Using Multimedia to Introduce Your Promising Practice

Using Multimedia to Introduce Your Promising Practice is a collection of educational tools to help you introduce Supported Education to a variety of stakeholder groups, including the following:

- Mental health authorities;
- Community members;
- Consumers;
- Families and other supporters; and
- Agencywide staff.

Anyone who is trained in the Supported Education model (including program leaders, education specialists, and advisory group members) should be able to use these tools during inservice training meetings or for community presentations to educate stakeholder groups.

For references, see the booklet The Evidence.
This KIT is part of a series created by the Center for Mental Health Services, Substance Abuse and Mental Health Services Administration, U.S. Department of Health and Human Services.

This booklet is part of the Supported Education KIT that includes a CD-ROM, and seven booklets:

- How to Use the KITs
- Getting Started with Evidence-Based and Promising Practices
- Building Your Program
- Training Frontline Staff
- Evaluating Your Program
- The Evidence

Sample Brochure

Using a brochure and other marketing materials to introduce Supported Education to consumers, families, and community members is an easy way to disseminate basic information about this promising practice.

We include a paper copy of English and Spanish versions in Appendix A of this booklet. Electronic copies are on the CD-ROM in this KIT so that you can tailor the brochure to your specific Supported Education program.
**Introductory PowerPoint Presentation**

We encourage those who are trained in the Supported Education model to offer basic community presentations and inservice seminars using the Introductory PowerPoint slides in this KIT.

The slides offer you flexibility in preparing your presentation. If you have a general audience and a short time to present your information, you may want to use slides 1-9 and 27-28 only. However, if you have time for a longer, more in-depth presentation, you may want to use the entire set of slides.

We include a paper copy of the presentation in Appendix B of this booklet. An electronic copy is on the CD-ROM in this KIT so that you can tailor it to your specific Supported Education program. The slides provide background information about the following:

- Evidence-based and promising practices in general;
- Supported Education;
- Practice principles; and
- Critical components of the model.

Use the presentation along with the other tools in this section to educate a wide array of stakeholders.
Appendix A: Sample Brochure

Use this sample brochure to introduce Supported Education in your community. Both English and Spanish versions are on the next few pages. Electronic copies are on the CD-ROM in this KIT.

How can Supported Education help?

Education specialists can help:

- Choose an education program;
- Complete enrollment and financial aid forms; and
- Secure supports to help consumers stay in school.

Education can help consumers develop and achieve personal recovery goals such as finding a career or job of their choice.

Una práctica prometedora

Mejore su vida a través del aprendizaje
¿Qué es educación respaldada?

La educación respaldada ayuda con el retorno a los estudios a las personas con enfermedades mentales que están interesadas en educación y capacitación.

¿Qué son las prácticas prometedoras?

Según estudios actuales, la Educación apoyada da resultados que se pueden comprobar. Si bien se necesitan más estudios para confirmarlo, los servicios de Educación apoyada se ven prometedores como práctica basada en la evidencia.

¿Cómo funciona la educación respaldada?

- Elección del paciente
  Nadie está excluido de participar.
- Respaldo oportuno
  Los especialistas en educación ofrecen servicios tan pronto un paciente expresa interés.
- Servicios personalizados
  La asistencia y el respaldo continuos se basan en las necesidades individuales.
- Mayor acceso
  Los especialistas en educación trabajan estrechamente con el personal académico y los profesionales en salud mental para respaldar las metas educativas de los pacientes.
- Preferencias de los pacientes
  Las elecciones se basan en las preferencias, aptitudes y experiencias de los pacientes.
- La recuperación es la meta
  La educación respaldada promueve el crecimiento y la esperanza.

¿Cómo puede ayudar la educación respaldada?

Los especialistas en educación pueden ayudar a:
- Seleccionar un programa educativo;
- Completar formularios de inscripción y de ayuda financiera; y
- Obtener respaldos para ayudar a que los pacientes continúen estudiando.

La educación puede ayudar a los pacientes a desarrollar y a lograr metas de recuperación personal, como por ejemplo encontrar una carrera o un trabajo de su elección.
