MEMORANDUM

To: High School Principals  
From: Geoffrey T. Sanderson, Associate Superintendent  
Subject: INFORMATION: Class of 2014 Advanced Placement and International Baccalaureate Exam Participation and Performance

**Advanced Placement Exam**

Students in the Montgomery County Public Schools (MCPS) Class of 2014 continued to outperform students in the state of Maryland on Advanced Placement (AP) examinations based on AP results recently released by the Maryland State Department of Education. In 2014, two thirds of MCPS graduates took one or more AP exams (66.7%), a rate that was 15.8 percentage points higher than the rate for public school graduates in Maryland (50.9%) (Figure 1). More than one half of the 2014 MCPS graduates earned at least one AP exam score of 3 or higher (51.5%), which was 19.7 percentage points higher than the rate for Maryland public school graduates (31.8%).

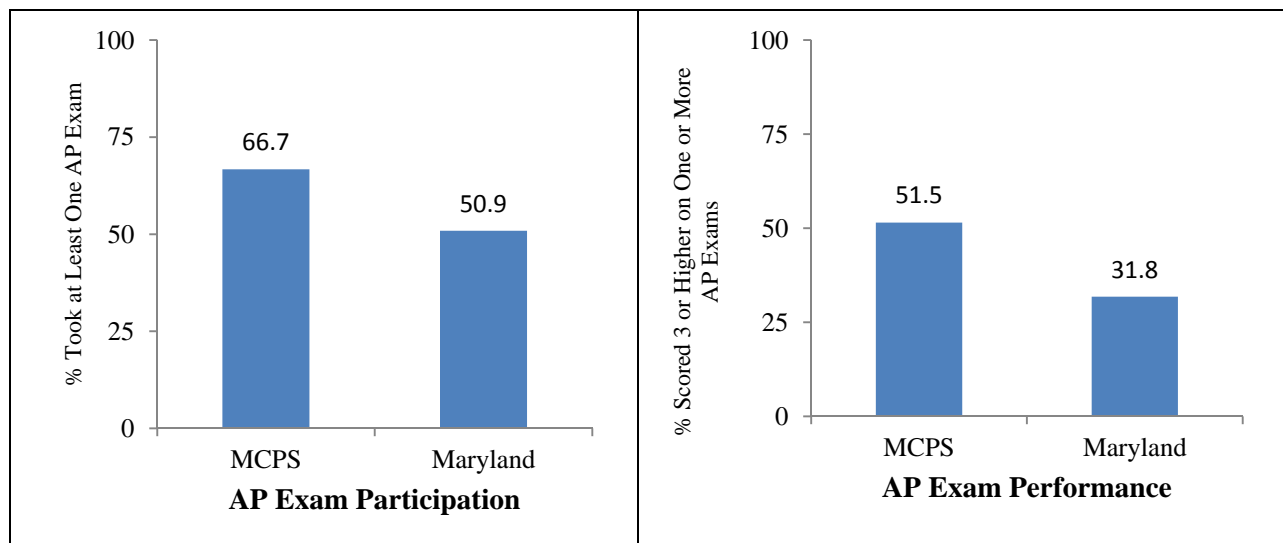

Figure 1. Advanced Placement exam participation and performance of 2014 public school graduates in MCPS and the state of Maryland.

Beginning in 2006, Maryland has led the nation as the state with the highest percentage among all states of graduates who earned one or more AP exam scores of 3 or higher. Particularly noteworthy is the fact that MCPS graduates significantly contributed to Maryland's first-place national ranking for AP exam performance. Although MCPS 2014 graduates constituted nearly one fifth of Maryland graduates, MCPS graduates who earned a score of 3 or higher on one or more AP exams accounted for 31.3 percent of Maryland graduates with at least one AP exam score of 3 or higher (Table 1).

AP exam performance among Black or African American and Hispanic/Latino graduates in the MCPS Class of 2014 was notable districtwide. The percentage of 2014 Black or African American graduates who earned at least one AP exam score of 3 or higher (23.0%) was 10.2 percentage points higher than the rate for Black or African American graduates in Maryland (12.8%) (Table 2). The rate of Hispanic/Latino graduates in the MCPS Class of 2014 with at least one AP exam score of 3 or higher (37.5%) was 6.2 percentage points higher than the rate of Hispanic/Latino graduates in Maryland (31.3%).

As evidenced in the tables included in the attachment (Tables A1–B3), MCPS high schools continued to support AP exam participation and performance for minority graduates. Between 2013 and 2014, 16 of the 25 high schools demonstrated an increase in the AP exam participation rate for Black or African American graduates, and 12 of the 25 high schools had an increase in participation for Hispanic/Latino graduates (Tables A6a and A6b). Ten of the 25 high schools noted an increase in the percentage of Black or African American graduates who earned an AP exam score of 3 or higher, and 13 of the 25 high schools had an increase in the percentage of Hispanic/Latino graduates who earned an AP exam score of 3 or higher (Tables A8a and A8b). Eight of the 25 high schools had increases for both AP exam participation and performance rates for Black or African American graduates, and 10 of the 25 high schools demonstrated increases for both AP exam participation and performance rates for Hispanic/Latino graduates (Tables A6a, A6b, A8a, and A8b).

Of note, for the Class of 2014, two high schools—Paint Branch and Wheaton—demonstrated increases in both AP exam participation and performance for both Hispanic/Latino and Black or African American graduates (Tables A6a, A6b, A8a, and A8b). Eight out of 25 high schools—Bethesda-Chevy Chase, James Hubert Blake, Clarksburg, Gaithersburg, Northwest, Seneca Valley, Springbrook, and Watkins Mill—demonstrated an increase in AP exam participation for both Hispanic/Latino and Black or African American graduates. Two of the 25 high schools—Northwest and Springbrook—demonstrated an increase in AP exam performance for both Hispanic/Latino and Black or African American graduates.

### International Baccalaureate Exam

MCPS provides the International Baccalaureate (IB) program for students at selected high schools as an option for experiencing college-level coursework and earning college credits in high school. The IB program continues to grow, and MCPS high school students demonstrate a steady increase in taking IB courses and exams. In 2014, eight high schools in MCPS had IB programs. While Richard Montgomery High School offered a countywide magnet IB program, the remaining seven high schools had school-based programs. Seven and a half percent (799 out of 10,664) of 2014 MCPS graduates took one or more IB exams, a 0.7 percentage point increase compared with 2012 MCPS graduates (6.8%) (Table 3). The increased participation of graduates in IB exams had a corresponding increase in the proportion of graduates who earned at least one IB exam score of 4 or higher—from 6.1 percent in 2012 to 6.6 percent in 2014. A similar trend was observed with regard to IB exam participation and performance for Asian, Black or African American graduates and those who identified themselves as Two or More Races. Between 2012 and 2014, Black or African American graduates demonstrated the greatest increase in the rate of taking at least one IB exam (3.8% to 6.6%) among all racial/ethnic groups. Concurrently, Black or African American graduates had an increase in the rate of earning an IB score of 4 or higher from 3.0 percent in 2012 to 5.2 percent in 2014.

<sup>a</sup> IB exam results reflect all scores received by September 2014.

Among the eight IB high schools, the proportion of graduates who took at least one IB exam ranged from 15.3 to 49.8 percent (Table B2). On average, nearly 23 percent of these graduates earned at least one IB score of 4 or higher. From 2012 to 2014, five of the eight high schools with IB programs—John F. Kennedy, Richard Montgomery, Seneca Valley, Springbrook, and Watkins Mill—improved both IB exam participation and performance.

The attached tables provide additional information for your review. Table A1 describes AP exam participation and performance of 2012 to 2014 public school graduates in MCPS, Maryland, and the nation. Tables A2 to A5 provide data on AP exam participation and performance for the graduates in the MCPS Classes of 2012 to 2014 by student groups and by high schools. Tables A6 to A9 provide data on AP exam participation and performance of MCPS graduates in 2013 and 2014 by high school and student group. Tables B1 and B2 provide data on AP exam participation and performance, IB exam participation and performance, and data on the AP and/or IB exam participation and performance and the attainment of college readiness scores—at least one AP exam score of 3 or higher or one IB exam score of 4 or higher—by student group and by high school from 2012 to 2014. Table B3 displays similar data to that of Table B2, but provides detailed information by student group for each high school for the Class of 2014 only.

Note. AP = Advanced Placement; FARMS = Free and Reduced-price Meals System; LEP = Limited English Proficiency. Results are reported separately for graduates who received FARMS, special education, and LEP services during Grade 12. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% are noted as ≥95.0 or ≤5.0, respectively, and the numbers of graduates and of graduates who took one or more AP exams are not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 graduates. For groups of between 10 and 20 graduates, only the percentage rate is reported.

<sup>a</sup> AP exam results reflect all scores received by September 2014.

Note. AP = Advanced Placement; FARMS = Free and Reduced-price Meals System; LEP = Limited English Proficiency. Results are reported separately for graduates who received FARMS, special education, and LEP services during Grade 12. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% are noted as ≥95.0 or ≤5.0, respectively, and the numbers of graduates and of graduates who earned a score of 3 or higher on one or more AP exams are not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 graduates. For groups of between 10 and 20 graduates, only the percentage rate is reported.

<sup>a</sup> AP exam results reflect all scores received by September 2014.

<sup>b</sup> Includes graduates enrolled in special schools during Grade 12.

*Note.* AP = Advanced Placement; IB = International Baccalaureate; FARMS = Free and Reduced-price Meals System; LEP = Limited English Proficiency. Results for MCPS American Indian or Alaskan Native and Native Hawaiian or Other Pacific Islander graduates are included with all graduates but are not reported separately. Results are reported separately for graduates who received FARMS, special education, and LEP services during Grade 12. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% are noted as ≥95.0 or ≤5.0, respectively, and the numbers of graduates who took one or more IB exams and of graduates who earned a score of 4 or higher on one or more IB exams are not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 graduates. For groups of between 10 and 20 graduates, only the percentage rate is reported.

<sup>a</sup> AP or IB exam results reflect all scores received by September 2014.

<sup>b</sup> The college readiness scores are met by attaining at least an AP exam score of 3 or higher or at least an IB exam score of 4 or higher.

<sup>c</sup> Includes graduates enrolled in special schools during Grade 12.

Note. AP = Advanced Placement; IB = International Baccalaureate. Results are not reported (--) for schools without IB exam takers. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% are noted as  $\geq 95.0$  or  $\leq 5.0$ , respectively, and the numbers of graduates who took one or more IB exams and of graduates who earned a score of 4 or higher on one or more IB exams are not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 graduates. For groups of between 10 and 20 graduates, only the percentage rate is reported.

<sup>a</sup> AP or IB exam results reflect all scores received by September 2014.

<sup>b</sup> The college readiness scores are met by attaining at least an AP exam score of 3 or higher or at least an IB exam score of 4 or higher.

<sup>c</sup> Includes graduates enrolled in special schools during Grade 12.

<sup>d</sup> Schools have graduates participating in IB exams.
