

# Comprehensive Statewide Plan for Postsecondary Education Measuring Accomplishments

Nebraska is committed to measuring its progress toward achieving the major statewide goals through national comparisons and institutional peer comparisons. It is the aim of the *Comprehensive Plan* that, when rank order is appropriate, Nebraska will rank among the ten best states in national comparisons, and individual public institutions will rank among the five best institutions in peer comparisons. For national comparisons, ranking in the top 10 is noted by a green circle, ranking 11 to 25 is noted by a yellow diamond, and ranking 26 to 50 is noted by a red square. For peer comparisons, ranking in the top five is noted by a green circle while ranking in the bottom six is noted by an orange diamond.

Data sources: U.S. Census Bureau (educational attainment, percent of population without an associate's degree enrolled in college); U.S. Department of Education (public high school graduation rate); ACT (college readiness benchmarks); Postsecondary Education OPPORTUNITY (high school graduates going directly to college); Integrated Postsecondary Education Data System (four-year completion rate); National Student Clearinghouse (six-year completion rates); State Higher Education Executive Officers Association (state and local appropriations per FTE student, net tuition revenue per FTE student); National Association of State Student Grant and Aid Programs (state need-based grant aid per FTE student); Midwestern Higher Education Compact (family income needed to pay net price for full-time enrollment). Metrics use the most recently available data, and cohort years differ depending on the data source.
