Increasing pressures on colleges and universities to ensure degree completion and job placement as measures of success make it imperative that the path to graduation is clear and that seniors receive the support needed to earn a degree and make a successful transition to life beyond college. This new edited collection describes today's college seniors and offers strategies for supporting them to graduation through high-impact educational initiatives. Contributors also address issues related to career development; workplace transitions; and opportunities for integration, reflection, closure, and ongoing engagement as students leave college. Educators charged with improving the end-of-college experience will find this an invaluable resource.
