems have failed. Borrowers should first attempt to resolve complaints by contacting the school, company, agency, or office directly involved. If the borrower has made a reasonable effort to resolve the problem through normal processes and has not been successful, he or she should contact the FSA Ombudsman.

Office of the Ombudsman
U.S. Dept. of Education
830 First St NE
Mailstop #5144
Washington, DC 20202-5144

Toll-free: 1 (877) 557-2575
1 (202) 377-3800
1 (202) 275-0549
http://fsahelp.ed.gov
The financial aid counselor must emphasize the seriousness and importance of the repayment obligation the borrower is assuming, describing the likely consequences of default, including adverse credit reports, litigation, and referral to a collection agency. The counselor must further emphasize that the borrower is obligated to repay the full amount of the loan even if the borrower has not completed the program, is unable to obtain employment upon completion, or is otherwise dissatisfied with the school’s educational or other services.

If the borrower withdraws from school without the school’s prior knowledge or fails to complete an exit counseling session, the school must provide exit counseling through either interactive electronic means or by mailing counseling material to the borrower at the borrower’s last known address within 30 days after learning that the borrower has withdrawn from school or failed to complete exit counseling.

Finally, schools must document all exit interviews.

**Disclosure of repayment information**

Either shortly before the borrower ceases at least half-time study or during the exit interview, schools must disclose critical repayment information to the borrower *in a written statement*. Most of the repayment terms that the school must disclose to the borrower already appear in the promissory note. The school must also give the borrower the following information:

- contact information for requesting a copy of the signed promissory note;
- the name and address of the school to which the debt is owed and the name and address of the official or servicing agent to whom communications should be sent;
- the name and address of the party to which payments should be sent;
- the estimated balance owed by the borrower on the date on which the repayment period is scheduled to begin;
- the repayment schedule for all loans covered by the disclosure, including the date the first installment payment is due, the rate of interest, and the number, amount, and frequency of required payments; and
- the total interest charges that the borrower will pay on the loan pursuant to the projected repayment schedule.

If your school exercises the minimum monthly payment option, you must inform the borrower that if he or she wants your school to coordinate payments with another school, he or she must request such coordination.

If a borrower enters the repayment period without the school’s knowledge, the school must provide the required disclosures to the borrower in writing immediately upon discovering that the borrower has entered the repayment period.

**Exit counseling requirements**

34 CFR 674.42(b)(2)
HEA section 485(b)(1)(A)

The HEOA requires each eligible institution, through financial aid offices or otherwise, to conduct exit counseling for borrowers receiving loans made through the Federal Perkins Loan program. The counseling must include:

- average anticipated monthly repayment amounts based on either 1) the student’s indebtedness, or 2) on the average indebtedness of students who have obtained Perkins loans for attendance at the school or in the borrower’s program of study;
- debt management strategies to assist the borrower in repaying the debt;
- options the borrower has to prepay each loan or pay each loan on a compressed schedule;
- information on loan forgiveness and cancellation provisions and the conditions under which the borrower may obtain full or partial forgiveness or cancellation of principal and interest;
- information on forbearance provisions and a general description of terms and conditions under which the borrower may defer repayment of principal or interest or be granted an extension of the repayment period or forbearance;
- information on the consequences of default on a loan which includes adverse credit reports and Federal delinquent debt collection procedures and litigation;
- a general description of the types of tax benefits that might be available to borrowers; and
- information on how a borrower can use NSLDS to get information on the status of their loans.

The school must also including the following information on the consequences of consolidating a Perkins Loan:

- the effects of the consolidation on total interest to be paid, fees, and length of repayment;
- the effect on a borrower’s underlying loan benefits, which includes grace periods, loan forgiveness, cancellation and deferment;
- the option the borrower has to prepay the loan or to change repayment plans; and
- that borrower benefit programs may vary depending on the lender.
**Contact during grace periods**

A school must contact the borrower during both initial and post-deferment grace periods to remind him or her when repayment will begin or resume.

Your school must contact the borrower 3 times during the 9-month initial grace period. The school must also contact the borrower twice during any 6-month post-deferment grace period. The chart below shows the length of initial and post-deferment grace periods for NDSLs and Perkins Loans.

- **The first contact** must be 90 days after any grace period (initial or post-deferment) begins. The school must remind the borrower that he or she is responsible for repaying the loan. The school must also inform the borrower of the amount of principal and interest, as projected for the life of the loan, and the due date and amount of the first (or next) payment.
- **The second contact** must be 150 days after any grace period begins, when the school must again remind the borrower of the due date and amount of the first (or next) payment. For 6-month grace periods, the second contact should coincide with the first billing notice. These two notices may be combined.
- **For 9-month grace periods, the school must make a third contact 240 days after the grace period begins to remind the borrower of the date and amount of the first payment. This contact should coincide with the first billing notice. Again, the school may combine the two notices.**

---

**Contact with borrower during grace period**

**9-month grace period**

- **Grace period begins**: 30, 60, 90, 120, 150, 180, 210, 240, 270 days
- **1st contact**: 30
- **2nd contact**: 60
- **30-day billing notice**: 90
- **Prefix contact**: 120
- **Suffix contact**: 150
- **NDI contact**: 180

**6-month grace period**

- **Grace period begins**: 30, 60, 90, 120, 150, 180 days
- **1st contact**: 30
- **30-day billing notice**: 60
- **Prefix contact**: 90
- **Suffix contact**: 120
- **NDI contact**: 150
- **NDI prefixes contact**: 180

BILLING PROCEDURES AND OVERDUE PAYMENTS

Billing refers to that series of actions the school routinely performs to notify borrowers of payments due, remind them of overdue payments, and demand payment of overdue amounts.

The school may choose a coupon payment system as its method of billing. If so, the school must send the coupons to the borrower at least 30 days before the first payment is due.

If the school does not use a coupon system, it must, at least 30 days before the first payment is due, send the borrower a statement of account and a written notice giving the name and address of the party to which payments should be sent. The statement of account includes information such as the total amount borrowed, the interest rate on the loan, and the amount of the monthly payment. For subsequent payments, the school must send the borrower a statement of account at least 15 days before the due date of the payment.

If the borrower chooses to make payments through electronic funds transfer, the school doesn’t have to send the borrower a statement of account before each payment. However, the school must send the borrower an annual statement of account.

Notices of overdue payments

If a payment is overdue and you have not received a request for forbearance, deferment, or cancellation, you must send the borrower:

- the first overdue notice 15 days after the payment due date;
- the second overdue notice 30 days after the first overdue notice;
- the final demand letter 15 days after the second overdue notice.

The assessment of late charges on an overdue Perkins Loan borrower is now optional. The final demand letter must inform the borrower that unless the school receives a payment or a request for forbearance, deferment, or cancellation within 30 days of the date of the letter, the school will refer the account for collection or litigation and will report the default to a credit bureau as required by law.

You may skip the first two letters and send just the final demand letter within 15 days after a payment is overdue if the borrower’s repayment history has been unsatisfactory or if you can reasonably conclude the borrower does not intend to repay the loan or to seek forbearance, deferment, or cancellation. A borrower is considered to have an unsatisfactory repayment history if he or she has failed to make payments when due, has failed to request deferment, forbearance, or cancellation on time, or has received a final demand letter.

Billing procedures
34 CFR 674.43

Overdue notices
34 CFR 674.43(b)
34 CFR 674.43(c)

Optional penalty or late charge for periods of enrollment beginning before 1/1/86
34 CFR 674.31(b)(5)(ii)
34 CFR 674 Appendix E

Schools are authorized but not required to assess a penalty or late charge for an overdue payment on a loan made for a period of enrollment that began before January 1, 1986. The maximum penalty charge that may be assessed on a loan payable monthly is $1 for the first month and $2 for each additional month a payment is overdue; the maximum penalty for a loan payable bimonthly is $3; the maximum penalty for loans payable quarterly is $6. Penalty or late charges on these loans may be assessed only during the billing process.
Late charges

A school that adopts a policy of assessing late charges on an overdue Perkins Loan must impose them on all borrowers with overdue payments. The charge is based either on the actual costs the school incurs in taking steps to obtain the overdue amount or on average costs incurred in similar attempts with other borrowers. The charge may not exceed 20% of the installment payment most recently due.

If your school assesses a late charge, it must also impose a late charge if a borrower’s payment is overdue and the borrower has not filed a complete request for forbearance, deferment, or cancellation on time. (To be complete, the request must contain enough information for you to confirm the borrower’s eligibility.) If a school opts to charge late fees, the school may charge late fees only during the billing process; a school may not charge late fees once the school begins collections procedures.

You may add the penalty or late charge to the principal amount of the loan as of the first day the payment was due. Alternatively, you may include the charge with the next payment that is scheduled after the date you notify the borrower that the charge must be paid in full by the next payment due date. You must inform the borrower of the late charge, preferably in the first overdue payment notice.

For a borrower who repays the full amount of past-due payments, the school may waive any late charges that were imposed.

Contacting the borrower by telephone

If the borrower does not respond to the final demand letter within 30 days, you must try to contact him or her by telephone before beginning collection procedures. As telephone contact is often very effective in getting the borrower to begin repayment, one call may avoid the more costly procedures of collection.

You should make at least two attempts to reach the borrower on different days and at different times. If the borrower has an unlisted telephone number, you must make reasonable attempts to obtain it by contacting sources such as the borrower’s employer or parents. If you are still unsuccessful, you should document the contact attempts in your files.

Loan acceleration

You may accelerate a loan if the borrower misses a payment or does not file for deferment, forbearance, or cancellation on time. Acceleration means immediately making payable the entire outstanding balance, including interest and any applicable late charges or collection fees.

Because this marks a serious stage of default, the borrower should have one last chance to bring his or her account current. For that reason, if the school plans to accelerate the loan, it must send the borrower a written acceleration notice at least 30 days in advance. The notice may be included in the final demand letter or in some other written notice sent to the borrower.
If the loan is accelerated, you must send the borrower another notice to inform him or her of the date the loan was accelerated and the total amount due. Remember that acceleration is an option, not a requirement. However, if you plan to assign the loan to the Department for collection, you must first accelerate the loan. Once a loan has been accelerated, the borrower loses all rights to deferment and cancellation benefits for qualifying service performed after the date of acceleration.

**Address searches**

The school must take the following steps to locate the borrower if communications are returned undelivered (other than unclaimed mail):

- review the records of all appropriate school offices and
- review printed or web-based telephone directories or check with information operators in the area of the borrower's last known address.

If these methods are unsuccessful, you must intensify efforts to locate the borrower, using either school personnel or a commercial skip-trace firm. If you use school personnel, you must employ and document efforts comparable to commercial skip-tracing firms. You may also choose to use the Internal Revenue Service skip-tracing service provided through the Department.

If you still can’t locate the borrower after taking these steps, you must continue to make reasonable attempts at least twice a year until the account is assigned to the Department or the account is written off.

**Default Reduction Assistance Program**

The Default Reduction Assistance Program (DRAP) assists schools in bringing defaulted borrowers into repayment. Under DRAP, a school or a school’s third-party servicer can request that the Department send a borrower a letter designed to warn the student of the seriousness of default. The Department provides these services at no cost to the school. Participation in DRAP is voluntary. The new DRAP process is an entirely web-based process conducted at the new eCampus-Based website (www.cbfisap.ed.gov).

Once you have logged into the eCampus-Based website using your FSA User ID and password, select the “DRAP” link on the top navigation bar to begin. You will be able to enter borrower information directly or upload a file with a list of up to 1,000 borrowers and their addresses.

As DRAP is intended to get the borrower back into repayment before the account goes to a collection firm, this service should not be requested once a collection agency is involved. DRAP service is usually provided during the 30-day period during which a school is awaiting response to the final demand letter.

General questions about DRAP should be directed to the Campus-Based Call Center at 1-877-801-7168 Mon–Fri, 8 a.m. – 8 p.m. EST or by email to CBFOB@ed.gov.
DEFAULT & COLLECTION PROCEDURES

Collection procedures are the more intensive efforts a school must make when borrowers have not responded satisfactorily to billing procedures and are considered seriously in default.

As part of the following collection activities, the school must inform the borrower of the availability of the FSA Ombudsman’s Office.

Credit bureau reporting

A school must report an account to credit bureaus as being in default when a borrower fails to respond to the final demand letter or the following telephone contact. You must report the default to any one national credit bureau or to an affiliated credit bureau that transmits credit information to one of the three national credit bureaus with which the Department has an agreement (see box).

You must report any subsequent changes in the status of the borrower’s account to the same national credit bureau, using the procedures required by that credit bureau. You must respond within 1 month to any inquiry received from any credit bureau about reported loan information. Finally, you must notify all credit bureaus to which you reported the default when a borrower makes consecutive, on-time monthly payments.

Reporting good credit history (as well as reporting defaulted loans) is essential to ensure that current and future creditors have complete information regarding the credit obligations of the borrower.

Under the Fair Credit Reporting Act, a borrower may appeal the accuracy and validity of the information reported to the credit bureau and reflected in the credit report. You should be prepared to handle the appeal and make necessary corrections to the report as required by the provisions of the act.

Efforts to collect

The school must make a first effort to collect using either its own personnel or by hiring a collection firm.

If the school’s personnel or the collection firm cannot convert the account to regular repayment status by the end of 12 months (or if the borrower does not qualify for forbearance, deferment, or cancellation), the school has two options—either to litigate or to make a second effort to collect.

A second effort to collect requires one of the following procedures:

- If the school first attempted to collect by using its own personnel, it must refer the account to a collection firm unless state law prohibits doing so.
- If the school first used a collection firm, it must attempt to collect by using its own personnel or by using a different collection firm, or the school must submit the account to the Department for assignment.
If a collection firm cannot place an account into regular repayment status by the end of 12 months (or if the borrower does not qualify for forbearance, deferment or cancellation), the firm must return the account to the school.

If the school is unsuccessful in its effort to place the loan in repayment after following the procedures described above, the school must continue to make yearly attempts to collect from the borrower until the loan is recovered through litigation; the account is assigned to the Department; or the loan is written off.

**Ceasing collection**

A school may cease collection activity on defaulted accounts with balances of less than $200 (including outstanding principal, accrued interest, collection costs, and late charges) if the school carried out the required due diligence and if the account had no activity for four years. Although interest will continue to accrue and may put the account over $200, you will not have to resume collection activity if you document that you ceased collection activity when the account was under $200. The borrower will remain responsible for repaying the account, including accrued interest. The account will still be included in the school’s cohort default rate, if applicable, and the borrower will still be in default and ineligible for FSA funds.

**Alternatives to litigation**

To avoid litigation, a school may offer to waive collection costs as incentive for repayment. You may waive all collection costs on a loan if the borrower makes a lump-sum payment of the entire amount outstanding, including principal and interest; a written repayment agreement is not required. You may also waive a portion of the collection costs on a loan if the borrower agrees to pay a corresponding portion of the loan within 30 days of entering into a written repayment agreement with the school. For example, if the borrower repays 1/2 the outstanding balance on a loan within 30 days of the agreement, the school may waive 1/2 the collection costs incurred.

---

**National Credit Bureaus**

The Department has entered into an agreement with the three national credit bureaus listed below:

- Trans Union Corporation (1-800-888-4213)
- Experian (formerly TRW) (1-888-397-3742)
- Equifax (1-888-202-4025)

National credit bureaus charge fees for their services. These fees differ from credit bureau to credit bureau. Credit bureaus affiliated with the above credit bureaus may have different fees from those of the national credit bureaus. The Department does not keep a list of these affiliated bureaus and their fees.

The Privacy Act authorizes disclosure of a borrower’s account information to creditors without the borrower’s consent if the disclosure helps enforce the terms and conditions of the loan. You may also make such disclosures about loans that haven’t defaulted and/or are being disbursed.

---

**IRS Skip-Tracing Program**

Previous Handbooks noted that schools could use IRS Skip-Tracing services to locate Perkins borrowers. (See Dear Partner Letter CB-02-16, November 2002.) However, IRS Skip-Tracing is no longer available to schools that participate in the Perkins Loan Program. See the Electronic Announcement posted on July 10, 2009.
through the date of that payment. The amount of waived collection costs may be charged to the Perkins Loan Fund.

You may compromise the repayment of a defaulted loan if you have fully complied with all due diligence requirements and the borrower pays, in a single lump-sum payment, at least 90% of the outstanding principal balance, plus all interest and collection fees. The federal share of the compromise repayment must bear the same relation to the school’s share as the Federal Capital Contribution (FCC) bears to the Institutional Capital Contribution (ICC).

A borrower may rehabilitate a defaulted Perkins Loan by making 9 consecutive, on-time, monthly payments. A rehabilitated loan is returned to regular repayment status. (See Rehabilitation later in this chapter.)

A borrower may include his or her defaulted Perkins Loan, NDSL, or Defense Loan in a Direct Consolidation Loan. The amount eligible for consolidation is the sum of the unpaid principal, accrued unpaid interest, late charges, and outstanding collection costs. A defaulted loan that is being repaid under a court order remains in default status until paid and is not eligible for consolidation.

**Litigation**

If the collection procedures described in this section do not result in the repayment of a loan, the school must review the account for litigation once every 2 years. If all the conditions are met, the school must litigate. The conditions are:

- the total amount owed, including outstanding principal, interest, collection costs, and late charges, on all the borrower’s Perkins Loans and NDSLs at the school is more than $500;
- the borrower can be located and served with process;
- the borrower either has enough assets attachable under state law to cover a major portion of the debt or enough income that can be garnished under state law to satisfy a major portion of the debt over a reasonable period of time (defining a "reasonable period of time" is left to the school);
- the borrower does not have a defense that will bar judgment for the school; and
- the expected cost of litigation (including attorneys’ fees) does not exceed the amount that can be recovered from the borrower.

Even if all the above conditions are not met, your school may still choose to sue a defaulted borrower. If the borrower has a partial defense that may bar judgment for the school, you must weigh the costs of litigation against the costs of recovery based on the amount of the enforceable portion of the debt. No federal or state statute of limitation can apply to enforcement actions to collect Perkins Loans or NDSLs.
Your school must attempt to recover from the borrower all litigation costs, including attorneys’ fees, court costs, and other related costs, to the extent permitted by applicable state law. You are also required to try to recover all costs previously incurred in the collection of overdue payments if the borrower has not paid these collection costs; a percentage of these unrecovered costs may be charged to the Fund as explained later in this chapter under “Billing and Collection Costs.”

When a school has filed suit to collect a defaulted Perkins Loan or NDSL and a judgment has been rendered on the loan, the borrower is obligated to repay only the amount of the judgment obtained on the loan. A defaulted loan that is being repaid under court order remains in default status until paid and is not eligible for consolidation. After a judgment is satisfied on the defaulted loan, the student is again eligible for future awards under these programs if all other eligibility criteria are met.

**Assignment**

Your school may assign the account to the Department for collection if the amount outstanding is $25 or more (including principal, interest, collection costs, and late charges) and your school cannot collect a payment after following all collection procedures. For more information about assignment of a loan, see “assignment procedures” at the end of this chapter.
BILLING AND COLLECTION COSTS

Your school must charge the borrower for reasonable collection costs associated with past-due payments, if your school opts to charge them (not routine billing costs, which are included in the administrative cost allowance [ACA]), and collection costs for address searches, use of contractors for collection of the loan, litigation, and/or bankruptcy proceedings.

If your school cannot recover billing and collection costs from the borrower, you may charge the costs to the Fund, provided the costs fall within the specifications described in the following paragraphs. (Collection costs are included in the ACA, but if collection costs exceed the ACA, you must report the additional costs in the separate collection costs category on the FISAP.)

The only billing costs a school may charge the Fund are the costs of telephone calls made to demand payment of overdue amounts not paid by the borrower. Even if the amount recovered from the borrower does not suffice to pay the amount of the past-due payments and the penalty or late charges, the school may charge the Fund only for the unpaid portion of the actual cost of the calls.

The following collection costs may be charged to the Perkins Loan Fund if the costs are waived or not paid by the borrower:

- **Collection costs waived.** If your school waives collection costs as incentive for repayment, the amount waived may be charged to the Fund.

- **Cost of a successful address search.** You may charge to the Fund a reasonable amount for the cost of a successful address search if you used a commercial skip-tracing service or employed your school’s personnel to locate the borrower using comparable methods. (Defining a reasonable amount is left to the school.)

- **Cost of reporting defaulted loans to credit bureaus.** You may charge to the Fund the cost of reporting a defaulted loan to a credit bureau, reporting any change in the status of a defaulted account to the bureau to which the school had previously reported the account, and responding to any inquiry from a credit bureau about the status of a loan.

- **Costs of first and second collection efforts.** You may charge to the Fund collection costs not paid by the borrower if they do not exceed—for first collection efforts—30% of the total principal, interest, and late charges collected and—for second collection efforts—40% of the principal, interest, and late charges collected. The school must reimburse the Fund for collection costs initially charged to the Fund but subsequently paid by the borrower.

- **Collection costs resulting from rehabilitation.** Collection costs charged to the borrower on a rehabilitated loan may not exceed 24% of the unpaid principal and accrued interest as of the date following application of the 9th payment. Collection costs are not restricted to 24% in the event that the borrower defaults on the rehabilitated loan.
• *Costs of firm performing both collection and litigation services.*
  If a collection firm agrees to perform or obtain the performance of both collection and litigation services on a loan, the amount for both functions that may be charged to the Fund may not exceed the sum of 40% of the amount of principal, interest, and late charges collected on the loan, plus court costs specified in 28 U.S.C. 1920.

• *Collection costs resulting from litigation, including attorney’s fees.*
  Collection costs resulting from litigation, including attorney’s fees, may be charged to the Fund if not paid by the borrower. (Note that there is a limit on litigation costs that may be charged—see sidebar.)

Due diligence activities involving *fixed costs* (telephone contacts, credit bureau reporting, and bankruptcy procedures) may be charged to the Fund whether or not the actions are successful. Other activities, such as address searches, collection, and litigation (other than bankruptcy), are typically performed on a *contingent-fee* basis. If these activities are *unsuccessful*, there are no costs charged to the school and therefore no costs may be charged to the Fund. If these activities are *successful*, you may charge the associated allowable costs to the Fund.

---

**Limit on charging costs due to litigation**

The amount of litigation costs a school charged to the Perkins Loan fund may not exceed the sum of:

- court costs specified in 28 U.S.C. 1920;
- other costs incurred in bankruptcy proceedings in taking actions required or authorized under 34 CFR 674.49;
- costs of other actions in bankruptcy proceedings to the extent that those costs together with other costs incurred in bankruptcy proceedings do not exceed 40% of the total amount of judgment obtained on the loan; and
- 40% of the total amount recovered from the borrower in any other proceeding.
Using Billing and Collection Firms

Your school may use a contractor for billing or collection, but it is still responsible for complying with due diligence regulations regarding those activities. For example, the school, not the billing or collection firm, is responsible for deciding whether to sue a borrower in default. The school is also responsible for decisions about cancelling, or deferring repayment, granting forbearance, extending the repayment period, and safeguarding the funds collected.

If you use a billing service, you may not use a collection firm that owns or controls the billing service or is owned or controlled by the billing service. In addition, you may not use a collection firm if both the collection firm and billing service are owned or controlled by the same corporation, partnership, association, or individual.

Account protection: minimum bond/insurance amounts

A school must ensure that its billing service and collection firm maintain a fidelity bond or comparable insurance to protect the accounts they service.

At least once a year, the school must review the amount of repayments it expects to receive from billing or collection firms to ensure adequate bond or insurance coverage.

A school using a law firm to collect must review the firm’s bond or its insurance policy to determine whether the firm is protected against employee misappropriation. If the firm’s malpractice insurance also covers misappropriation of funds, that policy is considered to provide coverage.

If you don’t authorize your collection firm to deduct its fees from borrowers’ payments, the firm must be bonded or insured for at least the amount that you expect to be repaid over a two-month period on the assigned accounts.

If you do authorize your collection firm to deduct its fees from borrowers’ payments, you must ensure that:

- if the amount you expect to be repaid over a two-month period is less than $100,000—the collection firm is bonded or insured for the lesser of (a) 10 times the amount the school expects to be repaid over a two-month period on assigned accounts; or (b) the amount the firm expects to collect in a two-month period on all accounts it has in its portfolio (not just the school’s account).
- if the amount you expect to be repaid in a two-month period is $100,000 or more—the collection firm has a fidelity bond or comparable insurance that names your school as the beneficiary and is bonded or insured for an amount not less than the amount of funds the school can reasonably expect to be repaid during that two-month period.
DEFAULT STATUS AND PERKINS ELIGIBILITY

A borrower who is in default on an FSA loan is not eligible for any other further FSA loans unless they have regained eligibility. (See Volume 1, Student Eligibility for guidance on how a student may regain eligibility). However, a borrower who satisfies any of the conditions that remove a Perkins Loan from his or her school’s cohort default rate calculation becomes eligible for additional Perkins Loans only (see Draft FISAP Instruction Booklet).

Satisfactory repayment arrangements

A borrower who is in default on a Perkins Loan may regain eligibility for further federal student aid by making satisfactory repayment arrangements. (See Volume 1 - Student Eligibility.) If the borrower has made satisfactory repayment arrangements, the school must appropriately update the loan status code in the National Student Loan Data System.

Perkins Loan rehabilitation

Your school must establish a rehabilitation program and notify all borrowers with defaulted loans of the option to rehabilitate and the advantages of rehabilitation. A borrower may now rehabilitate a defaulted Perkins Loan by making 9 consecutive on-time payments. (Previously, 12 payments were required—see sidebar.)

Borrowers may not rehabilitate loans on which the holder has obtained a judgment. However, your school may enter into an agreement with the borrower that provides the borrower with some of the benefits of rehabilitation. For example, your school could promise to vacate the current judgment and request the removal of the default from the borrower’s credit after the borrower makes 9 consecutive payments and signs a new promissory note.

The rehabilitation payments should be sufficient to satisfy the outstanding balance on the loan within a 10-year repayment period. A school may not establish a loan rehabilitation policy that requires defaulted Perkins Loan borrowers to pay the full outstanding balance of the loan within the 9-month rehabilitation period, if such payments would create a hardship for the borrower. In most cases, such a policy would require a borrower to make excessively high monthly payments, and would, in effect, deny the borrower access to a statutorily mandated benefit of the Perkins Loan Program.

Within 30 days of receiving the borrower’s last on-time consecutive monthly payment, you must:

- return the borrower to regular repayment status;
- treat the first of the 9 consecutive payments as the first payment in a new 10-year repayment schedule; and
- instruct any credit bureau to which the default was reported to remove the default from the borrower’s credit history.

After rehabilitating a defaulted loan and returning to regular repayment status, a borrower regains the benefits and privileges of the promissory note, including deferment and cancellation.
If a borrower chooses to rehabilitate a defaulted loan and then fails to make 9 consecutive on-time payments, the rehabilitation is unsuccessful, but the borrower may still make further attempts to rehabilitate the defaulted loan. Also, if a borrower successfully rehabilitates a defaulted loan and maintains good standing on the loan, the borrower may continue to attempt to rehabilitate other defaulted Perkins loans. However, if the borrower successfully rehabilitates a defaulted loan, but the loan later returns to default, the borrower may not attempt to rehabilitate that loan again or any other defaulted Perkins Loan.

**Loans with judgments**

When a school has filed suit to collect a defaulted Perkins Loan or NDSL and a judgment has been rendered on the loan, the borrower is obligated to repay only the amount of the judgment obtained on the loan. If the judgment is for less than the outstanding balance on the loan, the school may write off the portion of the loan not covered by the judgment. After a judgment is satisfied on the defaulted loan, the student is again eligible for aid from FSA programs if all other eligibility criteria are met. However, if a borrower has previously satisfied a defaulted student loan involuntarily (for instance, through wage garnishment), you should consider this as evidence of unwillingness to repay and should not approve further loan assistance to the borrower.

**Previously defaulted loans discharged for school closure**

A Perkins Loan made on or after January 1, 1986, may be discharged if the borrower is unable to complete his or her program of study due to the closure of the school that made the loan. A defaulted borrower whose loan is discharged under this closed school provision is eligible for additional federal student aid, provided that he or she meets all other eligibility criteria. (Schools that close must assign all Perkins Loans to FSA Collections. FSA Collections, or the school, if the school still holds the loan, must report to credit bureaus that the loan has been discharged.)
PERKINS ASSIGNMENT

A school may assign defaulted Perkins/NDLS loans to FSA Collections if:

- it has not been able to collect despite having followed due diligence procedures (including at least a first level of collection),
- the total amount of the borrower’s account to be assigned, including outstanding principal, accrued interest, collection costs, and late charges, is $25 or more, and
- the loan has been accelerated.

You may not assign a loan to FSA Collections under the voluntary assignment procedures if:

- the borrower has received a discharge in bankruptcy—unless the bankruptcy court has determined that the student loan obligation is nondischargeable and has entered a judgment against the borrower or unless a court of competent jurisdiction has entered judgment against the borrower on the loan after the entry of the discharge order;
- your school has sued the borrower (unless the judgment has been entered and assigned to the United States); or
- the loan has been discharged because the borrower has died.

Upon notification by the Department, you may be required to assign a Perkins loan if your school has knowingly failed to maintain an acceptable collection record with regard to the loan or chooses to stop servicing and collecting its Perkins Loans.

See Chapter 1 for assignment of nondefaulted loans (for example, if your school is closing or is withdrawing from the Perkins program).

Required documentation

A school may be required to submit the following documents to FSA Collections for any loan it proposes to assign:

- one original and one photocopy of the assignment form;
- the original promissory note or a certified copy of the original note;
- a copy of the repayment schedule and a complete statement of the payment history;
- copies of all approved requests for deferment and cancellation;
- a copy of the notice to the borrower of the effective date of acceleration and the total amount due on the loan;
- documentation that the school has withdrawn the loan from any firm that it employed for address search, billing, collection, or litigation services and has notified that firm to cease collection activity on the loans;
- copies of all pleadings filed or received by the school on behalf of a borrower who has filed a petition in bankruptcy and whose loan obligation is determined to be nondischargeable;

Assignment form and procedures

34 CFR 674.50
Electronic Announcement - August 5, 2011

Assignment address

A school should mail assignments to:

U.S. Department of Education
Perkins Loan Assignment
Processing Center
P.O. Box 4136
Greenville, TX 75403-4136

Reporting “date(s) of first disbursement” on loan manifest

You must report the date each assigned loan was disbursed (attached to the Institutional Certification page of the Perkins Assignment form). The dates listed must match the date of first disbursement initially reported by your school to NSLDS. If multiple loans were combined into one loan, you list the date of first disbursement for the first loan in the combination. If a student received multiple loans reported separately, you list the date of first disbursement for each loan. For more details, see Dear Colleague Letter CB-06-12.

Mandatory assignment

The Department no longer has the authority to require mandatory assignment of Perkins Loans based on a school’s Program Participation Agreement. The Department continues to have the authority to require mandatory assignment if a school has knowingly failed to maintain an acceptable collection record with regard to the loan or chooses to stop servicing and collecting its Perkins Loans.

This statutory change nullifies the mandatory assignment regulations in 34 CFR 674.8(d)(3).

HEOA 463
Effective date: August 14, 2008
Assignment under e-signed or Perkins MPN

If you assign loans that were made under an electronically signed promissory note, you must cooperate with the Department in all activities necessary to enforce the loan.

You may be asked to provide an affidavit or certification regarding the creation and maintenance of electronic records of the loan. This affidavit or certification must establish that the records are created and maintained in a form appropriate to ensure admissibility of the loan records in a legal proceeding.

The affidavit or certification must:
• describe the steps followed by the borrower to execute the promissory note;
• include copies of screen shots that would have appeared to the borrower when the borrower signed the note electronically;
• describe field edits and other security measures used to ensure data integrity;
• describe how the promissory note has been preserved to ensure it has not been altered;
• include documentation supporting the school’s authentication and electronic signature process; and
• provide any other documentary and technical evidence requested by the Department.

The affidavit or certification may be executed in a single record for multiple loans provided that this record is reliably associated with the specific loans to which it pertains.

An authorized official or employee of the school may have to testify to ensure admission of the electronic records of the loan or loans in the litigation or legal proceeding to enforce the loan or loans.

Your school’s most recent audit must assess how well your school’s e-sign authentication process meets the Department’s “Standards for Electronic Signatures in Electronic Student Loan Transactions” (as specified in DCL GEN-01-06).

• a certified copy of any judgment order entered on the loan; and
• documentation that the school has complied with all of the due diligence requirements if the school has a cohort default rate that is equal to or greater than 20% as of June 30 of the second year preceding the submission period.

If you assign loans made under the Perkins MPN, you must maintain disbursement records that document the principal amount loaned until the loan is paid off or otherwise satisfied. You may include disbursement records with the assignment submission. For more details on Perkins Loan Portfolio Liquidation and Assignment, see Electronic Announcement of August 5, 2011.

Terms of assignment

If FSA Collections accepts the assignment of a loan, it will give the school written notice to that effect. By accepting the assignment, the Department acquires all rights, title, and interest in the loan. You must endorse and forward to the Department any subsequent payment(s) the borrower may make.

If FSA Collections later determines an assigned loan to be unenforceable because of an act or omission on the part of your school or its agent, your school may have to compensate the Perkins Loan Fund in the amount of the unenforceable portion of the outstanding balance. Once the fund is reimbursed, the Department transfers all rights to the loan back to the school.

A borrower whose loan has been assigned to the United States for collection continues to be in default on the loan and is ineligible for FSA funds until the borrower provides confirmation from FSA Collections that he or she has made satisfactory arrangements to repay the loan.
PERKINS COHORT DEFAULT RATES

Your school’s cohort default rate is calculated for a particular year based on information you report in Part 3, Sections D and E of the FISAP. For detailed information on how your school’s cohort default rate is determined, see Part III of the Draft FISAP Instruction Booklet available under “Publications” on the IFAP Web site.

How the Perkins default rate is calculated

For any award year in which 30 or more borrowers enter repayment, the cohort default rate is the percentage of those current and former students who enter repayment in that award year on loans received for attendance at that school and who default before the end of the following award year.

For any award year in which fewer than 30 current and former students at the school enter repayment on a loan received at the school, the cohort default rate is the percentage of those current and former students who entered repayment on loans received for attendance at that school in any of the three most recent award years and who defaulted on those loans before the end of the award year immediately following the year in which they entered repayment.

For purposes of the cohort default rate, a loan enters repayment only once in its life. This repayment begins the day after the end of the initial grace period or the day that the borrower waives his or her initial grace period.

A borrower is included in determining the school’s cohort default rate if the borrower’s default has persisted for at least 240 consecutive days for a loan repayable monthly or 270 consecutive days for a loan repayable quarterly.

Perkins loans that are not treated as defaults

The following loans are not treated as defaults when reporting borrower status on Part III of the FISAP:

- loans on which borrowers have made 6 consecutive monthly payments;
- loans on which borrowers have “voluntarily” made all payments currently due;
- loans that borrowers have repaid in full;
- loans for which borrowers have received deferments or forbearance based on conditions that began prior to loans becoming 240/270 days past due;
- loans that have been rehabilitated;
- loans repaid in full under a compromise repayment agreement in accordance with 674.33(e);
- loans that have been discharged due to death or permanent disability, bankruptcy, or a school closing; and
- loans that have been assigned to the ED for determination of eligibility for total and permanent disability discharge.

Perkins CDR calculation

34 CFR 674.5(b)
Loans included in the cohort default rate
34 CFR 674.5(c)
Loans not included in cohort default rate
34 CFR 674.5(c)(3)

Perkins cohort default rates listing

The Federal Perkins Loan Program Status of Default, known as the Orange Book, lists the cohort default rates for each school that participates in the Perkins program. See the “Publications” area on the IFAP Web site.

CDR for multiple locations or change of ownership

If a school has a branch or branches or has an additional location or locations, the school’s cohort default rate applies to all branches and locations of the school as they exist on the first day of the award year for which the rate is calculated. The cohort default rate applies to all branches/locations of the school from the date the Department notifies the school of the rate until the Department notifies the school that the rate no longer applies. For more information about the effect of changes of ownership and the treatment of multiple locations in the Perkins rate calculation, see 34 CFR 674.5(d).

Penalty for high CDR

34 CFR 674.5(a)
Rules for calculating the number of days in default

For purposes of reporting on Part III of the FISAP, a school should use the following rules to calculate the number of days a loan has been in default:

- The 240/270 consecutive days in default is determined by calculating the “age” of the account (that is, the number of consecutive days the oldest dollar is past due).
- A payment that a borrower makes on a past-due loan is applied to the oldest dollars first, effectively reducing the past-due status.
- A loan on which a borrower is past due and on which the borrower makes an occasional payment but never becomes current could be counted as a defaulted loan for the cohort default rate calculation despite the occasional payments. Because the delinquency is not being cured, the oldest past-due dollar could eventually become 240 days past due, making the loan count in the default rate calculation. However, if the borrower makes enough occasional payments to prevent the oldest past-due dollar from becoming 240 days old, the loan would not be counted as being in default.
- An exception to the 240/270-day threshold will be granted in a case where a borrower (1) would have qualified for a deferment for a period beginning prior to the loan hitting the 240/270-day threshold and (2) failed to file a request for the deferment in a timely manner. For such a borrower, the loan’s past-due status would be adjusted to reflect the deferment period beginning date. However, the borrower would need to pay any past-due amounts that were due prior to the beginning of the authorized deferment periods, if the deferment period beginning date does not eliminate the loan’s entire delinquency.

Penalties for high Perkins default rates

If the school’s cohort default rate is

- 25% or higher, the school’s FCC will be reduced to zero.
- 50% or higher for the 3 most recent years, the school is ineligible to participate in the Federal Perkins Loan Program and must liquidate its loan portfolio.

A school may appeal a determination of ineligibility if the appeal is based on an inaccurate calculation of its cohort default rate or a low number of borrowers entering repayment. A school appeals a determination of ineligibility based on an inaccurate calculation by adjusting the cohort default rate data on the FISAP.

Adjusting past-due status example

Marty’s oldest dollar is 240 days past due. He files a request for a deferment based on the fact that he is attending school and the enrollment period began on the date that the loan became 90 days past due. The past-due status of the loan is reduced to 90 days, and the loan is given a deferment status. This loan is treated as if the 240-day threshold had never been reached. Therefore, it would not be counted in the school’s cohort default rate.

Example

Marty’s oldest dollar is 240 days past due. He files a request for a deferment based on the fact that he is attending school and the enrollment period began on the date that the loan became 90 days past due. The past-due status of the loan is reduced to 90 days, and the loan is given a deferment status. This loan is treated as if the 240-day threshold had never been reached. Therefore, it would not be counted in the school’s cohort default rate.
