MEMORANDUM

December 16, 2016

TO: School Board Members

FROM: David W. Christiansen, Ed.D., Deputy Superintendent/Chief of Schools

THROUGH: Dr. Robert Avossa, Superintendent

SUBJECT: **FY16 FEDERAL HIGH SCHOOL GRADUATION RATES**

On December 16, 2016, the Florida Department of Education (FDOE) released graduation rates for the State of Florida and the School District of Palm Beach County (SDPBC). The Federal High School Graduation Rate¹ includes standard diplomas but excludes special diplomas and GEDs (General Education Diplomas).²

In FY16, SDPBC outperformed Florida and six other large urban school districts and increased the graduation rate from FY15.

Summary of Results

From FY15 to FY16, the SDPBC

- Increased the overall District graduation rate (includes both District operated³ and charter school students) from 79.4% to 82.3%
- Increased graduation rates for District operated school students (85.3% to 88.3%) and remained similar for charter school students⁴ (40.3% to 39.4%)
- Increased the graduation rate for Black students by 4.6 percentage points (69.1% to 73.7%), for Hispanic students by 3.2% (76.3% to 79.5%), and for White students by 2.2% (88.5% to 90.7%)
- All but two district operated High Schools maintained or improved the Graduation Rate from FY15 to FY16.
- Three district operated High Schools (John I Leonard, Palm Beach Lakes, and Glades Central) showed increases in graduation rate of approximately 10 percentage points.

¹ In FY12, the FDOE accountability system began using the Federal High School Graduation Rate, which is a more rigorous standard than the National Governors Association (NGA) rate used previously.

² Detailed information about the Federal High School Graduation Rate is provided in Appendix A.

³ Includes students who also attended Alternative and DJJ school sites.

⁴ Both District operated school and charter school students are required to meet the Florida *Standard Diploma* requirements.

From FY12 to FY16, the SDPBC

- Increased the District graduation rate by 5.3 percentage points (from 77.0% to 82.3%), which includes both District operated and charter school student
- Maintained a higher graduation rate than that of Florida for five consecutive years
- Increased the graduation rate for Black students by 8.9%, for Hispanic students by 7.3%, and for White students by 4.1%.
- Fifteen district operated High Schools had graduation rates in excess of 90%, up from 5 in FY12.

Table 1 reports the graduation rates for the past five years (FY12 – FY16) for Florida, the SDPBC, and the other large urban school districts. Tables 2 – 4 show the graduation rates for the past five years (FY12 – FY16) for Black, Hispanic, and White students. Table 5 reports the graduation rates for the past five years (FY12 – FY16) for SDPBC District operated and charter schools. Tables 6, 7 and 8 report graduation rates for District operated high schools, charter high schools, and alternative high schools, respectively, for five years (FY12 – FY16).

If you have questions about graduation rates, please contact Mark Howard, Chief of Performance Accountability, at 434-8850. For information regarding SDPBC initiatives to increase graduation, please contact Dr. David W. Christiansen, at 649-6888, Deputy Superintendent/Chief of Schools. For questions regarding specific schools, contact the appropriate regional/instructional superintendent.

Appendix A: Federal Uniform Graduation Rate

Florida’s Change to Reporting the Federal Graduation Rate

In October 2008, the U.S. Department of Education (USDOE) issued new directives for graduation rates. These new regulations require each state to calculate a four-year adjusted cohort rate, which follows students for four years after entering the ninth-grade for the first time. The USDOE adopted this calculation method in an effort to streamline graduation rate calculations and establish uniform, accurate, and comparable rates across all states.

Starting with FY12, the school grade accountability system for the State of Florida changed from using the National Governors Association (NGA) rate to the Federal Graduation Rate. The Federal rate represents a higher standard than the NGA rate. Differences between the NGA rate and the Federal rate are described below.

		DENOMINATOR (Adjusted Cohort)	
	Cohort Adjustments (Students Removed from the Denominator)	Graduates (On-Time Graduates from the Denominator)	Non-Graduates (All Non-Graduates Remaining in the Denominator)
NGA Rate (Used for school years 2009-10 and 2010-11)	Transfers to: <ul style="list-style-type: none"> - Other public high schools (including DJJs) or private high schools - Home-education programs - Adult-education programs* - Deceased students *Adult-Ed GED diploma recipients are also classified as adult-education transfers for the NGA rate and are removed from the cohort.	<ul style="list-style-type: none"> - Standard diploma recipients - Special diploma recipients 	<ul style="list-style-type: none"> - Dropouts - Certificate recipients - HS Exit Option GED* diploma recipients - Continuing enrollees who are not on-time graduates * Adult-Ed GED diploma recipients are classified as adult-education transfers and removed from the cohort (they are not non-grads here).
Federal Uniform Rate (Used for school years 2011-12 and beyond)	Transfers to: <ul style="list-style-type: none"> - Other public or private high schools (not including DJJs) - Home-education programs - Deceased students 	<ul style="list-style-type: none"> - Standard diploma recipients 	<ul style="list-style-type: none"> - Dropouts - Certificate recipients - GED diploma recipients - Special diploma recipients - Continuing enrollees who are not on-time graduates, - Transfers to adult education programs or DJJ centers who are not standard diploma recipients
