16 BEST PRACTICES OF STUDENT SERVICE LEARNING

Back BENEFICIAL OUTCOMES OF STUDENT SERVICE LEARNING
August 2014

Dear Middle and High School Students, Parents, and Guardians:

Student Service Learning (SSL) provides students the opportunity to actively participate in our community and build the skills they need to be successful students and citizens. I am proud of the thousands of SSL hours logged each year by our students.

The SSL booklet for the 2014–2015 school year provides information about the Maryland State Department of Education SSL graduation mandate. Completing 75 SSL hours is a requirement for high school graduation in Maryland. Program facts, meaningful community involvement, SSL documents, best practices, and beneficial outcomes of SSL are included in the booklet. In addition, you will find important information about the SSL approval process, SSL awards programs, the distinction between SSL and “volunteering,” tips for parent involvement, recordkeeping logs, and more. Through meaningful service-learning involvement at school and in the community, students view SSL as more than a graduation requirement; SSL is an opportunity to strengthen character, develop responsibility, learn new skills, explore careers, and develop avenues for civic engagement.

Please refer to the important information included here, on the Montgomery County Public Schools (MCPS) website at www.mcpsssl.org, and in school newsletters to determine MCPS SSL guidelines and identify the approved opportunities to meet the requirement in meaningful ways. If you have additional questions, please contact the SSL coordinator at your student’s school.

STUDENT SERVICE LEARNING: A Maryland Graduation Requirement www.mcpsssl.org
BASICS OF STUDENT SERVICE LEARNING

WHAT IS STUDENT SERVICE LEARNING?

- Student Service Learning (SSL) is a teaching method that combines meaningful service to the community with curriculum-based learning. (www.mdservice-learning.org)
- Students improve their academic skills by applying what they learn in school to the real world; they then reflect on their experience to reinforce the link between their service and their learning. (Learning in Deed)

WHO IS REQUIRED TO PERFORM SERVICE LEARNING?

- Any student in a Maryland public school earning a diploma must complete 75 hours of service, prior to graduation.
- Montgomery County Public Schools (MCPS) students may begin working on this requirement, over the summer after completing Grade 5. Hours are accrued throughout middle and high school.

WHY IS SSL A CONDITION OF GRADUATION IN MARYLAND?

- In 1992 the Maryland State Board of Education adopted a mandatory service requirement, which became effective in 1993 and has affected every graduating class since 1997.
- This graduation requirement is intended to result in students becoming life-long contributors to the community.
- The service-learning requirement is not intended to take the place of kind actions that students perform to assist family members, neighbors, or members of their faith organizations.
- Civic engagement and political participation are key elements of service learning.

WHERE CAN ONE FIND INFORMATION ABOUT THE STUDENT SERVICE LEARNING (SSL) REQUIREMENT?

- The Montgomery County Public Schools (MCPS) website: www.mcpssl.org.
- Local school system publications and newsletters.

HOW CAN MCPS STUDENTS MEET THE SERVICE LEARNING REQUIREMENT?

- Enroll and successfully complete specific middle and high school courses that use SSL activities to achieve curricular objectives during the instructional day. Note: High school courses that achieve curricular objectives through service-learning activities are identified in the MCPS High School Course Bulletin.
- Enlist in school-sponsored clubs and organizations that have a service focus and earn SSL hours for involvement outside of the instructional day.
- Participate in opportunities with community organizations that are preapproved by MCPS for SSL.

HOW SHOULD MCPS STUDENTS DOCUMENT THEIR SERVICE?

- All service for which SSL hours are desired must be documented on MCPS Form 560-51: Student Service Learning Activity Verification. All SSL forms are available on the website (www.mcpssl.org) and in middle and high schools.
- Documentation of all service is due to the school-based SSL coordinator according to specific timelines as follows:
  - Documentation of service performed during the summer is due by the last Friday in September.
  - Documentation of service performed during the first semester is due by the first Friday in January.
  - Documentation of service performed during the second semester is due by the first Friday in June.
- Students should keep copies of all their SSL documents.
THE ABCs OF STUDENT SERVICE LEARNING

APPROVAL AND AWARDS

- Organizations awarding Student Service Learning (SSL) hours must be preapproved by MCPS.
- Opportunities for which SSL hours are awarded must be preapproved by MCPS.
- Preapproved organizations and opportunities are identified with a graduation cap icon on the website (www.mcpss.org @SSL Community Opportunities).
- Organizations and opportunities not identified with a graduation cap icon require MCPS Form 560-50: Individual SSL Request (see pages 11 and 13) granted for each student in advance of service.
- MCPS Form 560-51: Student Service Learning Activity Verification (see pages 10 and 12) documents all SSL involvement.
- Documented hours are reflected on quarterly report cards.
- The Superintendent's Student Service Learning Award is given in recognition of those who meet the 75-hour SSL graduation requirement by the first Friday in April of a middle school year.
- The Certificate of Meritorious Service recognizes those who have documented 260 SSL hours by the first Friday in April of their senior year.

BENEFITS AND BEST PRACTICES

- Meaningful civic engagement helps students develop workforce ethics and leadership skills.
- High-quality SSL explores careers, strengthens character, and develops self-esteem and pro-social behaviors.
- The best practices of service learning allow students to do the following:
  - Meet recognized needs in the community
  - Achieve curricular objectives
  - Gain necessary knowledge and skills
  - Plan ahead
  - Work with existing service organizations
  - Develop a sense of responsibility
  - Reflect throughout the experience

CONDITIONS AND COORDINATION

- SSL includes phases of preparation, action, and reflection.
- The action phase may be direct, indirect, or advocacy.
- All service must be preapproved and occur in a public place, not a private residence.
- One SSL hour is awarded for every hour of service performed outside of the instructional day.
- All service must be supervised by an adult representing a nonprofit, tax-exempt organization (not a parent or relative).
- The only exception to the nonprofit rule is that SSL hours may be awarded for direct service to patients/residents in assisted-living facilities and nursing homes with advanced approval of MCPS Form 560-50: Individual SSL Request.
- All SSL opportunities must be secular (non-religious) in nature.
- SSL hours are not awarded for door-to-door neighborhood canvassing or telephone solicitation.
- There is no financial compensation provided for SSL.
- Every secondary school has an SSL coordinator. SSL coordinators promote approved organizations and opportunities, and maintain SSL records on students.
- School news programs, posters, and notices on bulletin boards keep students up to date on the location of forms, timelines for submitting and returning documents, and approved service-learning opportunities.
- With an approved MCPS Form 560-50 in advance students may earn SSL hours by serving in the campaigns of those running for public office.
## VOLUNTEERING, COMMUNITY SERVICE, SERVICE LEARNING: THE SAME OR DIFFERENT?

The Student Service Learning (SSL) program in Montgomery County Public Schools (MCPS) should not be confused with the act of “volunteering” or “performing community service,” nor should the SSL program be confused with those in other jurisdictions. The following chart characterizes the MCPS SSL program. More complete information is available on the website (www.mcpsssl.org).

—Mr. Ronnie Parrott, high school student, Montgomery County Public Schools

*The SSL program has given me the opportunity to make new connections with many different members of the community that I do not get to work with on a daily basis. As well, the program exposes me to numerous amounts of new experiences that are not available in the classroom.*
—Ms. Jacqueline Deprey, high school student, Montgomery County Public Schools

*The Montgomery County Volunteer Center is a proud partner of the Montgomery County Public Schools Student Service Learning program. The amount of service and learning that results for Montgomery County residents of all ages from this partnership is phenomenal. Hundreds of nonprofit organizations throughout the metropolitan area are assisted daily by local students participating in service-learning opportunities that address real need locally and globally.*
—Ms. Molly Callaway, Operations Manager, Montgomery County Volunteer Center

*One of the five main objectives of PTA is “To develop between educators and the general public such united efforts as will secure for all children and youth the highest advantages in physical, mental, social and spiritual education.” In furtherance of this goal, MCCPTA is an enthusiastic supporter of student service learning, both by working with MCPS and by supporting the parent communities at each local school to make their students’ service-learning opportunities rich and varied experiences. MCCPTA believes that while volunteering to fill community needs, students often become more aware of the world around them, capable problem solvers and competent workers and citizens who are more integrated into their communities. We strongly believe in giving a little time and making a big difference!!*
—Ms. Deb Lang, SSL Sub-Committee Chair, 2013–2014, Montgomery County Council of Parent Teacher Associations
